IHE B.B.G. With all the changes and additions going on with the Big Bad Guys of Ottawa we hope there will be a change in their attitude. We would like to ask one question of this publicily supported group. Do you know, or care, what Canadian content is?

THE COUNTRY MUSIC ASSOCIATION. meets in Toronto August 6 and 7 and Harold Moon of BMI (Canada) will be the person most responsible for the handling of this conflab. This years meeting will see the largest attendance of members and officers since the CMA's inception. Guest speaker will be the Association's first President, Connie B. Gay, owner of the Town and Country network and in the running for Governor of the Virgin Islands.

IORONTO'S NEW COUNTRY CLUB: The Rodeo Room on Toronto's main drag, Yonge St., opened with an overflow crowd on July 23. Our man Donn Reynolds reports a smash opening, with headliner Gary Buck. We have a lot of C&W supporters in Toronto and with the club policy to use Canadian talent it could give some of our up to now unknown country folk the chance they have been waiting for.

THE BEAVERS: Mike Duffy of the Patriot Guardian in

Charlottetown P.E.I. has been appointed travelling promo and publicity man for this popular Maritime group. Mike phoned today from Montreal to inform us that The Beavers are gaining momentum and that appearances have been lined up for Quebec and they hope to soon move into Upper Canada. This

group has also been well received south of the border. With the amount of national promotion and the good job being done by these Eastern Canadians, we would like to call on the top DJs and PDs across Canada to give a second listen to "Chantilly Lace" by The Beavers on London and direct our message particularly to Red Robinson CFUN, Johnny Gilbert CHEX, Art Todd CKOC and Robert Gibbons CHSJ a great group of guys. The real swingers at CKPT Keith Randall, CJME Johnny Onn, CKBB Bob Smith, CHIQ Dave Mickie and CFCH Bruce Ruggles. I know I'll get cooperation from Andy Laughland CHOW, Jim Paulson CKRC,

Terry Mann CKLB and Gene Kirby at CKEY. Congratulations to CKCK Regina and CHUM Toronto who already list this deck and possibly our friend Michel Desrachers at CJMS could give "Chantilly" a listen and join a united effort. It would make this scribe very happy to see everybody united with one common aim.

RPM MADE CANADA'S NATIONAL MAGAZINE: A big thanks to Jack. Batten for his very complimentary article in MacLean's yellow pages under "Pop Music" in the August 8th edition. We have already received long distance calls, wires and letters from people who were not aware that Canada <u>did</u> have a weekly voice on the music industry. Unlike many past articles on the music industry, this one excells in accuracy and without colouring for the sake of copy Jack points out exactly the cause of RPM and the business AS II IS.

EXCLUSIVES vs THE TIRED TWENTY: If you read somewhere that certain top forty stations aren't interested in exclusive single firsts, take it with a spoon of salts. Ratings surveys (such as they are, and they differ widely) may show the station that is late with a single as being first, but if their listeners can wait for the single to make it they probably treat the sponsors product in the same way. It is our feeling that we would buy time on a station that is first with records and makes hits and customers for the sponsor with their spots. Don't eat any garbage about tired radio being top radio. Think about it.

LOW POINTS OF THE BUSINESS: Many rather poor situations have come to our attention recently in regard to recording contracts, and management contracts. To set the record straight we wish to voice our stand on contracts. In a country where our industry has no legal representation, since there are no lawyers specializing in contracts and copyrights, there is a great opportunity for incompetence and dishcnesty. In some cases it is just a lack of knowledge of the business (and this exists in even the very large companies). Someone always benefits and it isn't usually the artist. Unfortunately the artist hasn't anyone to turn to for advice. RPM has always tried to be of assistance to these people, and when the answer was not at hand we took the time to check the many people in the industry who have a vast knowledge of the business. An artist about to sign a contract often runs to a real estate lawyer who only confuses the issue by casting unnecessary

suspicion on the manager or record company. This is a business filled with technicalities. Many may only be resolved by test cases. No set standard contracts exist for management or recording. Royalties wary greatly. Leasing to another country effects contracts. Idemnification of parents in the case of minors is often a confusing issue. The validity of a contract signed without being read in the presence of witnesses is always in question. All of these things are disturbing to hear, and particularly in an industry that is experiencing growing pains. II IS ABOUT TIME someone thought about doing something to create a Canadian attorney who would make himself familiar with the legal end of showbusiness, publishing and recording. Small wonder that one of the heads of a big record office in Canada has made many an unfulfilled promise and had many contracts signed that won't hold water. Few artists demand a fair contract since they have no yardstick to measure by. A recent newspaper article further confused the issue by quoting a producers royalty that could easily be taken as an artist royalty.

HERE AND THERE: Paul White just returned from the Canadian Capitol sales convention in Mont Gabriel. Highlight of the meeting was a two hour show by Canadian Capitol artists Ross Smith, Jean Guy Desroches, Les Cailloux and The

Esquires. The latter will release an LP shortly and will also appear on the Dave Clark Show in London in November. Paul is now off to England for a pleasure-business trip. //// We hear by the bull-line that the once popular CKEY

morning team of Brady and Boliska will cut an LF "The World's Worst Jokes" on Arc. Rots-aruck fellas, join the growing band of talented DJs that are smashes on their own station but just another "Canadian attempt" at

other stations. This

cculd be a very funny LF, Bill Brady is one of the most talented morning men in the business on both sides of the parade format to Canadian radio is now the only Toronto

outlet featuring around the clock popular music and is also the only Ioronto staticn publishing a weekly music survey. Over 100,00 copies of the CHUM survey go out each week./// A good record reviewer is a hard man to find, but here's one and he bases himself in our Capital. Sandy Gardiner. with his "Platter Patter and Idol Chatter" in the Ottawa Journal makes reviewing records look easy. One complaint. Sandy is a little behind, perhaps the record companies are to blame. We only wish a man with Sandy's talent would show up in a major market./// Wouldn't it be nice to live in Vancouver with its beautiful parks and friendly people and refreshing climate, and friendly people and its fantastic scenery and friendly people....then maybe we could read about what's going on in British Columbia, in Canada's only weekly newsletter on the Music industry ..... RPM./// From time to time we hear reports about the great job the "Tall Cool One" in London is doing. We are referring to Dick Williams, popular DJ at CFPL who doesn't promote himself nationally but would rather remain a big wheel in a very small market. On the other hand, London could be a good sounding board for up and coming Canadian hits in Upper Canada. We need a young talented national with an ear, in London. How about it Dick?/// Recall a few weeks back we reported that a hotel in Binscarth Manitoba had changed its name to The 580 Hotel? Well ...another business in Binscarth latched onto the promo. It's called The 580 Plumbing and Heating Company and the letterhead invites customers to dial 580 for news and music which happens to be CKY. (sort of an "On the John, On the Spot"promotion). /// A big hello to CKY. We think we've fallen off your chart list .... again. Send us your chart
