Canadian stars firmed for Juno TVer

This year's Juno Awards will be held at Toronto's Queen Elizabeth Theatre, Monday March 24 and taped live by the CBC. The show will be telecast one hour later over the entire CBC-TV Network. Starring on the Awards show will be Anne Murray, Susan Jaks, Andy Kim Stompin' Tom Connors, Terry Jaks and the Stampedeers. Paul Anka will emcee.

Presenters for the lavishly prepared show will include Randy Bachman, of Bachman-Turner Overdrive (all members will attend) Gordon Lightfoot; the Mercey Brothers; Burton Cummings, of the Guess Who; Valdy; Tommy Hunter and Gordon Sinclair.

There will be seventeen Awards this year, comprising up to five nominees. The television portion however, will cover only thirteen, including top male and female singers and group. Stan Klees, who designed the original Juno Award, has redesigned the Award which is now a two-and-a-half foot high version of the metro-nome-shaped statuette, first awarded in 1970.

On Feb 4, 1974, RPM's Publisher and founder of the Juno Awards, Walt Grealis, in a continuing effort to solicit industry involvement in future Juno Award presentations, publicly stated: "We have agreed to the principle of moving the

Awards into television in 1975 and to include in the Awards a number of categories based on sales". He went on to reveal: "As well, we have tentatively agreed to broadening the whole Awards program....."

Shortly after the 1974 Juno Award Presentations, Klees, a consultant retained by RPM and in charge of Special Projects, entered into negotiations with CBC's John Barnes and Jim Guthro regarding televising the 1975 Awards show. It was agreed that the show would be held in a theatre setting and Klees negotiated with the CNE's General Manager, David Garrick, for the use of the Queen Elizabeth Theatre and the CBC agreed to a March 24 date for televising the event. John Thomson was detailed as producer and director of the show.

In November of last year a committee, representing the industry, was formed as an advisory committee to the Juno Awards. The committee was given the responsibility of selecting the Awards that would be televised, establishing the criteria by which performers would be selected to appear on the television program and to introduce a new concept of voting and nominations.

The committee has now become a non-profit charter association with six board members. The president is Mel Shaw. Other members comprise Greg Hambleton, Leonard Rambeau, George Struth and Ross Reynolds.

In a press release, issued by the Association, Shaw stated: "The Canadian Music

Awards Association is pleased to be working with Walt Grealis and Stan Klees of Juno Award Presentations Ltd. in presenting the Juno Awards on national television. A co-operative effort from the record companies, artists, producers, managers and various other segments of the industry will combine to make March 24, 1975 one of the most star-studded nights the Canadian music scene has ever had".

Regarding the Association, Shaw noted: "The Association is moving to establishment of the Canadian Academy of Recording Arts & Sciences encompassing membership from the entire recording spectrum from coast to coast".

The voting and nomination procedures, as put together by the Association, have appeared in past issues of RPM.

On behalf of Juno Award Presentations, Stan Klees has arranged for the services of Thorne Riddell & Co., a highly respected accountancy firm to act as scrutineers and auditors for the Juno Awards. Winners will be known only to the auditors and will be made known on stage during the presentations.

ALTA TO DISTRIBUTE FOR MOTOWN IN EAST

The appointment of Alta Music Distribution Ltd. as exclusive distributor for Motown in Quebec and the Maritimes, has been announced by Ron Newman, managing director of Motown Records Canada Ltd.

Alta Music is headed by Alain Guillemette, a French Canadian with ten years experience in the music industry. Guillemette was formerly employed with London Records. Alta, a new independent Canadian distributing company, are also distributors for Aquarius and Gamma labels, both wholly Canadian-owned.

In confirming the appointment, Newman stated, "This is a very exciting move for Motown in Canada as we have felt and for some time now that an independent distributing company, located in Quebec with French speaking management and staff would enhance Motown's overall Canadian distribution. We are very impressed with Alta's management and their honest and aggressive attitude towards promotion and sales. We also look forward to Quebec and the Maritimes becoming breakout centres in a very big way for Motown product."

"THE VIOLIN" NOMINATED FOR AN ACADEMY AWARD

The Canadian film short "The Violin" has been nominated along with four other film shorts for an academy award. The five nominees beat out fifty other films in the competition for the Oscar, with "The Violin" remaining in the running as the only Canadian entry.

Maurice Solway, the star of the film, is also the composer of the music. An album called "Music from the Film 'The Violin'" was released last year by RCA Records.

Earlier this year, the film was awarded the Marcus Foster Award for Humanities in Oakland, California, and Solway's score won the Canadian Film and Television Awards' category in Music.

Solway is a former member of the Toronto Symphony Orchestra and has been actively lecturing in Toronto schools and libraries using "The Violin" as an audio visual aid.

POLYDOR RELEASES CREATE EARLY ACTION

Polydor has rush-released "Don't Call Us, We'll Call You" by Sugarloaf/Jerry Corbetta (CL 402), marking the first time a record has been released under a newly signed pacting between Polydor and Claridge Records of Los Angeles. It has already been charted at CKRC and CJME and has been added to playlists at CKGM, CJMS, CKLC, CHUM and CFRW. Another "first" is Polydor's initial release on the Vibration label, "Shame, Shame, Shame" by Shirley & Company (VI 532). The single is charted at CJMS with playlist action at CHUM, CKRC, CHEX, CFUN and CFOM. Both releases have been getting chart action with bullets in the U.S. trades.

Polydor has also released Montrealer Judy Henderson's debut album, titled "Making Waves". "Making Waves" was recorded in Australia, where Henderson has been living for the past year, and qualifies as three parts Cancon with the exception of one tune. She is expected to be returning to Canada in the near future.

JINGLE & RECORD SESSIONS STRONG FOR THUNDER SOUND

Gail Goldman of Thunder Sound Studios (Toronto) reports the jingle business has taken a strong upward surge recently, with Larry Trudel, Tommy Ambrose, and Doug Riley of Trudel Productions providing much of the activity.

Goldman also reports that Ian Tyson has been busy producing wife Sylvia's new solo album for Capitol Records and that they have now reached the halfway mark. The studio has been the scene for producer Skip Prokop's sessions with a group called "Small Wonder" and David Essig's work with bands "Willie P. Bennett" and "Rural Retreat". John Capek is contributing to the action with his production of Attic Records' newest signing "Magic Music".

BONE APPOINTED MGR WEA B.C. BRANCH

Robert Bone has been appointed Branch Manager for WEA's west coast operation. The appointment is effective immediately. The above announcement was made by Ken Middleton, President WEA Music Canada Ltd.

Bone will be responsible for sales, advertising and product servicing of all company products in the British Columbia territory. He replaces Bill McCartney, who leaves the company, after an association of five and a half years, to go into business for himself — totally unrelated to the music field.

In making the announcement Middleton said: "The opportunity arose for Bill McCartney to fulfill a life-long dream, and although we are going to miss him immensely we are also very excited about his new venture. Bill has consistently met all challenges placed in his path by the Company and has operated a most efficient branch structure".

LONDON LAUNCHES STONES PROMOTION

London Records Canada are moving right along in their Rolling Stones promotion — a nationwide campaign concentrating on the entire eighteen album Stones catalogue. Theme of the promotion is "The World's Greatest Rock and Roll Band on London Where It All Began".

London's network of promotion people have tied in with radio stations who will be running Rolling Stones specials as well as with dealers, many of whom are now featuring in-store displays, posters and window banners. Dealers were also given a dealer incentive program that has already proved successful at the retail level.

LETTERS
to the editorHAS ANYONE HEARD
OF CKBY-FM?????????

Feb. 24/75

Since broadcasting its Country music format from the nation's capital nearly three years ago, CKBY-FM has consistently placed in the top five BBM bracket of this thirteen-station market. The immediate market of half a million people encompasses eastern Ontario, western Quebec and northern New York State. Why then is CKBY receiving such poor service from record distribution departments across the country? Why is sister station CKOY receiving country product when they have no country format?

Although CKBY is an extension of CKOY Limited, in its market it is considered a separate entity with heavy CKBY community involvement. Our hockey team may not rival the NHL for quality of play; however, the "Country Connection" is out there meeting people on and off the ice. With a hard-driving crew, we expect to better the BBM rating in months to come.

Weekly, our large listening audience is treated

"... the prophets of doom, the messengers of mediocrity, will be overwhelmed by the new generation of competent, creative, confident artisans and by all those of preceding generations who have already demonstrated their freshness of mind, their talent and their capacity for inspired leadership."

to an in-depth look at a "spotlight" album. This means roughly 25-30 plays of a specific album in one week. Several Canadians have shared the CKBY spotlight in months past and more will inevitably receive mutual exposure. Why then is one copy of a new LP or single often being mailed to CKOY Limited—Home of CKOY and CKBY?

We've said it all to the record reps and distribution departments. Is the red-tape machine breaking down between our mouths and the man who puts their product in the box? How do record companies justify missing a country music market as big as CKBY's?

McILWAINE PERFORMS
AT U.A. RECEPTION

Ellen McIlwaine claims that slide guitar takes all the limits off guitar playing, and proceeded to prove it at The Chimney, February 24th, when United Artists held a press reception for the Kot'ai artist.

She played an extremely energetic set that was a combination of powerful and complex guitar rhythms and vocals varying from intelligible lyrics to sounds that have been labelled as scat, jazz, and blues. Her repertoire consisted mostly of her own compositions and was supplemented with a couple of Jack Bruce numbers, Fats Domino's "Blueberry Hill" (which she performed on piano), and Stevie Wonder's "Higher Ground", a tune that took on new dimensions when sung in her unique fashion. Throughout the evening, McIlwaine was forced to combat feedback and over-amplification problems and became somewhat tense when the problem persisted. As a result, the tension could be felt in the audience and ultimately tended to detract from her total performance.

McIlwaine was recently signed to the Montreal-based independent record label, Kot'ai, distributed by U.A., and her initial album release for the company is "The Real Ellen McIlwaine." The record qualifies as Canadian content since sessions were cut in Montreal and the artist has been a resident of Canada for over six months. Prior to the Kot'ai album, McIlwaine had two albums out on Polydor, titled "Honkey Tonk Angel" and "We The People" KE

DAVID GEORGE
SIGNED TO A&M

David George has been signed to an exclusive long term contract with A&M Records. The well-known singer/songwriter is now a full time resident of Canada. He immigrated to Toronto from Israel via Britain several years ago and almost immediately entered the record business. He released an album, on a now defunct label, which established him in several markets.

George is now working with producer John Stewart and already has four original sides in the can. A single release is expected the first part of April. The George sound is described as "a good time combination of T-Rex and Beatles harmonies with a sprinkle of high energy rock".

"TOMMY" DRINK AND
CANADIAN PREMIERE

Polydor's promotion crew have been busy creating excitement around their soon-to-be-released soundtrack of the "Tommy" motion picture. On tap for March 21st is the Canadian premiere of the widely acclaimed movie, to which registrants of C11 will make up the bulk of the invited audience along with local media people.

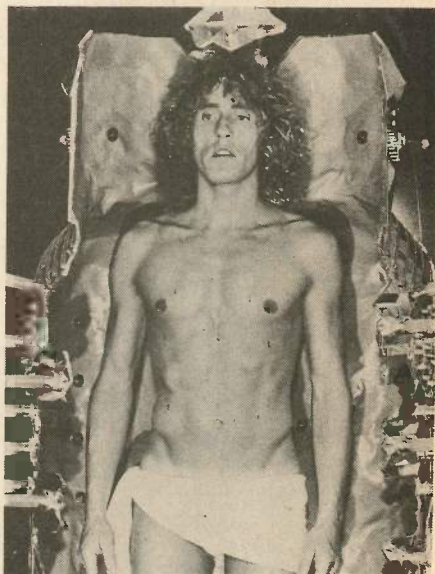

An after theatre reception has been arranged and, here too, Polydor's creative people have

The Who's Townshend, Moon and Entwistle.

been busy and will debut the new "Tommy" drink. Actually, the recipe for the drink came from Richard Sweeney, who is in charge of food and beverages at the Harbour Castle. Sweeney has already been honoured with six awards for his talent of mixing new drinks.

The "Tommy" movie came about through Pete Townshend's love of rock 'n roll and his

Young man Tommy as portrayed by Roger Daltrey.

discovery of The Who in 1967. One of the problems he discovered with rock music was the three minute restriction for records, which to Townshend was very frustrating. He was looking for a way to "stretch it a bit more, without making it pretentious or pompous and without making it sound too much like classical music."

Townshend then decided to take a series of rock singles by The Who and put them together on an album. He worked them so they presented a "cameo" situation and each selection dovetailed into the other. Both Townshend and the Who decided, halfway through the album, that they had created a musical adventure - thus the tag "Tommy", from which evolved its description of "a rock opera."

MURRAY & PETERSON WIN GRAMMY AWARDS

Canadians Anne Murray and Oscar Peterson won Grammy Awards on the televised music awards' special (1) in New York City.

Montreal-born Oscar Peterson, who records for the Polydor-distributed Pablo label, was awarded his Grammy for Best Performance by a Small Group. The Grammy was based on the Oscar Peterson Trio's "The Trio" album. Peterson resides in Toronto and is currently jazz editor of Sound Magazine.

COLUMBIA HOLDS NATIONAL SALES MEETS

Columbia executives Terry Lynd, Jack Robertson, Bert Dunseith, Julian Rice and Charlie Camilleri attended a scheduled series of cross-country sales meetings during late February and early March. The five flew to Montreal for conferences on February 19th and 20th and were back in Toronto for a meeting on February 22nd. Bob Gallo was present at the Toronto meet to preview Patsy Gallant's latest single which he produced recently at Manta Sound. Gallo also previewed a tape of his production with Dwayne Ford who was also booked in at Manta to complete his new album.

Columbia personnel were scheduled to attend further sales meetings in Vancouver (2) and Calgary (4). Following these dates, Camilleri planned to make a promotional trip to radio stations in Winnipeg (5,6) and Dunseith was due to travel to Thunder Bay.

GARRETSEN TO EXIT POLYDOR (CANADA)

Mr. Evert Garretsen, president of Polydor Ltd. (Canada), will exit this post to take on the position of general manager of Polydor B.V. in the Netherlands. His new position will become effective May 1st.

Prior to joining the Canadian operation in 1970, Garretsen was general manager of Polydor B.V. from 1966. He will continue as a member of Polydor International's Management Committee.

A successor will be announced at a later date.

NEW EQUIPMENT & ALBUM SESSIONS AT TORONTO SOUND

Terry Brown of Toronto Sound has confirmed that the studio is installing 24 track Studer facilities and says that the new equipment should be operational by the end of February.

The studio has been active with the completion of Rush's new album, scheduled for release in the near future. Brown and Rush are sharing production credits. Ian Thomas has been on hand to produce tunes for Liverpool, and Adam Mitchell along with Joe Mendelson have been co-producing Mendelson's latest album. Also finishing an album at Toronto Sound were Daffodil's Klaatu (California Jam).

COUNTRY & POP SESSIONS AT RCA'S TORONTO STUDIOS

RCA's studio manager Jack Feeney reports that several RCA acts have recently been cutting sessions at the Toronto studio. Quebec's Michel Pagliaro flew in from Montreal along with producer George Lagios to tape some February sessions and country artists George Hamilton IV and Tommy Hunter were booked for sessions with Feeney handling production duties for both acts. Hamilton recorded tracks for a special U.K. taping, while Hunter was putting the finishing touches on his new album.

Producer Harry Hinde brought in A&M's Charity Brown and Capitol's Copperpenny for sessions and Mel Shaw was in with country-rock act the Christenson Brothers. Bill Amesbury ("Virginia (Touch Me Like You Do)") also booked in to produce and record some of his own tunes for the Casablanca label.

TALENT SEEN Sammy Jo

Axe Records' recording artists Gary and Dave were chosen from over 500 entries to pilot STOL, the commuter air service between Montreal and Ottawa.

The Internal Affairs Department of the University of Toronto have decided that they may have to close down Convocation Hall, which is presently being used by local promoters for rock concerts. The reason being given is that it is unsafe. The Department feels that it is too difficult to keep the rock crowds from smoking, resulting in a possible fire trap.

GORDON LIGHTFOOT
Cold on the Shoulder
Reprise MS 2206 - P

Lightfoot's eleventh album in ten years, this set has sold more than 400,000 copies internationally in just three weeks with no let up in sight. It's no surprise really, since the album is one of his finest to date, with Canada's master composer in good voice, sounding more secure and confident than he has for some time. Lightfoot has never been derivative, he's always been in a class by himself, and this album is consistent with the steady growth he's shown in his style over the years. The tunes, as always, reflect the uncanny way he has for cutting through potentially complex emotions with simple direct lyrics. A good choice for a single (which should be released towards the end of March) might be "Rainy Day People", a cut that's been getting plenty of AM play. The melody line has a way of lingering and haunting after a couple of listens and the lyrics are words of Lightfoot comfort for anyone who's feeling a little down. Another excellent track is "The Soul Is", a

tune containing some classic lines set to an infectious up-tempo beat. Back up musicians and vocalists were well-chosen to create a cohesive, unified sound that complements Lightfoot perfectly. "Cold on the Shoulder" was produced by Lenny Waronker at Eastern Sound Studios in Toronto and was mixed at Warner Brothers Studios in North Hollywood. Just as a final note, the picture used on the album, a silkscreened photograph, is the most tasteful and attractive Lightfoot cover yet. KE

COLD ON THE SHOULDER

**GREASEBALL BOOGIE BAND
GOES WITH SHOOTER HANDLE**

Greaseball Boogie Band have changed their name to Shooter and return to the record scene with their latest GRT single, "I Can Dance (Long Tall Glasses)". The song was originally released in England by the writer, Leo Sayer, writer of Three Dog Night's "The Show Must Go On". The single reached Britain's Top five.

While at MIDEM this year, GRT's president Ross Reynolds touted the single among European and U.A. record people, resulting in negotiations for a U.S. and U.K. release. Other countries are expected to fall in line.

The Shooter single was produced by Ralph Murphy at Toronto Sound Studios. The flip, "Hole In My Soul" was written by Alan Nichols and published through Mr. Nickel Music (BMI).

**GRT SCHEDULES TOUR
AND NEW RELEASES**

GRT's newly-signed group "Brutus" has just finished sessions at Nimbus 9 studios with Jack Richardson producing. Four sides were cut for a prospective single that should be out in the near future.

Ian Thomas is off on a western Canadian tour that began in Winnipeg (8) and will wind up in Vancouver (31). The tour ties in with GRT's release of Thomas' new single "Julie", with an album titled "The Lights" scheduled to follow.

Additional early spring releases for GRT are R. Dean Taylor's single "Walking in the Sun" and two singles on Ralph Murphy's Hardcore label, for Vicki Allen and Pendleton Brown.

RON NIGRINI
Ron Nigrini
Attic LAT 1000 - K

This is Ron Nigrini's first album and it's tempting, as always, to compare a newcomer to already established artists. But Nigrini is an original, a composer who can't really be pigeonholed or labelled for any one particular "bag", although his sound is sometimes reminiscent of a "peaceful summer evening" style in a very convincing folk tradition. Nigrini sings with such conviction, you get the impression he's an actor as well as a singer. His version of "The Night They Drove Old Dixie Down", a beautiful arrangement receiving much FM play, leaves you believing that he is Virgil Caine, not just another singing minstrel recounting a civil war story. On other cuts, (all originals except "Kitty Starr"), Nigrini shows a warmth and sensitivity of thought, especially on a

track called "Horses", with a theme centering around an escape from city traffic to nature, to "gaze on a patch of laughter." In "Signs", he reveals a pleasing sense of humour that's too often missing in many of today's composers. Nigrini's melodies are easy rhythms that vascillate around country, folk, and soft rock tempos, but in the end, refuse to be defined. The album was arranged by Ron Nigrini and Dennis Murphy and was produced by Dennis Murphy at Thunder Sound Studios in Toronto. A single will follow "Letters" (his initial release, included on the album) during the first week in April. KE

Myles and Lenny as Columbia's trail blazers

It's always been a big up for me to observe a deserving act at last on the verge of the big breakthrough, finally getting the trip off where and how it matters. It's one hell of a

RPM **NUMBER ONE WITH A BULLET**
ritchie yorke

nice feeling. The other evening at the Chimney club on ghastly Yonge St., MYLES AND LENNY were feted by their label, Columbia, and given a chance to show the media where they're coming from and what they can do.

Personally I left the Chimney with no doubt that in Myles and Lenny, Columbia Canada has at last gotten its stamper on an act which absolutely cannot miss. And I don't say that lightly.

Now as everybody knows (there isn't a more frequently discussed subject in the Teronna music scene or what passes for a scene), the poor folks at Columbia have had their ups and downs with the domestic talent venture, much more of the latter than the former which is quite sad when you come to ponder the topic. After all, there can be no doubt that Columbia has put out some unbelievably-fine Canadian-made product over the past four years (for example, Space Opera — still to my mind the best album ever produced in Canada, Atkinson Danko and Ford, Tom Middleton, Roger Rodier, not to mention the fine True North stuff), but the

company appears to have had some major hassles connecting it with the vital American marketplace.

I would imagine that Columbia has invested more money in the development of Maple product than any two other major labels operating here; there's no question that the company has spent more bucks in the studio than anyone. But that all-important U.S. hit has somehow eluded them. I hasten to add that this is not a critical article, I am merely dissecting the facts as they stand. Personally I think that Columbia has, for the past two years at least, deserved an American smash more than any other major in Canada, merely as an indicator of the company's rather unique aggressiveness and desire to make something of Maple Music internationally. If effort should be equated with success, the people at Columbia are ridiculously overdue.

I cannot hope to explain why this is so, although I have heard a good many hogwash theories bandied about by people who think they know. Obviously they don't or Jack Robertson would have hired them. It's an extremely complex issue, not made any easier by inter-country corporate politics and the wangling of selfish interest. A trail remains to be blazed from Teronna to Nu York and LA, but once it's been opened up, I have no doubt that the Columbia people are going to be frequent travellers. They've got the goods. The clout is just around the corner.

TOM GRAHAM EMERGES AS TITCOMB PRODUCER

Tom Graham, well-known Toronto musician and founding member of the Big Town Boys a top-rated rock group in the early sixties, has formed his own production company. Initial release will be a single by Brent Titcomb, a progressive rock singer/songwriter with obvious folk roots.

Brent Titcomb

Titcomb has experienced much success in his writing endeavours, having written material for contemporary rock, folk and pop artists including Anne Murray's hit "Sing High". This will be Titcomb's first release as a recording artist since his days with 3's A Crowd.

Graham has five sides in the can and is currently looking for a label deal. Both Graham and Titcomb are presently on the road west, with a taping date for the Tommy Banks TVer as well as a date at Edmonton's Hovell and tentative arrangements for Vancouver and Los Angeles. Graham and Michael Craden supply backup for Titcomb's club and concert dates.

With continued hard work from everybody concerned and a little luck, I reckon that the Myles and Lenny single of Can You Give It All to Me will do it for Columbia Stateside. To my ears, this single has what it takes to go all the way. It's the trail blazer that John Williams and Bob Gallo have been seeking. It can do it.

I was delighted to hear that Can You Give It All to Me was playlisted by CKLW, the station which can fairly claim responsibility for all of the Canadian records broken internationally since 1971.

If there are no stock problems in Detroit and Cleveland, and if the Columbia promo men in the U.S. Mid West are really on the case, I anticipate Myles and Lenny landing on the American singles charts within a month. CKLW is providing the chance.

Furthermore, Myles and Lenny is the sort of act which can go down great guns on the U.S. concert circuit. I see them as a logical extension on the Loggins and Messina groove, an amalgamation of Maple mellowness with Hogtown funk, the sort of act which can launch a long career with just one strong tour under an established headliner.

The acoustics of clubs such as the Chimney do not do justice to an act such as Myles and Lenny, but I can easily envisage their sound broadened and tightened to suit the requirements of a Massey Hall-type venue to the T. I closed my eyes and imagined them tossing off those great little songs and the crazy solos before an ecstatic SRO concert audience.

Myles and Lenny have very real, very demonstrable potential. They also have a single which is what every act must have. In the music biz these days, every act is only seven inches away from fame. Myles and Lenny, and their producers, the husband-wife team of Micky Erbe and Maribeth Solomon (a most commendable production format), are clearly aware of the realities of the mid-70's music scene and the debut album is no minor triumph.

I can see and hear it all there folks, the ingredients are right and now it's down to luck and a little more effort. I really hope that it all comes through because it should. I may be a ramblin' man but I ain't no gamblin' man; nonetheless I'd bet on Myles and Lenny to do the trick.

TOBIAS ENTERTAINS PRESS AT TORONTO'S CHIMNEY

Attic Records hosted a press reception February 11th at The Chimney (Toronto), to let press and industry people in on what they felt was the exciting result of intensive rehearsal on the part of Ken Tobias and his new three-piece back up band. The

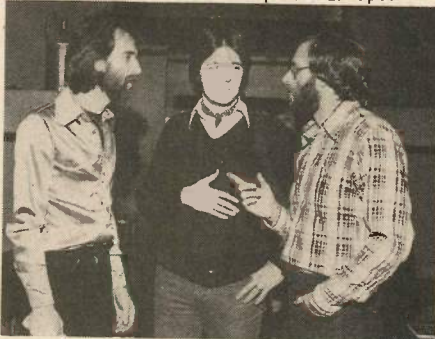

Betty Layton of BMI and Ken Tobias prolonged applause he received was a strong indication that Attic's enthusiasm was well justified.

Tobias' melodic but forceful vocals faithfully reproduced live his former hits

"Dream No. 2" and "I Just Want to Make Music," and he demonstrated his versatility by handling everything from ballads like "Lady Luck", to a high energy ecology suite called "Save the Forest" that features

Ken Tobias with Bill Compeau of CHF1 a hard driving instrumental break with Tobias on congas. Each set was made up of tunes from Tobias' own personal reper-

Wedge Munroe on drums (Formerly of Chester).

In keeping with his widespread appeal, Tobias' latest single "Lady Luck", has been playlisted on over 120 stations across Canada and is getting both contemporary and country airplay.

TURNER & SONOGRAM MAKE INITIAL PUSH

John Turner is back on the road and this time pushing his own entity, Staylor Music, and releasing on Guy Bertrand's Sonogram label. Initial single is "Feeling Of Love" a co-writing by Winnipeg's Norm Lampe and Richard Kolte and performed by Sean Fagan, lead singer for the Dublin Corporation. The single was produced at Montreal's Sound

Sonogram's Sean Fagan

Quebec by Marc Fortier. Fagan and his group open at the Friars in Toronto March 7, which is part of their national circuit.

Also on tap for Turner is a single by Joey Gregorash, "I Know We'll Make It Together", an original composition. The session was a co-production by Gregorash and Steve Skinder at RCA's Montreal studios. Gregorash, a native of Winnipeg, has just recently put together a backup group of five musicians and two girl vocalists and will bring his group into Toronto's Friars for a two week engagement commencing April 7.

ELLENSON BOOKS DATE FOR ECM'S JARRETT

Larry Ellenson, president of Round Records, enters the concert scene and makes his first attempt a jazz night at Convocation Hall on the University of Toronto campus. Ellenson has set March 21 to showcase jazz pianist Keith Jarrett who is on release on the ECM label, distributed by Polydor and on Impulse which is distributed by RCA.

Although the setting is one conducive to the rock and folk buffs, Jarrett's contemporary jazz offerings are not that far removed from the demands of today's pop and rock crowd.

The Jarrett concert is Ellenson's first entry into the concert scene, a field in which he wants to become more involved with "quality contemporary performers." Says Ellenson: "Keith Jarrett has always been a personal favourite of mine. His records sell extremely well, and he's an artist I want to help introduce to an even wider audience".

Tickets for the concert are priced at \$5.50 and are available from Round Records, Sam's, Jazz & Blues Record Shop, A & A, Simpson, and all Eaton's ATO outlets.

POLYDOR RELEASE SCHEDULE CANCON RELEASES HEAVY FOR SPRING '75 HOT FOR GRT

Richard Glanville-Brown, national press officer for Polydor Ltd., says that the newly-released single "Farewell Aunty Jack" was the biggest record of 1974 in Australia and was a strong pick in Ted Randal's U.S. tip sheet. The single is the first released in the U.S. and Canada for Grahame Bond and Rory O'Donoghue and it will be high on the list of priorities for national singles promotion manager Mark Hodes. In addition to current heavy action on "Roll on Down the Highway", "Don't Call Us, We'll Call You", and "Shame, Shame, Shame", Hodes expects strong action on Marie Osmond's "Who's Sorry Now", brother Donny's "I Have a Dream" and "Reach Out, I'll Be There" by Gloria Gaynor, who recently scored with "Never Can Say Goodbye."

For Polydor album releases, Slade has returned with the soundtrack of their new film "Flame." The group has consistently done well in Canada, more so than in the U.S., and their large following here is expected to result in the film being shown later on in 1975. Rush's album "Fly By Night" and The Five Man Electrical Band's "The Power of the Five Man Electrical Band - Their Greatest Hits" join the list of album releases for Polydor. The company has also released a special album called "Twenty Disco Hits" featuring artists such as the Ohio Players, Gloria Gaynor and James Brown.

Heavy playlist and chart action has been following in the wake of several Canadian releases through GRT. Downchild Blues Band is showing strong chart potential with the newly-released title track from their "Dancin'" album, called "Going Dancing." Shooter (formerly the Greaseball Boogie Band) is also very much a contender with "I Can Dance (Long Tall Glasses)", which is a Canadian release of the Leo Sayers' U.S. version.

On the solo artist scene, James Leroy's "Lady Ellen" has peaked at CHUM and CKLG, but is still showing upward movement on stations including CKWS, CKXL, CHAD, CKRC, CFRW and CFUN. Ian Thomas' "Mother Earth" from the "Long Long Way" album is currently No. 63 on the RPM chart and is charted at CHUM, CKOC, CHEX, CKRC, CFRW, CHED and CKXL.

CAPITOL A & R HOUSE RELOCATES IN TORONTO

Capitol's English-Canadian A & R house has moved from the former Malton location to premises at 31 Prince Arthur Avenue in downtown Toronto. A & R personnel are finding that the more accessible location has resulted in many visits from artists and other people in the industry who are stopping by to say hello and talk business. Paul White, director of A & R and his staff, are still settling in at the new premises but are extending an invitation to everyone interested in seeing the offices to feel free to drop in.

Dave Mazmanian is usually available to audition tapes in the sound room, and any prospective acts are asked to phone ahead to make an appointment.

Programming-perspective '75

When I mention that to properly program a radio station, one must continuously take a good hard look at sales and sales policies, program people jump up and down with

The Programmers **PROGRAMMING**

delight, and sales people take a good hard look at me. For some strange reason getting the twain to meet in these two areas always has been difficult, but if one is going to get the best out of both there actually should be no disagreements between them.

If one starts at the problem as it usually stands, sales has taken over the radio station, because everyone knows that profitability is all that counts. On the other side, if programming has convinced management that sales is secondary, their restrictions may be so great that profitability is impossible. If management is indecisive in the handling of the disagreement between the two departments, the station can be crippled by the two factions going after each other's throats

instead of the competition. Depending on which department one is personally involved with, there is almost always a great deal of dogmatism about which is the right way to go. Think about it for yourself at your own station, or one with which you have been involved, and you will see that the never-ending struggle continues at a large number of radio stations in Canada.

Which of the two is right? Should sales be in charge of the commercial decisions even though they affect programming? Should programming have the final say about what sales are acceptable, even though those decisions may be very costly? In my view, neither is right, yet the opinions and the requirements of each should be considered and acted upon by management that is fully cognizant of the station's needs. Ho, Ho, you say, and what about management that is sales oriented? Ho, Ho, you say, and what about management that is programming oriented? Those two questions are perfectly indicative of the need for good, solid, logical thinking by management that equates the reliance of the two departments on one another as a necessity for the existence and growth of the station.

For a simple examination of this continuing problem, let's go back to square one. First, it must be recognized that as a commercial entity - different from a public service entity - radio is a product that must be sold. As a competitive and commercial entity, it is a product that must be of high enough quality to have sales value. It is not, as so many salesmen have been led to believe, a vehicle for carrying commercials. Radio is, and must be considered, a product, just like any other product you can see, touch, taste or feel. And if it is the same, then there is good, bad and mediocre product, and the sale of the product ranges from simple to difficult. Note, I said that radio is a product, and we must be concerned with the sale of the product. Most of us are aware that this is where the basic problem originates, for in radio we are different from the chicken and the egg in that the sale of the product actually becomes part of the product. Therefore, it is almost impossible to tell which comes first. A salesman sells a commercial and puts it on the air; the program director develops a format or a program and puts it on the air. One goes for dollars, the other goes for entertainment. Without the dollars you don't get the entertainment; without the entertainment you don't get the audience, and without the audience you don't get the dollars. I have often quoted the typical

Ted Randal is an internationally-known radio consultant who is very familiar with the Canadian radio and record scene and just recently took up residence in Canada where he is acting in a consulting capacity for several Canadian radio stations. Norman Weiser is the President of Chappell Music and is a gifted speaker on all aspects of the music industry.

Monday March 24, the CBC will televise the Juno Awards from the Queen Elizabeth Theatre. The whole affair will become the music industry event of the year.  salesman as saying, "I don't care about numbers, I can sell anything". To which my standard reply always has been, "Oh yeah, try selling number seven in a seven station market."

In the final analysis, it boils down to this: As a complete entity, radio must be a viable, competitive product of quality. Included as part of the product are commercials. The quantity and price of these commercials partially determine a station's profitability. However, since commercials are also part of the product, they must form a balance that is compatible with the rest of the sound of the station. In other words, they are a necessary ingredient that forms the entire product, the sound that comes out of the speaker of the radio. Consider this logic: Too many/few newscasts, audience tunes away; too much/little music, audience tunes away; too much/little talk, audience turns away; too much/little information, etc., audience listens to another station; too many commercials, audience is driven away. In each case, balance and quality are the primary determining factors. In the case of commercials if there are too many, if they are annoying or of poor quality, they actually damage the product. The same consideration must also be given the other program ingredients, for if music, news or information is poorly or improperly handled, the end result will be poor product.

Management is responsible for the product that is put on the air, and that includes both programming and sales. Therefore, management should recognize the necessity for balance and act as liaison and mediator between the two departments. There is no other way to maximize product and profitability.

BARRIE/ANGEL/BOWER TOP U.A. CANCON PUSH

United Artists are preparing for a heavy spring push of Cancon product with several single releases. Jumping in while he is still a hot album seller, Keath Barrie continues his easy listening power with "Old Fashioned Song", a Barrie original and published through U.A. and Deer Park Music (CAPAC). The flip is "On Being Canadian", same publishing and writing credits. Canadian Zephyr are back in once again, and this time with a single, "Someone Special" that could crossover from country to pop. The plug side and flip, "Olena" were penned by John Hayman and published through Unart and Leaving Blues Music (BMIC). The single was produced by Craig Ruhnke.

The Laurie Bower Singers have a couple of goodies for the pop programmers with "Simple Song", a co-writing by Bobby Edwards and Fred Napoli and published through U.A. and Deer Park Music (CAPAC), and Billy Misener's "Just A Little Song", published through Pigweed(BMIC).

Angel, a new signing are off with their initial single release, "Winning Side", which was written by James Bertucci, former lead of Abraham's Children and now heading up this new group. Bertucci also wrote the flip side "All American Boy" and both are published through U.A. and James Bert Publishing (CAPAC).

From the Kot'ai group comes a Mahogany Rush single, "Satisfy Your Soul", a Frankie Marino original and published through Bridgeport Music (BMI) and produced by Marino at Montreal's Tempo Studios. The flip, "Buddy", also penned by Marino was produced at Montreal's Tony's Studio.

CKFH CHANGES FORMAT FROM TOP 40 TO COUNTRY

Barry Nesbitt, manager of CKFH radio in Toronto, has announced the station's cross-over from contemporary to country music. Nesbitt says that management has been contemplating such a move for some time, especially in light of the increasing number of outlets for contemporary airplay in Toronto, and the resulting fragmented audience. He points out that many MOR stations as well are playing more top 40 music.

The final decision to effect the change was made by CKFH's president, Bill Hewitt, when management agreed that the competitive top 40 airplay predominant in southern Ontario left a decision to go country a logical choice, since there is no country voice in Toronto.

Barry Nesbitt says that no specific date has been set for the change — "It'll just happen." CKFH will continue broadcasting Expo baseball games, NHL Hockey, and regularly scheduled sports features. Nesbitt hopes that the present jock lineup will remain unchanged and adds that record companies have been most enthusiastic and cooperative in supplying country product to date.

BBM SURVEY POSTPONED

In view of the unsettled situation at the Post Office, the BBM Survey which got underway Feb. 13, has been postponed. Setting of another date which will be of two week duration will be announced as soon as the mail situation becomes reasonably stable.

Peter Jones, president of BBM Broadcast Measurement, expects that the new date won't be any later than April 2nd, which will get the Easter week out of the way.

DENNETT RETURNS TO CFRB NEWSCASTS

Jack Dennett, news commentator for CFRB, returned to his regular shift (3) after recuperation from a successful cancer operation in January. Dennett had been holidaying in the Caribbean and returned just before going back on the air, to attend the hearing for the parent company's bid to take over Bushnell Communications of Ottawa. He also attended a reception for ACTRA award nominees (he has been nominated for two awards).

Dennett, whose newscast at 8.00 a.m. broadcasts to the largest radio audience in Canada, expected to resume his full schedule by the end of the first week in March. His schedule includes the 6.30 p.m. news and Sunday's "Let's Discuss It" on CFRB.

BOB CAPP SYNDICATES EASY LISTENING SHOW

Bob Capp, one of the big radio voices of eastern Canadian (Atlantic Provinces) radio, has finally found "the Utopia we all look for in this business". He is now hosting the morning show at CHTN Charlottetown, PEI. He programs "just good music", adding "It's always a joy to come to work".

Capp however, has put his pop/MOR programming expertise to good use. He will shortly begin the syndication of an easy listening show "designed primarily for play in the evenings".

The show will be available in one, two or three hour packages and will meet or exceed Canadian content requirements. Prices will vary, depending on population, station financial status etc.

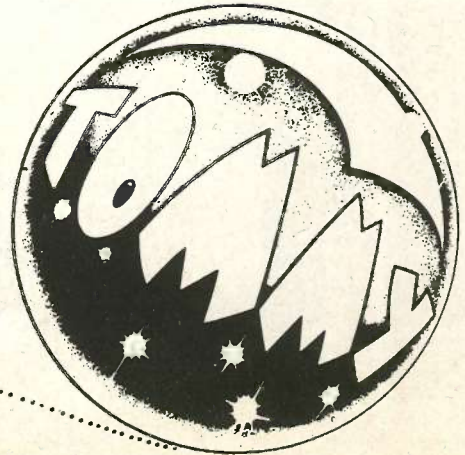

Interested programmers can contact Capp at (902) 892-8591 or drop him a line at Box 1190, Charlottetown, PEI.

The **Programmers** **TRIBAL DRUM**

The station that brought home Dick Nolan's "Aunt Martha's Sheep" and influenced the popularity of the album to the tune of 100,000 copies sold on the Island of Newfoundland - VOCM - are at it again. This time, the station's program director John Murphy has levelled his sights on the Carlton Showband's "Any Dream Will Do." The cut is from the group's album - and this one is a \$7.98 item which will make big bucks for the group if the crossover happens. Apparently the airing of the cut on the "Super Dick" show has made it an instant top ten item. Murphy also reports a good crossover pattern for Gaiety's Carroll Baker and her Conway Twitty entry of "I've Never Been This Far Before." There's a new voice at VOCM, name of Ken Raymond from CFLN Goose Bay. He'll be taking over the all night slot.

A GUIDELINE TO HOW THE RPM 100 IS COMPILED

The RPM 100 is a national chart compiled weekly from national sales and radio station airplay and chart action. The top 50 records are computed from sales and airplay.

The computation of the records from 51 to 100 is based on early airplay, chart action and regional sales and breakouts.

The chart is based on samplings from markets across Canada and indicates trends that may not be prevalent in all areas of Canada.

Shaded numbers indicate a strong upward trend and gains in airplay or sales. This chart is offered as a guide to new product and an indication of trends in Canadian markets.

The RPM 100 singles and album chart (or any part thereof) may be reproduced with a proper credit.

DEADLINE FOR ADS - TUESDAY NOON

THIS IMPORTANT AD SPACE IS AVAILABLE.

For further information phone Sammy Jo Romanoff at RPM (416) 425-0299.

I just heard about a gal who's been picked up so often, she began to grow handles.

According to the government, we're headed towards a cheque-less society . . . which isn't all that new . . . our station and the Toronto Maple Leafs have had that policy for years.

(show opener) Welcome to the (your name) show. And if you have half a mind to listen to me . . . that's all you need.

(show closer) Stay tuned for the (fellow dj) show . . . which is a lot like a Hollywood movie . . . his salary is a FREEBIE . . . AND he's THE has-BEEN.

Would an effeminate milkman be called a "Dairy Queen"?

graffiti: Stalin's grave site is a commie plot.
daffynition of an egomaniac: a person who doesn't go around talking about other people.

In these days of inflation . . . if you want to get something for your money, buy a purse.

Then there's the new Manhattan cocktail. It's made from rye and water taken from the Hudson River . . . after just one, you're completely polluted.

You can tell counter-culture business tycoons at rock festivals . . . they're the ones smoking marijuana cigars.

Now the Arabs want to buy 50% of the bankrupt Aston-Martin automobile manufacturer . . . 50%! That's a half-Aston deal.

The meanest man of the week award goes to the guy who placed a chameleon on Scottish plaid . . . the poor thing died a terrible death.

(show opener) There's Godfather II, Super-bowl IX, so welcome to the (your name) radio show . . . 847.

(show closer) Stay tuned for (dj) . . . who was great in sports when he was younger . . . he has the body of an athlete . . . of course he still has the feet.

daffynition of taxpayers: people who don't have to pass civil service exams in order to work for the government.

graffiti: The Texas Chainsaw Massacre is a real cut-up movie.

If fi

If First Class joined Reunion . . . you'd have Class Reunion.

Q: What do you call a transient resident of Swaziland?

A: A Quasi-Swazi!

Now I know how God made the earth in six days . . . there were no unions!

Paul Anka carries sound insurance.

Paul Anka is a true one-of-a-kind on the contemporary music scene, with a style and presence that's known and loved from Las Vegas to London. He takes vocal sound systems seriously—and he takes the Shure Vocal Master wherever he appears. It gives him recording studio control over live performances, feedback control, and enough amplification to cut big showplaces down to size. Best of all, though, is the Vocal Master's legendary reliability among professional entertainers. Write:
