New!
Anti-Feedback & Equalization
On the microphone!

Never before has a microphone put such absolute sound control into the palm of your hand. With Shure's new revolutionary PE5EQ E-Qualidyne Microphone, you simply preset any of four frequency switches *on the microphone* to minimize your Number One enemy—feedback. You can also select —on the spot—any one of 16 frequency response variations to tailor your performance to ANY stage: Sweeten the strings . . . enhance the better qualities of your voice . . . or eliminate close-up "boominess." Ideal where a single type of microphone will be used for different applications in the same act. Only the E-Qualidyne can offer such hand-held versatility. And only Shure has it!

A. C. Simmonds & Sons Limited

Why songwriters pick P. R.O. Canada

We're the youngest — but the largest. Why? Not so simple. There's more than one reason 7,790 writers and composers and 1,455 publishers have chosen to affiliate with the Performing Rights Organization of Canada Limited. We're proud of what we have to offer:

- P.R.O. Canada's doors are open to beginners, young songwriters without a track record. We provide a very personal service and many of our affiliates today who are Canada's most successful writers and performers can look back to their early association with us.
- P.R.O. Canada organizes workshops across Canada for people involved in music: those who create music as well as those who use it in their businesses. We also sponsor workshops for writers involved in writing for the musical theatre.
- "The Music Scene" is published by P.R.O. Canada and distributed internationally to more than 12,000 readers. Its pages are not used to promote P.R.O. Canada, but to introduce our affiliates and their music. We also publish a multitude of informational pamphlets.
- We're Canadian owned and Canadian operated, but happen to think on an international scale. Last year we opened a new International Division and this year were represented at MIDEM for the second year.
- P.R.O. Canada is constantly involved in dynamic and original projects to better the positions of its thousands of affiliates. This spring will see the 10th Annual Awards Dinner for songwriters and publishers. We're involved in recording Canadian music through our association with Melbourne Records; and our soon-to-be-announced awards programme is far-reaching enough to encompass every composition student above the high-school level in the country, and all of Canada's orchestras.

Please write or call for even more details.

MUSIC FORMAT

This chart lists Canadian AM & FM radio stations and their music formats. The chart is helpful to record companies in compiling their mailing lists to radio stations. (F) indicates French language radio stations and O indicates the radio station makes available a chart or playlist, on request.

GENERAL INFORMATION

CANADIAN MUSIC RULING

Excerpt

*Radio (AM) Broadcasting Regulations
June 24th., 1970*

12(1) At least 30% of the musical compositions broadcast by a station or network operator between the hours of 6:00 a.m. and 12 midnight shall be by a Canadian and shall be scheduled in a reasonable manner throughout such period.

(2) From January 18, 1971 to January 17, 1972, a musical composition shall be deemed to be by a Canadian if it fulfils at least one of the conditions set out in subsection (5).

(3) After January 18, 1972, a musical composition shall be deemed to be by a Canadian if it fulfils at least two of the conditions set out in subsection (5).

(4) After January 18, 1973, at least 5 percent of the musical compositions broadcast by a station or network operator between 6: a.m. and 12 midnight shall fulfill the conditions set out in either (b) or (c) of subsection (5).

(5) The following are the conditions referred to in subsection (2), (3) and (4):

(a) the instrumentation or lyrics were principally performed by a Canadian;

(b) the music was composed by a Canadian;

(c) the lyrics were written by a Canadian; and

(d) the live performance was wholly recorded in Canada.

(6) A mechanical reproduction of a musical composition that is deemed at any time to be by a Canadian continues to be so deemed thereafter.

(7) If a station operator is able to demonstrate to the satisfaction of the Commission that the application of this section would result in a significant reduction in the quality and diversity of program service within the area normally served by his station, the Commission may vary the application of this section.

(8) For the purpose of this section, a person shall be deemed to be a Canadian if;

(a) he is a Canadian citizen;

(b) he is a landed immigrant as defined in the Immigration Act; or

(c) his ordinary place of residence was in Canada during the six months

immediately preceding his contribution to the musical composition in question.

RPM WEEKLY

RPM Weekly has been published each week since its inception, February 24, 1964, by RPM Music Publications Ltd. 6 Brentcliffe Road, Toronto, Ontario M4G 3Y2 Telephone (416) 425-0257, Telex 06 22756 (RPMTOR).

RPM is staffed by a team of writers and researchers who specialize in records, music, radio programming, chart compilation and country music.

It is RPM's endeavour to report the music and record activities in Canada on a national basis. Our weekly charts and playlists are based on national trends and industry information.

RPM has never applied for nor been sustained by any grants, funding or subsidies of any kind. Revenue is derived principally from advertising. Distribution is worldwide.

THE JUNO AWARDS

Introduced in 1964, the original RPM Awards, designed to bring attention to Canadian recording talent, were based solely on an RPM readers' poll. The results of these polls were published each February in RPM.

The first RPM Annual Gold Leaf Awards were held in 1970. This was the first year when the Stan Klees designed awards were presented to winners. More than three hundred invited guests attended the gala event at Toronto's St. Lawrence Hall. RPM announced on July 25th, 1970 that a readers' contest asking for a suitable name for the awards had resulted in the nickname of Juno as a description of the RPM Gold Leaf Awards.

Each year since 1970, the Juno Awards have been an industry event. It was in 1975 when the Juno Awards became a yearly CBC telecast. The voting was given over to the Canadian Academy of Recording Arts and Sciences (CARAS) which was created by RPM.

The year 1978 saw the Canadian Academy of Recording Arts and Sciences take over the Juno Awards, to administer all aspects of the Awards.

INDUSTRY ACTIVITIES

Throughout the year, RPM presents many industry-oriented activities. Each September the Big Country Awards honour Canada's top country music stars during a two day conference. These conferences are held in different areas of Canada as determined by RPM. The Big Country Awards have become one of the most exciting happenings in the music industry.

This event will very soon be going to national television.

Other events staged by RPM include Three Days In March, a three day conference held every year; testimonial banquets to induct VIPs of the music and record industry into RPM's Canadian Music Industry Hall of Fame; and various industry and social events throughout the year.

RPM's Cancon Beaver was introduced to the industry and public in 1977. He became a daily happening at the CRIA Pavilion, designed to celebrate the 100th anniversary of recorded sound. Cancon Beaver is a seven foot tall mascot for the domestic music and record industry in Canada and makes appearances at various industry events.

It is an understatement when we say . . . RPM, where it all began.

THE RPM MAPL LOGO

With the advent of the 30% Canadian Content Ruling, RPM commissioned Stan Klees, of Stan Klees Ltd., to design a symbol that would easily identify records having Canadian content. This logo was used exclusively in RPM Weekly.

KEY TO APPLICATION OF RPM'S MAPL LOGO

Blacked-in areas indicate:

M - Music composed by a Canadian;

A - Artist featured is a Canadian;

P - Production was wholly recorded in Canada; and

L - Lyrics were written by a Canadian.

The RPM MAPL logo was so popular that many record companies requested permission to utilize the logo on record labels. Their organization, The Canadian Recording Industry Association (CRIA) requested and received blanket permission for use of the logo on all members' labels. Programmers also found the logo invaluable for cataloguing Canadian singles and albums.

RPM requests that the MAPL logo be used only in conjunction with a record title at all times and that it be used in its original size (as shown on this page).

RPM

MAGAZINE

Canada's Only Music Industry Weekly

In Canada RPM says it all!

CANCON BEAVER

To celebrate 100 years of recorded sound, RPM introduced Cancon Beaver, the symbol of Canada's domestic record production industry. In 1970, RPM coined the word Cancon, which has now become a universally accepted synonym for Canadian content. Now, Cancon Beaver, will become the friend and mascot of the growing Canadian industry. He was introduced last year at the Canadian Recording Industry Pavilion during the Canadian National Exhibition.

MAPL LOGO

Designed for RPM by Stan Klees and made available to the industry free of charge by RPM, the MAPL logo qualifies what is Canadian content on records: (M) music (A) artist (P) production (L) lyrics. You will see the MAPL logo displayed on Canadian singles and albums.

JUNO AWARDS

It was in 1964 when RPM first polled the music industry. This poll eventually became the Juno Awards. The Juno Awards are now administered by the Canadian Academy of Recording Arts and Sciences and are presented each year as a television special.

BIG COUNTRY AWARDS

Big Country is a yearly communication meeting which culminates in an Awards' banquet. These Awards honour Canada's top country stars, as nominated and voted by the country music industry in Canada.

CANADIAN MUSIC INDUSTRY DIRECTORY

RPM published the first source book of the music industry in Canada. The first edition was published in 1964. The Directory lists important information pertaining to the record, music and broadcasting industries in Canada.

COMMUNICATION MEETINGS

RPM initiated a series of meetings, held in major centres across Canada, designed to bring the radio and record industry together on common ground. Speakers and forums, dealing with both industries, are featured with institutional and social events.

CANADIAN MUSIC INDUSTRY WHO'S WHO

The Who's Who features biographies of the important Canadians in the music industry. As well, this deluxe edition gives Canadian artists an opportunity to list themselves and their achievements. This Directory is circulated throughout the world and serves to promote the Canadian music industry.

GOLD LEAF AWARDS

RPM launched the first bonifide certification of outstanding sales of singles and albums in Canada and launched the now famous, solid walnut engraved Gold and Platinum awards that were distinctly Canadian.

TALENT & ENTERTAINMENT CONFERENCE

The RPM Talent Buyers Conference is an annual entertainment and talent conference that brings the industry together to discuss ways and means of improving the business and to view talent. Launched for the first time in 1976, this conference is attended by buyers of talent from universities, colleges and high schools across Canada.
