Complete Riders Troubleshooter Manuals On A Single DVD Disc!

Tired of changing CD's? Tired of getting "that" schematic on your old radio where you can't read the values? REA has just released the first DVD-ROM publication at a break-through introductory price. REA created the first Riders Professional CD-Series that is the ONLY database driven system ever created and is the "standard" that others are judged by. Now we introduce the Riders Standard Series DVD using Riders' indexes for finding "that" schematic that you need occasionally. Priced at a very low introductory price, every collector or restorer who repairs radios should own this DVD. Requires Windows on a PC to use it. It requires nothing to download as it has its own built in digital browser that allows viewing, magnification, rotation and printing to your own printer. This DVD holds almost 120,000 of the early radio models made from 1920 to 1954. A true price breakthrough yet with no sacrifice in quality. Introductory Offer - Limited Time - A professional produced product.

**Only \$ 150 + \$ 6 S&H (Sold only on DVD) -
Introductory Price - Reg. Price \$ 199**

Other CD-ROM Publications:

Riders Professional database driven 6-CD set - now only \$ 299 or \$ 59 per CD (4 volumes/CD).

Please, no classified ads by telephone, thanks.

Your ads, renewals, letters, etc. can be handled faster and more efficiently if your name, address and SUB# are written on each.

Unfortunately, A.R.C. is not staffed to answer all letters with questions about antique radios or requests for advice. However, A.R.C. does solicit letters of interest to its readers and publishes them as space permits. (See "Publishing Rights" paragraph.)

EDITOR'S COMMENTS

It's that time again — time to celebrate a new year with its hope of better things to come, not only in the world at large, but also in our radio world. If 2003 is any indication, radio activities and auctions will continue to proliferate in 2004 and offer exciting opportunities to upgrade our collections. We can hardly keep up with the number of reports in our files waiting for publication. However, we pledge to continue to fulfill our commitment to keep you informed about everything new going on in the old radio world, whether it be auction, meet, flea market, conference, or just plain radio folks getting together.

And what event fills that description better than AWA, still the meet of the year, requiring the combined reports of Larry Babcock, Ray Chase, Ludwell Sibley, AWA itself, and yours truly. Thanks to all for their efforts. Though attendance continues to soften, this was a successful meet where the "old guard" among collectors still gathered to exchange wares and ideas, as did many new converts to our hobby.

Familiar participants, like the Chidesters on our cover, Bob Lozier, Joe Milano, and many others were everywhere, enjoying the flea market, auction, seminars, contest, and the general camaraderie. The heavy flea market activity on the first day was mindful of the good ol' Canandaigua days.

Of course the ever popular auction, which totalled \$45,000, was a highlight. Among the top items were a Canadian Marconi battery set selling at \$5,500 and an E.F. Johnson Viking Ranger transmitter at \$2,250. It is interesting to note that this latter item and a Hallicrafters SX-88 in the Estes Auction, also reported in this issue, are unusual items. Unusual items, in all categories, usually command high prices.

We try to include photos of as many of these unusual items as possible, and auction reports have become almost an extension of *Photo Review*. Many readers are primarily interested in the numbers in an auction report, but the photos help to pique general interest.

In the AWA report, prewar and postwar FM receivers are pictured in keeping with the AWA FM radio theme of the Conference. The Estes Auction photos show such rare sets as the Liberty Music Shop radio-phonograph housed in a chest of drawers and the rare Hallicrafters SX-88 that sold for the tidy sum of \$1,800.

The Estes auction, reported by the ever constant Ray Chase, included a number of items over \$1,000. Represented were such manufacturers as Western Electric, Penn Wireless, and Grebe, with top dollars going to a Scott "Sweet Sixteen" in a Warrington cabinet selling at \$3,400. We still have three more Estes auctions in our pipeline, so stay tuned.

At the other end of the size spectrum among activities is the Antique Radio Collectors and Historians of Greater St. Louis (ARCH) Radiofest Swap Meet and Auction reported by Ron Durbin. Enthusiasm counts even more than size, and this group seems to have that

in spades. Most of the trappings of a big meet were included — flea market, seminar, displays, and auction. Such events, though small, are important to the continuing strength of the radio collecting community.

Some people stand out when we think of those who have contributed much to that continuity. It's been a while since we've had an article by Alan Douglas, author, collector, and historian. We're delighted to report through his description of building an early crystal set that Alan really does make use of all those parts he picks up at flea markets. Furthermore, he demonstrates that a great deal of pleasure is derived from an early crystal set that can log in stations from Miami, Havana, and the South Caicos Islands.

Alan's article is an excellent example of the other part of our pledge — to keep you informed about the old, as well as current events. Articles that focus on the history of radio and the preservation of old radios themselves are a primary focus of A.R.C.

Photo Review carries the "early" theme further. Among the early versions of various kinds of sets are a portable tube radio and a portable transistor radio. In addition, a Kennedy Type 525 would be highly desirable to any owner of the Kennedy Models 110 or 220 receivers.

Letters in *Radio Miscellanea* convey reader excitement about A.R.C.'s success in providing them with information directly and in keeping them generally informed about our collecting world. Though people overseas receive the magazine later than in the U.S., it's good to know that they find it a pleasure. This is all great news for us as we begin another new year.

A.R.C. Benefits. Be sure to take advantage of A.R.C. benefits: a toll-free number (866) 371-0512; the Web: www.antiqueradio.com; Discover, Visa, American Express, and MasterCard accepted; books shipped free in the U.S. by book rate; and to current subscribers, a ten percent discount on all book orders.

Coming Radio Events: There are a total of 34 events listed this month: 28 meetings; swap meets in five states — New Hampshire, Wisconsin, Ohio, South Carolina, and New Mexico; and one auction. Try to make at least one event and keep in touch with fellow collectors through the long winter months.

Happy Collecting!

John V. Terrey, Editor

ON THE COVER

Our cover pictures Buford and Jane Chidester, authors of the book *Classic Cones*, selling some of their handsome wares at AWA this past August. The speakers shown are, left to right: an RCA 103 cloth tapestry speaker; a Tower "Ship Speaker"; and a Tower "Castle Cone." On the Chidesters' book rear cover, a photo reveals a major collection in their home. At AWA, they looked as if they were having such a good time that your editor decided a photo was in order.

MEET & AUCTION REPORT

Antique Wireless Association Conference and Auction Report Rochester, New York — August 20-23, 2003

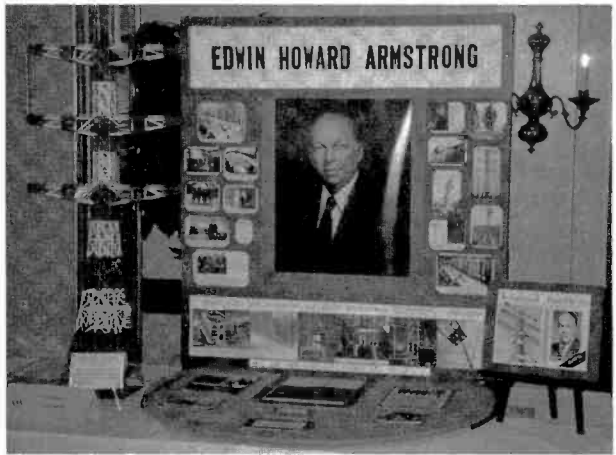

COMPILED FROM REPORTS BY LARRY BABCOCK, RAY CHASE,
LUDWELL SIBLEY, JOHN V. TERREY, AND THE AWA

The Antique Wireless Association (AWA) held its 42nd annual historical radio conference at the Rochester Institute of Technology (RIT) Inn, formerly the Thruway Marriott, in Rochester, New York, August 20-23, 2003. Although still one of the largest shows, attendance continued on a downward trend — 730 compared to 825 in 2002, 854 in 2001, and 981 in 2000.

However, many overall improvements were evident and may serve to turn things around next year. First, the accommodations are improved, as many of the rooms have the look of real hotel rooms rather than drab dorm rooms. In fact, the Conference Center states that the facility is now fully operative as a hotel from May to September; during the academic year, the North Tower is reserved for transients, while students occupy the rest of the premises.

Last year the hotel was in transition from being a Marriott hotel to becoming an RIT facility. It appears that a middle ground has been achieved, and both students and the general public can be served.

Though still a cafeteria, the dining room has

This contest entry was an excellent representation of the conference theme this year — FM Radios.

the quality of an upscale chain restaurant. In addition, a full bar was open to facilitate the sociability so basic to such an event. A more welcoming sign at the entrance to the flea market area is also a definite improvement, but it's still regrettable that the event is restricted to members, unlike the open policy of other several major meets. This change would do much to encourage new membership and insure the continuity of antique radio collecting.

In general, the Wednesday at 6 A.M. opening of the flea market was honored by all but a few. The flea market participants numbered 251, down from 288 last year, but, of course, not everyone opened up at the same time. In my annual walk-around at midday, I counted 157 vendors open, some with multiple spaces. Previous year counts were 196 in 2002 and 189 in 2001.

If we take A.R.C.'s book sales as a measurement, the drop-off was precipitous on Thursday and

Buford and Jane Chidester of "Classic Cones" fame were in the flea market peddling a few classic cones. Note the dashing hats.

Friday. Thursday sales were one-third of Wednesday's, and on Friday, the auction day, the outdoor flea market was a ghost town. The conclusion is that the flea market has become a one and one-half day affair.

However, it's important to remember that the flea market is not the only attraction at the AWA Conference. There are seminars, an old equipment contest, and activities for non-collectors as well. The seminars were all well presented and attended. Topics ranged from ephemera presented by Bart Lee to FM history by Ludwell Sibley; restoration by Marc Ellis; the German enigma cipher machine and key and telegraph, both by Tom Perera; the invention of the transistor by A.C. Sheckler; Amateur operation by John Rollins; pre-1912 wireless and electrical apparatus by Lauren Peckham; early TV by Peter Yanczer; the slide wire bridge by Dale Goodwin; and the status of radio museums by John Terrey.

Of particular interest to "significant others" was the Ladies Luncheon on Thursday noon. The speaker was Susan Brewster who shared her experiences serving on the hospital mercy ship *Anastasis*. Subscribers will remember the November 2001 A.R.C. article by Richard Brewster about his discovery of a radio museum in Rotterdam, Holland, where the *Anastasis* had docked for supplies. The Brewsters are once again on the high seas with the Mercy Ship.

Another extra and a primary reason to attend this event is the opportunity to visit the AWA Museum. Here even noncollectors must be impressed with one of the foremost collections of the early wireless years.

In addition, the Old Equipment Contest offered many interesting entries on the theme of FM radio, marking the 70th anniversary of Edwin

Joseph Milano's offering of cathedrals and other sets is now a tradition in the AWA flea market. Top to bottom; left to right, top row: Philco 60, 89 and 60; second row: a Pilot 13-tube and a Philco 60; third row: Philco 70 and 60, and a Gloritone (U.S. Apex) 32; bottom row: an RCA 96-T7, a Philco 144 and a Sparton Jr. Sets were priced from \$95 to \$450.

Armstrong's first disclosure of wide band frequency modulation to RCA in 1933. This theme was highlighted at the banquet with a "side show," on video, on Armstrong, originally put together years ago and narrated by silent key Bruce Kelly.

Geoffrey Bourne, the new president of AWA, has picked up the job of running the contest from
(Continued on following page)

A warning: Auction prices are not current values. Our selection of auction items is not necessarily complete. A listing such as this cannot adequately include the condition of cabinets, chassis, transformers, tubes, the operating status of the set, and the inclusion of incorrect, restored or replica components, etc. Auction prices are the result of the excitement of the auction process, the skill of the auctioneer and the specific interests of the participants. Nevertheless, auction prices serve as useful references and as another element in the value determining process. The possibility of error always exists, and if we are notified, corrections will be reported.

Our dauntless reporter Ray Chase hard at work.

(AWA Conference, continued)

the late Ralph Williams. Geoff seemed to be everywhere, as he works to move the organization forward into this new century and a new era of radio collecting.

The tube auction was held on Thursday evening at 8:00 P.M., Bruce Roloson auctioneer. This auction ended at about 9:40 P.M.

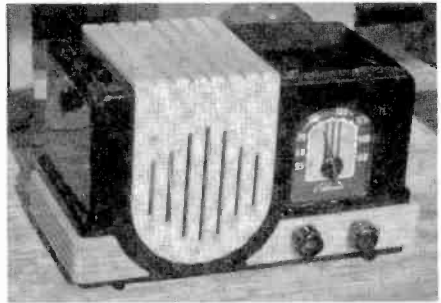

The main auction was interesting as usual but still falling off from prior meets. To make up for the loss of the communications equipment auction that used to be held on Wednesday morning, a section of the general auction was reserved for this type of item, and some noteworthy equipment showed up. The communications equipment section was held just after the paper auction and before the general auction. Otherwise, all was as usual with Bruce Roloson doing the tubes on Wednesday evening and then Walt Buffinton doing the rest on Thursday.

One sentiment that circulated was that AWA has abandoned a major selling opportunity in giving up Ed Gable's separate communications gear auction, which dates from Canandaigua times. Ed's entertaining and informed commentary made this a social event, as well as a sale, and created a lot of interaction with the audience. One result seemed to be the diminished number of items offered (35), far below the 181 of ten years ago.

In spite of the added communications equipment items, the total of lots entered in the general auction was 348 vs. 346 last year. The auction bottom line was \$45,042.50 vs. \$31,734 last year, including the five unusual "high flyer" items that accounted for \$11,850 of the total.

Surprisingly, a very good complete Atwater Kent breadboard failed to meet a reserve of \$550. An extremely nice early Canadian Marconi 3-unit battery set commanded the highest bid of \$5,500, and a Viking Ranger transmitter sold for \$2,250. The quality of the tube and paper items was well down from prior years. Although an increase in the number of items per entrant was allowed, all this seemed to do was to reduce the average quality of the items.

However, the auction crew did a fine job and everything was handled very smoothly. The auc-

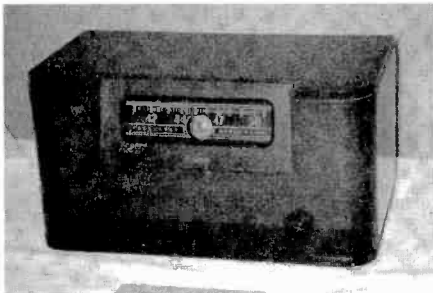

A few of the many Catalin sets in this year's flea market were these in John Sakas' setup. Above, an Addison A-2 in green and yellow priced at \$2,000. Below, left to right: three Emerson AU-190s in yellow, red and cream priced at \$1,800 to \$2,500.

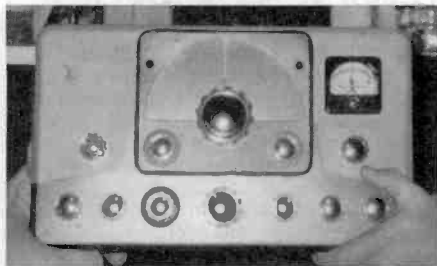

tion was concluded by 2:30 P.M. so there was ample time to check out and pick up one's items.

Be sure to put next year's AWA Conference date on your calendar — August 17-21. For those of you who may have missed this year's event due to dissatisfaction with the recent past, things have improved, and we recommend another serious try. Hope to see you there.

e=excellent, vg=very good, g=good, f=fair, p=poor, unk=unknown condition, N.O.S.=new old stock, wk=working, nwk=not working, WT=with tubes, NT=no tubes, BB=brass based, TT=tipped tube, SW=shortwave, PS=power supply, PB=push buttons, gf=good filament. All prices have been rounded down to the dollar. Some lower-priced and inadequately-described items are not listed.

Ron McClellan's entries in the contest were these FM receivers — a prewar Brewster Model B-10, left, and a postwar General Electric XFM1, right.

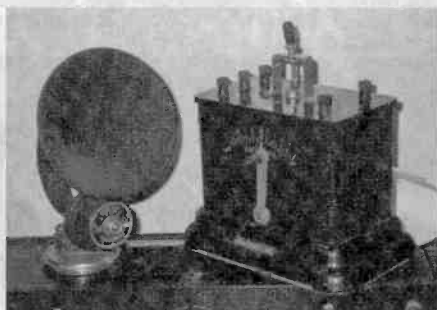

Communications equipment brought good prices this year. Upper left: an E.F. Johnson Viking Ranger transmitter selling at \$2,250; Upper right: a RME 45B receiver at \$320; Lower left: a Patterson PR-15 at \$400; Lower right: a National NC-183 receiver at \$180.

MEET & AUCTION REPORT

Antique Radio Collectors and Historians of Greater St. Louis Radiofest Swap Meet and Auction St. Louis, Missouri — September 28, 2003

REPORTED BY RON DURBIN

The Antique Radio Collectors and Historians (ARCH) of Greater St. Louis held its third fall Radio Swap Meet and Auction on Sunday, September 28, 2003, at the Rosati Knights of Columbus Hall in St. Louis, Missouri.

The fog had barely lifted, and the morning sun was just peeking over the houses, but there was already trading activity on the parking lot of the Rosati K. of C. on that Sunday morning! As soon as radios were placed on some of the tables, they were snatched up by eager buyers. Although the number of sellers was about average, the quantity of radios was pretty good, and some of the sellers came all the way from Michigan, Arkansas, and Indiana. It was good to see the familiar sellers, as well as a few new ones.

The demonstration of Undersea Cable Telegraph Transmission by Derek Cohn and Bill Plumpe was outstanding, as was the KRCH radio station manned by Mike Drown. The displays of antique TVs, an NRI kit radio, books, unique portables, and the "Hoppy" radio were all very interesting.

Perhaps the only slight disappointment of the day was the auction, as not many items were offered. I'm certain we have been spoiled by the auctioneer in the past bringing in so many radios. The day was saved by the Barlows, who contributed the bulk of the items auctioned. Even so, over \$500 was generated by the auction for the sellers. A complete financial report was presented in the November Newsletter.

A warning: Auction prices are not current values. Our selection of auction items is not necessarily complete. A listing such as this cannot adequately include the condition of cabinets, chassis, transformers, tubes, the operating status of the set, and the inclusion of incorrect, restored or replica components, etc. Auction prices are the result of the excitement of the auction process, the skill of the auctioneer and the specific interests of the participants. Nevertheless, auction prices serve as useful references and as another element in the value determining process. The possibility of error always exists, and if we are notified, corrections will be reported.

Although the event was far from being a huge moneymaker for the Club, I hope that everyone had a good time, and came away with at least one new treasure for their collections. I personally had a great time, and most folks seemed to be doing the same. I would like to thank all who helped during the day, as no event could ever be a success without good members like you helping. Many thanks to the Knights of Columbus, too!

A partial list of items auctioned follows with prices rounded down to the dollar.

The Antique Radio Collectors & Historians (ARCH) of Greater St. Louis publishes a monthly newsletter and has monthly meetings and an annual picnic/swap meet. Dues are \$12. For more information, contact Ron Durbin at the above address. www.archradioclub.org.

HOMEBREWING

Cabin Fever

A high-performance crystal set

BY ALAN DOUGLAS

We all know that "real radios glow in the dark," but in this article, Alan Douglas describes a "real radio" that doesn't. His home-brew crystal set is an excellent performer. (Editor)

It all started last February, when a notice appeared in the "Radio Classified" section of the *Antique Radio Forum* offering sound-powered headphone elements. I'd used antique Baldwin and Western Electric phones for years, with various home-brew or commercial crystal sets, but had never come across sound-powered phones which were reputed to be even more sensitive. And I hadn't done any broadcast-band DXing on a crystal set in a very long time.

Since the seller had a Crosley 50 with a wrong tuning coil, and I had a bare spiderweb form, which I could rewind to a pretty close match, I swapped the re-wound coil for a pair of sound-powered elements, originally — so I was told — from Mississippi tugboats. Apparently these phones are still used on boats as absolute backups when all power fails.

The phones arrived and did seem much more sensitive than my Western Electric 509W headset when tested on an audio signal generator. They were a little too large to fit any of my cushioned headsets, but I found a junker pair of cheap

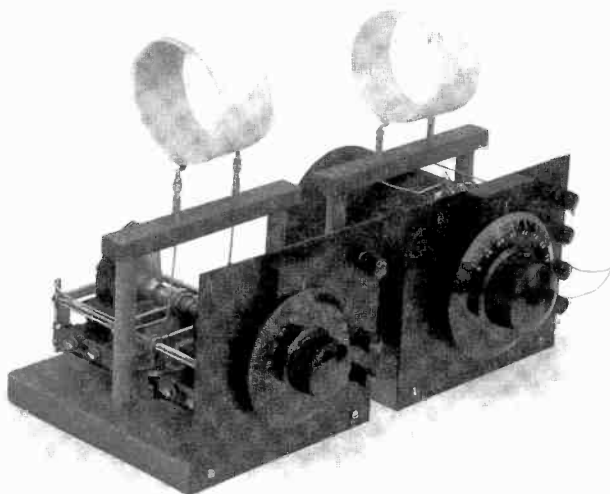

Figure 2. The two finished, home-brew units: the main tuner is shown at the right. The 2-gang variable capacitor can be seen in the antenna tuner on the left.

phones whose headband was just the right size to grip the sound-powered elements when I drilled a couple of depressions in the plastic housings.

At the February Westford Greater Boston Antique Radio Club (GBARC) Radio XXXIV show, organized by A.R.C. (gotta get that plug in), I picked up a copy of "Crystal Radio Bonanza" which is three years' worth of newsletters of the Xtal Set Society. In there, was a description of

Mike Tuggle's "Lyonodyne" crystal set, with which he has snagged many mainland broadcasters from his Hawaiian location. I remember buying some Q-meter coils from Mike just before he moved, when he was lightening his load. Mike's design is a double-tuned, loose-coupled one, using tuned circuits separately mounted on boards and physically moved around the table top to vary the coupling. I've always liked loose-coupled designs, and I thought, why not try building one to go with my new headphones?

It's an admission of defeat to actually buy anything for a project like this, so I began rooting through the junk box — a.k.a. my cellar — for suitable parts. Mike used high-quality tuning capacitors and

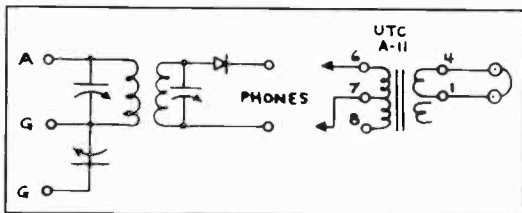

Figure 1. The schematic diagram for the crystal set shows the antenna tuner on the left. Note the two ground connections. Their use is explained in the text. The tuner/detector is shown at the center and the outboard audio matching transformer and headset connection are shown on the right. One winding of the transformer is not used.

litz-wire coils, which I couldn't duplicate, but I did find a lab-grade 0.001 mF capacitor made by Muirhead in England, in a heavy brass case with ceramic insulation, which I recall buying from a local Ham thirty years ago. I also found a new spool of 50 x 38 litz wire that I must have bought at a radio meet at some point. For the 2-gang, antenna-tuning capacitor, I came up with a 1928-vintage Camfield made in Chicago. I think Camfield sold superhet kits.

Arranging these parts and a couple of odd coils on the bench, connected by clip leads, and using the antenna I first put up around 1960, I was rewarded with sounds from the phones, so it was time to make something decent looking. A little cut-and-try (I had to splice in two extra turns) with the litz wire on a rolled-up sheet of heavy Mylar got me a coil that tuned down to exactly 530 kHz with the 0.001 mF capacitor. One of the odd coils from the junk box, an old one wound with green silk-covered wire, tuned just right as the antenna coil. To get down to 530 kHz I had to cut out the series-tuned gang, accounting for the two "ground" posts shown on the schematic in Figure 1. I use whichever gives the louder signal.

What's the saying: "If you steal from one person it's plagiarism, but if you steal from many, it's research." I did some internet research. Ben Tongue, as in Blonder-Tongue Labs, in particular has some advanced engineering data on his site. I cribbed the idea of using a selected germanium diode connected to the hot end of the secondary tuner, feeding a high-quality stepdown transformer to drive the low-impedance phones. By some fluke, I had the recommended UTC A-11 transformer; one of its windings was open despite its being new in the box, but I didn't need it anyway. [The UTC A-11 is a line to grid audio matching transformer with a 50 K Ω secondary and primary connections of 50, 200 and 500 ohms. In this application, the transformer is used as a step-down transformer.]

There is endless discussion of which detector is best, but I found by trying some germanium diodes that a 1N198 worked well. Following one of Ben's suggestions, I tried heating and cooling it and found it was optimum at room temperature, showing that its operating point is well suited to the high-impedance transformer load it was feeding.

One can try to optimize the antenna, the circuit, the coil Q, the detector, the headphones, or any combination of these. And for those who enter contests, persistence and luck play a large part too. I chose not to worry about the detector, nor to buy any \$100-a-spool, hundreds-of-strands litz wire. And I already have a good antenna, an inverted-L about 25 feet up, from the house to the barn. My ground is a 2" well pipe in the cellar, 20 feet long, 12 feet below the water table (it hasn't been used as a well for at least fifty years).

Since it appealed to me to make this set look properly antique, I used black-anodized aluminum panels, Eby binding posts, bus-bar wiring, and a National type A vernier for the main tuner. I did have to disassemble the National and grease some moving parts, but it tunes really smoothly. Since the Muirhead capacitor is straight-line capacitance, the top end of the broadcast band is

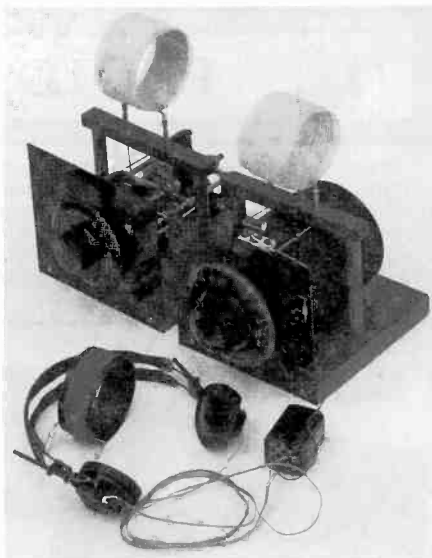

Figure 3. The complete crystal set with the out-board audio-matching transformer.

extremely crowded, so I wound another litz coil with half the number of turns to cover that range. The "top end" coil then works fine as the antenna tuner, in place of the large green-silk coil which won't get past 1500 kHz. For reference, the coils are 3" diameter; 15, 30 and 42 turns; 20, 72 and 180 microhenries. The finished crystal set is shown in Figures 2 and 3.

As for performance, this set easily has 10 kHz selectivity. Luckily, my nearest 50 kW stations are 70 miles away, and they only bother the immediately-adjacent channels. I was able in about a week of casual listening in early March to log stations on 60 out of the possible 70 channels from 530 kHz to 1220 kHz. The set will tune higher, but waiting for puddle-jumper stations to fade in and out is tedious.

My best DX from Cape Cod, Massachusetts, would be WIOD Miami, Havana on 640, and the South Caicos Islands station on 530 kHz. Some stations, of course, have been heard only on one night, when propagation is good, it is after all only a crystal set, with no amplification. For making my initial calibration, I used a Sangean DT200V pocket radio (a marvelous performer on both AM and FM!) to verify what channel I was tuned to, but the type A vernier is resettable to any frequency with no ambiguity.

For further information, I recommend starting with the references at Ben Tongue's site: <http://uweb.superlink.net/bhtongue/index.html> search for "crystal set" and follow the links.

(Alan Douglas, Box 225, Pocasset, MA 02559)

Alan Douglas, an electrical engineer, has written over 100 articles for A.R.C. and other publications. His books "Radio Manufacturers of the 1920's," Vols. 1, 2, and 3, are highly regarded resources for the radio-collecting community.

PHOTO REVIEW

This column presents in pictorial form many of the more unusual radios, speakers, tubes, advertising, and other old radio-related items from our readers' collections. The photos are meant to help increase awareness of what's available in the radio collecting hobby. Send in any size photos from your collection. Photos must be sharp in detail, contain a single item, and preferably have a light-colored background. A short, descriptive paragraph **MUST** be included with each photo. Please note that receipt of photos is not acknowledged, publishing is not guaranteed, and photos are not returned.

TELEFUNKEN ZETA CRYSTAL SET – This 1924 crystal set has a metal case and uses double tuning controls. The plug-in detector (ED149b) was made during World War I. It's not original for the Zeta but a nice Telefunken combination. (Erwin Macho – Vienna, Austria)

KNIGHT MODEL B10600-06 – This leatherette-cased portable was sold by the Allied Radio Corp. of Chicago, Ill. It is a 4-tube set using three 1½-volt batteries and a 67½-volt battery. (Ray Chase – Plainfield, NJ)

SILVERTONE MODEL 4669 – Manufactured in 1938, this large table radio is an 8-tube, 3-band receiver covering the BC and SW bands from 1.8 Mc to 10 Mc. It has a rotary telephone-style tuning dial. (Jack LaVelle – Oak Forest, IL)

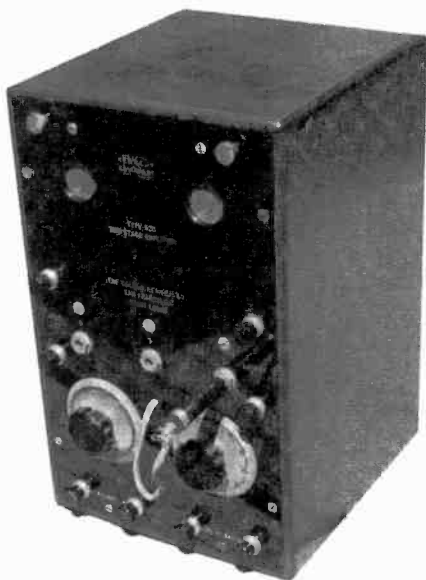

REGENCY TR-6 – This 6-transistor radio came in a leather carrying case offered in either black or brown. In 1955, it sold for \$65. (Clark Trissell – Lincoln, NB)

PHOTO REVIEW

WESTERN ELECTRIC MICROPHONE – This table microphone was one of the more widely used types of the mid-1920s and early 1930s. It has a double button pickup which is spring-mounted inside. (*Wally Worth – Wollaston, MA*)

KENNEDY TYPE 525 AMPLIFIER – This 2-tube amplifier was manufactured by the Colin B. Kennedy Co. of St. Louis, Missouri. It was made to connect to the 1921 Kennedy Models 110 and 220 1-tube receivers. (*Dave Crocker – Mashpee, MA*)

KOLSTER MODEL K-60 – This 7-tube tombstone, with a decorative Repwood-type grille, was manufactured in 1931 by the Federal Telegraph Co. of New York. This company had no connection with the Federal Telephone and Telegraph Co. of Buffalo. (*Dave Crocker – Mashpee, MA*)

PHILCO MODEL 41-280X – This 8-tube console with the "waterfall" style cabinet was manufactured in 1941. It tunes the broadcast band and three shortwave bands and has eight push buttons. (*Clark Trissell – Lincoln, NB*)

AUCTION REPORT

Estes Auction — Items from the Corbett & Haught Collections Burbank, Ohio — June 14, 2003

REPORTED BY RAY CHASE

The June Estes auction was back at the Expo Auction Center in Burbank, Ohio, where there is more room to display the goods than in the Seville facility. This auction was largely of the collection of Robert Corbett of Highlands, New York. Other items included some of those excellent home brews done by John Haught, W3GLH. Six Atwater Kent breadboards, much Ham and military gear, battery sets, and many tubes lots were offered. There was something for everyone, except maybe novelties and transistor radios. Most of the table radios were in very good condition, and, for a change, many of the consoles were restored and working.

Among the unique items were the prized Hallcrafters SX-88, which sold for \$1,800; a spectacular Liberty Music Shop 15-tube radio disguised in a chest of drawers, which was a steal at \$250; the two chassis from an RCA Berkshire for \$300; a Grebe RORN amplifier for \$1,000; a Pennsylvania Wireless receiver and a 2-tube amplifier for \$1,800; a Scott 16 in a Warrington cabinet for \$3,400; a Western Electric 3B receiver for \$2,100; a 4D receiver (both modified) for \$1,600; and the seldom found companion 2B antenna tuner for \$800. As usual, the early Western Electric tubes and hi-fi favorites commanded top dollar.

There were no early arrival sets coming in on

This great selection of Atwater Kent breadboards included some early models, along with Models 9, 10 and 12.

Saturday morning this time and a Friday evening plus Saturday morning viewing offered plenty of time for inspection. The auction ran from 10:15 A.M. to 4:30 P.M. with about 600 lots being sold. The buying crowd seemed a little light this time, but apparently there were competing radio auctions in the Indianapolis area. Total sales were in the area of \$58,000. A five percent buyer's premi-

A warning: Auction prices are not current values. Our selection of auction items is not necessarily complete. A listing such as this cannot adequately include the condition of cabinets, chassis, transformers, tubes, the operating status of the set, and the inclusion of incorrect, restored or replica components, etc. Auction prices are the result of the excitement of the auction process, the skill of the auctioneer and the specific interests of the participants. Nevertheless, auction prices serve as useful references and as another element in the value determining process. The possibility of error always exists, and if we are notified, corrections will be reported.

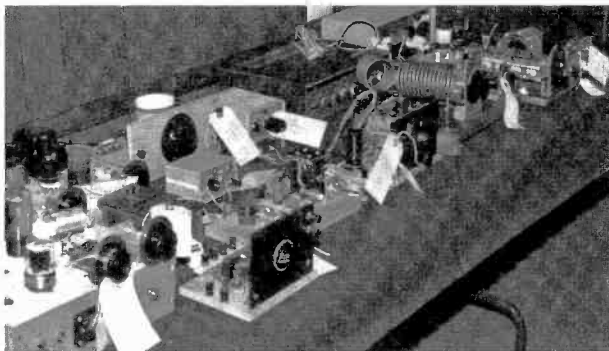

This Grunow Teledial console had a winning bid of \$200.

um was charged at this sale, but it is not included in the detailed listing below.

Prices are rounded down to the dollar. Some lower-priced items, items with incomplete descriptions, and items in poor condition are not listed.

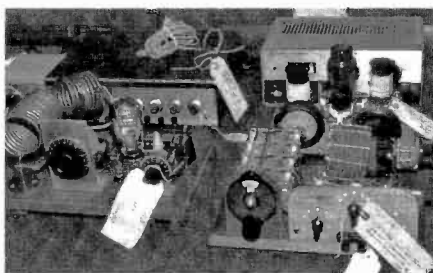

e=excellent, vg=very good, g=good, f=fair, p=poor, WT=with tubes, NT=no tubes, BB=brass-based, TT=tipped, gf=good filament. N.I.B.= new in box, wk=working, nwk=not working, PB=push buttons, N.O.S.=new old stock.

A few of the outstanding home-brew sets made by John Haught.

RADIO MISCELLANEA

"Radio Miscellanea" includes items of general interest selected from A.R.C.'s incoming correspondence. "In The Marketplace" items are based on information submitted by the businesses themselves. "From The Internet" items are obtained from internet newsgroups and other internet resources. Submitted items should be verified for accuracy; items may be edited by A.R.C. for publication, and publication is not guaranteed. See the masthead for more details.

Kroehler Follow-up

Dear Editor:

This is a follow-up to my article "Kroehler with a Twist" in the December 2003 issue. Peter Burton and Bill Farrelly responded to my request for Kroehler information and included copies of Peter Burton's October 1995 A.R.C. Ozarka article. They both believe that my Kroehler has an Ozarka chassis. There are no letters on the chassis nameplate indicating Ozarka, however.

Bill Jewel sent a picture of his Kroehler cathedral with a cabinet similar to mine. His chassis is a Viking Model 91 made by Ozarka for Kroehler. Kroehler made only cabinets, according to Bill. He also sent a schematic and chassis part placement drawing, which is almost identical to my chassis. I do believe mine is an Ozarka of some type. Our schematics differ mainly in the volume control area. Mine is the antenna circuit, and his is not.

My thanks to these fellow collectors for their help.
Jerry Wieland, Hoffman Estates, IL

A Wonderful Publication

Dear Editor:

Thanks you guys for all these years of a wonderful, informative A.R.C. publication. Please renew my subscription and send the books air delivery.

Carlos A.L. da Fonseca, Sobradinho, Brazil

Major Happenings Via A.R.C.

Dear Editor:

Keep up the good work with the magazine. It's a great way to keep up with the major happenings in the hobby. Neville Gruber, Wellington, New Zealand

We appreciate the encouragement from the other side of the world. (Editor)

A.R.C. Offers Fine Service

Dear Editor:

Thank you for your attention to my request for an address change. Also, I just wanted to say that I have been a subscriber to A.R.C. for quite a while now and am happy to report that I have, over the years, found many great buys and met a number of good folks through your ads. Many thanks for the fine service you provide collectors.

Don Andrus, Boulder, CO

A.R.C. Most "Tuned in" Mag

Dear Editor:

The radio bug really bit me hard sometime around 2000, and I've been having a great time with the old battery sets again. A.R.C. is still the most "tuned in" mag there is. I get an amazing amount of help from other enthusiasts looking to network knowledge, parts, etc. Try that trick on eBay! Love you guys.

Ward Kremer, Newport, IN

Auction Reports Pique Interest

In the Estes Auction report in the October issue, the photo caption of the RCA shortwave portables describes them as "in competition with the Zenith TransOceanics," which I have advertised for and been interested in. However, I did purchase an RCA Model 3BX-671, which has a problem with the knobs — perhaps a design problem. Maybe I'm spoiled, but the RCA doesn't have the quality of the Zenith. On the other hand, I have found a shortwave portable that is as good as Zenith, maybe even better. It's the Hallicrafters TW1000 (black version) or the Hallicrafters TQ2000 (leather version). They have the Hallicrafters quality and are basically very simple to work on.

I enjoy the auction results, and you are right, Ray Chase does a very good job. If you've ever worked on an auction, you know it's not easy. Thanks for all your good articles.

Ed Kahle, Waynesboro, VA

A Similar Experience, Anyone?

Dear Editor:

I have been a subscriber for almost ten years, but haven't had anything like the following to offer for publication before:

Recently, while working on an old radio, I was at the point of powering it up and had no audio output. I found that the output transformer had opened and no B+ was on the plate of the output tube. I just happened to note that a grid in the tube was glowing red hot. I turned it off and pulled the output tube and checked the voltages on the tube socket. The screen voltage was a bit higher than called for, and with the plate not having its normal potential, I guess the screen was getting all the electron flow. I tested the tube, and it did not seem to have suffered any damage. Has anyone else had a similar experience?

Harold Wright, Chancellor, AL

Faith in Repeated Ad

Dear Editor:

I am submitting another "Wanted" ad for a Coronado console radio with a Gamble Skogmo 807-B chassis, though I have found one of these sets for my family. I need three more of them for my remaining siblings and expect that eventually I will find them with your help and my patience.

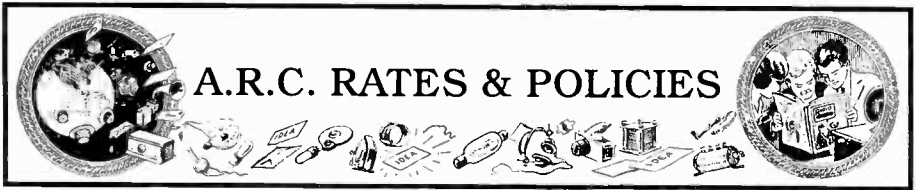

Steve Danielson, Lincoln, NE

Another Neon Radio

Dear Editor:

Just wanted you to know that I have one of those neon radios written about by Richard Arnold in the September 2003 issue of A.R.C. It is marked "Model 8802C" and "Made in Taiwan," and has no manufacturer's name on it. I bought it via the Internet.

Evan Powell, Lakewood, CA

A.R.C. RATES & POLICIES

GUARANTEE. You may cancel your subscription at any time and receive a pro rata refund for issues not yet mailed. If errors to ads are made by A.R.C., upon request a free correction will be run in the next available issue.

PAYMENT. Please send in full payment with your order or ad. A.R.C. does not carry accounts; all subscriptions, ads, etc. must be prepaid (except for the 6 and 12 month display ads indicated below). Pay in U.S. funds. Checks drawn on a U.S. bank, money orders, VISA or MasterCard (\$10.00 min.) are preferred. Make check out to "A.R.C." Cash is OK for small amounts. Canadian payers may send a Canadian check but specify *U.S. funds*. Subscriptions will be prorated to amount sent if amount is incorrect.

FAX & E-MAIL PROCEDURES/PAYMENT. Subscriptions, book orders, classified ads, display ads, etc. are welcome by fax or e-mail. Deadlines are the same as for ads received by mail. Please calculate the amount due. Payment by VISA or MasterCard is preferred if your order is over \$10. If under \$10, or if you prefer to send a check or money order, state the amount being sent and that the payment is in the mail. Do not send another copy of your ad with your payment; simply indicate that it is a fax or e-mail payment. If you want confirmation of our receipt of your fax, call immediately after sending your fax.

CHANGE OF ADDRESS. Please notify us 4 weeks in advance of a change of address. Send both your new and old addresses, and include your SUB# and effective date of your new address. Temporary address changes can be made also.

SUBMISSION OF MATERIAL. Antique Radio Classified welcomes and solicits information that pertains or relates to radio history or collecting. This may include articles, book reviews, photos, information on upcoming radio events, meetings, antique radio organizations, radio auctions, sources of old radio and restoration supplies, and other related and interesting material. All material submitted should be carefully researched, typed and accompanied by good photos, if appropriate. Computer disks are appreciated. Writing guidelines are available upon request.

PUBLISHING RIGHTS. Unless other arrangements are made: (1) All received materials (ads, articles, letters, correspondence, e-mail, photos, artwork, etc.) become the property of A.R.C., may be edited, combined with other material, published, and will not be returned. (2) For all received materials, A.R.C. is granted publishing and reprint rights in all forms of media including the monthly printed magazine, internet, etc. (3) Publication is subject to approval by A.R.C. and to time and space constraints.

MAILING OF ISSUES. U.S. subscribers can receive A.R.C. by First Class or Periodicals mail (Periodicals is the way most magazines are mailed). The mailing of First Class copies is staggered with faraway copies mailed before local copies. Non-U.S. copies are mailed on the first day. Periodicals copies are mailed on the last day. Mailing dates change each month, but mailing is usually completed by the 27th of the month. First Class copies usually are received by the 5th of the month; copies by Periodicals mail, by the 10th.

ETHICS. No person involved in the production of A.R.C. is to act on any information in the magazine until the first delivery day after local copies are mailed.

DISCLAIMER. The publisher is not responsible for any buying and selling transactions incurred, or for any other use of the contents of this publication.

Antique Radio Classified subscription rates, frequency of publication, content, policies, size and ad details, and rates are subject to change at any time by A.R.C.

DISPLAY AND BUSINESS CARD ADS • DETAILS AND RATES

The deadline is the first of the month for display and business card ad artwork, payment and repeat requests.

Advertising is accepted only for early items related to radio, communication, etc. All items must be described fairly; reproductions, reprints and not-original items must be so identified. Advertisers must agree to respond promptly to inquiries and orders, to resolve problems promptly if the buyer is not satisfied, and to comply with a buyer's refund request on unaltered returned items.

Advertising must be prepaid, except as noted below; see "Payment" paragraph above for details. Late ads will be run only if space and time permit. **Originals must be the artwork size listed below.** Send all artwork on disk or ask us to typeset it for you. Do not send in artwork on art board or send negatives. Please call for instructions on how to send your electronic ad. If used, reverse type must be limited to 25% of the ad. If you want us to prepare your ad, include the one-time cost below for A.R.C. to make up the ad.

Add \$16.00 per photo for screening unless part of an existing electronic ad. **Do not cut or trim photos or glue photos to artwork; submit separately.**

If you are confused by these requirements and terms, please

contact A.R.C. before beginning to prepare your ad. We will be happy to advise you on your ad ideas, estimate how much the ad will cost, recommend an ad size, etc.

We assume that advertisers want all ads which are submitted to run without delay; therefore, we will run the ad and bill for any additional work required for the ad to meet these specifications. A late ad will run beginning with the next month. "Tear sheets" will be sent only for 1/8-page or larger ads and only if requested when the ad is submitted.

First business card per advertiser is at lower rate.

The 3-month rates represent about an 11% discount, the 6-month rates 23%, the 12-month rates 30%. Placement requests: add 15% but call first. Clubs: write for discount policy.

A.R.C. RATES & POLICIES

CLASSIFIED ADS • DETAILS AND RATES

ONE FREE 20-WORD AD for subscribers in each issue; additional words are 29¢ each. See details below. Classified ads sent by mail, fax, e-mail or by any other method must be received (not just postmarked!) by **Noon Eastern Time** on the classified ad deadline date to guarantee inclusion in the current issue. Late ads are held for the following issue. Please enclose correct payment with all ads. Cash is OK for small amounts. (Canadian and other foreign advertisers, please see "Payment" on opposite page for methods.) "Free words" cannot be accumulated from month to month; free words must be requested when ad is submitted.

Faxed & e-mailed ads: Please see additional information on opposite page.

When including ads with other A.R.C. correspondence, write the ads on a separate piece of paper. Include SUB# with ad. Ads may be sent in advance; but, write each ad on a separate piece of paper and indicate the month (or successive two months) you want the ad to run.

To minimize our typing errors: Please write legibly. Use both capital and small letters. Do not use a dash between numbers. Carefully write the following numbers and letters (especially in model numbers) since some can look alike; for example 1, I and l (the number one, the capital i and the small l.) Also: 0, O, o, Q and D; r and n; 6, b and G; V, U, u, v and Y; A and R; 5, S and s; 2, Z and z. We try to correct spelling errors, so when using an uncommon word or manufacturer which we might mistake as a more common word or manufacturer, note it so that we do not "correct" it. Editor's annotations are in [brackets].

Advertising is accepted only for early items related to radio, communication, etc. All items must be described fairly; reproductions, reprints and not-original items must be so identified. Advertisers must agree to respond promptly to inquiries and orders, to resolve problems promptly if the buyer is not satisfied, and to comply with a buyer's refund request on unaltered returned items.

The publisher reserves the right to edit ads without notification to the advertiser and to reject ads for any reason. Names other than the advertiser will be edited out of ads. Ads with non-radio-related items will be returned or edited unless the non-radio-related items are for trade of radio-related items, or they are incidental to and appear at the end of an otherwise acceptable ad. The publisher is not responsible for errors due to illegibly written ads or for any other reason. See also Publishing Rights on opposite page.

Clubs: Since club activities receive free coverage on the *Coming Radio Events* pages, the free 20 words may not be used for club activity ads. A discount on display advertising is available for clubs.

CLASSIFIED AD DETAILS

Deadline: NOON ET— 10th of the month!

Classified ads must have a standard heading such as **WANTED, FOR SALE, FOR TRADE, FOR SALE/TRADE, SERVICES, MESSAGE, HELP, AUCTION, MEET, FREE.** This heading is the only bold or all-capitalized words allowed in the ad. Capitalize only manufacturer names, model names, etc. This standard ad format makes scanning the ads easier.

Before writing your ad, please look over the ads in a recent issue of A.R.C., and try to write your ad in the same style. Full name (or company name) and address is required in all classified ads; we will add it if you forget.

Classified Ad Rates per Month

Subscribers:

- First 20 words: **FREE***
- 29¢ per word for extra words over 20 plus
- 10¢ per word for a shaded ad (count all words including free words).
- * Subscribers may take 20 free words on only **one** ad each month.

Non-Subscribers:

- 47¢ per word plus
- 10¢ per word for shaded ad.

Please do not forget to send in the extra 29¢ per word when your classified ad runs over the free 20 words; your payment will be appreciated, and it will help to keep A.R.C. healthy.

BOXED CLASSIFIED AD DETAILS

Deadline: 1st of the month!

Boxed classified ads can run unchanged for three months or more. No words are free. Ads may be shaded and may include bold and all-capitalized words freely. The ad need not begin with "For Sale," etc. Minimum run is 3 months, prepaid. Discount: 10% for 6 months; 20% for 12 months.

Boxed Classified Ad Rates per Month

Nonshaded ads:

- 40¢ per word for all words,* none free. **plus**
- 10¢ per word for each bold word **plus**
- 10¢ per word for each all-caps word.

Shaded Ads (All words are bold at no charge):

- 50¢ per word for all words* **plus**
- 10¢ per word for each all-caps word.

Non-Subscribers:

- Add 20¢ per word to above costs.

*Three words can be bold-all-caps at no extra charge.

PHOTO & DRAWING DETAILS

**Deadline: 1st of the month
for all ads with drawings or photos!**

Drawings and photos are encouraged as the response to your ad is much larger and the reader knows better what you want or are selling. Send in your drawing or photograph, and A.R.C. will reduce it or enlarge it as needed.

Photo and Drawing Rates per Month

\$23.00 per month for each photo or drawing
(If ad is canceled, this amount cannot always be refunded.)

CHANGES & CANCELLATIONS

Please check your ads carefully before sending them in. Once ads are received, it is not always possible to refund the amount sent, pull the ad or make changes.

IMPORTANT — COUNTING WORDS — IMPORTANT

The standard headings: **WANTED, FOR SALE,** etc., count as **one word** each time used in an ad. **Name, address** and (one) **telephone number**, count as **6 words**, regardless of length. Ham call letters and business name can be included in the 6 words and do not count extra. Full name (or company name) and address is **required** in all classified ads. Each additional word, abbreviation, model number or number group, extra telephone numbers, fax, e-mail, etc. count as one word each. Hyphenated words count as two words.

The Carolinas Chapter of the Antique Wireless Association

28th. Annual Conference

"Spring Meet in the Carolinas"

-- Thursday - Friday - Saturday --

March 25-26-27, 2004

Charlotte, NC

- **The Sheraton Airport Plaza Hotel** -

I-85 @ exit 33, the Billy Graham Parkway

> Our 9th. year in the same GREAT location. <

For CC-AWA group rate make your reservations directly with the Sheraton
by call 704-392-1200, or via email by visiting our web page at CC-AWA.ORG.

***There will be NO Buying, Selling, Trading, or Displaying of
Merchandise before 8AM Friday March 21st.***

Due to the rising cost of hosting this event we have been forced to increase some fees,
we hope you understand. Your staying at the Sheraton during the event will help with this too.

CONFERENCE FEES	In Advance	At the Door
GENERAL ADMISSION ---	\$10 each -- (spouses free) -----	\$18 each
VENDOR SPACE RENTAL ---	\$25 for FIRST space ----- \$20 for each additional space -->	\$30 each

RADIO XXXV

Biggest Show on the East Coast ★ Same Giant Location

★ Last Year's Show Sold-Out ★

797 Attendees ★ 75 Exhibitors ★ 7,900 Square Feet ★ 110 Tables

An Indoor Old Radio Flea Market

Sunday, February 15, 2004 — 8:00 AM till 1:00 PM

Registration begins for all at 7:30 AM

\$8 admission (spouse & children free) – Exhibitors see below.

Westford Regency Inn — Regency Room — Westford, Mass.

(I-495 at Exit 32 — directions below)

Refreshments will be available.

Informal Dinner – Sat., Feb. 14th, 7 PM to 9 PM – No reservations needed – Dutch

Yangtze River Chinese Restaurant — 2.2 mi. west of Westford Regency on Rt. 110.

Visit John Terrey's Collection of Early Radio & Wireless

Sunday 1:00 pm - 3:00 pm 5 mi. from meet. Over 600 items on display!

Pre-registration & Info.: A.R.C., P.O. Box 2-W20, Carlisle, MA 01741 – (866) 371-0512 – arc@antiqueradio.com

Exhibitors: \$8 per person for admission plus \$26 per table. Table sizes and location assigned on a first come-first serve basis. Early registration is recommended in order to obtain space in the main hall. Last year's exhibitors may reserve the same location as last year if we receive their paid registration by February 1, 2004. Adjacent rooms will be used for overflow. Four table limit per exhibitor. Exhibitors must occupy tables for entire show. Tables unoccupied 15 minutes prior to the end of the show will not be eligible for early reservation of the same location in 2005. Exhibitors may register at the door or may pre-register by mailing payment to: Radio XXXV, c/o A.R.C., P.O. Box 2-W20, Carlisle, MA 01741. (Make check/MO to A.R.C.; Visa, MasterCard, Discover, American Express OK, too.) If paying by credit card, exhibitors may pre-register by calling (866) 371-0512 or faxing (978) 371-7129. **Note:** After picking up registration materials at the registration desk, exhibitors may enter the hall only to deliver goods to their table (e.g. not to set up) and then must return to the foyer until the doors open for everyone at 8 AM. **Cancellation Policy:** Table fee will be refunded only if requested and the table is resold. If a table is not occupied by 9 AM, a table may be cancelled and resold.

Overnight stay: Westford Regency Inn at 1-800-543-7801. Mention Radio XXXV for special rates. Room reservations should be made by January 31, 2004 for special rates. Bring your family to enjoy indoor pool, health club, racquetball courts, three restaurants, bar, etc. Night skiing at Nashoba Valley Ski Area, only 2 miles away!

Directions: From I-495, take Exit 32. Follow "To Rt. 225" sign. At stop light, turn right onto Rt. 110-West for 0.4 miles. The Westford Regency is on the right. Use doors on right (north) side of Inn. Ramps at both show entrances! The Westford Regency Inn and Conference Center is a 193-room hotel with 3 restaurants and over 500 parking spaces. With over 20,000 square feet of conference space, we have room to expand our future radio meets!

Tom Harris Auctions Presents

The Traditional Spring 2004 Radio Auction

April 3rd @ 10:00 am in Marshalltown, Iowa

After my June 2003 purchase of the real estate and other assets of my parents, Gene & Donna Harris who have been antique & collectible auction specialists for over 50 years, I will be continuing the great tradition of specialty Radio Auctions every April. Annually or semi-annually I have held over 30 Radio related auctions and am eagerly looking forward to another great one. Please come join us for this all day event!

We are constantly traveling across the country picking up antiques and collectibles for our upcoming sales, so call us if you need us to transport your quality items. One item or an entire lifetime collection—no sale is too small or too large for us to handle. We are a full service auction company and together we will build a package of services to fit your needs. My professional auction team and I look forward to serving you in the future.

A 10% Buyers Premium will be added to the purchase price of all items sold in this Auction.
13% Buyers Premium on all Absentee Bids

Auctions of All Types Including - Radio - Antique - Fine Arts - Estates - Collectibles
Real Estate - Convention & National Meet Auctions
Professional Appraisals & Seminars also available

COLLECTORS - HEIRS - EXECUTORS - PROBATE ATTORNEYS

We can customize a commission rate and package of services to cater to your specific needs. We will travel nationwide to hold auctions or pick up fine collections.

*** We provide Full Service to the United States from Iowa ***

** Finders Fees Paid for Successful Referrals **

** We are always looking for High Quality Collections and Consignments of:
Antique Lamps - Toys - Clocks - Furniture - Advertising Items - Art Pottery - Coins
Primitives - Aladdin Lamps - Guns - Art Glass - Cut Glass - Civil War Items - Artifacts
Dolls - Arts & Crafts - Textiles - Vintage Clothing - Bronzes - Decorative Arts - much more!

We specialize in Estates and Large Collections - 30 Years Antique Experience
Free Consultations - Great Commission Rates - Worldwide Marketing including the Internet

FOR SALE: 1958 RCA color TV, 21CD8845M, fair condition, no picture, spare chassis – BO. Bob Baker, 2151 Oakland Rd. SPC 556, San Jose, CA 95131. E-mail: bcd_baker@worldnet.att.net

FOR SALE: This is an opportunity for addicted collectors/dealers within a reasonable distance from my humble abode in Littleton, Mass. I do not plan to even think of shipping the following items; they are for those who live nearby, and know a good deal when they see one. Photos of all items are available upon request. Please call for further info, or to schedule a time to come on down. Silvertone Model 6495, late 30s or early 40s. A truly hidden radio console that appears at first glance to be a nice piece of blonde furniture, with a top drawer and two storage units beneath; The drawer pulls down, revealing a nice radio with slide rule dial and pushbuttons, excellent condition, works – \$195. Voice of Music Corporation Model 627-2, a life size antique school desk reproduction in exc condition, with ink well and pen/pencil tray. When the slant top is raised, you won't find books and a lunch box - but you will find instead a fine radio/phonograph in good working condition, another quality hidden radio seeking a nice home – \$175. RCA Radiola Model 106 floor model tapestry speaker, cabinet very good, all tapestry, center and sides well preserved, untested – \$295. Philco Model 20 cathedral, cabinet good, untested – \$125. Ware Electric Type SB cathedral, cabinet good, grille cloth poor, untested – \$110. Viking Model 91 cathedral, cabinet OK, except for one veneer chip, and veneer stress where flat peak and slope meet, works – \$110. Crosley Tridyn Special, Type 1122 (long rectangular cabinet), cabinet is solid, has two veneer chips on cover, moulding on left front corner is damaged. Front panel is complete, nice, audio trans. OK, w/out tubes, has Crosley labels. This set would make a nice winter project and is worth the price, at \$30. David Grimes Type 5B, Serial #7310. Operating instructions on inside cover. Cabinet has a couple minor dings, but is solid. Major white metal damage on side chassis framework. Has been patched with sheet metal. Front panel is complete, nice, but the left hand variable condenser is extremely loose, w/out tubes, whether you restore this set, or salvage it for its many good parts, it is a bargain at – \$35. Reminder; all the above sets are pickup only - no shipping. Dick Desjarlais, Dick's Radio Days, Box 629, Littleton, MA 01460. (978) 486-9018. E-mail: Dicksradiodays@webtv.net

FOR SALE: Sodian DR6, amp, phones & cabinet (works) – \$1,850. WE 7A amp complete & original, very nice – \$525. Stu Mount, 35 Grand St., Highland, NY 12528. E-mail: jensdad@webtv.net

FOR SALE: Antique radio schematics plus data still only – \$3 ppd. Joseph R. Forth, 119 Long Vue Acres Rd., Wheeling, WV 26003-1853. Fax: (304) 277-3154. E-mail: wa2trt@ovis.net

E.H. Scott... The Dean of DX, the definitive book on the E.H. Scott Company for over 15 years, has been revised and expanded by author Marvin Hobbs with the assistance of John Slusser of Radio Daze Press. This is a "must have" book for any E.H. Scott enthusiast. 8 1/2 x 11", 240 pages.

\$29.95 – Softcover

E.H. Scott.....

The Dean Of DX

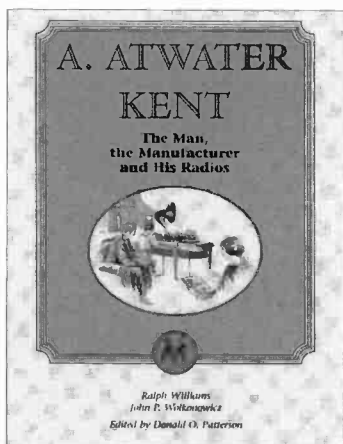

A History
Of

Classic
Radios

By Marvin Hobbs - Scott Chief Engineer 1939 - 1947

Expanded Second Edition

A. Atwater Kent The Man, the Manufacturer and His Radios

BY RALPH WILLIAMS AND
JOHN P WOLKONOWICZ

A compilation of the articles on Atwater Kent which were published in *Radio Age* by Ralph Williams in the 1970s. Covers 1920s Atwater Kent sets. Also included is John P. Wolkonowicz's 1976 article *WPI's Forgotten Millionaire*. This is a "must have" book for any Atwater Kent enthusiast. Donald O. Patterson, Editor. 8 1/2 x 11", 108 pages.

\$25.95 – Softcover

**Everything stocked and shipped promptly — Radio is our middle name.
FREE SHIPPING — 10% Discount for Subscribers**

A.R.C., P.O. Box 2, Carlisle, MA 01741 – Toll Free: (866) 371-0512

Fax: (978) 371-7129 – E-mail: ARC@antiqueradio.com – Web: www.antiqueradio.com

Free shipping & handling on all U.S. orders (typical U.S. order will be received within 7 days, but allow 2-3 weeks). Mass. residents add 5% sales tax. Non-U.S. orders, write for shipping costs, or use credit card and specify air or surface (allow 2-3 months for surface shipping). Most orders shipped by next business day. If using credit card, include name on card, card number and expiration date. Send payment with order. Money back return policy.

Subscribers, ask for discount when placing order: 10% off books; order must be mailed to address on file.

(#33-Feb03)

WANTED: BC-314 or BC-344 military receiver. Allan H. Weiner, 97 High St., Kennebunk, ME 04043. (207) 985-7547. E-mail: wbcq@gwi.net

(#25-Dec-02)

Price Guides from Radiomania Books By Mark V. Stein

The Machine Age to Jet Age/Tabletop Radio Series

The continuing series of vintage radio pictorial reference and price guides. Each volume is a supplement to the others with virtually no overlap among the three. Over 10,000 vintage tabletop radios are individually described and valued.

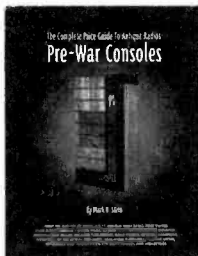

Volume 1: 2,500 radios. Black and white photos. Updated with 2003 market values. Includes master index for all three volumes. 239 pages. \$29.95

Volume 2: 2,700 radios. Black and white photos. 16 page color insert. Updated with 2001 market values and hundreds of variations not previously included. 372 pages. \$28.95

Volume 3: 3,000 radios. Tube and band-count information. Black and white photos. Includes 2001 market values. 256 pages. \$29.95

Volume 4: 2,500 new radio listings. 1,500 new illustrations. B&W photos. 239 pages. \$29.95

The Complete Price Guide to Antique Radios Series

Pre-War Consoles

Identification, grading, and current market values for 3,500 models focusing on the period from 1930 through the end of pre-war production in 1942. Tube and band-count information and variations. Expanded resource section. B&W photos. 240 pages. \$29.95

Sears Silvertone Catalogs 1930-1942

Current market values for 1,000+ radios. Original advertising, options, specs and pricing. Historical preface. Manufacturer source code table. Full model cross reference with tube and band counts, variations, cabinet materials and colors. B&W photos. 240 pages. \$34.95

Everything stocked and shipped promptly — Radio is our middle name.
