Voice of America

Headquarters: 330 Independence Ave., S.W., Washington 20547. (202) 485-6231. Richard W. Carlson, dir; Morton S. Smith, deputy dir (modernization); Robert Frese, dir of engrg. Public affrs office: Jeni Norris, acting dir.

Policy

By law the Voice of America, a part of the U.S. Information Agency, operates under the following directive: The long-range interests of the United States are served by communicating directly with the people of the world by radio. To be effective, the Voice of America must win the attention and respect of listeners. These principals will govern VOA broadcasts:

1. VOA will serve as a consistently reliable and authoritative source of news. VOA news will be accurate, objective and comprehensive.
2. VOA will represent America, not any single segment of American society, and will therefore present a balanced and comprehensive projection of significant American thought and institutions.
3. VOA will present the policies of the United States clearly and effectively, and will also present responsible discussion and opinion on these policies

To implement this directive, these broadcasts present news and news-related items on American and world events, news analyses, editorials, correspondents' reports, editorial roundups, and feature material such as documentaries, roundtable discussions, interviews and special events, all of which provides overseas audiences with a balanced and accurate portrayal of

the many facets of American life and clear information regarding U.S. policies.

VOA broadcasts more than 1,100 hours per week in 42 languages to an estimated audience of 120 million adults worldwide.

Facilities

The Voice of America has a network of 111 transmitters: 31 in the continental United States and 80 overseas. These are short and medium wave stations ranging in power from 10 kw to 1,000 kw. The largest transmitter complex is at Greenville, N.C. There, 16 high-powered shortwave transmitters relay programs received via microwave from the Washington studios to audiences and relay stations abroad over 66 directional antennas. Total power at Greenville is 6,500 kw. Other domestic facilities are at Bethany, Ohio; Marathon, Fla. (MW); Delano and Dixon, both California.

Overseas relay stations are at: Munich, Germany; Kavala and Rhodes, Greece; Tangier, Morocco; Monrovia, Liberia; Tinang and Poro, The Philippines; Wofferton, England; Colombo, Sri Lanka; Bangkok, Thailand; Judge Bay, Antigua, Selebi-Phikwe, Botswana, Punta Gorda, Belize and Quesada, Costa Rica. These include short and medium wave transmitters, among which are two one-megawatt transmitters. VOA's total power is now 22,470,000 watts. Also 21 satellite circuits are used to feed VOA's overseas relay stations.

Field Services

Many VOA tapes, music recordings and script materials are furnished by United States Information Agency offices overseas for local distribution and broadcast. Other relays and rebroadcasts are made through arrangements with local broadcasters in Western Europe, Africa, the Near East, South Asia, the Far East and Latin America. For example, VOA's

Spanish-language feed of 25 daily (M-F) correspondent reports are broadcast a total of 2000 times on stations and networks throughout the southern hemisphere.

Armed Forces Radio and
Television Service (AFRTS).

AFRTS operates over 800 radio and television outlets located in 56 foreign countries. AFRTS facilities are established with major concentrations of U.S. forces overseas as well as in remote areas of Alaska, U.S. trusts, territories and possessions, aboard 542 Navy ships and as closed-circuit facilities in 243 isolated locations. Most of the land-based stations are grouped into regional AFRTS networks to serve specific geographical areas, i.e. American Forces Network-Europe in Europe and Far East Network in the Pacific. AFRTS networks and independent stations overseas create their own individual radio and television program schedules from broadcast materials provided by the AFRTS Broadcast Center in Sun Valley, Calif. and from their own local productions. Some outlets are broadcast operations and some are carried on closed circuit systems of various types. Domestic

and Intelsat satellite service is leased on a 24 hour-a-day basis, providing real-time stateside radio and TV to overseas locations.

Headquarters, AFRTS. AFRTS is the broadcast arm of the American Forces Information Service located at 601 N. Fairfax St., Alexandria, Va. 22314. (202) 696-5280. Melvin Russell, asst dir, AFRTS; Lieutenant Colonel Tom Hansen, opns mgr; Lieutenant Colonel Michael Patterson, mgmt svcs.

PROCAM[®]

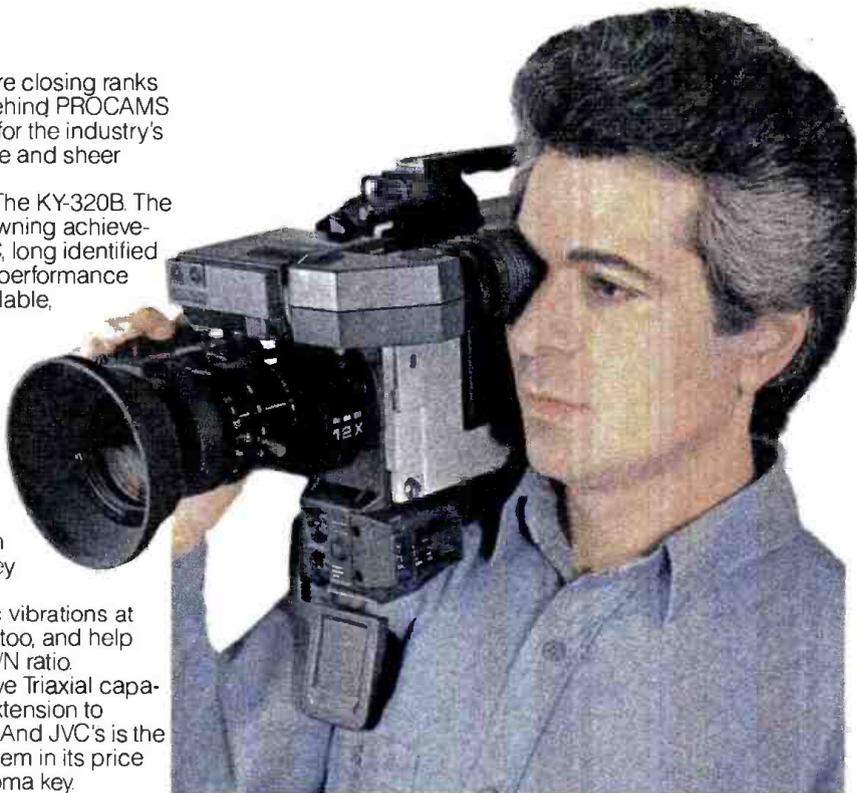

The choice of hundreds in high-end teleproduction.

High-end users are closing ranks solidly and fast behind PROCAMS as THE choice... for the industry's BEST performance and sheer overall value.

The KY-950B. The KY-320B. The PROCAMS. A crowning achievement even for JVC, long identified with ultra-reliable performance in compact, affordable, 3-tube cameras.

Plumbicon* tubes, of course, for high sensitivity, low lag, and minimized image retention, yet always with the highest possible resolution for each image format. They prevent the build-up of microphonic vibrations at high audio levels, too, and help maintain a high S/N ratio.

PROCAMS have Triaxial capability permitting extension to almost a full mile! And JVC's is the ONLY Triaxial System in its price range to offer chroma key.

*Plumbicon is a registered trademark of North American Philips Corp.

Component Video? Of course. JVC's KA-3 Component Adaptor makes you compatible with the increasingly popular M-II format as well as all other 1/2" component formats, and lets you record color signals in component form.

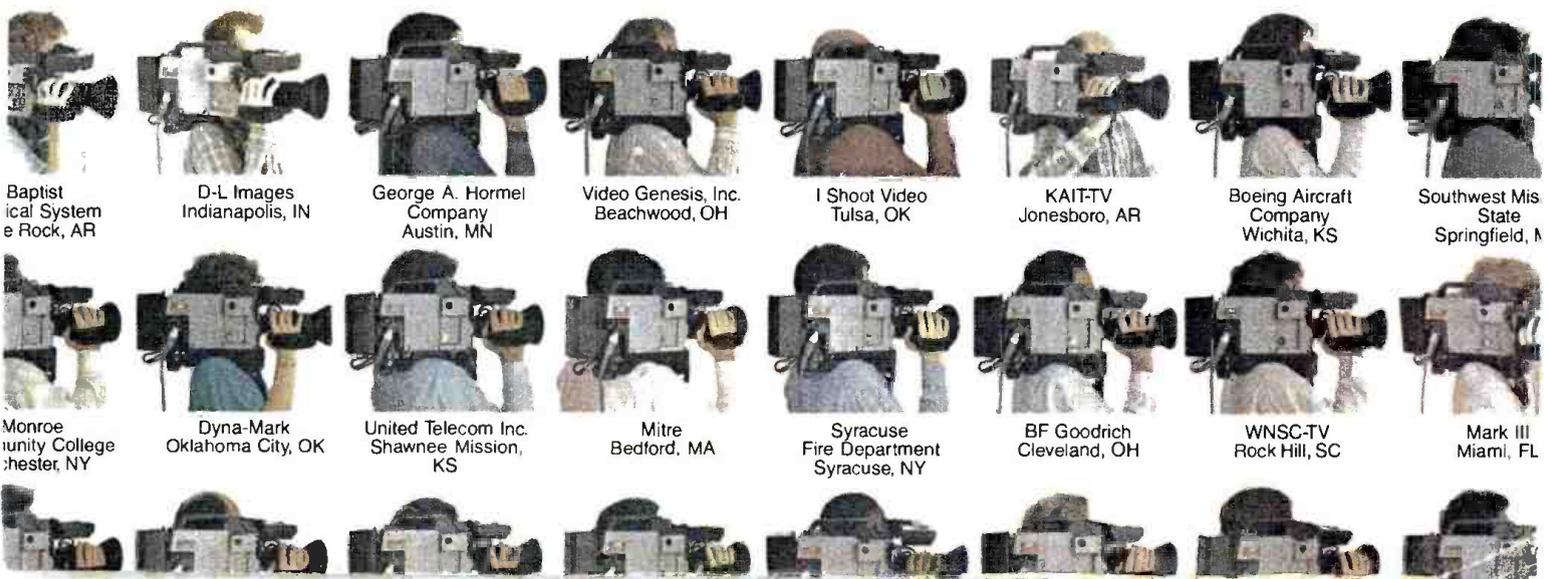

The PROCAMS. KY-950B. KY-320B. Penetrating dozens of new markets. Out-performing the competition in scores of imaginative applications in the hands of demanding professional users.

For a demo, call us toll-free for the name of your PROCAM Rep.

From the moment the first telecast made its way into a handful of living rooms, audiences were entranced, entertained and enlightened. Now, television is in nearly every household. Viewers receive more channels and have more choices than ever before. Television. It's the media choice that reaches 98% of all households. That's why advertisers invest a whopping 21 billion dollars each year. How do we know? We've been watching audiences watch TV since 1949—longer than *anyone*. And, as the medium and the audience grow and change, so do we. Developing new ways to define and describe who they are and what they watch. Arbitron. We know the territory.

The Best Way To Get To Pittsburgh

Three Million Reasons To Get To Pittsburgh

Three million people make Pittsburgh the 13th largest city, and the 13th largest television market. For you, that's three million customers with an average buying income of \$28,000 in the metro area.

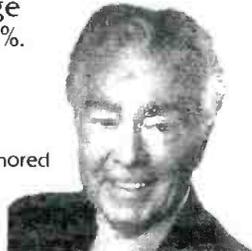

Pittsburgh Is KD Country

In the Pittsburgh ADI, the two daily newspapers have a combined reach of 28%, compared with television's 99% reach. In fact, you'd have to buy 28 local newspapers and who-knows-how-many radio stations to reach the same number of Pittsburghers as just ONE TV station: KDKA-TV.

KDKA-TV is Pittsburgh's first and strongest TV station. Our prime time numbers start at lunch time, with the highest-rated Noon News in the top twenty markets - always delivering better than at 55% share.

"Eyewitness News at Six" consistently beats the COMBINED news ratings of the other two affiliate stations. And in prime access, "Evening (PM) Magazine" continues to improve on its Number One status.

In Pittsburgh, CBS prime time is invariably number one because it's on KDKA-TV - outperforming CBS's national rating by 20%. On an average day, our circulation is 68% of metro households, and in the average week, it's 93%.

Bill Burns has anchored KDKA-TV's Noon News since the '50's - about the same number as his average audience share.

We'll Even Give You Directions

When you get to Pittsburgh, you won't get lost. We offer the Pittsburgh Consumer Market Profile - an exclusive demographic and psychographic portrait of the region, developed with Leigh Stowell & Company. We offer all the data and analysis services you need to keep your buy on target.

And if you're looking for a special place to showcase your client, consider KDKA-TV's special broadcasts - like Pirate Baseball, among the highest-rated local major league telecasts. Or exclusive coverage of the annual Pittsburgh Marathon. Or very special projects like our Peabody Award-winning organ donor project, "Second Chance."

Call or write our sales office. KDKA-TV2, Advertising Sales, One Gateway Center, Pittsburgh, PA 15222. (412) 392-2274.

Stacy Smith, Ray Tannehill, and Patti Burns draw more adult news viewers than the two competing stations combined.

TV Assignments

Note—UHF and VHF TV assignments have been made by the FCC to the following cities. A plus or minus after a channel indicates that a station occupying the channel must operate with its carrier frequencies offset 10 kilohertz above or below, respectively, the normal carrier frequencies.

Asterisks (*) indicate channels reserved for non-commercial use. Footnotes. ¹ Following the decision in Docket 18261 (amendment of rules regarding geographic reallocation of channels 1-20 to land mobile radio in the 25 largest urbanized areas of the U.S.) channels so indicated will not be available for use until further action by the FCC. ² Channel 15 will not be available for television use until further action by the FCC. ³ This channel is not available for Elgin, Ill., unless FCC determines it is not needed at Joliet, Ill. ⁴ Stations using these assignments shall limit radiation toward stations on the same channel in Puerto Rico. ⁵ Operation on this channel is subject to the conditions, terms, and requirements set out in the report and order in docket 19075, RM-1645, adopted Jan. 5, 1972, released Jan. 76, 1972. FCC-72-19. (As of August, 1986). Reserved for land mobile use.
