### Voice of America

**Headquarters:** 330 Independence Ave., S.W., Washington 20547. (202) 485-6231. Richard W. Carlson, dir; Robert L. Barry, deputy dir (modernization); Sid Davis, prog dir; Robert Frese, dir of engrg. Public affrs office: Judy Jamison & Beth Knisley, pub affrs officers.

**Policy:** The Voice of America (VOA), the international broadcasting service of the U.S. Information Agency, is governed by its Charter (Public Law 94-350) which stipulates the VOA will: (1) serve as a consistently reliable and authoritative source of news and that its news will be accurate, objective and comprehensive; (2) represent America, not any single segment of American society, and will therefore present a balanced and comprehensive projection of significant American thought and institutions; (3) present the policies of the United States clearly and effectively, and will also present responsible discussion and opinion on these policies.

**Facilities:** VOA has 112 medium wave and shortwave transmitters which collectively have a total power in excess of 26 million watts. The power of individual transmitters in VOA's worldwide network ranges from 35 kw to 1000 kw. The VOA standard is to use three transmitters for each broadcast. These transmitters are located at 18 relay stations in the U.S. and abroad in Antigua, Belize, Botswana, Costa Rica, England, Greece, Liberia, Morocco, the Philippines, Sri Lanka, Thailand and West Germany. Programs originate in the studio complex at VOA headquarters. A 150-channel master control panel is used to route them onto appropriate satellite circuits for delivery to the relay stations.

**Programming:** U.S. and world events are reported accurately and fully in VOA newscasts and news programs. Features, backgrounders, interviews, on-the-scene coverage of special events, and documentaries provide listeners around the world with an accurate, comprehensive, and balanced portrayal of American life and opinion. Clear information on U.S. policies is reflected in editorials.

**Program placement:** VOA programming is also made available to, and extensively used by, foreign media in more than 100 countries. Radio stations in some countries simply relay VOA's direct broadcasts or tape program segments from them for rebroadcast at prime local listening times. Satellite or high frequency feeds, dial-up systems, and airmailed tapes are also used to provide VOA programming in 20 languages to stations in Africa, the American Republics, East and South Asia, the Middle East and Western Europe.

**Program hours and languages:** The 1,200 hours of programming produced at VOA each week include two special services: VOA Europe and Radio Marti. VOA Europe is an around-the-clock radio service in English which is delivered to Western Europe by satellite for broadcast on FM and cable radio stations in 10 countries; 90.5 hours weekly of the VOA Europe broadcast are originated by the VOA staff and the balance is syndicated music programs. The Radio Marti program is beamed to Cuba 122.5 hours each week by a 50 kw medium wave transmitter in Florida. All other programming (986.25 hours weekly) is transmitted on shortwave and/or medium wave in the following 44 languages.

### Armed Forces Radio and Television Service (AFRTS).

AFRTS operates over 800 radio and television outlets located in 56 foreign countries. AFRTS facilities are established with major concentrations of U.S. forces overseas as well as in remote areas of Alaska, U.S. trusts, territories and possessions, aboard 542 Navy ships and as closed-circuit facilities in 243 isolated locations. Most of the land-based stations are grouped into regional AFRTS networks to serve specific geographical areas, i.e. American Forces Network-Europe in Europe and Far East Network in the Pacific. AFRTS networks and independent stations overseas create their own individual radio and television program schedules from broadcast materials provided by the AFRTS Broadcast Center in Sun Valley, Calif. and from their own local productions. Some outlets are broadcast operations and some are carried on closed circuit systems of various types. Domestic and Intelsat satellite service is leased on a 24 hour-a-day basis, providing real-time stateside radio and TV to overseas locations.

**Headquarters, AFRTS.** AFRTS is the broadcast arm of the American Forces Information Service located at 601 N. Fairfax St., Alexandria, Va. 22314. (202) 274-4856. Melvin Russell, asst dir, AFRTS; Lieutenant Colonel Tom Hansen, opns mgr.

## FM Allotments

The following Table of Allotments contains the channels (other than non-commercial educational Channels 201-220) designated for use in communities in the United States, its territories and possessions as of March 1987. All listed channels are for class B stations in Zones I and I-A and for class C stations in Zone II unless otherwise specifically designated. (See "FCC Rules," Section A.)

The transmitter for a station operating on Channel 276A at Waynesburg, Pa. must be located two miles southeast of the community in order that minimum distance separation requirements be met.

Channels 246 and 251 at Rutland, Vt., are regarded as class B allotments.

## Radio Markets in the United States

The following is the Arbitron Radio Market population ranking for Spring 1987, based on market definitions at that time. It is based on 1980 U.S. Bureau of Census estimates updated and projected to January 1, 1987.

The MSA number is the population total of all persons aged twelve or older in the Metro Survey Area. The TSA number is the population total of all persons aged 12 or older in the Total Survey Area. Following that is a list of radio stations assigned to that market by Arbitron, including their city and state of license.

Certain market population totals are also imbedded in larger nearby markets. It is therefore possible for a station to be listed in more than one market.

## Radio Markets Ranked by Size

This chart is based on the Arbitron Spring 1987 radio market statistics. Figures are the population aged twelve and older of each Metro Survey Area, and are based on 1980 Bureau of Census estimates updated and projected to January 1987.

\*An asterisk following the market name means that it is also considered to be part of a larger market. For more information please see the Radio Market directory beginning on Page B-413.

(6) Network, foreign language, rep and Washington attorney. The primary WOF-TV national affiliate is CBS, the secondary is NBC. The station broadcasts two hours of Spanish a week. Sales representatives are listed with the national rep first, then regional.

(7) Personnel.

(8) Cable and translators. WOF-TV is carried on six cable TV systems with a total of 20,000 subscribers, and on ten rebroadcasting translators.

(9) Co-owned radio. WOF-TV has the same licensee as WOF-AM-FM.

(10) Advertising rates. The prices the station charges for a 30-second spot are shown for each of three day-parts:

Prime time; early fringe; daytime.

in that order. If a day-part is inapplicable a dash (—) replaces the rate.

\* An asterisk indicates noncommercial stations.

**ADI.** Immediately beneath every city heading is the ranked market Area of Dominant Influence into which the city falls. ADI details are presented in the ADI Atlas.

(11) The Arbitron Ratings Company has provided net weekly circulation statistics for television stations in the United States. The totals refer to the total number of TV households in counties where the station is tuned in at least once a week at the indicated percentage level. For WOF-TV, there are 266,400 total TV households in counties where 50% or more of the total TV households tune in the station at least once weekly; there are 63,600 TVHH's in counties where 25-49% tune in the station once a week; and 181,100 TVHH's in counties where 5-24% tune in the station once a week. 5% and over—514,100 is the total of these three numbers. Net weekly viewership is 264,400 TVHH's, with an average of 159,300 daily. Each total includes cable viewership outside of the station's Area of Dominant Influence. Circulation figures were not available for every station.

(1) Channel, power and antenna. WOF-TV operates with 200 kilowatts (effective radiated power) visual and 20 kilowatts aural. Its antenna is 500 feet above average terrain and 300 feet above the ground; it holds a construction permit for a height increase.

(2) Date station first went on the air (regardless of subsequent ownership changes).

(3) Address and zip code, telephone, Teletype Write Exchange number.

(4) Licensee name and date of acquisition (if not original owner).

(5) Ownership. Acme Stations owns WOF-TV and several other broadcast properties, all detailed in the Group Ownership directory in section A. The station additionally has print media connections, explained in the Newspaper directory (also section A). Principal stockholders are listed for independently owned stations.

# Break out the book

...in under an hour.

- Find out if you're up or down and by how much.
- Re-price your inventory quickly
- Optimize your sales packages.
- Create professional sales presentations in a flash.
- Get your sales people away from their desks and on the streets.

## **TV MAXIMIŞER**<sup>SM</sup>

A new "book" applications system designed by Marketron for Arbitron Ratings. TV Maximiser turns your IBM-AT into a powerful management tool for your station.

**Spend a little, get a lot.**  
Speed up the process of interpreting the latest book, developing sales packages, promotions and sales pieces, setting your inventory and getting higher prices for your spots. Time is money and TV Maximiser crunches your hours into minutes.

**It does the work, you make the decisions.**  
No more tiresome hand calculations. No more hours flipping

through the book to find the numbers. TV Maximiser does the work and allows you to create the right sales strategy for your television station.

## **TV MAXIMIŞER**

The newest example of Arbitron "know how", the company that's developed more PC systems to save you money and make you money every day.

- Product Target AID, used by more than 150 television stations.
- Arbitrends, used by more than 40 television stations.
- Arbitron Information on Demand, used by more than 395 television stations.
