Radio Formats Defined

Broadcasting & Cable Yearbook defines a radio format as programming broadcast over 20 hours weekly. Programming broadcast from one to 20 hours weekly is defined as special programming. This is not a hard and fast rule, however. Some stations may report programming unique to their main programming format(s) as "special" programming regardless of the number of broadcast hours.

Most stations broadcast one format, though some stations report having two or more formats. A station that lists four or more formats is categorized as "Variety/Diverse" or "Diverse." Formats that did not fit into a specific category are listed as "Other."

At present, *Broadcasting & Cable Yearbook* recognizes 91 different formats. These formats are listed below with appropriate definitions.

This listing is followed by a breakdown of formats by state and by province. The chart on page B-604 gives a breakdown of radio programming by AM/FM and commercial/noncommercial stations in the U.S. and Canada.

Adult Contemporary—Recent popular songs, with a few oldies. The songs tend to be upbeat and soft. News and talk segments are prominent during rush hour "drive times." Also known as **Light Rock**.

U.S. Radio Markets

The following is the Arbitron population ranking for Fall 1995, based on market definitions at that time. It is based on the 1990 U.S. Bureau of Census estimates updated and projected to January 1, 1996.

The MSA number is the population of all persons aged 12 or older in the Metro Survey Area. The TSA number is the population total of all persons 12 or older in the Total Survey Area. Following that are the call letters of stations that fall within the market as defined by Arbitron.

Certain market population totals are also embedded in larger nearby markets. It is therefore possible for a station to be listed in more than one market.

U.S. Radio Markets: Arbitron Metro Survey Area Ranking

This chart ranks the 261 radio markets by Metro Survey Area population (see also the following chart of rankings by Total Survey Area). Figures include all persons aged 12 or older and are based on 1990 U.S. Bureau of Census estimates updated and projected to January 1, 1996. Data reflects the Fall 1995 Arbitron market definitions.

A single asterisk (*) following a market name indicates that the market is embedded in a larger nearby market. See *U.S. Radio Markets* beginning on pg. B-658 for details. The double asterisk (**) following the Monmouth-Ocean, NJ, market indicates that Monmouth County is included in both the Monmouth-Ocean, NJ, and New York Metro markets. The triple asterisk (***) following the Manchester, NH, market indicates that a portion of Rockingham County is included in both the Manchester, NH, and Portsmouth-Dover-Rochester, NH, markets.

U.S. Radio Markets: Population Ranking

This chart ranks the 261 radio markets by Total Survey Area population (see also the preceding chart of markets ranked by Metro Survey Area). Population figures include all persons aged 12 or older and are based on 1990 U.S. Bureau of Census estimates updated and projected to January 1, 1996. Data reflects the Fall 1995 Arbitron market definitions.

A single asterisk (*) following a market name indicates that the market is embedded in a larger nearby market. See *U.S. Radio Markets* beginning on pg. B-658 for details. The double asterisk (**) following the Monmouth-Ocean, NJ, market indicates that Monmouth County is included in both the Monmouth-Ocean, NJ, and New York Metro markets. The triple asterisk (***) following the Manchester, NH, market indicates that a portion of Rockingham County is included in both the Manchester, NH, and Portsmouth-Dover-Rochester, NH, markets.

Prior to 1971, data reflects factory sales by U.S. manufacturers plus those products imported directly by distributors or dealers for resale. All import statistics are based upon average value as published by the U.S. Department of Commerce, which is F.O.B. and therefore excludes U.S. import duties, freight charged from the foreign country to the United States, and insurance.

When a minor statement becomes a major issue.

A slip of the tongue can be more costly to your media client than a slip and fall. Even when the statement is true. Retractions and corrections can help, but not always. In the suit-happy '90s, more and more people in the news want their day in court. When that happens, juries agree with them 80% of the time.

If that statistic worries you, look to us for specialized coverage. Media/Professional Insurance together with A.M. Best-rated A+ XV carriers offer a unique approach to media insurance. Our experienced underwriters and in-house claims counsel work together to ensure consistency and flexibility...so answers are there when you need them.

Media/Professional is America's largest underwriter of libel and related media coverages. For a lot of very sound reasons.

So before someone takes issue with you, have your insurance agent or broker call us at (816) 471-6118 extension 281. An insured word may mean the last word.
