CABLE VOLUME 2

The Authoritative Reference for the Television, Cable and Electronics Industries

As new broadband technologies emerge on the horizon, so do opportunities. The landscape between you and capitalizing on these technologies is obscured with threats and risks. You need an industry-leader with over a half-century of engineering products and developing successful business models to navigate you through the strategies and tactics to bring you through the telecommunications frontier.

WE'LL BE YOUR GUIDE.

DIGITAL VIDEO

We are creating the next generation of digital video solutions. Advanced products like an off-air 8VSB processor, an ASI Input QAM 1024 Modulator, a HDTV Transcoder, and sophisticated features like remote Internet management and standby power .

They're setting the rules for the Internet.

We're watching.

www.warren-news.com

Internet copyright and intellectual property; taxation, fraud and e-commerce regulation; privacy, pornography and the First Amendment; antitrust and domain name administration...

Like it or not, rules are being set right now involving these and dozens of other crucial Internet issues. Some may be resolved by industry self-regulation, but others are proving just too attractive for lawmakers and regulators at all levels -- federal, state, and even local.

Washington Internet Daily covers and uncovers the rulemaking process as it's happening, wherever it happens -- on Capitol Hill; at the Justice Department or in the courts; at the SEC, the Federal Communications Commission or the Federal Trade Commission.

Everywhere. Every day.
