Shout your head off!

There's one advantage that ship's officer has that some radio advertisers don't have... he knows his audience is listening!

Down here in Baltimore we've got a way to fix that for advertisers. It is suggested that they check into the W-I-T-H radio audience.

This is the independent station that delivers more results per dollar spent than any other station in town. It has the audience and the audience has the money to buy.

There is a pile of cold-as-steel facts that proves that if you want coverage that pans out on a low cost per sale basis, your best bet in Baltimore is W-I-T-H.

One out of Four Families wrote WLS from

"BACK HOME IN INDIANA"

DOWN in the twenty counties comprising Indiana's fifth and sixth Congressional Districts, WLS has the same kind of friends it has throughout the rest of Midwest America: friends created long since by down-to-earth entertainment and thorough, painstaking service. 41,597 of them wrote to WLS last year!

PROOF OF WLS RESULTS

These 41,597 letters came from 20 counties with a total of 162,039 Radio Homes, making 25.6 letters per 100 Radio Homes. Over ONE out of FOUR! This, we consider, is tangible proof that WLS has built friends for itself, will build results for you. Like our total of more than a million letters a year from our four-state area, these 41,597 central Indiana letters shout: WLS GETS RESULTS!

NUMBER FIVE in a WLS series of advertisements analyzing the station's intense listener-response county-by-county. This ad shows WLS mail from 20 Indiana Counties. Through the series, we are revealing actual mail response and its ratio to radio homes in all of the four states in the WLS Major Coverage area: Illinois, Indiana, Michigan, Wisconsin.

950 ON THE DIAL • 5000 WATTS • PHILADELPHIA • PA
This is the Belgian Congo.

If you are a short wave fan, you may have heard this broadcast from Leopoldville—the first time a series of broadcasts has ever been directed from Leopoldville to an individual station in the United States—the weird yet rhythmic beat of the tom-tom, followed by an intensely dramatic story of life in the Belgian Congo.

These and similar broadcasts were part of Belgium Week in the "Worcester and the World" series, designed to bring to the people of Central New England a better understanding of the peoples of the United Nations.

One week of the series is dedicated to each of the United Nations. Each week, dignitaries and representatives of the respective countries come to Worcester to participate in the WTAG Public Forum broadcast from Clark University, to speak to school and college groups, social and civic meetings.

Each week's programs are used by the OWI as the framework for a world-wide broadcast, as well as for special broadcasts to individual countries. OWI cameramen come to Worcester to record the highlights of each week.

"Worcester and the World" thanks the Associated Press for complete coverage of the program in an excellent bulletin plus a full feature story to all subscribers, the Christian Science Monitor for two successive feature stories, and the many other newspapers in this country and abroad.
which have devoted many columns to this project.

The observance of Australia Week witnessed the first exchange of radio greetings between the mayors of that country and ours.

The Philadelphia Symphony Orchestra, broadcasting its weekly Saturday afternoon concert from Worcester's huge Memorial Auditorium during Canada Week, gave a special salute performance to that country. CBS carried this regular feature Coast to Coast, and adjusted its time schedule to carry this program throughout all Canada. Other programs commemorating Canada Week reached all parts of eastern Canada.

Czechoslovakia Week was highlighted by the presence of Dr. Jan Papanek, Minister Plenipotentiary of Czechoslovakia.

"Worcester and the World" continues to be weekly world news. Such an undertaking stamps WTAG again and again as a BIG Station, creating and producing shows that are BIG. Measure Central New England by its major importance as a market, then by WTAG's amazingly high Hoopers. The one approach to this highly industrialized market and high-wage-earning audience, is from the INSIDE — from Worcester — through WTAG.

"DOLLAR FOR DOLLAR NEW JERSEY'S BEST RADIO BUY"
Dear Sir:

We are studying about radio in our English Class. In school, I would like some general information about the radio organization and of the network like yours, where your buildings are, the size and the power it takes to send a program all over the country and any other information you can send.

Yours very truly,

[Signature]

It's easy, Kenneth!

So you want to know what it takes to build a network like Mutual.

Thanks for your letter, Kenneth. The answer is simple.

Start ten years ago, with four big stations in four big markets. As you add outlets, remember the need for placing them as close as possible to the listeners you want to serve. Keep extending the network every year until you make it the largest in the world, with 245 stations.

Pick all your stations carefully, Kenneth. Make sure each one has a potent, friendly voice in its own community. Dominant power and popularity in the biggest cities and an intimate, neighborly touch in the rest of home-town America — that's what your network should provide — and that's what Mutual delivers.

Take your own home town. Port Huron is a good example of a key market served from within by just one network, Mutual. Jot down a few figures, Kenneth. Did you realize that your 33,000 neighbors earn over $46,000,000 a year, and spend more than $25,000,000 a year in retail purchases alone?* Yours is a mighty important market, and so are the other 140 centers where your network has the only station — not to mention the rest of the nation where Mutual's voice is so continuously welcome in cities large and small.

One final thought, Kenneth. As you plan the 'organization' of your radio network, don't forget to keep the cost-per-ear at a rock-bottom minimum. That's what Mutual offers: an evening half-hour on the full network, at peak listening periods, for as little as $7,550.

this...is MUTUAL

*Corporate city-limit figures, 1943, from Sales Management.
At Deadline . . .

ATTORNEYS of RCA and CBS met in New York Friday to discuss the next steps in the recording deadlock. The group, which met intermittently through the week, made no statement.

BROWN & WILLIAMSON Tobacco Corp., Louisville, has started spots under 26-week contract placed through Russel M. Seeds Co., Chicago.

LEWIS HOWE Co., St. Louis, has started a spot test for Tums in major markets. Olian Adv. Co. is agency, handling campaign from Chicago and St. Louis offices.

WLBS Brooklyn, recently acquired by the New York Post, henceforth will be identified as a New York station. The FCC Friday granted the station authority to use the New York designation.

SELLERS of SALES

PERIPATETIC Clark (Fritz) Snyder is contact man of Blow Co., New York—and that's exactly what he does. Fritz contacts stations on the Bulova account and he probably has a wider acquaintance among station men than any agency executive in the business. He has a plane pilot's disregard for distances—one day finds him in Columbus, another in Indianapolis, the next in Chicago or Des Moines. No sooner does he check in at the Bulova Radio City offices in New York than he's off to the field again.

Fritz likes to sit down with station men, mull over problems, and, of course, talk about Bulova business—a business which amounts to some $5,000,000 in yearly spot revenue. With a laconic disregard for what he terms the "rocking chair timebuyer", Fritz maintains, "It's impossible to sit behind a desk in New York and do an adequate spot placement job. Advertising is a fast moving business and it has gone beyond the hand-shaking stage. It's important to know the managers, the commercial managers and the announcers who are selling your product."

If pressed, Fritz will admit that he's been in advertising for almost thirty years. A diary of those three decades would include: advertising manager, Cole Motor Co., Indianapolis; advertising manager, Chrysler Sales Corp.; account executive in charge of the Chrysler account, MacManus Inc., Detroit; account executive, Advertisers Inc., Detroit; Advertising & Sales Promotion Manager of Standard Oil Co. of New Jersey, Standard Oil Co. of Louisiana, Standard Oil Co. of Pennsylvania and Colonial Beacon Oil Co.; account executive of Socony Vacuum Oil Co., J. Stirling Getchell Inc. He joined Blow in February of this year.

Fritz is an advertising man who generates ideas. Back in the twenties he originated and initiated the publicity and public relations division of Chrysler Corp. While with Standard Oil Co. of New Jersey he set up the Esso Reporter news program, the first sponsorship of news by a national advertiser on the air. Those franchises of top news periods have increased in value throughout the years and pointed to Fritz's far-sightedness.

Fritz is an excellent horseman. He's interested in photography. He has fished off the Atlantic Coast from the Florida Keys to Nova Scotia and is considered quite a navigator of small craft. His wife, he claims, is a better fisherman than he is.

FCC Clears Deck for Fly’s Successor

Grants 4 Locals; Would Delete WOKO

CUSTOMARY docket-clearing activity pervaded the FCC last week preparatory to the departure of FCC Chairman James Lawrence Fly on the naming of his successor by President Roosevelt.

At a field-day session last Thursday, the Commission authorized four new local stations—two in Sacramento—and granted a half-dozen station transfers, along with proposed refusal to renew the license of the pioneer WOKO Albany, because of purported “hidden ownership” aspects involving Sam Pickard, ex-commissioner and ex-CBS vice-president. It was one of the biggest decision days in recent months.

New Appointments Soon

Another big day is expected tomorrow (Nov. 14)—the day before Chairman Fly takes his official leave to begin law practice in New York. Appointment of his successor by the President, as well as the nomination of a replacement for Commissioner T. A. M. Craven, whose post has been vacant since last July, are expected momentarily. The nominations for the two vacancies are subject to Senate approval. Congress reconvenes Tuesday.

Paul A. Porter, Democratic Committee publicity director, is still in the forefront of those mentioned as Mr. Fly’s successor. It is generally conceded he can have the appointment if he wants it, by dint of his intimate White House contact, his radio background, and his yeoman service in the Government since he left the CBS general counselship in 1942.

Newest name heard for the FCC was Lowell Mellett, newspaper columnist, formerly of the FDR secretariat, who once made an overall public study for the President on radio.

At its meeting last Tuesday the FCC:

(1) Authorized a new station in Sacramento to operate on 1340 kc with 250 w fulltime for Central Valleys Broadcasting Co., likely to become a Mutual outlet. Principals are Ewing C. Kelly, head of his own advertising agency, who will be general manager; David R. McKinley, wholesale baker, and Vernon Hansen, wholesale dairyman, each of whom will hold one-third.

(2) Authorized a second new station in Sacramento to Lincoln Daley, vice-president and general manager of Associated Broadcasters Inc., operating KSFO San Francisco and the shortwave stations KWID and KWXI, on 1400 kc with 250 w fulltime. The station may join NBC.

(3) Granted a new local in Harrisburg, Pa., on 1400 kc with 250 w fulltime to Herbert Kendrick, formerly with WJLS Beckley, W. Va., and G. L. Hash, furniture store owner.

(4) Authorized a new local station on 1230 kc with 250 w fulltime to American Colonial Broadcasting Corp., at Arecibo, Puerto Rico, the flagship of station operators of WIPA Mayaguez, P. R.

(5) Issued proposed findings on denial of renewal of WOKO Albany, because of alleged “mis-representations made in applications” by virtue of failure to reveal that Mr. Pickard owned about one-fourth of the station; the stock having been held by his brother-in-law, R. K. Phelps, of Kansas City.

(6) Settled, by split vote, acquisition of 50% interest in WPAT Paterson, N. J., by Donald Flamm, former owner of WMCA New York, thus splitting ownership between Mr. Flamm and Lt. and Mrs. James V. Cosman.

(7) Approved sale of KQV Pittsburgh, by Hugh J. Brennan to four Pittsburgh businessmen for $575,000, with Commissioner Durr dissenting.

Fly Would Allocate

Mr. Fly, before he winds up his Government service, wants to have the FCC approve in broad outline the spectrumwide allocations on which hearings were held for five weeks during latter September and October. It is doubted, however, whether that will be accomplished.

The State Dept. has established a Dec. 1 deadline on the Commission’s recommendations pertaining to allocation of facilities for an international range, but probably would not insist upon an integrated plan covering regional or hemispheric assignments.

Members of the Commission and its staff, it is understood, feel it is physically impossible to whip an allocations plan into shape in a matter of days, or even weeks. The Commission is short-handed in both its legal and engineering departments. Besides, a vast welter of technical data must be analyzed before the tedious task of charting every allocation can be undertaken.

The obvious conclusion was that Mr. Fly would leave the Commission without anything more than a sketchy plan, possibly covering assignments below 30 or 40 mc (those having international interference aspects), worked out on paper.

The FCC chairman, radio’s stormy petrel during his five years as Commission head, has kept his own counsel on his plans as to private law practice. The feeling prevails, however, that his decision to leave Government service doesn’t mean he will remain out. With another four years for FDR and the regard in which the President holds Mr. Fly, it is an odds-on bet both in and outside Government radio circles that Mr. Fly will bob up in Government again within a year or two.

It is believed in some quarters that he may participate in peaceable deliberations related to world communications policy, possibly as the chairman of a United Nations panel.

WLB Panel Denies Petrillo’s Demands

Board Reverses Policy, Releasing KSTP

Findings

DENIAL of demands by James C. Petrillo, AFM president, for employment of musicians as platterturners at the Minneapolis studios of KSTP has been recommended by the Panel of the Sixth Regional War Labor Board, it was disclosed last Friday when the Board released the panel report on the dispute.

In an unusual procedure, marking its first departure from an established policy of withholding panel recommendations while a strike is in progress, the National Board honored the station request, transmitted to the Regional Board that the report be made public. A Board announcement stated: “The KSTP case has been regarded as a test of Petrillo’s demands made of radio stations throughout the country.”

The panel turned down every demand made by the musicians. It refused to recommend the quota system and could find “no serious unemployment problem” at this time. It saw no justification for a provision calling for the employment of musicians exclusively for record turning and requiring that their activities be confined to this one function. It also denied wage demands for staff musicians and set a lower minimum number of hours per week than the union asked.

Regarding the union demand for employment of additional musicians for record turning and as librarians, the report cited evidence presented at the panel hearings that announcers, technicians and clerks perform this work. It also pointed out that Mr. Petrillo “was unable to justify “this sort of practice” when questioned before a Senate committee. It therefore recommended that the request of the union for the employment of three additional musicians by the station for record turning exclusively be denied.

In denying the union’s request that a minimum of eight staff musicians be employed, the Panel declared: “The evidence before the Panel shows that there has been some sort of a ‘quota’ system in effect covering this station in both of its studios for several years, and that this ‘quota’ was essentially a money quota which the station agreed to spend each year, with the primary purpose of relieving unemployment among musicians. . . .”

“The record also shows that KSTP staff musicians are used in

(Continued on Page 68)
**NABET Asks NLRB to Oust AFM From Platter Turning**

**Claims Its Jurisdiction Covers 3 Midwest Cities; Padway Argues That Musicians Need Jobs**

THE NATIONAL Labor Relations Board was asked last week to place platter-turning operations now under control of the AFM under the jurisdiction of NABET engineers, thus removing James C. Petrillo's spring-board for installing musicians in "make-work" jobs in radio stations throughout the country.

During oral arguments heard before the Board Thursday on the dispute between the National Assn. of Broadcast Engineers and Technicians and the AFM over turntable jurisdiction, Martin F. O'Donoghue, NABET counsel, contended that the "mere accident" of past collective bargaining history under which Mr. Petrillo obtained a foothold on record handling, would not justify the setting up of a separate bargaining unit for platter-turning operations in Chicago, St. Louis and East St. Louis, Ill.

**Padway Opposes**

Opposing NABET's claim for jurisdiction, Joseph A. Padway, AFM counsel, justified the employment of musicians as platter turners on the ground of economic need and contended that Mr. Petrillo's efforts on behalf of his membership are directed to offsetting elimination of mechanical devices. He asserted the musicians have no desire to trespass on the functions of engineers and that Mr. Petrillo's plans to assume jurisdiction over turntables would not affect the jobs of technicians.

Hearing was held before all three members of the Board: Dr. H. A. MacEwan, chairman; Col. J. Reilly and John M. Houston. Testimony on the merits of the case was previously taken Sept. 28, 29 in New York before O. Paradise, trial examiner [Broadcasting, Oct. 2]. A final decision, not subject to appeal, is expected within the next few weeks.

Attending for NABET, in addition to Mr. O'Donoghue, were Thomas Dunn, associate counsel; and Allan T. Powley, president. Also present for AFM were David Katz, counsel for Local 10, Chicago; and Edward A. Benkert, Local 10 recording secretary.

Present for NBC were Joseph A. McDonald, counsel; George McElrath, chief engineer, and Gustav B. Margraf, Washington representative. Present for Blue were Robert D. Swezy, counsel; and George O. Milne, chief engineer.

**$90 in Chicago**

Mr. O'Donoghue argued there is nothing substantive in the platter-turning operation to provide for separate employment. He pointed out there are five turntables at a network-owned station—at the studio, at the transmitter, in the master control room, and portable turntables used for remote broadcasts. The AFM, he said, would have musicians operate only those turntables which are used to play musical records.

He said musicians in Chicago who play the records get $90 a week, while NABET engineers who developed the turntable equipment get less than that amount. He asked the Board how it could possibly set up a separate craft for an operation which Mr. Petrillo himself admitted before a Senate committee was unsound.

He said that in the NBC and Blue armed forces in Chicago between 8 and 10 musicians are assigned to each station. It was established during testimony by Mr. McElrath that the platter-turners in New York, he said, that it is in the interest of the best engineering practice to have the turntable in the engineering booth, although the turntables in Chicago are now used in the studio proper where they are operated by the musicians.

**Recording in Infancy**

Questioned by Dr. Mills, Mr. O'Donoghue explained that recording was in its infancy when the musicians took over record playing in Chicago more than 15 years ago and that the networks have since developed a coordinated system of sound integration involving highly technical equipment.

He argued that the "merely accident" of past collective bargaining history does not justify setting up a separate unit for platter-turning operation in Chicago.

Musicians operate other than musical turntables in Chicago, he said (Continued on page 60).

---

**DUKE M. PATRICK**

**BACK IN PRACTICE**

DUKE M. PATRICK, since August 1943 on active duty as a lieutenant commander, last week resumed active partnership in the Washington law firm of Hogan & Hartson. He has transferred from communications volunteer service in Hawaii and is on inactive status, subject to recall for limited service.

Mr. Patrick had served as assistant to Col. O. Willenbusher, special assistant to the Director of Naval Communications, Rear Adm. Joseph R. Redman. Former general counsel of the Federal Radio Commission, Mr. Patrick has been associated with the Hogan law firm since his retirement from the Government a dozen years ago.

Mr. Patrick's associate in the Hogan firm, is still on active Navy duty with the Bureau of Supplies & Accounts, assigned to the Electrical Procurement Division.

**Adam Hat Expands**

**ADAM HAT STORES, New York, preliminary to a spot campaign of one-minute transcriptions on stations in Adam market areas: The Strange, Doctor Weird, a mystery show, on WOR New York and a musical transcribed series on WSBM New Orleans, both weekly quarter-hours. Agency is Buchanan & Co., New York.**

---

**S & W in East**

S & W FINE FOODS Inc., San Francisco, last week started a campaign for apple juice with participations on seven eastern stations, recording in studio drive to be heard all over the year. Agency is Samuel C. Croot Co., New York.

---

**Col. Sarnoff, Back From SHAEF Post, Given New Assignment in Washington**

**Col. DAVID SARNOFF, on leave as RCA president, who returned to the United States within the fortnight ahead that month in the European theatre, now is on special active duty in the office of the Chief Signal Officer, Washington.**

While attached to the staff of Gen. Eisenhower, Col. Sarnoff served as special consultant on communications to SHAEF and was largely responsible for development of the communications coordination plan for D-Day, covering broadcast, press and other intelligence transmission. His plans made possible handling of the greatest sustained volume of traffic from a single point in history.

Col. Sarnoff, who also is chairman of NBC, told Broadcasting that in his official activities abroad he had frequent occasion to deal with both William S. Paley, CBS president and his chief network competitor, who is radio chief of Psychological Warfare Services, and Capt. Harry C. Butter, former CBS Washington vice-president, naval aide to Gen. Eisenhower.

"I have seen both Messrs. Paley and Butter in action," Col. Sarnoff said, "and both are doing an outstanding job."

Col. Sarnoff himself was awarded the Legion of Merit for "exceptional meritorious conduct at the performance of outstanding service." He was cited for his "outstanding devotion to duty and his high degree of great diplomacy in handling the French citizens."

The nature of Col. Sarnoff's present assignment and its duration are not known.

---

**Meeting To Plan NAB Bureau Held**

**Define Laws, Procedure and Method of Operation**

FIRST organization meeting on the proposed Bureau of Measurement of Radio Circulation, projected by the National Assn. of Broadcasters, was to be held last Saturday at the Hotel Roosevelt in New York to prepare a proposition on the basic outlines of the bureau, which will be submitted before the NAB Board of Directors, meeting in Chicago this Tuesday. Further planning will be done today (Monday) at a meeting in the Stevens Hotel, Chicago, of the subcommittee of the board in charge of research.

Representatives of the NAB met Saturday with members of the ANA and the AAA, both of which has officially announced the project, to lay plans and to define laws and procedures and method of operations for the bureau, for which they have a fiscal yearly appropriation of $75,000.

---

**Chicago Meeting**

The NAB will be represented Monday by Hugo Felts, KFAB Lincoln, NAB director who will act as chairman, Harold Ryan, president; Paul F. Peter, research director; C. E. Arney, secretary-treasurer; Roger W. Cliff, WFLP Philadelphia, chairman of the re-appointed AAA; Ed Green of the ANA will be represented by Paul West, president; Don B. Stetler, advertising manager, Standard Brands Inc.; E. H. Rabein, secretary, AAA; Joseph M. Allen, assistant vice-president and advertising manager, Bristol-Myers Co. AAA members will include Fred Gamble, president; Robert Jackson, staff executive; Carlos Franco, manager and supervisor of station relations and timebuying of Young & Rubicam, New York; William Van Horne, chairman of the AAA timebuying committee; L. D. H. Weld, director of research, McCoy-Erickson, New York, and AAA chief of research.

Those attending the Chicago meeting on Monday will include Mr. Ryan, Mr. Felts, Mr. Clipp, Frank King, owner and general manager, WMBR Jacksonville; Hugh B. Terry, general manager, KLZ Denver.

---

**4 More to ETO**

FOUR new radio correspondents have been accredited by the War Dept. within the last ten days for assignment to the European Theatre replacing four correspondents just returned. Leland Stowe is responsible to Ed Shelley WHO Des Moines, Jack Parker WJIM Lansing, Dick Redmond WHP Harrisburg, Pa. The correspondents rejoin their units and are now assigned their coverage areas or units from Headquarters there. Several more radio men are expected to arrive for the Pacific Theatre as soon as their credentials are cleared.

---

Page 14 * November 13, 1944
Wide-Band Multiplex Relay Tests Granted

GE, IBM to Start Point-to-Point Experiments

ONE WEEK after the FCC allocation hearings closed (Nov. 2) the Commission gave two firms the go-ahead in proposed experiments with multiplex wide-band relays in the ultra-high frequency band to develop a new system of point-to-point communications and for the relaying of television and FM programs and facsimile.

At last Thursday's session the FCC granted applications of the International Business Machines Corp. and General Electric Co. for five experimental Class 2 stations to be located in Washington, New York, Schenectady and New Scotland, N. Y. Six 60-mc continuous bands were allocated from 1900-2300 mc for the experiments.

W. U. Objects

Western Union Teleg. Co. filed objections to any commercial operations by IBM and GE and the FCC granted the authorization expressly for experimental operations. The question of whether the applicants might at any time in the future be authorized to engage in commercial operations was left open. In granting the applications, the FCC director of both IBM and GE as follows:

"It is to be clearly understood that neither this grant by the Commission, nor any future grant of licenses to cover such construction permits, is to be construed as a finding or indication that the Commission will hereafter grant you further authorization in connection with the operation of these, or any other stations, to engage in the activities of a communications common carrier for hire or for any other purpose."

Construction work is expected to begin immediately, although it was pointed out some of the equipment, particularly tubes for ultra-high frequencies, is non-existent or classified. IBM and GE hope to be ready to begin actual tests immediately after all freezers are lifted, according to A. H. Landis of Davises, Richberg, Beebe, Busiek & Richardson, Washington law firm representing IBM.

Less than a fortnight before the grant Walter S. Lemmon, general manager of the Radiotube Division, IBM, and H. B. Fancher, Radar Engineering Sec. No. 1, Transmitter Division, GE, outlined hearings on relays their proposed plan. Mr. Lemmon, whose company has been experimenting with the possibilities of relays in the ultra-high frequency spectrum for seven years, told the Commission that the plan proposes operation of automatic booster stations to carry simultaneously two high-definition television services in either direction, two or three FM broadcast channels, several facsimile channels and a number of high speed circuits for the remote control of business machines, electric typewriters and office devices [Broadcasting, Nov. 6].

Three transmitters and a directional antenna will be installed on IBM's roof of the Hotel Mayflower, Washington, the station to be operated by remote control from the IBM Washington headquarters at 1111 Connecticut Ave., NW., a short distance away. IBM also will install six transmitters and a remote control point at 490 Madison Ave., New York.

Schenectady will place a terminal station in Schenectady and a relay station at New Scotland, where four transmitters also will be installed in the existing towers of W2XI, television relay station of GE. The Schenectady station and remote control point will be located at 60 Washington Ave., where two transmitters and directional antenna systems will be installed on the existing tower of W2XGE, also a television relay station.

FM to Be Used

Mr. Fancher told the Commission during the allocation hearings that carrier frequencies, to start such a system in the immediate future, no doubt would be limited by available tubes, all of which are classified, but GE proposes to experiment in the 2,000 mc region, although he pointed out that undoubtedly higher frequency will eventually supplant this link.

Frequency modulation will be used in the experiments since it is less affected by interference and gives a better signal to noise ratio, Mr. Fancher said. FM also was determined to be a more efficient way to multiplex.

To produce a relay system, IBM and GE plan to use two-way channel assignments for a single two-way circuit. The frequencies will be staggered so that a single frequency will be used at a given relay point to receive both from the north and from the south. A single different frequency is used for the north and south transmitters at the same location.

Highly directive antennas with beams in the order of 6 degrees, using parabolas or horns to obtain the required directivity, are planned.

Appearing before the Cleveland Advertising Club last week, J. D. McLean, manager of GE's television broadcasting equipment sales, predicted that within five years after the war there will be more than 150 major television stations in operation. He said 80 stations will be built as soon as manpower and materials are available.

One of the main goals of the IBM-GE experiments in the ultra-high frequencies is a network of relays for television, eliminating the need for coaxial cable exclusively. Raytheon Mfg. Co., Western Union, AT&T, the U. S. Independent Telephone Assn., and a former Washington consulting engineer and former chief of the Domestic & Foreign Branch, Radio & Radar Division, War Production Board, all proposed relay networks, some to operate in conjunction with land lines, during the allocation hearings [Broadcasting, Nov. 6].

Applications Pending

Applications for the frequencies granted last Thursday have been on file with the FCC since Aug. 10. Pending according to John Convery of Western Union for eight channels, ranging in width from 9-24 mc, in the band from 2,000-11,324 mc, filed Aug. 10 and refiled with amendments Oct. 25. The Commission last June 20 granted AT&T four 60-mc channels between 2,000-4,360 mc and two 200-mc channels between 1,500-1,920 mc.

For television relay service Philco Corp. was granted construction permits in late September and early October for eight 18-mc channels between 2,440 and 2,624 mc. Philco has operated W5XPR New York on 230-242 mc for three years. License for GE's W2XKI New Scotland, which operates on the 192-198 mc frequency, was granted May 6, 1942.

RTPB GROUP SETS LOW WAVE POWER

POWER STANDARDS for the proposed extended frequencies of the standard broadcast band were adopted Friday at a meeting in Washington of the Allocation Committee, Panel 4, Radio Technical Planning Board, of which A. D. Ring is chairman.

For the 540 kc channel the Committee voted 10-5 to make it a regional with power of 1-5 kw. The 530 and 520 kc proposed channels would be local, with maximum power of 200 w, as proposed by the Committee. The 600 was 11-4 on the 530 channel and 12-4 on 520. By a vote of 8-1 the Committee recommended that antenna heights of two or more local channels be 160 feet.

The recommendations will be submitted to the full Panel for final vote.

Teel on NBC

PROCTER & GAMBLE Co. on Nov. 10, the first day of its three-and-a-half-week sponsorship of "Gaslight Gayeties" on 135 NBC stations Sat., 8-8:30 p.m., with Beatrice Kay, Michael O'Shea, Charles Halton, Hal David, Barber Shop Quartet and chorus, Al Rinker, producing. Agency is Blow Co., New York.
Greatest Audience in History Hears Air Coverage of Election

Commercials Thrown Aside for Fast Reporting Of Results From All Parts of Country

AN AUDIENCE estimated to have been greater than any other ever reached by the voice of radio over a sustained period of programming listened yesterday to the night of Nov. 7 as American broadcasting stations covered the election.

Networks and independent station commercial programs ruthlessly to be first with the ballot count reports.

C. E. Hooper Inc. placed the audience at 50.3% for three hours (7 to 10:30 p.m.), an average figure computed from reports made by the survey organization's reporters over the nation.

Hooper Survey Results

This index compares with the previous Hooper highs of 37.5% sets-in-use on D-Day and 49.8% on Pearl Harbor Day, Dec. 7, 1941.

Hooper surveys on comparative listening ratios of the networks reveals the following lineup:

NBC was first with an average of 19.3%, 49% over the next highest network and 41% over the combined total of the third and fourth networks. According to Hooper, CBS placed second, Blue third and Mutual fourth. Mutual's average audience rating was 14.7. CBS and Blue did not divulge their exact Hooper ratings.

President Roosevelt's Philadelphia broadcast Oct. 27 on MBS and CBS 9:54-4 p.m. attained a CAB rating of 33.4, second only to his Sept. 23 Teamster's Union address, which received 26.4, top campaign rating recorded by CAB up to the last week before the election.

Gov. Dewey's Minneapolis speech on NBC and Blue Oct. 24, 10:30-11 p.m. rated 20.5, his Chicago address on CBS 13.6.

Loss of Revenue

Networks alone devoted about 32 hours to election coverage between 7:30 p.m. Tuesday and 4 a.m. Wednesday. It is estimated they sacrificed in cancelled commercial programs upwards of a half-million dollars. This figure, combined with the cost of network talent and the cost of talent and time on independent programs, leads to a minimum estimate of $2,000,000 sacrificed to bring returns to listeners.

The two national committees of the major parties estimated they spent $1,500,000 each on networks for time and talent.

Figures offered by the networks place the total expenditures by the national committees on the chains at about $1,601,990. The Blue reported $665,990 to the chains, and the networks, and interested groups, of $365,000; MBS, $656,990; CBS, $291,000; and NBC, which refused to release dollar figures but made available only time figures, about $440,000. This picture is somewhat complicated by the fact that the CBS report is net, while the reports made by MBS and the Blue are gross.

From early evening, when voters still were lined up at their voting places and scattered returns were just beginning to come in, until after Governor Dewey's concession to the election, networks scrambled their regular Tuesday evening schedules, retaining only regularly sponsored newscasts.

Election schedules began at 7 p.m. on the Blue, 7:45 p.m. at Mutual, 8 p.m. at CBS and NBC. MBS signed off at 7:30 a.m. on Wednesday.

The Blue and Mutual, at 7:30 a.m. and 7 a.m., respectively, presented summaries of the night's election returns, networked to all stations.

From 7:30 a.m. to 10 a.m., network newscasts followed the regular time period for stations an hour behind, with Mutual, at 8 a.m., being first to sign off.

On Wednesday morning, Tom Slater, special events director of MBS, and Dave Driscoll, news editor of WOR New York, opened the all-news broadcast of the MBS reporting of election-night activity. Charter Heaslip, newly appointed MBS Washington representative, acted as election editor at New York headquarters.

Archibald Crossley, research expert, analyzed trends.

Outstanding among the MBS returns were those of overseas pickup, with Milton Bracker, New York Times correspondent in Rome; Arthur Mann, CBS representative in Paris, and Owen Cunningham, Mutual man at Pearl Harbor, reporting on GI election reactions.

CBS election coverage, under the direction of Paul White, director of news broadcasts, began election return broadcasts at 6 p.m. with early returns broadcast on regular newscasts. Bob Trout, on the air 31 times for a total of three hours and 54 minutes during the night, introduced members of the CBS election staff in a special broadcast at 6:30 p.m.

LaRoche Leads Off

Other highlights of CBS coverage included interviews with the country's youngest voter, a girl just 18 on election day, and the oldest voter, who was 108; Edward R. Murrow, broadcast from London, reflecting British reception of election news; interviews with Norman Thomas, Socialist candidate for President, and James A. Farley, former chairman of the Democratic National Committee. Trend analyses were broadcast by Elmo Roper, conductor of the Fortune polls.

The Blue's election night program was opened by a special address by Chester J. LaRoche, vice-chairman of the network.

Oct. 27, 1949  Samuel H. Cook  Nov. 8, 1944

SAMUEL H. COOK, 65, president and part owner of WFBF Syracuse and former vice-president and general manager of the Brown-Lipe-Chapin division of General Electric Co., died Saturday at the Harkness Pavilion, New York, following two months of treatment and hospitalization and a four-month illness.

Born in Ogdensburg, N. Y., Mr. Cook was graduated from Syracuse U. He became the first graduate manager of athletics of the school in 1905. He had been a member of the athletic advisory board for 20 years and also was a member of the board of trustees.

Mr. Cook's first business activity was with the Syracuse Post Standard, which he left in 1905. In 1910, after his tenure as graduate manager of athletics, he became production manager of Brown-Lipe-Chapin Co. upon its formation. When this company became a division of General Motors, Mr. Cook became its vice-president.

He was director of the Merchants National Bank & Trust Co. and Central New York Power Corp., member of the board of directors of the Syracuse Boys' Club, advisory committee of the Memorial Hospital, Vestryman St. Paul's Episcopal Church, Endowment Fund, Boys' Club of Syracuse; University Club of Syracuse; and University Club of New York.

Services were to be held Saturday at St. Paul's Episcopal Church, Syracuse.

Mr. Cook is survived by his second wife, whom he married in 1943, and by his daughter, Mrs. C. H. Sanford, and two grandsons.

Mr. Cook had been identified with WFBF, in which he owned approximately a one-third interest, since 1932. He resigned his General Motors post in 1930. His associates were O. F. and R. J. Soule, each of whom owns approximately a third of the station.

Official Thwarted

ATTEMPTS of Edward J. Hummel, Ohio's Secretary of State, to have the 15 votes from Mahoning County Board of Elections were thwarted in a last-minute move by WKNB and WMJF. Warren P. Williamson Jr., owner of WKNB, cited a telegram signed by Mr. Hummel and addressed to the Honoring Elections Board as follows: "...you are not to permit any witness to candidates to attempt to count ballots or to handle precinct books nor are any microphones, or radio, to be allowed in the Board of Elections."

LaRoche explained the procedure which would be followed by the Blue staff in announcing returns and trends to listeners.

Paul Whiteman's orchestra played during Blue periods when returns were not being broadcast. Edward J. Noble, board chairman, introduced a special program honoring the memory of Wendell Willkie. Eric Johnston described significance of the election.

In a program at 9 p.m., William F. Brooks, director of news and special features, explained the coverage plan. W. M. Kiplinger, guest expert, gave an economic address from Washington.

WBNT, NBC video station in New York, was on the air from 6:45 p.m. until 1:05 a.m., relaying its program families to Philadelphia where WPTZ rebroadcast. WCBW, CBS television outlet, depicted the trend of the voting from 8:30 p.m. until 11 p.m. through the du Mont station, from 8:15 to 11 p.m.

The Chicago Sun, in cooperation with station WKBK, broadcast the returns visually.

Special enterprise was indicated by independent stations reporting at times broadcast by WKBK, among them WTCI KOOK WINX WLW WFIL KSD WNAC KLZ WHOM WPEN WBZ.

NAB Roundtable

NAB's proposed Bureau of Measurement, a main topic discussed at Radio Roundtable to be held Wednesday afternoon at AAWC's meeting in Washington Nov. 16-17. Don Stetler, Standard Brands, and ANA radio committee chairman will present.

Mr. Baker Named

MRS. ELEANOR BAKER, widow of L. R. Baker, chief of transmitter equipment sales of RCA Victor, last week joined RCA Victor Division in Camden in charge of post-war survey style and design. She will work with Allan Mills and under Thomas F. Jones, manager, Camden, Television & Phonograph Division.

Wheeler Assails Radio as Monopolistic

‘Dollar-Hungry’ Charge

Heads Ten-Point

Indictment

In the lead article, entitled “The Shocking Truth About Radio”, appearing in the Nov. 6 issue of the newspaper published weekly by Sen. Robert M. LaFollette Jr. (P-Wis), the broadcasting art as practiced in America is excoriated by Sen. Wheeler.

He charges that radio in this nation is heading for “increased monopolistic control” or “Government ownership”. He states that radio has “the most powerful lobby ever seen in the Nation's Capital”.

Decrees Monopoly

He insists that America's 910 broadcasting stations are “at the economic mercy of... three or four big corporations”. The chairman of the Interstate Commerce Committee and co-author with Sen. Wallace White (R-Me.) of the White-Wheeler Bill (S-814) asserts that his bill is not dead.

The legislation is designed to reorganize the procedure of regulating broadcasting and replace the Communications Act of 1934. The bill was not placed before the Committee after hearing in the spring of 1944 when Sen. Wheeler, after playing broadcasters for a time in an attempt to remove from the proposed legislation a ban on the sponsorship of news, pigeonholed it. At that time, Sen. Wheeler said the bill was dead (BROADCASTING, June 5).

Today he says it is alive and pending before the Committee. Sen. Wheeler maintains that it does not represent a cure-all, but that it will contribute to the eradication of these “evils”, which make up the bill's particulars in his article in The Progressive. His points are:

Generally speaking, the industry:

1. In “dollar-hungry”; too much of what it does or fails to do is measured by the amount of money in it or the amount of money it will make.
2. Is run by men who have little or no conception of the public welfare. (Such as Col. David Sarnoff, Capt. Harry Butcher, William S. Paley, J. H. Ryan, Walter Brown, Lt. Comdr. George B. Storer, Gordon Gray, etc.)
3. Insists on regarding itself as “private enterprise” in the same sense that a gasoline filling station is private industry. (Has anyone seen any attempts by the Federal Government to control gasoline prices?)
4. Is dominated and substantially controlled by absentee owners. (Let's look at the record. It won't bear him out).

Of these, he says, 25 operate on clear channels; and of the last 16 are “owned directly by the three major network corporations or the persons who own the networks, and three others are managed by networks.”

He concludes that 19 of the “richest” stations in the country are absolutely owned or controlled by the chains.

He emphasizes that these 23 clear channel stations are in the eastern part of the United States and that, inasmuch as they are originating points for the network programs they originate... bear unmistakably the stamp and feeling of only one section of the country.

Sen. Wheeler summarizes with figures purporting that 448 stations average less than $5,000 profits each annually. He charges that the three major networks, on the other hand, in 1943 showed profits in the millions of $60 to 65%.

Favors ‘Elastic’ Control

Sen. Wheeler repeats his contention, stated frequently during hearings on the White-Wheeler bill, that radio had failed to advance program standards and that “Hartley and Hollywood sexy love dramas are the daily radio fare because those who control programs are influenced by their particular local considerations.”

He adds that when “the average radio commentator speaks about free speech he means his own personal... right to free speech or to an answer him.”

“In my opinion” says the Senator, “the profit motive is all compelling within the controlling element in the industry.”

He charges that radio wants no regulation. He observes: “It is desirable that regulation be as elastic as common sense and good taste will permit; it is important that regulation be as sensible and as fair as it is possible for people of prudently men will permit. Congress cannot legislate honesty and fairness and common sense into either

Wheeler’s Shocking Ten Points . . . . . An Editorial

SENATOR WHEELER says (and we answer):

1. The radio industry is dollar-hungry. (Without going into detail, it is significant that this greedy industry donated time and talent last year in the amount of $103,882,000 to OWi campaigns alone.)

2. It is run by men who have little or no conception of public welfare. (Such as Col. David Sarnoff, Capt. Harry Butcher, William S. Paley, J. H. Ryan, Walter Brown, Lt. Comdr. George B. Storer, Gordon Gray, etc.)

3. It insists on regarding itself as “private enterprise” in the same sense that a gasoline filling station is private industry. (Has anyone seen any attempts by the Federal Government to control gasoline prices?)

4. It is dominated and substantially controlled by absentee owners. (Let's look at the record. It won't bear him out).

5. It is largely at the mercy of the so-called network organizations. (The NAB board, which represents over two thirds of America's broadcasters, includes 27 members. Only TWO voting members are from the networks.)

6. It has warded off any suggestion for elevating program standards. (After hearing some of the entertainment fare offered by politicians in recent weeks, one could almost condone such an arbitrary attitude even if it was true.)

7. It has made little attempt or progress in eliminating programs of questionable taste or value, or in reducing the amount of commercial advertising per program. (Recommended reading: NAB Code.)

8. It has taken no action to insure equality of access to radio facilities to varying views and opinions. (One reflects at this point on such productions as The Herald-Tribune Forum, Town Meeting of the Air, the American Forum of the Air, the University of Chicago Roundtable.)

9. Has not been diligent in making available a FREE UNSPONSORED BASIS for the presentation of public issues, and similar programs designed to give the listener a greater insight into our nation's social, religious, economic, political and international problems.

10. Has suffered from political pressures from within Government which has led it to exercise partiality for whichever party is in power or for particular individuals or for particular political or social policies.

Analysis of Ownership

In his analysis of investment ownership of American broadcasting stations, Sen. Wheeler states that in 1942 there were 881 licensed broadcasting stations, of which 380 are owned by individuals, 40 holding licenses... with 50,000 w power... earning annually 90 times as much as the small stations.

Page 18 • November 13, 1944
First the station's business had to be built by thorough national representation — by Weed & Company. Then, because Weed men are first to reach time buyers and advertisers from coast to coast, available time shrank and the station could seek new fields to conquer. A better antenna means better service to sponsors and public — just as "Nationally Represented by Weed & Company" means better service and more business to stations.

Radio Advertising Isn't Like Baseball...

YOU HIT 'EM WHERE THEY ARE — NOT WHERE THEY AIN'T

"Hit 'em where they ain't," they tell rookie batters.

But the folks who invest their money with WENR aren't rookies — they hit the sales talks out to the crowds — the crowds with nice fat incomes — the crowds with money to spend and of a mind to spend.

How else account for the 18 new advertisers in the last 30 days? — and the 33 renewals out of a gross 51 who have been regular advertisers over this powerful Mid-Western voice?

We've got a nice fat folder of case histories, graphs, charts, figures, names and sales records for those of you who are of a mind to learn how to increase sales at a low per-unit cost — a folder that points to the one way to reach — and sell — One Tenth of a Nation through one well-compressed, economical medium.

Murrow Describes French Video Gain

Surprising Strides Found Despite German Occupation

FRENCH television progress has made "surprising strides," despite the German occupation and has developed pictures "clearer, sharper and larger" than any in the United States before the war, Edward R. Murrow, chief of the CBS European staff, reported Nov. 6 on his Sunday afternoon broadcast for American Oil Co. He said:

"Paris today is a city of rumors. I encountered one, rather more incredible than most, and it turned out to be true. The story was that even during German occupation one of the great arts of peace — television — had made surprising strides and, while television had more or less stood still in every other foreign country, it had gone swiftly forward in France. I've not myself been a demonstrator of this development, but I have talked with reliable observers who have seen it in Paris, and I've had access to detailed, though confidential, technical reports. I don't know what the Germans have done with television nor do I know what may be waiting to emerge from the laboratories in the Allied countries, but there has been developed in Paris television in which the picture is clearer, sharper, and larger than any that was being transmitted in America or in Britain before the war. The rumor turned out to be true. And it is mildly encouraging to find evidence of progress in the midst of all the dying and destroying that is going on in Europe."

CBC Overseas Shifts

While Matthew Halton, CBC war correspondent, is in Canada on leave and making a tour for the Victory Loan campaign, A. E. Powley, overseas news chief, is with the Canadian troops in France. Andrew Cowan has been accredited to SHAEF Paris, from the London bureau, and is to establish contacts with the French government. Marcel Ouimet is with the First Canadian Army for the CBC French network. Bill Herbert, who has been in France since a few days after D-Day, is now in Italy with the Canadian First Corps. replacing Peter Stursberg who is now in London and is expected to come to Canada later this year on leave. Benoit Lafleur, covering Italian operations for the CBC French network, has returned to London and his place has been taken by Paul Barrette of the London Bureau. Mr. Lafleur is expected to replace Mr. Ouimet later to give the latter special leave.

WOAI Names Peery

FRED A. PEERY, with WPAA Dallas following release from the Army, has been appointed sales promotion manager of WOAI San Antonio, it was announced last week by Hugh A. L. Halff, president and general manager of WOAI. His previous experience includes newspaper work, sales work and radio audience research and analysis.

No Gum, No Program

UNABLE to get sufficient raw materials for its Teaberry and Tendermint gum to justify the advertising expenditure, Clark Bros. Chewing Gum Co., Pittsburgh, Nov. 26 discontinues John J. Anthony's Goodwill Hour on 119 MBS stations, Sunday, 10:15 a.m. The program is expected to be taken up by another sponsor.
Turkey raising is another "big business" out here in the KFAB area. Thousands upon thousands of fancy young turkeys raised here in the Middle West start rolling to the big Eastern markets shortly before Thanksgiving.

That means a lot of "Turkey Cash" to farmers in the KFAB area. Turkey money plus income from livestock, wheat, corn, and dairy products all add up to a whale of a lot of buying power.

When folks out here think of buying, they naturally turn to products they've heard about over KFAB, THE BIG FARMER STATION.

**Nebraska Is Able To "Talk Turkey"**
In 1943, Nebraska poultrymen raised 1,140,000 turkeys. For 1944, the estimated Nebraska turkey crop is 1,163,000 birds. Nebraska is but a part of the vast KFAB area.

*State-Federal Division of Agricultural Statistics, Lincoln, Nebr.*
**WHEN YOU GO A HUNTIN’**

**Don’t Scatter Your Shot**

**NAB Chicago Board Meeting to Review Code in Light of WHKC-CIO Dispute**

**When you go a huntin’ don’t scatter your shot.**

**NAB Code [Broadcasting, Aug. 21, 28].**

Members of the NAB Board, in addition to President Ryan and C. E. Arney Jr., secretary-treasurer, are:

- Paul W. Morency, WTCIC Framingham, Mass., industry consultant.
- William L. Bridges, assistant director, WBCB Milwaukee, Wis., treasurer.
- J. R. Jones, WFXJ Miami, Fla., vice-president.
- John E. Eubanks, WENY Denver, Colo., regional director.
- William B. Ryan, KPPI Los Angeles, Calif., president.
- John E. Peters, WNBK New York, N.Y., national president.
- Frank M. Ruskell, WVCB Chicago, Ill., general counsel.
- J. Whiting, WMDT New York, N.Y., national secretary.
- Richard H. Moss, WROM Washington, D.C., general manager.
- John E. Peters, WNBK New York, N.Y., national president.
- Frank M. Ruskell, WVCB Chicago, Ill., general counsel.
- J. Whiting, WMDT New York, N.Y., national secretary.

**SESAC Package Show**

TO MAKE more music available to its licensees, which include almost all U.S. commercial stations, SESAC is putting out a package show comprising 35 quarter-hour programs to be sold to stations as a unit. Paul Heinecke, president, announced last week.

Titled Pappy and His Hired Hands, with Pat Barnes as Pappy, the cornhusker philosopher, the show is paced rapidly enough to include nine or ten new listeners—billboards, western, folk song and novelty—per program. Series, cut by Columbia Recording Corp., is offered to all stations on a non-exclusive basis.

**Religious Meeting**

PLANS for the formation of an association composed of religious programs will be discussed by an organizational committee meeting Nov. 23 in New York, under the chairmanship of Willard Johnson, assistant to the president of the National Commission for Christians & Jews. Association was projected last spring at the 15th Institute for Education by Radio, at Columbus, Ohio, to tackle the problem of so-called “Racketeering religious programs.” A committee was mandated to meet this fall and decide what form the group should take [Broadcasting, May 16].

**Heavy Tube Demand**

MINIATURE vacuum tube needs for airborne radio and radar equipment during the first three months of 1945 will increase considerably, WEPB officials told doctors at Morningside and Wittenberg Wire and Rod Industry Advisory Committee meeting at WEPB. Emphasis is on replacement of more complicated electronic equipment requiring fine wires and rods. A Radio and Tube Division official said, pointing out that requirements will remain high even after the end of hostilities due to a civilian demand for 115,000,000 radio receiver tubes, which will more than offset the overproduction now put at 15% rather than the 40% predicted before [Broadcasting, Sept. 11]. Present rate of tube attrition is twice the production level, WEPB revealed.
Of exclusive Amperex design! These four words, denoting an "Amperextra" reflected in better performance, have been used in a number of instances when describing our products. Of exclusive Amperex design, for example, is the channel support of our transmitting tubes. This feature results in more rigid support of tube elements. Exact inter-element alignment is assured. This, in turn, means absolute freedom from change in characteristics that might ordinarily arise from shock and vibration either in shipment or service.

There are more than 100 different types of Amperex tubes for broadcasting, industrial and electro-medical applications. An Amperex engineer will gladly assist you with your present or postwar problems.

RTPB Television Controversy Aired
Lodge Says Navy Disagrees With Data Interpretation

ECHOES of the battle between advocates of present-hand television and proponents of higher-spectrum video, waged in words before the FCC during allocation hearings which closed Nov. 2, were heard last week as the last of final exhibits were recorded.

William B. Lodge, general engineering supervisor of CBS, entered a statement in which he disclosed a controversial paragraph of a letter formulated by a group of Panel 2, Radio Technical Planning Board, intended for an exhibit but withheld at the last minute [BROADCASTING, Nov. 6].

The letter was to have been introduced at the closing hearing by Dr. C. B. Jolliffe, chairman of Panel 2 and chief engineer, RCA Victor Division, RCA, acting as a “committee of one.” During a Panel 2 meeting the preceding night heated argument resulted, with Navy officials opposing certain portions of the letter, along with Mr. Lodge. CBS advocates television above 400 mc, while RCA has urged the Commission to keep the art in its present spectrum location.

Following is full text of Mr. Lodge’s statement:

This statement is filed as a result of a special committee of RTPB held on Oct. 28, 1944, and additional information developed at a meeting held on Nov. 1, 1944, attended by members of Panel 2 of RTPB and by its military observers.

At the Nov. 1 meeting, the chairman of that meeting advised the members of Panel 2 that a statement developed as a result of the Oct. 28 meeting would be read into the record at the hearing in Docket No. 6651 the following morning. Although that statement was not read into the record, as announced, its contents are now generally known, and the section relating to propagation reads as follows:

Propagation—Limited experience indicates that propagation varies with all frequencies considered for television. The effects of some of these phenomena decrease with increasing carrier frequency and others increase with increasing carrier frequency. Therefore, channels in any single region of the frequency spectrum should be subjected to appropriate field tests of experimental nature before allocating channels for commercial broadcasting.

Lest the conclusion of that section of the statement be interpreted to apply to any particular frequencies, or against other frequencies, I believe it will be of value to the Commission to know that the Navy expert on radio wave propagation who was present at the meeting on Oct. 28 stated at the Nov. 1 meeting that no such conclusion is warranted on the basis of the information supplied. Specifically queried on the controlling factors involved, he further stated that in his opinion the sporadic E phenomena encountered between 50 and 90 mc might represent a more formidable problem than tropospheric effects at 400 mc.

In addition, it may be of interest to the Navy member of the IRAC stated at the Panel 2 meeting that the military members of the IRAC, who necessarily had access to the classified military data concerning wave propagation, have learned nothing since the preparation of the IRAC proposed allocations plan which would alter the conclusions reached in that plan.

Station Flown
A COMMERCIAL shortwave station weighing 25 tons was flown from Italy to Southern France. RCA Communications reported last week. Station is expected to go into operation within 10 days under Brig. Gen. Tristram Tupper, public relations officer, 6th Army Group, for Government, press and Expeditionary Force message traffic. The equipment was transported in 14 C-47’s in a few hours. Mallory Mueller, NBC correspondent said in a radiogram. The feat was a result of the organization of the Army and RCA technicians under Thomas D. Meola. Responsible for much of the planning and establishment of the station are Capt. Lawrence G. Hoover Jr., press communications officer, information and historical section, and 1st Lt. Carl G. Zimmerman, formerly of WEMP New York, air radio officer, both of Headquarters, 6th Army Group.

RIT PRODUCTS CORP., Chicago, on Oct. 1 began new announcements on WKBW and WGR Buffalo. Contracts for 13 weeks were placed by Earl Ludgin & Co., Chicago.
Get millions of new listeners—no duplication—at new low cost per actual listener! Amazing Hooper Survey now proves that most people in the significant small town areas surveyed listen predominantly to local Keystone Network stations. Millions cannot hear outside wired network stations. MORAL: Extend your programs to "Beyond-Metropolitan" America via the K.B.S coast-to-coast network.

NEW APPLICATIONS filed with the FCC during the past fortnight include requests for six new standard stations, three FM outlets and four commercial television stations.

Skyland Broadcasting Corp., Dayton, O., requests standard facilities of 980 w and day-time hours of operation. President and quarter-owner of the company is Ronald B. Woodyard, president and 97% owner of WINK Pt. Meyers, Fla.; vice-president and 45% owner of WIZE Springfield, O., and applicant for a new station at Utica, N. Y. L. M. Berry, president of L. M. Berry & Co. Ltd., Canadian phone book publisher, who also holds telephone and banking interests, is vice-president and quarter-owner of the company. J. P. Gallaher, president and major owner of Gallaher Drug Co., chain group, is secretary-treasurer and 55% owner. Remaining quarter-interest is held by Gustav Hirsch, of telephone and real estate interests.

Assignment on 1490 kc with 250 w and unlimited time is sought by Wichita Broadcasting Co., Wichita, Kan., president and half owner of which is Charles K. Schwartz, partner of William J. Fried in the law firm of Gottlieb & Schwartz. The latter is secretary and also half owner of the new company. Ralph L. Attaas, treasurer, is president and 27% owner of WINO Chicago and is also vice-president and 56% owner of WLOI Minneapolis. C. L. Pursley, district representative for Texas Co. in Mobile, Ala., and Louise Patterson Pursley, quarter-owner of WAPO Chattanooga, Tenn., doing business as Pursley Broadcasting Service seek a new standard station for Mobile on 1490 kc with 250 w and unlimited time. Mrs. Pursley also holds half interest in Patterson Broadcasting Co., applicant for a new local station in Birmingham. Raoul A. Cortez, owner and managing director of Mexican Commercial Hour and Cortez Spanish Programs, requests 1300 kc, 1000 w and day-time hours for a new standard station to be located in San Antonio.

Midwest Broadcasting Co., Milwaukee, has filed for a new standard station on 1250 kc with 5,000 w and unlimited time, using a directional antenna at night. President is John Fleissner, 125 shares (21%), treasurer and part-owner of Taylor Mfg. Co. (scientific equipment). Vice-president and general manager is G. E. Ingraham, 125 shares, president and part-owner of Droegkamp-Ingrahm Corp. (electrical appliance distributor). Clifford A. Randall, secretary (100 sh.), is a lawyer and has real estate interests. Oliver J. Vivian, treasurer, and Herbert E. Uhlein, both local businessmen, each holds half remaining 250 shares.

San Diego, Calif. standard outlet on 1150 kc with 1000 w and unlimited time, employing a directional array at night, is sought by San Diego Broadcasting Co., half-interest in which is held by J. Frank Burke, vice-president and principal owner of KFVD Los Angeles and KPAS Pasadena. President and treasurer is O. Arnold Smith (25%), with banking and management interests. Secretary is A. Smith, secretary, is quarter-owner. He has oil and real estate interests.

Santa Catalina Island Co., subsidiary of the Wrigley family interests, is applicant for a new FM station to be located at Avalon, Cal., on 34,700 kc with 34,500 w coverage. Estimated cost is $223,000. Mr. Wrigley formerly held a 36% interest in WJDD Chicago. Licensee of WMFR High Point, N. C., requests a new FM outlet on 45,100 kc with 5,080 sq. mi. coverage and estimated cost of $14,800. Greensboro Broadcasting Co., licensee of WQGD Greensboro, N. C., seeks a new FM station on 44,500 kc with coverage of 11,130 sq. mi. and $27,500 estimated cost.

Interstate Circuit Inc., regional theatre chain in which Paramount Pictures has an interest, has filed for a new commercial television station on Channel 2, to be located in Dallas, Tex. Radio Sales Corp., licensee of KRSC Seattle, Wash., requests Channel 1 for the new commercial television outlet for which it has filed application. Cincinnati Broadcasting Co., owned by the John Shillito Co., Cincinnati department store affiliated with the Federated Department Store interests, seeks a Channel 7 commercial video outlet for the Queen City. Times-Mirror Co., publisher of the Los Angeles Times which has previously filed for a new FM station, now requests a new commercial television station on Channel 5.

Pangborn Elected

ARDEN X. PANGBORN, managing director of KGW and KEX, was elected president of the Advertising Federation of Portland, Ore. Mr. Pangborn also is a member of the NAB Code Compliance committee and representative of Pacific Coast NBC affiliates. Mr. Pangborn's plan for work's planning and advisory committee. Leigh Abbott, public relations director of KXL and James Mount of KXL were elected to the federation's board of governors.

DONALD S. BOND, of the Communications and Industrial Equipment Engineering, Dee of the RCA Victor Division of RCA, has written Radio Direction Finders (McGraw-Hill Book Co., New York), a "text-book and reference work for training electrical engineers who desire to specialize in the design or theory of direction finders for aircraft, shipboard or fixed-station use."

Frankly, WE'RE
A WEE BIT CONFUSED!

Not long ago we tried our hand at ad writing. You may have noticed our "one line" spreads. One of them told about a WLAC program pulling 40,223 orders for a $1 item. Another revealed that 5 leading Nashville department stores are using 51 quarter-hours every week.

We thought we'd hit upon a pretty good idea—especially when one agency man wrote, "Please tell us how you do it." Yes, our single-line ads attracted a lot of attention, in fact too much.

Some of the boys in Washington wanted to know how come we're "wasting paper"! Maybe we are a bit naive, but what difference does it make whether we take one line or a hundred to tell our story? Anyway, far be it for us to argue the point. From now on we'll use more ink!

WLAC

‘Cleveland Plain Dealer’ Poll Chooses Bing Crosby Again as Radio Favorite

POLLS by the Cleveland Plain Dealer of readers in Cleveland and 108 other Ohio cities and towns again has named Bing Crosby radio favorite personality. Other results of the survey for 1944-45, claimed to be the oldest of its type in the country, follow:

PROGRAM CHANGES: Here is the Plain Dealer 1944-45 All-America Radio Program Team, in order of readers’ votes:

DANCE BANDS: Here is the Plain Dealer 1944-45 All-America Dance Band Eleven, in order of the voting:

The following four programs revealed following in this order: 1. One Man’s Family; 2. Those We Love; 3. Mr. District Attorney; 4. Mayor of the Town; 5. The Alcoff Family; 6. Blenheim; 7. Bachelor Children.

SYMPHONY: Here are the four leading Symphony series in order:

LIGHTER MUSIC: Six series indicated good followings:

THE SINGERS: Here are the radio vocalists as rated by Plain Dealer readers:

THE QUIZ SHOWS: These six quiz shows in order were voted popular:

1. Information Please; 2. Take It or Leave It; 3. Quiz Kids; 4. Dr. L. Q.; 5. Twenty One; 6. Thanks to the Yanks.

IN EDUCATION: Six strong shows were revealed in this grouping:

THE TRIVIA SHOWS: The following four war series programs revealed impact:

RKO Confers on Ads REPRESENTATIVES of RKO Radio Pictures, Inc., New York, and its agency, Foote, Cone & Belding, conferred last week on future radio advertising plans, to follow the discontinuation Nov. 24 of Hollywood Star Time on 188 Blue stations. Mon., through Fri., 3:15-3:30 p.m. Current program will not be replaced, however.

UP in All States WITH the addition of KTUC Tucson to the list of stations subscribing to the UP radio news wire, the service will be operating in every state according to A. F. Harrison, radio sales manager. The Arizona station is one of 14 which have signed contracts with UP since Sept. 1, bringing the total number of clients to 650. The others are: WJAS, WINX, WGGA, WIND, WHAG, WOC, WOCR, WOT, KFBI, KOFF, KPV, KSF, KXG, KFAB.

Deca Earnings Up DECA RECORDS Inc., New York, for the period ended Sept. 30, reports a consolidated net profit of $745,882, representing $1.19 per share on 338,820 shares of capital stock outstanding on that date, after provision of $4,000,000 for all estimated income and excess profits. Net profit for the corresponding period in 1943 was $679,876, equal to $1.17 per share.

KABC Hand Picked

Yes, the programs on KABC are hand-picked to the very best of our ability. Being human, we sometimes make a mistake and when we do, it is promptly corrected—for we insist that all programs measure up to the high standard set by this station.

This ceaseless attention to programming—featuring the finest of Blue Network, regional and local productions—is another reason for KABC’s reputation as “The Fastest Growing Radio Station in San Antonio!”

SAN ANTONIO’S BLUE NETWORK STATION WEED & COMPANY, National Representatives

Quebec Group’s Name

QUEBEC province broadcasters have decided to change the name of their association of private stations to Quebec Province Radio Inc. (QPRI), CFCR Montreal, has been elected president of the association, a position he held in the former Association of Private Stations of Quebec. J. N. Thivierge, CHRC Quebec, was elected vice president; Marcel Lechtre, CHIL Montreal, secretary-treasurer; and members of the executive committee.

1. G. A. LaVoie, CJB Rimbouski; 2. Roland Beaudry, CHAD Rouyn, and CKNY Val d’Or.

9. The Quiz Shows: These six quiz shows in order were voted popular:

1. Information Please; 2. Take It or Leave It; 3. Quiz Kids; 4. Dr. L. Q.; 5. Twenty One; 6. Thanks to the Yanks.

10. In Education: Six strong shows were revealed in this grouping:

11. The Trivia Shows: The following four war series programs revealed impact:

A wise man once observed that living through a heated political campaign is the most remarkable experience that comes to an American. For six months he works himself into a mounting frenzy about his candidate. He carries a torch for his man to the breakfast table, to the office, into conferences, and into heretofore friendly and pleasant social gatherings. By election night, he is filled with fear and trembling and drifts off to sleep contemplating the cataclysm that must follow, should any but his man become President of the United States.

The next morning he awakens to hear that his man, by some error of judgment on the part of more than half the American people, was not elected. He stumbles to the bedroom window—and outside what does he see? The sun is shining. The neighbor is taking in his milk. On the same old street—still there—is the same old traffic. Men and women are on their way to the same jobs they had yesterday, and all the days before. Youngsters are going to school to pick up where they left off before the election holiday. The nation is moving on.

Once again the voice of the people has risen, and we have a newly-elected President. Some are happy about it. Some aren’t. But before many weeks have passed, the Great Truth about our democracy will emerge once again. It is this:

Perhaps as a result of an election—any election—long range progress will be handicapped; and yet, perhaps progress will be expedited—who can tell? No one man, no single administration has ever, single-handed, saved a nation populated by a hundred million strong, stubborn people who need no saving; nor, on the other hand, has one man or administration ever been able to block the nation’s inevitable destiny. The people, with vision and confidence, and an insatiable appetite to find the truth, are the final arbiters of their country’s fate. It is the people who are indispensable in these United States; people who have shown through a hundred and sixty odd years that they can survive any election campaign, any shock—from droughts that impoverish whole sections of the republic, to wars that detour the basic economy for months or even years.

To these indispensable, indestructible people—to this groping, progressing mass of citizenry, the Blue dedicates its facilities and its future.

The Blue is in the service of the people.

"THIS IS THE Blue NETWORK"

THE AMERICAN BROADCASTING COMPANY, INC.
Unified Radio System Planned For Interior Dept. Operation
Integration of Far-Flung Network Would Utilize Surplus War Equipment and New Developments

A COORDINATED radio communications system to integrate the varied and far-flung operations of the Interior, utilizing surplus war equipment in developing the project, is being considered, BROADCASTING learned last week. The proposal, advocated by Shannon Allen, Director of the Radio & Television Section, has been acted upon by the Department's Administrative Council of which Vernon D. Northrop, Director of the Division of Budget & Administrative Management, is chairman.

If carried out, the program may be adopted by other departments, resulting in considerable use of surplus communications equipment, much of which can be readily adapted to Government use. Plans to incorporate new wartime developments in radio are also being discussed.

Release of Frequencies

The project, according to Mr. Allen, would effect considerable economies, probably permit a re-allocation of certain frequencies now assigned to the Department which would release frequencies for commercial or other government use, and would expedite the flow of communications between those operations in which radio has become a vital part in administration. These include:

- Office of Indian Affairs
- National Park Service
- Grazing Service
- Bureau of Reclamation
- Fish & Wildlife Service
- Division of Islands and Territories (includes Alaska, Puerto Rico, Virgin Islands and Hawaii)
- Bureau of Mines
- General Land Office
- Geological Survey
- Bureau of Petroleum Conservation
- Office of Land Utilization

Mr. Allen's proposal embraces a 24-hour-a-day use of radio communications by the Interior Dept., with facsimile employed extensively for transmission of legal documents. It envisages a continuous operation which would make the most efficient use of leased land lines and assigned frequencies, integrating telephone, telegraph, teletype and radio communications.

Roughly, the plan is to divide the day into three 8-hour periods, using radio as follows: (1) a two-way communications system between all points in the field and Washington during the regular working hours (2) a two-way high-speed message service which would be the equivalent of existing air service to be employed from the close of the business day to midnight (3) conversion of the same frequencies to facsimile operations from midnight to the beginning of the work day. As the courts have ruled that deeds and contracts printed on facsimile are legal, the General Land Office of the department will be able to transmit these documents to the field offices during the night with resulting saving of time and money.

To carry out the project, authorization has been made to assign an engineer to study activities under the Department's administration and to plan the system. Interior maintains approximately 700 radio stations, ranging from 1 to 300 w and representing an overall investment of $500,000. The equipment includes walkie-talkie, portable, mobile and fixed transmitters. Largest user is the National Park Service with 196 transmitters. Next is the Indian service with 181 transmitters, followed by the Grazing Service which operates a network of 62 stations from Salt Lake City, the Fish and Wildlife Service with 46, the Bonneville Power Administration with 21 and the Bureau of Reclamation with 17.

Tumbo Extending
TAYLOR-REED CORP., Mamaroneck, N. Y., in a new campaign for Tumbo pudding which started last month on WOR New York, during the past few weeks has added WLIR, WEAF, WHN, WNEW, WPAT and stations in Philadelphia and Pittsburgh, using one-minute transcriptions.

Bulk of advertising appropriation for Tumbo goes to spot radio, with stations being added from time to time, according to Ruthrauff & Ryan, New York, agency in charge. Distribution will be extended shortly to new markets.

Sunway Fruit Spots
SUNWAY FRUIT PRODUCTS, Chicago, began 1-minute spot announcements, 5 times weekly on KECA Los Angeles, and effective Nov. 6 on WRAI Miami and KTSA San Antonio. 12-week contracts were placed by Sorensen & Co., Chicago.

Keep this thought in mind...

Each year forest products amounting to more than five million cords of pulp wood and almost three million board feet of timber are produced in this tri-state area. Reforestation and careful cutting make possible a new crop of timber annually. This assures a source of supply for postwar buildings projects and the expansion of the plastics industry, thereby sustaining the prosperity of this wealthy region. Alert advertisers are giving new attention to this market... are creating new sales with their advertising messages on powerful, 50,000-watt KW KH.

Volunteers
APPROXIMATELY 50,000 man hours of work were offered to Iowa farmers this past year by the 102 nominees provided by the farm department of WHO Des Moines, sponsor of the Iowa Crop Corps and its Victory Volunteer Section. In addition the WHO Crop Corps provided for the nomination of 25 groups over the State which gave an additional 100,000 hours helping out on farms. WHO awards to those who contributed the most use of War Bonds and were made on a special broadcast.
THE facts of radio listening in Oklahoma have at last been pinned down.

In "The Oklahoma Radio Audience of 1944" are the results of the first comprehensive, statewide survey of listening habits ever made in the state. This thorough, impartial study made by Dr. F. L. Whan, University of Wichita, brings Oklahoma radio statistics down to earth and dissects them for quick, easy analysis.

From the great mass of detail and information set forth on the 86 pages of the study, one big, significant fact stands out. It shouts from page after page: WKY is predominant in Oklahoma!

WKY, the survey proves, covers more of Oklahoma's listeners morning, afternoon and evening than any other station and, in this area, is the station to which they listen most, most of the time.

With authentic facts on Oklahoma listening available, it is no longer necessary to depend on fictional figures picked out of thin air when choosing the station to carry your selling message to Oklahomans. If you do not have these facts before you, write for your copy of "The Oklahoma Radio Audience" today.

No Longer Necessary to Pick'em out of the Air
YOU ARE THINKING that this head should have a body. You believe it may be Dunninger. You are right. You would like to baffle millions as Dunninger does, describing their thoughts as soon as they think them. If you could, you too would have a swell spot on the Blue Network, a very important sponsor and you would never have to ask Printers' Ink Readers' Service Department anything.

LOOK, Dunninger has a sponsor. The makers of Kem-Tone, the modern miracle wall finish, use his remarkable gift to attract new customers. Fortunately, they don't depend on Dunninger for advertising and merchandising facts. They get a good deal of this information by reading Printers' Ink. Then, every so often, like thousands of others, they call or write to P. I.'s Readers' Service for additional data.

CROSBY WINS G. I. PACIFIC POLL
Mosquito Net Listeners Rate 'Hit Parade'
—And Hope Next in Preference

CROSBY WINS by a warble! G.I.'s of the Southwest Pacific voted Bing tops in a survey made by the Mosquito Network of entertainers and programs heard on the series of four American Expeditionary Stations of the Armed Forces Radio Service in Guadalcanal, Espiritu Santo, New Caledonia and Auckland, N. Z.

Other winners are, in order of popularity: Hit Parade, Bob Hope, Tommy Dorsey, All Time Hit Parade, Dinah Shore, Harry James, Spotlight Bands, Kay Kyser, Command Performance, Fred Waring and Jack Benny. Of this group, Command Performance is the only show prepared just for overseas broadcasting. The others listed are the same that are broadcast in the States, with commercials deleted.

Less than a quarter of the G.I.'s polled designate themselves "rug-cutters," while nearly half prefer "sweet" music. Less than one-tenth rate symphony programs high and the reminder, slightly less than a quarter, prefer light classical music.

Ford Drops News
FORD MOTOR Co., Dearborn, Mich., is dropping its 15-minute news broadcast Monday through Thursday on the Blue, but is sponsoring a new half-hour musical show, Friday nights beginning Dec. 8 in the 8-8:30 Friday spot replacing the Bristol Meyers show, Parker Family 8:15-8:30. Agency is J. Walter Thompson, Chicago.

PRODUCTION in the near future of a new microphone model, D-20, dynamic, with response of 50 to 5000 cycles, has been announced by Universal Microphone Co., Inglewood, Calif. Manufacture will also be resumed on the KD and 15MM, both dynamos; the 200 series, dynamic hardi-types; and X-2 and XX, both carbons.

Canadian Survey
CANADIAN program Soldier's Wife led the October national daytime program rating survey made by Elliott Haynes Ltd., Toronto, with a rating of 17.1, showing a drop of nearly one point from last month. In second place was Big Sister with a rating of 15.5, up .1 over the previous month. Canadian program The Happy Gang rated third, followed by Road of Life, My Father's, Right to Happiness, Canadian originated Lucy Linton, Peppermint Young's, Family, Woman of America and the Canadian program L'histoire, French-language daytime program popularity in October was led by Tempo, with a rating of 30.0 followed by Jazzy Troubadours with 29.0, Quelles Nouvelles, Grande Soir, La Mesdames Racour, Pierre Guerin, La Rue Principale, Madeleine et Pierre, Histoires d'Amour and Vie de Famille, as the first ten daytime programs.

LARGEST and most complete index on advertising and marketing, largest independent advertising library, only complete library of important business publications and general magazines and a complete file of Printers' Ink, all help the Readers' Service staff to have the right answer at the right time, for Printers' Ink readers and editors alike. That is why the men who build, approve and spend the nation's advertising budgets don't read minds. It is easier to read Printers' Ink instead.

The makers of Kem-Tone have twelve Printers' Ink subscriptions and the staff at Newell-Eames, agency for Kem-Tone, has fifteen.

FREE

The touch of perfection for that Thanksgiving dinner. Commercial Sage, formerly imported from Europe, is here grown successfully in the Inland Empire. As for Turkeys, production is estimated at 1,411,000 birds—an increase of 17% over last year. KHQ, too, puts a touch of perfection to your sales message. It completely covers this rich area—at the cost of just one medium.
Bors to CINPAC

JOSEPH A. BORE, Washington war news editor of INS, has been assigned to the headquarters of Adm. Chester W. Nimitz, command-er-in-chief, Central Pacific Theater, to supervise all INS war coverage from the Pacific areas. He will be headquartered in Pearl Harbor and Guam. As military editor, Mr. Bors has taken part in several network broadcasts from Washington and plans to participate in news programs from his new post.

The Swing is to WHB in Kansas City

Meet WHB’s Henry Goldenberg— "Keeper of the Kilocycles. ..our Calm Chief Engineer!

In 22 years of seeing and hearing the almost unbelievable variety of programs that have gone through WHB’s several transmitters, "Goldie" has decided that anything can happen around WHB—it’s just a matter of when. This, he hopes, will include restoration of WHB to its pioneer status as a full-time station. Goldie is just a little fed up with having to sign off WHB at sunset. He likes to work... and he wants to be able to operate WHB full time! (FCC please note! Our application for full-time operation on 710 Kilocycles is still pending.)

After studying electrical engineering at the University of Illinois, Goldie helped build WHB’s first transmitter, back in 1922—and he still gets a kick out of our then "world-record" of continuous broadcasting for 12 hours and 20 minutes. That was on Feb. 1, 1923, WHB’s first anniversary. Ted Lewis and his orchestra were performers on that memorable all-night broadcast—the first in American radio history! If you as an advertiser want to sell the Kansas City market, entrust your message to Goldie’s WHB transmitter—the happy medium!

FCC Grants Help Broadcasters Solve Technical Problems of New Services

EXTENT and import of the voluntary cooperation between the FCC and broadcasters in the joint effort toward a solution of many of the interference problems posed by new broadcast services was evidenced by the authorization of several new developmental broadcast stations to experiment in high-frequency transmission. Similar grants previously had been made for FM and television propagation experiments.

The development grants were to Maryland Broadcasting Co. (WITH Baltimore), which will function in cooperation with Jansky & Bailey, Washington engineering consultants; Voice of Alabama Inc. (WAPI Birmingham), Temple V. Ehrman, Portland, Ore., owner of PM Labs, Arlington, Va., who will work in conjunction with Finch Telecommunications Co.; The Atlanta Journal Co. (WSB & Matheson Radio Co. (WHHD Boston).

Other Grants

Other recent development grants include Courier-Journal & Louisville Times Co. (WHAS Louisville); Commercial Radio Equipment Co., Washington, D.C. (two); The Journal Co. (WTMJ Milwaukee); KLZ Denver (W9XLA, changed from an experimental high frequency station). Evansville on the Air Inc. (WEOA-WGBP Evansville, Ind.), has pending a developmental application.

Experimental television grants of the past few months include Philco (WPTZ Philadelphia); CBS; General Electric (WRGB Schenectady); and International Business Machines Corp.; and AT&T.

Typical examples of the nature and scope of work being done or proposed is likewise evidenced in the new grants. Temple V. Ehrman, former police radio engineer, is now a lieutenant in the radio division of the Navy, will operate his developmental station in Portland, Ore., in conjunction with Finch Telecommunications, with a principal phase of this experimentation to involve multiplexing of facsimile, using Finch equipment. Station will operate with 1,000 watts on frequencies to be assigned by the FCC.

The Atlanta Journal Co. station, to operate with 700 watts on FCC assigned frequencies, will experiment with antenna systems, as likewise will Matheson Radio Co., with its station on 49,000 kc (and other FCC assigned channels) using 1,000 watts.

Voice of Alabama, which will operate one developmental station with 4,000 watts and one with 250 watts, both on channels to be determined by the Commission, will conduct experiments relating to the effects on radiation patterns caused by mineral deposits, particularly iron ore or objects such as large iron statues; interference caused by auto ignitions and industrial machinery, and effects of double transmissions from the same antenna.

Maryland Broadcasting Co., through its new developmental station, in cooperation with Jansky & Bailey and that concern’s station, WSXO Washington, will investigate field intensities and interference caused by two stations operating simultaneously on the same frequency, and also variations thereof. The Baltimore station will use 1,000 watts; FCC will assign frequencies.

NBC Veteran Auditions Are Successful Job Aid

ONE OUT of every three war veterans interviewed during the first three weeks of operation of NBC’s "Welcome Home Auditions" have been found worthy of professional employment in broadcasting, according to a preliminary survey by the network. Open to members or former members of the Armed Forces, the project is designed to aid men and women interested in getting into radio to obtain post-war employment in the industry [BROADCASTING, Oct. 9].

Most applicants have been honorably discharged veterans available for immediate employment, almost all with experience in entertaining in recreation halls or radio, and the majority actors, announcers, instrumentalities and singers. Many writers, sound technicians and engineers have also been interviewed, however.

To handle the unexpectedly large volume of applications a second audition day has been added—Wednesday, 9 a.m. to noon. Interviews are conducted throughout the week.

WJJD Chicago has exclusively signed the Chicago White Sox for the 1945 major league season. The broadcast games were previously broadcast on WIND Chicago.

WMOH

Hamilton, Ohio
Station Identification

This is WSM.

We've been on the air for the past twenty years.
We've made quite a few friends in this time—several millions, according to the mail and the statisticians; on the farms, in the villages, in the broad acres of the country served by our clear channel.

We've been an NBC station, too, all along, since the day George F. McClelland dreamed up the idea of connecting two stations by telephone lines to form the first network.

We're still NBC, because we like the way they do business, and because our listeners prefer NBC programs.

We go back to the days when Amos and Andy first met Madame Queen; when Billy Jones and Ernie Hare were the Interwoven Pair; when radio was discovering that the "price of admission is just your loyalty to Maxwell House Coffee", as the old Showboat used to put it, Thursday nights.

We've been through droughts and tornadoes, hell and high-water. But we've always managed to lay down a signal that got through to people who were relying upon us to get through with the information they had to have. We're still doing it.

We're proud to be a part of American radio; to have had something to do with the development of its many services and traditions, which today operate on the fighting front and the home-front in defense of our nation, in radio's first war.

We've inherited something of the integrity of our parent institution in our daily operations: integrity for the written and the spoken word.

Over five million people have personally selected the National Life and Accident Insurance Company as custodians of their funds and their future. We are committed to pay to their beneficiaries the sum of seven hundred and fifty millions of dollars on the day appointed. We will not fail them as we have not failed a policyholder since we were founded forty two years ago.

That same integrity has been breathed into each of WSM's fifty thousand watts. Integrity for the spoken word.

This is WSM.

Mutual Brochure—WKY Album Billboards—WSBT Plane Service

Program Shift

TO CALL attention to March of Time shift Nov. 2 from NBC, Thursday 30-31 p.m. to the same period on the full Blue Network, Time Inc., New York, has been making full use of the promotional channels available to it as part of the Time-Life-Peoples publishing trio, and its multiple film and radio activities. Campaign includes the use of newspaper and magazine space, posters, direct mail, movie trailers, special publicity and inter-organisation and trade exploitation.

Billboards

EIGHT billboards already have been erected along major traffic arteries by WPAT Paterson, N.J., as part of an outdoor advertising campaign that will eventually cover all of North Jersey and other sections of the New York Metropolitan area. Displays are part of a projected large-scale promotion drive now in preparation for newspapers and other media. Billboards feature call letters in solid white against a red background, the license numbers—"On Your Dial at 851"—a pleasant streamer stating WPAT's policy of broadcasting UP news every half-hour, and in black and white on a separate panel is featured a highlighted program.

WKY Album

TWO MONTHS after the start of the Farm Reporter program, conducted by WKY Oklahoma City, the station has issued "Farm Reporter Album" which gives the highlights of the program last Aug. 3 in the Shriver Tower Hotel, Oklahoma City which initiated the series. Booklet is done in offset and features quotations from Grover B. Hill. Under Sec. of Agriculture: Gov. Kerr of Oklahoma and Dr. Henry V. Bennett, president of Oklahoma A & M College.

School Manual

MORE than 4,000 teachers' manuals for classroom use in connection with Science Is Fun, education series of WIBW, Philadelphia, have been distributed by the station. Written by Arvid N. Spita, educational director of the Franklin Institute and technical advisor for the program series, book is done in offset and features quotations from Grover B. Hill. Under Sec. of Agriculture: Gov. Kerr of Oklahoma and Dr. Henry V. Bennett, president of Oklahoma A & M College.

Record Offer

RING Crosby fans are offered a chance to win his records. WNYC, New York, offers a give-away record each day entailing the owner to select the disc of his choice from a local music shop. Record goes to listener who sends in the completed coupon. First one one wins a brand new record. Second place winner is selected at the end of the campaign.

Things to Come

COLORFUL brochure on "Radio Television, A Glimpse into the Future" has been distributed by the United Broadcasting Co., licensees of WHK Cleveland, WWHK Akron and WHKC Columbus. Illustrated in the modern and "futuristic" style, booklet offers promise of postwar advances never before in broadcasting.

NEW HOME of WKR Knoxville, purchased last June, has just emerged from extensive remodeling and redecoration and is now being occupied by the staff. Following modern studio design in every detail, the American Broadcasting Co. included in the outfitting Celotex acoustically treated studios and control room and other changes.

Formal Announcement

DIAMOND CRYSTAL SALT Co., New York, informed its wholesalers and chain-store buyers that its NBC program, "Gilligan Marries," has been renewed for another year in a formal "engagement announcement." By J. J. LeClair, vice-president in charge of sales and advertising. Included with the announcement, mailed to a trade list of 900, was a small card reading "Reception for all your customers over NBC Mondays and Fridays, 5 p.m. EWT. 4 p.m. CWT. Agency is Benton & Bowles.

WINS-CBS Ads

REFFERRED to as listeners' "col-orful" station, WISN has issued a promotion folder in several bright colors calling attention to the station's part in the CBS fall promotion campaign. Printed on good glossy paper with a fancy, tautloid style, folder contains reprints of CBS-WINS advertisements as run in local papers.

WSBT Plane Service

WHEN airline passengers glide into South Bend airport on football weekends they are presented with local football scores of the major college games each Saturday evening through the courtesy of WSPT. Scores delivered to the airport and typed forms are presented to transcontinental planes which land.

KMBC Folder

PROMOTION FOLDER issued by KMBC Kansas City calls attention to the 225,000 line of newspaper advertising and other promotion utilized in one month for the CBS "Biggest Show in Town" activities.

FTY GRAND IN POWER
Radio Won—and Lost

THE ELECTION is over but the melody lingers on.

Now that the epithets hurled at each other by the candidates, employing the American microphone as a sort of vocal bazookas, are gone with the wind, it might be enlightening to cast a quick look over our shoulders.

A quick look, we say, for the circumstance does not sustain a long and lingering glance.

In the past weeks, especially the closing ones, of the campaign, American radio has been called upon to deliver into American parlors a devil's brew of bitter invective lightly spiced with lyrical incantations by such astute politicians as Frank Sinatra and Judy Garland.

It has been a wonderful party. Everybody has had a fine time—everybody but radio.

Radio has shown courage and enterprise in charging headlong into political campaigns of modern times, but them now delay. We have elected a President with pledges set to music by some of the most talented boogie-woogie librettists in the business. We have elected a President with singing commercials, with jive and jabberwocky and with profound exhortations on the issues of the day by such thoughtful statesmen as Orson Welles and Humphrey Bogart.

This does not presume that the Democrats alone went all out for musical comedy, or that they alone resorted to back-alley fighting on the air. The Republicans also cooked up some fairly impressive extravaganza. It does appear that the latter, pursuing a custom of 19 years standing, have always gone a step beyond.

One inclines to view such matters in retrospect with lightness, but there are serious implications here. When a candidate says of another that "he lied us into the war" and when the joust is parried by the flat charge that one among those who ran is "an unmitigated liar", broadcasters should start leaning through the laws on libel. For it is the broadcaster who is jointly culpable, and the firmness with which he meets his responsibility now portends the road radio campaigning will follow in the days to come.

The leadership of the broadcasting profession should study these political broadcasts with deadly concern, for radio cannot stand above the level of its poorest program. This was not the day for a formula of rhythm and reason and nonsense. These times deserve better than that. They deserve dignity and thoughtfulness and integrity.

So much in a reflective mood. We may now look ahead.

As we do, radio, which four years from now must lend its great voice to the espousal of other causes perhaps in the names of other men, may hope that it will not again need carry the burden of such contraband.

Clean, Fresh Start

THE DEMOCRATIC sweep of the elections last week left the regulatory outlook for radio relatively unchanged. Apparently there will be no shifts in Congressional committee chairmanships important to radio. It is to be assumed that present policies and philosophies on radio will not be altered forthwith.

But there is a fundamental change, stemming from other causes, which will have profound effect upon radio's destinies. Two posts on the FCC—one the chairmanship—are to be filled. T. A. M. Craven left July 1. Chairman Fly's decision to enter private law practice Nov. 15 creates a second vacancy.

Paul A. Porter, Democratic National Committee publicity director, is most frequently mentioned for the Fly post. He distinguished himself as OPA deputy administrator and as assistant director of the Office of Economic Stabilization before he mounted political horseback. He has more than a nodding acquaintance with radio having served for five years as CBS Washington attorney.

Other names heard for the chairmanship or the Craven vacancy include: J. Leonard Reinsch, Democratic Committee radio director, and a practical station operator; Charles R. Denny, FCC general counsel; Rosel H. Hyde, veteran of 16 counsel; Leonard H. Peebles, chief of the WPB Communications Division, who has substantial Government and industry communications experience, and Commissioner E. K. Jett, who might be elevated to the chairmanship.

A merit promotion from the FCC ranks or promotion of Mr. Jett, would win general approval. Mr. Jett is an engineer, and there's radio's biggest engineering job ahead, but with transcendental policy-moulding aspects. Mr. Denny's handling of the intricate allocations hearings last month more than lifted him to Commission stature. Mr. Hyde's qualifications, springing from 16 years with the radio regulatory body with an humble clerkship beginning, require no elaboration.

Irrespective of the FCC status, the quest for new legislation should not be abated. That legislative shoe no longer fits; its basic provisions are outdated 10 years ago.

At the last session, efforts to enact a new law proved abortive. Perusal of the article by Chairman Wheeler (D-Mont.) of the Senate Interstate Commerce Committee in the current issue of The Progressive, La Follette weekly, shows rather conclusively why the effort failed, and why it appears futile to attempt to get rational, reasoned legislation under those auspices (see page 18).

There's a right way to approach new legislation. The House Select Committee has about completed its work of investigating the FCC. Its staff, headed by the able and industrious John J. Sricra, has detected shortcomings in the present law (D-Cal.) is chairman of both the Select Committee and the House Interstate Commerce Committee.

Why not transfer the Select Committee staff to the full Committee, where it can do a constructive and objective job of drafting a new law? Radio and communications are too specialized and too sensitive to be subjected to hit and miss drafting, chipmunk, done pro forma.

So let's get off to a clean, fresh start in the House, not haunted by the ghost of the White-Wheeler Bill.
WHEN WMFM placed its first program on the air in 1939 as the first FM station west of the Alleghenies, it formulated a program policy that assured it of success.

That policy was simply:
*Distinctive, quality programs keyed to the wants and needs of the community it is intended to serve.*

By blending that formula with the miracle of static-free, crystal clear FM reception, WMFM has developed an intensely loyal family of listeners that stays tuned to WMFM.

Take advantage of WMFM's programming, and valuable audience. Let us work with you in developing a prestige-building, sales-promoting radio plan for you.

WMFM

THE MILWAUKEE JOURNAL FM STATION
**, Personal Notes**

ROGER W. CLIFF, president of WEIL Philadelphia, has returned to his office following recuperation from a major operation.

DICK KOFF, sales manager of Paul Ruy- mer Co., Chicago, station representative, is suffering from an unknown malady at St. Francis Hospital, Evanston.

STANLEY YOUNG, salesman with Spot Sales, Chicago, has resigned to return to New York.

LT. COMDR. DAVID TENNANT BRYAN, son of JOHN STEWART BRYAN, who died Oct. 19, has been named president and publisher of the Richmond News Leader and Richmond Times Dispatch, succeeding his late father, it was announced last week by Richmond Newspapers Inc., which publishes the two newspapers. The late Mr. Bryan was majority interest holder in WRNL Richmond. Comdr. Bryan is on active duty in the Navy and JON D. WIE, vice-president of the newspaper corporation, will act as president and publisher until the former's return.

DONALD D. DAVID, president of WRHL Kansas City, and Mrs. DAVID have announced the marriage of their daughter, PEGGY, to WILLIAM EDWARD BROWN JUNI, U. S. Army, in Kansas City, on Oct. 30.

HAL ALYRE Jr., formerly associated with Continental Radio & Television Productions, Hollywood, has joined Homer Griffith Co., station representatives, as account executive.

HARRY BRAMAN, assistant treasurer of the Canadian Broadcasting Corp., Ottawa, has been appointed treasurer succeeding HARRY BALDWIN, retired. COL. H. R. LANDRY, director of the Canadian Broadcasting Corp., Ottawa, has been appointed director of personnel and administrative services.

ROY WRIGHT, former manager of OFAR Plin Fln, Man., has been appointed general manager of CKMO Vancouver.

JAMES F. ANDERSON, sales executive of WGN Chicago, has resigned to join W. Biggie Levin, radio production organization, Chicago, in charge of sales of package shows and radio talent to advertising agencies. Prior to joining WGN he was associated with the Chicago Tribune, for 10 years, the latter 10 as head of the travel adv. dept. In that capacity he initiated what is believed to have been the first direct tie-up between news and radio. BEN BERENTSON, WGN promotion manager, will assume Mr. Anderson's duties.

IST. LT. HABLAN G. OAKES, formerly with W. H. Wilson Co., Chicago, station representative, has resigned to join W. Biggie Levin, radio production organization, Chicago, in charge of sales of package shows and radio talent to advertising agencies. Prior to joining WGN he was associated with the Chicago Tribune, for 10 years, the latter 10 as head of the travel adv. dept. In that capacity he initiated what is believed to have been the first direct tie-up between news and radio. BEN BERENTSON, WGN promotion manager, will assume Mr. Anderson's duties.

GILLYM A. PRICE, vice-president of the Westinghouse Electric & Mfg. Co., has been elected to the board of trustees of Allegheny College for an indefinite term.

**DAvis to WElL**

RICHARD W. DAVIS has been appointed manager of WEIL New Haven, it was announced last week by William A. Riple, vice-president of the station which was purchased recently from the Boliva owners by H. C. Wilder and his associates. Mr. Davis has been general manager of WNBC Hartford. At WEIL he succeeds Dewey Long, whose resignation is effective Nov. 15.

to Hollywood where that program originated until July 1938.
It was following his return to the East that Nate Tufts was assigned to NBC's Vox Pop. He remained with that series for approximately three years. While Vox Pop was not the first radio series to travel, it was the first commercial program to originate from starting locations such as a Canadian Army camp, West Point and Annapolis.
He was the originator of merchandise give-aways on that program. Another feature, the phone calls by Vox Poppers to their favorite film celebrities, he developed to its most popular network usage. In those days, Vox Pop was a hectic, 7-day-a-week job with Nate doing work now requiring three men. He sifted prospective interviewees, bought gifts, set up origination points and arranged transportation. In one year the young producer put more than 50,000 flying miles under his belt.
During his period as producer Vox Pop made the first Latin American trip of any of the major American commercial network shows. Originating successively in Mexico City, San Juan and Havana, Nate coped with the additional obstacle of the Spanish language.
He was winding up the Vox Pop producing assignment when his executive break came. Don Stauffer, vice-president in charge of radio for Ruthrauff & Ryan, wanted someone to build up the agency's Hollywood radio department into a big-time operation. Quixotically Nate was helping Don Stauffer in that search when it culminated in his own appointment as director of the department on July 1, 1942. Approximately one year later, in April 1943 Nate Tufts was elected a vice-president of the firm in charge of West Coast originating radio, his current post.

Nash on Blue
NASH-KELVINATOR Corp., Detroit, on Dec. 24 starts a musical variety program on 190 Blue stations, Sun., 4:30-5 p.m. Featuring the Andrews Sisters, George (Gabby) Hayes, comedian, Vic Schoen and his orchestra and a guest star. According to Donald S. Shaw, radio director of Galey, Cornell & Newell, New York, the Andrews Sisters were chosen partly because of their movie and record releases, which can be given a merchandising tie-up by local Nash-Kelininator dealers throughout the country. New program is part of a year-round production assignment when his

AMERICA CARES WHAT MIAMI WEARS
Look for this label. You'll find it in the nation's smartest beachwear, sportswear and women's apparel. It means "fashions as bright and thrilling as Miami's sun!"
To us, this label means even more... it means that another year 'round industry has selected Miami as its home. The Miami Fashion Council of manufacturers and designers is determined to make Miami one of the great fashion centers of the world. Watch Miami!

BEHIND THE MIKE
JIMMY WALLINGTON, announcer on the CBS Tamco Star Theatre and on Formfit Foundation's half-hour starring DICK BROWN, left New York last week on his home in Miami. Cal have returned to his old station, the New York World-Telegram.

TODD BRANSON, formerly of WJW Cleveland, has joined the announcing staff of WFMN Philadelphia.

MERRILL MUELLER, NBC correspondent who has covered SHAFF for the American radio pool since before D-Day, has received a letter of commendation from GEN. EISENHOWER for the reporting he has done to-date.

DON MARTIN, production manager of WBL, Philadelphia, has resigned to join the Blue Network, New York.

DAN PARKER, formerly of WIGB Philadelphia, has joined the announcing staff of WFEN Philadelphia.

C. Y. GODWIN, formerly of CJIC Salt Lake, Ont., is now with the Paraschers rescue division of the Royal Canadian Air Force, Edmonton, as flying officer.

DOROTHY HARRIS, assistant to production manager DON MARTIN of WFL Philadelphia, and BIJAN HORNROW have announced their engagement. The wedding is to be in December.

HARRY WISMER, a member of the Blue Network sports staff, has been named the outstanding sports commentator of the year by the Sporting News for the second consecutive time. The Sporting News trophy was presented to him last Thursday at a dinner at Toer's Shore in New York.

JAMES FASSETT, head of CBS music division, and LARRY PUCK, CBS talent scout, have been added to the staff of CBS program supervisors, in line with the network's program supervision plan. Mr. Fassett, with CBS since 1936, will be in charge of all services music broadcasts. Mr. Puck, who returned to CBS last year after a period with Music Corp. of America, will oversee all popular music programs.

WILLIAM E. MORGAN, San Antonio announcer who joined WOAI that city a year ago, has been named assistant production manager of the station. He will assist HAROLD CARE, WOAI production manager, in programming and planning.

KATHLEEN HAZARD and NOREEN KERR have been appointed continuity department head of CJCO Vancouver.

DEZ MCMENOTT and IAN ARROL have joined the news staff of CKNX Vancouver.

EDDIE WHIKEHART has returned to WILM, Harlan, Ky., after release from the Army Signal Corps.

CLARA CRAYES has been appointed assistant to DOROTHY BROWN, Blue western division continuity acceptance editor.

To you—the future television broadcaster—General Electric offers two important services:

1. The complete television system—consisting of apparatus and accessories of coordinated design—to simplify the job of setting up your station.

2. The opportunity to see and study television equipment in action at the country's most powerful and best-equipped television station—WRGB in Schenectady.

At WRGB you can see the equipment required for a complete television station—the equipment shown on these pages. Here is the world's most powerful television transmitter. Here you can study the programming methods used in over 600 separate programs of all types, from Grand Opera to wrestling matches. Here you can see your future television station in action. Come to Schenectady . . . we invite you to see for yourself the work that is setting the pattern for tomorrow's television broadcasting. Thursdays and Fridays are "open-house" days at WRGB.

As shown on these pages, General Electric can provide all of the components you will need for a complete television system for your station. We welcome your inquiries. Write Electronics Department, General Electric, Schenectady, N. Y.

GENERAL ELECTRIC
Tune in General Electric's "The World Today" and hear the news from the men who see it happen, every evening except Sunday at 6:45 E.W.T. over CBS network. On Sunday evening listen to the G-E "All Girl Orchestra" at 10 E.W.T. over NBC.

THE G-E EQUIPMENT RESERVATION PLAN and the brochure "Television Broadcasting Post-War" will be sent to anyone interested in television broadcasting. Write for this information, Electronics Department, General Electric, Schenectady, New York.

FM goes to school!
...but in the role of an Educator!

FM has been chosen as the ideal method for Transmitting Educational Programs. The Federal Communications Commission has assigned special FM Frequencies for the exclusive use of schools and colleges of this country. Boards of Education of large cities have already broadcast, by Frequency Modulation, regularly scheduled educational programs.

REL has been the pioneer in FM Educational Stations, having furnished and equipped WNYE (NYC) and WBOE (Cleveland). This added to our background of numerous successful installations of 1 to 50 KW Commercial FM Stations, has ideally equipped us to serve Educational Groups interested in FM.

She's a lucky girl to be born in Central California. Her father is a farmer with an average income of $8797 per year and her husband is probably in about the same position. To make her happiness complete, she enjoys the very best radio reception from the Bee line.

The Bee line Area covers 41 primary counties in Central California and Western Nevada — ranks in population with Los Angeles and greatly exceeds San Francisco in retail sales.

WHAT IS

The Bee line

Not a regional network but a group of long-established key stations, each the favorite in its community...combined on a new basis for National spot business.

McClatchy Broadcasting Company
Sacramento, California

FRANCES SMITH, copywriter-for-hire with Kenyon & Eckhardt, Chicago, was before that with J. Walter Thompson Co. Chicago, on Nov. 2 rejoined Z-W-T as copy writer.

LUCILE COOK, formerly associated with Eastern California, Los Angeles (solid clothing, household furnishings), has been appointed merchandising director of Jayne Halsburger & Martin Ad.

BAYARD & ECLECTON, new Los Angeles office, has been established at 689 S. Grand Ave. Firm is headed by Carl Bayard and J. W. Redden, Jr., but formerly associated with The Ensign Co. and agencies.

MILDRED L. FENTON has resigned from the radio department of Ted Bates Inc. New York, to open her own radio production firm at 23 E. 63rd St., New York.

JAMES YOUNG has resumed his duties a head of the creative copy department of J. Walter Thompson Co., New York, after spending six months running his ranch in Mexico. He takes over from Walter O'Meara, who shared the post with him, each taking a yearly six-month leave of absence.

LOWELL H. STORMONT, account executive of J. Walter Thompson Co., Chicago, has been transferred to the New York office to handle Easter activities of the Ford Motor Co. account.

C. B. STENNINGS, executive of Cocke Brown & Co., Toronto, has returned to the agency after being on loan as secretary to the Dept. of Munitions & Supply Production Board at Ottawa since January 1942.

IRWIN VLADIMIR & Co., New York, in the process of organizing a Chicago office, Irwin Vladimir & Co. of Illinois to service Midwestern accounts for export advertising. To be located at 1 N. LaSalle in Chicago, the agency will be managed by Joseph A. Jones, former assistant chief of the export advertising program for CIA.

NORMAN J. PHILIPS, partner in Fortune Phelps Adv. Agency, Chicago, has resigned to join Ruthrauff & Ryan, Chicago, a account executive, Geyenhouse & Martin, writer, also has transferred to Ruthrauff & Ryan as his assistant.

WILLIAM S. BALLINGER, former copy chief for Campbell-Ewald Co., Chicago, has joined Campbell-Mithun Adv., Chicago as creative chief for radio and display.

Ralph T. Stewart, formerly of the retail store original division (Bears, Reo, etc.) Chicago, has joined Western Adv. Agency, Chicago, as promotion manager.

DR. ALBERT BLANKSHELL, former copy & retail store, producer and director of market research for W. N. A. and Son, Philadelphia, has been appointed research director for National Research Inc., Philadelphia.

WALTER JOHNSON, former West Coast radio director of Music Corp. of America in Beverly Hills, and now captain in the Marine aviation forces, after 18 months in the China-Burma-India war theater, has returned to San Diego following a 30-day leave.

ERNST CHARLES, producer and director, has been transferred from Hollywood to the New York office of Youk & Roh. Will he produce the Californian program, Great Moments in Music this hour Wednesday on CBS.

S. T. SEIDMAN and Zan Diamond have merged respective agencies to form Die mond-scheideman Co., at 85 S. Fifth Ave., New York. Telephone is MURray 8-3451.

(Continued on page 51)
No indeed! The Savannah Seaboard Market has long had such steady, stable industries as the world's largest kraft paper plant, one of the nation's large sugar refineries and scores of other permanent, prosperous manufacturing plants. These giant industries will continue to pour millions of dollars of payroll money into the pockets of Savannah workers each month, now, and long after the war is over.

Not that the war hasn't added to our population and wealth! Three shipyards, 25,000 new workers, and six military centers are now part of the vigorous Savannah Seaboard Market. Added emphasis to our contention that no advertiser should neglect this thriving center of opportunity.

Selling the New Savannah Seaboard Market
**Durham**

North Carolina's third largest city. City and county are compact and easily sold as one unit. Durham County, 1940 U. S. Census—80,244.

**Tobacco**

Big chunk of Durham's $23 million industrial payroll goes to tobacco workers. Durham makes 25% of all the cigarettes made in U. S. It's truly the tobacco.

**Center**

Of the world. And what an expensive market to reach. You can dominate at 250 watt rates. Don't cuss the cigarette shortage. Cash in by scheduling

DURHAM HERALD-SUN PAPERS

Represented by Howard H. Wilson Co.

W. F. LOCHRIDGE, Chicago vice-president of J. Walter Thompson Co., and executive on Kraft Cheese Co. account, and J. H. Platt, Veg's advertising manager, are conferring with Los Angeles and San Francisco agency executives following start of NBC Kraft Music Hall fall season. Norman Blackwood, executive in charge of J. Walter Thompson Co., Hollywood office, has returned after five weeks in New York and Chicago.

EDWARD J. ROSENWALD has joined Gray Co., New York, as account executive. He has served for a number of years as an advertising manager of Pough Inc., Memphis, one of the major spot radio advertisers for the past ten years, and which has purchased WMPS Memphis.

MARIANNE CASIAR, formerly in the research department of the Pan-American Airlines, has joined Doherty, Clifford & Shenfeld, New York, as supervisor of market research.

FRED R. SWANSON, formerly with Mason Inc., Chicago, has joined MacDonal-Army Co. and will manage their newly organized production department in Chicago. Jean Craig, previously with J. Walter Thompson Co., Chicago, has joined the agency as production assistant.

**Breweries Sponsor**

NEW transcribed quarter-hour show produced by Frederic W. Ziv Co. available for local and regional sponsorships. Following successful premiere, Pabst has scheduled for the following breweries: Brewing Corp of America (via Lang, Fish & Stanfower) on WMRN Marion; WTVY, Albany; WMAN Mansfield; WDTA, Batavia, N. Y.; WHDL Allegany; WSLB Ogdenburg; WTVW Wheeling; Grinnel & Bros (via Kutho & Ryan) KMKX St. Louis; Progress Brewing Co. (via ABC) KVOO Tulsa; WKY Oklahoma City; Leotie Brewing Co. (via Wiltman & Pratt) WOAM Pittsburgh; Fall City Brewing Co. (via Anheuser Advertising Agency) WIRE Indianapolis.

**Lt. Miller Assigned**

LT. BEN MILLER, former writer-producer with Young & Rubicam, New York, has joined the Army Service Forces Group, Radio Branch, in the same capacity, handling production for the Army Service Forces, Service to the Front, and assisting onASF material for the Army Hour. He will also assist Maj. Andre Baruch, head of the ASF placement section. Lt. Miller enlisted in 1942 as a private and in 1943 was sent to Officer Candidate School. After he received his commission as lieutenant he was sent to the Quartermaster School at Camp Lee, as an orientation officer until he was requested for his present assignment at the War Dept.

**Marines Fete**

IN CELEBRATION of the 166th anniversary of the founding of the U. S. Marine Corps, NBC on Nov. 10 broadcast a special program of Adm. Chester W. Nimitz paying tribute to Marines in the Pacific war. Adm. Nimitz broadcast from headquarters, Pearl Harbor. He was followed on the air by Maj. Gen. Henry L. Larson, USMC, speaking from Guam. On the No. 9 March of Time, heard in the Pacific on the 10th, Marine Commandant Gen. Archibald Vandegrift spoke to Marines at home and overseas in honor of the anniversary. The message was beamed to service units in the Central, South and South-west Pacific and the Philippines through shortwave facilities of the Armed Forces Radio Service.

**Second anniversary party,** in studios of WIOD Miami, of the sponsorship of The Crusader Kids on WIOD by Knight Bros. Paper Co., Miami featured a big cake, enjoyed by 100 guests. Center of attention was John L. Woods (seated) vice-president and general manager of Knight Bros. and James M. LeGate, WIOD manager.

**IN FOREIGN TONGUE**

World Series re-created

In French and Spanish

PLAY-BY-PLAY accounts of the 1944 World Series, sponsored by the Gillette Safety Razor Co., reached French-speaking Canadians and Spanish-speaking Cubans in their own languages by means of a re-creation broadcast which had all the reality of an original. Using a studio microphone at CBC Montreal, Roger Baulu, French network announcer, broadcast the description of the game supplied to him in French by Charles Bouchard, sports editor of Le Petit Journal, speaking from another room. Mayer received the story in English direct from Sportscast's Park in St. Louis and immediately translated it into French before passing it on to Baulu. Sitting next to Baulu and wearing earphones was Jeff Davis of the CBC English-speaking staff, who by means of score cards and specially prepared charts of the baseball diamond gave the announcer a constant, diagrammatic picture of the scene. A sound effects man, also listening by earphone, dubbed in the sound effects. Rene Canizares, of Havana, broadcast the game via shortwave to Cuba.

3 Is The Winning Combination!

Buying spots in Hartford? Get WDRC's winning combination of coverage, programs and rate! Connect in Connecticut by using WDRC!
It's natural for Alabama listeners to expect—and get—from Alabama's oldest, best-established station the most complete news service on their dials. For WAPI, with the only radio news editor in the state, provides a coverage of local, rural, national and war news unequalled by any other station serving this important industrial and agricultural region of the South.

John McCune—14 years a reporter and editor, former correspondent for "Time" and "Life"—is the mainspring of WAPI's news staff. Listeners find that McCune, through his skillful editing of latest dispatches from United Press wires, knows exactly how they like their news prepared and broadcast.

WAPI's own extensive news activities (including special programs for women, sports fans and rural listeners) are supplemented by the alert network news coverage of the Columbia Broadcasting System. The full facilities of CBS World News, with its CBS correspondents around the globe, keep WAPI audiences constantly informed of every late development.

News coverage is only one of the many ways that the "Voice of Alabama" has built its enviable reputation as the radio station of Birmingham. Twenty-two years of serving Alabamians with information, entertainment, education, public service and unceasing friendliness have enlarged that reputation to strong and profitable dimensions.

If you have a sales message for the people down our way, WAPI can tell it most effectively. To learn exactly what we can do for you, just ask us or Radio Sales.

Option Plan Permits Program
Expansion on New Outlets

GENERAL ELECTRIC Co., Schenectady, has bought time on 14 college FM stations affiliated with the Intercollegiate Broadcasting System under IBS’ postwar option plan which enables advertisers to take on option on the same time and programs on all new member stations as they become available. According to Louis M. Bloch Jr., IBS business manager, nearly all major colleges, have indicated their interest in purchasing radio time as soon as equipment is available.

Cosmetic Buyer

Another advertiser to buy time under the Helenoft benzstein, New York (beauty preparations), has contracted for minute spots 10 times weekly on all available women’s college and co-education stations, to place advertising seven-outrage in all. Business placed through Advertising House, New York.

Originally financed by undergraduates, IBS reports that the station’s individual stations now totaling 22 and of the national office in New York is now maintained entirely by advertising revenue. Station personnel is divided into technical, program and business departments with approximately 2,500 engaged in operations.

Paid Spots on 75 Slated
By Hillman Periodicals

HILLMAN PERIODICALS Inc., New York, on Nov. 15 starts for the first time a regular spot campaign for Popular Pocket. Publishing house has been active in radio for the past several years only through special promotional tie-in arrangements with network or station to carry its story material free, the program’s title usually containing the name of the publication.

Spot schedule for Pageant will be carried on two or more stations in each of 25 selected markets, with ads in 64 newspapers running in the same areas. Radio drive runs for two weeks after the magazine has gone on sale, and for two weeks of each month thereafter. Final stations is expected to run up to about 75 stations and advertiser is buying only after 5:30 p.m. with times of reachers of all ages. Business is placed through Erwin, Wasey & Co., New York, appointed as Hillman agency last summer.

WEPD Toledo is again airing the weekly Town Hall lecture series. Guest speaker will be Ethel Barey-Moore Colt and the writer and critic, Norman Cousins.

Day Foster of KGW staff goes over "Schools at War" script with two high school stars. Center — Producers Don Green, Mel Bailey, Gordon Bambrick and Engineer Earl Peterson feeding a school broadcast to KBPS; below—Larry Smith, NBC news expert, talks to Franklin High students on KGW sponsored visit.

WILLARD B. SPALDING
SUPERINTENDENT PORTLAND SCHOOLS
SAYS... "Radio has provided us with a means of communication, immediate and universal. The scope of its influence has recommended its use in the schools. Every day at 11:15, a program prepared and produced by the KGW staff is broadcast to the schoolrooms over KBPS, official school radio station, highlighting history, science and so on. And the KGW program 'Schools at War' produced at the schools with supplemental talent from the boys and girls themselves, has been a real aid towards the bond buying record established by Portland students."
Blue Conducts Experiments to Raise Quality of Public Service Programs

TAKING a positive attitude toward public service programs, the Blue Network is experimenting with new forms of presentation intended to enliven them.

Explaining the action, Chester J. LaRoche, vice-chairman of the network's board, said, "We believe that public service programs can be produced and presented with the same high skill of public appeal that heretofore has characterized generally programs of a dramatized and variety nature"; secondly, we believe that these informational programs should be presented at a time when most people are able to listen to them and not, as has too frequently been the case, relegated to obscure periods in the broadcast schedule."

First major step towards this was the New York Herald Tribune Forum last month. The Blue, in cooperation with its advertisers and affiliates, cancelled an hour of commercial programs on each of the Forum's three evenings, but not just to pick up whatever speakers happened to be on. Adrian Samish, national production manager, with the cooperation of Mrs. Ogden Reid, vice-president of the Herald Tribune and originator of the forums, arranged to coincide the most interesting parts of the meeting with the broadcast and to present them.

Each broadcast opened with an introduction by John B. Kennedy, Blue commentator, discussing the program to come, its meaning and its importance. At the conclusion of the period, he digested and summarized the speeches delivered and the points made. The broadcast was as much a radio program as any commercial show, with the listener given the feeling that it was put on for his benefit and not that he was merely eavesdropping at someone else's party.

"Because of this new treatment," said Mr. LaRoche, "we consider the entire program series was a test to determine whether or not the public appeal was correct. The reactions from our stations, from government officials, from the general public and from the civic and political organizations is evidence that there is a need for this new treatment of public service features."

CIO 'NEWS' HINTS UNION OWNED RADIO

DESPITE assertions by Sidney Hillman, chairman of the CIO Political Action Committee, that the CIO-PAC had no plans to enter broadcasting through the FM field [Broadcasting, Nov. 6], the Nov. 6 issue of the CIO News calls upon its unions to get into radio in an article captioned: "The Mike's Yours for the Asking! What's Your Union Done About It?"

An FCC report discloses, the News said, that "most of the big shots who control the currently popular form of AM broadcasting are jumping with both feet into the FM field." The article pointed out that television and facsimile expansions as proposed during the FCC allocation hearings and commented: "The opportunities pictured by the industry are available to all. Labor unions and other progressive organizations can get into the field. And if they want a break in broadcasting, they'll have to make it for themselves."

Speaking a fortnight ago before the National Press Club in Washington, Mr. Hillman had asserted that the CIO-PAC had no "program" to go into radio, although he added that on the basis of the "misinformation" on the air, "something ought to be done."

South Bend Is Clear--

--across Lake Michigan

(and then some)

from Chicago

You can dominate the South Bend area only by using WSBT and in no other way.

The latest Hooper rating proves this fact. It shows that nearly half of all the radio listeners—morning, noon and night—in South Bend use WSBT. In addition to South Bend, WSBT goes into 27 Indiana and Michigan counties, with 33 towns of more than 2,500 people, having a total of 243,000 radio homes. Remember, this great audience can be adequately reached only by using WSBT.

An affiliate of the Columbia Network, WSBT is a pioneer station 22 years old—and its FM station has already been operating a year and a half. WSBT is a 1,000 watt station at 960.

Abdul Khabul and the Bulbuls

In the city of Bagdad-on-the-Cuyahoga, which is called Cleveland, there lived one Abdul, a vendor of talking and singing birds. Day long, his shop was a-twitter with the voices of talking mynas and sweet-singing bulbuls. The only thing lacking unto Abdul was customers.

Then, upon a day there spake unto him a neighboring merchant, saying, "Abdul, old drip, get hep! Put your talking and singing birds on the air—over WHK—and you'll be in the bucks. WHK sells everything else in town... why not birds? And thus began the days of lush prosperity for Abdul.

To Abdul, this was the most perplexing of sorrows. For, verily, his store was filled with wondrous and desirable birds... with mynas who could recite whole suras from The Koran... with silver-tongued bulbuls—among them his pet, Burch, who whistled the Muezzin's call to prayer with a boogie beat. Yet there were no buyers.

Because this station does sell goods

(Continued from page 14)

added. Mr. Padway replied there is "a deep economic problem" involved. He said musicians were trying to prevent destruction of their jobs by mechanical devices, citing Musak as an example. He said there are stations which broadcast 100% of their musical programs by records alone; sound movies threw 18,000 musicians out of jobs.

From the engineer's standpoint, he admitted, it would be better to have the turntable in the control booth. But the question is whether the musicians have a right to that work, he said.

Questioned by Dr. Millin, he said this case came before NLBB as the result of agreements by the networks to permit AFM members to operate turntables at all their owned stations, and declared the AFM "has never threatened" the nets.

AFM Learned from Films

Questioned further, he said the musical craft has stood still in the last 20 years while other industries have had great expansion. He said the AFM "learned its lesson" from the film situation and that the AFM "can't buck the mechanical situation". He said the AFM feels it has a right to participate in the profits of industries which affect the employment of musicians.

Mr. Padway offered to take a national election including the musicians to determine who should do the work. "Why not take the election just among those who do the work? That's the way we always do it", asked Dr. Millin. Mr. Padway replied that every musician is a "potential" platter turner. He said that platter turning is a classification of Chicago musicians under the same group which include trombone, clarinet or other instrument players.

Mr. Padway said the Chicago AFM local has only insisted that all musical devices which displace musicians be under the jurisdiction of musicians. He said William Green gave the musicians this jurisdiction.

"We musicians are not interested in the engineering functions", he said.

Questioned by Mr. Houston, he said the AFM has entered into an agreement with the IBEW to obtain platter-turning work, reserving the technical phases of sound integration to the engineers. He took issue with Mr. O'Donoghue's contention that NABET developed the turntable industry.

Mr. O'Donoghue said the work of the turntables cannot be segregated. He said sound distortions are adjusted by the engineer, not the musician at the turntable.

As the hearing closed, Mr. O'Donoghue said he did not come before the Board to argue economics and he urged the Board to read the War Labor Board panel report in the recording case which, he said, would "explode the myth" of unemployment among musicians. "Yes, read the report", Mr. Padway countered.

All CBS Outlets Listed

For Army-Navy Contest

GILLETTE Safety Razor Corp., Boston, which announced several weeks ago it had secured broadcast rights to the Army-Navy football game Dec. 2, has ordered the full CBS network of 142 U. S. stations plus outlets in Hawaii for the period beginning at 1:45 p.m. Game will be covered exclusively on CBS, with Ted Husing and Jimmy Dolan handling play-by-play and color respectively.

Play-by-play will be transmitted simultaneously by the Armed Forces Radio Service via six or more shortwave stations, with Sgt. Joe Hazel stationed in the East, and Sgt. Bill Grundidge in the West, to fill in as commercials are cut out. Description will be picked up and rebroadcast on the Armed Forces Network by such units as the 7th Army Mobile Transmitter in Italy and the 5th Army Transmitter in France, and in some cases put on free telephone lines reaching into the front lines. Agency is Macken Inc., New York.

QUICK FACTS ABOUT
BLUE NETWORK
CO-OPERATIVE PROGRAMS

BAUKHAGE TALKING: Direct from Washington. Baikhage gets his news from men who make it, is in daily touch with the White House, Cabinet Members, congressional leaders, etc. Broadcasts: Midday, Monday through Friday, 15 minutes.

KIERMAN'S NEWS CORNER: Direct from New York. One of the outstanding human interest reporters of our time. Broadcasts: early afternoon, Monday through Friday, 15 minutes.

MARTIN AGRONSKY: Direct from Washington. Famous News Analyst, who has broadcast from hot spots all over the world. Early morning, Monday through Saturday, 15 minutes.

AND THESE 2 OTHER TOP-NOTCH NETWORK PROGRAMS

DICK TRACY: Famous juvenile adventure series. Late afternoon, Monday through Friday, 15 minutes.

Baukhage! Martin Agronsky! Walter Kierman! Names to conjure with, as history is on the march around the world! For these are men who have been to world capitals and have spoken to the world's great leaders. Imagine how the authority of their voices can add to the sale of your products, or services—right in your own area.

Here's how it works: The Blue Network broadcasts coast-to-coast. At the opening, in the middle and at the close of each Co-operative Program—the announcer at your Blue Station identifies the program as yours and does your selling. Result—your audience hears you sponsoring a major Blue Network Program and hears your substantial selling story told against this important background. The cost is low—you pay only your own local share.

Hundreds of prominent local advertisers have successfully used Blue Network Co-operative Programs. We will gladly furnish you with the names, so you can personally check with them on their success with Blue Network Co-operative Programs.

For all information ask any Blue Network Radio Station, or the Co-operative Program Division of

FCC Clears the Decks

(Continued From Page 13)

a consultant, which he probably could undertake while engaged in private law practices, to the participation in the world communications picture is more than hear-say.

Since the elections, apparently no wheel has turned on filling of the two FCC vacancies. The same roster of names is mentioned, headed by Mr. Porter. If there is a lapse in the appointments, observers expect Paul A. Walker, charter Democrat member of the FCC, to be named acting chairman.

Fly's Practice Plans

Commissioner Clifford J. Durr, whose slants on commercial radio have hardly won universal favor in radio circles, appears no longer to be an avowed candidate for the chairmanship. There has been mention of his possible appointment to a war post in connection with surplus commodities by virtue of his background under Jesse Jones with the Reconstruction Corp.

Whether Mr. Fly will specialize in communications law was unanswered last week. Those close to him thought he might take retainers from companies identified with communications and radio and actually practicing other phases of law, such as taxation and utility law. He has a standing offer from William B. and C. H. Bowles and the University of Chicago. Chicago, chairman of Encyclopedia Britannica, and owner of the common stock of Muzak and Associated Music Publishers, to represent that firm or become an official. It is presumed he will become a director of Muzak Corp., now serving recorded music by wire line to restaurants, hotels and public places, but which aspires to "subscribers' radio" service via FM frequencies on a nationwide basis.

The FCC actions last week took off the books a number of knotty cases in which Mr. Fly had evinced interest. Grants of the two new stations in Sacramento was in keeping with the Fly philosophy of a sufficient number of outlets in each substantial market to accommodate all national networks. The Harrisburg grant, to pave the way for a Blue outlet, was in the same category.

WOKO Case a Rarity

The WOKO proposed refusal to renew license is a rarity in FCC annals. In its decision, in which Commissioner Case did not participate, the FCC said:

From a consideration of all the material facts found in the record of this hearing, the Commission has concluded that applicants cannot be entertained with the result of the proceeding to a decision. The Commission, therefore, finds that a grant of the application for renewal of license for the operation of WOKO by the applicant corporation would serve the convenience, or necessity, and therefore should be denied.

Under Commission procedure, oral arguments in opposition to the proposed WOKO denial are in order. More than likely, moreover, an appeal to the Federal courts will be taken should the FCC affirm its tentative decision.

The WOKO case went before the FCC in formal hearings in July 1943, at which time Harold E. Smith, general manager and 25% owner, testified regarding Mr. Pickard's ownership with Mr. Phelps. Mr. Pickard had testified the stock was presented to Mr. Phelps as a gift but that the dividends were received by himself and Mrs. Pickard. Subsequently, Mr. Pickard announced sale of his 4% interest in WOKO to Monroe M. Redden, Hendersonville, N. C., for $75,000, subject to FCC approval of the renewal.

The balance of WOKO is held by the Albany Knickerbocker News, 35%, and Raymond B. Curtis, attorney, of Garden City, who had bought the stock several years ago for approximately $40,000.

In the WPAT action, from which Commissioner Walker dissented, the question original posed was whether control had changed hands without FCC approval. The question was simply whether Mr. Jones, who had been a member of the Knickerbocker News also a member of the policy-making board of WOKO, had or had not control of the station, for without control there can be no transfer of control.

Transfer of Control

The Commission said the arrangements under which Mr. Flamm acquired 49% and option to purchase the additional 1% constituted a "transfer of control" which should have been presented to the Commission for approval prior to the date the arrangements were effected. It added that, with the station being the subject of no mitigating circumstances shown hereunto.

Mr. Walker said he disagreed with the decision which gives approval to a transfer of this nature after the event. "Section 310 (b)," he added, "contemplates approval in writing, by the Commission prior to the transfer of control of a licensee. There are no mitigating circumstances shown hereunto."

The KQV transactions growing out of the FCC's duopoly regulation, was approved by a split vote, with Commissioner Durr dissenting.

Hugh B. Jett and his family, who also own WJAS, sold the station to Allegheny Broadcasting Corp., owned by four Pittsburgh businessmen in equal 25% blocks, for $750,000. The purchase price was $1,000,000, but was conditioned upon the sale of KQV to the Board of Broadcasters, respective owners of the two stations.

Howard H. Wilson, Co., N. 1st, Representatives

F. Reed, attorney; Charles T. Campbell, businessman. KQV operates on 1240 kc with 1,000 w and is a Blue outlet.

For the sale of WQAD, Quincy, IL, by W. Emery Lander, broadcaster and attorney, to Lee Broadcasting Inc., controlled by Lee Radio Inc., licensee of KGLO Mason City, IA, and affiliated with newspapers and other stations, for $487,500, was rest for hearing. Overlap with KOMO Hannibal, Mo., affiliated with the same ownership, was the main issue. Commissioners Jett and Wakefield dissented and Commissioner Case was absent. Thus the petition for reconsideration and grant without hearing was denied by the affirmative vote of Commissioners Fly, Walker and Durr.

To end interference resulting to KLRA Little Rock, assigned to 1010 kc, the FCC granted the petition of the day only to KWBU Corpus Christi, Tex., ex-Mexican border station, operated by Carr Collins, Crazy Water Crystals Co., to shift frequency from 1011 to 1030 kc, the WBZ-WBZA Boston clear channel. A special service authorization for six months was authorized on a conditional basis. Commissioner Durr, who has consistently opposed the KWBU grant, likewise dissented from this transaction. The 50,000 w daytime outlet was the former XEAW Reynosa, Mexico. Mr. Collins' associates include Baylor U. and two sons of W. E. O'Daniel.
Top-ranking NBC programs, plus live local showmanship, made WFLA the most-listened-to-station in the Tampa-St. Petersburg market even when it had night time power of only 1000 watts (5000 watts daytime).

Now, WFLA has 5000 watts night time and daytime. More than 150,000 new listeners have been added to WFLA’s night time audience.

“Spots,” which did a big job on WFLA before, will do an even bigger job for you now in this rich, war-busy market. A few choice spots are available.
FCC Sponsor Rule Language Protested by Broadcasters

AAAA to File Objections; Loucks Continues Conferences in Clarification Attempt

PROTESTS over the language of a proposed FCC regulation, based on Sec. 317 of the Communications Act and involving identity of sponsors, have been filed by several broadcasters. The American Assn. of Advertising Agencies plans a similar meeting of broadcasters and listeners.

Meantime Philip G. Loucks, retained by the NAB as special counsel in the proceedings, will continue negotiations with the FCC and other groups in an effort to clarify the language of the proposed regulations [Broadcasting, Oct. 30, Nov. 6].

'Imposition on Listener'

Deadline for filing briefs and requests for oral argument has been postponed to Nov. 14, on application of the NAB, and oral argument has been set for Nov. 27. Only one broadcaster asked for oral argument.

George Link Jr. of McKercher & Link, New York law firm representing the AAAA, said his client felt that in general where a company name or product is mentioned throughout a program, the additional announcement that the program is "paid for" by the sponsoring firm would be an "unnecessary waste of time and an imposition on the listener."

Ed Crancy, president of KGIR Butte, Mont., who served as unofficial clerk of the Senate Interstate Commerce Committee during hearings on the White-Wheeler Bill (S-814) last year and who helped Sen. Burton K. Wheeler (D-Mont.), Committee chairman, draft the proposed legislation, can see no reason for the Commission's proposed rule, he advised, because Sec. 317 is "perfectly clear". Mr. Crancy opposed specifying that a commercial program is paid for at both the beginning and end because the law does not indicate that such procedure is necessary.

Four of the Fort Industry Co. stations filed opposition to the proposed rule as it now stands, contending the language is not clear. Wrote George W. Smith, managing director of WWVA Wheeling and executive vice-president of the Fort Industry Co.: "The proposed rule has merit but the language can be more specific, thereby eliminating future misunderstandings and possible inequalities due to the latitude of interpretation."

He suggested that "paid for" be substituted by "provided by" or "sponsored by".

Allen Haed, managing director of WIZZ Zanesville, Ohio, who thinks the rule is sound basically but contends it would, as written, cause repetition of the sponsor's identity in many instances. Mr. Haed who wants the "valuable consideration" angle cleared up, stated, "We feel that this proposed rule can be made much clearer in content and more easily understandable."

Ralph Elvin, managing director of WLOK Lima, O., also urged "plain language" in the rule and substitution of the phrase "sponsored by" rather than "paid for", since broadcasters and listeners alike know that "sponsored" programs are paid for "in cash or other consideration". Mr. Elvin posed a question with reference to "teasers", spots preceding a commercial program. In some cases sponsors want to build up audiences, particularly for new shows, by using "come on" spots. Forced sponsor identification of such announcements would "take away the element of surprise", he contended.

Stanley P. Kettler, managing director of WMMN Fairmont, W. Va., felt that while such a proposed rule would "better serve the public interest, convenience and necessity", the language should be clarified.

Law Operable

Arthur L. Bright, vice-president of KFPY Spokane, Wash., thinks the law is explicit and operable as it stands and that it's unnecessary for the FCC to "superimpose further order". By King, station director, WEBR Buffalo, N. Y., said "such a rule would be cumbersome". He wanted to know in cases of political committees "of the moment" whether the phrase "such as the "Hamilton County Citizens League for Sen. So-and-So" is sufficient identification or whether names of all contributing members of such committees must be mentioned.

H. S. Jacobson, general manager of KXL Portland, Ore., believes the rule is not only "unnecessary" but that it goes beyond the law since the Communications Act does not indicate that programs shall be labeled "paid for" at the beginning and end.

Hugh R. Norman, manager of WNBH, New Bedford, Mass., contended such a rule is unnecessary "except for political, religious and controversial issues".

On behalf of the Journal Co., Milwaukee, licensee of WMJ-WMFM, Hogan & Harrison, Waukesha law firm, filed a brief contending the proposed rule is "unnecessary, confusing and impractical" and that enforcement of the "paid for" clause would cloud the issue, particularly with reference to sponsors in the case of holding companies such as General Foods, Best Foods, General Motors, Sterling Products, etc.

Sec. 317 of the Act covers all commercially sponsored programs or announcements, the WMJ counsel argued, but should the FCC adopt a rule, it was recommended that the order "make mandatory the disclosure of the person or organization furnishing or paying for announcements or programs which do not . . . disclose the identity of the person or organization furnishing" them.

Protesting that the proposed rule would place a hardship on small station personnel, be detrimental to good broadcasting "from the listeners' viewpoint" and would result in elimination of many War Bond and other Government messages, N. L. Beyler, manager of WOLS Florence, S. C., filed for oral argument. He likened radio to a "newspaper of the air", which should be accorded "all the privileges that any newspaper enjoys".

John D. Graves of Arlington, Va., an individual, urged the FCC to stick with the proposed rule with a provision that political broadcasts of five minutes or less be identified at the beginning as to sponsorship.

Florence M. Gardner, general manager of KTFI Twin Falls, Idaho, said the "FCC is placing radio stations at a competitive disadvantage to other advertising media and this, in turn, will be conducive to the discouragement of the American system of radio. We feel that a compulsory regulation requiring radio to revive the almost absent lead-in, hitch-hike or cow-catcher is a backward step and a discouraging one," Mrs. Gardner wrote.

Hugh R. Norman, manager of WNBH, New Bedford, Mass., contended such a rule is unnecessary "except for political, religious and controversial issues".

On behalf of the Journal Co., Milwaukee, licensee of WMJ-WMFM, Hogan & Harrison, Waukesha law firm, filed a brief contending the proposed rule is "unnecessary, confusing and impractical" and that enforcement of the "paid for" clause would cloud the issue, particularly with reference to sponsors in the case of holding companies such as General Foods, Best Foods, General Motors, Sterling Products, etc.

Stanton Host to Eight Station Managers in New York

GENERAL managers of eight CBS-owned stations held their reg-
ular semi-annual meeting Nov. 9-10 at the Hotel Commodore, New
York, with CBS vice-president Frank Stanton acting as host.

Station executives attending the meeting included Arline Hull
Hayes, general manager, WABC New York; J. Kelly Smith, general
manager, CBS radio sales at WBBM Chicago; A. D. Willard
Jr., general manager, WBT Charlotte; Austin E. Joscelyn, general
manager, WCCO Minneapolis-St.
Paul; Harold E. Fellows, manager, CBS New York; Englund operation
as at WEEI Boston; Carl Burkland, gen-
eral manager, WTOP Washington.

Also Wendell B. Campbell 24, assistant manager, KMCO St.
Louis, D. W. Thornburgh, CBS vice-president in charge of western
division; and general manager, K.
Los Angeles; Howard Meighan, eastern di-
vision, CBS radio sales in New York
also participated in the sessions.

Attending a dinner meeting of the managers on Thursday were
Joseph H. Ream, CBS vice-presi-
dent and secretary; Frank E.
White, vice-president and treas-
urer; Worthington Miner, manager
of CBS television, and Gilbert Seldes, director of television. Will-
"m C. Gittinger, CBS vice-presi-
dent in charge of sales joined the
station group at a luncheon on
Friday.

Speakers at the two-day meeting included: Douglas Cosalter, CBS
vice-president in charge of pro-
grams; Dick Dorrance, director of
domination service for CBS-owned
stations; William Finck, assistant director of broadcasts; Jo-
seph Jackson, network personnel
manager; Jan G. Schimek, di-
rector of editing and expression; and
Charles Smith, supervisor of re-
search, CBS-owned stations.

Cost of ARTAS Survey Underwritten by Nets

REPRESENTATIVES of the Radio
Writers’ Guild and other crea-
tive workers in broadcasting
who are cooperating with NBC, CBS and
Blue Network in drafting plans for
an Academy of Radio-Television
Arts & Sciences.

To insure impartiality, networks
retained the independent public re-
lations firm of Lee & Losh, Holly-
wood, to sample industry opinion
and coordinate plans for the new
all-industry organization. Firm will
present a suggested plan of organi-
zation for the Academy of Radio-
Television Arts & Sciences for dis-
bussion by all interested groups
in the industry, including NAB and
emerging organizations. Hill
Knowlton, New York, is associated
with Lee & Losh in preparation of
the plan. It has been pointed out that
ARTAS would not infringe upon the province of existing in-
dustry organizations. Networks are
underwriting costs.

ED VOYNOW PLANS RETURN TO PETRY

LT. COL. EDWARD E. VOYNOW

will spend the first few months of his return to civilian life after
being placed on inactive status Dec. 4, primarily reacquainting
himself with radio and particularly
studying FM and television trends. He will then return to the Chicago
office of Edward Petry Co. of
which he is a partner and vice-

President.

Col. Voynow has been with the War Department in Washi-
gton since his return from the China-
Burma-India theatre where he was
with the Bomber Command expedi-
ting supplies. He returned
depressed deeply impressed with the new
radio techniques being developed
and used in the field and believes
they will do much for commer-
cial broadcasting in the post-war
period. He brings back to his busi-
ness career eyewitness knowledge
of the use of radar, high frequency
for communications, and of radio
as well as wire teletype.

Among the radio men Col. Voy-
now met while abroad were Hugh
Higgins of WRC Washington, set-
ing as PRO in Khrangpur, India; 
Col. Frank Falker, general
manager of WCCO Minnesota
with the OSS in China and Ceylon,
and J. W. Horton, Far Eastern
manager of RCA, who with Col.
Falker was setting up secret
communications equipment. Maj.
Harry M. Jackson, Western man-
ger of CBS sales in Chicago now
back in the States, he discovered
the supervising the construction of
Army stations in New Delhi and
Calcutta despite lack of an engi-
neering background.

Coca-Cola Drops Show

COCA-COLA Co., Atlanta, unable to find a suitable replacement for
Andre Kostelanetz, who has been donat-
ing his services to USO radio shows for 15 weeks, beginning Dec.
9, will relinquish time for the “Tattoo Refreshers” show on CBS
radio, 4:30 p.m., probably after the
Dec. 10 broadcast. Company is ex-
pected to resume the show as a
longer program and as conductor is
again available, provided a new
time can be found.

Spotted Bands, “Music of the
West,” and Songs by Morton Downey continue on the
Blue for Coca-Cola. Agency is

WLBT Denial

(Continued From Page 18)

terchangeably in both studios, and
none are regularly assigned to play
in either studio exclusively. The
union has asked for a minimum of
eight (8) staff members in Min-
neapolis. The evidence is that
employment of staff musicians at
KSTP has been relatively stable
and regular for the past several
years, and there appears, in these
war times, to be no serious unem-
ployment problem.

Pay Increase Denied

“The majority of the Panel finds
no reasonable basis, under war con-
ditions, for requiring a minimum’
quota of men in the Minneapolis
studios of KSTP, where more than
the minimum requested are now
regularly employed and at a time
when there is no serious unemploy-
ment problem . . .”

“Members of the Panel are
unanimous in submitting the de-
mand for a weekly wage of $52.50
for a stand-
ard week of 22 hours on the
ground that this rate is being paid
by WCCO, the panel stated that for
it to order a 22-hour minimum week
“would result in accepting by indi-
rection what we have denied direct-
ly in recommending that the union’s
request be denied” and point-

ed out that a voluntary request by
the station and the St. Paul AFM
local for a 10% wage increase was
rejected by the Board’s Wage Stab-
ilization Division. It therefore

recommended the following rates:
15 hours, $34.86; 16 hours, $40.42;
20 hours, $46.46.

The musicians at KSTP’s Min-
neapolis studios have been on strike
for nearly four months and have
refused to comply with a WLBT
order to return to work. The union
originally obeyed a directive to
terminate the strike but later called
out its members after the station
had instituted court action to re-
strain the local from holding a meet-
ing for the purpose of resum-
ing the strike.

Members of the Panel are
John K. Kyle, Whitewater, Wis.
chair-
man; A. C. Lampland, St. Paul;
and John Heil, Chicago. Mr. Heil,
labor member, dissented.

WORLD’S MEMORABLE BATTLE GROUNDS

10000 WATTS

BROADCASTING • Broadcast Advertising
SOUND EQUIPMENT - precisionized - mechanically and electronically - for finer performance

Good volume level is the direct result of uniform cutting... uniform cutting at each pitch, speed, direction... uniform cutting controlled by the distinctive design of Fairchild's precision-built carriage mechanism and lathe.

Study these design features:

Two accurately ground and polished stainless steel guide rods. Each securely anchored to provide a rigid framework, not only to guide the cutterhead carriage travel, but also to carry its entire weight.

One feed screw with a single task to perform: To move the cutterhead carriage transversely across the turntable by means of a split nut which engages six accurately ground threads instead of the usual one or two.

The convenience of disc handling without disturbing the feed screw and carriage mechanism.

The convenience of a calibrated reading scale that shows the minutes of recording completed; the minutes remaining for each pitch, speed, direction.

The Fairchild No. 539 Portable Recorder is built with long practiced precision skill to meet the exacting demands of radio and communications for studio-quality recording in the field. Descriptive and priority data are available. Address New York Office: 475 - 10th Avenue, New York 18; Plant: 88-06 Van Wyck Boulevard, Jamaica 1, N. Y.
Prospects for Radio Legislation Unaffected by Election Results

White-Wheeler Bill Still 'Pending' Before Senate; House Probe of FCC Probably Doomed

IN THE WAKE of the New Deal's virtual clean sweep of the elections and the retirement from the public radio scene of FCC Chairman James Lawrence Fly, broadcasters are weighing their chances for removal legislation next year when the 79th Congress convenes.

Six of the 10 members of the Senate Interstate Commerce Committee, whose terms expire within the present Congress, have been returned to office. Of the 25 members of the House Interstate & Foreign Commerce Committee, all but four were re-elected.

The election probably spelled doom for the House Select Committee to Investigate the FCC, it was rumored, given the campaign circles. Of the five-man group, only three members will be back: Chairman Clarence F. Lea (D-Cal.), and Reps. Edward H. Hanlon (D-N.J.) and Richard B. Wigglesworth (R-Mass.). Rep. Warren G. Magnuson (D-Wash.) was elected Senator to fill a seat vacated by Sen. Homer T. Boylan (D-Wash.), who has been appointed to a Federal judgeship.

Rep. Louis E. Miller (B-Mo.), who has vigorously investigated the Commission and particularly its chairman, was defeated. It was felt that with the Democrats strengthening their hold on the House, the FCC probe will die with the present Congress.

Senate Interstate Commerce Committee members returned to office are: Alben W. Barkley (D-Ky.), Majority Leader; Lester Hill (D-Ala.), Democratic Whip; Robert P. Wagner (D-N.Y.); Chan Gunnery (R-D.C.); Chlley M. Reed (R-Kan.) and Charles W. Tobey (R-N.H.). Of the six, Sen. Gunnery, former station owner, and Sen. Reed displayed more frequent hearings on the White-Wheeler Bill (S-814) a year ago than did the others, although Sen. Reed participated in a few sessions.

Following the announced demise of the bill last June by Sen. Wheeler, he disclosed in an article in The Progressive that it is "pending" in Committee (see page 18).

The four Senators who will not return next year are, besides Sen. Bone, D. Worth Clark (D-Iowa), defeated in the primary by Senator-elect Glen H. Taylor, former radio cowboy singer supported by the CIO-Political Action Committee; Ellington D. (Cotton Ed) Smith, pipeline sensor from South Carolina; and Harry S. Truman, the new Vice-President.

Returned to the House Interstate & Foreign Commerce Committee where he was Chairman were: Rep. Edwin F. O'Hara (D-Minn.), Republicans.

Not returning to the House are these members of the Interstate & Foreign Commerce Committee: Martin J. Kennedy (D-N.Y.); Francis J. Myers (D-Pa.), whose race for the Senate still was in doubt last week; John P. Newsome (D-Ala.), Hugh D. Scott (R-Pa.)

Results of last week's election indicated that the next Congress should be more worldly wise on radio. The Senate adds to its roster Republican Homer E. Capehart, Indiana radio and phonograph manufacturer and television advocate, as well as Iowa's Republican Governor Bourke B. Hickenlooper, who addressed the last NAB Executives War Conference in Chicago on "Radio, Our Newest Freedom!"

Only radio newcomer in the House is Luther Patrick, former commentator on WSNJ Brooklyn, who had served a previous term. Returned to the House were Lyndon B. Johnson (D), whose wife owns KTEC Austin, Tex.; Frank E. Hook (D), part owner of WJMS Ironwood, Mich. and Karl Stefan (R-Neb.), former announcer. Democratic candidate for Governor was Rep. Jack H. Wene (D-Minn.), chairman of WSNJ Bridgeport and part owner of WTTM Trenton, N.J.

THE FOUR network chiefs—G. W. Johnston, Paul White, William Brooks and John Whitemore—were reported last week to have left on their joint trip to Pacific Fleet headquarters at the invitations of Adm. Nimitz to discuss radio coverage.

Educators Decide On Radio Courses

STANDARDS for college and university instruction in radio were adopted last Friday at a meeting of the Federal Radio Education Commission held at the Hotel Statler in Washington. Lyman Bryson, CBS director of education, presided in the absence of John W. Studebaker, U. S. Commissioner of Education.

The committee, appointed in 1943 to prepare a report to the FREC, submitted the following recommendations which were adopted:

1. Development within the student of technical, sales, and business training, as well as appreciation of radio, including its political, economic, cultural and international significance.

2. Training of students for employment within stations, advertising agencies, and networks providing broadcasting with special services.

3. Specialized radio training for students in those professional fields that use radio such as journalism, advertising, speech, music, religion, etc.

4. Advice to teachers and students to utilize programs and transcriptions in classrooms, In such classes, persons may work as audio specialists, (a) as teachers of radio, (b) as directors of educational radio programming.

The committee which prepared the report included: Kenneth G. Bartlett, Syracuse; Carl H. Cole, University of Michigan; and Willis C. Walker, NBC; Miller McClellan, MBS; Arthur B. Doody, U. of Oklahoma, S. Office of Education; Lloyd E. Blauch, U. of Arizona.

Dr. R. R. Luderker, U.S. Office of Education, read a report made at the meeting on the education testimony before the FCC on channels for non-commercial FM broadcasting.

The executive committee of the FREC includes John W. Studebaker, chairman; Kenneth G. Bartlett, FCC; Lyman Bryson; Clifford D. Durand, Commissioner, FCC, who spoke; John Eimer, president, Broadcasting Corp.; William E. Givens, executive secretary, NAB; George W. Pond, vice-president, Dep't of Education; Arthur W. Wise, chairman, Educational Justice Committee; Jerry Sayler, Supervisory chairman of the NAB's Springfield; Virginia: Harold L. McCarty, director, WBAI, New York. WLA, representing NAB's Am. Educ. Div. Donald Miller, director, Midwest; Bruce E. Mahon, director, extension division, State U. of Iowa; J. Harold Ryan, president; NAB; H. B. Humes, manager public relations, IBM; Lenner Fein, director, NAB's S. Office; Frink, director, WBAI; John F. Veech, executive secretary, NAB; John Eimer, chairman, NAB's Radio Education Commission.

The committee voted to extend an invitation to Edgar Kohak, new MBS president, Miller McClellan, former MBS president.
These are busy days for everybody in the telephone business. About 4,300,000 Toll and Long Distance messages go over the lines in the average business day. (That's in addition to more than 100,000,000 daily local conversations.)

Most of these millions of messages go through all right but sometimes the Long Distance lines to war-busy centers get crowded. Then the Long Distance operator may ask your help by saying—

"Please limit your call to 5 minutes."

BELL TELEPHONE SYSTEM
AFRA, Nets Agree on 10% Increase For Talent; Other Points Liberalized

IN ADDITION to an overall increase of 10% in the AFRA commercial code covering performers employed on national programs, the new two-year contract entered into by AFRA with the networks Nov. 3 (BROADCASTING, Nov. 6) specifies other generally liberalized provisions, according to a report issued last week by the American Assn. of Advertising Agencies.

The agreement reached by AFRA and the networks, with AAAA sitting as observer, would be for a two-year period, subject to the approval of the National War Labor Board. Terms for local and regional broadcasts out of Chicago, Los Angeles and San Francisco are to be negotiated separately and likewise will be subject to WLB approval. Negotiations for renewal of the national conservation code are continuing in New York, with similar negotiations in Chicago and Hollywood later this month.

10% Increase

In a summary of changes, AAAA said the major conclusion was an increase of 10% in all fees and dollar amounts in the scales of working conditions.

Provision is made for name credits, with the understanding that the producer, under such circumstances where the compensation code already contains appropriate, will give such name credits on the air as program exigencies and requirements will reasonably permit.

Where an artist is required to wear evening dress, a minimum fee of $1 for male artists and $2.50 for female artists is to be paid for broadcast and repeat if both on the same day.

The producer must give the artist not less than two weeks' notice if he is interested under a minimum 13-week contract. Travel compensation, where the total fee is less than $100 per program, is established in instances where travel is more than 20 miles from the broadcasting centers (New York, Chicago, Hollywood, or San Francisco). The basis is $24 per full day in addition to the fee, first-class transportation and reasonable living expenses.

Revision of the provision dealing with rehearsal sessions provides that rehearsals for 15, 30 and 60-minute programs shall be held in not more than one, two and three sessions respectively, except that an additional session may be held in each case where a 15-minute program has been rehearsed in one session of three or more hours, where a 30-minute program has been rehearsed in two sessions totaling eight or more hours, and where a 60-minute program has been rehearsed in three sessions totaling 10 or more hours. Participation in a voice test by an artist already engaged for the program shall be paid for at the rehearsal rate.

The network AFRA contract was extended for two years to Oct. 31, 1946 and contains no cost of production provisions. All changes were retroactive to Nov. 1, 1944, except for certain provisions to become effective Nov. 12, 1944, but with all subject to WLB approval.

AAAA suggested to its membership that until such time as the WLB takes action, reserves should be set up covering all increases in minimum fees to performers on their programs.

Ralph D. Kanna Named WHTD Station Manager

APPOINTMENT of Ralph D. Kanna as station manager of WHTD, formerly WNBC Hartford, succeeding Richard Davis was announced by John Shepard 3d, chairman of the board of directors of the Yankee Network.

Mr. Kanna, who is Hartford representative for the New York Office of War Information, was program director of the station for five years. He entered radio in 1934 after graduating from the University of Connecticut. While at college he worked as an announcer at WGLC Hudson Falls, N. Y.

Peard Joins KTBS

LESLIE H. PEARD JR., sales manager of WBAL Baltimore, will join KTBS Shreveport, Dec. 1 as commercial manager. Mr. Peard was graduated from Princeton in 1933 and made his connection with WBAL shortly thereafter.

GODFREY TO TOUR IN SOUTH PACIFIC

ARTHUR GODFREY, sunrise announcer of WABC New York and WTOP Washington, is leaving on a South Pacific tour under Navy auspices. He will make a series of recordings built around use of blood plasma at military posts.

Famed for his one-man blood donor campaign, Godfrey has given nine pints of his own blood. In his youth he was a seaman in the Navy and in 1937 approved for a commission, believing war was approaching. He was commissioned a lieutenant commander in public relations, continuing.

Accompanying Godfrey will be G. Richard Swift, program director of WABC New York. Bill Jenkins will substitute at WTOP Washington. Godfrey has recorded in advance enough material for about a week.

Kesten Return Awaited

CBS board of directors meeting, scheduled for Nov. 8, was postponed to Nov. 17, because of the absence of Paul W. Kesten, executive vice-president, as well as of William S. Paley, president. It was announced last week. Mr. Kesten left several weeks ago on a trip to England to discuss network affairs with Mr. Paley, CBS president on leave to serve as chief of radio, Psychological Warfare Division, SHARP, which will act on the year-end dividend payable Dec. 8 as of record Nov. 24, 1944.

Audition’s 10th Season

SHERWIN-WILLIAMS Co., Cleveland, for the tenth season sponsors Metropolitan Opera Auditions of the Air, to be broadcast on 160 Blue stations Sunday, 5:30-9 p.m., beginning Nov. 26. Firm has retained the period through summer and fall with World of Song. Agency is Warwick & Legler, New York.

ADVERTISING RESEARCH Foundation has moved from its present offices at 330 W. 42d St., in New York, to larger quarters at 11 W. 42d St.

Bob Kennedy from the original cast of “Oklahoma” sings on PLEASURE PARADE see page 45
DEEP-FREEZE EXPERT of the animal kingdom, the Polar Bear is EXCLUSIVE because its entire life is spent on ice ... and because of great love for its young. Crack swimmer, long of body with shaggy yellow-white hair, the Polar Bear inhabits North Pole regions, keeps warm and dry with well-oiled skin, feeds on both land and aquatic animals.

FIRST WITH FM in the Kansas City Area, K-O-Z-Y is EXCLUSIVE because it is Today's Voice of Tomorrow for Particular People in a Preferential Market ... where “double-talk” broadcasting is “second-guess” campaigning ... because EXCLUSIVE FM PROGRAMMING for EXCLUSIVE FM LISTENING makes Everything KOZY in Kansas City. Extensive Broadcast Activity Planned for War Bond Drive

BROADCASTERS, both network and independent, are drawing up final plans to take part in the Sixth War Loan Drive for $14,000,000, 000 Nov. 20-26. Specially prepared Treasury leaflets, most of it sponsorable, has already been scheduled and sold by many stations. It will be supplemented by extensive independent activities and promotion to sell individuals their $4,000,000,000 quota of E Bonds. Additional support will be received through the usual scheduling by the OWI allocation plan.

The major networks will present half-hour programs on the eve of the drive. Blue will be first on the schedule at 5:30 p.m. with a dramatic program written and produced by Ben Hecht. NBC will be second with a program featuring talent drawn with American Pilgrimage, to be written by Bill Roscoe, with pickups from the homes of servicemen overseas. Mutual will devote the fourth quarter-hour. Concluding the presentation all four networks will combine for a message from the President officially opening the Loan.

New York Rally

The following evening, Nov. 29, a number of top network programs will be broadcast from a Bond rally at Madison Square Garden, New York, starting off with the Sun Oil news commentary by Lowell Thomas on NBC 6:45-7 p.m. and followed by Lehn & Fink's Blind Date on the Blue 8:30-9; Gabriel Heatter for KREJL on Mutual 9:9-11:5; Coca-Cola Spotlight Band, Blue 9:30-9:55; Mars Candy Dr. I.Q., NBC 10:30-11. Other radio entertainers will also make appearances. NBC that same evening 11:30-12 midnight plans to carry a pickup from a "Stars on Parade" rally at Constitution Hall, Washington, entire show of which will be aired locally by WWDC.

With the slogan "We're back to Japan!" as NBC's special Bond Day, Nov. 23, Thanksgiving Day, the network will devote 20 hours of broadcast time to the campaign. Military leaders, entertainers, civic leaders and clergymen will present Bond appeals. At least one hour an hour on the hour sound of a doorbell will be heard to indicate a special Bond appeal, as NBC's salute to the nation's 5,000,000 volunteer Bond salesmen. Other features, among other pickups, will include a report on how men overseas are spending Thanksgiving.

Blue Network Bond Day is set for Dec. 1 and Mutual Dec. 16. Mutual theme is to be "Buy a Bond for Christmas". Dec. 7 is date chosen by CBS as its Bond Day. That network will present War Bond scripts on all of its sustaining programs. Pickups will include items newsworthy overseas. Typical program story is

slated to include many major battles of World War II and their respective veterans. Working on this project is Bob Shayon, staff producer.

In addition to a program near the end of the drive to show the nature of the enemy, CBS has scheduled four Monday shows 11:30-12 midnight in cooperation with the American Hotel Assn. Each broadcast will be dedicated to a basic industry's war contribution. Four Friday 7:15-7:30 p.m. programs featuring name talent back from overseas tours is also tentatively slotted by CBS.

With Gabriel Heatter as mc., Mutual in its opening Bond broadcast Nov. 19 9-9:50 p.m. will present Jane Cowl, Sgt. Joe Louis, and an enactment of Norman Corwin's "We Hold These Truths" by Walter Hampden.

Navy participation in the Sixth Loan is highlighted by a "Pacific Theatre" presentation of exhibits and a group of network broadcasts from the Navy Pier in Chicago, Nov. 18 through Dec. 3. All four networks plan pickups and originations from the radio theatre on the pier constructed for the exhibit. Coordinating the programs for the Navy are Lt. (jg) George J. Zachary and Lt. George Christ.

An appeal to advertisers and agencies was made by George F. Ludlam, chief, OWI Domestic Radio Bureau, to adhere to regular OWI allocations, despite eagerness of producers to devote programs to the Sixth War Loan. The Bureau is especially concerned that appropriate time be given the Army nurse recruitment, Merchant Marine and Don't Travel campaigns.

Silent Partners

THOSE who serve in silence no longer do so in anonymity on WDBR Hartford. After each local show the announcer not only identifies himself but also tells the names of those working in the control room and at the transmitter. Besides giving the unknown a break it proved a good morale-builder for the staff.

Blue Names Samuels

FRANK SAMUELS, San Francisco sales manager for the Blue Network and former sales manager for KGO, Blue owned and operated outlet in S an Francisco, has been appointed sales manager for the Blue western division, according to a joint announcement last week by Don Searle, Pacific Coast general manager, and C. P. Jaeger, general manager of the network. Under the new title, effective immediately, Mr. Samuels succeeds Tracy Moore, who previously had represented KGO.

Elgin Talent

TWO-HOUR program, Elgin Show, sponsored Thanksgiving Day on CBS Blue, will air in Elgin, Ill., will have the following lineup on the network show: Don Ameche, m.c., Edgar Bergen & Charlie McCarthy, Ken Carpenter, Frances Langford, Spike Jones & his City Slickers, Ed Gardner, Elsie Janis, Alan Jones, Susanna Foster, Lina Romay, Falstaff, Charrotes and Lou Silvers' Gypsycircumstances.

Mr. Samuels's former duties are Byron Nelson, San Francisco representative for the Blue who previously had represented KGO.

One-Market Plan Advantages Cited

Stanton Says CBS FM Plan Offers Wider Coverage

URGING that the FCC consider the "single-market" plan for FM as proposed by Paul W. Kesten CBS executive vice-president [CBS], Dr. Frank Stanton, CBS vice-president, in a supplementary statement filed for the Commission's allocation hearings, said the single-market plan had both social and economic advantages "which point toward a more democratic and constructive future for FM".

Market areas under the CBS plan would be designated from Census Bureau statistics, rather than those outlined by consumer organizations and advertising agencies. The single-market plan (1) provides a larger area coverage and (2) a superior signal in each of the important centers of population, according to Dr. Stanton's statement.

More Channels Seen

Technically the CBS plan "insures the maximum signal where it is needed most—in the densely populated, built-up urban areas," as well as rural service, is increased, and not compromised. "By restricting the use of 50 kw stations a greater number of channels is made available for the single-market plan, thereby providing a larger area coverage and (2) a superior signal in each of the important centers of population, according to Dr. Stanton's statement.

Socially, the single-market principle insures the maximum amount of local public service broadcasting stations, which is not only permitted but also promoted by the CBS FM plan. Rural service is increased, and not compromised, making it possible, Dr. Stanton points out, for any FM broadcaster to have a coverage area large as any other in a given market.

This plan prevents the development of "islands" in facilities which are isolated in the market without sacrificing, in fact, by improving both signal level and coverage area," the statement asserted. "It distributes the advertiser's dollar to more and more stations and thereby provides more employment. This proposal puts each broadcaster in a given market on a much more competitive footing. Furthermore, it places the competitive emphasis on programming and public service which, in the final analysis, are the end products of broadcasting."

Accompanying the statement was a map showing how CBS proposes to cover 88.7% of the U.S. population with a network of 200 stations, based on the single-market-plan.

NEW 5 kw transmitters have been ordered from RCA by CERWS Kingsport, and CKIL Loud- land Lake, Ont., for late 1945 delivery, Roy Thomson, operator of the stations, has announced.

Real Estate Developer

J. C. Nichols, whose expert guidance has made Kansas City nationally known for its beautiful residential areas, says this of radio, "With my life devoted to the betterment of the American home and community, it is no wonder that I have such a deep respect for radio. Its influence is one of perpetuating the home as the hub of our daily existence."

The influence of radio does give to home-life added incentive. By the mere twist of a dial, top-billing entertainment stars make all the home a stage. News as it happens, even in far distant lands, is a never ending panorama. Such radio stations as KMBC of Kansas City seek constantly for added ways in which to improve its service to listeners. The expense of making this possible is KMBC's investment for an even broadened position of responsibility to the home and the community in the post-war life of tomorrow.

DEDICATED IN BEHALF OF AMERICAN BROADCASTING TO THE HOME AND THE COMMUNITY

SINCE 1928 — THE BASIC CBS STATION FOR MISSOURI AND KANSAS
Colorado's Best Is America's Finest

Canned Goods

The time it takes to switch labels is all Colorado's canning industry will need to convert from wartime to peacetime production. Not one of Colorado's 27 canning factories will become an industrial war relic when the war ends.

Colorado's mountain grown fruits and vegetables long have ranked as America's finest. They are richer in flavor and higher in vitamin and mineral content. Many thousands of cases are being processed this year and, besides, 24,073 carloads of fresh fruits and vegetables have been shipped from the state during the first nine months of 1944.

The Colorado canning industry, like the huge fruit and vegetable growing industry it depends on, like the agricultural, livestock raising, mining and manufacturing industries, is a basic and permanent asset of the Denver region whose full potential has been demonstrated under the stimulus of war.

Today's prosperity and high buying power in the Denver market is no war-blown bubble which will vanish with the first pin-prick of peace. The economy of the Denver market is anchored in permanent foundations.

Sales effort, therefore, in the Denver market can be counted on to pay off today and tomorrow. More advertisers, local and national are buying more time on KLZ than on any other Denver station. KLZ makes their advertising pay, because KLZ delivers the Denver market.
