Baltimore's big population is packed mostly right inside the city limits. The number of Baltimoreans who live outside the city in the metropolitan area is unusually small. What's this mean to the people who use and buy radio advertising? Just this:

**W-I-T-H covers this highly concentrated market efficiently!** You don't need—you don't have to pay for—a big, powerful, expensive radio station to reach the people of this rich market effectively. W-I-T-H will do the whole job for you—at a fraction of the cost! Overlapping coverage of network stations from their own affiliates limits their effective coverage to just about the area W-I-T-H itself completely serves.

**Nielsen proves W-I-T-H's superiority in the Baltimore market!** The latest Nielsen Coverage Service shows that W-I-T-H leads every other radio and television station in town—regardless of power or network affiliation—in weekly daytime circulation in Baltimore City and Baltimore County. That's only one big fact that came out of this amazing survey. Get the whole story. Let your Forjoe man prove to you that the best buy in Baltimore is W-I-T-H.

---

**Baltimore is different!**

...and smart radio time-buying is different in this compact market!
She Butters Up

A Large Slice

Of the Midwest

Right next door to housewives in 11 states, Wynn Speece has been “Your Neighbor Lady” on WNAX-570 for 13 years.

The 5 states—Minnesota, the Dakotas, Nebraska and Iowa—in Big Aggie Land aren’t enough for Wynn. Mail comes in from 11—plus Canada; in 10 years she has received 1¼ million cards and letters.

Her mail may contain anything from Ma’s favorite recipe to a family problem. Wynn reads select items on the air and asks for listener comment. Result: more mail. Participating in this manner, housewives feel that they belong to the program, call themselves “Neighbor Ladies,” listen each weekday, 3:30-4:00 p.m. And respond. Over 5,000 loyal listeners from four states came to watch the Neighbor Lady demonstrate at a Cooking School in June. Thirty-five thousand orders for “Your Neighbor Lady” booklets at 25¢ a copy were received. Three times a week Wynn offered $1.79 food mixers, in seven months pulled 4,357 requests by mail order alone. Total sales exceeded $7,790.

Do you have something to sell to housewives? Let Wynn tell her “Neighbor Ladies.” Old friend and confidant to thousands, she will tell them about your product in her own words. Ask the Katz Agency for full details.
there's a Meredith* Television Station in view!

If you're looking for sales results in four of America's important markets—Kansas City, Missouri; Syracuse, New York; Omaha, Nebraska; Phoenix, Arizona, contact the Meredith* TV Station.

FCC DOESN'T propose to wait before approving new multiple ownership rule allowing two uhf outlets per entity in addition to five vhf's. Action can be expected before mid-August. Chairman Potter (R.-Mich.) of Senate Communications Subcommittee already has given rule his personal blessing but subcommittee hasn't made up its mind.

** **

IN ANTICIPATION of raising of multiple ownership limit to include two uhf stations in addition to present limit of five stations of both classes, all networks, plus group-owned operations, reportedly are in process of making allocation studies to determine where best they can operate additional uhf's. Search reportedly centers around markets in top 50 where there are not enough vhf's to accommodate all networks.

** **

WHEN ten-man tv advertising bureau committee meets Thursday it will face problem of resolving divergent ideas on official name for new project. "TAB" would conflict with outdoor advertisers' Traffic Audit Bureau; "TVAB" involves opposition of NARTB members that resented that bureau's competitive debut in spring; "TB" has obvious clinical objections. One suggestion: "TVB" for "Television Bureau."

** **

THIS WEEK'S FCC meeting (scheduled for Wednesday) may be last full agenda session until after Labor Day. Rosel H. Hyde plans to leave this week for month's vacation in his native Idaho, marking his first vacation since he assumed chairman-ship April 18, 1953. Comr. George E. Sterling is back in Washington but proposes to return to his new Peak's Island, Maine, home until about Aug. 15. Meanwhile, Commission is expected to function on limited basis, allowing staff members to get in their vacations, too.

** **

SET manufacturers believe Senate move to allow $7 tax credit on tv sets incorporating uhf band is inadequate. One of largest (outside RETMA fold) contends that tuner which would take in only local and near-fringe would cost about $12 and that full-range good tuner would run $14-$15 net cost to the manufacturer. Figuring 2½ times cost on consumer price, it would mean $27 for cheap tuner and up to $33.75 for good one.

** **

DID GOV. Gordon Persons of Alabama discuss with President Eisenhower at session last week his possible appointment to FCC after he finishes gubernatorial term at year-end? There was no answer from any responsible quarter. Most speculation was that he and President discussed Phenix City vice and gambling situation. Gov. Persons, brother of Maj. Gen. Wilton B. Persons, deputy assistant to President, was manager of WSFA Montgomery two decades ago and is being supported for next vacancy on FCC, which comes up next June 30 when Comr. Frieda B. Hennock's term expires.

** **

AS OF yesterday (Sunday) Clarke A. (Fritz) Snyder wound up as CBS-TV stations relations director [CLOSED CIRCUIT, July 26]. He's reportedly negotiating for station management post. CBS-TV Station Relations Vice President Herbert V. Akerberg doesn't contemplate naming successor immediately.

** **

GENERAL TELERADIO Film Division this week will announce sale in some 20 markets of 30 feature films acquired from Bank of America last March. First sale will represent $1 million total. General Teleradio reportedly paid $1.25 million for rights. Films were released theatrically between 1946 and 1949 but not until now to tv.

** **

AFTER APPEARANCE of Comr. Robert E. Lee last Tuesday before National Press Club, as cold and critical an audience as any bureaucrat can face, he was talked up as desirable speaker on public events. He parried questions in give-and-take session following his formal speech with skill that surprised many journalistic veterans. Some of boys began talking up prospect of his appointment to chairmanship, which has been hanging fire since last April, but Comr. Lee has insisted he isn't ever remotely a candidate for that post.

** **

THERE'S GROWING indignation in station ranks (notably non-NBC outlets) over new Gillette "Look Sharp, Be Sharp" recording as full-length rendition. One DJ (on NBC outlet) described it as "the longest commercial in radio for which nobody gets paid."

The management and personnel of WSPA take this opportunity to extend heartiest congratulations to Jane Dalton, director of women's programs and promotion for WSPA for 15 years.

We are very happy . . . and extremely proud . . . that American Women in Radio and Television acknowledged Miss Dalton's ability, sincerity and charm by electing her their association's president for 1954-56.

We know she will fulfill her new duties as President of AWRT with the same diligence, talent and enthusiasm that has made her so successful an air personality in the Piedmont section of the Carolinas.

President Approves Plan For Oceanic TV Study

RESOLUTION (SJ 96) providing for nine-man commission to study possibilities of transatlantic television was approved Friday by President Eisenhower. Commission will study global communications, with $250,000 appropriation, and report to Congress by Dec. 31 [BWT, July 26].

Membership of commission had not been named as BWT went to press. Group will study ways to use radio-tv in building cooperation and understanding among free nations. Report of House committee said to plan to link U. S. with rest of world is engineeringly feasible, referring to NARC (North Atlantic Relay Communications System) being studied by engineers. More than 50 nations are developing tv networks, according to report, with tv offering important means of reaching rest of world.

Resolution was passed last year by Senate after Foreign Relations Subcommittee heard report on NARC relay plan by William Halstead, president of Unitel Inc., New York [BWT, May 18, 11, 1953].

NARTB Neglecting Radio, Webb Insists to Fellows

NARTB should hold separate radio and tv conventions, abandon districts meetings and instate Sales Managers Executive Committee, Frank V. Webb, vice president and general manager of KFHP-FM Wichita, Kan., suggests in letter to NARTB President Harold E. Fellows.

Conceding industry meeting problem is getting out of hand (“Is That Meeting Necessary?” BWT, July 19) and answering July 22 letter by President Fellows, Mr. Webb said money saved from abandoning district meetings could be used to set up separate radio and tv sales departments in NARTB, contending BAB can’t cope with problems handled by former Sales Executive Committee. Among radio subcommittees he proposed are rate card, standard contract, audience measurement, and sales.

Radio and tv conventions could be held same week in separate hotels during transition period toward separate conventions which he claimed should be six months apart. He contended many in industry have mistaken idea that tv “is simply a superior radio signal, coupled with a moving picture,” charging some in NARTB “share this obtuse point of view.” He cited figures of J. Frank Jarman, WJN-DC Durham, N. C., new NARTB director for medium stations, showing 1,455 NARTB radio and 256 tv station members.

Stromberg-Carlson Sales Up

NET SALES of Stromberg-Carlson Co., Rochester, for first six months of 1954 reported at $31,928,861, compared with $31,042,608 for same period of 1953. Net earnings for period were listed at $1,177,759 as against $1,071,271 for first six months of 1953, with dividends on 504,183 shares of common stock amounting to $2.26 per share, compared to $2.26 per share on 502,873 shares outstanding June 30, 1953. Operations of Stromberg-Carlson-owned WHAM-AM-TV and WHFM (FM) Rochester, N. Y., are included in figures.

Voice Notes Efficiency Up After Year Under USIA

VOICE of America marked its first anniversary last Saturday under management of U. S. Information Agency and released summary of activities, claiming “it is doing more with fewer people for less money.”

Statement noted it had reduced annual budget during year from $22,427,000 to $16,600,000 and its working force at home and abroad from 2,200 to 1,600. It said that effectiveness of Voice had been increased by placing into operation transmitters at Munich, in Philippines and Okinawa; increasing number of language programs in “sensitive” areas of Far East from 34 to 38; shifting of emphasis to news and commentaries on news, and increasing broadcasts to communist and satellite areas. Voice, which previously had been under Dept. of State, is in process of moving operations from New York to Washington, with shift expected to be completed by Nov. 1.

Eisenhower Lauds USIA

FREEDOM and tyranny are fighting to capture minds and souls of men, President Eisenhower said Friday in message congratulating U. S. Information Agency on “substantial achievements” during its first year of operation. USIA operates Voice of America broadcasts and other facilities. It celebrated anniversary Friday though not one year old until Sunday. Supporters of liberty must depend “upon efforts such as those in which you and your colleagues are engaged,” President said. (See story above.)

Network Flexibility Is Aim Of New AT&T Pathway

NEW 2,400-mile tv pathway, linking stations in northeastern quarter of country, was to be put into operation yesterday (Sunday), AT&T announced Friday. Four video channels, each way, comprise closed loop arrangement extending from New York to Chicago via Buffalo and back via St. Louis, Pittsburgh and Washington, enabling any station along route to receive programs from any other station in loop or to transmit to other stations with minimum of switching. New facilities are designed to make intercity tv transmission more flexible, AT&T's Long Lines Dept. said.

FIRST TONIGHT • Polaroid Co., Cambridge, Mass. (Polaroid Land camera), is first sponsor to sign for NBC-TV's new Tonight show (Mon.-Fri., 11:30 p.m.-1 a.m. EST), starting Sept. 27 when show premiers (see page 70). Agency: Doyle-Dene-Bernbach, N. Y.

GE TV ON RADIO • General Electric, Schenectady, N. Y., broadcasting new GE music, typical of 1955, is among advertisers running spot radio announcement campaign using more than 100 stations. Schedule to break during first week in October and run for six weeks.

BIG ONES BITING • Several advertisers—among them Congoleum Inc., NBC-Biscuit, Chevrolet, U. S. Tobacco—understood interested in picking up alternate week sponsorship of Big Town, Wednesdays, 10:30-11 p.m., on NBC-TV. Show is sponsored by Lever Brothers on 52-week basis, alternate weeks. NBC-TV expected to announce alternate soon.

ON THE SOAP-BOX • General Motors Corp., Chevrolet Motor Div., Detroit, will sponsor CBS Radio's coverage of semi-final and championship races of 17th All-American Soap-Box Derby at Akron Aug. 15, 4-4:15 p.m. EDT. Agency: Campbell-Ewald, Detroit.

ANTI-FREEZE SPOTTS • National Carbon Co., N. Y. (Prestone), through William Esty Co., N. Y., planning usual fall radio-tv announcement campaign with market list estimated at about same size as last year.

YEAR-ROUND CAMPAIGN • Dolan Corp., N. Y. (anti-arthritis product), through Van Der Linde Co., N. Y., placing 52-week radio spot announcement campaign on over 100 stations. Schedule will be launched in mid-September.

POWER IS CHOICE • Chattooga Medicine Co., Chatanooga, Tenn. (Whit Draft), through Harry B. Cohen Co., N. Y., preparing radio spot announcement campaign using mostly power stations, Sept. 7 through Nov. 29.

OIL SPREADING • Gulf Oil Co., Pittsburgh, through Young & Rubicam, N. Y., planning spot schedule in more than 50 radio markets, starting mid-September for 13 weeks.

Iowa Broadcasters Oppose Langer Bill, Switch to 45s

RESOLUTIONS opposing Langer bill to prohibit liquor advertising, policy of record-makers to standardize 45 rpm records among broadcast stations, and any curbs or restrictions on radio-tv’s access to news coverage adopted Friday by Iowa Broadcasters Assn. at business meeting in Fort Des Moines Hotel, Des Moines.

John Meagher, new NARTB vice president, delivered plea for unity and cooperation among broadcasters in support of association and industry activities. He reviewed NARTB accomplishments in talk.

Ernest C. Sanders, WOC-AM-TV Davenport, elected president, succeeding Ben Sanders, KICD Spencer. Others elected were Walter Telsch, KOEL Oelwein (president of Iowa Tall Coat Advertising), radio sales representative and KSO Des Moines, secretary-treasurer. Earl Williams, KPNF Shendoah, elected director for third year term.

GEORGIANS GET FIRST-HAND FACTS ON CITY AND STATE VIA WAGA-TV

Governor Talmadge and Mayor Hartsfield are both regular guests on WAGA-TV programs, “Capitol Report” and “This is Your Town.”

These are more than public service programs—they are public information programs which give first-hand facts on issues concerning the state and city. The response is so great, no Pulse or Hooper or ARB is needed to convince either of these public officials of the vast audiences they reach.

And none will be needed to convince you that WAGA-TV blankets the area. The steady climb of your sales curve will tell the story emphatically.

Let our reps give you the facts on WAGA-TV—the station Georgians look to for facts about city and state.
FCC Denies UHF Protest Against WGAL-TV Power

IN OPINION declaring economic protest of improved facilities granted ch. 8 WGAL-TV Lancaster, Pa., was made too late without justification, FCC Friday denied joint petition for rehearing filed by five uhf stations: ch. 7 WTPA (TV), ch. 27 WCMB-TV and ch. 55 WHP-TV, all Harrisburg, and ch. 40 WQBJ-TV and ch. 43 WSBA-TV, both York, Pa. FCC said matters alleged had been considered in original hearing on WGAL-TV bid. Commission also ruled protest petition was inappropriate vehicle to ask rule-making proceedings to determine whether vhf stations should be allowed power boosts until higher power equipment is available to uhf stations in same area.

WFAA-TV Asks Ten-Fold Temporary Power Boost

APPLICATION for temporary increase in power to 27.1 kw from present site on Hines Blvd. will be completed in late 1955. WFAA-TV plans full 316 kw power when tower is completed. A. Earl Cullum is handling engineering of project. FCC approval given high tower last April.

WPRO-TV Opposes Rival Bid

WPRO-TV Providence, R. I., permittte for ch. 12, petitioned FCC Friday not to accept for filing ch. 12 bid of E. Anthony & Sons which submitted for deletion its permits for ch. 28 WTEV-TV New Bedford, Mass., and ch. 50 WBOB-TV Boston (early story page 56). WPRO-TV held Anthony application violates Commission rules since ch. 12 already is assigned to WPRO-TV. Providence outlet said its prior right to ch. 12 is not altered by fact stay order was issued by Commission on ch. 12 granting conclusion of hearing on economic protest of ch. 16 WNET (TV) Providence.

Flint UHF Turns in Permit

WTAC-TV Flint, Mich., ch. 16, surrendered permit to FCC Friday. Station suspended operation in April and together with WTAC was reported sold forthnight ago to Radio Hawaii Inc., owner KPOA Honolulu, for about $275,000, subject to FCC approval (B&T, July 12). WTAC sale agreement is still effective, it is understood.

UHF WKAB-TV Suspends

WKAB-TV Mobile, Ala., ch. 48, informed FCC Friday it was to suspend operation Sunday because of financial difficulties, but hoped to return to air by October. Only other station on air there is ch. 10 WALA-TV.

where money is made!

Inside the Bureau of Engraving and outside...everywhere you look they're making money in Washington. We've got the highest major-market family income in the nation here—a lovely green $7,259 per family! That's 40% higher than the national average and considerably higher even than our own record high of last year.

What's inside Treasury you can't take with you...but your share of the treasure outside is here for the asking—when you ask for it over WTOP-TV (Washington's most watched television station). For this Washington Post-CBS Television station delivers more potential customers each week for your sales message than any other television station in the Washington metropolitan area.

The Country's No. 1 Sport—BOWLING!

(Greatest number of participants; 16,000,000 according to Brunswick-Balke-Collender Co.)

Each film in the series a real thriller! The vast sports-loving public will make this a must. Wonderful close-ups! Sensational follow-thru on the action! Championship Bowling at its best.

A SMASH HIT in Chicago when it was telecast live!

Increased the sets in use 40%. Had on 11.4 ARB at 11:00 to 12:00 midnight Tuesday nights—more viewers than the other three competing stations combined! It was the most talked-about nighttime show in town. Chicago sports pages gave the matches great coverage. Chicago Bowling Alleys gave it enthusiastic merchandising cooperation.

Championship Bowling will get RESULTS... Just read this letter:

DE MET PONTIAC, INC.

June 16, 1954

Walter Schwimmer Productions, Inc.

"CHAMPIONSHIP BOWLING" NOW ON TV!

This is a FIRST-RUN, BRAND-NEW SERIES (made in 1954) of 26 one-hour bowling films featuring Match Elimination Games between the Champions of the Bowling World... for major cash awards. It's got the big element that puts a wallop into a TV sports show—SUSPENSE! All the top stars under our exclusive contract. No show like it on the market!

Exciting! Suspenseful! Terrific!

It's New! It's a Winner! It's a Natural!

This is the first quality sports show ever put on film for TV. Can be programmed in "fringe" time—and will be the rating leader overnight, regardless of what's programmed against it... even the best feature film in the market.

Write, phone or wire for descriptive brochure and prices. Audition reel to stations and agencies on request. (Frankly, folks, we only have a limited number available on CHAMPIONSHIP BOWLING, so it's really a matter of first come, first served.)

WALTER SCHWIMMER PRODUCTIONS, INC.

RED SKELTON SHOW
Orchestra Leader: David Rose
Executive Producer: Cecil Barker
Co-Producers: Douglas Whitney
Co-Producer and Director: Jack Donahue
Originated live in Hollywood.

RED SKELTON is somebody's idea of how to snap summer TV out of the doldrums. So CBS-TV slipped him into the Wednesday night hour usually occupied by Arthur Godfrey's relaxed Friends program. The result is standard Skeltonia with a variety show twist.

Outstanding angle to the show's format is getting two name stars to appear each week. The first episode featured screen star Tony Curtis and piano player Liberace. On the second were screen star Burt Lancaster and opera singer Anna Maria Alberghetti.

Messrs. Curtis and Lancaster were there to promote motion pictures. In the midst of it all Mr. Skelton suddenly gave way to several minutes of film clips from the latest movie releases of those stars. It was just like the "coming attractions" at the Bijou.

Guests Liberace (accompanied by silent brother George) and Miss Alberghetti were there to play straight parts. In the first instance Liberace kept smiling while Pianotuner

RED SKELTON'S replacement Godfrey's Friends

Skelton wrecked a piano. In the second Miss Alberghetti participated with him in a parody of "Carmen." Luckily, even that treatment couldn't dim her talent.

Thrown in for good measure are the usual second-string variety acts. Altogether it's an exhaustingly enthusiastic hour.

GUNSMOKE

PROOF that recently-declared burial services for radio drama are somewhat premature can be heard every Monday on CBS Radio's Gunsmoke. Hailed as an "adult western," it lives up to advance billings through intelligent writ-
KWTV's new tower—soon to be the world's tallest man-made structure—is rushing skyward toward its 1572-foot destination.

And KWTV's new studios—soon to be among the largest and best equipped in the Southwest—are also near completion.

Here's a glimpse at the KWTV picture you'll have by October 1:

- 1572-foot antenna
- 316,000 watts—video
- 158,000 watts—audio
- Oklahoma's largest coverage area*—
  1,401,400 population;
  $1,326,048,000 retail sales

More people, more money, more TV homes than any other Oklahoma station!

*100 microvolt area per engineering computations. Population and sales figures—1954 Sales Management Survey of Buying Power.

Oklahoma's Number 1 television station is heading fast toward new heights of sales-effectiveness. You can buy this coverage now for your fall campaigns. Ask us for the complete story!

KWTV - CHANNEL 9
OKLAHOMA CITY

REPRESENTED BY AVERY-KNODEL, INC.
you should own such a business!
Radio is good business. Last year radio billed more than $700 million. That's peanuts to what radio billing will be as more and more advertisers discover what it can do for them.

You want low cost coverage? Do you want to place messages where they will do the most good? Do you want a virtual monopoly on the attention of millions-on-the-move? Do you want to reach your customers everywhere?

Then you've got to have radio. No other media can do the job as well.

Do as over 2,300 major advertisers did on WBC stations last year

By using WBC's five 50,000-watters, many enjoyed substantial savings with multiple station discounts. They hit America's big population belt... at least 26,500,000... at a cost as low as 21¢ per thousand.

Crazy? You should be so crazy. Call Eldon Campbell, WBC National Sales Manager, at Plaza 1-2700, New York, or your nearest WBC station. Let them show you why radio is good business for you.

Geography Lesson
EDITOR:
In former years a standard and very wonderful part of Broadcasting’s Yearbook was a large map which showed the cities with am, fm and television stations in the United States and Canada.

With all of the changes in recent years, this map would be more important than ever, even if it were impractical to try publishing a map at this time showing the television stations.

Do you happen to have such a map of fairly recent date which we could purchase, or if not, do you happen to know where we could locate such a map?

Vernon L. Morelock
Vice Pres. & TV-Radio Dir.
Winns-Brandton Co., Adver
tising
St. Louis

[EDITOR’S NOTE: Maps of am and fm stations are available at $1 each, quantity discount. A new tv station map will be published at the end of August.]

Broke and Unenlightened
EDITOR:
Congratulations on your editorial, “Is That Meeting Necessary” in the July 19 issue. Certainly all broadcasting meetings are not necessary, and too frequently broadcasters return home broke, tired, confused and no wiser for the experience. On the other hand, many of our meetings are necessary and worthwhile.

Your editorial prompts me to suggest two ways that the number of meetings might be reduced. (1) A check list outlining the conditions which should obtain before it is necessary or advisable to call a meeting. (2) A better and more thorough job of advance planning and preparation by those calling the meeting that would frighten some of us to the point that the meeting would not be scheduled. Of course, those which were scheduled under this plan would have a better chance of being successful and worthwhile.

There’s no charge for this little pearl of wisdom, and you might receive the plaudits of the industry if you would develop and expand this idea in Broadcasting & Telecasting.

R. B. Hanna
Manager, WGY-WRGB (TV) General Electric Stations Schenectady

[EDITOR’S NOTE: Comments on this subject by other broadcasters are welcome.]

Things Are Looking Up
EDITOR:
...The [FCC’s] letter to the American Civil Liberties Union denying the latter’s request for another hearing on the subject of licensee’s handling of controversial issues [B&T, July 12] bespeaks the confidence which the FCC holds for the broadcaster’s sense of fair play.

The ACLU like many other organizations who lay claim to lofty objectives in the field of “protecting the public interest” sometimes is revealed more as a would-be censor. The militant opposition voiced by James Lawrence Fly in behalf of the ACLU, to any rights of editorial expression by broadcasters is well remembered. It was while Mr. Fly was chairman of the FCC that the ill-starred Mayflower Decision was permitted to become a rule by obiter dictum, that for many years restrained broadcasters from exercising their constitutional rights of free expression.

There is a vast and wholesome difference between the administrative agency of today and the FCC during the tenure of Mr. Fly, Mr. [Clifford] Durr and the other so-called liberals. Their liberality is extended only to those who share their particular viewpoint. Unhappily the ACLU is still more concerned with abridging rather than nurturing freedom.

Rex Howell, Pres.
KFXI-AM-TV
Grand Junction, Colo.

P&G in Canada
EDITOR:
We are at a loss to understand the At Dead-
l ine item you printed in your June 28 issue about an alleged “Switch in Canada” by Procter & Gamble.

In the first place, Procter & Gamble of Canada operates out of Toronto, not Cincin-
nati. Secondly, neither Benton & Bowles nor Compton handles the Cheer and Oxydol ac-
counts. Third, except for one isolated case, no switch from spot to programming took effect on July 1...

J. A. MacDonald
Radio Dept.

WITH justifiable pride, Richard Buckley will point out that "the essence of WNEW is originality." But the 46-year-old executive who holds the reins of one of the nation's leading independent radio stations will wryly acknowledge "my early business career is about as original as a B movie script—actually started by selling magazines.

This off-hand reference to Amherst College days when young Mr. Buckley trudged from door to door for the now defunct Delineator magazine, fails to derogate his climb to success as president and general manager of the 50 kw New York outlet. Rather, it enhances a Horatio Alger-type story built around the shrewd and aggressive selling that reflects personal knowhow.

For instance, take the question of radio's future in the light of television. Mr. Buckley isn't reluctant to express amazement that the question can be brought up at this point.

"Every piece of research available," he emphasizes, "indicates that people don't stop listening to a well-managed radio station because they buy a television set." He was once solicited by a publication seeking lengthy comments on radio's future. Mr. Buckley typed one laconic statement: "WNEW was not the only place in which one could invest money."

WNEW staffers say that one of the more frustrating pastimes is to attempt to put their new boss into a specific category. Several, observing his soft-spoken, quiet manner when Mr. Buckley first arrived at the station, were ready to vote him a "man of distinction" label. The conclusion was withheld, however, when a secretary reported him streaking through Westport, Conn., in a high-powered Alfa-Romeo.

WNEW staffers were also quick to learn too that the salesmanship background of Mr. Buckley didn't preclude him from active supervision of the many other facets of the station operation. At Trilling, chief record librarian, vouches for Mr. Buckley's almost encyclopedic knowledge of the popular music that is the station's mainstay, as well as his uncanny recollection of the exact records that are used in any day's programming.

He, himself, best describes his modus operandi at WNEW: "I listen. WNEW has a sound of its own. And when I don't hear it, I call a meeting of the staff responsible for giving WNEW that special sound." And WNEW staffers will attest that their chief isn't looking for yesses at such programming and policy discussions.

Richard Dimes Buckley was born of English parentage in Providence, R. I., where he attended the public schools until his entrance into Amherst.

His rugged six-foot frame allowed him to balance a college program that ranged from classical studies to baseball, football and the thriving extra-curricular business of selling the Buttrick Co.'s Delineator. Mr. Buckley whimsically says "I think my original fascination for radio was based on the comparative ease with which it reached masses as compared to trudging from door to door."

After Amherst, Mr. Buckley went to the Buttrick Co. and right up the ladder to the New York advertising department.

In 1935, he moved into radio and spent three years with William G. Rambeau Co., station representative firm, before joining John Blair & Co. in 1938.

It was then Mr. Buckley got his first earful of WNEW, a Blair client. It was love at first listening. In the course of securing for himself the vice presidency and ultimately the presidency of the Blair firm, Mr. Buckley built a dream around WNEW. Each time he told a client of WNEW's know-how, and each time a station client prospered through use of WNEW methods, the dream became more vivid.

This year the dream became a reality. Mr. Buckley headed a group which bought the New York independent [B7], April 19]. He took a seat behind a desk at WNEW and, as far as he is concerned, it is home from now on.

Mr. Buckley in 1953 married the former Janice Dannerth in what the couple hoped would be a quiet, simple ceremony. But it turned out to be the gala event of the Venice 1953 social season, since Mr. Buckley and his bride were the first American couple to be married in Venice since World War II. The ceremony was replete with royalty and other dignitaries in attendance.

The presence of the attractive Mrs. Buckley is felt at WNEW through her tasteful innovations in the station's interior decoration. Mr. Buckley's personal audience research sample is completed by 17-year-old Richard D. Buckley Jr. and Martha Ann, 14, children by a previous marriage.

Golf and surf activities supply Mr. Buckley's recreational needs. He points out that since he is doing exactly what he wants to do—at the place he wants to do it—recreation is no problem.

And doing what he wants to do is spelling out more successes for WNEW in terms of excellent local programming. "There is nothing more vital to radio than the well-conceived and well-done local program," Mr. Buckley affirms. "It spells popularity and commercial success. WNEW has epitomized this concept. WNEW will continue to epitomize this concept."

To RICHARD DIMES BUCKLEY OUR RESPECTS
987 miles west

of Madison Avenue,

on the Main Line, lies Iowa. Have you ever seen Iowa corn fields in late June? A New Englander, enjoying the experience for the first time, said they looked like green corduroy. We, with a television station to grind, prefer to think of them a short time later, when the green has turned into golden buying power. Iowa's corn yield, a billion dollars annually, is the highest of all states.

Have you ever heard the cry "sue-ee-e" bring ham-on-the-hoof to feeding troughs? In Iowa hog-calling is a fine art, and its practitioners hang their masterpieces in ever-growing bank accounts. Iowa leads the nation in the production of meat animals and in cash farm income from their sale.

Another sound that breaks the good clean air of Iowa is "here chick, chick, here chick." It means spending money to most Iowa farmwives. Poultry sums aren't chicken feed, either. The value of Iowa's poultry exceeds that of any other state.

But agricultural Iowa is slightly less than half of the story. Industrial Iowa contributes an annual value of manufactured products which exceeds the income ($2.3 billion last year) from farming.

Folks around these parts have been oriented to WMT radio for three decades and WMT-TV doesn't need a slide rule to measure station loyalty. The high regard which makes Eastern Iowans say "Turn to Channel 2" is beyond statistics.
Boot home a winner on KOA-TV

In Denver Television, your best bet is KOA-TV. Study the ARB dope sheet to see why!

In the June, 1954 ARB, KOA-TV placed first in quarter hour wins - Sunday thru Saturday, 6 p.m. to sign off - going away! KOA-TV topped the field by a full 19% more than the second place station.

QUARTER HOUR WINS
Monday thru Saturday - 6 p.m. to sign off

AUSTIN PACKAGING Co., Baltimore, debuts on television with sponsorship of Kitchen Karnival of Fun on WBAL-TV that city. L to r: Bill Mason, WBAL-TV sales staff; Jack Hoffenberg, Hoffenberg Adv. Agency; Ernest Fox, Austin president; Don McKee, show's merchandising manager, and Irv Samuels, Hoffenberg Adv.

ANNOUNCEMENT schedule on WGLV (TV) Easton, Pa., by Hampton Chevrolet, Easton, is arranged by (l to r) W. H. Blackton and Charles Norelli, sales manager and president, respectively, of the sponsoring firm, and William Latham, WGLV account executive.

HARRY ENGLAND (seated), president of Gulf Bottlers Inc., signs for one of the largest WDSU New Orleans spot campaigns. L to r: A. Louis Read, WDSU vice president and commercial manager; Hal Matthews, WDSU sales, and James Aldige Jr., of James Aldige Jr. & Assoc., agency.

A NEW RADIO SERIES, At Home with Marilyn Cantor, is contracted on WINS New York. The negotiators (l to r): Harold Deutsch, WINS; Robert Miller, Miller Advertising Agency; Miss Cantor, and sponsors Hyman and Ralph Loshen, builders. The 9-10 a.m. series is designed for new home buyers.
You need BOTH!

These two books constitute a TV station operator's "bible." Together they present 240 pages of descriptive information, system diagrams, tables, data, specifications, prepared on a professional level and designed to serve as a Video buying and planning guide. The two books represent the most complete authoritative and up-to-date presentation of this kind in the Broadcast industry. For your copies, ask your RCA Broadcast Sales Representative, or write Dept. H-22, RCA Engineering Products, Camden, N. J., on your station letterhead. In Canada, write RCA Victor Ltd., Montreal.
IRVING A. ECKHOFF, vice president and general manager of the Hollywood advertising-public relations firm of Roche-Eckhoff & Lee, believes a man should know what he is doing and have fun at it, too.

Born in San Rafael, Calif., he graduated from Occidental College, Los Angeles, in 1927 with a BA in economics. His background includes sports writing for the Los Angeles Times, writing Pete Smith M-G-M movie shorts and editing a Los Angeles community newspaper before "drifting" into publicity. In 1939, he established a public relations firm with Frank Roche and graduated advertising accounts of the firm’s clients.

During the war, Mr. Eckhoff was information chief of the Southern California Office of Price Administration and by 1946, "glad to get back to private enterprise," he resumed full activity in the firm. Affable and witty, he handles radio-tv advertising for such Roche-Eckhoff & Lee clients as Sally Shops (women's wear), Rislone oil alloy, Champale malt liquor, Permaglass water heaters, Agua Caliente and Del Mar race tracks, and Caloric gas stoves.

During the war, downtown newspapers reached their advertising peak, he states as a long time resident of Southern California, but since then the trend has been toward radio-tv in this region. At present, "The best advertising dollar is in radio," he states. Peak traffic hours in Southern California, with its millions of motor vehicles, are especially effective in producing radio advertising results, he points out in elaborating on this belief.

Describing himself as a former "slow quarter-miler," Mr. Eckhoff, current president of the Tiger (Occidental) Track Team Alumni Assn., still finds relaxation watching track meets. Also a tireless supporter of the Hollywood Ad Club, he is its vice president for public relations. He recently headed the Advertising Assn. of the West award selection committee for radio-tv commercials [B&T, July 19].

Married in 1927 to the former Mary-Macy Staats, Mr. Eckhoff now enjoys the two grandchildren presented him by daughter Mrs. Betty Evans. His other daughter is Barbara, 21, a Stephens College, Mo., graduate.
The signs of Charlotte are signs of a market more important by far than city size indicates. Take wholesaling, for example:

So populous and so rich is the area Charlotte serves that the city's wholesale sales barrel up to a $334,000,000 total—36th among the nation's cities.

Charlotte's wholesale sales are almost triple those of any other Carolina city—surpass Toledo, Rochester and Providence—exceed the individual totals of fifteen sovereign states.

Also wholesalers (of your advertising message) are Charlotte's two great area stations—50,000 watt WBT and top power WBTV, 100,000 watts on Channel 3. Charlotte's wholesalers, with the help of Charlotte's two wholesale advertising media, will do a wonderful job for your product.

* "Merchant Wholesalers" only—Sales Management, 1953

CONGRESS IN HOMESTRETCH SPURS RADIO-TV ACTIVITY

It's been a busy two years for broadcasting. No major communications legislation has been passed, but three studies are in prospect as adjournment nears: Bricker's on networks, Potter's on uhf, Jenner's on allowing radio-tv during proceedings. Predicted at the FCC: a boost in the multiple ownership limits to five vs. two vs.

A WEARY 83d Congress is nearing adjournment, but it has enough steam left for three post-adjournment studies that could lead to tighter regulation of radio and television.

Aside from the investigations, the 83d left a warning that the 84th Congress may legislate beer and wine advertising off the air unless radio and television advertisers tone down commercials.

Although it passed no important legislation in the radio-tv field, the 83d laid the groundwork for action by its successor, and it intends to dig further before the 84th Congress convenes. At least three projects, all in the Senate, will continue through the summer and fall:

Bricker on Networks
- On networks. Sen. John W. Bricker (R-Ohio), chairman, Senate Interstate & Foreign Commerce Committee, told B & T last week that a probe will be conducted during the coming recess. It will be in the form of a quiet and methodical staff study with findings reported to the committee in the next Congress.
- On uhf. Action here is at an increased pace:
  1. Sen. Edwin C. Johnson (D-Ohio), who retires from the Washington political arena at the end of the year, managed last week to get what he called a "silver" instead of a "slice" of his proposed 10% Federal excise tax cut for the uhf set maker.
  2. The Potter Subcommittee is on the verge of coming up with an answer on whether or not a voluntary agreement can be reached by manufacturers to produce only all-band receivers.
  3. This same subcommittee also is about to announce the slate of technical experts who will make up the ad hoc committee to lend it advice on what is economically and engineeringly feasible to break the uhf allocation bottleneck. This advisory unit will work through 1954, and come up with its uhf evaluation by the next Congress.

An interim report, summarizing the current economic status of uhf, is under preparation by the subcommittee staff.
- On radio-tv coverage of Congress. A Senate Rules subcommittee, headed by Sen. William E. Jenner (R-Ind.), is holding hearings on committee procedures. Among the top considerations: What part should live radio and tv play? This study is expected to continue at least through the summer (see story page 53).

The Congress in its second session ran the gamut of the radio-tv field. It dug into the status of uhf, license fees and live coverage of communications, and Robert D. L'Heureux, also a professional staff member (business and consumer interests subcommittee). It is doubtful now whether Sen. Bricker will make any formal statement to the full committee. The chairman of the Commerce Committee holds a powerful position. Members of the committee, for the most part, are aware of the impending staff study. And Sen. Bricker already has both the authority and the funds to start the probe at any time he sees fit. His target date: as soon as Congress adjourns.

Meanwhile, FCC Comm. Robert L. Lee, asked at a Tuesday National Press Club luncheon whether he favored the Bricker bill (S 3456) which would authorize FCC to license and regulate the networks, said he did not favor legislation nor did he think it necessary "at this time." Comm. Lee spoke to the Press Club audience on "Labels, Libels and Equal Time" (see story page 50).

Comm. Lee said FCC has under authority of

As Bricker Sees It

THIS IS the full statement made to B & T last week by Sen. John W. Bricker (R-Ohio), chairman of the Senate Commerce Committee, bringing into focus his plan for a network study:

"At the time I introduced on May 12, 1954, my bill, S 3456, to provide for the regulation of networks, I stated that it was my intention to have the staff of the Senate Interstate & Foreign Commerce Committee investigate the entire problem during the recess of the Congress and report back to the Committee in January of next year."

"That is my intention. I am not committed to the regulation of radio and television networks. I do not know, pending a study of the problem, whether regulation of the networks is necessary or whether such a step would be in the interests of the general public and the radio and television industry."

"It is for this reason I have directed the staff of the Committee to study the overall problem. The results of that study will be presented to the Committee next year for its consideration of any pending legislation on the subject of network operations."

"This is a matter of great public interest. It is of great economic and political import and should be determined after thorough hearing by the full committee."
the Communications Act "a reverse English rule" (on chain broadcasting) which permits FCC to have indirect control of networks through their owned and operated stations.

The uhf scene was dominated by a twist to the federal excise reduction on uhf-equipped sets asked by Sen. Johnson.

A doubting Senate Finance Committee grudgingly approved an unusual version of the Senator's original amendment that would eliminate an additional 10% excise.

The committee listened to Sen. Johnson in executive session Monday. When the meeting was over an amendment—only faintly recognizable as a proposal floated by the Coloradan—was tucked onto the House-passed catch-all bill (HR 6440). The committee vote split, but carried.

The amendment adopted would provide a $7 tax on the manufacture of "a device for receiving uhf signals" sold by manufacturers on or after July 26, 1954.

Sen. Johnson, who fought an uphill battle in committee, commented later that he had asked for a "slice of bread" but had come out with a "sliver."

The committee heard Sen. Johnson and also Sen. Charles E. Potter (R-Mich.), chairman of the Senate Communications Subcommittee. Sen. Potter lent his weight to the Johnson argument, which was disputed during the session by an official of the Treasury Dept.

The Treasury spokesman warned that the Johnson amendment would deprive the Government of some $115 million in yearly revenue. The $7 credit was placed at a $50 million loss to the Government.

**Bill Has Road to Travel**

The bill still has a road to travel in Congress. The Senate must consider the measure and then it will head for conference.

A puzzled industry, which had looked to the Johnson proposal as a method of aiding uhf by building set circulation, wondered aloud just what effect the "credit" would have on set maker plans.

During the Potter hearing on uhf—which by its very nature became a Capitol Hill headliner for the broadcast industry during the 83d Congress—witnesses had estimated that the retail price differential between uhf and uhf sets varies from $17 to $25, depending on model. But the "credit" adopted by the Finance Committee possibly would cut the differential from $10 to $28. Thus, the difference would be greater for the lower priced models, smaller for the higher priced sets.

But the action also doused off the oft-asked question when such "compromises" are struck: What will the manufacturer do about his set production if he is burdened with additional bookkeeping to keep up with his tax "credit"?

It was understood the $7 figure was selected because that was an estimated cost for a uhf tuner.

The committee also adopted an amendment which would seek to define more closely what articles in the manufacture of radio-tv receivers are subject to the excise tax. Receivers made for military, for police, for municipal, and for other services contained some parts which were subject to the excise tax. Thus, the Government was paying an excise tax on certain equipment for which it was repaid by the manufacturer.

The amendment exempts from the federal excise levy articles used in the manufacture of "non-taxable articles" (certain receiver-transmitters, etc.) and specifies an exemption for "non-entertainment-type" radio and tv-parts other than tubes and cabinets.

The expected FCC action in lifting the five-station limit under common ownership is seen as a direct result of the introduction of Sen. Johnson's bill (S 3350) on multiple ownership. That measure actually plowed the furrow along in both the uhf-multiple ownership and license fee studies two Senators played leading parts: Sen. Johnson, the Senator most knowledgeable in the radio arts, and the newly-appointed Communications Subcommittee chairman, Sen. Potter.

The rise of Sen. Potter in the field of communications in the Senate in the past few months has been a singular development of the 83d Congress.

Sen. Johnson (in the first session of the 83d Congress) also left an imprint in a particular technical phase of the communications field which in the waning days of the Congress was undone by an apparent unknowing House committee.

**International TV**

The House Foreign Affairs Committee which for many months had been toying with a resolution bequeathed it by the Senate—and originating from the Senate Foreign Relations Committee—filed a most unusual report on the resolution dealing with international tv (B&T, July 26).

At the outset, the Senate committee approved the resolution suggesting a wholesale study of telecommunications with particular emphasis on the use of transatlantic television.

When it got to the floor, Sen. Johnson amended the bill, ripping it from the provisions which would have permitted a study of the projected NARCOM relay system from North America to Europe, supported by William Halstead, president of United Inc., New York, a telecommunications and planning firm.

But the House committee in its report refocused attention to NARCOM by pointing out that linking of North America to Europe was now engineeringly feasible.

As an indication of the House committee confusion—the bill was passed and sent to the White House without further consideration—the date of Dec. 31, 1954, which in 1953 was placed in the resolution to permit a period of study by a specially appointed commission, was retained. This gives the commission—which will be made up of Senators, Congressmen and industry people—less than six months to explore a field which has many ramifications.

**Bryson Bill Activity**

As Congress churned toward adjournment, the Wavelton Committee Thursday plunged into consideration of HR 1227—the Bryson bill which would bar alcoholic beverage advertising from all media, including radio-tv.

The House group already had held extensive public hearings on the measure. The Senate also had heard testimony on the companion Langer bill (S 3294).

Reportedly a member of the House committee asked that the newspaper provision be stricken from the bill and the measure be applied only to the broadcast media. The committee members, however, thought such a move would be discriminatory. Subsequent moves to report the bill out en toto were beaten down but not before members agreed that unless air commercials on beer or wine are toned down the House committee next year would be more receptive to turning the bill loose on the House floor and most likely to insure passage.

**HONORS TO BIG ED**

ESTEEM in which Sen. Edwin C. (Big Ed) Johnson (D-Colo.) is held by his colleagues on both sides of the aisle was demonstrated July 25 when a dozen and a half legislators attended an informal farewell dinner for him—in the midst of the Senate filibuster then in its ninth day.

Sen. Johnson has announced his intention of retiring from Congress at the close of the current session but is the Democratic candidate for the governorship of his native Colorado. He will terminate 18 years in the Senate, during most of which time he was a key figure and after-ward chairman of the Senate Interstate & Foreign Commerce Committee and became its foremost expert on communications legislation. As chairman he was regarded as a sort of "super chairman" of the FCC.

Attending the dinner at the Motion Picture Assn. headquarters were Majority Leader Knowland, of Calif.; Sens. Lauger (R-N. D.); Schoeppl (R-Kan.); George (D-Ga.); Symington (D-Mo.); McCarran (D-Nev.); Long (D-La.); Holland (D-Fla.); Cordon (R-Ore.); Stennis (D-Miss.); Felton M. Johnson, secretary to the Minority; the four Colorado Congressmen, Rogers, Hill, Chenoweth, Aspinall, and Ed Cooper, television expert of the Motion Picture Assn. and former executive assistant to the Senate Majority Leader, former Sen. Ernest McFarland (D-Ariz.).

Sen. Johnson also was presented a gavel at a farewell breakfast for him by employees of the Senate Interstate & Foreign Commerce Committee Saturday morning at the Vanderbilt Room in the Capitol.

which the Senate Potter Subcommittee seeded its uhf study.

Upshot of the uhf inquiry, which considered multiple ownership among other things, was an apparent sentiment among Senators that FCC's plan looked good to them.

Sen. Johnson's measure, which called for a formula of tv station ownership that would have put into effect a two-for-one swap (uhf for vhf), never got off the ground but provided the uhf inquiry with wings.

At the same time, the Senate Commerce Committee during its hectic days of this Congress managed to deflect the FCC's license fee schedule which was about to be made final under direction of the Budget Bureau. Again, the play was subtle and action came via resolution of the committee, not legislation.

**BROADCASTING • TELECASTING**

Page 32 • August 2, 1954
MOGUL, REPRESENTATIVES AGAIN JOUST ON SINGLE VS. DUAL RADIO RATE ISSUE

Mogul: Single-rate stations don't do a good job. Eastman, for SRA: Major agencies overwhelmingly favor a single rate.

DEBATE over the merits of a single rate card for radio stations versus two sets of rates, one for national advertisers, one for local retainers, was resumed last Wednesday in New York by Emil Mogul, president of his own advertising agency, Emil Mogul Co., and the station representatives, who had begun the argument two weeks ago [B&T, July 17].

Again, Mr. Mogul spoke for the two rate system, declaring that stations with single rates for all advertisers don't attract retail clients and don't do as good a job for them as stations with two rate scales. He argued particularly for the extension of discounts beyond the usual rate card maximums of 312- or in a few cases 624-time rates, stating that the advertiser who guarantees a station business a better rate than the man who buys 65 spots in 13 weeks.

Again, the representatives argued in favor of a single rate card for all advertisers, whether national or local. Robert Eastman of John Blair & Co., chairman of a rate research committee, set up in March by Station Representatives Assn., to study this question, read a committee report urging "all stations not already on the single rate to step plans now to get there as quickly as possible."

Again, the session started off fairly calmly and worked up to a crescendo in which emotions seemed about to take control of the situation when time was called for the day and the disputants agreed to postpone further debate to a private meeting without the presence of the advertising newspapermen who attended both sessions already held.

Mr. Mogul, who had been host at the earlier luncheon, at the Waldorf-Astoria, and seven members of his staff were guests last week of SRA, at the Biltmore. The first session began with a history of the Mogul agency, given by Mr. Mogul. Last week's meeting started off with a thesis on the policies and practices of a representative organization, delivered by Mr. Eastman.

Argues for Dual-Rate

Then Mr. Mogul took the floor to present his arguments for a dual-rate structure. Like newspapers, which he said "are seven leagues ahead of radio" in this respect, "radio needs a retail rate to do a retail job. You representatives should urge them to establish one, unless you can sell so much business at the national rate they don't need any retail business."

His agency, Mr. Mogul declared, believes in buying at the broadcast rate it can get for its clients, with maximum discounts in accordance with the volume of business placed, regardless of whether such discounts are shown on the rate cards or not. "Ratios should be based on performance," he said, and the advertiser who buys more time over a longer period is entitled to a better rate than other clients. "We pass up stations that don't give it," he said, "unless all in a market have the same policy and we have to accept it to get into that market."

Mr. Eastman then reported on the findings of the SRA research committee that "in most instances where 'retail rates' are in effect everyone was either not benefitting or was actually getting hurt," making it clear that by "everyone" he was referring to advertisers and agencies as well as to stations and representatives.

Mr. Eastman reported that the committee had found an estimated 35% of the major U. S. stations to have a single rate; that single rate stations are on the whole doing "a more brisk business than those on the double standard" and that "single rate stations enjoy a higher level of local business because emphasis is more on quality than price."

Mr. Mogul expressed disbelief at that last statement and when Mr. Eastman cited Pittsburgh, Boston, Baltimore and Los Angeles as large and competitive markets "not blighted by dual or triple rate cards for major stations, the agency president declared that in Baltimore an independent station with a dual rate does the best job and in Los Angeles the same thing is true with "an independent licking the pants off the network stations."

Reporting that the SRA committee had found the major advertising agencies overwhelmingly in favor of a single rate, Mr. Eastman concluded: "With all of the evidence pointing in only one direction, SRA urges all stations not already on the single rate to make plans now to get there as quickly as possible. The SRA recommends that station operators work together to clean up this rate situation in their city and thereby create another single rate market that will help attract more business."

Mr. Mogul then resumed the floor, talking about some of the shortcomings of some representatives calling on his agency's timebuyers "a minority, but a large minority"—and urging the representatives to clean out the bad actors who he said are giving all representatives a bad name just as bad acting agencies had done to all advertising. When he returned to his original demands for larger discounts for the larger users of station time, T. F. Flanagan, SRA managing director, who acted as chairman of the meeting, observed that this was not a question of local and national rates but of volume discount and "on that we all agree," and adjourned the meeting.

Miles' $4½ Million Radio Budget Entirely on NBC

MILES Labs, Elkhart, Ind., will spend its radio budget of more than four and a half million dollars on NBC Radio, effective Sept. 27, when the firm starts sponsorship of a five-day daytime strip in addition to retaining its News of the World and Break the Bank. The firm is cancelling early in September its two radio shows Curst Messey Show and Hilltop House on CBS Radio.

Miles Labs, through its agency, Geoffrey Wide, Chicago, gave the nod to NBC Radio, when it signed the contract to sponsorship of Just Plain Bill five times weekly, 5-5:15 p.m. on the full NBC network.

Miles Labs is also entering network television in the fall with participations on the Garry Moore Show and Robert Q. Lewis, both on CBS-TV and on Three Steps to Heaven and Concerning Miss Marlowe on NBC-TV.

A CONTRACT calling for one of the largest real estate promotions on radio in Baltimore is agreed to by WITH that city and builders Ralph De Chearo and Anthony Sanzo, builders of homes in New York, New Jersey, Ohio, Florida and Maryland. The campaign will promote the sale of 300 higher-priced suburban homes, known as the Valley Crest development. L to r: seated, Mr. Sanzo; Mr. De Chearo; Dan Hydrick, WITH account executive; standing, Marshall Hawks, Marshall Hawks Advertising, and Lee Case and Colleen Schwartz, talent on a husband and wife show that is part of the WITH campaign.
UPPES TARIFF WON'T SHAKE WATCH ADS

Bulova, Benrus see little effect on advertising; Hamilton, Elgin plan no immediate advertising changes.

A TARIFF increase of 50% on imported watch movements will have little impact on advertising plans of major American watch companies, judging by first report to the President’s tariff proclamation last week.

The increased tariff, effective July 28, adds from 9 cents to $1.15 to the duty on imported movements of non-jeweled and not over 17-jewel watches. Higher tariffs were recommended May 28 in a report made to the President by the Tariff Commission.

Figures of the American Watch Mfrs. Assn. indicate imports of Swiss movements had increased from 2,131,000 in 1936 to 10,600,000 in 1953. This so-called flood of imports was described as leaving only 18% of the market for American watch manufacturers, with American production off 47% since 1951.

The six major nationally advertised watch companies are Elgin National Watch Co. (100% American produces); Hamilton Watch Co., (100% American produced); Benrus Watch Co., (100% imported); Longines-Wittnauer Watch Co. (100% imported); Gruen Watch Co., (50% American and 50% imported) and Bulova Watch Co., (50% American produced and 50% imported).

The survey of the agency executives on the reaction to the 50% increase on watch tariffs and how it would affect advertising plans for the future conducted as follows:

Terry Clyne, senior vice president in charge of radio and television at Biow Co., which handles Bulova, said: "In our estimation, this (the tariff) will help the sale of nationally advertised watches of the better type because the higher tariff should result in far fewer cut-rate sales of non-brand watches. Our advertising expenditures for Bulova Watch Co. will continue on the same level."

L. MacManus, account executive of Benrus Watch Co., at Cecil & Presbury, New York agency, said the increase of 50% tariff on watches all "happened too fast." "We were surprised and it will take us about a month before we know the full reaction," he said. "I don't predict there will be a radical change in advertising. We're firm believers in radio and television."

A BBDO executive told Biow it was too early to tell about the tariff effect on advertising plans for Hamilton watches, which are produced in America, but he could say that advertising plans already made for the next three months would not be changed.

A spokesman for Elgin National Watch Co. told Biow the tariff increase probably would have little or no impact on the company's advertising program, including radio-tv commitments, for the remainder of the fiscal year through Feb. 28, 1955. He felt the effect will be felt more next year inasmuch as Elgin's advertising plans have been set for the current year.

Elgin National will make its first venture into network tv this fall with alternate sponsorship of an hour segment on ABC-TV, Tues., 9:30 p.m. (EST), shifting with U. S. Steel Co. It will be known as the Elgin TV Hour. Heretofore, Elgin (not to be confused with Elgin-American (maker of compacts), has used only spot tv in certain markets and has been known in one, it was of necessity, it was noted.

The agency is Young & Rubicam, Chicago. Watch sales may increase in the interim but there is an inventory now on Elgin watches that might hold the time was explained. Elgin's advertising budget is hinged on the percentage of watches sold, well in advance and hinged on a forecast of expected sales.

‘Free’ Film Promotion Technique Explained

Getting a product, service or company name on the air by inclusion in public service clip is basis of system.

GROWING use of tv film clips, offered free to stations to publicize a client or product, was explained to members of Publici-TV, Hollywood, at the Hollywood Advertising Club last week in what was termed a new phase of tv publicity.

Calling it a form of specialized public relations, Gene Coon, editorial supervisor, and former network policy chief of Publici-TV, Hollywood, told the workings of getting the film on the air.

Publici-TV prepares, produces and distributes the 45 second to 1½ minute films locally, regionally and nationally at a basic rate of $250 for one station, plus an additional charge of $9 for each other station using the clip said Mr. Coon. First the firm gets the client's story, then edits out as much of the commercial content as needed to satisfy a news editor, he continued.

A prospective Publici-TV user has a bargain available in that he can get air time costing from $300 upward for the firm's basic rate plus additional costs fee, explained Mr. Gardner. One client, Creole Petroleum Corp. of Louisiana, recently got as high as 60% acceptance for a film clip on oil problems offered to members of the Hollywood Advertising Club. Assistant to Edward J. Flynn, Hollywood publicist representing Creole, the clip, which purported to show how the petroleum industry would be affected if certain legislation before Congress was passed, featured news-style interview with the president of Creole Petroleum on the subject.

William Stewart, former news editor, KNXT (TV) Hollywood (now publicist, CBS-TV that city), presented the other side of the picture. Acceptance of such film depends on length, he said, adding that news editors cannot be expected to trim film, but will run it, if at all, as is. A typical week has brought in tv promotion film from such divergent groups as the Los Angeles City Police and Harbor departments, the Brush Institute, Veterans Administration, Pacific Telephone and Telegraph Co., breweries, airlines, steel companies, the Las Vegas Chamber of Commerce and the Miss Universe contest, he observed.

Air-Wick’s Film Proposition: THE Air-Wick people have come up with a series of 28 five-minute dramatic films that television stations can have for $5.02 each—provided, of course, that the series is carried once on Class A time with free commercials.

After that, tv stations are permitted to run the films as often as they wish for 99 years, according to a letter sent stations over the signature of Joan Stark, chief timebuyer of William H. Weintraub & Co.

They can even sell the films to other advertisers, according to the letter on behalf of Weintraub’s client, Seemann Brothers, which also manufactures Nylast.

Films run 4½ minutes, of which "slightly over one minute" consists of opening and closing commercials. They are to be run on a two- or week schedule. After all 28 have been run, the commercials may be removed and the station has 99 years to use the films as it wishes. Miss Stark explains that "print costs are just the charges made by the labs which are approximately $5.02 per program, delivered to you with cans and reels included."

Contracts have been made with over 50 stations, Miss Stark adds, located in New York, Chicago, Los Angeles, San Francisco, Washington, D. C., Minneapolis and other markets.

Murdock Named Consultant To MacManus, John & Adams

WILLIAM D. MURDOCK, head of the Washington advertising agency bearing his name, has been retained by MacManus, John & Adams, Bloomfield Hills, Mich.; as consultant on food and drug merchandising. Mr. Murdock will continue his Washington advertising servicing such accounts as People’s Drug Stores [Biow, June 21], Bank of Maryland chain, Mrs. Keane’s meats, Southern Hotel Supply Co. and the Food Town chain.

At the MacManus, John & Adams agency Mr. Murdock will work on special assignments, particularly merchandising runs of nationally advertised food and drug items. Among the agency’s accounts are Dow Chemical (Saran-Wrap), Pontiac, Cadillac, Champion spark plugs and the 600-store Kresse chain.

Mr. Murdock entered radio in the early '30s, selling time on WJJS (now WTOP) Washington for the Arthur Godfrey programs. After 12 years he joined WOL there, moving to WOIC (TV) Washington when that station went on the air. He remained with WOIC until the station was sold and call letters changed to WTOP-TV. In 1950 he formed an advertising agency at the suggestion of People's Drug Stores, operating 154 stores in 37 cities.

Selling Utah on Lamb

IN AN EFFORT to increase the consumption of lamb in Utah, the Producers Livestock Marketing Assn has signed for 60 spot announcements per week on KTVT, Salt Lake City and 12 on KTST (TV) there. The campaign will start Oct. 31 and will emphasize the value of lamb in the basic daily diet.

Gale Smith, public relations director of the association’s Salt Lake City branch, said this is the first time the organization has gone to such promotional length to sell Utah on lamb. He pointed out the curious facts that while Utah is one of the top sheep producing states, it consumes only about two pounds per capita per year compared to the national average of four pounds, and a rate of about 37 pounds per capita in New York City.

ADVERTISERS & AGENCIES
GF Spent $62 Million For Ads in Fiscal '54

Figure is $8 million over year before, Mortimer tells General Foods stockholders.

GENERAL FOODS Corp., New York, spent $62 million for advertising in its fiscal 1954 (ended March 31, 1954) or $8 million over the year before, Charles Mortimer, president, told a record turnout of 450 stockholders at the annual meeting last Wednesday.

"Our use of advertising is carefully planned both as to kind and amount," he said. "We study the advantages of various media. When there is a local job to be done we turn to local newspapers and radio. Network radio and television, point-of-sale and outdoor posters—each has its particular uses and advantages. As new advertising techniques are developed which will sell General Foods brands we shall carefully consider them too. For instance, color television may offer us unusual opportunities, because our products and packages are especially suited to color reproductions."

"Because effective advertising is essential to our marketing General Foods is a large advertiser. We spent our advertising dollars for the hard, practical purpose of increasing the use of our established brand, introducing new products, and in general insuring growth in fiscal 1954. Our total advertising expenditures were $62 million. This was an increase of $8 million over the year before. You will recall that our net sales increased $82 million. In percentage of sales, advertising was about the same, 7.9% last year and 7.7% in 1953."

Mr. Mortimer also told the stockholders that results of the first quarter of the new fiscal year, which ended on June 30, were very satisfactory. Sales of $195 million were 12.4% greater than in the 1953 period with a net profit of $11.2 million.

Bishop to Sponsor Raye

HAZEL BISHOP Inc., New York, will sponsor Martha Raye, effective Sept. 28, for a full hour one Tuesday each month, 8-9 p.m., during the entire 1954-55 season on NBC-TV. Milton Berle will star in 20 other shows in that time period for the Buick Division of General Motors Corp. and Bob Hope in six for General Foods Corp. Raymond Spector Co., New York, is agency for Hazel Bishop.

McHugh Named V.P. at Campbell-Ewald

PROMOTION of Philip L. McHugh to a vice presidency at Campbell-Ewald Co., in charge of the agency's television and radio activities, was announced last week by H. G. Little, president.

Mr. McHugh, who joined Campbell-Ewald several months ago to head the tv-radio department in the Detroit office, has devoted his career to broadcasting. He was with CBS New York as assistant program director for 10 years, with four years out for Navy service.

Prior to joining Campbell-Ewald he was director for four years of the tv-radio department of the Tracy-Locke Co., Dallas agency.

Mr. McHugh's headquarters will be in Detroit. Don R. Bernhart will work under his direction in the New York office.

Bernbach, Factor-Breyer Agencies Combine Forces

MERGER of Doyle Dane Bernbach Inc., New York, and Factor-Breyer Inc., Los Angeles, has been announced, effective today (Monday). Officers of the firm, to operate as Doyle Dane Bernbach Inc., are William Bernbach, president; Ned Doyle, Maxwell Dane, Ted H. Factor and Don Breyer, vice presidents.

Radio-tv accounts handled by the agency include Forest Lawn Memorial Park, Polaroid Land Camera, Cole of California, Deteco Scales, Sav-On Drug Stores, Mission Water Heaters, Diced Cream of America and J. N. Ceanaz Co. (Los Angeles distributors of Crossley and Bendix products).

P&G Appoints Werner

PROCTOR & GAMBLE Co., Cincinnati, announced the division of its public relations departments, effective immediately. W. H. Werner, who has been manager of the public relations division since 1941, to the newly-created position of director of public and legal services.

His responsibilities will include the public relations department and a new legal services department. He has been with P & G since 1911.

Oliver M. Gale, who has been with the company since 1937 and has been associate manager of public relations since 1949, has been named manager of the public relations department.

Standard Names Adv. Chief

APPOINTMENT of W. H. Miller as assistant general manager for advertising and sales promotion in its Chicago general office was announced last week by Standard Oil Co. (Ind.).

Wesley L. Baldwin, senior advertising manager, will report to Mr. Miller, who will be in charge of advertising, consumer sales, sales training and other activities.

New Business

Renews

Voice of Prophecy Inc., Glendale, Calif., renews for sixth year The Voice of Prophecy sermon program ABC Radio (Sun. 9:30-10 a.m., EDT) starting Sept. 15. Agency: Western Adv., L. A.

E. I. duPont de Nemours & Co., Wilmington, Del., renews Cavalcade of America, ABC-TV (Tues., 7:30-8 p.m., EST), starting Sept. 28. Agency: BBDO, N. Y.

Agency Appointments

Michael Bros., N. Y. (furniture chain) names William Warren, Jackson & Delany, same city.

Geneva Gardens Inc., N. Y., (mail order advertiser in gardening field), names Kieswetter, Baker, Hagedorn & Smith, same city.

Calunite Corp., Calif., Utah and N. Y. plant food producers, names Hal Stebbins Inc., L. A., with Mr. Stebbins and Jack Courtney as account executives.

Bisceglia Brothers Wine Co. and Appliance Wholesalers, both Portland, name Richard C. Montgomery & Associates, same city.

Mycalex Corp. of America, N. Y. (glass-bonded mica products), names Gaynor & Co., same city, effective Sept. 1.

General Camera Co., Chicago (photographic mail order house) appoints Al Paul Lefton Co., same city.

Perry Knitting Co., Perry, N. Y., appoints Doyle Dane Bernbach Inc., same city.

State of Oklahoma and the Oklahoma Planning and Resources Board appoints George Ande Adv., Oklahoma City.

Agency Shorts

McCann-Erickson Inc., merges L. A. and Hollywood offices, with new quarters at 3440 Wilshire Blvd.

J. M. Hickerson Inc., N. Y., has doubled office space at 270 Park Ave.

Leo Burnett Co., Chicago, published booklet of common terms used in broadcast media-advertising agency field.

S. K. Olympius & Staff, Stockton, Calif., opens L. A. branch with Ned K. Rosenblatt, formerly advertising manager, Shephard Tractor & Equipment Co., same city, as vice president in charge, and Mrs. J. C. Holmes, advertising assistant, August 2, 1954 • Page 35
UTP Plans Expansion In Sales Department

PLANS to expand its sales department were finalized during recent home office meetings by United Television Programs Inc., Hollywood. The new offices, under the direction of George Polakos, executive producer, are planned for Minneapolis, Detroit and Baltimore, according to Wyn Nathan, vice president in charge of sales, and will bring the total number to 12 offices. The addition of four new sales executives is to be announced shortly.

Topics discussed at the meetings included the program for special exploitation of Mayor of the Town series in production by Rawlings-Grant, which UTP will distribute regionally and locally. In preparation is a tv trailer and newspaper advertising campaign, budget on which will be determined in each city by population, station coverage and maximum audience potential.

Among those in attendance were Aaron Beckwith, vice president, New York; John P. Bohra, vice president, Chicago; and Tom McManus, eastern sales manager. Speakers included Philip N. Krastne, UTP president; Jack J. Gross, board chairman; Lee Savin, executive vice president; Noel Rubaloff, national sales promotion manager; Dale Sheets, assistant national sales manager; Burt Grillo and Charles B. Brown, executive vice president and vice president in charge of sales, respectively, Bing Crosby Enterprises; Roland Reed and Guy V. Mayer, president and executive vice president, respectively, Roland Reed Productions.

Unity Tv Appoints Four

ADDITION of four executives to the sales staff of Unity Television Corp., New York, was announced last week by Arche Mayers, general manager, as part of a realignment of Unity's sales department.

New staff members are Harry Stern, southwestern manager; Frank Opra, northwestern district manager; Keith Goldsmith, New England district manager, and Vince Fiumanso, tv film booker in the West Coast office. In other changes, Jerry Weisfeld has been named western division manager; Noah Jacobs, eastern district manager, and Sid Weiner, national tv film booker in New York.

STAGE and screen star Gene Lockhart stars for the starring role in His Honor, Homer bell, tv series to be produced in New York for Nbc Film Division distribution by Galahad Productions. With Mr. Lockhart is Carl Stanton, NBC vice president in charge of the Film Division.

Des Moines . . . 50,000 Watts

Col. B. J. Palmer, President
P. A. Lovet, Resident Manager
Now, more than ever, KOIN-TV is your single best buy in the rich, productive Oregon and Southwest Washington area. Towering 1530 feet above average terrain, the new KOIN-TV antenna is the highest in the Pacific Northwest. Advertisers are guaranteed the finest picture quality possible.

Tremendous 30-County Coverage
The giant new tower combined with the KOIN-TV power increase to the maximum 100,000 watts (Channel 6) blankets over 35,000 square miles in the prosperous “heart” of the Pacific Northwest. Now KOIN-TV delivers a consistent picture as far as 150 miles from Portland...reaching 30 Oregon and Southwest Washington counties. More than 185,000 sets are in use right now...and set sales are booming.

DOMINANT in Portland...in Oregon and Southwest Washington
Retail Market: $1,944,735,000
Over a million and a half Northwesterners work, play, buy, watch television in the huge KOIN-TV influence area . . . prosperous people who live in a family of cities whose per capita sales are more than double the national per.capita retail sales average! (Actually 208% based on 1952-53 Consumer Markets.) These are people who can, will and do buy the things they want.

Only KOIN-TV Covers This Market
To reach the people with the money to spend . . . to completely cover this rich, responsive Oregon and Southwest Washington market . . . you must schedule KOIN-TV. No other station or combination of stations can reach this market. Write, wire, or phone for complete availabilities or contact our national representatives, Avery-Knodel, Inc.

Matson Sues for CBS-TV Tardiness in Returning Film

FAILURE of CBS-TV executives to return film footage of King George VI's coronation in time for owner Henry J. Matson to negotiate for its use with other networks is charged in a $10,000 suit filed in Los Angeles Superior Court.

CBS-TV rented the film, which it photographed in 1937, as a possible standby-by-program feature, during preparations for telecasts of Queen Elizabeth's coronation last year, charge Mr. Matson's attorneys, John N. Fro- lich and Sol D. Selbin. No price was agreed upon at that time, Mr. Matson states, but the network returned the film after the coronation telecast without compensation, he alleges, even though they knew he had offers for its use by other networks.

Further, he charges CBS edited the hour-long film down to 18 minutes with his permission, but refused to make compensation.

Cantor Named Ziv Producer

EDDIE CANTOR has been named executive producer of Ziv Television Programs Inc., according to Maurice Unger, vice president in charge of West Coast operations. In addition to acting in and producing the upcoming radio-tv Eddie Cantor Theatre for Ziv, Mr. Cantor will take an active role in the planning and production of packages for the firm. He will act chiefly in an advisory capacity on current and proposed film packages, Mr. Unger said.

MPTV Sued for Commissions

A SUIT for over $50,000 in commissions was filed last week in Los Angeles Superior Court against Motion Pictures for Television by Maurice H. Gresham, until recently West Coast sales manager of the MPTV syndication division. The plaintiff, asking 10% commission based on an oral agreement, claims his sales between October 1953 and June 1954 totaled $300,000 and that his division's sales exceeded $500,000.

Princeton, Olmstead Pact

AN AGREEMENT was signed last week by the Princeton Film Center, Princeton, N. J., tv film production and distribution company, and the Olmstead Sound Studios, New York, under which PFC will have "complete access" to all of the Olmstead facilities for the production of tv filmed commercials. According to Gordon Knox, president of PFC, the agreement provided for the turning over by his firm of more than $100,000 worth of film equipment to the almost-completed Olmstead studios.

Marine Footage in New Series

OFFICIALS of Executive Producers, Hollywood, conferred last week in Washington with the U. S. Marine Corps on a planned series of 26 films which would incorporate footage from the Marine files as well as technical advice. The half-hour shows will encompass some of the Marines' history. Representing Executive Producers last week were Col. Paul R. Davison and Bill Karns, USA, Ret., who conferred with the radio-tv branch and division of information, Headquarters USMC.

PIANIST Liberace (r) is greeted by D. Marshall Harris (l), vice president of Bowman Biscuit Co., sponsor of the Guild Films Liberace show in 14 markets, and Joe Harold, general manager of KBTV (TV) Denver, upon his arrival for tv and concert appearances in that city.

Screen Gems in Detroit

OPENING of an office in Detroit by Screen Gems Inc. was announced last week by John H. Mitchell, vice president in charge of sales for the company. Ernest W. Montgomery, previously in the engineering field, has been named sales manager in charge of the office. The Detroit headquarters have been established at 16603 E. Warren Road. Telephone is Tuxedo 5-5811.

FILM SALES

CBS-TV Film Sales reported last week total markets on its Art Linkletter and the Kids filmed program is $1, with latest sales to Pureta Sau- sage Co., Sacramento, for KHSL-TV Chico, Calif.

WTOK-TV Meridian, Miss., has acquired two-run rights to Craig Kennedy Criminologist, series of 26 half-hour films from Louis Weiss & Co., Los Angeles.

KNXT (TV) Hollywood is telecasting Lash of the West and Adventures of Noah Berry, Jr., quarter-hour film series produced and directed by Jerry Courneya. Former program stars Lash LaRue in westerns and latter features Mr. Berry's adventures in big game hunting, whaling expedition, marlin fishing, etc.

Raisin Markets of Southern Calif., L. A., (eight-store retail chain), enters tv programming with Abbott and Costello film series on KTTV (TV) Hollywood today under cooperative advertising whereby manufacturers of products promoted share tv costs.

FILM DISTRIBUTION

MCA Ltd., N. Y., announced last week it has acquired distribution rights to Touchdown, series of 13 half-hour filmed programs of college football games this fall, and Telesports Digest, series of 39 half-hour films depicting highlights of leading sports events each week. Both films will be produced by Tel Ra Productions, Philadelphia.

S. W. Caldwell Ltd., Toronto, tv film distributor and producer, opened Vancouver office at 1240 West Pender St. to handle sales and service for all radio and tv activities of company. Florence Asson, former time-buyer of James Lovick Ltd., Vancouver, is representing the organization in Vancouver.

FILM PRODUCTION

Walt Disney Productions, Burbank, Calif., is filming "The Story of D. Duck" and "How Do You Doodle" for inclusion in "Fantasyland" segments of ABC-TV Disneyland. Both films directed by Richard Bare, will combine live action and cartoon animation.

Snader Productions Inc., Hollywood, is filming 52 half-hour tv programs featuring Korla Pandit, organist who formerly had own shows on KECA-TV (now KABC-TV, KTTV (TV) and KTAL (TV) all Hollywood. Shooting at Gold- wyn Studios, Louis D. Snader, president, has designed programs to be broken up into 104 quarter-hour programs if preferred. Orval Anderson, KABC staff announcer, is narrator; Le Roy Priza, former Warner Bros. and acad- emy award-winning director, is director; and Harry Franklin is production manager and as- sistant director.

RANDOM SHOTS

Lewis and Martin Films Inc., Chicago, announces opening of new slide and title department, known at L & M Slidefilms Inc., for preparing slides, title-cards, bios, titles, rear-projection slides and original photography.

Mannie Baum Enterprises Corp., N. Y., announces Greatest Fights of the Century series available in fall for syndication, sponsored locally or regionally.

National Telefilm Assoc., N. Y., tv film distribu- tor, opens sales office at 1737 F St. N.W., Washing- ton, D. C., with Jack Feiffer in charge.

Grantray Animation Inc., Hollywood, formed for production of animated television film com- mercials, industrial films and theatrical shorts announced last week by animation industry men, Grant Simmons, Ray Patterson and Robert Lawrence, president, Robert Lawrence Productions Inc., N. Y.

FILM PEOPLE

John F. Sloan, formerly sales manager, WOR- TV New York, and Stan Smith, formerly eastern sales manager, ABC-TV, to Ziv Television Pro- grams Inc., N. Y., as account executives.

Edward J. Chandler, formerly with FBI, to Tele- vision Programs of America, Seattle, Wash., as account executive.

Louis Germongeau signed two year's contract as Gross-Krasne Inc., Hollywood, as assistant di- rector, Big Town film series.

WATTS UP?

KLZ-TV... to 316,000 (full power)

We've resorted to the lowest form of humor to announce the highest TV power in the Rocky Mountain West. KLZ-TV now delivers the world's greatest network entertainment and the region's sharpest local presentations with the HIGHEST POWER in the entire area.

Add it up: by any measure you choose, KLZ-TV is Colorado's best TV buy...

- Programming: Top CBS network and local programs
- Facilities: Finest, most complete in the region
- Transmitter: Highest power in the entire area
- Viewer Preference: Denver's most popular station by any and every survey made since KLZ-TV began telecasting.

NOW EQUIPPED FOR NETWORK COLOR TELEVISION
Writers Claim Support Of BMI Members in Suit

A SUIT of 33 composer-writers against Broadcast Music Inc., charging anti-trust violations by BMI broadcasters and record subsidiaries, has received secret support of several BMI members, composer Arthur Schwartz maintained at a Beverly Hills meeting last fortnight of Songwriters of America, which is backing the suit against BMI.

Mr. Schwartz, reading a report by attorney John Schulman, representing the plaintiffs, said suit supporters within BMI ranks have contributed money and evidence against their organization. The supporters' identities are being kept anonymous to avoid retaliation, SA executives stated.

However, other support from music publishers has been refused because of BMI and ASCAP affiliation, report continued, adding that trial may start within a year.

Feldman Assumes Direction Of Oxnard Package Firm

WITH the appointment of Frank Oxnard, head of his own Hollywood radio-tv package production firm, as sales manager and vice-president at KFWB-Hollywood July 23, Jack Feldman has assumed active management and Frank Oxnard Jr. has become a shareholder and junior partner in the firm. Mr. Feldman announced the packaging organization would continue to meet present radio-tv commercial commitments.

Meanwhile, Chef Milani, radio-tv personality and former Oxnard client, has opened his own sales, promotion and merchandising offices at KCOP (TV) Hollywood studios, with Freda Alender, food and appliance promotion specialist, as merchandising coordinator. She will work with KCOP and KMPC Hollywood Milani advertisers in promotion of their products by advertising and store displays, and supermarket personal appearances by the chef.

L.A. BMI Clinic Speakers

ADDITIONAL speakers at a BMI tv program clinic in Los Angeles, Aug. 9-10 [BWT, July 26], are Earl Hudson, ABC Western Division vice president, on "New Dimensions in TV Programming," and George Whitney, KFMB-TV San Diego general manager, on "Effective TV Programming Unrecognized."

Thomas C. McCray, KNBH (TV) Hollywood general manager, has been put in charge of the luncheon program for both days, with Los Angeles the only city scheduled to have such programs. Tentatively set is Jack Webb, star of NBC-AM-TV Dragnet, and a screening of the Warner Bros., feature film version, which is yet to be theatrically released.

BOTV Plans Closed Circuit From Broadway to Theatres

BOX OFFICE Television Inc., New York, announced last week it is negotiating with producers of seven "top" Broadway productions for the rights to conduct a closed-circuit telecast of a production at cost to theatres throughout the country.

William Rosensohn, executive vice president of BOTV, said that current plans are to hold the first telecast in late October or early November. He estimated that actual costs to theatre owners would range between $5.00 and $7.50 per seat, with all profits to be retained by the theatre.

BOTV will produce the telecast as an experiment, Mr. Rosensohn added, to demonstrate that a series of such productions would be financially feasible. He estimated that costs of the entire production will run "well over a million dollars."

Schumann Expands TV Services

EDWARD E. SCHUMANN announces his firm has expanded its art work, slides, opales and film services for television. His company, Edward E. Schumann Assoc., 1900 University Ave., Madison 5, Wis., which started two years ago to service local stations in the area, now serves stations in the state and in Illinois, Iowa, Minnesota and Michigan. According to Mr. Schumann, his staff is organized in many tv station in the country 48-hour service, featuring a new package for tv stations which includes art work and slides. A brochure is being mailed to all stations, he said.

PROGRAM SERVICE SHORTS

Gotham Recording Corp., N. Y., completed 13-week series of 15-minute musical variety radio programs, stressing recruiting, made in cooperation with U. S. Coast Guard. Program available free to stations from Comdr. A. E. Carlson, U. S. Coast Guard, 1300 E St., N.W., Washington, D. C.

Clubtime Productions Inc., syndicated radio package producers, Beverly Hills, Calif., announces plans to open Chicago and New York studios to be used by singers in transcribing disc m.c. programs.

Indiana U. Radio and Television Service has transcribed series of radio programs describing life in Hoosier communities and is available to stations in the state.

Storcast Corp. of America, N. Y., announces "music-factoren," to be placed in grocery stores as high fidelity fm music transmitter, illuminator and section marker.

LUXURY OVER first pictures on KOTV (TV) Tulsa's new UP facsimile equipment, said to be the first of its type in Tulsa, are Dick Campbell (l), station manager, and Cy Tumo, news director.

FACTS & FIGURES

NETWORK GROSS UP 19% IN '54

Combined radio-television figure for first six months of this year near $225 million mark, though radio networks show 10% decline.

GROSS time sales of the national networks during the first half of 1954 aggregated $224,488,242, an increase of 19.4% above the total of $187,747,323 for the same period of 1953, according to data compiled by Publishers Information Bureau. Radio network billings for the six months period of this year were down 10% with a 1954 first half gross of $74,503,773, compared to a gross of $82,774,891 for the first half of 1953. TV network billings rose 42.9%, however, totalling $149,984,469 in the January-June 1954 period against $104,972,432 for that same part of 1953.

Combined radio-ntv time sales in June grossed $35,245,568, up 15.9% from the combined June 1953 gross of $30,413,568. Radio network time sales were down 18.9% from the previous June, a decline nearly twice the average for the first six months, but the tv networks showed a gain of 42.8% over June of last year.

PBB's network-by-network gross time sales tabulation, for June and January-June of this year and last, for both radio and tv networks, follows:

Credit Study Discloses Lag in Radio, Tv Outputs

TELEVISION set production during the first five months of 1954 was 44% less than 1953 levels and radio set production in the same period was off about 34% from last year, according to a study of the financial statements of 40 manufacturers of tv sets, radio receivers and electronics equipment released last week by the National Credit Office Inc.

It was pointed out by the credit office that the slackening off of tv set production resulted not only from the intensity of colour but also from the excess inventory of merchandise built up in 1953 when the industry produced 7,214,000 receivers. During 1954, the study observed, the ratio of inventory to sales has "improved steadily," but the finished inventory is reduced to "a much more manageable level."

The Credit Office attributed the reduction of

**FACTS & FIGURES**

**Predicted TV Volume in '56: $1.9 Billion**

TELEVISION advertising is growing at a rate eight times as fast as the nation's overall advertising expenditures, according to a set of studies whipped up last week by NBC-TV researchers, who estimated that in 1956—only two years hence—the dollar volume of advertising in network, national spot and local TV would total $1.9 billion, roughly 20% of that year's all-media advertising expenditures of $9.7 billion.

Starting with 1952, the NBC tabulation charts the growth of TV advertising and of all advertising year by year through 1956, the first two years being reports of actual expenditures, the last three NBC’s projections. During the interval from 1952 to 1956 the NBC figures show a 36% increase in all advertising revenue, but a 273% increase for TV advertising. Table follows.

Daytime Gains Evidenced By Nielsen Radio Ratings

NATION's favorite radio program during the week of June 20-26, or at least the program attracting the largest audience (2,705,000), was Lux Radio Theatre, according to the National Nielsen ratings for that week. Seven daytime serials, however, drew larger audiences than the second-highest rated evening radio program. Top Nielsen-rated programs were:

- 1. Lux Radio Theatre (CBS)
- 2. O. Henry's Adventures (CBS)
- 3. Best of Broadway (NBC)
- 4. People Are Funny (CBS)
- 5. My Little Margie (CBS)
- 6. On the Line With Considine (MBS)
- 7. Nick Carter (MBS)
- 8. Charlie McCarthy Show (NBC)
- 9. Dragnet (NBC)
- 10. Gone Autry Show (CBS)

**March 7 Daytime Listening**

OF THE 41,400,000 radio homes (89% of the U. S. total) tuning in during the daytime 6 a.m.-12 noon period of March 7, the average daytime listening amounted to 2 hours and 37 minutes for the week, or better than two hours a day. Among radio-only homes, 93% used daytime radio during the week, averaging 19 hours and 5 minutes.

**$1.5 Billion for Premiums**

ABOUT $1.5 billion will be spent for premiums and sales incentives this year, according to the June, 1956, survey of the American Association of New York Premium Show to be held under PAA sponsorship Sept. 20-23 at the Hotel Astor, New York.

**Luckies, Chesterfield Lead Advertest ‘Remembrance’ Test**

BEST remembered commercials on TV are those for Lucky Strike and Chesterfield, Advertest Research, New Brunswick, N. J., announced last week in reporting the results of its 64th monthly The Television Audience of Today.

Next best remembered commercials are those for Philip Morris and Schaefer Beer, the company reported.

Lucky Strike and Chesterfield commercials were mentioned by 15% of the respondents in an unaided recall survey of 755 tv homes in June, Advertest said. It recalled that the best remembered commercials in a 1953 survey were Chesterfield, Philip Morris, Lucky Strike and Ajax.

The Lucky Strike commercial was considered the best liked, the same as last year, Advertest said. It also said its survey showed that 1) cartoon commercials are liked best, (2) tv viewers prefer commercials showing the product in use instead of being made, and (3) only 17% of its interviewees said they paid the same attention to commercial as to programs, half of the respondents said they paid less attention to commercials than to programs, and the remainder said they paid little attention to commercials.

In a breakdown by product category, Advertest said Lincoln-Mercury commercials were considered the most convincing in the automotive field (it was Chevrolet last year), and Ballantines in the beer category, same as last year.

**BAB Releases Pulse Report On Teen-Age Radio Audience**

EFFECTIVENESS of radio in reaching the teen-age girl market is described in a new BAB report, "Radio and Teen-Age Girls in Metropolitan Markets," which shortly is to be released to BAB member stations.

The report, incorporating data gathered by The Pulse for BAB among girls between 13 and 17 years old during April in six major metropolitan areas, states that more than nine of every ten girls listen to the radio every week, and more than three in five listen daily. The report includes details on how many teen-age girls listen to radio, how much they listen, when they listen, and what they hear. It also includes data on radio ownership.

**Asking the Women**

PLANS have been announced under which 2,500 club women will be questioned each week for their opinions of programs and services rendered by NBC’s WNBC-WNTV (TV) New York. According to Max E. Buck, director of advertising, merchandising and promotion for the stations, arrangements have been made with "Luncheon Is Found," a fund-raising group serving 25 luncheons weekly to a total of 2,500 women in the New York area, to circulate questionnaires seeking data on programming and services of the stations. Mr. Buck said the interviews will enable the stations "to keep a day-to-day finger on the pulse of the community and obtain immediate reaction to programming changes."
THIS is the new high-fidelity Broadcast Transmitter, developed by Collins to provide a 500/250 watt transmitter incorporating the same superior features now found in the widely accepted Collins 300J, 20V, 21E, and 21M transmitters. Available for early delivery, the Collins 550A transmitter features low temperature coefficient crystal control, thermal time delay, arc-over and lightning protective circuit, the use of only seven types of tubes, filtered forced air cooling, and adjustable over-load relay protection for both the final audio and RF stages. The Collins 550A may be energized by simply pressing the “ON” button. The filament, bias, and plate power is then automatically applied in the correct sequence with the proper time delay.

Start on the path to transmitter trouble-free days by writing for Collins 550A technical descriptive bulletin today!

NARTB TO OFFER SUGGESTED PATTERN FOR TV SALES PROMOTION BUREAU

Joint NARTB and TvAB meeting set for next Thursday with Oct. 15 mentioned as target date for implementation of plan.

NARTB will unveil in working form this week its long-range plan for a million-dollar tv sales promotion bureau operating on an indus-

try-wide basis in competition with other adver-
sizing bureaus. A four-man task force does a

preliminary screening job Wednesday.

The tv advertising project, long-sought and subject to kicking around in a recent in-

dustry feud, will start out on a necessarily modest basis but should reach the half-million-

dollar stage within a few months, under present planning.

NARTB's blueprint, based on two years of research, will be presented to the merger as a

staff study of the association. It consists of several sections, some of which contain optional

proposals for committee or NARTB Tv Board decision.

Should the merger committee approve the plan, including options, the NARTB Tv Board will

next to act. NARTB, too, may want to get the views of its executive committee, or even its membership.

Once the plans have cleared the NARTB Tv Board, the job of setting up the tv sales bureau

will be turned over to an independent organiza-

tion. The blueprint includes all the legal planning, charter and other routine.

Winding up the NARTB blueprint is a section that includes ways to implement the bureau

plan. It goes into such details as by-laws, scope of officers' duties, dues formulas, membership

recruitment, executive structure and operating routines.

Scope of Report

Carefully planned sections of the report list such functions as regular information bulletins to the membership, means of contacting adver-
ses agencies, competitive problems of the tv medium, rates to be taken by industry segments, public relations activities, publica-

tions and research.

Action this week will be taken in two ways. First, the four-man task force representing

NARTB and TvAB will screen the lengthy NARTB blueprint Wednesday. Second, the full 10-

man joint committee named at the June 30 NARTB-TvAB merger meeting (B+T, July 5)

will meet Thursday. Both sessions will be held in Washington.

Members of the task force are: NARTB—

Clair R. McCollough, Steimman Stations, NARTB Tv Board chairman, and Campbell

Arrows, WTAR-TV Norfolk, Va., vice chair-

man. TvAB—Richard A. Moore, KTVV (TV)

Los Angeles, TvAB acting chairman, and

Roger W. Clipp, WFIL-TV Philadelphia.

Besides these four, the full committee com-

prises these: NARTB Tv Board members—

Kenneth Carter, WAAM (TV) Baltimore; W. D.

Rogers Jr., KALB Alexandria, La.; and L. H.

Rogers, WSAZ-TV Huntington, W. Va. George B. Storer Jr., Storer Broadcasting Co.,

and Henry W. Slavick, WMCT (TV) Memphis.

If the 10-man committee runs into snags, or

can't decide on optional proposals, a second meeting may be necessary.

The NARTB Tv Board was to have been

called for a late August meeting but other meet-

ings, including network affiliate sessions, may in-

terfere. A mail balloting of the board has been

considered. If the board meets after Labor

Day, some time may be lost in opening offices and

working out other details.

A substantial list of candidates for president of

the tv bureau is on file at NARTB. This post

will parallel that of Bab president. Selection

of a president and top staff officers will be

handled carefully.

Having completed its job of research and

blueprinting, NARTB will step aside as the in-

dependent bureau takes up the job of tv sales and

advertising promotion just as it did several

years ago when Bab was formed.

Swift Action Seen

At the weekend it appeared that NARTB

will act swiftly, oblivious of any possible

repeal from the TvAB membership. NARTB feels it has a binding merger deal as a

result of the June 30 merger meeting and intends to see that its long-range program goes

into action in a hurry.

The blueprint to be shown this week will

follow the all-industry line agreed upon when

NARTB first approved the bureau idea in De-

cember, 1952. It is based on extensive studies of

bureaus operated by competing media, in-

cluding radio, newspapers, magazines and out-

door.

As TvAB's acting chairman, Mr. Moore will

bring in results of a questionnaire dealing with

the membership's ideas of the special types of

functions a tv advertising bureau should per-

form. The questionnaire was sent out over a

week ago, Mr. Moore said, to guide TvAB's

committee [B+T, July 26].

If TvAB members plan a major revolt against

NARTB's successful effort to carry out its

long-range bureau idea, there were no signs

apparent at the weekend. Some individual

stations maintain their preference for the

original local-national spot motif of TvAB.

Station Representatives Assn., which helped

finance TvAB, hasn't changed its opposition

toward inclusion of networks in the bureau.

While relations were pretty thick between

some of TvAB's backers and NARTB, any

opposition to the bureau is kept in the back-

ground.

The NARTB plan provides for associate

members, as tentatively drawn, and this could

include representatives. Bab has representatives who hold associate status and John Blair,

head of John Blair & Co. and Blair-Tv Inc., sits

on the Bab board.

The bureau's financing plans include various

industry segments, including networks as well

as representatives, again following rather

closely the Bab pattern. SRA is known to feel

Bab promotes local radio actively without

giving national spot the attention SRA wants.

At the same time, SRA operates a research

project and the Crusade for Spot Radio.

Representatives opposed an industrywide

bureau and excluded networks in the TvAB

organization days last spring on the ground that

tv needs no promotion as a medium. They

felt all advertisers are well aware of tv's sales

impact and known of its success.

If any promoting is to be done, they argue,

it should be done on behalf of local and national

spot since networks are described as well-pro-

nounced. They list such firms as H. J. Heinz,

Kellogg and International Harvester as sitting

on the fence, wondering whether to use video

network or spot.

NARTB's detailed review of the whole pro-
motion situation includes a history of media ad-

vertising bureaus. In expecting a budget of

$400,000 or $500,000 in the early days, NARTB

explains that Outdoor Advertising Inc. has a

$2,500,000 promotion budget, supported by the

circulation data of Traffic Audit Bureau, a non-

profit research unit operated in cooperation with Assn. of National Advertisers and Ameri-

can Association of Advertisers.

Bureau of Advertising, promotion bureau of

American Newspaper Publishers Assn., has a

$1,600,000 budget. Bab is around the $700,000

mark and shooting for $800,000, and Magazine

Advertising Bureau has a $250,000 promotion

fund.

The NARTB blueprint explains how these

bureaus operate and how they hit hard at tele-

vision because the newest medium has left a

BOARD OF DIRECTORS of the Louisiana Assn. of Broadcasters took time out from the quarterly meeting at New Iberia to have an outing at the camp of Jerry Hamm near Delcambre. At the camp (l to r): front row, Mrs. Hamm, KANE New Iberia, LAB secretary-treasurer; Willard Cobb, KALB Alexandria, president; Frank Ford, KENT Shreve-

port, vice president; Robert Earle, WIBR Baton Rouge; second row, Bob Wehrman, WTPS New Orleans; Newton Wray, KTBS Shreveport, LAB past president; John Vath, WWL New Orleans; Ken Whitaker, KRUS Ruston; Eugene Jones, KSLO Opelousas, and Roy Dabadie, WJBO Baton Rouge.

sudden and heavy impact on advertising allotments.

NARTB’s report shows the need of breaking down the complex held by advertisers for broadcast turntables; the 45s are difficult to use in these, where conversion of records has jumped from 25% to 45% a few years ago to 75%. Many of them believe the time is approaching when the 78s will disappear from store shelves.

Supply broadcast equipment for broadcast turntables is getting far behind in meeting orders, judged by industry checks. They are running a minimum of a month behind in most cases, and in some instances will not catch up to the demand for several months.

Industry opposition to the 45s is not unanimous. Last week Lawrence A. Kelly, general manager of WBCK Battle Creek, Mich., called the manufacturers’ action a “dictatorial invasion, propagated as economy.” Howard C. Gilreath, general manager of WVOP Vidalia, Ga., called it a “gestapo method of pushing this service on broadcasters.” John L. Cole Jr., owner-manager of WHLF South Boston, Va., wrote record companies that WHLF operates completely despite the 45s in every respect.”

Michigan Broadcasters Meet Sept. 30-Oct. 2

SALES panels for radio and tv broadcasters will feature the Sept. 30-Oct. 2 meeting of Michigan Assn. of Radio & Television Broadcasters, to be held at St. Clair Inn, St. Clair, Mich. John F. Wismer, WHLS Port Huron, Mich., is president, and John H. Meagher, managing director of the convention committee. All Michigan broadcasters and staffs are invited.

Other panel sessions will cover proposed government regulations, with government and industry specialists taking part, along with exchange of ideas on other phases of broadcasting. A business meeting will close the convention, with new officers to be elected.

SCBA PANELISTS LAUD RADIO’S ADVANTAGES

Southern California Broadcasters note radio’s wide use and advertising dollar value.

CALLING radio “the liveliest corpse,” Frank Crane, managing director, Southern California Broadcasters Assn., told Los Angeles Advertising Club members that local station sales have increased twice the dollar volume since 1947, during a panel presentation SCBA members on “The Effective Use of Radio.”

Introducing the panel, Mr. Crane added that Southern California families average three radios a home; that the local listener uses radio approximately three hours daily; that 72% of all automobiles and 95% of new cars have radios.

Robert McAndrews, vice president and commercial manager, John Poole Broadcasting Co. and SCBA president, advised his listeners to throw away their rule books on radio use. Radio has successfully introduced new products, sold during the week, advertised for personal and otherwise broken the textbook maxims, he stated. “There are practically no areas closed to radio advertising,” he declared.

Advantages of “vertical” spot buying, using a radio budget to purchase multiple spots during different parts of the day to obtain the total audience circulation time. Radio time and audience, were described by Stanley Spero, general sales manager, KMPC Hollywood and chairman, SCBA sales committee. Five minute programs offer the advantages of repetition, longer sales message and the use of merchandising and other promotion, Mr. Spero pointed out.

Discussing comparative costs of radio and tv advertising, Terry Mann, sales manager, KIHI Hollywood and vice chairman, SCBA sales committee, advised his audience that tv costs range from 3 ½ to 26 times that of similar radio time. The same money will buy a 3 ½ minute Spot Class A radio spot and a 20 second tv spot, he observed. “Radio delivers more families per advertising dollar all through the day,” he concluded.

District 11 Ballots Mailed

NEW nominating forms to fill a radio directorate on the NARTB board for District 11 (Minn., N. D., S. D.) have been mailed by C. E. Arney Jr., secretary-treasurer, following failure of at least two persons to receive five ballots in a recent nomination.

The election is being held to provide a successor to the post vacated by John F. Meagher, formerly of KYSM Mankato, Minn. Mr. Meagher has joined NARTB as radio vice president. Nominating forms in the second round must be returned to NARTB headquarters by Aug. 5.

AAAA Roster Lists 303

THE 1954 edition of the AAAA’s Roster and Organization, issued last week, lists 303 members to the group as of Sept. 15, and indicates the 1955 listing and the largest membership in AAAA history. In addition to listing member agencies both alphabetically and geographically, the Roster reports the officers, directors and regional vice presidents of the organization’s standards of practice, agency service standards and the qualifications for membership.

Radio has turned Roanoke up-side down...

The display of merchandise advertised in the window of one of the many advertisers is a spectacular and amusing sight. On each side of the window are clock, weather forecast dial, movie screen, and life-size phonograph. A large thermometer shows the temperature, and the AP telegraph is visible. They take part in the broadcast, and our listeners are impressed with the results. They know this. They take part in our programs, and the result is a very much larger audience.

The feature of most importance is the display of merchandise advertised on WSL Radio. These are used as they sell to the listeners on WSL Radio. These, the advertisers...

And folks are asking, "If that's going to happen next?" We like the excitement of what's going to happen next!" And who's going to happen next?"
LEE WOULD LIFT 'EQUAL TIME' LAWS, TRUST BROADCASTER'S RESPONSIBILITY

FCC Commissioner tells Washington's National Press Club that broadcasters, like newspapers, should shoulder their own responsibilities, without government directive.

IT'S TIME legal compulsion on broadcasters to provide "equal time" to political and non-political dissidents is lifted, FCC Comr. Robert E. Lee explained in a talk before the National Press Club in Washington last Tuesday.

Noting that stations now far outnumber daily newspapers, whose news and editorial presentations are not reviewed by the government, Comr. Lee contended broadcasters have matured and are more responsive to local needs and civic affairs "than many government officials in Washington."

Speaking on "Labels, Libels and Equal Time," Comr. Lee said, "I know of no completely successful effort to legislate either fairness or equality. Should not the broadcaster, like the press, be permitted to shoulder this responsibility without either legislative or administrative second-guessing or directive?"

Text of the talk was put in the Congressional Record Wednesday by Rep. John Phillips (R-Calif.), a hearable guest.

"Even libelous statements are not reviewed by the government, as newspapers, whose editors, like broadcasters, should shoulder the necessity of treating their community.

"I'm a great admirer of the free press we have in this country. I feel that over the course of the years, on the whole, the press has developed a sense of responsibility and a responsiveness to the needs, interests and desires of the people. I suggest that another media of communication - broadcasting - has expanded to the point over the last 30 years in both size and stature so that it, too, has reached maturity."

"Have we reason to fear that broadcasters will be unfair or irresponsible? Have we reason to distrust persons whose legal, financial and technical, and in many instances, character qualifications are so closely scrutinized before they enter this business of broadcasting? Whatever misgivings we may have evaporate when we consider that a broadcaster's operation is subject to the critical appraisal of the American listening or viewing public. His work and participation in community life are more responsive to the needs and desires of his neighbors than many government officials in Washington.

"As a citizen of the community he is certainly conscious of his responsibility toward it. As a businessman in the community he is aware of the necessity of treating all interests fairly."

"During the question-and-answer session following his talk, Comr. Lee was asked, "Do you still love Joe?" referring to his personal friendship with Sen. Joseph R. McCarthy (R-Wis.). He answered affirmatively, commenting, "I take friendship very seriously, but I still differ with my friends."

"The broadcasters' difficulties are further complicated by the fact that even fringe parties which are usually relegated to brief mention on the obituary page or to oblivion by newspapers are, if they qualify for a place on the ballot, entitled to equal broadcast opportunities with the two major parties," he said. Some of the legally qualified parties whose candidates appeared on the ballots of various states during the 1952 elections, he recalled, were: Republican, Democratic, Prohibition, Progressive, Socialist Labor, Socialist, American Labor, Constitution, Christian Nationalist, Liberal, Independent, Social Worker's American, American First, American Union, Greenback, Four Freedoms and the Peace.

"The equal time provision of the Communications Act with respect to political candidates was first written into law in the mid-1920's," Comr. Lee pointed out. "The reason was because at that time it was feared that there would always be a limited number of radio stations and it would be possible that only a one-sided presentation would be made. However, that situation has long since ceased to exist. There are hundreds more radio stations today than there are daily newspapers."

Comr. Lee observed that "Congress has not tried to eradicate equality of opportunity for space in newspapers. I wonder what the reaction would be if the Post Office Dept. sought authority to examine newspapers to determine their equality with the second class mailing privileges newspapers enjoy? I would be the first to condemn it."

"I am a great admirer of the free press we have in this country. Cites Other Problems

"The broadcasters' difficulties are further complicated by the fact that even fringe parties which are usually relegated to brief mention on the obituary page or to oblivion by newspapers are, if they qualify for a place on the ballot, entitled to equal broadcast opportunities with the two major parties," he said. Some of the legally qualified parties whose candidates appeared on the ballots of various states during the 1952 elections, he recalled, were: Republican, Democratic, Prohibition, Progressive, Socialist Labor, Socialist, American Labor, Constitution, Christian Nationalist, Liberal, Independent, Social Worker's American, American First, American Union, Greenback, Four Freedoms and the Peace.

"The equal time provision of the Communications Act with respect to political candidates was first written into law in the mid-1920's," Comr. Lee pointed out. "The reason was because at that time it was feared that there would always be a limited number of radio stations and it would be possible that only a one-sided presentation would be made. However, that situation has long since ceased to exist. There are hundreds more radio stations today than there are daily newspapers."

Comr. Lee observed that "Congress has not tried to eradicate equality of opportunity for space in newspapers. I wonder what the reaction would be if the Post Office Dept. sought authority to examine newspapers to determine their equality with the second class mailing privileges newspapers enjoy? I would be the first to condemn it."

"I am a great admirer of the free press we have in this country. I feel that over the course of the years, on the whole, the press has developed a sense of responsibility and a responsiveness to the needs, interests and desires of the people. I suggest that another media of communication - broadcasting - has expanded to the point over the last 30 years in both size and stature so that

other than direct government subsidy," he explained. He felt that the greater government control which would occur "may be dangerous."

"Specialized radio stations do fill a listening need, Comr. Lee said, citing his preference locally for WGMS Washington, a "good music" outlet.

Asking "what can be done about "those terrible commercials" on radio and tv, Comr. Lee replied: "We all have a little knob on the receiver. If that doesn't work, pull out the plug."

INDUSTRY FAVORS POLITICAL RATE RULE

FCC proposal to implement 1952 changes in Sec. 315 of Communications Act (to give candidates the same rates as other advertisers) meets general approval, but there is concern over discount procedures.

In comments filed with FCC last week, broadcasters appeared generally in favor of the Commission's proposed rules to implement the 1952 McCarran Act and changes in Sec. 315 of the Communications Act so as to prevent stations from charging higher rates to political campaigns than to regular advertisers (B&T, June 28).

FCC Comr. Robert E. Lee also expanded views about Sec. 315 last week in a speech (story this page).

"There was concern over rate discount problems," he said, "but there appeared to be a general consensus that the FCC's proposed amendments to its radio and tv rules would provide that if a station gave discounted rates to one group of political candidates pooling their resources to purchase blocks of time, a single opposition candidate should be afforded the same discount.

"This discount interpretation was opposed by NATB, whose brief supported the rules in general. NATB argued the interpretation "goes unnecessarily beyond the Congressional enactment" and "is an attempt to further define 'equal opportunity' and is not related to the FCC's announced purpose of implementing the 1952 amendment to Sec. 315."

'Equal Opportunity' Problem

"In fact," stated NATB "the 1952 amendment did not directly affect the particular situation with which this interpretative sentence is concerned. Prior to 1952, if a station sold time to a political committee or a group of candidates, it was faced with the identical problem in connection with 'equal opportunity' as it is faced today.

"Broadcasters, political parties and candidates have been living and working within the concept of 'equal opportunity' since its original enactment as a part of the Radio Act of 1927. During this time, it has been customary for political candidates to make group arrangements for broadcast facilities, in many instances, through their party committees. This practice, fairly administered by the networks and individual stations, has been effective in providing 'equal opportunity' to opposing candidates."

"The interpretative sentence proposed by the Commission threatens to disrupt this historic pattern in the purchase and sale of broadcast facilities to qualified candidates. Its adoption would undermine both the administrative and legal programs of the Commission..."
... the fellow who peddled plastic toaster covers for people with square heads to use as shower caps.

Two days later he was swamped with 1,072 requests in answer to this single announcement on his eleven o'clock show. There aren't that many squareheads in WPTZ's audience. But people just can't help responding to Jack Pyle, Philadelphia's newest television star. No wonder his nighttime show is sold out through next year.

So we opened up two new slots for Jack Pyle daily Monday through Friday at 12 to 12:15 and 12:45 to 1:00 P.M. The only way we can describe these shows is that they hold your attention like overhearing a conversation at the next table. Maybe Pyle will talk about a fellow he knows who's a lighthouse keeper. Maybe he'll interview somebody, talk about radio or TV, or call his wife. He's built such a tremendous following among women that he's a natural for household products. And the way he handles a live commercial... well, you know what happened to the shower caps for square heads. It should happen to you. Better call or write WPTZ for details, or get in touch with your Free & Peters "Colonel."

far as the 1952 amendment is concerned, and for the reasons above stated, it is submitted that it should be withdrawn."

The FCC discount provision also was questioned by the Washington law firm of Haley, DuPont & Ober, in behalf of some 60 radio-television interests. The petition said the regulation "might be construed as a directive to broadcasters to make available enough time on enough occasions to bring into play a quantity discount rate."

Mr. Pierson pointed out that the rules explicitly provide that the broadcast licensee shall retain absolute discretion to determine the amount of time to be made available for political broadcasts, consistent with the licensee's responsibility to provide balanced programming."

The law firm further urged that FCC adopt the proposed rules "at an early date." It noted "the current election campaigns will undoubtedly precipitate numerous problems with respect to the rates charged for political broadcast time, and we believe that the existence of the regulations proposed by the Commission will aid materially in the fair and uniform resolution of such problems."

KFRE Fresno, Calif., in comments filed by its counsel, Pierson & Ball, held that the Commission's "oversimplification" of what constitutes "retail" and "national" rates makes for confusion and/or unreasonable burden upon broadcasters when politicians claim the preferred rate.

Rote Suggestion

KFRE urged that candidates who appear on ballots in more than one county be charged the "general" or national rate, while those on municipal or single-county tickets receive the "retail" or local rate. The latter applies to advertisers promoting goods or services at a specific local address, such as a retail store, KFRE said, while the national rate applies to general promotion of a brand or product without citing a specific local store.

Harry J. Daly, counsel for 20 stations, commented that if a candidate is to have "an unbridled right over the air he should be required to sit materially in the forum against any loss because of his remarks or waive his rights under the law so that the station might be permitted to check his talks for libel and slander."

Mr. Daly observed that "the station renders no other service that is comparable to talks by candidates and has nothing with which, really, to compare such services for rates" as required by the rules.

"There is nothing in the Act which says that the rate charged a political candidate should be tied to the rate charged a commercial advertiser under any circumstance," he held. He continued, "The rules should specifically state also, that the station may take charge for the time used to make recordings and for use of recording machines, equipment and studio facilities, etc., although this seems to be implied."

H. V. McMillan, general manager of WJNO West Palm Beach, Fla., called for application of the one-time rate to all political shows. He wrote FCC that in view of the extra time and work usually involved in taping or recording as well as live airing of a political broadcast, "we feel very strongly it would be unfair to all broadcasters to handle a political broadcast on the same discount terms enjoyed by a consistent advertiser using the station facilities on a 13 to 52 week contract basis."

F. M. Lindsay Jr., vice president of WSOY Decatur, Ill., said the rules should be applied to broadcasts "for a candidate as well as those "by" the candidate."

NETWORKS, NARTB SET TO CHAMPION RADIO-TV SIDE OF COVERAGE ISSUE

Jenner rules subcommittee will hear the industry representatives Wednesday. At issue: whether radio and television should be allowed access to committee proceedings.

FOUR networks and the NARTB Wednesday will place the case for broadcast and telecast coverage of Congressional hearings before the Senate Rules subcommittee, which is seeking ways to overhaul committee procedures.

Up for testimony before the Jenner group will be Ralph Hardy, NARTB government relations vice president; Robert P. Hinckley, NBC vice president; Richard Salant, CBS Inc. vice president; James L. Caddigan, DuMont Network programming and production director, and Davidson Taylor, NBC public affairs director.

Sen. William E. Jenner (R-Ind.) heads the Senate Rules group, which since June 28 has been hearing testimony on Congressional committee procedures, particularly those of investigating groups, with an eye to improving their methods of operation.

The radio-television industry's lobbying before the Jenner group comes after lengthy testimony for and against broadcasting and telecasting of open Congressional hearings. Congressmen and others have presented their views and a number of proposals on the radio-television question have been offered in both Houses.

Chairman Jenner said last week that hearings on various phases of committee procedures will be held through Aug. 10. Most of those giving testimony, by their own initiative or upon questioning by the subcommittee, have given their views on radio-TV coverage.

Wednesday's session begins at 10:30 a.m. in the Caucus Room of the Senate Office Building.Sen. Joseph R. McCarthy (R-Wis.), in testimony before the Jenner group last Tuesday, said he had no objection to televised hearings, but thought no witness should be forced to testify against his will before television cameras.

Sen. McCarthy, who as chairman of the Senate Investigations committee has been a primary target of those who have criticized the way Congressional hearings have been conducted, said he felt those Congressmen who "ham it up" before TV cameras will be "taken care of at the next election."

Among questions from Chairman Jenner and Boris Berkovich, counsel for the Senate Rules subcommittee, the Wisconsin Republican replied: "I think television has done more to bring to the American people the real picture of what goes on in a hearing than anything else," adding, "It has also kept the small percentage of newsmen who formerly wouldn't report things properly in line."

He also explained that he thought the "millions" of wives who watch television "can tell when a man is not telling the truth." Sen. McCarthy, referring to the televised Army-McCarrthy Senate subcommittee, was "tied up" in New York with other matters, Sen. McCarthy explained, and was unable to testify Tuesday as scheduled before the Jenner subcommittee, but will be available at a later date.

J. G. Sourwine, counsel to the Senate Internal Security subcommittee, said in testimony before the Jenner group last Wednesday that he felt no radio, television or film coverage of committee hearings should be allowed. Mr. Sourwine said he recognized the importance of transmitting information to the public through these media, but said such coverage would only help create a circus atmosphere. He made the statement in answer to a question from Judge Robert Morris of the New York City Municipal Court, advisor to the Jenner subcommittee.

Sen. Jenner said he will invite Sen. Karl E. Mundt (R-S.D.), chairman of the recent Army-McCarrthy hearings, and Ray Jenkins, counsel to the Senate subcommittee which conducted them, to appear Aug. 10.

Mr. Jenner and other members of the Senate Rules subcommittee are Sen. Frank Carlson (R-Kan.) and Carl Hayden (D-Ariz.).

Reed Bill Amends Stand On 'Conflict of Interest'

A HOUSE bill incorporating the "conflict of interest" requests made by former Sen. General Herbert Brownell Jr. to Congress has been introduced by Rep. Chauncey W. Reed (R-III.). Mr. Brownell had asked stronger laws to prevent former government employees from acting as representatives for persons or firms in matters on which they previously have worked in behalf of the government (B't, July 19).

Rep. Reed's bill (HR 10000) would amend Sec. 284 of Title 18 of the U. S. Code to eliminate the former two-year period of prohibition, making the term indefinite; would apply to any claim or action involving the government, instead of money and property claims, as formerly, and would increase the penalty for violating the law from a maximum of $10,000 fine and two years imprisonment, instead of $10,000 and one year, the previous penalty.

Films and Scripts for "Princeton '54"

are accepted for the Voice of America by Jack Poppele (c), director, from Daniel C. Soyer (l) of Princeton's James Forestal Research Center and Hamilton Shea, WNBC-WNBT (TV) New York general manager. The NBC stations produced the educational series for the school. All nine half-hours are to be telecast worldwide over Voice facilities beginning in the Philippines and England.
INDUSTRY PEOPLE DENY COMMUNIST TIES

People listed in California State Un-American reports appear voluntarily to deny communist associations, disclose errors and recommend methods to protect the innocent.

INDUSTRY PEOPLE, whose names were inserted in California State Un-American Activities Committee reports "through testimony by others," appeared at their own request at hearings conducted last week in Los Angeles by State Sen. Hugh M. Burns (D-Fresno).

The committee last Monday were writer Jesse L. Lasky Jr., New York theatrical producer Albert Lewis, producer Art Arthur and writers Howard Estabrook and William Kozlenko.

Mr. Lasky testified he was serving in the Pacific Theatre of Operations on Gen. MacArthur's staff at the time he was reported associating with subversive organizations and that he was cleared as having pretended to place the Communist Party on the ballot.

Proving the Albert Lewis listed was a scientist working on atomic energy and not him, Mr. Lewis disavowed the names listed after names in the committee's reports.

Mr. Arthur, listed as a member of the editorial committee of Screen Writers Guild's official publication when it was edited by Gertrude deMille, was reported identified as a communist, stated the record did not also show he was one of the leaders to remove Kahn. He also declared producer-director Albert S. Rogell, now in England, was listed without mention made of the fact he had, together with Cecil B. DeMille, led the fight against communist infiltration in the Screen Directors Guild.

Declaring they were innocently involved in granting licenses to a supposed communist front, Messrs. Estabrook and Kozlenko denied they had knowingly aided such organizations.

Voluntary Witnesses Appear

Voluntary witnesses last Tuesday were Mary Jane McCall, president of SWG, Lewis Greenspan, executive secretary of Motion Picture Industry Council, and writer Paul Franklin.

A statement, filed by Miss McCall, demonstrated faulty and incomplete information, supplied by expenses inefficient private detectives, inaccurate documents like the Tenney Reports (State Sen. Jack B. Tenney [R. L. A.], defeated in primaries), profit-making compendia like Red Channels, gossip, grudges and rumors leading to white lists, gray lists, black lists."

Miss McCall denied she had ever been a communist and that unsubstantiated listings of her as such had damaged her economically, causing an advertising agency to reject a film script of hers on grounds she was "a communist."

Recommendation was made by her that, to avoid unverified blacklisting, the Department of Justice supply managers in communication fields with clearances of prospective employees. These would be based on reports by "highly trained investigators working with calmness, thoroughness and impartiality,".hoped always similar to clearances for defense plants.

Mr. Estabrook, returning to the stand on Tuesday afternoon, asked the committee for help in clearing innocent people whose employment in radio has been affected by their unsupported listing in the committee's past reports. Labeling agencies and producers "as sensitive as rabbits," he declared the TV industry has no central source of information in relation to communists and suspected communists.

Asking the committee to take some official action, Mr. Estabrook said "it is fearful the public will stop buying the products if they see a name which has been mentioned by this committee. All they do is look in the index of the reports."

Also testifying was Paul Franklin, president of Radio Writers Guild in 1942-43 and 1949-50, who revealed he did not notice any infiltration in RWG until the latter part of his second term.

At winding of Tuesday's session, Sen. BURNS indicated the committee might "work out some liaison deal to educate the TV industry to the facts of life."

Ending the three-day hearings was testimony by Ed Gibbons, editor of Alert, identified as an anti-communist publication, who declared the writers voluntarily appearing before committee had presented a "completely false picture."

Miss McCall's statement denying any communist interest was also challenged by Mr. Gibbons. The hearings concluded with the announcement that the committee would hold sessions in Los Angeles in November or December to resolve loose ends.

Solution to KUGL-TV Tower Problem Near

Trouble had erupted when Galveston outlet was stymied by Washington Airspace subcommittee, despite earlier approval of the Fort Worth regional authorities.

SOLUTION to the KGUL-Tower of Galveston-Washington Airspace subcommittee imbedded in view late last month when the Washington committee scheduled another meeting on the 1,200-ft. tower proposal for tomorrow (August 3).

Indications were that the CAA, in conjunction with the ch. 11 station and the Air Transport Association, was prepared to adjust its opposition to permit the CBS-affiliated Galveston station to construct its tower in the general area originally chosen.

Station came to the Washington Airspace subcommittee hearing with unanimous approval of the Fort Worth regional airspace subcommittee to put its 1,200-ft. above ground tower at a site four miles northwest of Alvin, Tex. Site was chosen under the guidance of the regional subcommittee. It is now operating from a 575-ft. antenna two miles northeast of Galveston, KUGL-TV transmits with 335 kw.

Strenuous opposition by ATA and APA at the Washington meeting caused the Washington subcommittee to withhold approval of the regional subcommittee's favorable recommendation. Bases of objection are that the proposed tower jeopardized instrument landing approach procedures, holding altitudes, and radar vectoring. What apparently made the problem worse was the fact that the committee approved the KTLK (TV) ch. 13 1,000-ft. tower in the same vicinity. This would have placed the ILS approach line between the two towers. AAA is reported to have spent $3 million in equipping Houston airport with navigational aids, including surveillance radar with precision radar in the building stage.

Two Lead Opposition

In the course of the meeting, Harold Mott, of the Washington office of Western & Morgan, representing KTLK, attempted to raise questions regarding the economic and competitive situation in the Galveston-Houston.

He was ruled out of order, on the ground that the Airspace subcommittee's only jurisdiction was whether the proposed structure was a hazard to air navigation or not.

KUGL-TV began operation in March 1953. It is owned by Paul and Lee Jones Jr., K. K. Johnston and James M. Stewart and associates. KTLK received its ch. 13 grant last February after a merger of three companies. Applicants Stockholders include John T. Jones Jr. (Housie Chevron), Roy Hofheinz, mayor of Houston, and others.

In another session last week, the Washington Airspace subcommittee approved a regional recommendation favoring the increase to 750 ft. above ground of the ch. 12 tower of WSSS-TV Winston-Salem, N. C. Transmitter is seven miles east of Winston-Salem, and is now using a 335-ft. tower.

WVOK Asks Commercial Use

For Birmingham Educ. Ch. 10

REQUEST that reserved ch. 10 in Birmingham, Ala., be thrown open for all commercial use was made last week by WVOK Birmingham.

WVOK pointed out that the Alabama Educational Television Commission had asked that educational ch. 7 be moved from University, Ala., to Munford, Ala., and that this was done last June, following which the AETC was granted that facility (B.S.T, June 7).

Munford's ch. 7 WEDM (TV) will put a Grade A signal over Birmingham, WVOK stated, and thus fulfill the desire of the Commission for a vhf educational outlet in Birmingham. If ch. 10 is maintained as an educational channel and granted to an educational group, that would mean two vhf educational signals in Birmingham, the petition said.

Since the AETC was established to be the licensee of all of Alabama's educational tv stations, this would mean that AETC would be the grantees of both Munford's ch. 7 and Birmingham's ch. 10—thus violating the over-all WVOK said.

WVOK also questioned the motives of WRCB-TV Birmingham (Storer Broadcasting Co.) in offering equipment and facilities to the educational station in Birmingham.
A SPECIAL ANNOUNCEMENT

For the first time in its nine-year history, WSM's famous daily farm program, "Noontime Neighbors" is now being offered for sale.

"Noontime Neighbors" (12:30-1:00 p.m. Mon.-Fri.) has been saluted repeatedly in the trade press and elsewhere as the biggest and best noontime farm show in American radio.

Now WSM has decided to take a limited number of Grade A accounts on a highly selective basis — selective because on this show the products will automatically carry the powerful endorsement of WSM's Farm Department, headed by John McDonald, around whom the show is built.

Also featured regularly on "Noontime Neighbors" are Owen Bradley and his band, Announcer Tom Hanserd, and regular Big Name guest stars from the Grand Ole Opry.

Contact Tom Harrison at WSM or any Petry Man for further details.

FCC Upheld in Daytime Skywave Case

Denial of WCKY request for hearing also upheld by U. S. Court of Appeals.

The FCC acted correctly in the Hartlingen, Tex., daytime skywave case, the U. S. Court of Appeals in Washington ruled last week. It upheld the Commission in its order requiring KGBT Harlingen to operate directionally on nights when its daytime operations would interfere with normally protected contours 100 minutes before sunset and for 100 minutes after sunrise. It also denied a hearing, but the Commission denied that request. However, the Commission has yet to rule on a WCKY complaint.

Pending the outcome of its daytime skywave case, the Commission ordered KGBT to operate with a directional antenna during the daytime. With that in mind, the court said it considered the Commission's request for a hearing only if requested by the Commission. The court's ruling on the Commission's request came from the court's determination that the daytime skywave case was concluded.

Anthony Turns in Uhfs, Seeks Providence Ch. 12

Turning in its two uhf permits, one for ch. 28 WTEV-TV New Bedford, Mass., and one for ch. 50 WBOB-TV Boston, E. Anthony & Sons last week filed application with FCC for a new tv station on ch. 12 at Providence, R. I., with transmission from the Blackstone Town.

FCC last year granted ch. 12 to WPRO Providence and issued a special temporary authority for WPRO-TV to commence operation but the effective dates on both the grant and the STA were stayed pending completion of hearing. The order defendant filed by ch. 16 WNET (TV) there, now in operation. The hearing was held before an examiner and an initial decision issued citing facts but no conclusions, ordered the Commission to reconsider the case on oral argument, scheduled Aug. 16, and final decision [B&T, May 3].

E. Anthony & Sons recited extensive technical difficulties with respect to its proposed uhf site at New Bedford as well as inability to acquire network programs. The applicant told the Commission it was surrendering its Boston permit as well as that at New Bedford because its proposed ch. 12 outlet would render Grade A service to Providence and Boston as well as all of Rhode Island and most of Cape Cod and Martha's Vineyard.

E. Anthony & Sons related its efforts during the past 10 years to enter television, beginning with its first postwar bid for ch. 1, deleted by FCC, and its second bid for ch. 8 at New Bedford, reallocated under the Sixth Report and Order, leaving only uhf there. As to its uhf experience the applicant said in part: inasmuch as New Bedford, Mass., is the 10th largest city in the country and is the heart of the important southern portion of Massachusetts, including many communities and Cape Cod, it always has been a viable uhf market area. Economic and population factors are in favor of the location of a television station in that city, provided only that e worthwhile program service could be obtained or developed. It has always been Anthony's belief that those supporting factors are so strong that program sources would be available. The applicant's activities and plans have been in line with this belief.

However, numerous contacts, surveys and conferences in recent years have forced Anthony reluctantly to the conclusion that adequate program source would not be obtainable for a uhf station at New Bedford regardless of site, power, coverage, promotional activities or any other factors apart from whether Anthony otherwise could take. Anthony offered to carry full network programs free of charge, paying a network fee of $800 per month as well as line charges of approximately $8,000 per month, for one year or more but could get no assurance of being allowed to carry the best programs, sponsored or unsponsored, if such were showing on a competing vhf station. Nor could Anthony secure any network contract on a bonus basis except subject to ninety-day cancellation.

Thus, it now appears that the network service of a satisfactory or continuing nature could be obtained. Further, an exhaustive study of the competitive program situation would normally be primary, film, show that even if reasonable in quality and price most good film alone would not be available during a number of times, over the uhf outlets in other cities which are received in the New Bedford area. It is obvious that it would be impossible to program the station with local live shows alone. Without adequate program sources the problems of conversion would be an insurmountable obstacle in any effort to provide a worthwhile television service in the New Bedford area. Furthermore, Anthony with a history of many years of public service in the New Bedford area, both in the radio and newspaper fields, cannot in clear conscience ask or attempt to persuade the public in that area to convert receivers at considerable expense without at the same time knowing for certain that station's program service would be adequate.

The Independent, WCAN-TV

Upheld in Ch. 5 Bid

The status of Independent Television Inc., as an applicant for Whitefish Bay, Wis., ch. 6 (Milwaukee area) and the right of ch. 25 WCAN-TV Milwaukee to participate in that hearing were upheld by the FCC, defeating denying petitions by WMIL and WISN (Hearst Corp.) both Milwaukee and also applicants for the ch. 6 frequency [B&T, May 31].

WMIL had asked that the Independent application be dismissed because it had been unauthorized by a stockholder, violating Wisconsin law. It also alleged that Independent's application was not filed in good faith and that its validity should be an issue.

The Commission denied the request to dismiss Independent's application, saying that Independent could amend to correct this condition as it offered to do. As to the attack on the validity of the Independent application, the FCC said the motive and purposes attributed to Independent by WMIL were "grounded in speculation." and that the allegations offered no "substantial warrant for special inquiry".

The Hearst petition to eliminate WCAN-TV from the hearing was denied on the ground that the uhf station was a proper party in interest and was entitled to participate in the hearing. FCC Commissioner disagreed with this ruling. He originally had voted against permitting WCAN-TV to participate in this hearing.

The case was assigned to Whitefish Bay, a suburb of Milwaukee, following a lengthy controversy involving the Hearst Corp., WCAN-TV and the Commission. Originally, Hearst asked that the educational reservation on ch. 10 be deleted and when the Commission refused to do this, Hearst asked that the ch. 6 be allocated to Whitefish Bay. WCAN-TV bitterly opposed this move, and when the Commission granted the allocation, it appealed the decision to the U. S. Court of Appeals in Washington. This is still pending. At the same time, it asked that it be made a party to the comparative hearing, and this was granted by the Commission. The hearing began May 28, but was adjourned to Aug. 10.
A New Philco TV Relay

With

4000 Watts ERP!

For remote pickup and S-T-L

- Monochrome and full NTSC color
- Multi-band service . . .
  5925-7425 mc
- Sound channel meets
  FCC specifications
- Built-in frequency monitors
- Completely weather-proofed
  RF heads
- Protective voltage interlocks
- Relay rack and suitcase mounting

Transmitter and
2' Parabola

Transmitter Control and
Power Supply

Receiver and
2' Parabola

Receiver Control Unit

Receiver Power Supply Unit

Broadcasters! Here is the latest in TV remote pickup and S-T-L equipment . . . a Philco TV relay unit which gives you an ERP of 4000 watts (using 4' parabola) . . . noise-free transmission and reception . . . and occupies no more space than present monochrome units supplying only one-tenth the power!

Heart of this new Philco Microwave equipment, Model TLR-3, is a reliable klystron—the one used in Philco multi-channel communications equipment—which provides a full watt of transmitter output. Use of interchangeable klystrons permits maximum efficiency in covering frequency ranges between 5925 and 7425 mc. RF units are completely weatherproof and all units are suited to rack mounting in fixed installations. A light weight portable tripod is available for mounting transmitter RF and receiver RF assemblies in the field. Get information on this new Philco TLR-3. Write Philco, Dept. BT today.

Portland Ch. 12 Grant Made Final by FCC

Hyde and Bartley dissent on issuance of construction permit to Oregon Television Inc.

FINAL decision granting ch. 12 at Portland, Ore., to Oregon Television Inc., was issued by the FCC last week. Comrs. Hyde and Bartley dissented with the latter issuing a statement.

The Commission upheld the initial decision of Commissioner Marjorie C. Smith, disapproving the applications of Columbia Empire Telecasters Inc. and North-West Television & Broadcasting Co. [B'T, Nov. 2, 1954].

The final decision concluded that preference must be given to Oregon Television on grounds of local ownership, program proposals and diversification of control of media of mass communication.

Two of the principal stockholders of Columbia are Journal Publishing Co., publisher of the Oregon Journal, and its wholly-owned subsidiary KPOJ-AM-FM.

In a dissenting statement which preferred Columbia, Comr. Bartley took issue with the conclusion of the majority of the Commission that KPOJ and the Journal Co. will have only a "token voice" in the affairs of the applicant corporation. Comr. Bartley said the majority was in error in "scuttling" its finding of fact. He said: "Unlike the majority, I would give controlling weight to the outstanding record of Columbia's last two stockholders in 'meeting and giving expression to the needs of the Portland community', in their broadcast and newspaper operations. These facts are in essence of the needs of the community, but also as to the reliance which may be placed upon them in relation to carrying out their program commitments'.

Imes Wins Ch. 4 Grant After Returning Ch. 28

PERMIT for a new tv station on ch. 4 at Columbus, Miss., was granted by FCC last week to owner-operator WCBJ there, who earlier turned back his application for ch. 28 WCBJ-TV. Comr. Frieda B. Henncok dissented. Grant calls for effective radiated power of 10.7 kw visual and 5.37 kw audio with antenna height above average terrain 390 ft.

In her dissent, Miss Henncok stated:

The application discloses that applicant is the sole owner of a radio station (WCBJ) and a daily newspaper (Commercial Dispatch) at Columbus, Miss., where the tv station applied for will be located. The Commercial Dispatch is the only daily newspaper published in Columbus. The applicant also owns a radio station at Tupelo [WLOA] and one at Grenada [WNAG]. 50 and 83 air miles, respectively, from Columbus, Miss.

These facts confront the Commission with the basic question: to what extent is the applicant prepared to meet the substantial increase of applicant's control of mass media in the area by the licensing to him of the only vhf tv channel at Columbus, ch. 4, not only control, but operation of a substantial portion of mass media in derogation of the public interest in access to varied and diversified sources.

The attenuation of healthy competition among local mass media has become painfully visible in many competing media in the parts of the country where the local economy is even better able to sustain the economic needs of their citizens. The Commission must recognize the responsibility of the Commission for ascertaining the adequacy of the mass media which applicant dominates mass media in the Columbus and Jackson, Miss., area. Freover, basic facts contained in the application as to mass media owned by applicant in the Columbus-Jackson area of control are not sufficient to substantiate the basic facts. However, cannot be fully and realistically assessed when and if we are not provided with the full facts in a hearing. We therefore consider that the Commission acted improperly in granting the construction permit without hearing.

KOLN-TV, WTSK-TV Transfers Approved

FCC last week approved the transfer of two TV stations: KOLN-TV Lincoln, Neb., and WTSK-TV Knoxville, Tenn.

The ch. 12 KOLN-TV facilities were transferred from those of the operator of WIBC-TV to John D. Dunn, trustee, with eventual operation by the U. of Nebraska.

Mr. Fetzer received FCC approval for the $308,000 purchase of ch. 10 KFOR-TV Lincoln on condition that he dispose of his ch. 12 station [B'T, March 29, Feb, 22]. Mr. Fetzer plans to use the call letters KOLN-TV on the ch. 10 facility.

In letters answering the FCC's pre-hearing McFarland letter Mr. Fetzer told the Commission the sale of the ch. 12 KOLN-TV does not involve violation of FCC's duopoly rule. The purpose of first transferring the ch. 12 facility to a trustee, he explained, was to expedite a switch of KOLN-TV to ch. 10 since the university was not prepared to assume direct ownership at this time [B'T, July 26, May 17].

All channel, ch. 26 WTSK-TV was sold to South Central Broadcasting Co., licensee of WIKY-AM-FM Evansville, Ind. Consideration is the assumption of obligations in amount not to exceed $216,000 [B'T, June 21]. South Central is a duo of Myer & Feldman and Channel. vice president George F. Stoltz.

Bill Makes Newspaper Losses Deductible from Tax Profits

A CORPORATION which owns a profitable television station but a newspaper which is in the red, may apply the newspaper's losses against the tv outlet's gains for taxation purposes under the tax revision bill passed by both Houses last week.

This was indicated in an exchange between Reps. Hale Boggs (D-La) and Daniel A. Reed (R-N.Y.) on the bill (HR 8316) Thursday.

Rep. Boggs said he had in mind a case where a corporation owning a newspaper intends to start a television station or a motion picture producing company. He asked Rep. Reed whether in such cases could he be applied against the expected profits in the new operation, under a provision in the bill allowing related businesses in the same owning corporation to carry forward tax losses from its operating loss to its profitable one.

Rep. Reed said he saw nothing to prevent it, provided all are owned by the same corporate entity.

FCC to Give Lamb List of Charges

ALTHOUGH refusing indefinite postponement of the license renewal hearing on Edward Lamb's WICU-TV (TV) Erie, Pa., FCC last week voted to allow Mr. Lamb to submit details on its charges that the broadcast-publisher falsely represented that he never had communist associations.

A resume of "basic allegations," not to include details on prospective FCC witnesses and sources of information, is to be supplied to Mr. Lamb by the chief of the FCC Broadcast Bureau by Aug. 15, the Commission ruled Thursday. This will give Mr. Lamb 30 days to prepare his case, based on the new material, FCC said.

A fortnight ago FCC Examiner Herbert Sharfman postponed the WICU hearing until Sept. 15 [B'T, Sept. 26]. The postponement was sought by Mr. Lamb's counsel, J. Howard McGrath, ex-U. S. Attorney General, to allow the Commission to act on the petition for deferment and bill of particulars.

FCC was urged to supply the bill of particulars, a request Mr. Lamb made in a letter to FCC Chairman John W. Bricker of the Senate Interstate & Foreign Commerce Committee. Mr. Lamb had appeared before the committee to protest the confirmation of Comr. John C. Doerfer to a second term on FCC. But Mr. Bricker was the "key" to Mr. Lamb's problems. Comr. Doerfer denied the allegations and was unani- mously confirmed [B'T, July 6, June 28].

In its order last week, FCC said in part: "It is our view that if this petitioner furnished more detailed information it would facilitate the affirmative defense. Secondly, in the case of the Chief of the Commissioner's Broadcast Bureau is the time to scrutinize the opposition's brief, Aug. 15, 1954, a resume of basic allegations. Included in such a resume would be a specification of the alleged false statements of Edward Lamb and the other basic facts which are to be established. We do not believe, however, that petitioner is entitled to information as to witnesses. Subpoenas may be served upon witnesses without prior order. The object of pleadings in the nature of a bill of particulars is to provide more definite information to enable parties to understand the nature of the charges against him. This should be done in the preliminary stages of the opposition's presentation of a party's defense. The purpose of such pleadings is not to furnish the opposing party with the names of witnesses and other evidentiary details by which they may be led to establish the facts on which they rely."

Meanwhile, a second trio of damage suits totaling $11.5 million were filed against Rep. Pat Sutton (D-Tenn.) and several local stations. They were filed by J. Lacey Reynolds, Washington correspondent for Mr. Lamb's Erie Dispatch, and charge slander by Rep. Sutton in his political talkathon over WSIX-AM-TV, WSM-AM-TV and WLAC. Earlier, defamation of character suits totaling $1.5 million were filed by Mr. Lamb against Rep. Sutton and the stations [B'T, July 19].

Chesterfield Claims Upheld in FTC Ruling

CHESTERFIELD cigarettes may continue to be described in advertisements as "milder," "cooler smoking," as leaving no "unpleasant after-taste" and as "soothing and relaxing," if a Federal Trade Commission hearing examiner's initial decision holds up.

FTC Hearing Examiner William L. Pack said there is no "substantial public interest" in an attempt to settle these claims by litigation, and ordered partial dismissal of charges against Liggett & Myers Tobacco Co. Hearing will continue, however, on a charge that the firm failed to adequately state FTC's adverse effect on the nose, throat and accessory organs.
Federal Restriction Bill Faces Revision in Senate

THE House-passed bill to get the government out of certain activities competing with private enterprise may be due for a re-working in Sen. Joseph McCarthy's Senate Government Operations Committee.

Radio and television came up in hearings on the subject in the first part of July by the House Government Operations Committee. An Army Signal Corps radio system in Alaska was among government operations mentioned, as were military taping and filming studios.

The bill (HR 9835), introduced by Rep. Clare E. Hoffman (R-Mich.), now is in the Senate committee, where elimination of certain language, said to be not intended by the House group, is being considered.

Under the bill, the Secretary of Commerce would receive complaints about government commercial activities and make suggestions, where appropriate, for turning these activities over to private enterprise.

As now worded, the bill would authorize the President to examine and terminate any business-type operation in government if this would not impair essential activities, with the following exceptions: (1) those in operation by specific Congressional authorization and (2) those in operation on the effective date of the bill. Subcommittees for both the House and Senate committees say the latter exception should apply only to those in operation by Congressional intent.

Initial Decision Grants Uhf Channel to Notre Dame

INITIAL decision proposing to grant uhf ch. 46 at Notre Dame, Ind., to Michiana Telecasting Corp., owned by Notre Dame U., was issued last week by FCC Hearing Examiner Basil P. Cooper.

The initial decision became matter of routine after the introduction into the record a fortnight ago of an agreement whereby the university buys its competitor, WHOT South Bend, for $140,000, subject to FCC approval (BWT, July 26). The sale is on condition that the Commission repair the ch. 46 facility to the university.

WHOT is sold by the Universal Broadcasting Co., operator of WISH-AM-TV Indianapolis, WANE Ft. Wayne and WHBU Anderson, all in Indiana.

Uhf WCOC-TV Suspends

WCOC-TV Meridian, Miss., ch. 30 outlet, advised FCC last week it is suspending operation pending reorganization of its programming facilities. It hopes to complete not later than Sept. 15. WCOC-TV has no network affiliation. It claims 32,500 set circulation. Meridian also is served by ch. 11 WTKO-TV, claiming 44,500 sets and affiliated with all four national networks. WCOC-TV is the 29th post-freeze station to suspend operation.

Channel Changes Proposed

ON PETITION by WKOK Sunbury, Pa., FCC last week issued a notice of proposed rule making to substitute ch. 38 for 65 at Sunbury, substitute ch. 74 for 38 at Lewiston, Pa., and add ch. 65 at Shamokin, Pa., the latter without a channel. WPHR indicated it would file for the lower uhf facility. Comments are due Aug. 30.
Mortenson Leaves Don Lee To Manage KFMB San Diego

ART MORTENSON, national advertising manager for Don Lee Broadcasting System in Hollywood, resigned effective yesterday (Sunday) to join KFMB San Diego as manager, it has been announced by George Whitney, general manager of KFMB - AM - TV, Hobby Myers, who has resigned as KFMB manager, and with Earl C. Anthony Inc., which then owned KFI-TV (now KABC-TV) Hollywood.

Some things should be small

Take the price of talking to a prospect to move goods now. Smart advertisers using broadcast media today spend the least-per-message-delivered by buying spot radio, on key stations. Compared with any other advertising, the cost is small indeed. A handful of good stations will reach almost everybody, WJR alone, for example, covers some 10% of U.S. buying power. Ask your Henry I. Christal man.

The Great Voice of the Great Lakes

WJR Detroit

80,000 Wats CBS Radio Network

WJR's primary coverage area: 15,000,000 customers

Defends Child Shows

SUGGESTION has been made to station clients by Joseph J. Weed, president of Weed Television Corp., station representatives, that "loose and general attacks on children's programs" be counteracted by stations on the local level. He advocated that plans he laid in the summer months for a fall schedule of local talks by an outstanding program personality of each station to parent-teacher, scout and church groups in which the standards of program acceptability by the station be outlined. Mr. Weed contended that criticisms generally have been made "without documentary specifics," and that children shows have been "tacked on indiscriminately to campaigns against children's comic books and movies."

CBS Radio Spot Sales

Stresses Women Audiences

IMPORTANCE of women's radio audiences to advertisers is underlined in a new presentation being released today (Monday) by CBS Radio Spot Sales through its various offices throughout the country.

Titled "Radio's Ladies-in-Waiting," the presentation stresses that only through radio advertising is it possible to "get an advertising message across to so many women so frequently and effectively and yet for so little cost." As an example, it points out that in New York, women's radio programs reach more than one out of every three housewives in a single day. The presentation outlines several examples of successful women's shows in markets represented by CBS Radio Spot Sales and gives reasons why these programs have been successful. The presentation contains market data and other research material on stations represented by CBS Radio Spot Sales, which include WCBS New York, WEEI Boston, WBBM Chicago, KNX Los Angeles, KCBS San Francisco, KMOX St. Louis, KIRO-Seattle, WBT Charlotte, KSL Salt Lake City, WCAU Philadelphia, WTOP Washington, WCCO Minneapolis-St. Paul, and WRVA Richmond.

Wayne Kearl Resigns, KGMB-AM-TV Reorganizes

KGMB-AM-TV Honolulu has been reorganized on the executive level following the resignation of Wayne Kearl, manager of KGMB-TV, C. Richard Evans, vice president of Hawaiian Broadcasting System, has announced.

Mr. Kearl, who plans to return to the mainland for reasons of family health, will remain as a consultant for an interim period to help with reorganization and other problems, Mr. Evans said.

Under new plans all department heads for radio and tv will report directly to Mr. Evans in a move to give additional service to radio listeners and advertisers by emphasizing music and news.

WRC-WNBW (TV) Note Rise In Local, Spot Business

NBC-owned WRC and WNBW (TV) Washington have increased business in both local and national spot advertising for the first six months of 1954 over the same period last year, it was reported last week.

WRC's income from local and national spot for the first half of 1954 was 13.6% over the same period in 1953, with June business 15.4% higher than the corresponding month last year — and higher than any June since 1947.

WNBW's non-network business rose 31.2% for the first six months of 1954 compared with the same period in 1953. For June, WNBW sales were 34.7% higher than the same month last year.

The largest increase for both stations has been in national spot business, Joseph Goodfellow, sales director for the two stations, said. He reported that more than 40 advertisers used the stations for the first time.

Washington now rates as the 10th U. S. market and is second in family income, Mr. Goodfellow pointed out. Annual retail sales run at more than $2 billion—11th highest in the nation, he said.

Byron Taggart Named WTVN General Manager

BYRON TAGGART, in charge of promotion and publicity at WKRC Cincinnati, has been appointed general manager of WTVN Columbus, it was announced last week by Huibert Taft Jr., president of Radio Cincinnati Inc. and Radio Columbus Inc. WTVN was WHKC until its recent purchase by Radio Columbus, subsidiary of Radio Cincinnati, licensee of WTVN-TV Columbus.

Mr. Taggart has been in radio 18 years, joining WFBM Indianapolis in 1936. He later traveled with Lum 'n' Abner's "Pine Ridge Follies" as impersonator and m. c. In 1940 he joined WINN Louisville and in 1942 affiliated with WIBC Indianapolis as play-by-play sportscaster. Mr. Taggart then joined the WKRC staff in 1943, serving there for 11 years.

Sales High on WNBT (TV)

VOLUME of business at WNBT (TV) New York for the first six months of 1954 has reached an all-time high, with a 16% increase in sales over the same period of 1953, it was announced last week by Jay Heitlin, sales manager.

Mr. Heitlin commented that advertisers apparently are realizing "the importance of summer impact," pointing out that fewer clients have taken summer hiatuses and fall starts are beginning early. Among the active advertisers on the station since the beginning of 1954, Mr. Heitlin said, have been Ballantine beer, Benrus watches, Brown & Williamson tobacco, Procter & Gamble, the Chevrolet Dealers of New York and the New York District Ford Dealers.
KNBH (TV) Breaks Ground For Transmitter Tower

KNBH (TV) Hollywood has broken ground for a new transmitter tower on Mt. Wilson. The structure will be 508 feet above ground, 7,170 feet above sea level.

The self-supporting tower's base consists of four footings, each containing 500 cubic feet of concrete and weighing approximately 50,000 pounds. Each footing, which must withstand a pull of 1,800,000 pounds, has eight radiating 25-foot holes, nine inches in diameter, attached to the concrete and extending down into solid granite. Each hole has a two and one-half inch steel rod which, with a special expanding cement, will seal itself to the base, according to General Manager Thomas C. McCray.

A platform will be erected at a 200-foot level, upon which will be mounted a six-foot parabolic reflector for receiving televising from the KNBH remote unit. The reflector will be directed by remote control, both as to direction and elevation, from the control room to the transmitter. The antenna portion, specially built at the RCA plant in Camden, is over 58 feet high and is an RCA three-element superturnstile type.

WSAZ-TV Opens Operations From Charleston Studios

WSAZ-TV Huntington, W. Va., last week began remote operations from a new tv studio in Charleston, W. Va., the state capital, 40 miles from its home city. The pickup from Charleston is made on the station's own three-stage microwave relay system which cost $100,000 to build.

L. H. Rogers, vice president and general manager, said the new studio and relay system would permit the station not only to produce programs but also local commercials. The station will operate a Charleston sales office as well as the studio originion point. Both sales office and studio are in the building occupied by WGKV Charleston.

Power Boost by KEDD (TV) Adds to Coverage Area

INCREASED coverage area is reported by KEDD (TV) Wichita, which has boosted power to 245 kw visual and 132 kw aural, sending a signal to viewers in some 22 Kansas and Oklahoma counties within an 80-mile radius of Wichita. KEDD is on ch. 16.

Reportedly KEDD, which programs NBC-TV and ABC-TV, now has a signal scope extending as far south as Medford, Okla., north to Salina, Kan., east to Eureka, Kan., and west to Pratt, Kan. Power day for the station was July 11. The wattage increase is supplied by KEDD's new GE 12 kw transmitter. Stanley H. Douglass is president, John North vice president-general manager.

KFMB Switches, Ups Power

KFMB San Diego, following FCC approval, switched to new facilities of 5 kw fulltime on 340 kc, directional, on July 22. The station formerly was on 550 kc with 1 kw. Licensee is Wather-Alvarez Broadcasting Co.

Wells, Parker Buy WTAN

SALE of WTAN Clearwater, Fla., from Brandon Carter Jr., to Pitts Pruitt and associates to William G. Wells and H. D. Parker for $106,000 was announced last week. Application for FCC approval is due to be filed soon. Mr. Wells, who will be president and 75% owner of WTAN Inc., owns WMOA Marietta, Ohio, and has a one-third interest in WWCO Waterbury, Conn. Mr. Parker, who is the present general manager of the 1340 kc, 250 w, full-time independent, will be vice president and 25% owner.

Sale was arranged through Allen Kander, station broker.

WKMI Celebrates Power Boost

WKMI Kalamazoo, Mich., was host at a civic celebration honoring boost in the station's daytime power to 5 kw on July 13. Some 5,000 balloons were released over the city, with 1,000 containing merchandise certificates from WKMI sponsors. WKMI now operates on 1360 kc with 5 kw day, 1 kw night, directional day and night.

KPRC-TV Color Signal Received in New Jersey

REPORT of reception of its color bar pattern more than 1,300 miles away was reported last week by KPRC-TV Houston.

The signal was picked up for about 19 minutes shortly after noon by RCA color expert R. K. Lockhart at his home in Moorestown, N. J., July 11. In a letter to KPRC-TV Chief Engineer Paul Huhnordt, Mr. Lockhart said:

'Contrary to my expectations, color quality was good with little or no quadrature distortion (including good phase and amplitude relationship between luminance and color sidebands). There was some color hold "hunting" immediately following vertical blanking on NBC bars but not on Victor bars (KPRC-TV was transmitting both NBC and RCA Victor type bars at the time). Phase on yellow was very close to that of reception from WNBT (TV) New York on NBC bars, but yellow was greenish on Victor bars.'

KPRC-TV operates on ch. 2 with 100 kw from a tower 630 ft. above average terrain.

Antenna Rent Issue Stayed

TELEVISION station operators in the New York area were granted a stay of arbitration until Sept. 14 by the Appellate Division of the New York Supreme Court July 22 in an effort by the Empire State Building to raise its rents for antenna sites on the building. The decision, which reverses an earlier verdict by the New York Supreme Court, permits a stay until station operators can argue their plea for determination of whether or not emergency rent laws of the state apply to antenna space as they would to space in the building.

WCEF Names Executives

WCEF Parkersburg, W. Va., established this year and licensed to C. E. Franklin, general manager and chief engineer, has announced its roster of executives: R. A. Sadler, commercial manager, sports director; Bill Walton, program director-production manager; Gene Snyder, sales manager; Cliff Miller, news-farm director; Neika Lee, women's director, and Mary Poling, promotion manager. WCEF operates on 1050 kc with 250 w day. Address is P.O. Box 228; telephone: 2-1844.

WABI-TV Goes to 30 Kw

WABI-TV Bangor, Me. (ch. 5), will boost power to 30 kw this Wednesday, it was announced last week by Leon P. Gorman, general manager. He said the move will "greatly increase" the station's Grade A and B coverage areas in eastern Maine.

WISR Completes New Quarters

WISR Butler, Pa., has completed a new building to house its offices and news department in an expansion project which included installation of a modern remote control transmitter, according to Joel W. Rosenblum, president of Butler Broadcasting Co., licensees. The new structure adjoins the station's production control rooms, record library and studios.

STATION PEOPLE

Bill Jeffery to KXLL St. Louis as general manager.

George Willard, announcing staff, WGSM Huntington, L. I., N. Y., appointed general manager.

Danny Shaver, sports director, WHHH Warren, Ohio, additionally promoted to sales manager.

Richard E. Barrett, continuity and sales promotion, WEOL Elyria, Ohio, promoted to station manager; Douglas H. Lillie promoted to office manager.

Lowell Jack, formerly with KWBG Boone, Iowa, to KMAN Manhattan, Kan., as general manager, succeeding Warren L. Mowder, to KGFL Coffeyville, Kan., as time salesman.

William T. Selander, Crosley Broadcasting Co., Chicago, to WVKO Columbus, Ohio, as sales manager.

John D'Autilio, formerly with sales dept., WCBS New York, to WTRI (TV) Albany, N. Y., as national sales manager.

Rollie R. Williams, general manager, KSOO Sioux Falls, S. D., to WCCO Minneapolis-St. Paul, as account executive; Bayless Corbett, radio free-lance, Corpus Christi, to news staff.

Len Guinley, formerly sales manager, Television Specialty Corp., N. Y., to WATV Newark, N. J., as account executive.

Mrs. Vanne Mottell, formerly publicity director, WSAT Cincinnati, to Storer Broadcasting Co., N. Y., as assistant to advertising and promotion manager.

Leon E. Kelley, program manager, WRK Williamsport, Pa., to WEAV Plattsburg, N. Y., as program director.

Jack Hoskins, film director, WICS (TV) Springfield, Ill., appointed tv program director, succeeding James Hareson, resigned.

Hank Elliott, WMEX Boston, to WORL same city as news and sports director.

Harrison W. H. Eagles, news and special events director, WKJF-TV Pittsburgh to WJW-TV Palm Beach, Fla., as news director.

Norman C. Locke, film director, WWOR-TV Worcester, Mass., promoted to production manager, succeeding Richard C. Huntley, to WEDG-TV Burlington, Vt., as program director; Harold Eckman, assistant film director, succeeds Mr. Locke.

Louis G. Jacobs returns to WTVI (TV) Miami, Fla., as public service director and V. S. Army release; Jay Weand, news-camera, WGAL
Lancaster, Pa., to station in similar capacity; Leona Softness, to news dept. as film librarian; Adrian Cox to station as receptionist, succeeding Ruth Jones, to public relations department.

Bill Balaban, assistant program manager, WABC-TV New York, assumes new duties supervising all daytime programming.

Mike Kizziah, newscaster, CBS Radio Hollywood, transfers to KNXT (TV) Hollywood in similar capacity.

Mac Sheehan, announcer and program director, WACA Camden, S. C., to announcing staff, WIS Columbia, S. C.; Jay Mullen, WTMA Charleston, S. C., to staff.

Jim Vinall, KICA Clovis, N. M., to WJR Detroit as newscaster; Bates Farrell, WCAR Pontiac, Mich., to station as announcer-disc m.c.

Stan Shaw to WICC Bridgeport, Conn., as disc m.c.

Gordon Lochwood, announcer-pianist, to KPDN Pampa, Tex., in same capacity.

Linda Campbell, WDPM State College, Pa., rejoins continuity dept., WWSW Pittsburgh.

Merle Harmon, formerly director, Kansas U. Sports Network, to sports staff, KMBC-AM-TV Kansas City, Mo.

Robert Weber, KOOS Coos Bay, Ore., to promotion and advertising dept., KPTV (TV) Portland.

Cynthia Olson, former women's news editor, Miami Beach News Service, to KUAM Agana, Guam, as women's program activities director.

Phil Baldwin to promotion manager, CKDA Victoria, B. C.

Howard Goldberg, formerly writer, WNUR Evanston, Ill., to writing staff, WBBM-TV Chicago.

Leonard Leibfreund, graduate, Crescent Television School, N. Y., and Maurice Dicker, graduate, Pierce Institute, same city, to engineering staff, WHLI Hempstead, L. I., N. Y.

Tom Livezey, WKAP Allentown, Pa., to WAEB same city, conducting Melody Ranch program.

Mrs. Oscar Hendricks to WKBN-TV Youngs-
First in Viewing Audience

Another Reason Why Morning Radio PAYS OFF for WSYR Advertisers

**Jim Deline and the Gang**

After 16 years, the Jim Deline show is still the top radio variety show of Central New York. Sponsors' sales figures prove it. Participating, Monday through Saturday, 9:15 - 9:55 a.m. (Also 1:00 - 2:30 p.m.)

Henry I. Christal Co., Inc. National Representatives

VISITING the site of WWIT Canton, N. C., new om station scheduled to begin operation this month, are (l to r): Kermit Edney, vice president; Bruce Morford, Bill Schüll (kneeling), Sam Robinson, directors; Bevo Middleton, president; D. A. Gilmore, treasurer, and Frances Roberson, secretary. Messrs. Edney, Middleton and Gilmore hold similar positions in sister station WHKP Hendersonville. The two Carolina stations, which will be connected by direct lines, will offer special tie-in advantages for advertisers.

town, Ohio, as featured performer, Home Cooking program.

Will Jones, released from U. S. Army, rejoins WSYR-TV Syracuse, N. Y., in former capacity of photographer; Maurice Dudy and Charles Tooley to am-tv engineering staff.

Hiram Higbsby, originator and producer, Brush Creek Follies program, KMBC Kansas City, Mo., to KANS Wichita, conducting Hiram Higbsby Show.

George Minard to WBRM-TV Chicago handling new farm program.

Ann Gillis, radio, tv and motion picture star, to KDKA Pittsburgh, doing own recorded musical show.

Parke T. Vincent, chief engineer, WHDL-AM-FM Olean, N. Y., to WMTW (TV) Poland, Me., in same capacity.

Richard D. Johnson, tv director, WMAQ and WNBQ-TV Chicago, promoted to production manager, succeeding Alan Beaumont, resigned to serve as director, NBC-TV serial A Time to Live.

Bill DeCorrevont, former professional and college grid star, to handle WAIT Chicago broadcasts of upcoming season's Notre Dame and Illinois football games.

Robert Fierman, formerly with NBC-TV, to WRTV (TV) Ashbury Park, N. J., for short period as television program consultant before returning to West Coast in fall.

Charles Brink, announcing staff, WHAM Rochester, N. Y., resigns to enter industrial machine business.

Ben Chappel, Virginia Dept. of Agriculture's Div. of Markets staff member, who broadcasts farm market reports, WRVA Richmond, Va., father of boy, July 26.

Mrs. Hugh Potter, wife of Hugh O. Potter, manager, WQW-AM-FM Owensboro, Ky., and conductor, Joanna of Stork News program, recovering in hospital from injuries sustained in auto accident July 1.

John Kluge, owner, WGAY Silver Spring, Md., and Mark Evans, host-m.c., WTOP Washington, D. C., accompanied by six of Mr. Evans' sponsors, to Belgian Congo on five-week safari.

Edwin K. Wheeler, general manager, WWJ-AM-TV Detroit, appointed to Detroit-Tommorow Committee, civic group planning that city's future.

George Heinemann, program director, WMAQ and WNBQ (TV) Chicago, presented the 1954 award for distinguished service, Illinois Div. of American Cancer Society, for service as radio-tv chairman, annual fund drive.

FREDON FOWLER, director, network film programs, ABC-TV, discussed "TV Programming" last week in his lecture series for students of communications course, Pace College, N. Y.

Larry Finley, host-emecee, KFWB and KNXT (TV) Hollywood, and owner, packaging-production firm, that city, father of boy, Gene, July 23.

Frank Valentl, sports director, KGMB-AM-TV Honolulu, father of boy, Mario Anthony, July 21.

Dave McElhatton, KCBS San Francisco, father of boy, Terrence Michael, July 20.

Bill Holm, general manager, WLPO La Salle, Ill., father of boy, July 16.

J. S. Sinclair, director of public relations, WJAR-TV Providence, R. I., father of girl, Jodie Carol.

NEW director of engineering at WHEN-TV Syracuse, N. Y., is Frank Spain (I), formerly the station's chief engineer, who now will handle development, design, construction and installation of new equipment. Here Mr. Spain goes over blueprints with Donald F. Longham, who has moved up from chief engineer of WHEN-AM to become director of technical operations for the TV outlet.

Harold Smith Dies; Figured In Famed Revocation Case

HAROLD E. SMITH, 62, one of the principals in the famous WOKO revocation case in the early post war years, died July 23 in Albany, N. Y., after a long illness. Mr. Smith, operated radio stations in Newburgh, Poughkeepsie and Peekskill, all New York, before taking over the operation of WOKO in Albany in the mid-30's.

The WOKO case was based on charges of misrepresentation of ownership and involved the late former Federal Radio Commissioner Sam Pickard. The Supreme Court upheld the FCC's right to revoke WOKO's license in 1947.

Present owners of WOKO, 5 kw on 1460 kc, were the successful applicants for the facility in 1947. The station is owned by the Gen. Dongan Broadcasting Corp. (Jim Healey).

STATION SHORTS

WAVE-TV Louisville, Ky., telecast first color network TV program (The Marriage on NBC-TV) in Kentucky and southern Indiana July 29, according to the station.

WILLS-TV Lansing, Mich., announces it has first United States facsimile photo machine in Michigan.

WNAM-TV Neenah, Wis., has affiliated with ABC-TV, carrying kinescopes since July 12 and to be interconnected by AT&T within the next 45 days, the station reports.

KSL-TV Salt Lake City announces purchase of new $80,000 remote telecasting unit.

WABI-TV Bangor, Me., will increase power to 30 kw Aug. 4, according to the station.

KTLA (TV) Hollywood, with six new advertisers, has brought time sales up to 10% over spring months, station reports.

WGFL (TV) Easton, Pa., (ch. 57), received word from RCA Communications Frequency Measuring Laboratory that station's signal established a distance record for uhf signals.

WHIT-TV Terre Haute, Ind., hooked into AT&T nationwide tv facilities network to receive live program service, AT&T announces.

KDKA Pittsburgh will take over Cardinal & Company program Sept. 6, which moves from WWSW same city.

THE 5,000th consecutive broadcast of the Malco News over KGFL Roswell, N. M., is the occasion for the program participation of Malco Refineries President Robert O. Anderson (I), shown with KGFL Manager Jud Roberts. The special newcast, which originated in Mr. Anderson's office, featured news events as reported on the first broadcast of June 1, 1938.

REPRESENTATIVE APPOINTMENTS

WCBM Baltimore appoints George W. Clark Inc., N. Y.

CKGR Galt, Ont., 250 w station on 1110 kc expected to start operations this autumn, appoints H. N. Stovin & Co., Toronto.

GATES RADIO COMPANY - Quincy, Illinois, U.S.A.

Offices: Atlanta, Houston, Los Angeles, New York and Washington, D.C.

August 2, 1954 • Page 65
Heller told note becoming too irregular. You appearances singers, have their work. of the national death American Federation all Artists, George Heller of New welfare "There are Most but in an idea demands were spelled a few Fortunate membership." Mr. Heller reported that the union's number of paid-up members this year totaled 10,710, compared to 8,626 a year ago. He said the membership is now in 33 locals and nine chapters in the U. S. and Hawaii. Of 101 contracts negotiated in the last year, he said, 15 represented first contracts—13 covering television, one for a radio and operation, and one for radio only. All, he said, brought "substantial improvements in pay, fees or conditions." In addition to formulating new demands on the nation's five big radio and tv networks (the union's two-year contracts expire Nov. 15), delegates were to consider a constitutional amendment providing for biennial instead of annual AFTRA conventions. Economy reasons were cited.

UP Stands Firm

FEDERAL wage-hour regulations still apply to broadcast stations despite the recent rule of National Labor Relations Board dropping jurisdiction over stations grossing less than $200,000 a year. The NLRB rule applies only to provisions of the Taft-Hartley Act and collective bargaining.

"As far as broadcasters are concerned, no matter what their gross revenue may be they are covered by wage-hour rules now as just as they were before the new NLRB policy was announced."

"Some broadcasters have raised a hope that the NLRB action might set a favorable precedent for a similar wage-hour ruling. This is extremely unlikely because of entirely different conceptions of jurisdiction which are found in the two acts." The "Wage-Hour Law has two significant parts which are of practical importance to broadcasters. One is the minimum wage section; the other, the overtime pay provision."

"The minimum wage requirement set up in the act is that all employees subject to the law must get 75 cents an hour or more. The overtime rule states in effect that time-and-one-half must be paid for hours worked in excess of 40 in any given work week."

"At the present time all commercial broadcasting stations are regarded by the wage-hour administrator as subject to the Wage-Hour Law. However, not all the people employed by stations are covered. Bonafide administrative, professional, supervisory and outside sales employees are excluded from the coverage of the act in the broadcasting industry as they are in other industries. The official wage-hour rules set forth the standards for the application of these definitions."

Stagehands, Networks Negotiating in L.A.

STAGEHANDS from IATSE Local 33, Los Angeles, last week were considering counter-proposals from NBC-TV, CBS-TV and ABC-TV in negotiations for a two-year contract to cover Hollywood network operations.

Union negotiators, headed by local president...
Carl G. Cooper and King Mansfield, proposed a 10% across-the-board wage increase and improved working conditions during an initial meeting last fortnight. Network representatives, Oscar Turner, assistant to director of public relations, NBC-TV Hollywood; Eugene Purver, director of public relations, CBS-TV there, and Cliff Anderson, director of public relations, ABC-TV there, made an unrevealed counteroffer which was under consideration by union membership last week.

The contract between the networks and stagehands expired yesterday (Sunday).

**TWA, NETWORKS STILL AT ODDS**

STRIKE by members of the independent Television Writers of America against NBC-TV, CBS-TV and ABC-TV enters its 13th day today (Monday) with no prospects for a settlement in sight and both sides maintaining a "sit-tight" policy.

Spokesman for the union and the networks last Thursday they had no plans for further negotiation, though the TWA official said he expected a "significant development" to emerge this week. The union struck against the networks on July 21, seeking a new wage scale and union shop clause in the contract for free-lance script writers (B*T, July 26).

One sidelight to the dispute is that TWA's one-year certification by NLRB is scheduled to be reviewed, starting today (Monday). At the same time, the Author's League has had a decision requested before the NLRB last May, claiming it now has majority support among free-lance TV script writers.

On the West Coast, a meeting of the Hollywood AFL TV and Film Union last week, recommended against issuance of a federal charter to TWA. In effect, this kills any chance AFL national headquarters will issue such a charter.

Union representatives, assembled by AFL organizer Tom Randall, said the TWA affiliation, requested on the eve of strike, would force them to support a strike without prior consultation. They also objected to the "ideological background" of several TWA executives, including Joan La Cour, western region executive secretary who invoked the Fifth Amendment at a House Un-American Activities hearing at Los Angeles last year, in face of a strong AFL anti-communist policy.

**RCA Reinstates Writers After Arbitration Decision**

THREE MEMBERS of the Radio Writers Guild have been reinstated in script writing jobs with RCA Thesaurus as a result of a decision by the American Arbitration Assn. holding RCA and NBC in violation of a 1953 union agreement in the radio field, it was announced last week by RWG.

Last February, the writers—Geraldine Merkin, Thomas Langan and Frances Rickett—were dismissed by RCA through NBC, to which they reported, and an arrangement was substituted whereby the trio could furnish scripts to RCA Thesaurus on a free-lance rather than a staff basis. RWG protested this change, claiming it was in violation of the 1953 contract covering staff writers at NBC and noting it had reduced the weekly salaries of the writers.

The dispute was placed before the American Arbitration Assn. April 20 and a decision was rendered July 14.

**MILESTONES**

- ANN HUBERT, women's editor, WAVE Louisville, Ky., has celebrated her seventh anniversary with the station.
- WENT Gloversville, N. Y., marked its 10th anniversary last month, and commemorated the occasion with a special broadcast and a party for area youngsters born in July 1944, the station's birth-month.
- GLENN MILLER, national sales manager, WCPO-AM-TV Cincinnati, celebrated his 10th anniversary with the station July 20.

GOLD RECORD of the 5,000th Judy & Jane program, sponsored in various markets by Folger coffee, is presented to the advertiser's agency by United Film & Recording Studios, program packager. At the luncheon celebration in Chicago were (l to r) Linton Bogel, advertising manager of J. A. Folger & Co.; Egmont Sonderling of United; Howard A. Jones, Grant Adv., and W. C. Hutchins, United. The serial first was aired in 1932 on CBS after origination by Joseph S. Atha of Folger and Irene Wicker (The Singing Lady). Folger has been only sponsor.
Ford Reports $10 Million In Educ. Radio-Tv Grants

Most ($9 million in the last three years) went to the visual medium, the Foundation reports to a House committee.

THE Ford Foundation in the last three years has made grants totaling $9 million for the establishment of educational tv, and has put out more than $1 million for recorded educational radio programs.

This was reported last fortnight by H. Rowan Gaither Jr., Foundation president, in a statement to the House Committee Investigating Tax Exempt Foundations.

Mr. Gaither said that of the $119 million committed in the last three years (to Dec. 31, 1953), $22.4 million went to the Fund for Adult Education. This fund made the $9 million grants to bulwark educational tv—through matching funds to community groups for the establishment of city educational tv stations; to the Joint Committee on Educational Tv, to the National Citizens Committee for Educational Tv, and to the Tv & Radio Educational Center at Ann Arbor, Mich.

Through its Tv-Radio Workshop, the Foundation itself supported the production of Omnibus, a 90-minute tv program "designed to demonstrate that commercial television may serve as a cultural and educational medium and still attract a large audience," Mr. Gaither said.

Although figures were not given in Mr. Gaither's report, it is understood that the Fund for Adult Education has contributed more than $300,000 to ICET, more than $60,000 to NCCEET and $3 million for the Ann Arbor Center (B*T, July 26).

Electronics Scholarships

NEED for research and development engineers, presently limiting expansion in electronic field, was cited by West Coast Electronic Mfrs. Assn. as reason for its establishing 12 annual scholarships, valued at $7,400. Students of 11 western colleges and universities who entered electronics will be eligible, according to WCEMA fund trustees.

Dean of California Polytechnic Institute, UCLA, U. of California, Oregon State College, San Diego State College, U. of Southern California, U. of Santa Clara, San Jose State College, Stanford U. and U. of Washington will have sole responsibility for selecting students to receive the scholarships.

RETMA Service School Guide

STANDARD training course procedure for schools and other groups desiring to organize courses in tv servicing, or improving courses for advanced tv service technicians, has been published by Radio-Electronics-Television Mfrs. Assn. Titled "Instructor's Guide for Advanced Television Service Techniques," the booklet is one of three publications in the industry-approved radio and tv service program operated through school and industry groups.

Alaska U. Radio Study

NATIONAL SCIENCE FOUNDATION has reported a $20,000 grant to the U. of Alaska for "Ionospheric Research Using Both Radio Waves of Extra Terrestrial Origin and from Controlled Transmitters," under the direction of C. T. Elvey, director, Geophysical Institute. The grant is for two years, and was one of the 176 made last week by the government-underwritten foundation.

Offers Guide

EDUCATIONAL Television Committee of the National Social Welfare Assembly has prepared a guide for a two-day institute to assist local and welfare organizations in working more effectively with television stations in planning and coordinating programs. Among subjects suggested for study in the guide for the two day meeting are: operation of tv stations, audience potential and interests, procedures for setting up good agency-stations relations, uses of slides and other visual aids.

ABC-TV, NCAA RELEASE 13-WEEK GRID PLAN

Card runs from Sept. 18 through Dec. 4. Network plans complete sports series.

THE SCHEDULE of 1954 National Collegiate Athletic Assn. football games to be presented this fall over ABC-TV was announced jointly last week by Harvey Cassill, director of athletics at the U. of Washington and chairman of the NCAA television committee, and Robert H. O'Brien, executive vice president of ABC.

The 13-week schedule will offer 15 games of colleges throughout the country. The schedule follows:

Mr. O'Brien reported that the series has not been sold, but said there is "strong support" for a national sponsor. He added that ABC-TV is giving consideration to regional sponsorship but expressed the view that the series will be sold as a national package.

In reply to a question at the New York news conference, Mr. O'Brien said that ABC-TV had been awarded the rights to the NCAA-TV games for a price understood to be the same as paid by NBC-TV last year. He pointed out that cost to an advertiser may be "slightly higher" this year because more TV outlets are expected to be available to carry the series.

Other Sports Coverage

It was announced at the news conference that in addition to the football games, ABC-TV will also telecast a special 26-week schedule covering other outstanding collegiate sports events, starting on Dec. 11. This coverage, according to Mr. O'Brien, will include such attractions as the NCAAA indoor track meet, the Drake and Penn Relays, the Skyline Rodeo, the Collegiate crew race at Lake Oheondago in Montana, N. Y., as well as wrestling, gymnastics and college basketball games.

Asa Bushnell, NCAA tv program director, said that the bid to telecast the football games was granted to ABC-TV because it had offered, in addition to a financial proposal similar to other networks, an all-around plan for college sports development. He added:

"Football is exciting and football is big, but all collegiate sports have certain important things in common—they teach young men discipline, team play and fairness. That is why we are delighted that other fine collegiate sports, in addition to football, will be included in the special winter and spring series that

Robert M. Weitman, (l) ABC vice president in charge of programming, Asa Bushnell (c), tv program director of the NCAA, and Robert H. O'Brien, ABC executive vice president, confer at the news conference announcing the coming season's schedule of 15 NCAA football games and 26 additional weeks of college sports events over ABC-TV.

ABC-TV will bring to the American living room.

At a simultaneous news luncheon in Chicago, James Sturton, director of the tv network, ABC Central Div., described the NCAA-ABC football package as a $4 million deal. He said ABC-TV would entertain the possibility of two or four advertisers on a national scale, or sponsors who would be willing to come in on a regional basis. It would cost national advertisers perhaps $900,000 each. He stressed that ABC-TV will not offer the package on a co-op basis as previously reported because of NCAA restrictions on sponsorship.

Kenneth (Tug) Wilson, Big 10 commissioner, expressed favor with the schedule announced jointly by ABC-TV and NCAA. He acknowledged that the Western Conference still favors its own regional plan, but felt the 1954 slate offers televiewers better football than last year's and will prove acceptable.

Remote Tricks

DESCRIBED as another "television first," an artist-packager was to make a pilot film of a new panel show via DuMont Television Network's closed-circuit operation last Saturday. In order to use the special effects generator at DuMont's Tele-Centre and still preserve the authentic setting he wanted for his program, artist Clifford Saber arranged with DuMont to run three lines between the Tele-Centre and his Greenwich Village apartment. The show, Past the Line, was to be telecast from Mr. Saber's apartment while split-screen and wipe effects were to be relayed through the generator several miles away.

Do You Know This Man?

He is Frank S. Barc, Jr., general manager, KRUX, Phoenix, Ariz. He says—

"Coming from Sales into Management it is very easy to recommend to the Sales Department the many, many advantages of the SESAC Library and the many, many sales ideas that I have put to practical use while in Sales. Something old, something new, something blue, but nothing borrowed. That's SESAC."

The SESAC Library is lowest in cost for a complete Program Service

SESAC, INC.

475 Fifth Avenue

New York 17, N. Y.
**Networks**

**ABC Revamps Hollywood Staff**

AMOS BARON, manager of KABC Hollywood, ABC key am station, has been named general manager of KABC-TV succeeding Frank King, resigned. John Hansen, sales manager of KGO San Francisco, joins KABC in management post. Jim Beach, program director of ABC-TV Hollywood, also has resigned along with John Asher, KABC-TV sales promotion manager.

Kenneth B. Craig, former director of CBS Radio business affairs in Hollywood, was named to succeed Mr. Beach in ABC-TV program post. Mr. Asher joins CBS Radio in Hollywood as sales promotion manager.

Future plans of Mr. King and Mr. Beach were not announced as of last Friday.

**All-Day Religious Clinic Scheduled Today by NBC-TV**

NBC-TV will stage an all-day clinic in New York today (Monday) for 60 protestant ministers participating in a two-week religious radio and television conference, which began last Monday and continues through Friday.

The morning session of NBC-TV's clinic, devoted to technical aspects of broadcasting, will meet at RCA Institutes. The afternoon session will be held in the Johnny Victor Theatre and will be devoted to talks by NBC radio and television personnel. Speakers will include Edward Stanley, manager of public service programs; Doris Ann, supervisor of religious programs, NBC-TV; Marilyn Kiemmer, supervisor of religious programs, NBC Radio, and Martin Hoade, director of NBC-TV's Frontier of Faith program.

The workshop is sponsored by the Union Theological Seminary, the National Council of the Churches of Christ in the U. S. A., the Protestant Council of the City of New York and the World Committee for Christian Broadcasting.

**Bingham Has Close Call**

WADE BINGHAM, Far East bureau manager for CBS-TV Newsfilm, was reported as having had a "narrow escape" from death in Indo-China a fortnight ago when a land mine on the Haiphong-Hanoi road exploded 15 yards in front of the vehicle in which he was riding, destroying two French military trucks and killing one of the French drivers.

**Shawan Named to Head NBC Hollywood Press**

APPOINTMENT of Ralph (Casey) Shawhan, city editor of the Los Angeles Mirror for the past six years, as director of press and publicity for NBC Hollywood, effective Aug. 23, was announced last week by Sydney H. Eiges, NBC vice president for press and publicity. Leslie Raddatz continues as manager of the department. Mr. Shawhan, who started his newspaper career in Los Angeles in 1929, and spent five years with 50th Century-Fox as a publicist, will be in charge of an expanded publicity operation for network programs originating on the West Coast.

**Cy Howard Plans Own Firm**

WHEN his current contract with CBS-TV expires Aug. 21, Cy Howard, producer-writer-director, plans to form his own free-lance production firm in Hollywood, he revealed last fortnight. However, Mr. Howard will continue to produce a new filmed format of CBS-TV's My Friend Irma, to be called My Wife Irma, as well as That's My Boy for the network on a free-lance basis.

The reported reason for Mr. Howard's move was refusal of CBS-TV executives to allow outside independent assignments.

The new firm, to be activated shortly, will be called Cy Howard Productions.

**Cleghorn Elected by Gen. Teleradio**

ELECTION of John Cleghorn, general manager of WHBQ-AM-TV Memphis, which recently was acquired by General Teleradio Inc., as a vice president and member of board of directors of parent company announced Friday by Thomas F. O'Neill, GT president. Mr. Cleghorn, associated with broadcasting industry for past 25 years, has been general manager of WHBQ since 1949 and of WHBQ-TV since 1953 when the station went on air.

**Five Buy on 'Today,' 'Home'**

ORDERS from five clients for a total of 115 participations on NBC-TV's Today (Mon.-Fri., 7-9 a.m., EDT and CDT) and Home (Mon.-Fri., 11 a.m.-12 noon EDT) were announced last week.

Raleston-Purina Co., St. Louis, through Gardner Ad, there, 20 participations on Today, starting Oct. 4, and 19 on Home, starting Oct. 21; Armore & Co., Chicago, through John W. Shaw Ad, there, 10 participations on Today during the pre-Thanksgiving and pre-Christmas seasons for its porridge; Nebraska Consolidated Mills, Omaha (Duncan Hines mixes), through Gardner Ad, St. Louis, 81 participations on Today, to be seen in Central time zone only; The Meyer Co., Newton, Iowa, through McCann-Erickson, Chicago, 28 participations on Today, starting Aug. 4, and Swift & Co., Chicago, through McCann-Erickson, five participations during the pre-Thanksgiving period.

**WMTW (TV) to CBS-TV**

WMTW (TV) Mt. Washington, N. H., will join CBS-TV as a primary affiliate effective Aug. 15, it was announced last week by Herbert V. Akerberg, CBS-TV vice president in charge of station relations. The ch. 8 WMTW, with studios located in Poland, Me., is owned and operated by Mt. Washington TV Inc., with John H. Norton Jr. as station manager.

**Hutton on First 'Spectacular'**

BETTY HUTTON has been signed to star in "Satins and Spurs," an original musical comedy, which will be presented as the first of NBC-TV's 90-minute, Sunday color "Spectaculars" on Sept. 12, 7:30-9 p.m., EDT. Max Liebman will produce 26 of the 39 Sunday productions, including "Satins and Spurs," and of which all but six will be in color.

**Sothern in NBC-TV Color**

ANN SOTHERN has been selected to star in the first of Max Liebman's Saturday night series of 90-minute color productions and will appear in the leading role in Moss Hart's "Lady in the Dark" on NBC-TV, Sept. 25, 9-10:30 p.m., EDT. The series, which will be sponsored by the Oldsmobile Division of the General Motors Corp., will consist of one such production each month on Saturday night.
MBS REFUSES TIME TO PUBLISHER GORE

Wisconsin editor, given time to answer Fulton Lewis Jr. earlier in McCarthy dispute, is turned down at second request.

LEROY GORE, editor of the country weekly Sauk City-Frazee (Wis.) Star, was party to an equal time dispute that, in his mind, was lost.

Mr. Gore founded the "Joe Must Go" club in Wisconsin which sought the recall of Sen. Joseph R. McCarthy. In April, Mr. Gore asked for and received time on Fulton Lewis Jr.'s MBS stations to answer what he said was criticism made by the commentator [B&T, April 19].

A similar request by Mr. Gore last week brought a refusal from MBS. An MBS spokesman said: "After reviewing the text of Fulton Lewis Jr.'s program we feel they [remarks] constitute legitimate commentary and we believe there is no justification to Mr. Gore's request for equal time."

The new incident involved Mr. Lewis' July 23 broadcast which questioned Mr. Gore's motives in refusing to disclose the names of citizens who signed petitions for the recall of the Wisconsin Republican.

In Sauk City, Mr. Gore was quoted as saying Mr. Lewis' broadcast was a "malicious fabrication." The editor said he would confer with the FCC in Washington and had turned over the matter to his attorney.

Meanwhile, Jack C. McIntyre, vice-president and general manager, KLIX Twin Falls, Idaho, and MBS affiliate, reported that Mr. Gore had accepted a station offer of time to announce his program. Mr. Lewis also said he wired Thomas F. O'Neill, MBS president, that he was "very disturbed" at the equivalent time refusal.

"Lewis has been attacking this man repeatedly and many of your listeners feel this does not constitute 'legitimate comment' but rather vicious and malicious attacks. Common decency aside from FCC regulations dictates the necessity of your reversing your decision," Mr. McIntrye said in his protest to Mr. O'Neill.

Mr. McIntyre said he understood that other MBS affiliates which carry the Fulton Lewis Jr. commentary also would be offered the taped reply used by KLIX.

Claydor Morgan Dies; Publicist, NBC Executive

SERVICES were held in New York Wednesday for Claydor Tilden Morgan, 60, long-time assistant to president of NBC and a noted publicist, who died Monday after an illness of many months.

Mr. Morgan entered public relations after World War II, when he served overseas as a second lieutenant of infantry. He joined the publicity department of the French Line, where he remained as director of promotion and advertising until 1936 when he resigned to join NBC. His success in publicizing the maiden voyage of the Normandie built interest to such a pitch that newspapers got out extra editions as the ship neared its mooring in New York.

Mr. Morgan stayed at NBC until 1949, when he organized his own public relations firm. He subsequently handled public relations for Air France, French national airline. In 1940 he was named a Chevalier of the Legion of Honor for his service to France.

His wife, Ellen, died last January. He is survived by his mother, Mrs. Frank Bangham.

ABC-TV 'Smilin' Ed' Dies; Show to Continue on Film

FUNERAL SERVICES for James Edwin McConnell, 62, entertainer and host of Smilin' Ed's Gang over ABC-TV, were held last Wednesday in Corona Del Mar, Calif. Mr. McConnell died of a heart attack while on vacation July 24.

It was reported by ABC-TV that many of his shows filmed in advance for the new fall series will permit it to continue for a "considerable period of time" with the program, which will return to the air Aug. 21, will be presented on Saturday, 10:30-11 a.m. EDT. It will be sponsored by the Brown Shoe Co., St. Louis (Buster Brown shoes) through Leo Burnett Co., Chicago.

Hilton to CBS

ROBERT HILTON, since 1946 head of his own advertising agency, Robert Hilton Co., has been appointed assistant manager of sales development of CBS Radio Spot Sales, effective today (Monday). Before forming his agency, Mr. Hilton served with William Von Zehle Co., J. W. Pepper Co., BBDO and The Brooklyn Eagle.

Geismar Named Assistant To Bergmann at DuMont

RICHARD L. GEISMAR, for the past year business manager of the programming and production department of the DuMont Television Network, has been appointed administrative assistant to Ted Bergmann, managing director of the network, effective Aug. 1.

Mr. Geismar started with DuMont in the summer of 1948 when he was attending Rensselaer Polytechnic Institute.

He later studied at the Harvard Graduate School of Business Administration. After finishing school to summer of 1950, he joined DuMont full time as assistant to the budget director, becoming account manager in the sales department a year later.

During the political campaign of 1952, Mr. Geismar served DuMont as station and client liaison man. Since his appointment in July 1953 as assistant to James L. Caddigan, director of programming and production of the network, he has worked closely with agency executives, packagers and producers. As the department's business manager, he has handled the administrative end of the non-creative side of program operations.

Louis J. Arnold, most recently assistant to Mr. Geismar, succeeds him as the network's business manager. Mr. Arnold was television traffic supervisor of BBDO before joining DuMont.

Henry J. Opperman, a supervising producer at DuMont, has been promoted to the newly-created post of manager of program procurement. He has served the network since 1952, starting as an account executive with DuMont's WABD (TV) New York, and serving later as manager of the account managers group for the network sales department.

NETWORK PEOPLE

Robert J. Smith, head of own public relations firm and president, chain of weekly newspapers, to DuMont TV Network as account executive.

Richard H. Campbell, former advertising salesman for Parents and Collie's magazines, to NBC-TV Chicago sales staff as account executive, succeeding Charles Standard, transferred to New York network sales staff.

Paul Martin, account executive, KJH Hollywood, to Don Lee Broadcasting System, same city, as national sales contact, succeeding Art Mortensen, now manager, KFMB San Diego.

Hal Cranton, formerly assistant director of national promotion, BAB, appointed senior writer, NBC-TV sales presentations.

George E. Yonan, former continuity editor, ABC central div., to MBS midwest operations staff as representative for network co-op sales, also working on sales promotion.

Bill Stewart, assistant director, news and special events, KNXT (TV) Hollywood, to CBS-TV, same city, as publicist in press information department.

Jean Paul Masse to tv coordinator administrative assistant and Donald C. West to tv coordinator assistant, Canadian Broadcasting Corp., Ottawa; Peter A. Maggs to director of press and information assistant.

Virgil Finkley, editor and publisher, Los Angeles Mirror, signed by MBS to conduct news commentary (Mon-Fri., 10:15-10:30 p.m., EDT) starting Aug. 15.

Barney Miller, night news editor, Columbia Pacific Radio Network, Hollywood, named assistant director for news broadcasts.

Karl Hoffenberg, producer, NBC-TV Martha Raye Show, signs to produce program next season.

Worthington Miner, executive producer, NBC-TV, will direct Broadway production, Home is the Hero, and co-produce it with Theatre Guild.

Helen Traubel, opera, concert and night club singer, signed to contract by CBS-TV for exclusive rights to television appearances next season.

Mary Martin will star in first of Leland Hayward's Monday night color spectaculars on NBC-TV on Oct. 18 (8-9:30 p.m., EST), playing lead in three playlets of Noel Coward's Tonight at 8:30; David Niven, Joseph Cotten and Cyril Ritchard cast opposite Miss Martin in each playlet.

Arch Robb, NBC-TV director of color administration, bruised and his car demolished July 24 in an auto accident near Pickens, S. C. Mrs. Robb suffered two fractured ribs.
PATENT FOR 'G-LINE'

Operators of uhf outlets among those who may find advantages in surface wave transmission line invention.

BROADCASTERS and viewers will both benefit from the superior transmission qualities claimed for a surface wave transmission line for which a patent was issued Tuesday to George J. E. Goubau, of the Coles Signal Lab, U. S. Signal Corps, at Fort Monmouth, N. J., and assigned to Surface Conduction Inc., New York, which is handling the civilian uses of the invention.

As explained to B&T by Theodore Hafner, patent attorney and physicist, who represents Surface Conduction, the invention, called the "G-Line" for its inventor [B&T, Dec. 1, 1952], transmits energy on the surface of a single wire instead of inside a wire or between two wires as is usually done. This new method of transmission, he said, transmits energy with much less loss than either wires or coaxial cables, particularly in the uhf region.

Broadcasters, particularly operators of uhf tv stations, Mr. Hafner said, will find the "G-Line" of great value for use as a transmission line connecting the transmitter to the antenna. That's very important, he pointed out, as power lost here can never be regained. Of the two methods used now, he noted that coaxial cables reach only to frequencies of 200-300 mc and that wave guides, while very efficient, are also very expensive, costing about $30 a foot. With mass production, he said, it is expected that "G-Line" can be produced at 20% of this price ($6 a foot) or less.

"G-Line" is also being used, Mr. Hafner said, for lead-in wires from receiving antennas to tv sets, particularly for fringe area uhf reception. David Bogen & Co., manufacturers of uhf converters and other equipment, has been licensed to use "G-Line" in this work.

The new transmission line will also be valuable in the community antenna system field, he stated, where it can be used to connect the mountaintop antenna with the sets in the valley. The coaxial cable now in use is expensive both to install and to maintain, he said. Closed circuit connections between stations or theatres or for subscription tv are other potential uses of "G-Line," he said.

Perhaps the most important use of "G-Line," Mr. Hafner said, will be for long distance tv program transmission, supplementing the coaxial cable and microwave relay circuits now used for this purpose. Under mass production, "G-Line" could be installed for 10-15 cents a foot, or $300 to $750 a mile, he said, about the same for a 30-mile stretch as a radio relay link spanning the same distance. He emphasized that while a microwave radio relay link can transmit only one channel, "G-Line" is able to transmit 20 or 30 channels or 10 to 20 tv programs at the same time.

Secret of the ability of the "G-Line" to transmit energy with an extremely low power loss in comparison to other methods, Mr. Hafner said, is in the use of horns to focus the field of energy to a limited space surrounding the single line, thus to radiate energy as horns are normally used. The dimensions of the horns, as well as the thickness of the insulating material—polyethylene—around the line are gauged with great exactness to the wavelength of the signal being transmitted. This is a feat of delicate engineering, he said, as at frequencies of hundreds of megacycles a variation of a thousandth of an inch would alter the frequency being transmitted.

"G-Lines" cannot be stretched between towers as overhead wires or cables are, Mr. Hafner said, but must be suspended by nylon strings. Tests have demonstrated, however, that these strings are so impervious to weather and wind that they are an asset rather than a handicap, he explained. The "G-Line" itself, he said, is not affected by rain, but it is by ice, so de-icing elements would be needed for long distance transmission across cold areas.

Westinghouse Reports Record for Six Months

HIGHEST six-month sales and earnings in the history of Westinghouse Electric Corp. were reported last week by Ovlym A. Price, president, for the first half of 1954. Net sales billed were listed at $811,709,000, as compared with $780,489,000 for the first six months of 1953, and net income at $45,359,000, as against $33,560,000 for 1953.

It was noted by Mr. Price that net sales billed were 4% higher than those of 1953 and net income 27% over last year. He said that the higher volume of sales billed and more efficient use of plant facilities were significant factors in the improved earnings for the first half of the year. He indicated that continued high volume of sales during the second half is expected to result in an all-time sales record for the year.

Earnings per share in the first half of 1954 were reported at $2.75 on 16,117,026 shares of common stock, compared with $2.19 on 15,870,271 common shares outstanding a year ago, representing an increase of 25.6%. Earnings per share of sales for the first six months of the year, Mr. Price noted, were 5.6 cents, as against 4.6 cents for the same period a year ago.

 Provision for estimated federal taxes on income was said to amount to $54,300,000 in the first six months of 1954 and to $59,755,000 a year ago. Taxes per share of common stock during the first half of 1954 were 337.

In the second quarter of 1954, both net sales billed and earnings were reported as "slightly ahead" of the same period in 1953, with net sales of $405,172,000, as against $308,263,000 last year, and net income of $19,073,000, as against $18,802,000 last year.

Long-Life Batteries Claimed by Ohmart Corp.

OHMART Corp., Cincinnati, last week demonstrated a new three-electrode battery which the company claims will result in self-powered radio receivers, signal control devices, and similar devices that can operate for long periods of time—as much as 25 years—without attention.

The demonstration was held in New York under the auspices of Creative Frontiers Inc., a non-profit membership corporation serving as a clearing house for the release of scientific news during the early stages of scientific development. The organization plans to incorporate the story of new scientific developments into a tv series entitled "Creative Frontiers." The new atomic battery embodies a control element—the third electrode—which is said to make possible the varying of output current of the atomic battery. It was announced that the battery, which measures only 1/4 inches in diameter by 3 inches long, will be put on the market this fall.

Columbia, B&H Plan Recorders

COLUMBIA RECORDS Inc. and Bell & Howell Co. have joined together in a cooperative program to develop and market a line of tape recording equipment consisting of a table model and a portable unit, it was announced jointly last week by James B. Conkling, president of Columbia Records, and Charles H. Percy, president of Bell & Howell. Bell & Howell's DC division will manufacture and Columbia Records will sell the new line of tape recorders through authorized Columbia distributors in the music field.
Houston-Fearless Announces New TV Camera Cradle Head

DEVELOPMENT of a new cradle head which makes tilting and panning of tv cameras easier and smoother was announced last week by Houston-Fearless Corp. The degree of tilt ranges from 38 degrees down to 30 degrees up. Adjustable tilt drag is provided.

When the camera is tilted in either direction, the cradle rotates around a constant center of gravity, maintaining absolute balance at all times. The head "... rides on four phenolic-covered ball bearings mounted in the base, resulting in ... smooth ... silent movement." In panning, a vertical load is carried by two precision ball bearings in the case of the head, the announcement said.

Two models of the cradle head are available: one for standard monochrome, the other for RCA color tv cameras.

Magnavox to Hold Off On Color Tv for Present

MAGNAVOX Co., Fort Wayne, Ind., does not plan to place a color television set on the market at this time because "the industry is not ready with a marketable product," Frank Freimann, president, stated last week at a trade and press showing of the company's new line of television, radio and phonograph models in New York.

Mr. Freimann declared that 19-inch color tubes now being manufactured will be "obsolete even before they are placed on sale," pointing out that a 21-inch tube already has been announced. Mr. Freimann apparently was referring to CBS-Hytron's 19-inch tube announced earlier this month [BT, July 12] and RCA's promise of a 21-inch color tube by Sept. 15 [BT, July 19].

Mr. Freimann reported that the company's gross sales for the fiscal year ended June 30, 1954, amounted to $625,250 million, as compared with $57,979,000 in the previous year.

Magnavox's new television line included 21 different models, ranging in price from $149.50 for a 17-inch table model to $595 for a 27-inch receiver. The company also introduced its first table radio line, comprising four sets in wood cabinets and priced from $49.50 to $99.50.

RCA VOLUME HITS ALL-TIME RECORD

ALL-TIME record volume of sales of RCA products and services was reached during first half of 1954, with gross of $444,927,000, a gain of 5% over the $440,663,000 previous peak reached in the first six months of 1953, Brig. Gen. David Sarnoff, RCA board chairman, announced Thursday.

Earnings before taxes also hit a new high of $39,603,000 for the first six months of this year. Net profit after taxes for the period was $19,266,000, up 6% from the first half of 1953, when the net was $18,185,000. After payment of dividends on preferred stock, earnings on the common stock were $1.26 a share, compared with $1.18 a share for the first half of 1953.

Second-quarter RCA sales also reached a new high of $217,760,000, up 7% from the $202,679,000 gross for the like period of last year. Common share earnings for the quarter amounted to 60 cents, compared with 57 cents for the same quarter of 1953.

Sales Upswing Predicted For Tape Recorder Field

SALES of tape recorders will rise from $15 million to $100 million in a few years, with an average price of $200 and projected production of 500,000 units at the same average in 1953 and 275,000 at a price of $275 last year. Hallicrafters has entered the tape recorder field because of its rapid growth, Mr. Graver added.

RCA Reports Vicksburg Uhf Booster Successful

SUCCESSFUL operation of a tv booster station, which produced a Grade A signal in a uhf station's shadow area, was announced by RCA last week.

The experimental booster was operated in Vicksburg, Miss., 37 miles from ch. 25 WTVJ (TV) Jackson, Miss., and "shadowed" from the Jackson transmitter by a range of hills [BT, April 26].

Not only were the Vicksburg area signals boosted to Grade A proportions, RCA reported, but there was little interference between the direct transmission from WTVJ and that from the booster. The experimental booster used horizontally polarized transmissions, same as that used by the "mother" station. The experiment also included the use of vertical polarization.

The booster station was located on a bluff overlooking the historic Mississippi River community. It received direct signals from WTVJ, amplified them to 10 w and fed them into a highly directionalized antenna which hiked them to 1 kw for broadcast.

Dr. George H. Brown, David Sarnoff Re-
search Center, Princeton, N. J., developed the equipment. He also supervised the Vicksburg tests.

A detailed report of measurements of picture quality, and other factors is being prepared for submission to the FCC, T. A. Smith, RCA Engineering Products vice president and general manager, said.

**Westinghouse V. P. Predicts Color Boom**

COLOR tv sales will boom "in a couple of years," paralleling recent black-and-white set sales, predicted John M. McKibben, vice president and general manager of consumer products, Westinghouse Electric Corp., to radio-evil and appliance dealers at a Western Summer Market dinner-meeting in San Francisco last week.

Commenting on the future market, he pointed to estimates that the U. S. population will rise 21 million by 1963. "Market is people," he continued. "Ten years from now, we will have 6 million more families. That's like adding 25 cities the size of San Francisco, St. Louis or Washington."

**MANUFACTURING SHORTS**

Newcomb Audio Products Co., Hollywood, introduces the Compact 10, a complete single 10 watt amplifier, pre-amplifier and control unit weighing only nine pounds, for high-fidelity systems.

Califone Corp., Hollywood, Calif., announces new 1955 line of 15 portable phonographs, transcription players and sound systems, with a new emphasis on high fidelity in all models. Further information, including an eight-page catalog is available from the company, 1041 N. Sycamore Ave., Hollywood 38.

Audio Devices Inc., N. Y., announces type EP Audiotape, recording tape manufactured "with extra precision to meet the most exacting requirements in new fields of science and engineering." Details and prices are in Bulletin #117, which may be obtained from the company at 444 Madison Ave., New York 22.

Westinghouse Electric Corp., Pittsburgh, Pa., has announced it will build a multi-million-dollar sound laboratory and test center for transformers at its transformer div. plant, Sharon, Pa. Project is due to be ready by early next year.

Ballantine Labs, Boonton, N. J., announces Model 620 high-voltage multiplier, described as allowing measurement of terrestial potentials up to 60 kilovolts peak with all types of Ballantine voltmeters and with many other makes also, and serving as a potential divider with most CRO's for displaying high potential waveforms.

Hoffman Radio Corp., L. A., announces profits for first six months of 1954 have risen 17% to $818,083 from $697,320 for like 1953 period. Dividends for 1954 half-year rose to $1.15, compared to previous period's 98 cents. However, Hoffman executives disclosed tv set sales have declined somewhat during past fiscal year, with added income derived from increased government work and expiration of excess profits tax.

First public demonstration of the new Berlant Broadcast Recorder was held at the studios of Gotham Recording Corp., N. Y. Produced by Berlant Assoc., L. A., and marketed in the eastern area by Fisher Radio Corp., N. Y., new device is designed for use by radio stations, recording studios, churches and schools.

Hetherington Inc., Sharon Hill, Pa., announces new holding coil which performs functions of a relay plus two conventional switches. Designated Hetherington A1200 series holding coil switch, unit has built-in solenoid which holds the switch on contact until the solenoid circuit is externally interrupted, according to the company.

Clarke Instruments, div. of NEMS Inc., Silver Spring, Md., announces model TR-1 tv broadcast receiver for use in direct pickup and retransmission of tv signals. Receiver response extends to 4 mc and is adaptable to color reception without modification, according to the company. Additional information may be obtained from the company at 919 Jesup-Blair Dr. Telephone is Juniper 5-8300.

**MANUFACTURING PEOPLE**

Neal F. Harmon, sales manager, two-way radio equipment, General Electric Co., Syracuse, N. Y., appointed southwestern regional manager for communication equipment, head-quartered in Dallas; James D. Hehn, sales manager, special accounts, appointed sales manager for mobile communication equipment and special accounts; Wells R. Chaplin, district sales manager in St. Louis, replaced tv broadcast equipment, named to similar post in New York; Robert E. Lauterbach, district sales representative in Atlanta, succeeds Mr. Chaplin.

William W. Wexler, director, marketing research programs, Raytheon Mfg. Co., Waltham, Mass., appointed advertising and sales promotion manager, equipment sales division.

Robert G. Scott, manager of sales engineering, Cathode-Ray Tube Div., Allen B. DuMont Labs, named assistant sales manager; Thomas C. Flynn, formerly with publicity staff, David O. Alber Assoc., named public relations representatives; J. J. Baxter and Lawrence H. Arnold to Mobile Communications Dept., as sales and service representatives.

Richard A. Humphrey, active for past eight years in research on synthetic mica, appointed chief of research and development, Mycalex Corp. of America, Clifton, N. J., plant.

A. E. Casalho, director of market research, Crosley and Bendix home appliance division, Clifton Mfg. Co., N. Y., appointed director of marketing.

E. R. Sliger, vice president's market research stuff, Westinghouse Electric Tube Div., Pittsburgh, appointed newly-created assistant general sales manager of division.

Charles J. Merchand, Walter J. Brauer & Assoc., Cleveland (manufacturers' representatives), to Wallace's Telaides, Jamaica Plain, Mass., as sales manager.

Andrew H. Bergeson, U. S. Navy (retired), to Stromberg-Carlson Co., Rochester, N. Y., as consulting engineer.

S. S. Stevens, engineer in charge, antenna research and development lab, Douglas Aircraft, Long Beach, Calif., to Tubingen Assoc., L. A., electronic representatives, as consulting engineer.
Planning fall schedules? Remember...
The Southwest listens to WOAI!

If you want real coverage in the Southwest, use the truly effective, economical method...
WOAI! With this one advertising "buy" you get radio coverage throughout the Southwest... coverage that no combination of media can give you nearly as economically.
WOAI's 50,000 watt clear channel signal blankets the entire Southwest. And WOAI's combination of local and NBC programs are by far the most popular in its listening area.
For that fall schedule you're planning, get the lowest cost radio coverage of the Southwest by placing your advertising on...

NOW, for the first time 117 episodes of FOREIGN INTRIGUE, available direct from the producer to you for local and regional sponsorship. The outstanding adventure series in the television film field FOREIGN INTRIGUE is shot on location in Europe for unparalleled authenticity.

Seen throughout the country for the past three seasons FOREIGN INTRIGUE is a pre-sold product. It stands alone, acclaimed by both trade and general press — and loyally supported by the viewing public—as the pre-eminent TV film show of its type.

In addition to the 117 available FOREIGN INTRIGUE episodes, there is an entirely new group of films now before the cameras in Europe which will unveil a dramatically revamped format.

Prices for groups of 26, 39 and 52 films can be had upon request.

**Top 10 of WGN’s 75,000**

**FEATURES**

- High tv standards on a low budget. Page 78.
- Animation with slides. Page 79.

Here are some 75,000 transcriptions in the music library at WGN Chicago. Each week the station enlists the services of its listeners to pick the favorite 10 of those records.

It’s all part of Your Big 10 on WGN, a program idea which seems to have caught on in the Chicago area. A sort of Midwest Hit Parade, it reaches into downstate Illinois, the surrounding midwest states and all other points covered by the station’s clear channel signal.

The idea is credited to Saxie Dowell, a disc jockey who formerly was with the Hal Kemp band for 15 years. The top 10 are played on Mr. Dowell’s 9:05-10 p.m. show each Monday.

**All Disc M.C.’s Participate**

The other 11 WGN disc m.c.’s participate in the weekly survey through their own shows. They are Bill Albert, George Bauer, Buddy Black, Dick Coughlan, Howard Dorsey, Bill Evans, Jack Fuller, Jim Lounsbury, Jim Mills, Fred Reynolds and Ernie Simon. Altogether they receive anywhere from 700 to 1,000 listener votes each week.

WGN sent out a form letter to selected listeners to launch the drive, asking them to serve on a special committee. This course was designed to prevent fan clubs from sending in large blocs of votes for favorite performers.

A release on each week’s record choices is mailed out to over 300 persons, including record companies, music publishers and promotion experts, as well as the trade press and newspapers. WGN has printed some 500 counter or window displays, half for local distribution, half for downstate Illinois.

**No Tie-In with Record Stores**

There is no tie-in with record stores, but Bruce Dennis, WGN program director, feels it is to their advantage to feature the record choices as played by the station. He adds:

“The selections picked by our listeners usually run about three or four weeks ahead of the Hit Parade. We like to feel, furthermore, that our Big 10 is really closer to what people want here in the Midwest.”

The “Big 10” idea has been lauded by BMI’s Vice President Robert J. Burton and others interested “in the welfare of the music industry.” He wrote Mr. Dennis:

“It is indeed refreshing to see programs where listeners pick music on the basis of their choice instead of the usual run-of-the-mill program where a disc jockey or other person connected with the selection of music relies almost exclusively on trade paper charts which, even if accurate, can only reflect the opinion of a very small-sized group of professionals.”

How the small-budget station can keep tv standards high

by dan shields

the problem: bringing good live television out of a small budget. this is the puzzler which today confronts an increasing number of stations across the country, stations with limited equipment, personnel and capital. more often than not the solution falls to the producer.

until recently, dan shields was assistant program manager for WEEU-TV Reading, Pa. he now is with the tv film production department of the Biow Co., New York. while with WEEU-TV (and before that, WFMY-TV Greensboro, N. C.) Mr. Shields ran head-on into many of these problems. Here are some of his ideas on tackling them:

almost every format for a television show is wrapped around an idea or conglomeration of ideas. in developing an idea for our small station programming, the program or production manager, the talent, and the producer must keep several very important concepts in mind. first, keep it simple. simplicity is the key word in television. careful development of a single important idea is far more desirable than making one program try to put across six or seven ideas. strangely enough, it is sometimes easier to make a television show complex than it is to simplify it. all suggestions and ideas that are extraneous to the central theme should be mercilessly pruned. in the end result they will only complicate the production and confuse the viewer. the subject matter should be considered in relation to the time of the show, the expected audience, the adjacent programs, and the possible special appeal because of timeliness. for both professionals and non-professionals working on television, a rule of thumb is to sell one idea and to sell it well.

At this point we will assume that we have agreed upon a single good idea for the proposed program and that we have embellished and added only where necessary to further this central theme. it will be found that the program will divide itself into several natural parts or segments. to tie one segment to the next and to change or establish a mood, transitions are needed. they are an important part of a performance, and many times they can either make a program stand out or label it amateurish. if they are poor or missing, the pace will be dropped completely and the program must struggle to pick up the thread of interest and continuity again.

often the commercials are used to divide one segment from another, which is perfectly acceptable. however, the nature of the material in the commercial and in the program immediately before and after the commercial must be kept in harmony. juxtaposition of two incompatible elements can detract seriously from a production. a large network production comes to mind wherein an outstanding reporting job showing starvation and disease rampant in some blighted area was followed by a sales job for foods.

transitions are best when they too are simple. they can be photographs, film clips, miniatures, artwork symbols on slides or flipcards, or one or two individuals with dialogue. this can be placed very effectively in limbo. a musical bridge added to some visual cliche will add polish and movement to a transition. both the open and the close are in a sense transitions—changing from the previous program to something new and usually different. the beginning is important in that it sets the mood for the whole show and hopes to hold the channel-changer back. the close should leave the viewer with the thought, “well done,” coupled with a desire to see next week’s epic. time spent on these two important transitions is well worth the effort.

At this point in the life of our hypothetical program, we can draw up the format. there are generally two types of formats: one is the program structure which remains unchanged from show to show, and the other is the format of the particular show that is filling out the skeleton for this performance. in the budget-minded station with a tight schedule, generally the only format that will be written down is the standard weekly schedule. this will contain information as to the music and booth used for open and close, together with video instructions, the titles and their sequence, and will have notations as to which standard procedures shall be adhered to during the body of the show. this format will indicate the approximate length of each of the various segments of the show, where the commercials should be placed, and, if necessary, the various getout times for the segments. for instance, the format will tell the producer that all the acts of an amateur talent show must be concluded by twenty minutes into a show.

Once the format for his particular show has been determined, it is up to the producer to line up all the segments in his mind and to decide how much time to allot to each. it is at this time that all talent with specific acts, such as musical numbers, are timed with a stopwatch. this dry run will feature a producer-talent conference with all participating talent present. it is difficult to play a part in a production without knowing the total picture.

After the program is thus outlined and

the author at work

broadcasting • telecasting
The times blocked out, the producer can select the sets, scenery, props, and, if any, incidental music. In a large operation this would mean further conferences with musical directors and art directors. In our local operation this will mean pulling his own records, hammering together his own sets, and begging or borrowing whatever props are needed.

The first studio rehearsal will most likely be a dry run, i.e., there will be no hot mikes or cameras. However, the camermen should be included here if at all possible. They will be the people concerned with lensing the show, and they can forestall later complications by presence and cooperation. With the talent and the camermen, the producer then blocks the action of the segments and the transitions. Lighting is considered, and the audio man called in to determine mike placement, boom swing, and similar audio problems. All major bugs should be ironed out at this stage, such as boom shadow, getting cameras crossed or cornered, the time necessary for talent to get from one set to another. At the conclusion of this rehearsal, the crew should know pretty well what to expect during the whole show.

The "hot camera" rehearsal divides itself naturally into three parts. First, the producer runs through the individual segments on camera. Then he should have a camera rehearsal of the transitions. Finally, these will be put together and a full dress rehearsal run through, putting emphasis upon overall pace and timing. Ideally, this session should be the day of the show, usually a few hours or immediately before air time.

The above sequence of events is, in relation to larger operations, simple enough for any fairly elaborate production. However, it is realized that there will be many instances where it will be unnecessary or impossible for the producer to enjoy the luxury of the situation as outlined. For practical reasons, the show must go on with a very minimum of pre-air-time work. This puts the burden heavily upon the crew and the talent to take best advantage of what time there is for preparation for the show and the familiarity of a weekly format.

The talent, camermen, and audio man, as well as the producer, must be able to think two or three jumps ahead of the show, be able to act and react with lightning speed, and above all, keep a cool, almost objective, approach to the whole proceeding. For such limited preparation, the following steps are the most important and should never be glossed over or left out, even if the people concerned just make mental notes.

First, the program should be outlined in the producer's mind and the segments blocked for time. He will, of course, decide upon the set if it is not a standard backdrop. Prior to air time, he should discuss the action with the talent and camermen. Remember, camera movement is as integral a part of the action as movement of the talent and both should be worked out together. Camera movement is taken here to mean not only dollying and trucking, but also panning, tilting, and lens changes. At the same time, the producer should be working out in his mind the

**LOW-COST COMMERCIALS WITH ANIMATED SLIDES**

**Pull one lever on the projector and the screen shows a girl in the still transparencies starting to strut. Pull another and she starts to swing her hands. Move your hand back and forth over aperture of glass on the device and the picture becomes one of an atomic-like explosion.**

These effects of almost complete animation are produced from stills projected on a device called the H-R Cellomatic, which its proud and youthful inventors claim can fulfill the same purposes as TV film and live commercials at approximately half the cost.

Four years ago Tom Howell and Milt Rogin worked as commercial artists at the same advertising agency and learned they had a mutual interest: a fascination for television. In bull-sessions together, they tossed around ideas on the application of commercial art to the medium. Out of these discussions came the decision to form their own art studio devoted full-time to television, namely Howell-Rogin Studios, New York.

The deeper they became immersed in television commercial art, the more they became convinced that a method should be devised to provide animation for commercials and other programming more cheaply than by standard techniques. Although neither Mr. Howell nor Mr. Rogin had any previous background in mechanics or optics, they spent hours upon hours studying technical data on these subjects. Three years ago they turned over their plans for a device to a projection manufacturing company in New York. Together with engineers and technicians there, they worked out the principles for the first machine, called the H-R Animator. The current improved model is protected by forty-odd patents held by Messrs. Howell and Rogin.

The Cellomatic is a portable unit resembling a kitchen range and weighing under 300 pounds. It has its own self-contained screen and projector and an installed optical effects system, and can project blown-up pictures up to six-by-eight feet.

Because the Cellomatic projects the required picture on its own screen, only a single television camera is required to pick up the picture. Its inventors contend that in this phase of TV operation alone advertisers can expect substantia savings.

"You can imagine the value of this machine," Mr. Howell explains, "when you consider that it produces effects which heretofore required a battery of telecameras, such as wipes, superimpositions, round and square iris, vertical and horizontal claw, instantaneous cuts and lap dissolves." Mr. Rogin contends Cellomatic provides "the closest thing to complete animation ever devised."

The present model, Mr. Rogin adds, represents considerable improvement over the Animator introduced three years ago and still is "by no means the last word." Machines now under construction embody 14 new improvements.

The machine is color-corrected for color television and was used on the first color telecast of NBC-TV's Camel News Caravan. Mr. Howell notes that NBC-TV executives credited it with having solved "difficult color problems."

Messrs. Howell and Rogin have come up with an impressive list of clients. Currently, NBC-TV has exclusive rights to the machine for special events, current events and news programs, but otherwise it is available for rental by all TV networks and advertising agencies.

Among the television programs that have used Cellomatic for animation, Mr. Howell reports, are NBC-TV's Judge for Yourself, Two for the Money, Show of Shows and Goodyear Playhouse; CBS-TV's Beat the Clock, Omnibus, Man Behind the Badge and Tommy Dorsey Show, and DuMont's Chance of a Lifetime.

The machine currently is available for rental only in the New York metropolitan area. The cost is $85 for weekday use, $100 for Sunday, including the services of a trained operator. Howell-Rogin is geared to provide art service, including typography, at additional cost, but a client with his own facilities for art work still may lease the machine.

Messrs. Howell and Rogin have seen their enterprise grow from a two-by-four office set up with borrowed money to a firm employing 19 and occupying a suite of seven offices. They currently own six Cellomatic projectors. Others under construction will raise the total to 11 by October. They ardently believe that their brain-child will have a revolutionary effect on the film animation field, and they see widespread application for it in a host of enterprises.

"For a couple of the Rube Goldberg characters we can't even explain," Mr. Howell comments. "And don't forget—our machine works!"

RADIO FILLS JOBS

KOMO’s ‘Jobfinder’ is winning public service laurels for filling Washington civil service job openings.

A TWO-WAY public service radio program—one which both informs listeners of jobs to be had and provides prospects for job vacancies in two civil service organizations in the state of Washington—is enjoying a prolonged success on KOMO Seattle.

The weekly Jobfinder was conceived and put into action some nine months ago by Reg Miller, KOMO public service manager, with the cooperation of Fred Patterson, KOMO program director.

Mr. Miller, whose experience also includes several years as a newspaper and announcer on KJR Seattle, became public service manager of KOMO in May 1953. One of the first things he noticed were the “run-of-the-mill” announcements listing job vacancies in the Seattle Civil Service Commission, the Washington State Personnel Board and the U.S. Civil Service Commission.

From his experience as a newspaperman, Mr. Miller knew most of the announcements went into the waste basket, largely because, as he puts it, they were not suitable for spot announcements and could not be rewritten for newscasts without being made into feature stories. Besides, he says, there were plenty of other worthy organizations that needed what free time KOMO had to spare.

Worried about KOMO’s inability to help these groups, Mr. Miller soon hit upon an idea which he thought would perform this service and at the same time provide the station with a public service show both interesting and informative. He suggested to the city and state groups that KOMO would furnish an announcer to write and give voice to the proposed Jobfinder program, provided the civil service groups would pay a reasonable talent fee for the announcer’s extra time.

The two organizations also agreed that KOMO could air, as they came in, various announcements from the Washington State Employment Service and other governmental agencies regarding employment.

Mr. Miller also realized that the program would have to be a public relations job. The public seemed reticent to apply for city and state jobs for several reasons: lack of knowledge of the job itself, or how to apply; fear that changing politics might endanger job security; fear of taking examinations, and misconceptions that wages were too low and that to have a city or state job was to admit failure in getting anything better.

Requirements for Jobfinder were that it (1) inform the public on job openings and the type of job and (2) point out the advantages of civil service work, such as good working conditions, fair wages, retirement and better security than most other types of employment.

The Jobfinder program, written and announced by Merrill Ash, KOMO newscaster, not only carries information about civil service jobs, but also provides prospects for job openings on KOMO. Some 450 applicants answered an announcement for a typist’s position and some hard-to-fill jobs have been filled through the program, says Mr. Miller. The U. of Washington has indicated the program is attracting interest on the campus. Responses have come from all over Washington and Oregon and from California, Nevada and Canada.

Spot announcements on city and state jobs also are being telecast on affiliated KOMO-TV.

KOMO has received letters of appreciation from the Seattle Civil Service Commission, the Washington State Personnel Board and the Puget Sound Chapter, American Assn. of Social Workers. The U.S. Civil Service Commission also has indicated an interest in the program, and will be welcome if it can find a way to participate, says Mr. Miller.

Roy A. Palm, secretary of the Seattle Civil Service Commission, has reported to Mr. Miller that the KOMO Jobfinder program has given the city a higher level of employe and has given the public a much clearer conception of the variety and importance of the work done by the various city departments.

LOCAL, LIVE and INEXPENSIVE

(Continued from page 79)

sequence of camera shots. Actual camera rehearsal may be non-existent, but if there is any, first consideration should be given to the all-important transitions, and any drastic or unusual movements. Standard cut and dried sequences can usually be handled without previous rehearsal if necessary by a competent crew. Finally, thought must be given to mise-en-scène for each sequence. More than once a producer who has forgotten “the other half” of tv has been caught with a sequence starting out with no mike—and a ruined show.

At this point in our discussion, a word about camera work is appropriate. As in all television production discussed here, simplicity is again the keyword. Both the cameraman and the producer should keep in mind the total picture presented when lining up shots or planning camera movement. Since many individual shots are not set up ahead of time, the cameraman must be able to follow the meaning of the show and pick his shots accordingly. He must always be looking for a new or better camera angle. All camera changes and camera movement should have some motivation, otherwise they become meaningless. This is perhaps the greatest fault of local station personnel. Fascinated with the equipment and its possibilities, and eager to do a job, the crew frequently overproduces camera work and switching. Meaningless camera movements are made too frequently. Slight imperfections in a dolly or truck do not look too noticeable on the cameraman’s seven-inch monitor, but they become very prominent on the viewer’s 21-inch set. In like manner, the relatively new producer will sometimes cut back and forth at a pace incongruous to that of the show and with little meaning or advantage to the viewer. Camerawork that becomes obvious has detracted from the content of the show and is therefore without purpose—a detriment. At its best, camerawork is subversive to the subject being viewed—not a showcase for a hot cameraman. On a one-camera show, the cameraman, of course, has the live production in his own hands. The producer merely switches in and out of whatever slides and film are called for and watches timing. He will also advise his creative interpretation of the camerawork as it is happening: watching a monitor in the control room is a different subjective reaction to the show from working the camera(s).

By air time, the television show should be completely mapped out in the mind of everyone connected with the show. This is an obvious fact, but one that is amazingly overlooked at times. While the show is on the air, the producer is the originator of all cues, timing, and talent or camera movement... either directly or through the floor manager. If there is no floor manager, floor cues are usually given by each cameraman or the boom operator. The producer during the show should not have to explain in detail what to do—just when to do it.

His commands should be clear, concise and non-emotional. As in the Army, commands over the order wire should be in two parts always—the command of preparation...
Cities Service aims its big guns...

Acres of casing are mobilized in readiness at a well site. Last year an average of 1\(\frac{1}{3}\) producing wells were drilled every day by

CITIES SERVICE
A Growth Company
tion first, followed by the command of execution. Even when the producer himself does the job—such as switching—he should give all commands as if he were telling others what to do. The members of the crew will know exactly what is going on, and better teamwork will result. In giving commands to others, the producer will always give the man time to prepare for the action desired. This time lag will depend upon what is wanted, however it is not necessarily, as well as the ability of the man doing the job. The wise producer, in lining up his camera shots, will always have a cover shot ready, or immediately available if that cannot be achieved. This can always save him if something unexpected turns up. A person speaking out of turn, unplanned audio or video adlib from both human and non-human subjects—all can be lost entirely if a cover is not almost immediately ready to catch any and all action.

The producer, working three shots ahead whenever possible, anticipates the action. When he is on camera one, for instance, he is planning the next shot for camera one, having already set up the next shot for camera two. When this is not possible, the producer must then depend upon the ability of his studio crew to get what is needed without being told.

Live television in the small market is a different species from the network show. The crew is a small group of men working together on a great variety of shows. Whereas large market television production is highly specialized and categorized, small stations operate best with personnel having wide interests and many talents.

Time and manpower are always short, and careful planning in the idea stages of a program series can avoid later headaches. Keeping everything as simple as possible helps cut down the possibility of error and usually results in a better show.

There always will be the problem of the client who sees an elaborate production on network and demands a similar job from the overworked local station, and the public service groups who cannot recognize the requirements of the medium. But patience, ingenuity, and a long, hard educational job can help convince the worst offenders. The viewer, after all, is looking for entertainment, and if he can be given a good idea wrapped in a clean format and production and handled by relaxed talent with a sense of showmanship, he will be entertained.

**Pulcitutude on WPEN**

WPEN Philadelphia reports a "history-making" 80-hour introduction and promotion of the local run-off of the Miss Universe contest, the first time, the station claims, a promotion of this type was planned, announced and conducted in less than 100 hours. The actual judging of the contest was conducted on the air and the idea was to enter the studios were so large that the station had to supply street amplification for the overflow. Sponsors of the Miss Eastern Pennsylvania division of the contest pledged the station, stating it would have been impossible for them to have conducted it without WPEN's cooperation.

**WPPO-TV JIGSAW PUZZLE**

A TELEVISION jigsw puzzle has been launched with considerable success over WPPO-TV Cincinnati, that station reports. The contest, "Who's it? What's it?" consists of a scrambled picture each weekday, which is flashed on the screen some five times a day at unscheduled times, and viewers are asked to provide identification. Over 2,400 entries were received in the first week's contest and incomplete tabulations for the second week indicate an even greater number of entries. Thirty prizes weekly are awarded to puzzle winners, who send in their five identifications at the end of the week. WPPO-TV says that in addition to providing summer fare, the program acquaints viewers with local and network personalities (thus far used for scrambled pictures) and gives the family a chance to enjoy a quiz by participating in it themselves.

**INTEREST RISE BROADCAST**

SURPRISE announcement of a bank interest increase from 2½ to 3% was made on the 11 p.m. news over WGAR Cleveland. C. W. Grove, president of the Second Federal Savings & Loan Assn. in that city, handled the announcing for commercial on the bank's sponsored program and immediately following his announcement, according to WGAR, most of the city's savings and loan associations followed suit with interest rises. It is also claimed that for three days following the WGAR announcement, Second Federal set a record for new deposits.

**TV LISTINGS TIE-UP**

WPEN Philadelphia, in a bid to catch the TV viewers who are among the late-stay-uppers, has contracted with the Philadelphia Inquirer to close out the TV page listings in that paper every day with small boxes which promote the station's new all night program format. After the listing of the last TV show, readers are advised to tune to 950 "the long night thru." The new program format starts at 10 p.m. and according to WPEN, it has attracted large studio crowds until 5 a.m.

**WLWT (TV) MONKEY BUSINESS**

WLWT (TV) Cincinnati began a recent promotion contest by announcing that a "world traveler" was to soon visit that station's studios. For a week, viewer suspense was built up by "telegrams" from "Mr. X" from the African West Coast, Rome, London, Newfoundland and New York City. Finally, on July 12 the weary, wayward wanderer arrived in a long, black limousine, complete with a motorcycle escort—straight from the Cincinnati Zoo. The VIP was a trained two-year-old chimpanzee, coming to make his TV debut on the Walter Phillips Show. At the same time WLWT announced its "Name the Chimp" contest. People are asked to submit names for the chimpanzee and the person sending in the best suggestion is to be awarded the chimpanzee. Over 100 additional prizes will be awarded.

**'BUSINESS AIDS BULLETINS'**

WCUE Akron, Ohio, reports an enthusiastic response to its special monthly promotional bulletins sent to advertisers and publicity agents. "Business AIDS Bulletins" are prepared by the J. K. Lasser organization and distributed by the Benjamin Agency, New York, and contain helpful information on business and personal taxes. Over 400 copies of the bulletins go to the station in the Akron area. "Business AIDS Bulletins" is similar to a news letter and at the same time offers WCUE an opportunity to make a subtle sales pitch to advertisers in a front page box. Stations contract with the Benjamin Agency on a territorial basis for exclusive distribution rights; they provide the agency with about 75 words of rough copy for advertising purposes. A great deal of favorable comment from those receiving the reports is claimed by WCUE.

**WARL 'LAWN PARTY'**

HILLBILLY fans in the Washington, D. C., area now have their own version of Grand Ole Opry with WARL Arlington, Va., conducting during the summer months a two-and-one-half hour hillbilly frolic every Saturday night. The Lawn Party, as the shindig is known, is held on an acre of ground behind the station's studios and is broadcast during its entirety. The whole affair is free, including refreshments which are products of, and supplied by, WARL advertisers. According to the station, Lawn Party attracts people from six states and the District of Columbia.

**'MONEY NUMBERS' EXTENDED**

WOW New York reported last week that it has extended its "Musical Money Numbers" promotion to its early morning Wake Up New York Show (Mon.-Sat., 6:30-8:30 a.m. EDT). Listeners may participate in this feature by sending in requests for musical numbers. As an unannounced intervals on both the early-morning and late-evening broadcasts, some of the requests will become "Musical Money Numbers." The standard prize is from $1 to $9.99, but occasionally the top figure is doubled and tripled. It was pointed out by a station spokesman that payoff checks to winners are accumulated by a bank in the purchase of WOW-advertised products.

**WMTV (TV) 'KICKLESS COKE'**

WMTV (TV) Poland, Me., is sending to advertisers and agencies a Coca-Cola bottle with a card attached stating "You won't pitch to advertisers in a front page box. Stations contract with the Benjamin Agency on a territorial basis for exclusive distribution rights; they provide the agency with about 75 words of rough copy for advertising purposes. A great deal of favorable comment from those receiving the reports is claimed by WCUE.
Only STEEL can do so many jobs so well

Hung by the Heels. This new diagnostic X-ray machine makes it possible to hang a patient by the heels while a fluid that is opaque to X-rays is injected into her spine, and travels slowly down toward her head as the doctor fluoroscopes her spine in the search for a possible tumor. The support for the huge geared ring on which the X-ray table is mounted, as well as most of the sheet steel panels used on this unit, is made from USS Steel.

Modern Guillotine. Cutting loose a guided missile from the launching sled, or severing the cables and tubing between various elements of a multi-stage missile, presents a number of problems. But this explosive driven chopper, which can be actuated by remote control, and makes a clean, fast parting of wires and cables, helps solve some of them. The case-hardened steel knife blade in the device is of USS Steel.

Ever See a Skew Bascule Bridge? This is one, crossing at a 45° angle over Miami Canal in Miami, Florida, at S.E. 4th Avenue. Like its mate, built at N.E. 36th Street, it is floored with I-Beam-Lok Open Steel Flooring, made by U.S. Steel. The use of this flooring saved 375 tons of deadweight! This bridge recently received the A.I.S.C. award for the most beautiful bridge of its class.

Roof Raised in a Hurry. 260 tons of USS Structural Steel went up in just 25 days for the roof of this new Municipal Civic Auditorium in Corpus Christi, Tex. “Lamella” construction was used ... a kind of on-the-bias system with diamond-shaped areas between intersecting members. Only steel can do so many jobs so well.

CBS FILM 'TOUGH GUY'

"I'm Jeff Jones. I shoot at... Audiences... Clients... Results... And I get 'em! That comes straight from the tough guy's mouth in CBS Television Film Sales Inc.'s promotion piece designed to sell its 39 half-hour mystery series Files of Jeffrey Jones. The gimmick is a 7" x 5" folding card with an outline of Jeff Jones on the front, which stands open while he "smokes" and "shoots." Miniature "cigarettes" are inserted into mouth and gun holes in the card and Jeff puffs white clouds of smoke while telling you about himself and where to get in touch with a CBS Television Film Sales Inc. office for the "full story."

NBC-TV 'DREAM RACE' COVERAGE

AS PART of its exclusive telecast in the United States of the Roger Bannister-Jack Landy "Dream Race" at the Empire Games in Vancouver, B. C., Aug. 7, NBC-TV will present a full-hour program originating in New York and Vancouver at 5-6 p.m., EDT, featuring outstanding personalities in American sports. Messrs. Bannister and Landy both have run the mile in less than four minutes.

WSJS-TV 'RICH MARKET'

WSJS-TV Winston-Salem, N. C., is sending to advertisers and agencies a brochure titled "North Carolina's Golden Triangle... Pivot for more than a million people with more than 1½ billion dollars to spend!" The triangle is the station's home city, Greensboro and High Point in Forsyth and Guilford counties and the people and money are in WSJS-TV's claimed 24-county coverage area. Detailed information and statistics about WSJS-TV's market are contained in the gold and black illustrated folder. The station is currently working to increase ERP to a maximum 316 kW and is now equipped to transmit network color programs.

CONEY ISLAND RECORD

NEW ATTENDANCE record for a weekday night at Coney Island was set during WCBS New York's "Fireworks Night" July 20, according to the station. More than 600,000 people were on hand to greet station personalities, including Jack Sterling, Lanny Ross, Herman Hickman and John Henry Faulk, who made personal appearances around the island. A promotional campaign on behalf of the event was carried out by WCBS and the Coney Island Chamber of Commerce, who were co-sponsors along with the F. & M. Brewing Co., Brooklyn.

WFBR IS HOST TO ESso

WFBR Baltimore's Studio A-scene of the station's daily audience participation show, Club 1300—was used recently by Esso Standard Oil Co., when that company transported more than 500 employees from its Baltimore, Washington and Inland Waterway districts there for a special meeting. Arranged through the cooperation of Robert B. Jones Jr., vice president and general manager of the station, and C. A. Newland, Baltimore division manager of Standard Oil, the meeting was designed primarily to educate Esso employees on the selling points of their products. Movies, sound effects and spotlights highlighted the "Total Selling Power" theme and the program was climaxd by the appearance of Jim Boles, radio and tv actor, in the guise of Diogenes seeking an "honest answer to advertising claims."

KUAM AGANA'S 'PICTORIAL'

KUAM Agana, Guam, the first commercial broadcasting venture in an area of over three million square miles (bounded by the Philippine, Hawaiian, Aleutian and Australian islands) has started publication of KUAM Pictorial, a bi-monthly magazine designed to promote the station. The magazine, prepared by station owner-operator Harry Egel, with the assistance of Berkeley, Calif., publisher Bern Porter, gives pictorial feature coverage to civilian, military and local governmental activities on Guam, as well as acquainting readers of KUAM's role in the island's economy.

GOMEZ ON WKNB-TV SHOW

VERN ON "LEFTY" GOMEZ, former baseball star, has launched his own television show over WKNB-TV (ch. 3B) New Britain, Conn., according to Peter B. Kenney, station general manager. Mr. Gomez is sports director of the station. On his Lefty Gomez Show the former Yankee star interviews sports personalities, spins human interest yarns about sports greats, analyzes scores and other developments in athletics. Sponsored by Country Club Malt...
Just about everything ... 
... and anything ... you need to know about television is contained in the TELECASTING Yearbook and Marketbook. Its 500 pages, fully indexed, contain tv business data available in no other single source.

1954-55 TELECASTING Yearbook and Marketbook will be published in August. The cost is $5.00 per copy. Or you may receive this 500-page volume and 52 weekly issues of BROADCASTING • TELECASTING for only $9.00.
Radio Proves Its Potency in Pierce Promotions

"RADIO remains a potent merchandising medium which is far from being on its last legs," asserted Eugene MacArthur, account executive of Harold Cabot & Co., Boston, agency for S. S. Pierce Co., Boston grocer and importer, as a result of the latter's two radio promotions.

S. S. Pierce sponsors the Charles Ashley quarter-hour news show three times weekly at 7:30 a.m. on WEEI Boston. For six shows during the weeks of June 7 and 14 a test offer was made of a free copy of the firm's house organ, The Epicure, and a "surprise." The response to the offer was over 3,000 requests for The Epicure and the "surprise," which turned out to be a coupon good for a one-pound tin of S. S. Pierce Red Label Coffee ($1.33) with every purchase of $5 or more of S. S. Pierce brand foods in the company's eight retail stores. Several hundred coupons already have been redeemed. Requests came from places as far from Boston as Maryland and Canada, as well as every section in New England. The number of requests is considered exceptional for a one-station promotion in this area, Mr. MacArthur said.

The other promotion was handled during the week of June 21, when three broadcasts advertised four-pound pre-cooked chickens in tins for $1.62. Sales tripled during the week compared with a similar week last year when the chickens were on sale without any radio promotion.

Sales of 1,250 tins were directly traceable at retail to the radio promotion. This amount meant that the radio time cost was less than 20% of gross additional sales and less than 10% of overall gross sales.

In addition, although the promotion was aimed only at consumers, many of the over 700 dealers in New England who carry S. S. Pierce brands ordered the tinned chicken in quantity, asking for the "radio chicken."

As a result of the success of the two promotions, S. S. Pierce will extend its use of radio in the future, Mr. MacArthur said. Every week, a radio "leader," similar to the chicken, will be offered. Dealers will be notified two weeks in advance of what the radio special will be and what price the radio commercials will quote. Pierce will provide point-of-sale aids so that dealers can tie in directly the radio promotion with in-store displays.

Liquor, the show has already produced a phenomenal amount of fan mail," says Mr. Kenney.

HOLE-IN-ONE AWARDS

WXYZ-AM-TV Detroit, Mich., in the interest of golf in that area, plans to publicize all hole-in-one made in a regulation round of golf on a regulation course since July 1 of this year. A sterling silver belt buckle will be awarded by the station to every man or woman who makes an "ace," complete with that person's name, the name of the club and date of the score engraved on it. All resident golfers in the station coverage area will be eligible to receive the buckle. The pro or manager of each club will confirm all hole-in-one made on his course by submitting an attested card signed by members of the party.

GOP MEETING BROADCAST

LIVE broadcast of county Republican Committee endorsement meeting, which was styled after state and national conventions, was carried by WALL Middletown, N. Y., a "first" that station claims, in Orange County. The event ran three hours with WALL's mikes picking up all the speeches and the endorse balloting. During routine portions of the meeting, newsmen commented on highlights, interviewed candidates and invited other reporters to participate in the broadcast, which lasted until midnight. The station reports favorable comments from listeners most of whom follow the program from beginning until end.

NO CANE NECESSARY

ANY PERSON in the Trenton, N. J., area needing rest or relaxation may join the "Sittin', Starin' and Rockin' Club" of disc m.c. Wes Hopkins of WTTM that city. The only requi-

CJON USES TELEPHONE BOOK

CJON St. John's, Nfld., lists its principal newscasts and a calendar on the back pages of St. John's and nearby telephone books. Station reports the calendar keeps people turning to the telephone book thus seeing the station's advertising.

'ZOO PARADE' IN PRINT

NBC-TV's Zoo Parade has been adapted to print as a weekly newspaper column being offered by Newspaper Features Syndicate Inc., Chicago. Marlin Perkins, conductor of the zoological series, writes the feature, now appearing in 12 major metropolitan papers. The newspaper adaptation consists of a column of copy plus a line drawing. Some papers add elaborate layouts and photos from the Sunday tv series.

WNYC JOURNALISM STUDY

WNYC-AM-FM New York featured leading American critics and journalists among the participants in its Press Perspective series, a detailed examination of American journalism, broadcast in a number of special programs during the week of July 25. A 30th anniversary jubilee event, the series is the sixth of ten "festivals" scheduled for 1954 in celebration of the station's founding in 1924. The purpose of the programs, defined by Seymour N. Siegel, director of radio communications for New York City, was to examine the 'vital aspect of our democratic heritage' and "the history, function, influence and role of the press" with critical objectivity.

WTRF-TV BRINGS CLOWN

MORE than 6,000 persons crowded into the streets of Wheeling, W. Va., recently to see Clarabel, the clown featured on NBC-TV's Howdy Doody, present free shows there. Clarabel appeared through the cooperation of WTRF-TV that city and the Retail Merchants
SIX SHOWS NAMED BY ‘SAT. REVIEW’

Public interests awards go to broadcast programs along with citations to others in advertising and allied fields.

SIX radio and television shows last week were selected by the Saturday Review in announcing its Second Annual Distinguished Advertising in the Public Interest. In all, 26 major corporations and industry associations were honored.

The radio and television programs selected, networks, sponsors, and citations, follow:

**SEE IT NOW, CBS-TV, Aluminum Co. of America.**

(For responsible journalism with fine institutional commercials. The sponsor has scrupulously maintained the highest public relations and advertiser relations. The station’s recent work has become the best possible advertising in the public interest.)

**OMNIBUS, CBS-TV, Greyhound Bus Co., Scott Paper Co., American Machine & Foundry Co., Kalmarin.**

(For distinguished presentation of fine music by fine artists.)

**50TH ANNIVERSARY SHOW, CBS-TV, NBC-TV, Ford Motor Co.**

(For superb taste in presenting light, entertaining Americana on a national scale with no overt commercialism.)

**DING DONG SCHOLL, NBC-TV, General Mills.**

(For genuinely motivated and socially constructive pre-school age show.)

The following programs were runners-up:

**VOICE OF FIRESTONE, NBC, NBC-TV, Firestone Tire and Rubber Co. (now ABC, ABC-TV).**

(For faithfully adhering to the standard of making available to the public, at a choice evening hour, the finest musical artists in a repertoire from the light classics and especially for galantry above and beyond the call of a sponsor’s duty, in maintaining this standard even at the cost of its place affect more than 30,000 viewers to the NBC program schedule, and a resultant shift to the ABC schedule.)

**THEATRE GUILD OF THE AIR, ABC-TV, United States Steel.**

(For consistent production excellence with high-level commercials.)

**HAMLET, MACBETH AND THE NIGHT VISIT, NBC and others.**

(For magnificent acting by first-rate London and New York cast, and Hallmark Greeting Cards.)

**(For giving producers and players an opportunity to create serious and impressive works, original or classic for honorable successes and for honorable mistakes.)**

SAARLAND PIONEERS COMMERCIAL TV

European region's video will be counterpart of U. S. system.

SAARLAND, the small independent region between West Germany and France, is on its way to become Europe's first area with fullscale commercial television [BWT, June 21].

Saarland television was launched early this year by Saarländische Fernseh A. G. and has since been operated under the name SAARLAND of Telesaar.

Telesaar has a weekly schedule of 16 hours, including 10 to 11 hours of feature films. Total weekly operation costs are from $23,800 to $28,270, and only small revenue is coming in yet from spot advertisements. This is due to the small power of the provisional transmitter which covers only the area of the town of Saarbruecken.

However, a second much more powerful transmitter will be constructed shortly. It will be at the Felsberg Mountain near Saarlouis, and according to the Stockholm European Frequency Plan the station will have a power of 100 kw.

The power of 100 kw will make Telesaar the only international commercial television station in Europe. It will reach well into France, West Germany and Luxembourg besides covering all of the Saarland.

A major stumbling block yet to be overcome by Telesaar is the different technical television systems used in France and Germany. While West Germany has adopted the 615-line system, France is using 819 lines.

Technically speaking, the problem of the two different systems can be solved by a simple adapter which actually is in use in some cases in the Saarland where both French and German stations can be received.

Up to now Telesaar has used the 819-line system but it is very likely that the company will do something about its 615-line audience in West Germany when the 100 kw station starts operations.

Telesaar has been seeking close connections to a television station project in Monte Carlo, Monaco. Monaco is the smallest independent European country, and there are plans to set up another continental commercial television station there soon. Close cooperation of the two stations has been promoted by Television Europeenne, Paris, France, a private company which is active in various fields of commercial television.

Shareholders of Telesaar are a group of 15 French, Belgian and American businessmen. The company is capitalized at about $43,000, and there are close connections to Radio Reklame G.m.b.H., a Saarland advertising agency which has sole radio and advertising rights at the Saar radio stations, and the Saarländische Rundfunkverwaltung which is a semi-official body running the Saar radio stations.

Canadian Viewing Report
Shows U.S. Shows on Top

AMERICAN network and film shows, with local and network sports, ranked most popular with television viewers in the first week of July in most parts of Canada, according to the Teleratings report of Elliott-Haynes CANADA Ltd., Toronto.

In the Toronto-Niagara district, where three stations now compete for the most densely saturated tv set audience in Canada (about half the sets in the country), WBEN-TV Buffalo still maintained the largest percentage of the audience. Top shows seen by Canadians on the Buffalo station were Top Plays of 1954 rating 57.1, Truth or Consequences 54.6, Kraft Theatre 51.8, Premier Theatre 49.9 and Summer Playhouse 48.3.

On CBUT (TV) Toronto, the top shows were Toast of the Town 34.5, Four Star Playhouse 27.9, Times Square Playhouse 24.9, Ladies Fantasy 24.3 (Canadian) and Our Miss Brooks 22.9. On CFCF-TV Hamilton, the top shows were Chills 14.3, Feature Film 13.6, Charlie Chan Theatre 12.2, Inner Sanctum 11 and Kraft Theatre 10.9.

In Montreal, with both English and French stations, top programs on CBMT (TV) (English) were Four Star Playhouse 81.4, Toast of the Town 79.9, Life with Elizabeth 73.3, Duffy's Tavern 73 and Feature Film 70.5.

At CBUT (TV) Vancouver, the top shows were Swimming Tides (Canadian) 43.9, Our Miss Brooks 39.3, Living 39.1 (Canadian), Jackie Gleason Show 37.9 and Stock Car Races 37.7 (Canadian).

Independent CFCM-TV on Air

CFCM-TV Quebec, ch. 4, went on the air July 22, the first independent tv station in Quebec province and the first in the province outside Montreal. The station will have both English and French language programs. Jos. A. Hardy & Co., Montreal, is exclusive Canadian representative.

British Unions Threaten

A THREAT to retaliate if Hollywood unions stop American film companies from producing U. S. tv programs in Britain has been made by four British labor unions, representing all segments of that country's film making. The British unions are concerned with reports that the Film Council of the AFL was insisting that American productions in Britain be returned to the U. S. The statement pointed out that with the advent of British commercial tv, it was likely that even more American tv films would be used in Britain than in the past. However, it declared that "counter-measures" would be taken ... "if the restrictionist attitude of the Hollywood council is maintained."

CJBR-TV Sets First Rates

CJBR-TV Rimouski, Que., ch. 3, scheduled to go on the air late this summer, has issued its first rate card with Class A time starting at $200 an hour. The station will have RCA equipment and a tower 1,257 ft. above sea level. Andre Lecomte, manager of CJBR Rimouski, will also be manager of CJBR-TV, with Francois Raymond as program director. The station will be represented in Canada by Horace N. Stovin Ltd., Toronto, and in the U. S. by Adam Young Inc., New York.

Elliott-Haynes Taking Canadian TV Set Count

A SURVEY is being made this summer throughout most of Canada by Elliott-Haynes Ltd., Toronto, to determine the number of TV homes in each area. Audience measurements are being made at Montreal for both English and French language groups (present estimate for the 75-mile Montreal area—166,000 sets), at Ottawa (38,500 sets are estimated with a 50-mile radius), at Toronto (180,000 tv homes), in the Hamilton-Niagara area (present estimate, 96,500 sets), in the Kitchener-Waterloo area (an estimated 22,500 sets), in London, Ont., and five surrounding counties (an estimated 27,000 sets), in Windsor, Ont. (opposite Detroit) and the three counties (81,200 tv homes) and Vancouver (estimated 29,400 tv homes). Surveys also are to be made at St. John, Winnipeg and Sudbury. The complete report on tv homes in Canada will be ready in September.

Six Agencies Join CARTB

SIX MORE advertising agencies have been entrenched by the Canadian Assn. of Radio & Television Broadcasters, Ottawa, bringing the total to 59 Canadian and U.S. agencies. Latest agencies to be admitted are Nattal & Maloney Ltd., Montreal; S. W. Caldwell Ltd., Toronto; Garry J. Carter of Canada Ltd., Toronto; Artel Advertising Agency, Toronto; Dominion Broadcasting Co., Toronto, and Whitehall Broadcasting Co., Montreal.

Canadian Code in Prospect

PLANS ARE UNDERWAY to set up an industry advertising code committee to pass on continuity which station managers feel exaggerates claims or is in bad taste. The CANADA advertising standards code committee of the Canadian Assn. of Radio & Television Broadcasters, under chairmanship of J. A. Hammond, CCFP Montreal, is now canvassing CARTB members on the establishment of the code committee.

BBC Looks, Likes

AS PART of a two-week tour of American television facilities, a group of executives inspected DuMont Network's New York Tele-Centre and reported "great interest" in the new features of the building. Executives revealed later that the proposed studio control room layout for BBC's new tv studios in White City, London, would be patterned after the Tele-Centre's split arrangement. The BBC group included R. H. Howell, chief of building construction and maintenance; H. W. Baker, supervising engineer of the BBC's television studios; S. W. Watson, head of television design engineering; R. H. Mannons, head of television planning and installation, and Reginald Patrick, chief engineer for BBC's New York office. Guiding the group through the Tele-Centre were Rodney D. Chipp, DuMont's director of engineering; Harry C. Millhill, manager of technical operations, and John Morrisey, international division, Allen B. DuMont Labs.

Local newsmen: Station which recognizes local news as most valuable asset, seeks newsmen who Must have solid reporting back- ground and good writing ability, financially sound independent. Box 7828, B.T.

Experienced newscaster in big market. Experience in gathering news as well as broadcasting desirable—Local news stressed. Box 146, B.T.

Traffic or continuity girl experienced for mid- west. Give complete background experience. Box 902, B.T.

Program director with experience. Give complete details, references and recent snapshot. Box 17, B.T.

Help Wanted—(Cont'd)

Girl wanted to handle traffic. Must have experi- ence in am or tv. Excellent opportunity for ver- sal new editor in Pennsylvania's NW new unit station. Box 1535, B.T.

If you're old-fashioned enough to believe in loyalty to your employer, but still young enough that if leave first before becoming unemployed you may be the man I'm seeking. The reason you leave your present position is that there is no opportunity for advancement there. You've had at least 5 years experience, and you have proven programing ability. You're promotion minded and also wealthy-minded, with a thorough knowledge of small station operations. Fact is you're probably living in a small town in the south or perhaps out west. You're also an older man married and children educated. You also like people and they like you. If this sounds like you a real opportunity here with an old, national and regional network. Here is your chance to grow and advance. Send complete details and background, with references, to Box 100, B.T.

Wanted yesterday: Miss America. IQ of 200, madly in love with daybook makeup and copy-writing. Marry, marry. Age 18. Married by midnight. If you offer 5% of this delicious dream, contact Mr. or Mrs. John Hunter, NBC, Great Bend, Kansas. Prefer someone from the west coast.

Front line people, a male or female, with good experience helpful but intelligence and imagination more valuable. WTVY, Coldwater, Michigan.

Bonus from Mt. Washington TV

$30,000 Summer Home in Maine

Use America's only "3-state one station TV network" and save — in 23 weeks of a 5 per week ¼ hour show — the complete cost of a $30,000 summer home on the Maine coast.

Average time costs run 54% less than the combined costs of the three TV stations giving next best coverage.

HITS ALL THREE
WMTW, transmitting from the top of Mt. Washington, covers most of the three states of Maine, New Hampshire and Vermont. Over 445,000 U. S. families live within the WMTW primary coverage area which has 224,572 TV sets. RETMA — May 28.

OUT-PULLS THEM ALL
Covers virtually all the families local TV stations do and reaches thousands of families they cannot reach — serves a one and a half billion dollar market — retail sales comparable to Richmond, Omaha, Akron, and Syracuse combined. On the air in August.

Tv Stations on the Air With Market Set Count
And Reports of Grantee’s Target Dates

Editor’s note: This directory is weekly status report of (1) stations that are operating as commercial and educational outlets and (2) grantee’s. Triangle (△) indicates stations now on air with regular programming. Each is listed in the city where it is licensed. Stations, vhf or uhf, report respective set estimates of their coverage areas. Estimation figures differ among stations in same city, separate figures are shown for each as claimed. Set estimates are from the station. Further queries about them should be directed to that source. Total U. S. sets in use is unduplicated B+C estimate. Stations in italics are grantee’s, not yet operating.

**FCC Should Adopt Anti-Red Rule**

IN THIS era of atomic fever, we still find those who shout "civil liberties" whenever Government seeks to tighten security in the vital field of communications.

The dissenters are at it again on the proposed FCC rule to make ineligible for commercial or amateur operator licenses anyone who is a communist, or communist front, or anyone who isn't of good moral character. This proposed rule is in keeping with the judgment of the Senate Foreign Relations subcommittee on espionage, sabotage and subversion.

We're not unmindful of the obvious truism that committees of Congress may be prone to exaggerate the extent of red infiltration. But we begin on the premise that, in communications, even one communist is one too many.

Those who protest derisively about new security rules as constituting a curb on freedom of expression seem to ignore the requirements in the law and the FCC regulations on the character of the licensees themselves. No one having communist connections could conceivably get an FCC license for any kind of operation, if that fact were known. One who is not of good "moral character" could not qualify as a licensee either.

The station licensee, of necessity, delegates authority in the technical operation of his station. The responsibility of the man at the transmitter is the concern of ownership and management. It is within his control to activate or inactivate the transmitter. His is a key position "when the whirlwinds blow," to use the highly descriptive phrase uttered by Comr. John C. Doerfer at the recent hearing on his confirmation for a new term on the FCC.

Four years ago FBI Director Hoover warned that the communists had as their primary objective the control of communication facilities in a national emergency. As early as 1946, he said, the party was given a special directive to penetrate the radio field, and their schools offered training courses in radio writing, acting and directing. In 1950, the CIO expelled a number of unions because of pro-communist leanings, including one in communications which then had many licensed radio operators in its membership.

The proposed FCC rule should be adopted. Even with its adoption, broadcasters should continue to screen carefully all those people who have access to microphone, camera or transmitter.

**Bare Spot on the BBC Wall**

TEN YEARS have gone since those grim days of broadcasts direct from London, when Big Ben's chimes were as well known on Main Street as on Piccadilly. Ed Murrow's "This is London," or Raymond Swing's authoritative commentaries were awaited eagerly by a hundred million Americans. And, likely as not, their words pictures became the headlined newspaper stories of the next day.

One of the many newsmen who had broadcast from BBC's underground studio B-24 in Broadcasting House was Richard L. Strout, the Christian Science Monitor's veteran reporter. Mr. Strout has just revisited London, and in a nostalgic report titled "BBC—Rendezvous With Memory," tells of his return to that underground studio, whence came the BBC's 9 O'Clock News, the U. S. broadcasts, and other transmissions to people the world over, theoretically out of range of Hitler's night bombers.

"French and Dutch Governments-in-exile broadcast here," Mr. Strout reported in the Monitor "and their leaders have now sent plaques and sentimental gifts to BBC, hung on the entrance walls, as a judgment of the Senate Foreign Relations hearing, that underground studio, whence came the BBC's 9 O'Clock News, the U. S. broadcasts, and other transmissions to people the world over, theoretically out of range of Hitler's night bombers.

"French and Dutch Governments-in-exile broadcast here," Mr. Strout reported in the Monitor "and their leaders have now sent plaques and sentimental gifts to BBC, hung on the entrance walls, as a judgment of the Senate Foreign Relations subcommittee on espionage, sabotage and subversion.

Indeed, it is a shame. Here is a project that should be handled, in the name of American broadcasting and broadcasters, now. It is a project for the NARTB and the networks.

**Off Their Records**

IN THE normal pattern of American business it is considered good policy to consult affected parties when a major change in techniques or specifications is contemplated. Unfortunately the nation's major phonograph record manufacturers neglected this important step when they decided abruptly to stop supplying broadcasters with 78 rpm pressings, shifting to 45 rpm discs.

Injury has been done to the relations of broadcasters and record companies—injury that might easily have been averted. Obviously there is a common benefit in the submission of records to stations and their performance. Manufacturers get what they need—performance and merchandising, without which few records can attain wide distribution. Stations get program material and can satisfy the public appetite for hit numbers as well as serious selections.

A sensible suggestion has come from NARTB. John F. Meagher, new radio vice president, asked record manufacturers to meet with him and the suggestion was accepted. The manufacturers will enter the meeting room Thursday with the realization they committed what is privately conceded to have been a public relations blunder.

There is some private fear that the record companies agreed to meet with NARTB more in the hope of salvaging industry goodwill than of rescinding the sudden shift of standards. They appear at this time to be more concerned with a swing in public preference for the small 45s than with the ability or willingness of stations to meet high technical and cueing standards. They cling to the belief that the 78 is disappearing and they like the economy of the 45s against the more costly 78 pressings.

While some stations have approved the change, a considerable segment of the broadcasting industry is not equipped to play 45s and the companies supplying conversion facilities are a month and more behind orders. Another segment refuses to convert because of purported inferior technical qualities of the fine grooves, from a broadcast standpoint, and plans to get along with present libraries augmented by 78s from smaller manufacturers and over-the-counter purchase of desired records.

The record makers know they acted unwisely and with haste. They know that broadcasters have supplied a substantial share of the sales stimulus behind their product. They know, too, that radio silence would cripple their business.

The answer is simple. They have been offered a chance to reconsider an ill-conceived action. If they want their records performed, all they need do is supply stations with a usable and durable product, suitable for professional performance.

National Representatives: THE GEORGE P. HOLLINGBERY COMPANY
As you read this, work proceeds day and night on the new KMBC-TV tower and RCA transmitter installation in Kansas City. These new facilities make Channel 9 the undisputed BIG TOP TV station in the Heart of America. The predicted 0.1 mv/m coverage map, prepared by A. Earl Cullum, Jr., consulting engineer, shows how KMBC-TV increases the Kansas City television market by thousands of additional TV homes.

ONE OF AMERICA'S GREATEST BROADCASTING INSTITUTIONS—Here Channel 9 (and Radio Stations KMBC-KFRM) originate some of the most ambitious local programming seen and heard in the Heart of America. TV facilities include 15-set TV studios, a 2600-seat theater, both RCA and Dumont studio camera chains, RCA film cameras, telops, teletechers, film projectors, rear-vision slide projector, spacious client viewing room and two complete sets of remote equipment. Color telecasts can be handled from the new RCA 316,000-watt transmitter.

BIGgest power
TOP most tower

With its tall tower and full power, KMBC-TV brings an entirely new value to television advertising in the Heart of America. No other Kansas City station gives you the unbeatable advantage of mass coverage plus the audience-holding programming of CBS-TV...the nation's leading network...combined with KMBC-TV's own great local shows.

Get on the CHANNEL 9 Bandwagon NOW!

Contact KMBC-TV or your Free & Peters Colonel for choice availabilities.
