60 seconds is all it takes...

For centuries man tried unsuccessfully to fly. Yet, in less than 60 seconds of staying aloft with their heavier-than-air machine, the Wright Brothers made history. Mankind was no longer earthbound. Today, to get your sales campaign off the ground and winging—whether you're selling transportation... for a time-saving business trip to the North, or a flying vacation plan to the South—or any other service... 60 seconds is all it takes on Spot Radio.

Spot Radio costs less to reach more of your potential customers... whoever they are... wherever the might be... at the precise time and place of your choice.

60 seconds—or less is all it takes to sell more with the right, bright buy—Spot Radio.
WTVR EXCELS in Coverage

Operating on CHANNEL 6 WTVR is the only station in the Richmond area authorized to operate in the PREFERRED LOW-END OF THE VHF BAND. No other station in this area can equal WTVR's WIDE AREA COVERAGE.

WTVR EXCELS in Facilities

CHANNEL 6 with 100,000 WATTS is operated from one of the highest self-supporting antennas in America, 1049 FEET ABOVE SEA LEVEL. There is no higher elevation in the Richmond area, and only WTVR can assure coverage from its antenna located in the heart of the City of Richmond. WTVR is the only station in this area which has studio facilities in Richmond. In short “The South's First TV Station” is RICHMOND'S ONLY TV STATION WITH COMPLETE RICHMOND FACILITIES.

WTVR EXCELS in Programs

WTVR LEADS IN THE LATEST PULSE SURVEY ACROSS THE BOARD. No station in this area equals it. In one day WTVR produces more local programs, starting at 7 a.m. each day, than all other stations in this area combined. And remember, WTVR programs require no antenna to be received.

WTVR EXCELS throughout the Day— IN EVERY WAY

Represented Nationally by Blair Tv, Inc — Affiliated With ABC-TV Network.

A QUESTION OF QUESTIONS • While there's no indicated opposition to President Eisenhower's nomination of Comdr. T. A. M. Craven for seven-year term on FCC, one or two flares have been sent up in this presidential election year which might indicate more than casual interrogation of Mr. Craven by Senate Commerce subcommittee, particularly in light of fact that he served one-seven-stint on FCC (1937-44). Questions which might arise: Should Democratic Senate confirm an Eisenhower appointee (even through he's a Democrat) this late in the session? Should an engineer be appointed rather than lawyer or broadcaster? Mr. Craven is odds-on favorite for quick confirmation, however. (See story page 75).

PROTECTIVE SOCIETY • About 100 vhf stations have indicated intention of attending June 1 meeting in New Orleans to devise plans for organization to "assist Congress and the FCC" in coping with tv allocations problem. Their preliminary effort will be in direction of overall engineering study toward provision of maximum service without downgrading allocations through reduction of standards. It is understood that preliminary discussions will center around long-range study of tv coverage. Invitations for session were sent by Harold Gross, WJIM-TV Lansing, with P. A. (Buddy) Sugg, WKY-TV Oklahoma City, and John H. DeWitt, WSM-TV Nashville, also prominently identified with organizational effort, which got underway during NARTB convention in Chicago last month. Several committees will meet prior to June 1 session, at which WDSU-TV New Orleans, through Executive Vice President-General Manager Robert D. Sweezy, will be host station.

NAME of George E. Sterling, former member of FCC, has arisen as possible engineering consultant to proposed vhf protective group. If organization is agreed upon (and affirmative action is expected) it's presumed legal counsel also will be retained along with engineering counsel and that offices will be established in Washington. Advisory counsel to date has been Reed T. Rollo, Washington resident partner of Kirland, Fleming, Green, Martin & Ellis. Mr. Sterling, now residing at Peaks Island (Portland), Me., retired from FCC in September 1954 and is handling limited consulting practice. He had participated actively in drafting of Sixth and Final TV Allocations Report.

EMPHASIS on portable tv sets, with necessarily low profit margins, does not help effort toward all-band tv sets, according to informed trade opinion. Conversely, it's felt that color will get increased play because of higher prices per unit, but this does not necessarily mean that color sets will be produced on an all-band basis. Fact that several manufacturers (Stromberg-Carlson, Capehart, latter sold) have dropped out of tv set manufacture, may mean that they and other manufacturers are awaiting more favorable color market. It's predicted that several other manufacturers may also curtail or shut down production temporarily. (See story page 98.)

CO-SPONSORS • Lever Bros., New York, in addition to half-hour alternate-week sponsorship of Sir Lancelot and four nights on NBC-TV starting in fall, will also co-sponsor On Trial with Campbell Soup Co. (see story, page 96), Fridays 9-9:30 p.m. BBDO, New York, is agency for both accounts.

MORE RADIOS • New estimate on nation's radio set total is currently in preparation and due to be issued by Radio Advertising Bureau in next few weeks. It's expected to show around 126 to 127 million radios in good working order, gain of 5 to 6 million in past year.

FOUR of five film firms, charged by NBC as being connected with broadcaster Richard A. Moore's attack on network practices (story, page 271), Friday announced formation of Assn. of Television Film Distributors. ATFD—comprised of Official Films, Screen Gems, Television Programs of America and Ziv Television—dissolved the antitrust label NBC allegations as smokescreen to obscure the "hopeless" competitive TV disadvantage of local and regional advertisers with national competition. Mr. Moore, also on Friday, denied any sinister competition. Mr. Moore, Television Film Distributors Assn. of America.

NBC Friday had released text of document it is filing with Senate Commerce Committee in reply to new charges, and in which it tallied Mr. Moore was representing five film companies while ostensibly appearing in behalf of KTTV (TV) Los Angeles.

ATFD declared that "the real point of Mr. Moore's testimony, obscured by NBC's smokescreen, is that local and regional advertisers are at a hopeless disadvantage with respect to the large national competitors in reaching the public on equal terms, namely during peak viewing hours. He also stated that independent TV stations were unable to acquire sufficient quality filmed programs because the market for independent film producers is unprofitably restricted by existing network practices. "Specific remedies to these problems, which affect the entire economy, were proposed by Mr. Moore and subsequently by Sen. John Bricker of Ohio. Instead of making any constructive contribution to the solution of these problems, NBC throws up a smokescreen by issuing an unwarranted and irrelevant claim that the 'status quo' will destroy all television," said the ATFD.

"The four companies attacked by the NBC statement," ATFD pointed out, "are now responsible for a total of 17 regularly-scheduled sponsored network film programs." To suggest, as NBC has, that the film companies seek the destruction of television network structure is an absurdity tantamount to stating that the film companies wish to commit economic suicide.

"In attacking the quality of film programs, NBC is also criticizing its own program structure. NBC's present network schedule includes approximately 16 hours of filmed shows each week out of a total of 21 hours of peak evening viewing time. In addition, NBC, through its wholly-owned subsidiary, also distributes film shows, among which is a substantial backlog of feature motion picture and TV film programs. The television film industry is not supported by public reaction to film programs. National Nielsen reports from November 1955 through March 1956 reveal that never less than 7 of the top 10 television programs were sponsored.

"The NBC accusation that the film companies, with their investment of millions of dollars in production facilities, have their record of creative achievements in programming, with their list of awards for public service and with their stature in all the television communities of the nation, are 'film-come-latelies' is not supported by the facts. The companies under attack have been supplying TV entertainment to the nation since before the advent of national television networks, often at great financial loss to themselves as their contribution to the advancement of the medium.

Mr. Moore said Friday: "Soon after the FCC established its network study committee, KTTV took the lead in focusing attention upon the restrictive practices of the network companies which deny competitive opportunity to others. Acting on its own and at its own expense, KTTV presented its views to the Senate Committee on Interstate Commerce at the committee's request.

"We are delighted, however, to note many companies who are victims of the network restraints have already made common cause with us or have indicated their agreement with our conclusions.

"KTTV, as was its right, has consulted with film distributors and other television stations and several of us have come together for the purpose of common research, both factual and legal. From the outset, KTTV has advised the staff of the network study committee and the Senate Interstate Commerce Committee of this community of interest and activity. Apparently, these facts, which have been referred to often in the trade press, seem sinister to NBC, which apparently expects that the victims of its restraints should lick their wounds separately, privately and passively."

**Four Arraigned in Chicago**

**On Bait Advertising Charge**

FOUR PERSONS, including two advertising agency executives and head of automobile sales agency, were arraigned Friday on bait advertising charges following return of indictment by Cook County (IL) grand jury. Indicted were Irving Rocklin, head of Rocklin Irving & Assoc.; Ira Segall, agency copywriter; Irwin Cole, president of Cole-Finder Inc., auto dealer, and automobile salesman. Indictment and arrangement stemmed from Better Business Bureau probe, which charged bait advertising on TV commercials aired Feb. 25 and 27. Offers were made on WBBQ (TV) Chicago.

Esty, General Mills Sever

**BUSINESS BRIEFLY**

**KID'S TIME** Three "kiddie spectaculars," man-sized but primarily for youngsters, to be sponsored on ABC-TV by International Shoe Co.'s Friedman-Shelby branch, St. Louis. Nipper-like black-and-white-tie O Div. scheduled Aug. 25, Oct. 6 and Dec. 8 from 11 a.m. to 12:30 p.m. Program from St. Louis Zoo is slated as inaugural. Agency: D'Arcy Adv., St. Louis.

**CAKE MIX SPOTS** Dromedary Div. of National Biscuit Co. (cake mix), N.Y., using one-minute transcribed spots on radio in approximately 20 markets starting May 30 and continuing through end of November. Ted Bates, N.Y., is agency.

**LOOKING SOUTH** Robert Otto & Co., international advertising agency, reportedly "very interested" in TV film adventure series for placement in Latin American market. Client's identity was not revealed; it's understood to be one of large U.S. food manufacturers seeking to expand South American operations.

**MAIL POUCH LOOKING** Chas. W. Hoyt Co., N.Y., planning to launch early morning, 13-week radio spot campaign in Midwest for Mail Pouch Tobacco Co., Wheeling, W. Va., on or about June 18. Agency currently looking for availability on 40 stations.

**COFFEE CAMPAIGN** Hills Bros. (coffee), San Francisco, starting four-week radio spot announcement campaign early in June in about 15 markets through N. W. Ayer & Son, N.Y.

**TEA TIME** Tetley Tea, N.Y., starting radio campaign June 11 in North in series of four and two-week flights for 26 weeks; in South effective June 4 for 15 or 16 weeks. Agency: Ogilvy, Benson & Mather, N.Y.

**BEER BUY** Liebman Breweries' (Rheingold beer) eastern and western divisions to sponsor "Code Three," ABC-TV film syndication property, in about 20 markets starting in October for 52 weeks. Foote, Cone & Belding, N.Y., is agency.

**KVSM San Mateo, Calif., Bought by Intercontinental**

SALE of KVSM San Mateo, Calif., by Mr. and Mrs. Les Malloy for $400,000 to Intercontinental Broadcasting Corp., subject to FCC approval, announced Friday. Intercontinental comprises John D. Feldman, owner of KDON Monterey, Calif., Arthur B. Hogan, president of Alfred Zugsmith Corp., west coast radio-television-station brokers which handled the sale; Alfred Zugsmith, Edward Muhl, James Pratt, and Melville Tucker, all Universal Pictures executives; Bert Kooden, Lockheed Aircraft executive, and Frank Oxart, executive vice president, Alfred Zugsmith Corp.

Messrs. Zugsmith, Muhl and Oxart own KVSM Los Angeles and an N.Y. application to purchase KITO San Bernardino, Calif. Mr. Hogan has bid to buy KFQX Long Beach, Calif. (At Deadline, May 21).

**Indianapolis, New Orleans Cases in Oral Arguments**

CHARACTER and financial qualifications, respectively, shared spotlight Friday in oral arguments before FCC on hotly-contested Indianapolis ch. 13 and New Orleans ch. 4 tv cases.

In Indianapolis argument (initial decision favored Mid-West TV Corp., recommended denial of Crosley Broadcasting Corp., WRE and WIBC, both Indianapolis), attorneys for Broadcast Bureau and losing applicants charged hearing examiner committed error by striking from record matters relating to non-payment of federal and state income taxes between 1941 and 1946 by banker George Sadlier, Mid-West principal. Mr. Sadlier’s tax troubles, on which he paid penalties, reflect adversely on Mid-West as tv licensee, attorneys said.

Three-way battle for New Orleans vhf channel was narrowed to two in hearing when examiner ruled James A. Noe & Co. (WNME) failed to establish basic financial qualifications. Examiner (not considering WNME in comparative analysis) recommended ch. 4 grant to Time, Inc. (WFTV) in preference to Loyola U. (WWL) on basis of color plans and proposals to outlay communities. Significance of these criteria was attacked in oral argument by Broadcast Bureau, Loyola and COR.

WNME attorney said that as combined net worth of Mr. Noe and partner in tv venture was in excess of $2 million it would be reasonable to assume they could afford to construct and operate proposed tv station. Mr. Noe also owns KNOE-AM-TV Monroe, La.). Opponents and Broadcast Bureau maintained that WNME's financial ability was issue in hearing, notwithstanding notice and opportunity to establish basic financial qualifications, WNME failed to do so.

**Mission Gets Final Grant For San Antonio Ch. 12**

FCC issued final decision Friday granting San Antonio, Tex., ch. 12 to Mission Telecasting Corp., 50% owned by KONO-AM-FM that city. It denied Walmac Co. (KMAC and KISS [FM] San Antonio) for lack of financial qualifications. It also relieved Mission of any culpability in activities of private financial officers, charged as impersonating Federal officer but acquitted in court. Decision upholds examiner's recommendations last year [BFT, June 20, 1955]. Grant brings to three number of vhf outlets in San Antonio. They are KENS-TV on ch. 5 and WOAI-TV on ch. 4. Both are operating. Also operating is ch. 41 KCOR-TV.

**Wants More Ad Scrutiny**

SENATE Appropriations Committee Friday put Federal Trade Commission on notice it expects increased effort in monitoring radio and tv advertising for "bait" and other misleading commercials. Committee acted on recommendation of Sen. Warren Magnuson (D-Wash.), who heads appropriations subcommittee which held hearings on Independent Offices Appropriations Bill, which carries 1957 budget funds for FTC. Bill went to Senate floor Friday.

**House Bill Would Split Hill Recording Facility**

MOVE to split Joint Senate-House Recording Facility (which at moderate cost tapes and films campaign speeches and other programs by congressmen for use on home radio-tv stations) was indicated in bill reported Friday by House Appropriations Committee, providing blanket funds to set up separate House facility. Present equipment and funds would be divided equally, Senate setting up its own establishment.

May 16 testimony by House Clerk Ralph Roberts before subcommittee, released Friday, indicated Mr. Roberts said several House members have objected to present setup.

Mr. Roberts recently fired Helen Coar, facility's studio director. As ground-stake her husband, Robert J., facility coordinator, operate identical private business in nearby Virginia. No action has been taken on Mr. Coar, Senate employee.

Related proposal (H Res. 599) by Rep. Eugene McCarthy (D-Minn.) would require facility to provide free to each congressman one hour of tapes and 15 minutes of tv film monthly during each session.

**Food Freezer Plan Ads Cited for Misrepresentation**

RENAIRE food and home freezer plans were cited by Federal Trade Commission Friday on 12 counts of alleged false advertising and misrepresentation in national radio-tv and newspaper promotions. Firm's customers do not get food at wholesale, FTC complaint charged, in “Renaire Plan” in no case would save enough over a reasonable length of time to "pay for a tv set, remodel a home, pay for a vacation, buy an automobile or pay for a freezer.”

FTC also attacked Renaire representations as to certain exclusivity-of-product statements and alleged expertise of some of its employees.

Parties are granted 30 days in which to file answer to complaint. Hearing is scheduled July 17 at Washington before FTC hearing examiner.

**SCBA Names 1956 Officers**

SOUTHERN CALIFORNIA Broadcasters Assn. Friday announced new officers for 1956. Lloyd Sigmon, KMPC Hollywood, named chairman and Howard Gray, KGIL San Fernando, named vice chairman. John Hansen, KABC Los Angeles, is secretary and Selma Kirchner, KGJF Los Angeles, treasurer. Elect to board are Herb Comstock, KAVL Lancaster; Calvin J. Smith, KFAC Los Angeles; Ernest O. Spencer, KWZ Santa Ana, and Bert West, KNX Los Angeles.

**Favor Radio-Tv Coverage**

CAPITOL Hill radio-tv correspondent Joseph McCaffrey said Friday his poll of House members on whether they favor opening House committee proceedings to radio and tv shows 2-1 support for radio-tv coverage in about 200 replies received so far. Of “yesses,” five qualify if it to radio only, saying tv is “too disruptive.”
THE BATTLE IS JOINED

NBC takes up arms against Moore’s denunciation of network option time, must-buy requirements, charges KTTV (TV) president acted in conjunction with TV film group. 27

Meanwhile, Sen. Bricker and CBS President Frank Stanton exchange disagreements about the senator’s intentions in regard to network regulation. 30

THE STEVENSON-KEAUVER 'DEBATE'

A DEBATE—or discussion—we've always understood, has two sides to a given question. Because of seemingly unanimous agreement between the two principals, the most apt description of last Monday's much-heralded (by ABC-TV) telemeeting between Sen. Estes Kefauver (D-Tenn.) and ex-Gov. Adlai E. Stevenson (D-Ill.) would be "a chat".

Their views—two otherwise-vo-ciferous opponents for the Democratic nomination for President—in the studios of WTVJ (TV) Miami, spending most of the time concurring with each other on the various "hot" items submitted to them by moderator Quincy Howe and behaving less like tooth-and-nail politicians than like courtly gentlemen, agreed on one thing: that the G.O.P.'s "big business or big-what-have-you" administration has got to go. The only grounds for "mild" disagreement were provided by Mr. Stevenson's feelings on H-bomb testing and Sen. Kefauver's feelings on Mr. Stevenson's feelings on Sen. Kefauver's "absenteeism." What little acid there was, was applied by a feather.

So far as tv is concerned, it was a most unusual experience. It might have deluded some viewers into thinking—or hoping—that campaigning has taken on a new look of "love thy fellow candidate." We doubt that it has. Last week's tv chat might have been revolutionary in scope, but certainly, not so much as to revolutionize the art of politicking.

Produced as a special event by the ABC Department of News & Public Affairs, May 21, 10-11 p.m. EDT from WTVJ (TV) Miami, directed by Marshall Diskin. Moderator: Quincy Howe.

This is KATHY GODFREY

FOR THE busy housewife who looks forward to a relaxing few minutes each morning with her pick-me-up cup of coffee, the new CBS Radio show This Is Kathy Godfrey is excellent listening. If each program measures up to the standards of the first (May 21) our housewife will become a regular listener.

Miss Godfrey has planned her new show to be a program of ideas, friendly and inspiring, to give the woman at home enjoyment, as well as understanding. She accomplished this last Monday with her guest Ilka Chase, who gave her candid opinions on appearance, clothes (assuring the ladies that all women can be fashionable, for "taste counts more than money"); Babe Didrikson Zaharias, whose indomitable spirit was fully brought out in a telephone interview from her hospital room, and NYC Postmaster Robert Schaffer, who described an exhibit of paintings done by postmen in their spare time.

In bringing to the housewife these interesting opinions and bits of information, This Is Kathy Godfrey appears to be a valuable addition to radio's morning programming.

CHILD BEHIND THE WALL

THE PROBLEM of the emotionally disturbed child, what is being done about it and what more should be done to prevent these mentally ill children from becoming adult inmates of institutions and to turn them into normal, useful citizens, was dealt with forcefully in "Child Behind the Wall," May 20th telecast of the March of Dimes series.

The appalling lack of facilities, trained personnel and money needed to care for these unfortunate children was presented in straightforward statements bluntly delivered by top state officials, who were calling on the audience to rectify today's sorry situation. What can be done and is being done where proper people and plant are provided was shown in several filmed case histories, presented by the doctors in charge.

So skillful was the whole presentation that what might easily have been a depressingly morbid picture of how bad things are became, instead, an encouraging report that, while not glossing over the seriousness of the present, showed what the future may bring if the public is willing to work and vote and pay to bring it about. Here is tv adult education at its best.

Sponsored by Smith, Kline & French Labs in cooperation with American Medical Assoc. through Dorememus Schelteman, on NBC-TV, May 20, 5:30-6 p.m. EDT.

Writer: Lu Hatzenb; narrator: Ben Grauer; technical director: Hank Kolker; designer: Theodore Cooper; film director: Gordon Hesslet; producers: Bill Eiman for Smith, Kline & French and Doris Ann for NBC; director: Craig Allan.

THE GABBY HAYES SHOW

IN THIS new Saturday afternoon juvenile series on ABC-TV, bewhiskered Gabby Hayes is a combination teller of tall tales, master of ceremonies for a condensed Western film and salesman of Popsicles to the under-six set for whom these programs are apparently intended. It seems doubtful that anyone beyond the age of six would sit through more than one of these programs, for the main attraction in the Western story, is edited with no attempt to retain any plot line, just plenty of action. Gabby, however, is as usual thoroughly professional and just as enjoyable to viewers of all ages in all three capacities. He even whistled as if it was for real.

Production costs: Approximately $10,000. Sponsored by Joe Lowe Corp. through Paris & Pearl, New York, on ABC-TV, Sat., 5:30-6 p.m. EDT. Producer-director: Joe Clair.

THE MAURICE CHEVALIER SHOW

CHEVALIER surpassed himself in his last 90-minute appearance on NBC-TV. If ever a foreigner left (as M. Chevalier declared was his intention to do right after the show) with an audience in the palm of his hand, it surely was the man in the straw skimmer.

Mr. Chevalier's contagious gaiety demonstrated another big advantage tv has over the theatre. In one's own home it's possible to sing and whistle with the master—"On the Avenue," "La Vie en Rose," "Bridges of Paris," and other favorites. On the other hand, you don't mind keeping still to hear about "A boy and a girl sitting on a park bench, kissing in public because they were French," or to find out about Barcelona from Maurice, the Spanish dancer.

Supporting talent, Roger Price and his Doodle drawings, Stanley Holloway and his British monologues, Chita Rivera and Polly Bergen, kept up a spirited pace while the master caught his breath between numbers. The modern music of Michel Legrand, brassy and fast, had a proper Gallic touch in the nostalgic accordion.

All these, arranged around the star, provided a balanced and wonderfully pleasing show, a

CAMERA THREE

WCBS-TV New York's Camera Three—currently on 49 CBS-TV affiliates through these Sunday mornings—celebrated its third birthday last week. It did so by launching a two-part series on "Freedom and Restraint," the first program being a discussion on the Fifth Amendment, the second (yesterday) a dramatization of Plato's "Crito."

As a full treatment of the "fifth," that of moderator James Macandrew and guest C. Dicker Manhattan Williams, partner in the New York law firm of Macay, Morgan & Williams (and author of the Fordham U. Law Review's "Problems of the Fifth Amendment") left a lot unsaid. The fault was hardly that of Mr. Williams, whose role was thought perhaps to be continually deferred by every thoughtful juncture by Mr. Macandrew's many—often pointless—questions.

Yet, despite the obvious flaws of this "prepared-ad libbed" discussion, progress was made. Those television viewers who bothered to sit indoors before their TV screens on a bright spring Sunday morning, heard the "fifth" explained to them as a package of safeguards to individual freedom, rather than as a mere dodge for use by blackbearded anarchists and communists.

Production costs: Approximately $5,000. Broadcast sustaining on CBS-TV, Sun., 11:30 a.m.-12 noon EDT, originating from WCBS-TV New York.

Producer: Lewis Freedman; director: Clay Yurdin; writer: John McGiffert; moderator: James Macandrew; narrator: Jim Parker; guest: C. Dickerman Williams; production supvr: Clarence Warden; advisory consultant: Dr. Edward C. Bowen, N. Y. State Dept. of Education.

BOOKS

THIS IS a book that should have come out around the time last year when Madison Ave. was sadly shaking its collective head, mumbling, "but is he really worth $12 million?"

Whether he was—or still is, today, in the face of a plummeting Nielsen—is not the case here; what is, is that as subject material for an "unauthorized biography," Mr. Gleason is worth his weight in gold—every last pound of him.

Mr. Bishop, whose last year's The Day Lincoln Was Shot showed his talent for critical evaluation of events, this time uses this same talent on Mr. Gleason. For 298 pages, Mr. Bishop probes beneath the comedian's exquisitely-draped epidermis with all the finesse of a Pa Mackie, neuro-surgeon, exposing to the view all the vital parts that make Jackie run. Little wonder Ralph Kramden's alter ego is said to have winced as he read the galley proofs.

COLOR TELEVISION—SIMPLIFIED THEORY AND SERVICE TECHNIQUES, by Electronic Education Unit, Philco Corp., Philadelphia. 164 pp. THE THEORY, design, transmission, reception, installation and service of color television receivers are covered in this notebook written and prepared by Philco's Electronic Education Unit under the direction of Richard D. Hershey and edited by Donald G. Fink, former editor of Electronics and now director of research for Philco. Prepared specifically for the electronic serviceman, the textbook begins with a review of black-and-white tv, progresses to colorimetry, the measurement and analysis of color, and describes transmission and reception methods and standards for color tv before beginning its detailed description of the circuitry of a color tv receiver and its cathode ray assembly and the matters of adjustments, alignment and installation needed to insure perfect picture. The book contains 288 illustrations, more than 100 in color.

MY FIRST 10,000 SPONSORS, by Frank Edwards. Ballantine Books, 101 Fifth Ave., New York 3, N. Y. 185 pp. $2. NEWS ON THE AIR, as seen by one newsman-commentator who was there in February 1925 when WHAS Louisville broadcast bulletins of the attempt to rescue Floyd Collins from a Kentucky cave and a New York City commentator on WTTV (TV) Bloomington, Ind., is the theme of this highly personal and equally entertaining account of the author's adventures in and off the air. The title comes from Mr. Edwards' newscasts on MBS, on which he was introduced as "sponsored by the 10 million men and women who make up the membership of the American Federation of Labor...."

IF PRACTICE makes perfect, the aspiring actor who follows faithfully the guidance given in this book by Mr. Strickland, of Stanford U.'s department of speech and drama, should be well on the road to success. For essentially The Technique of Acting is an exercise book, filled with exercises which "must be practiced regularly over a long period of time if the student is to derive any benefit from them," the author says in his foreword. "The system of training proposed in this book is designed to help the actor give an intelligent and competent performance, even when inspiration is lacking, and—equally important—to show him how to use an inspiration when he is fortunate enough to have one."

THIS basic textbook, which emphasizes the physical and mathematical analyses of the essential practices and circuits in radio communications, is designed to provide an understanding of the fundamentals underlying the broad field of communication. The author is professor and head of the department of electrical engineering at Case Institute of Technology.
MEMO: TO TIMEBUYERS!

Are YOU up to DATE?

Are you aware of TODAY’S story in the important Northeastern Pennsylvania television market? Do you know that WILK-TV now leads the field? Do you know that complete saturation of this top dollar market is IMPOSSIBLE . . . unless you use WILK-TV. We’ve worked hard with top programming, promotion and sales know-how. NOW . . . ARB has proven our leadership.

Here are the results of the ARB 15 county regional survey, (March 25th thru March 31st, 1956). Here is the rating story for the valuable time period from 5 P.M. to 11 P.M.

FIRST PLACE QUARTER HOURS

WILK-TV ... 71

STATION “B” ...... 65
STATION “C” ...... 32
STATION “D” ...... 1 (tie)

★ COVERAGE...

WILK-TV reaches better than 85% of the 314,984 TV sets in its coverage area. With WILK-TV, you reach nearly 2 million with an annual spending power of over 4 billion dollars! WILK-TV reaches more cable subscribers than any other local TV station! This IS Coverage!

EDITOR:

I want to congratulate you on your two very fine articles on uhf television. Not only are they very, very interesting but certainly very timely.

Harry Tenenbaum, Vice Pres.
KTVI (TV) St. Louis, Mo.

[EDITOR'S NOTE: B-T's two articles on uhf only ran in May. 'Where Vhf Isn't, It Isn't Missed,' May 7, and 'Bill Country Uhf,' May 14, have been reprinted individually as four-page handouts. Copies of either article are available at $15 per 100.]

'Riley' in Seattle

EDITOR:

. . . The April ARB report for Seattle-Tacoma gives Life of Riley an average rating of 34.9, which gives it the number one position in the market by a considerable margin.

I assume it was left out of your listings (B-T, May 21) on the assumption on somebody's part that the program is on the network in that market. It is, as a matter of fact, syndicated there, as it is in many other markets outside the network sponsor's area . . .

Frederick Jacoby, Mgr. of Publicity
NBC Television Films
New York City

[EDITOR'S NOTE: ARB said that in compiling the information it did not find either Seattle or Tacoma on a list of markets, supplied some time ago by NBC, in which Riley is syndicated, and therefore assumed it not to be there. There was no argument about Riley's getting a 34.9 rating in Seattle-Tacoma.]

Wisconsin Merger

EDITOR:

A remarkable thing happened at WEMP this month. We "merged" with our Waushara competition, WAUX. But this is one merger that won't have to be approved by the FCC for there were no contracts to be signed other than a marriage license. Our continuity director, Marylou Lenken, married a WAUX salesman, Bob Shanahan. And, as if this weren't complicated enough, he is the brother of our afternoon disc jockey, Tom Shanahan.

WEMP Milwaukee, Wis.

more development of present experimentation and investment.

Subscription tv would open the way to "socialized" tv; it would be an easy move for the government to reach into a medium that would be so controlled anyway.

I might say that my opinions are not based upon "sour grapes" attitude. The kind of program I have been promoting—The National Milk Bowl—is actually one that the public would pay for willingly on subscription tv. I do feel that, if the pay tv group is sincere, they will supply free tv sets to all of their potential customers, tv sets which have been constructed to give real competition to the motion pictures themselves.

Eugene C. Weafer, Executive Dir.
The National Milk Bowl
Bryan, Tex.

Uhf Acceptance

EDITOR:

We've had much favorable comment on Frank Beatty's well-written article, "Where Vhf Isn't, It Isn't Missed," in your May 7 issue. This has confirmed the strong acceptance by the general public and by the advertisers of uhf in northern Indiana and southern Michigan. Here's hoping that all of the taboos of recent years against uhf have been laid to rest.

I know that every agency man in America read the article but I'd still like to buy 1,500 reprints of it to send out as a WSJV promotion . . .

Paul C. Brines, Dir. of Bcast.
WSJV (TV) Elkhart, Ind.

EDITOR:

Because of traveling commitments, this is the first opportunity I have had to commend you for the article which appeared in the May 7 issue of B-T. It was a well done piece and I am sure it will help to dispel some hazy thinking relative to uhf.

Incidentally, from your article, I gained many interesting bits of information myself about the South Bend-Elkhart market.

(Rev.) Edmund F. Joyce, C.S.C.
Exec. Vice Pres., U. of Notre Dame
(WNDU-TV) Notre Dame, Ind.

Here's the record of "Three Star Theatre," on KCRA-TV, presenting big-name, late evening feature films that dominate the Sacramento market!

**Average Rating:** 13.7*

**Average Share of Audience:** 79.3%

"THREE STAR THEATRE" is seen at 11 p.m. Saturday, following "Hit Parade" (33.5 lead-in) and at 11 p.m. Sunday (24.1 lead-in).

YOUR PETRY MAN KNOWS all about "Three Star Theatre" on KCRA-TV. Give him a call about participations.

*A RARE combination of administrator, engineer, writer and expert in advertising and sales promotion..."

Thus reads, in part, a citation made to John Taylor in 1952 when he received the RCA Victor Award of Merit, the highest that RCA makes among its salaried employees. Mr. Taylor, who bears the impressive title of advertising and sales promotions manager for RCA commercial and defense electronics products, was cited particularly for "extraordinary service" to RCA.

"Extraordinary" is an apt word for John Taylor. Both inside and outside of RCA, men who have known him over a long stretch of years—a stretch that in some cases goes back through a quarter-century of radio—will tell you that this summary excerpt from the 1952 citation, accurate though it is incomplete.

They will tell you, for example, that he is one of radio's master salesmen and that the proof of this talent extends from the 1930's when John Taylor, then like radio in the formative days of his career, "equipped" many of the most important stations in the country today. They will tell you that, along with being an engineer, he is especially expert in a number of difficult engineering subjects, such as uhf and color television, for instance. Others will cite his ability as an editor. At least one man, who has had occasion to work closely with Mr. Taylor although not himself employed by RCA, says he quite often is amazed by the range of the man's knowledge and interests. It is his considered opinion that there are few advertising men, at the most, who possess Mr. Taylor's all-around radio-television knowledge.

These are things that those who know him will tell you. The official biographical files on him are surprisingly skimpy. For Mr. Taylor is also a modest man. He shuns personal publicity.

The 1952 citation does fill in significant parts of the picture:

"While guiding the advertising and promotion of a bewildering variety of product lines, Mr. Taylor also found time to continue editing Broadcast News, a magazine of such excellence and authority that it compares favorably with the best professional publications in the field; and, furthermore, to inaugurate a second periodical, Communications News, which gives promise of equally high standing.

"In a field where exhibitions and trade shows are of great importance, John Taylor has proved himself a master exhibitor. His ingenuity and sense of showmanship made possible the participation by his department in an unusual number of exhibits."

John Pratt Taylor was born in Williamsport, Pa., on Sept. 1, 1906, son of Edward and Bertha Pratt Taylor.

He has been an active participant in the broadcast transmission and broadcast field since his graduation from Harvard U. in 1929 with a degree in electrical communication. His early interest in this field led, soon after his graduation, to participation in the development and testing of some of the earliest broadcast transmitters. He became a member of the staff of W2XAF, often described as first of the high-powered transmitters that made shortwave communications history.

He also displayed in those days the quality of industry that still marks him. He joined RCA in November 1930 as an engineer in the Camden (N. J.) plant—meanwhile continuing his education with postgraduate courses at Union College (1930) and the U. of Pennsylvania (1931).

During 1930, Mr. Taylor was assigned to the broadcast transmitter sales department, where he began a long association with members of the broadcasting field. From 1938 to 1941 he was field representative for RCA broadcast transmitter sales in the southwest district.

In 1941 an important new area of electronics—that of high-frequency heating—beckoned to him, and for the next three years he took part as a sales engineer in pioneering efforts to apply this outgrowth of radio warfare manufacturing processes.

Broadcasters today generally associate Mr. Taylor with the advertising and sales promotion of RCA radio and television broadcast equipment, which he has been supervising for the past 13 years. Less well known to them is the fact that these activities represent only a part of the Taylor package. Simultaneously, he also has supervised the advertising and sales promotion of RCA's broad lines of electronic products for commercial and military applications. As advertising and sales promotions manager for RCA commercial and defense electronics products—to which full title and responsibilities he was named in 1955—he is as widely known in the industrial, defense, communications and theatre fields as in radio-television.

Moreover, as editor of Broadcast News, an RCA publication with wide circulation in the industry, he has won a name as one of the most dedicated diggers for facts in the business.

Mr. Taylor is married to the former Ethel Larned of Schenectady, N. Y. They have two children, Edward I. and Dorothy Jane. He lives at Haddonfield, N. J., where he practices—to near perfection, according to many visitors—his prime hobby of gardening, with azaleas as his specialty.

He is a member of the Institute of Radio Engineers, the Acoustical Society and the American Society for Metals.

HAVING a background of station and on-air experience in both radio and television is a significant help to the work of an agency timebuyer, according to Jody Caldwell, media director of the Carl Falkenhainer Agency, Los Angeles.

Carl Falkenhainer founded his agency two years ago, after three decades as an executive and marketing consultant in the retail drug and related fields. Therefore, it is only natural that Mrs. Caldwell finds herself placing radio-tv business for accounts familiar in the corner drug store and requiring heavy point-of-sale merchandising in addition to regular consumer advertising in mass media like radio-tv.

Topping her list is the Southern California Pharmaceutical Assn., representing 1,300 independent retail stores whose extensive radio-tv advertising is part of a total marketing package sold by the association to national manufacturers. Under this plan, she buys time to promote such products as Paper-Mate pens, Schick electric shavers, Analist, Charles Antell Inc., Tartan (McKesson & Robbins), Mystik Tape, St. Joseph aspirin and Zotox, a poison ivy remedy of Zotox Pharmacal Co.

Born Jody Green in Bartlesville, Okla., Mrs. Caldwell wanted to become another Katharine Cornell so she went to New York and studied serious drama for several years at various professional schools. She did summer stock and then opened her own school at Bartlesville in 1940. Two years later she joined the announcing staff of KVOO Tulsa and in 1944 switched to WWVA Wheeling, W. Va., where she did copy writing, retail contact and other advertising chores in addition to announcing.

She went to Los Angeles in 1946 to work for Howard Hughes Productions and soon became Mrs. William T. Caldwell. She left Hughes in 1947 to keep house and plan for the arrival of Debby, the Caldwell's only child. By 1951 she was anxious "to get back in business" and joined KFI-Tv Los Angeles as sales secretary. Subsequently changing to part time work, Mrs. Caldwell "helped out" at Irwin-Los Angeles Adv. and Telemount Productions.

By 1954 she was back to fulltime work as media director and timebuyer for Noel Lent Adv., Los Angeles, and early last year switched to her present position with Falkenhainer.

Her husband is in charge of customers' relations for the electronic division of Rheem Mfg. Co. The Caldwells have their own home in North Hollywood where "I try to keep down the volume on my husband's hi-fi system," she says.

WCCO Radio’s stature as the Northwest’s 50,000 watt giant is greater than ever. Fact is, its 56.1 per cent share of audience in the Minneapolis-St. Paul market is a national record. This 56.1 per cent is the largest share captured by any station in any of the 27 major markets currently measured by the A. C. Nielsen Company. It’s the result of unmatched program popularity and enormous power which carries your sales message throughout 109 primary counties in four Northwest states. Check with WCCO Radio or CBS Radio Spot Sales for full details about this record-making buy!

The $250,000,000 Give-Away Show!

by Harold F. Walker

A Quarter of a Billion Dollar Market is available in the Memphis Negro Trade Area! Naturally, the $250,000,000 Question is: HOW YOU can get in on the cash award? Here’s the answer. WDIA’s 50,000 watts and consistent top-ratings control, almost to monopoly, Negro consumer contact in this section of the South.

Specialized Market

There is, within WDIA’s radius, a total of 1,237,686 Negroes—nearly 10% of the entire Negro population of the United States. They will earn in excess of a quarter of a billion dollars in 1956, and they will spend 80% of their income on such commodities as coffee, detergents, drug supplies, and soft goods. WDIA is meeting this specialized market with customized sales promotion for name-brand merchandise, such as:

- Castile Soap
- Liver Pills
- Maxwell House Coffee
- Cheer, Kellogg, and Colgate Dental Cream

Specialized Station

WDIA can channel your sales messages directly to ready-made, loyal audiences, because this 50,000 watt station is operated exclusively for Negroes. Programs feature only Negro talent—announcers, MC’s disc jockeys, musicians, and home economists. Listeners, with a quarter of a billion dollar pay check, feel that WDIA is their station. They respond to Negro stars with racial pride and support products, which they represent, with stout fidelity.

Market Development

Moreover, this market potential is just developing. As industry moves more and more rapidly to this section, Negroes become a stronger integral factor in the expanding economy. They are evolving a social consciousness, elevating their standard of living, constantly buying more and better goods.

Market Foundation

The market foundation is, already, an established order. WDIA can sell your consumer goods over radio programs that offer more opportunities than a Give-Away Show. You ask the questions, we furnish the answers on how to win your share of a $250,000,000 Market. Send your name and address, on your letterhead, today. We will mail to you irrefutable facts and figures, along with your bound copy of, “The Story Of WDIA.”

WDIA is represented nationally by John E. Pearson Company.

THE attack on option time and the policy of selling a basic network is an attack on the very foundation of the network system. Those who call for the elimination of these procedures make the pretense that they are proposing only a few minor adjustments in the network operation. Such "adjustments" would be as minor as cutting off the current from a TV set, on the claim that this would improve the picture.

Who is levelling this attack on the fundamentals of the network service? It is not the viewing public, or the affiliated stations, or the national advertisers—all of whom derive great benefits from this service.

The attack on option time and the basic network policy ostensibly comes from the president of KTTV Inc., the licensee of an unaffiliated television station in Los Angeles, who testified at length before this committee on the alleged "restraints" involved in these network procedures.

His testimony falls into clearer perspective in the light of the undisclosed interests for whom he was speaking when he testified before this committee.

We understand that Mr. Moore's presentation was part of an organized campaign previously agreed upon and financed by a group of film syndicators and related interests, whom Mr. Moore served as treasurer and to whom he has made periodic progress reports. We further understand that this film group had a series of meetings, agreed upon the retention of counsel who represented Mr. Moore at his appearance before this committee, and consulted together on the network attack to be made through Mr. Moore.

Among the members of this film group were Ziv Television Programs Inc., Television Programs of America Inc., Official Films Inc., Screen Gems Inc., and General Teleradio Corp. (now RKO Teleradio Pictures Inc.). The first four companies just named are television film syndicators; one of them—Screen Gems—is owned by Columbia Pictures, a major Hollywood motion picture producer. The fifth company, RKO Teleradio Pictures, is part of the RKO motion picture organization with principal interests in Hollywood film production.

We do not know how many other film or related interests have become associated with this group; but if the committee desires to obtain further information on the matter, Mr. Moore is undoubtedly in a position to supply such information at the committee's request.

If this film group should succeed in undermining the network system, the great national service provided today by three intensely competitive television networks would ultimately be reduced to the lowest common Hollywood denominator. The wealth of fine entertainment, educational and cultural programs available in the diversified schedules of the networks would be replaced by a continuing flow of stale and stereotyped film product. In this connection, it should be emphasized...
that TV film syndicators, such as those represented by Mr. Moore, are by no means the only interests seeking to profit by displacing the network system of national broadcasting.

A wide variety of promoters and financial traders are now entering the television field with masses of old Hollywood film backlog which the motion picture studios are selling to them in bulk packages. Now that television has been developed to a national system serving 37,000,000 homes, these promoters and financial traders are looking to this new public communications medium as a source of quick profit from returns of the old Hollywood movies, most of which have outlived their theatrical usefulness. To obtain such profit, they must force huge amounts of television time for thousands of these movies; and the disruption of the network system offers an inviting route to achieve this objective.

The Hollywood backlog recently released aggregates 1,888 old Hollywood features, and 4,072 movie shorts. These have been released to television for a total of well over $42,000,000.

Over and above this recent release of movie backlog are more than 7,500 old Hollywood features already in the hands of TV distributors.

In addition, among the transactions in current negotiation is the release for television use of the M-G-M backlog of 770 feature films and 900 shorts. According to press reports, a value of at least $50,000,000 has been placed on this package.

The foregoing totals over 10,000 full length feature movies, moving into the television market. These, together with the movie shorts now in syndication would absorb all the broadcast time of a station operating 16 hours daily for more than three years running. Moreover, the amount of film available for television is constantly increasing and is not reduced through use.

A third group of film and related interests seeking to exploit the national television system are the proponents of pay-as-you-see television. Their purpose is to force the television coin box; and although, like the film syndicators, they disavow any intention to supplant the network service, their efforts—if successful—could so disrupt the network system that it could not continue the type of free programming which has made television the vital force it is in American life.

There are various associations between the promoters acquiring the old Hollywood backlog for television and the pay-as-you-see promoters. For example, C & C Television, which has acquired the RKO backlog from RKO Tele Radio Pictures (a member of the Moore group), is headed by Mr. Marty Skiatron, a leading advocate of pay-as-you-see television, which has also testified before this committee.

These film interests and financial traders, if successful in their designs on television, could reap a mountain of profit from the molehill of their contribution to the broadcasting art. But if they achieve their objectives, the American public and the vital new industry of television will be the twin losers.

The networks, which are under direct or indirect attack from these various groups, are the same networks which in 30 years have provided the basis for the creation of three great industries—first radio, then black-and-white television, and now color television.

It was the networks which developed the facilities and skills and undertook the financial risks of building a national television program service—not the film-come-latelys or the promoters with Hollywood backlogs in their portfolios. While the networks were chalking up annual losses of millions of dollars to develop the new medium, the film interests withheld their product from it; and turned to television only after it had been built by others.

Since then, the film syndicators have been expanding rapidly in television. With Mr. Moore as their spokesman, they are now seeking to expedite this expansion by asking the government to create artificial vacuums in the network service—so that they can move in and occupy the field.

From 1947 through 1954, the NBC television network was substantially in the red on a cumulative basis. Indeed, it was only last year—in 1955—that the cumulative operating results of the NBC television network first showed a profit. And Mr. Moore, in this point, is absolutely pursuing—a major and costly new development: the development of color television.

The nationwide audience created by the network service has provided the basis for all forms of television advertising: not only national network advertising, but also national spot advertising, used by regional advertisers and by some national advertisers for selected-market campaigns; and local advertising, used by manufacturers and retailers operating within a single market area. All three forms of television advertising take the networks so much credit for their success.

The networks have provided the base for all forms of advertising on television. The networks have provided the base for all forms of advertising on television. The networks have provided the base for all forms of advertising on television.
verting have flourished. Indeed, national spot and local television advertising volume has had a rate of growth almost precisely parallel to the rate of growth of network advertising volume. When the network broadcasting system was first being estabished by the development of superhigh frequency radio stations under option time arrangements; on this foundation, his firm group constructs a series of other alleged restraints—against affiliated stations, and the well publicized and feared by all advertisers.

The fact is that television film production and syndication are a record business. The film syndicators themselves predict an even greater expansion in their production and sales in the coming year.

The huge expansion in the number and earnings of Hollywood television writers, as officially reported by the Writers Guild of America, also reflects the booming condition of television film production:

"According to WGA records, the highest number of television writers employed during the months of 1956 was 74, compared with 46 in February of 1956. Writers' earnings for February 1956 was $4,583,500.

Writers' earnings in February 1955 were $3,129,400. For January 1955, these earnings were $2,943,400.

The increase shows a responding increase: for the 10 months ending Jan. 31, 1955, gross earnings, as reflected in dues paid, were $13,641,300. This past 10 months these earnings were $4,563,300 or an increase of $3,078,000 (or 73 percent for a partial year on the West Coast." (WGA News, March 1956.)

Why Films Go on Networks

Mr. Moore cites several instances in which KTTV was unsuccessful in obtaining a new film series for use only in Los Angeles because a network or national advertiser had bought the series for use on a nationwide basis. The simplest economic facts of the syndication business, rather than any network practice, provide the reason for KTTV's inability to get such programs. As a rule, the producer of a film series will always prefer to sell it initially to a national advertiser or a network, and subsequently to syndicate on a market-by-market basis, because an initial nationwide sales-production cost-eliminates the producer's risk.

If there is any prospect of decrease in the production of new film for television syndication, it will not be the result of any aspect of network practice; but rather, the result of the release to television of huge masses of Hollywood backlog, referred to previously.

Over and above the many thousands of movie films recently released to promoters for television, and the further Hollywood backlog for which distributors are negotiating—plus the 9,000 half-hour film programs made for television syndication—the syndicators use film program series which have completed their network broadcast. For example, a substantial number of film series, which were broadcast on networks during the past season—and were not renewed because they did not make the grade—are now going into syndication. In addition, the inventory of film for syndication is not reduced through use, but is progressively increased through "reruns."

With this plethora of film for television, there is the most active jockeying for television placement of film product.

The film syndicators represented by Mr. Moore are acting as the spearhead in a direct attack on the network system. They want to create a vacuum in the existing service so that they can fill it with their product. If they succeed, they may see it filled—not by their own product—but by repeated re-runs of Hollywood feature films. The accumulated product in Hollywood's vaults—most of it musty and outdated—would hit television with the impact of a tidal wave. The American viewing public would literally drown in a celluloid sea. This likelihood is given added reality by the huge sums at stake in the trading of Hollywood backlog from motion picture studios to promoters or television stations.

In the play by play for additional film profits from television, the public interest in an expanded television service would be submerged, if the network system is dismantled at the instance of film syndicators and traders. The disruption of the structure of live network would mean the death of a national communications service of great range and viability, with rival film interests fighting over the remains of the television system, which would shrink in scope and public value to a tiny fraction of its potential.

In any event, as regards the specific issues raised before this committee by the Moore presentation, the record is clear that the availability of film programs for use by television stations and advertisers on a non-network basis is not being suppressed by the network service. The facts show, on the contrary, that existing television usage of syndicated film is so active and widespread that it has stimulated continued expansion in this field.

With the demolition of the basic charge of suppression of television film production and distribution, the structure of the Moore argument falls apart. The essential nature of option time arrangements and the propriety of the basic network policy in providing a national network service will be discussed in the following sections.

HE'LL TESTIFY

PART II of NBC's rebuttal to the Moore anti-option time testimony will come June 14 when President Robert W. Sarnoff appears as a witness before the Senate Commerce Committee.

**Broadcasting • Telecasting**

May 28, 1956 • Page 29
BRICKER, STANTON EXCHANGE REBUTTALS

SEN. John W. Bricker (R-Ohio) last Wednesday issued a reply to CBS President Frank Stanton's charge that the Ohio Republican seeks "suppression" of the TV networks [B&T, May 21]. Dr. Stanton penned a reply of his own a few hours after Sen. Bricker's letter was made public Thursday morning.

Sen. Bricker said he was releasing the letter "to clear the record" concerning "misleading and outright false statements" made in Dr. Stanton's speech to the American Marketing Assn. in New York last week. He also wrote the New York Herald Tribune's John Crosby, taking the radio-television columnist to task for describing Sen. Bricker's bill (S 825) for FCC regulation of networks as "malarky" and criticizing his recent report, "The Network Monopoly."

Dr. Stanton, in his reply, stated he was encouraged to learn that it was not Sen. Bricker's intention to suggest public utility regulation of networks that preceded to point out why he thought the senator's feelings must inevitably lead to such regulation.

The Bricker letter to Dr. Stanton:

"Dear Mr. Stanton:

"A condensation of your recent speech before the American Marketing Assn. which appeared in the May 21 issue of BROADCASTING TELECASTING magazine has been called to my attention.

"From a reading of that speech it would appear you feel I am opposed, per se, to the operation of radio and television networks and am unaware of their considerable cultural, economic and national interest value. Your speech implies I propose federal regulation of networks as a means to put them out of business.

"Nothing could be further from the truth. I am an ardent advocate of freedom from regulation except when it is proved such regulation is in the public interest. I am well aware of the importance of networks and do not propose their 'suppression'—to quote your term.

"However, the use to which the public airwaves are put assuredly is a matter of concern to the public interest. Federal guardianship of networks does not connote 'suppression.'

"Your speech further states I seek to regulate 'private radio and television networks—from transmitter to receiver—as public utilities.' No recommendation of radio and television networks as public utilities was included in my recent report on 'The Network Monopoly.' It does not follow that federal regulation of networks is synonymous with regulation of networks as public utilities.

"At present the FCC has regulatory authority over individual stations through its licensing functions and in other ways. But such stations are not regulated as a public utility nor does the FCC attempt to decide rates, as is done in the case of a public utility.

"On the other hand, networks are not licensed by the Commission, which thus finds itself in the anomalous position of having some directive control over individual stations but no licensing authority over what is agreed is the all-important network operation.

"I believe it is in the public interest to provide for the licensing of radio and television networks and to vest in the FCC statutory authority to enforce the stated objectives of the Congress, particularly with regard to the development of local stations.

"Freedom of the networks from regulation has brought about an economic picture I find extremely disturbing. It is not a healthful condition for two networks and their owned stations to account for approximately one half the net income of the entire television industry. There are other disturbing parts of the picture discussed in my report."

TEXT of reply sent by Dr. Frank Stanton to Sen. Bricker late Thursday:

"My Dear Senator Bricker:

"The text of your May 23 letter to me, as released to the press today, has been reported from Washington.

"It is encouraging that you say that you are not opposed to networks, that you recognize 'their considerable cultural, economic and national interest value,' that you do not propose regulation 'as a means to put them out of business,' and that you do not seek to regulate networks as public utilities.

"I have difficulty in reconciling the statements in your letter with the implicit and explicit thrust of your report, 'The Network Monopoly.' In that report you devote major attention to an analysis of network profits and to the profits of network affiliates. You charge that these profits are 'exorbitant.' You state specifically on page six 'that the figures cited herein on revenue, income and profits are but one link in the chain of facts which demand regulation of the networks to assure proper equity in the industry."

"It seems to me that in this respect your report most clearly looks toward regulation which in fact would equate networks with public utilities. I do not understand how regulation of networks explicitly designed to achieve what you believe to be a more equitable distribution of 'revenue, income and profits' can be accomplished by a mere licensing function, confined, as you suggest, to the same kind of 'guardianship' as now obtains in licensing individual stations. Control of 'revenue, income and profits,' to me is synonymous with public utility regulation.

"Similarly, the major attention in your report of the networks' affiliation practices, to the rates stations charge for network programs and to 'access' by stations to network programming, all seem inevitably to mean that these are factors which underlie your proposal to regulate networks.

"If you propose to have the FCC regulate a station's network rate, regulate to whom networks will provide network service and regulate on which specific stations specific programs will be placed, it would appear to me that you are advocating regulation of networks as public utilities. I believe that your report itself compels the conclusion that regulation not at all dissimilar from public utility regulation is, whether you intend it or not, what is contemplated.

"In your recent statements by you confirm this conclusion. Your public statement on the record in the course of the current hearings of the Senate Interstate & Foreign Commerce Committee that there should be regulation 'from transmitter to receiver' and your recent statement to the Associated Press of May 13 that an added reason for the passage of your bill to regulate networks is to provide a 'check on television networks' handling of news and controversy, etc.' frame your conclusions in my American Marketing Assn. talk.

"But in any event, you have explicitly suggested regulation of networks as public utilities. On March 26, 1956, you stated (pages 1656-7 of the current 'television inquiry' hearings before the Senate Committee on Interstate & Foreign Commerce):

"'Now, if you are going to charge them (networks) with a duty for the government to exercise public utility regulation, and it is an essential responsibility of the federal government in this case because of crossing state lines, it should be in this industry. I can't see any other answer to it.'

"I am persuaded, and I hope to be able to persuade you when I appear before the committee, that the perhaps inadvertent result of the enactment of your proposals would indeed be to suppress and possibly destroy networks. It is reassuring to learn now that this is not your intention."

SEN. BRICKER   DR. STANTON

station undertakes to broadcast in designated periods of option time the sponsored programs offered to it by NBC, subject to its right to reject such programs for any of the reasons which have been previously detailed.

These are the basic elements of the obligations assumed by a network and a station in their affiliation relationship. None of these network obligations is assumed by film syndicators.

The option time arrangement is the basic undertaking of a station in its network relationship. The destruction of that arrangement would also destroy the network-affiliate relationship on which the network system rests.

The Content of Network Programming. Network programming is distinguished from syndicated programs in that it is: An overall service, covering the full range of audience interests, and not a series of unrelated shows; furnished on a regular daily schedule; developed under public interest standards, since the networks themselves are licensees of a limited number of the stations carrying the network service, and based on the technique of live presentations.

The latter characteristic makes use of television's special quality—the feature which distinguishes it from other media: its immediacy and ability to convey to viewers the events they are happening. This attribute is indispensable for certain presentations, such as special event coverage, actually programming and sports, and spontaneous events which add values to many other types of programs.

Live programming on a national basis is
possible only through networking. Networking, in turn, requires interconnection facilities and a program clearance arrangement with stations which is accomplished by option time. Without the network service, television would shrink from its present communications system to a film transmission mechanism, supplemented by locally produced shows. Live programs accounted for 88.1% of the total program time on NBC networks during the week of March 18-24, 1956. By contrast, KTTV's schedule for a similar week consisted of only 9.8% live programming, with an additional 15.9% combined live and recorded time. The network program service is not only unique in the four broad characteristics just listed, but in its individual elements, which also require the networking procedures which are under attack by the film group. These elements include:

(1) A visual news service in which outstanding reporters and analysts collect, present and interpret the news on a worldwide basis. To provide this daily news service, which is a basic source of information to the public, NBC has its own news organization with a staff of over 250, including commentators, who work in partnership with NBC foreign offices in London, Paris, Rome, Bonn, Tokyo, Hong Kong, Taipei, Singapore and Cairo. This news organization shoots about 150 films a year, some of which have been marketed by NBC. The annual cost of this news operation exceeds $3 million. Film syndicators provide no such service to stations and the public.

(2) Coverage of special events of national importance. Networks are the only program organizations which, as part of their overall service, undertake to furnish stations with live coverage of important public events such as the political conventions and national election campaigns, addresses by the President and national leaders, the presidential inauguration, and congressional hearings; or with comprehensive live sports coverage of leading sports events, including the World Series, the major football classics, championship fights, the principal golf matches and tennis tournaments.

(3) Significant cultural and public affairs presentations on a national basis, for which networks assume the cost and furnish to stations whether or not they are sponsored. As distinguished from film syndicators, networks furnish stations with programming produced at the networks' cost as a public service, such as cultural presentations, specials and series. Examples in the field of information and culture are series like The Search or Adventure on CBS; NBC's Elder Wise Men series—which has brought a nationwide audience face-to-face with such outstanding personalities as Herbert Hoover, Robert Frost, Wanda Landowska, Pablo Casals, Nehru, Sean O'Casey, Bertrand Russell—or the NBC Opera Theater series, including programs, which have been produced by NBC. The Opera Theater has cost the network over $2.5 million to date in presenting opera performances on television without a sponsor.

(4) The innovation of new program forms and techniques which have tremendously enlarged the value of television to the public. Film syndicators are program merchants, not producers. Their product falls largely into the standardized pattern of the half-hour drama, adventure, situation comedy or western series. While this type of program has a place in the television service—and is incident to the public's elements in the television schedule—it must be recognized that the principal program experimentation and development in television—the type of presentations which have opened new and broader horizons for the medium—have come from the networks, which have undertaken the risks and costs of program innovation. To cite a few examples from the NBC service:

The Sergeant. This program form did not exist in television until it was created by NBC in 1954. It consists of 90-minute live special entertainment events, with each series scheduled on NBC's Monday for two years, so that the individual productions can have the benefit of maximum creative attention, long and thorough preparation and the participation of outstanding talent who are only occasionally available. The series features films and television adaptations of plays like Shaw's "Devil's Disciple," or with Maurice Evans, "Heidi," "Babes in Toyland," and "Alice in Wonderland;" Robert Sherwood's "Petrified Forest;" "Cynano de Bergerac;" Katharine Cornell in "The Barretts of Wimpole Street," and Mary Martin in "Peter Pan." NBC has thus far presented about 70 major productions of this type. They have given the whole television medium a broadened scope and values.

The Telemataries. This is another form developed by the networks. Victory At Sea, a 26-episode history of the Navy, with a specially-commissioned symphonic score by Richard Rodgers, is one example. Others are the treatments in depth of a given subject like "Three, Two, One, Zero," on the atomic bomb; "Nightmare In Red," a history and analysis of Russian communism; "Assignment India," and the like. To cite another example, documentary films like Home, which documented the rise and fall of Nazi dictatorship—major contributions to public information, furnished in many cases on an unsponsored basis, at NBC's cost.

The Network Service Shows. Live programs like Home, Today, each costing several million dollars a year, would not have been developed by any other program source and scarcely could be produced by any organization other than a network, even NBC. An hour-long program each weekday, presents national authorities dealing with homemaking, health news, child care, fashions, family management and new products. Today, scheduled two hours daily, five days a week, is a more general news and information show, keeping viewers current on national and international affairs and the forthcoming events of the day; reviewing books, plays and movies, and presenting the leading personalities of our time.

Wide World. This novel program service takes a nation-wide audience around the country—and to neighboring countries—with tours of American cities, so that viewers can see America's ways of life and activities while they are happening. A single program, like the one of May 13, 1956, covering the U. S. Armed Forces, takes several months of planning and preparation. It is a single, consecutive presentation in its structure. This structure—a schedule of consecutive programs related to each other in a planned sequence—also makes option time arrangements unnecessary, so that the values of the networks can be preserved—subject to any station's veto of any program in its market—as it is broadcast nationally over multiple outlets.

The scheduling of the network program structure has as its objective the scheduling in each period of the type of program—and the particular program within the general type—which will be most effective at the light of the program group needs and follow it, the competing programs of other networks, and the type of audience available at the time.

Sources and Responsibility for Network Programming. The decision on what specific programs shall go into which period times programmed by the network cannot be delegated to the many different program sources on which the network draws. The network as an organization, which has an individual interest only in a particular program or time period, the responsibility for organizing the overall network schedule.

Although the network must itself decide on the development, selection and organization of its program structure, many of its programs come from organizations and individuals outside the network itself. This is because a network, running over 80 hours a week of widely diversified programming will have the benefit of as many different creative talents as possible.

In NBC's case, more than half of the program schedule is produced by a variety of outside organizations. It is obvious, as Mr. Moore states, that there may be programs not on the air, which, if given

**Moore Answers Bricker, Repeats Blast at Networks**

ANSWERS by Richard A. Moore, KTTV (IV) Los Angeles, to questions asked by Sen. John W. Bricker (R-Ohio) during Mr. Moore's testimony before the Senate Commerce Committee March 26 (R-T-A, April 2) have been submitted. Taking 45 typed pages to answer 50 questions asked by Sen. Bricker sympathetic to Mr. Moore's testimony charging tv networks' "time option" and "must buy" policies, the Senate committee's former relations with CBS and elaborated on Mr's March 26 testimony.

Mr. Moore said network affiliates can't individualize programs for fear of losing affiliation: option time has helped CBS and NBC get an edge on ABC through shortage of outlets; affiliates telecast virtually 100% of network programs, network programming like shows; national advertisers have no alternative but to deal with networks; same for independent producers; networks are timebrokers for sale of time to stations they don't own, getting 70% commission.

He added that station's local programming responsibilities are pre-empted by distant network executives; advertising agencies could not gain the same results if they freely chose "option time" and "must buys" would lead to government rate regulation for stations, since rates are imposed where there is protection from competition, while the Moore proposals would introduce free competition.
network battle

public exposure, might be more attractive than certain programs which are on the air. This truism applies to every entertainment medium, and it would apply to television even if networks did not exist. The appeal of a program cannot be finally tested until it is on the air, and there are always more potential programs than can be broadcast. The networks themselves screen thousands of program ideas, audits, and performers from which the programs of the future are developed. Each network, in fierce competition with the others, strives for hits, and together, they are giving the public the finest program service available in the world.

The Economics of Network Programming. The provision of this network program service in a highly competitive industry is an undertaking requiring huge financial commitments for talent and program development. The network provides a regular volume of programs whether or not they are sponsored. It takes the risk of obtaining sponsorship on a basis which ultimately will recover the costs of the programing. And when the popularity of an established program or performer declines, the network has to absorb the costs of the long-range commitments involved in order to assure the obtainment of the program or performer in the first instance.

Accordingly, the significant financial dimension in the network business is money at risk—not money in the programming budget, but it is addition to that, the financial commitments for talent, program properties and the other elements for which networks must commit on a long-term basis.

$100 Million at Risk

In the case of the NBC television network, money at risk may often exceed $100,000,000—only a minor part of which is represented by liabilities. Certain properties, such as values that constitute the concomitant of the national advertiser's patronage, are not recoverable by the network programs they are sponsored. As a national advertiser, NBC can be deprived of its national service to the public by network cancellations, or by the failure of networks to carry the programs the advertiser has paid for. The market value of such programs for NBC, in 1955, was $250,000, as against national advertising of $724 million for magazines and $750 million for newspapers. And the latter two long-established media have continued their growth during the years of television's expansion.

In order to compete effectively for the national advertiser's patronage, networks maintain extensive sales organizations supported by many sales offices and promotional services. In NBC's case, the television network sales organization has grown from a staff of 10 people in 1947 to 201 in 1955. This sales operation is also assisted by a Planning and Development Department. The NBC Department undertakes a fundamental research project on the advertising effectiveness of television as a medium. These NBC television research studies, each costing over $250,000, have given new input into the development of all forms of television advertising.

Their results have been made available to the whole broadcasting industry—to other networks, stations, advertisers and their agencies, independent program producers, and film syndicators.

No matter how aggressive and thorough a network's sales operation may be, it would be unproductive if the network could not give the national advertiser some assurance that it is capable of delivering what he wants to buy and can buy from other national media: national exposure of his sales message.

The stations and networks recognize that they are able to bring to the public a well rounded high-quality program service because of the network-affiliate relationship and its essential integrity.

The high percentage of clearance by stations for network service in option time, upon which Mr. Moore places so much emphasis, is neither sinister nor surprising. Such clearance simply reflects the stations' recognition of the unusual values of the program service furnished by the network, in terms of audience attraction, the strengthening of the stations' standing in their communities, and the economic benefits to them. The network recognizes these values but asserts that some network programs are "inferior" to available non-network shows. This, of course, a matter of judgment, and it is the station's judgment that is operative.

The film industry reports that Mr. Moore catalogs various non-network programs which obtained higher local audience ratings than a number of network programs in the same market; and from this, it is argued that the network programs are "inferior" to those on "superior" non-network programs. The illustrations used in no way support such a conclusion, because:

a. The non-network programs cited for their superiority in most cases carried by network affiliates, the very stations claimed to be "restrained"; and
b. The network and non-network programs compared were broadcast at different time periods, against different competing programs, and with different preceding and following programs—factors which strongly influence audience judgments.

Although the percentage of clearance for network programs in option time is high, there are many cases where an affiliate exercises its judgment to carry a syndicated film show in such a case the network's bargaining abilities are reflected in the syndicated programs cited by the Moore group, to determine the extent to which they were carried in evening time by network affiliates in the 48 months listed. The results are set forth in the following tabulation:

As appears above, in 44 of the 48 markets, Highway Patrol was carried by network affiliates, and in 19 of these cases it was carried in network option time. Another syndicated film series, Science Fiction Theatre, was carried by network affiliates in 41 of the 48 markets and 17 of these affiliates carried the program in evening option time. All told, 31% of the broadcast time devoted by affiliated stations to carrying these syndicated programs was evening time subject to network option.

It is clear from the foregoing that affiliated stations are not, as Mr. Moore claims, deprived of their freedom of action by option time arrangements.

Option time is the clearance procedure agreed upon between a network and affiliated stations whereby the network program service, consisting of the planned and organized program structure, can be simultaneously broadcast over multiple facilities across the country. This is the essence of network service to national advertisers, stations, and the public.

For national advertisers, option time provides the means for obtaining from a network the collective national circulation generated by a specified network program series, which is broadcast at a designated time for which the advertiser has contracted, over multiple outlets which he has ordered across the country for the specified time period and program series. No network advertiser has objected to the option time policy. Without it, the network system would disappear as an effective medium for national advertisers.

For affiliated stations, option time enables making orderly provision for receiving from network a daily volume of programming which provides the stations with their principal audience attractions; builds their audience; increases the value of their time; gives them network revenue; and, it is alleged, gives them highly salable adjacencies from which they can obtain national spot and local advertising revenue.

No affiliated station has objected to the option time principle. On the contrary, stations eagerly seek affiliations with networks, and the option time agreement is the heart of the affiliation relationship.

In urging the elimination of option time, the
These H-R men are going places . . . as they do everyday. Carrying the facts, figures and sales story of the stations we represent to the desks of buyers of time. They may be the mature, experienced, resourceful, sales minded members of the H-R staff, or the working partners who head up this firm, all of whom make daily calls. But whether its one of the partners, or the newest member of our staff, you can be sure he has what it takes to fulfill our promise to "always send a man to do a man's job."
16% more viewers* per rating point!

Here's proof of dominance! In the Grade B area of WXEX-TV, there are 16% more TV homes* than in the Grade B areas of either Station B or Station C. You get a bonus of two TV homes with every 12 homes you buy on WXEX-TV.

The dominant station serving

*Service contours of stations considered are for maximum power and tower calculated from information on file with FCC, and based on latest available ARF figures. Station B now operating on interim low power and tower. On this basis, the Grade B area of WXEX-TV delivers 57% more TV homes than does Station B.

Tom Tinsley, President
Irvin G. Abeloff, Vice Pres.
film group represented by Mr. Moore proposes that in lieu of this arrangement, stations could enter into contracts with networks to carry a specified program in a specified time period "for firm periods, such as 13, 26, 39, or 52 weeks." Of course, if affiliates during the option period contract for all network programs, the result would be the very result which this film group seeks to destroy, but with enormous administrative costs for at least hundreds, if not privat contracts a year between a network and each of 200 stations on changing lineups ordered by advertisers and with no advance potential for clearance on the basis of which the sponsor commits his advertising.

For the public, option time makes possible a responsible, diversified and carefully organized network program service on a national basis, including a worldwide news service, great live programs and major public events. Live programs constitute the bulk of NBC's total program output.

HOW NBC'S LAWYERS STATE THE CASE

NBC's brief, prepared by its attorneys, Cahill, Gordon, Reindel & Ohl, New York, and filed with the overall network statement, differed, point-by-point, with a brief prepared for KTTV (Television) by Mr. A. Moore of the University of California Law School. Mr. Moore presented NBC's brief and with Mr. Moore's testimony and additional remarks by Dr. Turner.

Defending option time and NBC's must-buy requirements as necessary for its survival, the NBC brief made these points:

I. The FCC made an exhaustive consideration of the public interest and the Sherman Act before it issued the Chain Broadcasting Regulations "now under attack" and the Paramount and Griffith motion picture cases have "nothing to do with this matter." Regarding the "rule of reason" by which the Sherman Act is interpreted, it is necessary in determining whether a restraint is unreasonable, and hence unlawful, to examine the industry in which the restraint occurs to find whether it is in furtherance of a reasonable business purpose.

II. To advertise on a national scale by tv, NBC (1) must option time on affiliates to provide simultaneous exposure throughout the country; (2) must require advertisers to buy national programs in the option period in the form of a basic minimum of 56 stations in order to be a national network; (3) must present a full program, sponsored or not, to affiliates to maintain a network of stations with broad circulation.

As a radio network entering tv, NBC trod where the movie industry was afraid to tread and to achieve a national network had to secure a minimum audience (through option time) and national circulation (through must-buy stations).

III. Option time is not an unreasonable restraint of trade.

A. It is not illegal per se (as claimed by Dr. Turner). The Paramount Case, if it held "block booking" to be illegal per se, did so only because of copyrights of properties involved. These bear no relation to option time because (1) NBC sells nothing to stations, but buys time for programs the station may veto; (2) there is no tie-in of one program with another for acceptance; (3) no copyrighted material in a program is being licensed to stations, for instead the network pays stations for broadcasting sponsored programs containing the copyrighted material.

B. Option time is essential to a network and if a network is in the public interest, so is option time. A network must have a daily schedule of time available to depend upon or otherwise it will have no assurance of circulation and nothing to sell to national advertisers.

reasons for option time are so pressing (and of limited nature) that "it cannot be held violative of the Sherman Act."

C. Option time is reasonable. A network can only 60% (21 hours) of a station's 35 hours of Class A time, and NBC's option time has many limitations. Non-network program supplies can option time, too, and one reason they don't is that NBC affiliates prefer NBC programs.

D. NBC's basic must-buy policy is not an unreasonable restraint of trade.

A. It is not comparable to the Griffin case because (1) most NBC basic affiliates are in markets with competing stations and there is no monopoly of an audience to gain an outlet in another; (2) NBC charges advertisers for "one homogeneous thing—a nationwide audience," while the Griffin situation involved gaining a competitive advantage for aggregating theatres and bargaining for them as a group, with each theatre showing different films at different times.

B. NBC's top quality shows could not be presented without national circulation. NBC uses its must-buys out of 200 affiliates.

C. A basic network is reasonable. NBC is a national network, not a regional, and cannot be expected to make regional advertising deals available. Networks are selling to advertisers for those desiring national coverage. Those desiring less have many paths open to them."

The basic network policy represents an agreement between a network and stations "whereby each station agrees to withhold certain desirable time periods from sale to any advertiser unless the advertiser agrees to purchase equivalent time on all stations throughout the country who are parties to this agreement."* Mr. Moore's further claim that ABC has no basic network policy (and that accordingly such policy cannot be used by advertisers) is not in accordance with the facts. The ABC basic network policy is in terms of a minimum dollar purchase, including the ABC-owned stations, as follows: "Advertisers are required to purchase a minimum cleared gross for station time equivalent to $300,000 per Class A hour. Advertisers are required to order as part of the applicable marketplace, ABC-owned stations and any other ABC-owned stations added during the effectiveness of this rate card."
ent advertisers. These facts demonstrate the absurdity of a claim that advertisers are forced from using television for regional or selected market campaigns, or that spot television cannot effectively operate because of the national network service.

So far as the practical requirements of national advertising are concerned, they normally involve advertising exposure going well beyond the basic network. The advertisers who use NBC's facilities generally order and order many more affiliated stations than are included in the basic group. Currently, the facilities ordered by NBC advertisers for sponsored evening programs average 129 stations, although the minimum purchase unit, consists of only 56 stations.

There is no merit to the claim that the basic network policy facilitates small-budgeted national advertisers from use of the network medium. Although NBC's minimum facilities unit is designed to provide basic national coverage, its purchase units are so varied that they make network television advertising accessible to all types of national advertisers, regardless of the size of their budgets.

Thousands to Millions

For example, on the NBC network, national advertising can be bought in forms ranging from a single 15-minute message costing a few thousand dollars to annual sponsorship of a color spectacular series at a cost of over $4,000,000 with every graduation between these extremes, to fit any budget or requirement of national advertisers.

The actual use made by advertisers of this national medium reflects this range and diversity of opportunity. In 1955, the advertiser with the smallest expenditure order was Edison Chemical Co., which bought one announcement in Home for $6,700; the advertiser with the largest expenditure was Procter & Gamble, which spent $11,000,000 for a number of NBC daytime and evening programs.

A great variety of small companies with national distribution have used and are currently using network television for low cost campaigns. Through the use of this medium, they are increasing their markets and enlarging their operations.

In 1955, the composition of national advertisers on the NBC television network broke down as follows: radio stations and Foreign Service, 8%; of their gross time expenditure on the network:

<table>
<thead>
<tr>

</tbody>
</table>

The foregoing puts to rest the claim that the basic network policy has the effect of confining network television to the advertising plans. NBC's sales patterns are deliberately designed to democratize the advertising use of the medium for all national advertisers.

Although NBC's interconnection costs represent only one of the many elements in its fixed cost structure, they illustrate what could result from the elimination of the basic network sales policy. NBC leases intercity circuits which make possible the interconnection of 176 basic network facilities at all tenaciously. The networks are generally leased under monthly contract in a minimum unit of eight hours a day, seven days a week, which represents the most economical way for NBC to buy the service from the telephone company.

If NBC could not establish a minimum facilities purchase requirement, presumably it would have to accept the business of an advertiser who wants to buy only 10 or 15 stations with revenue to the network which would not even meet its interconnection costs. This is like arguing that Life magazine should be forced to sell advertising at one-quarter of its established rate to an advertiser whose distribution is limited to one-quarter of the country, and who wants to buy the circulation Life furnishes in that quarter only.

Perhaps the most significant factor in the media field is the Sunday supplements, such as the Metro Sunday Magazine Network, which acts as sales representative for national advertising in Sunday supplements published locally by a group of newspapers affiliated with Metro. The Metro and its "affiliated" newspapers have some marks of similarity to that between a network and its affiliated stations, with the significant difference that Metro provides only the advertising and is not responsible for the editorial material in the supplements; whereas a network undertakes the provision of a costly program service to its affiliates, as well as the development of advertising requirements.

Despite the fact that it does not have the fixed cost of producing the supplement, Metro operates under a "must buy" policy in the sale of national advertising in these supplements. In its case, the minimum requirement is a supplement in each of 26 "Basic Group" cities, out of the total Metro group of 30 supplements in 27 cities. The Los Angeles Times, published by the Times Mirror Co., is a "basic" ("must-buy") affiliate of Metro.

Apart from its advertising and economic justification, NBC's basic network policy serves an important public interest function in assuring that the minimum public value, which NBC has equipped itself to furnish to a nationwide audience, will be available at least to a majority of that audience*, and assures against the possibility that an advertiser could, by limiting the number of stations he orders, confine the program to a minority of the public.

It is curious that there should be an attack on this sales policy by those who purport to speak for the public interest. Indeed, it is because such a policy cannot, as a practical matter, go far enough in providing for the availability of programs in additional smaller markets, that NBC developed two plans to help affiliates in such smaller markets obtain network sponsored programs which they needed and wanted, but for which they were not ordered by the network advertiser. Until these plans were adopted, the normal practice in network broadcasting was to furnish sponsored programs only to stations ordered by the program sponsor. Accordingly, where the advertiser ordered a relatively small number of stations in addition to the basic group, many communities were deprived of access to the program.

Under these two plans—the NBC Program Service Plan established in September 1954—various NBC sponsored programs, with the network commercial announcements deleted, are made available, as a service to optional affiliates which are not ordered by the sponsor. These smaller-market stations have eagerly welcomed this additional network service. As a result of it, they have been able to furnish their markets certain popular network shows, which they otherwise would not have received. This in turn has increased television circulation in their markets and has made them more effective elements in the national television network.

A related procedure to make more network-sponsored programs available to smaller-market affiliates which had great need for such programs. NBC's action in developing these plans was applauded by the stations and by government leaders.

The proposal of the film group to outlaw the basic network policy would foster the opposite results—the withdrawal of network service from many communities at the dictate of any advertiser who sought to use a national medium for restricted coverage.

Conclusion

Opinion time and the policy of selling a basic network involve no unreasonable restraints.

They are necessary and proper procedures in conducting a national sales policy.

The network service has been the basis for the development of television to its present scope, and is now the basis on which the new industry of color television is being created. It has been and is the source of television's outstanding contributions to the public. Without an effectively operating network system, there could be no live programming or special event coverage on a national basis; the country's television source would be limited to local programs and films.

Adoption of the film group's proposals would have the effect of supplanting a vital, diversified and responsible service provided by NBC's programized film programs and old Hollywood movies. The result would be a contraction of the scope and usefulness of television and a grave disservice to the public.

PROBE DATES RESET FOR NETWORK HEADS

RESHUFFLING of dates was announced last week for the appearance of the three radio-television network presidents in June before the Senate Interstate and Foreign Commerce Committee.

Kenneth Cox, special committee radio-va counsel, also announced the names of two NBC-TV affiliates who will speak on behalf of the network the following week.

CBS President Frank Stanton, originally scheduled to testify June 11 (BT, May 21), will appear instead the following day, June 12. NBC President Robert W. Sarnoff, scheduled to testify June 12, was moved to June 14, and ABC President Robert Kintner, originally set for June 14, was rescheduled to June 15.

The changes were made so Sen. John W. Bricker (R-Ohio), ranking committee Republican, and Sen. Kenneth Cox could not be present on June 11 because of a firm commitment to attend a meeting that day of Ohio GOP delegates to the San Francisco convention.

The two NBC-TV affiliates, Lawrence H. Rogers, WSAZ-TV Huntington, W. Va., and Joseph L. Floyd, KELO-TV Sioux Falls, S. D., will testify June 20. CBS-TV and ABC-TV affiliates, representatives of a network not yet named, will appear June 18 and 19, respectively.

Edward Breen, KQTV (TV) Fort Dodge, Iowa (ch. 21), last week offered to testify before the Senate group. Mr. Breen did not indicate the specific subject or position he would take.
“Then try that big league team up there in Maine, like all these sharp young radio and TV buyers keep saying!” Smart counsel from Al Schacht, baseball’s famous clown-prince-turned-restaurateur, who delivers a great pitch at his East 52nd Street dugout in New York. A big favorite with his fans from Madison Avenue.

“No curve about it,” he says. “The best nine in Maine are those pay-off counties around the Bangor home-plate. Half-a-billion retail sales tucked right in their back pocket! And the hottest double-play combination to cover ‘em is WABI radio and WABI-TV. Got the bleachers packed with 432,000 customers, all hollering for more!”

Al knows what he hears — and he hears a lot these days. When it’s three and two, and you’re looking for the big one, the wise timebuyers know you can always count on WABI radio and WABI-TV to belt out the winning run on your product. Get your advertising out of the sandlots and play it big league up in Maine!
CHESTERFIELD'S $12 MILLION AD ACCOUNT MOVES TO M-E

Cigarette account leaves Cunningham & Walsh on Aug. 1. Addition will put McCann-Erickson's annual radio-television billings over $200 million.

LIGGETT & MYERS (Chesterfield regular and king size cigarettes and institutional), New York, will move all its 37-year-old association with Cunningham & Walsh, New York, to McCann-Erickson, New York, effective Aug. 1. The shift of the approximately $12 million advertising budget for Chesterfield's regular and king size cigarettes, follows the April 1 transfer of L&M filter cigarettes from C&W to Dancer-Fitzgerald-Sample, New York.

Chesterfield currently sponsors Dragnet on NBC-TV, Gunsmoke on CBS-TV and CBS Radio, Warner Brothers Theatre on ABC-TV, as well as the Red Sox baseball games on radio and television. Chesterfield also uses a major spot television and spot advertisement campaign.

In an interoffice memo last Thursday, however, John Cunningham, C&W's president, who had notified his staff that "tomorrow, Liggett & Myers will announce the appointment of McCann-Erickson to handle the advertising of Chesterfield cigarettes," added that, "nowhere here, who is engaged in servicing the 39 remaining accounts, need have any undue concern." He concluded:

"While we regret the loss of Liggett & Myers' business, we are today a much bigger and much stronger agency—in both billing and personnel—than we were when we started Cunningham & Walsh just six years ago."

Cunningham & Walsh is the successor to Newell-Emmett, New York, which also handled the Liggett & Myers account. In fact, the addition started with Newell-Emmett on April 1, 1919.

The appointment of McCann-Erickson by Liggett & Myers puts the agency in an overall billing class of well over the $200 million mark. Terrence Cunningham, in charge of the radio-television department and plans board chairman, will be management officer on the Liggett & Myers account.

Nathanson Answers Hudnut 'Copy' Charge

DON PAUL NATHANSON, president of North Adv. Inc., has vigorously denied claims by William B. Lewis, president of Kenyon & Eckhardt Inc., that the Toni Co. copied part of Lambert-Hudnut's campaign to introduce New Quick home permanent. Mr. Nathanson said, May 18, that a personal letter from Mr. Lewis charging against Tonio Co. advertising, was used as a "springboard to a promotional news conference" by Lambert-Hudnut.

In a letter to Mr. Lewis, he scored the fact that Mr. Lewis' letter had been circulated to the trade before (Nathanson) had had an opportunity to reply.

Mr. Nathanson said North and Tonio were "most disturbed" at course by current Hudnut New Quick advertising, feeling it "would confuse the consumer and harm the home permanent industry." He said they felt Tip Toni advertising was "necessary if for no other reason than to distinguish between 20 curl and full-size permanents." He said he felt Hudnut did not so distinguish, save in post-purchase package directions.

He charged that Hudnut campaign theme few years ago was "out and out attack upon self-neutralizing permanents and definitely was a setback to the home permanent industry."

Mr. Nathanson admitted it's "always difficult to trace origin of advertising idea but added, "Toni's concern over using left-over lotion should be no news to you," having been "so static" since 1944. Avoidance of using such lotion, he added, was "basic reason for launching of Tip Toni last June" and preceded Hudnut campaign by nine months.

4A Advertiser Unit Silent On Compensation Review Pleas

THE GROWING TIDE of advertiser speeches calling for a review—at least—of the media commission system of compensating advertising agencies was studied without public comment last week by the advertiser relations committee of the American Assn. of Advertising Agencies.

A spokesman said it would be "premature" for the committee to comment now regarding either its own deliberations or the views that have been expressed by several leading advertiser executives, who feel that agency compensation should be more an advertiser-agency matter than one between agencies and media [B&T, May 21].

There were indications that some statement might be forthcoming later, however. The 15-man committee, headed by Harry Harding of Young & Rubicam, New York, and William Marsteller of Mazzetti, Rickard, Gebhardt & Reed, Chicago, met Wednesday in New York. Other meetings will be held, but exact date for the next session has not been set.

The group is a regular committee of AAAA, but officials said some time ago when the provocative issue of agency compensation methods began to arise that "an vigorous and thorough inquiry into all phases of this subject" would be its "primary assignment."

AAAA members and leaders contend the commission system is "the sparkleplug of the agency's creative contribution" and has "in every way proved its worth."

The board of directors of the Assn. of National Advertisers, on the other hand, claims that the function of agencies has changed materially and recommends that advertisers individually review the situation with their agencies, definitely considering compensation to be "a prime responsibility of the advertiser."

ANA also has set up a special committee under Kraft Foods Sales and Advertising Director James B. McLaughlin to study the problem.

Mahoney to C&W From B&B

EDWARD H. MAHONEY, vice president in charge of television production and executive producer on the Pooter & Gamble account, Benton & Bowles, New York, last week was appointed vice president in charge of radio-television for Cunningham & Walsh, New York. The move becomes effective this Friday.

Will B&B since 1949, Mr. Mahoney had been instrumental in making such clients as General Foods Corp. and Norwich Pharmacal Co. tv-active. Before joining Benton & Bowles, he was an executive with the International Bank for Reconstruction & Development in Washington and a consultant art director for Louis de Rochemont Productions.

Geyer Adv. Elects Two V.P.'s

DONALD J. SLATTERY Jr. and Robert P. Wilson, both account executives at Geyer Adv., New York, have been elected vice presidents, Sam M. Ballard, president, announced last week.

Mr. Slattery came to Geyer in 1948 from Lennen & Mitchell (now Lennen & Newell) as a copywriter. Mr. Wilson, with Geyer since 1952, formerly was account executive with W. Earl Bothwell & Co., which merged with Geyer at that time.
The American Broadcasting Company announces the appointment of BLAIR-TV as national representative for WABC-TV NEW YORK KGO-TV SAN FRANCISCO EFFECTIVE JUNE 1, 1956

Two ABC-owned television stations—WBKB Chicago and WXYZ-TV Detroit—have been represented since 1952 by BLAIR-TV
Radio-Tv Ad Skirts Relatively Clean

DESPITE widespread criticism of radio and television for carrying so-called "misleading" advertising, a report issued by the Assn. of Better Business Bureaus shows that in 1955 both radio and television lagged far behind newspapers in the number of advertisements requiring contact with advertisers or referrals to authorities.

The report noted that of 396,504 complaints made by consumers during 1955, a total of 19,618 required contact with the advertisers or referral to authorities. With respect to this latter figure, ABBB said, 17,829 advertisements appeared in newspapers; 474 on radio and 356 on television.

The association said that of advertisements on television necessitating advertiser contact or referral to authorities, the leaders were: home appliances (66), used cars (36), and furniture (33) and new cars (25). On radio, the list was headed by new cars (87), followed by home appliances (84), used cars (32) and radio, television and music sales (24).

During 1955, the report said, 9,366 spots announced were carried on radio, acquainting the public with the activities of the Better Business Bureaus. The story of ABBB also was told through the following means: 600 tv spot announcements and 524 mentions on radio programs and 328 announcements on tv programs, the association said.

C-P Returns to CBS Radio; Sleep-Eze Makes Record Buy

COLGATE-PALMOLIVE is returning to network radio next September, purchasing time on three CBS Radio daytime shows under a 52-week contract that will gross approximately $1.5 million for time and talent. In another buy involving CBS, Sleep-Eze (sleeping pills), Long Beach, Calif., bought its largest block of time on that network.

The Colgate programs involve sponsorship of 10 units weekly of 7½ minutes each, of Backstage Wife, Our Gal Sunday and The Second Mrs. Burton. C-P, whose last appearance on CBS Radio was in 1954 when it sponsored three programs, will use the shows to plug its Toothpaste, Gum and Dazzle strip.

The advertiser recently cancelled three daytime, Monday-Friday, shows on NBC-TV [CLOSED CIRCUIT, MAY 14L, reportedly to devote its budget to its other television sponsorship and spot tv.

CBS Radio also signed Sleep-Eze for three daytime serials, effective June 4. The new purchase represents that firm's largest schedule ever on CBS Radio, according to John Karol, CBS Radio vice president in charge of network sales. The contract provides for an alternate weekly schedule of seven 7½-minute segments every two weeks, on Young Dr. Malone, Road of Life and Romance of Helen Trent.

GE Expands 'Warner' Buy

GENERAL ELECTRIC Co's sponsorship of Warner Bros. Presents (ABC-Tv, Tuesday, 7:30-8, 30 P. M. Edt) will be expanded next season when GE's Lamp Div. joins the Housewares and Radio-Tv Div.'s as alternate week backers of the film program. Meanwhile, starting July 3, the Appliance & Tv Receiver Div. of GE will sponsor part of the Warner show.

The Lamp Div. purchases—through BBDO, Cleveland, and Grey Ad., New York—will fill the void created by the departure of Monsanto Chemical Co. (detergents), St. Louis, an alternating sponsor this past season. The latter's agency is Needham, Louis & Brorby, Chicago. The other sponsor of Warner Bros. Presents is Liggett & Myers Co. (Chesterfield cigarettes), New York, through Cunningham & Walsh.

M-E Moves L. A. Office

THE LOS ANGELES office of McCann-Erickson Inc. has moved to larger quarters for the second time in two years. The agency has leased the entire 13th floor of the new Tishman Bldg. at 3325 Wilshire Blvd. The Southern California headquarters covers 16,300 sq. ft. and includes 40 private offices, a television theater, conference room, model kitchen, lounge, library and general offices.

The Hooper Index of Broadcast Advertisers is a measure of the extent to which a sponsor's commercials are seen or heard. Each commercial is assigned a number of "commercial units," according to its length. * This number is then multiplied by the audience rating attributed to that commercial. ** When each commercial has thus been evaluated, the results for all commercials of each sponsor are added to form the HIBA. For further details of preparation, see the basic reports published by C. E. Hooper Inc., Broadcast Advertisers Reports Inc. and American Research Bureau Inc. Above summary is prepared for use solely by BROADCASTING • TELECASTING. No reproduction permitted.

* "Commercial Units": Commercials are taken from the monitored reports published by Broadcast Advertisers Reports Inc. A "commercial unit" is defined as a commercial exposure of more than 10 seconds but usually not more than one minute in duration. Four "commercial units" are assigned to a 30-minute program, and in the same proportion for programs of other lengths. A "station identification" equals one-half "commercial unit."

** Audience ratings for television, both national and local, are those published by American Research Bureau Inc. Those for radio are the ratings of C. E. Hooper Inc. In the case of stations breaks the average of the ratings for the preceding and following time periods is used whenever feasible; otherwise, the rating is that of either the preceding or following time period, normally the preceding. In the above summary, monitoring occurred week ending April 13, 1956.
Announcing a FOURTH Blackburn-Hamilton Company office in ATLANTA

NATIONWIDE, PERSONALIZED SERVICE

Radio and television are keeping pace with the thriving Southland—where industry and agriculture are setting the tempo for national growth. Blackburn-Hamilton Company, acknowledging the expanding need for its pioneer services, has opened offices at 1101 Healey Building in Atlanta, under the direction of Clifford B. Marshall.

Mr. Marshall's talents as salesman, negotiator and appraiser are well known to the Southern broadcasting community—where he has traveled for twelve years. He will welcome an opportunity to serve you.
CHILDERN’S TV LOYALTIES PINPOINTED

BBDO’s client research analyzes viewing by age group and sex. Throughout all categories, ‘Disneyland’ has greatest general appeal.

THE magic of Walt Disney’s Disneyland continues to be the strongest fascination for children tv viewers. And, according to BBDO findings, next loyalties are shared by canine capers of Rin Tin Tin and Lassie, along with the heroes of The Lone Ranger.

A study of children’s viewing habits has been completed by the research department of BBDO, New York, under the supervision of Ben Gedalecia, director of research. The findings reveal a growth in taste according to age and sex. The survey covered 22 shows the children watched frequently or occasionally.

The survey was conducted through BBDO’s National Children’s Panel, a new consumer research facility which BBDO has established for research in the children’s market. The panel included 3,397 families with children up to 18 years. Actually, there were 7,524 children on the panel. The study was made specifically for the use and benefit of BBDO clients.

The survey discovered that the favorite show of children under the age of six is Disneyland. Vying closely for second place in audience viewing is a group of eight shows—Ding Dong School, Howdy Doody, Lassie, Lone Ranger, Mickey Mouse Club, Pinkey Lee, Rin Tin Tin and Super Circus.

Among children six to eight years old Dis- neyland is still first, Rin Tin Tin is second while The Lone Ranger holds third position. Captain Midnight and Robin Hood begin to come into their own among the six to eight group, while Lassie and Mickey Mouse Club continue among the favorites.

Evening viewing also shows an increase for such shows as Jack Benny, Our Miss Brooks, Ozzie and Harriet and The Perry Como Show.

In the nine to eleven age group The Lone Ranger replaces Mickey Mouse Club in the group of four leading shows. Disneyland continues as leader, Rin Tin Tin is second and Lassie a close fourth.

The late evening shows Your Hit Parade and The $64,000 Question gain a substantially larger audience from this group, where beds have been extended.

In the 12 to 14 age group a ‘general’ change in taste becomes apparent. Although Disney- land remains first, it is closely followed by The $64,000 Question. Still very popular are The Lone Ranger and Rin Tin Tin but Your Hit Parade has now become one of the favorites.

You Bet Your Life now appeals to as large an audience as Lassie.

Perry Como and Eddie Fisher both attract more viewers than Robin Hood but as in the previous case, the audience is more constant for the adventure serial.

Among youngsters from 15 to 18 years of age the “adult” taste begins to appear: “There is a marked increase in preference for shows which have general appeal and a sharp drop in shows with specifically a children’s orienta-

WHAT THE BOYS WATCH

WHAT THE GIRLS WATCH

Television Enters Homes; Movie Take Goes Down 25% MOTION PICTURE theatre box office take has decreased 25% since 1947—the year of the large-scale advent of television, according to a report contained in the May issue of the Commerce Dept’s Survey of Modern Business.

The report, which is concerned with shifts in spending habits in the U. S., does not draw any conclusion as to what influence tv has had in cutting box office receipts at movie theatres.

It does, however, say that “the relatively small increase in recreation expenditures since 1947 has been due mainly to the postwar decline in motion picture theatre admissions, which are the largest single item in the group. “Recreation services excluding motion picture theatres rose more than total consumption expenditures between 1947 and 1955; radio and television repair were particularly important in this movement. “Motion picture theatre admissions reached a peak of $1.7 billion in 1946, almost 2% times the amount spent in 1929. A steady decline through 1953 followed by a rise in 1954 and 1955 had reduced these expenditures almost 25%.”

Page 42 • May 28, 1956
The committee gave high praise to CBS Station KIRO, in Seattle, Wash., in presenting the "Radio Public Service" award to its president, Saul Haas. The citation read: "Since 1948, Station KIRO has broadcast a community development program entitled 'Democracy Is You'. In cooperation with the University of Washington, the station has developed community rehabilitation programs in a unique and effective manner.

"This program has received national and international recognition as an unusual method in focusing community attention upon a wide range of social and economic community problems. The introspective development of these problems has in many cases produced solutions of a far-reaching and permanent nature. Recently in the struggle between the Free World and the communist ideology, KIRO has made the services of the director of this program available for Far Eastern areas, including Japan, Taiwan and the Philippines. The extension of this technique on a community, national and international basis is radio public service of the highest and most distinctive quality."

- Broadcasting in the Public Interest has always been the basic operating policy at KIRO; Seattle, Washington.

- Recognition of this service to the community as the best in the Nation is summed up in the comments of the committee (reproduced here) in naming KIRO for the top "Radio Public Service" award — a fact well known to KIRO listeners in Seattle and the Pacific Northwest.

- Wise advertisers know the power of such high principled policy and performance.

- For complete information and availabilities on — this 50,000 watt, CBS station — 710 kc. call:

GROSS TIME SALES LAST FEBRUARY TOTAL OVER $37 MILLION

GROSS time sales by the tv networks in February of this year ran $6 million ahead of the totals chalked up in February of 1955. According to a compilation of Publishers Information Bureau figures, the February 1956 gross was $37,191,571, as compared to $31,135,540 recorded for February 1955.

Among groups showing increases were automotive-auto equipment-accessories, food-food products, drugs-remedies, soaps-cleansers-polishes and toiletries-toilet goods. Other leading product categories such as household equipment-supplies and smoking materials held their own.

Procter & Gamble as usual stepped out in front as the No. 1 network tv spender with its gross time purchases at $3,257,762 in February nearly twice the amount of the runner-up, General Motors Corp. GM and Chrysler (in the third spot) each were ahead of its spending of a year ago February by about a half-million dollars. Colgate-Palmolive, second in the top ten in February 1955, was fourth in the listing, although last February it spent more that it did for the corresponding month of last year.

The same leading 10 network tv advertisers appeared in the listings this year's February and same period last year except for American Home Products, which spent over $1.4 million, replacing Lever Bros. American Home, placing fifth in the list, also was the top time purchaser on the tv networks in the drugs and remedies field in February.

The tv networks had nearly $11.5 million more in gross billings for the January through February period as compared to the same period of 1955.

KATZ PITCHES DAYTIME FOR CIGARETTES

New presentation by station representation firm points out that cost-per-thousand smokers is less in daytime television than advertisements on evening shows.

NOTE to cigarette manufacturers and their agencies: You’re missing a lot of sales by not getting into daytime spot television.

This is the point of a presentation prepared by the station representation firm, to sell cigarette advertisers on the advantages of using daytime tv, an area they have left largely untouched up to now.

Along with the presentation, unveiled last week, the Katz firm has developed a new formula for determining the number of actual smokers a cigarette advertiser reaches with his television dollar. As pointed out in the Katz study of the daytime audience, this demonstrates that television can be just as good as nighttime in terms of reaching people who buy and smoke cigarettes.

The formula translates “total viewing audience” into a “reasonable approximation” of the number of actual smokers who are viewing a given program. It was worked out by the Katz sales development unit, under Saul Rosenzweig, as a yardstick to show tobacco advertisers how daytime tv announcements stack up—in both cost and impact—against nighttime announcements.

Based on tobacco industry figures, the formula has been discussed with—and apparently accepted by—most of the leading cigarette advertisers, Mr. Rosenzweig reported.

The concept starts with the tobacco industry’s estimate that 60% of the nation’s males and 40% of the women are smokers. These estimates are then applied to television viewing patterns. In daytime, it is estimated that the adult audience statistically consists of one woman and one-sixth of a man per set. Using the 40% “smoker factor” for women and 60% for men, this reduces to 0.48 smoker-viewers per set in the daytime. As an example, assuming one male and one female viewer per set, the smoker-viewer total is one (0.4 women and 0.6 men).

To get the “smoker rating” of an announcement per dollar as well as its “cost per thousand smokers,” the formula applies these “smoker factors” to total ratings and cost. As an example, Katz cited 15 daytime ID’s a week on WSAZ-TV Huntington, W. Va. They cost $180 and had, in the period measured, an ARB total weekly rating of 234.9.

Multiplying this total weekly rating by the daytime smoker-factor (.048) produces a weekly “smoker rating” of 112.7. To get the daytime cost per thousand smokers, the weekly smoker rating is multiplied by the number of tv sets in the area, and the product is then divided into the cost per week. In the WSAZ-TV example, this came out to $0.27 per thousand smokers.

By the same formula, the cost of three well-rated nighttime cigarette ID’s on the same station—which also cost $180 per week—was shown to be $1.10 per thousand smokers, or 11 cents more per thousand.

Mr. Rosenzweig projected this method of comparison on a national scale and found average evening once-a-week shows getting 22.4 ratings and, May through Friday, average daytime programs for adults averaging 9.4. This translates to a “smoker rating” of 22.4 at night, 4.6 in daytime. Cost factors were then applied on the theory that on major television stations 15 daytime ID’s per week cost approximately the same as 3 nighttime ID’s per week. The result was a total smoker rating of 67.2 at night, 69.0 in daytime.

The point, Mr. Rosenzweig noted, is that “the same dollars deliver more smokers with daytime ID’s than a nighttime campaign. Daytime ID’s are in much greater supply and the opportunity now exists to buy better-than-average ratings. Evening television, with considerable programming and announcement business, is much tighter.”

The Katz presentation summarizes the qualitative advantages of such a daytime schedule as follow:

“...Sheer mass of repeated impact on the large daytime segment of viewers.”

“...Relative dominance during daytime as compared with your competitors.”

“...The appeal of increased cigarette smoking to women.”

“...Immediacy of daytime television to shopping hours of women.”

The presentation takes the daytime-versus-nighttime comparison a step further. On each of six stations high-rated nighttime ID’s are compared with daytime ID packages of equal or less total cost; in most cases the daytime “smoker rating cost” is shown to be less, sometimes by considerable margins.

As another example, the presentation figures the cost of a campaign using 15 daytime ID’s per week in 64 markets (including the Katz-represented stations and, in most cases, the highest-priced stations in the market). These markets, it was pointed out, cover 36,700,000 tv homes and the campaign would cost $18,754 a week on a 26-week basis. Figuring an average daytime rating of 9.4, the cost per 1000 home impressions would come to 36 cents—or, in terms of smoker-viewer impressions, less than 80 cents per thousand.

At a variation on the 15 daytime ID per week plan, Katz also is recommending a plan encompassing 10 daytime ID’s and five late at night (after 11 p.m.) to catch the late-show viewers. Using the same 64 stations in the daytime ID plan, this variation would cost $21,831 a week.

AN ADVERTISING SUCCESS STORY

TOYS AND TELEVISION: PAYING PARTNERSHIP

HOW can the $1.3-billion-a-year U. S. toy industry—that does 78% of its actual business and 89% of its advertising in the 10-week pre-Christmas season—get more mileage out of the television dollar? This question was posed earlier this year to more than 3,000 toy dealers coast-to-coast by one of the country's largest doll manufacturers, American Character Doll Co., New York.

In a questionnaire mailed to the nation's toy dealers in advance of the annual Toy Fair in New York in March, ACD asked them what they thought about television. Specifically: what—if any—sort of tv advertising they had done in 1955, how much of it, how frequently, whether it was supported by other media and what the sales results had been. To assure what ACD called "an equitable response," it offered an award, the Television Toy Merchandising Award Gold Plaque, to the dealer who used television most "wisely... with creativity, planning and productivy."

Within days of the initial mailing, the first completed forms trickled in. "They were still arriving by the bagful by the time we were to make the awards," Bernard J. Schiff, ACD's advertising and sales promotion manager, told B&T. Out of 3,000 questionnaires dispatched, the firm received a 25% return. From these, 15 were chosen for serious consideration by the judges—NBC's Merchandising Director Murray Heilwell, Sidney Rubin, director of CBS-TV Enterprises, and John Eckstein, ACD's advertising and sales promotion director. Out of the 15, three top winners were picked:

- **DEPARTMENT STORE: Denver Dry Goods Co., Denver.** Store in 1955 sponsored a 26-week live program series on KOA-TV, supported by an all-media campaign. Sales increased 18.5%.
- **RETAIL CHAIN STORE: Darling Distributing Corp., New York.** A 44-store enterprice. Darling's sponsored two local daytime kiddies' programs on WABC-TV and WOR-TV, supported them with premiums, newspaper campaigns and in-store celebrity appearances, saw its televised items jump 200% in sales, its over-all sales 53%. President I. M. Weintraub reported 37,381 children "pulled into the store" by one premium alone, said "we had to call in the cops to keep the crowds orderly."
- **INDEPENDENT STORES: Orr's Bookshop, Wichita, Kan.** Orr's sponsored local and syndicated film programs and participations on KAKE-TV and KARD-TV in addition to buying heavy spot, and despite its gain of only 5%, was picked because it used "frequency."

What, exactly, did the TVTMA contest prove? According to Herbert Brock, ACD's executive vice president, "it told us that tv is the only effective medium through which we toy people can reach the ultimate consumer—the child in the 2-10 age group. He makes up 87% of the entire toy market. He initiates the purchase by 'asking Daddy.' Furthermore, 'what child regularly reads the Ladies Home Journal?'" Mr. Schiff added: "It also showed us that the dealers are deluding themselves by staying in print and out of tv. They seem to be scared of tv. They think time costs a fabulous amount of money. Well, we now have visible proof that it doesn't. There's no juicer carrot to hold in front of them than their competitors' sales charts after television... ."

Will they see the carrot? "Not all will," thinks Mr. Schiff. "Trouble is that most dealers depend on the tremendous free publicity their wares have been getting on tv, thanks to the shrewd promotion value of merchandising franchised items (see box). Frankly, we're to blame for that ourselves."

Illustrating his point, Mr. Schiff said that since television's advent, toy promotion has followed more or less a three-step procedure:

"First the manufacturer pitches woo at television. He purchases rights from networks or packagers to reproduce or name his items after well-known tv fixtures. Then, he promotes that item—for nothing, if at all possible—by plugging it on audience participation shows like they're doing right now on CBS-TV's Jack Paar Show. Should that work and result in kids rushing into stores saying, for instance, 'I saw Tinker Bell on television,' he knows he has something. Only then will he prod his dealer into buying time. It's a long courtship. Too long. We aim to shorten it a bit with these re..."

ports," Mr. Schiff said, waving a sheaf of completed questionnaires.

It took ACD "some time" to realize the inherent selling power of television, says Milton A. Weiss, president of Webb Assoc., its agency. Before forming his own agency last fall, he had serviced the account at Sterling Adv., New York.

In 1946—10 years ago—ACD spent its entire yearly advertising budget of $11,000 in tv. Today, with business tripled, its plans to spend close to $750,000 on advertising, 85-90% in tv. Following its 1952 participating sponsorship of the Thanksgiving Day Macy Parade telecast, it was left unconvinced about television, quickly changed its mind when an overload of orders forced it to open a second warehouse. In 1953, it spent $250,000 "just convincing our retailers that tv time didn't run into the millions," persuaded them to buy spots on 45 high-rated local shows throughout the U. S. In 1954, it practically discarded print advertising for tv spot, the following year bought into NBC-TV's Pinky Lee Show and an additional $85,000 "pre-selling" Pinky's faithful flock as far ahead as June, although the NBC-ACD contract did not go into effect until September. That year, it also sponsored the syndicated Little Rascals ("Our Gang") film on KING-TV Seattle, KTRK (TV) Houston and KWK-TV St. Louis; local shows on KSL-TV Salt Lake City, WABD (TV) New York, KTTV (TV) Los Angeles and KGO-TV San Francisco.

According to Webb's Mike Weiss, 1956 will account for ACD's heaviest tv spending to date. It is providing free, one-minute open-end filmed announcements by Shari Lewis (see photo page 48) to its dealers as an incentive to buy local time adjacent to highly rated network programs. It plans to capture what Mr. Weiss calls "the wasted audience," by sharing sponsorship on several forthcoming network programs with Remco Toys, Newark, manufacturer of electric toys.

ACD also plans to allocate funds to provide an "advisory tv board" to local dealers who don't know enough about tv.

Recently, Columbia U. announced that ACD had established an annual $2,500 Dr. Frances Horwich Scholarship for Advanced Child Pedagogy (named for Miss Frances of NBC-TV's Ding Dong School). Asked about that, Herb Brock commented laconically, "I love kids. They buy my toys. I also love Miss Frances. She motivates 'em."

It would not be inmodest to say, Mr. Schiff points out, that Miss Frances and Co. have more than just "motivated" the youngsters. "In fact," he says, "television has put us on the map." ACD, which five years ago was eyeing its budget nervously, now maintains a luxurious suite of executive offices in Manhattan, two factories, showrooms and, this spring, plans to add to its operations a multi-million dollar five-story factory in Brooklyn—its third.

"As you see," Mr. Schiff declared, "We've stopped pitching woo at television. We're happily married now, but that won't stop us from revealing the 'secrets' of our courtship to our competitors." He adds, "by the way, that'll be all we'll tell them."

HOW TWELVE USED TV TO BOLSTER TOY SALES

TELEVISION spot or program sponsorship?

These stores used one or the other or both "wisely" in the eyes of the TVTMA jury (see story) and thus merited particular consideration from the board. Out of the 12, only one-third gave station call-letters:

- THE HOBBY SHOP, Savannah, Ga.—President I. G. Osterwell reported that after only seven weeks 13-a week sponsorship of its own, live, 30-minute Santa Claus workshop program, "nearly the whole toy department was sold out." Store, which asked Savannah youngsters to write Santa, c/o The Hobby Shop, reported 5,000 replies and 25% sales increase over the previous year.

- PUNCH 'N JUDY TOYLAND, Dayton, Ohio—President Sherm Caplan has been using spot tv in Class A time for several years; racks up all his shows with newsprint and newspaper ads showing toys displayed via tv the night before and changes window layout as frequently as tv spots. Result: 20% sales gain.

- BREWSTER'S, Tulsa, Okla.—President Bill Brewster has put tv to work "consistently" since 1952. Sponsored eight of the TGC's Winchell-Mahoney films; bought 15-minute Class A spots and participated in a "90-minute kids' spectacular." Tied in wind displays with TGC films, reported a 28% sales hike.

- BURDINE'S INC., Miami, Fla.—Buyer R. L. Binney of this department store (branches in Miami Beach, Ft. Lauderdale and Palm Beach) reported an unusual eight-day closed-circuit store-wide tie-in with Owens-Corning Fiberglass Co.'s "1955 color cavalcade" touring the U. S. last winter. Utilized WTVI (TV) staff personalities to beam toy demonstrations to 51 color sets scattered the four outlets. Notched 15% sales increase "particularly due to color tv," says Mr. Binney, "which shows off merchandise to a terrific advantage."

- MAXWELL'S TOYS & RECORDS, Detroit—Owner Herb Maxwell bought saturation spot campaign back-to-back with WWJ-TV's pick-up of the Pinky Lee Show. A 13% store-wide sales gain was reported, 80% jump in American Character Doll Co. sales (which sponsored the program).

- HILLMAN'S, Columbus, S. C.—Proprietor O. S. Hillman created a 15-minute "commercial" built around toy-shop motif, invited local children to partake in show, backed audience participation with full-page newspaper ads, reported 10% new business.

- SOLWAY'S FURNITURE CO., Cincinnati—Advertising Manager John C. Tines for past three years has been integrating commercials on total of 23 local programs, supporting all in both show ads and radio-listings pages, tied in window displays, said sales jumped 5%.

- TOYLAND, Amarillo, Tex.—Owner Art Knopp Jr. used a live horse as "giveaway," premiums and toy prizes in supporting his 13-week Dixie Dice Review (station unnamed). Also backed show with saturation spot campaign of 60- and 30-second duration; on Saturdays, used star of show as "salesman," reported 100% sales increase for 1955.

- SIBLEY, LINDSAY & CURR, Rochester, N. Y.—Says Buyer Alfred Larter: "Thank you, Miss Francis!" Dr. Horwich, who bought NBC-TV's Ding Dong School to WHAM-TV last fall, accounted for a 6.3% sales jump at SL&Co.'s toy department. Store also bought intensive spot schedule over WVET-TV and WHEC-TV, identified store items shown on video with a "tv tag special."

- TRIPLETT'S TOY TOWN, Des Moines—President Charles Triplett sponsored KRNT-TV's Don Bell's Boys Town throughout the year, blanket ed Des Moines with picture postcards of Don and unidentified dog, asked recipients to name dog and appear on show. Also participated in Macy's Thanksgiving Day Parade on KRNT-TV, set up store booth at local home and flower show, gave away dolls, invited touring band-leaders and vaudeville acts on show, reported 30% business gain. Plans to launch 30-minute audience participation show on WHO-TV this spring.

- PARK AVENUE VARIETY STORE, Memphis—Partner R. F. Hamilton is a firm believer in buying spots adjacent to Pinky Lee and other "expensive shows" on WMCT (TV) for little money. Reported "substantial gain" over 1954.

- McKELVEY'S, Youngstown, Ohio—Picked because of her "maverick approach," Ad Manager Vera Friedman tried the "adult approach," bought late Sunday night spots in post-midnight movie, appealed strictly to parents and reported "good results."

Survey Reveals How Children Affect Purchases by Family

A SURVEY of 213 families revealed that commercials on children's programs seem to play an important part in the purchasing pattern of the family. Conducted by Dr. Myron S. Heidingsfeld, chairman of marketing department, Temple U., Philadelphia, the study found that children between three and six years old make important demands upon the family purchases.

Candy, soft drinks and foods were found to have the greatest impact, with many purchases made to accede to the children's requests. It was also found that repeat purchases were made at a later date.

A copy of the complete study will be available shortly and may be obtained by writing Dr. Heidingsfeld at Temple U.
It's a Rough Business...

Searching for oil in Saudi Arabia is a rough business. ARAMCO oil explorers have to outwit treacherous sand areas where sand dunes 30 to 100 feet high, with no predictable pattern, block the movement of equipment. In the spring, crews are hampered by sand storms and intense heat forbids summer field exploration.

But the search for more and more oil goes on and on in an effort to satisfy the world's constantly increasing demand.

One of Minnesota’s 10,000 Lakes Officially Dubbed “Lake WTCN”*

For the first time in history a radio station has a lake named after it! This recently discovered, sparkling blue lake nestling in the heart of Minnesota’s lakelands has been officially named “Lake WTCN” by the Minnesota Conservation Commission. Such unusual recognition was bestowed in appreciation of WTCN’s spirited public service contributions to Minnesota conservation.

*P.S. The fishing’s “outstanding” at Lake WTCN!

Miller Robertson, General Manager of WTCN congratulates Stu Mann, WTCN Outdoor Editor, on the discovery of “Lake WTCN.”

WTCN “The Station of the Stars”
MINNEAPOLIS—ST. PAUL
1280 kilocycles 5,000 watts ABC Network
for station representatives and other guests. In other agency expansion plant there, it’s learned, Kenyon & Eckhardt Inc. is expanding its Atlanta office to about 20 people around June 15. Jack Shannon, account executive in the K&E Chicago office, will be branch manager, it’s reported. Russ Paulson, J. Walter Thompson Co., San Francisco, moves to K&E Atlanta to handle Pepsi-Cola in the southeast.

**Warner-Lambert Replaces MJ&A With NC&K**

WARNER-LAMBERT Pharmaceuticals Inc., New York, has appointed Norman, Craig & Kimmel, New York, as its ad agency effective immediately, for its Sportsman line and four new leading toiletry products. The Sportsman line had been handled previously by David J. Mahoney Inc., which recently was absorbed by MacManus, John & Adams.

With acquisition of this account, Norman, Craig & Kimmel’s overall billing by the end of 1957 will have increased tremendously, more than double the firm’s $6 million in 1956. The agency’s offices now handle advertising forfall brands, including Warner-Lambert products, Speidel watchbands, the Democratic National Committee and Hudson Pulp & Paper Co.

**Admiral, Seeds Part**

ADMIRAL Corp., Chicago, is shopping for a new advertising agency after the set manufacturer and Russel M. Seeds Co. jointly announced the termination of their association, effective “in the near future.” Involves a $17 million sponsorship commitment for Admiral radio-television receivers and white goods.

**NETWORK NEW BUSINESS**

Ralston Purina Corp. (Ry-Krisp, Wheat and Rice Cuts), St. Louis, through Guild, Bascom & Bondig Inc., San Francisco, will sponsor Bold Journey, a new TV series on exploration to premiere on ABC-TV, July 16. Show replaces Twilight Theatre, featuring signature film program.

Aluminum Ltd. of Canada through J. Walter Thompson Co., N. Y., has renewed subscription sponsorship of Omnibus when show resumes in fall on ABC-TV. Scott Paper Co. and J. P. Stevens Co., also co-sponsors when show was on CBS-TV, have not announced future plans.

ABC-TV Masquerade Party, currently seen Wednesdays, 9:30-11 p.m. EDT, under alternate week sponsorship of Pharmaceuticals Inc., through Edward Ketter & Assoc., N. Y., and Knomark (Esquire boot polish) Mfg. Co., through Emil Mogul, N. Y., gets new time and new sponsor beginning June 30. Masquerade Party will be seen Saturdays, 10:10-10:30 p.m. EDT, under alternate-week sponsorship of Olin Mathieson Chemical Corp. (Lentheric), N. Y., through Grant Adv., N. Y., and Emerson Drug Co. (Bromo Seltzer), Baltimore, through Lennehn & Newell Inc., N. Y.

Quaker Oats Co., Chicago, through Lynn Baker Inc., N. Y., signed to sponsor two-hour Tourname of Roses Parade in Pasadena, Calif., Jan. 1 on CBS-TV. Parade precedes annual Rose Bowl football classic.

**Allstate Insurance Co., Chicago, which has been sponsoring Sports Today With Bill Stern on ABC Radio, will alternate days, Mon.-Fri., 6:30-6:45 p.m. EDT, expands its sponsorship tonight (Monday) to five nights weekly as show reverts to 10-minute program. Lineup now calls for Les Griffith’s news capsule from 6:30-6:35 p.m., Bill Stern show following. Christiansen Adv., Chicago, is Allstate’s agency.**

**NETWORK RENEWALS**

General Electric Co., Schenectady, N. Y., renews effective Sept. 19 for sponsorship of 60th Century-Fox Theatre on CBS-TV, alternate Wednesdays, 10-11 p.m. eastern time. Young & Rubicam, N. Y., is agency.

Lipton Products Div. of Lever Bros. Co., long-time Arthur Godfrey sponsor, has renewed Arthur Godfrey’s Talent Scouts effective June 25, 1956—-which has become a one-day night show on CBS Radio since July 1947—will sponsor Godfrey simulcasts on alternate week basis for 52 weeks, on behalf of Lipton tea, soups and Frosted digestives. Other sponsor, Toni Co. (Gillette Co. Div.), Chicago, entering eighth year with Mr. Godfrey by renewing show effective June 25, through North Adv., Chicago. Young & Rubicam is Lipton’s agency.

**SPOT NEW BUSINESS**

Borg Fabric Div., George W. Borg Corp., Dallas, Texas, through Douglas D. Simon Adv., N. Y., will use television spots in approximately 35 markets, beginning in fall.

**AGENCY APPOINTMENTS**

Englander Co., Chicago, appoints North Adv. Inc., that city’s first agency, effective July 1. Account moves from The Biow Co., N. Y., which ceases operation June 30. Firm will conduct intensive national advertising campaign to introduce new air mattress and matching box spring.

Pepsonet Sales Ltd., Toronto, appoints Needham, Louis & Brorby of Canada Ltd. for Lifebuoy shave cream and Lysol hand soap.

Servidental Inc. (soft water equipment), division of George Getz Corp., Rockford, Ill., appoints Erwin, Wacey & Co., Chicago.

Formfit Co. (women’s apparel), Chicago, appoints MacManus, Johnson & Co. of Canada Ltd. as its Canadian advertising agency.

Lily-Tulip Cup Corp., N. Y., appoints Grey Adv., to handle advertising for entire line of paper products, effective immediately. Former agency was Al Paul Leiton Co., N. Y.

Sheraton Corp. of America, Boston, names BBDO for Sheraton Ltd., firm’s Canadian branch. Combined domestic and Canadian accounts will be handled by BBDO Boston and Toronto offices.

Bond Stores Inc., N. Y., account formerly handled by The Biow Co., N. Y., which ceases operation June 30, to Joseph Katz Co., N. Y., for all stores except in California.

Anderson, Clayton & Co. Foods Div. (Mrs. Tucker’s shortening, Meadow Lake margarine) being resigned by Crook Adv., Dallas, Texas, (BT, April 30) to Bryan Houston Inc., N. Y., effective Aug. 1. Appointment is in addition to others recently made to D’Arcy, McCann-Erickson and Paris & Peart.

RADIO VS. NEWSPAPERS
Mayor Paul Goebel of Grand Rapids, Mich., addressed Michigan Assn. of Radio & TV Broadcasters:
NEWSPAPERS do the best they can to inform people on the issues. But people will take the time to listen to radio where, it seems, they will not take the time to read newspaper accounts.

THE FIRESIDE CHAT
At last week's presidential news conference, President Eisenhower was asked whether he had considered reviving the "fireside chat" initiated by President Roosevelt. New York Times correspondent James Reston commented in that paper:
AT NO TIME since the end of the last war has there been a greater need than now for a presidential explanation of the background of the terrible dilemmas facing the people and their government.

President Eisenhower has tried to deal with [major questions] from time to time in the press conference, but it is so sensitive and menacing a subject that the element of risk in extemporaneous questions and answers is almost too great.

The carefully prepared, informal report to the people by tv and radio, however, raises no such dangers. It can be controlled and directed to the mood of the time, and could add materially to the people's understanding and knowledge.

WHILE GETTING'S GOOD
Bruce Eells, western division vice president of Television Programs of America, warning that local advertisers are freezing themselves out of television advertising but still can win their share of limited availabilities if they act now, last week told the Hollywood Advertising Club:
TV is advertising what the atomic bomb is to modern warfare... no advertising medium has ever meant so much in terms of actual business survival.

You can't add another hour in tv like you can add another page in the print media. If television continues on its present path there will be virtually no time franchises left for local advertisers to buy. Local advertisers will block themselves out of one the greatest selling media now available, one which will be even more powerful and more indispensible to survival as color tv makes its slow but inevitable progress.

BOUQUET & BRICKBAT
A. J. Goetz, advertising manager of American Safety Razor Co., before Pennsylvania Assn. of Broadcasters;
MY COMPANY believes in radio. What's more, we believe in radio to reach and sell men. And we back our belief with dollars. I guess that in the past several years we have spent as much money in radio as in any other medium. In fact, for some of our fine products we have spent more in radio than in any other medium.

Why? Well, certainly not because you folks have sold us. As a matter of fact, you don't even call on us. Have you sold our agencies? Well, perhaps. But, of all the agency men I know, only one is filled with missionary zeal—and he happens to be an ex-salesman for a radio station.

Does your main advertising pre-dispose us to buy? Hardly. Most of it hits the circular file almost immediately on arrival. Have you done a superior merchandising job? Not to my knowledge.

Why then do we continue to invest big dollars in radio? I think it's because of some of us haven't yet lost sight of radio's ability to produce mass audience at low cost. But the fact that we haven't is scarcely any credit to you folks.

PICKING ONE'S COMPANY
R. M. Budd, advertising director, Campbell Soup Co., before Pennsylvania Assn. of Broadcasters:
In the selection of broadcast media, the advertiser obviously faces the responsibility for editorial choice—the program material designed to win an audience. With the magazines, the editors handle it for him. He buys (or does not buy) an editorial "association" for his advertising.

With the warm intimacy of the radio or television set, and the assumption of editorial responsibility by the advertiser, he must come to some very clean-cut conclusions as to the type of editorial matter he wants associated with his company and with its advertising. No man can truly advise on this—each must decide what is or is not for the company he represents.

Walter S. Burr, producer at Chicago Film Studio, to Leo Burnett Co., same city, as tv film producer.
Thomas F. Brennan, copy chief, Mason Inc., N. Y., to Geyer Adv., N. Y., as copy group head.
Richard Ermoian, formerly with Henri, Hurst & McDonald Inc., Chicago, to creative staff of Campbell-Mithun Inc., that city.

Firm Takes Option On Republic Control

THE BEVERLY HILLS investment banking firm of Cantor, Fitzgerald & Co. has taken an option on 650,000 to 800,000 shares of Republic Pictures Corp., for 60 days, it was disclosed last week. This would give the firm a working control of the major movie studio and its television subsidiary, Hollywood Television Services Inc. Total stock outstanding in Republic is two million shares.

There has been considerable speculation as to whether Cantor, Fitzgerald & Co. will use the stock option for its own investment or for outside interests. Reports have included the names of Hans Dittisheim, Wall Street financier, Hecht-Lancaster Co. and Howard Hughes, but the investment firm refuses to disclose the details. President B. Gerald Cantor is in the East on other business.

Purchase price of the Republic stock will be $12.50. The stock has been selling on the market at about $8.75.

Cantor, Fitzgerald proposes to purchase the stock of Republic President Herbert J. Yates and his associates. Mr. Yates and Earl R. Collins, Hollywood TV Service president, were in New York last week, reportedly on this matter. One spokesman for Cantor, Fitzgerald was optimistic that the option would be exercised and said that if the deal goes through, the studio's theatrical films and TV production would be expanded. He denied speculation that Republic would be transformed into an all-television lot.

TPA Sets Up New Division; Walt Plant To Be In Charge

CREATION OF a sixth sales division for Television Programs of America to cover the central area of the U. S. is being announced today (Monday) by Michael M. Sillerman, executive vice president who has named Walt Plant to manage the new unit.

The newly-established central division, Mr. Sillerman stressed, will not affect the midwestern division, which continues under the direction of Leon Bernard, who is responsible for TPA sales in Pennsylvania, Western New York and Ohio. Mr. Plant will supervise activities of the central division, covering Kentucky, Kansas, Indiana, Michigan and Illinois, except for Chicago. TPA maintains a separate Chicago division, of which W. R. (Pat) O'Brien is manager.

Other TPA divisions and their managers are: New York City, William Fineshriber Jr. (vice president); western, Bruce Eela (vice president); eastern, Earl W. Fridley (vice president).

Mr. Plant is being promoted to his new post from TPA's eastern division, in which he has been an account executive. Mr. Sillerman said the new division will have a field force of about 10 men, adding that the names of several new account executives for the unit will be announced in conjunction with a TPA sales clinic scheduled to open on June 4. Mr. Plant and the central division staff will headquarters in the TPA Chicago office.

Kling Film Division, North American Merge

MERGER of Kling Film Enterprises west coast studio operation and North American Film Corp. under a new corporate organization, Kling California Inc., was announced last week by principals of the two companies.

Under the new setup, Edgar B. Yuhl and Robert W. Larsen, partners in North American, become president and executive vice president, respectively, of Kling California and Robert Eirinberg, Kling president, will serve as board chairman. Yuhl and Larsen will be operating heads.

The merger does not affect Kling Film Enterprises Inc.'s Chicago operation, which Mr. Eirinberg will continue to head as president. KFE is a subsidiary of Kling Studios Inc., which becomes the parent company of Kling California.

Kling California will combine production commitments of Kling and North American for TV commercials, industrial films and production of three half-hour television films. Kling California will concentrate on production without relying on studio rentals to keep its plant working. It was explained, although space will be rented out to a "minimum" of tenant producers.

Formal operation of Kling California was launched Tuesday at the Kling lot (formerly the Charlie Chaplin studios) at Sunset and LaBrea Aves., Hollywood, with Messrs. Yuhl and Larsen transferring from North American headquarters at Sunset and Gardener.

Kling Enterprises Quintet Forms La Brea Productions

FIVE MEN, presently with Kling Enterprises, Hollywood, are moving Friday from that firm to form their own company, La Brea Productions Inc., to be located at 915 N. La Brea.

Gail Papanue, production head of Kling, becomes president of La Brea Productions. Those also leaving are James Baumeister, secretary-treasurer; Richard Lundy, art director and manager of animation; Henry J. Ludwin, producer-director of live action film commercials and films for industry, and Don Sheppard, creative director.

The company's facilities will include three sound stages, animation, cutting and editing rooms.

Pillsbury Pays $500,000 For 'Opry' in 119 Markets

IN A TRANSACTION involving an estimated $500,000 in gross sales, Pillsbury Mills Inc., Minneapolis, last week signed for the Grand Ole Opry TV film series in 119 markets throughout the country, starting in August. Agency for Pillsbury is Campbell-Mithun, Minneapolis.

Negotiations were completed by Arthur Lund, vice president of Campbell-Mithun, and Sy Weintraub, executive vice president, and Charles McGregor, Chicago manager of flamingo Films, distributor of the series. The contract is a renewal of an existing agreement with the number of markets largely expanded, effective this summer.

Pillsbury currently sponsors Opry in 30 markets. With the Pillsbury purchase, Opry will begin the fall season with a minimum of 200 markets, according to Mr. Weintraub.

The series is co-produced by Flamingo Films and WSM Inc., Nashville. A new cycle of 26 half-hour films for Opry is currently being produced on location in Nashville under the supervision of producer-director Al Gannaway.
A New Service
By Old Hands

Our company has never sought work in the Appraisal field, primarily because our first interests have been to serve buyers and sellers of radio and television properties.

There now seems to be a growing need for such work by station owners, their banks or attorneys, regardless of whether a sale is contemplated.

We have often made evaluations on request, and are prepared to qualify in Federal and State courts as to expert testimony.

Our organization has been expanded to handle Appraisals on a highly confidential basis. The charge for this service will be most reasonable.

Low-Power TV Broadcast Transmitter

The perfect answer to the recent FCC ruling which permits low-power operation of TV broadcast stations. This tested and proved Philco transmitter incorporates advanced design circuitry. A crystal controlled exciter feeds picture and sound outputs to a 20-watt linear amplifier which, in turn, drives a final power amplifier... 150 watts peak output visual and 75 watts aural!

Complete Low-Cost TV Station "Package"
This new transmitter is the "heart" of Philco's compact, economical TV station package... including film and live pickup cameras, switching and monitoring facilities. And... Philco also offers an entirely new Microwave for relaying programs from remote sources! Write Dept. BT for complete information.

* Exciter utilizes conventional receiving tubes.
* 150 watts visual...
  75 watts aural.
* Compact... occupies minimum floor space.
* Economical to operate.
* Available for VHF and UHF channels.

**TvB SPOTLIGHTS GAINS BY TELEVISION**

Presentation in New York before 1,300 advertiser and agency people shows that television now gets 36% of Carnation budget with appropriation split 60-40 between network and spot.

A "TYPICAL" leading advertiser today puts approximately 56% of its four-major-media advertising budget into television—more than into the three other major media combined—and splits its tv appropriation about 60-40 between network and spot.

Those are the allocations of the Carnation Co. as cited last week by Television Bureau of Advertising in an overall television presentation to some 1,300 agency and advertiser people, described by TvB as the largest group of advertiser and agency executives ever assembled for a single presentation.

"We say that Carnation is a typical advertiser," TvB President Oliver Treyz told the audience that crowded into the Grand Ballroom of New York's Waldorf-Astoria Hotel for the showing, "only because its four media allocations approximate a composite of all leading national advertisers and also because Carnation's television budget between spot and network is close to that of all tv advertisers."

Using figures supplied by the Carnation Co., he traced the company's four major media allocations since "pre-television" days as follows (the percentages relate to each medium's share of the amount allocated to the four major media, not to the company's total budget for all advertising):

- In 1946, Carnation invested 61% of its budget in radio, 18% in magazines and 21% in newspapers. These data are from company records and reflect actual expenditures, media and production costs included.

"While television was not a factor in 1946, it accounted for 28% in 1951, forging ahead of newspapers and magazines, but not both of them combined."

"This year—1956—Carnation will invest 9% in radio, 18% in magazines, 17% in newspapers—and in television, 36%, or more than the three other major media combined."

"Of the expenditures in tv, Carnation will place 60% in network and 40% in spot."

Mr. Treyz also cited news accounts of a Procter & Gamble stockholders meeting which quoted P&G Chairman Richard Deupree as saying last month that his company will increase its use of all types of advertising this year, with particular emphasis on television.

"Here, indeed," Mr. Treyz said, "is a meaningful endorsement of television from its leading advertiser, the advertiser most experienced in its use, which in the six months ending March 1956 invested $28,912,000 in television advertising for station facilities alone—program and production costs not included. P&G's growing use of television is typical of the vast majority of the leading advertisers."

The Carnation and P&G plans were only a part of the TvB presentation, which in large measure incorporated and brought up to date information that TvB had outlined at its session in Chicago during the NARTB convention and at the Pennsylvania Broadcasters Assn. meeting at Pocono Manor (6:1, April 23, et seq.).

Norman E. (Pete) Cash, TvB vice president, presided over the session. Donald H. McGannon, president of Westinghouse Broadcasting Co., introduced the presentation, which was conducted by Mr. Treyz with the assistance of TvB operations director Gene Accas.

Many Requests

Mr. Treyz said later that TvB had received a large number of agency requests for special repeat showings for the benefit of specific clients and that the response from both agencies and advertisers was such as to demonstrate "that we're on the right track."

Similar showings are also planned for Los Angeles and San Francisco in early July, and a new presentation is slated in Chicago in October.

Last week's presentation traced the rise of tv billings to the point where television wrested first place in national advertising away from newspapers in 1955 ($785 million vs. $750 million). It also reiterated TvB's estimates that national advertisers spent 23% in newspapers, 40% in network and spot television in the first quarter of this year than they did in the same quarter of 1955, as compared to a gain of 8% reported for newspapers.

The findings of TvB's special tv-vs.-newspapers study in Chicago (in which respondent homes were found to spend nine hours 51 minutes a day with tv as against one hour 41 minutes a day with newspapers); Nielsen figures showing average audience gains in the past year (17 to 23% per program in the case of network shows), and highlights of TvB's new quarterly reports on television spot expenditures also were stressed out.

"Introducing the presentation," WBC's President McGannon described television as "a new dimension in creativity." He said he was "not quite sure" whether TvB "was formed for the benefit of broadcasters or for the benefit of advertisers—although its efforts today would indicate that the advertiser himself receives a substantial measure of benefit from the bureau."

Mr. McGannon spoke in the place of TvB Chairman W. D. (Dub) Rogers, KDUB-TV Lubbock, Tex., who was unable to attend.

**Face The Facts!**

MEMO from HARRY BURKE

General Manager, KFAB

There is a copy of "**Farm Facts and Folding Money**" reserved for you. Get this informative brochure which proves that KFAB is Nebraska's top farm station.

Facts on the station, mail and survey maps, along with plenty of success stories, are included.

This is your invitation to get the complete story on how KFAB's Farm Service Department, headed by Bill Macdonald and Lloyd Oliver, is geared to do the most complete farm service job in the area. I'll be glad to send you a copy of "**Farm Facts and Folding Money**"... or, any Peters, Griffin, Woodward man will see that you get a copy.
RTNDA ATTACKS 'TIME' FOR ANTI-TV ARTICLE

Magazine story chastises tv newsmen and their practices, charges them with asking 'vapid', 'often planted' questions of people in news. Terms their manners as being 'haughty.'

"TIME" magazine was taken to task by the Radio-Television News Directors Assn. last week for a "news story," headlined "The Evil Eye," which blistered "an interfering Johnny-comelately-the tv newsmen with his heavy equipment, bright lights, and haughty ways."

"It seems inconceivable," RTNDA President Harold Baker of WSM Nashville, Tenn., wrote to TIME Managing Editor Roy Alexander, "that a publication of such stature would degrade itself with such unadorned and totally misleading editorial in the guise of news."

The TIME article, running more than a column in the May 21 issue, said tv newsmen and cameras "win priority almost everywhere," that political conferences on tv, which affords them not only direct contact with the voter but tame, often planted, questions; that other newsmen are pushed around by tv men, and that—quoting New York Times Midwest correspondent Richard Johnston—"turns a news conference from an attempt to get at the real news into stage nonsense."

"Apart from crowding, heat and noise," the TIME article said, "experienced newsmen bristle at the forms often designed only to get a commentator into the act. . . . When the skilled questioning by a reporter brings a reply that makes news, tv gets the benefit; the news can be telecast long before the reporter can get his story into the paper."

In his letter to Mr. Alexander, RTNDA President Baker said: "In view of the article, it may be a surprise to you that television reporters are the first to admit that there are shortcomings and inconveniences in their methods of news coverage. Tremendous strides have been made toward overcoming those and, with other technical advances in the near future, we feel certain that pencil and paper newsmen will find little competition for the prime time on TV's obtrusive equipment."

"But this still has not answered your blanket condemnation of television reporters themselves. We admit that, in our field, just as in newspapering, we have reporters who are discourceous and who sometimes ask ridiculous questions. These are not monopolies of either medium. Happily, though, they are in the minority among both television and newspaper reporters."

"As TIME points out, many television reporters are former newspapermen and, as such, they most certainly must retain the objectivity and skill that they had when their efforts were pointed toward the printed word. There are other very capable newsmen in tv who did not serve an apprenticeship in the newspaper field. Of course, it is unnecessary to point out that, through innuendo and selected gropes of disgruntled persons, you have done a disservice to those capable tv newsmen and to your readers."

"For a long time, our industry has been working with newspapers, press photographers, and others in the field of freedom of information and toward solution of mutual problems. It would indeed be unfortunate if, through vicious attacks by one against the other, the growing understanding and cooperation would be destroyed. It would be a tremendous blow to freedom of the press, which—it must be recognized—includes radio and television."

President Baker went on to say that TIME's article is a public relations disaster for tv and that it would be a public relations disaster for TIME.

NARTB Completes Four Committees

NARTB last week announced new members for the following committees:

Jury for Audiovisual Awards Committee—Jim Holm, WTMJ-TV Milwaukee and Robert J. Thomas, WIS-TV Milwaukee.

Jury for Audiovisual Awards Committee—Les Zink, WTMJ-TV Milwaukee and Robert J. Thomas, WIS-TV Milwaukee.

Jury for Audiovisual Awards Committee—Jim Holm, WTMJ-TV Milwaukee and Robert J. Thomas, WIS-TV Milwaukee.

Jury for Audiovisual Awards Committee—Les Zink, WTMJ-TV Milwaukee and Robert J. Thomas, WIS-TV Milwaukee.

Code Violations To Be Topic Of NARTB D.C. Session

VIOLATION of NARTB TV Code recommendations by specific code subscribers will be a main topic on the agenda of the Television Code Review Board during its meeting at NARTB headquarters in Washington June 5-6, G. Richard Shafto, WIS-TV Columbia, S. C., said last week.

Mr. Shafto said the TV Code affairs staff has contacted the offending stations and asked them for information on their current advertising policies along with any planned revisions of policy which would eliminate code violations. "These responses will be studied, together with other pertinent exhibits, at the meeting," Mr. Shafto said.

Possible affiliation of tv film producers and distributors with the TV Code also will be reviewed by the TV Code board. This plan would allow film producers and distributors to subscribe to the code on an associate basis, whereas, the code currently is restricted to operating tv stations and networks, according to Mr. Shafto.

Amendments to the code, relating to advertising sections or clarification and strengthening of the document's present language, will be considered.

Hollywood Adv. Club Elects

The Hollywood Advertising Club last week elected the following to its board of directors: James G. Aubrey Jr., general manager of KNXT (TV) Los Angeles; Jack F. Brenbeck, program manager, KTLA (TV) Los Angeles; Robert Sande, president, Song Ad Film-Radio Productions; George Allen, business manager, Hollywood office of Guild, Bascom & Bonfigli; Vic Rowland, Capitol Records Inc., and Jerry Cahill, Hollywood Mat Service.

Schwartz Heads Calif. AP

The California Associated Press TV & Radio Assn., meeting May 19 in San Francisco, elected Barney Schwartz, KPRL Paso Robles, state chairman. He succeeds Ray Wilson, KFMB-TV San Diego news director. Sam Zelman, KNX (TV) Los Angeles, was named vice chairman. Certificates of merit also were presented to 52 stations during the meeting (see story, page 100).

May 28, 1956 • Page 63
Fm Broadcasters Group Now Formally Organized

FORMATION of Fm Broadcasters—a national organization to preserve "the band of frequencies assigned to fm broadcasting by the FCC"—was announced last week (Monday) by a five-man organizing committee.

Incorporation of the fm protective group followed a resolution, calling for the new organization, adopted at the fm sessions during NARTB's Chicago convention. Independent of NARTB, it will represent the fm industry in protecting fm interests before the FCC or Congress. Fm Broadcasters began with a nucleus of 40 fm station operators after the resolution.

The organizing committee: Merrill Lindsey, WSOY Decatur, Ill.; Calvin J. Smith, KFAC Los Angeles; Ben Strouse, WWDC Washington; E. A. Wheeler, WEAW Evanston, Ill.; Gardiner G. Greene, Browning Labs Inc., Winchester, Mass.

The committee pointed out that fm's biggest single problem is the threat that part of the fm band may be taken for other uses, noting certain tv groups have suggested in the FCC's current reallocations proceedings that part of the fm band be assigned to vhf tv.

WAVE-TV

CHANNEL 3 LOUISVILLE

First in Kentucky

"The Blue-Chip Buy in the Bluegrass State"

Romance and glamor aside, there's one Kentucky institution you can't afford to miss. It's WAVE-TV, first by far, in Kentucky and Southern Indiana television.

First in CHANNEL—Brilliant Channel 3!

First in COVERAGE—Effectively serves 173,000 more TV families than Louisville's second station!

First in PROGRAMMING—The best from NBC and ABC, plus topnotch local shows!

First in ADVERTISING—Carries more local and national advertising, year in and year out, than Louisville's other TV station!

First ON THE AIR—More and better experience, by more than a year!

NARTB Radio, Tv Boards To Elect Heads June 20-22

CHAIRMEN and vice chairmen of NARTB's Radio and Television Boards will be elected at the semiannual meeting of the association's Board of Directors at Washington's Mayflower Hotel June 20-22. NARTB said last week.

The Tv Board will meet Wednesday (June 20), the Radio Board Thursday (June 21) and the full Board Friday (June 22).

Three NARTB Board committees also will meet—the Tx Finance Committee and the General Fund Finance Committee will meet Tuesday afternoon (June 19) and the Bylaws Committee June 20. Also on Tuesday a morning indoctrination session will be held for newly-elected members of both boards.

BMI Vice President Burton Re-elected RTES President

ROBERT J. BURTON, BMI vice president, was re-elected president of the Radio & Television Executives Society, New York, last week.

Other officers elected: Merle S. Jones, CBS-TV executive vice president, first vice president; Robert Leder, vice president and general manager, WOR New York; second vice president; Claude Barrere, BMI's eastern director for tv, secretary, and Bernard Goodwin, president of DuMont Broadcasting Corp., treasurer.

Elected for two-year terms to RTES' board: Kenneth Bilby, NBC vice president-public relations; Maggi Eaton, sales account executive, Radio Reports Inc.; Norman Glenn, president-publisher, Sponsor Publications Inc.; Geraldine Zorbaugh, ABC vice president and special assistant to president, and Norman Gluck, vice president, United World Films. Continuing on the board for another year: Don McClure, director of film, International Latex Corp.; Frank Pellegrin, vice president-secretary, H-R Representatives; Roger Fryor, vice president in charge of radio and tv, Foste, Cone & Belding, and Sam Slate, WCBS New York program director.

Advertising Has No Plateau, Rogers Tells Waco Meeting

SPEAKING before the Waco (Tex.) Advertising Club last week, W. D. (Dub) Rogers, president of KDUB-AM-TV Lubbock, Tex., defined advertising as "a positive antidote to despair, the one ingredient of our economy which acknowledges no plateau."

He called upon all who create, sell or use advertising to reverse constantly the position which this profession bears to the prosperity of the nation. To illustrate the positive power of advertising, Mr. Rogers recalled that even the most useful inventions sold very slowly before the era of modern advertising.

Auto Audience After 9 A.M. Most Ready to Buy—Boorom

INCREASED value to an advertiser of making an advertising impression on the radio automobile audience between 9 a.m. and 9 p.m. was stressed last week by Warren J. Boorom, Radio Advertising Bureau promotion manager, in a talk before the Advertising Club of The Mohawk Valley in Utica, N. Y.

Mr. Boorom contended that an impression made between 9 a.m. and 4 p.m. is worth "five impressions during the 7-9 a.m. period," explaining that the on-the-way to work automobile audience drops out of the potential customer class for hours, while motorists on the road during the day are in a position to make a buying decision and act on it.
Eyes and Ears of a GOOD CITIZEN

You don't declare yourself a good citizen. That distinction is something you earn—through faithful service to your community's needs and aspirations.

Ask our fellow citizens in Dayton! WHIO-TV has become the recognized forum for Dayton's civic efforts. Dayton turns first to WHIO-TV for programs in the public interest—just as Dayton's civic leaders come to us first for airtime in support of their most important causes.

This identification with civic causes has won WHIO-TV a unique place in the hearts of a great community. It has established, throughout our broadcast period, a listening preference and an audience loyalty which we make every effort to continue to deserve. WHIO-TV is represented nationally by the George P. Hollingbery Co.

WHIO-TV supports these and other worthy organizations

Air National Guard Armed Forces enlistment

WHIO-TV also schedules regular public service features such as the weather and market reports; and scheduled public services included regularly in participating programs throughout the day.
COURT UPHOLDS FCC OWNERSHIP RULE; COMMISSION OVERRULED IN FLINT CASE

Highest U. S. court sides with Commission's right to have numerical cutoff on multiple ownership. Appeals Court orders WJRT (TV) Flint, Mich., comparative hearing reopened and hears reargument of FCC grant of ch. 10 in Sacramento, Calif.

THE FCC won a major victory—and lost a significant battle—in last week's court decisions.

The Supreme Court upheld the Commission's right to establish a numerical cutoff on multiple ownership of stations.

The D. C. Circuit Court of Appeals reversed the Commission in the WIRRT (TV) Flint, Mich., case, ordering that the Flint comparative hearing be reopened.

And, also before the appeals court, McChesney Broadcasting Co. reargued the Commission's grant of ch. 10 Sacramento, Calif., to what is now KBET-TV there.

HIGH COURT RULES LOWER BODY ERRED IN STORER CASE RULING

The right of the FCC to establish numerical limitations on broadcast station ownership by one person or company was upheld by the U. S. Supreme Court last week.

The high court ruled a lower court erred in deciding the Communications Act required that an applicant must be given a hearing before an application could be denied—even though the applicant owned the limit in tv stations.

In upholding the FCC's right to promulgate multiple ownership rules, the Supreme Court remanded, by a vote of seven to one, the Storer case to the Appeals Court in Washington. The majority opinion was written by Justice Stanley Reed. Justice John M. Harlan dissented in part, but concurred in the result. Justice Felix Frankfurter dissented.

The hearing requirement does not prohibit the FCC from establishing rules governing multiple ownership, Justice Reed wrote. The Commission may adopt a rule, and if an applicant thinks he can persuade the Commission the rule should be waived or amended, the FCC can then prescribe a hearing, he said.

The Supreme Court's decision is considered likely to spur congressional action on pending bills which would prohibit the FCC from adopting numerical limitations on ownership by single entities. There are four bills before Congress which would amend the Communications Act to proscribe numerical ownership but which would limit the number of stations to be owned by a single person or company to the number which would cover no more than 25% of the U. S. population.

These bills have been introduced by Sen. John W. Bricker (R-Ohio), senior Republican on the Senate Commerce Committee, and Reps. Joseph P. O'Hara (R-Minn.), Carl Hinshaw (R-Calif.) and John V. Beamer (R-Ind.). They are, respectively, S-3859 and HR-10,524, 10,733 and 10,756.

Sen. Bricker, in discussing this phase of his attack on tv networks, stated he thought it would aid in loosening the alleged domination (BWT, April 30).

Overlapping Regulation

In referring to the apparent conflict between the hearing section of the Communications Act and the multiple ownership rules, Justice Reed said:

"We cannot interpret Sec. 309 (b) as barring rules that declare a present intent to limit the number of stations consistent with a permissible 'concentration of control.' It is but a rule that announces the Commission's attitude on public protection against such concentration. The Communications Act must be read as a whole and with appreciation of the responsibilities of the body charged with its fair and efficient operation. The growing complexity of our economy induced the Congress to place regulation of businesses like communication in specialized agencies with broad powers. Courts are slow to interfere with their conclusions when reconcilable with statutory directions. We think the multiple ownership rules, as adopted, are reconcilable with the Communications Act as a whole. An applicant files his application with knowledge of the Commission's attitude toward concentration of control."

After referring to the Supreme Court's 1941 decision upholding the chain broadcasting regulations, which called attention to the necessity for flexibility in the FCC's Rules, Justice Reed went on:

"That flexibility is here under the present Sec. 309 (a) and (b) of the FCC's regulations. . . . We read the act and regulations as providing a 'full hearing' for applicants who have reached the existing limit of stations, upon their presentation of an application conforming to Rules 1.72 and 1.81, that sets out adequate

reasons why the rules should be waived or amended. The act, considered as a whole, requires no more."

The decision concluded that the Commission is not bound to provide a full hearing on all such applications.

"We do not think Congress intended the Commission to waste time on applications that do not state valid basis for a hearing," it read. "If any applicant is aggrieved by a refusal, the way for review is open."

Both Justices Harlan and Frankfurter dissented on the ground that Storer was not a "person aggrieved" and thus had no standing to bring the suit. Justice Harlan added, however, that since the majority agreed Storer did have standing, he concurred with their decision.

The Commission's multiple ownership rules provide that no single entity may own more than seven AM, FM or TV stations. In television, so more than five of these stations may be in the VHF band. At the time the case was brought, the TV ownership rule held that five stations was the limit.

They also include under this rule that ownership of 1% or more in a station shall be counted in determining the number of stations under common ownership.

The duopoly rules—by which a single person or company may own more than one station in the same market—was not involved in this litigation.

The genesis of the multiple ownership case was 1953 when Storer Broadcasting Co., which then owned the permissible five television stations, applied for ch. 10 in Miami, Fla. The FCC refused to accept this application. Storer filed an appeal against the multiple ownership rules and won the circuit court decision. The appeals court said that before an application can be denied, a hearing must be given. The FCC appealed this ruling to the Supreme Court. The case was argued before the justice last March [BT, March 5].

At present Storer owns the maximum number of television stations—WGBS-TV Miami, WJBA-TV Detroit, WSPD-TV Toledo, WAGA-TV Atlanta, WDRB-TV Birmingham, WTVWTV Cleveland and KPTV (TV) Portland, Ore. The Miami and Portland stations are uhf outlets.

Earlier this month, Storer asked the FCC for permission to buy ch. 3 KSLM-TV Salem, Ore., and move the channel into Portland as a substitute for its ch. 27 outlet there [BT, May 7].

**APPEALS COURT ORDERS FLINT CH. 12 CASE REOPENED**

THE Flint, Mich., ch. 12 case was ordered reopened last week when the U. S. Court of Appeals in Washington overruled the FCC and sustained the appeals of unsuccessful applicants WFDP Flint and W. S. Butterfield Theatres Inc. against the FCC's approval of the move of WJRT (TV) Flint to a new transmitter site.

The court's decision was by a two-to-one vote, with Circuit Judges David L. Bazelon and Walter M. Bastian the majority assenting and John A. Danaher dissenting.

At issue was whether the Commission's 1954 grant of Flint's ch. 12 to WJR Detroit should be reassessed in the light of that station's proposal to move its transmitter site from 213 miles southeast of Flint to 20.5 miles northwest of that city. An application to make this shift was filed 10 days after the FCC affirmed its grant to WJR and was approved by the Commission without a hearing.

The unsuccessful applicants appealed this to the court. At the same time other stations filed a protest against the modification of the construction permit. A hearing on this protest is scheduled to begin June 5.

Essence of the court's decision, written by Judge Bazelon, was that the case was still within the jurisdiction of the FCC when the transmitter change was proposed. This move, it declared, was sufficiently a departure from WJR's original proposal so that additional hearing was necessary. Although the Commission had dismissed the objections to the transmitter relocation as being generally not significant enough to review its original grant, the court, in essence, asked: "How can you tell unless you've had a hearing?"

The court held the changes proposed by WJRT—transmitter site move, antenna height change, program structure revisions, studio location modification—were significant enough to put into question the choice of WJR in the original comparative hearing.

In discussing the fact that WJR allegedly withheld notice to the FCC of its contemplated changes until the Commission acted on the unsuccessful applicants' petitions to reopen the hearing, Judge Bazelon pointedly declared that the court was not expressing any opinion on whether WJR's "late revelation of its changed situation reflects upon its character and fitness as a licensee." This is up to the Commission after it considers the evidence in the reopened hearing, he said.

The court majority held the Flint case was similar to the Beaumont ch. 6 case in which the appeals court had held the Commission must reopen that hearing because of the changed status of winning KDFM Beaumont. There KDFM entered into an option agreement.
THE NATION'S VOICE...

...is a selling strategy which concentrates your advertising on a relatively small number of great radio stations in the important centers of population. While there are 2,833 radio stations operating today, only 48 selected stations are needed to bring 85% of all America's millions within reach of your message.

A complete demonstration of this new strategy, in brief presentation form, is available now. Call the Christal office near you.

NEW YORK — BOSTON — CHICAGO — DETROIT — SAN FRANCISCO
Representing Radio Stations Only
with W. P. Hobby (KPRC-AM-FM-TV-Houston Post) whereby he would acquire a 32.5% interest in the ch. 6 outlet. This agreement was made after the final decision was issued but before the FCC had acted on a KRIC Beaumont petition for reconsideration. The FCC asked the Supreme Court to review this ruling but that tribunal refused [BT, May 7].

Judge Danaher held the Commission's final grant to WJR was based primarily on the diversification issue and therefore the changes proposed by WJRT could be considered minor. He also had dissented in the Beaumont case.

FCC ACCUSED OF A 'JAUNDICED EYE' IN CONSIDERING SACRAMENTO CASE

The FCC was accused of looking at the application of McClatchy Broadcasting Co. for Sacramento ch. 10 with a "jaundiced' eye because it made last week before a three-judge panel of the U. S. Court of Appeals in Washington where the California tv case was re-argued.

The ch. 10 grant was made last year to Sacramento Telecasters Inc. (KBET-TV) after the Commission reversed an examiner's finding in favor of McClatchy. The Commission ruled McClatchy's newspaper and other broadcast interests were detrimental to its case. McClatchy owns the Sacramento Bee, Modesto Bee and Fresno Bee, and KMIJ-AM-TV Fresno, KFBK Sacramento, KBBE (FM) Modesto, KOH Reno and KERN-AM-FM Bakersfield. Its purchase of KBOX Modesto is pending FCC approval.

McClatchy appealed the FCC's final grant to its opponent, and early this year the Court of Appeals upheld the Commission's decision.

The argument was before the same panel of judges which rendered the January affirmation of the FCC's action—Circuit Judges Wilbur K. Miller, Charles Fahy and Walter M. Bastian. Arguing for McClatchy was Thomas H. Wall; for the FCC Asst. General Counsel Richard A. Solomon, and for KBET-TV J. Roger Wollenberg.

17 'Imbalance' Cases Renewed by FCC

A SLATE of 17 stations whose applications for renewal of licenses have been under FCC consideration since November 1955 due to pur-ported program "imbalance" was wiped clean last week. All 17 applications were granted with no comment.

In November and December the Commis-sion reverted to crack-down form in with-holding license renewals from stations (big and little) pending explanations of alleged over-commercialism and lack of balance between commercial and sustaining programs. The Broadcast Bureau was instructed to send letters demanding an accounting. Since the FCC made no comment in granting the renewals, it is assumed that the stations satisfactorily explained their positions or changed their program schedules to meet Commission criticism.

Involved were the following stations: WAPL Appleton, Wis.; WAKT Antigo, Wis.; WBBM-AM-FM Chicago, Ill.; WBEV Beaver Dam, Wis.; WCFL Chicago, Ill.; WEAU Eau Claire, Wis.; WEDC Chicago, Ill.; WEMP-AM-FM Milwaukee, Wis.; WHMX Waukegan, Ill.; WGEZ Beloit, Wis.; WHEC Cicero, Ill.; WHVW Wausau, Wis.; WIND Chicago, Ill.; WIKS Waukegan, Ill.; WMOK Metropolis, Ill.; WOKW Sturgeon Bay, Wis., and WPEO Peoria, Ill.

Airpo rt Owner Sues to Stop KGUL-TV Galveston Ant enna

AN airport owner, three miles from the new 1,200-ft. KGUL-TV Galveston, Tex., antenna site, has sued to stop the ch. 9, CBS-affiliated station from completing its new antenna or for $250,000 in damages.

The suit was filed by Perry Brown, owner of the Clover Field Airport in nearby Pear land, in Brazoria County District Court. In his complaint, Mr. Brown claimed that he has spent about $150,000 to improve his airport, and that the airport would be unusable if the antenna is built.

KGUL-TV received both airspace panel approval and FCC authority to build its new antenna, although ch. 13 KTRK (TV) Houston objected in both instances.

The ch. 9 station has been sold, subject to FCC approval, to J. H. Whitney & Co. for an overall total of $44 million [BT, May 14, 21]. Paul E. Taft, present 40.5% owner and president-general manager, would remain as 10% owner.

The new 601 combines all the superb performance characteristics of the famed Ampex 600 plus these new professional features designed to fit your professional recording needs exactly:

New Low Impedance Output...600 ohms, 1.23 volts. Balanced or unbalanced (from tapes recorded at program level).

New Low Impedance Input...accommodates high or low impedance microphone. Low impedance microphone secured by accessory plug-in transformer.

New Instantaneous Starting...accelerates to full play mode in less than one-fifth of a second.

New Illuminated Record Safety Button...positive protection against accidental erasure.

New Saddle Tan Case...rugged Samsonite in handsome new color for easy portability anywhere.

The 601 works full time inside the studio and on location outside. It's a rugged, versatile machine that completely fills all these professional needs: studio recording, network delay, outside recording, editing, dubbing and broadcast playback. And because Ampex continues to produce with original specifications year after year, the price you pay buys both the finest performance available and the most hours of service per dollar.

CRAVEN'S TV OPINIONS, CIRCA 1946, 
HAVE FAMILIAR RING 10 YEARS LATER

Back before the television ball got rolling, FCC nominee advocated single band service, much along lines many are now considering in view of competition for scarce v's and difficulties in abundant uhf.

T. A. M. CRAVEN, President Eisenhower's nominee for a seven-year term as an FCC commissioner, apparently had the long view on television allocation as far back as 1946.

It was then, during the first postwar television allocations proceeding, that Comdr. Craven questioned the efficacy of vhf television—plumped hard for a one-band service in the uhf.

In opposing the "single band" to permit one-service television, Comdr. Craven pointed out that there wasn't enough space in the "low band" to permit a nationwide, competitive t.v. system and urged the use of 40 channels, each 13 mc wide, in the 480-1,000 mc band.

In opposing the recommendations of the Radio Technical Planning Board for a vhf system, Comdr. Craven expressed the doubts of many engineers that a vhf allocation could provide the kind of competitive national service deemed requisite for the United States.

His points were that vhf would permit too few channels, that spacing (200 mc co-channel) would permit not more than five stations per channel below 100 mc throughout the country, that the proposed 525 lines was low definition, and that the gamut between lowest frequency and the highest frequency would make receiver design difficult.

One of the factors that troubled Comdr. Craven then was the crowded condition of the 50-400 mc band. Aviation had a large chunk of that space, he declared, and there was need for fm and facsimile services.

By using 400-1,000 mc for television, Comdr. Craven estimated that there would be sufficient space for 40 channels, each of which would be 13 mc wide. He also suggested a 200-mile co-channel separation.

This would permit a high definition service in which "we can have as many tv stations as we have am stations along the congested eastern seaboard," Comdr. Craven said.

"Unless the proper allocation of radio space to television is made by the Commission," he said, "all three of these points—number of channels, number of stations per channel and receiver limitations—add up to a severe restraint upon the competition which will exist in the television field."

Strongly urging the Commission to make a specific allocation for tv somewhere between 400 mc and 1,000 mc, Mr. Craven added: "We believe that anything which tends to retard commercial television in these high bands much beyond the advent of television operating on pre-war standards below 300 mc would create an extremely hazardous situation with respect to competition between the two services . . ."

Later, he urged a one service television system. "I think it would be much better for us to operate only on one system," he said, "and not have to make the expense of a capital investment as well as the extra operating expense to operate two systems at the same time."

In discussing Cowles' plans, Comdr. Craven announced that Cowles was planning to put an experimental tv station in Washington to operate on 750 mc, using 525 lines for color, 735 lines for black-and-white using a 13 mc channel. Transmitter was to be furnished by Westinghouse and receivers by Zenith.

As an interim proposal, Comdr. Craven suggested that television be assigned to the 60-108 mc band, using 6 mc wide channels. However, he warned, this space must be used ultimately for fm and facsimile and for other services.

The FCC finally allocated 13 tv channels, 6 mc wide, between 44 mc and 108 mc, but not in a contiguous band. Ch. 1 (44-50 mc) was deleted from television service in 1948 due to interference with mobile services with which it was supposed to share space. Fm was assigned to the 88-108 mc band and the uhf band was reserved for future tv expansion.

In 1952, uhf channels were incorporated into the tv allocations table. They run from 890 mc to 830 mc.

FCC OPENS GATES ON TV TRANSLATORS

WITH the official authorization to use translators in bringing tv service to remote areas—announced by the FCC last week—the possibility of hundreds and even thousands of pipsqueak tv stations furnishing video to hamlets and cross-roads communities throughout the nation seems at hand.

The Commission's action—coming after three months of consideration following its Jan. 17 proposal—permits the establishment of translators anywhere needed. The only significant obstacle is that a translator station not interfere with any existing service.

The new service is scheduled to become official July 2.

By its action, the Commission legitimized the dozens of re-radiator operations which have come into being in the wide-open spaces of the Northwest.

The new stations will not, however, utilize the same techniques.

Under the new regulations, translators may be established under certain non-interference conditions. They will be permitted to pick up and rebroadcast any tv signal. The top 14 uhf channels (chs. 70-83) must be used by the translator. Equipment may be operated with remote control devices with power limited to 10 w (up to 100 w radiated power). The translator may not originate programs (just rebroadcast the signals of "mother" vhf or uhf stations). They will have their own call letters.

More than one translator will be approved for individual communities in the interest of bringing multiple services to viewers. Hours of operation are unfixed and there will be no limit on the number of translators which may be owned by the same interest.

The Commission denied recommendations which would have permitted translators to use either vhf or uhf radiation. It also turned down suggestions that on-channel boosters be established (this is an issue in another proceeding, it said). Opposition to the establishment of translators because of competition to community tv service was brushed aside as unfair to potential remote area viewers. The Jerrold suggestion to use translators to beam the remote signal to a central point in a community, from whence the signal would be delivered to viewers via cable, also was turned down as raising questions of policy that the Commission said it was not ready to answer. So was the recommendation that translators be permitted to utilize subscription tv operations.

The charge that translators should be restricted so they do not compete with regular tv stations was passed on the assumption that that problem could be dealt with on a case by case basis.

Establishment of the new service was sparked by the growing number of unlicensed repeaters established by small communities in the Northwest. These were declared illegal by the FCC and cease and desist orders were issued to close them down. The orders were stayed pending the establishment of the translator service.

Translator equipment is expected to cost about $1,000.

The new rules were made part of Part IV of the Commission's regulations (Subpart G).

---

Craven Up June 7

HEARING on President Eisenhower's nomination of Comdr. T. A. M. Craven to be an FCC commissioner (BSN, May 21) is scheduled for June 7 before the Senate Commerce communications subcommittee (Sen. John O. Pastore, D-R.I., chairman).

The hearing will take place in Room F-41 of the Capitol. The recommendations of the subcommittee will be reported to the full Senate Commerce Committee at its regular June 13 meeting.

Unanimous approval is expected. At week's end no opposition had been made to Senate Commerce personnel.

table of allocations be deleted when a national television framework was established.

In an illustration of how he would assign channels, Comdr. Craven submitted a table of allocations which determined 61 out of the top 73 markets. Only 12 of the top 73 cities would be intermixed under Mr. Craven's plan—all others would be either all vhf or all uhf.

Bill Would Legalize Boosters

REP. J. ERNEST WHARTON (R-N.Y.) has introduced a bill (HR 11,165) under which the FCC would be directed to provide for licensing tv boosters and vhf translators. The measure is similar to one introduced earlier this month by Rep. Don Magnuson (D-Wash.) (BSN, May 7).
Advertisers may know that each morning 4 million children sit entranced in front of their television receivers as they watch “Captain Kangaroo” — and that their number is growing every week.

They may also know that the kids will do anything he says — from singing a song to brushing their teeth or eating their cereal.

They may even know that children are always asking their mothers to buy something they have seen on television.

But what advertisers may not know is that a new research study recently completed by Eugene Gilbert and Company shows that 3 out of 5 children who regularly watch “Captain Kangaroo” go shopping with their mothers an average of three times a week.

It adds up to a pretty compelling picture for the advertiser who would like to have this kind of attention focused on his product.

This bewitching children’s program now has a 73% higher rating than its closest network competition and is available at a 49% lower cost per thousand. Joining forces with this great early morning leader might just turn out to be the secret sales weapon you need.
Multiple-City Plan Draws Split Opinion

SOME 30 suggestions, about evenly divided pro and con, were received at the FCC by last Wednesday, deadline for comments on proposed rule-making on multiple-assignment identification by TV stations. Practically all responses which favored dual-identification suggested modification of the proposal put forth by the Commission, while opponents were equally unanimous in unqualified disapproval.

Institutors of the rule-making proposal, WVEC-TV Hampton-Norfolk, Va., and ch. 6 WDSM-TV Superior, W1-Duluth, Minn., seeking to locate studios in both cities under the FCC table of assignments which assigns channels to hyphenated communities, supported the proposed rule-making with particular respect to their own situations.

Opposing WDSM-TV's contention, but not heretofore mentioned that dual identification should not be authorized in a state different from where a station's main studio is authorized.

Instigators of the rule-making proposal, would serve the public interest for assignments which assigns multiple rule-making with its own legal,陶瓷 business owner; Secretary-Treasurer Janice Velva Grauer (15.6%), owner of weekly Marysville Advocate.

- Ortonville, Minn.-Tri-State Broadcasting Co., 1350 kc, 1 kw daytime. Principals are equal owners, President James D. Kaercher, facilities of a broadcast station would be in contravention of Sec. 3.66 of the Commission's rules.

The FCC's letter was in response to a request for a declaratory judgment sought by the agency in the Marko case. If the Commission to issue such a judgment. Last week's letter was the Commission's response to the issue.

Explaining its stand, the Commission said the three elements of the FCC's Rule 1304 are "... prize, chance, and consideration." It is clear, it said, that the lottery elements of chance and prize are present in the Play Marko format. The Commission also declared it believed that there exists the additional element of consideration sufficient to constitute a lottery. This determination, it said, is based upon the applicability of the three elements to all or most programs that desire to participate in Marko go to a store or other establishment where the products of its sponsor are sold in order to obtain Play Marko cards.

Both KTLA (TV) Los Angeles and WGN-TV Chicago carried the program until May 1955, when the FCC, in a letter to KTLA, declared its belief that the show violated the lottery laws. Caples said the action caused numerous other TV stations to cancel the program or refuse to take orders for it.

Caples filed a suit in the U. S. District Court in Washington seeking to restrain the Commis- sion from issuing show cause orders declaring Play Marko a lottery. Caples said in part, "... the finding... that Marko was a lottery and violated (U. S. Code) Section 1304 was made ex parte [one sided] and without a hearing; notice to the television stations telecasting Marko and was without foundation either in law or in fact."

The court, however, refused to go along with Caples, dismissing the case on the ground that the Commission had issued no legal, official action against Play Marko.
CONELRAD SLATES
NATIONWIDE TESTS
TWO nationwide Conelrad exercises—which will involve all broadcast stations in the U. S.—are scheduled to take place in the next two months, it was learned last week.
A country-wide test of Conelrad alerting equipment will occur at 11:30 a.m. EDT, June 16. A similar regular public demonstration—involving the entire Conelrad operation—is scheduled at 4:10 p.m. EDT, July 20.
The internal June 16 test, required by the Dept. of Defense, is for the purpose of checking alert equipment at military and government installations. The exercise will consist of all stations discontinuing normal programs and announcing station call letters, cutting off transmitters for five seconds, returning to the air for five seconds, cutting carrier off again for five seconds and then returning to the air with 1 kc tone for 15 seconds.
Stations will be permitted to join the test operation anytime beginning five minutes before 11:30 to five minutes after that time. This will permit participants to utilize station ID time, obviating the need to interrupt programs.
This is the first time all broadcast stations have been asked to participate in the alert equipment test. Previously, also in June of each year, only stations officially affiliated in the Conelrad program participated. Key Conelrad stations have been holding this type of test twice weekly for the past several years.
The July 20 demonstration will require all participating stations to switch to 640 kc or 1240 kc, with fm and tv stations going off the air for 15 minutes during the test.
The dates and hours of the two tests were chosen by the FCC after checking with about 75% of the stations involved, it was said.
In 1957, according to Conelrad officials, an all-encompassing alert equipment test will involve almost 1 million transmitters. This exercise will include not only all broadcast stations, but also those of the non-broadcast services—amateurs, military, government, taxicab, trucking, railroad, etc.
Conelrad is a method of maintaining broadcast service on the air without enemy planes being able to use the frequency of individual stations for navigational purposes. This is accomplished by having each station in a cluster broadcast news and information for the civilian populace interminently.
FCC Okays $1.5 Split Sale
Of Twin Cities' KEYD-AM-TV
THE $1 million-plus "split" sale of KEYD Minneapolis-St Paul and its ch. 9 sister station, KEYD-TV (B+T, April 9), was among the station sales approved by the FCC last week.
The Commission granted assignment of the KEYD stations from Morris Baker and associates to United TV Inc. (Seymour Weintraub, president) for $1.5 million and the agreed-to, subsequent sale of KEYD (1440 kc, 5 kw day) to Robert Purcell, managing director of the twin-city stations, and James A. McKenna Jr., Washington, D. C., attorney, for $100,000. KEYD has been on the air since 1948, KEYD-TV since January 1955.
Mr. Weintraub, Flamingo Pictures president, last week purchased WKBS Mineola (L. I.), N. Y., from Key Broadcasting System Inc. (Lee Hollingsworth, president), for $116,500. Sale is subject to FCC approval. WKBS operates on 1520 kc, 250 w daytime, and has been on the air since 1948.
Complaints About Tv Ads
Sift Through to White House
WORD of a considerable volume of White House mail said to be complaining about some tv commercials—their length and "taste"—has belatedly leaked from an informal discussion that White House News Secretary James Hagerty had May 4 with radio-television newsmen.
Mr. Hagerty mentioned in passing, in response to a query on how White House mail was "running," that letters regarding offensive commercials had come to official attention. The matter was not discussed further although in at least one case a memo was sent to New York headquarters apprising the network's heads of what was said.
The informal meeting was one which Washington newsmen hold with the news secretary at six months to a year intervals to discuss problems pertaining to accurate coverage of the federal government. No transcript of the conversation was made and Mr. Hagerty was out of the country and unavailable for comment.
Newsmen at the meeting: Ted Koop, CBS director of news and public affairs, Washington; Lew Shullenberger, CBS director of special events, Washington; Robert Hurleigh and Jack Gertz, director and assistant director, respectively, of Washington operations for MBS; Julian Goodman, NBC director of news and special events for Washington, and Richard Rendell, ABC director of news for Washington.
ALLOCATIONS PLAN DOESN'T REACH VOTE

PROPOSAL by Chairman McConaughhey that the tv table of allocations be dropped—proposed at last Wednesday's meeting on tv allocations—was seconded by Comr. Doerfler but never got to a vote. Too many complications and objections, it was understood. Basic objection, it is believed, was that this action should not be taken unless at the same time the present antenna separations are re-affirmed. This touched off a morning-long wrangle which ended only when the commissioners dispersed for lunch.

Next meeting is scheduled to be underway today, with another approach heading the agenda. This, it is understood, will be a suggestion that the FCC issue a "declaration of intent" to make the eastern part of the United States all uhf—over a 10-year transition period. This has the backing of some segments of the Commission, it is said.

WTOb-TV Winston-Salem Seeks Ch. 8 Drop-in There

WTOb-TV Winston-Salem, N. C., citing its continuing interest in the allocation in almost three years of face-to-face competition with ch. 12 Wjsv-TV there (both began in September 1953), last week asked the FCC to drop in channel 8 at Winston-Salem. Wtob-TV indicated that should the FCC accept its present ch. 26 to 8, it would be in a better competitive position. Winston-Salem Broadcasting Co., Wtob-TV licensee, also holds a grant for ch. 29 Rich- mond, Va. (Wotv-TV).

Wtob-TV says that its losses ($101,910 in 1954, $79,492 in 1955) have forced the station to reduce its hours of operation and curtail its service. ABC advertisers (Wtob-TV is an ABC affiliate) have indicated a preference for delayed programs on "fringe area" uhf stations as against a regular network show on the Winston-Salem affiliate. Wtob-TV told the Commission, "a uhf drop-in could be accomplishd, Wtob-TV said under ABC's recommendations on revision of overall tv allocations [Bwt, Dec. 19, 1955].

John G. Johnson, Wtob-TV general manager, spoke in favor of competitive uhf TV, which is active on Capitol Hill on behalf of uhf.

Southwester Wants FCC To Deintermix Fort Smith

UNSUCCESSFUL in its attempt to purchase ch. 5 KNAC-TV Fort Smith, Ark., Southwester Publishing Co. (Donald W. Reynolds interest) last week asked the FCC to transfer the ch. 5 Fort Smith allocation to Fayetteville, Ark., making Fort Smith an all-uhf community.

Fort Smith is now allocated chs. 5 (KNAC-TV, not yet on the air), 16 (available educational), 25 (operating Kfsa-TV, owned by a Southwestern affiliate) and 39 (available). Fayetteville has two allocations (both vacant), chs. 13 (educational) and 41.

Southwestern pointed out that Kfsa-TV, a uhf "pioneer" (on the air since July 1953), is just outside the market above the "break-even" point, but is in danger of being destroyed by the proposed operation of KNAC-TV.

Southwestern's proposed purchase of KNAC-TV from American Tv Co. was approved in an FCC hearing examiner's initial decision, but was the subject of oral argument on a protest by "The Citizen's Group for Two Television Stations in Fort Smith" [Bwt, March 19]. The KNAC-TV sale contract expired April 1, before final FCC action, and American Tv Co. said the contract would not be renewed and that it (ATC) intended to construct the station.

Four Enter Consent Decrees In 15% Commission Litigation

CONSENT DECREES have been entered in the last four cases in the Justice Dept.'s civil antitrust litigation against the 15% advertising agency commission in network "agency lists," Attorney General Herbert Brownell said last week. The decrees, entered Tuesday in the Federal District Court in New York City and accepted by both sides, involved Publishers Assn. of New York City, Associated Business Publications Inc. and Periodical Publishers Assn. of America, all New York, and Agricultural Publishers Inc., Chicago.

Similar consent decrees, prohibiting uniform fees and "recognized" agency lists, were accepted in February by American Assn. of Advertising Agencies and in April by American Newspaper Publishers Assn.

FCC Budget Bill Moves Up

The Senate Appropriations Committee Thursday approved $7.8 million 1957 budget appropriation approved by the House to $7,828,000, the extra $28,000 for a monitoring station at Douglas, Ariz. The figure includes $4,000 for the FCC's new network. The bill, if passed by the Senate, will go to a joint congressional committee to resolve Senate and House differences.

WBC Opposes Daytimers In Fixed-Hour Petition

WESTINGHOUSE BROADCASTING Co. last week joined in opposition to a Daytime Broadcasters Assn. petition seeking fixed hours for daytime station operation. The petition, which proposed that the Senate, will go to a joint congressional committee to resolve Senate and House differences.

Sky's the Limit

THE CELESTIAL HOPEs of the Air Transport Assn. came crashing to earth last week when the FCC denied that group's request to reconvene a tall-tower tv hearing aboard an Eastern Airlines plane. Ata, in arguing that its proposed 1,993-ft. Wsia (TV) Selma, Ala., tower would constitute a hazard to air navigation, asked the presiding FCC hearing examiner, H. Oiford Irion, to elevate the Wsia case from a handshake glimpse of the tower-site. Ata said it would pay all expenses. The examiner, well-grounded in Commission practices, denied the motion, claiming such an order would be confusing. The bill, if passed by the Senate, will go to a joint congressional committee to resolve Senate and House differences.

WORLD RELEASES SERIES

PROGRAM SERVICES

World Releases Series On U. S. Political Race

As tie-in programming for the national political conventions in August, the World Broadcasting System last week released to member stations a 13-week series of half-hour programs titled The People Choose, which re-creates outstanding U. S. presidential campaigns. Pierre Weiss, general manager of World, said the programs are designed for three local commercials as well as opening and closing sponsor commercials and are being broadcast as participating features, starting this week.

The series spotlights significant campaign issues, political songs and slogans of historic campaigns. Mr. Weiss added that World has received an extension of its original campaign for the series, including teaser spot announcements, ad mats for local sponsor use and special sales pieces.

'Bob and Ray' Leave WINS To Form Packaging Firm

AFTER little Piels, big bells (cash-register type) toll.

This seemed to be the new chapter for Bob Elliott and Ray Goulding, the voices of Harry and Bert Piels (animated tv commercial for Piels Bros. Beer, Brooklyn, N. Y.), who have announced an end to WINS New York for over two years, now will team up with Young & Rubicam copywriter Ed Graham to form Goulding-Elliot-Graham Productions Inc., a packaging firm for radio-tv commercials, early next month.

Mr. Graham—creator of Bert and Harry—meanwhile, has submitted his resignation to Young & Rubicam, effective June 30.

The firm, which will open its doors "some-time between the 1st and 15th of June," according to Bob and Ray's personal representative, has already signed on all fields of broadcast commercials. President of G-E-G productions will be Mr. Graham, with Messrs. Goulding, Elliott and Moses, vice presidents. Mr. Moses also will be the firm's general manager.

Mr. Graham said Bob and Ray's broadcast will be cancelled. Mr. Moses said, the team's daily MBS shows as well as its week-end chases on NBC's Monitor will continue.

'Lonesome Gal' Files Suit

CHARGING the RCA record division and RCA Victor Distributing Corp. have infringed upon her trademark of "The Lonesome Gal," Jean King has filed a $6 million damage suit against the companies in U. S. District Court at Los Angeles. Miss King said she has spent large sums since 1947 to promote her title in radio and the recorded and alleged that the defendants in January issued recordings using the name of "Lonesome Gal, Lurleen Hunter." She asked $5 million general damages and $1 million punitive damages.

PROGRAM SERVICE SHORTS

WRAD Radford, Va., which tape-recorded last words of Sen. Alben Barkley before he died of heart attack at Washington & Lee U., April 30, is negotiating with Town Hall Inc. for inclusion of 16 mm tape in Congressman Barkley being prepared by Town Hall. Station furnished its news tape to NBC, 35 radio stations and former Pres. Harry Truman who requested copy.
**Six O’clock Adventure**

Our new “Six O’clock Adventure” strip is bound to get you sales action in the rich Northern Ohio Market. It delivers half-a-million sales impressions, nightly.

Look at the time rating (6-6:55 pm)—14.8, 5-day average, and with peaks as high as 16.5. That’s 65% more audience than its closest competition—and with 60% adult audience, at that!

Time on this new strip is going fast. In fact, it was 60% sold out the first week on the air. For information, call Albert P. Krivin, Sales Manager for KYW-TV, at CHerry 1-0942, or A. W. “Bink” Dannenbaum, WBC General Sales Manager, MUrray Hill 7-0808, New York.

In Cleveland, No Selling Campaign is Complete Without the WBC Station—

WESTINGHOUSE BROADCASTING COMPANY, INC.
TRIANGLE MAKES 4TH PURCHASE IN YEAR,
BUY WSNC-AM-FM-TV FOR $5.4 MILLION

Sale of New Haven, Conn., outlets makes Annenberg interests among
top in ownership. Firm's outlay for stations in past 12 months is
nearly $12 million.

SALE of WNHC-AM-FM-TV New Haven by
Aldo DeDominicis and Patrick Goode and as-
so much as Triangle Publications Inc. (Philadelphia
Inquirer-WFIL-AM-FM-TV Philadelphia)

MR. GOODE  MR. DeDOMINICIS  MR. CLIPP  MR. ANNENBERG

for $5.4 million was announced by Mr. De
Dominicis Friday.

In its fourth station purchase in a year, Tri-
angle (Walter H. Annenberg and family), is
acquiring the pre-freeze ch. 8 ABC-TV New
Haven outlet which has been the only uhf sta-
tion in the mid-Connecticut area for almost
five years. WNHC-TV also is supplementary
CBS-TV. The am station, on ABC, operates on
1340 kc with 250 w fulltime.

The purchase, subject to the usual FCC ap-

The purchase, subject to the usual FCC ap-

The purchase, subject to the usual FCC ap-

acquiring the pre-freeze ch. 8 ABC-TV New
Haven outlet which has been the only uhf sta-
tion in the mid-Connecticut area for almost
five years. WNHC-TV also is supplementary
CBS-TV. The am station, on ABC, operates on
1340 kc with 250 w fulltime.

The purchase, subject to the usual FCC ap-
proval, gives Triangle its fifth television and
radio property, Triangle owns in addition to
the WFIL stations, WNBF-AM-TV Bingham-
ston, N. Y.; WFRG-AM-TV Altoona, Pa.;
WLBR-TV Lebanon, Pa. (subject of a protest
hearing), and 50% of WHGB in Harrisburg,
Pa.

Acquisition of the WNHC properties would
place Triangle in the top bracket of station own-

able accomplished in the last year under the
direction of Roger W. Clipp, general man-
ger of Triangle's radio and television division.
The Binghamton stations were acquired for
$3 million in May 1955; the Altoona properties
for $3.5 million last January, and the Lebanon
uhf outlet for $115,000 plus obligations of
$125,000 last November. The latter approval has
been suspended pending the outcome of a
protest hearing.

All of the stock of the WNHC stations would
be transferred to Triangle. DeDominici-

DeDominicis and Goode are principal stockholders, each with
about 42% ownership.

It is understood that Mr. DeDominicis will
receive $25,000 a year for five years as con-
sultant, while Mr. Goode and his brother
Michael will each receive $10,000 a year for 10
years as consultants. The transaction was
handled by Howard Stark, New York. The appli-
cation is due to be filed this week. No staff
changes are contemplated.

Patrick Goode is president of Elm City
Broadcasting Corp., licensees of the WNHC
stations. His brother Michael is public rela-
tions director. Mr. DeDominicis is general
manager and secretary-treasurer. The same
principals also own WHAY New Britain.

WNHC is leading the protest against FCC
approval of the sale of uhf stations WGTN-TV
Hartford to CBS and of WKNB-TV New
Britain to NBC. These sales have been set for
hearing, with WNHC required to bear the brunt
of proving its charges that the network pur-
chases would lead to monopoly [B&T, May 14].

Conferences on these hearings, however, have
been postponed in the light of the sales trans-
actions.

WITI-TV Officially Opened;
Uses DuMont Vitascan Color

THE FIRST STATION to make use of Du-
Mont Vitascan color system went into opera-
tion last Monday (May 21) with official open-
ing of WITI-TV Whitefish Bay (Milwaukee)
on vhf ch. 6.

The station, licensed to Independent Televi-
sion Inc., went on the air with a full-hour color
dedication program featuring WITI-TV execu-
tives and local officials. WITI-TV is program-
ing about 56 hours each week, with live shows
(weather, news, children's fare), slides and
films transmitted in color during the 4:30
p.m.-12 midnight schedule. Bulk of program-
ing consists of full-length motion pictures
and half-hour tv film series.

Principals in WITI-TV are Jack Kahn, pres-
ident; Stanley Glass, president of Rhein Mfg.
Co., vice president; Lawrence Fleischman, treas-
urer; Sol Kahn, Milwaukee attorney, secretary;
and the following directors: Col. William Rob-
erts, member of the Washington law firm of
Roberts & McGinnis; Arthur Fleischman,
Fleischman Rug & Carpet Co.; Robert Strauss,
former publisher of Omnibook magazine; Max
Onos, president of Scan's Dept. Store; J. I.
Meyerson, former national sales repre-
sentative of the Time-Life radio-television proper-
ties, is general manager of WITI-TV.

KNX-CPRN Moves Wilkins

FULTON WILKINS, assistant general manager of
KNX Los Angeles and the Columbia Pacific
Radio Network, has been named eastern sales
representative of KNX-CPRN, it was an-
ounced by Donald M. Ross, KNX-CPRN gen-
eral sales manager. Mr. Wilkins succeeds
Ralph Glazer, who was named account execu-
tive in the New York office of CBS Radio Spot
Sales.

ESSO RESEARCH works wonders with oil

How oil helps make your dishwashing easier

In ten short years, a revolution has occurred in ways to clean dishes. No more scrubbing or dull film! Now dishes really sparkle—and so do the eyes of happy housewives. Detergents make the difference, and an essential ingredient of most of them is made from oil. By making your everyday living our everyday job, ESSO RESEARCH works wonders with oil!
New KTHS-KTHV (TV) Home Holds Dedication Ceremonies

KTHS-KTHV (TV) Little Rock, Ark., held a formal open house last week as part of the dedication of its new combined radio-tv building. The ceremonies were aired during a 1½-hour telecast on the ch. 11 outlet. Over 6,000 people toured the new facilities in the first three hours they were open. U. S. Senator from Arkansas, J. William Fulbright, spoke briefly and cut the ribbon officially opening the doors of the building. Dedication speeches were made by B. G. Robertson, general manager of the stations; Clyde E. Engert, secretary of the Arkansas Television Co. (the station licensee), and chairman, and K. A. Engel, Arkansas Television president and publisher of the Arkansas Democrat. Arkansas Gov. Orval Faubus and Secretary of State C. G. Hall later put in televised appearances.

Twenty-eight out-of-state advertising agency executives were present at the ceremonies, having been invited by the stations and added to a series of dinners, tours, and other festivities.

$210,000 Giveaway

WDGY Minneapolis-St. Paul and KOWH Omaha, Neb., Mid-Continent Broadcasting Co. outlets, are each offering $105,000 in cash to one person in their market. Each entry is believed to be the largest single prize offered in the radio-tv industry.

The twin contests are to begin at 12:01 a.m. on June 7 and close at midnight, June 16. Clues as to the whereabouts of the bank drafts will be broadcast in rhyme twice daily at unannounced times to progressively narrow the area of search. Shoult either bank draft not be found by deadline time, the amount of prize money will be reduced to $500 and the station will proceed to give increasingly obvious clues until someone finds the hiding place.

Todd Storz. Mid-Continent president, said the drafts will be hidden in a "readily-accessible spot" within a 10-mile radius of each station. The drafts will be placed not more than 15 ft. above, nor more than five feet below ground level, he said, and will be hidden in spots which are accessible to the public, without charge, 24 hours a day.

Other Mid-Continent stations are WBB Kansas City and WTIX New Orleans. It has an application pending for the purchase of WQAM Miami.

WBC Names Bascom Eastern Sales Manager

PERRY B. BASCOM, director of tv sales, WOR-AM-TV New York, has been named to fill the five-month vacancy left by former sales manager at Westinghouse Broadcasting Co., WBC General Sales Manager Alexander W. Dannenberg Jr. is announcing today (Mon.). Mr. Bascom replaces John F. Hardesty, who left WBC Jan. 2 to join Radio Advertising Bureau as vice president.

In his new post, Mr. Bascom will work with WBC's sales representatives, Peters, Griffin, Woodward Inc., and the Katz Agency, as well as individual sales managers.

WOW Puts Radio Promotion On the Road Around U.S.

A MARATHON showing of a new, pro-radio, pro-tv show, named "On the Road," was introduced last week by agency and agency people throughout the country was launched by WOW Radio Sales Manager Bill Wiseman last week in New York.

At five consecutive luncheons at the Stork Club, Monday through Friday, breakfast showings were given to about 50 agency people. Without question, the agency people will be showing the "On the Road" show to all clients.

The presentation, which shows the advantages of radio over other media and points up the advertising values of WOW and its service area specifically, was prepared by John Blair & Co., WOW sales representatives, in collaboration with Mr. Wiseman and other WOW authorities.

Fire-Damaged WEAR Gets Quick Transmitter Service

WEAR Pensacola, Fla., whose entire transmitting plant was destroyed in a disastrous fire, was speedily put back on the air last week through fast cooperation in shipment of a new transmitter.

Howard Decker of Gates Radio Co.'s Atlanta office reported the urgent need for the equipment last Monday, and a slide show of the new transmitter was prepared, either by the agency or by the manufacturer, and sent to WEAR as a part of the deal.

KGW Appoints Eichhorn

JOHN H. EICHHORN, assistant to the vice president and general manager of KLM-AM-TV Seattle, last week was appointed station manager of KGW Portland, Ore., succeeding James Mount, who has resigned effective May 31.

Mr. Eichhorn had been with KING as commercial and station manager for several years. Before that he had been sales manager of KIRO Seattle, entering the radio field in 1944.

"I read Ad Age from page one to the back cover"

says LARRY L. MACK
President
Slenderella International

"Ad Age not only keeps me posted on current events in the advertising world, but gives me a keen insight into the psychology and significance of advertising. I take it home so that I can read it leisurely from page one right through to the back cover. Several ideas have emerged out of this which I have successfully put into practice in my own business."

LARRY L. MACK

Mr. Mack founded the first of his chain of slenderizing salons in 1948. Previously, he had been sales manager of a financial firm, paymaster aboard the carrier Bataan during the war, and had attended Drury College, Missouri University and Harvard Graduate School of Business Administration.

Slenderella has had a phenomenal growth. From five salons in 1951, it had jumped to 120 by 1956, with eight new ones being opened monthly. Present locations include Paris, Zurich, Honolulu and Toronto besides U. S. cities, and 1956 schedules call for new salons in Dusseldorf, Amsterdam, Brussels, Milan, Rome and Caracas.

Advertising Age gets cover to cover readership from most of the sales, advertising and marketing executives who are important to you. For keeping posted, for getting sharp insights into current markets and marketing, for a wealth of ideas to be adapted and developed, Ad Age is vitally important—not only to those who activate important media decisions, but to those who influence these decisions.

Slenderella International, for example, is carrying an advertising budget of $2,000,000 this year. Its schedule includes newspapers and magazines, with spot broadcast accounting for a substantial part of its advertising efforts and growth. In his radio time, Mr. Mack leans towards "friendly" personalities on various stations, while his tv spots feature interviews between Eloise English, his executive vice president, and wives of famous movie stars.

Consistent, intensive readership of Ad Age like Mr. Mack's is a "must" for most top advertising and marketing executives in national advertising companies. It's a Monday morning-Monday evening habit with most agency executives, too, as indicated by its nearly 9,000 paid-subscriptions among advertising agencies. With this quality of readership permeating throughout its unmatched 32,561 ABC paid-subscriptions representing 124,000 total readers, Advertising Age is a most powerful medium available for swinging broadcast decisions your way in 1956.
KTLA (TV) Completes Move To Sunset Blvd. Headquarters

KTLA (TV) Los Angeles has completed moving its studios from 721 N. Bronson Ave. to 5800 Sunset Blvd., Hollywood. KTLA has been partially operating from the Sunset lot since 1955.

Final phases of the move were accomplished in an overnight operation without the station losing any air time.

KTLA's old studios, on Bronson Ave. will revert to Paramount Pictures, the station's parent company.

WICC Publishes New Rates

ADJUSTMENT in certain rates and time classifications goes into effect June 1 at WICC Bridgeport, Conn., according to Manning Slater, vice president and commercial manager. The rate changes will amount in general to a 20% increase in the daytime rate (6:30-10 a.m.) and a 20% reduction in nighttime (7-11 p.m.), while the period 10 a.m.-7 p.m. will go up about 10% in rates. The new policy follows WICC's withdrawal from the Yankee Network and MBS.

Under the new rate card (No. 18), Class A time changes from 6:30 a.m.-noon to 6:30 a.m.-10 a.m., with the one-minute announcement upped from $25 to $30. Class B includes all other time periods, with nighttime Class B rates changed to bring the 7-10 p.m. period under a cut from $18 to $12 for one-minute announcements, and a 10-midnight reduction from $12.50 to $10 for one-minute announcements.

McCarthy to Join Gerity

RESIGNATION of James E. McCarthy as dean of the College of Commerce of Notre Dame U., effective June 1, was announced last week.

Mr. McCarthy will become vice president in charge of education and public service programs for the Gerity Broadcasting Co. (WNEM-TV Bay City, Mich.; WPON Pontiac and WABJ Adrian, Mich.) and also will establish his own management-consultant business in the midwest.

Mr. McCarthy has been dean of the Notre Dame College of Commerce since 1926. Upon his resignation, Mr. McCarthy will become dean emeritus of the college.

KFRE-TV to Go Full-Time

KFRE-TV Fresno, Calif., will expand to full schedule operation June 5, Ed Freh, station manager, announced last week. He said the ch. 12 outlet will sign on at 6:55 a.m. and broadcast until midnight. KFRE-TV, a basic CBS affiliate, went on the air May 10, operating with maximum power of 316 kw. Mr. Freh stated early reception reports from about 90 cities in central California indicate excellent coverage over a 100 mile area north, west and south of the station's transmitter location.

WNBQ (TV) Color Clinics Open to All Sponsors, Agencies

WNBQ (TV) Chicago is throwing open its color orientation clinics to all agencies and their clients for product tests, it was announced Tuesday by Floyd B. Beason, sales manager of the NBC-owned station.

Needham, Louis & Broity Inc. was the first agency to avail itself of the opportunity to observe product demonstrations on color television. A number of advertisers, including Swift & Co., Armour & Co., Peter Hand Brewing Co., Coca-Cola and Libby, McNeill & Libby, are participating in the clinics, launched last March before WNBQk began all-color operation. Agencies and clients conduct color and lighting tests on products, packaging, trademarks and other visual aids during the sessions, held in cooperation with WNBQ's engineering, programming and production facility staffs. Sessions are conducted each Wednesday, 3-5 p.m.

Products are placed before color cameras under actual studio conditions and agencies and clients may observe the demonstrations on conventional monochrome and color tv monitors.

KDAY Announces Plans For New L. A. Studios

KDAY Santa Monica, Calif., has announced plans for the building of new studios and offices in Los Angeles. It will be the first independent radio station facilities in its own building in Los Angeles.

Construction of the contemporary-design building at the northwest corner of Sunset Blvd. and Sweetzer is to begin June 15, according to J. D. Funk, president, and George A. Baron, vice president and general manager of the 10 kw station.

Each of the three studios is to be an individually-supported, sound-proof area. The front of the building will consist of a series of indirec-tly-lit, ceramic-tile covered recessed panels forming a pictorial pattern.

McGavren-Quinn Co. Opens Chicago, New York Offices

MCGAVREN-QUINN Co., San Francisco and Hollywood representative firm, has opened offices in New York and Chicago. New York offices are at 33 West 42nd St. and Chicago offices are at 612 North Michigan Ave.

Jack Davis will serve as eastern manager, it was announced last week by Daren McGavren, the firm's president. At the same time Mr. McGavren announced that McGavren-Quinn has taken over representation of KTRB Modesto, Calif.; KSRO Santa Rosa, Calif.; KONE Reno, Nev., and KTOO Las Vegas, Nev.

Coming: 'Sports Showcase'

A NEW SPORTS SHOW to be entitled 'Sports Showcase' and to be programmed each night Monday-Friday in the 11-midnight slot, is slated to make its appearance on WATV (TV) Newark, N. J. The new program, featuring interviews with well known sports figures, film highlights, and other sports features, will originate from Al Schacht's New York restaurant, beginning May 28. Co-host will be Max Kase, New York sports editor, and Dr. Joyce Brothers, the psychiatrist who won $64,000 on the CBS-TV program, The $64,000 Question, for correct answers on boxing. Jerry Gross is the producer and Joe Roberts the executive producer.
Justice Dept. Digging Into Philadelphia Rates

POTENTIAL charge that Philadelphia radio stations conspired to maintain rates was in the making last week in Philadelphia—after 10 Quaker city standard broadcast outlets and the Philadelphia Broadcasters Assn. were served with subpoenas by U. S. marshals.

The subpoenas, requested by the anti-trust division of the Dept. of Justice, asked for documents and correspondence from 1952 concerning rate fixing, rate maintenance, charges in rates at a fixed time, agency recognition standards, standard contract form for political broadcasting, standard advertising contracts, fixing of salaries for employees and talent, standard policies regarding department store or chain store advertising, use of uniform standards for broadcasts, filing of information on rates and contracts with a central office.

The stations were ordered to furnish this information to a Philadelphia Grand Jury June 4.

At issue, it is believed, is the Philadelphia Broadcasters Code adopted by the Philadelphia Broadcasters Assn. last year. This was a pledge not to cut card rates. The PBA is headed by William Casky, WPEN Philadelphia. Also involved, it is understood, is a joint telegram sent by Philadelphia commercial managers to Dancer-Fitzgerald-Sample in response to its wire last year asking radio stations to inform the agency what its lowest rate was for a prospective advertising campaign. The response was said to declare that the stations maintained their rate card tariffs. WCAU Philadelphia was not a signatory to this wire, it was learned.

The subpoenas were served on WIP, WIBG, WRCV, WIMJ, WPEN, WCAU, WPLN, WHAT, WTEL, and WPIL. There is some question whether WRCV is accountable, since it only recently was taken over by NBC from Westinghouse. Under NBC's ownership, it is not a member of the PBA.

The PBA met last Wednesday to consult with attorneys. It was the consensus, it was reported, that the Grand Jury would find little ammunition in its investigation to provide the basis for an official suit.

Fast—and in Color

ANTICIPATING the day it will be using color for local news programs, KIMA-TV Yakima, Wash., reports that it is turning out colored news film in 49 minutes, nearly half the 90 minutes recommended by experts.

The process is the result of experiments by Robert H. Horn, the station's chief photographer, who says that he was "pleasantly surprised" with the good quality film produced. For nearly three years, KIMA-TV's photo department has been processing its own black and white film in only 15 minutes.

Mr. Horn is satisfied that the speed gained in processing is well worth what loss there may be in permanency of the print. To accomplish the fast processing, washing time is cut from 23 to four minutes, shortstop time of two minutes is cut in half as is the fixing time of four minutes. Drying is speeded up with a combination of heat and forced air in a tank specially constructed by the KIMA-TV photo department.

Fm Music Selections Listed By Philadelphia Newspaper

AS THE RESULT of a survey by the Philadelphia Daily News which shows that "an overwhelming number of residents of the Greater Philadelphia area own fm receivers or combination am-fm sets," the newspaper now is listing fm music selections on its radio pages.

The News survey found that almost 70% of those who have access to fm stations listen to them both during the day and in the evenings.

The newspaper also set another precedent among Philadelphia papers last week by highlighting "Tv Tips for Tonight" on its front page two-minute news summary, giving top television shows the same placement as top news stories printed in the Quaker City's only daily tabloid.

Rose Joins Blair

JOE ROSE has been appointed business manager of John Blair & Co., national radio representatives, effective Friday, it was announced last week by John Blair, president. Mr. Rose, who has been a certified public accountant with the firm of Touche, Niven, Allen & Smart in Chicago, will make his headquarters in New York.

Ore. Democrats Pick Holmes

ROBERT D. HOLMES, general manager of KAST Astoria, won the Democratic nomination for governor of Oregon in that state's primary election May 18. Mr. Holmes will run against incumbent GOP Gov. Elmo Smith in the fall.

VARIED FARE MARKS NATIONAL RADIO WEEK

One hour of silence by four Duluth, Minn., area stations stresses importance of aural medium. NBC presents excerpts of recorded highlights of 30 years of network broadcasts.

Perhaps the National Radio Week observance with the most impact was the promotion of all Duluth, Minn., area stations. Without any advance notice of any type, they remained silent for one hour (7:30-8:30 a.m.) to begin the week's celebration.

The massive shutdown was held to impress upon area residents the important part radio plays in their everyday lives. Participating stations were KDLW, WEBE and WDSD Duluth-Superior and WKLK-Cloquet, Minn.

Hundreds of phone calls were received by all four stations from listeners who usually wake up by clock radios. Radio repair shops were swamped with sets that worked perfectly and local garages reported a flood of motorists seeking repairs on their car radios. Civil Defense authorities were notified beforehand to forestall any accidents.

Further reports on National Radio Week promotions [B&T, May 21, 14] were reported as follows:

With H. V. Kaltenborn narrating, NBC presented excerpts of recorded highlights of 30 years of NBC broadcasts in a 55-minute program during NRW called Recollections at 30. Included were an eye-witness description of the bombing of Pearl Harbor, the electrocution of Bruno Richard Hauptmann, the scuttling of the German Graf Spee, announcement of the attack on Pearl Harbor, the declaration of war against Japan, and an eye-witness description of action in the Korean War.

In the political field there was part of a Huey Long broadcast, Mr. Kaltenborn's 1948 election-night prediction of the defeat of President Truman by Thomas E. Dewey and Mr. Truman's subsequent program of the NRW E. C. M. radio network. It followed the broadcast, Mr. Kaltenborn's description of the卷尾语 of the national radio industry.

There were bits of two soap operas—Just Plain Bill and One Man's Family—and parts of quiz shows of radio's earlier days, including Pot O' Gold, Truth or Consequences and Quiz Kids. Other shows excerpted included an Arch Obeler drama; Fred Allen's quiz show with Take Off called Breakfast, the contestant, Baron Munchausen, March of Time, Little Jack Little, Kraft Music Hall, Ben Bernie, Amos 'n Andy and Fibber McGee & Molly.

Hayes Talk

Arthur Hull Hayes, president of CBS Radio, appeared on the network's News of America program and provided an appraisal of radio's future. Mr. Hayes contended that radio is "greater now than it has been at any time in its 34-year-old history," pointing out that thus far in 1956 the sale of radio sets is higher than in 1955, when 14 million sets were sold. He cited two "outstanding attributes" of radio: 4s immediacy and its "companionship," meaning that radio "can move with the listener from room to room or from coast to coast."

WOKO Albany, N. Y., recorded a message from the mayor proclaiming NRW "as a tribute to the people of our community engaged in the radio broadcasting industry" and to an industry "which has provided immeasurable, information and entertainment for the cultural edification of our community."

The station made the recording available to other Albany radio outlets.

WTSV Claremont, N. H., and local members of the radio industry were honored by the Kiwanis Club at a special meeting "for the role they are playing in making democracy work through championing freedom of expression."

WBTN Bennington, Vt., decorated a window in the Vermont Bank & Trust Co., carrying out the "Radio Is Everywhere" theme.

In its May 21, 1956 broadcast, Armed Forces Day, WNHC New Haven, Conn., moved its broadcast activities to a house trailer located on the city's main intersection. Sidewalk interviews were held, keyed to give an indication of how many radios each home possessed and the type of programs preferred. The answers indicated that the average home contains three radios, with the kitchen the most popular room.

Bay State Resolution

A resolution adopted by the Massachusetts State Senate May 18 commended the radio industry as a whole, including specifically members of the Boston local of the American Federation of Television & Radio Artists for "remarkable achievements" and "contributions in promoting the happiness and the welfare of the people." A scroll of the resolution was presented to the Boston local of AFTRA and was accepted by Richard Tucker, WBZ Boston, local AFTRA president.

WLY Pittsburgh gave away a radio every hour for eight hours May 18 and now is conducting a contest among agencies and newspaper personnel asking them to guess the number of entries received for the free radios. A General Electric portable will go to the closest guess.

Originating from the studios of WPTF Radio, the North Carolina Assn. of Broadcasters sponsored a statewide two-hour program May 20, "Operation Radio—1956," with material furnished by over 50 stations. The program was written and edited by Add Pendfield, WBIG Greensboro, and J. B. Clark, WBT Charlotte. All tapes were edited and compiled by Dan Griffin, WBJG. Jefferson Standard Life Insurance Co. picked up the tab for the cost of preparing and originating the program.

"Radioactive Wednesday" was the highlight of WAJR Morgantown, W. Va.'s NRW celebration. Celebrities and advertisers ran the station for the day, with Miss West Virginia, Carolyn Miller, conducting a disc jockey show.

KROC Rochester, Minn., ran a contest to find the oldest working radio in Rochester, with a clock radio going to the winner. In addition, several downtown stores displayed NRW window displays and the station's personnel made speaking appearances during the week at various civic clubs.

NRW was launched in Kansas City by Kevin Sweeney, Radio Advertising Bureau president, who spoke to the local Advertising & Sales Executives Club. Mr. Sweeney closed WAG in Cleveland, addressing the local Ad Club on "The Second Miracle." Mr. Sweeney said that radio is the "salvation" of small and middle-sized advertisers who need big advertising jobs at relatively little money.

Seven Cleveland radio stations (WHK, WGAR, KYW, WJW, WDOG and WSRS) participated in a NRW contest in which...
of all TV Towers over 1,000 feet
BEAR THIS IDECO PLATE

...and so do hundreds of other radio and TV towers, all over the world.

Just a year ago we reported "Over 40% of all TV towers over 1,000 feet tall are towers by Ideco." TODAY OVER 50% are labelled "Built by Dresser-Ideco Company."

MORE TALL TOWERS have been built by Dresser-Ideco than by all the other tower companies combined!

No, we're not bragging just to inflate our own ego. Rather, we're reminding you of that very essential intangible in your tower job . . . peace of mind . . . the feeling of complete security that is yours when you deal with the leader. Your confidence is well placed in Dresser-Ideco's proven ability to design, fabricate and construct the tower you need . . . whatever the height, whatever the antenna and wind load requirements.

All the way from knowledgeable counsel in early planning, through to a complete final inspection . . . you can place your trust in the world's most experienced tower engineers.

So when you're ready to push up for greater coverage . . . or when you're planning a new station . . . come to Dresser-Ideco. Write us, or contact your nearest RCA Broadcast Equipment representative.

*Tower height data from TV Factbook, Spring, 1956
the winner won an all-expense-paid trip for two to Bermuda. Eight consolation prizes of portable radios also were awarded. One of the consolation winners reported a total of 18 radios in his home.

Illinois Governor William G. Stratton issued a proclamation in behalf of NRW at the annual meeting of the Illinois Broadcasters Assn., meeting in Springfield.

Moscow on the Air

In observance of NRW, WNDU South Bend, Ind., tried to penetrate the Soviet Union's Iron Curtain May 18—and was partly successful. Lamont McLoughlin, station's newsman, placed a transoceanic telephone call to Nikolai Bulgadin, Soviet Union premier, as Dr. John M. Flizer, Iron Curtain escapee, stood by to conduct the interview in Russian. Marshall Bulgadin was not available and the call was switched to his secretary, who promised to relay station's questions for his consideration later. While the questions went unanswered, WNDU tape recorded the phone conversation and aired it that evening.

KFAB Omaha used its four mobile units to plug NRW, plus heavy on-air promotion. Each of the mobile units carried signs boosting radio's outstanding features. A booth, featuring a complete control room, at the Greater Enid Home Show highlighted the NRW activity of KGWA Enid, Okla. During the four days of the home show, KGWA originated 26 hours of programming from the booth and attracted 19,983 visitors in the city of 36,017.

Fred Wolf, WXYZ Detroit disc jockey, moved his "Wandering Wigloo" house trailer to downtown Detroit for NRW origins.

Mayor Albert E. Cobo designated Washington Blvd. as "Radio Row" in honor of radio's week.

KMOX St. Louis, which gave away portable radios to boost NRW, received 251,038 pieces of mail in seven days as a result of the promotion.

Naraweugan (National Radio Week Guest Announcers) was the theme of the KWAT Yankton, S. D., observance. Over 100 sponsors and their employees appeared on programs during NRW. Upon completion of their air time, they were presented with a Naraweugan award. The station secured proclamations signed by the mayors of all the towns in a nine-county area surrounding Watertown, which were published in the daily and weekly newspapers of the area.

KOTA Rapid City, S. D., used a different promotion for every day of NRW, beginning with the selection of KOTA's "Mother of the Year." The week was highlighted by a free "KOTA Radio Dance Jamboree" in the City Auditorium. In addition to the regular daily promotions, the station sent a red rose each day of NRW to all persons hospitalized in Rapid City.

Colorado Springs Mayor Harry C. Blunt issued a NRW proclamation and made KRDO personalities "honorary" city officials. Disc Jockey Wes Bradley was named "Commissioner of Comedy," Sports Director Jack Finlayson "Honorary Sports Chief" and night disc jockey Frank Van Vleve "Honorary Night Mayor of Colorado Springs."

KWWC San Francisco asked listeners to participate in NRW through a public service project and a letter-writing contest on "Why I Like Radio." An appeal for old radios for boys and girls cared for by Community Chest agencies was made on local shows, with the U. S. Marine Corps Reserve picking the radios up and putting them into working order. The station devoted all available spot announcements to NRW.

Floyd Wynne, KFLW Klamath Falls, Ore., commercial manager, spent two months preparing a 40-minute tape recording of outstanding radio news events and period music over the past 30 years, which was used in that station's NRW promotion. The tape was first played when Mr. Wynne spoke to the local Lions Club to kick off the week set aside for radio.

Wheeling Wheeldon

DELVINA WHEELDON, housewife and WCKY Cincinnati, Ohio, women's personality, flew in an Air Force F-94 jet aircraft at 830 miles per hour—through the sonic barrier. She is the first civilian woman passenger to ever fly through the barrier, station Promotion Manager Robert M. Fleming has reported.

The trip was made as part of Mrs. Wheeldon's campaign to rid mothers of their fears regarding their sons' entrance into the air arm and jet training.

Mrs. Wheeldon felt "this would permit me to talk woman-to-woman from actual experience and reassure them by an account of all the safety factors and precautions involved." The Air Force granted her request, giving her a four-day round of lectures and practice in the use of oxygen masks and bail-out equipment.

The Air Force is going to use her commentary as part of its 26-program series being prepared in observance of

WCKY Cincinnati women's personality DelVina Wheeldon displays a grin of confidence after riding in an Air Force F-94 jet airplane piloted by Lt. Robert Kline through the sonic barrier at 830 miles per hour. Mrs. Wheeldon was trying to allay the fears of mothers whose sons may get into jet flying.

the USAF's "decade of security through global air power," with emphasis on the Continental Air Defense system.

Mrs. Wheeldon is also preparing a 13-program series in cooperation with the Air Force's Continental Air Command for use by WCKY. The AP plans to use her series as a pilot study in preparing locally-originated programs in behalf of the air arm in other cities. A local women's personality in each city will do each series.
If you are one of the many millions of Americans who've gained unneeded pounds, consider these facts:

1. At ages 20 and over, men and women who are considerably overweight have a mortality rate about 50 percent higher than their "trim" contemporaries.

2. High blood pressure occurs more than twice as often in overweight people as in thinner people.

3. Studies show that 85 percent of adult diabetics were overweight at the onset of their disease.

So, it's evident that excessive poundage burdens more than your two feet. In fact, overweight can impair the function of many vital organs and hence is associated with many life-shortening conditions.

On the other hand, if you reduce ... and keep your weight down ... you should increase your chances for long life and good health. You will certainly look and feel better ... and have greater stamina, too.

Yet, some quick-reducing diets may be almost as bad for your health as the constant stress of overweight. It is wise, therefore, to avoid all diets unless they are prescribed by your doctor.

So, when you plan to reduce, start with a visit to your doctor. He will determine your desirable weight ... and, most important, he will give you a sound, balanced, varied diet that everyone needs whether reducing or not.

If you are overweight and want to reduce surely and safely, these "do's and don'ts" may help you:

- Do say "no" to all high-calorie foods ... rich desserts, gravies, sauces and social-hour tidbits.
- Do exercise moderately as this will keep you in trim and help burn up unneeded calories.
- Don't use any "reducing drugs" except on your doctor's recommendation.
- Don't give a second thought to second helpings ... no matter how tempting they may be.
- Don't expect immediate good news from the scales. In fact, rapid weight loss may be harmful. One or two pounds a week is a safe, sensible rate of weight loss.

STATION PEOPLE

Philip Fuhrman, formerly with ABC and Dumont networks, to WBMS Boston as sales and promotion manager.

Carl O. Anderson, formerly chief engineer of KGLN Glenwood Springs, Colo., and recently with KOA-AM-FM-TV Denver, to Western Slope Broadcasting Co. (KREX-AM-TV Grand Junction, Colo.) as operations manager of KFXJ-TV Montrose, Colo., to go on air sometime next month as KREX-TV satellite.

Jerry Merritt promoted from assistant chief engineer to chief engineer at WICS-TV Springfield, Ill. He succeeds Basil O'Hagan, resigned to join WNUT-TV South Bend, Ind., in similar capacity.

David L. Waite, news and sports director, WFOR Hattiesburg, Miss., to WDAM-TV Hattiesburg as assistant operations manager and sales service director.

Joel L. Levy, continuity and promotion director, WKNY Kingston, N. Y., to same post at WKNY-TV.

Ronald C. Beck, member of CBS-TV's program promotion staff, named assistant sales promotion manager of WCBS-TV New York.

Phil Sheridan, morning personality, WFIL Philadelphia, appointed assistant program director.

Charles K. Bibby, announcer, WEAM Arlington, Va., to WWDC Washington as assistant program director, succeeding Norman Baum, now program director of WEBB Baltimore.

Taylor G. Benson, news staff, WISN-TV Milwaukee, named to head WISN radio news department.

LeRoy V. Berlin, promotion and sales development director of WNBF-AM-TV Binghamton, N. Y., resigned to join United Insurance Co., Detroit, in executive capacity.

John Supple, former Cleveland, Ohio, real estate dealer, to sales staff, WGR Cleveland.

G. Spender Frankard, account executive, Moloney, Reagan & Schmidt, newspaper representative firm, to WABC-TV New York, as account executive.

Sam B. Schneider, home and farm director, KVOO-AM-TV, named marketing-promotion director. Carl Meyerdirk, associate home and farm director, appointed to succeed Mr. Schneider as home and farm department head.

Ernie Ashley, formerly sports and news director to WOWO Fort Wayne, Ind., appointed program director of WCIC Columbus, Ohio. He succeeds Gerald MacFarlane, resigned, and also will head station's sports department.

Mel Pinsel, account executive, WBBM Chicago, father of girl, Monica Allison, May 9.

James R. Croy Jr., 68, one of founders of WMTR Morristown, N. J., died May 13 after long illness. He was active in station operation until his death.

Bernard Rosen, director, WTVJ (TV), father of boy, Randy Allen, May 8.

Bill Maloney, sales staff, KXOK St. Louis, Mo., father of girl, Kathleen Ann.

Jeanne Edwards, performer, WTRF-TV Wheeling, W. Va., married May 19 to Robert Kaiser, staff director.

Malcolm M. Romberg, 53, engineering technician at WBBM Chicago for 17 years, died in Presbyterian Hospital May 12.

Jack Ellsworth, program director-disc jockey, WALK-AM-FM, Patchogue, L. I., father of boy, Glenn.

Pat Marrinan, production manager, KHJ-TV Los Angeles, father of girl, Marcella, May 16.

Tom Clark, announcer, WJTAP-TV Parkersburg, W. Va., married to Barbara Watson, station continuity director.

Don V. Shoemaker, promotion manager, KFAB Omaha, father of girl, Kay Ann, May 17.

Robert Peterson, general manager of the Hotel Cleveland, Cleveland, Ohio, signs for a summer saturation spot campaign over KYW-AM-TV there on behalf of the Hotel Corp. of America. The hotel chain's spot campaign, said to be the first use of Cleveland radio-tv by a hotel or hotel chain, will be aimed at traveling motorists and will emphasize the advantages of a Cleveland stopover. Witnessing the contract-signing are Albert P. Kevin, KYW-TV sales manager (l), and Dick Woodruff, radio-tv manager, Griswold-Ehleman Co., Cleveland advertising agency. Hotel Corp. of America will use a radio-only campaign on two other Westinghouse stations, WBZ Boston and KDKA Pittsburgh.

Charles K. Bibby, announcer, WEAM Arlington, Va., to WWDC Washington as assistant program director, succeeding Norman Baum, now program director of WEBB Baltimore.

Taylor G. Benson, news staff, WISN-TV Milwaukee, named to head WISN radio news department.

LeRoy V. Berlin, promotion and sales development director of WNBF-AM-TV Binghamton, N. Y., resigned to join United Insurance Co., Detroit, in executive capacity.

John Supple, former Cleveland, Ohio, real estate dealer, to sales staff, WGR Cleveland.

G. Spender Frankard, account executive, Moloney, Reagan & Schmidt, newspaper representative firm, to WABC-TV New York, as account executive.

TV FILMS CAN'T AFFORD LIVE MUSIC WITH FUND FEES, HOUSE GROUP TOLD

Witnesses at Los Angeles hearing of House subcommittee on musicians trust fund testify that royalty fees exceed payment to musicians. Alleged dictatorial powers of Petrillo in spotlight.

CONGRESSIONAL Inquiry into proposed copyright law revisions to give musicians a property right in a recording (single record, transcribed radio show or tv film) and a more intensive investigation of the reasons why tv film producers are using so many foreign sound tracks were held forth last week as possible further developments to spring out of a House subcommittee probe in Los Angeles of the AFM music performance trust fund.

The alleged dictatorial powers of AFM President James C. Petrillo held the spotlight of the Los Angeles hearing Monday and Tuesday by a subcommittee of the House Labor and Education Committee, which heard testimony from both factions within Hollywood AFM Local 47, currently split by an intra-union dispute over Mr. Petrillo's policies governing the AFM trust fund [BWT, Feb. 27, et seq.]. Much emphasis was placed upon the individual musician's lack of voice in his own economic affairs and his inability to do anything about it under Mr. Petrillo's "absolute" authority.

The subcommittee, under the chairmanship of Rep. Phil M. Landrum (D-Ga.), also includes Reps. James Roosevelt (D-Calif.) and Joseph F. Holt (R-Calif.). It has under consideration further hearing into the AFM trust fund policies and practices in both New York and Washington at a later date. The probe is to be a part of the full committee's overall investigation of union trust funds and welfare plans throughout the U. S. to determine if restrictive legislation is desirable.

Cecil F. Read, vice president of Local 47 and leader of the anti-Petrillo faction, told the subcommittee that legislation is needed in six specific areas where abuses by Mr. Petrillo and the AFM International Executive Board have occurred. These include "arbitrary executive powers, diversion of strike funds, no collective bargaining rights, evasion of trust fund restrictions, the Taft-Hartley law, discrimination in taxes and assessments and protection of musicians' performance rights." Mr. Read is among 11 rebel leaders of Local 47 who face temporary expulsion from the union under charges brought against them by pro-Petrillo officers of the local. The punitive action was recommended by Arthur J. Goldberg earlier this month as referee in their trial before the AFM [BWT, March 7]. Mr. Goldberg is special AFL-CIO counsel in Washington.

Mr. Read said Sec. 1 of Article 1 of the AFM constitution provides that Mr. Petrillo "is authorized and empowered to promulgate and issue executive orders which shall be conclusive and binding upon all members and/or locals; any such order may, by its terms..." and substitute therefor other and different provisions of his own making." The witness said Mr. Petrillo used this "absolute" authority as late as 1954 at a Miami meeting of the IEB when he amended the bylaws to be amended specifically to empower the IEB with authority to change the bylaws of a local union when it so desired.

Rep. Roosevelt later described Sec. 1 of Article 1 as "the most undemocratic example of power given to one individual that I have ever seen. You individual musicians might win [a reform] at the AFM convention, but Petrillo could still overrule you after the convention."

The Local 47 rebel leader called for legislation modifying both civil and criminal statutes to prohibit "the misuse or diversion of funds, assessments, taxes or contributions collected for specific purposes, such as welfare, pension, unemployment, strike benefit, etc., to other purposes."

Says Musicians 'Forgotten' Requesting amendment of the Labor Management Relations Act of 1947 (Taft-Hartley) to require that any collective bargaining agreement negotiated by the certified bargaining agent be submitted to the members affected for their ratification, Mr. Read pointed out that the musician is the "forgotten man" in these negotiations. All other unions in the industry pass contracts back to their members for approval except AFM, he said, and AFM members have only a nominal role in "advising" officials what they want, virtually all "suggestions" going unheeded.

When it gets down to the crux of the issue, Mr. Read testified, "only two people" settle on the terms of an AFM pact. These are Mr. Petrillo and the key employer representative. In a hypothetical example of a network negotiation which has reached an impasse, Mr. Read said Mr. Petrillo and Brig. Gen David Sarnoff, RCA board chairman, take a walk down the hall and when they come back Mr. Petrillo announces the terms of the agreement "binding on all musicians."

Mr. Read testified he wants legislation "prohibiting any strategem or device of evading the provisions of the Labor Management Relations Act defining the nature and purposes of welfare funds which may lawfully be collected from employees or by 'voluntary contributions.' He charged that employers in motion pictures, tv film, transcribed radio and phonograph recordings are required to make "so-called 'voluntary contributions'... as a condition precedent to employment of musicians" and therefore these "are actually compulsory" contributions to the trust fund.

In the case of using live musicians on tv

ASKED: Local 47's Read

Temporary Ouster of Rebels Recommended by AFM Board

THE International Executive Board of the American Federation of Musicians last week adopted substantially all of the recommendations of referee Arthur J. Goldberg [BWT, May 14] and ordered the expulsion from the union of Cecil F. Read and ten followers who led a revolt in Los Angeles Local 47.

At the same time AFM President James C. Petrillo granted the request of the Read faction for postponement of the expulsion order, pending the determination of appeal to the federation's annual convention which opens in Atlantic City on June 11.

If the convention sustains the disciplinary actions of the board, Mr. Read, vice president of Local 47, will be deprived of membership in the union for one year and denied elective or appointive office for two years after reinstatement. The ten members of the Read faction, the IEB ruled, are expelled for one year. Mr. Read's return to union membership after one year is contingent upon his conduct during the period of suspension.

The revolt in Local 47 stemmed largely from an order issued by Mr. Petrillo last summer assigning motion picture royalties to the Music Performance Trust Fund. An anti-Petrillo group within Local 47, whose membership provides music for a large majority of motion pictures, protested the ruling. The revolt took shape when Local 47 ousted John e. Groen, president, and Maury Paul, recording secretary.

The IEB last week directed Local 47 to make full restitution to Mr. e. Groen and Mr. Paul for damages and expenses "unlawfully withheld from each of them."

The board made some deviations from Mr. Goldberg's report: The ten Read followers will not suffer loss of insurance, death or other benefits customarily contingent upon continuation of membership; they will not lose membership in other locals of the federation, and they will not be required to pay initiation fees when and if they return to full membership. With respect to Mr. Read, the board "remitted the nature of his infractions" and ruled that "considerations" shown to the ten members will not apply to him. It added that when and if Mr. Read applies for re-instatement, the board will explore the possibility of granting him the "considerations" given to his supporters.

"We are not going to take this lying down. We have started to prepare our appeal to the AFM national convention at Atlantic City in June," Mr. Read said Thursday.

Writers Threaten Strike Unless Agreement Is Reached

THREAT of a strike against the major tv networks was made by the Writers Guild of America, West, unless there is a satisfactory working agreement on film television by June 4, union members have voted. A similar move was approved by the Writers Guild of America, East, in New York.

Negotiations were resumed last Thursday in Hollywood between the Guild and the three tv networks in an effort to avert the strike. Both sides flew New York representatives to the West Coast last week to join with local officials in the talks.

Although it is understood the networks will agree to a contract comparable in many ways to the one concluded with the tmj studios, the Alliance of Telecasters Film Producers, there are two issues reportedly unsettled. These are non-exclusive working terms and separation of rights for certain works. The writers claim they want to be free to accept other assignments while their material is under network consideration and because it may be rejected they also want to retain certain residual rights distinct from that of staff writer.

The guild has called a strike rally the evening of June 3 at the Beverly Hilton Hotel unless the issues in conflict are settled by that time.

Transcription Fees Eased

NEW DISCOUNT structure covering fees for group singers of transcribed jingles on live radio shows in the Los Angeles area has been announced by Groen Linda McCue, executive secretary of American Federation of TV & Radio Artists there, in a move to encourage greater use of radio commercials, especially on weekly shows such as newscasts and sports commentaries. Covering singing groups of three or more performers, the discounts operate on a 13-week basis, with fees amounting to 100% of the live program charge for a single show, 30% each for 14-26 times and 10% for all above 157th use. The discount plan is valid until Nov. 15, 1956.

FM NETWORK PLAN OUTLINED BY RKO

Pending FCC approval of purchase, WGMS-FM will be key station of “good music radio network” group situated along the East Coast.

RKO Teleradio Pictures Inc., last week, in filing for FCC approval of its purchase of WGMS-AM-FM Washington, D. C., formally outlined its plans for an fm “good music radio network” to be keyed from WGMS-FM [BT, April 9].

The network is to be a daily, fulltime service based on the present good-music format being aired by WGMS-AM-FM. Programs are to be fed to a chain of east coast fm stations from Virginia to Maine via through-the-air fm relays and high-fidelity telephone cables linking the stations.

RKO-owned WOR-FM New York and WNAS-FM Boston will carry the programs with affiliations being offered in intervening cities. Mutual affiliations getting first refusal. WIP-FM Philadelphia and WPJB-FM Providence, R. I., have expressed interest in affiliating.

In its application, RKO said successful operation of an fm good music network in the East will lead to furnishing service to other parts of the country. WGMS-FM has operated a limited network, but has experienced difficulty in getting regular cooperation from independent stations between New York and Washington. WGMS-AM will operate separately from the fm outlet and will carry a number of MBS network programs.

NBC-TV Now Drafting Spectaculars for Fall

PATTERN of spectacles to be presented on NBC-TV in the fall season was taking shape last week and a new series of public affairs programs was on the drawing board.

According to the network’s plans, the schedule of Sunday night color spectaculars will be revised and a color spectacular series will be added as Friday night offerings.

On Sundays, spectaculars will continue in the 7:30-9 p.m. NYT period every fourth week as they have for the last two seasons on NBC-TV. But that hour now will be reserved for color shows which have family appeal while the more adult shows will be slated for 9-10:30 p.m. Six 90-minute Sunday shows are set so far, three aimed for the family hour and three others, including “Dial M for Murder” and “Man and Superman,” both starring Maurice Evans, designed for the later hour. Sponsor of the series—Hall of Fame—will be Hallmark Cards Inc. Two more programs may be added to the Sunday series. On Fridays, a new series every fourth week in the 8-10:10 p.m. period is planned and will rotate producers, including

Fred Coe, Max Liebman and Worthington C. Miner. NBC-TV also has slated spectaculars Saturdays, 9-10:30 p.m., and Mondays, 8-9:30 p.m., as carried in the past season.

The new public affairs series is called Tele- scope. Present plant envision 11 programs, with no single producer handling more than three of the shows, of which Benjamin K. Park, director of NBC public affairs, will be the executive producer. Production cost of each program in the series is expected to be $100,000 or more.

The programs will be filmed and telecast in color generally on alternate Sundays (4-5 p.m.), beginning Sept. 23. In the blueprint are the following types of programs: a report on medical developments; a history of Paris in relation to the life and times of actor Maurice Chevalier; a report of techniques and methods by which presidential candidates are selected; a spectacular on science; a study of the earth’s crust, and various other subjects including the school crisis, Southeast Asia, developments in aviation, the Cold War and a profile on a national figure.

Houwink Chairmans ABC-TV Affiliates

FRED S. HOYWINK, general manager of WMAL-TV Washington, D. C., was named chairman of the new ABC-TV Affiliates Advisory Committee at the group’s organization at a meeting last Thursday in Kansas City, Mo.

Harry LeBrun, general manager of WLWA (TV) Atlanta, was appointed vice chairman; Joseph F. Hladky, executive vice president of KCRG-TV Cedar Rapids, Iowa, secretary, and Joseph Drilling, vice president-film buyer of KJEO-TV Fresno, Calif., treasurer.

An organizing committee of nine men, named when the ABC-TV affiliates met during the NARTB convention in Chicago in April [BT, April 23], set up bylaws for the new ABC-TV Affiliates Advisory Committee and under these bylaws became the organizing board of governors, to serve in this capacity until the entire ABC-TV affiliates group has another meeting and elects a board. These nine men include Messrs. Houwink, LeBrun, Hladky and Drilling and Robert Lemon, WTTV (TV) Bloomington, Ind.; Willard E. Wilbridge, KTRK-TV Houston, Tex.; Donald Davis, KMBC-TV Kansas City; Joseph Bernard, WGR-TV Buffalo, N. Y., and Joseph Herold, KBTV (TV) Denver.

Assisting in the meeting at Kansas City were J. W. McGough, WTVM-TV Columbus, Ohio, and Harold Hough, WBAP-TV Fort Worth, Tex.

The committee was described by Chairman Houwink as a “grass roots organization—formulated to improve service to the public.

“The organization will have the opportunity to improve this service through advice to the ABC Network and to relevant government agencies,” he said.

Two subcommittees were set up during the meeting. The first will represent the ABC-TV affiliates in testimony before the Senate Commerce Committee, beginning June 19, on basic network practices. The second subcommittee

YOU NEVER "TAKE A CHANCE" ON A STAINLESS TOWER

Here's why...

Each tower design is subjected to rigorous tests such as shown in the above photo. Progressive hydraulic pressures are applied simulating tower compression loading to determine the "buckling" point. Bags of lead shot are placed along vertical members to simulate maximum wind loadings. Every type of stress to which a tower might be subjected in actual service, is applied to Stainless tower designs with more severity than will ever be encountered in service. Stainless literally "destroys" towers to make sure that the customer will be assured of absolute dependability!

Dependability is a "sure thing" when you buy a Stainless Tower.

Stainless, Inc.

ABC-TV Feels Debate Boost for Television

ABC-TV feels it got in a good lick for television in its preceding-set telecast of the "discussion of issues" last Monday night between Adlai Stevenson and Sen. Estes Kefauver (D-Tenn.), both aspirants for the Democratic presidential nomination.

Several senators think so, too, among them Senate Majority Leader Lyndon B. Johnson (D-Tex.), Sen. Warren G. Magnuson (D-Wash.), chairman of the Senate Commerce Committee, Sen. Clinton Anderson (D-N. M.) and Sen. John L. McClellan (D-Ark.). But Rep. John V. Beamer (R-Ind.) called the broadcast "Democratic propaganda" and asked equal time for the GOP.

ABC Vice President Robert Hinckley, Washington, said about any GOP request—for time on the same basis—would find favor at ABC.

ABC, he said, will be glad to put President Dwight Eisenhower on the same platform with Senate Minority Leader William Knowland (R-Calif.), considered a GOP contender in some states. ABC would even put the President on with Lar Dally, if requested, Mr. Hinckley said. Mr. Daly is seeking the GOP nomination on the America First ticket.

Mr. Hinckley noted that ABC is glad to have started the ball rolling on televised debates between candidates—an accomplishment he believes no other medium can perform so well.

Sen. Magnuson called the ABC-TV telecast an "outstanding job," and said he hopes it is the first of many such programs carried by ABC-TV and its affiliates. He termed it a "history-making" step in broadcasting.

Republican National Chairman Leonard Hall described the telecast as a "flop," but said the GOP National Committee is asking ABC-TV for equal time.

Discounts Offered Sponsors Of ABC-TV Special Programs

Potential advertisers of the special live, hour-long shows to begin fall on ABC-TV are being offered special discounts if pre-sales fall within four requirements set by the network.

Involved in the tentative list of shows are: "Ballet Bullets," slated for November, "Metrpolitan Opera" (December), "The General's Other Son" (January), "The Young and the Beautiful" (February), "Take a Giant Step" (March), "By Jupiter" (April), "Metropolitan Opera" (April), and "Playboy of the Western World" (May).

Most of the shows carry a $100,000 package. The approximate commissionable package price. Exceptions are the operas, which are priced at about $100,000 each, and "By Jupiter," which is at the $150,000 level.

To an advertiser who buys all eight of the one-shot programs, the network would permit a 27½% discount in place of all other discounts and rebates for the non-ABC advertiser purchasing individually, 10%; for a half sponsorship of any of the shows, 7½%, and for a third sponsorship of any one of the eight, 5%. Additional discounts can be earned by an advertiser who is on ABC at the time of the special program by combining the one-shot purchase with his regular program.

DEMOCRATIC presidential hopefuls Sen. Estes Kefauver and Gov. Adlai Stevenson as they appeared on the monitor during the debate of campaign issues on ABC Radio-Tv last Monday from Miami, Fla. The 10-11 p.m. EDT program was moderated by Quincy Howe.

is designed to "serve the needs of the FCC Network Study Group."

"Our first order of activity will be to testify before the Senate Committee," said Mr. Houwink. "As soon as it is convenient thereafter, it is the organization's objective to meet with ABC officials to set up a procedure for advising them on certain mutual problems."

The organizational setup for the ABC group is subject to full ABC-TV affiliate membership vote—which is to be taken by mail.

'Trial' Set for NBC-TV; Is Based on Actual Cases

In one of the first definite Friday night commitments made by NBC-TV for the 1956-57 season, On Trial, a series of 20-minute filmed dramas based on actual and sometimes famous court cases, has been scheduled 9-9:30 p.m. EST, three out of four Fridays. Campbell Soup Co., through BBDO, New York, will sponsor the series, narrated by Joseph Cotton, produced by Collier Young and written by Larry Marcus and Don Mankiewicz. Fordyce Enterprises, headed by Mr. Young, is filming the shows in Los Angeles.

On Trial will replace the current season's Big Story, sponsored by American Tobacco Co. (Pall Mall), New York, through Sullivan, Staffer, Colwell & Bayles. Big Story will return, an NBC spokesman told WBT Thursday, at "another time." The three-out-of-four-week schedule has been set to make room for a "spectacular" which, too, NBC-TV said, hasn't yet been firm up.

ABC-TV Feels Debate Boost for Television

ABC-TV feels it got in a good lick for television in its preceding-set telecast of the "discussion of issues" last Monday night between Adlai Stevenson and Sen. Estes Kefauver (D-Tenn.), both aspirants for the Democratic presidential nomination.

Advance Schedule Of Network Color Shows

(All times EDT)

CBS-TV

May 24 (8:30-9:30 p.m.) Climax, Chrysler Corp., through McCann-Erickson.

June 2 (7-7:30 p.m.) Gene Autry Show, William Wrigley Jr. Co., through Ruthrauff & Ryan (also June 9, 16, 23, 30).

June 7 (8-9:30 p.m.) Shower of Stars, Chrysler Corp., through McCann-Erickson.

NBC-TV

May 28 (7-7:45 p.m.) Gordon MacRae Show, Lever Bros., through BBDO.

May 28-June 1 (3-4 p.m.) Matinee, participating sponsors (also June 7, 8, 11-12, 19-22, 25-29).

May 28-June 1 (5-5:30 p.m.) Howdy Doody, participating sponsors.

May 29 (7:30-7:45 p.m.) Dinah Shore Show, Chevrolet Motor Div. of General Motors Corp., through Campbell-Ewald (also May 31). Run June 25-28.

May 30 (10-10:30 p.m.) This Is Your Life, Procter & Gamble Co., through Benton & Bowles.

June 3 (9-10 p.m.) Goodyear Playhouse, "Primary Colors," Goodyear Tire & Rubber Co., through Young & Rubicam.

June 5 (8-9 p.m.) Milton Berle Show, Sunbeam, through Perrin-Paus, RCA and Whirlpool, through Kenyon & Eckhardt.

June 9 (9-10:30 p.m.) Max Liebman Presents, "Holiday," Oldsmobile, through D. P. Brother.

June 13 (9-10 p.m.) Kraft Television Theatre, Kraft Foods Co., through J. Walter Thompson.

June 17 (3:30-4 p.m.) Zoo Parade, sustaining (also June 24).

June 17 (7:30-9 p.m.) Sunday Spectacular, "The Bob Hope Show," participating sponsors.

June 20 (10-10:30 p.m.) This Is Your Life, Procter & Gamble Co., through Benton & Bowles.

June 25 (8-9:30 p.m.) Producer's Showcase, "Happy Birthday," Ford Motor Co., through Kenyon & Eckhardt and RCA through Kenyon & Eckhardt, Al Paul Leflon and Grey.

[Note: This schedule will be corrected to press time of each issue of B-T]
Scoop's Ace

THAT select group of golfers who are members of the "Hole-in-One" club welcomed a newcomer last week—Frank M. (Scoop) Russell, NBC Washington vice president.

Mr. Russell qualified for golfdom’s recognition on the 167-yard second hole of suburban Washington’s Kenwood Golf & Country Club with Mrs. Russell as a witness.

The NBC executive did not report what club he used or if he has ordered a trophy for his mantle.

NBC-TV Re-Signs Durocher.

SIGNING of Leo Durocher, former manager of the New York Giants, to a new one-year contract with NBC was announced last week by Thomas A. McAvity, vice president in charge of NBC-TV. The new agreement calls for an extension of Mr. Durocher’s duties as an NBC executive, primarily in the talent relations field, which began last September. He makes his headquarters at the NBC Pacific Div. in Hollywood.

‘See It Now’ Once a Month

CBS-TV’s ‘See It Now’ will be presented on a regularly-scheduled once-a-month basis, starting in the fall of 1956. It was announced last week by Sig Mickelson, CBS vice president in charge of news and public affairs. The program, which has been carried this season on an irregular basis, will be telecast the first Sunday of each month, starting Oct. 7, in the 5-6 p.m. EST period, with occasional special programs planned of 90-minute duration.

NBC-TV Show Debuts June 4

NBC-TV announced last week it will launch a new half-hour, Monday-through-Friday, audience participation show, It Could Be You, June 4 (noon-12:30 p.m. EDT). The program will be sponsored by Welch Grape Juice Co., Westfield, N. Y., through Kenyon & Eckhardt, New York; Brown & Williamson Tobacco Co. (Ralph cigarettes), Louisville, through Russell M. Seeds Co., Chicago, and Brillo Mfgler Co., Brooklyn, N. Y., through J. Walter Thompson Co., New York.

The format of the new program, created by Ralph Edwards and starring Bill Leydon as m.c., will center around participants recovering articles they thought lost forever, meeting friends or relatives they had not seen for a long time and receiving wished-for items of apparel or home furnishings. The series will mark the sixth Edwards property to be carried on network tv in the past five years.

NETWORK PEOPLE

Jack Shapiro, account executive, KJBS San Francisco, to Intermountain Network, Salt Lake City, as regional sales manager, replacing Homer K. Peterson, appointed manager of KALL Salt Lake City.

John Lane, formerly service engineer with Ill. Bell Telephone Co., to CBS Newfilm midwest office as writer-production assistant.
CBS-COLUMBIA HIT BY SET SALES LAG

CBS Inc. studying several possible solutions to cure financial difficulties of its set manufacturing division. Possibility of a complete shutdown of production reported by Dr. Stanton.

CBS-COLUMBIA, set-manufacturing division of CBS Inc., is undergoing a period of rough sledding and CBS Inc. is considering several possible solutions, including—but only as a last resort—a shutdown of the division.

Dr. Frank Stanton, CBS-Inc. president, told B&T Thursday that, although the possibility of a shutdown is being considered, several other alternatives take precedence in the deliberations. One possibility—now in negotiation—is that of evolving a working arrangement with a small manufacturer (unidentified) who has a more modern plant and who would build chassis for CBS-Columbia, permitting further economies in the CBS division's operations. The talks now in progress do not envision a merger, however.

Other possibilities which have been considered, Dr. Stanton continued, include that of merging with another company, and, among others, that of reducing CBS-Columbia's production temporarily until a better sales picture develops in the set manufacturing field. Improved plant facilities have long been acknowledged need of CBS-Columbia.

It has been estimated that unit sales in the industry are off by as much as 30%. Dr. Stanton noted that traditionally, whenever there is a slump, the manufacturers with smaller shares of the market suffer first. And CBS-Columbia, he observed, is one of the relatively smaller manufacturers. He attributed the general slowdown in black-and-white console sales to several factors, including color tv and the growing popularity of portable sets.

To offset the effects of the slowdown, he continued, CBS-Columbia has undertaken certain economies, including the layout or transfer to CBS Labs of some 100 employees out of CBS-Columbia's total work force of approximately 1,500. To keep inventory down, he said, the division also instituted some price reductions.

These moves, plus a decision not to make any further long-range commitments for production of components until the outlook becomes more definite, led to increased speculation in the trade regarding the future of CBS-Columbia.

Dr. Stanton made it plain that the present deliberations regarding CBS-Columbia do not involve CBS-Hytron, CBS Inc.'s tube-manufacturing division. He pointed out that CBS-Columbia accounted for only 6% of CBS-Hytron's 1955 sales and said that although CBS-Hytron lost money in 1955, it is now doing better and is currently engaged in an expansion program.

In CBS Inc.'s annual report two months ago, Board Chairman William S. Paley and President Stanton said: "Despite an increased volume of business, CBS-Hytron (tubes) failed to be profitable in 1955, due to high development costs in color as well as to heavy price competition in picture tubes. CBS-Columbia (receivers) was faced with product difficulties early in the year [1955] and also failed to be profitable. It is hoped that important changes in procedure made during 1955 will bear fruit in 1956" [B&T, March 26].

CBS acquired both its receiver and tube manufacturing properties in mid-1951 in an exchange-of-stock arrangement, estimated at the time to be approximately a $20 million deal. The companies thus acquired were Hytron Radio & Electronics Corp., its subsidiaries, including Air King Products Co. Air King subsequently became the CBS-Columbia Division of CBS, and Hytron Radio & Electronics became the CBS-Hytron Division.

Three principal factors in the original ownership and management of the Hytron companies—Lloyd H. and Bruce A. Coffin, chairman and president of Hytron, and David H. Cogan, president of Air King—remained active in management of the respective divisions for about three years. Then Seymour Mintz, formerly of Admiral Corp., succeeded Mr. Cogan as president of CBS-Columbia, and was himself subsequently succeeded by the current president, Henry C. Boufi, formerly of Zenith Radio Corp. Charles F. Stromeyer is now president of CBS-Hytron.

Radio Shipments Up In '56 First Quarter

Radio shipments by manufacturers to dealers went up 19% in the first quarter of this year compared with the same period in 1955. Radio-Electronics-Tailoring Manufacturers Assn. reported Wednesday.

For the same period, tv shipments slipped somewhat compared to the same 1955 quarter. There were 2,470,871 radio receivers shipped in January-March of this year, compared to 1,164,462 sets shipped in same months of 1955.

In March 530,349 radio sets were shipped, compared with 472,112 in February and 485,688 in March 1955.

There were 1,702,236 television receivers shipped in first quarter 1956 compared to 1,683,478 the same period last year. In March, 549,220 tv sets went to dealers, compared with 529,226 in February, and 690,097 a year ago same month.

The following table lists shipments of radio and television receivers in the first 1956 quarter:

The new Sound of

KMBC-KFRM

The big news in Kansas City radio is the New Sound on KMBC-KFRM! By completely overhauling old programming concepts, KMBC-KFRM have introduced a new type of radio service that's tailored to today's audience demands. New variety, new personalities, new formats, new impact—they're all woven into every hour of every broadcast day. This inspired local programming, combined with the best from the ABC Network, produces radio that sells as it serves! Your Peters, Griffin, Woodward, Inc. Colonel can tune you in on the New Selling Sound of KMBC-KFRM.

MAGNETIC VIDEO TAPE STAR OF CHICAGO SHOW

MAGNETIC video tape and other component and equipment innovations highlighted the 1956 Electronic Parts Distributors Show in Chicago last week.

Distributors, government representatives, sales personnel and advertising agency executives attended the five-day exhibition at Chicago's Conrad Hilton hotel. Among co-sponsors were Radio-Electronics-Television Mfrs. Assn. and National Electronic Distributors Assn.

Interest in video tape recording, prompted by Ampex Corp.'s demonstration of its system and the September 1955 NARTB convention in Chicago, was reflected in announcements of Pentron's new tv-Audio-tape designed for recording picture and sound and immediate playback of television programs.

Audio Devices unveiled two-inch wide tape on a base of Mylar Polyester film, which may be played back after winding. A company spokesman said the tape would sell for $141.60 for ten or more rolls or $157.20 for one to nine rolls.

At the same time ORRadio industries, another leading tape supplier, announced refinement in its "Green Band" Irish seven-inch recording tape in "Ferro-Sheen" process already used for other reels. ORRadio claims an "upgrading in quality" without extra cost to the consumer.

Among other news-makers at the exhibition was Pentron Corp., manufacturer of tape recorders, which introduced (1) a stereophonic tape designed for true reproduction at low cost, (2) a high fidelity recorder for cabinet or home use and (3) a stereo magazine tape player for monaural and stereophonic sound reproduction, simultaneously. Appointment of Gail S. Carter, formerly with Perno Inc., as sales manager of Pentron was announced by president Irving Rosenman.

Among other innovations:
- A new auto radio aerial (the "Silvermatic")—a fiber glass rod with chrome-like finish—claimed to be resistant to rust, corrosion and changing weather conditions—by Wards Products Corp.
- A new power-point phonograph cartridge-needle combination unit, claimed to cost less than two comparable needles alone without cartridge, and a professional 100 w amplifier for high fidelity musicasting and industrial use—by Electro Voice Inc.
- An indoor tv antenna "Filter-Tenna," claimed to reject certain electrical disturbances without affecting the signal—by Dynamic Electronics-New York.
- An outdoor matching transformer which passes alternating current, for use in remote operation of rf amplifiers—by Jerrold Electronics Corp.

Raytheon-Admiral Sale Conjecture Increases

ADMIRAL CORP., Chicago, was a center of conjecture last week regarding rumored negotiations to buy Raytheon Manufacturing Co., also Chicago, and choice of a new advertising agency for Admiral.

Admiral is reported to have undergone negotiations for purchase of Raytheon Mfg. Co.'s tv-radio operations in Chicago. Raytheon would retain its government business, which accounts for perhaps 70% of its sales.

It was understood that Ross D. Siragusa, Admiral president, had denied the report, though he issued no formal statement.

Mr. Siragusa or Edmond I. Eger, vice president-advertising, could be reached for comment. Henry F. Argento, Raytheon vice president for tv-radio operations, also was unavailable.

Reports involving Raytheon, manufacturer of tv and radio receivers, have been current in Chicago for more than a year. Raytheon manufactures electronics products solely. Admiral also makes electric ranges and other appliances in the white goods field, in addition to radio and television sets.

Admiral also was the topic of conversation in connection with the selection of an advertising agency to replace Rusel M. Seeds Co. (see early story, page 55). It was understood a Chicago-based agency would be announced within the next fortnight, but Admiral spokesmen were silent on the new agency, perhaps pending developments on the reported Admiral-Raytheon discussions.

IT&T Reports on C-F Sale, Announces Behn Retirement

A LOSS sustained in the recent sale of the radio-carrier receiver business of Capehart-Farnsworth Co. by International Telephone & Telegraph Corp. to the Ben Gross Corp. [BT, May 14] will be covered almost entirely by reserves previously accumulated, IT&T stockholders were told at their annual meeting last week held at Nutley, N. J. The Farnsworth Electronics Div., a separate IT&T operation not involved in the sale, is earning a satisfactory return on investment, IT&T shareholders learned.

Announced at the meeting was the retirement of Col. Sosthenes Behn, 74, chairman of IT&T, who with his brother, Hernand Behn, founded the company in 1921.

Zenith Seeks to Increase Damage Claims Against Three

PERMISSION to increase damage claims in its patent counter-suit against three electronics manufacturers was granted to Zenith Radio Corp. in Chicago Federal District Court Tuesday.

Zenith petitioned Judge Michael Igoe for authority to raise damages from the present $16,056,549 to $61,730,305. Zenith attorneys told Judge Igoe the new claim stems from worldwide depositions claimed to be more accurately fix the company's alleged loss.

Aside from the new Zenith claim covering 1940-56, Judge Igoe also allowed RCA attorneys to file a motion to strike the amended counter-claim and scheduled arguments on the motion for June 8.

The trial, involving Zenith's counter-suit against RCA, General Electric Co. and Western Electric Co. and charges of antitrust violations, was originally set to resume in district court Oct. 1.

Reorganization at Emerson

REORGANIZATION of the operating structure of Emerson Radio & Phonograph Corp., Jersey City, from a horizontal to a vertical basis was announced last week by Benjamin Abrams, president. Under the move, the company will consist of two autonomous divisions—the radio-telegraph-phonograph division under Dormon D. Israel, executive vice president and a member of the board of directors, and the government contracts division under Morton P. Rome, vice president in charge of government contracts.

Sponsors of Three Programs Cited by ‘Saturday Review’

SPONSORS of three television and one radio program are winners of citations by the Saturday Review for distinguished achievement in the public interest. In addition, the magazine presented a posthumous citation to the late Fred Allen for his "uncompromising courage, integrity and vision. . . ."

Sponsors cited and the programs include Aluminum Ltd. of Canada; J. P. Stevens Co., Scott Paper Co., sponsors of Omniplus (CBS-TV); The Texas Co. for the Metropolitan Opera (ABC-Radio); CBS for See It Now, and American Dairy Assn., American Motors Corp., Courtlands Canadian Ltd., Derby Foods Inc., Swift Canadian Co., for Disneyland (ABC-TV).

Runners-up for citations were Ford Motor Co., Radio Corp. of America, for Producers’ Showcase (NBC-TV); NBC, for Wide Wide World; Hallmark Co., for Maurice Evans (PBS-TV); Armstrong Cork Co., for "Nightmare in Red" (NBC-TV), and NBC-TV, for Conversations With Distinguished Persons.

California AP Broadcasters Announce 1955 Award Winners

Sharing the top AP news origination award were KJUH Eureka, KMYC Marysville, KSCO Santa Cruz and KPRL Paso Robles. All four stations were cited for "resourceful and courageous reporting of the flood situation," (referring to the Christmas 1955 flood in northern California.)

Awards for overall general excellence went to KCBS San Francisco in radio and KNXT (TV) in television. A special public service award went to the three stations in the Marysville-Yuba City area — KMYC, KUBA and KAGR. The three combined operations when KMYC and KUBA were flooded out.

First, second and third place awards were made, covering a wide field of news endeavor. First place winners and categories follow:

Radio Division:
Best Local Regularly Scheduled News Show: (Metropolitan) — KABC Los Angeles, Big Game Rally.
Best Documentary Program: (Metropolitan) — KNX Los Angeles, Roadblock. (Non-Metropolitan) — KJHM Eureka, Frank Brown, July Fourth.
Best Editorial or Commentary Program: (Metropolitan) — KFI Los Angeles, Kerwin Hoover, Home Town Happenings. (Non-Metropolitan) — KPRL Paso Robles, Joe Aleman and Dale Schwartz, Let's Look at the Weather.

Television Division:
Best Local Special Events Coverage: (Metropolitan) — KFPM-TV San Diego, "Return of the First Marines from Korea."
Best Documentary Program: (Metropolitan) — KNXT Los Angeles, Focus on Delinquency.

Chicago Ad Club Confers Station, Sponsor Awards

A SPECIAL AWARD was presented by the Chicago Federated Adv. Club, honoring RCA, WNBQ (TV) Chicago and Jules Herbeuves, NBC vice president, for "initiative and foresight in pioneering color television in that city."

The citation highlighted CFAC’s 14th annual advertising awards competition dinner at the Sheraton Hotel May 16.

Network citations went to ABC Radio for Don McNellis’ Breakfast Club, ABC-TV for Kukla, Fran & Ollie and NBC-TV for Zoo Parade.

Among stations, WBMB-TV Chicago won six first-place awards for outstanding programs, while WNBQ captured four and WMAQ three. Other station winners were WLS and WBBM in radio and WKBK (TV) and WGN-TV, all Chicago.

William A. McGuinees, WGN Inc., was chairman of the CFAC awards committee radio division, and James Storton, MCA, head of the television division. Mr. Storton also is president of the Broadcast Adv. Club of Chicago.

Bankers Life Co. Honored For Film on Disabled Persons

PRESIDENT Eisenhower’s Committee for the Employment of the Handicapped has presented its annual distinguished service award to John D. MacArthur, president of the Bankers Life & Casualty Co., Chicago. The award is made for outstanding work in helping the handicapped find jobs.

Bankers Life & Casualty Co. produced, through Swanston & Dalzell, New York public relations firm, a 13 1/2-minute film, "America’s Handicapped Asset," pointing the way to benefits to both employer and employee in hiring partially disabled persons. A print of the film was given outright to every television station in the United States and has had approximately 4,000 showings on tv and an estimated 18,000 showings in schools, civic clubs, factories, military installations throughout the United States.

Mr. MacArthur’s award was accepted by Cal Swanson, president of the firm which created the film.

Abrams, Starch, Day Honored

GEORGE J. ABRAMS, advertising vice president of Revlon products; Daniel Starch of the radio-tv and print research firm bearing his name, and Lloyd Day of the copy department of BBDO, were to be honored for "distinguished service to advertising" by the New York Alumni Assn. of Alpha Delta Sigma, advertising fraternity, at its annual banquet Friday night. Mr. Abrams and Mr. Starch, who were to be principal speakers, were honored respectively for contributions in the field of advertising management and for contributions in the field of readership and listenership.

Mr. Day was cited for creativity.
Pan American Union Honors Radio Figures for Service

THE Pan American Union has honored representatives of radio stations and networks for fostering inter-American friendship through public service programs. Citations expressing the appreciation of the union for free air time were presented by Dr. Jose A. Mora, secretary-general of the Organization of American States.

Stressing the special significance of National Radio Week to the Pan American Union, Dr. Mora said, "It is a week dedicated to one of the information mediums that has served us best and has been most generous to us."

Receiving the citations were Everett L. Dillard, WDON and WASH-FM Washington; Wiley Hance, ABC manager of public relations; Robert F. Hurleigh, Mutual in Washington; Hollis Seavey, Clear Channel Broadcasting Service; M. Robert Rogers, WQMS Washington; Norman Reed, WWDC Washington; Frederick S. Houwink, WMAL Washington, and Henry Rau, WOL Washington.

Four Years of College Awarded to 10 by Y&R

TEN YOUNGSTERS, two of them reportedly "hardship cases," have been declared winners of Young & Rubicam's scholarship awards program, permitting four-year attendance at the college of their choice. Y&R has set aside an additional $2,000 to provide educational aid to "two young men who have demonstrated a particularly heartening adjustment to unusual and difficult circumstances."

Winners are Barbara Bisogno, New York; Rose de Paola, New York; Tomas A. Feare, Park Ridge, Ill.; Stephen Guzy, Little Silver, N. J.; Edythe C. Haber, Brooklyn; Robert C. Hackett, Chappaqua, N. Y.; Patricia J. McNamara, Buffalo, N. Y., and Nathaniel M. Queen, Brooklyn. The two "hardship case" winners are Dominick Manfredi, Mt. Herman School, Mt. Herman, Mass., and Anthony Rodriguez, St. Christopher's School, Dobbs Ferry, N. Y. They were picked by the Educational Testing Service, Princeton, N. J., administrators of college board exams.

AWARD SHORTS

SI Willing, general manager, KTLD Tallulah, La., and president of Tallulah Junior Chamber of Commerce, received certificates citing his leadership of chapter which won state Operation Civic Service certificate.

Fred Wolf, bowling announcer, WXYZ-TV Detroit, named by Bowling Proprietors Assn. of Greater Detroit as one who has done most for "growth and elevation" of game during past year.

Robert Young named Television Father of the Year last week by National Father's Day Committee. Film program starring Mr. Young, Father Knows Best, won organization's annual television award. Series, produced by Screen Gems Inc., N. Y., is sponsored by Scott Paper Co., Chester, Pa., through J. Walter Thompson Co., N. Y.

Bob Considine, MBS performer, named Radio Father of the Year by National Father's Day Committee.

Granville C. Ryan and Donald A. Blomquist, co-producers of Youth Bureau—Boys in Trouble program on WXYZ-TV Detroit, recognized for service to police and city in civilian citations from Detroit police commissioner.

L. E. Caster, president, WREX-TV Rockford, III., received Eisenhower Prayer Award, highest recognition bestowed by Treasury Dept. on individual for cooperation in savings bond program.

Bill Yeroult, KCMO-AM-FM-TV Kansas City personality, named Man of the Year by local B'nai B'rith chapter for community work.

NBC-TV's March of Medicine (Sun., 5:30-6 p.m. EDT) cited for "creative pioneering in medical journalism through television . . ." by Albert and Mary Lasker Foundation and Nieman (Harvard U.) Foundation. Lasker award for medical journalism was first ever presented to tv program.

Educational Radio-Tv Center Announces Additions to Staff

FOUR radio-tv educators will join the staff of the Educational Television & Radio Center, Ann Arbor, Mich., this summer as the center expands its program of aid to the 20 educational stations now on the air. A fifth man will serve on a short-term basis.

Kenneth Christiansen, project director of educational television for the Southern Regional Education Board, will assume the new position of program manager for the center. Other appointments, for one year only, include Donley Fedderson, professor and chairman of radio-television at Northwestern U.; Kenneth D. Wright, director of broadcasting at the U. of Tennessee, and Milo Ryan, associate professor in the U. of Washington School of Communication. Dr. Glenn Starlin, acting chairman of speech at the U. of Oregon, who served with the center in 1954-55, will rejoin the program staff from June through August.

Kansas State Plans Four Radio-Television Workshops

FOUR two-day radio and television workshops for county extension personnel are planned for this fall by Kansas State College, Manhattan, and by Dr. Kenneth C. Donley Fedderson, professor and chairman of radio-television at the Kansas State Agricultural College, Manhattan. Instruction will be given by Joe Tonkin, chief of the audio-visual branch of the federal extension service; Don Schild, visual aids specialist with the federal extension service; and G. E. Landen, Kansas State radio-television specialist.

Engineering Seminar Opens

MAGNETIC video tape equipment and mass duplication of tape recordings for radio will be explored at the first Radio & Audio Engineering Seminar of the National Assn. of Educational Broadcasters, which opened yesterday (Sunday) and continues through June 1 at the U. of Illinois, Urbana. Talks and demonstrations by representatives of magnetic tape and recording equipment, including the Audio Engineers, Minneapolis and Mfg. Co., will highlight the seminar, which is held through the year's grant from the W. K. Kellogg Foundation.

WCAU Philadelphia has presented a complete tape recording system to the U. of Pennsylvania for use by the campus radio station and the School of Journalism. Last January WCAU gave the university a gift of $1,000 to be used in improving its' television and radio teaching facilities. The university purchased reference library and broadcasting equipment with the money, which was the amount received by WCAU from the Alfred I. Du Pont Awards Foundation for the station's work in the field of educational television.

Educational Group Adds 3 Tvs

THREE new educational tv stations—WKNO-TV Memphis, WHYY-TV Philadelphia, and WJBS-TV Urbana—have announced plans to begin operations early this summer, WIPR-TV in December, and WHYY-TV in October. Opening of the new stations will bring to 23 the number of educational tv outlets, according to George L. Hall, director of development for the Educational Radio-Tv Center. Most recent stations to join the network were KETA-TV Oklahoma City, and WTHS-TV Miami last August.

NAEB Topics Scheduled

TOPICS for a series of "curbstone clinics" on radio-tv problems have been announced by the National Assn. of Educational Broadcasters for its annual convention in Atlanta Oct. 16-18. Radio clinics will explore such subjects as research, fm, children's programming, program ideas, budgetary considerations for station operation and engineering. "Tv topics include video vs. kinescope recording, budgets, credit courses, research methods, film production, closed circuit television, news and low power tv station possibilities.

WTTW (TV) Gets Catholic Aid

SCHOOLS of the Catholic Archdiocese of Chicago have contributed a check for $30,000 to the Chicago Educational Television Assn. to fund for the newly-created educational station, WTTW (TV). The money was collected by the school board from thousands of pupils in parochial schools throughout the Chicago area, and accepted Wednesday by Dr. John W. Taylor, WTTW executive director.

Lutherans Name Hertsgaard

ROLF HERTSGAARD, former head of his own radio-tv packaging firm in Minneapolis, last week was named secretary of the newly-created radio-television department, National Lutheran Council. Mr. Hertsgaard will supervise all planning and execution of participating members' broadcast activities.

Before forming his own production firm in 1950, Mr. Hertsgaard was with WCCO Minneapolis, KOA Denver, KOTA Rapid City, S. D., and KSTP Minneapolis, as announcer, writer and newscaster.

EDUCATION PEOPLE

Dr. Clarence L. Menser, since 1950 professor of speech at Stetson U., Deland, Fla., director of radio and manager of university-owned WJS Deland, resigned. Dr. Menser, former head of the NBC voice and music section, now in the vocabularies of citrus and cattle interests in Palm Beach County.

Samuel Barber, engineer, WFIL-TV Philadelphia, named chief engineer for education station WHYY-TV Philadelphia. Mrs. Winifred Braun of Weston, N. J., to WHYY-TV as secretary.

William B. Gould, film editor, Southwest Film Laboratory, Dallas, Tex., to WKN0-TV Mem- phis, Tenn., education station, as film manager.

John P. Kelly, engineering staff, WEEI Boston, to Lincoln Laboratory research staff of Mass. Institute of Technology.

Jack C. Ellis, Northwestern U. faculty, Evans- ton, Ill., appointed assistant professor of film.

EDUCATION SHORT

Indiana U., Bloomington, next fall will offer new curriculum to prepare students as women's directors of radio and tv stations. Curriculum leading to B.S. was developed after study of station needs. It includes courses in arts and sciences, radio and tv, home economics, social service, English literature, psychology and journalism.

Bavarian Radio Plans Commercial Tv by Oct.

THE Board of Bavarian Radio, Munich, West Germany, has announced it will introduce commercial segments into the organization's tv programs, starting in October this year. Commercial television thus would be introduced in West Germany through commercial segments in the already existing stations' schedules rather than through the establishment of separate and independent companies and stations.

The commercial segment in Bavarian Radio's schedule will be from 7:30 to 7:35 p.m. daily, followed by the normal and non-commercial programs.

Bavarian Radio is a quasi-official organization. It is non-profit and state-owned. Other existing organizations, South German Radio, West German Radio, &c., are private.

There is much opposition against the handling of commercial television by a quasi-official organization. Groups favoring independent stations comprise newspaper publishers and other organizations. Radio advertising has been handled by the quasi-official German broadcasting organizations for a period of years with opponents unsuccessful in attempts to remove the commercial segments, from the otherwise non-commercial broadcasts, for use on proposed commercial radio stations.

Existing stations hope to gain additional revenue to supplement their set license fee income and they, reportedly, play a role in the opposition to let no separate system as, for example, ITA in Britain, enter the scene in Germany. At present, no sponsored programs are planned. It is likely that commercial time slots will be filled with something like prolonged spoons.

U. of British Columbia Backs Private Tv Stations

PRIVATELY OWNED local radio and television stations should be encouraged and competing tv stations should be allowed in single-station cities as soon as possible, members of the faculty of arts U. of British Columbia told the Royal Commission into broadcasting when it held its sitting at Vancouver in mid-May.

The university men also suggested that some separation of the regulatory and operational powers of the Canadian Broadcasting Corp. would be advisable if it did not weaken the effectiveness of the CBC board of governors. A university student group also backed the faculty in its brief for a separate regulatory body for broadcasting and for establishment of two tv stations in Canadian cities.

First member of the Canadian Parliament to be heard by the commission was T. H. Goode (Liberal member for Burnaby-Richmond, B.C.). He said the CBC should not be afraid of competition from private television. He pointed out that if the CBC, with its government money and head start on expensive, would not meet competition it should get out of the entertainment field. He argued for the establishment of a tv station in Vancouver's suburban Burnaby, to wield the commission that with only one tv station in Vancouver, the Canadian advertising money is going to U. S. border tv stations which are seen regularly by Vancouver viewers.

R. M. MacLennan to commercial manager of GJOB Winnipeg, Man.
M&R STAGES GIANT MEETING

DESCRIBED by MBS as the first coast-to-coast sales meeting of a major drug distributor, McKesson & Robbins May 18 held a 343-station closed circuit broadcast via Mutual to promote M&R's sponsorship of Bob & Ray (Mon.-Fri., 5-5:45 p.m. EDT), beginning today. M&R's key sales staff in the U. S. heard top executives describe the firm's advertising plan to open sponsorship of the show to eight drug products in a campaign to make the U. S. "drugist-conscious." Participating in the closed circuit broadcast were Bob Elliott and Ray Goulding, MBS Board Chairman Thomas F. O'Neill, MBS President John B. Poor, George Van Gorder, M&R chairman-president, and other high-level M&R sales executives.

KDNT RUNNING POLICE CAR

KDNT Denton, Tex., has its third mobile news unit on the roads, operating not as a station broadcast unit but as Police Car 99 as well. The station wagon carries two-way police equipment with station personnel deputized to handle police calls.

KDKA PARTY ENDS N. Y. DRIVE

AS a means of acquainting broadcasting and advertising executives in New York with the "New Pittsburgh" market and introducing its newest disc jockey, Art Pallan, KDKA Pittsburgh held a cocktail party at the Stork Club last Tuesday. Highlight of the evening was a 10-minute film, produced by the station's promotion department, titled "Meet the New Pittsburgh—Where Everything's Moving." Slanted to the national advertiser, the film stresses that Pittsburgh is composed of hundreds of small communities, all within hearing distance of KDKA. The nightclub party wound up a campaign in which Westinghouse Broadcasting Co. had placed 20 of Mr. Pallan's recent shows on WINS New York, purchasing the time to bring the program to the attention of agency timebuyers [B&T, May 7].

AUTRY CAST MEMBER STEPS UP

WILLIAM WRIGLEY Jr. Co. (chewing gum), Chairman, has announced replacement for the recently vacated Gene Autry Show on CBS Radio. The program will star Autry cast member Pat Buttram—signed by Wrigley and CBS Radio—and will be called Pat Buttram Show. It is expected to fill the Sunday, 6:00-6:30 p.m. EDT slot temporarily occupied by a new CBS show called O'Hara.

NBC-TV FIRMS FALL LINEUP

NBC-TV's Friday night lineup for fall is all but set, with Gulf's Life of Riley slated to move forward to 8 p.m. from 8:30 p.m. EDT, and to be followed by a new, as yet unnamed, show in the 8:30-9 p.m. period sponsored by P. Lorillard and Toni Co.; 9:30-10 p.m. will be filled by On Trial, sponsored by Campbell Soup Co., and Big Story, now in at 9 p.m., will move to 9:30-10 p.m., continuing under sponsorship of American Cigar and Cigarette Co. (Pall Mall). The fights, sponsored by Gillette, will start at the usual 10 p.m. time.

'BAPTIST HOUR' MARKS 15 YEARS

A PRAYER for peace, highlighting yesterday's Baptist Hour broadcast and joined in by more than a million members of Southern Baptist churches, climaxed a week-long observance of the 15th anniversary of that program on the air. The Baptist Hour, starting with 17 stations in 1941, has grown to 384 stations. The beginning of the anniversary week was proclaimed May 21 by governors of a number of states. A feature of the observance was the simultaneous playing of a specially produced 35-minute anniversary record at evening services in more than 1,000 churches of the Southern Baptist Convention. Titled "The Baptist Hour Through a Dramatic Era in World Events," the record contains excerpts from speeches by Churchill, Roosevelt and other world leaders.

KYA PUTS OVER REALTY EFFORT

EIGHT star personalities from the KYA San Francisco talent roster helped put over what builders called the most successful grand opening ever staged by a Bay Area development. The opening of the Warford Mesa Estates in Orinda, featured one model home with each room furnished to reflect the program format and character of each of the station's eight star personalities, who were on hand to officially open the new community. The event was promoted with a saturation schedule on KYA for one week before the opening, with no other media used. Despite heavy rains, some 6,000 visitors came to the opening from as far away as Fresno and Sacramento.

WBNS-TV AIRS JURY PRIMER

A SPECIAL documentary, Primer for a Juror, was presented Thursday, 8:30-9:30 p.m., on WBNS-TV Columbus, Ohio, in cooperation with the advisory board of the Columbus Bar Assn. The program explored jury duty, featuring the mechanics of choosing jurors and typical jury procedure during the progress of a court case. Along with the program, the station prepared a teacher's guide on the jury system and procedures for use as supplemental material in the classroom.

SOCIALIST CONCLAVE ON CBS

A SPEECH on socialism by Norman Thomas, Socialist Party leader, to be made June 9 at the 30th national convention of the party at the Midwest Hotel, Chicago, will be broadcast by CBS Radio (10:45-11 p.m. EDT). Mr. Thomas was the Socialist Party's candidate for President in six national elections, 1928 through 1948.

'GOING PLACES' IN FOR 'CIRCUS'

SUMMER replacement for Super Circus on ABC-TV, Sundays, 5-6 p.m. EDT, will be a variety show called Going Places, claimed as the first network live program to originate regularly from Miami, Fla. Jack Gregson will be master of ceremonies, for the first show on the air June 3. Stone Assoc., New York, packager for Super Circus, also will produce the summer substitute.
A GRAPHIC demonstration (250,000 requests) of the "pulling" power of radio-tv personality and aviation enthusiast Arthur Godfrey has been given during past weeks.

On March 16 Mr. Godfrey addressed the sixth annual conference of the National Aviation Education Council in New York on "What Aviation Education Means To Me." He subsequently offered a copy of the address free upon request. Carl Parent, president of the Washington D. C. firm that has many requests for Mr. Godfrey's speech, reported that at the present time 250,000 have been received. He said that a staff of 12 persons are working full time fulfilling these requests.

An industry spokesman said that although Mr. Godfrey has always demonstrated great "pulling" power from his listening and viewing audience, this is one of the greatest demonstrations of that power in the history of broadcasting.

At the request of Sens. Richard Russel (D-Tenn.) and Lyndon Johnson (D-Tex.), Mr. Godfrey's aviation speech was entered in the Congressional Record by unanimous consent.

CAPITAL AIRLINES Hostess Gloria Galloway unloads another sack on the growing pile of requests.

FOR THE RECORD

Station Authorizations, Applications (As Compiled by B T) May 17 Through May 23

Includes data on new stations, changes in existing stations, ownership changes, cases, rules & standards and routine changes.

FARRELL TO OCCUPY 'LUCY' SPOT

PROCTOR & GAMBLE Co. (Lil), through Grey Adv., N. Y., and General Foods Corp. (Instant Sanka) through Young & Rubicam, N. Y., last week jointly announced that effective July 2, The Charlie Farrell Show, a Hal Roach Jr. filmed situation comedy, will replace Desilu's I Love Lucy on CBS-TV for the summer months.

HERRIDGE TO LIFT SHOW HAULINE

The summer audience of CBS-TV's Studio One will be exposed to "offbeat culture" when Robert Herridge, former producer of WCBS-TV New York's experimental Camera Three program takes over the helm of the Westinghouse show June 11. A spokesman for Mr. Herridge said he plans to bring to the network some of Camera Three's former "highbrow material," including works of Stephen Crane, John Steinbeck and Conrad Aiken.

---

**AREN'T THERE ANY GOOD TV PROGRAM MANAGERS AROUND ANYMORE?**

We've been looking for some while now for a man to fill a great job at a great television station. We want a Program Manager. He must be resourceful, energetic, and above all, creative; he must also know how to administer a fairly large staff, without getting bogged down, himself, in paper work; he must not only be an idea man, he must be good at production. He should be equally able to handle the problems of live programming and of buying and programming film. He must be the kind of man who can cope constructively and imaginatively with the problems of a competitive, big city operation. That's what we need. He must also be able to handle the problems of live programming and of buying and programming film.

This is a tall order. But we know that there's a man around like this. We find him he'll pay from $12,000 to $15,000 a year, and the opportunities for advancement above that are unlimited. The station is one of the major stations of the country in one of the top 15 cities.

The man we're looking for might right now be a program manager of a station; or he may be working in a television department of an advertising agency, but he's had station experience; or he may be working for a network—though it feels that there's probably one who can handle the problems of running independent stations. We'd like very much to find a man with station experience, to job him with stations. If you think that this is the job for you, let us know. Give us the facts about yourself in a brief letter.

BOX 657G, B.T.

Who Pays Whom, For What?

A

SERIOUS re-examination of the traditional methods of advertising agency compensation is clearly underway.

It is too early to predict where the re-examination will lead. Perhaps it will lead to a general departure from the historic system under which the agency is paid a 15% commission on the business it places in media. Perhaps some advertisers, after study, will decide to adhere to this system and others will choose to change. Perhaps most or all will decide to keep things as they are.

In advance of decisions—whatever they turn out to be—we hope that all elements of the advertising business, including the media, will participate in the study of agency compensation. It would be wrong if advertisers, acting unilaterally, came to a conclusion without the consultation of their agencies and the media with which they must do business. Tripartite agreement on a universal course of action would obviously defy the antitrust laws, but certainly there would be nothing illegal about joint conferences in which each of the three main elements could express their views.

The advertiser cannot make a decision on the means or amount of his payments to his agency without the agency's agreement. It is the agency itself which must price its services.

Nor can the advertiser tell media what they should charge. It is the medium which must establish its own worth.

Under such circumstances, and with the current agency compensation system a matter of agreement among advertiser, agency and medium, the need for a thorough exchange of views among all three is evident.

'Lawgineer' Craven

SOME of the new generation subject to the regulatory processes in communications may lift an eyebrow as to the political significance of the appointment of Comdr. T. A. M. Craven to the FCC to succeed Comr. E. M. Webster, who has an impeccable record of nine years of stewardship. There isn't any political significance.

Comdr. Craven, whose nomination for a seven-year term beginning June 30 went to the Senate last week, is a proven quantity. He served as a commissioner from 1937 until 1944, after having been the FCC's chief engineer. He figures prominently in just about all big decision the FCC made during the "radio era," and he also laid much of the technical and economic groundwork for what became the television allocations, although he had no part in producing the controversial Sixth Report.

T. A. M. Craven's career runs hand-in-hand with the development of communications. He was "loaned" to the old Federal Radio Commission in the late 20's to help on the original broadcast allocations. He became the commission's chief engineer in 1935. We can recall no criticism of his engineering direction of the FCC despite the controversial and delicate nature of that assignment. He was in the middle of many disputes as a commissioner, but he was a constructive force, steadfastly resisting undue interference with private initiative and enterprise. He afterwards served in private industry, as a station operator and a consulting engineer. Merit, not politics, is responsible for Mr. Craven's appointment.

It is regrettable that a man of Comr. Webster's caliber is lost to the FCC. The fact that he was politically an 'independent' may have had some bearing on the decision against reappointment. More likely it was the age factor (he is 67) and the fact that he is eligible for retirement. This administration has made singularly few reappointments of "holdovers" on administrative agencies.

At all events, Comr. Webster leaves the FCC gracefully and with the realization that his has been a job well done. We hope the government takes advantage of his probable availability for special projects dealing with international communication and safety of life.

He has great prestige among the communications administrations of foreign governments. We suspect that both the White House and the State Department will have the opportunities ahead to make such special assignments.

In the current atmosphere of confusion and uncertainty in tv allocations, it is evident that the FCC needs Comdr. Craven because of his experience and background as a professional engineer, self-made economist and legal analyst—a sort of "lawgineer." We're glad to see that the Senate Commerce Committee has set its confirmation machinery in motion so that Mr. Craven can take office promptly on July 1.

Fm's Resurgence (Via MBS)

HARD ON THE heels of the major agency survey of fm, which found the medium doing a job for local advertisers but needlessly neglected on the national level [B&T, April 16], comes Mutual's proposal for an fm-only good music network, to start on the East Coast and to expand nationally if the initial operation pays off.

Fm broadcasters can now feel assured that they are going to get their share of benefits from radio's resurgence.

It is particularly encouraging that a radio network has originated the idea of providing dual service to its affiliates, adding the good music service for fm to its present programs for am affiliates.

There has long been a feeling among fm broadcasters that many of their economic troubles stemmed from the policy of the networks to permit duplication of their programs by the fm stations of their am affiliates without charge to the program sponsors—a policy which made it difficult for an fm-only station to sell its time while its am-fm neighbor was giving fm away to am buyers.

The quality of the program service which the Mutual fm network proposes to provide may be taken for granted. WGMS-AM-FM Washington, which MBS has bought (subject to FCC approval), has originated splendid programming for years, and M. Robert Rogers, now WGMS president, will stay on after the sale to assist in the organization of the Mutual fm network.

Hence there is a record of enviable experience behind this move.

Free-Plug Sneak Thieves

IT'S A TRUISM that the old, accepted frauds are often the hardest to whip. This journal last week detailed the practice of just such a fraud—the "free plug," whereby an agent for a certain product slips someone money or merchandise to get the product mentioned in a broadcast script. "Who's hurting?" the practitioner will ask you. The writer, or director, or cameraman, or star gets some extra cash, the product gets valuable publicity, and it hasn't cost the network a thing—or so they'll tell you.

The sorry truth is just the fear. It is causing the network to give away the commodity it is in business to sell. It's costing the sponsor, too, because the time for which he has paid hard cash at card rates is being used dirt cheap by a free loader, while at the same time the effectiveness of his ad message is diluted in direct proportion to the number of chiselers who sneak in on his show.

The networks and the sponsors are to be commended for the efforts they have made thus far to stem the tide of free plugs. They are to be encouraged, however, to intensify the policing action both against the free loader and against the dual evil of giving extensive air credit for often insignificant prizes or props. In the now-famous words of a broadcaster, "If you can't sell it, sit on it: don't give it away."
rookies all look good in the Springtime.....

but it's the "old pros" who win the ballgames!

Since 1928, KSTP has provided outstanding entertainment for Northwest listeners... a generation of them.

News, sports, "the best music in town," comedy, drama... each one has its place in KSTP's balanced programming, and each has played its part in building the tremendous listener-loyalty which KSTP enjoys.

In addition, KSTP offers advertisers a realistically-priced package-rate-plan, plus the top radio personalities in the Northwest to do an effective and economical selling job in this vital market of 850,000 radio homes and FOUR BILLION DOLLARS in spendable income.

For further details, contact your nearest Edward Petry office or a KSTP representative today.
