60 seconds is all it takes...

7,942,107* automobiles rolled off American production lines in 1955. That's an average per working day of 63 cars every 60 seconds.

To keep automobiles rolling from factory to family—and to move your merchandise too—60 seconds is all it takes on Spot Radio...

It costs less to reach more of your potential customers... wherever they are... whoever they may be... at the precise time and place of your choice.

60 seconds—or less—is all it takes to sell them with the right, bright buy—Spot Radio.

* An estimated 6,591,948 of these cars were radio equipped! Millions listen to Radio while keeping their eyes on the road.

Another thinly disguised WJR success story

Frenzied fans fight frantically for foul ball

Last June, during a night ball game, a player popped a foul into the broadcasting booth. The announcer casually remarked that he'd send this ball to the WJR listener writing in from the most distant point.

What a deluge! Letters came from Canada, California, Arizona, Oklahoma, Florida, Georgia, New York, Maine, and all points in between. Letters came from small fry, grownups, farmers and city folks, tourists and traveling salesmen. According to the mailman, everybody wrote in for that foul ball!

The best part of it all was that a lot of the letters came from the Great Lakes area—WJR's own backyard. The general tenor of these letters was—

"...don't expect to win the ball, just wanted to let you know how happy we are that WJR is now broadcasting the night games—they're coming in loud and clear for the first time."

But what does all this prove? Simply that when you have as many listeners as WJR, even a foul ball is a "national event." Of course we knew this, because we've already read the latest report from Alfred Politz Research, Inc., which stated: 38 percent of all listeners in the area surveyed specify WJR for sports. That's considerably more than the next four stations combined. And that's worth considering if you've got something to sell. So ask your Henry I. Christal representative about WJR—he knows what we can do for you!

The Great Voice of the Great Lakes

COULD BE TROUBLE • Network executives attending Democratic Convention in Chicago were concerned about possible application of Section 315 equal time provision for candidates for public office. Dozen speakers last week were candidates for Senate or for re-election. Will Republican opposite numbers seek equal time? And what about those at this week's GOP convention who are candidates, like Keynote Gov. Langlie of Washington, who is running against Sen. Magnuson, Democratic incumbent?

QUESTION: Did Democratic National Committee Chairman Paul Butler's plea for contributions in his curtain-raiser address constitute violation of major network rules against soliciting of funds? He asked for $1, $5 or $10 donations to party, after citing necessity of whistle-stop campaign and contending that Democrats don't have big money available like GOP for extensive use of television and radio.

LOEW'S LONG AIM • Deal by Loew's with unspecified New York tv outlet, possibly along same pattern as $4 million lease of its MGM library to, and $1.6 million plus purchase of stock in KTTV (TV) Los Angeles (see story page 58), was reported in "serious consideration" stage Friday. Loew's has aim of working arrangements (not necessarily ownership interest) with stations in five to ten top U.S. markets. Another goal: to become one of top suppliers of tv programs for sale to advertisers, agencies, networks. If and when this is fait accompli, Loew's would be in position to "experiment" with idea of tv film network.

HOUSE Small Business Committee definitely will release this week record of hearings last March on uhf and alleged network influence over FCC. And woven into record will be samples of network inter-office memoranda subpoenaed from network files but never formally introduced at hearings. More extensive disclosure of private network correspondence is expected later when committee issues report and recommendations based on its hearings and investigation.

AT-LARGE, AT-LOGGERHEADS • Focal point of interest for radio broadcasters during NARTB regional meetings starting Sept. 17 will be open discussion of proposal to drop eight at-large directors from Radio Board. Host directors at meetings are arranging panels to lead discussion, scheduled after President Harold E. Fellows luncheon speech on opening day. Radio membership voted 5-4 in favor of dropping at-large directorships, but board was forced to call new vote after more than 5% of members petitioned for such action on ground issues were not clearly defined in ballot background material.

CBS INC. President Frank Stanton was forced to miss his first meeting as member of board of New York Life Insurance Co. because of controversy provoked by Democratic National Committee Chairman Paul Butler over CBS failure to carry "Pur- sue of Happiness" film on convention's opening day in Chicago (see story page 72). Dr. Stanton planned to attend Wednesday board meeting in New York but didn't get away until Thursday after things cooled off.

ON THE BARRELHEAD • Oregon broadcasters are sweating out political demands for radio-tv time though election is 21/2 months away. Besides national campaigning, stations are being contacted by campaign directors for Douglas McKay (R) and Sen. Wayne Morse (D), hot candidates for U.S. Senate seat. Many stations in state refuse to make firmer commitments at present, knowing time must be available for all principal candidates. Usual policy is to require payment in advance from political buyers.

CROWELL-COLLIER isn't backing away from its $16.5 million purchase of Binner stations in Midwest despite delay in filing for FCC approval. At least that's word from C-C sources who insist deal is still "very much alive." Contract was signed nearly four months ago but papers have not yet been submitted to Commission. Main delay is still believed to center around C-C effort to get back money it's own terms. Binner stations are WBM-AM-TV Indianapolis; WOOD-AM-TV Grand Rapids, Mich.; WTCN-AM-TV Minneapolis, and WFDF Flint, Mich.

TWO FOR THE GRIDDLE • It looks as though House Antitrust Subcommittee will concentrate its fire on CBS and NBC when it opens New York hearings some time next month. Letters asking for detailed information on program and talent deals went last week to those two (story page 84) but not to ABC-TV, which also has extensive talent-production arrangements. Date of hearings to be conducted by Chairman Emanuel Celler (D-N.Y.), still uncertain, except that it will be in September.

BOND Stores Inc., (clothing chain), New York, reported to be looking for strips of tv news or sports programs which it will use, among other forms of programming, in unspecified number of markets in expanding its national advertising schedule. For past few months, it's understood, Bond's two agencies, Joseph Katz Co., New York and Baltimore, and Compton Adv., Los Angeles, have been reviewing client's radio-tv activities during and after its tenure with now-defunct Biow Co. Bond currently has tv news programs on air in New York, Cleveland and Los Angeles, and weather program in Rochester, N. Y. It also has radio campaigns in 10 other markets. New campaign will solidify existing markets and open up new ones.

RESIGNATION of Spencer Allen, veteran of 18 years with Chicago Tribune broadcast interests, as director of combined WGN-AM-TV news operations, is attributed to policy differences over news coverage with new WGN Inc. management team. Mr. Allen, who will announce future plans shortly, was credited with producing WGN-TV's award-winning Chicagoland Newsreel past eight years.

FEATURE FLOOD • Claim to title of "biggest user of first-run feature films in the country" is being eyed by RKo-Tele-radio's WOR-TV New York. With RKo library to draw on, it's revamping fall lineup to point where approximately 85% of its 110 hours of weekly programming will be feature films.

PUSH in spot tv by Philip Morris Inc. for its hardpack (flip-top) king-size Philip Morris cigarette (story, page 50) will call for "somewhere between $400,000 and $500,000," between now and end of year, according to P. M. has $2 million allocated to spot tv for balance of 1956. For first six months of year, P.M. spent nearly $31/2 million in tv spot (see listing, page 40).

KINGPIN P&G • Procter & Gamble with combined expenditure of over $34 million in spot tv and network tv during first six months of this year (see tabulations, pages 39, 40) holds its No. 1 position with plenty of margin. Nearest to P&G is Colgate-Palmolive which spent total of little more than $12 million in spot and network television.

TV, WHICH GAVE HIM NATIONAL STATURE, WILL FIGURE BIG IN KEFAUVER CAMPAIGN

DEMOCRATIC campaigning this autumn will rely heavily on impact of television, it appeared as Sen. Estes Kefauver (D-Tenn.) won the party’s vice presidential nomination.

With Adlai Stevenson, Tennessee Senator is keenly aware of way tv brings personality of candidates into nation’s homes. Sen. Kefauver owes his national stature to the fact that he was chairman of 1950-51 Senate Crime Committee that uncovered cameras and microphones corruption in low and high places.

Little known outside his state just few years ago, Sen. Kefauver had by 1952 arrived on West Coast as Presidential aspirant. In background was Col. William A. Roberts, Washington communications attorney, who pulled strings much of the time.

At Chicago last week, Col. Roberts was given by CBS commentator Grant Holcomb much of credit for vice presidential victory. Mr. Holcomb on air said he had never seen anyone work so efficiently in masterminding political campaign from hotel room.

Lou Poller, owner of now dark ch. 25 WCAN-TV Milwaukee, was active on Kefauver staff. Mr. Poller is outspoken advocate of subscription television.

Sen. Kefauver has long been champion of equal coverage rights at public events for radio and tv. In interview with BWT (March 10, 1952), he said he believes television “is entitled to the same treatment accorded other means of communication” in reporting such events. He openly challenged ex-President Truman’s security order on ground citizenry should be fully informed, with independent agency screening suppression of government information.

Sen. Kefauver proved to be aggressive campaigner in recent months until he withdrew from Presidential race in favor of Mr. Stevenson. He stumped nation in same way he beat Tennessee bushies in defying once-famed Crump machine. While he believes there is no substitute for actual face-to-face meetings of candidates and voters, he said television comes closest to personal appearance and is very effective. “Tv cannot help becoming a most important factor in any political campaign,” he said.

He described radio as exerting “tremendous influence on political campaigns,” with both media providing “a more intimate degree of communication.” His philosophy of government regulation is based on Jeffersonian principles. First, it should prevent people from injuring one another and secondly should insure a certain degree of equality of opportunity in enjoying constitutional rights of free speech and press, he said. Specifically, he said regulation of tv and radio should be based on these two factors plus uniformity of technical standards.

Sen. Kefauver is long-time friend of Edward Lamb, president of WICU (TV) Erie, Pa., and participated in dedication of new plant of Erie Dispatch, published by Mr. Lamb.

More Than 90 Million See Convention on TV

TOTAL of 93,831,000 persons had watched some part of Democratic convention on one or more networks up to start of balloting last Thursday night, NBC reported Friday on basis of special study made for it by American Research Bureau. In all, 84% of tv homes had tuned them at one time or another before balloting—traditionally peak attraction—had got under way. Trendex average-minute all-network audience figures were running ahead of 1952’s on four-day basis though Trendex ratings for Wednesday and Thursday nights slipped slightly below 1952 level. Trendex ratings: Monday night, 30.4 against 26.1 in 1952; Tuesday, 26.8 against 23.1 in 1952; Wednesday, 28.1 against 29.0 in 1952, and Thursday, 35.0 against 36.6 in 1952.

Networks Pack for Move To S. F. as Dems. Close

WITH Presidential nomination out of way and balloting hurried for convention plans, “ee, three tv networks Friday began methodically stripping cameras and allied remote gear from candidates’ headquarters in major Chicago hotels.

Morgue-like atmosphere pervaded Harriman

BUSINESS BRIEFLY

CANDY TEST • Newark Packing Co. (nubs), Newark, N. J., will use radio to test its newest product, Astor peanut candy, in New York market prior to launching nationwide radio drive. From Sept. 17 to Dec. 15, its agency, Lewin, Williams & Saylor, N. Y., will conduct four-station saturation campaign via WCBS, WNEW, WAAT, and WINS, all New York.

BISCUIT BUY • Bowman Biscuit Co., Denver, has signed Song Ad film radio-productions, Hollywood, to produce film spots for fall tv campaign in 18 Midwestern markets through Ball and Davidson Advertising, Denver.

DAYTIME SCHEDULE • General Foods Corp., White Plains, N. Y., will launch 13-week, Mon.-Fri. daytime radio spot schedule in limited number of southern markets starting Oct. 1 for Calumet baking powder. Agency is Young & Rubicam, N. Y.

SHORTS STORY • B.V.D. Co., (underwear), N. Y., expected to increase its tv spot drive with 13-week campaign starting middle of next month in Holyoke, Mass., Baltimore, Philadelphia, and Los Angeles, using one station in each market. Agency: Al Paul Lefton, N. Y.

COFFEE BREAKS • Joseph Martinson & Co. (Abern Coffee Div.), N. Y., launching intensive radio spot campaign starting middle of October and running through end of 1956 on six Boston stations and Yankee Network for Abern’s instant and vacuum tin coffee. Agency is Anderson & Cairns, N. Y.

NETWORK NIBBLE • Regina Corp. (vacuum cleaners, floor polishers), Rahway, N. J., said to be seriously considering participating in NBC-TV’s Tonight and ABC-TV’s Afternoon Film Festival this fall as its initial network buy. Agency is Lewin, Williams & Saylor, N. Y.

TEST WORKED • Norex Labs, N. Y., starting tv test campaign Oct. 1 for 39 weeks in San Francisco, Minneapolis-St. Paul, Dallas, and

ABC Plans Shortcut

IF things work out as ABC-TV plans, it will be assured of perpetual, if infinitesimal, scoop over rival networks in delivering GOP convention to San Francisco viewers. ABC figures to run one-fiftieth of a second ahead of others.

CBS-TV and NBC-TV have traffic worked out to send signals from San Francisco Cow Palace to New York, returning to their San Francisco stations for broadcast via Hollywood. ABC-TV will send same way but also will beam signal direct to its owned and operated KGO-TV San Francisco transmitter on Mt. Sutro.

NEVER TOO LATE

THIS week’s Republican National convention won’t end radio convention coverage. Next up will be Socialist Party of U.S.A. CBS Radio reported Friday that it has scheduled “exclusive” broadcast of David Dellums’ belated acceptance speech as Presidential candidate for Socialists who held national convention in Chicago June 8-June 10. Program will be aired Sept. 4, 10:45-11 p.m. EDT.

WDSU Acquires Vhf
In Hattiesburg, Miss.

ACQUISITION by WDSU Broadcasting Corp. (WDSU-AM-FM-TV New Orleans) of 51% interest in ch. 9 WDMT-TV Hattiesburg, Miss., for $51,000, disclosed in application filed Friday asking FCC approval of transaction. Sellers are equal partners Harold Matison, D. A. Matison Jr., Milton J. and Alvin H. Fine, each of whom relinquishes 51% of his quarter interest.

WDMT-TV, NBC and ABC affiliate, began operation last June and shows loss to date of $5,502. Station, as of June 30, lists $26,135 current assets, $253,023 total assets and current liabilities of $158,525. WDSU Broadcasting also owns 57.8% of WAFB-AM-FM-TV Baton Rouge, La.

SLIPPED ON SOAP

JEAN SHEPHERD, WOR New York after-midnight D. J. who sold an unwritten book so well it subsequently had to be written (see story page 106), was fired in mid-program early Friday morning for attempting to sell genuine soap product—that hadn't bought. In apparent effort to prove his program isn't too high-brow to sell things, he started urging listeners to go out and buy Sweetheart soap. After several of these free "commercials" he was yanked about 2:30 a.m. Friday by his director and was told that the soap deal was not working. In a cordial manner, WOR spokesman said station felt Mr. Shepherd was "talented and erudite" but appealed to limited audience; that his time period henceforth would be filled by "Long John" program of music, interviews, and stories.

BUSINESS BRIEFLY

(Takes up from page 7)

Washington for Amitone (digestive pill) through Grey Adv., N. Y. This will be Norex's second time in tv, following up test run on WTVJ (TV) Miami earlier this year.

THERMOS THINKING — American Thermos Products Co. (formerly American Thermos Bottle Co.), Norwich, Conn., which has appointed Charles W. Hoyt, N. Y., as its agency effective Dec. 1, may consider using broadcast media next year. Account, currently serviced by Rutshrauff & Ryan, N. Y., bills about $150,000 yearly.

FALL FUTURES — Thomas Leeming Co., N. Y., understood to have instructed its agency, William Esty, N. Y., to check into radio availabilities for fall and early winter for national spot campaign. Agency, currently serviced by Rutshrauff & Ryan, N. Y., bills about $150,000 yearly.

NABET Plea Denied

FCC Friday denied union request for temporary stay of Commission's June 20 grant approving $635,000 sale of WHTN-AM-FM-TV Huntington, W. Va., from Greater Huntington Radio Corp. (Sol J. Hyman and family) to Cowles Broadcasting Co. (B.T. June 25). Request for stay was asked by National Assn. of Broadcast Employees & Technicians (AFL-CIO), claiming to represent 20 WHTN employees. NABET charges FCC allowed the station to close, keeping five of its members after selling the station to Cowles and that therefore union and discharged employees were parties in interest. FCC ruled that NABET failed to make allegations that would warrant a stay of grant.

Trav-Ler Transistorizes

TRAV-LEER Radio Corp. plans to market complete line of transistorized radio sets, it was announced Friday by Joe Friedman, president, following firm's purchase of CBS-Columbia equipment and materials. Under terms of purchase, of which price not revealed, Trav-Ler receives from eight CBS-Columbia plants tools, dies, molds and diecasts, as well as production equipment for 24-inch tv receivers it will market. CBS-Columbia was not active in transistor radio field.

What* do you read regularly?

This spring a research firm** asked 4,584 radio, tv and advertising executives to check which of seven trade papers they read regularly. 90.4% checked Broadcasting * Telecasting.

* Radio-television tradepaper

** Erdos and Morgan; survey was "blind" with sponsorship undisclosed. 1,936 replies were received. Complete summary upon request to B*T.
I Heard It on Radio

EDITOR:

A letter in OPEN MIKE July 30 touched on a subject which is a personal pet peeve. Harry G. Bright of WETZ New Martinsville, W. Va., writes that he is disturbed by a television station in his area presenting its evening sports show by holding a newspaper in front of two announcers who proceed to give the day’s sporting events.

Radio has its spontaneity, television its illustration and newspaper the lasting record. However, many radio and television newsmen cut their own throats by publicly admitting they rely on newspapers as a guiding light.

I am one of a two-member news staff at KFOR in Lincoln. We believe we select second place to no one when it comes to presenting news, first and on our own. In fact, our efforts were rewarded Aug. 1 with a new newsmobile to further our reporting.

Sure, we rely on the local newspapers for some things, and they listen to our newscasts, oftentimes hearing stories they don’t have. Being a Veteran of myself, I sympathize wholeheartedly with the manager of WETZ. I know the station he speaks of, and it impresses me as being the height of stupidity.

The same station, on at least one occasion during my vacation this summer, demonstrated its news-gathering ability by leading with stories that broke in local newspapers the preceding day and using, with credits, of course, photographs taken by the newspapers.

If broadcasters would realize the importance of their own capabilities, such as our organization in Lincoln, there would be more people saying, “I heard all about it on the radio.”

Jim Whippley, Newsman
KFOR Lincoln, Neb.

Where ‘Bandstand’ Belongs

EDITOR:

I refer to your August 6 in REVIEW item concerning the NBC Bandstand program.

We love NBC-TV out here in Rochester, Minn., believe me, but frankly let’s give credit where credit is due. NBC Bandstand is not—as you say—also on NBC Radio. NBC Bandstand is NBC Radio for two hours each morning, Monday through Friday. The half-hour on tv, of course, is a simulcast of the radio show.

Just wanted you to have the facts.

Otherwise, I enjoy your magazine a great deal and wonder what about it. Keep up the excellent coverage of radio-TV affairs.

Cal Smith, Sta. Mgr.
KROC Rochester, Minn.

 Replies to Mr. Forsling

EDITOR:

Referring to Don Forsling’s letter [OPEN Mike, Aug. 6] So the music and news boys are on the way out! Evidently, Mr. Forsling is still waiting for the goose to lay the golden egg and if he waits long enough, and lives long enough—perhaps he’ll find out how “wait breaks the agen.”

Perhaps he has never heard of WIND’s WNEW’s, WWDC’s, WKDA’s and the other “hot” music and news operations and the story they have to tell versus network operations.

Wake up Mr. Forsling! This is 1957—not 1927.

Harvey L. Glassco, V.P. & Gen. Mgr.
WKDA Nashville, Tenn.

EDITOR:

Mr. Forsling’s letter in B&T Aug. 6 points up a fallacy that has plagued station managers one way or another since the post-war expansion began. Teenagers, and others of similar mentality, provide the biggest response to any popular music programming and inexperienced station personnel feel that such group should be catered to almost exclusively. Then the more they’re catered to, the bigger the response, and the vicious circle results in the degeneration of the station’s music to the lowest common denominator. . . .

Many timebuyers have a practiced and superior ear which goes with their soft-voiced statement that “ratings aren’t everything.” But when a buyer knows that a rep of the common denominator station will go over his head to the account executive and client to protest an adverse decision (with top ratings it would be a sorry rep who wouldn’t) and he has nothing but his own intangible judgement with which to defend his decision against the concrete story of ratings; then the first law of life, self-preservation, takes precedence over pride in a job well done. . . .

Perhaps it would actually be in the best interest of those who broadcast in the public interest, convenience, etc., for the FCC to promulgate some more definite policy regarding program balance. In the meantime, perhaps it would be well to formulate a music formula of our own and go prospecting for a rundown, low-priced independent in a market which appears ready to have its lowest common denominator exploited with low music and high ratings.

WBSC Bennettsville, S. C.

OPEN MIKE

Thrilled

EDITOR:

I do want you to know how thrilled I was about the article you did on me in B&T [ON ALL ACCOUNTS, Aug. 6]. I received more comments about it than I would have believed humanity possible.

Norman Baer, Dir., Radio & TV
Lewin, Williams & Saylor, New York

Pen Pals Wanted

EDITOR:

This is to express my appreciation of your fine magazine. Even here in “Down Under” Australia, those of us fortunate enough to obtain copies of B&T look forward to them.

Our system differs slightly from the setup in the U. S. A., as we of commercial radio have the competition of the national stations, which are government run, and minus commercials. To be able to obtain fresh ideas and angles on the game from America is of course a truly great advantage . . .

If any of your readers would care to correspond with a young Sydney city announcer on Australia Radio/Tv, I would be pleased . . .

Max C. Ambrose
2SM Sydney, Australia
Box 4092 G. P. O.

BROADCASTERS probably will find the authors' discussion of the effects of mass media on the electorate the most interesting part of this interpretation of the 1952 presidential election, although the whole treatise on the pressures exerted on the voters by the political parties and other forces should be of interest to anyone with an interest in our nation's political organization and electoral machinery. One word of warning: the authors' fondness for the trade jargon of practicing sociologists makes the going unduly hard for the lay reader.

PROFESSOR of business administration at Syracuse U. and consultant in consumer relations, Dr. Hepner has reorganized and rewritten his advertising textbook to make it a companion to his Modern Marketing. The emphasis is still on printed media, however; television and radio are given a joint chapter in the media section; otherwise, there are six references to tv in the volume's index and one to radio. The chapter on color advertising fails even to mention tv; the section on the advertisement (and even the chapter on words and headlines) concentrates on advertising in print, with nothing on how to prepare advertising for use on the air.

THIS BOOK, the author says in his preface, "deals with the process by which the original signals (of speech, music, code, etc.) are changed to radio frequencies. More specifically, the text treats the modulation process wherein the amplitude of the carrier wave is varied as a function of the instantaneous value of another wave called the modulating wave." The basic principles of amplitude modulation and the more important methods used to accomplish it are explained in an essentially non-mathematical manner.

**Tv Boosts Book's Sales**

IF Johnny can't read, don't blame tv. According to Random House, publishers of the $1 edition of The Adventures of Robin Hood, sales have skyrocketed ever since the legendary hero of Sherwood Forest, Maid Marian in hand, swung from the trees into living rooms throughout the country, courtesy Wildroot Co. and Johnson & Johnson on CBS-TV (through BBDO and Young & Rubicam). In fact, says Random House, Robin Hood has even outsold RH's best juvenile seller, Black Beauty. Statistically, Robin Hood sold 48,471 copies in 1954, and following Robin Hood's debut on tv last year, sales jumped to 70,227. In the first five months of 1956, Random House said, sales "more than doubled" those for the comparable period of 1955, adding that this time of the year is "usually" the slowest in juvenile book sales.

WFBR BALTIMORE'S BEST BUY
REPRESENTED BY JOHN BLAIR AND COMPANY
WHEN and if Lt. Col. Melvin Edward Williamson decides to return to civilian life, he has 35 years experience in communications—with uncounted outstanding personal accomplishments—to recommend him for a top industry job. Those 35 years include service as an actor, director, producer, writer, announcer, station manager, publicity director and teacher.

Col. Williamson was called back to active duty for "90 days" in May 1951 and has seen those 90 days stretch into over five years. Since February 1954, he has been head of the radio-television branch, Office of Armed Forces Information & Education, Dept. of Defense. His office formulates the policies and programs for the far-flung Armed Forces Radio & Television Service, consisting of 157 radio and 19 TV stations in all parts of the world.

Born in Memphis, Tenn., March 8, 1900, young Mel was graduated from Conray (Tex.) High School. His first military service came soon afterward when he joined the Air Service of the U.S. Army and was a member of the 1919 March Field (California) cadet class, receiving his discharge at Kelley Field, Tex.

Staying in Texas, Mr. Williamson in 1922 became manager of the U of Texas' KUT Austin and at the same time attended the university, majoring in journalism. His final year at Austin, 1927, he added reporting duties for the Austin American Statesman.

For the next two years, Mr. Williamson free-lanced in Los Angeles and Hollywood, but returned to Texas in 1929 as program manager-publicity director of KABC San Antonio, where he remained until 1931. In the following years, through 1936, he served as manager of KWGW Brownsville, Tex., program director of KFUL Galveston, Tex., and in various capacities with KJH Los Angeles, KMPC Beverly Hills, Calif., and KKMV Hollywood.

His next move was into the advertising agency field, when he joined Hixon-O'Donnell on the West Coast in 1936 as radio director. In 1940, he switched to Russel M. Seeds Co. as producer-director.

The Army Air Corps required his talents again in 1942 and when released from active duty in 1944 as a major he was in the War Dept. Bureau of Public Relations, radio branch.

Following his second service stint, Mr. Williamson helped establish west coast offices for Lennen & Mitchell and, the following year, for Geyer, Cornell & Newell. In 1946, he became radio director of Raymond R. Morgan Co. The year 1950 found him with Mike Stoney TV Productions, Hollywood, where he was executive producer of Ginny Simms' program on KTTV (TV) Los Angeles and the network Pantomime Quiz.

Early in his career, Mr. Williamson found time to act in and help direct several motion pictures, the best known of which was "Wings," starring Richard Arlen, Gary Cooper and Clara Bow. Network radio and television programs he has produced, directed or otherwise worked on, include The Nebbs, Pickard Family, You're In the Act, Andrews Sisters, David Rose and Curt Madsen, among others. He has also gained a reputation as a booster of sagging ratings on the Red Skelton Show (1941-42) and Calling All Cars (now called Dragnet).

In 1949, Col. Williamson compiled "Horizons Unlimited," a study and recommendations of the possible uses of television by the Armed Forces. Gen. Hoyt Vandenberg saw a copy and gave an order to "get the man who wrote this" in 1951 to bring it up to date.

From talking to Col. Williamson, it is easy to determine that the AFRTS is providing a needed service for our Armed Forces in isolated spots. It is also easy to understand why he had remained on active duty instead of accepting any of the much higher paying jobs that could be his in civilian life. "Maybe I'm a screwball, but I feel that anything that can bring as much satisfaction as tv can to personnel and their families in isolated bases is worth a small sacrifice by me to help promote and increase this program," he said.

Col. Williamson's stand is well substantiated by those same personnel in the isolated areas he mentioned. Of 12 recent reenlistments at Loring Air Force Base, Maine (which is snowed-in many months of the year), seven attributed their reenlistment to the base's AFRTS tv station. At one of them put it: "My family would be lost without tv. That's an understatement; I might lose my family."

Despite almost unanimous opinion of industry representatives that a filmed network of the type Col. Williamson had planned would not work, he has proven in the last 18 months that it could and does work.

Col. Williamson's biggest problem is keeping the tv stations supplied with filmed programming. A bottleneck, which hasn't asserted itself as yet, is what could be done to keep a station on the air if a plane goes down carrying a load of film. "That is the subject of my favorite nightmare," he says.

In one of his early forays to the West Coast, Mr. Williamson married Lorna Ladd, then with the California Broadcaster (an early industry newspaper). They have a married daughter and make their home in Arlington, Va. He is a member of Sigma Delta Chi, University Club of Los Angeles, Army-Navy Club and the Institute of the Aeronautical Sciences. The colonel's hobbies are color photography and fencing, as a participant and instructor.

WHAT'S THE GIMMICK?
It's the little things that make a big difference... the extra stuff that sales are made of. In other words, modern merchandising.

What you see here is just a sample of merchandising and promotion extras that back up each and every CBS Television Film Sales syndicated property...the gimmicks and gadgets, promotion and advertising material that help a sponsor translate big audiences into big sales: records, comic books, toys, games, novelties, jewelry, self-liquidating premiums. And audience promotion too...specially-designed kits containing slides, trailers, telops, ad mats, displays, glossies, announcements and star stories. Everything a sponsor needs to get his show off to a fast start and keep sales rolling.

Little things. But they're sales-clinchers when coupled with any of CBS Television Film Sales' top-rated syndicated films—fastest-moving films in television!

**CBS TELEVISION FILM SALES, INC.**

NARTB Booklet Describes Get-Out-the-Vote Campaign

RESULTS of a test campaign to stimulate vote registration are described in a pamphlet, “Let’s Vote, Neighbor” published by NARTB. The test was part of the 1956 project being conducted by American Heritage Campaign. Broadcasters in Davenport, Iowa, and NARTB joined in a week-long test credited with bringing in 2,267 registrations, about 2,000 more than could normally be expected.

Every radio and tv station in the nation is receiving the pamphlet, according to Joseph M. Strick, NARTB publicity-information director. It contains program and promotion ideas for broadcast use as developed in the 1952 presidential campaign when radio and tv were given much of the credit for the record vote. Cooperating in the 1956 move are 133 organizations that have pledged support.

WSTC’s Studios Rate With Local Politicians

WSTC’s Studios, Stamford, Conn., has offered the Republican Town Committee the use of its air-conditioned studios as a meeting place. Members were having difficulty finding a room that wasn’t hot and stuffy. Just to show that no political favor is intended, the Town Democratic Committee also was included in the offer.

WCBS-TV Donates $1 Million in Time

WCBS-TV New York estimates that in the three-month period of April-May-June, its public service programming had a net worth of $1,145,315—the first time WCBS-TV public service programming worth had surpassed $1 million in a three-month period. According to Clarence Worden, WCBS-TV public affairs director, the station aired 1,519 public service spot announcements in that period, worth $565,084. Additionally, the station broadcast 324 public service programs (covering 86 hours, 45 minutes of air time) at a rate-card “cost” of $495,231. Cost figures, Mr. Worden said, covered both time and production.

WBFR Locates Vacationer

CRUISING the Chesapeake, W. O. Hallmark, Chesapeake & Potomac Telephone official, was cut off from the world when his father died. Unable to reach the ship, since it carried no telephone facilities and the radio was turned off, WBFR Baltimore aired announcements. Three and a half hours and five newscasts later, when the vacationer put into the Baltimore Yacht Club to pick up provisions, he heard the news. WBFR has been commended by the family.

He Makes the Trip

WACO Waco, Tex., and one of its sponsors, 7-11 Corp. (food stores), brought some happiness into the misfortune of an 11-year-old Waco boy. Willard Clifton was struck in the eye with a small piece of metal while working on his soap box racer to enter in the local trials for the national Soap Box Derby at Akron, Ohio.

The injury cost Willard the loss of sight in that eye and his chances of winning the trip to Akron. Hearing of his plight, WACO and 7-11, which sponsored the July 4 qualification races on that station, awarded Willard and his father an all-expenses paid trip to the Aug. 12 Soap Box Derby.
Ray V. Hamilton shares the hyphen with James W. Blackburn in the partnership, formed ten years ago, that has produced the nation's preeminent broadcasting, telecasting and newspaper brokerage house.

Ray Hamilton spent seven years with the old St. Louis Star-Times in his post-college days and, pursuant to that training, created and became general manager of radio operations of KXOK, St. Louis. He has been, betimes, an account executive for the National Broadcasting Company-Blue Network, during World War II was Western Regional Director for the U. S. Department of State, and following the war he was Executive Vice President of Associated Broadcasters, Inc., San Francisco, operating KSFO, KWID and KWIX.

Ray, like his colleagues in the Blackburn-Hamilton Company, is experienced and informed in negotiating, financing and appraising broadcasting properties. Reach him through his Chicago office in the Tribune Tower. His territory: the middle states, from the Great Lakes to the Gulf.

No campaign promises!
Whether the "campaign" be for a public
office—for the hand of a fair lady or a station's national
ales representation contract, promises
re apt to be pretty general and pretty loosely made.
Here is apt to be a wide gap between the
omissions made and the performance rendered.

Not so with Hollingbery. We learned long ago that
omissions are paid on performance and we must have those
omissions to exist. For over twenty years Hollingbery has
lived" on performance. Performance that means dollars to every
Hollingbery station—profit dollars to every station we represent.

Hollingbery stations are not led on by empty
campaign promises".

Blind businesswoman operates switchboard

Bessie Sawyer of Orange, California, blind since birth, cheerfully operates her Telephone Answering Service business with the aid of this Braille switchboard. The switchboard can serve as many as 70 subscribers and was made expressly for her by Western Electric at the request of her local Bell telephone company.

How does it work? When a call comes in, a buzzer sounds — and a small plug pops up on the panel at her left. With a sweep of her hand she locates it, “reads” the Braille symbol just above it to identify the number, then completes the connection by matching this number with the proper symbol on the switchboard. Other means for aiding blind switchboard attendants are also under development.

This special switchboard for Miss Sawyer is one of a number we’ve made and, of course, represents only a tiny fraction of the telephone equipment we make as the manufacturing and supply unit of the Bell System.

But it serves to illustrate the way we—as part of the Bell System—will undertake to provide your Bell telephone company with anything it may need to serve its customers — whether what’s required is one-of-a-kind or one-million-of-a-kind.
Now! Remote Switching of COLOR OR MONOCHROME...

Module design permits “building block” expansion. Each module handles ten inputs—two outputs.

CineScanner—Superior for Monochrome . . . and Color!

- Designed for studio/master control applications—low voltage D.C. relays eliminate costly video cabling.
- Effects substantial savings on video processing equipment costs—as little as one-tenth the equipment required in some cases.
- Control panel and switching chassis designed to fit various station layouts—provides utmost flexibility in station design.
- Switching chassis designed for standard rack installation—minimum rack space required.
- Module design (10 inputs x 2 outputs) permits ease of expansion.
- Permits multiple control points.
- Built-in tally lights and order wire circuits—auxiliary contacts for program audio.

PHILCO CORPORATION
HERE is a compact, versatile TV switch that can be interconnected anywhere in your TV broadcast system. It will handle "simultaneous" (RGB), encoded color and monochrome—composite or non-composite...by remote control! This feature alone means big savings in encoding and distribution equipment.

But, this is only one of many important advantages. For example, by use of special color-coded patch plugs, video control of film, slide or live source can be transferred from studio to master control or to transmitter room in a matter of seconds. Studio and master control switching functions can be accomplished by a single switching chassis at the console or in a relay rack. In addition, the system will control wipes, splits, fades, dissolves and other special effects.

Get full technical data on this newest addition to Philco CineScanner Color Equipment. Write Philco, Dept. BT today.
PULSE Says WPTF has

Double the Listeners of its Nearest Competitor

Here's the 1956 Area Pulse covering 32 North Carolina counties. WPTF leads during every quarter-hour... with well over twice the audience of a regional network and six to seven times the average audience of any other station.

WPTF’s average share of audience inched up from an even 36% in 1955 to 36.7% in 1956. This, coupled with an average increase of 10% in homes using radio, means that WPTF is delivering more listeners now than during any of the past three years the Pulse has been made.

PEPSI-COLA HITS WITH SPOT

Novel radio campaign produces fabulous sales gains for Pepsi in two test cities, will be expanded nationwide.

Saturation commercials are built from recorded voices of listeners who win prizes if they can identify own voices on the air. Listener participation exceeds all expectations.

Says executive of Kenyon & Eckhardt, Pepsi agency: "As a radio success story, I've never seen anything that has come close to it."

PEPSI-COLA officials are convinced there's more bounce to the ounce in radio. About 833 times more than in newspapers, to be statistical.

To support this conviction they have the results of two, separate, month-long tests of what they and their agency—Kenyon & Eckhardt, New York—call "a totally new concept of the use of radio spot advertising." Now they're getting ready to go all out with it, nationwide.

The new technique, conceived by J. Clarke Mattimore, one of K&E's account executives on Pepsi, has set two cities—San Diego, Calif., and Muncie, Ind.—echoing to two words which, when the full-scale campaign is developed and executed, may be expected to ring across the country like the air-born "Pepsi-Cola Hits the Spot" jingle did a few years ago.

The two words: "Pepsi, Please!"

The test campaigns, conducted under Mr. Mattimore's supervision and completed in Muncie last week, involve the transcribing of people's voices saying "Pepsi, please"; playing the recordings on radio spots, and offering prizes to those people who recognize their own voices on the air. Ten different voices are heard on each spot, and the spots are scheduled in saturation fashion—there were 36 a day in San Diego, 23 a day in Muncie.

That means "Pepsi, please" was heard 360 times a day on radio in San Diego; 270 times a day in Muncie. It would have been heard more often in Muncie, Mr. Mattimore explains, except that the station had no more time available.

The stations used in the test were KBCQ San Diego and WLBC Muncie. K&E also used newspaper ads—a full page and seven 616-line ads, although in San Diego the timing of the call-period put the paper at a disadvantage, and during the test period conducted interviews to determine where prospective buyers had first heard of "Pepsi, please." From the replies they calculated the cost-per-inquiry for each medium and came up with this result:

NEWSPAPERS: $3.33.
RADIO: $0.04 (four cents, that is).

"As a radio success story," says Mr. Mattimore, "I've never seen anything that's come close to it."

Pepsi-Cola is "extremely happy." Richard H. Burgess, vice president in charge of domestic sales, says results "have far exceeded the most optimistic expectations."

And Radio Advertising Bureau is so delighted that, even before the test was completed, it agreed to finance a research study, which was being conducted in Muncie last week.

What are the sales results?

Pepsi-Cola, fighting hard to overtake Coca-Cola in one of the most competitive fields imaginable, is playing it "easy" as to exact results in terms of either dollars or cases sold.

Mr. Mattimore would say this, however: Pepsi's fountain business in Muncie during the first week of the test there—the week of July 15—was 300% over Pepsi's fountain sales in Muncie for the entire month of July 1955.

And July of this year, he added, was not a good month for beverage sales, because of poor weather. This means that sales in one week of a "Poor" month ran 300% ahead of those for an entire "good" month—thanks almost entirely to radio.

Regarding bottle sales, he would say only that they were "heavily increased."

Coincidentally, Pepsi introduced its new 6½-ounce "single drink size" bottle as part of these test campaigns. Although the success of the new size can't be accurately appraised for another six months—"after the markets have had a chance to calm down"—Mr. Mattimore said it "went over in a big way" during the tests.

What It Costs Per City

With the experience of San Diego and Muncie behind them, Pepsi-Cola representatives estimate that similar campaigns can be conducted for around $5,000 per city of 50,000 population per month, including time, space, prizes, other promotion—everything.

The idea behind the campaign, aside from selling Pepsi-Cola, is to "brainwash" the vast public who, in the opinion of Pepsi and K&E, automatically and without thinking say "Give me a Coke" whenever they want a cola beverage—often, even when what they actually intended to order was a Pepsi.

To rid the public of this mass Coke complex, Mr. Mattimore came up with the "Pepsi, please" idea. He wants people to say "Pepsi, please" as automatically as they now say "Coke." The on-the-air playback of the public's recordings of the two words is calculated to get them both circulated and instilled.

The recordings were made both in person—in supermarkets and fountain stores and on the streets, for example—and by telephone.

In San Diego, where the test ran from June 11 to July 11, the telephone recordings were made by manual operation of the recorders and were limited to certain periods of the day.

In Muncie, where the campaign extended from July 15 to Aug. 15 (last Wednesday), the telephone calls were transcribed entirely automatically by a battery of five "electronic secretaries" which operated around the clock.

People were told to call the specified telephone number, give their names and addresses, wait at least two seconds (so this information could be cut out of the tape before broadcast), and then say the two magic words.

The extent to which the campaign caught on is indicated by Mr. Mattimore's estimate that in Muncie more than 30,000 calls were recorded during the month. Muncie's population is 60,000.

The "Pepsi, please" recordings were then put together in strings of 10 to make one spot announcement which led off with the announcer telling listeners that Pepsi-Cola was the sponsor and if they identified their own voices they would receive a prize.

"How else are you going to get 11 product mentions in a minute," Mr. Mattimore wants to know.

The public's telephone response was astronomical, too. Mr. Mattimore estimates that in Muncie there were up to 1,239 calls a day from people who thought they had heard their own voices. When he had a check made to determine how many other people were getting busy signals at the same time, he found a total of over 900 in four days.

Prizes were Pepsi-Cola coolers, RCA port...
IN SAN DIEGO Don Howard, announcer at KCBQ, station which carried the Pepsi-Cola campaign, records voice of young participant saying “Pepsi, please.” Models, announcer and recording truck were at downtown Plaza Square.

IN MUNCIE drug store Jack Repco (l), Pepsi regional manager of national accounts and syrup sales records young participant with assistance of Norma Wasser, also regional manager.

AGENCY man who conceived Pepsi spot trick is J. Clarke Mattimore, of K&E.

able radios, and RCA clock radios, but relatively few had to be given away. People just don’t recognize their own voices. Out of 230 voices broadcast each day in Muncie, and out of the average of 1,239 people calling daily to say they’d heard their own, there were only about three winners a day at the outset.

To boost the number of winners, they started saying the caller was correct if his voice had, in fact, been broadcast at any time during that day. That raised the average to 10-12 a day.

Then, as the campaign got rolling, people started using gimmicks to help them identify their own voices on the air—stuttering P-P-P-P Pepsi, p-p-p-please, for example, or speaking in Spanish or otherwise trying to get a distinctive note into the recording. Even then, the number of winners never got beyond 35 a day.

But people were having fun—in fact, says Mr. Mattimore, it was found in San Diego that people were not primarily interested in the prizes at all. So in Muncie the promotion copy was changed; instead of emphasizing “thousands of prizes,” it asked: “Do you want to hear yourself on radio, and win a prize?”

It was a “fun campaign” throughout. Announcers were not given prepared copy to read; they were told to do whatever they wanted to do with their minutes in urging people to participate, so long as they did not kid the product. “They kept it alive,” in the words of Mr. Mattimore. So did the people who stuttered and invented other gimmicks to help them identify themselves later—these deviations put variety into the spots.

The public’s reaction to this kind of programming, aside from that evidenced by the number of calls to the stations, was indicated by Larry Buskett, who was general manager of KCBQ when the test was conducted but has since moved to K&AM Las Vegas. He wrote Mr. Mattimore a few days ago that KCBQ’s ratings rose materially during the campaign period.

The campaign had a lot of side effects, too. People, especially young people, started carrying portables with them to “monitor” the spots so they could alert friends whose voices they thought they identified. One woman—whose children apparently did not have portables—told Mr. Mattimore that the campaign was the best baby sitter she’d found: that for the first time in months she could leave the house and still know exactly where her children were. Another wanted to thank Pepsi-Cola Co. for teaching her child the word “please.” And in a development which might inspire the erroneous impression that the campaign was for the birds, a movement got under way among the younger set to teach parakeets to chirp—you guessed it—“Pepsi, please.”

Page 32 • August 20, 1956
NATIONAL TV BILLINGS: STILL HEADING UPWARD

New TvB report for second quarter of 1956 puts national spot purchases at more than $105 million, number of spot advertisers at all time high of nearly 3,000.

Network billings in same quarter also zoomed upward to $117,832,532.

National advertisers purchased $440,303,312 worth of tv spot and network time during the first six months of 1956.

Spot time purchases for the half-year totaled $205,793,000 or roughly 47% of the total, according to estimates prepared by N. C. Rorabaugh Co. for Television Bureau of Advertising and made public by TvB last Friday.

Time sales of the tv networks for January-June 1956 amounted to $234,510,312, according to data of advertising expenditures for network time compiled by Publishers Information Bureau. Both the Rorabaugh and PIB figures are gross, that is, calculated at the one-time rate before discounts of any kind.

In releasing the tv spot figures, TvB noted that the second quarter of this year, when the spot gross totaled $105,584,000, topped the first quarter of 1956 by more than $5 million and also was ahead of the fourth quarter of 1955. The tv networks also in the April-June period ran ahead of their January-March time sales, indicating that tv is still on the rise as a national advertising medium and that the upward trend is showing enough vigor to overcome the traditional advertising dip that normally begins with the coming of spring, following the winter peak.

Not only has the dollar volume for spot television increased, but the number of advertisers using the medium also showed a rise from the first to the second quarter of this year, as well as being the greatest number of advertisers to use spot tv in any second quarter from 1949 to date. The following table, compiled by the Rorabaugh organization, reflects the growth of tv as an advertising medium:

<table>
<thead>
<tr>
<th>2nd Quarter</th>
<th>Number of Advertisers</th>
</tr>
</thead>

</tbody>
</table>

A TvB analysis of the distribution of the spot tv revenue by day parts shows what might have been expected: that more than half the tv station revenue comes from the evening hours, about a third from the daytime and less than 10% from the late night periods:

- **Day**: $36,714,000 (34.8%)
- **Night**: $58,589,000 (55.5%)
- **Late night**: $10,281,000 (9.7%)

- **Total**: $105,584,000 (100.0%)

Announcements represented the major sources of spot advertising revenue for television, nearly half the total and more than twice that derived from program sales, a second TvB analysis shows:

- **Announcements**: $47,004,000 (44.5%)
- **ID's**: $12,529,000 (11.9%)
- **Participations**: $24,250,000 (23.0%)
- **Shows**: $21,801,000 (20.6%)

- **Total**: $105,584,000 (100.0%)

Of the 2,978 advertisers using spot tv during the second quarter, 1956, there were 1,236 spending $5,000 or more each for this medium during this three-month period, and 1,742 whose expenditures were under $5,000. These figures come from commercial time data reported by 300 tv stations in 203 markets, with expenditures computed at published gross one-time rates.

Commenting on the spot report, Oliver Trez, president of TvB, said:

"It is interesting to note that Procter & Gamble, consistently the largest user of spot television, and, from the standpoint of its expenditures most experienced in its use, has substantially increased its expenditures in the second quarter versus the preceding ones. We note, also, that Lever Brothers' spot expenditures in the second quarter are almost triple those of the first quarter of 1956. Lever Brothers has jumped from the 38th spot television advertiser in the first quarter to ninth in the second quarter."

"A drag on the total increase in spot television expenditures is found in the automotive field. As is true in newspapers, spot television expenditures of automotive companies are down. All of the automotive companies are down in the rankings.

"Overall, the activity and volume of spot television in the second quarter, 1956, mark the growing awareness and interest of most advertisers in its unique values."

**TOP AGENCIES IN SPOT TV**

TED BATES & Co. again was No. 1 agency in the handling of television spot billings in the second quarter of 1956. McCann-Erickson moved from third to second place while Young & Rubicam stepped up to third position and Leo Burnett Co., in second place for both the fourth quarter of 1955 and the first quarter of 1956, dropped down to No. 4.

The standings were reported last week by Television Bureau of Advertising in conjunction with its release of the top 200 spot tv advertisers for the second quarter of 1956.

Young & Rubicam's jump to No. 3 in spot tv billings was from No. 7 in the last quarter of 1955 and No. 6 in the first quarter of this year. Its rise was attributed to increased spot expenditures on the part of Procter & Gamble's Spic & Span and General Foods’ Jello.

BBDO, seventh for the first quarter of this year, moves into sixth spot, behind Benton & Bowles which remains in fifth. J. Walter Thompson Co., which dropped out of the top 10 list in the first quarter, is now back in ninth, same place it held in the last quarter of 1955.

The top 10 for the second quarter of 1956, as compiled by TvB: (1) Ted Bates & Co.; (2) McCann-Erickson; (3) Young & Rubicam; (4) Leo Burnett Co.; (5) Benton & Bowles; (6) BBDO (7) Dancer-Fitzgerald-Sample; (8) Compton Adv.; (9) J. Walter Thompson Co.; (10) William Esty Co.

The 1956-57 Telecasting Yearbook • Marketbook issue is being mailed this week. Like its predecessors, this 412-page volume, compiled by a staff of 60, contains authoritative data on TV networks throughout the world, including information on U.S. stations equipped for color TV, statistics on population with retail sales and market data, plus other economic features on all U.S. TV areas. Comprehensive listing are advertising agencies and their clients using TV advertising. Included too are package program companies, TV film producers and distributors, TV equipment manufacturers and distributors, TV networks and other vital information. A limited supply of extra copies of this 412-page buyer's guide is available at $3.00 each.

A QUARTER will go a long way these days on WHO Radio!

Take 12 noon to 1 p.m. as an example . . .

WHEN you consider that a shoe shine plus tip now costs you a quarter almost anywhere, twenty-five cents invested in radio is a tremendous value—especially on WHO Radio!

LET'S LOOK AT THE RECORD . . .

On WHO Radio, a 1-minute spot between 12 noon and 1 p.m. will deliver a minimum of 100,058 actual listening homes, in Iowa alone!

That's at least 405 homes for a quarter, or 1000 homes for $.62—ALL LISTENING TO WHO!

That's the measured minimum. Over and above this proven audience, 50,000-watt WHO delivers thousands of additional listeners via Iowa's half million extra home sets and half million car radios—plus a vast bonus audience in "Iowa Plus"!

Your PGW Colonel will be glad to tell you the whole story on WHO Radio.

(Computations based on projecting Nielsen figures and 1955 Iowa Radio Audience Survey data against our 26-time rate.)

WHO for Iowa PLUS!

Des Moines . . . 50,000 Watts

Col. B. J. Palmer, President
P. A. Loyet, Resident Manager

Peters, Griffin, Woodward, Inc., Exclusive National Representatives
Our ratings are higher in saturated San Diego!

Channel 8 has the top 33* programs in San Diego, the Nation's 19th market**

23 Network,
6 Local,
4 National Spot

There are more people in San Diego watching Channel 8 more than ever before.

HOW GREAT IS GRADY

GREAT ENOUGH to win—hands down—each of the 83 quarter hours he's on the air each week.

GREAT ENOUGH to be named Charlotte's most popular radio personality with a 150% lead over the next best-liked.

SO GREAT that a completely unknown product secured eleven area distributors by telling them the product would be advertised on “Grady Cole Time.”

TODAY, as for the past 27 years, Grady Cole has the key to 2½ million Carolina hearts and pocketbooks. To unlock both by the millions, call WBT or CBS Radio Spot Sales, for Grady availabilities.

WBT Radio
Charlotte, N.C.—50,000 Watt Colossus of the Carolinas
Jefferson Standard Broadcasting Company
Only on NBC Radio will the lady find such variety of entertainment every weekday afternoon. And only on NBC Radio can advertisers buy one-minute participations in afternoon programs — even dramatic shows — for less than $1,000 per minute.

**Drama** . . . beginning at 3:00 p.m. (EDT)
She'll hear FIVE STAR MATINEE, complete, live half-hour plays based on stories by her favorite authors of women's magazine fiction . . . with Broadway star David Wayne as host-narrator. Next — three favorite day-dramas: HILTOP HOUSE, PEPPER YOUNG'S FAMILY, and WOMAN IN MY HOUSE. Then MARY MARGARET McBRIDE in her new quarter-hour chats.

**Music** . . . at 4:30 p.m. (EDT)
An hour of melody. FRED WARING'S SONGFEST presents Fred as host, with choral groups and top name stars direct from the Waring Workshop. Then to CAFE LOUNGE at the Hotel Statler in New York for the live rhythms of one of America's leading cocktail combos.

**Information** . . . at 5:30 p.m. (EDT)
Rounding out her afternoon, a stream of NEW IDEAS, reports from the BUSINESS WORLD, results on SPORT-O-RAMA, and Dr. George Gallup's OBSERVATIONS on public opinion trends.

Here's variety to satisfy the housewife's afternoon moods . . . just as NBC BANDSTAND brightens her morning hours. It's an opportunity to spread your sales messages throughout the day, for under $1,000 per commercial minute.

Let your NBC Radio Network representative show you all the advantages.

SPOT BUYING CATEGORIES

SPOT TV advertising expenditures by categories for the second quarter of 1956 show foods and grocery products to be the most extensive users of spot television, followed by cosmetics, alcoholic beverages, tobacco products, drugs, confections and soft drinks, household laundry products, dental products, gasoline and motor oils, and automotive (to round out the top ten).

Nine of that list were also in the spot tv top ten for the last quarter of last year. Dental products showed a 60% gain in spot tv advertising, which raised the rank order of this class from 11th in the final 1955 quarter to eighth in the second quarter of 1956. Consumer services, which dropped from 10th to 11th place, had practically the same spot billings in each quarter: $3,146,000 in October-December, 1955; $3,126,000 in April-June, 1956.

Biggest dollar gain was shown by cosmetics, whose spot tv billings rose from $7,864,000 in the last quarter of last year to $9,541,000 in the second quarter of this year, up almost one-fourth. Biggest drop was in drug advertising, which in April-June, 1956 used $6,646,000 worth of spot tv time, down more than 25% from the $8,909,000 spent in the last three months of 1955. Automotive advertising was also down appreciably, from $5,321,000 to $3,556,000, a drop of about one-third.

Less important dollarwise but somewhat harder to understand are the decreases of more than 10% in clothing advertising and about 5% in advertising of ale, beer and wine, two kinds of products which might have been expected to step up their advertising with the approach of warm weather.

For a more detailed comparison of spot tv advertising in late spring and early summer of this year and in late fall and early winter of last year, the table below, covering spot tv expenditures by categories for April-June 1956, may be matched with a similar table for October-December 1955 [B&T, April 16]. Comparable first-quarter figures, January-March 1956, are also available [B&T, May 14]. These lists were all released by TVb from materials collected and computed by N. C. Rorabaugh Co.

### Agriculture
- Feeds, Meals 327,000
- Miscellaneous 75,000

### Ale, Beer & Wine
- Ale, Beer 9,069,000

"KMTV Sells for our clients in Rich Multi-State Market Area,"

states George M. McCoy, Manager of Broadcast Media for N. W. Ayer.

"In advertising for highly competitive brands, it's sales results that count. That's why we select KMTV in Omaha. We've placed advertising for many of our clients on KMTV for many years because it's an effective media to reach and sell customers in Omaha and surrounding area."

KMTV's low channel 3 and maximum power, combined with flat terrain, cover a market area in five states. And this huge area is sold, presold, on KMTV's popular local and network programs ... in color and black and white!

KMTV is among the top spot 20! Of 267 stations participating in a N. C. Rorabaugh Co. survey in 181 markets in 48 states and Hawaii for the first quarter of 1956, KMTV was among the top 20 stations in the number of national spot accounts according to a list published in the July, 1956, Television Age.

There's the proof! Follow the lead of these successful local and national advertisers—KMTV is the place to be! Contact KMTV direct or see Petry today.

BOTH REGION AND SEASON HAVE EFFECT ON U. S. TELEVISION VIEWING PATTERNS

ARB director reports that time spent watching is most stable in California, with very little drop-off in summer months, than other parts of the country because of less-pronounced seasonal changes in the weather. Central and Eastern TV habits are relatively the same. This analysis is a feature of the 1956-57 TELECASTING YEARBOOK & MARKETBOOK, now in the mails to subscribers (story, page 35).

By James

YOUR Californian, blessed with year-round "outdoor" weather, watches TV nearly as faithfully during evenings in August as in January. Easterners, compelled to cram their outside activity into a few months, do considerably more evening viewing in winter than in summer.

This fact came to light when we compiled our Monday-through-Friday ARB sets-in-use reports for the Eastern, Central and Pacific time zones for 1955. The Pacific zone figures are, of course, heavily weighted toward returns from Los Angeles, where the concentration of sets is greatest.

In the Far West, for example, an average of 69% of the sets are in use at 9 p.m. in January, 59% in August—a drop of only 10%. In the East, 9 p.m. viewing approximates 70% in January, but dips to 49% in August—twice as much slippage. Percentages for the Central zone, as could be expected, are similar to those for the East.

Winter and summer graph lines for all three time sectors stay pretty close together throughout the morning and afternoon periods. Generally, viewing rises from less than 10% at 7 in the morning to about 15% by 11 a.m., slumps somewhat after the lunch hour, then rises rapidly at 4:30 p.m., when the popular children's programs come on. The percentage climbs sharply into the early evening hours during winter, slightly more gradually in summer. Seven-to-10 p.m. remains the peak period in every area of the country, winter or summer. By 11:30 p.m., all but approximately 15% have clicked off their sets and retired.

Westerners, apparently, have done more summer evening watching than their Eastern relations since the inception of television. ARB surveys covering 1951 and 1953 indicate about the same differential as those for 1955. Five years ago, they reveal, 63 out of 100 western sets were in use at 8 p.m. in January, 50 out of 100 in August. But in the East at that hour, 74 out of 100 were in use in January vs. only 37 in August.

Sponsors might well ponder this sign of video's year-round strength in the Pacific states. Possibly too many have accepted the supposition that evening watching is off to a like extent in summer in every locality.

In another survey, we compared annual sets-in-use averages for each year back through 1951. They disclose that the pattern of 7 a.m.-to-midnight viewing has changed very little in the past half-decade. The greatest variation, naturally, has taken place in morning sets-in-use because of increased programming. In 1951, for instance, when few stations came on the air before noon, fewer than 4% of all sets were turned on at 12 o'clock. By the current year, that figure had risen to 23%. But beginning at 2 p.m., sets-in-use totals for 1951 are almost identical to those of each succeeding year clear through to the sign-off hour of 1 a.m.

In interesting contrast to this we have the rise shown in the sets-in-use figures for the first portion of 1956 over the same months of 1955. Average U. S. viewing this past spring (March, April, May) compared as follows with that of 1955's spring: 1.1% higher for the hours 8 a.m. to noon; 1.5% higher noon to 3 p.m.; 4.2% higher 3 to 7 p.m., and 1.3% higher 7 to 11 p.m.

The late-afternoon-early-evening period, it can be seen, has taken the most substantial jump. Since this time is occupied mainly with children's shows, this category seems to have attracted new "trade" most effectively.

A month-to-month averaging, by the way, shows that the two big breaks in TV watching across the country take place approximately on November 1 and May 1. In 1955, as illustrated, evening sets-in-use dropped 7.2% from April to May, but leaped 5.9% from October to November. The May decline this year was— an even 5%. Evening viewing throughout the six-month "off" period of last summer was an average 13% below that of the six-month "on" period that followed.

In looking over figures such as these, we are always amazed to note how basic a part of American life television has become. Short of the automobile no other single factor has so thoroughly injected its influence—and none other has done it so fast. Each year more people watch more television than ever before. From all indications this audience growth is slated to continue for a number of years to come.

Question-and-Answer Booklet Test for Sales, Advertising

THE QUESTION-AND-ANSWER method of revealing strengths and weaknesses, basis of thousands of semi-serious personality lists of questions published by newspapers and magazines by which their readers can discover their own capacities for succeeding in business, love, marriage, etc., has been applied to sales and advertising by The Wexton Co., New York advertising agency, in a 17-page "Total Marketing" questionnaire.

Said by Larry Schwartz, Wexton president, to be the basis of campaigns that have sold more than $50 million worth of merchandise and services, the "Total Marketing" form includes 120 questions whose answers are designed to help any manufacturer take an objective look at his own production, distribution, sales and advertising policies and procedures. Copies are available at $1 each from the agency at 11 E. 47 St., New York 17, N. Y.

Miller Brewing Co. Joins Sponsors of 'Code Three'

MILLER BREWING CO., through Mathisson & Assoc., both Milwaukee, last week became the fourth major U. S. brewer to sponsor ABC-TV film syndication Code Three. The purchase for fall showing was made for Milwaukee, La Crosse, Madison, Eau Claire, Wausau and Green Bay, all Wisconsin. These six markets bring Code 3's penetration to 80, 28 of which are brewer sponsored. Other brewers are Stroh Brewery Co. (through Zimmer, Keller & Calvert, both Detroit), Erie Brewing Co. (through the Yount Co., both Erie, Pa.), and Rheingold Brewing Co. (through Foote, Cone & Belding, both Los Angeles).

Single market sales for Code 3 this past month as reported by Sales Vice President Don L. Kearney also included Tucson, Salt Lake City, Dallas and Rochester, N. Y. In the latter market, Mr. Kearney reported, the show will be sponsored alternately by the General Cigar Co. (through Young & Rubicam, N. Y.) and Lewis General Tires Inc., Central New York distributor for General tires.

Pennzoil in Network Radio

PENNZOIL Co. of Calif., Los Angeles, buying its first network radio in 23 years, has signed for Bob Greene News, Monday-through-Friday, 4:55-5 p.m. PDT on 68 stations of the Don Lee, Arizona and Itermountain Networks, it was announced Thursday by Norman Boggs, Don Lee vice president in charge of sales, Hollywood. Contract, beginning Sept. 17, was placed by Pennzoil through Killingsworth Agency, Los Angeles.

Ford Motor Seeking Tv Program Format

THERE'LL be a sleek, new Ford (contract) in the future of one of the three major tv networks, that is if one of them is able to come up with a program format that would be advantageous to both the "hard sell" of all Ford Motor Co. products as well as the automaker's institutional prestige.

Ford spokesmen in New York last week refused to commit themselves further than to say "of course we're always looking for new ideas and new ways to promote Ford products." It was understood, however, that Ford has been contacting high level programing officials at CBS-TV, ABC-TV and NBC-TV. Ford's agencies—J. Walter Thompson, Kenyon & Eackhardt and Foote, Cone & Belding (recently appointed for Ford's newest, but as yet unspecified car)—were said to have stayed out of the discussions for the time being.

Though Ford has withdrawn from participation in next season's Producer Showcase on NBC-TV, retaining 50 tv spots for the Don Lee telecast of NBC-TV's Ford Star Jubilee and NBC-TV's Ford Theatre, it will continue to expand its tv activities, Ford spokesmen said.

Specifically, what Ford has in mind is a new program that could "sell" all divisions—consumer and industrial—while staying aloof from spectacular-type productions.

Tv Spot Campaign to Launch Philip Morris' New Package

PHILIP MORRIS INC. of New York, officially opened a drive Friday for its "Hardpack" (flip-top) king size Philip Morris cigarette after six months testing the new package in Portland, Ore, Harrisburg, Pa., Charlotte, N. C., Wichita, Fresno, Calif., and other west coast markets.

On the heels of its launching of a tv spot campaign for the new pack in New York last week, PM will gradually "open up" the rest of the country between now and October, returning in late fall to its regular advertising schedule.

The new package is of the same type used by PM's other brands, Marlboro, Spuds and Parliament.

Although the "hard-pack drive" merits consideration as a special campaign, N. W. Ayer & Son spokesmen told B+T that there is "very little" change in budget structure. Though PM's advertising budget has risen and continues to rise by the year, the Philip Morris "hard pack" campaign essentially consisted of copy change and relocation of spot drives.

Beauty Pageant Via Philco

ANNOUNCEMENT of Philco Corp's sponsor-ship of the "Miss America" beauty pageant on ABC-TV Sept. 8 is being made today (Monday) by Slocum Chapin, ABC-TV vice pres-ident in charge of sales, and Raymond B. George, Philco Corp. vice president for merchandising. Philco agency is Hutchins Adv. Co., New York. The Atlantic City telecast, slated for 10:30-12 midnight on the full ABC-TV network, marks the third consecutive year Philco has sponsored the special event.

Al E. Sharp Dies in Atlanta

AL E. SHARP, 42, partner in Liller, Neal & Battle agency, Atlanta, died Aug. 8 in Atlanta.

Mr. Sharp entered the newspaper business with the Chattanooga (Tenn.) Times and later went to the Atlanta Constitution. He left the Constitution for the advertising agency and in 1954 was named a partner.

NEW SPOT: CREW CUTS PLUG BEER

TELEVIEWS in selected tv markets soon will be seeing a good deal of a catchy new commercial familiar to listeners in numerous radio markets for the past few months.

D'Arcy Adv. Co., St. Louis, has completed production on a series of 20- and 60-second tv spots for Anheuser-Busch Inc., which feature the Crew Cuts vocal group and which is being released to approximately 40 tv stations.

Since last April, radio listeners in some 100 markets have been hearing, with increased regularity, "Where's There's Life . . . There's Budweiser." The commercial also will serve as the basis for a nationally distributed instrumental by Coral Records.

Braced with numerous "unsolicited" favorable comments from stations which have aired the radio announcements—and convinced that a tv commercial can entertain the viewer while selling him—D'Arcy signed the Crew Cuts to film the Budweiser commercial on location at Universal Interna-
Let's Get Back To
Radio Basics

On the occasion of WIBW's 30th anniversary, we made a survey and came up with some startling findings. Only a handful of old timers are familiar enough with basic radio facts to judge the effectiveness of a station's coverage and audience. Because distorted "salesmanship" and half truths have jeopardized the foundation upon which radio has been built, we are reproducing TWO BASICS OF RADIO COVERAGE that will help guide your selection of any U.S. station. Study them. Use them. They're fundamentals.

Down to Earth

The better the ground conductivity, the better any station's signal. The first step in evaluating a station's coverage is to locate it on this map. Note that WIBW is favored with the nation's highest ranking ground conductivity. This means that people living in four states can hear WIBW clearly, easily. And it's this same, wonderful soil that accounts for the rich Kansas farm land and the wealth of the farm families that make up the majority of WIBW's steady listeners.

Power is Not Enough

The higher a station's frequency, the smaller its coverage. High power and high frequency cancel each other out. For example, let's check WIBW on this table. Our 5,000 watts on 580 kc., with excellent ground conductivity delivers a socking DAYTIME half-millivolt signal in every direction for 200 miles. No wonder the old timers use WIBW so consistently. They're getting RESULTS because they're getting maximum coverage at minimum cost. Isn't this something that you too should consider?

For free 8x10 copies of the above charts, call your Capper Man
Increased Billings Reported By Norman, Craig & Kummel

THE management of Norman, Craig & Kummel had a laugh on skeptics last week.

Despite "unkind comments" about its prospects earlier in the year, when NC&K lost the Revlon and Blatz accounts, the agency reported that "the first six months' figures show larger billings than last year, and projections for the second six months promise far to exceed last year's."

This report was contained in a memo prepared for the NC&K staff and released last week. It concluded: "This year should be a very good one—probably the best in our history—and best of all, we seem to be growing at a great rate."

Purpose of the memo was to announce that, effective when the space becomes available next February or March, NC&K is expanding into the entire 22nd floor at 488 Madison Ave., New York, in addition to the space it now occupies at that address.

The Democratic national committee is one of the accounts NC&K has taken on in recent months. Other clients include Warner-Lambert, Hudson Paper, Willys Jeep, Ronson Corp., Speidel, Seeman Bros., Maidenform, and Airwick.

Radio's Place in TV Homes

TV HOMES are radio listening homes, and consistent ones too. So notes the August issue of Nielsen Newscast, published by the broadcast division of A. C. Nielsen Co. During March of this year, Newscast reports, "TV homes accounted for almost half of all the evening radio listening and almost two-thirds of all daytime radio listening."

The publication gave the following account of "radio listening in average TV homes for March of past five years (in minutes of radio listening per TV home per day): 111 minutes, 106, 116, 113, 116." These figures, Newscast adds, do not include listening to car radios.

Knapp-Monarch to Use TV

KNAPP-MONARCH Co. (electrical appliances), St. Louis, fall and winter advertising program will be the largest in the firm's history, according to President R. S. Knapp. Developed by Frank Block Assoc., St. Louis and New York, the campaign will use all three TV networks to promote Liquidizer and Redi-Baker. It includes participations in ABC-TV's Famous Film Festival, CBS-TV's Arthur Godfrey Show and NBC-TV's Today.

Radio Spot Climb Cited

ACTUAL force of the upward climb of national spot radio this year is placed in further perspective by Lawrence Webb, managing director of Station Representatives Assn. Mr. Webb, in a report to SRA's board of directors today (Mon.), notes that the first six months of 1956 in spot radio has surpassed the previous first six months record of 1955, when national spot radio sales reached a peak of 663, 918,720. This year, the comparable figure was $65,674,000, or a gain of 2.7%. SRA's second monthly report on radio spot spending, which showed the six-month upward swing, was released a few weeks ago [BT, Aug. 6]. While the six-month total edged out the 1953 highpoint by 2.7%, it shot past the comparable period of last year by nearly 20%.
An Open Letter to the TV Industry

Congratulations Miami!

WTVJ is pleased to join with the people of Miami in welcoming WCKT and Mr. Niles Trammell to our town... the Nation's fastest growing city and one of the country's largest TV markets.

We congratulate Miami on obtaining this new television service. The efforts of WCKT, in combination with our own and the other stations in the area, will result in an even finer service to the public. As it always has, competition will mean increased benefits for the people who watch at home... the viewers who are so essential to all of us in television.

Since March 21, 1949, WTVJ has endeavored to provide the viewers of south Florida with a balanced program fare which would combine all of the elements of good television practices... outstanding programs, including local live programs, network and film - standard commercial service to local, regional, network and national advertisers - and public service programs and efforts which would reflect and advance the civic, cultural and charitable life of our community. We have made it our responsibility to serve south Florida with outstanding local live public service shows in class "A" time. We welcome WCKT's participation in these endeavors.

The national recognition that WTVJ has received in winning the Alfred P. Sloan Highway Safety Award in 1953 and 1955, the Radio-Television News Director's Gold Trophy Award in 1952 and 1953, the Headliner's Award for Outstanding Local News in 1956, and other equally important citations is striking evidence of the progress of Miami television. We know that WCKT will similarly enhance Miami's reputation as an important television center.

During the past seven years, local civic, charitable and cultural agencies have received in excess of $1,500,000 in public service time given proudly by WTVJ for programs, spots and participating announcements through which these agencies have done a magnificent job in stimulating public support for their programs. With the cooperative efforts of WCKT now available, we know that television will become an even greater force towards guiding Miami ever closer to its ultimate destiny.

Television's future shines brightly before us all. We have every confidence that the people of south Florida will rightly receive nothing but the finest service in the years ahead both from WTVJ and WCKT.

Mitchell Wolfson
WTVJ President

Americans Spend 2 Billion Hours Weekly With Radio, TV

THE AMERICAN PEOPLE, teenagers and adults but excluding children under 12 years of age, spend more than 2 billion hours a week watching television and listening to the radio, according to statistics gathered in the weekly interviews of A. L. Sindlinger & Co., audience research analysts.

Data compiled by Sindlinger for the week ending July 21 shows, of the total population 12 years of age or older (who pay the full adult price for movie theatre admissions) of 121,240,000 individuals, 65,348,000 (53.9%) watched TV during an average day for an average of 2 hours and 36 minutes; 56,983,000 (47.0%) listened to radio for a daily average of 2 hours and 11 minutes, and 92,263,600 (76.1%) read newspapers for an average of 33 minutes a day.

For the week, this 12-over group spent 1,189.3 million hours watching TV, 870.8 million hours listening to the radio, 355.2 million hours reading newspapers, compared to the 42.6% which spent 216.9 million hours at the movies.

During the past year, Sindlinger reports, TV homes have increased from 32,787,200 (68.3% of the national total) to 36,950,500 (73.4%) and adults (12 or over) with TV have increased from 87,709,500 (73.0%) in July 1955 to 95,900,800 (79.1%) in July 1956.

Allen 'Most Talked About'

STEVE ALLEN led the Sindlinger & Co. ratings of "TV Programs That People Are Talking About" for the fifth consecutive week on the report for the week ending Aug. 4, with a 19.6% talked about rating. The Lawrence Welk Show replaced 644,000 Question in second place, with a 14.3% rating, and Ed Sullivan remained in fourth place.

Hopkins Named Agency V.P.

JOHN T. HOPKINS III, for more than 25 years general manager of WJAXJacksonville, Fla., has joined the staff of Newman, Lynde & Austin, Jacksonville advertising agency, as vice president. He will serve as director of the agency's television and radio department.

Mr. Hopkins, who entered the field of radio in its infancy, went to Florida early in 1925 to direct construction work on WIOD Miami and then assumed construction supervision of WJAX later that same year in Jacksonville. For two years he was chief engineer of the station and then became general manager, a post he held until 1955.

M&J& Expands Offices

EXPANSION of three major offices of MacManus, John & Adams to accommodate recent client additions and personnel increases was announced last week by President Ernest A. Jones. Expansion includes new wing, just completed, which adds complete floor to Bloomfield Hills (Mich.) headquarters building; new space for New York office through acquisition of 19th floor at 444 Madison Ave., effective in near future, and additions to Toronto facilities.

M&J& also has opened an office in Houston and expanded Los Angeles and San Francisco offices, but has closed offices in Baltimore, Chicago and Miami.

ORRadio Budgets For Fm

USING fm radio for the first time, ORRadio Industries Inc., Opelika, Ala., will launch the largest advertising program in its history for the fall and winter campaign, Nat Welch, vice president for sales, has announced. The campaign will be directed toward tape recorder users. ORRadio is sponsoring the five nights a week Skip Weshtener show, Accent on High Fidelity, on WBAI-FM New York for six months. Shappe-Wilkes Inc., New York, is the agency.

Lew King, Vehon & Wolf Organized in Phoenix

A NEW advertising agency—Lew King, Vehon & Wolf Inc.—has been formed in Phoenix, Ariz., with offices at 218 W. Adams St. The agency will prepare advertising for all media.

President of the new firm is Lew King, known in the Arizona area not only in the advertising field but as a radio-tv personality.

For the past 10 years he has operated his own radio program in Phoenix under the name of Lew King Advertising Productions.

S. E. (Bud) Vehon, who comes to Phoenix from Detroit, Mich., is vice president-secretary of the agency. He was associated for 25 years as secretary, copy chief and account executive with Luckoff & Wayburn agency.

George J. Wolf of Phoenix is the agency's treasurer. He is president of Economy Finance Co.; vice president of the First of Arizona Co., and president Contract-Mortgage-Buyers Inc.

Bulova Cities Radio Line For 18% Rise in Income

RADIO and television figured prominently in the annual meeting of stockholders of Bulova Watch Co., Flushing, N. Y., at which Board Chairman Arde Bulova and President John H. Ballard cited the firm's advertising efforts (via tv) and its expanded radio production line as part of the reason for an 18% rise in Bulova's net income over the previous year.

Due to Bulova's diversification and continued work in military research and development, Bulova's net sales this past fiscal year jumped $3,648,579 to the all-time record of $80,593,644, Mr. Ballard reported.

Mr. Ballard cited Bulova's radio receiver line as one of the firm's great assets. He said radio sales jumped 92% in the past year, gaining "a more rapid acceptance than any other radio line in America." Bulova has been manufacturing radios since late 1952, but did not begin to achieve mass market distribution until last year. The company also hopes to make a dent in the Christmas gift market this year with its new electric shaver.

Bulova's prominence in the jewelry field may be gauged, Mr. Ballard told stockholders, by its recent signing for $5 million sponsorship of the Jackie Gleason show on CBS-TV next season. "This is the first time in the industry's history," Mr. Ballard said, "that a commitment of such magnitude has been made to back up the retailer in the sale of one brand name."
COLUMBIA PACIFIC RADIO NETWORK

reaches more people

than any other Pacific Coast medium,

including all other regional networks.

REPRESENTED BY CBS RADIO SPOT SALES
SPOT NEW BUSINESS

Liebmann Breweries Inc., for its “Miss Rheingold” contest using radio spot campaign in New York, New Jersey, Connecticut and Western Massachusetts. Agency: Foote, Cone & Belding, N. Y.

Heublein Inc. (Maltese, milk drink mixture), Hartford, Conn., buying radio and tv spots in approximately 15 radio and eight tv markets in New England. Campaign will start in October and run for 16 to 20 weeks. Bryan Houston, N. Y., is agency.

Life magazine, N. Y., through Young & Rubicam, N. Y., will use radio and television schedule, in conjunction with direct-mail promotion, to boost subscriptions. Campaign will run for one week, starting Sept. 10, 17, and 24 in various parts of country. Approximately 67 markets will be used with 50 announcements per market in radio and 20 in television.

George W. Borg Corp. (Borg Fabric Div.), Delavan, Wis., making initial tv plunge Sept. 9 with one-day tv spot campaign in 28 top markets for Borgana fabric. Agency is Douglas D. Simon Adv., N. Y.

NETWORK RENEWAL

American Chicle Co. (Dentynie, Beerman’s, Pepsi, Clorets, Rolaids), Long Island City, N. Y., has renewed ABC-TV’s Otark Jubilee (new time: Thurs., 10-10:30 p.m. EDT) for the 1956-57 season, effective Oct. 4. Status of Grand Ole Opry which alternated with Jubilee last season in the Saturday, 7:30-9 p.m. EST period, was not announced. Agency for American Chicle is Ted Bates & Co., N. Y.

NETWORK NEW BUSINESS

John Hancock Mutual Life Insurance Co., Boston, will join RCA and RCA-Whirlpool in sponsoring five, and Buick Div. of General Motors, one, of NBC-TV’s Producers’ Showcase presentations next season (every fourth Monday, 8-9:30 p.m. EDT, starting Sept. 17). RCA and RCA-Whirlpool co-sponsor full schedule. Agencies: McCann-Erickson for John Hancock; Kudner for Buick, and Kenyon & Eckhardt for RCA and RCA-Whirlpool.

AGENCY APPOINTMENTS

Hudson Pulp & Paper Corp., cup and container division, new department, names Al Paul Lefton, Phila., and N. Y. Norman, Craig & Kummer, N. Y., continues to handle other products.

Esterbrook Co. (writing implements), Camden, N. J., appoints Young & Rubicam, N. Y.

Boston & Maine Railroad, currently serviced by Harold Cabot & Co., Boston, to Doyle Dane Bernbach, N. Y., effective Sept. 1. DDB also handles N. Y., New Haven & Hartford R.R., whose former president, Patrick McGinnis, now heads B&M.

Texas Brands Inc. (frozen and canned foods), San Antonio, names St. George & Keyes, N. Y. Plans being made to use radio-tv campaign probably to start in New England sometime in October.

A&A PEOPLE

Hugh M. Redhead, in charge of creative services, Aluminum Co. of America account, Fuller & Smith & Ross, Cleveland, and John Lebby, marketing director, FSR, San Francisco, elected vice presidents of agency.

David J. Lehnhuter, public relations director and account executive, Oakleigh R. French & Assoc., St. Louis, named vice president.

George De Pue Jr., account executive on Anderson & Clayton’s food division at Bryan Houston, N. Y., appointed vice president of agency.

George V. Riley named vice president in charge of public relations, Hilton & Kiggio, assigned to Washington, D. C.

Walter C. Kiber promoted from field sales manager to general sales manager at Norge Div. of Borg-Warner Corp., Chicago. He will be responsible for administration of national sales programs.

Dale Berger, account executive, KOLN-TV Lincoln, Neb., to Ayres, Swanston & Assoc., Lincoln agency, as account executive. James
Gray Squirrel
Sciurus Carolinensis

The big timber and deep shade of Michigan's northern counties is "home, sweet home" for this prolific family. Adults produce two litters a year in hollow trees or leafy nests. For winter meals, the squirrel stocks up with more than 1000 nuts.

Put your money where the people are

There's no market for acorns in WWJ's densely-populated coverage area. But the demand for gum, gasoline, and groceries is simply tremendous.

So aim your camera at the squirrels, your radio commercials at the people. Use WWJ, famed for complete news coverage, sparkling personalities and programming that holds listeners, moves merchandise.

Seventy per cent of Michigan's population commanding 75 per cent of the state's buying income is within WWJ's daytime primary area. In the Detroit area alone, over 3½ million people drive nearly 1½ million cars and spend over $3 billion annually for retail goods.

WWJ RADIO
WORLD'S FIRST RADIO STATION
Owned and operated by The Detroit News
NBC Affiliate
National Representatives: Peters, Griffin, Woodward, Inc.

Peter McMahon, formerly account executive at KSB San Diego, to Barnes-Chase Co. there as head of agency's radio-television department.

Patrick J. Fay, staff director of former DuMont Television Network shows, to Wyatt & Bearden Adv., Dallas, Tex., as director of radio, television and film activities.

John E. Sullivan, assistant to advertising director in charge of cereals (H.O. oats and cream of wheat), Best Foods Inc., N. Y., to Compton Adv., N. Y., as assistant account executive.

Fred Charlton, account representative, N. W. Ayer & Son, Phila., to Cunningham & Walsh Inc., Chicago, as account supervisor.

Harold Hadley, N. Y. and Phila. newsmen, to Weightman Inc., Phila. agency, as director of public relations.

Henry J. Morton to copy and contact department of Henri, Hurst & McDonald Inc., Chicago.

Robert Reynolds, Hubbard-Antisdel Co., to copy staff of Aubrey, Finlay, Marley & Hodges, Chicago.

Humphrey Ireland, Brisacher, Wheeler & Staff, to Harrington-Richards, San Francisco, in copy and contact capacity.

Josephine Gray, Detroit food advertising specialist, to Zimmer, Keller & Calvert Inc., that city, as account manager.

Doris Gould, formerly timebuyer for Moselle & Eisein, N. Y., to media department of C. J. LaRoche Co., N. Y., in similar capacity.

Bill Krauch, Milton Weinberg Adv. Co., L. A., named as AAAA radio-television committee for L. A. Area Community Chest fall campaign to take charge of copy, films, slides and other material for radio-television. Other committee members: Doug Anderson, Anderson-McConnell; Adrian Brown, McCann-Erickson; Ed Cashman, Copley-Sanderson; Dick Dwan, Vorn Monroe and Bed Stefan, all of BBD&B; Walter McCreedy and Howard Flynn of McCreedy agency; Bernice Levitas, Doyle, Dane & Bernbach, and James Vindivere, Erwin, Wasey & Co.

Vincent R. Bliss, president, Earle Ludgin & Co., Chicago agency, appointed chairman of projects planning committee of Advertising Research Foundation, N. Y.

---

**FILM**

**MGM SIGNS $4 MILLION LEASE CONTRACT WITH KTTV (TV), BUYS 25% OF STATION**

In a flurry of activity, Loew's Inc. also reveals its tv division will produce at least two, possibly three, series of half-hour films for release in fall of next year, negotiates for other station interests.

LOEWS' INC., only a two-month old entry in tv's multi-million-dollar sweepstakes, is forging ahead like a late-breaking stretch runner. By late last week movie company:

- Bundled up a $4 million leasing arrangement with KTTV (TV) Los Angeles for its Metro-Goldwyn-Mayer (a Loew's subsidiary) library.
- Was served its first slice of station pie, acquiring a quarter interest of newspaper-owned and non-network affiliated KTTV for $1,-
- Revealed it will produce at least two, and possibly three, different series of half-hour films for release in the fall of 1957, and hinted it may film spectacular-type programs, and thus indirectly generated speculation that Loew's eventually will launch a tv film network.
- Was negotiating for station interests and/or leasing arrangements in major markets; was continuing to dicker with CBS, ABC and General Teleradio on a number of fronts regarding film properties, and has been working feverishly for an interest in a tv station located in the New York market.

Backed by Loew's money resources and in effect with carte blanche from top management, tv strategists at Loew's last week were in the midst of negotiations involving about as many types of probable arrangements as there were interested parties [CLOSED CIRCUIT, Aug. 6]. Charles C. (Bud) Barry, vice president in charge of the tv operation and a former NBC vice president, was described by an associate to be "about the busiest man in New York."

At mid-week this off-hand remark was the literal truth, as Mr. Barry took time out from his schedule of wheeling and dealing to hold a news conference at the Times Square office of MGM.

**N. Y. Outlet Plans**

It was learned that the Loew's MGM tv operation, which keeps a military-like schedule of its "tv invasion" hopes to pick up a New York tv outlet. BTV was told by a source close to the situation that if an interest could be acquired, a "schedule" for televising in New York "within a week or so." Loew's-MGM might then set a drive toward setting up a tv film network. WPIX (TV), which like KTTV is newspaper-owned (New York Daily News), denied that it was negotiating with the Loew's interests. [Other independents in New York: WATV (TV) and WABD (TV) (though this station is owned by Du Mont Broadcasting Corp., which also owns WTG (TV) Washington), and a non-network affiliate, is owned by KKO Teleradio. The remaining three tv stations in New York are network-owned.]

The KTTV pact were announced Tuesday afternoon, just weeks after Loew's-MGM had served notice it would enter tv with a vengeance [BTV, June 25].

At that time, the company had said it would release to tv its 770 feature films and 900 short subjects MGM from 1929 to 1949. (Its distribution outlet for tv is the newly-created MGM-TV.) Loew's also had promised it would acquire an interest in tv stations as well as produce programs especially for television.

In the KTTV-Loew's-MGM film transaction, 725 of the original MGM 770 feature-length film library was leased for seven years. KTTV receives the rights on an exclusive basis in its territory. The $4 million pact—which includes an unspecified cash down payment and terms —permits only showing in black-and-white. For color presentation (for those films in color), KTTV must negotiate with Loew's for a "premium payment."

KTTV plans to begin programming the MGM features in late September or early October. The rights include use of the MGM trademark—Leo the lion.

Also involved in agreement's terms: "Gone With the Wind" is not included and 40 other films are being withheld for theatrical re-issue but these are available for showing; no short subjects or cartoons are in the packet, and MGM does not surrender any make-re or re-issue rights. A further pact may be made for KTTV to acquire short subjects also.

The purchase of 25% by Loew's of KTTV's capital stock was announced at the same time. The station is licensed to KTTV Inc., which was 100% owned by the Times-Mirror Co. The latter publishes the Times and the Mirror-News in Los Angeles. Richard A. Moore, who sparked-plugged the attack on networks in Congress, is president of KTTV Inc. Directors of KTTV Inc. are Norman Chandler, chairman of the board; Mr. Moore; Philip Chandler, Harris Chandler; L. D. Hotchkins, also editor of the Times; Harry Bowers, also treasurer of the Times-Mirror Co., and Omar F. Johnson, vice president of KTTV.

Price for the stock acquisition is $1,625,000 in cash. According to the contract signers, the purchase need not be approved by the FCC, although an ownership report must be filed.

The KTTV film rent stock acquisition was held up by Mr. Barry as a "keystone in Loew's future tv pattern. He admitted other like deals are possible, and added he "hoped" this would be the case in a "number of markets." At varied intervals in the conference, Mr. Barry referred to Loew's entering the tv field "aggressively... according to time-table" and predicted that the
Some people will always have a warm spot in their hearts for the circus. Like us at WCAU-TV... we started our own and called it “Big Top.” Today you know it as the “Sealtest Big Top,” a network show of 84 stations with a weekly audience of about 10,500,000. That kind of success story can be yours at the local level. Because the same WCAU-TV programming talent that created “Big Top” and made it one of the highest rated network daytime shows is yours to command, too. So when you think of showmanship, think of WCAU.

company "will be one of the biggest forces in television." Loew's-MGM, he asserted, is free to "enter into negotiations in good faith in any major market in the U. S."

Loew's-MGM's television production schedule calls for shooting of two program series in the first couple weeks next month for sale in the fall of next year. Also under consideration is a third series, "Goodbye Mr. Chips," which would be produced at MGM's London studios. The series would be a 26-episodic series initially and also made available for sale in the fall of 1957.

A year away, according to Loew's strategists, is the filming of an hourly anthology and possibly even spectaculars and one-shot dramatic shorts.

Although Loew's now has shut off the Los Angeles market in any future deals for its library product, it still is negotiating with CBS, ABC, and General Teleradio for the leasing of the features. Mr. Barry refused to go into details or how far along these discussions may be.

Mr. Moore emphasized that KTTV and its owner felt that the addition of Loew's in the ownership would provide an added program source, that would eventually prove more valuable than the money received and that the broad cost-operation itself would be "enhanced" in worth.

Preminger Search for Star Conducted Via Tv Stations

MOTION PICTURE producer Otto Preminger, who in the past three years has defined many a Hollywood star and challenged the power of the Motion Picture Assn. of America code with "The Moon Is Blue," "Carmen Jones" and "Man With the Golden Arm," last week shattered another precept: that of casting. Apparently unhappy with "the Free World," which he turned to television as one means in finding the lead for his proposed filming of George Bernard Shaw's "St. Joan."

With $100,000 allocated to the search—"almost enough money to make the film," according to United Artists—Mr. Preminger's office, in addition to alerting theatre chains and trade papers, has sent "each and every" U. S. tv station a free showing for free screening. The message of the announcements: "If you feel qualified to play the Maid of Orleans, contact us at U-A or at the Preminger staff by picking up and filling in a blank form at your local theatre!"

Many tv stations, U-A reported, de- listed any reference to the "local theatre," substituting instead their own addresses.

Throughout September, Mr. Preminger and company will tour 15 key cities, interviewing and screening applicants, and after narrowing down the choice to 15 contestants, Mr. Preminger plans to expose the semi-finalists to tv audiences via a "highly-rated" but as yet unspecified variety show. The final decision will be made on the basis of genuine talent, looks and on the opinions of the tv viewer.

Kenyon Brown Heads New Film Financiers

FORMATION of a new multi-million-dollar corporation to provide financing for television and motion pictures was announced Thursday by Kenyon Brown and his associates in Texas International Productions Inc.

Texas International was incorporated a month ago in Austin, Tex., and is backed with "unlimited capital" to be provided by oil and other interests not now identified with radio-television. The company's principal offices are in Fort Worth. But it is reported that Mr. Brown is president of the new firm, Frank J. Miller, head of his own advertising agency and film production company in Hollywood, is secretary-treasurer.

Radio-television columnist Jimmie Fidler is chairman of the board. Also on the board of directors are Alonzo W. Baker, Texas attorney with extensive oil and real estate interests, and Fred G. Johnston, pharmaceutical family.

While the principal aim of the new company is to bring television and movie production to Texas and primarily to the Dallas-Fort Worth area, it also will be in full operation in Hollywood, and will be equally available in either area. The company will undertake to provide production cash for tv series and independent motion pictures.

Negotiations were held to take over two television syndicated series, "Jalopy Derby" and "The Wrestling Show," both owned by Frank J. Miller Productions, and for production of the Jimmie Fidler television and radio series. Negotiations are under way for the "Judge Roy Bean" television syndicated series, now owned by Quintet Productions.

Mr. Fidler's radio show is on 167 stations and his weekly quarter-hour television show is sponsored by Tafon (weight reducer) and Avatrons (vitamins) on 16 stations. It is understood some of the Texas International group are interested in the two products.

Mr. Brown recently acquired an interest in the Detroit Tigers in connection with sale of the baseball team to a syndicate that includes several broadcasters [B&W, July 23]. He is a member of a syndicate, also including broadcast station operators, thatocked oil exploration rights in Texas. His radio-interests include KFWF Wichita Falls, Tex.; KFQP-AM-TV St. Joseph, Mo.; KGLO Miami, Okla., as well as 50% of KBYE Okla. City, and his company, Mr. Brown also said there is absolutely no connection between Texas International and Vatipix, of which he is president.

Don G. Campbell Dies

DON G. CAMPBELL, 53, one of the founders of Vatipix and president of the D. C. Electrical Corp., died last week in Glendale, Calif. Knights Templar services were held Thursday at Forest Lawn Memorial Park. In addition to being a founder of the television production and distribution outfit, Mr. Campbell served as vice president for several years. He was a native of Pocatello, Idaho. He is survived by his wife Ann and daughter Beverly.

Klynn Named UPA V.P.

HERBERT KLYNN, executive production manager of UPA Pictures, Los Angeles, Calif., studio, has been appointed vice president and producer of the company's Burbank television commercial spots, it was announced last week by UPA President Stephen Broido. Mr. Klynn also will supervise west coast and midwest sales of television commercials.

Mystery Programs Sell Best, ABC Film Survey Determines

RESULTS of a survey on tv filmed released a fortnight ago by ABC Film Syndication indicate that mystery-adventure programs are "the most successful," in that they are followed in order by adventure, mystery, drama-antology, western adult and comedy shows. ABC Film sent a questionnaire to all tv stations on June 20, 1957. Tabulations based on the questionnaires said to be a 32.4% response of stations approached.

In answers to other questions, stations reported that western programs were the most successful and that 17.9% less film; 57.2% of station respondents said their local demands for film were seasonal and 42.8% reported the demands were not seasonal.

Tabulations of the survey covered questions on "repeat" rents, percentage of stations' billings devoted to promotion and merchandising of non-network shows and programming of feature films.

Ziv Plans More Location Filming in Fall Schedule

FOUR ZIV TV series currently in production and an equal number of planned pilot films, new series will spend at least 75% of their shooting schedules on location, an increase of one-fourth over the previous year, Production Vice President Maurice Unger revealed Wednesday in Hollywood.

To make maximum use of locations as an aid to production quality, Mr. Unger has expanded Ziv's location research department and has instituted several new techniques, last week followed by creative personnel. In addition, Mr. Unger has instituted a system of sending teams of writers and directors to locations in advance of production which plan specific episodes while actually on the scene of future filming.

Pace-setters in location filming on Ziv's fall schedule are West Point, due for network exposure on CBS-TV for General Foods, and "My Father, My Son," now in second-year production for syndication. Heavy location schedules also are planned for the new syndication series Dr. Christian, as well as special outdoor scenes for "The Duke of the Desert" and the Rocks for Science Fiction Theatre.

CNP to Film Tv Series On Location in Germany

FOLLOWING an announcement two weeks ago that it had acquired rights to produce the first Tarzan film series for tv for $1 million [B&W, Aug. 13], California National Pro-duction announced last week that it will start production Nov. 1 on a new series of 39 half-hour tv films called Citizen Soldier.

New series, which will be filmed in Ger- many, is for which emission is under the cooperation of the Dept. of Army and Defense, is based on authentic dramatic incidents in which American GI's were involved during World War II. CNP's president, Alan W. Livingston, also reported that 39 tv location battle scenes will be made available from the Signal Corps' library. The series will be syndicated by NBC Television Films. William L. Law- rence, head of CNP's eastern program development has been named to organize a staff and to select stories.

"this daily double always wins."

The gentleman with the facial foliage there—that's Armand, friend and host to constellations of celebrities at New York's famous Louis & Armand's. Few doors off Madison Avenue, you know. Let's listen in.

Young man with the blonde looker is talking about a sure thing in daily doubles. "Can't miss," he says. "Comes in first every time! Smartest place in Maine to place your bets."

"Maine?" says Armand. "They got a track up there now?"

"A clear track," the young fellow tells him. "And you can really romp home in the nine big-money counties. Paid off half-a-billion in retail sales last year. We call it the WABI Sweepstakes... a sure daily double with WABI running for you in radio, WABI-TV in television. Wouldn't think of making up a spot schedule without those two."

"That's what I like about him," sighs the blonde. "He's so smart."

You can be smart, too. Win yourself double coverage in the richest part of Maine with this WABI&WABI-TV combination. They work together like (you might say) Louis & Armand...

FROM the monthly audience surveys of American Research Bureau, BW each month lists the 10 top rated syndicated film programs in 10 major markets, selected to represent all parts of the country with various degrees of competition. Despite all precautions, occasional errors will occur in these tables, due to the use of the same program name for both a syndicated and a network series and the practice of some stations of substituting local titles (such as "advertiser" Theatre) for real program names.

SCREEN GEMS SIMPLIFIES METHOD OF FILM DUBBING

Technique, developed by Technical Director Keane, is said to be more efficient and less expensive by cutting shipment and customs costs.

DEVELOPMENT of a new, more efficient but considerably less expensive method of preparing American-made television films for dubbing in foreign countries was reported last week by Screen Gems, tv subsidiary of Columbia Pictures Corp.

The technique, devised by Peter Keane, Screen Gems technical director, assures technically perfect audio qualities at one-half the previous cost, the announcement said. In foreign dubbing preparations in the past, it was pointed out, the stumbling block has been an inability to reproduce all phases of the audio—particularly the sound effects—skillfully as in the English-language original.

The regular method, spokesmen continued, has been to send four cans of film abroad for each program that was to be dubbed—one silent dub negative, two composite prints and one photographic m&e (music and sound effects) track—along with the continuity sheets for that particular program.

A "electronic cue" devised by Mr. Keane, Screen Gems authorities said, permits him to remove the sound effects from the dialogue track and add them to the regular m&e track, so that foreign dubbers have a sound track that is complete except for the dialogue. This is done on tape rather than film. As a result, Mr. Keane now is able to cut the per-program shipment down to one silent dub negative, from which the work and release prints are made, and one magnetic m&e track, along with the continuity sheets.

This, officials said, automatically cuts the shipping duties by 50%, as compared to the standard method, while use of the "electronic cue" also cuts costs in half. By means of an electronic code, the effects are transferred to the magnetic tape through the transfer machine at transfer costs rather than at the higher mixing costs.

Screen Gems said Mr. Keane has been working on the new system for more than a year and that it has been in use in the Screen Gems lab in New York for the past three months with "highly gratifying results."

Need for improving methods and reducing the costs of preparing films for foreign dubbing, according to spokesmen, arose with "the tremendous increase in foreign sales of Screen Gems series." They said that almost 2,000 individual SG programs eventually will be available in French, Spanish, Italian and German.

Ziv Reports 'Dr. Christian' Purchases for 103 Markets

THOUGH the face of Dr. Conrad Stynor (Medici, which is being dropped on NBC-TV) may be found missing from the nation's tv screens next season, that of "Dr. Christian" won't be. According to Ziv Tv, which has placed the tv version of the old radio series on the market, with MacDonald Carey filling the role originally created by the late Jean Hersholt, already more than 60% of the nation's 35 million tv homes will be in a position to see Dr. Christian this year.

This estimate was made last week after Ziv had announced that although Christian was entered into the syndication field only a month ago, contracts for the series as of Aug. 10 accounted for advertisers and stations comprising 103 tv markets. Ziv attributed much of the "tremendous climb of the market" to "strong activity" among regional clients for multi-market deals, pointing to the fact that the "average" Christian client has been signing for between 8-10 markets.

Two-Month ABC Film Sales Almost Double Last Year

GROSS sales of ABC-TV Film Syndication Inc., for June and July of this year were over 95% higher than those for the same months last year, George T. Shupert, president, reported Thursday. The 95% gain was attributed to a heavy volume of business of film syndication's newest property, Code 3, as well as other programs.

Mr. Shupert also pointed to "continued saleability" of the company's production properties, to AFS' "reputation . . . as a supplier of top-quality programs and services" and the company's recent first-run features. These are: The Three Musketeers, Anniversary Package, and Herald Playhouse, the retitled version of Schultz Playhouse of Stars. Other ABC-TV Film Syndication properties of recent vintage: new programs in the Douglas Fairbanks Presents and Sheena, Queen of the Jungle series.

TCF Television to Begin Production of Commercials

TCF Television Production, 20th Century Fox subsidiary, will enter "immediate" production of television commercials at the TCF-TV studios in Hollywood, it has been announced. Gordon S. Mitchell and All-Scope Pictures will handle production of the commercials and special purpose films.

With this new affiliation, TCF-TV will be able to offer clients a complete service in commercials from script to screen, in either animation or live action, according to Michel Kraike, TCF-TV administrative executive.

The company currently has four regular tv series: The 20th Century-Fox Hour, My Friend Flicka, Broken Arrow, and You Are There.

Gross-Krasne to Distribute New O. Henry Video Series

JACK GROSS and Phil Krasne, who formerly operated United Television Programs, are returning to the distribution field with a new sales organization for the syndication of their O. Henry half-hour anthology series, it was announced last week.

Mel Schlank, formerly producer's representative for Gross-Krasne in connection with distribution by outside distributors of the G-K production, has been named vice president in charge of sales. Robert Brahman has been appointed vice president in charge of New York, and Irving Feld, vice president in charge of the western division.

Thomas Mitchell stars as O. Henry in the film series.

Suit Against Ziv Dismissed

ALTHOUGH the California Supreme Court has ruled that under certain conditions a story idea in public domain can be protected, Los Angeles Superior Court Judge Leon T. David has dismissed a $900,000 damage suit involving Ziv's Highway Patrol on the ground no property right exists in an idea. The suit was filed by State Highway Patrolman G. R. Heckerkamp against Ziv Television Programs, KTTV (TV) Los Angeles and State Highway Patrol Chief Officer. Mr. Heckerkamp charged that his program idea was misappropriated after he submitted it for approval through State Highway Patrol channels.

Screen Gems Sets 23d Series

SCREEN GEMS, Hollywood tv subsidiary of Columbia Pictures, has announced completion of negotiations with Dave O'Brien and Mitchell Hamilburg for a new tv film series, Call McCall, to be offered for sponsorship this fall. Main character will be a wandering "fix-it" man in a situation comedy format. Mr. O'Brien will produce and Mr. Hamilburg will direct the series to be produced by their independent firm, White Cloud Productions, for Screen Gems. The Columbia Pictures tv firm has 23 series slated for network or syndication exposure with a half-dozen currently in the filming stage.

Wild in New MCA-TV Post

RAY WILD, vice president in charge of southern sales, MCA-TV Ltd.'s Film Syndication Div., has been named to a new post of field sales manager, Wynn Nathan, sales vice president of the division, reported last week.

In his new capacity, Mr. Wild, who reports to Mr. Nathan, will coordinate the sales activities of the Film Syndication Div.'s five regional offices. Mr. Nathan will spend more time in New York, relinquishing some of his west coast activities.

Dance Team in Film Series

SIGNING of the dance team of Marge and Gower Champion to star in a new tv series for network offering in early 1957 was announced by Irving A. Fein, president of Production Productions, Hollywood. Filming of the new series will begin in January after the birth of Mrs. Champion's baby. Marge and Gower Champion Show will alternate between live and film episodes.

FILM PEOPLE

Jack Siegal, sales director for Allendor Productions Inc., of Hollywood, transfers to New York in September to head company's new office there.

Seymour Reed, treasurer and director, Official Films, N. Y., named secretary-treasurer of film company.

James Paisley, production manager for Lineup, Desilu Productions, Hollywood, named assistant to vice president in charge of operations.

Burton Neuberger and Jay Norman named west representatives by Animation Inc., Hollywood. They have opened offices in Chicago.

Sam Marx, TCF Productions producer for 20th Broadcasting * Telecasting
**Century-Fox Hour** (CBS-TV), Hollywood, named executive producer of new Broken Arrow series beginning Sept. 25 on ABC-TV.

Louis E. Aiken, chief of sponsored film section of Federal Civil Defense Administration, to Lewis & Martin Inc., Chicago, as industrial sales director.

Joel Malcolm Rapp, TV writer, named story editor, The Adventures of Hiram Holliday series, NBC-TV.

**FILM PRODUCTION**

Britski Productions Inc., Hollywood, producing new half-hour TV series, Casey Jones, for Screen Gems. Railroading of 1890's and early 1900's will be theme. Firm also readying Johnny Nighthawk, half-hour series about two war veterans who start commercial airline, for Screen Gems. Two latest acquisitions bring Screen Gems presentations for 1957-58 season to 13.

MPA-TV, TV sales division of Motion Picture Advertising Service Co., New Orleans, announces syndication of new half-hour series, The Tracer, true stories about missing persons. Series stars Jim Chandler, with 26 shows completed or in works and 13 more planned.

**American Machine & Foundry Co.** (bowling equipment), New York, has started production on new series of 13 one-hour films, Bowling Time, which will be distributed to TV stations in fall by Sterling Television Co., N. Y., for local and regional sponsorship. AMF underwrites production costs on series, which is filmed at Paramus Bowling, Paramus, N. J., alleys using AMF equipment. Current 13-program Bowling Time series has been distributed during past year by Sterling to principal U. S. TV markets.

**FILM SALES**

ABC Film Syndication, N. Y., reports two multi-market and otherwise heavy volume of sales for Code 3 Fleming Co. (grocery wholesaler), through Carter Adv. Agency, Kansas City, bought film series for Columbia, Mo.; Kansas City; Topeka and Wichita markets for fall start; Top Value Enterprises Inc. (TV stamps), through Campbell-Mithun Inc., Minneapolis, purchased series for Johnson City, Washington and Tulsa, with starting dates to be announced. Other Code 3 sales were to stations in Weslaco, Corpus Christi, El Paso, Lubbock and Sweetwater, all Tex.; Boise and Twin Falls, both Idaho, and Alexandria, La., for total markets sold at 70.

Sterling Television Co., N. Y., reports following sales: Little Theatre and Armchair Adventure (KVAL-TV Eugene, Ore.), I'm the Law (WSM-TV Nashville), King's Crossroads (KPIC TV) Roseburg, Ore. (satellite of KVAL-TV Eugene), Ballet De France and Vienna Philharmonic (WTTW [TV] Chicago), Gadabout Gullid (WSAV-TV Savannah), Lash LaRue and Features to WHJL-TV Johnson City, Tenn.

**FILM RANDOM SHOTS**

CBS-TV Films, N. Y., announces it has dubbed The Whistler, Range Rider, You Are There, San Francisco Beat and Gunsmoke TV films into Spanish for Latin American market.

Bonded TV Film Service, N. Y., named to handle TV films to be shown on Armed Forces Television Network.

**Woman - to - Woman** is how Betty Clarke sells

If what you sell is bought by women (and that's just about everything) you'll like the kind of selling job WFDF's Betty Clarke does. She's the only Woman's Editor in Flint radio... and her warm, personal show is a listening must each weekday. It's the one radio source in Flint for the latest news of fashion, food, beauty, and helpful household hints. Betty plays your commercials straight or gracefully works them into the program format. She's especially good with a new product. Why not yours? Katz will help you with all the details and tell you lots more about the show.

Represented Nationally by the KATZ AGENCY
NETWORK BOOTHS WERE HIGH ABOVE DEMOCRATIC SPEAKERS' PLATFORM, GIVING SWEEPING VIEW OF AMPHITHEATRE
After a week's tough work in Chicago and the biggest, quickest mass movement of men and equipment in radio-tv history, broadcasters begin covering the Republican convention in San Francisco today.

If the nation's broadcasters could take a breather from the Republican National Convention which opens today (Monday) in San Francisco, they would clap one another on the shoulders and head back to Chicago (1800 miles by air, 2500 by rail) where they have just completed one of their greatest, if not their greatest, triumphs.

But no breather was in sight as the mass of men and materials were set up for the second grueling week.

While the radio-tv network and station coverage provided for this week's and last week's political pow-wows later may bear statistical comparisons, they are in a sense one united effort, joined together by the biggest and quickest cross-country transfer of equipment and men—and, one would hope, sanity—ever attempted by the industry.

The radio-tv people had time to think of the future at all this week they probably were looking ahead with a mixture of dread and pride at the upcoming 1956 presidential election-year campaign, in which a more somber, less wise-cracking Adlai Stevenson will run against a more politically-adept Dwight Eisenhower in a contest to be waged largely by radio and television.

As the airlift from Chicago to San Francisco got under way (see story page 74) following the best-covered but sometimes tumultuous Democratic Convention, there was no question about where "electronic journalism" stands in the minds, hearts and pocketbooks of aspirants for political offices. Democrats spoke derisively of Madison Ave. and Wall Street backing of the GOP, which they said enables the opposition to dominate on the air, but they flocked to every accessible microphone or camera to get the free exposures to the folks back home.

After this week's Republican convention, which will nominate President Eisenhower by acclamation, the candidates will be "qualified" and the air appearances of the candidates themselves and spokesmen in their behalf will be on a commercial-sponsorship basis. At least that is the way it has been under the political section of the law, guaranteeing equal time under equal circumstances.

Television was both praised and damned by the Democrats. National Chairman Paul Butler got off to a dismal start by attacking CBS from the floor for its failure to carry all of the 28-minute film "Pursuit of Happiness," which he called an integral part of the keynote ceremonies. CBS Inc. President Frank Stanton promptly took issue, and came out ahead, when competing networks and the press generally supported the network's right to cover what it saw fit as purely a matter of editorial judgment (see story page 72).

There were other incidents involving tv, with Mr. Butler usually in the middle, but it nevertheless was generally acclaimed as the best-managed and physically-planned convention in history.

Heavy Pre-Emptions

Commercial pre-emptons on the tv and radio networks were running at a substantially higher rate than anticipated as the democratic convention moved into its nominating sessions Thursday.

Representatives of the three tv networks estimated that regular commercial programming deleted to make way for convention coverage from Monday's opening session through the Wednesday night session totaled 30 hours and 30 minutes. Originally it had been expected that commercial tv pre-emptons for the entire Democratic convention would come to 35 hours and 15 minutes [B+T, Aug. 6].

NBC-TV spokesmen said that network had pre-empted 16 hours of commercial programming through Wednesday night; they had expected around 16 hours and 30 minutes for the complete convention.

CBS-TV authorities said their pre-emptons through Wednesday night totaled 7 hours and 30 minutes, as compared to earlier expectation of 12 hours 15 minutes.

ABC-TV spokesmen pegged pre-emptons through Monday-Wednesday at 7 hours, but pointed out that about half of these involved only regional groups rather than the full network. They had estimated beforehand that the total for the convention would be 6 hours 30 minutes.

In radio, pre-emption totals were more difficult to fix, owing to the varying patterns of selling radio time. If periods in which only one in a segment has been sold is counted equally with those which are wholly sponsored, the count of commercial pre-emptons Monday through Wednesday night is approximately as follows, according to spokesmen for the respective networks:

CBS Radio: six hours as compared to 7 hours and 40 minutes originally expected for full convention.

Mutual: two hours as compared to 4 hours and 35 minutes expected.

ABC Radio: one hour 45 minutes as compared to 1 hour and 30 minutes expected.

NBC Radio: commercial pre-emptons were "negligible" because most programs involved were rescheduled. Network earlier reported 2 hours and 35 minutes in pre-emptions expected.

A house-to-house survey taken by Pulse Inc. during the 9-30-11 p.m. EDT period last Monday when all three tv networks were telecasting the opening of the Democratic Convention gave a 48.7 rating. (Pulse's top-rated program on tv both in May and June was the Ed Sullivan Show on CBS-TV which marked up a respective 44.2 and 42.5 Pulse rating for those months.) Pulse also released a three-network audience composition breakdown which found 2.5 viewers per tv home (253 viewers per 100 tv homes); with 107 viewers, men; 114, women; 23, teenagers, and 19, children. The Pulse survey included 20 major U. S. markets.

For the first time in political convention history, speakers at the Democratic convention broadcast non-partisan appeals to get Americans to register, inform themselves and vote Nov. 6. First non-partisan note was struck last Tuesday at the convention and will be followed this Thursday in San Francisco by one to be made by John C. Cornelius, president of the American Heritage Foundation, which has been the moving force behind the "Register and Vote" campaign.

J. Leonard Reisch, executive director of the James M. Cox radio and television stations, was the convention manager, on a volunteer basis. He probably will figure in the Stevenson campaign as a consultant—a job he performed four years ago, and has performed since the last Roosevelt administration, and through the Truman tenure.

It's expected that Norman, Craig & Kummel, the Democratic National Committee agency, will carry on through the campaign. Vice President-partner Walter Craig will run the radio-tv end, assisted by Reggie Schueler. Options already have been made to the extent of about $2 million.

With the nomination of Mr. Stevenson, speculation centered on personalities expected to play key roles in his forthcoming campaign and the nature of radio-tv broadcast activity to be pursued, particularly any changes in concept from the Democratic candidate's 1952 program.

The Stevenson board of strategy plans to thresh out these and various organization matters involving the national committee in the next fortnight, it was reported. This would include working liaison with the committee formation of adjunct groups (like the National Volunteers for Stevenson in 1952) and the status of the present Stevenson campaign and Stevenson-for-President committees.

Among principals now in the nominee's camp—and anticipated to carry on in varying

THE TAMPA-ST. PETERSBURG
METROPOLITAN MARKET

IS 2nd IN FLORIDA
AND 35th IN AMERICA!

WFLA Radio covers TAMPA-ST. PETERSBURG metropolitan market — Florida's SECOND MARKET — where population has jumped 63% in the last ten years!

WFLA reaches more than a quarter of a million radio homes in a busy 11-county trade area. But that's not all! For three years Florida has led the nation in percentage of increased traffic volume — car radios are an important addition to the WFLA audience. It's a big, able-to-buy market — a double-barreled market with a basic economy of year-round industrial and agricultural production supplemented by millions of tourist dollars!

To reach more radio listeners, more often in Florida's SECOND MARKET — spot your product on WFLA!

The phrase-making, newspaper-trained, attorney candidate Stevenson is so neophyte in air-campaigning. He is a masterful orator. But in the campaign four years ago, his weakness for quipping and punning hurt him. His confidantes assert it will be different this time. Four years ago he was a reluctant candidate; this time he actively campaigned for the nomination and got it over the stilted opposition of former President Truman.

Mr. Stevenson previously had expressed himself as believing that radio and television have won their spurs as qualified news media, and should receive full recognition as counterparts of the press. He has held minority interests in radio stations, by virtue of family ownership of the Bloomington (Ill.) Pantagraph, an interest he relinquished four years ago when he became the Democratic nominee the first time.

He also has expressed himself as against censorship, no matter what the guise or excuse. And repeatedly during the campaign four years ago he went all out in favor of open, free and vigorous competition. As a lawyer, he has handled only one case involving communications in recent times. That was as counsel for RCA in a triple damage suit leveled by Zenith involving patents.

About a year ago Mr. Stevenson, interviewed by Dorothy Fuldehim over WEWS (TV) Cleveland, expressed doubts about the televising of presidential news conferences inaugurated by President Eisenhower. He said he thought that anything that tends to put a "political tone or a political aspect on a presidential press conference is a mistake."

How did he feel about the notion that politicians ought not to be allowed to use prompting devices and make-up, because "they look like what they ain't"?

Mr. Stevenson thought any medium which puts the emphasis "on stage management, on preparation and on dramatics, also puts a premium on people who are gifted in that respect and I think this tends to discourage spontaneity and reality. I don't think this is necessarily wrong. I think perhaps we have got to find ways and means of adjusting the
TO FILM
A SUCCESSFUL SHOW...

It takes more than just a good script to insure the success of a top-rated network program. The on-stage performances of the stars and supporting cast must be outstanding, carefully timed, superbly directed. And the camera must perform flawlessly in its vital role of recreating the superior quality of the show for millions of TV viewers. Mitchell cameras—internationally famous—provide the matchless photographic performances so necessary to the successful making of the finest theater quality films. That is why, wherever top quality filming is the foremost consideration, Mitchell Cameras are to be found... bringing success into focus.

use of the mass media of communications—which are inevitable—we're going to use them—so that they don't present the unreal for the real—in other words, they don't defraud you.

The Democratic platform, adopted last Wednesday night, carried no language relating to broadcast media. There was a freedom of information plank, condemning the Eisenhower Administration for "withholding information" and pledging that, under a Democratic Administration, secrecy in government would be reversed: "We re-ave our position of 1952, to press strongly for world-wide freedom in gathering and dissemination of news."

A proposal for free radio-equal access plank had been made to the platform and resolutions committee the preceding Saturday by Harold C. Staurt, executive vice president of KVOO-AM-TV Tulsa, but did not get to a vote. With a number of members of Congress on the 112-man committee, the proposal reportedly proved too controversial to handle, because of differences of opinion as to whether cameras and microphones should be brought into committee rooms. House Speaker Sam Rayburn had been opposed to throwing open committee hearings to the broadcast media.

It was learned that Vann Kennedy, president-general manager of KSIX-AM-TV Corpus Christi, a member of the full committee and its drafting subcommittee, informally proposed the Staurt plank, but did not call for a vote.

The language proposed by Mr. Staurt, former Assistant Secretary for Air of the Defense Dept., was as follows:

"We reaffirm our faith in radio and television as 'electronic journalism' and we believe that as such they are entitled to the same privileges and prerogatives and bear the same obligations as the press, under the First Amendment to the Constitution. This parity of 'electronic journalism' with the printed page extends to radio and television not only equal rights of constitutional protection against abridgement of free press and free speech, but also of equal access to all public events."

All told, more than 1,800 radio-television newsmen and staff covered the Chicago convention, with nearly as many scheduled for this week's San Francisco conclave, expected to be less exciting because the nomination is cut-and-dried—barely unforeseen. Sponsors, shelling out about $15,000,000 on four radio and three television networks, appeared to be happy about Chicago coverage—and results, to the extent that they could be appraised.

All network heads were on hand to personally observe and direct their respective activities, and to hand-shake and make the customary rounds. On the surface, only CBS Inc. President Stanton had to work overtime—because of the keynote programming incident provoked by Chairman Butler.

But there were other undercurrents and mild explosions. Mr. Butler found himself in another big controversy involving broadcasting—but this one he won.

From the outset, the networks had been told by Mr. Reinsch, convention manager, and himself a broadcaster, that the sessions would begin on time. Historically, conventions are late in starting each session with resultant losses in commercial commitments.

The important night sessions were scheduled for 8:03. Mr. Butler told the networks that to get gavel-to-gavel coverage of these sessions the starting time should be 8 p.m. The networks, following precedent, wanted an 8:30 p.m. sign-on, which would save about $125,000 in time and commercial preemptions.

At a Tuesday session with CBS Inc.'s Mr. Stanton, ABC President Robert W. Sarnoff and ABC President Robert Kintner, the networks argued that they should pick up only the important events, and do away with broadcasts of the invocations, massing of the colors and other usual preliminaries.

The networks, it was reported, agreed to the 8 o'clock starting time, but reserved the right to cut away for other important developments.

The national committee found itself involved in a minor and momentary scuffle with the radio-television correspondents over mezzanine working facilities at the convention.

Misunderstanding arose Tuesday when the committee, miffed over what it claimed to be a large number of empty seats, pre-empted the working area to the public and others holding no reserved tickets. Correspondents claimed many reporters were working at their studios or otherwise covering convention activities, and could not be present when proceedings started. The following evening the radio-television, periodical and other sections were visibly banished as such and public observers were restrained by ushers from entering.

Committee aides noted complaints of several empty seats in the gallery in justifying their decision. Not all correspondents were miffed, although on opening day, it was recalled, there were more news representatives on hand than actual delegates. Radio-television correspondents claimed the pre-emptions violated the committee agreement and ignored the nature of correspondents' duties.

Heading the correspondents are Bill Henry, convention chairman; Joseph F. McCaffrey, radio-television chairman; Willard F. Shadel, convention co-chairman, and Gilbert Kingsbury, representing independent stations.

FRIENDS AND FOES • Democratic National Chairman Butler, in his opening address Monday, accused the GOP of "sabotaging" the publicity sponsored plan for raising funds to defray campaign expenses. This was the plan proposed by Philip Graham, publisher of the Washington Post and Times-Herald (WTOP-AM-FM-TV). He said the Republicans "avoided and rejected the proposals of leaders in television and radio for public debates between the Presidential candidates of the two major parties."

This was the proposal of CBS Inc. President Frank Stanton. [Editor's Note: After CBS was attacked by Mr. Butler for its failure to carry the Democratic documentary film later that day, Mr. Graham's Post vigorously defended CBS' right to make its own editorial selection.]

REINSCH'S ROOMS • One of the busiest men in Chicago was J. Leonard Reinsch, assistant chairman of the Democratic National Committee and general manager of convention, who was operating Cox radio and television stations by remote control. Mr. Reinsch had three headquarters—on the eighth floor of the Conrad Hilton Hotel, hideaway suite across the street at the Blackstone and tactical office built into platform at amphitheater. He also maintained staff and quarters at Stockyards Inn.

LEGEMEN • Among many familiar faces at convention as working reporters: Joseph M. Bryan, president, Jefferson Standard Broadcasting Co. (WBT-WBTV (TV) Charlotte, N. C., and WBTW-TV Florence, S. C.); Fanney Ney
BUY A BIT OF YESTERDAY... FOR BIG PROFITS TODAY!

WOR-TV's "Theatre of Movie Classics"

for Sunday showing, 1:30-3 pm, 3-4:30 pm, 4:30-6 pm, 9-10:30 pm

For the first time on television...a series of motion picture hits from the fabulous Thirties.

A chance for Pop and Mom to reminisce, a chance for the kids to see the stars they've only heard about, as well as the early successes of those they know today. And a field day for everybody remembering or wondering about the clothes and cars and houses and hairdos that were the last word when these pictures made their successful bow.

And what a chance for an advertiser! To tie in with a wonderful family show virtually all day on the family's big day....Viewers tune in any time from 1:30 to 4:30, and see a complete show. And the evening showings are adjacent to "Million Dollar Movie," New York's all-time favorite feature film program.

"Theatre of Movie Classics" is just one more example of the solid and effective film programming that has made WOR-TV New York's favorite movie station...by far.
CONTROVERSY IN CHICAGO

CBS-TV proved to be the principal rather than the vehicle in the first big broadcast news story out of the Democratic Convention in Chicago last week by failing to broadcast the documentary film "Pursuit to Happiness" at the opening keynote session Monday night. The network suffered the ignominy of being publicly criticized from the podium by National Chairman Paul Butler in the first of a series of events which saw heated exchanges with CBS Inc. President Frank Stanton.

Mr. Butler charged CBS had breached its commitment to carry the film, which he described as an integral part of the keynote ceremonies Monday night, with the network using instead a forum news roundup and picking up only a few minutes of the film. He mentioned "sabotage" in his exhortation to the convention, but did not mention CBS by name. He publicly thanked NBC and ABC for carrying the film, produced by Dore Shary and narrated by Sen. John F. Kennedy (D-Mass.). There were cries of "throw 'em out" from the arena and menacing fists were shaken in the direction of the CBS booth overhanging the hall. Some CBS people were pushed around, it was reported.

First CBS reply soon was issued by Sig Mickelson, CBS's vice president in charge of news and public affairs, who said the network had no commitment to telecast the film.

Dr. Stanton quickly answered by telegram what he described as the "inflammatory attack" and denied that CBS had ever committed itself to carrying the film. Those who make the news, he said, cannot, in a free society "dictate to broadcasters, as part of the free press, to what extent, where, and how they shall cover the news. Television and radio, in covering the convention as well as all other news events, are not mere conduits which must carry everything which the newsmaker demands."

ABC President Robert Kintner, in a formal statement, and Brig. Gen. David Sarnoff, in an oral observation, backed up Dr. Stanton's position. They asserted the right of broadcast media to exercise news judgment.

Officials of Ketchum, McLeod & Grove, Pittsburgh, advertising agency for Westinghouse Electric Co. which is picking up the CBS-AM-TV convention-election tab for $5 million, expressed no concern about the incident. Several executives of the agency were in Chicago for the convention and, in fact, in the CBS booth at the time Mr. Butler exploded with his comment. Dr. Stanton and Mrs. Stanton were in a box, seated next to President and Mrs. Harry Truman.

On Mr. Butler's request a news conference hastily called on Tuesday afternoon, asked CBS formally to run the full film. In this conference, he expressed the view that the advertiser should be concerned about millions of people having been deprived of witnessing and hearing an important part of the keynote speech.

Mr. Kintner issued this statement: "ABC believes that each network must exercise its own editorial judgment concerning coverage of both the Republican and Democratic conventions.

"We believe CBS was perfectly within its editorial rights to broadcast what it believed to be of greatest public interest. The right of networks to exercise judgment on important news events is as basic as freedom of the press and freedom of speech."

NBC was represented as being "aware" from the outset that the documentary film was considered a part of the "official proceedings" and was prepared to carry the entire motion picture. Dr. Stanton, in a wire to Mr. Butler from New York, promptly rejected the DNC chairman's "formal demand" for showing and broadcast of the "Pursuit to Happiness" film on the same lineup of radio-tv stations which have carried the convention coverage.

"In the light of all the circumstances and after careful consideration, we believe it inappropriate to accede to your demand," Dr. Stanton asserted.

Neither Gen. Sarnoff, RCA board chairman, nor NBC President Robert W. Sarnoff would make any formal statement on the incident, but were represented unofficially on behalf of the network as supporting CBS' position. Gen. Sarnoff told BT Wednesday he is not "contemplating at this time" any formal comment on the controversy.

There was no public indication early Wednesday, in light of CBS' rejection, whether the DNC would press for radio-tv time to show and broadcast the 28-minute film, of which CBS carried six minutes. It was understood, however, that the matter would be dropped and no second demand would be made on the network.

CBS-TV, along with NBC-TV and ABC-TV, also cut away from a film clip of "The Best
Ask almost anybody to tick off the natural resources that make America the world's most prosperous nation. He'll mention forests and coal and oil and iron and water power.

He'll probably never mention freedom!

Yet, per inhabitant, America has less oil than Iran.
Less timber than French Equatorial Africa.
Less iron ore than Brazil.
Less water power than the Belgian Congo.

What makes our standard of living higher? The freedom of all American business, small or large, to compete for the use of our natural resources with efficiency and conservation for the greatest national good. Plus the freedom of every American citizen to benefit from the products growing out of this American business courage.

CONVENTION COVERAGE

Years of Our Lives" Tuesday evening, as a lead-
up to the appearance of Harold Russell, former
national commander of the American Veterans
for World War II & Korea and star of the
motion picture. (The networks were not expected
to cover this film clip.)

CBS-TV’s Walter Cronkite explained that the
network had no advance print of the clip and
that picking it up off the screen, rather than by
tv directly, might not prove “acceptable.”

At his Tuesday news conference Mr. Butler
relaxed his criticism of CBS to more even-
tempered tones after his Monday evening blast,
but still felt the network should “correct an
error of judgment.”

Mr. Butler asserted that media “have no right”
to edit a vital part of the program and
noted that radio-tv are "licensed and certified"
by the government “for the public domain.”
He added, however, that while he wouldn’t “go so
far as to agree” with Sen. John Bricker (R-
Ohio) on the latter’s public utility concept for
broadcasters, Sen. Bricker’s position “will have
much more public support” if similar incidents
occur.

Mr. Butler declared he does not intend to
deny networks the right to exercise editorial
judgment, but “we permit the media to cover
the convention and will expect them to exercise
better judgment.”

The DNC chairman admitted he had used
the word “sabotage” Monday evening in
describing the CBS action and still maintained it
was “in effect sabotage,” and added things may
be altered in emphasis “as one cools off and gets
a few hours of sleep.”

Mr. Butler said a problem of communications
in CBS ranks may have been involved, and
professed the “greatest admiration and respect
for Dr. Stanton.” He opined such an Incident
wouldn’t happen at the DNC, because all decisions
with respect to the keynote presentation. Mr. Butler
also noted that CBS has “been one of the
leaders in the industry and one of the most
creative networks.”

Mr. Butler while discussing Dr. Stanton, pre-
sumably referred to Gen. Sarnoff when he re-
membered reporters that “another great man—a
great leader in the broadcasting industry—has
often spoken of the ‘freedom of the American
people to see and hear.”

Butler’s Speculation

Mr. Butler also speculated as to the sponsor’s
(Westinghouse) reaction to the fact that CBS
had censored the film and as to the effect of its
coverage. He also wondered what the public’s
reaction would be to the Democrats’ request for
a “reasonable adjustment” on the film showing.

Fact that the networks had “no legal obliga-
tion” to carry the film also was recognized by
Mr. Butler. He said he had an oral commit-
ment with CBS as far back as last February and
that, at one time, he had discussed with Dr.
Stanton the possibility of putting the whole key-
note presentation on film. Lacking such insur-
ance, he added, the committee would not
have spent money on the film. He stressed, in
response to a question, that there is “no war-
fare with the networks but just a difference of
opinion,” and recognized it would be difficult
to get coverage “identical” to that of the con-
vention.

Aside from public reaction at not seeing
the whole film on CBS-TV, Mr. Butler added, the
incident could serve to “crystallize in the public
mind what restrictions in the form of legisla-
tion might be needed” to avoid such an “inus-
jutive” in the future.

Mr. Butler also complained of “very little
network floor coverage of women’s activities
for the second day of the convention, Tuesday.

As he explained to his more temperate views
from Monday, Mr. Butler said that
“If I indicated some Republicans in CBS had
played a dirty trick, I didn’t mean to,” but added
such an incident had never happened before in
keynote history.

Mr. Butler said he was not suggesting “gavel-
to-gavel” coverage of the convention (radio-tv
don’t have any more responsibility than news-
papers to carry every word—but the film was
the keynote presentation and the networks knew this.”) Mr. Butler noted that commentators Edward R. Murrow
and Eric Sevareid advised viewers CBS-TV
would carry the keynote film. He added he
was generally satisfied with overall radio-tv
press coverage of the convention to date, save
for “a few newspapers.”

While discussing editorial judgment and eval-
uation of news as between broadcast and printed
media, Mr. Butler commented:

“It was my hope that the infant medium of
television and the small boy medium of radio
would not fall into some of the habits of the
older medium of newspaper reporting.”

Mr. Butler also said he understands a “lot
of people prefer live to film programs” and
speculated, in a jocular vein, whether “this pre-
sages any CBS turn to all live shows.”

A $20,000 Bargain

The disputed film cost the DNC in excess of
$20,000 to make, which Mr. Butler termed a
“very low figure” because of gratuitous” help from
Hollywood producers and technical quarters. He said it might have cost between
$100,000 and $175,000.

Mr. Butler said he is cognizant elements of
freedom of speech and press have been raised
over the CBS action-for “freedom to spell and
hear”—and said he felt the citizen should be
able to enjoy “the right of the freedom of pre-
sentation and the right to see and hear” or the
public might favor “positive restrictions.”

The film was “much more newsworthy and
teresting than some of the programs they
had on,” Mr. Butler added.

The Monday night blast at CBS by Mr. But-
ler was a mixture of praise for ABC-TV and
NBC and expression of regret that “a major
network has failed to keep its commitment.”

To cries of “throw ‘em out!” he added:

“Ladies and gentlemen, let me say to all of
you that we had no idea that any network would
edit any part of this convention to the detri-
tment of the American people, but we shall keep
our commitment to all the media of public in-
formation, the networks and the press, so that
the people may know.”

AIR-RAIL MOVEMENT
ON TIGHT SCHEDULE

“OPERATION Transport”—by air and rail—
was geared to political convention timetables
Thursday as the major networks firmned up
plants for the transfer of electronic equipment
from Chicago to San Francisco.

ABC-TV, CBS-TV and NBC-TV seemed
hopeful, for different reasons, that primary
gear would be in place and ready to function
by late last Saturday evening, if not before that
time, and indications were they would
meet their own timetables.

All three tv networks reported they had charted their flights to, leave, with basic
equipment within six hours after the final gavel
fell on the Democratic national convention.

NBC-TV shipped out transmitter and micro-
wave equipment Thursday by train, along with
its Cadillac mobile units, while ABC-TV sent

Broadcasting • Telecasting
"Ad Age is an indispensable tool"

says JOHN H. BALLARD
President
Bulova Watch Company

"Advertising Age is an indispensable tool for this constantly changing advertising business.

I always turn to my latest copy for the latest and most extensive news in the field.

The factual approach is one I particularly appreciate and I have learned that if it appears in Ad Age, I can rely on the information."

JOHN H. BALLARD

Mr. Ballard is a modern day example of the classic Horatio Alger. At 16, he started at Bulova as a $4.00 a week office boy, and today is president of the largest jewelled watch company in the world. From 20 employees in 1909 to over 5,000 in 1956, Bulova under his direction recently exceeded $80,000,000 in annual sales.

Earlier in his career, he personally travelled the country for Bulova buying time spots on radio stations—spots that made B-U-L-O-V-A commercials world famous. Later, he became vice-president/sales and today, is still the guiding light in the firm’s advertising, merchandising and sales.

When market matters are in a state of flux, and time plays its usual major role in daily decisions, you’ll find that most of the executives guiding important sales, advertising and marketing programs rely on Advertising Age. On Monday mornings, as well as Monday evenings, AA’s reports on late news, shifts and developments get priority reading in the offices and homes of decision-makers who are important to you—not only those who activate, but those who influence important market and media decisions.

Take Bulova Watch for example. Broadcast has long played a major role in Bulova’s establishment and phenomenal growth. Its expenditure of $1,228,400* for tv spot alone ranks it among the top 11 tv spot advertisers for the first quarter of 1956. To its regular spot schedule, Bulova has added 18 stations for a total exceeding 285 on radio and tv.

Every week, 9 paid subscription copies of Ad Age are turned to by sales, advertising and other management executives at Bulova. Further, 172 paid subscription copies reach the agency handling Bulova broadcast schedules, McCann-Erickson.

Add to this AA’s similar penetration of advertising agencies with a weekly paid circulation exceeding 9,000, its intense readership by top executives in national advertising companies, its unmatched total readership of over 120,000 based on 32,500 paid subscriptions, and you’ll recognize in Advertising Age, a most influential medium for swinging broadcast decisions your way in 1956.

a station wagon and other equipment by train Thursday evening.

Each network is limited via air to 10,000 pounds. CBS-TV aimed expedient erasing and packing facilities to meet its San Francisco deadline, while ABC-TV was prepared to call on equipment from its o&o KGO-TV there. In Chicago the network utilized cameras of its o&o WBBK (V) for "WABC-TV New York. Because NBC o&o WNBQ (TV) cameras are geared for color television, that network utilized equipment from W RCA-TV New York and WRCV-TV Philadelphia.

As head of the television camera pool, NBC-TV reckoned it might be a close time-table squeeze, though it anticipated less tonnage in flight, despite cameras and associated equipment.

The network pool also includes two other flights transporting over 100 people from all three networks after the equipment had gotten off the ground.

While initial comments were sparse as of Thursday, consensus was that, generally, ban-
tamed tv cameras, along with miniature radio equipment, held their own as convention innovations during the Democratic conclave. There were difficulties in some instances, of course, but the portability of the instruments, along with visual screen effects, proved their advantages, in the view of many observers. CBS-TV utilized its Interscillation four-pound camera with portable unit as well as a lighted Lockhead vest-pocket model of revolver size. ABC-TV also used a four-pound camera development of Philo. ABC-TV emphasized it was pinpointing personalities with circled pictures, making it easy to identify them when grouped for floor interviews. NBC also used the same technique.

All told, most of the standard convention gear allowed for as many as 26 different visual effects on tv screens, including CBS-TV's technique of showing a centered picture, with adjoining inserts around the periphery. RCA also worked its experimental four-pound camera with 15-pound back-strapped transmitter.

Among equipment used successfully were radio-tv "walkies-talkies," tv "crepe-peepees," and handless telephones.

GOP'S TV EDGE IN '52 CITED IN MICH. REPORT

REPUBLICANS in the 1952 election campaign had an "initial advantage" over Democrats in the "new world of television," according to an analysis published by the U. of Michigan.

According to the 122-page report, tv coverage and content on behalf of Gen. Eisenhower outweighed that of Gov. Stevenson because of "the traditional bent of those who controlled the mass media and the greater efforts of the Republican party."

The analysis, "Competitive Pressure and Democratic Consent," is co-authored by Morris Janowitz, associate professor of sociology and research associate at the U. of Michigan's Institute of Public Administration, and Dwaine Marvick, assistant professor of political science at the U. of California (Los Angeles). The study is based on interviews by the field staff of the U. of Michigan's Survey Research Center of "a nation-wide cross section of adult citizens living in private residences," with 1,614 persons interviewed between June 3 and July 22.

Stating that tv exceeded both radio and the press as a chief source of public information about the 1952 campaign, the report said that tv, because of its visual content and suitability for creating favorable images of candidates, was especially significant for Democrats in that it "helped widen the arena of competition and offered a likelihood of offsetting the advantage Republicans traditionally enjoyed in the editorial outlook of the American press."

TV also "upset the simple formula that higher social class and educational level imply greater exposure to the mass media," the report said, for "when the middle class and the lower class were compared, the amount of television involvement was roughly equal."

On the question of whether the mass media stimulated voting, the report said nonvoting among television fans (now tv closely) was substantially less than among ordinary users of television, with a similar result for those heavily involved with the press and the same, but less markedly so, for radio listeners. For these and other reasons, the study concluded, "the data not only link voting to mass media exposure, but also indicate the differential consequences of high involvement with television, radio and the press."

In an analysis of "persistent nonvoting from 1948 to 1952," the study found that among non-media-users, 60.2% were persistent non-

voters, compared to 28.6% among ordinary media users and 11.8% among heavy media fans. Although there was a similar incidence of per-
sistent nonvoters in the tv and press audience (11.0% and 12.9%, respectively), the incidence of persistent nonvoters in the radio audience reached 25.9%, the study said.

On whether the mass media helped Republicans more than Democrats in mobilizing their respective party partisans, the report indicated the GOP partisans who voted for Gen. Eisenhow-
er showed a higher concentration of mass media fans among them (89.4%) than the Democratic partisans who voted for Gov. Stevenson (58.6%).

Intensive media exposure helped the Eisenhower vote more than that for Stevenson since the exposure for the uncommitted elec-
torate was associated with a higher proportion of Eisenhower than Stevenson voters, according to the analysis.

On whether television played a special role in the resolution of the final vote, the study concludes that tv—far from being the cause of the Republican victory—actually prevented an even greater Democratic defeat.

Lar Daly 'Equal Time' Suit Dismissed in District Court

A $2.5 million "equal time" suit by presidential aspirant Lar (America First) Daly against the major radio-tv networks was dismissed for lack of jurisdiction in Chicago Federal Dis-

tric Court Tuesday.

In sustaining dismissal motions by ABC, CBS, MBS and NBC Judge John P. Barnes did not pass on any merits of the case and suggested any such suit should be filed with the U. S. Court of Appeals. Mr. Daly was represented by Robert A. Johnsen, Jr., U. S. District Court, Northern District of Illi-

nois.

Mr. Daly, perennial candidate for Republican office, sought facilities to answer all of Presi-
dent Eisenhower's radio-tv talks since the Chief Executive's nationwide speech Feb. 29, or fill-
ing the grant of time or action by the court before the GOP convention, $2.5 million in damages. He has claimed to be a certified candidate for the presidential nomination in Illinois, Indiana and Montana.

The decision followed arguments by counsel for plaintiffs and defendants in court after the suit was filed last month (BWT, July 23, 16).
"Spot coverage with High Speed Du Pont 931 wins consistent top ratings for our newscasts!"

says Photo-News Director Dick Hance, KSTP-TV, St. Paul, Minnesota

“Our 10 P.M. newscast is the highest-rated multi-weekly show in the Twin Cities area,” says Dick Hance. “Credit for that record goes to our fast-moving local coverage and to Du Pont 931. This top-speed 16-mm. film gives us usable spot-news footage under really tough lighting conditions.

“Du Pont 931 can be pushed to give us terrific speed ratings,” continues Mr. Hance. “We figure we get just about four times the rated speed out of 931. As for picture quality, we often enlarge 16-mm. frames of traffic accidents all the way up to 8 x 10 for local police officials. Takes a pretty fine film to stand that kind of blowup!”

Take advantage of the high speed and fine quality of Du Pont High Speed Rapid Reversal Type 931 on your next TV newscast assignment. You’ll find it gives you results under lighting you’d previously thought impossible. Try a roll soon! E. I. du Pont de Nemours & Co. (Inc.), Photo Products Department, Wilmington 98, Del. In Canada: Du Pont Company of Canada Limited, Toronto.
NARTB Urged to Drop Its ‘Punitive’ Powers

NARTB should drop its “punitive” or “retaliatory” powers from the television code, National Assn. for Better Radio & Television urged last week in a manual titled Television Is Yours.

Clara S. Logan, of Los Angeles, NAFBRAT president, said the handbook covers cultural and legal aspects of broadcasting from the audience point of view, being designed as a guide "for individuals and groups who are concerned with the public-service responsibilities associated with the use of public-domain air channels."

NAFBRAT contends "a trade association, or any group of producers or distributors, has no right to discipline any broadcaster or any individual member of its group for failure to conform to the majority views as to what is proper or improper in programming content."

However, NAFBRAT said this doesn't imply "that such groups cannot or should not establish guiding criteria designed to influence the creation and production of programs," since the final decision remains with the individual broadcaster.

Only a small portion of the public knows the NARTB TV Code contains "punitive procedures which may, at the discretion of an executive board which meets in complete secrecy, be taken against any broadcaster who does not conform to the views of the board," NAFBRAT claims. This is cited as one of the major reasons NAFBRAT "strongly recommends that the punitive or retaliatory provisions (such as the threat of revocation of the right to use the so-called 'Seal of Good Practice') be abolished by the NARTB, and that the code, if it is to be retained, be basically revised into a legal and possibly valuable statement of recommended standards".

Then NAFBRAT notes that criticism has been leveled at the code and at the failure of its administrators "to take action against the literally thousands of reported violations of the provisions and principles expressed in the code."

Adding that "even the industry press has been frank to admit that the code is unenforced," NAFBRAT continues, "There is no record which has come to our attention of even one single instance in which a broadcaster has been disciplined by the NARTB for failure to comply with its TV Code standards."

NAFBRAT doesn't complain about lack of enforcement, which it feels would be "illegal censorship over a public medium of communication," but contends "the fact that it is not enforced" shows the "almost 100% ineffectiveness of self-inflicted censorship by a trade group which has assumed censorship powers which this group has no right to possess."

These powers are explicitly denied to FCC, NAFBRAT notes.

Explaining it in full accord with the code's programming principles, NAFBRAT urges NARTB to abolish the threat of reprisal by dropping all code enforcement provisions. It feels the NARTB "censorship board" through its mandatory secrecy clause, can discriminate against any station, against business competitors, or against isolated stations or producers and can stifle public criticism of program content.

NAFBRAT wonders if broadcasters "are getting the full story" from NARTB's TV Information Committee.

RAB Signs 11 New Members

RADIO ADVERTISING BUREAU has added 11 new members, according to Arch Madsen, RAB's director of station service. Included in the new members is one station representative, Radio Television Representatives, and WIRL Peoria, Ill.; WADS Ansonia, Conn.; WMSC Columbia, S. C.; KOOS Coos Bay, Ore.; KVAN Portland, Ore.; WFTC Kinston, N. C.; KSWI Council Bluffs, Iowa; WDWS Champaign, Ill.; WAAB Worcester, Mass., and KTXI Seattle.

NEW board of directors of Assn. of Maximum Service Telecasters met following formal organization meeting of the full-power tv station trade group in Chicago Aug. 10 [AT DEADLINE, Aug. 13]. L to r: Seated (officers), Ken Carter, WAAM (TV) Baltimore, second vice president; Jack Harris, KPRC-TV Houston, president; Charles H. Crutchfield, WBTV (TV) Charlotte, N. C., first vice president; Harold Gross, WJIM-TV Lansing, Mich., secretary-treasurer; standing, P. A. (Buddy) Sugg, WKY-TV Oklahoma City, Okla.; John H. DeWitt, WSM-TV Nashville, Tenn.; Howard Lane, KOIN-TV Portland, Ore.; John S. Hayes, WTOP-TV Washington, D. C.; Harold C. Stuart, KVOO-TV Tulsa, Okla.; Harold V. Hough, WBAP-TV Fort Worth, Tex.; Payson Hall, WOW-TV Omaha, Neb.; Messrs. Sugg, DeWitt, Hayes and Hough are members of executive committee. Board members absent when the picture was taken included Robert D. Sweezy, WDSU-TV New Orleans; David Baltimore, WBRE-TV Wilkes-Barre, Pa.; Don Davis, KMBC-TV Kansas City, and Joe Bernard, WGR-TV Buffalo.
RAB Details Agenda Of Forthcoming Clinic

THE “story behind the story” of three of radio’s top advertising campaigns of 1955-56 will be unfolded Oct. 29-30 during the second annual, two-day National Radio Advertising Clinic. The meeting, sponsored by Radio Advertising Bureau, is scheduled to be held in New York’s Waldorf Astoria Hotel and will feature prominent broadcasters and radio advertisers. Among them, RAB President Kevin Sweeney announced last week, will be:

- James Cobb, advertising manager of American Airlines, who will tell RAB members how his company, through its Music Through the Night series on various CBS radio owned-and-operated stations, manages to blanket major metropolitan cities with the good word about American Airlines.

- Irvin Swartzberg, president of Realemon-Puritan Co., who will explain why the bottled citrus fruit firm prefers to use radio personalities on such programs as ABC Radio’s Breakfast Club, NBC Radio’s People Are Funny and CBS Radio’s Robert Q. Lewis Show.

- Robert Breckenridge, brand advertising manager, Lever Bros.’ Pepsodent Div., who will provide the answer to those who still “wonder where the yellow went,” by explaining how Pepsodent’s fantastic sales jump (16% in four weeks) brightened the smiles at Lever House [B&T, Aug. 13].

In announcing the speakers, Mr. Sweeney said that the new techniques of radio advertising are “of intense interest to advertisers and agencies.” This was reflected, Mr. Sweeney declared, by the vast number of reservations that could not be filled for the upcoming October meeting. Other program events scheduled include panels on radio copy, marketing techniques, and new research projects.

NARTB Adds 142 Stations In Period of Four Months

NARTB membership reached a record total of 1,334 radio and 310 tv stations last week, according to Jack L. Barton, station relations manager. Since the start of last April’s NARTB convention, 123 radio and 19 tv members have joined plus 16 new subscribers to the TV Code. All radio and tv networks are members.

New radio station members are:

- WKLO Louisville; WING Dayton, Ohio;

Engineering, Publicity Firms Named to Aid in CBA Drive

RETENTION of an engineering firm and advertising-public relations company in a two- ply drive to secure a power boost for all Class IV (100-250 w) stations and to augment its station membership was announced last week by Community Broadcasters Assn., Inc., Washington.

CBA reported that it has named Kear & Kennedy, Washington, for engineering, and the firm of Bywords, also Washington, to handle publicity. CBA said that Kear & Kennedy will immediately undertake an engineering study—for fall presentation to the FCC—supporting the CBA contention that all Class IV stations can be increased to 1 kw without adjacent channel interference.

Complete returns from a CBA post-card survey of some 900-plus Class IV stations (about 700 replies) revealed that 633 favored the proposal to increase to 1-kw power with less than a score expressing definite opposition. A statement outlining the position of CBA and the 633 stations has been submitted to the House and Senate Small Business committees and CBA representatives will appear before both bodies, the association said.

CBA is headed by F. E. Lackey, president, WHOP Hopkinsville, Ky. Other officers are Robert T. Mason, WMRN Marion, Ohio, vice president; and John P. Henzel, WHDL Olean, N. Y., secretary-treasurer. Howard J. Schellenberg Jr., OLaughlin & Schellenberg, Washington, is CBA general counsel.

AAAA Committee Named

PLANNING committee members for the 1956 annual conference of the American Assn. of Advertising Agencies were named last week by Lennen & Newell President Adolph J. Toigo.

Chairman of the committee for the Nov. 27-28 meeting at the Roosevelt Hotel in New York is James J. McCaffery Jr. of Ogilvy, Benson & Mather, and an AAAA broadcast media committee member.

NARTB Plans Promotion Kit For National Television Week

NARTB is preparing a promotion kit for use by all stations in connection with National Television Week, to be observed Sept. 23-29. The kit will include news releases, suggested proclamations by mayors, tie-in ideas for use within local live programs, slide and opaque symbols and a consumer handbook, "How to Use Television," for distribution during the week. It will be the first national week on behalf of the tv medium.

Television Bureau of Advertising will provide a separate kit for station sales departments. Radio-Electronics-Tv Mfrs. Assn. is supplying kits to distributors and dealers, including stories on color tv, portable sets, remote tuning, styling, programming, display materials and other promotion aids. National Appliance Radio-Tv Dealers Assn. will coordinate promotion at the local level, with committees of telecasters, dealers and public utilities joining in activities.

Police Say Conelrad Obsolete, Ask for Commercial Uhf Only

CONELRAD was declared obsolete in a resolution adopted by the Assoc. Police Communication Officers Inc. at its 22d annual meeting in Los Angeles Aug. 2-5 while another resolution called for switch of all tv to uhf to free needed channels for public service and mobile communication stations. FCC Comr. Rosel H. Hyde attended the meeting.

The 40 delegates from the U. S., Canada, Mexico and Japan protested a modification of Conelrad rules, effective Jan. 2, which virtually forbid all broadcasting by police and fire stations during an impending attack. The resolution pointed out that aircraft and guided missiles no longer need such guides but now have more effective means of locating a target.

Still another resolution called upon FCC to reconstitute the World War II Radio Technical Planning Board for review and a new evaluation of the spectrum needs of all services in an effort to achieve higher allocation efficiency. The organization felt television would function better technically in uhf and that more stations in a market would become competitively feasible. The change to all-uhf would be made over a period of years, it was noted.

RETMA Names Policy Group For Report on Allocations

A SPECIAL Committee on Frequency Allocations has been re-established by Radio-Electronics-Tv Mfrs. Assn. to develop policy in connection with FCC's upcoming tv frequency study [BT, Aug. 13] and recommendations of the Senate Interstate & Foreign Commerce Committee.

The special RETMA group is headed by Dr. W. R. G. Baker, vice president of General Electric Co. and RETMA president. The committee will report to the RETMA board, probably in September, recommending both policy and action by the association on a proposed crash research program. FCC is expected to meet with industry groups in a few weeks.

With Dr. Baker on the special committee are E. C. Anderson, RCA; Max F. Balcom, Sylvania Electric Products Inc.; H. C. Bonfig, CBS Columbia; Allen H. DuMont Labs; Paul V. Galvin, Motorola Inc.; Larry F. Hardy, Philco Corp.; H. Leslie Hoffman, Hoffman Electronics Corp.; L. C. Truesdell, Zenith Radio Corp.

NARTB Committees Named

TWO committees of NARTB for the 1956-57 fiscal year were named Wednesday by President Harold E. Fellows. They follow:

Radio Transmission Tariffs Committee—Earl M. Johnson, WCAW Charleston, W. Va., chairman; Joseph M. Boland, WSBT South Bend, Ind.; Gene L. Cagle, KFIZ Zort Worth; George C. Hatch, KALL Salt Lake City; Fred A. Knorr, WKMH Dearborn, Mich.

Radio standards of Practice Implementation Committee—Worth Kramer, WJR Detroit, chairman; Carleton Brown, WTVL Waterville, Me.; Cliff Gill, KBIG Hollywood; Walter E. Wagstaff, KIDO Boise, Idaho. The committee will meet Aug. 23 at NARTB Washington headquarters.

NARTB Revising Handbook

NEW EDITION of the NARTB Engineering Handbook is being prepared under the direction of Raymond F. Guy, NBC, chairman of the NARTB Engineering Advisory Committee, and A. Prose Walker, the association's engineering manager.

New material will be included in the upcoming edition, supplementing the basic articles and data in past editions. Station engineers, manufacturers and consulting engineers are being contacted for original material. Topics will include towers, fm multiplex, remote control, Conelrad, uhf and color tv microwave systems. Engineers desiring to contribute original material will offer their suggestions to Mr. Walker.
The Art of Radio

HOW DO you picture sound?

According to Radio Advertising Bureau, you do it by painting it—either in oil or watercolor—then hanging it up for everyone to see. That's exactly what RAB had in mind when it commissioned 20 prominent American artists to "translate radio's impact into visual terms." The final products will be placed on exhibit this fall in New York during RAB's annual two-day radio advertising clinic. Visitors may purchase the paintings after a jury of art critics and broadcasters have picked the top three entries.

In discussing RAB's forthcoming "artiness," President Kevin B. Sweaney said "we felt radio merited an "art" as much as the steel industry or the automobile industry and we decided to help create it."

RAB to Step Up Recruiting
By New Brochure on Services

RADIO Advertising Bureau soon will step up its recruiting program with a new brochure directed at non-member stations titled "Here's What You Get When Your Station Belongs to RAB," it has been announced by Station Services Director Arch Madsen.

The booklet, designed to be read "in two minutes," will outline the variety of ways in which RAB can boost radio sales power. Mr. Madsen explained RAB's purpose in publishing the brochure by saying that "most station owners and managers do not realize the wide scope of RAB services available to individual stations as well as the industry."

As RAB members, Mr. Madsen noted, stations throughout the year receive dozens of printed presentations aimed directly at local advertisers; a complete backlog of RAB sales tools, "developed at a cost of over $2 million"; the full use of RAB research and library material; testing results and the benefit of at least two yearly "shirt-sleeves sales clinics" for station salesmen and the in-person sales presentations to national, regional or local advertisers by RAB itself.

Plan Radio Pioneers Chapter

A CHARTER to set up a Philadelphia chapter of Radio Pioneers has been issued to E. H. Felix of RCA Defense Electronic Products, Camden, N. J. Nearly 100 Radio Pioneers have been contacted within a 50-mile radius of Philadelphia.

A temporary organizing committee includes Mr. Felix; Philadelphia broadcasters John G. Leitch, WCAU; Kenneth Stowman, WFIL; Lloyd Yoder, WRCV; Benedict Gimbel, WIP; Blayne Butcher of Al Paul Lefton agency, and A. R. Hopkins of RCA, Camden, N. J.

TRADE ASSNS.

TRADE ASSNS.

PERSONNEL RELATIONS

Screen Extras Guild O.K.s Collective Bargaining Pact

By overwhelming majorities, the membership of the Screen Extras Guild has (1) approved a new collective bargaining contract with the Assn. of Motion Picture Producers and the Alliance of Television Film Producers, (2) voted to join the film industry's pension plan and (3) given tentative approval to a health and welfare program.

Results of a secret mail referendum conducted by certified public accountants were announced Wednesday night by Richard H. Gordon, SEG president, and H. O'Neil Shanks, executive secretary, in Hollywood.

The new contract, raising all basic wage classifications $2 per day, retroactive to Jan. 2, 1956, and providing other improvements in working conditions, was approved by a vote of 1,883 to 80.

On the question of whether SEG should submit to membership vote a detailed health and welfare plan costing six cents per hour presently incorporated in extras' pay checks, the vote was 1,769 "yes" and 113 "No". Pending final determination on this question, the one cent per hour health and welfare allowance won in the recent negotiations makes the extras' current wage increase $2.08 per eight-hour day, SEG said.

On the issue of whether SEG should join the Motion Picture Producers Plan, with the producers to pay 48 cents and the extras 32 cents for each straight time day, the vote was 1,748 "yes" and 204 "no". The extras will become a part of the pension plan Sept. 12. The contract provides for an additional increase of 2½% in minimum wage scales to take effect automatically on Jan. 30, 1958, with the contract to run to April 1, 1959.

Faulk Scores Points
In AWARE Libel Suit

JOHN HENRY FAULK, WCBS New York humorist, last week could claim the first round in his libel suit against AWARE Inc. and two other defendants, believed to be the first court action against alleged "blacklisting" practices in radio-tv [R-B-F, June 23].

The New York Supreme Court upheld Mr. Faulk in his contention that he had been defamed and libeled by an article linking him with communistic activities—if the contents of the article are untrue as Mr. Faulk charged. The court thereby over-ruled a defense contention that Mr. Faulk's charge of libel was "insufficient" as a cause of action.

It also agreed with Mr. Faulk that two other defenses offered by the defendants—that of "truth" or "justification," and that of "fair comment"—were inadequate.

The court did hold, however, that the "second cause of action" cited in Mr. Faulk's complaint—that the defendants had damaged him by conspiring to injure him and by publishing defamatory matter—lacked "the necessary definiteness and particularity."

Mr. Faulk was allowed additional time to amend his "second cause of action," and the defendants were given additional time in which to amend their answer to his complaint.

Mr. Faulk is second vice president of the New York Local of American Federation of Television & Radio Artists.

Defendants along with AWARE are Vincent Hartnett, writer, lecturer, and talent consultant, and Laurence A. Johnson, former Syracuse supermarket operator. Both are members of AWARE.
Zugsmith Gets $75,000 Fee

ARIZONA Supreme Court has held that John C. Mullins, former principal owner of KPHO-AM-TV Phoenix, Ariz., owes Albert Zugsmith, station and newspaper broker, $75,000 for "finding" a purchaser for the KPHO stations. The Phoenix radio-tv properties were sold in 1952 to Meredith Publishing Co. for $1.5 million. Although a jury found for Mr. Zugsmith, a lower court judge overruled the jury verdict and decided in favor of Mr. Mullins. The Arizona high court's decision reinstituted the jury verdict in favor of Mr. Zugsmith.

PROFESSIONAL SERVICE PEOPLE

William J. Flanagan, formerly press secretary to Democratic candidate Adlai Stevenson in 1952 presidential election, now group supervisor at Harshe-Rotman Inc., Chicago, elected vice president of national public relations firm.

Billy Gould, with CBS Radio and CBS-TV, Hollywood, since 1939, resigned to joined E. T. Somlyo Agency as associate. Somlyo is radio-tv and motion picture talent management firm.

Gene Ragle, former operations director, KBET-TV Sacramento, Calif., appointed director of radio and tv for Calif. State Fair & Exposition, Sacramento.

Joseph F. Richardson, vice president, Needham & Greinmann, N. Y., and formerly head of advertising and public relations, Statler Hotels, to Howard F. Dugan Inc., N. Y., hotel consultant and representative firm, as vice president.

E. J. Ade, public relations director, National Fund for Medical Education, N. Y., resigned to set up his own advertising and public relations firm after Labor Day.

Al Kingston, former merchandising counselor to ty personalities, to Theatrical Enterprises Inc., N. Y. Firm manages ty, motion picture and legitimate theatre artists, producers and directors.

Celeste F. Wessel, Long Island representative for N. Y. Herald Tribune Fresh Air Fund, and former NBC writer, to Joseph A. Suberland Inc., Garden City, N. Y., public relations firm, as account executive.

Milton Golbin, head of radio-tv desk of Chicago City News Bureau for past 10 years, resigned to join American Medical Assn. as head of AMA new publications department.

[now: About That Line]

They're handing out . . .

Me? I'm an expert on "Lines". And I'll bet you Time Buyers have heard them all, too.

In Minneapolis-St. Paul, for example, they're handing out a lot of wild claims about station ratings. But in spite of all the claims you hear, these facts remain indisputable.

1. WLOL is the No. 1 independent station in the Twin Cities.*
   (Leads all independents and 3 network stations)

2. More Twin Cities advertisers buy WLOL than any other station.
   (The sincerest kind of flattery by businessmen who are on the scene and know the score.)

3. WLOL leads all stations in the Twin Cities out of home listening.
   (Wherever they go, you are there.)

These are the reasons why you get more homes per dollar on WLOL than any station in the Twin Cities orbit.

**CELLER GROUP MAILS**

NBC and CBS get queries regarding detailed information on agreements between TV networks and producers, packagers, and distributors of programs since Jan. 1, 1954.

The House Antitrust Subcommittee, headed by Rep. Emanuel Celler (D-N.Y.), last week continued its preparations for TV hearings to begin in September in New York by sending additional questionnaires to CBS and NBC.

While Chairman Celler was attending the Democratic National Convention in Chicago as a member of the latter's Resolutions & Platform Committee, the House group's staff mailed out letters under Rep. Celler's signature to the two TV networks asking:

- Detailed information on the financial relationships and agreements between each TV network and the producers, packagers and distributors of programs which have appeared on the network from Jan. 1, 1954, to date.

- Data on discounts granted to advertisers and agencies on gross time charges on each TV network since Jan. 1, 1955.

Networks already have been asked to supply the antitrust group with all affiliation and talent contracts (BTN, Aug. 13) and CBS and NBC earlier were asked to furnish copies of all communications with the FCC since 1948 relating to dealings on television. Other information has been asked from the FCC and NABIR preparatory to opening of the September hearings.

Subcommittee spokesmen still maintained last week that no definite date has been set for beginning of the hearings next month, but a staff member earlier had indicated the sessions will not begin until mid-September or thereafter. They are expected to run well into October.

Rep. Celler's letter asked each network to list each program carried since Jan. 1, 1954, which was produced, packaged or distributed by a person or organization not controlled by or affiliated with the network, together with the name of the producer, packager or distributor. The committee wanted to know whether the network had any "direct or indirect" financial interest in each program and, if so, wants to be supplied a copy of the agreement in each case, together with all communications.

**NEW QUESTIONNAIRE**

Eight markets concerned with latest comments on proposed channel switches.

IN THE WAKE of two TV applications for ch. 5 at Lubbock, Tex. (story, page 88), numerous comments, mostly favorable, were received by the FCC last week on its proposal to change the Lubbock educational reservation from ch. 20 to 5.

Opposing any change in the Lubbock status were C. L. Trigg, who last week filed an application for that channel, and McClendon Investment Corp., which said it intended to file for ch. 5. McClendon owns KLIF Dallas, KELP-KILT (TV) El Paso, Tex.; WRT Milwaukee, and 66.4% of WGLS Decatur, Ga.

Supporting the u-v educational switch were:
- ch. 11 KCBD-TV and ch. 13 KDUB-TV, both Lubbock; S. S. Forrest Jr., mayor of Lubbock; Lubbock Municipal Ass'n; William H. Evans, chairman, board of education, Lubbock Independent School District; Lubbock Chamber of Commerce & Board of City Development; Nat Williams, superintendent, Lubbock Public Schools; Texas Technological College, which filed an application for ch. 49, and Texas Commission for Educational TV.

Other comments received on FCC rule-making proposals:

- Bakerfield, Calif.—KBK-TV (ch. 29) and KERO-TV (ch. 10), both Bakersfield, oppose addition of uhf channels 17 and 39 to that city. KBK-TV requests switching ch. 12 at Fresno, Calif., for Bakersfield's ch. 29 or assignment of both chs. 8 and 12 to Bakersfield.

- KFRE-TV Fresno (ch. 12), first proposed adding uhf's to Bakersfield, supports rule-making to add chs. 17 and 39 to Bakersfield.

- People-Rock Island, Ill.—Oppositions to deleting ch. 8 at Peoria and adding ch. 25 were filed by the villages of Roanoke and Bartonville, Ill., and the 2,300-member Peoria County Farm Bureau.

- Lexington-St. Joseph, Tenn.—Ch. 23 WMSL-TV Decatur, Ala., and TV Muscle Shoals, which said it was preparing an application for ch. 4 at Florence, Ala., both oppose the proposal to allocate ch. 11 to St. Joseph, delete educational ch. 11 from Lexington, and instead substitute educational ch. 49.

Pierre Reliance, S. D.—Mid-Continent Broadcasting & Telecasting

**BOXSCORE**

**STATUS of tv cases before FCC:**

**AWAITING FINAL DECISION:** 8

- Miami, Fla., ch. 10; Atlanta, Wash., ch. 7; Jacksonvile, Fla., ch. 12; Paducah, Ky., ch. 8; Indianapolis, Ind., ch. 13; Bakersfield, Calif., ch. 11; Charlotte, N. C., ch. 8; Orlando, Fla., ch. 9.

**AWAITING ORAL ARGUMENT:** 7

- Boston, Mass., ch. 5; Memphis, Tenn., (ch. 6) (ch. 12); Buffalo, N. Y., ch. 7; Hilo, Hawaii, ch. 15; San Francisco-Oakland, Calif., ch. 3; Pittsburgh, Pa., ch. 11; Corpus Christi, Texas, ch. 18.

**AWAITING INITIAL DECISION:** 3

- Matfield, Ind. (Owensboro, Ky.), ch. 9; Toledo, Ohio, ch. 11; Onondaga-Farmersville, Mich., ch. 10.

**IN HEARING:** 3

- Beaumont-Port Arthur, Tex., ch. 4; Cheboygan, Mich., ch. 4; Mayaguez, P. R., ch. 3.
Broadcasting Co. (KELO-TV Sioux Falls and satellite KDLO-TV Florence, both S. D.) supports the allocation of ch. 6 to Reliance and deletion of that channel from Pierre.

Lincoln, Neb.—Six comments—all from educational groups—were filed supporting the proposal to change the Lincoln educational reservation from ch. 18 to 12. Reporting in favor of the switch was U. of Nebraska, American Assn. of University Women, Lincoln branch; Nebraska division of the same organization; Steven N. Watkins, superintendent of Lincoln Public Schools; F. B. Decker, Commissioner of Education, State of Nebraska, Dept. of Education, and Donald F. Kline, executive secretary, Nebraska State Education Assn.

Glendive, Mont.—The danger of tv encroachment on public utility communications services was cited in an opposition to the proposal to assign ch. 5 to Glendive. East River Electric Power Cooperative Inc. of Madison, S. D., asked the FCC to deny the assignment to Glendive, saying the carrier is not the only one to select whenever possible, channels other than 4 and 5. East River pointed out that in the Glendive area six stations in the industrial radio communications system utilize the 72-76 mc band and would suffer interference from ch. 5 (76-82 mc). Ch. 4 is 66-72 mc.

Mt. Airy, N. C., Request

One request and one protest were received in allocations matters already finalized by the FCC. Paul E. Johnson, whose earlier request for assignment of ch. 8 to Mt. Airy, N. C. (in lieu of ch. 55), was denied last month by the FCC [BT, July 23], again petitioned the Commission to allocate ch. 8 to Mt. Airy. The protest came from the Texas Commission for Educational Tv and was against FCC action which changed the educational reservation at College Station, Tex., from ch. 3 to 48 [BT, July 23].

In one action involving a petition not yet acted upon by the FCC, Florida West Coast Educational Tv Inc. asked the FCC to deny a request by ch. 19 WTVI (TV) Fort Pierce, Fla., to move educational ch. 3 from Tampa-St. Petersburg to Fort Pierce for commercial use.

ACLU Happy No Changes In Political Equal Time Law

AMERICAN Civil Liberties Union has gone on record as favoring no change in the present law requiring that equal radio-tv time be made available to all qualified political candidates.

A statement issued by Patrick Murphy Malin, ACLU executive director, and approved by the Union's board of directors, asserted that "while major problems had developed under the regulation, on the whole, Sec. 315 has made a major contribution to fairness on the airwaves." The statement expressed satisfaction that Congress had adjourned without revising the law.

The Union voiced opposition to various proposals made in the recent congressional session that would amend Sec. 315 to permit stations to accept paid political parties, without allotting equal time to smaller parties. ACLU argued that such recommendations would not cope with "one major part of the problem: the economic difficulties in securing equal time for agencies and other public controversy on the airwaves." The statement contended that "these proposals would result in all smaller parties being kept off the airwaves, which is contrary to the democratic and civil liberties concept of discussion for all."

TRIPLE TREAT to SALES SUCCESS

Commission Approves WJR, WJRT (TV) Sale

RELINQUISHMENT of control of WJR Detroit and WJRT (TV) Flint, Mich., by Mrs. Frances S. Parker, widow of the late G. A. Richards, through sale of almost 30,000 shares to station executives and family members was approved by the FCC last week. Total consideration involved was nearly $300,000.

During the past few weeks, Mrs. Parker has reduced her ownership to 29.99%, disposing of 73,906 shares at $10 per share [BT, Aug. 6]. The shares have gone to John F. Patt and family, 25,000; Worth Kramer, 12,406; William G. Richards, 7,000; Seldon S. Dickinson, 1,000; Mrs. Rozene Moore (Mrs. Parker's daughter) 16,000 and F. Sibley Moore (husband of Mrs. Moore), 8,000.

Commenting on the sale, the station said: "Stock purchase by the directors achieves close integration of active management with ownership and is expected to end rumors that the station is to be sold to outside interests."

Ownership Change Approvals Sought by Three Stations

AMONG station ownership change applications filed for FCC approval last week were those involving WROL Knoxville, Tenn., WIU Kokomo, Ind., and KGW Stockton, Calif.

WROL, which operates on 620 kc with 5 kw, was sold by Paul Mountcastle to Greater East Tennessee Tv Inc., of which Mr. Mountcastle owns 37.43%. Consideration is reported at $275,000 in cash and notes. Other principal East Tennessee stockholder is Clarence Bean Jr., 14.29%, former owner of WKGN Knoxville. Greater East Tennessee Tv Inc. is licensee of ch. 6 WATE (TV) Knoxville.

WJU (1230 kc, 1 kw) was sold by North Central Indiana Broadcasting Co. to John L. Booth for $180,000. Booth interests include WILB-WBRI (FM) Detroit; WBBC Flint, WSGW Saginaw, WBIM Jackson, all Mich., and WJVA South Bend, Ind. Because of the proposed WJUO purchase, Mr. Booth last week asked the FCC to dismiss his application seeking a new am station in Lansing, Mich. Knorr Broadcasting Corp. and Capitol Broadcasting Corp. are also seeking the Lansing facility—730 kc.

KGW was sold by Delta Broadcasting Co. (James E. Longe and Lewis B. Saslaw) to Western Broadcasting Co. for $85,000. Western principals are equal owners Douglas D. Kahle, owner of KWIN Ashland, Ore., and businessman Robert J. Ramsey. KGW operates on 1230 kc with 250 w.

Chain Accepts FTC Order

THE Federal Trade Commission has announced that the 1,350-store United Cigar-Whelan Stores Corp. has accepted consent settlement of an order directing the chain to stop "knowingly inducing or receiving" from suppliers promotional allowances not made available to all its competitors. FTC last March charged that United Cigar-Whelan chain had induced and received from suppliers special allowances in return for promotion of their products on the chain's tv shows. These allowances violated the Robinson-Patman Act, FTC said, as unfair competition.

Speed UHF Research, McConnaughey Urges

EARLY IMPLEMENTATION of a "crash" research and development program to upgrade UHF equipment and bring about a more effective television broadcasting system was called for by Friday, FCC Chairman George C. McConnaughey in an address to the West Virginia Assn. of Broadcasters, meeting at the Greenbrier Hotel, White Sulphur Springs. He addressed the Friday dinner session of the Aug. 17-19 meet.

Mr. McConnaughey referred to his meeting a fortnight ago [B+T, Aug. 13] with Dr. W. R. G. Baker, RETMA presidente, at which it was planned to invite all segments of the industry some time next month to formulate means of organizing the research program. RETMA last week announced the re-establishment of a Special Committee on Frequency Allocations to develop policy with respect to the FCC's frequency study and recommendations to the Senate Interstate & Foreign Commerce Committee (see separate story).

The FCC chairman said he saw "useful advantages" in the formation of a non-profit organization that would coordinate the work in the UHF development program. He noted that such an organization could be available to receive gifts, donations and grants.

Mr. McConnaughey acknowledged that there are many difficulties to conquer along the road to a more competitive broadcasting system, but he said, "...the goal offers the best hope on the horizon for facilitating the expansion of this nation's tv service to the levels where ingenuity, spurred by active competition, can carry it." He expressed optimism that the task would be achieved, despite the dimensions of the problem, saying, "...as a citizen of a country which can send its aircraft hurtling through the sky at speeds approaching 2,000 miles an hour, which is preparing to launch an artificial satellite capable of encircling the globe several times a day, and which is exploiting the atom for manifold industrial uses, how can I doubt the capacity of the engineers in this land to surmount the obstacles which until now have impeded progress in the utilization of the UHF portion of the spectrum for effective TV broadcasting."

Any transition to UHF would be gradual, the chairman pointed out, stating, "I want to emphasize that there is no threat of precipitate action which at a single thrust would obsolete VHF receiving and transmitting equipment in which the public and the broadcasters have made tremendous investments. But every receiver has a limited life span, and depreciation at permissible rates can meet the financial problems of VHF broadcasters who may at some future date be required to replace their present facilities with UHF equipment."

Bremen, Ga., Grant Affirmed

FCC Hearing Examiner Basil P. Cooper issued an initial decision last week affirming the Commission's Nov. 2, 1955, grant to West Georgia Broadcasting Co. of a new FM station (formerly WWCS, now WWCC) to operate on 1440 kc., 500 w daytime, in Bremen, Ga. The grant had been protested by WLBB Carrollton, Ga.

Examiner Cooper decided that WLBB had failed to sustain its burden of proof under claims of alleged multiple-ownership violations, economic injury and a charge that West Georgia was not financially qualified to build and operate the proposed station.

12th Afternoon Spots Available on KCRA-TV

The Senator says, "It's in the Book!"

ARB credits KCRA-TV with a Noon to 5 P.M. average rating of 12.8, an average Share of Audience of 75.5%.

In this four-station market no other station leads KCRA-TV in any quarter hour of this time period.

Choice station breaks and one-minute participations are still available at low afternoon rates.

Petry has the book that shows how strong day and night programming has made KCRA-TV the highest rated NBC station in the West.

*All ratings compiled from Sacramento Television Audience ARB; June 2-6, 1956

Nationality of Jesuit Head Cited in New Orleans Case

CITIZENSHIP qualifications concerning Loyala U., New Orleans, have been questioned by James A. Noe, NIBIC spokesman, asked the FCC to reconsider its decision of last month granting ch. 4 New Orleans to the university (WWL) [At Deadline, July 16]. The Commission denied the competing application of the New company and "WIPS New" (Times-Picayune), latter of which was favored in a July 1955 initial decision by FCC Hearing Examiner Elizabeth C. Smith.

Crux of the Noe argument is the legal status of Loyala, operated by the Society of Jesus. Contending that effective control over the university is exercised by the Superior General of the Society of Jesus, who is a citizen of Belgium, Noe draws a parallel between Loyala U.'s "Christianity and that of a foreign corporation. Noe told the FCC that it lacks "statutory power to grant a construction permit and license to a non-profit corporation . . . which cannot meet the citizenship standards required of other applicants."

WISC-TV's Immell Scores Critics of FCC's Doerfer

EDITORIAL criticism of FCC Comr. John C. Doerfer for his presence at dedication ceremonies of ch. 3 WISC-TV Madison, Wis. [B+T, Aug. 13], was a "false, low and unwarranted personal attack" by "conspiratorial" interests, Ralph M. Immell, WISC-TV president, has charged. Mr. Immell took to the air on ch. 3 Sunday night, Aug. 12, to repudiate implications of impropriety raised by the Madison Capital Times and the Wisconsin State Journal concerning Comr. Doerfer's attendance at the WISC-TV ceremonies. The newspapers had principals in the unsuccessful application for the Madison channel.

Mr. Immell's address also was carried as a full-page, paid advertisement in the Aug. 13 issue of the Capital Times. Mr. Immell contended that the basis for the newspaper's criticism was their failure to obtain the ch. 3 permit. He further said that because the newspaper was contemplating the purchase of ch. 33 WMTV (TV) Madison, they are attempting to keep ch. 3 out of that city. Historically, government officials participate in dedicatory ceremonies, Mr. Immell stated.

WLAQ Rome, Ga., Sold By Graham to Melof

FCC last week was asked to approve the $50,000 sale of WLAQ Rome, Ga., from Cary L. Graham (to Mitchell Melof [business name Don Mitchell], only one month after the FCC approved Mr. Graham's purchase of the station from the News Publishing Co. (Rome News-Tribune). At that time Mr. Graham paid $17,000 plus assuming certain debts and obligations of the station.

Mr. Graham also owns WETO Gadsden, WANA Anniston and WEDC Piedmont, Ala. Mr. Melof is former commercial manager of WGST Atlanta and before that was manager of WQXI in the same city. WLAQ (1410 kc., 1 kw) is affiliated with ABC. The Graham-Melof sale was negotiated by Blackburn-Hamilton Co.
Commission Plans to Issue Decisions in Printed Form

THE FCC is planning to issue decisions and orders in printed form instead of in mimeographed shape, as it has been doing since its establishment in 1934.

Arrangements are being worked out with the Government Printing Office so that decisions and orders will be published in one printed pamphlet each week. Details have not yet been decided completely, but it is understood that the new system may be instituted Jan. 1.

Change in the Commission's announcement procedure was disclosed in a report published by the House Government Information subcommittee.

A subcommittee spokesman said attorneys and others concerned with FCC decisions are required to go to the FCC offices to find the results of Commission decisions—or to subscribe to the Pike & Fischer service which prints FCC and other government agency actions.

Although FCC decisions are printed, this is often "five years" behind the date the decisions are published, the spokesman said.

Under the contemplated move, decisions and orders would be mimeographed immediately for distribution to parties involved in the cases and to newsmen. The printed pamphlet would be available to others at a fee from the GPO once a week.

The House subcommittee's report (H Report 2947) criticized the refusal by government agencies and executive departments to furnish information to the public and Congress, and particularly those which have cited the President's 1954 order prohibiting the Defense Dept. from revealing communications within the department during the Army-McCarthy hearings.

The subcommittee spokesman said the House group intends to call on the Justice Dept. for testimony in this regard. Justice only last month cited the presidential order in denying access to its files by a House Antitrust subcommittee investigating the AT&T consent decree.

WTVW (TV) Start Protested

REQUEST of the FCC by ch. 7 WTVW (TV) Evansville, Ind., for special temporary authority to commence commercial operation tomorrow (Tuesday) [AT DEADLINE, Aug. 13] has been protested by now dark ch. 21 WKLO-TV Louis ville, Ky., which last week asked the FCC to set WTVW's STA request for hearing. WKLO TV alleged that WTVW has made building preparations for its tv operation "totally different from that authorized by the Commission" in the construction permit. WKLO-TV said that WTVW's cp called for a 462-ft. tower and RCA transmitter, whereas the station has constructed — without authority—a 380-ft. tower with Du Mont transmitter. WKLO-TV's protest was accompanied by pictures purporting to show that WTVW had engaged in unauthorized construction.

Hall Names GOP Aides

THREE appointments in the Republican National Committee have been made by GOP Chairman Leonard W. Hall. Nyle M. Jackson, Seymour, Ind., will serve during the convention as assistant chief sergeant at arms of the radio-tv section and Russell D. Rouch, Springfield, Ohio, will perform the same function in the press section. Lyle O. Snader, minority clerk of the House of Representatives, will head a "newly-enlarged" speakers bureau for the 1956 campaign.
Two File for Lubbock VHF; Third Applicant Expected

THE LAST available vhf assignment in Lubbock, Tex.—ch. 5—vacant since December 1954 when former KPOV-TV was deleted, will have center of activity last week with two applications for that channel filed with the FCC and the announcement that a third application will be filed shortly. Last month [B&T, July 23] the FCC issued a notice of proposed rule-making which would change the Lubbock educational reservation from ch. 20 to 5. Lubbock’s tv allocations are chs. 5, 11 (operating KCBD-TV), 13 (operating KDUB-TV), 20 (educational) and 26.

Texas Technological College of Lubbock filed one of the requests for ch. 5, proposing to use it on an educational basis. The non-profit institution simultaneously petitioned the FCC to designate ch. 5 as educational. Texas Tech plans 11.1 kw visual effective radiated power with antenna height of 444 ft. above average terrain. The school plans to spend $88,189 for construction and $36,000 for first year operation.

C. L. Trigg, owner of ch. 7 KOSA-TV Odessa, Tex., also seeking the Lubbock channel, proposed 100 kw visual power, antenna of 705 ft. above average terrain and an ABC-TV affiliation. Mr. Trigg would spend $325,032 for construction, $500,000 for first year operation and anticipates a first year revenue of $625,000.

Multiple station owner McLendon Investment Corp. (KILT TV) El Paso, other stations, opposing the FCC proposal to change the Lubbock educational reservation, indicated that it would soon file an application for commercial operation on ch. 5. McLendon referred to Texas Tech’s petition as an attempt by the school to “immunize itself from a hearing,” pointing out that nothing prevents the school from applying for the channel as presently allocated and then operating it on a non-commercial basis.

The proposed change in the Lubbock educational reservation received favorable response from KDUB-TV, KCBD-TV and several other groups (see separate story). McLendon Investment Corp. and Mr. Trigg filed oppositions. Deadline for comments was last Wednesday.

Scripps-Howard Appeals FCC Knoxville Denial

AN APPEAL from the FCC denial of its protest against the grant of a modified construction permit to WBR-TV Knoxville, Tenn., and a motion to stay Commission action of Aug. 9 which granted WBR-TV special temporary authority to begin commercial operation were filed in the U.S. Court of Appeals last week by Scripps-Howard Radio Inc. (WNOX Knoxville). In granting WBR-TV special operating authority on ch. 10, the FCC found that prior construction allegations by WNOX were of such minor account they could not be considered significant.

WNOX told the Court that the modified permit was illegal because it was granted by the Chief of the FCC Broadcast Bureau in excess of his authority. WNOX also claimed that WBR-TV’s proposals under the modified permit were in substantial variance to the original proposals and raised questions of WBR-TV’s financial qualifications to proceed with the new construction. WNOX said it was prepared to prove that WBR-TV commenced construction before it received an authorization to do so.

Hodge Timebuying in Illinois Spotlighted in ‘News’ Report

DEPOSED Illinois State Auditor Orville Hodge channeled $6,000 of taxpayers’ money into a spot radio-tv campaign on Illinois stations during last April’s primary elections, the Chicago Daily News reported Aug. 8 in an exclusive story.

The Knight Newspaper, which is credited with breaking the $1.5 million scandal involving the state auditor’s office, claimed that Mr. Hodge sent a personal check on the Southmoor Bank & Trust Co. to Commercial Broadcasters Radio Adv. Agency, Chicago, in payment for 300 announcements “on virtually every Illinois radio and tv station.” It quoted Michael Edelson, a member of the agency, as reporting a bill of $6,245.01, with the agency contributing the sum above $6,000 to Mr. Hodge’s campaign.

According to the Daily News story, Richard Stengel, Democratic candidate for U. S. Senator, has asked Leonard W. Hall, chairman of the Republican National Committee, that the Republicans “refund” the money to the state.

Mr. Hodge paid for the time with a check on the Southmoor Bank, though he had no account there, the News alleged, adding that over $43,000 in forged state warrants (checks) were cashed there while Mr. Hodge was state auditor. Mr. Hodge and other principals are under 54 federal indictments for misapplication of funds in a federally-insured bank, and the former state auditor also faces 46 state indictments for embezzlement.

FCC Members Assigned To Fall NARTB Meetings

THE seven members of the FCC have been assigned dates for appearances at the approaching series of NARTB regional meetings, starting Sept. 17 [B&T, Aug. 13]. Commission members were invited by NARTB to participate in the industry sessions, with assignments made within the Commission itself as was the case last year.

NETWORKS JOIN FTC-SPONSOR HASSLE

Trade Commission charges against nine clients who used in-store promotions prompts promise of legal support.

NETWORKS rallied last week to the defense of their respective merchandising plans—and of clients using these in-store promotions whose propriety has been challenged indirectly by the Federal Trade Commission [B&T, July 30].

CBS Radio President Arthur Hull Hayes announced that his network will seek to become "an active participant" in various proceedings in which FTC charged nine major manufacturers with violating the Robinson-Patman Act through the use of various merchandising arrangements offered by CBS, NBC and ABC.

The FTC did not name the networks as defendants in the proceedings. But, Mr. Hayes said, CBS Radio attorneys have been instructed to prepare a petition to intervene in those cases where CBS Radio's Supermarketing Plan is involved. If the petition is granted, he said, CBS Radio will take "a vigorous role in defense" of its Supermarketing Plan and the use of the plan by its advertisers.

Plants of NBC and ABC were not formally announced. It was learned, however, that each intends to go to the assistance of its respective clients who were named defendants by FTC. Neither one, apparently, has yet decided just what form this assistance will take.

NBC authorities, for instance, said they intend to assist defendant-clients "in every way possible" in fighting the FTC litigation but that, as of the moment, they were inclined to think it would not be necessary to "intervene"—as CBS Radio proposes to do—in order to give maximum assistance.

Emphasizing that no final decision has been made as to procedure, however, they made plain that the question is still being considered and that present thinking accordingly may be reversed and intervention sought.

ABC was reported to be inclining toward the same general thinking—that of assistance to clients without actual "intervention."

The merchandising plans involved are those of network-owned stations. The defendant manufacturers are accused, in effect, of paying retail grocery chains for in-store promotions of their products without making the same allowances available to all other customers proportionately.

FTC claims they did this by buying time at regular card rates on network-owned stations that offer in-store promotions of their products as a "special inducement" for buying time. The in-store promotion privileges generally are obtained by stations in exchange for free spot announcements for the stores involved. According to FTC's reasoning, the defendant-manufacturers, by using merchandising plans, were in effect giving the participating chain outlets promotional allowances which they were not offering other retail customers.

Most of the defendants have declined specific comment on the FTC charges, other than general denials [B&T, Aug. 6].

Six Productions Scheduled
By NBC-TV Opera Theatre
THE NBC-TV Opera Theatre last week scheduled six productions—including both an American premiere and a world premiere—for its eighth consecutive season beginning Nov. 18. All operas will be performed in English dress, with "at least half of them" to be seen in color, according to Producer Samuel Chotzinoff.

The season will get underway with Giacomo Puccini's "La Boheme," followed on Dec. 16 by NBC-TV's annual presentation of Gian Carlo Menotti's "Amahl and the Night Visitors." On Jan. 13, the NBC-TV Opera group will present the U. S. premiere of Sergei Prokofiev's "War and Peace," and on March 10, the world premiere of Stanley Hollingworth's "La Grande Bretelerce.

Other presentations scheduled are Giuseppe Verdi's "La Traviata" (Feb. 16) and Richard Strauss' "Elektra" (April 21). Continuing as staff for the company will be Mr. Chotzinoff, Peter Herman Adler (music director), Kirk Browning (tv director) and Charles Polacheck (associate producer). In addition to the six tv programs, the company also will embark on its national tour Oct. 11, returning to New York Dec. 9.

Arbitration Assn. to Hear Hal March Issue Sept. 26
A PROCEEDING involving tv star Hal March for alleged breach of contract is slated for 11 a.m. on Sept. 26 at the offices of the American Arbitration Assn., New York.

The action is being taken by two broadway producers, Alexander H. Cohen and Ralph Alswang, who also have a $250,000 suit pending in New York Supreme Court against cosmetics manufacturer Revlon Inc., New York, charging the tv advertiser with persuading Mr. March to break his contract to star in a comedy to have been called "The Brass Section" [B&T, July 2].

In the arbitration session, Herman Levin, Morris Mitchell and A. L. Berman will make up the board that will decide the issue. Mr. Levin, also a broadway producer, will represent Messrs. Cohen and Alswang; Mr. Mitchell will act on behalf of Mr. March, while Mr. Berman will serve as an impartial arbitrator.
NBC ACCELERATES ITS COLOR EXPANSION

Network's yearlong $12 million project to hit high mark this fall with opening of new facilities in New York, Brooklyn and Burbank.

The bulk of NBC's $12 million expansion of its color facilities within the past year—three new color studios and other new color facilities—will be placed into service this fall. NBC is reporting today (Mon.) that the Ziegfeld Theatre, "Brooklyn Two" and "Color City Four" at Burbank, Calif., are included as well as the installation at Color City of a recording system using lenticular film (new development of NBC, RCA and Eastman Kodak Co.).

The latter system, according to NBC, will be operating at the start of the fall season and will permit the network to present color programs on the West Coast on the same time-delay basis now standard for black-and-white.

The plans for these studios and other expansion which will double NBC's color production had been disclosed last fall by Brig. Gen. David Sarnoff, board chairman of RCA and then also of NBC (B-T, Nov. 7, 1955).

The Ziegfeld Theatre in the Broadway section of New York that has been converted into studios by NBC has its facilities concealed, thus retaining the theater's traditional appearance. The network said the Ziegfeld will make "an ideal showplace for televising big entertainment events that call for a first-night atmosphere."

Breath of Contract Suit Filed Against NBC by Martin, Lewis

DEAN MARTIN and Jerry Lewis filed a $3 million breach of contract suit against NBC in the U.S. District Court at Los Angeles last week attacking the network's refusal to carry out a five-year personal appearance agreement made earlier this year.

The comedy team charged that its production, York Pictures Corp., a New York corporation, signed a contract with NBC Feb. 15, 1956, covering a series of tv programs to begin this September. The complaint said the agreement covered four programs each season for five years with NBC to pay $250,000 for each show, live or on film. The contract specified that NBC would notify York of the telecast dates for the next season by July 1 of each year, the suit court explained, although the deadline this year was extended to Aug. 1.

The complaint charged that on July 25 NBC notified York in writing that it would not comply with its obligations to York and repudiated the contract. The suit said that on or about Aug. 1, York informed NBC of its continued "readiness, willingness and ability to fully perform its obligation under said agreement" but about the same date NBC "unequivocally and in writing reaffirmed to York, NBC's repudiation of the aforesaid agreement."

The suit was filed in behalf of York by the Los Angeles law firm of Pacht, Ross, Werne & Bernhard.

Martha Raye Scheduled To Leave Miami Hospital

COMEDJENNE Martha Raye was scheduled to be discharged from Miami Beach's St. Francis Hospital over the past week-end after a near-fatal overdose of sleeping pills last Tuesday. A close friend of the star and her manager (and ex-husband), Nick Condos, also said that Mr. Condos had told him Thursday the police would not press charges against Miss Raye for attempted suicide, as had been reported earlier. The friend asked that his name not be revealed.

Miss Raye, according to intimate friends, had been despondent for several months. In Florida to establish residence in order to obtain a divorce from dancer Ed Begley, she had been performing at The Beachcomber up to Aug. 12. The divorce petition was denied Aug. 10 on grounds that Miss Raye had established a "paper residence" only.

Signs Marx Exclusively

NBC last week reported that Groucho Marx and John Guedel, star and producer of You Bet Your Life (NBC-TV, Thursday, 8-8:30 p.m., NBC Radio, Wednesday, 9-9:30 p.m.) last week were signed to a long-term contract effective this September. The new agreement—negotiated with NBC by Gummo Marx, Groucho's brother and agent, and Laurence W. Bellenson, attorney for Messrs. Marx and Guedel—provides for the humorist's exclusive NBC radio and television appearances and similar production services of Mr. Guedel on the Life program.
Hospital Releases Sullivan

ED SULLIVAN, host of the CBS-TV show bearing his name, was released Aug. 13 from Griffin Hospital, Derby, Conn., where he had been recovering from injuries suffered in an automobile accident Aug. 6 near his Southbury, Conn., farm. [B&T, Aug. 13]. CBS-TV reported that Mr. Sullivan had been advised by his doctors not to appear on the Sunday night show for three or four weeks. Mr. Sullivan received a broken rib and other less serious injuries.

NETWORK PEOPLE

Jerry Bowne, radio-tv producer, named producer of Glamour Girl show on ABC-TV Western Regional Network.

Victor Wolfson, author and playwright, appointed associate producer of CBS-TV Climax.

Dave Garroway, host on NBC-TV's Today and Wide World, married August 7 to Pamela Wilde Kastner de Coninck, formerly on production staff of Elliot, Urger & Elliot, N. Y. film firm.

PROGRAM SERVICES

PROGRAM SERVICE PEOPLE

Stanley J. Kavan, sales manager of albums, Columbia Records Inc., N. Y., to additional post of coordinator, popular albums artists and repertoire. Other CRI appointments: John Lothrop, recording operations editor, to manager of office services, and Albert R. Kelbach, catalogue supervisor, to supervisor of file and stenographic services.

Al Freedman, freelance tv writer, named producer of Barry & Enright Productions, Monday-Friday NBC-TV giveaway, Tie Tac Dough.

Alan Surgal, tv writer and author, and Mrs. Surgal (Florence Small, agency editor, Broadcasting-Telecasting), parents of son, Thomas Jordan Surgal, born Aug. 14 in New York.

In and On the Air

WHEN you're too busy to accept announcing bids for tv commercials in other cities, the best thing to do is buy your own plane. At least that's what Bill O'Connor, Chicago freelance radio-tv pitchman, has done. Generally regarded as the city's busiest announcer, Mr. O'Connor found last year he couldn't keep up with offers to handle tv spots in Detroit, Cleveland, St. Louis and other midwest cities. So the 31-year-old announcer took flying lessons, obtained a license and bought his own Piper Tri-Pacer plane. Over a fortnight ago Mr. O'Connor took off from Chicago's Ravenswood Airport for Lambert Field in St. Louis—and his first out-of-the-city tv spot assignment.

MANUFACTURING

Tv Sets Will Be Smaller, But Not Pictures—Baker

THE trend in tv receivers will be smaller models offering the same size picture screens, according to Dr. W. R. G. Baker, vice president of General Electric Co. and president of Radio-Electronics-Tv Mfrs. Assn. Speaking last week at a management institute held at American U., Washington, Dr. Baker said new picture tubes will have an opening angle of 110 degrees compared to the current 90 degrees, permitting a cut of four to five inches in depth of receivers.

When the new tubes eventually are put into portable models, he said, they will be "more desirable" than at present. He said the consumer "wants the set to come to him—he doesn't want to have to go to the set."

Output of portable tv sets totaled 326,000 in the first half of 1956 compared to 50,000 in the same 1955 period, he said, predicting development of battery-transistorized sets when design problems are overcome.

Meck Sells His Interests

In Scott Radio Labs Plant

SCOTT Radio Labs plant in Plymouth, Ind., was reported to be on the sales block last week after confirmation of reports that John S. Meck, former president of the set firm and now advertising executive, has completed disposal of his majority interest.

Mr. Meck, who last July joined the Martin Co., advertising agency, as director of technical product merchandising and was elected vice president, confirmed he has sold his 52% interest to Benjamin Smith, head of Monogram Mfg. Co., Culver City, Calif.

While Scott Radio Labs still remains a corporate entity, Mr. Meck said, it has not manufactured any radio sets under the Scott or Meck names at its Plymouth plant since early this summer. It was not known whether the Scott name would be retained by Mr. Smith's firm.

Mr. Meck entered the electronics manufacturing field in 1939 with a small plant turning out phonographs and sound systems and two years later moved to Plymouth on war production work. Later he produced low-priced radios and entered the tv receiver field.

Portables Set Sales Pace, Officials of Emerson Say

EMERSON'S sales pacers in radio-tv are portable tv sets, the new portable tv-phonograph-radio and transistor radios.

Benjamin Abrams, president of Emerson Radio & Phonograph Corp., told a distributors' convention in New York last week that portable tv sets accounted for 20% of this year's unit sales and 15% of the dollar volume at his firm. He predicted portable tv within three years will boost industry sales from a current 7 million to 10 million.

Another Emerson executive, Dorman D. Israel, executive vice president and general manager of the tv-radio-phonograph division, declared that the tv "Phonoradio", as Emerson calls its portable that also can be operated from an automobile, is selling faster than any other tv receiver ever produced by the company.

This outlook on Emerson's receiver production was presented along with a preview to the distributors of the 1957 line of radios, tv sets and phonographs. Among the models is a 21-inch color console which is list priced at $678.
Admiral Earnings Decrease During First Half of 1956

CONSOLIDATED sales and earnings of Admiral Corp. for the first half of 1956 decreased from the same period last year, according to John B. Huaria, executive vice president and treasurer.

He reported sales for the first six months of this year as being $85,834,325, compared to $94,018,923 during that period in 1955 (a 9% drop) and earnings after taxes of $1,748,055 (74 cents per share on 2,362,096 shares outstanding) as against $1,946,192 (equal to 82 cents per share). Profits before taxes rose, however, from $2,845,413 that period last year to $3,371,334 in 1956.

Mr. Huaria, in his Aug. 12 report, attributed the apparent drop in sales and earnings to late introduction of Admiral's 1957 tv line (June 28) and said a substantial amount of orders already booked will be reflected in the company's third quarter statement.

RCA Plans 3 1/2% Price Boost In Monochrome TV Receivers

COST of most RCA black-and-white tv sets will be increased an average 3 1/2% Sept. 1, C. P. Baxter, vice president and general manager of RCA's television div., reported Thursday.

RCA Victor's line of 10 color tv receivers, beginning at $495, is not affected.

While color remains the same in price, RCA hinted that only anticipated "increased volume and mass production techniques" prevent a hike also for that commodity.

RCA insisted, however, that its increases, which will range from 1 1/4% to 10% according to the model (and with the prices of some monochrome receivers remaining the same), were hastened by higher labor and material costs. RCA noted that some of the "leading" set makers had increased prices of their receivers in the past two years, during which time RCA "has substantially maintained a price level" on its monochrome sets.

Mr. Baxter declared that RCA's new price schedule "reflects only relatively minor upward revisions of our present prices." He added that while RCA, at the time of its introduction of the 1956-57 line of monochrome receivers, decided to hold the price line as long as possible despite "spiraling" labor and material costs, "recent unforeseen rises in overall costs have forced us to reflect these increases in our price structure."

Philco Prices Up 10%

PHILCO Corp., Philadelphia, advised its distributors last week that prices of most of its products will be increased up to 10% in the near future. Philco Executive Vice President John M. Otter said the move is necessary because of the recent increase in the price of steel and higher labor costs. The firm manufactures tv, radio and tv receivers, phonographs and major home appliances.

RCA Ships Equipment

COLOR CAMERA, antenna and transmitter shipments reported by RCA included three vidicon color film cameras to WRCV-TV Phila.; KPIX-TV San Francisco and NBC, New York; live studio color camera to KRAD-TV Wichita; six-section superlustrite vhf antenna to KXLF-TV Butte; vhf transmitters—25 kw amplifier to KHLV-TV Chico, Calif., and 50 kw amplifier and 2 kw standby for WDEF-TV Chattanooga, and 25 kw uhf transmitter (amplifier) for WBRE-TV Wilkes-Barre.

Olympic Now Unitronics

STOCKHOLDER approval has been granted to change of the corporate name of Olympic Radio & Television Inc. to Unitronics Corp. [B&T, June 11]. Named president of the new corporation is B. W. McNaughton, former president of the old Belmont Radio Corp., and vice president in charge of new corporate name. Olympic is now known as Unitronics' three divisions, Olympic Radio & Television, Olympic Television, and Presto Recording Corp.

Manufacturing People

Harold C. Mattes, formerly president of Raytheon Mfg. Co. and co-founder of old Belmont Radio Corp., elected vice president in charge of private label division of Halcrafters Co., Chicago, which recently purchased Raytheon-television sets, radio and tv and radio tools and other equipment.

Kenneth P. McNaughton, retired major general, U. S. Air Force, named director of west coast operations, Fairchild Camera & Instrument Corp., Syosset, N. Y. He will headquarter at L. A.

Dr. Hans Christoph Wohlrab, chief engineer, Siemens & Halske (electrical supplies, tv, film equipment), Karlsruhe, Germany, to director of engineering, professional equipment & instrument division, Bell & Howell Co., Chicago.

John M. Spooner, manager of RCA's kinescope servicing plant, Sellersville, Pa., to manager of firm'sFindlay, Ohio, plant (high-voltage transformers and deflection yokes). Anthony L. Conrad, manager of RCA missile test project at Patrick Air Force Base, Fla., elected vice president, RCA Service Co.

Alice Close, formerly with Sylvan Ginsbury & Co., publisher of electronic components and testing equipment, to export manager, International Div., Allen B. DuMont Labs, N. Y. Peter Weil, special analyst in charge of finances, planning and control, DuMont Labs, to assistant manager, technical products division.

John P. J. Finnis, formerly with Brookes, Smith, French & Dorrance, N. Y., to David Bogen Co., (high-fi sound reproduction equipment), N. Y., as assistant advertising manager.

Thomas J. Murphy, special sales representative for electric ranges and home appliance equipment, Philco appliance division, Phila., named manager of premium sales for corporation.

Michael F. Dowley Jr., formerly with R. H. White, Boston department store, in executive sales capacity, to RCA International Div., N. Y., as director of consumer products marketing department.

Dr. Allen B. DuMont, board chairman, Allen B. DuMont Labs, will address Texas Electronics Assn. convention Friday at Houston on "Television—Today and Tomorrow."

Manufacturing Shorts

Terado Co., St. Paul, Minn., marketing automatic converters to use automobile current in operation of portable tv sets. Models plug into dashboard cigarette lighter and are available for six or 12 volt systems.

Damon Recording Studios Inc., Kansas City, Mo., which last year designed and put into use nine-speed hysteresis, synchronous direct drive for disc recording machines and players, now producing units for other recording organizations. Firm, after continuous use of units, reports outstanding results in all phases, including disc duplication at double speed.

Allen B. DuMont Labs, Clifton, N. J., reports equipment for conversion of its multi-scanner color to color has been ordered by WREX-TV Rockford, Ill. (ch. 3).

Motorola Inc., Chicago, reports portable and automobile radio sales reached their highest monthly peak at Motorola Inc. during June, with increases of 30% and 16%, respectively, over the same month in 1955.

Sectech-Carlson Inc., St. Paul, Minn., has announced new line of tv receivers including 17, 21, 24 and 27-in. models, portable, table and console construction, and "unitized" design with functional units easily removed from chassis for maintenance or modernization.

RCA Theatre & Sound Products, Camden, N. J., has developed four-speed automatic record changer for home-installed high fidelity system that adds a "rhythm" to change of the "rhythm" for 7, 10 and 12-in. discs and established 45, 33 1/3 and 78 rpm speeds, new machine will also accommodate 16% rpm size used for storybook discs.

ASK YOUR COLONEL

The Colonel has just written a book on the subject of daytime viewing. Not a very long book, but one that should be very interesting to the advertisers of soaps and soups and such...that are sold to women.

What's New With "DAMETIME" Television?

PGW TELEVISION SALES

Page 92 • August 20, 1956
'Project Information' Launched by P,G,W

Variety of market data is offered timebuyers and agency media planners in new $100,000-plus project by agency.

NEED of timebuyers and agency media planners for a wealth of market data is emphasized by Peters, Griffin, Woodward in its new $100,000-plus "Project Information."

The new studies, extensively prepared over the past six months by P,G,W, were previewed Wednesday at a news conference in New York as the station representative started its huge task of mailing them in series to agencies and advertisers.

Specifically, "Project Information"—based on 114 different studies of market conditions—aims to benefit stations represented by P,G,W and to stimulate radio and tv national spot business in general (Closed Circuit, Aug. 13).

P,G,W officials said the firm, which represents more than 50 radio and tv stations, had absorbed all of the project's cost, reported to be $100,000, with the stations asked "not to contribute even a dime."

The project has these distinct parts for each market: radio market stories (about six pages in length) to be distributed in complete sets to advertisers and agencies; television market stories (called "sellers handbooks") which contain a complete volume for each market; folder-type station stories for use by P,G,W salesmen and "Dames in the Daytime," a special study on daytime viewing habits. Station stories contain coverage maps and highlights of the market stories and can accommodate more specific information on programs, rates, coverage and the like.

Last week, P,G,W started distribution of the radio market stories; the tv counterparts, illustrated and plastic bound, will go out later this month.

In all there is a total of 250,000 printed materials. Basic pieces include 32 for radio and 26 for tv with "Dames in Daytime" an additional mailing piece.

H. Preston Peters, president of the representative firm, stressed in his announcement of the project that advertisers and agencies had long sought such materials for use in planning campaigns. Mr. Peters stated his firm believed the project's circulation would mean that for the first time an advertiser, account executive or timebuyer could bone up at "one short reading session" on market conditions and traditions existing in those markets P,G,W represents.

Features of the market stories include contour maps, pictures, sales figures, individual market weather conditions, college enrollments, lists of retail outlets, a complete listing of broadcasting stations and data on local newspapers.

As an example of the type of material the firm will distribute, the "Seller's Handbook for Roanoke and WDBJ-TV" has 15 pages crammed with statistics and general information. First page sets background with a general description of Roanoke, Va., and the second flips into facts and figures of the Roanoke metropolitan county area (including counties, population, families, national ranking and population characteristics). Next comes a look at Roanoke's industry, presenting data on employment classifications, names of some of the major companies located in the market (even as to include office hours, factory shifts and industrial paydays).

A full page is devoted to retail trade, presenting the main department stores, variety stores, chain groceries and drug stores, as well as principal shopping days. Classifications and number of retail establishments for the Roanoke market's counties are presented along with overall totals, the total employees and the 1954 payroll. Page 6 of the Roanoke study lists railroads, airlines, highways and total auto registrations. A full page is devoted to a list of tv and radio stations (affiliations and power for both radio and tv; height above average terrain and channel number for tv, frequencies for radio) and to newspapers (morning or evening, and daily and Sunday circulation).

The next page points up collegiate statistics: name of school, its location, type (coed, women
or men, etc.), number of students and teachers. The weather and water page presents the normal for temperature and precipitation for each of the 12 months in the year along with figures for the whole year (including snowfall). Altitude and type of water are presented. The leading hotels in Roanoke are treated next (location and phone number).

The remaining few pages are used to tell the P.G.W-represented WDBJ-TV Roanoke story. This includes full description of the station, a coverage map, breakdown into counties of the coverage area (taking in population, families and total retail sales).

The radio market story similarly packs into its fewer pages essentially the same information, with emphasis, however, on fuller treatment of other radio stations in the market, and on the competing tv and newspaper outlets.

The separate "Dames in the Daytime" presentation is an illustrated booklet that points up various research findings on the extent of television viewing in the daytime hours. Stressed are the huge number of tv homes which watch tv before 5 p.m.; the fact that women do most of this viewing, that this housewife attention level is about the same in the daytime as it is at night, and that women daytime tv viewers are younger, have the larger families and shop more often.

**WIOD Now Called WCKR, Uridge Appointed Manager**

BISCAYNE TV Corp. (WCKT TV) Miami has taken over operation of WIOD Miami and the call letters have been changed to WCKR, according to Niles Trammell, president. Mr. Trammell also announced the appointment of four station officers, headed by Manager Owen Uridge. The change became effective midnight, Aug. 10. WIOD was purchased by Biscayne from Ile of Dreams Broadcasting Corp. for $404,128 (B*W, July 23). This necessitated the sale of WQAM Miami by the Miami Herald, a substantial stockholder of Biscayne, because of FCC duopoly rules.

Besides Mr. Uridge, other station executives who have joined WCKR include Gene Rider, chief engineer; L. L. (Duke) Zimmerman, sales manager, and Walt Svehla, program manager. All four men formerly were with WQAM. Mr. Uridge, WQAM general manager, formerly the same position with WAFD and WJR, both Detroit. He joined WQAM in 1947. At the present time, WCKR is operating from studios in downtown Miami but will move into new facilities in Biscayne's radio-tv building early next month. Sister station WCKT went on the air last month, with studios in the new building. Both stations are NBC affiliates. Christia Co., New York, will represent WCKR.

**WOW-AM-TV Issues Film On Conservation Problems**

WOW-AM-TV Omaha, Neb., has produced its third soil and water conservation documentary film, "Regimented Raindrops II." The filming required 500 man-hours, more than $3,000 in production costs and 3,000 miles of travel.

"Regimented Raindrops II," preceded by "Big Muddy" and "Regimented Raindrops I," dramatizes what Missouri Valley basin farmers are doing to conserve vital water on their own land. The film lasts 27 minutes and is in color with sound.

A team composed of WOW-AM-TV Farm Director Mal Hansen, his associate Arnold Peterson and photographers Bill LaViolette and Bob Mockler shot scenes throughout Nebraska and Iowa from the air and on the ground.

The film has been shown by WOW-TV, KCMO-TV Kansas City and will be shown next month by KTNT (TV) Tacoma, Wash. It also is available for group showings and bookings at present are a month ahead. Stations interested in showing the film may obtain copies by contacting Mr. Hansen.

**Color Progress 'Remarkable' Herbeuvaux Reports to NBC**

WNBQ (TV) Chicago made "remarkable progress" in programming, sales, client-agency acceptance and in generating public interest in color television in its first four months of operation as an "all-color" station, Jules Herbeuvaux, NBC Chicago vice president and general manager, reported last week.

Details of Mr. Herbeuvaux' four-month report followed generally the pattern of findings shown in a special three-month report presented by B*W a month ago (B*W, July 16). Reporting to Charles R. Denny, NBC vice-president in charge of owned stations and NBC Spot Sales, Mr. Herbeuvaux said, in part:

1. WNBQ currently is averaging approxi-
THEY PUT THEIR MONEY ON PROMOTION-MINDED NAGS

PLAYING a hunch on the 590 frequency of WROW Albany, 19 members of a party given by the station at the Saratoga race track chose 5 and 9 in the daily double. And promotion-minded horses—looking at the call letters on a balloon flying overhead—came in for the payoff. The winners were among more than 100 timebuyers and other advertising personnel from New York, Boston and Philadelphia entertained at the track by WROW. Lucky ticket holders (1 to 9) are, seated: Rita Driscoll, of C. L. Miller; Betty Powell, Geyer Advertising; Jane Podester, McCann-Erickson; Aliph Avery, daughter of Avery-Knodel's Lew Avery; Frank Smith, WROW president; Jack Clark, Harrison, Richter & Parson; Pat Hart, WROW; Gerry McGuire, WCDA Albany, and standing: Val Rither, N. W. Ayer; John Dickerson, HR&P; Bob Liddell, Comp- ton Advertising; Harry Goldman, WROW; George Perkins, WROW; Marc Richfield, BBDO; Stan Hamer, Dancer, Fitzgerald & Sample; Lew Avery; Jack Dunford, Bryan Houston; Dane Kane, Ellington & Co., and Bernie Rasmussen, Fuller & Smith & Ross.

(at a rate of 29 per hour) Mr. Herbuveaux said. Among the most recent renewals were those of Goldblatts', Armour & Co., Santa Fe Railway, Peter Hand Brewing Co., Wanzer milk and First Federal Savings & Loan.

Fla., Tenn. Stations Bought by Rounsaville

THE Rounsaville station group was expanded to seven regional outlets in major markets as the result of last week's purchase of WSO\k

headquarters station, will continue its music-news-sports policy plus exclusive Atlanta Crackers baseball and high school football coverage.

Besides the three outlets mentioned, the group includes WCIN Cincinnati; WLOU Louisville; WOBS Jacksonville, Fla.; WMBM Miami Beach. Mr. Rounsaville holds permits for WATL-TV Atlanta; WQXN-TV Cincinnati and WQXL-TV Louisville. He first entered radio in 1941 by building WGAA Cedarown, Ga.

Besides acquiring WSO\k and WIOK, Mr. Rounsaville last week sold WBAC Cleveland, Tenn., for almost $150,000 to a group headed by Thad F. Fitch, WBAC manager, and Walter Kite, Cleveland businessman. Some months ago he sold WBEJ Elizabeth hton, Tenn., to local interests for $100,000. Early in the summer he had applied for a 10 kw station on 1010 kc in Tampa.

at the same timebuyers, which makes it triples its normal color effort, in an effort to give the company an even better showing than last year, when the station was started.

the total of 36 local and national spot advertisers currently use WNBQ's color facili- ties to present a total of 74 live, film or slide commercials in an average week. Color has had a "uniformly enthusiastic" reception from all 36.

(3) Color has brought new business to WNBQ—local and national spot sales in May, June and July were up 25% over the same period of 1955.

(4) Some 30,000 visitors have trooped to WNBQ's Hall of Color in the past four months and traffic now averages 2,000 per five-day week.

(5) Although there is no authoritative count of the number of color sets in the Chicago area, sales have exceeded those in any other market and it's estimated that the total has doubled since WNBQ started its color opera- tion. A further step-up is expected this fall as a result of increased color programming, plus recent reductions in color set prices.

(6) WNBQ color orientation sessions, open to all advertisers and their agencies, have had "great success," with 29 agencies and 40 of their clients having used station's "laboratory" facilities to color-test products as of July 31. Though some of these advertisers are not now using color, and a few are not even using tv, they should be considered potential users who have been "pre-sold" on color.

Color clients are renewing at an "encourag- ingly high rate," Mr. Herbuveaux said. Among the most recent renewals were those of Goldblatts', Armour & Co., Santa Fe Railway, Peter Hand Brewing Co., Wanzer milk and First Federal Savings & Loan.

Where: a million people spend a billion $. They look & listen day & night to. WKRG-TV with its CBS-ABC & film shows. Local live wrestling—the nations best cooking show—the best news show in the world (or any other place) Good Kid shows WKRG is GOOD GOOD GOOD.

August 20, 1956 • Page 95
Swezey Defends Right Of Radio-Tv in Court

THE IMPORTANCE—in point of public service as well as fairness—of allowing radio-tv to cover legislative and judicial proceedings on a par with the rest of the press was emphasized by Robert D. Swezey of WDSU-AM-FM-TV New Orleans, chairman of NARTB's Freedom of Information Committee, in a panel session on municipally-owned WNWC New York a fortnight ago.

Most of the half-hour transcribed program was taken by a presentation of opposing points of view by Mr. Swezey and Wayland B. Cedarquist, attorney and former member of the board of managers of the Chicago Bar Assn. Other participants were Jacob Shier, associate professor at Northwestern U.'s Medill School of Journalism and also general counsel for the House of Representatives' Subcommittee on Government Information, and James H. McBurney, dean of Northwestern's School of Speech, who was moderator.

Mr. Cedarquist agreed generally with Mr. Swezey that television coverage need not interfere physically with proceedings. He insisted, however, that although the technical facilities may be unobtrusive, the knowledge that a proceeding is being telecast can have important psychological effects on a witness, making it "difficult to get the truth of the matter" and depriving the defendant of a "fair trial."

Mr. Swezey disagreed "completely," arguing that "the minute a witness becomes a witness—becomes actively interested in what he's saying, his answers, his statements, and so forth—he loses completely the feeling of what goes on around him." He also said:

"Let me review with you the purposes for public trials. What are they? The first one, I assume, is to assure there will be a fair proceeding ... to get away from the inquisition and the star chambers. The second, as I recall, in order of importance, was that the publicity itself would bring forward witnesses that otherwise hadn't been found who might have some valuable information to clear up the case."

"And the third one was to keep the defendant and the witnesses and everybody else pretty close to the truth—that is, if [the witness] were making statements before the public, he would be much more likely to be pretty careful what he said and to be pretty sure that he meant what he said before he made the statement."

"I believe there was a fourth, and that was to assist the judge and the other officials in keeping close to an orderly deportment themselves . . ."

"Now, as far as I can see, those . . . are the main historical reasons why we have public hearings and public trials . . . All of these things [contribute] to the fact that television should be in the picture, because this is the greatest publicity medium that we have so far achieved."

WESLEY DUMA (r), president of KSFO, San Francisco Broadcasters Inc., and Robert O. Reynolds, vice president and general manager of KMPC Los Angeles, exchange check and stock certificate completing the $1 million sale of KSFO to Golden West Broadcasters (KMPC [B&T, June 18]).

two nebraska radio stations plan to establish tv outlet

TWO Nebraska radio stations—KCOW Alliance and KOLT Scottsbluff—last week announced plans to establish a tv station to serve the northwestern panhandle of that state.

Although complete details have yet to be worked out, the stations said they have been working on the project with an engineering firm for several months and that full information will be available within 30 days. Supervising planning for the proposed outlet are Gene Ackery, general manager of KCOW, and L. L. Hilliard, owner of KOLT. Both are veteran broadcasters. Present plans call for the formation of a new corporation, Western Nebraska Tv Inc., in which the two stations will be principal stockholders.

WBVF (TV) Begins Campaign To Convert Tv Sets to Uhf

A NEW CAMPAIGN that WBVF (TV) Buffalo hopes will bring tv set uhf conversion farther along the road toward the 100% mark in its coverage area was underway last week, coincident with WBVF's carrying the full NBC-TV schedule.

"Project 17," as the station calls the campaign, is engaging every promotional, merchandising, advertising, publicity, technical and civic means at its disposal, according to General Manager Charles C. Bevis Jr. The promotional plan at the station to keep an eye on Buffalo business enterprises that sell or install necessary equipment to make tv receivers capable of carrying WBVF programs.

Describing the operation as having "mobility and speed of military action," Mr. Bevis said the team handling "Project 17" will be headed by Robert Fillmore, manager of advertising and promotion at the station; assisted by W. J. Shepard, director of sales. Projects, NBC-owned stations in the tri-state area, will include specialists in advertising, merchandising, promotion and publicity, as well as advisory services of NBC technicians, statisticians and fiscal experts.

A 53% increase in the number of metropolitan Buffalo homes equipped to receive uhf telecasts in the first six months of operation by WBVF has been claimed by Mr. Bevis. According to Mr. Bevis, an estimate as of July 1 showed 160,160 uhf-equipped sets, or 47.5% of tv homes in metropolitan Buffalo. This estimate, he noted, was projected from a study W. R. Simmons & Assoc. made for the ch. 17 station in March and supplemented by estimates taken from local distributors, the local power company and other sources. WBVF counted 165,000 uhf-equipped tv sets in the area on Jan. 1 and 124,000 by March. Between March and July, the volume rose by more than 29%.

WVCG Now Broadcasting From New $75,000 Studios

WVCG Coral Gables ("South Florida's Good Music Station"), now is broadcasting from its new $75,000 building. George W. Thorpe, president and general manager, said the move was made without a break in broadcasting continuity.

The new facilities occupy more than 3,000 sq. ft. and feature duplicate control rooms, employe lounge and a large studio. WVCG is broadcast from 2:00, 12-18, 1948, and broadcasts with 1 kw on 1070 kc.

KDUB-Tv Gets Court Access

FIRST tv access to a West Texas district court was obtained Aug. 10 by KDUB-Tv Lubbock when Duncan Ellison, news editor, was permitted to take films in a forgery trial. The coverage was put on the air shortly after the pickup. W. D. Rogers, KDUB-TV president, and other media representatives had petitioned Judge Robert Bean for the coverage rights. Counsel for both sides agreed to the telecast.

to manage KIDO-AM-TV

GEORGI A M. DAVIDSON, president and principal owner of KIDO Inc., will assume full management of KIDO-AM-TV Boise, Idaho, upon the departure of Walter E. Wagstaff, present manager, who is to assume managerialship of KGW-TV Portland, Ore., the middle of September [B&T, Aug. 13].

ASK YOUR COLONEL

Factory shifts, office hours, and school hours are just a few of the facts your Colonel has assembled for Pittsburgh . . . and for 23 other markets he represents.

PGW TELEVISION SALES
Quad-City Telecasting Corp. Formed, Seeks Video Outlet

FORMATION of the Quad-City Telecasting Corp. for the purpose of providing an additional telecasting facility in the quad-city area of Rock Island, Moline and East Moline, Ill., has been announced by Glenn L. Seydel, president of the group. Other officers are G. LaVerne Flambo, majority stockholder of WQUA Moline, vice president, and Clarence J. Beindle, treasurer.

Mr. Seydel said the group is interested in filing an application for a tv station on ch. 8 in Rock Island, if and when the FCC’s proposed rule-making to delete ch. 8 from Peoria and assign it to Rock Island is finalized. The Commission has granted Peoria ch. 8 to WIRL Peoria, but construction has been prohibited until completion of the rule-making proceeding.

WCJB-TV Minot Planning To Build 1,070 Ft. Tower

KCJB-TV Minot, N. D., has completed plans to construct a 1,070 ft. tower and to increase ERP to 65 kw, it has been announced by John W. Boler, president of the North Dakota Broadcasting Co., station’s licensee. An application requesting the change has been filed at the FCC.

The new tower will be located in an area southwest of Minot and will be one of the two tallest in North Dakota, second only to the 1,085 ft. tower of KXJB-TV Valley City, N. D., also operated by the North Dakota Broadcasting Co. Ch. 13 KCJB-TV is a primary CBS affiliate.

MBS Outlet KRDG Starts

NEW Mutual-Don Lee affiliate, KRDG Redding, Calif., began operation Aug. 1 on 1230 kc with 250 w fulltime, it was announced last week by Howard N. Martineau, general manager. Operator is Redding Broadcasting Co., 1214 Locust St. Telephone is Redding 5451. Reinard W. Brandley is associated with Mr. Martineau in ownership of KRDG. Lynn Olson is chief engineer and Edith Martineau is program director.

WBAT Sold for $140,000

SALE of WBAT Marion, Ind., from Marion Radio Corp. (John L. Ramp) to Central Broadcasting Corp. (WKBV Richmond, Ind.) for $140,000, was announced last week by Allen Kander & Co., broker negotiating the sale. The sale is subject to approval by the FCC. WBAT (1400 kc, 250 w) began operation in 1947 and is a CBS affiliate. Lester G. Spencer, general manager of WKBV, also will manage WBAT.

WLW Foundation Reactivated

THE WLW Consumer Foundation—made up of several hundred radio families in the Cincinnati-Columbus, Ohio, area who pre-test advertised products—will be reactivated in the fall by the Crosley station. The testing panel, which actually used products in the home before WLW accepted them for radio advertising use, has been inactive the past few years. The reactivation move, according to WLW, is because of the “rejuvenation of radio programming…”
Fred Nahas New President Of Shamrock Broadcasting

FRED NAHAS has been appointed president of Shamrock Broadcasting Co., which operates KXYZ Houston, Tex., it was announced by Glenn McCarthy, chairman of the board.

Mr. Nahas has been associated with KXYZ since 1948, when he joined the station as executive vice president and general manager. In the early days of television, Mr. Nahas was appointed by Broadcast Music Inc. to make a series of speeches throughout the nation on the unusual promotions used by KXYZ during the difficult period.

Mayer Receiver for WTOM-TV

APPOINTMENT of John Mayer of Detroit as temporary receiver of ch. 54 WTOM-TV Lansing, Mich., has been announced. The station, which is under the management of L. G. Christian Jr., has $115,000 in liabilities. Mr. Christian said a Boston investment firm was interested in helping reorganize the licensee and that creditors would be paid in full after reorganization. The station is remaining on the air.

KOLO-TV Reno, Nev., Begins Increased Power Operations

KOLO-TV Reno, Nev., ch. 8, has begun operating from a new transmitter site atop 10,120 ft. Slide Mt., 15 miles southwest of Reno. With new 11.7 kw effective radiated power from a 2,920-ft. antenna height (above average terrain), the Reno outlet has gained a 50% increase in viewers (from 21,750 to 33,500), according to Harry Huey, general manager. The station will secure CBS network programs from KPIX (TV) San Francisco and NBC programs from KCRA-TVs Sacramento, Calif., via its own off-the-air relay system. ABC affiliation is for film. The transmitter can be reached in winter via ski-lift and motorized sled.

WSYE-TV Target Sept. 15

WSYE-TV Elmira, N. Y., has set a Sept. 15 target date, according to E. R. Valeboncoeur, president of WSYR-AM-TV Syracuse (Central New York Broadcasting Corp., which owns WSYE-TV). All transmitting and control equipment has been installed for the ch. 18 outlet with the exception of the antenna, which is slated for delivery in early September. Supervising technical operations are Albert Eicholzer and Francis Thisse, WSYR-AM-TV chief engineer and assistant, respectively.

REPRESENTATIVE APPOINTMENTS

WGMS-AM-FM Washington names Adam Young Inc., N. Y. Station recently was purchased by RKO Teleradio Pictures Inc.

KYA San Francisco appoints McGavren-Quinn Co. L. A. representative. Station maintains its own N. Y. office.

WTAO Boston names Richard O'Connell Inc., N. Y.

REPRESENTATIVE PEOPLE

Ralph C. Kelley, formerly vice president in charge of Chicago office of The Walker Co., radio-television representative, to John Cockrell, Inc., media representative, same city, as vice president.

Fred L. Nettere, time and space salesman, formerly with The Katz Agency, to similar post with NBC-NTV Spot Sales, N. Y.

KOLO-TV Reno, Nev., Begins Increased Power Operations

KOLO-TV Reno, Nev., ch. 8, has begun operating from a new transmitter site atop 10,120 ft. Slide Mt., 15 miles southwest of Reno. With new 11.7 kw effective radiated power from a 2,920-ft. antenna height (above average terrain), the Reno outlet has gained a 50% increase in viewers (from 21,750 to 33,500), according to Harry Huey, general manager. The station will secure CBS network programs from KPIX (TV) San Francisco and NBC programs from KCRA-TVs Sacramento, Calif., via its own off-the-air relay system. ABC affiliation is for film. The transmitter can be reached in winter via ski-lift and motorized sled.

WSYE-TV Target Sept. 15

WSYE-TV Elmira, N. Y., has set a Sept. 15 target date, according to E. R. Valeboncoeur, president of WSYR-AM-TV Syracuse (Central New York Broadcasting Corp., which owns WSYE-TV). All transmitting and control equipment has been installed for the ch. 18 outlet with the exception of the antenna, which is slated for delivery in early September. Supervising technical operations are Albert Eicholzer and Francis Thisse, WSYR-AM-TV chief engineer and assistant, respectively.

REPRESENTATIVE APPOINTMENTS

WGMS-AM-FM Washington names Adam Young Inc., N. Y. Station recently was purchased by RKO Teleradio Pictures Inc.

KYA San Francisco appoints McGavren-Quinn Co. L. A. representative. Station maintains its own N. Y. office.

WTAO Boston names Richard O'Connell Inc., N. Y.

REPRESENTATIVE PEOPLE

Ralph C. Kelley, formerly vice president in charge of Chicago office of The Walker Co., radio-television representative, to John Cockrell, Inc., media representative, same city, as vice president.

Fred L. Nettere, time and space salesman, formerly with The Katz Agency, to similar post with NBC-NTV Spot Sales, N. Y.

KOLO-TV Reno, Nev., Begins Increased Power Operations

KOLO-TV Reno, Nev., ch. 8, has begun operating from a new transmitter site atop 10,120 ft. Slide Mt., 15 miles southwest of Reno. With new 11.7 kw effective radiated power from a 2,920-ft. antenna height (above average terrain), the Reno outlet has gained a 50% increase in viewers (from 21,750 to 33,500), according to Harry Huey, general manager. The station will secure CBS network programs from KPIX (TV) San Francisco and NBC programs from KCRA-TVs Sacramento, Calif., via its own off-the-air relay system. ABC affiliation is for film. The transmitter can be reached in winter via ski-lift and motorized sled.

WSYE-TV Target Sept. 15

WSYE-TV Elmira, N. Y., has set a Sept. 15 target date, according to E. R. Valeboncoeur, president of WSYR-AM-TV Syracuse (Central New York Broadcasting Corp., which owns WSYE-TV). All transmitting and control equipment has been installed for the ch. 18 outlet with the exception of the antenna, which is slated for delivery in early September. Supervising technical operations are Albert Eicholzer and Francis Thisse, WSYR-AM-TV chief engineer and assistant, respectively.

REPRESENTATIVE APPOINTMENTS

WGMS-AM-FM Washington names Adam Young Inc., N. Y. Station recently was purchased by RKO Teleradio Pictures Inc.

KYA San Francisco appoints McGavren-Quinn Co. L. A. representative. Station maintains its own N. Y. office.

WTAO Boston names Richard O'Connell Inc., N. Y.

REPRESENTATIVE PEOPLE

Ralph C. Kelley, formerly vice president in charge of Chicago office of The Walker Co., radio-television representative, to John Cockrell, Inc., media representative, same city, as vice president.

Fred L. Nettere, time and space salesman, formerly with The Katz Agency, to similar post with NBC-NTV Spot Sales, N. Y.

WBZ Boston, to assistant public service and education director.

Robert A. Fillmore manager of advertising and promotion of NBC-owned WRCV Philadelphia, transferred to WBUF (TV) Buffalo, also NBC outlet, in same capacity.

If the number of outlets for Tires, Batteries and Accessories is not important to you . . . food stores might be. Your Colonel has that information too . . . in 24 markets.

PGW TELEVISION SALES
U.S. PROGRAMS DOMINATE CBC'S FALL TV SCHEDULE

Dominion viewers, however, will see one Canadian-produced show each evening, with largest number of such productions on Saturdays.

AMERICAN network and film programs dominate the Canadian Broadcasting Corp. television network schedule for this fall and winter. But at least one Canadian-produced TV show will be seen each evening, with greatest number on Saturday night.

New on Canadian TV this fall will be a Canadian-produced one-hour festival-type show for Chrysler Corp. of Canada (through McCann-Erickson, Toronto). This will be a six time feature with outstanding international musical concert talent on Wednesdays from 10 to 11 p.m. Among stars booked for this show are Mario Lanza, Harry Belafonte, Gisele Mackenzie, Alex Templeton, Jose Greco and Nanette Fabray.

Also new this year will be the Perry Como Show from NBC on Saturday evenings, with five sponsors, RCA-Victor (through Kenyon & Eckhardt, Toronto), Canadian Celcotton Products (Kleenex) (through Spitzer & Mills Ltd., Toronto), Ogilvie Flour Mills Co. Ltd. (through H. F. Stanfield, Montreal), Lever Bros. Ltd. (through J. Walter Thompson Co., Toronto), Novema Chemical Co. of Canada (through MacLaren Adv., Toronto), and Simmons Ltd. (through Cockfield, Brown & Co., Toronto).

New U. S. Film Shows

New U. S. film shows this fall will include on Saturday evening for Nestle's Canada Ltd. (through Cockfield, Brown & Co., Toronto) Oh Susannah! on Friday evening for Campbell Soup of Canada (through Cockfield, Brown & Co., Toronto) and on Tuesday evening for Sheaffer Pen Co. of Canada (through H. F. Stanfield, Toronto) The Brothers.

A number of programs seen on kinescope recording last year from U. S. networks will be carried live this season. These include for Kraft Food of Canada (through J. Walter Thompson Co., Montreal) Kraft TV Theatre; for Chrysler Corp. of Canada (through McCann-Erickson, Toronto) Climax; and Disneyland at same time as on U. S. networks for Courtaulds Ltd., Montreal (direct), American Motors Corp. of Canada (Nash cars) (through McKim Adv. Ltd., Toronto), and Swift Canadian Co. (through McCann-Erickson, Toronto).

Other network shows scheduled include on Sunday for Prudential Life Insurance Co. of America (through Harry E. Foster, Toronto) You Are There for Colgate-Palmolive of Canada and Walter N. Lowrey Ltd. (through Harry E. Foster, Toronto) Lastie; Burns & Allen for B. F. Goodrich of Canada (through Harry E. Foster, Toronto); Father Knows Best for Imperial Tobacco Co. (through McKim Adv. Ltd., Toronto) and Dupont Co. of Canada (through Vickers & Benson, Montreal); Our Miss Brooks for General Foods (through Baker Adv. Ltd., Toronto); Ed Sullivan Show for Ford Motor Co. of Canada (through Cockfield, Brown & Co., Toronto); All-Star Theatre for Singer Sewing Machine Co. of Canada, and Bristol-Myers Co. of Canada (through Young & Rubicam, Toronto), and Showtime, a Canadian variety musical hath charms,

to temper the stresses and strains of modern living, try a change of pace with music that lives and lasts—in brilliant renditions by the great artists and orchestral groups represented in the Sesac Library's "C" Section

show, for Canadian General Electric (through MacLaren Adv. Ltd., Toronto).

Daily, Monday through Friday, a number of advertisers sponsor a Canadian version of the Howdy-Doody Show each afternoon. Monday also sees in the evening The Millionaire for Colgate-Palmolive of Canada (through Spitzer Mills, Toronto); Thursday, once monthly, for RCA-Victor of Canada (through Kenyon & Eckhardt, Toronto); I Love Lucy for McColl Frontenac Oil Ltd. (through Ronal-
d Ltd., Montreal) and H. J. Heinz & Co. (through MacLaren Adv. Ltd., Toronto); Denny Vaughan Show, a Canadian production, for Lever Bros. of Canada (through Young & Rubicam, Toronto), and Studio One for Cana-
dian Westinghouse (through S. W. Caldwell Ltd., Toronto).

Tuesday evenings see telecasts of Big Town for Lever Bros. Ltd. (through J. Walter Thomp-
son Ltd., Toronto); Chery Show, alternate weeks, for General Motors of Canada (through MacLaren Adv. Ltd., Toronto); Dragnet for S. C. Johnson & Son of Canada (through Needham, Louis & Broby, Toronto) and Gen-
eral Foods (through Baker Adv. Ltd., Toronto), and Pick the Parkers, a Canadian talent hunt show, for Canada Packers Ltd. (through Cock-
field, Brown & Co., Toronto).

Wednesday afternoons Kellogg Co. of Cana-
da show, is telecast for Stan-

'The Lone Ranger' Rides in Canada

Thursday for the children there is The Lone
Ranger, for General Mills of Canada (through
K. W. Reynolds, Toronto) and Nestle's Canada
Ltd. (through Cockfield, Brown & Co., To-
ronto) and in the evening Jane Wyman's Fires
side Theatre for Procter & Gamble of Canada
(through Compton Adv., Toronto), and Jackle
Rae Show, a Canadian variety show, for Sun
beam of Canada (through Vickers & Benton
Toronto) and Nestle's Canada Ltd. (through

Friday late afternoon will see Roy Rogers
Rex, for Canadian Governments of Canada
(through McConnell-Eastman, Toronto) and in the evening The Plouffe Family, a French-Canadian Eng-
lish-language show, for Colgate-Palmolive of
Canada (through Spitzer & Mills, Toronto);
Country Hoedown, a Canadian show, for Pro-
ter & Gamble of Canada and Robin Hood
Flour Mills (through Young & Rubicam, To-
ronto); Cavalcade of Sports for Gillette Safety
Razer of Canada through Maxon Inc., New
York), and Jim Coleman Show, a Canadian
sports show, for Tuckett Tobacco Ltd. (through
MacLaren Adv. Ltd., Toronto).

Saturday late afternoon the youngsters see
Wild Bill Hickock for Kellogg Co. of Canada
(through Leo Burnett, Toronto) and adults see
Mr. Fix-It, a Canadian handymen show, for Flo-Glaze Paints (through Locke, Johnston
Toronto); Holiday Ranch, a Canadian variety
show, for A&N Sales (Baker Adv. Ltd., To-
ronto) and Nabisco Foods Ltd. (through
MacLaren Adv. Ltd., Toronto); NHL Hockey,
a Canadian play-by-play hockey game, for Im-
perial Oil Ltd. (through MacLaren Adv. Ltd.,
Toronto), and King Wayne, a Canadian sports
show, for Whitehall Pharmacal of Canada
(through Young & Rubicam, Toronto).

Because there is only one tv station in each
Canadian city, except language stations in
Montreal and Ottawa, U. S. network competi-
tive shows will not appear in Canada. This
situation is not expected to be corrected for
some time to come, and Canadian advertisers
with parent companies in the United States, on
competitive network shows can only count on
advertising value in border areas where U. S.
stations can be tuned in by Canadian audiences.

A highlight in Saturday 8 p.m. spot, which the Jackie Gleason Show has held for
several years on Canadian stations. This will now be occupied by the Perry Como Show.

Canadian TV Set Sales Down,
But Radio Set Sales Increase

SALES of television sets to dealers in Canada
in the first half of 1956 lagged behind sales in
the similar 1955 period, but sales of radio sets
were higher, the Radio-Electronics-Television
Manufacturers Assn. of Canada has reported.

Sales of tv sets in first half of 1956 amounted
to 216,196 units, compared to 245,917 in the
same period last year. Total radio set sales
were 243,271 in the January-June 1956 period,
compared to 217,121 in the 1955 period, but
sales in June were down from 42,439 sets in
1955 to 37,245 in June 1956.

Four Dominion Stations
Issue New Rate Schedules

NEW RATE CARDS have been released by
CKRS-AM-TV Joquiere, Que.; CKBL Ma-
tane, Que., and CJOR Vancouver, B. C.

New rates for CKRS became effective Aug.
1, with Class A charges of $7 for 15 seconds
to $37 for a half-hour. CKRS-TV's new rate
card is effective Oct. 1, with Class A rates from
$250 for one hour to $25 for eight seconds an
ouncement.

CKBL's new rates are effective Jan. 1, and
features Class A one hour at $70 with $8 for
15 seconds announcement.

CJOR's new rate card goes into use on Sept.
1, ranges from $115 for one hour of Class A
time to $14 for 15 seconds announcement.

German TV Set Sales Off

TV SET SALES have slowed down unexpected-
ly in West Germany. Total number of licensed
sets now is increasing at a monthly pace of
over 4.4%, with the half-million mark yet to
be reached.

A West German newspaper publisher mean-
while protested officially against a mixture of
commercial and non-commercial programs
which is going to be broadcast by existing
German stations having a monopoly in radio
as well as tv. Newspaper publishers demanded
a clear separation of existing non-commercial
stations from future independent and private-
ly owned stations. The publisher claims exist-
ing quasi-official stations fear independent
and private program competition and therefore try
to grab commercial tv before, private business
has a chance to adopt it.

YN-TV Nicaragua Starts

YN-TV, ch. 8, Television de Nicaragua S. A.,
began telecasting last week with an on-air ap-
pearance of the nation's President, Anastasio
Somoza. Equipment for YN-TV was provided
by RCA International Div., New York, which
early last month sent a demonstration team to
Nicaragua before receiving the order for full
studio facilities and transmitting equipment.
Radio Liberation Negotiates Training Program With NBC
NEGOTIATIONS are in progress between Radio Liberation and NBC for the establishment of a radio broadcasting training program for RL employees in cooperation with the network. Present plans call for a series of lectures and demonstrations to RL staff by Robert Cody, former CBS and ABC newsman and currently with Radio Liberation, and various NBC specialists.

The decision to institute the training course follows a two-month trip by Mr. Cody to RL's European installations, during which he covered the Bulganin-Khrushchev visit to London. One of his recommendations to Radio Liberation was to organize a course of study for employees on latest broadcasting techniques and operations. The training program is set to begin in the fall, using NBC facilities. Radio Liberation is a private organization that broadcasts to the peoples of the Soviet Union.

CCIR Meets in Warsaw
DELEGATES from 32 nations from East and West of the Iron Curtain are presently meeting in Warsaw, Poland, for the eighth CCIR Convention. CCIR is an international organization designed to discuss and arbitrate technical broadcasting matters. The agenda includes adoption of International technical standards, color TV and European frequency troubles.

Europe One May Be Sold
EUROPE ONE, commercial radio station which is located in The Saar, small territory bordering Germany and France, may be sold to the official French Radio Service for a price of 3.3 billion francs, it is reported in Paris.

Move may be triggered by the planned return of The Saar to West Germany.

Europe One broadcasts in the French language and reportedly is producing good sales results. Three other possibilities for the future of the commercial station are mentioned: (1) closing down for good, (2) launching of a joint Franco-German private company which would operate the station, (3) switching it to non-commercial operations with the accent on propaganda for European unity.

Britain's Ad Total Given
A TOTAL of 392.9 million pounds was spent last year in Great Britain for advertising, according to Advertising Assn.'s statistics. This is considerably more than the 1954 figure (259.5 million pounds) but less than estimated earlier. There are no specific figures on commercial TV's share but for the first half of 1956 a gross of 3.9 million pounds for ITA programs has been mentioned. List of advertisers using commercial TV in Britain is topped (first six months of 1956) by Shell (91,460 pounds), OMO (69,405 pounds) and Daily Mail (67,835 pounds).

Tv Set Sales Soar in Australia
START of test operations by TCN Sydney, Australia's first TV station, has touched off a "boom" for TV receivers, according to John K. Morton, New South Wales sales manager with Admiral of Australia Ltd., manufacturing subsidiary of Admiral Corp. Station scheduled to begin regular commercial operation about Sept. 15. Two other TV stations in Sydney and three in Melbourne are in varying stages of construction, he reported. The two in Melbourne are expected to be in operation in time for telecast of Olympic Games next November, Mr. Morton said.

INTERNATIONAL SHORT
Jos. A. Hardy & Co., Ltd., Toronto, Ont., station representative firm, has moved to enlarged offices at 19 Richmond St. West, Toronto, with new phone number Empire 3-9433.

INTERNATIONAL PEOPLE

Jack Docherty, ABC Network, Australia, to technical staff of CHCT-TV Calgary.

WORL'S SURPRISE FROM SKIES

LAZING in the sun or dancing by portable radios, Cape Cod's beach visitors got a personal visit from Norm Talin or Allen Rich, WORL Boston disk jockeys. The pair buzzed the Cape's beaches by plane August 11 to play records and chatter for dancers and sunners below. The regular program (noon-2 p.m.) was broadcast direct from the plane and relayed back to WORL's Boston studios. The station has done other aerial gimmicks of this sort, notably a trip by plane to Nova Scotia to do a record show last year.

HURRICANES INSPIRE WEEI

EXPLOITING radio's identification with the elements, WEEI Boston has sent out hurricane maps with the advice, "To Whip Up a Sales Storm in New England Use WEEI." The map, a carefully detailed account of the eastern seaboard paths of 30 storms between 1951 and 1955, also gives information on hurricane chemistry and sober as well as humorous sidelights on hurricane eccentricities. Sent to advertising agencies, local and national clients, yacht clubs, from New York to Maine, to public and parochial schools, the promotion piece brought in 300 requests for additional maps within a week of release.

WSM TO HOST OPRY FEST

WSM NASHVILLE has gotten plans underway for the station's big disc jockey festival November 9 and 10. This will be the fifth annual festival held to commemorate Grand Ole Opry's anniversary. It's the 31st birthday for the country music show, and will be marked by attendance of 2,000 disc jockeys, recording company officials, visiting country artists, music publishers, guest station representatives, and reporters. Last year 1,400 visited Nashville for the event. Festival headquarters will be set up in the Andrew Jackson and Hermitage Hotels. A widely-varied series of meetings, luncheons, receptions and parties have been planned.

WMID UNROLLS LOT OF WIRE

ON completion of the Great Egg Harbor Bridge, WMID Atlantic City, N. J., covering the event, had the telephone company use 10,000 feet of wire and 27 poles to stretch the half mile from end to middle of the bridge, setting a station record for a single remote. Completion of the link in the Garden State Parkway drew crowds of shore travelers and state dignitaries headed by Gov. Robert Meyner who officially opened the bridge.

FIRST HAND reports from behind the Iron Curtain and from communist-threatened Laos will be aired on WHFB-AM-TV Rock Island, Ill., and KMOX St. Louis, Mo., respectively, by means of tape recorder and "correspondents" especially-assigned by the stations.

Reporting for WHFB-AM-TV will be the Leslie C. Johnson (r), vice president-general manager of WHFB-AM-TV Rock Island, Ill., examines the tiny tape recorder to be used by the Rev. Kenneth M. Hoee behind the Iron Curtain.

Rev. Kenneth M. Hoee, pastor of Memorial Christian Church, Rock Island, and among 12 clergymen of the Disciples of Christ now traveling through Russia, the Scandinavian countries, Prague, Bucharest, Budapest and East Berlin. He conducts an inspirational program, 'We Begin This Day,' on WHFB-AM-TV, and upon his return the stations plan to build his recorded interviews with 10,000 feet of wire and 27 poles to stretch the half mile from end to middle of the bridge, setting a station record for a single remote. Completion of the link in the Garden State Parkway drew crowds of shore travelers and state dignitaries headed by Gov. Robert Meyner who officially opened the bridge.

THAT THE FREE WORLD MAY KNOW

English-speaking Russians and comments on his travels into a series of programs.

KMOX in September will launch an exclusive series of reports from Laos entitled That Free Men May Live, which will be taped in remote mountain villages on the doorstep of Red China by Dr. Thomas Dooley, young St. Louis physician who authored the best-seller, Deliver Us From Evil.

The KMOX tapes will be carried down from the mountains by jeep or on foot to Vientiane and then flown to St. Louis and KMOX. A special Christmas broadcast will originate in Hong Kong, where Dr. Dooley will speak to his home city by means of trans-oceanic telephone.

That Free Men May Live

Dr. Thomas Dooley (l) talks over final plans for his trip to Laos with KMOX Manager Robert F. Hyland Jr. (c) and Rex Davis, news and public affairs director for the St. Louis station.

WAVE-TV MAILING HAS WALLOP

WAVE-TV Louisville, Ky., is dramatizing the NBC-TV Steve Allen Show's impact on the local viewing scene with its latest promotional mailing—little Louisville Slugger baseball bats autographed by Mr. Allen.

VOTE-RECRUITING SET ON NBC

IMPORTANCE of registration, campaign issues and voting during the current political year will be stressed in a special non-partisan "Get out-and-vote" program on NBC Radio starting Sept. 3. Titled See You at the Polls, the special five-minute program will be produced jointly by the network and the American Heritage Foundation. It will be scheduled Monday-Friday, 5:35-5:40 p.m. EDT.

WTMJ-TV ADDS TO ARCHIVES

TV news films with possible historical significance are being supplied by WTMJ-TV Milwaukee to the Wisconsin Historical Society, the station reports. Art Olszyk, WTMJ-TV assistant news director, made a check of the station's newsfilm files, going back eight years ago, and passed along a selection to the society. The news department will send along other selected films as they are developed and used.

Page 104 • August 20, 1956
PORTER 'JUBILEE' SCHEDULED

"THE Cole Porter Festival" will lead off the Ford Star Jubilee series for the coming season starting Oct. 9 (9:30-11 p.m. EDT), CBS-TV has announced. The series is carried in color every fourth Saturday, sponsored by Ford Motor Co., Dearborn, Mich., through J. Walter Thompson Co. The Porter show will originate live from CBS' Television City in Hollywood with a cast now being recruited. The network also has announced it has acquired rights to Rod Serling's "Requiem for a Heavyweight" to be presented on Playhouse 90, 90-minute dramatic show to go on the air in the fall.

NBC'S 'TELESCOPE' SET FOR FALL

NBC's public affairs department, which this past season scheduled several teledocumentaries as special programs (including Antarctica: The Third World and Assignment: India), has announced plans to place such future filmed reports in a regular Sunday afternoon show, tentatively titled Telescope. Early programs will deal with "Uncommitted Asian Nations" (excluding India which was covered last season) and the Soviet Union.

KOIN-TV ACCESS WAIT OVER

KOIN-TV Portland, Ore., covered the report of a grand jury in a local vice probe after nine weeks of waiting, Judge Alfred Dobson permitted coverage after inspecting sound film gear. Chuck Foster, KOIN-TV newsman, was first to take silent films in an Oregon courtroom three years ago. He and his wife, Betty, do a daily local film news report. KOIN-TV claims to have been first station to cover sessions of the Legislature.

WGR-TV SEeks Rural Queen

INITIATION of a "Farm Maid of 1956" promotion—"in no way to be confused with a beauty contest"—was launched this month by WGR-TV Buffalo. Open to farm girls aged 16-21, the winner will be chosen on her participation in community, church and scholastic work, her ability to cook, bake, sew and milk as well as her appearance. Grand prize includes a New York vacation, household appliances, clothes, show tickets and cash.

CITIZENS TOLD ABOUT WCKT (TV)

APPEARANCE of a new picture, that of ch. 7 WCKT (TV) Miami, on area TV sets was heralded by elaborate coverage in the July 29 Miami Sunday News. The new Biscayne Television Corp. outlet dominates pages of an entire editorial section and cover of the Amusement supplement, and display ads salute the new station. Operations, local and network personalities, owners and management are introduced in feature stories and art. The firm is owned by the James M. Cox Jr. interests (Miami News), the John S. Knight interests (Miami Herald) and Niles Trammell, former chairman of the board of NBC and president of WCKT.

BMT, FCDA Cooperate on Book

A 15-MINUTE book review of Philip Wylie's Tomorrow—the story of an A-bomb attack in the Middle West—was sent last week to all U. S. radio stations by Broadcast Music Inc. as part of its Book Parade program. The review, by Civil Defense Administrator Val Peterson, will be used during the Sept. 9-15 Civil Defense Week, and is being promoted by BMI, stations and the FCDA in letters to state, county and local officials.

PROGRAMS & PROMOTIONS

KHOI-TV AWARDS ADVERTISING

KHOI-TV Holdrege and its satellite KHPL-TV
Hayes Center, both Neb., in the stations' search
for Outstanding Young Businessman of the lo-
calities, picked a prize calculated to make his
business even more outstanding: television ad-
vertising. First place winner, Keith Kelmieier
of St. Francis, Kan., received $420 of advertis-
ing on KHOI-TV and a plaque, and writer of
the nominating letter got a $25 U.S. Savings
Bond. Second and third placers, Clay Caiffery
of Dickens, Neb., and Myron Dodson of
Venango, Neb., received $165 and $135 worth
of tv advertising, respectively. They were
judged on civic and community activities.

'KLUB KARS' GRACE PARADE

KLUB Salt Lake City got its local "Days of
'47" parade promotion rolling with a train of
KLUB cars engineered by the station's team of
five featured personalities. Renting a miniature
train for its "Music Unlimited," the station
coupled a Breakfast KLUB Kar, Newsroom
KLUB Kar, Bumper to Bumper KLUB Kar
and Nite KLUB Kar for inspection by the
crowd of 100,000 who gathered for the festival.
Seven weeks earlier, the station attracted Salt
Lakers' attention to its new call letters (form-
erly KUTA) and programming when one disc
jockey conducted his show from an airplane,
circling over sponsors' places of business dur-
ing commercials.

WBRC-TV CUTS MANY CAKES

WHEN candles were blown out and cake
creams cleared after the WBRC-TV Birming-
ham, Ala., seventh anniversary celebration, the
station counted almost 40,000 letters and
postcards received in response to seven con-
tests conducted during birthday week. Win-
ers collected more than $2,700 worth of prizes
in the seven contests, and results of one com-
petition, the cake-baking event, were so gratify-
ing, that judges added two extra prizes during
the finals.

'EDWARD R.' NO NAME FOR BURRO

WHAT the winner named the donkey in the
Name-the-Burro contest conducted by WFRV-
TV Green Bay, Wis., wasn't divulged in the
station's final news release announcing that
12-year-old Gail Lea Engelbrecht had won.
Earlier, though, WFRV-TV did announce that
it had firmly rejected one name for the animal:
Edward R. Burro.

Night People Gain Book Through Literary Hoax

WHEN I, Libertine, a 192-page historical
novel of 18th Century court life in London,
hits U.S. bookshops next month, Night
People everywhere are sure to cheer loudly.
For these "night people"—a small band of
dedicated persons who spend their waking
hours taking in the chatter of WOR New
York disc jockey Jean Shepherd—will have
succeeded in perpetrating a literary hoax.
It all began (as they say) just April when
Mr. Shepherd, philosopher, musicologist,
columnist and author, asked a Doubleday
Bookshop clerk for an anthology of Vic
and Sade radio scripts. As Mr. Shepherd
later reported to his listeners: "Not only did
he say Doubleday didn't carry the book,
but he also pointed out that it simply
couldn't exist because it wasn't on any pub-
lishers' lists."
It should be pointed out here that there is
a relentless struggle between Night and
Day People. The latter waste their time,
according to the Shepherd's flock, regiment-
ing themselves by train schedules, luncheons,
memos, telephone calls and "lists of all
kinds." Sufficiently aroused by the Day
People's "cocksureness... superiority over us
Night People," Mr. Shepherd took it
upon himself to "shake the Day People's
faith in their organization... to restore
the status quo." What better way, he asked
his listeners, than to start with bookshop
clerks whose lists make them the most
organized of all Day People?
First off, Mr. Shepherd asked his audience
to submit names of an imaginary book and
author, arriving after considerable screening
at I, Libertine, by Frederick R. Ewing, de-
scribed as "that famous Oxford scholar and
retired Royal Navy commander who once
had a BBC series on 18th Century erotica."
Secondly, Mr. Shepherd urged his Night
People to demand the book, in shops, li-
braries and newstands. Picture the con-
versation: People asking shops, shops ask-
ing salesmen, salesmen asking publishers!
No one, it seemed, had ever heard of I,
Libertine.
As soon as publisher Ian Ballantine got
wind of this story, he contacted Mr. She-
pherd, asked him to write the book under the
nom de plume of Ewing. After much
persuasion, Mr. Shepherd teamed up with
science fiction writer Ted Sturgeon to pro-
duce a book described by Mr. Ballantine as
"turbulent, turgid and tempestuous."

**SUCCESS STORY ILLUSTRATES ADAPTABILITY OF NORTHWEST’S TV-TRAINED PERSONNEL**

The young man pictured at the left is another example of the practicality of Northwest’s training. John recently completed Northwest’s Television Production training on a Friday. He then appeared on Panorama Pacific for a week starting the following Monday, competing as Portland’s entry in their Puppeteer contest.

Of course, Northwest does not primarily train TV artists. Our business is all-around, practically-trained TV production personnel. But John’s success typically illustrates how Northwest’s diversified training enables our People to become especially adept in those fields for which they have particular aptitude or back- ground—be it announcing, copy, film or any other phase of TV—and at the same time be well qualified in all phases of Production work.

Call Northwest FIRST for all Broadcasting personnel problems. Call, wire or write John Birrel, Employment Counselor for complete details.

Butler's Blunder

IT MAY turn out that Paul Butler, chairman of the Democratic National Committee, advanced the cause of freedom of the air when he intertemporately denounced CBS for not carrying his party's propaganda film last Monday.

Mr. Butler's outbursts brought about a united defense by all three television networks, including the two which had broadcast the film in its entirety. What was equally if not more important was that many leading newspapers joined the networks in defending the rights of news media to exercise their own editorial judgment. This was the only principle at stake in the affair, and Mr. Butler found himself in the awkward position of condemning it.

The initial remarks of Mr. Butler, delivered from the platform at the conclusion of the film, were those of a man in a frenzy of frustration. Some delegates were incited by his exhortation of CBS. There were cries of "throw 'em out" and there was some jostling of CBS personnel on the floor of the amphitheatre.

Later, in news conferences, Mr. Butler was less angry, but he persisted in talking about the right to see and hear as something apart from freedom of broadcasting. He even mentioned possible legislation. In that respect he talked not unlike Sen. John Bricker, the Republican who espouses government control of programs and radio networks common carriers. One wonders how two such disparate partisans can find common ground.

CBS deserved better treatment. It has done as much as any other broadcasting company to fight the battles of free radio and television. It was the first to challenge the withholding of news from the air in the press-radio war of two decades ago. Since then it has been in the vanguard of all causes for editorial freedom. Of course, CBS Inc. President Frank Stanton has been the quickest to take action when broadcasting freedom was threatened. Indeed, Mr. Butler himself was obliged last week to express personal admiration for Mr. Stanton.

The worst that could be said against CBS last week was that it erred in editorial judgment. And even that is open to question. In fact, it is beside the point in this discussion. Errors in judgment happen in daily journalism. The first day CBS's right to err, if err it did, as much as ABC's and NBC's right to broadcast the "full text" of the Democratic film.

It all happened in the heat of the first day of a hot political convention in a steaming amphitheatre in Chicago. Under less trying circumstances CBS and Mr. Butler might have acted differently. It is useless, however, to talk now about an incident which cannot be called back for editing. We hope the affair will be forgotten, except to serve as another reminder that freedom of the press, which also means freedom of the air, will be preserved only as long as media fight for it.

New Cop on the Beat

THERE'S a new cop on the broadcasting beat. The Federal Trade Commission is intensifying its monitoring of radio and television advertising.

It will take a while to find out whether the cop is there as a friendly guardian of the law or as a bully-boy whose mission is to build a record of convictions. Right now the evidence points in the direction of the latter.

The FTC is expanding its patrol of broadcasting at the order of Congress, which voted $100,000 for the purpose. There will be a temptation to try to prove that the expenditure was justified.

Such proof is now lacking.

Congress voted the $100,000 largely at the urging of one FTC member and the chairman of the Senate Commerce Committee. The FTC member, Comr. Lowell Mason, made several speeches in which he claimed an alarming incidence of bait and switch advertising. Sen. Warren G. Magnuson made similar remarks during hearings of his Senate Commerce Committee. Both Mr. Mason and Sen. Magnuson received wide publicity which, however coincidental, was well timed. Mr. Mason is up for reappointment Sept. 25. Sen. Magnuson is running for re-election in November.

In his speeches, Mr. Mason neglected to mention that most of the cases he cited were three years old or older. In his, Sen. Magnuson did not explain that his evidence came largely from personal assumption. He had spent a time listening to the radio and watching TV while canvassing in bed and found some commercials objectionable.

Mr. Mason's and Sen. Magnuson's reputations for reportorial accuracy will not be enhanced if the FTC fails to turn up an epidemic of fraudulence on the air. Yet the FTC must disregard the personal fortunes of politicians if it is to conduct its monitoring objectively.

To be sure, there have been isolated cases of bait and switch commercials and of other advertising abuses. Ethical broadcasters are as eager as the government to see offenders brought to justice.

The danger in an investigation undertaken under such circumstances as those attending FTC's is that justice might be sidetracked in the cop's zeal to make a pinch.

Starting Place

APLANK, or to be more precise, a splinter of the platform adopted by the Democrats last week made a generalized charge that the Eisenhower administration had suppressed information. The Democrats committed themselves "to press strongly for worldwide freedom in the gathering and dissemination of news."

A laudable objective, we say. And a good place to start pursuing it is on Capitol Hill which has been under the control of Democratic majorities. There, a strict ban against television has been in effect on the House side ever since the organization of the 84th Congress. By orders of Speaker Sam Rayburn, who also was permanent chairman of the Democratic convention last week, television film and live cameras have been excluded from all House committees.

The Ghost Walks

AFTER an anguish of two-year wait, members of the FCC will get a pay raise from $15,000 to $20,000 ($500 more for the chairman), along with other appointive members of independent agencies and of the President's official family.

Congress acted none too soon. Several members of the FCC had candidly revealed to friends that they would have been forced to quit unless the increase was forthcoming this year. The same condition prevailed at other agencies.

The action means that the government will be able to attract and retain better-qualified people for responsible federal positions. We are not unmindful of the considerable number of people in numerous government departments at many levels who could not earn as much on the outside.

Generally, however, government pay in the upper echelons has been notoriously poor—far below what most of the incumbents could earn in private pursuits. There's prestige in working for Uncle Sam, to be sure, but prestige doesn't pay the bills or send the children through college.
"We can still get the top shows on KSTP-TV!"

Stronger signal, new shows usher in big Fall season

The highest TV structure in the Twin City area—KSTP-TV’s new antenna has added thousands of potential viewers in former fringe areas of this 600,000 TV-home area.

This major improvement—another first for the Northwest’s first television station—will bring a great new lineup of sparkling TV entertainment to more viewers than ever before this Fall.

“Treasure Chest”, a new audience participation show, and “T. N. Tatters,” the Northwest’s top rated local kid show, are new KSTP-TV Fall entries which, along with great new NBC shows, will bring the Northwest its greatest season in television!

Now is the time to get aboard! Put KSTP-TV’s showmanship, stars and service to work for you. For further information, contact your nearest Petry office or a KSTP-TV representative.
