The Storz Style . . . in public service

From the files of the five Storz Stations . . . here are two recent . . . and typical . . . examples of service in the public interest:

**in Miami, WQAM helped get out the vote**

At happened when WQAM decided to conduct a presidential straw vote? More than 50,000 phone calls swamped WQAM’s facilities in the 5½ day “Election Poll.” Hourly rage: 870 calls. Each of the 600 announcements WQAM oted to “Election Poll” urged listeners not only to take in the straw vote, but to exercise their franchise on. The official returns for Dade County, Florida, showed a ball of more than 250,000 votes—representing a decided rease over the 1952 turn-out.

**in New Orleans, WTIX comforted a mourning family**

A poverty-stricken family had just buried its two youngest members, dead of rat-poisoning. One Sunday, WTIX devoted a full air day to mobilizing assistance for the desperate family. In cooperation with American Legion Post 203, WTIX personalities urged contributions of money, clothing and food.

The response was instantaneous. More than $2,100 . . . 400 items of clothing and 50 boxes of foodstuffs poured in to comfort the family in its unhappy hour.

3½ million people... every one a prospect

Selling opportunities are rich and ready in America's 10th TV market. Its multi-city population consists of 3½ million people comprising 989,605 families, with a high TV set ownership of 917,320. These families earn $5.4 billion a year, spend $3.5 billion on advertised products.

Dampener on Trading? • With concern being voiced at FCC policy level on tv station sales, thought reportedly is being given to recommendation to Congress that law be revised to provide that no transfers shall come within regular license tenure except on "involuntary" basis (death of licensee principal, bankruptcy or other extending unforeseen development). Present broadcast license tenure is three years and FCC already is unofficially committed in favor of five-year license tenure. If "anti-trafficking" provision were incorporated in proposal, it would presumably run concurrent with license tenure.

Though he now plans no announcement until after first of year, it's understood that Sylvester L. (Pat) Weaver Jr., "between jobs" since resigning as NBC chairman in September, has decided he'll go into business for himself, probably with shingle big enough to cover multitude of activities. Among those contemplated: independent production services, talent representation and consultancy to advertisers and agencies.

Holiday Decision • Whether FCC Chairman George C. McConnaughy will wish reappointment to FCC when his term expires June 30 won't be made known until after first of year—possibly following inauguration, Jan. 21. Mr. McConnaughy, who assumed office Oct. 4, 1954, to serve unexpired term of George E. Sterling, who had resigned for health reasons, had pondered return to his law practice in Columbus, Ohio, in partnership with his eldest son. He is expected to "consult" with his family about future plans over Christmas holidays.

Bids for Byter • Formal bids from at least two groups—Time Inc. and syndicate which would comprise Meredith Publishing Co. and Harold Gross (WJIM-AM-TV Lansing)—will be in hands of Consolidated Television & Radio Broadcasters Inc. (Byter) this week, with prospects of action possibly before end of year. Offers followed collapse of Crowell-Collier $16.2 million agreement [BT, Nov. 26].

Time Inc. offer, it is presumed, will be for whole package (WFBM-AM-TV Indianapolis; WOOD-AM-TV Grand Rapids; WTCN-AM-TV Minneapolis and WDFD Flint). This would entail selling off one of existing Time Inc.'s three properties in view of seven station multiple ownership limit. Gross bid apparently would be for Grand Rapids and possibly Flint, with Meredith interested in Minneapolis at $3.5 million, re-affirming former proposal. At least two important radio-tv groups reportedly are interested in Indianapolis property.

Research Money • More research to make more radio sales—that's what at Radio Advertising Bureau, which is setting aside more funds for that purpose in 1957 than ever before. In addition to its usual research activities, which run to about $75,000 annually, RAB board has set up $52,000 research reserve for special project or series of projects as need arises, plus $50,000 earmarked for specific project which officials aren't revealing yet but which they say could lead to changes in whole face of marketing.

Ford bid, however, must hinge on Liggett & Myers (Chesterfield) decision on whether it would want co-sponsor, Chesterfield, through McCann-Erickson, New York, has contract with ABC-TV, pending formalities, for full Sinatra series. Contract reserves right for cigarette firm to offer half of series to another sponsor (also see story, page 44). ABC meanwhile was reported late Friday to have firm offer for half-sponsorship from cosmetic firm, if Chesterfield is willing to go along.

As ABC-TV's nightly lineup is now con-

structed, addition of Ford sponsorship would limit scheduling of Sinatra show to probably Thursday evening. Both Thursday and Saturday night had been considered most likely for "beefing up" by strong, high-rated Sinatra show, but sprinkling of automotive shows through most of schedule (for example, Lawrence Welk Show for Dodge is on Saturday, 9-10 P.M. EST) would cause product conflict. There's no automotive Thursday night.

Pay-TV Time Table • Complete digest of subscription tv data, including testimony before committees of Congress, should be in hands of FCC from its staff by mid-January. FCC then is expected to begin consideration of hotly controversial topic and determine whether: (1) it has jurisdiction under existing law to authorize subscription method; (2) whether it should allow experimental operation to test public reaction, or (3) whether it should pass back to Congress for consideration of legislative action.

FCC feels its pay-tv time-table is in keeping with Congressional attitude, since Commission was told last year that it's first and foremost problem was tv allocations, with which it is grappling.

Radio Rate Rise • WGN Chicago shortly will announce daytime rate increase, averaging 22% with maximum of 40%, effective Jan. 1. Usual six-month protection will be given, with nighttime rates remaining unchanged. Ward Quaal, vice president and general manager, increased WGN-TV rates effective Sept. 1 (average of 20%), establishing top rate at $1,800 per hour.

Believing "tight money" market, Stauffer Publications Inc. last Thursday completed transaction with Kidder, Peabody & Co. for $2 million loan to run 10 years at 51/2% interest for its $6.5 million-plus acquisition of Capper Publications' properties, including WIBW-AM-TV Topeka [BT, Nov. 5]. Another Capper station, KCKN Kansas City, has been sold for $110,000 to Cy Blumenthal (WARL Arlington, Va.) and associates in transaction subject to FCC approval. Loan was negotiated by Robert E. Grant, Kidder vice president, with Oscar Stauffer.

Help Wanted • Expansion of NBC News personnel is planned in immediate future to staff NBC Radio's new hot news format. Also imminent are several appointments on foreign staff, which would be accomplished through replacements and transfers.
**tops in Indianapolis**

...and climbing to new heights

Ratings proved it a year ago—they're still proving it today! Ever increasing viewership, exciting programming, top-flight facilities keep WISH-TV the dominant station in Indianapolis.

Cunningham & Walsh Takes 3 Agencies Under Name; Will Pay $50 Million

NEW CONCEPT of national advertising agency service announced Friday by John Cunningham, president of Cunningham & Walsh, New York, in disclosure that C&W, Brisacher & Wheeler & Staff, San Francisco, The Mayers Co., Los Angeles, and C&W Chicago (formerly Ivan Hill Inc.) will be consolidated as of Jan. 1 into one national advertising agency under Cunningham & Walsh with name and an estimated $50 million in billing and 500 employees. C&W will have representatives from each office: Franklin C. Wheeler and Robert Brisacher from San Francisco; Henry Mayers, Los Angeles, and Ivan Hill, Chicago.

Mr. Wheeler continues as president of Brisacher & Wheeler Div. of C&W, Mr. Mayers as president of Mayer Co. Div., and Ivan Hill as executive vice president of C&W.

New concept, Mr. Cunningham said, was result of advertisers' need of agency with country-wide (AMSCI) local and regional markets. Under consolidation there will be one class of common stock, one board of directors, and national management committee will be formed with representatives of each office which in turn will be responsible for interoffice policy, recommendations and operating procedure. One feature of new plan will be exchange of marketing, merchandising and creative personnel between offices for from two to three months. All offices will participate in C&W's promotion, "The Man from C&W."

Brisacher & Wheeler & Staff brings $5 million in billing. Agency was formed in 1919 by late Emil Brisacher. President Franklin C. Wheeler, Executive Vice President Walton Purdon, Vice Presidents Robert Brisacher, Clifford Ball, Bradford Collins, Ettore Firenze, Lester Freeman and Howard Crogan remain in office. Richard Ide, who has been vice president and manager of New York office of B&W&S, becomes executive of C&W in New York.

Mayers Co. brings $3.5 million in billing, which includes recently acquired Sears, Roebuck account plus other food, financial, industrial and public utility accounts.

Kintner to Miss NBC Meet; 9 Major Pronouncements Scheduled

ONE top level executive face will be missing at NBC celebration at Miami this week—that of Robert E. Kintner, former ABC president who joins ABC as executive vice president Jan. 1. He's staying away in scrupulous compliance with terms of his departing agreement with ABC which prevents his going to work for NBC before first anniversary.

Highlights at Miami meeting (see story page 32), according to insiders, will be: (1) address of President Robert W. Sarnoff at 30th anniversary banquet Thursday night, slated to offer more than flag-waving over three decades of achievements. He plans to address himself to number of major industry problems, including government investigations, future of radio and network coverage of top-magnitude public affairs; such as U.N. crisis sessions; (2) word on major changes in NBC-TV's nighttime programming and some morning and afternoon changes at Friday business session—Emanuel (Manie) Sacks, new TV program vice president, planned to take his key executives to Miami past weekend for concentrated skill sessions to complete thinking on revised lineup; (3) NBC officials expect all NBC-TV basic stations, 85% of all TV affiliates and 80% of all NBC Radio affiliates to attend Miami convention.

Big Ten Again Will Fight NCAA Football Restrictions

BIG TEN promised Friday it will carry fight for loosening NCAA football TV restrictions to latter's autonomous committee and perhaps floor of association's national convention in St. Louis Jan. 9-11.

Western Conference TV group authorized to recommend that NCAA controls be limited to designating number of appearances (three) any school may have on TV, whether national, regional or local. Individual NCAA members would negotiate own TV arrangements. Big Ten team appearances past year were limited to one national and five regional dates by NCAA television committee, recommendation adopted by Big Ten's faculty representatives and athletic directors. Doug Mills, U. of Illinois, is district representative on NCAA tv committee.

Move to Plug Tax Loophole Alarms Coast Star-Producers

NEW personal holding company tax law regulations, proposed by Treasury Dept., have caused stir in Hollywood star and independent production circles.

Regulations seek to plug loopholes in personal company tax laws whereby such firms now can use own personal services of star-owner and outside money to package complete programs (both motion picture and TV) independently. Public has to Dec. 15 to protest, after which Treasury's Internal Revenue Bureau issues final rules.

Regulations would be retroactive to 1954, it is understood, and would wreak financial havoc with number of Hollywood entities who have formed such companies to produce TV shows or movies for themselves—rather than for third party networks or studios, according to observers. Star normally has been taking less salary from his firm than that which network or sponsor pays to corporation for package, thus obtaining more favorable tax position. Hollywood's proposal is discriminatory to entertainment industry and will destroy artistic initiative.

RCA Board Declares Dividends

RCA board has declared extra 50 cent dividend and regular quarterly dividend of 25 cents per common share, Brig. Gen. David Sarnoff, board chairman, announced Friday. Dividends are payable Jan. 28 to stockholders on record at close of business Dec. 19. Also declared was 87 1/2 cent dividend per share on first preferred stock for Jan. 1-March 31, 1957, payable April 1 to stockholders on record at close of business March 11.

BUSINESS BRIEFLY

Late-breaking items about broadcast business; for earlier news, see ADVERTISERS & AGENCIES, page 42.

DALY'S SPONSOR • General Cigar Co. (Robert Burns cigars and cigarillos, White Owl cigars, other tobacco products), N. Y., signed effective today (Mon.) for all of John Daly and the News (ABC-TV, Mon.-Fri., 7:15-7:30 p.m. EST). Reportedly contract would represent more than $2 million gross. Agency: Young & Rubicam, N. Y.

FILLS BREACH • Interim sponsorship of CBS-TV's Phil Silvers Show by J. B. Williams Co. (Leetrc Shave, Ice Blue Aqua Velva), Glastonbury, Conn., for six weeks (three full shows, three "cross-plugs"), effective Jan. 8, expected to be announced this week. Williams will "relieve" Amana Refrigeration Inc., Amana, Iowa, regular alternate sponsor (with R. J. Reynolds Tobacco Co.). It's understood Amana wants to let up on advertising following Christmas season. Refrigeration firm is expected to return to series after 6-week hiatus. J. Walter Thompson Co. is agency for Williams.

AGAIN • Seeke & Kade (Pertussin) planning second group of secondary radio markets to start Dec. 31, using about 60 stations for 13 weeks. McCann-Erickson, N. Y., is agency.

PINKHAM SPOTS • Lydia Pinkham Medicine Co., Lynn, Mass., through Harry B. Cohen, N. Y., buying radio spot announcement campaign to start Jan. 7 and run for 20 weeks.

LISTERINE BUYING • Lambert Pharmacal Co. (Listerine antiseptic), N. Y., buying radio spot announcement campaign to start Jan. 1 for 13 weeks in 38 markets. Lambert & Feasley, N. Y., agency for Listerine, also mailing radio network presentations.

DELAYED • Chesterfield cigarettes, N. Y., through McCann-Erickson, N. Y., originally planning to start 13-week radio spot announcement campaign Jan. 6, has delayed starting date to Feb. 4. Approximately 100 markets involved.

COMPTON FOR HINES • Duncan Hines cake mix, formerly serviced by Gardner Adv., St. Louis, has named Compton Adv., N. Y., to handle advertising. Other Duncan Hines mixes, for muffins, etc., will remain with Gardner. Procter & Gamble now owns Duncan Hines Co. Cake mix will run approximately $900,000 in billing.

December 10, 1956 • Page 7
Phoenix children are eager-beaver followers of the "It's Wallace?" Show. Wallace Snead, Goldust Charlie and Ladmo, stars of the show, sell, sell, SELL throughout an hour of first run Warner Brothers Cartoons. Two Phoenix stores sold 1,440 pairs of Gold Rivet Jeans as a result of only three weeks' promotion.

The Wallace show enjoys the highest cumulative daytime rating in Phoenix — topping KPHO-TV's "Trailtime" in second place. "It's Wallace?" is the ONLY local TV show in the TOP TEN.

In less than a month Wallace received over 4,000 membership applications to the "Wallace Watchers" club. Each contained 25 cents club fee.

"It's Wallace?" is SRO for sponsors now, but make your reservations early for this "eager-buyer" audience.

June '56 ARB
Daly Hits Back at Critics Of Network Crisis Coverage

UNSCHEDULED blast at anti-network criticism for not programming full coverage of United Nations deliberations last month on Middle East crisis voiced late Thursday by ABC's John Daly, vice president in charge of news, public affairs, special events and sports, at Sylvania television awards banquet in New York (see story, page 92).

Mr. Daly, in accepting ABC's award for political convention coverage, took occasion to defend networks' position because of political convention coverage, took occasion to seek approval of various film crafts in order to solve some of various problems relative to film production quality. Committee already has met with group of 12 New York film laboratory executives and plans to confer later with others.

FPA, which is cooperating with Lever Bros. in project to upgrade film quality [B&T, Nov. 5], has scheduled seminar for early next year and will provide Lever agency with preview of seminar on Dec. 17. FPA committee members include Robert Lawrence, president, Robert Lawrence Productions, and FPA president WGN-TV, general manager, Sound Masters Inc. Committee of laboratories created to work with FPA group consists of Robert Crane, Color Service Labs, chairman; Arthur Miller, Pathe Labs; Sam Schlein, DeLuxe, L. Feldman, Du Art; Ben Bloom, Movielab; Douglas Yates, Consolidated, and Paul Guft batt, Guftsuch Labs.

Am Actions Argued in Court

FCC's grant of new am outlet in Hartsville, Ala., last January (now WHRT on 860 w, with 200, w daytime) and denial of application by WERD Atlanta, Ga., for increased power on same frequency (it operates with 1 kw) argued in U. S. Court of Appeals in Washington Friday. Commission maintained Hartsville grant in public interest because it brought first station to community. WERD claimed modification should have been granted because of its specialized service (for Negro population of Atlanta and environs). FCC counsel questioned by bench as to whether FCC considered this factor in arriving at decision. Sitting were Circuit Judges Henry W. Edgerton, Charles A. Danaher and Walter M. Bastian.

Niles to Gross $1.2 Million

FRED A. NILES Productions, Chicago-Hollywood film company, will gross slightly less than $1.2 million for 1956, it was announced Friday by Fred A. Niles, president of firm. In review-

DENTON 1V TV • American Chicle Co. (Dentyn chewing gum), N. Y., planning television spot campaign after first of year. Dancer-Fitzgerald-Sample, N. Y., still has specific details under wraps.

CRANBERRY CAMPAIGN • National Cranberry Assn., Hanson, Mass., buying two-week pre-Christmas radio spot announcement schedule in 13 markets through BBDO, N. Y.

RADIO FOR SANKA • General Foods (in- stant Sanka coffee), N. Y., buying two-week radio announcement campaign starting Dec. 19 on West Coast.

Film Quality Problems Go Before Professional Meets

FILM PRODUCERS Assn. of New York announed Friday it has scheduled meetings with some of various film crafts in order to solve some of various problems relative to film production quality. Committee already has met with group of 12 New York film laboratory executives and plans to confer later with others.

FPA, which is cooperating with Lever Bros. in project to upgrade film quality [B&T, Nov. 5], has scheduled seminar for early next year and will provide Lever agency with preview of seminar on Dec. 17. FPA committee members include Robert Lawrence, president, Robert Lawrence Productions, and FPA president WGN-TV, general manager, Sound Masters Inc. Committee of laboratories created to work with FPA group consists of Robert Crane, Color Service Labs, chairman; Arthur Miller, Pathe Labs; Sam Schlein, DeLuxe, L. Feldman, Du Art; Ben Bloom, Movielab; Douglas Yates, Consolidated, and Paul Guft batt, Guftsuch Labs.

Am Actions Argued in Court

FCC's grant of new am outlet in Hartsville, Ala., last January (now WHRT on 860 w, with 200, w daytime) and denial of application by WERD Atlanta, Ga., for increased power on same frequency (it operates with 1 kw) argued in U. Niles to Gross $1.2 Million

FRED A. NILES Productions, Chicago-Hollywood film company, will gross slightly less than $1.2 million for 1956, it was announced Friday by Fred A. Niles, president of firm. In review-

ARMOUR ALTERNATES • Armour & Co. (meats), Chicago, buys alternate Wednesdays on two NBC-TV strip programs—It Could Be You (12:30-1 p.m. EST) and Matinee Theatre (3-4 p.m. EST)—with early January starting date, both for 26 weeks: Agency—Tatham-Laird Inc., Chicago.

HARD WATER SELL • Colgate Palmolive Co. (Vel beauty bar soap), planning to use tv spot campaign starting early in January.

PEOPLE

LAWRENCE TIBEETT, opera singer, reported by Mutual Friday to be considering weeknight MBS "good music" feature. Mr. Tibeett would act as host and moderator.

EVANS NORD, KELO Sioux Falls, elected president of South Dakota Broadcasters Assn. He succeeds RAY EPPLE, KORN Mitchell.

ROSS CASE, KWAT Watertown, elected vice president; JAMES SLACK, KUSD Vermillion, secretary-treasurer.

JACK TRINDEL, formerly in writing and production capacities at Vogue-Wright Studios, WQTW and WNBQ (TV) Chicago, to creative staff of Kiling Film Enterprises Inc., same city.

AL MANUTI re-elected, without opposition, to another two-year term as president of New York Local 802, American Federation of Musicians. Others re-elected: AL KNOFF, vice president; CYRIL JAFFE, secretary treasurer; DOO RICCI, incumbent secretary who won over ANDY PINO.

CHARLES A. PALMA, assistant film editor, Transfilm Inc., promoted to editor, and ROBERT FIRESTONE, apprentice at company, named assistant film editor.

BILL FISCHBACH, continuity director, WLWD (TV) Dayton, to traffic manager, MARJAN BEAUMGARDNER, formerly with WTHI-TV Terre Haute, named as his successor.

AYING first year of operation, he expressed belief best future prospects lay in "greater creativity" in tv spot production, offering of additional services and "greater attention" to tv shows with midwestern flavor.

Tv Film Producers Elect

ALLIANCE of Television Film Producers, Hollywood, Friday announced following new officers: president, John Zinn, general manager of Cheries Productions; vice president, Maurice Unger, vice president of Ziv TV Programs Inc.; secretary, Jack Findlater, vice president of Revue Productions; treasurer, Maurice Morton, vice president of McCadden Corp. Named to serve on executive committee were Hal Roach Jr., president of Hal Roach Studios; Armand L. Shafer, president of Flying A Pictures Inc., and Rudy Abel, associate producer of Robert Maxwell Assp. ATFP represents majority of tv film producers on West Coast.

Tru-Sonic Microphone System

STEPHENS TRU-SONIC INC., Culver City, Calif., has completed major production run on new wireless microphone system, President Bert Berhan announced Friday. Miniature fm transmitter system is designed for radio-tv use.

Vel beauty bar is used in hard-water areas. Agency: Carl S. Brown, N. Y.

SSS SPOTS • SSS Co. (tonic), Atlanta, buying radio spot schedule throughout southern area. Audrey S. Ferguson, media director, for Day, Harris, Hargrett & Wppstein, Atlanta, in placing orders.

SOUTHERN CLIENTS • Parker Pen Mexican, El Salvador Coats & Clark (paper), and United Shoe & Leather have appointed Kenyon & Eckhardt de Mexico S. A., as agency, bringing total number of K&E accounts in Mexico City office to seven. Others are RCA Victor Mexican S. A., Joseph Holzer & Cia (importers of Omega and Tissot watches), Helene Curtis de Mexico and Ansa S. A. (Yardley toilet goods).

In Miami...

I want to offer my heartiest congratulations to you on the newest WQAM survey for Miami which covers the months of October-November, 1956. As you know, WQAM was first place in the afternoon; first place in the morning, 7:00 a.m. to 12:00 noon, and of course, first place in all-day average.

This has been accomplished in just a little over 90 days. Frankly, I can hardly express in words the pleasure and satisfaction this great achievement gives me.

To see just how great an accomplishment it is, let's look at it in light of history. The objective of Storz Station programming has always been to provide the people served by our stations with programs of maximum interest and entertainment value. Pursuing this basic objective, each of our stations became-and remained-the most listened to station in its area, according to numerous surveys and audience reports.

In the past we also broadcast several contests and "give-away" programs, feeling that in proper ratio to the overall broadcast day, these, too, had interest and entertainment value for our listeners. However, it was always our contention that contests and give-aways of themselves could not and would not, build and maintain station audience. Unless overall station programming philosophy were sound, contests would add little, if anything, to the audience.

Shortly before our company took over the operation of WQAM, we became aware of information leading us to conclude that the Federal Communications Commission (issued on the broadcasting of contests and give-aways) immediately, on all of our existing stations, we discontinued broadcasting such features. Under our ownership, WQAM, as you know, has never broadcast any give-aways, or any contests requiring the listener to be tuned in in order to win a prize.

This fact itself underscores the fabulous job done by WQAM. The credit for this achievement goes justly to every member of the WQAM staff. The tremendous and rapid growth of WQAM to a position of first place dominance is a direct result of the enthusiasm and dispatch with which you have executed the creative ideas. I know of no parallel anywhere in the radio industry. Again, hearty congratulations for a difficult job, well done.

Our present audience position is reassuring, with an all-day average of almost 50%. But we are hopeful that this is only the beginning. Greater Miami, now graced to a population in excess of one million, is entitled to the best radio that our ability, interest and creative effort can produce. The program committee has now developed 34 new programming ideas, which will be put into effect over WQAM as quickly as possible. Some will go on the air immediately. All should be in effect by next Spring.

Jack Sandler, General Manager.

THE JAZZ AGE

PLOT-WISE, as they say in certain gray-flanneled precincts, NBC-TV's Project XX couldn't have come up with a better story than the period F. Scott Fitzgerald dubbed "The Jazz Age." It began with the bang of the last bullet fired Nov. 11, 1918, and died with the whisper of the Dow-Jones tickers on Wall St. 10 years later.

As the companion piece to Project XX's earlier venture this season, "The Great War," last Thursday's hour-long reconstruction of 1919-29 proved that Henry (Pete) Salomon & Co. could do just as well—if not better—with topics that did not deal almost exclusively with war, dictators and military might. Moreover, as contrasted with some of their earlier efforts, which tended to be somewhat overwritten, "The Jazz Age" was tied together by prose that was eloquent in its simple wittiness. Samples: of Queen Marie of Romania—"she could smell the money of ballyhoo way off in the Balkans"; of prohibition—"the rum-runners obeyed the law of supply and demand. but broke all others"; of the "vamps"—"they were Shebas looking for their sheep."

Yet, what made "The Jazz Age" was not so much the script as its delivery. It seems ironic that the late Fred Allen, who simply couldn't make a go of television while he was alive, should have come out so well after death. It was not just luck that made NBC-TV pick Mr. Allen for the role of social commentator; it was showmanship. When all was said and done, we had but one reservation: namely, that the producers spent too much time (and film) trying to prove that this was, indeed, the Era of Wonderful Nonsense.

That's all we have to say, except for a note of caution to you parents of the Presley cult: you're going to have to do an awful lot of explaining in the weeks to come...

Production costs: Approximately $125,000. Sponsored by North American Philips Co. (Norelco shavers) through C. I. LaRocque, NBC & Co., Thurs., Dec. 6 (10-11 p.m. EST) on NBC-TV.

Produced by Henry Salomon; script by Mr. Salomon and Richard Hansen; assistant producer: Don Hyatt; editors: Isaac Kleiner; narrator: Fred Allen; score: Robert Russell Bennett.

SECRET LIFE OF DANNY KAYE

ON DEC. 2, CBS-TV let the American public in on a hitherto unrevealed international secret which also is being disclosed to the tv public of 22 other countries, from Australasia to Yugoslavia, by their own television broadcasting organizations.

The secret is simple: The children of the world have unanimously united into a global Danny Kaye fan club. The potential impact of that simple secret could be a mammoth political force for world peace.

What was shown in the 90-minute program filmed by the See It Now staff was Danny Kaye entertaining the children of the world, with words that the world's children could understand, without words where he didn't have them, but always with magnificent success. Well or sick, whole or maimed—and many of the performances were put on in hospitals, clinics and the like—all the kids loved every minute of Mr. Kaye's inspired clowning.

Here, for the most part, was 90 minutes of laughter that had never far from tears, 90 minutes of Danny Kaye and hundreds of youngsters, some crippled with polio, some blinded with trichoma, some eaten with leprosy and some healthy, but all with smiles that revealed teeth in a condition that would be deplorable by American standards.

Here, for every second of the 90 minutes, was the kind of propaganda every cause dreams of: here were thousands of children whose momentary happiness in the presence of Danny Kaye underlined their permanent helplessness; here, as they drank UNICEF milk, used UNICEF salve or bared their arms for shots of UNICEF vaccine, these children told the UNICEF story so plainly that no appeal had to be spoken. Here was TV at its public service best.

TRIBUTE TO T.D.

"DIGNIFIED" would hardly be the word to describe the hour-long musical wake Herbert John Gleason held for his fellow Irishman, the late Tommy Dorsey, a week ago Saturday night. In contrast to the tribute NBC-TV's Tonight paid the late Fred Allen earlier this year, the Gleason-CBS-TV stanza was hamstrung with a maudlin script simply oozing with trite platitudes and punctuated by cliches. (But then, Mr. Dorsey was a bandleader, while Mr. Allen was only a brilliant humorist, and we know how welcome they are on TV, alive or dead.)

Once Mr. Gleason stopped talking, things got better. Loud, brassy and memory-provoking, here was a spectacular that would probably have delighted the Sentimental Gentleman of Swing. Gathered on two soundstages, in New York and Los Angeles, were most of T.D.'s old colleagues, running the gamut of his band's repertoire, from "Royal Garden Blues" to "Opus No. 1" and back again. Frankly, we weren't half as impressed by the names of those Hollywood and Tin Pan Alley stars—twinkling and extinguished—who dropped in to do their bit, as by their vast number. That most of them had been spawned by the Dorsey organization during the past two decades was almost unbelievable. There were not only such stars as Jo Stafford, Bob Crosby, Connie Haines, Tex Beneke, Dick Haymes, the Pied Pipers, Charlie Barnet, Count Basie, Sy Oliver, et al., but more orchestra sidemen than you could shake a baton at.

OPEN MIKE

Newspapers and Tv
EDITOR:

I was very interested in the article in your Nov. 19 issue comparing tv and newspaper audiences and costs. I would like to pose a question with respect to the statement (quoted from Pulse study) that "the find-
ing shows that on an all-home basis the average person spends 34 minutes a day with newspapers and 1 hour 45 minutes with television . . ." How much advertising exposure opportunity is represented (out of the total daily advertising content of the two media) by 34 minutes a day with newspapers, and 1 hour and 45 minutes a day with tv?

I think the Pulse survey and the interpre-
tation of the findings are guilty of a critical omission on this score. An individ-
ual can be (and usually is) exposed to most ads in an issue of a newspaper. Naturally, the quality of the copy and layout and a reader's needs and interests will deter-
mine which ads actually are read, to what extent, and by whom. On the other hand, an individual cannot possibly be exposed to the total advertising content of tv in an hour and 45 minutes. It's a matter of chance whether a given advertiser's commercials are seen or not. Thus, an inherent advan-
tage of print media, particularly newspapers, shows up quite clearly.

This letter is not intended to minimize the selling power of tv. The record speaks for itself. I simply felt compelled to point out, in specific connection with the Pulse study in your article, that there is another side of the coin ... in favor of newspapers.

Arch Crist
BBDO, Minneapolis, Minn.

[EDITOR'S NOTE: To present both sides of the coin, B-1 showed Mr. Crist's letter to TVB, whose presentation to a New York advertiser-agency group touched off the discussion. Herewith are TVB's comments:]

EDITOR:

It is important to Mr. Crist and anyone else learning of the recent TVB national study, as conducted by Pulse, to realize that fundamentally, in an advertising world of mixed metaphors, apple-and-pomegranate research and elastic yardsticks, TVB has developed a basic, primary tool of media measurement—time spent. This is as far as the current study is intended to go. Subsequent studies will investigate other areas of media comparisons—from the standpoint of direct comparability, a quality hitherto lacking in "incomparable comparisons.

Mr. Crist's commentary, however, does invite some philosophizing: First, in regard to newspapers; the average individual spends 34 minutes per day with this medium; about 61% of all newspaper space is devoted to advertising (Media Records); 15% of all readers of a paper recall "glancing" (noting) at the average advertisement of two lines or more (Starch).

With these facts in mind, it is conjectur-
able that if equivalent time were devoted to every line (editorial and advertising) of a newspaper by the average reader, this would result in about 18 minutes of "advertising exposure opportunity" per reader per day; but, this figure should be appreciably re-
duced, for we all know that people, in reading newspapers, spend disproportionate time with editorial material (news, sports, comics, columns, cross-word puzzles, etc.); the 15% "glancing" figure clearly indicates that while all readers of a paper may have the opportu-
nity of being exposed to all ads, all readers simply don't avail themselves of the opportu-
nity ... in fact, see only three out of every 20 ads (Starch).

One other point is important: The myth, not math, of the longevity of the newspaper—and the "additional advertising exposure opportunity" that this affords the advertiser. But, and the "national" finding is corroborated by what TVB discovered in Chicago last March—90% of all references to newspa-
ders during a 24-hour period were one-time-only references.

On the "tv side of the coin," it should be noted that the TVB study reported time spent with television on an all-home base. This includes the steadily-shrinking segment of the population, the non-tv home. On a television home base, the figure is projec-
tible to over two and a quarter hours per person per day.

Applying a figure of 15% commercial time—of all broadcast time—to this view-
ing, then, the average person in the average day has an "advertising exposure opportu-
nity" of 21 minutes of television commercials and actually sees these commercials.

One other point of philosophy—which of the two media does Mr. Crist feel the average individual will be more relaxed with, more susceptible to; which medium will be more persuasive; which medium will merit his attention and gratitude—the one with 60% "commercials" (newspapers) or television, with 15% commercials?

Television Bureau of Advertising
New York, N. Y.

Powerful Tool
EDITOR:

Who says radio has to take a back seat? On Nov. 1, a severe snow storm hit the Rocky Mountain Empire. In fact, blizzard conditions prevailed for two days. Roads were blocked—people were stranded. The only form of communication was radio. The KGOS news room was flooded with phone calls—people wanting to know if there would be school today, were the roads open. For two days KGOS informed the people of eastern Wyoming and western Nebraska of road conditions, helped find missing persons and relayed messages via the air. Here is one of many letters received after the storm was over.

"We wish to give our sincere thanks to KGOS and your staff for the kind help you gave to help find our parents and husband and son who were stranded in the More Springs area. You spared us many hours of worry." I think many of us fail to realize the powerful tool which we have in radio and the services which we can render in time of need.

Kerm Kath, Mgr.
KGOS Torrington, Wyo.
Radio and only radio can sell your potential customers while she is occupied with other things. Radio is her constant companion, following her wherever she goes.

The Nation's Voice is the technique of concentrating your advertising on a relatively small number of great radio stations in the important population centers. Among the 2,833 radio stations operating today, only 48 are needed to bring 85% of all America's millions within your reach.

Alfred Politz Research Inc. collected the important facts on which this new technique is based. This highly respected research firm discovered that even in areas where television is most highly developed, two-thirds of the adult population listens to radio on any given day. Within a week, 87.8% listen!

Not in just one -- but in 5 separate markets, the Politz studies show that people trust, respect and listen most to one great station . . . by such surprising margins as 11 to 1 over the next station.

The Nation's Voice Story is in a presentation which is now ready at all Christal offices. Call now and arrange for a demonstration.

First on every list are these 14 Great Radio Stations covering ⅓ of all America

**WBAL** - Baltimore  
**WBEN** - Buffalo  
**WGR** - Cleveland  
**WJR** - Detroit  
**WFC** - Fort Wayne  
**WNAS** - Nashville  
**WDAY** - Minneapolis  
**WGY** - Schenectady  
**WSYR** - Syracuse  
**WTAG** - Worcester  

**WHAT WILL $100,000 BUY IN THESE 4 EXCELLENT MEDIA?**

**THE LARGEST WEEKLY MAGAZINE** — using color pages, your message will go out just 3 times to homes where only 15% of the people in America live.

**THE LEADING NEWSPAPER SUPPLEMENT** — your money is not quite sufficient for 3 color pages — delivered to less than 25% of the homes in America.

**A GOOD TELEVISION PROGRAM** — your talent bill alone, with a medium-priced half-hour, would use all your money in less than 3 shows, and you'd still have to pay for your time.

**THE NATION'S VOICE** — your full minute sales talk, jingle, or dramatization can be directed 60 different times to homes where 85% of the people live, and where more than 85% of all purchases are made.

our respects

to PAUL JOHN MILLER

AT THE TIME Paul J. Miller moved to Wheeling, W. Va., 25 years ago, he already had spent more than a dozen years in the entertainment and business ends of radio dating back to 1918. Today, the Storer Broadcasting Co, vice president and managing director of WWVA-AM-FM Wheeling is sometimes known as Ohio Valley’s “Mr. Radio,” having spent the greatest part of his lifetime in radio in that region.

Paul John Miller, who was born Oct. 24, 1904, in Pittsburgh, knew more about radio as a high school lad of 14 than he did about the sketchy rules governing it when in 1918 an older fellow amateur warned him that World War I security efforts prohibited the operation without a license of his spark coil transmitter.

Not long afterward he again was on the air with his amateur WRAGX and later held broadcast licenses for WMBU and WCBF Pittsburgh, both short-lived efforts because of lack of financing. Upon his graduation from high school in 1922, he went to KQV, a pioneer station in Pittsburgh, to begin his commercial broadcasting career.

At KQV, Mr. Miller was operator, announcer and entertainer and he did everything around the station from tuning up the transmitter to announcing and playing the piano. When the station went on a commercial basis in 1926, he knew enough about engineering, although he had not completed studies at Carnegie Tech, to build the transmitter.

Mr. Miller continued to operate his WRAGX, and it was one of the few stations in the world that was heard by WNP, the MacMillan Arctic Expedition, in its explorations near the North Pole in 1925.

During those days one Pittsburgh newspaper said about him: “There may be more versatile individuals in Pittsburgh radio circles than Paul J. Miller of KQV, but we don’t know them. Paul can perform almost any duty that arises around a broadcasting station. He plays the saxophone and piano and sings. . . . He designed the control panel in the new studios . . . and he has worked in the commercial end of the business, selling both time and receiving sets. In addition to all this, he is the station’s principal sports announcer.”

This sports chore was one of Mr. Miller’s loves and he set out to make KQV a sports station. As one of radio’s first sportscasters, he originated ideas that since have become standard in broadcasting. He began regular broadcasts of college football games played by Carnegie Tech, Duquesne and Pitt. When he couldn’t attend games personally, he “re-created” broadcasts from the wires of Western Union, and with addition of band music and crowds cheering they sounded so much like the actual thing that his followers bet each other on whether he was actually at the field of play. He also had a pioneer quiz broadcast with prizes and made a broadcast from an Ohio River steamer. He became manager of KQV in 1928.

In 1931 he went down the river to join WWVA, Wheeling, which had been on the air several years, as an announcer and entertainer, and helped originate the station’s still-popular Inquiring Mike. There he met Vivian McDonald, then doing an organ program on WWVA, and married her. They live across the Ohio River at Martins Ferry. At WWVA, the “Friendly Voice,” he also worked in engineering, announcing and entertaining and continued until a few years ago to conduct the station’s Ohio Valley Football Reporter. He later became production manager, then assistant managing director, and in 1953 was named managing director. A year ago he was elected a Storer vice president.

A past president of West Virginia Broadcasters Assn., active in the Masonic organization and in almost all local civic affairs, Mr. Miller plays a golf game in the high 80s. He is a believer of the “personal touch” approach in broadcasting and is known throughout the business as a master of mail order advertising. An example of the WWVA mail pull is a recent announcement on the station’s Saturday night WWVA Jamboree (7:30 p.m.-midnight), which drew 10,000 pieces of mail from 550 counties in 23 northeastern states. Mr. Miller appeared as announcer and entertainer on the first Jamboree program 23 years ago and a week ago last Saturday the show counted its two millionth member of the studio audience.

For his quarter-century in area broadcasting the Wheeling Advertising Club presented Mr. Miller with a giant certificate honoring his 25 years of service to the Ohio Valley community.

CLEAN UP... On Friday morning, and even during the storm swept darkness of Thanksgiving Night, many people grabbed available equipment and worked desperately to clear drive ways and fire hydrants, after an appeal over WICU "Storm Central" by City Fire Chief Peter Kuhn.

FROM FRONT ROW CENTER
A PACKED HOUSE

WICU has consistently headlined a marquee of ratings, stars and properties... today, the headline comes straight from the Associated Press!

"Stations WIKK and WICU (TV) served as emergency message centers when telephone lines were down in parts of Pennsylvania, New York and Ohio... pleas for help, messages to stranded and missing persons and instructions from civic officials were taken by phone and relayed in special broadcasts... the WICU switchboard handled more than 10,000 phone calls in a 24 hour period."

The "Storm Central" pictorial documentary ranges from lake line snow scenes to behind the studio scenes at WICU: routing thousands
Storm Central went into actual operation at 6:45 PM when Newsman Van Cantfort, in introducing his Dateline Erie News Telecast said, “Welcome to News Central, or should I say Storm Central.” From that moment WICU began a news coverage operation which was to last 78 hours and 22 minutes and contain 10 hours and 52 minutes of simulcast public service announcements over WICU-TV and WIKK radio.

---

**Crisis:**
30 inches of snow in 30 hours covers Erie area.

**Calls:**
10,000 phone calls routed in 24-hour period.

**Commendation:**
An adequate supply of blood was assured St. Vincent Hospital as a result of appeals over station WICU.

---

To Storm Central . . . Every Performance!

of phone calls . . . relaying urgent appeals . . . while maintaining 78 hours of news and simulcast public service.

The “Storm Central” impression of WICU is indelible: reliable eye and ear reporter, trusty shoulder in emergency, helping hand in the community, sun-shine entertainer and storm-time friend.

“Storm Central” indicates that around Erie, WICU combines instantaneous reporting with vital public service programming — a minor marketing fact perhaps, but a major factor concerning advertisers, their product distribution programs and their spot segment campaigns.

Civilian Defense Mobilization . . . Announcer Dave Forsyth (in boots) meets with local CD officials in restaurant where first efforts were made to mobilize the local units. With many people away from their homes for the Thanksgiving Holiday and communications lines jammed, WICU-WIKK handled the brunt of CD communications for the first thirty hours.
Saginaw Story —

While we rested...
This advertiser tested!

We don't like to rest on our laurels... but this was one time we couldn't help ourselves. A leading advertiser in the Saginaw-Bay City-Midland area wanted the best buy for his radio dollars. Our surveys showed WSAM to be the best buy. However, taking nothing for granted, this advertiser conducted an independent survey in this rich Tri-City Michigan area to be absolutely sure which radio station reached the most prospects for the least amount of money. Needless to say, WSAM led all the rest in his survey, too, and WSAM got the order—for the entire year! Proof again that WSAM's progressive programming of the big three in radio today—news, music, and sports—is what it takes to get and hold most of the listeners!

DONALD H. QUINN

on all accounts

WHEN Donald H. Quinn moved to New York in 1946 following his release from the Navy, he decided to look for a job that was "interesting." A family friend suggested that he might like the advertising business.

Today Mr. Quinn is gratified that he accepted the friend's counsel. In the intervening 10 years, he has progressed from mail boy at Lennen & Mitchell (now Lennen & Newell) to vice president in charge of media for Doherty, Clifford Steers & Shenfield, New York.

Mr. Quinn was born in Northampton, Mass., Aug. 11, 1923, and attended local schools. Shortly after graduation from high school, he entered the New York State Maritime Academy at Fort Schuyler, N. Y., and the following year (1943) was graduated as an ensign in the U. S. Naval Reserve, remaining on active duty until 1946.

His first post-war job as a mailroom boy for Lennen & Mitchell lasted four months, and then he was shifted to the agency's research department. Several months later, he was named an assistant timebuyer. He remained with the agency until the spring of 1949, when he resigned to join the time-buying department of Ruthrauff & Ryan, New York. In 1951, he became a timebuyer for Pedlar & Ryan, New York, and in October 1952 he was appointed head timebuyer at DCS&S. He was promoted to director of media in April 1954 and was named a vice president last spring.

Mr. Quinn heads a staff of 19 people in the media department of Doherty, Clifford, Steers & Shenfield, of which six are timebuyers. Mr. Quinn realizes the useful purposes to which radio and tv can be utilized on behalf of clients, though he also recognizes the value of other media, depending on marketing requirements. As an indication of DCS&S' confidence in radio and tv, Mr. Quinn points out that in 1956 approximately $6.7 million (about 50% of the agency's total billings) was allocated to the broadcasting media.

In April 1951, Mr. Quinn married Margot Ryan of Larchmont, N. Y. They live in Bronxville, N. Y., with their two children, Susan, 4, and Douglas, 3.
New York to Paris to Seattle...

SEATTLE, SEPTEMBER 13, 1927: Lindbergh, the "Lone Eagle," spoke over KOMO microphones to thousands who idolized his courage... the same thousands who had breathlessly followed his perilous progress over the Atlantic... who heard history being made when "WE" settled at Le Bourget Aerodrome... and who had shared in his triumphal return to the nation's capital—events swiftly, accurately related to the nation by NBC and brought to the Pacific Northwest by KOMO.

On Wings of NBC Sound!

For thirty years, America has consistently received the peak of public service... top entertainment value... on-the-scene reporting of history-making news... first in radio, then in television, now in both... thanks to NBC.

KOMO and KOMO-TV are happy to share this Thirtieth Anniversary of NBC. KOMO began operations thirty years ago, too—December 31, 1926—and in April, 1927, first to bring network radio to Seattle and the great Pacific Northwest... the personalities, the programming, the concept that has kept NBC and its affiliates in the deserved position of leadership.

With pride in our participation... with gratitude for the leadership NBC so generously shares with us... we offer sincere congratulations on thirty years of progress.

* 1956 SRDS Estimates of Consumer Markets
THE Justice Dept. threw a noose around the NBC-RCA corporate neck last week. It asked the courts to draw it tight.

By week's end, other broadcast entities were holding their breath.

After 18 months of rumors, innuendos and public utterances of its concern with broadcast network practices, the department filed a civil antitrust complaint against NBC and RCA for alleged coercion against Westinghouse Broadcasting Co. in the Philadelphia-Cleveland stations swap. The suit, filed Tuesday in Philadelphia federal district court, asked the divestiture of the assets of NBC "as the court may deem necessary and appropriate."

RCA-NBC issued a statement the same day claiming that they were the victims of an inter-agency squabble over jurisdiction. They pointed out that the FCC has investigated the allegations and had found it in the public interest to approve the transfers (see text, page 29). Full page ads quoting this statement appeared in Philadelphia newspapers last Friday.

The exchange of stations between NBC and WBC was approved by the FCC last December. NBC traded its owned Cleveland outlets (W T A M - A M - F M and WNBK [TV]) for WBC's Philadelphia outlets (KYW and WPTZ [TV]). WBC also was paid $3 million.

Although the government complaint stressed the alleged conspiracy on the part of RCA-NBC in the Philadelphia situation, the broad language of some of its sections, plus the unexplained vagueness of some of the "prayers for relief" caused alarm in many network offices.

One non-NBC network official termed the charges "frightening" in their implications.

There was no question, in other quarters, that last week's action should be considered as "only the beginning." This was more or less confirmed by government sources.

Back of the general alarm were the months of grand jury investigation in Philadelphia on the NBC-WBC transaction and the warning given publicly last September by Asst. Attorney General Victor R. Hansen that Justice was intensively investigating the whole area of network practices. The antitrust chief made these observations before the Celler antitrust committee in New York [B*T, Sept. 24].

The Justice Dept.'s complaint last week referred pointedly to such significant sectors of network practices as the importance of affiliations to tv stations, the representation by networks of not only their owned stations but of independent stations, and the income of networks in 1954 and 1955.

The status of the Philadelphia grand jury investigation was not disclosed. It was noted by some observers that normally a government civil and criminal action is begun at the same time. In this case the civil action was filed alone.

It was observed by knowledgeable antitrust attorneys that a grand jury investigation is sometimes used by the Dept. of Justice to cross-examine witnesses and to secure documents. The Justice Dept. has no power to subpoena witnesses or documents.

One of the first casualties of the government's action was the NBC purchase of WKBV-AM-TV New Britain, Conn. The FCC on Thursday announced that on its own motion it was postponing the effective date of the initial decision favoring approval of the $600,000 transaction. The FCC said it had insufficient time to consider the sale. Unless exceptions are noted to an initial decision within 40 days, the recommendations are made final. They would have become final Dec. 10, under these terms [B*T, Nov. 5].

One of the major questions which immediately arose following the filing of the suit was how the Justice Dept. could charge antitrust violation on a matter already considered and approved by the FCC. It was pointed out that this is not a new problem in government circles. It was observed that similar conflicts of jurisdiction had involved Justice with the Maritime Board, Civil Aeronautics Board and Interstate Commerce Commission.

In one of the latest such decisions the government suffered defeat, the Supreme Court in 1952 asserting that the Maritime Board's approval of a shipping agreement removed the shippers from prosecution under the antitrust laws (Far East Conference case).

The question also was raised as to whether the Justice Dept. had offered RCA-NBC a settlement under its avowed policy of pre-filing negotiations. This policy was made public by then Asst. Attorney General Stanley N. Barnes in an appearance before a House Judiciary subcommittee in 1955. It was understood that this policy had been honored more in the breach than in the observance and that RCA-NBC had not been approached.

It was also observed that if the government wins this suit, Westinghouse could file...
Following is the text of the government complaint listing alleged offenses:

Beginning about March 1954, and continuously thereafter to the date of the filing of this complaint, the defendants RCA and NBC have been engaged in an unlawful combination or conspiracy in unreasonable restraint of the aforesaid interstate trade and commerce in violation of Section 1 of the Sherman Act.

The aforesaid combination or conspiracy has consisted of a continuing agreement and concert of action between the defendants RCA and NBC to obtain vhf television station ownership for NBC in five of the eight primary markets by the unlawful use of the power of the defendant NBC, as a network, to grant or withhold from non-network station owners, NBC network affiliation for their television stations.

Defendants RCA and NBC have effectuated this combination or conspiracy in part by depriving WBC and Westinghouse Electric of WBC’s vhf station in the Philadelphia market by the following means:

(a) Threatening to cancel or to refuse to renew WBC’s affiliation with NBC in Boston and Philadelphia if WBC refused to negotiate with NBC for the transfer of its vhf station in Philadelphia to NBC;
(b) Withholding affiliation with NBC for a vhf station about to be acquired by WBC in Pittsburgh, until WBC agreed to transfer its vhf station in Philadelphia to the defendant NBC;
(c) Threatening to withhold affiliation with NBC for WBC’s fifth vhf and two uhf stations when acquired.

On or about May 16, 1955, defendant NBC entered into a contract with WBC in unreasonable restraint of the aforesaid trade and commerce in violation of Sec. 1 of the Sherman Act. This contract provided that:

(a) NBC would acquire the WBC television and radio broadcasting facilities in Philadelphia;
(b) WBC would acquire the NBC television and radio broadcasting facilities in Cleveland;
(c) NBC would pay WBC $3,000,000.

On or about January 21, 1956, WBC and the defendant NBC exchanged the aforesaid facilities pursuant to this contract.

Said offenses are continuing and will continue unless the relief hereinafter prayed for in this complaint is granted.

The effects of the aforesaid offenses, among others, have been and are:

(a) To reduce the ability of WBC as a station owner to compete with NBC and other station owners for the sale of advertising;
(b) To preclude competition among independent advertising representatives for representation of one of the vhf stations in the Philadelphia market;
(c) To preclude competition among station owners in the Philadelphia market for NBC network affiliation; and
(d) To reduce the ability of Westinghouse Electric to compete with RCA and others in the sale of equipment for the transmission and reception of radio and television signals.

suit for antitrust violation and stand to collect treble damages—which could run into the millions.

An analogy was seen between this first television network case and the government's antitrust moves against newspapers. It was likened to the Justice Dept.'s successful move against the Lorain (Ohio) Journal in 1949; which was followed by similar actions against the New Orleans Times-Picayune and the Kansas City Star. The last case has been appealed to the U. S. Supreme Court.

Actually, this is the second government suit against broadcast networks. The Justice Dept. filed an antitrust complaint against all radio networks in 1941. This was while the networks were appealing from the FCC’s chain ownership regulations. This suit was dropped when the Supreme Court upheld the Commission’s right to promulgate these rules.

The antitrust issue was raised during the 1953 hearings on the ABC-United Paramount Theaters merger. The proceedings were observed almost in their entirety by a Justice Dept. attorney. Following the FCC approval of this merger there was talk of Justice Dept. action, but no move was ever made.

The possibility that trial on the RCA-NBC suit will not commence for two years was broached by many conversant with court procedures in cases of this nature. The usual procedure, it was explained, is for the defendants to file an answer 20 days after the complaint is filed. This would make the deadline for RCA-NBC to reply to these charges Christmas Eve. However, it also was pointed out that continuances are customarily given in these matters. Following these answers, a pretrial conference usually is held in an attempt to consolidate and focus the issues and to itemize the witnesses and exhibits to be called. A trial is then held. Parenthetically, it was observed that the famous Paramount motion picture antitrust case ran for 10 years, from investigation to consent decree.
The RCA-NBC answer to the charges

Following is the text of the RCA-NBC answer to the government complaint:

This suit results from a jurisdictional dispute between two agencies of government, in which RCA and NBC have been caught in the middle. The NBC-Westinghouse exchange of stations in Philadelphia and Cleveland, with which the action deals, was approved by the Federal Communications Commission in December 1955 after a thorough study of all the facts. On the basis of this study, the FCC decided that the exchange was in the public interest.

Contrary to the claim made by the Antitrust Div. in this suit, not only was Westinghouse not coerced by RCA and NBC to make the transfer, but Westinghouse, in fact, sent a letter to the FCC urging approval of the transfer as being in the public interest. It was on the basis of this representation by Westinghouse as well as the other material before it that the FCC approved the transfer now challenged by the Antitrust Div. A copy of this letter is attached.

The FCC is specifically authorized by Congress to pass upon such station transfers, and NBC acted in accordance with its decision. Now another branch of government—the Antitrust Div.—is trying to undo the action of the Federal Communications Commission.

If American businesses are to be hauled into court by the Antitrust Div. because they act in conformance with the rulings of an authorized government agency, then indeed confusion will be compounded by confusion. We are confident that this dispute between government agencies will not result in RCA and NBC being penalized for scrupulously following the procedures established by law.

The following letter, signed jointly by the Chairman of the Board of Westinghouse Broadcasting Co. and the Chairman of the Board of the National Broadcasting Co., was sent on Nov. 10, 1955, to George C. McConnaughey, Chairman, Federal Communications Commission:

Dear Chairman McConnaughey:

Attached are the replies of our respective companies to the points raised by the Commission in its letter of Oct. 17, 1955, describing the proposed exchange of the Westinghouse stations in Philadelphia for the NBC stations in Cleveland and answering the other questions raised by the Commission.

The decision to make this exchange was arrived at after careful consideration of all factors at the highest management level of both companies. It has the approval of our respective Boards of Directors and the approval of the Boards of Directors of our respective parent companies.

The companies, therefore, entered into the agreement satisfied that the exchange is a fair one, that its consummation will serve the best interests of both companies, and that it is consistent with the public interest.

We jointly urge the Commission to approve this exchange at an early date.
tion, and reduced the ability of Westinghouse to compete with RCA and others in the sale of tv transmitter and receiver equipment.

In its discussion of NBC, the Justice Dept. said that NBC furnishes network service to about 200 "independent" television stations and the same number of radio stations, as well as to its own 90 or so stations. It referred to the fact that NBC also acts as an advertising sales representative for all members of its owned stations as well as for some independently owned stations. Total revenues of NBC account for over 23% of RCA's total annual revenues, the government declared.

In a review of the "trade and commerce involved," the Justice Dept. began by stating that the sale of advertising is essential to the operation of television and radio networks, station groups and broadcasting stations. It added that "vigorous" competition for national spot advertising and local advertising exists among networks, network station groups, independent station groups and independent stations. It also maintained that there is competition among the networks, and between the networks and independent representatives, for representation of independent stations and station groups in the sale of national spot advertising.

"Affiliation," the government complaint said, "makes television station operations more profitable and is generally essential to the economic survival of television stations except in the three largest major markets. Time periods adjacent to popular network programs are particularly attractive to advertisers for local and national spot advertising. Station breaks, during which the broadcasting station is identified at regular intervals, provide valuable advertising for the station owner."

**Networks Revenues in 1955**

The Justice Dept. reported that in 1955, (including owned stations) NBC's television revenues amounted to $159 million; in 1954, $120 million. It cited CBS's revenues for 1955 as $153 million; for 1954 as $123 million; ABC's in 1955 as $56 million, in 1944 as $44 million. It said that in 1954 total television revenue was $538,122,000; of which network time sales accounted for 45%; national spot 33% and local 22%.

The government also pointed out that Philadelphia is the fourth market and Cleveland the tenth market of the U.S. In terms of population and retail sales, it pointed out that in 1954 NBC owned vhf television outlets in New York, Chicago, Los Angeles, Cleveland and Washington (markets 1, 2, 3, 10 and 11) and that WBC owned stations in Philadelphia, Boston and San Francisco (markets 4, 6 and 7). The Justice Dept. stated that WBC was the only non-network station owner with three vhf stations in markets 4 through 7. It added: "In this capacity, it was an important competitor of defendant NBC and other station owners for advertising in the eight primary markets."

The government formally asked the court to:

1. Find that the "aforesaid combination or conspiracy and the aforesaid contract of May 19, 1955 (between NBC and WBC) in violation of Section 1 of the Sherman Act."
2. Order "such divestiture" of the assets of NBC as it may "deem necessary and appropriate."

The government also asked the court that it be given "such other and additional relief as may be proper," and that the government recover the costs of the suit.

In announcing the filing of the suit, Attorney General Herbert A. Brownell Jr. said: "The purpose of this civil complaint is to enforce the antitrust laws in the broadcasting industry. Where, as here alleged, a network has used its power to gain a competitive advantage as a station owner over its competitors, it is the duty of the Government under the Sherman Act to seek to remedy the effects of this offense and to prevent similar offenses in the future."

Assistant Attorney General Victor R. Hansen, antitrust chief of the Justice Dept., said:

"This is the first case filed by the Dept. of Justice under the antitrust laws involving the activities of any television network. Congress, in passing the Communications Act in 1934, expressed its policy that the antitrust laws should apply to the broadcasting industry. Accordingly, the conduct of RCA and NBC must meet the same standards of accountability under the Sherman Act as that of any other American business."

It was in June of 1955 that NBC and WBC asked the FCC to approve the exchange of the Philadelphia and Cleveland stations. Right from the start there were unofficial reports that Westinghouse was bowing to the exchange because it feared loss of its NBC affiliations not only in Philadelphia but also in Pittsburgh and Boston.

These rumors were used as a basis for a charge by WGR-TV Buffalo, N.Y., in its objection to the $312,500 purchase by NBC of ch. 17 WBUF-TV Buffalo (later withdrawn). The charges and rumors impelled the FCC to send an investigating team to Philadelphia and New York. Later, the Commission sent both parties a McFarland letter indicating that a grant was not possible without a hearing due to the charges of coercion and questions of overlap and concentration.

Both NBC and Westinghouse replied, with covering letters by Brig. Gen. David Sarnoff, NBC chairman, and E. V. Huggins, chairman of WBC, urging approval.

On Dec. 28, 1955, the FCC announced that it had approved the transactions by a vote of six to one. Comr. Robert T. Bartley dissented, holding that a full hearing should be held. This position was countered by Comr. John C. Doerfer who issued a concurring statement, the gist of which was that WBC had exercised a "business judgment" in the matter.

It was learned at that time that on Dec. 27, the day before the FCC approval was announced, the Justice Dept.—which had been kept advised of the purported charges of coercion—informed the FCC that it was investigating the situation. The Justice Dept. did not ask the FCC to defer action.

**Sent to FCC Chairman**

The Justice Dept.'s communication, over the signature of then Asst. Attorney General Stanley N. Barnes in charge of antitrust, was directed to FCC Chairman George C. McConnoughy.

Mr. McConnoughy, appearing before the Celler committee last March, explained that the grant had been approved a week before the announcement, on Dec. 21 to be exact, and that the hiatus between the decision and the announcement was due to the need to await Comr. Bartley's dissent and Comr. Doerfer's concurring statement.

Rep. Emanuel Celler (D-N.Y.), chairman of the House Judiciary and antitrust subcommittee, pressed Mr. Barnes on why Justice had not asked the FCC to defer action on the transaction. Mr. Barnes explained that communications was a field where the FCC and Justice exercised "concurrent jurisdiction." He added that it was his opinion that the FCC action did not foreclose an antitrust suit by the Justice Dept. if one was warranted.

In June WBC President Don McGannon testified before the Magnuson committee that Westinghouse would still have owned the Philadelphia ch. 3 outlet had it not been faced with the probable loss of NBC affiliation. He said that the network intimated that if WBC did not agree to the exchange, NBC would acquire another station in

---

Page 30 • December 10, 1956

**Broadcasting • Telecasting**
The importance of this affiliation was pointed up by Mr. McGannon when he reminded the Senate committee that a $5 million valuation on the NBC affiliation had been placed on the books when WBC bought the then WPTZ (TV) from Philco in 1953 for $8.5 million.

The Celler committee, late in June at its Washington hearings, reopened its consideration of the NBC-WBC swap. It introduced into the record memoranda from FCC investigators which seemingly pointed up the fact that (1) WBC officials feared loss of the NBC affiliations in Pittsburgh and Boston as well as Philadelphia if Westinghouse balked at the exchange; (2) Chris Witting, then WBC president, suggested among other alternatives that WBC try for CBS affiliations in Pittsburgh and Boston and ABC in Philadelphia; (3) WBC officials said they were told that if the NBC-WBC transaction fell through the network would buy ch. 6 WPIT-TV Philadelphia; (4) the FCC's Broadcast Bureau felt that the NBC-WBC replications to the McFarland letter adequately answered the charges of duress but that there still remained to be considered questions of possible overlap.

It was at this time, also, that Chairman McConnaughey told the Celler committee that the Commission majority agreed that no hearing was necessary since all the facts were before it.

Mr. Barnes had made it clear at the initial House antitrust hearing that the Justice Dept. was studying the Philadelphia situation. He termed it a "delicate" situation.

Hansen Discloses Probe

It was seven months later that Assistant Attorney General Victor R. Hansen ripped the lid off the Department's activities in this area—an unprecedented action from the notoriously close-mouthed Justice Dept. Appearing before the Celler subcommittee in New York, the newly appointed antitrust chief openly admitted that the department was investigating network practices, ventured the opinion that some network practices seemed to be illegal (option time, must buys, etc.), and added that he expected something to break on the department's investigation of the NBC-WBC exchange of stations before the year's end.

It was known then that the Justice Dept. was presenting a case on the exchange of stations to a grand jury in Philadelphia. Among those subpoenaed were Brig. Gen. David Sarnoff, Robert W. Sarnoff, Joseph E. Heffeman, Charles R. Denny, all of NBC, and E. V. Huggins, Chris J. Witting, John W. Steen and Joseph Baudino, all of WBC. In addition documents were subpoenaed from NBC and RCA, WBC and Westinghouse Electric, CBS and others.

It was at this time also that Mr. Hansen ventured the opinion that any relaxation of the FCC's multiple ownership rules would be inconsistent with the objectives of the antitrust laws. He opposed proposals which would have placed a limitation on single ownership of stations to the number of stations covering not more than 25% of the population, in lieu of the present limit of 30%

SITE of NBC's 30th birthday observance this week (story page 32) is the spanking new (opened Nov. 25) Americana Hotel in Bal Harbour, Miami Beach, which boasts 475 rooms, 10 acres of sub-tropical landscaping, the usual complement of dining rooms, bars and shops, a nightclub, 600 ft. of private ocean and (for the more timorous) an Olympic-sized swimming pool with 100 cabanas.

When not taking advantage of the above, the 750 NBC-affiliated guests may occupy themselves with the agenda items listed below. Business sessions are in bold face.

**WEDNESDAY**

10 a.m. to 6:30 p.m.: Registration.

2:4-5:30 p.m.: Ladies shopping tour of Lincoln Road (transportation provided).

7 p.m.: Open house, grand ballroom.

**THURSDAY**

7:10 a.m.: Telecast of Today from pool of Americana Hotel.

9 a.m.-3 p.m.: NBC men's golf tournament, La Gorce Country Club.

10:10-12 a.m.: Ladies dancing class, Americana pool.

12 noon-2:30 p.m.: Fashion show and luncheon, Floridian Room.

2:30-5:30 p.m.: Yacht trip through Miami waterways.

3:30-4:30: Bongo, Americana pool.

7 p.m.: Cocktail party reception, Starlite Patio.

8 p.m.: NBC affiliate dinner, grand ballroom. Harry Bannister, station relations vice president, toastmaster. Welcome by Florida Gov. Leroy Collins. Talk by Niles Trammell, former NBC president, now president of WCKT (TV) Miami. Principal address by NBC President Robert W. Sarnoff.

**FRIDAY**

7-10 a.m.: Today telecast from Americana pool.

9 a.m.-12 noon: Ladies golf tournament, La Gorce Country Club.

10:30-11 a.m.: Ladies dancing class, Americana pool.

**SATURDAY**

11 a.m.-12 noon: Open meeting with affiliates, Westward Room.

12:30 p.m.: Luncheon, Grand ballroom, honoring Brig. Gen. David Sarnoff, RCA board chairman, for his contributions to broadcasting.

2:45-5:45 p.m.: Ladies shopping tour of Lincoln Road (transportation provided).

3-5 p.m.: Ladies bridge, canasta, gin rummy tournament, Americana pool.

3-5 p.m.: Affiliates closed meeting, Westward Room.

8 p.m.: Cocktail party, Starlite Patio.

9 p.m.: Lobster roast and beefsteak barbecue, Americana pool.

11:30 p.m.-1 a.m.: Tonight show, from Americana pool.

(Saturday and early afternoon will be for organized fishing, boating and other activities.)

5:30-7:30 p.m.: Buffet, Starlite Patio.

7:30-9 p.m.: Perry Como Show will originate in grand ballroom, with guests including Groucho Marx, Jo Stafford, Johnny Ray, Steve Allen, Melinda Marx. (Doors close promptly at 7:50 p.m.)

9:15-10:15 p.m.: Cocktails, Starlite Patio.

10:30 p.m.: NBC supper dance (formal), grand ballroom.

**SUNDAY**

Transportation will be provided to all churches.
TWENTY years ago, NBC celebrated what its officials called “a century of progress in a decade of broadcasting.”

This week, in the sparkling new Americana Hotel at Bal Harbour, Miami Beach, NBC and its radio and television affiliates will celebrate three times that—the 30th anniversary of the nation’s pioneer network.

Despite the sudden shadow cast by the Justice Dept.’s antitrust suit and the imminence of a court defense against it (see story, page 27), top officials of NBC will gather with hundreds of affiliate executives and their wives—an estimated 750 persons in all—for four days of business and fun starting Wednesday.

Although separate radio and television affiliates meetings are scheduled Friday morning and afternoon, mostly it’s a convention for fun (see complete agenda, page 31).

There’ll be a banquet Thursday night with the principal address by NBC President Robert W. Sarnoff and a talk also by Niles Trammell, president of WCKT (TV) Miami but better known to the affiliates through his 24 years in key NBC executive posts, including nine years as president.

On Friday the affiliates themselves will be hosts at a luncheon honoring Briggs, Gen. David, Long, chairman of RCA, who proposed the formation of NBC in the first place and has kept an alert eye and an informed hand on the direction of its affairs ever since.

There’ll be a golf tournament, too (Thursday), and a dinner and dance to close out the festivities Saturday night. During the four days three major NBC-TV programs—the Perry Como Show, one Tonight and two Today shows—will originate from the Americana convention site.

In the origination of programs as well as the banquet and dinner, at least, the 30th birthday convention will find kinship with that first ten-year “Century of Progress” celebration—which obviously took its name from the fact that Lenox Riley Lohr, installed that year as NBC’s second president, had previously organized and run the Chicago “Century of Progress Exposition.”

The record makes plain, however, that there was more to justify the “Century of Progress” billing for the 1936 celebration than just the former connection of an official with the Chicago exposition. For radio, it had indeed been a notable decade.

Four networks had come into being where none existed before, two of them operated by NBC (the Red and the Blue, so designated because of the different colored lines used to differentiate the circuits on engineers’ maps). Radio had moved ahead with swift strides, revolutionizing the country’s concepts of home entertainment as it did so. Television, though still experimental, was on the way—at that 1936 convention the NBC affiliates got their first official demonstration of the new medium.

The first of NBC’s three decades started, after the organizational preliminaries, on Nov. 15, 1926, with a four-and-a-half-hour program featuring, among many others, Mary Garden singing in Chicago, Will Rogers wisecracking in Independence, Kan., and Walter Damrosch conducting the New York Symphony Orchestra in New York. Twenty-one charter affiliates and four other stations carried the inaugural broadcast—which was repeated, with virtually all of the original talent, as a highlight of the 1936 celebration.

NBC-Blue was established Jan. 1, 1927, as an adjunct of the original network, which became NBC-Red. On that same day the nation’s radio listeners heard the first coast-to-coast broadcast—the Rose Bowl football game from Pasadena, Calif. (Alabama tied Stanford, 7-7).

The first year brought a succession of newsmaking developments. President Coolidge broadcast his Washington birthday address over a coast-to-coast network of 42 NBC stations (NBC now has 188 radio affiliates). The NBC Pacific Coast network was organized April 11, and in July U. S. and Canadian stations were linked by broadcast. The Dempsey-Tunney prizefight in Chicago on Sept. 22 was carried by 69 stations, the largest hookup to that time.

Radio was steadily expanding its reach. President Coolidge was heard opening the Pan-American Conference in Havana on Jan. 16, 1928, and a year later NBC carried a symphony concert in what was described as the first shortwave broadcast from England. By Dec. 23, 1928, NBC was a permanent coast-to-coast network, with 58 stations. In the meantime, NBC had launched its

Tom Tinsley, President  NBC BASIC–CHANNEL 8  Irvin G. Abeloff, Vice Pres.

Something new has been added

This tiny mountain cabin in the Sierras is the home of a highly paid logger. He wanted television for years, but couldn't get it until KFRE-TV went on the air.

Now, something new has been added. The powerful KFRE-TV signal carries over and beyond the hills to bring him, his neighbors, and thousands more families their first enjoyment of television programs. They consistently watch KFRE-TV . . . for it's the only channel they can get.

KFRE-TV is the only station that covers both the rich San Joaquin Valley . . . and the thousands of families who live in the one-third of Central California containing the nation's most rugged and beautiful mountains. It's your most productive television buy.

Paul R. Bartlett, President
MERLIN H. AYLESWORTH (Sept. 9, 1926, to Jan. 1, 1936): "I've come clean to my job, with no experience and no prejudices. I am literally starting from the bottom at the top." So said NBC's first president when he gave up the post of managing director of the National Electric Light Assn. to take the new job.

In (Decem) Aylesworth's presidential decade, NBC introduced and developed some of radio's most enduring talents, launched a second network, and started its first tv station. He left NBC to become head of Radio-Keith-Orpheum, subsequently joined Scripps-Howard newspapers and served as publisher of the New York World-Telegram, and, during his later years, was an attorney and consultant (Cities Service, which entered network radio at his suggestion and became its oldest continuous sponsor, was one of his clients). He died in 1952 at 66.

LENOS R. LOHR (Jan. 1, 1936, to July 12, 1940): Like his predecessor, NBC's second president admitted at the outset that his first job would be to learn what radio was all about. He came to radio—and NBC—from the Chicago Century of Progress Exposition, which he organized and guided to notable success despite the nationwide depression. He had been an engineer, soldier, typographer, writer, editor, showman, salesmen, and public relations expert. At NBC he maintained and expanded the Aylesworth policy of top-flight entertainment. The NBC Symphony orchestra was organized, new comedy and dramatic programs were launched, and the network's organizational structure was tightened. Mr. Lohr left NBC and the broadcasting industry in 1940 to become president of the Chicago Museum of Science and Industry, a post he still holds.

NILES TRAMMELL (July 12, 1940, to Oct. 7, 1949): Unlike the first two presidents, Niles Trammell came to the job with a long history in radio. He had resigned an Army commission in 1922 to join RCA. In 1928 he switched to NBC as a salesman, became manager of the Central Div. two months later and vice president of the division the following year. In 1939 he moved to New York as NBC executive vice president, en route to the presidency. Often described as a statesmanly combination of salesman and showman, he oversaw advances on all fronts during his presidential term, among them programming, sales, news coverage, and—especially—television. From the presidency he moved into the board chairmanship, leaving that post Dec. 31, 1952. He is now president and part owner of the recently-constructed WCKT (TV) Miami, an NBC-TV affiliate.

JOSEPH H. MCCONNELL (Oct. 7, 1949, to Jan. 2, 1953): Eight years of executive service with RCA led Mr. McConnell to the NBC presidency. After private law practice in the South and service with the National Recovery Administration in Washington in 1933-35, he joined the law firm representing RCA. In 1941 he joined RCA and was executive vice president when named NBC head. Much of his tenure at NBC was marked by reorganization. NBC was split into three components (radio network, television network, o&0 stations), and top executives were imported from outside. Television was on the march. Network radio was beginning to take a buffetting. Mr. McConnell's term was probably the most tumultuous of that of any NBC president. Mr. McConnell left the NBC presidency, later went to Colgate-Palmolive as president and from there, last year, to Reynolds Metals Co. at Reynolds Metals he currently serves as general counsel and member of the board.

FRANK WHITE (Jan. 2, 1953, to Aug. 7, 1953): NBC was the third network Frank White served, the second as president. He entered radio in 1937 as treasurer of CBS after approximately 16 years in the accounting and publishing fields. In 1947 he was named president of Columbia Records, a CBS subsidiary. From there he moved, in 1949, to the presidency of Mutual. Three years later he joined NBC, serving as vice president and general manager of the radio and tv networks until his elevation to the presidency. The period was one of continued expansion for television, and continued readjustment for radio. Mr. White's term was foreshortened by the physical demands of the job. Near-exhaustion forced him to take a month's rest, and, when he failed to recover his old vitality, he resigned. Mr. White subsequently joined McCann-Erickson International as president and continues to serve in that capacity at the agency.

SYLVESTER L. WEAVER JR. (Dec. 4, 1953, to Dec. 7, 1955): Spectacular has to be the word for Pat Weaver as well as for the program extravaganzas which he endowed with that name. Advertising manager of American Tobacco Co. under the late George Washington Hill at the age of 30, and subsequently radio and television vice president of Young & Rubicam, he joined NBC in 1949 as head of television. Named president at the age of 44, he solidified his already established reputation as an innovator and "grand concept" man. Among the departures for which he was credited, before and during his presidency, are the 90-minute color spectaculars, Today, Home and Tonight and their magazine concepts of selling, and Wide Wide World, to name some. He went from president to chairman of the board, resigning the latter post Sept. 7, 1956. Since then he's been to Europe on a vacation-business trip, has yet to settle his future plans.

THE PRESIDENTS OF NBC

CONTINUED
BRIG. GEN. DAVID SARNOFF: Although charged with the bigger job of running RCA, Gen Sarnoff has always kept a keen eye cocked on NBC. As boss of RCA, he's also unquestioned boss of subsidiary NBC, and between tenures of Messrs. White and Weaver he served four months as network president.

“political career,” covering the Republican and Democratic conventions in June 1928 and broadcasting election returns for the first time the following November.

NBC put its new radio mobile unit into use for the first time on All Fools Day, 1930, broadcasting from New York’s Bronx Zoo. On Christmas Day, 1931, “Hansel and Gretel” was presented as the first of a regular series of Metropolitan Opera broadcast over the combined facilities of the Red and the Blue.

NBC moved into its new multi-million-dollar home in New York’s new Radio City and made its first broadcast from there—an elaborate four-hour program—on Nov. 11, 1933. Two years later, on Dec. 7, 1935, NBC Hollywood studios were opened.

Although it was still NBC’s first decade, television was edging forward. The construction permit for NBC-RCA’s first experimental tv station in New York had been issued April 4, 1928, and W2XBS began operating from the New Amsterdam Theatre there on July 30, 1930, transmitting 60-line images. On Oct. 30, 1931, the station started experimental 120-line picture transmissions from the Empire State Bldg., now the “home” of all seven New York area stations. Regular experiments with live talent were started in February 1932. Bell system coaxial linked the NBC studios with the Empire State transmitter—a distance of 15 blocks—for the first time on June 10, 1936, and the next month NBC used live artists and film in its first public demonstration of an all-electronic tv system.

Many still-famous names were first heard in homes across the nation in those early days—and later. Eddie Cantor led the list, appearing as a guest on NBC on Nov. 22, 1926. In the ensuing decade he was followed, chronologically, by Al Jolson, Rudy Vallee, Amos ‘n’ Andy, Fred Allen, Walter Winchell, Jane Froman, Ed Wynn, Jack Benny, Jack Pearl, Groucho Marx, Jimmy Durante, Bob Hope, Fibber McGee and Molly, Bing Crosby, Fred Waring and Ralph Edwards.

The second decade was dominated by the war years. News coverage, intensified by NBC as by all networks with the growing uneasiness in Europe in the middle and late 30s and the outbreak of war in 1939, was stepped up even further with the bombing of Pearl Harbor in December 1941 and continued at an all-out pace throughout the war.

But international unrest and war did not stop developments on the home front. The NBC Symphony Orchestra was organized and launched a weekly series of concerts on Nov. 4, 1937, and Arturo Toscanini took up the baton on the following Christmas Day in an association that lasted through the 1954 season. NBC’s New York fm station commenced operation Jan. 11, 1940, and on Jan. 9, 1942, the Blue Network was separated from NBC and established as a separate company (later re-named ABC).

Television’s strides were growing longer. NBC put its first mobile tv station on New York streets Dec. 12, 1937, and on April 30, 1939, W2XBS inaugurated regular program service with a telecast from the opening of the New York World’s Fair, with President Roosevelt among the participants. Fred Waring and other stars were featured in a twice-weekly studio tv series starting May 3, 1939, and by June 20 of that year the weekly television program schedule totaled 10 hours. Tennis, major league baseball, college and pro football all came under the tv eye that year, and hockey, basketball, the circus, and a complete Broadway play (“When We Are Married,” on March 3) were added the next.

FCC members were shown pictures re-broadcast by WRGB (TV) Schenectady from a direct pickup from NBC in New York in a demonstration Feb. 1, 1940, and the “network” became a three-station operation on June 24, 1940, when coaxial cable permitted tv pickups in Philadelphia—at the Republican National Convention—to be seen in New York and Schenectady as well as Philadelphia.

FCC authorized commercial television effective July 1, 1941, and NBC’s W2XBS became WNBT (now WRCA-TV) New York and, with four sponsors on the first day, became the world’s first commercial tv station.

Then the U. S. entered World War II, and on May 22, 1942, television schedules were cut to four hours a week. Even so, many memorable events were captured by television during this period, among them special films of Japan’s surrender on Sept. 9, 1945; opening sessions of the U. N. Security Council in New York on March 25, 1946, and the Louis-Conn heavyweight championship fight in June 1946 when the addition of a Washington station brought NBC up to a four-station network.

Near the end of the second decade, NBC demonstrated—Oct. 25, 1945—the IRA-developed super-sensitive “image orthicon” camera tube which solved major illumination problems and made outdoor pickups possible.

The third decade saw television establish itself and a new factor come into the picture—color.

For network radio, the past 10 years have been the hardest, as NBC and the other radio networks have tried to adjust to changing listening habits and changing buying patterns brought on by the growth of television. As part of that adjustment, NBC has inaugurated new techniques, including the weekend Monitor service (started June 12, 1955) and, for a time, a Weekday counterpart. More recently, the Bandstand concept of...
WSYR has achieved leadership in news service by making news coverage the Number One programming responsibility. Seven full-time staffers share the job of covering, editing and reporting 12 complete news reports daily — these in addition to NBC's news reports. They cover the local and regional news 'round the clock — set up "on-the-spot" broadcasts of important special events. Naturally, the people of Central New York prefer WSYR for news. And advertisers recognize WSYR as the news buy in this 20-county market with 1.5 million population and $2.2 billion annual spending power.
live music by name bands for two hours each weekday morning has been in operation since July 27 of this year, and since then a whole new project including five-minute newscasts hourly has been laid out for introduction early next year.

In September 1947, NBC and Eastman Kodak announced the development of a special camera which paved the way for kinescope recordings—a development the importance of which became increasingly appreciated as the number of affiliates grew faster than AT&T could link them for simulcast transmissions.

But the size of the live network was growing quickly.

NBC’s midwestern tv network opened Sept. 20, 1948, to include St. Louis, Chicago, Milwaukee, Toledo, Detroit, Cleveland and Buffalo—all connected by coaxial cable. Two years later, coaxial cable links to Memphis, Kansas City and Omaha, and to Jacksonville, Fla., were opened (the World Series that year, televised as far west as Omaha, reached an estimated 38 million people). On Sept. 4, 1951, microwave relay and cable linked the East Coast and the West, and that year the World Series reached 62 million. By the end of 1953 NBC had 168 affiliates (compared to 207 now).

There were other technical achievements: first use of television on Aug. 27, 1949, and screen projection on Jan. 13, 1950; construction of multi-million-dollar tv studios at Burbank, Calif., which were opened Oct. 4, 1952; airborne relay of live pickups in Cuba to U.S. audiences on Wide World on Nov. 13, 1953.

Color TV Speeds Up
Color television, meanwhile, developed slowly at first, then at a faster and faster clip. RCA and NBC held out for a compatible color system—which RCA had announced in August 1949—and in the end FCC reversed itself and authorized compatible standards on Dec. 17, 1953. NBC-TV then carried four major programs in color within 15 days, and by the end of the year 27 owned stations and 65 affiliates had announced they would equip to relay network color shows.

NBC started the 1954 new year by relaying—in the first coast-to-coast colorcast from the West Coast—color pickups of the Tournament of Roses Parade at Pasadena. The 90-minute color spectaculars were inaugurated Sept. 12, 1954, with the presentation of Betty Hutton in Satins and Spurs from NBC’s new Brooklyn studios, just adapted for color at a cost of $3.5 million.

New color studios in Burbank were opened March 27, 1955, and a $12 million program to increase color facilities even further was announced the following November. NBC-owned WNBT (TV) Chicago commenced operations as the world’s first “all color” station on April 15, 1956, and last month NBC announced a $3.5 million plan for further expansion of the network’s color facilities during 1957-58. By Nov. 1 of this year, NBC was networking 55 hours of color programming per month, and network officials announced that by Jan. 1, 1957, 134 of its 207 stations would be equipped to carry network colorcasts, 30 to originate their own live color shows, and 47 to originate film shows in color.

**NBC’S HOURLY NEWS RUNS INTO HITCH; MAJOR AFFILIATES REFUSE CLEARANCES**

NBC’s new plan of offering five-minute newscasts on the hour ran into enemy fire last week despite its success in attracting Bristol-Myers to half-sponsorship (see story, page 50).

Spokesmen for a number of major NBC Radio affiliates told B&T that for both programming and economic reasons they would not clear the five-minute segments requested for the newscasts, which NBC hopes to start Jan. 14 (B&T, Nov. 12 et seq.); Closed Circuit, Dec. 31, 1955.

NBC officials voiced surprise at this resistance, asserting that both in discussions with affiliates throughout the country and in returns of contract amendments to date they have encountered virtually complete endorsement—and that on this basis they have no thought except to go ahead with the plan. They acknowledged that some stations indicated problems would be involved in clearing all the periods concerned, but said these stations also indicated they would work out these problems satisfactorily.

Larry Webb, managing director of Station Representatives Assn., meanwhile sent to SRA a memorandum charging that SRA was supporting an invasion of the part of NBC of their affiliates’ station time periods at cut-rate prices—and this at a time when radio time rates are showing excellent gains, especially in the national spot field.

Mr. Webb claimed “the only thing ‘new’ about [the plan] is that such a deal has never been offered to an advertiser at such a ridiculously low price.” He quoted NBC estimates that the cost per thousand home commercial impressions would come to 59 cents and that this would drop to 48 cents if auto commercial impressions were counted. His memorandum continued:

“Radio stations throughout the country have been offered a contract for a communications情报，programming for years, and practically every newscast is sold out to either local or national advertisers. NBC, instead of doing a really creative and selling job for their affiliates in option time periods, has decided that it is much easier—and perhaps more lucrative—to move into the most valued time periods which have been developed solely by the stations and chip off some of that ‘spot’ money which has been the major source of revenue for radio stations throughout the country.”

‘No Time for Station Breaks’

A “possible” other new feature in the plan, Mr. Webb asserted, is that unlike most local news shows, it “leaves no time for station breaks” to be sold to local sponsors—and that it accomplishes this “for a price far below the station’s rate card.” He continued:

“The question being asked is ‘Why do the affiliates say yes to such a plan?’ Perhaps the answer in most cases is wrapped up in an NBC network tv affiliation, or in other cases, a long hoped for tv affiliation. If further proof is needed that NBC really wields a club over the heads of many of its affiliates, perhaps this is it.

Unless there are hidden factors in the formula for figuring revenue, not one station on the list has anything to gain by this deal, including the NBC owned and operated stations, and radio, the advertising medium that has been undersold for the past 30 years, is again confronted with another cut-rate proposition at the hands of a network.”

The complaint of individual stations pictured as opposing the plan involved both economies and program policy. Spokesmen, who asked that their identities not be revealed, maintained that many stations believe that “news on the hour” is “not good programming,” and that there simply isn’t enough news available to justify the 17 hourly newscasts which NBC proposes to carry each day.

**Loss of Money Seen**

Their economic objection was fundamental: They claimed that by giving up the five-minute periods that NBC is asking for, they would lose money because some of these periods, at least, are sold locally for more than they would receive from NBC for the network newscasts. One station estimated its loss in local revenues would come to $42,000 a year, whereas its total revenues from the network currently do not exceed $25,000 a year.

The critics acknowledge that a vast number of affiliates heartily endorse the plan, as NBC officials have reported. But, these critics maintain, most of the approvals come from smaller stations, and larger ones and those with good local sales in these five-minute periods stand to lose if they clear the time.

The five-minute plan, which would present newscasts hourly from 7 a.m. to 11 p.m., is part of an overall proposal by NBC that also encompasses a “hot line” service (already in operation) permitting NBC to break into local programming immediately with news of major importance; 70-second station breaks, which give affiliates one-minute local commercial availability; and local listen-in service to network stations locally, subject to recapture in event of network sale; and changes designed to strengthen programming. NBC officials a fortnight ago completed a series of regional meetings to explain the entire project directly to affiliates. They reported afterwards that it had received virtually 100% approval except for a relatively few instances where affiliate representatives withheld comment or were not in position to speak for their management.

Harry Bannister, NBC station relations vice president, said Friday that not in five years had he taken a proposal on the road to affiliates and met with so nearly universal acceptance as was accorded the current project. The relatively few stations that indicated they would have problems, he said, also gave indication that the problems could be worked out. He declined to give figures on the written returns as yet, but said they greatly exceeded his expectations and contain no rejections.
it's RICHER than you think!

Sure! women buy fur coats in Florida— to wear up North! But they buy more food, home furnishings, sports clothes, drugs and all the other items that go with modern, everyday living. The men do a little buying, too. For instance, last year retail purchases in the WFLA-TV Sales Area climbed to a whopping billion-and-a-quarter dollars—34% of Florida’s total!

The WFLA-TV market is RICH—RICHER than you think! It’s a fast-growing market where weekly payrolls from constantly expanding industrial and agricultural production create steady buying power right around the calendar. It’s Florida’s second and America’s 36th Retail Market—and here’s what’s in it for you:

- **34%** of Florida’s RETAIL SALES
- **56%** of Florida’s GROSS FARM INCOME
- **37%** of Florida’s HOUSEHOLDS
- **35%** of Florida’s FOOD SALES
- **31%** of Florida’s DRUG SALES

WFLA-TV, with unduplicated NBC live programming reaching out into its 100-mile area, and strong local programs packed with showmanship, puts your product into more homes in Florida’s Second Market!

(Figures from Consumer Market—1955)
It’s December—the last month of another year—a year that has seen Television rise to new heights and Radio come alive again, but for most of us here at Hollingbery, it marks a record year wherein the stations we represent have seen sales climb to new levels...higher levels than were ever anticipated. As we say, we are real proud of this record, and we might rest on our laurels, but to us the record of this past year is only a “starting point” for an even bigger and better twelve months to come. We are already making plans for 1957...for greater sales results, all spelling out greater profits for each and every Hollingbery station.

We repeat, “WE’RE REAL PROUD!”

GM REVISES CO-OP AD PROGRAM

- Company decides to discontinue dealer-company fund
- Congressional, Justice Dept. probes seen as reason

COOPERATIVE advertising through dealers and distributors felt the impact of congressional and Dept. of Justice probing last week as General Motors, reputedly the nation's largest advertiser, revised its longtime co-op program.

Decision of GM to discontinue its co-op fund, part of a reported $100 million annual advertising fund, led Attorney General Herbert Brownell Jr. to say, "The Dept. of Justice welcomes the announcement by GM of its abolition of the dealer advertising fund. This step should help to eliminate some of the sources of friction between dealer and manufacturer."

GM has decided to eliminate the cause of the federal probes—dealer contributions. In a letter to GM's 18,500 passenger car and truck dealers, Harlow H. Curtice, president, said the company pioneered a factory-dealer advertising program nearly 30 years ago to meet a dealer need for "quality and comprehensive advertising on a local basis."

Advent of radio created new advertising problems, said Mr. Curtice, who added, "More recently, with the growth of television as a national and local advertising media, the number and complexity of these problems have increased substantially, especially in the administration of the program. These problems have been handled on a national and local basis to achieve the broadcast coverage for all dealers, not however, without some instances of differences of opinion between dealers themselves and between some dealers and those charged with the administration of the program."

Under its new policy GM has eliminated dealer contributions entirely. It has released to each dealer the unspent portion of his contributions to the GM advertising and promotional fund. GM assumes full responsibility for the cost and administration of the new advertising and promotional program on a local and national basis, and it factors added costs into the list prices of General Motors vehicles instead of receiving dealer contributions for each car sold.

GM contended the changes will have little effect on costs to the consumer. The new program does not affect normal dealer advertising on a local basis to specific competitive situations.

According to testimony before the Senate anti-trust subcommittee, which held hearings on General Motors advertising practices early this year, some dealers objected to contribution of an estimated $20, for example, to GM for each Chevrolet sold. The committee wrote legislation enacted during the summer, which allows dealers to sue in federal court on the ground of bad faith in terminating a franchise agreement.

Hudson Motors’ Account Placed With Geyer Adv.

THE $2.8 million Hudson Motors' account (Hudson and Metropolitan autos), which last month was resigned by Brooks, Smith, French & Dorrance [BT, Nov. 12], has been placed with Geyer Adv., both through New York and Detroit. Geyer for the past 20 years has handled the Nash and Kelvinator Divs., of American Motors.

Geyer now handles the complete American Motors Line, ranging from passenger sedans and station wagons (Hudson, Nash, Rambler, Metropolitan), refrigerators, freezers and air conditioners (Kelvinators).

Following the appointment the agency's president, Sam M. Ballard, announced that Geyer would set up an entirely new creative group to handle the new accounts. The appointment was effective Dec. 1.

Studebaker-Packard Has No Plans For Added Network Activity Now

STUDEBAKER-PACKARD Corp., operating on a "slightly reduced" broadcast advertising budget for the forthcoming year, plans no further network activity for the present, spokesmen indicated last week. The auto firm sponsors NBC News with Chet Huntley and David Brinkley (NBC-TV, Mon., 7:45-8 p.m. EST).

At a news conference in New York Thursday, S-P President Harold E. Churchill said his firm would concentrate on the medium priced field for 1957, producing only Packard Clipper sedans and station wagons.

Although S-P’s agency, Benton & Bowles, has not yet finalized the full introductory campaign, spot radio-tv reportedly will be used.

Also on Thursday, S-P dealers in 22 cities got their first look at the 1957 Packard when Theatre Network Television Inc. staged a special closed-circuit program from ABC-TV headquarters in New York.

Mogul Names Three Heads For Research Dept. Units

CREATION of three functional divisions within the research department of Emil Mogul Co., New York, with a directing head for each unit was announced last week by Joel Martin, director of media and research.

Harvey Queen, assistant director, becomes responsible for consumer research and administration; Arnold Feldman assumes supervision of statistical service and sales analysis, and Lawrence Lynch directs the department's field research service.

Mr. Martin also announced that Melvin H. Ross, formerly assistant project director at Dancer-Fitzgerald-Sample, New York, and Norman S. Passman have been added to Mogul's research staff.

Philip Morris to Back Touring Country Music

TOURING country music shows are planned by Philip Morris Inc. to start next month in the South and later expand throughout the country. The advance itinerary—which will include free concerts and weekly broadcasts sponsored on radio—was announced last week after a contract signing between the cigarette maker and Jim Denny Artist Bureau, Nashville.

Country music star Ray Price will headline the first "Philip Morris Country Music Show." Radio telephone in the group's bus will permit members of the show to talk with editors, disc jockeys and others in the areas they intend to visit. At each major stop along the road, the group will be featured in a weekly radio broadcast, with the station lineup and originating station for each of the airings dependent on the travel route.

N. W. Ayer & Son, Philadelphia-New York, is the agency.

Ben Duffy Hospitalized

BEN DUFFY, president of BBDO, New York, and one of advertising's best known leaders, suffered a cerebral hemorrhage last Monday in Minneapolis, but was reported later in the week to be resting comfortably. Stricken during a business trip, he is a patient at Minneapolis' Abbott Hospital and is not permitted visitors. His family has requested that no remembrances be sent to him during his hospitalization.
$750 per week gets you!

WABD's presentation of Warner Brothers pictures has hit the formula of success! With a vertical presentation of a matinee and evening performance, 15.1% of all TV homes in the nation's largest market tune in every Sunday.

These are the Nielsen figures (4 weeks ending October 20, 1956).

Research Man Should Be Ad Minded, Larmon Says

A RESEARCH MAN who isolates his interests and thinks of research alone is "like a tag dangling from the selvage," according to Sigurd S. Larmon, president of Young & Rubicam.

Mr. Larmon made this statement before more than 40 research executives convening in the agency's main office last Friday for a five-day international research conference.

Research executives, Mr. Larmon said, are regarded not as research specialists but as advertising men who specialize in research.

The Y & R conference, under the direction of Dr. Peter Langhoff, vice president and director of research, was to emphasize the necessity of planning research to provide data which is relevant and applicable to marketing and advertising problems. Research executives from Y & R offices in Montreal, Toronto, London, Mexico City and Frankfurt, Germany, as well as from the firm's main offices and its domestic branches, attended the meeting.

"The ideal Y & R product group delivers the blended judgment of its members, seeing the advertising problem as a whole, rather than a series of conclusions contributed by people thinking mainly in terms of their own specialties," Mr. Larmon said in his opening address.

Expressing agency's long-held appreciation of the part research can play in sound planning, Mr. Larmon said, "there is far less work in whipping out the actual ads for a campaign than in the planning and digging that should go into evolving the right basic strategy. Yet, unless the strategy is right even the most brilliant advertising will lay a large and gleaming egg."

Mr. Larmon, in describing some of the changes that have taken place in marketing in the past few decades, said: "In the twenties and thirties competition was keen but not the total warfare it is today. Manufacturers were more apt to depend on adroit salesmanship than on million dollar giveaways. There was a more recognizable difference between competing products than there is today. Today the laboratories have leveled most of that out. Whether you are talking products, advertising ideas, layout treatments, package design, merchandising stunts, television shows or what have you, we are in the greatest era of monkey-see, monkey-do the world has ever known."

Mr. Larmon observed that the research account executive is an important factor in helping establish the strategic plans on his account and that one of his greatest contributions can be toward a better understanding of the product-consumer relationship.

He noted: "We expect the research department to keep itself in advance of the field in this important area of product-consumer relationship. We want this department to be completely integrated with the agency, to be advertising minded, to be discontented with present accomplishments and eager to challenge the future."

Chesterfield to Take Sinatra on ABC-TV

LIGGETT & MYERS (Chesterfield cigarettes) is expected to sponsor the as yet untitled Frank Sinatra show on ABC-TV next fall.

Details have not yet been worked out, it was understood, pending completion of final arrangements of the Sinatra-ABC pact which was consummated only two weeks ago [BT, Dec. 3]. That contract — between Kent Productions and ABC — reportedly would possibly net Mr. Sinatra $1 million each year for three years and provides for ABC acquisition of a stock interest in Kent (owned by Mr. Sinatra) over that period.

While figures are pliable, depending on such matters as station lineups, starting dates, etc., it was reported that the talent cost for a half-hour of Mr. Sinatra's series, some of the weekly programs to be live and others on film, will run between $65,000 and $75,000. This, it was said, would make the 30 minutes the most expensive on television.

Chesterfield would pick up the entire series — weekly half-hour programs plus two one-hour special shows, and, it was reported, would have the option to permit sale of one half of the "package" to another advertiser, should it so desire.

The ABC-Sinatra pact, negotiated by Leonard Goldenson, president of American Broadcasting-Paramount Theatres Inc. and acting president of the ABC division, generally is regarded as the first major move by ABC to climb into the upper TV billings strata next fall.

McCann-Erickson, New York, is the agency for Chesterfield.

Lever Bros. Buy on CBS Radio Totals $3 Million Gross Billings

LEVER BROS. CO., New York, has purchased 20 segments weekly on CBS Radio, a 52-week contract, effective Jan. 2, which represents an annual gross billing of $3 million including time and talent.

The Lever buy, reported last week by John Karol, CBS Radio vice president in charge of network sales, was seen as "one of the largest purchases of radio time and talent in recent years." Involved are 7 1/2-minute segments in four Mon.-Fri. programs: Ma Perkins, Young Dr. Malone, Romance of Helen Trent and House Party.

Mr. Karol pointed out this was the fifth sale by the radio network within six months that totaled in excess of $1 million gross time and talent. Others: Colgate-Palmolive, $3 million; Standard-Brands, $1.5 million; Scott Paper Co., $1.3 million, and Slenderella International, $1 million.

Lever's purchase also represents a return of the national advertiser to CBS Radio's program sponsor list. Its most recent programs on CBS Radio were Arthur Godfrey

Both Are Positive About a Negative

TWO radio-tv advertisers last week concluded that coffee and wine do not mix—especially when it comes to advertising copy. Charging that Eastern Wine Corp. (Chateaudeau-Martin wine) new spot campaign was "the slickest piece of doubletalk heard on or off Madison Ave. in the past 25 years," William Black, president of Federal Nut Co. (Chock Full O'Nuts coffee) alleged that C-M had "pirated" Chock Full's "negative approach in advertising."

The Chateau-Martin campaign urges: "Don't, please don't buy Chateau-Martin wine . . . unless you are that rare person . . . that one in 10 . . . who truly appreciates vintage wines."

The "negative approach," as formulated by Federal and its agency, Grey Adv., has been on the air for close to two years with the copy: "Don't spend the extra money for this coffee . . . unless you're just plain cra-azy about good coffee . . . "

Chock Full has spent over $2 million on its "negative approach" campaign in several eastern states. He charged that the wine company's "new" advertising theme is a brazen carbon copy of another's idea . . . compounded by the claim that the idea is "unusual."

Martin Lefcort, Chateau-Martin's president, countercharged that Mr. Black had "borrowed" his firm's original "Gaston" jingle ("I'm just cra-azy about Chateau-Mart-in wine") of 20 years ago and converted it to a "Kaffeklatsch."

The Chateau-Martin campaign was placed by Stephen Goerl Assoc., New York. Mr. Goerl is said to be its executive vice president. He has advertised for his firm's original "pirated" Chock Full's "negative" campaign on WQXR New York. At that time, the wine part of the account will go to Ben Bliss & Co., New York, which currently handles the C-M's popular wine list.

CONVAIR Plans Drive

CONVAIR Division of General Dynamics Corp., San Diego, Calif., has named Hanson & Jorgensen, Los Angeles, to service and create advertising in connection with its national employment recruiting drive. Heavy budget is used in three major media, including radio. Agency will establish a San Diego office. Appointment is effective Jan. 15. Glenn Adv., Ft. Worth, Tex., will continue to serve Convair divisions in that city.

SPOT TV HAS SPECIAL BENEFITS FOR TEXTILE FIRMS, SAYS BARBER

SPOT TV is a "natural" for textile industry advertising but network TV offers many problems, according to A. W. Barber, general advertising and sales promotion manager for Dan River Mills Inc.

In a speech before the third annual general managers' meeting of CBS-TV Spot Sales, held at New York City's Savoy-Plaza Hotel (B*TV, Dec. 3), Mr. Barber admitted he had even been skeptical of the value of spot television until his company's initial venture into that field this fall. The venture has developed into a "happy association," he said.

Because of the textile industry's "narrow margin of profit, fast-paced seasonal turnover and intense competition" advertising must be "direct and effective," Mr. Barber declared. "There is neither time nor money available for experimentation or mistakes or the luxury of long-range or strictly institutional advertising."

He explained that textile advertising not only must be merchandiseable but it must be merchandised: First to the manufacturer, who is the primary customer; then to the retailer, who is his customer, and finally to the consuming public.

"We are engaged in the fashion business—our product and our promotion is dependent upon trends—the styles and the colors of the apparel being worn by both sexes of all ages, and the changes in their taste which are reflected in what they buy to wear," he said.

"Our product, the fabric, goes through rather a drastic change in the hands of the manufacturer because there it is styled into the garment which will eventually reach the consumer at the retail store. The shopper coming in to buy a dress for herself or for her little girl is first motivated by appearance, by the fashion that is in the item."

"The major contribution has been made by the manufacturer in the manner in which he has styled the garment. The performance inherent in an established brand of fabric can only close the sale when the appearance appeal of the items offered is equal. This, then, is our industry's promotion and selling problem with the ultimate consumer."

These were the "fundamental limitations" which Mr. Barber said rested in his mind "and still rest in the minds of most advertising men in the textile business," which deter them from using television.

"Why? Because we have instinctively thought of television as network television, failing on our part to realize that the limitations of our advertising which made network television unattractive at the same time made spot television a natural for textile advertising."

"Because of limited profits, we need an effective economical medium for direct sales support. Because of the seasonal nature of our selling, we need a flexible medium, where we can select our markets and control our concentration, either heavy or light, during any important period of the year. Here it is important to understand that cottons sell most heavily at retail during two periods each year: for spring-summer—from Easter until June—and for fall and back-to-school apparel—from July to September. Thus we must concentrate our activity in short six-to-eight week saturation campaigns, at the time of your slack season when we have the advantage of high availabilities."

"Again because of our need for merchandiseable advertising, we need a media which effectively impresses and supports the retailer intent on selling our product in his local market."

"Finally, we need an effective means of balancing the primary fashion appeal of our product, the advertising with a strong yet economical and effective fabric performance and brand identification campaign."

Mr. Barber declared, however, that the mainstay of textile advertising must still be the print media because "the primary selling appeal is appearance, and fashion appearance is dependent on presentation. Color is what we're selling, so to speak, and color can still be bought most economically in print. Yet, from the most effective teacher of all, experience, I repeat spot television is a natural advertising need for our industry."

"However, not all is wedded bliss. In order to merchandise and promote our advertising through all our market media we must be able to wrap up a program and begin to present it to our customers and the retailers through salesmen's presentation and trade advertising as much as nine months in advance of the campaign, because that is when we are selling the fabrics which will be in the garments at retail when the advertisement breaks. This advance promotion of advertising in direct support of our sales must be specific. To say that we will have magazine advertising and television advertising to be run at a certain time is not enough. We must sell specifically, double spread in Life on such a date, a campaign of ten spots a week on the Mr. & Mrs. Show in Philadelphia Robertson, "Barber: Why I like network TV," Broadcasting, Dec. 14. By Robert J. Thompson.

Page 46 • December 10, 1956
Mr. Willard Moneymaker says:

"Our increasing success is due in great measure to the superb job done by WKNB-TV"
to begin on a specific date. Thus the 30-day confirmation policy, personality vacations and personality turnover are pitfalls for the textile advertisers in spot television.

"Finally, if you would woo the soft goods advertiser as a new and significant customer for your network, it is a backstop to those lonely lean summer hours, you must understand his problems and make a real effort to tailor your product to meet his needs. If once having won him you would keep him from straying, do as he does, sell your customer's customer. Woo, impress and sell the major retailers in your market. Establish a close working relationship with the merchandising managers, buyers and fashion coordinators. Breed in them a confidence in your ability to help them sell their soft lines and apparel merchandise, they are in the best position to sell your media to the textile and apparel manufacturers and then let's hope you'll have the chance in eating my words concerning the inability of TV to serve soft goods advertising."

**Weekend Daytime Video Gets Top Audience Gain**

GREATEST increase in homes reached by the average TV advertiser, January through October of this year, over last year's same period has been in the daytime on weekends, when the increase was 23% more homes. In the daytime on weekdays, the upsing in homes reached was 21% and in the evening the gain was 17% more homes.

These figures—computed by A. C. Nielsen Co.—were released last week by the Television Bureau of Advertising. Also pointed up: the average evening network program is reaching more than 1 million more homes per telecast this year than last; average increase for weekday daytime programs is 457,000 homes; for weekend daytime programs, the increase is 770,000 homes.

**SEABOARD, GRANT SUED BY FRANCO**

- **Breach of contract charged**
- **$356,718 damages asked**

A SUIT filed by Carlos Franco Assoc. seeking a total of $356,718 from Seaboard Drug Co. and its agency, Grant Adv., New York, was on file last week in New York State Supreme Court.

Franco Assoc., former agency for Sea- board, charges the drug manufacturer with breach of contract and accuses Grant of promoting the alleged breach. The suit seeks $1,716,718 from Seaboard and $200,000 from Grant. Seaboard makes Mericin (treatment of arthritic and rheumatic conditions).

The complaint claims that Franco Assoc. had a one-year contract (with 90-day cancellation clause) with Seaboard dated last July 3, and that Franco agreed to place a $1,475,000 advertising budget with Sea- board ($725,000 in network radio, $250,000 in spot tv, $500,000 in print media) between that date and next June 1. The $156,718 named in the suit represents 15% of the $1,044,791 which allegedly remained to be placed after Seaboard terminated the contract Sept. 12.

The complaint mentions two network purchases made before the contract with Franco Assoc. was terminated. One was the Walter Winchell newscast on MBS Mutual stations, with a weekly cost specified in the complaint as $9,747.28 ($5,882.50 to Mr. Winchell and $3,864.78 to MBS for time). The other was for participations in the weekday Bob and Ray Show on 477 MBS stations, pegged at $4,125 a week for time and talent. Mutual said Friday that the planned Seaboard sponsorship (under MBS' multi-message plan) was cancelled before the Sept. 17 starting date, but that Bob and Ray remained on the air despite Seaboard's withdrawal. The Monday-Friday series is currently "SRO," Mutual spokesman added. However, they could not say immediately who had killed the Seaboard order.

In the case of the Winchell program, the suit claims that Seaboard paid Franco Assoc. for the first show only, and that thereafter—until Seaboard dropped the newscaster last month—"the client paid Mutual either direct or through Grant Adv.

Meanwhile, Franco Assoc. has obtained a warrant of attachment in the amount of $45,000 against Seaboard.

Seaboard's formal answer to the suit has not yet been filed, but Seaboard President Harry H. Patterson has claimed in related proceedings that Franco Assoc. was "angry . . . because we were compelled to dismiss it . . . and retain . . . Grant because of plaintiff's inability to properly handle and process our extensive national advertising program." Mr. Patterson charged that Franco Assoc. acted "out of plain and simple peev . . .

Seaboard counsel also asked Supreme Court Judge Irving A. Saypol to require Franco Assoc. to put up a $200,000 bond to protect Seaboard's interests and stockholders, charging that the suit was a "complete fabrication" and a "hold-up." Franco Assoc. "categorically denied . . . the grave, unfounded and irrelevant accusations." Judge Saypol had not ruled on the bond request late last week.

In his Sept. 12 letter to Carlos Franco terminating the arrangement with that agency, effective with the receipt of the letter, the Seaboard president said that "the problem of credit with all media can be readily extended to us by an agency of greater size and strength, whereas it has been a constantly recurring problem since our relationship as client and agency began."

Mr. Winchell, although dropped by Sea- board, is currently heard on MBS through co-op sponsorship. He is a Mutual advertiser, sponsoring a five-minute weekday newscast on 570 stations; buying five participations in the weekday 9 a.m. news on 28 Yankee network stations, and backing Tello Test on 40 Don Lee network stations.

**Closed Workshop Scheduled by ANA on Co-Op Advertising**

THE Ann. of National Advertisers last week announced that it will hold a closed workshop on co-op advertising Jan. 24 at the Plaza Hotel in New York. Characterizing the topic of co-op advertising as "complicated and controversial," ANA workshop program chairman, Elmer Ward Jr. of the Palm Beach Co. (clothing), said that the meeting will not be open to the press in order to implement informal discussion and exchange of ideas.

Members of the workshop program committee, in addition to Mr. Ward, include Charles Bell, Pepperell Mfg. Co.; Hugh Engelman, Motorola Inc.; John Field, Warner Bros. Co. (foundations); Carlton Gilbert, U. S. Rubber Co.; Frank Hale, Bristol-Myers Co.; John Saltz, America's Advertising Corps., and Robert Williams, American Radiator & Standard Sanitary Corp.
Janus was the fellow who could look in two directions at once. His feat may have had certain ocular advantages, but he unquestionably suffered from divided attention.

Not so with Harrington, Righter and Parsons where policy is to concentrate in only one direction, giving exclusive attention to television station representation. These 12 stations insist on complete, intelligent service. Our singleness of purpose gets it for them.
Bristol-Myers Puts $2.1 Million Into NBC Radio Hourly News

IN a transaction said to represent more than $2.1 million in net billings, the Bristol-Myers Co., New York, has bought half of NBC Radio's new five-minute news programs to be broadcast hourly on the full network (7 a.m. to 11 p.m. EST, daily), starting Jan. 14. The agency is Young & Rubicam, New York.

In announcing details of the purchase last week, William K. McDaniel, vice president in charge of sales for NBC Radio, pointed out that Bristol-Myers is the first advertiser to sign for the network's new radio news service. The 52-week Bristol-Myers order calls for half sponsorship of the news shows 17 times a day, Mondays through Fridays, on behalf of Bufferin, Ipana, Vitalis, and other products.

SSC&B Enlarges Media Dept., Promotes Three, Adds Three

ENLARGEMENT and reorganization of the media department at Sullivan, Stauffer, Colwell & Bayles, New York, were announced last week by Frank Minehan, executive media director.

In the realignment, the executive post of associate media director has been established on alternating weeks (also Dec. 18, 25).

Dec. 11 (10:30-11 p.m.) *Break the $250,000 Bank*, Lanecol Plus through Russel M. Seeds (also Dec. 18, 25).

Dec. 12 (9:10 p.m.) *Kraft Television Theatre*, Kraft Foods Co. through J. Walter Thompson Co. (also Dec. 19, 26).

Dec. 15 (10:30-11 p.m.) *Your Hit Parade*, American Tobacco Co. through BBDO and Warner-Lambert Pharmaceutical Co. (Richard Hudnut) through Kenyon & Eckhardt on alternate weeks. (Note: This schedule will be corrected to press time of each issue of B-T)

**Four MJ&A Officers Promoted; Management Staffs Reactivated**

ADVANCEMENT of four of the key executives of MacManus, John & Adams, Bloomfield Hills, Mich., and a realignment of executive responsibility at the agency were announced last week by Ernest A. Jones, president of the agency.

Charles F. Adams, account executive on Cadillac, becomes executive assistant to the president and account supervisor on Cadillac. Hovey Hagement, executive officer on the Pontiac account, was advanced to senior vice president. Fred J. Hatch, general manager, was elected a director, and Leo Hillenbrand, comptroller and financial officer, was promoted to secretary-treasurer.

Mr. Jones also announced the reactivation of two executive groups to supervise internal operations for the agency. The administrative supervisory staff, under Mr. Adams, will be concerned with day-to-day operations of the agency, according to Mr. Jones. He said the second executive group—the advisory staff—will be headed by W. A. P. John, co-founder of the agency and chairman-emeritus, and will devote itself to the charting of business trends and opportunities.

**Bowling Firm Takes NBC-TV Show**

BRUNSWICK-Balke-Collender Co. (bowling equipment), Chicago, sponsored a special, one-time-only telecast of *All Star Bowling Finals* yesterday (Sunday) over six NBC-TV-owned stations (11:30 p.m.-1 a.m. EST). Through McCann-Erickson, Chicago, Brunswick-Balke-Collender sponsored the championship bowling event on WRC-TV New York, WRC-TV Philadelphia, WRC-TV Washington, WBUF (TV) Buffalo, WNBJ (TV) Chicago and KRCA-TV Los Angeles, and in addition signed for a series of one-minute participations on KOMO-TV Seattle between Nov. 24 and Dec. 22.

RADIO-TV EMPHASIS INCREASES AT RY&M

- Now 25% of total billing
- Carbona latest to be added

DISCLOSURE last week that Carbona Products Co. (Carbona cleaning fluid, soapless lather and wall-wipe) has appointed Reach, Yates & Mattoon, New York, to handle its advertising, points up an increasing expansion into radio-tv at the agency. Carbona is a radio and tv spot user.

Principally a print media agency in the past, it now is doing about $2 million in radio-tv out of about a yearly $8 million billing, compared to an approximate $750,000 in radio-tv a year ago (out of a total of about $7.5 million). By the end of next year, the agency, which this month marks its 25th anniversary, expects to be billing approximately $10 million, with radio-tv taking an increased share.

A $250,000 radio-tv spot campaign will be launched by Carbona in the New York area about Jan. 1 with test campaigns progressing into Miami, Tucson, Phoenix and the New Haven markets.

RY&M three weeks ago picked up additional International Latex Corp. accounts (girdles, bras and pillows) to add to those it already had been handling (Latex's infantwear division, gloves and Isodine antiseptic). Thus RY&M becomes the sole domestic agency for Latex, an account worth more than $2.5 million. Foote, Cone & Belding now services the Latex products which will switch to Reach, Yates & Mattoon on Jan. 1. C. J. Herrick, New York, formerly serviced Carbona.

The agency also is handling a foreign-make automobile, Isetta, made by Bavarian Motor Works in Munich and distributed in the U. S. by Fadex Commercial Corp., New York. A tv campaign has been running in Hartford, Conn., and will move into Los Angeles. The agency is servicing a $250,000 media budget for the United States World Trade Fair exhibition to be held April 14-27, 1957.

Reflecting the expansion into radio-tv, which began in earnest last summer, the agency since then has added Norman Gladney, formerly with Bulova Watch Co., as vice president and director of sales promotion, radio and tv; Nelson Metcalf, formerly with McCann-Erickson, New York, as vice president and creative head, and L. E. Schnitz, formerly with Bausch & Lomb, New York, as vice president in charge of art. Charles Dallas Reach is founder and board chairman.

Average Male Income Rises 5%

AVERAGE male income (median) in 1955 was $3,400, an all-time United States record and $160 or 5% above 1954, according to the Census Bureau. About four-fifths of men were employed at fulltime jobs, their income averaging $3,900. Average income of male parttime workers was $700.

Median income of women was $1,100, with half of them employed on a fulltime basis. Income of fulltime women workers was $2,100, parttime workers averaged $500.

PROCEDURES of timebuying—
A MANY-FACETED BUSINESS

WHEN I think of procedures I automatically envision:
Drawing up plans, revising plans, preparing rep lists, calling reps, seeing reps, working nights, calling stations, preparing mailing lists, setting up estimates, setting up schedules, accepting makegoods, making schedule revisions, and memo after memo after memo. And it always seems the tighter your schedule the more of these items come up for attention—immediate attention. My conception of the overall procedures of buying breaks down into three separate sections: planning, purchasing and the written material required to button up purchasing and in turn relate results back to original client goals.

There should cover just about everything, because all of the steps of buying will fit into one of the categories.

Planning:
Planning is easily the most important of the three. The automatic assumption that the actual purchasing comes first is all wrong. We can all buy and we can all handle writing details. Planning is the thing, and upon how imaginative or creative we care to make ourselves in the planning stages hinges the success of the campaign.

The buyer who allows a spot plan to be submitted today that calls for the use of early morning radio minutes exclusively is committing suicide. Sure, for a majority of clients this kind of radio representation is ideal, but why promise something that probably can’t be delivered. It would seem best to put alternative times (noon hour, early evening) for use where early morning is unavailable.

Anybody with a mass-produced product would love to have an evening half-hour on network tv. Any buyer who lets this get into a client recommendation without explaining the handicaps to be overcome in this medium today (clearances, for example) is making a mistake.

These are extreme examples, but they sometimes happen and you wind up either not being able to spend the allocation wisely, or not being able to spend the allocation at all. If there was ever a time when a buyer could be justifiably conservative, it’s when a misdirected proposal is in the works. Oppose it, because the only one who’ll have to take the rap for not producing on it is you. Keep an open mind when planning and don’t let the details obscure the opportunity.

If there is one secret so far as being an important contributor to a well thought-out plan, it’s getting your facts on paper. Memos and recommendations, possibly because of their volume, have a way of being forgotten in short order. This makes it important, therefore, to time your recommendations and keep them down to a minimum. By timing, I mean put them through when it’s strategically best, and that’s as soon after the problem comes up as possible. Keeping objections to a minimum is important because it tends to make each one more impressive when registered.

The problem with putting things down on paper seems to be the one that plagues us all along the line... finding time. It’s something that has to be created usually, but it can save a lot of time later on.

That’s it for planning. Discuss, but don’t argue. And put your reasons in writing.

Purchasing:
When the buying’s being done, you face the greatest amount of pressure so far as the allotment of your time is concerned. With the phone ringing, salesmen in the reception room, your secretary handing you partial confirmations and the account people asking for a progress report, you’ve got to be able to separate the important from the unimportant and do first things first.

If there’s one rule of thumb for determining what takes precedence when there are two things to be done or two people to see, I’d say just ask yourself, “how will this effect completion of the job at hand?” An honest answer will make the decision obvious.

Probably one of the sorest points with both buyer and seller is the matter of the unconfirmed availability. It’s painful because the buyer wants to spend the money, and the seller, for understandable reasons, would like to take it. (I’m talking about the red-hot spot that isn’t there shortly after the order is placed, or the network property that missed acceptance because somebody else was there 15 minutes earlier.) This matter of sitting on availabilities has hurt us all at one time or another, and the thing that hurts most is that the lost offering usually is acted upon as soon as possible.

Premium spots should not be lost because of adherence to procedure. These are relatively easy to recognize. The question is how to minimize the period between the time spots are submitted and the time they are acted upon. The best system is to designate dates for delivery of availabilities when the request for availabilities is made. In this way, it’s possible to gauge the approximate number of markets you can complete per day and have offerings for just that number of markets on hand. This system, barring unpredictable delays, can assure fresh availabilities on a day-to-day basis. Nothing about it creates any steps or work not in use right now in the standard manner of handling spot availabilities.

Where you may encounter a slight difficulty is in your allotment of time to salespeople. Whereas a group of stations are normally disposed of in a single sitting, this method may require several calls. However, there are substantial reasons why this becomes an advantage. First, the avails will, by rights, be as fresh as possible. Second, the reps story will enjoy a sort of exclusivity in that it will not be thrown in with those of six, eight or 10 other stations. Third, it’s possible to make your buys on the spot, and the salesman can walk out with the order. If this isn’t an agreeable arrangement, I’ve got a lot to learn about salesmen.

I might add that there is a strong psychological advantage to this sort of system. The pressure of buying is reduced appreciably when you have before you only six, eight or 10 market folders to be cleaned up, instead of the not uncommon 60, 80 or 100. It’s an orderly method of business, so how can it be wrong? Getting your spot availabilities on a staggered basis permits you to buy a campaign just as fast as getting them all in at once. It’s an obvious fact that you will be working with spot times that have a greater likelihood of clearing. This can work in the big shop as well as the small. The only requisites are that there be a sizeable list of markets and a definite timetable is adhered to.

All of this, of course, applies to spot activity. There’s no strict parallel so far as network is concerned. Our contribution in this area covers three elements:

Time period analysis—this would be information, largely statistical, dealing with adjacent and competitive shows.

Lineup expectancy—this is vital in tv more so than in radio. It’s chief benefit is forecasting where you won’t rather than will clear.

Background information—This is by far...
In the Twin Cities market, WTCN Radio aims straight for the massive buying audience! WTCN features the kind of radio that more listeners prefer and this wide variety of programming is designed to appeal to all ages! WTCN reaches more people each week with: outstanding ABC Network shows, top local news and sports coverage, interesting civic discussions, current hit tunes and standard pops featuring favorite local personalities with music to suit every taste!

In Minneapolis-St. Paul your best buy is the station that delivers the buying audience! Call your nearest Katz office or WTCN Radio for the full story today.

WTCN Radio
1280 kilocycles 5,000 watts  ABC Network
MINNEAPOLIS-ST. PAUL

Represented Nationally by the Katz Agency, Inc.
Affiliated with WFDF, Flint; WOOD AM and TV, Grand Rapids; WFBM AM and TV, Indianapolis.
the trickiest element of all. It's the one that relies most on your knowledge and experience. Suppose client "X" is in the market for a daytime quarter-hour and an offering is received involving a new show handled by an established personality. You may know that this person was unsuccessful in a similar venture two or three years ago. Or you may know that the proposed format has never clicked at the time of day planned for it. Or you may know that the competition is of a kind that makes the type of show under consideration.

By all means get this information on paper. So long as you know something that has happened, something that you can usually produce figures for, make it known.

We talked earlier about losing out on a network property because the order letter was 15 minutes behind that of another party and all too often it's a competitor. If there's a formula to correct this kind of thing, it can only be that you move 30 minutes ahead of the next guy, which simply means you drop everything and move. If you have a client in the market for a network property and you get an offer, I can't conceive of anything more important or more deserving of immediate and exclusive attention. You've got to get there fast if you want to get there first.

**Forms:**

The best way I can suggest is through the simple means of a standardized form, showing the basic elements of importance in any purchase—rating history (if available), competition, cost-per-thousand, audience composition, lineup, coverage and so forth. On forms of this type, I've always found it a good practice to leave ample space for a very important item—"comments." There's so much that can't be said completely with numbers that it becomes necessary to devote a portion of any such analysis to a verbal treatment of the availability. Numbers sometimes can be misleading as the devil and they need interpretation in almost every case.

This isn't any work shaking idea. It's used time and again in shops all over New York and the other agency centers around the country. This ought to be ample proof that it's a good idea. Personally, I'm in favor of forms for use in as many parts of the day-to-day buying work as can possibly be drawn up.

The obvious arguments against this idea of forms and formulas is that it tends to make the buyer more and more mechanized, more and more impersonal. This certainly could be the case if the information on the form isn't used as the starting point for a recommendation. Much of our work must have a statistical foundation before judgment can be made. This is simply a first step, a beginning.

The really big thing is that forms save time. None of us has enough of it and anything that permits cutting a few corners without limiting the effectiveness of our work has to be a good thing. Account men get to like forms because they become familiar "yes" or "no" documents. Salesmen like them (although they may never see them) because they speed up decisions. Clients like them because they represent simplifications of working processes.

**Written Material:**

We are now dealing with the schedules, estimates, lineups, revisions and summaries which must be passed along to client, according to group, billing, estimating and traffic after a campaign is put to bed. A good deal of this material falls into the category of business records, data compiled to serve as a permanent history of what was purchased, for how long, and for how much.

This is an important phase of our work, and one that requires as much precision or exactness of information as possible. This is the point at which media is tied in with the overall consideration of moving product. If this idea has been kept in mind throughout purchasing, the summary can be a rewarding thing to produce.

**Business Expansion:**

It's a matter of record that our business and every other prosperous business has become more complex. The same thing has happened in and to media departments and in my estimation buyers cannot be the general information sources they once were. In these final stages of buying, particularly, it has become necessary for buyers to delegate more and more detail work to other personnel in order to devote time to the expanding problems and developments in broadcasting.

Personally, I believe it is a mistake for a buyer to become too involved in the details of the business. There is always the danger that too great involvement in details will obscure what you're really trying to do. Media has gotten too big—too full of new data and new conditions to have the "Jack of all trades" anymore.

So long as you know where the supporting material can be turned out, and you understand it when it is produced, you're safe. And you can concentrate on media as media.

---

**RADIO IS HI-FI FOR SIGHT & SOUND**

RADIO gets full credit for enabling the House of Sight & Sound, a retail store in suburban Los Angeles which features high fidelity sound equipment along with the usual line of records, phonographs, tape recorders and radio and TV sets, to claim it has become the largest store of its class in the region.

By using radio advertising exclusively in the past three years, Sight & Sound has been able to double its gross income each year, according to Jerry Johnson, store manager and one of four partners in the four-year business. Volume for 1956 is expected to top the million dollar mark for the first time, Mr. Johnson says.

Located in Van Nuys, Calif., Sight & Sound draws customes from all over the Southern California area in spite of its suburban location, Mr. Johnson explained, citing the impact of radio. The store last month further expanded its radio budget, every dollar of which has been spent on KMPC Los Angeles since the beginning, and now sponsors more than six hours weekly. Tids & Cantz, Hollywood, handles the account.

"We invest over $1,000 a week in radio now," Mr. Johnson said, "and we sure get results."

Unlike many stores featuring high fidelity gear, Sight & Sound does not go for "long hair" music but rather finds more effective the middle-of-the-road popular music featured by Bill Stewart and other disc jockeys on KMPC, Mr. Johnson explained. "The long-haired addict is already sold on hi-fi," he said, "and by sticking to middle-of-the-road music we are sure of reaching a much bigger audience of people who also are potential customers when they learn about Sight & Sound and what we have to offer them."

For commercial copy, Sight & Sound "is almost institutional," Mr. Johnson said. "We don't try to insult the intelligence of our listeners. Instead of hard sell we use sound, firm leaders and talk only about items we have well in stock. We build repeat business by selling only quality merchandise to begin with and following up with good service."

Sight & Sound handles lines such as Magnavox, Ampex tape recorders, Lansing speakers and McIntosh amplifiers, along with other labels for the budget minded. Store layout and customer comfort and service, such as the hi-fi patch board which permits demonstration of components, are stressed.

Sight & Sound in its first year tried newspapers and direct mail at about $200 a week and did an annual gross of $100,000, Mr. Johnson recalled. In early 1954, this money was switched to radio, buying a one-hour segment of the Bill Stewart Show on KMPC Saturday afternoons. The store topped $200,000 that year.

Sight & Sound expanded segments of Mr. Stewart's time on other days of the week in 1955 and that year the gross hit $500,000, Mr. Johnson said, noting that the personality of the radio performer has a big part in listener loyalty and identification.

Time was expanded even more this year, he said, including five nights weekly after midnight of another KMPC personality, John McShane. Newest buy last month was another Monday-through-Saturday 6:30-6:45 p.m. strip by Mr. Stewart called Hi-fi on the Highway.

With business getting better and better each year, Mr. Johnson has only one alternative and he and his partners are taking it: Expansion of physical quarters.
FOR OUTSTANDING PUBLIC SERVICE . . .
A CITATION OF EXCEPTIONAL MERIT
TO WBRC-TV FOR—

"THE THIRD SIDE"

The public-spirited, award-winning program was WBRC-TV's specially presented documentary story of a major industrial city during a crippling strike.

In Birmingham, where community interest is a strongly-felt bond between industry and people . . . where the common cause is growth and a happy economy . . . WBRC-TV has always accepted a large responsibility in local affairs. Its "voice and eyes" are dedicated to the interests . . . both weighty and light . . . of everyone. Good reason why WBRC-TV is first in Birmingham!

We, of WBRC-TV, gratefully and humbly accept this award.

COPYRIGHT BY AMERICAN RESEARCH BUREAU

NEW BUSINESS

Ralston-Purina Co. (cereal division), through Gardner Adv., both St. Louis, signed with NBC Radio as sponsors of new series of Mon.-Fri. five-minute newscasts featuring Washington correspondent Richard Harkness. Order calls for 32-week sponsorship, effective Dec. 31, for weekend 7:15-7:20 time period.

American Can Co., N. Y., through Compton Adv., same city, to sponsor alternate Monday NBC TV News program (Mon.-Fri., 4:35-6 p.m. EST), effective Jan. 28. Contract runs through Jan. 13, 1958, and marks company's first use of network TV.

RENEWALS

Westinghouse Electric Corp. has renewed CBS-TV's Studio One (Mon. 10-11 p.m. EST) for 52 weeks. The program, which began on CBS-TV November 1948, has been sponsored continuously by Westinghouse since May 11, 1949. Agency: McCann-Erickson, N. Y.

Allstate Insurance Co., through Christiansen Adv., both Chicago, has renewed Mel Allen's Sports Report on ABC Radio (Mon.-Fri., 6:32-6:45 p.m. EST) for 52 weeks, effective Dec. 18.

AGENCY APPOINTMENTS

Richardson Corp., Rochester, N. Y., names Blaine-Thompson Co., same city.

Monarch Brewing Co., Chicago, appoints Beaumont & Hohman Inc., same city, for its new Augsburger beer.

Inland Electronics Corp. (electronics equipment), Aurora, Ill., appoints Burton Browne Adv., Chicago.

D'Franzias Labs., Santa Monica, Calif. (pharmaceuticals), has named Armando del Moral, North Hollywood.

Bar-B-Kwik Co., Long Beach, Calif., (disposable barbecue unit) to Edward S. Kellogg Co., L. A.

Pharmaco Inc., Kenilworth, N. J., adds new product, Regutol ( laxative), to list of accounts being serviced by Doherty, Clifford, Steers & Shenfield, N. Y.

Torino Foods (imported food specialties), N. Y., appoints Birmingham, Castlemere & Pierce, same city.

Fohrman Motors, Chicago automobile dealer, and Alva Labs (Slumbon, Arthrex, Isoptic) appoint Oljan & Bronner Inc., same city, latter for its new Tranquil tablets.

A&A PEOPLE

Kenneth L. Skillin, general advertising manager, Armour & Co., Chicago, appointed chief of advertising and sales promotion.

Stuart D. Ludum, manager of West Coast office of C. J. LaRoche & Co., David E. Robinson, research director, and Ruth West, copy supervisor for agency, elected to posts of vice presidents at agency.
"sonny—sometimes what you don't know can hurt you!"

"Made you a timebuyer, did they? Man of decision? Packing your head with market data, availabilities, cost-per-thousand, smart scheduling angles, huh?

"Don't look so surprised," smiles Billy Reed, super-host at New York's Little Club, "I know about these things. Why not, with all the big time-buying pros we get in here? Your own radio-TV head, for instance. Wised me up yesterday on something I never knew . . .

"What? Well, it's no secret to the experts, I suppose. Couple of sure stations up in Maine—WABI Radio and WABI-TV. Powerhouse combination . . . No. 1 in the hottest part of a state that's headed places! Nearly half a million customers now, spending over half a billion this year, he says. You go making up any schedules without WABI and WABI-TV, son, and it's back to the mailroom for you!"

Might not be that bad, of course. But the oracle of The Little Club sure has his facts right on radio and TV in Maine! What kind of shape are yours in?

SCREEN GEMS BUYS HYGO, UNITED, SETS UP TV OWNERSHIP DIVISION

EXPANSION moves in two directions were announced last week by Screen Gems Inc., New York. The company has acquired Hygo Television Films and its affiliated company, United Television Films, and also has established a new division that will be directly concerned with TV station ownership, operation and programming.

Screen Gems withheld financial details of its transaction with Hygo and Unity but claimed that in the move the company emerges as "the largest distributor of television programming." Screen Gems, according to Ralph Cohn, vice president and general manager, has acquired the distribution rights to Hygo's and Unity's roster of properties, including 450 features, 130 westerns, 156 cartoons and 406 serial episodes, and thereby has a catalogue consisting of 10 national network shows, 11 syndicated programs consisting of more than 433 half-hours, 216 animated cartoons, 200 live action comedies, 736 feature films and 706 serial episodes.

Hygo Television Films was organized in 1951 by Jerome Hyams, its president, who in 1955 purchased United Television Films from Arche Mayer's. Stipulated in the integration agreement with Screen Gems, Mr. Cohn said, will be the transfer to Screen Gems of all personnel presently employed by Hygo and Unity. Mr. Hyams, he said will function as director of syndicated sales for Screen Gems and Robert Seidelman, who has been vice president in charge of sales for Hygo, will be named to an executive sales post with Screen Gems. When integration is completed, Mr. Cohn said, Screen Gems will have a 48-man sales staff.

Mr. Hyams will assume duties being relinquished by Robert H. Salk, who moves into Screen Gems' new stations operations department.

In announcing this new activity, Mr. Cohn pointed out that Columbia Pictures, parent company of Screen Gems, revealed at its annual meeting two weeks ago [B&T, Dec. 3] that plans were being formulated to place SG in the TV station ownership field.

Mr. Cohn explained that Mr. Salk will represent Screen Gems in the purchasing of stations and said his department will be available for consultation on programming toward "more profitable operation of television stations." In addition, Mr. Salk will be the company's liaison with government agencies concerned with the television industry. Mr. Cohn termed this development "a logical step in our company's continuing expansion," claiming the addition of the stations operations department places Screen Gems "in every major facet of the television industry."

Mr. Salk told B&T that Screen Gems currently is not negotiating with any particular TV station, although it has been approached by several station owners. The company, he said, plans to "examine every proposition before making a decision to purchase." He explained that the program consultation phase of his department will involve service —made available at no charge—to any TV station that approaches Screen Gems for assistance.

Mr. Salk

Completing the negotiations: Ralph M. Cohn, (seated, right) vice president and general manager of Screen Gems, and John H. Mitchell, vice president in charge of sales (seated, left); Burton Hanft (standing), director of business affairs, and Jerome Hyams (seated, middle), the new director of syndicate sales for SG.

D-X Buys Guild Color Series, 'Capt. Grief,' for 40 Markets

DESCRIBED as its initial venture into television program sponsorship, D-X Sunray Oil Co., Tulsa, has signed for Guild Films Co.'s Captain David Grief half-hour tv film series on a 52-week basis in 40 midwestern and southwestern markets, starting in February. D-X's agency is Potts-Woodbury, Kansas City.

The sale was announced last week by John Cole, Guild vice president for sales, who noted that previous regional transactions completed with Standard Oil Co. of California for 12 western markets and with Stroh Brewery for 20 midwest markets raise total markets signed for the series to 72. D-X Sunray's markets cover 12 states, according to Gene W. Dennis, account executive of Potts-Woodbury.

Mr. Cole pointed out that the 39-episode color series has a "high" budget of $1,912,000 and said that Guild's confidence in Grief has been justified by the three regional sales. He added that Guild's decision to launch a "high-budget" series was based on the premise that "the public expected higher quality television in 1957 and that the advertiser was willing to pay for it."

CNP to Film Submarine Series With Approval of Navy, Defense

CALIFORNIA National Productions last week announced plans to produce a new half-hour tv film series, The Silent Service, based on the dramatic experiences of men in the U. S. Navy's submarine service. Production will begin next month on the West Coast. The series is expected to be placed in syndication in the spring.

CNP has received approval of the Dept. of Defense and Navy, according to Robert D. Levitt, vice president and general manager of the NBC subsidiary. CNP, he said, will have access to more than 62 million feet of Navy stock film, as well as to captured enemy film, much of which has not previously been released.

Drewrys Buys TPA Series

DREWYS LTD., U.S.A. (brewery), South Bend, has signed to sponsor Don Ameche Presents the Drewrys' Play of the Week filmed series in 11 midwestern markets, starting in April 1957, it was announced last week by Michael M. Sillerman, executive vice president of Television Programs of America, New York. The films have been distributed by TPA under the title, Stage 7, and will continue to be sold under this title in markets not covered by the Drewrys' purchase. The agency for Drewrys is MacFarland, Aveyard & Co., Chicago.

Max to CNP Merchandising Post

ROBERT R. MAX, former advertising-sales promotion manager of the Kagan Corp., predecessor of California National Productions Inc., has been named manager of CNP's merchandising division, Robert D. Levitt, vice president and general manager of the NBC subsidiary, announced last week. Mr. Max will report to CNP business development manager H. W. (Hank) Shepard.

P.R.M. Inc. Changes Name To Associated Artists Corp.

CHANGE in name of P.R.M. Inc. to Associated Artists Productions Corp., Wilmington, Del., was announced last week by the corporation. The new name was decided upon, a company spokesman said, to "capitalize on the good will resulting from the many hours of television broadcasting of the motion pictures owned by the corporation and released through its wholly-owned subsidiary, Associated Artists Productions Inc."

P.R.M. Inc. purchased the Warner Bros. library of 850 feature films, plus short subjects, for $21 million earlier this year [B+T, March 5].

'Yank' Magazine Rights Bought; Beck Plans Use For Tv Series

PRODUCER John Beck, through arrangement with writer Bill Rankin, has acquired the television rights to all of the material published in the World War II armed forces news magazine, Yank, it was announced last week in Hollywood.

During its more than five years of publication, from shortly after Pearl Harbor, Dec. 7, 1941 through the war, Yank carried more than 9,000 stories and over 3500 articles by such authors as Bill Mauldin, Marion Hargrove, William Saroyan, Irwin Shaw and Robert Neville. According to Mr. Beck, he is now negotiating with Mr. Mauldin to host a television series based on the best of these stories. The series, to be titled Yank will be produced under John Beck productions.

AAP Expands National Sales

IN move attributed to the "growing importance" of feature films to national advertisers, Bob Rich, general sales manager of Associated Artists Productions, New York, announced that Donald Klauber, station sales manager, has assumed added duties as manager of national sales. Paul Kwartin will continue as director of national sales and the department will be augmented by the services of Kirk Torney, Bob Morin and Gordon Carroll, who have been shifted from other sales assignments at AAP.

FILM SALES

Trans-Lux Television Corp., N. Y., has sold its package of four Christmas films to eight television stations and is currently negotiating for its sale in 20 additional markets. Films are Night Before Christmas, Christmas Rhapsody, Christmas Through the Ages and Santa and the Fairy Snow Queen.

PALOOKA ON EQUALITY

Color or National Origin

PALOOKA ON EQUALITY

PALOOKA ON EQUALITY

PALOOKA ON EQUALITY

PALOOKA ON EQUALITY

TELEVISION stations are being asked to help promote the "equal job opportunity" employment policy of the Federal government by using a 19-second sound film during the holiday season. Film shows a U. S. mail truck approaching the cameras, then closes in on the poster on the truck's side, designed by Moe Leff, who draws the "Joe Palooka" cartoons. The President's Committee on Government Contracts, which says it is the first to get such a message on the nation's mail trucks, reports that in two weeks after the film was offered for tv, more than 150 stations had requested it. Other stations desiring it can obtain prints by writing the Committee at Washington 25, D. C.

FILM PEOPLE

On October 1, 1956, WSAI-Radio took the final step in its programming policy by becoming completely Independent for Greater Community Service. One result of this move is seen in just-released information that WSAI-Radio is

**FIRST IN CINCINNATI**, 6 a.m. to 12 p.m., *seven days a week*, based on average share of audience as shown by Pulse, September-October, 1956.

**FIRST IN CINCINNATI**, 6 a.m. to 12 p.m., Sunday through Saturday, in *total audience* as shown by the October 1956 Nielsen Station Index area audience.

Yes... the ratings are fine and so are the results on the radio station that SELLs Cincinnati. Ask any of WSAI's advertisers who are making the Fall-Winter months of 1956-57 the *best sales period* in the station's history!
TRADE ASSNS.

**8% TYPICAL PROFIT FOR BOTH AMS, TVS**
- Record year seen for radio
- Broadcast economics scanned

PROFIT MARGINS of the typical radio and tv station are uniform, running around 8% based on total revenue, according to a survey conducted by NARTB. The similarity of the margins is shown in the association's annual analysis of revenue, expenses and profits.

Another NARTB study, presented to the association's Am Committee Thursday, pointed to an estimated $491 million net radio income from time sales in 1956, an 8% increase on 1955 and an all-time high.

Grover C. Cobb, KVGB Great Bend, Kan., chairman of the Am Committee, told the group that all indications point to a further radio increase in 1957, attaining a higher rate of increase than the current figure.

The Am Committee favored a return to the old name—National Assn. of Broadcasters (NAB).

Commenting on the healthy state of radio, Mr. Cobb cited NARTB research data to support the prediction that 1957 should be another record radio year. John F. Meagher, NARTB radio vice president, presented additional data backing up the solid state of the aural broadcasting industry.

Although both radio and tv stations average an 8% profit margin based on total revenue there is a much wider variation in margins among tv stations than is the case with aural broadcasting, according to NARTB studies.

**Average Per Employe**

The average radio station earns around $11,000 in total revenue for each fulltime employe compared to $15,000 for the average tv outlet, NARTB's data shows. The average large radio station in markets over 2 1/2 million population shows a figure almost double the $11,000 average radio revenue per employe. The average small station in markets under 10,000 grosses around $9,000 for each fulltime employe.

Among television stations, the profit margins range from $10,000 per employe in the small-station small-major market group to $34,-000 in the large-station large-major market group in markets with over a million population.

The typical tv station's total revenue is more than three times that of the average radio station.

The studies were conducted under direction of Charles H. Tower, manager of the employee-employer relations department, and Richard M. Allerton, manager of the research department. The profit-margin data and a series of financial yardsticks covering revenues, expenses and profits are based on 1955 operating reports. A new feature shows where the sales dollar comes from and radio data is broken down by city size with a large and small station separation within each of the city sizes. In addition there are revenue-size breakdowns. Tv data, also, is broken down by city-size and revenue groups.

NARTB's Am Committee, considering a

NEW NARTB data showing station revenue, expense and profit breakdowns was reviewed at Am Committee's first meeting in Washington Thursday. L to r (seated): Cecil Hoskins, WWNC Asheville, N. C.; John F. Meagher, NARTB radio vice president; Grover C. Cobb, KVGB Great Bend, Kan., chairman; Jack Younts, WEEB Southern Pines, N. C., and (standing), Richard H. Mason, WPTF Raleigh, N. C.; Carleton D. Smith, WRC Washington, for NBC; Merle H. Tucker, KGAK Gallup, N. M.; John F. Patt, WJR Detroit; C. L. Thomas, KXOK St. Louis; Owen F. Bridge, WCKR Miami; W. H. Summerville, WWL New Orleans; Don Durgin, ABC, and Todd Storz, KOWH Omaha.

MEMBERS of the NARTB Engineering Conference Committee held their first planning session for the April 7-11 Chicago session at last week's meeting in Washington. L to r (seated): John T. Wilner, WBAL Baltimore; Harry Tilley, WOR-TV New York; A. Pross Walker, NARTB; Chairman John G. Leitch, WCAU-AM-TV Philadelphia; Ross H. Beville, WWDC Washington; Joseph B. Epperson, WEWS (TV) Cleveland, and standing, Thad H. Brown Jr., NARTB; William B. Lodge, CBS; John A. Shay, WTVJ (TV) Miami; Harold P. See, KRON-TV San Francisco, convention committee liaison; George Bartlett, NARTB; Raymond F. Guy, NBC; J. A. Slosser, KOA-AM-TV Denver; John F. Meagher, NARTB.

resolving adopted by the Arizona Broadcasters Assn., voted unanimously to ask the NARTB board to drop the present NARTB name and change back to the old NAB. It was pointed out that the NAB designation is still in wide use around the industry. The present name is cumbersome, it was contended, and the shorter version has public relations advantages. In addition, its was emphasized that the term "broadcasting" includes both aural and video media.

The Am Committee wants the association's board to act at its February meeting on the NAB proposal, with the matter going to the membership for a referendum ballot.

In another resolution the Am Committee commended the board for setting up a research group to appraise radio audience circulation and program surveys. It praised work of a special standards of practice committee that has submitted aural and visual symbols for use by radio broadcasters subscribing to the standards.

More radio exhibits should be displayed at the 1957 industry convention in Chicago April 7-11, the committee felt. Exhibitors are being reminded that the expanding radio industry offers them a growing market.

**State Assn. Heads Meet**

SECOND annual conference of the 47 state broadcaster association presidents will be held Feb. 21-22 at the Mayflower Hotel, Washington, NARTB President Harold E. Fellows announced Thursday. Howard H. Bell, NARTB assistant to the president and state association coordinator, is handling arrangements. The conference will conclude with the awards banquet celebrating the 10th anniversary of the Voice of Democracy contests. Mr. Fellows recalled that 43 of the 47 presidents attended the first conference last February. The agenda has been expanded to two days.

Governor's Conference Barred to Radio-TV

LOUISIANA broadcasters lived under a half-day censorship shadow last Tuesday as Gov. Earl Long barred them from his news conference chamber, but the ban was partly relaxed before the end of the day.

The gubernatorial door-locking brought quick protests from Louisiana Assn. of Broadcasters and the NARTB Freedom of Information Committee as well as from individual radio-station managers. These led Gov. Long to relax the ban by allowing radio-tv reporters to attend his news conferences but refusing them the right to bring in the tools of their trade—microphone, recorder and camera.

Sessions of the Louisiana Legislature have been open to broadcast newsmen and their live pickup facilities, with general satisfaction voiced by legislators as well as by the public.

Robert D. Sweeney, WDSU-AM-TV New Orleans, chairman of the NARTB Freedom Committee, voiced amazement at the governor's discrimination against radio and tv.

"In effect, the governor held a closed-door press conference for the benefit of newspapers and wire services only," Mr. Sweeney said. "We believe Gov. Long should not withhold from radio and tv reporters the courtesies which are accorded them as a matter of right and practice by the governors of other states and the President of the United States."

Chairman Sweeney called on the governor to discuss the matter with radio and tv representatives. NARTB President Harold Fellows wired a protest to Gov. Long.

Frank H. Ford Jr., KENT Shreveport, LAB president, said, "A newspaperman's equipment is his pencil and pad. A radio man's equipment is his tape recorder and a tv man's equipment is his camera. If you deny the radio man his tape recorder and the tv man his camera, you should deny the newspaperman his pad and pencil."

Douglas L. Manship, WBRZ-TV, WBJO Baton Rouge, Dwight Martin, WAFB-AM-TV there and other broadcasters joined in a protest which was publicly announced last Wednesday with a proposal to increase the pay of public school teachers.

Bingham Named Honorary Head, Taishoff New President of SDX

BARRY BINGHAM, president and editor-in-chief of the Courier Journal and Louisville Times (WHAS-AM-TV), was elected honorary president of Sigma Delta Chi, national journalistic fraternity, at the closing session of the 47th annual convention held Nov. 29-Dec. 1 in Louisville (BT, Dec. 3).

Sol Taishoff, editor-publisher of BT, was elected president of SDX. Other officers elected were Robert Cavagnaro, general executive of Associated Press in charge of western area, vice president for professional chapter affairs; Edward Lindsay, editor of Lindsay-Schaub newspapers, Decatur, Ill., vice president for undergraduate chapter affairs; James A. Byron, news director of WBAP-AM-TV Fort Worth, vice president, expansion; James Pope, executive editor, Courier-Reporter, secretary; Buren McCormack, Wall Street Journal, re-elected treasurer.

Elected to fill executive council vacancies were V. E. (Red) Newton Jr., managing editor of the Tampa (Fla.) Tribune (WFLA-AM-TV); Bill Ray, NBC Chicago news editor, and Dr. Frank J. Price, Louisiana State U., Baton Rouge.

To Debate at RTES Seminar

ROBERT J. LEDER, vice president and general manager of WOR New York, and Gordon B. McLendon, general manager of KLIF Dallas, will debate the question "Rating Hypos—True or False?" at the Dec. 18 timebuying and selling seminar to be held by the Radio & Television Executives Society in New York. Speakers for that session had not been chosen until last week. At tomorrow's (Tuesday) session, Jane Podester, McCann-Erickson, New York, is slated to discuss how to use ratings. Last week's speaker was Walter Bowe of Sullivan, Stauffer, Colwell & Bayles (see story, page 54).

AAA Opens S.F. Office

The new Western regional office of the American Assn. of Advertising Agencies was officially opened in San Francisco at 235 Montgomery St. last week. The area includes the region west of the Rocky Mts., including local AAA chapters in California, Oregon, Puget Sound (Seattle) and Spokane. John Del Mar, formerly of AAA's headquarters in New York, is the executive in charge.

RADIO SETS UP 20%, TV DOWN DURING '56

- Portable markets increase
- Same trend for '57—Secrest

PRODUCTION of radio sets is increasing, with substantial gains expected over 1955, but tv set business is at its "first plateau," James D. Secrest, executive vice president of Radio-Electronics-Tv Mfrs. Assn., said Thursday in a business forecast conference conducted in Washington by the U. S. Chamber of Commerce.

Radio output, except auto sets, is running about 20% above 1955, Mr. Secrest said. The 1955 output of radios, excluding auto models, was 74% million units. Portables are leading 1955 production of 2 million sets by 40%, with 900,000 transistor models produced this year.

Despite a tv set decline of about 9% from last year, 1956 will show an output of over 7 million sets, he said with industry estimates showing between 150,000 and 200,000 color sets turned out this year.

"One of the most significant developments in the tv market in 1956 was the sudden emergence of the portable tv receiver," Mr. Secrest said. "While approximately 250,000 were made in 1955, this year's figure is expected to be over 1.5 million. In 1957, this production may be nearly doubled. One obvious result of this trend has been a decline in the average price of the tv receiver and an over-all loss in tv revenue."

Mr. Secrest said the outlook for 1957 is at least another seven million black-and-white tv receivers, with color set sales totaling several hundred thousand. He expects home radio sales to continue at a high level in 1957 with a further rise in production of transistor portables. He said a recovery in auto sets, in line, with increased car sales, is anticipated. Demand for home phonographs, especially of the hi-fi type, was good in 1956 and should remain so next year whether or not they are equipped with radio, he stated.

Total Set Count Today

Present circulation of the broadcast media, he said, is about 42 million tv sets and 150 million radios. He predicted component manufacturers selling replacement parts, and jobbers and service technicians, will continue to make gains in 1957. The sale of radio-tv replacement parts rose to $850 million in 1956 and should go up another $100 million in 1957, he estimated. Set servicing costs will run close to $1 billion for 1956, with the total dollar value to manufacturers, jobbers and service technicians placed at $2.4 billion.

Looking into the future, Mr. Secrest cited new developments not ready for the market but supported by enough progress to assure ultimate industrial production. These include mural tv, light amplification, electronic air conditioners and controls for the home, automobile and industry.

Based on production and sales, the electronic industry will show a 1956 volume of $5.9 billion at the factory level, he said. The sum is doubled when distribution, servicing and broadcast revenue are added. He forecast a growth of 10% next year, with the electronics industry having a $22 billion income by 1966, judging by industry forecasts.

Greatest strides were made in 1956 in industrial electronics, with military programs-reaching $2.7 billion, up 10% from 1955.

Some tv set manufacturers have dropped out, Mr. Secrest said, and the battle for dominance may bring more casualties in 1957. Transistor output rose to 13 million this year, he said, and should reach close to 300 million in another decade. The transistor output has not hurt sales of vacuum tubes, he said, and isn't likely to be a threat in the immediate future.

1957 Committee Assignments Announced by News Directors

TED KOOP, CBS Washington director of news and public affairs, and president of Radio-Television News Directors Assn., has announced RTNDA committee assignments for the coming year. They are:

Publicity: Bob Shaffer, WCCO-TV, Minneapolis, Minn. chairman; Ed Ryan, WTOP Washington, vice chairman; Bruce Palmer, KWTU (TV) Oklahoma City; Thomas Powell, WGBI Scranton, Pa.; Donald Wright, WBAY-TV Green Bay, Wis.

Techniques: Don O'Connor, WSN-TV Milwaukee, chairman; Bill Arthurs, WRFD Columbus, Ohio, vice chairman; Ron Laidlaw, CFPL-TV London, Ont.; Marvin Alisky, WFLU (FM) Bloomington, Ind.; Phil Berks, KOMU-TV Columbia, Mo.; Floyd Kalber, KMVT (TV) Omaha; Bill Ray, NBC, Chicago.

Conventions: Bobs Frank, WONC-TV Davenport, Iowa; Phil Johnson WCHS-AM-TV Portland, Me.; John Maters, WLS Lansing, Mich.; Charles Day, WGAR Cleveland; Ed Hoerner, WWL New Orleans, La.; F. E. Whitmarsh, WBZ-TV Boston; Ben Chafeld, City Hall, Macon, Ga.

Wire Policy: Newspapers, CBS, WDAY Fargo, N. D., chairman; Ross Edwards, WCHS Charleston, W. Va., vice chairman; Parker Hobby, WLAM Lewiston, Me.; Bob Clyde, WREX-TV Rockford, Ill.; Robert L. Heyborne, KSUB Cedar City, Utah; Richard Petrik, KOEL Owelway, Iowa; Max Williamson, WHLM Bloomius, Pa.

Hirsch Joins Tvb Sales

APPOINTMENT of James C. Hirsch formerly director of research, promotion and sales development at Edward Petro & Co., New York, station representation firm, to the national sales staff of Television Bureau of Advertising, was announced last week.

Mr. Hirsch will report to Halsey V. Barrett, Tvb's director of national sales.

DuMont Resigns NARTB Status

ALLEN B. DUMONT Labs, Clifton, N. J., has resigned as an associate member of NARTB. Membership is required for participation in the industry's convention exposition. A DuMont spokesman said the company felt expense of membership and the exhibition costs did not justify the "market potential," adding that DuMont has not changed its manufacturing status. The firm is producing heavy equipment for stations on order, it was stated.

Heads Radio Women's Group

DOROTHY LEWIS, who earlier this year retired from United Nations radio, has been elected president of the International Assn. of Radio Women. IARW, which recently held its annual conference in London, represents women from 23 nations and has opened an office at 345 E. 46 St., N. Y.

DEINTERMIX FACTION STAND FAST

- As usual, established v’s oppose, u’s favor
- ABC offers varied proposals, based on markets

ALMOST 100 pro and con sentiments were filed last week, the FCC’s deadline for comments on its 13 deintermixture proposals which look to deleting in some instances the sole vhf assignment to several communities. As expected, uhf outlets, and prospective tv applicants in cities where the vhf frequency is proposed to be moved were in favor; vhf stations which stand to lose their low-band frequency and applicants for one of the chs. 2-13 assignments were opposed. There had been earlier filings in individual cases the week before (BWT, Dec. 3).

ABC, keeping with its belief that uhf should be encouraged in as many areas as is reasonably possible, submitted separate proposals for each market in which the network favored allocation changes. The goal of the ABC plan is to make provision for a minimum of three competitive tv outlets—and, where possible, more—in each of the country’s major markets.

The Joint Committee for Educational Tv submitted one petition covering all its recommendations. JCT favored deintermixing Springfield, Ill.; Hartford, Conn.; Peoria, Ill.; Fresno, Calif.; Madison, Wis.; Evansville, Ind., and Elmira, N. Y. JCT also favored making the Albany-Schenectady-Troy, N. Y., area predominantly uhf by deleting ch. 10 from Vail Mills.

JCT opposed tampering with the educational reservation at Duluth, Minn.-Superior, Wis. (ch. 8), pointing out that there is no uhf there to be protected and there are two vhf’s in operation.

The 13 markets proposed for deintermixture, the rule-making that was promulgated by the FCC last June and the comments on the proposals follow:

Albany-Schenectady-Troy, N. Y.—Make area predominantly uhf by deleting ch. 10 from Vail Mills, N. Y. (Albany area) and adding ch. 47. This would give Albany-Schenectady-Troy chs. 6 (WRGB [TV] Schenectady), *17, 23, 35, 41 and 47. Ch. 10 is a drop-in, having been assigned to Vail Mills Nov. 10, 1955.

ABC warned that if ch. 10 is retained in the Albany-Schenectady-Troy area, uhf outlets will be unable to compete as has been demonstrated in a two-station vhf market; however, ABC suggested that in the event FCC determines that ch. 10 stays at Vail Mills then an alternative would be to provide a third v (New Haven’s ch. 8), making the area all-vhf.

WTRI [TV] Albany, N. Y. (ch. 35), supports deletion of ch. 10 and substitution of ch. 47 in Albany-Schenectady-Troy area; also suggests that ch. 6 be made educational (thus making educational ch. 17 commercial) or be moved to Syracuse for commercial use.

WKNY-TV Poughkeepsie, N. Y. (ch. 66), supports proposal to delete ch. 6 from Schenectady and ch. 10 from Vail Mills.

Hudson Valley Broadcasting Co. (WCDA [TV] Albany [ch. 41] satellite WCDB [TV] Hagaman [ch. 29], both N. Y.) opposes the FCC proposal to delete ch. 10 from Vail Mills.

Mohawk Valley Tv Inc. requests the FCC to assign chs. 2 to Utica, N. Y.

Charleston, S. C.—Make Charleston predominantly uhf by adding ch. 4. This would give Charleston chs. 2, 4, 5, *13 and 17.

ABC supports the proposal to allocate ch. 4 to Charleston, pointing out that this action will provide a third (chs. 2, 4 and 5) competitive service for that city.

WTVK (TV) Knoxville, Tenn. (ch. 26), requests FCC to move ch. 7 from Spartanburg, S. C., to Knoxville, deintermixing both those cities and making possible the allocation of ch. 7 to Columbia, S. C.

WNOK-TV Columbia, S. C. (ch. 67), favors the addition of ch. 4 to Charleston, but wants the FCC to order ch. 5 WCSC-TV there to switch to either ch. 4 or 7, making possible the allocation of ch. 5 to Columbia for use by WNOK-TV.

WMTA-AM-FM Charleston registered in favor of adding ch. 7 to Charleston but opposed to the proposal to delete ch. 5 from that city and substitute therefore ch. 4.

WJBF (TV) Augusta, Ga. (ch. 6), cautions the FCC to give careful study to the proposal to assign ch. 5 to Columbia and consider what effect it might have on the service now rendered by WJBF, on adjacent ch. 6.

WCSC-TV Charleston, S. C. (ch. 5), has no objection to the addition of a third vhf facility for Charleston, but strongly opposes the deletion of ch. 5 from that city.

WMBR-TV Jacksonville, Fla. (ch. 4) reported itself opposed to any proposal which would add ch. 4 to Charleston, claiming such a move would be destructive to the service of WMTR-TV and ch. 5 WCSC-TV Charleston.

Duluth, Minn.-Superior, Wis.—Make area predominantly vhf by switching educational reservation from ch. 8 to ch. 32. This would give Duluth-Superior chs. 3, 6, 8, *32 and 38.

ABC went on record as favoring a third, and even a fourth, vhf channel for the Duluth-Superior area to improve the opportunities for effective competition there. Ch. 38 WFTV (TV) Duluth backed up ABC’s position that more v’s should be allocated to the area.

Besides the opposition of the JCT, as already mentioned, the U. of Minnesota and the Duluth Citizen’s Committee for Educational Tv objected to any move to make ch. 8 available for commercial interests. The latter group said it is prepared to apply for the vhf educational reservation.

Elmira, N. Y.—All uhf by deleting ch. 9 and adding ch. 30. This would give Elmira chs. 18, 24 and 30. Ch. 9 is a drop-in,
Only publications which have qualified as members in good standing of the Audit Bureau of Circulations can display this symbol.

**B•T is the only news magazine specializing in radio-TV coverage whose circulation—PAID circulation—is certified by ABC.**
having been allocated to Elmira Nov. 30, 1955.

ABC requested the Commission to keep Elmira predominantly uhf by moving ch. 9 to Syracuse (giving Syracuse its third v), moving ch. 8 from Syracuse (operating WHEN-TV) to Watertown-Carthage, N. Y., in exchange for that area's ch. 7 (operating WCNY-TV). A proposal very similar to ABC's was submitted by the "Syracuse Group," identified as Daniel W. Casey Sr., Robert J. Conant, T. Frank Dolan and Richard N. Groves. This group's proposal deviated from ABC's in that ch. 7 (Carthage) would go to Utica to replace ch. 13 there (operating WKTV [TV]), and ch. 13 would go to Syracuse as that city's third vhf.

Three interests, all applicants for the ch. 9 Elmira facility, asked the FCC not to disturb the Elmira status quo. These were: Veterans Broadcasting Co. (WVET-TV Rochester, N. Y.), Television Assn. of Elmira Inc. and off-again, on-again ch. 24 WTVE (TV) Elmira.

Recommendations that the FCC delete the Elmira drop-in were made by Wilkes-Barre, Pa., uhf's WBRE-TV (ch. 28) and WILK-TV (ch. 34) and ch. 18 WSYE-TV Elmira, satellite of ch. 3 WSYR-TV Syracuse, N. Y.

Evansville, Ind.—All commercial uhf by switching the educational reservation from ch. 56 to ch. 7. This would give Evansville chs. *7, 50, 56, 62.

ABC would make Evansville all uhf by removing ch. 7 (operating WTWV [TV]) and assigning it to Louisville as a commercial channel. This proposal was also advanced by ch. 21 WKLO-TV Louisville and Harry Lee Waterfield, acting governor of Kentucky.

Two stations, ch. 50 WEHT (TV) Henderson, Ky., and ch. 62 WFIE (TV) Evansville, agreed with the FCC proposal to make Evansville ch. 7 educational. They also suggested that ch. 9 Hatfield, Ind., be reserved for educational use.

WTWV and the Evansville Chamber of Commerce filed petitions to keep ch. 7 in Evansville.

Fresno-Santa Barbara, Calif. — Make Fresno all uhf by moving ch. 12 to Santa Barbara, adding ch. 30 from Madera, Calif., and moving ch. 39 to Madera. This would give Fresno chs. *18, 24, 30, 47 and 53, and Santa Barbara chs. 3, 12, 20 and 26.

ABC favored deintermixture for Fresno and suggested moving ch. 12 to Bakersfield and also adding ch. 8 to the latter city.

The City of Fresno requested the FCC to keep Fresno an intermixed market with both uhf and vhf.

KBK -TV Bakersfield, Calif. (ch. 29), favored deletion of the Fresno vhf assignment and its reallocation to Bakersfield.

Three stations which favored deletion of Fresno ch. 12 but stated no preference for disposition of it were ch. 47 KJEO (TV) Fresno, ch. 24 KMJ-TV same city and ch. 27 KVVG (TV) Tulare, Calif.

Channel City Tv & Broadcasting Corp., which said it would apply for ch. 12 in Santa Barbara, asked the FCC to make the switch.

KNTV (TV) San Jose (ch. 11) wants no part of ch. 12, it said, in opposing a petition by ch. 32 KSAN-TV San Francisco asking that ch. 11 be added to San Francisco, making KNTV switch to ch. 12.

Opposition to the proposal to move ch. 12 out of Fresno came from KFRE-TV, now operating on that channel, Fresno am station KARM, Inland Broadcasting Corp. of Riverside, Calif., and numerous California citizen groups.

Those groups seeking the retention in Fresno of the ch. 12 facility were: Mariposa County Unified School District; Board of Supervisors of Mariposa County; residents of Coarsegold; residents along San Joaquin River between Auberry and Big Creek (81 signatures);

Residents of the Fresno County Farm Bureau (representing "over 4,200 farm families"); people of Lone Pine (pop. 2,000); Porterville Union High School & College District; Mariposa County Chamber of Commerce; Mariposa County Farm Bureau; Tulare County Farm Bureau; Kings County Farm Bureau; people of Madera County; residents of Mariposa County; Downtown Assn. of Fresno; King's County Farm Bureau (woman's branch); Friendly Eagle War Surplus Yard, and the California Farm Bureau Federation.

Hartford, Conn.-Providence, R. I. — Make Hartford all uhf by deleting ch. 3 and moving it to Providence, transferring ch. 61 from Easthampton, Mass., to Hartford, and deleting ch. 65 at Meriden, Conn. This would give Hartford chs. 18, *24 and 61; Providence chs. 3, 10, 12, 16 and *36.

Against moving ch. 3 from Hartford were WTIC-TV there, which holds a no-construction grant for ch. 3, and educational WGBH-TV Boston (ch. 2).

WICC (TV) Bridgeport, Conn. (ch. 43), favored the deletion from Hartford of ch. 2 and reassignment of that channel to both Bridgeport and Providence with appropriate engineering conditions.

ABC favored moving the Hartford vhf to Providence and was joined in this view by ch. 30 WKNB-TV New Britain, Conn.; ch. 55 WHYN-TV and ch. 22 WWLP (TV) both Springfield; ch. 58 WRCP (TV) Greenfield, Mass.; WHIM Providence, and Capital Ty Corp. of Rhode Island.

Ch. 16 WNET (TV) Providence, now dark, renewed its previous request that the FCC assign Hartford's ch. 3 to any of six suggested Rhode Island communities: Cranston, Warwick, Newport, West Warwick, Westerly or Narragansett. WNET also asked that Providence ch. 16 be made an educational channel rather than the present ch. 36.

Now dark ch. 14 WWOR-TV Worcester, Mass., said that Worcester was most deserving of the ch. 3 facility and that it should be moved to that city.

Madison, Wis.—All commercial uhf by switching the educational reservation from ch. 21 to ch. 3. This would give Madison chs. *3, 21, 27 and 33. WISC-TV is operating on ch. 3.

ABC suggested making Madison all uhf by moving ch. 3 to Rockford, Ill. Also voting to deintermix Madison were Madison uhf's
"SOUND-FACTOR"

The Sparkle of Creative Planning for Impressionable Living with WSRS

THE METROPOLITAN VOICE FOR PERSONALITIES OF DISTINCTION WITH MUSIC AND NEWS ON GREATER CLEVELAND'S NUMBER 1 STATION

SOUND-FACTOR DISCOUNT PAYABLE ONLY TO RECOGNIZED ADVERTISING AGENCIES BY WSRS, INC., CLEVELAND 18, OHIO
WKOW-TV (ch. 27) and WMTV (TV) (ch. 33).

WTVO (TV) Rockford, Ill. (ch. 39), favoring the deletion of ch. 3 from Madison, suggested it be assigned to Rockford with Madison getting in return WTVO's ch. 39. This would require the deletion of ch. 15 from Rockford.

Operating ch. 3 WISC-TV Madison, holder of the only vhf there, opposed the move for deintermixture in Madison. WISC-TV's position was supported by the Wisconsin Committee to Save Existing Rural TV Service.

Miami, Fla.—Make area predominantly vhf by adding ch. 6. This would give Miami chs. *2, 4, 6, 7, 10, 23 and 33.

Storer Broadcasting Co. (ch. 23 WGBS-TV Miami) recommended that ch. 6 be assigned to Miami. Storer said that it has been operating WGBS-TV since December 1954 and has incurred losses of $360,754 in uhf operation there.

WFTV (TV) Fort Lauderdale, Fla. (ch. 17) said that ch. 6 be assigned to Fort Lauderdale with authority given to locate the antenna in the Miami-Fort Lauderdale antenna-farm area so as to protect ch. 6 WDBO-TV Orlando and ch. 5 WJNO-TV (now WPTV [TV]) West Palm Beach.

Opposition to the ch. 6 Miami proposal came from WDBO-TV Orlando (ch. 6) and ch. 4 WTVJ (TV) Miami.

Mobile, Ala.—New Orleans, La.—Make Mobile all commercial vhf by moving ch. 4 from New Orleans, moving ch. 42 (now educational in Mobile) to New Orleans (where it would be commercial). This would give Mobile chs. 4, 5, 10 and 48. New Orleans would have 6 (WDSU-TV), *8, 20, 26, 32, 42 and 61.

Practically all the comments here voiced the opinion that New Orleans should be encouraged as a vhf market. ABC said make it all u or all v; if all u, remove the v's (chs. 4 and 6); if all v, add ch. 11 and perhaps another vhf.

WWL-TV New Orleans (Loyola U.), which holds a no-construction grant on ch. 4 there, hit the New Orleans-Mobile proposal as not "deintermixture" but a "reshuffling of frequencies" designed to leave WDSU-TV (ch. 6) as the sole vhf in New Orleans.

WTBS New Orleans (Times-Picayune) said it was opposed to the removal of ch. 4 from that city, recommended addition of a vhf there. WTFV, one of three applicants for ch. 4, was favored in a hearing examiner's initial decision, but FCC reversed examiner and awarded grant to Loyola U. (WWL-TV).

New Orleans Democratic Reps. F. Edward Hébert and Hale Boggs recommended that ch. 11 be added to that city.

WDSU-TV, operating on ch. 6 New Orleans, opposed making that city uhf, particularly as where the deletion of ch. 6 would be required.

WJMIR-TV New Orleans (ch. 20) asked the Commission to make that city all uhf.

In the alternative, WMJR-TV said that if ch. 4 (WWL-TV) is allowed to remain in New Orleans, the FCC is obliged to permit WMJR-TV to operate on ch. 11 there.

Norfolk-Portsmouth-New News, Va.—Make area predominantly vhf by adding ch. 13 to Norfolk from New Bern, N. C. Add ch. 12 to New Bern. This would give Norfolk area chs. 3, 10, 13, 15, *21 and 33.

Favoring the proposed allocations change were ch. 15 VWEV-TV Hampton (Norfolk) and Commonwealth Broadcasting Corp., former permittee of WTOV-TV Norfolk, operating ch. 27 station.

Ch. 13 WNB-E-TV New Bern, which would be forced to switch to ch. 12 if the proposed rule-making became final, and ch. 3 WTR-AT Norfolk both opposed the proposal on grounds that ch. 12 in New Bern would present conflicts between transmitter-site locations and minimum separation requirements. Also opposed was ch. 12 WRVA-TV Richmond, Va.

WAAM (TV) Baltimore, Md. (ch. 13), went on record as against the proposal claiming that the Chesapeake Bay affords an overwater path between Baltimore and Norfolk (if rule-making were finalized both cities would have a ch. 13).

Peoria-Rock Island, Ill.—Make Peoria all uhf by deleting ch. 8 and adding ch. 25. Ch. 8 would be assigned to Rock Island. This would necessitate assigning ch. 77 in lieu of ch. 40 at Galesburg, Ill. This would give...

Broadcasting • Telecasting
Peoria chs. 19, 25, *37 and 43, and Rock Island chs. 4, 6, 8, *30, 36 and 42.

ABC, favoring deintermixture in Peoria, was joined by Peoria uhf's WEEK-TV (ch. 43) and WTVP (TV) (ch. 19).

WSIL-TV (ch. 22) Harrisburg, Ill., requested that ch. 8 be reassigned to both Harrisburg and the Davenport-Rock Island-Moline area.

Tele-Views News Co., which described itself as a prospective applicant for ch. 8 at Davenport-Rock Island-Moline, asked the FCC to assign ch. 8 to that area.

WGIL Galesburg, Ill., was in favor of deleting ch. 8 from Peoria, but requested that it be reassigned to Galesburg rather than Rock Island.

Ch. 6 WOC-TV Davenport, Iowa, expressed no concern about what the FCC does in Peoria, but asked that ch. 8, if moved, be placed in a city other than Davenport-Rock Island-Moline.

WIRL-TV, permittee of ch. 3 Peoria (construction banned pending deintermixture results), strongly opposed any proposal to delete ch. 3, and was backed up by a resolution of the Peoria County Farm Bureau.

WMBD Peoria, loser to WIRL-TV for Peoria's ch. 8, asked the Commission to add ch. 31 to that city, whether or not it chooses to deintermix there.

Springfield, Ill.-St. Louis, Mo.—Make Springfield all uhf by deleting ch. 2 and moving it to St. Louis, and adding ch. 39 to Springfield. This would necessitate substituting ch. 49 for ch. 53 at Lincoln, Ill. This would give Springfield chs. 20, 39 and 46, and St. Louis chs. 2, 4, 5, *9, 11, 30, 36 and 42.

Uhf stations WICS (TV) Springfield (ch. 20), KTVI (TV) St. Louis (ch. 36) and WTVP (TV) Decatur, Ill. (ch. 17) all were in favor of finalization of the rule-making proposal.

ABC favored the proposal to move ch. 2 from Springfield to St. Louis; would replace the vhf in Springfield with ch. 36; this would allow ch. 2 to be allocated to Terre Haute, Ind., too, ABC claimed.

WTHI-TV Terre Haute, Ind. (ch. 10), said it was in favor of taking ch. 2 from Springfield but recommended its reassignment to Salem, Ill.-Mo.

WCIA (TV) Champaign-Urbana, Ill. (ch. 3), proposes that the FCC add chs. 26 and 36 to Springfield. Cape Girardeau (Mo.) Tv Co. claimed that Cape Girardeau rather than St. Louis should have the ch. 2 facility.

WSIL-TV Harrisburg, Ill. (ch. 22), seeking either ch. 8 or 3 for that city, asked the FCC to deny Cape Girardeau Tv Co.'s request, said that denial of the Cape Girardeau request would make possible the assignments of ch. 2 to St. Louis and ch. 3 to Harrisburg.

WMAY-TV Springfield, which received the ch. 2 grant last June, but is prohibited from building until the deintermixture problem is resolved, reported against tampering with the present Springfield allocations.

---

WIBC-Leads in Indiana

The walls of the lobby at WIBC are crowded with community service awards and certificates. WIBC's staff and management are proud of these awards because they represent successful integration into the community efforts of their listeners, and consequent leadership among the radio stations of Indianapolis and Indiana.

WIBC's leadership in public service has brought with it leadership in audience, too. In the 31 county Indianapolis trading area, WIBC programs rank first in 447 out of 504 rated quarter hours each week.*

*Pulse Area Study, Sept.-Oct., 1955

WIBC's success in building big audiences and in public service is due largely to the efforts of the station's well known personality salesmen . . . names like Easy Gwynn, Robin Bright, Al Brooks, Jim Shelton, Gordon Graham and many others. These same personalities are available on a "first come, first serve" basis to help you sell your product or service.

To Sell Indianapolis, and Indiana, the Best Buy... the Only Buy Is... WIBC!

New Farm Show idea created by Doane

World's leading farm management and research organization builds daily 15-minute package of national and international farm news, price trends, selling, buying, and management advice.

What effect may the latest international crisis have on farm prices? How can farmers use soil bank certificates to get 5 cents extra return for each dollar's worth? Why are corn farmers better off this year than last? What's behind happenings in the hog, cattle, and poultry markets? What are today's good buys? What's new in cost-cutting practices?

These are examples of questions and problems answered by the practical, down-to-earth Farm Radio Show offered to stations and advertisers by the Doane Agricultural Service's economic scripting department.

Beamed to Farmers' Interests

This continuing program of facts, and expert interpretation of facts and news, is of vital interest to farmers in all parts of the country. Ready-to-air scripts are beamed to the farmer's highest interests, and have already proved their ability to build large, interested farm audiences. Of special interest to farm wives is a spirally section on homemaking, presented by home economist Florence Lytle.

Frank Facts vs. Foolish Fancies

The Doane Farm Radio Show is a unique program based on 37 years of professional farm management, economic research, and forecasting. Facts are separated from fancy as questions of great importance to farmers are discussed and analyzed in easy-to-understand terms.

For full details on the new Doane Farm Radio Show, and how to use it in your area, write: Doane Farm Scripting Service, Attn: Alvin J. Lee, Doane Agricultural Service, 5144 Delmar Blvd., St. Louis 8, Mo.

Television Allocations Changed By Commission in Five Markets

FIVE MARKETS were involved in allocations changes finalized by the FCC last week:

- The Commission assigned ch. 13 (WMAZ-TV) to Macon, Ga., by removing it from Warner Robint, Ga., and assigned ch. 5 (WLAC-TV) to Nashville, Tenn., by removing it from Old Hickory, Tenn. Both stations may file applications to operate from the new communities. These changes are in line with FCC's revision of the mileage sep- aration regulation which permits transmitter-to-transmitter spacing in lieu of city-to-city spacing.

- Other allocations changes finalized last week:
  - Ch. 56 was assigned to Binghamton, N. Y., by deleting it from Cortland, N. Y., and substituting ch. 72 in the latter city.
  - Ch. 18 was assigned to Baton Rouge, La., by deleting it from Jackson, La., and substituting ch. 59 in the latter city.
  - Ch. 18 was assigned to Lafayette, Ind., by substituting ch. 77 for ch. 18 at Lebanon, Ind. This entailed a denial of a request by ch. 59 WAFM-TV Lafayette to shift ch. 59 from Lafayette to Lebanon and the station's request for a show cause order to specify operation on ch. 18.

Two Bids for Butte Vhf Grant, One for Elk City V Submitted

THREE applications for vhf channels—two seeking ch. 6 at Butte, Mont.—were filed with the FCC last week. The third application was for ch. 8 at Elk City, Okla.

Applicants for the Butte facility are Arthur W. Schwieder (president 7.8% stockholder in KID-AM-TV Idaho Falls, Idaho), and KOPR Butte. Mr. Schwieder plans to spend $161,000 for construction; KOPR proposes $160,000 for construction costs. Proposed FCC rule-making would move Butte's ch. 6 to Bozeman, Mont., substituting ch. 28 for ch. 6 in Butte.

Southwest Broadcasting Co. (KASA Elk City) filed an application for ch. 8 there, proposing a construction cost of $55,000. A previous application for the Elk City channel was filed by Video Independent Theatres Inc. (KVIT [TV] Santa Fe, N. M.).

Broadcast Allocations Revision Urged by Washington Lawyer

A CALL for the revision of broadcast allocations was sounded last week by Washing- ton attorney Jeremiah Courtney.

In a strongly-worded speech, Mr. Court- ney, who represents non-broadcast interests, leaned hard on what he termed the "in- balance" between the spectrum space allo- cated to broadcast services (am, fm and tv) and that assigned to the communications services (taxi, trucking, police, fire, industrial, etc.). He also implied that the government's share of the radio spectrum was ex- cessive.

Mr. Courtney submitted a petition by the American Trucking Assn. last October re- questing the deletion of ch. 2 from television broadcasting and its use for private communications by commercial enterprises [B+T, Oct. 29]. Last week's speech was given at the annual convention of Central Station Electric Protection Assn. in Palm Beach, Fla.

In the 25-960 mc band, Mr. Courtney pointed out, broadcasting has 58% of the allocation, government 26% and non-broad- cast services 16%. Of the 695 mc in the 25-960 mc band used by non-government services, broadcasting has 74% exclusive plus 9% shared. Mr. Courtney maintained. He termed tv an "allocation monster," in that it uses 492 mc of space in that area. He also claimed that both the tv and fm allocations were not being utilized to its fullest.

In discussing a need of mobile communicati- ons services for more space around 500 mc, Mr. Courtney said: "The result today is that the mobile and common carrier radio services are gasping for space below 1,000 mc while the fm and uhf tv services prodi- gally waste the space that has been assigned to them in that range."

He continued: "Why should the non- broadcast services bear the brunt of the pressure for better and better equipment and greater and greater improvements in com- munication techniques (e.g., single side band transmissions) so as to obtain even more efficient use of their assigned frequencies, while tv and fm services are allowed only to let their assigned space lay idle, but also to escape any requirements for improve- ment of their equipment and technique . . . Should all equipment and technique prog- ress be confined to the mobile and point- to-point services while fm and tv enjoy a lazy status quo indefinitely?"

He urged that fm and tv be "compressed" in narrower spectrum space so additional frequencies might become available for mobile and point-to-point services. Mr. Courtney expressed the hope that a "sub- stantial chunk" of fm may be re-allocated for the non-broadcast services.

House Campaign Study To Probe Sec. 315

THE "virtues and hazards" of Sec. 315 of the Communications Act, the high costs and importance of television and its "virtual necessity" in election campaigning are among subjects to be covered in hearings scheduled next week (Dec. 17-19) by the Special House Campaign Expenditures Committee headed by Rep. Clifford Davis (D-Tenn.).

NARTB President Harold E. Fellows, who will testify Dec. 17 or 18, was the only industry witness scheduled as of last week, according to Gillis W. Long, chief counsel. Mr. Long said Paul Butler and Leonard Hall, Democratic and Republican national chairmen, respectively, also will testify during the three-day sessions.

Other members of the special House unit are Reps. Robert E. Jones (D-Ala.), Richard Bolling (D-Mo.), Patrick J. Hillings (R-Calif.) and Kenneth B. Keating (R-N. Y.).
Mr. Don McNeill, Vice President
ABC-Radio Network
7 West 66th Street
New York, N. Y.

Dear Don:

All of us associated with Breakfast Club have cause to be mighty grateful for the terrific commercial success the program has enjoyed this year. We are most appreciative of the advertisers and their agencies who've climbed aboard our new commercial bandwagon and we want to take our hats off to the ABC-Radio Network salesmen who really put the "new Breakfast Club" over commercially. These salesmen have really done an outstanding job and I'd like to do a little something special to let them know how appreciative we are of their efforts.

As you well know, Breakfast Club's principle listening audience consists of women in the home, but we know that a great many men are regular listeners also. Almost every morning I meet men in our studio audience at the Hotel Sherman who confirm this, as do the surprising number of letters I receive from men listeners. Since so many of these men listeners are salesmen who hear Breakfast Club on their car radios, we're dedicating Breakfast Club of Thursday, December 13th, to salesmen everywhere.

If you and George Contois agree, I'd like to bring all the ABC Radio Network salesmen into Chicago as my guests on December 12th so they (together with the Chicago ABC Radio-Network salesmen) can be my honored guests on the Breakfast Club program the morning of December 13th. They'll not only be honored guests but they'll be representing all salesmen everywhere whom we'll be saluting that morning.

Please let me know if this meets with your approval so we can make the necessary arrangements.

Sincerely,

Don McNeill

November 29, 1956

Don McNeill Enterprises, Inc.
105 West Madison Street
Chicago 2, Illinois

Dear Don:

Many thanks for your nice letter and for your welcome invitation to the ABC Radio Network Sales staff to be your "honored guests" on BREAKFAST CLUB'S December 13th broadcast. Actually, however, when it comes to giving a "Salute to Salesmen", you are the super-salesman we will all be saluting that morning.

All of us at ABC Radio - and I think I can speak for agencies and advertisers, too, on this subject - salute you as an outstanding salesman, broadcaster and friend.

It will be a pleasure for ABC Radio to be with you in person on the morning of December 13th - as it has been for the past twenty-three years.

Best wishes.

Sincerely,

Don Durgin
Vice President in Charge

ANTITRUST COMMITTEE NEARS END OF ANALYZING ABC-TV CONTRACTS

THE House Antitrust Subcommittee last week virtually completed its classification of ABC-TV's affiliation contracts, numbering 206. There are less than a dozen ABC-TV talent contracts yet to be furnished the subcommittee, according to Julian H. Singman, assistant counsel in charge of the processing.

Details of most of the CBS-TV and NBC-TV affiliation contracts have been published (B&T, Oct. 29, et seq.). The network furnished the contracts to the congressional subcommittee headed by Rep. Emanuel Celler (D-N.Y.) in compliance with requests made during hearings in New York last September.

ABC last week submitted a statement explaining apparent deviations in some of the contracts. Although space limits prohibit details of all the documents, some other apparent differences not explained in the ABC statement are due to complicated arrangements between network and station in arriving at an agreement. A few of the ABC-TV agreements, such as those with Boston and St. Louis stations, are verbal in form and are confirmed only by letter or memorandum.

The ABC statement:

“Any deviation from the standard station compensation of 30% of gross for an interconnected affiliation agreement can be attributed to the fact that in certain markets, time clearances are not available on an equal basis due to the scarcity of stations. The importance of the inclusion of such two station vhf markets as St. Louis and Boston in a national advertiser purchase is important to the extent that without their inclusion, the network sale might not be consummated. An increase in station compensation is necessary to obtain time clearances in such situations.”

“There are also a few individual cases i.e., Chico, Calif.—where station compensation is reduced below the standard 30% for interconnected agreements.

“This is a negotiated compromise whereby the station does not grant free hours to help offset extra cable cost, but agrees to substitute instead, a reduction in compensation.”

The contracts, arranged in related groups:

30%, 22 free monthly hours: WLWA (TV) Atlanta; KMML (TV) Austin, Minn.; WAMM (TV) Baltimore; WTRI (TV) Albany, N. Y.; WIL-TV Ames, Iowa; WTTV (TV) Bloomington, Ind.; WGR-TV Buffalo; KCRG-TV Cedar Rapids, Iowa; WBKB (TV) Chicago; WCPQ-TV Cincinnati; WEWS (TV) Cleveland; WXYZ-TV Detroit; WSJF (TV) Elkhart, Ind.; KJEO-TV Fresno, Calif.; WHTN-TV Huntington, W. Va.; KMBC-TV Kansas City; WTVK (TV) Knoxville—KABC-TV Los Angeles.

WLVA-TV Lynchburg, Va.; WKOW-TV Madison, Wis.; WHBO-TV Memphis; WISN-TV Milwaukee; WTCN-TV Minneapolis; WSIX-TV Nashville; WJHC-TV New Haven, Conn.; WABC-TV New York; WMWV (TV) Poland Springs, Me.; WANN-TV Portsmouth, Va.; WTVR (TV) Richmond; KCCV-TV Sacramento, Calif.; KGO-TV San Francisco; KTVK (TV) Tulsa; KWTX-TV Waco, Texas; WML-TV Washington; KAKE-TV Wichita; WTOB-TV Winston-Salem; WSBA-TV York, Pa.; WTPA (TV) Harrisburg, Pa.

30%, free monthly hours as noted: WLOS-TV Asheville, N. C.; KBAB-TV Bakersfield, Calif.; 12; KFDM-TV Beaumont, Tex.; 15; WJCP-TV Bridgeport, Conn., 20; WCNY-TV Carriage-Watertown, N. Y.; 10; WCSC-TV Charleston, S. C.; 11; WRLB-TV Columbus, Ga.; 5; KBTV (TV) Denver, 28; WTVD (TV) Durham, N. C.; 12; KGE-TV Enid, Okla., 37; WFLB-TV Fayetteville, N. C., 1 hour weekly.

WDTV (TV) Florence, S. C., 1 hour weekly; WNCT (TV) Greenville, N. C., 11; KTRK-TV Houston, 25; WTVT (TV) Jackson, Miss., 6; WJHP-TV Jacksonville, Fla., 5; WMAM-TV Macon, Ga., 11; WMUR-TV Manchester, N. H., 25; KNOE-TV Monroe, La., 6; WJMR-TV New Orleans, 30; WDBO-TV Orlando, Fla., 11; KATV (TV) Pine Bluff, Ark., 30; KLR (TV) Portland, Ore., 30; WNAO-TV Raleigh, N. C., 12; WLSL-TV Roanoke, Va., 5; KTVI (TV) St. Louis, 11.

KUTV (TV) Salt Lake City, 28; WTOP-TV Savannah, Ga., 11; WARM-TV Scranton, Pa., 8; KSLA-TV Shreveport, La., 12; WSTV-TV Steubenville, Ohio, 11; KXET (TV) Tijuana, Mex.-San Diego, 24; WETC-TV West Palm Beach, 36; KFDF-TV Wichita Falls, Tex., 15; WILK-TV Wilkes-Barre, Pa., 20.

Other percentages of compensation, with monthly (except as noted) free hours: WBTB (TV) Charlotte, N. C., 331/2%; 1 hour weekly; WTVN-TV Columbus, Ohio, 32%, 22 hours; WFAA-TV Dallas, 331/2%, 12 hours; WBAP-TV Fort Worth, 331/2%, 12 hours; WFL-TV Philadelphia, 31/2%, 20 hours; KCNC-TV Texarkana, Tex., 25%, 12 hours.

KOIN-TV Lincoln, Neb.; WAVE-TV Louisville (31.66% if simulcast on WAVE); KTBV-TV Medford-Oakland, Calif.; WAW-TV Mobile; WKGK-TV Mobile; WSFA-TV Montgomery; KWTW (TV) Oklahoma City; WKY-TV Oklahoma City; KMTV (TV) Omaha; WJDM-TV Panama City, Fla.; WEAR-TV Pensacola; WTVH (TV) Peoria; KTYS (TV) Phoenix; KZTV (TV) Reno; WHEC-TV Rochester; WVET-TV Rochester; WREX-TV Rockford, Ill.

WHBF-TV Rock Island, Ill.; KSWA-TV Roswell, N. M.; KSB-TV Salinas, Calif.; KENS-TV San Antonio; WOAI-TV San Antonio; KEYT (TV) Santa Barbara, Calif.; KTTV-TV Shreveport; KREM-TV Spokane; WTHI-TV Terre Haute; WSPD-TV Toledo; WSAU-TV Wausau, Wis.; WXYZ-TV Westlake, Ohio.

Varying percentages of compensation, no free hours: KENI-TV Anchorage, Alaska, 15%; WBZ-TV Boston, “50 of gross”; KFAR-TV Fairbanks, Alaska, 15%; WFMN-TV Greensboro, N. C., 10%; WHAM-TV Rochester, 331/2%; KSD-TV St. Louis, “50 of gross billing to advertisers”; WKBK-TV Youngstown, Ohio, 271/2%.

Different compensations for film or kinescope and live (I) no free hours: WFBG-TV Altoona, kine 25%, live 30%; KHSN-TV Chico, Calif., film 30%, live 15%; WOOD-TV Grand Rapids, film 30%, live 40%; WKOZ-TV Kalamazoo, film 30%, live 40%; WJAR-TV Providence, kine 50%, live 30%. (2) with free monthly hours: KTEN (TV) Ada, Okla., film 25%, live 30%, 9 free hours; WBRZ-TV Baton Rouge, film 30%, live 25% over first 3 hours; WTVP (TV) Decatur, Ill., film 25%, live first 25 hours over 2 free hours 251/2%, more than 45 hours 30%; WAKR-TV Akron, film 25%, live first 25 hours over 23 hours 271/2%, all over 45 hours 30%.

Bonus stations, no compensation except:
One thing us rabbits believe in is RESULTS. The only arithmetic—MULTIPLICATION! Take a 1356 foot tower, pack it with 100,000 watts of power, add over 1,000,000 ready customers, and you've got three potent factors for increased sales in 1957. Multiply with 5 to produce results in Oklahoma in the coming New Year.
as noted: WAIM-TV Anderson, S. C. (Bonus with WLOS-TV Asheville, N. C.); WBLN (TV) Bloomington, Ill.; WDAN-TV Danville, Ill., gets 7 1/2% of hourly rate for announcements ordered by ABC; WTVE (TV) Elmira, N. Y.; WTAP-TV Parkersburg, W. Va.; WBOC-TV Salisbury, Md.

Different percentages for different hours: WJBF-TV Augusta, Ga., 30% for all over first 4 hours in 6-11 p.m. period and 30% for all over first 4 hours in other time periods; WNBF-TV Binghamton, N. Y., 25% for first 20 unit hours, 35% next 10, 40% all over 30 hours; WGLV (TV) Easton, Pa., 27 1/2% for first 11 hours, 30% all over 45 hours; WICU (TV) Erie, Pa., 30% first 20 hours, 33 1/2% next 40 hours, 35% all over 60 hours; WTV (TV) Ft. Lauderdale, Fla., 30% of average unit hour rate for all over first 24 hours (50% of compensation withheld to pay on money due to ABC); WSUN-TV St. Petersburg, Fla., 25% for first 35 hours over 25 free hours, 30% for all over 60 hours; WATR-TV Waterbury, Conn., 27 1/2% for first 33 hours over 12 free hours, 30% for all over 45 hours.

Miscellaneous contracts: WDAY-TV Fargo, N. D., receives $75 per hour plus 30% of remainder." WNAC-TV Boston in a verbal contract for Mickey Mouse Club gets 30% of combined total of 20 quarter-hours per week figured at Class B rates.

For all other ABC-TV programs, WNAC-TV is paid, using the formula of "half-hour at 60% of the hour, quarter-hour at 40% of the hour, etc., by multiplying the proper time classification percentage (such as 60% for a half-hour) to the applicable hour rate and multiplying this figure by 50% for each time segment used. Compensation for Warner Brothers Presents (one-hour evening show) is based on two half-hours at the Class B rate.

**Tax on All-Channel Sets Stunts Tv, Hearing Told**

THE full potential of television will never be realized as long as all-channel tv sets cost more than vhf-only sets. Sigurd Tranal, representing Radio-Electronics-Tv Mfg. Asn.'s Tax Committee, told a House Ways & Means subcommittee Wednesday, The House unit, headed by Rep. Aime J. Forand (D-R. L.) is studying the excise tax structure.

Mr. Tranal, who is assistant to the vice president and controller of General Dynamics Corp.'s Stromberg-Carlson Div., asked for elimination of the 10% federal manufacturer's excise tax on all-channel tv sets and said this would provide the most effective action Congress could take to insure nationwide competitive tv. Broadcasters made similar pleas the week before (B&T, Dec. 3).

REMTA also asked for elimination of the 10% tax on color tv sets in line with Congress' "historical policy of not taxing new products" before they become established.

Mr. Tranal said RETMA, representing about 380 manufacturers of radio and tv sets and other electronic products, is calling for a general reduction of the excise tax on radio-tv industry products from 10% to 5%.

This, he said, would equalize the tax on radio-tv products with that on most other articles for the home and would be consistent with the tax relief Congress gave other household products in 1954.

The RETMA representative said removal of the excise tax on all-channel sets would cause "most manufacturers" to shift to all-channel sets production and give all purchasers of new sets access to uhf programs.

Expressing regret that all-channel set tax exemption was not adopted when first advocated by RETMA and others in May 1954, Mr. Tranal told the subcommittee that while RETMA feels it's "unfortunate that much time has been lost, it is still not too late and we renew our recommendation." Since that time, 20 million tv sets have been manufactured, only 3.2 million capable of receiving uhf, Mr. Tranal said, adding that the impetus that would have been given to uhf with 17 million additional uhf sets in the hands of the public is "incalculable."

In calling for excise tax reductions on radio-tv products, Mr. Tranal cited tv and radio as two of the least expensive forms of entertainment and education for the low income family and said one of the best ways to benefit this group is to reduce the tax on tv, radios and phonographs.

A Philco Corp. official said his firm acknowledges the necessity of a peacetime excise tax system, but that the system should be overhauled to avoid both excessive rates on a given subject of taxation and "fine distinctions based on subjective considerations of relative necessity or luxury."

**Three Multiple Owners Add Ams In 11 Sales Approved by FCC**

THREE of eleven am sales approved by the FCC last week added to the holdings of present multiple station owners. Commission sanction went to:

KFWI Wichita, Kan., transferring 50% from C. Howard Lane and associates to the H & E Balaban Corp. (midwest theatres) and Harold S. and Leo M. Lederer (Atlantic Mfg. Co., Chicago) for $150,000. The Commission last month approved the Balaban-Lederer buy of WRTI Milwaukee and the Balabans' grant of tv ch. 46 in Birmingham, Ala. The Balabans also own 50% of ch. 39 (WTVO) Rockford, Ill.; ch. 23 (WMCM (TV) Grand Rapids, Mich., and ch. 20 (Wroc) (TV) Springfield, Ill. The latter has an application pending for a satellite in White Heath, Ill.

WTAM Decatur, Ga., for assignment of license from Republic Broadcasting System Inc. (Gordon McLendon, president) to WTAM Inc., owned by Emil J. Arnold, for $85,000. Mr. Arnold also owns 51% of WINN Louisville, Ky., 50%, WMJF Dayton Beach, Fla., and 49% of WALT Tampa, Fla.

WABY-Abbeville, S. C., for assignment of license to J. A. Gallimore for $30,000. Sellers are Mildred Allen and Edith Mooneyham, Gallimore holdings include WSNW Seneca, S. D.; WSSC Sumter, S. C.; 60% of WBAW Barnwell, S. C., and 60%, WLFA Lafayette, Ga.

Schafitz Named Assoc. Gen. Counsel at FCC; Henley to Justice Dept.

EDGAR W. HOLTZ, assistant chief of the FCC Office of Opinions and Review, will become associate general counsel of the Commission Dec. 21. He succeeds J. Smith Henley, resigning to join the Dept. of Justice [CLOSED CIRCUIT Dec. 3].

Mr. Henley's assignment at the Justice Dept. is to head a new office set up to study and coordinate administrative procedure of government agencies.

FCC Switched Policy in Miami, Ch. 7 Losers Charge in Court

DID the FCC switch on its diversification policy when it granted Miami, Fla., Ch. 7 last January to a combination of Cox-Knight newspaper-radio interests plus Niles Trammell former NBC president? That was the question argued before a Washington federal court last week.

Unsuccessful applicants Sunbeam Television Corp., East Coast Corp. and South Florida Television Corp. charged the FCC with reversing its long-time policy of favoring non-newspaper-owned applicants. The FCC and WCKT (TV) argued that the competing applicants were not entitled to credit for not being affiliated with other media of communications, but that the Cox-Knight-Trammell group was awarded major preferences in other areas which outweighed its disability on the diversification issues. The WCKT principals own separately the Miami News (Cox) and the Miami Herald (Knight). The applicant put its owned standard broadcast stations WIOD (now WCKR) and WQAM respectively. WQAM was sold to Todd Storz last summer for $850,000—since the licensee of WCKR-WCKT (TV) could not own two stations in the same market under the FCC's duopoly rule.

The argument was heard by Circuit Judges Wilbur K. Miller, Charles Fahy and George T. Washington.

Kaiser Gets Honolulu Ch. 13;
New Mexico Translator Okayed

IN TWO television actions by the FCC last week Kaiser Hawaiian Village Television Inc. was granted ch. 13 in Honolulu, and Triple "S" TV & Radio Clinic, Tucumcari, N.M., was authorized for a translator on ch. 80. The Tucumcari grant, protested by a local community tv cable firm, marked the Commission's first denial of objections by cable interests to translator service.

Still pending are objections to translator applications in Palm Springs, Calif., by a community tv system, and in Lewiston, Idaho, by a booster station.

The Honolulu firm is owned 75% by Henry J. Kaiser, industrialist, and 25% by Hal Lewis, Honolulu advertising representative and disc jockey, who will be executive vice president of the television firm. The new facility will operate with 12.9 kw visual power and cost an estimated $133,653 to put on the air.

Triple "S" will use ch. 80 to rebroadcast ch. 4 KGNC-TV Amarillo, Tex., to an estimated 11,000 population.

Webster to 'Doria' Committee

COMMODORE Edward M. Webster (U. S. Coast Guard, ret.), who retired as a member of the FCC last June, was named last week as one of a four-man committee of experts to aid a congressional committee in its investigation of safety problems raised by the July 25 collision on the high seas between the foreign liners Stockholm and Andrea Doria.

Five Named in Suit

THE Justice Dept. filed an antitrust civil suit last week against five manufacturers of electrical resistance alloys, charging in Newark, N. J., federal court price fixing and restraint of trade. The defendants are Wilbur B. Driver Co., Driver-Harris Co.; Alloy Metal Wire Co.; Haskins Manufacturing Co. and C. O. Jelliff Manufacturing Corp. Electrical resistance alloy products are used in radio-television receivers and industrial appliances.

N. Y. State Mediator to Hear
WNBF-AM-TV, NABET Views

IN AN EFFORT to settle a 10-day-old strike at WNBF-AM-TV Binghamton, N. Y., representatives of management and of Local 26, National Assn. of Broadcast Engineers & Technicians, will meet this week with a member of the New York State Mediation Board.

Thirty-four announcers, engineers and technicians walked off the job Dec. 1 after rejecting an offer for a new three-year contract by management largely over wages and fringe benefits. The stations have maintained their broadcasts since without interruption through the use of supervisory personnel, according to George Dunham, general manager.

Mr. Dunham said the station had offered wage increases of up to $22 per week, to recognize the union shop and grant certain fringe benefits. He added no sessions have been held with the union since the strike began.

Arthur Ferrare, president of the local and an audio engineer-projectorist at the stations, claimed the dispute began when Triangle Publications bought the stations and
with directional antenna equipment

... equipment that offers AM broadcasters the same forward-thinking design, the same careful engineering, the same quality construction typical of all Collins equipment.

Each Collins directional antenna installation is custom designed and built to satisfy the coverage requirements of the individual broadcaster and the specifications provided by his consulting engineer.

Designed to match the attractive appearance of the Collins line of transmitters, the phasor may also be obtained in a cabinet to match other makes of equipment. Controls for amplitude and phase are recessed front panel counter dials which have accurate reset characteristics for ease of tune-up. Unsurpassed stability and ease of maintenance are additional outstanding features. Antenna tuning units, specially housed in weatherproof cabinets if desired, are an integral part of Collins complete phasing equipment package.

When your plans call for a new or modified directional antenna system, contact your nearest Collins representative for a detailed equipment quotation. There is no obligation.
PERSONNEL RELATIONS

“eliminated certain benefits that had been in force under the previous management, including an annual bonus and a pension plan.” He said that a NABET survey in upstate New York showed that the wage scale at WNBF-AM-TV was “well below average.” He also charged that supervisory personnel currently operating the stations are “strike breakers, because they have been recruited from other Triangle stations.”

Settlement Reached in Strike Against WAPI-AM-FM, WABT (TV)

A STRIKE of International Brotherhood of Electrical Workers technicians (Radio Broadcast Technicians Union, Local 253) against WAPI-AM-FM and the affiliated WABT (TV) Birmingham came to a close last week after a duration of 70 weeks. Joe S. Harmon, union business manager, and Henry P. Johnston, president of the three Alabama Broadcasting System stations, jointly announced that an amicable settlement had been reached, satisfactory to both sides.

Main issues in the long controversy were working of supervisors and requirement that two men be on control board at all times. Wages were not an issue. The stations were picketed during the strike. They are understood to have operated without loss of time. The stations recently asked dismissal of an injunction plea against the union after a three-day court hearing.

Council Reports U. S. Dollars Going to Communist Film Makers

A CHARGE that the Communist Party in Europe is getting U. S. dollars invested in foreign motion pictures and possibly some television films was made by the Hollywood AFL Film Council in a warning to all producers that the council will make public the facts of such films when the information becomes available [CLOSED CIRCUIT, Nov. 26].

NABET, IATSE Resolve Dispute

NABET has claimed victory over IATSE in the latter’s campaign to force non-IATSE unions out of the film business in Hollywood. Both unions signed a settlement agreement before NLRB Hearing Examiner Norman Greer which prevents IATSE from picketing or otherwise “persuading” film rental studios from doing business with firms using NABET crews. Examiner Greer had investigated secondary boycott charges brought by NABET against the other union as the result of picketing in October at certain Hollywood tv studios.

NABET Wins WNHC Jurisdiction

A RULING issued Dec. 7 by the National Labor Relations Board specifies that the National Assn. of Broadcast Employees & Technicians (NABET) has been selected by technical employees of WNHC-AM-FM-TV New Haven, Conn., as bargaining agent. NLRB denied a petition by Elm City Broadcasting Corp. protesting conduct of the election. Elm City was sold to Triangle Publications, present operator.

WCAU Inc. Takes Over Control of WGBI-TV

WCAU Inc. Philadelphia last week took over controlling interest of WGBI-TV Scranton, Pa., from Scranton Broadcasters Inc. and named Donald W. Thornburgh, president-general manager of WCAU-AM-FM-TV, as president of the newly-acquired station.

Vance L. Eckerley, attorney and consultant to Scranton Broadcasters, was named vice president and general manager of WGBI-TV. and Anton J. (Tony) Moe, former account executive with CBS-TV Spot Sales in New York, was named general sales manager of the tv station.

Other officers of WGBI-TV are Mrs. Marcella Megargee Holcomb, vice president of Scranton Broadcasting, secretary, and Joseph L. Tinney, executive vice president-assistant general manager of the WCAU stations, treasurer.

WGBI-TV board of directors now is composed of Robert McLean, president-publisher of the Philadelphia Evening Bulletin and Sunday Bulletin; Richard W. Slocum, executive vice president of the Bulletin papers; Mr. Thornburgh; John G. Leitch, vice president in charge of engineering of the WCAU stations; Charles Vanda, vice president in charge of tv for WCAU; Mrs. M. E. Megargee, president-treasurer of Scranton Broadcasters, and Mrs. Holcomb.

Third Uhf, WMGT (TV), Bought

By Lowell Thomas, Associates

SALE OF ch. 19 WMGT (TV) Pittsfield, Mass., by Leon Podolsky and associates to Hudson Valley Broadcasting Co. for $379,000 was announced last week. Hudson Valley, owned by CBS commentator Lowell Thomas and associates, owns CBS-affiliated ch. 41 WCDA (TV) Albany, N. Y., and satellite ch. 29 WCDI (TV) Hagaman, N. Y.

The Massachusetts outlet will be operated as a second satellite of WCDA. Payment will be $91,000 in cash and the $288,000 remainder in monthly payments over a seven year period. It also was understood that RCA was taking back all WMGT studio equipment, with an adjusted refund, and that General Electric was accepting a reduced price on the ch. 19 transmitter.

WMGT began operating in February 1954. It is affiliated with ABC. In February of this year, the WMGT tower was destroyed.

Broadcasting • Telecasting
If you are told that network cables somehow endow a program with a certain indefinable "prestige"—remember this:

*When it comes to film programs, most viewers can't tell non-network from network shows, or mis-identify them.*

That's the highlight finding of a recent study by Qualitative Research, Inc.

The survey makes clear that as far as film programs are concerned, there is no such animal as "network prestige." There can't be. Fact is, most viewers don't know non-network from network shows. Chances are they don't care.

**People dial for content—not cable.**

The Audit of paid circulation

The surest barometer of reader acceptance of any publication is its paid circulation. Special people read business and trade journals for hard news and for ideas—tools of their professions or trades. They get their entertainment elsewhere (mostly from radio and television).

A paid subscription immediately establishes a contractual relationship between the subscriber and the publisher. The subscriber pays his money because he needs the publication to keep pace with developments in his own business. He is too busy to read those publications which do not meet his requirements, even if they come to him gratis. Thus, if reader interest is not sustained, paid circulation is promptly affected.

B&T for the Jan.-June, 1956 audit period averaged a paid weekly circulation of 16,401. This is the largest paid circulation in the vertical radio-tv field. B&T in fact distributes more paid circulation annually than the combined annual paid of all other vertical magazines in this field.

B&T is a member of the Audit Bureau of Circulations—the only paper in our field to enjoy this privilege. The symbol below is your guarantee of integrity in reporting circulation facts to buyers of space.

There is no blue sky or unverified claims in B&T. That is why B&T is the basic promotional medium in the radio-tv field, with 25 years of loyal readership and paid circulation to back it up.

by high winds and the station has been off the air since then, but plans to return to full-time operation Jan 1, 1957.

During the past two years, both WMGT and now-dark WTRI (TV) Albany have fought WCDA's proposal to allocate ch. 10 to Vail Mills, N. Y., a short distance outside of Albany. A federal court earlier this year stayed the FCC's assignment of ch. 10 to Vail Mills. And, in June, the FCC proposed to deintermix the Albany-Schenectady-Troy area by deleting ch. 10 from Vail Mills. WTRI also opposed the sale of what is now WCDA and its am adjunct, WROW, to the Lowell Thomas interests. Mr. Thomas and his associates paid less than $300,000 for the two properties in 1954.

Seven Station Deals Come to $1.5 Million

SALES amounting to an aggregate of over $1.5 million were either announced or filed with the FCC last week.

Largest purchase was that of KELP and ch. 13, ABC-affiliated KILT (TV) El Paso, Tex., by KXLY-AM-TV Spokane, Wash., interests. The sale price was reported at $750,000, with Blackburn-Hamilton Co. as broker. Stations are being sold by McLendon interests—which only recently sold WRJT Milwaukee and WTAM Decatur, Ga. KELP is ABC affiliated and operates with 1 kw day, 500 w night on 920 kc. KXLY principals are Joseph Harris, Norman Alexander and Richard E. Jones. Mr. Jones, to be general manager of Texas properties, is former Storer Broadcasting Co. vice president and former DuMont Television Network o&o station director.

Next largest was the $333,154 transaction whereby Lanford Telecasting Co. was established with T. B. Lanford owning 51% and Bill L. Fox (KFMB-TV executive) 49% (limited voting) of ch. 5 KALB-TV Alexandria, La., which has been operating with all three networks since 1954. This resulted from a merger agreement when the ch. 5 grant was made. Mr. Fox's family owns KSYL Alexandria. KALB-AM-FM-TV balance sheet of Sept. 30 showed earned surplus of $255,156. Mr. Lanford has interests in KRMD Shreveport, KPLC-AM-TV Lake Charles, both La.; WSLI-WJWT (TV) Jackson, Miss., and KRRV Sherman, Tex.

Daytimer KALI Pasadena, Calif., is being sold by Henry Fritzten to Tele-Broadcasters Inc. for close to $200,000 with adjustments to be made following closing. Tele-Broadcasters (H. Scott Killigore) owns WWXL Concord, N. H.; WKKX Knoxville, Tenn.; WPPO Hartford, Conn.; KUDL Kansas City, Mo.; and is buying WBBR Brooklyn, N. Y. KALI, operating on 1430 kc with 5 kw, showed an earned surplus of $82,174 in the balance sheet as of July 31, submitted with its application.

WFTC Kinston, N. C., was sold by J. Harold Vester and associates to country music impresario Connie B. Gay for $145,000. Sale also handled by Blackburn-Hamilton. WFTC is ABC affiliated, uses 5 kw day, 1 kw night on 960 kc. Mr. Gay owns WTCR Ashland, Ky., and KLRA Little Rock, Ark.

WHAR Clarksburg, W. Va., was sold to Harrison Corp. for $111,000. Harrison Corp. is owned by George Wilson and George Wilson Jr. and William F. Malo Jr. The 250 w, ABC outlet (on 1340 kc) is being sold by W. A. (Pat) Patterson and Robert K. Richards. Broker is Blackburn-Hamilton Co.

Sale of WGKV Charleston, W. Va., by Kanawha Valley to Jacob (Jake) and Walter F. Evans for $90,000 was made known. Jacob A. Evans is a McCann-Erickson executive and former NBC sales official. The NBC-affiliated 250 watter (on 1490 kc) is being sold by its WSAZ Inc. principals because of their purchase of WKNA-AM-FM Charleston for $150,000 [B&T, Nov. 26]. Kanawha principals are Lawrence H. Rogers II, 20%; Leroy E. Kilpatrick, 10%; William D. Birke, 25%; E. H. Long, 15%; Eugene Katz, 10%; Walter H. Long, 10%; A. F. Marshall, 10%.

NBC's Radio, TV O&O's Report Strong Sales Gains

BOTH tv and radio sales of NBC owned and operated stations are up this year over 1955, tv by 21% and radio by 17%, it was announced last week by Thomas B. McFadden, vice president of NBC owned stations and NBC Spot Sales.

Mr. McFadden's disclosure was made in advance of the opening today (Monday) of a two-day annual meeting of general managers of the network's owned radio and tv stations. The closed session will be held in the St. Regis Hotel in New York, after which the general managers will proceed to Miami Beach where NBC will be celebrating its 30th anniversary (see story, page 31).

October time sales on NBC's five owned radio outlets rose 28% above billings for October 1955, he reported, noting that WRCA New York in October had its best month in history and predicting "that record will fall in November." (WRCA has reported its time sales in November will run 33% ahead of that month a year ago.)

The sessions today and tomorrow will cover sales, programming, public service and special projects for next year. The managers also will review summer sales plans which were drawn up some months ago.

Two California Am Permits Plan 'Newspaper-of-Air' Format

TWO California radio stations issued construction permits and call letters last month will operate on a "newspaper-of-the-air" format, it was announced last week by Ray Lapica, Beverly Hills, Calif., broadcaster-newspaperman, who is licensee of the stations. The stations are KACE Riverside (1570 kc) and KAMP El Centro (1430 kc), both with 1 kw.

Mr. Lapica said that each station "would publish" a complete air edition of a radio newspaper every morning and evening, consisting of a world and national news page, a local news page, feature, sports, entertainment and woman's page.

**NCS No. 2 reports are influencing the selling and buying of radio and tv schedules!**

Hundreds of radio and tv stations...and time buyers (some of them your competitors) are using NCS No. 2 reports right now to learn new, comprehensive and authoritative station coverage facts.

These NCS No. 2 subscribers have current data...county-by-county—on daytime and evening listening. They are making good use of this information in every buying and selling situation.

You, too, can arm yourself with this detailed station coverage information...can know what others are learning about radio and tv coverage.

**Typical facts provided by NCS No. 2**

- *How big is a station's market?*
  - number of homes in the area
  - number with radio or tv sets
- *How many families listen to the station?*
  - daytime...evening; weekly...daily
- *Frequency of family listening?*
  - station loyalty
- *What other stations serve the area?*
  - comparable competitive facts

Call...wire...or write today. NCS No. 2 reports are available immediately.

Clipp Named Vice President Of Triangle's Radio-TV Div.

ROGER W. CLIPP, general manager of Triangle Publications' Radio & Television Div., has been elected vice president of the division, it was announced last Wednesday by Walter H. Annenberg, Triangle Publications president.

Mr. Clipp has been associated with the WEIL stations since 1935, as business manager until 1938 and as general manager thereafter. Since its inception in 1955, he has served as general manager of the Radio & Television Div. He currently is secretary and a director of Television Bureau of Advertising, a member of the U. S. Information Agency's Broadcast Advisory Committee and a member of the Radio & Television Committee of the President's People to People Project.

KCCO Founder Logan Dies

WILLIAM A. LOGAN, 44, one of the founders of KCCO Lawton, Okla., died of cancer, Dec. 5, after a long illness.

Mr. Logan, a lawyer, served as state sen-

ator for 18 years. He was an unsuccessful candidate for governor in 1954. In October of this year he transferred his interest in KCCO to Russel G. Jones.

Jack Feldmann Appointed General Manager of KRKD

JACK FELDMANN, who formerly had been partner with Frank Oxarart in operation of KDON Salinas, Calif., has been named general manager of KRKD Los Angeles, it was announced last week by Mr. Oxarart, president of Continental Telecasters Inc., licensee of KRKD.

Mr. Feldmann also becomes a member of the board of directors of Intercontinental Telecasting Corp., owner of KVSM San Mateo, Calif., and of the board of Televisio

n Co. of America, which now is operating KBMI and KSHO-TV Las Vegas. He also is president of Frank Oxarart Productions Inc., program packaging firm.

WSFA Sale Hits Snag

SALE of WSFA Montgomery, Ala., by WKY Radiophone interests to Charles W. Holt and associates for $175,000 struck a snag last week—the week following FCC approval [BT, Dec. 3]. Hoyt Andrus, vice president-station manager, announced the transaction was not completed because of difficulties between the owner of the WSFA antenna property and the prospective new owners. WSFA leases the property. The WKY Oklahoma City interests bought WSFA-AM-TV last year for more than $500,000. WSFA-TV was not involved in the Holt purchase.

KGW-TV Dedication Dec. 15

KGW-TV Portland, Ore., will inaugurate its program service in a special dedicatory program Dec. 15 from the station's Broadcast House studios, it was announced last week. The program has been designed "to express something of the spirit of Portland and its environs and of the station and its personal identification with the area," according to KGW-TV officials.

Suit Against Duggan Dismissed

A SLANDER SUIT filed by an entertainer against ABC and performer Tom (Goss) Duggan, formerly with network's owned and operated WBKB (TV) Chicago, was dismissed Wednesday in Chicago Circuit Court.

The suit had been filed by Philip S. Tucker, charging the tv performer with slanderous remarks about the entertainer's act on his (Duggan's) late evening WBKB commentary and seeking $100,000 in damages. In dismissing the suit Judge Harry M. Fisher upheld the defense's contention that "a public performer lays himself open to fair comment and a critic is privileged in making remarks on his performance." Mr. Duggan currently has a commentary program on KCOO (TV) Los Angeles, Calif. 
WSYE-TV TO FEATURE PROGRAM TAPE UNIT

- GE control device set up
- 'Blank screen time' cut

AUTOMATIC program control system designed to assure viewers "more accurate" programming and a minimum of "blank screen time" is scheduled to go into operation at WSYE-TV Elmira, N. Y. (ch. 18), today (Monday). WSYE-TV is a satellite of WSYR-TV Syracuse, N. Y.

A joint announcement by the General Electric Co. and the station claims WSYE-TV will be the nation's first station to adopt the system. T. Robert Bolger, general manager of the station, revealed that tests made with GE's recently-developed automatic program control system have resulted in "a smoothness of operation heretofore deemed impossible through manual program control."

The new system, according to GE, automatically schedules all switching necessary for programming slides, films, networks and audios, enabling the normal route of TV station breaks, commercials and succeeding programs to continue without pause or interruptions. The operation of the system was explained by GE in this way:

Once the new push-button programmer is set into operation, a strip of punched tape takes over the duties of a station director, starting and stopping the desired station equipment at the exact time. A maximum of seven different units can be controlled, such as two motion picture projectors, a slide projector, a station-identification projector, network and audio tape.

The new system include a tape editor, similar to a typewriter, and a tape-reader control. The editor may be operated by a stenographer to punch holes in the tape. The device contains an automatic counter which counts in seconds, minutes or hours. Thus, the tape is punched at appropriate spaces to synchronize with program timing. For program control, the tape is inserted in the readers where it passes through at the rate of three inches per half hour. The tape, or "brain," is interpreted by the reader, which sends in motion the actions for automatic programming.

GE engineers report that a roll of punched tape three inches in diameter will automatically control split-second programming by both radio and TV stations for a full 24-hour period and, if desired, punched cards can be substituted for tape control.

Mr. Bolger said the automatic programmer makes possible "greater programming accuracy" and minimizes "the human error factor which often results in short intervals of blank-screen time." He described the new device as "the most practical approach to one-man station operation yet devised."

WSTV-TV's Tri-State Impact

Keys New Merchandising Project

WSTV-TV Steubenville, Ohio, has embarked on a merchandising project designed to sell both its advertisers' goods and station's own impact on the tri-state region of Ohio, Pennsylvania and West Virginia. It is also making available a 20-minute, 35 mm. color film presentation, "How to Make Money in the Steel Market," which documents the opportunities that exist for advertisers in the WSTV-TV market. Film was produced by the station and its advertising agency, The Wexton Co., New York, in cooperation with Upper Ohio Valley Development Council.

WSTV-TV's merchandising service includes making available to advertisers a merchandising directory listing chain stores, independent groceries, drugstores, wholesalers, jobbers, etc.; in-store displays, blanket mailings, publicity releases, self-liquidating premiums, and other services. In addition, the station offers an "Index of Advertising Effectiveness," which the advertiser may use to compare his results on WSTV-TV with those on other stations. Copies of the index may be secured from John J. Laux, general manager of the Steubenville station.

WSM-TV SOLVES 'HOT' PROBLEM

A PARTICULARLY "hot" problem that faced engineers and performers at WSM-TV Nashville has been solved in an ingenious and comparatively inexpensive manner.

The veteran radio show Grand Ole Opry made its television debut in Sept. 1955, originating from Ryman Auditorium in Nashville where its radio broadcasts had taken place. During the fall and winter months, the 50 to 60 spot lights necessary for televising the show were not noticeably hot during performances. During spring performances, however, it became obvious, particularly to the tv engineers, that with real summer weather, conditions under the spots—some of them as large as two kw—would become unbearable in the barn-like, non-airconditioned auditorium.

Since air conditioning the entire auditorium was deemed financially impractical, engineers began looking around for some kind of cover to reduce the amount of heat coming off the spots without reducing light intensity. The answer turned out to be a pyrex brand infra-red reflecting glass, which reflects radiant heat but transmits more than 75% of the visible light.

Corning Glass Works, Corning, N. Y., manufacturer of the glass, responded to a rush order, and on May 24 the glass, 60 pieces, each 16 by 12 in. and 3/16 in. thick, were shipped. The pieces cost $13.50 each. In order to get the lights ready for the next Grand Ole Opry on June 23, the station's staff of electricians and lighting engineers worked overtime putting frames on the big spots to hold the reflecting glass. The glass was held at an angle of approximately 45 degrees to the light source to achieve reflection of heat toward the ceiling of the auditorium and avoid reflecting heat back into the light fixture itself.

According to WSM-TV officials, Grand Ole Opry was produced throughout the summer without performers being uncomfortable from the heat. Although there was no way to measure precisely the reduction in temperature in the auditorium, the officials believe that at least 50% of the heat from the spotlights was dispersed. So impressed were they that present plans call for installing the panels on all of the lights at the regular WSM-TV studio, which is air-conditioned.

WSM-TV technical workers report that, in addition to cutting heat, the panels also improve picture quality. George A. Reynolds, vice president-technical director of the station, says that this might have resulted because "cutting out the infra-red portion of the light allowed the image orthicon picture tube to work in a slightly different manner than with the infra-red present."

POSITIONING of the heat-deflecting squares of glass is shown on five of the above ceiling lights as country-music singer Carl Smith performs.

WNEM-TV Using New Tower

WNEM-TV Bay City, Mich., last week began operating with a full power signal of 100 kw from its new 1060-ft. tower. The channel 5 outlet has been on the air since Feb. 16, 1954.

REPRESENTATIVE APPOINTMENTS

WORZ Orlando and WNTM Yermo Beach, Fla., have appointed George P. Hollingsbery Co.

WHM-AM-TV Lansing, Mich., has appointed Peters, Griffin, Woodward Inc.

WNEM-TV Bay City (Saginaw, Midland), Mich., has appointed Edward Petry & Co. Inc.

KWBW Hutchinson, Kan., has appointed Devney & Co., N. Y.

THE BOLLING COMPANY, INC.
Stephen Q. Shannon, KPHO-TV Phoenix continuity and production departments, named promotion-publicity manager.

Jack Highberger, staff announcer at WKZO-TV Kalamazoo, Mich., appointed promotion manager of KARD-TV Wichita, Kan.

Jack Sherry, WKY-TV Oklahoma City operations manager, named station promotion manager.

Robert W. Bray, WKNB-TV New Britain, Conn., program director, named program manager.

Ben G. Oman Jr., previously WTAG Worcester, Mass., day news editor, returns to WTAG as director of sales promotion.

Carol A. Johnson, Farnsworth Electronics Co., to WOWO Fort Wayne, Ind., as publicity director. Margaret A. Mattes, continuity-production departments at WKJG-TV Fort Wayne, to continuity department of WOWO.

John Burt, theatrical publicist, to WPAT Paterson, N. J., as publicity-promotion director.

Palmer Payne, announcer, WFEA Manchester, N. H., appointed program director succeeding Al Rock, resigned. Chris Nikitas, WEIM Fitchburg, Mass., named news director for WFEA.

Bob Voss, KGNB New Braunfels, Tex., to KHOME Hannibal, Mo., as news director. He succeeds Bob Dixon, resigned to enter service.

Lutz Winkler, film director at KOMU-TV Columbia, Mo., to KSBW-TV Salinas, Calif., in similar capacity. Ralph Castberg, formerly with KNSS Hanford, Calif., and Glenn Edwards from KIVA-TV Yuma, Ariz., to KSBW-TV announcing staff.

Mrs. Waldo Latham Norris appointed social and civic affairs director for WMBR-TV Jacksonville, Fla.

John Crocker, formerly sales manager of WTVP-TV Decatur, Ill., to WCKT (TV) Miami sales staff.

John J. Larish, Shaker Heights Auto Sales, Cleveland, to KYW-TV, same city, sales staff.

Dick Ross, Peoples Natural Gas Co., Pittsburgh, joins KQV, same city, sales staff.

John S. Ettelson, announcing-sales staff of KPTV (TV) Portland, Ore., to KGW-TV, same city, sales staff. Larry Caramella, KKL, announcer to KGW-TV as operational crew chief, and Connie G. Worth, KGW, named co-host of KGW-TV's Telerama.

Bill Beals, KABC Los Angeles, sales department, to KFI, same city, in similar capacity.

Kenneth E. McKorkle to KMAU (TV) Wailuku, Hawaii, satellite of KGMB-TV Honolulu, as transmitter technician.

Rudy Ruzicka, engineer, KXOK St. Louis, father of girl, Karen Marie, Nov. 24.
TOP SYLVANIA AWARDS TO CBS, NBC

- Best tv play honors shared by 'Requiem,' 'Night'
- Networks get both praise, criticism from judges

PRAISE and criticism for the tv networks were coupled in the presentation at a dinner Thursday in New York of Sylvania Television Awards to 29 winning programs and performers.

Two tv plays, "Requiem for a Heavyweight" (Playhouse 90 on CBS-TV) and "A Night to Remember" (Kraft Television Theatre on NBC-TV), shared honors as the "outstanding" tv plays; "Requiem" as an original and "A Night" as an adaptation.

NBC President Robert Sarnoff was honored for "an outstanding contribution to music on television," based on NBC's presentations of the musical, "The Bachelor" and Opera Theatre. More than 400 persons in tv, motion pictures and on the stage attended the awards ceremonies at the Hotel Plaza.

Don Ameche was master of ceremonies, and speakers included Don Mitchell, chairman and president, Sylvania Electric Products, and Deems Taylor, chairman of the judges committee.

The mixed commendation and condemnation came from these awards judges who praised the networks for their coverage of the national political conventions last summer but criticized them for "inadequate attention" given to United Nations discussions on the Middle East fighting and the Hungarian crisis.

Awards to memory:
- Outstanding original teleplay—"Requiem for a Heavyweight" (CBS-TV, Playhouse 90).
- Outstanding television adaptation—"A Night to Remember" (NBC-TV, Kraft Television Theatre).
- Outstanding performance by an actor—Jack Palance in "Requiem.
- Outstanding performance by an actress—Gracie Fields in "Old Lady Shows Her Medals" (CBS-TV, U. S. Steel Hour).
- Outstanding performance by a supporting actor—Ed Wynn in "Requiem.
- Outstanding performance by a supporting actress—Joan Loring in The Corn is Green (NBC-TV, Hallmark series).
- Outstanding comedy show—Ernie Kovacs Show (NBC-TV).
- Outstanding production—"A Night to Remember.
- Outstanding television adaptation—"A Night to Remember.
- Special award, for outstanding contribution to music on television—Robert Sarnoff, NBC president.
- Outstanding serious musical series—NBC Opera Theatre.
- Outstanding light musical production—"The Bachelor" (NBC-TV).
- Special award, for political convention coverage—ABC.
- Outstanding new series—Kaiser Aluminum Hour (NBC-TV).
- Outstanding dramatic series—Kraft Television Theatre (NBC-TV).
- Outstanding variety show—Ed Sullivan Show (CBS-TV).
- Outstanding documentary—Project XX (NBC-TV).

Outstanding human interest program— "The Long Way Home" (NBC-TV, Robert Montgomery Presents).

Outstanding network educational series— Omnibus (ABC-TV).

Outstanding local educational program— Journey, KNXT (TV) Los Angeles. A special citation was voted to WKNX (TV) Memphis for Streamlined Reading.

Outstanding network public service program—Out of Darkness (CBS-TV).

Outstanding local public service—to WPIC (TV), New York for its United Nations coverage over many hours during crucial UN debate on the Middle East. Special citations were voted in this category to WAAM (TV) Baltimore for Desegregation— Baltimore Report to VTWJ (TV) Miami for Bumper to Bumper, a traffic study, and to WBRC-TV Birmingham for Third Side, the effect of a strike on a community.

Outstanding network news and special events—See It Now (CBS-TV).

Outstanding local news and special events—Deadline, KOMO-TV Seattle. A special citation to WPIC (TV) New York for its coverage of the Andrea Doria sinking.

Outstanding network children's program—Captain Kangaroo (CBS-TV).

Outstanding local children's programs—Boys' Brother, Bob Emery, WPTF-TV Boston. Citation to KTRK-TV Houston for Phenomena, a study of nature's wonders.

Outstanding network women's show—Maine Theatre (NBC-TV).

NORMA GILCHRIST, KTTV (TV) Los Angeles personality, receives the 1956 Grocery Manufacturers of America Inc.'s "Life Line of America" award from GMA President Paul S. Willis in New York. She was honored with a silver replica of the London Bowl for her series on the Pacific Coast tuna fishing and canning industry. KTTV General Manager Richard A. Moore received a bronze citation for his participation as management. Julie Benell, WFBA-TV Dallas, Irene Lindgren, WFBM-TV Indianapolis, and Clara Home, KELO-TV Sioux Falls, S. D., were awarded certificates of honor.
Edison Awards Made; Lack of Science Hit

SCARCITY of science programs on radio and television networks was stressed by speakers at the annual dinner of the Thomas Alva Edison Foundation Inc. in New York last week, during which 1956 Edison Foundation National Media Awards were presented for television, radio and films.

George E. Probst, executive director of the foundation, announced that no award was made this year for "The Best Science Television Program for Youth" because the Television Committee on Recommendations, "alarmed at the scarcity of network tv science programs, recommended that more would be accomplished for encouraging science materials on television by not giving an award this year but by calling national attention to the dearth of science programming on tv instead."

Similarly, Dr. Joseph W. Barker, trustee of the foundation, told the group that the foundation's Radio Committee on Recommendations had asked him to make a public statement about the "virtual absence" of science material on radio today and to urge radio networks to "remedy this situation because of the need to increase sharply the number of young Americans seeking careers in the sciences and engineering."

The awards in television were made to NBC-TV's Wide World Wide World as "The Television Program Best Portraying America"; ABC-TV's Disneyland as "The Best Children's Television Program"; KRON-TV San Francisco as "The Television Station that Best Served Youth," with specific references to the station's Science In Action and Explorers of Tomorrow series.

Radio Winners Named

The awards in radio were presented to the CBS Radio Workshop as "The Radio Program Best Portraying America"; ABC Radio's No School Today as "The Best Children's Radio Program" and CBS Radio's Adventure In Science as "The Best Science Radio Program For Youth." WOWO Fort Wayne was named "The Radio Station That Best Served Youth" in 1956. A special citation was made to New York-owned WNYC for its recently-established Annual Science Seminar.

In addition to scrolls, the awards to KRON-TV and WOWO each carried an Edison Scholarship of $1,000 to be presented to a high school senior in each of the communities for use toward his college education.

Stauber Wins WWDC Contest, Free Trip to Inauguration

WILLIAM E. STAUBER, radio timebuyer for the Harvey-Massengale advertising agency, Durham, N. C., has been declared winner of the WWDC Washington "Name the Animals" contest. Mr. Stauber christened the Democratic donkey and the Republican elephant "Patience" and "Prudence." Mr. Stauber and his wife will receive an all-expense paid trip to Washington for the President's Inauguration (Jan. 19-21, 1957).

The six runners-up will be consoled by Emerson transistor pocket radios. They are James D. Curran, timebuyer, Ted Bates & Co., New York; Joe Awad, timebuyer, Dave Herman Associates, Washington; Jean L. Simpson, timebuyer, Doyle, Dane, Bernbach, New York; Philip Archer, chief timebuyer, Campbell-Mithun, Minneapolis; Lucian Chimene, timebuyer, J. Walter Thompson, New York, and Don Keller, timebuyer, Al Paul Lefont Co., New York.

Husing to Receive SBA Award

SPORTS Broadcasters Assn. announced last week that veteran sportscaster Ted Husing has been selected to receive the association's annual Graham McNamee Memorial Award. Presentation of the award to Mr. Husing, a sportscaster for 30 years and a founder of the association, will be made at SBA's annual dinner on Jan. 31 at the Hotel Roosevelt in New York.

AWARD SHORTS

NBC Marine Theatre was presented certificate of recognition by L. A. local of AFTRA for its achievements and for "breaking all employment records in tv history during the past year."

Narragansett Brewing Co., Cranston, R. I., received citation from Boston City Council for its "dramatization of true nature and menace of Communism" through its three-year sponsorship of I Led Three Lives.

Louise C. Carlson, general manager of WJWB New Orleans, received bronze trophy for "meritorious service" from City of Hope local charity project.

ABC-TV's Medical Horizons (Sunday, 4:30-5 p.m. EST) and its sponsor, Ciba Pharmaceutical Co., Summit, N. J., cited in Seattle by American Medical Assn., for having given "the American public new insight into the work and American medical doctor."

WDAS Philadelphia cited by Armstrong Assn. (Negro service organization), same city, for "its many activities on behalf of Phila. Negro community."

Johnnie Linn, KGNC-TV Amarillo, Tex., awarded certificate making him honorary Air Force recruiter. He is credited with increasing number of enlistments through his program, Double Trouble.

Agnes Law, CBS librarian for nearly 30 years, honored at special luncheon of New York chapter of Women in Radio & Television. John Highlander, assistant program manager, KPIX (TV) San Francisco, received Northern California Industrial Safety Society's 1956 Oscar Award for "outstanding contributions to accident prevention in Bay Area."
*New version, constructed without side tip.

RCA-6326 and RCA-6326-A, designed for use in TV film and slide cameras—both color and black-and-white—now feature MICRO-MESH.

Micro-Mesh substantially improves the picture quality of TV film cameras—even beyond present-day high-quality performance standards. Under continuous development for more than five years at RCA, Micro-Mesh eliminates mesh pattern in black-and-white or color TV without any need for defocusing.

Examples of RCA's leadership in the design and manufacture of superior-quality tubes for telecasting, these vidicons are available through your RCA Tube Distributor.

For technical information on these and other RCA camera tubes, write:
RCA, Commercial Engineering, Harrison, N. J.
CLOSE on the heels of CBS-TV's test use of its new Ampex video tape recorder for west coast rebroadcasting of the Doug Edwards News [CLOSED CIRCUIT, Dec. 3], NBC-TV last week bent every effort to get into operation with the three Ampex machines it also has bought but yet has to receive. Meanwhile, NBC Hollywood engineers and network executives were close by their TV sets each evening to monitor the CBS tape show and on Thursday admitted, "It looks pretty good."

Tom Sarnoff, director of production and business affairs for NBC Western Division, told Bt that engineer Jack Kennedy was going to the Ampex factory in Redwood City, Calif., Friday to expedite delivery of the three Ampex machines and expressed the hope they could be pressed into network daily rebroadcast service by the first of the year, possibly sooner. Two of the machines will be retained at NBC Hollywood and the third will be sent to New York.

Mr. Kennedy explained that if the machines were ready they might be shipped over the weekend and he hoped to have them in Hollywood by tomorrow (Tuesday) at least. He said it is more important, however, for the Ampex engineers to be confident that the units are ready to go and he would be willing to sacrifice several days' delivery to assure proper factory check-out.

CBS-TV reported last week that Doug Edwards' show was "the first use of magnetic tape for rebroadcast of a regularly scheduled television program." The Edwards show, which originates in New York, was received and recorded on tape at the network's Television City in Hollywood and then fed to west coast affiliates of the Columbia Television Pacific network.

**Timetable Not Yet Set**

A spokesman reported that no timetable for professional rebroadcast has been set as yet, with technicians at first acquiring a working knowledge of equipment. The path to be followed during the "break in" period most likely will be graduation from quarter-hour to half-hour shows and eventually to one-hour shows. Current plan is to build up to the rebroadcast via-tape of two shows each evening CBS-TV broadcasts from East to West, facing the time zone delay, about 18-20 hours weekly. Television City has two Ampex magnetic recording and playback machines installed.

West coast television engineers watching the Doug Edwards tapes last week noted on Monday that about five minutes of the program was marked by fine white lines due to "tape dropout," but that the condition was less noticeable Tuesday and almost eliminated on the Wednesday show. These fine white tracings were noted by a non-technical observer on the secret test Nov. 30 for the first minute of the program but otherwise the picture quality was far superior to normal film kinescope and to other observers appeared to be as natural as a live local origination on that particular receiver.

Last week's "tape-casts" were described by engineers to have the quality of the best 35 mm film programs now turned out by top Hollywood producers for network use and in addition had advantages over 35 mm film quality. They explained the contrast range of the tape is far superior to film and very much like TV in that the tape reproduces well the full range from black through the greys to white without the bloom and flare often found in even the finer films.

Tape dropout is caused by the texture of the magnetic material on the tape base, they explained, and is aggravated when the material is not evenly flowed onto the base at the manufacturing level. They reported that Minnesota Mining & Manufacturing, supplier of the video tape, has been giving particular attention to this problem and is said to be considering not selling the tape to broadcasters until each reel has been pre-run with program material and found clear.

CBS was the first network to order the Ampex Video Tape Recorder at the time of the NARTB convention last spring and hence was first to receive delivery. NBC came next on the list. It was learned by Bt last week that CBS Hollywood received its Ampex unit four weeks ago but the engineers had considerable difficulty bringing it up to broadcast performance, requiring Ampex technicians to make frequent trips to CBS Television City in Hollywood from the factory.

Meanwhile, NBC representatives last week predicted that black-and-white tape recording will do away with film kinescopes for west coast playback within another year and estimated that RCA's own color tape recorder development will be perfected and make obsolete the network's lenticular film development within another two or three years.

These estimates were disclosed at a meeting of the Academy of Television Arts & Sciences at NBC's Color City in Burbank (see following story).

**NBC Coast Color Plans Outlined for ATAS Tour**

"FIFTY-FOUR per cent of NBC-TV's total color programming is done from the West Coast, which is pretty good for a branch office," Tom Sarnoff, director of production and business affairs for NBC's west coast operations, last week told more than 600 members of the Academy of Television Arts & Sciences in an orientation program, entitled "Color is Here to Stay" at the network's color center at Burbank.

The ATAS members toured the NBC color facilities and heard a panel of NBC executives detail the progress of color tele- vision on the American scene. Mr. Sarnoff
outlined NBC's west coast color plans as follows:

1. The master plan for enlarging the color facilities in NBC's Burbank Color City calls eventually for 14 complete studios. There presently are four studios in operation.

2. Special color TV recording techniques will not obsolete color film as we know it today for many years.

3. Existing color tape techniques are not ready for use in filming productions as of today, but eventually these techniques will be used for pre-recording "live" color shows.

Jack Kennedy, liaison engineer for NBC's Pacific Coast Div., spoke on the lenticular system of recording color programs. He indicated that the present lenticular system would be obsolete in from two to three years with the perfection of a new RCA color tape process. Current work on black-and-white video tape will do away with existing black-and-white kinescope recording within a year, he stated.

Tom McCray, NBC vice president and general manager of o&0 KRCA (TV) Los Angeles, said that his station would convert in part to color after the first of the year. KRCA plans call for two color cameras and one film chain at an estimated cost of over $400,000. He further outlined the gradual conversion of all NBC owned and operated stations to color.

Ole Morby Appointed MBS' Business Mgr.

APPOINTMENT of Ole G. Morby, manager of station relations for CBS Radio, to the newly-created post of business manager of Mutual, effective today (Monday) was to be announced last Saturday by John B. Poor, MBS president.

The creation of the post was said to stem from the integration plans recently instituted by RKO Teleradio Pictures, under which the various divisions of the company (including MBS) will participate in merchandising exploitation-promotional efforts for their mutual benefit. As business manager, Mr. Morby will be responsible for the coordination of station clearances and of merchandising and promotional campaigns and also will serve as sales liaison between Mutual's affiliates and the parent company's sales organization, RKO Teleradio Pictures Inc.

Mr. Morby had served CBS for 14 years, holding such posts as station relations director for the western division, national sales manager for the network-owned KNX Los Angeles and manager of Spot Sales for the San Francisco and northwest areas. Earlier he had been with the San Francisco office of McCann-Erickson in various research and media posts and as assistant to the general manager.
George Crandall Resigns
CBS Radio Press Post

GEORGE CRANDALL, director of press information for CBS Radio, has resigned, effective at the end of the year, after 17 years with the CBS organization.

He was director of press for CBS from Nov. 30, 1942—the title originally was publicity director—until CBS split up its radio and television operations some five years ago, when he became director of press information for CBS Radio.

Mr. Crandall joined CBS in 1939 after service primarily in the music business but also including a period as manager of WIBX Utica, N. Y. His first assignment was to take the New York Philharmonic on tour. In all, he spent the first three and a half years of his tenure "on the road" for CBS, rising to assistant director of publicity two years before he was named director.

He declined to discuss future plans at the present time. His successor has not been selected.

'Playhouse 90' Now SRO

CBS-TV's prestige dramatic series, Playhouse 90 (Thursdays, 9:30-11 p.m. EST) became sold out last week with Philip Morris Inc. sponsorship of 10-10:30 p.m. segment for Marlboro cigarettes, which had been indicated earlier [BT, Nov. 12]. Leo Burnett is the agency. Other Playhouse sponsors are American Gas Assn., through Lennen & Newell; Ronson Corp., through Norman, Craig & Kummel; Singer Sewing Machine Co., via Young & Rubicam, and Bristol-McQuay, through BBDO.

ABC Radio Reports Signing Pacts Totaling $2.5 Million

SIGNING of three additional year-long contracts by advertisers on ABC Radio is being announced today (Monday) by George Comtois, national sales manager of ABC Radio. He reported that five such 52-week pacts have been signed by the network in the past four days, totaling more than $2.5 million in business for 1957.

Advertisers renewing sponsorship for 1957 of Don McNeill's Breakfast Club (Mon.-Fri., 9-10 a.m. EST) are Bristol-Myers Co. (Buffflerin), New York, through Young & Rubicam, New York, for the Monday and Friday, 9:40-9:45 a.m. EST portions and the Wednesday, 9:35-9:40 a.m. period, and General Foods Corp. (Calumet Baking Powder), White Plains, N. Y., for the Tuesday, 9:25-9:30 a.m. segment.

The third 52-week contract renewal was signed by the Assemblies of God, Springfield, Mo., for Revival Time (Sun., 10:30-11 p.m. EST). The agency is Walter F. Bennett & Co., Chicago.

Other recent signers of 52-week contracts on ABC Radio have been the Allstate Insurance Co. and Dow Chemical Co.

NBCTo Cover 'Roses' Parade

TELEVISION coverage of the 68th Tournament of Roses parade in Pasadena, Calif., will be presented by NBC-TV for the sixth consecutive year on Jan. 1, it was announced last Thursday by Alan W. Livingston, vice president in charge of television network programs for NBC's Pacific division. Minute Maid Corp. through Ted Bates & Co. and Florists' Telegraph Delivery Assoc. through Grant Adv. will sponsor the two-hour show.

During the early minutes of the telecast, Jimmy Wallington, veteran Rose Parade announcer, will interview celebrities and parade personnel in the formation area on Pasadena's Orange Grove Ave. This portion of the program, a new feature of parade coverage, will be seen in black-and-white only. When the parade reaches Colorado Street, Anne Jefferys and Robert Sterling will handle the commentary and the network will begin telecasting in both black-and-white and color.

NBC has assigned technical coverage of the event to two parade-wise production experts. William Kayden will produce the program and William Bennington will direct, marking their fifth year as a team at Pasadena. Mr. Kayden will direct four color cameras for the parade, linked to NBC's mobile color units (two 20-ton trucks). For spot interviews with celebrities, Mr. Kayden will use the ultra-portable "creepie peepie" TV camera used to give viewers intimate glances at floor activities during the recent political conventions.

CBS-TV Slates Three Hours
For Yearend News Programs

A THREE-HOUR block of time will be devoted on Dec. 30 by CBS-TV to a special review of the year's most important news events and science stories.

The Sunday afternoon year-end programming plan was announced Wednesday by Sig Mickelson, CBS vice president in charge of news and public affairs. Each show will be an hour long and titled separately: The New Frontier (3-4 p.m.), The Big News of '56 (4-5 p.m.) and Years of Crisis: 1956 (5-6 p.m.) Years of Crisis has been an annual CBS year-end event for the past seven years.
Paul Kesten Dies After Long Illness
PRIVATE funeral services for Paul W. Kesten, 58, radio-tv pioneer and former executive vice president and vice chairman of the board of directors of CBS, was held in Great Barrington, Mass., last week. Mr. Kesten died Tuesday in Great Barrington after a long illness.

He joined CBS in 1930 as director of sales promotion and was elected a vice president in 1934. In 1937 he became a member of the CBS board and in 1942, he was advanced to CBS vice president and general manager. In October 1943 Mr. Kesten was elected executive vice president of CBS and in January 1946 was appointed vice chairman of the company's board of directors. He resigned from CBS because of ill health in August 1946, continuing with the network as a consultant until his death.

During World War II, Mr. Kesten was a co-founder and director of the War Advertising Council, which later became the Advertising Council. From 1942-44 he was a director of the National Assn. of Broadcasters. Mr. Kesten also was chairman of the executive committee of Cinerama Productions from 1952 to 1954 and until his death was a director of Cinera Inc. and of the Free Europe Committee Inc.

Mr. Kesten was credited with having played a large part in the early growth of radio and, subsequently, in the development of tv. He was an active participant in the original development and introduction of the first major system of color tv, according to a CBS spokesman. Mr. Kesten also is credited with having brought Dr. Peter Goldmark, now CBS Labs president, into the Columbia organization.

Before joining CBS, Mr. Kesten had been in advertising in Chicago and Milwaukee.

He is survived by his wife, Mrs. Joanne Kendall Gardner Kesten of New York.

KARD-TV to Become NBC Basic
KARD-TV Wichita, Kan., will become a basic must buy affiliate of NBC-TV on Jan. 1, 1957, according to William J. Moyer, executive vice president and general manager of the station. The ch. 3 outlet has recently completed a new $1 million physical plant equipped for live color casting and color film processing. KARD-TV initially affiliated with NBC-TV last spring.

'Tonight' Plans Format Change With Departure of Steve Allen
A CHANGE in the format of NBC-TV's Tonight show is planned for mid-January. This will be in line with Steve Allen's leaving the show in which he has starred for the past two years. Mr. Allen will devote his
time to his Sunday night show on the network.

On the planning board is a format featuring three newspaper columnists. From the origination points of New York, Chicago and Hollywood, the columnists will report on theatrical events, movie premieres, night club openings and spot news developments. The program is on a Mon.-Fri. schedule, beginning at 11:30 p.m., and seen for 90 minutes or 60 minutes, depending on the area in which it is carried.

**KGW to Join ABC Radio**

AFFILIATION of KGW Portland, Ore., with ABC Radio effective Dec. 17 was announced Thursday by Edward J. DeGray.

KGW-TV's affiliation with ABC-TV that same day had been announced earlier this year. Both stations are owned by the Pioneer Broadcasting Co. of which King Broadcasting Co. (KING-AM-TV Seattle, also ABC affiliates) is majority owner. Gordon W. Orput is president of the stations; A. Scott Bullitt is executive vice president, and John E. Eichorn is KGW's station manager.

**NETWORK PEOPLE**

Roland Van Nostrand, sales account executive, Esquire Inc., N. Y., to ABC-TV as account executive, succeeding Ed Bleier, resigned.

John Derr, formerly CBS director of sports and currently freelance sportscaster, father of girl, Marguerite, Nov. 18.

---

**GE Expects to Pass RCA in TV Unit Sales**

GENERAL ELECTRIC Co.'s aggressive sales climb in the TV receiver business this year was underscored last week by Philip D. Reed, GE's board chairman.

In a new conference in Chicago last week, Mr. Reed, who was on a field trip, confirmed that GE expects this year to top RCA as the leader in unit sales of TV sets (but not in dollar volume).

RCA, which has led the industry in unit and dollar sales in TV receivers since sets have been mass produced, maintained a discreet silence on Mr. Reed's claim.

RCA, however, privately concedes GE have moved up this year. But it still thinks it holds the leadership in unit sales. RCA realized about a $1.04 billion volume in the electronics field last year and expects to be over that mark this year.

General Electric's TV set line includes portables of 9-inch, 14-inch and 17-inch screen size; 21-inch table models and consoles and 24-inch consoles. In color, GE has a line of 21-inch tables and consoles. Much of the impetus to GE's sales has come from its portables.

GE's spurt in sales has been measured by company sources as being tremendous since 1952. Actual percentages vary, some spokesmen placing the industry unit volume increase since that year at 17%, with GE's at 135%, while GE sales officials reportedly have been telling store executives of a 192% rise compared to an industry-wide 13% increase.

At the news conference, Mr. Reed made no claim as to increases over past years.

**17% Greater Contrast Shown In New Westinghouse Tube Gun**

WESTINGHOUSE ELECTRIC Corp. has developed a new TV picture tube gun which it claims has a 17% improvement in contrast over conventional black-and-white.

According to R. T. Orth, vice president and general manager of Westinghouse's electronic tube division at Elmira, N. Y., the new development—called "low G2 gun"—permits designers to use grid 2 voltages of about 110 volts, instead of the normal 300 volts now required, with "no additional complications to set design." The new development will not increase the tube's cost and should be in production sometime after the first of the year, according to Mr. Orth.

Westinghouse intends to incorporate the design in 14-in., 17-in. and 21-in. screen sizes.

**Sylvania to Unveil 1957 Models**

THE radio and television division of Sylvania Electric Products Inc. will hold two distributor meetings during December to introduce the company's new radio, television and high fidelity models. The first meetings will be held this Thursday and Friday in Phoenix with the second sessions Dec. 17-18 in Miami Beach.
8,079 FARMERS wrote to WIBW in one week

In response to a Safety Week program on WIBW, 8,079 farm homes in Kansas, Missouri, Iowa, and Oklahoma wrote us requesting safety flags for their trucks . . . just one more in a long series of proofs that WIBW DELIVERS THE FARM MARKET.

It was 1·2·3 IDECO towers...

With station after station it has been the same story of SATISFACTION in Ideco. Satisfaction with the service during planning, erection and inspection of every Ideco tower. Satisfaction with perfect tower performance resulting from Ideco's sound engineering and exacting fabrication. Satisfaction from the long service life and low maintenance cost recorded by Ideco towers.

That's a reputation of dependability you can trust! So, for your next tower, call on Ideco... your complete satisfaction is assured. Write Ideco, or contact your nearest RCA Broadcast Equipment representative.

GROWTH OF A STATION

JOB DATA:
Station WISH began operation in 1941 with two 470-ft Ideco radio towers. Ideco converted one of these towers for a TV antenna in 1954. In May 1955, Ideco completed the new 1,000-ft. tower from which WISH-TV now operates.

"Clear, sharp image reproduction...that's why we use G-E image orthicons in our own-design TV cameras!"

Says Earl Lewis, Chief Engineer, WTVJ, Miami.

"Our purpose in developing our own studio cameras at WTVJ was to give Miami viewers a picture with the highest possible quality. Audience enthusiasm proves we came up with superior equipment.

"To get the best camera results, we specify the best components. G-E image orthicons fit our quality specifications to a 't.' Their image resolution has plenty of detail—the picture is uniform in depth and shading—tube efficiency stays high through long hours of service.

"I'm told that really big resources of skill, manpower, and equipment were drawn on by General Electric to develop their Broadcast-Designed image orthicons. The tube's fine overall performance in our studio cameras certainly bears out this information!"

Your General Electric tube distributor has Broadcast-Designed image orthicons. For top-rating picture quality, for full-measure efficient tube life that means replacement dollars saved... phone your local G-E distributor today!

Tube Department, General Electric Company, Schenectady 5, New York.
TELEPROMPTER BUYS SHERATON TV INC.

ACQUISITION by TelePrompTer Corp., New York, of Sheraton Closed-Circuit Television Inc. from Sheraton Corp. of America, New York, was announced jointly last week by Irving B. Kahn, TelePrompTer president, and Ernest Henderson, Sheraton Corp. president. Financial terms of the transaction were not disclosed.

In the move, Mr. Kahn said, TelePrompTer acquires the services and personnel of Sheraton TV, which will operate as a division under the name of Group Communications. He added that William P. Rosensohn, executive vice president of Sheraton Closed Circuit Television, will join the new company as director of closed-circuit activities and that Robert M. Rosencrans, a vice president of the Sheraton closed-circuit subsidiary, also will become an executive of the Group Communications Div.

In commenting upon TelePrompTer’s entry into closed-circuit, Mr. Kahn said:

“Closed circuit has made remarkable progress to date, even though it has been in the developmental stage. It has lacked two essential components for full success, however. First, picture quality has not been up to the standards established by the motion picture industry, and second, it has been promoted as an interconnection service only.

“Manufacturers have answered the questions concerning quality. They have produced a picture that meets exacting standards. We believe that TelePrompTer, through its extensive and unique experience in group communications, can add another required dimension—professional service in staging the complete show; not only the interconnection but a full complement of equipment and supervision required for professional performance, including lighting, effects, staging and script control, providing a supervisory service at each local outlet.”

Mr. Kahn also pointed out that TelePrompTer’s recent association with the Western Union Telegraph Co. provides the company “with electronic and electro-mechanical personnel throughout the country” and will enable the Group Communications Div. of TelePrompTer “eventually to provide nationwide total service in depth in the field of group communications.”

He said the new division immediately will launch a program designed to expand and improve the Sheraton closed-circuit activities through the acquisition of new modern equipment recently developed for large screen projection. The engineering aspects will be supervised by H. J. Schlaffy Jr., TelePrompTer engineering vice president.

Sheraton Corp. entered the closed-circuit field two and a half years ago.

Storz Stations Engage Krick

THE FIVE Storz Broadcasting Co. radio stations have engaged Dr. Irving P. Krick Assoc., Denver, as weather consultants, effective Dec. 3. The Storz stations are KOWH Omaha, WDGY Minneapolis, WIB

Closed-Circuit Firm Organized in New York

FORMATION of a firm specializing in closed-circuit tv, Closed-Circuit Telecasting System Inc., New York, was announced last week by Fanshawe Lindsey, president of the new firm and former advertising executive of Fortune magazine. Other officers of the firm are Arthur D. Chotoe Jr., board chairman; William Rockefeller, secretary, and Charles B. Pearson, assistant to the president.

CCTS, with offices at 237 W. 54th St., New York (and with branches planned in Chicago and Detroit), plans to begin operating within the next two weeks and by January will be offering prospective clients big-screen color on a multi-city coast-to-coast mobile network basis. CCTS has ordered $250,000 worth of closed-circuit projector equipment from RCA, which will arrive in time for CCTS’ first all-color hookup next month. The firm also is acquiring black-and-white equipment which will allow it to combine color and monochrome in a 90-city hookup. RCA Service Co. will handle this new equipment in the field, both in operating and in servicing.

30,000 Salesmen Due Pointers Via Closed-Circuit Tv Sessions

BY MEANS of closed-circuit television, about 30,000 salesmen will view two “Tele-Sell Spectaculars” on Feb. 26 and March 5, 1957, during which top sales executives will discuss and demonstrate the most modern and effective selling methods. The event will be sponsored in 25 cities in cooperation with local sales executive clubs.

Each closed-circuit program will last 90 minutes and originate from New York. Facilities are being arranged by Sheraton Closed-Circuit Television, which was sold last week to TelePrompTer Corp. (see story on this page). Production will be under the direction of Walter Wanger, motion picture producer and president of Sheraton Tv, and Jim Handy, creator of sales development and training programs.

CBS Newsfilm’s Year-End Reports

CBS NEWSFILM, through its distributing organization, CBS Television Film Sales Inc., will offer as an extra service to its member stations two special 30-minute year-end reports on or about Dec. 15, it was announced last week by CBS Newsfilm Manager Howard L. Kany.

PROGRAM SERVICES PEOPLE

Jerome Medford, project director, W. R. Simmons, to Advertisert Research Inc., N. Y., in similar capacity. Michael Sandler and Virginia Davis have also joined company as assistant project directors and Jessie Lynes appointed national field supervisor.

TEAM UP WITH TRUSCON
for all types of towers...

Our staff of highly skilled engineers can offer you unmatched experience in tower design and construction. They’re responsible for many hundreds of towers that today are standing tall and strong in all parts of the world... on all types of topography... many in areas where extreme winds and weather conditions prevail. On the East Coast, for example, where hurricanes caused considerable destruction, every Truscon Tower remained proudly erect, with no damage reported... a tribute to Truscon’s technical “know-how” and craftsmanship.

Add to this Truscon’s modern and efficient manufacturing facilities, and you have a team that can produce exactly the tower you need... whether it be tall or small... guyed or self-supporting... tapered or uniform in cross section... for AM, FM, TV or Microwave Transmission.

To get your tower program started, just write or call your nearest Truscon® district office or “tower headquarters” in Youngstown. Our experts will be glad to discuss your problems or help in any way they can.

CBC Governors Board To Meet in Vancouver

POWER INCREASES for radio and television stations and applications for two new radio stations will be heard by the board of governors of the Canadian Broadcasting Corp. at its 103rd meeting Jan. 4 in the studios of CBU Vancouver, B. C. This marks one of the few meetings of the CBC board ever held in western Canada.

New radio stations are being requested at Amherst, N. S., by Amherst Broadcasting Co. Ltd. for 250 w on 1400 kc, and by Soo Line Broadcasting Co. Ltd., at Weyburn, Sask., for 250 w on 1340 kc.

Power increases will be asked by CHED Edmonton, Alta., from 1 kw on 1080 kc to 10 kw day and 1 kw night on same frequency; by CJVI Victoria, B. C., from 5 kw on 900 kc to 10 kw on same frequency; by CFOR Orlilla, Ont., from 5 kw day and 1 kw night to 10 kw day and 1 kw night on present 1570 kc frequency; by CKPR Fort William, Ont., from 1 kw on 580 kc to 5 kw day and 1 kw night on 580 kc; by CHUM Toronto, Ont., from 1 kw daytime on 1050 kc to 2.5 kw fulltime on same frequency; by CKAC Montreal, Que., from 10 kw day and 5 kw night on 730 kc to 50 kw on same frequency; and by CKBI Prince Albert, Sask., from 5 kw to 10 kw on 900 kc.

A change in frequency only is being asked by CKDM Dauphin, Man., from 1050 kc to 730 kc, keeping present power of 1 kw daytime and 250 w nighttime.

Six British Columbia stations are requesting a change in frequency to 1130 kc, five of them with power increases to 10 kw. CHWK Chilliwack wants to move to 1130 kc from 1270 kc and increase power from 1 kw to 10 kw; CKOV Kelowna, is requesting same power increase and shift from 630 kc; CHUB Nanaimo from 1570 kc with 1 kw; CKNW New Westminster, from 1320 kc with 5 kw; and CKLG North Vancouver, from 1070 kc with 1 kw. CKWX Vancouver, is asking for the frequency shift from 980 kc and power increase from 5 kw to 50 kw.

CJOB Winnipeg, Man., is requesting an increase from 250 w on 1340 kc to 10 kw on 730 kc. The station has been authorized to move to 680 kc with 5 kw daytime and 2.5 kw nighttime, but has not implemented this authorization.

CFPA-TV Port Arthur, Ont., has asked for an increase in power on ch. 2 from 5.1 kw video and 2.55 kw audio to 28 kw video and 15 kw audio. CFPA-TV also has asked for a change in ownership from Ralph H. Parker Ltd. to Thunder Bay Electronics Ltd.

Twenty stations are to present requests for share transfers at the Vancouver meeting.

Progressive-Conservative Party Charges CBC with Discrimination

CHARGES THAT the Canadian Broadcasting Corp. plans discrimination against the Progressive-Conservative Party's leadership convention at Ottawa Dec. 12-14 have been made. The Progressive-Conservative Party, Canada's official opposition party, is electing a new leader to succeed George Drew, who retired because of ill health. CBC will cover the three-day convention, but will not televise the keynote speech by Nova Scotia Premier Stanfield Dec. 12 at 9 p.m., when Kraft Theatre is on the tv network, though it will carry the speech on its radio network.

The political party stated that CBC carried all U. S. network political party conventions in detail, as well as the elections, at a loss of sponsored time. CBC claims that its coverage was settled with the party's officials a month ago; that it is telecasting three afternoon sessions and the evening session Dec. 13, and cannot now change its evening schedule to take care of the keynote address.

Aussie 1954-55 Radio Revenue Reaches Record $18.7 Million

TOTAL revenue of Australia's 106 commercial radio stations during the 1954-55 financial year was £6,686,924 (18,723,387.20), an increase of £1 million over the previous year according to the annual report of Australia's Control Board. Of the 106 stations, 95 made a profit, the report shows.

Although only four commercial stations have been started since the 1951 financial year, the industry's total revenue since that year (approximately $10 million) has nearly doubled, according to the board's figures. The board attributed last year's increase in revenue to both higher rates and an increase in the use of radio as an advertising medium.

Media Buyer Sold on Audit Bureau of Circulations

JIM LUCE
Associate Media Director
J. Walter Thompson
New York, New York

"Paid circulation, as measured by the Audit Bureau of Circulations, is the only measurement of reader interest and reader responsiveness. This is simply because paid circulation can only be built and maintained on people who want the publication enough to pay for it. If he loses interest or changes jobs he doesn’t renew. Paid circulation is self-purg- ing and the man who pays his money intends to read the periodical. This is the principle behind the Audit Bureau and it’s the sound way to buy space."

B&W is the only paper in the vertical radio-tv field with A.W.C. membership ... your further guarantee of integrity in reporting circulation facts. B&W, with the largest paid circulation in its field, is basic for subscribers and advertisers alike.

Tunnel to Outer Space

World's most powerful wind tunnel, lashing tomorrow's spacecraft with winds many times the speed of sound...

World's largest outdoor turbine, producing electricity for Atomic Energy Works at Paducah, Kentucky...

World's most completely automated plant, manufacturing automobile engines...

First successful diamond-making machine, with pressures up to 1,500,000 pounds per square inch...

These new challenges to man's lubrication know-how all have this one thing in common, SOCONY MOBIL's master touch in oil. It guards one of every six industrial wheels turning in the Free World, including more than half of all the big turbines (5,000 kilowatts and over).

Good reason! Men who depend on machinery depend on SOCONY MOBIL as a partner in its protection.

* * *

Wherever there's progress in motion—in your car, your plane, your farm, your factory, your boat, your home—you, too, can look to the leader for lubrication.

SOCONY MOBIL OIL COMPANY, INC.
LEADER IN LUBRICATION FOR 90 YEARS
Polish Government Suspends Jamming of Voice of America

THE Polish Government has suspended its jamming of Voice of America broadcasts after "frank discussion of the subject in the Polish Parliament," according to Abbott Washburn, deputy director of the U. S. Information Agency, VOA parent organization.

Addressing members of Sigma Delta Chi, national honorary journalistic fraternity, at the SDX convention's annual banquet in Louisville (Nov. 30), Mr. Washburn said a Warsaw newspaper announced ending of the jamming Nov. 23. Jamming in Poland cost the government $17 million, almost the same amount as the total VOA budget for its world broadcasts in the current fiscal year, Mr. Washburn said.

VOA had noticed a gradual diminishing of the jamming for several weeks, he said, adding that although members of the Polish Parliament are considered to be pawns of the Communist Government, "some of the deputies had the intestinal fortitude to rise on the floor of their Congress and decry against jamming."

He said that before the Polish cessation of jamming, the sum of $113,490,000 was spent yearly on VOA jamming in the Soviet Union, Poland, Hungary, Czechoslovakia, Rumania and Bulgaria. There is no jamming right now in Hungary, he said, "undoubtedly as a result of the current dislocation there."

He felt all this money is wasted because despite jamming in some localities, "the broadcasts still get through."

New Canadian Network Provides Link in National Microwave Chain

ANOTHER section of the national Canadian microwave network came into being Dec. 2 when the Maritime Telephone & Telegraph Co. and the New Brunswick Telephone Co. opened their network connecting stations in Canada's Atlantic Coast provinces.

Stations which now have their own regional microwave network are CBHT (TV) Halifax, N. S., CKCW-TV Moncton, N. B., CHSI-TV St. John, N. B., and CJCB-TV Sydney, N. S. These four stations will be linked with the national Canadian microwave network operated by the Trans-Canada Telephone System late next year when the microwave system will be completed between St. John, N. B., and Quebec City, Que. This will connect the Atlantic Coast stations all the way to Winnipeg, Man., and add CFCY-TV Charlottetown, Prince Edward Island, to the Atlantic Coast network as well.

VOA Director Larson Denies Charge of Inciting Hungarians

DENIAL that the Voice of America incited the Hungarian people to revolt against the Communists was made last Monday by Arthur Larson, newly-appointed director of the parent U. S. Information Agency, in an address before the Pittsburgh Chamber of Commerce.

Meanwhile, some 500 Hungarian-language tape recordings of broadcasts by Radio Free Europe's Munich station have been under study by the West German government since Nov. 12, in efforts to determine whether the private enterprise-supported station urged Hungarians to rebellion or helped prolong fighting there. A government spokesman said last week the study will be completed in 10 more days and that nothing so far has been found to support charges against RFE.

In his speech last week, Mr. Larson said charges that VOA incited Hungarians to revolt and promised military aid are being circulated in Hungary and elsewhere by the communist "propaganda machine" to "create distrust of America."

"The true fact," Mr. Larson said, "is that there was no such incitement." All Voice of America scripts are preserved, he said, and show that VOA "aimed only to present the facts of what was going on in the world, and to keep alive a spirit of freedom and hope."

During the uprising, Mr. Larson told the group, the Voice went on a 24-hour schedule, adding 39 live broadcasts in 14 languages to the satellites and the USSR. Reporters worked on 18-hour stretches, going home only for brief rests and then returning to studios.

RFE Says East German Station Promised Rebels Western Aid

IN AN announcement representing a new denial that it incited the Hungarian rebellion, Radio Free Europe stated that a communist radio station had identified itself as RFE and told the Hungarian anti-communists that western forces were coming to aid them.

RFE stated "it has become apparent that the Hungarian language broadcasts of several radio stations operating outside Hungary have been confused with Radio Europe transmissions to Hungary during the period of the uprising. Hungarian language broadcasts reporting the massing of western forces to come to the aid of Hungary were beamed to that country by the communist radio located in East Germany," it added.

CBC's Matthew Hallton Dies

MATTHEW H. HALTON, 52, chief European correspondent of the Canadian Broadcasting Corp. since 1945, died Dec. 3 in London, Eng., after an illness of several months. Prior to joining CBC he had been European and Washington correspondent of the Toronto Daily Star.

His first radio work was in 1938 when he reported on Munich in a trans-Atlantic broadcast to U. S. and Canadian networks. He joined CBC in 1943 as a war correspondent covering the European campaigns. He is survived by his wife and two children.

INTERNATIONAL PEOPLE

B. E. Legate, senior account executive of MacLaren Adv. Ltd., Toronto, Ont., to general manager of Asm. of Canadian Advertisers, succeeding Frank A. Healy, who has joined Seagram's Ltd., Montreal, Que., as public relations director.
Newer and more “dramatic” metals have lately taken the spotlight from prosaic yet versatile lead. But this heaviest of common metals is experiencing increasingly heavy demand. And lead is one of the many non-ferrous metals which Anaconda has long produced. Anaconda’s lead output last year was more than 67,000,000 pounds.

Main factor in the rising demand for lead is its special importance in storage batteries, essential in the trend to motorization on land and sea throughout the world. Other ever-growing uses for lead are in high-octane gasoline and the solders increasingly needed in the automotive and the electrical fields.

High construction activity also calls for more lead for paints, porcelain enamels and for sheathing power cables. A newer and rapidly growing use is in nuclear energy generation and radiation products demanding lead shielding or protective glass with up to 60% lead content. For all these applications and many more, lead is the preferred metal.

To keep pace with this growing demand, Anaconda is continuing to develop its lead resources and metallurgical research, along with its broadening activity in copper, aluminum, zinc, uranium oxide, a large number of by-product non-ferrous metals and fabricated mill products.

**NBC Adds 18 to 25-Year Club Bringing Total Members to 149**

CEREMONIES were conducted Wednesday at New York's Waldorf-Astoria Hotel for 18 NBC employees, a number that boosts the network's 25-Year Club membership to 149.

The new 25-Year Club additions are:

Jack Anderson, sound effects technician; Alfred W. Gamman, staff writer; press department; Francis G. Connolly, construction man in engineering; Albert W. Frey, supervisor of traffic operations; Thomas P. Gannon, copyright specialist; James Haupt, associate director; William S. Hedges, vice president of integrated services; Frank R. Heitmann, chief electrician, and Edward M. Lowell, manager of facilities administration.

Also: Walter L. Roe, master control engineer; Wilfred Snow, chief painter; Charles Townsend, manager of film-kine technical operations; Edna Turner, music lyric editor; George Voutsas, director; Edith C. Walmsley, copyright assistant; Hilda Watson, public service programs coordinator; Alfred E. Jackson, WBUP (TV) Buffalo, operations, and Carlton D. Smith, WRC-AM-TV Washington vice president and general manager.

- WJBW New Orleans celebrated 30th anniversary.
- ROGER WAYNE, WHLI Hempstead, N. Y., celebrated 31st year in broadcasting.
- ROGER BAKER, WGR-TV Buffalo, celebrated 29th anniversary in broadcasting.
- GEORGE WATSON, personality, WBBM Chicago, celebrated 20th anniversary with station.
- BILL BALANCE, KFWB Hollywood, celebrated 20th anniversary in broadcasting.

WTTV (TV) Bloomington, Ind., celebrated its seventh birthday with a special two-hour telecast. Original staff members presented owner Sarkes Tarzian with a plaque commemorating the seven years. On the birthday set are original staffers (l to r) Robert Petranoff, program manager; Robert Lemon, station manager; Carl Onken, chief engineer; Mr. Tarzian, Susan Sherman, copy and traffic director, and Biagio Presti, broadcast equipment sales division. Other first staffer not pictured during the festivities Nov. 11, are Glenn Van Horn, Mort Weigel, Charles Haines, Bob Young, Wendell Fuller and George Morel.
FOR MANY YEARS railroad spokesmen have vigorously contended that trucks "skim off the cream" of traffic. Just recently a widely distributed publication of a major rail line said: "Highway carriers skim off the cream. The fact that the average ton-mile revenue of highway carriers is approximately four times that of the railroads indicates the extent to which these carriers seek the higher rate type of traffic between important terminal points."

Does it?

Or does it, rather, indicate that the inherent qualities of truck transport—door-to-door delivery, dispatch, and lower loss and damage, among others—make truck service ideal for certain kinds of traffic which is basically high-rated?

Take less-carload business, for example. It carries the highest rates. Railroads are not geared to handle it physically, and historically they have lost money attempting to compete for this business—total annual losses running into millions of dollars out of pocket many years. Trucks physically are best able to handle this kind of traffic. Maybe you could call this "cream" for trucks but it is sour milk for railroads.

Or take coal, or any one of a dozen low-rated commodities. Railroads, again for inherent reasons, can haul this traffic and do very well indeed on the profit side. For them it would be "cream." Trucks, except in special situations, aren't as closely tailored to this kind of hauling as are the rails, and such traffic would not be "cream" for trucks.

Whether traffic is "cream" or not "cream" depends upon the shipper's needs and the carrier's ability to meet them efficiently and economically, not whether it is high-rate or low-rate traffic.

Moreover, each carrier's "cream" tends to rise to the top—carriers generally get that business which they can do the best job of handling.

AMERICAN TRUCKING INDUSTRY

AMERICAN TRUCKING ASSOCIATIONS, INC., WASHINGTON 6, D. C.

If You've Got It . . . A Truck Brought It!
WMAL-TV Installs Bowling Lanes

WMAL-TV Washington is planning to carry a live duck pin bowling show. The bowling alley is being installed in the station's studios. The two lanes will be equipped with automatic pin-setting machines and will cost approximately $25,000. Production plans call for three cameras, one mounted on a platform behind the bowlers, another mid-way down the alleys and the third at the positions taken by the official scorer and the announcer. The live telecasts will feature matches between the top bowlers in the metropolitan area. The station also plans on nationally known bowling champions for guest appearances.

Hold Elvis Presley Contest

RAY BRIEM and Paul Coburn, KLUB Salt Lake City, Utah, disc jockeys, featured a contest recently asking whether or not listeners liked Elvis Presley. Mr. Brien fought against the singer and Mr. Coburn was for him. They asked the listeners to send in their votes which were counted on the stage of a local theatre carrying Love Me Tender. It was reported that over 5,000 votes were counted and that Presley won by 35 votes. The losing disc jockey agreed to wear purple side burns for one week. A hound dog and a pair of blue suede shoes were presented to the listeners who had sent in the best letters as to why they liked Elvis Presley.

Transcribes French Programs

AN HOUR of French programming designed for students in that language has been initiated on WNIB (FM) Chicago, with emphasis on French culture and celebrities. The hour comprises Paris Star Time, a transcribed program from the French Broadcasting System, and The French Scrapbook, featuring novel tunes from France and celebrity interviews. Latter is conducted by Jacques Amram, instructor with Div. of Social Center, Chicago Board of Education and Berlitz School of Languages. Music and items of interest are announced in both English and French.

WSAI Signs for 1957 Football

WSAI Cincinnati and the U. of Cincinnati signed a contract covering radio broadcast rights for the 1957 U. C. football season. This marks the third consecutive year that WSAI has exclusive rights to the games and the sixth year that the broadcasts will be carried over the station. Sports Director Dick Baker will do the play-by-play, also for the sixth straight year.

Broadcasts from Jail Cell

IN ORDER to plug safe driving, KDAY Hollywood, made arrangements to do a day's broadcasting from a jail cell in the Beverly Hills police station. In addition to its regular features, KDAY invited music and motion picture personalities to make guest appearances on its shows to help plug the safe driving campaign.

'MISS KISSABLE'

NATIONAL publicity came the way of WARL Arlington, Va., via its "Miss Kissable of 1956" contest originated by Washington news correspondent Jock Laurence. United Press and International News Service both circulated wirephotos of "Miss Kissable," Jean Linck, to subscribers over the U. S. and UP's Harmon W. Nichols did a feature story on the contest.

Miss Linck's lips were selected as most kissable from over 5,000 lipprints mailed to the station.

Following several requests from other stations for permission to run their own contests, WARL is formulating plans to conduct a nationwide contest next year with the national finals in Washington.

Mr. Laurence first held a variation of the "Miss Kissable" contest in 1943 in Miami, Fla., but all rights now belong exclusively to WARL. The station has requested a copyright on the idea.

JEAN LINCK receives certificate from WARL Vice President and General Manager Ray Armand naming her "Miss Kissable of 1956."

WSAI Cincinnati and the U. of Cincinnati signed a contract covering radio broadcast rights for the 1957 U. C. football season. This marks the third consecutive year that WSAI has exclusive rights to the games and the sixth year that the broadcasts will be carried over the station. Sports Director Dick Baker will do the play-by-play, also for the sixth straight year.

Broadcasts from Jail Cell

IN ORDER to plug safe driving, KDAY Hollywood, made arrangements to do a day's broadcasting from a jail cell in the Beverly Hills police station. In addition to its regular features, KDAY invited music and motion picture personalities to make guest appearances on its shows to help plug the safe driving campaign.
Cost Reduction Engineering and Your Telephone

Barney Hitchcock as an engineer at Western Electric for the past 20 years has had many important assignments...on production engineering, time and motion study, cost reduction.

That latter objective—cost reduction—is particularly meaningful to you and the people in your community. For through it, Barney and hundreds of other Western engineers like him concentrate time and efforts on finding ways to make Bell telephone equipment at lower cost.

Just what effect does this have in your town? Simply this. Because we are a part of the Bell System—its manufacturing and supply unit—savings we make in our operations are reflected in the cost of furnishing telephone service. Such savings help keep down the cost of equipment your Bell telephone company buys from us.

It's one more reason why the cost of your local Bell telephone service has gone up so much less than most other things you buy.

WOLD Music Format Boosts Sales
CHANGE to a serious music format after
9 p.m. has taken WOL Washington into a
sold-out status for the daily three-hour pro-
gramming, according to Charles Dillon, WOL vice president. The seven-night-a-
week Good Music Time, with Paul Hume,
Washington Post & Times-Herald editor,
achieved this record in a little over a month.
The hours now yield three times their pre-
vious revenue. WOL adopted the good-
music format after WJMS Washington was
taken over by General Teleradio, with a
revision of the former musical schedule.

Distributes Toll TV Booklet
A NEW booklet claiming to present a cross-
section of views favoring subscription tv is
being distributed to trade by Zenith Radio
Corp. The booklet includes an accompa-
nying letter by Ted Leitzell, assistant to
the president of Zenith, and purports to in-
clude reproductions of letters sent to the
FCC and opinions of various individuals
and organizations, as well as newspaper clippings,
favorable to toll tv. In the letter, Mr. Leit-
zell notes that this "vital public interest issue" is
still to be decided in the wake of the re-
cent political elections.

Offers Record Premiums
MOTOROLA Inc. has announced a new
phonograph sales promotion campaign in-
volving record packages for tie-in premi-
ums. Four separate packages will be offered
to distributors for use with phonograph
sales. They include such recording labels as
Mercury, Decca, Columbia and London.

Programs & Promotions

WTRC Holds Open House
WTRC Elkhart, Ind., held open house last
month for all its sponsors and listeners in
celebration of the station's 25th anniversary.
Over 7,500 persons attended, touring the
station and its affiliate WSJV-TV. Morgan
Beatty was present to meet the visitors and
also took part in several memorial programs.

ABC Radio Programming Changes
THE Bobby Hammack Show, a new across-
the-board musical weekday series on ABC
Radio, will premiere Dec. 31. The time
period is still to be scheduled. In announcing
the new show, ABC also listed Jack Pear
Show (currently aired Mon.-Fri., 11:15-
11:30 a.m.) among its new program changes.
The show will be heard 15 minutes earlier,
effective Dec. 31. This move puts the You
and Your Marriage program with Dr. Paul
Popenoce in the 11:15-11:30 a.m. slot. The
Popenoce program is currently heard week-
days at 11:35-11:45 a.m.

Silver Tongue
HOW does the Italian-speaking popu-
lization of New York's metropolitan
area responded to offers programmed
in that tongue? WOV, a foreign lan-
guage station, airng 10½ hours of
Italian daily, has an answer. General
Manager Ralph N. Well points to the
following WOV results:

Gem Packing Co., which earlier in the
year offered purchasers of Gemma
Oil a special premium consisting of a
modest string of rosary beads, ex-
pected at best 700 requests, following
an insert of but six simple mentions on
its regularly sponsored show. Most re-
cent mail count: 8,105 pieces.

Buitoni Macaroni Co. conducted a
special promotion March through July
that required contestants to submit in-
serts found only in Buitoni packages.
The client, a 14-year-old sponsor of a
quarter-hour daily program, reported
that during the contest's 17 weeks,
more than $161,280 was spent by con-
sumers on 768,000 packages.

Progress Brand food products,
sponsor since 1949 of WOV's One Big
Family program, asked listeners to par-
ticipate in a contest requiring the pur-
chase of at least $12 worth of Pro-
gress products. Close to 11,000 lis-
teners took part, sending in coupons repre-
senting well over $130,000 in pur-
chases.
"I scan Ad Age in the office and read it thoroughly at home"

says JOHN P. CUNNINGHAM

President

Cunningham & Walsh Inc.

"Advertising Age is the one paper in the field that gives me a chance to get a complete and contemporary picture of the many-sided and fast-moving business of advertising. I think it is one of the most vital magazines in the field, and after scanning it in the office, I always take it home and read it thoroughly every week end."

For most of the important people in advertising and marketing today, Advertising Age is the editorial eye that gives 3-d perspective to this many-sided and fast-moving business. More than just a trade newspaper, Ad Age gives insight, shape and substance to advertising-marketing news, trends and developments—not only to those who activate, but to those who shape important market and media decisions.

Cunningham & Walsh, for example, rated among the top 17 agencies in broadcast advertising last year with a radio-tv billing of $17,000,000* (total billing—$47,800,000). Among its clients are such important broadcast advertisers as American Telephone and Telegraph Co., J. A. Folger & Co., and Sunshine Biscuit, Inc. During the first six months of 1956, these three advertisers alone placed a total expenditure of $3,385,100 in just spot tv.**

Every week, 58 paid subscription copies of Ad Age get read in the homes and offices of important C. & W. executives. Further, each of the three advertisers mentioned above are paid-subscribers to AA, with numerous subscription copies getting read, routed and discussed among their advertising and other management executives.

Add to this AA's 35,000 paid circulation, its tremendous penetration of advertising agencies with a weekly paid circulation currently reaching over 10,000 agency people alone, its intense readership by top executives in national advertising companies, its unmatched total readership of over 131,000—and you'll recognize in Advertising Age a most influential medium for swinging broadcast decisions your way.

ABC Offers Mood Music Record
ABC-PARAMOUNT, recording division of
American Broadcasting-Paramount Theatres
Inc., and the Mennen Co., Morristown,
N. J., have effected a tie-in whereby the
former will release a new mood music rec-
cord, "Music for Expectant Mothers." A
four-color photograph that appears on the
recording will be used in a special Mennen
Baby Products print advertising campaign
with the copy to be seen in Life, Good
Housekeeping, True Story and Modern
Romances. Grey Adv., Mennen's agency, is
planning a housewife sandwiching campaign
with disc jockeys and women editors. To
aid in selling the record, Mennen, which
will join S. C. Johnson & Son as co-sponsor
of the Robert Montgomery Presents program
on NBC-TV next January, will feature spe-
cial color commercials built around the
photograph.

WCKR-WCKT (TV) Momento
A SILVER colored key chain was the me-
mento of the dedication of Biscayne TV
Corp.'s WCKR and WCKT (TV) in Miami.
The front has an artist's engraving of the
studios and the back gives the station's call
letters.

ABC Promotes 'Color Radio'
"COLOR RADIO" is here . . . and ABC's
got it! At least that's the story contained
in a pink tinted brochure issued last week by
ABC Radio's promotion department on be-
half of Park & Tilford (Tintex), the spon-
sors of ABC Radio's When a Girl Marries
and Whispering Streets. According to the
promotion piece, the two ABC Radio day-
time serials show "ten shades of stirring,
colorful . . . drama to emphasize the emo-
tional power" of the two programs. Con-
cludes ABC: "color radio beams it . . . and
puts it across."

CFAC Holds Music Discussion
CFAC Calgary, Alta., has a discussion
show on new records from a local music
shop. The program, Turn Table Round
Table, is aired every Saturday morning and
has a panel recruited from listeners who ask
to be on it. The panel, which changes every
week, gives its candid opinions on new
record releases played at the music shop dur-
ing the program.

RADIO TURNS TRICK
HOW radio moved hardware in Fres-
no, Calif., is told by Ed Ohanian,
owner of Palm & Shields Variety and
Hardware Store there, in his report to
Dave Maxwell, manager of KBIF
Fresno. Mr. Ohanian bought 85 one
minute and 30-second spots on KBIF
for $271 to promote a two-week sale.
No other advertising was used. Result:
"We realized a gross of over $8,000.
This was the biggest sale we have ever
had."

But radio's impact is emphasized by the
store owner's notation that the pre-
vious year he had spent $2,800 in a
local newspaper "with no apparent re-
sults. For the sale immediately preced-
ing our last one, we spent $1,800 in
Fresno newspapers. This sale extended
for three weeks and we realized only
$4,000 gross."

KWG's 'Pearl of Wisdom'
AS an introduction to KWG Stockton,
Calif., and its new owners, all major retail
stores in the city were visited by models
giving gift boxes to the owners or advertising
managers. A simulated pearl and a "pearl of
wisdom" testimonial by one of the station's
advertisers, a local jewelry firm, were con-
tained in the boxes. The businessmen
were also presented with a certificate of introd-
uction to KWG which entitled the holder to
10 spot announcements free if an order for
five or more spots was purchased at the
regular rate.

Magnavox Gives Christmas Record
AN I.p. recording of Christmas carols by
the Magnavox Chorus is being distributed to
dealers. It is to be given to the purchasers
of Magnavox hi-fi phonographs. The group,
made up of company employees and their
families, holds several first places in musical
contests. Included with the record is a book-
let telling about hi-fi, the chorus and the
history of the selections on the record.
Among the carols chosen for the record are
"Silent Night," "Jolly Old Saint Nicholas" and
"Joy to the World." Record contains 11 carols in all.

Page 122 - December 10, 1956

Broadcasting - Telecasting
Houses Mobile Unit in Bus
CKY Winnipeg, Man., has a complete mobile studio which is housed in a bus. The station has four cars and a station wagon as part of its mobile fleet, in addition to its "studio on wheels," to bring local community event programs to its listeners. The mobile studio is equipped with a shortwave transmitter to carry the program broadcast from the unit to the CKY transmitter or downtown studios.

Santa Claus Comes to Town
IN a special Christmas promotion, radio station WTOB arranged for Santa Claus to fly into the Winston-Salem, N. C., area via the station's "North Pole Special" plane. It was reported that a crowd of 3,000 gathered to welcome him. WTOB's mobile studio was on hand at the airport for the event.

WRCA's Radio Portfolio
WRCA New York has distributed copies of the WRCA Radio Portfolio to agencies and advertisers. The portfolio is made up of charcoal sketches of the station's personalities who are described as "some of the finest salesmen in N. Y." The promotion piece contains drawings of Bill Cullen, Tex and Jinx McGrady, Ken Banghart, Al "Jazzbo" Collins, Johnny Andrews, Bob Wilson, Ben Grauer and Jimmy Powers, among others and were drawn by Tom Allen.

Ziv Records Theme Music
ZIV Television Programs, N. Y., has announced that the theme music of its Highway Patrol film series has been recorded by Cyril Stapleton for London Label, marking the first tie-in between Ziv TV and a major recording company for a theme promotion.

WMT-TV Promotes New Tower
WMT-TV Cedar Rapids, Iowa, is distributing a ball of twine with an automatic dispenser to promote its new tower. On the top of the dispenser it says, "This string is 1450" ... more than one quarter mile ... in length. It's as long as our new tower is tall. (The tower is one of the three highest in the world.)" The sides of the dispenser give the call letters, mailing address and national representatives.

Better Balanced Music Programming
Merle Kimball, Prog. Dir. of KTOY-FM, Tacoma, Wash. writes:
"The SESAC Library and its bridges, moods and themes help give our radio service to the Puget Sound Area the distinctiveness and atmosphere of good taste we strive to have listeners associate with our type of program structure.

"And ... the quality of the SESAC discs is outstanding."
The SESAC Transcribed Library in spectacular sound costs as little as $1.50 a day for the complete library ... or ... may now be leased in sections at most nominal costs.

You, too, will definitely find it possible to obtain better balanced, top quality programming at low cost with the SESAC Transcribed Library... Write today for audition discs.

If you have 2 secretaries, a direct wire to New York, and a complete reference library... You Don't Really Need the Broadcasting Yearbook—
Marketbook
Otherwise you do (if you want to know the who, what, when, why, where, etc. of radio).

(Sneaky thought: Aforementioned item is also the sine qua non. the roux ensemble and the e pluribus unum for advertisers, which it's a pretty good idea for you to be one of. Publication date: Jan. 1, 1958. Deadline: Dec. 17, 1957.)

Allocations . . .

ACTIONS BY FCC

Deintermixture petitions denied.—By memorandum opinions and orders of Nov. 28 Commission denied petitions of 22 applicants to outstanding proposed rule-making in respective deintermixture proceedings, with Comm. Doerfer dissenting.

Hartford, Conn.; Providence, R. I.—By Travelers Life Ins. Co. (conditional grantee of ch. 3 WYTV Hartford to reconsider proposal in Hartford-Providence proceeding in Docket 11768; denial is without prejudice to Commission's right to consider contentions in instant petition in connection with comments in this proceeding; Outstanding, rule-making would make Hartford all-uhf by deleting only vhf ch. 3 and giving it to Providence, transferring only ch. 61 at EastHampton, Mass., to Hartford, and deleting chs. 7, 12, 14 and 61; Peoria, Rock Island, Ill.—By WMBD Television Co. (conditional grantee of ch. 8 WIL-TV Peoria, Ill.) and Piggly Wiggly Stores (Secs. 5-407, 5-408 of rules) to reissue license to Peoria-Rock Island proceeding in Docket 11768; denial is without prejudice to Commission's right to consider contentions in petition in connection with comments in this proceeding; also denied WIL-TV request for extension of time to file comments; Peoria, Ill.—By WMBD Inc. WMBD-AM-FM Peoria to sever proposal in Peoria case to assign ch. 31 to Peoria from deintermixture portion and to institute separate rule-making to assign ch. 31 to that area.

Springfield, Ill.; St. Louis, Mo.—By WMAY-TV Inc. (conditional grantee of ch. 3 WMAY-TV Springfield) to rescind proposed rule-making in Springfield-St. Louis proceeding in Docket 11747 or, alternatively, for consolidated evidentiary show case and formal rule-making proceeding denial is without prejudice to Commission's right to consider contentions in instant petition in connection with comments in this proceeding; also denied WMAY-TV request for extension of time to file comments. (Outstanding rule-making would make Springfield all-uhf by deleting its only vhf ch. 2, and giving it to either St. Louis or Terre Haute, Ind., or both, and adding chs. 38 and either 36 or 39 to Springfield in addition to its present chs. 58 and educational 68.)

Evansville, Ind.—By ch. 7 WTIV (TV) Evansville to withdraw outstanding rule-making in Docket 11747 which would make Evansville all-commercial uhf by removing present educational reservation from ch. 56, thus giving it to chs. 58, 59 and 68 for commercial use, and either make ch. 9 educational there or, as proposed in counter-filing, place that channel in Louisville, Ky., for commercial use; denial of instant petition is without prejudice to Commission's right to consider contentions thereof in connection with comments in this proceeding; also denied WTIV request for extension of time to file comments in that docket until 60 days after Commission releases its order establishing method for computing coverage data.

Elmira, N. Y.—By Veterans Bestg. Co. to reconsider proposal in Docket 11755 which would make Elmira all-uhf by eliminating only present vhf ch. 9 and adding chs. 36 and 35 as condition granted in previous rule-making proceeding; also denied Elmira's application for reconsideration of proposed rule-making proceeding; Elmira also made request for amendment of proposed rule-making proceeding to delete Exception 11.(b) in proposed rules. Announced Dec. 5.

South Bend, Ind.—By WSBV (TV) South Bend proceeding in Docket 11755 to reconsider proposal to assign ch. 36 to South Bend; denial is without prejudice to Commission's right to consider contentions in instant petition in connection with comments in this proceeding.

Knoxville, Tenn.—By ch. 7 WKEB-TV Knoxville to withdraw proposal for extension of time to file comments in that docket until 60 days after Commission releases its order establishing method for computing coverage data.

Elmira, N. Y.—By Veterans Bestg. Co. to reconsider proposal in Docket 11755 which would make Elmira all-uhf by eliminating only present vhf ch. 9 and adding chs. 36 and 35 as condition granted in previous rule-making proceeding; also denied Elmira's application for reconsideration of proposed rule-making proceeding; Elmira also made request for amendment of proposed rule-making proceeding to delete Exception 11.(b) in proposed rules. Announced Dec. 5.

Fresno, Calif.—By WCFN TV (conditioned grantee of ch. 2 WCFN Fresno) to reconsider proposal in Docket 11755 which would make Fresno all-uhf by deleting only vhf ch. 2, and giving it to Shamrock, transferring only ch. 69 to Fresno, and deleting chs. 16, 17, 18, 20, 21, 22, 23 and 69. Announced Dec. 5.

All stations proceeding in order of filing, to modify authorization of WCKY-TV on ch. 2 instead of ch. 12.

Boston, Mass.—By memorandum opinion and order Commission denied petition by ch. 2 WOKL-TV Quincy to delete ch. 71 from its authorization to operate a primary vhf channel thereon.

KSDK-TV St. Louis—By memorandum opinion and order Commission denied petition by ch. 7 KSDK-TV St. Louis to withdraw proposed rule-making proceeding in Docket 11747, but granted it permission to withdraw proposed rule-making proceeding in Docket 11743 in which it would make any change to this station.

AMCI TYPE 1046

Channels 7 through 13

Shown above is the five-bay array recently installed for Station WOHI, Channel 7, in Washington, North Carolina. BROADCASTING TELECASTING

THE BUSINESSWEEKLY OF RADIO AND TELEVISION

1735 De Sales Street, N.W., Washington 6, D. C.

FREE COPY DISCONTINUED

BEGINNING Jan. 11, FCC major decisions, initial decisions, memorandum opinions and orders and other significant rulings will be made available on a weekly basis from the Superintendent of Documents, Government Printing Office, Washington, D. C., the FCC has announced. The printed, weekly pamphlets, Federal Communications Commission Reports, to be published each Friday, will sell for $6.75 yearly, or about 15 cents per copy. Foreign mailing will cost $2 additional.

The Commission announced that after Jan. 11 it will discontinue furnishing the public and the bar with mimeographed copies of its decisions. However, copies of decisions will be immediately served on each party to the proceeding, posted in the Commission's Office of Reports and Information, and made available to the press regularly carrying FCC information.

The 1957 report has been assigned Volume No. 22. Annual bound volumes of FCC decisions are available at the present time to June 30, 1950. Volumes 15-21 will contain decisions through 1956 and will be printed as funds become available.

The decisions will still be announced when made, the Commission said.
**Antitrust Explosion**

WE DON'T understand the antitrust laws, a condition which seems also to afflict numerous lawyers in and outside of government. So we won't presume to judge whether there is sound legal basis for the government's suit against RCA and NBC.

The suit, which comes as a grotesque 30th birthday gift to NBC, is the first dealing with the relationship of networks to their affiliates. Its importance cannot be overestimated because a decision sustaining the government's contention would affect the whole broadcast economy. It is not a suit against NBC alone, because all network-affiliate relationships would be affected.

We must leave to the lawyers the discussion of the legal merits. RCA-NBC contends that the conflict is between two government agencies—the FCC and the Dept. of Justice—because the Philadelphia-Cleveland station exchange had been approved by the FCC as the responsible authority.

At least one ethical question was raised by the NBC-Westinghouse station exchange which was the root cause of the suit. The question is simply: Was a big guy bullying a little guy?

This question would be easier to answer if NBC, a manifestly successful subsidiary of one of America’s strongest corporations, had forced a station proprietor with no other resources to accept a deal the proprietor did not want. In such circumstances the weight of moral judgment would be overwhelming opposed to NBC.

But Westinghouse Broadcasting Co. also is a manifestly successful subsidiary of another strong corporation, Westinghouse Electric Corp. The contrast in size is not enough to equate NBC with the bulky and Westinghouse with the runt. It is difficult to make a moral judgment on this question.

The question will arise whether the FCC should have held a full-dress hearing on the transfer, particularly in the light of the rumors and innuendos that Westinghouse was not a willing trader. The FCC certainly held that since all essential facts had been presented on paper a hearing would have served no useful purpose and would simply have delayed what to them would have been an obviously favorable decision.

Trading in television properties has reached a high level in recent months. The factor of network affiliation is the most important single consideration next to acquisition of the license itself, running in excess of the value placed upon equipment and real estate.

If a test must be had, it is perhaps better to have the rules known now rather than at a time when the stakes will be infinitely greater, and the public interest as well as the private interest of licensees would be more severely affected.

**Jimmy Faces the Music**

THE revolt that is bound to beset every despot—whether international aggressor or tin-horn union politico—has engulfed the dynasty of James Caesar Petrillo, self-perpetuating president of the American Federation of Musicians. The move he feared most—court review of his conduct—has hit twice in recent weeks through suits filed by members of Local 47 of Los Angeles, seeking some $13 million in damages, growing out of the Petrillo "make-work" program.

More than that, some 32 million people who read the Reader's Digest last week got the Petrillo story in one piece in an enlightened article by Lester Velie, under the fetching headline "The Union That Fights Its Workers." The article brings out that 75% of AFM's 250,000 members make their living in occupations outside music, but get the benefits of the relief and welfare fund, largely derived from royalties paid by recording and film companies into the Music Performance Trust Funds.

Since the advent of television, Jimmy Petrillo has been content to leave broadcasters pretty much alone. He has been getting his bonus income largely from recording fees and latterly, the windfall he diverted from Local 47 members to the AFM trust fund derived from re-runs of old movies released in great volume for TV in recent months.

Because a dictator cannot stand still, it is hard to tell where Jimmy would move next if the money flow did not increase. Hence, the tests in the Superior Court of Los Angeles, taken by Local 47, are to be watched with interest by all victims of Petrillo aggressions.

If the court should hold that the performing musicians, and not the AFM trust funds, are entitled to the royalties, the Petrillo structure is bound to crumble, because there would be no further inducement for non-performing musicians to continue as card-carrying members. If the legality of the trust funds should, per chance, be sustained, then Congress—which has dealt harshly in the past with Petrillo's efforts to control the economics of broadcasting—will doubtless step in again.

Meanwhile, Jimmy will probably play a muted trumpet.

**Long Caught Short**

GOV. EARL LONG, emulating the power politics of his late brother Huey, set out to take news broadcasters on a Louisiana hayride last Tuesday but quickly discovered he didn't have enough horses. By flatly barring electronic reporters from any participation in a news conference, he started a fl ow of protests that forced him to back up a few hours later.

It isn't the first time a public official has interpreted the Bill of Rights in the light of his own fancy and it won't be the last, but there are few instances in the last two decades where broadcast newsmen haven't been allowed at least the right to report with pencil and pad on an equality with print-media reporters.

The big battle for broadcast equality has only begun. In Louisiana, Gov. Long retreated from his silly barricade by allowing radio- and tv-news admission to his conferences, but he still maintains a ban against use of the tools of their trade—microphone, recorder and camera. In this ad amant attitude he has distinguished, if befuddled, company in many of the federal and local courts as well as Speaker Sam Rayburn of the House of Representatives.

Gov. Long's little coup quickly failed. He's reputed to nurse a grudge against radio and tv because he is not photogenic and his salty language at legislative sessions presents him to the public in an unfavorable way.

**Towne, TASO, and Taxes**

IN Prof. George R. Towne, the Television Allocations Study Organization, formed under the aegis of the FCC by five groups interested in full utilization of the TV spectrum, procures the services of a well-backgrounded engineer to coordinate the research program. The program is to be financed entirely by private funds and the goal is to determine, by sound engineering means, the place of UHF in television allocations.

There is no way of determining how fast TASO will be able to move. It will be Prof. Towne's task to see that all areas of exploration and measurement are carried forward promptly and that the results will be fed to the FCC as soon as possible.

Meanwhile, we iterate our plea of last week. The first essential step toward relief of the TV allocations problem is non-technical. It is an all-out effort to have Congress remove the 10% excise tax on all-band tv receivers to make it economically feasible for manufacturers to produce such sets instead of vhf-only.
KSTP-TV SCORES UNPRECEDENTED DOUBLE VICTORY IN NEWS COMPETITION

For the first time in history, a single TV station has scored a clean sweep in the annual Radio-Television News Directors Association competition.

Here are the results for 1956:

OUTSTANDING TV NEWS OPERATION First place,

KSTP-TV

OUTSTANDING NEWS STORY TELEVISED First place,

KSTP-TV

Since 1948, when it became the Northwest's first television station, KSTP-TV has maintained one of the largest, most complete news-gathering-and-reporting operations in the nation.

We are proud that KSTP-TV's first entry in RTNDA competition has brought these awards to the vital Northwest market which KSTP-TV serves.
