CHANNEL 8 MULTI-CITY MARKET

closed circuit

WDAF-AM-TV NEAR SALE • Sale of WDAF-AM-TV by *Kansas City Star* to National Film Investments Inc., subsidiary of National Theatres Inc., one of nation's biggest motion picture exhibition companies, reportedly was in negotiation last Friday at price of about \$7.5 million. Elmer Roden, president of National Theatres, and Charles L. Glett, president of investment subsidiary and former CBS West Coast vice president and RKO Pictures chief executive, were handling negotiations with Roy Roberts, president of *Kansas City Star Co.* and associates.

Week ago Star Co. signed consent decree in civil antitrust suit agreeing to divest itself of stations "in reasonable time." Both stations are pioneers. Star Co. originally put stations on market at \$12 million last spring [CLOSED CIRCUIT, April 8]. Deal with National understood to be all cash or very close to it. At least one other sale fell through because of lack of cash.

GROUND RULES • Despite numerous attacks in Congress on FCC's "criteria"—or lack of same—in making tv grants, it remains for newest member of Senate to introduce legislation which would spell out just what Commission can and must consider. Sen. William Proxmire (D-Wis.) plans to introduce such a bill when Congress reconvenes in January. Senator thinks Commission sometimes "twists" its present standards to fit individual cases, and he feels there currently is no basis for appeal from Commission's reasons for favoring one applicant over another.

Another factor which Sen. Proxmire's bill would seek to remove from Commission consideration is "political pressures." Prime-mover behind legislation, and one of senator's chief supporters in special election to replace late Sen. McCarthy, is Madison Capital Times. Times has been outspoken in its charges that pressure brought by Sen. McCarthy and present administration caused it to lose out in battle for ch. 3 Madison [GOVERNMENT, June 10]. Sen. Proxmire has one man (Ph.D. candidate writing his thesis in field) working full time on proposed legislation.

MONTHLY ROTATION • New concept of network programming, in which weekly one-hour shows would be sponsored by four rotating sponsors—each advertiser responsible for one show every four weeks—has been conceived by Robert Foreman, vice president in charge of tv-radio for BBDO. He is cooperating with Oliver Treyz, vice president in charge of ABC-TV, on plan whereby concept would be instituted by ABC next year.

Subliminal perception is giving FCC trouble—and not only for obvious reasons (see story page 72). Gag around Commission last week was that after years of worrying about overcommercialization on radio and tv, FCC now has to decide whether undercommercialization is in public interest.

GIFT LIST • All three major networks—ABC, CBS and NBC—have now supplied Moulder investigating committee of House with full details on their social and business associations with members and staff of FCC in compliance with letter of Oct. 3, seeking data on purported "fraternizing" with FCC. It's presumed this data will not become public, if at all, until hearings begin before Moulder Committee on Legislative Oversight after Congress convenes in January.

Quest of Moulder committee investigators, headed by chief of staff and chief counsel Bernard Schwartz, is understood to have yielded sharply conflicting data. Where applicants have been successful in cases before FCC, testimony strongly favors Commission's method of operation. Diametrically opposite is true where disgruntled applicants are involved. View is widespread that committee is conducting inquisition rather than legislative inquiry to determine whether administrative agencies are subservient to Congress, as lawmakers contend they should be, or take their orders from executive branch, meaning White House.

24-HOUR NETWORK • With sales climbing, MBS plans shortly to take step toward becoming first network with round-the-clock programming. Network plans to extend broadcast day by two hours to 2 a.m., effective first of year. One reason: MBS newscasts on half-hour are sold out and extension will create two additional sales positions. Another: to provide extra service to West Coast Don Lee Network stations, expected soon to become affiliated directly with MBS [CLOSED CIRCUIT, Nov. 18; NETWORKS, Nov. 4].

Mutual will soon claim happy situation of having commercial time virtually sold out. Officials say multiple purchase by Sterling Drug Co. for its Fizrin analgesic, through Compton Adv., New York, leaves only few 20-second newscast adjacencies available through December. Fizrin buy, representing approximately \$60,000 net billing, includes participations in 8:05-30 p.m. mystery strip, 18 Gabriel Heater newscasts, 20 other five-minute newscasts and half of Bill Stern Sunday night sports show for four weeks. In addition, P. Loril-

lard Co. (Newport cigarettes) has signed for 236 20-second newscast adjacencies between Nov. 24 and Dec. 31, through Lennen & Newell. Newport deal represents about \$7,000 net.

SIMPLE PROBLEM • Mexican delegation met in Washington all last week with U. S. delegation, headed by FCC Comr. Rosel H. Hyde, on uhf allocations along Mexican international border. While no uhf's now are being used, Mexicans presumably desire to protect their position in anticipation of tv's growth or possible eventual move of tv to uhf. No conflicts are indicated because of availability of adequate number of uhf channels and because protection would not be required beyond couple hundred miles on each side of border. Conversations are expected to end sometime this week.

Continuing decline in aircraft employment in southern California, following cutbacks in military orders, has begun to force curtailments in advertising and layoffs in agency personnel. Los Angeles office of Foote, Cone & Belding, which handles advertising of both Hughes Aircraft and Lockheed Aircraft, has let 17 people go, probably largest layoff of any agency for this reason.

UNCLEAR CHANNELS • FCC again had its "clear channel day" last Thursday but did not come to conclusions on what to do about radio allocations problem that has confronted it for dozen years. But heat is on and Commission hopes to have action—probably looking toward rule-making—before Congress convenes next Jan. 7. Staff proposal before FCC does not provide for new high power status for any of clear channel stations in New York or Chicago, presumably on ground that they already cover vast population areas with 50,000 w.

Document before FCC on clear channel case contains suggestion that 12 of remaining 24 fully clear (1-A) channels be qualified for new 1-A status, which would mean minimum power of 500,000 w and maximum of 750,000 w (as against present maximum of 50,000 w). Dominant stations on these channels which would be eligible to go up to maximum, if this proposal were accepted, are: KFI Los Angeles, WOAI San Antonio, WFAA-WBAP Dallas-Fort Worth, KSL Salt Lake City, KMOX St. Louis, WHO Des Moines, WJR Detroit, WLW Cincinnati, WHAS Louisville, WSM Nashville, WSB Atlanta and WWL New Orleans. Other 12 1-As would become 1-Bs with present 50,000 w maximum.

WHEN-TV

MEREDITH
SYRACUSE
TELEVISION CORP.

Now Operating at Maximum Power of 316,000 Watts.

101 COURT STREET, SYRACUSE 8, NEW YORK

The hunting season is now open in Upstate New York. I hope you have your reservations in early for our lush Channel 8 cover.

Nimrods will be stalking our area from dawn until sign-off taking pot-shots at every availability that sticks its neck out.

Even the amateur scattershooters arrive expecting to get their daily limits. Last year a complete novice using a full-choked, single-barrel rate card bagged a brace of tender, ring-tailed minutes and a whole covey of juicy ID's his first time out.

Game experts from both Abercrombie & Fitch and Dun & Bradstreet claim that our local abundance of food and shelter give us as plush a preserve as exists anywhere.

Rich as this country is we do suggest that you hire a licensed guide. May I recommend Fred Menzies, our commercial manager, or the Katz Agency. Both know the territory well, have compasses and will travel.

Cordially,

Paul Adanti
Vice President

THE WEEK IN BRIEF

LEAD STORY

The Top 50 Radio-Tv Agencies in '57—McCann-Erickson, with a \$26.6 million increase over last year, becomes No. 1 with \$103 in combined billings this year. Annual BROADCASTING survey shows 1956 leader, Young & Rubicam, increased \$18 million, but winds up as runner-up with \$100 million. Kingpin in spot: Ted Bates with \$43.5 million. Page 27.

ADVERTISERS & AGENCIES

Radio-Tv in AAAA Spotlight—Broadcast media get heavy share of "allocations" for mythical cigarette in media-buying workshop at AAAA Eastern Conference. Tv and radio commercial production techniques explored in another session. Page 50.

The Morning After in Baltimore—Now that taxes totaling 6% against advertising media have been adopted, opposition moves to take battle to courts. Though pared from originally proposed 9½%, levies still represent a nearly \$2.7 million annual bite. Page 48.

GOVERNMENT

Greenlight to NTA—FCC approves National Telefilm Assoc. purchase of KMGM-TV Minneapolis, with only Comr. Bartley dissenting. Page 80.

Keep Tv's Status Intact—Assn. of Maximum Service Telecasters, filing in 25-890 mc inquiry, urges FCC to wait for TASO findings. Page 80.

FILM

Lots of Takers—NTA, United Artists and Paramount said to be contenders to purchase AAP; but NTA says it has contract signed. Meanwhile, word from AAP: nothing about a purchase, but many sales to stations to report. Page 88.

More Tv Filmmaking—Desilu Productions reportedly paying more than \$6 million to acquire California studio facilities from RKO Teleradio. Page 88.

NETWORKS

ABC-TV's Nighttime Goals—Network outlines plans to primary affiliates in Chicago meeting. Audience leadership by next April is objective. Page 56.

Salant Slams Barrow Report—CBS executive defends tv network practices, criticizes pay tv. He notes, however, that CBS will actively participate in toll system, if approved. Page 64.

The Impact of CBS-Owned Radio Outlets—Network releases findings of its survey that cites appeal and preference for CBS Radio stations. Page 60.

PROGRAM SERVICES

Movie Exhibitors Hit Pay Tv—Theatre Owners of America vote unanimously against both off-air and wired pay tv. Pledge to work for legislation to ban pay tv. Action taken at convention in Miami Beach. Page 66.

TRADE ASSNS.

The Tv Picture—Television Bureau of Advertising at Chicago membership meeting girds for 'storms' ahead. Page 95.

Catholic Bishops to Study Radio-Tv—Yearlong evaluation to be made prior to any decision on extension of Legion of Decency. Page 97.

STATIONS

Living-Room Labs—On-the-air subliminal tests are emerging from antennas. WLWO (TV) Bangor, Me., is sending invisible messages. Two radio stations are tinkering with low-level sound transmissions. And government people are adding a nice tint of reddish tape to electronic emanations. Page 72.

PROGRAM SERVICES

Another Snub for Toll Tv—Subscription tv in any form opposed by 96.6% of nearly 45,000 respondents to *Tv Guide* poll. Page 66.

MANUFACTURING

GE's New Color Camera—Pre-production model of smaller live color tv camera demonstrated at opening of WGY-WRGB (TV) broadcast center in Schenectady. Page 92.

OPINION

MR. MAHLER

The Clever Commercial Doesn't Always Sell—Too much of an effort towards ultra-sophistication, artiness or too much imitation of other sales messages, can make your commercial ineffective. These and other writing errors are cited by Myron Mahler, Emil Mogul Co., in this week's MONDAY MEMO. Page 121.

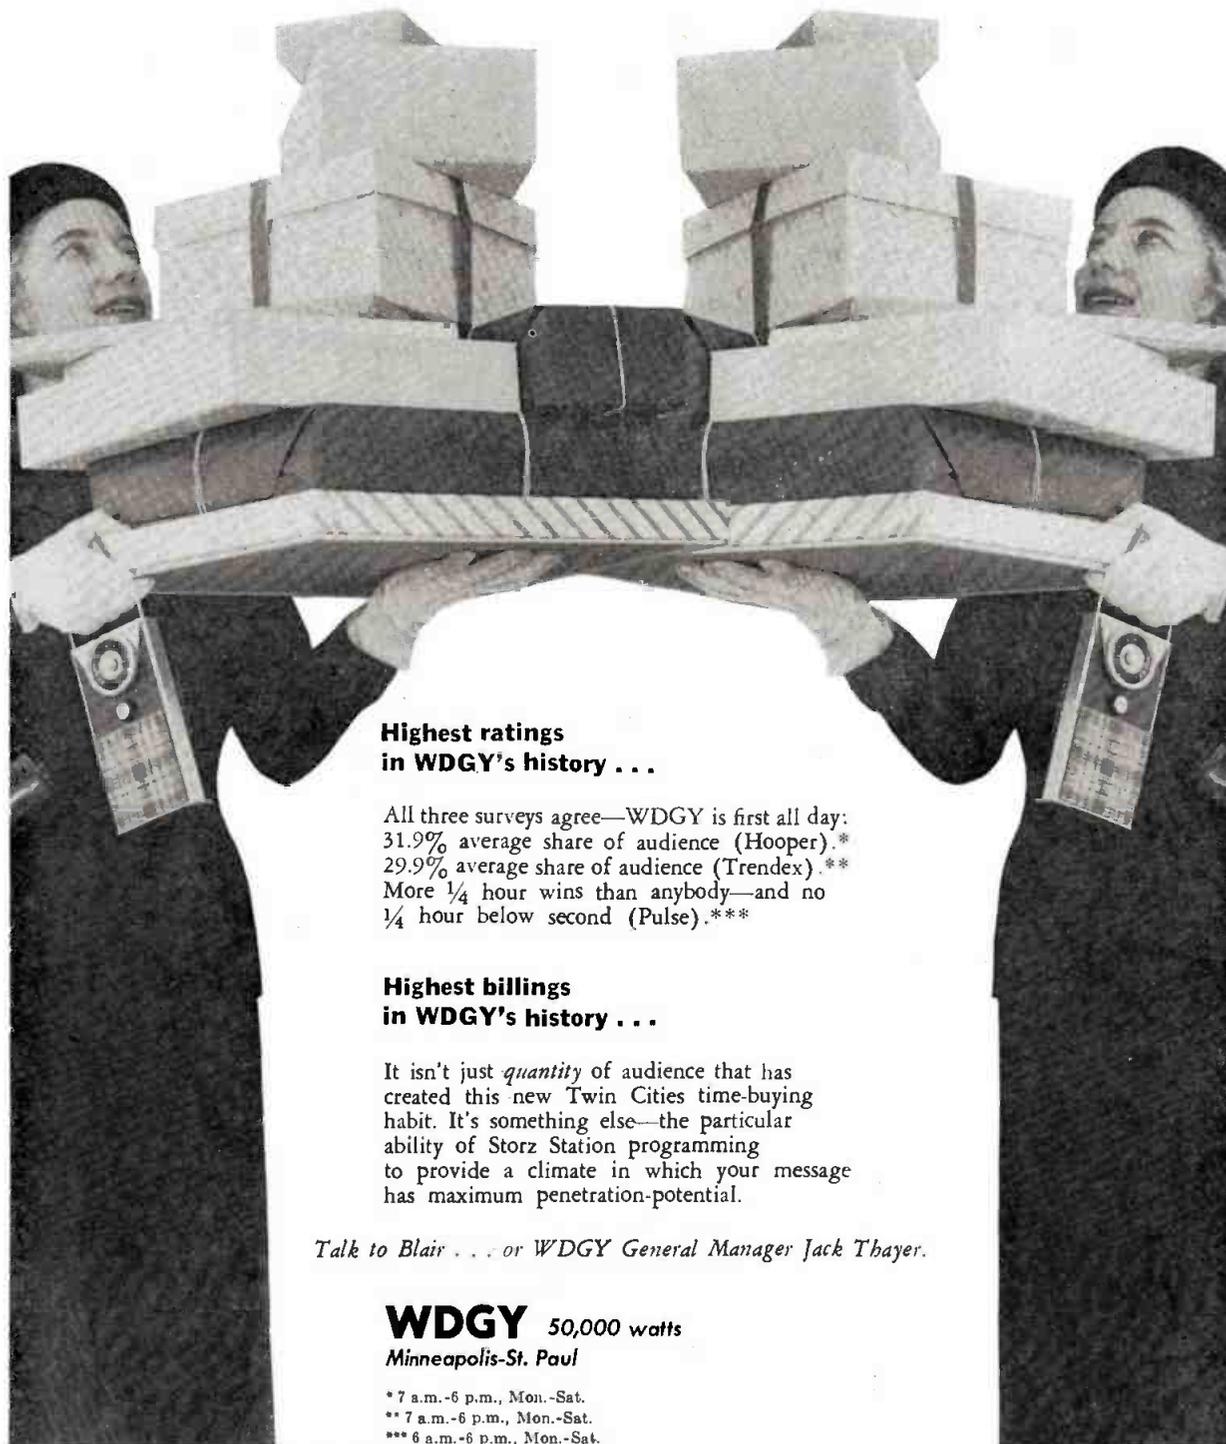

What Tv Is Meaning to Exhibitors—Eric Johnston, MPAA head, speaking to theatre men meeting in Miami Beach, outlines the facts of life insofar as television's effects are concerned. Page 70.

Twin highs in the Twin Cities . . .

**Highest ratings
in WDGY's history . . .**

All three surveys agree—WDGY is first all day:
31.9% average share of audience (Hooper).*
29.9% average share of audience (Trendex).**
More ¼ hour wins than anybody—and no
¼ hour below second (Pulse).***

**Highest billings
in WDGY's history . . .**

It isn't just *quantity* of audience that has
created this new Twin Cities time-buying
habit. It's something else—the particular
ability of Storz Station programming
to provide a climate in which your message
has maximum penetration-potential.

Talk to Blair . . . or WDGY General Manager Jack Thayer.

Formal Legal Action Started Against Baltimore's Ad Taxes

First formal legal counterattack against Baltimore's new taxes on advertising media gets underway today (Mon.). D. L. (Tony) Provost, vice president of radio-tv division of Hearst Corp., announced Friday suit would be instituted today in Circuit Court of Baltimore City to have new ordinances declared invalid (early story, page 48).

"Our counsel, Sherbow & Sherbow, have been instructed to carry the proceedings through all legal channels," Mr. Provost stated. Hearst Corp. publishes *Baltimore News-Post* and *Sunday American*.

Earlier Friday, William F. Schmick Sr., president of A. S. Abell Co., publisher of *Baltimore Sunpapers* (WMAR-TV), said that brief that would include plea for injunctive relief was being prepared. It is to be filed early this week.

Others are expected to join legal fray in opposition to twin taxes that will impose 4% sales tax on local advertising sales and 2% levy on gross receipts of advertising media. Taxes have been branded as discriminatory, harmful to Baltimore's economic status and threat to freedom of the press.

RCA Plans to Start Delivery Of Tv Recorders at End of '58

RCA is announcing today (Mon.) delivery of first production models of color and black-and-white tape recorders to begin December 1958. List price of color recorder has been set at \$63,000, with monochrome version to be available at same time to sell at \$49,500 list.

RCA late in 1958 will complete its present program of custom-building prototype units, seven of these already sold, six to NBC-TV for delivery to "Tape Central" in Burbank, Calif., and seventh to Jefferson Standard Broadcasting Co. for delivery in September at WBTB (TV) Charlotte, N. C. [AT DEADLINE, NOV. 19].

WB Moves to Buchanan & Co.

Switch of Warner Bros. pictures account—billing close to \$1 million—from Blaine-Thompson Co. to Buchanan & Co., both N. Y., was announced Friday and closely follows move by Warner to curtail internal advertising-publicity activities. Last month, WB pinkslipped some 45 advertising-publicity employes in both New York and Hollywood offices, an action that will go to arbitration tomorrow (Tues.) in New York between WB and Screen Publicists Guild. Buchanan since 1919 has serviced Paramount Pictures and in recent years also has added to client roster such accounts as AB-PT theatres and United Artists, in addition to individual theatres.

Sinatra Switching to Live Format To Bolster ABC-TV Show Rating

Network and agency will try to salvage slumping *Frank Sinatra Show* (ABC-TV Fridays, 9-9:30 p.m. EST) by telecasting Mr. Sinatra's half-hour musicals live instead of filmed. In joint announcement Friday, James T. Aubrey Jr., ABC-TV vice president in charge of programming and talent, and C. Terence Clyne, vice president, McCann-Erickson, New York, said this Friday's show (Nov. 29) will be live, and that starting Jan. 3 all musical programs featuring singer in series will be live.

Ratings and reviews of Mr. Sinatra's series on ABC-TV, which premiered Oct. 18, have been on steady decline, causing consternation of both network and agency. McCann-Erickson is agency for sponsor Chesterfield and also Bulova Watch Co. which is participating in several Sinatra programs this season.

To make room for live productions, series schedule has been juggled to permit already-produced dramas to be presented later in season. ABC-TV, which signed three-year contract with Mr. Sinatra last year, noted that star originally had wanted "to originate more live shows and to produce his shows before a live audience" but that motion picture commitments at time of contract signing did not permit more than two full-hour live shows in single year. Now, Mr. Aubrey explained, Mr. Sinatra has rearranged these commitments to permit additional live shows and production of musicals before live audience.

ABC-TV officials, meanwhile, told their affiliates at Chicago meeting that negotiations were in progress and near signing stage with Orson Welles to star in series for fall, 1958 (early story, page 56).

Increased Tv Activity Being Mapped by MGM

Metro-Goldwyn-Mayer's tv planning is crystallizing. New developments learned Friday: It has opened new London office that will have use of MGM's studios, facilities, people and equipment there for production of tv commercials to be offered on world-wide basis; MGM-TV officials will continue their discussions with ABC-TV executives with meeting set for tomorrow (Tues.) and looking toward use of MGM facilities for network shows; it plans to place three new tv film series in production, and will continue to lease its studio space and equipment at Culver City, Calif.

Three new series identified as *Jeopardy* (suspense series) to be co-produced with Andrew and Virginia Stone, husband-wife independent production team; anthology series using young Hollywood talent and tentatively titled *Young in Heart*, and comedy situation series, titled *Feminine Touch* and to star Ann Miller.

BUSINESS BRIEFLY

Late-breaking items about broadcast business; for earlier news, see ADVERTISERS & AGENCIES, page 27.

ENTERING TV FOLD • Van Raalte Co. (hosiery), N. Y., which has placed its advertising heretofore in print media exclusively, reported signing with NBC-TV for group of 12 participations on *Tonight* starting in March. Transaction would mark company's initial use of television. Agency: C. J. La Roche & Co., N. Y.

EDSEL IN RADIO SPOT • Edsel Div. of Ford Motor Co., Detroit, drives into three-week radio spot campaign in number of markets beginning Nov. 27. Foote, Cone & Belding, N. Y. and Chicago, is agency.

GUM SPOTS • Frank H. Fleer Corp. (Dubble-Bubble gum), Phila., understood to be readying eight-week spot tv campaign in major markets throughout country. Company said to be seeking availabilities in children's programs. Agency: S. E. Zubrow Adv., Phila.

MAYBE MORE • F. W. Woolworth Co., N. Y., to expand spot tv after first of year depending on outcome of test results in current campaign which resumes for two weeks after Thanksgiving in 33 markets. Lynn Baker Inc., N. Y., is agency.

KNICKERBOCKER NAMING • Jacob Ruppert Brewery (Knickerbocker beer), N. Y., which spends about \$1.5 million in overall advertising, expected to appoint Compton Adv., N. Y., as agency early this week. Ruppert was serviced by Warwick & Legler, N. Y.

Storer Vice President Kiggins Dies of Heart Seizure at 61

Keith Kiggins, vice president and administrative assistant to president of Storer Broadcasting Co., died of heart attack last Friday morning in his office at Miami headquarters of company. He was 61.

Mr. Kiggins joined NBC in 1933, became station relations director of its Red and Blue networks. After separation of networks, he stayed with Blue as vice president of station relations and retained that post with ABC after Blue was bought and renamed by Edward J. Noble. In 1948 he established own consulting firm. Ill health forced him to retire in 1950. In 1954 he re-entered broadcasting as administrative assistant to George B. Storer, president of Storer company, and last year was made vice president.

He is survived by wife, Dorothy.

at deadline

Chrysler, Lestoil Tell TvB How Television Raised Sales

Television has played "a considerable part" and contributed real share of progress of Chrysler Corp.'s "Forward Look" campaign, helping it regain greater share of automobile market (from 13% in 1954 to about 20% in 1957), E. C. Quinn, president of Chrysler Div., told Television Bureau of Advertising's third annual membership meeting Friday in Chicago. He lauded medium, particularly *Climax* series, for helping Chrysler message to achieve "believability, sharpness and a broad communication with thousands of people every week."

Top tv success story was detailed at business meeting by I. L. Eskenasy, executive vice president, Adell Chemical Co. He told how company built consumer demand for Lestoil, primarily through tv, increasing budget from \$45,000 in 1954 to present \$4 million.

TvB President Norman E. Cash reported to TvB's members (238, comprising 219 stations, 16 station representatives and three networks) that TvB's current annual income is over \$880,000—about 11% higher than last year, with 91% from stations, 7% from representatives and remainder from networks. About 80% of its revenue was used for sales activities during fiscal year ending Aug. 31, 1957.

Other business reports were delivered by W. D. Rogers Jr., West Texas Television Network and TvB board chairman; Roger W. Clipp, WFIL-TV Philadelphia, secretary, and L. H. Rogers II, WSAZ-TV Huntington, W. Va., treasurer (early story, page 95).

L. H. Rogers II was elected chairman of the TvB board, succeeding W. D. Rogers. Mr. Clipp, director-secretary, and George B. Storer Jr., Storer Broadcasting Co., treasurer, were re-elected, as were directors W. D. and L. H. Rogers, Campbell Arnoux, WTAR-TV Norfolk, and Richard Moore, KTTV(TV) Los Angeles. Glenn Marshall Jr., WMBR-TV Jacksonville, Fla., was newly elected to two-year term as director. Two recent vacancies on board were filled by A. W. Dannenbaum Jr., Westinghouse Broadcasting Co., and Payson Hall, Meredith Broadcasting Co., Des Moines.

Eldridge to AAAA PR Consultancy

Clarence E. Eldridge, vice president of George Fry & Assoc., New York, management engineers, and former vice president and plans board chairman of Young & Rubicam, has been retained by American Assn. of Advertising Agencies as public relations consultant for one-year period beginning Jan. 1. Mr. Eldridge, who also has been top-level executive of General Foods Corp. and Campbell Soup Co., will concern himself initially with Frey report and related matters [LEAD STORY, Nov. 4].

FCC Has No Official Comment On Budget Bureau Fee Directive

FCC Friday had no official comment on Bureau of the Budget directive, released last Tuesday, instructing all federal regulatory agencies to draft legislative proposals which would enable them to charge fees for their services. Proposed legislation is to be submitted to bureau by Feb. 1, 1958.

Latest directive supersedes, and greatly broadens, earlier one issued by Bureau in 1953. Early in 1954, FCC proposed schedule of charges ranging from \$3 to \$1,500, with flat fee of \$325 for each am, fm and tv station application [GOVERNMENT, Feb. 1, 1954].

Rep. Charles D. Vanik (D-Ohio) last summer introduced bill (HR 9538) which directed Commission to set up system of annual fees [GOVERNMENT, Sept. 2]. And, two weeks ago, Senate Government Operations Committee staff memorandum reported Commission "official" had suggested that government offer broadcast facilities to highest bidder [AT DEADLINE, Nov. 11].

WOTW-AM-FM Sale Announced

Sale of WOTW-AM-FM Nashua, N. H., by Arthur A. Newcomb to Theodore Feinstein and Samuel Dane for approximately \$250,000 announced. Mr. Newcomb also owns WEIM Fitchburg, Mass.; Mr. Feinstein is president of WLYN Lynn, Mass., WNBP Newburyport, Mass., and WTSA Brattleboro, Vt. Independent WOTW is on 900 kc with 1 kw daytime; WOTW-FM is on 106.3 mc with 1 kw. Sale, handled by Haskell Bloomberg, Lowell, Mass., broker, is subject to FCC approval.

ALONG PARADE ROUTE

Macy's annual Thanksgiving Day parade in New York this Thursday will be framework of friendly rivalry between ABN and NBC-TV. As in years past, parade will be telecast on NBC-TV this year under sponsorship of Ideal Toy Co. and Sweets Co. of American (Tootsie Rolls). Last Friday American announced it would invade video scene and distribute 50,000 leaflets to spectators along route of parade. Leaflets bear imprint: "It pays to listen to live fun radio." It lists outstanding live network radio shows on ABN. On reverse side of 770 of leaflets is message asking holder to return slip to WABC New York, ABN-owned station, in return for \$7.70 (WABC operates on 770 kc). Similar promotion will be conducted in Los Angeles Dec. 13 in cooperation with KABC, ABN-owned station there.

PEOPLE

MORTON A. SPRING, first vice president, Loew's International, elected to succeed **ARTHUR M. LOEW**, who has resigned as president of foreign subsidiary effective Jan. 1 (early story, page 88).

WILLIAM T. KAMMERER, Kenyon & Eckhardt, to Ted Bates & Co., N. Y., as assistant to media director. **WILLIAM J. KENNEDY**, assistant vice-president, named manager of media department. **NORMAN H. CHESTER** and **CHRISTOPHER P. LYNCH**, timebuyers, appointed media supervisors. Mr. Kennedy has been with agency since 1951, Mr. Lynch since 1950 and Mr. Chester since 1954.

EIA to Intensify Efforts For Joint Spectrum Study

Speedup of efforts to induce government electronics officials to join industry in long-range study of entire spectrum is planned by special study committee of Electronic Industries Assn. following quarterly EIA meeting in New York last week.

NARTB plans to correlate broadcaster activity in spectrum field with EIA's committee. NARTB Engineering Advisory Committee fortnight ago called on President Harold E. Fellows to study extent of association's participation in EIA committee project.

EIA group is headed by H. Leslie Hoffman, Hoffman Electronics Corp. Its task force is directed by Paul L. Chamberlain, General Electric Co. Mr. Hoffman told EIA board that study is one of most constructive ever proposed by electronics industry, promising important benefits to public. Committee was set up in September [LEAD STORY, Sept. 16].

Behind spectrum study is fear that military intends to expand its spectrum use, possibly in vhf television range. Assn. of Maximum Service Telecasters, comprising 122 high-power stations, is in favor of spectrum study.

PT&T Doubtful on Wired Tv

There are as yet no pat answers to key questions about closed-circuit tv in California, Pacific T&T Assistant Vice President George Gitchell told State Assembly subcommittee on corporation laws during San Francisco hearing Friday. It was second toll tv session that committee head Assemblyman Louis Francis has held. First was two months ago in Los Angeles [PROGRAM SERVICES, Sept. 16].

Mr. Gitchell pointed out that problem of providing facilities for wired pay tv is not simple. New cables would have to be installed, he noted. In face of possibility that broadcast pay tv service may be authorized, would PT&T be justified in installing poles to support cables to meet service demands that may never materialize, he questioned. Asked whether wired tv would be ready for opening of 1958 baseball season, he guessed it would not.

Whether this testimony will have any effect on San Francisco Board of Supervisors, who tomorrow (Tues.) are to hear Skiatron arguments for grant of toll tv franchise, was unanswered Friday.

The ONLY CBS station covering the area from Pittsburgh to Harrisburg, WFBG-TV delivers 378,273 TV homes—delivers 143.4% more quarter-hour firsts, noon to sign off, Monday-Friday, than nearest competitor. Top CBS programs plus the top ABC shows plus "World's Best Movies," make WFBG-TV the area's most-watched station . . . the area's best buy. Blair-TV has the facts.

Says One Third Proved a Point

EDITOR:

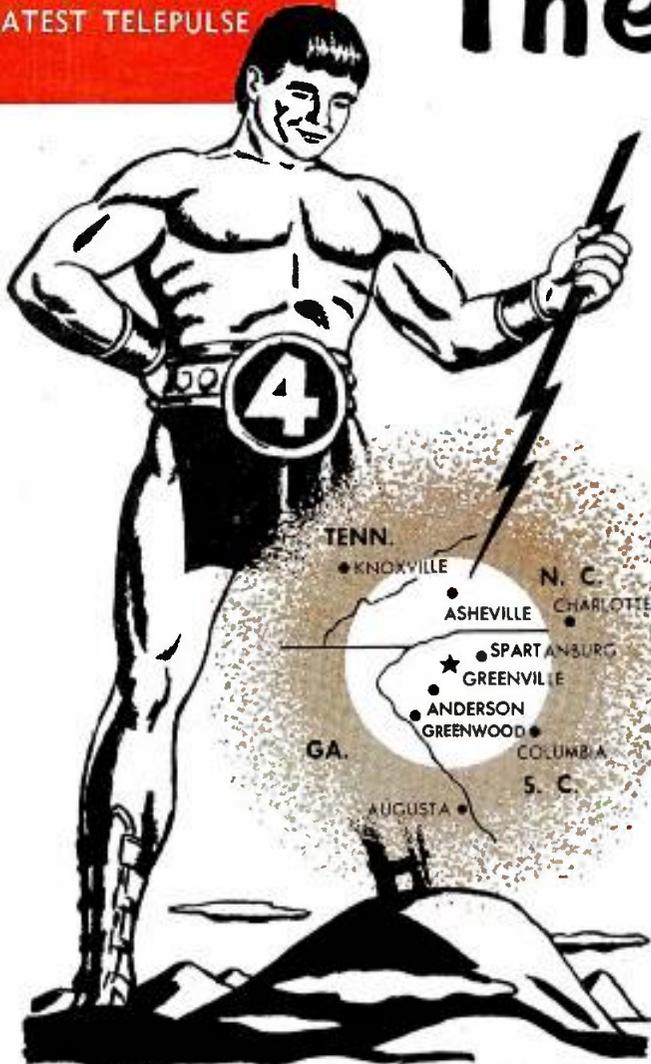

Re the Pulse survey [LEAD STORY, Nov. 18] and editorial:

First, it is very surprising to me that any appreciable percentage of the public would be willing to pay for existing tv programs. . . . What we have in mind, are the box office attractions that people must now leave their homes to see. . . .

The fact that one-third of the people queried voted, sight unseen, in favor of the supplementary service pay tv can provide is answer enough to those who say it should be banned. That is a far larger percentage of

WEED TELEVISION CORP.

AGAIN DWARFS ITS RIVALS

The July 1957 A.R.B. Report for Greenville-Spartanburg-Anderson shows WFBC-TV's complete dominance in this rich textile-industrial market.

The latest TELEPULSE REPORT (June 23-30, 1957) shows the same complete dominance in the five largest counties—Greenville, Spartanburg, Anderson, and Greenwood, S. C., and Buncombe (Asheville) N. C.—in our 58-county market. WFBC-TV led in 14 of the Top 15 Once A Week Shows; and had all 10 of the Top Ten Multi-Weekly Shows!

Ask us or WEED to show you the latest A.R.B. and the latest TELEPULSE.

NBC NETWORK

Ratings are up 5th straight time on Channel 5 ... in Mobile

With Nielsen and A.R.B. already showing WKRГ-TV leading by a country-mile in Mobile, the new TELEPULSE (Sept. '57) shows Channel 5 out in front even more.

WKRГ-TV Leads 372 to 89

TELEPULSE (Sept. '57) reports WKRГ-TV leading Station X in 372 quarter hours to 89 (one tie). WKRГ-TV has 15 of "Top 15 Once-a-Week Shows" . . . 7 out of 10 "Top Ten Multi-Weekly Shows". Sunday through Saturday (6 P.M. to Midnight) WKRГ-TV leads in 155 quarter hours to 12 for Station X. Monday through Friday (7 A.M. to 6 P.M.) WKRГ-TV leads in 165 quarter hours to 55 for Station X. WKRГ's Saturday daytime lead is 4-to-1. WKRГ-TV's Sunday daytime lead is 5-to-1.

How else can we say any time is better time on WKRГ-TV! For availabilities, call your Avery-Knodel office or C. P. Persons, Jr., Vice-President and General Manager.

NIELSEN GIVES US THIS BONUS:				
	Population	Families	C.S.I.	T.R.S.
WKRГ-TV	1,258,000	336,000	\$1,467,000,000	\$1,060,000,000
Station "X"	1,087,000	290,000	1,316,000,000	954,000,000
WKRГ-TV Bonus	161,000	46,000	\$ 151,000,000	\$ 106,000,000

the population than regularly goes out to see new movies, operas, etc. It is also a much larger percentage than the audience for the overwhelming majority of sponsored tv programs. . . .

Actually, the only people who really know about pay tv are those who have experienced it. In our 1951 Phonevision test, 300 families . . . spent an average of \$1.73 per week to watch paid features about 2½ hours a week. The rest of the tv time was devoted to sponsored shows. At the end of the test every family urged that the service be continued.

Two years ago we surveyed the same group; more than 90% said they would like to have pay tv available again so they could purchase features that sponsors could not provide.

EDITOR:

Congratulations on your article on educational tv [EDUCATION, Nov. 11]. It is one the most comprehensive and objective articles about this that I have seen.

*E. J. Kingsbury Jr.
Chairman
State of New Hampshire Commission
on Educational Television
Keene, N. H.*

Notre Dame's on Ch. 16

EDITOR:

Congratulations on the very comprehensive report on educational television [EDUCATION, Nov. 11]. We are pleased you listed WNDU-TV as one of four commercial stations owned by a university which benefit education in a very substantial way. To correct a misconception, WNDU-TV is no longer ch. 46. Since Sept. 30 we have been on ch. 16 with doubled power and coverage area.

A fifth station should be added to the list: WBAY-TV Green Bay, Wis. It is owned and operated by the Norbertine Fathers who conduct St. Norbert's College. They are helping television in an important way.

*Wm. Thomas Hamilton
Sales Manager
WNDU-TV South Bend, Ind.*

Three Letters to Marjorie

EDITOR:

We note Marjorie Marquardt of Fetzer Broadcasting Co. asks if there is another station in the U. S. with more than a third of its employes 10-year or more veterans with their respective stations [OPEN MIKE, Nov. 11].

KOIN has 34 employes who have been with the station more than 10 years. In fact, 18 of these persons have been with the station from 20 to 29 years. Total experience

IN PUBLIC INTEREST

QUICK RESULTS • When KCBQ San Diego news commentator Ben Shirley and disc jockey Harry (Happy Hare) Martin learned of the plight of a poverty-stricken boy suffering from hemophilia, they jointly inaugurated a drive to raise as much blood as possible for him. The station reports that within ten hours after the drive was launched, 500 pints of blood had been pledged, an average of a pint of blood every 72 seconds. Within three days, reportedly more than 1,100 pints had been pledged as well as offers of financial gifts for the boy and his mother.

VOTE GOT OUT • KOL Seattle donated a saturation spot campaign to bring out the vote on a school tax which previously had failed because of too scanty a turn-out to meet state balloting requirements. Included in the campaign was a series of 10-second phone-recorded announcements by local personages including the mayor, the school board president and the state's lieutenant governor. This time Seattle voters approved the tax by a "heavy majority."

LITTLE GIRL FOUND • KPAY Sacramento Valley, Calif., participated in locating a little girl lost in the hills near Redding. Sales Manager Bob Gheller piloted the station's "Flying Stagecoach" in a reconnaissance mission while other employees manned KPAY's station wagon. Authorities credited the roar of the plane and sound from the station wagon's loud speakers for arousing the deaf girl's dog, who had remained with her. The dog's frantic barking drew the rescuers to them in time.

As a result of its contribution to the rescue, the "Flying Stagecoach" has been made a member of the "Sheriff's Air Patrol."

D.J. FOR A DAY • KVNA Tusculumbia, Ala., turned its facilities over to local Kiwanians for an entire day in order to aid them in a charity project. Kiwanis members sold time and performed all of the normal functions such as newscasting and platter-spinning. Consequently, \$884.50 was collected.

HAPPY HUNTING • The current hunting season has been the object of public service contributions by three radio stations.

KING Seattle, in conjunction with the Washington Optometric Assn., arranged and promoted eye examinations for local hunters. These check-ups were designed to expose visual flaws which could mean danger for the hunter and/or others who might come within range.

WEJL Scranton, Pa., is emphasizing throughout its programming the need for "courtesy and consideration" on the part of farmers and the hunters who use their land. The goal is to bring about a better understanding between these sometimes conflicting groups.

For those hunters, as well as others, who have the misfortune to lose their way in British Columbia's dense forests, CKNW New Westminster has obtained four bloodhounds from England plus a full-time trainer.

Some
trees
are seen
in spite
of the
forest!

The unknown sage who noted that "sometimes you can't see the trees for the forest" might well had today's television industry in mind. The "forest" has been growing steadily thicker — and the job of making your station stand out from the rest gets correspondingly harder.

Only a few stations have the ingredients of leadership — the prestige, community stature, programming and acceptance — to tower above the rest. It is for them that specialized representation, as developed by Harrington, Righter and Parsons, has been created. Tailored to each station's individual character, it translates local leadership to levels of national recognition.

Specialized representation, by its very nature, is for only a few. Perhaps (like the stations listed here) you are one of them.

OUR RESPECTS

to John Block Soell

THE legal profession that beckoned to him during the depression still serves as the business bedrock for (1) perceptive planning and (2) well-grounded decisions by John B. Soell, vice president and manager of the WISN (radio-tv) Div. of the Hearst Corp.

Gazing out his executive suite window in the new WISN Broadcast Center in Milwaukee, Jack Soell (pronounced Sell) tells you reflectively that the new \$1.25 million building is "the result of something you build toward over the years . . . the visible summation of operational experience."

Actually, he's had little time to muse since he arrived on the Milwaukee scene in March 1956 as manager of WISN. His successes over the past 21 months are a reflection of Mr. Soell's twin watchwords: Vigor and more vigor, coupled with a professional student's interest in the broadcast industry. "It hasn't been easy," he points out, however. Nor was it, for Mr. Soell was chosen by the Hearst Corp. last year to implement rather ambitious plans for rapid growth and expansion of WISN-AM-TV. Formal dedication of the new center last Oct. 20 was a major result—and source of personal satisfaction to Mr. Soell.

A native of St. Louis (born May 20, 1911), John Block Soell spent his prep school days at Western Military Academy, serving as business manager of its yearbook. Graduated from the military school in 1928, he enrolled at Washington U. in St. Louis, with ambitions in law. He worked with his father in a newly established polish-manufacturing business and studied at night school for 3½ years. The enterprise collapsed and, John Soell, noting that his fellow law colleagues had opened offices but interested few prospective clients, decided to set out in another business direction.

At 22, young Mr. Soell headed for Washington, D. C., and got steady work with the National Recovery Administration (NRA), first in personnel and later in its apparel division. When the agency was declared unconstitutional in 1936, Mr. Soell returned to St. Louis as placement manager for Efficiency Service Co., a large employment agency, until 1939.

Broadcasting lured Mr. Soell in 1939 and he landed his first sales position with KXOK St. Louis. He left in 1943 to enter the U. S. Maritime Service at Sheepshead, L. I., as an apprentice seaman and in five months was commissioned a warrant officer and assigned to the service's New York office to supervise information and recruiting radio shows.

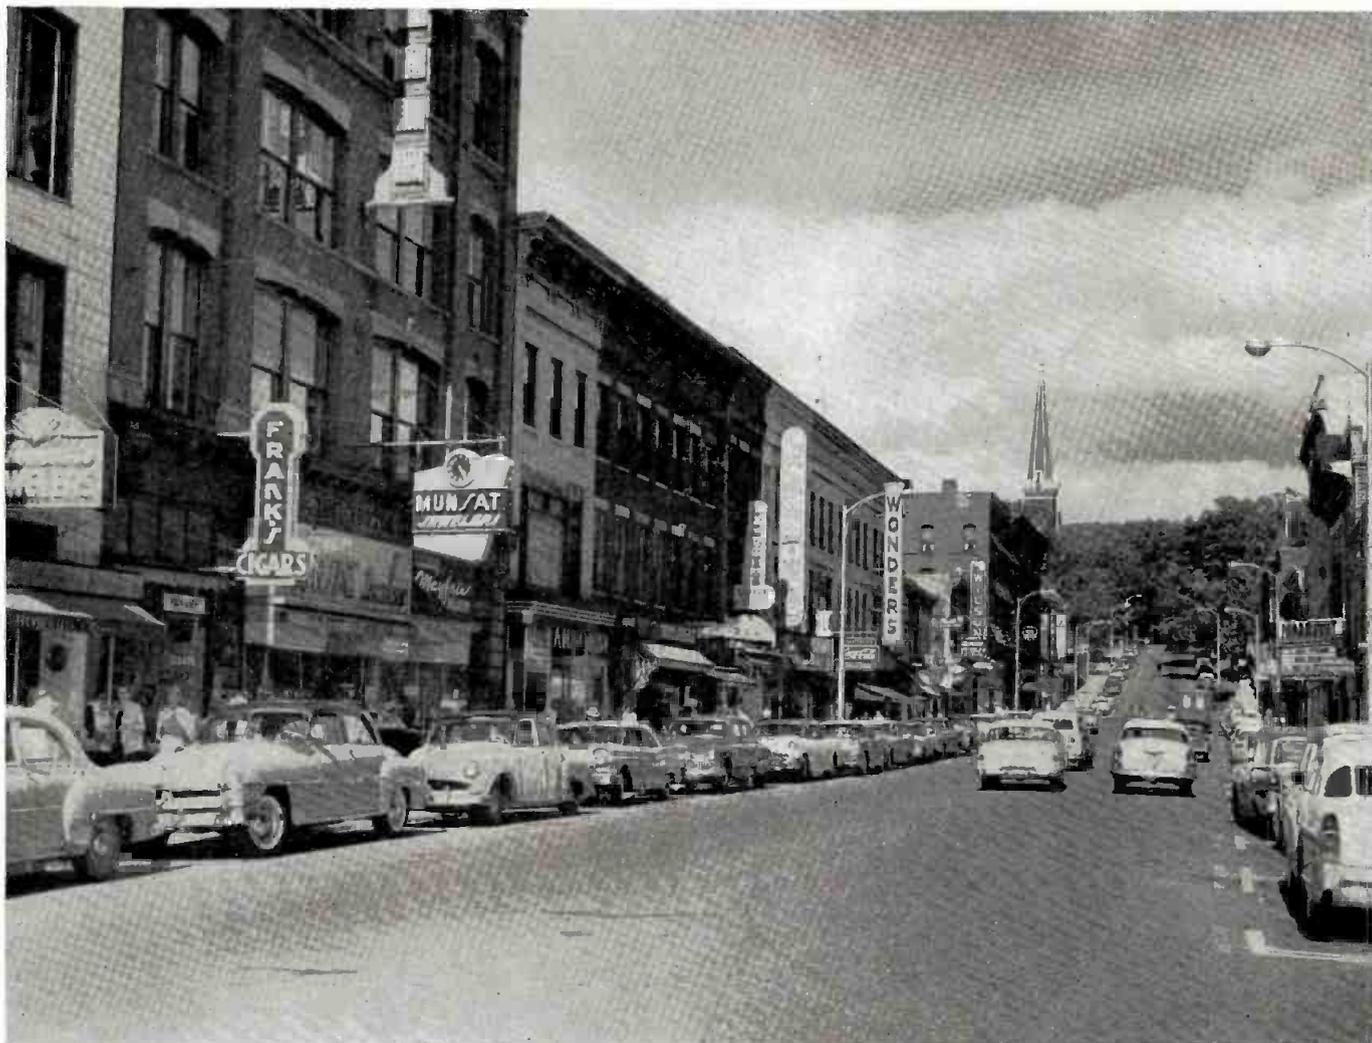

Mustered out in January 1945, he resumed his broadcast (and civilian) career at WJZ (now WABC) New York as account executive and from then on, his sales experiences became diversified. He joined WMCA New York in March 1948, the DuMont Television Network in April 1950 and H-R Television Inc. in December 1953, resigning the sales representative firm in December 1955 to seek out a station manager's berth.

Mr. Soell's capabilities caught the eye of D. L. (Tony) Provost, vice president of Hearst Corp.'s radio-tv division, and he was appointed director of WISN Milwaukee. He was elected vice president of the WISN Div. of the Hearst Corp. last Sept. 17.

Under Mr. Soell's vigorous and discerning planning, both WISN and WISN-TV have assembled cohesive and well-integrated staffs and inaugurated programming innovations. Both are primary ABC affiliates located in the new 50,000 sq. ft. Broadcast Center (WISN-TV started telecasting there in August and WISN radio is scheduled to move in within six weeks). Broadcast, civic and business leaders attended the formal dedication, which was highlighted by a two-hour program. The center is a two-story building, accommodating complete color equipment, ultra-modern studios for day and night operation, clients' rooms and a unique lighting system [STATIONS, Oct. 28]. In a manner of speaking, the detailed planning of the center typifies an old Hearst credo: "Get it first but first get it right."

AS a professional student of the industry, Mr. Soell has his own views on some industry practices. Says he: "Rate-cutting or barter deals are a short-sighted way to suicide, which only help the advertiser." He also feels the media should face up abruptly to the pay tv threat. (Speaking of his own market, he claims neither closed-circuit toll tv nor full-length movies are "right" for Milwaukee.) And it's known that his counsel is wisely heeded in network circles on a wide variety of problems.

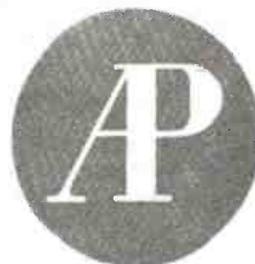

Mr. Soell belongs to the Milwaukee Ad Club and Athletic Club. He has a deep interest in music (from Bach and Beethoven to Bartok and Ellington) and hunting (he directed pistol training for civil defense in Darien, Conn., while working in New York). His wife is the former Blanche Sisson, whom he married in 1937. They have two children, Barbara, 18, and John, 15.

RATE "TOPS" ON MAIN STREET

AND BOOST YOUR PROFITS WITH AP NEWS

With AP, you give the people of Main Street all the news... thorough regional coverage as well as complete national and international reports. And by providing your audience with the finest in news services, you keep them listening... which means you rate "tops" with all your sponsors, too. That's how AP spells Added Profits... Added Prestige... for stations everywhere.

PICK YOUR SPOT

AMONG THE STARS IN WASHINGTON!

During the prime "AA" nighttime hours, when the stars shine brightest, WRC-TV averages a *43% greater share of audience** than any other station in the Capital! And if you call pronto, WRC-TV will arrange ten-, twenty-, or *the new thirty-second spots* in this prime evening time adjacent to the greatest shows and stars in television.

If you figure prospective customers among Western fans (and who doesn't?) line up your sights on avail-

abilities flanking programs such as "The Californians," "The Restless Gun" and "Wagon Train." Or use comedy to gladden the hearts (and loosen the purse-strings) of your stubbornest prospects. Pick your spot before or after shows like "Groucho Marx—You Bet Your Life," "The Life of Riley" and "The George Gobel Show." A choice few of these spots among the stars are available *now*. Call WRC-TV or your nearest NBC Spot Sales representative for quickest results!

WASHINGTON, D. C.

TOP 50 AGENCIES IN 1957 RADIO-TV

- McCann-Erickson's \$103 million places first
- Bates' \$43.5 million tops spot-only billing

McCann-Erickson leads the nation's advertising agencies in combined television and radio billing in 1957 with a year-end figure of \$103 million, according to results of BROADCASTING's sixth annual survey of the top broadcast agencies in the U. S.

M-E drove to its dominance on the steam of a \$26.6 million increase over its 1956 billings, when the agency checked in as No. 3.

Young & Rubicam, three years the leader in the year-end tabulations, was bumped into the runner-up position this year despite an \$18 million gain that raised its tv-radio expenditure to an even \$100 million.

J. Walter Thompson Co. emerged third with a broadcast billing total of \$92 million, a \$22 million advance over its 1956 outlay.

BBDO placed fourth this year while adding \$5 million to bring its tv-radio billing total to \$85 million.

Ted Bates retained its No. 5 ranking on the strength of a \$21.5 million rise, lifting its billing figure to \$76.5 million.

The other leaders among the Top 10: Benton & Bowles, \$54.5 million; Leo Burnett, \$49 million; Dancer-Fitzgerald-Sample, \$47 million; Compton, \$42 million, and Foote, Cone & Belding, \$40 million.

Ted Bates for the third consecutive year held its dominance in tv-radio spot billing with a year-end tally of \$43.5 million, an advance of \$8.5 million over its 1956 total. McCann-Erickson registered \$42 million to place second in spot spending, well ahead of Y&R and BBDO which shared third rank with a spot total of \$27 million each.

In the "television only" category, McCann-Erickson led the standings with \$91 million, followed—as in the combined figures—by Young & Rubicam and J. Walter Thompson. The Y&R tv total: \$85 million; JWT: \$80 million.

Young & Rubicam edged BBDO by \$1 million in the "Radio Only" designation, finishing the year with \$15 million. McCann-Erickson and J. Walter Thompson shared third position with identical \$12 million outlays in radio.

Total 1957 billings of the 50 agencies included in the survey came to \$1.2 billion.

The figures represent expenditures for time and talent, in both network and spot, during the 1957 calendar year. They do not

include commitments already made for 1958.

Following is a summary of this year's activity in each of the agencies listed in the compilation:

McCANN-ERICKSON: Combined tv-radio billing \$103 million; \$91 million in television (\$61 million in network, \$30 million in spot); \$12 million in radio (all spot); tv-radio share of overall billing, 52%.

In registering its \$26.6 million increase over last year, McCann-Erickson spent more than \$5 million on specials alone for Standard Oil, Bulova, John Hancock and others.

New to the agency this year: Helene Curtis (*What's My Line?* on CBS-TV), Tums (*Wagon Train*, NBC-TV) and John Hancock (*Producers Showcase*, NBC-TV).

Even more significant than the new entries was the formidable increase of tv spending among established clients at the agency.

Regular network sponsors at the agency include: Chrysler (*Climax*, *Shower of Stars*, both CBS-TV), Chesebrough-Ponds (*Bob Cummings Show*, NBC-TV), Derby Foods (*Disneyland*, ABC-TV), Liggett & Myers (*Dragnet*, *Club Oasis*, NBC-TV, *Frank Sinatra*, ABC-TV), Mennen Co. (*Wednesday Night Fights*, *OSS*, both ABC-TV) and Westinghouse (*Studio One*, CBS-TV).

YOUNG & RUBICAM: Combined tv-radio billing \$100 million; \$85 million in television (\$67 million in network, \$18 million in spot); \$15 million in radio (\$6 million in network, \$9 million in spot); tv-radio share of overall billing: 45%.

Up \$18 million from its 1956 total, the agency shares with McCann-Erickson the distinction of cracking the \$100 million mark in tv-radio billing. New business in 1957: Beechnut, from Kenyon & Eckhardt. Lost: Kent and Newport cigarettes to Lennen & Newell. New entrants to tv: Drackett (*Wagon Train*, NBC-TV); Royal Typewriter (*Sally*, NBC-TV). Among leading network advertisers: Goodyear (*Goodyear Anthology*, NBC-TV), Remington Rand (*Gunsmoke*, *What's My Line?*, both CBS-TV), Bristol-Myers (*Alfred Hitchcock Presents*, CBS-TV), *Tombstone Territory*, ABC-TV), Singer (*The Californians*, NBC-TV), General Elec-

TOP 50 AGENCIES...

tric (*Cheyenne*, ABC-TV), General Foods (*Disneyland*, ABC-TV); Procter & Gamble (*The Lineup*, CBS-TV), Kaiser (*Maverick*, ABC-TV), Borden and American Home Products (*People's Choice*, NBC-TV), Time Inc. (*Person to Person*, CBS-TV), Johnson & Johnson (*Robin Hood*, CBS-TV); Royal McBee (*Sally*, NBC-TV), Lipton (*Talent Scouts*, CBS-TV). Among top spot clients at agency: General Foods, Borden Co., General Electric, Johnson & Johnson, Procter & Gamble.

J. WALTER THOMPSON CO.: Combined tv-radio billing \$92 million; \$80 in television (\$65 million in network, \$15 million in spot); \$12 million in radio (\$4 million in network, \$8 million in spot); tv-radio share of overall billing: 37%.

JWT's impressive roster of network tv sponsorships and a plus-\$4-million contract by Ford Div. on CBS Radio highlighted an upward climb in broadcast billing (up \$22 million)—the agency moving from fourth to third in ranking.

The bigger blue chips in network tv that JWT handles: Pharmacrast (*Steve Allen Show* on NBC-TV), Lever Bros. (*Eve Arden Show* on CBS-TV and *Rosemary Clooney Show* on NBC-TV), Scott Paper (*Father Knows Best* and *Giselle Mackenzie Show*, both NBC-TV), Ford (*Tennessee Ernie Ford* and *Suspicion* on NBC-TV and *Zane Grey Theatre* on CBS-TV), Kraft Foods (*Kraft Television Theatre* on NBC-TV), Eastman Kodak (*Ozzie & Harriet* on ABC-TV and *Ed Sullivan Show* on CBS-TV), Sylvania (*The Real McCoys* on ABC-TV), Schlitz (*Schlitz Playhouse* on CBS-TV) and *Seven Up* (*Zorro* on ABC-TV).

Among the new accounts gained by JWT during the year were two airlines, Northeast Airlines and Continental Airlines, and Sealy Mattress.

BBDO: Combined tv-radio billing \$85 million; \$71 million in television (\$46 million in network, \$25 million in spot); \$14 million in radio (\$12 million in network, \$2 million in spot); tv-radio share of overall billing: 40%.

Symptomatic of the competitive pace in television, BBDO, with a respectable increase of \$5 million in billing over 1956, find itself back two lengths in the current rankings, finishing fourth.

Chief defection in 1957 was the Revlon account which transferred its business to Warwick & Legler and its other agencies (Mogul, LaRoche and Dowd, Redfield & Johnstone). Gains for the agency included Air France from Buchanan and part of the W. A. Sheaffer pen account. BBDO tied for third place in the combined tv-radio spot billing. Accounting for part of the huge

TEXT CONTINUES FROM PAGE 28

spot billing were activities on behalf of American Tobacco's Hit Parade cigarettes, Campbell's new soups, Bristol-Myers' Ban, Lever Bros. and General Mills, among others.

BBDO's roster of network activities include *Armstrong Circle Theatre* on CBS-TV for Armstrong Cork; *Jack Benny Show* and *Bachelor Father* on CBS-TV for American Tobacco; *Colt 45* on ABC-TV for Campbell Soups; *Burns and Allen* CBS-TV for General Mills; *G. E. Theatre* on CBS-TV for General Electric; *Life of Riley* on NBC-TV for Lever Bros.; *Playhouse 90* on CBS-TV for B-M; *Robin Hood* on CBS-TV for Wildroot Co.; *Trackdown* on CBS-TV for American Tobacco and, for the same advertiser, *Your Hit Parade* on NBC-TV; *You Bet Your Life* on NBC-TV for DeSoto.

TED BATES & CO.: Combined tv-radio billing \$76.5 million; \$69.5 million in tv (\$33 million in network, \$36.5 million in spot); \$7 million in radio (all spot); tv-radio share of overall billing: 75%.

Ranking first in spot for the third year in succession, Ted Bates chalked up an overall tv-radio increase of \$21.5 million over its last year's billing. Spot spending by the agency in 1957 came to \$42 million, with the entire radio outlay of \$7 million going to local stations. Product acquisitions by Bates in 1957 include Colgate's Fab and

Rapid Shave Cream from William Esty, and Uncle Ben's Rice from Leo Burnett. Top spending client at the agency—and leading spot sponsor in the nation—remains Brown & Williamson. B&W network efforts include sponsorship of *Lineup* on CBS-TV and *News on the Hour* on NBC Radio. Other network broadcast activities include *Have Gun, Will Travel* for Lever Bros., *Millionaire* for Colgate-Palmolive and *Name That Tune* for American Home Products, all on CBS-TV; *Jim Bowie* and *Sugarfoot*, both on ABC-TV, for American Chiclé, and *Thin Man* on NBC-TV for C-P.

BENTON & BOWLES: Combined tv-radio billing \$54.5 million; \$51.5 million in tv (\$36 million in network, \$15.5 million in spot); \$3 million in radio (\$1 million in network, \$2 million in spot); tv-radio share of overall billing: 58%.

Benton & Bowles' combined billing rose \$0.7 million over its 1956 total. Figuring importantly in the agency's strong stance was the acquisition from Procter & Gamble of several new products: Zest, Winterset and Summerset. In addition B & B acquired Schick from Warwick & Legler while losing French Government Tourist to Grey and Studebaker account to Burke Dowling Adams.

The agency currently places the following programs: *December Bride*, *Danny Thomas Show* and *Zane Grey Theatre*, all on CBS-TV, for General Foods, and *Meet*

McGraw and the *Loretta Young Show* on NBC-TV for Procter & Gamble.

LEO BURNETT CO.: Combined tv-radio billing \$49 million; \$43 million in television (\$34 million in network, \$9 million in spot); \$6 million in radio (\$1 million in network, \$5 million in spot); tv-radio share of overall billing: 61%.

Burnett, up \$6 million over last year in combined broadcast billing, shifted a considerable number of radio-using accounts into television. This summer, Burnett lost \$8 million worth of Pabst Brewing Co. billing—\$7 million Blue Ribbon, Old Tankard Ale, Andeker Draught Supreme; \$1 million Eastside Brewing Co. subsidiary—to Norman, Craig & Kummel and Young & Rubicam. But Tea Council allocated its entire \$2 million ad budget to tv spot (as against a sizeable print campaign supplemented by tv last year); All-State Insurance Co. redistributed print money to participations in CBS-TV's *Playhouse 90*, which made up to some degree the loss of network commissions formerly accrued through Pabst and ABC's Wednesday night fights and NBC-TV's *Mystery Theatre* this summer; Kellogg Co. dropped Arthur Godfrey simulcasts and CBS-TV's *Lassie* and picked up an ABC-TV across-the-board children's strip of adventure reruns and continued in CBS-TV's *House Party* and *Name That Tune*, also buying into *The Big Record*. Bauer & Black used CBS Radio's "Impact" plan on *Gunsmoke*, *Amos 'N' Andy*, and ABN's *Breakfast Club*; Procter & Gamble picked up alternate weeks of CBS-TV's *Phil Silvers Show*, some CBS-TV daytime serials, NBC-TV's *Matinee*, *The Web*, and renewed *Loretta Young*; Pure Oil Co. and Philip Morris Co. (Marlboro) expanded tv sports coverage (Marlboro continuing on *Playhouse 90*); Pillsbury also went in for CBS-TV daytime serials as well as *The Big Record* and bought into ABC-TV's *Mickey Mouse*; Campbell Soup Co. stayed on CBS-TV and so did Hoover Co.

Most of the foregoing advertisers used radio-tv spot, as did Pfizer Co. in farm radio.

DANCER-FITZGERALD-SAMPLE: Combined tv-radio billing \$47 million; \$39.5 million in television (\$29.5 million in network, \$10 million in spot); \$7.5 million in radio (\$3.5 million in network, \$4 million in spot); tv-radio share of overall billing: 55%.

The pickup in billing of \$9.5 million at D-F-S is traced to greater activity of existing accounts. With its radio billing strong, D-F-S increased in tv as well. Among the leading tv network accounts are General Mills, for which D-F-S places business in five network tv shows (*Wyatt Earp*, *The Lone Ranger*, *Disneyland*, *Mickey Mouse Club* and *American Bandstand*, all on ABC-TV; American Chiclé (*Sugarfoot* and *Jim Bowie* on ABC-TV); Liggett & Myers Tobacco Co.'s L & M cigarettes (*Gunsmoke* on CBS-TV, *Dragnet* and *George Gobel* on NBC-TV); Nestle Co.'s association with *Garry Moore Show* on CBS-TV; Peter Paul on CBS-TV *Arthur Godfrey*; Sterling Drug with a daytime show, and others.

COLORCASTING®

The Next 10 Days
Of Network Color Shows
(All Times EST)

CBS-TV

Nov. 26 (9:30-10 p.m.) *Red Skelton Show*, S. C. Johnson & Son through Foote, Cone & Belding and Pet Milk through Gardner Adv.

NBC-TV

Nov. 25-29, Dec. 2-4 (1:30-2:30 p.m.) *Howard Miller Show*, participating sponsors (on Thanksgiving Day will be seen 1:30-2:15 p.m. and colorcast only on certain stations).

Nov. 25, Dec. 2 (7:30-8 p.m.) *The Price Is Right*, RCA Victor through Kenyon & Eckhardt and Spiedel through Norman, Craig & Kummel.

Nov. 26, 27, 29, Dec. 2-4 (3-4 p.m.) *Matinee Theatre*, participating sponsors.

Nov. 26 (7:30-9 p.m.) *The Pied Piper of Hamelin*, Liggett & Myers through McCann-Erickson.

Nov. 27 (8:30-10:30 p.m.) *Annie Get Your Gun*, Pontiac through MacManus, John & Adams and Pepsi-Cola through Kenyon & Eckhardt.

Nov. 28 (7:30-8 p.m.) *Tic Tac Dough*, RCA Victor through Kenyon & Eck-

hardt and Warner-Lambert through Lennen & Newell.

Nov. 28 (10-10:30 p.m.) *Lux Show* starring Rosemary Clooney, Lever Bros. through J. Walter Thompson Co.

Nov. 30 (12-1 p.m.) *Parade of Cadets and Midshipmen*, sustaining.

Nov. 30 (1-1:15 p.m.) *College Bands* (film fill), sustaining.

Nov. 30 (1:15 p.m. to completion) *Army-Navy game*, participating sponsors.

Nov. 30 (8-9 p.m.) *Perry Como Show*, participating sponsors.

Nov. 30 (10:30-11 p.m.) *Your Hit Parade*, Toni through North and American Tobacco through BBDO.

Dec. 1 (6:30-7 p.m.) *My Friend Flicka*, sustaining.

Dec. 1 (8-9 p.m.) *Steve Allen Show*, participating sponsors.

Dec. 1 (9-10 p.m.) *Dinah Shore Chevy Show*, Chevrolet through Campbell-Ewald.

Dec. 3 (8-9 p.m.) *Gobel-Fisher Show*, RCA Whirlpool through Kenyon & Eckhardt and Liggett & Myers through McCann-Erickson.

Dec. 4 (9-10 p.m.) *Kraft Television Theatre*, Kraft Foods Co. through J. Walter Thompson Co.

COMPTON ADV.: Combined tv-radio billings \$42 million; \$39.9 million in television (\$24.3 million in network, \$15.6 million in spot); \$2.1 million in radio (\$0.5 million in network, \$1.6 million in spot); tv-radio share of overall billings: 50%.

Compton upped its billings by \$10.1 million in 1957. The agency gained G. H. P. Cigar Co. from Norman, Craig & Kummel and G. Heileman Brewing Co. from Earle Ludgin. The increase in billing came from additional expenditures of such major accounts as Procter & Gamble with *Wyatt Earp* on ABC-TV and *This Is Your Life* on NBC-TV, Remington-Rand's *Leave It to Beaver* on CBS-TV and such spot advertisers as American Can Co., Bond Clothes, Goodyear Tire & Rubber, Nehi Corp., Socony Mobil Oil Co., Standard Brands, Sterling Drugs and Sterling Brewers.

FOOTE, CONE & BELDING: Combined tv-radio billing \$40 million; \$33.3 million in television (\$25.3 million in network, \$8 million in spot); \$6.7 million in radio (\$5.7 million in network, \$1 million in spot); tv-radio share of overall billing: 35%.

An increase of \$7.5 million in tv-radio business at FC&B was attributable in large part to its new blue chip accounts, including Edsel Div. of Ford Motor Co. (*Wagon Train* on NBC-TV, special on CBS-TV in October); Tidewater Oil Co., Hawaiian Pineapple (Dole), Savarin coffee, Shulton's Pharmaceutical Div. and Norwich Pharmacal (Nebs and another product as yet untitled).

The following accounts also contributed to the billings rise: Lever Bros. (Imperial margarine) representation on NBC-TV's *Lux Show* with Rosemary Clooney, *Truth or Consequences* and *The Price Is Right*, and CBS-TV's *Eve Arden Show*; Gillette Co.'s Paper Mate pens (NBC-TV's *Cavalcade of Sports* and *You Bet Your Life*; Armour & Co., which dropped out of George Gobel the end of last season, picked up participations for Dial Soap on NBC-TV's *It Could Be You* and CBS-TV's *The Big Record*; Kleenex on *Perry Como Show* on NBC-TV and *Playhouse 90* on CBS-TV; S. C. Johnson's wax on *Red Skelton Show* on CBS-TV; Hallmark Cards on its NBC-TV's specials and Purex Ltd., together with Edward H. Weiss Co., on CBS-TV's *Perry Mason* and *Beat the Clock*.

WILLIAM ESTY CO.: Combined tv-radio billing \$36 million; \$32 million in television (\$28 million in network, \$4 million in spot); \$4 million in radio (\$1.5 million in network, \$2.5 million in spot); tv-radio share of overall billing: 50%.

At William Esty & Co. the billing picture centers on its big account—R. J. Reynolds Tobacco Co. Reynolds, for example, has been represented in these network shows: *Bob Cummings Show* and *People Are Funny* on NBC-TV; *Harbourmaster* (alternating weeks), *I've Got a Secret*, *Mr. Adams & Eve* and *Phil Silvers Show*, all CBS-TV.

Among its top spot advertisers are Thomas Leeming-Pacquin (radio spot), P.

ACTIVITY

HOW PEOPLE SPEND THEIR TIME

There were 123,574,000 people in the U. S. over 12 years of age during the week Nov. 10-16. This is how they spent their time:

70.1% (86,625,000) spent	1,997.4 million hours	WATCHING TELEVISION
56.0% (69,201,000) spent	968.6 million hours	LISTENING TO RADIO
82.8% (102,319,000) spent	395.4 million hours	READING NEWSPAPERS
31.2% (38,555,000) spent	179.9 million hours	READING MAGAZINES
24.6% (30,399,000) spent	394.9 million hours	WATCHING MOVIES ON TV
24.7% (30,513,000) spent	126.6 million hours	ATTENDING MOVIES *

These totals, compiled by Sindlinger & Co., Ridley Park, Pa., and published exclusively by BROADCASTING, each week, are based on a 48-state, random dispersion sample of 7,000 interviews (1,000 each day). Sindlinger's monthly "Activity" report, from which these weekly figures are drawn, furnishes comprehensive breakdowns of these and numerous other categories, and shows the duplicated and unduplicated audiences between each specific medium. Copyright 1957 Sindlinger & Co.

* All figures are average daily tabulations for the week with exception of the "attending movies" category which is a cumulative total for the week. Sindlinger tabulations are available within 2-7 days of the interviewing week.

SINDLINGER'S SET COUNT: As of Nov. 1, Sindlinger data shows: (1) 105,120,000 people over 12 years of age see tv (85.2% of the people in that age group); (2) 40,692,000 U. S. households with tv; (3) 44,725,000 tv sets in use in U. S.

Ballantine & Sons (*Highway Patrol* in regional markets) and National Carbon Co. (Prestone antifreeze and Eveready flashlight batteries). Prestone also participated in a battery of network tv shows during October only and had a very active spot campaign in radio. Eveready is a heavy spot radio advertiser. The agency lost Colgate's Vel and Fab to Lennen & Newell and Ted Bates Inc., respectively.

KENYON & ECKHARDT: Combined tv-radio billing \$31.5 million; \$24.7 million in television (\$19 million in network, \$5.7 million in spot); \$6.8 million in radio (\$0.8 million in network, \$6 million in spot); tv-radio share of overall billing: 55%.

K & E dropped \$4.1 million in combined tv-radio billing under the previous year's total. Figuring significantly in the dip was the loss of the Warner-Lambert account, which sponsored *Your Hit Parade* on NBC-TV, to SSC&B and Norman, Craig & Kummel. K & E's network programming in 1957 included: *Perry Como Show*, *Tic Tac Dough*, *The Price Is Right*, and *The George Gobel Show* on NBC-TV for RCA Whirlpool; *Rin Tin Tin* on ABC-TV for National Biscuit; and the *Ed Sullivan Show* on CBS-TV for Mercury. The agency also placed large spot schedules for Mercury, Ford Motor Co., and Lever Bros. among others.

N. W. AYER & SON: Combined tv-radio billing \$31 million; \$20 million in television (\$10 million in network, \$10 million in spot); \$11 million in radio (\$2 million in network, \$9 million in spot); tv-radio share of overall billing: 25%.

Ayer upped its billing by \$3 million from last year's \$28 million by acquiring all food divisions of Armour & Co. (spot business plus CBS-TV's *Arthur Godfrey Time*) as well as the Corning Glass Works (Pyrex)

and several new divisions of Johnson & Johnson, which brought spot tv-radio business to the agency. The gains were accomplished even though Ayer lost Bissell Carpet Sweeper to Leo Burnett and Hawaiian Pineapple to Foote, Cone & Belding.

Bell Telephone remained active through *Telephone Time* on CBS-TV, *Bell Telephone Hour* on NBC Radio and occasional science-education programs on CBS-TV. Philip Morris added to the network total with *Mike Wallace Show* on ABC-TV and *Suspicion* on NBC-TV and at year's end Plymouth agreed to sign as a sponsor of the *Bob Hope Show*, is definitely set for the Nov. 24 program for this year and is working out details for sponsorship of forthcoming programs in the series in 1958. Active spot advertisers during the year were Gordon Baking Co., Hill Bros., Ohio Oil, Atlantic Refining Co., B-C Remedy and Howard Johnson restaurant chain.

SULLIVAN, STAUFFER, COLWELL & BAYLES: Combined tv-radio billing \$26.7 million; \$21.4 million in television (\$16.6 million in network, \$4.8 million in spot); \$5.3 million in radio (\$0.8 million in network, \$4.5 million in spot); tv-radio share of overall billing: 65%.

SSC&B in 1957 scored a gain of \$2.2 million over last year's billing. Accounting chiefly for the advance was the capture of four new clients during the year: Duffy-Mott from Young & Rubicam, Warner-Lambert from Kenyon & Eckhardt, Lever Bros.' Breeze from BBDO and Salada Tea from Hermon W. Stevens Agency.

The agency's 1957 network activity included: *Tales of Wells Fargo* and *M Squad*, both on NBC-TV for American Tobacco; *Restless Gun* and *Tic Tac Dough* on NBC-TV for Warner-Lambert; *Perry Como Show*

on NBC-TV for Noxema, and *West Point* on ABC-TV for Carter Products.

SSC&B continued actively in spot for Smith Bros., Carter Products, Lever Bros. and American Tobacco, among others.

CAMPBELL-EWALD: Combined tv-radio billing \$25 million; \$21 million in television (\$18 million in network, \$3 million in spot); \$4 million in radio (\$1.5 million in network, \$2.5 million in spot); tv-radio share of overall billing: 27%.

Campbell-Ewald's upward climb in broadcast business is a reflection, in large measure, of the stepping-up of the *Chevy Show* (with Dinah Shore three weeks out of four) to a weekly schedule on NBC-TV from its twice-a-month presentation last year. In addition, Chevrolet dropped *Crossroads* this fall on ABC-TV but substituted the more costly *Pat Boone Chevy Showroom* on the same network. Another additional network tv effort this year—for GM's Delco-Remy and other divisions serviced by C-E—is the CBS-TV *High Adventure* one-hour program featuring Lowell Thomas, two of which will be credited to this year's activity and five during 1958. Chevrolet also continued its sponsorship this year of its CBS Radio news schedule on weekends.

Campbell-Ewald resigned the Flagg shoes account which had been active in spot, but acquired certain divisions of Kroger Co. (grocery chain), which sponsored half-hour programs in local markets. Goebel beer was a substantial tv-radio spot advertiser of professional baseball and football games.

LENNEN & NEWELL: Combined tv-radio billing \$24.5 million; \$21.1 million in television (\$17.1 in network, \$4 million in spot); \$3.4 million in radio (\$0.5 million in network, \$2.9 million in spot); tv-radio share of overall billing: 54%.

Up \$3.5 million in broadcast billing over 1956, L&N scored with a rash of new broadcast accounts. Among them: consolidated P. Lorillard tobacco account (Kent and Newport from Young & Rubicam, Gunther Brewing Co. from SSC&B, Cinzano Inc. from Burke Dowling Adams, and Colgate Palmolive's Vel from William Esty. Emerson Drug Div., Warner-Lambert Pharmaceutical Co., for Bromo-Seltzer, and Lorillard, for Old Gold cigarettes, took on a 130-station lineup of NTA Film Network for *Premiere Performance*. C-P, for Vel and Lustre-Creme, picked up CBS-TV's *Mr. Adams & Eve*; American Gas Assn. picked up part of CBS-TV's *Playhouse 90*, and with the Lorillard consolidation, Old Gold bought NBC-TV's *Court of Last Resort* and CBS Television Film's *Assignment: Foreign Legion*. L&N also got alternate week billing for Kent on CBS-TV's \$64,000 *Challenge*. Heavy spot users were Dromedary Div., National Biscuit Co.; American Airlines; Benrus Watch Co.; Consolidated Cigar Co.; Stokely-Van Camp foods and Gunther Brewing.

CUNNINGHAM & WALSH: Combined tv-radio billing \$17 million; \$10 million in television (\$2.2 million in network, \$7.8 million in spot); \$7 million in radio (\$2 million

in network; \$5 million in spot); tv-radio share of overall billing: 35%.

Although the last Chesterfield billing at C & W ended last year (the account went to McCann-Erickson), the agency managed to increase its tv-radio billing about \$2.5 million.

Texas Co. (Texaco), which C&W started billing this year, has been in spot radio and tv and also is sponsoring its *Command Performances* specials on NBC-TV. Another advertiser new to network tv this year is Sunshine Biscuit (*Garry Moore Show* and *Beat the Clock*, both CBS-TV). New accounts also include American Cyanamid (spot user) and Colgate-Palmolive's Brisk, which is added to C&W's handling of Colgate's Super Suds. Among other big spot-spending accounts are Sunshine, Folger coffee, Chase Manhattan Bank, Narragansett Brewing and the *New York Daily News*.

CAMPBELL-MITHUN: Combined tv-radio billing \$16.8 million; \$15.3 million in television (\$9.8 million in network, \$5.5 million in spot); \$1.5 million in radio (\$0.5 million in network, \$1 million in spot); tv-radio share of overall billing: 48%.

Campbell-Mithun upped its billing in 1957 by \$2.8 million, assisted in part by addition of several divisions of Kroger Co. (grocery store chain). Its leading tv network advertisers were Pillsbury Mills, which sponsored Thursday segments of daytime serials including *As the World Turns*, *Edge of Night* and *Art Linkletter's House Party* on CBS-TV; the Gold Seal Co. for alternate weeks of *I Love Lucy* re-runs on CBS-TV; Hamm Brewing Co. for *Person to Person* on CBS-TV in west and midwest, and American Dairy Assn. for one-third sponsorship of the *Perry Como Show* on NBC-TV.

In network radio, Northwest Airlines was

BUSINESS BRIEFLY

WHO'S BUYING WHAT, WHERE

BOX SCORE • NBC Radio chalked up another \$500,000 in new business last week. Kiplinger Washington Agency (*Changing Times—The Kiplinger Magazine*) through Albert Frank-Guenther Law, N. Y., ordered four quarter-hour *Changing Time* programs per weekend for the next 13 weeks; Gillette Safety Razor Co. (Boston), through Maxon Inc., N. Y., ordered full sponsorship of 20th annual Blue-Gray All Star football game Dec. 28 as well as Jan. 1 Rose Bowl game, and five advertisers ordered *Monitor* segments: Evinrude Motors and A. O. Smith Corp. (Permaglas), both Milwaukee, through Cramer-Krasselt Co., same city; Northwest Orient Airlines, St. Paul, through Campbell-Mithun, Minneapolis; Sterling Silversmith's Guild, through Fuller & Smith & Ross, N. Y., and John E. Mitchell Co. (auto air conditioner) through Taylor-Norsworthy Inc., Dallas.

FORWARD LOOK • Plymouth Div. of Chrysler Corp. signed last week for sponsorship of three of NBC-TV's *Bob Hope Show* specials, first of which was telecast for auto firm yesterday (Sun. 7-8 p.m.). Plymouth will share sponsorship of five upcoming specials with Johnson Motors. Agency for Plymouth is N. W. Ayer & Son.

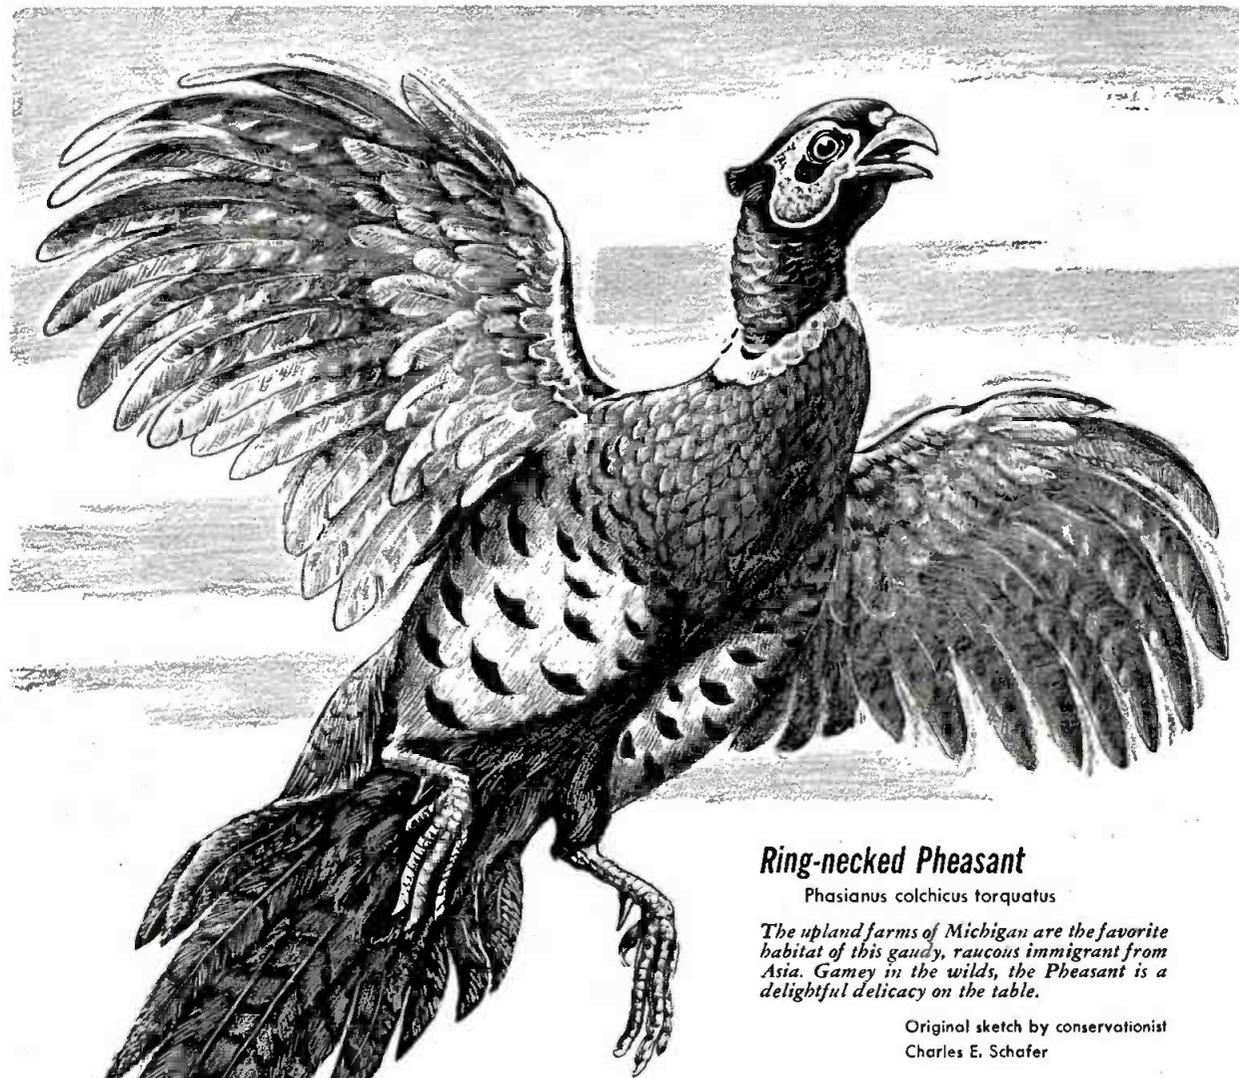

HOME SHOW • A. E. Staley Mfg. Co. (starches), Decatur, Ill., through Erwin Wasey, Ruthrauff & Ryan, Chicago, last week signed \$1 million contract with CBS Radio for across-the-board noontime strip starring Peter Lind Hayes and Mary Healy, direct from Hayes' home in New Rochelle, N. Y. *The Peter & Mary Show* (Mon.-Fri., 12:05-12:15 p.m.) will debut Jan. 6.

TEA TIME • Thomas J. Lipton Inc., Hoboken, N. J., will sponsor *The Californians*, half-hour tv film series on NBC-TV on alternate weeks, starting Jan. 10 (Tues. 10-10:30 p.m.). Agency: Young & Rubicam, N. Y. Singer Sewing Machine Co., current sponsor, will be other alternate-week advertiser.

A 13-WEEK radio and tv saturation campaign in the New York metropolitan area will be launched Jan. 1 for Edro Products Inc., New York (Pop-A-Day vitamin lollipops, for children). Discussing the promotion are (l to r): Herb Sheldon, WABD (TV) New York personality, whose daily show will carry Pop-A-Day spots; Nathaniel C. Schepps, executive vice president of Edro Products; and Harry B. Cohen Jr., vice president of Cohen & Aleshire, Edro's agency. The drive will use 26 tv and 22 radio spots weekly.

SOMETHING BREWING • Stegmaier Brewing Co., Wilkes-Barre, Pa., has purchased *Boots and Saddles—The Story of the Fifth Cavalry* (California National Productions' tv film series) for showing in Scranton-Wilkes-Barre, Johnstown, Altoona, Lancaster-Harrisburg, all Pa., and Binghamton, N. Y., markets. This is said to be first film program series purchased by brewer in two years. Starting dates for 52-week purchase are in December and January. Agency for Stegmaier is McCann-Erickson, N. Y.

Ring-necked Pheasant

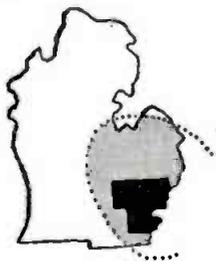

Phasianus colchicus torquatus

The upland farms of Michigan are the favorite habitat of this gaudy, raucous immigrant from Asia. Gamey in the wilds, the Pheasant is a delightful delicacy on the table.

Original sketch by conservationist Charles E. Schafer

**Put your money
where the people are**

Are you reaching pheasants instead of people? WWJ concentrates on the big-earning, big-spending folks in southeastern Michigan—with sprightly personalities like Hugh Roberts in the morning, Bob Maxwell from fabulous Northland shopping center, Jim Wood and Jim DeLand from spectacular Eastland. Use WWJ all day . . . every day.

Here's your real target

Seventy per cent of Michigan's population commanding 75 per cent of the state's buying power lives within WWJ's daytime primary coverage area.

“he must be from WBBM-TV!”

In Chicago television, *showmanship* draws the crowd...even at *midnight*.

A recent VARIETY article stated “...the Windy City has a growing late-nite video audience” And nowhere is this more apparent than on WBBM-TV.

For example, the latest post-midnight Nielsen analysis* reveals ratings that range from a *healthy 8.7* to a *whopping 20.3*...ratings that rank with the best of daytime audiences and equal many of those polled by highly-regarded nighttime shows... week-long average ratings that represent audiences far in excess of those of *all other Chicago stations combined*.

We call it *showmanship at midnight*. The kind of *showmanship* that turns your advertising into *salesmanship*.

The kind you find only on...

FAT CHANCE

Blue skies, not blue sky—that's what advertisers are offered by the Sunshine Network, which promises there will be no bill for advertising on any day the sun fails to shine on the network. Since Sunshine affiliates are KDOT Reno and KRBO Las Vegas, both Nevada, and KDES Palm Springs and KSLR Oceanside, both California, climate-conscious time-buyers will realize the network is taking no great risk with its no-sun-no-bill offer. But by the time they figure this out, Ted Rogers, Sunshine representative, has a chance to present more pertinent if less dazzling data about the Sunshine stations and markets.

active in participations on NBC Radio's *Monitor* and American Dairy Assn. on various NBC participating shows. Prominent spot tv-radio advertisers included Hamm Brewing, Gold Seal, Malt-O-Meal Co. (cereals), Ballard Flour Co., Kroger Grocery, John Morrell Co. (Red Heart dog food), Top Value Stamps (trading stamps), McCormick spices, Armstrong Rubber Co. and Chicopee Mills.

MAXON: Combined tv-radio billing \$16.8 million; \$15.8 million in television (\$13.8 million in network, \$2 million in spot); \$1 million in radio (\$0.7 million in network, \$0.3 million in spot); tv-radio share of overall billing: 60%.

Maxon picked up in tv billings—about \$2.8 million, representing the first combined broadcast billing increase at the agency in more than two years. Active broadcast clients at Maxon include Gillette in both tv-radio sports events (*Cavalcade of Sports* on NBC-TV and NBC Radio, etc.); General Electric Co. with *Cheyenne* on ABC-TV; Heinz 57 foods (*Captain Gallant* on NBC-TV and *Studio 57* tv film series in regional markets), and Pittsburgh Paint (*Garry Moore Show* on CBS-TV). Pittsburgh Paint is new to network tv. New accounts are Charles E. Hires, beginning activity this year in spot tv, and Climaline Co., active in tv-radio spot; Safeway Stores' Eastern Div. and La Choy Foods Products have not as yet used broadcast media to any extent.

GRANT ADV.: Combined tv-radio billing \$16 million; \$13 million in tv (\$10 million in network, \$3 million in spot); \$3 million in radio (\$0.2 million in network, \$2.8 million in spot); tv-radio share of overall billing: 22%.

Grant broadcast business was up \$2 million over 1956, attributed largely to a bigger lineup of stations for the Chrysler Corp. sponsorship of the *Lawrence Welk Show* and *Top Tunes and New Talent*, both on ABC-TV, and an accompanying accentuated spot tv-radio drive for the Dodge Motors and Plymouth Divisions, which are advertised on the network shows. Plymouth also sponsors *A Date With the Angels* which replaced the *Ray Anthony Show* this fall on ABC-TV. In late November, Grant placed

Tilford Toiletries on NBC-TV's *Queen for a Day* for participations on alternate weeks. Active spot advertisers were Dodge, Plymouth and the Florists' Telegraph Delivery Assn.

GREY ADV.: Combined tv-radio billing \$15.4 million; \$14.4 million in television (\$7 million in network, \$7.4 million in spot); \$1 million in radio (\$0.2 million in network, \$0.8 million in spot); tv-radio share of overall billing: 30%.

Grey this year bettered by \$4.4 million its 1956 broadcast billing. New business at the agency this year included Chunky Chocolates, Procter & Gamble's Pin It, Block Drug's Denturcream, Mennen Electric Preshave, Greyhound Corp., and Ronson shaver and appliances. The agency lost no accounts during the year.

Highlights of Grey's broadcast action in 1957: *Steve Allen Show* on NBC-TV for Greyhound; *West Point* on ABC-TV and *Shirley Temple* on NTA Network, both for Van Heusen shirts; *Masquerade Party* on NBC-TV and *Broken Arrow* on ABC-TV for Five Day Deodorant; *Meet McGraw* and *People's Choice* on NBC-TV for Procter & Gamble, and specials on NBC-TV for Exquisite Form Brassieres.

PARKSON ADV.: Combined tv-radio billing \$15 million; \$14.5 million in television (\$13.5 million in network, \$1 million in spot); \$0.5 million in radio (all spot); tv-radio share of overall billing: 95%.

Parkson Adv., formed last August as an outgrowth of Edward Kletter Assoc., places its billing primarily in network tv. In October, Parkson added J. B. Williams to its Pharmaceuticals Inc. account. Both are associated with *Twenty One* and *What's It For?* on NBC-TV and *To Tell the Truth* on CBS-TV. Spot tv activity is chiefly on behalf of Williams' Kreml, Conti and Skol, while spot radio is used for a number of products.

ERWIN WASEY, RUTHRAUFF & RYAN: Combined tv-radio billing \$15 million; \$10 million in television (\$3 million in network, \$7 million in spot); \$5 million in radio (\$1 million in network, \$4 million in spot); tv-radio share of overall billing: 20%.

The merger of Erwin Wasey and Ruthrauff & Ryan took place in 1957 with broadcast billing this year of \$15 million, the same total R & R alone achieved last year.

Gains for EWR&R in 1957 include American Cyanamid, Cellulose Products, Safeway Stores, S. Brand, KLM Airlines and Roots Motors. Lost in 1957: American Home Products, Carling Brewery, Hamilton Beach Appliances and Penn Salt Co.

Broadcast activity over the year: *Burns & Allen* for Carnation on NBC-TV, and Bon Ami spot and regional buys.

D'ARCY ADV.: Combined tv-radio billing \$14 million; \$8.5 million in television (\$5.5 million in network, \$3 million in spot); \$5.5 million in radio (all spot); tv-radio share of overall billing 28%.

D'Arcy's billing remained the same as in 1956 despite a \$2.5 million cut in television, which was offset by an addition of

\$2.5 million in radio. The agency stepped up its spot radio activity for such clients as Gerber's Foods, Anheuser-Busch Brewing Co. (Budweiser Beer), Standard Oil Co. of Indiana and General Tire & Rubber Co., which also were active in spot tv. The bulk of the agency's business in network tv was for Gerber's, which used such CBS-TV daytime programs as *Captain Kangaroo* and *Garry Moore* and the early-evening *Beat the Clock*, also on CBS-TV. Patterson-Sargent (paints) used participations in *Today* on NBC-TV.

NEEDHAM, LOUIS & BRORBY: Combined tv-radio billing \$14 million; \$11.8 million in television (\$8.8 million in network, \$3 million in spot); \$2.2 million in radio (\$0.2 million in network, \$2 million in spot); tv-radio share of overall billing: 43%.

NL&B's gain was \$2 million. Its network shows include S. C. Johnson & Son on *Steve Allen* (NBC-TV); State Farm Insurance on *Red Barber's Corner* (NBC-TV) and Quaker Oats on *Jane Wyman Show* (NBC-TV).

GEOFFREY WADE ADV.: Combined tv-radio billing \$12.8 million; \$11.8 million in television (\$6.8 million in network, \$5 million in spot); \$1 million in radio (\$0.5 million in network, \$0.5 million in spot); tv-radio share of overall billing: 85%.

Wade's combined tv-radio billing for the first time in the last four years showed a higher level, the billing increasing \$1.8 million above last year's plateau. But the agency continued the shift from radio to television (from \$2 million last year in radio to \$1 million this year). In network tv, Miles Labs has been active in *Wednesday Night Fights* and *Broken Arrow* on ABC-TV and in daytime shows on NBC-TV. Also in the daytime programs (five in all) is Albertoculver Co.

TATHAM-LAIRD: Combined tv-radio billing \$11.2 million; \$11 million in television (\$10 million in network, \$1 million in spot); \$0.2 million in radio (all spot); tv-radio share of overall billing: 48%.

Broadcast billings at the agency dipped \$2.6 million from 1956, resulting largely from a decrease in spot spending. Network clients, who bought shared sponsorship or participations on a host of tv programs, included the Toni Co., Armour & Co., Wander Co. (Ovaltine), General Mills, Campbell Soup and Procter & Gamble. Spot advertisers were Campbell Soup, General Mills, Parker Pen, Wander Co., Toni and Procter & Gamble.

NORTH ADV.: Combined tv-radio billing \$11 million; \$10.5 million in television (\$8.4 million in network, \$2.1 million in spot); \$0.5 million in radio (all network); tv-radio share of overall billing: 88%.

North Adv. completed its second year of operation with a broadcast total of \$11 million, exceeding its 1956 total by \$2 million. Its billing reflects largely the Toni (Div. of Gillette Co.) account, which sponsored on alternate weeks *You Bet Your Life* and *People Are Funny* on NBC-TV

"Where Did
You Go?"

"Up Madison Avenue."

"What Did
You Do?"

"Listened."

We recently visited our national representatives,
the fellows at The Katz Agency.

You think you're tough? You ought to hear Dan and Ken
and Kel holding us up to the light, sticking pins in us,
weighing our statements, counting our noses, evaluating
our evaluations. They got calculators that make $E=mc^2$
a piker. They're the original Leaning Over Backwards boys.
They have a passion for facts; they like this one:

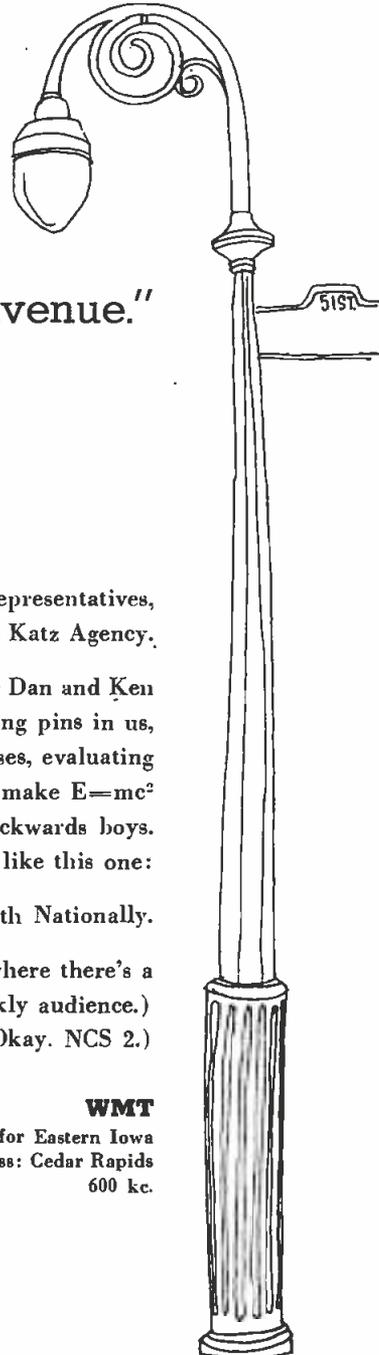

WMT Radio Ranks 39th Nationally.

(There are only 38 markets in the U. S. where there's a
radio station that delivers a larger daytime weekly audience.)

(Give 'em your authority said Dan. Okay. NCS 2.)

WMT

CBS Radio for Eastern Iowa
Mail Address: Cedar Rapids
600 kc.

and Arthur Godfrey's Talent Scouts on CBS-TV. Toni and Lanvin Perfumes used various network radio shows for the summer only. A substantial spot tv advertiser during the year was Jewel Food Stores.

GARDNER ADV., ST. LOUIS: Combined tv-radio billing \$10.4 million; \$8.3 million in television (\$5.3 million in network, \$3 million in spot); \$2.1 million in radio (\$1 million in network, \$1.1 million in spot); tv-radio share of overall billing: 48%.

One account gained, none lost, is Gardner's record for 1957. From Benton & Bowles, Gardner gained Grove Labs' Bromo-Quinine, a heavy NBC Radio spot and NBC Radio Monitor client. Monsanto, last in tv for "all" detergents and starches (which was sold this past spring to Lever Bros. Co.), took a corporate plunge into network tv with a \$2 million CBS-TV *Conquest* project to last two years. Pet Milk Co. co-sponsored Red Skelton's CBS-TV program, participated on that network's *Edge of Night* serial and was an advertiser on NBC Radio's *Grand Ole Opry*. Purina dog chow co-sponsored, with Miles Labs, ABC-TV's *Broken Arrow*, and Procter & Gamble's Duncan Hines Foods began testing tv late in the year on a limited spot basis. Anheuser-Busch's Busch-Bavarian beer again sponsored regional simulcasts of St. Louis Cardinals home games.

NORMAN, CRAIG & KUMMEL: Combined tv-radio billing \$10.3 million; \$8 million in television (\$6 million in network, \$2 million in spot); \$2.3 million in radio (all in spot); tv-radio share of overall billing: 30%.

NC&K increased its billing \$0.7 million over last year's tally. The agency acquired the Pabst Blue Ribbon account and suffered no losses in its client list. Action in 1957 included placement of Ronson Products in NBC-TV news shows; purchase of *Price Is Right* on NBC-TV for Spiedel; sponsorship of *Restless Gun* on NBC-TV for Warner-Lambert, and *Maverick* on ABC-TV for Willis Trucks. Warner-Lambert is represented also on *Tic Tac Dough* on NBC-TV.

DOHERTY, CLIFFORD, STEERS & SHEN-FIELD: Combined tv-radio billing \$10 million; \$9.1 million in television (\$7.5 million in network, \$1.6 million in spot); \$0.9 million in radio (all in spot); tv-radio share of overall billing: 50%.

A gain of \$3.3 million in billing this year can be explained largely by increased use of network tv by Bristol-Myers, which shared sponsorship on a host of programs, including *Mickey Mouse Club* and *Tom-stone Territory* on ABC-TV, *NCAA Foot-ball Game of the Week* on NBC-TV and *Playhouse 90* and *Alfred Hitchcock Presents* on CBS-TV. Bristol-Myers also was a frequent user of participations in NBC-TV's *Tonight*. Pharmaco Inc. utilized daytime network tv with sponsorship of *It Could Be You* and *Comedy Time* on NBC-TV. Spot tv-radio clients were McCormick & Co. (spices), Fulham Bros. (frozen foods) and Borden Co.

KUDNER AGENCY: Combined tv-radio billing \$10 million; \$7 million in television (\$6.5 million in network, \$0.5 million in spot); \$3 million in radio (\$0.3 million in network, \$2.7 million in spot); tv-radio share of overall billing, 35%.

Continued drop in tv-radio billing for Kudner in 1957, following a dip in 1956 from 1955, was attributed mainly to the loss of the Texaco account at the beginning of the year to Cunningham & Walsh and a reduction in activity for several General Motors accounts. Radio-conscious Texaco had been a sponsor of ABC (now ABN) Metropolitan Opera broadcasts, regional sports shows and news programs, but in 1957 Kudner's only billing in radio came from limited spot campaigns for several General Motors Products. Kudner's broadcast business was overwhelmingly in network tv during the year, coming from the Frigidaire and Buick alternate week sponsorship of the *Patrice Munsel Show* on ABC-TV, Buick's alternate week sponsorship of *Wells Fargo* on NBC-TV and General Motors' special two-hour program on NBC-TV Nov. 17.

BRYAN HOUSTON: Combined tv-radio billing \$9 million; \$8.3 million in television (\$6.3 million in network, \$2 million in spot); \$0.7 million in radio (all spot); tv-radio share of overall billing: 48%.

Bryan Houston was off nearly \$2 million in tv-radio billing this year compared to last, the decrease showing up in both tv and radio. Among its network sponsors: Nestle in *Beat The Clock* and *Gale Storm Show* on CBS-TV, Colgate-Palmolive in *The Big Payoff* on CBS-TV.

EDWARD H. WEISS CO.: Combined tv-radio billing \$8.3 million; \$8 million in television (\$7.2 million in network, \$0.8 million in spot); \$0.3 million in radio (all spot); tv-radio share of total billing: 45%.

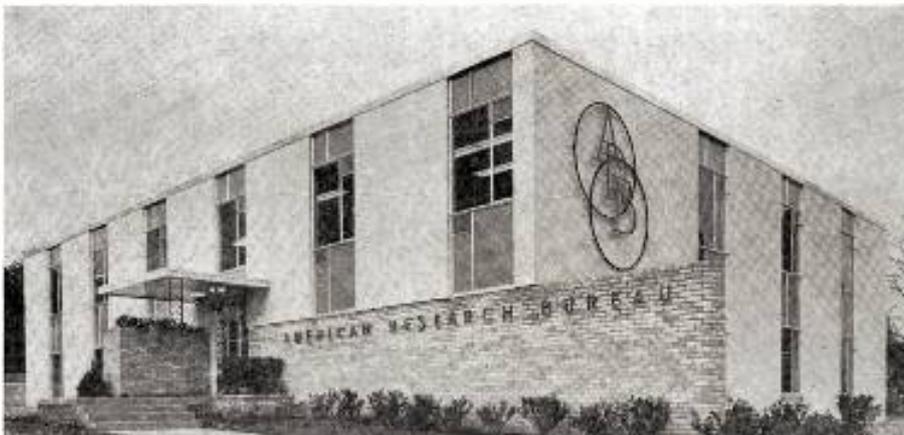

Making its debut among the top 50, Weiss in 1957 experienced some shuffling in the Helene Curtis account structure, lost Lenthier (which it gained last year from Grant) to Gordon Best, but gained Stopette from Earle Ludgin & Co. Curtis enlarged its network buys, adding to CBS-TV's *What's My Line?* the *Gale Storm Show* and alternate sponsorship of *Dick and the Duchess* (with Mogen David and Key wines). Key wine also participated in CBS-TV's *Beat the Clock*. Purex Ltd. (including the newly-bought-out Manhattan or Sweetheart Soap Co.) picked up part of CBS-TV's *Perry Mason* series with Libby-Owens Ford. Spot users included Corina Cigars, College Inn foods, Curtis' Enden shampoo, Perk dog food and the H. W. Gossard Co. (foundations) which went into spot this month after dropping out of NBC-TV's *Queen for a Day*. Weiss lost the \$1.3 million Sealy Mattress account. Weiss added Carling Brewing Co. from the former Erwin, Wasey, Chicago, and has placed Carling in sports shows.

FULLER & SMITH & ROSS: Combined tv-radio billing \$8.2 million; \$7 million in television (\$6.5 million in network, \$0.5 million in spot); \$1.2 million in radio (\$1 million in network, \$0.2 million in spot); tv radio share of overall billing: 24%.

F&S&R billing in tv and radio totaled \$8.2 million for 1957. The agency placed Libby-Owens-Ford Glass Co. in network television—*Perry Mason* on CBS-TV and football games on NBC-TV—for the first time this year. Alcoa sponsored *Alcoa Theatre* on NBC-TV. New accounts gained during the year: Pan American and Sterling Silver, both spot advertisers.

EMIL MOGUL CO.: Combined tv-radio billing \$8 million; \$5.9 million in television (\$3.2 million in network, \$2.7 million in spot); \$2.1 million in radio (all spot); tv-radio share of overall billing: 75%.

Mogul made no drastic strides forward in billing increase, but continued to fatten on accounts already in the shop. Although the biggest setback was the mid-summer loss of Monarch Wine Co. (Manischewitz) to Lawrence C. Gumbinner, it continued to prosper on Revlon. With approximately \$3 million worth of Revlon, Mogul introduced Top Brass (men's line) on the West Coast and gained Aqua-marine as a new Revlon product; it also shared on commercial commissions on both CBS-TV "Ques-

THE new emanation point for ARB's reports is this Beltsville, Md., research center and headquarters. The two-story building represents, according to the American Research Bureau, the country's first building planned expressly for television research. Statistical work for ARB reports in some 140 markets now is coordinated here, following last week's move from ARB's Washington and College Park, Md., locations, announced by James Seiler, director. The organization also maintains offices in New York, Chicago and Los Angeles.

With this important extra: you enjoy the smooth on-time reliability of Mainliners® equipped with radar. For reservations or information, call United or your authorized travel agent.

FLY UNITED—THE RADAR LINE

tion" quiz programs but lost out on Revlon's proposed ABC-TV *Guy Mitchell Show* on which it was to have been the agency of record. Mogul was assured several new Revlon products, some still being tested. Mogul gained some new broadcast accounts, Dr. Pierce's Proprietarys, Barracini candies and Bakers Franchise (Lite Diet Bread). Ronzoni went in for syndicated tv film properties, Rayco enlarged its spot buys and Knomark Mfg. Co. (Esquire) returned to NBC-TV on the *Perry Como Show*. Park & Tilford bought into the network's *Queen for a Day*. P&T expanded into toiletries but assigned the new products to Grant Adv. because of possible product conflict with Revlon at Mogul.

DONAHUE & COE: Combined tv-radio billing \$7.7 million; \$5.9 million in television (all spot); \$1.8 million in radio (all spot); tv-radio share of overall billing: 25%.

Making its debut among the top 50 agencies for first time with a total tv-radio billing of \$7.7 million, Donahue & Co. gained several new accounts during the year. Among them: \$2 million worth of B. T. Babbitt Co. billing (Bab-O, Acme, Am-O, Cameo copper cleaner) from Dancer-Fitzgerald-Sample and Cohen & Aleshire, Pearson Pharmacal Co.'s Eye-Gene from Al Paul Lefton Co. and Chemway Corp.'s Lady Esther face creams and powders from D-F-S, Chicago. (D&C already serviced Chemway's Dunbar Labs and Pearson's Ennds and Sakrin when the new products were assigned.) No D&C advertiser spent money in network, but spot activity was considerable; it included Corn Products Refining Co.'s Bosco, which hit the western trail in 57 markets with CBS Tv Film Sales' *Annie Oakley*; CPRC's Kasco dog food, spot announcements; E. F. Drew & Co.'s Tri-Nut margarine, tv spot; Loew's Inc. and Columbia Pictures Corp., radio-tv spot; Scholl Mfg. Co., radio spot, and Scripto Inc., tv spot.

MACMANUS, JOHN & ADAMS: Combined tv-radio billing \$7.7 million; \$5.6 million in television (\$3.8 million in network, \$1.8 million in spot); \$2.1 million in radio (\$0.7 million in network, \$1.4 million in spot); tv-radio share of overall billing: 19%.

Counting a \$0.7 million gain over 1956 tv-radio billing, MJ&A this year placed more radio business, primarily for Pontiac; Dow Chemical Co. (Saran Wrap), and the "New York accounts," such as S. B. Thomas bread, Medaglia d'Oro coffee, Good Humor Corp. and White Rock Corp. MJ&A inherited from Kudner Agency \$5.5 million worth of General Motors institutional tv billing for *Wide Wide World* (NBC-TV). Other network advertisers: Minnesota Mining & Mfg. Co. (new Scotchard stain repellent), using eight NBC-TV daytime shows next month for Christmas promotion; Pontiac Motors Div. of GM re-entered network tv with "specials" such as this week's "Annie Get Your Gun" and radio sports coverage; Noxzema in *Perry Como Show* as well as NBC Radio's *Red Foley Show*; Dow Chemical Co., in CBS-TV's *Garry Moore Show*, and Cadillac Motor Car Div., GM, which stepped up its radio network

BIG NIGHT

The Television Bureau of Advertising last week announced that a TvB-Nielsen cumulative report covering the evening of Oct. 13 (Sunday) showed that between 6:30-10:30 p.m. on that date, 85% of all tv homes in the U. S. had their tv sets on. The report stated that these 34.8 million homes spent more than two hours and 47 minutes watching tv during the four-hour period. TvB sent a message to sponsors, advertising agencies and networks involved in the programming, hailing "one of television's greatest entertainment nights."

schedule. Big spot buyers: Good Humor, S. S. Kresge, Squirt Bottling Co., Minnesota Mining, White Rock and Pontiac.

KEYES, MADDEN & JONES: Combined tv-radio billing \$7.4 million; \$6.6 million in television (\$4.5 million in network tv, \$2.1 million in spot); \$0.8 million in radio (all spot); tv-radio share of overall billing: 49%.

Known until early fall as Russel M. Seeds Co., KM&J was formed by International Latex and former NBC executive Ed Madden, Grant Adv.'s Howard Jones and Seeds President Freeman Keyes. The Seeds account structure was retained intact, except for the loss earlier in the year of the Lanolin Plus account to Kastor, Farrell, Chesley & Clifford. It gained several small broadcast accounts from Joseph Katz Co., New York-Baltimore, along with that agency's Vice President-General Manager David Hale Halpern. W. A. Sheaffer Pen Co. this fall signed for the *Lucy* re-runs on CBS-TV, and Brown & Williamson Tobacco Co., in addition to spot, bought participations for Raleigh cigarettes on NBC-TV's *It Could Be You* and *Queen for a Day*. Spot buyers included Pinex Co. and Taste-Freez Corp. of America.

GORDON BEST: Combined tv-radio billing \$7.3 million; \$6 million in tv (\$3.5 million in network, \$2.5 million in spot); \$1.3 million in radio (\$0.8 million in network, \$0.5 million in spot); tv-radio share of overall billing: 60%.

This is the first year Gordon Best has appeared among the top 50 agencies. New accounts include Comstock Foods, Lenthic Lines, Curtis Pharmacal and Mystic Foam and Mystic Clean. The agency's network shows include *Dick and the Duchess* on NBC-TV for Helene Curtis and special events for Maybelline on both NBC-TV and CBS-TV.

GUILD, BASCOM & BONFIGLI: Combined tv-radio billing \$6.9 million; \$5.3 million in television (\$3.8 million in network, \$1.5 million in spot), \$1.6 million in radio (\$0.4 million in network, \$1.2 million in spot); tv-radio share of overall billing: 70%.

GB&B pushed into recognition with an imposing roster of acquisitions. New products include: Breast O' Chicken tuna, Best Foods' Nucoa, Heidelberg beer, Mary Ellen's

jams and jelly and Max Factor cosmetics. The agency gave up one regional account, Regal Pale beer. The firm places *You Asked for It* for Best Foods and *Bold Journey* for Skippy peanut butter, both on ABC-TV. In addition GB&B has placed spot campaigns for Nucoa and Breast O' Chicken tuna, among others.

COHEN & ALESHIRE: Combined tv-radio billing \$6.6 million; \$5.1 million in television (\$0.5 million in network, \$4.6 million in spot); \$1.5 million in radio (\$0.5 million in network, \$1 million in spot); tv-radio share of overall billing: 80%.

During the year, C&A lost Babbitt Co. and Doeskin Products accounts but picked up Dormin Inc. and Edro Products, among others, while handling a new Grove Labs product—4-Way liquid. The agency during the year changed its name from Harry B. Cohen Adv. to Cohen & Aleshire Inc. and also gained \$1.1 million over last year. Grove Labs is the primary network sponsor at C&A, although it also is heavy in spot. Among shows: CBS Radio's "Impact" package and NBC Radio's *Monitor*, in tv, *Panorama Pacific* on CBS-TV and *Today* on NBC-TV.

DOYLE DANE BERNBACH: Combined tv-radio billing \$6.5 million; \$6.1 million in television (\$3.9 million in network, \$2.2 million in spot); \$0.4 million in radio (all spot); tv-radio share of overall billing: 32%.

DDB enters the ranks of top broadcast agencies for the first time this year with several network placements. Chemstrand Corp. made its first network buys with NBC-TV's *Sally* and segments of that network's *Steve Allen Show*; Polaroid Land cameras continued participations in NBC-TV's *Tonight* and Max Factor of Hollywood dropped co-sponsorship of NBC-TV's *Panic* and continued on Polly Bergen and Dean Martin programs.

E. & J. Gallo Winery, heretofore spot tv only, entered tv film syndication sponsorship nationally. Dreyfus & Co. made its tv debut as an investment banking house. This past summer DDB picked up the Glim portion of the B. T. Babbitt account, began heavy radio spot and presently plans tv spot.

DDB also picked up American Export Lines from Cunningham & Walsh, retaining it on local radio and entering AEL in local tv via WBAL-TV Baltimore and WTTG (TV) Washington. McCall Corp. began using more spot radio. Among other spot radio users: A. Goodman & Sons, Barton's, Henry S. Levy Sons and Fairmont Foods; tv spot: Venus Pen & Pencil and Gallo.

OGILVY, BENSON & MATHER: Combined tv-radio billing \$6.4 million; \$4 million in television (\$2.1 million in spot, \$1.9 million in network); \$2.4 million in radio (all spot); tv-radio share of overall billing: 38%.

OB&M experienced a "growth year" in 1956 as more of its advertisers expanded broadcast use and as Philip Morris' new menthol Spud cigarettes and Lever Bros. Co.'s Dove soap made their debuts. Network-wise, ODM shared billboard space and commissions for Lever on CBS-TV's *Art Linkletter's House Party* (Good Luck

IN INLAND CALIFORNIA (AND WESTERN NEVADA)

BEELINE[®] RADIO

delivers more for the money

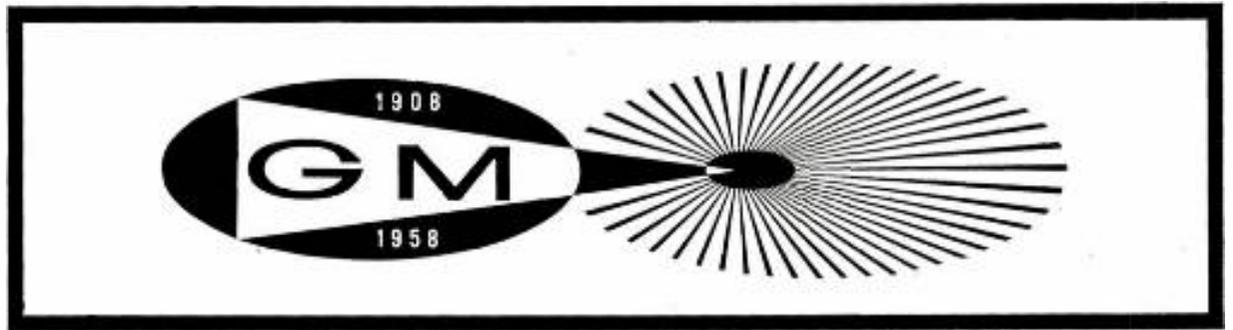

This group of mountain-ringed radio stations, purchased as a unit, delivers more radio homes than any combination of competitive stations . . . at by far the lowest cost per thousand. (Nielsen & SR&D)

They serve this amazingly rich inland market which contains 4 of the top 5 counties in farm income in California, the nation's leading farm state — and has an effective buying income of almost \$4.3 billion dollars. (Sales Management's 1957 Copyrighted Survey)

the symbol of

“The Best Show
of the Season”

Marie Torre, N. Y. Herald Tribune

Over 50,000,000 Americans saw the General Motors 50th Anniversary Show on NBC Television on Sunday night, November 17. It averaged a 54.1 share of audience—more viewers than watched all other networks and local stations *combined*.

Jack Gould, The New York Times, wrote: “. . . rewardingly experimental in approach . . . artistic television of a high order . . . enormous style and imagination . . . followed no usual or conventional pattern . . . It was a long forward step in creative musical work on television.”

Paul Molloy, Chicago Sun-Times, called it “. . . a spectacular blend of entertainment and thought . . . clacking off sparks of emotion like the belly of a braking train.”

Jack O'Brian, N. Y. Journal-American, wrote: “There could hardly be a bigger show this season.”

Helm, Daily Variety, wrote: “It had that golden glow from stem to stern . . . RCA color had the magnificence of a rainbow.”

Herschell Hart, Detroit News, said: “It was worthy of the sponsor's half-century celebration.”

John Crosby, N. Y. Herald Tribune, stated: “I know of no other medium except television . . . that would have done anything as unusual as the General Motors Show.”

The General Motors 50th Anniversary Show was an NBC Television production, written by Helen Deutsch and produced by Jess Oppenheimer. It takes its place with other great shows already seen on NBC this season—for example, Green Pastures, On Borrowed Time and Pinocchio. It is also a measure of others yet to come—Van Johnson in The Pied Piper of Hamelin; Mary Martin in Annie Get Your Gun, co-starring John Raitt; Maurice Evans in Twelfth Night; and the Shirley Temple Story Book series.

For the exciting and original, look to . . . **NBC TELEVISION**

Margarine), *Sir Lancelot*, *Private Secretary* re-runs and that program's fall substitution, *The Eve Arden Show*.

For Armstrong Cork Co.'s ceilings, OB&M sat in every third week on CBS-TV's *Armstrong Circle Theatre*. It resigned spot user Diamond Crystal salt this summer, but expanded radio spot lineups (regionally) for Pepperidge Farm bread and Tetley tea. Nationally, Thom McAn shoes went after teenagers with d.j. shows and Schweppes USA Ltd. enlarged both tv-radio spot campaigns in major markets.

WARWICK & LEGLER: *combined tv-radio billing \$6.2 million; \$3.7 million in television (\$3 million in network, \$0.7 million in spot); \$2.5 million in radio (\$2.3 million in network, \$0.2 million in spot); tv-radio share of overall billing: 40%.*

W&L closed out the year with more or less the same billing as in 1956, its gains for 1957 registering on par with its calendar-year losses. While it gained in excess of \$5 million worth of Revlon business this fall from BBDO, only a very small part of the billing will show up this year; it lost \$5 million worth of Schick Inc. business in mid-year, but only about half of Schick billing was registered up to the time this account left for Benton & Bowles. With Revlon, it now is agency of record on both CBS-TV "\$64,000" quizzes and partakes in C. J. La Roche's *Walter Winchell File* (ABC-TV). It lost \$200,000 worth of George W. Luft Co. (Tangee lipstick) business to Calkins & Holden but gained an additional \$1 million Seagram business (non-broadcast). Ex-Lax expanded its use of radio and Jacob Ruppert Brewery—perhaps for the last time—sponsored simulcasts of the New York baseball home games of the Giants.

D. P. BROTHER: *Combined tv-radio billing \$6.2 million; \$6 million in television (\$5.5 million in network, \$0.5 million in spot); \$0.2 million in radio (all spot); tv-radio share of overall billing: 21%.*

D. P. Brother shows up in the top 50 agencies for the first time this year with a combined tv-radio billing of \$6.2 million. Network activity for its clients included: A. C. Sparkplug's *Wide Wide World* on NBC-TV and Oldsmobile's NBC-TV *Color Carnival*, two political conventions on NBC-TV and Sugarbowl football coverage on ABC-TV.

EARLE LUDGIN: *Combined tv-radio billing \$6 million; \$5 million in television (\$3 million in network, \$2 million in spot); \$1 million in radio (all spot); tv-radio share of overall billing: 46%.*

Earle Ludgin dropped \$1 million in combined tv-radio billing under last year's figure. The agency lost Helene Curtis to Gordon Best, Edward H. Weiss and McCann-Erickson and gained Tidy House products from McCann-Erickson. Ludgin had portions of *Dick and the Duchess* and *What's My Line?* for Helene Curtis, both on CBS-TV, for a portion of the year.

GEYER ADV.: *Combined tv-radio billing \$5.5 million; \$4 million in television (\$3 mil-*

lion in network, \$1 million in spot); \$1.5 million in radio (\$0.5 million in network, \$1 million in spot); tv-radio share of overall billing: 30%.

Geyer dropped \$2.5 million under its previous year's total. With the cancellation of ABC-TV's *Disneyland* this summer, American Motors Corp. began pouring more allocations into network radio but did not compensate for its previous tv expenditures. American Home Products Corp. (Boyle-Midway and American Home Foods Divs.) picked up some network showcasing with CBS-TV's *Have Gun, Will Travel*, NBC-TV's *Tic Tac Dough* and some daytime serials. It resigned Paul Masson vineyards (an occasional broadcast user) and gained Doyle Packing Co. (New Jersey) which it promptly placed in spot throughout the East.

FITZGERALD ADV.: *Combined tv-radio billing \$5.3 million; \$4.8 million in television (\$2.8 million in network, \$2 million in spot);*

BALTIMORE 6% TAX TO FACE COURT TEST

- Media bill: \$2.6 million
- Taxes effective Jan. 1, 1958

Baltimore's brand new advertising taxes—though pared from 9½% to 6% in a last-minute strategy that insured city council approval—will still put a \$2,653,000 monkey on the back of local media. That's the estimated annual return from the twin levies as contained in the city budget approved last Thursday.

The modified tax proposals were passed 14-6 (on the 4% sales tax of gross advertising receipts) and 14-5 (on the 2% levy on gross of all local advertising media) and were promptly signed Nov. 15 by Mayor Thomas D'Alesandro [AT DEADLINE, Nov. 18].

But, as promised all along by the many opponents of the measures, the legality of the "discriminatory" taxes is slated for a court test. Within hours of the enactment, the A. S. Abell Co., publisher of the Baltimore *Sunpapers* (WMAR-TV), declared it would contest "the validity of the ordinances in the courts to the fullest extent."

The exact nature of the legal counter-attack, which would include a plea for injunctive relief, was being worked out late Friday by attorneys of various medical companies involved (see AT DEADLINE).

William F. Schmick Sr., president of A. S. Abell Co., said: "We are convinced that the advertising tax ordinances are discriminatory and are a direct violation of the freedom of press guaranteed by the United States Constitution."

The 4% sales tax is detailed in Ordinance 1693 which becomes a part of the Baltimore City Code and, insofar as radio-tv is concerned, specifies that the levy be made upon the gross sale price of:

"Each and every sale of time on or in

\$0.5 million in radio (all spot); tv-radio share of overall billing: 35%.

Fitzgerald Adv. appears among the first 50 agencies for the first time with a combined \$5.3 million in television and radio. The agency had Wesson Oil on *Caesar's Hour* on NBC-TV for the first part of the year. Fitzgerald also placed the following accounts in tv and radio spots: Jackson Brewing Co., Snowdrift Div. of Wesson Oil, Louisiana State Rice, Blue Plate Foods, Louisiana Coca-Cola, Pioneer Flour Mills and Austex.

RAYMOND SPECTOR: *Broadcast billing \$5 million, all in television (\$4.7 million in network, \$0.3 million in spot); tv share of overall billing: 95%.*

Spector, agency for Hazel Bishop, this year dropped \$0.6 million under its 1956 billing. The cosmetic firm was represented over the year on *M Squad*, *Jane Wyman Show* and *Ted Mack Amateur Hour*, all on NBC-TV. END

connection with any intrastate radio or television broadcast originating from the City of Baltimore and directed to persons in the State of Maryland, which time is used for or in connection with advertising and advertising purposes."

Exempted are non-profit religious, scientific, educational and like organizations.

The tax, effective Jan. 1, 1958, is payable by "every vendor" on the 25th of the month next succeeding the month in which the taxable space or time is sold.

The companion Ordinance 1694 also becomes part of the city code and states the application of the 2% levy on advertising media, including radio-tv, in almost identical language. Those subject to this tax must file quarterly on or before the 15th of April, July, October and January.

An additional bookkeeping headache looms under both ordinances which spell out that "complete and accurate records" with invoices, billing data and other documents "as are necessary to determine the amount of the tax" are to be maintained.

The Advertising Federation of America blasted the new Baltimore taxes. AFA Chairman Robert M. Feemster, declared:

"Anything that tends to discourage advertising can kill all kinds of jobs in all kinds of fields. It can deprive the public of the benefits derived from mass production—the basis of our nation's prosperous economy. The fact that we have the highest standard of living in the world didn't just happen accidentally. It is the result of mass buying caused through advertising. Advertising is by far the greatest force in mass selling, which alone permits mass production and full employment."

Apparently undaunted by the fact that he had motormanned through a tax that hit all Baltimore media and antagonized others outside the city, Mayor D'Alesandro Nov. 15 put himself squarely on the record as seeking the Democratic nomination for governor next year with the flat statement: "I am going to run."

RADIO-TV GET BIG AAAA PLAY

- Two-day conference points up media's forcefulness
- Hypothetical campaign leans heavily on broadcasting

Radio and television commercials got a big play at the American Assn. of Advertising Agencies' annual eastern regional conference in New York last week.

They got a heavy share of the "allocations" in a "campaign" for a hypothetical cigarette, and techniques in their production were the subject of an afternoon-long workshop session.

The forcefulness of radio and television as sales tools also was pointed up in other sessions of the two-day conference, held last Tuesday and Wednesday with an estimated total attendance of 2,500.

Three agency executives, asked to plan media strategy for a hypothetical cigarette, came up with campaign plans that relied strongly on the broadcast media.

Newman F. McEvoy, senior vice president and media director of Cunningham & Walsh, gave tv and radio a little more than half of the load to bear in a 17-week introductory period and slightly less than that for the rest of the campaign. Robert H. Boulware, associate media director of Bryan Houston Inc., put primary emphasis on radio and television—especially tv—as did G. Maxwell Ule, senior vice president of Kenyon & Eckhardt.

Out of a \$7 million "budget," Mr. McEvoy allocated \$595,268 to spot television, \$437,000 to spot radio, \$672,270 to out-

the tapes will be "interchangeable"—that is, those recorded on one machine may be played on another—and can be spliced or edited. In addition, he noted, color conversion kits "positively will be made available."

Mr. Snyder said that "more than one purchaser of the equipment is planning to produce commercial material on an independent basis, away from the facilities of the broadcasting stations which will use it, well in advance of release, and to make copies available for release at selected times on stations or networks which have videotape recorders for their reproduction."

He estimated the cost of videotape operation at \$6.90 an hour for recording or replay.

A tv critic's opinion of commercials—not good—was developed in an interview by Mike Wallace, of ABC-TV's *Mike Wallace Interviews*, with Marie Torre, tv-radio columnist of the *New York Herald Tribune*. Miss Torre said she didn't review commercials because most of them, in her opinion, "don't warrant criticism."

The audience of 250-300 agency executives split approximately half and half when Mr. Wallace polled them on whether tv-radio critics should carry "perhaps a little box" criticizing commercials.

Radio commercials—and especially the quality of those being turned out by agencies throughout the U. S.—were appraised by Kevin B. Sweeney, president of the Radio Advertising Bureau.

"Without any question," he said, "advertising agencies in Milwaukee, Los Angeles, Washington and several other cities are now producing some of the very best jingles done in this country. And what is even more important, stations in cities of 10,000, 50,000 or even 30,000 are producing with the aid of jingle specialists and their own local creative talent radio sales messages that have a professional sheen very near that of commercials produced by the great commission houses in this neighborhood."

Mr. Sweeney said commercials for radio, "the only non-visual advertising medium," must have a different approach, and he predicted that "ultimately the more specialized and sophisticated agencies will have a sub-department that does nothing but write or edit for the ear alone."

Use of the "seven lively arts" as a base for the presentation of commercials was urged by Howard J. Doyle, tv-radio copy chief of Cunningham & Walsh.

"It's easy to restrict ourselves to the use of animation—the art of drawing—or live action—the art of drama. But let's remember that as creative people, the job of im-

proving the standards and widening the landscapes of commercial television falls directly to us."

To show how the arts may be employed effectively, Mr. Doyle cited a Stopette commercial using the dance to "sell"; Aluminum Co. of America's commercial employing architecture; Eveready Flashlight's use of poetry; Schweppes quinine water's use of drama; Folger coffee's use of sculpture; Schaefer beer's use of music, and Chase Manhattan Bank's and General Motor's use of art.

In the account management workshop, meanwhile, James N. Harvey, McCann-Erickson tv creative group head, asserted that "there is no excuse for an advertising man to plead ignorance of television technique." Too often, he said, "management fails to assign responsibility for the total job of building a commercial to a qualified creative man."

He said "the need for this man" should be impressed upon agency management. Then, "once you get him, work with him closely. Give him the full story—a detailed outline of your commercial objectives. Be sure to tell him what you want to achieve, not how to achieve it. Third, give him his head. Be sure he has the authority and responsibility needed. Of course he'll check with you each step of the way. But let him do the job."

AFTRA Meets With Ad Agencies To Discuss Strike at WCKY

American Federation of Television & Radio Artists held a closed-session meeting last Wednesday with executives of about a dozen New York advertising agencies for a discussion of the AFTRA strike at WCKY Cincinnati [PERSONNEL RELATIONS, Nov. 18].

Donald Conaway, executive director of AFTRA, later said the meeting was "very pleasant" but declined to give details. It is known that for the past month AFTRA has sent memoranda to agencies on the strike and has suggested that commercials for their clients be taken off the air. It is reported that Mr. Conaway invited agency representatives to the meeting so that he might make a similar presentation of a more persuasive nature to the agency executives personally.

Seven announcers, members of AFTRA, have been on strike at WCKY since Aug. 28. The dispute originated largely over a demand by the announcers for an increase in wages.

R. J. Reynolds Reshuffles

An executive shuffle at R. J. Reynolds Tobacco Co., Winston-Salem, N. C., described by a spokesman as a move to "strengthen" the company's organization, was announced last week. In the changes, E. A. Darr, 67, president of Reynolds since 1952, was elected to a new post of vice chairman; Bowman Gray, 50, executive vice president since 1955, was elected to succeed Mr. Darr and H. H. Ramm, general counsel since 1955, was elevated to a vice presidency. Mr. Darr reportedly will continue to be active in company affairs.

door and \$329,373 to newspapers for the introductory period and \$762,265 to network radio, \$595,268 again to spot tv and \$1,829,079 to magazines for the rest of the year, leaving \$1,779,035 to take care of rate increases, production, etc.

Mr. Boulware allocated \$4,331,353 for spot television, \$525,018 for network radio, \$125,000 for commercials production and \$2,064,236 for Sunday newspaper supplements. Mr. Ule depended heavily on both radio and television, making network tv the major medium (44%).

Television tape recording as a medium for commercials was pointed up by Ross H. Snyder, manager of the special products division of Ampex Corp. which is slated to begin delivery of commercial models of its videotape recorders this month. He said

French Ad Agency, Publicis, Planning New York Office

European advertisers and U. S. markets last week drew closer to one another as Publicis, said to be France's largest advertising agency, announced plans to open a New York office as Publicis Corp.

The agency's founder and president, Marcel Bleustein-Blanchet, arrived in New York last week to lay the groundwork. He explained Publicis Corp. does not wish to compete with U. S. agencies "on their home grounds," but rather, strive to introduce special European clients to U. S. agencies which will be best able to service their products. It also will encourage U. S. agencies lacking European offices to work through Publicis and its European Common Market affiliates.

Publicis Corp.'s president-to-be is Bernard Musnik, most recently with Ziv Television Programs Inc. Mr. Musnik, a former correspondent for Radio-Cite, France's prominent pre-war commercial station, has had 17 years background in broadcasting, working with Crosley Broadcasting's international station, WLWO, and later becoming vice president in charge

MR. MUSNIK

of Crosley's eastern division.

U. S. advertisers presently using the services of Publicis (France) include Colgate-Palmolive Co., Singer sewing machines, Shell Oil, Chemstand Corp., and Frigidaire, a division of General Motors.

Beneficial Management Quits Reach, McClinton for Lefton

Beneficial Management Corp., Morristown, N. J., a spot radio user, switches its agency from Reach, McClinton & Co., New York, to Al Paul Lefton Co., New York, effective Jan. 1.

The move of the account represents a loss of \$2-2.5 million billings for Reach, McClinton, which will be billing \$14 million this year.

Beneficial is affiliated with Beneficial Finance Co., operating more than 1,000 finance and loan offices in the U. S. and other countries. According to Charles Dallas Reach, the agency's chairman, Reach, McClinton was "fired," while Beneficial noted that it felt it wanted to change agencies (the firm was associated with the agency for the past 11 years). Only a week before, Harold H. Black, senior vice president, a member of Reach, McClinton's board and executive committee as well as supervisor on the Beneficial account for 10 years, had resigned from the agency.

MBS Appoints Weiss & Geller

MBS has announced the appointment of Weiss & Geller, N. Y., to handle its advertising and "will embark upon an aggressive advertising and promotion program on both the trade and consumer levels."

Just a darn minute, Smidley.

The old gang at the frat'll have to wait till I see that Cascade order. Drat it, Smid, can't you shake those 1925 buying habits? This Cascade's important—one of the nation's top 75 markets. Think of it, exclusive television coverage in a market of over half a million with over a billion to spend. We can't overlook that and, by George, we won't!

ABC-TV GOAL: EVENING LEAD BY APRIL

Affiliates meet told emphasis is now on network's programming

ABC-TV's goal is nighttime tv audience leadership by next April.

That objective was laid out before the network's primary affiliates at an all-day meeting in Chicago Wednesday, along with a progress report on programming and other areas since ABC-TV set its competitive sights on CBS-TV and NBC-TV last year.

Station managers and promotion representatives generally expressed satisfaction with ABC-TV's future program plans, to be effectuated immediately.

Where ABC-TV acknowledged a station clearance problem as a major—if not the No. 1 headache—in 1956, management heads frankly emphasized programming last week as the top subject on the network's agenda, partly because of NBC-TV and CBS-TV claims. The consensus of the top-level contingent is that ABC-TV has made good progress in the intervening year and expects to improve its competitive position still more at the dawn of an era that presages fewer "run-away" ratings for individual program series. ABC-TV, particularly, claims to have shown substantial improvement in markets where it competes head-on with the other networks.

At the same time it's conceded that, while the network has not resolved all its station clearance problems, the issue is less pressing than it has been in previous years.

Underlying the harmonious sessions was the feeling—if not the actual confirmation this past week—that ABC-TV's executive reins momentarily will be more definitively thrust into the hands of Oliver Treyz, ABC-TV vice president in charge of television, and James T. Aubrey Jr., vice president in charge of programming and talent. Speculation that Messrs. Treyz and Aubrey would be elected president and executive vice president, respectively, of ABC-TV was a subject of constant corridor talk Wednesday, though the American Broadcasting-Paramount Theatres Inc. board took no formal action at its meeting Monday. Indeed, some affiliates expected a dramatic announcement during the Chicago sessions.

The ABC-TV management team addressed more than 80 managers and also promotion executives of the network's nearly 100 primary affiliate stations, plus managers from a handful of secondary ABC-TV affiliates (those with basic CBS-TV or NBC-TV contracts), at an all-day meeting in Chicago's Sheraton-Blackstone Hotel.

It seemed evident from the closed morning session that ABC-TV still regards programming as its No. 1 problem, despite ratings gains on NBC-TV and CBS-TV since 1956, with one or two sore spots in the network schedule.

Mr. Treyz sounded the keynote, reminding affiliates the network has committed over \$60 million in programming for the 1957-58 season. By April 1958, he asserted, ABC-TV hopes to be "the leader

in nighttime audiences in the competitive markets throughout the country where we compete directly with the other two networks."

ABC-TV's biggest gains in audience share, Mr. Treyz claimed, have been in live competitive markets where it knocks heads with CBS-TV and NBC-TV. Since November last year, he asserted, ABC-TV's share of homes reached in average evening hours has achieved a 45% increase.

"This translates to two million more American homes now viewing ABC programs than last year at this time," Mr. Treyz reported.

Affiliates were apprised of this progress of the past year, future programming plans and, specifically, of proposed jockeying of some present series around to better compete with NBC-TV and CBS-TV.

It's understood some of the program changes contemplated are these:

- The format of the Frank Sinatra show is being overhauled in view of frankly disappointing ratings, with the Sinatra series going live Nov. 29 (Fri., 9-9:30 p.m. EST). The plan is to televise one live program in December and go entirely live after Jan. 1, 1958, by which time Mr. Sinatra hopes to complete present motion picture commitments.

CHAIRMAN of the ABC-TV Affiliates Board Fred Houwink of WMAL-TV Washington (l), is filled in on the network programming picture by Oliver Treyz, vice president of ABC-TV.

The Patrice Munsel show, now slotted before Sinatra (8:30-9 p.m. EST), would be shifted to the post-Sinatra segment (9:30-10 p.m. EST), concurrent with the dropping of *Date With the Angels*.

- The across-the-board *American Bandstand*, a popular teenage show, is due to be moved into the slot (Sat., 8-9 p.m. EST) opposite NBC-TV's *Perry Como Show*, replacing *Country Music Jubilee* and also competing with equal half-hour segments of CBS-TV's *Perry Mason Show* and *Dick and the Duchess* (both reported to be under consideration for cancellation after the present 13-week cycle).

- The filmed 30-minute maritime adventure series, *Harbourmaster*, moves from CBS-TV to ABC-TV Jan. 5, replacing *Bowling Stars* (Sun., 8:30-9 p.m. EST) and following *Maverick*. The film series will appear under a new undisclosed title, it was reported.

- Mike Wallace, controversial reporter on *Mike Wallace Interview*, is slated to emcee a new dramatic show along the lines of the present *Walter Winchell File*. Plans for perhaps a weekly series featuring Orson Welles and a new daytime Disney property also are on the drawing boards.

The apparent ratings success of the western *Maverick* series was cited by ABC-TV management officials as an example of a good program knocking off top competition—specifically CBS-TV's *Ed Sullivan Show* and NBC-TV's *Steve Allen Show*, along with the former's *Jack Benny Show* on the basis of ratings the past fortnight.

Specifically, station managers of ABC-TV affiliates were commended by Leonard H. Goldenson, president of American Broadcasting-Paramount Theatres Inc., for "excellent" promotion efforts on behalf of *Maverick*.

Overall, Mr. Goldenson attributed much of ABC-TV's success to excellent cooperation by affiliates and asserted: "We have a great team at ABC-TV and with their enthusiasm and drive, together with the support we can give them, they will make ABC-TV the No. 1 network."

Mr. Goldenson also reviewed the network's facilities expansion plans, particularly its acquisition of properties on West 66th Street adjacent to its headquarters offices in New York City. The network also has completed construction of a theatre within its New York tv center designed to accommodate live audiences for network shows [NETWORKS, Nov. 11, Oct. 14].

ABC-TV's new specific goal, aside from leadership in nighttime viewing in directly competitive markets with NBC-TV and CBS-TV, is to make it "the No. 1 network in 85 out of 100 American television homes," according to Mr. Treyz. He hoped this objective can be achieved by next April (or about the end of the second 13-week cycle in the 1957-58 season).

This timetable, presumably, reflects Mr.

MID-AMERICA NATIONAL BANK
OF CHICAGO

 sold by
SPOT SALES

Treyz' well-known observation that despite early-season ratings claims by NBC-TV [NETWORKS, Sept. 16], "the public is the jury and the 1957-58 jury is still out."

"Our objective also is to distribute the best programs to the most viewers at the least cost to advertisers," Mr. Treyz emphasized. He told affiliates, alluding to the April target date, that "with your help and ABC's continued strong programming and promotion, we can narrow the gap and then eliminate it entirely by next April."

Included with *Maverick* and *American Bandstand* in the ABC-TV program progress report, given by James T. Aubrey Jr., vice president in charge of programming and talent, was the *Walter Winchell File* (Wed., 9:30-10 p.m. EST), produced by Desilu Productions. Affiliates also were assured that *Disneyland* will be beefed up in the coming months with fresh ideas from the shop of Walt Disney.

Attending the ABC-TV affiliates meeting were Desi Arnaz, Desilu Productions; Mr. Winchell, and representatives (including Walt Disney Productions) for such properties as *Disneyland*, *Maverick* and *Tombstone Territory* and for ABC-TV and American Broadcasting Network (BBDO).

Station managers also were introduced to Thomas W. Moore, new ABC-TV vice president in charge of sales, who solicited their support "by way of your suggestions, your prospects and your criticisms." He added, "I am the greatest beneficiary of today's meeting—I have received a great education." Affiliates were told that ABC-TV saleswise hopes to catch up with NBC-TV and at least close the gap with CBS-TV in succeeding months.

Programming support in terms of advertising, promotion, publicity and exploitation was outlined in the afternoon session by Dean Linger, advertising-promotion director, Michael J. Foster, vice president in charge of press information, and Sig Mesibov, exploitation chief. The meeting was opened by Al Eckman, ABC vice president in charge of station relations.

The network contingent also included

Don Coyle, sales development and research vice president, and Don Shaw, station clearances director. ABC-TV executives from the network's various o&o station cities also were in attendance.

The special co-op advertising and promotion program, designed to give stations aid on a par with assistance being given affiliates of CBS-TV and NBC-TV, provided a healthy stimulant to ABC-TV's affiliate delegates. Stations would pay half the cost (along conventional 50-50 co-op lines) and receive basic newspaper mat and other materials in a move to buttress the network's Wednesday and Friday evening program schedules, which overall includes *Disneyland*, *Tombstone Territory*, *Adventures of Ozzie & Harriet*, *Walter Winchell File*, *Wednesday Night Fights*, *Rin Tin Tin*, *Jim Bowie*, *Patrice Munsel Show* and the *Frank Sinatra Show*.

The ABC-TV Stations Affiliates Assn., headed by Frederick Houwink, WMAL-TV Washington, D. C., met Thursday. Other board members of the affiliates board are Harry Lebrun, WLWA (TV) Atlanta, Ga.; Joseph Hladky, KCRG-TV Cedar Rapids, Iowa; Joseph Drilling, KJEO-TV Fresno, Calif., all officers, and Joseph Bernard, KTVI (TV) St. Louis, Mo.; Donald Davis, KMBC-TV Kansas City; Joseph Herold, KBTW (TV) Denver, Colo.; J. W. McGough, WTVN-TV Columbus, Ohio, and Willard Walbridge, KTRK-TV Houston, Tex.

Some station affiliates reported healthy audience reaction to the network's *American Bandstand* (Mon.-Fri., 3-4:30 p.m.) and others indicated they'd like to carry the full 90 minutes, instead of only part of it as at present.

The ABC-TV affiliates board, meeting Thursday afternoon at the Ambassador East Hotel, discussed several subjects, under Mr. Houwink's chairmanship. It also set another meeting for Miami Beach, Fla., sometime next January—probably Jan. 8-9, to be followed by an all-day meeting Jan. 10 with the ABC management contingent.

AB-PT Sets 25 Cents Dividend For Common, Preferred Stock

American Broadcasting-Paramount Theatres announced last week that the board of directors has declared dividends of \$0.25 per share on the outstanding common stock and \$0.25 per share on the outstanding preferred stock of the corporation, payable Dec. 20 to holders of record on Nov. 29, 1957, according to Leonard H. Goldenson, AB-PT president. A year-end extra dividend was not considered at this time last year, Mr. Goldenson said. As reported in October, nine-month earnings were \$0.91 a share compared with \$1.31 a share in 1956. Present projection for the fourth quarter is lower than last year, he said. ABC-TV earnings are ahead for the quarter but not enough to offset the decline in theatre business as a result of a lack of box office pictures in the fourth quarter and the effect of the flu epidemic on theatre attendance; and the cost necessarily incurred during this quarter in creating a new program structure for American Broadcasting Network, AB-PT reported.

CBS-TV Affiliates Assn. Sets Jan. 13-14 Meeting in D. C.

The CBS Television Affiliates Assn. will hold its fourth general conference Jan. 13-14 in Washington D. C., at the Shoreham Hotel with network executives reporting on activities and future plans.

C. Howard Lane, KOIN-TV Portland, Ore., and chairman of the association and CBS-TV President Merle Jones will open the meeting on the morning of Jan. 13. Talks will follow by CBS-TV's William B. Lodge, vice president of station relations and engineering; Sig Mickelson, CBS Inc. vice president of news and public affairs; CBS-TV's John P. Cowden, operations director of advertising and sales promotion, and Charles J. Oppenheim, director of information services. A banquet will be held that evening in the hotel.

At sessions the next day, CBS-TV speakers will include William H. Hylan, vice president of sales administration and Hubbell Robinson Jr., executive vice president in charge of network programs. A closed session in the morning will be conducted by Mr. Lane, and Edmund C. Bunker, CBS-TV vice president and director of station relations. A panel discussion will conclude the program.

Adman Sues NBC Over Program

Barry Farnol, radio-tv director of Dubin, Feldman & Kahn, Pittsburgh, Pa., advertising agency, and speech instructor at the U. of Pittsburgh, is suing NBC for piracy of a program idea. He has asked the U. S. District Court in Pittsburgh to enjoin NBC from telecasting *What's It For?* (Sat., 10-10:30 p.m. EST), and he seeks \$2.5 million in damages.

According to his lawyer, Mr. Farnol in 1952 originated an idea for a panel tv show about new inventions and to be called *What's It For?* He made presentations to agencies and advertisers in New York and Philadelphia without success, it was reported.

MARLOW'S TRAGIC HISTORY OF DR. BEVIS

Producer Michael Marlow of CBS' *Capitol Cloakroom*—like most public affairs producers—sometimes has a hard time getting a show off the ground. Last Monday it was a matter of getting the star guest back on the ground from a fogbound airplane.

That, however, was only the climactic problem in a day that played the producer false from the start. He had scheduled Dr. Howard L. Bevis, chairman of the President's committee on scientists and engineers, for that night's show. It didn't really set back the network team when, at the last minute, Dr. Bevis had to fly to Columbus, Ohio, for a meeting. This would be a two-city, recorded origination. And it almost was,

except that recording, started at 4:30 p.m., had to stop at 4:37, when lines went dead. By the time the hookup was restored, Dr. Bevis had left Columbus to fly back to Washington.

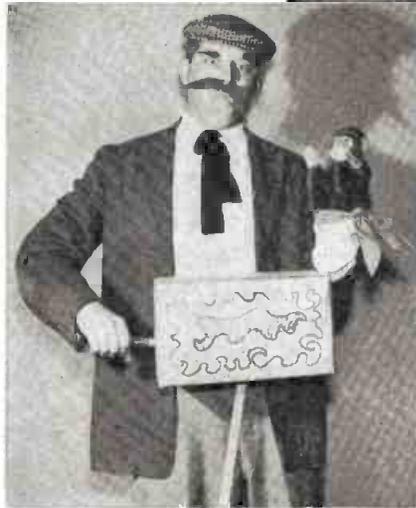

Mr. Marlow arranged to meet him at the airport for a quick trip back to CBS studios that evening. He also hedged against fate by persuading Sen. George D. Aiken (R-Vt.) to stand by that night at the studios. Mr. Marlow stood by at National Airport, as the plane circled over the soup. At 9:30, Sen. Aiken went on the air with CBS newsmen Griffing Bancroft, Bill Downs and George Herman. *Capitol Cloakroom* got off the ground without Dr. Bevis. He was still in the air, flying to Philadelphia to land.

Uncle Mike's CHILDREN'S THEATRE

5:15 to 5:55 pm
Monday through Friday

packed full
of everything
that CHILDREN
love to see!

WBEN-TV's 40 MINUTE HOUR!

Western New York's younger folks find Uncle Mike's CHILDREN'S THEATRE Buffalo's fullest forty-minutes of television. Results prove this to be so.

For the multi-voiced, many faceted Mike Mearian has captured a loyal and large following in his web of whimsy every weekday on Channel 4. Children love his many characterizations; his puppet friends, Buttons, Bows and Monk; and the daily cliff-hanging episode of "Ramar of the Jungle" that Uncle Mike features on every show.

Products that have found this a fertile field to cultivate include chocolate milk fortifiers, breakfast cereals, candies, hobby sets, children's clothes and shoes and desserts. CHILDREN'S THEATRE was recently extended to add more fun for the youngsters. It also adds more spot-time for sponsors who want to win little friends and influence little people.

HARRINGTON, RIGHTER & PARSONS — our national representatives — or our sales department will be happy to fill you in on the facts and figures.

LISTENERS PREFER CBS RADIO—CBS

- Survey indicates network-owned stations top others
- Network cites three different appeals found in radio

CBS-owned radio stations command more attentive listening and are credited with greater believability by their listeners than are their leading independent station competitors, according to conclusions drawn by CBS Radio last week from a survey conducted for it by Motivation Analysis Inc.

The survey compared—in terms of listener attitude—the six CBS-owned radio stations with “the leading independent station” in each of the six markets in which CBS owns an am outlet. MAI made the study last spring, interviewing 1,202 listeners in the six cities—New York, Boston, Chicago, St. Louis, Los Angeles and San Francisco.

The interviewees were divided into three matched groups: (1) CBS-owned station “fans,” composed of persons who listened to radio more than 30 minutes a day and who spent more than half of their listening time with a CBS-owned station; (2) independent station “fans” or persons who listened more than half an hour per day, most of it with the independent station involved in the comparison, and (3) persons who spent more than half of their listening time tuned to either the CBS-owned station or the independent. While the minimum listening time for a fan was a half hour, the survey found median listening time was more than three hours.

Jules Dundes, CBS Radio vice president in charge of station administration, noted that the survey was designed to determine:

(1) Do listeners pay closer attention to some stations than to others? (2) Do they distinguish among stations, regarding some more favorably than others? (3) Are listeners more likely to believe some stations than others?

Mr. Dundes said the answer to all three was “yes,” with the advantage on the side of the CBS-owned station in each case. The survey showed, he said, that radio has three different appeals. Some consider radio as “a friend,” some tune in to get information, and some like it for background sound.

Counting the first two groups as “foreground listeners,” the study showed that 71% of CBS-owned station “fans” are in the foreground or “attentive” group and 29% in the background category, as against 18% of the independent station “fans” who gave foreground reasons and 82% who reported background listening. Among those who listened to both stations, the background and foreground groups were divided 50-50.

Asked why they prefer the station they hear most, 78% of the independent station fans and 69% of those who listened to both stations cited music. Some 26% of the CBS-owned station fans and 27% of the “both” group gave music as the reason for listening to the CBS outlet.

A total of 57% of the CBS station fans said they preferred that station because of its personalities, while 19% of the independent station fans said they were motivated by a liking of the independent sta-

tion's personalities. An even half of the “both” group said personalities were the reason for liking the CBS station, as against 11% who voted for the independent station on that basis.

Among most-liked programs, 44% of the CBS station fans and 26% of the independent-station fans named news. Drama also was found to have high appeal among CBS station fans, being named by 27% as the reason for listening, compared to 9% who said they listened to the independent station because of its drama programming.

Almost all (98%) of the CBS station fans considered that station “big” as against 58% of the independent-station fans who regarded their favorite outlet as “big.” CBS Radio interpreted the various replies to mean that in listeners' opinions, “network,” “big” and “good” are synonymous.

Asked to describe their favorite station as either “authoritative” or “non-authoritative,” 89% of the CBS stations' fans voted “authoritative” as compared to 69% in the case of the independents' fans. Of the group that listened to both stations, 88% considered the CBS station “authoritative” as against 65% voting the independent “authoritative.”

Listeners also were asked: “If you heard conflicting accounts of the same incident on different stations, which station would you believe?” The report showed, officials said, that among listeners to both stations—the only group apt to hear both accounts—53% said they would believe the independent station.

When this question was sharpened to cover the believability of commercials, 48% voted for the CBS station, 15% for the independent, 15% for “neither,” 18% for “both” and 4% had no opinion. Asked which one station had “the most believable commercials,” 41% of the listeners to both stations voted for the CBS outlet while 13% voted for the independent (30% said “no single station”).

The survey also explored the listeners' relationship to radio. In answer to a request to name the one medium they'd most like to keep, 35% named radio; 32% tv, 29% newspapers and 4% magazines. Asked which they'd be most willing to give up, 63% named magazines, 23% television, 7% newspapers and 7% radio.

Most of the respondents knew whether their favorite station was a network station or an independent: 90% of the CBS station fans said it was a network operation and 76% of the independent station fans knew their favorite was non-network, according to the report.

Mr. Dundes hailed the study as a “beginning answer” to the need for qualitative research in radio.

“Radio is now witnessing the dawn of timebuying that goes far beyond the data furnished by a slide rule. The big question is: ‘Are listeners to a particular radio sta-

CBS Public Affairs recorded an exclusive New York-Moscow radio exchange between leading U. S. and Soviet scientists, broadcast on a special program, *Radio Beat*, last Wednesday at 9:30-10 p.m. on CBS Radio. The two-way exchange featured U. S. scientists at CBS Radio studios in New York with queries broadcast to Radio Moscow and Soviet scientists' answers recorded by CBS. A follow-up broadcast will be presented this week on Wednesday in the same time period. The discussion involved scientific progress in Russia, the pay scale of scientists there, free time enjoyed, new fuel used for Soviet satellites and when the U.S.S.R. expects to share its new scientific information. On the U. S. end of the hookup (above, l to r) were Ernest Pollard, professor of biophysics at Sloan Physics Laboratory, Yale U.; John Turkevich, professor of chemistry at Princeton U., and Dr. Donald Hughes, atomic physicist at Brookhaven Laboratory.

tion better sales prospects than the audience of another station?” rather than “how many people can be exposed to the commercial messages of any one particular product?”

“We know that the difference between various product or company images in people's minds figures significantly in their buying. We hope that this research will foster many other similar and meaningful studies. Advertising media are shown by Motivation Analysis Inc.'s conclusions to project their own personalities or images, also. Our hope is that these conclusions will help to reaffirm and confirm the judgments of many farsighted buyers of media advertising.”

In the survey, CBS-owned WCBS New York was compared with WNEW; WEEI Boston with WHDH; WBBM Chicago with WIND; KMOX St. Louis with KXOK; KNX Los Angeles with KMPC, and KCBS San Francisco with KSFO.

Nat Cole to Leave NBC-TV

At the request of singer Nat (King) Cole, NBC-TV has agreed to let him terminate his Tuesday night program after the telecast of Dec. 17, although his contract still has 13 weeks to go. Personal appearance commitments previously contracted for made the termination of the telecasts after 60 weeks necessary, the performer said. He declined NBC-TV's offer of a new series on either Saturday or Sunday.

Jan Murray's *Treasure Hunt*, Mon-Fri., 3:30-4 p.m. NBC-TV program, will move into the Tuesday 7:30-8 p.m. spot vacated by the *Nat (King) Cole Show*.

SALANT SLAMS BARROW REPORT

- CBS executive defends tv network practices in L. A. talk
- He criticizes broadcast pay tv, but warns CBS won't run last

Pay tv, the "Barrow Report," option time, must buys, where tv networks get their money and how they disburse it were among the topics discussed by Richard S. Salant, general vice president of CBS Inc., Wednesday in a 90-minute address on "Network Television" made to the "Basics of Television" course being given by KNXT (TV) Los Angeles for advertising people of that city [ADVERTISERS & AGENCIES, Oct. 28].

Mr. Salant's underlying theme was that networking is a complicated subject, difficult to comprehend; but with so many proposals emanating from Washington that could radically change the nature of tv network operations as they now are, it is essential that everyone in broadcasting or using radio and television as advertising media understand how a network functions. With that understanding, it will be easier to understand the meaning of the various proposals made to change network operations and to measure their probable effects, he stated.

For example, the "Barrow Report," containing the findings of the FCC Network Study staff headed by Dean Roscoe Barrow of the U. of Cincinnati Law School [LEAD STORY, Oct. 7], would abolish "must buys"—the network requirement that an advertiser must buy a certain number of key market stations—Mr. Salant pointed out. There has never been any trouble with advertisers about this, he said, since they are anxious to spread the cost of their programs over as many viewers as possible. Furthermore, a national network is designed for use by national advertisers, and it is no more reasonable to expect a network to clear time for a three-station hook-up than to ask *Life* magazine to sell an advertiser coverage in Minneapolis only.

But, Mr. Salant commented, an attack by "a Los Angeles gentleman" (whom he did not identify further but who was readily recognized as Richard A. Moore, president of KTTV [TV] Los Angeles), who challenged networks' "must buy" and option time practices a year and a half ago in testimony before the Senate Commerce Committee [LEAD STORY, April 2, 1956] led the Barrow group to investigate these practices. It was found they did not harm the stations, Mr. Salant said, but apparently the burden of proof is on the networks and they haven't proved the "must buy" policy to be essential, so the report recommended it be outlawed.

The Barrow Report would eliminate option time, Mr. Salant noted, calling this "the very thin thread" between a network and its affiliates that gives the network salesman some assurance that when he offers an open period to an advertiser he can get enough clearances to make the sale. Option time, which permits a network to call on an

affiliate to make a limited amount of time available for network sponsored programs, is pretty much a "gentleman's agreement," he said, since the network has to give the station 58 days advance notice, and even then the station can always say no.

If there are enough nos—and six or eight from major markets are enough—there will be no sale, Mr. Salant said, commenting that without the option time provision it would be virtually impossible for a network to function. "The Barrow Report said that if things get too bad the FCC can restore option time," he reported, "but knowing how fast the FCC moves—six or seven years is speedy—we could be dead in that time."

Referring to the report's proposal to curtail below present limits the number of stations a network can own, Mr. Salant said that in 1952 CBS-owned tv stations accounted for only 12% of gross sales, to 88% from the CBS-TV network, but that all the profits from tv that year came from the owned stations; in 1955-56, the network had 85% of the sales and 58% of the profits, the stations accounting for 42% of the profits with only 15% of the sales. Parenthetically, he noted that in radio "we couldn't operate the CBS network without the profits of our owned stations."

In addition to its recommendations, the Barrow Report's "near misses" will "haunt all of us for generations to come," Mr. Salant stated. "What they didn't quite do this time, they'll come back to later on."

Reiterating the CBS opposition to "over-the-air" pay tv "because we believe it's bad for the public," he said the company has taken no position on wired pay tv and cannot properly do so because this is "only a new form of competition." Actually, to the tv networks, it makes little difference which method—if any—of toll tv is adopted. "We have 11 years of experience, a successful record, and if the FCC decides to give air space to pay tv, we'll go into it with both feet and we'll do all right."

He predicted that if given the use of the air, toll tv will take over first the best stations and then the best programs, if it can get over the initial costs. "That first hump is tremendous, but after that the road seems clear," he stated. The willingness of the average family to spend \$75-\$100 a year for pay tv programs indicated by a number of surveys, he said, means that after operating costs the toll tv operators would have four times as much to spend for programs as is now being spent by free tv.

"There's no question that pay tv will siphon off the best talent," he declared.

Mr. Salant found it "significant" that no one has suggested a "majority test" to de-

termine democratically what most of the people want, but that the only tests called for have been those to determine if enough people are willing to pay enough for pay tv programs to make the business economically feasible. For example, he said that if one of every 8-10 families would pay 50 cents to watch Ed Sullivan, the pay tv operator would have 3-4 times as much to spend for the program as it now gets, so it would doubtless move from free to pay tv, leaving 7-9 families without the show.

Toll tv won't kill free tv entirely, Mr. Salant opined. "Free tv will survive," he said, "by dribs and drabs, on a local basis and during the daytime. To some extent, those who pay will get something different from pay tv, maybe even something better, but it's a terribly high price to pay."

Mr. Salant credited the tv networks with providing most of the impetus (and money) which won for tv an acceptance by the American public that in only 11 years has caused 41,300,000 U. S. families to spend \$19.4 billion for tv sets and maintenance and, last year, to spend five hours a day watching those sets. CBS alone invested \$54 million in television before its first year in the black, 1952, he said, expressing his conviction NBC and ABC had made comparable investments. The networks' willingness to provide good programs, great programs, at a time when the circulation and revenues did not justify such expenditures, made television what it is today, he said.

For a thorough, though rapid, exposition of the economics of tv network operation and the parts played by advertisers sponsoring network programs and affiliate stations broadcasting them as well as by the networks themselves, Mr. Salant drew heavily on a memorandum on network practices prepared last year to supplement the testimony of CBS President Frank Stanton before the Senate Commerce Committee [LEAD STORY, June 11, 1956].

Shift to Divisional Status Seen for CBS News Department

CBS News, which has been operating between staff and divisional status since August 1954, may become a full division of CBS Inc. early next year. Though no action has been taken, discussions have progressed to the point of placing CBS News and Public Affairs on par with other divisions.

This past summer, CBS News moved towards semi-divisional status when Sig Mickelson, vice president of news and public affairs, began functioning as general manager of the department. Mr. Mickelson, it is understood, would assume the title of vice president and general manager of the division should such a move be made.

NBC News and Public Affairs will not follow suit, according to William R. McAndrew, NBC News director. The NBC news department was detached from public affairs earlier this year, with Mr. McAndrew's news department being placed on a par with the NBC program department, reporting directly to Executive Vice President Robert E. Kintner. Public Affairs, under Vice President Davidson Taylor, also reports to Mr. Kintner.

THEATRE OWNERS HIT TOLL TV

- TOA convention resolution supports free television
- Shapp surprised; urges activity in wired pay tv

The Theatre Owners of America, composed of major theatre owners, unanimously voted last week "opposing and condemning" all forms of pay tv—off the air or via wire.

In a completely unexpected action, the exhibitors voted against any form of toll tv following a morning panel on cable tv Thursday morning at the TOA convention in Miami Beach, Fla., Nov. 20-23.

The resolution, which was passed at a private meeting of TOA members Thursday afternoon, also pledged the organization and its members to work toward the enactment of legislation to "preserve" the right of the public to view tv in their homes free of charge.

The resolution said that pay tv and free tv cannot coexist and that pay tv in any form would "usurp" all of the popular programs and personalities now available on free tv. It declared that the public has bought 45 million tv receivers on the assumption that the programs received were to be free. It also stated that pay tv would affect the nation's economy by "entrapping" much of the nation's purchasing power. It not only lashed out at the monopoly potential of toll tv, but also the deleterious effect on theatres and exhibition.

The resolution stung Milton Shapp, president of Jerrold Electronics Corp., a prime mover in behalf of wired, cable tv, into immediate retort. He claimed that the resolution was "surprising" in view of the great interest of a "great number of exhibitors" in cable theatre. He also said that exhibitors' opposition was ill advised, since they also had opposed talkies and drive-ins when those changes were coming onto the theatre scene.

Television, Eric Johnston, president of the Motion Pictures Assn., told the theatremen, "is reshaping the entertainment business [and] is obviously our toughest competitor today and may get tougher tomorrow." (Condensed text of Mr. Johnston's speech on page 70.)

International Telemeter Corp., a subsidiary of Paramount Pictures Inc., held daily demonstrations of its wired pay tv system during the convention.

The morning open session heard one surprise. Bernard L. Goldenberg of New York identified himself with a new company called Selectivision Inc., 1 W. 58th St., and declared that his company had contracts for cable theatre projects with two New York area theatrical circuits—Associated Prudential Circuit and Interboro Theatre Circuit.

The convention also heard Mr. Shapp, Herbert Barnett, General Precision Lab.; Carl Leserman, International Telemeter Corp., and Marcus Cohn, Washington attorney. Philip Harling, of the Fabian Theatre Circuit, co-chairman of the exhibitors'

Joint Committee Against Pay Tv, was chairman.

Mr. Shapp urged exhibitors to become active in wired toll tv as a means of reaching millions not going to the movies. This is an extension of motion picture exhibition, he declared. Mr. Barnett questioned whether the Bartlesville, Okla., Telemovies project was a fair demonstration, since the community was not typical. Mr. Leserman told TOA members that ITC had no plans to wire large metropolitan areas, but intended to concentrate on new communities which have grown up without a local movie house. Mr. Cohn warned that both wired or off-air toll tv would be regulated in some form or other by the federal government or state authorities. Regulation, he stated, was against the history of the entertainment media which flourished best in a free, competitive market.

It was indicated that both Skiatron and Zenith had been invited to send a representative to the convention. Skiatron had not replied, it was said, and Zenith declared it was not interested in wired toll tv.

Active audience participants included Mitchell Wolfson, chairman of TOA's board of directors, whose interests include WTVJ (TV) Miami, and WFGA-TV Jacksonville, both Florida, and WMTV (TV) Madison, Wis.; Walter Reade, Reade circuit, who holds a cp for WRTV (TV) Asbury Park, N. J.; Samuel Pinanski, Boston theatre owner, and Donald Schine, Schine Theatres.

Both meetings attracted about 400 theatremen.

'TV GUIDE' POLL: 96.6% OPPOSE PAY

- Readers strongly anti-toll tv
- 44,888 answer magazine query

Subscription television received another strong rebuff from the public yesterday (Sunday) when *Tv Guide*, national consumer tv publication with headquarters in Philadelphia, reported that 96.6% of nearly 45,000 readers had gone on record in opposition to toll tv in any form.

Of the 44,888 ballots tabulated by Research Inc., an independent survey organization, only 34 out of every 1,000 were marked in favor of pay tv. The polling is believed to be the largest sampling of public opinion ever taken on the subscription television issue.

The subscription tv cause received an even stronger rejection on the Pacific Coast where some business entrepreneurs already are counting toll tv chickens in the newest major league baseball cities of Los Angeles and San Francisco. Only 17 out of every 1,000 ballots from this area favored pay tv.

In the big cities, subscription tv fared

better than elsewhere. Returns from 15 of the largest cities showed that 77 out of every 1,000 persons favored pay tv.

While practically all of the small band in favor of pay tv indicated they would install subscription tv, a substantial minority of these (about 3 of every 10) were unwilling to pay for installation of the service.

Ballots covered six questions on subscription television and were published in a September issue of *Tv Guide*. The results will appear in the next issue being released tomorrow (Tuesday). Questions and answers:

1. Are you in favor of any subscription television system?

Yes 1,527 (3.45%)
No 43,361 (96.65%)

2. Would you have subscription tv installed in your home?

Yes *1,990 (4.43%)

* Figure includes some 1.22% of people who voted against pay tv but said they would install it if system were adopted.

3. Would you be willing to pay any of the installation charges if necessary?

Yes 1,444 (3.2%)

4. Which transmission system do you prefer?

	Those Favoring Pay Tv	Those Not Favoring Pay Tv	All Respondents
Direct Wire	44.73%	3.45%	4.85%
Regular tv	41.78	36.46	36.64
No answer	13.49	60.09	58.51

5. How much would you be willing to pay a month for subscription tv if it included special shows of interest to you not available on free tv?

	Those Favoring Pay Tv	Those Not Favoring Pay Tv	All Respondents
\$5	42.83%	5.63%	6.90%
10	40.41	1.88	3.19
20	0.06	0.33	0.46
25	4.78	0.81	0.94
No answer	7.92	91.35	88.51

6. If commercials on pay tv would lower the cost per show to you, would you object to them?

	Those Favoring Pay Tv	Those Not Favoring Pay Tv	All Respondents
Would object	52.91%	25.26%	26.20%
Would not object	44.47	0.40	1.90

Locally-Owned Pay Tv Proposed To California City Council

A proposal that a locally-owned toll tv company be formed to serve residents of California's Centinela Valley and South Bay areas (in the greater Los Angeles area southwest of the city) was made by Fred C. Jones, a member of the city council of Inglewood, in a letter to fellow councilmen and those of 10 neighboring communities.

"This company would be owned by local people; its telecasts would include local activities; its facilities would be available for local enterprises and, altogether," he wrote.

Stan Thomson

or who says gasoline is expensive?

"They say it in Britain, where a skilled carpenter gives more than a day's pay for just eight gallons.

"They say it in Ireland, where only one person in twenty owns an automobile.

"They say it in France, where the price is the same for eight gallons of gasoline or a pair of shoes.

"In the United States? Everything indicates that gasoline should be almost as expensive here, too.

"For instance, Union Oil's costs of building a refinery and the labor costs to operate it have tripled since 1937.

"We pay four times as much to put up a service station today as before the war.

"And fuel taxes you pay at retail have increased 5 cents a gallon in the last 20 years. (In that same time, our refinery price has gone up 4½ cents a gallon.)

"In spite of these increases, though, Americans pay less for their gasoline than anyone else in the world.

"WE PAY LESS FOR GASOLINE THAN ANYONE ELSE IN THE WORLD."

"What's more, two gallons of today's gasoline do the work of three gallons of the old product." * * *

As manager of Union Oil's refinery in the San Francisco area, Stan Thomson has a natural interest in the price of gasoline.

And, he points out, the comparatively low price of gasoline in this country is one measure of the efficiency of the economy under which we live.

Our competitive economy gives us such good value for our money that we enjoy the highest standard of living the world has ever known—and still have money left for savings.

wantedness

wantedness

Wantedness is the extra quality people see in things they choose to spend their money for—even when substitutes are available at no cost.

For example: wantedness is what “My Fair Lady” has such an abundance of; what’s in a cup of cola that’s worth a dime to a thirsty man who can get a drink of water for nothing. It’s what a pretty girl has, that makes it worth a carefree bachelor’s while to endow her with his worldly goods in exchange for a lifetime of dinners he could eat for free at his mother’s house.

wantedness

And most especially: *wantedness* is the *plus value* edited into some businesspapers that prompts a man to buy subscriptions to the ones he *wants to read*—no matter how many others are sent to him, free. It’s what keeps paid circulations growing! And . . .

It’s what makes almost 18,500 busy people in the television and radio business *PAY* to find a copy of **BROADCASTING** on their desks every week. It’s what, in short, differentiates **BROADCASTING** from other businesspapers purporting to cover the TV-radio field. They, too, may be on many of the same desks—but they didn’t get there because they were *wanted*.

Wantedness is a quality attested to by an ABC audit statement: *A desire to receive* and an *intention to read*. Significantly, **BROADCASTING** is the *only* TV-radio business paper with ABC membership . . . with an accurate, easy-to-understand, precisely audited statement of *PAID* circulation. And *PAID* circulation is an advertiser’s surest guide to the worth of any publication.

Most advertisers throughout America buy *PAID* circulation. More TV-radio business advertisers buy **BROADCASTING**’s *PAID* circulation than that of the next three TV-radio publications rolled into one! The writing on the wall doesn’t come any clearer than *THAT!*

TV'S THE COMPETITION—JOHNSTON

Speaking last Wednesday to the Theatre Owners of America convention in Miami Beach, Eric Johnston pinpointed areas in which television is affecting the life of America and the business operations of movie makers and exhibitors. The president of the Motion Picture Assn. of America told delegates that tv will not eliminate movies and vice versa. Accordingly, he urged a realistic appraisal of tv in this portion of his address. (See main TOA story page 66.)

Today more people in the United States are seeing motion pictures than ever before. The total weekly audience is estimated at 250 million. For us there's only one trouble with this remarkable statistic. Only about 45 million on the average see motion pictures in theatres. The rest see them on television.

Today more people see baseball than ever before. In season, the weekly viewers run into the high millions. For the baseball owners, there's only one flaw in this glowing figure. These millions aren't crowding the bleachers and grandstands. Most are watching on television.

These are just two symptoms of change in America's leisure time, in the new habits and customs and activities of the American people in the past decade. The change in leisure activities is still in hectic process. In the motion picture business, the change is revolutionary.

... Today the world is in the midst of an electronic revolution. Already it has had a tremendous effect on people everywhere. One of its developments, television, is reshaping the entertainment business. The impact on the motion picture industry has been far-reaching. Prudence requires us to understand its meaning for us.

There are two aspects of television I'd like to discuss. One is the existing system of commercially-sponsored broadcast television. The other is the still unborn system of pay television. They are separate and we ought to separate them in our minds.

With respect to commercial television there are four facts we ought to face squarely.

(1) Commercial television has put 40 million screens into the homes of America within 10 brief and spectacular years. Today 80% of America's households have television sets. Their number will increase and they will improve in technical quality in the years ahead.

(2) Commercial television has supplanted our 19,000 theatres as the chief purveyor of mass entertainment in the United States. Its audience is almost five times bigger than ours. Television competes directly with us for the leisure time of America's population.

(3) Commercial television has an insatiable appetite for program material of all kinds. It relies heavily on motion pictures, on filmed programs. Television's appetite for film will increase—it will not diminish—in the years ahead.

(4) Commercial television can pay for what it needs. It is already a gigantic industry. This year, television's total advertising revenue will come to \$1.3 billion—

more than the total annual receipts from all the theatres in the U. S. It is estimated that in five years tv's income will reach \$2 billion. This is almost as much as American pictures take in annually at the box office in all the theatres in the world.

Why do I mention these four facts about present-day commercial television? I mention them because tv is obviously our toughest competitor today and may get tougher tomorrow.

There are some in our business who say we should compete with television by ignoring it. Some say we should fight it at every step. Some would do this by keeping our stars off tv. Some would do it by keeping our films off television.

Let's examine these proposals. What about

MR. JOHNSTON

keeping the stars off television? Because of changed conditions in Hollywood, what studios have stars to order about?—as if they could ever do such a thing! No studio of my acquaintance has that golden asset of olden days—a full-fledged, firmly-contracted stable of stars. Today the stars are independent entrepreneurs. They make their own independent decisions.

Really, does anyone who knows our business believe the stars could be kept off television?

Now what about keeping old films off television? That brings up a question or two.

First of all, is it true that television grew mighty on old Hollywood films? To believe this is to deceive ourselves. Television was born and made its great early advance on live programming. This period of television's sharp rise was also the period of our most precipitous drop at the box office. In those years, we were *not* competing with our own films on tv—we were competing with television itself!

The revolution that hit the entertainment business hit Hollywood just as hard as it did the theatres. I can tell you quite frankly that some of the studios were lucky to get through that period. The studios had pictures in the vaults in which the theatres were no longer interested. At this point, television came along to buy old films.

I assume we all believe in the free enterprise system, in the open market place. Certainly we do when our own interests are at stake. If you had old films on the shelf and someone wanted to buy them, would you drive him indignantly from the prem-

ises? I don't think so. I don't believe you think so either.

I think we can only plan wisely and boldly for our future if we realize that we cannot eliminate television . . . and if we realize just as confidently that television cannot possibly eliminate us.

Let's now switch off commercial television and turn on pay television. Nobody knows the future for pay tv, or subscription television, or toll television, or whatever it may be called. But we do know one thing—that its future will be determined by the American public. We know this because pay television must eventually put to the public this basic question:

Do you want a box office in your home?

Reduced to its core, that's what pay television is really about—whether the public wants to pay in the home for motion picture and other entertainment. If the public answers "Yes," it will have a profound effect on our business, on television, on the entire entertainment field. If the public votes "No," then television will continue on its present advertiser-supported course.

Pay television is now in a testing period. What should our attitude be toward these tests? I think we should look upon them all as research projects, out of which might come developments that could affect our way of doing business, the business of us all—the exhibitor, the distributor, the producer.

George Liberace Sets Up Firm

George Liberace is ending a long professional association with his pianist brother and is setting up George Liberace Enterprises at 5800 Sunset Blvd., Hollywood, the violinist-orchestra leader has announced. George Liberace Enterprises will handle personal management of television personalities and packaging of tv shows. Mr. Liberace also is considering personal appearances on tv and is developing his own show. Formation of the new company signifies no rift between the brothers, Mr. Liberace's announcement said, but is a move that had been under consideration for some time.

NEW SUBLIMINAL ERA SLIPS IN WHILE AUDIENCE NOT LOOKING

- **WTWO (TV) has been experimenting for two months**
- **WCCO, KLTl exploited radio variation on new method**
- **FCC in dark; lawmakers fear political tricks**

Audiences haven't realized it (natch), but subliminal perception has been broadcast experimentally on television, BROADCASTING learned last week, and audio variations on the new trick are being aired on radio.

● **WTWO (TV) Bangor, Me.,** has been sending invisible messages for two months, trying to learn if imperceptible perception can produce perceptible results. So far the reactions are subliminal.

● **Two radio stations, WCCO Minneapolis and KLTl Longview, Tex.,** have been broadcasting audio messages which, if not subliminal, are the next thing to it. WCCO has invented "Phantom Spots"; KLTl's are called "Radio Active Iso-Spots."

● **Meanwhile, the FCC is studying subliminal perception at the urging of congressmen.** The congressmen fear that subliminal perception could be used as a dirty political trick to sneak a rival candidate's name into the nation's subconscious.

SP OLD HAT TO WTWO AFTER TWO MONTHS USE

WTWO has been experimenting on the air two months, guided by a psychologist.

Murray Carpenter, president of WTWO, which is identified in Bangor as W-TWO (phonetically, W2 for ch. 2), said the tests are interesting if not yet highly productive. He wrote Chairman John C. Doerfer of the FCC last week, offering to supply his findings after a series of on-the-air subliminal tests.

When he first contacted the psychologist, he learned that subliminal tinkering was old stuff in the trade. The psychologist suggested, "If you have a selling job to do, nothing will succeed as well as to step up and sell."

Undisturbed by this observation and warnings that the engineering problems were insoluble, Mr. Carpenter toyed with closed-circuit tactics before going on the air. He decided the first approach should be simple, based on possible influence on the station's mail count since its film strip programs ask for audience comments in the lead-ins and lead-outs.

On half of these programs, a subliminal message is superimposed on the tv screen below the threshold of perception. It occupies a cross-screen panel about one-fourth the screen's depth, carrying this message: "WRITE W-TWO."

The message occupies one frame on a 250-frame film loop, appearing about once every 11 seconds except during advertising. Last week the message was used Monday-Wednesday-Friday; this week it will be on Tuesday and Thursday.

Mr. Carpenter reported he is unable to detect appearance of the subliminal message but said his engineer claimed he could catch it sometimes.

"We want to see if a subliminal insert will give us a little extra push in our mail count," Mr. Carpenter said.

"Has it?" he was asked.

"There's no 'feel' yet," he answered. "We can't yet tell if it does anything."

In any case, he is continuing the experiments because of all the dither around Madison Avenue, where he once was a Compton Adv. timebuyer.

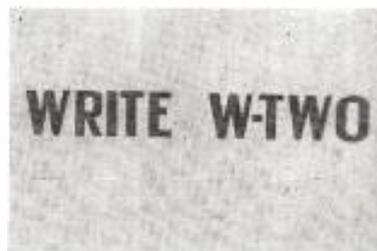

WCCO, KLTl AUDIO VERSION AIRED ON REGULAR BASIS

Radio is not standing still while other media probe beneath a consumer's consciousness into subliminal perception. The aural medium hasn't been able to go all the way below the threshold of consciousness but is developing ways of sneaking messages in just over the line of the "limen," or threshold.

And the new sound technique may have one important advantage over visual subliminal perception. It is being sold, whereas subliminal perception as a commercial television technique has been questioned by the NARTB Tv Code Board [TRADE ASSNS., Nov. 18] and others [GOVERNMENT, CLOSED CIRCUIT, Nov. 11].

Two stations have reported pioneering a new psychological development in radio messages in recent weeks. WCCO Minneapolis-St. Paul [CLOSED CIRCUIT, Nov. 18] calls its new technique "Phantom Spots." KLTl Longview, Tex., has named its new commercials "Radio Active Iso-Spots."

There are technical differences between the two plans: Phantom Spots are briefer; Radio Active Iso-Spots are being sold, while WCCO is using Phantom Spots only for program promotion and public service proj-

EVER seen a subliminal? No, and you never will, if it's really subliminal, but here is what one looks like in the projection room. This "WRITE W-TWO" message is reproduced from a film loop, one frame out of 250, with the intelligence transmitted once every 11 seconds. It is basic to WTWO (TV) Bangor, Me., experiments designed to see if imperceptible messages will influence the station's mail count.

ects. But basically the two stations are trying out the same new approach. Short announcements are slipped in over music or into continuity pauses, reportedly hitting the listener at the lowest level of response, at the absolute threshold, or bottom of the response scale, observers say. Listener reaction often is on a delayed basis. He registers what he has heard some seconds after the message is over. This is the pattern set by early experiments in the broadcast laboratory.

WCCO's Phantom Spots are held to a five-syllable maximum, according to Larry Haeg, general manager of the station. The announcements are sneaked in over music and into pauses in regular programs, sometimes between lines of dialogue. Samples: "Hear lke tonight," "Beat Michigan State," "Hear Open Mike," "Next news at —." Varied aural techniques, voice levels and delivery speeds are used.

The KLTl Radio Active Iso-Spots employ brief phrases ("Buy your children's shoes at Waynes' Credit Shoes," "Longview Credit Clothiers . . . three minutes to open your credit," "The '58 Chevrolet . . . on display . . . at Goodwin's") and are broadcast on a saturation basis through the day. They are superimposed over instrumental music which is reduced to the volume of background music to "cushion" the spot.

Bob Geerdes, station manager of KLTl, explains the Iso-Spot name this way: "Just like an isotope [in medicine] gets in underneath and spotlights attention, so does the KLTl Iso-Spot." The technique has met gratifying client and listener reaction since it was introduced last month, says Mr. Geerdes. Iso-Spots are being aired periodically and "are not being run into the ground," he adds.

The Phantom Spot experiment, still in the pre-commercial stage at WCCO, is being conducted in consultation with psychologists from the U. of Minnesota faculty. William Schwarz, program director of the station, and Gordon Mikkelsen, director of program promotion and public relations—assigned by Mr. Haeg to the project—are working with Dr. E. W. Ziebarth, dean of the U. of Minnesota summer session and regular WCCO staff coordinator on world affairs, who is coordinating the study's academic side.

Describing the Phantom Spot, or PS, technique, Mr. Haeg says, "We are building . . . on principles of repetition, to increase coverage and penetration; aided recall, as a stimulus to retentiveness, and variety of sound, to gain entry without annoyance." A typical response to a Phantom message is given by a member of WCCO's listener test panel, reporting on a spot broadcast over music. He says he "caught the full meaning of the spot at the end of the music, though it must have flashed in and out along about the tenth bar or so." No one has found the technique annoying, and no objections have been reported, Mr. Haeg states.

Comparing PS and subliminal perception, a WCCO memorandum says, "Only

CONFIDENCE!

As WTIC-TV enters its second full month of telecasting, more than 100 accounts have been signed . . . fifty were signed before WTIC-TV took to the air.

Such confidence on the part of advertisers is inspired by the high standards of performance which have identified 33 years of radio broadcasting by WTIC . . . standards that today also mark the operation of WTIC-TV.

Advertisers are also confident that WTIC-TV's clear and powerful signal now sells new customers who previously lacked good television reception.

some of the same principles are involved. The audio Phantom Spots are in fact consciously perceived by the listener. He knows someone is sending him a signal. The listener is able to accept or reject our message on the same basis as he can consider any audio stimulus."

WCCO will report on its PS project "within a few weeks," Mr. Haeg promises. Meanwhile, it won't be made available to advertisers, he says, "for some time to come."

FCC ANXIOUS FOR DATA ON SILENT TECHNIQUES

The FCC last week told Sen. Charles Potter, (R-Mich.), who had asked some pointed questions, what was what on SP: That there was not too much information on the subject; that the FCC was gathering as much data as was available, but that in any event it felt it had sufficient authority to control this new technique. The Commission pointed out, however, that it has no power to censor individual programs.

The Commission, it is understood, is looking forward with some eagerness to a Washington demonstration of the SP techniques. This, it is believed, is premature, since Subliminal Projection Inc. President James Vicary stated that an FCC spokesman had called regarding a demonstration and had been offered one in New York. FCC sources said that WTOP-TV Washington had offered its facilities for such a test in Washington.

So much interest has been engendered in SP that the FCC has decided to draw up a "public notice" on the subject and what it knows about its use and potential use and the Commission's authority. This will be used to answer a growing demand for information on the silent sell.

Pop Music Disc Jockey Meet Set by Storz for March 7-9

"Will Top 40 programming last?"

Todd Storz, president of the Storz Stations, who has been wondering about top tunes and other musical programming problems, announced last week he would convene the "First Annual Pop Music Disc Jockey Convention and Seminar" March 7-9 at the Muehlebach Hotel, Kansas City.

Progress made by country and western disc jockeys with their annual Nashville convention prompted Mr. Storz to announce his disc jockey roundup. He sounded out djs and program directors as well as record companies and found agreement that the idea should have been tried long ago. Of 30 disc jockeys, 26 said they would attend and three others said they would try to be there. Only one dissented.

Among questions slated for discussion: importance of commercial treatment to sales impact; how a disc jockey can best promote his station and himself; are top 40 tunes beamed only at teen-agers?, how can djs best guide future trends to better quality music?

Mr. Storz is lining up top program people for the meeting, he said. The opening night (Friday) will be set aside for registration and a reception. Business sessions will be

held Saturday, winding up with a banquet and show featuring recording stars. Sunday's program will end by mid-afternoon so delegates can be home for Monday programs. Advance registration can be made with Bill Stewart, c/o Storz Stations, 820 Kilpatrick Bldg., Omaha 2, Neb.

Storer Earnings Drop Seen in WVUE-TV Move

A drop in Storer Broadcasting Co. earnings was anticipated when the company decided to go into independent operation with a fourth tv station—WVUE-TV Wilmington-Philadelphia, the largest available market—according to a letter sent to a stockholder by President George B. Storer.

Storer earnings for the nine months ended Sept. 30 (after taxes) totaled \$5,249,942, or \$2.12 per share, including non-recurring net capital gains of \$1,962,716 (after taxes) or 79 cents per share. The 1956 nine-month earnings amounted to \$1.58 per share.

Third quarter earnings amounted to

\$820,008 or 33 cents a share, a drop from the \$1,066,019 or 43 cents in the same 1956 quarter.

Gross radio revenues were substantially higher for the nine months of 1957 but tv revenues were down, "reflecting the sale of two unprofitable uhf stations and the expected dislocation and expense of replacing WBRC-TV (Birmingham, Ala.), with WVUE-TV. As WVUE-TV achieves its expected potential, this situation should materially improve," according to the Storer nine-month earnings report.

Writing to James H. Sheppard, of Grand Rapids, Mich., who claimed to represent clients owning several thousand shares of Storer stock, Mr. Storer said the Philadelphia tv station was acquired at a favorable price because it was losing money.

Heavy investment in new facilities and programming is expected to pay off, he said, but operating profit may be off as much as 16%, which is offset by the capital gain in sale of WBRC-TV Birmingham. "I am hope-

WGY-WRGB (TV) OPENS NEW CENTER

A new radio-tv broadcast plant for WGY-WRGB (TV), General Electric Co. stations, was formally opened Thursday in suburban Schenectady, N. Y., 35 years after the first broadcast signal was put on the air.

The new radio-tv center, built at a cost of \$2.5 million, is two stories high and includes 54,000 sq. ft. of floor area. Designed by GE and Austin Co., engineers, the building is located on a 10-acre plot in Schenectady. An electrical sub-station behind the building has a capacity of 2,000 kw.

Lighting of the largest tv studio, 45x90 feet, is rated at 280 kw. Designed for color, the studio has nearly a third of the center's air-conditioning capacity of 300 tons. The second studio is 45x70 feet. A third one-man studio has glass walls for out-of-studio cameras.

Three radio studios are grouped around master controls, flanked by a recording room. The tv master control features latest GE equipment, with the signal microwaved to the main transmitter in the Helderberg Mountains. The master clock is automatically synchronized via radio from the National Bureau of Stand-

ards in Washington, and is accurate within a quarter-second. The control room uses over 4,000 electronic tubes, according to W. J. Purcell, WGY-WRGB manager of engineering, who took an active role in planning the new center.

WGY went on the air Feb. 20, 1922. It served as proving ground for the 20-kw water-cooled tube with air-tight glass and copper seal, forerunner of the present 50 kw transmitters. Other experiments included the Alexanderson multiply-tuned antenna for trans-oceanic radio, the condenser microphone and the magnetic recording pickup.

GE started practical tv experiments in 1928 with a telecast of Al Smith's acceptance of the Democratic Presidential nomination in nearby Albany. Four tv sets picked up the signal, which used mechanical scanning. Regular programming began Nov. 6, 1939. Original GE tv research started in 1926 under Dr. E. F. W. Alexanderson. Theatre tv was performed in 1930 at Proctor's Theatre, Schenectady, with use of a giant screen. A geometric pattern was telecast overseas in 1931, and was received in Germany and later in Australia.

ful that we will achieve black figures at Philadelphia within the next 12 months," Mr. Storer added. He said dividend payments are not to be cut since they represent about 35% of net earnings and 25% of cash earnings.

In explaining the problem of the tv independent, Mr. Storer cited KTTV (TV) Los Angeles sales figures, which rose spectacularly from \$412,151 in 1949 to \$4,140,641 in 1953 and \$8,943,000 in 1956. He said WBRC-TV sales in 1956 were less than 25% of the KTTV volume. WGN-TV Chicago was cited as another example of independent growth.

The four other Storer tv stations (WJBK-TV Detroit, WSPD-TV Toledo, WJW-TV Cleveland and WAGA-TV Atlanta) showed an aggregate volume in October 1957 exceeding the same 1956 month by 4.6%. He said the stations are enjoying "an unusually fine season" and radio volume is up 15.5% for October.

The Philadelphia market is a battle of tv giants, he said, with large expenditures needed at WVUE-TV to compete with the other three tv stations. Mr. Storer noted a slackening in demand from July to October, adding that business is now up "but our forward commitments from advertisers are of a short-term duration rather than the long-term 52-week contracts which we formerly enjoyed. I hope that this situation will change, but until we have a restoration of general commercial confidence, I am afraid we will have to be content with this day-to-day existence."

Storer Broadcasting Names Shull Head of Company Film Office

Thomas B. Shull, account executive on national and regional sales in the film division of Music Corp. of America, has joined the Storer Broadcasting Co., Miami Beach, Fla., as director of film operations. He will headquarter in New York City, reporting to George B. Storer Jr.

MR. SHULL

Mr. Shull in 1954-55 was president and general manager of WTOM-TV Lansing, Mich., and prior to that was an account executive in NBC's Chicago film division. For the Storer group he will direct film operations on the company level. Storer tv stations are WJBK-TV Detroit, WJW-TV Cleveland, WVUE-TV Wilmington-Philadelphia, WSPD-TV Toledo, Ohio, and WAGA-TV Atlanta.

WRJN-AM-FM Holds Open House

More than 5,000 Sunday visitors came to see the new Radio Park studios of WRJN-AM-FM Racine, Wis., during the stations' seven-hour open house Nov. 10. The new building, situated on a square block in West Racine, cost \$125,000 to build. Transmitters are adjacent to the 9,000-sq.-ft. plant. The WRJN-AM-FM move came one month before WRJN's 31st anniversary of broadcasting.

Cott Named V.P. to Head NTA's Radio-Tv Properties

Promotion of Ted Cott to vice president in charge of the radio and television properties of National Telefilm Assoc., New York, was announced last week by Ely A.

MR. COTT

Landau, board chairman of NTA. Mr. Cott will operate from New York headquarters, with local station managers reporting to him. Mr. Cott joined NTA last June and has been setting up the company's program for acquiring television and radio stations. The company has gone on record as saying it plans to purchase the full complement of radio-tv outlets authorized by FCC. Mr. Cott participated in the negotiations for the purchase by NTA of KMGM-TV Minneapolis (approved last week by FCC, page 80) and WATV (TV) and WAAT-AM-FM Newark, N. J. The Newark sale awaits FCC approval.

Mr. Cott is a veteran of more than 20 years in radio and television broadcast management. Before joining NTA, he was with DuMont Broadcasting Corp. 2½ years, serving as vice president and general manager of WABD (TV) New York, WTTG (TV) Washington and the DuMont Sports Network. He was with NBC five years as vice president and general manager of WRCA-AM-TV New York and operating vice president of the radio network. Earlier, Mr. Cott had been with WNEW New York for seven years, latterly as vice president in charge of programming and operations, and with the city-owned WNYC New York in executive capacities.

WTAX Poll Finds Musical Tastes, Points Its Programming That Way

A jury of 17 Springfield, Ill., residents prefer smooth arrangements of musical numbers and familiar popular hits, according to a poll conducted by WTAX Springfield. The jury idea was suggested by a plan in operation at WFIL Philadelphia [STATIONS, Oct. 26]. WTAX will alter several music shows to conform to the findings.

Six of the 11 top choices (a tie was found for tenth place) represented large bands. The panel heard 100 numbers representing varying types of music ranging from show tunes and marches to hymns and rock-and-roll. Jury members were guests at a dinner and received gifts.

No rock-and-roll number placed in the first 50 selections. Calypso met with varying success. A Harry Belafonte recording of "Mary's Boy Child" was in 19th place but his "Scratch, Scratch" was near the bottom. Hillbilly fared poorly but an Ernie Ford hymn, "Peace in the Valley," had a high score. Elvis Presley did not score well with his "Here Comes Santa Claus." The jury included four teenagers; two PTA members; one from the Springfield Council

of Church Women, Junior League, New-comers Club, American Business Club and Urban League. Others included a rural housewife, woman state employe, store saleslady, restaurant worker, owner of a small business and employe of a large industry.

NBC Holds Special Ceremonies For New Stations in Pittsburgh

The theme of an address at a luncheon Friday in Pittsburgh was brought up to date by an assertion that network radio is today's prime communication system for reporting news of the world and outer space. The speaker was Matthew J. Culligan, vice president in charge of NBC Radio.

Occasion was a "Radio Renaissance Luncheon" attended by 300 business and civic leaders and marking NBC Radio's return to the Steel City via its new owned stations WAMP and WFMP (FM), purchased Nov. 1. The network service officially was launched at 2 p.m. with the regular hourly news featuring newscaster Morgan Beatty who originated his broadcast from Pittsburgh.

Also speaking at the luncheon was H. W. (Hank) Shepard, general manager of the stations. Mayor David Lawrence proclaimed the day "WAMP and WFMP Day." Walter O'Keefe, host of NBC Radio's *Nightline*, was m.c. NBC's Charles R. Denny, executive vice president, operations; Thomas B. McFadden, vice president of owned stations and NBC Spot Sales, and Jerry Danzig, vice president of network radio programs, attended the luncheon.

TWO San Antonio stations, KENS-TV (ch. 5) and WOAI-TV (ch. 4), have started work on a joint tower they intend to make the tallest structure in Texas and the third tallest in the world. Supervising bulldozer work at the tower site southeast of San Antonio are (l to r): James M. Gaines, president-general manager of WOAI-TV; Albert D. Johnson, general manager of KENS-TV; Hugh A. L. Half Jr., chairman of the board of WOAI-TV, and Charles Jeffers, WOAI-TV director of engineering. The tower is to be 1,531 feet tall.

CHANGING HANDS

ANNOUNCED *The following sales of station interests were announced last week. All are subject to FCC approval.*

KOVR (TV) STOCKTON, CALIF. • Sold to Gannett Co. (Gannett newspapers-broadcasting interests) by Hoffman Radio President H. Leslie Hoffman and associates in an overall \$3.1 million transaction, following the breakdown of a deal to sell ch. 13, ABC-affiliated station to Hudson Valley Broadcasting Co. (Lowell Thomas, Frank Smith and others) for \$3.5 million because of a tight money market [CLOSED CIRCUIT, Nov. 11]. Gannett is paying \$1.1 million for the capital stock of the licensee, Television Diablo Inc., and assuming obligations amounting to almost \$2 million (mostly debentures owing Mr. Hoffman). Gannett owns newspapers in New York, New Jersey, Connecticut and Illinois, and also WHEC-AM-TV Rochester, WENY Elmira, WHDL Olean (minority), WINR-AM-TV Binghamton, all New York, and WDAN-AM-TV Danville, Ill. The announcement said Terry H. Lee, president-general manager of KOVR, will remain with the station until July 1, 1958. KOVR transmits the maximum 316 kw power, from an antenna atop Butte Mt., and covers 1.5 million population in the Central Valley area including Stockton, Sacramento and Modesto, according to the announcement.

WHOO-AM-FM ORLANDO, FLA. • Sold to Ted Estabrook by Edward Lamb for \$250,000. Mr. Estabrook is the former owner of WERI Westerly, R. I., which he sold to William Sweeney for \$74,000. Mr. Lamb continues to own WICU-AM-TV Erie, Pa., holds a cp for WMAC-TV Massillon, Ohio, and is the prospective purchaser of WTVQ (TV) Pittsburgh (cp for ch. 47) which two weeks ago was sent a McFarland letter respecting its application for extension of completion date [GOVERNMENT, Nov. 18]. WHOO operates on 990 kc with 10 kw day and 5 kw night, affiliated with ABC. Blackburn & Co. handled the transaction.

WJMS-TV IRONWOOD, MICH. • Ch. 12 cp sold to WDMJ-TV Marquette, Mich. (ch. 6), for \$10,000 to be a full satellite of WDMJ-TV whose parent corporation is 99% owned by Frank J. Russell Jr., who also owns WDMJ Marquette.

APPROVED *The following transfers of station interests were approved by the FCC last week. For other broadcast actions see FOR THE RECORD, page 107.*

KMGM-TV MINNEAPOLIS, MINN. • Thomas P. Johnson and associates sold 75% interest to National Telefilm Assoc. for \$650,000. NTA is a film syndicator, half-owner of NTA Film Network, and applicant for FCC approval for the \$3.5 million purchase of WAAT-AM-FM and WATV (TV) Newark, N. J. Comr. Bartley dissented, ask-

TRACK RECORD ON STATION SALES, APPROVALS

ing for a hearing (see story, page 80). KMGM-TV is independent on ch. 9.

WRMA MONTGOMERY, ALA. • Sold to WRMA Broadcasting Co. by Ralph M. Allgood and Grover Wise (The Southland Broadcasting Co.) for \$165,000. WRMA Broadcasting is owned by OK Realty & Investment Co. of Atlanta (WAOK Atlanta). Stan Raymond (one-third) is president of WAOK. WRMA is on 950 kc with 1 kw.

KAIR TUCSON, ARIZ. • Sold to Josh Higgins Radio Enterprises Inc. (owned by Joe DuMond) by William J. Hyland III, Dawkins Espy and James H. Duncan (Pima Broadcasting Co.) for \$135,000. Josh Higgins Radio owns 65% of KXEL Waterloo, Iowa. KAIR is on 1490 kc with 250 w.

KSHO-TV LAS VEGAS, NEV. • Sold to Nathan Adelson and Mervyn L. Adelson by Frank Oxarart and others (Television Co. of America Inc.) for \$70,000. The Messrs. Adelson each will own 50% of KSHO-TV. KSHO-TV is on ch. 13.

WJDM (TV) PANAMA CITY, FLA. • Sold to Mel Wheeler by J. D. Manly (WJDM-TV Inc.) for \$60,000. Mr. Wheeler owns 96% of the station (with his wife owning remaining 4%). Mr. Wheeler is president, general manager and 25% stockholder of WEAR-AM-TV Pensacola and owns WTYT Titusville and WSCM Panama City, all Florida. WJDM (TV) is on ch. 7 with ABC, CBS and NBC affiliation.

WJBK-TV Detroit Gives Clients 12-Month Protection in Rates

WJBK-TV Detroit has converted to a 12-month rate protection policy for all schedules that run without interruption, according to Bill Michaels, managing director of the station and vice president of licensee Storer Broadcasting Co. The general industry policy is based on a six-month rate protection against price increases.

In announcing the plan Thursday, Mr. Michaels said it conformed to rapidly changing conditions in the industry and would provide mutual benefits to advertisers, agencies and media.

Writing to agencies, Mr. Michaels said Detroit is a mature tv market with set penetration rapidly approaching saturation. Reserve requirements for potential rate increases are a deterrent to approval of long-term tv budgets, he explained, adding that agency-advertiser reaction thus far indicated the policy would have a stabilizing effect on the industry buying picture. He added:

"Basically, we simply agree with the contention of many advertisers that in

today's mature tv market they should be able to budget their appropriation for a station schedule without the psychological and financial obstacles of potential rate increases before completion."

Hines Said Fired From WGST For Airing 'Personal Views'

William Hines, news editor of WGST Atlanta, was reported fired last week by the U. of Georgia board of regents for broadcasting personal views on a news show, violating board policy. The board is licensee of the Georgia Tech-operated commercial station.

Mr. Hines, former city editor of the *Atlanta Constitution* and retired as a government information officer in Washington, told local papers he had expressed personal views in the past but was not censured until he commented on the re-election candidacy of Atlanta Mayor William B. Hartsfield. He said he had been warned after a September broadcast in which he stated that Mayor Hartsfield had won the city primary on the strength of Negro votes, an assertion he repeated in his final newscast for WGST Nov. 19. One of the board's radio committee, which dismissed the newscast, is Allen M. Woodall, president of WDAK-AM-TV Columbus, Ga.

NBC Affiliates Group Seeks Additional Circuits for DST

A committee of NBC-TV affiliates conferred with AT&T officials last week in an effort to get additional intercity circuits for the network for next year's Daylight Saving Time months. Unless the additional facilities are forthcoming, NBC pointed out, affiliates in Huntington-Charleston, W. Va., Detroit, Cincinnati and other major markets will not be able to take advantage of NBC-TV's videotape plan for overcoming the annual DST problem [NETWORKS, Nov. 11].

AT&T authorities noted that they could not yet forecast tv facility needs for next year's DST period because the three networks' reports on requirements are not due to be filed until Jan. 27. If shortages are indicated, they said, every effort will be made to solve them.

No firm decisions were reached at the

LIGHT UP THE SKY

WHEN station President W. D. (Dub) Rogers Jr. "lit" the birthday candle to mark the fifth anniversary of KDUB-TV Lubbock, Tex., Nov. 13, over 434,000 watts flared in the Texas sky. KDUB-TV's 842-ft. tower became the "biggest birthday candle in Texas and the world."

The 842-ft. tower carried 301 white 100-watt bulbs, 98 of which were replaced with 100-watt photo-flash bulbs for the initial lighting. The used flash bulbs were immediately replaced with 100-watt bulbs. Wiring of the tower involved 400 hours of on-the-ground assembly.

Complete Criminal Court Trial Taped, Filmed by WHAS-AM-TV

As the drawn-out Bullitt robbery case wound up 11 days ago. WHAS-AM-TV Louisville, Ky., recorded and filmed the entire proceedings in Jefferson County Criminal Court. The WHAS stations had given wide play to the story since the robbery occurred in 1956 [TRADE ASSNS., Nov. 11].

After some years of cooperation from the Jefferson County Criminal Court, WHAS and WHAS-TV for this trial were allowed by Judge L. R. Curtis to set up seven microphones and to use lights for filming, which were on throughout the day of the trial. Later, Judge Curtis and Commonwealth's Attorney A. Scott Hamilton told station newsmen they were glad the decision had been made to record the entire proceedings, agreeing that broadcast coverage in no way impeded trial conduct.

Mr. Hamilton said he would like to see WHAS-TV do live coverage of an entire trial at some future date and that he believes courtrooms eventually must be opened to all news media, in contradiction to the American Bar Assn.'s Canon 35, which recommends against cameras and microphones in courtrooms.

Television and radio reports were broadcast by WHAS-TV and WHAS throughout the day of the trial. After the 7:06 p.m. verdict declaring ex-chauffeur James Easley guilty of robbing the late William Marshall Bullitt, WHAS prepared a 65-minute recorded digest of the trial from nearly three hours of tapes. This was broadcast at 10:30.

Crowell-Collier Reports Profit

Crowell-Collier Publishing Co. (KFWB Los Angeles), New York, which in 1956 registered a \$4.4 million loss before getting out of the magazine publishing business this past January, last week reported third-quarter profits of \$888,774 and nine-month profits of \$2.8 million. Sales for the 1957 third quarter came to \$8.1 million and for the nine-month period \$22.7 million. Both earning figures were tabulated after deduction of non-recurring charges of \$260,000 applicable to 1956 and arising out of suspension of the three magazines, *American*, *Woman's Home Companion* and *Collier's*.

Bartell to Manage WILD

Gerald A. Bartell, president of the Bartell Group, announced last week he is assuming general management of WILD Boston. John Box, former general manager, has resigned. Joining Mr. Bartell on the executive team at WILD are Zinn Arthur, William McKibben and Jack Carney. Mr. Arthur was a New York and Hollywood publicist. Mr. McKibben was sales manager of WDEL Wilmington, Del.

THE payoff for top men in the Peters, Griffin, Woodward "Lucky Buck Radio Sales Drive" came at a New York Corvette discount store, where Robert Sommerville (c) and Don Frost (r) took their pick of prize merchandise. (Lee Bellotin [l], manager of the store, helped them make selections.) Radio account men Sommerville and Frost split \$5,000 top honors with William Bryan (not pictured) of PGW's Detroit office for bringing in the most new radio spot business during the summer and early fall. The representation firm gave out a total \$10,000 worth of prizes to salesmen all over the country. Radios scored high in their choice of merchandise, it was reported.

WLVA-AM-TV in New Studios

Staff and management of WLVA-AM-TV Lynchburg, Va., have moved into the stations' new studios and offices at 2320 Langhorne Rd., near the center of the city, it has been announced. Grand opening has been scheduled Dec. 14-15, when the public will be invited to see the \$125,000 plant.

Features they will see are a 1,600-ft. main tv studio (with doors large enough to accommodate new automobiles) and auxiliary studios, modern radio, recording and control facilities, cafeteria, film facilities, interconnected art and photo lab, offices and lounges. The one-story structure overlooks the Blue Ridge Mountains.

KALI, XEGM Offer Package Rates

An agreement between XEGM Tijuana, Mexico, and KALI Pasadena, Calif., has been announced by H. Scott Killgore, president of Tele-Broadcasters Inc., owner of KALI. Effective now, the stations are being sold on a combination basis to national and regional advertisers.

The move is the latest by KALI in its Spanish-market expansion and represents a combined listenership for the two stations of more than a million, according to Mr. Killgore. Gustavo Faist Moran remains as general manager of XEGM, and that sta-

tion becomes an affiliate of the 18-station Sombrero Network, Mr. Killgore said.

Hayes' Name for Satellite Gets Backing from Congressmen

Four members of Congress have endorsed a suggestion by John S. Hayes, president of the Washington Post Broadcast Div. (WTOP-AM-FM-TV Washington, WMBR-AM-FM-TV Jacksonville, Fla.) that the first U. S. space satellite be named "The Freedom Sphere." Mr. Hayes advanced the idea in an open letter to President Dwight D. Eisenhower Nov. 13.

Backing the proposal are Sens. John Marshall Butler (R) and J. Glenn Beall (R) of Maryland and Reps. Joel T. Broyhill (R) of Virginia and DeWitt Hyde (R) of Maryland. In statements broadcast by WTOP, they urged the President and the American people to adopt the name. Mr. Hayes' letter to the White House put forward "The Freedom Sphere" as a designation that would "renew the confidence of people everywhere in the creative ability of our free society and be a tangible result thereof. . . ."

A smaller "Freedom Sphere," a historical time capsule, stands in front of Broadcast House, home of the WTOP stations, placed there at the time the studios were dedicated.

WSOY Announcer's Tragedy

Al Rowe, WSOY Decatur, Ill., announcer, discovered while broadcasting from a hospital that his daughter was among those critically injured in an auto accident. The daughter, Donna, 17, died a few hours later. Two persons were killed and six injured in the accident. They were taken to Decatur-Macon County Hospital where Mr. Rowe broadcast from the emergency room.

REPRESENTATIVE APPOINTMENTS

KTVU (TV) Oakland, Calif., appoints H-R Television Inc.

KIRO-TV Seattle, appoints Peters, Griffin, Woodward.

WAMV E. St. Louis, Ill., appoints Weed & Co.

KFIV Modesto, Calif., appoints George P. Hollingbery.

STATION SHORTS

WBTB (TV) Charlotte, N. C., has ordered RCA color video tape recorder and expects to have it installed and in operation by September 1958. Priced "in excess of \$100,000," recorder is 7 feet high, 13 feet wide and records black and white, picture and sound on two-inch wide reel of tape that has playing time of 64 minutes.

WHIL-AM-FM Hempstead, L. I., announces new rate card (No. 8) with 25% increase in top one-time hourly rate. New top one-hour rate is \$200. One-minute spot rates now \$25 for Class A time and \$21 for Class B. Station also announces power increase from 250 w to 10 kw.

Only a few
Proceedings
of the IRE
special issues

are still available Each issue of *PROCEEDINGS OF THE IRE* is the result of the most advanced thinking in the field of radio-electronics. Based on exacting research, and written by men who are foremost in their specialty, these issues are invaluable works of reference. This is also material not available from any other source. As the official publication of *The Institute of Radio Engineers*, *PROCEEDINGS* presents the years-ahead ideas on which new advances are based. These history-making issues, originally over-printed for reserves are rapidly being exhausted and will not be reprinted.

YOU CAN STILL GET:

VERY LOW FREQUENCY, June, 1957 — New research in the very low frequency band, below 30 kc., opens up greater portions of the radio spectrum for communication purposes. VLF has many new and important uses. A reference work you'll need for years.

SINGLE SIDEBAND, December, 1956 — A round-up of recent technical discoveries as presented by the Joint Technical Advisory Committee through its sub committee on Single Sideband techniques. This special study for the FCC points up the many advantages of single sideband.

FERRITES, October, 1956 — This new group of solid state materials outmodes the intermittent "pulse" system of World War II radar. The ferrites allow simultaneous sending and receiving on a single microwave antenna; as well as full-power transmission in microwave ranges with reduced power loss and interference.

SOLID STATE ELECTRONICS, December, 1955 — This issue heralds the arrival of a new epoch in radio electronics — the solid state electronics era. Defined and named with the birth of the transistor, this concerns the control and utilization of the electric magnetic and photic properties of solids. There are now whole new classes of electronic devices due to discoveries in this field.

SCATTER PROPAGATION, October, 1955 — Here's radio history in the making. This issue presents practical application of a new principle in the fields of broadcasting and electronics. Thirty-five papers lay the foundation of a new means of communicating over long distances.

DON'T DISRUPT TV, AMST EXHORTS FCC

- Comments on 25-890 mc study
- Urges awaiting report by TASO

Any reduction or change, whatsoever, in the current 82 channel frequency assignments could be disastrous to the tv industry, and efforts in these directions should be put off until mid-1958 when the Television Allocations Study Organization produces its findings.

This is the basic position of the Assn. of Maximum Service Telecasters Inc., which today (Monday) filed its response to the current FCC inquiry into uses of 25-890 mc portion of the spectrum. The group filed a 33-page document, including 15 exhibits, showing the status of the tv industry.

TASO studies are well underway, and AMST believes any Commission orders towards more efficient use of the spectrum between 25-890 mc would be premature "until this great industry research effort is concluded." Meanwhile, it warns that an upward shift in frequencies would wipe out an industry investment of more than \$400 million. The group also made it plain that such a move would result in degraded service because of propagation limitations and other factors.

AMST justified the retention of present tv channels for exclusive broadcast use by spelling out current utilization. It said that after 12 years of commercial tv, 575 on-the-air stations (including translators and satellites) have an average frequency loading of seven operating stations per channel whereas it took am stations almost 25 years before they averaged 10 per allocated am frequency. With the exception of ch. 64, AMST said, there is at least one authorized or one requested station for each of the 82 channels indicating 98.8% utilization as of mid-October 1957.

AMST noted that each of the 12 vhf channels now averages almost 63 million viewers per channel with uhf outlets serving "large populations." Furthermore, the petition stated, 99.9% of all American families live within the service area of at least one station; the average tv home has a choice of five signals, and 77% of all tv homes are within range of four or more stations.

After documenting such items as tv retail expenditures since 1946 as \$19,053,481,000 the AMST petition detailed various data to show how the public benefits and depends on tv. Adding that it is a growing industry, AMST repeated that it is adamant against any space reductions or share-channel arrangements, regardless of their nature.

As for new technical improvements reported here and there on how to achieve more efficient use of the spectrum, AMST would again wait and see what TASO recommends.

FCC Sets New Tower Criteria

The FCC last week broadened its rule-making on its proposal to require that towers over 500 feet above ground be built in "farm areas." The Commission included new

criteria for determining whether applications for towers will require special aeronautical study. Inclusion of comments on the new criteria was recommended by the Joint Industry Government Tall Structures Committee.

Objectives of the new proposed rule-making would be to provide (1) protection for low altitude intercity air routes; (2) additional protection for high density air traffic areas, present and forecast; (3) increased protection for airways and heavily-traveled flyways; (4) additional protection for areas in the vicinity of airports and (5) areas for erection of radio and tv towers. The FCC invited comments on the new proposals by Dec. 30.

NTA GETS FCC OKAY ON BUY OF KMGM-TV

- Bartley dissents sharply
- Notes Justice-NTA suit

National Telefilm Assoc., a major television film distributor, last week received a green light for purchase of its first tv station when the FCC, by a vote of five to one, approved NTA's \$650,000 purchase of 75% interest in ch. 9 KMGM-TV Minneapolis, Minn.

FCC Comr. Robert T. Bartley issued a sharp dissent. He urged that a hearing be held on this application. Comr. Rosel H. Hyde was absent.

The Commission's approval was "without prejudice" to whatever action may be appropriate following the outcome of a government antitrust suit against NTA. Last April the Dept. of Justice filed an antitrust suit against NTA and four other tv film distributors, alleging they forced tv stations to buy films in packages, thus violating the block-booking prohibition in the 1947 motion picture consent decree. Earlier, the government filed a similar suit against Loew's Inc., a 25% owner of the Minneapolis station.

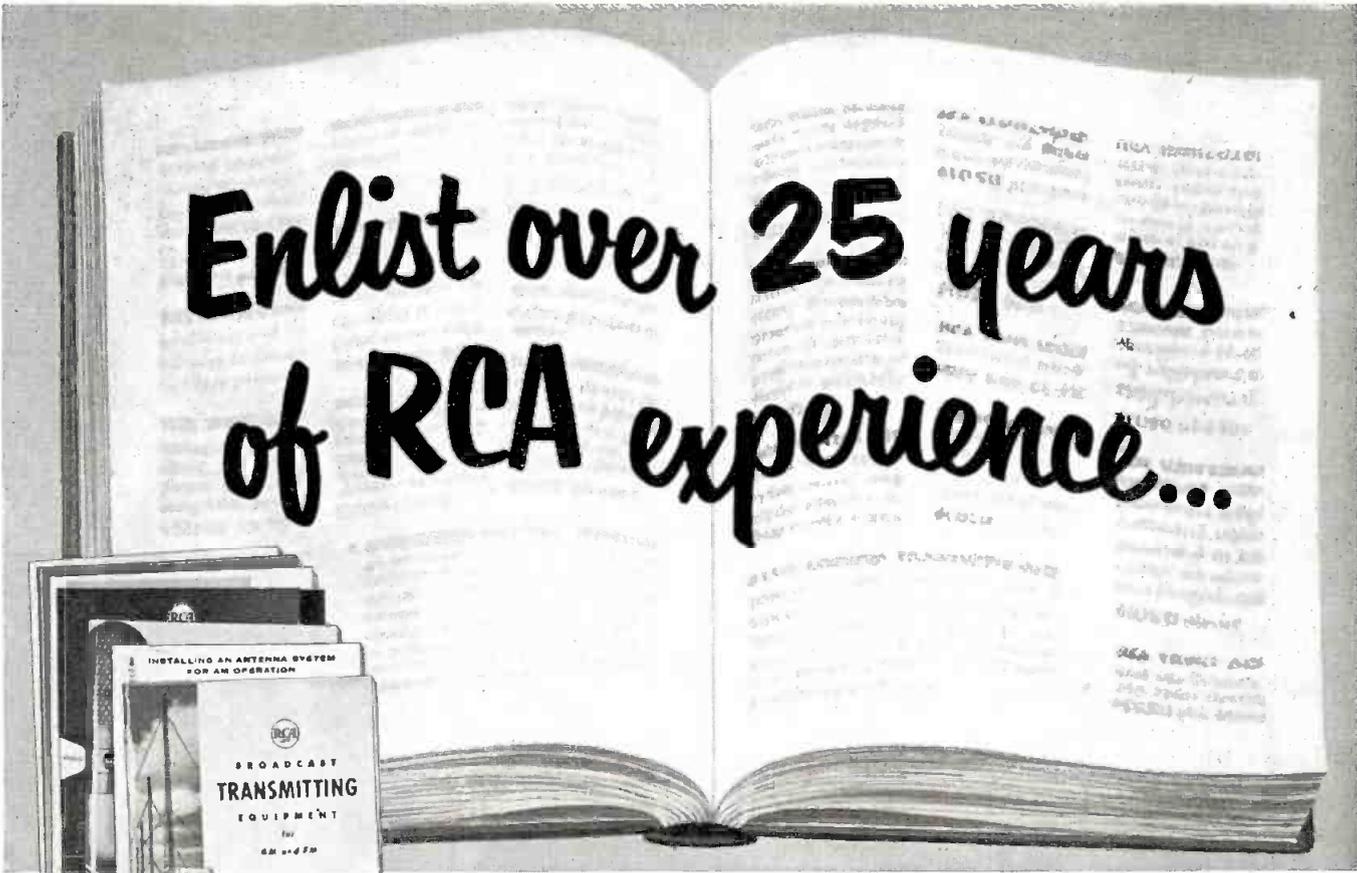

The FCC's approval came after the Justice Dept. was informed of the application for purchase [GOVERNMENT, Nov. 4]. Apparently the Justice Dept. did not ask that the transfer application be held in abeyance.

Only last month NTA contracted to pay \$3.5 million for WAAT-AM-FM and ch. 13 WATV (TV) Newark, N. J. This application is now pending before the Commission.

NTA is headed by Ely A. Landau as chairman, with Oliver A. Unger as president and Harold Goldman as executive vice president. It is a publicly held corporation with its stock traded on the American Stock Exchange.

Last spring NTA inaugurated the NTA Film Network, which has 134 outlets. The NTA Film Network is 50% owned by NTA and 50% by 20th Century-Fox Film Co. Among NTA's major film properties today are 450 20th Century-Fox features for which it will pay over \$30 million over a five-year period; such series as *Sheriff of Cochise*, *China Smith* and *Combat Sergeant*. Two weeks ago NTA bought "more than 50%"

Planning a Radio Station ?

Enlist over 25 years
of RCA experience...

These catalogs and other literature for the AM Industry are yours for the asking!

As a special service to prospective radio station owners, RCA offers a variety of publications, prepared by experts in their fields, which will be of assistance to you in your broadcast operation.

Equipment catalogs, such as the *RCA Broadcast Transmitter Catalog* and *Audio Equipment Catalog*, contain comprehensive information respectively on AM Transmitters, Remote Control, Phasing, Input and Monitoring Equipment, Transmission Lines, Towers and Accessories; and Microphones, Consolettes, Amplifiers, Turntables, Tape Recorders, Speakers, Intercom, Test Equipment. Individual Catalog Sheets on the various equipments also are available.

Special RCA articles on broadcast equipment and operation are provided. For example, you

can get a copy of a paper "Installing an Antenna System for AM Operations," an article on a new Automatic Turntable, another on an Audio Program Amplifier, with automatic gain control—a report on "How the 50 KW AM Amphiphase Transmitter Operates," and many other articles of timely interest, including eyewitness reporting of AM station planning and operation in various localities.

And typical of the other helps available, "A Functional Display of RCA Radio Broadcast Equipment" provides a fast reference guide in handy "pull-out" form. The signal path is traced from pickup source to antenna radiation, showing equipment requirements at every point.

Here's a veritable gold mine of helpful planning materials all ready to go to work for you. For any of the above items, or additional information, write to RCA, Dept. 10-22, Building 15-1, Camden, N.J.

RCA ... your first source of help in station planning

Tmk(s) ©

RADIO CORPORATION of AMERICA

Broadcast and Television Equipment • Camden, N. J.

In Canada: RCA VICTOR Company Limited, Montreal

of Associated Artists Productions [FILMS, Nov. 18].

The independent KMGM-TV began operating in January 1955. It was bought by its present owners in 1956 for \$1.14 million plus assumption of \$315,500 in obligations from Morris T. Baker and family. Mr. Baker had acquired control of the ch. 9 Minneapolis outlet in 1954 for \$300,000. Present owners of KMGM-TV include Thomas P. Johnson (22.2%), Seymour Weintraub (Flamingo Films) (15.88%) and others. Mr. Johnson and some other stockholders have interests in WENS (TV) Pittsburgh. Other stockholders have interests in WTVW (TV) Poland Springs, WPOR Portland, and WABI-AM-TV Bangor, all Maine.

Loew's Inc., which acquired its 25% interest in KMGM-TV last year in exchange for making its MGM library of feature films available for telecasting, also owns 25% of KTTV (TV) Los Angeles and KTVR (TV) Denver, Colo. It is the long-time owner of WMGM New York.

When the KMGM-TV transaction is consummated, it will be 75% owned by a tv film syndicator and 25% by a Hollywood feature film producer (MGM).

Mr. Bartley's extensive dissent called for a hearing on the application. He alluded to NTA's statements that it intends to apply for the maximum permissible tv outlets and raised questions regarding concentration of control and methods of operation in light of NTA's film distribution activities.

"I am of the opinion," Mr. Bartley said, "that since this constitutes the first application by this organization for a license under the Communications Act, the Commission should have before it complete information as to the proposed method of operation by NTA of the tv stations it seeks. Particular emphasis should be placed on the competitive practices it proposes to follow in its 'negotiations' for tv film with its own stations, as compared to its dealings with other stations in the markets where it proposes to operate. . . ."

The FCC commissioner also called attention to the government's antitrust suit against NTA and suggested a hearing is necessary to "consider and evaluate" the syndicator's conduct.

Mr. Bartley concluded his dissent with the following:

"I believe that because of the 'vertically-integrated' nature of the proposed transferee's organization, the potential competitive impact on other television stations in the markets where NTA proposes to operate its own stations, and the matters discussed above, the Commission should obtain full and complete information on the record on these aspects of the case before attempting to determine whether this transfer will serve public interest, convenience and necessity."

KSTP-TV Minneapolis first had raised the antitrust issue when it filed an objection to the sale with the FCC.

FCC Blocks WPTZ (TV) Move

The FCC last week advised WPTZ (TV) Plattsburgh, N. Y. (ch. 5), that a hearing is indicated before the station can go ahead with the proposed modifications of its

equipment and relocation of its main studio.

The Commission said the changes would be inconsistent with the agreement with Canada calling for equal signal strength at the border.

FCC Questions Sale of KCOP Following NAFBRAT Complaint

The \$4 million purchase of KCOP (TV) Los Angeles by Bing Crosby, Kenyon Brown, George Coleman and Joseph Thomas hit a snag last week when the FCC asked for more information regarding the purchaser's programming plans.

The Commission's action follows by two months a request by the National Assn. for Better Radio and Tv that license revocation proceedings be instituted against KCOP's owner, the Copley Press Inc. [GOVERNMENT, Sept. 16]. NAFBRAT charged KCOP failed to meet the minimum program code requirements established by the NARTB. NAFBRAT also asked for a hearing on the sale application.

Principal charges made against KCOP by NAFBRAT were "imbalance" in the broadcast of opinion on controversial issues, programming of the Rev. Oral Roberts, an undesirable sponsor and an overload of commercials. KCOP denounced the charges as "an opinionated attack by a small California organization dedicated to censorship of radio and tv."

Revocation proceedings against KCOP are not warranted at this time, the Commission stated, but in view of the details set forth in the NAFBRAT complaint, more information is needed on the Crosby-Brown programming plans. The FCC pointed out that the buyers stated in the sale application that they planned "no substantial changes" in KCOP's programming format and that a subsequent amendment set forth programming plans in "very general terms. The Commission believes that the situation is one which calls for specificity on the part of the assignee either by reply to this letter or in a hearing." The buyers were given until Dec. 20 to file a comment or an amendment to their original application.

FTC Charges Tv Setmakers Exaggerated Screen Size

In separate actions last week the Federal Trade Commission charged two television setmakers with exaggerating the size of picture tubes and ordered another entrepreneur to stop alleging that plastic receiver attachments would induce color tv.

Advertising copy run by the Admiral Corp., Chicago, according to the FTC, describes sets as "21-inch," "21" or "24," followed by an asterisk referring to a footnote. The footnote, far removed from figures, says the FTC, states the viewable area of the tube in square inches and says that the other measure is diagonal. This deceives the public and diverts trade unfairly from competitors in violation of the FTC Act, the government contends. Admiral has 30 days to answer the complaint, and hearing is set for Jan. 16 in Chicago.

Another Chicago firm, Muntz Tv Inc., last week was charged with exaggerating pic-

ture size and misrepresenting that sets are sold directly from the factory. Horizontal measurements of Muntz sets are substantially less than the 21, 24 and 27 inches claimed, according to the federal agency. These sizes are printed in newspaper advertisements and marked on sets themselves, the FTC says. Moreover, the sets are sold by retailers, the complaint alleges, and not "factory outlets" as represented. The firm and Earl W. Muntz, president, who is named in the complaint, may answer in 30 days. Hearing is scheduled Jan. 21 in Washington.

Harry G. Kriegel, trading as Superior Products, New York City, was ordered by the FTC to stop representing in newspapers and periodicals that a plastic sheet he sells can simulate color television. Answering a complaint last spring, Mr. Kriegel said he did not own Superior Products and that sale of the product was discontinued June 1. The "Color-V" product is described by an FTC examiner as "a sheet of transparent plastic upon which is sprayed paint of orange color blending into green at one border and blue at the opposite border."

FCC Moves to Reopen Record In Ch. 5 Case at Lubbock

In a procedure not often used, the FCC last week by its own motion instructed its staff to prepare a document reopening the record in the ch. 5 Lubbock, Tex., proceeding. Texas Tech College, lone accepted applicant for the channel, holds an initial de-

cision, proposing to use the commercial channel for an educational station.

The Commission emphasized that its action is not being taken as a result of a petition filed by a third party, although Western Tv Co. had requested the FCC to reopen the record. Western (David P. Pinkston and Leroy Elmore) also has filed an application for the channel which the Commission has not, as yet, accepted.

Hearing Examiner Millard F. French issued an initial decision last September recommending that ch. 5 be granted to Texas Tech. Before this decision became final, the Commission directed that it not be finalized pending further study. At that time, the FCC indicated it wanted to take a closer look at agreements by KDUB-TV and KCDB-TV, both Lubbock, to donate \$30,000 each to Texas Tech.

In addition to considering the \$60,000 offer, the FCC reportedly wants to determine at the proposed hearing if Texas Tech's state charter permits it to operate a commercial station, since ch. 5 is not reserved for educational use (ch. 26 in Lubbock is). It has been indicated the Commission does not want to close the ch. 5 door forever to commercial use.

C. L. Trigg formerly was an applicant for ch. 5 also and went through the early stages of a comparative hearing with Texas Tech. However, he withdrew his application last April, [GOVERNMENT, April 22] and in turn was paid \$25,000 for "expenses."

FCC Orders KTHE Purchaser To Cease Illegal Operation

William S. Black, charged by the FCC with illegally operating KTHE Thermopolis, Wyo., was ordered Thursday by the Commission to cease operation of the station "immediately." Mr. Black was given 48 hours to inform the Commission of his compliance with the ultimatum.

Management of the station was assumed, without FCC approval, by Mr. Black following his purchase of the station's equipment for \$5,000 at a July 5 bankruptcy sale. According to Commission records, KTHE is owned by the Thermopolis Broadcasting Co. (Joe C. Henry, president).

Warning of a possible unlicensed operation following the bankruptcy sale, the FCC asked the station to clarify its ownership. In reply, the Commission on Sept. 30 received a letter citing a lease agreement between Mr. Black and the station and stating that Mr. Black was managing KTHE pending an application for transfer of control.

The transfer application was filed Oct. 21. It stated that there would be no further consideration involved and that Mr. Black (owner of the *Thermopolis Independent Record*) was making equipment available to the station at no charge. Prior to filing of the assignment of license application, the FCC had asked Mr. Black to furnish a copy of the lease agreement and a report of the officers and directors of KTHE. This information was not furnished and the FCC sent a follow-up wire Oct. 21 again requesting a copy of the lease.

The FCC's action last week came after it had not received an answer to its Oct. 21 wire. The Commission informed Mr. Black that since he is not the licensee of KTHE, his operation of the station is in violation of the law, that his verbal agreement with the licensee is not sufficient to authorize operation of KTHE by him, and that his application for assignment of license cannot be processed while he continues to operate the station.

FTC Decision Finds Bottlers Clear in Merchandising Tie-ups

Coca-Cola Bottling Co. of New York Inc. and Pepsi-Cola Co., New York, will be cleared in a Federal Trade Commission complaint case involving use of radio-tv merchandising plans, if the recommendation of a hearing examiner holds.

Examiner Abner E. Lipscomb in separate initial decisions for the two firms said that FCC attorneys have no evidence to disprove the respondents' defense. Both hinged on contentions that contracts referred to in the complaints were local transactions, made by local concerns. The soft drink companies were in the group of nine charged with favoring chain store customers over others by using broadcast store promotion plans [GOVERNMENT, beginning July 30, 1956]. Six of the accused firms are appealing an initial decision by Examiner Lipscomb which would prohibit further use of the merchandising plans unless benefits were available to all store customers [GOVERNMENT, Oct. 28].

Cumberland Gap—where you can walk in the footsteps of Daniel Boone

Beyond the mountain wall was danger, hardship, perhaps death, but Daniel Boone was a man who had to go there. And so, in 1775, he led a party of pioneers through Cumberland Gap into the Kentucky wilderness. The Wilderness Road that he hacked out was to become one of the major arteries in the settlement of the West.

Today Cumberland Gap has been set aside for you as a National Historical Park—a gift to the people of the United States from Kentucky, Tennessee and Virginia. Here, where these three states meet, you can find traces of the original Wilderness Road, Civil War fortifications, limestone caves and other interesting geologic formations.

From the Pinnacle, a rocky cliff that towers above the Gap, you can see some of the East's most spectacular

mountain scenery, little changed since the days of the Shawnee war parties.

It has been nearly two centuries since Boone went through the Gap and opened up the Wilderness, but Americans are still pushing back frontiers exploring the unknown. The microscope and the slide rule have replaced the long rifle, but the pioneering spirit remains unchanged. It is the story of America's past—it is the hope of America's future. You feel it strongly at Cumberland Gap.

U. S. Might Use Eminent Domain To Get Tv Time, Professor Says

Garnet R. Garrison, director of television of the U. of Michigan, Ann Arbor, thinks the government might use the right of eminent domain to put on educational programs in top-quality, commercial television time. He posed the idea in a speech before the Ann Arbor Rotary Club Nov. 13, telling club members that education shows for mass audiences would give a powerful boost to development of the country's scientific and intellectual processes.

Referring to a national shortage of science and mathematics teachers and technicians, Mr. Garrison said, "If tv is good enough to motivate a desire to purchase consumer goods, it's good enough to stimulate the desire to learn, to transmit to the many the educational leadership of the best."

Educational tv programs and noncommercial stations reach neither masses of children nor adults, Mr. Garrison said. "The principle of the right of eminent domain, whereby local, state and national governments may appropriate property for public use such as housing, schools and roads, may provide a possible parallel in the period ahead of us. Why should not the appropriate governmental agencies have power to exercise the right of eminent domain over broadcast time segments, taking over, if purchase is not easily possible, prime time spots on commercial stations and network so as to provide program outlets?" he asked.

FCC Orders Hearing on Sale Of KREM-AM-FM-TV by Wasmer

The hotly disputed \$2 million sale of KREM-AM-FM-TV Spokane, Wash. (ch. 2), by Louis Wasmer to KREM Broadcasting Corp., largely owned by Mrs. Dorothy S. Bullitt, [AT DEADLINE, July 15] is in for a thorough FCC inspection.

Television Spokane Inc., which at one time withdrew from a comparative struggle for ch. 2 with compensation, has insisted that part of its withdrawal agreement with Mr. Wasmer included a "first refusal" option to buy KREM-TV (only) if it was ever up for sale. Mr. Wasmer denied this, stating that Television Spokane never made an actual offer. He proceeded to sell the three-station package to Mrs. Bullitt, who is principal stockholder of KING-AM-FM-TV Seattle and KGW-AM-TV Portland, Ore.

Last week the FCC ordered a hearing on all aspects of the dispute including whether Mrs. Bullitt's purchase might give her undue concentration of media in the northwest. It also ordered Mr. Wasmer and Mrs. Bullitt to return the situation to "status quo" within 30 days if the sale has already been consummated. Comr. Richard Mack abstained; Comr. T. A. M. Craven dissented.

FCC Sets Dec. 20 for Comments

The FCC last week invited comments by Dec. 20 to the proposals for changes in the tv table of channel assignments by

M&M Broadcasting Co., permittee of WMBV-TV Marinette, Wis., ch. 11, and by Television City Inc., permittee of WTAE (TV) MeKeesport, Pa., ch. 4. WMBV-TV wants to shift to Green Bay, Wis. WTAE (TV) wants to shift from Irwin, Pa., to Pittsburgh.

WLOF-TV Granted Modifications Despite Protests by WORZ

WLOF-TV Orlando, Fla. (ch. 9), last week was allowed to proceed with power and antenna hikes, transmitter modifications and other changes in spite of the protests of WORZ Orlando, which last June was the loser during FCC proceedings for the channel assignment.

WORZ currently is before the U. S. Court of Appeals seeking another FCC hearing. It thinks any improvements made by WLOF-TV (broadcast target date unknown) in the meantime will reduce WORZ' chances of winning if the court ever remands the case to the FCC. But the Commission told WORZ that its fears of being at a disadvantage are groundless unless the court instructs the FCC to consider the modifications.

FCC Delays Grant to KQAK, Though KAUS Protest Dropped

A complaint of possible economic injury against an applicant KQAK Austin, Minn., was dropped when the protesting resident station, KAUS Austin, refused "to the last" to produce its books and show how it stood to be injured.

But the FCC last week nonetheless postponed its previous grant to KQAK and designated its application for a hearing. KQAK had claimed that KAUS no longer had a case against it when that station withdrew its charges.

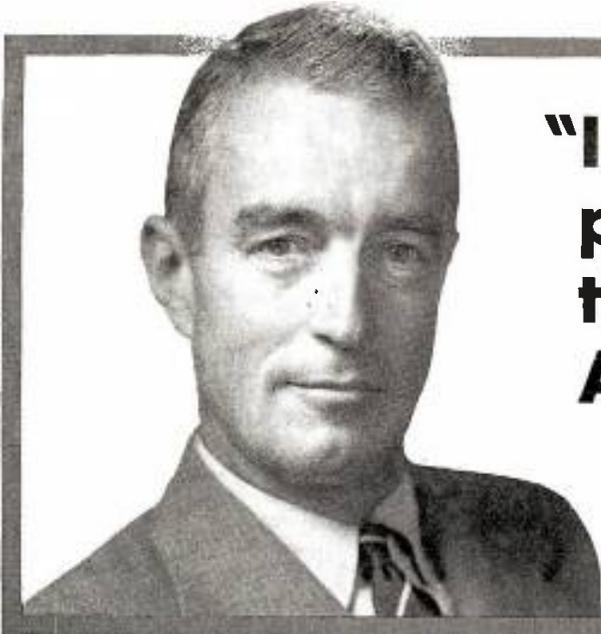

But the Commission still wants to look into the possibilities of interference and violation of its 10% rule. That rule, with exceptions, requires an applicant to serve at least 90% of the population within its normally protected contour. KAUS maintains that KQAK won't be able to do this because of interference.

Three More Fm's Want Extension

WNAV-FM Annapolis, Md., last week joined the ranks of those fm outlets unwilling to comply with the FCC's multiplexing requirement which is scheduled to become effective Jan. 1 [GOVERNMENT, Nov. 4].

The station, which specializes in store broadcasting, asked the Commission to delay the required effective installation date of the new equipment until next July. Otherwise, it said WNAV-FM will be forced to discontinue operation or drastically change its format, which is unfeasible.

Two other fm outlets, KUTE-FM Glendale, Calif., and WEAW-FM Evanston, Ill., both concerned with equipment problems, also want a waiver until July 1. The FCC already has postponed the effective date several times in response to similar fm station requests.

"I read no trade publication more thoroughly than Ad Age..."

says VICTOR ELTING, JR.
Vice-President/Advertising
The Quaker Oats Company

"There is no trade publication I read more thoroughly than Advertising Age, both with respect to current news and certainly for its contributor columns. It is the best paper anyone in advertising — client or agency — can read."

VICTOR ELTING, JR.

A Princeton graduate, Mr. Elting has been with The Quaker Oats Company since 1931, when he started working in the package department of the Cedar Rapids plant. In 1934, he moved on to the production department in Chicago, and in subsequent years broadened his experience with retail selling and working with Quaker's new products. By 1943, Mr. Elting was manager of the product development department. Before succeeding to his present position as vice-president in charge of advertising (in 1953), he had been first a product manager, and then director of advertising.

In connection with his leisure-time activities, Mr. Elting describes himself as "a small-boat man," explaining that he enjoys piloting racing shells, canoes and sailboats. Among his other interests outside the field of advertising is the Lake Forest (Ill.) Public School System, which he serves as a board member.

1 Year (52 issues) \$3

It's a safe bet that most of the advertising executives who are important to you rely on Advertising Age to keep on top of the news in this dynamic field. More than a news magazine, Ad Age also spotlights the trends and developments of marketing which help guide market and media selections. It's no surprise, then, that not only those who *activate*, but those who *influence* today's broadcast decisions consider Ad Age vital reading.

The Quaker Oats Company, for example, ranks among the top broadcast advertisers. A leading maker of cereals, pancake mixes and other products, this company earmarked more than a third of its 1956 budget for measured media just for television. Allocations for network time totaled over \$2,900,000, while more than \$619,000 was spent for spot advertising. Television expenditures for 1957 are expected to exceed the 1956 mark.

Every week, 19 *paid-subscription copies* of Ad Age get a thorough going-over by Quaker executives with an interest in marketing. Further, 105 *paid-subscription copies* get similar readership at Needham, Louis and Brorby, Inc. and Wherry, Baker & Tilden, Inc., the agencies coordinating Quaker tv.

Add to this AA's more than 39,000 paid circulation, its tremendous penetration of advertising with a weekly paid circulation currently reaching over 11,000 agency people alone, its intense readership by top executives in national advertising companies, its unmatched total readership of over 145,000—and you'll recognize in Advertising Age a most influential medium for swinging broadcast decisions your way.

AAP Makes New Sales; No Word on NTA Deal

Associated Artists Productions last week announced a series of new sales to stations of features it distributes, indicating business was "bright and as usual."

But not so clear was the disposition of AAP itself. As of late last week, National Telefilm Assoc., New York, stood on its original statement of two weeks ago that it has signed a contract for the purchase of more than 50% of the stock outstanding in AAP Corp. [FILM, Nov. 18].

Despite the NTA's stand, speculation flourished that NTA's bid may be blocked. Just how this could be achieved and by whom was not made clear. Interjected were these possibilities:

- Sale of majority stock in the motion picture company to United Artists. Reports circulated — but UA refused comment Thursday — that UA held a commitment allegedly made prior to NTA's for purchase of AAP stock owned by Board Chairman Louis Chesler and associates.

- Elliot Hyman, AAP's president, who reportedly wanted the company to continue in its present form, was said to be seeking additional financing with the hope that enough stock can be marshaled among other shareholders to block the Chesler sale.

- An unconfirmed report that Paramount Pictures might enter in the jockeying and put forth a bid on AAP.

None of these reports could be confirmed.

Other than by NTA, there was no concrete evidence nor comment expressed. UA, for example, was tight-lipped, queries to that firm in New York eliciting only a "no comment." Paramount officials were not available. Mr. Hyman could not be reached and other AAP officials were not talking to newsmen.

AAP sales reported Thursday: KTVU (TV) Oakland (San Francisco market), not yet on the air but expected to premiere in the spring, for all the first-run Warner Bros. features, some 500 in all; WRAL-TV Raleigh, N. C., for the entire Warner library including cartoons; WTVM-TV Chattanooga, the entire Warner library, and Warner features to WICU-TV Erie, Pa., and WPBN-TV Traverse City, Mich. Still others: WTTV-TV Indianapolis, for a package of Warner features and cartoons, "horror-mysteries" and westerns and the *Sherlock Holmes* tv film series; horror-mystery package to WITN-TV Washington, N. C.; KFMB-TV San Diego; KERO-TV Bakersfield, Calif., and westerns to WGN-TV Chicago; Popeyes to WGEM-TV Quincy, Ill., and WFMY-TV Greensboro, N. C.; Warner cartoons to KFLY-TV Lafayette, La.; Gold Mine library sections to WNOW-TV York, Pa., and WTIC-TV Hartford.

Meanwhile, AAP reported about 11 stations already in for the four Christmas motion pictures it is distributing, with an average sale of two or more of the four films to each station.

Screen Gems Accounts for 20% Of Columbia Pictures' Gross

Screen Gems Inc., New York, accounts for about 20% of the gross earnings of its parent company, Columbia Pictures Corp., which envisions even better future results from the tv film subsidiary.

These points emerged from a discussion at Columbia Pictures' annual stockholders meeting in New York last week. Abe Schneider, first vice president of Columbia, revealed that for the fiscal year ended last June, Screen Gems' volume amounted to \$22 million, compared with \$11 million in the previous fiscal period. This was estimated at 20% of Columbia's gross. Approximately \$4.5 million of the 1957 gross came from leasing fully-amortized, pre-1948 feature films to tv, he reported.

Mr. Schneider told the meeting there is "no truth" to reports Columbia is planning to "spin off" Screen Gems. He pointed out that SG has built up its production set-up and its distribution system all over the world and asserted that increased income will accrue from sale of syndicated tv programs and feature films.

Desilu Buys Studios From RKO

A price of about \$6,150,000 reportedly will be paid by Desilu Productions, Hollywood, for studio facilities and real estate owned by RKO Teleradio Pictures Inc. in Hollywood and Culver City, Calif.

Negotiations were being completed last week after an announcement by Thomas F. O'Neil, chairman of RKO Teleradio, and Desi Arnaz, Desilu's president, that the companies had agreed on basic terms. Conducting the negotiations were Daniel T. O'Shea for RKO and Martin Leeds for Desilu.

Since Mr. O'Neil's acquisition of RKO Radio Pictures in a \$25 million transaction [FILM, July 25, 1955], most of the features in the RKO library have been sold to Matty Fox and RKO's distribution exchanges closed about a year ago. Desilu's productions among others include *Lucille Ball-Desi Arnaz Show* (CBS-TV); *Walter Winchell File* on ABC-TV, and syndicated shows *Whirleybirds*, *Sheriff of Cochise*, *Official Detective* and *Those Whiting Girls*.

Arthur Loew Quits Foreign Unit

Arthur M. Loew, former president of Loew's Inc. (December 1955-October 1956), last week resigned as head of Loew's foreign subsidiary—Loew's International Corp.—effective Dec. 1. He has been earning \$4,000 a week. Reason for his departure was not made known. Mr. Loew, son of the late Marcus Loew, founder of the firm, is the third top executive to resign in the past year. Others: Dore Schary, who had been production head at Metro-Goldwyn-Mayer's film studios (MGM is owned by Loew's) and Charles C. Moskowitz, former vice president and treasurer. Among the issues sounded during the past year at Loew's has been a charge that the company was not "cleaning house" fast enough of its highly-paid "old-line" executives.

NTA Net Income \$1.95 Million In Fiscal Year Ended July 31

National Telefilm Assoc., New York, reported last week that net income for the fiscal year ended July 31, 1957, amounted to \$1,094,031, equal to \$1.60 per common share on 682,526 shares outstanding, as compared with a net income in the 1956 fiscal year of \$441,877, equal to \$0.68 per common share on the 650,000 shares outstanding.

During the 12-month period a total of \$17,720,134 in exhibition contracts were written in contrast with \$5,793,975 for the 1956 period, the report revealed. It placed film rentals for the 1957 fiscal year at \$10,976,479 as against \$3,818,627 in fiscal 1956.

Total assets of the corporation at the close of the fiscal year 1957 were listed at \$32,143,270, compared with \$13,092,934 a year earlier. The report stated that working capital on July 31, 1957, was \$11,806,936 and a year earlier amounted to \$2,837,055.

ABA, CBS-TV Film Sales Plan 'Attorney-at-Law' Series

The American Bar Assn., which has been criticized by broadcasters because of the prohibitions imposed by its Canon 35 on courtroom coverage by radio-tv, last week announced plans to team up with CBS Television Film Sales and Producer Theodore Granik on a series of 26 half-hour films titled *Attorney-at-Law*.

ABA, which hopes through this series to depict the legal profession in a "more accurate light," will receive royalties from the program and sponsorship approval in exchange for making available to Mr. Granik some case histories. Not all stories will end happily, ABA pointed out, but the series won't make the lawyer appear as "A dupe or charlatan, a twister of the law to suit a shady character . . . or an unmitigated rascal."

Flamingo Buys Five RKO Series

Acquisition by Flamingo Telefilm Sales Inc., New York, of the tv rights to five film series from RKO Television is being announced today (Monday) by Robert Manby, vice president of RKO Teleradio Inc. and Herman Rush, president of Flamingo. The properties involved are *Screen Directors*

Playhouse, *Soldiers of Fortune*, *Aggie*, *The Big Idea* and *Animated Fairy Tales*. RKO Television, Mr. Manby said, retains the tv distribution of its feature package and will be able to "concentrate on its program of the development and sale of various national network series on which co-production deals already have been set." Through this acquisition, Flamingo's catalogue totals 340 half hours of tv films, plus features and 194 cartoons, according to Mr. Rush.

Food Industry No. 1 User Of Syndicated Films—Ziv

The food industry has been termed the "No. 1 customer of syndicated tv film programs" by Ziv Television Programs, New York. The company reported that 37% of Ziv sponsors are processors, distributors or retailers of food and beverages.

A study by the company's research department shows that the number of food companies using Ziv tv shows has increased 49% in the past two years. The largest gain within the food category, the study reveals, came from soft drink bottlers, with three times as many bottlers on the client list today as compared with two years ago. Bakeries were the most actively represented group, in number of sponsors, followed by supermarkets, food packagers, meat packers, soft drink bottlers, dairies and beers and wines. Large regional advertisers include Hamm Brewing Co. (57 markets on *Harbor Command*), Interstate Bakeries (70 markets on *Cisco Kid*), Quality Bakers of America (18 markets on *Men of Annapolis*) and Colonial Stores (15 markets on *Dr. Christian*).

ABC-TV, SG Agree on 'Frankenstein'

ABC-TV and Screen Gems have made a co-production agreement for *Tales of Frankenstein*, a new series of 39 half-hour tv films to be produced both in Hollywood, where Screen Gems is negotiating with Bryan Foy to produce 20 programs, and in England, where James Carreras is sought as producer. Production will start as soon as possible, so ABC-TV and Screen Gems salesmen may be able to start showing the first films to prospective sponsors early in 1958, with series to be shown in the 1958-59 tv season.

Warner Completing N. Y. Move

Warner Bros. has announced that by Dec. 2 it will have completed the move of its entire New York offices from 321 W. 44th St. to the sixth and seventh floors of the new Tischman Building at 666 Fifth Ave. New space includes a two-story theatre with a special 16 mm projection booth for tv films plus a standard 35 mm movie booth. Many offices will include built-in tv and hi-fi sets. Warner's tv department will be on the sixth floor.

Gould Starts Production Firm

Formation of Walter I. Gould Productions Inc., 15 E. 48th St., New York, to make tv commercial films, has been announced by Walter Gould, formerly executive producer of Guild Films commercial division.

PREPARING for Macy's Thanksgiving Day parade, Popeye took to the air in a test flight Nov. 11 in Akron, Ohio. Created for Associated Artists Enterprises, merchandising arm of Associated Artists Productions [FILM, Nov. 11], the sailorman will tower 56 feet over parade crowds. According to Goodyear, whose aviation products division constructed the balloon, Popeye will need a ground crew of at least 25 persons.

Ziv Tv Survey Claims Viewers Wander Off at Station Breaks

There's not much of an audience for the tv screen between programs, Ziv Television Programs, New York, claimed last week on the basis of a Cincinnati study.

Results of the survey released by Ziv Tv show that 77% of an audience watching a television show is lost when the program ends, thereby decreasing the effectiveness of break-time commercial announcements.

Commissioned by Ziv Tv, the study was conducted by Burke Market Research Inc., Cincinnati, in that city during the week June 3-10. Cincinnati is a three-station market. Personal interviews were conducted in 1,000 homes with the questions concerning viewing during the previous four-hour period.

The survey, according to Ziv Tv, reveals that between tv programs, 28% of the audience leaves the room; 25% reads, makes phone calls or otherwise turns attention from the screen; 12% leave the house, 10% busy themselves by changing channels; 2% were not viewing but cannot specifically account for their activities. This leaves 23% of the total group available for viewing between program announcements, Ziv Tv claimed.

John Sinn, president of Ziv Tv, asserted, "while between program announcements have a definite role in tv advertising, they cannot do the same kind of effective selling job that program sponsorship accomplishes."

RANDOM SHOTS

Consolidated Film Industries, Hollywood, is constructing two-story addition to its 35 mm laboratory. Scheduled for completion in five months, with construction cost of approximately \$500,000, annex will contain 14 cutting rooms and expansion of CFI's title and optical departments.

Animation Inc., Hollywood, announces opening of new N. Y. office at 66 W. 53rd St. Emile de Antonio, artists agent, has been appointed Animation Inc. representative, replacing Eric Pomerance who will devote his time to his own firm, Meridian Productions.

TPA Inc. announces move of its west coast headquarters from Sunset Blvd. to 5420 Melrose Ave., L. A.

Screencraft Pictures, N. Y., has acquired all tv and non-theatrical distribution rights to *The Restless Sphere*, detailed film report on International Geophysical Year produced by BBC-TV and packaged by Robin International. *Sphere* got its first nationwide airing Oct. 20 when film report, narrated by England's Prince Philip, appeared on ABC-TV. Screencraft is making *Sphere* available in both 80-minute and 56-minute versions.

SALES

Screen Gems Inc., N. Y., reports sale of German-dubbed version of its *Father Knows Best* half-hour tv film series for showing throughout West Germany.

ABC Film Syndication, N. Y., announces eight sales last week in its *26 Men* half-hour tv film series. Contracts were signed by Burgermeister beer for showing on KOLO-TV Reno; McKenna Inc., on WLVA-TV Lynchburg, Va.; Hymbaugh Motors on WTVH (TV) Peoria, Ill.; Gustafson Dairy on WDBO-TV Orlando; Standard Oil (Indiana) on KGLO-TV Mason City, Iowa; WTVY-TV Dothan, Ala., and KOOK-TV Billings, Mont.

INS-Telenews Newsfilm Services reports 33 sales in two weeks. 1957 *Sports Year-End Review* and *News Year-End Review* were sold in Tokyo and Osaka, Japan, and to KUAM-TV Guam, adding to 10 sales made outside U. S. Both shows were signed by additional stations in Traverse City, Mich.; Madison; Seattle; Kennewick, Wash.; Green Bay; Portland, Ore., and Bay City, Mich. *News Year-End* placed in Spokane.

Twelve contracts for regular INS Telenews Services were WJMR-TV New Orleans and its affiliated stations WRIK (TV) Ponce and WORA (TV) Mayaguez, both Puerto Rico; WILK-TV Wilkes-Barre; KXLY-TV Spokane; WSFA-TV Montgomery, and WRVA-TV Richmond. *Weekly News Review* and *This Week in Sports* sold to KNTV-TV San Jose, Calif., *Sports-reel* picked up by KPAC-TV Port Arthur, Tex.; KTNT-TV Tacoma, and Manila Office of Grant Adv. for GZAQ-TV Manila.

NEW COLOR CAMERA ANNOUNCED BY GE

- Smaller size claimed for unit
- Maker cites other features

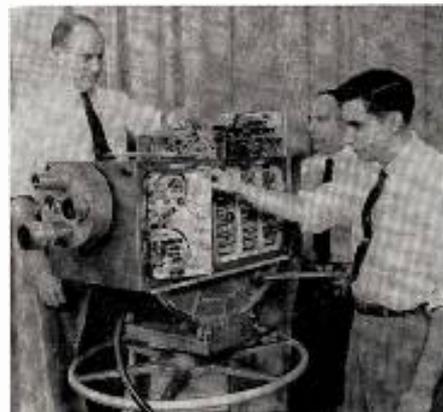

A new and smaller type of live color tv camera was introduced Wednesday by General Electric Co. at the opening of its new WGY-WRGB (TV) broadcast center in Schenectady, N. Y.

J. Milton Lang, general manager of GE broadcast station operations, demonstrated a pre-production model of the new camera, under development more than a year at the GE technical products department in Syracuse, N. Y.

Three image-orthicon tubes are used to pick up red, green and blue color signals. "But here, any resemblance to current available color tv cameras ends," Mr. Lang said. He said the camera weighs 215 pounds, about 75 pounds less than most models. Dimensions are 34x18x22 inches, about ten inches shorter, three inches narrower and an inch lower than current cameras, he added.

Printed circuits and transistors are used to cut down size. This cut in size is expected to aid tv cameramen, especially in situations requiring downward panorama takes. Special circuitry is described as insuring truer registration of colors, with no blur or run-over into other colors. A new optical system is said to eliminate the need for many glass surfaces through which color signals previously were required to pass. The result is improved color quality, Mr. Lang said. The system was developed by the GE laboratory.

Paul L. Chamberlain, manager of marketing for broadcast and military equipment in the technical products department, said the reduced size and simplicity of the camera are in keeping with the company's established trend toward simplicity and minia-

THE NEW GE color television color camera, unveiled Wednesday, is demonstrated by trio of GE broadcast engineers who headed the development team that perfected the small-sized camera. Left to right, J. F. Wiggin, A. Gula and W. L. Shepard.

turization of complex broadcast equipment. He said it will go into production in the immediate future. John Wall, broadcast equipment sales manager, said no price tag has been put on the camera but it will be priced competitively in the \$50,000 color camera field.

W. L. Shepard and J. F. Wiggin, GE broadcast development engineers, headed the team that perfected the camera, which has been put through tests at WRGB. Production models are to be shown at the NARTB convention in Los Angeles April 27-May 1. The camera is divided into hinged panels and plug-in assemblies. It has controls and operating features that permit on-the-spot adjustments in color registration. Once adjusted, it becomes mechanically and electrically stable, according to GE. Two of three camera cables required on current models are eliminated by new circuitry, the cable running to the control console.

Former GE President Swope Dies; Was Director of RCA Units

Gerard Swope, 84, former president of General Electric Co. and a former director of NBC and several RCA subsidiaries, died of pneumonia Wednesday at his New York home.

Mr. Swope, who assumed GE's presidency in 1922 after working his way through the ranks of Western Electric Co., is credited with taking GE out of its exclusive incandescent lamp business and putting it into household product diversification.

He retired from GE in 1939 but resumed the presidency in 1942 for two years while Charles E. Wilson held a government post. Survivors include his brother, former *New York World* Executive Editor Herbert Bayard Swope, three sons and a daughter.

Baltimore's 3-Way Candelabra To Incorporate New T-1 Steel

Baltimore's three-way candelabra tv tower is scheduled to be erected next year incorporating a special steel, "T-1," developed by U. S. Steel Corp. for strength, compactness

and economy. Construction of the new tower for WBAL-TV, WJZ-TV and WMAR-TV gets underway in February, a year after announcement of the joint project [STATIONS, Feb. 18].

Designed by Dresser-Ideco Co., Columbus, Ohio, the tower will provide three 107-ft. antennas, for a total height of 729 feet. The superstructure will rest on three 622-ft. legs, with points of the platform 100 feet apart. Legs of the structure will be

51st ANNUAL CHRISTMAS SEAL SALE
NOVEMBER 15 through DECEMBER

T-1 steel, a quenched and tempered low carbon alloy. Features claimed for T-1 are ability to withstand unusual stresses, resulting in lower space and bulk requirements and high resistance to atmospheric corrosion.

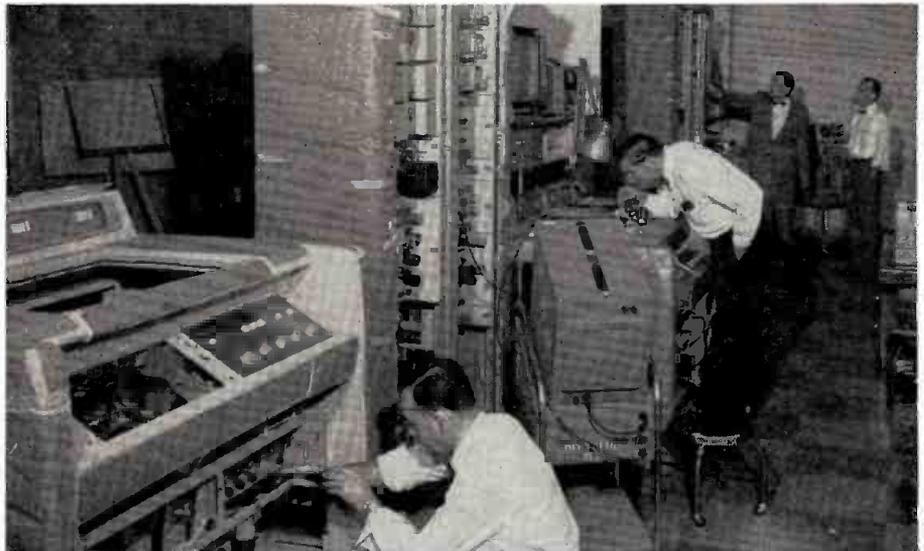

Another Dresser-Ideco-designed tower utilizing T-1 is the 1,199-ft. structure built for WBZ-TV Boston to replace the one it lost to Hurricane Carol. A 44% space saving was made in the cross-sectional area of the leg bars in the Boston tower because of the new steel's strength, it is claimed. T-1 tower legs, thinner and stronger than those of structural carbon steel, result in decreased wind pressure in addition to material savings, according to the supplier.

Fort Pitt to Drop Brewing, Concentrate on Electronics

Fort Pitt Industries Inc., Pittsburgh, Pa., which has completed arrangements to lease its Fort Pitt beer label to Gunther Brewing Co. of Baltimore, is negotiating with an unidentified manufacturer of phonograph equipment to market the high fidelity products of its subsidiary, J. P. Seeburg Corp.

The disclosure came simultaneously with Fort Pitt's announcement it is relinquishing its brewery activity and concentrating on the electronics work of the Chicago-based Seeburg firm.

Seeburg, which manufactures record-playing assemblies for jukeboxes and for broadcast and industrial use, has a reported backlog of specialized electronic equipment

FINISHING touches are put on the first videotape recording-playback machines to come off the Ampex Corp. assembly line in Redwood City, Calif., fulfilling a production schedule announced seven months ago. KING-TV Seattle and KGW-TV Portland, Ore., got two of the

amounting to \$6.5 million. Electronics and missile research at Seeburg is being accelerated in view of the government's expected boost in missile production.

Tv Set Output in Next Decade: Hotpoint Predicts 96.3 Million

The American tv set-manufacturing industry will ship some 53.2 million monochrome and 43.1 million color receivers to market by the end of 1967. That prediction was projected by Hotpoint Co. in its annual ten-year appliance forecast last week.

The Hotpoint breakdown foresees factory shipments of seven million tv sets in 1957, including 200,000 color units. By 1962, however, color should account for four million out of 9.6 million receivers. The turning point in the balance between black-and-white and color sets should be reached in 1963, with the latter accounting for 5.2 million out of a predicted 10 million shipments. From then on, color tv sets will continue to exceed monochrome, reaching 8.5 million as against 2.6 million monochrome units in 1967.

The color timetable in Hotpoint's breakdown, which seeks to depict industry growth and sales potential for dealers and distributors, follows: 1958—300,000 (out of 7,650,000 sets overall); 1959—450,000 (8,150,000); 1960—1 million (8.7 million); 1961—2 million (9.2 million); 1962—4 million (9.6 million); 1963—5.2 million (10 million); 1964—6.5 million (10,350,000); 1965—7.2 million (10.7 million); 1966—8 million (10.9 million); 1967—8.5 million (11.1 million).

Neary Retires at Lehigh Dec. 1

MANUFACTURING SHORTS

Sylvania Electric Products announces "Sylhouette," 21-inch tv console with cabinet depth of 10-inches. Set utilizes 110 degree deflection tubes which are six inches shorter than those used in older deflection systems.

Packard-Bell Electronics Corp., L. A., announces it expects sales of over \$32,000,000 for fiscal year ended Sept. 30, 1957, and net profit after taxes of more than \$1 per share.

Camera Equipment Co., N. Y., announces it is exclusive U. S. dealer for Sharps color chart and grey scale. Chart shows in advance how colors will reproduce in monochrome in tv, cinematography, photography and graphic arts.

General Precision Equipment Corp., N. Y., declares dividend of 60 cents per share on common stock, payable Dec. 15, 1957, to stockholders of record Nov. 27, 1957. Also for same date: quarterly dividend of \$1.18-¾ per share on \$4.75 cumulative preferred stock; quarterly dividend of 40 cents per share on \$1.60 cumulative convertible preference stock and quarterly dividend of 75 cents on \$3 cumulative convertible preference stock.

Superscope Inc., Hollywood, is introducing "Stereorecorder," portable recorder-reproducer of stereophonic sound which can be used anywhere for taping live performances and binaural broadcasts. Unit, priced at \$549, comes equipped with two high impedance, dynamic microphones, hysteresis synchronous driver motor, two built-in preamplification and power amplification channels with separate controls and two P. U. meters.

Fairchild Camera and Instrument Corp., Syosset, N. Y., announces new automatic self-feeding portable rapid film processing unit able to develop dry to dry 16 mm film at rate of up to 10 ft. per minute. Styled "Mini-Rapid 16," unit is priced at \$1,250 and will be available for January delivery. Unit reportedly permits tv newsmen to air 100 ft. of film within 20 minutes after exposure.

Raytheon Mfg. Co. announces opening of new 42,000 sq. ft. electronic laboratory in Santa Barbara, Calif., to be operated by company's government equipment division.

600 CLIENTS SEE TVB'S 'VISION'

- Agency-advertiser delegates flock to Chicago meeting
- Strategy for weathering 'storms' laid down for members

Television, both as a medium and through its main promotional organization, is facing several storms on its road to stability and public recognition. The tempests: newspaper criticism, sales acceptance, space competition and toll tv.

This was the message some 600 agency-client representatives heard at the Television Bureau of Advertising's third annual membership meeting Friday at the Sheraton Hotel in Chicago. They got an up-to-the-minute "Vision of Television . . . 1958" in a cellophane presentation updating showings in Los Angeles and San Francisco some weeks ago.

The delegates were told that tv must continue to do a good deal more blowing of its own horn in combatting the competition against it, and must emphasize on-the-air promotion and aggressive selling.

Additionally, they were told that TvB will carry the story to more and more advertisers and agencies with the theme that results should be measured in terms of sales results per dollar expended.

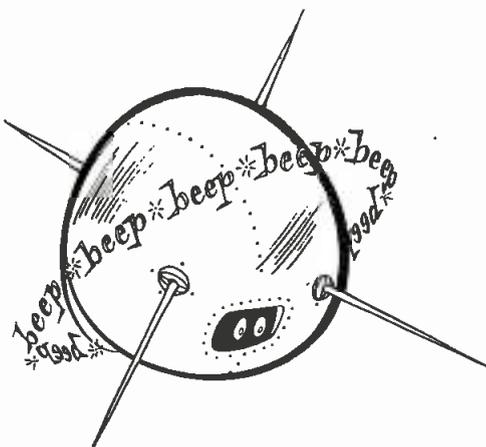

The TvB board met Thursday, reviewing several topics, including new sales-promotion-research plans and the "take it to the people" project calling for actual air tv com-

mercials, built around such themes as family membership and community relationship.

The board welcomed two new members—Joseph J. Weed, Weed Television Corp., and John Blair, John Blair & Co. They took office Friday simultaneous with the TvB membership meeting. A slate of directors and officers was up for nomination and election that afternoon. [See AT DEADLINE]. Messrs. Weed and Blair start two and one year terms, respectively.

Revised recent findings of TvB for 1958, delivered before a capacity agency-advertiser house at a Friday morning breakfast, claimed the tv advertiser has a built-in advantage because the homes that watch television the most are also the ones that spend most. The presentation said that homes in the under-\$3,000 income group spend \$18 a week for groceries and spend 29 hours per week with tv, while those in the over-\$10,000 group spend \$52 a week for groceries and watch for 50 hours. Where the small family spends \$18 on food and watches tv 23 hours per week, the presentation continued, the large family spends \$35 and watches 58 hours.

Time spent with newspapers in these same homes ranges from 10 to 15 hours a week,

President and Gen. Mgr., W. D. "DUB" ROGERS
National Sales Mgr. E. A. "Buzz" Hassett

compared to the 23-to-50-hour span in the case of television.

The presentation advised advertisers to "use television to its fullest. Don't just say your product is best—show it is best . . . use television as your selling tool by employing its motion, drama, excitement . . . capitalize on tv's speed in reaching people now for sales now, for profits now, for more advertising now."

TvB also pointed out that "tv requires only \$1,420 at night or \$1,050 during the day to reach one million people—"while newspapers require advertising budgets of \$10,790 and women's service magazines require \$6,480 to deliver the same million people."

The cellophane presentation described tv as a mold of corporate image, a teacher, and a seller, with effective tools. It was written and produced by George Huntington, TvB sales development director.

A talk by I. L. Eskenasy, executive vice president of Adell Chemical Co. (Lestoil), capped a Friday morning business session, followed with a luncheon address by E. C. Quinn, president of Chrysler Div., Chrysler Corp.

W. D. (Dub) Rogers, TvB board chairman and president of Texas Telecasting Inc., in opening the Friday business session cited several obstacles in tv's path. He noted television is not quite stabilized in terms of facilities and services, along with the "confusing atmosphere raised" by the laments of critics both constructive and self-interested "who have belittled our total product and spoken irreverently at times of our commercial contributions." Mr. Rogers also recited the obstacle course set up by "pay tv promoters with elaborate promises."

TvB today claims 238 members as against 207 a year ago and has made membership advances among station representatives and stations, he pointed out, also noting increasing number of advertising sales

presentations before clients, agencies and various organizations, along with activity of TvB's retail division. TvB soon will put out a manual encouraging manufacturers to include television in their co-op aids.

Especially with tv, Mr. Rogers asserted, success should be measured in "sales results per dollars spent" and while tv is a higher cost medium "when measured in almost every other particular," it's the "least expensive medium" in terms of results.

"It is becoming more evident," Mr. Rogers declared, that with each progressive experience in tv, "this is the basic medium for the national advertiser." If this concept holds up, he added, many top national clients "are underspending in the medium."

Among success stories cited by Mr. Rogers for television—and particularly TvB—were Sun Oil Co. (now heavily in the medium), Jos. Schlitz Brewing Co. (which increased its tv expenditures 26% over a year ago), Greyhound Corp. (now with the major part of its budget in the medium) and H. J. Heinz Co. (which increased its video outlay from 25% to 50%).

All in all, Mr. Rogers claimed, TvB has moved "swiftly and energetically" to help buttress strong tv sales efforts.

Catholic Bishops Unit To Include Radio-Tv

The Catholic Bishops of the U. S. have extended the scope of the Episcopal Committee on Motion Pictures to cover radio and television. It is charged with developing ways to evaluate broadcasting, in line with the Sept. 8 encyclical by Pope Pius XII.

The announcement was made last week by Bishop William A. Scully of Albany, N. Y., chairman of the committee which has been renamed Episcopal Committee for Motion Pictures, Radio & Television. He said a one-year study will be made "to determine the most suitable and acceptable means of carrying out the aims and objectives" of the Pope's encyclical on motion pictures, radio and tv. The encyclical will be implemented, he promised, as it is "applicable to radio and television on the American scene."

Bishop Scully noted that the bishops at their annual meeting at Catholic U., Washington, "praised this significant document of the Holy Father for its clear instructions on the moral and social responsibilities of those who are engaged in the far-reaching and influential media of motion pictures, radio and television." The bishops released a statement on "Censorship" after their meeting [TRADE ASSNS., Nov. 11].

In its year's deliberation the enlarged committee presumably will decide whether or not to extend functions of the National Legion of Decency, which rates motion pictures for the church, or to set up a separate organization or settle on other means of evaluating the broadcast media.

Members of Bishop Scully's committee are Bishop Alden J. Bell, auxiliary bishop of Los Angeles, new committeeman succeeding Bishop Timothy Manning of Los Angeles, who has completed his term; Bishop John K. Mussio, Steubenville, Ohio; Bishop James A. McNulty, Paterson, N. J., and Bishop Hubert M. Newell, Cheyenne, Wyo.

Am, Fm Committees Appointed By NARTB President Fellows

Two committees representing am and fm members were appointed today (Monday) by Harold E. Fellows, NARTB president.

Members of the am committee, which

meets Dec. 10 in Washington, are F. C. Sowell, WLAC Nashville, Tenn., chairman; Grover C. Cobb, KFGB Great Bend, Kan.; Mig Figi, WAUX Waukesha, Wis.; William C. Grove, KFBC Cheyenne, Wyo.; Cecil Hoskins, WWNC Asheville, N. C.; Richard H. Mason, WPTF Raleigh, N. C.; John F. Patt, WJR Detroit; Todd Storz, Storz stations; W. H. Summerville, WWL New Orleans; Jerome Sill, WFGP Atlantic City, N. J.; C. L. Thomas, KXOK St. Louis; Merle H. Tucker, KGAK Gallup, N. M.; Jack S. Younts, WEEB Southern Pines, N. C.; Charles R. Denny, NBC Radio; Robert Eastman, ABN; Arthur Hull Hayes, CBS Radio, and Paul Roberts, MBS.

Members of the fm committee, which meets Dec. 6 in Washington, are Raymond S. Green, WFLN-FM Philadelphia, chairman; Michael R. Hanna, WHCU-FM Ithaca, N. Y.; Merrill Lindsay, WSOY-FM Decatur, Ill.; Fred Rabell, KSON-FM San Diego, Calif.; Ben Strouse, WWDC-FM Washington, and Edward A. Wheeler, WEAW-FM Evanston, Ill.

Philco's Fink New President Of Institute of Radio Engineers

Donald O. Fink, director of research for Philco Corp., Philadelphia, last week was elected president of the Institute of Radio

MR. FINK

Engineers for 1958, succeeding John T. Henderson, principal research officer of the National Research Council, Ottawa, Ont.

The other newly-elected officer is Carl-Eric Granqvist, director of Svenska Aktiebolaget Gasaccumulator, Stockholm-Lidingo, Sweden. New directors for the 1958-60 term are G. S. Brown, professor and head of the department of electrical engineering, Massachusetts Institute of Technology, and W. H. Doherty, assistant to the president of Bell Telephone Labs, New York. Regional directors elected for 1958-59 are Region 1, R. L. McFarlan, consultant, Chestnut Hill, Mass.; Region 5, E. H. Schulz, assistant director of the Armour Research Foundation, Chicago; Region 7, G. A. Fowler, vice president of research, Sandia Corp., Albuquerque, N. M.

RAB Sets Year-End Campaign

Radio Advertising Bureau over the next five weeks will go after 300 regional and national advertisers in a last-minute year-end "sales barrage." Emphasis will be placed on regional advertisers, says RAB President Kevin B. Sweeney. More than 250 individual regional presentations will be made in the following markets: Detroit, Toledo, Charlotte, Birmingham, New Orleans, Dallas, Columbus, Dayton, Louisville, Minneapolis, St. Louis, Richmond and Norfolk. Nationally, some 50 calls are planned for agencies and advertisers.

Cavagnaro Succeeds Taishoff As National SDX President

Robert Cavagnaro, general executive of the Associated Press in charge of operations in the western states, was unanimously elected national president of Sigma Delta Chi, professional journalistic fraternity, at its closing session in Houston, Nov. 16. He succeeded Sol Taishoff, editor and publisher of BROADCASTING, who became chairman of the executive council.

Elected vice president in charge of professional chapter affairs was James A. Byron, news director of WBAP-AM-TV Fort Worth and former president of RTNDA. Edward Lindsay, executive editor of the Lindsay-Schaub Newspapers (WSOY-AM-FM Decatur, part owner of ch. 3 WICA [TV] Champaign), was elevated to vice president in charge of expansion. Burt Marvin, U. of Kansas School of Journalism, was elected vice president in charge of undergraduate affairs. E. W. Scripps II, editorial staff of Rocky Mountain News, Denver, and Scripps-Howard radio and tv stations, was elevated from executive councilman to secretary, and Buren McCormack, business manager of Dow, Jones & Co., New York (Wall Street Journal), was re-elected treasurer.

Re-elected executive councilmen were William Ray, NBC midwest news editor, Chicago; Robert M. White II, editor, Mexico (Mo.) Ledger and V. M. (Red) Newton Jr.,

editor, Tampa (Fla.) Tribune (WFLA-AM-TV). Elected to the council to succeed James Pope, executive editor of the Louisville Courier-Journal (WHAS-AM-TV), was Walter Burrows, editor and publisher, Orange Coast Newspapers, Costa Mesa, Calif., and Prof. Robert Root, Syracuse U., Syracuse, N. Y., who succeeds Ted Scripps.

Radio, Tv Ought to Scratch Each Other's Backs—Sowell

Radio and tv broadcasters should cooperate "to see that whatever extra money is available goes into some form of broadcasting," F. C. Sowell, general manager of WLAC Nashville, Tenn., said in an address to Tennessee Assn. of Broadcasters, which met Nov. 11 at Gatlinburg.

Mr. Sowell said, "A reasonable amount of scratching one another on the back can quickly prove of mutual benefit. Obviously, smart advertisers are cognizant of the coverage offered by radio, and few, if any, earmark all their advertising dollars for television." He suggested, for example, that if an advertiser buys tv as its air medium, telecasters should urge him to allot the rest of the budget to radio.

"We in radio already are encouraging this procedure with excellent success," he said. Reviewing radio's recent progress, he reminded that there are 38.5 million auto receivers, more than the number of radio homes a decade ago.

THE new officer lineup of the Tennessee Assn. of Broadcasters following this month's convention in Gatlinburg is led by John P. Hart (seated, c), president-manager of WBIR-AM-TV Knoxville, who was elected president. He succeeds Frank Corbett of WGAP Maryville (seated, r) who becomes a director. Carter Parham (seated, l), WDEF-AM-TV Chattanooga, is the association's new vice president.

Standing (l to r) are Henry Slavik, WMC-WMCT (TV) Memphis, TAB director; Henry Linebaugh, WATE-AM-TV Knoxville, secretary-treasurer, and F. C. Sowell, WLAC Nashville, director. Highlights of the TAB's 11th annual convention were a broadcast address by Gov. Frank Clement and attendance at the Tennessee-Georgia Tech football game as guests of the U. of Tennessee, which participated in the broadcaster meetings.

The Sound of Quality

WESCON Changes Board Setup, Announces New Show Agreement

A new executive structure for the board of the Western Electronic Show and Convention (WESCON) and a new contract between the West Coast Electronic Manufacturers Assn. and the Los Angeles and San Francisco sections of the Institute of Radio Engineers, which co-sponsor the annual technical convention and trade show alternately in Los Angeles and San Francisco, were approved at the annual business meeting.

The chief change creates two new positions of equal rank representing the co-sponsoring organizations: chairman of the board and chairman of the executive committee. L. W. Howard, president, Triad Transformer Corp., Los Angeles, was elected board chairman, representing WCMA. Bruce S. Angwin, Los Angeles regional manager of General Electric's electronic components division, equipment sales, was elected chairman of the executive committee, representing IRE.

Walter E. Peterson, director, electronics division, Radioplane division of Northrup Aircraft Inc., Hawthorne, Calif., was named convention director. The show director is Hugh P. Moore, board chairman of Lerco Electronics, Burbank, Calif. WESCON-1958 will take place Aug. 19-22 in the Pan Pacific Auditorium, Los Angeles.

MOBILE FIELD DAY

Mobile radio users are scheduled to let their hair down on present and future requirements of radio spectrum space at the Dec. 4 meeting in Washington of the Institute of Radio Engineers' Professional Group on Vehicular Communications.

A two-hour panel discussion is scheduled for industrial, public safety, land transportation, common carrier and military radio users Dec. 5 at the Statler Hotel. The panel will be moderated by former FCC Comr. Edward M. Webster, and members will include FCC Chief Engineer Edward W. Allen Jr., Motorola Executive Vice President Daniel E. Noble, Washington engineering consultant C. M. Jansky Jr., AT&T radio engineer Francis M. Ryan and Atlantic Refining Co. communications manager Mason S. Collett. Another meeting on "Meeting the Demands for Vehicular Communications" will hear Curtis B. Plummer, chief of FCC's Safety & Special Radio Services Bureau, and Warren Baker, FCC general counsel.

UPCOMING

November

Nov. 29: Opening session, National Assn. of Television-Radio Farm Directors, Chicago.

December

- Dec. 8: NARTB Fm Committee, NARTB Hdqrs., Washington.
- Dec. 6: Board of governors, Canadiast Broadcasting Corp., House of Commons, Ottawa.
- Dec. 9: UP newspaper editors of New York State, Hotel Syracuse, Syracuse.
- Dec. 10: NARTB Am Committee, NARTB Hdqrs., Washington.
- Dec. 18: "Resurgent New England," state broadcaster group organization meeting, Vendome Hotel, Boston.

January

- Jan. 24-26: American Women in Radio & Tv, annual "Sight and Sound Seminar," Hotel Biltmore, Palm Beach, Fla.
- Jan. 30-31: 13th annual Radio & Television Institute, School of Journalism, U. of Georgia.

February

- Feb. 1: Farm Broadcasting Day, celebration to be planned by NARTB and Dept. of Agriculture.
- Feb. 3-7: American Institute of Electrical Engineers, general meeting, Statler and Sheraton-McAlpin Hotels, New York.
- Feb. 13-15: 11th annual Western Radio and Tv Conf., Bellevue Hotel, San Francisco.

PROGRAMS & PROMOTIONS

KFOX Broadcasts Bonafide Buys

A Consumers' Shopping Service has been instituted by KFOX Long Beach, Calif., to inform listeners of specific "good buys" to be found in the local shops. The station's "shopper" (an ex-buyer and college merchandising instructor) calls, unannounced, at shops within the station's influence area and tours at will, phoning in reports on the values and bargains encountered. The station reports that, "aside from bringing more housewives and family people to the KFOX audience and making retailers more aware of radio's pulling power, Consumers' Shopping Service is more evidence of radio's flexibility. It further shows how easily radio can depart from its supposed 'jukebox formula' to better serve its vast audience and its community."

"SPEREFÉ" Formed by WGAR

Northern Ohioans are "cordially invited to become members of SPEREFÉ (Society to Preserve and Encourage Radio Entertainment for Everyone)" by WGAR Cleveland in a folder it is mailing out announcing its series of 20 weekly concerts by the Cleveland Orchestra (Sat. 7:05 p.m. EST). KGAR's invitation goes on to say that, "It seems sound to us, for instance, to run a commercial on a \$350 appliance in programs that appeal chiefly to adults. . . . And that's the reason why we continuously present the best in popular music and jazz."

THIS "BAKER BOY" has been chosen by ch. 13 WLWI (TV) Indianapolis as its trademark. The station calls itself "The Baker's Dozen" to take advantage of its channel number. The signature is used on station breaks and in all promotion and merchandising planning.

WINS Fan Wins German Shepherd

WINS New York, disturbed about Laika, the Soviet "space dog," gave away a pedigree German shepherd to the listener who submitted the most appropriate name for an "earthbound pup" and who promised never to allow it to be propelled into space. Picked from 12,134 entries, a four-year-old boy, ill with cancer, won the dog. He'll call his new pet "Anchor."

OLDTIMERS gathered in studios of WHO Des Moines this fall to celebrate the 20th anniversary of the *WHO Cornbelt Farm Hour*. Milestone broadcasters were (l to r): Don Hovey, WHO music director; Ernie Sanders, manager of WOC-TV Davenport, Iowa, first announcer on the show; Chief George Young Bear, Tama, Iowa, farmer who appeared on one of the early broadcasts in 1937; and Herb Plambeck, WHO farm director, who has been heard on all the *Cornbelt Hour's* total of 1,040 weekly broadcasts. Listeners sent flowers and cakes for the birthday broadcast, which presented 20-year highlights of the show.

WCUE's Two-Month Teaser for 'Doc'

For two months WCUE Akron, Ohio, has been running a teaser campaign to introduce Doc Lemon, the station's new personality to its listeners [PEOPLE, Nov. 18]. Direct mail pieces were sent to advertising agencies, the press and record distributors in Cleveland, Detroit, Cincinnati, Columbus, Pittsburgh and Buffalo with a picture of a lemon headed, "What will you do till the Doctor comes?" On the days following, a blond nurse visited the recipients and gave them a prescription, which, when deciphered showed the mixture would be lemonade. WCUE put ads in a local paper showing a picture of Mr. Lemon with the caption, "The Doctor Is Coming Nov. 11" and, accompanied by the glamorous nurse, he called on the agencies, press and record shops. A cocktail party wound up the campaign.

WPEN Begins Live Broadcasts Running 13 Hours on Sundays

WPEN Philadelphia announced Thursday it has adopted a policy described as new to the city's radio structure—13 hours of live Sunday programming. William B. Casky, vice president and general manager, said the station's schedule now includes "front-line, top-selling personalities seven days a week."

The basic WPEN program format now is based on live personalities around the clock. The 13-hour Sunday bracket features, effective yesterday (Sunday), Jack O'Reilly and Red Benson, who join Mac McGuire and Frank Ford. Eventually the entire Sunday schedule is expected to be live, following what Mr. Casky terms "a bold, new concept in Philadelphia."

Sputnik Helps Plug Oldsmobile

As Sputnik 2 and the '58 Oldsmobile were due to arrive in Indiana about the same time, WFBM Indianapolis and a local Oldsmobile dealer cooperated to air a special sputnik program Nov. 9, 4-5 a.m. The car dealer, as sponsor of the early morning show, recognized the coincidence of the two adverts as an off-beat way to introduce the new model automobiles and (together with Oldsmobile-plugs) the show featured: interviews with planetarium officials, weather bureau personnel, persons who had earlier reported seeing the satellite and other space objects, as well as presenting general information and data on Sputnik 2. WFBM also made arrangements with the Allison Division of General Motors to use a plane in covering the sputnik's flight over central Indiana and assigned news staffer Jim Bechtel to do a remote broadcast from the plane.

Boston Symphony in Hi-Fi Series

A complete series of stereophonic concerts by the Boston Symphony Orchestra is being carried by WCRB-AM-FM Waltham, Mass. The stations have been scheduling four or more hours of stereophonic broadcasts per week for the past four years and, with the present orchestra series, it now offers 12 hours a week. During the Fourth Annual New England High Fidelity Music Show the stations presented a total of 28 hours of hi-fi music in three days. The Northeast Plymouth Dealers Assn. sponsors part of the Boston Symphony's concerts and a stereo recording was produced of the automobile's motor for use in its commercials. WCRB has had made a "Stereo Listeners' Guide," which incorporates a slide-rule that shows how to set up speakers according to room size. Several thousand have been distributed to listeners.

Basement Decorated for Sounds

Somebody will have won himself a basement by tomorrow (Tuesday), courtesy of WVKO Columbus, Ohio. Since Nov. 11 disc jockey Bill Mertz has been airing a series of "mystery sounds" on his morning *Bill's Basement Show* (Monday through

Friday) and requesting that listeners collect and submit them when the contest closes Nov. 26. The owner of the entry card that has the most correct answers, the earliest postmark and is the neatest will win the materials to completely decorate a basement, including the ceiling materials, flooring and knotty pine sheet rock paneling for the walls.

WSRS Promotes Its Own Facilities

In a series of announcements directed at the woman of the house, WSRS Cleveland Heights, Ohio, is promoting its own advertising potential as well as advertisers' products. The spots begin by asking if her husband has been "on the complaining side lately," then suggests that perhaps his reason for being in bad humor of late is due to his company's sagging sales. The station then suggests that she get her husband to call the WSRS sales department for complete station data. The final portion of the announcement reminds the listener that it's still a good idea to get the advertiser's product—because he too, uses WSRS.

Wins \$500 for 2 Bits of Bread

More than 30,000 entries were received by WRR Dallas, Tex., during its five-week Mystery Sound contest that ended Nov. 5. Starting at \$100, the prize money was added to each week and reached \$500 before the sound was identified. In spite of repeats of the mysterious sound and the 21 clues that the station aired as to its identity, some rather strange guesses were received, such as, "A grasshopper with a wooden leg picking seeds out of a dill pickle," and "a cross-eyed snake lost in a rope factory." The actual sound proved to be two pieces of bread being rubbed together.

ATTIC FIND

Programmers of WTOP-TV Washington, thumbing through a film catalog, found a two-year-old Army film which they quickly screened and pronounced "as timely as tomorrow's newscasts." No time was lost in scheduling "The Challenge of Outer Space," presenting Dr. Wernher von Braun in a lecture at the Armed Forces Staff College, Norfolk, Va., and a question-answer session between officers and the Army missile expert. Programmed by WTOP-TV Nov. 17 at 1:45 p.m., the lecture had been filmed in October 1955 and released in March 1956.

Station management commended the film to the attention of sputnik-conscious congressional committees in advisory letters. Newsman Roger Mudd, who provided commentary for the show, singled out a timely quotation at the end of the film. An officer moderating the session concluded: "Well, gentlemen, I think time has run out on us."

WAGA-TV ATLANTA, Ga., flew a plane over Grant Football Stadium during a game to promote its *Grey Ghost* series. The plane towed a streamer displaying the show's time, day and channel number to the crowd of 40,000.

C-P Announces Contest Winners

Colgate-Palmolive Co. announced last week that Grace McElveen, WAFB-TV Baton Rouge, La., and Charles Olson, WREX-TV Rockford, Ill., are winners of \$1,000 each for first prize in the company's summer promotion contest for *The Millionaire* series on CBS-TV. C-P also awarded prizes of \$100 each to James A. Buck, WISH-TV Indianapolis; Robert G. Patt, WCBS-TV New York; Bill McClinton, WSTV-TV Steubenville, Ohio; Charles S. Cogan, WTHI-TV Terre Haute, Ind.; Robert H. Kimball, WAGA-TV Atlanta, Ga.; Doug Sundby, KHSL-TV Chico, Calif.; Robert B. Harris, WSEE-TV Erie, Pa.; N. L. Royster, WSWA-TV Harrisonburg, Va.; Shirley Zimmer, KLAS-TV Las Vegas; Ray Huffer, KDUB-TV Lubbock, Tex. Judging was on the basis of outstanding promotion on the series, which C-P sponsors. C-P agency involved is Ted Bates Inc.

KLO's New D. J. Just Drops In

An Air Force carnival was being held at about the same time as disc jockey Lew Holder was to join KLO Ogden, Utah, so the station decided that the arrival of its new staffer would not go unnoticed. On the carnival's opening day Mr. Holder donned parachute and was taken up in an Air Force plane. An estimated 10,000 spectators were introduced to the d.j. by seeing him jump from 3,000 feet and parachute safely to the ground.

KGHF's 'Operation High School'

"Operational High School" has become an annual event at KGHF Pueblo, Colo. For training purposes, the students from four local high schools—Central, Centennial, Pueblo Catholic and Pueblo County

—participate in operating the station for one day, under the supervision of KGHF personnel. The event was instituted in 1956 and proved so popular KGHF decided to repeat it each year.

WFMY-TV Sponsors Scholastic Art

The 31st National Scholastic Art Awards, one of the nation's largest art contests, is being regionally sponsored by WFMY-TV Greensboro, N. C. The competition, nationally sponsored by scholastic magazines, is open to all junior and senior high school art students. WFMY-TV will arrange a regional exhibition at Elliott Hall (N. C.) Women's College and handle entries gathered by art teachers in its viewing area. Winning pieces of work will be sent to New York after the exhibition to be judged by distinguished artists and educators, for the national prize. In addition to tuition scholarships to art schools and colleges, national winners can receive cash awards totalling \$20,000. Entries can be submitted in any of 28 categories covering all phases of creative art, from painting, fashion designing and ceramics, to weaving, leathercraft and photography.

Mummy Gives 'Shock' to Baltimore

"The Mummy," was the title of the program in the WBAL-TV Baltimore *Shock!* series Nov. 16, and the station featured a 3,500-year-old mummy in a "one-sided repartee" with the program's host to give it an added touch of realism. The mummy was presented in an Egyptian sarcophagus which post-dates her days on the Nile by 400 years. The mummy is owned by a local amateur archeologist who says it has presented problems to him: "There's a state law against keeping a dead body, but the Maryland attorney general's office told me he guessed it was all right for me to hold on to her, because the mummy's so old."

Capt. Puget Plays Postman

Children who watch *The Capt. Puget Show* over KOMO-TV Seattle (Mon.-Fri. 3:45 p.m., PST), are able to write to—and get a letter from—Santa Claus, post-marked "North Pole." The Captain is taking a trip to Alaska to supervise Santa's replies to the children and to see that they get postmarked from that area. All letters addressed to Santa care of Capt. Puget will have to reach him before he embarks for

'Maverick Jr.' Chosen by KTRK

Youngsters under 13 had the chance to become KTRK (TV) Houston's "Little Maverick" in its contest promoting ABC-TV's *Maverick* shows seen over the station each Sunday at 6:30 p.m. The children were asked to write in telling why they would like to be chosen Little Maverick and were judged by the station on their letters. The winner received a western outfit and tickets to the Shrine Circus in Houston.

Evans' Spoken Essays Now on Wax

Dr. Bergen Evans' series of 15-minute "spoken essays," broadcast on Westinghouse Broadcasting Co. stations, have been released by The Spoken Word Inc., N. Y., in an album of four long-playing phonograph records. The series was originally broadcast on WBZ Boston, WBZA Springfield, Mass.; KDKA Pittsburgh; KYW Cleveland, Ohio; WOWO Fort Wayne, Ind.; WIND Chicago, and KEX Portland, Ore. In addition, WBC has made the programs available for free use on educational and non-commercial stations. The album is entitled "Of Many Things," and among others includes: "The Humor of Sinclair Lewis," "The Function of the Critic," "The Responsibilities of Being Intelligent" and "Chaucer—The Last Civilized Man."

KTBS-TV Gets Photos at the Fair

To increase traffic to its booth at the Louisiana State Fair, encourage people to tune into its fall schedule and to get an idea of viewer preference, KTBS-TV Shreveport ran a contest whereby entrants had the chance to get their picture on tv. Contestants entered by dropping their snapshots into box at the station's State Fair booth with name, address and their favorite KTBS-TV program written on the back. The photographs were shown in ten second spots with copy behind each picture mentioning the owner's name and his favorite KTBS-TV show. On each of the seven days of the promotion, to which 1,183 entries were received, the station drew one of the pictures at random and gave the owner \$10. A newspaper ad detailed the rules, and other advertising was handled by the station's own facilities.

'Name My Tune,' Asks WEIM D.J.

Jack Richards, musical director-disc jockey of WEIM Fitchburg, Mass., is the composer of such popular hit songs as "He" (recorded by Al Hibbler and the McGuire Sisters) and "Queen of the Senior Prom" (Mills Brothers), and the station is revolving a contest round its talented staffer. Mr. Richards currently has a melody accepted by his publisher, but, as yet, it has no title. The contest calls for listeners to submit suggested names for the song, and the owner of the chosen title will receive 15% of the song's royalties.

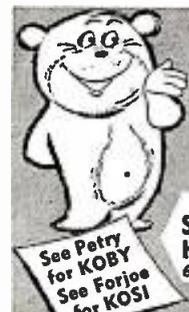

WNAC-TV BOSTON is buying time to advertise its shows from a competing media—local radio station WORL. The radio spots are aired during the day to plug the tv station's evening programs. Karl M. Frost (r), president of Frost Adv., is pictured signing the contract for its client WNAC-TV with Art Haley, general manager of WORL.

KYA Encourages Use of Libraries

To encourage people to utilize their local public libraries, KYA San Francisco has instituted a "Hidden Microphone" contest. The station has concealed a mike in one of the books in a Bay Area library and airs a clue to the book's identity and location each day to aid listeners in their search. The first one to find the miniature microphone will receive \$100 cash award.

Boston Tv Editors 'Decoyed'

Boston newspaper tv editors reportedly received quite a shock when they were asked to report to Police Headquarters by a local policewoman. Their consciences were eased at finding it was a WBZ-TV Boston press preview to which they'd been "invited." The station premiered *Decoy* Nov. 10 (Sun. 10:30 p.m. EST) and, as the series deals with the adventures of a policewoman, WBZ-TV decided, with the cooperation of the police department, to afford the editors an insight into some of a policewoman's duties. To give the series more than the usual touch of realism, the guests toured the Bureau of Operations, receiving a description of a policewoman's varied assignments. Then, following lunch, the group saw the first in the *Decoy* series and were returned to their offices by squad car.

Hearing Cases

INITIAL DECISIONS

Hearing Examiner Thomas H. Donahue issued initial decision looking toward granting application of OK Bestg. Co. for new am station to operate on 900 kc. 1 kw D, DA, in Mobile, Ala.

Hearing Examiner Basil P. Cooper issued initial decision looking toward grant of application of WKNE Corp. for new am station to operate on 1490 kc. 250 w unl., in Brattleboro, Vt. Announced Nov. 20.

OTHER ACTIONS

Commission on Nov. 20 directed preparation of document looking toward reopening, on its own motion (not on petition), record in proceeding involving application by Texas Technological College for new tv station to operate on ch. 5 in Lubbock, Tex.

By order of Nov. 20, Commission granted petition by its Broadcast Bureau and enlarged issues and amended designation order in proceeding on applications of Kapor Bestg. Corp., Lansing, Mich., Capitol Bestg. Co., East Lansing, Mich., and W. A. Pomeroy, Tawas City-East Tawas, Mich., for new am stations to operate on 730 kc.

By memorandum opinion and order of Nov.

FCC THERE FIRST

Never let it be said that the FCC isn't on the ball, or in this case, the space satellite. From years-old Sec. 3.311(d) of the FCC Standards: "A basis for allocation of satellite stations has not yet been determined. For the present, applications will be considered on their individual merits." Prophecy? No, just a reference to fm boosters.

20, Commission denied petition by Fernandina Beach Bcstrs. for reconsideration of that portion of July 18 order which enlarged issues in proceeding on its application for new am station (WSIZ) to operate on 1310 kc, 1 kw D, in Douglas, Ga.

By order of Nov. 20, Commission granted petitions by Southern Indiana Bcstrs. Inc., Newburgh, Ind., to reopen record in proceeding on application and that of Lawrenceville Bcstg. Co., Lawrenceville, Ill., for new am stations to operate on 910 kc to receive pertinent evidence concerning death of one of Southern's officers and stockholders and for leave to amend its application with respect to certain ownership facts; made facts set forth in Nov. 12 stipulation between Southern, Lawrenceville and Chief of Broadcast Bureau part of record, and closed record.

NARBA Notifications

List of changes, proposed changes, and corrections in assignment of Canadian Broadcasting Stations Modifying Appendix containing assignments of Canadian Broadcast Stations attached to recommendations of the North American Regional Broadcasting Agreement Engineering Meeting, Jan. 30, 1941. Routine Roundup

ACTIONS BY FCC

By memorandum opinion and order, dismissed letter protest by Winford M. Primm to Oct. 2 grant of transfer of control of Lee Bcstg. Corp. (WEYE, Sanford, N. C.) from W. L. Simmons, et al., to Dallas L. and Martha H. Mackey.

By order, denied request of Television Spokane Inc. for interim stay of grant pending consideration of its protest of Sept. 25 grant of assignment of licenses of KREM-AM-FM-TV (ch. 2) from Louis Wasmer to KREM Bcstg. Co.

PETITIONS FOR RULE MAKING FILED

The Young People's Church of the Air, Philadelphia, Pa.—Petition requesting amendment of tentative table of fm assignments by the issuance of rule making so as to assign fm ch. 283 to Philadelphia, Pa., by deleting assignment of ch. 284 at Trenton, N. J.; and to assign ch. 278 to Trenton to substitute for ch. 284. Announced Nov. 15.

Tri-Counties Public Service Inc., Ventura-Oxnard, Calif.—Petition requesting amendment of revised tentative allocation plan for Class B fm broadcast stations so as to add ch. 236 at Ventura, Calif., in addition to presently assigned channels; to delete ch. 236 at Santa Barbara, Calif., and add ch. 260 to same; and delete ch. 260 at San Luis Obispo, Calif., and add ch. 223 to same. Announced Nov. 15.

PETITIONS FOR RECONSIDERATION DENIED

By memorandum opinion and order, Commission denied petition by The Jacksonville Journal Co. (WJHP-TV [ch. 36] Jacksonville, Fla.) for reconsideration of Aug. 8 denial of its proposal to make ch. 47 educational tv reserved channel in Jacksonville, available for commercial use there or, alternatively, to delete commercial ch. 12 from that city and replace with ch. 46.

By memorandum opinion and order, Commission denied petition by St. Cloud Television Co. for reconsideration of Sept. 11 report and order which shifted ch. 7 from St. Cloud, Minn., to Alexandria, Minn.

ORAL ARGUMENTS SCHEDULED

Commission on Nov. 20 scheduled following proceedings for oral argument on Dec. 16:
Am applications of B. J. Parrish, Pine Bluff, Ark., et al., and
Deep South Bcstg. Co. for mod. of cp of tv station WSLA (ch. 8) Selma, Ala., to move trans. site, etc.

ACTIONS ON MOTIONS

By Chief Hearing Examiner James D. Cunningham on dates shown

Ordered that hearings shall commence in following proceedings: Fargo Telecasting Co. and North Dakota Bcstg. Co. Inc., for new tv stations to operate on ch. 11 in Fargo, N. D.; Louisiana Purchase Co. for new tv station to operate on ch. 2 in St. Louis, Mo., and Signal Hill Telecasting Corp., St. Louis, to change from ch. 36 to ch. 2; Oklahoma Television Corp., for new tv station to operate on ch. 12 in New Orleans, La., and Supreme Bcstg. Co. Inc., to change from ch. 20 to ch. 12 in New Orleans, on Jan. 6, 1958; am applications of Pierce Brooks Bcstg. Corp. (KGL) San Fernando, Calif., Santa Rosa Bcstg. Co., Santa Rosa, Calif., et al., Radio Franklin Inc., Rocky Mount, Va., and S. L. Goodman, Bassett, Va., on Jan. 9, 1958. Actions Nov. 8.

Granted petition of WDSU Bcstg. Corp., Port Arthur, for dismissal of its application and retained in hearing remaining applications involved in consolidated proceeding for new tv station to operate on ch. 12 and Television Bcstrs. Inc., to change from ch. 31 to ch. 12 in Beaumont, Tex. Action Nov. 12.

Granted petition of Chinook Television Co., Yakima, Wash., to extent that it seeks dismissal of its application for cp to replace expired permit (ch. 29), and denied in other respects; application is dismissed with prejudice. Action Nov. 12.

Granted petition of The Tradewinds Bcstg. Co. (WCBQ) Sarasota, Fla., for dismissal without prejudice of its applications for cp to replace expired am construction permit and for mod. of same. Action Nov. 13.

Granted petitions of K. C. Laurance, Medford, Ore., and Philip D. Jackson, Weed, Calif., for leave to file additional pleadings under section 1.730 of rules and pleadings entitled "Answer to Laurance Reply" and "Reply to Answer to Laurance Reply" are accepted in proceeding on their am applications (action Nov. 3); ordered that document filed in this proceeding by Jackson entitled "Jackson's Reply to Laurance Opposition for Leave to File Pleading" is dismissed as moot. Action Nov. 14.

By Hearing Examiner Jay A. Kyle on Nov. 13

Ordered that prehearing conference will be held at 2:00 p.m., Nov. 27 re application of The Radio Voice of New Hampshire Inc. (WMUR-TV ch. 9), Manchester, N. H., for renewal of license to cover cp, and application of Television for New Hampshire Inc., for new tv station to operate on ch. 9 in Manchester.

On own motion ordered that hearing on am applications of Geoffrey A. Lapping and Phoenix Bcstg. Co., Phoenix, Ariz., tentatively scheduled for Dec. 2, is continued to Dec. 4.

Ordered that prehearing conference will be held on Dec. 2 in tv rulemaking proceeding involving Evansville, Ind., and Louisville, Ky., and order directing Evansville Television Inc. to show cause why its authorization for station WTVW Evansville, should not be modified to specify operation on ch. 31 in lieu of ch. 7.

By Hearing Examiner J. D. Bond on dates shown

Ordered that prehearing conference will be held on Dec. 5 re applications of KOOS Inc. (KOOS-TV), to change from ch. 16 to ch. 11 and Pacific Television Inc., for new tv station to operate on ch. 11, both Coos Bay, Ore.

By Hearing Examiner Charles J. Frederick on dates shown

Ordered that further prehearing conference will be held on Dec. 12 re am applications of Enterprise Bcstg. Co., Fresno, Calif., et al. Action Nov. 12.

Ordered that further hearing will be held on Dec. 16 re application of Television Broadcasters Inc. (KBMT) to change from ch. 31 to 12 and KPBB Bcstg. Corp. and Brown Telecasters Inc. for new tv stations to operate on ch. 12 in Beaumont, Tex. Action Nov. 12.

Ordered that hearing heretofore scheduled for Nov. 19 is rescheduled for Nov. 25 re application of Oregon Radio Inc., for extension of time to complete construction of station KSLM-TV Salem, Ore. Action Nov. 12.

Ordered that, upon request of Oregon Radio Inc., Salem, Ore., and with the acquiescence of Broadcast Bureau, hearing scheduled for Nov. 25 is rescheduled for Dec. 2. Action Nov. 13.

By Hearing Examiner Thomas H. Donahue on November 12

At the oral request of counsel for United Telecasting and Radio Co., and with concurrence of counsel for Broadcast Bureau, hearing scheduled for Nov. 13 is continued to Nov. 27 in proceeding on its application for new tv station to operate on ch. 9 in Ogden, Utah.

By Hearing Examiner Herbert Sharfman on dates shown

Ordered that prehearing conference will be held on Dec. 4 re application of Louisiana Purchase Co. for new tv station to operate on ch. 2 in St. Louis, Mo., and Signal Hill Telecasting

Corp., for mod. of cp to change from ch. 36 to ch. 2 in St. Louis. Action Nov. 13.

By Hearing Examiner Elizabeth C. Smith on dates shown

On own motion, with concurrence of all counsel, ordered that hearing in session Nov. 13 is continued to Nov. 25 re am application of Walter T. Gaines (WGAV) Amsterdam, N. Y. Action Nov. 13.

By Comr. Robert T. Bartley on November 15

Granted petition of Acadian Television Corp., Lafayette, La., for extension of time to Nov. 27, to file reply to oppositions filed by KTAG Assoc. (KTAG-TV) Lake Charles, La., and by Broadcast Bureau in ch. 3 proceeding.

By Chief Hearing Examiner James D. Cunningham on November 18

Ordered that hearings shall commence on Jan. 13 in following tv proceedings: Sacramento Telecasters Inc. (KBET-TV) Sacramento, Calif., for mod. of cp; St. Anthony Television Corp., and WTVJ Inc., for new tv stations to operate on ch. 11 in Houma, La.

By memorandum opinion and order, denied petitions of Evansville Chamber of Commerce and WEHT Inc. (WEHT, ch. 50) Evansville, to intervene in proceeding on Evansville Television Inc., to show cause why its authorization for WTVW Evansville, Ind., should not be modified to specify operation on ch. 31 in lieu of ch. 7, and dismissed Evansville Television Inc.'s motion to strike instant petition of WEHT Inc.

By Hearing Examiner Jay A. Kyle on Nov. 18

Pursuant to prehearing conference on Nov. 18, and with concurrence of counsel, ordered that hearing is scheduled for Jan. 20, 1958, re am applications of Joseph M. Ripley Inc., Jacksonville, Fla., et al.

By Hearing Examiner Annie Neal Hunting on November 15

Granted motion of Public Service Bcstg., Riviera Beach, Fla., for continuance of date for exchange of applicants' direct cases from Nov. 15 to Nov. 22; for giving notice as to witnesses desired for cross-examination from Nov. 20 to Nov. 27; and for commencement of hearing from Nov. 27 to Dec. 4, in proceeding on Public's am application and that of Gold Coast Bcstg. Co., Lake Worth, Fla.

By Hearing Examiner Thomas H. Donahue on dates shown

Granted petition of Kermit F. Tracy, Fordyce, Ark., for extension of time from Nov. 14 to Dec. 16 for exchanging direct case, and hearing scheduled for Nov. 18 is extended to Dec. 20, at 2:00 p.m., re Tracy's am application and that of Jefferson County Bcstg. Co., Pine Bluff, Ark. Action Nov. 15.

By Hearing Examiner J. D. Bond on Nov. 15

By memorandum opinion and order, ordered that under first issue in proceeding on applications of United Bcstg. Co. Inc., Carolina Bcstg. System Inc., and New Hanover Bcstg. Co., for new tv stations to operate on ch. 3 in Wilmington, N. C., objections will be sustained to such evidence as may be offered to prove that United may or will take certain steps for purpose of becoming authorized to construct, own, and operate television broadcast station in North Carolina, and that only evidence concerning whether United is so authorized will be deemed admissible; pursuant to informal agreement among applicants, ordered that paragraph 8 of order after first prehearing conference is modified to provide that further prehearing conference will be held on Feb. 3, 1958, in lieu of Jan. 27, 1958, and pursuant to Secs. 1.813, 1.841 and 1.844 of rules, ordered that for purposes of appeal to Commission effective date of this order shall be Nov. 21.

Ordered that prehearing conference will be held on Dec. 12 re application of Oklahoma Television Corp. for new tv station to operate on ch. 12 in New Orleans, La., and Supreme Bcstg. Co. Inc. (WJMR-TV) New Orleans, to change from ch. 20 to ch. 12.

By Hearing Examiner Basil P. Cooper on November 15

Granted joint petition of Birney Imes Jr. (WMOX) Meridian, Miss., and Mississippi Bcstg. Co., Carthage, Miss., for continuance of date for exchange of exhibits from Nov. 22 to Dec. 6 and from Dec. 10 to Jan. 6, 1958, date of evidentiary hearing on their am applications.

By Hearing Examiner Charles J. Frederick on November 18

Ordered that prehearing conference scheduled for Nov. 21 is rescheduled for Nov. 25 on am applications of David M. Segal and Kenneth G. and Misha S. Prather, Boulder, Colo.

BROADCAST ACTIONS

By the Broadcast Bureau

Approved specifications submitted by Truth Publishing Co. Inc., for change of operation of WSJV Elkhart, Ind., from ch. 52 to ch. 28, pursuant to report and order in Docket 12134, effective Nov. 15; ERP vs. 204 kw. aur. 102 kw. ant. height 640 ft.; condition. Announced Nov. 19.

Actions of November 15

WBEC Pittsfield, Mass.—Granted cp to replace expired cp which authorized installation of old main trans. as an aux. trans. at present location of main trans.

Actions of November 14

KMIL Cameron, Tex.—Granted assignment of license to Milton F. Brown Jr., N. L. Caperton, and Esther Belle White d/b as Milam Bcstrs. Ltd.
 WXCN Providence, R. I.; WYCN New York, N. Y.; WHCN Hartford, Conn.; WBCN Lexington, Mass.—Granted acquisition of positive control by T. Mitchell Hastings Jr., through purchase of stock from John W. Guider.
 KSEL-FM Lubbock, Tex.—Granted license for fm station.
 WRFK Richmond, Va.—Granted license for noncommercial educational fm station.
 WBCN Boston, Mass.—Granted mod. of cp to change trans. location of fm station and make changes in ant. system, ant. height 500 ft.
 WDSM-TV Superior, Wis.—Granted mod. of cp to make changes in ant. system.

The following were granted extensions of completion dates: KLON Long Beach, Calif., to 12-30; WFHA-FM Red Bank, N. J., to 2-28-58; WPTZ North Pole, N. Y., to 5-1-58; WHBF-TV Rock Island, Ill., to 5-20-58; WTUV Tupelo, Miss., to 1-15-58.

Actions of November 13

Granted licenses for following tv stations: KXGN-TV Glendive Bcstg. Corp., Glendive, Mont., ERP vis. 5 kw, aur. 2.51 kw, ant. height 90 ft.; WTAP The Zanesville Publishing Co., Parkersburg, W. Va., KPIC South West Oregon Television Bcstg. Corp., Roseburg, Ore., ant. height 1000 ft.

KOVR Stockton, Calif.—Granted license covering changes in facilities of tv station; ERP vis. 316 kw, aur. 158 kw, ant. height 1180 ft.
 KOAT-TV Albuquerque, N. M.—Granted cp to maintain ant. system incorporated as mod., at the new main trans. site, as aux. facilities.
 KMAM Tularosa, N. M.—Granted mod. of cp to change type trans.; condition.
 KTET Livingston, Tex.—Granted mod. of cp to change type trans.

Actions of November 12

WSAN Allentown, Pa.—Granted involuntary assignment of licenses to Olivia M. Barnes and Reuel H. Musselman, individually and as executors of estate of B. Bryan Musselman, deceased.

Granted licenses for following am stations: KUTY Palmdale Bcstrs., Palmdale, Calif.; WEAG Blount County Bcstg. Co., Alcoa, Tenn.; KRNS Radio Burns, Burns, Ore.; KVCK Hi-Line Bcstg. Co., Wolf Point, Mont.

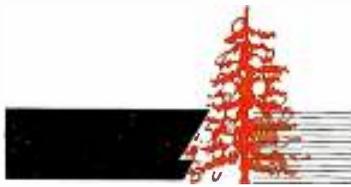

WMPJ Daytona Beach, Fla.—Granted license covering change in ant.-trans. location and make changes in ant. and groud system.

KOKA Shreveport, La.—Granted mod. of license to change name of licensee corporation to Ebony Radio of Louisiana Inc.

WSKA Milton, Fla.—Granted mod. of cp to change type trans. and make changes in ant. system.

QUOTES WORTH REPEATING

APPLES AND ORANGES

The thoroughness of radio-tv audience data in comparison to newspaper measurements is noted by Harry F. Schroeter, director of advertising, National Biscuit Co. Speaking Nov. 14 at the Advertising Research Foundation's Third Annual Conference in New York, he says the advertiser is faced with comparing electronic oranges with newspaper apples. His talk, in part:

... Continuing experience with electronic media has given us the habit of measuring costs in terms of delivered audience, not simply in terms of potential audience. Now please don't think for one minute that I am not in favor of Audit Bureau of Circulations and all that it stands for. I think everyone will continue to buy printed media on audited circulation figures. However, when electronic media are always measured in terms of cost per thousand commercial minutes or cost per thousand homes reached, a comparison on similar terms for print media and especially newspapers would be mighty helpful.

... Today the Nabisco sales force is just as excited about television and even some forms of radio as it is about the daily newspaper. Regardless of home office influence, salesmen probably reflect chiefly the attitudes of the trade they call on. My conclusion is that grocers today are much more aware of the impact of electronic media than they were. Maybe they have learned by using radio and tv themselves or perhaps because the buying committee today works from forms listing not only newspapers but all types of advertising. At any rate, salesmen are no longer carrying a torch for the daily newspaper.

JUST WHO ARE THE PROS?

Too much emphasis is placed on the contention that broadcast newsmen need to first gain experience and maturity in other fields, declares Richard Pack at the 12th Annual International Convention of the Radio-Television News Directors. [TRADE ASSNS., Nov. 18, 11] It's fallacious thinking, says the Westinghouse Broadcasting Co. vice president for programming, who points out that the rigid demands of radio-tv reporting produce the best newsmen. In his plea that the "front-page complex" be put aside, Mr. Pack says:

I was glad to hear someone say the other day, that to be a good radio or television newsman, you don't have to have been a newspaperman. Hallelujah! I firmly believe this, and I have believed it for years. In fact, I would go so far as to say that newspapermen frequently don't make good radio and tv newsmen, or news directors. The pace and pressure, the demands of broadcast journalism, are usually far greater than print journalism. Radio and tv require more ingenuity, more resourcefulness, and some-

times more creativeness; a newsman in our media has to be many things: he has to write, to edit, to plan; he has to be producer, director, and occasionally performer. A newsman in our business, can't sit at a desk for a couple of hours worrying over one story.

Newspapermen who come into broadcasting too often bring with them the accumulated rigid, dusty notions and attitudes of print journalism. . . . And sometimes they bring with them, too, not the best of the traditions and heritage of print journalism, but the worst; its stodginess, its over-reliance on wire service copy, its tendency to cliches in writing, and many other stereotypes.

But I feel that too many radio and tv newsmen, whether or not they ever worked on a newspaper, suffer from a great inferiority complex, in relation to their colleagues of the press. Maybe they still remember too much of the "Front Page," hat-over-the-eye-romantic-melodrama legends about newspapermen. Anyway, I think that too many men in the broadcast news field are suffering from this—this romanticism, from this sense of inferiority, which I call "front page hangover." Too many of us, deep down in our hearts, perhaps our subconscious, are still faintly uneasy, faintly in awe of the so-called "power of the press," front-page-roaring-twenties, dashing-hero reporter myths. . . . We are not as proud of our own media, of our own resources and power, or our own tremendous impact, as we should be.

Challenging Canon 35, fighting for freedom of access, believe me, is not enough. It is not enough, unless you rid yourselves of this negative psychological attitude. Gentlemen: I say, wash the printer's ink off your hands. Throw away your slouch hat and trench coat, if you have any, and take a few swigs of rightful pride to wash away the taste of "front page hangover."

Sure, our media are young; but they have the vitality of the youthful; the ability and the courage to do things in new ways, or better ways to experiment, to dare, even to make mistakes. And, like the young, we also have the great vistas of the future, still ahead. And we work in media which have unparalleled effectiveness in reaching the hearts and minds of people, through electronic journalism. Sure, we are young, only 38 years or so, but we also have already, at every level, whether it's the great networks, or the great stations, from 250 watters up to the 50 kws, a record of genuine achievement in news.

I believe we can train, and are training, and are developing, a new kind of journalism; a new kind of newsman. Let's not nostalgically or romantically cloud our work with the inheritance of the newspaper business; they have their problems, and their shortcomings, too. . . . And in dozens and dozens of cities, as

all of you know, enterprising and resourceful radio and tv newsmen, with small staffs, are beating out the papers on local stories.

Parenthetically, one sidebar thought: I must admit I haven't done much research on this next attitude. But I do get an impression as I get around the country and talk to newsmen, and to university people that perhaps too many of our journalism schools also are suffering from "front page hangover," and in their curriculum, and in their attitudes and teaching methods, are still putting too much emphasis on print journalism, and not enough yet on broadcast journalism. If this is so, I commend it to your organization to study, and perhaps to do something about.

BUDWEISER'S MUSIC TEST

H. K. Renfro, manager of the radio-tv department of D'Arcy Adv., St. Louis, addressing a meeting of the Country Music Disc Jockeys Nov. 15 in Nashville, recounted one agency's experience with a growing phenomenon—country music:

About the time we were producing our first commercials for Budweiser, we came up with some mighty interesting facts. We learned that some drastic changes were taking place in the music and recording industries. Surveys showed that about one-third of all records sold in the U. S. were country and western records. This accounts for about 30 million records a year. We also learned that more than two million copies of country and sheet music were sold each year. . . . It also turned out that about half the tunes on the *Hit Parade* were country and western tunes.

We decided to come to Nashville and investigate . . . and we decided to do something. Our first venture was on an experimental basis of a limited nature. We had a new beer in a few test markets, so we decided to make a simple test of a country and western commercial. We used these spots in selected markets with marked success. Our next venture in the country and music field was a regular half-hour spot on WSM Nashville's *Friday Night Frolics*. . . . We had no idea what would happen when we made one announcement offering a salt and pepper set in the shape of miniature Budweiser bottles to the first thousand people to send in a post card. By Wednesday of the following week, we had 9,000 letters and before we were completely inundated, we counted 18,000 pieces of mail.

In recent months, we have purchased schedules for Budweiser on stations programming country and western music exclusively. We think we have come a long way in our understanding of this distinct and highly specialized field of music. We feel the American public is showing an increasing interest in this kind of music.

TO THE STATION MANAGER: The insurance agent we're talking about in this ad typifies the "American agency system." He lives, works, pays taxes, and spends his money in your town. He's an independent business man, who represents stock insurance companies that provide quality protection with full-time service.

How many premiums do you pay?

1. One or more on your house?

2. Another on your household contents?

3. Still another for personal liability?

4. One for loss by theft?

Does it seem to you that there's always another insurance policy about to expire—another premium to be paid? Is it hard for you to keep track of your protection and the amounts?

Your independent local agent or broker can tell you how most, perhaps all, of the insurance on your home can be obtained in a

package policy. And the premium may be less than the total for a variety of policies.

When you streamline your insurance, insist on the *quality* protection and *full-time* service of Stock Company Insurance. And remember: if you're not *fully* insured—it's not enough!

SO YOUR COMMERCIAL IS CLEVER! BUT DOES IT SELL?

There are signs that writers of commercials have begun to overreach and outsmart themselves in an effort to attract attention and be different. Certain tendencies in writing call for a second look. I refer to commercials which are:

- (1) so clever that the sales message is heard or seen ever so faintly, if at all;
- (2) so ultra-sophisticated that it makes no sense on Main Street, U. S. A.;
- (3) too advanced in art technique, in the case of tv commercials, to be understood by most viewers;
- (4) obvious imitations of new techniques and ideas created by other copywriters. When a new type of approach hits the airwaves successfully, we get a plethora of bandwagon-jumping commercials that cancels or sharply reduces the effectiveness of the copy device;
- (5) keyed to the wrong audience.

As a copywriter, I am keenly conscious of what radio and tv copywriters are up against.

There is the stark need to attract attention on airwaves overloaded with advertising.

There is the insistence—sometimes by agency superiors, sometimes by clients—to come up with something “new and different.”

There is the temptation to create ads which will win awards in competitions.

There is the urge to write copy which will be talked about in advertising circles.

There is the fear that, unless at least a touch of “cleverness” is added, the commercial will look too simple, too uninspired—to the client.

Despite these reasons for the creation of such self-defeating commercials, I am convinced that copywriters have an obligation to both their clients and themselves to resist copy creation for any other reason than selling a product or service to the right people at the right time in the most interesting and effective way possible at the most economical cost.

THE COMMON DENOMINATOR MUST BE USED

It should go without saying—and I regret the need to say so—that ad copy-creation is no ivory tower undertaking. The copy man is a salesman trying to influence the minds of a great many people. He’s not an abstract painter, a vanguard poet or a metaphysical thinker who aims to reach what he considers an audience of the elite.

Thus, before a copywriter can even begin to prime his cranial pump on an advertising idea, he has to consider some prosaic facts.

These facts, of course, will vary with each type of product or service. If he’s selling albums of classical music, the facts he has to take into account will not be the same as those for shoe polish, cosmetics, candy or bread.

For a product intended for mass consumption—the kind most of us in advertising deal with—a creator of commercial copy cannot ignore these factual, albeit elementary items:

- (1) Those are real people at the receiving end of advertising—not characters in a book manipulated by the author.
- (2) They are people whose average educational level, even in this highly literate nation of ours, is not on a par with that of copywriters.
- (3) They are people who are not alike, as peas in a pod. They differ from one another and their differences arise from a complexity of factors: national origin, religion, race, education, climate, income, regional mores, local customs, etc.
- (4) In radio and tv, we are working in fast-moving media

of fleeting pictures or words, where there is no time to contemplate and digest.

(5) Radio and tv audiences, like the country as a whole, are not the same everywhere and at all times. They differ by market, by station, by program, by hour of day.

The very recognition that these considerations exist and are a prerequisite of successful copywriting points to a logical conclusion. Namely, that radio-tv commercials, wherever feasible from a practical standpoint, should not be catchall broadsides. Naturally, network programs make uniform commercials mandatory and recorded jingles have to be standardized in spot campaigns. But there are times when it is desirable to adapt live copy in spots to local conditions.

Here are a few examples:

- Our field research revealed that in some markets color is the most important factor in the buying of auto seat covers, while in others the dominant motive is value. We wrote the commercials for Rayco auto seat covers to suit.

- The white-shoe season starts earlier in some parts of the country than in others. We keyed our commercials to the season for Esquire Lanol-White shoe dressing.

- The big season for household fabric dyes is the spring, when homemakers go in for their annual stint of freshening up and renovating their homes. But spring cleaning time doesn’t start uniformly, the calendar notwithstanding. So our Tintex commercials took this fact into account.

- We learned that in certain markets there is a strong preference among women for high-heeled shoes, while in others the preferred choice is medium-height heels. We slanted copy to suit the local preference when we created commercials for National Shoes Inc.

YOU HAVE TO STRIKE A BALANCE

At the outset, I alluded to certain tendencies in broadcast advertising. I’d like to return to them.

For one thing, I’m not of the opinion that there’s no room for ultra-sophisticated commercials. On the contrary, some of them can be good selling vehicles—but only if they’re directed to the few sophisticated audiences there are.

But even in sophisticated markets, there’s great risk in cleverness for its own sake or to hold interest. Here the danger is that the audience will say: “Wasn’t that a clever commercial?” instead of “I’d like to try that product.”

What this boils down to is the old conflict between form and substance. You have to strike a balance. In advertising, it is fatal, I feel, to let form take precedence over substance, to permit techniques to overshadow content. Just as important as how you say it, I am convinced, is what you say.

One last word: It doesn’t follow that recognition of the educational level of the average audience demands copy that “talks down.” On the contrary, if there is one sin that copywriters must shun, it is talking down to an audience.

Actually, simplicity of language is a guarantee that you are reaching the minds of all. You can be clear, concise and convincing in the plainest of English.

B. June 10, 1913, New York; educ., College of the City of New York 1933; after stints in teaching, department store advertising and free lance writing, joined Mogul agency in September 1943. In 1945 was named copy chief and in 1950 was elected vice president, creative director for air media, member of the executive committee and member of plans board.

Spark to Holocaust

THE government battle against advertising is no longer in Washington. It has moved 35 miles away to Baltimore. There in the Monumental City a monumental city tax has been imposed on all paid advertising effective Jan. 1, designed to raise \$2.7 million of a needed additional \$17.5 million city budget.

This is local taxation—so called. One of the two ordinances is for a 4% impost on all advertising purchased in all media. The other is a 2% tax on gross advertising receipts of newspapers, radio and television stations, billboards, car-cards and whatever else may be defined by the city fathers as advertising. It is local because it is inapplicable beyond city limits. Asiatic flu started locally somewhere too.

Baltimore's cocky little mayor, Thomas D'Alesandro Jr., got his rubber-stamp City Council to approve the levies despite serious questions of constitutionality on interference with the press (which also includes the broadcast media). He had cut the paid advertising tax from the original 7½% to 4%. He also had made slurring remarks about the inordinate profits of newspapers (which have opposed him politically) and presumably drew in the broadcast media because he couldn't do it any other way.

The cut in percentage doesn't remove the objection to this unjust, unprecedented, discriminatory, illegal and contagious tax. If it sticks, it will be picked up quickly by other politically-minded city governments who seek new revenue sources or who may have grudges against their local press and other media.

All media, through their trade associations or individually, owe it to the public and to themselves to join in the court test of the D'Alesandro connivance. Local advertisers are not going to pay a 6% premium when they are already paying city income and perhaps sales taxes. National advertisers will try to cover such tax premium markets by invading from without—through networks, rather than spot, in magazines instead of newspapers.

The little spark ignited by Mayor D'Alesandro can become a holocaust that might destroy locally placed and billed advertising in all media unless it is stamped out promptly.

Ann Arbor Anomaly

AN INTERESTING way of meeting the shortage of qualified science and math teachers has come from the University of Michigan campus at Ann Arbor. Garnet R. Garrison, the university's director of television, proposes the government buy top commercial tv time for educational programs.

Unfortunately Mr. Garrison let his zeal run away with his political reasoning processes when he suggested the government should exercise the right of eminent domain to reach mass audiences through regular tv channels. In other words, he wants the government to appropriate private property for public use, with compensation for the value of choice tv hours.

It's good to know, Mr. Garrison feels, that if tv can motivate a desire to buy consumer goods it also can help solve a concededly critical educational problem. But it's utterly baffling to hear him propose a dictatorial type of confiscation that would have aroused only tolerant smiles had it come from the effervescent mind of one of his underclassmen.

Legion of Tolerance

AS DIRECTED by the Vatican, the U. S. Catholic hierarchy has begun planning an organization to judge radio and television as the Legion of Decency has judged motion pictures.

The name and scope of the Episcopal Committee on Motion Pictures have been enlarged. It is now the Episcopal Committee for Motion Pictures, Radio and Television, and it has embarked on a year's study to develop means of evaluating radio and tv programs. Meanwhile the committee, composed of five bishops, will continue to make policy for the Legion of Decency.

The extension of active Catholic scrutiny into the fields of radio and tv is the consequence of an encyclical issued last August by Pope Pius XII. The encyclical was, on the whole, a temperate document which carefully avoided suggestions that the Catholic hierarchy should attempt censorship outside the church. We have no doubt that the U. S. bishops will be sincere in their efforts to follow the Vatican mandate.

But we cannot help wondering, as we wondered when the en-

Drawn for BROADCASTING by Sherwin L. Tobias

"Yes, I like it, too, but will Ed Murrow like it?"

cyclical was published, whether a program of self-discipline so massive as to include the entire Catholic laity and priesthood can be put into effect without creating serious censorship outside the Catholic community.

The Legion of Decency classifies movies as "unobjectionable" or "objectionable." These classifications mean, of course, that the movie in question is either objectionable or unobjectionable to Catholics.

It is unnecessary to point out that some things that are objectionable to Catholics are unobjectionable to non-Catholics. The moment the radio and television Legion of Decency, or whatever it comes to be called, allows its influence to extend outside its own church, the body will itself deserve a rating of "objectionable."

Our Cup Runneth Over

OUR MAIL this week accuses us of corrupting maidens, breaking homes, orphaning children, associating with the devil and, worst of all, drinking. Baptist ministers throughout the South are praying for our salvation—but without much hope.

The crimes with which we have been charged and the stern fates to which we have been committed may be studied in greater detail in our OPEN MIKE department of this issue. The letters there are a mere sampling of more than 150 we had received when this editorial was written.

Our principal crime, of course, was in writing an editorial suggesting that broadcasters ought to reappraise their ban against liquor advertising. This editorial, from our Oct. 28 issue, was reprinted (without our permission despite copyright restrictions) and circulated to southern Baptists by Paul M. Stevens, director of the Radio & Television Commission of the Southern Baptist Convention, with the request that they write the editor.

We have no idea what action is in store for us from Mr. Stevens and his associates when they get to work on our second editorial which ran last week or on this third one. Surely, men of the cloth will not resort to bodily assault, though that is the only recourse which they have not yet taken.

The reaction we have had so far to our proposal that liquor advertising be admitted to the airways confirms what we have believed all along—that prohibitionists make noise all out of proportion to their numbers. For lack of other noise, theirs can sound impressive. We are firmly convinced that if the liquor question were to be resolved by ballots instead of shouting there would be no change whatever in the nation's liquor laws.

The repeal of the 18th Amendment made liquor legal nationally. But some states have historically remained dry, and individual communities within still other states have retained various forms of prohibition. In such places liquor advertising obviously would not be appropriate.

Outside those areas, however, liquor is not only legal; it is socially acceptable. Indeed it is a standard part of the social scene. Where liquor is legal we doubt that broadcasters would encounter anything but an increase in income if they accepted liquor advertising under proper controls.

Hearing Cases

FINAL DECISIONS

Commission announced its order of Nov. 6 dismissing petition by Sangamon Valley Television Corp., unsuccessful applicant for ch. 2 in Springfield, Ill., comparative proceeding for reconsideration or clarification of Aug. 27 action (announcing approval of specifications submitted by WMAY-TV Inc., for operation of station WMAY-TV Springfield, on ch. 36 pursuant to memorandum opinion and order which substituted ch. 36 for ch. 2 and modified WMAY-TV authorization accordingly, which action was without prejudice to whatever action Commission may be required to take as result of decisions by Court of Appeals in Sangamon Valley Television Corp. v. United States and FCC) to reflect the fact that, under the specific terms of grant which it voluntarily accepted, WMAY-TV Inc., has surrendered all asserted rights with respect to ch. 2. Comrs. Mack and Craven abstained from voting.

By memorandum opinion and order of Nov. 13, Commission denied petition by Radio Cincinnati Inc. (WKRC-TV ch. 12), Cincinnati, Ohio, intervenor, for enlargement of issues and motion to strike certain language in opposition thereto filed by WHAS Inc. (WHAS-TV ch. 11), Louisville, Ky., in proceeding on application of WHAS-TV to move trans. toward Lexington, Ky., increase ant. height to 1,818 ft., and make other changes.

By memorandum opinion and order of Nov. 13, Commission denied motion by Nevada Telecasting Corp. (KAKJ ch. 4), Reno, Nev., for discovery and inspection of certain statements in connection with proceeding on revocation of cp of KAKJ. Comr. Ford abstained from voting.

By memorandum opinion and order of Nov. 13, Commission denied motion by Booth Radio & Television Stations Inc. (WJVA), South Bend, Ind., to enlarge issues in am proceeding on its application and that of Allegan County Bcstrs., Allegan, Mich., both involving 1580 kc.

Commission announced its decision of Nov. 13 which (1) dismissed pleading by American Southern Bcstrs. entitled "Further Reply to and Explanations of Questions Directed to Carroll F. Jackson at Oral Hearing"; (2) granted protests of Southland Bcstg. Co. (WLAU) and New Laurel Radio Station Inc. (WAML), both Laurel, Miss.; (3) reversed Commission's action of Nov. 24, 1954, granting application of Carroll F. and D. N. Jackson, d/b as American Southern Bcstrs. for new am station (WPWR) to operate on 1430 kc, 1 kw D, in Laurel, Miss., and denied said application, and (4) terminated proceedings in Docket 11262. Comrs. Craven and Ford abstained from voting.

INITIAL DECISIONS

Hearing Examiner H. Gifford Irion issued initial decision looking toward grant of apst by Mid-Florida Radio Corp. (am station WLOF), Orlando, Fla., and (2) confirming Feb. 6 grant of application of Telrad Inc., for mod. of cp of station WESH-TV (ch. 2) Daytona Beach, Fla., to move trans. to a site about 25 miles from Daytona Beach in direction of Orlando and increase ERP to 100 kw vis. and 60.3 kw aur. and ant. height to 940 ft. Announced Nov. 7.

Hearing Examiner Jay A. Kyle issued initial decision looking toward grant of application of Gold Coast Bcstrs. for new am station to operate on 1470 kc, 5 kw DA, D, in Pompano Beach, Fla. Announced Nov. 8.

Hearing Examiner Annie Neal Hunting issued an initial decision looking toward grant of application of Robert H. Sauber for new am station to operate on 1430 kc, 500 w D, in Franklin, Pa. Announced Nov. 8.

Hearing Examiner Thomas H. Donahue issued initial decision looking toward grant of application of Beehive Telecasting Corp. for new tv station to operate on ch. 11 in Provo, Utah. Announced Nov. 13.

OTHER ACTIONS

Commission Instructions in Docket Cases

Commission on Nov. 13 directed preparation of documents looking toward:

Denying petition by Community Telecasting Co. (WXTV ch. 73), Youngstown, Ohio, for rehearing and reconsideration of Sept. 5 memorandum opinion and order which dismissed its protest to Commission's Feb. 20 grant of application of WKST Inc., to change trans. site of

WKST-TV (ch. 45) and make equipment changes, and

Denying petition by Interstate Bcstg. Co. Inc. (WQXR), New York City, for rehearing and stay of Feb. 13 decision which granted application of E. Weak's McKinney-Smith for new am station to operate on 1560 kc, 1 kw unli., employing a three-element directional ant., in Paducah, Ky.

ORAL ARGUMENTS SCHEDULED

Commission on Nov. 13 scheduled following am proceedings for oral argument on Dec. 10: Hocking Valley Bcstg. Corp. (WHOK) Lancaster, Ohio.

Valley Bcstg. Co. and Cherokee Bcstg. Co., both Murphy, N. C.

Star of the Plains Bcstg. Co., Slaton, Texas, and Plainview Radio, Plainview, Tex., rescheduled from Nov. 25 to Dec. 10.

By order, Commission designated for hearing on specified issues application of Sacramento Telecasters Inc., for mod. of cp to change trans. and studio site of KBET-TV (ch. 10) Sacramento, Calif., change type ant. and make other equipment changes; denied requests by McClatchy Bcstg. Co. for stay of Dec. 9, 1954, grant of KBET-TV application and for oral argument on McClatchy's petition for inclusion of issues; granted McClatchy petition for inclusion of certain issues insofar as they relate to application for mod. of cp and denied petition in all other respects; granted KBET-TV motion to strike McClatchy's petition for inclusion of issues from ch. 10 comparative proceeding; made McClatchy party to proceeding.

Routine Roundup

ACTIONS BY FCC

PETITIONS FOR RULE MAKING FILED

Star Broadcasting Co. Inc., WCBF-TV Rochester, N. Y.—Petition requesting amendment of Sec. 3.606 of rules to allocate ch. 13 to Rochester. Petitioner also requests issuance of order to show cause why its authorization for ch. 15 Rochester should not be modified to specify operation on ch. 13.

ACTIONS ON MOTIONS

On petition by ch. 16 of Rhode Island Inc. (WNET ch. 16), Providence, R. I., Commission on Nov. 8 granted in part request for extension of time for filing reply comments in tv rule-making proceeding involving Providence; New Haven, Conn., and Portland and Orono, Me.; time extended from Nov. 12 to Nov. 27.

By Hearing Examiner Basil P. Cooper on Nov. 7

Ordered that prehearing conference will be held on Nov. 19 in re fm applications of Hall Bcstg. Co. Inc., Los Angeles; Hogan Bcstg. Corp., Long Beach, and Richard C. Symnton, Los Angeles, all Calif.

By Hearing Examiner James D. Cunningham on Nov. 8

Ordered that hearing presently scheduled for Nov. 13 on application of Chinook Television Co., Yakima, Wash., for cp to replace expired permit (ch. 23), is continued indefinitely pending action on applicant's petition for dismissal of his application without prejudice.

By Chief Hearing Examiner James D. Cunningham on Nov. 6

Granted petition of Jack A. Burnett for dismissal without prejudice of his application and retained in hearing status application of United Telecasting and Radio Co., for new tv stations to operate on ch. 9 in Ogdun, Utah.

By Hearing Examiner Annie Neal Hunting on dates shown

Granted motion of Public Service Bcstg., Riviera Beach, Fla., and continued from Nov. 8 to Nov. 15 for exchange of applicants' direct cases, from Nov. 13 to Nov. 20 for giving notice as to witnesses desired for cross-examination, and hearing is continued from Nov. 20 to Nov. 27, in proceeding on Public's am application and that of Gold Coast Bcstg. Co., Lake Worth, Fla.

By Hearing Examiner Elizabeth C. Smith on Nov. 5

Granted petition of Cleveland County Bcstg. Co., Shelby, N. C., for leave to amend its am application to show engineering changes which will result in reducing interference it will receive from the proposal of Mountain View Bcstg. Co., Jonesboro, Tenn., and application, as amended, is retained in hearing status.

the sale of stock to Georgia L. Weil and Edna M. Hartley.

WOCG Elmont, N. C.—Granted license covering increase in power, change hours of operation, install DA and new trans.; conditions.

WOKZ Alton, Ill.—Granted mod. of license to change studio location and remote control point. KDDD Dumas, Tex.—Granted cp to change ant.-trans. location and operate trans. by remote control (same as studio), and waived Sect. 3.30 (a) of rules.

KOIL Omaha, Nebr.—Granted cp to install new main trans.

KETA Oklahoma City, Okla.—Granted mod. of cp to change ERP to vis. 74.1 kw, aur. 44.7 kw, and change type trans. ant. height 1450 ft.

WMDF Mount Dora, Fla.—Granted mod. of cp to change ant.-trans. location, specify studio location (same as trans. location), change type trans. and make changes in ant. (increase height) and ground system; condition.

WBAB Babylon, N. Y.—Granted mod. of cp to change type trans. and make changes in ground system.

WQIC Meridian, Miss.—Granted mod. of cp to change antenna-trans. location.

WTRN Tyrone, Pa.—Granted change of remote control authority.

Actions of November 7

Granted licenses for following tv stations: KOTI, California Oregon Television, Inc., Klamath Falls, Ore.; KHQA-TV, Lee Bestg, Inc., Hannibal, Mo.; WHLP, Greenfield Television Bestg. Corp., Greenfield, Mass.; WTVK, South Central Bestg. Corp., Knoxville, Tenn.; WPTA, Sarkes Tarzian, Inc., Roanoke, Ind., and change description of studio and trans. locations to 3333 Butler Rd., Fort Wayne, Ind.; KPAC-TV, Texas Goldcoast Television, Inc., Port Arthur, Tex.; KGEZ-TV, KGEZ-TV, Inc., KallsPELL, Mont., ERP vis. 15.1 kw, aur. 8.91 kw, ant. height 220 ft., and specify studio location (same as trans. site); KSPR-TV, Donald Lewis Hathaway, Casper, Wyo., ERP vis. 13.5 kw, aur. 6.76 kw, ant. height 80 ft.; KOAC-TV, State of Oregon Acting By and Through the State Board of Higher Education, Corvallis, Ore., ERP vis. 29 kw, aur. 14.5 kw ant. height 1210 ft. (Noncommercial Educational TV); WMVS-TV Milwaukee Board of Vocational and Adult Education, Milwaukee, Wis., ERP vis. 129 kw, aur. 65.7 kw, ant. height 740 ft. (Noncommercial Educational TV).

KODE-TV Joplin, Mo.—Granted license covering changes in facilities of tv station ERP vis. 219 kw (DA), aur. 129 kw (DA).

WMAL-TV Washington, D. C.—Granted license to maintain trans. incorporated (granted 10-3-55) as aux. facilities at main trans. site.

KOMO-TV Seattle, Wash.—Granted license covering installation of aux. trans. and ant. at main trans. site.

WMAR-TV Baltimore, Md.—Granted license covering installation of aux. trans. at main trans. site.

KTBC-TV Austin, Tex.—Granted license covering changes in facilities (main trans. & ant.), and installation of aux. trans. at main trans. site.

KELO-TV Sioux Falls, S. Dak.—Granted license covering changes in facilities of tv station; ERP vis. 224 kw, aur. 126 kw, ant. height 980 ft., and specify studio location.

WBNS-TV Columbus, Ohio—Granted request for cancellation of license covering aux. trans. in order to facilitate installation of new equipment, as previously authorized by the Commission.

KOB-TV Albuquerque, N. Mex.—Granted cp to change ERP to vis. 27 kw, aur. 13.5 kw, change type of trans. and other equipment changes, ant. height 4200 ft.

KWJB-FM Globe, Ariz.—Granted mod. of cp to change type trans.; condition.

WHYN-TV Springfield, Mass.—Granted extension of completion date to 1-1-58.

Actions of November 6

WTAE McKeesport, Pa.—Granted mod. of cp to change studio location to Penn.-Lincoln Parkway interchange, Ardmore Blvd., Wilkinsburg, Pa., and waived Sect. 3.613(b) of the rules; ant. height 960 ft.

WDHF Chicago, Ill.—Granted mod. of cp to increase ERP of fm station to 52 kw, specify new trans.-ant. location as 9727 S. Central, Oak Lawn, Ill.; and studio location and remote control point as 9680 Plaza Terrace, Chicago, Ill.; change type trans. and make changes in ant. system; ant. height 230 ft.

KETC St. Louis, Mo.—Granted extension of completion date to 1-6-58.

Actions of November 5

WISC-TV Madison, Wis.—Granted license for tv station; ant. height 790 ft.

KBRV Soda Springs, Idaho—Granted license for am station.

WEZB Homewood, Ala.—Granted license covering change in ant.-trans. location and make changes in ant. and ground system.

WDSG Dyersburg, Tenn.—Granted cp to move trans. approximately 300 ft. from present location (same address), change studio location and operate trans. by remote control; condition.

KFAD Fairfield, Iowa—Granted extension of authority to remain silent for additional 45 days from 11-1-57 to permit the preparation and processing of application for assignment of license.

KALV Alva, Okla.—Granted extension of authority to sign-off at 7:30 p.m., local time or period ending 1-1-58.

KMOR Oroville, Calif.—Granted permission to remain silent for period of 30 days from 11-2-57

for purposes of refinancing and reorganizing and allow time for completion of transfer negotiations.

Following were granted extensions of completion dates: KOCS Ontario, Calif., to 3-31-58; KELL Kellogg, Idaho, to 3-31-58.

Actions of Nov. 4

KCLP Rayville, La.—Granted license for am station; conditions.

WXXX Hattiesburg, Miss.—Granted license for am station; conditions.

KCUR-FM Kansas City, Mo.—Granted license for noncommercial educational fm station.

KPEN Atherton, Calif.—Granted license for fm station.

KRCW Santa Barbara, Calif.—Granted license for fm station; studio-remote control point address specified as 818 State St., Santa Barbara.

WVVW Grafton, W. Va.—Granted license covering installation of new trans.

WSPD Toledo, Ohio—Granted license covering installation of new trans. as alternate main trans. at main trans. site.

WBNX New York, N. Y.—Granted cp to install new trans. as an aux. trans. at present main trans. site.

WCKR Miami, Fla.—Granted cp to change aux. trans. location from old main trans. location to present main trans. location.

WOAI-TV San Antonio, Tex.—Granted cp to maintain presently licensed trans. and ant. at old trans. site as aux. facilities.

Following were granted extensions of completion dates: WTWO Bangor, Me., to 1-13-58; WSBA-TV York, Pa., to 5-25-58; KOXR Oxnard, Calif., to 5-21-58; WWHG Hornell, N. Y., to 12-31.

the high speed and wide latitude of Du Pont "Superior" 4!

Speaking for NBC cameramen all over the world. Mr. Gene Juster, Manager of NBC Newsfilm, said that DuPont Superior® 4 Motion Picture Film is the best combination of wide exposure latitude and high speed they have found.

News cameramen have to shoot many situations with only available light and they have found that "Superior" 4, lets them get good newsreel shots in almost any light. In fact, as a test of this film's speed, a man was photographed in a darkroom, holding a lighted match a foot from his face. With this single light source, DuPont "Superior" 4 recorded recognizable features.

99 times out of 100, these cameramen cannot

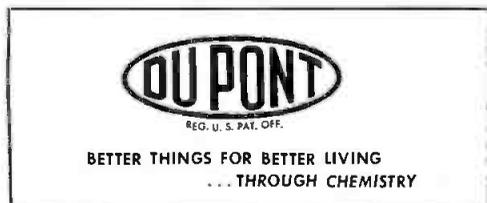

afford the luxury of a meter reading before they shoot. They rely on their experience and their confidence in the film they use to get a good picture—and they usually can't go back and try again. Many of the men assign their own speed ratings to a film, and NBC has learned to depend on the wide latitude of "Superior" 4 to handle these varied ratings during processing.

In view of the confidence which NBC's experienced cameramen, like those shown above, place in Du Pont "Superior" 4, it's not surprising to find that this fine film is in NBC's film stocks.

FOR FURTHER INFORMATION about Du Pont Motion Picture Films, ask the nearest Du Pont Sales Office, or write Du Pont Co., Photo Products Dept., Wilmington 98, Delaware. In Canada: Du Pont Company of Canada (1956) Limited, Toronto.

Mr. Gene Juster (right) of NBC Newsfilm and Mr. William Sweet, Du Pont Technical Representative, discuss the ability of Du Pont "Superior" 4 to withstand the high processing temperatures met when using NBC's "Jiffy" processor.

QUOTES WORTH REPEATING

RADIO'S STERLING QUALITIES

Stephen B. Lubunski, vice president in charge of programming, American Broadcasting Network, told the Providence Advertising Club that it is difficult to make a bad buy in radio and virtually impossible to make a bad buy in network radio. He made these points about radio to advertisers and agencies seeking effective advertising at a reasonable cost:

We think that network radio offers you some possible answers. Radio is the only medium which effectively combines entertainment, communication, information and advertising all at once. It offers showmanship in entertainment plus salesmanship by personalities. It offers you copy control and the kind of careful integration of commercials into the body of radio shows which makes your advertising more effective.

Radio has the quality of *multi-access*—the ability to reach into every room in the house, into the automobiles, and everywhere else outside of the home. Radio is *ambiactive*—it allows listeners to continue doing the things they have to do or want to do while listening to the radio. Radio is the ideal medium for reaching 170 million people through 140 million radio sets—the largest potential circulation you can buy in advertising. No other advertising medium has anything like radio's power to saturate, its ability to persuade and its extraordinary capacity to reach people everywhere and in every conceivable activity.

WHAT'S FUNNY ABOUT TV FUN?

Critic-writer John Lardner, in the Nov. 2 New Yorker magazine, examines the whys and wherefores of good humor as expressed on the air and finds it little better than "synthetic fun."

In a number of recent television shows, the dominant note has been one of good humor without visible or audible cause. The performers in these shows—Frank Sinatra, Dinah Shore, Bing Crosby, Perry Como and Louis Armstrong, among others—have worked long and hard to establish the point that comedy on credit, the mere display of cheerfulness or gaiety, is a satisfactory substitute for comedy itself. Heard comedy, they seem to suggest, is droll; that unheard and accounted for is just as funny. It's a tenuous proposition, at best. In practice, comedy on credit, or synthetic fun, is bound, I think, to embarrass and frustrate the spectator who was brought up on the product of outright professional comedians. Gay or not (and much of the best of it is sad or dour or wolfish), real comedy has a sound metallic base. It accounts for itself.

It's true that we're living at a time of crisis for comedy in television. The air

has been almost completely purged of trained comedians, on commercial grounds. . . . Live entertainment in the costly evening hours has fallen largely into the hands of "personalities" like Mr. Sinatra, Miss Shore, and the others. . . . ("Personality" seems to be a slang word in the trade for a singer who goes on performing between songs). The personality, or singer, is asked to manage the entire gamut of crowd-pleasing, from music to clowning. The fun he or she produces turn out invariably to be synthetic fun—the comedy of the baffling wink, the groundless giggle, the esoteric gesture, the private joke or allusion in a language that appears to be rooted in jazz dialect or Athapascan, or both.

. . . What's disturbing about this state of affairs is that the taste for complete comedy (which at its best involves not only a comic point but an opportunity for satire and comic criticism) is in some danger of being bred out of our species entirely, like the taste of natural orange juice.

The sham comedy of the singer-personality has several subdivisions. One is nonchalance, a time-honored substitute for wit. Nonchalance on television ranges from the easy, polished, almost ingrained equanimity of Mr. Crosby, which seems to arise logically from his character, to the utter *sang-froid* of Mr. Como, who is nonchalant in a purer, more literal sense, like a damp match. In Miss Shore, who now sometimes practices it for humorous purposes, nonchalance is a little out of place, as it might be in any normally vivacious and straightforward woman. Mr. Sinatra, a somewhat adaptive performer (though an excellent singer), is fine at nonchalance when he is working with an expert like Mr. Crosby. At other times, he handles the mood uncertainly; he is probably not a natural-born understater. There's a tendency among personalities who are inexpert at composure to "break up," as the current jargon goes—to laugh, sometimes from nervousness, sometimes deliberately and wishfully, with no provocation whatsoever. . . .

GLOOMY OUTLOOK FOR FILM

Edwin Silverman, president of Chicago's Essaness Theatre Corp., thinks banking interest are forcing film executives to sell backlogs to tv at too meager a price. He warns that this could collapse the movie industry as it exists today and subsequently put tv in the impossible position of having to bear high film production costs by itself. Mr. Silverman's remarks, in part, to the Essaness board:

After careful analysis of the impact of the release of major motion pictures to television, it is an inescapable conclusion that unless the distributing companies refrain from short-sightedly making additional important pictures available to tv,

the theatre business as we know it will disappear.

It is possible that 10,000 theatres may close during the next year.

The liquidating influence of banking interests has caused veteran film executives to act against their best judgment in selling their backlogs to television for meager sums.

Ironically, if theatres perish, future quality motion pictures will not be available to television because tv cannot absorb the heavy production costs that accompany the making of quality movies. . . .

Television, as it is now constituted, cannot match movie theatres in covering the enormous costs of making fine films. Producers and distributors of quality movies must realize they cannot have their cake and eat it too, unless and until pay television comes along.

SUN OR SHADOWS AHEAD?

The biggest business boom in history, to start around 1962, is predicted by Arch N. Booth, executive vice president of the Chamber of Commerce of the U. S. Speaking Thursday before the Insurance Federation of New York, Mr. Booth warned that governmental restrictions on private enterprise can endanger this bright outlook. A portion of his talk follows:

The business boom which America has been enjoying for the past ten years, the experts tell us, is slowing down. But no widespread slump is in sight.

For the five-year period ahead—between now and 1962—the economists see a steady growth of the economy.

And, then—beginning about 1962—this country will experience the greatest business boom in its history.

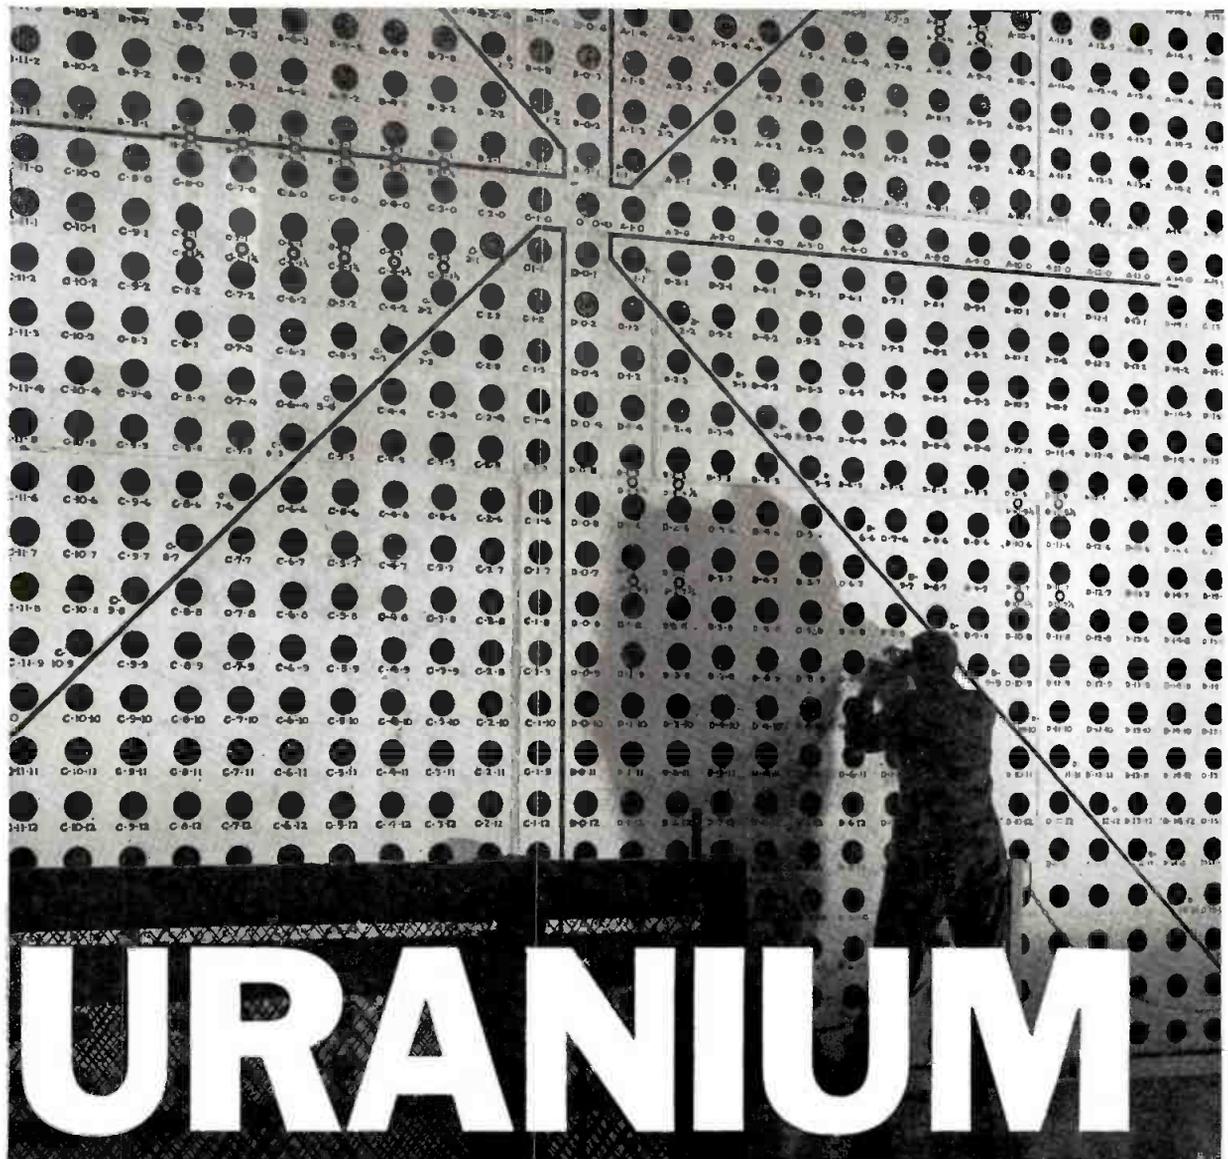

The business future is bright, indeed—they tell us.

But things will not be that easy. There are hazards in the way.

For example, there are hazards which business faces on the legislative front. . . . The future of business will be shaped by the decisions that are made in the legislative halls and the administrative offices of Washington.

If we are to enjoy good business in this country in the months and years ahead, then we must have a philosophy back of our national policies and national laws that is conducive to good business—and not a philosophy that frowns on free enterprise and considers it an evil.

. . . The whole future of private business could be changed by laws passed in one single session of Congress. And there is plenty of evidence to show that it definitely would be, if the business community were thoroughly well organized, alert to what is happening and vigorously on the job.

and the giant punch board

This is a nuclear reactor. And neutrons from the tons of pure uranium metal inserted in these holes produce radioisotopes — the strange and wonderful prizes of the atomic age.

While these man-made radioactive materials have been available for only a short time in commercial quantities, they have already found a wide range of uses—in industry, in agriculture and in medicine where radioisotopes have practically replaced radium in the treatment of cancer.

Every day new uses are being found for uranium in nuclear power developments. To meet these present and future needs, Anaconda has developed reserves of millions of tons of uranium ore. These reserves, together with new ore processing methods pioneered

by Anaconda at its Bluewater, New Mexico plant, have made Anaconda America's leading producer of uranium concentrate.

Other Anaconda products are also contributing to the expanding use of nuclear energy. Many are used in the actual production of radioisotopes, while lead—another metal produced in large quantity by Anaconda—is employed as radiation shielding wherever radioactive material is present.

Anaconda's role in nuclear energy is typical of the way in which its extensive line of non-ferrous metals and metal products—the broadest combination offered industry today—is contributing to America's growth and progress.

WASHINGTON, D. C. SOLD BY  SPOT SALES

from **PAUL G. GUMBINNER**, vice president and radio-tv director, Lawrence C. Gumbinner Agency

THERE'S INSPIRING FRUSTRATION IN CREATING COMMERCIALS

Once there was an author who wrote a book, had it published, and was wholeheartedly satisfied as he read the first bound copy. He was equally pleased when he re-read it a year later. That's why he never was able to write a second book fit for publication.

Pity the creative man who is genuinely satisfied with his creative work. An ad may look good in final proof form . . . the answer print of a commercial may be fine . . . a finished pressing of a radio spot may sound great. But when he sees it in print or catches it on the air weeks later—he generally finds it could have been better. There's one thing about it that's not right—and that one thing becomes progressively worse to him each time he sees it.

Frustrating? Sure! But these are the things on which he builds—the flaws of his own making that he must avoid in the future. Avoid them he will, only to discover new ones. And, as long as he's in the business, he had better squirm at the human, mechanical and electronic errors that inevitably crop up in broadcasting.

Take radio. You create a certain type of effect on paper, in the mind, in the "inner ear." You "hear" it mentally—describe it enthusiastically. But to make it audible to others, you must work with a producer, a composer, an arranger, a sound-effects man, a group of musicians, singers, announcers and an engineer. Each of them "hears" it differently than you do. But with enough time, patience and money, you finally get what you're after.

And it sometimes isn't until weeks of repeated hearings on the air that you feel it has too much bass. So from then on you're acutely conscious of an excess of booming accompaniment.

TV BREEDS ITS DISCONTENT, TOO

Take television. Live commercials aren't so bad unless the announcer fluffs, the technical director pushes a wrong button, or a prop misbehaves on camera (in a tight close-up, of course). But at least its creator sees it just once and retains only a memory (or a kinescope). It may haunt him in retrospect, but it won't be constantly rubbed under his nose.

Not so film. Every time he views a commercial, one little something is very apt to take over in prominence, like the proverbial sore thumb.

For instance, he dislikes increasingly the angle at which a room scene was shot. It would have been better off the other wall, more interesting, with more free area for the cast. But he hadn't been able to see it in camera until pretty late.

To move the camera and re-light would have taken the best part of an hour. And with so much stuff still to shoot, that would have meant overtime and who'd pay for it? They were right up to the budget.

In fact, the matter of budget had caused a change in the whole opening sequence, long before production started. He had visualized opening black, with widely-separated cones of light coming on one after the other, to reveal three different people—"Something like Durante's exit."

But that required a really big stage, and a camera mounted on a crane (Item: crane, \$200 per day) and a scaled down matching set for a transition from people to product close-ups.

It would have been great, but the producer screamed about the cost. So did the client.

They finally worked out a single shot dolly along the three people, then the three packages. It was effective all right—but the original idea . . . that would have been a knockout!

And how about that "testimonial" film by Magda Glamor of Hollywood? Every time he watched it, he was hypnotized by her eyes darting from lens to cue-card. The b---- (for beauty!) refused to bother memorizing four short takes for 30 seconds of script. Nice, cooperative girl. And that after sitting around for the extra hours it took the make-up man to remove the bags under those famous eyes.

Frustrating? Sure, but look at the things he has learned, painfully, through the years.

PRE-PLANNING PREVENTS HEADACHES

It's wise to explore camera angles in advance via a really comprehensive story board. Experiment on the board. It's cheaper per sketch than per hour on the set.

Or have the sets up a day in advance when possible. Take a few Polaroid shots from the planned camera positions, with people standing in where the cast will do its stuff. You'll learn a lot.

Avoid tricks, unless the sky's the limit in a production budget. When a special effect is highly essential, work with the producer in advance, before the idea is so cemented in your mind that you'll never be able to pry it out. Together, you can get that idea, or a reasonable facsimile, immortalized.

Be sure of the cast. That corking good announcer may look fine on camera full face, but go chinless in profile. The pretty girl may audition well, but freeze up on the set. The celebrities' quirks of working (and they do have them!) should be ferreted out beforehand, and planned for.

When you're frustrated in your private life, you can learn to live with it. But in the creative broadcasting business, your frustrations should be stepping stones that carry you ever onwards and upward. Excelsior!

And if you ever achieve a commercial that's absolutely irrefutably, in-every-way perfect—man, you'd better quit!

(Note: As this article is finished, I think it's pretty good. But when I re-read it in *BROADCASTING*, I'm sure I'll like it a lot less. . . .)

Paul G. Gumbinner, b. Feb. 4, 1905, New York. One of four founding members of Gumbinner agency in 1923, starting as "general office boy" and copywriter, now vice president and radio-tv director. First active in broadcasting in 1927 as agency director of a radio show for Webster cigars, identified later with Norwich Pharmaceutical Co's Fat Man series on ABC Radio and with Joan Davis for American Tobacco Co's Roi-Tan cigars. Currently in charge of heavy spot campaigns for such clients as Block Drug Co., Bourjois Inc., Chap Stick Co., Q-Tips Inc., Manischewitz wines, Sutton Cosmetics and American Tobacco Co's Herbert Tareyton cigarettes.

The Public's Interest

THE more the public attitude toward pay television is explored, the more it seems that proponents consist chiefly of those who stand to benefit financially.

Within the past 10 days three totally unrelated surveys have produced evidence to support these conclusions. Pay tv came out on the short end of the stick every time—twice with the end almost too short to permit a hand-hold.

Most recent as well as broadest of these was conducted for BROADCASTING by The Pulse Inc. The survey was run in 10 major markets and the tabulations, completed last week, showed an even two-thirds would not "be interested" in having pay television in their homes. This even though they were told specifically that "first-run movies, major sports events, Broadway shows, operas, ballets, etc." might be among the attractions waiting for them.

The two other surveys, conducted within specific areas, were even more overwhelming. In California, KSBW-TV Salinas and KSBY-TV San Luis Obispo went on the air with a special program to find out what their viewers wanted. The result: 5,002-to-4 against pay tv. In Bartlesville, Okla., where a wired subscription television test is in progress—although the people there don't regard it as pay tv in the strictest sense—Sen. William Langer (R-N. D.) has been running a mail poll and has found overwhelming opposition to subscription television.

The Pulse survey for BROADCASTING went farther than these, and some of the additional findings merit attention here. If the pay tv forces find encouragement in the fact that one-third of the respondents would be interested in toll tv, they may think twice when they see what these people would be willing to pay. First, a majority preferred to pay by the program, presumably because they want to keep total expenditures down; of these, almost two-thirds said they would pay less than \$1.25 per program. Among those preferring a fixed monthly fee, about two-thirds would pay less than \$6 a month.

Moreover, almost two-thirds of all respondents said they would not be willing to pay for present free tv programs, either. Since this figure parallels the number who opposed pay tv, and since more than 90% rated the present free tv program service as satisfactory to excellent, the obvious conclusion is that the people just didn't want to pay, period.

Whether these conclusions apply equally to wired as well as on-the-air pay television remains to be seen. The findings do point up again that it is not the public which is agitating for toll television.

The Cork Doesn't Fit

WE EXPECTED to be criticized when we published an editorial in our Oct. 28 issue advocating the acceptance of liquor advertising on radio and television, and our expectations have been realized.

A sampling of our mail on the subject has appeared in OPEN MIKE. A few writers have approved our position. More have opposed it. The opposition, in the main, has come from two sources: broadcasters who fear the political repercussions of putting liquor advertising on the air and prohibitionists who oppose not only liquor advertising but also liquor.

Let us dispose of the latter opposition first.

By every indication, prohibitionists constitute a minority—an inconsiderable minority—of the U.S. public. There is no evidence whatever to suggest that the majority of the people wish a return to prohibition. Until a majority votes liquor out, liquor will be legal. If liquor is legal, the advertising of it must also be legal. It must therefore be fully within the broadcaster's legal right to broadcast liquor advertising.

As we said in our first editorial, there are moral problems involved in liquor advertising. Moderation is to be encouraged in the drinking of liquor. So it should be sought in liquor advertising.

Several broadcasters have pointed out to us—as though they were quoting sources as binding as a decision of the Supreme Court—that the radio and television codes advise against the acceptance of liquor advertising. This is true. It is also true that the liquor admonition was written into the codes as a grandstand renunciation of something which nobody was accepting anyway. To say that liquor advertising should be rejected because the codes

Drawn for BROADCASTING by Sid Hix

"As a special guest tonight, we bring you the all-time high winner of the quiz shows!"

reject it is to grant the codes a meaning they do not actually possess. Besides, the codes can be and have been changed, by amendment, by interpretation and occasionally, by violation.

Political repercussions would undoubtedly follow a revision of the codes to admit liquor advertising—whether done formally or by the practical disregard of those code provisions. How serious would those political repercussions be?

Some congressmen would make speeches and introduce bills to outlaw liquor advertising. The congressmen who would react adversely to the introduction of liquor advertising on the air would be of the same kind that have been introducing anti-liquor legislation of one sort or another in every session since the repeal of the 18th amendment 24 years ago. In short, they would be those from communities where dry sentiment is strong. This kind of congressman must oppose liquor advertising whether it is carried on the air or not.

To both classes of our critics we wish to announce that we are neither in the pay of the devil nor naive about politics in Washington. And we still think it would be perfectly proper to put proper liquor advertising on the air.

How More Can Do Less

THE rival allegations of the two unions whose dispute disrupted NBC-TV programs over two weekends cannot be discussed with clarity until more facts are known.

What can be said, with clarity and apprehension, is that the dispute between the National Assn. of Broadcast Employees & Technicians and the Radio & Television Directors Guild is symptomatic of jurisdictional difficulties in network television.

Unless these jurisdictional rivalries are brought under control, television is apt to wind up in the strait jacket that for years has encased the movies. The movies allowed unions to establish jurisdictional lines so finely drawn that inefficiency has resulted.

Perhaps the movies can afford the time and money that are wasted by the partition of jobs into idiotic fragments. Television cannot. Yet television even now is being squeezed by jurisdictional pressures that could lead to the rigidities of craft distinctions that obtain in Hollywood.

The question at issue at NBC is whether directors can talk directly to technicians or must convey instructions through a technical director who, like the technicians, is a NABET member. We have never understood why a competent director needs to communicate through an intermediary, and so the question seems to us of relatively minor significance.

But the fact that NABET and the directors guild regard it as important enough to create trouble is in itself an indication of the way that television unionism could go if management does not assert sensible controls. Television production costs already are high enough. They do not need to be padded by the creation of jobs by jurisdictional rivalries.

DAYTIME

WSAZ-TV

What's under the **KILT**?

NOTHING... BUT THE OTHER SEVEN HOUSTON RADIO STATIONS!

Everyone in and around Houston already knows the answer . . . there's nothing under the **KILT** but the seven other Houston radio stations, lagging far behind! The new August Area Pulse proves it beyond a shadow of a doubt.* Not only is **KILT** the *number one* station in Houston metro ratings (*any Hooper, any Pulse, any Trendex*) . . . but its strong signal and unique programming reaches 70% more listeners in the 53-county Houston area (Pulse) survey than the next station in the area.

Call your John Blair man for rates and availabilities . . . and go **KILT** to the hilt!

*August 19-23, 1957 Pulse Area Report covering in-home and out-of-home audience in Houston 53-county area.
