The WKMH ONE TWO Punch
wins your battle for Sales in the
RICH DETROIT MARKET

ONE WKMH Hits Where The Sales Are
Staffed by Detroit’s top radio personalities, the WKMH “MOBILE-rama” is a traveling showcase. It is equipped to tell your client’s story and display his products at point of sale as well as on the air . . . offers a potent merchandising PLUS for advertisers.

TWO WKMH Is First With The “Hot” News
Whenever and wherever news occurs, the WKMH Mobile Newscruiser gets there in a hurry . . . gets the facts FIRST with dramatic on-the-spot coverage. The Newscruiser is on 24-hour call, assuring listeners of “red hot” newscasts.
the most watched station in Sioux City...

KVTV CHANNEL 9

1st in share of audience — from sign-on to sign-off, KVTV has 58% share of audience. Station B has 42.6%.

What are the reasons for KVTV dominance?

Programing. Sioux-Citians tune to KVTV to see 12 of the 15 highest rated network programs. The five highest rated syndicate shows and 8 of the top ten all are on KVTV. And on Channel 9 are seen the world's greatest movies—MGM, United Artist, 20th Century, Selznick, Screen Gems and Columbia. Then, too, KVTV completely dominates the Sioux City market in live, local shows.

Yes, programing keeps KVTV 1st choice in Sioux City. See your Katz man.
WJIM-TV is pleased to announce the establishment of a new 520-time rate discount, as outlined in our Rate Card No. 9, which became effective January 1, 1959.

We trust this will prove a major step in leading the industry toward acknowledgement of the need for such a discount.

This added incentive to the client who buys in quantity provides "coverage that counts" at a cost that appeals.

NBC and CBS

In addition to being the first choice of viewers in these three important markets, WGAL-TV is the television station for Gettysburg, Hanover, Lebanon, Chambersburg, Lewistown, Carlisle, Shamokin, Waynesboro, and many other communities.

STEINMAN STATION • Clair McCollough, Pres.

Representative: The MEEKER Company, Inc. • New York • Chicago • Los Angeles • San Francisco

BROADCASTING, February 16, 1959
**Reform bill** • Legislation will be introduced this week by Rep. Oren Harris (D-Ark.) to carry out FCC reforms recommended by his Oversight Sub-committee (Broadcasting, Jan. 5). Among items to be covered: outlawing of exchange parts; public hearings before issuance of any TV license; prior Commission permission to negotiate for sale of stations; prohibition of "payoffs" to competing applicants in return for withdrawal. Congressman said it has been "tremendous job" to draft legislation in acceptable language to cover all situations.

Also soon, perhaps this week. Rep. Harris will make known plans for future course of Oversight Subcommittee. Investigations definitely will continue in some form, with subcommittee first facing task of hiring new staff. Politics charge will be made right at start with minority move to hire its own counsel. Ranking House Republican are leaning toward own counsel, although Rep. John Bennett (Mich.), top Republican on subcommittee, is not completely sold on idea. In addition, before launching new project, subcommittee still must get money from House, so far having at its disposal only $25,000.

**Money matter** • With current contract of Harold E. Fellows as NAB chairman and president expiration June 30, 1960, ad hoc committee will be named to negotiate new arrangement. Mr. Fellows, who will be 60 in March, joined NAB in 1951 after 23 years as head of CBS-owned WEEI Boston. His present salary is $70,000, plus $10,000 allowance for his Washington expenses, and rises to $75,000 next June. While existing contract covers four-year consultancy arrangement until 1964, when retirement would start, associates say he would prefer to continue present role as chairman-president under new contract.

Ad hoc committee of eight to negotiate with Mr. Fellows will be named after NAB March 15-18 convention in Chicago. Four will be named by chairman and vice chairman, respectively, of Radio and Television Boards. Additional four will be named two each by chairman of each board.

**Beep, beep** • American Motors Corp., Detroit, is understood to have approached all major station representatives, requesting cost data for projected 52-week spot radio campaign that would hit virtually all markets in nation, primarily on behalf of Rambler car. American Motors is thinking of six- and ten-second station breaks in 7-9 a.m. and 5-6:30 p.m. time periods. Some representatives wonder if there isn't more to AM strategy than seems apparent. Buying of time periods on 52 weeks, across-board would block these favored time slots for other auto manufacturers when they try to purchase minute spots for fall introductory campaigns. Agency: Geyer, Morey, Maden & Ballard, New York.

**Lorillard on air** • Broadcast media (nearly all TV) are at record high in P. Lorillard's 1959 ad plans, most extensive in cigarette maker's history. TV for past few years has blown smoke rings round rival print media in Lorillard's ad activities. Strategy for '59 revealed to Lorillard sales executives and Lennen & Newell group assembled last week in Greensboro, N. C. Agency handles all Lorillard brands.

**Agreement to quit** • Consent order agreeing to stop alleged misrepresentations being drafted by Federal Trade Commission and Arthur Hammell and four radio-television advertising firms in which latter is principal officer. FTC charged last November that Mr. Hammell and companies misrepresented promotional plans sold to radio and TV stations (Broadcasting, Dec. 1, 1958). Companies involved are: Advertisers Assoc. of America Inc., Teleradio Advertisers Inc., United Publicity Inc. and Teleradio Advertisers. Order does not become final until approved by FTC commissioners, which usually takes about a month.

**Broadcast impact** • Mail pull of radio-TV was convincingly demonstrated last week in government-sponsored observance of 150th anniversary of birth of Abraham Lincoln. Lincoln Sesquicentennial Commission, in radio-TV spots, offered free booklet "The Lincoln Ideals," and by end of first week of year-long celebration more than 20,000 copies had been mailed, with Box 1959, Washington D. C., to which citizens were asked to write, still jammed with uncounted communications. Richards Assoc. (Robert K. Richards, former NAB executive), is public relations consultant to government on project.

**That program service** • Organizers of Radio World Wide, proposed national program service (Broadcasting, Feb. 2), will meet in Chicago during NAB convention at time yet to be set but perhaps afternoon of Tuesday, March 17, when no convention program is scheduled. In advisory sent prospective organizers, Herbert L. Krueger, WTAG Worcester, organizing committee chairman, said enough stations had signed letter of intent to make outlook "exceedingly promising."

Because some stations want to join new program service but are committed to present networks through 1959, organizing committee has proposed modification of charter membership. Stations with commitments to present networks may make commitment to Radio World Wide before next July 1, begin their minimum two-year subscription Jan. 1, 1960. Membership cost remains 30 times station's highest minute rate per week, but 25% of two-year total will be treated as capital stock investment for charter subscribers.

**Day and date** • Final word expected this week on what Young & Rubicam will do about ABC-TV's "Operation Daybreak," Agency, which helped construct ABC-TV's daytime programming and sales plan, negotiates for 40 weekly quarter-hours underwritten by Y&R clients (20 of them by General Foods). Current thinking at Y&R indicates some curtailment of schedule but actual cut-back had not been decided as of Friday (Feb. 13). Some of cutback money may go into nighttime TV. ABC-TV already expects program revamp of its daytime operation, based on Y&R's current mood.

**Code enforcement** • NAB's TV code enforcers are showing get-tougher attitude in handling station violations. Latest step was quiet mailing of letters to all station subscribers stating in plain terms that Preparation H, hemorrhoid balm, is strictly taboo under code clause covering intimate personal products. Stations are given 60-day, or 13-week contract expiration period, to conform.

**TV code board** has three stations on its consistent-violator list and is understood to have them slated for special handling when new code group takes offices March 16 during NAB Chicago convention.

**Chain of command** • Some eyebrows raised when NBC's new organization chart was circulated last week in wake of series of top-level promotions (Broadcasting, Feb. 9). It shows David C. Adams, who was elevated to new post of senior executive v.p., and Kenneth W. Bilby, public relations executive v.p., both of whom had been reporting to Board Chairman Robert W. Sarnoff, now will report to President Robert E. Kintner.
IS RATING WEEK!

- Broad programming, covering every audience base, makes WSPD-TV television Toledo television. This wide variety of appeal to every member of the family—day and evening—is the big reason WSPD-TV can meet and whip the rating challenge every week!

Ask your Katz man.
VTR also means 'Very Terrific Results' • Videotape is doing a practical day-by-day job of helping an agency do a more effective selling job in television for its clients. Milton J. Beckman, principal, Beckman-Koblitz Inc., Los Angeles, tells the story in this week's MONDAY MEMO. Page 23.

Madison Avenue rates the single rate • Some agencies interested in simplified rate card as idea gains support but danger of backfiring is emphasized. Page 34.

Pressure on the Potomac • Advertising Federation of America takes cautious look around Washington and discovers disturbing legislative and regulatory trends. Congressman chides advertising and media men for failure to recognize facts of political life. Page 38.

Good year in tv network billing • $566.5 million in 1958 was 9.8% better than 1957. CBS-TV tops three tv networks, and each network chalks up gains. Page 48.

Back with a bang • The Three Stooges, whose comedies were a staple of pre-tv movie houses, got a new lease on life when Screen Gems released 78 of its old two-reelers to television. BROADCASTING charts their reincarnation. Page 62.

NBC sprinkles 'Stardust' • Plan for 17 new five-minute programs daily, featuring star talent, is presented to radio affiliates (via television). NBC officials say response is enthusiastic, counter charges of some critics that it's "barter in disguise." Page 67.

FCC zigs again on boosters • Commission announced it has ordered staff to restudy possibility of authorizing on-channel service under rules and standards, with recommendations for changes in Communications Act also requested. Week also sees request for on-channel "amplifying transmitter" in Johnstown, Pa. Page 70.

Proxmire would axe FCC • Senator plans to introduce bill to replace Commissioners with communications administrator and 3-5 judge panel. Present Commission staff would be retained, with only commissioners to go. Page 72.

Networks on anxious seat again • FCC reading report on purported program tie-ins by networks. Looks like public hearing in view, based on Justice Dept. report on investigation of alleged network pressures. Page 77.

NEW STATION COMBINE FORMED

It's Transcontinental and Wrather-Petry

Combination of station interests that would catapult Transcontinental Television Corp. into top ranks of radio-tv station owners is being negotiated with Marietta Broadcasting. TTC President David C. Moore and Marietta President Jack Wrather disclose in announce- ment being issued today (Feb. 16).

Deal, described as in process of being completed, would raise TTC's station total to five vhf and one uhf in television and three radio stations. Involved are Marietta's KFMB (540 kc, 5 kw) and KERO-TV (ch. 8) San Diego and WSAV-AM, TV, Bakersfield, Calif. (ch. 10), in addition to TTC's WGR (550 kc, 5 kw) and WGR-TV (ch. 2) Buffalo, WROC-TV Rochester, N.Y. (ch. 5), 60% of WNEP-TV Scranton-Wilkes-Barrre, Pa. (ch. 16) and 50% of WSVA (550 kc, 5 kw) and WSVA-TV (ch. 3) Harrisonburg, Va. Deal subject to FCC approval.

Tv properties involved in deal and their network affiliations are KFMB-TV (CBS-TV), KERO-TV (NBC-NBC and ABC-TV), WGR-TV (NBC-TV and ABC-TV), WNEP-TV (ABC-TV) and WSVA-TV (CBS-TV, NBC-TV, ABC-TV).

GUTERMA INFLUENCE SPREADS

Name of Guild Films and Matthew Fox, tv film entrepreneur and principal owner of Skiatron Tiv Inc., pay tv advocate, entered tangled financial affairs of MBS president Alexander Guterma (see page 29) at week's end.

Securities & Exchange Commission announced it had ordered suspension of trading in Bon Ami Co. (household cleaners) stock on all markets. Mr. Guterma, whose Fil. Jacobs Co. stock was suspended earlier in week by SEC, was president of Bon Ami and, according to SEC, still has interests in company.

SEC report skeletonized:

In March 1957, Bon Ami advanced $115,000 to Mr. Fox. Mr. Fox gave Bon Ami promissory note, secured by letter agreement with Guild Films Co. Guild agreed to supply $350,000 worth of spot time to Bon Ami if Mr. Fox defaulted on note.

On May 2, 1957, Mr. Fox defaulted. At suggestion of Mr. Guterma, Bon Ami sold Fox note to Comfcor Inc. (controlled by Mr. Guterma) for $117,- 000. With note went collateral from Guild.

Between May 3 and May 10, 1957, Mr. Fox "without further consideration," caused Guild obligation to be increased from $350,000 to $500,000. On May 13, 1957, Bon Ami advanced over $150,000 to Chatham Corp. (purportedly owned by Mr. Guterma and family).

About June 20, 1957, Chatham Corp. acquired from Guild $750,000 worth of tv spot time. Chatham paid $200,000 plus transfer to Guild of rights to foreign tv and theatrical exhibition of certain motion picture films (known as theatrical package). These pictures were acquired by Chatham from foreign in-

4 radio directors re-elected by NAB

Four members of NAB Radio Board re-elected for two-year terms, count of ballots showed Friday. Two members lost out in election. Terms of elected directors will begin during NAB convention week in Chicago (March 15-18).

Results of election follow:

Dist. 1—Daniel W. Kops, WAVZ New Haven, Conn. (Incumbent) defeated William B. McGrath, WHDH Boston.

Dist. 5—Frank Galther, WSB Atlanta, defeated Charles C. Smith, WBDC American, Ga.

Dist. 7—Hugh O. Potter, WOTI Owensboro, Ky. defeated Herbert E. Evans, WSAC Valdosta.

Dist. 9—Mig Figi, WAUX Waukesha, Wis., defeated Ben Laird, WOZX Green Bay, Wis.

Dist. 15—Edward Kelley, KTRN Wichita Falls, Tex., defeated James M. Gaines, WQAI San Antonio.

Dist. 17—Thomas C. Bostic, KIMA Yakima, Wash., defeated Lee Bishop, KORE Eugene, Ore.

Large Stations—Harold Hough, WBAP Fort Worth, defeated Jay W. Wright, KSL Salt Lake City.

Small Stations—E. Ernest Lackey, WHOP Hopkinsville, Ky. defeated William C. Groce, KFBC Cheyenne, Wyo. (Incumbent) and Dave Merri- lls, KNZU Houston.

KTUL to Mutual

KTUL Tulsa has joined Mutual as affiliate, effective Feb. 15, James C. Leake, president of Grif-fin Broadcast group, said Feb. 13. KTUL disaffiliate from CBS Radio last December (BROADCASTING, Dec. 15) and at that time said it was "dissatisfied" with network programming generally but added it would consider joining "another national organization" providing programming "station feels is needed." KRMG (Meredith station) succeeded KTUL as CBS Radio affiliate in Tulsa (BROADCASTING, Dec. 22).
interests represented by Saritris Fassoulis. Icthyan acquired these rights from Matthew Fox and companies in 1955, paying Fox about $360,000.

At same time Comforac transferred to Chatham Fox note and Guild obligation to supply $500,000 worth of tv spot time. Chatham then transferred to Bon Ami $500,000 worth of tv spot time plus $750,000 worth of tv spot time which Chatham had acquired from Guild. Bon Ami paid $830,000 for this $1.25 million worth of tv spot time.

Mr. Fassoulis later transferred Icthyan package to Bon-Ami for over $1 million cash. Bon-Ami paid $1 million to Swiss bank for account of Icthyan. Same time, Bon-Ami agreed to buy from Guild $6.2 million worth of tv spot time for $3.6 million. This was paid by transferring Icthyan package from Bon-Ami to Guild, valued at $1.2 million, and Bon-Ami agreed to pay Guild $2.4 million in 60 monthly installments. Bon-Ami made three monthly payments to Guild, then contract cancelled when Bon-Ami failed to meet Jan. 1 and Feb. 1 payments.

Result was now contract whereby Guild agreed to consider $120,000 already paid as payment for $197,000 worth of tv spot time; Icthyan package returned by Guild to Bon-Ami; Bon-Ami agreed to pay Guild $30,000 cash and $30,000 in 15 monthly installments, and Guild agreed to supply Bon-Ami with $1.14 million worth of tv spot time.

WEEK'S HEADLINERS

• HENRY G. PLITT, president of Paramount Gulf Theatres, subsidiary of American Broadcasting-Paramount Theatres Inc., appointed president of ABC Films Inc., replacing George Shupert, who resigned from AB-PT's tv film subsidiary to become v.p. in charge of television for Metro-Goldwyn-Mayer (Week's Headliners Jan. 26). Mr. Plitt joined United Paramount Theatres, with which ABC merged in 1953 to form AB-PT, in 1946 as district manager in Ohio, West Virginia and Kentucky. In 1949, Mr. Plitt moved to New Orleans and was promoted to division manager of then Paramount-Richard (now Paramount Gulf) Theatres. He was advanced to v.p. in 1951 and president in 1955. In his new post, he will make his headquarters in New York.

• LLOYD HARRIS, Young & Rubicam media director, appointed v.p. and manager of media department at Sullivan, Stauffer, Colwell & Bayles, N.Y. Mr. Harris in effect will handle day-to-day media operation including buying. Frank Minehan, who continues as v.p., director of media and chairman of SSSC&B's plans board, will maintain overall supervision of media but is freed for concentration on plans board activity. Mr. Harris was in research and statistical work with Army during World War II, after war was with Veterans Administration. He joined Y&R in April 1948 as director of media research department, becoming in 1950, Y&R's media director on Procter & Gamble.

• RUDOLPH MONTGELAS, senior v.p., Ted Bates & Co., elected agency president, succeeding William H. Kearns, named vice chairman of board and chairman of executive committee. Mr. Montgelas continues as director and member of executive committee. He came to Bates in 1950, relinquishing presidenity of Buchanan & Co. ad agency. James C. Douglass, who has served as senior v.p., named to new post of executive v.p. Mr. Kearns, with Bates since 1942, began advertising career with Buchanan-Thomas in Omaha, Neb. Mr. Douglass joined agency in 1953 as director of radio-tv; T. L. Bates, agency founder and honorary board chairman, and Rosser Reeves, chairman of board, continue in their respective positions. Bates had combined tv-radio billing of $84 million last year, and its broadcast share of overall billing was 79%.

• HOLLIS M. SEAvey, director, Clear Channel Broadcasting Service for past six years, resigning to enter station ownership. He has bought WCUM Cumberland, Md. (see Changing Hands, page 56). Mr. Seavey became CBS director in 1953, following five years as special events director and director of MBS' Washington bureau. Mr. Seavey worked as announcer and newsreader at WHLD Niagara Falls, N.Y.; KOCY Oklahoma City, and WOL Washington, D.C., before joining MBS' operations. His resignation as CBS director will take place after FCC approves purchase of WCUM, expected after CBS director's meeting in Chicago during NAB convention next month.

• MAX D. PAGLIN, legal assistant to FCC Comr. Robert T. Bartley since 1953, appointed last Friday (Feb. 13) assistant general counsel to head litigation division of FCC, succeeding Richard A. Solomon, who joins antitrust division of Dept. of Justice. Mr. Paglin joined FCC in December 1942 and has since served in several regulatory divisions. He was with international common carrier communications from 1943-58, with fm broadcasting from 1948-50, with am broadcasting from 1950-51 and with broadcast hearings from 1951 until his appointment as legal assistant to Comr. Bartley.

Sinclair’s Public Service Program Continues to Win Wide Acclaim

Now in its fifth year, Sinclair’s public service program has won continuing praise from the nation’s leading senators, governors, congressmen, editors, educators and conservationists, and public commendation from important civic, business, farm, garden, travel and patriotic organizations.

In 1958, Sinclair received, for its public service, citations and commendations from the U.S. Junior Chamber of Commerce, Sport Fishing Institute, Wisconsin Recreation Association, the American Farm Bureau Federation, and the governors of Minnesota, North Dakota and Kansas, among others. In addition, the program again received the Saturday Review Award for distinguished advertising in the public interest, and was selected by Public Relations News as one of the year’s best public relations programs.

April 24—Ohio Assn. of Broadcasters, Terrace Hilton Hotel, Cincinnati.

April 24-25—New Mexico Broadcasters Assn.,...
The first of NBC Radio’s new “Image” series—IMAGE-RUSSIA—has stirred genuine excitement among listeners and critics. Variety is impressed by its “vividly revealing word picture of the…passion and violence that engulfs present-day Russia…it cannot help but beat an indelible tattoo on the minds of everyone interested in the character of the Soviet Union.” The New York Times believes it an “interesting, enlightening…colorful and comprehensive…praiseworthy project…” IMAGE-RUSSIA is the latest example of NBC Radio’s continuing contribution to provocative, imaginative
network programming. It is further evidence of the industry leadership which produced Monitor, News-on-the-Hour, Hot-Line Service, and Stardust. For these exciting program services, NBC Radio has created equally exciting sales plans: Engineered Circulation, Imagery Transfer, Memory Vision, and the remarkable Salesvertising Plan that ties local dealers in with national campaigns. These are the compelling reasons why more and more advertisers are using the NBC RADIO NETWORK
Another thriller-diller from WJRT—

"Yippee, Chief! Where's the big roundup?"

"Head for WJRT-land, Ponsonby—that's the most efficient way to corral Flint, Lansing, Saginaw and Bay City."

If you want land, lots of land: Flint, Lansing, Saginaw and Bay City, to be exact—WJRT's your baby. With each of these big metropolitan areas getting WJRT's powerful Grade "A" signal or better, it's the most efficient way to buy Michigan's other big market. In all, you get nearly a half million TV households with this single-station buy. That's all of rich mid-Michigan, ready to hark to your message. Whenever you're ready to send it, just say the word.

HAROLD KOPLAR, president • JAMES L. CADDIGAN, vice-president • JAMES GOLDSMITH, director of sales
To paraphrase the old "Don't-look-now, — BUT" admonition, urgency compels us to say: DO look — BECAUSE this year's NAB Convention is almost at hand! March 15 to 18! A month or less away!

As always, it will attract an attendance from all segments of the broadcast advertising business . . . and an attention from TV and radio executives in every corner of the nation.

As always, too, BROADCASTING Magazine will serve this widespread interest with three of the most heavily-read issues it publishes each year: (1) pre-Convention on March 9; (2) during the Convention, March 16; and (3) post-Convention, March 23, rounding up everything that made news.

To accomplish this with the authoritative completeness that only BROADCASTING can, a full-scale news room is being set up in Chicago — staffed with a dozen of BROADCASTING's most experienced editors, equipped with direct lines to the BROADCASTING headquarters in Washington. These facilities (more extensive than those of all other TV-radio journals purporting to cover the Convention) assure BROADCASTING readers of thorough reports on every meeting, every committee session, every social affair. They'll probe out the trends and tenor of the Convention, its unexpected developments, undercurrents, and color. Skillfully edited, the result is the most authentic, comprehensive panorama of NAB's 1959 conclave anywhere—and indispensable as a guide to what's happening.

It adds up to a triple-barreled opportunity, too, for anyone with an advertising message that's aimed at TV-&-radio's busiest decision-makers. You get the year's biggest bonus of attention with each of these three big issues, and at no increase in rates.

If you haven't reserved your space yet, this is the hour to get cracking! It's only days to deadlines — so wire or phone the nearest BROADCASTING office before you turn another page.
THREE BIG ISSUES FOR TV-&- RADIO'S BIGGEST EVENT OF THE YEAR —

LOOKING AHEAD . . . before the Convention.
LOOKING AROUND . . . at the Convention.
LOOKING BACK . . . to sum up the Convention.

Here are some of the many attention-getting features that will be included in BROADCASTING'S complete coverage of this year's NAB Convention:

Over 30 pages of pre-Convention facts (March 9) —
- a schedule of all events, side meetings, etc.
- directory of broadcast equipment exhibits.
- directory of hospitality suites to be occupied by film, transcription, programming and other services (excluded this year from exhibition hall).
- a complete preview of technical papers to be read at Engineering Conference.
- detailed descriptions of the services, programs, and products offered by NAB associate members who will maintain hospitality suites.
- detailed preview of each broadcast equipment exhibit planned in exhibition hall.
- and a full list of all advance registration delegates up to BROADCASTING press-time.

Then — on the opening Convention day (March 16)
- a comprehensive round-up feature on activities.
- complete Convention directory of events and exhibits — plus a non-agenda directory — with room and exhibit space numbers.
- a series of news features about top Convention officials.
- depth stories analyzing key problems in the television and radio business.

Finally, the whole post-Convention wrap-up (March 22) —
- concise reports on every meeting, committee session, social event, and many unlisted proceedings.
- analytic coverage of all significant developments emerging from the Convention.
- extensive pictorial coverage of events and personalities.
- a report on results of a special Pulse survey to be conducted among delegates, seeking their reactions to major Convention activities.
- a review of each broadcast equipment exhibit.
- a full report of Engineering Conference sessions.

AT EVERY IMPORTANT AGENCY . . . AMONG ALL MAJOR TV-RADIO ADVERTISERS . . . AT TELEVISION AND RADIO STATIONS, NETWORK OFFICES, REPRESENTATIVES ALL OVER THE COUNTRY . . . IN DOZENS OF ALLIED SERVICES AND INDUSTRIES . . . AND AT THE CONVENTION ITSELF —

BROADCASTING'S BIG CONVENTION ISSUES WILL BE "MUST" READING FOR EVERYONE WITH A STAKE IN BROADCAST ADVERTISING!

It's the perfect time to tell 'em what you want them to know ABOUT YOU! With BROADCASTING's paid circulation — now approaching 22,000 copies weekly — you get the biggest, most receptive audience in the business (and at a time they think hardest about TV-radio business).

Make plans today to be represented in the pages of BROADCASTING's Convention issues.

It's the Conventional thing to do!
OPEN MIKE

NAB and public relations
EDITOR:
I read with disbelieving eyes that the NAB board had apparently discovered the industry's serious public relations problem and decided it should be discussed by management at the upcoming convention (page 35, Feb. 9).

There used to be a Public Information Committee of the NAB and I used to be the chairman of that committee, which was composed of some outstanding broadcasters.

Some two years ago that committee unanimously adopted a resolution regarding this public relations problem and sent it to the board as the committee's report.

This report called for action two years ago. To my knowledge nothing substantial has been done along lines of the committee's recommendation, nor has the committee met in the past couple of years.

It is this sort of failure to meet the problems of the industry that has forced our station to have serious doubts about any value in our remaining a member of NAB.

Jack Harris
Vice President-General Manager
KPRC-AM-TV Houston, Tex.

'Perspective '59' issue helpful
EDITOR:
In my humble opinion your Feb. 9 issue was one of the best I have ever seen. I especially liked your review sections on what is going on with regard to videotape, fm and multiplexing.

The more the merrier!
Charles M. Wilds
N. W. Ayer & Son
New York

EDITOR:
... Just a letter of congratulations on this week's issue. It is one of the finest magazines I have ever seen and some of the best stories.
Dan Hydrick Jr.
Manager
WGH Newport News, Va.

EDITOR:
I have just finished reading your article on fm in the Feb. 9 edition... It is very complete and well done. I hope it will have the effect of hyping the fm position in the broadcast industry. Congratulations!
Ross Beville

There is an fm rep
EDITOR:
We were gratified to read your illuminating article on fm in "Perspective '59." However, the five fm stations which we represent for national business will be surprised at the statement "nobody reps fm." We have been representing good music stations—am and fm—for five years.

Herbert Groskin
National Sales Manager
Good Music Broadcasters Inc.
New York

[EDITOR'S NOTE: Agencies said it. We reported Good Music Is an am-fm rep.]

KNOE-TV is on channel 8
EDITOR:
Your Feb. 9 "Perspective" issue is a bellringer extraordinary. Even more impressive than last year's. It answers a lot of questions I have had in mind and will remain within arm's reach as a valuable reference source for many weeks to come. One error though I regret I have to report.

The ad for my client, KNOE-TV, which appeared on page 88 should have shown Channel 8... Calling this fact to the attention of your many influential agency readers would be deeply appreciated.

Garland Shell
Shell Adv. Agency
Monroe, La.

'Quiz of Two Cities' status
EDITOR:
... You've been in broadcasting long enough to know that I originated and own the Quiz of Two Cities... Some 50 radio and tv stations and numerous advertisers have bought this feature from me over the past 20 years.

Needless to say, when a write-up on page 10 of your Jan. 26 issue credits one Brent Guints with having originated one of my creative productions, it can cause me some painful embarrassment.
in the trade. To set the record straight, I originated what was then a completely novel approach to a radio quiz, made a presentation of the idea to the Gunther Brewing Co. who bought and paid for the program over an 11-year span. After the program was sold and the pattern set, a WFBR (Baltimore) staff writer was assigned to do the research on questions and write script. This man happened to be Gunts . . . .

... Taken seriously, this could do serious damage to one of my personal properties which I still consider of great value.

Al Buffington
Fidelity Films Inc.
Hollywood, Calif.

[EDITOR'S NOTE: The story was based on a news release circulated by WBAL -AM -TV Baltimore which identified Mr. Gunts as having "originated and produced 'Quiz of Two Cities'."]

MONDAY MEMO
from MILTON J. BECKMAN, principal, Beckman-Koblitz Inc., Los Angeles

Vtr also means 'Very Terrific Results!'

Video tape recording arrived quietly in Los Angeles. No fanfares, no dancing girls. Just a new set of initials (vtr) that someone casually dropped in a production meeting or in a tv column or maybe in a neighborhood bistro.

At Beckman-Koblitz, several pair of ears perked up in joyful anticipation. Here was something new. We had to investigate. We did, and what we learned set our pulses a-throbbing. If this new miracle really worked it could provide answers to some of an agency's most pressing production problems.

We went for vtr with the same carefully-planned abandon that prompts a sales representative to plunge into his martini glass, groping for the olive. As a result, Beckman-Koblitz became a vtr pioneer on the West Coast.

How It All Began • We were doing a live hour show at KABC-TV Los Angeles. We didn't like the time slot, but there was no other availability offering the necessary production facilities. So we taped the show, commercials and all, on Sunday and played it back during the time period we wanted. Result: we saved the show, increased ratings and, most important, upped sales for our client.

Shortly thereafter, other local stations received their vtr machines and ideas bloomed brightly in our minds. For years such well-known local personalities as KTTV (TV)'s Jackson Wheeler and KTLA (TV)'s Dick Lane had been associated with one of our clients, Hub Furniture Stores. Unfortunately, it was impossible for these men to do every one of our commercials; they'd never have a chance to breathe, m'ch less eat or sleep. Once again vtr came streaking in on a snow-white charger. We taped all of our Hub commercials, doing as many as eight in a two-hour session, using the men we wanted.

Result: we had our client's favorite salesmen on call all hours of the day or night. Even Jackson Wheeler's month-long tour of Russia didn't disturb our tv schedule; he was literally in two places at once.

Recently we took a remote crew into one of the Hub stores and taped a whole series of on-the-spot commercials. On a one-time live basis, or using film, the cost would have been prohibitive.

Vtr, with its excellent quality and re-use factor, enabled us to do the job and stay within budget. In just one eight-hour day, we were able to video-tape seven extremely elaborate commercials for another of our clients, Cal Sales Inc., w.-Id's largest distributor of Triumph automobiles. This vigorous session would have required at least three days for filming. These Triumph commercials have everything: music, rear process, top personalities such as Bobby Troup and Doye O'Dell who lent their authority to our sales story. Reaction from the client, the public, and even from competitive tv stations is tops.

Selling the Client • Recently we have started to use the happy marvel of videotape in still another way. It all began when we formulated plans for a brand new campaign for one of our clients. After several weeks of hard work and long hours, we had our ideas completely assembled, the rough art finished, television and radio scripts prepared, merchandising and promotional possibilities outlined and covered.

It was a pretty package complete with all the trimmings. We knew it was a good campaign and we wanted to present it to our client as dramatically and vividly as possible in order to insure his full understanding and approval. Then somebody had a bright idea: Why not videotape our tv commercials? Why show the client a few pieces of paper and hope that he could be able to visualize the effects? Why trust our type-writers to do the selling job that vtr could do so much more effectively?

The whole affair was a roaring success. Not only did we as an agency become even more familiar with the job of a performer, but in the end we had on tape a series of commercials that looked and sounded like a commercial should.

More effective than a bunch of typed written sheets? Well, all I can say is that in spite of the lack of sets and fancy props, the client was delighted. For the first time he was able to make a decision based on something approaching a finished product. He bought the campaign, lock, stock and videotape.

Pics of 'Video Tales' • There are dozens of other "Video Tales" we could relate, but they all add up to the same successful results for agency and client alike. Now, mind you, we don't claim that vtr is the universal cure-all or the long-lost alchemist's stone. Each client, each product has its own individual problems and requirements. For some, film or live is more desirable, just as different advertising media is better for a specific idea, promotion or campaign.

Obviously, our responsibility to our clients continues long after one commercial or an entire series has been taped. They must still be monitored, constantly checked for improvements. New tapes must be created and produced to refresh and build our growing libraries for each client.

In the case of our retail clients, where merchandise and promotions change with rapid-fire regularity, our taping sessions must be on a weekly or bi-weekly schedule. Some of our supervisory efforts have been intensified; others eliminated. Each session produces new problems as well as new solutions. And there's still so much to learn about vtr.

But we at Beckman-Koblitz strongly feel that this modern-day miracle is a boon to advertisers, agencies and stations alike. When vtr is bad, it's very, very bad. When handled properly, it achieves very terrific results!

Milt Beckman has a natural bent towards air media, particularly television. After graduation from the U. of Wisconsin and three years in the Air Force he formed his own film company, Television Productions Inc., Milwaukee. Moving next to Los Angeles, he entered the advertising agency field in 1951 as founder of Beckman, Hamilton & Assoc. Then, in 1957, he merged with Eddie Koblitz's Edwards Agency to form Beckman-Koblitz Agency. Occupying its own building at 915 N. La Cienega Blvd. in Los Angeles, Beckman-Koblitz is one of the largest purchasers of air media among agencies in Southern California.

A TANGLED TRAIL LEADS TO MUTUAL
SEC tries to track Guterma’s dealings; network’s fate involved

That "goddam genius,"* who runs Mutual has his work cut out for him this week.

Alexander L. Guterma, who became president of the network last September after it was bought through an intricate chain of purchases (see page 30), was ordered to appear in United States District Court in New York next Thursday (Feb. 19) to show cause why the court should not issue a preliminary injunction prohibiting trading in F.L. Jacobs Co. stock and an order that Jacobs file with the Securities & Exchange Commission a number of overdue reports. F.L. Jacobs is the parent company which Mr. Guterma controls and which sits atop the ownership chain which leads down to Mutual.

Meanwhile, the SEC itself suspended trading in Jacobs stock for 10 days. The New York Stock Exchange had suspended trading in Jacobs last Dec. 5. Last week's order also stops trading through the Detroit exchange and on an over-the-counter basis.

The SEC has several points of dispute with Mr. Guterma and his Jacobs company. The first one is failure to file the company's annual report which was due under New York Stock Exchange regulations within 90 days after close of the fiscal year and under SEC regulations within 120 days. The fiscal year ended July 31 which meant the filings were due Oct. 31 and Nov. 30.

The second is a charge that Mr. Guterma hocked all his stock—Jacobs and all that in its wholly-owned subsidiary companies with money lenders, to the end that "the principal 'insider' (Guterma) of Jacobs was liquidating his position, in conformity with his over-all fraudulent scheme." Further, the SEC says "it affirmatively appears" that Mr. Guterma intended that the stock would be sold out by his creditors.

One Way Out • What the SEC means in this last charge is that Mr. Guterma

*Mr. Guterma’s own description of himself, which first appeared in a business paper interview after a reporter asked him to describe why F. L. Jacobs had been so successful. Mr. Guterma replied, "because it's run by a goddam genius."

Grounded • Alexander L. Guterma, Mutual president, was still flying high when this picture was made last October. The plane, a luxurious Convair, was named “Miss Bocaren” after his children: Bobby (Bo), Carol (car) and Karen (en). Last week Mr. Guterma was brought at least temporarily to earth by an injunction action filed in federal court by the Securities & Exchange Commission.
Pressman, doing business as the Silver Co.

All in all, the SEC says that about 45,000 shares of pledged stock have already been sold by the money lenders. If true, and as there have been no registrations filed, the SEC thinks the investing public (specifically whoever bought the 45,000 shares) was duped.

The Mysterious "Conficon" • A third change in the SEC complaint is that Jacobs loaned approximately $1.5 million to a company called Conficon, which the SEC thinks Guterma controls. The complaint says he first refused to discuss Conficon with the SEC but later admitted he was a bondholder (to the extent of several hundred thousand dollars) but didn’t “believe” he was a stockholder.

Mr. Guterma issued a statement rebutting the SEC charges. He said he had furnished all the information that the SEC asked for last Wednesday, the day the complaint came out. While acknowledging the interview with Mr. Guterma, Regional Administrator Paul Windels of the SEC was non-committal on whether he was satisfied with the information Mr. Guterma furnished. He felt the complaint, which followed the interview, spoke for itself.

Mr. Guterma further stated that “the precipitous action of the commission can have no effect other than to hurt the company and its stockholders. Moreover, much of the information in the press release of the commission is incorrect and inaccurate. No collateral pledged by the company has been sold because of a default in a company loan. . . . Neither the company nor anybody associated with it has distributed to the public company stock without registration.”

He continued to “reiterate the company is in sound financial condition” and that an audit was expected from Ernst & Ernst “within the next few days.”

Ernst & Ernst refused comment. On a previous occasion when Mr. Guterma asked further delay pending completion of the audit, Ernst & Ernst had told the SEC the books were not posted and ready for audit.

How Mutual Got Involved • Mr. Guterma started making his mark in financial matters shortly after he came to this country which he says was in 1950. It wasn’t until last year, however, that he moved over into the entertainment field. That was when Scranton, an F. L. Jacobs Co. subsidiary, bought the Hal Roach Studios in Hollywood for a price reported “in excess of $15.5 million” (Broadcasting, June 2, 1958). The SEC said last week that Scranton gave Roach 35,000 shares of Scranton stock.

At that time, Mr. Guterma was board chairman of F. L. Jacobs and still is. According to the SEC, Jacobs in May of last year owned 50.7% of Scranton while Mr. Guterma personally owned approximately 5%. Mr. Roach remained as president of Hal Roach Studios after the acquisition.

Then, in September, Scranton and Hal Roach bought Mutual from Armand Hammer and associates for a price reported in excess of $2 million (Broadcasting Sept. 15, 1958). Mr. Guterma, who became president of Mutual while Mr. Roach became chairman, refused at the time to divulge purchase terms.

These terms came to light last week in SEC's records. Aside from detailing the actual arrangements, they offered a contradiction to the announced fact that it was Roach alone who bought Mutual. The terms specify Scranton and Roach together bought Mutual, but without detailing which of the two companies would own how much of the network.

These are the terms: Scranton Corp., a subsidiary of Ja-

---

**Mutual's mounting losses**

It's been no secret that Mutual—not alone among radio networks—has been losing money. The extent of that loss, at least through July of 1958, is documented in papers now on record at the SEC. The data shows that Mutual sustained a loss of $790,088.08 for the period January-July 1958. Other reports, not detailed here, show that Mutual has a deficit of $341,004.91 at the beginning of 1957, and in the course of that year lost another $738,742.39. Putting the deficits together, the deficit as of July 31, 1958, amounted to $1,869,835.38.

The Mutual sale agreement was stamped in at the SEC Dec. 5, the same day F. L. Jacobs stock was suspended from the New York Stock Exchange.

Who Owns Mutual? • Among the many questions left unanswered by last week's development, and which the government hopes to have answered when Mr. Guterma goes into court this Thursday, is one of special interest to broadcasters. Who owns Mutual?

Before the SEC's files turned up the terms of last September's sales agreement, everyone assumed it was Hall Roach Studios. It's now apparent that that was only partially correct, as Scranton also shares in this ownership directly, not just through Roach.

Who owns Roach? It seems that Scranton does. But who owns Scranton? No official outside those firms could tell you. All the transactions have not been filed. On the surface, at least, F.L. Jacobs is credited with roughly half ownership. But as Mr. Guterma admits that all his stock in Jacobs has been pledged as collateral on loans, and as the SEC charges that some of that pledged stock has already been sold, but nobody knows to whom.

Another element in the question is the new possibilities involving Armand Hammer's sale of Mutual itself. The stock that Mr. Hammer received was in Scranton. Scranton has at least some shares of Mutual directly. It appears Mr. Hammer's cleavage from MBS may not have been complete.

Aluminum rod coils into the air — guided and sped through processes that draw out wire for important, multiple nation-wide uses. General Cable Corporation is one more example of progressive industry on the move in the MARKET ON THE MOVE . . . TAMPA — ST. PETERSBURG . . . contributing to the amazing business growth that's put the Twin Cities of the South in THE TOP 30 MARKETS—now 30th in retail sales, 4th nationally in freight car unloadings, 27th in automotive sales.

And, keeping pace with this growth is the station on the move—WTVT—first in total share of audience* with 30 of the top 50 programs*. WTVT, with highest-rated CBS and local shows, blankets and penetrates the MARKET-ON-THE-MOVE . . . TAMPA—ST. PETERSBURG.

*Latest ARB
The issue of single rates—as distinguished from the two-rate system of local and national—is gathering momentum on Madison Ave.

But just where it will go was anybody's guess last week. Agencies queried about the situation admit it is to their interest and at least three agencies are doing something about it.

- N.W. Ayer & Son is undertaking a personal survey of stations in major markets asking for clarification on which rate is charged what advertiser and why. For the task, the agency has a force of 22 media men out in the field.

- Benton & Bowles via Lee Rich, vice president in charge of media, publicly revealed its push for a single tv rate (Broadcasting, Feb. 9).

- Mogul, Lewin, Williams & Saylor has sent a letter to a selected list of stations seeking various data including information on the local and national card rate.

But there were signs in the minds of many that a blanket single-rate policy is not the answer. MLW&S, for example, from where it sits, views the single rate as a possible boomerang. The agency counts a number of retailers on its client list.

Storz Stand • A station spokesman—George W. Armstrong, executive vice president of the Storz Stations and general manager of WHB Kansas City—warned a New York audience of time-buyers and station representatives that it made little difference whether a station adopts one rate, two rates, a local, regional and national rate or "five different cards." The solution as he sees it: Disclosure of all rates affecting all categories of advertisers and a published, clear, realistic definition as to the categories of advertisers entitled to the local rate and those who must pay the national rate, and insistence that advertisers in each category will be treated in like manner with no discrimination.

Support for the single-rate move—meaning, meanwhile, was given tacitly if not outspokenly in every case by leading agency executives and buyers assembled by WPTR Albany, N.Y., at a luncheon held in New York Monday (Feb. 9) to announce WPTR's move to put a single rate into effect (Broadcasting, Feb. 9.)

The one-rate idea appeared to have the support of the entire group, which included James Wilkerson, vice president, and Warren Bahr, Associate media director, Young & Rubicam; Phil Kenney, vice president, Kenyon & Eckhardt; Mike Donovan, vice president and associate media director, Benton & Bowles; Harry D. Way, vice president and media director, and Bill Hunter, media group supervisor, Erwin Wasey, Rutherfurd & Ryan; Ed Fieri, spot coordinator, and Hope Martinez, spot timebuyer, BBDO, and Edna Cathcart, timebuyer, J. M. Mathes, Inc.

BBDO Delight • Mr. Fieri said he was "delighted" to see local and national rates equalized. BBDO has one client that buys locally, with the agency selecting the stations and the client's distributors doing the buying, he said, but he noted that BBDO has an agreement whereby it gets its commission.

Another agency was described by others as less fortunate. While it does the work for a client that buys locally, this agency was said to get only 7½% commission in such cases instead of the usual 15%.

Miss Cathcart, like Mr. Fleri, said she'd be "very happy" if all stations had a single rate.

Miss Martinez made the point that stations with different national and local rates have different conceptions of what is "national" and what is "local"—and that stations themselves should refuse to accept national business at local rates.

Duncan Mounsey, executive vice president and general manager of WPTR, said the adoption of a single rate reflected the station's decision to "base the rate on the value of our product, not what we think the traffic will bear." Actually, he said, the local rate has been coming closer and closer to the national rate through a series of local increases.

Mr. Mounsey, asserting that WPTR may have as much local business as all other radio stations in the area combined, said he was confident this business would not be seriously endangered by the increased rate. He said a number of advertisers already on the station are buying the time even though they are aware that WPTR's coverage far exceeded the area they serve.

Robert E. Eastman, whose firm is WPTR's national sales representative and who has other stations which recently adopted the single-rate policy, stressed the importance of such a policy and named Baltimore, Boston, Pittsburgh St. Louis, "to name a few" as "one-rate markets."

A Cunningham & Walsh media executive said his agency was watching the controversy closely, that the agency has much concern with rate structures and the effect on clients. The agency,
Participation in three key 1/2 hours one week, alternating with three other key 1/2 hours the next week to give the participating advertiser exposure in six different shows (Class AA and A time) every two weeks.

3—Minutes per week, $1200
3—CB per week ....... $900

The November ARB gives the six BIG 11 REACH shows a two-week cumulative rating of 85.2. This figures to a weekly average of 42.6 average rating. ARB shows non-duplicated reach for these programs of 50.2 homes one or more times.

JOHNSON CITY, TENNESSEE
he said, feels the broadcast rate might "find its own level" because of the current discussion on the subject. He referred also to the effect on agency commissions, which he labeled as "still another area to be explored."

Ayer Details • N. W. Ayer's move on behalf of all its air clients was detailed by Leslie D. Farnath, vice president in charge of the media department. Mr. Farnath said the agency wanted to get a "clear and precise definition" of advertiser qualifications for local and national rates in both radio and tv and "why."

But he cautioned, the agency was not "arm twisting." Rather, N.W. Ayer feels stations ought to have "good reasons" for having dual rates along with "good definitions."

The Ayer survey strategy: first 50 markets with eventually the top 75 markets covered. When the media gets through in the field, the agency will tabulate results.

Falls Flat • This national fan-out was ordered by Ayer's media department when a questionnaire sent to stations a few months ago fell "flat on its face." Answers were hard to come by. That letter, it was learned, dealt with an Armour Co. (Ayer client) plan to embark (through its processed meat division) on an extensive local advertising campaign in selected markets. Ayer asked what rates would be applicable to Armour and how the business would be handled for the advertiser to qualify "for any existing variations from your national rate."

Mogul has a substantial lineup of retailers on its client list, including Barney's Clothes, Rayco Mfg. Co., National Shoes Inc. and Howard Clothes, all of whom are active radio-advertisers. The agency, however, also represents a sizeable number of national accounts that invest in radio-tv, such as some products of Revlon Inc., Esquire Shoe Polish, Gold Medal Candy Corp. and Tintex Co.

Mr. Dunham is adamant that "many retailers would not be in radio if it were not for the local rate." He conceded there are a few stations which have a "realistic" single rate structure under which retailers could use the broadcast media "without prejudice."

The letter sent out last week by MW&K requested the following: a current program log, a local retail rate card, a national rate card, merchandising plans available, coverage map, and other local market data.

Mr. Armstrong and Mr. Rich appeared at a timebuying and selling seminar luncheon Tuesday (Feb. 10) given in New York by the Radio Television Executives Society.

Mr. Armstrong said the Storz Sta-tions nearly a year ago adopted, published and circulated a definition for both local and national advertisers using the stations. In essence, it defined a local advertiser as a retailer advertising his own place of business and service and not featuring a product for sale, with commercial material prepared locally by himself, a local agency or the station. All other advertisers are defined as national and pay that rate.

Rich Is Sorry • Mr. Rich said he wished to commend all radio stations which have issued public statements on their rate policies but was "sorry to see no tv stations" doing the same. He outlined Benton & Bowles' experience with its survey of stations on the local vs. national rate (details in Broadcasting, Feb. 9) and warned that stations granting lower rates to non-retail advertisers were "creating a new and far more gigantic problem among the national advertisers and their agencies, who provide, in most instances . . . the largest portion of their revenue."

Mr. Rich said the stations were creating doubts among advertisers as to the value of a "particular advertising vehicle" as related to competing advertisers. He cautioned that these doubts in turn are creating "an unwholesome and dangerous spirit of distrust and suspicion."

Publishing Need • Labeling the granting of lower rates as "rate cutting." Mr. Rich called for publication of rate differentials which clearly define "what particular kind of advertiser or agency qualified for these lower rates." From there, he indicated, it was up to the buyer.

He felt that continuation of differentials in rates without definition would create negotiation with individual sta-

First (pitch) lady

Lever Bros. is seeking Mrs. Franklin D. Roosevelt, widow of the 32nd President, to appear in tv commercials, on behalf of the company's Good Luck margarine. A few commercials already have been filmed by MPO Productions, New York, but have not been committed for tv. Ogilvy, Ben-son & Mather, N.Y., Good Luck's agency, said last week Mrs. Roose-velt had not yet accepted Lever's offer and that anything done must be approved by Mrs. Roosevelt. The completed "study" commercials are said to be 20- and 30-second messages. Mrs. Roosevelt's name in the past has been connected with Sonotone hearing aid print advertisements but not with any tv commercials.

tions for the best deal rather than on a national basis, exclaiming "tv is the greatest medium in the world; let's not do anything to kill it."

Mixed emotions greet single rate in Chicago

What do Chicago agencies feel about the move for a single rate card for all advertisers—national and local, or about the desirability of reclassifying rates as retail and general?

Reaction might well be termed mixed, on the basis of views expressed last week at a closed meeting of Chicago Agency Media Group, a new organization comprising time and space buyers.

Panelists at the dinner meeting, held at Chicago Federated Adv. Club headquarters for about 50 buyers last Wednesday, included William C. Goodnow, station manager of WISN-TV Milwaukee; Louis A. Smith, manager of midwest tv sales, Edward Petry & Co., station representative; Jake Sawyer, partner in Sawyer-Ferguson-Walker, newspaper representative; Charles Budde, vice president in charge of Chi-cago office of J. P. McKinney & Son, newspaper representative; John W. Moffett, vice president and advertising director, Minneapolis Star & Tribune; and Hal Holman, head of Hal Holman Co., station representative. Reg Dal-low, media director of Grant Adv. Inc., Chicago, was program moderator. Harry C. Pick, formerly media director of Reach, McClintock & Pershall, is CAMG president.

Panelists expressed these views: (1) national advertisers are inconsistent and can't be relied on for regular business in any one medium; (2) national advertisers do not seem to respond to past efforts for building a discount structure parallel to local rates; (3) local media needs local business as a base, even though national business represents a major portion of all income.

Station owners and newspaper publishers should operate more closely with their representatives to avoid conflict between national sales representatives and station and newspaper sales representatives, panelists felt. They also indicated there may be some justification for two rates—national and local—but no more. Possibility of reclassifying local and national rates as retail and general also was explored by the panel as an alternative to single rates.

Among recommendations, radio, tv and other media were encouraged to formulate written statements outlining "who qualifies for each rate," and the basis for national rate figures. Agencies still are responsible, it was stressed, for getting the lowest possible rates for their clients and frankly have favored local rates for some advertisers.

(BROADCAST ADVERTISING) 37
ADVERTISING FINDS WASHINGTON

Government impact on industry seen first-hand at AFA meet in Capital

The organized advertising business discovered Washington last week.
For the first time representatives of media, agencies and sponsors met jointly in the nation's capital to take up the problem of government impact on advertising. The meeting attended by 200, was held on Feb. 9 under the auspices of the Advertising Federation of America.

An all-day session convinced AFA delegates that anti-advertising pressures are getting worse but they couldn't agree on methods of coping with the situation. The Federation is considering two approaches—a Washington listening-post or reporting service, and/or a legislative office. Mild efforts to raise funds from member associations have been futile.

Raised Eyebrow Rule • Conferences were surprised to learn from FCC Chmn. John C. Doerfer: "We regulate, frankly, by the raised eyebrow."

Anti-advertising legislation is becoming more of a problem every year, according to Rep. Bob Wilson (D-Calif.), partner in the San Diego, Calif., agency firm of Champ, Wilson & Slouc. He said there are signs that Congress will consider a tax on advertising.

Rep. Wilson caught AFA ears with the comment that "too often in the past Madison Avenue has had no direct route into Pennsylvania Avenue." He added, "There has been too much of a tendency on the part of advertising to think that Washington was a figment of somebody's imagination." Four different committee reports last year recommended federal restrictions on misleading advertising, he said.

While advertisers and media spokesmen testify at times on bills before committees, he said, this testimony "plays a minor role in the influencing of legislation and "to depend solely on it for constructive results is often fatal." More important, he continued, are attitudes and opinions of constituents back home, helpful statistics and reliable information provided by groups and associations, and constructive, intelligent lobbying—"political facts of life that the advertising profession evidently has chosen to ignore."

Chairman Doerfer implied the Commission uses the raised-eyebrow technique to offset its lack of censorship powers under the Communications Act. He said revocation of license has rarely been employed because the penalty is out of line with the type of penalty a court would impose.

Trade Policing • The NAB radio standards and tv code "are about as close as you can get to government sanctions," the chairman explained, commending their provisions.

Commenting on the NAB's recent tv code action barring portrayals of professional people by actors in medical commercials, he said he wasn't sure the association had acted wisely in leaving the problem of portrayals by authentic practitioners up to their own professional organizations. The chairman feared that abuses by professional people performing on commercials might set off corrective action by legislative bodies.

Chmn. Doerfer conceded FCC receives a relatively small number of public complaints against broadcasters. He said these are filed in station dockets and referred to the licensees for their own version. A licensee's answer, or failure to answer, goes into the file and is considered at renewal time.

Both Chairman Doerfer and Chmn. John W. Gwynne, of the Federal Trade Commission, explained how the agencies have an interchange arrangement on complaints. FTC automatically refers appropriate complaints from its broadcast monitors and the public to the FCC, which in turn puts them in station files even if they are crank letters. When the matter of the merit of complaints was raised, Chmn. Doerfer offered his "raised eyebrow" observation. He added that a broadcaster is worse off if he makes a false reply to the FCC than if he says he is sorry and won't do it again.

Legislator Wants Lobby • Rep. Wilson asked AFA delegates why the advertising profession "has chosen to ignore the political facts of life." He said it is "shocking that no bonafide staff is working in Washington in the broad interest of advertising."

"How many people represent advertising here?" he asked. "The appalling answer is zero. Nobody seems to care. Only 5% of the nation's trade associations have representation in Washington compared with nearly 90% of the unions."

John P. Cunningham, chairman of the board of Cunningham & Walsh, called for 24-hour-a-day educational tv service but wasn't definite about ways this could be accomplished (Broadcasting, Feb. 9). He said too many commercials are repetitive and silly, and
contended the air is overloaded with westerns and giveaways—"too much pallid programming, not enough cultural fare." His suggestion that Congress should be televised regularly brought from Rep. Wilson the thought that attendance of representatives and senators at sessions would rise sharply.

"Uhf seems to be slowly passing away," Mr. Cunningham said, pointing out that only 8% of sets produced include uhf tuners.

Community Plan • Morton J. Simon, of the Philadelphia bar, said other areas should fight anti-advertising legislation by the Community Action Plan employed in Baltimore to defeat that city's advertising tax.

John J. Ryan, AFA counsel, said there has been a continuing government attack on advertising in the last year. He claimed the Internal Revenue Service had upset a 35-year precedent by imposing excise taxes on co-op advertising allowances (BROADCASTING, Dec. 29, 22, 1958). He warned there is a move inside the government to disallow expenditure for institutional advertising as a business expense. Already IRS has issued a proposed rule disallowing advertising expenditures for lobbying and political purposes—a murderous weapon against institutional advertising."

Harold T. Swartz, IRS assistant commissioner, reviewed recent revenue rulings but he did not touch on the co-op advertising ban effective Feb. 1.

AD PUNCH CUT? 'Two channel' dirge sung by ABC duet

The importance to our economy of creative advertising and the impediment presented by "two-channelitis" were to be discussed by AB-PT President Leonard Goldenson and ABC-TV President Oliver Treyz at the Birmingham (Ala.) Ad Club last Saturday (Feb. 14). It was the club's annual creative advertising awards presentations.

Mr. Goldenson stated that increased productivity of American industry "must be matched by equal creativeness by business executives and the advertising men and women who will market and sell these products." Otherwise, he said, mass marketing will be impossible and production costs too high for the average consumer.

Mr. Treyz concentrated on the harmful effects of limiting certain markets to two commercial channels. He said such communities, primarily in the South, lose the benefits of free competition among the three networks which has made improved programming available elsewhere, even in smaller markets. He asserted that both local and national advertisers suffer.

The solution he offered was relaxation of FCC rules on mileage separation between stations so that deprived communities can add another vhf outlet. Mr. Treyz maintained that directional antennas and precise carrier offset (a new engineering device) would protect existing tv service.

Mr. Treyz told his Birmingham audience that they and their fellow citizens were deprived of many national network programs, including those of CBS-TV and NBC-TV as well as ABC-TV.

In January, Mr. Treyz said, the three networks broadcast 25 special telecasts, but only 16 were seen in Birmingham. Among the missing were a report from Red China, a documentary on Chinese infiltration in Southeast Asia, an examination of the new Congress, Leonard Bernstein's young people's concert, Bob Hope's film show from Moscow, the Meet the Press interview with Anastas Mikoyan.

"If a tv set is worth $300 in Boston," said Mr. Treyz, "it is worth only $200 in Birmingham." He said it was important that the people of Birmingham understood the facts of the tv station shortage. "Having possession of these facts," he said, "you can determine for yourselves what action is required."

REGAL MOVE 'Cash and credit' tv brings in the gold

A 16-month-old firm, Regal Advertising Assoc. Corp., New York, held open house last week to celebrate its move to headquarters in the new skyscraper at 575 Lexington Ave.

Appropriately the building is the color of what Regal says it is mining out of television: gold. Regal specializes in the trade-off of film product to tv stations in exchange for time which the company then sells to advertisers. Company officials do not use the term "barter" because of the connotation it has acquired in television. Regal calls its operation "cash and credit."

Charles Weigert, vice president-genral manager, and Sidney Barbet, vice president, who with Stanley Grayson, director of station relations, operate the firm, predicted last week that by the end of 1959 Regal's "inventory" or bank of tv time will be worth some $20 million. Currently the time storage is at the $8 million mark—the dollar figures representing the value of the time at the end rate (what it would cost the advertiser after all possible station discounts).

Regal caught the spotlight nearly a year ago when Silf Skin (girdle) was
42 per cent more audience per commercial minute than any other network. That's how the CBS Radio Network rates when Nielsen Radio Index "polls" the nationwide radio audience (averaging over 16 straight months). 226 out of 237 quarter-hour wins for CBS Radio programs. That's what happens when The Pulse reports on the big city audience (1958 average; all quarter-hours in which programs of CBS Radio and those of at least one other network competed in 10 or more of the 26 top markets).

8 out of 11 firsts for CBS Radio Network shows in the 11 program categories voted on by 465 critics and editors in the Radio-Television Daily annual poll. And they named so many other CBS Radio programs as runners-up that the total number of honors for this network in these categories surpassed that of the three other networks combined. (What's more, CBS Radio personalities comprised four of the five choices for "Radio Man of the Year": Edward R. Murrow, Arthur Godfrey, Art Linkletter, Mitch Miller.)

CBS Radio Network programs honored in 11 categories:

- DRAMATIC SHOW OF THE YEAR (three out of five)
  - GUNSMOKE*
  - SUSPENSE
  - JOHNNY DOLLAR

- COMEDY SHOW OF THE YEAR (three out of five)
  - AMOS 'N ANDY*
  - THE COUPLE NEXT DOOR HOUSE PARTY

- MUSICAL SHOW OF THE YEAR (three out of five)
  - NEW YORK PHILHARMONIC* METROPOLITAN OPERA
  - CHRISTMAS SING WITH SING

- COMMENTATOR OF THE YEAR (three out of five)
  - EDWARD R. MURROW*
  - ERIC SEVAREID
  - LOWELL THOMAS

- DOCUMENTARY OF THE YEAR (four out of five)
  - WHO KILLED MICHAEL FARMER?*
  - THE HIDDEN REVOLUTION
  - P.O.W. — A STUDY IN SURVIVAL
  - RADIO BEAT

- QUIZ SHOW OF THE YEAR (one out of two)
  - SEZ WHO!

- BEST NEW PROGRAM IDEA (two out of four)
  - HAVE GUN, WILL TRAVEL
  - MARLAND RADIO COLOR ROUNDBUFP

- SPORTSCASTER OF THE YEAR (two out of five)
  - PHIL RIZZUTO
  - FRANK GIFFORD

- BEST TRANSCRIBED SERIES (one out of four)
  - AMOS 'N ANDY*

- BEST PUBLIC SERVICE PROGRAMMING (four out of five)
  - FACE THE NATION*
  - P.O.W. — A STUDY IN SURVIVAL
  - WHO KILLED MICHAEL FARMER?
  - THE HIDDEN REVOLUTION

- VARIETY SHOW OF THE YEAR (three out of five)
  - MITCH MILLER SHOW*
  - ROBERT Q. LEWIS SHOW
  - ARTHUR GODFREY TIME

*Winner in category
No matter which sample you use—nationwide audiences, big city listeners, critics—the answer comes out the same. CBS Radio Network programming and personalities win all the polls, hands down—year after year. And the new Program Consolidation Plan, with virtually all of these favorites and many more, means even stronger audience leadership through: improved mood sequencing; CBS News every hour on the hour; uniform broadcast times; increased station clearances for advertisers. The listeners, of course, are your customers. It’s worth being where there are so many more of them. And where they like what they hear so much.

COME OUT THE SAME …CBS RADIO NETWORK
in a two-way stretch between Grey Adv. and Regal Adv. The question then was which company—Grey is an advertising firm but Regal is a time trader—handled how much of what money Silf Skin was spending (Broadcasting, March 17, 1958).

Regal still lists Silf Skin as one of its clients. The list, as issued by Mr. Weigert, includes Exquisite Form Brassiere Inc., Rokeach Food Products, Walt Disney toy licensees, Parry Labs (Myomist throat spray), U.S. Pharmacal Co. (Baby Sweet and Soothe) and Lamour hair products.

Regal employs 26 people and is exploring arrangements in radio similar to its tv trades. In tv, Regal claims to be doing business with 122 stations in 102 markets, feels it will stick with those markets but has an eye on extending the number of stations.

Mr. Weigert says Regal gets its profit margin by buying film product in volume and at a lower cost than an individual station would pay and can offer time to clients at a cost a little below that which the station would charge. The Regal management says it gets first-rate product from all sources and where a film company does not deal with the trader, finds a way to get around it. ("We pay the station the full price it paid for the film and take the equivalent in time.") Film includes syndicated half-hour series and features as well. (Mr. Barbet says Regal owns a package of 35 feature films.)

As for radio, Regal in "about 45 days" will be in 36 markets on the "first or second station in the market." Product for this phase of the operation: The Big Sound (known personalities in tapes 6-20 seconds long for use in station breaks, household hints, sport, time and temperature information, introductions, etc.) and jingles, all produced by Richard Ullman in Buffalo. Regal has animated series, Colonel Bleep, from Ullman for its tv operation, now has Bleep in 50-60 markets.

And that's not quite all.

Regal says it can supply nearly anything in trade for time. Among its services (all for time): billboards, carcards, station equipment and automobiles. Not to miss a bet, Regal has $100,000 in due bills (European trips, hotel reservations, etc.) representing credit over a two-year period which it supplies to clients as a service.

WIN 'EM, WOO 'EM

Involvement is part of successful tv spots

In-program commercials and spots present such "sharp technical and philosophical differences" as to make one believe that "maybe they aren't the same thing at all," Howard Gossage, told the Hollywood Advertising Club last Monday (Feb. 9).

Mr. Gossage, partner in the San Francisco agency Weiner & Gossage, was the guest speaker at the club's first TV-Radio Producers Award luncheon, preceding the presentation of awards to the creators and producers of radio and tv commercials judged as the best produced in Southern California during 1958 (Broadcasting, Feb. 9).

Involvement • In-program commercials, if correctly used, are advertising with a capital A—no matter how well integrated they are," Mr. Gossage said. "They operate generally under the same rules as apply to advertising in magazines or newspapers. Accordingly, they enjoy the one great plus that advertising, clearly marked, has to offer—time enough, opportunity enough, to involve the viewer and then keep him involved.

'Spots, on the other hand, aren't structurally speaking, advertising at all. They are programs; self-contained programs.

"The real difference between these miniature plays, musicals, information shows, and comedy bits and their non-advertising counterparts is not their duration, but the fact that a product is essential to the plot. So if we wish to involve the audience, it is better if we carry our story line through right to the end, integrating the commercial message as we go with no stopping halfway and saying, 'But seriously' or 'That's right folks.' You'll find that almost the quickest way to uninvolve an audience and lose it.

Small Detail, Big Plus • "The real
As a member of society, WHAS-TV pulls out all the stops. Viewers have learned to expect the BIG effort from WHAS-TV.

Twelve national awards have been won by "Operation Cancer," "Inside Our Schools," "Crusade for Children" and the "Good Living-Maternity Series." A WHAS-TV cervical cancer series won McCall's top 1957 Award.

Special series on the state legislature, highway safety, atomic attack and local air power; weekly programs such as "According to the Law," "Let's Look It Over," "Lure of the Library" and "What's Your Question?"; documentaries on cancer, slum clearance, heart, blood and obesity...have convinced Louisville area viewers that if it is BIG and IMPORTANT, it's on WHAS-TV!

trick with spots, besides having an engaging and pertinent idea to start with, is injecting enough small detail to keep them interesting in spite of repetition. “Undoubtedly the most important contribution you can make to any advertising you do is an innate confidence that there’s somebody out there who is terribly interested. Someone who will catch every word, respond to every nuance. Strangely enough, it turns out there is. At first it’s an act of blind faith to write or produce in this fashion. Then after a while you begin to feel about your audience as an actor must feel. I suppose it helps if you have a generous streak of ham in your make-up somehow.

“And, like an actor, you are playing a role, the role of your client. And in doing so you give your client identity; he knows who he is in relationship to his previously faceless prospects.”

Take a Chance • Audacity, in both programming and commercials, was highly recommended by several speakers during the morning clinic sessions on creativity and tv commercial techniques. Selig Seligman, ABC-TV vice president and general manager of KABC-TV Los Angeles, stated that it is a responsibility of management to imbue creative people in broadcasting with the desire to do something new and different and not eternally to play it safe by doing the same old thing over and over even if repetition achieves improvement in production.

Earl Klein, president, Animation Inc., expressed it this way: “You don’t get a startling result when you play it safe. You’ve got to gamble if you want to hit the jackpot.” And Ed Rich, recently in the London office of Erwin Wasey, Ruthrauff & Ryan, declared that in England “audacity really does pay off.” With no program sponsorship permitted, all tv commercials in Britain are spots, he said, and these spots are broadcast in bunches, with perhaps a dozen spots running from seven to 30 seconds each crowded into a three-minute period. In these circumstances, there’s real competition to be different, to stand out and arresting techniques are essential to winning viewer attention and memory. One result, he reported, is that audience ratings actually rise during the commercial interludes.

Al Flanagan, vice president and general manager of KCOP (TV) Los Angeles, commented that an independent station sometimes has to be daringly different because it can’t afford to compete with other stations in the purchase of syndicated film programs.

Humorous commercials, a highly controversial technique a few years ago, are now standard procedure, according to Maxwell Arnold, vice president, Guild, Bascom & Bonfigli. “The question is no longer should humor be used, but what kind of humor,” he stated. But he warned that “it takes a real pro to write good humorous copy” and reported that GB&B employs copywriters who are experienced comedy writers and teaches them advertising, rather than teaching comedy writing to advertising men.

Humor Helps • Alan Alch, an alumnus of GB&B and of Freberg Ltd. who now has his own creative copy service, said that humor gives a commercial high initial interest and high memory value.

In an afternoon clinic session on media buying, Gene Duckwall, vice president of Foote, Cone & Belding, outlined a general theory of buying “directory” media, such as the Yellow Pages of the telephone book or specialized magazines or newspaper sections, for articles of high cost and infrequent purchase and therefore of high interest preceding the purchase, while using “intrusive” media, like radio and tv, for low-cost, low interest items purchased frequently.

David Fenwick, vice president, Robinson, Jensen, Fenwick & Haynes, accused broadcasters of trying to carry water on both shoulders when they set up rate schedules based on time segments but sell audience on the basis of ratings.

John Vrba, sales vice president of KTTV (TV) Los Angeles, predicted a trend toward buying big market coverage in tv, whether spot or network, this spring when the networks “must buy” restrictions come to an end.

A Prof’s Challenges • Leonard Freedman, head of the liberal arts dept., UCLA Extension, challenged four assumptions which he feels most tv advertisers make: that the American public is deaf and it’s necessary to shout to put a message over; that Americans have no taste, so that any topic may be discussed in any living room at any time; that “we’re a bunch of idiots” and that “we are a purely materialistic society, driven only by motives of acquisition of material goods.”

Prof. Freedman suggested that the advertiser, who admittedly has a bigger influence on our society than the professor, ought also to assume some responsibility for raising the general standards so that “it will no longer be profitable to appeal to anything but the best taste, the highest intelligence.”

Bob Hull, tv-radio editor of the Los Angeles Herald-Express, final speaker of the all-day clinic, asked that program commercials, particularly mid-program commercials, be keyed to the mood of the program and not permitted to destroy it and the viewer’s enjoyment of the program with it.

KLIF 1190
50,000 WATTS
50 KW DAY—1 KW NIGHT

BROADCASTING, February 16, 1959
ON a bright Dallas afternoon in 1953, the telephone at KLIF was its usual busy self. One of the incoming calls was from Hollywood columnist, Jimmie Fidler.

"Listen, Gordon," said Fidler, "My fifteen-minute show is open in Dallas. How about it?"

There was a pause.

"We can't handle it as a fifteen-minute show, Jimmie," came Gordon McLendon's eventual response. "And I think you're going to have more and more trouble selling it that way. But we have an idea for you that we think will triple your sales. We want to buy the show, excerpt it into one-minute strips and use them as inserts in our newscasts."

The idea of columnist insertions in newscasts turned out to be another first for the booming Dallas independent. And it opened a whole new radio vista for Fidler and many others. Many industry observers credit KLIF in Dallas with more programming innovations than any other American radio station. It shows in the ratings, too. On January 19, 1959, C. E. Hooper, Inc., reported that KLIF's Hooperating of 49.5% mornings and 51.3% afternoons was the highest share of audience in America among the first twenty-five metropolitan markets.

Among other programming firsts generally attributed to KLIF: First use of production intros to newscasts, first full-scale use of mobile news units, first station to pay its disc jockeys on ratings, first to use "News teasers", first station to originate nationwide "Game of the Day" broadcasts of Major League baseball, first with professional football's "Game of the Week", first to originate outright purchase of large jingle packages, first American radio station to operate from two different transmitter sites, et cetera. The list runs on and on.

Behind KLIF since its beginning as a one-thousand watt daytime in 1947 are veteran Dallas showman Barton R. McLendon, and his son, Gordon B. McLendon, the latter frequently mentioned as a Texas senatorial or gubernatorial possibility.

On February 1, 1959, KLIF increased its daytime power to the allowable maximum—fifty thousand watts. The story of KLIF's rise from an obscure Dallas daytimer to national 50 kw prominence is a story of McLendon ingenuity and determination in four stages. The first stage was the original 1 kw daytime grant in 1947. The second stage came in the early nineteen fifties when KLIF, after long effort, gained FCC permission for fulltime operation. McLendon then applied for, and was granted, five thousand watts daytime and one thousand watts nighttime. That was the third stage. The new increase to fifty thousand watts daytime is the fourth stage. The fifth is coming. KLIF is preparing an application asking for 10 kw nighttime power.

It took McLendon daring and gamble to get the 50 kw permit. Protection problems, as well as population blanketing, made the daytime increase impossible from the station's present transmitter site.

Highest rated station in all of the first 25 American markets according to C. E. Hooper, Inc.
KLIF, Dallas selected the highly developed Type 317B transmitter by Continental. Now on the air, the transmitter offers KLIF many exclusive features:

- Compact — requires only 72 sq. ft. of floor space
- Completely self-contained, except blower
- Only 19 tubes total—including those in two oscillator units
- Weldon Power Amplifier Design*
- Regulinear** Cathode-Follower Screen Modulation system

Additionally, KLIF was interested in these new features:

- Especially designed for remote operation
- No rectifier tubes — silicon and selenium rectifiers
- All aluminum cabinets for electrical shielding
- Less than 1% carrier shift
- Zero temperature coefficient crystals
- Completely air-cooled throughout

If you'd like details on a truly outstanding transmitter please write for complete details.

McLendon Story (cont'd.)

Yet the station's nighttime site could be moved nowhere else and still meet FCC requirements. It was a seemingly unanswerable problem. But the answer was found. Why not be the first American radio station to operate from two different transmitter sites. Result—an FCC grant to KLIF to operate daytime with 50 kw from a 40-acre transmitter site west of Dallas, between Dallas and Fort Worth, and then shift at night back to KLIF's old site east of Dallas.

KLIF's wallop new fifty kilowatt signal is even more powerful than it sounds. Situated between Dallas and Fort Worth, four towers directionalize the KLIF power east and west, squaring a major lobe of approximately 250,000 watts toward these two great cities—the nation's twelfth market.

KLIF's new power solidified McLendon's position as a giant of Texas communications. Combined with the vast coverage of KLIT in Houston (5 kw on 610 kc) and KTSA in San Antonio (5 kw on 550 kc), the three Texas Triangle stations now stand like the colossus of Rhodes, with one foot in warm Texas Valley, and "Bayonets." Directing is the only way in that wretched mountains of the Panhandle. More than eighty percent of the Texas population is now under the McLendon umbrella. No newspaper or other communications combined approaches the power McLendon wields in Texas. Further bolstering the Texas Triangle's coverage of the Lone Star state is sister station KEEL in Shreveport with 10 kw day and 5 kw night on 710 kc, and an application pending for an increase to 50 kw daytime. Still a fifth McLendon station lies far to the east in Louisville, Kentucky—WAKY, with 5 kw day and 1 kw night on 790 kc.

The McLendons stay busy. Barton McLendon not only handles the extensive McLendon oil and real estate interests but continues active direction of his far-flung Tri-States Theatres, a Texas-Oklahoma-Louisiana chain he founded in the early thirties. He is now building the new Preston Royal Theatre in Dallas—the first new hardtop theatre to be built in the Southwest in a decade. Recently he swung down to Houston for a day and bought for his KLIT a new $350,000.00 building which may be America's most beautiful radio building.

Now the McLendons are branching out in a new field—the production of motion pictures. They have just finished shooting the first of a series of full-length motion pictures, "The Killer Shrews," starring James Best and Ingrid Goude. On February 16th the cameras roll in Dallas on another McLendon feature—"The Gila Monsters." Still a third feature is scheduled for April. All three features are budgeted at $500,000. As usual, the McLendons have surrounded themselves with top personnel. Co-producer with Gordon McLendon is Ken Curtis, son-in-law of Hollywood director John Ford and a standout Hollywood acting veteran of many pictures. Curtis has just finished "The Horse Soldiers," with John Wayne and William Holden. Production Manager is Ben Chapman, who was also Production Manager of such films as "Bridge on the River Kwai," "The Young Lions," and another factor to the north in the log-cabin country—Ray Kellogg, for thirty years a special effects wizard with Twentieth Century Fox. On February 1st the McLendons bought a four-hundred acre movie studio near Denton, Texas, for this immense sum and this will be the home of many of their future film endeavors.

Many of KLIF's key personnel have been around almost since the start of McLendon's KLIF on November 9, 1947: Glen Callison, Vice-President in charge of Engineering; Les Vaughan, one of America's top recording engineers; Art Nelson, Dean of Southwestern disc jockeys; Cecil Hobbs and Don Newbury, account executives and several others. Bill Morgan, Vice-President and General Manager of KLIF, has directed the McLendon flagship station since 1953.

McLendon radio stations—and KLIF, in particular—are noted for two things: outstanding news and editorial coverage and flamboyant promotion.

In April, 1957, KLIF mobile news reporter Les Vaughan drove his unit with one hand and held the mike with the other as he chased behind the terrifying funnel of a Dallas tornado down storm-torn streets. Vaughan's daring earned for KLIF the coveted Sigma Delta Chi award for outstanding news coverage. In 1958 KLIF's Managing Editor, Dave Muhlestein, added another trophy to KLIF's bulging list of new honors—the National Headliners' Award.

KLIF has originated scores of promotions since adopted by stations throughout America: the first radio flagpole sitter; first rear-window sticker promotion (a McLendon copyright); now a new promotion—the introduction of KLIF'S "Fat Woman," a lady whom KLIF will attempt to safely reduce from 350 to 150 pounds in one year. Such promotions have made KLIF perhaps America's most imitated radio station. Certainly it has become one of the great maid's for music and news stations everywhere. The Sellers Recording Company in Dallas is kept busy around the clock simply recording KLIF programming for stations throughout America.

It has been a busy six years for B. R. and Gordon McLendon since the demise of their Liberty Broadcasting System, which at its height embraced 458 radio stations throughout the nation. Liberty collapsed in 1950, when major league baseball clubs, insisting that McLendon's colorful broadcasts were damaging major league attendance, denied further broadcasting rights. The McLendons sued and eventually won a large cash settlement from baseball.

It was during the Liberty days that Gordon McLendon first caught the eye of the broadcasting industry, not only as an executive but as a creative genius and a great broadcaster as well. Eleven years ago, Liberty was founded as a network programming service feeding programs to stations for a fixed monthly fee; today, the four remaining national networks are all known to be examining such an arrangement. Liberty commentators John Flynn, John Vandervook, Joseph C. Harres and Westbrook Van Voorhies were quickly snatched up by other networks when Liberty folded. Many Liberty sportscasting discoveries are now among the nation's leaders—Lindsey Nelson, Jerry Doggett, Don Wells, to mention a few. Liberty alumni now are scattered throughout the nation in top positions.

Gordon McLendon, "The Old Scotchman," is missed by sports fans throughout the country. In 1951 he won the Sporting News award as America's outstanding football broadcaster and the same year he was named one of America's outstanding young men by the United States Jr. Chamber of Commerce. Today, he is less active as an air personality but still finds time to write and deliver editorials, act as Texas State Chairman for the March of Dimes and a dozen other charities—and be a husband and raise four children.

As KLIF begins broadcasting with fifty thousand watts, it will have hitched even more of its wagon to the Lone Star. A new chapter will begin in the McLendon career, but perhaps it will not really be new. As long as the booming KLIF voice is under McLendon ownership, it will never be a sister station to the other McLendon stations—it is Gordon McLendon's first-born. It will always be the mother station—constantly producing and testing new ideas for all radio to use.
CONTINUED from page 44

Glamour Deb shoes. The singer will tape three five-minute radio shows a week for 39 weeks. *Take Five With Tommy Sands* starts on 200 or more stations, three times a week, Aug. 15. Agency: Leo Burnett.

- Alva Lans Inc. (Alva-Tranquil tablets), Chicago, negotiating for spot radio-tv buys in from 10 to 30 markets, with schedules still to be set. Broadcast media will get about $100,000 out of estimated $750,000 advertising budget for 1959. Agency: Olian & Broner Inc., Chicago.

- U.S. Steel Corp., N.Y., pointing toward hot weather promotion of throw-away cans for soft drinks, will include radio and tv in over-all advertising schedules set to start about June 1. Concentrating in southern states, a spot radio campaign is to hit seven leading soft drink markets. Evening and daytime tv commercials are to be carried during the summer months by CBS-TV on *U.S. Steel Hour* and *Arthur Godfrey Daytime Show*. Agency is BBDO.

- Elgin National Watch Co., Elgin, Ill., has bought segments of CBS-TV Playhouse 90, two-part "For Whom the Bell Tolls" presentation March 12 and 19. Elgin also is seeking other selected programs. Seven-Up Co., St. Louis, is seeking network tv properties, through the same agency, J. Walter Thompson Co., Chicago.

Agency appointments

- Magnavox Co. (phonographs, tv sets), Ft. Wayne, Ind., formerly with Maxon Inc., N.Y., switches to Mar-schalk & Pratt Div., McCann-Erickson, N.Y. Billings total $1 million per year, with additional $500,000 to be spent for sales promotion through McCann subsidiaries.

- Simmons Co. (Hide-A-Bed sofas, mattresses), N.Y., appoints McCann-Erickson there to handle its approximately $1 million upholstered living room furniture advertising. Beautyrest and other Simmons mattresses will remain with Young & Rubicam, N.Y.

- Schenley Industries Inc., N.Y., moves its Cresta Blanca wine business from Norman, Craig & Kummel, N.Y., to Doyle Dane Bernbach there, effective March 1. Account, user of spot radio in past, involves estimated $500,000 in billings. Doyle Dane, which handles other Schenley products, has room for Cresta Blanca after recent loss of Gallo wine account (*Broadcasting*, Feb. 2).

- Vick Products Div., Vick Chemical Co., N.Y., appoints Morse International Inc., N.Y., agency for Vick's cough syrup and Lavoris mouthwash and gargle. Vick acquired Lavoris Co. last October. Agency for Lavoris products was formerly Pidgeon, Savage & Lewis, Minneapolis. Previous agency for Vick product was BBDO.

- Also in advertising

  - John W. Shaw Adv. Inc., Chicago, has resigned Colgate-Palmolive Co.'s man's line (shave cream, after-shave lotion), effective May 7. The client billed an estimated $300,000, virtually all of which was allocated for Bill Stern sportscasts on MBS. The termination was by "mutual" agreement of agency and client, apparently precipitated on the distance factor involving Colgate in New York and Shaw in Chicago.

  - The subliminal-advertising satirical commercial for Butter-Nut coffee, which was judged the best animated tv commercial of 1958 by the Hollywood Ad Club (*Broadcasting*, Feb. 9) on Saturday (Feb. 14) was named best tv commercial of the year by the Art Directors Club of Los Angeles. Credits: agency, Buchanan - Thomas Adv., Omaha; producer, Fine Arts Production and Freberg Ltd.; art directors, John Wilson and Stan Freberg; artists, Chris Jenkyns; animation director, Bill Littlejohn.

  - Radio & Television Representatives Assn. of Atlanta has instituted a yearly award for the commercial produced by a southeastern agency that shows "the greatest sales effectiveness." Southeastern agencies may submit commercials to RTRA, 519 Glenn Bldg., Atlanta 3, Ga., before March 15. The entries can be filmed, taped, or live.

  - Chicago Broadcast Advertising Club has approved a recommendation of its special projects committee to establish a $1,000 scholarship fund for students majoring in the radio-tv-film department of Northwestern U.'s school of speech. The first grant was presented at BAC's monthly luncheon last Wednesday (Feb. 11) in the Sheraton Hotel to Prof. Charles F. Hunter, depart-ment director. The fund, designed to aid "worthy students in their education," will be a continuing grant, subject to annual review by BAC's board of directors.

(Broadcasting Advertising) 45
WGN-TV and WGN-RADIO continue to give Chicago audiences programs of top quality . . . presented with the integrity that is the WGN way of doing business.

The News Coverage described at the right is further evidence as to why WGN-TV and WGN-RADIO are gaining ever-widening, loyal audiences.
In December, a fire and explosion at Chicago’s Our Lady of the Angels parochial school took a grim toll of nearly one hundred lives. WGN, Inc. News Department’s comprehensive coverage was commended by city officials and the public alike.

**WGN-TV**

- First news cameraman at the scene of the fire
- Number 2 WGN-TV cameraman first at the hospital
- Bulletins on the air shortly after the fire broke out
- Exclusive SOF films shown during the evening with interviews
- Commentary from WGN-TV reporter who was on the scene
- Up-to-the-minute lists of dead and injured during the evening.

**WGN-RADIO**

- First on-the-scene radio bulletins from the WGN RADIO TRAFFICOPTER
- Policeman in TRAFFICOPTER helped direct traffic away from the scene via WGN-RADIO

SARNOFF FORECAST FOR '69

Tv to hit $3 billion in decade, he says in L.A. Meanwhile, hard selling needed

Television's advertising revenue circa 1969 will exceed $3 billion, NBC board chairman Robert W. Sarnoff prophesied in an address at the 36th annual installation banquet of the Los Angeles Chamber of Commerce last Thursday (Feb. 12).

Discussing population growth and economic expansion, he said that television, which has "established a unique rapport with the whole of America," will be depended upon to fulfill the "absolute need for reaching, informing and serving these mushrooming millions so that our government and our economy may function with reasonable cohesion."

Mr. Sarnoff gave a short-range forecast for both tv and radio earlier at a news conference.

Immediate Need • Six months of "hard selling" lie ahead for the tv networks, he told the conference in Los Angeles Wednesday morning. Commenting that television was the last to feel the recession and is also the last to benefit by the pickup, he said that there are a number of programs available for sponsoring. "It's not the cost per thousand that's keeping these shows unsold," he stated, but the "end dollar" shortage which a number of advertisers are currently experiencing.

Television has entered a new phase of all-year selling. Mr. Sarnoff stated, in place of concentrating most of its sales activity in the time preceding the opening of the new tv season each fall. "We can now look for program changes in January and April as well as October," he said. "The trend is toward short-term commitments and the day of firm 52-week program contracts is gone forever."

Asked about the radio outlook, the NBC board chairman admitted that "network radio hasn't seen the end of its troubles" but optimistically noted that in recent years NBC "has been able to reduce radio network losses systematically and has also been fairly successful in evolving new program formats and new selling patterns which have brought a new excitement to radio."

He called Monitor the most successful network radio innovation in years and expressed high hopes for NBC's upcoming "Stardust" programming which will debut shortly.

Forty-Hour Week • The next evening at the Chamber dinner, the NBC chief, who commented that the youth of his audience placed him in a role of elder statesman at 40, examined television's growth over its first decade plus. He said that its average weekly usage in the American home, which stood at 34 hours and 40 minutes five years ago, reached 37 hours and 40 minutes in 1958.

He added, "We are doing our best at NBC to get the nation's television sets on a 40-hour week."

Comparing tv's status 10 years ago with today, Mr. Sarnoff said the set count had increased from 1 million to 48 million, number of stations from 51 to 544 and advertising expenditures from less than $58 million to more than $1.3 billion (from about 1% of the total advertising dollar to 13.6%).

He said the public spends $4 billion a year for sets and maintenance, and that total investment in tv to date approaches $40 billion.

Mr. Sarnoff described the stimulating effect this has had on the overall economic situation, pushing the electronics industry from about $2.5 billion in 1947 to over $14 billion last year.

"Three out of four employees in the electronics industry work at jobs that did not exist 10 years ago. Four out of five dollars of RCA's sales last year came from products and services that were not even on the market just after World War II."

Tv's Contribution • In contemplating television's contribution to the rise of the gross national product over the past decade from $258 billion to $436 billion, he cited specific sponsors whose sales zoomed after tv exposure: Polaroid Land camera via NBC-TV, Revlon over rival CBS-TV. He mentioned a "flop" show Sully, once on his own network, which brought increased business for its sponsor despite ratings which put it far behind rival programs.

Mr. Sarnoff minimized the harm done

1958 TV NETWORK GROSS CLIMBS 10%

The tv networks' gross billing in 1958 was 9.8% better than 1957. A total of $566,590,401 in time charges was the final figure for last year.

The totals and breakdown of gross time charges of each network for 1958 were released last week by Television Bureau of Advertising. They were compiled by Leading National Advertisers and Broadcast Advertisers Reports.

Among the three networks CBS-TV was tops in billing. That network took in some $247.7 million, or 3.6% more than in 1957 and nearly $32 million more than rival NBC-TV. ABC-TV scored a 24% gain in 1958, while NBC-TV picked up 11.3% more in gross than it had in 1957.

Last December was the best billing month for the networks. ABC-TV and CBS-TV compiled record gross highs at respective levels of $10.4 million and $22.8 million, while NBC-TV's $20.6 million was nearly up to the level of its record billing volume which was achieved in October.

BROADCASTING, February 16, 1959
They said it couldn't be done. Not everyone. But a dubious few were candid. Precise. They said, "Sure, KSFO has a big audience. With the Giants' baseball games, who wouldn't!"/And they added, emphatically, "Wait 'til after baseball. Plunk. Back to third place."/So much for the forecasts that were rife during baseball season. Has KSFO gone plunk? It has not. /The latest Pulse survey is out. There's not a trace of baseball in it. KSFO is still firmly first in the San Francisco-Oakland market. What's more, KSFO has a full 25% more audience than it did one year ago. /For all of the facts, why not sit down with a representative of KSFO or AM Radio Sales. The drinks are on us.

Source: Pulse, November-December 1958. Or, if you prefer: first in the latest Nielsen Station Index, November-December 1958 — morning, afternoon, evening, weekends — everywhere!

KSFO
SAN FRANCISCO • OAKLAND
Big news from WCAU-TV!
Share of audience up
a big 30% since August!

Get this: in prime evening
time, audiences 16% greater
than the second station!

More adult audience
than any other station!

The Late News? 22.3
rating—157% bigger than
any other late news!

And chief, one movie set an all-time, late-evening record in Philadelphia...

Early Show ratings up 286% since August. Late Show up 161%.

Got a 31.4 rating, 73% share of audience. That's right—73%!

My dear, that's exactly what I've been saying... I know, such wonderful programs... di-vine, aren't they... Fred is absolutely glued to the newscasts... I can't get a word in edgewise when he's watching... of course as for me— I adore those movies... no wonder everyone, simm- ply everyone, is looking at Channel 10!

Easy to see why more program advertisers are using **WCAU-TV** than any other Philadelphia station.

CBS Owned • Represented by
CBS Television Spot Sales
by tv to other media except network radio. He showed how tv has been a help to print and motion pictures, despite apprehension on their part.

The speaker climaxed his talk with a series of forecasts of what awaits television and the nation 10 years hence. Attributed to NBC's planning and research dept., they are:

U.S. population increase from 176 million now to almost 210 million; rise of gross national product from $436 billion to about $675 billion; present level of 44 million homes with total of 49 million tv sets will be up to 58 million homes with nearly 70 million sets, mostly color; total advertising expenditures, now $10.1 billion will reach approximately $15 billion, with tv's share rising from 13.6% to more than 20%, i.e. over $3 billion per year; 1969 set models will include transistorized portables with three-inch screens and for the home a thin, flat screen that can be hung on the wall for which one can tape record shows for later playback; international tv will be routine and college educations may be obtainable almost entirely through television.

**KYW strike settled**

KYW-AM-TV Cleveland, Westinghouse Broadcasting Co. outlets, and the local AFTRA settled a three-day strike Feb. 10. Twenty-four union members were on strike. Members of National Assn. of Broadcast Employees & Technicians, IATSE and Radio-Television Directors Guild refused to work during the AFTRA strike.

The settlement included a three-year contract, effective last Nov. 15, with $5 weekly increases effective Nov. 15, 1958, 1959 and 1960, making base pay for newsmen and announcers in the top bracket $145 until next November. In two years newsmen will receive the same basic pay as announcers. Starting pay was raised from $85 to $95. A local videotape rate was adopted—$85 for a wild spot or unlimited use for 13-week period. Program spot rate for vtr is $130.

The stations maintained full programming with the aid of supervisory personnel flown in from other WBC outlets.

**WTIC building**

Travelers Broadcasting Service Corp. (WTIC-AM-FM-TV Hartford) is investing more than $2 million in a building to house its properties, Paul W. Morency, president, announces. The building, occupying a 25,000 sq. ft. site at the northwest corner of State and Front Sts., will contain about 50,000 sq. ft of floor space. TBSC hopes to get construction started this fall and take occupancy in the fall of 1960.

---

### NEW ‘FIRST’ CLAIM

**KCBS predecessor began in 1909—Greb**

Another claim to the honor of the “first” broadcasting station was entered Sunday (Feb. 15) on behalf of KCBS San Francisco, in an article in the current issue of the Journal of Broadcasting, Technical Journal of Broadcast Educators. KCBS now is owned and operated by CBS Inc.

Writing in the U. of Southern California publication, Gordon E. Greb states, “Notwithstanding the many claims to ‘first broadcasting’ . . . there is considerable evidence supporting a California station’s claim as being the granddaddy of them all because of its 50th birthday this year.”

To support his thesis, Mr. Greb utilizes personal papers of the station’s founder, Charles David Herrold; conversations with his contemporaries, and a speech by radio pioneer, Dr. Lee De Forest.

According to Mr. Greb, Mr. Herrold opened his radio school in San Jose’s Garden City Bank Bldg. Jan. 1, 1909. “From the first, broadcasts were a part of my routine,” Prof. Herrold wrote in a letter to Lee De Forest in 1940. “In spite of continual changes in apparatus there was always music of some sort coming from my station.”

These first “broadcasts” were more than three years before Congress enacted the Radio Act of 1912. The radio law then required licenses and call letters from “voice” transmitters. Prior to this time, Mr. Herrold’s operators simply announced, “This is San Jose calling” and went into their news and music.

The article states that early in experimental stages, the call FN was used. Experimental land licenses 6XE and 6XF preceded the call SIN which was first used in 1913. And, in 1921, when licenses were first issued under the classification of broadcasting, the San Jose station became KQW. Later it moved to San Francisco and in 1949 the call letters were changed to KCBS.

In 1948, Mr. Herrold, who was a classmate of Herbert Hoover at Stanford U., died at the age of 72.

Ray Newby, Mr. Herrold’s assistant and an instructor in his school, when interviewed recently by Mr. Greb, stated the station early in its operation went on a pre-arranged schedule so “we would have listeners that could report to us.” At first the schedule was a half-hour every Wednesday evening on which news, records and voice were broadcast for a half-hour and sometimes longer “if the microphones and

**Charles David Herrold's station: 1913** Sometimes heard by ships at sea for 900 miles, the old “spark” station is here shown being operated by Mr. Herrold (c in door) who watches his assistants at work. Operator Emile A. Portal (front, l) and Kenneth Sanders (rear, l) performed announcing as well as technical duties. Frank Schmidt (r), mechanic, kept the transmitter tuned when on the air.

**Broadcasting, February 16, 1959**
what is a mutual life insurance company?

Sometimes a phrase becomes so familiar its significance is forgotten. For example, the phrase “mutual life insurance” has become so much a part of America's vocabulary, its meaning may not be as well understood now as it was a hundred years ago or more.

Actually, it is a term applied to a group of people banded together to provide greater financial security for themselves and their families. They do this by insuring the lives of one another at cost, through a company that is incorporated and operated solely for their benefit. In such an organization, the policyholders make periodic “deposits,” called premiums. Each year, after all benefits have been paid, all expenses met, and funds have been set aside for reserves and future contingencies, any excess is refunded to the policyholders as a “dividend.” This dividend operates as a cost adjustment and not as an investment return. Thus, unlike most other corporations, there are no profits payable to stockholders, because there are no profits and there are no stockholders.

Is this something new? Not quite. Mutual Of New York issued its first policy in 1843. Its charter has been called, “the magna carta of American insurance.” Today MONY has well over a million policyholders, protecting themselves and their families through MONY's group insurance plans, accident and sickness coverages, and the traditional forms of life insurance. But MONY's basic idea — individuals banded together for mutual security — has remained unchanged since we first put it into practice more than a century ago.

MONY TODAY MEANS MONEY TOMORROW!

BROADCASTING, February 16, 1959
everything didn’t get too hot.” Later, the station went on a daily schedule.

Mr. Greb writes that Mrs. Sybil M. True, Mr. Herrold’s first wife, told him the station aired records borrowed from a local store, directed to teenage amateur set operators. She said “They would run down the next day to be sure to buy the one they heard on the radio... We would ask them to come in, and sign their names.” And, unintentionally laying claim to radio’s first giveaway program, she added, “And we would give a prize away each week.”

The Panama Pacific Exposition in San Francisco in 1915 gave Mr. Herrold an opportunity to demonstrate his arc system of broadcasting, a system which operated on the same principles that cause streetlamp arcs to hum and sing. Mr. Herrold’s programs were picked up by receivers at a government booth at the world’s fair, and when Dr. De Forest found his tube-transmitter would not work, he tuned in Mr. Herrold’s San Jose station to demonstrate his own receiving set.

To conclude substantiation of his claim, Mr. Greb cites a 1940 incident at the San Francisco World’s Fair. Dr. De Forset, in an address to the Veteran Wireless Operators Assn. on “Lee De Forest Day” said, “Very appropriately, the re-birth of my earliest broadcasting began here on the Pacific Coast when... station KQW at San Jose maintained regular transmissions... That station, KQW [now KCBS], can rightfully claim to be the oldest broadcasting station of the entire world...”

Another honor will be bestowed on Mr. Herrold on April 3, 1959, at the site of his old “spark” transmitter, when the San Jose State College undergradate chapter of Sigma Delta Chi, professional journalistic fraternity, places a historic marker on the Garden City Bank Bldg. stating that it was here that the “World’s First Regular Broadcasting Station” had its beginning.

**AFM, WGN-AM-TV sign**

A new four-year contract has been negotiated by WGN-AM-TV Chicago with American Federation of Musicians, Local 10, retroactive to Feb. 1. Under the agreement, the Tribune radio-tv operations obtained a reduction in minimum quota from 35 to 18 members plus a director until Feb. 1, 1963.

Among other terms, AFM agreed to a scale of $142 weekly per musician (sustaining and commercial), with provision for a 5% salary boost in the third and fourth years. The scale under the previous five-year pact ending Jan. 31 called for $197 for sustaining and $247 for commercial performances. The new agreement excludes record-spinners, music librarians and arrangers.

**Bring your clubs**

Broadcast golfers will compete March 15 at Chicago for the Broadcasting trophies to be awarded during the annual NAB convention tournament. Trophies will be awarded for low gross and net (blind bogey handicaps). Other prizes will be awarded by Chicago broadcast groups, with a minimum of nine holes required to qualify for prizes. The tournament will be held at the Midwestern Golf Club, Hinsdale, Ill., starting at 10 a.m. Buses will leave from the south entrance of the Conrad Hilton Hotel at 9 a.m. Advance entries may be made at any Broadcasting office.

**Mobile local wins**

A Mobile, Ala., local union has been certified as technicians’ bargaining agent at WKRG-AM-TV there following an election Jan. 28. John F. Lebus, New Orleans, National Labor Relations Board regional director, announced the vote was 16 to 1 in favor of the local union. Two technicians did not vote.

Technicians at the stations had been represented by IBEW up to July 16, 1957, when IBEW was decertified in an election. IBEW has ceased its picketing activity.

Following the decertification of IBEW at WKRG-AM-TV, the union used economic pressures against the stations by contacting advertisers, agencies and other union groups in Mobile. An examiner of NLRB held Aug. 25 in a recommendation to the board that the union was within the law in its picketing and economic pressure (Broadcasting, Sept. 1, 1958). NLRB has not yet ruled on the examiner’s finding.

IBEW currently is conducting negotiations with WALA-AM-TV Mobile for renewal of their contract, which expired recently.

**NAB files vtr brief**

Tv performers employed by stations should be excluded by National Labor Relations Board in its consideration of the AFL-CIO American Federation of Television & Radio Artists petition seeking jurisdiction over vtr commercials, NAB contended in a brief filed Tuesday with the board. NAB said AFTRA’s petition against BBDO contains no limitation by employer, thus including performers employed by tv stations wherever located. AFTRA’s petition was filed March 17, 1958. Hearings were held during the autumn. NAB participated as an observer.
To satisfy the most discriminating fidelity enthusiast... to provide a true sound for the ultimate enjoyment of the listener... these are the basic desires of the FM broadcaster. And enhancing this sound of high fidelity is the primary characteristic of the new Gates FM transmitter line.

Five distinctive and entirely new FM transmitters, 10 and 50 watts, 250 watts, 1000 and 5000 watts, are now available from Gates. These top-quality precision transmitters, built for greater reliability and higher than ever performance standards, include self-contained single or dual channel multiplexing equipment as an optional accessory.

Technical bulletins on the new Gates FM line are now available, telling the complete story of a new design for long tube life, much lower distortion at wider response, the creation of an entirely new exciter employing pulse techniques in phase modulation, and many other outstanding features that make this a distinguished line of FM transmitters. Write today for the new Gates FM Fact File—yours for the asking.

Changing hands

ANNOUNCED • The following sale of station interests was announced last week, subject to FCC approval:

• WCUM-AM-FM Cumberland, Md.: Sold to Allegany County Broadcasting Corp. (Holli S. Seavey and wife) by Tower Realty Co. (Karl F. Steinmann), for $125,000. Mr. Seavey is director, Clear Channel Broadcasting Service and former MBS Washington news chief. The sale was handled by Blackburn & Co. WCUM is on 1230 kc with 250 w and is affiliated with CBS. WCUM-FM is on 102.9 mc with 1.25 kw.

APPROVED • The following transfer of station interests was approved by the FCC last week (also see FOR THE RECORD, page 96):

• WTRX-AM-FM Bellaire, Ohio: Sold to Ohio Valley Broadcasting Corp. (Frederic Gregg Jr., Charles H. Wright and Charles F. King) by WTRX Inc. (Walter Patterson-Robert K. Richards) for $117,000. Mr. Gregg owns WCMI-AM-FM Ashland, Ky. WTRX is on 1290 kc with 1 kw, day, affiliated with MBS. WTRX-FM is on 100.5 mc, 9 kw.

Treyz gets in licks in tv-print battle

By now Fortune magazine’s anti-tv attack “can be regarded as the article that failed to understand television” and was merely further evidence of print jumping on “the pay television bandwagon,” Oliver Treyz, ABC-TV president, asserted last week.

He offered his own rebuttal to Fortune’s “Tv: The Light That Failed” piece in an address before the Chicago Broadcast Advertising Club Wednesday (Feb. 11). He spoke before a capacity audience, including top executives from several leading advertisers (Armour & Co., Swift & Co., Kraft Foods, Mars Inc., etc.).

Mr. Treyz also countered a talk by Vernon C. Myers, publisher of Look magazine, who held that the cost of tv advertising could be reduced and pave the way for an audit bureau of television based on paid circulation if the audience paid for programming as it pays for magazines (BROADCASTING Feb. 2). Mr. Treyz cited Mr. Myers’ contention that in 1958 readers paid over $500 million for magazines and advertisers paid $750 million—or a ratio of 66 cents to every dollar invested by advertisers.

“I think that perhaps his argument might have been strengthened if he had added the $250 million the people pay paid $300,000 down and balance on favorable terms which can be negotiated.

This is a real buy that rarely comes along in a top market.
THAT’S A HORSE COLLAR, SON! It’s a relic now — but only a generation ago a farmer and his horse had to work hard for days to do what even a boy, with modern machines, can do in hours. Petroleum not only fuels and lubricates the farm trucks and machinery, but it provides new rubber products — rust preventives, fungicides, pest and weed killers. On the farm, in the home, on the highway, in the sky, everywhere you go, everyday miracles of oil make the world a pleasanter place.

Helping to build a better future... Standard Oil Company (New Jersey) Esso

[One of a series of messages appearing monthly in newspapers from Maine to Louisiana—the area served by Esso Standard Oil Company.]
[Other Jersey Standard affiliates and their distributors market elsewhere in the United States and 134 other countries and dependencies.]
in taxes to make up the post office second class mail deficit, most of which is attributable to delivery of magazine subscriptions at bargain rates," Mr. Treyz declared.

Tv audiences paid over $1 billion for sets, another estimated $2 billion for repairs and installation work and $300 million for tv set electricity last year, he added. And advertisers invested $1,360 billion in television advertising—or a dollar for every $2.46 spent by the audience.

The Fortune article, Mr. Treyz suggested, was more a matter of misunderstanding "the fundamentals of tv" than any malice reflected in a "hatchet job."

"The publishers of the leading print media against whom we compete for advertising dollars and on whom we rely for accurate and fair treatment of television do not appear to know and/or to understand the fundamentals of tv as they now exist and we must help them understand," Mr. Treyz stated. But, he cautioned, "We must understand ourselves, particularly when the fundamentals have recently changed."

The days when "a weak program on a strong network would win out over a strong program on a weak network are over," Mr. Treyz indicated. Reviewing ABC-TV's growth, he pointed out that facilities of all three networks (including CBS-TV and NBC-TV) are "close to comparable."

Rutgers air study
The Eagleton Foundation of Rutgers U., New Brunswick, N.J., last week announced plans for a study designed to improve the quality of political broadcasts. A bipartisan industry committee to explore the problems of political broadcasts was recommended following a meeting of radio-tv and foundation officials.

Paul Tillett, assistant Eagleton director, requested that stations throughout the country submit tapes, films and kinescopes of political broadcasts during the 1958 campaign for study. Meeting last week with foundation officials were Arnold Snyder, ABC News, Everett Rudoff, WLK Asbury Park, N.J., Fred Walker, WTTM Trenton, N.J., and Ralf Brent, WIP Philadelphia vice president.

Mr. Brent urged broadcasters to take the initiative in assuming responsibility for political programs by producing and controlling them.

Black Tuesday in St. Louis
Radio-tv stations rolled with the punch of the killer tornado that smashed into St. Louis last Tuesday morning (Feb. 11) to give their listeners up-to-the-minute news coverage.

Two stations—KTVI (TV) St. Louis and KXLO Brentwood—were forced off the air when winds up to 110 miles an hour flattened their transmitting towers. KTVI, which estimates its damages at approximately $200,000, was back on the air at 4 p.m. Tuesday with a temporary tower to replace a demolished 577-foot structure.

Harry Tenenbaum, KTVI president, reported Friday (Feb. 13) that General Electric had flown in from Syracuse a duplicate four-bay antenna replacement. Two engineers were on hand to supervise installation with prospects that the ch. 2 ABC affiliate would return to its full 100 kw input by the weekend. The antenna will be mounted on the 125 ft. tower base which survived the tornado.

Here's what individual stations reported last week to Broadcasting:

KXLO resumed broadcasting even more quickly, signing on at 2:20 that afternoon about 12 hours after the tornado struck. Damages to its 385-foot tower will run to about $14,000, station officials figure, with additional losses running into the thousands.

The speed and determination of St. Louis newscasters were demonstrated by stricken KTVI which presented a special 15-minute newscast Tuesday evening at 6, less than two hours after it had resumed telecasting.

At sunrise "black Tuesday," KWK St. Louis sent its flying newscaster, Ken Daust, aloft beginning a 3/2 hour series of reports from his Cessna 172 over disaster areas.

A special program entitled, "Tornado of St. Louis" was shown over KMOX TV St. Louis Wednesday (Feb. 11) from 6:30-7 p.m. Prepared by news director Spencer Allen, the show presented civil officials, including the mayor, who discussed the disaster and concerted efforts by the fire and police departments, the Red Cross and other organizations to help the stricken. The station has received $10,000 in checks, it reports, including one for $1,000 sent after its special program, which included film footage of disaster areas taken that afternoon.

KMOX broadcast a 24-hour show, "Operation Tornado Relief," from 3 p.m. Tuesday through 5 p.m. Wednesday with General Manager Robert Hyland suspending all network and other local shows. The "reliefathon" drew pledges of approximately $50,000.

Although off the air when the storm hit, KSD signed on an hour earlier at 4:50 a.m. KSD-TV's mobile unit went to one of the hardest hit areas and presented a live telecast at 8:20 a.m. while rescue crews were still digging in wreckage for buried victims.

NBC-TV's Today carried filmed footage of the disaster Tuesday at 8:30 a.m., followed by live coverage from KSD-TV's mobile unit at 9:30 a.m.

An around-the-clock news alert paid off for WIL St. Louis and listeners Tuesday morning when the station reported the facts of the tornado within eight minutes of its first blow, according to WIL. Within 45 minutes, five WIL mobile units were covering various disaster areas, and during the first three hours, WIL had made 60 news feeds to stations from Chicago to Los Angeles.

KXOK St. Louis played its part with on-the-spot coverage by a mobile unit whose reports were telephoned to "25 key stations across the nation," the station reports.
an open letter

to the men who still dream dreams and hope hopes...

FROM: Lee Gorman

In an era and period when mediocrity is a way of life; in a time and temper that threatens to wipe out all the colors—leaving only white; in an age when the mood and mind of man is to turn from the challenge and the task, a lion is loose in the streets.

Made in a mold that has long since been broken, nurtured against a backdrop that has long since been destroyed is a man who, after 37 years of scarring and being scarred, is ready for his next assignment.

Somewhere there is someone who has a hill to climb or a river to cross—a high hill or a wide river. This, then, is your man.

Here is a man who conceived and created, fashioned and formed a state-wide network from the framework of one station with 11 employees and a yearly gross of $84,000. That network now employs 131 people and will gross $1,500,000 this year.

Here is a born professional salesman (and proud of it) that knows every phase and facet of our industry—and at every level. The New York Herald Tribune named him “Man-of-the-Year” in 1955. The American Heritage Foundation honored him in 1956. Yes, here’s a man who ran the 7th most popular (ARB) TV Station in the nation and its 3rd most popular (PULSE) Radio Station.

Beyond this, here indeed is one of the last of the great salesmen; a man who willingly and openly loves to be in target range—and in anyone’s business nowadays them kind of people is pretty hard to come by.

One of the most respected philosophers of the century wrote: “There is no doubt that the most radical division that is possible to make of humanity is that which splits it into two classes of creatures: those who make great demands on themselves, piling up difficulties and duties; and those who demand nothing special of themselves, but for whom to live is to be every moment what they already are; mere buoys that float on the waves.”

If you have some really unusual difficulties or if you wish to assign a mountain of duties or if you have some great desires and goals (and, yes, dreams and hopes) this is your man—and, most importantly, he can do the job.

RTNDA help in Cuba

Radio Television News Directors Assn., concerned over criticism of radio-tv coverage of Cuba's war crime trials, has offered its services to Fidel Castro, head of the new government. Ralph Renick, WTVJ (TV) Miami, Fla., news director and RTNDA president, wired Castro that RTNDA would help arrange radio-tv coverage of future trials so coverage will be unobtrusive and will not lend a circus atmosphere to courtrooms.

Another development in court coverage centered around a bipartisan bill introduced in the Pennsylvania House of Representatives. This bill would put radio and tv newsmen in the same category as newspaper and wire service reporters in protection of news sources. A 1937 law provides protection for newspaper and press service reporters.

- Rep appointments
  - WTMA Charleston, S.C., names the Brannam Co., N.Y., as its national representative.
  - KAKC Tulsa, Okla., and WTVC-TV Chattanooga, Tenn., have appointed Adam Young Inc., N.Y., as their national representative.

- Media reports
  - CBS Inc. Wednesday (Feb. 11) declared a first quarter cash dividend of 30 cents per share on common stock, payable Mar. 13, to stockholders of record at close of business on Feb. 27.
  - NBC will host student journalists from 500 New York area high schools at an all-day seminar—the "First Annual NBC Broadcast News Conference For High School Editors"—next Friday (Feb. 20). NBC Board Chairman Robert W. Saroff, in an address to the group, will explain plans for an "NBC Working Fellowship," to be awarded annually. During the conference students will interview the network's foreign correspondents over a live international hook-up.
  - Sen. Ernest Gruening (D-Alaska) will address 50 state winners of the Voice of Democracy contest in Washington Feb. 25 when the high school students wind up a four-day tour as guests of NAB and Electronic Industries Assn. The top winner will be awarded a $1,500 scholarship. Three other finalists will be offered $500 scholarships to the U. of Missouri School of Journalism. Veterans of Foreign Wars cooperates in the contest.
  - Philadelphia will be the site of the 11th sales office of John Blair & Co., radio station representatives. The new area office begins operation March 2, with Henry G. Chadwick as manager. Mr. Chadwick has been sales representative for WIP Philadelphia since 1956.
  - U. of Missouri, owner of commercial KOMU-TV Columbia, has installed closed-circuit tv equipment. The installation, known as KMIT-TV, telecasts classes in addition to those carried on KOMU-TV.
  - WICB-TV, Ithaca (N.Y.) College closed-circuit campus station, has been informed by New York Telephone Co. that it may not use the facilities of Ithaca's community tv cable after June 30. The college station feeds programming into the community cable system for 3 1/2 to 5 hours a week.
  - WABG Greenwood and WKOZ Kosciusko, both Mississippi, have rejoined ABC Radio after several years of independent operation. WABG is 1 kw-D and 500 w-N on 960 kc. WKOZ is on 1350 kc with 5 kw.
  - Boston U.'s School of Public Relations & Communications will award several scholarships in communications arts, journalism and public relations in the 1959-60 academic year. Information may be obtained from Dean Melvin Brodshaw at the university, 640 Commonwealth Ave., Boston 15.
  - KMTV (TV) Omaha, Neb., at televised dinner Feb. 12 honored local civic leaders who made effective use of television in public service projects during 1958. KMTV's selection of person who was most outstanding in use of tv for public service was to receive station's first annual award for individual contribution.
  - KRON-FM San Francisco is resuming broadcasting today (Feb. 16) after being off the air for four years, operating 5 p.m.-midnight with 13.5 kw ERP on 96.5 mc, every day but Sunday. Harold P. See, general manager of KRON-FM, said the station is preparing for multiplexing operations.
  - KBIQ (FM) Los Angeles was scheduled to commence regular programming yesterday (Feb. 15). Station, owned by John Poole Broadcasting Co., is on 104.3 mc with 55 kw.
OUT OF VAULT, INTO LIMELIGHT

For years the Three Stooges couldn't get a play date; now their films are on tv and they have $350,000 in bookings

Once upon a time, "The Three Stooges," Moe, Curly and Larry, made two-reel comedies for Columbia Pictures—eight or nine of them a year—and it was a good living.

Then came television.

Before long a lot of movie houses were closing. In the bigger cities surviving houses were running double bills, and there wasn't room for two-reelers. The Stooges were still making them for Columbia because they had a contract, but some of the shorts were just going on the shelf, and others got most of their exposure in small town theatres. Lots of people had begun to forget the Stooges.

Then came television.

Last spring Columbia told Screen Gems, its tv subsidiary, to release 78 Stooges as a package. They went on the air beginning last September and started to "catch fire," in November, SG officials relate. These were the subsequent developments:

- The package has been sold in 75 markets (largely in major cities) and is virtually sold out in each. It is usually programmed across-the-board with a local format built around the comedies. Screen Gems reports ratings have been "phenomenal," putting the Stooges in first place for their time period in many markets. These examples are cited as typical: WGN-TV, Chicago opened in October with a 3.3 ARB, went up to 10.7 in November, up to 19.0 in December; WPPIX-TV, New York opened with 2.4 in October, up to 11.3 in November and 15.1 in December; KFIZ-TV, Dallas-Ft. Worth had 6.7 in October, 11.5 in November, 19.9 in December.

- Bookings for the team at theatres, auditoriums and night clubs have skyrocketed, with dates already set through the end of June. The clubs are adding matinees to accommodate the children, as well as setting aside the evening's first show for them. The kids, of course, bring their parents, who bring, money. One club reported that it sold four tons of hamburger during the Stooges' engagement.

- Coral Records will issue the team's routines on a long-playing album.

- The Stooges have been booked on network TV, including the Steve Allen Show twice, and on Masquerade Party.

- Theatres are interested again. Bookings for the two-reelers have increased 200% since the TV series started.

- Columbia, which ended its contract with the Stooges at the end of 1957, is negotiating for a new series produced especially for tv. The team's agent is negotiating with several producers for a feature-length parody on "The Three Musketeers."

- Based on current bookings projected for 1959, the team expects to gross $350,000 this year, as compared with an average $80,000 annually for the past 10. Not one dime comes from the two-reelers themselves. Those on the market now are all pre-1948, and the Stooges have no ownership interest in them.

Moe Howard, the "mouthpiece" for the team, reminisced with Broadcasting last week about the group's 35-year career in burlesque, vaudeville, night clubs ("we hated them"), motion pictures and new television. Mr. Howard, the "belligerent bully" in the act, is, off-screen, warm, friendly and obviously business-wise.

Asked if he didn't regret seeing Columbia getting all the money out of the reruns, he recounted a family business axiom: "My mother, bless her, was a successful real estate operator. She left me with this thought that I've always remembered: 'If you want to make a success in business, always leave room for profit for the other man.'"

This is not to say that the Stooges are adverse to making money. Moe tried to buy the shorts from Columbia himself back in 1954, but recalls that his $1.25 million bid was "laughed out of the office." Failing that, he urged Columbia for years to make the tv release, but now concedes that Columbia's sense of timing was much the better. The films were saved until other children's reruns had run out their initial popularity.

Moe Howard and Larry Fine have been two of the Stooges since 1925. There have been other members of the troupe, including Moe's two brothers, Sam ("Shemp") and Jerry ("Curly"), both now dead. Joe De Rita, a long-time actor, joined the troupe in "Curly's" old role, but naturally does not appear in any of the two-reelers now playing tv.

Warner, Filmways set pact for facilities

Warner Bros. Pictures Inc., Burbank, Calif., and Filmways Inc., New York, last week announced they have entered into an agreement whereby Filmways may use Warner's West Coast facilities for production of tv film commercials and industrial films. Warner will use

Filmway's New York studios for similar productions. Company officials said the move will lead to increased production, flexibility and economy.

Filmways produces tv film commercials and a variety of non-theatrical films and is active in tape. The company is expanding its facilities in New York by remodeling an upper Manhattan building to house two studios. Warner is active in tv films and industrial motion pictures through its subsidiary, WB/TV Commercial & Industrial Films Inc.

Baseball suit cites radio-tv

Testimony was scheduled to be resumed in New York Federal District Court last Friday (Feb. 13) in a $250,000 damage suit brought against the 16 major league baseball clubs and Commissioner Ford C. Frick by Frank D. Lawrence, president of the defunct Portsmouth (Va.) club of the Class D Piedmont League. Mr. Lawrence sued because he claimed his club suffered a loss of gate receipts resulting from radio-tv broadcasts of major league games into his area in violation of alleged safeguards.

Messrs. Frick and Lawrence testified Tuesday and Wednesday. The proceedings were deferred until Monday of this week because of Frick's birthday.

Mr. Frick testified that he could not help solve the problem of major league radio-tv "invasion" of minor league territory for fear of causing anti-trust action against baseball.

Cites Agreement * Mr. Lawrence told the court that the broadcasting of major league games into minor league areas violated rule 1-A of the major-minor league agreement prohibiting "any appropriation" of territory by one club of that of another for a distance of 50 miles. His attorneys submitted affidavits designed to show the club's financial losses.

The suit was initiated by Mr. Lawrence in November 1954 and covers the years 1949-54. The Piedmont Club continued to operate through the 1955 season.

WBC news expansion

Westinghouse Broadcasting Co. has announced plans for a European news bureau early this spring. Headquartered in London, with correspondents probably in Paris and Rome and stringers throughout the continent, the emphasis at least for the first year will be on radio coverage. Some work, however, is expected to be done on tv documentaries.

Two years ago WBC set up a Washington bureau under Rod MacLeish, for the company's individual stations. Mr. MacLeish will lead the WBC force in

Lincoln busts  * These heads of Lincoln, commissioned by BMI for art work with a series of radio scripts prepared for distribution this year, were sculptured by (1) Dr. Avard Fairbanks. Among those at the unveiling in the Archives Bldg., Washington, Feb. 9 were (c) Sen. John Sherman Cooper (R-Ky.), and Carl Haverlin, BMI president. Two other busts, depicting Abraham Lincoln at different ages, will be sculptured by Dr. Fairbanks. The four figures will be presented to the Federal government.

The BMI Lincoln programs are part of The American Story, which this year offers 60 scripts based on the title "The Abraham Lincoln Story, 1809-1959" and prepared by leading Lincoln and Civil War scholars. The programs, begun in 1954 as a joint project of BMI and the Society of American Historians, are being made available to radio and tv stations.

Feature movie ratings on increase—MCA-TV

Are feature films still holding tv audiences in competition with other programming fare?

The MCA-TV research department last week released the results of a survey of ARB ratings earned by its Paramount Pictures' features during 1958-59, compared with ratings recorded by the same stations at identical times a year ago. MCA-TV's conclusion: "In every case, the 1958-59 rating, with Paramount features, far out-strips each stations' figures of the previous year."

Shares of audience ranging from 50% to more than 80% have been recorded by many of the Paramount features, according to MCA-TV. They point cited these examples: a 28.1 ARB and 65.4% share of audience with "For Whom The Bell Tolls" over WTCN-TV Minneapolis on Dec. 6, 1958, as compared with 6.6 and 20.4% share of audience for the same time and date in 1957; a 24.8 and 52.4% share with "Little Miss Marker" over WCAU-TV Philadelphia on Jan. 5, 1959, as against 7.3 and 17.0% share in 1958, and a 15.2 and 62.8% share with "Road to Morocco" over KNXT (TV) Los Angeles on Jan. 5, 1959, against a 4.7 and 24.2% share in 1958.

"These examples are not isolated ones," Lou Friedland, MCA-TV vice president in charge of station sales, reported. "The large majority of stations obtain a 50% share of audience or more with high quality feature films. I think our study re-establishes the fact that top feature films are still rating 'block-busters' and proves they are as popular as ever."

WHEN you gotta get the show on the road...

SHIP BY
GREYHOUND
PACKAGE EXPRESS

IT'S THERE IN HOURS...
AND COSTS YOU LESS!

Your packages go anywhere Greyhound goes... and Greyhound goes over a million miles a day! That means faster, more direct service to more areas, including many, many places not reached by other public transportation.

What's more, Greyhound Package Express offers this service seven days a week... twenty-four hours a day... even on week-ends and holidays! Packages get the same care and consideration as Greyhound passengers... riding on dependable Greyhound buses on their regular runs. And you can send C.O.D., Collect, Prepaid—or open a Charge Account.

So remember—anything from reels to records can be sent Greyhound Package Express.

Call your nearest Greyhound bus station or write to Greyhound, Dept. 82, 5600 Jarvis Ave., Chicago, Ill.
AMPEX PUTS VTR ON WHEELS

Demonstration cruiser on six-week tour

Advertising agencies, TV stations and networks, film producers and processors, educators and representatives of government, industry and business were among those witnessing demonstrations of the new Ampex Videotape Cruiser last Thursday (Feb. 12) at the Desilu Studios in Hollywood. A converted Flexible Co. bus, the cruiser houses a regular VR-1000 videotape recorder, two TV camera chains and a self-contained power source that permits the taping while in motion.

Such shots, taped from a zoom-lens equipped camera mounted atop the cruiser and showing a trip to Boulder Dam, Las Vegas at night and a fire in the Hollywood Hills, were shown during the demonstrations. Also included were sequences from two TV pilot programs taped in Las Vegas for Jonathan Yost as well as the opening of the Atomic Submarine pilot previously taped for this producer (Broadcasting, Dec. 22, 1958).

The Las Vegas pilots are for a daytime series, Lunch in Las Vegas, with Bill Moore as master of ceremonies, and Out of the West, featuring top entertainers who are appearing in the resort city, with Del Moore as m.c.

Bob Day, Ampex manager of video promotion, conducted the demonstration, one of a series which will take the cruiser through the Southwest from Los Angeles to New Orleans. From New Orleans March 3, the bus will go to Nashville March 9, then to Chicago for the NAB Convention.

The Ampex Videotape Cruiser was first demonstrated Jan. 28 at Yuma, Ariz., when it was used to tape an industrial program for Ford Motor Co., showing Ford tractors. The tape was shown Feb. 3 to Ford tractor dealers and salesmen via NBC-TV closed-circuit. A repeat showing is being arranged.

Mr. Day made it plain that in these showings and tests, Ampex is just demonstrating its new mobile unit and has no plans to compete with its customers, broadcasters and producers, in offering taping services.

Ampex last week announced the shipment of a color videotape recorder to NBC New York, and of monochrome VTRs to KCFF-TV St. Louis; WGR-TV Buffalo; KTTV (TV) Los Angeles; KWH-TV Los Angeles; WLS-TV Chicago; WOR-TV New York; WRAL-TV Raleigh; WRD-TV Roanoke, Va.; WRVA-TV Richmond, Va.; WTVAE-TV Pittsburgh; KHTV (TV) Springfield, Mo.; WBBM-TV Chicago; WEWS-TV Cleveland; ABC and CBS Hollywood; KONO-TV San Antonio; Minnesota Mining & Mfg. Corp., Hutchinson, Minn.; ORRadio, Opelika, Ala.; Sakata Shokai, Kobe, Japan; Rank Cintel, London, England; Berlin Distributors, Paris, France.

New NBC tape center

NBC Telesales Dept. has established a new teletape center completely equipped for modern videotape production, it was announced last week by Robert L. Stone, network vice president, facilities operations. Located at NBC-TV’s redesigned studios, 67th St. and Columbus Ave., New York, it will be for videotaping commercials, plus originating special closed-circuit programs and kinescoping for sales training and promotion.

AFM TV film fee goes to N.Y. court

Republic Pictures’ $6 million suit against the American Federation of Musicians over allegedly “forced” residual contracts for films TVifies” appears headed for full litigation. A spokesman for Republic Pictures said last week that he expects the trial to begin by “the end of the year” in New York Supreme Court. The final legal barrier was removed Feb. 3 when the appellate division of the New York Supreme Court affirmed the ruling of the lower court that Republic had shown “sufficient evidence” to establish its right to a full trial on the issue. AFM counsel asked for a summary judgment but the court rejected this motion. In essence, an AFM spokes- man explained, the union’s motion called on the court to stop the action because AFM affidavits “proved” that the issue did not merit a trial.

The suit was brought on behalf of Republic Pictures, Republic Productions and its TV subsidiary, Hollywood Television Services. It charges that Republic, along with other film producers-distributors, was “coerced” into signing an agreement in April 1946, whereby
AFM musicians would be repaid for original services for theatrical films sold to TV, and an added 5% contribution of total revenue would be made to the Music Performance Trust Fund. Republic contended that union musicians were not permitted to work for any producer until this agreement was signed, and further claimed that this condition was imposed by AFM before 1946, 1948, 1952, 1955 and 1956 collective bargaining agreements were negotiated.

Though Republic is the only producer-distributor involved in the action, the ruling opens the door for any other company interested in starting similar legal moves. Republic is seeking $600,000 paid under the residual contract in addition to $6 million in damages.

**NTA to distribute Gross-Krasne product**

National Telefilm Assoc., New York, has entered into a long-term agreement with Gross-Krasne Inc., Hollywood, under which all G-K television programs will be distributed by NTA, Oliver A. Unger, president of NTA, announced last Wednesday (Feb. 11).

The G-K series that will be added to NTA's catalog of half-hour programs are: *Glencannon, Sea Hawk, African Patrol, Flying Doctor Fate* and future G-K properties.

Before joining G-K-S, Mr. Sillerman was executive vice president and sales head of Television Programs of America and earlier with Ziv TV Programs as a senior sales executive.

**Radio's Culligan (r) and Capstaff on tv**

**Broadcasting,** February 16, 1959
**Program notes**

- Comedian Sid Caesar will try his hand at film production. His Shellrick Corp., in association with Screen Gems, is scheduled to begin production late in March on *It's A Living*, a half-hour situation comedy series created by William Sackheim and Arthur Orloff in which Mr. Caesar will star.

- ABC-TV has put on the market an Annual Sports Award Show to be programmed on a Sunday evening at 9:30, upon obtaining a sponsor. The program will feature top sports personalities of the year with 14 awards presented in as many categories of sports. The network hopes to make annual presentations of this type. The network says the sports special is available for full sponsorship at approximately $193,330 and for half-sponsorship at approximately $104,011.

- Actor Robert Taylor will star in a new half-hour action-adventure series on ABC-TV, Thomas W. Moore, ABC vice president in charge of TV programming has announced. Mr. Taylor's as yet unnamed series will be specially produced for the network by Robert Taylor Productions which last week joined forces with Four Star Films and Sussex Films to produce the program.

- Galaxy Attractions Inc., N.Y. and Towers of London Ltd. report they will co-produce a series of hour-long tv films based on Sir Winston Churchill's *A History of the English Speaking Peoples*. A minimum of five four-hour-long episodes is planned. Filming is scheduled to begin next month in London. Galaxy will distribute the films in the western hemisphere and ABC Television Ltd. of London in the eastern hemisphere.

- Bing Crosby Productions and ABC-TV launch projected 10 tv programs with the filming of *Lincoln Jones*, half-hour series starring James Whitmore as crusading attorney. Work on the pilot has started in Hollywood through auspices of a company to be formed by series' creator, Sy Gomberg, who has motion picture writing and production background.

- Boy Scouts of America has given the go-ahead for a commercially sponsored network television program depicting scout deeds to Stuart Reynolds Productions of Beverly Hills, Calif. Production of the weekly half-hour series, tentatively entitled *Trailblazers*, is scheduled to begin in June. Mr. Reynolds was in New York last week negotiating for a network and sponsorship. BSA has stipulated that sponsorship be diversified so that no one advertiser becomes identified with the organization.

- Telecasting Services Inc. (closed-circuit tv facilities) has affiliated with Fred A. Niles Productions, Chicago, and moved into new quarters adjoining the Niles plant at 1058 W. Washington Blvd., that city. Firm is headed by Walter Thompson and includes such services as RCA image orthicon cameras, mobile field equipment and large-screen projectors.

- Hank Saperstein of H. G. Saperstein & Assoc., (tv packager-merchandiser) Beverly Hills, Calif., and a group of midwest financiers headed by Arthur Greene, feature movie investor, have set up a tv film package investment trust in Chicago.

- WFIL-AM-TV Philadelphia have been awarded the American Meteorological Society's first Seal of Approval for weather programs. Dr. Francis K. Davis, the stations' weatherman, accepted the seal on behalf of WFIL-AM-TV.

- WTOP Washington presented Secretary of the Army Wilber M. Brucker with the tape of the station's award-winning coverage of the launching of Explorer I. The occasion was the first anniversary of the satellite's launching. WTOP's coverage of the event won a top Radio & Television News Directors Assn. award.

- The appearance of Soviet Deputy Premier Anastas Mikoyan on NBC's *Meet the Press* has resulted in a record number of requests for printed scripts of the show. It was broadcast on NBC-TV Jan. 18, 6-7 p.m. EST and the same evening on NBC at 6:30-7:30. Copies are obtainable from National Publishing Co., 301 N. St., N.E., Washington 2, D. C. Price of the transcription is 10 cents per copy.

- Amay Inc. (recording studios), Chicago, is installing a branch studio in the downtown offices of Standard Radio Transcription Services Inc., 360 N. Michigan Ave.

- Radio & Television Packagers Inc., N.Y., has produced two half-hour episodes of new tv series, *Jimmy and the Bansteers*, starring comic-pantomist Jimmy Savo. Series is planned for network sale on a 52-week basis. It will star Mr. Savo as a painter, who dwells in fantasy.

BROADCASTING, February 16, 1959
In Reverberation,
ONE WORD IS BETTER THAN 10,000 PICTURES!
The word is: EMT-140

And, Mr. John F. Box, Jr., Executive V.P., the Balaban Stations, words about the EMT-140 make it even more imperative that you look into this unit ... and what it will do for you. Mr. Box says:

"... use of the EMT-140 at the three Balaban Stations — WIL, St. Louis, WRIT, Milwaukee, KBOX, Dallas — exceeds our expectations. The units are in constant use for recording and production and the engineering divisions indicate that they have given perfect performance and that they consider the EMT-140s the finest units."

But, listen for yourself. The EMT-140 — added to your system easily . . . adds that extra presence, that extra quality, that will make your broadcasting stand out above competition's. Send us a recorded tape. We'll add the quality of the EMT-140 . . . no coloration, and no degradation. You'll see that with the EMT-140. HEARING IS BELIEVING!

FCC ON BOOSTER BANDWAGON

Vhf booster push gains headway as FCC does about-face under pressure from Hill

A bedeviled FCC last week double-clutched, shifted gears and swung into a U-turn on the heated vhf, on-channel television booster road.

The Commission announced it had instructed its staff to make a new study of the controversial booster situation. The move came a scant 30 days after the FCC had announced—for the third time—that unlicensed boosters would have to close down, and a bare two weeks after a turbulent rally of boostermen and state officials in Denver (BROADCASTING, Feb. 2).

The official FCC announcement last week stated that the staff has been instructed to prepare a study for further consideration of the Commission summarizing the various rules and standards under which vhf translators and boosters might be licensed. It stated that the study should include a possible rule amendment to provide minimum safeguards against interference and drift.

The staff was also ordered to prepare a draft for legislation which would amend Sec. 319(a) and 318 of the Communications Act. Sec 319(a) prohibits the issuance of a license for any station constructed prior to the issuance of a permit. Sec. 318 requires an operator to be in attendance for all broadcast stations.

Backed against the wall by weight-throwing western congressmen, the Commission seemingly capitulated completely last week. Congressional pressure for the continuance of boosters continued strong; 18 senators co-sponsored resolutions directing the FCC to authorize boosters to continue and one bill, a joint resolution and 16 concurrent resolutions were introduced in the House for the same purpose.

The push for vhf boosters got a pow-
erful potential ally in the big Triangle Publications group last week when the multiple owner asked the FCC for permission to put an experimental vhf co-channel "amplifying transmitter" in Johnstown, Pa., 30 miles from Triangle's ch. 10 WFBG-TV Altoona, Pa., site.

The application stated that if tests prove successful in remedying WFBG-TV's average deficiencies the station would ask for rule-making to authorize vhf amplifying transmitters.

Johnstown is within WFBG-TV's Grade A service area, WFBG-TV said, but terrain obstacles throw a shadow over most of the area.

At the same time, an opposition to a previously requested experimental on-channel booster at North Greenbush, N.Y., was filed by ch. 10 WFBG-TV's Altoona, Pa., for a low-powered, on-channel booster at the North Greenbush site. WFBG-TV said the proposed booster is 137 miles from its own transmitter, which is less than the 170-mile minimum required by FCC rules.

And laid before the FCC two weeks
ago was a petition by 17 western tv stations asking the FCC to reconsider its Dec. 30 order denying the operation of boosters and to hold a fact-finding and engineering inquiry to determine whether on-channel vhf boosters could not be authorized.

The booster problem began to plague the FCC in 1954 and 1955 when hundreds of unlicensed boosters arose in the mountainous western states to serve hamlets and villages too remote from regular tv signals—or unable to receive such signals because of intervening mountains.

In 1956 the FCC issued cease and desist orders against a group of such boosters. These orders were appealed, and in 1957 a District of Columbia federal circuit court ruled in favor of the FCC's jurisdiction.

In June 1957 the Commission issued an order denying petitions for the authorization of on-channel, vhf boosters. The governor of Colorado asked for reconsideration and a rulemaking inquiry was again instituted.

The Commission's order last December made a "final" determination that such boosters not be permitted because of the possibility of interference and of equipment instability. It ordered existing boosters to convert to uhf translator service or cease operating in 90 days (later extended to six months). It also forbade the construction of any new boosters.

FCC Comm. T. A. M. Craven dissented from this order. He felt, he said, that some method should be evolved to permit continued operation of boosters under reasonable and practical regulations.

Within a week after the Commission's booster order, Kenneth Cox, special tv counselor to the Senate Commerce Committee, issued his special report on small town tv. In this he urged that the FCC find some way to approve the operation of tv boosters (BROADCASTING, Jan. 12).

There are believed to be about 1,000 unlicensed tv boosters in operation.

Mack trial delayed

Trial of former FCC Comm. Richard A. Mack and his friend, Thurman A. Whiteside, Miami attorney, for conspiracy to defraud the government has been continued to April 7. Originally scheduled for today (Feb. 16), Chief Judge F. Dickinson Letts of the U. S. District Court for the District of Columbia approved defense counsels' motions to delay the trial because they needed more time to prepare the case and also because they had prior commitments (BROADCASTING, Feb. 2).

Hogback acceptable to CBS—WSPA-TV

CBS-TV has assured WSPA-TV Spartanburg, S.C., it would not cancel its affiliation with that station if it were required to move to its originally-assigned Hogback Mountain site. Walter Brown, station president, said last week in direct (written) testimony submitted in the court-remanded ch. 7 case. A prehearing conference is scheduled Wednesday (Feb. 18) in the re-opened case.

Mr. Brown said that while CBS was unwilling in 1954 to sign with WSPA-TV at a Hogback site because of some duplication of coverage area with WBTV (TV) Charlotte, N.C., William Lodge, CBS-TV station relations vice president, has assured him the network won't cancel if WSPA-TV moves from its present Paris Mountain site to Hogback. Besides, Mr. Brown said, the network couldn't very well afford to not use one of the three vhf stations in the Spartanburg area because listeners demand a better signal than that which WBTV could put into the area.

Mr. Brown enclosed WSPA-TV's estimate, made last year, that it would take 12 months, cost $250,000, result in a "definite but not definable loss of service" from set orientation disruptions and dit to programs to an "unknown" extent should WSPA-TV be required to move to Hogback. The estimate was made in answer to a question by the U.S. Appeals Court for the District of Columbia on results if the move were required.

WSPA-TV was granted ch. 7 in November 1953 for a Hogback site, but before construction requested and received a temporary permit to locate on Paris Mountain. WGVL (TV) Greenville and WAIC-TV Anderson, S.C., both uhfs, protested. WSPA-TV then surrendered the temporary permit and asked for and was granted a regular permit for Paris Mountain. This also met objections from the two uhfs. They appealed FCC denials and were supported by the court in a March 1955 decision. The FCC in July 1957 reaffirmed the grant for Paris Mountain. The FCC decision was reversed by the court in May 1958 and the record ordered re-opened. The court differed with FCC's position that loss of tv service resulting from location on Paris rather than Hogback was justified by the new service in other areas. The court also refused to accept the FCC's position that WSPA-TV did not make a "wilful" misrepresentation in failing to tell the FCC that the Paris Mountain location was necessary to get an affiliation with CBS.
PROXMIRE WANTS TO DUMP FCC
Judges to supplant seven commissioners asked in Wisconsin senator's proposed bill

The Congress will be asked to abolish the seven positions of commissioners of the FCC.
In their stead, Sen. William Proxmire (D-Wis.) plans to introduce a bill calling for communications decisions and grants to be made by a panel of judges with 3-5 members. The position of communications administrator would be established to handle routine actions and decisions.
Sen. Proxmire said last Wednesday (Feb. 11) that he would introduce his bill "within a few weeks." He said many provisions of the bill have not, as yet, been finalized.
The current staff of the Commission would be left intact, he stated, with hearing examiners and the bureaus to continue under the judges and administrator. "I have heard no criticism of the Commission staff," the Wisconsin Democrat said.
Under the legislation, the judges would receive life-time appointments with judicial standing. Each judge would specialize in a particular field and he alone would make decisions in that field. For instance, one judge would make TV decisions, another would handle telephone matters, etc. They would be appointed by the President. Appeals of their decisions would be made through the existing judicial structure.
Sen. Proxmire said he has been thinking about such legislation for some time and that the House Legislative Oversight exposures "added fuel to my convictions." He continued: "I feel very strongly that it is very essential that the enormously powerful decision-making functions of the FCC—which affects 10's of millions—should be handled in the most judicial way and should be insulated as much as possible from political pressure."
No litigant would even consider trying to influence a judge except on merits and the record, he said, and his bill would be the best way to accomplish a similar climate in broadcast decisions.
Salaries of the judges and administrators have not been determined as well as tenure of the latter, Sen. Proxmire said. The bill has been discussed with several other senators who are in agreement with its objectives, he stated.
The Proxmire proposal is similar to a bill ordered drafted, but never introduced, a year ago by Sen. Warren Magnuson (D-Wash.), chairman of the Commerce Committee (BROADCASTING, March 17, 1958). That bill, which still is active in committee files, would have abolished the FCC in favor of a communications administrator (who would be charged with making all decisions) and a three-judge communications court of appeals (to which all appeals of the administrator's decisions would be directed). Therein lies the principal difference between the two proposals.
Sen. Magnuson stated a few weeks ago that "we've just got to do something about those commissions" (BROADCASTING, Jan. 5). He said the ripper bill would be considered, along with many other expected reform bills, and that the committee would approve a measure containing the best features of each.
Sen. Proxmire's bill, when it is introduced, will be referred to Sen. Magnuson's committee. The Wisconsin Democrat said that he planned to discuss his measure with Sen. Magnuson before it is introduced.

Harris stays at helm
Rep. Oren Harris (D-Ark.), chairman of the House Interstate & Foreign Commerce Committee, last Thursday (Feb. 12) announced that he would continue as chairman of the new Communications & Power Subcommittee. Jurisdiction over power was added to the subcommittee during the 86th Congress, while transportation matters were assigned to a new body.
TV NEWS!

TV GUIDE circulation now more than 7 million—largest-selling weekly magazine in all history

The world of television is the only beat of TV GUIDE magazine.

And America's increasing absorption in TV—its programs, its people, its progress—has been mirrored in TV GUIDE's unparalleled circulation climb.

Of all weekly magazines past and present, TV GUIDE is the only one ever to break through the 7 million circulation mark . . . and it has done so in less than 6 years!

The growth of TV GUIDE is indeed as dramatic as the growth of television itself.

A weekly magazine . . . a daily habit
NEW NIKE guided missile, the U.S. Army's Nike Hercules, is now going into service alongside the earlier Ajax at Nike sites near key U.S. cities. Guidance equipment for Nike systems is made at W.E.'s North Carolina plants.

THE MEN of Western Electric's Field Engineering Force instruct and advise the Armed Forces on W.E.-made equipment that helps direct guns, bombs and missiles for the Army, Navy and Air Force.

DEW LINE of radar stations, built by W.E. for the Air Force in 32 months, is now being extended across the Aleutians. Hundreds of Bell System people bucked the Arctic to help build it.
From the DEW Line in the Arctic to the Nike Systems here at home, Western Electric's telephone experience has been put to work in the nation's defense.

Telephone work may seem a far cry from the building of the DEW Line or production of the Nike guided missile systems. Yet, Western Electric was asked to handle these and other important defense assignments precisely because of the special capabilities it developed as manufacturing and supply unit of the Bell Telephone System.

Our being asked to produce the Nike and Terrier guidance systems—plus radar systems for guns, bombs, planes and ships— stems from Western Electric's experience as a manufacturer of telephone communications equipment. Because of the close integration of our efforts with those of Bell Laboratories and the Bell operating telephone companies, we've developed an ability to turn ideas swiftly and smoothly into working realities.

Our being asked to build the DEW Line and provide management services for SAGE—gargantuan problems in logistics—becomes understandable in light of Western Electric's supply job for the Bell System: marshalling men and materials, coordinating the activities of thousands of suppliers, to provide the things needed for telephone service.

In short, Western Electric's experience in handling vast projects of great technical complexity—plus its ability to bridge the gap between research and operation—presents a ready-made package of know-how useful to the government.

We are glad that our Bell telephone work has so equipped Western Electric to serve the nation's defense.
Our antenna is brand new but we’ve transmitted from this Dresser-Ideco tower since 1951

"I'm Bob Holbrook, Chief Engineer for WSB-TV, Atlanta. Recently we decided to replace our original antenna with a new RCA TF-12AL and increase our overall tower height 17'.

"As a result of these changes, we have noted not only the increase in coverage radius anticipated and improved fill-in of the entire area, but a marked improvement in the quality of the transmitted picture. We feel that this installation has made full use of the advanced technology in antenna and transmission line design.

"The change-over was a complex job and required extensive modification of the tower Dresser-Ideco built for us in 1951. To assure a structurally-sound installation, we called in Dresser-Ideco to plan the changes. They calculated the alterations in the tower and guys necessary to support the new equipment and designed and fabricated the new tower members needed. Then Dresser-Ideco supplied the erection contractor with detailed drawings and instructions for making the modifications and installing the new equipment.

"Dresser-Ideco worked from the original drawings and design calculations for our tower and gave the modification job the same careful attention that impressed us when they built the original tower. The new antenna installation moved along at a fast pace, with completion on schedule."

Dresser-Ideco’s unique tower modification service is available to all Dresser-Ideco tower owners. A permanent file is maintained of all tower drawings and design calculations. This modification service is another of the many exclusive extras you get when you specify Dresser-Ideco, the nation’s most experienced tower builder. Call your broadcast equipment representative, or contact us direct. Write for Tower Catalog T-57.

How WSB-TV tower was modified for new TF-12AL antenna

1. Existing tower inspected, damaged members replaced, all bolts tightened.
2. New guy pulloffs installed, diagonals and girts reinforced.
3. New guy anchor material installed.
4. New guys installed and tensioned.
5. Existing 14-layer channel 2 super-gain antenna and AM antenna removed, all tower steel above 798’ level removed.
6. New steel installed above 798’ level.
7. New RCA TF-12AL antenna and new side-mounted Collins FM antenna installed.
8. New transmission lines installed where required.
9. All guys retensioned.
10. All areas affected by modification repainted.

See, hear “How a Taller Tower Can Pay Off for You!” Visit our booth at the NAB Convention, March 15-18, the Conrad-Hilton.

The Dresser-Ideco radar antenna structure in the center of the deck of this Texas tower is another example of the variety of towers designed and fabricated by Dresser-Ideco’s large, diversified Tower Division. This installation is off the north Atlantic coast, east of Cape Cod.
WDAY SUIT TO TEST LIBEL LAW

Supreme Court may clarify Sec. 315

The 30-year-old, vexatious Sec. 315 provision of the Communications Act —and its predecessor the Radio Act of 1927—is scheduled to be tested in the United States Supreme Court, March 5.

This is the tentative date for argument on the biennial hairshirt of broadcasters. It will be heard in the $150,000 damage suit filed by the Farmers Union against WDAY Inc., Fargo, N.D.

Briefs by the Farmers Union, WDAY and NAB were filed with the Supreme Court last week.

At issue is the question whether Sec. 315 confers immunity on broadcasters against damage suits for defamation.

Sec. 315 requires broadcasters to offer political candidates equal time on their facilities if they have permitted any candidate to appear on the air. It also forbids broadcasters to censor any such messages.

The present suit, the first to reach the Supreme Court, was instituted in 1957 by the Farmers Educational & Cooperative Union of America, North Dakota division, against WDAY Inc. This followed the WDAY-TV telecast of a filmed campaign speech by A. C. Townley, a splinter candidate for the U.S. Senate from North Dakota during the 1956 campaign.

Mr. Townley referred several times in his speech to the Farmers Union as communist and communist-dominated.

A state district judge ruled that Sec. 315 required the station to run the Townley speech and rendered the station immune from the libel laws of North Dakota.

This ruling was upheld by the North Dakota Supreme Court in a four-to-one decision in April last year.

It is this ruling which has been appealed to the U.S. high tribunal.

The Farmers Union contended that Sec. 315 does not compel a broadcaster to broadcast libel. It also maintained that the Communication Act provision does not permit stations to defame third persons who are not political candidates.

The petition said that, since Congress had refused to adopt proposals to immunize broadcasters, it "intended that state law should govern."

WDAY Inc., in its brief, accepted the position of NAB, and also emphasized that broadcasters should be considered as disseminators of political candidates' speeches, rather than in the same light as publishers.

"The respondent has, by statute, been deprived of the right of exercising the editorial discretion that is inherent in the measurement of the liability of an alleged tort feasor [wrongdoer] in the usual press case," it said. The station also emphasized the "unique" character of electronic communications as compared with publishing.

The 62-page NAB brief contended that Sec. 315 must be construed to blanket stations complying with its provisions with complete and absolute immunity to libel suits.

Unless this is so, NAB stated, Sec. 315 must be declared unconstitutional.

NAB's argument:

• The FCC has categorically asserted that Sec. 315 has preempted the field of political broadcasting and, by forbidding a licensee to censor, has conferred immunity against libel or slander suits for remarks made by political candidates.

• Congress, by acquiescing in the administrative interpretations of Sec. 315, has required the FCC's rulings on the subject. NAB referred to the 1948 Port Huron case in which the Commission unequivocally stated that a broadcaster is immune for libel when a political candidate is using its facilities, and the 1951 WDSU New Orleans case, where the Commission chastised the New Orleans station for "censoring" a candidate's speech.

• NAB pointed out that since 1927 there have been 17 bills introduced in Congress to relieve the broadcaster from damages for libel uttered by political candidates using broadcasting facilities under the Sec. 315 authorization. Congress has never acted on these bills, the trade association declared. When the Communications Act was amended in 1952 Congress' "obvious refusal to change that section despite clear knowledge of administrative interpretation thereof demonstrated clearly its acquiescence with the Commission's interpretation of the section."

Tv program tie-ins under fire

The FCC is getting ready to spread on the record alleged examples of television networks forcing their way into ownership of programming packages as a condition of placing the shows on the air.

A special Commission staff is working up a report to the Commission—due in a week or two—on these alleged tie-in practices. The basis of the report will be information submitted recently to the Commission by the Justice Dept.

The intent of the FCC, if it decides to order a public hearing on the subject will be to force complainants to spread on the public record their charges that television networks muscle in on program properties. At the same time the FCC will permit some type of cross examination of those making charges.

The basis for the inquiry, it was learned, is a report from the Justice Dept. itemizing several dozen complaints of this practice by program producers, syndicators, advertising agencies, and others. These charges have been under investigation by the Justice Dept., including its famed FBI, for a number of years. Most of the complaints are directed at CBS and NBC, it was ascertained.

First reports that the Justice Dept. was looking into purported program tie-in abuses came last year when the now-famous April 24, 1958, meeting between FCC and Justice Dept. officials took place.

At that time the government's antitrust chief, Judge Victor R. Hansen, told FCC Chairman John C. Doerfer that if reports of program tie-ins were correct, such a practice was a violation of the antitrust laws.

The same meeting was the occasion for the Justice Dept.'s expression of opinion that option time and must-buy practices of tv networks are antitrust violations per se.

The FCC last month submitted to Justice a memorandum holding that option time was reasonably necessary for tv networking. Three of the seven FCC commissioners dissented. The Justice Dept. has not yet replied to this notification.

The information about program tie-in charges was made public last June when FCC Chairman Doerfer appeared before the Senate Commerce Committe (Broadcasting, June 9, 1958).
to restrain defamatory utterances contained therein.

The trade association urged the high court to rule that the immunity was total. It said it was concerned about the North Dakota Supreme Court decision which referred to the immunity as applying to such statements of candidates which are germane to the political campaign.

Briefs are also scheduled to be submitted, it is understood, by the Dept. of Justice and the American Civil Liberties Union.

These two, together with NAB, are parties in the case as friends of the court.

IN SENATE WING
New federal probe now being organized

The chairman of a new Senate Judiciary subcommittee, with the intriguing possibility of an Oversight-type investigation in its future, was busy last week trying to hire a staff.

The subcommittee on Administrative Practice & Procedure was authorized Feb. 2 under Sen. John Carroll (D-Colo.) to make a "full and complete study and investigation" of administrative practices in government departments and agencies. When asked if it will conduct the same type investigation as the House Oversight Subcommittee, Sen. Carroll replied, "At the outset, this is a different purpose entirely . . . this is not a cloak and dagger affair . . . it is not a meat-axe committee."

However, he said, as the subcommittee pursues its study of agency operations under the Administrative Procedures Act, questions of influence and ex parte contacts are bound to come up.

"I have no idea which way our subcommittee will turn," he said. "As we move into this administrative jungle, I think we will find a lot of things."

Membership • Other members of the three-man subcommittee are Sens. Philip A. Hart (D-Mich.) and Everett Dirksen (R-Ill.), Senate minority leader. Sen. Carroll said he is having difficulty hiring the staff people he wants because of salary limitations. The subcommittee was allocated $115,000, of which $96,000 was earmarked as salaries for the proposed nine-man staff.

Sen. Carroll, a former police officer and district attorney, said the committee would work closely with professional groups like the American Bar Assn.

He cited an ABA meeting later this month which is scheduled to propose a code of ethics for federal officials to Congress. The chairman said this would be the first order of business for his subcommittee, which was established on a continuing basis.

The subcommittee has not yet held its first meeting. S Res 61, introduced by Sen. Carroll, authorized the subcommittee for the specific purpose of making "a full and complete study and federal agencies and administrative practices and procedure within the departments and agencies of the United States in the exercise of their rulemaking, licensing and adjudicatory functions, including a study of the effectiveness of the Administrative Procedure Act, with a view to determining whether additional legislation is required to provide for the fair, impartial and effective performance of such functions."

Sen. Carroll pointed out the act was passed 12 years ago and Congress has never reviewed its effectiveness. The subcommittee, he said, would conduct "comprehensive factfinding hearings" to determine the "fairness and efficiency" of agency proceedings, "the adequacy of guidelines for maintaining congressional control over agency lawmaking functions, the need for improving standards of conduct by and before federal agencies and administrative proceedings, "and expense of the federal agency hearings."

Report Mandatory • The subcommittee received a mandate to report back to the Senate no later than Jan. 31, 1960.

Sen. Carroll said he had "no comment" on the effectiveness of the House Oversight Subcommittee investigation which became involved in controversy and charges of "politics." "I don't want to give the impression this is an Oversight investigation, because it isn't," he said.

Sen. Carroll told Jack Gertz on Mutual's Capitol Assignment Thursday night (Feb. 12).

The senator said it was possible he would go into the charges by Bernard Schwartz that White House News Secretary James Hagerty attempted to influence the FCC (see page 80), but that "it would be presumptuous for me to say so at this time."

The Senate body will not conflict or duplicate the work of the House Antitrust Subcommittee, which plans hearings on a code of ethics and conflict of interest, Sen. Carroll said. "Our resolution covers a much broader base," he pointed out.

No Crossed Lines • Likewise, both Sen. Carroll and Rep. Oren Harris (D-Ark.), chairman of the Oversight Subcommittee, said there would be no conflict between their two groups, whatever new form the Harris subcommittee should take. Liaison is planned between the two members of Congress, with the possibility the Carroll subcommittee will take advantage of some of Oversight's work.

Perhaps an indication of Sen. Carroll's course can be gleaned by his statement on House disclosures of ex parte contacts between commissioners and litigants. "They [members of FCC] have no more business talking to private litigants . . ." than do judges, he said.

The Schwartz book: nothing new revealed

The professor has written his book. He failed to make any new disclosures.

The professor is Dr. Bernard Schwartz of New York U., who was fired as chief counsel of the Legislative Oversight Subcommittee a year ago. His book, to be published tomorrow by Alfred A. Knopf, New York, is titled The Professor and the Commissions.

Dr. Schwartz recommends the abolition of the FCC and other regulatory agencies. In their place, an administrative court wholly insulated against improper pressures and influence should be established, he maintains. The Commission today is so permeated by corruption and influence-peddling that such a drastic remedy is imperative, he says.

The 275-page dissertation is almost entirely a personal defense of the controversial doctor's actions. He maintains he did no wrong. He repeats charges that he was fired by the congressmen in their desire to cover up the scandal he had uncovered. He is particularly critical of the personal, professional and political actions of Rep. Oren Harris (D-Ark.), chairman of the subcommittee.

Dr. Schwartz repeats his charge that the subcommittee exposed to the public only the scandals he forced it to do and did not go beyond investigations he, himself, had done while chief counsel. This is vehemently denied by all con-

Hagerty raps Schwartz' knuckles

First barbs as a result of the Schwartz book were exchanged over the weekend of Feb. 8 when Presidential News Secretary James Hagerty emphatically denied that he exerted influence on the FCC in the Albany-Schenectady-Troy, N.Y. deintermixture decisions. Mr. Schwartz did not mention Mr. Hagerty by name in the book but stated the case, "where the President's press secretary intervened against an applicant on political grounds," is one that needs further investigating by the Legislative Oversight Subcommittee.

"If I had anything to say, it would be that he [Schwartz] was misinformed or is lying," Mr. Hagerty said. He released copies of correspondence in the case between himself, George McConnaughay, then FCC chairman, and William J. Embler, a personal friend of Mr. Hagerty. Mr. Hagerty had forwarded the Embler letter to Comr. McConnaughay without comment and asked: "Is there any way I can answer him?" Mr. Embler had stated that more than 120,000 people would be deprived of tv if the FCC, as proposed, made the area all uhf.

After Mr. Hagerty had released the correspondence, Dr. Schwartz stated that it is "highly significant" the FCC kept the Hagerty correspondence in a secret file. He said Congress should investigate Mr. Hagerty's relationship with the FCC.

On Feb. 26, 1957, the Commission proposed to delete ch. 6, held by

General Electric's WRGB (TV), from the Albany-Schenectady-Troy area and assign a uhf channel to WRGB. Mr. Hagerty wrote Comr. McConnaughay March 5. On June 24, the FCC reversed its original proposal and assigned a second uhf. ch. 10, to the area.

"The facts do show that three months after Mr. Hagerty intervened, the FCC did reverse its original decision," Dr. Schwartz said.

PERSONALITY PLUS

One of America's largest coast-to-coast chains of radio and TV stations has immediate need of outstanding young men with extensive on-air background. Must be performers with PERSONALITY PLUS, suited to modern radio music operation in Top Ten markets. Great chance for TV exposure in same markets. Salary to match your ability and potential. If you have excellent background, personable appearance, and are ready for a big move ahead, apply today. Send thorough resume, photos and/or film, and tape, today. Please do not apply unless well-qualified. If interested, will arrange expense-paid personal interview. Write PERSONALITY, Box 629H, BROADCASTING.
The only video tape in telecasting use today is "SCOTCH" BRAND Video Tape

Only "SCOTCH" BRAND has the treasury of research experience, the technical skills and the precise manufacturing facilities to deliver a magnetic tape of consistent quality that meets the critical demands of video recording.

Today, more and more advertisers, agencies and TV film producers are turning to "SCOTCH" BRAND Video Tape for their commercial announcements—often with substantial production savings. (Examples are shown above.) Its quality is surprisingly superb. Video tape inserts or full length commercials are undetectable from "live" telecasts on home receivers.

Not so surprising, when you think of it, is that the first and only successful video recording tape comes from "SCOTCH" BRAND, pioneers of magnetic tapes for sound recording and instrumentation as well.
FATES & FORTUNES

Advertisers

- Edward A. Leary, formerly of Keyes, Madden & Jones, Chicago, and Fuller & Smith & Ross, Cleveland, appointed national sales promotion manager for Norge Div. of Borg-Warner Corp., Chicago.

- Eugene W. Rohloff, formerly of Benton & Bowles, N.Y., named advertising director of Palm Beach Co., that city.

Agencies

- John Hoagland, presently v.p. and broadcast account supervisor at BBDO, on March 1 will join Ogilvy, Benson & Mather, N.Y., as v.p. and associate director of broadcast department.

- W. B. (Pete) Booth, copy director of Campbell-Ewald Co., Detroit, named v.p. and creative director for copy. James N. Hastings, art director of C-E, named v.p. and creative director for art. Other appointments: Clifford Weisenberg, formerly administrative aide of American Motors, Detroit, named administrative coordinator for copy and art departments; Donald P. David, senior copy director, to associate director for copy, and Charles H. Felt, copy group supervisor, to director of copy department.

- Arthur W. Bagge, midwest radio sales manager of Peters, Griffin, Woodard, station representative, replaces E. P. (Jimmy) James, v.p. of A. C. Nielsen Co., as chairman of Broadcast Adv. Club of Chicago, special projects group. Mr. James has been appointed to head Nielsen tv index service in United Kingdom in late February (Broadcasting, Feb. 2).

- Murell Bullis, with Erwin Wasey, Ruthrauff & Ryan past three years, promoted to supervisor of broadcast media in agency's Los Angeles office.

- William Kennedy promoted from chief timebuyer to group supervisor at McCann-Erickson, Chicago. He is not accepting post as manager of Detroit office of Robert E. Eastman Co., station representative (Broadcasting, Jan. 26).

- Richard C. Art, formerly managing editor of Wood & Wood Products magazine, appointed director of media of Western Advertising's Chicago office with cooperative duties in Racine office.
• **Herb Haft**, formerly with Grey Adv., to Coordinated Marketing & Advertising Co., N.Y., as director of public relations.

• **Newton Frank**, formerly of Crossley S-D Surveys Inc., to Reach, McClintock & Co., N.Y., research department, as project director.

• **Blanche Cosgrave**, formerly media research manager and radio-tv research manager, Ruthrauff & Ryan, to Bryan Houston Inc., N.Y., as budget coordinator for Whitehall Labs products.

• **Edward D. Cummings**, formerly v.p. and media director, Robert W. Orr, Assoc., to Noyes & Co., Providence, R.I., as media and research director.

• **William Nelson**, formerly producer and writer of *National Barn Dance* at WLS Chicago past 16 years, appointed radio-tv director at Gordon & Hempstead Inc., Chicago agency.

• **Sherwin H. Wasserman**, formerly of Young & Rubicam, N.Y., as researcher, to Kenyon & Eckhardt, N.Y., as project supervisor. **Jack Kaplan**, previously media analyst of Y&R, to K&E as senior media research analyst.

• **Al Dorian**, account executive with Roche-Eckhoff & Lee, L.A., made manager of agency's new industrial division. **R-E&L** Vice President Bob Lee has resigned to open his own agency.

• **Alfred Scherr**, art director, Reach, McClintock's Newark office, named senior art director; **Fred Kirberger**, formerly of Erwin Wasey, Ruthrauff & Ryan, to Newark art staff. **Gregory Bruno**, formerly in R/M's Newark art department, to New York art staff.

• **John P. Fengler**, formerly of Doner & Peck, N.Y., and NBC, to N.W. Ayer & Son, N.Y., as broadcast producer in tv-radio department; **Guy Wallace**, with Ayer since 1956, named casting director in same department; **Philip A. Young**, formerly copy chief in department, and most recently tv copy director of Campbell-Ewald, Detroit, rejoins Ayer as service representative in Detroit office on Plymouth account.

• **John Paul Jones**, formerly with ABC-TV, to Frank B. Sawdon Inc., N.Y., as radio-tv producer-director.

• **Charles A. Glover**, formerly assistant v.p. of Eastern Air Lines, to Kudner Agency as account executive on Pan American Airways account.

• **Lewis E. Pierce Jr.**, formerly of Paris & Peart, to James Thomas Chirurg Co., Boston, as account executive.

• **Thomas E. J. Sawyer**, previously with General Foods Corp., named account executive, Guild, Bascom & Bonfigli, N.Y.

• **William E. Phillips**, formerly with

- **William J. Colihan Jr.,** v.p. and director of copy department, Young & Rubicam, N.Y., named executive director of copy department. Mr. Colihan also will share executive responsibilities with Charles Feldman, v.p. and director.

- **Les Daniels,** formerly copy supervisor with Bryan Houston Inc., to Brown & Butcher Inc., N.Y., as copy chief for Charles Antar Div. of B. T. Babbitt Inc. account; **Ralph Tassinari,** previously account executive with Foote, Cone & Belding, to B&B as account executive on Glenbrook Labs, division of Sterling Drug Co. account; **Langdon H. Wesley,** former account executive with Wesley Assoc., named account executive on Antell account.

- **William E. Reed,** formerly continuity director of WTVP (TV) Miami, to Henry Quednau Inc., Miami and Tampa, both Florida, as copy chief.

- **George Mendoza,** formerly public relations director of Co-Ordinated Adv., to public relations staff of Mogul, Lewin, Williams & Saylor Inc., N.Y.

- **Jack Domeshke,** previously with L. W. Frohlich & Co., to copy staff of Sproul Assoc., division of Noyes & Sproul Inc., N.Y.

- **Dale B. Robbins,** previously with McCann-Erickson, to Kastor, Hilton, Chesley, Clifford & Atherton Inc., N.Y., copy department.

**Networks**

- **Richard H. Low,** since January 1956 assistant to business manager of network sales, CBS-TV, named to newly-created post of director of contracts—facilities and program sales. Mr. Low joined CBS in 1952 in news and public affairs department.

- **G. Edward Hamilton,** formerly chief engineer, WABC-TV New York, promoted to director of engineering operations, ABC.

- **Dennis James,** formerly master of ceremonies of *Two For the Money, The Name's the Same*, and other tv series, to replace Fred Robbins as m.c. of NBC-TV’s daytime color series, *Haggis Bagpipe* (Mon.-Fri. 2:30-3 p.m.). Mr. Robbins is leaving show because of commitments on West Coast.

- **Ralph Edwards,** star of NBC-TV's *This Is Your Life*, has accepted chairmanship of American Cancer Society's "Something Can be Done About It Club." Group is composed of prominent performers of stage, screen, tv and radio who aid society in presenting its program to public. Sid Caesar was chairman last year.

**Stations**

- **Norman P. Bagwell,** manager of WKY-AM-TV, Oklahoma City, named v.p. of parent WKY Television System Inc. Firm also owns WSFA-TV Montgomery, Ala., and WTVT (TV) Tampa, Fla.

- **Don Loughnane,** sales promotion manager of WBK Kansas City, promoted to station operations manager. Mr. Loughnane has been with Storz stations (owner of WHB) since 1950 when he joined KOWH Omaha, Neb., as air personality.

- **Frank Barron,** national sales manager of WJW-TV Cleveland, named general sales manager, succeeding **Peter Storer,** named managing director of WSPD-TV Toledo, Ohio (Week's Headliners, Feb. 2). **Ronald G. Smith,** with WJW-TV since October 1956, appointed national sales manager in New York, replacing Mr. Barron.

- **William J. Flynn,** national sales manager of WAGA-TV Atlanta, named general sales manager. He has been with station since July 1958, previously was sales manager of WLW-TV New Orleans and general sales manager of WEEK-TV Peoria, Ill.

- **Harold H. Segal,** formerly of WORL Boston, named general manager of WHEB Portsmouth, N.H. Mr. Segal is member of the Broadcasting Executives of New England.

- **Victor Williams,** formerly account executive of WITI-TV Milwaukee, to KWK St. Louis as general sales manager.

- **Roger C. Williams** resigns as publisher of Guy Gannett Publishing Co. (Maine newspapers and WGAN-AM-TV Portland). **Laurence H. Stubb,** v.p. and general manager, leaves active management but continues as consultant. **Robert B. Beith,** executive director of three Portland papers, to succeed Mr. Stubb. Mrs. Jean Gannett Williams re-elected president and named publisher.

- **Felix Adams** resigns as v.p. in charge of local sales, KLAC Los Angeles, effective immediately. Mr. Adams was previously with WLW Cincinnati, KMBC Kansas City and WISH Indianapolis. Morton Sidley continues as general sales manager of KLAC.

- **Thad M. Sandstrom,** general man-
ager, WIBW-AM-TV Topeka, Kan., reported recovering satisfactorily in St. Clare’s Hospital, N.Y., following surgery Feb. 4.

* **GLENN F. KENSINGER,** formerly account executive and radio-tv director of Houston office of Glenn Adv., named director of operations of KPRC Houston.

* **FRED HEYWOOD,** formerly manager of sales promotion of CBS Radio Spot Sales, N.Y., appointed director of information services of KMOX-TV St. Louis. **THOMAS STANTON** heads department of sales promotion.

* **STEVE FENTRESS,** formerly assistant director of news of WGN-AM-TV Chicago, named KMOX-TV supervisor of news production.

* **DICK OSBURN,** commercial manager of KJIM Fort Worth, Tex., promoted to station manager. **CHESTER L. GRUBBS** promoted from chief engineer to assistant station manager of KJIM.

* **JIM BEDWELL,** in sales department of WHBQ Memphis, Tenn., past four years, promoted to sales manager. **CLAUDE RANEY,** formerly program director of WPDQ Jacksonville, Fla., named program director of WHBQ.

* **JIM WATT,** news and sports director of KSTT Davenport, to KLGA Algona, both Iowa, as general manager, replacing **JIM WYCHOR,** resigned.

* **JOHN BAYLISS,** formerly station manager of KAFP Petaluma, named manager of KOMY Watsonville, both California, succeeding late **ROBERT BARR,** killed in auto accident in December 1958.

* **HAROLD HERTHUM** and **LUCKY STARR** appointed sales manager and program director, respectively, of WAIL-AM-FM Baton Rouge, La.

* **WAYNE H. SMITH,** formerly program director of KFOR Lincoln, Neb., appointed station operations manager of WFMQ (FM) Chicago, responsible for program, technical and personnel activities.

* **JIM MIDDLETON,** account executive of

XETV (TV) Tijuana-San Diego past three years, promoted to director of sales.

- R. J. Delier and Jack Sallaska named assistant manager and local sales manager, respectively, of KWTV (TV) Oklahoma City. Mr. DeLier continues as sales manager with direction of national sales.

- James E. Matthews, with KYW-TV Cleveland since 1957 as associate director, named assistant to advertising-promotion manager.

- Forrest Blount, announcer of WGST Atlanta, Ga., appointed news director. Other WGST appointments: Cliff Jenkins, formerly of WLAQ Rome, Ga., newscaster; Jim Nelson, announcer; Bill Hines, public affairs department.

- Roy E. Larsen, president of Time Inc., which owns radio-tv stations in Denver, Minneapolis, Indianapolis, Grand Rapids, Mich., and Salt Lake City in addition to its publishing interests, was presented Advertising Gold Medal Award for 1958 at luncheon in New York last Tuesday (Feb. 10). Norman H. Strouse, president of J. Walter Thompson Co. and chairman of award jury which singled out Mr. Larsen for “distinguished services to advertising” and to raising advertising standards, made presentation at luncheon sponsored by Printers’ Ink.

- Bob Clyde, news director of WREX-TV Rockford, Ill., to KCRG-AM-TV Cedar Rapids, Iowa, in similar capacity.

- Wayne Weber, U. of Illinois graduate, to WREX-TV staff. Harvey Wittenberg, also U. of Illinois graduate, to WLS Chicago.

- Bill Clark, formerly operations manager of WHOO-AM-FM Orlando, Fla., to KING-AM-FM Seattle, Wash., as program director, replacing Jack Link, to KIDO Boise, Idaho, as station manager.

- Howard Zuckerman, formerly of WLBR-TV Lebanon, Pa., to KTWW (TV) Seattle-Tacoma, Wash., as operations director. Kenneth Williams appointed chief engineer of KTWW.

- John C. Hierlhy, formerly of NBC, New York, promoted from program supervisor to program manager of WAMP-WFMP (FM) Pittsburgh.

- Thomas L. Bloisi, formerly in merchandising department of Botsford, Constantine & Gardner, Portland, Ore., advertising agency, to KIRO-AM-FM TV Seattle-Tacoma, Wash., as promotion manager.

- James Irwin, Al Phillips and Eugene Friedman to KCKN Kansas City, Kan., as account executives.

- Jerome K. McCauley, account executive and assistant sales director, WMGM New York, has resigned effective March 1. He has purchased KAIR Tucson, Ariz. and will headquarter there.

- Jim Wilson, formerly sales representative of Southwest Films in Wichita, Kan., to WFAQ-AM-FM Dallas local sales staff.

- Robert A. Kolarich, formerly sales representative of WDZ Decatur, Ill., to WISN Milwaukee sales staff.

- Roger Baker, formerly of WGR-TV Buffalo, N.Y., to WINE, that city, as sales consultant.

- Jack Rockwell, sales manager of KVFM (FM) San Fernando, Calif., to sales staff of KNOB (FM) Long Beach, Calif.

- John Holland, timebuyer at Leo Burnett Co., Chicago, to sales staff of WIND, that city.

- James Dawson, formerly weather-
caster of KONO-TV San Antonio, Tex., to WOAI-TV, that city, in similar capacity.

Representatives
- George Lindsay, sales manager, Weed Television Corp., Chicago, elected v.p. in charge of sales for Chicago and station relations for midwest territory.
- William L. Thompson, account executive of NBC Radio Sales, central division, for past four years and previously of MBS, Chicago, has resigned.
- Calvin P. Copsey, formerly account executive of KNBC San Francisco, named account executive in San Francisco office of NBC Radio Spot Sales.

Programming
- Charles King, formerly director of sales, NTA Film Network, named v.p. in charge of syndicated sales, Bernard L. Schubert Inc., N.Y.
- E. Jonny Graff, NTA v.p., Midwest sales, named national sales manager in charge of feature films, NTA International Inc.
- Billy James, formerly promotion director, Guild Films, named director of advertising and publicity, Flamingo Telefilm Sales Inc., N.Y.
- Don Castle, actor-producer, appointed production assistant on all Jack Wrather Organization TV film productions. He will work closely with Mr. Wrather on TV film product offered to but not directly an activity of Independent Television Corp., owned jointly by Wrather and Associated Television Ltd. of England.
- Vernon Burns, head of National Telefilm Assoc. London office, named v.p. of NTA International Inc.
- Ernest Fladell, director of sales development, National Telefilm Assoc., since May 1957 and previously manager

WOC-TV Davenport, Iowa is part of Central Broadcasting Company which also owns and operates WHO-TV and WHO-Radio — Des Moines
of sales promotion, NBC-TV, named creative director—advertising department, NTA. PHIL COWAN, with NTA's publicity department past year, named director of publicity for NTA stations.

- LEO KOPLER, appointed director of Capitol Records Inc.'s Angel repertoire and Capitol-EMI line of classical recordings, effective March 1, with shift of classical repertoire headquarters from Hollywood to New York. Also effective March 1, RICHARD JONES becomes director of Capitol-FDS (full dimensional sound) classical repertoire department. FRANCIS SCOTT III named chairman of classical committees of Angel and Capitol. ROLAND FRIBOURG, put in charge of artist and publisher relations for artist and repertoire division. FRANK J. BROOKS to assistant to director of international department.

Equipment & Engineering

- DOUGLAS C. LYNCH, managing director of RCA International Div., elected v.p. with responsibility for all RCA international activities except RCA Victor Co. Ltd. (Canada). Before joining RCA in December 1957 he was president of Brush Electronics, Cleveland.

- ROBERT C. STUART promoted from general sales manager to assistant general manager of Zenith Radio Corp.'s hearing aid division, Chicago.

- WILLIAM R. FRASER, product-design engineer, General Electric's technical products department, appointed to new post of consulting engineer—product design, for engineering and designing of complex broadcast transmitters.

- ROBERT G. MORGANS appointed TV sales manager at Pope Electronics Ltd., Sydney, Australian licensee of Motorola Inc.

- Dr. W. CRAWFORD DUNLAP, formerly supervisor of research of Bendix Aviation, Detroit, named director of semiconductor research of Raytheon Mfg. Co., Waltham, Mass.

- FREDERICK P. GUTHRIE, 67, who retired in 1956 as assistant manager and v.p. of RCA Communications, Washington, D.C., after 33 years with corporation, died Feb. 6 in Bethesda, Md., following long illness. He was once supervisor of operations of WRC Washington.

Allied Fields

- LEON CLUESMANN resigns as international secretary of American Federation of Musicians because of ill health. STANLEY BALLARD, member of executive board and secretary of Minneapolis local of AFM, succeeds Mr. Cluesmann.

- AL MANUTI, president of New York Local 802, elected to executive board to fill unexpired term of Mr. Cluesmann.

- ROBERT S. GREEN, formerly trial attorney, civil division, Dept. of Justice, Washington, to Koteen & Burt, Washington law firm, to practice before FCC, Civil Aeronautics Board and other Federal agencies and courts.

- ROBERT BENNETT LUBIG, formerly attorney of tv facilities branch, broadcast bureau, FCC, to Krause & Borenman, Pittsburgh law firm, as communications-patent counsel.

Government

- RICHARD A. SOLOMON, assistant FCC general counsel past six years, resigned last Friday (Feb. 13) to join antitrust division of Dept. of Justice (Closed Circuit, Jan. 12). Mr. Solomon, who was in charge of FCC's litigation division, will become member of appellate section of Justice's antitrust division. He will be succeeded in his FCC post by MAX D. PAGLIN (see Week's Headliners, page 10).

- CLYDE A. WHEELER, special assistant to Secretary of Agriculture in Congressional liaison, named to White House staff as staff assistant in Congressional liaison.
how much of your TOTAL LISTENING AUDIENCE is...

in the dark

about your station's LOCAL PROGRAMS?

Can your station afford to keep potential listeners UNAWARE of that fresh, new slant on music programming? Or that real “cool” DJ personality? Or those compelling TNT capsules? Or that cheerful earful for the ladies??

Local programs are the backbone of successful radio station operation... what your potential listeners don’t know about them, HURTS YOU PLENTY!

TELL YOUR WHOLE AUDIENCE WHAT YOU HAVE... TELL 'EM OFTEN...

and keep the listening habit STRONG!

with VINCENT MICHAELS’

...a specialized Service for Radio stations to promote local programs with consistent impact and identity. Covers key categories... news, weather, music, wake-up, traffic, teens etc. ...so easy to use... and so economical, you can’t afford to pass it by. Hundreds of markets use radio-AOS successfully! RESERVE THE EXCLUSIVE FOR YOUR MARKET NOW!

First grants by BBG: 6 ams, 1 tv satellite

The first public hearings of the newly appointed Canadian Board of Broadcast Governors (BBG) resulted in approval of a number of power increases, frequency changes, six new radio stations and one new television satellite.

Facility actions, taken Jan. 28-31 in Ottawa and released Feb. 6: CFNB Fredericton, N.B., was granted a power boost from 5 kw to 70 kw on 520 kc. Other power increases went to CKEC New Glasgow, N.S., Other power increases went to CFPL New Glasgow, N.S., from 250 w to 1 kw day and 250 w night and change in frequency from 1230 kc to 1320 kc; to CFPL London, Ont., from 5 kw on 980 kc to 10 kw day and 5 kw night; to CICS Stratford, Ont., from 250 w on 1240 kc to 1 kw day and 250 w night; to CFCL Timmins, Ont., from 1 kw to 10 kw day and 2.5 kw night and change in frequency from 580 kc to 620 kc.

The 1430 kc frequency was applied for by a number of stations and assigned to CKFH Toronto (1400 kc.), with increase in power from 250 w to 5 kw.

CFUN Vancouver, B.C., was given a power boost from 1 kw on 1410 kc to 10 kw day and 1 kw night with the understanding it would improve programming. CHWK Chilliwack, B.C., was given a power increase from 1 kw on 1270 kc to 10 kw with change of station site.

New radio stations recommended for licenses by the BBG were at Woodstock, N.B., to R. J. Morrison with 1 kw on 920 kc; at Quebec City, to Les Enterprises Sillery-Quebec Inc., for 5 kw on 1060 kc; at Kitchener, Ont., to Alan G. Hodge for 1 kw on 1320 kc; at Lethbridge, Alta., to H. W. Brown for 5 kw on 1000 kc; at Coutenay, B.C., to William George Brown for 1 kw on 1440 kc; and at Saanich, B.C., to Ellison Queale for 1 kw on 810 kc.

A television satellite was approved for CJCB-TV Sydney, N.S., at Inverness, N.S., on ch. 6 with 6 kw video, 3.2 kw audio and antenna height 987 feet above average terrain.

European countries ask uhf scatter use

Three European countries have recommended that upper portions of the uhf broadcasting band be opened for tropospheric scatter transmissions.

In proposals submitted for consideration at the forthcoming International
Telecommunications Conference in Geneva, Switzerland, this summer and fall, the following changes in the allocations for Region I (Europe, Africa, and all of USSR) have been made:

- United Kingdom—Proposes that the band 800-960 mc be used for fixed service for forward scatter propagation circuits, in addition to broadcasting, under arrangements among the countries involved.
- France—Proposes that the band 860-960 mc be reallotted to permit, in addition to broadcasting, its use for fixed services.
- West German Republic—Proposes that the bands 790-960 mc be used for fixed services as well as for broadcasting.

The 1947 Atlantic City convention allocated the following uhf bands for broadcasting in Region I: 470-585 mc, and 610-960 mc.

In Great Britain both BBC and private commercial telecasting are on vhf bands in the 44-67 mc and 176-215 mc areas.

At the present time there is no uhf telecasting activity in Great Britain.

Canada '58 tv set sales slightly under 1957

Television receiver sales in Canada in 1958 totaled 430,980 sets, compared with 470,823 sets in 1957. Also, according to the Electronic Industries Assn. of Canada, sales of 40,668 sets were recorded in December 1958, as compared with 44,467 in December 1957. Highest sales month last year was October when 59,177 sets were sold.

Of the 430,980 sets sold, Ontario accounted for 158,181 sets, Quebec 107,440, Alberta 37,356, British Columbia 36,084, Manitoba 28,487, Saskatchewan 26,461, Nova Scotia 19,545, New Brunswick and Prince Edward Island 13,453, and Newfoundland, 3,973.

- Abroad in brief
- Canadian Broadcasting Corp. will receive $58,404,000 from the Canadian government in the fiscal year starting April 1, 1959, almost $7 million more than in the current fiscal year, according to Finance Minister Donald Fleming at Ottawa. In addition Ottawa is arranging a capital grant for the government's CBC of $9,197,000 for the coming fiscal year, up $548,000 from the capital grant voted for the current fiscal year.
- The French government has announced that no commercial segments will be introduced into tv programming there. Nor is it, according to a government spokesman, planning to allow private commercial stations in the country at this time.
- The Bonn (West Germany) Postal Ministry intends to construct a network of about 30 tv transmitters, observers there report. The network will give West Germans an alternative channel. Whether the Bonn government will rent the transmitters to commercial tv operators or whether it plans to run the network itself is an issue that still is to be determined, according to broadcasting observers close to the Bonn scene.

It's all in the mind

Ernest A. Jones, president MacManus, John & Adams, speaking on agency mergers before the American Assn. of Advertising Agencies meeting in Atlanta Feb. 6, had these observations to make on this trend:

Does the current urge to merge mean eventual disappearance of the $100,000 shop . . . or the half-million dollar shop . . . or the million dollar shop? Does it mean that eventually a handful of giant agencies will control all advertising?

I do not think so . . . for the simple reason that agencies are not manufacturing concerns or chain stores and never can be, for in the last analysis all we have to offer is creative brains. And I do not think that even the most ardent exponent of strength through size arbitrarily states that doubling or tripling size increases brain power proportionately . . . .

How big is big enough to do the job? Well, there are jobs and jobs. A handful of skilled craftsmen can build a completely desirable home. A horde of workers of all categories are required to erect an Empire State Building. Just so in advertising. A handful of talented craftsmen with proper equipment are eminently suitable for some accounts; the successful conduct of other accounts may require large field staffs, many branch offices and a dimension of financial reserve which the saller agency, however creatively capable, cannot supply.

Certainly there will continue to be mergers in the agency field. We might even feel the urge ourselves one day. But agencies—by a sort of Darwinian law of survival—will tend to remain at the ideal size to do their particular job.

Not for its own sake

Another speaker at the AAAA South East Council meeting in Atlanta was Bryan Houston, chairman of the board, Bryan Houston Inc., treating limits on creativity. He had these words of good counsel to offer the Atlanta delegates:

Be careful that your gimmick does not strangle you. We are seeing an unusual number of forced commercials on tv, and hearing an even greater number on radio.

Please do not think that I hold any brief for the finger pointing, repetitious, "Uncle Sam Needs You" type of "hard sell" commercials. . . . We have checked some of those that were not remembered by as many as 5% of the proven audience of the show. We also have records of commercials and print ads that got a high degree of interest and memory, but did not sell anything that we could trace because the memory and interest were attached to some part of the advertisement that was not for sale. At least you couldn't buy it by the package in your grocery store. . . . Several times each year we usually see or hear an ad that is sufficiently unusual to attract attention but that does not for an instant forget that somebody paid for the time, or space, in the hopes of selling something. When that happens, we see a great ad.

Houston: remembrance isn't buying
GT-Sylvania merger

The merger of Sylvania Electric Products Inc., New York, into General Telephone & Electronics Corp., that city (Broadcasting, Jan. 12; Nov. 17, 1958), was approved Feb. 11 by shareholders of both companies at special meetings held in Boston and New York, respectively. Under the new corporate name, General Telephone & Electronics, Sylvania will operate as a separate company, wholly-owned by General Telephone. New corporate officers include Donald C. Power, president of General Telephone, who becomes GTE chairman of the board, and Don G. Mitchell, board chairman of Sylvania, who becomes GTE president.

• Technical topics

• RCA's David Sarnoff Outstanding Achievement Awards in Science and Engineering for 1958 go to Nils E. Lindenblad of the company's labs technical staff, Princeton, N.J., and Dr. Lorne D. Armstrong, senior engineer in advanced development at its Semiconductor and Materials Div., Somerville, N.J.
• Alpar Mfg. Co. (towers) has moved to 220 Demeter St., Palo Alto, Calif., from its former Redwood City, Calif., location.
• S.O.S. Cinema Supply Corp., N.Y., announces a new line of 16mm double magnetic sound editors called the Magniola and Deluxe Magniola. The machines feature 3x4-inch picture, built-in cue marker, frame and foot reference counters, two-gang synchronizer with magnetic soundhead and amplifiers and speaker unit. The Magniola double system editor is $450 while the Deluxe Magniola (with two magnetic heads, one for single system and another for double system sound) is $520. S.O.S. address: 602 W. 52nd St., New York 19.
• Philco Corp., Phila., reports consummation of licensing agreement with Thorn Electrical Industries Ltd., London, permitting Thorn to acquire two British Philco subsidiaries to manufacture and sell Philco's tv receivers, radios and hi-fi phonographs. Two companies are Philco (Overseas) Ltd., manufacturing subsidiary, and Philco (Great Britain) Ltd., sales subsidiary. Both now will operate as units of Thorn.
• Irl T. Newton Jr., engineering consultant, has closed his offices in Hadsonville, N.J., and Washington, D.C., and relocated in Cleveland at 7013 State Rd., Parma 34. Mr. Newton's Clearwater, Fla., branch continues under the management of George H. Bowles.

• Allen B. DuMont Labs, Clifton, N.J., has begun production on company's first microwave tube, designed for use in equipment for line-of-sight telephone relay stations as well as for microwave equipment used by the military services.
• General Electric's 1958 Edison Radio Amateur Award (trophy and $500) for public service will be presented to Julius M.J. Madey, 18, of Clark, N.J., in ceremonies Feb. 26 at the Sheraton-Carlton Hotel, Washington, D.C. Mr. Madey, operator of station K2KGJ, is reported to have transmitted more than 12,000 messages during the past year. Special citations will be awarded to three other ham radio operators for special achievements.
• David R. Hull, vice president of Raytheon Manufacturing Co. and president of Electronics Industries Assn., has moved his office from the firm's headquarters in Waltham, Mass., to the company's new Washington offices at 1000 16th St., N.W.
Western duds in bank set

The president and staff of the Bank of Madison (Wis.) are wearing cowboy outfits to the office each Monday to publicize bank sponsorship of the WKOW-TV Madison Roy Rogers show (Sun. 5:30-6 p.m.).

The bank decided to sponsor the western to encourage youngsters to save. In the Madison exploitation kit: free tickets to a Roy Rogers movie, premiums for children whose accounts reach certain figures and large colored pictures of the show's stars and leaflets about the program in the bank's lobby.

KTVH (TV) hop draws 2,500

KTVH (TV) Hutchinson-Wichita a fortnight ago staged its first annual Hi Fi Hop contest in connection with its five-year-old dance show. To cover the event, KTVH dispatched its mobile unit to the Wichita Forum Auditorium, where some 2,500 youngsters turned out.

The winning couple emerged victorious over nine other monthly contest winners, taking home over $1,000 in prizes and gifts. The contest was staged from 2 to 4 p.m. Feb. 1. One hour (2:30-3:30) was televised by KTVH, with Bill Brooks as host.

WLS follows blessed event

Both WLS Chicago and the American College of Obstetrics and Gynecology feel that "no radio program has ever done an honest, personal and medically sanctioned program of that time in a woman's life when she prepares for her first child," Martha Crane, the station's director of women's programs says.

So they got together some six months ago and planned a 19-week, documented series, that discussed the various adjustments in a homemaker's life from pregnancy to birth. Titled Unio Her a Child Is Born, the 15-minute feature bowed Wednesday (Feb. 4) as a public service feature of The Martha Crane Show. The subjects are a 23-year-old woman and her husband. Guest medical specialists appear in the pre-recorded series with the blessing of ACOG.

If all goes well, WLS plans to take a tape recorder to Evanston (Ill.) Hospital and describe the actual birth. Tentative date: June 10.

Hypnotism on WLCs

Disc jockey Ken Wallace slept more than 63 hours under hypnosis in a department store window and was viewed by 30,000 people as estimated by WLCs Baton Rouge, La., at the end of its "Hypnotic Radio," or H-Sound, promotion.

Four WLCs dj's were publicly hypnotized as part of the stunt. Under the power of hypnotist C. H. Ryan Jr., WLC staffers Ron Lundy, David Nebel, Bill Cox and Mr. Wallace were put through post-hypnotic tricks that included calling all the records on a show "Jingle Bells" and being unable to pronounce the letter "t" in any words spoken on the air. KFI Los Angeles dj Ben Hunter phoned the Baton Rouge station, reports WLCs, to interview personnel first-hand.

WTRF-TV closed-circuit sales

WTRF-TV Wheeling, W.Va., attributes the signing of six new sponsors to a closed-circuit sales presentation. Since October 1958, 13 merchants have been invited to see the 15-minute presentation. It deals with analysis of the market from the client's viewpoint, advantages of tv over other media, sample commercials using the prospective clients' products or services and spot-program availabilitys.

Pop-disc film productions

Following a survey which showed more than 250 tv stations broadcasting disc jockey programs of some sort, Tele Records Services, Hollywood is offering record manufacturers a chance to supply these stations with visual versions of their new pop discs.

TRS records artists on 16 mm film in lip-synchronized versions of records. These films are then distributed to tv stations which, the survey indicates, will give each an average of three plays a week. The station pays nothing for the pilot, but agrees to abide by starting and cutoff dates set by the record firm to coincide with its heavy promotion of the disc. The manufacturer pays $1,200 for production, filming, editing, reproduction and distribution of such a film to 100 tv stations, or $1,800 for distribution to 200 stations. TRS, with head-
quar ters at 5746 Sunset Blvd., Holly wood 28, Calif., is headed by Alan Lannen, vice president of Skatron TV, and Bradley Kemp, head of Vue lonics Corp.

1,000 WIP 'Pyle Drivers'

WIP Philadelphia personality Jack Pyle is responsible for the formation of a new 1,000-member club of Delaware Valley traveling salesmen, the "Pyle Drivers Club," which recently held a "beer bust" in a hanger at the Philadelphia International Airport, according to WIP.

The "Pyle Drivers" were organized some weeks ago through the services of d.j. Pyle's afternoon news and music show, which many local traveling salesmen listen to on the road. A dinner at the Drake Hotel brought out 450 member-listeners at $5 each. The Feb. 3 affair at the airport drew $2 each from more than 1,000 "Pyle Drivers" with local business firms donating the food, beer and prizes, and author Frank Smith appearing as one of the guest speakers. The "Pyle Drivers" carry special luminous bumper strips on their cars, have a midtown clubroom, and plan to use their dues money for civic and charitable purposes, according to WIP.

KPOA contest winners

Lyn Salzberg, of Dancer-Fitzgerald-Sample, New York, was first prize-winner in the recent contest conducted by KPOA Honolulu, with her slogan "King Pin of Alohaland," according to Fin Hollinger, executive vice president of the station. A two-week vacation for one or two (optional) was the prize awarded to D-F-S staffer, Jean Sullivan, of Lessing Advertising Co., Des Moines, Iowa, won the second prize of a two-week vacation for one with her slogan "Kingsize Pacemaker of Alohaland." Mr. Hollinger reported that entries in the KPOA contest were received from half the states of the union.

Lassen to call Seattle plays

Veteran sportscaster Leo Lassen was named as the man to call the games of the Seattle Rainiers baseball team on KOMO Seattle for the next two years, as a result of public opinion poll, according to station manager Maitland Jordan. During a week-long contest among fifteen possibilities, Mr. Lassen polled 90% of the popular vote, KOMO announced. The KOMO coverage of the Rainiers began April 17. KOMO signed a contract with the team to cover the schedule of 154 games late last month.

Solid radio front

Sterling Zimmerman, vice president and general manager of KUNO Corpus Christi, Tex., has been elected president of the new Radio Public Service Assn. of Corpus Christi, composed of all the radio stations in that city. The new organization intends to "provide better and more coordinated public service to the community." Foremost in the group's announced plans is promotion of the radio medium to local businessmen.

The association will maintain a speaker's bureau and "will work closely" with the national Station Representatives Assn. Directors of the new organization are: Allen Dale, station manager, KEYX; Bill Lightfoot, general manager, KATR; A.C. Lloyd, general manager, KAYS, and Charles Manning, commercial manager, KSIX.

Tv and the general store

WSFA-TV Montgomery, Ala., uses station breaks to identify not only itself but to identify with smaller communities within the coverage area. ID slides showing landmarks in surrounding towns are rotated around the schedule. Local merchants, responding to the technique, sometimes have to change their way of doing business to keep up with the television medium. One bought two "10-plan" packages of minute and 20-second spots but had to cancel after only two of the minutes had run. He had sold out of the $129.95 phonographs featured in his sale. Acting on the basis of his previous experience in sale promotion, he had stocked only five of the sets.

KJAY keeps the beep

KJAY Topeka, Kan., beeps its way through 18 hours of programming Feb. 2 playing Louis Prima's recording of "Beep-beep" from 6 a.m. till midnight.

Success of the stunt as an attention-getter was gauged by the reported 3,000 telephone calls the station received in the period. (In keeping with the wacky promotion, these calls were answered in Spanish.) The climax came when, at the end of disc jockey Al Knight's show, ambulance attendants arrived and put the "Beep-beep"-playing d.j. in a Strait jacket. They took him off to a local automobile showroom which was staging a "Beep-beep" sale. KJAY'S news wagon was used to describe the scene to listeners.

Winning shot for WCPO-TV

Vera Schulte, promotion director of WCPO-TV Cincinnati, has won $500 from Grey Adv., New York, and program sponsor General Electric, for the
Sustained selling • Here is a sample of what viewers the country over are witnessing under TV's "People Are Sold on Television" campaign initiated during National Television Week last November (Broadcasting, Nov. 17, 1958). An interim report shows 74 stations are airing 1,120 spots per average week, with average weekly use per station rounding out at 15. About two-thirds of them are of 10-second duration, the rest 20-second.

The animated film commercials, now seven strong, are produced by the Wexton Co.

(best station promotion of ABC-TV's Man With a Camera series. WCPO-
TV viewers were encouraged by Miss Schulte to photograph their screens while the program was in progress. ABC-TV mailed sample promotion kits to all its affiliates and Miss Schulte's campaign included 7 of the 10 kit suggestions.

Dimes still roll in

Full tallies of radio-TV collections for the March of Dimes polio fund (Broadcasting, Feb. 9) will be weeks in the making. Meanwhile, a final survey of representative station promotions:

• KMOX-TV St. Louis was pledged $103,980 for the fund in a 14-hour telethon Feb. 1 that attracted 15,000 to the studios. Actor Eddie Bracken kicked off the campaign. Among others who appeared: Stan Musial of St. Louis Cardinals, St. Louis Hawks basketball team, civic leaders, KMOX-TV and other local stations' personalities.

• A small crippled girl walked into KWYN Wynne, Ark., with a cake she had made. The station put her on the air to offer the cake for sale. $1,600 was pledged by local and out-of-state listeners. The cake event climax a week of KWYN broadcast auctions in which the entire county goal was exceeded.

• WHOL Allentown, Pa., disc jockeys presented the station with the proceeds from a record hop at the local Frolics Balroom.

• Harry Harrison, disc jockey, WPEO Peoria, Ill., marched a mile in subzero weather for every $100 donated to the fund. WPEO's news wagon followed him over the snow-covered ground to give a commentary on the stunt.

Perpetual (pro)motion

"WJZ-TV Baltimore Never Stops Promoting," declares a tv camera-shaped booklet mailed by the station.

To prove the point the booklet graphically describes how WJZ-TV programs are publicized with 120,000 milk bottle collars monthly, 200,000 laundry inserts monthly, newspaper ads almost every day, 50 billboards monthly, over 100 taxi posters monthly, 200,000 matchbooks all over town, restaurant table cards, 30 delivery trucks bearing WJZ-TV announcements, three WJZ-TV News Dept. vehicles; copy on 3 million ice cream cartons per year, 25,000 shopping bags, 40 radio spots weekly, ads in every issue of Tv Junior magazine; copy on 20,000 announcements on school book covers, trailers in 72 movie theatres; seven giant illuminated outdoor bulletins, hundreds of on-the-air promotion spots weekly and ads in every issue of Tv Guide.

Triple threat by KSO

More than 20,000 entries weekly are being received by KSO Des Moines, Iowa, in a three-way promotion drive in cooperation with Safeway-Thriftway food stores and the Gift House Stamp Co., the station reports. KSO announces 10 Gift House game items during each weekly contest and listeners who obtain entry forms from the food stores receive five stamps for each item mentioned correctly, making a possible total of 50 stamps. Listening bonuses are offered hourly from 7 a.m. to 7 p.m. at which time names are drawn for a gift of 1,500 stamps.

K MPC collector items

The catch phrase used by K MPC Hollywood in its advertising, "Did you Whittinghill today?" bus caught on to the point that transit ad cards are being pilfered as rapidly as they are inserted, the station reports. The copy refers to K MPC morning d.j. Dick Whittinghill. Another Los Angeles station, KAB, has been reported ready to counter with bus cards reading, "No, but we Chef Milanied," referring to a morning show with the Italian salad-dressing maker. The Whittinghill copy on buses carries neither card letters nor explanation. Paper ads show historical, mythological and fictional characters in drawings positing the Whittinghill question to one another, and K MPC call letters appear in small type under the art.

Going home via KSFO

Commuters in the San Francisco area can now obtain information on the traffic situation simply by dialing a local telephone number. KSFO San Francisco in cooperation with Folger's coffee, has added the telephone service to regular broadcast traffic reports on the Bob Colvig Commute Club, weekday afternoons and Sunday evening.

Phoenix hunts for KBUZ man

News Director Mike D'Arcy of KBUZ Phoenix, Ariz., may be in town, but his employer made sure he would not remain a stranger long. His arrival from Omaha, where he used to work for KOIL, was heralded by KBUZ in a $1,000 "Hidden Man" contest. After five days of broadcast clues, hundreds of listeners mobbed a supermarket in search of the prize. There the winner picked up $1,000 for identifying the new news director dressed as a grocery stock boy.
• Drumbeats

• WTCN-TV Minneapolis-St. Paul in a joint promotion with a snack caterer has scored a 50% tv rating. Viewers are offered a free tv snack if sets are tuned to WTCN-TV when the “Donny Dipper” (coffee and sandwich enterprise) man knocks at the door. Of 50 homes called on at the campaign’s outset, half were tuned to the right channel.

• WRC-TV Washington credits a single announcement with bringing in 722 entries in its dog contest, to promote the Jeff’s Collie series. Subsequent announcements in the week-long contest raised the total entries to 3,056.

• KDKA-TV Pittsburgh has raised more than $53,000 in cash and pledges for the Children’s Hospital, $40,000 of it during a special two-hour program. Prior to this collection, adds KDKA-TV, the Variety Club Telethon on that station netted more than $90,000 for a summer camp for crippled children.

• WCKY Cincinnati in a poll has discovered listeners prefer the original arrangements of such old favorites as “Smoke Gets In Your Eyes” and “One Rose” over more modern versions. As of Feb. 3, phone and post card opinions were running 4,419 in favor of the standard versions as against 1,203 preferring the new arrangements.

• Jim Lange, d.j., billed as “morning mayor” by KGO San Francisco now has official claim to the title. Named “Honorary Morning Mayor” in a proclamation by Mayor George Christopher, Mr. Lange is charged with helping citizens better “meet the challenges” of each new day.

• KIOA Des Moines, Iowa, received more than 500 shoes within a few days in a “Glass Slipper” contest. KIOA promised that the sender’s shoe that best fitted a KIOA staff Cinderella would win a complete outfit of clothes.

• Ginny Atter, WJXT (TV) Jacksonville, Fla. has been commissioned a “torchbearer” saleswoman by the U.S. Treasury Dept. to enlist 1,000 buyers in the Bond-a-Month Plan.

• Tele-chievers Inc., WBKB (TV) Chicago’s Junior Achievement Co., launched its fifth annual tv series, Tele-Scope, with a new 13-week segment Feb. 14. The program will be handled by 20 teenagers, guided by WBKB professional personnel.

• KRCA (TV) Los Angeles received an award from L.A. Mayor Norris Poulson on its 10th anniversary commending the station for distinguished broadcast service.

• CJKL Kirkland Lake, Ont., is sending to advertising agencies and customers plastic bags containing gold, silver, copper and asbestos ores from mines in its coverage area in northern Ontario, in connection with its 25th anniversary.

• WCKT (TV) Miami, Fla., bribed editors to tune in Meet Mr. Lincoln last week. The “bribe” sent: Lincoln’s portrait on a penny.

• WFMY-TV Greensboro, N.C., got guaranteed space in publications of 52 high school editors when it invited them to the studios for judging of the annual WFMY-TV Scholastic Art Awards project (1,200 entries from state schools this year). The editors also were briefed on electronic journalism by station newsmen.

• More than 2,000 returns were received in two weeks by XETV (TV) Tijuana-San Diego in a straw vote for 1958 motion-picture Oscar winners. The XETV audience picked Mitzi Gaynor for “South Pacific,” Spencer Tracy for “The Last Hurrah” and director Mark Robson for “The Inn of the Sixth Happiness.”

• Case histories can prove which promotion campaigns have the best results. With this in mind Ziv TV, program syndicator, is distributing to sponsors and stations a loose-leaf booklet of several dozen market-tested promotions for its underwater drama series, Sea Hunt. Some of the ideas are from Ziv’s original kit for the series a year ago. Others were created entirely by stations, sponsors and agencies using the show.

Footnotes • KXOK St. Louis tried a down-to-earth technique to introduce its new radio personality, Buddy Mac Gregor. More than 10,000 adhesive-backed footprints announcing “Buddy Mac Gregor was here” were left in heavy traffic areas of St. Louis.

WPRO - AM-FM - TV Providence, R.I. —

Collins is your single, complete source of all quality broadcast equipment.
New RCA 5 KW FM Transmitter Designed for Multiplexing

A "Direct FM" system plus many other outstanding performance features such as built-in remote control provisions and screen voltage power output control, make the BTF-5B today's best FM transmitter. Its 5000-watt power output provides adequate coverage of a multiplex channel and improved coverage for conventional operation. New Exciter, Type BTE-10B, uses "Direct FM" modulator circuits, thus fewer tubes are required. Whatever your equipment needs—SEE RCA FIRST!

Or write for descriptive literature to RCA, Dept. P-22, Building 15-1, Camden, N. J.

The BIG MONEY goes to F. C. C. LICENSED MEN

F.C.C. License—the Key to Better Jobs

An F.C.C. commercial (not amateur) license is your ticket to higher pay and more interesting employment. This license is Federal Government evidence of your qualifications in electronics. Youngsters are eager to hire licensed technicians.

Grantham Training Prepares You

Grantham School of Electronics specializes in preparing students to pass F.C.C. examinations. We train you quickly, efficiently and well. All courses have basic fundamentals—no previous experience required. A beginner may qualify for his first class FCC license in as little as 12 weeks.

Learn by Mail or in Residence

The Grantham F.C.C. License Course in Communications Electronics is available by correspondence or in residence classes. You may enroll for either type course at any of the three Grantham Schools—at Washington, Hollywood, or Seattle.

Write for Free Booklet

For our free booklet giving complete details concerning our F.C.C. license training, write to the Grantham School nearest you and ask for Booklet 99-B.

Represented Nationally by the Katz Agency
Mr. Scott's aim: keep the chart full

'In sales, we think of the next one'

OUR RESPECTS TO...

Walter Decker Scott

There's a wall chart at NBC's "plotting room" on the fourth floor at 30 Rockefeller Plaza in New York that lists advertisers, their time periods and shows. It is the job figuratively of Walter D. Scott, newly-elected executive vice president of NBC-TV (on Feb. 9), and the echelon of sales and programming executives who with him are housed on the fourth floor, to keep that chart filled.

The area of network sales and programming has been best described as a network's "meat and potatoes." It's also the obvious place to start in searching out an executive to fill an important network post. And logically here was the training field of NBC veteran Walter Scott. Familiar to New York and the adman environment for the past 22 years, Mr. Scott has not lost the modulated voice or the accent and warmth in personality which spring from his midwest background. During his years in broadcasting, however, he's gained an insight into the advertising world and a better understanding of the network's place in it; two acquisitions without which a network executive today would be a total loss.

Early Hours • Mr. Scott, who lives a 12-minute cab ride from NBC, has developed another attribute of working before-hours, thereby cutting down on night hours spent at his desk. He's at the office anywhere from 7 to 8:30 in the morning while most of Manhattan still yawns half asleep. He "finishes off" at 6:30 or 7 in the evening, bypassing the need to carry home a paper-stuffed brief case.

At home in his apartment with wife (Stenz) Scott, whom he married in 1940 in New York, and their two daughters, Shelley, 16, and Valerie, 12, Walter Scott snaps on the tv set and watches the full nighttime schedule of NBC-TV and of the two competing networks.

To do this job and do it completely, Mr. Scott has a rotating schedule of viewing, which by the time a few months go by, means he's caught up with whatever's on the air. (To watch all three networks' full nighttime schedule for each day of the week would take a total of 21 nights of viewing). But Mr. Scott is not that hard on himself. Most nights he's in bed early and he puts in about two nights of viewing during the week.

Of course there's also reading, time for some real thinking (his favored period is in the morning when he first gets to the office and the phones are silent) and for one or two nights out in a week for the Scotts.

The Change of Pace • As is the norm with many an executive up to the elbow in fast breaking developments, Mr. Scott appears to have an aversion to telephones when he's away from the daily routine. Vacation time follows a pattern: the Scotts have adopted the Caribbean (the Virgin Islands in particular) and its fishing, surf, snorkling (underwater exploration of fish species and reef formations) and the no-phones and no-tv.

One gets an impression from Mr. Scott that he thinks of a salesman's milestones in terms of the experienced angler. "In sales," he says, "we think of the next one," the obvious impression being that a salesman worth his salt is reticent to rest on laurels of one big contract signing.

Walter Decker Scott was born March 2, 1915, in Kansas City, Mo. He attended school there, went to Washington U. at St. Louis and in 1936 was graduated from the U. of Missouri with a bachelor of journalism degree.

He joined the Oklahoma City Daily Oklahoman and Times advertising staff and in 1937 moved to New York and the sales staff of Hearst Radio Inc. In 1938, Mr. Scott tied his destiny to NBC's burgeoning radio sales, initially selling national spot and in the early 1940s moving over to network sales.

Mr. Scott was named eastern sales manager in 1949, New York network sales manager in 1951, administrative sales manager a year later, elected a vice president and made national sales manager of the tv network in 1955 and only a year ago was appointed vice president, television network sales.

Program Philosophy • In his new post, Mr. Scott reports to Robert E. Kintner, NBC president. As for NBC's direction, Mr. Scott points to the programming philosophy set forth by the two Bobs (Mr. Kintner and Robert W. Sarnoff, board chairman) of a balanced schedule with "no majority of any one type of programming." A cycle expressed by Mr. Scott: The more of a network's schedule that is viewed, the more advertising support, and the more advertiser support the more diversified or broad range program schedule.

Network Competition • What about network competition? Next year all three tv networks, he believes, will be closer to a fully competitive position in both day and night programming. The public will benefit once again with more diverse and, he stresses, better programming. He notes an increase in multi-sponsorship within the hour form, a recent trend which should continue.

Mr. Scott now is in all operational phases of networking, which in addition to sales and programming, include facilities and business affairs.

Are westerns forcing the "program balance" he speaks of, out of kilter? Mr. Scott counters with "What's a western?" He cites Wagon Train, for example, as a dramatic anthology filmed against a western setting.

Mr. Scott's occupational memberships include board of directors of the Advertising Federation of America, on NAB research and promotion committees and on various committees of The Proprietary Assn.

Where education should begin

It does not detract from the high motives of John P. Cunningham to say that his speech last week advocating establishment of a national educational television system betrayed a lack of understanding of the root problems of TV. It is a lack shared by all too many of Mr. Cunningham's colleagues in the advertising world.

There are many roadblocks in the way of Mr. Cunningham's proposal, as he admitted, but he failed to identify the biggest. The facts are that in the present television allocations there are not nearly enough usable channels to create the kind of educational system Mr. Cunningham envisions.

If the chairman of Cunningham & Walsh is serious about his proposal and if others in advertising intend to join him in its pursuit, they must first familiarize themselves with the fundamental problems of television. The problem of allocations is fundamental. It is also difficult. It cannot be understood, let alone solved, without tiresome study. But all proposals for expansion of the television system, in any direction, have to start with consideration of that problem.

Among advertisers and agencies there is a vast fund of knowledge about audience measurement, market coverage, cost-per-thousand and other information dealing with the use of TV as an advertising vehicle. There is considerably less knowledge about the vehicle itself. We do not suggest that advertisers and agencies ought to know how to diagram a transmitter circuit. We do think they ought to familiarize themselves, in a non-technical way, with the present technical limitations and potential technical expansion of the medium.

Faint hearts can't win freedom

In adopting a policy in favor of editorializing, the NAB board of directors at its meeting a fortnight ago took a stride in the right direction. But in failing to join issue with the FCC by pledging all-out support of the position taken by Comr. T.A.M. Craven against inclusion of program questions in station application forms, the board offset whatever courage it had demonstrated in the editorializing action.

While the issues are different, they nevertheless lead to the same critical question—freedom of the broadcast media. It is perhaps understandable why the joint radio-TV board was loath to go all the way on editorializing, preferring to have broadcasters educate themselves up to this grave responsibility. What we cannot understand is why the board gave short shrift to the Craven position that meddling in programming constitutes censorship and therefore is illegal.

In the editorializing action, the board approved a “Broadcasters Guide to Editorializing.” It is the work of a diligent ad hoc committee which was appointed last year and which will become a standing committee. The result is all to the good, as far as it goes. But even here, we feel it does not go far enough.

The FCC's editorializing criteria, adopted in 1949, specify that broadcasters, once they editorialize, have the affirmative obligation of seeking out opposing views by responsible parties. This is wholly untenable and unworkable. It should have been challenged. The fact that the FCC has attempted to enforce this provision only on two recent occasions (slapping the wrists of stations that editorialized on pay-TV, or those that carried a National Assn. of Manufacturers film relating to the Kohler strike in Wisconsin) does not mean that it will deal as leniently with stations in the future.

A test case seems inevitable. As more stations editorialize incidents are bound to develop. Perhaps it will be an outraged politician, or a labor union, or an indignant listener. A station license will be on the line.

Broadcasters should be ready. The NAB, as the trade association representing most major broadcasters, should be poised, however the case might arise. There should be created a war chest to enable retention of the nation's best lawyers to fight it through the Supreme Court, if need be.

Until the station owner-manager becomes the counterpart of the newspaper publisher-editor, he will not enjoy the prestige of his opposite number of the press. And he will not have the freedom guaranteed by the Constitution.

What freedom broadcasting has acquired over the years has been won by logic and reason. It is a continuing fight. Editorializing now is on the front line. The fight against program censorship should be.

Not recommended reading

Bernard Schwartz, the dismissed counsel of last year's House Oversight inquiry, may have outsmarted himself in his zeal to get back into the headlines. On the eve of the publication of his book on the inquiry, he tried to pick a fight with Presidential Secretary James C. Hagerty through an inference that there was impropriety in the forwarding to the FCC of a letter of inquiry on a television case in the Albany area.

Advance proofs of the Schwartz book have been floating around for weeks. The publicity-minded author somehow was questioned by unnamed reporters regarding the Hagerty mention in his book (which appeared to be no more than the routine handling of a letter of inquiry by directing it to the agency affected).

The timing of the Schwartz blast is too transparent to deduce the public, particularly when considered in the light of the Schwartz record. Lawyers, for example, question whether his leak of committee data to columnists and favored newspapers was not a breach of the client-attorney relationship.

The House Committee record is shot through with instances of badgering of witnesses on broad, unsubstantiated charges, without prior notice.

For these reasons, we do not commend the Schwartz book as must reading. The facts are on the record, and can be procured from the committee for free. For tracts on Congress and the regulatory commissions there are more responsible sources.

BROADCASTING, February 16, 1959
The Piedmont Industrial Crescent is a unique concentration of buying power...a vast "area laboratory"...stretching across the productive Piedmont section of North Carolina, South Carolina and Virginia. It is a vast urban complex created by bustling cities, booming industry and big agricultural purchasing power where millions of your customers WORK, EARN, SPEND. Strategically located at the hub of this big year-round market is WFMY-TV...the most powerful selling influence, by far.
