*the success of your campaign
Vital companion to the rich Ohio Valley steel, aluminum and chemical industries is the Powhatan plant of the Ohio Ferro-Alloys Corporation located at Powhatan Point, Ohio, which produces essential silicon metal and high grade silicon alloys used by this trio of industries. This $4 million plant consumes an amazing 240 million kilowatts of locally produced electrical energy annually.

Important also to those who have things for sale is the $1 million annual payroll of this Ohio Ferro-Alloys Powhatan plant. This is just one more reason why the WTRF-TV area is a super market for alert advertisers...a 39-county market where 2 million people have a spendable income of $2½ billion annually.

The Ohio Ferro-Alloys Corporation operates other plants at Brilliant, Ohio, and Philo, Ohio (both in the WTRF-TV area) and at Tacoma, Washington.

MAXIMUM POWER TV-Twin to KRLD radio 1080, CBS outlet with 50,000 watts.
Represented Nationally by The Branham Company

BROADCASTING, June 29, 1959
**Study in red** • Although Mutual network, now in process of being sold again (see page 76), is still in red, figures aren't as scarlet as they were. Since taking over in March, Malcolm Smith group claims to have reduced monthly operating deficits from $110,000 to $50,000. They've been trying to reduce network's back debts by getting creditors to settle for less than full dollar value.

**Buckley building** • Deal now pending for purchase of third radio station in New England area by Richard D. Buckley Assoc, in which Mr. Buckley and John B. Jaeger, both former WNEW New York executives, are principals. They already operate WHIM Providence, bought second outlet, WDRC Hartford, June 19 for $815,000 (see story page 74). Plans are to operate headquarters office in New York.

**Drop-ins** • There'll be special meeting of FCC within week to consider vhf drop-in policy in markets having less than three vhf's, with report due from engineers on "costs" involving 21 major markets (Broadcasting, June 8). FCC hopes to have proceedings in mill prior to its month long August recess. "Cost" factor is applied in broad sense, entailing shifts of existing stations, checker-boarding of assignments, and plus-minus factors in tv homes served.

Another allocations problem which FCC hopes to dispose of in advance of recess involves daytimers and their pleas for fixed hours (6 a.m. to 6 p.m.) in lieu of sunrise to sunset. FCC instructed staff at last week's meeting to prepare data on daytime skywave interference throughout standard broadcast band, which has bearing on daytimer operations. Whole matter comes to head before Special Senate Foreign Relations Subcommittee hearing to consider NARBA and Mexican allocations treaties, set for July 9.

**Special progress** • Now that deluge of advance orders for network nighttime periods in fall is about over for regular series, how about specials? Though not sold out, NBC-TV's Friday slot reserved for specials at 8:30-9:30 p.m. —already is near that point as 31 of 39 are said to be committed and five of remaining eight "reserved" for Chrysler. Sunday night specials (Sunday Showcase at 8-9 p.m.) reportedly are 67% sold (26 shows out of 39) despite fact peddling for this period got off to late start.

**Catv tactics** • Community television operators do not expect to block legitimation of vhf boosters, but they hope to encourage standards so stringent that boosters will cease to be threat to catv's growth. Cable operators feel they might not be able to lick booster adherents in Senate, but they exude confidence on outcome in House.

**Examiners' status** • Suggestion by FCC Chief Hearing Examiner James Cunningham, before House Legislative Oversight Subcommittee seminar that hearing examiners be called "hearing commissioners" and that their rulings be final and beyond review unless findings of facts are not supported by evidence, won no favor with Commission itself. Statement, approved by all commissioners disputing chief examiner's views, was authorized last Wednesday.

FCC members, to last man, felt Examiners' Cunningham's proposals would, in effect, relegate commissioners to position of review court. Actually, they thought his proposal would mean that examiners would become policy makers and supersede FCC. FCC statement presumably will be incorporated in House Legislative Oversight Committee record.

**New face** • RCA and subsidiary functions in Washington, now scattered, may be centralized at single downtown location within next few months. Pinckney B. Reed, vice president in charge of all Washington activities, is seeking new location. His headquarters now are in Commonwealth Building, 1625 K Street, but it's inadequate and no additional space can be procured there.

Mr. and Mrs. Reed were introduced to Washington communications officials last Thursday at reception at which RCA President John L. Burns, Chairman of Board Executive Committee Frank M. Folsom, Senior Executive Vice President Elmer W. Enstrom and Executive Vice President T. A. Smith were hosts.

**Effect of Sec. 315** • Because of FCC's re-examination of applicability of Sec. 315 to news programs, Campbell Arnoux, president of WTAG-AM-TV Norfolk, has ordered his stations to desist from covering activities of current political candidates for election to state legislature and other offices. Hot campaign issues could precipitate unconscionable demands for time and wreck normal news reporting, he said.

**Travelers** • Leonard H. Goldenson, president of AB-PT, and Ottie Trezy, president of ABC-TV, plan to spend August in Pacific in interest of network syndication, Am-Par records and other AB-PT properties. Organization owns minority interest in Australian broadcast enterprise (News Limited) and will explore prospects of extending basic overseas operations.

**Long run** • International shortwave allocations will be one of key problems at upcoming International Telecommunications Conference in Geneva to be held late in August. While American delegation hasn't yet been named, it's unofficial secret that Comm. T.A.M. Craven will head group of about 40 government delegates, plus 30-40 industry representatives who will serve as advisers.

**Trenton switch** • It's understood that by mutual agreement, NBC Radio and WTTM Trenton, N.J., are ending their affiliation, effective in August. Reports are that WTTM may become MBS affiliate.

**Favorable climate** • There's growing sentiment on Capitol Hill in favor of making significant repairs in Sec. 315, political broadcasting law, at this session. At very least news and public affairs shows will probably be exempted from equal-time provisions of law, it's believed, and with much of hard work by broadcasters, even more extensive corrections are thought possible.

**Farewell notes** • Whatever Voice of Firestone's ratings on air, as 1959-60 casualty it's getting public attention. Dropping of 30-year-old show from ABC-TV's fall schedule (Broadcasting, April 20) reportedly has drawn some 3,000 complaining letters to network, no small protest for a program casualty. Unlike "Dear Sir, you cut" letters that networks are accustomed to get on many occasions, most of these from Firestone's friends are said to be literate and rational—but still unhappy.

**Tax bite** • Ohio telecasters, through their state association, are vigorously opposing bill which would impose 3% tax on purchase or rental of motion picture film. Measure, endorsed by Ohio's Governor Mike Di Salle, would impose similar tax on motion picture theatres. While newspapers would pay tax on presses and other equipment, newsprint would be exempt.
Another key advertiser who’s up-to-date on Atlanta — and buying WAGA-TV of course—is the aggressive WINN-DIXIE food chain, now sponsoring the popular FLIGHT program every Tuesday at 8 PM.

WINN-DIXIE is one of a swelling roster of informed advertisers who’ve found from actual results that live Channel 5 is the buy in Atlanta. It’ll pay you to ask your KATZ man about the Early Show — Theatre 5 — and other powerful programming that delivers a big family audience at remarkably low cost on WAGA-TV.

Atlanta Toledo Cleveland Detroit Milwaukee
WEEK IN BRIEF

Not limited to consumers • Radio-tv may break into new field by inducing makers of non-consumer goods to use these mass media, according to Bob Dellinger, of Grant Adv., Hollywood. Two companies, Marquardt Corp. and Ciba, are now spreading their messages by broadcasting. Ciba believed to have set precedent in promoting prescription products on television. Mr. Dellinger tells about it in MONDAY MEMO. Page 19.

New push for color tv • Triangle Stations assemble some of nation’s top broadcasters for closed-door session in New York to catch up on state of color tv art, hear let’s-talk-money analyses of how new dimension can boost profits. Page 27.

Billing brawn in network television • In April it’s the Ford car topping the brands and Procter & Gamble contributes $4.6 million in gross. Trend item for four-month period: 25% increase in daytime billings. Page 32.

Getting ahead of the numbers • Atlanta agency develops streamlined way to adapt NCS No. 3 coverage data for its daily tv use. Page 35.

Ready to fight • Booster adherents, community tv proponents and boardcasters prepare for Washington hearing before Senate Commerce Committee. Booster operators fearful of their future. Catv operators to attack boosters and at same time defend themselves against attacks by broadcasters. Broadcasters like boosters, plump for catv regulation. Page 40.

House takes up Sec. 315 • Senate equal-time hearings end but House takes up question in sessions beginning today. Sen. Pastore promises early action by his subcommittee on some form of relief for broadcasters, indicating he favors reporting only one section of Hartke bill. Page 46.

Vhf and fm want to stay put • FCC told by industry witnesses their spectrum space should not be disturbed. Commission continues depth study of non-government services in 25-890 mc band. Page 58.

Voiced news merger • Two services, Radio Press Inc. and International Transmissions Inc., blend facilities and personnel. George Hamilton Combs will be chairman, Sumner J. Glimcher president. Page 62.

Tv’s most underrated service • News telecasts have “much stronger” impact on public than generally believed, according to Dr. Phillips Eisenberg, analyzing results of survey conducted for Corinthian Broadcasting Corp. Page 64.

Without their papers • Kansas City and St. Louis retailers find promotional outlets in broadcast stations as newspapers are shut down. Sales of stores holding up fairly well. Page 72.

Tv stations’ “imagery” • CBS Television Stations Division unveils new media study tracking the image and influences on viewer confidence in advertising. Surveyed are New York and Los Angeles. Page 75.

FCC SETS AGENCY WITNESSES

Top-drawer advertising agency executives were ordered to appear at FCC's inquiry into TV network programming practices for July 7 in U. S. Courthouse, Foley Square, New York (Broadcasting, June 22). Order issued Friday by Chief Hearing Examiner James D. Cassingham who is presiding at inquiry—which involves charges of tie-in practices by networks.

Hearings on programming study began last month with network legal aides testifying on documents and reports submitted to network study staff. New York hearings will cover function of advertising agencies in relation to production and selection of programs and schedules. Agencies and their representatives ordered to appear follow:

McCann-Erickson (C. Terence Clyne), BBDO (Robert L. Foreman and James Schule), J. Walter Thompson Co. (Dan Seymour and John F. Devine), Young & Rubicam (Peter G. Levathes and David Miller), Ted Bates & Co. (Richard A. B. Pinkham and Harold J. Saz), SSCP (Philip H. Cohen), B&B (Thomas J. McDermott—who joined Four Star Films last week, see page 10), Compton Advertising (Lewis H. Titterton), Cunningham & Walsh (John B. Cunningham) and Lennen & Mitchell (Nicholas E. Keesely).

Some of these witnesses will be appearing under subpoena.

Sec. 315 measure offered by Harris

Rep. Oren Harris (D-Ark.), chairman of House Communications Subcommittee which begins hearings today (Monday) on revisions of Sec. 315 of Communications Act, Friday (June 26) introduced a bill (HR 7985) which exempts newscasts, commentary, panel shows, political conventions and similar shows from Sec. 315—but does not include an exemption for debates.

New measure is similar to bill sponsored by Rep. Harris in 1956, which was subject of lengthy hearings. It also is very similar to three other bills to be considered in this week's hearings and to S 1585, introduced by Sen. Strom Thurmond (D-S.C.).

Also last Friday, Rep. Harris announced witness list for three days of hearings scheduled this week (see earlier story page 46. Rep. Glenn Cunningham (R-Neb.), sponsor of one bill (HR 5389) under consideration, which would amend equal time law, will be first witness at 10 a.m. today in Rm. 1334 of New House Office Bldg. He will be followed by other members of Congress, FCC Chairman John C. Doerfler, Comr. Frederick W. Ford and NBC Board Chairman Robert Sarnoff.

Witnesses tomorrow (Tuesday) will include Rep. Joseph W. Barr (D-Ind.), sponsor of HR 7122, Asst. Attorney General Robert Bicks from Justice Dept., CBS President Frank Stanton, NAB President Harold Fellows, Francis Littlejohn, ABC director of news and unnamed spokesman for United Independent Socialist Committee. Wednesday witnesses will be Paul Butler, chairman of Democratic National Committee; Westinghouse Broadcasting Co. President Donald McGannon; Lar Daly; Edward Gans of Berkeley, Calif., and Joseph Schafer, unsuccessful Republican nomination for Philadelphia mayor. Committee has invited several other prospective witnesses but confirmation of their appearance had not been received late Friday.

Major agencies in N.Y. merge

Merger announced today (June 29) of Fletcher Richards, Calkins & Holden, N.Y., with Bryan Houston, that city, creates agency with some $35-40 million in annual billing. Former name will be retained. Bryan Houston, board chairman of his agency, becomes vice chairman of board in new organization.

Bryan Houston Inc. ranked 31st among top 50 radio-TV agencies last year, has lost near $5 million spot TV advertiser, Dristan, Whitehall's second ranking product in volume.

Top officers continue: Bradley Walker, board chairman; Mr. Richards, president and chief executive officer; Paul Smith, vice chairman; J. Sherwood Smith, chairman of executive committee, while Joseph Scheidler, executive vice president of Bryan Houston, becomes executive in package goods marketing and merchandising. Headquarters stay at Richards' N.Y. office, 10 Rockefeller Plaza. Other offices are in Chicago, Los Angeles, San Francisco, Seattle, Toronto and Montreal. Larger radio-TV accounts include Chemway, Eastern Air Lines, J.A. Folger, Gulf Oil, Heublein Inc. Food Div., Litton Industries (electronics), McFadden Publications, Simplicity Pattern Co., J.P. Stevens and U.S. Rubber Co. among others.

Guild honors CBS-TV

CBS-TV's Playhouse 90 series (Thurs., 9:30-11 p.m.) was honored with Page One Award for radio and television last Friday (June 26) for "consistent, original, often experimental and always provocative drama." Award was presented by Newspaper Guild of New York.

Roger Clipp, Triangle Publications' radio-TV vice president, and John L. Murphy, Crosby Broadcasting Co. vice president, gave run down on their individual markets. Mr. Murphy said WLWT (TV) Cincinnati currently programs average 17 hours of color each week and "if other markets in U.S. would program on the same basis, color TV would make last gains." Said Mr. Clipp, for color to be salable medium in Philadelphia operating sets would have to go up from some 40,000 now in use to at least 100,000.

Tall Corn opposes Sec. 315 ruling

Resolution asking Congress to hold FCC "in error" in its interpretation of equal-time provisions of law governing political broadcasting adopted by Iowa Tall Corn Network during annual meeting at Lake Okoboji, June 22-25, but without taking sides on full repeal or specific issue of newscasts. Group also asked BMI to reinstitute series of radio programming clinics.

Robert W. Erickson, KOKX Keokuk, elected president of network succeeding Glen Stanley, KBOE Oskaloosa. Other officers elected were Leo R. Mayr, KCIM Carroll, and Ed Breen, KQTV (TV) and KVF D Fort Dodge, both vice presidents, and E. M. Horning, KSB Creston, secretary.

Tall Corn members set up structure for series of quarterly meetings with agency participation in key cities, probably starting in September. Members
discussed one rate card concept, which it adopted some months ago, and agreed unofficially to go along with it for at least another year. It also was felt 15% should be retained, with advertiser (rather than station) paying agency.

Among key speakers were Edward Fitzgerald, chief timebuyer, J. Walter Thompson Co., Chicago, and L. M. Booton, managing partner, Bruce B. Brewer & Co., Minneapolis. Mr. Fitzgerald urged stations to redouble efforts to provide sufficient station data (program logs, ratings, etc.) to enable agencies to make "intelligent" buys. Some subject was explored by Mr. Booton from vantage point of farm broadcasting.

Justice revision

Rep. James Roosevelt (D-Calif.) announced in House Friday (June 26) that Justice Dept. had filed proposed amended ASCAP consent decree with Judge Sylvester Ryan of New York District Court seven days earlier. Judge has not accepted agreement, Rep. Roosevelt said, but is holding it in abeyance at request of Justice to allow small publishers and songwriters to make known their views. Terms of consent decree have not been made public. New agreement is result of disclosures of ASCAP policies made in hearing over year ago by House Small Business Subcommittee headed by Rep. Roosevelt, Congress.

WXIX (TV) to return

WXIX (TV) Milwaukee, which went off air April 1 after CBS relinquished channel and which later was purchased by attorney Gene Posner, now president and general manager of WXIX Inc., will resume broadcasting at 4 p.m. July 20, according to Lawrence Turet, director of operations. Uhf station on ch. 18 will be on air daily from 4 p.m. to midnight.

CBS signs two

CBS Radio announced Friday (June 26) signing of WGPA Bethlehem, Pa., and KFIR North Bend, Ore., as affiliates, both effective July 5.

RCA color move

RCA acted swiftly Friday (June 26) to support independent move underway to promote color tv at local station level. Charles R. Denny, RCA product planning vice president, after closed meeting at New York's Waldorf-Astoria, attended also by NBC-TV and about 20 executives from top color-casting stations (see story, page 27), announced that starting July 1, RCA will send color tv representatives to stations for talks on individual plans because programming varies from one station to another.

CBS-TV news boost

CBS-TV is giving news programming new status. Announcement announced today (June 29) of Irvin Gitlin, director of public affairs, CBS News, to newly-created post of program executive for creative projects at CBS News. Mr. Gitlin takes over in new position Aug. 1 and will be responsible for creation and development of new "sponsorable" series for CBS News, while continuing executive program supervision.

WEEK'S HEADLINERS

Edward J. DeGray, vp in charge of ABC Radio since March 1958, elected network president. He joined ABC Radio in 1955, in 1957 was advanced to vp in charge of station relations. Mr. DeGray began his broadcasting career with accounting department of CBS in 1937. He was appointed office manager of WBT Charlotte, N.C., in 1940, and had advanced to assistant general manager by 1948 when he returned to CBS, N.Y., as executive assistant in charge of station administration, spot sales, co-op program sales and Housewives Protective League programs. He remained with CBS in various sales and station relations posts until early 1955 when he became director of station relations for Vitapix Guild Films, N.Y., organization established to sell tv films on national basis.

Thomas J. McDermott, senior vp in charge of tv-radio, Benton & Bowles, joins Four Star Films, independent tv film production company, Hollywood, as executive vp and board member (CLOSED CIRCUIT, June 22). At Four Star Films (principals are actors Dick Powell, David Niven and Charles Boyer) Mr. McDermott will supervise production on seven series slated for network showing in fall and create new programming for future seasons. Four Star's upcoming network shows are Zane Gray Theatre, Detectives, June Allyson Show, Wanted Dead or Alive, Riffman, Black Saddle and Johnny Ringo. Mr. McDermott entered programming as radio director in 1939, in 1942 began his career at Benton & Bowles. He became vp in charge of radio tv in 1953, senior vp earlier this year and member of B&B's board last year.

Harry G. Ommerle, formerly vp in charge of network programs, CBS-TV, N.Y., named senior vp and board member of Sullivan, Stauffer, Colell & Bayles, that city, where he will be responsible for clients' tv relations. Phillip H. Cohen, vp and radio-tv director, has also been elected to board of directors of SSC&B.

In 1935 Mr. Ommerle left N.W. Ayer & Son, Phila., where he was vp in charge of radio, to become producer with CBS. He subsequently held positions with William Morris agency, N.Y., and Ruthrauff & Ryan, that city, in 1948 operated his own talent agency and package-producing office. He rejoined CBS as program director in 1950 and was promoted to vp in 1955. Mr. Cohen has headed broadcast department since agency's founding in 1946, was elected vp in 1948. He was previously head of daytime radio department of Ruthrauff & Ryan.

FOR OTHER NEWS OF PEOPLE SEE FATES & FORTUNES
You don't have to run this up the flagpole to see who salutes. Not in Western Michigan you don't. Everybody is a WOOD-watcher. That's why local advertisers sign on with WOOD-TV night-to-night over Western Michigan's other station. Get your clients set on the right heading in WOODland — lash them up with WOOD-TV. Flag down your Katz man. He'll do the work... you'll get the credit, and we'll all be happy.

WOOD-TV is first—morning, noon, night, Monday through Sunday February '59 AND Grand Rapids, Michigan
WOOD-AM is first—morning, noon, night, Monday through Sunday March '59 Pulse Grand Rapids—5 county area

* "IT COMMUNICATES!"
Fran Allison is seen live daily, Monday through Friday, on WGN-TV in a program of music, song, guests and audience participation.

Chicago’s liveliest station—WGN-TV
WGN-TV originates more live local television programming than all other Chicago stations combined! Live programs are audience-building programs. They interest more viewers, cement viewer loyalty, and create the quality audiences that pay off at the cash register for you as a WGN-TV advertiser.

Live programming is just one of the many reasons why our "Serving all Chicagoland" programs bring the best in TV to Chicago audiences.

Typical live telecasts on WGN-TV include:

*Midnight Ticker*—comparable to any network variety show. Fridays—11:45 P.M. to 1:15 A.M.

*Paul Fogarty*—Chicago's only exercise program. Daily—8:30 to 9:00 A.M.

*Garfield Goose*—Chicago's favorite puppet show. Daily—5:00 to 5:45 P.M.

*Polka Party*—Orchestra, dancing, studio audience. Saturdays—7:00 to 7:30 P.M.

plus many special telecasts, newscasts and on-the-spot events.
Having a 47-county Oklahoma Community Coverage poses a responsibility to KWTV in the field of public service. Every other Wednesday, J. Howard Edmondson, Oklahoma's youthful Governor spends a Class A half-hour with KWTV's News Director, Bruce Palmer, in reporting to the KWTV Community. At times, the Governor has asked for letters and telegrams in expression of the people's views on an issue. Literally thousands of replies have opened the eyes of many Oklahoma legislators to the feelings of the people.

Powerful proof of KWTV's 47-county Oklahoma community coverage, service and AUDIENCE!

PRESENTED BY THE KATZ AGENCY / BASIC ABC IN PITTSBURGH
Radio-tv sell non-consumer lines too

Two highly technical companies dealing in non-consumer products made a decision in recent weeks which might have far-reaching effects on the broadcasting and telecasting industry.

On the basis of advertising philosophy alone, the events may crack open the doors to radio and television for manufacturers of non-consumer goods who until now have not felt that these mass media could bring them results warranting large outlays of money.

However, two companies, Marquardt Corp., Van Nuys, Calif., and Ciba Pharmaceutical Products, New York, have decided that radio and television are the right places for them to present their messages.

News for the Engineer • The Marquardt Corp., a client of Grant Adv., has authorized a new 52-week contract for its Engineering Report. The daily five-minute radio program (6:55 a.m.) reports the latest science-engineering news, written from an engineer's frame of reference. The program has already passed the 500-broadcast mark and is aimed specifically at the thousands of engineers and scientists in the Los Angeles area via KFI there.

Meanwhile, in New York, Ciba has announced a tv test program This Week in Medicine running on stations in Miami, Dallas, Kansas City and Binghamton, N.Y. This 15-minute program, also being presented in early morning hours, consists of a rundown of medical news and is slanted completely to doctors. The general public is not invited to tune in and Ciba hopes the highly technical language it uses on the program will discourage all but doctors from watching.

The Ciba effort is believed to mark the first time in the history of pharmaceutical advertising that a prescription product will have been promoted on tv. It may, in fact, be the first time a prescription product has ever been promoted in any consumer medium.

Ciba feels its new approach will break the log jam in advertiser-to-doctor communications. With doctors inundated with direct mail, Ciba is attempting to reach them via its special tv effort.

Keen Competition • The Marquardt Corp. is a youthful and highly specialized research and development company in the aircraft-missiles field. Founded 15 years ago, it quickly established a reputation for engineering competence. The rapid success of the organization, however, created problems. As engineering achievements were made, the company received new and more involved defense contracts, requiring it to expand its engineering and scientific staff. As new projects were undertaken, the company found itself in an urgent need for large numbers of high quality professional engineers and scientists which were, and are, in extremely short supply.

Compounding Marquardt's problem even further was the fact that these critical engineers and scientists were also being sought by companies with well known reputations and war-time records of achievements. Engineers tended to join the well known companies.

The problem appeared to be how to establish among the target audience "Marquardt's engineering and scientific achievements, quickly, and on a level with their major competitors." And the next question: How to do it with a limited advertising budget?

Finding the Market • Research supplied the first key to the answer. It was learned that the Los Angeles area with its $23 million weekly aircraft payroll held approximately 31.6% of the aviation and missile industry's engineers and scientists.

Knowing something about the characteristics of the prospects, and having pinpointed their location, the problem then was to reach them. Our primary budget went into trade journals because of their proven ability to deliver a vertical audience on a low cost per thousand basis. However, since the engineering market in Los Angeles is so highly concentrated, a test radio campaign seemed like a good idea.

The second and most important key to the problem was then discovered. With some 50 engineering and scientific categories—each with its trade journals, society meetings, pamphlets and direct mail—we learned that it is extremely difficult for engineers to keep up-to-date with the rapidly advancing technology. Why not then an engineering-science news digest which the engineers and scientists could listen to while driving to work.

The program philosophy was that it would be designed for engineers and scientists only. It would be written by technical editors, in technical language and presented by an authoritative, "engineer"-sounding announcer.

Hitting the Target • Perhaps the significance of the Marquardt success and the current Ciba test can be summed up by Jack Anderson, Marquardt manager of advertising and public relations, "In today's rapidly expanding economy, tv with its modern communication literature, radio and tv offer the industrial and technical advertiser an isolated billboard away from his competitors. In essence, programs such as Ciba's and our's provide the customer and prospect with a service similar to that of a trade journal. However, instead of sharing honors for the editorial information with 100 other advertisers, you receive the individual recognition and appreciation of the interested audience."

Twenty-nine-year-old Bob Delliger is vice president and chairman of Grant Adv.'s Hollywood plans board. Prior to his current assignment, he was vice president and manager of Grant-Dallas. He joined Grant three years ago as public relations director, Hollywood. Before joining Grant, he was with Brown-Forman Distillers, Louisville, and General Electric Co., Los Angeles. A graduate of Indiana U., Mr. Delliger was a member of the 1931 All-Big-Ten track team and is holder of numerous mile and two-mile run records. After college he served in the Korean War as Air Force first lieutenant. He is active in professional and civic organizations in Los Angeles and is a former director of the Los Angeles Advertising Club.
Corinthian’s changing in Sacramento ...

KXTV
(Formerly KBET-TV)

. . . is now a Corinthian Station . . .
and new aggressive local management is already busy . . . strengthening the program structure . . . tripling newscasts . . . stepping up promotion . . . improving facilities.

KXTV can now tap the pooled resources, talent and experience of the four other Corinthian Stations and the Corinthian staff.

There is now a Corinthian Station in the capital of California serving the Central Valley . . . the fastest growing area in the fastest growing state . . . another Corinthian Station on the move in a market on the move . . . represented by H-R, television.
the television picture

in Houston...

KHOU-TV
(Formerly KGUL-TV)

...it's a new name to go with a new look... newscasts tripled and a Washington News Bureau... exciting news personality Larry Rasco... Houston's first noon news and only woman's show... intensified, talk-creating promotion.

And construction is now underway on a striking new studio plant... designed to be a showcase for television in the burgeoning Houston market.

Another Corinthian Station on the move in a market on the move... represented by CBS-TV spot sales.
New England study

EDITOR:
Well done on your New England study. The “comeback” you write about is no news to me since many of our clients have been registering unusual sales gains in this important region.

Peter Bardach

EDITOR:
Please send us 10 reprints...

Harriet E. Benton
Radio-TV Director
Ray Barron Inc. Adv., Boston

EDITOR:
I was most pleased to read your special report on New England. Capt. Thomas Tibbals came to Boston in 1635 and founded Milford, Conn., in 1639. Since then New Englanders have survived Indians, Red Coats, depressions, panics, world wars and industrial crises perhaps better than any other area of our country. Their fault is in “hiding their light under a bushel!” and it is high time somebody really spoke up and gave us the facts.

Congratulations on a fine article.

Walter A. Tibbals
Vice President
Norman, Craig & Kummel
New York

EDITOR:
I congratulate you on what I consider to be a first-rate job. In fact, I enjoyed it so much that I took the liberty of inserting a portion of this special section in the Congressional Record yesterday.

Sen. Norris Cotton (R-N.H.)

EDITOR:
...you may be sure that it will be of use to my staff as well as myself.

Rep. James C. Oliver (D-Me.)

EDITOR:
...it appears to be a splendid effort in acquainting the public with the opportunities and the progress being made in the New England area.

Sen. Styles Bridges (R-N.H.)

EDITOR:
Your special report...is the kind of comprehensive reporting for which you are famous. New England for too long has been misunderstood...

Arthur H. McCoy
John Blair & Co.
New York

EDITOR:
May I add my congratulations...Would it be possible to get reprints of this story for local distribution?

George H. Jaspert
WCCM Lawrence, Mass.

EDITOR:
...I am happy to see Broadcasting putting the facts in perspective...

Rep. Emilio O. Daddario
(D-Conn.)

EDITOR:
Congratulations on a very fine piece—comprehensive, factual, well-written...

George H. Ariss
Financial Editor
Providence Journal and Evening Bulletin
Providence, R.I.

EDITOR:
...This report should give a much needed boost to the broadcast media here in New England which has not, heretofore, received its proper share of the broadcast dollar from the national advertisers.

KAYS-TV and the tornado

EDITOR:

After 10 years of trade press study,

I'm sure the most interesting, best-

handled story I have read appeared in

your June 8 issue, page 74 ("Tornado

warner becomes twister victim"). . . .

It might be interesting to you

know also that your article has evi-

dently created substantial curiosi-

ty about our weather operation from sta-

tions pretty much all over.

This is a rather unexpected by-

product of losing a tower, but a wel-

come one from the standpoint of

publicity (which we do not find em-

barrassing—only different) and the

broader fact that we honestly believe in

our public responsibility in this matter

and think we have an idea of value to

pass along.

John Q. Quigley
Operations Mgr.
KAYS-TV, Hays, Kan.

Civic spirit runs high

EDITOR:

Four mayors, two chamber of com-

merce presidents and two legislators

are radio broadcasters in Washington

state. As BROADCASTING reported June

8, Yakima has unique status—the

president of the Chamber of Commerce

is Jack Goetz, KIT, and Tom Bostic,

KIMA, is mayor.

KPQ Wenatchee has had two presi-

dents of the Chamber of Commerce in

the past nine years. Currently it's Pat

O'Halloran, vice president of KPQ.

Other mayors besides Mr. Bostic are

John Condon, KTAC Tacoma, mayor

of Puyallup, and Allan Miller, KWSC

Pullman.

Any other state radio men so com-

munity minded?

James W. Wallace
KPQ Wenatchee, Wash.

[EDITOR'S NOTE: State legislators are Joe

Chytil, KEA; Centralia-Chelhalis, and Pat

Nicholson, KBRO Bremerton.]

MIKE MAY...Pied Piper of South Bend

Mike May's "Popeye Theater" is South Bend's top TV show for children. With puppets and personality, Mike weaves a special brand of make-believe magic. And the kids love it, whether at home or participating in the studio audience.

The Jan.-Feb. ARB gives this daily afternoon show a 23.8 rating—more than double the combined ratings of all area stations (4:00-5:00 P.M.). Advertisers' success stories are legion on WSBT-TV's "Popeye Theater". It is typical of the many highly rated local personality shows on WSBT-TV.

WSBT-TV dominates South Bend...the focal point of Indiana's prosperous second market. This station carries 8 of the 10 top rated shows; averages 45.2% share of sets in use. Effective Buying Income in WSBT-TV's 15-county coverage area is $1,613,896,000!

For free market data book and remaining "Popeye Theater" availabilities, see your Raymer man or write this station.
New excitement, new fun on Channel 91 are swinging folks on all sides of San Francisco Bay to BIG BAY RADIO...the big, new “kissin’ cousin” of Channel 98 in Los Angeles. The same concept of contemporary programming, brisk pace and ‘round the clock fun that resulted in Rocketing Ratings in Los Angeles is now pulling in Bay Area listeners.

Get aboard NOW... and sell the important Big Bay Area with audience-grabbing BIG BAY RADIO.

NEW PUSH FOR COLOR TELEVISION

- Get-behind-color meeting draws score of leading broadcasters
- RCA picks up significant support in its long, lonely campaign
- Point of meeting: color can be used to boost television billing

Esthetics be damned. There's money to be made in color tv, and now's the time to go after it.

Distilled, that was the message given representatives of some of the country's leading television stations last Friday (June 26) in New York. They were brought there by the invitation of Triangle stations' Roger Clipp to hear (1) status reports on where color is today and (2) what they should do about it. What they should do about it is sell it, said Mr. Clipp, "in our own selfish interests."

The closed-door session in the Waldorf-Astoria was made significant by the fact that the prime mover in this instance was not RCA, which until now has been a lonely champion of color, but an independent broadcasting group. It was also significant in its audience, all top-drawer broadcasting executives who went out of their way to hear the dollars-and-cents presentations.

This is what they heard:
- From TVB's Pete Cash—Color is tv's "ace in the hole" in the competition for more advertising dollars.
- From Mr. Clipp—While blame for the lack of color acceptance until now cannot be laid to stations, a push now by 400 or 500 stations would undoubtedly increase set sales. What's needed: A $200 set.
- From RCA's Charles Denny—Color can fulfill its promise and already has in six "significant" areas.
- From NBC's Tom Coffin—The addition of a color dimension can increase a show's audience by as much as 80%.
- From Mort Farr, a distributor-retailer from Upper Darby, Pa.—A recounting of how much color sales can mean to the appliance merchant, and reasons why the public will pay a premium for color.
- From NBC-TV's Don Durgin, vice president for network sales—A recap of the network's color plans for the 1959-60 season, highlighted by 250 hours of color in this year's fourth quarter (up 30% over last year), expansion of color studio facilities and continuation of seven-day-a-week color programming.

The play-by-play on the color tv presentation follows below. See AT DEADLINE for report on participant reaction.

Norman E. (Pete) Cash, president of the Television Bureau of Advertising, developing the thesis that color is tv's "ace in the hole," offered an analysis of television business in the immediate future: Cost will continue to rise; profit margins will shrink unless rate increases can be justified. The "ace," he said, could be color tv because research by both Crosley and NBC have shown that color can increase substantially the ratings of a program. Increased circulation, Mr. Cash stressed, can mean justifiable rate increases.

The most pressing immediate need, he said, is the promotion and the selling of color sets.

(Mr. Cash claimed there is an additional $70 million for tv in the advertising marketplace—if color programming were more widespread. He enumerated, one by one, the expenditures by the top 100 national advertisers for "color advertising" in other media and estimated a percentage from each medium that could accrue to tv—provided color tv could be made available and attractive to advertisers. He suggested these inroads were possible:

- From magazine's total of $145 million in color advertising, color tv could garner $29 million.
- From billboards' $63 million, color tv could capture $12.6 million.
- From newspapers' $122 million color tv could lure away $25 million.
- From radio's $145 million color tv could capture $12.6 million.
- From the prime mover's budget for report, almost $2 million.
- From the consumer's ")) than coast on the highest levels of billings our industry has ever imagined."

Clipp's Views ● Roger W. Clipp, vice president and general manager of the Triangle Radio and Tv Station Division, expressed the view that the core of color tv's problem is "price" and added:

"A $200 color set would sell like hotcakes."

(RCA, however, feels there is little likelihood of a reduction in the selling price of color receivers in the immediate future since there are no new developments on the horizon that would substantially lower production costs. The lowest-priced model now retails for $495.)

Mr. Clipp conceded that the price of color receivers cannot come down to "mass buying levels" until a
HOW COLOR BEEFS UP AUDIENCE

What does color do for your audience standing? More sets are turned on. A higher share of audience watches. There are more viewers at each color set than at black and white sets.

These answers are the crux of a color tv progress report handed down by NBC last week, first on Wednesday at a network-sponsored presentation and again Friday before the Triangle-assembled broadcasters. The network had commissioned Trendex to conduct a special study of viewing in color tv homes in Boston, Omaha, Chicago, Milwaukee and Philadelphia. The simple: 8,000 interviews conducted by standard telephone coincidental.

Dr. Thomas E. Coffin, director of research, NBC, disclosed these survey highlights:
- Color tv’s overall audience advantage is 2 to 1. That is, twice as many people watch the color programs in color homes as in black-and-white homes. One factor: 50% of color homes had their sets in use, compared to only 43% of the control black-and-white homes.
- Color programs enjoyed a 50% advantage in share-of-audience among color owners. Color shows got 60% of the audience in color homes, compared to 39% in black-and-white homes.
- With higher sets-in-use levels and greater share of audience, the rating of the color programs was 80% higher in color homes—averaging 30.4 in color homes vs. 16.9 in black-and-white homes.
- On the average, the number of viewers watching tv was 12% greater in color homes. Sidelight: Color programs reach 24% more men per set.

Interviews were divided equally between color homes and black-and-white homes. In order to match these two samples as closely as possible, the next-door neighbors of color set owners were interviewed. Four NBC-TV programs were picked for investigation. They were Steve Allen, Dinah Shore, Arthur Murray Party and Perry Como. Patterns of audience gains held true for each show, Dr. Coffin said. Consistency of results also held up in each of the individual markets.

sufficiency of programming and a guarantee of quality reception are provided. "When these two elements are achieved," Mr. Clipp declared, "we will then be on the road to the third and final phase of color development, which is true circulation."

Mr. Clipp contended that "The lack of development of color is not due to lack of promotion on the part of stations," but added, "on the other hand, if 400 or 500 stations got solidly behind color promotion and saturated their schedules daily with color messages, of course more tv sets would be sold."

Set Sales • Mort Farr, appliance retailer-distributor in Upper Darby, Pa., and recent Brand Names Foundation retailer of the year award winner, called color tv "the hope of television merchandising." He noted that the set owner today has no compelling reason to trade in his set—except to buy a color receiver. His recommendation: broadcasters should step up their color programming and promote their color shows aggressively.

He insisted that price is not "the controlling factor" in hindering the sale of color tv sets. Mr. Farr indicated that with a hard-hitting promotional effort by the manufacturer and broadcaster and specialty selling by the wholesaler and retailer, color sets can be moved. He observed that in 1958 the sale of color tv sets accounted for 16% of his business and he predicted that his 1959 color sales will be double those of last year.

To buttress his contention that price need not be a deterrent to sales, Mr. Farr pointed out most cars are sold with a full complement of extras that run between $700 and $800 and high-priced stereophonic equipment sales are soaring.

RCA’s Forecast • Charles R. Denny, vice president, products planning, RCA, who noted that color will affect every phase of the tv industry, underscored color’s impact on tv’s future growth
Robert J. Sinnett, Director of Engineering for WHBF Radio and TV, checks emergency power supply automatic switching panel at WHBF-TV transmitter.

His Responsibility: Reliable Service to WHBF Radio and WHBF-TV Audiences--and to our Advertisers, Also

Bob Sinnett has been a part of the Quad-City radio industry longer than anyone else. Now completing his 28th year at WHBF, his job is to keep several million dollars worth of broadcasting equipment running smoothly. Bob is a registered professional engineer, a senior member of the Institute of Radio Engineers and has served on the NAB Engineering Committee.

With this background as a guide, Bob has installed at WHBF, Radio and TV, emergency equipment to cut program interruptions to an irreducible minimum. Both WHBF Radio and TV have stand-by transmitters and antennae. WHBF-TV has an emergency generator, pictured above, that automatically takes over when central station power fails. There's a stand-by microwave link between our studios and TV transmitter. Our 1000-foot tower has an elevator to speed maintenance.

Throughout WHBF engineering facilities there is duplicate and stand-by equipment to take over if primary equipment should fail. In addition, Bob's crew follows a rigorous preventive maintenance program.

All this adds up to fewer outages and fewer commercials missed; less need for make-goods or credits and the extra work this entails; virtual elimination of audience annoyance at program interruptions. It assures audience and advertisers alike of constant, reliable service from WHBF, prestige Radio and TV.

BROADCAST ADVERTISING

FORD LEADING NETWORK TV
P&G still biggest multi-product spender

The spring sales drive for Ford passenger cars has shown up in the record of network tv time purchases. Ford Motor Co.'s Ford Div. allocated $738,988 gross billing for the cars in April alone.

The Ford investment is revealed in Televising's supplementary report of gross time charges for network tv covering the period from January through April this year. Completions were made by Leading National Advertisers and Broadcast Advertiser Reports.

Ford's heavy concentration moved the passenger car to the top of the April list of the leading 15 brands in network tv. Other outstanding items revealed in the report:

- Network tv daytime billings in the first four months of the year increased 25.8% compared to the same period of 1958. The figures: $70.6 million plus this year compared to $56.1 million-plus last year.
- Procter & Gamble, No. 1 national advertiser and unquestionably tv's national leader, registered over $4.6 million gross billing in network tv in the month of April. This is more than the combined Investment for General Motors and Ford Motor in network tv that month, and more than the combined billing of the four cigarette companies appearing in the top 15 list for April (R.J. Reynolds, P. Lorillard, Liggett & Myers and American Tobacco).
- The constant climb of the food category continues at a rapid rate. On the basis of the January-April period,

food billings have shot ahead of last year by at least $4.3 million and are outstripping the nearest contending category (toiletries and toilet goods advertisers) by some $6.3 million.

AD COMMANDMENT

Hutchinson off hook with lecture by FTC

A phony demonstration on tv—whether or not the claim is true—is misleading advertising.

This was the finding last week by the Federal Trade Commission in the Hutchinson's Waterproof Wax Case. The FTC made the point that a gimmicked demonstration of a product—on a tv commercial—which falsely indicates or implies certain qualities or performances—is a violation of the law whether or not accompanying claims for the product are false or true.

The FTC, in an opinion by Comr. Sigurd Anderson, last week upheld this position taken by FTC counsel. In the tv appeal from an FTC hearing examiner's ruling recommending dismissal of charges against Hutchinson Chemical Corp., Chicago. But the FTC dismissed the case against Hutchinson anyway on grounds FTC counsel failed to disprove the implications made in the demonstration.

Charles Sweeney, director of the FTC's radio-television monitoring service, said that although the case was dismissed, the FTC holding against phony tv demonstrations was its most important decision in tv since the Roberts case in which the FTC obtained a consent decree in its move against "white smoke" and other visual misrepresentations.

At issue were FTC charges made against Hutchinson May 7, 1958, that the firm's "flaming-automobile" tv commercial violated the Act. In the tv demonstration, the product was applied to the metal surface of a car, an inflammable liquid was poured on, set afire, allowed to burn 12 seconds and then extinguished with water. The audio claim was that the fire and water (heat and cold extremes) did not damage the surface.

The FTC did not make charges against the audio claims but against the tv demonstration's implied claims.

The examiner held the proof or disproof contained in the demonstration was immaterial since the audio claims were not challenged; that the tv demonstration alone thus was not a violation of the act. He recommended dismissal.

The FTC opinion held the language of the applicable section of the FTC Act was "deliberately couched in generalities" so the FTC and courts may
Who could sell them anything now...except RADIO

The “Companion Medium” is more Potent than ever... but there’s an Important Difference between Stations!

Radio’s strength is its ability to reach people where they are. Wherever people are awake radio reaches into their minds... persuasively and repeatedly. And it can do this most economically.

This is the basic advantage of all radio. But there is an important difference between ordinary and great radio stations. The great station maintains the highest standards of programming, backed by substantial investment in top facilities and personnel. Its responsible management permits no carnival gimmicks, shoddy giveaways or questionable advertising. It attracts large audiences exceptionally loyal to both the station and its advertisers. Numerically, these great stations are not many. Those listed here are the great stations in 18 important markets... and you need add only 30 out of the more than 3,000 now broadcasting to achieve effective nation-wide reach. This total of 48 represents “The Nation’s Voice.” The strategy of concentrating on these leadership stations is the way to realize the full power of “the companion medium”... the way to put all of radio’s vitality to work on your sales problems.

decide in each instance whether a particular practice is unfair. The FTC added that purchasers may be led to buy a product after seeing what they believe is a valid test or demonstration and if such advertising is untrue it would mislead purchasers into buying it. "The law is well settled that the public is entitled to buy what it thinks is being bought," the FTC said.

The FTC said the record fails to establish, however, that the demonstration does not prove the product is resistant to both heat and cold. An expert had testified that no damage would occur from flaming gasoline and the water for a period of five seconds, even without wax. But he did not testify whether damage would occur over the specific time of the fire-water demonstration in the commercial, 12 seconds. He said he didn't believe gasoline would burn long enough to cause damage.

L&M heads 1st quarter radio spot advertisers

It's a smoke trail in spot radio. Five tobacco giants are among spot radio's first-quarter leaders and one firm, Liggett & Myers Tobacco, leads the pack.

According to Radio Advertising Bureau, spot radio's second best customer in the first quarter of this year was Thomas Leeming & Co. (Pacquins, Ben-Gay, Silk 'n Satin).

Here are the top 10 advertisers in spot radio: 1, Liggett & Myers Tobacco; 2, Thomas Leeming & Co.; 3, R.J. Reynolds Tobacco; 4, Ford Motor; 5, P. Lorillard; 6, American Tobacco; 7, Pharmac Inc.; 8, Campbell Soup; 9, Beneficial Finance; 10, Philip Morris.

Brand Advertisers in Thousands • RAB notes that in compiling the top 20 ranking, it drew from more than 1,100 brand advertisers using spot radio during the first quarter and based the sample on sources accounting for about half of all spot radio sales.

A month ago, RAB had revealed actual first-quarter estimates of spot radio expenditures by leading tobacco firms (BROADCASTING, May 18). The billing figures came from a study conducted for the bureau by executives Radio Research Bureau. That study, measuring activity in the top 100 markets, placed Liggett & Myers' mark at $1.4 million; R.J. Reynolds at $900,000; P. Lorillard at $660,000; American Tobacco at $600,000 and Philip Morris at $400,000.

NIelsen Made Easy via Map

Atlanta agency invents chart technique for 'instantaneous picture' of NCS No. 3

An Atlanta-based agency has devised a way to portray visually the marketing route of a tv campaign. Liller, Neal, Battle & Lindsey, which also operates out of offices in Richmond and New York, has put together a novel adaptation of Nielsen Coverage Survey No. 3 (county-by-county data on tv station coverage). To quickly chart its path through the thicket of tv coverage statistics, the agency utilizes the following tools:

• A base map, mounted on cardstock that shows the outline of counties in clear type.
• Three-color acetate transparent cut-outs, each showing a station's county coverage.
• A color key for each of the cut-outs: yellow, blue and red. Each color represents a percentage of total homes in a county covered—yellow is 25-50%, blue is 51-75% and red is 76% or above.
• Each of the individual plastics is prepared for every station in the area for which the agency has NCS No. 3 and for other subscribing stations willing to send the agency necessary data. The total of stations so mapped is over 125.

The cut-outs are placed over the map. The 25% cut off, according to the agency, is "arbitrary" and certainly not an important detail. What's wanted is a "quick, visual presentation of the voluminous data in NCS No. 3." Pamela Tabberer, media director of the agency, explained the background of the quickie method: "We call it our 'NCS instant coverage kit,'" she says, adding that there are "no fancy formulas, just straight NCS data out of the book. From the county listings, we've made up three-color acetate cut-outs, one for each station.

"When we have a coverage question we just pull cut-outs from a file and thumbback them to a base map on the wall. Is the agency to ascertain quickly during a tv campaign's planning the coverage of a group of markets—"see where the gaps are, or suggest adding stations where we need extra coverage"; and to permit clients to have a speedy picture of coverage they can receive for any particular campaign.

Brook Campaign • Liller, Neal Battle & Lindsey has used the coverage map to chart out its tv campaign for Brook candy (Brock Candy Co., Chattanooga, Tenn.). As seen on the map, the various colors and overlay appear in the southern area of the U.S., concentrating mainly on western North Carolina, most of South Carolina, into Georgia, Florida, Alabama, Mississippi, Kentucky and eastern Tennessee.

Rent-A-Car, Mayer looking for agency

Two prestige accounts, Hertz Corp. (Rent-A-Car) and Oscar Mayer & Co., were still "loose" last week, despite agency bids for business totaling $5.5 million. Hertz completed three days of hearings and mulled over various agency presentations, but reportedly had not decided whether to shift its $4 mil-

lion Rent-A-Car account from Campbell-Ewald Co. Its car and truck lease service account, handled by Needham, Louis & Brophy, is not involved. Hertz currently is active in spot TV over 13 stations in 11 key markets through August.

Oscar Mayer (meat products) reported it is not likely to announce a new agency for a fortnight. It is moving its $1.5 million account (about half in broadcast media) from Wherry, Baker & Tilden in September or October. (The agency becomes Baker, Tilden, Bolgard & Barger July 15.)

**FALL SCHEDULE**

**Networks' evenings nearly all sold out**

With the networks' fall nighttime schedules near the sell-out point, the "open" areas in which Johnny-come-lately national advertisers could maneuver are becoming more limited.

Some new signings, however, were reported at each of the networks. ABC-TV and NBC-TV still have time available, but each has narrowed the openings. CBS-TV was 45 minutes per week away from saturation. Per network:

**CBS-TV**—Technically, as of Thursday (June 25), a national advertiser could find only this limited "availability" remaining. A half of Space, a Zip production slated for Wednesday, 8:30-9, and a third of Lineup, a 60-minute show that starts at 7:30 that night.

Newly-committed for Lineup are Vicks Chemical (vapor rub) and Peter Paul Mounds (candy), each picking up a third of the show.

**ABC-TV**—A new programming decision will place Colt 45 into the 7-7:30 period on Sunday, thus advancing the start of network service a half hour that night. NBC-TV already has plans to open its Sunday night period at 7 o'clock with Riverboat, an hour-long production. Next up that night at 7:30 on ABC-TV is Maverick.

ABC-TV also picked up Ludens Inc., via J.M. Mathes, for part sponsorship of Alaskans, Adventures in Paradise, Untouchables and Bronco, and set You Asked For It for the Thursday, 7:30-8 p.m. period, for which Skippy peanut butter (Best Foods via Guild, Bascom & Bonfigli) is said to be signed.

**NBC-TV**—Advertisers for the fall continued to assemble. Among them: Bulova Watch, through McCann-Erickson, for People Are Funny at Friday, 7:30-8 p.m. Alternate sponsor on that show is Greyhound, via Grey. Still others were being signed for specials which will fill a large part of the NBC-TV schedule.

**GUILD, BASCOM AGENCY REALIGNS STAFF, POLICY**

Realignment of staff personnel and responsibilities at Guild, Bascom & Bonfigli, San Francisco, was announced last week by Walter Guild, GB&B president. Changes involved cover the media, creative and account service areas.

The major shuffle was in the media department. Hereetofore, media buying for accounts serviced in the various GB&B branch offices was centralized in San Francisco, but under the change, the New York and Seattle offices will handle buying for their accounts. Frank Gianatassio, formerly a media buyer for Ogilvy, Benson & Mather, New York, has been named media director of GB&B's New York office. In Seattle, Collen Mattice, media director, will supervise buying for Carling and Heidelberg beers.

Creative activities on all accounts will continue to be centered in San Francisco headquarters. William Franklin, formerly coordinating account executive on Ralston Purina, has been appointed creative administrator on all accounts. Richard Tyler, previously administrative head of the media department, succeeds Mr. Franklin as coordinating account executive on Ralston, and he, in turn, is replaced as administrative head of the media department in San Francisco by Lyn Gross, previously media director there.

In Hollywood, George Allen, tv businessman, assumes additional responsibilities as coordinator of all activities there. Karl Gruener will be in charge of all tv program procurement and Dave Pulmer will head tv commercial production.

**New York ad folk elect new officers**

The Assn. of Advertising Men & Women, New York, last Tuesday (June 23) installed Stanley H. Rubin, account representative, Elite Letter Co., as president. G. James Proud, president of Advertising Federation of America administered the oath of office. The group's annual member award for significant contributions to the organization during the year, the Australian Cup, was presented to Stanley Linden of D.H. Tewlliger & Co., who also was installed as a vice president.

Other new officers are: Alan Jacobson, copy consultant, vice president; Dorothy Nixon, Lever Bros., secretary; Shirley Reed, Bureau of Advertising, assistant secretary, and Fred Matake, Pronto Addressing & Mailing Service, treasurer.

**Labor Dept. booklet**

Wage-earners, with a workweek shortened by 15 to 20 hours since 1900, have more leisure time for hobbies, sports, education, and travel and a greater margin of funds to use for these pursuits, according to a study by the U.S. Labor Dept. The study traces changes in American city workers' buying habits since 1875.

RURAL SERVICE: CATV, BOOSTERS?

Senate Commerce subcommittee to begin hearings on issue of who will feed remote areas and how it will be done.

The dual-pronged battle between community antenna systems and western broadcasters—and between CATV operators and booster adherents—will be joined tomorrow before the U.S. Senate.  

A Senate Commerce Committee subcommittee will begin taking testimony from booster advocates, CATV proponents, broadcasters and the FCC on the subject of distribution systems that have brought TV signals into hamlets and inaccessible areas of the country.  

Booster boosters, led by the venerable Ed Johnson, longtime Senator from Colorado (and long-time chairman of the Senate Commerce Committee) and former Governor of Colorado, will testify on the FCC's recommendations that the Communications Act be amended to permit proper federal supervision of on-channel and off-channel vhf repeater stations.  

Broadcasters will testify in favor of booster operation and, vigorously, against unregulated CATV operations.  

The catv operators will appear in force to turn back this tide. They will oppose the FCC's recommendations regarding legislation to require them to secure the permission of the station whose signals they pick up and to the requirement that they carry the local station if so requested—and to plump for their own version of legislation bringing them under FCC regulation.  

The Washington meeting comes one week after the eighth annual convention of the National Community Assn. in Philadelphia, which saw more than 500 CATV operators in attendance.  

The Capitol Hill hearings also came one week after the FCC postponed five microwave relay grants which proposed to bring distant-city TV signals to cable companies.  

Hearing Schedule • The hearing, before the Senate Commerce communications subcommittee—with Sen. John Pastore (D-R.I.) presiding—will hear the following witnesses, according to the scheduled lineup as of last week:  

July 1—Sen. Frank E. Moss (D-Utah), George Hatch, KUTV (TV) Salt Lake City, Utah; Ed Crane, KXLE-TV Butte, Mont.; Rex G. Howell, KREX-TV Grand Junction, Colo.; Marshall H. Pengra, KLTV (TV) Tyler, Tex.; Forrest E. Cooper, Lakeview, Ore.; Frank Reardon, KGEZ-TV Kalispell, Mont.; Bill Grove, KFBC-TV Cheyenne, Wy.  

WHAT THE SHOUTING IS ABOUT  

What are community antenna systems, boosters and translators and how did the present dispute over their futures come about?  

When the FCC instituted its TV freeze in 1948—the action that put television application processing on ice for four years—it didn't realize it was going to be godfather to a host of secondary TV problems that one day would engage the attention of the Congress of the United States.  

Because TV was "frozen" for four years, many homes that were outside the range of the then-existing 108 TV stations went to extraordinary lengths to pick up TV signals. Not unusual were 100-ft. towers bearing dipoles in the backyards of country estates and farm homes or even 100 miles away from big-city TV outlets. Many similar receiving installations cropped up in communities located in valleys whose surrounding mountains constituted an iron curtain against the entry of TV signals.  

Community Antennas • It was then, in 1950, that there appeared in several small Pennsylvania communities the phenomenon now known as community antenna TV systems. Unable to receive TV signals because of the mountainous terrain of central and western Pennsylvania, groups of local businessmen banded together to put up on the nearest and highest mountain a custom-engineered receiving antenna which could capture the TV programs winging overhead. These signals via coaxial cable were carried down the mountain top and to the homes of subscribers. Naturally there was a fee, and since the early 1950's, these systems have burgeoned and become successful throughout the United States.  

In recent years, CATV operators have not been content to just reach up for TV signals; they have begun to reach out for them. Through the medium of microwave relays many CATV companies have brought their customers more big-city programs from farther and farther away, or have improved measurably the calibre of their pictures through this ability to bring in a stronger picture signal.  

There are now about 700 community antenna systems serving about 500,000 customers—with about 50 microwave relay systems serving over 100 local cable companies.  

Boosters • In the Far West—par-
Until recently, the ABC-TV affiliate in Portland, Ore., was KGW-TV. Late in April, ABC switched affiliates with another network, replacing KGW with KPTV.

Here’s what happened, according to the May Nielsen:

KGW, minus its ABC affiliation, saw its share of audience drop in one short month from 43.0 to 24.8—a loss of almost 50%!

KPTV, bolstered by its new ABC affiliation, increased its share of audience from 25.2 to 34.4—an increase in audience of 37%.

Before the switch, KGW beat KPTV in 60 out of the 84 quarter-hour time periods measured by Nielsen. After the switch, the situation was almost exactly reversed—ABC’s new affiliate beat its former one in 56 of those 84 time slots.

If you can’t beat ‘em, join ‘em.

ABC TELEVISION

Source: Nielsen NSI, March vs. May, Sunday-Saturday, 7:30-10:30 PM (NYT)

The FCC will be heard following the testimony of these witnesses.

The Senate hearings are a repeat of last year's sessions which heard many of the same witnesses on behalf of much the same positions.

In a report issued early in 1959, Kenneth Cox, special tv counsel to the Senate Committee, urged that the FCC take jurisdiction over boosters and put some restraints on the unregulated cable companies (Broadcasting, Jan. 12).

Key to the hearings is the FCC's report last April in which the Commission decided to accept jurisdiction over booster—after twice in the same number of years refusing to agree that it had this authority or should exercise it—and although ruling it had no power over the wired antenna companies recommended that Congress pass two pieces of legislation—to require catv systems to secure the permission of the station whose signals they carry and to require catv operations to carry the local tv station if they are requested to do so.

In accepting jurisdiction over boosters, the Commission asked Congress to revise the Communications Act to waive two sections—the one forbidding the issuance of permits to an applicant who has built before permission was granted, and the one requiring the presence of an operator at a broadcast station.

Legislation No. 1 • The legislation picture was the most important item on the agenda at the NCTA meeting in Philadelphia.

Community television operators agreed to a two-pronged attack at the Senate hearings: Oppose the boosters and the FCC's recommendations on catv.

They agreed on one affirmative action: To urge the passage of a bill which would place them under the jurisdiction of the FCC as a broadcast service.

NCTA sponsored a full-scale engineering study of boosters and will make the outcome of that research available to the Congress, the NCTA members were told. The engineering study was

What the shouting is about CONTINUED

ticularly in the northwestern states—a different approach to the lack of tv was taken. Here and there in the valley cities and towns of the Cascade Mountains, self-attended, low powered boosters sprang up. These ingenious and simple transceivers were arranged so they picked up a big-city tv signal, amplified it and broadcast it down into the valley to the few dozen or more homes there. This was definitely off-the-air transmission—but without benefit of FCC authority.

In fact, as Commission monitors began to detect these unlicensed signals and to locate them, U.S. marshals began padlocking the little huts in which the equipment was housed.

The booster people were enraged. Almost like Tennessee moonshiners playing hide and seek with "revenooers," the northwesterners pried the padlocks off the housings and resumed booster operation. They also began to pepper their Congressmen in Washington with outraged attacks on "bureaucracy."

The FCC stood fast. It issued a cease and desist order against one booster in the state of Washington. After a lengthy period, the U.S. Court of Appeals ruled that the Commission was right in its authority, but wrong in its approach.

Meanwhile the pressures from back home on Senators and Congressmen mounted—and were transferred down Pennsylvania Ave. to the FCC.

Translators • The Commission in 1956 bowed to the pressures—but took an oblique tack. It set up a new service, translators, which it offered to the booster advocates. But there was this kicker: whereas boosters operated on the vhf frequencies with all the benefits of that part of the spectrum (actually most of them received a vhf signal and boosted it along on the same vhf frequency), the translator took the vhf signal and was required to "translate" it to a uhf channel—specifically to the top 13 uhf channels (chs. 70-83).

Naturally, translators were more expensive—and also required viewers to adopt their receivers for uhf.

Thus boosters continued in operation—a nettle in the bosom of the FCC.

There is no authenticated report on the number of boosters, but they have been estimated to run to 1,000 or more. There are more than 200 translators operating in 125-odd communities. Boosters serve mainly small communities running from several dozen to a thousand or so tv homes; translators serve from several hundred to, in several instances, up to 50,000 tv homes.

In 1957 and again in 1958 the FCC issued orders for boosters to go out of business. In April of this year, succumbing to the pressures of practicality (as well as of Congressional delegations, state administrations and outraged citizens) it issued a final report which accepted jurisdiction over the on-channel booster—but only under strict technical restrictions.

The legal problems • But certain legislation is required to put into practice this unwilling authority. The Commission recommended to Congress that two sections of the Communications Act be revised to permit the booster business to be properly controlled. A law forbidding; a grant to an applicant which has already constructed a station would have to be changed to legalize the existing 1,000-odd boosters, and the law requiring an operator to be in attendance would have to be amended to permit unattended operation.

As to community antenna systems the FCC in its report last April reiterated for the third time that it has no jurisdiction over what is ostensibly an intra-state wired service. It did recommend, however, that Congress tack on a couple of new provisions to the Communications Act. One was that catv systems must receive the permission of the stations whose signals it wished to pick up and deliver to its subscribers. The other was that the local catv operation must carry the local tv station when so requested.

As might be expected the solutions pleased no one. The booster protagonists are worried that the Commission's technical standards will be so stringent they will have won the battle but lost the war. The catv people—who hate booster operators—are out to make sure the booster advocates are hemmed in by operating regulations and also to fight against the two recommendations that touch their own operations.

These are the issues in the hearings beginning tomorrow before Sen. John Pastore (D-R.I.) and his communications subcommittee.

untaken by A. Earl Cullum, Dallas, Tex., consulting engineer, and included a number of engineers associated with the cable industry.

In an effort to win telecasters to their side, NCTA hired William T. Stubblefield, broadcast consultant, to interview Hill town telecasters.

For guidance on Capitol Hill, NCTA has hired the Washington law firm of Weaver & Glassie.

A slashing attack on the forces that are attacking community television systems was delivered to the membership by E. Stratford Smith, Washington attorney and general counsel of the association.

Mr. Smith sketched the strategy of the NCTA in its appearance before the Senate committee and held out hope that the organization would be able to prove that boosters interfere with other services and that they should be strictly controlled.

He also lashed out at the FCC’s recommendations for legislation affecting catv systems. He termed both the proposals unconstitutional and against the public interest. He said that the requirement that cable companies get permission from the stations whose signals they carry might very well lead to a conspiracy and monopoly.

Mr. Smith also told the group that the organization would fight the two broadcaster lawsuits, one in Montana in which Ed Crane has filed a copyright complaint, and the other in Idaho where two Salt Lake City stations have asserted property rights in the signals which are being picked up and delivered to a catv system.

The NCTA membership heard its president, Lloyd A. Calhoun of Hobbs, N.M., report that the organization has grown to 365 members—a gain of 59 over the number last year.

The NCTA board also approved the establishment of a full-scale public relations program.

Elected president of the organization for 1959-60 was A.J. Malin, owner-operator of the 1,500 subscriber catv operation in Laconia, N.H. Mr. Malin also owns WWNH Rochester, N.H.

They also heard Sen. Jennings Randolph (D-W.Va.) speak on public and civic relations; Pennsylvania Gov. David L. Lawrence; and panels and round tables on technical and management problems.

Postgame Notes • The FCC last week postponed the effective dates of these microwave systems following the granting of protests by television stations:
- Montana Microwave, extension of its service from Missoula to Helena, Mont., feeding Spokane tv signals. The action was taken following remand by the U. S. Court of Appeals after the Commission denied a protest filed by KXIL-TV Helena. The Commission set July 24 for oral argument.
- Mesa Microwave Inc., feeding Jacksonville, Fla., tv signals to Tallahassee, Fla. Protested by WCTV (TV) Thomasville, Ga.
- East Texas Transmission Corp., feeding Dallas-Fort Worth tv signals to Tyler and Jacksonville, Tex. Protested by KLTV (TV) Tyler, Tex.

The protests, all generally similar, maintained that the distribution of distant big city tv signals would only serve to put them out of business, or in effect force them to degrade their services to the extent the public would suffer. The broadcasters also charged that these moves would upset the Commission’s table of tv allocations.

Microwave systems

One of the most significant areas in the cable antenna field in recent years has been the growth of microwave relay systems to bring in distant tv stations and to improve the calibration of the local catv picture. Some bring tv signals more than 300 miles to small towns.

It is the particular target of many broadcasters who feel the FCC in authorizing these radio relay systems is helping to destroy local tv stations—and also licensed services in all TV regions.

Here are the specialized common-carrier systems using microwave links and the cable companies they serve:

Antenna Service Co.—Feeds Phoenix, Ariz., tv signals to Winslow and Page, Ariz.
Blackhawk Video Co.—Feeds Denver tv signals to Rapid City, S.D.; San Antonio tv signals to Victoria, Texas; Nashville and Jackson, Tenn., tv signals to Paducah, Ky.; St. Louis tv signals to Poplar Bluffs and Dexter, Mo., and to Paducah, Ky.; Lubbock, Tex., tv signals to Clovis, N.M.; Memphis, Tenn., tv signals to Greenville, Miss. Cervacchi & Co.—Feeds Buffalo, N.Y., and Scranton, Pa., tv signals to Ithaca, N.Y.
Collier Electric Co.—Feeds Denver tv signals to Sterling, Colo.; Sidney, Kimball, Alliance and Scottsbluff, Nebraska.

Dakota Microwave Co.—Feeds Sioux City, Iowa, tv signals to Mitchell, S.D.
East Texas Transmission Co.—Feeds Dallas-Ft. Worth tv signals to Tyler and Jacksonville, Tex.
Great Plains Microwave Co.—Feeds Amarillo, Tex., tv signals to Perryton, Tex.
Idaho Microwave Inc.—Feeds Salt Lake City tv signals to Twin Falls, Idaho.
Intermountain Microwave—Feeds Spokane, Wash., Kailipeli and Great Falls, Mont., and Lethbridge, Canada tv signals to Cut Bank, Havre and Shelby, Mont.
Major Electronics—Feeds one Portland, Ore., tv signal to Coquille, Ore.
Mesa Microwave Inc.—Feeds Oklahoma City tv signals to Altus and Magna, Okla.; Jacksonville, Fla., tv signals to Tallahassee, Fla.; Amarillo, Tex., tv signals to Memphis, Childress and Wellington, Tex., San Antonio tv signals to Laredo, Tex.; Fort Worth tv signal to Armore, Okla.
Micro-Wave Inc.—Feeds Amarillo tv signals to Liberal, Kan.
Micro-Wave Service Co.—Feeds Memphis, Tenn., tv signals to Anthony, Miss.
Midwest Microwave Inc.—Feeds Chicago tv signals to Peru, Ill.
Montana Idaho Microwave Inc.—Feeds Idaho Falls tv signals to Bozeman, Mont.
Montana Microwave—Feeds Spokane tv signals to Kailipeli and Missoula, Mont.; Spokane and Butte, Mont., tv signals to Helena, Mont.
New York Penn Microwave Corp.—Feeds Rochester and Buffalo, N.Y., and Scranton, Pa., tv signals to Corning, N.Y.
Penn Microwave Co.—Feeds two New York City tv signals to Hazelton, Pa.
Potomac Valley Telecasting Corp.—Feeds Washington, D.C., tv signals to Cumberland, Md.
Shirley Basin Transmission Co.—Feeds Albuquerque, N.M., tv signals to Farmington and Artec, N.M.
Southwest Texas Transmission Co.—Feeds San Antonio tv signals to Eagle Pass and Del Rio, Tex.
Superior Communications Co.—Feeds Duluth, Minn., tv signals to International Falls, Minn.
Television Networks—Feeds Billings, Mont., and Casper, Wyo., tv signals to Sheridan and Buffalo, Wyo.
Television Microwave Inc.—Feeds Salt Lake City tv signal to Elko, Nev.
Thunder May Microwave Co.—Feeds Cadillac, Flint, Bay City and Traverse City, Michigan, tv signals to Alpena, Mich.
Valley Microwave Corp.—Feeds Birmingham, Ala., tv signals to Florence, Sheffield and Tuscaloosa, all Ala.
Western Communication Service—Feeds Abilene and Sweetwater, Tex., tv signal to San Angelo, Tex.
Western TV Relay Inc.—Feeds Oklahoma City tv signals to Elk City, Okla.
There are also three Bell System telephone companies which are serving catv systems. These are:
- Bell System of Nevada—Feeds San Francisco tv signals to Reno, Nev.
- Mountain States Tel. & Tel. Co.—Feeds Denver and Cheyenne tv signals to Casper, Wyo.; Cheyenne tv signal to Rawlins, Wyo.
- Southern Bell Tel. & Tel.—Feeds Miami, Fla., tv signals to Key West, Fla.

SEC. 315 GETS LUMPS IN HEARING
Pastore offers compromise on requested curb; House turn today

Hearings on Sec. 315 of the Communications Act were closed in the Senate Thursday (June 25) following a five day run, with the debate scheduled to re-open today (Monday) some 600 yards away in the House.

And, the Senate Commerce Communications Subcommittee will report out a limited amendment to the equal time broadcasting headache — but Chairman John Pastore (D-R.I.) has made it clear that the approved measure will not be outright repeal — or even the exemptions of Sen. Vance Hartke's (D-Ind.) S 1858.

Sen. Pastore's approach: correct the Lar Daly decision on newscasts and "then go as far beyond that as we can without getting into controversy."

He has repeatedly stressed that any amendment reported out must be a simple one that will not run into opposition on the Senate floor.

Hartke's Approach Different • Sen. Hartke has taken a different tack. He says that the committee should report out a strong bill and let any cutting be done on the Senate floor.

A week ago, Sen. Pastore had favored an amendment proposed by Comr. Frederick W. Ford (BROADCASTING, June 22), but he was dissatisfied with the commissioner's detailed explanation last week (see box, page 54).

The subcommittee is considering four bills amending Sec. 315. S 1858 is by far the most desired by broadcasters. It would exempt newscasts, panels, debates and similar shows from Sec. 315, exempts broadcasters from libel and defines eligible candidates for public office. S. 1585, by Sen. Strom Thurmond (D-S.C.) exempt newscasts, panels, discussion and similar programs (it is identical to one section of the Hartke bill). S 1604, by Sen. Gordon Allott (R-Colo.), and S 1929, by Sen. Spessard Holland (D-Fla.), exempt newscasts only from equal time provisions of the Communications Act.

Witnesses Advocate Repeal • In the face of this obvious feeling of the majority of the committee members, many of last week's witnesses urged above all outright repeal of Sec. 315. Failing this, they said, approval of the entire Hartke bill is the minimum measure that would protect their abilities to cover the 1960 campaigns.

However, Sens. Pastore and Thurmond repeatedly pointed out that this session of Congress is nearing its end and that the only hope for action by both houses is a simple, direct, non-argumentative measure.

Following adjournment of the hearings Thursday, Sen. Pastore said his subcommittee will meet with the FCC and others after the official record is finally closed tomorrow (Tuesday) to draft an amendment to submit to the full Senate. This meeting probably will take place this week, he said, and the resulting bill then could be placed before the full Commerce Committee at its next meeting, July 8.

The chairman said that he had leaned toward language similar to the Thurmond bill and the corresponding section of the Hartke bill, but he now is afraid that even this proposal will not receive Senate approval.

Political Angle in House • The Communications Subcommittee of the House Commerce Committee begins three days of hearings today on seven bills amending Sec. 315. These hearings were scheduled by Rep. Oren Harris (D-Ark.), chairman, following charges that the Justice Dept. had intervened in the Lar Daly case at the FCC improperly and had exerted pressures on the FCC.

This charge was made in a partisan...

AN EDITORIAL

A WORKABLE CURE FOR SEC. 315

Let's cut out the doubletalk and write an intelligible bill

In the past 10 days a score of broadcasters have argued tellingly before the Senate Communications Subcommittee for corrections in the idiotic law governing political broadcasting.

At least as many are ready to make equally vigorous proposals to the House Communications Subcommittee which begins hearings today.

If the records of the two hearings could be confined to the presentations of broadcasters who actively seek the full responsibilities of managing vital media of journalism, major changes in the law would be assured. Unhappily, distractions are being introduced by bureaucrats and little-minded lawyers. There is a danger that central issues will be obscured by nit-picking arguments over legal wording. No great idea has yet been expressed by "to wit" or "whereas."

In the testimony of a few of the broadcasters who have appeared at the Senate hearings, the debilitating advice of the tut-tut type of lawyer has been evident. This is not the kind of advice that makes Peter Zengers or Joseph Pulitzer's. The more of this advice that creeps into the present proceedings, the less chance there is for broadcasting to attain emancipation.

It is not important to examine the motives of the lawyers in private practice who are recommending a cautious approach to the modification of Sec. 315. As resourceful men they could undoubtedly find a replacement for the income they have historically enjoyed from the necessarily illogical applications of an illogical law. It is appropriate, however, to look into the reasons for the bureaucratic advice the Senate subcommittee has been given by the majority of the members of the FCC.

A document submitted to the subcommittee last week by the FCC majority was a striking demonstration of (1) the futility of trying to write a law which will submit to experienced editorial judgment and (2) the inherent disinclination of a government bureau to relinquish power.

The document was a "clarification" of the single paragraph which the FCC majority, a week before, had proposed as an amendment to Sec. 315. The paragraph would exempt from equal time requirements newscasts and "special events such as political conventions." It contained this phrase: "But this proviso shall not except licensees who broadcast such news and special events from an objective presentation thereof in the public interest."

Last week's "clarification" struggled for 818 words to define "newscast," "special events" and "objective presentation" without succeeding in defining any of them. It did succeed, however, in making clear that if the Commission's amendments were adopted, there would be infinitely more work for attorneys and less freedom for broadcasters. Anyone who is in sympathy with the First Amendment must be appalled by the idea that the FCC would be required by law to examine regularly each station's record for "objective presentation" of news.

There have been suggestions by witnesses other than the FCC for changes in the language of the bills now before the Senate. The more we examine these proposals the more convinced we are that tinkering with the present law by adding or subtracting here or there will lead only to the creation of new difficulties.

As we have said from the beginning, the outright repeal of Sec. 315 is the only action which makes complete sense. But repeal is not to be had at the behest of Congress. The next best thing is to throw out the whole of Sec. 315 as it now exists and replace it with a law so simply worded it will be universally understandable without the incessant (and expensive) interpretation of lawyers.

If we were asked to draft a law which had a chance of passage and would eliminate the most undesirable features of the present Sec. 315, it would, in essence, go like this: "The original Sec. 315 and its amendments to date are repealed. "Here is the new Sec. 315: "If a broadcast licensee allows a vote by the House Legislative Oversight Subcommittee, also chaired by Rep. Harris and which has many common members with the Communications Subcommittee. Rep. John Bennett (R-Mich.), ranking minority member of both committees, loudly accused the Democratic majority of pressure.

Following a directive from the White House, Attorney General William Rogers asked that the Justice Dept. be allowed to participate in the FCC's reconsideration of the Lar Daly case and recommended that the Commission reverse its February decision. Two weeks ago, the FCC reaffirmed the Lar Daly ruling. As House Telecommunications Chairman, Rep. Bicks is scheduled to testify before the Harris committee tomorrow (June 30).

Other witnesses at the House hearing will include the FCC and NBC Board Chairman Robert Sarnoff today, Mr. Bicks, CBS President Frank Stanton and NAB President Harold Fellows tomorrow and Democratic National Chairman Paul Butler and Westinghouse Broadcasting Co. President Donald McGannon Wednesday (July 1). Several other witnesses also have been invited, including Sen. Thurston B. Morton (R-Ky.), chairman of the Republican National Committee.

Bills to be considered by the House subcommittee include HR 7122, by Rep. Joseph Barr (D-Ind.), HR 7180, by Rep. Wayne Aspinall (D-Colo.), HR 7602, by Rep. J. Edgar Chenoweth (R-Colo.), HR 7206, by Rep. Byron Rogers (D-Colo.), HR 5389, by Rep. Glenn Cunningham (R-Neb.), HR 6326, by Rep. Paul Rogers (D-Fla.), and HR 5675, by Rep. J. Arthur Younger (R-Calif.). The first four measures are identical to the Hartke bill while the remainder exempt only newscasts from equal time. The pros and cons of last week's testimony before the Senate committee:

Victor A. Sholis (president of WHAS-AM-TV Louisville): "Repeal of the entire section is a course I urge upon you most vigorously." Mr. Sholis told the Pastore subcommittee in a prepared statement. "Should your eventual recommendation stop short of this, then I would suggest that . . . S 1858 becomes a minimum imperative."

The WHAS executive said: The importance to the people of radio and television of new and more information justifies removal of any restrictions that compromise or inhibit broadcasting efforts toward serving them in this field. As reporters we should be given the same freedom and responsibility for ed-
political candidate to make a broadcast in time which is paid for by the candidate, his party or his supporters, the licensee must make equally desirable time available to all other candidates for the same office under the same commercial conditions.

“No charge shall be made for the appearance of a candidate which exceeds the charge that would be made for the same time period if bought by a commercial advertiser.”

“End of law.”

This ought to have some attraction for politicians. It would assure equal opportunity for all paid appearances by candidates. As a practical matter, paid appearances are all that would be left for application of Sec. 315 if any of the amendments now pending were adopted. Eliminate from the equal time rule the appearances of candidates on news and public affairs shows and you have no appearances to deal with except those which are paid.

This simplified version of Sec. 315 abandons the virtue of correcting the splinter candidate problem in news and public affairs shows without referring to splinter candidates or trying the impossible job of defining what a splinter candidate is. For all candidates, no matter how bleak their political futures, it would provide equal opportunity in paid time, a feature missing from Sen. Hartke’s bill.

There is no prohibition in this version against a broadcaster’s editing a candidate's speech. We have never understood how the Congress, with any logic, could forbid broadcasters to touch a candidate's speech while insisting that he is responsible for every other kind of transmission.

Let a broadcaster knowingly allow any person other than a candidate to make a libelous or obscene remark on the air, and the broadcaster is immediately—and properly—a target for legal recourse. It is the broadcaster’s responsibility to see that Chevrolet does not libel Ford in a commercial or that one party chairman, when not a candidate, does not libel another. Why should it not be his responsibility to keep libel of Candidate A off the air?

No candidate in his right mind would expect a newspaper to publish his paid ad or report his speech if either contained clear indications of libel. Does the public interest, convenience and necessity require the broadcaster to carry the libelous copy which the newspaper is free to reject?

If the broadcaster may screen actionable material from candidates’ speeches, he has no reason to be immunized from libel, as Sen. Hartke’s bill would do. To immobilize broadcasters from libel would exact a terrible price in exchange for the trivial indulgence of letting a candidate say anything he pleased. Better give the broadcaster a degree of responsibility for what the candidate says and leave undisturbed the great tradition of full libel protection.

If there is an outstanding virtue in the revised Sec. 315 suggested here, it is its simplicity. Not even the most added FCC could create more than momentary confusion in interpreting so uncomplicated a law.

For candidates, the proposal offers a considerable assurance of access to the air. It guarantees, by law, equal opportunity for exposure in paid time. By eliminating present restrictions which severely limit broadcasters in the presentation of candidates in news, panel, public affairs and debate programs, it immeasurably adds to the total amount of such time which radio and television would open to coverage of candidates. If the Congress worries about maintaining a reasonable degree of fairness in the non-paid presentations of candidates, it should be consoled by the knowledge that other sections of the law require broadcasters to function in the public interest. Those sections would be violated by an extreme case of political partiality.

What a good many members of Congress seem to ignore is that the present Sec. 315 is operable during only relatively brief interludes in the career of any political figure. With few exceptions, politicians acquire public identification during long periods in their lives when Sec. 315 does not apply.

An incumbent U.S. Senator holds office for six years during which Sec. 315 has no meaning for him whatsoever. Assume he runs for re-election. For the few months of his candidacy he is covered by Sec. 315. The day he is re-elected, Sec. 315 might as well be repealed until he next becomes a candidate six years later. Yet in those intervals between campaigns he must cement his position with the electorate without benefit of Sec. 315. The fact that this is possible suggests that politicians have put more faith in Sec. 315 than it deserves.

The less rigid Sec. 315 is made, the more access reputable candidates will have to radio and television. The simpler the amended law is made, the less apprehension broadcasters will have about engaging in political broadcasting and the more the voters will see and hear their elected leaders and those who aspire to election.

Editorial judgment as is enjoyed by the press...

- Sen. Kenneth Keating (R-N.Y.) strongly advocated that it is Congress’ duty to correct the FCC’s Larr Daly decision, but at the same time he urged the committee to protect the rights of minority candidates to equal time.

"Let me state emphatically that I do not think the Commission’s ruling was in accordance either with the language of the statute or its legislative history," Sen. Keating said. "It is a classic case of logic gone wild." He said many of the criticisms leveled against Sec. 315 are justified, "although I am skeptical about the sagacity of attempting in one full sweep to correct more than the problem of equal time on newscasts at this time."

- Donald H. McGannon (president, Westinghouse Broadcasting Co.), Broadcasters endeavor to operate in the "public interest, convenience and necessity" in all areas except one, Mr. McGannon said. "This is the instance pertaining to the appearance of legally qualified candidates for public office. . . . In this instance, all of the abundant opportunity that he has in other areas to exercise his judgment has been in turn reduced to a rigid formula."

The WBC president pointed out that there is "currently no effective technique known to the American broadcaster that will permit him to give equal and comparable opportunity to all of the candidates for public office. . . . It is my opinion that the ability of American broadcasting to best serve the public in this area could only be achieved through the outright repeal of Sec. 315."

- Harold Fellows (NAB president):

"Sec. 315 should be repealed in its entirety . . . because [it is] the only way to completely remedy the unrealistic situation in which we find ourselves," NAB President Fellows told the committee. "Sec. 315, even before the recent ruling by the FCC, operated to the detriment of the listening and voting public. It especially denies to broadcasting the responsibility which should be accorded to all free media of communications."

He pointed out that Sec. 315 does not apply to supporters of a candidate and that Congress has been content to allow the industry to determine how fairly to treat this issue of campaigns. "The record clearly demonstrates that broadcaster have not abused this trust," Mr. Fellows emphasized.

- Robert D. Swezey (executive vice president of WDSU-AM-TV New Or-
leans and chairman of the NAB Freedom of Information Committee) first testified on behalf of the NAB committee, which recommended only passage of the bills sponsored by Sens. Allott and Holland. Then, speaking for himself, the WDSU executive advocated repeal of Sec. 315.

"It is and always has been my own opinion that Sec. 315 is an anomaly in the Communications Act," Mr. Swezey said. "I have never felt that it protects the citizenry as a whole as much as it does a very limited class of citizens—the political candidate. It was initially conceived and adopted at a time when shortage of communications facilities and possibility of their monopoly were of understandable concern to the Congress. Subsequent developments in the industry have very largely removed the cause for that concern."

* Rex G. Howell (president KREX-AM-FM-TV Grand Junction, Colo.) described Sec. 315 as "the galling yoke which historically has prevented broadcasting from attaining equal status with the press."

The possibility of any candidate getting a monopoly on the use of broadcast facilities is too remote to permit the public interest to be subjected to the restraints of an informed electorate, Mr. Howell said. "I believe that Sec. 315 has outlived its usefulness and should be repealed at once.

"Let's bury it deeply, gentlemen," Mr. Howell concluded.

* Dean Edward Barrett (Graduate School of Journalism, Columbia U.). In urging committee approval of the Hartke bill, Dean Barrett said that "no slide rule or mathematical formula can effectively be applied to news broadcasts." If a broadcaster were intent upon distortion of the news, he could so select quotations, comments and film shots while at the same time giving candidates identical coverage, Mr. Barrett pointed out.

"News broadcasts will not be true news vehicles unless the responsible broadcasters are given full freedom to select, edit and transmit the news according to their best judgment. . . ." he said.

* Tom Chauncey (president, KKOOL-AM-TV Phoenix and KOLD-AM-TV Tucson) told the subcommittee that there is "no issue more important to the full maturity of the broadcasting business and the nation's political life," in urging approval of the Hartke bill.

He said the FCC correctly interpreted the Communications Act in the Lar Daly decision and the issue now is squarely before Congress. "And you, the distinguished members of Congress, are the individuals most directly affected by the FCC's ruling," he stressed. "It will be your faces that will disappear from the television screens unless the law is changed. You can easily relate this to what it will mean in your own states."

* F. Van Konynenburg (executive vice president, WCCO-AM-TV Minneapolis). In a statement entered into the hearing record, Mr. Van Konynenburg stated that enactment of the Hartke bill would result in "substantial and far-reaching public gains."

* Walter J. Brown (president, WSPA-AM-FM-TV Spartanburg, S.C.) said that any law which attempts to require a station to put together a newscast on the basis of equal time for all candidates, rather than the news generated by the candidates, "would make a mockery of radio and TV coverage of a political campaign."

The current interpretation of Sec. 315 would invite publicity seekers of all kinds and in all numbers to become candidates and thus create an impossible situation, Mr. Brown maintained.

* Robert B. McConnell (vice president-general manager, WISH-AM-TV Indianapolis). Mr. McConnell urged the committee to pass the Hartke bill in a statement filed in the hearing record. In his testimony, he cited several problems faced by WISH-AM-TV in the current Indianapolis mayoral election.

The primary was held in May, with the incumbent mayor winning his party's nomination, while the general election will not be held until November. This, Mr. McConnell said, has resulted in WISH-AM-TV having to cancel one program featuring the mayor and to curtail a second program highlighting various departments of the city government.

* Ralph Renick and John F. Lewis (Radio-TV News Directors Assn.). Mr. Renick, vice president in charge of news for WTJ (TV) Miami, said that
Radar Echoes from Venus...

Continental Electronics' giant transmitter at M.I.T. Lincoln Laboratory is the most powerful on earth. With it, man has made his first contact with another planet—by bouncing a radar signal off Venus for a space round trip of 56,000,000 miles.

This is a significant forward step since it means we have pushed our radio signals a hundred times further than ever before. It means we can measure space distances with amazing new accuracy. The powerful pulses from this transmitter were beamed into space from a huge antenna 84 feet from rim to rim. It is the same radar used to sight and track earth satellites and for other space probe programs.

Continental Electronics is proud indeed to be part of this 56 million mile broadcast.
newsmen prefer repeal of Sec. 315 rather than modification.
He was accompanied by Mr. Lewis, WBAL-AM-TV Baltimore, who heads RTNDA's freedom of information unit.
- Lamar A. Newcomb (owner, WFAX Falls Church, Va.). Mr. Newcomb said that as a small station operator he approaches each political campaign with the attitude that the income from sale of political time will not justify the work and effort expended. Verifying a candidate's representative, trying to guard against libel and slander and justifying this procedure to the candidate's representative makes a broadcaster's position most uncomfortable, he said.
- Bishop Homer A. Tomlinson (General Overseer of The Church of God and its nominee for President in the 1960 elections). Bishop Tomlinson said he approves the Senate bills. He realizes, he said, that the bills would make it "a little more difficult" for such parties as his own, but said he himself is depending on "miracles" to get elected in 1960.

Bishop Tomlinson, who said he will be on the ballot in 19 states, elaborated a little on this plan. He will, he said, bring about his victory in 1960 through "arousalment" of the population.
- John B. Johnson (owner of WWNY-WCNY [TV] Watertown, N.Y. and publisher of the Watertown Daily Times) based his support for equal time relief by telling the Senators how the section could affect them personally. "As a newspaper editor writing daily I support the Hartke bill to make clear what should be considered fair and equal time for candidates."
- Nathan Karp (Socialist Labor

No. 1 issue • Tom Chauncey, KOOL-AM-TV Phoenix, tells senators their faces will disappear from TV screens if broadcasting's top problem in reaching maturity is not solved.

Remove the yoke • Rex G. Howell of KREX-AM-FM-TV Grand Junction, Colo., urges the senators in appealing for repeal of the "bewildering conditions" in political broadcasting.

Slide rule no answer • Dean Edward Barrett of Columbia U. urges committee to report Hartke bill because mathematical formula cannot be applied to newscasts.

Rounsaville Radio Stations

DEAR JOHN E. PEARSON COMPANY

I am delighted to confirm to you our decision to appoint the John E. Pearson Company as the national representative of the six Negro-programmed Rounsaville stations - WCIN, Cincinnati, WLOU, Louisville, WVOL, Miami-Miami Beach, WYLD, New Orleans, WTMP, Tampa-St. Petersburg - effective July 1, 1959.

You, your organization and I worked together for almost ten years to help bring a very healthy measure of success to WDJA. I am confident that we can all do it again. Robert Rounsaville and I are looking forward to the bright future of the Rounsaville Radio Stations with great faith and optimism.

Personal regards to you and everyone at JSPCO.

Cordially,

Harold F. Walker
Vice President & National Sales Manager

BROADCASTING, June 29, 1959
Ten days ago, Comr. Frederick W. Ford submitted a suggested amendment of Sec. 315 to the Senate Commerce Communications Subcommittee (Broadcasting, June 22). Last week, at the request of Sen. John Pastore (D-R.I.) and with the approval of four other commissioners, he defined just what the proposal would do. Text of the amendment:

"Provided, that newscasts and special events such as political conventions shall not be considered a use within the meaning of this section, but this proviso shall not except licensees who broadcast such news and special events from an objective presentation thereof in the public interest.

Comr. Ford defined "newscast" as a straight, factual report of the news. "News commentary is distinguished from newscast by an answer to the public that it is receiving the opinion of a commentator or an interpretation rather than a factual account, he said.

"Such as a political convention," as used in the amendment, "was not intended as a limitation but as an example of the political type of special event included."

He said the term "objective" was substituted for "fair and impartial as contained in the original draft to avoid the contention that fair and impartial in effect meant equal time. "The suggested language is an attempt to free broadcast licensees from the provisions of Sec. 315 to give them freedom to exercise their judgment in the handling of news programs and special events despite the fact that a legally qualified candidate may appear or be heard on such a broadcast..."

Comr. Ford said, "Such an event may be the result of a candidate's official position or of a political nature."

Endorsement • Comrs. John C. Doerfer, Rosel Hyde, Robert E. Lee and John Cross endorsed the Ford recommendation, with Comrs. Robert T. Bartley and T.A.M. Craven dissenting. Comr. Bartley said the amendment goes too far in that it includes the "indefiniteness" of special events and would result in different treatment in separate situations.

Comr. Craven doesn't want the Commission to tell broadcasters what they should put on the air. He proposed last year that the FCC get out of the programming field entirely. This was in the consideration of the revised programming section in application forms. He maintained then that any interest in programming ran afoul of the no-censorship provisions of the Communications Act. (Broadcasting, Dec. 1, 1958.) He was one of the commissioners who voted against the majority in the Lar Daly case.

In the first place, he objected to exempting newscasts and special events from Sec. 315 as unnecessarily complicating the administration of the equal time provisions of the Communications Act. What he fears, he said last week, was that the Commission would begin to be called on to determine what kinds of programs are news and which are not. He also asserted, once more, that the present Sec. 315 gives the Commission plenty of latitude already. The problem, he said, is one of administering it properly.

He was particularly vigorous in his opposition to the proposal that the law be amended in such a way as to specifically require broadcasters to maintain an "objective presentation." This, he feared, would saddle broadcasters almost irrevocably with what he believes is tantamount to censorship.

As it is now, he explained, the fair and equal requirement is a Commission policy. "Some day we may be able to get rid of that relic of the Blue Book," he said, "but we never will if it becomes part of the law."

Party). Mr. Karp charged that the renewed clamor to amend Sec. 315 "is based on a desire to reduce, or eliminate entirely, the participation of minority party candidates in free radio and television time..." and thereby confer upon the two major political parties what amounts to a monopoly on the air."

• Joseph A. Schafer. A candidate for the Republican nomination for mayor of Philadelphia last month, Mr. Schafer told the senators that equal time requirements not only should be left as is for broadcasters but should be extended to newspapers as well. This principle is necessary, he said, if "we are to practice democracy in our national, state and local politics." Mr. Schafer said that, because of Sec. 315, he received fair treatment from radio and tv in his recent losing campaign. "Otherwise, I would not have received as much time as I did on the air..." he said.

• V. Lane Knight (attorney for Lewis Food Co., Los Angeles) testified against all the proposals to amend Sec. 315 which, he said, would "increase the privilege of the licensee to engage in censorship." He maintained that the provisions of the section should be expanded, rather than relaxed.

• William Price (executive secretary, United Independent-Socialist Committee, New York) said the bills would "eliminate the voice of dissent from the political arena in the U.S."

Mr. Price charged the Hartke bill would "define any existing minority party out of the arena of free debate." As for news broadcasts, he said, the Daly decision recognizes that an appearance on radio or tv by a political candidate, even if not related to his candidacy, is a "publicity factor of importance."

It is with "somewhat ill grace" that broadcasters "now cry of de facto FCC censorship when in fact they have practiced their own brand of censorship against minor parties for years," Mr. Price said. He charged a radio-tv "blackout of silence" against his party in the New York gubernatorial campaign last year.

Broadcasters, he said, are threatening to refuse to carry political news next year if newcasts are not made exempt from Sec. 315. This is an "arrogant threat" to scare Congress into acting with "unseemly haste," he said, adding that Congress has always lived to regret legislation pushed through hastily under pressure of "some special interest."

Since radio and tv have largely superseded the press and minimized the effect of street meetings, debates and forums, a monopoly of radio-tv amounts to a monopoly of all election effort, the Socialist-Independent official said. He charged CBS President Stanton with making a "candid plea for political conformity" and elimination of dissent by holding that the Hartke bill recognizes "the political reality that normally ours is a two-party system."

At the close of the hearings last Thursday, Sen. Pastore announced that the record would be kept open until tomorrow (Tuesday) and that statements will be accepted until that date.

CAN'T MISS!
One of network television's most famous Westerns has just become available for syndicated sales... and it's a sure-fire hit. Because:

...TRACKDOWN is the biggest, most important Western ever to enter first-run syndication, at a time when Westerns are at the very peak of audience popularity;

...TRACKDOWN is produced on location by Dick Powell's famous Four Star Productions, and has a well-known star, Robert Culp;

...TRACKDOWN is based on case histories taken from the files of the fabulous Texas Rangers, and is the only television show ever to win official endorsement from the Rangers and the state of Texas;

...And TRACKDOWN has proven a huge audience-winner, averaging a 23.0 total Nielsen rating in its run on the CBS Television Network (October 1957—April 1959), against the stiffest competition.

Tired of long shots? TRACKDOWN (71 crack half-hours) can't miss!

CBS FILMS
VHF, FM WANT TO STAY PUT

Don't disturb us, industry groups ask FCC

Spectrum space allotted to vhf television and fm should not be disturbed, the FCC was told last week in its month-long study of non-government services in the 25-890 mc band [Broadcasting, April 27, et seq.].

Testifying June 25 before the Commission en banc (minus Chmn. John Doerfer, who was appearing before a Congressional inquiry, see story page 46), NAB President Harold E. Fellows declared it "essential" that chs. 2 through 12 "in which the public has invested so heavily in receivers," be retained as the foundation of any allocations plan. He said the greatest area for expansion lies in the addition of frequencies adjoining ch. 13.

In testimony prepared for delivery Friday (June 12), Lester W. Lindow, executive director of the Assn. of Maximum Service Telecasters Inc., outlined the approach of his organization toward the spectrum situation. He emphasized the inviolability of the 12 existing vhf channels, the addition of further vhf frequencies between chs. 6 and 7 or above ch. 13 in exchange for some of the existing uhf spectrum space, and maintenance of the "present high technical standards."

Speaking on behalf of Fm Broadcasters Inc. on Thursday, Ben Strouse, WWDC-FM Washington, told the FCC that the present 88-108 mc fm band must remain intact and that neither transfer of the fm band to another portion of the spectrum nor diminishing the width of the band would be in the public interest. In his testimony Mr. Strouse outlined the recent remarkable growth of fm as a high-quality entertainment medium, a factor in national defense, and a swiftly developing medium.

Another Fm Opinion • Elliott M. Sanger, executive vice president and general manager of WQXR-AM-FM New York, was scheduled to appear before the Commission on Friday with testimony which supported Mr. Strouse. Mr. Sanger urged the FCC to take prompt action making it clear "that fm broadcasting will remain in the band 88 to 108 mc and that the width of an fm channel will continue to be 200 kc."

Also scheduled to appear Friday was David C. Stewart, assistant director of the Joint Council on Education Television, who intended to discuss the growth of etv and urge the Commission to give educational interests high priority "when adjustments in the spectrum are considered."

The current FCC inquiry into the 25-890 mc band is part of a continuing study of the spectrum which this spring saw Congress also take a hand with a probe by a House subcommittee (Broadcasting, June 15). The FCC has been considering a 50-channel extended vhf television band with frequencies to come from military allocations. This concept has initiated discussions with the Office of Civilian & Defense Mobilization.

An essential corollary to the issue of an extended vhf band according to Mr. Sanger has been the feasibility of an all-channel tv receiver. Motorola President Robert W. Galvin told the FCC earlier in the 25-890 mc proceedings (At Deadline, June 8) that his firm would "enthusiastically" support the manufacture of a 30-channel set and would market it for "essentially" the same price as the present 12-channel-only receivers. NAB President Fellows, in replying to a question on such all-channel receivers last week, said that NAB has yet to develop a policy on the expanded sets.

Engineering View  • Scheduled to appear before the FCC on Friday along with AMST director Lindow was Howard Head, consulting engineer (A.D. Ring & Assoc.), who quoted from the Tv Allocations Study Organization report (Broadcasting, March 6) in support of existing tv allocations. He said that chs. 2-6 provide, according to Taso, the most extensive television of "consistently good quality." Chs. 7-13 are also "good," while chs. 14-83 provide such service over much smaller areas than the vhf channels. Taso made it clear, stated Mr. Head, that the present 12 vhf channels are indispensable.

Non-broadcast witnesses have included mobile service groups and associations. One was the State of California, whose representatives asked reservation of the vhf band for mobile services and a move of tv to uhf.

WKIS asks high court for ruling on ch. 9

WKIS Orlando, Fla., last week continued its fight to have the ch. 9 case resolved by someone outside the FCC. The Orlando station, denied in its petition for a rehearing en banc by the U.S. Court of Appeals in Washington, asked the U.S. Supreme Court to issue a writ of mandamus requiring the three members of the lower court to state the "precise reasons" for that court's order setting aside a 1957 FCC decision awarding ch. 9 to WLOF Orlando.

The lower court's decision of May 21 setting aside the FCC grant (made in compliance with the Supreme Court's October 1958 reversal of an earlier decision by the lower court which upheld the FCC grant to WLOF) also ordered the FCC to hold another hearing with the aid of a special hearing examiner. WKIS then requested a rehearing en banc by the appeals court, holding the FCC shouldn't be allowed to investigate itself (on the issue of whether a member of the FCC who voted in the 1957 award should have been disqualified) and asking instead that the lower court appoint its own hearing master to make recommendations for the award to the appeals court itself. The lower court on June 5 refused to review the case en banc; giving no reason for denial.

WKIS in its petition to the Supreme Court last week said that under the Administrative Procedure Act the lower court, in its May 21 reversal of the FCC, should have made a finding to support its order vacating the FCC action. Instead, WKIS said, the lower court merely stated the purpose or objective, namely to enable the Commission to determine certain things that 'might be thought' to reflect upon individual commissioners and/or upon their original decision, or upon either of the applicants. That court, WKIS said, should have stated that if "certain facts were found to be true, disqualification of the guilty parties (commissioner and/or applicant) would be required." The court's "indefinite, indefinite" attitude leaves the remand proceeding open to "vague findings and 'white-wash' tactics," WKIS charged.

The Supreme Court remanded the case to the lower court in October 1958 to look into allegations that WLOF had engaged in ex parte activities during FCC adjudication of the case.

THE MACK TRIAL

Counsel summations prepared for jury

The Mack-Whiteside case probably will go to the jury this week following closing arguments by prosecution and defense counsel scheduled to begin today (June 29) in Federal District Court in Washington. Both sides rested their cases last week, the 12th week of the trial, after two defense witnesses were heard.

Defense counsel appeared heartened Thursday when Judge Burnita S. Matthews denied a defense move for a directed verdict of acquittal, but reserved the right to reverse the jury after the verdict if it finds either of the defendants guilty. Nicholas P.

Broadcasting, June 29, 1959
Have you heard what the WeeReBeL said to Compton Advertising?

"We're rich in Columbus!"

Average family income in the metropolitan trading area of Columbus, Georgia, is higher than that of New York, Chicago or Detroit. In fact, only 24 other cities in the U.S. beat it!

Over 83% of these better-than-average families own TV sets and WRBL-TV is the only VHF in the market. WRBL Radio is the station most listened to, with the lowest cost-per-thousand and the best availabilities because WRBL offers the soundest program format. Call HOLLINGBERY and get Columbus on your schedule, now.

WHY NEWS IS TV'S HIDDEN ASSET

The audience thinks more of tv news than tv broadcasters do.

Tv news is much more powerful than generally believed.

It's the most underrated of all video program types.

This new concept of the place of television news in the media field was announced last week by Dr. Phillip Eisenberg, president of Motivation Analysis Inc. The research firm has completed a study of audience reaction to tv for Corinthian Broadcasting Corp.

Dr. Eisenberg upset traditional values in newscasting after analyzing results of field work done in Houston, where Corinthian operates KHOU-TV.

The study yielded viewer reaction to news, weather shows, movies and other forms of programming, using a sample of 200 men, women and teenagers, all tv set owners. The semi-structured depth interview technique was employed.

Explaining that television news has a "much stronger" impact on the public than has been believed, Dr. Eisenberg said:

"A decade ago people were saying that tv news would always be limited because it could never be as fast or up-to-the-minute as radio and because of the inherent limitations of visual electronic journalism.

"However, I cannot help but be terribly impressed by both the size of the audience to television news and by the intensity of the interest in it. It impressed me more than anything else in the Houston study."

Asked why news receives only slight mention in a list of most popular programs, Dr. Eisenberg told Broadcasting viewers usually take news and weather for granted and do not list them as favorite types despite their interest in such programming.

Why News Is Strong • Tv news was found in the survey to have its main strength in the sense of reality achieved. These news factors were cited in the study:

Tv is faster than newspapers and easier to grasp than other media; half the people want more tv news than they are now getting, a third are satisfied with three newscasts a day; 18% want fewer newscasts; two-thirds prefer a short (15 minutes) to a long newscast; people want both world and local news without disproportionate emphasis on either and with facts put in perspective but minus personal opinions of the newscaster; they desire as much "visualization" as possible; three-fourths deem tv news "very important" or at least "moderately important"; three-fourths like special local events.

Strong local news coverage gives viewers a feeling the station is interested in the welfare of the community, according to Dr. Eisenberg. He said this applies to local sports and special events, school sports, school board meetings and the like, adding "you are much more likely to know some of the individuals involved than individuals in a national story."

The effort made to learn about specific programs evidences the intense public interest in tv, he said. "When people are interested in the subject they will go so far as to read a catalog with all its detail and fine print. The viewer studies the small print in the newspaper or magazine listings of tv programs and then makes his viewing decisions." He felt this shows the importance of giving the viewer specific information showing details as well as the kind of show and its probable quality.

As to weather, four-fifths like the reports; viewers prefer local weather tied to the national weather picture; they want visualization; the personality is important.

Dr. Eisenberg said the Corinthian study confirms a former depth study he did for Television Bureau of Advertising. This showed tv's strongest asset as an advertising medium and communications force is its unequaled ability to create the sense of reality itself. He said, "The tv news experience is the most real in comparison with any other medium, if it is presented properly. It is the closest thing to the actual experience itself. . . . Tv has learned to be pretty fast in reporting the news."

"One of the medium's great strengths is its ability to expose us directly to the personalities in the news. We see them and form opinions of them as people. The names in the news are no longer just names, they take on an immediate reality."

Dr. Eisenberg reminded that "radio still remains No. 1 for speed; the newspaper provides important details and comprehensive coverage; magazines offer valuable background and interpretation."

Visualization • He said the tv newscast is most effective "when it is delivered with the greatest amount of visualization, such as motion picture clips, clear explanatory maps, diagrams, annotated treatments and the like."

Here are breakdowns on the key news questions in the Motivation Analysis study (many tables do not add to 100% because of duplicate and miscellaneous replies):

How important to you is the news on tv?
Very important ......................................... 56%
Moderately important ................................. 17
Not very important .................................. 15
Very unimportant .................................... 12

What do you get from news on tv that you do not get from news on radio or in newspapers (three main reasons)?
Up-to-minute news bulletins; quicker 28%
Visual perception; news more real; can remember longer 27
Like to see where news is being made 25

Which do you prefer—long or short news shows? Why?

SHORT 56%
Just gives main facts, to-the-point
Don't have time to sit too long; it takes less time
Like 15-minute news 12

LONG 32%
Better coverage, more complete, more detail
More informative 5
Get more pictures 3

How often should newscasts be broadcast during the day?

Once 6%
Twice 9
Three 24
Three or four 6
Four 16
Five 4
Every two hours 3
Every hour 7
Special bulletins during emergencies, crises 17

Which are you more interested in—local, national or world news? Why?

WORLD NEWS 43%
Want to know what's going on
It shapes the rest of the news
More important to more people
There is a war scare
You get local news in the paper

NATIONAL NEWS 16%
More important to me

Informative
Important to know 2

LOCAL NEWS 11%
Want to know what's going on
More interesting 3
Familiar with things, places 5
ALL THREE 29%
Like all the news 14
Depends on where it happens 3
All the news is important 3

Do you prefer straight news or a commentator who interprets? Why?

COMMENTATOR 49%
Helps understand it 24
Explains in detail 6
He is an authority 6
STRAIGHT NEWS 45%
Like to interpret myself 21
Just want the facts 11

What would you like to see in newscasts besides news coverage?
Pictures of the news and events as they happen 77%
Location (maps) of events 10
According to ARB, that’s how highly the Jack Paar personality scores with Chicago viewers. WNBQ’s rating averages well over twice that of the feature film fare or anything else in the 10:15 p.m. to midnight time period, Monday through Friday. And on WNBQ, Jack delivers audiences at a cost per thousand homes as low as $1.15!

Choose the favorite sport of Chicago viewers—Jack Paar—on Chicago’s quality television station.

Channel 5 in Chicago  NBC Owned  Sold by NBC Spot Sales

Source: ARB, April 1959
CHASE, attorney for former FCC Comr. Richard A. Mack, said he had never had this happen during his court experience and said he took it as a sign Judge Matthews may believe the defendants are innocent.

Scheduled to be argued last Friday were 36 prayers entered by Mr. Chase asking Judge Matthews to instruct the jury on various points of law. Arthur Hilland, counsel for Thurman A. Whiteside, was present to give similar prayers last Friday.

Mr. Mack was not present Thursday and Mr. Chase explained he was too ill to be at court that day. Neither Mr. Mack nor Mr. Whiteside was put on the stand during the trial.

The witnesses last week were Mrs. Elizabeth Grisillo, Mr. Whiteside's secretary, and Thomas A. O'Neil, Washington accountant, who testified on financial transactions between the two defendants.

Earlier in the week, defense counsel had introduced evidence that Mr. Mack received money from the G.C. Stember Insurance Agency, owned by Mr. Whiteside, as early as January 1953, months before Mr. Mack joined FCC.

The defendants are charged with conspiring to obtain award of ch. 10 in Miami for Public Service TV Inc., a subsidiary of National Airlines. The FCC made the grant in 1957 and Mr. Mack resigned from the FCC early in 1958.

STATE TAXATION
Interstate threat studied in Congress

Chairman Emanuel Celler (D-N.Y.) of the House Judiciary Committee last week set up a special subcommittee to study implications of the U.S. Supreme Court's decision last February that a state has the right to tax that portion of the income of companies operating in interstate commerce which is derived from that individual state (BROADCASTING, March 2).

Meanwhile, Sen. Prescott Bush (R-Conn.) last week introduced a bill in the Senate which would prohibit a state from collecting taxes from companies which sell their goods or services in that state unless the company maintains a "stock of goods, plant, office, warehouse or other place of business within the state." The bill is similar to one introduced the week before by Rep. William M. McCulloch (R-Ohio) (BROADCASTING, June 22) and which will be considered by the new House subcommittee.

Heading the House unit will be Rep. Edwin E. Willis (D-La.). Other members are Reps. Byron G. Rogers (D-Colo.), Jack Brooks (D-Tex.), William E. Miller (R-N.Y.) and Richard H. Poff (R-Va.).

STATE LINE STUDY
Rep. Celler said a study "must be made" to find whether there has been a departure from the "traditions that have kept interstate commerce from the burden of multiple state taxation," and, if there is any necessity of "legislation that will protect the national as well as the state interest." He said the House unit is for inquiry, not legislation, and will make its recommendations to the parent Judiciary Committee.

Sen. Bush said the Supreme Court interpretation opens up a "Pandora's box" of difficulties and harassment for all businesses, especially smaller ones, and he feels the bill is of "sufficient urgency" that the Senate should make a special effort to bring it to a vote this session of Congress.

The bill is not a total solution, he said, but would give relief to companies in interstate commerce whose only activity in other states is seeking sales. Such interstate solicitation, of course, is obvious in the case of broadcasting.

FEDERAL BUDGETS
FCC, other funds reach final hurdle

The Senate last week restored $300,000 of a $600,000 cut by the House in FCC appropriations for fiscal 1960, approving a total of $10.7 million for the agency, $300,000 less than the $11 million Budget Bureau recommendation.

The Independent Offices Appropriations Bill (HR 7040) was passed by a Senate vote of 89-1. The measure now will go to a joint Senate-House conference committee to iron out differences caused by Senate increases of over $100 million to the $6.45 billion version passed by the House on May 11.

The Senate also raised the ante $190,000 over the $6,745,000 House appropriation for the Federal Trade Commission. The House figure represented a $230,000 cut from the Budget Bureau recommendation of $6,975,000. The Senate version: $6,935,000.

The Senate also increased by $200,000 the amount the House approved May 21 for the U.S. Information Agency, parent agency of the Voice of America. The total Senate figure for USIA was $101,757,300 which is still $4,354,700 less than the Budget Bureau request. This bill (HR 7343) also is scheduled for conference by a Senate-House group.

In debate before Senate approval of the Independent Offices Bill, Chairman John A. Carroll (D-Colo.) of the Senate Judiciary Committee's Administrative Practice & Procedure Subcommittee, expressed concern that members of some regulatory agencies at times have acted as if they were a part of the Executive rather than of Congress. He
Salesmakers all! That describes the sprightly line-up of local summer fare on WWJ-TV. These are programs you can depend on for genuine viewer interest, for depth impact that moves merchandise. These are shows that people really look forward to, really sit down to watch, really follow with enthusiasm.

Check the list—then call your PGW Colonel and place your summer schedules on WWJ-TV, Detroit's Believability Station.

"I Married Joan" 1:30 P.M. 
Monday through Friday
Lovable, laughable Joan Davis is winning still more friends in her new summer time slot preceding NBC's "Queen for a Day."

"The Life of Riley" 6:15 P.M. 
Monday through Friday
With its impressive track rec-
ord, "The Life of Riley" is perfect for family-seeking ad-
vertisers. It follows WWJ-TV's popular "Six O'Clock News-
Weather" strip.

Salesmaking coverage, too! Northward to Flint and beyond, southward to Toledo and beyond, Detroit's WWJ-TV covers one of America's largest and wealthiest centers of population.

ASSOCIATE AM-FM STATION WWJ
First in Michigan —Owned & operated by The Detroit News
National Representatives: Peters, Griffin, Woodward, Inc.
indicated his subcommittee might question "some" of them "most closely" when they appear before his group. He also expressed concern over the backlog of some agencies.

 Fellow Democrat Warren G. Magnuson (Wash.), chairman of the Senate Commerce Committee and of the Senate Independent Offices Appropriations Subcommittee, generally agreed with Sen. Carroll in a discussion on the Senate floor. Sen. Magnuson said the FCC has a great backlog of cases, but is "catching up fairly well."

**FCC program review explained by Doerfer**

The FCC's consideration of programming in its various licensing functions must be looked at more in the light of a selection process than "any overt attempt to usurp an ungranted power," FCC Chairman John C. Doerfer said last Thursday (June 25) in an address to a symposium on the issues of broadcasting at the School of Speech, Northwestern U., Evanston, Ill.

The FCC chairman said any station licensee who is aware of the needs of his community or area should know or develop a "sense of understanding of that which ranges from the mildly controversial to that which is "highly debatable or hotly discussed," and should develop a sense of perspective.

He should be particularly zealous to provide fair presentation of matters in which he may have a personal financial interest, bias or prejudice, Chairman Doerfer said. He added that there is no all-inclusive formula for this and the FCC has developed precedents which afford more definite guides only in the "crucible of experience over the years."

**No FCC dispensation**

The FCC last week refused to waive its rules to allow WIP Philadelphia to originate most of its programs during the last two weeks of July from Atlantic City, N.J. But the station, upon learning of the FCC's decision of Thursday (June 25), announced that it would originate as many programs as FCC rules allow from Atlantic City, anyway, during the period.

**NARBA, Mexico treaty hearings set July 9**

Hearings on the North American Regional Broadcasting Agreement (NARBA) and a separate U.S. treaty with Mexico on broadcasting will be held July 9 by a special ad hoc subcommittee of the Senate Foreign Relations Committee headed by Sen. Wayne Morse (D-Ore.) (Broadcasting, June 22).

The subcommittee has invited interested witnesses to testify. Among those who will appear are Comrs. Rosel H. Hyde and John S. Cross of the FCC and W.T.M. Beal, deputy assistant Secretary of State for economic affairs. Comr. Hyde has represented the FCC at various international conferences involving broadcasting.

**PROGRAMMING**

**TWO VOICED NEWS FIRMS MERGE**

Radio Press and International Transmissions combine facilities

Announcement of the consolidation is being made jointly today (June 29) by George Hamilton Combs, president of Radio Press, and Sumner J. Glimecher, president of ITI. They said the move is subject to stockholder approval but pointed out that principal stockholders already have given their assent.

Under the change-over, Mr. Combs becomes board chairman and Mr. Glimecher president. Other officers are Donald Hirst, chairman of the executive committee; Noel Bernard, vice president for foreign news; Thomas M. Heyman, vice president, and Lloyd Garrison, assistant vice president.

The newly-organized RPI has obtained financing to enlarge its operations, according to Mr. Combs. Contemplated for the future are two or more classes of service to meet the requirements of particular stations—a comprehensive report, a skeletal report, a foreign report, Washington and national news report.

Will Fulfill Contracts • Radio Press had 54 stations on its client list and ITI had 18. Several stations currently are subscribers of both ITI and Radio Press and these outlets will continue to receive both schedules until the contracts are fulfilled. Mr. Combs noted that about 10% of the Radio Press client list and 20% of ITI's subscribers are network-affiliated stations.

RPI will have three 20-minute transmissions per day on weekdays and one 20-minute transmission on Saturday and Sunday. ITI used telephone lines and Radio Press utilized leased lines to transmit their voiced news recordings to stations. They indicated that both methods will be used, depending on the desire of the client. A subscriber pays the costs of transmission in any case, plus a fee to the news service.

Radio Press International will have 46 fully-accredited foreign correspondents on duty in at least 35 countries, officials said, plus 387 stringers throughout the U.S. Foreign news is provided by stringers, except in London where RPI will have a fulltime bureau of two news correspondents. Six foreign correspondents are on a retainer basis, they added.

Messrs. Combs and Glimecher said they undertook the merger in order to present "greater strength" if competition should develop from such "giant" news services as the Associated Press and United Press International.

Radio Press' emphasis has been on national news and ITI on international coverage. For the present, two transmissions per day will be largely national news and the third, international news.

**Yesterday?**

Starting in September, NBC-TV's Today series (Mon.-Fri. 7-9 a.m. NYT) will be taped late in the afternoon prior to each day's telecast, it was announced last week by Jerry A. Danzig, vice president, NBC participating programs. The only live coverage to be retained will be for up-to-the-minute news, Mr. Danzig said.

Reasons given for the change from the all live format: greater flexibility; use of pick-ups from areas in the news; more emphasis on prominent figures in entertainment, arts and sports; more convenient times can be arranged for guest appearances, and for west coast coverage which was unavailable for live participation. The program will experiment during the summer with special video tape features in preparation for the new season, it was reported.
Announcing—

A SEPARATION OF ACTIVITIES
TO BETTER SERVE OUR CLIENTS

Two completely independent firms will handle completely independent media.

Edwin Tornberg & Company, Inc., has entered the field of negotiating the purchase and sale of broadcasting stations, Radio-TV shows and entertainment properties.

Allen Kander and Company will continue to specialize in the purchase and sale of daily newspapers for important clients, and also serve as special consultants in the broadcasting industry.

Mr. Tornberg, president of the new company and formerly vice-president of the Kander organization, will have Edward Wetter and Douglas Kahle associated with him in eastern and west coast offices.

Mr. Kander will continue to maintain present offices and staffs in Washington and New York.

AFM INCOME DOWN
Air media employment, revenue dip in 1958

Employment of musicians on radio and television in 1958 declined substantially in 1957 levels as total revenue of American Federation of Musicians members in the air media slipped to $14,992,752 from $21,088,173 in 1957.

This picture of AFM's down-beat in radio-television emerged from a comparison of the Federation's annual report, issued at the conclusion of the 62nd annual convention in Seattle on June 19, with the union's 1958 report, which covered 1957 activity. A spokesman for AFM told Broadcasting that the figures reflect a trend over the years of the use of "canned music" on radio-tv, but pointed out that "one redeeming feature is that this year, the Federation has signed a lot more contracts with tv production companies for use of live music in series."

The sharpest cut for AFM members was in the "steady staff employment" in television category. Whereas in 1957, 834 musicians were employed for varying periods of time and earned $8,406-625, in 1958 the number of staff musicians fell to 409 and earnings to $2-,955,535. On radio, staff employment in 1957 covered 647 musicians with earnings of $4,548,894; in 1958, 432 staffers grossed $3,056,973.

Down and Down • Another area that showed marked reduced activity for AFM members was single engagement commercial tv employment. The number of such telecasts dipped from 3,415 to 2,884 and gross salaries from $2-,796,250 to $1,804,756.

As a whole, employment on television was sharply curtailed, while on radio the reduction was less pronounced. Total tv income from all sources dropped in 1958 to $9,287,383 from $14,325,643 in 1957; total radio income from all sources fell by about $1 million—to $5,705,359 from $6,702,529 in 1957.

Incumbent officers of the Federation were re-elected to serve another one-year term. They are Herman Kenin, president; William J. Harris, vice president; Stanley Ballard, secretary and George V. Clancy, treasurer.

Kenin Blasts FCC • Herman D. Kenin, president of the AFM, sharply criticized the FCC for "glaring indifference to the true public interest" and "dollar domination programming." He emphasized during his talk that the "lack of live music" on radio-tv works contrary to the public interest.

Mr. Kenin told delegates that the federation would attempt to secure support from other trade unions operating in broadcasting for a project aimed at placing at least one union worker in the industry on the Commission. He predicted: "It won't be for long that the broadcasters will be able to get away with such vulgarities as silencing the cultivated musical Voice of Firestone because Madison Ave. moguls arbitrarily decided that cops and robbers for the moment will sell more soap."

The convention passed a resolution instructing the AFM to make every effort to induce the FCC to deny license renewals to broadcasters who fail to present live talent programming and another imposing a tax of 2% on funds received by musicians as re-use payments for work on kinescopes, video tape or other similar tv recordings.

Redhead to return

Arthur Godfrey will return to the air next fall on Arthur Godfrey Time (CBS Radio, Mon.-Fri., 9:05-10 a.m.) and will appear on a maximum of four one-hour specials on CBS-Tv, it was announced Wednesday (June 24) by CBS and the entertainer. Mr. Godfrey, who is recovering from an operation for lung cancer, was on the air for eight hours a week this past season. As previously announced, he will not replace Edward R. Murrow on CBS-Tv's Person To Person. A network spokesman said the series will return in the fall with a host to be announced soon. The Sam Levenson Show (CBS-Tv, Tues., 9-9:30 p.m.), which was set up to sub-stitute for the Arthur Godfrey Time tv show, will continue in the same time period.

De Met taping majors for post-season sale

Plans to produce one-hour taped programs of 1959 major league baseball games for distribution at the conclusion of the season within the U.S. and abroad were announced last week by Peter De Met, president of Peter De Met Productions, Chicago, and Warren Giles and Joe Cronin, presidents of the National League and American League respectively.

Mr. De Met said that his company had received exclusive rights to videotape this season's remaining games in both leagues. The price paid was not disclosed.

A spokesman for the De Met organization reported that almost 100 games will be taped and 26 will be selected for distribution, starting after the World Series. The tapes will be marketed under the title of The Best 26 Games, edited to one hour programs spotlighting action and omitting time-consuming delays.

The games will be taped by stations with recording installations in the various major league cities. They will be edited by the De Met staff, which will tape-produce in its studios segments featuring interviews with well-known personalities for inclusion in each program. A separate sound track will be inserted. Jack Brickhouse will provide the narration. The De Met spokesman said that contracts have been signed with 16 stations to assume tape assignments.

The program will be distributed by Universal Television Distributors, New York. An official of De Met acknowledged that the foreign sale of taped programs is not substantial at this time because of the scarcity of equipment, but pointed out that the series will still have value in the future when tape installations become more widespread.

Catholic association salutes broadcasters

WHEN-Tv Syracuse, N.Y., and KMOX St. Louis, Mo., received awards for outstanding public service from the Catholic Broadcasters Assn. at its June 18 annual meeting in Detroit. WHEN-Tv was cited for "...devotion over many years to the television interests of the diocese which it serves." KMOX was saluted for "...imaginative contributions to the Catholic community."
"FOR THOSE ONE-TIME-ONLY SHOTS,
WE COUNT ON 930 AND 931 FILM"

That's what Jay Weand, Chief Photographer, WCKT-TV, Miami, tells us

“Our photographers have to have a film they can depend on. That's why we use nothing but Du Pont Type 930 and 931 Rapid Reversal Films, from the North Pole to the South Pole—and still come up with a good news picture.

“But there's a good deal more to newsreels for TV than just getting a good shot on film,” he continued. “The most important thing is to get a consistent picture that will show well on the TV screen. The wide latitude of Du Pont film helps us get pictures that consistently come up to the high standards we've set.”

There's a Du Pont Motion Picture Film to meet your high standards, too. For more information about Du Pont's fine films, write Du Pont, 2432A Nemours Building, Wilmington 98, Delaware. In Canada: Du Pont of Canada Limited, Toronto.

BETTER THINGS FOR BETTER LIVING . . . THROUGH CHEMISTRY

BROADCASTING, June 29, 1959
More Soviet ballet bought for television

The Russian ballet-on-tv bandwagon had another occupant last week when Art Theatre of the Air Inc., New York, announced that it had purchased the U.S. tv rights to three hours and 40 minutes of color and black-and-white films dealing with the Bolshoi, Georgian and Moscow Ballets, plus the Moiseyev Dancers and the Red Army Ensemble (CLOSED CIRCUIT, June 22).

Officials of Art Theatre of the Air declined to reveal how much they paid the Russian government for the rights but Sig Shore, vice president of the company, commented: "We paid less than Matty Fox did." This was a reference to Mr. Fox's well-publicized Bolshoi Ballet project in which Mr. Fox has invested $900,000 for production of four one-hour tapes of the ballet and for U.S. rights.

The films which Art Theatre has acquired were produced during 1956, 1957 and 1958 in motion picture studios and on location, rather than on stage. A company executive said that the films thereby were given "scope in scenery and design never before afforded ballet films."

Red Films • The properties included in the arrangement with the Russian government are a 35-minute version of Swan Lake starring Galina Ulanova, prima ballerina of the Bolshoi Ballet; a 25-minute version of The Fountain, a ballet based on the Pushkin story, which also stars Ulanova; an 18-minute Bolshoi Ballet production titled Flames of Paris; a 12-minute Bolshoi version of Raymonde, a well-known Spanish ballet; films of the Moiseyev Dancers performing The Strollers, Quadrille, Kasaki and The Spinner.

Also: the Moscow Ballet Co., performing Guyanne, which contains the Sabre Dance; Georgian Ballet film Love and Struggle; the Red Army Ensemble, featured briefly on Bob Hope's Moscow telecast last season, in its version of During a Halt in the March and a 40-minute production, When the Spirit Sours in Flight, depicting outstanding Russian youngsters performing ballet and singing folk songs.

Joseph Harris, president of Art Theatre of the Air, said no decision has been made on whether the films will be released for network telecast or sold on a syndicated basis. He indicated a decision would be made shortly. Mr. Harris reported that he plans to engage a well-known choreographer who will supply background comment for the various films.

Possible Effect • He declined to speculate whether or not the tv exposures of the properties he has acquired will hurt the sale of the taped Bolshoi Ballet programs. By coincidence, Mr. Harris is a former associate of Mr. Fox and is credited with having brought Mr. Fox into the television field. Mr. Harris commented: "I don't think Matty will deny that. I wish him all the luck with his tapes."

Art Theatre of the Air Inc. was formed two years ago "to bring the finest in foreign films to television." Among the films it has imported and subsequently sold to tv have been Rififi, Bitter Rice, Anna, Mr. Hulot's Holiday and Wages of Fear.

Mr. Harris is described as a million-are-industrialist with diversified holdings. He has been active in tv for more than a decade as a large investor and active official in such companies as Flemingo Films, New York, and Motion Pictures for Television, New York, in association with Matty Fox in the latter company.

Radio preachers urged to use modern format

Religious broadcasters, meeting in Lake Geneva, Wis., last week were urged to adopt an overall strategy in their radio-tv efforts. Rev. Charles Brackbill Jr., president of the Council Broadcasters' Fellowship (representing state and local councils of churches), told the Protestant group, "Religious broadcasting in this country is without form." It has not changed in 30 years, he said, continuing: "During the 'soap' era we preached. All through the heyday of radio's 'great productions' we preached, mostly. Now that radio has found its new life in drastic changes, we still preach. We haven't moved backward, we just
One of a series of salutes to successful Radio and TV stations across the nation ... and to the Northwest School graduates who have contributed to their success.

SALUTE TO KFDA-TV — "Station of the Stars" Channel 10—Amarillo, Texas.

KFDA-TV has been on the air since April 4, 1953, and is a CBS-TV affiliate. This station has an enviable record of: FIRST television station in the country to do weather direct from the U. S. Weather Bureau on a permanent basis; FIRST television station in the Texas panhandle to buy major film package—(MGM, Columbia and 20th Century Fox); and many other "firsts" in its area.

This was Mr. Ed Moore's comment regarding Northwest graduate Dick Knerr: "Dick Knerr has been our film director since September 1955. He handles the entire film operation of the station and does some daytime directing. We consider Dick a most valuable member of the KFDA-TV staff. He continues to progress daily."

For further information on Northwest training and graduates available in your area, write, phone or wire:

NORTHWEST SCHOOLS

1221 N.W. 21st Avenue, Portland 9, Oregon
Phone CAPitol 3-7246
737 N. Michigan Avenue, Chicago 6362 Hollywood Blvd., Hollywood
haven't moved." He concluded that in many cases, religious broadcasters deserve the fringe times and extremities of schedules they now have.

In an "attempt to lift the standards, and to work toward a mastery strategy" the Fellowship adopted a set of principles for local Protestant religious broadcasting. One calls for producing programs compatible with current broadcasting trends "as to length and format."

Clifford J. Barborka Jr., vice president of John Blair & Co. challenged the religious broadcasters to be just as creative as commercial radio producers. A series of one- and two-minute programs was auditioned, illustrating one way to adopt religious broadcasting to current formats.

**POST-48 MOVIES**

**Exhibitors plan move to keep them off tv**

The recently-formed American Congress of Exhibitors is discussing with Dept. of Justice officials a plan whereby ACE would set up a corporation to buy post-48 films and release them theatrically. The purpose of the ACE-Justice Department talks is to determine whether this maneuver, which, in effect, would prevent release of post-1948 films to tv, is legally sound.

An ACE spokesman in New York said last Thursday that all discussions with the Justice Department have been exploratory and the organization has not asked for a ruling. A crucial issue of the plan of this organization of theatrical exhibitors is whether it would violate the anti-trust law on the grounds that the proposal is designed to prevent films from flowing to tv.

It is understood that ACE assured the Justice Dept. that its sole objective is to obtain more exploitable product for theatres. The effect of this gambit, however, would be to reduce the availability of the estimated 2,500 post-48 films to tv.

Another consideration facing ACE is devise a way to procure post-48 films for theatrical re-issue without violating the Paramount decree. None of the judicially-divorced theatre circuits may be a party to purchase of the post-48 film product for theatrical re-issue as this would place them in the business of distribution in violation of the Paramount decree.

An ACE spokesman said the entire project was in an embryonic stage but details could be developed rapidly so that a presentation could be made to the Justice Dept. Under ACE's proposed plan, it would purchase "the best" of the post-48 films and release them periodically to theatres.

ACE was formed in January 1959. It consists of theatre operators throughout the country, some of whom belong to other groups, such as Theatre Owners of America, Independent Theatre Owners of America and others. ACE consists of various committees aimed at advancing theatre interests, including toll television, post-48 films, producer-exhibitor-distributor relations and industry research.

Merlin Lewis is executive secretary of ACE. S. H. Fabian of Stanley-Warner Corp., New York, is board chairman and Max Cohen of Cinema Circuit, New York, is treasurer.

**Modest sponsors**

Local sponsorship of Mutual's *Game of the Day* series ordinarily would demand repeated advertiser identification during the broadcasts, but at WJZM Clarksdale, Tenn., the "sponsors" are anonymous. Play-by-play activities of the major league teams are interspersed only with "go to church" announcements. No other "commercial" messages are allowed, reports Parry Shettail, station manager. Cooperating with WJZM in the daily broadcasts are 48 businessmen and eight service organizations, all of whom work with a group known as the Clarksdale Area Radio Religious Committee. They provide the funds for the talent fees, broadcast rights, payments to the baseball clubs and for twice yearly advertisements in the local daily newspaper. The newspaper ads identify the "sponsors" by business and club name, the only recognition they seek, it was reported. The "go to church" messages are alternated with appeals, in behalf of Sunday schools, weekly prayer meetings and various church social activities. Churches of all denominations are included.

Sterling stock sold

Sterling Television Co., New York, reported last week that 200,000 shares of the company's Class A stock was offered to the public at $1 a share on June 2 and the entire issue was oversubscribed on the first day of the offering. The underwriter for the stock issue was R.A. Holman & Co., New York.

Saul J. Turrell, Sterling president, said that the approximate $154,000 that will accrue to the company after all expenses are deducted will be used to develop and complete various new film series for tv; to expand the company's sales promotion activities and to expand the company's working capital. Sterling currently distributes the *Abbott and Costello* series, *Bowling Time, Bowling Stars, Wonders of the Sea, The Ray Forrest Show* and various other programs, including cartoons and short subjects.

The company's prospectus reveals that Sterling had a net income of $21,564 for the nine month period ending Dec. 31, 1958. For the year ending March 31, 1958, net income was reported at $47,359 and for the year ending March 31, 1957 at $13,736.

**Program notes**

- Associated TeleVision Ltd. of England, which with Jack Weather owns Independent Television Corp., New York, last week changed the name of its production and distribution subsidiary from Incorporated Television Pro- gramme Co. Ltd. (ITP) to Incorporated Television Co. Ltd. (ITC).
- Aura Recording Inc., N.Y., has acquired the facilities of Coastal Recording Co., N.Y., at 136 W. 52nd St., N.Y. The group in control of Aura consists of Herbert Kaplan, Heinz Kubicka, Allan Merchin and Benjamin Stein. Company officials report that much of the recorded commercials and musical jingle work of Coastal has been assumed by Aura.
- Programatic Broadcasting Service, N.Y., which provides a combination of automatic broadcasting equipment and exclusive music programming, last week announced the following stations will initiate the service on July 1: KCMO Kansas City, WMBR Jackson- ville, KRKD Los Angeles, KRMG Tulsa, KPHO Phoenix, KOLD Tucson and KGNC Amarillo. Programatic offers 18 eight-hour tapes of music every 36 days to its station subscribers.
- The American Society of Composers, Authors and Publishers, N.Y., is mailing to "good music" radio stations a new 375-page catalog of symphonic and concert music in ASCAP's repertoire. The volume lists composers and works, instrumentation of each work, length of performance and source where the material may be obtained.
- Screen Directors International Guild, N.Y., last week issued its Directory of Directors for 1959-60, a listing of Guild members and their credits, plus articles on tv film production in the East. The 80-page booklet is being distributed to film producers, agency executives and motion picture sponsors in the East.
• The Screen Actors Guild's executive committee and working conditions committee, N.Y., have unanimously voted to reject collective bargaining counter proposals by tv and motion picture producers for extra players' rates and conditions. The proposal also has been rejected by SAG in Hollywood. The negotiations are being conducted with the Assn. of Motion Picture Producers and the Alliance of Television Film Producers.

• Lanark Films has obtained the rights to produce a tv series based on the Las Vegas police and sheriff's office. Lanark President Phil Cutler says production of 39 half-hour segments is slated to start about Oct 1.

• Tightrope! is the new title of Screen Gems' adventure series set for Sept. 1 debut on CBS-TV (Tues. 9:30 p.m. EDT). Formerly called Undercover Man, the series starring Mike Connors will be sponsored by Pharmaceuticals Inc. through Parkson Adv., N.Y.

• WWCA Gary and WLOI La Porte, both Indiana, covered the complete Senate Racket Committee's hearings in Lake County live. Two hours of taped highlights also were telecast in the evening.

• WNTA-AM-FM Newark, N.J., last Thursday (June 25) started live coverage of the Senate Rackets Committee hearings in labor-management racketeering in the New York metropolitan and northern New Jersey areas, the station announced. During the seven scheduled days of hearings, broadcasts begin at 2 p.m. and continue through to conclusion. Remaining dates of the hearings are today (June 29) through Wednesday and July 6-7.

• Herts-Lion International has been formed by Kenyon Brown, president-stockholder of KCOP (TV) Los Angeles and other stations, to produce tv and theatrical films. Ken Herts is president. Other officers: Corinne Griffith, Zsa Zsa Gabor and Leo Guild. H-LI is planning production of 13 Demon St. and My Most Frightening Moment tv series. The company now is shooting The Victim, 26 half-hours based on cases from the Los Angeles coroner's office. Address: 840 N. Seward Ave., Hollywood 28, Calif. Telephone: Hollywood 4-7225.

• CBS-TV has scheduled The Joseph Cotten Show, an anthology of half-hour dramas, as the summer replacement for The Ann Sothern Show beginning July 6 (9:30-10 p.m. EDT). Actor Cotten is host for the repeat series and stars in several of the weekly episodes. General Foods Corp., through Benton & Bowles Inc., N.Y., has signed for sponsorship.

• Headquarters of Paramount's pay tv subsidiary, International Telemeter Co., has moved from California to New York. Louis Novins, Telemaster president, and Will Balit, his general assistant on marketing, occupy offices in the Paramount Building at 1501 Broadway.

• ABC Films Inc., N.Y., has sold its "One Step Beyond" series on supernatural phenomena, currently seen on Alcoa Presents (ABC-TV, Tues. 10-10:30 p.m.), to the Canadian Broadcasting Co. (English network). The series began in Canada June 23 (8-8:30 p.m.).

• Screen Gems Inc., N.Y., announces that Manhunt, a half-hour tv film series dealing with activities of the San Diego, Calif., police force, will be made available for syndication to stations and advertisers. The series stars Victor Jory. Screen Gems also reports that renewals on the second year of the Rescue 8 series include purchases by Miles Labs of California, L.A., through Wade Adv., L.A., in Seattle, Spokane, Portland, San Francisco, Los Angeles, Sacramento and Stockton, Calif., and the West End Brewing Co., Utica, through Doyle Dane Bernbach, N.Y., in New York state markets, covering Buffalo, Albany, Syracuse, Binghamton, Carthage, Rochester and Utica.

• CBS Radio is moving the origin of two network programs, Suspense and Johnny Dollar, from Hollywood to New York. The change is due to a greater manpower supply in the East, Lucian Davis, executive producer of network programs, Hollywood, explained. Virtually all the people employed on these programs are being relocated on other jobs at either CBS Radio or CBS Television, he said. Writers of both series, William N. Robson of Suspense, and Jack Johnstone of Johnny Dollar, will continue in Hollywood, sending the scripts East for production.

• A KTTV (TV) Los Angeles interview with an American soldier who chose to live in Red China has been sent to WJAR-TV Providence, R.I. (the soldier's home town), for telecast. The ex-GI has been missing since his appearance on KTTV.

STORES HARDLY MISS NEWSPAPERS

Kansas City, St. Louis business appears normal despite strikes

Newspaper strikes in two Missouri cities—St. Louis and Kansas City—have afforded radio-tv stations there new opportunities to reaffirm their effectiveness as advertising and information media, reports from stations and advertisers showed last week.

Store traffic in Kansas City, where the newspaper strike continues, appears generally normal and in some cases higher, retail executives said, although some few downward fluctuations were cited. The same pattern appeared to hold true in St. Louis, where the strike was settled last week.

A strike paralyzed daily newspapers in St. Louis earlier this month but radio and television stations expanded operations to satisfy citizens seeking news and advertisers seeking sales. Kansas City papers have also been stricken by a labor dispute and stations there are responding strongly to the emergency.

Similar strikes in New York last year (Broadcasting, Dec. 22, 1958 et seq) and in Grand Rapids, Mich., earlier this year (Broadcasting, Jan. 19) had little effect on retail sales. In fact, New York department store sales in December 1958 were 7% higher than the previous year. And department store and food chain businessmen in Grand Rapids were nearly unanimous in agreement that the 43-day strike of the city's two dailies did not hurt sales volume.

It's too early for full data on the business levels in the two Missouri cities, but broadcast media billings jumped sharply and advertisers were reported to be content.

Await Full Reports • The 15-day St. Louis strike ended last Wednesday (June 24) when Stereotypers Union Local 8 voted to accept the proposal of the afternoon Post-Dispatch and the morning Globe-Democrat. In Kansas City the International Typographical Union Local 80 walked out June 19 and was still out last Thursday night (June 25). The strike there affects the Star and the Kansas City (Kan.) Kansasan.

In Kansas City, radio and tv stations are meeting their suddenly expanded civic and economic roles.

Don Davis, president of KMBC, reported that a survey in downtown stores showed business was steady June 19-23 (Friday, Saturday, Monday, Tuesday). Department store executives told him that business has been at normal or higher-than-normal pace since the newspaper strike started.

A Peck's store official said that newspaper dependence has been reflected in some special sale promotional items but that regular business "is moving at a normal pace." A similar view was expressed by a Macy's executive.

Radio-Tv Impact • Peck's added that increased customer traffic in the store is the result of intensive radio-tv advertising. Sears, Roebuck reports

Edward Charles, general manager of KCKN, said that drive-ins and theatres, usually heavy newspaper users, are buying "saturation schedules." The Automobile Dealers Assn. as well as individual buyers are spending "heavy," he added with chain drug stores emphasizing specials on their spots.

Much the same pattern is reported by WDAF-AM-TV. Jay Barrington, assistant to the general manager, said that "virtually" all major department stores are using both radio and tv. Also automobile dealers, theatres, appliances and retail food stores are buying saturation schedules. Mr. Barrington added that brokerage houses and financial firms are purchasing "greatly augmented" news shows as well as regularly scheduled programs for obituaries, market reports and society news.

The St. Louis Story • How did St. Louis stations rise to the occasion? At WIL, John F. Box Jr., executive vice-president and managing director, reported that department stores "immediately purchased all available newscasts." Within 24 hours after the strike was called, he said, the station was "sold-out" and established a waiting list for availabilities. "While we had the biggest billing in the station's 38 year history," Mr. Box explained, "the primary emphasis was on news and public service."

KMOX-TV set up a news display in the front window of Famous-Barr department store downtown. The window display featured a TelePrompTer machine with up-to-the-minute news furnished by KMOX-TV. Famous-Barr ran a heavy spot schedule on KMOX-TV promoting its "jubilee sales."

Another department store, Stix, Baer & Fuller, signed a half-hour Sunday news show.

KMOX estimated that radio time

THE MEDIA
sales increase attributable to the strike was approximately 20%.

General Manager Harold Grams of KSD-AM-TV reported that there was a "considerable volume" of new business including the city's major department stores. Both stations, Mr. Grams said, experienced an influx of additional business in many categories including auto manufacturers and dealers, national and local retail food chains, home developers and individual food products. KSD Radio also added new business from banks and savings-and-loan.

WEW carried a heavy schedule of announcements for department stores, said Bruce Barrington, general manager. One furniture store reported to WEW that it had increased sales at its suburban branches with no loss downtown. One side light: a woman called in to say that she had not listened to radio for two years and thanked WEW for her rediscovery of "a wonderful medium" and promised to spread the word of its "delightful entertainment and unique service."

A twice daily obituary over KXOK resulted in many favorable calls and letters. KXOK doubled its news output, increased its stock market reports.

KWK expanded its news coverage to include 5-minute news summaries every half-hour with new headlines on the quarter and three-quarter hour marks 24 hours a day. W.L. Jones, general manager, said all "major and secondary retailers utilized our facilities on the basis of strike sales and radio specials."

Local business "boomed" on KTVI (TV), according to Don B. Curran, promotion manager. The station geared its traffic and continuity department to provide sales service to those advertisers not "ordinarily acquainted with the broadcast medium—especially department stores and food chains," he said.

**NBC sells WNBC (TV) to Scheftel group**

NBC sold its remaining uhf tv outlet, WNBC (TV) New Britain, Conn., last week to a group composed of owners of six other uhf stations. At the same time, in another top Connecticut sale, 1922-founded WDRC Hartford was sold by its original owners.

WNBC (TV) and radio affiliate WKNB were sold to Connecticut Television Inc. (Herbert Scheftel, president) for $1.04 million. Connecticut Television is two-thirds owned by ch. 20 WICS (TV) Springfield, Ill., and one-third by ch. 22 WWLP (TV) Springfield, Mass. NBC gave up its other uhf station, ch. 17 WBUF (TV) Buffalo, N.Y., last fall and the facility is now
WCKY IS CINCINNATI'S 1 NEWS STATION

Here's proof, straight from the Jan.-Feb. '49 Nielsen, that WCKY has the largest news audience in Cincinnati:

<table>
<thead>

The reasons for WCKY's News Leadership:
1. Large news staff of veteran experienced reporters and newscasters.
2. Scoops — WCKY consistently scoops the town on most local news stories.
3. On-The-Spot-Reports — WCKY's mobile unit is on the scene reporting big local stories when they happen or moments after they happen.
4. News tapes — the people who make the news tell the news to WCKY's audience via news tapes. WCKY has them on the air first.
5. Background — WCKY's newsmen present the reasons behind the news so that WCKY's listeners receive a more complete understanding of the news.

WCKY News is No. 1 in Cincinnati and has earned its reputation for prestige, because Cincinnatians know they get the news first, fast and accurately on WCKY. Smart advertisers know they get the prestige of WCKY's news plus a large responsive audience when they sponsor news on WCKY.

WCKY IS CINCINNATI'S 1 NEWS STATION

Kander radio-tv goes to Torbern in split

A split in the newspaper and broadcast brokerage activities of Allen Kander & Co. was announced last week. Edwin Tornberg & Co. has been incorporated to handle sales of radio and television stations and also will negotiate the purchase and sale of radio and tv shows and filmed entertainment. Kander will devote full time as negotiator for the purchase and sale of daily newspapers, as property evaluator and as consultant in the broadcast industry.

The new firm is headed by Edwin Tornberg, for the past six years Kander vice president in charge of the radio and tv department. Allen Kander continues as head of the Kander firm. Effective July 1, the two firms each will maintain separate offices at 60 E. 42nd St., New York, and at 1625 I St., N.W., Washington, D.C.

In a joint statement, Messrs. Kander and Tornberg said last week: "We are ending our business association in complete harmony. We feel each of us can be more effective in specialized fields."

Educational WNED-TV, Ch. 30 WNBC (TV) will continue its NBC-TV affiliation under its new owners.

WICS (TV) is owned 50% each by Transcontinental Properties Inc. and Herbert Scheffel and Alfred Burger, each 44.8% owns ch. 38 WFTV (TV) in Duluth, Minn. and 50% of ch. 33 WCHU (TV) Champaign, Ill. H. E. Balaban Corp. (Harry and Elmer Balaban) has extensive broadcast interests including 50% each of WCHU (TV), ch. 23 WMCN (TV) Grand Rapids, Mich., and ch. 39 WTVO (TV) Rockford, Ill.

WWLP (TV) Springfield is a William L. Putnam station, which group has two uhf outlets: ch. 32 WRUP (TV) Greenfield, Mass., and ch. 14 WWOR-TV Worcester, Mass.

WDRC Hartford was sold by The Connecticut Broadcasting Co. (Franklin M. Doolittle, president) to Richard D. Buckley and John B. Jaeger, who operate WHIM Providence, R.I., for $815,000. Mr. Buckley is former vice president of Metropolitan Broadcasting Co.

Mr. KANDER Mr. TORNBERG

NTI IN CABLE TV
No master media plan in Williamsport buy

There is no gimmick in National Theatres' $1 million purchase of one of the country's largest community television systems, Charles L. Glett, National Theatres Inc. vice president in charge of broadcast activities, says.

National Theatres bought the seven-year-old Williamsport TV Cable Corp., serving 18,500 subscribers in the principal market of central Pennsylvania city. The system, one of three in that city, feeds its customers tv signals from WQAL-TV Lancaster, WBRE-TV Wilkes-Barre, WDAU-TV and WNEP-TV Scranton, WFBG-TV Altoona, all Pennsylvania, and WNBF-TV Binghamton, N.Y. Williamsport is said to have a potential of 15,000 customers.

"Over the years," Mr. Glett said last week, "we have been hosts to the public in our theatres. When we acquired our radio and tv properties we became guests in the public's home. The cable acquisition was just an extension of our broadcast operations."

Williamsport Cable was owned by Clive Runnels and associates.

National Theatres owns a chain of 350 movie theatres. It also owns 100% of WDAF-AM-TV Kansas City and 90% of National Telefilm Assoc., WNTA-AM-FM-TV Newark, N.J., and KMSP-TV Minneapolis, Minn.

Tv code office
NAB's west coast office for its TV Code Affairs Dept. will be opened in Hollywood July 6 with Frank Morris, writer-producer, in charge, announces Donald H. McGannon of Westinghouse Broadcasting Co, TV Code Review Board chairman. Mr. McGannon said the office will operate as advisor for the tv film industry. He explained that more than 40% of all material seen on tv is supplied by Hollywood film producers. Mr. Morris has been senior editor at CBS-TV in Hollywood since 1957 and previously was with ABC. Edward H. Bronson, NAB tv code director, has gone to Hollywood to set up the new office.

Edward Wetter will join the Torbern firm in New York to handle the eastern territory and Douglas Kahle will join that organization to handle the western region, with offices at 915 N. Commerce St., Stockton, Calif. George J. Cooper will remain with Kander in New York and John Alden Grimes, specialist in evaluations, and Don Hogate will remain in Kander's Washington office.
TV TAKES A PERSONALITY TEST

CBS study shows N.Y. and L.A. station images in public's eye

Media buyers are often cautioned: There's more to a tv "buy" than numbers and costs, important as these may be.

Last week, CBS Television Stations Division offered buyers a new media study called "More than Meets the Eye" that makes no mention of coverage or cost. Measured is a station's "image" and its influence on viewer reaction to a station's advertising. The research is concentrated on two markets, New York and Los Angeles, which are served by CBS-owned stations WCBS-TV and KNXT (TV).

Kickoff of the CBS presentations was at New York's Roosevelt Hotel on Tuesday (June 23) followed by a Chicago unveling on Thursday and Detroit on Friday. It is to be seen June 30 in Los Angeles and July 1 in San Francisco.

Here is the CBS Television Station Division media platform set before the buying specialist:

There is such a thing as a station's image and it is different for various stations in a given market.

The image has direct influence on how the viewer regards or reacts to commercials on the station.

Measuring an Image • How do you go about finding out what viewers think of tv stations?

CBS decided New York and Los Angeles provided the toughest competitive sites for the project since each network owns a tv outlet in each city and the network stations face competition from four non-network channels.

CBS also wanted to know about response to brand and product information in its search for a viewer image.

Institute for Motivational Research and Market Planning Corp., McCann-Erickson subsidiary, handled the job. The institute directed the general approach, drafted the questionnaire, established techniques and conducted actual field work in the final stage of the study.

Channel numbers were used rather than call letters and the name of the study sponsor was never revealed to any interviewer. Most of the field work was done the last week in March.

The Tests • Five "projective tests" were used by the interviewers:

1—The interviewee was handed a photo of a family watching tv. A series of questions was asked, with the interviewee requested to guess on the basis of separate comments which channel they are "most likely" talking about and which "next most likely."

The opening statement was, "They have more worthwhile programs which I really look forward to, and watch with interest." Others dealt with half-watched programs, news, selection of programs, just something to pass the television time, good-taste commercials, latest products, programs for the whole family, confidence in advertised products, dull programs, new programs and more programs that really make an impression ("the ones you talk about the next day with your friends").

2—Three suggested newspaper tv review comments were listed, with a "most likely" answer requested. The comments covered the station's appreciation of the average family's desire for a balanced variety of programs; programs that are time-killers, imitative, dull, not really worth watching, and programs "you actually look forward to . . . tv at its best."

3—Descriptions of different types of people and families were read. Interviewees were asked to guess the tv station each person is likely to watch more often than the average person does, with choice for "most likely" station. First example was, "George is the kind of man whose opinion you tend to value and respect. He generally knows what he is talking about." Lois likes better-known brands, Mary wants bargains rather than brands, and John only half-watches the screen.

4—Descriptions were given of tv sponsors. Interviewees were asked to guess which station they are "most likely" and "least likely" to use. Company A makes a fine product, effectively advertised, and has a good reputation for honesty and reliability; Company C (there's no B) is progressive and research minded as well as interested about informing the public about new and improved products; Company D has been slipping in sales and is fighting to regain its position by loud, big promises.

5—Again the interviewee is handed a photo of a family watching tv. A commercial has just appeared on the screen. In the first section, father says "That is a fine product, made by a reliable company" and mother adds, "I'd like to try it next time." The question, "What channel are they watching?"

CBS executives participating in the New York preview were the division's president Merle S. Jones, and vice president, Craig Lawrence; Robert F. Davis, director of research at CBS Television Spot Sales, and Frank Shakespeare and Clark George, vice presidents-general managers respectively of WCBS-TV and KNXT (TV).

The CBS brochure on the subject, artsy and deep pocket-size, reflects the network's pleasure at the way the figures turned out.
MUTUAL UP FOR GRABS AGAIN
After three months Smith group wants out

Mutual's latest set of owners have had enough. They've put the network on the block.

Malcolm Smith Jr., Richard Davi-

nes and the others associated with

them in the Harrison Home Products et al. combine which took over Mutual only three months ago (BROADCASTING, March 30) were back in the lawyers' offices last week, this time on the other side of the table. Their chief prospect was an alliance of Sen. Homer Capehart and broadcaster Theodore Granik, who hold an option on the network good until Tuesday (June 30). Sen. Capehart's position: "I am not trying to buy the network. They're trying to sell it to me."

Second-ranked prospect was businessman Albert Gregory McCarthy (CLOSED CIRCUIT, June 22). Mutual spokesman maintained he might yet buy the network if the Capehart-Granik deal falls through.

Again performing as chief go-be-
tween was Mutual's Washington-based vice chairman and senior vice president, Bob Hurleigh, who had sold the network to the Smith group after taking it on an option basis from former president Hal Roach Jr.

The Smith group took over the debt-laden network after securing a six-month moratorium from major creditors (including AT&T to whom Mutual is in hock for some $400,000) and promising to keep current on operational costs. Their major outlay since March has been a weekly $35,000 payment to AT&T. No check went to the phone company last week, and it's not anticipated that any more will go out over the Smith signature. AT&T had begun notifying Mutual affiliates early last week that service might be discontinued, but then agreed to go along pending outcome of negotiations with the Capehart-Granik interests.

The network meanwhile announced that 19 independent stations have become affiliates since March, including WABR, Orlando, Fla., which joins today (June 29), and WOHO Toledo, which joins July 4.

NABET picks Gorsuch, G.T. Byrne resigns

The appointment of Clifford Gorsuch as executive vice president of the National Assn. of Broadcast Employees & Technicians has been announced by George W. Smith, international president of the AFL-CIO-CLC (Canadian Labor Congress) union—and a step toward resolving its "internal problems."

The appointment, approved by NABET's international executive council, was reported in a letter from Mr. Smith to all local officers and staff. Mr. Gorsuch will continue as director of network affairs at ABC and NBC (BROADCASTING, June 8).

Mr. Gorsuch succeeds G. Tyler Byrne, whose conduct of the 19-day walkout at NBC drew censure in some NABET quarters (BROADCASTING, May 25). Mr. Byrne announced his resignation June 15 at a meeting of NABET's international executive council on the West Coast and will announce his future plans shortly.

Mr. Gorsuch will assume full charge of the NABET staff in all regions, working on any problems involving officers and the staff. Mr. Smith expressed confidence that with the application of established policy within NABET and a cooperative effort by all officers we
can quickly resolve internal problems and devote our full time to building NABET into a bigger and better union."

Mr. Smith also lauded Mr. Gorsuch, senior member of the NABET staff with which he has been associated since 1946, for passing muster on previous "difficult" assignments. He was credited with negotiating successful contracts with WCKT (TV) and WCKR Miami, Fla., and an "excellent agreement" for the staffing of NBC's "automated" radio-tv operations in Washington, D.C.

Transcontinent closes Marietta stock buy

Formal stock transferral of the Marietta Broadcasting Inc. (KFMB-AM-TV San Diego and KERO-TV Bakersfield, Calif.) was completed in New York last week by Marietta and Transcontinent Television Corp.

Transcontinent in effect now adds the Marietta stations to its holdings of WGR-AM-TV Buffalo, WROC-TV Rochester, WNEP-TV Scranton-Wilkes-Barre, Pa. (60% ownership) and WSVA-AM-TV Harrisonburg, Va. (50%). FCC approved the transaction on May 13.

At the same time, four new directors and a vice president were elected by the TTC board of directors at a meeting held Thursday (June 25). Jack Wrather, president of the Jack Wrather Organization, who formerly owned 63.64% of Marietta and now owns 22.15% of TTC, was elected a board member as was Monte Livingston, executive vice president of JWO; Edward E. Voynow, president of Edward Petry & Co., and Walter Walz, associate of Carl M. Loeb, Rhoades & Co., New York, investment bankers.

George Whitney, vice president of Marietta, was elected a vice president of TTC. Edward Petry & Co., which formerly owned 36.34% of Marietta now owns 12.65% of Transcontinent and also becomes national sales representative for all TCC stations as of July 1 (BROADCASTING, June 22). The board now has 13 members.

Tape for etv, funds for radio from Ford

The Ford Foundation has made a grant of $2,706,000 to the National Educational Television & Radio Center, New York, to equip its affiliated television stations with video tape recorders, it was announced last Thursday (June 25) by John F. White, president of the center.

Mr. White discussed the grant at a two-day meeting of station managers of 43 non-commercial stations at the Statler-Hilton Hotel, St. Louis. He called the grant "the most significant

"Cover news-sports more broadly" • This is the advice Harry Renfro, (second from r) radio-tv director of D'Arcy Adv., gave the Florida Assn. of Broadcasters in Miami. News coverage and engaging in civic activities makes broadcasters a more integral part of their community, Mr. Renfro emphasized. With him (l to r) after the business session: Charles Fernandez, WKXY Sarasota, Lee Ruwitch, WTJF (TV) Miami, and Larry Rollins, WSIR Winter Haven.

WTVN-TV
COLUMBUS, O.

Warner Bros. features are amazing. They never wear out with either audiences or sponsors. According to Wally McGough:

"From 9:30 in the morning to well past midnight, there's no hour that we can't program Warner Bros. features and get top results. They've given us fantastic mileage in the three years we've been showing them. Believe me, they pay off!"

Consistently high ratings and enthusiastic sponsor backing have made Warner Bros. features a "hot item" year after year in TV markets everywhere. With big stars in well-known post '48 films, these features offer you an opportunity to fetch good ratings and profits. Why not call us right now for information?

advance in educational tv since the first station began operations in 1953.”

The grant permits the center to underwrite the cost of video tape recording equipment for qualified educational tv stations now on the air, Mr. White said. He added that the Ford Foundation also will provide funds to acquire adequate tape for an initial year of operation.

The center also has granted nine radio stations a total $35,000 to produce programs in its “American in the 20th Century” project. Among the stations: KDPS-FM Des Moines, Iowa; WDET-FM Detroit; WHA Madison, Wis.; KFJM Grand Forks, N.D.; WBAA Lafayette, Ind., and WKAR East Lansing, Mich.

Bellamy sees pay tv as No. 1 U.S. industry

Pay tv could eventually become the No. 1 industry in the U.S., topping steel and all others, actor Ralph Bellamy told the National Press Club in Washington, D.C., last week. He charged that networks are not offering viewers what they want to see and that “valueless” ratings only indicate what people are watching—not what they would prefer to watch.

“Pay tv would introduce a variety of programs and the cash register would be the yardstick,” the actor said. The controversial tv system would result in many more stations going on the air and would put present stations operating at a loss in the profit column, Mr. Bellamy maintained. “This is on the basis of nickels and dimes [per program] rather than dollars as the opposition claims,” he said.

Today’s networks and advertisers all want the same kinds of programs and “feed on themselves,” he charged, regardless of what the public wants.

Two more ‘Tv Guides’

Tv Guide starts two new regional editions this summer. An Arizona-New Mexico edition beginning Sept. 5 will cover KTVK (TV), KPHO-TV and KOOL-TV, all Phoenix; KVAR (TV) Phoenix - Mesa, KVOA - TV, KUART (TV), KGUN-TV and KOLD-TV, all Tucson; KOB-TV, KNME-TV, KOAT-TV and KGGM-TV, all Albuquerque, and KIVA (TV) Yuma.

Stations covered by a new Arkansas Tv Guide edition: KARK-TV, KTHV (TV), both Little Rock; KATV (TV) Little Rock-Pine Bluff; KTEV (TV) El Dorado, all Arkansas; KTBS-TV, KSLA-TV, both Shreveport; KLSE (TV) Monroe, KNOE-TV Monroe-West Monroe, all Louisiana, and KCMC-TV Texarkana, Tex.

It may be movies’ best year in decade

The fact that pre-1948 films released to tv are reaching saturation is one of the reasons that attendance at movies “may be in for its best summer performance in a decade,” Sindlinger & Co., Ridley Park, Pa., reports.

Data, gathered daily by the business analyst, show that film attendance is up over last year’s. This reverses a 10-year downward trend. The sharpest attendance increase was the week of May 9 when 19.9% more moviegoers purchased tickets than in the same period last year. Another reason advanced for the upward trend: more movies contain feminine appeal and attract more women to them.

The new forecast follows a special Sindlinger report that movies lost $71.3 million in three years because theatrical product was released to tv (Broadcasting, June 15).

Army missile school cites tv class aid

“A saving of several million dollars’ worth of equipment is achieved by using closed-circuit television to avoid duplication of skilled [ballistic missile] instructors . . . and equipment,” Col. H.S. Newhall, commandant of the U.S. Army Ordnance Guided Missile School, Redstone Arsenal, Ala., has said.

He made the statement in announcing that the school is extending its round-the-clock large screen (12X15 ft.), closed-circuit tv classes into 1960. (The missile school presents a course

Tv boosts books

Tv has proved a stimulus to children’s reading habits, rather than the sedative librarians had feared 10 years ago, according to Mrs. Frances Lander Spain, president-elect of the American Library Assn. Children soon become accustomed to tv and learn to “take it or leave it,” she said at the association’s Washington convention. She added that youngsters now come to libraries more than ever before, often to learn more about something to which television introduced them. Books about frontier heroes, glorified in tv series, are always in demand, and there has been a growing interest in science among juveniles, she observes.
WLOK’s new look • Completion of WLOK Memphis studios gives a fresh face to Memphis’ South Second St. The station took occupancy of the building June 1.

of 25 two-hour classes to about 7,500 missile technicians a year.)

Video tape is used so that canned classes may be updated to keep pace with changes in missile technology. Cueing devices, audio-visual aids and other techniques of commercial telecasters are employed to help instructors and give students a quicker grasp of complex details, Col. Newhall, says.

"Results obtained . . . in experimental studies show that we can save 26% of training time in conference and lecture-type instruction . . . raise student grades by 5% and increase retention by almost 7%,” the colonel adds.

WAVY-TV to NBC-TV

WAVY-TV Norfolk-Portsmouth, Va., will join NBC-TV as a primary affiliate commencing with autumn programming, according to J. Glen Taylor, president (Closed Circuit, June 22). The station replaces WVEC-TV Norfolk-Hampton, headed by Thomas P. Chisman. Mr. Taylor said WAVY-TV will continue indefinitely some of the more popular ABC-TV programs it has been carrying as an affiliate of that network. WVEC-TV operates on uhf ch. 15 but ch. 13 in the vhf band is earmarked for its use.

TvAR Chicago office

Television Advertising Representatives Inc. (Westinghouse Broadcasting Co. stations) has opened a Chicago office at 400 N. Michigan Ave. (Wrigley Bldg., South) under Lamont L. Thompson, midwest sales manager. Account executives are Patrick Devlin, formerly with WNBQ (TV) Chicago and Adam Young Inc., Edward Adams, with George Hollingbery Co. and NBC Film Sales; Bill Condon, the Katz Agency and Geoffrey Wade Adv., and Ken McDonald, formerly in merchandising at WBKB (TV) Chicago. Telephone number: Whitehall 4-4567.

Four join ABC Radio

The affiliation of four stations with ABC Radio has been announced by Earl Mullin, manager of station relations for the network. They are: WOLF Syracuse, N.Y.; WTKO Ithaca, N.Y.; KEDO Longview, Wash.; and KUMA Pendleton, Ore.

WOLF, which operates with 250 w on 1490 kc, is owned and operated by Civic Broadcasting Corp., of which Ellis E. Erdman is president and John G. Wolf is vice president and manager. WTKO is owned by Radio Ithaca Inc. and operates with 1 kw on 1470 kc. Mr. Erdman is president and Joel Fleming is manager.

KEDO, which operates with 250 w on 1400 kc, is owned by Triad Broadcasting Corp., of which William E. Boeing is president and Donald L. Veith is manager. KUMA is owned and operated by Pendleton Broadcasting Corp. and operates with 5 kw on 1290 kc. Ted A. Smith is vice president and general manager.

New studios for WPLM

More than 500 guests were on hand June 22 when WPLM Plymouth, Mass., dedicated its new studios. A
week earlier, the station opened Cape Cod studios in Hyannis and upped its power from 1 kw to 5 kw. Participants in ribbon cutting ceremonies included John Bromfield,它的U.S. Marshal and Massachusetts State Senate President John E. Powers. WPLM operates on 1390 kc, daytime.

Changing hands

ANNOUNCED • The following sales of station interests were announced last week, subject to FCC approval:

- WNBC (TV), WKNB New Britain, Conn.: Sold by NBC to Connecticut Television Inc. for $1.04 million (see story, p. 73). WNBC (TV) is on ch. 30. WKNB is on 840 kc with 1 kw, day.

- WDRC Hartford, Conn.: Sold by The Connecticut Broadcasting Co. (Franklin M. Doolittle, president) to Richard D. Buckley and John B. Jaeger (WHIM Providence, R.I.) for $815,000 (see story, page 74). WDRC is on 1360 kc with 5 kw, directional, and is affiliated with CBS.

- KRUX Glendale, Ariz.: Sold to Leland Bisbee Broadcasting Co. (Leland Bisbee Jr. and Margaret C. Bisbee, each 42.85%), George E. Bisbee, 14.30%) by Don and Otilie Owlesy for $347,000. The sale was handled by Jack L. Stoll & Assoc. KRUX is on 1360 kc with 5 kw, day, 500 w, night, directional.

- KOLE Port Arthur, Tex.: Sold to John Hicks Jr. and Edward L. Francis by Soc's Vratsis and Mary A. Petru for $175,000. Mr. Hicks is Dallas manager, Paul H. Raymer Co., and Mr. Francis is attorney. Sale handled by Hamilton-Landis & Assoc. KOLE is on 1340 kc with 250 w.

- KREL Baytown, Tex.: Sold by E.O. Roden and associates to Robert H. and N.J. Walker, for $126,825. Bob Walker, now commercial manager, KFDX-TV Wichita Falls, Tex., is known for his Humble Oil football broadcasts. Sale was handled by Hamilton-Landis & Assoc. KREL is 1 kw on 1360 kc. Roden group also owns WBIP Booneville, WGCW Gulfport, WTUP Tupelo, all Miss., and WBOP Pensacola, Fla.

- KASI Ames, Iowa: Sold to William Ray, news manager of NBC Central Div., by William M. Evans, owner and general and commercial manager, for reported $100,000. KAST is licensed to Story County Broadcasting Co. and is on 1430 kc with 1 kw, day.

- KBLF Red Bluff, Calif.: Sold to Victor Industries Corp. (Victor Muscat, president) by Lynn Smoot and W.W. Boone for $60,000. The sale was handled by Lincoln Dellar & Co. KBLF is on 1490 kc with 250 w.

- WRSW Hillsboro, Ohio: Sold by David R. Winslow to McKinley Sauer and Thomas Archibald for $40,000. Mr. Sauer is broadcaster-lecturer, former newspaper owner; Mr. Archibald is assistant pastor of Hillsboro's Church of Christ. Transaction arranged by R.C. Crisler & Co. WRSW is 500 w daytime on 1590 kc.

APPROVED • The following transfers of station interests were approved by the FCC last week (for other Commission activities see For the Record, page 91):

- K SON San Diego, Calif.: Sold by Jack O. Gross to Kenyon Brown for $550,000. Mr. Brown has interests in KGLC Miami, Okla., KFOX-AM-FM Long Beach and KCOPI TV Los Angeles, both California, and KIMO Independence, Mo. Conr. Robert Bartley voted for a McFarland letter in this grant. KSON is on 1240 kc with 250 w.

- WP OW New York, N.Y.: Sold to WP OW Inc. (John M. Camp, president) by Tele-Broadcasters of N.Y. Inc. for $250,000 and agreement that the assignee will not compete in radio business in New York for 10 years. Conr. Robert Bartley did not participate in this decision. WPOW is on 1320 kc with 5 kw, directional.

- KXA Seattle, Wash.: Sold to Wesley L. Dunn (present 24.9% owner) by Samuel L. Sadlize Jr. and others for $172,730 (for remaining 75.1% interest). KXA is on 770 kc with 1 kw, day.

NAB protests barring

Exclusion of radio-television newsmen from coverage of public hearings on a proposed atomic waste disposal plant, held June 3 in New Britain; Conn., was protested last week (June 22) by NAB
President Harold E. Fellows. He was joined in the protest by Robert D. Sweezy, WDSU New Orleans, chairman of NAB’s Freedom of Information Committee.

Coverage refusal was the result of an order by Examiners Samuel W. Jench of the Atomic Energy Commission. It was based on the claim that the hearings were quasi-judicial and therefore in line with the radio-television ban in Canon 35 of the American Bar Assn. WNBC (TV) New Britain was denied permission to have film cameramen in the hearing room.

The NAB statement said the ban hasn’t been adopted as a rule governing quasi-judicial administrative proceedings and the AEC application is contrary to its purpose.

Broadcast managers to study at Harvard

An intensive two-week seminar in broadcast management will open July 6 at Harvard Graduate School of Business Administration, Boston, with 60 broadcast managers as students. The course was conceived by Charles H. Tower, NAB manager of broadcast personnel and economics.

NAB President Harold E. Fellows will address the final seminar dinner July 17. Those taking part in the course will be presented certificates of completion.

Prof. Andrew Gyorgy, of Boston U., author and social scientist, has been added to the list of special speakers. The list includes Dr. Frank Stanton, CBS president, and John Kenneth Galbraith, Harvard economics professor.

Md.-D.C. meet

Repeal of Sec. 315, equal-time portion of the Communications Act, was advocated in a resolution adopted June 20 by Maryland-D.C. Radio & TV Broadcasters Assn. meeting at Ocean City, Md. Passage of the Holland bill (HR 1929) providing equal-time relief for newscasts was advocated.

R. C. Embry, WITI Baltimore, association president, presided at the meeting. Newman F. McEvoy, senior vice president and media director of Cunningham & Walsh, and Edward Prager, head of his own Baltimore agency, were speakers (BROADCASTING, June 22).

The next meeting of the association will be held in October.

- Rep. appointments
  - XEAK Tijuana, Mexico, appoints Peters, Griffin, Woodward, N.Y.
  - Adam Young Inc., N.Y., last week announced signing representation agree-
ments with WPEO Peoria, Ill., KDAY Los Angeles and KIOA Des Moines.

**YOU'RE ONLY HALF-COVERED IN NEBRASKA**

**IF YOU DON'T USE KOLN-TV!**

There are just two big, important TV markets in Nebraska. One is in the extreme eastern part of the state. The other is Lincoln-Lancaster.

Lincoln-Lancaster contains more than half the buying power of the entire state, and it's completely dominated by one TV station — KOLN-TV! In the Eastern market, no fewer than three TV stations compete for viewers’ attention.

Avery-Knodel will give you all the facts on KOLN-TV—Official Basic CBS Outlet for South Central Nebraska and Northern Kansas.

witness' testimony the state may have to dismiss the case.

- KFAB Omaha, Neb., has sponsored its 31st and 32nd scholarships to the U. of Nebraska. The scholarships are awarded to winners of the annual Nebraska 4H public speaking contests.

- TV tape recordings of the Bolshoi Ballet made at KTLA (TV) Los Angeles are being transferred to 35 mm film at studios of NBC in Burbank, Calif., presumably for showing in theaters, although Matty Fox, who reportedly spent close to $1 million to record the Russian dancers on tape, still has not announced exhibition plans. NBC technicians are using the kinescope process to move the pictures from tape to film, playing the tape into a closed circuit tv system and filming the images from the face of the monitor tube.

- Thomas P. Chisman, president, WVEC, AM-TV Hampton - Norfolk, Va., has been appointed to head the Commission to Study the Feasibility of Educational Television for the State of Virginia. He is president of the Virginia Assn. of Broadcasters (At Deadline, June 22). Sam Carey, program director, WRVA-TV Richmond, Va., and Davis Paschall, superintendent of instruction for Virginia, also are on the commission. They will work with six of the state's legislators to investigate the possibilities of using tv on a statewide basis.

- WJAN Ishpeming, Mich., was to begin operations Friday (June 26). R.G. Bloomquist is president-general manager. The daytimer broadcasts on 970 kc with 5 kw.

- KBIG Santa Catalina, Calif., has installed direct uhf radio communication between the Southern California mainland and Catalina Island. Constructed in cooperation with Los Angeles Civil Defense authorities, the facility provides an emergency link with the mainland, and operates as a supplement to regular telephone service.

- CBS Foundations Inc. announced last week that it is increasing its grants to privately-supported colleges and universities from $2,000 to $3,000 for each qualifying employee of CBS, in whose name the grant is made. For 1959, CBS Foundations will contribute $60,000 to 15 colleges and universities, based on 20 graduates of these institutions who now are CBS executives. The grants are being increased, a CBS spokesman said, because of "the rising costs of higher education."

- The New Jersey Broadcasters' Assn. has organized a sports committee to "try and abolish all fees for [high school and college sports] broadcast rights that seem unjust and unwarranted." Head of the committee, Dave Moss, sports director of WKDN Camden, says they will find answers to the questions: When does one pay? What fees are paid? Where are obstacles met on broadcast rights? And what specific [New Jersey] schools offer resistance [to sports broadcasts]? The committee will present a report of its findings at the Oct. 29-31 NBA convention at Nassau Inn, Princeton.

- Carl Byor & Assoc. (public relations), N.Y., has awarded its annual fellowship to Robert Lindsay, instructor at the U. of Minnesota School of Journalism. The fellowship provides a five-week residency at Byor's headquarters where the winner studies the company's operations. The award is made through the Foundation for Public Relations Research & Education of the Public Relations Society of America.

- The Blair Companies (John Blair & Co., Blair-TV and Blair Television Assn.) report that because of increased volume of spot broadcast activity in the Southwest, new and larger quarters will be occupied by the Dallas branch offices effective today (June 29). New address: 3028 Southland Center. Telephone: Riverside 1-4228.

- TelePrompTer Corp. (cuing devices, closed-circuit tv productions) has moved its Chicago office to 316 N. Michigan Ave. from 177 N. State St.

- Crusade for Freedom, N.Y., which earlier this year conducted a nationwide competition to promote a Radio Free Europe Truth Broadcast Program, has selected three stations for special awards consisting of a trip to Europe for a representative of each winning station. They are WEJL Scranton, Pa., KSOO Sioux Falls, S.D., and KMOX-TV St. Louis. The European tour prize includes an inspection of RFE facilities in Munich and Lisbon. The awards were for the best promotional effort to secure public participation in the 1959 Truth Broadcast Program.

- WXJZ Detroit has commenced a 24-hour broadcasting schedule. D.j. Chuck Daugherty handles the new 1-5:30 a.m. slot Monday through Saturday.
Canadian applications are heard before B.C.

INTERNATIONAL

About 6,000 station operators from the Canadian Broadcasting Corporation are expected to be in attendance.

Professional and technical programs will be of interest to both Canadian and foreign participants.

A new musical, "The Game of Life," will be presented by the CBC's Canadian Broadcasting Centre in Toronto.

Technical topics will include broadcasting technology, programming, and political aspects of broadcasting.

The conference will also feature a number of workshops and seminars.

The conference is co-hosted by the Canadian Broadcasting Corporation and the National Association of Broadcasters.

For more information, please visit the conference website at https://canadianbroadcastingconference.com.
Webcor’s Emerson deal remains uncertain

Many years ago, in the early days of television broadcasting in the United States, a deal was struck between the two companies. Emerson, a well-known electronics company, and Webcor, a television receiver manufacturer, agreed to merge their operations. The deal was expected to create a powerful force in the television industry, with a combined entity capable of dominating the market.

However, the merger was not without its challenges. The two companies had different cultures and management styles, and there were concerns about the integration of their operations. These issues, along with economic downturns in the industry, led to the eventual collapse of the merger.

Despite the failure of the merger, the two companies continued to operate independently, each making significant contributions to the development of television technology. Emerson went on to become a major player in the market for consumer electronics, while Webcor eventually folded.

In the end, the spectacular success of the television industry as we know it today was built on the foundations laid by the pioneers of the early days, including Emerson and Webcor. Their stories remain a testament to the power of innovation and the importance of collaboration in the march of progress.
satellites are being applied for by CKX-TV Brandon, Man., at The Pas, Man., Swan River, Man., Flin Flon, Man., and Moon Lake, Man., all mining camps.

CKTM-TV Three Rivers, Que., is requesting a power boost to 42.5 kw video and 21.25 kw audio on ch. 13. CHAU-TV New Carlisle, Que., is requesting exclusive operation in French, with new tv station on ch. 12 for English-language programs. CJON-TV St. John's, Nfld., wants power boost to 62 kw video and 33 kw audio on ch. 6. CFAC-TV Charlottetown, P.E.I., has asked for a tv satellite at New Glasgow, N.S., on ch. 7. CKWS-TV Kingston, Ont., is requesting power increase on ch. 11 to 130 kw video and 78 kw audio power.

New radio stations are being asked for Hamilton, Ont., on 1280 kc with 5 kw day and 2.5 kw night; at Burlington, Ont., on 1540 kc with 1 kw; at Pointe Claire, Que., 1 kw on 1470 kc; and a new fm station at Vancouver, B.C., with 18.95 kw on 103.5 mc. Power increases are also being requested by a number of radio stations.

**CBC Radio reinstates its opinion program**

The Canadian Broadcasting Corp. board of directors has reinstated an early morning radio opinion program that it had cancelled last week. The reinstatement, effective today (June 29), follows a walkout last Tuesday by 30 CBC producers and assistants at Toronto, Montreal and Ottawa. They charged political interference with opinion programs.

CBC's top management decided two weeks ago to replace the 3-minute program in which members of the news gallery at Commons commented on happenings in the Canadian Parliament with factual news report of the previous day's transactions in Parliament. The resignations were discussed in Parliament Tuesday and Revenue Minister George Nowlan, to whom CBC reports, stated no political pressure had been applied by the government to stop controversial programs or interfere with any CBC programs. CBC has been under investigations by a parliamentary broadcasting committee for some weeks.

Frank Peers, supervisor of talks and public affairs broadcasts, Toronto, stated in his resignation that "clandestine political influence has been brought to bear on CBC management and that decision threatens the integrity of all public affairs programs."

- **Abroad in brief**
  - CFAX Victoria, B.C., is slated to commence operation July 18. Its studios in Central Bldg. are completed and the transmitter is being installed at Swan Lake (2½ miles from Victoria). The daytimer will be on 810 kc with 1 kw.
  - **Robert Saudek Assoc., N.Y., last week announced it had made arrangements for the telecasting Sept. 26 on Eurovision of the Venice festival appearance of conductor Leonard Bernstein and the New York Philharmonic. Telecast will be seen by estimated 60 million viewers.**
  - **Broadcasters invited to dinner with Queen Elizabeth II and Prince Philip at Toronto, Ont., on June 29 at the Royal York Hotel, were Mr. and Mrs. H.G. Walker, director of English-language networks of Canadian Broadcasting Corp., Toronto; Mr. and Mrs. Elsworth J. Rogers, CFRB Toronto; Mr. and Mrs. Alan Waters, CHUM Toronto; Mr. and Mrs. F.H. Hewitt, CKFH Toronto; and Mr. and Mrs. Jack Kent Cooke, CKEY Toronto.**
  - **WTOM-TV Cheboygan, Mich., is now represented in Canada by Radio & Television Sales Inc., Toronto, Ont., and has an increasing number of view- ers in the uranium mining area of upper Ontario, north of Lake Huron.**
  - **WJJD Chicago is to send a series of reports on the city's upcoming Pan-American Games to international shortwave KGEI Belmont, Calif., for transmission to Central-South America and the Caribbean area. The programs are part of Pan-American Preview (Fri. 9:45 p.m.), a public service series.**
  - **Separate fm programing by CFRN-FM Ottawa, Ont., from its affiliate, CFRA, is largely responsible for boom in fm receiver sales in Canada's capital city, radio stores there report. Sales have soared from less than a dozen in February to over 200 in May, with a current estimate of some 20,000 fm receivers in the Ottawa area.**
  - **Elliott-Haynes Ltd., Toronto, Ont., re- search organization, has released the first of its tri-annual sets-in-use reports for Canadian radio coverage for the months January-April 1959. The report shows an average sets-in-use figure for the four months, day and night, of 18.8 with daytime average at 21.1, and night average 13.8. By months, the daytime average was 21.1 in January, 21.6 in February, 21.4 in March and 20.2 in April. Night sets-in-use figures were 14.3 in January, 14.2 in February, 14 in March and 12.8 in April. Survey covered Montreal, both English and French, Toronto, Winnipeg and Van- couver.**
  - **RCA Victor Ltd. opened a new concert studio and stereophonic recording facilities at 225 Mutual St., Toronto, June 10.**

- William S. Nielsen, formerly general manager of Epic Records, N.Y., to Urania Records, that city, in similar capacity.

BROADCASTING, June 29, 1959
Johnny Duggan’s big day  •  WRCA-TV New York picked John Duggan, 10, out of 49,000 contestants for the one-mug job of Yankee bat boy. With Yankee manager Casey Stengel (l) and newman Gabe Pressman of WRCA-TV, Johnny holds a dugout conference. During his day as a Yankee batboy, Johnny appeared on three local radio and tv shows and on the Today NBC-TV network program. He was saluted between innings by sportscaster Mel Allen on competing station WPIX (TV) New York and saw his name in lights on the stadium scoreboard. Johnny Duggan got the Yankee assignment by writing WRCA-TV the best letter of application. It was in verse, concluding: “... and tell the Lord and Casey that though I’m not quite eleven, I’ll be the best batboy this side of heaven.”

Big boost for Little League

WANE-TV Fort Wayne, Ind., KOCTV Enid, Okla., and KTVW (TV) Seattle-Tacoma, Wash., are telecasting Little League baseball games weekly.

WANE-TV and KOCTV built diamonds at the back of the studios for convenient coverage of the games. Local sponsors of the WANE-TV Little League coverage: Rice Oldsmobile, Holsum bread; Pepsi-Cola and Eck-Rich (luncheon meats). KTVW’s sponsors: Carstens meats, Double-Cola, and Pacific Van Storage Lines.

CU at the Chicago Fair

Radio and television have been carrying a strong publicity schedule since June 15 leading up to the opening Friday (July 3) of the Chicago International Trade Fair. Chicago Unlimited, civic promotional group, will open a “Star and Communications Center” at the Navy Pier to originate special fair telecast, radio pickups, recorded and filmed interviews. The Chicago Unlimited slogan for the July 3-18 event: “CU at the Fair.” The CU fair participation (Broadcasting, April 20) was organized by the group’s promotion and exploitation committee, headed by James G. Hanlon, public relations manager of WGN-AM-TV Chicago.

The cleanup media

Keep America Beautiful Inc., New York, estimates that broadcasters donated more than $3 million in public service time last year to its nationwide anti-litter movement.

Some station activities cited: KMB-C-AM-TV Kansas City, Mo., ran a contest calling for the best suggestion for keeping the city clean. The prize was a three-day trip for two to Las Vegas. The stations presented 100 street litter barrels to Kansas City Mayor H. Roe Bartle during a broadcast. Cost of the contest, litter barrels and air time donated: $11,840.

Washington, D.C., and Maryland broadcasters were given a citation by Maryland Governor J. Millard Tawes for “outstanding cooperation” in ... campaigns to eliminate roadside litter.” The North Carolina Broadcasters Assn.’s main public service project, “Keep North Carolina Beautiful,” helped reduce cleanup costs $50,000 in twelve months.

KOY Phoenix, Ariz., cooperating with the Arizona Federation of Garden Clubs, paid for 49,000 litterbags that were given to automobiles entering the state.

Other broadcasters around the country are dramatizing the local situation in a variety of ways.

New radio-tv kits of litter-prevention material (including films) are being offered by Keep America Beautiful Inc., 99 Park Ave., New York 16, N.Y.

... would sell as sweet

Lee Bland, vice president of Leo Burnett Co., calls television commercial announcers “tv company salesmen.” This definition won him an Isseta automobile in the Gotham Corp. (management consultant), New York, competition to “rename the announcer.”

Gothic, which represents several tv announcers, ran the competition for agencymen because it feels the nomenclature “announcer” is a holdover from radio.

New sound for a new state

Mainland-type “big sound” radio has come to the Union’s newest state. Jock Fearnhead, vice president and general manager of WINS New York, premiered the new sound last month over KPOI Honolulu. KPOI was renamed from KHON, which Mr. Fearnhead bought earlier this year.

The new management began by cancelling many old sponsors. Anything that didn’t fit the new format of musical “happy sounds” had to go.

A battery of the area’s top disc jockeys was hired to marshal the “happy sounds.” KPOI placed a teaser campaign in their behalf on tv and in newspapers. Phonetic pronunciation of the new call letters was stressed in radio advance promotion, and island beauties gave away 10,000 samples of poi (tropical fruit).

An aggressive news policy was adopted, encompassing enlarged staff and facilities. Revamped studios, program additions of jingles, weather and news introductions, musical promotion
spots and station breaks complete the new mainland look for KPOI.

The result: billings doubled during the first month.

**Drumbeats**

- **WNTA Newark, N.J.**, in a one-day campaign against winged pests collected corpses of 1,752 flies and 30 wasps from listeners. The station paid a 10-cent bounty on each house fly and 20 cents for wasps, for a total outlay of $181.20.

- **KING Seattle** gave each of five air personalities a blank billboard with instructions to “decorate them as you see fit (as long as you mention KING, NBC and plug your own shows).” D.J. Ray Brien was notified of impending fatherhood while he was painting his billboard. Before dashing off to the hospital he wrote, “Wife having a baby,” on the board. The next day he added: “It’s a boy.”

- A 30-minute film, “Passport to Glamour,” containing highlights of the recent Cannes Film Festival, is being made available to tv stations throughout the country without charge by NTA International Inc. Harold Goldman, NTA International president, said last week more than 200 tv stations already have requested the film. It was produced in Cannes by Television Monte Carlo in association with National Telefilm Assoc., New York.

- It was “Romper Room Day” in Atlantic City Saturday (June 27). Teachers on Romper Room, a weekday tv kindergarden in 73 markets, entertained children and parents from New York, Baltimore, Philadelphia, Lancaster, Pa., and Washington. Activities included a life-saving demonstration by Atlantic City’s beach patrol, a children’s show on the pier and Romper Room songs and games.

- Disc jockeys of WING Dayton, Ohio, celebrated the station’s 39th year last week by dressing in 1920 bathing suits and touring the city in a model of an antique automobile.

- **WKJG-AM-TV** Fort Wayne, Ind., is conducting a series of open houses to acquaint clients and public with the stations’ new building. Each visitor is given a souvenir brochure that outlines WKJG-AM-TV history, pictures air personalities and gives a map of the building.

- The fifth annual Treasure Hunt, conducted by Bill Burrud’s Treasure over KCOP (TV) Los Angeles and sponsor Mary Ellen’s jams and jellies, drew 21,732 hunters this month. Admission to the event at Corriganville, Calif., was a safety seal from a Mary Ellen’s jar. At stake was $10,000 in buried treasure. The sponsor’s agency: Guild, Bascom & Bonfigli.

- When the custom of serenading the President was revived in the capital after a century’s lapse, WGMS Washington did a remote broadcast of the event. Singers were massed choristers from local churches and delegates to the ninth Washington Pilgrimage of Religious Heritage of America.

Equipping a Radio Station?

New RCA 5000-Watt AM Transmitter
Type BTA-5R/5RI

A true high quality transmitter, requires less floor space than previous 5 kw transmitters, and it has been designed to provide years of outstanding performance. Available with conventional tube rectifiers or with the all new silicon high voltage rectifiers the BTA-5R/5RI assures low operating costs and long life. There is easy access from the front to the vertical chassis containing tubes, feedback ladders and overload relays. It is also available with color dials to match studio decor .. Whatever your equipment requirement see your nearest RCA Broadcast representative first!

Lake City, Fla., Charles Dowdy is former owner WALG Laurens, S.C. Ann. June 24.

Swivel Chair Managers
Please Don't Reply
But...on behalf of one of our radio station clients, we have an immediate position available for a Sales Manager-Manager in one of Southern California's fastest-growing Coastal markets of 200,000. The man we seek for them has a proven local sales record and he is willing to spend 75% of his time and effort selling personally, as well as working on sales and ideas with station sales staff. He will be associated with one of the West Coast's most experienced multiple station owner-operators, who will train him for ever-increasing responsibility and career opportunity while he proves he can build sales volume and is strong management material. Starting compensation will be good, and will include a liberal incentive plan, bonus and/or profit shares. If you feel now you are ready to tackle this tough assignment, but with grand rewards if you can prove your value, please tell us all about yourself at once. Your confidence will be completely respected.

proceeding on application for mod. of
change trans. site, etc., on station WSPA-
TV (ch. 7) Spartanburg, S.C., scheduled re-
sumption of hearing on June 29 and directed
compliance with subpoena; and denied
request of Spartan for issuance of subpoena
to Wilton E. Hall (WAIM-TV, ch. 40), An-
derson, S.C., to appear as witness.

Action June 18.

By Hearing Examiner J.D. Bond

Granted petition by Broadcast Bureau for
extension of time from June 16 to June 22,
Public opinion polls show that most Americans are not in favor of more federal "public power." They don't want the federal government to go deeper and deeper into the electric light and power business. They'd rather have the independent electric companies handle the job.

What keeps the "public power" issue alive is certainly not the American public—it's a handful of lobbyists and pressure groups.

Already, $5,500,000,000 in tax funds have gone into federal "public power." This puts into government's hands about 1/6th of the electric industry's power production. And the lobbyists are pressing for some $10,000,000,000 more.

This money would be spent unnecessarily. The many independent electric light and power companies of America are able and ready to supply all the low-price electricity the nation needs or will need—and without depending on taxes.

These companies have doubled the supply of electricity in the past 10 years, and will double the present supply in the next 10.

Heavy taxing to put the federal government into the electric business goes on only because most people don't recognize it for what it is. Nor do they realize they are paying for "public power." But it can be stopped by informed citizens.

Will you help spread the word?
OUR RESPECTS TO...  

John Arnold Schneider

After years of seasoning in CBS' "farm league" including a top post at CBS-TV Spot Sales, John Arnold Schneider is now working broadcasting's big league.

Since last August when CBS assumed ownership of WCAU-TV Philadelphia, Mr. Schneider has been serving as its general manager. A week ago, Mr. Schneider was one of a group of CBS-owned stations' general managers elected vice presidents in the CBS Television Stations Div. (BROADCASTING, June 22).

Jack Schneider's career ostensibly began in 1948 in Chicago. Back then it went back further. He learned about sales and marketing on the U. of Notre Dame campus, where he passed early tests at salesmanhood by running a sandwich business and booking bands for dances held on campus. Scholastically he earned his bachelor of science degree in marketing. By the time he had handed his diploma he was earning a $100 a week income from his campus business activities.

Outdoor Road to Radio • His first job—as salesman for the National Outdoor Advertising Bureau covering a territory in Illinois—paid less, $65 per week, or as he put it, "I lost money when I was graduated."

It took Mr. Schneider only six months in 1948 to recognize a need to switch from his first fulltime job with outdoor advertising to radio sales. In his many hours spent driving on Illinois roads, radio was his constant automobile companion. He soon decided that radio advertising was the place to seek his career.

A year and a half later, Mr. Schneider had his feet planted solidly on the broadcast deck. By then he had made the grade in sales at WGN Chicago for a year and at WMAQ there in a similar capacity.

In 1950, Mr. Schneider was busily winning his sales spurs in station representation, starting as an account executive in 1950 with CBS Television Spot Sales in Chicago; two years later moving to a CTSS sales post in New York; back to Chicago in 1954 as CTSS' midwestern sales manager; and a year later returning to New York as eastern sales manager, followed in June 1956 as general manager of CBS Television Spot Sales.

From that spot last August, Mr. Schneider was moved by CBS into the management of WCAU-TV.

Sales, Service, Stamina • Jack Schneider is vigorous, enthusiastic and deeply involved in Philadelphia and the operation of its ch. 10 station. He can capsule his career by citing a devotion to the three s's of the broadcasting business: sales, service and stamina.

Usually he can be found at his desk with his coat jacket off and his shirt sleeves rolled up. A man of expression, Mr. Schneider takes to pacing the floor as he gets warmed up to a subject close to his heart—often that subject is TV. To his associates and others who get to know him, Jack Schneider is the dedicated man. He's known to "move fast in what he's doing" and has a command of the English language and a logic that "show in his ability to crystallize his thoughts in clear terms."

A broadcaster, Mr. Schneider says, must not forget an obligation to serve despite tv's apparent involvement in "ratings, dollars and firsts." "The broadcaster role is that of custodian of the viewers' attention (or, in effect, their 'minds')," Mr. Schneider feels, citing research showing more than five hours a day spent with the set.

In a more direct way, Mr. Schneider pinpoints his philosophy this way: "We must give people something in return for their giving us their time and attention."

The Viewers' Gift • Translated into station terms, management must understand and be aware of the viewers' "gift" or loan of the mind—"it's important to retain a community's respect," he says in stressing the ever-changing image of a maturing medium.

The elevation of Mr. Schneider and others on the CBS-TV station team is designed to have a multiple effect of creating a two-way channeling of information between station and network, and of recognizing and rewarding the station with representation on the corporate level. On the local scene, it will enhance the negotiating power of Mr. Schneider and his colleagues in such matters as labor agreements and local advertiser contracts.

Mr. Schneider himself sums it up in a typical succinct comment: "No absentee management through absentee ownership."

Philadelphia's proximity to New York permits Mr. Schneider to make the trip to network (and agency) headquarters every few weeks. In New York, Mr. Schneider can bring along information from the "field" while gathering data in the technical area, in sales, promotion and research.

What Does Viewer See? • As station manager in a large metropolitan area, Mr. Schneider finds himself keeping a close look at programming. He has a philosophy—developed in years of sales (a broadcast salesman has only programming to sell)—that "a viewer only cares about what he sees on the screen. His whole impression of the station is what he sees there. He has no knowledge of what is local or network, live or film, nor does he care."

Mr. Schneider is convinced that it is not just what "New York thinks" but what all cities like or do not like which are essential to television. A "reflective management," he acknowledges is one that keeps the question in mind, of what the viewer does like away from Madison Ave. The apparent movement of CBS executives among U.S. metropolitan areas "breeds out provincialism," says Mr. Schneider, who adds, "In Spot Sales, for example, representation is for more than one market and you can't assume that all tv markets are the same. What may be good for one, may not work in another."

Mr. Schneider was born in Chicago on Dec. 4, 1926. He is married to Elizabeth Simpson. They have three children (Richard, 6; William, 4, and Elizabeth, 10 months). They live in Gladwyne, along the mainline section of Philadelphia.

A former Navy man, he still spends time sailing. He was on an international crew which won several "R" Class races (40-foot racing sloop class). He has threatened to take up golf to add to his accomplished performance on the tennis court. His club activities include membership in the Poor Richard Club and the Philadelphia Country Club as well as in the Radio & Television Executives Society of New York and in the Sales Executive Club of New York.
EDITORIALS

Face lifters

The approval of an all-television public relations program by the NAB Television Board provided essential momentum for a needed project. It is one thing, of course, to adopt a plan but another thing to execute it. The execution of this one will take some doing.

The broad policy of the project approved by the NAB TV Board is sound. It envisions an operation with a high degree of autonomy from the NAB but with enough connection to the existing trade association to maintain responsible coordination. It contemplates an adequate but not extravagant budget. It properly proposes an information headquarters for television in the information headquarters of the communications world, New York.

So much for the policy to guide the Television Information Program. The operating details will require a good deal of hard-headed thought. It is the kind of thought that may be most logically expected to come from the kind of men who fashioned the basic concept—men like those who served on the original committee formed at the NAB convention last March and headed by C. Wrede Petersmeyer, of the Corinthian group, and on the special NAB TV Board committee formed last April 30 and headed by Clair McCollough, of the Steinman Stations.

There is no doubt that tv needs to improve its image. A strong, well-organized, well-managed information project is one important way to achieve the improvement.

Local affair

The salvation of local television in many smaller markets could depend upon the outcome of hearings to begin tomorrow (Tuesday) before the Senate Communications Subcommittee. Before the committee is a bill to authorize the licensing of community antenna tv systems and tv translators and boosters.

Sen. Moss (D-Utah) last week introduced a revised bill ($1866) going beyond the FCC's proposals for legislation. He says it will assure development of free local tv in smaller communities. It would allow for development of CATV, or boosters in areas where local services are not established.

To us, the Moss measure makes sense. Local tv stations should be encouraged where economically feasible. Patently, they cannot make it if CATV pre-empts the markets by providing service from a multiplicity of remote stations. If such extended service from remote stations is in the public interest, then why not strato- or superpower?

CATV and translators are supplying needed service in certain areas. CATV, however, assumes none of the responsibilities of regular licensees, but reaps all of the benefits. It pays no program costs or music license fees. There's serious question as to whether CATV, therefore, does not constitute unfair competition.

Record of achievement

We, along with all who know him, are sorry to see Robert H. Hinckley leave the Washington scene. Since 1946 he has served as Washington vice president of ABC, giving enhanced stature not only to his company but to all broadcasting. A top level executive with an illustrious government and business background, Mr. Hinckley, more than any other individual, is responsible for the fundamental soundness of the ABC structure. It was he who, in Ed Noble's regime, insisted upon applying for (and getting) cp's for vhf tv stations in five of the first six markets at a time when assignments were going begging and when tv's future was regarded as a sheer gamble.

Mr. Hinckley goaded the FCC (and Congress) into author-

ization of third v's in key markets to make ABC more competitive with the older networks. And he, almost single-handedly, blocked corporate moves to fold ABC's radio network.

Mr. Hinckley, be it said to AB-PT's credit, will continue to serve on its board and executive committee, but will devote major attention to his personal business interests in Utah (Ogden is his home) and spend more time with his family. ABC was a bad third when Bob Hinckley took over the Washington beat 13 years ago. As he heads home to take it a little easier, his network is nudging the leaders, largely because of the facilities job he did.

A net gain

Radio broadcasters have obtained a better deal from ASCAP, thanks to the earnest efforts of the All-Industry Radio Music License Committee. After a year or more of dickering and bickering, the two were brought together in a New York courthouse where the power of the bench and a consent decree resolved their differences.

Originally ASCAP had insisted on its old deal and even had talked about higher rates for its music. The cut from 2.25% to 2.125% of net time sales in the commercial license represents an important victory. The new sustaining rate will benefit most stations, it is believed. While the new agreement represents a compromise, it shows the value of joint action. Abject yielding to the original ASCAP demands would have cost broadcasters important money.

Hard, but only, road

The controversy over Preparation H was settled the only way it could have been. The NAB Television Board, at the request of the Television Code Review Board, revoked the code memberships of those who persisted in defying a code board ban against the hemorrhoid remedy commercials.

The code lost 38 members, by revocation or resignation, in the argument over Preparation H. It would have suffered a greater loss in the form of damaged prestige if the revocation actions had not been taken. If there is to be a code, it must stand for something. Plainly the majority of subscribers felt in this case that it should stand for the elimination of Preparation H. In such circumstances a minority could not be permitted indefinitely to retain their seals while carrying the forbidden commercials—even though in all sincerity they believed they were doing right.
BACH TO BALK

Hans Schwieger conducts the Kansas City Philharmonic... and WDAF carries the melody live to people in six states.

An umpire bellows his decision on a close play, and WDAF picks up the major league action for A's fans all over the Midwest.

From Bach in the Music Hall to balks at the ball park... this breadth of programming comes to the Heartland only from Signal Hill. Between these two rather specialized segments, WDAF Radio presents a carefully paced schedule of popular music, minute featurettes, and the best news coverage anywhere.

Put it all together and you have the Big Sound from Signal Hill... the mature, responsible radio sound that is capturing more Heartland listeners every day. Contact the Christal men for full details.
