PEOPLE work—play—LIVE by RADIO!
WHO Radio Holds a Big Lead in Total Radio Audience in America's 14th Largest Radio Market, Sign-on to Sign-off!

COOKING or cleaning—she listens to radio. There's no time to stop for magazines, newspapers or other media. Radio, and only radio, entertains her, sells her all day long!

She knows responsible, big-audience stations—like WHO Radio—give her the kind of programming she prefers. WHO Radio is aggressive, alert, alive—and it takes special measures to see that each segment of its vast audience is served with the finest in entertainment, news and special features.

The 93-county area Pulse Report (Feb.-March, 1959) gives WHO Radio from 18% to 35% of the total radio listening audience—first place in every quarter hour surveyed—the balance being divided among 88 other stations!

See your PGW Colonel for all the details on WHO Radio—the believable, big audience station for "Iowa Plus!"
ridin’ high with Pony Express!

For advertisers, agencies and broadcasters like these, PONY EXPRESS is really carrying the mail. In less than six weeks, CNP’s new series of 39 half-hour adventures has moved faster than the heroic couriers on whose deeds it is based! Climb on!

NBC's big deal • NBC has negotiated last piece of package deal involving major market realignment with agreement on acquisition of ch. 2 KTVU (TV) San Francisco for about $7.5 million. This, following essential official clearances, paves way for tax-free exchange of NBC's Philadelphia properties (WRC-AM-TV) for RKO General's Boston properties (WNAC-AM-FM-TV) and $9.5 million sale of WRC-AM-FM-TV Washington to RKO. All transactions must receive prior approval (even before FCC consideration) of Justice Dept. in accord with consent judgment last year covering any change in NBC ownership in first eight markets (Broadcasting, Jan. 25).

San Francisco negotiations were undertaken by P. A. (Buddy) Sugg, NBC executive vice president, after efforts to acquire San Francisco Chronicle's ch. 4 KRON-TV had failed. Deal with Paish-Ingram-Pauley group for KTIVU understood to be $6.9 million. plus assumption of equipment and contract obligations which would bring price to estimated $7.5 million for ch. 2 independent which began operation March 3, 1958 (KRON-TV is present NBC affiliate). Remaining facet—assuming Justice Dept. clearance—will be mandatory sale by Tom O'Neill's RKO of WGMS-AM-FM Washington to offset acquisition of WRC-AM-FM. Several offers reportedly in excess of $1 million have been received. Several weeks may be entailed for drafting of contracts and procurement of clearances.

Major repair job • Strong bi-partisan sentiment is developing in Congress for ripper legislation which would affect future of all independent agencies, including FCC and FTC. Growing dissatisfaction, accelerated by tv disclosures and purported advertising excesses, has prompted Senate study by professional staff experts (Interstate Commerce Committee is charged with jurisdiction over most independent agencies) looking toward legislation, but there's little prospect of any action at this short session.

Notion is that if next elections yield single party control of both executive and legislative branches (either Republican or Democratic) new legislation is virtually certain. Two plans are discussed: (1) creation of super independent agency responsible only to Congress which would establish all major regulatory policies, with single administrator for each specialized phase; (2) integration of independent agency duties in established government departments, subject to Presidential control, with single administrator for each function.

Still deadlocked • FCC last week again wound up 3-3 tie on long-pending Indianapolis ch. 13 case involving competing applications of Crosley Broadcasting and WJBC-AM (Fairbanks). Crosley's WLI has been on air since Oct. 30, 1957, but FCC, under court mandate, must reconsider decision. U.S. Court of Appeals held in June 1958 that Constr. T. A. M. Craven had not been qualified to participate in original decision favoring Crosley because he had not heard oral argument (Broadcasting, June 23; Nov. 24. 1958).

FCC is in quandary because of new tie vote (Doerter, Hyde, Cross for Crosley; Barley, Lee, Ford for Fairbanks). It's even foreclosed from seeking opinion from its general counsel under delineation of functions and may have to petition U.S. Court of Appeals for District of Columbia for guidance. Question appears to be whether court could instruct Constr. Craven to participate after new argument of case.

Lestoiil back in tv • Adell Chemical Corp.'s Lestoiil cleanser product, which ranked 10th in total tv gross time expenditures for first nine months of 1959, with $13,707,900 (Broadcasting, Dec. 28, 1959), and then surprised with cancellation of all tv spot schedules on more than 100 stations as of Jan. 1, will resume schedules in full starting Feb. 14. Jackson Assoc., Holyoke, Mass., agency for Lestoiil, is giving affected stations two choices: either resumption of full schedules in fringe time as original contracts stipulated, plus addition of six more weeks to make up for the lost time, or else station can allocate remainder of money involved in its contract to spots in prime time, therefore causing reduction in total number of spots due to higher costs.

Demixture snag • FCC has hit legal, engineering and international snags in proposals, still within Commission, to change two California cities from predominantly uhf to all vhf. In both cities, Fresno and Bakersfield, currently operating are two uhf stations and one vhf outlet. Commission rulemaking would delete ch. 12 from Fresno (KPRE-TV), add it and ch. 8 to Bakersfield which already has ch. 10 (KERO-TV). Fresno, in turn, would get chs. 2, 5, 7 (educational) and 9. Proposal was on FCC agenda last Wednesday but was not reached for action.

To move squatter • Formal protest against Mexico's exercise of squatter's right on 530 kc—one channel below lower limit of existing am band—is being drafted by U. S. State Dept. on ground that it is in contravention of international allocations. Mexico has notified NARBA nations that it plans to use channel in Mexico City for 50 kw radio station, whereas channel would not become available for use until 1961 and then for only low power (250 w) stations. In 1948, Mexico pre-empted 540 kc channel for XEWA San Luis Postosi with a similar "extra-legal" tactic. (Broadcasting, Jan. 25).

Fm car radios • Sarkes Tarzian's broadcast equipment division, Bloomington, Ind., is marking time on decision whether to market car fm radio—perhaps waiting to see results at Motorola Inc., Chicago-based manufacturer, which will sell car unit. There are divided camps at Tarzian Inc., whose principal also has station interests (WTTS-AM-FM and WTVV (TV) Bloomington and others). One big question: whether to come out with fm-only tuner or combination am-fm model for automobiles.

Eager witnesses • FCC (it hopes) has completed chore of taking public testimony in programming hearing (see story, page 60), but final determination of all that goes in record still has not been made. For instance, songwriter Gloria Parker, whose battles with RCA-NBC and CBS have made news in past, has sent statement after Commission failed to call her in person. And Chicago's Lar Daly has repeatedly demanded opportunity to be heard. There's dispute among commissioners on what action to take on both requests.

WEEK IN BRIEF

For radio and tv to survive . . . . . . they must rule their own houses. This is how to overcome the current attacks, believes Robert G. Swan, president, Swan & Mason Adv., New York. One proposal he offers: that network affiliates elect hard-hitting executive committees "to ride herd" on network programming operations. Broadcasters should have a lot more to say about what they televise, he argues in this week’s MONDAY MEMO. Page 22.

A special meeting • FCC session considers proposed legislation and rulemaking covering station injunctions, tv quiz deception, payola, sponsor identification and digest of Attorney General’s report. Page 27.

Doerfer take initiative • FCC chairman assumes tough, fatherly role by telling NAB to lay aside its anemic tv code and replace it with a seal of approval for commercials and programs; suggests all media might adopt the idea. Page 28.

Pepsi’s network radio splash • Soft drink advertiser pours some $1.5 million into campaign that includes all four radio networks. Bottlers get the word to enter spot radio as supplementary move. Page 35.

AFA’s day in Washington • Advertising Federation of America faces the capital music, hears hard-to-take criticism, asks a chance to clean its own house without government interference and meets socially with legislators and regulators. Page 38.

ANA’s crisis formula • Group adopts three-point program to meet the crisis in the advertising industry. Page 42.

No new vhf channels • Comr. Ford tells Senate Communications Subcommittee chances are dim for getting more vhf channels from military during tv allocations hearing. Page 54.

The hearing is over • FCC brings down curtain in its inquiry into television with testimony from ABC’s Goldenson and Treyz. Page 60.

How advertisers can aid tv • NBC’s Sarnoff directs appeal to advertisers, urging purchase of public affairs-cultural programs, supports advertiser voice in television and underlines opposition to publishing concept. Page 46.

Rules out violence • TV’s responsibilities to children cited in NBC statement to network’s production organizations. Order hits extreme treatments of sex and violence in programs reaching family audience. Page 72.

Use of Videotape • Ampex symposium draws telecasters to San Francisco for exchange of reports on how each is using tape in programming. Page 81.

Canada’s first two • Television grants made under new policy permitting private tv operation in markets heretofore exclusively reserved for CBC-TV outlets. Page 92.

HARRIS: STIFF LAWS NEEDED

Committee report asks sweeping reforms

Stations "have virtually surrendered control of programming during the best broadcasting hours to the networks, who in turn have often abdicated control to advertisers," House Legislative Oversight Subcommittee said in report released yesterday (Sunday), recommending sweeping legislation to amend Communications Act and Federal Trade Commission Act.

House group headed by Rep. Oren Harris (D-Ark.) also recommended FCC monitor station programs to extent needed to assure program balance and require stations to make audio tapes of all personal interview programs (so persons who feel they have been defamed will have evidence). Legislative recommendations for FCC:
(1) Make it criminal offense for any person to participate in or conspire with others to broadcast program with intent to deceive viewers or listeners; (2) suspend for brief period license of station not broadcasting in public interest when "previously warned" by FCC.
(3) License tv and radio networks with renewals based on hearing finding renewal is in public interest, guidelines to be based on prohibiting network from (a) furnishing deceptive material to stations, (b) surrendering control of broadcast material to advertisers, (c) using any broadcast facility to promote product or service of any company in which network has any interest and (d) entering any contract which would limit affiliates' public interest responsibility.

Payola Restraint • (4) Require announcements of payments for plugs to licensees or "any other individuals or companies," with criminal penalties.
(5) Prohibit payoffs among competing applicants for broadcast facilities except out-of-pocket expenses and prohibit "swap-off" of other licenses for same reason, whether case is pending before FCC or courts; when FCC approves payoff, it would be required to re-open case for 30 days for new applicants.
(6) Require public hearing in community where station is located or is to be located before issuing any license, giving interested parties opportunity to be heard. (Rep. Harris said in news conference this did not include "renewals" of all existing stations and said such hearing "could be in addition to or in lieu of" usual Washington hearing in contested cases.)
(7) State congressional policy against trafficking in licenses and prohibit new station or newly-purchased station from being sold for three years unless shown in community hearing to be in public interest (e.g., to prevent hardships caused by bankruptcies, deaths and incapacitations); repeal of present prohibition against FCC considering another purchaser in public interest; require public hearing in community on transfer unless FCC publishes reasons why public interest will be served without hearing.

Proposals for FTC • Legislation recommended for FTC:
(1) Empower FTC to seek temporary restraining order, pending investigation and disposal of complaint, in all types of unfair or deceptive business practices (it has such authority now only in false advertising of food, drugs, devices and cosmetics).
(2) Make stations, networks and advertising agencies subject to same criminal penalties now imposed on advertisers.

Three GOP subcommittee members—Rep. William L. Springer (III), Steven B. Derounian (N.Y.) and Samuel L. Devine (Ohio)—agreed with group's finding that FTC is empowered to act against rigged tv shows supporting stand by FTC Chairman Earl Kintner. They asked in "separate views" for legislation giving FTC "clear jurisdiction" in field of programs.

Rep. Bennett said he felt FTC had power over tv quiz deception and should have tested it to resolve doubts, but he felt "primary responsibility" of maintaining "sanctity of program content rests with the FCC." He called subcommittee report "wordy" and "in some respects overly dramatic," but still "fair and impartial."

He said he's asking early hearing on his network regulation bill (HR 5042) and will introduce bills this week to: (1) give FCC power to issue licenses of one year or less as alternative to regular renewal where public interest indicates and to suspend licenses for 30-day periods in lieu of revocation. (He saw these as less harsh and drastic than revocation and refusal to renew; (2) prohibit use of station for deceptive advertising or preparation of programming involving deception (ranged quizzes etc.), with criminal penalty for violation. This would include commercials or any on-air promotion.

AFA proposes plan for self-regulation

Plan of self-regulation for entire advertising industry was proposed Feb. 5 at Washington conference of Advertising Federation of America by James S. Fish, vice president of General Mills and AFA board chairman.

AFA national board will ask local ad clubs to study all advertising in their territories to act on untruthful or bad-taste advertising. Their reports will be referred to local Better Business Bureaus for action by these business policing units or to vigilance committees if no BBB is operating. Cases that can't be solved at local level will be referred to AFA's national headquarters which will take remedial action with advertiser.

This cooperative idea is working effectively in Cleveland, Mr. Fish said, with 97% of merchants and business firms subscribing to code of standards and submitting to screening of all advertising at its source.

Doerfer Opinion • FCC Chairman John C. Doerfer was questioned briefly after his formal talk in which he all but demanded that NAB adopt a pre-air
seal of approval for advertising and commercials. Asked if he endorsed NBC President Robert Sarnoff's suggestion that FCC endorse NAB tv code, Chairman Doerfer said, "If we decide the Commission has the power to control the ingredients of programs, I see nothing wrong with taking over the NAB code and administering it."

He voiced doubt over the right of government sanctions, adding, "I frequently endorse the code. It's one thing, however, for broadcasters to enforce their own code and for the government to do it. You in industry can move rapidly. I've never seen so much red tape as we have at the Commission, most of it brought on by the industry itself. If counsel for a murderer ever got a change of venue to the FCC, the defendant would be dead long before he could be convicted and sentenced."

Chairman Earl W. Kintner of Federal Trade Commission said "rigged quiz shows and the illegal payment of payola to radio and television disk jockeys will prove to be the harsh medicine necessary to cure the subservience of some in the broadcasting industry to pre- datory advertisers and their advertising agencies. These, in turn, when confronted with a chastened and cautious broadcasting industry, would be far less inclined to spend money on commercials that cut the corners of the law."

While FTC has named agencies as parties respondent in complaints, it has not brought media into its cases. Mr. Kintner said he hoped FTC "never will find it necessary to make any publishing medium, printed or broadcasting, party respondent in a deceptive advertising case."

ConcurS With Rogers • Mr. Kintner concurred with Dec. 30, 1959, report by Attorney General William P. Rogers dealing with broadcast responsibility. Observing that FTC had turned over its payola data to FCC as well as Internal Revenue Service, he said, "If in any case it appears that licensees as well as employees have accepted or benefited from payola, both the Attorney General and the FCC will be informed so consideration can be given on whether to take action under Secs. 317 and 501 of the Communications Act." He suggested "an exceedingly high percentage" of record firms and distributors use payola as standard commercial procedure.

If FTC inquiries show broadcasters have prepared and produced advertisements for radio and tv, FTC staff will consider proceeding against broadcasters if law may have been violated, he warned.

**WEEK'S HEADLINERS**

**Mr. Lerner** Mr. Reed Mr. Schreiber Mr. Hackett

Louis C. Lerner, Boston financier who owns controlling interest in Official Films, N.Y., named chairman of board, succeeding Harold L. Hackett, chairman and president since 1953, who resigned. Seymour Reed, executive vp, assumes presidency, and attorney Leonard I. Schreiber becomes vp and counsel. Mr. Reed has been with Official since it went into tv 10 years ago, and executive vp since 1956.

Mr. McFadden Mr. Buck

Mr. McFadden, vp, general sales executive, NBC-TV, named vp and sales manager, and Max E. Buck, station manager of WRCA-TV New York since March 1959, named vp and eastern sales manager for network. William P. Fairbanks, who on Jan. 20 was named director of sales for NBC Radio, elected vp. Mr. Fadden joined NBC in 1934, and was named general manager of WRCA-TV in 1948. He then was transferred to KRCA Los Angeles for two years and returned to New York to reorganize and head NBC Spot Sales. He was elected vp in 1954 and in 1956 became vp in charge of WRCA-AM-TV, and vp, NBC-owned stations and spot sales. Mr. Buck was appointed director of merchandising, NBC owned stations, in 1953 and director of advertising-merchandising-promotion, WRCA-AM-TV. In March 1957, he became director of sales and marketing.

John B. Poor and Hathaway Watson, staff vps at RKO General, appointed vp in charge of finance and investment, and vp in charge of broadcast operations, respectively. Mr. Poor has been vp of organization since 1948 and was president of MBS when it was owned by RKO. Mr. Watson joined RKO General in February 1959 after several years as a partner with management consulting firm of Booz, Allen & Hamilton, New York. He will supervise the activities of the entire RKO General broadcasting chain, which includes: WOR-AM-TV New York, WNAC-AM-TV Boston, the Yankee Network, CKLW-AM-TV Detroit-Windsor, Ont., KJH-AM-TV Los Angeles, WGBQ-AM-TV Memphis, KFRC San Francisco and WGMS Washington, D.C.

**FCC proposes bills on payola, deceit**

FCC Friday (Feb. 5) approved for transmission to Congress proposed legislation amending U.S. Code to make criminal offenses of both offering or accepting payola and of broadcasts designed to deceive public. At same special meeting, Commission issued proposed rulemaking to cover both subjects.

Legislation proposal that FCC adopted was essentially same text submitted by General Counsel John L. FitzGerald (see page 27 for texts). Both proposed bills are designed to reach persons other than licensees (i.e., disc jockeys, recording firms, publishing houses and distributors on payola; producers, directors and independent performers on program deception). Sanctions call for fine of $5,000, and/or one-year imprisonment.

Comments on rulemaking proposals are due by March 1. Rule relating to payola, combination of proposals submitted by Mr. FitzGerald and Broadcast Bureau Chief Harold Cowgill, require licensees to adopt procedures to prevent such practices. Deceptive quiz rules were adopted from draft of proposed rule submitted by Comr. Frederick W. Ford (see page 32 for text).
HOW DOES A NEEDLE SOUND? It could be the gentle sound of little fingers sewing a new apron for a favorite doll. Or Mom patching the seat of Junior's jeans. In Baltimore, it's the heavy sound of the big and prosperous textile industry. Millions of dollars are earned and spent by Marylanders working in clothing manufacturing. Add this to the millions more earned by Marylanders in other industries and you have one of the richest markets in America. There's big business here for your clients and you can sew it up neatly with WBAL-RADIO. It's the station that weaves the kind of wondrous sounds that attract and keep listeners—the folks who buy your clients' products or services. It's your progressive Maryland station with the elegant sound. WBAL-RADIO BALTIMORE

Broadcasting in the Maryland Tradition/associated with WBAL-FM-TV/Nationally represented by Daren F. McGavren Co., Inc.
FAMOUS ON THE LOCAL SCENE YET KNOWN
YOU KNOW WHERE YOU'RE GOING with STORER

—THE STATIONS THAT ACCENT THE SELL

Steer your sales to steady increases with a name that is known for results. Storer stations give you maximum audience sales impact in the nation's important markets. For example, in Miami, Storer Radio WGBS covers all South Florida with 50,000 watts, CBS programming, and top local personalities. In Milwaukee, Storer Television WITI-TV provides one of America's most prosperous markets with CBS programs and the largest library of film features of any station in the area. With Storer stations, you know where your sales are going. With Storer...they're going up!
New York audiences have learned to expect network quality entertainment every night on WPIX-11. Advertisers know that of all seven New York stations only WPIX offers so many opportunities to place minute commercials in prime evening time in such network quality programming. This "quality compatibility" obviously best complements and supports your commercial messages. It's one of many reasons why WPIX carries more minute commercials from the top 25 national spot advertisers than any other New York TV station. Where are your 60-second commercials tonight?
FEBRUARY

Feb. 7-9—Advertising Federation of America First District conference, Statler-Hilton Hotel, Boston.

Feb. 7-9—Regular quarterly board meeting, National Community Television Assn., Mayflower Hotel, Washington, D.C.

Feb. 8—House Legislative Oversight Committee hearing on private bill.

Feb. 8—Academy of Television Arts & Sciences at New York forum on tv for children and teenagers, CBS Studio 52.

Feb. 8—Minneapolis Sales Executive Club, Hotel Normandy, speaker: Robert Hurlegh, president, MBS.

Feb. 9—Chicago Advertising Executives Club monthly meeting, Chicago Federated Adv. Club headquarters, 36 W. Wabash Ave. Key speaker: Clark George, CBS vice president and general manager of WSBM-TV Chicago, on "A New Decade of Television."

Feb. 9—Radio & Television Executives Society timebuying-selling seminar, Ray L. Stone, associate director, Maxon Inc., and Robert A. Wulffhorst, associate media director, Dancer-Fitzgerald-Sample, discuss the "Station Image Factor in Timebuying." Hotel Lexington, New York, noon-2 p.m.

Feb. 11—Houston Advertising Club forum, Shamrock-Hilton, Houston, Tex. Speakers: Donald S. Frast, senior vice president, Bristol-Myers, and board chairman of Assn. of National Advertisers; Arno H. Johnson, vice president—senior economist, J. Walter Thompson, and board chairman of Advertising Research Foundation; James S. Fish, vice-president-advertising director, General Mills, and board chairman of Advertising Federation of America; Sylvester (Pat) Weaver, board chairman, McCann-Erickson Co. (International). C. James Proule, president, AFA, will speak at noon luncheon.

Feb. 11-12—British Columbia Assn. of Broadcasters annual meeting, Hotel Vancouver, Vancouver, B.C.

Feb. 13—American Women in Radio & Television, Chicago chapter, third annual "closed circuit" conference, Keynotes: Esther Van Wagner Tufty, Tufty News Bureau, Washington, D.C., and AWRT national president-elect, on "Radio-TV in an Election Year." Morning and afternoon panels on tv and AWRT goals, respectively, will cover representative agency, sponsor, station, viewer and other levels. Among other key speakers: Fairbanks M. Cone, Foote, Cone & Belding; Peter G. Peterson, Bell & Howell Co.; Edward H. Weits, head of agency of same name, Ambassador West Hotel, Chicago.

Feb. 13—Western States Advertising Agency Assn. annual dinner dance at Ambassador Hotel, Los Angeles. Award will be presented to "Advertising Citizen of 1959."

Feb. 15—Hollywood Ad Club luncheon. Richard Jencks, president, Alliance of Television Film Producers, will speak on "TV Films—Their Place in the Hollywood Sun." Hotel Roosevelt.

Feb. 15-16—Ampex Corp. Videotape symposium, "Two Years of Videotape Progress." Lawrence N. Carino, general manager of WWL-TV New Orleans, will be among speakers. Sheraton Park Hotel, Washington, D.C.

Feb. 15—Los Angeles branch meeting of Broadcasters Executives Society, luncheon. Olds Hotel, Lansing.

Feb. 17—Hollywood Ad Club second annual Broadcast Advertising Clinic, all-day session at Hollywood Roosevelt Hotel. Producers' awards for best tv and radio commercials produced in Southern California during 1959 will be presented at luncheon. Phil Seitz of "Advertising Age" and Bill Merrit of BROADCASTING are again chairmen of the awards committee. Mary Salzmann of MAC is clinic chairman.

Feb. 18-20—Thirteenth annual Western Radio and Television Conference. Broadcasters' responsibilities and etv will be among topics discussed. Bellevue Hotel, San Francisco.

Feb. 18-23—American Bar Assn. midwinter meeting, Edgewater Beach Hotel, Chicago. ABA board of governors and groups, along with National Conference of Bar Presidents and Fellows of the American Bar Foundation, meet in advance of House of Delegates sessions Feb. 22-23. Progress report on study work with media representatives on controversial Canon 35 (radio-television access to courtroom proceedings) expected to be filed.

Feb. 19—Senate Interstate & Foreign Commerce Committee meeting with spokesmen for federal regulatory agencies, networks, advertising agencies, advertisers, et al., on corrective measures being taken against alleged abuses in radio-television. Washington, D.C.

Feb. 19—Sales Executives Assn. and Advertising Club of St. Louis, combined meeting, Statler Hilton Hotel, speaker: Robert Hurlegh, president, MBS.

Feb. 23—Radio & Television Executives Societies timebuying-selling seminar. Ty personality Dick Clark speaks on the teen-age market. Hotel Lexington, New York, noon-2 p.m.

Feb. 24-25—Fifth annual State Presidents Conference under NAB auspices, Shoreham Hotel, Washington. Presidents of state broadcasters associations will attend. Voice of Democracy luncheon will be a feature.

Feb. 29-March 1—CBS Network Affiliates and
Network Officials, special conference. Shorthorn Hotel, Washington. Speakers will include Sen. Warren G. Magnuson (D-Wash.), chairman, Senate Interstate and Foreign Commerce Committee; Rep. Gren Harris (D-Ark.), chairman, House Interstate and Foreign Commerce Committee and House Legislative Oversight Subcommittee; FCC Chairman John C. Doerfler and FTC Chairman Eari Kintner.

MARCH
March 1—Radio & Television Executives Society timebuying-selling seminar. John F. Hurburt, director of promotion-public relations, WFBM-TV Indianapolis, and Harold A. Smith, program promotion-merchandising manager, Needham, Louis & Brovary, handle topic, "It Takes Two To Tango In Agency-Station Cooperation." Hotel Lexington, New York, noon-2 p.m.
March 4-6—Disc Jockey Assn. convention, Los Angeles. Business sessions at 20th-Century-Fox studios, where djs will participate in filming "The Big Flapper Parade."
March 7-11—National Sales Executives-International San Francisco Field Sales Management Institute, Hotel Mark Hopkins there.
"March 9-11—NAB Board of Directors, Statler Hilton, Washington (postponed from Jan. 27-29). TV Board meets March 9; Radio Board March 10; Joint Boards March 11."
March 13-14—Texas Assn. of Broadcasters spring meet, Rice Hotel, Houston.
March 15—Radio & Television Executives Society timebuying-selling seminar. John F. Howell, CBS Films' vice president-general sales manager, and Charles W. Shugert, the Joseph Katz Co.'s executive vice president, on "Syndication as a Media Buy." Hotel Lexington, New York, noon-2 p.m.
March 15—Academy of Television Arts & Sciences at New York, forum on educational tv, NBC.
March 17-19—Advertising Federation of America Ninth District convention, Cornhusker Hotel, Lincoln, Neb.
March 20-23—National Educational Television & Radio Center, meeting of program managers of affiliated stations, KUHT (TV) Houston.
March 21-23—Canadian Assn. of Broadcasters, annual convention. Meetings this year will deal primarily with business of association and BMI Canada Ltd. Latter will be open to advertisers and agency executives, but CAB meetings will be for members only. Chateau Frontenac Hotel, Quebec City, Que.
March 31—Academy of Television Arts & Sciences forum on "Do They [ratings] Really Know?" APRIL
April 1—Comments due on FCC rulemaking to duplicate 23 clear channels with additional nighttime service.
April 1-3—Women's Advertising Clubs eastern inter-city conference, Sherraton-Biltmore Hotel, Providence, R.I.
April 2—Assn. for Professional Broadcasting Education, Conrad Hilton Hotel, Chicago.
April 3-7—NAB Annual Convention, Conrad Hilton Hotel, Chicago.
April 4—Academy of Motion Pictures Arts & Sciences annual Oscar awards ceremonies, Pantages Theatre, Hollywood, and broadcast on NBC Radio-TV network 10-11:30 p.m. EST.

In Spokane's $2 Billion Market . . .

Profiles of over 100 key communities in the KREM-TV $2 Billion Market bring new viewer interest plus plaudits from viewers, school authorities and students. Even daily and weekly newspaper editors cooperate to help make this series authentic, topflight and overwhelmingly accepted.
Local Schools have even assigned classes to view, and report on this series!
KREM-TV's news, with emphasis on fast, accurate coverage (a retraction has never been necessary) pays big dividends when you invest in spots and programs. KREM-TV is Spokane's foremost news station . . . Spokane's foremost media value!

Community Profile series . . . now being filmed by KREM-TV's News Editors, depicts weekly in NEWSBEAT premium "A" time the historical, economic, industrial, cultural and local highlights of each of the scores of communities in the $2 Billion Spokane Market.

"You think you got problems?"

"Last night I get stuck for the check at Tom's. I miss the 5:22. This morning I break a shoe-string on my cordovans. My substitute secretary puts cream in my coffee. The maitre d at the Sixes gives me a glassy stare when I show up with a client for lunch. The waiter brings me a Martini with an olive. My manicurist can't take me at 4 as usual. My speaker phone's got feedback. My contour chair is out of whack. The vest to this suit was misplaced at the cleaners.

"Now I hear a tv set is on the blink in WSLS-TV's 58-county market, changing the total tv homes from 448,001 to 448,000."

ARB’s vhf coverage survey
EDITOR: THE ARTICLE IN YOUR JAN. 18 ISSUE, “VHF SIGNAL SPREAD IS WIDENED,” DISTURBS ME CONSIDERABLY. THE VIEWS AND FINDINGS OF ARB HERE SEEM TO HAVE SOME DANGEROUS POTENTIALITIES FOR TELEVISION.

The clear implication of the article is found in the opening sentence, “Tv stations are selling their coverage areas short.” This is an opening invitation to read further and find out how much additional “coverage” might be claimed for any given station or market, particularly the four markets cited.

Many years ago a cliche was coined, “Only listening (viewing today) is coverage.” This principle has been widely followed in evaluating broadcasting stations by buyers and many sellers of time.

The data quoted by ARB are not of the type ordinarily ascribed to this organization (diaries of viewing behavior). Rather, they are based on the answers to questions, “From what stations do you receive a picture clear enough for viewing?” (Under-scoring is mine.) This scarcely satisfies a definition of viewing. ... MANY FAMILIES MAY BE ABLE TO RECEIVE AT LEAST A MINIMUM SERVICE FROM TWO OR THREE AFFILIATES OF THE SAME NETWORK, BUT THEY WILL CONCENTRATE THEIR VIEWING ON THE STATION WITH THE BEST SIGNAL.—CHARLES H. SMITH, TV-RADIO RESEARCH CONSULTANT, MINNEAPOLIS.

[THE PURPOSE OF THE STORY WAS TO SHOW THAT VHF SIGNALS WERE REGULARLY GETTING OUT FARTHER THAN ARB HAD PREVIOUSLY THOUGHT THEY WERE. NOWHERE DID WE INDICATE THAT THE INFORMATION PERMITTED TO VIEWING OR THAT ANY MEASUREMENT OF AUDIENCE SHOULD BE CONSTRUED.—THE EDITORS]

RCA Rack-Mounted
“Fits In” where

NO DOORS TO OPEN
NO PANELS TO SLIDE
NO GYMNASTICS IN SERVICING
The RCA TV Tape Recorder is the ultimate in accessibility and space-conserving design.
TV Tape Equipment

other designs “Stick Out”!

Any station can find rack room for the RCA TV Tape Recorder. Its rack-mounted design fits in anywhere. It adapts inconspicuously and unobtrusively ... along one wall, across a corner ... or into a mobile unit where all space is at a premium.

Without protruding doors or panels to open up and take up space, the RCA TV Tape Recorder is conveniently operated from the front and easily serviced from the rear. Your film room can become your tape room with a maximum of accessibility and a minimum of alteration. Your mobile unit can be used as a tape unit with all essential camera and control equipment included in it.

Any way you look at RCA TV Tape equipment, it’s apparent that the “kind of space” the RCA Recorder requires keeps the “user cost” down to a minimum. Many regard this as the most important “plus” in a host of other fine features, including superb picture quality and operating simplicity. You’ll find it well worth your while to consider carefully all the reasons why RCA TV Tape equipment is best for your requirements.

Don’t settle for less than the best. See your RCA representative. Or write to RCA, Dept DB-22, Building 15-1, Camden, N. J. In Canada: RCA VICTOR Company Limited, Montreal.

Why You Get The Best When You “TAPE IT RCA”

21 Outstanding RCA Features

1. Centralized control panel including metering of audio, video, control track and master erase heads.
2. Better than 36 db video signal-to-noise at wide bandwidth video.
3. Quadrature delay lines, record and playback.
5. Continuously variable winding speed.
6. Foot-switch on reel brakes for easy tape threading.
7. Air lubricated tape guides.
8. Space-saving rack-mounted design.
9. Four channel video equalizer.
10. FM deviation meter.
11. Coarse and fine adjustment of control track phase with full 4-track range.
12. Simultaneous playback of program audio and control track during record.
13. Playback tape speed control for synchronization of two or more machines.
14. Tape footage indicator.
15. Complete cue channel facilities.
16. Calibrated cue channel facilities.
17. Automatic control of shoe positioning for protection against kinking in pictures.
18. Balanced shoe adjustment for protection against scallops in pictures.
20. Master erase head.
21. Precision reel hubs for long bearing life.

In-line arrangement—allows maximum accessibility for maintenance and operation.

Corner arrangement—ideal for restricted areas. Assures excellent accessibility.

Mobile unit arrangement—accommodating cameras and tape equipment in one place.

RADIO CORPORATION of AMERICA

BROADCAST AND TELEVISION EQUIPMENT • CAMDEN, N. J.
The broadcasting industry is living through bitter days.

It was founded and nursed by dedicated men; men who were keenly aware of their great responsibilities to the public and to the new industry. Many of these pioneers are still active, for broadcasting is young.

It is only recently that the slick operators moved in on some areas of the business. As usually happens when integrity gives way to expediency, disaster struck—and struck hard.

Today radio and TV are beset on every side, fairly and unfairly. New clamors arise almost daily. The result is a confused and bewildered industry which seems at the moment unable to close ranks and cope with the attacks.

Madison Ave. Grapevine • To state that there were many warnings may seem useless hindsight. There have been plenty of mutterings in the Madison Avenue barracks for a long time. The grapevine had it that the way to become a successful packager was to cut in silent partners; that you could get a “free” plug for your product in the broadcast time some other manufacturer was paying for by taking care of the “right” people, and that a music publisher could emerge with a star platter by “icing” you-know-who.

Those of us around broadcasting long enough to develop a sense of smell and who still operate at street level didn’t have to depend entirely upon whispers. For example, the long series of coincidences and cliff-hangers that trade-marked the quiz programs defied mathematical probability.

One voice faintly heard above the din of clanging cash registers was that of my good friend, Edward R. Murrow. I recall a speech he made in Chicago during October 1958. Referring to “methods of utilizing these instruments of radio and television in the interests of a free society,” he said:

Murrow’s Warning • “It may be that the present system, with no modifications and no experiments can survive. Perhaps the money-making machine has some kind of built-in perpetual motion, but I do not think so. To a very considerable extent the media of mass communications in a given country reflects the political, economic and social climate in which it flourishes. That is the reason ours differs from the British and French, or the Russian and Chinese. We are currently wealthy, fat, comfortable and complacent.

“We have currently a built-in allergy to unpleasant or disturbing information. Our mass media reflect this. But unless we get up off our fat surpluses and recognize that television in the main is being used to distract, delude, amuse and insulate us, then television and those who finance it, those who look at it and those who work at it, may see a totally different picture too late.”

Less than a year after Mr. Murrow’s prophetic warning, not his first by any means, the public saw the “totally different picture” emerge with a stunning suddenness. Precious corporate and individual images, so carefully fabricated by public relations experts, were shattered left and right.

Now we’re in trouble. What are we going to do about it?

I think we all agree that the solution should and must come from within the industry. I believe that most thoughtful government people are hoping for that.

Robert G. Swan formed Swan & Mason Adv. last October, winding up a 13-year association with Joseph Katz Co., New York and Baltimore. During much of that time, Mr. Swan was vice president and account executive involved intimately with radio-tv. He first joined NBC in 1935 as a writer-director. He resigned the day after Pearl Harbor to serve in a special unit task force of the Army. He joined Katz at war’s end.

I think we all recognize that if this is going to be accomplished the industry must unite and take the initiative with a realistic and workable plan.

One Proposal • As one positive and major step I propose the following: That each network’s affiliates elect from among themselves a small hard-hitting executive committee to ride herd on its own network’s programming operations.

As representatives of the FCC’s licensees comprising the networks, they have every right to have final say on any operation that looks like an invitation for Washington interference. By the very nature of network broadcasting the stations must accept block booking. So they must have control of the product they project on their air waves. They must make it their business to know what is going on.

These network affiliate committees are not proposed to be merely “advisory” or “consultant” bodies. They must act as truly executive committees and act with the authority inherent in their responsibilities to the FCC and the public. Under present licensing regulations I seriously question if any station ever had the right to delegate programming responsibilities to the networks, or anyone else.

I have a strong hunch that up to now the wrong people have been doing most of the talking at affiliate meetings.

I think it is about time the broadcasters themselves had a lot more to say about the waves they televised.

FCC’s Authority • We must remember that the FCC has no direct control over the networks. But it has all the control in the world over the station affiliates that comprise each network. It has this control through its power to grant, withhold or cancel each station’s license to use the public’s air ways. It amounts to life-or-death control. And each station’s license is predicated on promises to broadcast in the public interest.

It is squarely up to the broadcasters themselves to solve the problems besetting the industry. The need is immediate. Each new headline, every new session of investigating committees will make it that much more difficult for the industry to maintain control of its own destiny.

Let’s do something about it—now.

the must rule their own houses

22 Broadcasting, February 8, 1960
Time is the universal property. Man shares it alike with the animate and the inanimate. It is a dimension in which he participates only, and the measure of his effectiveness is history.

As a medium of communication, that portion of Time which we share most immediately with our community is of particular import to us. From Baltimore, WBAL-TV shares daily in the Time of some 2,570,500 men, women and children who constitute the Maryland Market. From Baltimore, WBAL-TV participates in the same Time dimension as nearly 700,000 television households that exist at this Time within our coverage area. From Baltimore, WBAL-TV makes it possible for more members of our community to experience more in, of and from Time, more immediately, with more people, than any other medium of communication.

"Time is my estate..." the philosopher says. It is yours, too, and ours. In Baltimore, you can participate in Time wisely through the facilities of WBAL Television 11. The history of our sales success is the measure of our effectiveness.

MAKE RIGGING, PAYOLA CRIMES?

FCC drafts proposed law to do that and give it new sanctions

The FCC last week drafted legislative proposals to make crimes of quiz rigging and payola and to give the Commission the power to seek court injunctions against licensees who violate its rules.

The Commission was to consider the legislative recommendations as well as proposed revisions of its own rules at a special meeting last Friday. It had before it:

- A summary of Attorney General William Roger's report to the President on FCC authority (BROADCASTING, Jan. 11) and recommended legislation and Commission rules changes covering quiz shows, deceptive practices, payola, and sanctions short of revocation. It was prepared by General Counsel John FitzGerald.
- Alternate proposals for rulemaking (a brief rule and a more comprehensive proposal following recommendations of the Attorney General), submitted by Harold Cowgill, chief of the Broadcast Bureau.
- A proposed rule prohibiting fraudulent quiz programs, submitted by Comr. Frederick W. Ford.

The special meeting came a day after a Commission announcement Thursday that it was drafting "new legislation and rules to curb quiz and payola practices." (For action of the meeting see AT DEADLINE.)

Mr. FitzGerald's memorandum, dated Feb. 1, covered much more ground than the other proposals before the FCC. He noted that the Attorney General stated the FCC has authority under existing law to eradicate deceptive and corrupt practices in broadcasting but has not effectively used it.

General Counsel's Proposal • The Commission's top attorney submitted the following proposed rule to take care of deceptions for the FCC's consideration:

"Licensee Responsibility: "(a) An application for a construction permit, license, renewal of license, or any other authorization for the operation of a broadcast station will not be granted where the licensee proposes to follow or continue to follow any policy or practice the effect of which is to delegate to any other person or persons the licensee's responsibility to maintain full and complete control in the public interest of the program broadcast over such a station."

"(b) The determination whether a particular policy or practice comes within the provisions of paragraph (a) of this section will depend on the fact of each case. The Commission will, in

HARRIS OPENS PAYOLA HEARINGS TODAY

A cast of nearly 20 witnesses is under subpoena for the curtain-raising at 10 a.m. today (Feb. 8) of the first phase of the House Legislative Oversight Subcommittee's payola hearings.

The witnesses include disc jockeys broadcast station personnel, and representatives of record distributors and manufacturers. Their testimony will cover separate payola situations in Cleveland and Boston.

Testimony by ABC-TV star Dick Clark and his former producer, Anthony Mammarella, will be saved for a later hearing, it was learned last week, for two reasons: (1) Mr. Clark is the biggest "name" attraction scheduled to testify so far and if he were brought in first, subsequent hearings featuring lesser names as witnesses would be anti-climatic; (2) the Clark-Mammarella case is somewhat more "complicated" than other payola situations the subcommittee has explored and more staff work is needed to prepare it for presentation.

Meanwhile, the subcommittee yesterday (Sunday) released its report on its tv quiz hearings held last fall and recommendations for legislation, three Republican members filing "separate views" (see AT DEADLINE).

Testimony, at the House Caucus room, will run through Thursday for the initial phase and will include Joe Finan, Wesley Hopkins and Charles Young, the first two former disc jockeys and the last former record librarian at KYW Cleveland. All were fired for payola activities. The financial records of the Main Line Cleveland Record Distributing Co., Cleveland, were subpoenaed from James Shipley, vice president. Main Line has a franchise for RCA Victor records in a 17-county area.

Some 15 to 20 other witnesses have been subpoenaed from Boston, but their names were not disclosed. If the hearing phase isn't concluded by Thursday, present plans are to continue next week.
DOERFER FOR CLIPPI PREVIEW PLAN

FCC chairman urges beefed-up code staff that would preview programs and commercials, issue seals to those it approved

A preview seal of approval for TV programs and commercials was politely rammed down NAB's throat Feb. 5 by FCC Chairman John C. Doerfer. This way of cooling television's hot seat might be an idea for all advertising media, he suggested in an address to the Advertising Federation of America's second annual Washington conference.

It's an idea NAB has been dodging since it was first submitted by Roger W. Clipp, Triangle Stations, a former chairman of the NAB TV Code Review Board (Broadcasting, Nov. 30, Dec. 7, 1959 et seq).

The alternative to a seal of approval, Chairman Doerfer suggested, is enactment of "inflexible rules or laws."

Why a Seal • Basing his proposal on changing times, industry troubles and the mistake of spending for "tranquilizers instead of real therapeutic medicines," the chairman couched his recommendation in advisory terms and repeatedly said he would not be so presumptuous as to suggest in detail "what corrections the advertising industry should effect." But turning specifically to TV, he "respectfully suggested" the medium look into a before the fact seal of approval and then offered blunt reasons why it should be done in a hurry.

After Mr. Clipp offered his seal of approval idea last November, the NAB TV Board gave it a fast kick out the door. The TV Board said Dec. 4 the seal would involve "an enormous implementing structure involving millions of dollars." The board's spokesman, Chairman G. Richard Shafto, WIS-TV Columbia, S.C., said the NAB directors deemed the pre-air seal contrary to the voluntary enforcement concept of the NAB TV code. Mr. Shafto, too, is a former code board chairman. The NAB board rejection upheld a position taken a few days earlier by NAB President Harold E. Fellows.

This warning was offered by Chairman Doerfer to broadcasters and the AFA last week: "A penny's worth of prevention is worth thousands of dollars spent in attempting to retrieve the confidence of the American public—even though besmirched by the mistakes of a few."

Warming up to the preview idea, Chairman Doerfer said the plan was proposed "by a responsible broadcaster and endorsed by a number of advertising agencies, as well as other broadcasters, and is gaining more and more support." He did not identify Mr. Clipp by name.

Programs and Ads • He continued, "This proposal calls for an expansion of the present NAB code staff and the establishment of a Code Seal of Approval which would be affixed to all programs and commercials meeting the established standards set by the NAB TV Code Board. Previewing of all programs and commercials would be required to determine whether they qualify to display the seal on the air. The 'plus' factor in such a plan is that it permits a judgment by a jury of one's own peers—instead of the inevitable staff of a government agency devoid of any practical experience—unless timely forestalled.

"Secondly, the proposal would embrace both programs and commercials and from whatever source, that is, network, syndicated, national, spot or local. Thirdly, it would substitute a noteworthy effort for mere lip service."

"Fourthly, the display of an industry code seal would, in time, become a highly-prized hallmark of distinction. It would recapture credibility on the part of the viewing public in about the same ratio enjoyed by Good Housekeeping Magazine, which, as you know has caused an evaluation to be made of its Good Housekeeping Guarantee Seal. The results conducted by the Schwerin Research Corp. indicate that the addition of this seal to the commercial of several major advertisers increased their effectiveness from 20% to 29%.

"Finally, public confidence would be restored and enhanced in television advertising and the faith of the American people renewed in the ability of an industry to make self-corrections without the intervention of government."

Network Pool • Speaking of "network fare," Chairman Doerfer understood that the head of a New York agency had suggested the three networks pool their resources and set up one all-network bureau of standards. The code staff would work closely with the bureau so programs and commercials would meet code standards. Chairman Doerfer noted an objection that the preview seal is a form of censorship. He said he felt commercials don't enjoy the same First Amendment protection as "the press and the platform in voicing opinions any event, consider that a policy or practice may cause the provisions of paragraph (a) of this section to be invoked if it appears that in connection with the operation of any broadcast station the licensee has failed to exercise the reasonable care and prudence necessary to prevent its broadcast facilities from being used for improper purposes such as fraud, deceit, or misrepresentation or to mislead or deceive the public."

"(c) Licensees shall adopt appropriate procedures to achieve conformance with the objectives of paragraph (b)."

"(d) The above rule will not preclude the Commission in proper cases from taking into consideration the past failure on the part of licensees to exercise the responsibility incumbent upon them by virtue of their license.

The proposed rule "does not make the licensee an absolute insurer that no such deceptive programs will be carried over its station but rather imposes upon it the duty to exercise reasonable care and prudence . . . ."

Legislation Needed, Too • Since FCC rules can reach only licensees, the memo stated, the Commission also should recommend penal legislation to Congress to cover others who might be involved in schemes to mislead the public. He proposed this amendment to the U.S. Code:

28 (PAYOLA & QUIZ LEGISLATION) BROADCASTING, February 8, 1960
of information, entertainment or criticism."

He added this pointed observation, "Censorship, when self-imposed, is a peculiar term to apply to self-discipline. Censorship is the official action of a government undertaking to enforce the morals or the conduct of a community in all forms of expression. Voluntary agreements to abide and implement codes of good standards are not censorship."

The cost criticism of advance approval brought a second comment that he would not be presumptuous "and attempt to tell you whether it requires an addition to present revenues or whether some of the revenues presently available for other activities could be channeled into such a new activity. But you must admit the problem is entitled to a high priority."

NAB Budget • The chairman analyzed the cost factor this way: NAB's radio-tv budget combined "totals $1/4 million annually." The tv code staff, he has been advised, could be increased "at a cost of around 5% of the estimated $5 million presently being spent by the entire broadcasting industry in trade association membership dues (Radio Advertising Bureau, Assn. of Maximum Service Telecasters, Television Bureau of Advertising, Television Information Organization and NAB).

The chairman added, "Inasmuch as there is apparently strong sentiment among the advertising agencies to help defray the cost of this proposal, I would suggest that the advertising fraternity take immediate steps for joint conferences.

"My experience as a lawyer and in organizational work has indicated that oftentimes the task looms much larger than it really is. At the outset it may be a large and tedious process even for the industry to set standards or to define those illogical expressions like 'poor taste' or 'unnecessary exaggerations.' But over a period of time with people who live with this problem each day, a language and a medium of communication will be established so that all reasonable-minded advertisers and broadcasters will understand what these expressions mean in broadcasting.

"It may be that refinements of this suggestion may be made to the point where test-checking may be sufficient and seals of approval displayed in a different but effective manner in each advertising format."

It Can Be Done • A start should be made, Chairman Doerfer said, and the public assured that "a bona fide effort is being made." He felt certain the plan is economically feasible and "within the competence of the industry."

Citing the oft-mentioned antitrust objection, Chairman Doerfer submitted the text of his exchange of letters with Attorney General William P. Rogers and the ensuing assurance that broadcasters can adopt voluntary codes "within the framework of the antitrust laws."

Chairman Doerfer pointed out his AFA recommendation with a discussion of recent complaints against broadcast commercials, finding three main types—false, misleading or deceptive; unfair trade practices; poor taste. He reminded that FCC has set up a liaison plan by which it submits complaints in the first two categories to the Federal Trade Commission where legal remedies and procedures prevail. He suggested poor taste "is most difficult to regulate" either by Commission rule or law.

"Trade groups and their advertising agencies should be the best qualified to judge when the format or the manner of presentation assaults the sensibilities of a large number of people," he said in advocating self-regulatory machinery.

Present Code Plans • On the AFA program with Chairman Doerfer was E.K. Hartenbower, KCMO-TV Kansas City and member of the NAB tv Code Board. Mr. Hartenbower, who is chairman of the personal products subcommittee of the board, said the present NAB tv seal is fast acquiring public acceptance. Unlike the Doerfer "Deceptive Broadcast Practices: Whenever shall willfully and knowingly offer, devise, produce, sponsor or present, or cause to be offered, devised, produced, sponsored or presented, or whoever shall willfully and knowingly participate or shall willfully and knowingly cause any other person to participate, in any program which is transmitted by radio or television communication in interstate or foreign commerce, for which money or other thing of value is given, awarded, or promised as a prize in a test or contest of intellectual skill or knowledge and which is offered or presented as a bona fide test or contest when in fact the outcome of such test is prearranged or predetermined by fraud, scheme, or artifice for the purpose of misleading or deceiving the public, shall be fined not more than $5,000 or imprisoned not more than one year, or both."

Noting that Mr. Rogers had recommended rules against payola, Mr. Fitzgerald said such rules should not prescribe in detail but should in general terms require licensees to adopt their own procedures. The General Counsel also pointed out that FCC rules on sponsor identification reach the licensee only and that such requirements would be "frustrated" without legislation. Consequently, he proposed the following amendment to the U.S. Code.

"Announcement of Sponsored Pro-
STEM UP TO KJEO-TV RESULTS

KJEO-TV—ABC for Fresno, California's $600,000,000 market—stepped up its metropolitan Nielsen rating a full 10% in its December 1959 survey over the corresponding 1958 period. 32% of the audience 6 to 9 p.m.—33% of the audience 9 p.m. to midnight.

In contrast, one of the other two stations in the market showed a static position with 1958, the other a decline.

Your HR representative will help you get your share of the stepping out and stepping up TV buy for 1960—KJEO-TV, Channel 47, Fresno.

grams: Any employee of a radio station for which a license is required by any law of the U.S., who broadcasts, or knowingly permits or causes to be broadcast, over such station any matter for which money, or other valuable consideration is directly or indirectly paid or promised to, or charged or accepted by, any such employee, from any person, without making at the time such matter is so broadcast an appropriate announcement that such matter is paid for or furnished, as the case may be, by such person, shall be fined not more than $5,000 or imprisoned not more than one year, or both.

Financial Disclosure • The Attorney General also recommended that the FCC adopt rules requiring licensees and their employees to disclose financial interests held in companies which could benefit through exploitation on the air. Mr. FitzGerald said that there is some question whether the FCC has such authority (pointing out that instances cited by Justice were granted through specific acts of Congress) and that he was not prepared to offer an opinion at this time.

Even if the authority does exist, he said, an additional question is raised as to whether the results would be sufficient to justify the increased administrative burden.

The Attorney General's further recommendation that the FCC "adopt a program of more intensive scrutiny of licensee's past performances in connection with renewals" is a subject more appropriately within the province of the Broadcast Bureau, Mr. FitzGerald told the commissioners.

The General Counsel said that a Justice recommendation for sanctions short of revocation could be achieved by inserting the words "suspend" or "suspension" in appropriate places in Sec. 312 of the Communications Act. However, he pointed out, if such an amendment becomes law the FCC would be faced with the serious effect of depriving the public of service during said suspension period.

Suspension Alternative • In order to maintain such broadcast service during the period the licensee's operations are under an official cloud, Mr. FitzGerald suggested an amendment to the Communications Act providing for injunctive relief from the courts to enjoin the undesirable practice. This is similar to current powers used effectively by the FTC. The proposed amendment, adding a new Sec. 508 to the Act:

"Sec. 508. When the Commission has reason to believe: (a) that any person or station licensee is engaged in or is about to engage in any willful violation or failure to observe any of the provisions of this Act or any rule or regulation of the Commission authorized by this Act or by a treaty ratified by the U.S., or for willful or repeated failure to operate substantially as set forth in the licensee's instrument of authorization, and

"(b) that the enjoining thereof pending the invoking of the provision of Sec. 312 of this Act and until a show cause order shall have been dismissed by the Commission or set aside by the court on review, or the order of the Commission to cease and desist made thereon has become final, would be in the public interest, convenience, or necessity, the Commission may, by any of the attorneys designated by it for such purpose, bring suit in a district court of the U.S. or in the U.S. court of any territory to enjoin such offense or violation. Upon proper showing a temporary injunction or restraining order shall be granted without bond. Any such suit shall be brought in the district in which such person or licensee resides or transacts business."

Network Regulation • Mr. FitzGerald, in commenting on Justice's recommendation that networks be licensed, pointed out that the current FCC hearings en banc and the long-standing network program tie-in inquiry have the effect, therefore, that staff attorneys be assigned at once to summarizing on a priority basis so much of the [Chief Hearing Examiner James] Cunningham tie-in inquiry has been completed and also the work of summarizing the en banc programming record. Mr. FitzGerald recommended.

He said the time for filing briefs regarding this matter should be "limited severely" to expedite Commission action. "If also suggest that Examiner Cunningham be directed to convene promptly the last phase of the tie-in hearings to be held in California so that the record in such proceeding may be certified to the Commission and the summarization thereof completed as quickly as possible," Mr. FitzGerald stressed.

After such actions, he said, the FCC should be able to make such recommendations for network regulation as it deems necessary or appropriate.

Office of Enforcement • "In order to avoid further . . . criticism in connection with the payola problem and other matters which may arise in the future, I strongly recommend that the Commission adopt the suggestion . . . to immediately establish an office of enforcement," Mr. FitzGerald said. (FCC Chairman John C. Doerfer first made such a proposal at a recent FCC meeting to discuss the Commission's workload, the memo disclosed.)

He said such an office should be answerable directly to the Commission and completely independent of other in-

benefit, if without appropriate announcement, its products are played or discussed over the air.

Mr. Cowgill's memorandum, dated Jan. 26, was on the Commission meeting agenda a week ago but no action was taken.

A Commissioner's Proposal • It is my feeling that action is warranted by the Commission at this time toward the promulgation of a rule dealing with contrived quiz programs," Comr. Ford began his proposed rulemaking dated Jan. 14. He said the rule would "prohibit contrived contests of skill, knowledge or intellect unless accompanied by an announcement dispelling the impression that they are actually bona fide contests."

The commissioner said that the public has a right to know what it is watching or listening to. He pointed out that, under Sec. 317 of the Communications Act, the FCC has a statutory mandate to assure that any program material for which consideration is received "shall be announced as such with the source identified."

As drafted, Comr. Ford's rule relates only to TV, but, he stated, it could be included in FM and AM rules as well. Text of the Ford proposal:

"Quiz programs and other contests of skill or intellect, announcement. (a) No television broadcast station shall broadcast any program in which the appearance of a bona fide and extemperory game, contest or competition of knowledge, skill or intellect is of special significance if the outcome of such event has been in fact prearranged, or participants or contestants have been provided with information, instructions or any other communication for the purpose of influencing the outcome, by any person acting in behalf of the station or in behalf of any producer, sponsor or advertising agency associated with the program: Provided, however, that any such program may be broadcast if it is accompanied by an appropriate announcement dispelling the impression of genuineness or extemporariness. (b) It is recognized that the precise form of the identifying announcement may vary from program to program. It shall, however, in all cases describe the nature of the program in a manner sufficiently complete to apprise the audience that the events in question are not in fact spontaneous or genuine matches of knowledge, skill or intellect. Such announcements shall be made at the beginning and the end of each program.

(c) No license shall be granted to a television broadcast station having any contract, arrangement or understanding, express or implied with a network organization unless the station has obtained satisfactory assurance from the network organization that any program of the type described in subsection (a) will be accompanied by an announcement in compliance with subsections (a) and (b) of this section.

All three of the memorandums submitted by Messrs. Ford, FitzGerald and Cowgill originally were on the agenda for the regular Commission meeting last Wednesday. However, they were
Top family shows add to the big new picture in CHARLOTTE

Advertisers who know the value of a big "viewers per home" figure can make book on this — nowhere in the Carolinas will you find family fare to equal that of Charlotte's WSOC-TV. The pick of NBC and ABC, plus high-rated syndicates and top film libraries, is rapidly changing the viewing habits of America's 25th largest tv market. Buy WSOC-TV, the big area station.

WSOC and WSOC-TV are associated with WSB and WSB-TV, Atlanta; WHIO and WHIO-TV, Dayton

BROADCASTING, February 8, 1960
When we first "cracked the mike", some twenty-five years back, Northeastern New York listeners were requesting "The Music Goes 'Round and Around", "Red Sails in the Sunset", "Begin the Beguine". Seven of us ran the board, announced, sold, and yes, even swept the floor. What's more, two of us would come in at the unheard of hour of 2 A.M. to run a live talent program. Object, listenership. We were young... vital. We took nothing for granted.

Twenty-five years has lent experience, blessed us with success, but most important... increased our vitality. "Pulse" proves it... WEAV IS FIRST... more Northeastern N.Y. listeners than any other radio station every hour of the day, every day of the week... year in, year out.

Plattsburgh, economic capital of New York State's northern counties is GROWING. The St. Lawrence Seaway... construction of the Northway from Albany to Montreal... establishment of the SAC installation, Plattsburgh Air Force Base, new ICBM base, plus proposed industrial expansion, all indicate a vital, stable market. Add to this audience thousands of Canadians and tourists who flood our communities both summer and winter, and you find a market that must be included in your next campaign.

Now FM... as WEAV-AM was "first" in Northeastern New York... now, WEAV-FM begins another chapter by being the "FIRST" in FM. WEAV-FM will give advertisers an added plus in audience from Montreal to Ticonderoga, from the Green Mountains to the Adirondacks. Yes,... WEAV... the only 5,000 watt radio station in Northeastern New York State now becomes WEAV... AM and FM on 99.9 Megacycles. With additional specialized FM programming to its already adult AM programming... WEAV can't be beat in the fabulous Northeastern New York market.

discussed only briefly and were put over until Friday without any action being taken.

Present Laws • In announcing last Thursday that it was drafting new legislation and rules, the FCC pointed out that present laws reach only station licensees. "Evidence indicates that many objectionable broadcast practices have been due to the methods of program packagers and disc jockeys who are not directly subject to the regulatory powers of the FCC," the Commission said. "Accordingly, the Commission is drafting supplemental legislation and rules which would provide more effective control in such matters."

The announcement made no mention of the Friday meeting or of the proposal already up for consideration but did outline many of the provisions to be considered.

BROADCAST ADVERTISING

PEPSI PLANS GIANT RADIO TAB

$1.5 million budgeted for networks alone

Pepsi-Cola's sociability with radio continues this year with $1.5 million earmarked for a five-month, all-network radio campaign, the biggest yet for the beverage advertiser.

Pepsi bottlers also will invest substantial sums of their budgets in spot radio to supplement the parent company's drive.

Though Pepsi-Cola Co., New York, has used the four-network buying spree in the past two years, this year's campaign starting at various dates during the past week or this week, was described by William C. Durkee, Pepsi's vice president in charge of marketing, as "major" in comparison. The approaches in the past two years he described as a "field test" and "limited edition" of what the advertiser will put on the air this year.

Pepsi's ad plans were spelled out at a convention of Pepsi bottlers in New York last week. This year's overall budget of the parent company and bottlers was estimated at $32 million, a record annual ad expenditure by the soft drink company.

Bottlers, Too • The bottlers were urged by Mr. Durkee to give their support to the campaign. One bottler at the convention said he would finance a $250,000 spot radio campaign.

Pepsi officials pointed out that sales in all bottler areas will be measured during the network radio campaign. Local bottlers will be urged to spend an additional amount in spot radio next year to compare with increases found to result from the current radio campaign and related promotions.

Kevin B. Sweeney, president of Radio Advertising Bureau, last week termed Pepsi's 1960 radio plan "a dollars-and-cents testimonial to radio's selling power—from a company that originally built itself to sales prominence with one of the best-remembered radio campaigns of all time."

Nationally Pepsi will air 218 announceements each week during the five months. Pepsi and agency Kenyon & Eckhardt estimate some 5.5 billion impressions will be made. The commercials will cover the 7 a.m. to 11 p.m. period seven days weekly with the heaviest concentration Wednesday-Sunday. Most commercials are scheduled as participations within newscasts. Adjacencies and participations in other types of programs also are being used, for example, NBC's Monitor; ABC's Teen Town, and Wonderful World and in CBS' Impact plan as well as in daytime dramas. A variety of commercial lengths will be used from full one-minute down to five-word messages, all based on Pepsi's "Be sociable..." refreshment song newly-recorded by singer Pat Kirby.

Mutual's Pepsi schedule will consist entirely of 50-per-week and 30-second announcements in news broadcasts.

Satisfied client

The ReaLemon Co., Chicago, bought into The Jack Paar Show last year and became a satisfied sponsor. In fact, its sales surged 35%. On that basis, it's renewed for 1960.

The client, through Lilienfeld & Co., has purchased one-minute participations "at a frequency of more than one a week." Orchestra leader Jose Melis will handle the commercials. Says the sponsor: "The personality-product identification approach brings the best results."

ReaLemon also has purchased TV participations on Ruth Lyons' Fifty-Fifty Club over the Crosley Network (WLWT [TV] Cincinnati, WLWD [TV] Dayton, WLWC [TV] Columbus and WLWI [TV] Indianapolis), plus minute spots on WGN Chicago's Traffic Report.
Sales action for advertisers in the WGAL-TV Channel 8 MULTI-CITY MARKET

Extensive coverage is only one facet of the WGAL-TV story. For instance, ARB and Nielsen show that the WGAL-TV audience is greater than the combined audience of all other stations viewed in the area. Too, the WGAL-TV multi-city market, America’s 10th, is outstanding for prosperity and stability, as evidenced by its coverage figures. You can count on sales action when you advertise on WGAL-TV.

Chicago agency joins with Compton Adv.

The merger of Baker, Tilden, Bolgard & Barger, Chicago, with Compton Adv., New York, was announced last week by Barton A. Cummings, Compton president, and Bruce A. Baker, president of BT&BB.

Under the Compton name, the combined operation will be housed in the Borg Warner Bldg., 200 S. Michigan Ave., where Compton already has offices. Compton's annual billing is estimated at $80 million and BT&BB's billing at $5.5 million.

In the change-over, Mr. Baker becomes a senior vice president, director and a member of the Chicago executive committee. Louis E. Tilden, board chairman, becomes a vice president of Compton and chairman of the Chicago executive committee. Dean Landis, vice president of Compton, continues as general manager of the Chicago operation and will serve as a member of the executive committee of the office there.

Among the BT&BB clients that now will be served by the merged organization is the Quaker Oats Co. for Quaker Oats and Mothers Oats, Quaker Puffed Wheat and Puffed Rice, Muffets, Shredded Wheat and Full-O-Pep feeds.

Two ad philosophies discussed at RTES

Two sides of the business of selling a corporate image on television were given Jan. 27 at a round table luncheon of the Radio & Television Executives Society in New York. The opposite views were those of selling a product, told by John H. Tyner, tv advertising coordinator, Bristol-Myers Products Co., and those of selling service, as illustrated by William E. Haesche Jr., radio and tv advertising manager, American Telephone & Telegraph Co.

The advertising philosophies of the two companies were contrasted thusly: Bristol-Myers, Mr. Tyner said, finds that the ideal arrangement for advertising products like Vitalis, Ban, Trig and Bufferin is to co-sponsor half-hour shows which will get the highest ratings. The major responsibility of the advertising division is program selection, and while the company seeks flexibility through 13-week contracts, it usually winds up taking 52 weeks. Product identification with a show is important, he said.

On the other hand, Mr. Haesche said his company wants to dominate its programs by complete ownership so that they will be custom made and have quality. It does not want to be associated with crime, violence, westerns, quizzes or audience participation shows. The service advertiser likes shows which have less interest in the teenage market, have a predominance of women viewers, and which will probably never reach the top 10. Mr. Haesche said his advertising division is not overly rating-conscious, and becomes concerned only when the ratings fall below the average level of all programs.

CAPITAL EVALUATES ADVERTISING

AFA hears some constructive criticism on current troubles

The advertising industry was exposed to Washington examination last week. It decided the diagnosis was hard to take but there's no point in getting panicky.

Representatives from tv, radio, print and other media met with government regulators and legislators Feb. 5, at the second annual Washington conference of Advertising Federation of America.

Warnings and threats were popping all day as the industry felt the impact of criticism stemming from tv quiz-rigging and payola scandal stories. Here are highlights:

- FCC Chairman John C. Doerfer said NAB should adopt a seal of approval of programs and commercials in place of the present station-network-film subscriber plan (story page 28).

- John J. Ryan, AFA counsel, called rigged quizzes and payola "the eye of the hurricane" and called for a realistic facing-up to "the consequences to our business which these revelations may effect." All advertising asks, he said, is a chance to clean its own house.

- Theodore S. Repplier, president of the Advertising Council, suggested broadcasting critics should take a look at the radio-tv contributions to the council's public service campaigns (see box, this page).

- Walter A. Edwards, Deputy Assistant Secretary of Commerce, said America's economic structure would be impossible without the selling promotion and market information supplied by advertising.

- Chairman Earl W. Kintner, of the Federal Trade Commission, said cigarette advertisers have adopted an FTC suggestion that they stop using copy about effectiveness of filters in removing tars and nicotine, along with abandonment of claims to health benefits from smoking filter cigarettes.

FCC Chairman Doerfer's plain-spoken call for an NAB seal of approval took aim at those who dem the seal plan impractical by saying, "I warn you against those smug individuals who think that if 'everyone sits tight, this thing will blow over.' They have no interest for improvement industrywise for the present or the future. Their counsel should be rejected."

Chairman Doerfer is author of "The Doerfer Plan" by which tv networks voluntarily agreed to present a full hour of high-level educational or cultural programming weekly in prime evening time, effective after the November elections (Broadcasting, Jan. 25). He first advanced the idea in a Jan. 14 talk before the New York Radio & Television Executives Society.

The Tax Threat • Mr. Ryan took a cold, legal look at Washington goings-on and described specific steps taken by government agencies that relate directly to advertising's welfare. He was most alarmed by the adamant position Internal Revenue Service is taking in its decisions, particularly in the case of institutional advertising deductions.

All in advertising should contact legislators at the grass-roots level, he said.

Two-score broadcasters were delegates at the all-day meetings. They were joined by other broadcasters at the evening reception for legislators and federal officials. NAB and other media associations were represented.

AFA first entered the Washington scene a year ago when it held a legislative conference. The first meeting brought up so many governmental influences that AFA decided the idea should be permanent and it later installed a Washington office.

Secretary Edwards, stating the Commerce Dept. position, noted there are "some who judge your industry on the basis of the excesses or misconduct of a few who may engage in overly spectacular or deceptive actions. There are others who stress only the intensive promotion through advertising of highly competitive brands of similar goods of different manufacture. Many overlook the more far-reaching, important and basic function of advertising in providing consumers with complete and up-to-date information on market developments and opportunities, new products and services—information highly essential to the successful operation of today's complex market mechanism."

The Years Ahead • Mr. Edwards referred to forecasts that advertising expenditures may double in the next 10 years, a little more than twice the anticipated increase in gross national product.

Noting the alarmist hollering and pooh-poohing of "the status-quoers," Mr. Ryan said "any amount of wrongdoing is already too much, and appropriate safeguards must be provided to insure against the recurrence of such wrong-doing."

He congratulated FCC and FTC on "a most statesman-like approach to this

Public service to be proud of

"No industry in this or any other country has more to be proud of," than advertising, Theodore S. Repplier, president of the Advertising Council, said Feb. 5 at the AFA's Washington meeting (see main story this page).

Advertisers and media contributed to a new record of $80 million in time and space during 1959, he said, in describing their cooperation with the council's public service work.

Mr. Repplier added, "In these days when broadcasting is being lambasted from every side, its critics should make a cud of this fact and chew it: There has not been one single day for the past 18 years since the council was formed, when broadcasting has failed to deliver vital messages in the public service. Whatever may be its sins of omission or commission, it has been everlastingely faithful to its assignment as carrier of Advertising Council public service messages."

"A home improvement is one message heard once in one home. Last year, according to A.C. Nielsen figures, Advertising Council campaigns received, through commercial network time periods alone, a total circulation of more than 18 billion radio and television home impressions. This represents an astonishing contribution of time and talent by broadcasters and by advertisers. There is nothing in any other country in the world that can match it as a voluntary effort of private enterprise."

"I am not one of those who maintains that advertising is without sin. It is not an entity of its own, but a useful tool used by men—and men are deceitful as well as honest, tasteless as well as cultured, and stupid as well as brilliant. Advertising will always mirror the caliber of those who create and direct it."
...in Cleveland, particularly The monthly game of musical chairs—to see who's first—has taken a dramatic new turn. A year ago WHK couldn't even get into the game, as listeners virtually turned a tone-deaf ear. But that was before Metropolitan Broadcasting Corporation began presenting its new orchestration of service, news and showmanship. Today, WHK is firmly established among the virtuosos, accompanying your selling message with Cleveland's second largest audience. The score is available from Blair, or General Manager Jack Thayer (EXpress 1-5000).

Division of Metropolitan Broadcasting Corporation Cleveland WHK

LISTENING HABITS HAVE CHANGED!
problem" and for resisting the urge "to press the panic button" through more drastic controls. "By their spiritual courage in resisting the heavy pressure upon them to do so," he continued, "they have played fair with an important segment of our national economy and have done a very great service to their fellow Americans."

Mr. Ryan suggested the FCC could have conducted a star-chamber proceeding and found the accused guilty without calling a witness. Instead, he reminded, "it made an honest attempt to solicit information about the situation from a wide variety of sources, so that sound judgments could be reached, or a clear understanding of the facts."

All that advertising asks, he said, is "a fair chance to clean our own house. He said that FTC has adopted a new policy by which "the agency and its people (account executives, for example) will have to account for themselves" in unfair practices cases where the Commission feels it would be appropriate. He attributed this explanation of the policy to FTC Chairman Kintner.

Deflection Invites Trouble • Citing AFA's "truth in advertising" motto, he said, "As soon as we departed from it, we found ourselves in a hornet's nest."

The greatest danger advertising must fear is censorship by taxation. Mr. Ryan said, calling it "one of the most effective weapons in the armory of despotism."

Mr. Ryan explained that "50% censorship" has developed in the Internal Revenue Service ruling that institutional advertising is not deductible as a business expense if it involves lobbying, legislation or political subjects. (Corporations doing this advertising pay a 52% income tax.) The language allows broad interpretation.

After proposing a ruling, IRS held a hearing last year on industry reaction. Over 40 groups took part and "everyone was against it," he said, adding, "But evidently, the IRS was going through the motions. They had already given us all the concessions they planned to give us when they substituted the new regulation for the old one."

Now the only relief obtainable must come from legislation. Mr. Ryan said, but he said two benefits accrued—IRS somewhat eased its original regulation and it discovered the advertising industry "would fight for what it conceived to be a fair deal."

Explaining the legislative powers of the grass roots, he declared, "Your 10-minute conversation with your elected representative on the railroad station platform, or across the garden hedge, will have more impact on him than the most learned thesis that your organization could submit to him."

Modess to sponsor Negro radio show

Personal Products Corp., Milltown, N.J., Thursday (Feb. 4) announced its sponsorship of a syndicated weekly radio show on behalf of Modess Sanitary Napkins, a pioneering move in purchase of radio time for such personal product advertising.

Alma John, R.N., who has broadcast various shows beamed to Negro women on WWRL New York for seven years, recently joined Personal Products Corp. as consultant to the Negro market. On Wednesday (Feb. 10) she will launch her new program At Home With Alma John on 33 stations in 14 states, primarily in the South. Although Young & Rubicam Inc. is the agency for all Modess products, the radio show has been placed directly by its producer Edward M. Glucksman, President of Nationwide Network Inc., New York. "Young & Rubicam is not involved in any way with the show," a spokesman for Personal Products said.

At Home With Alma John is a quarter-hour program recorded in New York. It stars Mrs. John, a registered nurse, who discusses topics like health and hygiene, marriage, divorce and problems of adolescence. She also interviews prominent Negro women. The only commercial is delivered by Mrs. John near the end of the show when she says, "This program has been brought to you with the compliments of the Personal Products Corp., makers of Modess Sanitary Napkins. Modess because . . . softness . . . comfort . . . security. Make new Modess Sanitary Napkins your discovery this month. New Modess has an added channel of protection . . . New Modess has a discrete deodorant you can trust. Truly . . . the most trustworthy name in sanitary protection . . . Modess because."

"And here is a little booklet you may want for your daughter if she is of the age 9 to 15. It's called 'Growing Up and Liking IT' and it contains the answers to the why and whereof of growing up. You may have a copy by writing me, Alma John [address]. This booklet is offered free by the makers of Modess Sanitary Napkins."

A spokesman said 13-week contracts have been signed with all 33 stations. No station was said to have turned down the offer. The majority of the stations will reportedly carry the broadcast between 9:30 and 10:30 a.m.

Attorneys for Personal Products Corp. received approval of the commercial from both the FCC and FTC, Mr. Glucksman said. The words "Sanitary Napkins" must be used, he said, because they are copyrighted with the word "Modess," which if used alone does not mean anything. If the program proves successful after 13 weeks, additional markets will be added to the schedule, according to Mr. Glucksman.

CRISIS FORMULA ADOPTED BY ANA

Better FTC, industry liaison; advertising advisory council

A three-point program to meet the crisis in advertising was adopted by the Assn. of National Advertisers at a special meeting in New York last week. It was:

- "Better understanding and better working relationships . . . between national advertisers and the Federal Trade Commission . . . ."
- "Continuing liaison machinery between national advertisers and the various organizations or individual entities in agency and media ranks which have or may initiate self-regulatory procedures."
- Establishment of "an advertising advisory council with high professional advertising attainments and whose status permits complete objectivity, to serve in a consultative and advisory capacity on both broad and specific issues relating to taste and propriety in advertising, and to take such initiative as they deem necessary or desirable in the area of taste and propriety to help assure the credibility and acceptability of advertising."

This program was adopted after a meeting in which the advertisers heard:

- The presidents of both NBC and CBS-TV assert that broadcasters must bear the final responsibility for both programming and the reliability of the commercial.
- The chairman of ANA declared that while the "final voice" on program content must be the broadcaster's, the "major responsibility" for commercials lies in the laps of advertisers.
- The chairman of the NAB TV Code Review Board ask for "consultation by your staff and members with our board prior to finalizing of commercials, especially in instances when the subject matter or mode of presentation is sensitive."
- The chairman of the FTC "strenuously opposed" to any idea that FTC be given power to "clear advertising in advance of its broadcast or printing."

ANA Chairman Donald S. Frost, of Bristol-Myers, said the "basic responsibility" for programming rests "and must always rest" with broadcasters—even though "there are many advertisers who feel with substantial justification that it is important for them to have a voice—a participation—in the programs which are presented in their names." But, he asserted, the "advertising message is "the area where self-regulation begins as far as we are concerned."

Mr. Frost said, however, that the advertiser doesn't know "exactly where the line is drawn" by the FTC between violation and non-violation. He asked: "Would it not be helpful both to the advertiser and to the FTC if, working together, we could develop more effective machinery for clarification of the Commission's interpretations prior to the issuance of a complaint, rather than after? We believe that if such were the case, the advertiser would be in a better position to evaluate and regulate his own efforts."

He wondered, too, whether the advertiser wouldn't be "better off to advertise on the basis of what he should say in the eyes of the public, rather than what he could say in the eyes of the law?"

Gray Area • Much of the criticism about advertising, Mr. Frost maintained, falls in a "gray area" where "neither the FTC nor any agency of government has the mandate over what is or what is not objectionable—over what is and what is not in good taste." This, he said, is the responsibility of the advertiser.

He also thought it "more important than ever that we consider not only what is good advertising in terms of

No FTC endorsement • FTC Chairman Earl W. Kintner was "strenuously opposed" to any idea that FTC be given power to clear advertising in advance of broadcast or publication.

Basic responsibility • Donald S. Frost, Bristol-Myers, ANA chairman, said program control must rest with the broadcaster, commercial quality with the advertiser.

Code pre-checking • Sensitive commercials should be pre-cleared with NAB's tv code, was recommendation of the code board chairman, Donald H. McGannon, WBC.

42 (BROADCAST ADVERTISING)
...when you buy the Shreveport market.

Like every other business, television stations must build their own reputations to gain the respect and loyalty of their customers and the industry. Six years ago KSLA-TV started operations as Shreveport's first and only television station. Today it is still the No. 1 preference of viewers and advertisers alike.

We like to feel that this is possible because of our strict adherence to good station practices...consistent, yet imaginative, programming...and loyalty to national and local advertisers who can depend on KSLA-TV to fulfill its obligations to both advertisers and viewers.

This consistency PLUS dynamic ratings (and we have 'em) add up to KSLA-TV. Your Harrington, Righter & Parsons man has the complete story. Why not give him a call?
Beyond our reach?
ORDINARILY, a television station’s power to serve is area-limited. But when KNXT heard about a plan for counteracting communist propaganda in Southeast Asia by getting American families to mail used magazines to Asians, the station recognized the opportunity to serve a fine cause...far beyond usual boundaries.

Thus began one of the most unique public affairs projects ever attempted by a local station. KNXT spread the word...on newscasts, and via announcements, full-page ads in local television magazines and 125,000 pamphlets distributed throughout the Los Angeles area. Then the station wrote to more than a hundred overseas stations and newspapers, inviting Asians who wished to receive American periodicals to write KNXT.

The result was a floodtide of mail...and the establishment of a continuing tie-line, 30,000 families strong, between more than a dozen Southeast Asian countries and the Free World. In a typical letter of praise, the U.S. Information Service in Hong Kong hailed “Magazines for Asians” as “a considerable influence for our common good.” Wrote one Southeast Asian, “...it is to me like seeing the sunshine after the rain!”

To the people of Laos, Cambodia, Thailand —thousands of sea miles beyond KNXT’s signal strength—the efforts of one station in behalf of freedom may seem extraordinary. But not to the citizens (and advertisers) of Southern California. For they have always known that the strength of purpose needed to do almost any job, and do it well, is part and parcel of their favorite station...

CBS OWNED KNXT
CHANNEL 2, LOS ANGELES
the cash register, but also what is good for advertising as well?"

Earl W. Kintner, FTC chairman, agreed that in the case of companies cited for alleged offenses, "full equity would demand naming a long list of equally guilty competitors," but he said FTC "simply doesn't have a police force big enough to police every violation of the law at the same time. Nor would this country want such a police force," he added.

Mr. Kintner said the FTC withholds news releases for 24 hours after a citation has been issued to an advertiser, which he said should give the cited advertiser adequate time to prepare his answer for publication.

Mr. Kintner told the advertisers that they were "in the logical position to exercise leadership for tighter self-discipline, self-regulation in the advertising industry. Who better than you, for example, could guide the genius of the ad agencies to creating advertising that does not falsely disparage the competitors of their client or mislead buyers?"

Veto Power • James T. Aubrey Jr., president of CBS-TV, maintained that networks must retain "the ultimate veto power over commercials."

He said CBS-TV has been "actively at work for some time in an effort to formulate new principles relating not only to placement and length but also to the acceptance of commercials, particularly on personal products and remedies."

He noted that "wherever practicable we will dispatch our own representatives to witness, before acceptance, the actual demonstrations that are embodied in the commercials. Where this is not practicable, we propose to request fully certified descriptions of the circumstances and procedures of these demonstrations."

Mr. Aubrey agreed that advertisers "should not be forced to sponsor programs incompatible with their objectives to increase sales, strengthen distribution and win public favor." But he reiterated CBS Inc. President Frank Stanton's assertion that CBS-TV would decide for itself what programming is best for its schedule, and would have its own rules of advertiser influence in serious dramatic programming (BROADCASTING, Feb. 1).

NBC Head • Robert E. Kintner, president of NBC, stressed that "the broadcaster—whether he is a network or a station operator—must assume the final responsibility to the public for the quality and the diversification of programs, for the good taste, acceptability and the reliability of the advertising message and for the basic obligation of serving the public interests." But, he said, "there is an equal responsibility on the advertiser—and in addition a legal one—for the honesty of his commercial claims."

Mr. Kintner said broadcasters have a responsibility to present quality programs, whether they are westerns or otherwise; to present balanced programming, and to inform. Moreover, he said, the broadcaster should "review and evaluate the commercial messages he presents as to honesty of claims, good taste and suitability to the program on which they appear."

Donald H. McGannon, president of Westinghouse Broadcasting Co. and head of the NAB TV Code Review Board, said that among the things the code board would like from ANA was prior consultation from ANA members on commercials of a sensitive nature; dissemination of code material, a "mutual program of advice and guidance, continuing liaison with a committee of your [ANA] board" and "your insistence that the television code seal be displayed" on ANA members' programs.

McGannon Requests • In addition Mr. McGannon asked that ANA make "available to our staff through your agencies any film, tape or copy on commercials which we have had a complaint or are involved at any particular time."

Speaking for Robert M. Ganger, chairman of D'Arcy Adv. and chairman of AAAA, Richard L. Scheideker, senior vice president of AAAA, discussed the AAAA's "interchange" system of checking on complaints about advertising copy. He said that in preparing the latest "interpretation" of the AAAA copy code, made because television's reach into the home was considered so important (BROADCASTING, Feb. 1), the association had sent working copies to NAB, Advertising Federation of America, and the three TV networks. The responses, according to AAAA, were "favorable." It said CBS had endorsed the interpretation, and that "We hope others including the ANA will do the same."

Other speakers at the one-day meet-

Final authority • NBC-TV President Robert E. Kintner said the broadcaster must assume final responsibility for program quality and ad reliability, which he said should give the cited advertiser adequate time to prepare his answer for publication.

Network 'veto power' • James T. Aubrey Jr., CBS-TV president, held that the networks must retain "the ultimate veto power over commercials."

Clients should help improve TV—Sarnoff

Advertisers last week were asked to pitch in and help elevate and improve TV's program and commercial content. The appeal came from Robert W. Sarnoff, NBC board chairman. He spoke at a Detroit meeting of the Michigan Council of the American Assn. of Ad-

New York, N. Y., Circle 5-6000
When the first USS Independence was commissioned in 1776, you probably could have put all the steel aboard her into one sea chest. But when the fifth Independence joined the U.S. fleet this year, she carried the widest variety of specialty steels ever assembled. 57,000 of her 60,000 tons are steel.

The Independence is big. She carries a crew of 3,500 and her quarter mile of runways could park two luxury liners side by side. Turn her on end and she'd reach up to the 80th floor of the Empire State Building. Total working area for flight operations is over six acres.

The Independence is built of steel, much of it supplied by United States Steel. For the greatest possible strength and toughness U.S. Steel furnished two types of specially formulated and treated armor plate. Steel cables, strong enough to stop a landing jet bomber, were furnished by the American Steel & Wire Division of United States Steel. Her four 66½-foot, 50-ton propeller shafts were forged at the USS Homestead Works. And so it goes. From flight deck armor to the stainless steel used in her hospital, galley and crew's quarters, USS Steels play an important part in the performance of one of the Navy's finest ships.

It took three years to build Independence. It took 50 years of research and development to perfect the specialty steels of which she is made.

57,000 tons of steel

Something new in tie-downs. Instead of welded tie-downs, Independence has dimples placed at specified points in flight and hangar deck armor. U.S. Steel developed special dies for use in a 12,000-ton press, worked with the plate while it was cold. Danger of welded-in units breaking loose from overhead blast is now eliminated.

Hammocks are a thing of the past. Pullman-type bunks with individual reading lights make crew's quarters much more comfortable.
go to sea with the USS "Independence"

Lots of room, lots of steel here. Hangar deck aboard Independence can store 100 jets, is as big as two and a half football fields.

BROADCASTING, February 8, 1960
vertising Agencies.

This was what Mr. Sarnoff advised:

- Forget about divorcing advertisers from program association.
- Recognize the area for a tv uplift. Advertiser effort could come principally through three channels: the purchase of public affairs (cultural) shows, integration of commercials in a program's mood and a striving for "credibility" in commercials.

Mr. Sarnoff opposed talk of "magazine" or publishing concepts of programing. He said an advertiser would lose his identity. (As Mr. Sarnoff interpreted the concept, commercials would be rotated. Advertisers thus would be denied the opportunity of selecting the program in which their commercials appeared and of playing "any role in the program process.")

**Advertiser's Right**

He said he "strongly" opposed any such requirement. He thought the advertiser had as much right to select a program he'd sponsor "as he does to choose the magazine in which his advertisement" appears. That right, he said, includes the program with which the advertiser wants his product associated.

NBC's board chairman thought a loss of advertiser identity with a program of his choosing would be "unfair restriction," would weaken advertising impact, lessen the chance to create a "planned image," and eliminate the "proven merchandising benefits of traditional sponsorship." This version of the magazine concept, Mr. Sarnoff warned, would "deprive television programing of the creative resources of the advertising agencies."

In observing full responsibility over composition of the network schedule, Mr. Sarnoff said NBC at times has had to turn down advertiser programs which failed to come up to the mark. But, he said, the network has "learned over the years to value the judgment and creativity of its market agencies broadcasting specialists." He added he would like to see this "fruitful association encouraged, not ended."

His three-point recommendation to advertisers was in these areas:

- Program selection—"Every advertiser should examine whether his needs cannot be served effectively by image-building programs in the public affairs and cultural fields."

- Commercial integration—"Tailor . . . commercials more closely to program content so that the viewer will not resent an interruption . . . ."

- Credibility in commercials—"A time when it may be fashionable to cast suspicion is a good time to strive for credibility."

Mr. Sarnoff urged advertisers to ask themselves: "Is seeing your commercial believing it?" He continued: "Since recent events have spread some skepticism in the audience, it becomes an extra creative burden to tell your story convincingly."

"This is not necessarily a matter of the 'soft sell' versus the 'hard sell.' Today's market puts the accent on the 'sensible sell.'"

Mr. Sarnoff said NBC is seriously studying proposals for cooperative action by advertisers, agencies and media to "maintain high standards of truth and taste" in advertising.

The current situation, he reflected, was a challenge "not only to the integrity of the advertising but to the ingenuity and imagination" of the advertising man in "reaffirming his claim on public favor and trust."

Mr. Sarnoff praised as "admirable" the AAAA's issuance of an "interpretation" of its copy code relating it to tv commercials (BROADCASTING, Jan. 25). He said NBC is maintaining its own safeguards and would expand them as the need arises. Broadcasters, he said, assume "final responsibility to the public" for the advertising presented as well as for programming placed on the air. Broadcasters and tv advertisers, he warned, "must concern themselves with the validity of demonstrations," but one competing medium ought not "enjoy special treatment by law enforcement agencies" over others. He asserted, "an advertising claim that is false in one medium is false in another and should be treated accordingly."

**Business briefly**

**New radio client** Norcross Inc. (greeting cards), N.Y., in its first use of network radio, will sponsor a 10-minute, Wednesday segment of the new Bing Crosby-Rosemary Clooney program over CBS Radio (Mon.-Fri. 10:40-11 a.m.), starting March 2. Earlier, the Lamp Div. of General Electric Co. had signed for two 10-minute segments per week (At DEADLINE, Feb. 1). Agency for Norcross: Young & Rubicam, N.Y.

**Allstate buys** Allstate Insurance Companies, Skokie, Ill., is buying alternate weeks of CBS-TV's Person to Person, Fri., 10:30-11 p.m. EST, effective Feb. 19 for at least a six-month cycle. Agency: Leo Burnett Co., Chicago.

**Overland passengers** One-third sponsorship of Overland Trail, which premiered yesterday (Feb. 7) on NBC-TV 7-8 p.m. EST, has been taken by Standard Brands and P. Lorillard (through Ted Bates and Lennen & Newell respectively). At the same time Standard Brands bought thirds in two other NBC-TV shows, Riverboat, moving from the Sunday Overland spot to Mondays, 7:30-8:30 p.m., and Law of the Plainsman, Thursday, 7:30 p.m.

**Agency appointments**

- Taylor Provisions Co., Trenton, N.J., manufacturer of Taylor Pork Roll and other meat specialties, appoints S.E. Zubrow Co., Phila. Saturation spot radio and tv campaigns, consisting of more than 300 spots per week, are planned for eastern markets.

- Floill Products (Flottill, Tasti-Diet tomato products), San Jose, Calif., appoints Grant Adv., Hollywood. Television and newspapers will be used in a spring campaign now being planned.

- Coopers Inc. (Jockey brand shorts and other male undergarments), Kenosha, Wis., appoints Tatham-Laird, Chicago, to handle its account, with estimated billings of $750,000, effective May 1. Company has been active in network tv (The Jack Paar Show and previously Home) and spot radio. Account has been handled by Henri, Hurst & McDonald, same city.

"...spot television helped make Manischewitz 'everybody's wine.'"
NO VHF SPACE FROM THE MILITARY

That's the pessimistic report of FCC's Ford to Pastore hearing

Plans for uhf study, spectrum opinions of Commissioners bared

The FCC's prospects of acquiring more uhf frequencies from the military are pretty bleak, the Senate Communications Subcommittee headed by Sen. John O. Pastore (D-R.I.) was told last week.

Testifying Tuesday along with the other FCC members, Comr. Frederick W. Ford said he had met the day before with officials of the Office of Civil Defense Mobilization on the policy level—following up a total of 26 meetings between FCC and ODM technical personnel running almost a year—and now feels chances for switching the government uhf spectrum space to tv use are "not too favorable." He said he has asked for another meeting on a still higher level (i.e., with the President) and promised the Senate group a status report by April 1. Comr. Ford has acted as liaison commissioner for the series of FCC-ODM meetings.

Other fresh facts laid before the Senate group by the FCC in sessions Tuesday and Thursday:

- The FCC (all members concurring) is asking Congress for legislation to authorize the agency to prescribe minimum performance standards for U.S. tv sets (enabling the FCC to require that all tv sets be equipped to receive all channels assigned to tv broadcasting, whether it be the present 12 uhf and 70 uhf channels or some other formula finally determined). There has been a considerable division of opinion among interested attorneys over the constitutionality of such a law, but Sen. Pastore nevertheless last week promised to introduce a bill offered by the FCC.
- If the FCC gets its budget request of $2.25 million for a study of uhf propagation characteristics and equipment, it plans to carry on the study two years in New York (the "toughest area in the world" for a test of the medium), using two to three channels and installing about a hundred uhf-tuning sets equipped with parametric amplifiers in homes scattered throughout the city (see story below). The study would be conducted by a private contractor, but under FCC supervision. (The FCC, post-TASO, apparently is wholly convinced that only the FCC can properly conduct such a study.)

Among other developments at the hearing:
- All FCC members but Comr. Robert E. Lee want to get the final yes or no on getting uhf space from the military before considering an all-uhf system.
- All are willing to consider all-uhf as a long-range, ultimate plan if the FCC's uhf study shows that uhf propagation and distance equals vhf.
- But Chairman John C. Doerfer doesn't believe that vhf should be discarded if uhf is not proved just as good because of (1) loss of service to rural areas if 40-mile-range uhf outlets are substituted for 80-mile-range vfs (2) cost of immediate conversion of the present 50-million-plus tv sets for uhf.

FCC PLANS NEW YORK UHF TEST . . .

If the FCC gets a special appropriation of $2,250,000 it has requested, it will use the money to find out if uhf will work in the biggest of all U.S. markets, New York.

The appropriation was included in the budget that President Eisenhower sent to Congress last month (Broadcasting, Jan. 25). Last week the FCC's plans for spending the $2,250,000 became available. Here's what the Commission has in mind:
- Construction of two uhf stations in New York City to operate with at least a million watts of power, at an estimated cost for installation and operation of $1,150,000.
- Financing of a program of research and development of uhf receivers and of the placement of receivers in selected locations in New York to test reception from the special uhf stations, at a cost of $575,000.
- Financing a program of measuring signal strength, picture quality, propagation characteristics of the test uhf stations, at a cost of $475,000.
- Analysis of data and preparation of reports, at a cost of $50,000.

If the FCC's plans go through, preliminary work will be carried out by the present Commission staff during 1960, the transmitters and receivers for the test will be built during fiscal 1961 (July 1960-June 1961), the test system will be operated in fiscal 1962, and the information analyzed and put in report form in the early part of the calendar year 1963. The work would be supervised by the FCC but done by private contractors.

Uhf: The Only Way? • The uhf test plans were described in the "justification" of the FCC's special budget request which became public only last week. The justification contained this statement:

"While the Commission is currently negotiating with the executive departments in an attempt to make additional vhf channels available in lieu of the uhf band, there is the distinct possibility that the only solution to the problem will be in the utilization of the uhf allocations.

"The uhf channels might then be used to supplement the existing vhf channels or, in order to answer the demands of government and non-government land mobile communications services, for the ultimate transition of all television broadcasting to a uhf-only system.

"The future course of television broadcasting would be determined after completion of the investigation herein proposed and would include other considerations submitted by the par-
which he estimates would be $2.5 billion.

- Some FCC members saw trouble even in a long-range (10-15-year) switch to uhf, feeling the FCC would have trouble getting broadcasters to simulcast uhf and vhf during the transition period. Comr. Doerfer, among other objections, felt that if uhf's distance doesn't improve, multicasting will be required in populous areas and even the plentiful uhf channels will become too scarce at the rate of several uhf channels to replace service formerly covered by one vhf.

- Comr. Rosel H. Hyde, who replaced Chairman Doerfer as FCC spokesman Thursday, agreed with an earlier statement by the chairman that additional stations in larger markets to carry ABC-TV programs is a compelling need. Later on, questioned about the FCC's rulemaking inquiry on the principle of dropping in third vhs in two-vhf markets, he said he thinks it's possible for the FCC to let the station go on the air under a trusteeship pending outcome of contests for the new vhf.

- Comr. Robert E. Lee restated his earlier position favoring a move to all-uhf and termed as a "panacea" talk about getting military frequencies for vhf because (1) it would cost the government a large amount (one estimate was $1 billion) to re-equip for any new military frequencies and (2) there would still be a set conversion problem in using new vhf frequencies. He also noted international agreements would have to be negotiated to use the new vhf band. He said his belief in uhf is supported by many FCC staff engineers.

- Comr. Hyde, under questioning from Sen. Hugh Scott (R-Pa.) on programming, said FCC analyses refute many "broad charges" against broadcast programs; said the FCC's hearing itself has had a healthy effect, and said cautious going is needed to maintain the benefits of competition.

- Nobody at the FCC seemed to think much of the TASSO report, several commissioners giving various reasons for making their own study of uhf.

- FCC staffers during the Tuesday session showed a slide projection presentation on the five alternative spectrum plans for TV and comparisons of uhf and vhf characteristics under varying conditions and the significance of the differences between the two bands.

- The troubles of WAKR-TV Akron, a uhf station overshadowed by three vhs in Cleveland, were described by Rep. William H. Ayres (R-Ohio) at the Tuesday session. Statements on the same problem from other Akron groups were filed.

- A plea for FCC interim action, pending a final allocations plan, to add a third vhf station in 10 major markets was made by Alfred R. Beckman, ABC-TV vice president in Washington. These "critically underserved" areas, he said, are: Birmingham, Charlotte, Grand Rapids-Kalamazoo, Jacksonville, Louisville, Providence, Raleigh-Durham, Rochester, Syracuse and Wheeling-Stevensburg.

... IF SPECIAL FUNDS ARE OBTAINED

ties in interest in accordance with the Administrative Procedures Act."

Why It's FCC Job • The FCC itself ought to undertake an exploration of uhf potential, the justification said, because industry had been unable to do the job. The FCC pointed out that the Television Allocations Study Organization (TASO), organized by the FCC for a crash program of research and development, had been restricted by the antitrust laws. TASO's work has been mostly limited to existing equipment, the FCC said. A ruling by the Justice Dept. prevented television manufacturers from joining, through TASO, in a combined programs of uhf research, said the FCC.

With private industry unable or unwilling to spend great effort on uhf development, the government must step in, the FCC said.

"To expand television service to the nation without undue delay," the FCC reported, "it is necessary for the government to take unusual emergency action to support the solution of the technical problems pertaining to the public interest as in the case of other segments of the economy and the national defense where industry initiative cannot be expected to provide the technological development necessary to the public welfare and to the industrial and business economy as a whole."

The Commission said the reason most of its members have hesitated "to insist" on the use of uhf so far is that they don't know whether large metropolitan areas can be adequately served by uhf stations. To answer that big question is the purpose of the $2,250,000 test.

City Sites • Under the plan the FCC would choose the sites and pay for the construction of two uhf stations, one on a tall building in mid-town, the other about 15 miles uptown.

Once the stations began operating, probably transmitting the programs of the existing seven vhf stations in New York, reception tests would begin on about 100 special uhf receivers "scattered strategically" in the metropolitan area. The receiver locations would be shifted periodically through the test year to increase the total sample size.

In addition, portable test equipment would be used to test picture quality and signal strength. "The results," said the FCC, "are expected to provide an adequate evaluation of the service available from a single uhf tv station, as well as from a pair of uhf stations in a 'multicast' operation."

The Commission will use the most advanced designs of uhf receiving equipment in its tests. The receivers would be prototypes designed, built and installed under contract by "some organization outside of the broadcasting or receiver manufacturing industry."

Uhf receivers now on the market do not incorporate the latest technological advances, the FCC said. Their performance is "markedly inferior" to that which "reasonably might be expected of them."

The receiver development would also include experimental work on uhf receiving antenna and antenna-receiver transmission lines.

The transmission lines that are now available lose signal power between antenna and receiver, the FCC said in its explanation of the projected New York test.
Is Lauzhe staying up too late?
The plight of WAKR-TV Akron is tough, Ohio's Democratic Sen. Frank J. Lauzhe agreed during testimony last week before the Senate Communications Subcommittee that the Akron uhf outlet is "overshadowed" by three vhf stations in Cleveland.

But, the senator said, there was something else bothering him: tv shows that he feels contribute to juvenile delinquency.

Sen. Lauzhe said he had seen a tv movie the Saturday before (11 p.m. on WMAL-TV Washington) called "Devil in the Flesh," which showed a married woman and a teen-age boy getting into bed to have "illicit relations." Sen. Lauzhe elaborated in a statement on the Senate floor the next day (Tuesday) adding that another tv movie (shown about two months ago on WTOP-TV Washington, also late evening) called "I Am a Camera" implicitly approved "promiscuous relations between unmarried persons."

He suggested the FCC might use its license withdrawal authority to get such fare off tv and later declared, "It's got to be looked into."

WMAL-TV Program Director Ted McDowell commented Thursday that "Devil," a French import, has been described by New York Herald-Tribune critic Bosley Crowther as "perhaps the finest, most mature picture from post-war France." Mr. McDowell noted the film was shown at 11 p.m. when juveniles ought to be in bed. Some scenes that were in the theatrical version were edited out for tv.

WTOP-TV Program Director James Philman said "Camera," a British film starring Julie Harris, Shelley Winters and Lawrence Harvey, won a prize at the Cannes (France) film festival, though it received a rating of "C" from the Catholic Legion of Decency as offending both adults and youth. The story concerns the life of a girl from the U.S. who is a prostitute in Berlin at the time of the rise of Nazism. Mr. Philman said the movie is "puritanical, compared to some movies being shown nowadays," but said WTOP-TV is going to do more censoring of films considered objectionable.

D.A. may press perjury charges in quiz probe

The New York District Attorney may have a presentation for the grand jury early this spring on the possible perjury of witnesses who testified during the tv quiz investigation, it was disclosed last week.

A spokesman for the District Attorney's office also estimated the current grand jury hearing on evidence of payola in radio-tv which started last week, would take about two months. After this phase, Assistant District Attorney Joseph Stone, who has been in charge of the quiz-payola probe in New York, expects to begin assembling material on testimony presented last year to a grand jury. District Attorney Frank S. Hogan has said that a number of contestants (perhaps 100) had lied to the grand jury as to their roles in quiz rigging.

It was reported that a representative of recording companies had testified before the juror panel, answering questions put to him by Mr. Stone. Disc jockey principals are not expected to be called before the grand jury because they are potential defendants in any court action instituted. Under New York state law, commercial bribery is a violation. Payola involves payment by recording companies, artists or others to disc jockeys for plugging songs on the air. The D.A. entered the area of payola practices last November when it subpoenaed books and records of 11 companies in New York.

Lee's proposals listed at Okla. meet

Urging broadcasters to regulate themselves, FCC Commr. Robert E. Lee "strongly endorsed" the NAB TV Code and would make membership a factor for license renewal consideration. Speaking in Tulsa, before the Oklahoma Broadcasters Assoc. on Jan. 31, Commr. Lee made the following recommendations as an outgrowth of the FCC's inquiry into television's programming practices:

- FCC authority to review all programming at renewal time. He suggested asking Congress to add this to Sec. 326 of the Communications Act and to direct the Commission through rulemaking to establish criteria for determining operation in the public interest.

- Congress enact legislation to "regulate the networks at least to the extent that we already do indirectly. We already regulate the networks to a substantial degree through their ownership of stations. This is backdoor and clumsy."

- Amend Sec. 317 of the Communications Act to require that a program be labelled for what it is. Rulemaking should be instituted "to see how this could be done. This is not censorship. . . ."

- An amendment to the Communications Act giving the FCC authority "to impose a short term probationary license — impose a period of silence on the air or impose fines or other sanctions."

- Higher spot rates as a counter to the "overcommercialization" of the broadcast media.

The commissioner told the meeting that future action by the FCC and the legislation it will recommend to Congress on the basis of its hearing will be "prompt and vigorous." The hearing, he said, has not been a matter of "exposure for exposure's sake." Culprits exposed, Commr. Lee said, "can still be counted on your fingers."

"In our zest to remove the weeds of evil," Commr. Lee stated. "we must be careful to protect the wheat of free speech guaranteed by the Constitution."

No one on the commission staff. Mr. Lee asserted, "has any desire to censor programming per se."

Commr. Lee said that the hearing itself produced "some 212 suggestions by some 90 witnesses, ranging from the ridiculous to the sublime." He singled out briefs prepared by Ted Pierson, Washington communications attorney. Whitney North Seymour, NAB, and the NBC brief prepared by Cahill of New York, "not necessarily for conclusions, but for the evident time and effort put in. . . ."

KATZ sale affirmed

The $600,000 sale of KATZ St. Louis by Rollins Broadcasting Co. to LaClede Radio Inc. was granted anew by the FCC last week after receiving assurances from LaClede that the station will not be used to further the business interests of any stockholder. FCC set aside an earlier grant to inquire if there would be a conflict with the record, music and news letter publishing interests of certain stockholders. The Commission was told that Milton M. Blink, one stockholder questioned, had liquidated music and record holdings while his radio transcription service produces background music for factories and offices.

Waco asks ch 12

A request that the FCC allocate ch. 12 to Waco, Tex., was made by WACO that city. In a petition filed with the FCC the station said a vhf channel can be allocated to the city under two separate plans, one of which would require approval of sub-standard spacing.
The mighty Wurlitzer... so vibrant, forceful, brilliant! It does indeed take one with a quality touch to capture the full range of this magnificent instrument. Likewise, it takes the quality touch of many hands and hearts to capture the admiration and respect that go with the quality atmosphere surrounding today's better radio and television station operations.

CURTAIN FALLS ON FCC HEARING

AB-PT's Goldenson and Treyz last in line of 90 witnesses

The FCC completed the current phase of its investigation into programming practices last Monday (Feb. 1) with testimony from ABC executives Leonard Goldenson and Oliver Treyz.

And, without pausing to scrutinize the 3,775 pages of testimony compiled since Dec. 7, 1959, the Commission immediately, in executive session, took up several proposals designed to give it authority over "quiz and payola practices" (see story, page 27).

Chairman John C. Doerfer kept the record open for the filing of additional statements. Also, there is a possibility that additional testimony will be taken in public. Some 90 witnesses gave their views to the FCC along with 212 proposals in 28 general areas, according to the calculations of Comr. Robert E. Lee.

The hearing, which ran through 10 weeks (including a two-week holiday break), was an enlargement of the FCC's inquiry into network program selection processes (Docket 12782) instituted a year ago. In announcing the new phase last November (BROADCASTING, Nov. 16, 1959) as a result of the tv quiz and payola disclosures, the FCC outlined five questions it hoped witnesses would attempt to answer. The questions, many times listed as if by the witnesses, were:

1. Whether and the extent to which policies and practices being pursued by some broadcast licensees in the field of programming and advertising are inimical to the public interest;

2. Whether and the extent to which the general standards heretofore laid down by the Commission for the guidance of broadcast licensees in the selection and broadcast of programs and other material to the public are adequate in view of the changed and changing conditions in the broadcast industry;

3. Whether and the extent to which the Commission should, by the exercise of its rule-making power, set out more detailed and precise standards for the guidance of broadcasters in the exercise of their responsibility;

4. Whether and the extent to which the Commission's present policies and procedures in the review and consideration of the performance of its broadcast licensees in the field of programming and advertising are adequate, in view of the greatly increased number of such licensees; and

5. Whether the Commission's authority under the Communications Act of 1934, as amended, is adequate for these purposes or whether legislation should be recommended to the Congress.

After the hearing was adjourned, Chairman Doerfer promised that recommendations would be sent to Congress almost immediately. And, true to his word, the chairman called a special FCC meeting for last Friday (Feb. 5) to consider specific legislation for Congress.

Following is a resume of testimony by ABC, plus two statements made as a part of the record:

Leonard Goldenson and Oliver Treyz, ABC • There is a "narrow programming area" in which the FCC can operate without infringing upon anti-censorship laws, Mr. Goldenson stated in agreeing to a summation of ABC's position by Comr. Frederick Ford. Mr. Goldenson, president of American Broadcasting-Paramount Theatres Inc., said the Commission should compare performance with promise and that a license should be revoked if promises are not lived up to.

At the same time, the AB-PT president cautioned the Commission against "unwise and precipitous" action in formulating new regulations and controls. "I would like to urge upon this Commission a course of conduct which would be both restrained and wise," he said. "Unwise and precipitous action, whether in the form of legislation or regulation or ... pressure too heavily applied, may result in the establishing of operating principles which can place this industry in a straitjacket.

"We must avoid any controls which might cripple or retard [tv's] growth," Mr. Goldenson continued, "and its ability to experiment, to be daring, to be vigorous and to enter into new fields that are appropriate courses of conduct for so young and so new a vital force."

Mr. Goldenson and Mr. Treyz, president of ABC-TV, testified in tandem on the policies of their network. They were accompanied by Edward J. DeGray, president of ABC Radio, and Selig J. Seligman, president-general manager of ABC's KABC-TV Los Angeles.

Tv's role is unique in that it is the only all-purpose force in communications, characterized by specialization, Mr. Goldenson said. "Since we are a medium of mass communications, it seems to me that we should be primarily concerned with majority programming," he told the commissioners. "What puzzles me a great deal about

A good place to start to stop INFLATION

What family today isn’t directly affected by one or more of the classic symptoms of inflation—the rising prices, the shrinking dollar, the pinch on incomes, pensions and savings?

Our lawmakers are squeezed between pleas for more federal spending and the responsibility of presenting the bill to the taxpayers. And as always, proposals to cut federal spending meet resistance, although cutting spending is a direct way to block inflationary trends.

A PLACE TO SAVE BILLIONS

One example of nonessential spending is the outlay of tax money that goes to enlarge the federal government’s venture into the electric power business.

The active pressure groups for such federal “public power” are after some $10,000,000,000—this on top of about $5,500,000,000 it has cost taxpayers to date.

A saving of that size would be a major blow at budget deficits, yet call for no sacrifice by the American public. The majority of people don’t want so-called “public power,” as shown by repeated opinion polls. Nor do they get anything from it—except the bill.

NO NEED FOR FEDERAL POWER SPENDING

More government spending is quite unnecessary to the nation’s power supply. The hundreds of independent electric companies and their millions of investors are able and ready to fill the growing demand for electricity... and without tapping the taxpayers.

THE TAX NOBODY SEES

There is no tax labeled “public power.” So most people don’t know the government is in the power business, and few know their own taxes keep it there. That’s why a small minority can force this tax burden on the majority.

So the key to a tax saving of billions is getting the facts to the American public. Will you help? This coupon will bring you a new booklet with up-to-date figures and information. We’ll send it to you promptly, at no charge.

BROADCASTING, February 8, 1960
affiliates, the vice president-general manager of KPRC-TV Houston said that abuses which triggered the present inquiry were eliminated by the industry even before the hearings began. He said the industry has demonstrated that it can be relied upon "to protect and promote the public interest without the need for additional government intervention."

Mr. Harris, in his statement filed for the hearing record, told the commissioners that the extent of broadcast abuses (quiz rigging, payola) has been very slight. "If, however, the Commission is of the view that new rules should be adopted specifically imposing a duty upon each licensee to take reasonable steps to assure himself that the programs he is broadcasting involve no deceptive practices, we would not be opposed to their adoption provided that rules could be drafted which would be clear and workable and which would not impose burdens upon licensees out of proportion to the dangers sought to be averted," Mr. Harris said.

Noting the criticism by previous witnesses of the quality of programming, the Texan pointed out that the broadcaster always is trying to improve his programs. "That the efforts of broadcasters have been largely successful is shown in considerable part by its success in competing with other media of entertainment and information," Mr. Harris maintained.

"By careful selection of time and station, individuals . . . can find numerous hours a week, or a month, of almost any kind of program they would desire," Mr. Harris said. "And there is almost certainly more programming to meet their specialized needs, if they will exercise the type of selectivity they urge upon broadcasters, than they are apt to care to view."

The NBC-TV affiliate spokesman also said that licensing networks would not serve any useful purpose "and such licensing would be potentially very troublesome." He said licensing of networks would make it harder for an affiliate to cancel a network show because the FCC would "be approving the totality of what the networks offer, which would place upon each station some burden to justify a determination to carry less than the total offering."

Additional Educators' Views - The FCC "should fulfill the duty imposed on it by Congress . . . to examine total program content of stations and to correct, and if necessary, punish stations defaulting on all promises made in applications . . ." 12 prominent educators told the FCC in a statement and brief placed in the record.

Following a "Conference on the Public Interest" hosted by the Annenberg School of Communications, Pennsylvania U., the brief also: (1) urged Congress to appropriate sufficient funds for the FCC to monitor programs "and otherwise appraise the service of licenses" . . . (2) placed the primary responsibility for program content on broadcasters, and (3) maintained "that when the three conditions above are met, it is neither necessary or desirable that the FCC should impose specific times or percentages of total time devoted to public service programs."

In forwarding the brief to the Commission, Prof. Gilbert Seldes, director of the Annenberg School, stressed that the principles were adopted before FCC Chairman John C. Doerfer's proposal to the networks that they provide alternating public service programming (BROADCASTING, Jan. 25). Prof. Seldes attacked the chairman's actions as "pressure."

"Although there was no overt compulsion, . . . pressure was inherent in the situation," he charged. The broadcasters . . . have now accepted the principle of compulsory utterance. They have let someone tell them . . . what to broadcast. This is considerably worse than prior censorship, in my opinion."

Prof. Seldes said that further meetings are planned by the educators and arrangements were made for a continuing conference on public interest in broadcasting. Many of those signing the brief had testimony before the Commission programming hearing. Signers, in addition to Prof. Seldes, included: Prof. Eugene Goodwin, director, school of journalism, Pennsylvania State U.; Prof. Daniel Lerner, Massachusetts Institute of Technology; Dr. David R. Mackey, professor of communications, Boston U.; Prof. John Roberts, school of communications, Temple U.; Dr. Charles Siepmann, New York U.; Dr. Edward A. Walsh, division of journalism, Fordham U.; Dr. Earl Wynn, U. of North Carolina; and the following members of The Annenberg School faculty: Dr. Charles Lee, Dr. Patrick Hazard, Dr. Charles Hoban and Paul Blanshard Jr.

**FTC gets 3rd consent order in payola cases**

A Cincinnati phonograph record distributor told the Federal Trade Commission last week that it didn't know payola was illegal.

The A&I Record Distributing Co. said it had paid out about $800 in the last three years in payments to disc jockeys.

It said it was ready to sign a consent order and promise not to do it again.

This would bring to three the number of consent orders forbidding payola for the broadcasting of records.

**Rosen Case** - A consent judgment was signed by David Rosen Inc., Philadelphia record distributor, two weeks ago. The first was signed by RCA.

The order bars the Rosen firm from giving payola to anyone as an inducement to broadcast records in which it has a financial interest. It applies also to David Rosen and Joseph J. Wasserman, the company's president and vice president, respectively.

The Rosen firm was among the first nine payola complaints issued by the FTC. The first consent order was signed by RCA in mid-December about two weeks after the complaints were issued.

The Rosen order includes the same provision that was part of the RCA consent judgment; that respondents must not offer or give, without requiring public disclosure, any material consideration to anyone to induce him to broadcast their records. Public disclosure means, it is stated in the order, that the recipient must disclose to listeners when the record is played that this is in return for compensation received by him or his employer.

The agreement does not constitute an

admission by the Rosen Co., that it has violated the law.

A&I Case • The A&I reply was to a Jan. 12 FTC complaint charging that the firm had paid disc jockeys to play its records on the air without this knowledge being known publicly.

The company said it was not aware that it was violating any laws "by advancing small amounts of money to certain disc jockeys during the past three years." The payments, which totaled about $800 the company said, were considered promotion expenses and so deducted from income tax returns. The company said that the purpose of the payments was to persuade disc jockeys to play the records privately "and if found worthy to play them over the air."

There was no attempt to defraud the public by such payments, the company stated, since the amounts paid were so small that it could not possibly cause a disc jockey to play their records unless they were worthy of playing them on their programs.

More Complaints • The latest payola complaints were issued two weeks ago against the following record manufacturers:

Fame Records Inc. and Time Records Inc. (also known as Shad Records and Brent Music Corp., also Brent Records Inc.) both New York; and Vee-Jay Records Inc., Chicago.

The following distributors were also named:

A-1 Record Distributors Inc., All South Distributing Corp., both New Orleans; Superior Records Sales Co., Ideal Record Productions Inc. (also Ideal Record Productions of New Jersey Inc.) and Gone Recording Corp. (also End Music Inc. and associated company, Co-op Distributing Co.), all New York; Raymond Rosen & Co., Philadelphia, and Allstate Record Distributing Co., Chicago.

The complaints charged that the companies and their officers had given unidentified disc jockeys money or other valuable considerations to get them to play their records without the public being the wiser. This is an unfair trade practice, the FTC said. Answers were required in 30 days.

This brings to 37 the number of payola complaints issued against record manufacturers or distributors.

FCC trickery charge denied by L-O-F

Libbey-Owens-Ford Glass Co. has denied using camera trickery in its tv advertising.

The answer by the glass company was to a Federal Trade Commission complaint, issued last October, which charged that L-O-F and General Motors exaggerated the qualities of its automatic safety plate glass and disparaged competitors' automobile glass.

L-O-F denied making any false, misleading or deceptive representations in these advertisements. It added that the advertisements "were in all respects true and accurate statements, portrayals and demonstrations of the facts."

The glass company charged that the complaint is actually a private controversy. It maintained that the FTC has no jurisdiction in this private matter.

General Motors earlier filed a denial of the charges.

Among the alleged misrepresentations, according to the FTC, was the use of different camera lenses to brighten the distortion in sheet glass and minimize the distortion in L-O-F plate glass. Also charged was the use of a picture purportedly taken through L-O-F glass which, the FTC alleged, actually was taken through an open window.

NARBA treaty to be reported to Senate

The Senate Foreign Relations Committee approved unanimously last week (Tuesday) the long-pending North American Regional Broadcasting Agreement and the 1957 U.S.-Mexican treaty on use of broadcast frequencies. The committee ordered the documents reported to the Senate floor but the report still was being drafted late last night, it was understood, would not be reported until today (Monday), at the earliest.

No date has been announced for bringing the treaties before the Senate for ratification. Action, it was understood, will be in the form of a debate, followed by recorded yea or nay votes. The committee action followed promptly a favorable report last Monday (Feb. 1) to the parent group from a special subcommittee headed by Sen. Wayne Morse (D-Ore.). The Morse group held its one-day hearing on the treaties the previous week (Broadcasting, Feb. 1).

Two southwestern v's authorized by FCC

The FCC granted construction permits for two new television stations, it was announced Thursday (Feb. 4). Cps went to the Electron Corp., Douglas, Ariz., and to Roswell Telecasting Co., Roswell, N.M. Electron is a wholly-owned subsidiary of Ling-Altec Electronics Inc. (James J. Ling, chairman) and will operate on ch. 3 with power of 0.477 kw and antenna height of minus 20-ft. above average terrain. Roswell Telecasting will operate on ch. 8 with power of 0.355 kw and antenna height of 100-ft. Sole owner of the Roswell permit is William Sam Evans, also in real estate.

In other Thursday broadcast actions, the FCC granted a cp to KPAC-TV (ch. 4) Port Arthur, Tex., to change its transmitter location from about 16 miles north of Port Arthur to a site about 27 miles northeast of the city and 32 miles northwest of Lake Charles, La. The station also was given permission to change the type of transmitter and antenna system and increase antenna height from 700-ft. to 900-ft.

Brownwood Television Cable Service Inc., Brownwood, Tex., was granted a new tv translator station on ch. 74 to repeat programs of KRBC-TV (ch. 9) Abilene, Tex.

Government briefs

Review opposed • The FCC and the Dept. of Justice have filed an opposition to the petition by Aeronautical Radio Inc. and other aviation interests asking the U.S. Supreme Court to review a lower court ruling which upheld the right of the FCC to revise its spectrum allocation authority (Broadcasting, Jan. 18). The appeals court held last November that Sec. 305 of the Communications Act gives the President prime power over the radio spectrum.

It was in response to a White House request that the FCC in 1958 reallocated a number of frequency bands from civilian to government use, among them one for radionavigation.

Grant stayed • The FCC Thursday (Feb. 4) stayed a Dec. 2, 1959, grant to KVOA-TV (ch. 4) and KOLD-TV (ch. 13), both Tucson, Ariz., on protest and petition for reconsideration by KGUN-TV (ch. 9) that city. KVOA-
OK, KLM...WHAT’S SO SPECIAL ABOUT YOUR JET?

All sorts of things. Mainly, the friendly things that happen inside the KLM DC-8.

FRIENDLY? And then some! Everybody in the KLM family knows just how to make flying fun for you. Unexpected little pleasures pop up all along the way. Real china at dinner. Shaving and vanity kits. Your own personal towels. Many other welcome touches.

IS IT FAST? COMFORTABLE? Well, the KLM DC-8 cruises at close to 600 mph. Inside it’s so quiet you can hear a whisper. Vibration-free, too. And seats perfectly custom-contoured.

WHEN CAN I GO? Anytime from April 1st on. Make your reservations to Europe now and — Whoosh! Wow! Go! — on the KLM DC-8! See your travel agent (professionals plan better trips) or KLM Royal Dutch Airlines.

OFFICES IN: ATLANTA, BEVERLY HILLS, BOSTON, CHICAGO, CINCINNATI, CLEVELAND, DALLAS, DENVER, DETROIT, HOUSTON, INDIANAPOLIS, KANSAS CITY, LOS ANGELES, MIAHI, MILWAUKEE, MINNEAPOLIS, NEW ORLEANS, NEW YORK CITY, PHILADELPHIA, PITTSBURGH, ST. LOUIS, SAN FRANCISCO, SEATTLE, SYRACUSE, WASHINGTON, D.C.
Low-cost operation

A Washington, D.C. applicant for an fm station learned last week that it didn't pay to show the FCC how inexpensively he plans to operate.

Lorenzo W. Milan, president of Paduan Foundation (an educational organization) took the trouble to break down his first year operating expenses for the FCC on his application for 91.1 mc and received a 309 (b) letter for his trouble.

Mr. Milan reported he plans to set aside $1,600 for studio rental and $11,000 for salaries to be paid to six employees. And this, the applicant said, "is entirely accurate."

"I plan to hire three full-time staffers and three part-time, and I myself will receive no salary for three years," Mr. Milan said. "However, the Commission has questioned this. I guess they can't believe people will work for so little. But I'm looking for staffers who are dedicated and care about creative programming."

The Commission, Mr. Milan said, also raised its eyebrows over his proposed programming. "They received a letter complaining that I propose to feature 'the worst type of beatnik broadcasting.' We're going to feature language that; BBC tapes, and good music. If that's beatnik, we're guilty," he said.

"One more point," Mr. Milan said. "We have found a place for our studio that will cost us only $1,600 a year rental. It's the most dismal place in town, but it's cheap."

TV had been granted an application to increase power, change studio location and transmitter site, change type of transmitter and antenna and increase antenna height from 30 ft. to 3,680 ft.

KOLD-TV was granted an application to move its transmitter to the same location as KVIA-TV, increase power, install new transmitter, change type of antenna and other equipment and increase antenna height to 3,750 ft.

Denver petition • KIMN Denver, Colo., has filed a petition with the FCC protesting against the opposition of the FCC's Broadcast Bureau for reconsideration in that station's revocation proceedings. In its petition, KIMN said that the bureau "apparently mis-interpreted" the station's contention that the Communications Act provides no basis for revoking a respondent's license. KIMN maintains that it made no such contention. What the station claims to have said is that the FCC may revoke a station's license for "wilful violation of the Act, or of the Commission's Rules. . . ." The point that is challenged, the respondent said, is "the assertion of power to revoke . . . if a program or series of programs is determined by the Commission after the fact, to be in bad taste or otherwise not desirable."

Providence grant • Radio Rhode Island Inc., applicant for a new am station in Providence, R.I., was awarded an initial decision two weeks ago by FCC Hearing Examiner H. Gifford Irion. A merger agreement between Rhode Island Radio, Golden Gate Corp., and Camden Best. Inc., applicants for similar facilities in Providence, led to the decision. Under the terms of the agreement, Golden Gate will purchase 41 ½% of Rhode Island stock and Camden, 16 ½%. Bristol County Broadcasting Co., which had applied for facilities in Warren, R.I., is being held in default for failure to prosecute its application. Rhode Island Radio plans to operate on 990 kc, 50 kw-D.

Lamb case reinstated

A half-million dollar lawsuit against Edward Lamb, industrialist and broadcaster (WICU-AM-TV Erie, Pa.) has been reinstated by the U.S. appeals court in Toledo. The suit, by one-time Lamb Washington attorney Russell M. Brown, was dismissed by a lower court last year. Mr. Brown is suing for alleged non-payment of fees for representing Mr. Lamb in the 1954-57 tv station renewal fight before the FCC (Broadcasting, May 18, 1959).

THE MEDIA

IS TAPE THE SAME AS FILM?

Scenic artists say 'yes,' networks say 'no'

A labor-management dispute regarding the use of video tape has erupted between the three tv networks and United Scenic Artists Local 829 in New York. The union represents scenic designers, scenic artists and costume designers. The group served notice that it considers vtr as coming under motion picture rules, and rates, rather than under its television contract. It demands the issue be submitted to arbitration.

The networks, in a joint petition filed with the New York State Supreme Court last week, disputed this contention and asked the court to stay submission of the issue to arbitration.

The union has a contract with the tv networks which prescribes pay scales for tv work. It has another contract with motion picture producers which has different scales for film. There is no contract with the networks covering film. In the past, when the networks have used film, they have paid at the rate prescribed in the motion picture contract. The union wants those rates to apply to video tape, BBC tapes, and film. The networks' petition to the court says that during negotiations for the current contract, which runs from April 1, 1958, to March 31, 1961, the networks had specifically refused to permit an exception for video tape, and that the union had signed the contract without it. Thus, they contend, the issue is not open to contest during the contract period. The union contends, however, that its counsel, in a letter addressed to the networks at the time of the current contract's signing, specifically reserved the right to debate the vtr question. This letter has no legal bearing on the contract, say the networks.

Under the television contract, scenic artists, for example, are paid $246.10 for a 40-hour week. Under the motion picture contract, they get $256.25 for a 35-hour week. Costume designers receive $183.67 for a 40-hour week under the tv contract, $202.00 for a 35-hour week under the movie contract.

The three networks are represented in this action by Emanuel Dannett of the New York law firm of McGoldrick, Dannett, Horowitz & Golub. The union is represented by Erwin Feldman. The networks' petition is scheduled to be heard Feb. 16.

TelePrompTer catv

TelePrompTer Corp., New York, Thursday (Feb. 4) announced the acquisition of community television systems at Farmington, N.M., and Rawling, Wyo., for cash and TelePrompTer common stock totaling more than $1 million. TelePrompTer expanded into the catv field last November when it purchased a system in Silver City, N.M. Knowledge of the company's plans to purchase additional systems was first learned last month when it issued a prospectus in connection with a stock offering (Broadcasting, Jan. 25). Approximately 5,000 subscribers are served by the two systems.
Remington really takes the work off her hands... SILENTLY

Thanks to the exclusive “pressure printing” principle of the Remington Noiseless, the merest tap of finger tips against the keys assures both beautiful typing and quiet. The Noiseless enables typists to turn out volumes of distinctive work with 85% less noise... eliminates the clack and clatter so annoying to the typist and people nearby.

MAGNUSON ADDRESSES TVB
Believes tv will handle its own problems

"We who are in government feel you will measure up" to your responsibilities, Sen. Warren G. Magnuson (D-Wash.), chairman of the Senate Interstate & Foreign Commerce Committee, told broadcasters and advertisers attending the Washington showing last Thursday of "The Exponential," the sales promotion presentation of the Television Bureau of Advertising.

Regarding the uncovering of abuses in tv, Sen. Magnuson said there is a "great feeling" in Congress that broadly expanding economy. That carries with the responsibility "that you do so in good taste," he said. Later he observed, "When you intrude into the American home, you must do it in good taste. You must do it honestly. You must not be carried away by a portion of this film which pointed out that if your competitor does something, you have got to do something too."

"Look Twice" • Senator Magnuson attributed some of the abuses in advertising to the pressure of time.

"We are part of the nation's economy," Senator Magnuson said. "Without advertising, I don't think our nation would be the great power in the world it is today."

The TVB showing was narrated by TVB President Norman E. (Pete) Cash and Vice President-General Manager George G. Huntington. They were introduced by Board Chairman Otto P. Brandt, vice president, broadcast division, King Broadcasting Co., and station manager of KING-TV Seattle.

Judge rules newscasts did not prejudice jury

Some 30 Minneapolis-St. Paul newsmen, including 23 broadcasters, were hailed into district federal court there Feb. 1 in connection with the trial of an alleged white slaver.

The defendant, Isadore Blumenfeld, alias Kid Cann, had requested a change of venue, charging that the broadcasters and newspapermen of the area had prejudiced the local citizens against him and had "slandered and libeled" him for the past six years in news reports. Judge Gunnar H. Nordby ruled that newsmen could not be forced to reveal their sources in testimony, but the defense subpoenaed all news scripts, tapes, electrical transcriptions, etc. of newscasts dealing with Mr. Blumenfeld. Newsmen and reporters were not called to testify.

Larry Haeg, general manager of WCCO, testified that the only material his station had retained was news scripts, as required by the FCC. He said a girl had been working a week fulltime to compile the material for the trial. F. Van Konynenburg, vice president and general manager of WCCO-TV, submitted scripts of newscasts and film clips. Paul R. Hoffman, vice president and general manager of WTCN-AM-TV, told the court that, although they had news scripts the subpoena of such material was "burdensome and unreas-
Continental sets the pace in commercial broadcast transmitters!
Pioneer user of semi-conductors in high voltage power supplies, Continental Electronics now builds the only 50 KW commercial transmitter using silicon rectifiers as standard equipment.

A handful of silicon rectifiers replaces a giant-sized vacuum tube. This reduces space requirements inside the transmitter...permits additional improvements in other components. Sound...simple...compact...Continental Electronics 50 KW transmitters are providing increased reliability to several major stations in the United States.
sonable.” Judge Nordbye ruled that it would not be necessary for WTCN to produce its complete files. He asked the counsel for the defense if the attorney had offered to pay the station for the cost of producing such records. He had not.

On Wednesday, Feb. 3, Judge Nordbye ruled that the news stories broadcast and in the papers were not prejudicial to the defendant and denied the request to change the trial site from Minneapolis to Chicago. He said, “If you can’t find 12 jurors among the million-and-a-half people in the Twin Cities area, we’ll go to the four corners of the state to find them.”

POLICY DIRECTIVE
NBC sets standards for children’s shows

Television’s responsibilities to children were stressed in an NBC statement sent last week to all production organizations contributing to the network’s programming. This latest in a series of policy directives affecting the network’s programming also was issued by James A. Stabile, NBC vice president in charge of standards and practices.

The statement and a letter signed by Mr. Stabile were accompanied by copies of the NBC radio and television broadcast standards and the Television Code of the NAB. Recipients were network program executives, producers, directors and unit managers, as well as outside executive producers, and directors.

“Television has the special responsibility of reflecting the realities of the world at large in a way that is beneficial to young viewers,” Mr. Stabile said, emphasizing the need for care in the proper treatment of sex and violence in programs reaching a family audience.

Sensational Aspects Out • According to the statement, “producers must use great care in determining the degree and intent of conflict—not only in the actual content of a program but in the ‘teaser’ and ‘trail’ highlights that are seen out of context . . . anything that approaches the sensational is unacceptable.”

Specifically, the statement points out that showing an actor firing bullets into a victim already dead is “entirely superfluous, not to say morbid.” Also, a fist fight that extends into a prolonged beating and close-up of the facial injury inflicted are beyond the needs of establishing conflict and border on the sadistic. “Such extremes of violence will not be used on NBC programs for children,” it was declared.

In treating the relationship between the sexes, the statement added, there is reasonable acceptance of the portrayal of “affection between man and woman—this need to touch one another and, in so doing, to demonstrate love.” The leer, the brutal set of the jaw, and the intent to possess as the symbol of power and domination, have no place in programs for a family audience, the statement ruled.

Asking for full cognizance of these standards on the part of all persons engaged in the creation of NBC programs, Mr. Stabile said in his letter “I seek your personal attention to a responsible implementation and maintenance of both the spirit and the letter of these standards.”

Consultant expands

Broadcast Services, Lewisburg, Pa., standard am station planning and management consultant service, has expanded to include three new phases of operation, according to Vice President Richard A. Nelson.

The new services are complete tv station planning, am and tv program production and formation of a tape network for small am stations. A film network for small tv outlets is also being planned. The tv station planning service, for both uhf and vhf stations, provides pre-opening sales promotions and stresses availability of uhf converters, antennas, etc., to provide those stations with sufficient viewers. The majority of

Special guest star • A children’s show on KING-TV Seattle took on a bizarre Dragnet aspect when a burglary suspect broke into the building adjacent to the studio. Seattle police, alerted by a passerby’s call, swarmed into the studio where Wanda Wanda was being taped. Al Smith, the director, interrupted the show and trained lights and cameras on the fire door where the police entered the other building. The show was underway again 15 minutes later when police marched the handcuffed man across the set, to the surprise of the performers, but not of KING-TV cameramen who taped the entire sequence. Then the entire police capture episode was telecast by the Seattle tv station.

The fee is payable after the station begins telecasting. The program department will provide complete packages, adaptable to the station’s area. For further information, write P.O. Box 227, Lewisburg, Pa.

Youth fitness drive

NAB President Harold E. Fellows and some 80 others in radio-tv have promised support of the President’s Council on Youth Fitness. At a Feb. 1 New York meeting, the group was asked to help promote National Youth Fitness Week the first of May.

Mr. Fellows appeared on a panel with Don Tatum, vice president in charge of Walt Disney Tv Productions, and writer-producer Robert Alan Arthur of the NBC-Tv Sunday Showcase. Broadcasters were asked to support the slogan, “Fitness can keep U.S. strong.”

Keeping close tabs

Balaban Stations (WIL St. Louis, WRIT Milwaukee and KBOX Dallas) have instituted what they refer to as a “plan of program and commercial control.” The plan includes monitoring all three stations to detect any deviations from management-prescribed practices and extraneous comments by air personnel. A researcher is employed by each station to monitor programming from a location away from the station.
and, in effect, to log everything broadcast.

Reports are made directly to the director of operations or the assistant to the vice president. Balaban Stations feel this will help to ensure adherence to the NAB code, FCC and station policy and commercial controls established by the stations, advertising agencies and the FTC. In addition the plan serves as a check against possible payola by making sure that every record played is listed according to the musical programming plan.

**Hurleigh questions newspaper fairness**

Will newspapers provide the same amount of space to their own derivations as they have given to broadcasters' problems?

This question was posed by Robert F. Hurleigh, MBS president, in a talk before the Minneapolis Sales Executives Club last Thursday (Feb. 4). He pointed out that the FTC has served notice that it will "pick on newspaper ads, too." Mr. Hurleigh acknowledged that most of the complaints to date have cited TV commercials. He said "The newspaper media men are having a field day."

He insisted that substitutions made in commercials—shaving cream for whipped cream, for instance—were not intended to deceive viewers but were necessary because of certain conditions. In this instance, he said, whipped cream would not stand up under hot klieg lights. He claimed that there are needs for substitutions in the entire advertising field, and added:

"Yet when it's done by advertisers in the broadcast field—no matter how well intentioned they may be—you hear the rising roar—'phony!' Use the same technique for color transparencies for slick magazine ads—and everybody says 'beautiful, isn't it?'"

**Media reports**

**Scholarships** • WSOC-TV Charlotte has announced it will award two scholarships, valued at approximately $100, to high school students for the 10th annual North Carolina High-School Radio-TV Institute. Any student who is a resident of the state and has completed the 11th or 12th grade is eligible to receive the awards, which will pay registration, tuition, medical and board fees for the two-week session June 12-26. Competition for the scholarships will be conducted on WSOC-TV's Kilgo's Kanteen show with an essay contest (on a subject related to broadcasting) beginning in March.

**Lots of spots** • Broadcast Time Sales,
New York station representative reports a 51% billing increase for 1959. Carl L. Schuele, BTS president, points out that the comparison is based only on stations represented both in 1958 and '59. Samples in the representative's national success file; WEAM Arlington, Va., 53% above 1958; WVNJ Newark-New York, up 61%; WDKC Cleveland, also up 61%, and the Thoms North Carolina Group, up 63%.

Back in fold • KSUB Cedar City, Utah, has rejoined CBS Radio after leaving the network a year ago. The 1 kw outlet (590 kc) was an NBC affiliate in the interim.

U. of Pa. offer • The U. of Pennsylvania's Annenberg School of Communications is offering to experienced professionals in the broadcast, print or film media a number of industrial fellowships of up to $6,500 for a year of study. These resident fellows may pursue an individualized M.A. program with work in other disciplines at the university or may present a project for the approval and supervision of the Annenberg faculty.

Radio interns • Leo A. Jylha, station manager of WBCM Bay City, Mich., has announced the inauguration of an internship program by and for high school students. Over 20 students will participate in the program and will engage in all facets of station operation. The program is part of a high school radio course.

Powerful plans • WJBP-TV Fairmont-Weston - Clarksburg, W.Va., which claims it will be one of the most powerful stations in the country and the biggest in the state, has set April 1 as broadcast date. The ch. 5 station, which will operate with 100 kw, has invested some $250,000 in new equipment from General Electric, including complete color facilities, according to Earl Platt, general sales manager of GE's electronics division. A 500-foot tower will be constructed on a 1,700-foot mountain at Jane Lew, W.Va.

Anniversary marked • Station employees and their families, executives of the Forward Group of outlets and account executives of Branham Co. were on hand to help KGLO-AM-FM Mason City, Iowa, mark its 23rd operational milestone there Jan. 16-17. Six Branham account executives from New York, Chicago and Minneapolis joined 70 employees and their wives or husbands, plus representatives of other Forward stations to help celebrate the anniversary.

WKYN signs on • A new station featuring all-English language programming is on the air in San Juan. P.R. WKYN operates on 630 kc with 1 kw. Julio Morales is president. Address: P.O. Box 816, San Juan (Rio Piedras), P.R. Phone: 6-4248.

New and reunited • ABC Radio has announced five new affiliations, including two stations which rejoined the network. New affiliates are WWIZ Lorain, Ohio; KDFX North Little Rock, Ark. and WICO Salisbury, Md. Returning to the fold are WALB Albany and WRLD West Point, both Georgia. Earl Mullan, manger of ABC Radio station relations, announced also that WPWA Providence-Pawtucket, formerly on daytime only basis, has begun full-time operation with 1 kw-D and 500 w-N.

Pittsburgh goodwill • WQED (TV) Pittsburgh tv station, has received a gift of $1,000 towards its tape fund in the name of KDKA-TV, that city, and the use of eight feature films, free through courtesy of WTAE (TV) there. The Junior League of Pittsburgh donated the cash as thanks to KDKA-TV for telecasting its annual charity ball. The tape fund, which now has $15,000, will be used to preserve WQED's seventh and eighth grade science series for use by additional classrooms. The films donated by WTAE are J. Arthur Rank productions under contract to that station. The educational outlet intends to showcase them on its Famous Features series with commentary by a Carnegie Tech professor.

Music station • WFLM (FM) Fort Lauderdale, Fla. signed on the air Jan. 30 with a music format. The station has conducted a survey that reveals 30% fm set penetration in its county, composed of the top-income bracket in the county. The new station operates on 105.9 mc; its studio and transmitter are located at 305 South Andrews Ave. Harold Hemburg, who has interests in WFIN Findlay, Ohio and WCSI Columbus, Ind., is owner.

The people speak • KIMA-TV Yakima, Wash., in an effort to establish better programs and policies, is starting a 200-member television advisory council to be composed of local viewers, according to Thomas C. Bostic, vp and general manager of KIMA-TV and mayor of Yakima. He said the station will depend upon the council's opinion "frequently and heavily." Local citizens representing a wide variety of occupations will be invited to serve on the council.

Home-and-away • All 1960 baseball games of the Louisville Colonels (American Assoc.) will be broadcast by WAVE Louisville for the fourth consecutive year. Home games will be aired live. Away games will be recreated.
NAB board to meet in D.C.

NAB will appraise the impact of its new concept of FCC program control at a delayed board meeting to be held March 9-11 at the Statler-Hilton Hotel, Washington. Preceding the meeting will be two days of board committee sessions.

The association submitted its new version of government regulation Jan. 26 at the FCC hearing on the whole matter of Commission powers (Broadcasting, Feb. 1). At this hearing Commission members and counsel sharply questioned two NAB witnesses—President Harold E. Fellows and Whitney North Seymour, noted constitutional lawyer.

Originally the board had planned to meet Jan. 27-29 at Palm Springs.

Calif. The date was deferred because of the FCC appearance. The site was changed because the focused heat of government and legislative groups has confronted the broadcasting industry with its toughest Washington crisis in many years. The board held an emergency meeting last Dec. 4 to consider this crisis. Teeth were added to the TV Code in line with quiz-ripping and payola problems.

Routine budget and operating problems face the committees and board along with the matter of coping with scandal charges that confront the industry.

The TV Board will meet March 9; Radio Board, March 10; Combined Boards, March 11.

Etv success • WENH (TV) Durham, N.H., etv station, has conducted a survey of teachers in the 92 schools in that state which carry its third-grade science program. More than 90% of the teachers felt that the material was of a high calibre and ranged student interest from good to excellent. Two-thirds of the teachers were using tv in the classroom for the first time. More than 130 New Hampshire schools are now using WENH in-school programs.

Fm owners study • WLDM (FM) Detroit, has sponsored and produced “Fm Ownership Study,” a survey of its market. The survey, by Independent Research Measurements of East Lansing, Mich., shows that 41.4% of the area’s householders say they can receive fm. The study includes facts on automobile ownership among fm household and the size of fm households as compared with non-fm, etc.

New etv workshop • Aided by a gift of equipment and technical assistance from CBS Labs, the Stamford (Conn.) Board of Education has opened an educational tv workshop in that city. The installation, in one of the public school buildings, consists of a modern studio and control room fully equipped with closed circuit tv cameras and auxiliary equipment. Workshop will be used by the 19 schools of the Stamford school system.

MBS' news awards • Mutual plans to provide recognition to affiliated stations which supply on-the-scene news items to the network under its “Operation Newsbeat” system. The network will present trophies and prizes each month to the first-prize winner and two runners-up, with awards going to news- men and stations.

WAQE-FM signs on • WAQE-FM Baltimore started its broadcast life Saturday (Feb. 6) at 6 p.m. with a dedication hour. The station will simulcast WAQE programs from sign-on until 6 p.m. During the evening hours, the station will program separately. The program scheduled reports a number of programs Monday through Friday nights but in different time slots.

RAB survey • Radio Advertising Bureau is conducting a survey among stations to determine the percentage of local radio advertising for each quarter of 1960 and to document the relative importance of each local advertising category to radio. A similar study in 1959 showed that an estimated $393,9 million was invested in local radio. Leading categories were new and used car dealers, supermarkets, department stores, furniture stores and appliance dealers.

• Rep appointments
  • WGAT Gate City, Va.-Kingsport, Tenn.: Gene Bolles Co., N.Y.
  • KSBW-TV Salinas and KSBY-TV San Luis Obispo, both California, to Elisabeth M. Beckjorden, N.Y., as network and personal representative.
  • WKAT Miami, Fla.: Gill-Perna Inc. as national representative.
  • KUSN St. Joseph, Mo.: Venard, Rintoul & McConnell, N.Y.

BROADCASTING, February 8, 1960
Herbert, Judis, Biow, Mogul buy 2 stations

Ira Herbert and Bernice Judis, one-time operating chiefs of WNEW New York whose program innovations a decade ago gave them national prominence, are back in broadcasting.

The Herberts (Miss Judis is Mrs. Herbert) and their associates have bought WYDE Birmingham, Ala., and WAKE Atlanta, Ga., from the Bartell Broadcasting Corp. for $1,025,000.

Associated with the Herberts are Milton Biow, board chairman of the Biow Co. (advertising agency) at the time of its dissolution in 1956, and Emil Mogul, chairman of Mogul, Williams & Saylor advertising agency.

Mr. Herbert will be the principal stockholder in the buying group. The purchase is subject to FCC approval.

The Herberts for many years ran WNEW, considered one of the nation's leading and most successful radio stations. Under the Herbert-Judis management it pioneered in the music-news format which in recent years has become a standard format for radio stations. The Herberts sold their 20% in WNEW when the station was taken over by Richard D. Buckley and associates in 1954. The purchase of WYDE and WAKE marks their return to broadcast-

ing after six year absence.

The Bartells bought WYDE in 1957, paying $335,000 for the 10 kw day, 1 kw night facility (on 850 kc), and WAKE in 1955, paying $100,000 for the 250 w outlet (on 1340 kc). Both stations are independent.

Edwin Tornberg & Co. was the broker in the transaction.

Changing hands

ANNOUNCED • The following sales of station interests were announced last week: subject to FCC approval:

• KSLA-TV Shreveport, La.: Sold by Shreveport Television Co. to KSLA-TV Inc. for $3,350,000. New owners will include Shreveport Journal (Douglas A. Attaway, president-publisher), 55%; Mrs. Eugenie Booth George, 10%; Mrs. Dolores Martillie George LaVigne, 10%, and the remaining 25% distributed among local stockholders including William B. Linam who will remain as station manager. The station is now owned 43% by the estate of the late Don George, with Ben Beckham Jr., 25%; Henry E. Linam, 25% and W. C. Henderson, 7%. KSLA-TV began operating Jan. 1, 1954 under interim ownership of three applicants preceding a comparative hearing for the channel. The ch. 12 outlet is affiliated with CBS. Transaction was handled by Blackburn & Co.

• WYDE Birmingham, Ala., and WAKE Atlanta, Ga.: Sold by Bartell Broadcasting Corp. to group headed by Ira Herbert and including Bernice Judis (Mrs. Herbert), Milton Biow and Emil Mogul, for $1,025,000. (See adjacent story, covering sale).

• KULA Honolulu, Hawaii: Sold by Jack Burnett to Stuart Investment Co. for $500,000. Stuart owns KFPO Lincoln and KRGI Grand Island, both Neb.; KMNS Sioux City, Iowa, and KSAL Salina, Kan. Mr. Burnett bought KULA in 1958 for $200,000. Station is 10 kw on 690 kc. Brokers were Lincoln Dellar & Co. and R. C. Crisler & Co.

• WKAZ-AM-FM Charleston, W.Va.: Sold by Kanawha Valley Broadcasting Co. to Hartley L. Samuel for $360,000. Mr. Samuel, former NBC and CBS executive and one-time general manager of WABC New York, owns WDLB Marshfield and WWIS Black River, both Wis. He recently sold KODY North Platte, Neb. WKAZ, which has interlocking ownership with WSAZ-AM-TV Huntington, W.Va., (Huntington Herald-Dispatch and Advertiser), will retain its quarters with WSAZ in Charleston and will continue to be sold in conjunction with WSAZ through The Katz Agency. It was bought by its present owners in 1957 for $150,000, at which time Kanawha disposed of its WGKV Charleston for $90,000. Station operates on 950 kc with 5 kw day and 1 kw night. Broker was Blackburn & Co.

• WGTC Greenville, N.C.: Sold by Greenville Radio Co. (H. W. Anderson, president) to Mr. and Mrs. A. W. Lewin
for $140,000. Mr. Lewin is former chairman of Mogul, Lewin, Williams & Saylor, New York advertising agency. Mrs. Lewin, known professionally as Ruby Graham, is former McCann-Erickson executive and is presently fashion editor, Philadelphia Inquirer. J. T. Snowdon Jr., present commercial and sales manager, is slated to be named general manager after FCC approval of transfer. Broker was Edwin Tornberg & Co. WGTC is 5 kw daytimer on 1590 kc.

• WRDW-TV Augusta, Ga.: Sold by Southeastern Newspapers to Friendly Group (Jack N. Berkman, president) for over $1.5 million.

The Friendly stations are WSTV-AM-FM-TV Steubenville, Ohio; WPIT Pittsburgh, Pa.; KODE-AM-FM-TV Joplin, Mo.; WBOY-AM-TV Clarksburg and WPAR and WAAM (FM) Parkersburg, both West Virginia; KMLB-AM-FM Monroe, La.; WSOLO Tampa, Fla.; WHTO-AM-TV Atlantic City, N.J., and 30% of WRGP (TV) Chattanooga, Tenn. Southeastern Newspapers bought the ch. 12, CBS-affiliated station in 1956 for $1 million.

APPROVED • The following transfer of station interests was among those approved by the FCC last week (for other Commission activities see For The Record, page 96.)

WGAY: new call, format

WGAY Silver Spring, Md. (Washington suburb) has changed call letters to WQMR and has switched to a “quality music” format, according to Connie B. Gay, president and board chairman. His announcement states that “no record titles or artist’s names will be announced; no loud or offensive commercials will be aired; no questionable sponsors will be accepted” and that “all extraneous talk will be eliminated—except the minimum required by the FCC.” Special reports for government employees, a feature of WGAY for several months, will be retained by WQMR, Mr. Gay said. A daytimer on 1050 kc, WQMR has been equipped with a high-fidelity sound component called “Concert Hall Sound.”

Meanwhile, companion FM station WSHO (FM), which airs country and western music, has changed its call to WGAY (FM).

South Bend... Indiana's New Capital City is covered by WSBT-TV

South Bend, Indiana is in the midst of a vigorous growth cycle. Rising per household incomes (15th nationally) have attracted new capital investment for the construction and operation of supermarkets, department stores and shopping centers. Industry, too, continues to come into South Bend, thereby adding more stability to this industrially diversified market area.

There's no doubt about it—South Bend families have money to spend. Last year, for instance, nearly $70 million was spent for food in South Bend's Metro Area alone!

One of the best ways to stay competitive and to support your sales program in the 14-county South Bend market, is to use its dominant station... WSBT-TV. With a full schedule of CBS shows and popular local programs, WSBT-TV averages 47.8% share of sets in use, sign-on to sign-off! This is real impact—the kind that leads or supports a good sales program. You can get all the facts about WSBT-TV, its programs and its market from your Raymer man or this station.

* CAPITALIZE ON WSBT-TV'S POPULAR LOCAL SHOWS: A few availabilities remain on "Homemakers Time With Hazel Burnett" (9:00-9:30 A.M. daily), one of the nation's leading shows for housewives.

WSBT-TV...SOUTH BEND, INDIANA'S DOMINANT STATION

Press release

[Image of WSBT-TV station]
WPIX (TV) film editor cuts editing time 50%

A 50% saving in the time it takes to ready a half-hour film show for broadcast has been achieved by WPIX (TV) New York. A battery of five new film editing machines (dubbed 'Pixieolas') prepare some 85 shows each week. Developed by William Cooper, WPIX film manager, in cooperation with the Camera Equipment Corp., New York, the station's first Pixieola for 35mm prints was planned to enable an operator to inspect, edit, insert commercials, view for scratches, framing, sound sync, measure footage and take up on a projection reel—all in one operation. Since the experimental model was completed several months ago WPIX has added three more units for 35mm film and one to edit 16mm film shows.

While a number of other local TV stations have expressed interest in the editing machines, Camera Equipment Corp. confirmed last week that one has already been installed at WNTA-TV; one will be completed this week at WRCA-TV, and one is nearing completion at WABC-TV.

Because of its unusually heavy volume of syndicated half-hour programs in 35mm, Mr. Cooper said, WPIX was in need of a fully automatic machine that could take care of all steps of pre-broadcast inspection and film preparation in one unit. Pixieola's new replacement of conventional projection room and footage counter techniques has reduced the time from a possible four hours to about two hours for a half-hour show, Mr. Cooper said. The cost for each unit installed after the experimental machine was finished came to about $1,750, which is only half the cost of the standard movieola editing machine previously used, he said. The Pixieola also can take up to 4,000 feet of film, double that of a movieola unit.

Tube sales rising

Color television picture tubes will be an increasingly significant part of a generally bullish tube market this year, RCA's Douglas Y. Smith, vice president and general manager of the electron tube division, is confident. For the U.S. tube business he sees a $900 million year.

Mr. Smith pins his hopes on the 1959 receiver record, and current sales, which are running 30% ahead of last year. He voiced his optimism on an inspection of the RCA plant in Lancaster, Pa., one stop on a tour of RCA installations around the country.

Loeb, Wrather buy control of Jerrold

Two leading broadcast figures have bought controlling interest in Jerrold Electronics Corp., Philadelphia, a major manufacturer of community antenna system equipment and the owner and operator of nine community antenna television companies.

John L. Loeb, senior partner of Carl M. Loeb, Rhoades & Co., New York investment firm, has bought 322,000 shares of common stock from Milton J. Shapp, president of Jerrold, and his wife.

Jack D. Wrather, president of the Wrather Organization, has taken options to buy 222,000 shares of Jerrold, also from Mr. and Mrs. Shapp.

The Shapps jointly own 644,025 shares.

Jerrold has 1,269,500 shares of common stock outstanding. It is traded over-the-counter and was quoted as $7 bid and $7.50 asked last week.

Mr. Loeb is paying $6.50 per share for his 322,000 shares; Mr. Wrather will pay $9.50 for his 222,000.

The announcement of the acquisitions was made by Mr. Shapp last week. He stated that he will remain as president of the firm he founded 12 years ago, and that no changes in management or personnel are contemplated.

The Loeb interests include personal minority stockholdings in WFTL Fort Lauderdale, Fla., and in WBWM (FM) New York, the latter through Muzak Corp. in which Mr. Loeb has an interest in association with Mr. Wrather. Carl M. Loeb, Rhoades & Co., holds interests mostly for clients in the Boston Herald-Traveller Co. (WHDH-AM-FM-TV Boston), Crowell-Collier Publishing Co. (KFWB Los Angeles, KEWB San Francisco, and KDBW St. Paul, Minn.); Loew's Inc. (WMGM New York); Townsend Corp. of America (KNOK Fort Worth and WKDA Nashville); Metropolitan Broadcasting Corp. (WNEW - AM - FM - TV New York, WNTG [TV] Washington, WP-AM-FM Philadelphia, KVOV [TV] Stockton, Calif., WTVP [TV] Peoria, Ill. and pur-

**Closeup of the Pixieola**

The eight principal components:

A—Completely modified Ceco action viewer, core of unit.
B—Master control and control for two opposing torque motors for feedup and rewind reels.
C—Directional and speed controls, designed by Magnetic Amplifiers Inc. The rheostat varies the speed of the film from stop position to 15 frames per second in either direction.
D—External amplifier for easy servicing of the tubes of the sound reader. Phono jack enables whole battery of Pixieolas to operate simultaneously and silently.
E—On-off switch for torque motor, enabling each reel to be handled independently.
F—Torque tension control, enabling easy switch from small to large reel.
G—Modified footage counter.
H—Dimmer switch for light source.
Technical topics

Expansion • Ground has been broken for a new Glendore, Calif., plant for Conrac, manufacturer of Fleetwood tv receivers for the home and video monitors for tv stations and industrial closed circuit tv. With total floor space of 35,000 square feet, the new Conrac building will be 50% larger than the previous one, which was destroyed by fire last summer. It is scheduled for completion May 15.

Wide angle optics • Traid Corp., Encino, Calif., has developed a lens with 165° field of view, designed especially for mating with the Photo-Sonics 16mm-18 high-speed camera. The Traid 120 is available for applications where up to 1,000 frames per second are desired with wide angle. According to the company, wide-angle optics were hitherto limited in use to cameras with a speed of 200 frames per second or less.

Fm hits the road • An fm tuner for automobiles which operates in any car with a 12-volt battery through any regular am car radio and speaker is manufactured by Eric Engineering, Santa Monica, Calif. Although it will operate through any am aerial set at 30 inches, an accessory fm antenna of that length is available. The unit is compact and is claimed to combine high sensitivity with low noise. Price: $79.95.

Storage units • Neumade Products Corp., N.Y., manufacturer of standard film storage units now in use in both theatres and tv stations, offers a new line of tv tape storage units for 6-, 8-, 12V- and 14-inch tape reels. Facilities for library storage, transient editing and "on-the-air" program filing are included.

ON DISPLAY FOR YOU

NEW IDEAS in RADIO-ELECTRONICS

...1960!

Year after year, the IRE NATIONAL CONVENTION AND RADIO ENGINEERING SHOW gets bigger! That's because you and your gigantic radio-electronics industry are surging ahead with NEW IDEAS and remarkable speed to make the Space Age the most exciting time in which to live.

That's why it takes all 4 floors of New York's great Coliseum to show what your industry is doing. Takes 950 exhibitors...takes over 200 papers... takes over 60,000 of your co-workers to view the impressive sight.

If you're not at the IRE CONVENTION AND SHOW this year you'll miss a once-a-year opportunity unequalled in your industry to see progress in action. Plan to be at the Coliseum to see...to hear about...the NEW IDEAS IN RADIO-ELECTRONICS, 1960!

The IRE NATIONAL CONVENTION
Waldorf-Astoria Hotel and The RADIO ENGINEERING SHOW
Coliseum, New York City

MARCH 21, 22, 23, 24

The Institute of Radio Engineers
1 East 79th St., New York 21, N. Y.
WGA STRIKE: STILL TALKING

Whether or not Writers Guild of America would add the TV film divisions of the networks to the strike list which already includes the Alliance of Television Film Producers and the Assn. of Motion Picture Producers has not been decided as of late Thursday (Feb. 4). Talks between union and network negotiators continued through the week without any sign of a breakthrough that might effect an agreement. Hopes of agreement led to an extension of the Jan. 30 deadline for an extra week.

Negotiations also continued between the guild and ATPF against whose members the writers have been on strike since Jan. 16. Chief cause of the breakdown are WGA demands that its members be given extra pay when a TV series on which they worked is sold abroad and that they be paid residual fees for re-runs beyond the sixth broadcast, which is now the cutoff point.

There were no meetings with the major motion picture producers making up the AMPP membership, whom WGA also struck Jan. 16. Progress, however, was reported by WGA in its efforts to secure agreements with independent movie makers. With the signing by Burt Lancaster of an agreement covering the companies he owns either wholly or in part, WGA now states that more than half of the 56 independents it struck last November have removed themselves from the strike list by agreeing to the principle that the writers have an interest in the theatrical motion pictures they wrote for and are entitled to share in any revenues the producers may derive from the sale of such pictures to television. The adamant refusal of the major studios to accept this principle is the main cause of the breakdown in negotiations between WGA and AMPP.

SAG Fog • The matter of extra pay for TV use of theatrical films is also the chief barrier to a new agreement between AMPP and the Screen Actors Guild. Negotiations are continuing and SAG members are continuing to perform before the cameras of the major studios. Their former agreements expired Jan. 31. SAG is now polling its membership in a mail referendum which asks the actors to authorize the board to call a strike against the majors at any time contracts with TV film producers run through March, so these companies (and the TV film divisions of the motion picture studios) are not immediately concerned with the actors' demands.

Television taped programs in the Screen Actors Guild-American Federation of Television & Radio Artists' fight over jurisdiction on actors working in them have been moved out of the foreground, so far as SAG’s upcoming negotiations with producers of filmed programs for television are concerned. SAG has proposed and AFTRA has accepted a plan that SAG will not attempt to negotiate terms and contracts for employment of actors on tape programs without ample advance notice to AFTRA. AFTRA, on its part, agrees not to inject its claims of jurisdiction over all performances on tape and the SAG negotiations of new television film contracts. Earlier, AFTRA had announced plans to send a notice of its asserted jurisdiction over tape to television film producers on Jan. 31 to comply with legal requirements that such notice be given 60 days in advance of termination of the present agreement, March 31.

SAG on Monday (Feb. 1) offered to withdraw its demands for a share in the revenue from the sale of theatrical films to television if producers would promise to keep these films off TV.

The SAG proposal was part of a retort to a statement issued the day before (Jan. 31) by AMPP on behalf of the major motion picture studios, which called the SAG demands "unreasonable and unrealistic... It is no more reasonable for an actor to ask for a second payment for exhibition on TV than it is for him to expect an additional payment when his picture is reissued or is shown in motion picture theatres a second time."

The AMPP statement, issued by Charles S. Boren, executive vice president, pointed out that in addition to SAG, "similar demands have been made by the writers. Other guilds and unions have taken steps to make similar demands if the actors and writers are granted any additional payment on post-1948 films or films made in the future exhibited on television."

NTA’s ‘Play of Week’ bought by KCOP(TV)

A "breakthrough" in the sale of National Telefilm Assoc.'s The Play of the Week series was announced last week by Oliver A. Unger, NTA president, who revealed the series has been sold to KCOP(TV) Los Angeles, for immediate showing on that station.

The two-hour series, which was launched on the company's own TV station, WNTA-TV New York, last October, was bought by KCOP(TV) at a price said to be keyed to the price of a class "A" feature film. It is estimated that each two-hour episode over KCOP (TV) will cost from $6,000-7,500, although Mr. Unger declined to reveal the actual price.

20 Markets in Sight • Mr. Unger said last Thursday (Feb. 3) that negotiations are being held with many stations and he firmly believes "at least 20 markets will be signed within the next two weeks." The series is carried on WNTA-TV seven days a week, but in Los Angeles and in other markets. The Play of the Week will be sold for a one-run play of each drama. Thirty-nine episodes, produced on tape, will be offered to stations. Series, which recently won a Sylvania Award, was in jeopardy of cancellation, but several weeks ago the Standard Oil Co. (New Jersey) bought the program over WNTA-TV (Broadcasting, Jan. 18). It is reported that the advertiser, through its agency, Ogilvy, Benson & Mather, New York, is trying to clear time to place the series in two or three other major markets.

Edison Foundation makes annual awards

Awards to radio, tv, films and books were presented Jan. 27 before 500 guests at the fifth annual mass media awards dinner sponsored by the Thomas Alva Edison Foundations, New York.

Honors in the fields of television and radio went to: Our American Heritage (NBC-TV) as "the television program best portraying America"; Meet Mr. Lincoln (NBC-TV), special citation; The New York Philharmonic Young People's Concerts with Leonard Bernstein (CBS-TV) as best children's tv program; Conquest (CBS-TV) as best science TV program for youth; Gateways to the Mind (NBC-TV), special citation; KQED (TV) San Francisco, "most outstanding educational TV station," and KDKA-TV Pittsburgh as "the TV station that best served youth."

Winners in the radio category were: Canadian Broadcasting Corp., special citation for Science Review, and WBZ Boston. as "the radio station that best served youth."
HOW TO USE TAPE
Telecasters exchange ideas at Ampex meet

A chance for Western broadcasters to exchange information about ways in which video tape has proved of value to their operations was provided last week by Ampex Corp., in a two-day symposium on "Two Years of Tape" held Feb. 2-3 in San Francisco.

Half a dozen station executives reported on what VTR has meant to their individual stations on opening day. The second day was completely given over to informal discussions of all phases of tape operation, sales, engineering and programming. As its own contribution to the symposium, Ampex provided instruction on how to keep TV recorders in top operating condition and detailed reports on new products and techniques.

The six station officials reporting on the effects of VTR at their stations agreed that tape has three major advantages:

1. It permits a station to make full use of personnel and facilities during a five-day, 40-hour week, eliminating overtime work during weekends or late evening hours. It improves programming by permitting the use of people, such as visiting celebrities or important local personalities, who are not available for programs at air time. And tape enables a station to increase its revenue from local advertising.

"Tape, for the first time, gives television an opportunity to compete directly with the newspaper for local advertising dollars and in results for the local advertisers," Robert E. Kelly, general manager, KCRA-TV, Sacramento, Calif., declared. "A good commercial and a good audience are all it takes to produce results and tape makes both available to the local advertiser on TV."

Case Histories: Thirteen weeks of commercials taped for a jeweler in one five-hour session with a fortune in jewels which could not have been taken to the station's studio for individual live broadcasts: leads and closings taped by Phil Silvers during a night club appearance in town for use by the local sponsor of the Phil Silvers Show (and at a cost of only $300)—were recounted by Robert Hart, KLZ-TV, Denver.

With a transmitter midway between Sacramento and Stockton, Calif., and studios in both cities, KOVR-TV was involved disc (and some complicated switching problems trying to get live commercials on the air from both points, Bel Lange, production supervisor, reported. Tape has largely eliminated this problem, as well as much expensive overtime. Taping is done in Stockton but Sacramento stations still get local production, with the results microwaved to Stockton for taping and an immediate report...
phoned back on quality.

The problems of setting rates for vtr service were discussed by Lloyd E. Cooney, general sales manager, KSL-TV Salt Lake City, Utah. At first the policy was to charge by the hour ($12.50) and allow 30 minutes in which to tape it. This led to many arguments as to who was to blame for taping sessions running past the allowed time. KSL-TV now bases its charges on the time its taping facilities are used. Mr. Cooney noted that this policy has the disadvantage that salesmen can no longer quote an exact price for a taping job.

Motronman • Doug Elleson, program director, KRON-TV San Francisco, stressed the necessity for having one individual in charge of coordinating all vtr requests, scheduling times for taping sessions and playbacks and keeping everyone concerned with tape operations informed of the schedule well in advance, then following through on the taping, broadcasting and billing procedures to the ultimate ear of the tapes following the end of the advertiser's contract.

A carefully coordinated schedule is even more essential to a station with only one vtr machine, according to Ted Cooke, program director, KOIN-TV Portland, Ore., which got its first Ampex video tape recorder in March 1958. When there was no place to turn for information, KOIN-TV personnel had to work policies and practices out for themselves. Strict rules, strictly adhered to, for advertisers and agencies as well as for station people, are an absolute necessity for a one-machine station, he stated, adding a comment that things are easier now that KOIN-TV has its second vtr unit.

The station reports were set in the framework of the tribulations of a manager who has not yet been sold on vtr, written and acted by Russ Baker, Ampex station relations representative. Other Ampex speakers included Eldon Brown, manager, technical training; Joseph Roizen, manager, technical video applications; Charles Anderson, technical advisor, video engineering; Charles Swisher, video application engineer, and Cyril Teed, Marconi Products representative, described and demonstrated the Marconi Mark IV tv camera. Bob Day, Ampex sales development manager, was program chairman.

Opening day's sessions were held at KG0-TV; the second day at the St. Francis Hotel. This week (Feb. 8-9) the Ampex contingent moves to WBBM-TV Chicago for a midwestern symposium and next week to the Sheraton-Park Hotel in Washington, D.C., to meet with Eastern tv broadcasters. A fourth symposium, in Hollywood, is being considered.

- Program notes

Vikings soil • United Artists Television Inc., N.Y., has launched its Tales of the Vikings adventure series in 110 markets, including the following new purchases: Norge Distributors, KMBC-TV Kansas City and KVIP-TV Redding, Calif.; Ford Dealers KFYR-TV Bismarck, N.D., Dollar Federal Savings & Loan, WTVN-TV Columbus, Ohio; Western Dairy, KFEQ-TV St. Joseph, Mo.; River States Oil Co., WDSM-TV Duluth, Minn.; Viking Construction Corp., KTRK-TV Houston; Stagg Bilt Homes, KPHO-TV Phoenix; Grab - It - Here Supermarkets, WCLA-TV Champaign, Ill., and Bon Marche Department Stores, KIMA-TV Yakima, Wash. Station Sales include: WABC-TV New York; WGN-TV Chicago; WXYZ-TV Detroit; WAGA-TV Atlanta; KUTV (TV) Salt Lake City; WJAC-TV Johnstown, Pa.; and KERO-TV Bakersfield and KFRE-TV Fresno, Both California.

Unsinkable • Bristol-Myers Co., N.Y., via Doherty, Clifford, Steers & Shenfield Inc., N.Y., has renewed sponsorship for third year of Ziv TV's Sea Hunt series in New York. The show returned to WCBS-TV New York, Jan. 28 after a year's run on both WABC-TV and WPIX (TV) there. The renewal raises to 124 the number of markets for the underwater series starring Lloyd Bridges. Sea Hunt's log also includes these advertiser arrivals: Standard Oil of California (BBDO), which adds KVAL-TV Eugene, Ore., and KSBW-TV Salinas, Calif., to its schedule in seven states; Standard Oil of Indiana (D'Arcy Adv.), WKZO-TV Kalamazoo, Mich.; Harper Plumbing & Heating Co. and Schlitz Brewing Co., WDBO-TV Orlando, Fla.; Liggett & Myers (McCann-Erickson Inc.), also on WKZO-TV Kalamazoo plus WHAS-TV Louisville; Sterling Brewery (Compton Adv.), WHAS-TV, Armour Co., WKKY-TV Oklahoma City, and Howard-Griffin & Co. (Shell Adv.) on KNOE-TV Monroe, La. Station signings include: WNEM-TV Bay City, Saginaw, Mich.; WALF-TV Raleigh, N.C.; WSPD-TV Toledo; WIBR-TV Knoxville, Tenn.; KTS-M TV El Paso, Tex.; WTRF-TV Wheeling, W.Va., and WALA-TV Mobile, Ala.

It's 108 for 'Midnight' • MCA-TV reports that its Johnny Midnight mystery-adventure series has been sold in 108 markets, including sales to P. Ballantine & Sons, which is alternating with Dial Soap in Jacksonville, Fla., Richard Hudnut in Boston and Philadelphia, R.G. Dunn Cigars in Dayton and Buffalo, Marlboro Cigarettes in New York. Other purchasers are Camel Cigarettes in Denver and Evansville, Ind.; Chesterfield Cigarettes and P. & C. Foods in Syracuse, N.Y., and WGN-TV Chicago.

Another tv private eye • Production has been launched in Hollywood on a new detective series, Simon Lath, Detective, which is being produced for syndication by ABC Films Inc. The series, starring Jack Mahoney, will be produced by Simon Lash Productions in association with Allied Artists Pictures Corp.

Land rush • New stations and markets announced last week for Ziv TV's Tombstone Territory include: WHDH-TV Boston; WMTW-TV (TV) Poland Spring, Me.; WLBZ-TV Bangor, Me.; WAGM-TV Presque Isle, Me.; WJAR-TV Providence; WCAX-TV Burlington, Vt.; WGAL-TV Lancaster, Pa.; WNEP-TV Wilkes-Barre, Pa.; WJW-TV Cleveland; WTCM-TV Minneapolis; WIIC (TV) Pittsburgh; WXYZ-TV Detroit; KABC-TV Los Angeles; Roanoke, Va. (station unannounced); KGNS-TV Laredo, Tex.; WDAM-TV Hattiesburg, Miss.; Little Rock, Ark. (station unannounced); Montgomery, Ala. (station unannounced); KCRA-TV Sacramento; WHHL-TV Johnson City, Tenn.; KGAM-TV Pittsburg, Kan.; KFSD-TV San Diego; KRGB-TV Westlaco, Tex.; KOOK-TV Billings and KFBB-TV Great Falls, both Montana; KRES-TV Medford, Ore.; WRVA-TV Richmond; WFLA-TV Tampa, and Johnstown, Pa. (station unannounced). Also sold was
This Man Dawson for sponsorship by Brown & Williamson on WBAL-TV Baltimore, W1C (TV) Pittsburgh, WHAS-TV Louisville, KABC-TV Los Angeles and WPIX (TV) New York.

Ziv in Rio • In a roundup report of its foreign operations, Ziv-TV International last week announced the opening of revoicing studios in Rio de Janeiro, Brazil, where three Ziv-TV films are currently being dubbed from English into Portuguese and Spanish. Three other series also are scheduled for translation. The programs now being dubbed, and already sold to Radio Rio Ltda., are a series in Rio de Janeiro and Sao Paulo, are Sea Hunt, Men Into Space, Cisco Kid and Highway Patrol. The company reports a total of 31 series in current distribution in 27 countries, with more than 3,100 half-hours dubbed into Spanish alone.

Out to sea • New stations added recently to the lineup for Ziv-TV's Sea Hunt series include: KBES-TV Medford, Ore.; KIMA-TV Yakima, Wash.; WKBT (TV) La Crosse, Wis.; KTBC-TV Austin, Tex.; WAST (TV) Albany, N.Y.; KPRC-TV Houston; WBKW-TV Buffalo; WLW (TV) Indianapolis; WLTW-TV Cleveland, and WBFC-TV Greenville, S.C. The latter two stations renewed for the third consecutive year, it was announced.

'Flight' • Crosby/Brown Productions and Bill Burrud, producer of true-life adventure films, have signed an agreement for joint production of Flight to Adventure, a new series of 39 half-hour color films designed for network programming. In mid-February, Mr. Burrud and his crew will fly to Tahiti to film the first episode.

Bright note • Earl Klein, president of Animation Inc., Hollywood, told his board of directors that the governmental probes of advertising practices will help animate tv spot sales make sharp gains in 1960. Since there is no pretense of making pictorial presentations of products and their qualities, animation avoids the pitfalls of relying on photographic tricks to achieve superior product demonstrations, he said. In 1959 Animation Inc. topped $400,000 in billings, Mr. Klein said. He added he is willing to push sales past the $500,000 mark this year but will sacrifice quality in order to do it.

Protest letters • American Federation of Musicians has sent more than 6,000 letters of protest to sponsors and producers of domestic TV films which dub in music from recordings made abroad and expects to increase the number of mailed protests to over 100,000, Ernie Lewis, western states coordinator of the union's campaign, said. "Ziv TV and Four Star Productions in particular are using this device without labelling their product and we are distributing lists of programs involved, their sponsors and the networks carrying them," he stated.

Movie markets • MCA-TV, N.Y., reports sales of its pre-1948 Paramount features to the following stations: WCIA (TV) Champaign, Ill.; KTHV (TV) Little Rock, Ark.; KSHO-TV Las Vegas, Nev.; WANE-TV Ft. Wayne, Ind., and KERO-TV Bakersfield, Calif.

New projects • Four Star Television, Hollywood, plans to film three new programs this month. James Whitmore will star in The Law and Mr. Jones, produced by the actor's partner, Sy Gomberg. Cameron Mitchell is star of J.P. and Four Star is now casting the hour-long detective series, Michael Shayne.

NBC's 'new faces' • NBC reports it has selected five young actors and actresses, already auditioned by the network's talent development department, to appear in the first of a series of screen tests to discover new talent. The tests, when completed, will be viewed by NBC-TV program executives, to determine the use of the performers in new pilot properties being developed for the network's 1960-61 program schedule. Under its talent discovery and development plan, NBC has been holding two auditions per week since Oct. 1, 1959.

Fast track • California National Productions, N.Y., reports its Pony Express film series has been sold in 56 markets during the first three weeks of syndication. Sales include a 20-market buy in the Midwest and Southwest by American Petroil Co. of Texas (Taylor & Norsworth Inc., Dallas); Valley Forge Beer (via Gray & Rogers Inc., Phila.) for markets in Pennsylvania, Maryland and Washington, D.C.; O'Keefe's Brewing Co. Ltd. for six northern border markets starting in Buffalo; local adver-

Newsfilm additions • New subscribers to CBS Newsfilm include W Orius TV Tampa, KNOE-TV Monroe, La., and ZBM-TV Hamilton, Bermuda. CBS Newsfilm feeds filmed reports on news and sports events on a daily basis.

Podium to classroom • KTR and KVAR (TV) Phoenix, Ariz., cancelled commercial programs Jan. 27 from 11 a.m. to 12 noon to simulcast the Phoenix Symphony Orchestra's Youth Concert to area classrooms. The concert was picked up from a Phoenix movie theater with a capacity limited to 3,000. Many more than that number of local school children had at-

FM STATION MANAGERS & CHIEF ENGINEERS
Within the next few days you will receive a letter from MUSICAST, INCORPORATED, national sales representatives for the CALBEST MX 707 MUSIPLEX (multiplex) receiver, along with a specification sheet explaining the many features of this remarkable Multiplex Receiver—priced at less than $100.00. The letter will also explain how you can obtain a FREE copy of the new 8000 word treatise on the art of MUSICASTING—covering all phases of this exciting and profitable business. Look for it!

MUSICAST, INCORPORATED
2917 TEMPLE STREET
LOS ANGELES 26, CALIFORNIA
Joint venture • Writer-producer Phil Rapp has entered into an agreement with Philip N. Krasne, president of California Studios, Hollywood, to produce tv film series. First project will be a half-hour comedy series, as yet untitled, starring Teddy Rooney and his mother, Martha Vickers.

Packaged cheer • Jayark Films Corp., N.Y., reports sales of its “blockbuster” package of feature films, originally produced by Milton Sperling for theatrical distribution by Warner Bros., in 51 markets. The stations include: WCBS-TV New York; KMOX-TV St. Louis; KNXT (TV) Los Angeles; WBBM-TV Chicago; WCAU-TV Philadelphia; CKLW-TV Windsor-Detroit; KLIX-TV Twin Falls, Idaho; KXLY-TV Spokane; WDFN-TV Kansas City; KNO-TV Yakima, Wash.; KCRA-TV Sacramento; KBTV (TV) Denver; KMFB-TV San Diego; KIRO-TV Seattle; WAGA-TV Atlanta; WDSU-TV New Orleans; WFAA-TV Dallas; WFGA-TV Jacksonville, Fla.; WHBO-TV Memphis; WHDH-TV Boston; WIBC-TV Indianapolis; WITI-TV Milwaukee; WJW-TV Cleveland, and WTAE (TV) Pittsburgh.

From South of the Border • KTRK-TV Houston presented a series of five two-hour programs from Mexico City. The programs, video taped with cooperation of the Mexican Television System, which made available all equipment, were flown to Houston and shown within hours of their origination. Scripts were prepared both in English and Spanish.

Early birds • Sterling Television Co., N.Y., has concluded sales of its fully animated Capt'n Saviour Bird Cartoons with the following stations: WGN-TV Chicago; KRNT-TV Des Moines; KIRO-TV Seattle; WGR-TV Buffalo; WHDH Boston; WLOS-TV Asheville, N.C.; WNEP-TV Scranton, Pa.; WKTU (TV) Utica; WPEJ-TV Evansville, Ind.; WFUM-TV Youngstown, Ohio; WVFC-TV Hampton-Norfolk, and WABY-TV Green Bay, Wis.

Tape on the move • Mobile Video Tapes Inc., Hollywood, has appointed Television Communications Inc. as sales representative for the 11 western states excluding the Southern California area. The video tape company operates self-contained tv cruisers equipped with RCA cameras and Ampex Videotape recorders, often shooting scenes while the van is moving. TCI will act as sales agent and co-producer of tape commercials, closed-circuit programs, news, sporting events and other activities.

Here are the next 10 days of network color shows (all times are EST).

**NBC-**TV
Feb. 8-12, 15-17 (6:30-7 a.m.) Continental Classroom.

Feb. 14 (1:30-2 p.m.) Frontiers of Faith.
Feb. 14 (8-9 p.m.) The Devil and Daniel Webster, Reax through BDDO.
Feb. 14 (9-10 p.m.) Dinah Shore Chevy Show, Chevrolet through Campbell-Ewald.

**COLORCASTING**

**English cameras** • The Marconi Mark IV English camera will be used to shoot Emergency Ward, a series for syndication by Hollis Productions, Hollywood. The camera, imported by Ampex, features a 4½-inch I.O. tube as against the 3-inch tube now used in U.S. cameras. It is said to give more clarity and detail. The series will use facilities of Paramount Television Productions with Frank La Tourette producing.

**New sales approach** • A different approach in giving potential sponsors a look at available tv properties will be tried by Lazy Susan Productions, L.A., with its regional series Officer Murphy. Instead of the usual one-episode film, the producers will video-tape five key scenes with supporting continuity-narration by series star Don Haggerty. The five scenes, taken from completed scripts, will give prospects an overall view of the series.

**Mystery making** • NBC-**TV** has announced production of an hour mystery series, Thriller, by Hubbell Robinson Productions for prime evening time.
next season. Twenty-six mystery stories already have been picked for filming here and abroad. On the assignment: Mr. Robinson, executive producer; Fletcher Markle, producer and James Cavanaugh, associate producer-story editor. Name stars are being engaged.

‘Ryder’ rides • Twenty-three Red Ryder feature pictures, each 53½ minutes long, have been acquired by Hollywood Television Service Inc., L.A. The cartoon strip is currently syndicated in over 500 newspapers. The pictures are available for immediate telecasting.

No antitrust shadows over NCAA—Byers

The National Collegiate Athletic Assn. has managed to steer clear of monopoly and antitrust charges because it has not utilized tv in "restraint of trade" and includes non-professional teams, an NCAA official suggested last week.

Walter Byers, executive director, told a Chicago news conference that if any such question had ever arisen since NCAA restricted college pigskin telecasts in 1951, the Justice Dept. would have moved against NCAA "long before now."

Mr. Byers made known his views in connection with questions involving the planned new American Football League. He suggested monopoly or restraint-of-trade implications might be posed if an established professional circuit (in this case, the National Professional League) would "use television" to thwart a proposed new league before it got off the ground.

He noted reports that the infant AFL might televise Saturday afternoon games in direct competition with NCAA’s national or regional game-of-the-week.

The news conference culminated a three-day meeting of NCAA’s 1960 television committee in the LaSalle Hotel, Rix N. Yard, Denison U., was appointed chairman of the new group and Asa S. Bushnell, Eastern College Athletic Conference, was re-elected secretary and program chairman. The committee reviewed the 1959 tv group’s report, held hearings for "interested parties" and set up administrative organization and procedures. It will meet again, in either Squaw Valley or Reno, Nev., about Feb. 22-23 to draft a specific telecasting plan for this fall. NCAA already has approved general controls for 1960-61 (Broadcasting, Jan. 18).

The new tv unit, comprising the same membership as last year, discussed several television plans, one incorporating a combination of national and regional tv dates and another with national and split-national (network) features. The trend in recent years has been to more national and fewer regional dates (from eight and five in 1955 to ten and three in 1959).

FATES & FORTUNES

Broadcast Advertising

Mr. Strauchen Mr. Quackenbush

• E.R. Strauchen, founder of Strauchen & McKim Adv., Cincinnati, becomes president in agency reorganization. Others elected: John V. Quackenbush, partner since 1952, named vp; Robert W. Willen, office manager and head of accounting, to treasurer and Betty J. Morgan, secretary.

• Raymond F. Sullivan, board chairman of Sullivan, Stauffer, Colwell & Bayles, N.Y., elected chairman of board of Noxzema (skin cream, shaving cream) Chemical Co., Baltimore.

• Jack Page, vp and head of local market operations for O’Grady-Anderson-Gray, Chicago advertising firm, named executive vp.

• John H. Pinto, chairman of New York management committee of Grant Adv. and vp of Chicago office, appointed director of creative services for business development.

• James D. Kysor, media supervisor for past 16 years at Foote, Cone & Belding, Chicago, and advertising veteran for 44 years, retires.

• John P. Atherton, in charge of radio-tv at Koster, Hilton, Chesley, Clifford & Atherton, N.Y., named vp in charge of creative activities.

• Alvin A. Achenbaum, Robert S. Zimmern and Aldon H. Sulger elected vps of Grey Adv., N.Y. Mr. Achenbaum is director of research; Messrs. Zimmern and Sulger are account supervisors.

• Lester A. Weinrott, vp at Reach, McClinton & Pershall, Chicago, appointed account supervisor on Pratt & Whitney (machine tools) account in New York office.

• Monte J. Sanders, formerly with Klaub-Van Pietersen-Dunlap, Milwau-
kee, elected vp of Fensholt Adv., Chi-
cago.

• Allen D. Patterson, account executive on Chase Manhattan account, becomes vp of Ted Bates, N.Y.

• John V. Quackenbush

Mr. Carver Mr. Vitt

• Jack K. Carver and Samuel B. Vitt, media supervisors at Doherty, Clifford, Steers & Shenfield Inc., N.Y., elected vps of agency.

• Richard W. Solom, formerly product advertising manager, Post Cereals Div.

* Laura Hall, 45, chief timebuyer at Henri, Hurst & McDonald, Chicago, died Jan. 31. She joined agency's media department in 1951 and was appointed head timebuyer in 1956.

* William Maloney, 55, salesman for WHAY New Britain-Hartford, Conn., died Jan. 23, following short illness.

INTERNATIONAL
CANADIAN TELEVISION GRANTS
R.S. Misener & Assoc. get ch. 7 Winnipeg; Vantel Broadcasting given ch. 8 Vancouver

First competitive television stations in Canada were recommended for licenses by the Board of Broadcast Governors on Jan. 29. The new stations will be in Winnipeg and Vancouver. Dr. Andrew Stewart, BBG chairman announced at Ottawa that after board hearings at Winnipeg and Vancouver, BBG was recommending to the Canadian government that R.S. Misener & Assoc. be licensed for ch. 7 at Winnipeg with 325 kw video and 180 kw audio and that Vantel Broadcasting Co. Ltd., be given ch. 8 in Vancouver with 180 kw video and 90 kw audio.

R.S. Misener, a shipping magnate, with a fleet of ore and grain carriers on the Great Lakes, is associated with Lloyd Moffat and Jack Davidson of CKY Winnipeg. Others in the group include Roland Couture, CKSB St. Boniface, Man., a French-speaking city adjoining Winnipeg, and a number Winnipeg business and financial interests. There are no newspaper interests in this group.

Vantel Broadcasting Co. Ltd., is headed by 34-year-old Arthur Jones of Vancouver, who is president of Artray Film Productions. He stated in his presentation before the BBG that he would present 50 of 96 hours of programming as Canadian live or filmed shows.

The pattern followed by the BBG in these two recommendations may set a precedent for second tv stations in other cities. Major factor is that companies with large newspaper, radio and television interests were by-passed in favor of companies with more diversified business interests. In both Winnipeg and Vancouver newspaper chain owners with radio and tv station holdings, were major contenders for the licenses. The BBG evidently looks to some radio station and film experience, but will not recommend licenses to companies which would have a monopoly on mass communication media.

Both successful applicants at Winnipeg and Vancouver hope to be on the air before the end of this year with competitive stations to CBUT (TV) Vancouver, and CBWT (TV) Winnipeg, stations owned by the government’s Canadian Broadcasting Corp.

Hearings Scheduled • A public hearing for a second tv station at Montreal will be held in that city on March 7, for a second station at Toronto on March 14, for second stations at Edmonton and Calgary, week of May 9, for Halifax on June 20 and for Ottawa about June 22.

The U. of Toronto has announced that it will present a brief to the BBG at the March 14 hearing urging that both the new tv station at Toronto and CBLT Toronto, be required to present a varying scale of hours weekly in afternoon and evening time for educational programs.

Meanwhile, CBS has stated that the advent of private competition, while indicating a cut in CBC revenue, nevertheless is welcomed as a move that will provide more latitude in viewers’ choice. J. Alphonse Ouimet, president of CBC, stated at Winnipeg during a meeting of directors of the government-owned CBC, that second stations would mean a loss of revenue to the CBC, which receives about half its revenue from advertising, the rest from taxes. Nevertheless he felt the public was entitled to a choice of programs.

“If the new station is going to give good service it will have to be a fairly extensive operation,” Mr. Ouimet stated. “It will get new money from advertisers. But the overall increase in advertising expenditures won’t match the additional cost of operating another station. We expect a loss of revenue.”

Meanwhile pending results of operation of second television stations in major Canadian cities on revenue of existing radio stations, the BBG announced on Jan. 30 it will not make any new radio station license recommendations for at least a year in such areas. This was revealed in deferment of applications for new radio stations at Winnipeg, Ottawa, and Calgary, and at Vancouver suburbs of New Westminster, Langley Prairie, and Burnaby.

Unjustified • The BBG stated in connection with the Vancouver area applications that it felt “the simultaneous appearance of an additional television station and an additional radio station cannot be justified by the immediate conditions in the market in the lower mainland of British Columbia and could easily create a degree of dislocation which would result in a deterioration of the quality of service. In the opinion of the Board, broadcasting service in the lower B.C. mainland would be enhanced more by alternative television than by the addition of an-
other radio station.

CKCW-TV Moneton, N.B., was recommended for a satellite TV station at Upsalquitch Lake, N.B., on ch. 12 with 141 kw video and 77 kw audio and antenna 1,331 feet above average terrain. Recommendation was made since CKCW-TV which has network affiliation with Canadian Broadcasting Corp., will provide its own microwave network, will build studios and provide local service at Campbellton, N.B., within a year. Two other applicants for TV stations in the area were turned down.

An application for a new FM station at Toronto was denied A. W. Ness of Toronto on grounds that "commitments of applicant would have the effect of establishing a religious station." The BBG felt such stations should not be licensed but that all stations should incorporate religious broadcasting in their programming.

More Wattage • Power increases were recommended for CHOW Welland, Ont., from 500 watts to 1 kw on 1470 kc, and operation on a full-time basis instead of daytime only; CKX Brandon, Man., from 5 kw to 10 kw daytime and 5 kw nights on 1150 kc; CHCL Cold Lake, Alta., from 50 watts to 1450 kc; CFHR Hay River, N.W.T., from 25 watts to 40 watts on 1490 kc: CFUN Vancouver, B.C., from 1 kw to 10 kw nights on 1410 kc; CKNW New Westminster, B.C., from 5 kw to 10 kw day and 5 kw nights on 980 kc; CKRM Regina, Sask., from 5 kw to 10 kw day and 5 kw nights on 980 kc; and CHEK-TV Victoria, B.C., from 1.8 kw video to 100 kw video and 900 watts audio to 50 kw audio on ch. 6, with antenna 1,555 feet above average terrain.

CHBC-TV-1, Penticton, B.C., a satellite of CHBC-TV Kelowna, B.C., has been recommended for its own satellite at Oliver, B.C., on ch. 8 with 110 watts video and 55 watts audio and antenna 1,346 feet above average terrain.

Permission to erect new studios in neighboring communities has been recommended for CFSL Weyburn, Sask., and CJGX Yorkton, Sask.

Ampex in Canada

Ampex of Canada Ltd. has been formed to market all Ampex magnetic tape recorder products in the Dominion. It is a subsidiary of Ampex International S. A., Fribourg, Switzerland, which is itself a wholly-owned subsidiary of Ampex Corp., Redwood City, Calif. Marketing of Videotape TV recorders and other video products will be conducted from the company's headquarters at 1458 Kipling Ave. North, Rexdale, Ont. Ampex digital and analogue data recorders will be marketed by a branch office in the Commonwealth Bldg., Ottawa. Ampex professional audio recorders and home music systems will continue to be sold by appointed distributors throughout Canada.

German TV tape

West Germany now has an all-German TV tape recorder, manufactured by Fernseh GmbH., a subsidiary of the German Bosch electric corporation. Heretofore, only Ampex machines were used there, adapted to the 625-line v standard by a concern in that country.

The new recorder is in the experimental stages and will be developed further before being offered to stations, the company reports. It also claims the manufacturing cost will be lower to enable the product to compete with Ampex in Germany. Telefunken GmbH. is also said to be developing a tape recorder for TV.

Kenya eyes TV

Television for Kenya, Africa, has been recommended by a special commission appointed by the Kenya government last October. Target date is mid-1961. Operating costs would be obtained through advertising revenue, according to the report, but the government could apply to the British Colonial Development and Welfare fund for a grant of £180,000 ($504,000) to establish a TV station. As a result of the report, Kenya may soon seek an agreement of the African countries on TV channel allocations.

• Abroad in brief

On and off the Ginza • Dentsu Adv. Ltd., Tokyo, is opening a New York service office at 342 Madison Ave. One of the world's largest agencies billing more than $100 million annually, Dentsu office will help agencies service Japanese clients and handle placements in Japan for its own U.S. clients. These include Max Factor, Peabody & Co. (Sanforized process), Northwest Airlines and others. George Yoshioka will be head of the New York office.

Olympics range • Some 60 million Europeans, including 20 million Russians, will probably view American commercial TV pictures of the Winter Olympic Games, Squaw Valley, Calif., according to the U.S. Information Agency. The Russians will be allowed one-time only use of 15 hours of CBS-TV's special series. Other countries slated to use the films once are Finland, Sweden, Norway, Denmark, Holland, Germany, Switzerland, Austria, France and Italy, the USIA reports. Czechoslovakia is negotiating for a similar arrangement.
1960 March of Dimes

January 1960 is now history. And a part of that history is the annual March of Dimes, this year dubbed as "new" because of its de-emphasis of polio and its resulting emphasis on other crippling diseases.

Helping tell the National Foundation's new story were the nation's radio and tv stations.

Most unusual of the annual promotions for the March was that of WRAY-TV Princeton, Ind.

For 364 days each year (365 in 1960) WRAY-TV is silent. But, for one day (30 hours to be exact) the ch. 52 station comes "on-the-air." During that period more than a thousand people strut their stuff before the station's cameras. And, just about every set equipped with a uhf converter is tuned in. Those without sets, though discouraged from coming to the studios usually end up there anyway. Crowds jamming the countryside have become such a problem the National Guard is called out to handle the situation.

WRAY-TV first began telecasting in December 1953. Seven months later, because of a lack of advertising revenue, the station was granted FCC permission to remain silent. While still on-the-air, WRAY-TV aired its first March of Dimes telethon. But, the following year the station had ceased operations. This didn't deter March of Dimes and station officials, however. They sought and received FCC permission to pump some life into the dormant station for the one-day affair. It's been an annual event ever since.

When the 30-hour day ends, the March of Dimes coffers are usually $15,000 richer. WRAY-TV owners, employes and talent all donate their services. So do technicians and other tv personnel from nearby stations.

As for WRAY-TV, after its brief period in the spotlight, it once again loses its eyes and voice—its equipment doomed to gather dust for another year. M.R. Lankford and 50 fellow townsmen own WRAY-TV.

Other Stations • A "Bandstand Bo" nanza" at KGO San Francisco. The station auctioned off items of real or imagined value, including a key to the city, donated by Mayor George Christopher. The key brought $100. The winner, asked why she wanted the key, said, "It has tremendous snob appeal."

• Albuquerque, N.M. radio stations sponsored a "March For the New March of Dimes." A representative of each of the seven reserve units of the city marched a distance of 12 miles. Each time a dime was donated, one reservist took a step forward. Each radio station had a reservist representing it. Total collected from the event: $14,000.

• A remote radiothon, lasting 108 hours was featured by WBUD Trenton.

• A WAYS Charlotte, N.C., disc jockey and public relations man went to jail for the March of Dimes. They were arrested for "disturbing the peace" while playing a piano from a street corner to raise funds. Bail was set at $1,000, and the d.j. was allowed to broadcast from his cell for appeals for funds. The "bail" money was turned over to the charity drive.

• A WIBC Indianapolis personality broadcast a session of his sidewalk "Pick-A-Pocket" program from an iron lung to dramatize the need to aid pre-Salk-vaccine polio victims.

• WLOS Asheville, N.C., gave away 4,000 records in exchange for donations. The one-day effort collected $500.

• WWDC Washington offered duplicate awards on its "Dollar Games." During the month the station donated $1,450 to the cause.

• WGRO Lake City, Fla., conducted a Battle of Music with listeners voting for their favorite type when sending in contributions.

• KOMO-TV Seattle, served as collection center for the Mothers' March on Polio. The March collected $108,000.

• Telemorns were the order of the day in cities large and small. WTTG (TV) Washington and WITN (TV) Washington, N.C. were among stations featuring the endurance programs.
Ad Week—1960

Advertising clubs throughout the country are planning campaigns in all media for Advertising Week, Feb. 14-20, "Advertising helps you enjoy the good life," the campaigns proclaim. The week is co-sponsored by Advertising Federation of America and Advertising Assn. of the West. They have sent campaign kits to agencies and ad clubs containing order blanks for radio and tv spots, scripts for locally-produced spots of several lengths as well as samples of posters, car cards, newspaper mats and magazine plates. A record is available for radio featuring Lawrence Welk. Ronald Reagan and others, on which the stars extol advertising’s contribution to America’s "good life." National task force agency for Advertising Week is Botsford, Constantine & Gardner, Portland, Ore.

Silver Anniversary

Talent and personalities that appeared 25 years ago on the dedicatory program of WEAU Plattsburgh, N.Y., played a return engagement for the station’s anniversary program last Wednesday (Feb. 3). As part of the week-long commemoration, commentator Paul Harvey originated his ABC shows there and took part in the events planned by the community of Plattsburgh to mark the occasion. Plattsburgh Broadcasting Corp., licensee, also chose the Feb. 3 birthday to start operation of its new WEAU-FM on 99.9 mc.

• Drumbeats

Of corn and coin • Agency and promotion personnel in the Los Angeles area were treated to cans of corn, courtesy of KLAC, that city. Special labels around the cans announced that the Dick Haynes Show is "the kind of corn Los Angeles listeners love."

The plot is hatched • WFBM-TV Indianapolis viewers breathlessly followed two chicks’ race with the stork. Two eggs, one marked "Solomon", the other "Sheba", were placed in an incubator with the station’s audience invited to handicap which would hatch first and the date and time of birth. The plot was designed to stir interest in the movie about two similarly-named Biblical persons. The egg was scratched: Solomon finished first and Sheba wound up in a photo—shown on WFBM-TV’s feature movie show.

Perry’s pull • The New Haven Railroad show train for Wednesday’s (Feb. 10) Perry Como Kraft Music Hall was a four-day sellout. This run, fourth arranged by the line in the last five years, will carry 500 New England residents to New York in time to have dinner before the 8 p.m. NBC-TV show and get them back to Hartford by 1:30 a.m., earlier for points between. The ticket sales record has been equaled once on the New Haven RR tv runs: the last Como Show train four years ago. The railroad entertainers showgoers enroute to the city in the manner of its Broadway show trains and the old radio show trains.

Council pow-wow • KYW-TV Cleveland claims the first telecast of a Cleveland City Council meeting. The station video-taped a Monday evening session and televised an hour-long version of highlights the following Sunday afternoon. KYW-TV plans to cover the Council on a "periodic" basis.

Facelift • KTLA (TV) Los Angeles’ executive offices, sales department and main lobby are being remodeled at a cost of $50,000. The move is described as another step in Paramount Television Productions’ expansion plans for 1960.

Weighty politics • To effect a clean-up of the litter that follows an election, WWL-TV New Orleans offered prizes on its teenage Saturday Hop for the largest collection of political posters. Response: some 5½ tons of posters.

Chanel No. 5 • A perfumed promotion piece from WISN-TV Milwaukee states: "Sweet smells come from many things... and the sweet smell of success comes from advertising dollars spent on WISN-TV." The brochure includes several success stories from station advertisers.
FOR THE RECORD

Station Authorizations, Applications  
As Compiled by BROADCASTING

January 28 through February 3. Includes data on new stations, changes in existing stations, ownership changes, hearing cases, rules & standards changes and routine roundup.

Equipping a Radio Station?

RCA Magnetic Disc Recorder is a Great New Tool for Broadcasters!

It makes possible fast recording and playback of commercials and announcements. Extremely simple to operate, it minimizes the skill required to produce a professional recording. Erasable magnetic discs have a long life, equal to or greater than tape, thus production costs can be reduced. Whatever your equipment requirements, see RCA FIRST!

Write for descriptive literature to RCA, Dept. D8-22, Building 15-1, Camden, N.J.
Mr. Whiteley is 50% owner of WKEI Covington, both of Adair, Ky., and WBFB, 107.7 MHz, Calif. party to proceeding.

By memorandum opinion and order, Commission granted petition for reconsideration of BOC for broadcast station in Orange City, Fla., from 1 to 5 kW, continuing operation of station under application for Class C station.

Commission has determined that a change was necessary for equalization of facilities with others in the same vicinity.

Mr. Rodrick, sole owner, to Ysleta Valley Radio Corp. for $150,000. Purchasers are H.G. Wells Jr., David McKnight, and Mr. Wells is former manager of KOAO. Mr. McKnight is former director of telecommunication system. Mr. Joucken is secondary owner.

Figured in terms of 11,25% of equity interest in station. The latter will be granted for 1 year and held in pending file without final action pursuant to Commission's public notice of May 13, 1967, pending effective-ness of U.S.-Mexico agreement with respect to border communication channels with 5 kW power during daytime hours.

Commission has determined that a change was necessary for equalization of facilities with others in the same vicinity.

BROADCASTING, February 8, 1960
the products or services of businesses in which its stockholders have an interest. If so, will such products or services be used in preference to, or to the exclusion of, like products or services furnished by other persons or corporations?

4. Submit copies of any written agreements, or written memoranda of the substance of any oral agreements, entered into, or which are proposed to be entered into, between the proposed assignee corporation and any of its stockholders, or businesses in which its stockholders have an interest.

The Information requested above should be submitted as an amendment to the application within twenty (20) days from the date of this letter in order that further consideration may be given the application and should be submitted in triplicate, subscribed and verified in accordance with the provisions of Sec. 1.303 of the rules of practice and procedure of the Commission.”

Routine Roundup

Commission addressed following letter to D.R. Hull, president of Electronic Industries Assoc.:—

"This is with reference to your letter of October 15, 1959, requesting that the FCC take necessary action to establish the National Stereophonic Radio Committee (NSRC) on an organizational basis similar to the Television Allocations Study Organization (TASA).

"As you are aware, the Commission has recently extended the date for your conference on this subject. That extension was principally focussed on the file of the Electronic Industries Association (EIA) indicating that the National Stereophonic Radio Committee will work diligently to complete its tasks and consideration of stereophonic fm broadcast systems by March 15, 1960.

"The Commission is desirous of proceeding expeditiously with its consideration of fm stereo in light of the interest which has developed in it and its relatively long pending time before the Commission. Accordingly, the Commission desires that suitable standards for fm stereophonic broadcast be finally adopted prior to consideration of stereophonic broadcasting in the standard broadcast or the television broadcast services. Therefore, the Commission contemplates that it will be in a position shortly after March 15, 1960 to consider the issuance of a Notice of Proposed Rule Making in the matter giving consideration to comments filed in Docket No. 12517, the date to which the Commission has extended the time in which to file comments.

"In light of the foregoing, the Commission has established a high priority for the fm stereo study, and in view of this factor believes that further consideration of your request should be deferred until completion of the above proceeding. Accordingly, it cannot accede to your request that it take the necessary action to establish the National Stereophonic Radio Committee on an organizational basis similar to TASA at this time.

"The Commission recognizes the importance of the work being performed by NSRC in this field and you can count on the Commission's cooperation whenever possible.”

**AUTOMATIC CONTINUOUS PROGRAMMING COLLINS AUTOMATIC TAPE CONTROL**

A press of a button is all it takes for complete and continuous programming with the Collins Automatic Tape Control. Tape recorded spots, announcements or programs are on the air, on cue, every time. No more threeding, cutting or rewinding. Each modular rack holds 120 tape cartridges individually labeled, completely accessible. Cartridges for programming in segments from 40 seconds to 51 minutes. Contact your Collins representative for complete information.

By Chief Hearing Examiner James D. Cunningham

Included hearings on proceeding to be held in Flagstaff, Ariz. on petition by James J. Williams for continuance of its application which was extended for continuance of its application which was extended by Springhill Bestg. Inc. for extending time for filing comments. The Commission granted its application for modification of cp to change the site of GENCO. Action Jan. 28.

Continued to date to be later specified, hearing scheduled to commence on Feb. 28, proceeding on The Delta Broadcasting Co. (WSPA-TV). Action Oct. 26.

Busy, well-staffed, well-financed, station rep seeks rapid expansion by merger or acquisition. Replies in confidence.

Box 1715, BROADCASTING
HOW IS IT POSSIBLE FOR ONE STATION TO EARN 79% OF LOCAL BUSINESS?

It's true in Des Moines, Iowa, where KRNT-TV has had over 79% of the local business in this major 3-station market for 3 years!

There is nothing so satisfying as doing business with people who know what they're doing and where they're going. Leading local and national advertisers have known for years that the "know-how, go-now" stations in Des Moines are KRNT Radio and KRNT-TV.

They have confidence in the ability of our people to make their radio and television investments profitable. It seems clear that for these astute advertisers, there is nothing so satisfying as radio and television fare presented by good, honest, experienced air personalities who know what they're doing.

From surveys made several times a year for the last several years, it seems evident that the people of Central Iowa like to listen to and view our stations.

Latest F.C.C. figures show KRNT-TV handled over 80% of ALL the local television advertising placed in this three-station market. The year before, over 79% . . . and the year before that, over 80%. Our local RADIO business in a six-station market has always exceeded that of our nearest competitors by a country mile.

We know for a fact that these figures are merely a reflection of our public acceptance . . . our long-standing excellence in public service . . . reliability that is vital in all selling! We believe this to be true: the ones that serve are the ones that sell in Des Moines.

People believe in and depend upon these stations. Check the ratings, check The Katz Agency, check the cash registers.

KRNT
RADIO and TV

COWLES STATIONS REPRESENTED BY THE KATZ AGENCY, INC.
Our Respects To...

Oscar Katz

The tables were turned on Oscar Katz last summer when CBS-TV moved him up to vice president in charge of network programs.

Oscar, who's not averse on occasion to helping support a hopeful play for Broadway or riding a few dollars on a filly's nose, suddenly found the network betting on his track record to help it place, and win, with its shows.

For a while it was all he could do to get to the starting gate. A few months had gone by since Hubbell Robinson had resigned to launch a production company and the programming department lacked top direction.

The 1959-60 tv season was about to begin: Louis Cowan, then CBS-TV president, whisked him away to the West Coast and on his desk were piled papers with notes attached that cheerily assured: "Oscar, this is your baby now."

Workfest • Oscar Katz has a knack for this; he nursed the baby through, cleared his desk and just worked, taking problems along with him for night sessions at home. (He's back to a normal schedule of 9:30 a.m. through 7:30 p.m.) An ex-researcher with an understanding of "organization," he made this the first order of things for the program department.

It may have been happenstance but the slender, almost frail-looking Mr. Katz just seemed to bob up when the chips were down.

In 1956, competition gave daytime programming an importance it had never quite attained in earlier years and some of the more impatient even detected a stale sameness. Into this still air strode the friendly and slight figure of Oscar Katz, CBS' top research executive, to stir things up a bit.

With Mr. Katz came new thinking. CBS-TV experimented with country music when NBC-TV had its Today (he doesn't like imitation). He reasoned that daytime programs are viewed by the woman in the house and he quickly concluded that through tv she ought to be brought out into the world. Result: The Verdict Is Yours, the existing form of the daytime serial placed against a reality setting; On the Go, human interest with on-location production via mobile tape unit to heighten the show with a natural habitat.

Innovator • There were innovations, including a series on women's role (and problems) in the development of the rugged West; the scheduling of the successful Captain Kangaroo for children, and the more recent Woman! series of specials for their mothers.

Asked to sum up Oscar Katz in a few words, an associate glibly obliged by pruning the request to the initials. That stamp of being "O.K." is as indelible on Oscar Katz as is the old CBS "school" tie.

He wore it first in 1938 in the then-neophyte CBS research department where a bright, practical scholar named Frank Stanton was making his career.

A few years later (1942) and Mr. Katz was assistant director; he subsequently (in 1948) moved up to director of the department. When tv had grown in stature, a separate research unit was established at CBS-TV and Oscar Katz appointed as its director. In that year (1951) he also began to branch out into programming. As a member of the CBS-TV Network Executive Program Plans Board, he worked closer to the area of program policy, devoting nearly half of his time to such problems as program scheduling.

(For an interval during World War II, Mr. Katz was away from CBS New York, when the network loaned him on special assignment to the Office of War Information.)

Via Post Office • A night student at the College of the City of New York, Mr. Katz says his degree (mathematics and statistics) didn't come until 29 years after his birth (April 12, 1913 in Brooklyn, N.Y.) and while he was at CBS. He confides blandly, "Eventually I received my degree in the mail."

He checks off his programming philosophy so: The show is important and he's no stickler for formula. As do others in the CBS camp, he believes in variety programming within a balanced schedule. He sees the excitement of "specials" perhaps giving way to the "special of distinction" (either extraordinary in concept or perhaps a flavor of an event, or both).

He reflects that he's often been asked, "What do you think of hour shows? Will there be more of them?" He answered that it will be program content that will determine the show length. His view is that a network must build different shows of various lengths—and no rut for him in a network's program route.

Mr. Katz says there will always be a "big emphasis" in tv on research (audience measurement). He explains the reasons are simple enough: There is no box office for measuring circulation of the medium so audience measurement must fill this "void." He has a word of warning, however, that research is an approximation (because it is based on sampling) and so must be used carefully—one cannot get "wild," he says, on the basis of initial surveys. He personally withholds judgment until the "national" among rating reports is in and he then watches a program's trend: he respects the lower-rated program that moves up with each rating period. Ratings, he feels, provide a necessary guide and the industry must go along with them.

Mr. Katz lives quietly in the Rego Park section of Queens with his wife, the former Rose Wolfe, whom he married in 1938, and their two children, Joan Ellen 15 and Marjorie Ann 12. He doesn't get to the track as often as he would like, though he spent a one-day vacation last year at Jamaica.

His love for the theatre has contributed to his work. Over the years, he has made a token or larger investment in Broadway productions, supporting some 40 shows. He takes measure of his "editorial" judgment in the creative area by making decisions on the basis of reading play scripts and other study and then watching for reviews and public reaction. This experience has brought him the desired contact with performers and directors. Among the many successful shows he supported: Peter Pan," "Guys and Dolls," "The Dark at the Top of the Stairs," "The Moon Is Blue" and "The Boyfriend."

No Recoup • His interest in a theatre venture comes from a reading of a script but occasionally he goes in "blind." With a wistful smile, he says: "It can be worse than the stock market because there's no recoup here on a flop."

A homebody, Mr. Katz restricts outside activities. He is a member of the Market Research Council and of the Friars and Players Clubs.

CBS-TV's Katz

Variety within balance
Rigged and loaded

The following item appeared in the regular "Question Box" feature of Parade, the Sunday newspaper supplement, for Jan. 31:

"Q: Robert Lishman, counsel for the House Subcommittee on Legislative Oversight, claims that key personnel in many radio stations 'have long, serious criminal records.' Is this true?—W.F., Tucson, Ariz.

"A: Unfortuantely, it is. Station owners are firing such personnel before station identities are revealed."

If the item were true, Parade grossly underplayed it. If the item were not true, Parade's editors owe everyone in radio an apology.

We'll bet an apology is in order. To begin with, Mr. Lishman has never stated, to our knowledge, that "many" stations employed persons with criminal records. He said "some" stations were involved. And if anybody has been fired from any station because the Oversight committee said he had a criminal record, we haven't heard of it.

The Parade item was rigged just as thoroughly as Twenty-One was rigged. If there is a "W.P., Tucson, Ariz.," his question should have been edited to conform with facts. The answer given by Walter Scott, who conducts Parade's "Question Box," should have stated its source, if it had one.

We wouldn't spend this space discussing the incident if it were not typical of a good deal of shoddy reporting about broadcasting being done by newspapers and magazines these days. It is also typical, unfortunately, of some publications which are parts of companies that also own broadcast properties.

Parade is a part of the J.H. (Jock) Whitney enterprise which also owns the New York Herald-Tribune and the Corinthian radio and television stations, among other properties. The top management of that and similar organizations would do both publishing and broadcasting a service by seeing that one didn't beat the other with unfair and inaccurate reports.

It's NARBA now

A LESSON in congressional relations was taught last week. Harried broadcasters everywhere should take heed.

Within 24 hours the subcommittee and the full Senate Foreign Relations Committee unanimously approved the North American Regional Broadcasting Agreement and the related Mexican treaty. One step—full Senate ratification—remains to terminate a 10-year ratification battle and to avoid another possible nightmare of wave-jumping.

Why unanimous approval now against the background of repeated committee rebuffs? It was a simple case of organization and follow-through by broadcasters who knew what they were doing.

Heretofore, even though the State Dept. and the FCC, as well as the Clear Channel Broadcasting Service, had urged approval, their combined efforts were not enough to offset the small group of daytimers who functioned as the Daytime Broadcasters Assn. and who made no bones about insisting upon increased hours of operation (on regional as well as clear channels) as the price for withdrawal of their opposition.

FCC Commr. Rosel H. Hyle, who had negotiated both the NARBA treaty and the Mexican agreement, had steadfastly refused to compromise. He insisted upon flat ratification with no reservations, because any concessions would have thrown the treaty terms open to new negotiations with our North American neighbors.

The new ingredient which swung the committee from skepticism to unanimity was provided by the recently organized Regional Broadcasters, who stood to lose most if daytimers were permitted to operate from 6 a.m. to 6 p.m., with no provision for protection. Under the leadership of Payson Hall, of Meredith, a number of regional stations pitched in to advise senators of imminent disruptions in am broadcasting if the treaty was not approved. They backed up the FCC and the State Dept. It was a forthright job handled by broadcasters who, until this session, apparently did not realize the extent of their jeopardy.

The lesson is notably important in these troubled times. For too many years, too many broadcasters (and this goes for advertisers and agencies, too) have been too prone to adopt the "Let George do it" approach.

This is a new do-it-yourself legislative climate—or at least do it in small, effective and hard-hitting groups.

What's not in a name

I T WAS in March 1957 that the U.S. House of Represent-atives created the Legislative Oversight Subcommittee and gave it $250,000 to investigate whether the FCC and other independent agencies had strayed from their original purposes.

In August 1958 the subcommittee was given $60,000 more, in March 1959 $200,000 more and recently $410,000 more—all for the same investigation. We think it is time the subcommittee started the job the House ordered it to do nearly three years ago.

So far the Legislative Oversight Subcommittee has spent $487,000 and is yet to get anywhere near the central ques-tion it originally set out to answer. The money has gone for such sensations as the Richard Mack case, the Bernard Goldfine-Sherman Adams case and the television quiz scandals. These investigations served useful purposes, it must be admitted, but they did little to advance the subcommittee's original assignment.

Now the subcommittee has $410,000 more to spend, and its first objective will be an investigation of payola. For all we know, this may turn out to serve a useful purpose too, but we cannot imagine how it can be of much help in determining whether the independent agencies are behaving as Congress wanted them to when it created them.

Either the subcommittee ought to get going on the work it was assigned, or its name ought to be changed to something more descriptive than Legislative Oversight. On its record to date it could more properly be called the Subcommittee on Looking for Scandals Wherever They Are Handy.
This is one of the most poignant appeals for more adequate housing we've seen in a long time. To nobody's surprise, our own delightful Miss Betty Hayes is behind the whole thing. Betty learned from her friend William T. Cully, Swope Park zoo director, that these little fellows might be victims of a housing shortage (gorilla subdivision) unless funds could be found for building additional quarters. Betty immediately scheduled a "guest shot" to put the problem before her loyal audience... and you can bet your pith helmets the response will be great. Five days a week on her "Accent" show, Betty Hayes talks over an amazing variety of things with thousands of listening ladies. She does it with intelligence, charm and finesse, whether the subject is fashion, cooking, beauty hints, decorating, gardening—or displaced gorillas. Maybe that's why "Accent" is currently sold out across the board. D'you 'spose?
