Not only does WTVJ outshine the other two television stations, but it reaches more homes than Miami’s two newspapers, too! 13.1% more South Florida homes view WTVJ daily than read the area’s largest newspaper... 147% more than the second newspaper. And 40.5% more homes watch WTVJ daily than the average of the other two Miami TV stations. If you haven’t yet seen Profile III, check with your PGW Colonel right away—it’s revealing!

Clyde W. Rembert, President

Broadcasting, March 6, 1961
Tape format set

Last week's White House news conference format (i.e., taping by radio and tv for simultaneous release with other press services upon completion of conference) is expected to become standard except for interspersing of live radio-tv pickups on special occasions. Despite none too veiled opposition of printed press and press associations, it's understood President Kennedy and his news secretary, Pierre Salinger, are convinced this procedure is best and gives equal break to all news entities.

Actually last Wednesday's Kennedy conference coverage went well except for incident in New York occasioned largely by misunderstanding on timing. Newspaper reports to effect that there were major snafus on network handling are branded exaggerations.

Alert on alerts

Sharp-eyed broadcasting representatives participating in meeting last Thursday on implementation of Conelrad project covering radio silence except on designated channels during air attack, alert, blocked move that would have placed programming control in government hands in national emergencies. Language proposed by Office of Civil and Defense Mobilization read: "During a Conelrad alert, control of emergency broadcasts to the public is the responsibility of the government of the area in which the Conelrad alert originates." After long and bitter debate, key words "official information" were substituted for "emergency broadcasts."

Non-government spokesmen were unanimous in opposition to OCDM language. Developed during discussion was fact that Kennedy administration already had approved private control and that during entire World War II emergency, no government control was exercised over programming since stations and networks invoked voluntary censorship. FCC staff also opposed OCDM language.

Ford mulls radio

Ford Motor Co., Dearborn, Mich., which for this season is cutting back its network by dropping one half of its sponsorship of NBC-TV's Wagon Train and Alfred Hitchcock Presents, is considering network radio splurge and newspaper schedule to take up slack. Word is that Ford, through J. Walter Thompson Co., may buy on two or more radio networks. Change in strategy said to be influenced by auto sales drop. Ford's portion of NBC-TV shows have been "sold off" to Revlon.

Big brother is watching

In case any CBS radio affiliates are getting notions, network is still keeping tabs on their program clearances and still insisting they carry all shows reserved for network sales under "PCP Plan" as revised last fall. Inadequate clearance is reason network authorities give for quiet move a few days ago notifying KEPR Kennewick, Wash., that it was being dropped from CBS radio lineup. KEPR had been CBS affiliate for some 15 years.

All-band sets

Optimism exuded by FCC Commr. Frederick W. Ford and some of his FCC colleagues on proposed legislation to make manufacture of all-band (vhf-plus-uhf) receivers mandatory is premised on legal opinions that such legislation can be enacted and is constitutional. All previous efforts to enact such legislation have failed. But in past year, not only FCC lawyers but those of Dept. of Justice have concluded that sound legislation can be written. And there's at least one private opinion by highly placed law firm that it can be done. Electronic Industries Assn. consistently has assailed legislation on constitutional grounds. (Story page 62)

Clear channels continued

As promised, clear-channel case was back on FCC agenda for last Wednesday's meeting (CLOSED CIRCUIT, Feb. 27) but was passed over without debate or formal vote. Unofficially, its reported seven members present were split 3-3-1 (three favoring break down of all clear channels; three wanting to duplicate only half, and one against any breakdown without power increases for remaining clear). With new Chairman Newton Minow sworn in day after meeting, there is chance for action after he becomes acquainted with case.

Minow may wait

FCC Chairman Newton N. Minow may take his time in appointing new head of Broadcast Bureau which he regards as key staff position. Instead of lawyer or engineer, he may reach into broadcasting ranks for "practical broadcaster" familiar with vicissitudes of operations and observance of FCC's rules and regulations. Meanwhile, incumbent Harold Cowgill, who once operated uhf station in Illinois, continues on job.

Also under consideration, however, are several staff officials. They include James Barr, assistant chief of Bureau under Mr. Cowgill, Network Study Staff Chief Ashbrook Bryant and Louis Stephens, assistant chief of rules and standards. Joe Nelson, head of renewal and transfers, is being supported by others but has made no move on his own.

Fresno situation

KFRV-TV's ch. 12, believed earmarked for Santa Barbara as Fresno station begins permanent uhf operation on ch. 30, deremarked market, may remain in Fresno after all but as educational tv outlet. Otherwise it's likely to move to location north of Santa Barbara. One of channels involved in new bilateral agreement evolved by U. S. and Mexican governments in adjusting tv allocations (CLOSED CIRCUIT, Nov. 7) it's now learned authoritatively that Mexico does not look with favor upon ch. 12 operation in Santa Barbara because of limitations on its use by that country.

Untouchable boycott

Board of governors of Federation of Italian-American Democratic organizations of New York plans to propose at annual Amerigo Vespucci dinner on March 12 that its 500 member organizations in New York boycott sponsors of ABC-TV's Untouchables unless network gives "more satisfactory assurances" that future programs do not link Italians with crime. Italian-American group is also going ahead with plans to picket ABC New York offices on March 9, Amerigo Vespucci day (BROADCASTING, Feb. 27, 1961). Organization will use 21 pickets, representing 21 million members of more than 2,000 Italian-American groups across the country. New York chapter expects other chapters to join in boycott, which would be directed against one sponsor at time. Program is currently sponsored by L&M Cigarettes, Beecham Ltd., Armour & Co. and Whitehall Labs.

Early caller

Among first of official callers at office of FCC's new chairman, Newton N. Minow, after he was sworn in last Thursday was NAB President LeRoy Collins. He spent informal 10 minutes with new FCC head.

KJEO (TV) sale sets uhf record: $3 million

Sale of ch. 47 KJEO (TV) Fresno for $3 million cash—highest price ever paid for uhf outlet—was consummated last Friday, subject to FCC approval.

Purchaser is Shasta Telecasting Corp., Redding, Calif. (owner of ch. 7 KVIP-TV), headed by George Fleharty and which includes group of financial backers. Acquisition is from J. E. O'Neill, president of O'Neill Broadcasting Co. and 100% owner, who is retiring from broadcast business but will remain active in other California enterprises.

KJEO (TV) began operation Sept. 1, 1953, and has been affiliated with ABC-TV from start. Fresno becomes all-uhf market with impending switch of KFRE-TV from ch. 12 to 30. Shasta's KVIP-TV also is affiliated with ABC.

Mr. Fleharty said present operating policies and personnel of KJEO will be continued. Joe Drilling, vice president and general manager, likewise has been asked to continue.

Why pilots cost so much: something for everybody

Big reason for present high costs of pilots is that film makers now try to include as many elements as possible to fit whatever time period network or advertiser may have in mind, and thus be more salable, according to report not generally circulated.

Once sale is made, it's then simple to concentrate on most appropriate ingredients—action, humor, youth appeal, etc.—in making rest of series.

Pilot doctoring is even more important, so syndicators explain, in preparing film which fails to make network sale but is picked up by regional advertiser and is headed for syndication. Sometimes, an initial concept can come full turn around by time series goes into production to give series that "just right for syndication" look.

Sylvania's Grant opposes all channel tv proposal

FCC proposal to enforce all-channel tv set manufacturing (see page 62) is "unreasonable and inconsistent with the principle of supply and demand," according to head of tv setmaker Sylvania Home Electronics Corp.

Peter J. Grant, president of Batavia, N. Y., marketing subsidiary of Sylvania Electric Products Inc., said it "would place an unjustified cost burden on the public," which can buy all-channel models now if they choose. "It would be just as reasonable to require an applicant for a Florida driver's license to own a set of tire chains before he could take his road test" as to require production of all-channel sets, in Mr. Grant's view.

A 22 year-old secret

Just prior to swearing in Newton N. Minow last Thursday as FCC's new chairman, Associate Justice William O. Douglas of U. S. Supreme Court commented that 22 years earlier, he had fully expected to become FCC chairman and that failure to get appointment was one of great disappointments of his life. Inside story is that in 1939, after he had concluded tenure as chairman of Securities & Exchange Commission, Mr. Douglas was called in by F. D. R. and advised that he wanted to retain him in government (after Mr. Douglas had accepted deanship of law at Yale). After several minutes of conversation, F. D. R. disclosed he had just sent Douglas nomination to Senate for Supreme Court. Thereupon, James Lawrence Fly was named FCC chairman.

Lark sets radio programs around heavyweight bout

Studebaker-Packard Corp., for Lark Auto, South Bend, Ind., will sponsor 10-minute pre-fight program, Champ Close-Ups, before Patterson-Johansson contest March 13 on ABC Radio. Advertiser also will sponsor 10-minute wrap-up after fight should it go into seventh round, and will co-sponsor fight itself with Mennen Co. (BROADCASTING, Jan. 30) in four markets: New York, Chicago, San Francisco and Los Angeles. Excluding four Studebaker markets, Carling Brewing will share Mennen's national sponsorship. Agency for Lark: D'Arcy Adv., N. Y.

Chevrolet talking of fall

Chevrolet, which has let it be known it'll drop Dinah Shore's services for next season, is reviewing its network tv this week at meeting on West Coast. Talks will center on fall plans. Current shows: Dinah Shore hour on NBC-TV (Sunday, 9-10 p.m.) but slated to be filled next season with Bonanza, My Three Sons on ABC-TV (Thursday, 9-9:30 p.m.), and part sponsorship of Route 66 on CBS-TV (Friday, 8:30-9:30 p.m.).

CBS-TV affiliates learn why network didn't tell

"Why didn't they clear it first with their affiliates board?" Many have asked that question since CBS-TV first sprung its controversial but now operating plan to sell late-morning programming in "rotating minutes" (BROADCASTING, Jan. 16, et seg).

At closed meeting with affiliates board March 3, held for totally different purpose, network officials reportedly went out of their way to raise this same question and then answer it. They didn't check first, they explained, because their lawyers felt that, in view of rate and compensation changes involved, clearing it in advance might be construed as "price-fixing."

After this digression, described as congenially received, they went on with main purpose of meeting: to lay plans for general affiliates convention to be held in New York.

'Untouchables' outdrawn by NBC-TV's special show

American Research Bureau special overnight "national" and its regular "multi-city" report (seven major cities in U.S.) agreed Friday (March 3) that highly-rated The Untouchables of ABC-TV (Thursday, 9:30-10:30 p.m.) is indeed not sacrosanct. ARB's figures showed NBC-TV's special 90-minute "25 Years of Life" (9:30-11 p.m. reached an average 13 million homes in U.S., while The Untouchables was seen by an average of 8 million homes. A. C. Nielsen reported that in its New York "instantaneous" reports (via audimeter) NBC's "25 Years of Life" scored 39.6 average rating with 54.1 share during period when homes using tv in New York reached all-time high of 73.2.

GM plans package on NBC-TV

Chunk of unexpected General Motors business appears headed for NBC-TV summertime only. Details still must be worked out but concept seems to have substance: yet-to-be-determined GM divisions would participate in pack-
WEEK'S HEADLINERS

H. D. (Bud) Neuwirth, director of sales, WIP-AM-FM Philadelphia (Metropolitan Broadcasting Corp.), named vp and director of radio sales for Metropolitan. He joined firm last year as assistant to John W. Kluge, president and board chairman, and later was promoted to top sales post at WIP. Appointment, effective March 13, puts Mr. Neuwirth in charge of coordinating sales activities for Metropolitan radio properties: WIP Philadelphia, WNEW-AM-FM New York, WHK-AM-FM Cleveland, KMBC Kansas City (subject to FCC approval), and international station WRUL.

Maitland Jones, formerly senior vp and creative director, Fletcher Richards, Calkins & Holden, and previously in similar capacity at Sullivan, Stauffer, Colwell & Bayles, joins Donahue & Coe, N. Y., as vp and associate creative director. Mr. Jones will share creative directorship with Henry Slesar, both of whom will devote full time to creative supervision. Warren Donahue, who joined agency several months ago as copy director, will have full responsibility for department administration in addition to his creative duties. Move, according to Don E. West, president of Donahue & Coe, "may well chart the future of agency creative operations."

Edgar J. Scherick, president of Sports Program Inc., New York, which produces live sporting events for showing over ABC-TV, named ABC vp in charge of tv network sales, succeeding William G. Mullens, who continues as an ABC vp and whose duties will be announced at later date. Mr. Scherick has been in his own business for four years and earlier was sports specialist for CBS-TV and with Dancer-Fitzgerald-Sample, New York, as director of sports and special events. Michael Joseph, who has been program consultant to WABC New York and WISH Indianapolis, appointed program consultant to ABC's six owned-and-operated radio stations. From 1955-58 Mr. Joseph was national program manager of Founders Group of four radio stations, and later was vp in charge of radio for Capital Cities Broadcasting Corp.

William T. Orr, head of Warner Bros. tv division since its inception five years ago, appointed vp in charge of production of all tv, motion picture and theatrical production. He will report to Jack L. Warner, WB president. Mr. Orr was responsible for introducing following Warner Bros. series: Maverick, 77 Sunset Strip, Hawaiian Eye, Surfside 6, The Roaring 20's, Cheyenne, Lawman, Bronco and Sugarfoot.

Seymour L. (Stretch) Adler, director of national sales for Paramount Television Productions, N. Y., appointed vp and general manager of Paramount owned and operated KTLA (TV) Los Angeles. Mr. Adler, who joined Paramount in October 1959, previously headed both network and syndication sales for Official Films, N. Y., as well as program development and production. Prior to that, he held the same position with Guild Films, also N. Y. He was associated with Screen Gems from 1954-57 as senior account executive, after service as executive in radio-tv department of William Morris Agency.

For other personnel changes of the week see FATES & FORTUNES

age that includes nearly 50 quarter-hours. Though buy is not intended as antidote to reports of auto tv being in dire straits, it could well have that effect.

RCA dividend 25 cents

RCA, whose annual report revealed 13% drop in 1960 earnings (see story, page 48), declared quarterly dividend of 25 cents per share on common stock, payable April 24, 1961, to holders of record as of March 13, 1961. Firm also declared dividend of 87 1/2 cents per share on first preferred stock for period April to June 30, 1961.

H&B buys 3 more catv in West for $1.3 million

H&B American Corp., through subsidiary Transcontinental Communications Systems Friday (March 3) purchased three additional catv systems in Prescott, Ariz., and Missoula and Whitefish, both Montana, for approximately $1.3 million from local owners.

Purchase price included microwave relay which serves Montana systems, according to H&B Board Chairman David E. Bright. Three systems serve estimated 7,500 subscribers.

Last summer, H&B entered catv field with $5 million purchase of nine catv systems from Jerold Electronic Corp. (Broadcasting, Aug. 15, 1960). H&B is Los Angeles-based home building and steel forging company.

Way cleared for grant of ch. 10 to KMED Medford

Way was cleared for KMED Medford, Ore., to receive grant of ch. 10 there when FCC Chief Hearing Examiner James D. Cunningham Friday (March 3) dismissed without prejudice applications by two competitors.

He approved agreement whereby KMED would reimburse Medford Telecasting Corp. $9,300 and TOT Industries Inc. $6,700 for partial expenses in return for their withdrawal (Broadcasting, Jan. 23). KMED now is only remaining applicant for ch. 10 Medford.

QXR Network's 35th station

KRBE (FM) Houston became 35th fm station affiliate of QXR Network last week. Owned by Texas Fine Music Broadcasters Inc., with Ellis Gilbert as president, two-year-old outlet on 104.1 mc programs classical and semi-classical music exclusively. In its QXR affiliation KRBE (FM) becomes part of non-interconnected network of 15 classical music fm stations in major markets across country. There are 20 fm stations making up interconnected QXR Network, extending from Boston to Washington, D. C.
The booming Piedmont soars to new horizons of growth with the joint Greenville-Spartanburg Jetport—a six million dollar development linking the Piedmont SUPERmarket with the world at the speed of sound.

Located at the "Crossroads of the New South" near the intersection of interstate Highways 85 and 26, this new facility, the first regional Jetport in the South, will serve over a million and a half people who live within easy driving distance.

WSPA-TV blankets the broad heart of the Piedmont Industrial Crescent which the Jetport will serve. Here in the SUPERmarket of the South is growing industry, a payroll-rich population and unparalleled progress. Let WSPA-TV's powerful Channel 7 signal beam your message to this jet-age audience.

Our "board of directors" is the technical best. The kind that knows how — and how important — the advertiser's message is. The "board" gets the word across. And with the kind of finesse that outstrips ordinary competition. The extras that mean "extra sell" — smooth handling of live or filmed commercial material to meticulous and bright delivery of local-live tie-ins — make KJEO-TV your right time buy.

KJEO-TV is talent. Right now, top announcers and top technicians are standing by ready to create the "air time corporate image" you want for your product.

In the Fresno market look no longer. You've got KJEO.

Ratings? We've got them! Starting with both the Nas. 1 and 2 shows in the market! (Nos. '60 Nielsen)

Ratings & their use
EDITOR: True to his promise, Gov. Collins' remarks [BROADCASTING, Feb. 20] were candid and forthright...
But Gov. Collins also promised some irritation, and there was some in his comments on rating services...

As a matter of fact, broadcasting is the master of its own house, whenever, and to whatever degree it chooses. Research may tell how many people. It may tell as does Pulse's new Marketing Survey of Network TV Programs, what kind of people, and even what products they use. But research cannot and should not tell the industry whether it is doing the right thing... —Sydney Rodow, Director, The Pulse Inc., New York.

Name dropping
EDITOR: In the Maryland-D. C. Broadcasters Assn. (THE MEDIA, Feb. 20) one name was inadvertently dropped from the story, that of Thomas S. Carr (WBAL Baltimore), who not only is a director of the association, but is chairman of our legislative committee and who did yeoman work in setting up and conducting the meeting —Ben Straw, President, WWDC Washington; Publicity Committee Chairman, Md.-D.C. Broadcasters Assn.

Correction
EDITOR: ... We would like to correct an error relative to Liquid Mist Reddi Starch. You state that this product is being marketed by Union Starch & Refining Co., Inc., a subsidiary of the Simoniz Co. [BROADCAST ADVERTISING, Jan. 30].

(1) Union Starch & Refining Co. Inc. is not a subsidiary of the Simoniz Co.
(2) Liquid Mist Reddi Starch was tested and introduced by Union Starch & Refining and sold to the Simoniz Co. in November 1960. (3) The sale involved the product only, not our company nor any division of it. —L. S. Barnhart, Advertising & Sales Promotion Manager, Union Starch & Refining, Columbus, Ind.
Who committed the Time?

Was it truly the Time Buyer?

Or was it the Media Buyer, the Radio/TV Account Man, the Sponsor's Advertising Manager, or perhaps the Company President himself?

Time-buying decisions often involve the entire advertising-marketing complex. Even Space Buyers get into the act.

Media/scope is edited for all these decision-makers—for the people who buy or influence the purchase of advertising in all media. Its circulation is concentrated among such people, regardless of title, regardless of advertiser company or advertising agency affiliation.

Your message in Media/scope reaches this important audience of decision-makers...provides them with information that helps them buy time on your station.

Now in the March issue:
“Check List for Media Plans” compiled by the editors of Media/scope—a comprehensive list of factors a media planner encounters in making decisions.

Where do you get a ‘swinging’ idea?

Ideas for unusual commercials are likely to come from anywhere. Good ideas can and do come from photographers, film producers or other suppliers. They can also come from account men or even from your neighbor who complains about commercials (try asking him just “how” he would do it better).

It pays to listen to everybody—including the nuts. They may be just far enough out in left field to come up with a swinging idea.

But the idea is just the beginning. It’s up to the agency creative director or the copy chief or the writer to find the right technique for giving expression to the idea. The technique by itself is not pertinent, but married to the right idea the result is a commercial that sells.

Consider some of the commercials Campbell-Ewald has done for Chevrolet in television. They took the grand prize and honorable mention at the Venice Film Festival, won the top car commercial award at the American TV Commercials Festival and Forum and garnered many other awards.

‘Slice of Life’ • Back in 1956, our tv department looked at a film produced and directed by Jerry Schnitzer. Not a commercial, simply a “slice of life” vignette. It was wonderfully warm and revealing in the way it dealt with people. It was gently humorous. It was easy to identify yourself with the people on the screen. We got the client to look at the vignette, he saw the possibilities and agreed that it might be a way to go.

Trouble was it was nearly impossible to write that kind of technique into a television script. All we could do was develop a situation, write a paragraph delineating it and depend on Jerry’s sensitivity, talent and way with people to make it come alive.

The result was a commercial titled “Going to the Dance.” It was a two-minute vignette about a teen-age boy borrowing his father’s car to take his girl to a dance. There were only six words of audio in the whole commercial. It turned out to be the most “awarded” commercial of the year. We’ve done several “Schnitzers” since. The one he did last year featuring a family shopping for a station wagon won another honorable mention at Venice.

At least a half dozen of our very best commercials have come from suppliers. Not just from film producers or companies with a television technique to sell, but from people with whom we do many kinds of business and who visit our offices frequently.

Complaint • One day Warren Winstanley, a Detroit photographer who has taken pictures for a number of our print ads, was talking to Bob Murphy, one of our television writers. Winstanley complained that much of the film shown on television was poor photography, poorly composed—and certainly not up to the standards of a professional still photographer.

To prove his point, Winstanley took 800 pictures of a Chevrolet truck. From this batch he selected 340 slides to be put on movie film. We added a soundtrack and it went on the air. The result was quite startling. It wasn’t quite squeeze motion and it was anything but a “flock” of slides. It attracted attention. So well, in fact, that we made another one last spring.

Good ideas come from far out of your own backyard, too. For example, we’ve used ARCO Productions on several occasions. Their first job for us was a commercial titled “An American Visits Paris.” It featured a driverless car winding through the streets and past the sights of Paris. Beautiful. And we’ve done more with them.

Video Tape • Some of our best and most unusual commercials were done on video tape. Chevrolet was a pioneer in the use of the tape medium. One successful experiment solved the problem of squeezing 1½ minutes of commercial into one minute of time. Part of the selling message we wanted to get across, in connection with the Chevrolet Corvair, was the extra “load space” available in the back of the car with seat folded down. Unfortunately, the script insisted that the actors load the car.

After a couple of dry runs, our producer, Peck Prior, was ready to give up. Then he had a flash of inspiration. He had the actors load the trunk, then he taped them unloading it. When the tape was run backwards you saw the fastest loading job ever witnessed on television.

That success resulted in more experiments with tape, some spectacular, some best forgotten. But we feel that making mistakes is an important part of achieving the unusual. You must provide the freedom to fail or you’ll never come up with that truly spectacular “different” commercial.

This year we ran into another interesting television experience. Instead of the usual “variety show,” Chevrolet bought co-sponsorship in an exciting adventure series titled Route 66 on CBS-TV. Research told us we’d have to come up with some pretty unusual commercials if we wanted to be seen in an exciting television show like Route 66.

Integration • So we borrowed an idea from the show itself. The continuity is based on the experiences of two boys traveling west on Route 66 and finding adventure along the way. Campbell-Ewald writer Don Frankman drove out Route 66 all the way to Los Angeles to scout situations. As a result, he wrote 13 different commercials, moving from east to west just like the show. The commercials have an element of adventure, of discovery, about them and integrate well with the program.

Sameness in advertising? There doesn’t have to be. The ideas are around to be had. It just takes a little bit more work to get the unusual on the air or into print.
An ever-expanding program pattern

Dimension is creating a new depth of audience interest in seven of the largest markets, coast-to-coast.

Dimension—exciting vignettes in sound that stir the imagination: “This is my Profession,” “Hometown Recollections,” “American Landscape,” “Bennett Cerf Stories,” “Wonderful World of Teens,” “Yesterday’s Heroes Today,” “The Year 2000,” Richard Joseph’s “Travel Notes,” “Dorothy Kilgallen Introduces,” and more.

Dimension—conversation pieces by the world’s most interesting people: Raymond Massey, Vincent Price, Burgess Meredith, Hildegarde, Carl Sandburg, Celeste Holm, Shelley Berman, Zsa Zsa Gabor, Mischa Elman, Theodore Bikel, Margaret Mead, William Zeckendorf, and many others.

Dimension has been added to the strongest local programs on radio, those of the CBS Owned Radio stations—the idea stations.

Dimension is an added reason for expanding your sales by reaching large and attentive audiences on:

WCAU Philadelphia, KMOX St. Louis, KNX Los Angeles, KCBS San Francisco, WCBS New York, WEEI Boston, WBBM Chicago: The CBS Owned Radio Stations
When I was sick and lay a-bed,
I had two pillows at my head,
And all my toys beside me lay
To keep me happy all the day.

And sometimes for an hour or so
I watched my leaden soldiers go,
With different uniforms and drills
Among the bedclothes, through the hills;

And sometimes sent my ships in fleets
All up and down amid the sheets;
Or brought my trees and houses out,
And planted cities all about.

I was the giant great and still
That sits upon the pillow-hill,
And sees before him, dale and plain,
The pleasant land of counterpane.

— Robert Louis Stevenson

Maybe it's leaden soldiers... or ships in fleets... or little toy cities... sent by the WLW Stations to children in hospitals that help keep them "happy all the day."

We hope so. Over the past nineteen years, the Crosley Broadcasting Corporation Ruth Lyons Annual Fund has collected almost two million dollars for children in thirty-four hospitals, with last year's record contribution of over $315,000.00.

This is more than the policy... this is the spirit of the WLW Stations — to serve their communities in every way, especially to remember those who are forgotten... like the little "giant great and still that sits upon the pillow-hill."

Naturally, we are proud of our reputation in the communications industry. But we are most proud when our ratings and statistics, when our business and technology are pleasantly lost for priceless moments in such lands of counterpane.

Yes, this is our pride — but also our privilege.
W-I-T-H with CCA is Baltimore's Most Powerful Selling Force!

Ever since Eve lured Adam in that garden, women have had control of things... money included. For example, Baltimore women have presented over NINETEEN MILLION proofs of purchase as part of W-I-T-H's Community Club Awards. And W-I-T-H, being men—businessmen, and only human—has rewarded these fast-buying women with $183,000 in cash. How do you like them apples?

And CCA is only part of the W-I-T-H sales-success story. Only W-I-T-H has such extensive merchandising tie-ins with Baltimore's leading drug and grocery outlets, offering you in-store promotions, displays, bargain-bar features and other forms of sales-proven, sales-producing extras. They all add up to make W-I-T-H America's greatest selling station. Write, wire or phone today for full details.

BROADCASTING, March 6, 1961
Who pays check for America's pastime?

RADIO-TV SUBSIDIZE BASEBALL WITH $17 MILLION FOR RIGHTS

Triggered primarily by the American League's controversial expansion, a boost in televised games, color television and a king's ransom in extras, baseball billings in 1961 will soar to an all-time high estimated at $75 million, according to Broadcasting's annual survey. This surpasses last year's overall estimated tab of $70 million (Broadcasting, March 14, 1960), far and away baseball's most productive year in broadcast billings.

Baseball teams in the two leagues will receive a total estimated at $17.3 million from broadcasting. This is broken down to approximately $6.3 million to the 10 teams in the American League, $5 million to the eight teams in the National. In addition CBS-TV and NBC-TV will pay $2.7 million for their Game of the Day telecasts and the World Series and All-Star rights have brought in another $3.2 million.

These rights have in turn been sold to sponsors under many different types of contracts with beer companies the biggest single advertising classification. These contracts are estimated to total $75 million this year as compared to $70 million a year ago.

Advertisers Eager • The back-to-back record seasons (with another already set for 1962) have disproved the charge that some clubs are pricing themselves out of the market. Bidding in 1961 has been described on all fronts as highly competitive with most advertisers seeking to renew promptly so as to keep others out of the bidding.

The American League's decision to expand will bring baseball nearly $2 million more revenue than was spent for broadcasting rights in 1961 (see chart page 30), with most of it coming from the new territories.

So good is business this year that Mutual Broadcasting's failure to renew its estimated $750,000 Game of the Day broadcasts has made but a minor dent in the overall picture. Also adding to the rosy hue is the fact that most contracts already are firmed up—a turnaround from the last-minute chaos usually prevalent in the final pre-season week.

Revenue Boom • Biggest factors in the increased rights revenue are the fees from the major markets of Los Angeles and Minneapolis-St. Paul, a

$75 million tab will be picked up by baseball sponsors

$17 million will go to baseball teams for radio-tv rights

$1.3 million more goes to teams this year than last

More games will be broadcast by radio and tv than ever before

thereby opening up a new area of bargaining. Pay tv has not reached the baseball front—but a spokesman for the sport says that provisions already are being made for that eventuality.

Both NBC-TV and CBS-TV will be spending high, wide and handsome for their respective Game of The Day packages with an estimated combined figure of $26 million, up 10% over 1960.

Exodus of Mutual • Reasons for Mutual's departure from Game of The Day broadcasts after a 10-year association, according to Robert Hurleigh, MBS president, were (1) that enlargement of baseball networks had sharply reduced the number of stations eligible to be served by Game of The Day and (2) the desire expressed by Mutual affiliates to keep emphasizing news broadcasts rather than dropping them for baseball. In this connection it was pointed out by an MBS spokesman that 1961 promises to be a "big news year."

Emerging as a relatively new "face" in the baseball picture is Sports Network Inc., New York, which provides facilities and services for coverage of out-of-town games for major league clubs. SNJ expects to be active in 450 tv games and in excess of 3,000 on radio. It has its own personnel, though on occasions local station employees are engaged.

In the sponsor department the breweries, as usual, are the kingpins (17 of 18 teams with the Los Angeles Dodgers the lone exception). Tobacco and oil companies follow in that order. Individual, the "The" Brewing Co., last year's leader (excluding Gillette), has reduced some of its spending, thus encouraging the leadership challenge of Falstaff Brewing Co. which surges via purchases of the Los Angeles Angels.

Good Baseball Year • The fact that 1961 is looming as a great year for baseball has inspired much of the advertisers' quickness to firm their contracts at an early date, or miss out on the expected bonanza. Whereas a handful of clubs (those still in the pennant fight near season's end) are given a chance of bright financial profits, 1961, the experts say, will begin a new era in baseball with the emergence of Pittsburgh, Baltimore and St. Louis as league powers, in addition to the old standbys, and Los Angeles, Minnesota.
WHO PAYS FOR AMERICA'S PASTIME? continued

and Washington profitable curiosity points if nothing else. This means more interest and more money—on all fronts.

The Future: Although 1961 is expected to reach a new high for billings and rights, 1962 will be better—perhaps by as much as $10 million more, with National League expansion into New York and Houston (first southwestern baseball entry); the start of Gillette's new 5-year $4 million-plus World Series-All-Star Game package; possible entry into television of Milwaukee; new color contracts in Cincinnati, Chicago and possibly other places, and rights renewals for most National League teams. If it proves nothing else it does reveal that broadcasting's traffic will bear plenty and that its limit has not been reached and won't be for a while.

Below are the 1961 lineups as of last Friday.

AMERICAN LEAGUE

Baltimore Orioles: WJZ-TV Baltimore will teletape 50 Oriole games (11 at home and 39 away) on a regional hookup in the surrounding area. Theo. Hamm Brewing Co., through Campbell-Mithun, Baltimore, and P. Lorillard Co., through Lennen & Newell, New York, will co-sponsor for television. WBAL, Baltimore, will broadcast the Orioles' complete schedule plus 12 exhibition games starting March 11 with Hamm Brewing Co. picking up ½ sponsorship and 12 local firms sharing the remaining ½. Herb Carneal and Bob Murphy will air games on tv with Joe Crogan handling play-by-play on radio.

Boston Red Sox: The entire Boston schedule will be broadcast by WHDH, that city, with 56 contests to be carried on WHDH-TV on weekends, holidays and on 10 evenings. Radio coverage will be extended to a network of 40 stations in New England. A tv network of four cities—Hartford, Providence, Portland and Bangor (Maine) will be fed the tv coverage. Sponsors will be the Atlantic Refining Co. through N. W. Ayer & Son, New York; Narragansett Brewing Co., through Doherty, Clifford, Steers & Shenfield, New York, and American Tobacco Co., through BBDO, New York. Curt Gowdy, Art Gleeson and Ned Martin will provide play-by-play and color.

Chicago White Sox: Daytime home games will be colorcast for the second consecutive year on WGN-TV Chicago (see feature sidebar page 34) with a card of 15 night games in black-and-white. Theo. Hamm Brewing Co., St. Paul, Minn., through Campbell-Mithun, Minneapolis, will co-sponsor on tv. The alternate sponsorship is not set except for Camel cigarettes, which will take one-quarter. Jack Brickhouse, assisted by Vince Lloyd and Bob Blaisdell (Maize) for the 14th year. Opening home game is April 18. In radio, WCFL Chicago, will feed all games on a network of more than 60 stations in several states—extending as far as 1,200 miles. Season begins March 10 with spring training games. Ralph Kiner, ex-National League home run champion, and Bob Elson will handle play-by-play. Sponsorship includes renewals by General Tire & Rubber Co. through D'Arcy Adv., New York; General Finance Co. through Gordon Best, Chicago, and Anheuser-Busch's Budweiser beer through D'Arcy Adv., St. Louis. Newcomer is American Tobacco Co. through Gumbinner, New York, replacing White Owl cigars.

Cleveland Indians: WJW-TV Cleveland will teletape 56 Indian games and WERE-AM-FM will broadcast the complete schedule over a 35-city network. Television sponsorship—½ each—is shared by Carling Brewing Co. through Lang, Fisher & Stashower, Cleveland; Standard Oil of Ohio (Sohio fuel) through McCann-Erickson and American Tobacco Co. through BBDO, New York. Carling also sponsors on radio with others still to be named. Play-by-play will be handled by Ken Coleman and Harry Jones on tv and Jim Dudley and Bob Neal on radio.

Detroit Tigers: Repeating last year's coverage, Stroh Brewery Co. through Zimmer, Keller & Calvert and Speedway Petroleum Corp. through Doner Co. will each take one-third of a big radio-package. WMKMH Dearborn, Mich., will originate a feed to a network of some 50 stations that includes WWJ Detroit (afternoon games) and WJR there (evening games). In prospect is a third-sponsorship sale to American Tobacco Co., possibly for Lucky Strike, through BBDO, New York. About one-third of the Tiger schedule under the same sponsorships will go on tv with

Pay tv may have long wait for World Series

Baseball's World Series will become available to pay tv only when 25% of the population is subscribing.

This is the position of Ford Frick, baseball commissioner, who arranges for radio and tv rights for the World Series each year. This 25% pay-tv coverage figure is written into the five-year contract signed last year by Mr. Frick and NBC and Gillette, according to Mr. Frick (Broadcasting, Feb. 29, 1960).

Coverage, Mr. Frick feels, is just as important as income when the World Series is involved. In some respects coverage is more important: "The World Series is our show case," Mr. Frick said the other day. "We've got to show it to as much of the country as we can."

When pay tv has a coverage that encompasses one-fourth of the nation, baseball will be receptive to bids, Mr. Frick emphasized. "We are not interested in pay tv in isolated cases," the baseball commissioner stressed, "only in national coverage." He acknowledged that no one has yet approached him to put the World Series on a pay tv basis, either air or wire.

In the U. S., plans are underway to run an FCC-approved three-year over-the-air test of Phonevision in Hartford, Conn. (Broadcasting, Feb. 27). Under RKO General auspices, it is expected to begin in six months. A wired operation is under serious consideration in Little Rock, Ark., where a local group has asked the state public utilities commission to order Southwestern Bell T&T to furnish lines to the group. This will use the Telemeter coin-box method, the same system that is being run in the Toronto suburb of Etobicoke at the present time.
When the people in Hamlin and environs wanted a job done they called on the Pied Piper. For action in Cleveland they pipe for WHK. It's the radio station with the most followers-biggest audience and largest number of local clients. Lock up your family if you don't buy WHK.

Ohio's tallest TV (1104 ft.) and FM Antenna at (1000 ft.), plus new hi-power FM, boosted to 35 KW., November, 1960.

New maximum power TV thrust reaches out to cover almost 3 million people in the Dayton area (Ohio's 3rd market). New hi-power FM blankets a 22,000 sq. mile area.

and WHOLESOME!

Sensible programming variety—from good music, news and sports to thoughtful public service, local interest, and then some.

Check with George P. Hollingbery for data on WHIO-TV and WHIO-FM, Dayton's High, Wide and Wholesome power and programming pair.
WHO PAYS FOR AMERICA'S PASTIME continued

commence April 11 and end Oct. 1. WCBS-FM will carry the full 162-game schedule as well as all exhibition games. The am outlet will carry 142 games, excluding only those scheduled on week-day afternoons. Yankee games also will be broadcast on a 40-station "Home of Champions" radio network, covering New York, Connecticut and western Pennsylvania. Mel Allen, Red Barber and Phil Rizzuto are Yankee sports-commentators.

Washington Senators: WTOP-AM-FM-TV Washington will broadcast the full slate and will telecast 30 games (6 more than last year) of the new Senators on a several state regional network. P. Ballantine & Son (Ballantine beer) and R. J. Reynolds Tobacco Co., both through William Esty Co., New York, each will sponsor ½ on television with the remaining ½ not sold as of now. Ballantine will also sponsor 4/9 on radio with 12 local firms sharing the remaining 5/9. Those already set are Briggs Meats and Washington Gaslight Co., both through Kal, Ehrlich & Merrick; Sears, Roebuck through Alvin Epstein Adv., and Bruce Hunt (clothing store) through Abramson Adv., all Washington agencies. Other sponsors not complete. Play-by-play will be handled by Dan Daniels and John F. MacLean.

NATIONAL LEAGUE

Chicago Cubs: As in the case of the White Sox, WGN-TV will carry all daytime home games in color, covering 77 games, with co-sponsorship signed by Theo. Hamm Brewing Co. through Campbell-Mithun, Minneapolis, for this season and next. Camel cigarettes also has been signed for one-fourth sponsorship with the rest not set. WGN also has radio rights to the Cubs with sponsorship one-third sold to Oak Park Federal Savings and Loan Assn. through Roy Conner & Assoc., Aurora, Ill. The other portion is still in negotiation.

Cincinnati Reds: Color telecasting of day and night games again this season will be standard operating procedure at WLWT (TV) Cincinnati using the highly sensitive GE pickup tube. Apparently no sponsors like it, too, because they all have renewed: Hudepohl Brewing through Stockton-West-Burkhart, Cincinnati; Standard Oil of Ohio through McCann-Erickson, and College Palmolive Co. through Ted Bates. The Crosley Broadcasting Co. station will feed the colorcast coverage to Crosley's owned stations WLWC (TV) Columbus and WLWD (TV) Dayton, both Ohio, and will feed WSAZ-TV Huntington, W. Va., and WLEX-TV Lexington, Ky. Season starts April 11. On radio, the Reds will be fed by WKRC Cincinnati to a network of more than 50 stations, 45 of which already have signed for the new season. The whole radio package will be sponsored by Burger Brewing Co. through Midland Adv. It will be Burger's 20th year of baseball radio.

Los Angeles Dodgers: Union Oil through Young & Rubicam, Los Angeles, and American Tobacco (Tareyt tobacco cigarettes and Roe-Tan cigars) through Lawrence C. Gumbinner Adv., New York, co-sponsor all Dodger games on radio (154) and television (11, all at San Francisco against the Giants) on KFI and KTTV (TV), respectively, both Los Angeles. KTTV also does pickups of Giant games in Los Angeles for KTVU (TV) San Francisco-Oakland. Radio network will encompass 19 stations. Sponsors are the same as last season. Play-by-play will be done by Vin Scully, Jerry Doggett and Chuck Bennett.

Milwaukee Braves: All three sponsors have renewed for the radio-only package that totals up to nearly 50 stations in a several state area. These include Miller Brewing Co. through Mathisson & Assoc., Clark Oil and Refining through Tatham-Laird and American Tobacco Co. (Tareyt tobacco cigarettes) through Gumbinner Adv. Miller signed its second five-year pact for radio coverage in 1958. Originating outlet again will be WEMP Milwaukee with duplicate coverage also to be aired by WMIL-TV, both Milwaukee. Mathisson handles details of the baseball package. Club does not televise any games. Earl Gillespie and Blaine Walsh will do play-by-play for the 9th consecutive year. Spring training broadcasts begin March 15.

Philadelphia Phillies: WFIL-AM-TV Philadelphia again will carry the Phillies' games. The radio schedule: 20 pre-season games and 154 regulation games. Some 20 other radio stations in eastern Pennsylvania, New Jersey, and Delaware form a Phillies radio network. TV schedule: 20 home games, 35 away games. All but 16 telecasts are daytime games. Other tv stations picking up the Pha are WAGL-TV Lancaster and WNEP-TV Wilkes-Barre-Scranton, both Pennsylvania. Radio-tv sponsorship is the same as 1960: Atlantic Refining (N. W. Ayer & Son) is back for the 26th year; P. Ballantine & Son through William Esty Co., New York; Bayuk Cigars through German advertising.

Florida enjoys annual baseball boom, too

The business of baseball rose to a peak in Florida last week as 13 major league and 50-odd minor league clubs fielded their full squads in training camps.

Thousands of dollars pour into resort coffers every day as close to 2,000 players, coaches, other club personnel, broadcasters and sportswriters go about their pre-season activities in the generally sunny state.

The importance of the sport to Florida is shown by the spirited bidding by cities for the spring training activities. All but five major league clubs are installed around central and southern Florida. The camps are a star tourist attraction.

"Once more Florida has the honor of hosting a California team, the Los Angeles Dodgers who are camped in typically deluxe quarters at Vero Beach," the Florida Development Commission proudly announced. It suggested this "is an endorsement of Florida's superior weather for spring baseball training, and fans from all over the nation will have a chance to get preview looks at their favorites as they, too, enjoy Florida's fabulous commodities— sunshine, beaches, fishing, recreation and easy living."

The state is a busy programming source for radio and tv stations in the North as tape, film and telephone beep accounts of training activities are transmitted northward. While no estimate has been made of the amount of sponsored time sold, it's known to be significant.

Of more significance to Florida is the power of baseball training to extend the peak tourist season through March and into April. The liveliest municipal bidding appears to be efforts by Fort Lauderdale and Miami to lure the New York Yankees away from St. Petersburg.

Florida is celebrating its 73rd anniversary of major league spring training camps. The Washington Senators were the first to train in the balmy climate, pitching camp in Jacksonville in 1888. In 1903 the Philadelphia Athletics moved into the city and soon the Florida camps were sprouting all over the state.

There's one cloud on the horizon—the clubs are annoyed at the refusal of hotels to house Negro players, who usually are shunted to rooming houses. More and more radio and television stations in or near training-camp cities are originating games for home-town audiences while thousands of dollars are spent daily by players and club personnel in the usual round of pre-season activity.

BONUS FOR TOP SPOT

The new Minnesota Twins are claiming a baseball first in their "incentive plan" sale of broadcasting rights to WTCN-TV and WCCO, both Minneapolis-St. Paul. Simply, here's the plan: The Twins sold their rights on the basis of finishing anywhere between fourth and tenth place. If the Twins finish higher, the stations will pay an additional rights fee. A first place finish would not be limited to $60,000, for the team, a 10% boost.

PITTSBURGH PIRATES: KDKA Pittsburgh will broadcast the entire Pirate slate with 35 of these (and possibly more) to be presented on KDKA-TV. On radio the coverage will be provided to a network of 26 stations in Pennsylvania, Ohio and West Virginia. The sponsorship this year will be by Atlantic Refining Co. through W. Ayer & Son, New York; Ford Motor Co. of Allegheny County through J. Walter Thompson, New York, and Iron City Brewery through Ketchum, McLeod & Grove, Pittsburgh. Jim Woods, Bob Prince and Paul Long will do the sportscasting.

SAN FRANCISCO GIANTS: KSFO San Francisco and Golden West Network will broadcast entire schedule with Falstaff Brewing Co. through Dancer-Fitzgerald-Sample, N. Y.; J. A. Folger Co. (coffee) through Fletcher Richards, Calkins & Holden, San Francisco, and American Tobacco (Taretton cigarettes) through Lawrence C. Gumbinner Adv., N. Y., each sharing 1/8 sponsorship. The Giants also will break their self-imposed tv barrier with 11 telecasts—all away games with the Los Angeles Dodgers—on KTVU (TV) San Francisco-Oakland. Falstaff picks up the entire tv tab. This is the first tv venture for the Giants since moving to the west coast in 1958. Russ Hodges and Les Bailey will handle the commentatory on both radio and tv.

ST. LOUIS CARDINALS: As in previous years, KMOX St. Louis will feed a radio network of some 60 stations in nearly a dozen states for sponsorship by Anheuser-Busch's Busch Bavarian beer through Gardner Adv., St. Louis. Although there is no telecasting when the Cardinals play at home, about 40 road games will be carried for Busch on KPLR-TV there. For many years the Cardinals radio network has claimed to be the biggest, but it is being challenged now as some of the other regional groups press the 60-station mark, too.

NETWORKS

CBS-TV: Approximately 160 stations will carry CBS-TV's Baseball Game of the Week in the U. S. and about 40 Canadian stations will present about 12 games out of 50 contests scheduled on Saturday and Sunday by the network. Network officials said they were lining up various regional sponsors for the games but could announce at this time that only Falstaff Brewing Co., through Dancer-Fitzgerald-Sample, would underwrite the games in various areas of the Midwest. Former major league stars Dizzy Dean and Pee Wee Reese will handle the announcing chores.

NFC-TV: Weekend telecasts of top major league games will commence on 150 stations April 15-16. A total of 50 Saturday-Sunday games will have been telecast when the last tv game is played on Oct. 1. Lindsey Nelson and Joe Garagiola will call the play-by-play on NFC-TV's Major League Baseball series. First advertisers to sign: General Insurance Co., via Cole-Weber Adv., Seattle, for one-quarter on alternate Sundays; Anheuser-Busch, Busch Bavarian beer, via Gardner Adv., St. Louis, one-half sponsorship on both Saturday and Sunday in the Midwest. The games will not be seen in any major league market, and no colorcasts have been set.

BASEBALL IN FULL COLOR PROMISES FUTURE PROFIT

WGN-TV Chicago, which last year began full scale colorcasting of baseball games, feels the impact of color tv might very well establish a "New Frontier" in the national pastime. Last year's experiment—the colorcasting of 120 games of that city's White Sox and Cub games at virtually black-and-white prices—prompted these words from Ward Quaal, WGN-TV's vice president and general manager: "Color is a most potent and dramatic innovation in television, adding a fourth dimension of increasingly greater importance to the matchless combination of sight, sound and motion. We believe in color because it is better television."

Indicative of Mr. Quaal's feeling is WGN-TV's new radio and tv center on Chicago's north side, an all-color operation featuring live, local programming and increased emphasis of the use of color prints on feature and syndicated film prints.

Financial reflection actually will not be realized until 1962 when the broadcast rights of both the Cubs and White Sox will undergo revision because of the National League's expansion plans (meaning an additional eight games to the Cubs' schedule) and the possibility of nighttime colorcasting which the station hopes to install.

WLWT (TV) Cincinnati, successful pioneer in nighttime colorcasting, also will not realize any additional profits from its venture until 1962 when the Redleg rights are renewed. No figures are available from 1960's test, but WLWT officials report a heavy saturation of color set sales in Cincinnati and a solid share of the audience despite the fact that the Redlegs had a relatively poor season.

PULSE TO START A NEW IN-HOME INTERVIEW METHOD

The Pulse Inc. will announce officially this week the start of a new in-home interview method which is designed to eliminate two problems that occur regularly in its monthly or bi-monthly reports on viewing and listening. A Pulse spokesman said last week that continuing coincidental in-home interviews began March 1 in the top 20 markets, and the service will expand to all markets "as quickly as possible."

The new interview technique, which, in effect, will validate the research company's recall findings based on the roster reconstruction method, has been initiated to check upon the listening and viewing by (1) the not-at-home families, and (2) short-span memory loss. Results of the coincidental in-home interviews, which will constitute 6-9% of the total aided recall interview sample, will be released at no extra charge to clients in the regular monthly or bi-monthly Pulse reports.

AGENCY APPOINTMENTS...

- Benson & Hedges (Canada) Ltd. appoints James Lovick & Co. Ltd. and Kenyon & Eckhardt Ltd. for handling of new cigarette accounts. Media plans will be announced at a later date.

- The American Petroleum Institute, N.Y., appoints J. Walter Thompson Co. for a program of research and advertising to stimulate automotive travelling. A research project now underway is designed to learn what motivates car owners to travel and to give an indication of which advertising media will be most effective to attain the institute's objective.

- Exquisite Form Brasriere Inc., N.Y., appoints Kastor, Hilton, Chesley, Clifford & Etherton, that city, as its advertising agency for the Exquisite Form Brasriere and Feminine Form divisions. EFB's budget will be above last year's ($500,000), and will be used in both print and broadcast media.
At home in the country or the city... wherever important things are done or discussed, you'll find the "Metropolitan personality."

Harvester radio show goes out to dealers

A significant business prospect for the smaller market or suburban radio station developed in Chicago as International Harvester Co., through Young & Rubicam there, ordered pressings last week on a series of 40 quarter-hour radio shows for distribution to U. S. International Harvester dealers.

The package, which instructs dealers to contact all radio stations in their areas to get rate information and offers a $4 per program cooperative advertising incentive, marks the manufacturer’s major entry into the general consumer automotive field. I-H is introducing its new Scout multipurpose family car. Young & Rubicam expects about 200 dealers initially will place the program.

PKL’s formula: ‘talk to one guy at a time’

The advertising business that overnight can make a new product known nationally also can hasten the growth of an agency in only a year’s time, from an initial $75,000 billing to $6 million a year.

And, reports Papert, Koenig, Lois Inc., New York, its overall billing in 1962 will go much higher, perhaps to around $10 million.

For PKL, which is speedily becoming "known" along New York’s ad row, it’s also a story of about $3 million in current radio-tv billing and an anticipated $6 million in broadcast billing next year.

It’s the contention of Frederic S. Papert, board chairman, that the agency has won its spurs because of a fundamental “belief” in advertising itself. Say its executives: too many agencies forget an advertisement (or commercial) is a very personal thing and must “talk to one guy at a time.”

A typical example of how Papert, Koenig, Lois talked to a lot of guys one at a time was the mild spot radio campaign early last fall for Park & Hagna’s Dilly Beans (Broadcasting, Sept. 12, 1960). In the campaign the agency stimulated growth for a small-budget advertiser ($80,000) and at the same time for itself.

It’s been like that ever since.

Several prominent men in advertising already have taken notice of PKL’s work. Among them are Roy Durstine, co-founder of BBDO and president of Roy S. Durstine Co., who is doing an article about the efficacy of the imaginative commercial, and who has called on Mr. Papert for samples of the agency’s work to demonstrate Mr. Durstine’s point.

Alikeness = John Orr Young, co-founder of Young & Rubicam and presently a New York advertising consultant, in a recent issue of his organization’s newsletter, mentioned PKL along with Y&R, Ogilvy, Benson & Mather, Doyle Dane Bernbach and Leo Burnett: “. . . The five are bound together by what seems to me to be the same approach to agency life. . . . They believed in advertising. . . . They offered service instead of servitude, ability instead of obeisance.”

With the belief that PKL people “don’t do things that are cute for the sake of being cute,” the agency asserts it creates soft-selling, light and humorous approaches to its advertising. In its broadcast commercials for Pharmacraft Labs (Coldene and Allerest), Park & Hagna (Dilly Beans and another new product, now in test markets), and Ronson Corp. together representing about 50% of the total agency billing, this philosophy persists.

When George Lois, a Doyle Dane Bernbach art director, and Julian Koenig, a DDB copy head, joined in partnership with Mr. Papert in January 1960, they opened their doors with 2,000 square feet of office space and a staff of six: Messrs. Papert, Koenig and Lois, Mr. Papert’s wife, a bookkeeper and a secretary. Now they have 5,000 square feet of space, a staff of 35, and a desperate need for even more space.

The distressed individual above does not have a moustache—he has simply gotten in the way of a cat’s tail. The man, who is allergic to cats, is advised to take Allerest in a spot tv commercial prepared by Papert, Koenig, Lois, New York, for Pharmacraft Labs. The cheerful cold tablet, part of a sequence presented to Pharmacraft Labs for approval, tells of the “modest cold tablet” (Coldene) that can only make the user feel better, “that’s all.”

Tidewater buys specials for tv use in 50 cities

Tidewater Oil Co., through Foote, Cone & Belding, Los Angeles, has purchased two one-hour specials: “The Race for Space” and “Project: Man in Space,” from David L. Wolper Productions for 50 markets.

"Race for Space" will be broadcast the second week in April. It will be new in some areas, a repeat in others. "Project: Man in Space," now in production, is scheduled for telecasting the second week in May. David Wolper is executive producer and Jack Haley Jr. producer-director of "Project." Originally planned for network showing, "Race for Space" was rejected by the tv networks and was first broadcast almost a year ago on a spot basis by Shulton Inc.
tv networks bill an extra $55 million

CBS-TV REMAINS OUT IN FRONT IN ’60 WITH $274 MILLION GROSS

Network tv gross billing in 1960 totaled more than $682.3 million or 8.8% above 1959 when the networks chalked up more than $627.3 million billing.

Television Bureau of Advertising’s accounting for the year also reveals each of the networks up from 1959 with ABC-TV scoring the greatest proportionate gain (26.9%) compared to the others (NBC-TV’s 6.1% and CBS-TV’s 2.9%).

Though CBS-TV was edged out of billing lead by NBC-TV in at least two of the months (October and November) in 1960, it completed the year with a total billing of more than $774.1 million, or nearly $25 million ahead of NBC-TV.

October and November were the top network gross billing months in the 12-month period. They also scored similarly for NBC-TV and ABC-TV while CBS-TV’s top months were in March and November.

The week-end period, Saturday through Sunday, showed the biggest billings gain, an increase of 25.3% for December and 18.1% for the year.

Business briefly...

Lanolin Plus Inc., Newark, N. J., is launching a heavy tv-radio spot campaign in the top 100 markets for “Color Plus” nail-strengthening enamel. The drive follows a successful test run in San Francisco and Los Angeles. Consisting of 8-week flights, the spots are made on the basis of reaching 40% penetration in each market, with New York getting an extra-heavy push. The New York spots began last Friday (March 3) on four tv stations and two radio outlets, and by the end of this week the campaign will have extended to all 100 markets. Agancy: Daniel & Charles, N. Y.

Bristol-Myers Co., N. Y., and Kellogg Co., Battle Creek, Mich., will sponsor a new animated comedy series, Top Cat, on ABC-TV next season (Wed. 8:30-9 p.m.). With this sale, Hanna-Barbera Productions, through Screen Gems, is assured of five-hour- and six-hour-length shows weekly during the 1961-62 season, including The Flintstones on ABC-TV and Huckleberry Hound, Quick Draw McGraw and Yogi Bear, all three of which are sponsored by Kellogg on a national spot basis. Agencies: Young & Rubicam (Bristol-Myers) and Leo Burnett (Kellogg).

Thomas J. Lipton Co., Hoboken, N. J., purchased full sponsorship of second annual Tv Guide Award show on NBC-TV June 13 (Tue. 9-11 p.m. EDT). Presentation of eight awards will be taken one-quarter of program, with entertainment to fill remaining portion. Agency: Sullivan, Stauffer, Colwell & Bayles, N. Y.

The Ruberoid Co. is introducing its new “Polymerite” floor tile with a 17-area market-by-market campaign using local radio, newspaper, billboard and point-of-purchase advertising backed up by national ads in trade and consumer magazines. Agency: Fuller & Smith & Ross, N. Y.

Rep appointments...

- WFLI Chattanooga, Tenn., appoints Radio T.V. Representatives Inc., N. Y. Station began on-air operations Feb. 21, with 10 kw on 1070 kc.

- Keystone Television Group (WHPTV Harrisburg; WLYH-TV Lebanon-Lancaster, and WSBA-TV York, all Pennsylvania): Blair Television Associates, N. Y., as exclusive national representative for the group.

- WQXI Atlanta, Ga.: John Blair & Co., N. Y.

Anti-recession campaign is launched by Ad Council

The Advertising Council launched its anti-recession campaign, Confident America, at a Washington news conference last week highlighted by an address by Gov. Luther H. Hodges, secretary, U. S. Dept. of Commerce (Broadcasting, Feb. 20).

Gov. Hodges congratulated the Advertising Council for its continuing public services. In his address and in answering questions after, he carefully trod the Kennedy administration line, stating that although things are economically dark now, America will grow and get moving to a brighter future.

Theodore S. Repplier, Ad Council president, gave the history of the anti-recession campaign, explaining that similar pushes in 1954 and 1958 had been felt to be helpful by “many knowledgeable people.” He said advertisements and spot announcements would point up the hopes of the future justified by statistics rather than dwelling on the present recession. The aim of the campaign is to instill confidence in the economy, that man’s state of mind is
an economic fact with which to be reckoned. "The confident family spends normally; the frightened family spends only for necessities," Mr. Reppier said.

Alton Ketchum, vice president of McCann-Erickson Inc., volunteer agency for the campaign, went over print ads and 10- and 30-second tv spots, which emphasize the ways in which today's expenditures in research will provide many new jobs of tomorrow.

Bozell & Jacobs, New York office, is volunteer public relations and promotion agency for the campaign.

ANA'S ENTHUSIASTIC
Lauds BAR monitoring as performance check

The Assn. of National Advertisers is practically telling agencies and advertisers that they ought to use the monitoring service of Broadcast Advertisers Reports (BAR) to doublecheck the accuracy of proof-of-performance affidavits submitted by stations and networks.

The ANA position, which amounts to an endorsement that stops just short of being a firm recommendation, is expressed in a report being issued by the association today (March 6). Authorities acknowledged that it comes about as close to being a "testimonial" as anything ANA ever gave any one company.

By implication, if not in so many words, the report raises a question about whether stations and networks should be paid on the basis of their unverified word that a given announcement was carried when and as it was supposed to run. No matter how honest they are or how carefully they check their own operations, the report says, "We are still faced with the fact that the seller is checking and verifying his own performance. Relying on the seller's word generally is not an accepted accounting practice."

Until the emergence of monitoring, the report points out, there has been for broadcasting no equivalent of the customary tear-sheets used to verify the appearance of advertising in print media.

What BAR Does * BAR, the only television monitoring service of its size, regularly monitors all 240 stations in the top 75 markets, where about 85% of national advertising dollars are spent. The monitoring is done by tape-recording the audio of each station in each market for a full week at a time, then compiling the basic program and commercial information from the tapes. Each market is monitored four times a year; the top 15 are monitored six times. "This produces samples of, respectively, 8% and 12% of all television broadcast activity," the report notes, adding that "for accounting purposes a random sample of this size appears adequate."

The report cites "typical" ways the monitoring information is used at three different agencies, one of which specifically mentioned that "irregularities"—Triple-spotting, wrong schedule, etc.—occurred less often when stations knew their performance was being doublechecked. One agency (not identified) said: "Although we have secured some substantial rebates [by using the monitor reports], these specific dollar returns are not the most important consideration. What is more significant is the resulting improvement in the general level of performance, once stations were aware that our control procedures existed and were used. In this sense, we find the greatest value of the checking procedures in the fact that it prevents problems as frequently as it solves them."

Foурteen agencies are listed as subscribers to BAR's local reports as of Nov. 1, 1960. A few others have been added since then, according to BAR.

Qualifications * The report finds

Monroe's own 'instant sponsorship' deal

While Gulf Oil Corp. and NBC were making headlines with their $1 million-plus "instant sponsorship" agreement on NBC-TV news coverage (Broadcasting, Dec. 5, 1960), a station and a bank in Monroe, La., were winding up a year of local operation under the same sort of contract—a relationship so successful that it has been renewed for another year.

Under the Gulf-NBC deal, the oil company gets first refusal on sponsorship of NBC-TV's coverage of fast-breaking news, when and as it happens, under the program title Special News Reports. In the Monroe deal, the Ouachita National Bank of Monroe sponsors weekend newscasts scheduled at the discretion of the news department of KNOE-TV Monroe and also has first refusal on local news specials scheduled by KNOE-TV during the week.

The basic weekend-news agreement assures the Ouachita bank of three five-minute newscasts on Saturday and Sunday, plus 14 one-minute bulletins during the weekend, all scheduled at the discretion of the news department's discretion. This basic agreement represents "in excess of $15,000" in annual billing to KNOE-TV.

When local and regional news developments justify specials during the week, the bank has an option on sponsorship. If station officials wonder whether the bank might want to sponsor a particular special newscast, they check first; but if the news is big enough they just go ahead and schedule it under bank sponsorship "and at the end of the month we get together with the bank people and figure out what they owe us," according to Paul H. Goldman, executive vice president and general manager. He estimated that the bank underwrote some 15 or 20 such specials last year. The bank also has been sponsoring KNOE-TV's 6 p.m. newscast once a week for the past five years.

Ben Marshall, the bank's vice president in charge of advertising and public relations, says the "instant news" arrangement has paid off even better than expected. The objective of the weekend schedule, he said, was to increase the number of savings accounts by 15-20% over the period of a year. Actually, he reported, they increased by 40% and other bank services also showed gains attributable to the tv schedule. Bank President Lee Vanderpool adds that television now is the bank's basic advertising medium, whereas the budget formerly went almost 100% to newspapers.

Messrs. Vanderpool (seatd, l) and Marshall (standing) are shown in the picture above as they review the first year's results with former Louisiana Gov. James A. Noe (r), chairman of Noe Enterprises, licensee of KNOE-TV, and prepare to extend the arrangement for another year.
WGAL-TV serves the public interest

I wish to thank you for the splendid television coverage you gave us for our Thirteenth Annual Auto Box Derby. It is with such assistance as yours that we are able to proudly carry our slogan, "Friend of the Boy".

Reading Optimist Club

We wish to express our deepest appreciation for the wonderful reception your station accorded us on our recent stay at Olmsted Air Force Base. We feel that the public at large learned a great deal about Civil Air Patrol through your efforts.

Pennsylvania Wing Civil Air Patrol

Please accept our sincere personal thanks for your station's television coverage of the 30th Anniversary ceremonies.

State Hospital for Crippled Children, Elizabethtown

In behalf of our Poultry Federation I wish to express our sincere thanks for the time you allotted to us on your farm program.

Pennsylvania Poultry Federation

My sincere thanks for your public-spirited cooperation during the recent Federal income tax filing season. Your generous contribution of television time and facilities in the production of our "Is It Taxable?" series of tax information programs, certainly constitutes a public service of the highest order.

Internal Revenue Service, U.S. Treasury Dept.

We believe that your ready assistance in helping to publicize Civil Service examinations is a valuable adjunct to the efforts of the State Civil Service Commission and a worthy public service to Pennsylvania viewers of WGAL-TV.

Civil Service Commission, Commonwealth of Pennsylvania

The thanks of all those involved at Franklin and Marshall for your cooperation in showing "Education is Everybody's Business". I hope we did some good for the fundraisers in the Channel 8 area.

Franklin and Marshall College

This is to thank you for cooperating with the Pennsylvania State Police by withholding broadcast of information of bombing threats in the Central Pennsylvania area... the persons making these threats are pleased, even inspired, by the notoriety accorded them, even anonymously.

Pennsylvania State Police

Please accept my sincere thanks and congratulations for having made the facilities of station WGAL-TV available for our hour-long presentation of the need for widespread public support of the struggle to end the exploitation of our fellow human beings making up the migrant labor force.

AFL-CIO

Please accept our many thanks for the fine production of our York Suburban Band. I wish to congratulate you for giving the students an opportunity to perform good school music literature in a program of this type.

York Suburban High School

I want to take this opportunity to personally thank you and your excellent staff for your support of our Armed Forces Day activities. I received many, many favorable comments concerning the special taped show, and I am convinced that this is one of the best we ever produced.

Middletown Air Materiel Area, USAF

Please accept our sincere thanks and appreciation for your very excellent program on hunting safety.

Pennsylvania Game Commission, Commonwealth of Pennsylvania

a record attendance of 1,221. Much of the credit in attracting this number of Rotarians and Rotary Ann's is due to your television broadcast.

District 739, Rotary International

On behalf of thousands of teachers in your viewing area, may I express the appreciation of the Pennsylvania State Education Association and the National Education Association for your cooperation in scheduling and showing the NEA film series, "The School Story". Your interest in education is genuinely appreciated.

Pennsylvania State Education Association

The Publicity Committee of the Good Samaritan Hospital wishes to thank you for your generous allowance of TV time. With your help, our Fair was a gratifying success.

Good Samaritan Hospital, Lebanon

I wish to thank you for the wonderfully fine coverage your station gave our Civic Club program. We found that your station was widely seen by folks generally, from our wealth of favorable comments.

Civic Club of Harrisburg

Representative: The MEEKER Company, Inc.

New York • Chicago • Los Angeles • San Francisco
three "limitations" in the BAR service: (1) since monitoring covers only the audio, video failures may be missed; (2) the regular reports will not show that the commercial that was carried was the one that was ordered, although this can be determined on a custom basis by re-checking the tapes; and (3) for those interested in new-product introductions, the monitoring periods may not coincide with the market patterns in introductory campaigns.

Overall, the report holds that BAR "has achieved coverage and acceptance broad enough to qualify (within limits) as a satisfactory performance auditor" and that "an examination of this monitoring coverage, its techniques, content and current usage, suggests a new sophistication in broadcast accounting controls." It concludes:

"The BAR monitoring service may not satisfy all of an advertiser's requirements, but it does afford an opportunity to supplement current audit programs. BAR serves as an independent source of television proof of performance that is not affiliated with the station or network, and is thus a major departure from the seller verifying his own performance."

The report, titled "Using the BAR Monitoring Service to Verify the Appearance of TV Commercials," was prepared by Joseph Barra, senior accountant at Lever Bros., for the ANA Advertising Administrative Control Committee.

Additionally, it has been announced that copies of the full report are available to ANA non-members at $2.50 each.

Let tv code people handle copy—Helffrich

Let the tv code people "play the heavy" when questionable copy comes in, stations and representatives were urged last week by Stockton Helffrich, director of the New York Code Office of the NAB TV Code Review Board. He spoke to the Radio & Television Executives Society in New York on "Television Advertising: In and Out of Bounds."

He offered code office services to stations and advertisers alike and warned that to avoid more governmental restraints, "we have to apply with some consistency the common sense and voluntary ones now in existence." The New York Code Office, established last summer, got its "baptism" with a cocktail mix commercial problem for Holland House, (BROADCASTING, Oct. 3, et seq.). Mr. Helffrich said, as he described duties of his staff. These include advice and liaison but not clearance, with "major concentration on the maintenance and the raising of standards in television advertising practice."

DUPONT MOVES TO NBC-TV

Drops two CBS-TV shows to buy weekly hour-long Sunday night series in $7 million deal

E. I. du Pont de Nemours & Co. has put its network cards on the table. The trump is a $7 million NBC-TV hour, DuPont Show of the Week, ordered by BBDO as agency of record, with N. W. Ayer & Son sharing billings. The deal, months in the making (BROADCASTING, Jan. 9), was announced by network and client last week, with dollar figures filled in by informed observers.

In addition, on-and-off product participations on ABC-TV and NBC-TV will bring up the yearly bill several millions. These, numbering 30 programs in all, are expected to continue during the summer after du Pont's signs off its CBS-TV investments, The June Allyson Show (Mon. 10:30-11 p.m. EST), which ends a two-season run in June and the 90-minute DuPont Show of the Month, concluding four seasons March 21.

NBC has scheduled DuPont Show of the Week nights, 10-11 p.m., New York time and will fill the hours with wide-ranging entertainment covering variety, "dramatic actualities" and special projects. Producers assigned are Donald B. Hyatt, director of NBC special projects whose credits include Project 20 and the Wisdom interviews, and Irving Gitlin, executive producer, news and public affairs, who has developed NBC's White Paper and the Purex Special for Women series.

A du Pont spokesman said that while the company was very pleased with both Show of the Month (corporate advertising) and June Allyson (man-made fibers), du Pont now wants to combine corporate and divisional messages in the Fashion of the Week to accommodate increased use of TV for paints, automobile specialties, antifreezes and coated fabrics.

Forty hours have been ordered to run the course of the year with occasional lapses, according to advertising needs. The new show will inaugurate du Pont's 26th year on the air, dating back to the old radio Cavalcade of America on CBS and NBC, adapted to

Copyright 1961, A. C. Nielsen Co. Background: The following programs, in alphabetical order, appear in this week's BROADCASTING TV ratings roundup. Information is in following order: program name, network, number of stations, sponsor, agency, day and time.

Jack Benny (CBS-181): Lever (JSCB), State Farm (NLB), Sun. 9:30-10 p.m.

Candid Camera (CBS-175): Bristol-Myers (Y&K), Lever (JWT), Sun. 10:10-10 p.m.

Gunsmoke (CBS-201): Liggett & Myers (DES), Remington Rand (Y&K), Sat. 10:10-10 p.m.

Andy Griffith (CBS-177): General Foods (CBS), Mon. 9:30-10 p.m.

Have Gun, Will Travel (CBS-164): Lever (JWT), American Home Products (Bates), Sat. 9:30-10 p.m.

My Three Sons (ABC-188): Chevrolet (C-G), Thur. 9:30-9 p.m.

Rawhide (CBS-202): Philip Morris (BBB), National Biscuit (M-E), Bristol-Myers (Y&K), Drackett (Y&K), General Foods (BBB), Colgate-Palmolive (L&G), Fri. 7:30-8:30 p.m.

Real McCoys (ABC-171): P&G (Compton), Thur. 8:30-9 p.m.

Ed Sullivan (CBS-181): Colgate-Palmolive (Bates), Eastman Kodak (JWT), Sun. 8-9 p.m.

77 Sunset Strip (ABC-174): American Chicle (both Bates), R. J. Reynolds (Esty), Beecham Products (K&E), Fri. 9-10 p.m.

Untouchables (ABC-179): L&M (M-E), Armour (FC&G), Whitehall (Bates), Beecham Products (K&E), Union Carbide (Esty), Sunbeam (FC&G), Thur. 9:30-10:30 p.m.

Wagon Train (NBC-169): R. J. Reynolds (Esty), Ford (JWT), National Biscuit (M-E), Wed. 7:30-8-30 p.m.
Fastest Draw in the West
(East)
(North)
(South)
For most of America's television viewers the enchanted frontier of the old West casts a never-ending spell. They watch Westerns in greater numbers than any other kind of television program.

Today four of the six most popular shows in television are Westerns, and three of the four can be found on the CBS Television Network. In fact, for more than three years one of our Westerns ("Gunsmoke") has consistently drawn the biggest nationwide audiences in television.

Not every advertiser, however, is interested in Westerns. Depending on his product or marketing objectives, a comedy or a drama or a mystery may bring him better results. To him, the crucial test is: How well is the network doing with the kind of programming he wants to sponsor?

The advertiser who applies this test will find that the CBS Television Network attracts the biggest average audiences in every category of entertainment. And it achieves this remarkable record with the most evenly balanced schedule in network television.

There are two important points to keep in mind: One, you will not find as many Westerns on the CBS Television Network as you will elsewhere, but you will find the best. Two, it is this ability to produce the best entertainment of every kind that continues to attract television's largest audiences.

CBS TELEVISION NETWORK
Alcoa plans to stick with ABC-TV next fall

Only the contracts remain to be signed by Aluminum Co. of America and ABC-TV before Alcoa's expected fall sponsorship of an ABC-TV Tuesday evening slot is definite. The advertiser, stickering with all three networks since the beginning of 1961, apparently has settled upon an unusual slotting: alternating hours and half-hours, or an average of 45 minutes weekly. One week Alcoa will present an hour show (10-11 p.m.), the next a half-hour, with Bell & Howell slated to fill the 10:30-11 p.m. slot with its own program on alternating weeks.

The advertiser's final selection, which will represent $6-$7 million outlay, consists of a series of plays, produced by Revue Productions, with a varied format including drama, mystery, comedy and variety, and designed to reach a "broader audience" than this season's entry, Alcoa Presents.

Before this decision, Alcoa, with its budget upward about $1.5 million from this year, had shown interest in such programs as ABC-TV's Corruptors, CBS-TV's Defenders, and an NBC-TV proposed Talent Assoc. production (CLOSED CIRCUIT, Feb. 13, Jan. 16).

Mobil Oil moves from Compton to Ted Bates

The Mobil Oil division of the Socony Mobil Oil Co. has left Compton Adv. after 18 years and placed what it describes as $12 million in advertising bills with Ted Bates & Co.

Compton, however, disputes the $12 million figure, claiming Mobil Oil's commissionable agency bills last year amounted to only $7 million.

In either case, Mobil Oil spent $2,850,000 in radio and tv spots in 1960, of which all but $200,000 went into an 18-week tv spot campaign in about 110 markets. The radio spots, accounting for the rest, were mostly in weekly spots on NBC's Monitor during the summer months.

According to J. D. Elgin, advertising and promotion manager for Mobil Oil, sales and volume had been up last year but it was decided to seek new thinking on advertising. In the course of finding a new agency, Mr. Elgin came across an advance copy of Reality in Advertising by Rosser Reeves, board chairman of Ted Bates. Scheduled to be published in April by Alfred Knopf Inc., the book was reportedly the most important factor influencing the appointment of Bates as Mobil Oil's new agency.

According to a company spokesman, the continued use of tv and radio advertising, "is subject to reappraisal" now that a new agency has been chosen. The spokesman also said that advertisement "no radio is projected for 1961" but that a small tv spot campaign is already scheduled to begin this month in conjunction with the company's annual "economy run" competition.

KODAK EXITS ABC, CBS DROPS SULLIVAN AND NELSONS FOR NBC'S DISNEY COLOR SHOW

In swift succession RCA and its NBC subsidiary the past two weeks could see the color tv rainbow forming for both.

First, encouragement to RCA was the Zenith Radio announcement that it would enter the market this fall with a line of color receivers (BROADCASTING, Feb. 27).

Last week NBC got its encouragement: Eastman Kodak Co., Rochester, N. Y., next season will leave CBS-TV and that network's Ed Sullivan and ABC-TV's Adventures of the Nelson Family to become alternate sponsor (with RCA) of a new Walt Disney show that will be colorcast on Sundays, 7:30-8:30 p.m., starting Oct. 1.

The Eastman explanation as given by James E. McGhee, Kodak's vice president of domestic sales and advertising:

"We are moving to Walt Disney's new show (Walt Disney's Wonderful World of Color) because color television has now come of age.

"Color is important to photography and has been a significant factor in the growth of our industry. It is our belief color will be of even greater importance in years to come."

No color on CBS • Kodak has been associated in its alternate sponsorship with Ed Sullivan for four years. Mr. McGhee said that while "happy over the years with Ed Sullivan" who was a factor in Kodak's "marketing success," the firm feels color tv gives it "another way of showing the beauty of color photography [but] The Ed Sullivan Show is not available in color."

The Kodak-Disney tie-up (25 original programs and 25 repeats of the 1961-62 and "past" seasons) will bring the advertiser's commercials to NBC in color as well as Disney's filmed anthology of cartoons, adventure and nature stories in this country and abroad, along with classical fiction and true stories and first tv showings of new Disney motion pictures.

Walt Disney, which for several seasons had been on ABC-TV, switches next fall to NBC-TV. The program already had RCA signed for half sponsorship. Both RCA and Eastman Kodak are handled by J. Walter Thompson. The Kodak association with the Nelsons (earlier known as The Adventures of Ozzie & Harriet) dates back about five years.

Workout for peacock

Color bursts continue at NBC-TV with 50% of the network's daytime programs to be presented in color during the week of March 13-17. The "Festival of Color" marks NBC's most ambitious color programming to date. In the past, the network's regular daily schedule of color programs has been supplemented by near total color programming on specific days. Throughout each day of the "Festival of Color" week, NBC-TV will offer eight of its regular daytime programs in color, representing 22½ hours of programming. Total number of color tv hours for the week will be 31½, including 10 nighttime programs to be presented in color.

RADIO-TV PREFERENCES MEASURED IN MILWAUKEE, DULUTH-SUPERIOR

Television viewers overwhelmingly prefer pure entertainment even though they may "say" they want more serious discussion, cultural and religious programs. The popularity of the western is waning.

Radio and television as community institutions are lower in esteem than churches and schools but higher than newspapers and local government.

These statements are broad conclusions found:

- In a sample of 500 homes in the Duluth-Superior market by the Research Guild, Chicago, for WGN Chicago, which recently acquired KDAL-AM-TV Duluth. The survey was made anonymously last October to determine Duluth-Superior community needs to which radio-TV can contribute, to learn opinions about radio-TV and to find how well area stations are satisfying the needs.

- In a pilot sample of 1,800 homes by WTMJ-TV Milwaukee, in January as part of the 1961 Milwaukee Journal (WTMJ-AM-TV) consumer analysis. The total sample, to be released later, covers 6,417 households and includes a portion on fm.

Among other major findings of the Duluth-Superior study:

- Groups least satisfied with radio and tv are 36-45, parents of several children and first generation Americans of Scandinavian origin.
- Radio is rated well on local news, sports and religious programming, less well on adult education and culture.
- Television is rated high for local news and sports, not well on religion, programming, adult education or culture.

The major findings of the Milwaukee survey:

- Most Milwaukee television viewers feel entertainment best serves them.
- Most Milwaukeeans also feel that sports, news and weather best serve them.
- There is an interest in informational-educational programs but for actual viewings, Milwaukeeans favor "pure entertainment."

- Westerns do not have the high popularity that might be expected; many viewers claim that they want fewer shows of this type.

Duluth-Superior adults listen three hours a day to radio, but there are wide variations. One adult in ten doesn't listen at all and one in ten listens eight hours or more daily. Women listen four hours, men two hours. Two in ten women listen eight hours or more and radio listening increases with age to about 35, then declines.

Television: adults watch three hours daily, women 3.6 hours daily, men 2.8 hours. There is no clear relationship between age and amount of viewing.

What does WGN Inc. plan to do about its new KDAL properties based upon the study findings? Only minor changes at present, since the stations are relatively "well regarded." But KDAL's identification with Superior is being strengthened (hitherto, Duluth was stressed). Cultural service and farm and sports programming are being increased. Greater use also will be made of local material and personalities, especially in tv.

In Milwaukee: The Milwaukee study shows that more than half of all viewers participating indicated satisfaction with present tv programs. Their favorite (18.7%) was Untouchables. Others in order: Perry Como, Lawrence Welk, Wagon Train, sports telecasts, 77 Sunset Strip, news and weather, Dinah Shore, Bonanza and Loretta Young Show.

The top religious program is Bishop Sheen (No. 80) in the list. The first information program is Meet the Press (No. 47).

Men liked programs in this order: sports, mystery-detective-adventure, news and weather, popular music and variety, westerns, drama, serious discussion, symphonies-opera-ballet, other educational-informational programs, religious.

Women: popular music and variety, news and weather, mystery-detective-adventure, drama, western, sports, religious, serious subjects, symphonies-opera-ballet, other informational-educational programs.

The total percentage of men and women satisfied with present programs is higher than those wanting "more" or "less" in every classification. But 32.5% of the men and 38.4% of the
women want fewer westerns.

WTMJ-TV notes an "interesting paradox":

"Analysis reveals that apparently certain classes of programs which best meet the viewer's needs are not necessarily the same classes of programs these same viewers would "like to have more of" in the tv schedules."

For instance, only 42.2% of the men list serious subjects as their first choice of programs but 44.2% would like to have more of such programming. Only 5% wanted less and 50.8% voted "okay as is" and "no opinion." The disparity was even higher among women.

Other questionnaire answers, WTMJ-TV concludes, "indicated that tv viewers do not necessarily look at the programs they claim they want more of on tv."

**Changing hands**

ANNOUNCED • The following sales of stations interests were reported last week subject to FCC approval:

- WERC-AM-FM Erie, Pa.: Sold by Cleveland Broadcasting Co. to Simon Goldman for $335,000. Mr. Goldman is president of James Broadcasting Co., which owns WJTN-AM-FM Jamestown, WDOE Dunkirk and WGGO Salamanca, all New York. Cleveland Broadcasting Co. owns WLEC-AM-FM Sandusky, Ohio, and were-AM-FM Cleveland. Ray T. Miller is president. WERC operates with 5 kw fulltime on 1260 kc. WERC-AM operates with 9.7 kw on 99.9 mc. Broker was Hamilton-Landis & Assoc.

- WGWC Selma, Ala.: Sold by W. E. Farrar to Robert J. Martin, Rome, Ga., for $55,000. Mr. Martin, a farmer and land developer is also an employe of WROM Rome, Ga. Mr. Farrar, mayor of Reform, Ala., also owns 45% of WRAG Carrollton, Ala. WGWC operates with 250 w fulltime on 1340 kc. Broker was Paul H. Chapman Co.

APPROVED • The following transfers of station interests were among those approved by the FCC last week (for other commission activities see For The Record, page 95).

- WGIR Manchester, N. H.: Sold by Northeast Broadcasting Corp. to Knight Radio Inc. for $327,500 and agreement not to compete for a period of eight years within a 50-mile radius. Norman Knight, president, owns WHEB Portsmouth, WTSV-AM-FM Claremont, WTSI Hanover, all New Hampshire, and WEIM Fitchburg, Mass. Commissioner Bartley dissented. WGIR operates with 5 kw day and 1 kw night on 610 kc. (KFUR-TV Santa Fe, N. M.: Cp sold by Harrison M. Fuerst to Raymond F. Hayes and Milford Kay, for $2,700 "out-of-the-pocket" expense. Commissioner Bartley dissented. KFUR-TV construction permit is for ch. 11.

- KKWY Des Moines, Iowa: Sold by General Broadcasting Services of Iowa Inc. to Tedesco Inc. for $165,000. Nicholas Tedesco, president, and Victor J. Tedesco have interests in KCUF Red Wing, Minn., KFNF Shenandoah, Iowa, and WIXK New Richmond, Wis. Tedescos also have purchased WMIN Minneapolis (CLOSED CIRCUIT, Feb. 20). KKWY is 1 kw fulltimer on 1150 kc.

**NBC-TV switches to KTAL-TV**

NBC-TV has signed with KTAL-TV Texarkana-Shreveport (formerly known as KCMC TV Texarkana, Tex.) to replace KTBS-TV Shreveport as its primary affiliate in that market, probably effective this summer. The station, on ch. 6, has moved its transmitter site to Vivian, La., and thus now covers both the Shreveport and Texarkana areas, NBC authorities reported.

It currently is affiliated with ABC. The KTBS-TV contract with NBC runs until next September but there was speculation that the rearrangement of affiliates in that area, with KTBS-TV presumably moving to ABC-TV, might be effected before the contract expiration date. KTAL-TV is owned by the Camden, Ark., News Publishing Co.; KTBS-TV by the family of George D. Wray Sr.

**Keystone's new rate card**

The first rate card since 1952 for Keystone Broadcasting System has been mailed to 3,000 advertisers and advertising agencies. Slight increases in rates are reflected across the board. Keystone now has 1,125 affiliates. Under the new card, one hour per week for 13 weeks on 100 stations costs $28 per station; one minute, $3. On 1,000 or more stations for 52 weeks, once weekly, the hour rate is $20.65; minute, $.23.

**New England fm network forms**

The nucleus of an fm network was formed when WCRB-AM-FM Boston extended its programming to WMTW-FM Mt. Washington, N. H. Both are "good music" stations.

WCRB claims its programs can now be heard in all six New England states. The stations' president, Theodore Joes, said plans are "well underway to expand the new network," so that it eventually may serve the entire northeast region.

NBC PROFIT PEAK
RCA sales set record but profits are down

RCA reported last week that its 1960 sales increased to a record $1.494 billion, a jump of 7% over the previous year's $1.395 billion. But, its profits declined 13%. Figures in the corporation's annual report show that profits, after taxes, amounted to $35.1 million compared with $40.1 million in 1959. Earnings in 1960 were $2.10 per common share on outstanding stock compared with $2.65 the previous year.

The report, sent to the company's 170,000 shareholders by Board Chairman David Sarnoff and President John L. Burns, said the 1960 profit decline was influenced by "continuing heavy investments in electronic data processing," and by the write-off of the $4 million cost of centralizing consumer products operations in Indianapolis. Both factors were termed "essential steps in the interest of efficiency and growth." The report also noted the "economic softness that made lower profits the rule rather than the exception in American business."

The report noted substantial gains in color tv, with profits on color receivers "measured in seven figures." RCA's broadcast subsidiary, NBC, achieved the highest profits in its history during 1960.

Breaking down the corporation's sales into four groups, the report shows NBC accounted for 22% of RCA's business, federal contracts brought in 37%, commercial customers accounted for 39% and 2% came from the radiotelegraph operations of RCA Communications Inc.

NBC doesn't and won't editorialize—Sarnoff

NBC has never editorialized and has "no plans to do so," according to Robert W. Sarnoff, NBC board chairman. Mr. Sarnoff expressed this opinion last week in the latest of his periodic newsletters to tv and radio editors. NBC does not "fault broadcast editorializing as such." On the contrary, he pointed out that NBC has "long upheld the right of broadcasters to editorialize." He singled out WDSU-TV New Orleans, WSYR-TV Syracuse, WKTV (TV) Utica, N.Y., WBRZ (TV) Baton Rouge, La. and WWLP (TV) Springfield, Mass., all NBC affiliates, as having "distinguished themselves" by "forthright and effective" editorializing. But editorializing by individual stations, he said, is "distinct" from editorializing by a network. On a local basis, "the broadcaster's editorial voice can be an important community asset." On a network basis, editorializing "raises different, fundamental issues."

Paley reassures Collins he can count on networks

"You were forthright and courageous," William S. Paley, chairman of the board of CBS Inc., told President LeRoy Collins of the National Association of Broadcasters in a letter last week. "The broadcasting industry needs such progressive leadership, particularly at this time in its development," he continued.

The letter from Mr. Paley came as an answer to the firm position taken by Gov. Collins in a talk before the NAB board in Palm Springs, Calif. (Broadcasting, Feb. 13, 20).

"I certainly agree with you that whatever needs to be done to discharge fully our responsibilities to the public interest must be done by those of us within the industry itself," Mr. Paley continued "You will find, as you probably realize, that many of us do not agree with some of the things you said. But your general objectives are the important thing, and we endorse them. You can count on our best efforts as we work toward the goals you have outlined."

A Wometco Enterprises, Inc., Station

Represented by Peters, Griffin, Woodward, Inc.
Southeastern Representative: James S. Ayers Co.
New WNBC-TV rate card ups prime minute price

WNBC-TV New York made a new rate card effective last Wednesday (March 1). It makes the price of a prime-time 60-second announcement higher than that of a triple-A 20-second spot. The new card was described by the station as "the first industry move" to create a price differential between the two prime-time spots.

WNBC-TV has established a $2,500 price on the minutes, a rise of $200 over the previous figure, but maintains the 20-second spots at $2,300. Jay Heiten, WNBC-TV national sales manager, commented: "Television is the only ad medium in existence which has charged the same rate for a varying quantity within the same rate card. Obviously, offering a customer a 60-second announcement for the same price as a 20-second announcement in the same rate period creates an unbalanced demand for the limited number of minute availabilities, and reduces the demand for the 20-second spots. It is hoped that the 20-second announcements now will be sharply re-analyzed toward re-establishing its basic value."

The new card (No. 21) also offers an extra discount for extra-volume schedules. Top discount on the station is 57.25%, an increase of 7.25% over the old rate card, which went into effect Feb. 1, 1960. The station also raised spot announcements slightly around various nighttime newscasts and increased one-minute station break availabilities in the 10:30 a.m.-4:30 p.m. period from $600 to $700. In the 7-10 a.m. periods, minutes were reduced from $400 to $300; 20-second announcements from $300 to $225.

KCDA-TV goes on the air

KCDA-TV Douglas, Ariz., ch. 3 station owned by Electron Corp., began programming Feb. 27 from its studio-transmitter quarters in the Gadsden Hotel.

The new station, the first in the southeastern area of the state, was granted in February 1960 with 447 watts radiated power. It is under the general management of William B. Miller with the following staff: Daniel C. Park, commercial manager; David B. Miller, program and production director; Norman Robb, chief engineer.

The Electron Corp. is a wholly owned subsidiary of Ling-Temco Electronics Inc. It has specialized in providing equipment for low cost, low powered tv stations.

FACE-TO-FACE SALESMANSHIP GETS ORDERS!

National spot is a fast-moving, competitive business. You've got to be there when the buying decisions are being made. You've got to use every creative approach...every technique of forceful salesmanship...to get the order. This is sales impact. And you can't achieve it through periodic field trips, phone calls or letters.

That's why... Weed maintains 14 offices throughout the U. S.—more than any other representative firm.

That's why... Weed hires salesmen with years of solid experience in their territories. In most cases, our men are native to the city in which they are based.

That's why... Weed's policy of "depth selling" reaches every decision-making level up to and including the advertiser.

Wherever a buying decision is made... a WEED man IS THERE!

Susskind latest bidder seeking WNTA-TV

The competition for the purchase of WNTA-TV New York became more heated last week when producer David Susskind confirmed reports that he intends to bid for the tv station.

Mr. Susskind would not identify his financial backing but it is reported to be a nationally-known company. Mr. Susskind and his associates are the third group to express interest in the station since National Telefilm Assoc., New York, the owner, invited offers. NTA already has rejected as "inadequate" a bid of $4 million by a group working with the National Educational Television & Radio Center that would use the station for non-commercial educational telecasting (BROADCASTING, Feb. 27). Ely A. Landau, former board chairman of NTA, resigned from the company several weeks ago and is in the process of forming a new company, Landau Broadcasting Ltd., to purchase broadcasting outlets, including WNTA-TV.

Mr. Susskind has had a working association with WNTA-TV for several years. He is moderator of the Open End discussion program, carried on the station and syndicated to other tv outlets. Mr. Susskind formerly was executive producer of The Play of the Week, which started on WNTA-TV and also has been sold to other stations.

Oiver A. Unger, NTA board chairman-president, said the station will not be sold unless until it receives a "satisfactory offer," and added that if such a proposal is not forthcoming, NTA will continue to operate the station.

CBS' Heffner calls for freedom from Sec. 315

In making a plea for permanent re-vocation of Sec. 315 of the Communications Act, Richard D. Heffner, director of Special Projects, Information Services, CBS-TV, told the annual Western Radio & Television Conference in Salt Lake City that only with this action can broadcasting become free to offer consistent political coverage, "substantial and divergent" opinions, and debates in national, state and local elections.

Mr. Heffner's talk stressed that broadcasters everywhere should press for permanent revocation of Sec. 315. He added: "Responsible broadcasters want to continue more meaningful coverage of politics on television and radio. The public at large desires the same end. We at CBS particularly believe that, in freedom, our media can offer "education for effective, informed citizenship capable of making sound decisions and making them fast."
How to get TV shows on...on time

Every day, the National Broadcasting Company uses Emery Air Freight to speed television film throughout the United States and overseas to meet network schedules. This planned use of air freight, not only helps NBC to meet program deadlines, but also enables NBC to cut down costly inventory of prints, saving both time and money. Take advantage of the speed and reliability of Emery Air Freight by specifying "Ship Emery Air" on your shipments of film and tape. To find out how much faster Emery can deliver your shipments call your local Emery man, or write...

EMERY AIR FREIGHT
801 Second Avenue, New York 17, New York
Offices in all principal cities.
Advertising an advertising medium to advertising people is a bit like selling soap to P & G. It takes something really special. That's why a recent study by A. C. Nielsen — world's largest marketing research organization — among executives responsible for major media, market and station decisions at the 50 biggest TV and radio advertising agencies has some significant news for you.

Among other questions, Nielsen asked them —

"To best reach you, which publication would you recommend a station to use for its advertising?"

The answers, predominantly, were apportioned among four business publications which concern themselves with both broadcast media, or with television alone.

Broadcasting scored 42% ahead of publication "B" — and 185% ahead of "C" and "D" combined:
THE HARD WAY?

Conclusive as that is, look what happened when Nielsen asked this follow-up question—

"In which publication would a station's advertisement be likely to have the most impact on you?"

Here, Broadcasting gets 57% more preference than publication "B"—and 80% more than "C" and "D" combined:

- Broadcasting
- Publication "B"
- Publication "C"
- Publication "D"

These are no little margins—particularly when you consider they represent the expert opinion of important decision-makers at the "Top 50" agencies investing nearly 1½ billion dollars of their clients' money in TV and radio annually. What's more, the same Nielsen survey shows that these advertising leaders place Broadcasting first (1) in readership for broadcast media news and information; (2) in their preference for reports of current trade events; (3) as the publication in which they have most confidence; and (4) as the publication they find most useful.

This is the kind of ideal editorial climate wherein top agency people (as well as the important advertisers who are their clients) are most likely to be reached, most effectively, by your advertising messages. In fact, they say so themselves.

WHY NOT DO THINGS THE EASY WAY? Take the advice of your own best prospects. Tell them your sales story via the well-studied pages of Broadcasting.

NOTE: Of Broadcasting's guaranteed 26,000 circulation, approximately one out of every three copies goes to an agency or advertiser reader each week. And the bulk of Broadcasting's 8,868 agency-advertiser distribution (unlike that of publications "B", "C" or "D") is paid circulation, verified by the Audit Bureau of Circulations. Only Broadcasting, among these four TV and radio business journals, qualifies for ABC membership.
Radio network services still needed—Hayes

Despite the emergence of the independent radio station in the television era, the network radio affiliate finds a plethora of needed services that only the national network can provide. These were explained a fortnight ago by Arthur Hull Hayes (right), president of CBS Radio, in an address before graduate students at the Annenberg School of Communications, U. of Pennsylvania. Dr. Charles Lee, vice dean of the school, looks on. The subsequent question and answer session were taped for future classes of the Annenberg school.

Goldenson urges foreign expansion through tv

America must strike quickly to take advantage of international tv opportunities, both economic and political, Leonard H. Goldenson, president of American Broadcasting-Paramount Theatres, told the San Francisco Advertising Club last week. Pointing the electronic way to world understanding, Mr. Goldenson said that entertainment can do the job as well as informational programming. To counter massive Russian propaganda, the U. S. must be ready with tv programs to portray its way of life, and encourage world interchange by communications and business.

U. S. businessmen, by adapting domestic tv techniques, can and must meet the world trade challenge and tap big market potentials, Mr. Goldenson urged. He gave this off-hand illustration based on his own observation in Thailand about 18 months ago, when the country had 38,000 tv sets in operation: Colgate-Palmolive Co. in a commercial offered to exchange a free box of Fab detergent for a box top. The offer pulled 78,000 tops.

IATSE, networks start talks

Negotiations have begun between New York Local 1, International Alliance of Theatrical Stage Employees and ABC, NBC and CBS on a new contract covering stagehands and associated employees. A meeting held last week centered around preliminary demands by Local 1, including an increase in salary and the establishment of a pension and welfare plan. Negotiators declined to give details, claiming that talks were still “in the early stages.”

The present pact expired Dec. 31, 1960 but negotiations were postponed because the networks were engaged in extended contract talks with the Screen Actors Guild, the American Federation of Television Radio Artists, the International Brotherhood of Electrical Workers and the National Assn. of Broadcast Employees & Technicians. The next session with Local 1 is set for tomorrow (March 7).

MBC income doubles but profits up only slightly

Metropolitan Broadcasting Co., New York, last week reported an estimated gross revenue of $42,579,477 for the 52 weeks ended Dec. 31, 1960, compared to $16,543,422 in the like period of 1959. The increase was said to be partially attributable to significant acquisitions during 1960 (Broadcasting, Jan. 23).

Metropolitan’s net income in 1960 of $1,708,253 is a slight increase over the $1,552,463 total reported for 1959. The company’s 1960 net income per share is $1.01 compared to $1 in 1959. A cash flow last year of $5,492,659 rose considerably above the total of $2,957,235 for the previous year. The cash flow per share in 1960 was $3.23 compared to $1.91 in 1959. The number of shares outstanding at the end of 1960 was 1,699,137, compared to 1,549,012 the previous year.

Metropolitan said the results reported in its release were before non-recurring charges of $104,726 in 1960 and $136,355 in 1959. Federal income taxes in 1959 were reduced by approximately $480,000 due to the application of operating losses carried forward from prior years.

Westinghouse report cites broadcast property

Expanded leadership in independent broadcasting operations and continued heavy reliance on tv advertising to promote products and dramatize company achievements, were among highlights cited in Westinghouse Electric Corp.'s annual report to stockholders released last week.

In the marketing field, Westinghouse sponsored CBS-TV and CBS Radio coverage of the political conventions, presidential campaigns and election returns. According to figures given by the report, Westinghouse's convention telecasts reached more than 74% of all tv homes, or nearly 85 million people.

Highlight of the financial section: Firm's net income from operations in 1960 was $79 million, equal to $2.22 a share on the 34,813,842 common shares outstanding at the end of the year, which was identical with the per share income from operations in 1959.

WLW gets Mike Award

WLW Cincinnati, a division of the Crosley Broadcasting Corp., received a "Mike Award" during a banquet held Feb. 26 at New York's Latin Quarter. The award was given during a fund-raising event attended by more than 700 members of the broadcasting industry. Proceeds from the affair will be turned over to the Broadcasters' Foundation Inc., an organization devoted to aiding fellow broadcasters in financial need because of illness, emergency or other unusual circumstances.
WESTERN ROUND-UP!

Heading your way—for the first time in television—a library of three of the most successful Western adventure programs ever presented. A walloping 250 half-hours in all: 81 episodes of ANNIE OAKLEY (named the “Best Western Performer” on television for two consecutive years by The Billboard)...78 episodes of RANGE RIDER (“Action with a capital A is the byword in these films.” Radio Television Daily)...and 91 episodes of GENE AUTRY (“King of the Cowboys” and one of the biggest money-makers in the Western field). This sure-fire three-in-one library, backed by a national merchandising campaign, is available now for unlimited run (and profits) from CBS FILMS.
The long-range plans of ABC’s Jim Hagerty

It may take ABC two or three years to achieve the stature of an NBC or CBS in the general field of electronic journalism, but catch up it will.

This is the long-range planning of James C. Hagerty, ABC vice president in charge of news, special events and public affairs, who arrived on the network scene immediately after his former employer, President Eisenhower, left the White House. At ABC, Mr. Hagerty sums up his “goal” in building the news operation simply as “something that I and the company will be proud of in 2 1/2 years from now.”

Already some of the Hagerty advance planning is taking effect. Washington is the first area in which the gradual ABC News buildup will occur. Appointments include John Scali, a top Associated Press correspondent who covered the State Dept. for many years. Mr. Scali will be ABC’s diplomatic reporter in Washington. ABC News staffer William P. McSherry has been named national news editor.

Mr. Hagerty in an interview described the capital city in this way: “ABC has a ‘window’ in Washington.” It’s a place to experiment, too. The Hagerty method will be to build from within. But at the same time he will appoint non-broadcast but veteran news names, such as Mr. Scali, from the outside. “We plan to be ready for the fall,” he explains.

Among plans to build-up the news operation:

- An experimental “news” program will go on the air at 11 p.m. in the fall on WMAL-TV Washington and WJZ-TV New York. The idea here is to permit the new team to get a feel of the medium and to showcase the personalities in both cities. In the meantime, radio will be used as a method of giving them broadcast indoctrination.

- The theory will be to emphasize news reports by people who actually cover them. Mr. Hagerty knows that Washington sources which make news are well aware when a tv newsmen speaks from the studio and describes the “thinking” and “talking” of a prominent Washington official whom he’s never interviewed and perhaps never met. As it stands now in much of broadcasting, he emphasizes, “there’s nobody (for the Washington newssource) to praise and nobody to blame.” It will be more effective when Sen. Joe Doakes seeks and hears an ABC reporter talk about Sen. Doakes not long after the senator and the reporter actually meet. Sen. Doakes, Mr. Hagerty feels, will remember that reporter and the network the next time.

- A five minute newscast now is being fed daily to ABC-TV stations in the afternoon. There’ll be more program interruptions when the news warrants them, with breaks into the schedule for reports from experts at the scene.

- An expansion in New York will follow the news buildup in Washington.

- The news facilities of the owned and operated stations as well as the affiliates will be used more in the future. Data on facilities of the owned stations as well as affiliates are now being gathered.

- In his news operation, reporters will be out in the hinterland on the “main stories” of national interest—“We want viewers and the nation to be aware that not all stories are on the eastern seaboard and I want to feel that tv reporters can go out from cities other than New York.”

- The overseas expansion will take a little longer than domestic. But Mr. Hagerty feels ABC News has more time in that area and efforts will be “more long-range.” Mr. Hagerty notes he has personal contacts overseas and intends to use them.

Mr. Hagerty says he has been given encouragement on the financial budget needed to do the job he expects the ABC operation to perform in the next few years.

ABC documentaries will be produced by the “best people” he can obtain, and he reminds he has jurisdiction over both the topics and material which go into such shows. (In his interview, Mr. Hagerty said he works in just that way with Robert Drew Assoc. which has been producing for the Close-Up series.)

Speech Making • The ABC News head didn’t waste time having his views expressed for all the broadcast industry to see and ponder. But some of the reaction, particularly in the press, to his Feb. 16 speech in Oberlin, Ohio (Broadcasting, Feb. 20), surprised him. In his speech he decreed studio-bound newsmen and pinpointed a need to assure public association of broadcast newsmen with events they cover.

Says Mr. Hagerty: He did not intend to take a “slap” at broadcasters but rather the system in which they operate. Though he cannot blame an individual newsmen for reading a news report from a studio about an event with which the newsmen has no personal relationship, that system is wrong.

As he looks at it, one man possibly could not “report it all.” He is a firm believer in having more than the single newsmen in a studio. Mr. Hagerty envisions a studio team made up of experts or specialists in the areas they cover giving reports to the radio or tv audience. What he wants: the why in the news and the image of the personality.

Television, he reflects, has a natural, built-in advantage over newspapers and “even over radio.” On tv, he continues, “events can be seen and heard.” Philosophy? Mr. Hagerty’s is easily wrapped up in this line: “Give a lot of people a chance, and change the format.” As for newsmen, the idea is in this kernel of wisdom “As in newspapers, the reporter in broadcasting must earn his byline.”
From poverty to wealth, from obscurity to fame that has endured the centuries, William Shakespeare was the epitome of literary “know how.” And if there were one single motivating force, it was his belief that “a man’s powers and virtues were given him not to waste in idleness, but to shine like torches giving light to others.” While we lay no claim to greatness, we, too, recognize the fallacy of passive existence and strive through our own “know how” to offer a better product each day in the field of radio and television.
How Cincinnati shift affects network rates

The shift in CBS and ABC television affiliations in Cincinnati will have opposite effects on the network rates of the networks and stations involved: The ABC-TV rate for that market will not be increased but that of the new ABC-TV affiliate will be; the new CBS-TV affiliate will not get a raise in its network rates, but the network will.

The rate situation was clarified last week on the heels of the announcement that Taft Broadcasting Co.'s WKRC-TV Cincinnati would shift from CBS to ABC—taking the primary affiliations of Taft's WBRC-TV Birmingham and WKYT (TV) Lexington, Ky., along with it—and that WCPO-TV, which has been the ABC-TV outlet there, would become the CBS-TV affiliate (Broadcasting, Feb. 27). The changes are effective April 30.

ABC-TV officials said the moves would not change the current ABC network rates in any of the three markets. This means, they said, that WKRC-TV, whose network hourly rates as a CBS affiliate have been $1,500, will be raised to the $1,750 level that WCPO-TV has been getting as the current ABC outlet. CBS-TV officials said WCPO-TV's network rate would remain at the $1,750 level.

As ABC-TV primary affiliates, WBRC-TV and WKYT will retain their current network hourly rates of $1,250 and $140, respectively. But WBRC-TV's compensation deal with ABC is better than those of WKRC-TV and WKYT. Network officials said their contracts with the Cincinnati and Lexington stations were "standard affiliation contracts," calling for the stations to give 22 free hours to the network and be paid 30% of their rates starting with the 23rd hour each month. The Birmingham station's compensation, however, is based on approximately 50% of its rate.

KRON-TV, NBC continue affiliation

Despite KRON-TV San Francisco's dispute with NBC over the latter's attempt to purchase KTVU (TV) Oakland-San Francisco, KRON-TV will continue as the San Francisco outlet of NBC-TV for another two years, starting July 1.

This was set forth in an affidavit filed Monday (Feb. 27) in the U. S. Court of Appeals by The Chronicle Publishing Co., owner of KRON-TV. The affidavit stated that NBC on Feb. 22 made the written offer to continue the affiliation, subject of termination by either side on 90-days notice. KRON-TV accepted the offer on Feb. 26.

KRON-TV's antitrust suit against NBC, KTVU and RKO General has been stayed pending FCC action on the network's acquisition of KTVU. (At deadline, Sept. 26, 1960.)

McLendons acquire XEAK sales rights

Acquisition of American sales rights for XEAK, 50 kw outlet on 690 kc in Tijuana, just south of San Diego, Calif., by B. R. and Gordon McLendon, father-son multiple owners, was announced last weekend. The purchase price is understood to be in excess of $1 million.

Purchase was from a group headed by Helen Alvarez Hill, who has been identified with U. S. station interests in the Southwest, and her brothers, James and Robert Harmon. XEAK is owned and operated by Radio Difusora, Mexican corporation, of which veteran broadcaster Jorge I. Rivera is head. The McLendons, long anxious to get into the Southern California-Los Angeles market, own the limit of seven domestic am stations. These are KLIF Dallas, KILT Houston, KTSA San Antonio, KABL San Francisco, WAKY Louisville, WYSL Buffalo and KEEL...
The equilateral triangle shown is a meadow with a lush stand of delicious* grass. Its area is one-half acre. Tethered to a post at one corner is a goat with a consuming passion for grass. What should be the length of the tether (to the nearest inch) to permit the goat to eat just half the grass in the field? Assume that the goat can feed to the end of the tether.

Tell us—correctly—and we'll forward a copy of that delicious brain fodder, Dudeney's "Amusements in Mathematics" (Dover Publications, Inc., N. Y.). If you have a copy, say so and we'll provide a different prize.

* WMAL-TV's grass is greener in the nation's capital: Its audience is the biggest in the Washington market 6 P.M. to midnight, all week. (ARB Dec. '60; NSI Jan. '61.)
RTES' Golden Mikes

The Radio & Television Executives' Board of Governors felt that "the most significant contribution of broadcasting to the best interests" of the U. S. and citizens last year came from radio-tv programming on the presidential campaign, particularly the face-to-face appearances of John F. Kennedy and Richard M. Nixon. Result: J. Leonard Reinsch, WSB-AM-TV Atlanta, and communications consultant during the campaign for then candidate John F. Kennedy, and Herbert Klein, Mr. Nixon's news secretary, this week will accept Gold Medal awards made jointly to President Kennedy and Mr. Nixon "for outstanding achievement in broadcasting" (CLOSED CIRCUIT, Feb. 27). Ceremonies will be held on March 9 at the annual RTES banquet at the Waldorf-Astoria in New York with Mr. Reinsch and Mr. Klein addressing the guests. Also slated is an entertainment program including Mitch Miller and his Sing-Along chorus, singer Louise O'Brien and other musical and comedy acts.

Shreveport. The McLendon operation also holds extensive interest in oil, real estate and motion picture production.

Because of the Mexican law, non-Mexicans cannot hold operating assignments as such, hence the McLendons acquired from Mrs. Hill and her brothers only American sales rights. No governmental approval by the FCC and probably none by the Mexican authorities is entailed.

Media reports...

Cleveland switch = WERE Cleveland, which revised its programming format last month, is using custom-designed musical spots from Music Makers Inc., New York, to promote the new schedule. The jingles, 16 an hour on a 24-hour basis, introduce WERE's weather, time, sports, news headlines and special features which include audience participation. According to Music Makers, the new WERE programming calls for less new records and more popular music, plus a pin-pointed pitch at "young modern people."

New CBS affiliate = WINF Manchester, Conn., will join CBS Radio on March 19. The station operates on 1230 kc and, effective with the CBS Radio affiliation, will operate with 1 kw-D and continue on 250 w-N.

ABC RADIO WEST IS NEW REGIONAL

Mann heads system, formed from three regions

A new regional network, ABC Radio West, with 104 outlets serving more than 11 million homes and almost 26 million people in 10 western states, has been organized by combining the ABC Pacific Network of 59 stations, the Arizona Network of 10 stations and the Intermountain Network of 35 stations.

Jack H. Mann, director of sales development and program coordinator of ABC Radio, becomes director of ABC Radio West, with headquarters in New York. Harry Woodworth, western sales manager, ABC Radio, will also serve as sales manager for ABC Radio West, from headquarters in Hollywood.

Avery - Knodel has been appointed national sales representative of the new regional network. Avery-Knodel also represents the Intermountain Network and has just been named to represent the ABC Pacific Network, following the resignation of the network by its former rep, H-R Representatives. The Arizona Network is represented by John Blair & Co.

Formation of ABC Radio West was announced jointly by Robert R. Pauley, vice president in charge of ABC Radio; George Hatch, chairman of the Intermountain Network, and John Hogg, president of the Arizona Network.

Mr. Pauley commented that the total market served by the new regional network is "one of the most important in the country. It is more productive and shows a greater rate of growth and a higher degree of prosperity than any other area." The network will bring listeners "the finest regional programming combined with the full service of the ABC Radio Network," he said, and "will also furnish advertisers with the finest and most effective medium to reach this growing and prosperous market."

Mr. Hatch welcomed ABC Radio West as "bringing new strength to radio" and promised that it would provide "an excitingly new western radio news, weather and sports program service."

Intermountain President Lynn Meyer pointed to the success of that network, with 1960 gross revenue of more than $1.5 million, up 22.8% from 1959, and purely national spot business up 19%. "The area covered by ABC Radio West is a homogeneous one," he said, "with the fastest growth in population, retail sales and buying power in the nation."

FIGHT ON 20 CATV'S

Prediction of 100 systems sharply cut by heavy cost

TelePrompTer Corp., New York, expects to collect $150,000 in fees from community antenna television systems which will carry the March 13 heavyweight championship fight between Floyd Patterson and Ingemar Johansson. The estimated $1, a company spokesman said last week, will accrue from fees turned over by 20 catv systems across the country, including TelePrompTer's own six systems and a cable tv system with 20,000 homes in Montreal. Upwards of 100,000 homes will receive the telecast on U. S. catv systems.

There are two main reasons why no more than 20 catv systems have signed up for next Monday's fight in Miami. TelePrompTer said that some systems ran into conflicts with theatre showings of the bout, but a larger number of systems could not afford to pay the $3-4,000 in charges, the cost of picking up the telecast off AT&T lines leased by TelePrompTer. The company had earlier estimated some 100 catv systems would carry the fight (BROADCASTING, Jan. 30).

In other pre-fight developments, TelePrompTer sold to Fremantle International Inc., New York, the international radio and delayed tv rights to the fight, except in Great Britain and the Scandinavian countries. Gillette, it was learned, has purchased half-sponsorship of radio broadcasts and delayed tv telecasts in 18 Latin American countries. Though Gillette's purchase price was not announced, it was revealed that the amount Gillette is paying for half-sponsorship in Latin America is half as much as Gillette ever paid for worldwide radio rights to a sports event.

In collecting fees from catv owners who will carry the bout, TelePrompTer asked system owners to guarantee an amount based on the percentage of the telecast's potential viewers. TelePrompTer is leaving it to operators to levy an extra charge to viewers, and in some instances, as at TelePrompTer's own systems, operators will make the telecast available as a good-will gesture.
AN AMPEX FOR EVERY PROFESSIONAL NEED

In sound quality... in features... in lasting economy... these four Ampex professional recorders maintain the highest performance standards for broadcasters, recording studios, educators and other critical users. For 7" reel requirements—the PR-10 series—newest in studio quality compact recorders, priced from $845. For 10½" reels—the 351/354 series—proven by more than 10,000 units in use throughout the world. Other 10½" Recorders include the 300 series multi-channel Mastering series with up to 8 tracks. Your Ampex dealer will aid you in selecting the Ampex which best fits your needs. And ask him about the new Ampex Finance and Lease Plans.

THE PR-10-1
MONOPHONIC,
Fall or half-track. Single-channel electronics include built-in mixer to mix line and mike or two mikes (with plug-in pre-amp). Portable, or fits 14½" of rack space, 3½", and 7½" or 9½" and 15 ips speeds. Exclusive self-threading option. Alignment controls in front panel. New frictionless tape handling. All-electric push-button controls permit remote control operation. Write for Bulletin 212.

THE AMPEX 351
MONOPHONIC
Available in full or half-track models. Input switchable to mike, balanced or unbalanced line. Takes reels from 3½" to 10½". Speeds: 3½, and 7½ or 7½ and 15 ips. Available as console, compactable or mounts in 22½" of rack space. All-electric push-button controls permit remote control operation. Large 4½" VU meter reads input or recorded level plus bias and erase current. For more information, write for Bulletin 203.

THE PR-10-2,
STEREO/MONO
Two-channel electronics for some rock space as PR-10-1. Portable for remote pickups as well as in-studio use. Split erase permits stereo recording, half-track mono recording, cue track, and sound-on-sound. Two line inputs convertible (with pre-amps) to two mikes—one per channel. Additional mike and line inputs possible with MX-10 mixer. Write for Bulletin 212.

THE AMPEX 351/354
STEREO/MONO
Two-channel electronics. Compact and portable version as well as console. Requires only some rack space as 351. Some heavy duty tape transport as 351. Two line inputs, convertible to two mikes (one per channel) with pre-amps. More mike and line inputs with MX-33 mixer. Convenient balancing of stereo-channels with side-by-side VU meters. Split erase for stereo recording, half-track mono, cue track, sound-on-sound. Alignment controls in front panel. Bulletin 208.

ACCESSORIES AND ASSOCIATED EQUIPMENT

MONITOR SYSTEM

STEREO/MONO MIXER
MX-10 or MX-35. Four position, two channels, matches PR-10 or 351/354.

PLUG-IN EQUALIZERS
Provide NAB AME or CCIR curves as required.

PLUG-IN INPUTS
Match various inputs. Balanced bridging or mikes.

Complete descriptive literature also available on 300 series Mastering Recorder and High Speed Duplication from Ampex. Write Dept. B-3 AMPEX PROFESSIONAL PRODUCTS COMPANY • 934 Charter Street, Redwood City, Calif. • Ampex of Canada Ltd., Rexdale, Ontario.
Industry backs federal etv subsidy

FCC SAYS $1 MILLION GRANTS MAY PROVE INCENTIVE FOR UHF

The Senate Commerce Committee last week heard a parade of witnesses urge adoption of legislation they felt would give educational television a badly needed shot in the arm.

Their views were given during hearings on S 205, which was introduced by Committee Chairman Warren G. Magnuson (D-Wash.) and Sen. Andrew Schoeppel (R-Kan.), ranking minority member. The measure provides for grants of up to $1 million to states and the District of Columbia for establishing or improving educational television facilities.

Without such aid, the witnesses said, the potential of educational television will never be realized in this country. With it, poor states as well as wealthy would be able to provide enormous educational benefits to their school children and college students. Some even saw in educational television the potential for spurring commercial television to achieving higher standards.

Of the 268 channels the FCC set aside for educational purposes in 1952, only 54 are being used. Sen. Magnuson and many of the witnesses expressed the view that lack of capital funds is blocking the use of more, if not all, of the remaining etv channels.

Many of the arguments presented on Wednesday and Thursday (March 1 and 2) were not new to the committee. It held hearings on the same bill in the 86th and 85th Congresses. On both occasions, the measure sailed through the Senate but died in the House.

New Views: There were, however, some new wrinkles. This time, two important broadcasting figures, James Aubrey, president of CBS Television, and John L. Burns, president of RCA, spoke in favor of the measure. Donald H. McGannon, president of Westinghouse Broadcasting Co., who had supported the measure in the past, submitted a statement favoring passage of the bill.

In addition, the FCC also supported the measure. Commissioners Frederick W. Ford and Rosel H. Hyde both said etv needs financial assistance. Commissioner Ford, who testified shortly after stepping down as FCC chairman (see story page 74), also said that the cause of etv would be furthered if more uhf sets were in use. And he said the commission will shortly resubmit legislation to achieve this end.

He proposed bill would virtually compel manufacturers to build all-channel receivers by banning in interstate commerce those sets unable to receive both uhf and vhf signals. This measure has been presented to past Congresses, but has never gotten out of committee. Commissioner Ford said that if the bill is approved, it would promote the use of more uhf channels, educational as well as commercial.

In his testimony, Mr. Aubrey said that television is a valuable tool in education but that lack of funds has limited its use. The financial aid provided for in the Magnuson bill, he added, "will act as a trigger for the investment of non-public funds," in educational television. He said that once a station is on the air, it finds it easier to get the support it needs for continued operations.

CBS Subsidy: Mr. Aubrey also announced CBS Television is providing an aid-to-etv program of its own. He said, as a starter, the network and its Pittsburgh affiliate KDKA-TV are sending a director-producer team this week to WQED (TV) and WQEX (TV), Pittsburgh's two etv stations. The commercial TV men are to make their "know-how" available to the local etv outlets.

Mr. Burns saw almost unlimited possibilities in the aid-to-etv bill. The "seed money" it would provide, he said, could lead to the establishment of a nationwide educational television system. Such a system, he added, could bring a college degree within the reach of every American, raise teachers' pay and help combat the teacher shortage.

His reference to a nationwide etv network echoed an earlier comment by Sen. Magnuson. "Someday, we'll have a fourth network of educational television if we get this thing going," he said. And he predicted such a network would have an important effect on improving the commercial TV networks.

Commissioner Hyde agreed. "I am optimistic enough about the possibilities of educational TV to believe that it can even educate the people to demand of commercial television something better than a surfeit of cowboys, private eyes and give aways," he said.

An example of the use to which etv can be put was given by John Schwarzwalder, manager of KTCA-TV, an educational station in Minneapolis-St. Paul. He said that 30,000 fourth grade children in 1,000 different classes were being taught Spanish by "a master teacher" at a cost of one cent per pupil. Previously, he said, only 59 fourth graders were studying any foreign language.

Evidence of bi-partisan support for etv was supplied by William Harley, president of the National Assn. of Educational Broadcasters. He read into the record letters received by his association last fall from President Kennedy and former Vice President Nixon, both of which favored the idea of fed-

eral aid in this area.

Lausche Not Sure - However, hearing wasn't all one-sided. Sen. Frank J. Lausche (D-Ohio) sounded the discordant note, declaring, "I think the medium is wonderful, but I think it's an erroneous conclusion that the only way it can be utilized is with federal financing." He said state and local governments should "take the lead and not come constantly to the federal government."

Sen. John O. Pastore (D-R.I.) rose to this challenge. He said the federal government has been forced to undertake various projects for local communities which simply lacked the necessary funds. "And I'd hate to see the day," he added, "when a man has a lot of gold hoarded and his children are illiterate . . . And I'd even go for a $4 billion deficit in gold if it would help us beat the Russians in education."

While most of the witnesses were talking of educational stations which would cost several hundred thousand dollars to build, one witness said etv could be provided at bargain rates.

In a statement entered into the record, Mort Zimmerman, president of Electron Corp., of Dallas, Tex., said his company had developed techniques for putting an etv station on the air for $50,000. He said it had already done this in the case of KRET-TV on ch. 23 in Richardson, Tex.

Other witnesses appearing at the hearing or entering statements were

Sens. John Sherman Cooper (R-Ky.) and Lee Metcalf, (D-Mont.), who also co-sponsored S205; Erling Jorgenson, director, Montana Educational Project, Montana State Univ.; Dr. Charles H. Boehm, superintendent of public instruction for Pennsylvania; Mrs. Robert Horning, president, Greater Cleveland TV Education Assn.; Loren Stone, manager, KCTS-TV, Seattle, Wash.; Mrs. Edmund D. Campbell, Greater Washington Educational TV Assn.; Dr. Bernard Everett, assistant superintendent of schools, Boston, Mass., and John F. White, president of the National Educational TV & Radio Center.

**IN THE HILL HOPPER**

Here, in capsulated form, are bills introduced in Congress that are of interest to those in broadcasting and allied fields:

HR 4502. Rep. Victor L. Anfuso (D-N.Y.)—would amend the Communications Act to prohibit radio or tv stations from consistently portraying any religious group, race or nationality in a degrading or criminal manner. Commerce Committee.

HR 4231. Rep. Clarence Brown (R-Ohio)—would require the licensing of networks and bring them under FCC regulation and control.

HR 4232. Rep. Clarence Brown (R-Ohio)—would prohibit the broadcasting of edited interview or discussion programs without the consent, to the editing changes, of the persons participating in the interview or discussion.

**KFRE-TV dual start called 'coincidence'**

Triangle Publications Inc. told the FCC last week it was just "sheer coincidence" that its KFRE-TV Fresno, Calif., began dual operation on chs. 12 and 30 the same week two rating services began surveys of the Fresno market. Replying to a protest by ch. 47 KJEO (TV) Fresno (At Deadline, Feb. 20), Triangle said the complainant "deliberately chooses to ignore" this.

Both KJEO and ch. 24 KMJ-TV Fresno objected to the commission's grant of dual operating authority to KFRE-TV until April 12. The move was made as part of the commission's plans to make Fresno an all-uhf market by deleting ch. 12.

Triangle said it voluntarily abandoned legal rights by which it could have prolonged the vhf-uhf status quo in Fresno for several years; that it has cooperated
This man has a complete radio station in his brief case. He has microphones and consoles, towers and transmitters: the wide array of equipment it takes to put a radio station on the air—even a building. This man is a Collins broadcast sales engineer.
with the commission at every turn, ex-

pending considerable time, energy and

expense to inaugurate KFRE-TV's op-

eration on ch. 30 as quickly as possible.

"What more can be asked of a licen-

see?"

KFRE-TV originally planned to be-

gin dual operations Jan. 6—was del-

ayed when it failed to receive the uhf

antenna from the manufacturer—and

KJEO knew this, Triangle said. "Yet,

now petitioner would have this com-

mission believe that the dual operation

doing the survey periods is part of a clever, diabolical

scheme to dominate those surveys,"

Triangle stated. "The fallacy, if not

the absurdity of petitioner's argument,

is manifest."

Triangle maintained the public in-

terest requires temporary operation on

both channels so citizens in outlying

areas will not be deprived of the KFRE-

TV signal. For example, Triangle said,

the community of Woodlake, 40 miles

from Fresno, now receives ch. 12 but

can't pick up ch. 30. A uhf translator

has been ordered to provide Woodlake

with ch. 30, Triangle added.

Authority for dual operation, issued

Feb. 8 by the FCC, was "proper and

in full compliance with all pertinent

legal requirements," Triangle said. Its

request for dual operation actually was

an application for license under Sec.

319(c) and therefore was exempt from

that part of the Communications Act

requiring public disclosure, Triangle

stated.

Appeals court to hear

ch. 10 case on merits

The Miami ch. 10 ex parte case goes
to court on the merits March 22.

The arguments will be heard by the

same three-judge panel which has sat

on the case since its beginning; Circuit

Judges E. Barrett Prettyman, John A.

Danaher and George T. Washington.

At issue is the FCC's July 1960 order

revoking the 1957 grant of ch. 10 in

the Florida city to National Airlines

and reassigning it to L. B. Wilson Inc.

Wilson was the only one of the four

original applicants not found to have

generated in some form of off-the-record

maneuvering.

National Airlines claims its grant

cannot be revoked without a revoca-

tion hearing before the FCC. North

Dade Television Inc., a third applicant,

maintains the FCC erred in tarring it

with the ex parte brush. The fourth

applicant, WKAT Miami, has with-

drawn from the litigation.

The Miami ch. 10 case is the first of

many involving charges of behind-

the-scenes pressures. The court's ruling

in this case will be considered a bell-

wether for the others, which include:

Miami ch. 7, Boston ch. 5, Orlando ch.

9, Jacksonville ch. 12, St. Louis ch. 2

and St. Louis ch. 12.

Like the Miami ch. 10 case, the Bos-
ton ch. 5 case is back in court; the

Miami ch. 7 case is to be argued before

the FCC en banc March 10; the Or-
lando and Jacksonville cases have been

designated for hearings; the FCC pro-
posal to reconsider the St. Louis ch. 2

case is subject to court approval, and

the St. Louis ch. 12 case is under in-

vestigation.
The first prize was a Duroc gilt

(not to be confused with our Gold Pork Chop award)

Swine, no cuss word in Eastern Iowa, can be beautiful, if you know where to look. Stuffed with corn, symbolically wearing an apple presaging future feasts, a hog, considered moola-wise, is money on the hoof, or bankable bacon.

Porcine aesthetics are understood in Iowa, producer of some 22% of the nation's hog income. For five years now, WMT-TV's annual Swine Judging Contest has stimulated lively interest (649 entries this year). It's no place for Revlon, but sponsors like Wilson and Company, and the J. I. Case farm implement dealers, find it better than an Atlantic City beauty contest.

Should any New York City television stations want our secret, here's the oink-tested formula: Truck twelve hogs to your studios. Rev up the videotape and shoot the porkers front, side and back. Interview them, being careful to avoid conversational gambits that lead to discussion of future plans, and football. Safe subjects are diet, farm size, and number of tractors in the family. Store the tapes for subsequent use, after the oinks are cleared away, as segments on your weekday noontime farm show. Encourage would-be contestants to write for judging blanks. Play back the taped segments in a specified week. Ask the contestants to place, grade and estimate back-fat thickness of each hog, four hogs to a class. Let your farm staff tabulate the entries and pick the winner.

This year (the third year in a row) a lady won first prize. We suspect the reason for such distaff accuracy is training acquired from years of keeping an eye on the butcher.

Well, that's about the story, except for the admonition in the sub-head. Each spring, the WMT Stations also present a Gold Pork Chop plaque (made from a cast of a frozen chop from the champion carcass) to the winner of the Iowa State Spring Market Hog Show Quality Pork Contest. How'd you like to have one of those over your mantel?

HARRIS' NEW SUBCOMMITTEE

Regulatory agencies group with $195,000 budget announced, with Rep. Harris as probable chairman

Chairman Oren Harris (D-Ark.) of the House Commerce Committee last week made it official: The Legislative Oversight Subcommittee, which dug deeply into the affairs of the FCC and other regulatory agencies for 3 1/2 years before going out of business on Jan. 3, will have a successor—a permanent Subcommittee on Regulatory Agencies.

Not yet official at week’s end but expected momentarily was the announcement that Rep. Harris will chair the new subcommittee, as he did the old oversight unit. He is also expected to announce that, to take on the new assignment, he will give up his chairmanship of the Communications Subcommittee.

It is believed he will be replaced in this position by Rep. Morgan Moulder (D-Mo.), the next-ranking committee Democrat without a subcommittee chairmanship. Rep. Moulder was the controversial first chairman of the oversight subcommittee. After several months in that position, he was forced to resign by Rep. Harris for, among other gaffes, leaking to a St. Louis newspaper secret subcommittee documents concerning a prominent Republican.

The Harris announcement, which had been anticipated ever since Oversight expired, was made following House approval on Tuesday (Feb. 28) of the full Commerce Committee’s request for $435,000 to finance its activities. Of this sum, $195,000 is earmarked for the new subcommittee.

Who’s On It? • The membership of the new unit will be announced shortly, along with other subcommittee assignments. Rep. Harris and Rep. John B. Bennett (R-Mich.), the Commerce Committee’s ranking minority member, began conferring on assignments late last week.

In making his announcement, Rep. Harris said the subcommittee’s purpose will be to examine “the adequacy of the laws and their administration by the agencies whose activities are subject to the jurisdiction of the committee.”

And, while he did not mention James M. Landis, the newly appointed White House overseer of regulatory agencies, the Commerce Committee chairman emphasized that he was not about to surrender any of his committee’s jurisdiction.

“I have no intention of abandoning or neglecting the responsibility of the committee . . . in this important field,” he said. “Our committee is familiar with the problems and has the facilities to deal with them. The major regulatory agencies whose activities are under the jurisdiction of our committee are ‘independent’ agencies. . . . They are an arm of Congress and, therefore, primarily subject to the legislative oversight of our committee.”

Close the Gap • The chairman stressed that the subcommittee will look into the adequacy of both substantive and procedural law. “The time has come to close the regulatory gap between promise and performance,” he said. “Deficiencies in the substantive or procedural law responsible for this gap must be corrected by legislative or administrative action.”

Turning to one question the new subcommittee can be expected to look into, Harris said, “There is no reason why false and misleading advertising should remain in a gray area, unchecked by regulation.” “Gray area” is a term some agencies have used to describe situations in which they were uncertain of their power or authority.

Rep. Harris also said he was “gratified” by the recent actions of “several agencies” to improve and speed up their operations. He wasn’t specific, but it was believed he was thinking primarily of the ICC, which has introduced a number of new procedures to expedite its work.

Despite these “encouraging signs,” further action is needed, he said. “We should concentrate on developing concrete legislative proposals and administrative measures to eliminate bottle necks and make certain that the laws keep pace with changing needs.”

“The American people,” he said at another point, “are entitled to speedy and inexpensive processing of matters before administrative commissions.”

Pope brothers plead guilty

Fortune Pope and Anthony Pope, co-owners of WHOM New York and WDOT Burlington, Vt., pleaded guilty last week in U. S. District Court in New York to five counts of an indictment charging them with violation of Securities & Exchange Commission regulations. The indictment covered charges of diverting more than $375,000 from Colonial Sand & Stone Co., New York, of which the Pope brothers are substantial stockholders and chief executive officers, for their “personal benefit and enrichment.” They face up to 20 years in prison. Sentencing was set for March 31.
THAT WCKY SURE SEWS UP CINCINNATI!

Since it's hardly considered cricket to needle competition (ours or anyone else's for that matter) we won't quote that part of the nice letter from Northwest Airlines that compares WCKY sales results with other stations! But you will get the thread of the story if we just dot-dot-dot the parts that say: "... in the Cincinnati market, WCKY is our best sales tool... never in our wildest dreams did we anticipate such response". That would seem to be enough to sew it up; if WCKY can move passengers half-way around the world, can you imagine how it moves toothpaste, cigarettes, coffee and what-you-sell in its own billion-dollar 68-county neighborhood. What's more, AM Radio Sales will show you that WCKY just costs a thimble-ful of money.

WCKY-RADIO IS SOME BUY! 50,000 WATTS - CINCINNATI
King warns against program surveillance

AND ADDS SOME SALTY VIEWS ON FCC'S WORK AS HE LEAVES IT

There is nothing the FCC or any government agency can or should do about the quality and content of programming. As long as the public and Congress expect the commission to do something to improve programming, however, the agency will continue to try "...but mostly it will be just spinning its wheels."

This is the opinion of Charles H. King, Detroit Law College dean who left the commission membership last Thursday (March 2) upon the swearing-in of the new chairman, Newton N. Minow. Commissioner King had served on the agency since last July under a recess appointment from President Eisenhower.

Although his tenure in Washington was brief, Commissioner King won a reputation as a critic of a bureaucratic government, delay and the drain on a commissioner's time by inconsequential matters.

During his last week in office, several questions were put to Commissioner King on the current problems and activities of radio-tv and the FCC. Here are his replies:

Q. What do you think is the FCC's responsibility in programming, if any? A. Here I think the FCC is getting itself into an impossible situation. Many say programming quality is poor. My opinion is that there isn't anything the FCC can do about it. The FCC cannot tell a broadcaster what he can or cannot put on the air. All it can do is review the station's performance.

But, how is the FCC going to determine the quality has been good or bad? Nobody is going to listen to a three-year tape recording of programs by the 1,600 stations up for renewal each year. All it can go to is some sort of a biennial report form. In the present forms, the programming information relates not to quality, but to quantity. I don't know how any form can be devised which will adequately measure that factor.

This is why I can't get too excited over all the talk that a station's performance should be rigorously checked against its promises.

The commission is proposing a change in the programming section of the application and renewal form. Unless I badly miss my guess, these statements will boil down pretty much to how much of this and how much of that.

In a recent issue of Broadcasting [Feb. 20], I saw a statement by someone on Capitol Hill that the FCC's function is to keep stations in a continued state of tension and forestall a feeling of self-satisfaction. That isn't regulation—it's harassment.

Q. Do you think the FCC's activity in respect to programming will lessen at any time in the near future? A. No. Look at Mr. Minow's confirmation hearing in the Senate. Practically the only thing the senators seemed to be interested in was the quality of television programming. I never appeared before them. But my friends back in Detroit wanted to know what I was going to do about television.

As long as the public and the Congress expect the FCC somehow to improve the quality of television, my guess is that the FCC will continue somehow to try. But mostly it will be just spinning its wheels.

Q. In the final analysis, what do you think will improve the quality of television? A. That's easy—public opinion. Broadcasters are under a duty to serve the public interest, but they first have to stay in business by making a profit. It is inevitable that what most of the people want is what they are going to get.

A lot of people don't like this, and feel that television should be on a much higher plane. But their position would be much sounder if they explained who was going to pay for it.

Television suffers from a handicap. Nobody expects everything in a newspaper or magazine to be extra good or to be interesting to everybody. But what you don't like in a magazine you can skip. On television, that can't be done. The critics of television apparently feel they shouldn't have to turn the set off—that whenever they turn it on, they are entitled to watch something they like.

If the magazine concept was applied to television, the quality might go up.

There is one drawback to the magazine concept—that old 'debbil' money. If advertisers were denied control of the shows they sponsor, so they would lose their identity with a particular program, they might not be willing to pay so much toward the support of free television.

Q. Would your advice to the New Frontier in respect to programming be to walk softly? A. Yes. To carry a big stick—but be careful how you use it. When a real abuse turns up, swing it hard, but don't regulate just for the sake of regulating.

Q. Can the quantity of commercial content be limited? A. I don't know. After all, broadcasting is private enterprise and not a public utility, although it is frequently referred to as such.

The broadcaster must fight his own economic and competitive battles. So maybe it would be illegal to limit the quantity of commercialism.

Q. How about the "lifted eyebrow" technique of regulation? A. I'm against that and have so voted a couple of times. When without any notice, the commission picks on a particular station for running more commercials than the commissioners personally think he should. It may work, by scaring other stations but it certainly is out of step with American justice and fair play.

Q. Do you advocate direct regulation of the networks by the FCC? A. I think, at least to the extent that the commission can presently regulate the networks by indirectness, it should be able to do so directly. In other words, I think the business aspects of a network should be subject to regulation by the FCC. Programming is something else.

Q. What do you think of the future of pay tv? A. I don't think it will work. I think the people claim that it will deliver a better product than is presently available on free television. How does pay tv expect to get more people to pay to watch than will watch for free? Of course, if pay tv doesn't expect to be a mass medium but to cater to an elite audience, then the lack of a large audience would be immaterial. But if it succeeds, I should think the inevitable tendency would be to cater to the many rather than the few.

Moreover, there is a question in my mind concerning where pay tv is going to get this better quality programming they talk about.

Q. If pay tv is successful, do you think it will put an end to our present free system? A. I should think so. It would be bound to siphon off the most attractive programs now on free television. When that happens, advertising support of free television is bound to drop and probably dry up altogether eventually.

Q. On that basis, do you think pay tv should be permitted? A. Yes. Stopping it without a trial would be the same as if we had prohibited the manufacture of automobiles because it might put horses out of business.

BROADCASTING, March 6, 1961
Q. How do you feel about Section 315 and the current plea of industry to have it repealed outright?
A. Ultimately, I think the entire section should be repealed, but I suspect this will have to come about step by step. In the last presidential campaign, certainly no criticism could be leveled against the broadcasters. I doubt that there would be any if you included state governors and perhaps U. S. senators. But I doubt that Congress will immediately leave it completely up to the broadcasters. Sooner or later, I think it will come and that at least on an experimental basis, we will trust the broadcasting industry to do what is right.

Q. Do you subscribe to the often-heard criticism that the commissioners are susceptible to domination by the industry they regulate?
A. I have seen references to myself as not having been tough enough. Admittedly, I have been on the side of the broadcasters on several controversial issues. It was because I thought the public interest required me to vote the way I did and I wasn't going to change just because the broadcasting industry happened to be on the same side. They are not all angels, but neither are they a bunch of crooks.

Incidentally, I think the biggest problem a commissioner has is determining what is this so-called "public interest." What constitutes the public interest is left pretty much up to the conscience of the individual commissioners which certainly makes for a practicing lawyer's paradise. Anything can happen, depending upon how tough a majority of the commission happen to feel on any particular day. That's an overstatement but there's some truth in it.

Q. Were you exposed to any of the ex parte pressures we have heard so much about in the past?
A. No. I expected pressures, of course, but I've had them before. Actually, there haven't been any.

Q. One of the points in the Landis Report was that the commissioners are overwhelmed with detail and don't have enough time to consider the broader aspect of policy. Do you have any comment on that?
A. Yes. There isn't any question that Dean Landis is right. A good deal of my time has been spent on matters that really weren't important enough to warrant taking up the time. The obvious answer is that more authority in routine matters should be delegated to the staff. The other commissioners are as conscious of it as I am and, long before the Landis Report, Chairman Ford appointed a task force to investigate the whole matter.

Q. Would you recommend a separate tribunal to handle adjudicatory cases, taking them away from the commission altogether?
A. No. I think the commission can handle both the regulatory and adjudicatory aspects. It can do a better job on both than if it handled only the regulation.

Q. The Landis Report says that the Commission has drifted, vacillated and stalled in almost every major area. Do you agree?
A. Definitely not. Take two of the areas which I assume Dean Landis was talking about when he made that statement—the clear channel proceeding and the vhf-uhf problem. Nobody has been able to figure out how to break the clear channels down without jeopardizing the only nighttime radio service available to about 25 million people. So the commission hasn't taken any action. But this isn't standing; this is simply preserving the status quo until some better answer can be found.

As to the vhf-uhf matter, the commission has proposed to Congress that it require all new television sets to be equipped for all channels. I'll bet Congress doesn't do it. The problem isn't going to be solved by critics who do nothing more constructive than say—

Don't just stand there, do something!

Somewhat facetiously, I might add that if the quality of television is as poor as so many people say it is, why do we want more?

An appellate court has only two alternatives: affirm or reverse. The commission on the other hand, must develop alternatives, including the maintenance of the status quo. Choosing the latter until a definitely superior alternative presents itself is not vacillating. It is cautious good sense.

Q. Any last words?
Yes. I think television is a lot better than it's given credit for. I see a lot of wonderful things. Maybe I see a lot that's not so wonderful, too, but if it was all high class, I guess we'd get bored even with that—sooner or later.

The industry has grown from nothing to a tremendous giant in less than 15 years. It's a lot better now than it used to be; I suspect it will get even better in the future, if the government gives it a chance. Free enterprise has produced for the American people the highest standard of living in the history of the world. I don't want it shackled or destroyed.
COURT UPHOLDS FCC
Says order putting networks out of rep business is legal

The FCC’s 1959 order to put the television networks out of the national spot representation business (Broadcasting, Oct. 12, 1959) was upheld last week by a three-judge panel of the U. S. Court of Appeals in Washington.

The court thus denied appeals by NBC and four affiliated TV station owners against the FCC rulemaking order. Station Representatives Assn., which long has opposed the networks’ competition in the national spot sales field, sided with the FCC as an intervenor in the case. Two networks (CBS and NBC) have until next Dec. 31 to terminate their contracts with several TV affiliates under the FCC order. ABC-TV does not represent affiliates for national spot.

The court denied the validity of three reasons given by NBC and the four affiliates for reversing the FCC: (1) that the FCC has no statutory authority to issue such an order; (2) that the order is an unreasonable exercise of FCC rulemaking authority; (3) that the FCC is not justified in requiring “divestment” of existing contractual rights.

Legality - The established legality of the FCC’s right to issue its chain broadcasting regulations of several years ago is adequate to cover the present order, the court said, and it can find no error in the FCC’s conclusion that the networks’ dual role in representing affiliates for sales of both non-network time and network time enables them to restrain competition between network and national spot tv in a way which can restrict the affiliate’s freedom and independence of action.

The court said it need not consider whether a mere “potential” evil is involved, “for it is settled that practices which present realistic dangers of competitive restraint are a proper consideration” for the FCC.

The FCC, the court said, considered and rejected alternatives, suggested by NBC and the four affiliates, on the ground they would require too much supervision, too regularly; that the hardships of divestiture are outweighed by the public interest in the FCC’s remedial rulemaking.

Appealing with NBC were KOA-TV Denver, WAVE-TV Louisville, KSD-TV St. Louis and WRGB (TV) Schenectady.

Concurring in the opinion written by Judge David L. Bazelon were Judge George T. Washington, a member of the court, and Orie L. Phillips, senior U. S. judge for the Tenth Circuit.

NASA, FCC reach accord on space

A "memorandum of understanding" between the National Aeronautics & Space Administration and the FCC, designed to coordinate their respective responsibilities in civil space communications, was released last week.

The joint NASA-FCC announcement was made following lengthy discussion between the two agencies (Closed Circuit, Feb. 27). Among others, they agreed upon the following policy guidelines: (1) the earliest practicable realization of a commercially operable communication satellite system is a national objective; (2) this can be accomplished through joint action by government and private enterprise; (3) private enterprise should be encouraged to undertake development and utilization of satellite communications systems.

NASA and FCC also promised to work for international cooperation in the field and to use existing inter-agency organizations to coordinate assignment of frequencies necessary to support research and development.

NAB seeks court permit for rehearing film case

NAB asked the U. S. Supreme Court last week for permission to join a rehearing petition by Times Film Corp. in the court’s ruling which upholds prescreening of motion pictures to be shown in Chicago theatres. Under the terms of the decision (Broadcasting, Jan. 30), all media face problems of censorship.

NAB proposed to argue that such a censorship method would be difficult to limit to films.

The trade association also contended it might lead to violations of the basic fundamental right of freedom of speech under the First Amendment to the Constitution.

"While the majority of the court would limit the effect of the decision to motion pictures," NAB said, "no justification is made for treating movies differently than other vehicles used for the dissemination of ideas and information."

NAB contended the sole question is not whether there exists an inherent right to show all motion pictures at least once, no matter how obscene or inflammatory the content might be, but whether any city may require all motion picture exhibitors to submit all films for licensing and censorship prior to public exhibition. Unless a reasonable basis can be found for distinguishing movies from other media, equal protection of laws would seem to give validity to like censorship schemes for

BUT... You’ll See BIG Things Happen

In Kalamazoo-Grand Rapids When WKZO-TV Carries Your Message!

WKZO-TV is, and has always been, the biggest thing in television in Kalamazoo-Grand Rapids and Greater Western Michigan.

NSI (see left) proves that no other station reaches as many homes in this area as frequently as WKZO-TV! But the size and growth record of the market makes WKZO-TV’s position even more important. For example, between now and 1965 Kalamazoo alone is predicted to grow faster, in terms of personal income and retail sales, than any other U.S. city (source: Sales Management Survey—July 10, 1960).

Put the solid push behind your product that only WKZO-TV can give in Kalamazoo-Grand Rapids. And if you want all the rest of outstate Michigan worth having, add WWTV, Cadillac, to your WKZO-TV schedule!

*Rare leatherback turtles have weighed up to 1,002 lbs. and grown to 9 feet in length.

The changing of the guard at the FCC

The New Frontier officially took command of the FCC last Thursday (March 2) when Newton N. Minow of Chicago was sworn in as a member and chairman. The ceremony, held in the 160-seat commission meeting room, was attended by an estimated crowd of 350 with every available standing space filled. It was described by veteran FCC information chief George Gillingham as the largest audience ever to witness a swearing-in ceremony.

Mr. Minow, 35-years-old, is the second youngest man ever to serve both on the commission and as its chairman. He has been confirmed by the Senate for a term ending June 30 and a subsequent full seven-year term running until June 30, 1968.

Charles H. King of Detroit (see story, page 70) left the commission to make room for Mr. Minow. Mr. King had been serving since July under a recess appointment. Mr. Minow succeeded Frederick W. Ford as chairman with the latter remaining as a member of the agency.

Supreme Court Justice William O. Douglas swore Chairman Minow in. Justice Douglas said that his outstanding abilities were well known to the high tribunal from Chairman Minow’s service in 1951 as clerk to then Chief Justice Fred M. Vinson.

Chairman Minow went to work immediately after taking the oath to prepare himself for three oral arguments before the commission en banc Friday, at which he presided as FCC chairman for the first time.

Immediately after being sworn in as chairman of the FCC, Newton N. Minow (r above) receives the congratulations of (l to r) Rep. Peter Mack (D-III.), Rep. Oren Harris (D-Ark.), chairman of the House Commerce Committee, and Supreme Court Justice William O. Douglas, who administered the oath to Chairman Minow. Almost immediately, also, the FCC chairman made a date to meet with the Commerce Committee chairman in the immediate future to discuss broadcasting problems of mutual interest.

On the right, Chairman Minow whispers to his wife, Mrs. Josephine Minow, while waiting to receive congratulations from others in the record audience.

The FCC last week...

- Granted an extension of time for comments on a new proposal on payoffs, drop-outs and mergers (Broadcasting, Feb. 27). Comments due originally Feb. 20 will be accepted until March 13; replies deadline is moved from March 7 to March 28. The extension was requested by the Federal Communications Bar Assn., which stated it had been electing new officers at the time comments were originally due.
- Amended its rules to exempt tv translator stations from certain of its requirements dealing with published notice of amendment of existing facilities or applications for new ones. A new subsection was added to FCC rules to apply to low-powered translators, relaxing requirements on the number of times published notification must appear. In any case, if no publication of general circulation is available in the area applied for, the applicant can post notice in the local post office or other public place, the rules say.
- Extended indefinitely the effective date of rules requiring tv stations to have type-approved frequency and modulation monitors. the station whenever the transmitter is in operation. The deadline for compliance had been extended several times in the past with last week’s action cancelling a Feb. 28 deadline. The commission noted that rulemaking now is underway which would eliminate the requirement for type-approved monitors with comments due March 23.
- Received a petition from National Telefilm Assoc. asking that its application for new tv station on ch. 12 in Wilmington, Del., be dismissed. NTA said that it had decided to sell its broadcast properties (WNTA-AM-FM-TV New York) and to concentrate on the development and distribution of tv programs. Other applicants for ch. 12 include Rollins Broadcasting Co., educational WHYV Inc., Metropolitan Broadcasting Co. and Wilmington Tv Inc. A prehearing conference has been scheduled for Wednesday (March 8).
We were sure of it all along—and now Nielsen confirms it! WWJ's four-hour week night block of good talk and fine music attracts more listeners than any other programming in the time period.*

RADIO-TV'S CAMPAIGN BEHAVIOR

FCC final report indicates broadcasters toed the line

The FCC last week issued its report on the effects of last year's temporary suspension of the equal-time provision of the Communications Act.

For the most part an elaboration of the preliminary statement it gave the Senate Communications Subcommittee last month (Broadcasting, Feb. 6), the report indicated that broadcasters behaved responsibly with the freedom given them to cover the presidential and vice presidential campaigns.

However, it did offer two suggestions in the event Congress decides to make the temporary suspension permanent. It said new legislation should provide for the eventualty that a presidential or vice presidential candidate might also be running for another office at the same time.

The Johnson Case: The report noted that the then Sen. Lyndon Johnson, while a candidate for vice president, was also seeking reelection to the Senate. As a result, after he had appeared on a number of network programs, his Republican opponent in the Senate race requested "equal opportunities" of the Texas stations on which Sen. Johnson had appeared. This issue was never resolved, the commission said.

The second suggestion calls for a clearer definition of word "nominees." Since the resolution suspending the equal-time provision refers to "nominees" for president and vice president, the commission noted, "it can be argued that the appearance of an independent candidate or one who is not nominated at a convention ... does not come within the provisions of the resolution."

The report was based on replies to questionnaires sent to the networks and some 5,000 stations requesting information on political broadcasts during the presidential and vice presidential campaign.

While the report satisfies the congressional request incorporated in the resolution suspending the equal-time provision, the FCC said there would be more to come.

It said it is working on a state-by-state breakdown of activities of am, fm, and tv stations in political broadcasting (sustaining and paid). The study includes the appearances of candidates for five offices selected for study — president, vice president, senator, representative and governor. This report is expected early next month, according to the FCC.

WJPB-TV transfer hit by Broadcast Bureau

The FCC's Broadcast Bureau last week took a strong stand against a hearing examiner's decision affirming the transfer of 50% of WJPB-TV Weston, W. Va. (Broadcasting, Dec. 19, 1960). The bureau argued that there had been an unauthorized transfer and that J. P. Beacom, 100% owner of WJPB-TV, and Thomas P. Johnson, who purchased 45%, were guilty of deliberate concealment of facts to the commission.

Mr. Beacom received the Weston ch. 5 grant Nov. 4, 1959, following a stock option agreement between his WJPB-TV Inc. and a competing applicant, Telecast Inc. (dark ch. 22 WENS-TV) Pittsburgh). In return for the withdrawal of Telecasting, WJPB-TV granted a three year option in May 1959 for Telecasting to purchase 50% of the remaining applicant. Two weeks after the grant, Mr. Johnson, majority owner of Telecasting, contracted to purchase 45% of the Weston station and George W. Eby, another Telecasting stockholder, 5%. Mr. Beacom retained 50%.

An application effecting these changes was filed in January 1960 and it was granted without hearing Feb. 17, 1960, WBOY-TV Clarksburg, W. Va., pro-

Steppe-down memento

Commissioner Robert T. Bartley (l) presents an historic gavel to Frederick W. Ford as the latter conducted his last meeting Wednesday (March 1) as chairman of the FCC. The next day, Chairman Ford was replaced by Newton N. Minow (see page 74) and reverted to the status of commissioner. The gavel was made from the "Washington Elm Tree," which tradition tells was planted on the grounds of the U. S. Capitol in 1798 by President George Washington. The gavel was presented to Commissioner Bartley in 1949.
Salinger sets rules for news conferences

White House News Secretary Pierre Salinger last week indicated consideration had been given to stationing watchers in the TV network rooms where Wednesday's presidential news conference was taped. The purpose would have been to guard against premature use of any information.

He said spokesmen for some other media had expressed fear that the networks might make unauthorized use of their tapes or that an employee might get a tip with which he could make a stock market "killing" before the conference ended.

Mr. Salinger, however, said he was willing to trust the networks to abide by the ground rules laid down in advance of the conference.

These prohibited live radio or TV coverage. But they permitted the networks to tape the conference in New York headquarters for use at its conclusion. In addition, newspaper and wire service reporters were not allowed to file stories before the end of the conference.

Mr. Salinger said these rules might be changed in the future but that they would be permanent for presidential news conferences not carried live.

While he said he trusted the networks, Mr. Salinger added that he would confer with network representatives about the possibility of installing taping equipment in the State Dept. building where the news conferences are held.

Stations criticize NBC's JFK conference edicts

Five New York radio stations (all independents) criticized NBC Radio last week for alleged "arbitrary handling" of the pooled coverage of President Kennedy's Wednesday (March 1) morning news conference. NBC, the pool representative for radio, told the independents they would be provided with tapes of the conference on condition they give NBC on-the-air credit, refrain from using tapes until after NBC had begun its conference broadcast, and discontinue editing or airing excerpts.

News editors from WNYC, WMGM, WINS, WMCA and WNEW, all independents, met last week and appeared ready to lodge an official protest with both the network and the White House. They labelled NBC's actions as "unprecedented" and "unwarranted." Later NBC suspended the no-editing, no-excerpts ban but declined to offer a similar guarantee for the future.

According to an NBC spokesman, "new ground rules" imposed by the White House last week were mainly responsible for the dispute.

Here's a supplementary station service that's proving a real asset to broadcasters:

It's the transmission of Magne-Tronics taped "motivational" background music — to restaurants ... supermarkets ... industrial plants ... hotels ... offices, etc.

It's a service that fits ideally into radio station operations. It's been perfected for FM Multiplexing and/or wired line transmission.

TOP QUALITY MUSIC. "Motivational" music by Magne-Tronics is performed by "name" talent from both sides of the Atlantic. Over 5,000 sparkling selections... some 500 new numbers every year. All fully authorized, cleared and licensed.

EXCLUSIVE FRANCHISES STILL AVAILABLE Magne-Tronics "motivational" music is now heard with pleasure and profit in more than 80 markets — from Boston to Brownsville ... from Washington to Waikiki. Choice territories are still open — and every open market is an opportunity for greater station profit. Write today for full details.

First refusal rights to qualified stations wishing to explore this opportunity. No obligation, of course.

Be sure to look into the Magne-Tronics music service for "automated" radio programming. Priced to meet economy-minded budgets.

Magne-Tronics, INC. | 49 West 45th Street, New York 36, N.Y.

Market's brisk in movie imports for TV

INTERCONTINENTAL TV, COLUMBIA INTERNATIONAL JOIN DISTRIBUTORS

Officials of Intercontinental Television Corp. and Columbia Pictures International were busily at work at their New York offices last week on projects that will bring new dubbed foreign feature films to U.S. television screens this spring and summer.

Intercontinental and Columbia International are the most recent of a growing number of TV distributors which regard the film import-to-TV mart as an expanding one ripe for further development. What is significant is that both Intercontinental and Columbia International are affiliated with the “blue chip” of the motion picture industry-Walter Reade Theatres and Columbia Pictures Corp., respectively. In the past, the television import business has been dominated by smaller organizations.

Foreign features on television are not new. Eight years ago, Jules Weill, then with Specialty Films, pioneered the sale of Italian, French and other foreign films. But these were exposed largely in metropolitan markets and often were carried in fringe time periods. An associate of Mr. Weill, now with Colorama Features, New York, points out that the field is broadening each year and will become even more attractive to TV stations when foreign color films become available. He reported that Mr. Weill returned recently from Europe and is formulating plans to import about 100 color features. He observed: “These should be salable. Remember, not too many color features have been made in the U.S. in recent years.”

Sig Shore, an ex-TV distributor and currently a partner in Valiant Films, New York, which distributes feature films theatrically, believes the present interest in imported motion pictures gained impetus when WRCA-TV (now WNBC-TV) New York bought a group including “Anna,” “Bitter Rice,” “Mr. Hulot’s Holiday,” “Gold of Naples” and “Riff” for the station’s highly-rated Movie Four program on Saturday night about four years ago. The favorable reaction, he said, generated such interest that he sold the package in more than 60 markets, including such so-called “Bible Belt” areas as Nashville and Memphis. Many of the stations, he continued, slotted the features in popular feature-film time periods and garnered highly satisfactory ratings.

Sex and Violence • Mr. Shore, who then was president of Video Artists Inc., noted there is still some resistance to foreign features by certain station opera-

erators who equate them solely with “sex and violence.” He contended this is “not at all necessarily so” and explained that the themes of these films often may be “adult and serious and sometimes controversial.” His company assigned the rights of many of his features to Flamingo Telefilm Sales. Mr. Shore added: “The producer statements I receive indicate that these films are still making a nice piece of change on TV.”

Broadcast Information Bureau, New York, a TV film service organization, reports there are almost 900 foreign features available to stations, but it is estimated that perhaps only one-half of these are appropriate for TV because of the “star” names in the casts. Among the reasons cited by distributors for the growing popularity of film imports are these:

- Among the box-office draws of today, particularly on the distaff side, are such names as Brigitte Bardot, Gina Lolobrigida, Anna Magnani, Maria Schell, May Britt, Simone Signoret, Yves Montand, Rossano Brazzi, Curt Jurgens and others. This has resulted in a built-in “box-office” appeal for films in which they appear.
- Foreign producers are making more films than ever, and many of these are obtaining satisfactory recep-

tion, both in art theatres and in conventional movie houses. This circumstance has carry-over value in TV.
- The dubbing of such features with American voices has made them, on the whole, more acceptable to TV audiences, although admittedly some station operators won’t show dubbed films, claiming the technique increases “artificiality.”

The most active distributors in the field are: Flamingo Telefilm Sales, which is offering three packages, totaling about 150 features (French, Italian, German and British)—its “Imperial Package” has been sold in almost 100 markets during 1 1/2 years; United Artists Assoc., which recently took over the distribution of 62 features from Lopert Films, and is handling their sale in 50 markets (British and Italian); Columbia Pictures International which is offering 17 films (Japanese, French, Italian and Portuguese), and has sold its “International Awards” package in five markets, pending completion of dubbing and prior to TV release; Trans-Lux TV, which is selling six features, and has sold them in 40 markets (French, British, Italian); Governor Television, which distributes about 100 British films; Programs for Television Inc., which has 38 British features on its list; ABC Films Inc., which has more

Distributors say foreign films are “easily exploitable.” Here’s how WBAP-TV Fort Worth helped promote Flamingo Telefilm Sales’ release, “The Sheep Has 5 Legs,” starring Fernando. Display is at entrance to station.

than 100 British features, produced by J. Arthur Rank, and sold in 75 to 100 markets, depending on the packages.

Intercontinental's initial release of 13 this spring will be augmented at six-month intervals by two additional packages of 13 each. A Columbia international spokesman said the first offering of 17 features may be expanded by adding others in which Columbia is a co-producer with foreign film-makers, but this determination will not be made until reaction to the first release is analyzed. Colorama Features hopes to bring in as many as 100 additional features over the next few years, an official said.

Anti-Foreign The grass is not all green in the features field, however. Some station operators—and this group includes some in metropolitan areas as well as in the "Bible Belt"—are still resisting the foreign invasion.

They base their reluctance on several factors: (1) they don't think their audience or advertisers will like them; (2) they feel that many are in "poor taste" and require sharp editing; (3) they feel there is an abundance of satisfactory domestic films they would prefer to use; (4) they could not fit them into their schedule even if they wanted foreign features, particularly if they are a network affiliate in a two- or three-station market; and (5) they don't like dubbed pictures on tv.

Ira Gottlieb, president of Flamingo Telefilm Sales, whose company has been a leader in the field, challenges some of these claims, but says he would be delighted with audience and advertiser response if the films were given an opportunity. He acknowledges there has been "poorer acceptance" in the South but claims that when important pictures have played (Atlanta, Miami, Orlando, Louisville and New Orleans), the results have been "highly satisfactory." A cross-section of the markets in which Flamingo films have appeared includes such non-metropolitan cities as Sedalia, Mo.; Great Falls, Mont., Flint, Grand Rapids and Lansing, Mich.; Boise, Idaho and Cedar Rapids and Mason City, Iowa.

He does not consider censorship a "real problem." Films that have received a "C" rating (condemned for all audiences) by the Catholic Legion of Decency are not handled by Flamingo, according to Mr. Gottlieb. (Other distributors also apply this yardstick.) Then, too, Flamingo itself edits out questionable footage, and the stations have the prerogative to "scissor out" scenes they consider objectionable.

He challenges the view that foreign films cannot compete effectively with domestic ones. He says he can cite chapter-and-verse the number of times that Flamingo films have out-rated U. S. movies. He concedes the two- or three-station market often can amount to a roadblock, but points out that foreign features, in these situations, must compete with all other non-network films.

On the all-important matter of price, Mr. Gottlieb says: "We get for our foreign films, all produced after 1950, the same price as an average pre-1948 American feature. And we think they are well worth the price!"

'GREAT MUSIC' SELLS High-class tv music show gets discriminating viewers

It started out to be an "image campaign," strictly soft sell for Ehlers coffee. The northeast regional brand decided to sponsor Great Music from Chicago Sunday afternoons on WNTA-TV New York because it looked and sounded like something that would attract a discriminating viewer, the kind who would want to know about Ehlers' "shade grown, tree ripened, high mountain coffee." Co-ordinated Marketing Agency, New York, placed the order last fall for Sundays, 6:30-7:30 p.m. EST on New York's ch. 13, beginning Oct. 16. Now in the second 13-week cycle with Great Music from Chicago, Co-ordinated has "a very happy client" and Ehlers has established something more than image. Sales in the New York area have climbed 15-20%. All other advertising—spot tv, newspaper, trade paper schedules—have been held fairly constant, Co-ordinated says, giving Great Music credit for the difference.

Three weeks after Ehlers debuted with Great Music in New York, the client scheduled the show on WHCT (TV) Hartford, Conn. Sales have not been tabulated in that territory, but mail is building from both markets. After a slow start, letters—unsolicited—have begun to crescendo. Ehlers had on hand 300 happy viewer messages after last week's count.

Sales reports from the field are showing "meteoric" progress, according to Michael Schwartz, creative director of Co-ordinated. The only rating that agency and client are looking at is the advertising/sales ratio, a very satisfactory one in this case and "the only criterion" in any case, Mr. Schwartz believes. "They're looking and they're buying."

Great Music, a taped production of WGN Syndication Sales, Chicago, is promoted by Ehlers and stores with posters and showcards at points of sale. Also, stores print tune-in blurbs in their advertising.

The programs are built around the Chicago Symphony Orchestra but from that base they reach out to prove that Great Music can mean jazz or swing, as well as symphonic, opera and other classical subheadings. Guest talent appearing with Fritz Reiner and the Chicago Symphony has included Count Basie, Woody Herman, Sarah Vaughan as well as the more august figures of Alfred Wallenstein, Sir Thomas Beecham, Arthur Fiedler and Andre Kostelanetz. The show has won the George Foster Peabody and other awards.

It is a program in good taste, the sponsor considers, and its reception is bearing out the judgment that went into buying the hour.

Commercials are integrated to fit the tone of the show, using a gently persuading voice over pictures of mountains, shade trees and the product.

The Brooklyn coffee company is a third-generation Ehlers family enterprise that distributes throughout the metropolitan New York market, New Jersey, Philadelphia and surrounding towns, the eastern half of New York State, Connecticut and Rhode Island. Between announcement campaigns and the hour programs, tv is taking about 30% of the Ehlers advertising budget currently.

Desilu sues NTA, says tv residuals unpaid

Desilu Productions has filed five suits against National Telefilm Assoc. in Los Angeles Superior Court, one each against five tv series which Desilu produced and NTA distributes, and is contemplating a sixth for the remaining series of that kind.

Desilu seeks cash damages for residual payments which NTA allegedly agreed to make but has not, deferred production fees and the like, amounting to $12,268.99 for This Is Alice, $26,031.62 for Sheriff of Cochise, $105,950 for U. S. Marshal, $15,374.72 for Official Detectives and $16,702.81 for Walter Winchell File. The sixth complaint, if filed, would concern Grand Jury and would amount to approximately $1,400.

Desilu asserts that because of NTA's failure to live up to its agreement the

distribution rights to the tv series have reverted to Desilu and an injunction is asked for to stop NTA from making further sales of the programs. Nothing will be done to stop stations which have obtained the shows in good faith from broadcasting them, a Desilu spokesman said, but he reported that funds due NTA from certain stations for these and other properties have been attached.

Oliver A. Unger, board chairman-president of NTA, issued this statement: "We are in a dispute with Desilu and it will be litigated." He didn't expand on this.

**Freedoms Foundation lists radio-tv awards**

The Freedoms Foundation has announced 16 radio and 11 tv programs as winners of its annual awards. Ceremony took place Feb. 23 at the Valley Forge Military Academy. The radio winners:
- Allen Bradley Co., Milwaukee, for Bob Siegrist News on MBS.
- ABC-TV and National Council of Churches, for "Christianity and Communism." on Pilgrimage series.
- KZL Denver, Citizen's by Choice series.
- KMOX St. Louis, A Case in Point documentary; Military Personnel Procurement Div., Dept. of Army, for Topics of Conversation series on MBS.
- North American Air Defense Command, Face to the Future series on various stations; office of the chief of information, Dept. of Army, for "General Pershing Story" on the Army Hour on MBS.

**Tv Awards**

The principal tv award went to Lutheran Church—Missouri Synod, for "Trap of Freedom" from This Is the Life series on various stations. Other tv awards:
- Equitable Life Assurance Society of the U. S., for "Not Without Honor" on NBC-TV's American Heritage series.
- KING-TV Seattle, for "The Living Constitution" special.
- KPX5 (TV) San Francisco, for Life in the Balance series.
- KTVF (TV) Sioux City, Iowa, for The American Way series.
- NBC-TV, for "U. S. Government" special on Today show.
- National Council of Catholic Men and NBC-TV, for "The War of Geoffrey Wilson" on The Catholic Hour.
- Southern Baptist Convention, for "Bread on the Water" on The Answer series.
- WBRC-TV Birmingham, Ala., for "Annual Flag Raising Ceremony" special.

The foundation also conferred special leadership awards on Arthur Godfrey and Dave Garroway. Dr. Kenneth Wells, president of the foundation, presented Mr. Godfrey with the George Washington gold medal and honor plaque during a Feb. 23 broadcast of CBS Radio's Arthur Godfrey Time. Dr. Wells made a similar presentation to Mr. Garroway on the Feb. 22 telecast of Dave Garroway Today Show.

ROBERT DREW'S DOCUMENTARIES AIM AT PHOTOGRAPHIC REALISM

A new form of television picture journalism is bidding for attention in the field of public information programs. Leading the movement is Robert Drew, head of his own production company, Robert Drew Assoc., and executive producer of Bell & Howell's Close-Up series on ABC-TV.

People under stress and a searching, pitiless camera are the substance and sinew of the experimental film technique used by the 37-year-old, former magazine writer and editor. In Mr. Drew's approach, the camera is the most important ingredient. His crew uses it somewhat in the way a doctor uses a surgical probe. Relying heavily on close-ups, the camera, in a typical Drew documentary searches for expressions that show how people on the scene are reacting to an event.

The basic theory behind his technique, according to Mr. Drew, is that "everywhere news is taking place, people are under stress." He and his team try to capture the dramatic structure of the story by using as few adornments as possible.

"I want to do shows that employ dramatic logic—where the story tells itself through pictures, not through word logic, lecture logic, written logic or interviews," Mr. Drew says.

Mr. Drew's methods are influenced by three commandments: "I'm determined to be there when the news happens. I'm determined to be as unobtrusive as possible. And I'm determined not to distort the situation."

Actually, though his crew is usually on the scene of a dramatic event as it happens, Mr. Drew does not reach the TV screen with his documentaries until an average eight weeks after the event.

"Our process requires a considerable amount of skilled editing—it won't automatically work by itself." Mr. Drew says in explaining the lag between the filming and the actual presentation. "It needs time and an army of talented people."

Rarely Obtrusive • The other two principles of the Drew operation are more effectively executed. The on-the-spot Drew production team, usually two film makers and two or three correspondents who also serve as cameramen, travels without fanfare and is rarely obtrusive. They work as much as possible with natural light, which sometimes gives their films a grainy texture, an effect that tends to add authenticity while heightening the dramatic expression of a scene.

Artificial lights, Mr. Drew feels, create a stage atmosphere and cause people to act. "At a picnic," he says, "a camera with a flash attachment starts people posing, staring at the camera."

Segregationist shouts her beliefs and cameraman catches facial distortion during New Orleans school troubles.

Pictures taken candid style, as people relax and enjoy themselves, will produce an altogether different record."

Mr. Drew's camera teams use standard but specially-adapted equipment on their documentary assignments. Among their implements are Swiss and German tape recorders of compact size, low lights (only if needed) and quiet, Orthicon cameras. For close-ups a zoom lens is used, which in the hands of Drew's cameramen is the ultimate photographic weapon.

The cameramen shoot miles of film for each Close-Up program (the average cost for a half-hour show reportedly is $40,000) and to Mr. Drew and his editors go the formidable task of cutting and piecing-together a coherent and potent film story. Occasionally, when a gap appears in the natural sequence of events, Mr. Drew will use outside footage.

All of Mr. Drew's work is with film, a medium which just about everybody has used from the very beginning of TV—but it's his new approach to film's use that has caused a stir in the industry.

Though his films employ a narrator, the commentary is in staccato style, terse and dramatic, almost like a caption for a magazine photograph. The voice of the narrator, Joseph Julian, who has narrated all the Close-Up programs to date, is low-keyed. Mr. Julian disdains the "voice of doom" approach popularized in The March of Time filmed series of the 1930s and still widely copied.

In sticking to his avowed principle of not distorting a situation, Mr. Drew's interviewers are for the most part not seen. Even their questions are sometimes not heard by the viewer. From Mr. Drew's point of view, the questions are seldom as important as the answers, and reporters covering the news are secondary to the people making the news—the people thrown into dramatic situations.

Behind Doors • Gaining entree behind doors usually barred is one of Robert Drew's most vital and "secretive" accomplishments. He does it, apparently, by keeping the camera and microphone hidden as much as possible and by persuading people on a person-to-person basis that exposure will not hurt them.

The three Close-Up programs already televised ("Yanqui, No!", "X-Pilot" and "The Children Were Watching") all of which received relatively

One citizen threatens to get his shotgun and "shoot a few niggers" as camera grinds away outside school.

Teen-age girl watches fearfully through window as crowd menaces her white, integrationist mother.

were shown on NBC-TV's Jack Paar and Dave Garroway shows, respectively, during the same months Life ran similar stories.

By this time he had proved his approach to "documentaries" was of interest to prime time audiences and in January 1960 he went to work for the broadcast division of Time Inc. He made several shows that were shown on the Time Inc. TV stations (KLZ-AM-TV Denver, WTCN-AM-TV Minneapolis, WFBM-AM-TV Indianapolis and WOOD-AM-TV Grand Rapids, Mich.).

including one on Sen. Kennedy's election primary campaign in Wisconsin and another on the Memorial Day speed races in Indianapolis. His work during this period showed such programs could be marketed and ABC became interested (Broadcasting, Nov. 20, 1960). The network signed an agreement with Time Inc. to co-produce four hours of documentaries for the Close-Up series, the contract on which Mr. Drew is currently working. It was not long afterward that John Daly, vice president in charge of news and public affairs, resigned from ABC. At the time, Mr. Daly indicated he objected to ABC's decision because it challenged his authority and violated his belief that news and public affairs shows should be produced by the network only.

Mr. Drew claims ABC's arrangement with Time Inc. came after Mr. Daly left the network, although negotiations started while Mr. Daly was still in office. In any case he feels the so-called farming out of news programs is a matter of semantics. Networks, he says, "farm out" shows to their information divisions and often some of these employees are not as close as he is to network operations. "There is no such thing as 'in or out,'" he asserts. "Networks have to satisfy themselves that the people working with them on these

DRINK? BAYLOR? TEXAS TECH?

NO, THIS IS "KNOE-LAND"
(embracing industrial, progressive North Louisiana, South Arkansas, West Mississippi)

JUST LOOK AT THIS MARKET DATA

According to November 1960 ARB we average 71% share of audience from 9 a.m. to midnight, 7 days a week in Monroe metropolitan trade area.

shows are journalists—that’s the important thing.”

New Unit • Last month, Mr. Drew, who until that time was still a salaried employee of Time Inc., formed his own production company, Robert Drew Assoc. with offices in New York's Time & Life Building. Time Inc., however, still finances him and he is still obligated to the company, though he holds a financial interest. (Time Inc. is his selling agent and retains future rights.) Robert Drew Associates’ services are not “exclusive” with either ABC-TV nor Bell & Howell, though, of course, the reverse is true for the Close-Up series.

For the future, Robert Drew, who has three children and lives in Darien, Conn., would like to do a series of shows in prime time on a regular weekly basis “that will tell people what’s going on in a manner they can’t get any other way.” In his thinking, the networks are ready for such a series.

Mr. Drew has three more programs to go in his Close-Up series. His next show, scheduled for March 28, will spend an hour’s time examining the Kennedy administration.

WBC expands into program production field

WILL MAKE TV AND RADIO SHOWS FOR OWNED STATIONS

Westinghouse Broadcasting Co., New York, is announcing today (March 6) the formation of WBC Productions Inc., a company that will produce radio and tv programs for the 11 WBC stations and for syndication to other outlets.

The first project of WBC Productions will be two nighttime tv series—a 60-minute show originating from New York and a 30-minute program from San Francisco. Details will be announced shortly. They are scheduled to tape this week. It will be run back-to-back in a 90-minute time period Monday through Friday. They will be taped for showing on five WBC tv stations (KYW-TV Cleveland, WJZ-TV Baltimore, WBBZ-TV Boston, KDKA-TV Pittsburgh and KPIX [TV] San Francisco) and will be offered via syndication to other outlets throughout the country. The program reportedly will be slotted in a time period opposite NBC-TV’s Jack Paar Show.

Ben Milford, who has been president of the production company of Mills-Park-Milford, New York, has been appointed executive producer of WBC Productions. For several years, he was director of public affairs for NBC. Others named to the staff of the new production company are William Peters, associate producer; Roger W. Murphy, production manager; Marlene Sanders, research director and Marvin David, writer.

Donald H. McGannon, president of Westinghouse Broadcasting Co., said the purpose of WBC Productions is to “evolve a wide range of new and exciting concepts.” He added that the company’s programming eventually will include “everything from pure diversion to public affairs and public service, and all first-rate entertainment.”

In addition to station ownership and its new production outfit, WBC also owns AM Radio Sales and Television Advertising Representatives (TvAR), representation firms for Westinghouse-owned stations.

IT’S ALL ON RADIO

KLIF, KMOX, WSB describe their own program variations

It isn’t only music-and-news in radio today. Down in Dallas the accent is on news. In St. Louis it’s all talk in afternoon blocks. In Atlanta there’s a varied sound that even offers some old-time radio programs.

New York’s Radio & Television Executives Society heard some of the trendsetting sounds at last months roundtable luncheon, moderated by Albert B. Shepard, sales manager of Select Stations Representatives, New York. These station men had a chance to pitch a select business audience after sample tapes were played during lunch:

• Gordon B. McLendon, president of the seven McLendon stations, told how KLIF Dallas threw out the old “razzle-dazzle” promotion it made famous and built a new promotional foundation on hard-hitting news. KLIF’s eight-man news staff (soon to be 11) turned in 12,000 remote reports last year in dedicated competition with the city’s newspapers. The KLIF formula is “music plus news, and news, and news.” It’s paying off in ratings and station believability and is producing “more stimulation among listeners than the biggest contest or the biggest stunt,” Mr. McLendon said.

• Too many radio stations have met the challenge of television “by acting like the Bobby Sox set,” Robert Hyland, CBS Radio vice president and general manager of KMOX St. Louis, told his New York audience. As part of the “grown-up” approach it believes in, KMOX a year ago inaugurated a seven-hour afternoon talk segment, At Your Service. Set in a day of versatile, full-range radio, At Your Service, noon-7 p.m., incorporates local and network news, regular medical and marriage counseling, poetry and dramatic readings, homeworking segments, school reports, a telephone question period which has guests ranging from Eleanor Roosevelt to a garage mechanic, a job-hunting guide, theatre-concert reviews, science reports and a host of other features. Advertisers like the showcase of At Your Service, and ratings average 26% higher than previous music programming, Mr. Hyland said. The talk block is not easy programming, but KMOX is tapping a growing demand for infor-

NBC Radio’s ‘Monitor’ gets spring revamp

NBC Radio’s weekend program service, Monitor, is undergoing drastic changes, including the dropping of the Friday night portion and an increase in emphasis on news and show business personalities’ segments. The changes will take effect on Saturday, March 11.

Additions to the program service’s line-up, according to William K. McDaniel, executive vice president in charge of NBC Radio, will be Betty Furness, Hugh Downs, Dave Garroway, Wayne Howell, Lindsey Nelson, Mel Allen, Bert Parks and Gene Rayburn, who will serve as hosts for a series of features covering comedy, news, sports, music and special remote broadcasts from all over the world. Current performers who will continue on Monitor include Mike Nichols and Elaine May, Bob Hope, and Bob and Ray.

A new feature, “Ring Around the World,” will consist of 10 five-minute commentaries per weekend on world developments from NBC Correspondents. Another new segment will be “Weekend Report,” a 25-minute study-in-depth by various staffers of significant news stories of the preceding week. Current features that will be continued include Wilma Sos’s “Pocketbook News,” Bob Conidine’s “On the Line,” Dorothy Gordon’s “Youth Forum,” and religious programming, specials and sports events segments.

The new schedule will consist of five three-hour blocks per weekend as follows: Saturday—9 a.m.-noon, 3-6 p.m. and 7:30-10:30 p.m.; Sunday—3-6 p.m., 7-10 p.m. The Friday night schedule will end this week.

The changes will place more reliance on NBC personnel and reduce the output provided in the past by freelance newsmen. Mr. McDaniel, explained the Monitor staff has been bolstered by the addition of a special music coordinator and a script supervisor, and by provision for a separate production team for each of the five weekend segments.
How successful TV stations handle unsold time...

7 steps that increase the effectiveness of TV station time salesmen

STEP 1  ARB LOCAL MARKET REPORTS—This industry standard is a basic ingredient in any station's sales effort. As a complete quarter-hour measure of television audience by both metro and total area, this report provides each and every station in the country with data that is recognized throughout the industry as the ultimate in accuracy, reliability and believability.

STEP 2  ARB 1960 COVERAGE STUDY (with Totals Updated to November 1960)—Station coverage strength in areas of importance to your marketing program is essential . . . and ARB's full county-by-county report documents your station story. Updated station totals based on November 1960 survey results are also available for stations where changes have occurred since the basic study was made.

STEP 3  SPECIAL TABULATIONS—Demonstrating to a timebuyer how the cumulative audience for your spot package ranks with the "Gunsmokes" and "Wagon Trains" makes extraordinary sales (dollars and) sense. Dozens of other specially tailored ARB tabulations can have equally effective results for your specific needs.

STEP 4  OVERNIGHT COINCIDENTAL REPORTS—New program or new time period availabilities occurring between ARB market reports receive quick audience documentation with a special ARB Telephone Survey. Results are available overnight . . . in time to whisk them off to the timebuyer's office for a "proof of performance" sales presentation.

STEP 5  SPECIAL SURVEYS—Studies of your picture quality in competitive fringe areas . . . analysis of farm audience delivered . . . or a report on audience reaction to your news programming are but a few of the special areas where your efforts to inform the buyer will turn the trick in your favor.

STEP 6  ARB TV-NATIONALS—This complete and qualitative report on the audience to all network programs will greatly aid the local network affiliate in selling surrounding time spots to the "specific audience" conscious buyer. A wealth of detailed information in the TV-National complements the ARB Local Market Report, especially in sales presentations.

STEP 7  MULTI-CITY ARBITRON—Local network affiliates who receive this report daily are kept up to date by this competitive program index. Fast rising new programs are spotted immediately, and local spot adjacencies are sold just as quickly when such evidence is presented to the buyer.

The next step should be taken in the direction of your telephone to contact your ARB representative. And, may we remind buyers that all these steps will work equally well for you in evaluating your present or planned TV campaign.
ASCAP reports $32.3 million gross, up 7%

GROUP PREPARES FOR TV PACT TALKS, PLANS BMI SUIT

The American Society of Composers, Authors & Publishers had a gross income of $32,344,135 in 1960, up $2,313,168 or 7 0/0 from 1959, a west coast membership meeting was told last Tuesday (Feb. 28). Of the total, $6,131,446 went for expenses, leaving $26,212,690 for distribution to ASCAP members.

President Stanley Adams reported that since the last regular meeting in September, 269 writers and 151 publishers have joined ASCAP, bringing the totals to 5,299 writers and 1,727 publishers. A man is being hired at Los Angeles to help west coast members with their problems of interpreting credit rights and other matters, Mr. Adams said.

He also reported that Dr. Paul Fagin of Joel Dean Assoc. now heads a new statistical department at ASCAP'S New York headquarters, for collecting information for negotiations of the new TV agreements to replace those expiring at the end of this year. New radio agreements have been reached with CBS, NBC and Mutual, he reported, and negotiations are in progress with ABC.

Herman Finkelstein, ASCAP general attorney, said that in the upcoming TV negotiations ASCAP will not lose sight of BMI's insistence that writers should get more money for music used on TV; that since BMI is owned by broadcasters this is an admission by the station owners that they aren't paying enough for music today.

Mr. Finkelstein also reported that Arthur Dean, of the law firm of Cromwell & Sullivan, has been retained as special counsel to institute legal action against BMI for what ASCAP feels are improper activities. He declined to amplify, but said the action "will be revealed at the proper time." The ASCAP suit will have no connection with one by a group of songwriters against BMI and in process nearly a decade, he said. Mr. Finkelstein said that contrary to widespread reports, ASCAP has not been a party to the songwriters' action.

Program notes...

Coming attractions • NBC has announced it will slot for next season in prime time, House on the Rue Riviera, day and time to be determined. Being produced by 20th Century-Fox, House will be a weekly hour mystery series starring John Ericson and Richard Anderson as American agents hired by the French Surete National to patrol the Riviera (Broadcasting, Feb. 27).

Guest Stars and international soaplites also will be featured.

New CBS show • Irving Mansfield-Peter Arnell Productions will produce Face the Facts, a new half-hour audience participation show to be taped by CBS-TV Hollywood for a Monday-Friday afternoon series to start on the network March 13. Red Rowe will preside over a panel of four contestants who will watch a re-enactment of an actual court case by actors using dialogue based on testimony given at the original trial and attempt to duplicate the decision of the actual court. Three cases will be on each program.

GE awards to two for troposphere talk

An amateur radio operator who is a project leader on space communications with Hughes Aircraft Corp., has received an award for showing that transoceanic vhf and uhf radio communications might be feasible without the use of satellites in space.

The Edison Radio Amateur Award, sponsored by General Electric, actually was presented to two winners. They were John T. Chambers, 40, California ham who works for Hughes, and Ralph E. Thomas, 57, Hawaiian amateur who is with RCA Communications.

Using home-built equipment, they communicated via a troposphere duct over 2,500 miles between their homes for over four years. They used 144 mc, 220 mc and 432 mc and are planning to continue the experiments with 1230 mc this year. Transmissions were keyed.

The project has evoked the interest of military services and of Pan American Airways, the winners reported. They estimated stations using this mode could be built for between $20,000 and $30,000. They foresaw the best use of tropospheric ducting for communications between aircraft and ground stations.

RCA adds another

The latest member of the Nuvisator tube family—a high-mu triode for industrial applications—has been introduced to equipment manufacturers by the RCA Electron Tube Div. The tiny tube designated RCA-7895, is the fourth commercial tube to utilize the all-metal-and ceramic Nuvisator construction.

3M's profits reach record high in 1960

Minnesota Mining & Manufacturing Co., St. Paul, Minn., reported last week that its 1960 net earnings reached a record high of $70,692,374 or $1.38 per share of common stock on consolidated world-wide sales of $549,675,178. These figures, contained in the firm's annual report to its stockholders, represent approximate 10% increases over 1959 sales of $500,675,932 and earnings of $63,564,729, or $1.25 a share.

Expansion of foreign operations and diversification of products and markets in the U. S. were responsible for much of the 3M growth. Foreign sales climbed to $117 million last year, compared with about $95 million in 1959.

The annual report figures reflect op-
NAB takes further step to automation

Next big move in NAB's decade-long campaign to automate radio station operation is underway. This is to prove out a method of reading directional antenna phase monitors from remote locations.

Field tests of two systems are underway at two radio stations, one in Washington, D.C., and the other in Philadelphia. It is hoped that the results of these tests will be available for submission to the FCC sometime within the next six months.

Although the FCC has approved remote control of radio transmitters without regard to power or whether or not directional, it has conditioned approval for directional arrays. This requires the station to physically send an engineer to the transmitter daily during the two hour evening transition period when the station is switching from omnidirectional to directional to read the antenna phase monitor.

This requirement can be expensive to station management where transmitters are located at long distances (10-20 miles) from the station studios.

The phase monitoring program was one of a number of topics discussed by NAB's engineering advisory committee meeting in Washington March 1. The committee, chaired by A. James Ebel, KOLN-TV Lincoln, Neb., discussed plans for the engineering conference to be held in Washington in conjunction with the NAB convention May 7-10, and also reviewed:

Monitoring of TV frequency deviations (subject of an FCC rule-making proposal), space satellites for communications, video tape standards, additional remote pickup broadcast channels (also the subject of an FCC rulemaking notice), FAA proposed regulations concerning radio-TV antennas and other tall structures, and standards for TV "black-level" transmission.

The committee adopted a resolution expressing regret over the resignation of A. Prose Walker as the association's engineering department manager. Mr. Walker will join Collins Radio, Cedar Rapids, Iowa, on May 16.
TV PROGRAM SWITCHER
TASCON unit's automatic to prevent human errors

A digital computer system designed especially for automatic program switching for TV stations has been developed by TRW Computers Co., a division of Thompson Ramo Woolridge, Dr. Joseph F. Manildi, general manager, announced. The new system is called TASCON—for Television Automatic Sequence Control.

"During the busy station-break periods, as many as 100 buttons must be pressed when program switching is controlled manually," Dr. Manildi explained. "If a wrong button is pressed, a scheduled commercial message may not reach the audience and the station will lose advertising revenue. TASCON prevents these costly errors by switching sound and picture sources on the air with a precision and timing that cannot be achieved by manual operations."

The TASCON computer stands 84 inches high, is 48 inches wide and 24 inches deep. The stored information, which can issue switching orders for the entire program day, including equipment warm-up or pre-start, is fed to the machine from an operator's keyboard or through a punched tape. The information can be put into TASCON hours in advance of station "panic" periods and held until time to put it into action, or it can be inserted at the last minute, seconds ahead of air time. The flexibility is made possible by direct communication between the operator and the digital computer, which is designed for quick access to the information stored in its magnetic-drum memory.

Eight display panels on the front of the device show the time of day, the time remaining (minutes and seconds) until the end of the program or commercial then on the air, the source of the video and audio information then being broadcast (network, film, tape, live from studio or remote pickup point) and similar information for the next three broadcast items coming up, whether they are hour-long programs or 10-second ID's. If a new item is inserted, TASCON automatically changes the time of the succeeding units and drops them back one step in the sequence.

TASCON systems are tailored to the individual requirements of the stations at which they are to be used and the company says they can easily be adapted to station growth or modified to fit new requirements or equipment changes.

Because of this custom-built-for-each customer feature, a station can figure on receiving its own TASCON about eight months after the order is placed. The normal price range is between $70,000 and $100,000, which the company says is competitive with other automatic program switching systems.

RCA's new tv recorder

A new and improved magnetic tape recorder for television, designed for added flexibility, was introduced last week by RCA.

The new model, type TRT-1B, is adaptable for both color and black and white and features a new transistor signal processing amplifier for finger-tip control of picture quality; an increased limiting (more than 55 db) of the demodulator to minimize tape "drop outs"; separate guide position controls for record and playback, and the freedom to play back non-standard recorded tapes on the 1B with "optimum results."

NBC's new volume meter

NBC studios in New York, Washington, Chicago, Hollywood and Philadelphia have been equipped with an improved loudness meter, developed to improve control of TV sound volume.

The project to improve loudness control was initiated more than a year ago at the request of Ernest Lee Jahncke Jr., director, NBC standards and practices, who calls the new meter "another insurance of acceptability and good taste not only in what we say, but also in how we say it."

INTERNATIONAL

SALE PRICE FOR CKEY: $4.1 MILLION

Westinghouse advancing most capital for Toronto station

The Board of Broadcast Governors has been urged to approve the sale of CKEY Toronto, Ont., from Jack Kent Cooke to Shoreacres Broadcasting Co. Ltd. for a reported $4.1 million (Broadcasting, Feb. 20). Details were disclosed at a hearing before BBG Feb. 24.

Mr. Cooke is selling CKEY because of his plans to move to the United States and become an American citizen. This would make him ineligible to own a Canadian station. He bought the 5 kw, 1 kw night outlet (on 580 kc) in 1944 for $500,000.

Shoreacres would finance the station with $4.4 million. This includes the purchase price and operating capital. Most of the capital would be supplied by Westinghouse Electric Corp. in the form of non-voting debentures.

The company would be financed by 4,000 common stock voting shares ($1 par value), 4,000 first and second preference voting shares at $100 par value, and two classes of debentures.

The Toronto Globe and Mail, morning daily, would own 50% of the common and first preference shares, with a total investment of $202,000. Canadian Westinghouse Co. and its parent, Westinghouse Electric Corp., would each hold 12.5% of the voting shares, all of the second preference shares and the debentures, for a total investment of $4 million.

Three Toronto attorneys and an investment dealer each will own 614% of the stocks, with individual investments of $25,250. The lawyers are J. S. D. Tory, J. G. Edison and John B. Aird. The investment broker is W. P. Wilder.

President of Shoreacres will be John D. Campbell, president of Canadian Westinghouse. The nine member board of directors will be composed of two directors each from Canadian Westinghouse and the Toronto newspaper, and one each from Westinghouse Electric and the four individual Toronto stockholders.

License Renewal Up • Also pending before the BBG was an application for license renewal of CKEY under present management. The station received only a one year renewal last March after a hearing before BBG on charges its programming needed improvement. The BBG was critical of the station's performance.

Mr. Cooke also has been involved in the license renewal hearings of KRLA Los Angeles, owned by his brother, station representative Donald Cooke (Broadcasting, Nov. 7 and 14, 1960). Both CKEY and Shoreacres asked the BBG to defer action on the application of CFRA Ottawa, Ont., for an increase to 50 kw on 580 kc since the new owners said they planned to apply for this power on the same frequency. CFRA operates on 560 kc with 5 kw.

Canadian brewers want straightforward beer ads

Canadian brewers want beer commercials on television out in the open, they told the Board of Broadcast Governors Feb. 22 at Ottawa.

Three major brewers appeared before Canada's regulatory body, in connection with a proposed rule change under which brewery brand names and labels could be used in 12-second an-
nouncements before and after sponsored tv programs. This change would bring such advertising in line with what is being used currently in the province of Ontario.

"Beer advertising should be frankly beer advertising...and not vague and evasive," Ian Dowie of Canadian Breweries Ltd., Toronto, stated.

A representative for John Labatt Ltd., London, Ont., brewers, said beer should be allowed to be shown in tv advertisements, with a brand-selling message in the aural part of the tv commercial and on radio.

"We think Canadians have become sophisticated to the point where the sight of a beer glass or beer bottle is not objectionable," stated D. M. Chenowith of Molson's Brewery Ltd., Montreal.

All three breweries said they oppose drinking scenes in advertising or the use of persons under 21 in commercials. One brewer felt women shouldn't be shown drinking beer.

**BBG head praises CKLW at its renewal hearing**

CKLW-TV Windsor, Ont., was praised at its license renewal hearing Feb. 24 at Ottawa by Dr. Andrew Stewart, chairman of the Board of Broadcast Governors. He extended the BBG's appreciation for CKLW-TV's efforts made in a "difficult situation" as an example which would provide "great encouragement" to other Canadian tv stations trying to meet the 45% Canadian content ruling for programs.

A year ago CKLW-TV had been criticized by the BBG for not having enough Canadian program content and for aiming its programs mainly at the Detroit area. As a result, the station's license was renewed for only one year. Before Ted Campeau, CKLW-TV president, had a chance to present his case, Dr. Stewart commended him on the program improvement in the past year. He thought the international border station would have no difficulty meeting the BBG's 45% Canadian program content regulation which goes into effect April 1.

**VeneVision tv network operating in Venezuela**

VeneVision S. A., a new Venezuelan tv network, began operation last week with several ABC-TV shows on its schedule. American Broadcasting-Paramount Theatres Inc., ABC-TV's parent company, is a minority stockholder in the new network based in Caracas.

Highlight of VeneVision's initial programming line-up is Nightbreak, a block of 60-minute programs (Mon.-Fri., 8:30-9:30 p.m.) which include 77 Sunset Strip, Maverick and Cheyenne. Similar to Operation Daybreak, ABC-TV's daytime programming schedule in the U. S., Nightbreak already has committed almost half a million dollars worth of advertising billings. General Foods Corp., Bristol-Myers Co., Proctor & Gamble Co., Johnson & Johnson, Chrysler Corp., S. C. Johnson & Son Inc. and Dorothy Gray Ltd., all clients of Young & Rubicam Inc., are sponsoring portions of the key programming block.

Present at VeneVision's inaugural day festivities were Donald W. Coyle, vice president, ABC International Division; Edward Sparks, U. S. ambassador to Venezuela; John Crawford, the actress, and several Venezuelan business and governmental leaders.

**Two more join marketing group**

Two more foreign market research firms, one in Tokyo and another in Copenhagen, have been signed as affiliate members of Market Facts Roc International, a division of Market Facts Inc., Chicago. Japan's Marketing Center Co. Ltd. and Denmark's Marketanalys are the new firms which will be available to assist U. S. agencies and advertisers in marketing problems in those areas. 13 other countries already are represented. "Roc" stands for Recherche et Organization Commerciale, derived from the French affiliate. The international group meets three times annually for marketing workshops and will meet in Chicago this fall.

**Status of BBG member illegal, chairman says**

Mrs. R. G. Gilbride, Montreal housewife, has been acting as a part-time member of the Board of Broadcast Governors illegally, it was admitted at Ottawa Feb. 20 by Dr. Andrew Stewart, chairman of Canada's regulatory body. Mrs. Gilbride is more than 70 years old, and became ineligible when she reached that age, according to the Canadian Broadcasting Act.

The question of Mrs. Gilbride's age was discussed at the hearing of the Parliamentary Committee on Broadcasting at Ottawa, when some Parliamentarians commented that recommendations made by the BBG board where only a quorum was in attendance, and Mrs. Gilbride was one of those voting, would be illegal. The BBG is checking the attendance of all its meetings, since Mrs. Gilbride had attended all meetings.

There is one other woman member on the BBG, Dr. Mabel Connell, a dentist of Prince Albert, Sask. She has stated that she is still under 70.

FATES & FORTUNES

BROADCASTING, March 5, 1961
What's the best way to sell my wares to the most women at the lowest TV dollar?  

How many birthdays does the average man have?  

What dominant force in the Flint-Saginaw-Bay City area is powerful enough to keep families up after midnight on Saturday nights?  

Why can't a man living in Miami, Florida, be buried west of the Mississippi?  

Broadcasting, March 6, 1961
Robert W. Sarnoff, NBC chairman (r) receives a special award from American Legion National Commander William R. Burke (l) at a special luncheon in Washington March 1. The citation commended Mr. Sarnoff and NBC for distinguished public service in making TV "a dynamic force in public service."

Mr. Sarnoff, in his acceptance remarks, urged that the restrictions of Sec. 315 of the Communications Act (which requires broadcasters to give equal opportunity to all candidates for office once one of them has been seen or heard on the air) be removed since broadcasters have demonstrated their skill, fairness and responsibility in handling the "Great Debates" in the 1960 presidential campaign. Mr. Sarnoff also detailed NBC's informational program and said that the network was doing more such programming than it undertook during the 1960 presidential election year.

The American Legion also presented awards to David Brinkley, NBC commentator, and to Quentin Reynolds, author and war correspondent.

James C. Steele, formerly radio-tv creative director for Watts-Payne Adv., Tulsa, Okla., joins KVOO-TV, same city.

Neil E. Wolford, formerly at WRVC Norfolk, joins staff of WHPL Winchester, both Virginia.

Dan Johnson, formerly with WGBS Miami, joins WFLA-AM-FM Tampa, Fla., as air personality. Other personnel changes: Kay MacLean Nero and Joe McDonald join WFLA-AM-FM promotion department.

Herbert S. Dolgoff, corporate legal advisor, and Grahame Richards, national director of programming, named vps of Storz Broadcasting Co., Omaha. In addition to new duties, they will continue to function in present capacities. Storz stations are WGY Minneapolis-St. Paul, WHB Kansas City, KOMA Oklahoma City, KKOK St. Louis, WTIX New Orleans, and WQAM Miami.

Robert E. Franklin, formerly director of publicity and promotion for KGW-TV Portland, Ore., joins advertising department of U. S. National Bank, that city. Mr. Franklin joined KGW radio in 1942 as announcer.

Tom Atkins appointed news director of WLKI (TV) Indianapolis.

Jim Curtis, formerly production manager of WEBR Buffalo, N. Y., joins WBEN, that city, as radio producer in program department.

Fred Freed, producer-writer of news and public affairs programs, joins NBC-TV as producer of Dave Garroway Show.

Maurice E. (Doc) Fidler, divisional manager, member service, Radio Advertising Bureau, N. Y., named manager, member service department.

Henry Epstein, assistant art director, American Broadcasting-Paramount Theatres Inc., N. Y., appointed art director. Mr. Epstein, who joined company's art department 11 years ago as layout artist, also served as art department studio manager.

Dale Jackson, continuity supervisor at KDKA Pittsburgh, retires. He joined the station as writer in 1940.

Edward Ross, formerly of WHLL Wheeling, W. Va., joins WTRF-TV, that city, as staff announcer.
Ed L. Teer joins news staff of WFAA
Dallas, Tex.

Marge Connor appointed woman’s
director for KHOU-TV Houston, Tex.

Jon Arthur, rejoins WKRC Cincin-
nati, Ohio, after two-year assignment
with State Department.

Joseph Anthony Flahive, formerly
eastern sales manager for WGN-TV Chi-
go, named national sales manager of
WTVJ (TV) Miami. He had headed WGN-
TV’s New York office for four years. In
new post he will report to Bill Brazzil,
vp in charge of sales.

Mrs. Terry Liang joins ABC-TV press
information department as magazine
editor. Mrs. Liang, who succeeds re-
tiring Betty Goode, will headquarter
in Hollywood.

Arthur Paul promoted from senior
floor director at WITI (TV) Milwaukee
to producer-director.

PROGRAMMING

Abe Mandell, form-
erly vp in charge of
Independent Televis-
ion Corp. interna-
tional sales, appointed
to newly-created post
of vp in charge of ad-
ministration. Mr.
Mandell, who will re-
turn to Michael Ni-
dorf, ITC president and board chair-
man, will be responsible for overall
sales, domestic and foreign, as well as
administrative policy. He will also con-
tinue as vp of international sales.

Jerry Thorpe named to newly-created
position of vp in charge of program-
ing for Desilu Productions, Holly-
wood. He joined firm in 1953 as as-
sistant director following eight years
service at MGM.

Mike Wallace signs to narrate and
conduct interviews for “Project: Man
in Space,” documentary TV special deal-
ing with astronaut and manned space-
craft programs in U. S. and Russia.

Jack Haley Jr. is producing and direct-
ing hour-long program for Wolper-Ster-
ling Productions, Hollywood.

Howard Jaffe, who created basic idea
for Screen Gems’ Joan Crawford series,
appointed editorial assistant to William
Dozier, vp in charge of West Coast
activities.

Allen Ash, sales representative, Na-
tional Telefilm Assoc., Chicago, named
to head that office.

Robert De Vinny, former head of
Dev Co., San Francisco, appointed ac-
count executive, Western Div., United
Artists Assoc.

EQUIPMENT & ENGINEERING

William Carpenter, formerly of Ziv-
UA, N. Y., appointed eastern sales
manager, Cellomatic Corp., N. Y.

Robert L. Wolff joins Eitel-McCul-
lough Inc., San Carlos, Calif., manu-
ufacturer of electron tubes. Mr. Wolff
will be senior sales engineer in com-
pany’s Chicago regional sales office,
Bellwood, Ill.

INTERNATIONAL

Hal E. Chestnut appointed to newly-
created position of European represen-
tative for National Theatres & Tele-
vision, Beverly Hills, Calif. He will
headquarter in London.

Joyce Davidson, Canadian tv personal-
ity of CBC weekday evening network
program Seven-O-One, for past five
years, to WNEW New York as host
on new 90-minute evening show.

Robert Auld named radio-tv director
of Burley, Norman, Craig & Kummel,
Toronto.

Al Piche, formerly of CJKL Kirk-
land Lakes, to sales staff of CFCL-TV
Timmins, both Ontario.

ALLIED FIELDS

Leonard H. Marks, Washington com-
municaions lawyer (Cohn & Marks),
to Middle and Near East on lecture tour
on administrative law to bar associa-
tions and law schools at request of
U. S. State Dept. He leaves today and
will be gone for two months. Mr.
Marks lectured on same subject in
India in 1958, also under sponsorship
of State Dept.

James Rup promoted to southern
regional manager of American Re-
search Bureau, Beltsville, Md. He had
been on southern sales staff.

DEATHS

Adam F. Smith, president of R. C.
Smith & Son, Toronto advertising
agency founded in 1915, died there
Feb. 20. He had been agency presi-
dent since 1948.

Vernon Winn, 28, film director for
WXEX-TV Richmond, Va., died of
heart attack on Feb. 24.
To graphically illustrate the FBI's four basic rules, WLOS-TV shot some film footage on the subject.

J. Edgar Hoover judges WLOS-TV contest

J. Edgar Hoover, quick to criticize TV programming, has demonstrated an equal alacrity to praise. In fact, the FBI chief has gone further for WLOS-TV—Greenville-Allegheny-Spartanburg, S. C. He agreed to help judge a contest and offered the cooperation of area FBI bureaus in connection with the station's contest aimed at the threats of child molestation.

Several weeks ago—prior to the sex slaying of four-year-old Googie Kiecorius in New York City—WLOS-TV launched an educational contest on this ticklish subject. Boys and girls were invited to submit drawings that would illustrate the FBI's four principal rules for their protection: turn down gifts from strangers, refuse rides from strangers, avoid dark and lonely streets, and know your policeman.

More than 1,000 entries followed the initial announcement on WLOS-TV's two major shows for children. In some instances teachers had entire classes make entries as class assignments.

Mr. Hoover, contacted by WLOS-TV, gave his blessings and congratulations on the project, offered whatever assistance might be needed by FBI bureaus in the area as well as his own services as a judge. In addition, he has requested a complete and detailed report on the handling of the project as well as its results.

Admen turn to radio to tell their story

Throughout the West, the "Sound of Advertising" is coming into millions of homes and cars via radio, as western stations continue the campaign launched during Advertising Week (Feb. 5-11) into Advertising Year.

Brainchild of Marvin Cantz of Tills & Cantz, Los Angeles, who is chairman of the campaign for the Western States Advertising Agencies Assn., the campaign is based on the idea that "much of the popular agitation against advertising can be eliminated through a strong, consistent program that will educate the public. When the American consumer really understands the meaning of a free market and appreciates the freedom to buy and sell, the value of advertising will then be recognized as a vital factor in our economy... and not before!"

In the campaign, Mr. Cantz proceeded on the premise that "the true function of advertising can best be appreciated by teaching the public what it understands best: Few consumers, for example, would argue with the personal benefits of free choice in the marketplace. From this economic truth, it's only a short step to understanding the importance of advertising in our economy."

Each of the four radio spots, to which a TV series will be added if present plans materialize, opens with a familiar sound followed by the words: "This is the sound of America." For example, here's a spot that begins with the sound of the cash register:

ANNCR. (George Fenneman): This is the sound of America. (PAUSE) You hear it every day... in stores and supermarkets everywhere. It's the sound of people shopping. These people are American consumers, like yourself. And they're fully informed about better products and better values... because of Advertising.

FEMALE VOICE: I'll take six of these... king size, please. And let me have two of those you have on sale. No, no... better give me these... my husband likes this flavor better. Oh, and I need some...

SOUND: FADE OUT

ANNCR.:...six of these and two of those... and a lot more of this and that. That's the sound of America... where the "customer is king."

Free to choose from a tremendous variety of advertised products. With the help of Advertising, you decide which product is best for you. You're the judge. And Advertising is your guide to almost any product you want or need.

The sound of Advertising is also the sound of free Americans—earning more, buying more, and living better.

WORL goes to the birds for promotional aid

WORL Boston has brought back the carrier pigeon and found him to be a successful promoter. To tell local advertisers, agencies and the press about its new format, WORL enlisted the aid of 100 carrier pigeons and sent out invitations in capsules on the pigeons' legs.

The recipient would signify his acceptance by filling out the enclosed form, insert it back in the capsule and release the pigeon.

In a few days 94 pigeons had returned to their lofts, leaving six unaccounted for.

Vancouver hits jackpot

Three Vancouver, B.C., radio stations, CKWX, CKNW and CKLG, operated big cash and merchandise prize contests during February. CKWX earmarked $52,000 for the promotion with listeners offered $50 if their lucky number was drawn. The station picked 31 numbers a day, paid out on 20% of them. Numbers were distributed in 250,000 booklets, each with six numbers.

CKNW had $43,000 in prizes, with listeners eligible for $49 if number called, $98 if they also had sponsored products, Success Wax, Kraft Miracle Whip, Jello Instant Pudding, and Colgate Super Fab. Numbered booklets were mailed to listeners in the area.

CKLG conducted a radio bingo, sponsored by local retailers. It had a potential payoff of $10,000.
STATION AUTHORIZATIONS, APPLICATIONS

As compiled by Broadcasting: Feb. 16 through Feb. 22. Includes data on new stations, changes in existing stations, ownership changes, hearing cases, rules & standards changes, routine roundup.

from nondirectional with 1 kw to directional with 5 kw, continued operation on 1560 kc, D Sept. 19, 1960 initial decision looked toward this action.

Commission on Feb. 23 directed preparation of document looking toward accepting 1960 census population figures and granting applications of Booth Broadcasting Co. to increase daytime power of WSWG Saginaw, Mich., from 7 kw to 5 kw, continued operation on 790 kc, 1 kw-w-N. DA-2. May 18, 1960 initial decision looked toward denying applications.

Announcement of these preliminary steps does not constitute issuance of action in such cases, but is merely announcement of proposed disposition. Commission reserves right to reach different result upon subsequent adjudication and issuance of formal de- cisions.

INITIAL DECISIONS

Hearing Examiner M. Gifford Irion issued initial decision looking toward (1) granting applications for new fm stations to operate on 1550 kc of (a) Radio Crawfordsville Inc., with 250 w, DA-N, U, in Crawfordsville, Ind.; (b) Sullivan County Bests. Inc, with 250 w, D, in Sullivan, Ind.; (c) Southern Wisconsin Inc., with 1 kw, DA, D, in Lake Geneva, Wis.; (d) Grundy Best Co., with 250 w, D, in Morris, Ill., and (e) Air Capital Inc., with 5 kw, D, in Madison, Wis.; (2) denying application of Der Plaines-Arlington Best. Co, for new station on 1550 kc, 5 kw, DA-D, in Des Plaines, Ill.; (3) granting application of Shore Best. Inc. to dis- miss without prejudice its application for new station on 1550 kc, 5 kw, DA-1, U, in Madison, Wis. Ann. March 1.

Hearing Examiner Ray A. Kyle issued initial decision looking toward granting application of Concert Network Inc., for new fm Class B station to operate on 101.5 mc with ERP 20 kw and ant. height 500 ft, in Trenton, N. J., and denying application of WBUD Inc. for same facility with ant. height 250 ft in Millington, Tenn. Ann. Feb. 23.

Hearing Examiner Annie Neal Hunting issued initial deci- sion looking toward granting application of Radio Millington Inc., for new fm station to operate on 1380 kc, 500 w, D, in Millington Tenn. Ann. Feb. 23.

Hearing Examiner Herbert Sharfman issued initial decision looking toward deny- ing application of James D. Childress and James E. Reed, (Mountain Empire Radio Co.) for new fm station to operate on 1560 kc, 500 w, D, in Clinton, Tenn. Ann. Feb. 23.

Hearing Examiner Millard F. French issued initial decision looking toward granting applications of Clarke Best. Corp. (WGAI), Athens Ga., WAKE, Inc. (WAKE), Atlanta, Ga., and Savannah Valley Best. Co. (WBDG), Augusta, Ga., to increase daytime power on 1380 kc from 250 w to 2 kw, continued nighttime operation with 250 w. Ann. Feb. 23.

OTHER ACTIONS

By order, commission extended effective date of rules requiring tv stations to have type-approved frequency and modula- tion monitors at station whenever trans. is in operation, pending final decision in rule- making proceeding which looks toward eliminat- ing that requirement. According to Sec. 3.680(a) and 3.681(a) of rules were amended to reflect expanded date. Ann. March 1.

By memorandum opinion and order, commission denied petition by WDFJ Inc., Dayton Beach, Fla., requesting issuance of order to Coastal Carolina Best. Corp. to show cause why license for WMYR Myrtle Beach, S. C. (1450 kc 250 w, U), should not be modified to specify daytime operation with 1 kw contingent upon grant of applications of stations WMFJ and WSHC both Hartsville, S. C., WCCP-Savannah, Ga., and WAGN Charleston, S. C., seeking increased daytime power from 250 w to 1 kw, continued operation on 1240 kc with 250 w N, which are in consolid- ated proceeding in Dockets 12604-12605. Ann. March 1.

By order, commission appointed Chief Hearing Examiner James D. Cunningham in lieu of Honorable Horace H., to preside in further hearing ordered on petition by U. S. Court of Appeals in proceeding on applications of WORZ N., New York and WORZ-TV, N. Y. (WJW) for license to operate on ch. 9 in Orlando, Fla. and to issue an initial decision. Agencies have agreed to convert to appointment of a hearing ex-aminer of commission to preside in matter and to issue initial decision. Order shall not take effect until it has been presented to the Senate and House of Appeals for confirmation and such action as Court may deem appropriate in light of considerations of its present mandate. Ann. Feb. 24.

By order, commission granted petition by Carol G. Gifford, Chairman, Blue Island Community Best. Inc., severed from six- teen consolidated applications, Dockets 12604 et al., and retained following four applications for additional issues pertinent to them: Blue Island Community Best. Inc., Blue Island, Ill.; Elmwood Park Best. Corp., Elmwood Park, Ill., for new stations to operate on 105.5 mc; Mrs. Evelyn R. Chauvin Schoenfeld for renewal of license of WXFM (fm) on 94.3 mc in Elmwood Park, and Edward L. Waterman for new station on 105.5 mc in Park Forest, Ill. Ann. Feb. 24.

By order, commission dismissed petition by KARA Inc. (KARA), Albuquerque, N. M., for further consideration, in consolidated proceeding in Dockets 12637-12640. KARA is no longer party to proceeding. Ann. Feb. 23.

By memorandum opinion and order, commission denied petitions of Warner Bros. Pictures Inc., to modify to increase daytime power to 5 kw the licenses of KTOP and KTBX, Cartersville, Ga., and substituted issues pertinent to filing of joint petition by the Dept. of the Navy, Dept. of the Army, and Fed- eral Communications Commission for the issues; deleted those agencies as parties to proceeding and made Radio Division Corp. (WRVA-TV, ch. 12), Richmond, Va., party; and dismissed petitions by WJWR- TV and Broadcast Bureau filed Jan. 24 and Jan. 25, respectively. Commissioner Bartley dissented; Commissioner King participating. Ann. Feb. 23.

Commission scheduled following proceed- ing for oral argument on March 30: American Best-Paramount Theatres Inc., (KABC-FM), Los Angeles, Calif.; Caro Best. Co. and Tuscola Best. Co., Caro, Mich., for rehearing, KWMN, New Bern, N. C. and substituted issues pertinent to a proposed agreement between the parties to file on the record; granted in part joint petition by the Dept. of the Navy, Dept. of the Army, and Fed- eral Communications Commission for the issues; deleted those agencies as parties to proceeding and made Radio Division Corp. (WRVA-TV, ch. 12), Richmond, Va., party; and dismissed petitions by WJWR-TF and Broadcast Bureau filed Jan. 24 and Jan. 25, respectively. Commissioner Bartley dissented; Commissioner King participating. Ann. Feb. 23.

By memorandum opinion and order, commission dismissed petitions of The Presbyterian Church of Seattle (KWT), Seattle, Wash., to dismiss application of Washing- ton State U. for exclusive nighttime operation of KWSC Pullman, Wash., presently shared with KWTW. Petitioner is in consolidated hearing with applications for renewal of licenses of KWTW and KWSC. Ann. March 1.

By order, commission dismissed petitions of Mt. Vernon Best Co., for reconsideration, severance from consolidated proceeding in Dockets 12225 et al., and grant without hearing of its application to increase nighttime power of WBBF Co. from 1450 kc to 5 kw, D, Petitioner should have addressed its request for relief to presiding hearing ex-aminer. Ann. March 1.

By memorandum opinion and order, commission granted petition by W. J. Frier for reconsideration and extension of time for filing his application to increase daytime power of WBHF Co. from 250 w to 1 kw, continued nighttime operation with 250 w, conditioned to accepting such interference as may be imposed upon it by other existing Class IV stations in event all parties to proceeding have been found to be entitled to increase power to 1 kw; terminated proceeding. Ann. Feb. 23.

By order, commission, on its own mo- tion, granted postponement of the hearing in circuit court, Ill., tv ch. 8 comparative proceeding from March 3 to date subsequently to be deter- mined. Ann. March 1.

Westford, Beckford, Ill.; WQEM Quincy, Ill.; McLean County Bestg. Co. Normal, Ill.—Designated for consolidated hearing applications involving operation on 1440 kc—WQEM to increase daytime power from 1 kw to 5 kw w-N; WQEM to increase nighttime power from 1 kw to 3 kw w-N; DA-D, continued 500 w-N; WQEM to increase nighttime power from 1 kw to 3 kw w-N, DA-D, and McLean for new am station to operate with 1 kw, DA-D made KIRX Kirksville, Mo., party to proceeding. Ann. Feb. 23.

High Fidelity Bestg. Corp. Norristown, Pa.—Designated for hearing application for new am station to operate on 1465 kc, 100 w. U made WOND Pleasantville, N. J., and WEST Easton, Pa., parties with respect to their existing and proposed operations, and WCOI Coatesville, Pa., party with respect to its existing operation. Ann. Feb. 23.

* Commission granted requests by KTVB Inc., licensee of KTVB (TV), ch. 7, and Boise Valley Bestg. Inc., KBOIT-TV, ch. 2, both Boise, Idaho, for temporary waiver of Sec. 6.602(a) of rules to operate tv intercity relay stations at KST-TV, Salt Lake City, Utah, on 7650-7745 and 7160-7175 mc, respectively (normally reserved for common carrier use), until equipment is available for operation in 12000 mc band; no interference condition. Ann. Feb. 23.

* By memorandum opinion and order, Commission denied petition by Roger Williams Bestg. Co. (WPAW) Pawtucket, R. I., for reconsideration of July 29, 1960 report and order terminating rule-making proceedings in Docket 13264 which looked toward deleting ch. 6 from New Bedford, Mass.

Routine roundup

* By order, commission amended Sec. 1.359 of rules relating to giving of local notice of applications for broadcast facilities and amendments thereof, to exempt tv translator stations from requirements of subsection (c) and adding new subsection to provide that a filing any application or amendment thereto for tv broadcast translator station which is subject to this section shall cause any published notice of such filing at least once during two-week period immediately following tendering for filing of such application or major amendment, or, when applicant is specifically advised by commission that public notice is required in particular case pursuant to Sec. 1.359, such notice shall be published at least once during two-week period immediately following commission notification, in daily, weekly or bi-weekly publication having general circulation in community or area to be served; provided, however, that, if there is no publication of general circulation in community or area to be served, applicant shall determine appropriate means of providing required notice to general public, such as posting in local post office or other public place. Amendments are effective immediately. Ann. Feb. 28.

* By order, commission granted request by Voice of the Orange Empire Inc. Ltd., and deleted engineering condition attached to its July 7, 1960 grant to increase daytime power of KWIZ Santa Ana, Calif.. from 2 kw to 5 kw and change from A-N to DA-2, continuing operation on 1460 kc, with 1 kw-N. Ann. Feb. 23.

* Commission denied request of South Jersey Radio, Inc. (WOND), Pleasantville, N. J., for waiver of policy of not assigning common call letters to stations of same licensee in different service areas. Conn. Cross dismissed. South Jersey has requested assignment of call letters WOND-FM in lieu of WOSS-FM Atlantic City, N. J.

* On its own motion, commission set aside its January 29th grant of limited license renewal for 15 months for WTTI, Wirlieine Radio Inc., Lewistown, Pa., because of subsequent evidence of new technical violations or non-correction of previously cited violations.

**ACTIONS ON MOTIONS**

* Commission on Feb. 23 granted petition...
by Federal Communications Bar Association and extended to Feb. 20 to March 13 and from March 7 to March 28 time to file comments and replies in the matter of amendment to Section 307(b) of the act. Action Feb. 23.

By Commissioner John S. Cress
Granted petition by College Radio and extended to Feb. 14 time to respond to Broadcast Bureau's opposition to its petition to deleteDatum from its application for a radio station. Action Feb. 21.

By Commissioner Robert E. Lee
Granted petition by Broadcast Bureau and extended to March 7 time to file responses to petition by North Suburban Radio Inc. Highland Park, Ill., for conditional grant of an application which is consolidated for hearing with Dockets 13010 et al. Action Feb. 27.

By Chief Hearing Examiner James D. Cunningham
Granted petition by Milton Grant and James R. Bennett, (Laurel Bestco, Co.), for extension of effective date for compliance with Feb. 13 order requiring production of additional information relative to legal and engineering services performed in connection with applications for renewal of Lear.in the Md., which is in consolidation with Docket 11300. Action Feb. 28.

By Hearing Examiner William R. Reavis
Scheduled hearing for March 2 for filing of responses to petition to take witness orally against Parke Carter and against the application for Radio Station WKBW-AM and WKBW-FM in Buffalo, N. Y. Action Feb. 21.

By Hearing Examiner Paul G. Currin

By Hearing Examiner Robert H. Smith
Granted petition by Radio Station WJSP-FM, Mansfield, Ohio, for consolidated hearing for March 16 to June 15, 1961, in connection with its application to move an existing station. Action Feb. 21.

By Hearing Examiner William H. Duberly
Grant petition for consolidated hearing for March 1 by applicants for two stations in St. Louis, Mo., for a station in Minneapolis, Minn., and for a station in Miami, Fla. Action Feb. 21.

By Hearing Examiner Robert H. Smith
Scheduled hearing for March 15 for filing of responses to petition to take witnesses orally against Parke Carter and against the application for Radio Station WKBW-AM and WKBW-FM in Buffalo, N. Y. Action Feb. 21.

RADIO

Help Wanted—Management

You may be an assistant, or a full-fledged sales manager, who is old fashioned enough to believe in loyalty to your employer; but you must be alert, innovative and have real talent for selling yourself and your station. One reason you would leave your present job is because you find little opportunity for advancement. You have had some years of radio sales experience, and have a fair knowledge of station operation. If this sounds familiar to you, then you are the perfect person to meet our requirements. If you know you can meet these requirements, give full particulars, along with snapshot in first letter. Box 386D, BROADCASTING.

Sales

South Florida metro market. $100.00 week plus 15%. Weekly collected sales of $5000.00 or better. On $10000.00 you make $5000. You must have a proven record in radio sales. Send resume with references to Box 136E, BROADCASTING.

Southern Missouri station in growing market has opportunity for experienced salesman with a proven record. Must be community minded. Good salary plus commission. Give full details, references, and snapshot. Box 299E, BROADCASTING.

Salesman-announcer needed at once. Light announcing and advertising. Salary plus commission and references to Box 128E, BROADCASTING.

Help Wanted—Cont'd)

Announcers

South Florida 5 kw indie needs dj. Must be fast paced, tight production, experienced in modern radio format operation. $125 week. Heavy advertising requirement. Send resume to Box 865D, BROADCASTING.

Game man, $125.00 week to start . . . $180 in 3 months at south Florida station. Heavy on announcing side. Experienced man only. Send full resume to Box 781D, BROADCASTING.

Immediatem opening in major southwest market for more experienced announcer. Interviewer. Over 30. Middle-of-road music, know your music. Must have family man. If you fit these qualifications, send resume, picture and desired salary to Box 221E, BROADCASTING.

Florida coastal 5 kw requires quality announcer with first phone for 5 p.m. to midnight board shift, Monday thru Saturday. Little or no maintenance. Also experienced morning man who can conduct a leisurely paced program for adult listeners. Insurance benefits, salaries open. Box 254E, BROADCASTING.

Negro announcer wanted for major southern market. Dependable, experienced rhythm and blues personalities. We check character and credit before employing. If you qualify, send tape, resume, and salary requirements to: Box 306E, BROADCASTING.

Morning man for 100.000 central New York market. Mature voice. Experience necessary. Box 318E, BROADCASTING.

Northwest kilowatt news/market needs mature announcer with first phone. Join solid operation. Emphasizes good news/market maintenance. You must be above average announcer, we'll pay above average salary. Forward resume with credit and some phonographic, plus audition tape. Box 330E, BROADCASTING.

Opening anticipated in a California station for stable, experienced announcer. Must be able to write and produce spots. Box 353E, BROADCASTING.

Negro announcer with first class ticket for Mississippi one kw. Box 356E, BROADCASTING.

Great Lakes area 5 kw station needs combo man. Permanent job. Announce own shows or work news and sports. Some editing and maintenance required, but flexible as we have other engineers. Box 348E, BROADCASTING.

Move up to a top quality station. Florida's #1 market is looking for an outstanding mature entertainment, big smile, announcer-dj. Send aircheck tape, resume and references. Box 275E, BROADCASTING.

Announcer, runs own board to work pleasant evening shift at high rating, progressive, community minded station. Bill Dahlsten, KAFM, Salina, Kansas. KBUD, Athens, Texas has immediate opening for experienced announcer-salesman.

First phone combo-announcer needed April 1st. Training position leading to assistant manager. Personal interview required. KRKK, King City, California.

Help Wanted—Cont'd)

Announcers

Morning man, young experience required. Capable of new work. Send resume, tapes, photo, to Program Director, WDEA, Ellsworth, Maine.

We're growing stronger! Care to join us? We're top-rated and plan to stay that way. Presently 1900 watts, shortly 5000. Need versatile, satured, announcer. If you are interested, we want you to produce pleasant sounding music shows, gather and compile news and deliver newscasts. If you're without sound experience let's not waste each other time. But—if you can qualify with voice and business sense make fast-growing New London County your home—we'd welcome hearing from you. Send resume and tapes (which will not be returned) to Tom Phalen, PD, WICJ—P.O. Box 551, Norwich, Connecticut. Please indicate present salary and expected salary.

These Farmers Have Found A Way To
"Keep 'Em Down On The Farm"

Dairymen Have Found That Sound Business Principles,
Including Good Salesmanship, Pay Off

These Farmers Talk
About How To Sell

Drop in at the Sheraton Towers Hotel in Chicago March 22-23. You'll find yourself in the midst of one of America's most unusual annual meetings. From 300 to 400 dairy farmers will have turned the milking chores over to their wives, sons, daughters, and hired hands so that they can get together for two days to talk about how to strengthen their dairy foods selling program.

Dairy farming, like most other segments of agriculture, has changed a great deal in the past quarter century. Today's dairy farm is a highly capitalized business enterprise, and the families who operate these businesses, in every state in the union, are very much interested in all phases of business.

When dairymen send their representatives to the 21st annual meeting of the American Dairy Association this month, they are instructing these delegates to help develop more effective ways to tell the dairy foods story to consumers. The business of the American Dairy Association is to serve as the Voice of the Dairy Farmers in the Market Places of America.

Some People Scoffed
At The Idea of Selling

When some of the far-sighted dairy farmer leaders proposed a quarter century ago that dairy farmers should provide money to develop a special non-brand dairy foods selling program, there were more people who ridiculed the idea than who praised it. Even today there are still a few people who tell farmers that it is the farmer's job merely to produce food and not to worry about selling it.

But dairy farmers didn't buy this philosophy, and the proof is in the steady growth of the American Dairy Association program through the past 21 years. Starting out with $271,000 in 1940, the Association operates in 1961 with a budget in excess of six million dollars—every penny of which comes directly from dairy farmers who believe firmly in the idea that producing a good product is only the start toward business success, with salesmanship being as important as production itself. Dairy farmers have generally recognized that producing milk for a living carries with it the obligation to build and to maintain markets for that milk.

The dairy farmers have developed this appreciation for the tools of selling is all the more interesting in view of the age-old public acceptance for milk as "nature's most nearly perfect food." It might have been easy to decide to coast on past glory!

Dairy Farmers Are Big
News In Food Selling

The growth of the American Dairy Association into one of the nation's major food research and promotion organizations has been rapid, especially when one considers that almost one million dairy farm families have had to be contacted and told the reasons why their support of the research and selling program would be a good investment.

The Association's program consists of several elements, including nutrition and product improvement research grants made to universities and colleges to determine more accurately and specifically the role of milk and milk products in the diets of human beings. Marketing research, much of it done through such organizations as Alfred Politz, Market Research Corporation of American and National Analysts, has helped the dairy farmers to learn more about their market and consumer attitudes.

The lion's share of the annual budget goes into consumer advertising. Not all media are used at the same time since dairy farmers have the same budget limitation problems as other advertisers, but media selections are made after careful study of what message should be delivered to what audience.

The Dairy Product Market
Has Been Influenced

Along with advertising there has been an effective merchandising program, used by brand dairies and retail food outlets. All the effort that dairy farmers have been making to speak for their products in the market places of America have helped to hold and to strengthen consumer appreciation for and use of dairy products.

Although several dairy products have suffered some reverses in the competitive food market, today dairy farmers and the processors and distributors of dairy products are providing from 20 to 25 percent of the total food nutrients consumed by American families—at a cost, incidentally, of considerably less than 20 cents out of each food dollar!

At their American Dairy Association annual meeting in Chicago this month the dairy farmers will be considering such subjects as "effects of changing population mix on future dairy products sales," "new ideas in communications research," "rating services for advertising effectiveness." The talk in the corridors may at times get around to technology on the dairy farm, but the major business of the two days will be not production of milk but marketing of milk and milk products. Dairy farmers have learned to produce efficiently, and they are gaining in their knowledge of how to sell what they produce more effectively.

BROADCASTING, March 6, 1961
OUR RESPECTS to Rollo William Hunter, vp & radio-tv director, EWR&R, N. Y.

Emoting was only the means to an end, not the end

Did the movies, the stage and television lose a great or even a near-great artist 21 years ago when Rollo W. Hunter closed his career as an actor? Did Mr. Hunter regretfully but manfully swallow his disappointment when he wrote finis to a four-year period of acting in soap operas on KDYL Salt Lake City which began at age 15?

Not at all, says the man who today is vice president and radio-tv director of Erwin Wasey, Ruthrauff & Ryan, New York. "As for my acting, that was just a way to make a little money while I was in school. Frankly, I was never much of an actor, any way."

The same disarming candor is one of the things that make his agency colleagues appreciate Mr. Hunter today. They point out that in a business which is "go-go-go" Mr. Hunter invariably maintains his equilibrium in the face of crises or near crises and performs his duties quietly and efficiently. One agencyman observed:

"When everyone seems to be blowing up, Rollo is likely to come up with some droll remark that breaks the tension. He never takes himself over-seriously, and that's why he commands the respect of so many of us."

Convert • His foray into radio as a teen-age performer sold him on the broadcast field, and throughout college he toiled in some phase of the industry. His associates say his success can be attributed to hard work and to a thorough grounding in radio-tv programming and advertising acquired over a period of more than 20 years.

Mr. Hunter is a tall, alert-looking man of 40, trim of build ("I never exercise") and pleasantly informal in manner. But he can be forceful and eloquent on topics he considers significant. He is, for example, particularly irritated by the attitude of some broadcasters who regard agencymen, he feels, as "crass idiots" in programming.

"There is no reason why an agency cannot participate in control of programs," Mr. Hunter asserts. "Many radio-tv directors worked at stations and networks. And by the same token, many agencymen have moved over to networks in responsible programming positions. An agency with control of a few programs can often come up with as good—if not a better—program than the networks. So the condescending attitude of many of the network and producer executives is something I cannot understand."

Mr. Hunter's own background in radio-tv production and programming began at the station level with various outlets on the west coast and progressed to the network plateau with ABC-TV in Hollywood. He doesn't consider his experience atypical for an agencyman.

Rollo William Hunter always has been interested in writing—even as a youngster growing up in Salt Lake City. He was born there on June 22, 1920, and attended local schools and three colleges—the U. of Utah, the U. of California at Berkeley and the U. of Southern California, from which he was graduated in 1941 with a B.A. degree in journalism.

By the time he had his degree, Mr. Hunter had gained experience as an announcer and as a production department employee of various stations, including KYDL and KUTA Salt Lake City and KFI-KECA Los Angeles. He was in the transcription and sound effects department of KFI-KECA when he was called for duty by the Naval Reserve in October 1941.

Mr. Hunter rose from petty officer to lieutenant (junior grade) in four years. He served in the Amphibious Force in the Mediterranean theatre and participated in landings at Casablanca, Bizerte, Sicily and Salerno.

Upon release from the Navy in 1945, he joined KECA (now KABC), which had become the ABC owned-and-operated station in Los Angeles. His initial assignment was writer-producer and he progressed to production manager, program manager, assistant program manager of the ABC Western Division and production manager of the division by the time he left in the spring of 1951. For the next year and a half he was copy chief and a tv-radio producer for John I. Edwards & Assoc., Los Angeles. He joined the Los Angeles office of Erwin, Wasey & Co. in October 1952 as tv-radio copywriter and producer. He was named radio-tv production manager of that office in 1955 and was transferred to the agency's New York office in 1956 as director of radio-tv. In October 1957 after Erwin, Wasey & Co. merged with Ruthrauff & Ryan, he was named a vice president and a member of the plans board.

Accounts • Mr. Hunter is one of three vice-presidents and radio-tv directors at EWR&R (the others are Robert L. Redd in Los Angeles and George B. Anderson in Chicago). He is most heavily involved with Dutch Masters Cigar Co., which is sponsoring Ernie Kovacs' Take a Good Look on ABC-TV; Campana Sales, which buys participations on various NBC-TV and ABC-TV daytime programs; Devoe & Raynolds (paints), which is active in spots, and Thermo-Fax Sales Corp., which buys participations in local tv programs.

Mr. Hunter is not "anti-ratings" per se, but notes: "It is important to buy a program for an advertiser that gets the proper audience. Sometimes you get waste circulation with a program that gets high ratings."

He lives in mid-Manhattan with his wife, the former Mary Mewhirter of Yorkville, Ill., whom he married in 1955. They expect their first child in May. (By a former marriage, Mr. Hunter is the father of two children—Kathryn, 13 and Kevin, 11.) Mrs. Hunter is a copywriter at J. Walter Thompson.

Mr. Hunter has continued his interest in writing by contributing non-fiction articles to Saturday Evening Post, Bluebook and other magazines.
Learning the ABC

A NY way you look at it, the 1961-62 network television season promises to be the most competitive yet. We hope that’s good.

It has been quite a while since anybody seriously challenged anybody else’s assertion that network television had become a three-way race. But in case there’s a skeptic around harboring secret doubts, he might be reminded of what happened in Cincinnati 10 days ago. Taft Broadcasting pulled up 12-year-old roots to switch the affiliation of WKRC-TV from CBS to ABC, at the same time also pledging to ABC the primary allegiance of its Birmingham and Lexington stations, WBC-TV and WKYT (TV).

It is true, of course, that WCPO-TV and CBS got together at the same time to solve their common problems in Cincinnati, and that behind the entire Cincinnati shuffle there is talk and back-talk about who did what to whom, and why. But that is beside the point of this discussion. Whatever the motivations, the move of the three Taft stations to ABC—which had already had the affiliation of a fourth—has to be counted among the most significant testimonials that ABC’s rising competitive stature has received in a long time.

There are still some markets that ABC needs to get into, or where it otherwise has a disadvantage in facilities, and at least partly for that reason CBS and NBC are still far out in front in billings. But in terms of competition for audience the race is clearly three-way, and close.

That’s essentially the kind of competition we were talking about when we said we hoped it would work for the good. We have expressed reservations in the past about the extent to which popular programs seem to reproduce themselves until what is new and fresh and vital is largely obscured by the blur of sameness created by all the rest. We would like to think that as competition grows even more intense the focus of the rivalry would shift—that instead of trying to do the same things better, all three networks would spend a little more energy on being different. It just might pay off in billings as well as “image.”

Changing order

THE New Frontier penetrated the FCC last week, with the assumption of the FCC chairmanship by bright young Frontiersman Newton N. Minow.

The gavel was handed the 35-year-old Chicago Democrat by Frederick W. Ford who reverts to the status of commissioner as one of that agency’s three Republican members.

Mr. Ford served with distinction for almost a year. Unlike his two immediate predecessors, he didn’t rock the regulatory boat and thus won the acclaim of Congress and of the press which had made a fetish of pillorying the FCC. He has been scrupulous in his dealings with broadcasters and other pleaders before the FCC.

There will be no radical overnight changes under Chairman Minow. For one thing, he is in general accord with the philosophies of his immediate predecessor, Mr. Ford. For another, the FCC regulatory processes established by congressional and court decrees over the years thwart summary or expeditious action.

Mr. Minow has a mandate from President Kennedy to elevate the level of programming. He also has an avid personal interest in the development of educational broadcasting. And he has expounded his views before the Senate Commerce Committee at his confirmation hearing on such controversial and complex matters as allocations, program rating services, network controls and spectrum management.

These problems to some degree have been in the laps of each of the seven chairmen of the FCC since the end of World War II and the coincident emergence of television.

The troubles are not generated by the ideas but in their execution. It is one thing to attempt to elevate program standards by what has been described as “moral suasion.” It is quite another to seek to accomplish the result by decree or government fiat, because that would be censorship.

In etv, Mr. Minow has indicated interest in a study to allow non-commercial stations to accept advertising to help pay the overhead. That would be an unconscionable breach of faith because educational channels are allocated on a non-competitive basis. Moreover it would be tantamount to the government going into the business of broadcasting because many of the educational institutions are subsidized.

All responsible elements in broadcasting—in the profession as well as in government—want to see Chairman Minow succeed in his determination to improve conditions. Mr. Minow will find that there isn’t a “mess” to be cleaned up but rather a task of coordination and management to be evolved with licensees prepared to cooperate on reasonable and lawful grounds.

Mr Minow, despite his youth, comes to the FCC with an excellent reputation as a lawyer and an administrator.

It is to be hoped that he will meticulously avoid any interference with free enterprise in broadcasting in both the programming and business aspects.

Pay ball

OFF AND ON for years baseball club owners have spoken yearningly of future riches to be gained from subscription television. We wonder if they realize what a good thing they already have in free television and radio.

As reported elsewhere in this issue, major league baseball will take more than $17 million from the sale of broadcast rights in the 1961 season. That works out to an average of better than $10,000 a game that baseball is getting from free broadcasting. Many games won’t draw that big a paying gate.

Baseball is taking in from television and radio at least twice the money it is paying to all the players in the major leagues. The total big league player payroll is estimated at slightly more than $8 million.

There are a good many broadcasters who would like to be in the happy position of having somebody else meet their payroll.

"I can't possibly pitch tomorrow. I've got a shaving commercial coming up!"

two more reasons why your TV dollars count for more on CH. 4... Buffalo!

New programming and scheduling of our full-length feature films means new opportunities for advertisers in the rich, vital Western New York Market.

Western New Yorkers like their film-fare at home and we're giving them more to like than ever before. The new early feature films on the "CH. 4 Theater" opens a whole new audience to meet and sell in this six-billion-dollar-plus retail market.

And the new time for "Starlight Theater" brings this favorite film feature on earlier to attract even more viewers to Buffalo's most popular late-evening film show.

Both programs carry the finest product Hollywood has made available to WBEN-TV. Here's your big chance to do a big job in this important metropolitan area.

Get the facts from Harrington, Righter & Parsons, National Representatives

"RCA Color TV Tape... Equal of Color Live!"

-says William B. McGrath, V. P. and Managing Director, WHDH-AM, FM, TV, Boston

"Here at WHDH-TV we are enjoying great success with our RCA Color Television Tape operation. Taped programs, commercials and special events sparkle in color. We find color tape the equal of color live—and with the convenience and ease that only RCA TV Tape can give.

"RCA Color TV Tape Recorders have completed our RCA color facilities. We do all our local programs in color. By adding the client convenience of television tape to the new dimension of color, we have an unbeatable combination for success."

RCA Color TV Tape Recorders are proving themselves in installations like WHDH because they are designed for color. Picture quality is virtually built in, thanks to multiple monitoring checks. You can check through the entire system for the very best picture. Precision head-wheel interchangeability for color, too, means you can play back tape on any machine, regardless of where it was made.

More and more broadcasters are specifying RCA TV Tape for color operation because it is part of a completely matched line of color equipment available from one single source—including color TV tape recorders, studio color cameras, 3-V film cameras and projectors, color monitors, switching and special effects. They find service before and after the sale of the kind that only RCA with its broad background in color television can perform.

Find out how you can get live color quality with tape convenience.
