

Broadcasting's

50th Anniversary

SOL,
CONGRATULATIONS
FROM YOUR
FIRST
ADVERTISER!

HUBBARD
BROADCASTING,
INC.

Welcome to the 50th Anniversary Club

Summit knows what a golden anniversary feels like.

Ours was last year. We entered broadcasting in 1930 with WSJS-AM in Winston-Salem.

We've grown with the industry just as Broadcasting has grown.

In 1947 we acquired our first FM station.

In 1953 we entered the growing Television field.

In 1970 our first Cable System became a reality.

And now we're into Space. We've just added a new satellite division devoted to business communications.

Summit's 50 years in broadcasting have been exciting, and we're looking forward to the next 50.

For all those years, we've enjoyed Broadcasting and we've learned a lot. We're looking forward to the next 50 years of Broadcasting, too.

So, congratulations Sol. And thanks. Broadcasting wouldn't have been the same without Broadcasting.

SUMMIT COMMUNICATIONS, INC.

Radio: WSJS / WTQR, Winston-Salem, N.C. • WREC / WEXR, Memphis, Tenn. • WCQA / WJLQ, Pensacola, Fla. • KOCP / KXAT, Oklahoma City, Okla.
Cable Television: Winston-Salem, N.C. • Thomasville / Lexington, N.C. • Statesville, N.C. • Rural Hall, N.C. • Kernersville, N.C. • Cobb County, Ga.
Satellite Communications: Summit Satellite Systems, Inc., Winston-Salem, N.C.

It seems like only yesterday that we put the first issue of BROADCASTING to bed. Now, 50 years later, we're putting the 2,341st issue to bed—the one enumerated Vol. 101, No. 15. That's a lot of printer's ink for anyone's lifetime, and I count myself lucky to have been able to spend so much of it at work and play with the business and the people I love best.

This 50th anniversary issue is special in a number of respects. It serves to sum up the year-long history of the industry that BROADCASTING has been publishing week by week for the entire course of this past anniversary year. Somewhat reluctantly, I was persuaded to add my own recollections to those the magazine has put on the record over the years; they appear in the "At Large" interview that occupies pages 119-142.

Immediately after that we've assembled a 50-year chronology of major stories and milestones that we believe all readers will find useful in the years to come. It begins with the "Fifth Estate Family Tree" on pages 144 and 145, in which we've tried to capture in one artful embrace all the media we've come to call our own.

And then we put the past behind us in a major special report—beginning on page 207—looking ahead to what the world of electronic communications will be like in the year 2001, a short 20 years from now. We hope you'll find that reporting as thought-provoking as we do. This much is sure: It's going to be fascinating to see how it all turns out.

So now we're off on the second 50 years. We hope our family tree, and yours, will continue to flourish, and that readers will always have reason to feel about the magazine as we do: that the best issue of BROADCASTING is the next one.

Congratulations!

years of

Broadcasting Chairman and Editor Sol Taishoff

“The First 50 Years Were the Hardest”

When did you get your start in broadcasting?

I wrote my first radio story probably around 1925, when I was at the Associated Press doing offbeat things and radio wasn't assigned to anyone. The Department of Commerce licensed radio on ships at sea—the old safety of life, SOS thing. It wasn't until 1927 that you got a Federal Radio Commission.

When did the idea of BROADCASTING magazine first germinate?

It probably started when Martin Codel and I were on the staff of the *U.S. Daily* for David Lawrence, probably in 1928 or '29. He was writing the Robert Mack radio dispatch for the Consolidated Press. I spelled him when he was on other assignments, and I also wrote the Mack dispatch. I've forgotten precisely when Codel left the *United States Daily*, which was the predecessor of the *U.S. News & World Report*, but when he left, I immediately began to write the Robert Mack dispatch on what amounted to a full-time basis, five days a week. When I had a story that was hot or timely over Saturday or Sunday, I would write it for my own byline and distribute it on the Consolidated Press Association wire, which David Lawrence also owned.

After Codel left and went to work writing a column for the

North American Newspaper Alliance we became competitors but we remained friends. He was not married then and had very few ties here, and occasionally I would take him home with me on Friday for a kosher meal. We started talking about radio needing its own *Editor and Publisher*. The idea of BROADCASTING germinated from those discussions. That was in the late 1920's.

By that time Codel had left the North American Newspaper Alliance to run something he labeled the Radio News Bureau in Washington—special coverage for radio stations and a weekly newsletter. I was still writing the Robert Mack dispatch and working for David Lawrence. And the newsletter business wasn't doing very well.

How much were you making with Lawrence?

I was making \$45 a week on the *U.S. Daily*, \$35 a week for writing the column. But on the side, whenever I covered a hearing or something like that, I might furnish a black sheet [carbon copy] for the *New York Times* or the *New York Herald-Tribune*. It was nothing to work 12 or 14 hours a day on these things. I was doing pretty well. I was probably averaging over \$100 a week, which was much better than most news guys in town were doing.

The Robert Mack dispatch was a pseudonym owned by David

Lawrence. I was Robert Mack number three, and Codel was number two. Lawrence also had another specialized column on business way ahead of the press associations. I remember he had another columnist whose name was Hardin Colfax, which spelled out "hard and cold facts." He also was one of the early European dispatch distributors, and, if I remember correctly, he had a byline man named Paritonatti. Don't ask me how to spell it, but any guy that came along that had come back from Europe and had a good feature story got the Paritonatti byline. And this was Lawrence's genius.

Who was Robert Mack number one?

A fellow named Bill Sweetzer, who was an announcer on WRC here and who was assigned to something else. Most of Lawrence's people doubled in brass.

Well, then Codel and I decided that radio should have its own trade paper because it was a journalism medium, not a jukebox. We began looking around for an angel. But we couldn't get anybody to put up the money. This was the bottom of the Depression now—1930.

Then along came a fellow named Philip Geiselman Loucks, who was a lawyer and a good friend of mine—a former United Press guy. Phil became the managing director of the National Association of Broadcasters. He was elected to the post, and was given the assignment of raising the money to sustain an office—drawing \$10,000 in pay, if he could raise that much. Phil started this thing with two offices in the National Press Building. The NAB itself was not located in Washington at the time. It was a speakeasy in New York. True story. There was a guy named Hap Baker who ran the New York office. It was in the downtown area, and it was a place you could get a drink during Prohibition, and that was the NAB headquarters. Originally it had been formed in Chicago.

What did it do besides providing a drinking service?

Baker worked for one of the nonexclusive brokers in New York, and the NAB was an avocation. Phil was the first full-time person in Washington. There was another man named Paul W. Morency, who was also identified with the NAB in some way in New York. He used to call on WTIC, the Travelers Insurance station in Hartford, and wound up managing the station.

Phil became the managing director in Washington. He had a few clients, one of whom was a fellow named Harry Shaw in Waterloo, Iowa—WMT, now Cedar Rapids. Harry was a dapper guy who once had been in the trade paper business. He ran a paper in Chicago that had to do with refrigeration, *Refrigeration News* or something like that. And he was a bit of a promoter; he owned half of WMT and half of a newspaper in Waterloo. The newspaper was sold, and he had some money, and it was at that time that Phil Loucks said, "You know, if you want to get into a new venture and you know the trade paper field, why don't you back these boys in a trade paper? They've got a format, a dummy made up." And so Phil told us, "This is it. I think the man has money and will back you in a monthly publication."

When all the details were straightened out, Shaw had 52% and Codel and I each had 24%. My wife, Betty, thought I was crazy going into the thing. I had a good job with Lawrence, although this was a bad time; The *U.S. Daily* was about to go under. We'd taken cuts in pay. I was still writing the Robert Mack dispatch. Codel's newsletter had disappeared by that time.

Shaw put in a man of his own, a fellow named F. Gaither Taylor, who had worked for him on the newspaper in Waterloo, which had been sold. Gate was a nice enough, corn-fed country guy. He at least knew what make-up was. He knew what a rate card was. And he knew things that we'd never learned because we'd never been in the publishing business. We'd been news guys. Gate worked with us pretty well.

And Shaw did all right. Phil Loucks had promised him the presidency of the NAB within a year after he backed the paper. It was an honorary job; the managing director ran the thing. As things turned out, Shaw was elected president one week after

BROADCASTING began publication on Oct. 15, 1931, as a semi-monthly.

Were there many broadcasters in the NAB at that time?

Quite a few. I think there were probably 250 or 300 people at the 1931 convention that elected Shaw.

How long did he retain his 52%?

On March 4, 1932, the first bank in the country to close its doors—ahead of the bank holiday—was the First National Bank of Waterloo, where Harry Shaw had his money. Harry had put up \$5,200 as a 10% down payment on \$52,000 for 52% of the stock, so there'd be no problems about what went where when it finally worked out. He told us that his assets were frozen and that we would have to forage for ourselves, and that he would regard his \$5,200 as a loss.

We went out to our key accounts after a few issues of the magazine had been published and asked them whether they thought it was worthwhile, whether radio really needed a trade paper. The three networks were included. There were a couple of station representatives. There were some manufacturers. All agreed that it was desirable, and we gave them a 15% discount on their advertising under a one-year contract, which was the balance of 24 issues. We raised another \$6,000, and that is all the money that originally went into the magazine. And that was the way things went until I bought out Codel in 1944.

Who were the leaders in the industry at the time you started the magazine?

There was Alfred J. McCosker of WOR in New York. They called him "Hollywood Al" because of his fancy dress. He always wore cuffs on his clothes, you know. His best friend was Mayor Jimmy Walker. McCosker was a surprisingly articulate guy, and he served two terms as NAB president. There was a guy named Henry Adams Bellows who came from General Mills, who had a byline in our first issue. He was the CBS Washington lobbyist at the time. He also was a former member of the Federal Radio Commission.

There were other leaders, too. Take John Shepard 3d. He was of the Shepard Stores in Boston and New England—a very bright man who ran the Yankee Network and wore the loudest clothes. McCosker wore the fanciest. In the South, at WSM in Nashville, there was Edwin W. Craig of the National Life and Accident Insurance Co., who had working for him a guy named Ed Kirby. In Atlanta there was Lambdin Kay, the great pioneer announcer at WSB who covered Dixie like the dew. Later on there was John Elmer in Baltimore, who was instrumental in founding Broadcast Music Inc.

Then there was Walter Damm of WTMJ Milwaukee. They called him "The Great God Damm"—a nickname I gave him. He was a mean, sour guy, but he didn't mean it. He was a Dutchman who was meticulous as he could be. He put in the finest radio station you ever saw. All the walls were tile, so you could take a wet rag and wash the walls, never have to paint them. He had his own kitchen on the mezzanine floor, so he could have lunch and watch what was going on in the studios. He had no children, but he had the damndest hobbies you ever saw. He liked to knit, and he'd make fancy stuff with beads and shells. A very organized guy. I gave him the nickname because he was always griping and bitching.

Wasn't he the president of the NAB at the time the magazine started?

Yes. As a matter of fact, you'll find a quote in the first issue of the magazine which is still applicable today. It's a hell of a quote. I confess that I wrote it.

"Broadcasting in the United States today stands in grave jeopardy. Politically powerful and efficiently organized groups actuated by selfishness and with a mania for power are now busily at work planning the complete destruction of the industry we have pioneered and developed. These groups give no thought to the efforts and the monies which we

The New York Times also points out that Bonneville International “has been gaining a reputation as an aggressive marketer, an innovative public service programmer and a leader in television technology.”

There are many reasons why the Times threw these bouquets at Bonneville. One of them, for instance is G. Donald Gale. Don has been broadcasting regular editorial comments on Bonneville’s KSL and KSL-TV since 1962. And for the past two years in a row he’s won the Radio-Television News Director’s International Award for Editorial/Presentation.

Don is just one example of the many important people that help Bonneville stations serve their communities better.

have expended, nor the services which we have rendered the American public in the development of the greatest broadcasting system in the world. They speak of our business as if it could be cut down and destroyed by the mere wave of a wand or legislative fiat. To protect the present system of broadcasting is a definite obligation which we as broadcasters owe to ourselves and to the millions of the public whom we serve. And adequate protection can be achieved only through efficient organization. In other words, American broadcasting today is given its choice between organization or destruction."

Where was he in the succession of NAB presidents?

He was probably number five or six.

Who was first?

The first was Eugene F. McDonald of Zenith, who owned WJAZ, a 100 watt in Chicago. The NAB started in Chicago. A fellow named Paul Kluge, who was a public relations man for radio set manufacturers, organized it. The main thrust of radio in those days was to sell radio sets. This was the first wave of receivers following the old improvised cat's whiskers, the vacuum tube set. There were a number of important manufacturers. Majestic, the mighty monarch of the air, was one of them. Zenith was another. Kolster was the one I had, and it was a big set. It cost \$400 or \$500 even in those days. Kolster was a radio inspector in the ship service of the Department of Commerce and then went into the set manufacturing business in that first wave, and the Kolster was a fine set.

A. Atwater Kent was a set manufacturer. That was a gooseneck set. And Atwater Kent made a tremendous fortune in the business. As I recall, he was manufacturing sets at the time the NAB had one of its early conventions in Los Angeles, and held a reception at his house, which was a showplace. He had the driveway up to the house strewn with beautiful flowers, orchids, all planted just for the occasion. He was making that kind of money even then, with a gooseneck speaker and the three-dial tuner.

That was before John V.L. Hogan invented the gang condenser, which made it possible to tune your radio with just one dial. The gang condenser made a lot of money. Hogan was a bachelor and a brilliant engineer, one of Louis Caldwell's favorite witnesses in anything that came along. Louis Caldwell was the first general counsel of the Federal Radio Commission. He came right out of the Colonel McCormick law firm in Chicago as the first big-time communications lawyer in Washington, and after having been general counsel of the radio commission—I think in 1927 or 1928—left to open up the practice of Kirkland, Fleming, Green & Martin. Caldwell was the resident partner.

But Louis was a brilliant guy. He should have been a law school dean. He had a house just off the Shoreham hotel on Calvert Street, standing right in the middle of two streets; it's still there. During World War II the house became an R&R place for anybody in communications who happened to come through on leave. Caldwell called it the Malay Club. Why the Malay Club, no one knows, but the District of Columbia government wanted to assess him a tax because he was running a boarding house. And he insisted it was not a boarding house—it was a recreation center for colleagues. It went through the courts, and the briefs that were filed are now legendary in the field of law. I don't know how many man-hours were spent by lawyers in trying this case, and they finally got it settled that it wasn't a boarding house.

Caldwell later became the first counsel for the Clear Channel Broadcasting Service.

Was Caldwell a bachelor?

No, he was separated. His wife, Irene, was a socialite. As a matter of fact, she was the niece of Colonel McCormick of the *Chicago Tribune*. Both Caldwell and Irene were white-headed, absolutely white-headed and a very charming couple. Louis was a smoker and a drinker. And he was told by his doctor he could not smoke but he could have one drink a day before dinner. So Louis got himself a 16-ounce glass, and he would fill it with scotch and ice, and that was his one drink a day. He had constant parties at his place, and he would go around with the girls who smoked and

have them blow cigarette smoke in his mouth. He was another of that Paul Moses Segal school, brilliant guys who thought they had fun and thought they were kidding their doctors and doing it their way. Segal was another lawyer-friend of mine. He was a radio ham as well as a gifted attorney. He became a connoisseur of wine and knew the best French vintners whom he cultivated on visits to France. He died before his time.

Did Caldwell have more of an impact on the FCC than some of the commissioners?

He did most of the implementation of the original Radio Act. Yes, he was brighter than most commissioners. There are not many people around who would remember Louis's contributions. In the early days of the commission it was a very, very small operation, and everybody knew everybody else. There was empire building up to a point—there always is—but this was a temporary outfit. It wasn't until you got the Communications Act of 1934 that things really began to happen. The early days were pioneering—they were breaking new ground everywhere. There was very little known about shortwaves, for example. The shortwaves were opened by the radio hams, by the amateurs, who probably contributed more to broadening the spectrum than any other group—not the big scientists in the laboratories but those hams just playing around and improvising equipment.

Herbert Hoover, as secretary of commerce, had a lot to do with the formulation of an allocations policy after the so-called breakdown of the law, when there was no licensing, and radio stations would just occupy one of the two frequencies and cause devastating interference.

There were only two frequencies?

Yes. They called them meters, and I don't know what the translation into kilohertz would be. There was a two-meter band and a four-meter band, and then they went to kilocycles, which later came to be called kilohertz.

There's an interesting story about one of the early chairmen of the FCC—Anning Prall. He had been a congressman from Staten Island who was defeated in the 1934 elections. So here was a lame duck from President Roosevelt's own state who had to be taken care of.

So FDR called in Prall and said: "Anning, I'm going to give you the second most important job in Washington. I have the most important. But we have created a Federal Communications Commission which is going to include radio, the remarkable invention, the telephone, telegraph, cable—you can't imagine how much power will be involved and what influence you'd have in this job."

And so word got out that Anning Prall was going to be named chairman of this Federal Communications Commission. And I called up Prall and said: "Congressman, I understand you're going to be the chairman of this new Federal Communications Commission. When do you plan to take office?"

"Immediately," he said.

I said, "I'm afraid you can't under the law. You cannot serve on a commission which was created while you were a member of Congress. You have to be out of Congress; this session of Congress would have to adjourn *sine die*." He said: "Well, I don't think you know what you're saying." And I said: "Why don't you check with Lou Deschler, the parliamentarian of the House?" And he called me back after a couple of hours and said: "Young man, you are right. I cannot do this until after this Congress quits. Come to see me."

And so I went to see this very affable, handsome fellow. And he said: "Mr. Deschler says you're right. How do I do this now?" I said: "Well, there's a lawyer named Hampson Gary who is going to be your general counsel, although the President hasn't designated him yet. Why don't you suggest that he be named acting commissioner—not chairman but acting commissioner—until you qualify, and then he moves over to general counsel." Prall called me the next day and said "That is being worked out," and that's what happened. Hampson Gary was temporary commis-

WCVB-TV Boston

tioner for about 15 minutes or whatever it was. He moved over, and that became the commission that included Anning Prall as chairman.

It also had George Henry Payne, who was William Randolph Hearst's designee. He was the tax commissioner of New York and was Hearst's man. He had worked for Hearst in the newspaper office section, and he was a dandy and one of the worst phonies that ever hit the FCC. But there's a long story on that.

What's the story?

The story is that the commission originally was set up under the law as a seven-man agency with three two-man divisions with the chairman sitting ex officio in each division, so there couldn't be a tie. Each division had a degree of autonomy that way. But the full commission had to handle matters that affected allocations. Payne was a publicity seeker. So he sat in on the hearings involving the Powel Crosley wLw 500 kilowatt experimental station in Cincinnati. And without asking permission or anything else, sitting at the table with this panel, he began asking questions that were designed to make headlines. This wasn't cricket; Payne was a member of the staid telegraph division.

Well, I was indignant. Everybody was indignant about those things. So I wrote an editorial calling Payne a "publicity-seeking politician." I called one of our lawyers, Duke Patrick, and said I wanted to make sure I wasn't libeling the so-and-so by saying that. And Patrick said: "Oh, you can make it stronger. Why don't you make it a 'publicity-seeking politician who has a manner that is hardly that of a gentleman?'"

We ran it that way, and Payne sued us. It seems that under common law or something you can't say someone is not a gentleman—even if he's a horse thief. Well, here we were in 1934, about three years old, and this was a hell of a thing. We didn't have any money. And so Payne got a guy in town named Roger Whiteford, who was a society lawyer—you know, the Metropolitan Club, that sort of thing—and Whiteford sued us for \$100,000. We finally settled out of court but it cost us \$11,000 in fees. It really hurt.

But that isn't the end of the story. The terms of the first commissioners were staggered for the first seven years. Payne was up for reappointment that year, and he was reappointed, and he had a victory party at the Metropolitan Club gloating about his victory over BROADCASTING. The next day the appointment was withdrawn. Don't ask me how.

After the 1934 act was passed, we had a number of common carrier people come to us and ask us whether we were going to broaden the scope of BROADCASTING to cover these other functions of the FCC.

Our answer was no—we operated on the premise that radio was analogous to the newspaper and not to the telephone or telegraph—but we said we'd see that they were served. So I drafted a letter and took it over to Judge Eugene Octave Sykes, who had been chairman of the radio commission and was serving as interim chairman of the new FCC before Prall's appointment. In effect, the letter said: "We are pleased to hear that the editors and publishers of BROADCASTING magazine are going to inaugurate a newsletter—*Tele-Communications Reports*—to serve the common carrier field, telephone, telegraph, cable, nonbroadcast services. If they do as good a job in this newsletter as they have done in the broadcast field, its customers will be well served."

So then I had to get somebody to run it. Codel and I each agreed we would put up \$500 to hire a guy to be the editor. This, of course, was in the Depression. I got a man named Roland Davies, who used to work for the AP; he came in just about the time I left. Good reporter; he knew Herbert Hoover very well, and that appeared to me to be important. Davies was a ticket seller for the C&O Railroad in between jobs. Roland protested that he didn't know a thing about the field, but I said that a good reporter doesn't have to know anything about a field; he'll learn. Then I said: "Now, what we've got to do is to sell some subscriptions, and AT&T has got to be a big customer." And Davies said: "Oh, my mother went to school with Walter Gifford." He was the

president of AT&T at the time, and Davies went up to New York and sold him 50 subscriptions. And that was the beginning of the Yellow Peril.

But the point I was making was that until the time I wrote out "tele-communications" there had been no such word in the lexicon, insofar as I am aware.

Well, by 1934 radio was doing pretty well, and it was beginning to knock the dickens out of the theater business. In one of the early issues of BROADCASTING there's a quote from a theater operator, who said, "You can get Eddie Cantor on the air for nothing. It costs you 50 cents or more to get into a theater." That was L.B. Wilson who was complaining about the damage being done to the theater.

Yes, but his own radio station—wCKY Cincinnati—was doing pretty well. L.B. was a figure of some interest in those days—all 4 feet 11 inches of him.

L.B. Wilson was a theater operator, a banker and owned a boiler factory in Covington, Ky. He owned some motion picture houses—not first runs—in Covington and across the river in Cincinnati. He also owned a very small piece of Churchill Downs. He owned a piece of the Gibson hotel in Cincinnati and was one of the brightest guys and one of the best story tellers you ever heard. He called me up very early on and asked me about a radio station; he wanted to get one.

So I recommended a lawyer to him—Paul Moses Segal, who was about the same height. Wilson wanted Cincinnati, which was the market, but the Ohio quota was full, and Kentucky was under quota. In the early days there were five radio zones, and each zone could have equivalent facilities, so he applied for a high frequency—1490, top of the band, highly undesirable in Covington.

I went to see him after he got this thing in Covington. Walked up four flights of stairs, got to the top of the steps, and his secretary said: "Oh, yes, Mr. Wilson's been expecting you." I went in and saw this cherubic little man behind this big desk. Double chin, expensive clothes. I was all out of breath, and he said: "Hi, young fellow. That's the reason I'm up here. I want to do the talking."

Then he said: "You've got a pretty good magazine here. What's a double truck cost?" and I didn't know what the hell a double truck was! I really didn't. I said: "You mean two pages?" And he said: "Yeah, right." So I said it was twice the cost of a page, which then was \$160. And he said: "Well, I mean every issue." So I said that would be at the minimum rate of \$120 a page. And he said: "I'll take it. Every issue a double truck." That went on practically as long as he lived, although the rates went up.

Well, he became one of the greatest characters I ever met. One day I was down there and he had Senator Ernst of Kentucky, a Republican, in for some function, and Wilson said: "Senator, I want to make this presentation to you." And he gave him a gold watch inscribed, "To the next President of the United States." It wasn't six months later that he had Alben Barkley there, the Democratic senator, and gave him a watch inscribed the same way.

But the funniest story I remember about L.B. was at an NAB convention in Cincinnati, probably around 1935. It was at the Netherland Plaza Hotel, which had two-story suites in the penthouse apartment floor. And everybody was there, including Bill Paley of CBS and Deac Aylesworth of NBC. And L.B. came up to the two of them, who were standing there arguing about something, and said: "You know, if the two of you went over Niagara Falls in a barrel, and it went end over end, there would always be a bastard on top."

Who else was outstanding in the radio business back when the magazine was getting started?

Stanley Hubbard was one of the leaders in those days—and, even though semi-retired, still is on the leading edge of things, as witness his involvement with DBS. In the Northwest there were the Fisher's Blend stations—still there. A pioneer in Oregon was Charles W. Myers, who coined such call letters as "KOIN" and

"KALE," both in Portland. And in the Midwest there was Colonel B.J. Palmer of the Palmer School of Chiropractic, who founded WHO Des Moines and WOC Davenport—where a young announcer-sportscaster named Ronald Reagan got his start.

The Storer dynasty is legend: started in Toledo under George B. Storer, who became the foremost group owner in TV after pioneering in radio. Many other owners tried to emulate Storer and his brother-in-law, J. Harold Ryan, who was the figure man. Ryan also was an interim president of the NAB.

And take John Fetzer, an engineer who put together his own station group, contenting himself with middle-sized markets rather than going for the top 10. And he wound up owning the Detroit Tigers and becoming the leading statesman in baseball.

J. Leonard Reinsch is a must on any list of the industry's leaders. First he put the Cox Broadcasting organization together and then he had the vision to pioneer in cable. And Bill Daniels, out in Denver, did enough for the development and promotion of CATV to earn the unofficial sobriquet as "the father of cable." And Tom Murphy at Capcities. He added unique dimensions to the concept of group media ownerships initiated by the late Frank Smith.

I could go on and on. The records are replete with success stories of people with a will to be creative and successful in a new and potentially important field. It was before the actuaries took over with the rule of thumb that everything had to be a "profit center."

About the time you got started, ASCAP was beginning to cause a lot of trouble on the music copyright front.

ASCAP caused trouble almost from the start. E. Claude Mills—Eugene Claude, but he called himself E. Claude—was general manager. He was a nice enough little guy—tough, wiry. I guess he was Irish. But he put it on the line to broadcasters. Pay up or we'll throw you in jail. We'll sue you at \$250 per infringement. He was affable about the damn thing, but he shook the guys down.

Then they elected a guy named Gene Buck, who had written for the Ziegfeld Follies. He was a big, handsome guy. That was about the time that the boys in Montana, Ed Craney and his cronies, decided to start an anti-ASCAP insurrection. Gene Buck went down to Arizona on a vacation and through connections that Craney and Burt Wheeler [Senator Burton K.] and others had they threw Buck in jail. We ran the picture. Buck never forgave them—and he shouldn't have, either.

But ASCAP went out to get its pound of flesh, and it socked the broadcasters. He would say to a station: "You've got 824 infringements. That'll cost you \$206,000. Or you can pay us a \$200 license." You know what they'd do. They got them all that way. Eventually, that resulted in Broadcast Music Inc., as a rival copyright clearance service for music.

And there were other fringe outfits like SESAC. Nobody ever knew what SESAC had, but they had some religious stuff, and they'd catch a station playing some obscure religious thing and an arrangement that they had copyrighted—they called themselves the Society of European Stage Authors and Composers. It wasn't European at all. But they were modest; they'd say: "Just pay us \$75 or so."

Then came—and we'll skip a few years now—1938. NAB was torn apart on the copyright issue, and Ike Levy, the Philadelphia lawyer, and his brother, Leon Levy, who was Bill Paley's brother-in-law, got into a situation whereby they said there ought to be a paid president for the NAB. And so they picked Neville Miller, the "flood mayor" of Louisville in 1937. He was a hero. And they told Neville that if he could get them out of this copyright mess, that he'd have their undying faith and a lifetime job.

Where were the Sarnoffs and the Paleys back when the magazine got started? Were they the giants in those days?

Very much so. David Sarnoff by that time was president of RCA and chairman of NBC. One of my early experiences with him when we started the magazine involved another New England

senator, Charles W. Tobey of New Hampshire I think. He had Sarnoff testifying up on the Hill and asked him: "Now, what about this publication you own?" Sarnoff said: "I don't own any publication." And Tobey said: "Well, what about this BROADCASTING magazine? Isn't that fellow Taishoff your nephew?" Sarnoff said: "No, but it would be all right with me. It's a good publication."

We were both born in Minsk, Russia.

Did Deac Aylesworth figure in things much then?

Merlin Hall (Deac) Aylesworth was NBC president and did most of the testifying here. He was great on the witness stand, and he always conditioned the committee by pointing out that he was reared in Denver and that his father was a preacher, and he was taught the good Christian ethic. In Denver he had been chief lobbyist for the National Electric Light Association, NELA. Aylesworth would testify before these committees and pretty soon he'd have them all crying.

Paley came into the picture in 1928, I believe, when he induced his uncle, his father and the Levys and a gent named Iglehart and a few others to invest their money in acquiring Major Andy White's Columbia Broadcasting System, 12 or 16 stations. Why? Because he'd been the advertising manager of La Palina cigars when he came out of the Wharton School, and he knew what it had done for the cigar business. He did it with the *La Palina Hour* and Kate Smith, and did she ever move that moon over that mountain.

Sarnoff had an apartment here at the Shoreham—with his own barber chair. He used to call me and say: "Sol, I'm going to be in tomorrow. Can you have breakfast with me?" This happened once every two or three months, something like that. And one day he was pacing up and down, and he said: "Sol, as between Bill Paley and myself, who has made the greatest contribution?" I said: "I guess you have. After all, you were there earlier, long before Bill got into the business. And you've been in the manufacturing end along with the broadcasting end."

He said: "Well, second question. Who do you think's worth more money?" I said: "Well, Paley, of course. He went in and invested in this thing." He said: "How much do you think Paley's worth?" I said: "I don't know—probably 10 or 15 or 20 million dollars." And he said: "What do you think I'm worth?" I said: "I haven't thought about it, but I assume you're a millionaire." He said: "I won't be until next week when they're going to give me a block of stock that I can buy. And I've got to borrow to buy that." It was one of the first of the stock options.

Sarnoff had a tremendous ego, and I guess justifiably so. The man had a great mind. At the drop of a hat he could make a speech that would just ring the rafters. You know, for a person who was perhaps 11 years old when he came over here, practically self-educated, he had become a world leader.

Paley, on the other hand, came from an affluent family and had the benefit of a college education. But he also was a person who was creative—he had a style, was a young man, and he capitalized on it. And he had the faculty of picking good men. The first person of real stature that he hired was Ed Klauber, the day managing editor for the *New York Times*. He figured the *New York Times* was a pretty good paper. And he sensed the value of news very early. And the next topper he hired was Paul Kesten. And Paul Kesten proved a great mind too, a genius.

Bill Paley had a circle of friends who went to school with him and were valued co-workers. One of them was the perennial secretary of CBS, Larry Lowman. Then there was his lawyer friend who was his outside counsel until he fired him over some dispute involving the Museum of Modern Art. Ralph Colin. He had a lot of confidence in a fellow named Mefford Runyon, who was a money man who came along later.

And then Frank Stanton was hired on the basis of a three-page, single-spaced letter on radio audience measurements. And Paul Kesten hired him on the basis of the letter as assistant director of research. And then, in Chicago, there were H. Leslie Atlass and his brother, Ralph. Those were back in the formative days—when

Congratulations, Sol!

But you and your great team merit much, much more!

The effective leadership you have afforded our profession through the pages of Broadcasting has been the essential ingredient that has enabled all of us in our industry to offer the people of America a radio and television service not matched anywhere in the world!

Our everlasting gratitude for those continuing, countless, profound contributions as you enter your next 50 "in the public interest"!

THE WARD L. QUAAL COMPANY

CHICAGO—LOS ANGELES

soap operas and big business centered in Chicago. They were always celebrating something on yacht parties. Ralph was a guy who always had a cigarette dangling from his lips; never saw him without one. Les stuttered. His two good friends were Bill Wrigley and Gene Autry, and he put them together, and got Gene Autry in the business.

Les trained Jack Van Volkenburg, Jimmy Shouse, Carl George, Merle Jones. He ran what they called the Western Division of CBS. That was his turf, there was no question about it.

In those days I had a lovely time. I covered a hell of a lot of territory. I got great satisfaction, for example, out of seeing a man like Walter Brown from South Carolina coming up here. He started out on the Hill for us, covering some hearings that I couldn't handle because there were just two or three of us on the staff. And I got him interested in broadcasting and he winds up a millionaire station owner. And I got a lot of satisfaction out of the Lyndon Johnson family doing what they did.

And the satisfaction of getting a professional like Bob Kintner in the business when he really didn't want to.

These things just happened. I didn't go out there to educate them; they came with the franchise, I guess.

The Johnson friendship came about because you were neighbors, were you not?

We became neighbors later on. It came about in a peculiar way. I received a call from Lyndon the year he came to Washington as the executive assistant to Congressman Richard Kleberg, who owned the King Ranch in Texas. Johnson said, in effect: "Taishoff, I'm told that if I want to know anything about radio, I should see you. And I want to know about radio." He was in his twenties at the time. And I said: "All right, why don't you come down and have lunch with me? I have a fellow sitting in my office who knows more than I'll ever know. His name is J. Leonard Reinsch." And Johnson said: "No, why don't you fellows come up here? I'll take you to the House dining room."

And sure enough, we went up there, and we went to the House dining room. That was the beginning of a friendship. Thereafter, he checked me on anything that happened with broadcasting. I recall one little incident. After he'd been elected to the House, I suggested to him that Lady Bird, who had inherited \$40,000 or \$50,000 from her father, a Mr. Taylor, buy the little radio station in Austin rather than the little newspaper that Lyndon wanted to buy, because he wanted to get some return on that money and not be entirely dependent on his \$10,000 salary as a member of the House and on contributions.

Johnson said: "You know, my friends in the House who are lawyers get fees. Those that are publishers get revenue. I was just a country school teacher, and they won't pay me any more than a few dollars for a lecture."

So I suggested that he get the radio station, but he said: "Well, that's not making any money either." I said: "But it will." And they bought the little radio station, KTBC. And that is a romance in itself, how that developed, but I won't go into it here.

There came a time when Lyndon decided to run for the Senate. They still owned the radio station, and I ran an editorial saying it would be wonderful to have someone in the Senate who knows what it is to meet a radio station's payroll. And I received an indignant wire from the publisher of the *Dallas Morning News* and the owner of WFAA, who was supporting a chap named Coke Stevenson, who'd been governor. The telegram said: "Since when is it the province of a trade paper to delve into state politics?"

And I also received a telegram from a fellow named Harold Hough of the *Fort Worth Star Telegram* and WBAR, applauding our support of Lyndon Johnson for the Senate, and so there you are. Lyndon was elected, and he did know what it was to meet a radio station payroll.

When Lyndon Johnson became President of the United States, the family was pretty well into the broadcasting business and the cable business. They had ownership of one television station and a radio station. They had 50% of another television station, 50%

of a big cable operation down there, 25% of a couple of other things.

Lyndon and I were talking about the political situation that arose. Sam Rayburn, the Speaker of the House, who had been his campaign manager, had a nephew named Robert T. Bartley, who was a member of the FCC. Everyone thought that Bartley would be named chairman. I told Lyndon: "Look, there's nothing wrong with your naming a Republican chairman of this commission. We've got a fellow named Rosel Hyde, who had been chairman; he's a Republican, but he's not very active in politics. If you name him then they can't point the finger at you." And he said: "That solves my problem," and he named Rosel Hyde chairman.

Lee deForest occurs early in the magazine's history, just as a figure in the manufacturing business, then selling tubes.

Well, he was the inventor of the audion tube, I believe. And, from that he went into the manufacturing business, although he was not a great promoter himself. But he was regarded as a genius of sorts. He regarded radio as his invention, which it was not. He made a very definite contribution as an inventor, and gave radio a better voice. But to say that he was on a level with Marconi would be stretching it, I think. And that's in the audio area alone.

DeForest was used by critics of radio, even in those early days, to inveigh against radio's development by the powers that were. I'm not sure if the quote is precise, but he was quoted as having said, "What have you done to my child?" Actually, he loved publicity, and he got plenty of it. Newspapers in those days were willing to carry practically anything that anybody of any importance had to say against radio. They were afraid of radio.

The more enlightened publishers got into the medium—not because they thought it had a tremendous future, but because they thought it would be competitive. Not all of them; there were some who went to town with it—the *Chicago Tribune* with WGN, the *St. Louis Post Dispatch* with KSD, the *Milwaukee Journal* with WTMJ, the *Kansas City Star* with WDAF. These were all pioneers in the field, and they were very dominant newspapers.

That was in the Midwest. On the West Coast, the automotive dealers were the big operators. There was Don Lee with the Don Lee Network, the Cadillac-Oldsmobile distributor—and not only in Los Angeles, but through another name in the San Francisco Bay area. There was Earl Anthony, the Packard distributor and a substantial stockholder in Packard, who had KFI and KECA in Los Angeles. Those fellows battled as competitors not only in the automotive end but in the radio end as well.

In the number-one market, the *New York Times* did not get in until very, very late—and then in the specialized good music area with WQXR. And that came largely in partnership with John V.L. Hogan, whom we mentioned earlier (page 122). The *New York World*, which was very dominant, did not get into radio. The *New York Sun*, which probably had the best technical page on radio, with E.L. Bragdon as its editor for years, never got into it as far as I'm aware.

Hearst did. Have I related to you the only interview I had with William Randolph Hearst?

No. When did that happen?

It was probably about 1933. I met William Randolph Hearst Sr. at the Washington hotel. He had retained Elliott Roosevelt, the second son of Franklin Delano Roosevelt, as his vice president in charge of radio. And I asked him why he was going into radio—in Oklahoma, I believe—and he said: "People are getting too lazy to read, but they will listen. I have been in the forefront of using pictures in my newspapers for the same reason. Short text, pictures. Or they will listen." That was his philosophy.

If we can get back to the subject of the inventors, what about Zworykin?

Vladimir Zworykin was one of General Sarnoff's imports at RCA by way of Westinghouse. He was a fellow Russian. Zworykin was primarily television; he was the man who invented the iconoscope and the kinescope. He was given his head by Sarnoff;

**What person in their right mind,
would start a magazine
about an infant industry,
in the middle of the Great Depression
when even the mighty New York World
went down the tubes?**

**A genius.
Sol Taishoff.**

Congratulations on your 50th Anniversary. Over the years Broadcasting Magazine has proven to be as essential to us as microphones and television cameras.

Television 9  Radio 720

WGN Continental Broadcasting Company
A Subsidiary of Tribune Company Broadcasting, Inc.

he worked at the Princeton laboratories, which became the David Sarnoff Laboratories.

There were other television systems, but I think that Zworykin's invention transformed the medium from a mechanical to an electronic system, by developing these tubes. Zworykin was a very important factor in the development. Have we talked about Allen B. DuMont?

No. Where did he fit in?

Well, Allen DuMont was an authentic genius. He developed the oscilloscope, which became the heart of the picture tube. DuMont had had infantile paralysis, and to some degree he was self educated. He started the DuMont network, which began with stations in New York, Pittsburgh and Washington. The New York station—WABD—had his initials as call letters. It was later sold to what is now Metromedia, it's WNEW-TV now.

But there were a number of important projects that converged to make the television that you have today. RCA was very anxious to get under way in television because it was in the set manufacturing business. CBS wasn't too anxious to get started because it had such an investment in talent that it had raided from NBC, including the Jack Bennys and the Fred Allens and so forth.

What about Farnsworth?

Philo Farnsworth was an independent operator who developed a TV system of his own early on. He figured in the news, he was competitive, but he never really got off the ground.

Some accounts seem to credit him as being the father of television.

Well, there are so many fathers. There must be a lot of bastard offsprings, believe me. Farnsworth had a lot to do with it. There was E. Caldwell Jenkins who developed a mechanical TV system right outside Washington, in Wheaton, Md. He made his fortune with the Dixie cup, and then blew it in mechanical television early on. That would have been in the early thirties.

You haven't really gone into David Sarnoff at length. Is this as good a time as any to talk about perhaps the biggest giant of them all?

All right. Sarnoff was in his teens when he migrated from Minsk, Russia, to New York. He had to support his mother, who was a widow, and I think there were other children. He sold newspapers. And he also learned international code and became a "brass pounder" at an early age. At the time of the sinking of the Titanic he sat in the window of Wanamaker's department store and copied the list of survivors. President Hoover had ordered all other stations off the air.

When did you first meet Sarnoff?

I met him when he was assistant manager of the American Marconi Co. At that time he worked for a man named W.A. Winterbottom. Sarnoff never forgot him. When RCA was established, Winterbottom became the head of the Wireless Operating Co., their common carrier subsidiary.

My first recollection of a meeting with Sarnoff was with Owen Young, who was the head of General Electric and of the group assembling RCA. I recall that Young was a very impressive fellow—tall and handsome—and he said: "David is the man who is putting this together and David will be the head of it."

What were the components that formed RCA?

General Electric, Westinghouse, AT&T, American Marconi and United Fruit, which had its own communications system. The field was divided into a manufacturing business and a communications business, and RCA was just a wireless company at the start. What we call common carrier today. RCA was set up initially in 1919 at the request of the secretary of the Navy.

When they decided to create RCA as a manufacturing company, it was going to manufacture radio transmitters and radio receivers, but it didn't have the capital or the facilities. So

although those early transmitters and receivers carried the RCA name, they were made by either Westinghouse or General Electric.

The telephone company at that time agreed to get out of the broadcasting business. It had WEAJ in New York and WCAP (Chesapeake and Potomac) in Washington—that's WRC now. In any event, they got out of that business.

And that put RCA in the broadcasting business?

Yes, it put them in the broadcasting business and in 1926 was responsible for the creation of NBC. And then, as stations sprang up over the country, there were needs for additional service in the major markets. So they set up a Blue network as well. The Red and the Blue ostensibly were competitive, but the Red actually was the nationwide network and the Blue network had separate key stations in markets like New York, Chicago, Washington, Philadelphia and so forth but with the same supplementaries.

What kind of person was Sarnoff? What did he bring to the party?

He was an engineer—self taught, largely. A brilliant mind. An innovator and probably the world's foremost salesman of his day.

Really?

Yes, he was a tremendous salesman. He could inspire an audience of any kind. And, surprisingly, he had a great command of the language—ad lib or rehearsed—and he could just take over an audience.

I always had the impression that he was quite a distant figure, very Olympian, and difficult to deal with.

Well, he had a tremendous ego; there's no question about that. I can relate one experience with him. There was an antitrust suit, a criminal antitrust suit, against RCA naming Sarnoff and several other figures in RCA as defendants. Sarnoff was then chairman of the board and Frank Folsom, formerly of Montgomery Ward, was a new president of RCA. I had a date with Folsom, and Sarnoff stuck his head in and said: "Oh, Sol, I didn't know you were there. How are you doing?" And he came in and sat down.

This thing was on his mind, this antitrust suit, and he said: "Isn't it a sad commentary on a man as devoted as I am to this field to be confronted with a criminal prosecution?" And he said: "I think I've made a contribution here—certainly I'm not capable of a thing like this."

But he so impressed me, so swayed me that I went back to the Ambassador hotel, where I was staying, and wrote an editorial. And I said that if this thing is actionable, then it should be a civil suit, not a criminal suit. This man is not culpable; Folsom is not culpable. A week later, the Department of Justice changed it to a civil suit. And Sarnoff called me up and said: "Sol, I'm not putting this in writing, but now you know the power of the press, even the business press." And I've never forgotten that.

Was RCA the kind of company it was, and is, because of Sarnoff?

I would say Sarnoff wielded a great influence. Although he did not pick Merlin Hall Aylesworth to become the president of NBC. Owen Young had a lot to do with it because of the GE connection and the fact that Aylesworth was the lobbyist for the National Electric Light Association. Only Aylesworth surpassed Sarnoff in eloquence. He was a great president. He was the fellow who put together the deal with the Rockefellers that resulted in Radio City. If you look at the Nov. 1, 1931, issue of BROADCASTING you will see a mockup of Radio City. And when that thing was going up, he called me up one day—I went to New York quite frequently then—and he called me up and said, "I want to take you to see Radio City," and he took me out across those damn beams and I was scared to death.

What happened to Aylesworth?

Unfortunately, he moved from president to chairman to consultant, although he was still on the payroll. He lived at the St. Regis,

*Dear Sol:
We've been waiting
50 years to run this ad
for you. Good things are
worth waiting for.
Happy Anniversary!*

COX
Broadcasting

1601 West Peachtree, N.E., Atlanta, Georgia 30309

and my dates with him after that were at about 11 o'clock in the morning at the St. Regis bar. He was articulate, still good, but he began hitting it pretty hard, and so he burned out, I guess.

What about Niles Trammell? I noticed his name in an early issue when he was Chicago vice president for NBC, and the remark was made that one-third of all the network programs came out of Chicago in those days. Was that because of the soap operas?

Sure. Most of your agencies, particularly your spot agencies, were in Chicago—the Middle West. The soap operas came out of Chicago because it was about equidistant coast to coast, and—taking into account the time difference—it was regarded as the most economical way of setting up networks. And a lot of your advertising, your breadbasket stuff, your cereals—came out of that area. And mostly the soaps were there.

A good many of them were agency-owned in those days, were they not?

That's right. Frank Hummert of Blackett-Sample-Hummert, later Dancer-Fitzgerald-Sample, was the great soap writer; he'd write scripts all day long. And that was the farm belt—WLS was owned by the *Prairie Farmer*, originally by Sears, Roebuck and the *Prairie Farmer*, and WENR, which had half of WLS's time, was owned by the utility there. And WBBM was owned by the Atlas brothers, until CBS bought it.

So Chicago was really kind of a sub-capital of big-time radio in those days.

No question about it. It was the originating point, the soap operas were on all day long, and the West Coast was regarded only as a talent resource. Nothing originated there in the early days. And business on the West Coast was centered in San Francisco, not Los Angeles, which was regarded as tinsel and papier mache. And you went to New York for the hard business.

Niles Trammell was another figure who came in through the RCA Communications end. He had been in the military, and was hired as an RCA Communications salesman for the West Coast, and was brought into Chicago to head their WMAQ operation—which originally, incidentally, had been owned by the *Chicago Daily News*, while WGN was owned by the *Tribune*. WMAQ was a pioneer; I think the book will show it was probably set up in about 1922. The president of WMAQ Inc. was William S. Hedges, who also was the radio editor of the *Chicago Daily News*—which gave a banner headline to the Robert Mack dispatch every day.

Did he suffer from any conflict of interest in those dual roles?

Not in those days.

Did the *Chicago Daily News* carry any radio criticism at that time?

Oh, I don't think there was much criticism at all then. Very little. They couldn't fill the radio page. In those days there were probably a dozen basic stories in radio, and you kept rewriting them, putting a new lead on them. Hedges went with WMAQ when it was sold to NBC and, except for a short tenure at Crosley in Cincinnati, spent the rest of his career at NBC. He became station relations vice president for a while, and later retired.

Who were some of the other really dominant figures? Chicago used to have a reputation for being a pretty free-swinging town in those heydays of radio—I'm thinking of the Atlas brothers and so on.

Yes, Chicago was a fun town for broadcasters. They all had their favorite places. But you've got to keep in mind that these were pioneers, and they were younger people.

Take for example Harold Hough, who was circulation manager of the *Fort Worth Star Telegram* but president of their broadcast operations. And he operated in a business office out front at the newspaper, where he had a desk and a secretary. He was the head of WBAP, a clear channel station that was half time with WFAA in Dallas, with which they shared a regional station, too, for years.

Hough was a very influential fellow in the business, and a very

wise old fellow. He was in the forefront of every activity, including the clear channel field. And he had a good friend named Glenn Snyder, who was vice president and general manager of WLS in Chicago, then owned by the *Prairie Farmer*. They had common interests—farm markets and that sort of thing.

WBAP never claimed to be a Dallas station; it was the frontier end of Texas, it was the longhorn country station, while WFAA was a metropolitan station. "The Old Hired Hand," as Hough called himself, would get on the air once in a while and ring a cow bell and philosophize. At one NAB convention, he and Glenn Snyder got a couple of overstuffed chairs placed out in front of the ballroom of the Conrad Hilton hotel in Chicago—then the Stevens hotel—and they had a little repartee that went something like this:

"Say, Glenn, there doesn't seem to be as much hell raising at these conventions as there used to be." And Glenn would say: "Harold, there's just as much—but other people are doing it!" And they'd just carry on that way.

Hough was originally from Oklahoma. His closest personal friend was Will Rogers, and he talked like Rogers. They owned a station together—KTOK—that they started in Oklahoma, even though Hough was in Texas.

Hough also had a wooden leg—no one knew how he lost his leg; he said it was run over by a train, but that wasn't it. And he had a penchant for taking a few drinks with the boys, playing cards. And he never took off his hat—big western hat—anywhere he went. Harold used to get a few drinks and sit in his hotel room with the boys, take off the wooden leg, get into his briefcase and take out an oil can and oil it. A lot of character, and a lot of fun.

What about Frank Stanton at CBS?

Well, to me, he made a major contribution to the evolution of broadcasting as we know it and has not been given enough credit. He was a man of ability. He had a touch of genius and exquisite taste. A perfectionist. And he had the faculty of picking good people. He achieved almost everything he wanted except the number-one spot at CBS; he never became the chief executive officer. Arthur Taylor was the first to whom Paley yielded the chief executive title. Then John Backe had the chief executive title, and now Thomas Wyman does. But it's just a title—Bill Paley is still the chief executive.

And why not? I mean, he owns the operation, and he hasn't fared badly. Any man who has the ability to call the right shots certainly has my applause. He's done it.

Paley is a little bit older than you, isn't he? He just turned 80. But he's perpetual youth.

Yes, and I was 77 on Oct. 8. About three years apart. Now it's not much, but in those days it was considerable.

Going back to Sarnoff. In 1953, in Chicago, [the late] Frank Beatty [a BROADCASTING writer and editor] and I went down to the Merchandise Mart, I think it was, to listen to Sarnoff address the Radio Manufacturers Association—the NAB also was meeting in Chicago at the same time. We were sitting at the press table when Sarnoff said: "You can write off radio. Television is the thing; write radio off."

I looked at Frank, and we did the old business of taking down every other sentence, so we had it damn near verbatim, and we wrote the story. And, boy, there were denials all over. But they couldn't deny it; there was a room full of people.

Over at the NAB it was a different story, because radio was still running the NAB. And there was hell to pay. But Sarnoff was impetuous and he was going with the ball. He was a promoter: "It's television, the hell with everything else." But he wasn't very happy about our reporting it.

Didn't he make a famous speech to affiliates that said essentially the same thing—get into television?

Oh, they were all making speeches to get into television, but not to write off radio. Radio had to pay the freight for television. But Sarnoff's enthusiasm was unbounded. In the early days of TV,

Congratulations Sol

PALMER COMMUNICATIONS INCORPORATED

Palmer Cablevision, Naples, Florida*

*Radio Naples, Naples, Florida
Coachella Valley Television, Palm Desert, California
KDLH-TV Broadcasting Company, Duluth, Minnesota*

the ongoing wisecrack was that "you don't have to be crazy to go into television, but it helps." This was premised on the high start-up costs and low rates because of the paucity of sets and head counts. I'm reminded of this by a remark that crops up in our "2001" special report this week—something to the effect that a lot of money will be lost trying to find out which of the new technologies will work and which won't. It's ever been thus; that's the unfree part of the American system of free enterprise.

Let's get back to those early days in Washington. There are two figures that keep cropping up in the early thirties, Harry Butcher and Frank Russell, who were the CBS and NBC lobbyists, respectively.

Yes. It all started with a fellow named Milton Eisenhower. He was the younger brother of Ike, and he worked for the Department of Agriculture as secretary to William Jardine, the secretary of agriculture.

Mixing business with pleasure:

Early on. Changing of the guard at the National Association of Broadcasters on Aug. 8, 1938. L to r: Ed Kirby (wsm Nashville), who became public relations head of the trade association; Philip Loucks, Washington attorney and managing director of NAB; Gene O'Fallon, owner of KFEL Denver (whose call letters stood for "Kan't Find Enough Liquor"); Neville Miller, the NAB's first paid president; Herb Hollister, midwest broadcaster, and Sol Taishoff.

Studio tour. L to r: Victor A. Sholis, director of WHAS Louisville, escorted ST and Frank Silvermail, chief timebuyer for BBDO, and F. Ernest Lackey, president of the Kentucky Broadcasters Association, during the 1949 KBA convention in Louisville.

Family affair. Betty and Sol Taishoff were among the guests at this wedding party for the daughter of pioneer station representative Edward Petry (far right) in 1958. L to r: Herb Akerberg, chief engineer, CBS; ST; unidentified woman; Betty Taishoff; Lee J. Fitzpatrick of wJR Detroit. Others are unidentified.

Twosome. Betty and Sol Taishoff at Charles Farrell's Racquet Club in Palm Springs in 1961.

Shakespearean soiree. This motley crew of thwarted thespians performed at a Television Pioneers bacchanal written, staged and directed by Robert K. Richards, former executive director of BROADCASTING. L to r: (seated) Clair R. McCollough, Steinman Stations, and Glenn Marshall, WJXT(TV) Jacksonville; (standing) Ernest Lee Jahncke, ex-NBC; Carl Haverlin, first president of the Broadcast Music Inc.; Ray Hamilton, station broker; "Dub" Rogers, KQUB-TV Lubbock, Tex., and TV Pioneer creator; John Fetzer of the Fetzer Stations, and cigar-smoking Sol Taishoff.

Birds of a feather. Radio Day at the Advertising Club of Washington, May 12, 1959. L to r: Sol Taishoff; Rosel H. Hyde, then acting chairman of the FCC; Robert H. Hinckley, vice president, ABC, and T.A.M. Craven, former chief engineer and twice a member of the FCC.

Milton started out as an educator of sorts, but he was a graduate of, I believe, the University of Iowa or Kansas or whatever, and he got to know Scoop Russell, who went to the same school. Russell became an assistant to Jardine—a lobbyist, I guess—and working with Milton. So when NBC needed a man here, Milton suggested Russell.

Then, when CBS needed a man here, Russell recommended Butcher, who had gone to school with him in Ames, Iowa.

Butcher's wife went to Ames, too. So Butcher—who was then chief editor of the *Fertilizer Review*—became the CBS Washington representative. At first he was manager of WJTV, and from that he became the CBS vice president. And Butcher's wife became very friendly with Mamie Eisenhower; they lived at the Wardman Park hotel together. And they played bridge together with then Colonel Eisenhower.

Butcher became very close to Ike, and as Ike moved up, Ike

some snapshots taken along the way

The boys from Minsk. A 1956 photograph of ST (r) with David Sarnoff, chairman of RCA. Their shared birthplace—Minsk, in Belo (White) Russia—was pure coincidence.

Big leaguers. L to r: John Fetzer of the Fetzer Stations and owner of the Detroit Tigers; Frank Stanton, CBS vice chairman; Sol Taishoff; J. Leonard Reinsch, Cox Stations, and Herbert Klein, director of communications at the White House during President Nixon's tenure.

Honorees. In May 1981, Lowell Thomas (l), pioneer newscaster and one of the principals in Capital Cities Communications, was a recipient of the Peabody Award, as was BROADCASTING editor Sol Taishoff. Three months later, the venerated Thomas succumbed to a heart attack.

Spirit of '76. It was an NBC radio and TV affiliates convention, but the guests were ecumenical. L to r: Bob Hope; William S. Paley, chairman of CBS Inc.; Leonard Goldenson, chairman of ABC Inc.; Herbert S. Schlosser, then president of NBC (and now head of RCA's video-recording enterprises arm), and Sol Taishoff.

Heading for the barn. This member-guest tournament at Washington's Woodmont Country Club brought out (l to r) William P. Sims, Washington attorney; Charles F. Adams, executive vice president and director of the Washington office of the American Association of Advertising Agencies; Sol Taishoff, and Samuel Thurm, senior vice president of the Association of National Advertisers, Washington.

Present tense. This May 18, 1981, reception at the Capitol Hill Club brought together the immediate past and incumbent chairmen of FCC as guests of Broad Street Communications. L to r: Richard L. Geismar, chairman of Broad Street; ST; Fred E. Walker, Broad Street president; former FCC Chairman Robert E. Lee, and the incumbent chairman, Mark S. Fowler.

At ease. NAB President Vincent T. Wasilewski (l) and Sol Taishoff at the Kemper Open in Washington in June 1981.

probably suggested to him that he get in the service some way, and he went in the Navy; he was a lieutenant commander. When the war came along and Ike wanted a companion over there, since the ladies were companions here, Butch became a four-striper, a captain and an aide to Eisenhower.

Butcher never returned to CBS after the war, did he?

No. He went out to Santa Barbara and started a radio station and later a television station. He also got into cable and made a lot of money. Butch has lived a charmed life. The last I heard he was playing golf almost every day with the retired president of AP, Wes Gallagher, who lives there.

Did Russell stay with NBC until he retired?

Not exactly. Things got hot at NBC because Russell kept no records. When they had new treasurers of NBC come down to look at his expense accounts, he had none, and he'd say: "See General Sarnoff." Well, things got to the point where it was decided that Russell should no longer remain an officer with NBC. So he retired, but was hired back by RCA as a consultant, and not as an officer of the company. One provision was that he would have to have other clients—he couldn't just have RCA. So he sent out the alarm to me and to others—"I'll work for nothing; get me some clients." Well, he got to dealing with Bill Daniels, and got in on the ground floor of cable. He took no fees but took an interest in cable systems. He did very well.

It was a small fraternity then. But Russell was a very capable lobbyist. Sarnoff did some lobbying in his own right, and the report was that he'd hire anybody as a consultant at 25 G's if he felt he would do him some good. One of them was Oswald F. Schuette, who represented what he called the Radio Protective Association, which happened to be office space and a mimeograph in the National Press Building. And he would put out these releases inveighing against the RCA monopoly and the AT&T monopoly. Finally he was hired by RCA.

How did the "VIR-pers" trip come about?

That didn't take place until 1945, but its development began long before that. In 1941 or thereabouts, one Ed Kirby, director of public relations for the National Association of Broadcasters, had a reserve status. He was called into active duty at the Pentagon, in radio, as a major or possibly a lieutenant colonel. He was a graduate of Virginia Military Institute, the West Point of the South. Kirby—a very creative fellow who always had more balls in the air than he could ever catch—organized and headed a radio branch at the Pentagon.

Did he have anything to do with the 'Army Hour'?

Yes. I think he was instrumental in getting the *Army Hour* off the ground. He produced the *Big Picture* later on. He was very, very active in getting broadcasting cooperation down the line. Toward the end of the war there developed a need for broadcasters to take over radio stations as we—the allies—invaded the enemy countries. Radio, rather than newspapers, could get to the people immediately. It was the first target. But they needed people who knew what went on at radio stations, and they recruited.

A new reserve unit was created, to be called G-5. A Colonel Looker, probably at Kirby's suggestion, called me in and asked whether I would be available for possible service in recruitment of broadcasters for some engineering training, some on-the-air training—people who would know what to do. And I said, "Sure, I'd love to."

We cooked up the idea of getting a mission of broadcasters over there. We hand-picked them. We went in uniform; it was 1945 and we had the assimilated rank of lieutenant colonels. This group of a dozen and a half went over after VE Day. We were in Piccadilly Circus on VJ Day.

We were in Unter den Linden at the Reichs Chancellery a couple of days later. We went all through Goebbels's files. This was the most exciting experience I'd ever had. We were at Berchtesgaden, which had been bombed out. This was the dam-

nedest thing that ever happened. We had R&R at Bad Homburg. We hit damn near everywhere—even Cap d'Antibes was part of the phasing out.

Did you do any work?

A lot of work. We got to Radio Berlin and found the Russians in control. It was in the British sector, but the Russians had moved in—there was a little Russian in charge of the thing who was not authorized to be there. In our group there was a signal corps brigadier general whose name was Sam Ford; he was an RCA engineer. We go into this thing, look around, and I said, "Sam, what the hell is this? I've never seen anything like this before." I had found a machine that looked like a teleprinter, but there was a thin tape coming out of it. And Sam said, "How in the hell do you think I know? This is the first time I've been here, and I got in under your coattails. They wouldn't let us in here."

Well, we look at the strange stuff, and John Fetzer, who had a little engineering background, said, "Damn, they're playing music and voice with this stuff. I don't know what it is." We had come across the first oxydized tape and player. It was called the magnetophone.

We took all this tape and stuffed it in our pockets, and we carried it back with us. It went into the hands of the alien property custodian, and it had to be released in the public domain. And that's the way tape got over here. 3-M was the first company to grab the ball—they just grabbed it and made a jillion dollars.

I recall going into what had been a concentration camp, and boy, it really hit me. Don Kearney was one of our conducting officers. He later became a broadcast executive with Corinthian and others, and he died just a few months ago (BROADCASTING, June 29).

We all took souvenirs; I have stuff at home now—pieces of the fireplace from Berchtesgaden; it was the most amazing place you ever saw, up in the clouds, in the Alps. John Fetzer came up with a telephone that had been torn off the wall, and he later made lectures all over, saying: "This was Hitler's telephone. With my own hands, I pulled it out of the rubble."

Well, the war was over now, and people were coming back home and there was a sudden demand to build radio. There was a big post-war rush for radio station applications, was there not?

There certainly was. That was when the daytimers were invented, and they were granting them almost at will. They hove onto the scene in great numbers; I would imagine the station population doubled in the course of a few years, and there were daytimers and limited timers—stations that went off the air at sunset; wherever they were, on dominant channels. Some of them made money, some of them lost money.

Charles Denny was chairman of the FCC then—from 1945 to 1947. He was succeeded by Wayne Coy, from 1947 to 1952.

Denny went to work for RCA. That's a story that can be told.

I happened to be having lunch or breakfast with General Sarnoff at the Shoreham hotel in Washington, and he was complaining about how difficult it was to get good executives who would make decisions. At that time a fellow named Joseph McConnell was president of NBC, and the general said that this fellow had a reputation of being a great salesman, a great executive, and he reported in glowing terms all the new business he sold, but failed to report the cancellations. And he had just arranged for this man to depart. I mentioned several friends of mine at NBC that I thought would make good presidents, and he said: "You're talking about administrators. I don't want administrators. I want dynamic leaders and decision makers."

I said: "Well, there's one guy that I don't get along with particularly, but he will make decisions, and that's Charlie Denny." And Sarnoff said: "I could buy that young man." And I said: "Well, you can't buy him now because he's chairman of the international telecommunications conference that's going on in Atlantic City—he's chairman of the conference and of the U.S. delegation."

It was after that conference was over that Denny resigned from

the FCC and joined RCA to become counsel for RCA or David Sarnoff Laboratories in Princeton. There was a training period and then he moved to NBC and became, I believe, executive vice president for station relations, or something of that kind. But it didn't work out too well. He transferred later on to RCA and became their new products head.

An interesting sidelight to that story is that when Denny went to RCA he took with him a fellow named David C. Adams, who was in the Common Carrier Branch of the FCC, and he knew nothing about broadcasting. And Adams became a star at NBC and Denny played out his career as the Washington vice president for RCA.

They've had an awful lot of trouble with NBC executives, up through today.

It's because of the RCA dominance, and the fact that NBC was one of the original breadwinners of RCA, and the head of RCA was also, at least nominally, the head of NBC. That was his prize operation and the glamour operation—the one they prided themselves on.

I wonder if RCA has ever gotten over David Sarnoff?

There's never been anyone who starred as Sarnoff did.

Well, after the post-World War II buildup of the radio system, then came television.

Actually, television began in the late 30's—there were perhaps 20 experimental stations authorized before the war. RCA immediately advertised sets, and the FCC cracked down on them and said, "You're exploiting experimental operations." And they put it back in the deep freeze. That stayed on through World War II, of course, and then they began authorizing permanent stations after the war.

By 1948 there were 108 stations on the air, and it had become apparent that the VHF spectrum wouldn't accommodate the demand. That's when the big freeze was put on, until 1952. Then the great gold rush was on.

But radio was still the dominant broadcast medium. We had very serious problems as a magazine. When television was emerging, we decided we had to get on the television bandwagon even though the radio guys hated hell out of television, which was poaching on their territory and getting its hands in their pockets—not unlike what has transpired in the past few years with cable.

We had changed our name from BROADCASTING and BROADCAST ADVERTISING to BROADCASTING • TELECASTING. The "TELECASTING" was very small. Gradually, as the medium grew, we increased the size of "TELECASTING." It got to the point where some of my very good friends—a fellow by the name of Ed Craney in Montana and a fellow in Tulsa whose name was Bill Way—sent out a letter to radio broadcasters saying that BROADCASTING had sold out to television, the enemy. They canceled their subscriptions and their advertising. But we kept increasing the size of "TELECASTING" until it equalled the size of "BROADCASTING" on the masthead.

What became of the Craney crusade?

It fell by the wayside. In the case of Craney, I told him on one occasion that he was cutting his own throat, that he would never be able to sell the three or four little radio stations he had in Montana for enough to retire on, but if he went into television, he could probably come out of it, and that's exactly what happened. In his case, Bill Way just evaporated. His station, KVOO, also became a television licensee, but not with Bill Way there.

The NAB was having problems, too. It changed its name to NARTB—the National Association of Radio and Television Broadcasters—because of the protest of television people that they weren't being represented. But when television came to full bloom, we just dropped the "TELECASTING" because it was all broadcasting. And NARTB reverted to NAB.

What do you think of the future? What is your vision of the way

things are going to go with all of the Fifth Estate media we cover?

Well, there are very interesting things developing in the field. Television seems to be the culprit—everybody points his finger at television for wasting our time, and for mediocrity. They don't talk about the good things.

My notion is that with all these developments in the field that generally fall under the label of technology, we are actually building a computerized information-entertainment center in the home: The television set in the future is not going to look anything like it does now. The tube will always give you the information, but it's going to come from many more sources. You're going to dial them in, just as we dial them on the telephone now.

And there will be great competition, and I would assume that when you have such competition, you're not worried about anti-trust. But then the big ones will start eating the little ones. And after that some guy will come along with a new idea and knock the spots off some existing thing. And all these things will find a level.

And the public, whether we like it or not, is going to pay for these services one way or another. The one true thing that was said to me by a fellow early on in cable, when I made the argument, as we all did, that people are going to be paying for something they now get for free. And he said: "So what's wrong with that? Do you have a subscription price for your magazine? Do you sell advertising? You get both, don't you? You have a box office. Everything has a box office except television. And why shouldn't it have a box office?" And that's the philosophy of the thing.

Are you ready to buy that philosophy now?

Not all the way. I can't convince myself that the box office is the only way of getting it. If advertisers can get their return from sponsorship of the right sort of fare, why not? Why not give the public something? I don't see making the public pay for baseball games; yet that's what it's going to come to. That's what Walter O'Malley had in mind when he refused to sell baseball rights to television way back, when he moved to L.A. He told me so when I was with him. He said: "Why do that? We're going to get real money for that."

What is the best of all worlds? The public pays for damn near everything it gets, and it pays more than it ever paid before. And the people are earning more than they ever got before.

What's been your specialty in reporting, and the magazine's specialty?

I've always been in quest of that little tidbit, that little scoop, that little something that nobody else has. As for the magazine itself: The brick and mortar of this book are coverage of the events that happen, better than anyone else does it, and doing it honestly and without coloration. I think if you do an honest and sincere job of reporting, you will acquire a status that will be appreciated.

What do I do best? I don't know. I don't do anything as well as I used to. But I like people. I like to ferret out stuff. And I think that could be done more effectively if I got around a little more instead of sitting on my duff here. Maybe in this new life, I'll do it.

Could you give us your list of the five most memorable characters in and around this business? Or whatever number you choose to take. The people who had the greatest influence on the broadcast media?

You would have to begin with Sarnoff and Paley, and I don't see how you could leave Stanton out of it.

All three were associated with network operations. Does that say that the networks ran the business and/or were the primary influence on the business, up until now?

I think that's right. And I think I'd rank them one, two, three. After that it gets tough.

Who is number four?

Well, I'll give you a number four. If you're looking at innovators

A Salute to Leadership

Through its 50-week series, "50 Years of Broadcasting," Broadcasting Magazine has contributed valuable perspective to an industry often preoccupied with rushing into its own uncertain future. That is the leadership we have learned to count on from a proud magazine, which has served as both a balance wheel and an inspiration since its founding in 1931.

Often reassuring, sometimes gently chiding, it has pioneered in responsible reporting as well as thoughtful analysis and interpretation.

The ability and willingness of Broadcasting to serve the industry well has made the magazine an institution, its founder a virtual legend.

Park Broadcasting salutes Sol Taishoff and Broadcasting Magazine for having reached the halfway point in its first century. May the next fifty years be as rewarding as the first!

PARK PIONEERS

Since December 15, 1977, Park Broadcasting has been the only group owning the maximum twenty-one stations allowable by law. We are proud to count among those stations a good many pioneers. Each of Park's five VHF television stations—all located in the growing South—was first on the air in its area. All have built solid track records of leadership for decades. Topping the list of Park TV pioneers is WTVR-TV Richmond, VA, the first television station to go on the air south of Washington. For almost 34 years it has pioneered in leadership and service.

WNAX Radio in Yankton, South Dakota, was on the air for almost 10 years before Broad-

casting Magazine's founding—back in the days when a young performer on the station, Lawrence Welk, had not yet become a household name. Other Park radio stations were also first in their areas.

First in their markets were: WTVR-AM (then WMBG), Richmond, VA, 1926; WNCT-AM (then WGTC), Greenville, NC, 1940; WHEN-AM (then WAGE), Syracuse, NY, and WDEF-AM Chattanooga, TN, both in 1941.

These pioneers had to be more than first on the scene. Pioneering means leading from day-one. That's the objective for each and every Park station, just as it has been the goal at Broadcasting Magazine the past 50 years.

or impact. I must go for Franklin D. Roosevelt. His "Fireside Chats" did more to alert the nation to what radio really was than anything that happened in the early days of this medium.

For number five, I'm going to get to a guy who falls in the network syndrome again. Pat Weaver. He was the most creative guy in those early days. I'm not going to the inventors, the Zworykins and the Farnsworths and the DuMonts.

And no overview of broadcasting development would be complete without the evolution of American Broadcasting Companies, under the inspired leadership of Leonard Goldenson. As president of United Paramount Theaters, he arranged to buy a bobtailed ABC Network from Edward J. Noble, the Lifesaver (candy with a hole in it) king for \$25,500,000—if memory serves—in 1951, in what was characterized as a "merger."

Noble, who reportedly owned about 900 of the Thousand Islands in the St. Lawrence, as well as St. Catherine's in the Sea Island area of Georgia, was bailing out of the network business. He had acquired the Blue Network Co., which became ABC, from RCA for about \$8 million cash in 1943 when RCA was under court mandate to dispose of one of its two networks.

What Noble and company acquired was a barebones operation having four clear-channel AM radio stations and construction permits for five major-market TV stations. A sagacious trader, Noble had sold WMCA(AM) New York to accommodate WJZ (now WABC(AM) New York), with the result that his acquisition of the Blue Network netted out at about \$6.4 million. In 1948, Noble called me with the query, "What's my network worth?"

I replied, "I never regarded myself as an appraiser but I would put a value of \$5 million on each of the five television station construction permits without regard to the lack of studios and other brick and mortar."

Later we learned that negotiations had been in progress for the sale of ABC to 20th Century-Fox but it wasn't until 1951 that Noble called me to advise me that he had made a deal with United

Paramount (Mr. Goldenson as the negotiator) to "merge," involving a \$25,500,000 figure. I asked him how come an additional \$500,000. He replied "That was the interest I lost when Spyros Skouras, head of 20th Century-Fox, disagreed with your evaluation and made an offer of \$23,500,000."

What Leonard Goldenson has done with ABC and its associated properties is now legend. He, like Bill Paley, had the ability to attract bright young people. But he worked alongside them, determined to put ABC-TV on top and to develop ABC Radio into a multiplicity of specialized networks. He succeeded ratings-wise and dollar-wise and even at this date, is still riding the crest.

Are there any station operators or station group owners who loom above all the rest?

One of the great modern success stories is Metromedia and its chairman, John Kluge, a former food broker, who parlayed a little AM station in the Washington area (WGAY Silver Spring, Md.) into the largest major-market group of independent television and radio stations as well as in the forefront of production and outdoor advertising and syndication.

I've already mentioned Storer and Cox and Capcities—on anyone's list of the foremost group broadcasters. And you certainly can't ignore Don McGannon of Westinghouse, although it's only fair to keep in mind that McGannon inherited something from a man named Walter Evans. Evans started out as an engineer working for Westinghouse. He was the chief engineer of KYW in Chicago, and was made the vice president in charge of radio for Westinghouse in the 30's. He bought the Fort Wayne stations—I was there celebrating with him during Prohibition, because we drank Old Rarity, the first time I'd ever seen it, in the Keenan Hotel. Wowo Fort Wayne. And they had WBZ in Boston, WBZA synchronized in Springfield, Mass. KDKA in Pittsburgh. Evans was head of the whole schmear. During the war, he was made head of their air arm, located in Baltimore, as well as the

50 YEARS OF IMPORTANT ISSUES.

*Happy Birthday,
Broadcasting.*

broadcast operation—again, a quiet engineering type.

He went to his board of directors and asked for five television stations—the maximum, five V's, and the board wouldn't give it to him. They said it was too experimental, and they gave him only one. They took Boston—WBZ-TV. They had to buy everything else they got in television.

But McGannon did make a great contribution. He was gutsy; he had courage. He had what amounted to a training school, too, and he developed a lot of other executives. There's almost a Don McGannon School of Broadcasting.

Right up there among the influentials you would have to put a guy who just lost his job—Fred Silverman. I think he took over in terms of network influence after Stanton retired. One of our editors used to say that Silverman was going to ruin the television networks of this country one at a time—he ruined CBS and then went over and ruined ABC and after he got through with NBC there was almost nothing left. But Fred Silverman ran television in this country for the last 15 years; he was THE most influential man in television. Almost everything on the air, in terms of program types and values, he put there.

Now, when it comes to the new generation of television, you have to rank Jerry Levin of HBO. There are similarities between his record and that of some of the early pioneers of the medium—there was no road map for them to follow. He started something new, with the satellite interconnection, that is changing all of our lives.

But if you're looking for heroes, there's no one man. Sarnoff happened to be the innovator, the American Marconi, whom Owen Young spotted as a comer. And Owen Young gave him a chance and Sarnoff delivered.

From time to time, I have been asked to evaluate members of the Federal Radio Commission and the FCC over the years. I have known every commissioner since the formation of the FRC in 1927 and its successor, the FCC, in 1934. The total is 64.

The FCC isn't and never was a popularity contest. Problems did not diminish, and competition for facilities burgeoned in every area. I would be disposed to rate Wayne Coy (1947-1952) as perhaps the most effective chairman. Rosel Hyde, a career success story, who began as a junior lawyer with the agency in 1927, served two tours as chairman and was admired without regard to political fealty as a conscientious and fair-minded head, immensely popular with the staff. He served as commissioner and twice as chairman from 1946 to 1969. Hyde, more than any other individual, was the savior of TV allocations. After the lifting of the deep freeze in 1952, he expedited authorization through "paper hearings" wherever possible, avoiding many tedious hearing encounters that might have run for months.

Frieda Hennock, a New York attorney (1948-1955), was the FCC's first distaff commissioner and used all her wiles and charm in getting results. More than anyone else, she was responsible for noncommercial, educational broadcast allocations—actually the fairy godmother of ETV.

The Kennedy administration brought in Newton N. Minow, who at 35 was one of the youngest chairmen ever. His maiden speech became the theme for the do-gooders everywhere—that, of course, was the catch-phrase "vast wasteland" as applied to TV.

Minow was—and still is—an activist. His law firm in Chicago numbers among its special clients such entities as CBS and AT&T—the latter he's representing in its quest for equal competitive footing in the volatile new world of telecommunications. AT&T alone, it should be remembered, has the nation "wired."

Dean Burch, the Arizona Republican (1969-1974), was regarded as efficient, even-tempered and judicial. He got things done in lawyer-like fashion. And his successor, Richard E. Wiley, was innovative, indefatigable, ubiquitous and always on the move, making speeches here, meetings there, with no regard for the clock or vacations.

And now, after some 54 years of communications regulation—

I'm counting back to the Federal Radio Commission in 1927—we've got Mark Fowler. He came on board because the Reagan administration was trying to restore order out of the chaos precipitated in the three-year reign of Charles Ferris. Fowler's "marketplace" approach, with minimal government snooping, epitomizes the Reagan mandate. And you have to remember that the President is himself familiar with broadcasting as a former news and sports commentator as well as an actor.

Fowler was never what you could call an establishment lawyer, although he too has at least some broadcaster credentials—he used to be a disk jockey. And, of course, he has endeared himself to the broadcast media by espousing repeal of Section 315 and its fairness doctrine. Now, I don't think he's likely to see fulfillment in this session of Congress, but it won't be for lack of trying. But Fowler does have a working majority of the FCC in place on critical issues. His "marketplace" approach and jettisoning of ascertainment and other hinder-and-delay devices seem possible, although some of the hard-liners in the Democrat-controlled House may block action. One thing is certain: The Ferris era of reckless disregard and punishment of the "ins" is over.

You often talk about the "American Plan of Broadcasting." What do you mean by that?

Well, at the time we started, there were two world systems. The so-called British plan, which was subsidized—the BBC—which had spread through Europe as it caught on. We were fighting for the American plan of free enterprise against the British plan.

There were a number of advocates of the other system, and they all stemmed from the so-called "Hoover Conferences" in the 1920's when Herbert Clark Hoover was secretary of commerce. These conferences were to formulate rules for the development of radio broadcasting. And Hoover said at these conferences: "Perish the thought that these services will ever be underwritten by the hawking of advertised products, or advertising of products."

But the Hoover conferences didn't get to that determination; they got to allocations, and the orderly allocation of facilities among various services—common carriers, ships, etc., and broadcast. Later, Hoover was to change his mind. And as president of the Broadcast Pioneers, I presented him an oak leaf cluster to an award that the Pioneers had given him for having been secretary of commerce at the time. In our first issue, we carried a speech—made by remote control to the NAB convention—by then President Hoover, in which he recognized broadcasting had made better progress here than under the British system—he ate his words on that.

The answer, of course, is that more and more of the world's broadcasting is now commercial to some degree. They may lump their commercials together, as in Britain, but you have a commercial system alongside the government system. And in television the costs are so great that they've almost had to go commercial. So the thing is almost academic now. Only in the very small countries where they couldn't sustain a private system do they have completely subsidized services. Except in your dictatorships, and even the Soviets have advertising on their television. They may be selling state commodities or state goods, but there are commercials.

So the American plan versus the British plan—or the European plan—was commercial versus noncommercial. And we contended that the British plan amounted to state control.

What do you think has been the result of the American plan versus the other?

Well, I think you've gotten a better product all down the line.

Does that explain the magazine's basic opposition to public broadcasting?

Yes, because we're for free enterprise. That's the American plan, a free competitive enterprise. Let him stand or fall on what he does. You now hear it as "marketplace," but they're talking about the same thing.

Do you think we'd be better off without public broadcasting?

That's a tough one. I think that public broadcasting should not be sustained by the government for a minority of the audience, using taxpayers' money to fill the needs of a very definite upper-middle-class minority of our people. Why? Let them contribute to the programs they want. Why should government funds be appropriated for the benefit of a minority of the people?

Would it have been better for public broadcasting to have been started as a pay television service?

Yes. Except that the techniques of collection weren't there at the start.

Basically, our argument against public television has been that it was using spectrum to supply a type of service that might possibly be used politically to the disadvantage of your populace or your electorate. That hasn't happened, although you have a sporadic complaint here or there.

Quite often I've defended our position against people who disagreed with it on the basis that, down deep in your heart, you fear totalitarianism, and that it comes out of your origins. That you don't want the government to have anything to do with the communication system.

That's essentially correct. I know that FDR was revered by many, many people as a great President, for a couple of terms. He did some pretty good things. But I know that he once called in his secretary of the interior, the old curmudgeon, Harold Ickes, and said: "You know, I get reaction when I make a fireside chat, but I'm beholden to the commercial networks to get the time. Why shouldn't there be a government network now? Look into the matter of putting together a network—perhaps for crop reports, weather reports and so forth for the farmers, through the Department of Agriculture. It would only take two or three clear channels to cover the country?"

And Ickes did indeed make the study, and reported back that the commercial networks were too well entrenched, and that you could not do it with two or three clear channel stations, that you'd have to have a dozen or more, and you'd upset the balance. You just couldn't do it.

Well, what FDR had in mind was—without asking or being beholden to private interests—he could, any time he wanted, address the nation with any message that he had. Now that, to me, would have resulted in a dictatorship—you damn near had it by virtue of not two but first three and then four terms. The potential was always there. So, your answer is perfectly valid.

If you had it to do all over again, would you do it the same way?

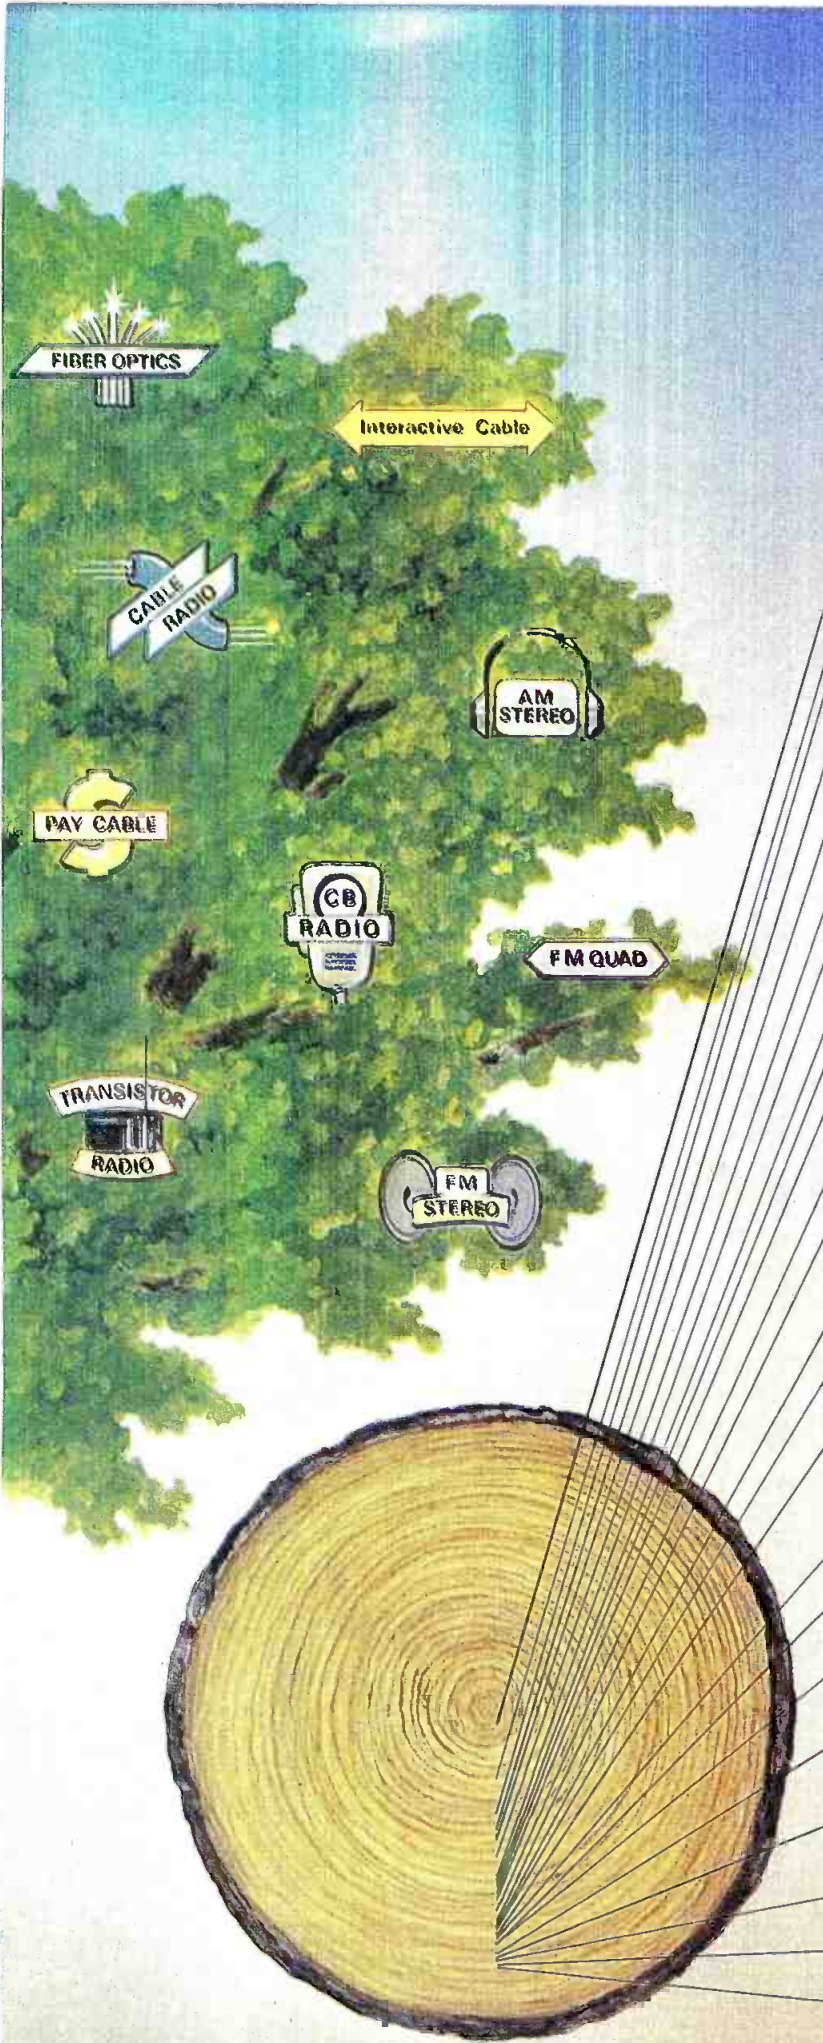

Perhaps not quite the same way. I'd spend more time with my family, for one thing. That was my greatest failing, and now it's my greatest regret.

Well, you can't go back. But in a sense we do get a chance to do it all over again every week at BROADCASTING. That's part of what makes the job so exciting. The trick is always to do it a little better the next time.

But the first 50 years were the hardest, there's no doubt about that. Yet we all have to acknowledge that they were only the beginning. We really haven't seen anything yet.

The great thing about it—as I mentioned a few weeks ago in talking to the Broadcast Financial Management Association [BROADCASTING, Sept. 28]—is that we're dealing with a magic medium: "wireless," if you want to settle for the old-fashioned term. But there's never been anything like broadcasting. "It flies through the air with the greatest of ease," I said to the financial people. And it does. And it's going to keep doing just that. Low-power TV. Direct broadcast satellites. Cellular radio we'll all be wearing around on our wrists. All part of the magic that belongs to no other communications media.

Truth to tell, I feel the same way about BROADCASTING. The magazine. I think it will continue to grow with the times. ■

Genesis

- 1666 □ Sir Isaac Newton performs basic experiments on the spectrum.
- 1794 □ Alessandro Volta of Italy invents the voltaic cell.
- 1827 □ Sir Charles Wheatstone of England invents acoustic device to amplify sounds. He calls it a "microphone."
- 1844 □ Samuel F. B. Morse tests first telegraph with "What hath God wrought?" message sent on link between Washington and Baltimore.
- 1858 □ First transatlantic cable completed. President Buchanan and Queen Victoria exchange greetings.
- 1867 □ James Clerk Maxwell of Scotland develops electromagnetic theory.
- 1875 □ George R. Carey of Boston proposes system that would transmit and receive moving visual images electrically.
- 1876 □ Alexander Graham Bell invents the telephone.
- 1877 □ Thomas A. Edison applies for patent on a "phonograph or speaking machine."
- 1878 □ Sir William Cooke of England passes high voltage through a wire in a sealed glass tube causing a pinkish glow—evidence of cathode rays.
- 1884 □ Paul Nipkow of Germany patents a mechanical, rotating facsimile scanning disk.
- 1886 □ Heinrich Hertz of Germany proves that electromagnetic waves can be transmitted through space at the speed of light and can be reflected and refracted.
- 1895 □ Wilhelm Conrad Roentgen of Germany discovers X-rays.
- 1896 □ Guglielmo Marconi of Italy applies for British patent for wireless telegraphy. He receives American patent a year later.
- 1900 □ Arthur Kennelly and Sir Oliver Heaviside propose theory that radio waves will bounce off a reflective layer in the upper atmosphere (Kennelly-Heaviside layer) and cause them to carry great distances, especially at night.
- 1901 □ Marconi sends first transatlantic signal from England to Newfoundland.
- 1906 □ Lee deForest invents a three-element vacuum tube (the audion), which becomes the basis for amplification of radio signals.
- 1906 □ Reginald Fessenden transmits speech and phonograph music using a high-frequency generator.
- 1916 □ David Sarnoff, assistant traffic manager of Marconi Wireless Telegraph Co., proposes developing a "radio music box."
- 1920 □ Westinghouse's KDKA Pittsburgh is first licensed radio station; broadcasts Harding-Cox election returns.
- 1923 □ Vladimir Zworykin files for patent for all-electronic TV system.
- 1927 □ Philo T. Farnsworth applies for patent on image dissector camera tube.
- 1931 □ First issue of BROADCASTING is published on Oct. 15.

BROADCASTING: SERVING MANY DIFFERENT VOICES

In Gannett's world of different broadcasting voices, each station serves its own community in its own way, reflecting local preferences for news, information and entertainment.

In seven cities, from Atlanta in

the Southeast to Phoenix in the Southwest, each Gannett television station holds a mirror to its community with strong news and public service efforts from early morning to late at night.

In seven cities, from Los Angeles to Cleveland, Gannett's 13 radio stations provide music, news, sports, talk and special programming attuned to their local audiences.

Each local Gannett broadcaster is served—as are all others in the nation—every week by Broadcasting Magazine. And each joins its

colleagues from coast to coast to congratulate Broadcasting and its founder, Sol Taishoff, for 50 years of service to the industry.

Tuned in for tomorrow...today

Broadcasting Magazine's

Fifth Estate Family Tree

The running story of the Fifth Estate

1931

(NOTE: Events are listed by date of publication in BROADCASTING.)

Oct. 15 □ *First issue* of BROADCASTING magazine appears. ■ "Broadcasting in the United States today stands in grave jeopardy. Politically powerful and efficiently organized groups, actuated by a selfishness and with a mania for power, are now busily at work plotting the complete destruction of the industry we have pioneered and developed;" *Walter J. Damin, president, National Association of Broadcasters, in his message to 1931 annual NAB convention.* ■ Federal Radio Commission grants full power (50 kw) to nine stations, making total of 23 outlets now authorized for full-power operation out of 40 clear-channel stations.

Nov. 1 □ *Harry Shaw, WMT(AM) Waterloo, Iowa, is elected NAB president for ensuing year.* ■ U.S. and Canadian stations complain of interference from high-power Mexican border stations. Mexico not being party to "gentlemen's agreement" between Canada and U.S. for non-conflicting frequency assignments. ■ *NBC forms two Pacific Coast networks—Orange, comprising KGO(AM) Oakland, KFI(AM) Los Angeles, KGW(AM) Portland, KOMO(AM) Seattle, KHZ(AM) Spokane, and Goid, with KPO(AM) San Francisco, KECA(AM) Los Angeles, KEX(AM) Portland, KJR(AM) Seattle and KGA(AM) Spokane.* ■ Pursuant to zone and state quota system of station allocations ordered by Davis amendment to Federal Radio Act of 1927, *FRC orders WIBO(AM) and WPCC(AM) Chicago off air and assigns 560 kc. on which they share time, to WJKS(AM) Gary, Ind. (This became benchmark law in later court appeal. See report for May 15, 1933, on page 148.)*

Dec. 1 □ *Two of every five U.S. households owned radios on April 1, 1930, U.S. Census Bureau reports: 12,078,345 radio families out of total 29,980,146 U.S. families.*

Dec. 15 □ FRC revised rules to require station-break announcements only every 30 minutes and to permit identification of reproduced music in any "clear" language. Also provides for granting applications without hearings. ■ Chicago stations, meeting with Better Business Bureau, agree to drop exaggerated and misleading advertising, to abide by NAB standards of practice. *More than half of nation's stations are operating without profit, NAB President Harry Shaw tells FRC.*

1932

Jan. 1 □ *James C. Petrillo, president, Chicago local, American Federation of Musicians, calls strike against city's radio stations for midnight New Year's Eve. Educational stations devote only 8% of their air time to educational programs, compared to 10% average for commer-*

cial stations, FRC records show.

Jan. 15 □ Senate adopts resolution ordering FRC to investigate radio advertising, study feasibility of government operation of broadcasting along European lines. ■ Refusing to bow to Petrillo's demands, *Chicago broadcasters stand firm, avert strike, win new contract on own terms.*

Feb. 1 □ FRC adopts order requiring all applications for station licenses to include sworn statements of transfer terms, designed to stop "trafficking in wave lengths and licenses."

Feb. 15 □ Senate launches study to find why State Department has not negotiated with Mexico and Cuba to protect radio channels used by U.S. broadcasters. BBDO survey finds over 75 regular weekly transcribed programs on air for national advertisers, 175% increase in two years. ■ *Gross incomes of CBS and NBC in 1931 totaled \$35,791,000, gain of 33.6% over 1930.*

March 1 □ House Committee on Patents begins investigation of American Society of Composers, Authors and Publishers and what committee Chairman William I. Sirovitch (D-N.Y.) termed its "racketeering" activities. New copyright legislation designed to protect broadcasters and other users of music is planned.

March 15 □ CBS, NBC and New York area stations, notably WOR(AM), go into round-the-clock operations to cover Lindbergh kidnapping, radio's biggest spot-news reporting job to date.

■ *Samuel Clyde, director of advertising, General Mills, urges that broadcasting stations operate on standard time year round as railroads do, eliminating semiannual time change which he called "the one big drawback" in radio advertising.* ■ *William S. Paley, CBS president, and associates buy half interest in network held by Paramount-Public Corp., giving them complete ownership of network.* ■ *Lehn & Fink, in daring experiment, puts complete 1932 advertising budget of Pebecco toothpaste into radio.* ■ *KNX(AM) Hollywood signs three-year contract with United Press for wire service for four broadcasts each day plus "extras."*

April 1 □ *WFLA(AM)-WSUN(AM) Clearwater, Fla., installs country's first directional antenna, designed by Raymond Wilimotte. "British authority on transmitting aeriels."*

April 15 □ ASCAP boosts copyright fees to broadcasters by 300%, to 5% of gross income, totaling some \$3.5 million annually, compared with \$960,000 for 1931.

May 1 □ NBC lifts ban on recorded programs for its owned and operated stations, leaving it up to judgment of station managers, but still barring them from network use. ■ Rejecting ASCAP's demands, NAB sets up committee to negotiate better deal with copyright owners, secures moratorium until Sept. 1.

June 15 □ Federal Radio Commission, after six-month investigation of broadcasting, particularly its advertising activities, reports to Congress that "any plan . . . to eliminate the use of

radio facilities for commercial advertising purposes, will, if adopted, destroy the present system of broadcasting." Advertising agencies, also queried, say that any law limiting advertising on air to announcement of sponsorship would cause most advertisers to cease their use of radio.

July 1 □ State Supreme Court of Nebraska, in suit of Attorney General C.A. Sorensen against KFAB(AM) Lincoln and Richard A. Wood for allegedly libelous remarks made by Wood over KFAB during election campaign, rules that *broadcasting station is equally liable with speaker for libelous statements disseminated through its facilities.*

July 15 □ To broadcast 58 hours of sessions of two national political conventions from Chicago Stadium, NBC canceled 56 commercials, CBS canceled more than dozen. ■ *NBC withdraws prohibition against price mentions on air during daytime hours; A&P is first advertiser to take advantage.*

Aug. 1 □ ASCAP breaks off negotiations with NAB; prepares to start negotiations with individual stations; offers three-year contracts at 3% of net income for first year, 4% for second and 5% for third, plus annual sustaining program fees. BROADCASTING survey of free-advertising propositions currently flooding radio station mail reveals national magazines as most persistent in demands for free time on air.

Aug. 15 □ *Republicans allot \$300,000 for radio time for presidential campaign, two-thirds for network time, one-third for spot.*

Sept. 1 □ NAB resumes negotiations with ASCAP; submits to demands for progressive percentage-of-income fees for music used on commercial shows, plus flat sustaining payment.

Sept. 15 □ CBS and NBC permit price mentions, night as well as day; again, A&P is first advertiser to broadcast prices at night.

Oct. 15 □ Mexican government authorizes XER(AM), across border from Del Rio, Tex., to broadcast with 50 kw; NAB files protest with State Department asking protection from interference for U.S. broadcasters. ■ ASCAP offers special reduced fees to newspaper-owned stations in recognition of "substantial contributions to the promotion . . . of music made by newspapers." ■ To protect broadcasters from dangers inherent in Nebraska Supreme Court ruling on radio libel, John W. Guildler, acting chairman of committee on communications, American Bar Association, advocates rule freeing station from liability "whenever it appears that the management of the station exercised due and reasonable care to avoid the utterance of defamation."

Nov. 1 □ Chrysler Corp. introduces 1933 Plymouth Six to 75,000 salesmen via 25-city CBS hookup; insures this radio business conference for \$500,000 against line break or equipment failure. ■ Interstate Commerce Commission, dismissing complaint of Sta-Shine Co. against NBC and WGBB(AM) Freeport, New York, rules that *broadcasting stations are*

not public utilities and that ICC therefore has no power to regulate their advertising rates.

Dec. 1 □ NAB St. Louis convention elects as president *Alfred J. McCosker*, director, WOR(AM) Newark, N.J.; plans program of aggressive opposition to exorbitant copyright fees and line charges, spearheaded by prominent public figure and supported by war chest three or four times as big as present annual income of \$50,000; agrees on self regulation as best preventive of governmental interference in broadcasting. ■ Accepting government consent decree, *General Electric and Westinghouse agree to divest themselves of their stock control of RCA*, which becomes completely independent company; patent pool becomes nonexclusive, but RCA retains licensing rights to patents of GE and Westinghouse as well as its own.

1933

Jan. 1 □ Frederic R. Gamble, American Association of Advertising Agencies executive secretary, urges closer cooperation between agencies and broadcasters, advocates cash discount for bills paid promptly by agencies.

Jan. 15 □ *Phonograph companies* start labeling records "not licensed for radio broadcast" as move to protect their alleged property rights; Oswald F. Schuette, director of NAB copyright activities, calls move "a bluff" with no legal basis.

Feb. 1 □ NAB retains *Newton D. Baker*, Cleveland attorney who was secretary of war during Wilson administration, as special counsel. ■ Foods, drugs and toiletries, and tobaccos were most-advertised products on radio networks (CBS and NBC) in 1932, when combined gross time sales totaled \$39,106,776.

March 1 □ NAB commercial committee and AAAA radio committee agree on standard form for agency orders of radio time. ■ Attempted assassination of President-elect Roosevelt gets prompt radio coverage; CBS puts eye-witnesses on air within 90 minutes via special line instead of taking time to have link with Miami reversed. ■ *KOIL(AM) Omaha*, creates business at depth of Depression by selling time to associations of barbers, beauticians, florists, grocers, druggists and other grade groups whose members buy collectively what they can't afford individually.

March 15 □ Radio places full facilities at disposal of Roosevelt administration during banking crisis; largest audience in history reported for President Roosevelt's CBS-NBC broadcast on plans to reopen nation's banks. ■ *Canadian Radio Commission acquires its first three stations*, CNRA(AM) Moncton, N.B.; CNRO(AM) Ottawa, Ont., and CNRV(AM) Vancouver, B.C., formerly owned by Canadian National Railways.

April 1 □ Post office modifies rules so stations can forward fan mail to sponsors in bulk without paying additional first class fees. ■ *NBC discontinues its Pacific Coast Gold Network* to save line costs; Orange network continues, absorbing some Gold programs. ■ Southern California broadcasters carry on amid wreckage to keep nation informed of effects of earthquake.

April 15 □ *NAB organizes Radio Program Foundation* to make available for broadcasting copyrighted works of non-ASCAP composers and publishers. ■ Federal District Court in Sioux Falls, S.D., grants *Associated Press permanent injunction against unauthorized broad-*

casting of AP news by KSOO(AM) Sioux Falls.

May 1 □ *AP membership votes to ban network broadcasts of AP news* and to curtail local broadcasts to bulletins at stipulated times with air credit to member newspaper, which is to pay extra broadcast assessment. ■ American Newspaper Publishers Association annual meeting resolves that *radio logs* are advertising and should be published only if paid for.

May 15 □ *Federal Radio Commission is granted absolute power in distributing radio facilities* by Supreme Court ruling upholding commission's decision to delete WIBO(AM) and WPCC(AM) Chicago (over quota by current allocation plan) and give 560 kc regional channel to WJKS(AM) Gary, Ind. ■ News on air is undiminished as *United Press and International News Service fail to follow AP's example*; networks establish own correspondents in key cities; President again uses combined CBS-NBC networks for second "fireside chat," phrase coined by Harry Butcher, CBS Washington.

July 1 □ NAB-sponsored *Radio Program Foundation* acquires broadcast rights to Ricordi catalogue of 123,000 compositions; offers package to member stations at rates of \$2.50 to \$25 monthly. ■ *George B. Storer*, president, CKLW(AM) Detroit-Windsor, heads Point-O-Purchase Broadcasting System, which plans to install radio receivers in grocery and drug stores to receive programs broadcast by Point-O-Purchase during peak shopping hours and so provide "the missing link between manufacturer and consumer."

Aug. 1 □ *National Recovery Administration* program involves broadcasters in two ways: (1) As employers and as operators of medium which can publicize program. (2) NAB sends questionnaire to all broadcasters on employment practices, appoints advisory committee to work with William B. Dolph, former RCA Photophone salesman, now in charge of radio publicity for NRA.

Aug. 15 □ *First North American Radio Conference* breaks up when Mexico refuses to budge from demands for 12 clear channels; interference problems foreseen as Latin American countries, not bound by any international agreements, are free to use whatever frequencies they desire.

Sept 1 □ Rate cutting, per-inquiry business, song plugging, excessive coverage claims, excessive commission payments, lotteries and similar practices are barred by *broadcasting code* drafted by NAB committee and submitted to NRA; *Sol A. Rosenblatt* is named code administrator. ■ New York business group headed by *Alfred E. Smith acquires commercial and program rights of WMCA(AM) New York* in \$155,000-a-year deal whose legality is questioned by Federal Radio Commission.

Sept. 15 □ *NAB special counsel Newton D. Baker* files suit in federal court asking dissolution of ASCAP as illegal trade combination. ■ *CBS* assigns publicity director, *Paul White*, to task of organizing nationwide staff to collect news for network broadcast.

Oct. 1 □ *General Mills sponsors twice-daily broadcasts on CBS of news* collected by Columbia News Service; *Washington Star* drops program log of WJSV(AM) (CBS outlet serving Washington) in line with policy of "not advertising our competitors." ■ After many delays, *Ed Wynn's Amalgamated Broadcasting System* gets under way as third national network with 100 outlets, connected by Western Union lines. (see Nov. 15 item below.) ■ *Stations file*

for 50 kw power as FRC lifts limit from four to eight per zone, or from 20 to 40 for U.S. ■ *NBC moves into Radio City headquarters*, world's largest broadcasting plant.

Oct. 15 □ *NAB convention re-elects Alfred J. McCosker*, WOR(AM) Newark, N.J., for second year as president; urges abolition of requirement that recorded programs be so identified; urges three-year licenses in place of current six-month ones; agrees to intensify fight against ASCAP; denounces concealed commercials in sustaining programs and contingency accounts as unfair practices. ■ *Yankee Network* adds rider to political contracts absolving network from liability for libel or defamation by speakers.

Nov. 15 □ Repeal of Prohibition Act raises question of advertising hard liquor on radio; CBS and some stations announce they will not accept it at all. ■ Other groups ponder "third network" organizations as *Ed Wynn's Amalgamated Broadcasting System goes bankrupt*. ■ WGN(AM) Chicago, WBZ(AM) Boston and WHAM(AM) Rochester, N.Y., are first to get 50 kw under revised regulation.

Dec. 1 □ *President signs broadcasting code*, calling for minimum wages of \$40 per week for technicians, \$20 per week for announcers and program production employees (\$15 if fewer than 10 such employed at station). ■ Washington newspapers agree to publish radio logs only as paid advertising.

1934

Jan. 1 □ *Broadcast band widened* to include three new channels—1530, 1550 and 1570 kc—with 20 kc separation, for experimental operation (but with full authority to broadcast commercial programs), with goal of high-fidelity broadcast transmission.

Jan. 15 □ *WLW Cincinnati starts tests of new 500 kw transmitter*, world's most powerful. ■ *Group programing*, a station-built half-hour show sold to six sponsors instead of one, developed at WTMJ Milwaukee to stimulate sales during Depression, proves successful for both station and sponsors.

Feb. 1 □ *NRA Code Authority* for broadcasting outlaws per-inquiry and contingent business, launches study of status of performers to determine whether they should be covered by codes wage-and-hour provisions. ■ *Students remember advertising they hear better than that they read* in test conducted by Professor Frank Stanton of Ohio State University's psychology department.

Feb. 15 □ *CBS and NBC withdraw from news-gathering field* as AP, UP and INS agree to provide material for morning and evening network newscasts. ■ *Milwaukee Journal's WTMJ(AM)* prepares for experimental facsimile broadcasting.

March 1 □ *Press Radio Bureau* begins operations; *Yankee Network* and KFII(AM) Los Angeles set up own news organizations with exchange of news contemplated.

March 15 □ *George B. Storer*, chief owner of CKLW(AM) Detroit-Windsor, WSPD(AM) Toledo, Ohio, and WVA(AM) Wheeling, W. Va., becomes president and majority stockholder of *Federal Broadcasting Corp.*, lessee-operator of WMCA(AM) New York, designated as key station for projected nationwide network.

April 1 □ Three independent news services organize to provide news to radio stations.

May 1 □ *Federal Trade Commission* announces

More Christal Strength:

WGN

Christal
NOTHING BETTER

The Christal Company, Inc.
919 Third Avenue • New York, N.Y. 10022
(212) 688-4414

that after June 1 it will periodically ask stations, networks, transcription companies for copies of all commercial copy as part of overall survey of advertising.

June 15 □ Communications Act now law; *Federal Communications Commission* to replace Federal Radio Commission July 1.

July 1 □ *E.O. Sykes*, charter member of Federal Radio Commission, is named *chairman of new FCC*. Other members are: Thad H. Brown, also holdover from FRC. Paul A. Walker, Norman S. Case, Irvin Stewart, George Henry Payne and Hampson Gary. ■ George B. Storer announces new network, *American Broadcasting System*, will begin operations in mid-August; hires Frederick H. Weber, former Chicago manager of NBC station relations, as operations vice president.

July 15 □ *Clear-channel stations attack "break down" policy of old radio commission* urge FCC to conduct engineering study of subject preliminary to restatement of regulations.

Aug. 1 □ *FCC forms three-man broadcasting division*, with Hampson Gary as chairman, Thad Brown and Judge Sykes as members.

Sept. 1 □ Department of Justice files *antitrust suit asking dissolution of ASCAP* as illegal monopoly.

Sept. 15 □ *Don Lee*, owner of KHJ(AM) Los Angeles, KFRC(AM) San Francisco, KDB(AM) Santa Barbara, Calif., and KGB(AM) San Diego and operator of Don Lee Network, *dies at 53*.

Oct. 1 □ *J. Truman Ward*, WLAC(AM) Nashville, is elected *president of NAB*. ■ *Quality Group* organizes as network for commercial programs only, linking WOR(AM) New York, WGN(AM) Chicago and WLW(AM) Cincinnati, with WXYZ(AM) Detroit as optional outlet.

Oct. 15 □ *FCC revises quota system* to permit more stations and higher power. ■ *Ford Motor Co. pays \$100,000 for broadcast rights to World Series*; links three networks plus independent stations into 180-outlet special hookup for event. ■ FCC begins hearing on proposal that 25% of broadcasting facilities be allotted to nonprofit groups. ■ *Quality Group* changes name to *Mutual Broadcasting System*. ■ *American Broadcasting System starts 16-hour daily program service* over 18-station network reaching from New York to St. Louis.

Nov. 1 □ After years of legal battles to protect its place in Chicago, *Westinghouse moves KYW(AM), city's first radio station, to Philadelphia* to comply with governmental quota technicalities. ■ Complying with request made jointly by 13 clear-channel stations, FCC orders inquiry into clear-channel structure. ■ *Federal court upholds property right in broadcast material*; enjoins Uproar Co., Boston publisher, from publishing Ed Wynn's Texaco fire chief broadcast scripts in pamphlet form.

1935

Jan. 1 □ Federal District Judge John C. Bowen in Seattle rules that *once news is printed in newspapers it may be broadcast without restriction*, dismisses AP suit against KVOS(AM) Bellingham, Wash., alleged to have "pirated" AP news from member newspapers. ■ NAB starts study of audience-survey methods with eye to establishing *independent audit bureau* for radio.

Jan. 15 □ Federal Judge Merrill E. Otis in Kan-

sas City, Mo., rules *station is jointly liable with speaker for libelous broadcasts*, finds KMBC(AM) guilty for statement on CBS program originating in New York.

Feb. 15 □ *First BROADCASTING YEARBOOK* is issued. ■ In face of many requests for free time from commercial firms, *broadcast code authority rules against any station accepting "propaganda" except on commercial basis*.

April 1 □ With *new chairman, Anning S. Prall*, FCC starts to clean house: cites stations for accepting medical advertising, warns industry to live up to rules, holds conference with network heads on good taste in broadcasting, calls national meeting to work out ways for better cooperation between broadcasters and educators. ■ *Experimental "wired radio" service* is installed in Cleveland by Wired Radio Inc., using transcriptions made by its sister company, Associated Music Publishers, transmitted to homes via electric lines.

April 15 □ *American Society of Recording Artists*, new group, asks royalty fees for broadcasts of phonograph records.

May 15 □ *Philip G. Loucks resigns* as managing director of NAB after five years to return to private law practice. ■ *United Press and International News Service offer news to radio*; Associated Press permits member papers to provide news for local newscasts but still forbids sponsorship. ■ RCA announces it is taking television out of laboratory for *\$1-million field-test program*.

June 1 □ *Code authority for broadcasting industry shuts down* as Supreme Court of United States declares National Recovery Act unconstitutional. ■ *Transradio Press Service files \$1-million damage suit* against CBS, NBC, AP, UP, INS and American Newspaper Publishing Association, alleging press-radio program agreed to in 1934 was illegal and unfair competition.

June 15 □ Plan for *bureau of agency recognition and credit information* to be operated for and by broadcasting industry is adopted by NAB commercial section. ■ *NBC launches Thesaurus*, recorded library service.

July 1 □ *Warner Brothers announces withdrawal* of its five music publishing firms, said to account for 40% of all ASCAP music performances, *from ASCAP* on Jan. 1, 1936.

July 15 □ *NAB elects Charles W. Myers*, KOIN(AM) Portland, Ore., *president*, names James Baldwin as managing director; reelects as treasurer Isaac D. Levy of WCAU(AM) Philadelphia, controversial figure in acceptance of new five-year license from ASCAP; endorses agency-recognition plan; adopts revised code of ethics which outlaws per-inquiry and contingent business. ■ Washington state gets restraining order *preventing ASCAP from collecting royalties* for broadcast performances of its music within state on grounds that ASCAP is monopoly in violation of state constitution.

Sept. 15 □ *Scripps-Howard* decides to enter radio and applies for permission to buy WFBE(AM) Cincinnati; seeks stations in other cities where it has newspapers. ■ Committee of 15, with equal representation from NAB, Association of National Advertisers and American Association of Advertising Agencies, *starts work on creation of radio counterpart of Audit Bureau of Circulations for newspapers and magazines*.

Oct. 1 □ FCC demonstrates it is still scrutinizing programs by giving score of stations tem-

porary renewals pending further investigation of "questionable" programming.

Oct. 15 □ Esso's sponsorship of United Press news on group of NBC O&O stations leads *Associated Press board of directors to reaffirm its ban on use of AP news on sponsored broadcasts*.

Nov. 15 □ Tax law of state of Washington imposing tax of 0.5% on gross income of radio stations is declared *unconstitutional* by federal court in suit brought by KVL(AM) Seattle; state supreme court had upheld law's validity in earlier suit of KOMO(AM)-KJR(AM).

Dec. 1 □ Yankee Network underwrites Boston *survey of listening made by mechanical meter devices attached to sets* in 1,000 homes to measure tuning; developed by two Massachusetts Institute of Technology professors, Robert F. Elder of marketing department and L. F. Woodruff of electrical engineering department.

1936

Jan. 1 □ *Warner Brothers withdraws musical catalogues from ASCAP* and offers performance rights to broadcasters on flat fee basis which networks reject; ASCAP temporarily extends its licenses to broadcasters but with no reduction in fees. ■ NBC adds second Pacific Coast network; both *NBC Red and NBC Blue now national*. ■ *Lenox R. Lohr*, general manager of Chicago's successful Century of Progress, succeeds M. H. Aylesworth as NBC president. ■ U.S. Circuit Court of Appeals holds *broadcasting news taken from newspaper as unfair competition*, reversing earlier decision in case of AP versus KVOS(AM) Bellingham, Wash. ■ WCOA(AM) Pensacola, Fla., asks FCC to compel AT&T to reduce its rates in *first formal complaint ever filed concerning charges for broadcast lines*.

Jan. 15 □ *ASCAP cancels temporary licenses*, threatens infringement suits against stations not signing new five-year contracts at same price for less music. ■ Following industry survey, 120 members of Distilled Spirits Institute agree not to advertise *hard liquor* on air.

Feb. 1 □ *FCC liberalizes recording-transcription announcement rules*; now requires only one announcement per quarter-hour.

Feb. 15 □ *Warner Brothers files infringement suits* totaling more than \$3 million against networks and stations; NAB revives plan to establish its own music-rights organization.

March 15 □ CBS broadcasts speech by *Communist Party Secretary Earl Browder*; some affiliates refuse to broadcast it; editorials and congressmen attack and defend CBS action.

April 1 □ *CBS buys KNX(AM) Los Angeles* for \$1.3 million, biggest station deal to date. ■ *Hearst Radio acquires KTAT(AM) Fort Worth, WACO(AM) Waco, Tex., and KOMA(AM) Oklahoma City*. ■ *AT&T works out agreement with WCOA(AM) Pensacola to reduce rate on back-hauls* by 50% (saving of about \$2,000 per year for station).

April 15 □ U.S. Supreme Court rules *broadcasting is instrumentality of interstate commerce, not subject to state taxation*, in reversing Supreme Court of Washington State, which had upheld a state tax on gross receipts of radio stations.

May 1 □ NAB board approves plan to create *"bureau of copyrights"* with "measured ser-

vice" method of compensation.

June 15 □ President Roosevelt signs bill repealing *Davis Amendment* to original radio law, which required equal division of broadcasting facilities among five zones and among states in each zone, opens way for more stations, increased power. ■ Don Lee Broadcasting System starts *first public demonstration of cathode-ray television in U.S.* with daily broadcasts of 300-line pictures using system developed by Harry Lubcke, Don Lee director of TV.

July 1 □ *FM broadcasting*, new system invented by Major E. H. Armstrong, is described at FCC hearing as static-free, noise-free, free from fading and cross talk, uniform day and night throughout all seasons and with greater fidelity of reproduction.

July 15 □ *Charles W. Myers*, KOIN(AM)-KALE(AM) Portland, Ore., elected NAB president; Isaac D. Levy, WCAU(AM) Philadelphia, retiring NAB treasurer, attacks NAB board and managing director for copyright mismanagement, then resigns from NAB promising to form new association; convention backs managing director and board and maintains solid front. Sales managers organize as NAB division. ■ *RCA* shows radio manufacturers its *system of TV*, being field tested with transmissions from New York's Empire State Building.

Aug. 1 □ *Warner Brothers* returns to ASCAP, drops infringement suits of more than \$4 million. ■ *National Association of Regional Broadcasting Stations* organizes to protect interests at upcoming FCC allocations hearings, elects *John Shepard 3d*, Yankee Network president, as chairman. ■ Members of *National Association of Recording Artists* follow up granting of injunction restraining WDS(AM) Philadelphia from broadcasting phonograph records made by NARA President Fred Waring, institute suits against WHN(AM), WNEW(AM) and WEVD(AM), all New York, for unauthorized record broadcasts.

Aug. 15 □ *Philco Corp.* demonstrates its *system of television* with seven-mile transmission of live and film subjects in 345-line images 9½ by 7½ inches.

Sept. 1 □ *Mutual Broadcasting System* starts drive to become nationwide network by signing five Midwestern affiliates—KWK(AM) St. Louis; KSO(AM) Des Moines, Iowa; WMT(AM) Cedar Rapids, Iowa; KOIL(AM) Omaha; KFOR(AM) Lincoln, Neb. WLW(AM) Cincinnati turns in its MBS stock but remains as outlet.

Sept. 15 □ *Television starts in England*, with twice-daily telecasts using alternately Baird and EMI-Marconi systems.

Oct. 1 □ After KFI(AM) and KECA(AM) Los Angeles refuse to carry *President Roosevelt's "fireside chat"* as sustaining program, Democratic National Committee cuts them from network outlets getting paid campaign broadcasts.

Oct. 15 □ A.C. Nielsen proposes *metered tuning method of measuring size of program audiences* at ANA meeting, reveals his firm's acquisition of "audimeter" developed at MIT; Edgar Felix urges coverage measurements to determine audience.

Nov. 1 □ CBS cancels "debate" of *Senator Arthur Vandenberg* (R-Mich.) with recording of President Roosevelt's statements as violating its no-transcription rule, then reinstates broadcast; mob at Terre Haute, Ind., prevents Communist candidate Earl Browder from reaching WBOV(AM) studio; parties step up time purchases as campaign closes.

Nov. 15 □ Complete *election return coverage* by

networks and stations winds up campaign in which political parties spent estimated \$2 million for radio time. ■ Demonstrations of RCA's 343-line TV system are highlight of *NBC's 10th anniversary* celebration.

Dec. 15 □ Don Lee Broadcasting System affiliates with *Mutual*, making latter *coast-to-coast network*.

1937

Jan. 1 □ *Chicago Federation of Musicians* forbids members to make recordings except under special conditions, as move to halt threat of "canned" music to employment of live musicians. ■ U.S. Supreme Court throws out suit of Associated Press against KVOS(AM) Bellingham, Wash., for AP's failure to show damages of over \$3,000, minimum needed for federal jurisdiction, but looks with disfavor on KVOS practice of buying newspapers and reading news from them on air.

Feb. 1 □ Radio goes on round-the-clock duty to provide communication for *flood-stricken Ohio and Mississippi valleys*, and aids relief work; job wins nation's praise. ■ *Station sales managers*, in first national meeting, reject requests of recording companies for third 15% (in addition to commissions paid agencies and station representatives), ask networks to discontinue chain-break announcements from their O&O stations before asking affiliates to do so. ■ Representative Otha D. Wearin (D-Iowa) introduces bill to *outlaw newspaper ownership of radio stations*.

Feb. 15 □ Charging networks with monopoly in broadcasting, legislators demand *congressional investigation of radio*. Representative Wigglesworth (R-Mass.) blasts FCC for permitting trafficking in licenses and reads into record full report of station sales and leases approved by commission.

April 1 □ *North American Radio Conference at Havana* agrees on technical principles of broadcast allocations, paving way for treaty conference in November. ■ CBS applies for *experimental video station* in New York, plans to install RCA TV transmitter in Chrysler building tower and to construct special studios at total cost of \$500,000.

April 15 □ CBS recognizes *American Guild of Radio Announcers and Producers*, independent union headed by Roy S. Langham, CBS producer; bargaining begins for network's announcing-production employees.

May 1 □ *CBS breaks ground* for \$2-million Hollywood studios. ■ American Radio Telegraphists Association (CIO), International Brotherhood of Electrical Workers (AFL) and Newspaper Guild (claimed by both AFL and CIO) start drives to *organize station employees*; NBC institutes five-day week for production staff.

May 15 □ WLS(AM) Chicago recording team of Herb Morrison, announcer, and Charles Nehlsen, engineer, on routine assignment at Lakehurst, N.J., record on-the-spot, at-the-time *account of explosion of German dirigible Hindenburg*; NBC breaks rigid rule against recordings to put it on network. ■ *RCA* demonstrates *projection television*, with images enlarged to 8 by 10 feet, at Institute of Radio Engineers convention.

June 15 □ *Transradio Press's \$1,700,000 suit* against networks and press associations is *settled out of court*.

July 1 □ NAB elects *John Elmer*, WCBM(AM) Baltimore, as 1937-38 president; *James W. Baldwin* is reappointed managing director.

Aug. 1 □ American Federation of Musicians demands that broadcast stations increase their *employment of musicians* to number satisfactory to union or lose their musical programs. ■ *Actors' Equity withdraws from radio* with organization of new AFL union, American Federation of Radio Artists. ■ *Guglielmo Marconi, 63, dies* of heart attack in Rome.

Sept. 1 □ *Independent Radio Network Affiliates* organize to deal with AFM; ponder suggestion of AFM President Joseph N. Weber that weekly sum of three and half times station's one-time evening quarter-hour rate be used to employ live musicians, amounting to some \$5.5 million per year overall. ■ *Frank R. McNinch*, from Federal Power Commission, goes to FCC as chairman; *Commander T.A.M. Craven* becomes FCC commissioner. ■ *International Brotherhood of Electrical Workers (AFL)* starts *drive to organize radio technicians* after National Labor Relations Board certifies American Radio Telegraphists Association (CIO) as bargaining agent for WHN(AM) New York technicians, overruling petition of International Alliance of Theatrical Stage Employees (AFL).

Sept. 15 □ *AFM strike averted* as network affiliates agree to spend additional \$1.5 million per year to employ staff musicians; NAB calls special convention. ■ *Chicago stations broadcast lessons* as infantile-paralysis epidemic closes schools.

Oct. 1 □ *American Bar Association* recommends that broadcasting of court trials be "definitely forbidden." ■ FCC gives two stations—WGHI(AM) Newport News, Va., and WHO(AM) Des Moines, Iowa—permission to *experiment with facsimile broadcasts* on their regular frequencies in midnight-6 a.m. period; both plan to use system developed by W.G.H. Finch, former assistant chief engineer of FCC.

Oct. 15 □ *NAB special convention* votes for complete reorganization, approves 50% hike in dues.

Nov. 1 □ FCC allocates 75 channels with 40 kc separation (41,020 kc to 43,980 kc) for "apex" stations and 19.6-mc bands for television (44-108 mc), with 16 channels in 30-40 mc band for relay stations.

Nov. 15 □ *NBC refuses* to let General Hugh S. Johnson broadcast *talk on venereal disease*. ■ Bell Labs demonstrates *intercity TV program transmission* over 90-mile coaxial cable connecting New York and Philadelphia.

Dec. 15 □ *Inter-American Radio Conference* reaches agreement on broadcast allocations that protects U.S. broadcasters by eliminating Mexican border stations, but requires many shifts in U.S. station frequencies.

1938

Jan. 1 □ *U.S. Court of Appeals for District of Columbia*, in opinion written by Associate Justice Justin Miller, *sharply criticizes FCC* in reversing its denial of application of Paul H. Heitmeyer for new station in Cheyenne, Wyo., which court calls "arbitrary and capricious."

Jan. 15 □ FCC announces policy of *not licensing second station in same community to existing licensee* unless it is "clearly shown" that public interest would be best served by such license; denies application of WSMB(AM) New Orleans for second station there. ■ John

Shepard 3d, president of Yankee Network, starts construction of 50 kw FM station atop Mt. Wachusett at cost of \$250,000; Major Edwin H. Armstrong, FM's inventor, builds own 50 kw FM station at Alpine, N.J.; others are planned to test this new medium.

Feb. 1 □ RCA puts stations on notice it may institute "reasonable fees" for broadcasting of Victor and Bluebird records; move said to be self-protective in view of attempts of National Association of Performing Artists to establish its performing rights in recordings through court action. ■ FCC sets 25 channels, 40 kc wide, in 41-42 mc band, for exclusive use of noncommercial educational stations.

Feb. 15 □ Under leadership of Mark Ethridge, general manager of Louisville (Ky.) Courier-Journal and Times, operator of WHAS(AM) Louisville, and Edwin W. Craig, WSM(AM) Nashville, two-day NAB convention sweeps through reorganization plan, elects new board of 23 directors—one from each of 17 geographic districts and six at large, names Philip G. Loucks, author of reorganization plan, special counsel to guide NAB affairs pending selection of first paid president. BROADCASTING publishes first facsimile newspaper in demonstration for convention delegates. ■ With most network affiliates signing local musicians-union contracts on basis of AFM-IRNA agreement, AFM submits new contract terms to recording companies.

March 15 □ Southern California stations turn over all facilities to emergency public service as other means of communication fail in flood crisis.

April 1 □ Mark Ethridge is drafted as first president of revamped NAB to guide industry for interim period while paid president is sought; to serve without pay but with plenary powers. ■ FCC sends stations detailed questionnaire seeking full information on fiscal operations during 1937. ■ Wheeler-Lea Act, giving Federal Trade Commission new powers to curb false and misleading advertising, becomes law. ■ Hitler's quick conquest of Austria gets full coverage from U.S. networks.

April 15 □ Plea to FCC to keep its regulation of radio to minimum necessary to provide interference-free service to public and to give broadcasters licenses for longer than six months is made by William S. Paley, CBS president, in tradition-breaking broadcast of network's annual report to public as well as stockholders.

May 1 □ CBS dedicates \$1.75-million Pacific Coast headquarters building on Columbia Square, Hollywood. ■ National Committee of Independent Broadcasters negotiates agreement with AFM for employment of musicians based on that of IRNA.

May 15 □ U.S. Court of Appeals for District of Columbia cites FCC for lacking consistent policy as it reverses FCC's denial of new daytime station at Pottsville, Pa., to Pottsville Broadcasting Co., and remands it, making reconsideration mandatory.

June 15 □ Senate resolution that broadcast power in excess of 50 kw would be against public interest removes superpower from FCC consideration as hearings on new rules get under way. ■ Neville Miller, former mayor of Louisville, Ky., to assume presidency of NAB July 1 as first paid president, at salary of \$25,000 per year, plus \$5,000 for expenses. ■ House votes down resolution for investigation of monopoly in radio by vote of 234 to 101.

July 1 □ Radio broadcasting's average weekly

paycheck of \$45.12 is highest of all U.S. industries. Bureau of Labor Statistics reveals in answer to BROADCASTING's query. ■ Senate ratifies Havana Treaty calling for many shifts in frequencies of U.S. stations to be made yearly after treaty has been ratified by three of four participating countries: U.S., Canada, Mexico and Cuba.

Aug. 1 □ Census Bureau survey finds 62% of farm homes equipped with radios. ■ W. Lee O'Daniel uses radio exclusively to win Democratic nomination for governor of Texas, boosts sales of Hillbilly Flour at same time.

Aug. 15 □ Paramount Pictures acquires interest in Allen B. DuMont Labs.

Sept. 1 □ Atlantic Refining books record football schedule of 168 East Coast games.

Sept. 15 □ World Broadcasting System launches "wax network" with 25 major market affiliates.

Oct. 1 □ New York stations pool equipment to keep public informed as hurricane hits city; New England stations also rise to meet emergency of crippling storm.

Nov. 1 □ NBC moves Western headquarters into Hollywood Radio City, new \$2-million building. ■ FCC superpower committee recommends ending WLW(AM) Cincinnati's license for 500 kw operation and returning station to 50 kw.

Nov. 15 □ Mexican Senate refused to ratify broadcast agreement section of Havana Treaty.

Dec. 1 □ David Sarnoff, RCA president, urges industry self-regulation of programming at opening of chain-monopoly hearings.

Dec. 15 □ Suits of Paul Whiteman against WNEW(AM) New York and Elin Inc., sponsor of record program on WNEW, and of RCA against Whiteman, WNEW and Elin, become suit of RCA against Whiteman when Whiteman drops his suits and WNEW and Elin make no defense against RCA; at stake is determination of whether recording company or recording artist, or either, has control of broadcast performances of phonograph records.

1939

Jan. 1 □ CBS enters recording field with purchase of American Record Corp. for \$700,000; ARC subsidiaries include Columbia Phonograph Co., one-time owner of network. ■ Patent for iconoscope-kinescope tubes, basis of electronic television, is granted to Dr. Vladimir Zworykin after 15 years of litigation.

Jan. 15 □ FCC Commissioner George Henry Payne drops \$100,000 libel suit against BROADCASTING. ■ Federal statutory court issues permanent injunction restraining New Jersey Board of Public Utility Commissioners from interfering with NBC's erection or operation of experimental station, holds broadcasting to be interstate and therefore outside authority of state commission.

Feb. 1 □ FCC is legally bound to reconsider economic factors if issue is raised, U.S. Court of Appeals for District of Columbia rules in remanding commission's grant of new station in Dubuque, Iowa, to Telegraph Herald.

Feb. 15 □ American Federation of Radio Artists strike is averted as networks sign commercial program contracts. Agencies which could not sign, as technically they are not employers of talent, agree to abide by terms. ■ Associated Press begins supplying news to NBC, without charge and for sustaining use only, after NBC and CBS discontinue service of

Press Radio Bureau; CBS uses news from International News Service and United Press. ■ Common Pleas Court of Tioga county, Pa., holds NBC liable for allegedly slanderous remark ad libbed by Al Jolson during Shell Chateau broadcast, sustains jury award of \$15,000 to Summit hotel of Allentown.

March 1 □ Thirty-page questionnaire from FCC, delving into all phases of broadcast operation, evokes chorus of protests from station operators. ■ U.S. and Canada complete agreement on frequencies based on Havana Treaty.

March 15 □ CBS attacks summer slump by offering extra discounts to nighttime sponsors that stay on air year round and by threatening advertisers taking more than eight weeks off with loss of present time periods. ■ W2XBF New York, experimental facsimile stations, starts regular program service three hours daily. WOR(AM), WGN(AM) and WLW(AM) inaugurate New York-Chicago-Cincinnati facsimile network series.

April 15 □ Eugene O. Sykes retires after 12 years on Federal Radio Commission and FCC to enter private law practice; is succeeded on FCC by Frederick I. Thompson, publisher, Montgomery (Ala.) Journal.

May 1 □ Both houses of Congress establish radio galleries, largely due to efforts of Fulton Lewis Jr., MBS commentator. ■ Telecast of opening ceremonies of New York World's Fair marks start of regular daily television schedule by RCA-NBC in New York; first appearance of President on TV.

June 1 □ In accordance with mandate from membership, Associated Press board authorizes sale of AP news on sponsored broadcasts. ■ FCC lifts ban on sponsorship of international broadcasts, but sets limits on type of programming; fears of censorship immediately aroused.

July 15 □ NAB adopts code of self regulation which bars liquor advertising and sale of time for controversial issues; limits commercial time to 10% of program in evening. ■ Federal district court in New York grants RCA permanent injunction against WNEW's broadcasting Victor and Bluebird records without permission, in decision holding recording company, not artist, holds performance rights except where contract places them with artist; RCA plans to offer license to stations.

Aug. 1 □ New FCC rules governing broadcasting become effective, with station licenses extended from six months to one year and horizontal power increases for qualified local and regional stations.

Aug. 15 □ Angered by refusal of American Society of Composers, Authors and Publishers to offer terms for new music-performing licenses, NAB Copyright Committee retains Sydney Kaye, New York copyright attorney, as special counsel to aid broadcasters in building their own source of music. ■ James L. Fly, general counsel of Tennessee Valley Authority, named by President and confirmed by Senate to succeed Frank R. McNinch, retiring as FCC chairman Sept. 1.

Sept. 1 □ Appellate court rules that economic interest must be considered in issuing station licenses, scuttling FCC theory that competition does not constitute appealable interest; commission calls ruling body blow at American system of broadcasting.

Sept. 15 □ Special copyright convention of NAB unanimously approves \$1.5-million fund to set up its own supply of music. ■ Supreme Court of Pennsylvania, overruling lower court, finds NBC not liable for ad libbed remarks of

Al Jolson; ruling sets precedent that broadcaster is not liable for remarks spoken without warning by artist employed by sponsor using broadcaster's facilities. ■ Networks draft code for war coverage; goal is full, factual reporting with minimum of horror, suspense and undue excitement.

Oct. 15 □ NAB code committee, in first action, bars sponsored broadcasts of *Father Coughlin* and *Elliott Roosevelt* under "no sale of time for controversial issues" rule; some broadcasters say they'll resign from NAB.

Nov. 15 □ Elliott Roosevelt organizes *Transcontinental Broadcasting System*, to start operating Jan. 1 as fifth national network. ■ NAB board backs up code committee; John Shepard goes along by forfeiting payment for *Father Coughlin* broadcasts; four Texas State Network stations resign. ■ United Fruit Co. buys time on NBC's international stations for *daily newscasts to Latin America*; first advertiser to sponsor such broadcasts.

Dec. 15 □ *Triple FM relay* with program broadcast by one station picked up and rebroadcast by second, whose signal was again picked up and rebroadcast, without loss of quality.

1940

Jan. 1 □ Mexico's ratification of North American Regional Broadcasting Agreement, following similar actions by Canada, Cuba and United States, paves way for *shift in broadcasting frequencies* agreed on in Havana two years earlier. ■ NBC gets biggest news beat of 1939 with *eyewitness description of sinking of Admiral Graf Spee*, broadcast as it happened in Montevideo, Uruguay, harbor.

Jan. 15 □ *FM Broadcasters Inc.* is organized at New York meeting.

Feb. 1 □ U.S. Supreme Court decision in so-called Pottsville case gives FCC freer hand in dealing with *applications for new stations*, eliminating all questions of priority of filing.

Feb. 15 □ New "crackdown" era foreseen as FCC refers complaints on *Pot o' Gold* and other *give-away programs* to Department of Justice for possible action under anti-lottery laws.

March 1 □ FCC approves "*limited commercialization*" of television effective Sept. 1.

March 15 □ *Sun Oil Co.* becomes first sponsor to have programs regularly telecast; company's Monday-Friday Lowell Thomas newscasts on NBC-Blue are also carried on W2XBS. NBC experimental TV station in New York. ■ *RCA cuts price of television sets*, starts sales drive intended to put minimum of 25,000 in homes in service area of NBC's New York video station.

April 1 □ Supreme Court of U.S. upholds "free competition" stand of FCC General Attorney William J. Dempsey, emphasizes that Communications Act gives FCC "no supervisory control of the programs, of business management or of policy"; contains no order to consider effect of competition of new grant on existing stations. ■ *FCC suspends order for "limited commercial" operation of TV*, censures RCA for sales efforts which are seen as attempt to freeze TV standards at present level, calls new hearing; critics call move "usurpation of power."

April 15 □ *Justice Department* declines to prosecute *Pot o' Gold*. ■ FCC's new 42-page license application forms require so much information that many radio attorneys fear they will be virtually impossible to fill out.

May 1 □ *Westinghouse* terminates contract for

NBC management of sales and programs of KDKA(AM) Pittsburgh, KYW(AM) Philadelphia, WBZ(AM) Boston and WBZA(AM) Springfield, Mass., after nine years; will assume management of owned stations itself. ■ *Broadcast Music Inc.* acquires catalogue of M.M. Cole Music Publishing Co. as first major step toward building reservoir of music for broadcasters.

May 15 □ *Justice Department* subpoenas *ASCAP files*.

June 1 □ *FCC authorizes commercial operation for FM*, assigns it 35 channels 200 kc wide between 43 and 50 mc; puts *television back into laboratory* until industry reaches agreement on standards. ■ Henry W. Grady School of Journalism of U. of Georgia institutes *George Foster Peabody awards* for radio; first awards to be given in 1941 for achievements of 1940.

June 15 □ *James C. Petrillo* is elected president of American Federation of Musicians, succeeding Joseph N. Weber, retiring after 40 years as AFM head. ■ FCC Chain Monopoly Committee recommends *drastic changes in network operations*, such as limiting network ownership of stations and length of affiliation contracts, taking networks out of transcription and talent-booking business, forcing them to serve remote areas whether this is profitable or not.

July 1 □ Republican convention adopts *first radio plank ever put into political-party platform*, upholding application of constitutional principles of free press and free speech to radio; is also *first party convention to be telecast*.

July 15 □ *Niles Trammell* becomes NBC president, succeeding Lenox R. Lohr, resigned to head Chicago's Museum of Science and Industry.

Aug. 1 □ U.S. Circuit Court of Appeals upholds *right of broadcaster to put phonograph records on air without need to get permission* from either recording company or recording artists; reverses decision of federal district court in RCA-Whiteman-WNEW case. ■ *Democrats also adopt "free radio" plank* for party platform, urging radio be given same protection from censorship as press. ■ *BMI ships transcriptions* with more than 50 non-ASCAP numbers to member stations; first product of plan to make stations musically independent.

Aug. 15 □ *National Television Systems Committee*, representing TV manufacturers and broadcasters, organizes to seek determination of proper standards for TV.

Sept. 1 □ *CBS demonstrates system of color television* developed by its chief TV engineer, Dr. Peter Goldmark.

Sept. 15 □ *Assignment shifts affecting 777 standard broadcasting stations* in U.S. are ordered by FCC for March 29, 1941, in accordance with North American Regional Broadcasting Agreement reached in Havana in December 1937.

Nov. 1 □ President Roosevelt withdraws nomination of *Thad H. Brown* for new seven-year term as FCC commissioner at Brown's request, after Senate recesses without acting on appointment, which met rigorous opposition.

Dec. 1 □ *BMI* acquires performing rights to more than 15,000 compositions in catalogue of *Edward B. Marks Music Corp.* in last month of preparations for broadcasters' break with ASCAP.

Dec. 15 □ *Edward J. Noble*, chairman of Life Savers Corp., buys WMC(AM) New York from Donald Flamm for \$850,000.

1941

Jan. 1 □ After FCC approves *transfer of WMC*A to E. J. Noble, former owner Donald Flamm asks commission to reconsider and dismiss sale. ■ Department of Justice prepares *criminal suits against ASCAP, BMI and broadcasting networks and groups* for music monopoly; U.S. Supreme Court will review state anti-ASCAP laws; broadcasters are confident they'll win their battle against music monopoly. ■ Formation of *Latin American CBS network* of 39 longwave and 25 shortwave stations in 18 countries is announced by CBS President William S. Paley on return from seven-week tour.

Jan. 13 □ After more than 10 years of semi-monthly publication, *BROADCASTING* becomes a weekly.

Jan. 20 □ In what was to become famous as "*Mayflower Case*" (primarily decided on other grounds), FCC held that broadcasters could not editorialize.

Jan. 27 □ *BMI and Department of Justice agree on terms of consent decree*. ■ *Press Association Inc.* is formed as new subsidiary of Associated Press to handle news for radio.

Feb. 10 □ Clear-channel stations form *Clear Channel Broadcasting Service*, name *Victor A. Sholis*, former public relations chief of Department of Commerce, as director, with Washington headquarters. ■ U.S. Court of Appeals for District of Columbia, in series of decisions, holds itself powerless to issue *stay orders* enjoining FCC from putting its rulings into effect unless public interest would be adversely affected, and then solely on questions of law.

Feb. 24 □ *ASCAP accepts government consent decree*; will offer broadcasters both blanket and per-piece licenses. ■ AFM President James C. Petrillo, in ruling aimed at American Guild of Musical Artists, orders *AFM members not to perform with any instrumentalist who is not AFM member*.

March 3 □ *Shortage of recording blanks* foreseen as Office of Production Management places aluminum in "much needed" category, giving defense program first call.

March 10 □ *Ray C. Wakefield* is nominated for FCC to fill place vacant since June.

March 17 □ General Foods signs unprecedented contract with *Jack Benny* giving comedian control of his Sunday-night period on NBC Red network at its termination, whether or not he continues under GF sponsorship.

March 24 □ FCC orders public hearings on *newspaper ownership of radio stations*.

March 31 □ Group of nearly 100 newspaper publishers with radio interests names *Mark Ethridge*, Louisville (Ky.) *Courier-Journal* (WHAS), chairman of steering committee to oppose governmental action outlawing newspaper ownership of stations; 292 of country's 893 broadcasting stations are newspaper-affiliated. ■ *Wholesale switch of frequencies* in compliance with Havana treaty goes through without hitch.

April 28 □ President Roosevelt drafts *Mark Ethridge* to undertake *survey of entire broadcasting situation*. ■ Newspaper stations elect *Harold Hough*, *Fort Worth Star-Telegram* (WBAP-KGKO), chairman of steering committee; appoint *Thomas D. Thatcher*, former solicitor general, as chief counsel; vote \$200,000 for hearing expenses.

May 5 □ FCC authorizes *full commercial operation for TV* as of July 1, fixes standards at 525

lines, 30 frames, FM sound. ■ *Major reorganization of radio network operations* is called for by FCC network monopoly report, which would ban option time, exclusive affiliations, ownership of more than one station in market or operation of more than one network by same interests.

May 12 □ *MBS signs ASCAP blanket license* at 3% of gross for four years, 3½% until 1950, on eve of NAB convention; NBC, CBS continue negotiations for better terms.

May 19 □ Industry's stormiest convention votes *fight to finish against FCC monopoly rules*, backs plan for Senate investigation of FCC, asks legislation to aid broadcasters, and angers FCC Chairman James L. Fly into rebuttal in which he describes NAB as akin to "a mackerel in the moonlight—it both shines and stinks." ■ NAB President Neville Miller urges broadcasters to *stand by BMI*, condemns MBS-ASCAP pact; several MBS stockholder stations resign from NAB; 39 MBS affiliates organize to investigate ASCAP deal, tell MBS they won't accept ASCAP music.

May 26 □ *BMI growth continues*; has 190 affiliated publishers, 690 station members.

June 2 □ *CBS withdraws from talent management field*, sells Columbia Artists Bureau to Music Corp. of America for \$250,000, Columbia Concerts Corp. to its present management. ■ FCC amends rules so "any person" can petition for change in rules of practice or procedure; formerly only "applicant" had that right. ■ Socony-Vacuum Oil Co. becomes *first FM network sponsor* by signing for newscasts on American Network, FM network serving New England.

June 30 □ Bulova Watch Co., Sun Oil Co., Lever Bros. Co. and Procter & Gamble sign as *sponsors of first commercial telecasts* on July 1 over NBC's WNBT(TV) New York (until then W2XBS); first TV rate card puts WNBT base rate at \$120 per evening hour.

Aug. 4 □ *NBC reaches agreement with ASCAP* calling for blanket licenses with network to pay 2-3¼% of net time sales, stations 2¼%; stations' approval needed.

Aug. 11 □ FCC adopts *order banning multiple ownership* of stations in same area.

Sept. 1 □ After arguments by broadcasters, broadcast unions and others, Senate Finance Committee *deletes tax on time sales* from 1941 Revenue Act.

Sept. 8 □ Completion of arrangement for *92-station Pan American Network* to rebroadcast NBC programs shortwaved from U.S. is announced by John F. Royal, NBC vice president, on his return from six-week, 20,000-mile tour of Latin America.

Oct. 13 □ *FCC extends license term* for standard broadcasting stations from one to two years.

Nov. 24 □ *BMI offers new eight-year blanket licenses* at 25% reduction from original one-year contracts, covering both commercial and sustaining programs, with clearance at source on network shows.

Dec. 8 □ *NBC separates Red and Blue networks* by setting up Blue Network Co. with *Mark Woods* as president, Edgar Kobak as executive vice president.

Dec. 15 □ *Defense Communications Board* becomes supreme communications arbiter with the U.S. at war; plan is to keep broadcasting on as normal operations as possible. ■ *Dr. Frank Conrad*, assistant chief engineer of Westinghouse known as father of broadcast-

ing for his pioneering achievement, dies of heart attack at 67. ■ President Roosevelt's broadcast to nation on Dec. 9, day after war was declared, has *largest audience in radio history* (about 90 million) and highest ratings (CAB, 83; Hooper, 79).

Dec. 22 □ *Byron Price*, executive news editor of Associated Press, is appointed director of new censorship bureau. ■ U.S. Weather Bureau *bans weather broadcasts* for duration. ■ *Thomas A. McClelland*, chief engineer of KLZ(AM) Denver, on duty as ensign with USNR at Pearl Harbor, was killed in action during Japanese attack Dec. 7, radio's first casualty of war.

Dec. 29 □ *J. Harold Ryan*, vice president, Fort Industry Co., is named assistant director of censorship, in charge of broadcasting.

1942

Jan. 5 □ Department of Justice files *antitrust suits against NBC and CBS*. ■ *Manila radio stations* are "dismantled and destroyed" to keep them from falling into hands of Japanese.

Jan. 19 □ *Censorship code* outlaws man-on-the-street and other ad-lib interviews and quiz programs. ■ *Office of Facts and Figures* is designated as clearing house for governmental broadcasts, with *William B. Lewis*, former CBS program vice president, as coordinator.

Feb. 2 □ *Broadcasters' Victory Council* is formed as liaison with all government agencies having wartime radio functions; chairman is *John Shepard 3d*, president, Yankee Network. ■ *FCC shuts off construction of new stations* in all areas now getting primary service, pending formal orders from War Production Board freezing broadcast assignments for duration. ■ ASCAP approves *clearance at source* on transcribed programs.

Feb. 23 □ *Advertising Council* is organized by advertisers, agencies and media to put talents and techniques of advertising at disposal of government to inspire and instruct public concerning various phases of war effort. ■ *CBS cuts time allowed for commercials on newscasts* by 20%, bans jingles or other "undue gaiety," puts restrictions on middle commercials.

March 23 □ Office of Censorship *forbids any mention of weather* on baseball broadcasts. ■ Committee on War Information issues *war policies*, pledges that public will get bad news as well as good, so long as no aid is given to enemy.

March 30 □ *Edward Klauber*, CBS executive vice president, is elected to new post of chairman of executive committee; *Paul W. Kesten* becomes vice president and general manager, with all departments reporting to him except programing, which reports to President William S. Paley.

April 13 □ *Minimum program time required of TV stations* is cut from 15 hours to four hours per week for war period. ■ U.S. Supreme Court upholds power of U.S. Court of Appeals for District of Columbia to issue orders staying FCC decision during pendency of appeals; decision, called major legal victory for broadcasters, comes after three years of litigation by Scripps-Howard Radio on behalf of WCPO(AM) Cincinnati.

April 20 □ War Production Board cuts *supply of shellac* for phonograph records to 30% of preceding year's figure; transcriptions, made of vinylite, are not affected.

May 4 □ FCC issues *freeze order on station construction*.

May 18 □ *NAB convention* by-passes reorganization proposals, votes to set up industry-operated equipment pool, admits networks to active membership. ■ *Keystone Broadcasting System*, transcription network, holds first meeting of some 50 affiliated stations.

June 1 □ FCC eases *operator requirements* to meet shortage.

June 15 □ *CBS revises its discount structure* to include new 15% discount for advertisers using full CBS network of 115 stations.

June 22 □ President Roosevelt creates *Office of War Information*, appoints *Elmer Davis*, CBS commentator, as its director.

June 29 □ American Federation of Musicians notifies recording companies that after July 31 no AFM member will play for recordings of any kind.

July 13 □ *Gardner Cowles Jr.*, publisher-broadcaster, is named assistant director of OWI in charge of all domestic operations; *William B. Lewis*, former CBS program vice president and radio chief of Office of Facts and Figures, heads radio bureau of Cowles' branch of OWI.

July 20 □ *Broadcasting is declared essential industry* by Selective Service System.

Aug. 3 □ Justice Department asks injunction as AFM President *Petrillo refuses to cancel strike* against recordings.

Aug. 24 □ *Ratings battle begins* when OWI asks why C. E. Hooper Inc. shows audiences up in 1942 over 1941, while Cooperative Analysis of Broadcasting reports decline.

Sept. 7 □ *AFM makes record ban complete* by canceling permission previously given to members to make commercial transcriptions for one-time air use.

Oct. 12 □ *Radio time contributed to government* would cost \$64 million yearly at regular commercial rates, Elmer Davis, OWI director, states in testimony before House Appropriations Subcommittee.

Nov. 2 □ *Government leases shortwave stations* from private owners; Office of War Information and Coordinator of Inter-American Affairs to handle programing.

Nov. 16 □ *Dr. Miller McClintock*, executive director of Advertising Council, is named first paid president of MBS.

Nov. 23 □ FCC adopts *wartime equipment pool plan* for all licensees.

Dec. 21 □ *General Tire & Rubber Co. contracts to buy Yankee Network*, its four AM and two FM stations, for \$1.2 million.

1943

Jan. 4 □ Office of War Information asks stations to clear quarter-hour, Monday-Friday strip for important *war-information broadcasts*, which will be available for local sponsorship.

Jan. 25 □ House approves *Cox resolution to investigate FCC*; Rep. Eugene Cox (D-Ga.) attacks FCC as "nastiest nest of rats in this entire country."

Feb. 15 □ AFM proposes recording companies pay *fixed fee for each recording* into union unemployment fund, amount to be negotiated, as price of ending strike; transcriptions for one-time use exempted.

March 1 □ *Recording companies reject Petrillo "fixed fee"* plan as involving unacceptable philosophy that recording industry has "special obligation to persons not employed by it." ■ FCC adopts policy to *protect applications for TV and FM facilities* until end of war.

March 8 □ *First Alfred I. du Pont awards* of \$1,000 each for public service broadcasting go to KGEI, General Electric shortwave station, and Fulton Lewis Jr., MBS commentator.

May 17 □ *Supreme Court upholds right of FCC to regulate broadcasting practices*, specifically to compel compliance with its network monopoly rules; networks rush to work out new contracts with affiliates by June 14 deadline; exclusivity is forbidden, option time curtailed.

May 24 □ Supreme Court rules *FCC erred in breaking down 850 kc channel* and assigning WHDH(AM) Boston full time on that frequency without hearing testimony from its occupant, KOA(AM) Denver; decision seen as guaranteeing right of stations for full hearing before their service is modified by commission order, with burden of proof on applicant.

June 21 □ CBS affiliates open drive to bar *hitch-hike, cow-catcher announcements*. ■ Assn. of Radio News Analysts adopts *code opposing censorship*; Paul White, CBS news director, insists on right to "edit."

July 5 □ House Select Committee opens *hearings on FCC* with charges of gross inefficiency and interference with war effort. ■ Transcription companies ask *War Labor Board* to help after AFM President Petrillo tells committee the union will "make no more transcriptions for anyone at any time."

July 12 □ *Decca Records buys World Broadcasting System*; PL. Deutsch to continue as president with five-year contract.

July 19 □ CBS tests *program analyzer* to find out what makes people listen; device is invention of Paul Lazarsfeld, director of Office of Radio Research at Columbia University, and Frank Stanton, CBS vice president.

July 26 □ *War Labor Board* accepts jurisdiction in *AFM recording ban*, but fails to order union to return to work for transcription companies.

Aug. 2 □ *Edward J. Noble buys Blue Network* from RCA for \$8 million cash; will dispose of WMCA(AM) New York.

Aug. 8 □ *Plan to end AFM recording strike* by getting broadcasters to agree to pay performance fees to union for all musical record broadcasts and to work for legislation giving copyright in records to both recording artist and recording company finds little favor among broadcasters. ■ *Edward Klauber* resigns as CBS director and chairman of executive committee because of ill health.

Aug. 30 □ MBS plans to use 3-5 p.m. time for *recorded repeats* of top evening network programs; offers free time to advertisers during test period of 13 weeks.

Sept. 13 □ *General Dwight D. Eisenhower* himself broadcasts news of Italy's surrender, first such event to be announced by radio.

Sept. 20 □ CBS acts to eliminate "cow-catcher" and "hitch-hike" announcements. ■ NAB news and public-relations committee adopts resolution on editorializing on air, that management must have final say as it is responsible to public as licensee.

Sept. 27 □ *Decca Records and World Broadcasting System* sign with AFM, agree to pay royalties direct to union.

Oct. 11 □ *CBS President William S. Paley* accepts overseas psychological warfare assignment with Office of War Information; board elects Paul W. Kesten executive vice president.

Oct. 18 □ *Mark Woods* remains as president of Blue Network and *Edgar Kobak* as executive vice president as *Edward J. Noble* assumes

ownership. ■ Government drops antitrust suits against networks; MBS dismisses its action against RCA-NBC.

Oct. 25 □ *Four transcription firms*—Associated Music Publishers Lang-Worth, C. P. MacGregor and Standard Radio—*sign with AFM*; NAB denounces principle of direct payment to union as "vicious." ■ Treasury Department and OWI permit *sponsorship of war-bond announcements* for first time; OWI rejects idea of government itself buying time.

Nov. 8 □ *R. Morrie Pierce*, chief engineer of WGAR(AM) Cleveland, on leave with OWI, is revealed as having had major role in surrender of Italian fleet, broadcasting surrender terms from "baling wire" transmitter he built at Algiers.

Nov. 29 □ *FCC bans multiple ownership of standard-broadcast stations in same area*, effective immediately for new grants, effective June 1, 1944, for existing "overlapping" situation. ■ *Edward Klauber*, former chairman of CBS executive committee, becomes associate director of OWI, succeeding Milton S. Eisenhower.

Dec. 20 □ *FCC extends broadcast licenses* to total of three years.

1944

Jan. 17 □ FCC decides not to adopt any general rule on *newspaper ownership* of radio stations but to consider all applications on individual merits; announcement ends three years of uncertainty. ■ NBC makes its *programs available to FM outlets* of its AM affiliates without charge to sponsors until increased audience warrants it. ■ Some 6,000 *radio-station and network employees*, nearly quarter of industry total, *are in armed forces*, BROADCASTING survey reveals.

Jan. 31 □ FCC and War Production Board *ease construction ban*, permitting new stations where such grants would serve "outstanding public need or national interest." ■ *CBS makes its programs available for FM stations* of AM affiliates at no charge to sponsors.

Feb. 7 □ *J. Harold Ryan*, assistant director of censorship, is elected president of NAB for interim period. ■ *Television Broadcasters Association*, organized in January, elects *Allen B. DuMont* as first president.

Feb. 14 □ *Governor John W. Bricker* of Ohio urges legislation to restrict FCC and keep radio as free as press.

March 6 □ *MBS restricts commercial religious programs* to Sundays before 1 p.m., limits to half-hour, bans fund appeals.

May 1 □ CBS proposes starting off *postwar TV* with high-definition, full-color pictures, broadcast on 16 mc bands.

May 8 □ Military authorities and radio networks discard traditional taboos to cooperate in providing American public full and immediate *reporting of invasion of Europe by Allied forces*.

May 22 □ Single ownership of five TV stations is permitted by FCC, up from former limit of three.

June 5 □ Purchase by *Sol Taishoff* and wife of 50% interest in BROADCASTING owned by Mr. and Mrs. Martin Codel gives Taishoffs full ownership of magazine founded by Taishoff and Codel in October 1931. Taishoff becomes publisher of BROADCASTING, post held by Codel, and continues as editor. ■ Colgate-Palmolive-Peet Co. notifies stations to *suspend all spot*

and station-break announcements for 24 hours or longer after news of invasion breaks.

June 12 □ Radio gives nation news of *invasion of Europe by Allied forces*. ■ Allied Expeditionary Forces inaugurate *broadcasting service for troops* invading Europe, under direction of Colonel *Edward M. Kirby*, former NAB public relations director.

June 19 □ National War Labor Board orders *prompt settlement of recording dispute* between RCA, CBS, NBC and AFM with union to let members resume work for those companies; calls for negotiation of settlement agreement within 15 days; AFM refuses to let members work for those companies until they accept same terms as other recording firms.

July 31 □ *MBS plans to outlaw hitch-hikes, cow-catchers* next year.

Aug. 14 □ *NBC announces it has completely eliminated hitch-hikes and cow-catchers* from all programs it broadcasts.

Sept. 25 □ *Chester J. LaRoche*, former chairman of Young & Rubicam, is elected vice chairman of Blue Network board, making him operating head of network.

Oct. 2 □ FCC opens *hearings on postwar allocations* with testimony of Radio Technical Planning Board that agreement had been reached to recommend 41-56 mc band for FM, TV allocations to extend upwards from there. ■ *Democrats begin five-minute broadcasts*, using last part of popular half-hour network shows where advertiser will clear them.

Oct. 9 □ *CBS*, in testimony presented by Paul Kesten, executive vice president, asks for *more space for FM*, with TV being moved to UHF part of spectrum above 300 mc.

Oct. 16 □ *Muzzak Corp.*, now owned by William B. Benton, asks FCC for "suitable number" of FM channels for noncommercial subscription-broadcasting service, nonsubscribers to get "pig squeal." ■ AFM President Petrillo rejects *direct appeal of President Roosevelt* to call off recording strike against RCA, CBS, NBC.

Oct. 23 □ *Invasion of Philippines* is first announced by radio from floating broadcasting station off Leyte; Major A.A. Schechter, former NBC News chief, directs radio coverage. ■ Morris Pierce enlists cooperation of armored division to capture *Radio Luxembourg* intact, giving OWI 150 kw transmitter to use in support of advancing Allied armies.

Nov. 6 □ *Edgar Kobak* resigns as executive vice president of Blue Network to become president of Mutual. ■ *Chairman James Lawrence Fly* resigns from FCC to open own law office in New York.

Nov. 20 □ *Paul Porter*, former CBS attorney, wartime government official, publicity director of Democratic National Committee, is nominated for FCC. ■ *RCA, CBS and NBC give up fight against AFM*, submit to royalty payments to union unemployment fund. ■ *Broadcast Measurement Bureau* plan is approved by ANA and AAAA; NAB appropriates \$75,000 for first year's operation.

Nov. 27 □ WJWJ(AM) Detroit bans all *transcribed announcements* as of Feb. 1, 1945. ■ Blocking AFM plans to take over transcription handling, National Labor Relations Board certifies *National Association of Broadcast Employees and Technicians*, technicians union, as bargaining unit for all NBC and Blue-owned stations outside Chicago (where AFM local already has contract).

Dec. 4 □ *Robert D. Swezey*, general counsel of Blue Network, moves to Mutual as vice presi-

Thanks, Broadcasting,
for fifty years of support and
service to our station
and to the industry.

For fifty years you've been our source of information and support. During that time you've never forgotten the importance of the individual stations. We've never suffered from benign neglect.

You've been a good friend and neighbor.
A toast to the next 50 years.

dent and assistant general manager.

Dec. 18 □ First convention of *Television Broadcasters Association* has attendance of 750; calls for united effort to get TV started properly; elects *J.R. Poppele*, WOR(AM) New York chief engineer, as president. ■ FCC adopts rule calling for *disclosure of identity* of person or organization sponsoring or supplying program; NAB convinces commission words "paid for" are not necessary.

Dec. 25 □ *Paul Porter* is sworn in as FCC chairman on recess appointment of President when Congress adjourns without confirming him. ■ FCC transfers owned-station licenses, ratifying change of Blue Network to *American Broadcasting Co.*

1945

Jan. 8 □ *NABET* walks out of negotiations with NBC, ABC; takes its case to National Labor Relations Board. ■ *Hugh M. Feltis* resigns as general manager, KFAB(AM) Omaha, to head Broadcast Measurement Bureau.

Jan. 16 □ FCC announces *allocations proposals*; TV band is divided; FM moved to 84-102 mc to disappointment of its advocates who had hoped to keep it in 50 mc area.

Jan. 29 □ *Cecil B. DeMille*, refusing to pay special American Federation of Radio Artists \$1 assessment to oppose so-called "right to work" proposition on previous November's ballot and failing in his court fight to prevent his suspension by union, can no longer appear on *Lux Radio Theater* broadcasts.

Feb. 12 □ *Liberation of Manila* completely covered by radio; highlight is broadcast by Bert Silen, released from Santo Thomas internment camp, who told NBC audience: "As I was saying when I was so rudely interrupted over three years and a month ago..." (He had been broadcasting on NBC when Japanese bombs destroyed Philippine transmitter). ■ *AFM* tells members not to appear on television until further notice; stations not notified.

April 16 □ Radio covers *death of President Roosevelt*; commercial program discarded for tributes; commercial announcements eliminated; only news and music retained.

April 23 □ Philco Corp. dedicates world's *first multi-relay network* between Philadelphia and Washington, seen as forerunner of nationwide television networks.

May 14 □ Pooled coverage of *Nazi surrender* brings American people full details of end of war in Europe; for broadcasters V-E Day means end of ban on man-in-the-street programs, request numbers and other wartime program restrictions, but continued demands for men and material mean that freeze on new construction won't be lifted until V-J Day.

May 21 □ FCC *allocates spectrum space above 25 mc* with exception of 44-108 mc; delays decision as to placement of FM propagation studies to be made by FCC and industry engineers.

June 4 □ In joint request, *FM Broadcasters Inc. and Television Broadcasters Association* ask FCC to allocate 44-108 mc immediately; FM to get 50-54 mc for educational use, 54-68 mc for commercial operation; TV to receive 68-74 mc and 78-108 mc. ■ Stations object to FCC questions on *commercial-versus-sustaining* time; point out that sponsorship does not prevent program from being public service and that commercial-sustaining ratio is not true measure of operation in public interest.

June 11 □ *Frank Stanton*, vice president of CBS, is elected director and appointed general manager; vice presidents Joseph H. Ream and Frank K. White also elected directors of CBS.

July 2 □ FCC *allocates FM* to 88-106 mc band; TV: ch. 1, 44-50 mc; ch. 2-4, 54-72 mc; ch. 5-6 76-88 mc.

July 9 □ FCC *eases rules on transcription identifications*, dropping requirement for identifying each record played and leaving language up to broadcaster.

July 23 □ Associate Justice *Justin Miller* is picked as new NAB president, to assume office Oct. 1 for five-year term.

Aug. 6 □ FCC adopts new provisions requiring licensees to file *annual ownership reports*, plus interim reports on changes in "policy-making personnel"; ownership data to become public record but network and transcription contracts and financial data not to be open. ■ FCC, by 4 to 3 vote, approves *sale of Crosley Corp.*, including wlv Cincinnati, to Aviation Corp. for \$21 million. ■ Westinghouse discloses "*stratovision*" plan for airborne television transmitters to serve as relay stations for TV and FM programs as networks without wire connections.

Aug. 13 □ FCC decides *financial data* it collects will be kept confidential or disclosed at commission's discretion; to broadcasters' protests that disclosing their financial affairs would put them at disadvantage with competitive media, Commissioner Clifford Durr replies that newspapers and magazines are private; radio is public. ■ FCC announces that on Oct. 7 it will start acting on applications in its pending files, presaging *radio's greatest construction boom*. ■ NAB chooses *A.D. Willard*, manager of WBT(AM) Charlotte, N.C., as executive vice president at \$25,000 per year; replaces code with standards of practice that leave vital question of selling time for controversial topics up to individual station operator. ■ *Representative Emanuel Celler (D-N.Y.)* demands that FCC "crack-down" on broadcasters, pay more attention to renewals of station licenses, order designated hours set aside for sustaining educational and cultural programs, pass on station sales prices, and criticize programs for having too much "corn," commercial content and boogie-woogie.

Aug. 20 □ Radio tells world of Japanese acceptance of Potsdam terms and *end of World War II*.

Sept. 10 □ Approving sale of Crosley radio properties to Avco by 4-3 vote, FCC announces "*open bid*" proposal for future station sales, permitting number of applicants to compete for acquisition of any station put on market with FCC determining successful buyer on same basis as awarding new facility.

Sept 17 □ FCC issues rules and regulations for *FM broadcasting*. ■ *Associated Broadcasting Corp.* puts fifth national network on air.

Sept 24 □ FCC issues plan for distribution of *13 VHF channels among 140 markets*. ■ *Mark Woods*, ABC president, resumes active direction of network as Chester J. LaRoche drops executive duties.

Oct. 1 □ Networks sign *NABET contract*, including recognition of platter-turning jurisdiction.

Oct. 22 □ James C. Petrillo, AFM president, tells networks that *dual broadcasting* of musical programs on FM as well as AM outlets violates their AFM contracts. ■ *FMBI* board votes to merge with NAB, which will establish an

autonomous FM division.

Nov. 5 □ President Truman opens *radio news gallery* broadcast room in Senate wing of Capitol.

Nov. 26 □ BROADCASTING becomes BROADCASTING ● TELECASTING with first appearance of TELECASTING on cover and masthead. ■ New FCC *television-allocations plan* follows proposals of Television Broadcasters Association, assigns seven channels each to New York, Chicago and Los Angeles, gives additional channels for 33 other cities, sets 28 hours per week as minimum operating schedule.

Dec. 10 □ U.S. Supreme Court rules that *FCC must hear all mutually exclusive applications* before making grants; reverses grant to WJEF(AM) Grand Rapids, Mich.; sustains appeal of WKBZ(AM) Muskegon, Mich.

Dec. 17 □ *Licensees must retain control of programs*, U.S. District Court for New Mexico rules, outlawing contract whereby KOB(AM) Albuquerque, N.M., was to turn over one hour of broadcast time each day to New Mexico College of Agriculture and Mechanical Arts.

Dec. 24 □ FCC announces *tentative allocations plan for FM*, providing for over 1,500 FM stations; makes 32 more conditional grants, bringing total to 229.

1946

Jan. 14 □ *William S. Paley* is elected board chairman of CBS; *Paul W. Kesten* becomes vice chairman; *Frank Stanton* is elected president.

Jan. 28 □ After two days of hearings, FCC denies petitions of Zenith and General Electric, rules that *FM will stay at 88-108 mc*. ■ Achievement of *John H. DeWitt* in "shooting the moon" is sensation of Institute of Radio Engineers convention; report details how chief engineer of WSM(AM) Nashville, as Army Signal Corps officer, bounced radar signal off earth's satellite some 240,000 miles away and got echo back.

Feb. 4 □ *General Mills* allocates \$5 million, half its advertising budget, for radio in 1946. ■ CBS demonstrated *color-television* film program broadcast from its new UHF transmitter; says with industry cooperation color for home can be available within year.

Feb. 18 □ *Charles R. Denny Jr.* becomes acting chairman of FCC as Paul Porter is drafted to head Office of Price Administration. ■ First *Washington-New York telecast* through AT&T coaxial cable is termed success by engineers and viewers.

Feb. 25 □ House approves *Lea Bill* to outlaw union excesses, chiefly those of AFM against radio, by 222-43 vote. ■ Westinghouse report on *Stratovision* reveals that usable signals transmitted with 250 w from altitude of 25,000 feet have been picked up 250 airline miles away.

March 4 □ NARBA signatory nations negotiate *three-year interim agreement*; clear-channel stations protest compromise that gives Cuba right to use five U.S. clear channels, foreseeing damaging interference. ■ *Donald Flamm*, former owner of WMCA(AM) New York, wins \$350,000 verdict against Edward J. Noble, ABC board chairman, in New York Supreme Court; jury upholds Flamm's charge he was forced to sell station to Noble in 1940.

March 11 □ FCC issues 139-page report on "Public Service Responsibility of Broadcast

**FROM THE FROZEN
WASTELANDS OF THE
ANTARCTIC,**

**TO THE SEARING
DESERTS OF KUWAIT,
AND**

1,700 +

**BROADCAST
TRANSMITTERS

Licensees," soon nicknamed "*The Blue Book*," which lists carrying of sustaining programs, local live programs and programs devoted to discussion or public issues, along with elimination of advertising excesses, as factor to which FCC will give "particular consideration" when asked to renew station licenses; NAB declares basic freedoms of radio are at stake.

March 18 □ FCC makes *first postwar full grants* of construction permits for commercial FM stations.

April 1 □ ABC adopts elaborate system for *recording and rebroadcasting network programs* developed by Charles E. Rynd, network vice president, to keep them on air at same hour locally despite variations in time from city to city as some adopt daylight time, others remain on standard time.

April 22 □ *President Truman signs Lea Act*, drafted to stop featherbedding practices of unions; AFM plans court test of law's constitutionality. ■ If FCC adopts Avco "auction" plan it will also seek *control of station sales prices*, Charles R. Denny, acting chairman, tells hearing on open-bidding proposal. ■ CBS *color television program is successfully transmitted* over 450-mile coaxial cable link from New York to Washington and back.

April 29 □ Associated Press votes to admit *stations as associate members*, in recognition of "radio as a great medium for the dissemination of news"; stations to have no vote in AP affairs. ■ *World Wide Broadcasting Corp.* wins fight for return of shortwave stations when Board of War Communications rescinds order of Nov. 4, 1942, seizing WRUL and other World Wide transmitters. ■ *CBS presents plan for FM network of 200 stations*, with five superpower AM stations providing nighttime coverage for remote areas; cost put at \$10.8 million to install, with \$4.8 million annual operating expenses.

May 6 □ *ABC buys King-Trendle Broadcasting Corp.* (WXYZ(AM) Detroit, WOOD(AM) Grand Rapids, Mich., and Michigan Radio Network) for \$3.65 million, subject to FCC approval; sale of network stock to raise \$15 million for this and other expansion planned. ■ Defying Lea Act, AFM President Petrillo notifies members *not to play for combined AM-FM programs*.

May 20 □ *Census Bureau* reports 90.4% of U.S. homes had radios in 1945, up 17.9% from 1940.

June 3 □ *AFM strikes WAAF(AM) Chicago* over station's refusal to hire three additional "musicians" to work as librarians in move seen as precipitating court test of Lea Act. ■ Proposed amendments to *Standards of Good Engineering Practice for FM* include designation of community stations as Class A, with maximum power raised from 250 w to 1 kw; metropolitan and rural stations to comprise Class B (adopted June 24).

June 10 □ AFM President James C. Petrillo tells union's convention that if Supreme Court upholds Lea Act as constitutional he will *forbid musicians to play on network* programs at expiration of present contracts on Jan. 31, 1947.

June 17 □ *FCC denies FM license* to WWD(AM) Washington because of plan to duplicate give-away program which commission holds of questionable legality. ■ *Major Edward Bowes*, originator of radio amateur show, dies after long illness on eve of 72d birthday.

June 24 □ *Telecast of Louis-Conn heavyweight title bout*, sponsored by Gillette Safety Razor Co. on four-city hook-up, reaches estimated

100,000 viewers, convinces skeptics that television is here. ■ *E. F. McDonald Jr.*, president of Zenith Radio Corp., in *Collier's* magazine article, declares advertising alone cannot support television; public must pay for TV programs as it does for movies, magazines, newspapers. ■ *Cooperative Analysis of Broadcasting* announces "temporary suspension" of service on July 31 after 17 years; Hooperatings made available to exclusive CAB subscribers.

July 22 □ Denying petition of *Robert Harold Scott* for revocation of licenses of three San Francisco stations for refusing him time for talks on atheism, FCC nevertheless warns that "if freedom of speech is to have meaning ... it must be extended as readily to ideas which we disapprove or abhor as to ideas which we approve." ■ FCC adopts plan to set aside for one year every fifth *Class "B" FM channel*.

July 29 □ Religious leaders of all faiths denounce FCC opinion in *atheism case*.

Aug. 5 □ *NAB membership* passes 1,000 mark. ■ Commission adopts watered-down version of *Avco plan* lacking features that broadcasters most strenuously opposed.

Aug. 12 □ FCC adopts *interim clear-channel policy* providing for consideration of some clear-channel applications with mutually exclusive nonclear-channel requests; industry puzzled whether this means breakdown of clears or not. ■ *Paul W. Kesten* resigns as vice chairman of board and director of CBS because of ill health; to continue to serve as a consultant.

Aug. 19 □ *Bing Crosby* signs \$30,000-per-week contract to do series for Philco, broadcast on ABC but transcribed in advance; deal is said to stipulate return to live broadcasts if program's rating falls below agreed-on level.

Sept. 23 □ *Drew Pearson*, columnist-commentator, and his former partner, Robert Allen, apply for facilities of Hearst Radio's clear-channel station, WBAL(AM) Baltimore, under "comparative consideration" clause of FCC rules.

Sept. 30 □ CBS petitions FCC to adopt standards and authorize *commercial operation of color-television stations* in UHF frequencies immediately. ■ *Licenses of AM stations* pass 1,000 mark.

Oct. 21 □ *AFM*, after demanding increases ranging from 233% to 566%, accepts record manufacturers' offer of flat 37½% increase in musicians' pay; asks transcription firms for \$50 per man to make commercial disks of one minute or less.

Oct. 28 □ Clear Channel Broadcasting Service proposes *realignment of clear channels* whereby 20 stations (five to each network) would get 750 kw power. ■ Promotional organization (subsequently named *FM Association*) is organized to foster growth of FM and succeed FMBI, now division of NAB.

Nov. 4 □ RCA demonstrates *all-electronic system of color TV*.

Nov. 11 □ Bristol-Myers is first advertiser to *sponsor television-network program: Geographically Speaking*, which started Oct. 27 on NBC-TV's two-station network.

Nov. 18 □ *Robert Harold Scott* gets time on KOW(AM) San Francisco to argue cause of atheism; more than 5,000 listeners write station to praise or condemn its grant of time for broadcast. ■ *Robert E. Kintner*, ABC vice president in charge of news, special events and publicity, is elected executive vice president.

Dec. 9 □ *Charles R. Denny* is promoted from acting chairman to regular chairman of FCC. ■

Federal District Court Judge Walter La Buy rules *Lea Act unconstitutional*, sustains motion of AFM President James C. Petrillo to dismiss charges of violating Lea Act in calling strike at WAAF(AM) Chicago; appeal to Supreme Court planned.

Dec. 16 □ Supreme Court upholds FCC in denying *license renewal to WOKO(AM) Albany, N. Y.*, for failure to disclose 24% interest held by Sam Pickard, former FCC commissioner and CBS vice president, for 12 years.

Dec. 23 □ FCC orders networks to *report on sustaining programs* for week of Nov. 17-23, making good on "Blue Book" promise to request this information every quarter.

1947

Jan. 13 □ *Roy Hofheinz*, KTHT(AM)-KOPY(FM) Houston, is elected president of new FM Association at first general meeting.

Jan. 27 □ *Receiver production* hit high of 15-million sets in 1946, Radio Manufacturers Association reports.

Feb. 3 □ *Competing color systems* are viewed by FCC as prelude to direct testimony at hearing on CBS petition for approval of commercial licenses for color-TV stations now.

Feb. 17 □ Money paid AFM by recording companies will be spent for *free public concerts*, James C. Petrillo announces; nearly \$2-million already collected.

Feb. 24 □ Tests prove *Stratovision feasible*, Westinghouse tells FCC.

March 24 □ *FCC denies CBS petition for commercial color-TV operation*, sends color back to labs for continued search for "satisfactory" system.

April 7 □ *Carl Haverlin*, MBS station-relations vice president, is appointed first paid president of BMI at salary of \$35,000 per year. ■ U.S. now has *35.9-million radio families* (93% of all homes) who listen total of 150.8 million hours per day, according to surveys made by Market Research Co. of America and A. C. Nielsen Co. for CBS.

April 21 □ *Justin Miller*, NAB president, urges stations to editorialize despite Mayflower edict.

April 28 □ *Fred Allen* uses gag about network vice presidents which NBC had ruled out and is cut off air while he tells it; story is front-paged across nation as advertising agency demands rebate for 35 seconds of dead air.

May 12 □ Senate votes to ban *union-controlled "slush funds"* in amendment to Labor Bill; would permit payments such as those made to AFM by record manufacturers only if funds are jointly administered by union and management.

May 26 □ *WGAR(AM) Cleveland* wins grant for 1220 kc and 50 kw after long fight with WADC(AM) Akron, Ohio, whose application was denied solely on program grounds, FCC states.

June 9 □ *AT&T files proposed rates for coaxial-cable intercity television program service*: base rate of \$40 per mile per month for eight-hour daily service is called exorbitant.

June 30 □ Within hour, *Taft-Hartley Act* becomes law and Supreme Court upholds constitutionality of *Lea Act* ban on featherbedding.

July 7 □ *Abolition of federal ban* on new construction lets broadcasters go ahead with building plans. ■ FCC proposes to approve sale of KMED(AM) Medford, Ore., to Medford Radio Corp. which matched prior offer of Gibson Broadcasting Corp.; decision is *first under*

PAUL GREGG AND JOE NOVIK KNOW WHAT IT TAKES TO DELIVER A TRANSMITTER SYSTEM THAT CUTS IT!

**INTRODUCING
ELCOM/BAUER.
REINTRODUCING
THE BAUER,
GRANGER,
SPARTA/CETEC
RADIO
TRANSMISSION
PRODUCT LINE.**

It's a whole new game from an experienced team that have gathered the industry people, engineering expertise and back-up products and spare parts inventory to take care of all past and future business.

Give Paul or Joe a call at their new 22,000 square foot manufacturing facility in Sacramento—that is, if you're interested in getting on the waiting list for a new AM or FM transmitter system from one of the newest, oldest names in the business:

(916) 381-3750

Elcom/Bauer Broadcast Products □ 6199 Warehouse Way □ Sacramento, CA 95826 □ (916) 381-3750 Telex: 377-331

AM Transmitters from 250 to 25,000 watts, FM from 250 to 50,000, and a line of indispensable audio processing equipment.

Nationwide and worldwide representatives names may be obtained from the factory.

Avco Rule "auction" provision in which approval went to competing bidder rather than to original "purchaser."

July 14 □ Brigadier General *David Sarnoff* becomes board chairman as well as president of RCA on retirement of former board chairman, General *James G. Harbord*.

July 28 □ FCC gets *largest peacetime budget* as Congress approves appropriation of \$6.2 million.

Aug. 4 □ Finch Telecommunications demonstrates *Colorfax*, full-color facsimile process.

Aug. 18 □ Survey of NAB member stations shows *average of commercial time* is 66%, sustaining 34%, well within "Blue Book" 80-20 ratio.

Sept. 1 □ RCA offers to help other manufacturers get started in *production of TV receivers* by disclosing complete technical data of RCA's own new model.

Sept. 22 □ FM Association convention plans aggressive promotion of FM in year ahead; *Everett L. Dillard*, founder and president of Continental (FM) Network, is elected FMA president.

Sept. 29 □ *National Association of Station Representatives* is formed at five-hour meeting in New York called by Paul H. Raymer and Edward Petry; goal is promotion of spot radio.

Oct. 6 □ National Association of Station Representatives files *complaint* with U.S. attorney general and FCC against CBS for assuming representation for nonnetwork sales of affiliates formerly represented by NASR members.

Oct. 13 □ *Charles R. Denny Jr.* resigns as FCC chairman to join NBC as vice president and general counsel. ■ *First telecast from White House* is made when President Truman addresses nation on food conservation.

Oct. 20 □ Government renews *prosecution of AFM President James C. Petrillo*; files amended bill of criminal information in U.S. District Court in Chicago.

Oct. 27 □ AFM orders members to *stop making recordings and transcriptions* as of Dec. 31 "and never again to make them."

Nov. 10 □ MBS subscribes to BMB, bringing all networks into *industry research organization* as earlier subscriptions of ABC, NBC, CBS had been conditional on network unanimity.

Nov. 17 □ *Television network service extends to Boston* with opening of AT&T radio relay system between that city and New York.

Nov. 24 □ Networks and AFM begin discussions for *renewal of contracts* after existing pacts conclude Jan. 31, 1948.

Dec. 1 □ AFM President Petrillo *calls off ban* on performing for network co-op programs.

Dec. 29 □ President Truman appoints *Wayne Coy*, director of *Washington Post* stations, as FCC chairman.

1948

Jan. 5 □ WFIL-FM, *Philadelphia Inquirer* station, starts regular transmission of two *facsimile editions* per day, eight-pager at 2:15 p.m., four-pager at 5 p.m.

Jan. 12 □ NBC plans *East Coast microwave relay system* for networking TV programs as alternative to AT&T coaxial cable. ■ *Westinghouse breaks with Clear Channel Broadcasting Service*, tells FCC that 20 superpower (750 kw) stations will not "adequately or economically solve the issues" of clear-channel proceeding.

Jan. 19 □ Federal Judge Walter La Buy again finds James C. Petrillo, AFM president, not guilty of violating Lea Act by causing *strike of librarians* at WAAF(AM) Chicago; Representative Clarence F. Lea (D-Calif.), author of act, calls verdict "unwarranted."

Jan. 26 □ *AT&T files FM tariffs*; base monthly airline-mile cost for 16 consecutive hours per day is \$10, compared to \$6 for AM.

Feb. 2 □ FCC by 4-to-2 vote in WHLS(AM) Port Huron, Mich., case, holds Section 315 of Communications Act to comprise "*absolute*" prohibition against station's censoring *political broadcasts*; states this federal prohibition will relieve station of responsibility for libelous material in political broadcasts. ■ RCA announces development of *16-inch TV picture tube*, first metal kinescope, with picture area of 125 square inches.

Feb. 9 □ *Western Union* reveals plans to enter TV network service, starting with microwave relay between New York and Philadelphia.

Feb. 23 □ FCC assigns band for *intercity TV relays* operated by broadcasters for interim period until permanent common-carrier facilities are available.

March 1 □ Senate Interstate and Foreign Commerce Committee orders FCC to hold up its clear-channel decision as Senator Edwin C. Johnson (D-Colo.), ranking minority member, introduces bill to *break down clear channels* and limit power to 50 kw.

March 8 □ FCC starts hearings on *right of stations to editorialize*.

March 15 □ *American Jewish Congress* petitions FCC for revocation hearing for KMPC(AM) Los Angeles, charging station with "slanting" news comments.

March 22 □ FCC holds three-day hearing on proposed *standards for facsimile broadcasting*.

March 29 □ AT&T files *new tariffs for intercity TV transmission*, substantially lower than those proposed year ago.

April 19 □ Court of Appeals for District of Columbia *reverses FCC's nonhearing grant* to Joseph P. Stanton of 10 kw daytime station at Philadelphia on WCKY(AM) Cincinnati's 1-B clear channel (1530 kc); rules that when licensee claims grant would adversely affect him he must be given opportunity to argue his cause and if argument indicates that his rights would be adversely affected, full-dress hearing on application must be held.

April 26 □ As Senate Commerce Committee closes hearing on Johnson Bill to break down clear channels, Acting Chairman Charles W. Tobey (R-N.H.) issues surprise order for new hearing to *investigate broadcast allocations, regulation and patent ownership*.

May 3 □ Affirming lower court's denial of injunction to WSAY(AM) Rochester, N.Y., to keep ABC and MBS from switching affiliations to other stations, U.S. Second Circuit Court of Appeals, New York, holds that *network is not common carrier* and can make whatever contracts it wishes for distribution of its programs.

May 10 □ Texas attorney general notifies FCC that despite its WHLS Port Huron decision, *Texas libel laws* are still in effect and "stations carrying libelous material will be subject to state laws." ■ FCC orders into effect earlier proposal *assigning TV ch. 1* (44-50 mc) to nongovernment fixed and mobile services, denying FM spokesmen's pleas for that channel for use in FM network relaying; gives FM stations in 44-50 mc band until end of year to move to 88-108 mc; issues proposed new expanded

TV allocation table; calls hearing on feasibility of TV use of frequencies above 475 mc; proposes required minimum hours of TV station operation be scaled from 12 hours per week for first 18 months to 28 hours per week after 36 months. ■ *House Un-American Activities Committee* to investigate station grants to Edward Lamb, Representative F. Edward Hebert (D-La.) states after speech accusing Lamb of having "Communist associations and affiliations."

May 24 □ NAB convention approves *new code*, considerably revamped from original version, as ideal toward which operation should be aimed. ■ *ABC makes public offering* of 500,000 shares of voting stock; it is all sold in less than two hours at \$9 per share.

May 31 □ President Truman nominates *Frieda Hennock* to FCC as first woman appointee. ■ FCC's denial of application by WADC(AM) Akron, Ohio, because it contemplated *full-time use of network programs* is upheld by U.S. Court of Appeals for District of Columbia, which splits 2-to-1 over whether decision involved censorship. ■ D.C. appellate court *refuses to rehear WCKY case*, in which it rules FCC should have heard WCKY Cincinnati before putting daytimer on its channel; appeal to Supreme Court foreseen.

June 7 □ Gulf Oil Corp. starts sponsorship of *We the People* on both CBS Radio and CBS-TV; *first regularly sponsored simulcast series*.

June 14 □ FCC authorizes *commercial use of facsimile broadcasting* on FM channels as of July 15; adopts rules and standards for printed broadcast medium. ■ Texas Co. puts old-style *vaudeville show on TV*; launches hour series on NBC-TV starring Milton Berle and with commercial delivered by Sid Stone, vaudeville pitchman.

June 28 □ *TV coverage of GOP convention* makes history, reaches 10-12 million persons, costs estimated \$200,000, is transmitted to Midwest viewers by Stratovision.

July 5 □ FCC officially adopts its "*Port Huron*" interpretation of political-broadcast law at outset of presidential campaign.

July 19 □ KPAC(AM) Houston asks court to set aside commission's views on *political broadcasting* and itself interpret the law.

July 26 □ FCC orders *investigation of station representation by networks* to see whether it violates commission's network regulations. ■ *Major E. H. Armstrong sues RCA* and NBC for alleged infringement of five of his basic FM patents. ■ *Give-away programs* on radio networks alone total \$165,000 a week, a BROADCASTING survey reveals. ■ Five Baltimore stations are charged with contempt of court for broadcasting wire-service dispatches of arrest and confession of man charged with two murders; press associations join NAB in *fight against "Baltimore gag" rule*.

Aug. 9 □ FCC proposes *rules for give-aways* which would bar practically all such programs from air. ■ *Frederic W. Ziv* buys World Broadcasting System from Decca Records for \$1.5 million. ■ House Select Committee starts *investigation of FCC* by questioning commission officials on their stand on political broadcasts.

Aug. 16 □ Westinghouse applies for *commercial use of Stratovision*.

Aug. 23 □ FCC proposes to *limit ownership of AM stations* to seven by any entity in line with existing limit of six FM and five TV stations.

Sept. 20 □ AFM President James C. Petrillo offers to *end eight-and-a-half-month-old ban*

on recordings; proposes royalty payments to be made to disinterested trustee, who would collect funds from recordings and use them to hire unemployed musicians, avoiding Taft-Hartley ban on direct payments to union.

Sept. 27 □ NBC proposes *new TV-affiliation contracts* calling for station to give NBC 30 hours of free time per month, while network assumes all connection costs; NBC sets objective of 28 hours per week of network service. ■ Philco asks court to force AT&T to transmit from New York to Boston TV programs sent via *Philco's own relay system* from Philadelphia to New York; charges AT&T with insisting its intercity facilities be used all way.

Oct. 4 □ FCC puts *freeze on TV licensing* and hearing functions, pending decision of changes in present TV standards.

Oct. 11 □ CBS purchases "*Amos 'n' Andy*" outright for \$2 million; makes strong effort to get Bergen and McCarthy away from NBC. ■ Court of Appeals for District of Columbia rules that *FCC must grant hearing to any station that claims it will be harmed by grant of another application*, even if interference would occur outside normally protected contour, in decision reversing nonhearing grant to put 1 kw daytime station at Tarboro, N.C., on 760 kw I-A clear channel of WJR(AM) Detroit.

Oct. 25 □ FCC rules that *equal-time provision* of Communications Act applies only to candidates competing against one another in same contest. ■ *Ultrafax*, high-speed communications system claimed to be capable of transmitting and receiving million words per minute, developed by RCA in cooperation with Eastman Kodak Co. and NBC is demonstrated.

Nov. 1 □ *Record companies and AFM reach agreement*; companies to pay royalties to "public music fund" administered by impartial trustee.

Nov. 22 □ *FCC orders hearing on news policies of G. A. Richards*, owner of KMPC(AM) Los Angeles, WJR(AM) Detroit and WGAR(AM) Cleveland. ■ *Association of Federal Communications Consulting Engineers* is organized by 26 consultants.

Nov. 29 □ CBS gets *Jack Benny* program; will start Jan. 2 in same Sunday evening period (7-7:30 p.m.) and with same sponsor (American Tobacco Co.) it had on NBC; *Edgar Bergen* deal awaiting Internal Revenue ruling; *Phil Harris-Alice Faye* show to remain on NBC for time being. ■ *Bulova Watch Co.* introduces plan for combining time signals with TV station-identification announcements; 1949 advertising budget includes \$500,000 for TV, \$3 million for radio. ■ Negotiations are in progress for *sale of ABC to 20th Century-Fox*. ■ U.S. Court of Appeals for District of Columbia reverses FCC on denial of *license renewal to WORL(AM) Boston*; calls action arbitrary, capricious and without "substantial" evidence.

Dec. 6 □ *Frank M. Folsom*, executive vice president in charge of Victor Division becomes president of RCA, succeeding Brigadier General David Sarnoff, who retains board chairmanship. ■ Verdi's "*Otello*" is telecast in full from stage of Metropolitan Opera House in New York on ABC-TV with Texas Co. as sponsor.

Dec. 20 □ *Recording peace near* as Labor Secretary Maurice Tobin and Attorney General Tom Clark approve "trust fund" plan as within Taft-Hartley Act; Samuel R. Rosenbaum, one-time president of WFIL(AM) Philadelphia, is chosen as impartial trustee and administrator of fund.

Dec. 27 □ *Transcription companies* sign five-

year agreements with AFBM.

1949

Jan. 3 □ Affirming FCC's denial of application of Bay State Beacon Inc. for Brockton, Mass., station, which would offer 95% of its time for sale, Court of Appeals of District of Columbia rules commission has right to examine *percentages of commercial and sustaining time proposed* by applicant.

Jan. 10 □ *Daytime Stratovision tests* deliver good pictures to some areas but in others local-station interference mars reception. ■ With Jack Benny and *Amos 'n' Andy* in its Sunday night line-up, *CBS Radio now tops NBC* in ratings in critical 7-8 p.m. period. ■ Resisting FCC order to move all FM to 88-108 mc, FM inventor, *E. H. Armstrong*, wins stay order from U.S. Court of Appeals for District of Columbia permitting his experimental station, wxmN Alpine, N.J., to continue operating on 44.1 mc pending hearing.

Jan. 17 □ *John Churchill* resigns as BMB research director; NAB lends its director of research, *Dr. Kenneth H. Baker*, to supervise BMB's second nationwide study of station and network audiences. ■ *AT&T coaxial cable links East Coast and Midwest* television stations.

Jan. 24 □ *CBS gets services of Bing Crosby* for both radio and television.

Jan. 31 □ Baltimore court finds *three stations guilty of contempt* for violating rule prohibiting publication of crime news. ■ CBS signs *Edgar Bergen and Red Skelton*; other deals reported near. ■ Academy of Television Arts and Sciences presents *first Emmy awards*; KTLA(TV) Los Angeles telecasts ceremonies. ■ *KMED(AM) Medford, Ore.*, tells FCC its sale to Gibson Broadcasting is off because of commission's competitive bidding rule.

Feb. 7 □ Appellate division of New York Supreme Court *sets aside award* of \$490,419 to Donald Flamm, former owner of WMCA(AM) New York, in suit against Edward J. Noble, ABC board chairman, to whom Flamm sold WMCA in 1941. ■ Pennsylvania state board of censors of motion pictures orders *ensorship of TV films before they are telecast* by any Pennsylvania station.

Feb. 14 □ *NBC rescinds rule against use of transcriptions* on network.

March 7 □ *NBC affiliates give network vote of confidence* at Chicago meeting. ■ *Hugh Feltis* resigns as president of BMB to become general manager of KING(AM) Seattle.

March 21 □ *Fred Allen* signs contract giving NBC exclusive rights to his services for radio and television.

April 4 □ *NAB protests limitations on use of 540 kc channel* proposed by FCC: to limit power to 1 kw and no use at all within 25 miles of some 224 military installations; points out that 1947 Atlantic City allocations made 540 kc broadcast channel.

April 11 □ *Frank K. White*, president of Columbia Records and previously treasurer and vice president of CBS, becomes president of Mutual, succeeding *Edgar Kobak*, retiring to open office as business consultant.

April 18 □ After stormy debate on convention floor, with expansion of Broadcast Advertising Department of NAB demanded, board creates *Broadcast Advertising Bureau*, names *Maurice*

B. Mitchell as its director, operating under board policy committee, and earmarks \$100,000 to get it going. ■ *BMB wins vote of confidence* from convention and loan of \$75,000 from NAB. ■ *International high-frequency conference at Mexico City* comes to stormy end as U.S. delegation refuses to approve pilot plan giving Russia and other countries greater share of channel hours.

May 2 □ *Two New York-Chicago channels added to AT&T coaxial cable service* now provide three west-bound and one east-bound channel for television programs.

May 9 □ FCC authorizes NBC to operate *UHF station at Bridgeport, Conn.*, for experimental rebroadcasts of programs of UHF WNB(TV) New York.

May 16 □ CBS signs *Frank Stanton* to 10-year contract to continue as president at base salary of \$100,000 per year, followed by 10-year consultant's contract at \$25,000 per year.

May 23 □ *Mark Woods* signs five-year contract with ABC to remain as president at \$75,000 per year; *Robert E. Kintner* as executive vice president at \$50,000 and *C. Nicholas Priaulx* as vice president and treasurer at \$27,500; all provide for increases if earnings improve. ■ Associated Actors and Artists of America, parent AFL talent union, sets plans for new branch, *Television Authority*, to end conflicting claims of Actors' Equity, AFRA, Screen Actors Guild and others.

May 30 □ FCC consolidates *all major television problems*, including UHF-VHF allocations and color; plans hearings to start in August. ■ Arkansas Supreme Court upholds *Little Rock's city tax on radio stations*. ■ Representative John Rankin (D-Miss.) introduces bill to make networks, stations and broadcasters-commentators *liable to suit by person slandered* in district where he resides "at the county seat" by law of Congress; FCC is "too slow," Rankin states. ■ Disputing suggestion of FCC Chairman Wayne Coy that *FM stations be forced to duplicate AM programs* when facilities are jointly operated, FM Association President William E. Ware declares that "such regulations would sound the death knell of FM." ■ *WORL(AM) Boston goes off air* after fighting for license renewal since 1945. ■ *Longest direct TV pickup*, 129 miles, made by KFMB-TV San Diego during dedication when it got and rebroadcast salute from KTLA(TV) Los Angeles without special equipment of any kind.

June 6 □ *FCC sanctions editorializing* by broadcast stations within undefined limits of "fairness" and "balance" by 4-to-1 vote, overriding eight-year-old Mayflower decision; Commissioner Frieda B. Hennock, dissenting, contends majority's standard of fairness is "virtually impossible to enforce"; CBS announces it will editorialize "from time to time."

June 13 □ *FCC repeals Avco rule* which for four years had required stations up for sale to be advertised for competing bids; admits rule had failed its purpose and often inflicted "severe economic and other hardships" on buyers and sellers. ■ Maryland court of appeals reverses lower court ruling that upheld "*Baltimore gag*" rule, reverses contempt citations against WCBM(AM), WITH(AM) and WFBR(AM) Baltimore and James P. Connolly, former WITH news editor. ■ NAB TV Music Committee and ASCAP reach tentative agreement on AM formula plus 10% as *basis for TV music licenses*; stations and ASCAP members asked to approve before July 1 deadline.

June 27 □ *Broadcast Advertising Bureau*

transfers headquarters to New York; plans expanded operations with \$200,000 budget.

July 4 □ CBS, having announced that it would broadcast editorials over its own name, now says it will *sell time for "expression of opinion on public issues."*

July 11 □ *Sylvester L. (Pat) Weaver*, vice president and radio-TV director of Young & Rubicam, joins NBC as vice president in charge of television.

July 18 □ NAB board *streamlines association organization*, establishes audio division comprising both AM and FM and video division; *A.D. Willard*, executive vice president, declines appointment as head of video division and resigns to return to private industry. ■ FCC announces *TV allocations plan*: to add 42 UHF channels to present 12 VHF channels, with another 23 to 28 UHF channels reserved for experimental television, providing for 2,245 TV stations in 1,400 communities.

Aug. 29 □ *FCC bans give-aways* as violation of criminal lottery laws.

Sept. 5 □ ABC, CBS, NBC seek injunctions to prevent *FCC from putting its anti-giveaway ruling into effect*.

Sept. 12 □ AT&T's policy of *not connecting its television-network facilities with those of private broadcasters* is called "unlawful" in proposed FCC report. ■ Attempts of TV networks to obtain exclusive *rights to World Series* end in offer of telecasts to all on "no pay, no charge" terms; Gillette Safety Razor Co. buys rights, gets TV time free.

Sept. 26 □ *FCC denies sale of WHAS(AM) Louisville, Ky.*, to Crosley Corp. because of overlap between WHAS and Crosley's WLW(AM) Cincinnati. ■ Justice Department files *antitrust suit against Lorain (Ohio) Journal*, charging conspiracy to damage WEOL-AM-FM Elyria-Lorain through restraint and monopoly of dissemination of news and advertising. ■ *FCC suspends ban on give-away programs* until court tests decided. ■ *Schenley Distillers*, after proposing to buy time for its hard-liquor products, decides to maintain "no radio" policy.

Oct. 10 □ *Niles Trammell* becomes NBC board chairman; Joseph McConnell, RCA executive vice president, succeeds him as NBC president. ■ *CBS demonstrates studio, film and outside pickups in color* to FCC; observers find quality generally good.

Oct. 17 □ *RCA official demonstration of its color system* to FCC, presented in rush, is admittedly disappointing; later informal showing much better.

Oct. 24 □ TV networks sign *five-year contracts with ASCAP* retroactive to Jan. 1, 1949; work commences on per-program license terms.

Oct. 31 □ U.S. District Court for Eastern District of Pennsylvania rules that attempt of *state board of censorship* to require censorship of television films is invalid because it infringes on field of interstate commerce.

Nov. 7 □ Mutual and Gillette Safety Razor Co. sign seven-year, \$1-million contract for *radio rights to World Series and All-Star baseball games*.

Nov. 14 □ U.S. Supreme Court upholds *Little Rock, Ark., city taxes* of \$250 per year on generation of radio waves and \$50 on solicitors of local advertisers. ■ *NBC reorganizes* into three self-contained operating divisions: television network, radio network, owned-and-operated stations, plus small, high-level management staff.

Nov. 21 □ NAB approves plan to *reorganize*

BMB as independent stock company along line of BMI; extends deadline for dissolution of present BMB to July 1, 1950. ■ *Television Authority is launched* as AFL talent union for television, despite opposition of Screen Actors Guild and Screen Extras Guild.

Dec. 12 □ Stalemate when U.S. rejects Cuba's channel demands, *NARBA conference* at Montreal recesses for four months to give U.S. and Cuba time to work out agreement. ■ FM Association votes to disband, merge with NAB.

Jan. 2 □ *Robert E. Kintner* becomes president of ABC as Mark Woods is elected vice chairman. ■ NBC-TV asks affiliates to clear two and half hours on Saturday night for *network variety series*.

Jan. 9 □ *DuMont* scores NBC Saturday night request as clear attempt to *freeze out competition*; asks FCC to stop attempt. ■ NBC opens *UHF TV satellite station* in Bridgeport, Conn., for experimental rebroadcasts of WNB(TV) New York programs on 529-535 mc band.

Jan. 16 □ *U.S. Supreme Court refuses to review decision of Maryland Court of Appeals* invalidating Baltimore court principle that broadcasting or publishing news of indicted criminal constitutes contempt of court; effect is to extend to Maryland generally accepted rules of free press in crime reporting.

Feb. 13 □ FCC approves request of Zenith Radio Corp. for *public test of Phonevision* in Chicago.

Feb. 20 □ Finding that NBC's plan for two-and-a-half-hour Saturday-night TV program violates FCC's network rules, commission starts issuing *temporary licenses* to stations that have agreed to take all or part of program.

March 6 □ *New Mexico* appellate court rules all KOB(AM) Albuquerque broadcasts are interstate commerce and therefore not taxable by state; *Virginia* general assembly passes bill forbidding cities, towns or counties in state from levying license or privilege taxes on broadcasting stations. ■ *A. C. Nielsen Co.* buys national network *Hooperatings* from C. E. Hooper Inc.

March 20 □ *Broadcast Audience Measurement* is formed as successor to BMB; to be financed through sale of stock to broadcasters on BMI pattern. ■ Forbidden by FCC from censoring political broadcasts, *broadcasters are not liable* for defamatory remarks in such broadcasts, Federal District Court Judge Kirkpatrick rules in suit of David H.H. Felix against five Philadelphia stations.

March 27 □ WFIL(AM) Philadelphia *cuts night rates, increases daytime rates*, as move to adjust radio price scale to growing audience for television.

April 3 □ *RCA* shows its new *tri-color picture tube*; calls for adoption of compatible color standards. ■ *WTMJ-FM* Milwaukee, first FM station west of Alleghenies, turns back its license and *goes off air* after 10 years.

April 17 □ FCC, interpreting its *decision on editorializing*, says stations have "an affirmative duty to seek out aid and encourage the broadcast of opposing views on controversial questions of public importance."

April 24 □ *William B. Ryan*, general manager of KFI(AM) Los Angeles, is elected general manager of NAB to direct departmental operations.

May 15 □ *Television does not hurt attendance* at sports events after first year of set ownership, when novelty has worn off, according to study conducted by Jerry Jordan.

May 22 □ CBS and its owned stations, withdraw from NAB ■ *Color Television Inc.* demonstrates its color system to FCC. ■ *DuMont* shows its new three-color direct-view TV receiver tube.

May 29 □ *Chromatic Television Labs* and *Don Lee Broadcasting System* both announce development of new tri-color TV tubes.

June 5 □ ABC and its five owned stations *pull out of NAB* ■ *NBC starts counter raid for CBS talent*; signs Groucho Marx to eight-year, \$3-million capital-gains contract; goes after other name stars.

June 12 □ NBC signs *Bob Hope* to five-year contract. ■ KFI-AM-FM-TV Los Angeles asks all employees to sign loyalty oaths disclaiming membership in Communist Party or other subversive groups. ■ Radio Manufacturers Association becomes *Radio-Television Manufacturers Association*.

June 19 □ ABC signs *Don McNeill*, conductor of *Breakfast Club*, to 20-year contract; also purchases *Screen Guild Players*; NBC signs *Kate Smith* to five-year TV contract. *John Shepard 3d*, founder of Yankee Network, dies of heart attack at 64. ■ Skiatron Corp. announces "Subscriber Vision" as its entry in *pay-television field*.

July 24 □ Following outbreak of hostilities in Korea, White House calls for formation of all-inclusive *Broadcasters Defense Council* to organize radio-TV for instant availability for government.

July 31 □ Association of National Advertisers starts *drive for lower radio rates*, citing inroads of TV on radio audience.

Aug. 21 □ *Hugh M.P. Higgins*, vice president and general manager of WMOA(AM) Marietta, Ohio, is named interim director of Broadcast Advertising Bureau.

Aug. 28 □ *FCC dismisses complaint against KOB(AM) Albuquerque* filed in March 1946 by then New Mexico Governor John J. Dempsey accusing station of broadcasting libelous attacks against him; admonishes station to "reread" commission's new decision on editorializing.

Sept. 4 □ FCC states it will adopt CBS color-television system unless set makers agree to "*bracket standards*" to enable sets to receive both present 525-line pictures and 405-line images proposed by CBS; if they agree, commission will adopt "bracket standards" for black-and-white TV, postpone color decision.

■ *General Foods drops Jean Muir from Aldrich Family* after protests against her appearance from "a number of groups"; Joint Committee Against Communism claims credit for her removal, announcing drive "to cleanse" radio and television of pro-Communist actors, directors, writers; Muir denies any Communist affiliations or sympathies. ■ U.S. District Court in Cleveland holds that newspaper which refuses to carry advertisement of local radio sponsors violates antitrust laws, in deciding *government antitrust suit against Lorain (Ohio) Journal* for unfair competition with WEOL(AM) Elyria, Ohio. ■ Color Television Inc. announces new compatible "*dash sequential*" system of color TV; petitions FCC to reopen color hearings.

Sept 11 □ Three TV networks—ABC, CBS, NBC—agree to pay \$50,000 apiece to Gillette Safety Razor Co. for *pooled telecast of World*

The Satelite System

If you're one of the many Broadcasters considering Satelite Programming Services, the MINI-PRO-I from SMC is for you.

The microprocessor controlled MINI-PRO I, used in conjunction with your satellite receiver, will run your spots, IDs, Jingles and custom material 24 hours a day.

The price, just \$13,995.00

Complete with Two Random access Carousels®, Three Single Play Cartridge Sources and Racks. And that's just \$11.34 a day.*

* Based upon a 10% down payment, with balance financed over 60 months at typical interest rates.

Series, Gillette having paid \$800,000 for TV rights; stations to be paid for one hour's time for each first four games; DuMont refuses to take part, denounces deal as "economically detrimental" to TV.

Sept. 28 □ *Schenley International Corp.* buys time on Hawaiian and Alaskan radio station to advertise whiskies. ■ *Multiplex Development Corp.* demonstrates method for simultaneous broadcast of three signals on single FM channel.

Oct. 2 □ *Liberty Broadcasting System* starts operating as fifth national network, feeding more than 10 hours of programs daily to 240 outlets. ■ *Lewis Allen Weiss* resigns as board chairman of Don Lee Broadcasting System, ending 20 years with regional network. ■ Set makers tell FCC they can't begin turning out *TV sets with bracket standards* by proposed November deadline.

Oct. 9 □ FCC initiates rulemaking proposal to *equalize competition* among TV networks and eliminate alleged domination of NBC-TV and, secondarily, of CBS-TV.

Oct. 16 □ *FCC approves CBS color*, effective Nov. 20; CBS promises 20 hours of color programs weekly within two months; RCA continues work on its compatible system; manufacturers divided as to whether to make sets and converters to receive CBS colorcasts. ■ *FCC denies license renewal* of WTUX(AM) Wilmington, Del.; station charged with helping local bookmakers.

Oct. 23 □ NBC presents *four-part radio plan* to affiliates: Operation Tandem, rotating participation by six sponsors in five separate hour-long programs on different nights; Night and Day, three-advertiser participation in two daytime and one night-time period on rotating three-week schedule; Sight and Sound, three-advertiser rotating participation on half-hour radio and half-hour TV program; This Is Television, radio show made up of excerpts from six TV shows to be sold to TV sponsors. ■ *Mexico withdraws* from NARBA conference, already in difficulty over failure of U.S. and Cuban delegations to agree. ■ *RCA files suit* in federal district court in Chicago asking temporary injunction against FCC's color order being made effective pending determination of suit for permanent injunction; Pilot Radio Corp. files similar suit in Brooklyn but withdraws it when FCC moves to transfer RCA suit to New York. ■ **Oct. 30** □ Reporting on its *experience with UHF operation* in Bridgeport, Conn., RCA states: "It will be most unfortunate if television expansion has to go into the UHF band."

Nov. 20 □ Cuba gets right to use six U.S. 1-A clear channels and Jamaica two under new *five-year North American Radio Broadcasting Agreement* signed by United States, Canada, Cuba, Bahamas-Jamaica and Dominican Republic; Mexico, which withdrew from conference, and Haiti, which did not participate, will be given chance to subscribe. ■ Chicago federal court issues temporary restraining order *halting FCC from putting its color rule into effect* before final decision is made.

Dec. 11 □ FCC, by 4-to-2 vote, proposes to *renew license of WBAL(AM) Baltimore* and deny application of Drew Pearson and Robert S. Allen for the 50 kw, 1-B clear-channel facility.

Dec. 25 □ Chicago federal court *dismisses RCA complaint* against FCC adoption of CBS color system but bans commercial operation pending decision by U.S. Supreme Court. ■ CBS asks all employees to *sign loyalty oaths*; NBC has inquired as to its employees' Communist Party membership since 1944.

Jan. 1 □ *FCC approves General Tire & Rubber Co. purchase of Don Lee Broadcasting System* for \$12,320,000; company also owns Yankee Network; sells KTLN(TV) Los Angeles to CBS for \$333,765. ■ *New antenna rules* call for special study of all towers over 500 feet for air safety purposes; those under 500 feet need special studies only if located near airports or airway systems. ■ *Gillette Safety Razor Co. buys TV rights to World Series and All-Star baseball games for six years* at \$1 million per year; also holds radio rights through 1956 with Mutual. ■ *Zenith Radio Corp. starts Phonevision tests in Chicago*; 300 families to get "top-flight" motion pictures which they can see by calling operator, agreeing to pay \$1; otherwise they, and other viewers, get only scrambled signal.

Jan. 8 □ *William B. Ryan*, NAB general manager, is elected president of Broadcast Advertising Bureau. ■ *NBC shelves proposed night-time rate cut* for its radio network after majority of affiliates register opposition.

Jan. 15 □ *National Collegiate Athletic Association* adopts plan for close control of telecasts of football games.

Jan. 22 □ AFM sets *50% increase in base pay plus employment quotas*; seen as tripling music costs as price for signing new contracts at radio-TV network key stations in New York, Chicago and Hollywood.

Feb. 5 □ *NAB board revises by-laws* to provide board chairmanship (and elects Justin Miller to post, relieving him of operating duties) and TV participation; changes name of organization to *National Association of Radio and Television Broadcasters*; grants active-membership privileges to radio and TV stations and networks; creates autonomous 25-member radio and 13-member TV boards of directors. ■ *Progressive Broadcasting System* suspends operation two months and five days after its opening, Nov. 26, 1950.

Feb. 12 □ Average family sees movies at home slightly better than twice per week in *Phonevision test*, Zenith Radio Corp. says in report on first four weeks of pay-TV experiment.

March 5 □ *Television Broadcasters Association dissolves*; Thad H. Brown Jr., TBA counsel, becomes counsel for TV branch of NARTB.

March 12 □ After negotiations of more than year between ASCAP and All-Industry TV Per Program Committee fail to produce *agreement on per-program license terms*, ASCAP mails out license forms calling for payments of 8.5% to 9.5% of card rate for use of its tunes on commercial TV programs; terms had been rejected by industry committee.

March 19 □ *Renewing drive for lower radio rates*, ANA asserts that inroad of TV on full networks now amounts to 19.2% for NBC, 19.4% for CBS, compared to 14.9% for both networks in summer of 1950. ■ *ABC offers sponsors of afternoon programs* on NBC 45% discounts on one-fourth of full-hour rate, plus \$1,000 per week toward programs costs, to switch those shows to ABC. ■ *National Association of Radio Station Representatives* becomes *National Association of Radio and Television Station Representatives*, changing from NARSR to NARTSR. ■ *Frank Costello's hands* provide television's picture of week as he refuses to expose his face to cameras covering New York hearings of Senate Crime Investigation Committee whose chairman is Senator Estes Kefauver (D-Tenn.).

March 26 □ *FCC reveals proposed allocations plan* making full use of UHF band in addition to 12 VHF channels to provide for some 2,000 TV stations in more than 1,200 communities; about 10% of channels are to be reserved for "indefinite" period for noncommercial educational stations. ■ *First multiplex facsimile network* is operated as joint venture of Columbia University, Hogan Labs, Rural Radio Foundation, WOR-FM New York, WHVA(FM) Poughkeepsie, N.Y., WOAN(FM) Scranton, Pa., and WHCU-FM Ithaca, N.Y.; newspaper prepared by Columbia Graduate School of Journalism is sent by land-line to WOR-FM transmitter and relayed in turn by Poughkeepsie and Scranton stations to Ithaca, using equipment designed by Hogan Labs. ■ *Skiatron Electronics & Television Inc.* shows its *Subscriber-Vision system* of pay-TV to FCC in test broadcast from WOR-TV New York.

April 9 □ *Harold E. Fellows*, general manager, WEEI(AM) Boston, is chosen as NARTB president.

April 16 □ *CBS enters manufacturing field* with purchase of Hytron Radio & Electronics Corp., tube manufacturer, and its set-making subsidiary, Air King Products Co.

April 23 □ *Network affiliates*, at special meeting at NARTB convention, elect *Paul W. Morency*, WTIC(AM) Hartford, Conn., chairman of special committee charged with persuading CBS to rescind its proposed rate cuts and other radio networks from cutting their rates. ■ U.S. Supreme Court refuses to review ruling of lower court that Communications Act does not prohibit stations from *censoring political talks by persons who are not candidates*.

April 30 □ *Thomas F. O'Neil*, vice president and director of Don Lee and Yankee regional networks, is elected board chairman of Mutual, succeeding Theodore C. Streibert, president of WOR(AM) New York.

May 7 □ NBC announces *10%-15% cut in radio rates*, comparable to that of CBS; ABC and MBS plan similar reductions.

May 14 □ *Tilting antenna of UHF transmitter* can double its signal strength, RCA engineers report after Bridgeport experiments.

May 28 □ *United Paramount Theaters and American Broadcasting Co.* agree on \$25-million merger; Leonard Goldenson, UPT president, would be president of new company, with ABC President Robert Kintner continuing as president of its broadcasting division and Edward J. Noble, ABC board chairman and chief owner, becoming chairman of finance committee. ■ Justice Department starts probe into restrictions placed on *broadcasts and telecasts of all professional and amateur sports*, with special emphasis on baseball play-by-play policies.

June 4 □ Supreme Court affirms lower-court ruling upholding *FCC adoption of color standards*; CBS plans to start colorcasting by end of June; RCA says it will continue public demonstrations of its "improved, compatible, all-electronic system." ■ *G.A. (Dick) Richards* dies at 62 after suffering for many years from serious heart ailment; long-standing FCC proceedings for renewal of licenses of his three stations—KMPC Los Angeles, WJR Detroit, WGAR Cleveland—are still not ended. ■

June 11 □ *General Tire & Rubber Co. buys KFI-TV Los Angeles* for \$2.5 million.

June 18 □ *Chris Witting*, general manager of DuMont TV Network, becomes director of network and three DuMont TV stations—WABD(TV) New York, WTTG(TV) Washington, WPTV(TV) Pittsburgh—succeeding Mortimer W. Loewi.

Why 4 out of 5 earth stations for TV broadcasting are from Scientific-Atlanta

Model 8010 7-Meter Antenna. Designed specifically for television broadcasting. Exceeds all broadcast earth station requirements.

Full geostationary satellite arc coverage.

Highly reliable GaAs Fet low noise amplifier. Fully enclosed for weather protection.

Factory-installed de-icing systems available for severe weather conditions.

Easy to install. Minimal space requirements.

Scientific-Atlanta has designed, built, and delivered more broadcast earth stations than any other company in the world. A lot more. Here are some reasons why.

SCIENTIFIC-ATLANTA MAKES THE ENTIRE SYSTEM

Scientific-Atlanta builds complete satellite earth station systems for the television industry. Our earth station packages give you everything you need to turn satellite signals into programming revenues. Antennas, receivers, low noise amplifiers, and installation and service.

THE RIGHT SYSTEM FOR YOUR NEEDS

As the industry's largest manufacturer, we offer a wider choice in complete system packages. And we have the practical, total systems experience to help you put together the earth station to fit your technical requirements. *And your budget.*

A broadcast earth station can be as simple as our Model 8501 Basic Receive-only system. It consists of an antenna assembly, a low-noise amplifier (LNA), and a video receiver.

This is the basic downlink system. It's perfect for operations such as taping satellite programming for future broadcast.

For added flexibility as well as improved reliability, many broadcasters choose our Model 8502 Receive-Only Earth Station. It includes a second set of electronics to give simultaneous reception on two different satellite channels—a significant increase in signal receiving ability.

What's more, the additional electronics serve as back-up units for the primary

set, giving full station redundancy.

Should a malfunction occur in your primary on-line components, protection switching devices are included in the Model 8502 package which will automatically switch those functions over to the redundant stand-by units without interrupting on-line reception.

SUPPLY YOUR OWN PROGRAMMING

Scientific-Atlanta has supplied 97% of all the satellite uplinks currently in use by commercial TV broadcasters.

When you buy a Scientific-Atlanta uplink, you get the entire package, from the initial site planning advice to the final proof of performance procedure.

If you prefer, the uplink package can include frequency coordination, FCC licensing, and supervision for pouring of the foundation (using local construction crews for minimum cost).

MORE SATELLITE COVERAGE MEANS MORE PROGRAMMING

Scientific-Atlanta broadcast earth stations are available with full geostation-

ary satellite arc coverage. Your system can "see" all current and future domestic communications satellites from anywhere in the continental United States.

No other antenna system offers more satellite coverage.

Pre-programmable motor-drive systems are available for 7- and 10-meter antennas. You can switch from one satellite to another in 60 seconds or less.

For example, by entering a simple two-digit code into our remote-control antenna positioning unit, your antenna can be switched to a different satellite during a commercial break.

WRITE OR CALL FOR INFORMATION

Clip this coupon for more information on the most advanced satellite earth station systems available for the television broadcast industry. Or call or write Ron Pearl at (404) 449-2064.

June 25 □ *ABC reorganizes* into four divisions with a vice president in charge of each: Ernest Lee Jahncke for Radio Network Division, Alexander Stronach Jr. for Television Network Division, Slocum Chapin for Owned Television Stations and Television Spot Sales, James Conolly for Owned Radio Stations and Radio Spot Sales. ■ *Louis-Savold heavyweight fight*, telecast to nine theaters in six cities but not to homes, draws capacity crowds. ■ After years of hearings, FCC grants *renewal of license to WBAL Baltimore*, dismissing application of Drew Pearson and Robert Allen for facilities.

July 2 □ *Mark Woods* resigns as vice chairman of ABC. ■ Sixteen advertisers co-sponsor *first commercial colorcast*, hour-long program on five-station East Coast CBS-TV hookup.

July 16 □ *CBS separates its operations into six divisions*, each with its own president: CBS Radio Division, headed by Howard S. Meighan; CBS Television Division, headed by J.L. Van Volkenburg; CBS Laboratories Division, headed by Adrian Murphy; CBS-Columbia Records Inc., (set manufacturing), headed by David H. Cogan; Columbia Records Inc., headed by James B. Conkling; Hytron Radio & Electronics Corp., headed by Bruce A. Coffin. ■ Failing in its attempt to raid NBC, *ABC introduces its own set of daytime serials*.

July 23 □ U.S. Court of Appeals orders FCC to resolve 10-year-old *770 kc dispute* of WJZ(AM) New York and KOB(AM) Albuquerque, N.M.

Aug. 20 □ *Robert Saudek*, ABC vice president, resigns to become director of Ford Foundation's Television-Radio Workshop. ■ *Screen Actors Guild*, opening contract negotiations with motion-picture producers, asks for ban on TV use of pictures made after Aug. 1, 1984, until agreement is reached on conditions of TV exhibition.

Sept. 10 □ *President Truman's address* at Japanese peace-treaty conference in San Francisco is pooled telecast to open \$40-million coast-to-coast television-network facilities of AT&T. ■ *NCAA announces TV schedule* of 19 games featuring 29 teams on nine Saturdays; each city to get seven games with two "blacked out"; Westinghouse Electric Corp. sponsoring on NBC-TV; colleges to get about \$700,000 of \$1.25 million paid for rights plus time. ■ *Gillette Safety Razor Co.*, holder of World Series TV rights for six years, signs *four-year contract with NBC-TV* as network to carry games.

Sept. 17 □ Senator William Benton (D-Conn.) proposes that limited amount of *radio and TV time be given free to responsible candidates* for federal office as means of reducing campaign costs.

Oct. 1 □ Brigadier General *David Sarnoff*, RCA board chairman, on completion of 45 years in radio, asks RCA scientists for three "gifts" for his 50th anniversary: an electronic amplifier for light for television, a television picture recorder and an electronic air-conditioner for home use.

Oct. 8 □ Completely revamping its policies, *NBC Radio eliminates "must buys"* to let advertiser pick stations he wants; changes network rates of affiliates, some up, some down; adds more stations, possibly as many as 200, to network; will broadcast *Minute Man* programs with top stars as network sustainers for local sale by affiliates on "pay as you sell" plan; offers certain network programs to advertisers on one-time-or-more basis; revises network option time to conform to changed sales requirements. ■ Major league baseball teams drop "territorial" rules cramping radio-TV

rights; Department of Justice starts court effort to break down professional football's bans on broadcasting. ■ Merger of radio-television properties of *General Tire & Rubber Co. and R.H. Macy & Co.* combines WOR-AM-FM-TV New York with Don Lee and Yankee Network, giving new firm majority (58%) control of MBS.

Oct. 22 □ Complying with request of Defense Mobilization Chief Charles E. Wilson, CBS agrees to *stop color-TV manufacturing and broadcasting* for "duration of the emergency"; halts plans of James Lees & Sons Co., carpet firm, to be first regular network color sponsor. ■ NARTB TV board approves *new and strict TV code* with seal which subscribing stations may show; review board to enforce advertising and program provisions and to check unfair competition within industry; seal may be withdrawn for code violations.

Nov. 5 □ *Judge Ira E. Robinson*, one-time chairman of Federal Radio Commission, dies at 82.

Nov. 12 □ Federal District Court orders KSFO(AM) San Francisco to make time available for *campaign broadcast for Communist candidate* as refusal would constitute censorship beyond authority of licensee.

Nov. 19 □ NBC Radio offers to guarantee to deliver 5.3-million messages weekly at cost of \$2.75 per thousand for three-program deal; rebate will be made to advertiser if Nielsen audit at end of 13 weeks shows total listener impressions are below guarantee. ■ Bing Crosby Enterprises announces development of system for *recording sight-and-sound programs* on magnetic tape; pictures shown at demonstrations described as "hazy" but "viewable."

Nov. 26 □ *Transradio Press Service* shuts down its news service after 17 years.

Dec. 3 □ NBC affiliates reject its "guaranteed advertising attention plan"; ask network to *delay its new rate formula* until new research determines present radio values; approves establishment of NBC merchandising department but turns down its "market-basket plan" of merchandised advertising. ■ Three-year-old hearing on renewal of licenses of *Richards stations*, WJR Detroit, WGAR Cleveland and KMPC Los Angeles, ends with FCC accepting assurances of Mrs. G.A. Richards that stations would not broadcast biased or slanted news and *granting license renewals*. ■ National Television Systems Committee starts *field tests of tentative standards for compatible TV*.

Dec. 17 □ *Louis G. Caldwell*, "dean of radio law," dies at 60. ■ Upholding lower court, U.S. Supreme Court holds that *Lorain* (Ohio) *Journal violated antitrust laws* when it refused to sell advertising to local advertisers who bought time on WEOL Elyria, Ohio.

Dec. 31 □ Westinghouse Electric Corp. buys *\$3-million campaign package on CBS Radio and CBS Television*, including conventions, 13-week get-out-the-vote campaign and election-night coverage.

Jan. 7 □ Philco Corp. buys *NBC radio-TV coverage of political conventions* and election night for \$3.8 million.

Jan. 28 □ Admiral Corp. buys convention and *election coverage on ABC radio and TV networks* for reported \$2 million; DuMont announces its coverage, in cooperation with *Life* magazine, will be available for local sales by affiliates on co-op basis; (offer later withdrawn

and *Westinghouse* buys DuMont as well as CBS coverage).

Feb. 25 □ *Wayne Coy* resigns as FCC chairman to become consultant to Time Inc. ■ *Liberty Broadcasting System* sues 13 of 16 major-league baseball teams for \$12 million, triple damage allegedly suffered through loss of *Game of the Day* broadcasts; MBS announces that nine teams have contracted for participation in its *Game of the Day* broadcasts.

March 3 □ Speaker Sam Rayburn (D-Tex.) bars *radio-television coverage of House committees*. ■ President appoints Commissioner *Paul A. Walker* FCC chairman.

March 10 □ *CBS acquires 45% interest in KQV(AM) Pittsburgh*; arranges merger of WCO(AM) and WTCN-TV Minneapolis-St. Paul, with CBS holding 47%, subject to FCC approval. ■ CBS demonstrates *all-electronic color-TV receiver* operating with CBS color system.

March 17 □ *Adrian Murphy*, president, CBS Labs, becomes president, CBS Radio Division, succeeding Howard S. Meighan, who joins general executive group of CBS Inc. ■ *Naylor Rogers*, executive vice president of Keystone Broadcasting System, who entered radio in 1925 as general manager of KNX(AM) Los Angeles, dies at 66.

April 7 □ *Wallace A. White Jr.*, former Republican senator from Maine, co-author of Radio Act of 1927 and active in communications during his 32 years in House and Senate, dies at 74.

April 14 □ FCC issues "*Sixth Report and Order*," lifting freeze on television as of July 1; provides for 2,053 stations in 1,291 cities, 617 VHF and 1,436 UHF, including 242 non-commercial educational stations (80 of them VHF); three zones are established, with different mileage separation and antenna-height regulations; Commissioner Robert F. Jones disents vehemently to whole report; Commissioner Frieda Hennock objects to "inadequate" educational reservations.

April 28 □ MBS Board Chairman *Thomas F. O'Neil* assumes presidency as well, following resignation of Frank White.

May 19 □ *Liberty Broadcasting System*, unable to break broadcasting restrictions of major baseball leagues, suspends operations.

June 2 □ Overruling Court of Appeals finding that transit broadcasts deprived riders of their liberty without due process of law, U.S. Supreme Court holds that D.C. Public Utilities Commission was within its rights in permitting radio programing for street cars and buses in nation's capital. ■ *Walter Evans*, president, Westinghouse Radio Stations, dies at 53. ■ FCC approves *sale of KOB-AM-TV Albuquerque, N.M.*, to Time Inc. and Wayne Coy for \$600,000.

June 16 □ U.S. Supreme Court, *remanding to FCC* its grant of new station to Texas Star Broadcasting Co., states that in considering application for new station commission must weigh gain of new proposed service against loss to be suffered by existing licensee.

June 23 □ NBC reorganizes with Vice President *Sylvester L. Weaver* put in charge of both radio and TV networks; *Frank White* joins NBC as vice president and general manager for radio and TV; Vice President *Robert W. Sarnoff* heads newly created film division; NBC launches promotion drive for combined use of radio and TV as most effective advertising buy.

July 7 □ CBS Radio affiliates, at *crisis conference*, adopt resolution asking networks to

rescind 10% cut of year before and boost daytime radio rates by 20%. ■ *Radio Writers Guild calls strike* against ABC, NBC, CBS over issue of extra pay for writers on commercial programs.

July 28 □ President Truman signs *McFarland bill*, first major overhaul of Communications Act of 1934, permitting FCC to issue cease-and-desist orders in addition to revoking licenses; prohibiting broadcasters from charging more for political advertising than for normal business ads; requiring FCC to act on case within three months of filing or six months after hearing is concluded, or to explain reason to Congress; forbidding staff personnel to recommend actions to commissioners; putting on FCC burden of proof that licensee is not qualified for renewal; permitting protests against grants to be made up to 30 days after grant but requiring FCC to answer protests or petitions for rehearing within 15 days; forbidding commissioners who resign to practice before FCC for one year after resignation; deleting permission to FCC to revoke licenses of those found guilty in federal court of anti-trust violations. ■ Department of Justice files *suit against 12 motion-picture producing and exhibiting firms* charging conspiracy to restrain interstate commerce in 16 mm films in violation of Sherman Act in move to free films for use in television.

Aug. 18 □ *CBS Radio affiliates approve discounts* tantamount to 25% reduction in nighttime rates and accept 15% cut in network compensation, but win restoration of 1951 10% cut for daytime serials and increase of 5.5% in their pay for carrying these shows; network also gives assurance that its card rates won't be cut for at least one year and that "deals" are out for good.

Sept. 1 □ *Empire Coil Co.* buys RCA's experimental UHF transmitter for commercial operation in Portland, Ore.

Sept. 8 □ *NBC cuts rates* through new discounts, average of 25% at night, with affiliates taking straight 14% cut in compensation; raises daytime rate 11.1% to restore 10% cut of 1951, but revises discounts so increase to advertisers will be only 4% in morning and none in afternoon.

Sept. 15 □ *Standard Radio Transcription Services* announces plan to discontinue monthly library releases and offer library, in whole or part, to stations on outright sale basis.

Sept. 22 □ By rushing equipment across country from Bridgeport, Conn., to Portland, Ore., KPTV(TV) Portland goes on air as *first commercial UHF TV station*. ■ *ABC Radio revises discounts* to lower evening rates average of 25%, raises morning rates by 5%. ■ American Federation of Radio Artists and Television Authority merge into *American Federation of Television and Radio Artists* (AFTRA).

Sept. 29 □ *Max Ule* of Kenyon & Eckhardt is named head of committee to set up ideal standards for broadcast rating measurements, subcommittee of Advertising Research Foundation's committee on radio and TV ratings methods whose chairman is Dr. E. L. Deckinger of Biow Co.

Oct. 6 □ *Merlin H. (Deac) Aylesworth*, first president of NBC, dies at 66.

Oct. 20 □ *MBS reduces nighttime time costs* 30% in TV areas, 10% in areas not yet served by TV.

Oct. 20 □ NARTB and AAAA adopt *standard contract form for spot-TV time purchases*, make it available to agencies and stations.

Oct. 27 □ *Harold A. Lafount*, radio consultant to Bulova Watch Co., member of former Federal Radio Commission, dies at 72.

Nov. 17 □ CBS opens its *Television City* in Hollywood.

Dec. 1 □ Don Lee Broadcasting System announces *single rate*, 7 a.m. to 1 p.m.

Dec. 15 □ *Niles Trammell* resigns as NBC board chairman to become president of Bis-cayne Television Corp., applicant for channel 7 Miami; Brigadier General David Sarnoff assumes post in addition to remaining RCA board chairman.

1953

Jan. 5 □ *BBDO* has broadcast billings of \$40 million in 1952, making it top agency customer of radio-TV for that year, BROADCASTING survey discloses. ■ *Frank White* becomes NBC president, succeeding Joseph H. McConnell; *Sylvester L. Weaver* is elected to new post, vice chairman of NBC board; *John K. Herbert* becomes vice president in charge of radio and TV networks; McConnell is to be president of Colgate-Palmolive-Peet Co. ■ Bing Crosby Enterprises demonstrates its *magnetic-tape TV recordings* judged "more than 20 fold" improved over demonstration of year before.

Feb. 2 □ *FCC revises rules for operating personnel*; opens way for remote operation of transmitters.

Feb. 9 □ Both Senate Commerce Committee and FCC investigate *TV shakedown racket*; applicants whose sole interest is in collecting fancy fees for clearing way for serious applicants. ■ Federal court in New York, in 2-to-1 decision, says FCC's *give-away rules misconstrue lottery law* and represent "censorship" of sort forbidden by First Amendment.

Feb. 16 □ *Merger of American Broadcasting Co. and United Paramount Theaters is approved* by FCC in 5-to-2 decision, commissioner Hennock vigorously dissenting, commissioner Webster wanting further study of UPT's qualifications.

Feb. 23 □ *Westinghouse Radio Stations Inc. buys WPTZ(TV) Philadelphia* from Philco Corp. for record price of \$8.5 million. ■ Philip Morris & Co. and CBS sign *Lucille Ball and Desi Arnez* to \$8-million, two-and-a-half-year non-cancellable contract.

March 2 □ Special commission on educational TV in New York State finds "*no justification*" for proposed *10-station educational TV network*; states' educators are not using all time available on commercial stations. ■ Station Representatives Association (formerly National Association of Radio and Television Station Representatives) launches *crusade for spot radio*; asks stations to underwrite national promotional campaign with fees of one-half one-time one-minute rate per month. ■ *ABC stations in New York* drop wjz call for WABC-AM-FM-TV.

March 9 □ NARTB votes to give first Keynote Award to Brigadier General *David Sarnoff*, RCA-NBC board chairman; award, created to honor outstanding service to broadcasting industry, will be presented at NARTB convention.

March 23 □ Both Senate and House Commerce Committees prepare to *investigate color-TV situation* and whether failure of manufacturers to turn out color sets (under CBS standards) is result of conspiracy.

March 30 □ Empire Coil Co. and Wrathall-Carman-Smith join NBC, CBS and AB-PT as *owners of five TV stations*, maximum rules per-

mit, as FCC approves construction permits; Storer Broadcasting Co. will be in group if its tentative purchase agreement of WBRC-AM-TV Birmingham, Ala., goes through.

April 20 □ *Rosel H. Hyde* is given one-year appointment as FCC chairman, first Republican chairman since FCC was created in 1934.

May 4 □ Ending years-old argument, ASCAP accepts broadcasters' position on *network co-op programs*; agrees on payment at local instead of national rate. ■ Listener protests over *bait-switch advertising on air* draw attention of both FCC and FTC.

May 11 □ Expansion of *Vitapix Corp.* into nationwide, TV station-owned film distributing syndicate is announced by John E. Fetzer, wkzo-TV Kalamazoo, Mich., board chairman; Frank E. Mullen, former NBC executive vice president, is elected president of Vitapix; 40 stations are goal.

June 1 □ *David Sarnoff* outlines *RCA-NBC history and future plans* in two-hour address to NBC-TV affiliates, who reaffirm "complete allegiance" to NBC; incipient revolt seems quelled with no rush to follow WTAR-AM-TV Norfolk to CBS.

June 8 □ Wwoc-FM Washington and Capital Transit Co. *discontinue four-year-old service*. ■ Worldwide radio covers *Queen Elizabeth's coronation*; race of NBC and CBS planes with TV films ends in victory for ABC-TV, which took feed from Canadian Broadcasting Corp. and shared it with NBC-TV.

June 22 □ Two-hour *Ford 50th Anniversary program*, telecast on both CBS-TV and NBC-TV, makes television history, with Mary Martin-Ethel Merman songfest its high peak. ■ *Lewis Allen Weiss*, former MBS board chairman and top Don Lee executive, dies at 60. ■ James C. Petrillo, AFM president, tells TV networks he will not tolerate *AFTRA infringements* on his union's domain; AFTRA insists that musicians who sing and act as MC's must be its members.

June 29 □ RCA-NBC asks FCC to approve *compatible color standards* for RCA dot-sequential color-TV system on commercial basis. **July 6** □ MBS executives meet with affiliates committee to plan *revision of operations* to improve programing, increase sales.

July 13 □ *Box Office Television Inc.* signs five-year contract for home football games of Notre Dame for closed-circuit theater television. ■ BROADCASTING survey shows *nonnetwork film programs* occupying quarter of time of TV-network interconnected affiliates, one-half time of nonconnected affiliates and three-fifths time of nonaffiliated stations.

July 20 □ NBC separates sales, programing and promotion of its radio and TV networks; Vice President *William H. Fineshriber Jr.* heads radio network; Vice President *John K. Herbert* heads TV network; both report to President *Frank White*. ■ FCC revamps its *TV processing procedure* to give first priority to biggest market with least TV service.

July 27 □ FCC proposes *extension of television station licenses* from one to three years. ■ *National Television Systems Committee* files petition with FCC to establish its compatible color-TV standards to supersede CBS field-sequential color system approved by FCC in 1950; CBS-TV announces plan to start color-casting with NTSC system beginning in September.

Aug. 3 □ President names *Theodore C. Streibert*, former WOR-AM-TV New York president, to head new U.S. Information Agency. ■ *Frank White* resigns NBC presidency because of ill

health; General Sarnoff to serve as president until new one is chosen.

Aug. 10 □ Four UHF station permittees ask FCC to authorize *subscription TV* as their only means of meeting strong VHF competition. ■ Court of Appeals upholds *FCC's table of TV allocations*, ruling that commission has authority to establish nationwide TV allocation plan.

Aug. 31 □ MBS gets FCC approval for its *new affiliation plan*; prepares to put it into effect Oct. 1. ■ Kenyon & Eckhardt survey of *merchandising services* offered, free or for fee, by nation's TV stations and networks is published in TELECASTING YEARBOOK: first such study ever made.

Sept. 7 □ *Television Programs of America*, television-film production and distribution firm, is formed by veteran Hollywood producer Edward Small, as board chairman; Milton Gordon, financial expert, as president; Michael M. Sillerman, resigned as Ziv TV sales executive, as executive vice president.

Sept. 21 □ General Sarnoff presents NBC's plans to *rehabilitate radio* and to keep NBC Radio number-one network; affiliates give NBC unanimous vote of confidence. ■ *Broadcasters Committee for Subscription TV* is formed by group of 20 station operators and grantees. ■ *Sylvania Electric Products Inc.* asks FCC for permission to establish satellite TV stations in communities too small to support regular TV service.

Sept. 28 □ NBC Spot Sales introduces "*Electronic Spot Buying*," with timebuyers enabled to monitor TV and radio programs on stations represented by NBC via closed circuit. ■ With end of daylight saving time, CBS-TV, NBC-TV inaugurate "*hot kinescope*" systems to put programs on air on West Coast at same clock hour as in East.

Oct. 5 □ *Jack Gross and Phil Krasne* become full owners of *United Television Programs*; buy one-third held by Sam Costello and Ben Frye of Studio Films and one-third held by Milt Blink of Standard Radio Transcription Services and Jerry King. ■ John L. Sinn, president, Ziv Television Programs, announces sale of *Spanish-language versions of five program series* to advertisers for use in Mexico as first step in multilingual global-TV program-distribution plan. ■ Emerson Radio & Phonograph Co. exhibits what it calls first *compatible color-TV receiver*; puts probable price at \$700.

Oct. 19 □ UHF stations form own trade association *Ultra High Frequency Association*. ■ FCC rules that examiner has right to enlarge issues of hearing to determine if applicant has *financial resources* to carry out his program proposals. ■ *FM multiplexing system* permitting simultaneous transmission of two programs on single 200 kc FM band is demonstrated by Dr. Edwin H. Armstrong, inventor of FM.

Oct. 26 □ FCC starts another *investigation of Edward Lamb* (WTOD)AM Toledo, Ohio; WIKK(AM) and WICU(TV) Erie, Pa.; WMAC-TV Massillon, Ohio; WHO(AM) Orlando, Fla., and purchaser of CP for WTVQ(TV) Pittsburgh, subject to FCC approval); authorship of *The Planned Economy of Soviet Russia* in early 1930's and alleged association with organizations subsequently listed as subversive by attorney general stimulated earlier investigations of his fitness to be licensee.

Nov. 2 □ Extending divorcement of radio and television, ABC names *Oliver Treyz* director of its radio network; *Slocum Chapin*, director of its TV network.

Nov. 9 □ *MBS executives meet with affiliates advisory committee*; agree to drop plan of paying for time in programs rather than dollars at end of year. ■ Bureau of Budget orders FCC and

other licensing agencies to draw up *schedules of fees* that broadcasters and others should pay for privilege of holding government licenses. ■ WSM-TV Nashville asks FCC to authorize commercial establishment of *booster or satellite TV stations*. ■ FCC finalizes *extension of TV license-renewal period* from one to three years over renewed protest of Commissioner Hennock.

Nov. 16 □ *Dissolution of NARTB*, divorcement of BMI from its broadcaster ownership and \$150 million in damages are asked by 33 writer members of ASCAP, banded together as Songwriters of America, in suit filed in federal court in New York. ■ Federal Judge Allan K. Grim rules professional *football team may ban telecasts of other teams* playing in its area when it is playing at home, but not when it is away; ban on radio broadcasts is held completely illegal.

Nov. 23 □ "*Sound on Fax*," audio transmission of tape recordings of news events together with pictures over International News Service facsimile circuit, is introduced by INS.

Nov. 30 □ FCC sets *five TV, seven AM and seven FM as maximum* number of stations any one entity can own.

Dec. 7 □ *Sylvester L. (Pat) Weaver* is elected NBC president, *Robert W. Sarnoff* becomes executive vice president. ■ RCA demonstrates *monochrome and color-TV programs recorded on magnetic tape*; General Sarnoff, RCA-NBC board chairman, reports "principal elements tested and confirmed," expects two years for finishing touches needed before system is ready for market. ■ International Telemeter Corp. (Paramount Pictures subsidiary) starts Palm Springs, Calif., test of its *subscription-TV system*. ■ Bureau of Internal Revenue gives relief to TV broadcasters' tax burdens in new ruling taking into account rapid growth of industry during 1946-49 base period.

Dec. 21 □ *FCC approves compatible color-TV standards*; manufacturers praise action but warn not to expect sets immediately. ■ Justice Department investigates network's *right to package program* and restrict use of its own facilities.

Dec. 28 □ *All-Industry Local TV Music Committee* polls stations on submitting to ASCAP proposal for new blanket licenses for TV at roughly radio minus 10% rather than former radio-plus-10% formula. ■ FCC proposes to amend its multiple-ownership rules to permit single ownership of seven TV stations, provided at least two are UHF.

1954

Jan. 4 □ RCA announces first *all-electronic color tube*, put on market as commercial product available to set manufacturers.

Feb. 1 □ *Robert E. Lee*, newly-confirmed for full seven-year term on FCC, says he is "sorry so many senators were against the nomination," but "I'm not mad at anybody."

Feb. 8 □ Two separate antitrust probes are under way at *Department of Justice*—suit involving alleged monopoly in release of 16 mm movies for TV and preliminary inquiry into advertising business practices. ■ *Major Edwin Howard Armstrong*, who developed FM system of broadcasting, dies at 63, suicide.

March 15 □ *Senator Joseph McCarthy* demands equal time of CBS and NBC to answer Adlai Stevenson's March 6 speech, which was carried without charge. Two networks resist and win President Eisenhower's blessing in face of senator's condemnation and threat to teach them law.

March 22 □ "*Equal-time*" issue continues to

plague networks in wake of tempest stirred up by Senator McCarthy. Having carried 15-minute talk by President Eisenhower, networks, which failed to give equivalent time to Democratic National Committee for reply, are accused by Democratic National Chairman Stephen A. Mitchell of giving minority party "dimout" treatment.

March 29 □ NBC's plans for TV "*spectaculars*," series of 90-minute programs, are sketched to network's affiliates by NBC President Sylvester L. (Pat) Weaver. ■ *General Foods* withdraws nearly all its \$3-million advertising allotment from Foote, Cone & Belding in move to consolidate its advertising in company's two other agencies, Young & Rubicam and Benton & Bowles. ■ *RCA begins color-TV receiver production* as first 15-inch, open-face console, to sell at \$1,000, comes off Bloomington, Ind., factory line.

April 5 □ *ABC and Walt Disney* sign long-term contract under which Disney studios will produce at least 26 hour-long programs per year for ABC-TV.

April 12 □ By 8-to-0 ruling, U.S. Supreme Court turns down FCC appeal from 1953 three-judge special New York court decision holding that *one of commission's key provisions in its lottery regulations is invalid*; court finds FCC exceeded its authority in attempting to define listening to radio program or watching TV show as "consideration" in meaning of lottery statute.

May 10 □ New TV sales-promotion project, *Television Advertising Bureau*, promises it will be operating in time to influence fall-winter planning by advertisers and agencies. Richard A. Moore, KTTV(TV) Los Angeles, chairman of organizing committee, announces 38 stations have joined.

May 24 □ Senate subcommittee hears pleas from UHF operators, who ask "*hiatus*" in VHF grants, other relief, including deintermixture; FCC defends intermixture, says move to all UHF unwise, sees programing help in films and tapes; Commissioner Frieda Hennock calls for VHF freeze, power cutbacks; manufacturers association asks elimination of 10% excise tax on all-channel sets.

May 31 □ *CBS Radio* reduces *nighttime rates* about 20%, effective in fall, in effect establishing single day-night rate for network; gives affiliates 70-second station breaks in evening hours; agrees not to follow NBC Radio plan to sell spots on network; affiliates accept proposals. ■ Mutual proposes to affiliates plan for *network to sell spots* within half-hour morning and half-hour afternoon program, affiliates to carry first spot in each period without pay, to be paid for others.

July 5 □ TVAB and NARTB television factions merge to nip intra-industry feud in bud; *form TVB*.

July 12 □ SRA opposes *admission of networks* to TVB. ■ *Clear Channel Broadcasting Service* opposes FCC's daytime skywave proposal.

Aug. 9 □ FCC proposes *UHF TV satellite and "budget" stations*, in move to reduce cost of UHF station operation. ■ Chairman John W. Bricker (R-Ohio) of Senate Commerce Committee formally announces *impending probe of TV networks, UHF-VHF problems*.

Aug. 16 □ *Quality Radio Group* (power radio stations) is organized to produce, sell night radio shows.

Aug. 23 □ House Commerce Committee issues report *rebuking broadcasters for beer-wine ads*, calls for industry data, report on

**Broadcasting without
Broadcasting just wouldn't be
broadcasting.**

Thanks, Sol.

SELTEL

SELTEL, INC. 750 THIRD AVENUE, NEW YORK, NY 10017 (212) 697-0944

remedial actions.

Aug. 30 □ CBS President Frank Stanton broadcasts *first network editorial*, urging radio-TV right to cover congressional hearings.

Sept. 20 □ *FCC boosts TV ownership limits*; seven TV stations allowed, five VHF, two UHF. ■ FCC opens *license-renewal hearing against Edward Lamb*, wicu-TV Erie, Pa., on charges Lamb lied about Communist affiliations. ■ Skiatron TV, Inc. petitions FCC for approval of its *pay-TV system*.

Oct. 4 □ *George C. McConaughy* appointed to FCC as chairman.

Nov. 1 □ *President Eisenhower's cabinet* becomes first to be televised. ■ Wcxy Cincinnati's *L. B. Wilson*, 63, pioneer broadcaster, dies.

Nov. 15 □ Broadcasters give overwhelming support to FCC's proposal to permit TV stations to *build and operate their own inter-city relays*.

Nov. 22 □ FCC makes *VHF satellite grant* to KTRV-TV Lufkin, Tex., extending its satellite policy to VHF.

Nov. 29 □ CBS-TV offers *Extended Market Plan service* to small-market TV stations. Network will pay affiliates 30% of gross time charges, less BMI and ASCAP deductions, and will offer stations as a group to advertisers with 10% discount.

Dec. 6 □ *Westinghouse Broadcasting Co. buys WPTV(TV) Pittsburgh* from Allen B. DuMont Labs for \$9,750,000, all-time high for TV station. ■ Zenith Radio Corp. re-petitions FCC on *pay TV*, asking that 'Phonevision' be authorized without rulemaking proceeding. ■ *Senator Warren G. Magnuson* (D-Wash.) says he will accept chairmanship of Senate Commerce Committee and continue TV networks probe.

Dec. 13 □ *Marschalk & Pratt* to merge with McCann-Erickson, become division of M-E, effective Jan. 1. ■ *WBRE-TV Wilkes-Barre, Pa.* (28) ready to become *first UHF station to use 1,000 kw* maximum effective radiated power authorized by FCC.

Dec. 20 □ *C.E. Hooper*, 56, pioneer in radio-TV ratings, dies in boating accident.

Dec. 27 □ Advertising Research Foundation study represents first move to *standardize radio-TV ratings* among various rating services.

1955

Jan. 3 □ DuMont announces it has developed combination *live-film network system* and predicts it will "set the industry on its ear."

Jan. 17 □ *Sen. John O. Pastore* (D-R.I.) named to head Senate Commerce Committee's Communications Subcommittee.

Jan. 24 □ President Eisenhower opens his news conference to *TV-film coverage* for the first time.

Jan. 31 □ Radio's 1954 time sales of \$453,385,000 show 5% decline from previous year; *first dip in radio sales since 1938*.

Feb. 7 □ Senate Commerce Committee issues counsel Harry M. Plotkin's report calling for *radical network restrictions* and reduction of multiple ownerships. Senator Magnuson says committee will investigate UHF troubles, network power plays, station ownership and military spectrum use. ■ CBS's Stanton says if Plotkin proposals are adopted, *network TV*

would be gravely crippled; summons 30 CBS-TV affiliates to plan strategy on Senate probe.

Feb. 14 □ Key witness, Marie Natvig, in license-renewal hearings for wicu-TV Erie, Pa., states she was "*brainwashed*" into giving *false testimony* linking Edward Lamb with Communist party.

Feb. 21 □ Senator John W. Bricker (R-Ohio), ranking Republican member of Senate Commerce Committee, says networks might be made subject to *public utility-type regulation* in releasing report of minority counsel, Robert F. Jones.

Feb. 28 □ U.S. Court of Appeals, on Storer appeal, rules that *FCC cannot set arbitrary limit on number of stations one entity can own*. ■ Bing Crosby Enterprises demonstrates *color videotape recording system*.

March 7 □ *Hal Roach Jr.* buys father's studios in \$10-million deal.

March 14 □ *Procter & Gamble* leads 1954 radio-TV buyers with \$36 million; Colgate-Palmolive second with \$19 million. ■ *NBC reaches maximum* of five V's and two U's with purchase of *wbuf-TV Buffalo, N.Y.* ■ Estimated *65 million persons watch "Peter Pan"* on NBC-TV, audience Broadway predicted it would take 65 years to reach.

March 21 □ *General Electric and National Telefilm Associates* play key roles in formation of first film "network," National Affiliated Television Stations Inc.; will give assistance to ailing TV stations. ■ NBC-TV's \$3.7-million *Color City in Burbank, Calif.*, opens.

March 28 □ Institute of Radio Engineers convention in New York witnesses disclosure of *transistorized radio*, tricolor vidicon, improved UHF transmitting antenna and earth satellite relay station for transoceanic TV. ■ *Simon video-film camera*, capable of simultaneous motion-picture filming and live telecasting, completed after four years in development. ■ DuMont introduces its *Electronicam* live-film system. ■ FCC authorizes functional music or other *secondary programming via multiplex for FM stations*.

April 11 □ *Pay-TV controversy* raises more public reaction than any issue since color hearing in 1950; *Zenith cancels advertising on CBS-TV* charging network censored commercials, which is denied by CBS. ■ Coty sues Revlon, Weintraub, CBS charging *theft of TV commercial copy*; Hazel Bishop says same copy was created for its lipstick, not Coty or Revlon. ■ White House announces *President Eisenhower* will address May 22-26 NARTB convention in Washington, making him first chief executive to address broadcasters in person. ■ BROADCASTING survey shows that *film* now occupies more than third of total TV broadcast time. ■ Witnesses appearing before Senate Juvenile Delinquency Subcommittee call for probe to determine if *TV is factor in delinquency*.

April 18 □ *DuMont switches to film network*, using Electronicam, reserving live relays for special events and sports. ■ NARTB TV board takes *strong stand against pay-TV*, tower restrictions.

April 25 □ *Adrian Murphy* retires as president of CBS Radio; replaced by West Coast vice president, *Arthur Hull Hayes*.

May 9 □ FCC launches probe into *KPIX(TV) San Francisco damage*, reported coincident with a walkout of NABET engineers at station. ■ *Liquidation of DuMont TV Network* demanded by group of stockholders, headed by Carl M. Loeb.

May 16 □ RCA-NBC, Minnesota Mining participate in *first transmission of color TV program on magnetic tape* over commercial TV network facilities.

May 23 □ *NBC swaps its WNBK(TV)* and WTAM-AM-FM Cleveland and \$3 million to *Westinghouse* for WPTZ(TV) and KYW(AM) Philadelphia. ■ DuMont unveils *Vitascan system* for originating live color without use of color TV cameras.

May 30 □ President Eisenhower nominates *Richard Mack* to succeed Frieda Hennock on FCC. ■ *Affiliates stymie CBS Radio* plan for one-rate structure.

June 13 □ Supreme Court upholds *FCC right to make grants according to needs of cities involved*. Under decision, *WHOL(AM) Allentown, Pa.*, must cease operating to make way for *WEXX(AM) Easton, Pa.*

June 20 □ *ABC-TV billings* for 1955 are 68% above total gross in 1954, with major reasons Walt Disney and fade-away of DuMont. ■ Senate unanimously confirms *Richard Mack* for FCC. ■ *Montana antenna system* refuses to stop rebroadcasting *KXLF-TV Butte* signals.

June 27 □ NARTB board *strengthens radio code*; plans enforcement similar to that of TV. ■ FCC forbids stations in one city from entering into *network affiliation pacts* which prevent stations in nearby cities from carrying the same programs.

July 4 □ CBS reaches agreement with radio affiliates for *single day-night network rate*, affiliates to take 20% cut in compensation; deal must still be negotiated individually with affiliates. ■ *NBC-TV revamps daytime programming*; will have "service" in morning, "entertainment" in afternoon.

July 11 □ Contract between *DuMont and Jackie Gleason Enterprises* calls for Gleason's *The Honeymooners* to be done as Electronicam film program for CBS-TV 30-minute Saturday night series. ■ *CBS buys second UHF station*, *WGH-TV Hartford, Conn.*, from General Telradio for \$650,000.

July 18 □ CBS Radio affiliates accept network's *single-rate plan*. ■ *Paul W. White*, former CBS vice president and news chief, dies at 53.

July 25 □ FCC names committee to conduct *study of network operations*. ■ FCC Commissioner John C. Doerfer proposes *changing New York City's seven TV stations* from VHF to UHF and perhaps making some change in other major markets on theory that if UHF is capable of delivering good service, big city is place to put it to work. ■ *General Telradio* buys RKO Radio Pictures for \$25 million. ■ *House Un-American Activities Committee* announces it will hold hearings on alleged Communist infiltration of radio-TV and other entertainment fields.

Aug. 1 □ Westinghouse Electric Co. will *sponsor 1956 presidential campaign* coverage from conventions to election on CBS Radio and CBS-TV at \$5-million cost. ■ *Combination diary-recorder* method of audience measurement comes close to meeting "ideal" established by Advertising Research Foundation's Radio-Television Ratings Review Committee.

Aug. 8 □ Plan to *liberalize TV mileage separation* and drop in channels between existing stations, providing for 200 more VHF stations, is proposed by Washington law firm of Welch, Mott & Morgan and consulting engineer John H. Mullaney. ■ *Aluminum Co. of America* buys all availabilities on eight NBC-TV programs for a one-day saturation campaign on Dec. 6 for

\$140,000.

Aug. 15 □ *DuMont TV Network to cease operations* if stockholders of Allen B. DuMont Labs ratify "spin-off" proposal to separate manufacturing and broadcasting functions into individual organizations.

Aug. 22 □ U.S. Census Bureau says 32 million homes, 67% of all U.S. households, have TV.

Aug. 29 □ Senate Juvenile Delinquency Subcommittee headed by Senator Estes Kefauver (D-Tenn.) recommends that FCC establish *program censorship*, that all broadcasters join NARTB and all TV film producers be urged to subscribe to the TV code. ■ TV proves its ability to *cover court proceedings unobtrusively* and decorously in test performance at American Bar Association meeting in Philadelphia.

Sept 5 □ Claiming interference in Havana, Cuban broadcaster suggests that *Miami be made all-UHF city*.

Sept. 12 □ *NBC Radio* proposes to extend *Monitor* to weekdays, reduce station compensation by 25% and open up additional evening programs for network sale of participations.

Sept. 19 □ *Republic Pictures* signs government consent decree to make its feature pictures, in 16 mm prints, available to TV and other non-theater purchasers.

Sept. 26 □ FCC Commissioner *Robert E. Lee* proposes that commission *give up on UHF* and expand VHF by relaxing rules and getting more spectrum. ■ *Commercial television starts in England* as Independent Television Authority puts its London station on air.

Oct. 10 □ FCC asks Office of Defense Mobilization to *give some of its VHF channels to broadcasting*, taking UHF bands in return; CBS proposes drop-in plan to provide at least three competitive TV services for nation's top-100 markets; ABC suggests retaining UHF, deintermixing where practicable and adding VHF frequencies wherever possible to give at least three VHF channels to major markets.

Oct. 17 □ *MBS cuts personnel 25%* in "belt-tightening" program. ■ Under present economic conditions *600 TV stations are maximum nation can support*, according to analysis prepared by Sidney S. Alexander, economic adviser to CBS. ■ *Coca-Cola* shifts its \$18-million-a-year advertising budget to McCann-Erickson after 49 years with D'Arcy agency. ■ FCC grants first permits for FM stations to engage in *functional-music operations* to WDC-FM Washington and WPEN-FM Philadelphia. ■ U.S. Supreme Court refuses to review decision of New Mexico Supreme Court that *state school tax of 2% on gross incomes is legal on local revenues of broadcast stations*; *KOB(AM) Albuquerque* has fought tax for 10 years on basis that broadcasting is interstate commerce and so exempt from state and local taxes. ■ ABC Radio affiliates praise network's plan for *evening programing* based on personalized-listening concept, plan calls for two and a half hours to be programed and sold in five-minute segments. ■ *DuMont Broadcasting Corp.*, is organized with *Bernard L. Goodwin*, vice president and general manager of music publishing subsidiaries of Paramount Pictures, as president.

Oct. 31 □ *Jack Wrather, John L. Loeb and Richard Buckley* buy *WNEW(AM) New York* for \$4 million, top price to date for radio station.

Nov. 7 □ NBC board appropriates \$9 million for *color-TV*; to build *new studios in Brooklyn, N.Y., and Burbank, Calif.*, and turn *WNBQ(TV) Chicago* into world's first all-color station. ■ *Sigma Delta Chi* marks *KOKA(AM) Pittsburgh* as "historic site in journalism" in plaque presenta-

tion on 35th anniversary of station's beginning of regular broadcasting.

Nov. 14 □ *FCC denies all deintermixture proposals* pending full reconsideration of TV allocations plans. ■ *Chris J. Whitting* is appointed general manager of Consumer Products Division of Westinghouse Electric Corp.; *Donald H. McGannon* succeeds him as president of Westinghouse Broadcasting Co.

Nov. 21 □ *Forward scatter propagation* is seen as potential medium for development of intercontinental television by scientists at Washington conference; R.P. Haviland, GE research engineer, suggests use of man-made satellites as TV relay points for transoceanic telecasts.

Nov. 28 □ *General Teleradio and RKO Radio Pictures merge* as RKO Teleradio Pictures; General Tire & Rubber Co. buys out R.H. Macy & Co.'s 10% interest to become sole owner.

Dec. 5 □ 1954 was first year that broadcasting *revenues passed billion-dollar mark*, FCC reports, with radio-TV total of \$1,042.5 million; also first year that TV passed radio, with \$595 million for video to \$449.5 million for audio broadcasting. ■ FCC rescinds decision of July to permit VHF TV stations in Zone I to *broadcast with maximum power* from antennas 1,250 feet high, setting maximum height for maximum power back to 1,000 feet.

Dec. 12 □ U.S. District Court upholds right of motion-picture companies to *withhold films from TV* ■ *ABC-TV buys 100 feature films* from J. Arthur Rank for its *Afternoon Film Festival*. ■ *Robert W. Sarnoff* is elected NBC president; *Sylvester L. Weaver* becomes board chairman. ■ Initial decision favors *renewal of license for WVCU(TV) Erie, Pa.*, owned by Edward Lamb. ■ *KWTX-TV Waco, Tex.*, is *first TV station to cover murder trial with live telecasting*; wins praise for inconspicuous presence.

1956

Jan. 2 □ *Television breaks into Hollywood vaults*. RKO Teleradio Pictures sells 740 films and 1,000 short subjects to C&C Super Corp. (which was later to release them, mostly in barter deals, to TV). Columbia Pictures releases 104 features to TV through subsidiary, Screen Gems. CBS negotiates to buy *Terrytoons* for \$5 million. Paramount Pictures negotiates to sell 1,800 short subjects for TV release. ■ FCC approves *Westinghouse-NBC radio-TV stations swap*.

Jan. 16 □ NARTB group devises *uniform station-film contract*. ■ Congress passes Section 309(c), "*economic protest*" amendment to Communications Act.

Jan. 23 □ BROADCASTING survey finds agencies want *guaranteed radio-TV circulation*, but doubt it's possible.

Jan. 30 □ *Democrats* name Norman, Craig & Kummel as agency; *GOP* keeps BBDO. ■ Magnuson Committee opens *TV hearing* with testimony from FCC on allocations, deintermixture, pay TV.

Feb. 6 □ AAAA enters consent decree with Justice Department, agrees not to require 15% agency commission. ■ *Biow-Beirn-Toigo* loses \$6 million Philip Morris account to N.W. Ayer & Son. ■ House Transportation and Communications (Harris) Subcommittee opens *hearings on several communications bills* with testimony from FCC on newspaper ownership of TV stations, equal political time, antenna farms, broadcaster libel relief; from CBS on Stanton proposal to amend Section 315 of Communications Act.

Feb. 20 □ *MBS guarantees circulation* to advertisers based on Nielsen ratings. ■ NARTB asks FCC for *remote operation* for all radio stations. ■ Senate and House Commerce Committees hear usual pro, con testimony on *bills to ban alcohol ads*.

March 5 □ *President Eisenhower* uses radio-TV to announce intention to run. Democrats ask for equal time. ■ PRM, investment firm, buys *Warner Bros. library* of 850 feature movies, 1,500 shorts for \$21 million. ■ Colorado Supreme Court favors *radio-TV court coverage* in historic recommendation. ■ *Magnuson Committee hears Justice Department* antitrust head on pending probes of WBC-NBC swap, option time and must buys, network control of programs; UHF's in criticisms of FCC allocations and requests for deintermixture; and others. ■ House Antitrust (Celler) Subcommittee opens *broadcast-industry probe* with testimony by Justice Department antitrust head pending probe of WBC-NBC stations swap.

March 12 □ Free & Peters becomes *Peters, Griffin, Woodward Inc.*

March 19 □ *Hubbell Robinson Jr. and Merle S. Jones* elevated to CBS-TV executive vice presidents. ■ House Small Business (Evins) Subcommittee charges that *FCC admitted influence by networks*.

March 26 □ Evins subcommittee subpoenas CBS, RCA-NBC records, quizzes two broadcasters on "*influence*" in FCC decisions.

April 2 □ Magnuson committee hears Richard Moore, KTTV(TV) Los Angeles, charge that TV network option time, must buys, *violate antitrust laws*: ABC, CBS, NBC testify on allocations. ■ FCC proposes *antenna farms*. ■ *ABC breaks into profit column* in 1955, AB-PT annual report says.

April 9 □ BROADCASTING survey finds auto advertisers think *TV effective*—in follow-up of earlier criticism of TV effectiveness by Ernest Jones, president of MacManus, John & Adams (agency for Pontiac).

April 16 □ *ODM denies additional VHF spectrum* space to broadcasting.

April 23 □ More than 4,500 broadcasters, others attend *NARTB Chicago convention*, keynoted by ABC President Robert E. Kintner. *Ampex Corp.'s new TV tape recorder* (\$4 million in orders) steals show; NBC's *WNBQ(TV) Chicago* goes full color; MBS unveils new sales plan; FM stations plan group separate from NARTB; VHF's plan protective group to maintain maximum power. ■ *Senator John W. Bricker* (R-Ohio), ranking Republican on Senate Commerce Committee, *reveals confidential FCC figures* on CBS and NBC revenues through 1954 in report, "The Network Monopoly." ■ *Crowell-Cpllier Publishing Co.* buys four radio and three TV stations in \$16-million-plus agreement to become third largest nonnetwork multiple owner. ■ *John B. Poor* named MBS president.

May 7 □ FCC reported studying plan to make *U.S.-TV west of Mississippi River all-VHF*, east of river all-UHF.

May 21 □ *National Telefilm Associates* buys *UM&M Corp.*, leases 52 20th Century-Fox features.

May 28 □ McCann-Erickson gets *\$12 million Chesterfield account*. ■ U.S. Supreme Court upholds FCC's multiple-ownership rule in *Storer case decision*.

June 4 □ Power TV stations, mostly VHF's, organize *Association of Maximum Service Telecasters* to resist curbs on maximum coverage.

June 18 □ Magnuson committee hears

Your contributions
have given insight
and vision to
the industry.
Congratulations on
50 years of
achievement.

hrp

*Aggressively selling for the
finest television stations in America!*

testimony against regulation of networks by FCC from network presidents, Frank Stanton of CBS, Robert W. Sarnoff of NBC, Robert E. Kintner of ABC. They defend option time, must buys and other network practices as wholly legal and not monopolistic; say present networking system works to advantage of stations, advertisers and public; that network regulation would endanger networks and television; that present TV allocations should be corrected.

June 25 □ Federal grand jury begins *probe of Westinghouse-NBC stations swap*, summons NBC and WBC officials for testimony. ■ Fund for Republic report charges "*blacklisting*" in radio-TV by powerful individuals.

July 2 □ FCC uncovers plan for *long-range shift of TV to all-UHF*; for present, proposes deintermixture in 13 markets. ■ Celler Subcommittee resumes hearings in *probe of broadcast industry* with testimony from FCC on Westinghouse-NBC swap; reveals FCC staff report indicating possibility of "force" on part of NBC.

July 16 □ Westinghouse Broadcasting Corp. radio stations *drop NBC Radio affiliation*. ■ Celler Subcommittee hears FCC on *alleged monopoly of TV by networks*; reveals confidential FCC figures on TV network returns for 1955. ■ CBS Inc. *shuts down TV set-making division*, CBS-Columbia.

July 23 □ Magnuson Committee issues *report supporting FCC on allocation proposals*, urges speed to help UHF. Two members of committee dissent, urging FCC to keep present plan. ■ New Gates Radio Co. tape-disk system promises *entirely automatic radio-station operation*.

July 30 □ ABC submits plan to FCC and Congress for *equal TV facilities* in top-200 markets.

Aug. 27 □ *725 MGM features leased to CBS*, King Broadcasting Co.'s two TV outlets and Triangle Publications' four TV stations for estimated \$16-\$20 million.

Sept. 3 □ Sindlinger & Co. says *TV lost viewers* because of political-convention coverage; Trendex says TV viewing exceeded that for regular programs. ■ Network officials say they lost \$4.1-\$5.1 million because of *convention coverage*. ■ NBC-TV plans to *increase color schedule 500%* in fall.

Sept. 10 □ *Big push for release of post-1948 movies to TV* begins as men from 10 major studios huddle in Hollywood to explore united plan. ■ NBC Board Chairman *Sylvester L. (Pat) Weaver* resigns, leaving President Robert W. Sarnoff in charge. Four executive vice presidents named.

Sept. 17 □ NTA Film Network reports *lineup of 104 affiliate TV stations*, plans Oct. 15 start.

Sept. 24 □ Celler Subcommittee hears ASCAP witnesses say networks and BMI *dominate nation's music*. BMI denies and is echoed by ABC President Robert E. Kintner, who also defends network practices. Subcommittee reveals network's affiliation contracts. ■ FCC meets with industry representatives to discuss "*crash*" program to save UHF.

Oct. 8 □ RCA scientists present *General Sarnoff* with "gifts" requested on his 45th anniversary: magnetic-tape player for TV programs, electronic air conditioner and electronic amplifier of light.

Oct. 15 □ Annual Videotown survey shows *drop in viewing time*, first in nine years.

Oct. 22 □ AB-PT President *Leonard Goldenson* assumes charge of broadcast operations after

resignation of *Robert E. Kintner* as ABC president; *Oliver Treyz* rejoins ABC as head of its TV network. ■ *Norman Cash* is elected president of Television Bureau of Broadcasting to succeed Oliver Treyz.

Oct. 29 □ *Association of National Advertisers* launches study to analyze agency functions, determine validity of traditional 15% commission.

Nov. 5 □ *Robert F. Kintner* joins NBC as executive vice president. ■ *Jack Von Volkenburg* resigns as president of CBS-TV; *Merle Jones*, executive vice president, succeeds him. ■ *National Telefilm Associates* acquires TV rights to 20th Century-Fox Film Corp. library of 390 feature motion pictures, sells that film company half-interest in NTA Film Network. ■ Networks give *Adlai Stevenson*, Democratic candidate for President, time to answer President Eisenhower's broadcast on Middle East crisis, as FCC delays ruling.

Nov. 12 □ House Antitrust Subcommittee discloses *discounts given to individual advertisers* by CBS-TV, NBC-TV.

Nov. 19 □ People devote *more time to television* than to newspapers, TVB research reveals. ■ Peters, Griffin, Woodward, station representative, *installs Univac computer* to provide fast answers to queries about stations' programs, rates, availabilities. ■ *Radio Free Europe* denies charges it instigated Hungarian revolt. ■ *Broadcast Promotion Association* is organized.

Nov. 26 □ Justify extensions or turn in construction permits, FCC tells 85 *non-operating UHF TV grantees*. ■ Crowell-Collier Publishing Co. *cancels \$16-million purchase of Bitner stations*, forfeits \$100,000 earnest money.

Dec. 10 □ Justice Department files *antitrust suit against NBC and RCA*, charging coercion of Westinghouse Broadcasting Co. in swap of Philadelphia and Cleveland stations. ■ NBC celebrates *30th anniversary*. ■ *Paul W. Kesten*, long-time CBS executive, dies at 58.

Dec. 17 □ CBS News adopts "*magnetic stripe*" recording process to upgrade sound quality of newfilm.

Dec. 24 □ *Time Inc.*, *buys Bitner stations for \$15,750,000*. ■ *AB-PT borrows \$60 million* to pay off \$37-million indebtedness and improve competitive position in television.

1957

Jan. 14 □ Roscoe L. Barrow, head of FCC's Network Study Staff, warns of *growing concentration of control of television*.

Jan. 21 □ *Philco Corp. files \$150-million triple-damage antitrust suit* against RCA, General Electric Co. and AT&T. ■ *John L. Burns* is named RCA president. ■ *Arturo Toscanini*, conductor of NBC Symphony, 1937-1954, dies.

Feb. 4 □ WDAY-TV Fargo, N.D., complies with federal law forbidding censorship of political candidates, is hit by *\$150,000 libel suit*.

Feb. 11 □ William Esty Co. *asks radio stations for logs of morning hours*, to check on commercial volume. ■ *U.S. and Mexico agree* on use of standard frequencies.

Feb. 18 □ *Videotape recorders* are seen as solution to TV networks' daylight savings time problems. ■ Oklahoma judges favor *admitting TV cameras into courtrooms*.

Feb. 25 □ CBS Radio will *raise daytime rates 5%*, cut nighttime rates one-third, if affiliates approve.

March 4 □ Warner-Lambert Pharmaceutical Co. and P. Lorillard Co. will *co-sponsor* 90-minute broadcasts of feature films on 128 TV stations of NTA Film Network. ■ *Gene Buck*, ASCAP president 1924-1942 and leader in fight for ever-higher revenue from radio, dies at 71. ■ *FCC adds new VHF stations* in 10 markets, tells five VHF broadcasters to shift to UHF.

March 25 □ *DuMont buys WNEW(AM) New York* for \$7.5 million, highest price ever paid for radio station. ■ International Telemeter Corp., subsidiary of Paramount Pictures, demonstrates *pay-as-you-see system*, invites immediate purchase for wired use, on-air when FCC approves. ■ *FCC bans economic-injury appeals*, disclaiming authority to consider effects of broadcast grant on existing station, in reversal of 15-year policy.

April 1 □ *Military seeks channels 2-6 from TV*; some 200 VHF stations might have to move to ultra high. ■ *Justice Department sues Loew's* for block-booking MGM feature films to TV.

April 8 □ Mutual adopts *music-news-sports* format. ■ *UHF can be profitable*; WWLP(TV) Springfield, Mass., opens books to prove it.

April 22 □ ABC-TV drops *must-buy requirements* for network-owned stations.

April 29 □ IRS rules *network affiliations can't be depreciated*; won't allow Westinghouse claim for \$5 million write-off for NBC affiliation of WPTZ(TV) Philadelphia. ■ CBS-TV loses *Toni award broadcast* in IBEW-IATSE hassle over lighting jurisdiction, may sue IBEW. ■ *Corinthian Broadcasting Corp.* is formed to handle Whitney radio-TV properties; *C. Wrede Petersmeyer* is president.

May 6 □ *J.M. Mathes*, agency president, pioneer in sponsored radio programing, dies at 68.

May 13 □ Strong argument for *radio-TV access to courts* is offered by film of Denver murder trial.

May 20 □ TV commercials that knock competitors bring *FTC complaint*, \$5-million damage suit. ■ *Stan Freberg's* zany radio spots sell Zee towels, start trend.

May 27 □ FCC *postpones pay-TV tests* until basic questions are answered. ■ Fur flies when Mickey Cohen, self-styled reformed gangster, *blasts L.A. Police* on ABC-TV's *Mike Wallace Interview*.

June 3 □ ABC Radio changes name to *American Radio Network*, shortens broadcast day.

June 10 □ Celler report finds *TV hampered by station scarcity* and FCC failure to correct time-option and must-buy practices. Tobacco advertisers say report of American Cancer Society, linking smoking with death, will have *little effect on cigarette advertising*.

June 17 □ *Nine Philadelphia radio stations are fined \$1,000 each* for agreeing not to cut rates, held antitrust law violation. ■ *Edward Lamb*, cleared of Communist connections after three-year fight, gets renewal for WICU(TV) Erie, Pa.

June 24 □ *Cy Langlois*, early producer of syndicated transcribed radio programs, dies at 64.

July 1 □ *Senate Commerce Committee* also attacks optimum-time and must-buy TV network practices. ■ American Airlines takes flier in *stereo*. ■ *John C. Doerfer* moves up to FCC chairmanship; *George McConaughy* leaves post with parting shot at congressional critics.

July 15 □ Let Congress decide about *pay TV*, Representative Celler tells FCC. ■ *Daytime broadcasters* block Senate approval of NARBA.

July 29 □ *Benton & Bowles* plan for General

SYSTEM 20 is the latest addition to our family of innovative broadcast mixers. Although larger in size and scope, it still retains the elegant low profile appearance of our other desk top audio consoles.

Affordable options include 7-frequency graphic equalizers, pan pots and a studio monitor output which can be selected *from the studio*. Technical features include P & G slide faders, custom wound wide band output transformers and voltage regulators on each mixer.

This all new design has spectacular performance at a surprisingly low cost. Delivery? Four weeks or less. Why wait?

Dec. 23 □ *CBS pays \$20 million for WCAU-AM-FM-TV Philadelphia*, biggest price for broadcast property. ■ *Arbitron, instantaneous electronic rating service*, is unveiled by ARB. ■ *Kudner loses \$23-million Buick account* after 22 years.

Dec. 30 □ *Chroma Key* unlocks TV magic.

1958

Jan. 6 □ *Voice of America* finds truth best propaganda.

Jan. 13 □ *TV audiences aren't rising* with TV prices, agencies complain.

Jan. 20 □ *Invisible (subliminal) TV* put under spotlight in Los Angeles and Washington.

Jan. 27 □ *Bernard Schwartz*, counsel to House Legislative Oversight Subcommittee, charges FCC commissioners with malfeasance. ■ *Dodgers*, moving to Los Angeles, permit radio coverage, ban TV. ■ Unions protest use of *Republic Pictures'* films on NBC-owned TV stations without payment to actors, writers.

Feb. 3 □ Pressure groups, professional and trade as well as ethnic, have forced much comedy off air, *Groucho Marx* charges.

Feb. 10 □ *Paramount Pictures*, last holdout from TV, releases pre-'48 library for \$50 million. ■ House Commerce Committee tells FCC not to authorize *pre-'48 tests* until Congress approves. ■ *"Patron" plan* lets business firms underwrite ETV programs without violating no-sponsor rule.

Feb. 17 □ FBI investigates charges that FCC Commissioner Richard Mack sold vote on ch. 10 Miami grant; *Schwartz* is fired as Oversight counsel.

Feb. 24 □ *"Burns and Allen"* TV series comes to end as Gracie retires. ■ *Oliver Treyz* is elected president of ABC-TV. ■ *AFM strikes Hollywood* movie makers in dispute over fees for release of films to TV.

March 3 □ *Frey Report* provides basis for realistic appraisal of agency services, compensation by individual advertisers. ■ *Lever Bros.* drops Pepsodent spot-radio advertising, bulks up spot TV. ■ FCC agrees not to act on *pay-TV applications* until month after Congress adjourns.

March 10 □ *Barrow proposals* would not put networks out of business, top executives tell FCC. ■ *Maryland outlaws city-county ad taxes*, ending Baltimore levy at end of 1958. ■ *Richard Mack* resigns from FCC.

March 17 □ ABC officials ponder *dropping radio network*. ■ CBS divides television operations: *Merle Jones* heads TV station division; *Lou Cowan*, TV network.

March 31 □ Rebel musicians form *Musicians Guild of America* as competitor of AFM.

April 7 □ *Court dismisses libel suit against WDAY-TV Fargo, N.D.*, rules station can't be punished for obeying federal law forbidding censorship of political candidates. ■ FCC disclaims *jurisdiction over CATV*.

April 21 □ FCC proposes to duplicate half of 24 Class 1-A *clear-channel frequencies*.

April 28 □ Federal court remands *ch. 10 Miami case* to FCC for rehearing.

May 12 □ *Videotape* creates new problems of union jurisdiction. ■ *CATV is tough competition* for small-market TV stations.

May 19 □ *Commander Eugene McDonald Jr.*, board chairman of Zenith Radio and ardent advocate of pay TV, dies at 72.

May 26 □ ANA opens war on *TV triple-spotting*. ■ *Bartlesville, Okla., experiment in wired pay-TV fails*. ■ *Elmer Davis*, news commentator, wartime head of OWI, dies at 68.

June 2 □ FCC studies plan to *consolidate TV* in one 25-channel band. ■ ANA completes three-year, \$200,000 *advertising management study*. ■ United Press and International News Service merge into *UPI*.

June 9 □ Justice Department calls *option time, program tie-ins illegal*; waits for FCC to act. ■ House Legislative Oversight Subcommittee looks at *ex-parte pressures* on FCC.

June 16 □ *NBC shuts down Buffalo UHF* station, in face of VHF competition.

June 23 □ CBS-TV acts to end *triple-spotting*; BAR reports on extent of practice. ■ NAB bans *"men in white" commercials*, subliminal perception. ■ *Uncooperative witnesses* before House Committee on Un-American Activities lose jobs in television.

June 30 □ Timebuyers say they don't like *"top-40" stations*, fail to explain why these stations get so much business. ■ *AFM-Desilu contract* boosts employment of musicians on TV-film shows, sets flat rate for re-runs.

July 7 □ NBC-TV, CBS-TV affiliates *videotape news pictures* off network lines.

July 14 □ *Musicians Guild beats AFM* in NLRB election, wins right to represent movie musicians. ■ FCC must consider *economic impact in new-station grants*, court of appeals rules. ■ Maryland court rules *Baltimore ad tax unconstitutional*. ■ Court rejects invasion-of-privacy plea of Tony Accardo, lets *TV cameras cover his testimony*. ■ *Independent Television Corp.* is formed by Jack Wrather Organization, Associated TV Ltd. and others, as international distributor of TV programs. ■ *Robert Sarnoff* is elected NBC board chairman; *Robert Kintner* succeeds as president.

July 21 □ *"Operation Daybreak,"* daytime TV plan developed by ABC-TV and Young & Rubicam, is damned by other networks but accepted by ABC-TV affiliates.

July 28 □ CBS-TV liberalizes policies on *exchange commercials*, product protection for daytime advertisers. ■ World's first *"Telecopter," airborne TV-mobile unit*, introduced at KTLA(TV) Los Angeles.

Aug. 4 □ New *federal censorship code*, similar to that of World War II, is ready. ■ TV stations may operate *private intercity relays*, regardless of availability of common carriers, FCC rules, reversing previous stand. ■ Appeals court upholds *FCC grant of ch. 5 Boston to Herald Traveler (WHDH)* but remands case for investigation of undue influence.

Aug. 11 □ TV *Q-Ratings* are offered as measure of program appeal. ■ *UHF has lost ground* in last two years, Nielsen finds.

Sept. 1 □ New York *district attorney investigates "Twenty-One"* after contestant claims fakery. ■ *Music guild signs contract* with motion-picture producers; AFM charges "sellout."

Sept. 8 □ Oklahoma court holds radio-TV entitled to *same courtroom rights as press*. ■ Ampex introduces *TV tape splicer*. ■ Ed Craney, Montana broadcaster, goes to court to *stop CATV from picking up TV programs off air without permission*.

Sept. 15 □ *Hal Roach Studios buys Mutual Broadcasting System*; A.L. Guterman, chairman of FL Jacobs Co., majority stockholder in Scranton Corp., which earlier bought Roach property, becomes MBS president. ■ *NBC-TV bans network "clipping,"* eliminating triple-spotting in station breaks.

Sept. 22 □ *Independent Television Corp. buys Television Programs of America* for \$11.35 million.

Sept. 29 □ Federal *grand jury indicts former FCC Commissioner Richard Mack*, charted with selling vote in ch. 10 Miami grant. Thurman Whiteside accused of buying it. ■ BBDO converts *live commercials to videotape*.

Oct. 13 □ CBS-TV broadcasts *"The Plot to Kill Stalin;"* USSR closes CBS News's Moscow bureau.

Oct. 20 □ *WOMT(AM) Manitowoc, Wis.*, says it will take *liquor advertising*, shakes up NAB. ■

"Twenty-One" is canceled as ratings drop. ■ U.S. Court of Appeals upholds right of *Loyola University*, New Orleans, to own TV station, despite ties with Rome.

Nov. 3 □ CBS Radio offers affiliates pay in programs for *local sale instead of cash*. ■ *RCA signs consent decree*, accepts fine of \$100,000, agrees to set up nonroyalty *patent pool in color TV*, ending four-year antitrust suit.

Nov. 10 □ *Albert Freeman*, producer of "Twenty-One," is indicted for perjury.

Nov. 24 □ President Eisenhower names *advisory committee in telecommunications*, asks for rush report on role of government in spectrum management.

Dec. 1 □ *Option-time* question divides FCC. ■ Westinghouse forms *Television Advertising Representatives* to represent its five owned TV stations. ■ *James Byron*, news director of WBAP-TV Fort Worth, is first broadcaster-president of Sigma Delta Chi, national professional journalism society.

Dec. 8 □ *Major leagues* reject players' pitch for share in TV profits.

Dec. 22 □ Orbiting *Atlas missile* relays President's "peace on earth" message from sky to ground. ■ *MCA* takes over Universal Studios.

1959

Jan. 5 □ Public describes *ideal radio station format* in motivational research study for KPRC(AM) Houston. ■ *Edward J. Noble*, who bought Blue Network from RCA, changed name to ABC, merged it with United Paramount Theaters, dies at 76.

Jan. 12 □ *Young & Rubicam* combines program and media operations into expanded radio-TV department. ■ "*Must-buys*" now dropped by all TV networks as NBC-TV falls in line. ■ FCC invites comments on *space-communications allocation*. ■ *Commercial TV broadcasters* contribute time, facilities, know-how to ETV.

Feb. 2 □ *TV films*; big firms prosper as small ones get squeezed out. ■ FCC proposes rule *limiting TV-network spot representation* to own stations.

Feb. 16 □ SEC investigates *Guterman stock manipulations*; MBS future uncertain. ■ FCC orders new *booster study*. ■ Fund for Republic finds sentiment growing for *TV censorship*.

Feb. 23 □ *Lar Daly*, perennial splinter candidate, is accorded equal time under Section 315 of Communications Act. ■ Supreme Court rules that *NBC* must stand trial for *alleged coercion* in station swap with Westinghouse.

March 9 □ *Multiple spotting* widespread in medium-sized markets, BAR monitors find; Y&R condemns practice.

March 16 □ TASO conclusion: *UHF can't compete with VHF*.

March 23 □ *FM Association of Broadcasters* succeeds FMDA.

March 30 □ *Malcolm Smith* group buys MBS. ■ FCC issues new rules for *pay-TV test*; House Commerce Committee approves action by 11-10 vote.

April 6 □ Plethora of plans for *revising allocations of whole radio spectrum* emerge as FCC wrestles with UHF-VHF problem and mobile users clamor for more space.

April 13 □ *Subliminal advertising* works, but not as well as visible ads, Indiana study shows. ■ FCC lets local stations apply for *daytime maximum power of 1 kw*; adopts

deadline cutoff policy to speed processing of new AM applications.

April 20 □ *Fall TV-network programing* takes shape early. ■ FCC agrees to license *on-channel VHF boosters* if Congress passes enabling legislation.

April 27 □ Sixty-eight TV stations defy code, refuse to drop *Preparation H commercials*. ■ *News services* report they now have more station subscribers than newspaper clients.

May 4 □ NAB TV board *revokes code membership* of handful of stations that refuse to comply with code rules.

June 22 □ Radio *broadcasters and ASCAP* agree on new license terms. ■ *NAB TV code board cracks down* on Preparation H; 19 stations are dropped; 17 resign. ■ NBC-TV broadcasts newsfilm sent from London through undersea cable, using *slow-scan process*.

July 6 □ FCC *rejects plea of daytime stations* for extended air time. ■ *Mutual files bankruptcy* petition; Robert Hurleigh tries to keep network on air. ■ Supreme Court *ends danger of libel suits* arising from broadcasts by political candidates. ■ Broadcasters urge *FCC regulation of CATV* protest unfair competition. ■ Wall Street investment firms buy 80% of *Ziv Television Programs* for \$14 million.

July 26 □ Big businessman, *Al McCarthy*, steps in to rescue MBS.

Aug. 3 □ Congress wants look at *quiz-show scandal records* held by New York grand jury. ■ Ampex's Grundy smuggles videotape recording of *Nixon-Khrushchev debate* out of Russia for broadcast on all three U.S. television networks.

Aug. 31 □ *How big is payola?* Can disk jockeys be 'bought'? BROADCASTING special report surveys sorry situation.

Sept. 7 □ Congress amends Section 315; exempts newscasts from equal-time requirement, but writes "*fairness doctrine*" into the law. ■ Broadcasters fight antitrust exemption for *professional sports* which would permit *blackout* of 20 million homes. ■ Mission of *Television Information Office* is defined. ■ Grand jury indicts *Alexander Guterman* and associate for using MBS as propaganda tool for Dominican Republic.

Sept. 14 □ New labor bill protects broadcasters against *blackmail picketing*, secondary boycotts.

Sept. 21 □ TV Code Review Board issues guide for *personal-products advertising*. ■ Federal judge *upholds Armstrong patents in FM*, finds Emerson Radio guilty of infringement.

Sept. 28 □ *NBC signs consent decree*, agrees to sell Philadelphia stations acquired from Westinghouse, not to add or exchange stations or increase representation without Department of Justice permission. ■ FCC proposes to add *Class II unlimited stations* to 23 of 25 Class I-A clear channels, invites comments. ■ Special Examiner Horace Stern finds *nothing improper in grant of ch. 5 Boston* to WHDH (*Boston Herald-Traveler*) and no reason to set case aside.

Oct. 12 □ *WJR(AM) Detroit, drops network*, beefs up staff and live programing, increases revenue. ■ FCC orders *TV networks not to represent stations they don't own*; 13 stations need new reps. ■ *Quiz contestants* tell House Legislative Oversight Subcommittee they got answers in advance; CBS-TV drops big-prize shows.

Oct. 19 □ Timebuyers prefer *one-minute TV*

spots. ■ Supreme Court upholds lower court ruling that *FCC acted illegally* in ordering that functional music must be multiplexed.

Oct. 26 □ TV networks start repolishing image as *President Eisenhower* calls quiz-show rigging "a terrible thing to do to the American public."

Nov. 2 □ *RCA color tape recorder* is fully compatible for playback on other VTR machines, company announces.

Nov. 9 □ NBC, CBS move to eliminate all *program practices that might deceive public*, as Van Doren's confession that his "Twenty-One" performance was rigged causes public outcry and House probe finds other quiz shows fixed.

Nov. 16 □ FCC orders *sweeping inquiry* into programing and advertising practices of radio-TV.

Dec. 7 □ FCC goes after *illegal plugs* at stations; FTC charges record companies, distributors bribing disk jockeys, networks tighten curbs on plugs, payola; NAB toughens code restrictions.

Dec. 14 □ *Quiz and payola scandals*, government probes haven't hurt time sales, station reps say. ■ *Jim Aubrey* succeeds Lou Cowan as president of CBS-TV Network. ■ NAB forms task force to handle industry's *ethical and legal problems*. ■ Judge takes \$150-million damage claim out of *songwriters' suit against BMI*, lets other charges go to trial.

Dec. 21 □ Public does not condone abuses but *has not lost faith in radio-TV*, researcher Elmo Roper finds. ■ *RCA signs consent judgment* with FTC, agrees not to pay disk jockeys to play records unless payment is publicly disclosed.

Dec. 26 □ *Audio tape cartridge for home use* is under development by 3M Co. and laboratories at CBS.

1960

Jan. 4 □ Fees from movies sold to TV loom large in *Hollywood-union contract talks*.

Jan. 11 □ FTC issues *more payola complaints*, composers, demand stations sell BMI stock or lose licenses. ■ Attorney General William P. Rogers says FCC and FTC have authority to clean up deceptive broadcasting, should use it more effectively. ■ *ASCAP fees* for radio stations drop 9% under new licenses. ■ FCC proposes reduction of co-channel mileage separation to permit *VHF drop-ins*.

Jan. 18 □ FCC Chairman Doerfer proposes *prime time cultural programing*, rotated among TV networks. ■ *FTC hits TV commercials* of Lever Bros., Standard Brands, Colgate-Palmolive, Alcoa as phony.

Jan. 25 □ Networks agree to try Doerfer *prime-time culture plan*.

Feb. 1 □ Former FCC Commissioner *Richard Mack* enters psychiatric institute as second trial of him and *Thurman Whiteside* pends; first trial ended in hung jury.

Feb. 15 □ House Legislative Oversight Subcommittee opens *payola hearing* with KYW(AM) Cleveland and WBZ(AM) Boston as horrible examples. ■ *Telemeter* puts coin boxes into 2,000 Canadian homes for pay-TV test in Toronto suburb.

Feb. 22 □ FTC seeks to clarify law on *misleading ads* on case-by-case basis, exchanges information with FCC on payola. ■ *Alexander Guterman*, former MBS president, is sentenced to four years, 11 months in federal prison, fined \$160,000 for stock fraud.

Feb. 29 □ Gillette, NBC tie up *radio-TV rights to World Series, All-Star Game* through 1966. ■ NAB stand on FCC program surveillance has not changed, NAB President *Harold E. Fellows* tells state association presidents. ■ *NBC purchases KTVU(TV) Oakland-San Francisco*; KRON-TV, NBC-TV affiliate in San Francisco, protests. ■ Senate passes *NARBA, Mexican treaties*.

March 7 □ *FCC Chairman John Doerfer* admits riding to Florida on Storer plane, spending nights on Storer yacht. ■ House Legislative Oversight Subcommittee Chairman *Oren Harris* (D-Ark.) and FCC Chairman *Doerfer* stage *impromptu debate* at CBS-TV affiliates meeting. ■ FCC cites four Boston-area stations for *payola offenses*. ■ *SAG strikes major movie companies*; settles with U-I on fees from sale of pictures to television.

March 14 □ *John Doerfer* resigns; *Frederick Ford* is new FCC chairman. ■ *Bulova* time signals return to radio. ■ *Harold E. Fellows*, NAB president since 1951, dies of heart attack at 60.

March 21 □ *NBC sells Washington stations* to RKO General, exchanges Philadelphia broadcast properties for RKO's in Boston.

April 4 □ *Satellite* sends weather reports back to earth from 400-mile-high orbit. ■ RKO-Zenith plan \$10 million test of *on-air pay television* in Hartford, Conn.

April 25 □ *Advertisers vie to buy TV* entertainment programs, shun public-service shows. ■ *Minnesota Mining & Manufacturing Co.* is new MBS owner.

May 9 □ *FTC investigates ratings*, use in station advertising. ■ *Philco* applies for *ch. 3 Philadelphia*, now occupied by NBC's *wrcv-TV*. ■ *Sam Goldwyn* offers movies to television.

May 16 □ *Color commercials* have 3.5 times the impact of black-and-white, Cincinnati study finds. ■ FCC to establish *Office of Complaints and Compliance* as watchdog over broadcasters. ■ *TV networks* control 80% of shows for new season, up from 71% in 1959-60.

May 23 □ N.W. Ayer joins drive for *summer discounts* in TV rates. ■ TV networks offer *free time to major-party presidential candidates* as Senate considers bill to require it. ■ New York grand jury issues eight *payola indictments*. ■ By single vote, *Senate kills bill to put CATV under FCC regulation*.

May 30 □ *UPI adds "audio" news reports* to radio-station service.

June 13 □ Station representatives urge stations to *clear up rate muddle*, after N.W. Ayer threatens to deal directly with stations. ■ Broadcasters have no common-law rights in their programs, Montana district judge rules, *dismissing infringement suit of KXLF-TV Butte against Helena CATV system*.

June 20 □ *Writers Guild of America strike* ends after five months.

June 27 □ *Frieda Hennock Simons*, first woman FCC commissioner, dies at 55, following brain surgery.

July 4 □ *Long-term contracts*, tying top talent to one network for many years, are out of date; new contracts reflect changes in economics, public taste.

July 11 □ *Product protection dwindles* on TV. ■ FCC makes *Fresno, Calif.*, all-UHF market, deletes *ch. 12*. ■ *Hughes Aircraft unveils laser* (light amplification by stimulated emission of radiation).

July 18 □ FCC cancels grant of *Miami ch. 10* to National Airlines, gives it to L.B. Wilson Inc.

July 25 □ TV affiliates want *40-second station breaks*. ■ Advertisers and agencies *tamper with scripts and casting*, writers declare.

Aug. 1 □ FCC announces new policy of keeping *careful watch of station programing* and efforts to find and meet needs of community.

Aug. 15 □ CBS Radio plans to cut entertainment programing, *bolster news*. ■ *SAG* members reject merger with AFTRA. ■ *Echo I*, balloon satellite, relays signals from 1,000-mile-high orbit.

Aug. 22 □ *End of daytime serials* on network radio.

Aug. 29 □ Congress *suspends equal-time requirement* for presidential candidates.

Sept. 5 □ *TV-network programers* are hard at work on 1961-62 shows, even before 1960-61 season starts. ■ *KYA(AM) San Francisco* institutes single rate, bans multiple spotting, refuses barter and per-inquiry business to test viability of ethical radio.

Sept. 12 □ *AFM* wins back, right to represent musicians in negotiations with movie producers, lost to MGA two years before.

Sept. 19 □ Special FCC examiner recommends *disqualifying three applicants for Miami ch. 7*, voiding grant to *wckt(TV)*. ■ President signs *payola bill* into law. ■ *Federal Aviation Administration* claims final say on broadcast towers as hazards; broadcasters favor FCC authority.

Oct. 3 □ Florida ex-governor, *LeRoy Collins*, is picked as new NAB president. ■ Opening *Kennedy-Nixon debate* gets biggest TV audience ever.

Oct. 10 □ Advertisers join agencies in *"Interchange" program* to improve advertising through self-criticism. ■ NAB TV code board interprets *liquor-ad ban* to include any commercials inducing use of liquor; cocktail-mix spots move to noncode station. ■ *Courier I-B* goes into orbit, stimulates talk of *stationary satellites*.

Oct. 17 □ *TV producers* tell FCC they control programs, admit they accede to policy taboos of sponsors, which may be extensive. ■ *Thurman Whiteside* is acquitted in *Miami ch. 10* case; former FCC Commissioner *Richard Mack* is too ill to stand trial. ■ *Crowell-Collier* buys *WMGM(AM) New York* for \$11 million.

Oct. 24 □ *Taft Schreiber* refuses to tell FCC which shows MCA has interest in, after William Morris executives explain their company's operation. ■ *Quiz contestants* are indicted for perjury.

Nov. 7 □ *Debates helped Kennedy*, hurt Nixon, Sindlinger study shows. ■ *Canadian pay TV families* spend 80 cents per week to see movies at home. ■ *Dr. W.R.G. Baker*, noted GE engineer who headed group that set TV standards, dies at 67.

Nov. 21 □ *James Hagerty*, White House news secretary, picked to head ABC News, as *John Daly* resigns. ■ FAA chief concedes *FCC has final say on tall towers*.

Nov. 28 □ Negotiators for networks, ad agencies, film producers reach *agreement with AFTRA-SAG*.

Dec. 12 □ ABC-TV, CBS-TV take 8:30-11 p.m. as *evening option time*. ■ *Gene Autry, Bob Reynolds* add baseball club to broadcast holdings. ■ FCC moves to *stop station trafficking*, proposes three years as minimum ownership period. ■ *Richard Eaton* stations are first to be given short-time license renewals, under new law establishing that penalty for violations of FCC rules.

Dec. 19 □ *New SAG-AFTRA agreement* gives actors equal pay for film and tape commercials.

Dec. 26 □ *Airborne TV transmitters* are ready to send instruction to Midwest schools.

Jan 2 □ *James M. Landis*, former dean of Harvard Law School, joins Kennedy staff to study regulatory agencies. ■ *House Subcommittee on Legislative Oversight* comes to end. In three and half years, it turned spotlight on quiz scandals, payola and ex-parte influence, caused downfall of *Doerfer, Mack, Van Doren* and cancellation of six TV-station grants. ■ *"Monitor South"* plans economic reprisals against sponsors of programs distasteful to Southerners.

Jan. 16 □ *Newton Minow*, law partner of Adlai Stevenson, is picked as FCC chairman. ■ New FCC rules tighten *restrictions on pay-offs* and strike applications.

Jan. 23 □ *FCC must consider programing* at renewal time, James Landis asserts.

Jan. 30 □ U.S. Court of Appeals approves FCC plan to *revoke Boston ch. 5 grant to Boston Herald-Traveler*, rehear case.

Feb. 6 □ *Repeal of Section 315* urged by NAB, CBS, NBC; modification advocated by ABC, MBS. ■ *Edward R. Murrow* leaves CBS to head U.S. Information Agency.

Feb. 27 □ FCC approves *three-year trial of subscription television* on *whct(TV)* Hartford, Conn. ■ *20th Century-Fox* sells 30 motion pictures to NBC for \$6 million, plans major expansion of TV film production.

March 6 □ *Baseball billings* of \$75 million for year estimated by BROADCASTING. ■ Viewers say they want culture, but it's *pure entertainment* that they watch, researchers discover. ■ *WBC Productions* formed to produce programs for Westinghouse-owned radio and television stations, syndication to others.

March 20 □ Threatened by boycott, picketing, *Liggett & Myers drops "The Untouchables."* ■ NBC-TV cuts *product-protection time* to 10 minutes.

March 27 □ *Kdwb(AM) Minneapolis-St. Paul* draws first FCC fine, \$10,000 for alleged *"willful and repeated" technical violations*.

April 3 □ *Powell Crosley Jr.*, early radio-set manufacturer who established *wl-w(AM)* Cincinnati in 1921, dies at 74.

April 17 □ *Political billings* of radio and television in 1960 campaign totaled \$14 million.

April 24 □ *Kennedy plan to reorganize FCC* with added power for chairman is opposed by commissioners. ■ FCC approves *FM stereophonic broadcasting*.

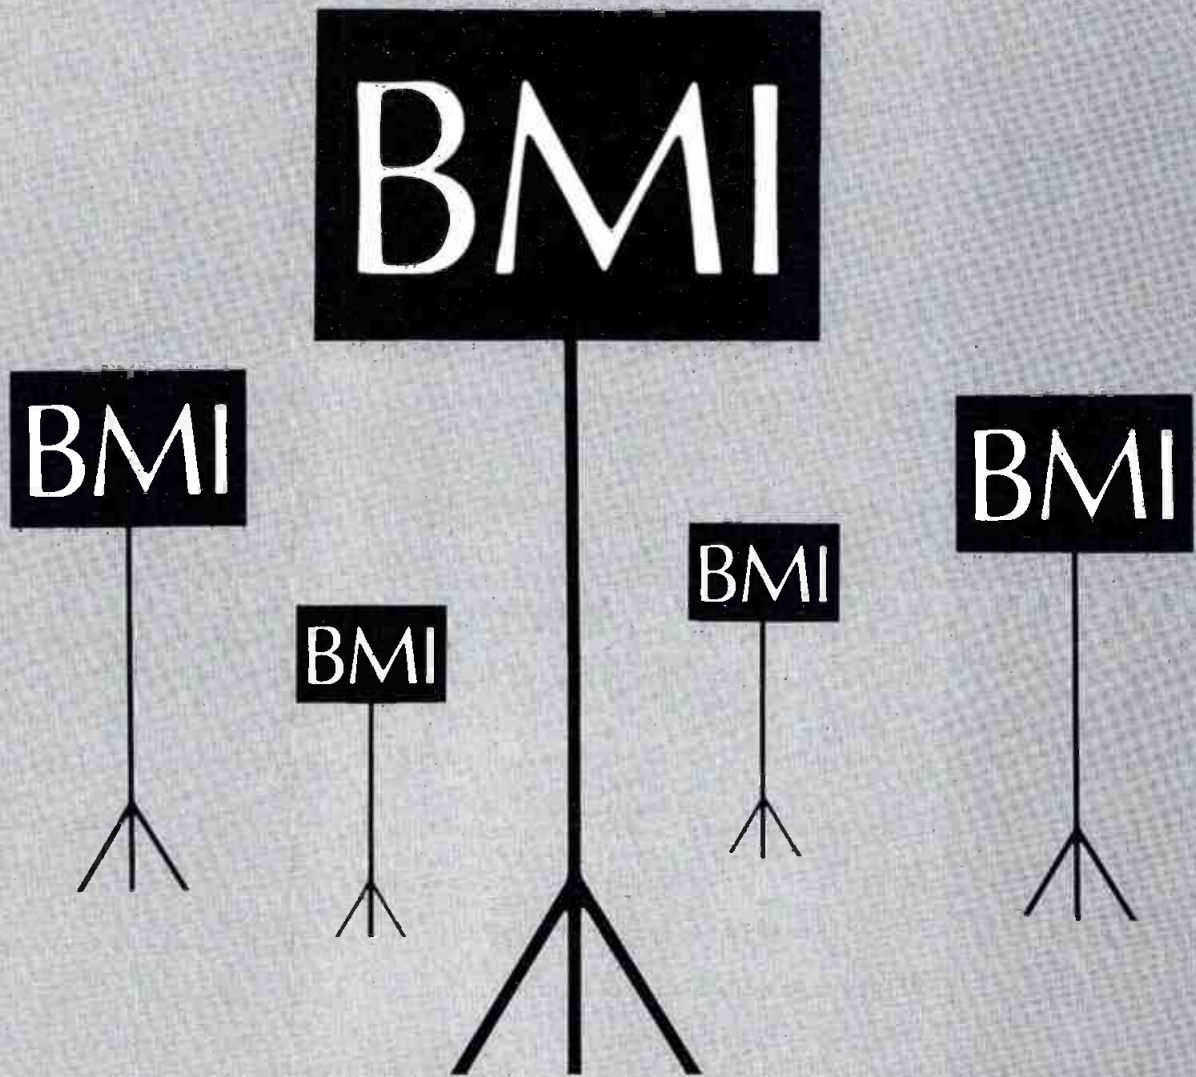

May 1 □ *Television audience is hard to please*, demands better programing, Campbell-Ewald depth study shows. ■ *Young & Rubicam* asks NAB, FCC to persuade ABC-TV not to adopt 40-second breaks.

May 8 □ *Kennedy order on ethics* for government officials bans gifts, fees, compensation for outside activities.

May 15 □ *Minow* shakes up NAB convention with *"vast wasteland" speech*, warns broadcasters to improve programs or get off air; Collins urges editorializing as way to attain prestige.

May 22 □ *Y&R writes ban on triple-spotting* into Gulf Oil contract with NBC-TV.

A STANDING OVATION
TO
Broadcasting

BMI STANDS FOR THE BEST

June 5 □ *FM multiplex stereo starts* at deadline in Schenectady, N.Y., Chicago, Los Angeles.

June 12 □ TV crime and violence increases, so does *juvenile delinquency*; witnesses at Senate hearing seek to prove connection. ■ *Television Affiliates Corp.* formed to make best local shows available to all member stations. ■ *J. Harold Ryan*, co-founder of Storer Broadcasting Co., former president of NAB, BMI, assistant director of censorship during World War II, dies at 75.

June 19 □ *NAB bans prime-time triple-spotting*, cuts commercial time in TV participation shows to four minutes per half hour, forbids personal product ads on radio as well as TV. ■ Programers blame networks, advertisers, agencies for *violence on television*; network executives say no one has proved connection with Juvenile delinquency. ■ *House rejects President's plan* to reorganize FCC.

June 26 □ *Writers* tell FCC television's promise of golden age has hit dead end. ■ ABC-TV National Station Sales will represent network's owned stations. ■ FCC's Minow, NAB's Collins agree there's *too much violence* in television, disagree on remedy. ■ *ARB issues county-by-county breakdown* on nation's 47.9 million television homes. ■ *Duane Jones*, agency executive credited with development of box-top-premium technique in radio advertising of packaged products, dies at 63.

July 3 □ Applicant for new FM station is denied grant for *failure to determine local program needs*. ■ President orders Federal Space Council to study ways to *develop communications-satellite system*. ■ Federal court tells Salt Lake City stations they *can't stop Idaho CATV operators* from picking up their programs. ■ *Civic group buys commercial WNTA-TV Newark, N.J.*, for use as New York-area educational station; New York commercial TV stations contribute \$2 million toward purchase.

July 17 □ *Off-network shows* become popular TV-syndication fare. ■ New policy of *matching proposals of applicants with their performance* is announced by FCC in granting one-year renewal to KORD(AM) Pasco, Wash. ■ \$11-million *sale of WGM New York to Crowell-Collier dies* when option expires with no FCC approval.

July 31 □ FCC proposes to *abolish UHF allocations table*, authorize dual VHF-UHF operation, delete VHF channels from seven intermixed cities, add third VHF channel to 10 cities. ■ *FCC revokes Miami ch. 7 grant* to Biscayne TV Corp., disqualifies two other applicants for ex-parte contracts, awards channel to Sunbeam TV Corp.

Aug. 7 □ *Broadcast Clearing House* is announced as central processing, billing service for spot radio and television.

Aug. 14 □ *WINS(AM)* to be New York key of MBS as *WOR(AM)* drops 27-year affiliation.

Aug. 26 □ Congress passes own *FCC reorganization bill*.

Sept. 4 □ Tax court tells *Westinghouse NBC-TV affiliation contract* of WPTZ(TV) Philadelphia can't be depreciated.

Sept. 18 □ FCC ignores House Commerce Committee request to delay decision, *breaks down 13 of 25 Class 1-A frequencies*, ending 16-year battle.

Sept. 25 □ *Sports stars* find TV commercials road to riches. ■ *Minow suggests quality children's program*, rotated among networks at same time each day. ■ Celler bill to let professional *sports leagues* negotiate package-television contracts passes House, Senate.

Oct. 9 □ FCC kills proposal to *charge broadcasters 4% of gross revenue* in annual license fees. ■ Ratings, cost-per-thousand are important considerations in *program selection* but not final factors, big advertisers tell FCC.

Oct. 16 □ Advertisers spent \$10.03 per family on *TV spot* in 1960, TVAR study shows; city expenditures vary from \$12.76 (Chicago) to \$2.73 (Evansville, Ind.-Henderson, Ky.). ■ *Central Media Bureau* is third to offer computerized service for spot buyers. ■ Grant of *Miami ch. 10* to L.B. Wilson Inc. is final as Supreme Court denies appeal of National Airlines from lower court ruling.

Oct. 23 □ All-industry committee proposes new concept of *music licensing* to reduce ASCAP fees. ■ *Frederic R. Gamble* retires as AAAA president; *John Crichton*, editor of "Advertising Age," succeeds him. ■ Importer of Hankey Bannister Scotch starts *radio test*.

Oct. 30 □ *KTVU(TV)* San Francisco calls off sale to NBC; NBC-RKO deal may be upset. ■ FCC finds *CBS-TV compensation plan* violates rules.

Nov. 6 □ GE, Westinghouse are asked to explain why broadcast licenses should be renewed after *price-fixing convictions* of corporate officers. ■ *Rush for VHF drop-ins* swamp FCC. ■ *Ampex "electronic editor"* permits inserts, additions to be made in videotape without physical splices.

Nov. 13 □ BBDO uses *computer process* for media selection. ■ AT&T offers *cut rates to ETV*, annoys some commercial broadcasters.

Nov. 20 □ ABC-TV engineers develop process for *immediate playback of videotape recordings in slow motion*.

Dec. 25 □ All-industry committee goes to court to get *ASCAP music on films* cleared at source.

1962

Jan. 8 □ FTC calls *Rapid Shave sandpaper commercial* "deliberate fraud" by Colgate-Palmolive and agency, Ted Bates. ■ FCC approves plan to *restrict station trafficking*.

Jan. 15 □ CBS-TV signs new agreement for exclusive broadcast rights to *National Football League* games in 1962-63. ■ NASA, FCC differ on *satellite ownership*, operation, supervision.

Jan. 22 □ *A.P. Management Corp. sues Young & Rubicam*, 15 station representatives, 22 stations for \$16 million, charging conspiracy to destroy APMC service-for-time business.

Feb. 5 □ NAB Board *scuttles reorganization plan*, approves study of radio "overpopulation," opposes network licensing, favors all-channel sets.

Feb. 12 □ *Public has higher opinion of TV* now than two years earlier, Roper survey shows. ■ FCC commissioners blame *ABC counterprogramming* for many TV program ills. ■ President Kennedy proposes publicly-held corporation to own, operate *space communications system*.

Feb. 19 □ FCC proposes *application filing fees* of \$250 for TV, \$150 for radio.

Feb. 26 □ FCC picks Chicago for *first hearing on local TV programming*. ■ *Colonel Glenn's orbital space flight* seen by 135 million on TV at cost of \$3 million to networks.

March 5 □ *Baseball broadcast billings* hit \$83 million for season. ■ Young & Rubicam researchers find no evidence that *program content* influences commercial recall, impact. ■ FCC wants *satellite owned by international*

common carriers, not public. ■ "Unusually good" programming wins *license renewals for 14 Westinghouse stations*, despite antitrust violations of parent company.

March 12 □ *ASCAP offers reduced fees* to TV stations if they'll drop BMI ownership. ■ *Schwerin Research Corp.* says Y&R is wrong, that program mood does affect commercial recall. ■ A.P. Management Corp. wins *preliminary injunction against Y&R*, nine station representatives. ■ FCC warns stations on *spread of double billing*.

March 19 □ FCC agrees to *hold up deintermixture* if all-channel set bill passes. ■ Radio, TV get almost as much music from *BMI* as from ASCAP. ■ KRLA(AM) Los Angeles, KLFY(AM) Golden Meadow, La., *lose licenses for alleged attempts to mislead FCC*. ■ FCC finalizes rule requiring *hearings on transfers of licenses* held less than three years.

March 26 □ Witnesses praise, damn *Chicago television* at FCC hearing. ■ TV negotiators refuse to give up *BMI ownership* for ASCAP cut rate. ■ *Oliver Treyz*, for five years head of ABC-TV, is fired, replaced by *Tom Moore*.

April 2 □ ABC-TV promises *color programming* for fall.

April 9 □ NAB, FCC will cooperate to solve *radio's overpopulation problem*. ■ ABC-TV turns *Friday night 10:30-11 p.m. back to stations*.

April 16 □ Department of Justice files *antitrust suit against CBS* on grounds incentive compensation Plan forces TV affiliates to carry full network schedule.

April 30 □ New AAAA *creative code* discourages "deliberately irritating" ads. ■ *Conelrad ending*, outmoded by guided missiles. ■ *John Henry Faulk* sues Aware Inc. for \$1 million, charges bulletin labeling him as Red sympathizer cost him broadcasting career.

May 7 □ *A. P. Management Corp.* gets permanent injunction against Y&R and nine representatives, no money, as suit is settled.

May 14 □ FCC imposes *Partial freeze on AM applications*, reexamines criteria for FM grants.

May 21 □ *Network heads deny sex and violence in TV programs* for own sake as Senate Juvenile Delinquency Subcommittee hearings go on.

May 28 □ *Networks* get seats on NAB TV code review board. ■ *FCC Review Board established* to review examiners' decisions and routine radio hearing cases.

June 4 □ Some 300 stations tell Bates they'll provide *15-minute product protection*; only seven say no. ■ Possible harm from smoking could endanger *television's tobacco billings* of \$114.6 million a year. ■ FCC orders CBS-TV to negotiate *new affiliate compensation plan*.

June 1 □ B&B joins Bates in demand for *15-minute protection*; Triangle stations back Westinghouse on 10-minute standard. ■ *Edgar Kobak*, former MBS president and earlier vice president of NBC, Lord & Thomas, Blue Network, dies at 67.

June 25 □ American Cancer Society moves to stop *tobacco sponsorship of college sportscasts*. ■ *CBS-TV amends compensation plan* to meet FCC objections. ■ Associated Correspondents News Service inaugurates *first Negro newswire*.

June 18 □ *Walter J. Damm*, head of WTMJ-AM-FM-TV Milwaukee for 36 years dies at 69; had been president of NAB, FMBI, TBA.

July 2 □ *FCC stays grant of ch. 10 Tampa-St. Petersburg* to WTSP-TV to look at programming

of owner's radio station. ■ Jury awards *John Henry Faulk* \$3.5 million in blacklist libel suit. **July 9** □ AAAA asks *15-minute product protection*. ■ MCA leaves talent-agency field to stay in TV production, acquires majority interest in Decca Records, which owns majority interest in Universal Pictures. ■ *Toll TV* starts in Hartford. ■ *Ford Foundation* gives \$8.5 million to educational broadcasting.

July 16 □ *Telstar*, AT&T's orbiting satellite, provides glamorous debut for global TV. ■ New IRS rules give broadcasters *quicker write-offs on equipment*. ■ *Owen D. Young*, founder and first chairman of RCA, GE chairman for 17 years, dies at 87.

July 23 □ NBC-TV *cuts affiliate compensation* 5%.

July 30 □ *Late-night television income triples* in five years, accounts for 10% of all national TV billings. ■ *FCC revises FM rules*, specifies more classes, tightens mileage separations. ■ *WOKD(AM) Kingtree, S.C., loses license* because of "vulgar" programs.

Aug. 6 □ Group headed by Alfred Stern, NBC vice president, buys 18 CATV systems for \$10 million, *biggest cable sale to date*.

Aug. 13 □ *Ted Husing*, pioneer sportscaster, dies at 60. ■ *Six Hollywood studios* produce 40% of TV's prime-time entertainment shows.

Aug. 20 □ TV networks look askance at *GOP plans to buy five-minute segments* lopped off prime-time programs. ■ *IRE, AIEE agree to merge* into Institute of Electrical & Electronic Engineers (*IEEE*).

Aug. 27 □ *TV networks reject Republican attempt* to buy five-minute political ads lopped off prime-time programs.

Sept. 3 □ President signs bill creating *Communications Satellite Corp.* ■ Networks pay \$14.4 million for *football TV rights*. ■ *IRS* rules that proceeds from sale of film or taped TV show are ordinary income, not capital gains.

Sept. 17 □ GE will sponsor Victor Borge in weekly hour on QXR Network of 40 FM stations, *biggest buy in FM history*. ■ *FCC* proposes that any TV sets made after April 30, 1964, must be *all-channel*, calls moratorium on deintermixture plans.

Oct. 1 □ *FCC reaffirms 1957 grant of Boston ch. 5 to Herald-Traveler*, issues four-month license. ■ *Mobile-radio users* seek UHF chs. 14, 15. ■ Texas judge admits radio-TV to *Sol Estes trial*. ■ *Educational Radio Network* starts with hookup of eight FM stations.

Oct. 8 □ Ayer asks stations to give *circulation guarantees* for Sealtest spots.

Oct. 22 □ Major advertisers use "*bulk buying*" technique for TV spot. ■ NBC goes ahead with *broadcast of "The Tunnel"*, despite protests from U.S. State Dept., East Germany, West Germany, West Berlin.

Nov. 5 □ Network news chiefs charge Pentagon with managing news in *Cuban crisis*.

Nov. 12 □ Supreme Court *upholds ban on block booking* for feature films to TV.

Nov. 26 □ *NAB President Collins* expresses personal dislike of cigarette advertising that influences school-age children to start smoking; immediate reaction is negative.

Dec. 3 □ *FCC* staff wages campaign to force TV stations to schedule *local discussion shows in prime time*.

Dec. 17 □ *NAB's Collins* suggests *restrictions on cigarette commercials designed to appeal to youngsters*; code board sends proposal to *NAB TV board*. ■ Association for Competitive Televi-

sion opens Washington office as watchdog for member UHF stations. ■ *NASA* puts *RCA-built relay satellite* into orbit.

Dec. 24 □ *FCC* releases *proposed table of FM allocations*.

1963

Jan. 7 □ *RCA* pays *Philco* \$9 million for *patent rights*; *Philco* withdraws bid for ch. 3 Philadelphia. ■ Major rating firms sign *FTC consent order*, to agree to stop claiming 100% accuracy.

Jan. 14 □ *AAAA* offers *pre-emption formula* to reduce paperwork in spot buying. ■ *FCC* got *more complaints*, took more disciplinary actions in 1962 than in any previous year.

Jan. 21 □ *NAB* board gives *LeRoy Collins* three-year contract, more money, defers action on cigarette commercials. ■ *FCC* plans to add 650-700 *UHF assignments* to TV allocation table.

Jan. 28 □ Federal Communications Bar Association starts drive to *rewrite Communications Act*, replace *FCC* with new regulatory agency.

Feb. 4 □ *FCC* knows better than public what *good station performance* is, Commissioner Henry states at Omaha hearing, as witnesses praise that city's stations.

Feb. 11 □ *Minow*, leaving *FCC* for Encyclopaedia Britannica post, *recommends Henry* as new chairman. ■ American Bar Association votes to *retain Canon 35*, prohibiting broadcast and photography equipment in courtrooms.

Feb. 18 □ *National Community TV Association* board sees federal control necessary to assure orderly growth of CATV. ■ Regional radio broadcasters form *Association on Broadcast Standards*. ■ *Syncom*, so-called stationary satellite, goes up, doesn't work.

March 11 □ *ASCAP* offers *reduced fees* to TV stations if they will drop ownership in BMI. ■ House Special Subcommittee on investigations hears *ratings called "fraud," "absurdity"*; network executives say they are only one factor in determining program worth. ■ *FCC* tells staff to prepare order *denying VHF drop-ins* in seven two-station markets. ■ *FCC* *refuses to approve arrangement for NBC to reimburse Philco* for expenses if *Philco* withdraws application for ch. 3 Philadelphia, says *Philco* can compete for channel or withdraw without payment.

March 25 □ *Methodology of Pulse, Nielsen probed* at House subcommittee hearing; Chairman Harris says *Pulse* service looks like "con game."

April 1 □ *House subcommittee tears into Nielsen testimony*; agencies wonder how to produce believable ratings. ■ *FCC* *prepares to adopt license fees* of up to \$100 for TV, \$50 for radio. ■ Industry advisory committee recommends *Emergency Broadcasting System*, with stations broadcasting on regular frequencies with normal power, as *Conelrad* replacement. ■ *FCC* considers ways to *limit amount of time given to commercials*.

April 22 □ *Pulse's Roslow* calls for industrywide "*standards and auditing committee*," as researchers, broadcasters seek solution to ratings problem.

April 29 □ *AAAA* board *bans ownership of ad media* by member agencies. ■ Judge rules

WDEF Chattanooga can *amortize cost of acquiring license*, reversing IRS decision.

May 6 □ *Broadcasters favor industry audit for ratings*; RAB wants radio, TV research separated; *FTC* charges *Nielsen* with rating monopoly, asks for surrender of half its clients. ■ Georgia commercial broadcasters protest *pure entertainment on state-owned ETV stations*.

May 13 □ New *FCC* order *amends sponsorship rules* to implement 1960 legislative ban of payola, plugola. ■ *FCC* finalizes *license fees*. ■ *Telstar II* off to good start.

May 20 □ *FCC* proposes to *include NAB codes* in own rules. ■ *New rules for radio*, proposed by *FCC*, would break up some AM-FM duopolies, limit FM duplication of AM programs to 50%. ■ Astronaut Gordon Cooper sends back *first TV pictures from space*.

May 27 □ *Clutter* cuts *value of TV ad dollar* in half, B&W's Burgard tells ANA. ■ Court of appeals approves *FCC* refusal of additional facilities to Carter Mountain Transmission Corp., upholding commission's right to use licensing powers over common-carrier relays to *protect TV stations from CATV inroads*.

June 3 □ *FCC* *outlaws network option time*. ■ *FCC* finally *rejects plan for shortspaced VHF drop-ins*, ABC seeks reconsideration. ■ CBS Radio *terminates New York Philharmonic* broadcasts after 33 years.

June 10 □ Politicians spent *\$20 million for radio in 1962 campaigns*.

June 17 □ *FCC-FTC* tell broadcasters to be ready to *prove rating claims*; agencies want ARF to have in rating audit; *Politz* enters audience measurement field. ■ NBC-TV, MCA *plan feature films to be shown first on TV, then in theaters*.

June 24 □ *Cigarette companies* halt on-campus advertising; Canadian companies drop TV ads before 9 p.m. ■ *NAB* inaugurates *Rating Council*. ■ House passes bill to *suspend Section 315 for 1964 presidential, vice-presidential elections*.

July 1 □ *Negroes campaign for more jobs in broadcasting*; *FCC* studies ways to prohibit racial discrimination; Senator Strom Thurmond (D-S.C.) accuses networks of "slanting news" and "following the NAACP line."

July 15 □ *Tobacco Institute* advises members not to sponsor shows appealing primarily to youthful audience.

July 29 □ When broadcasts deal with racial problems, *Negro viewpoint must be presented*, *FCC* declares.

Aug. 5 □ Two IATSE locals *reject NAACP demand* to add Negro to every crew, call it "featherbedding." ■ *Emergency Broadcasting System* replaces *Conelrad*.

Aug. 12 □ *CORE* starts drive for use of *Negroes in commercials*.

Aug. 19 □ *NAB's Collins* invites network heads to *off-record meeting* with selected agencies, advertisers, to upgrade TV commercial practices; they say no. ■ *Fall football billings* total \$85 million; networks pay \$14 million for rights.

Sept. 2 □ *Civil rights march on Washington* gets full radio-TV coverage.

Sept. 16 □ Nine rating services seek *Rating Council accreditation*; some stations cancel ratings, others use them with disclaimers; NAFMB outlines FM rating needs; *FCC, FTC* keep heat on but don't specify rules. ■ *Pat Weaver* leaves McCann-Erickson to head STV, wired pay-TV enterprise.

Sept. 30 □ Screen Gems transfer Negro to "Hazel" series, *avoids clash with NAACP*. ■ *Jack Benny*, who left NBC for CBS in 1964, returns for NBC-TV series in fall of 1964. ■ *FTC investigates SESAC*; Justice Department intensifies probe of BMI.

Oct. 7 □ *FCC reserves ch. 37* for exclusive use of radio astronomy for 10 years. ■ *H&B America, RKO plan CATV merger* to operate over 50 systems with 100,000 subscribers. ■ ABC-TV's big money quiz, "*100 Grand*," dies in three weeks for lack of audience.

Oct. 14 □ *Westinghouse telecasts play* by videotape on five stations, simultaneous with Broadway opening. ■ *John Fetzer* plans big-league baseball on network TV in prime time.

Oct. 21 □ California theater owners pledge \$500,000 to *fight pay TV*.

Oct. 28 □ FCC proposes *adding 411 assignments to UHF* table, 374 for ETV.

Nov. 4 □ Investors go for *pay-TV stock*, buy out STV offering first day.

Nov. 18 □ FCC reaffirms *drop denial*.

Nov. 25 □ All commercials, all entertainment banned from radio-TV networks following *John F. Kennedy assassination*. ■ *First trans-Pacific broadcast* via satellite previews live-TV coverage of 1964 Olympics in Tokyo.

Dec. 2 □ *President Johnson's wife gives up control of Texas stations*, transfers holdings to trustees. ■ Four Minneapolis-St. Paul stations *refuse to pay FCC fines* for sponsor-identification omission.

Dec. 16 □ *P&G won't pay for spots next to piggybacks*, representatives are told. ■ *FCC plan to adopt NAB code rules* is all but dead. ■ *Broadcast Clearing House* stops operations; of three firms started in 1916 to clear timebuying's "paper jungle," only Central Media Bureau is still in business.

Dec. 23 □ *Broadcast Rating Council* incorporates as nonprofit organization, sends proposed standards to rating services; AAAA is full member. ■ *NCAA sells 1964 football rights to NBC-TV* for \$13 million.

1964

Jan. 6 □ *Milwaukee Advertising Laboratory* founded by *Milwaukee Journal*, WTMJ-AM-FM-TV to evaluate advertising effectiveness.

Jan. 13 □ Nielsen "reluctantly" *stops measuring radio-network audiences*.

Jan. 20 □ Government, tobacco companies, broadcasters ponder next moves after *report to U.S. surgeon general links cigarette smoking to lung cancer*. ■ *FCC drops plan to adopt NAB codes* into rules.

Jan. 27 □ *CBS buys NFL rights* for two years for \$28.2 million. ■ Grand jury indicts Drug Research Corp., agency (Kasfor, Hillton, Chesley, Clifford & Atherton) for *fraudulent advertising* of Regimen, reducing pill. ■ *NAB TV code board bans piggybacks*, cigarette commercials appealing to youngsters. ■ *FCC renews licenses of Pacifica stations* whose programs had offended some listeners, states that judgment of broadcaster in deciding what public shall see and hear "is entitled to very great weight" and commission will step in only where facts "flagrantly call for such action."

Feb. 3 □ *American Tobacco* drops sports broadcasts; some radio stations ban cigarette ads. ■ *Use of piggybacks upheld* by Kenyon & Eckhardt, McCann-Erickson.

Feb. 10 □ *Reynolds Tobacco* cancels late-afternoon commercials on radio stations popular

with teen-agers; CBS-TV orders de-emphasis of cigarette use on programs.

Feb. 24 □ *Baseball rights* cost \$13.5 million. ■ McCann-Erickson initiates "*instant upgrading*" policy; will cancel TV spot schedule if other stations offer better values.

March 2 □ House passes bill to *prohibit FCC from setting commercial standards*.

March 9 □ *New AFM contract* reduces numbers of staff musicians at networks from 409 to 302, gives them 3% pay boost.

March 16 □ *Network affiliations are deductible*, U.S. Tax Court rules, giving Corinthian victory over IRS after seven-year fight. ■ *Barter* is \$35-million-per-year business; SRA finds direct deals OK but objects to time brokering at cut rates. ■ *Toymakers* accept NAB guidelines on TV commercials. ■ Supreme Court rules public officials *can't sue for libel unless malice proved*.

March 23 □ NAB code officials explain stand on *multiple-product spots* to agencies, producers, station representatives; Corinthian stations ban piggybacks. ■ *WOXR(AM)* New York accepts *liquor ads* after 10:30 p.m.; NAB protests action.

March 30 □ BBDO "*Channel One*" on-air experiments show piggybacks effective, billboards helpful, hitchhikes not harmful. ■ Senate bill would *bar liquor advertising on radio-TV*; Representative Harris (D-Ark.) tells *woxr* Congress is concerned about broadcasting's ability to regulate itself.

April 6 □ McKesson & Robbins switches *woxr* spots from scotch to wine. ■ *Twenty applicants seek 1110 kc in Los Angeles*, lost by KRLA. ■ *Broadcast Rating Council* issues rules, authorizes audit of rating services. ■ *Association of Motion Picture & Television Producers* formed by merger of two producers' groups.

April 20 □ *United Church of Christ* asks FCC to deny renewal to WJTV(TV) and WLBT(TV), both Jackson, Miss., for alleged discrimination against Negroes.

April 27 □ FCC tells *Gordon McLendon* to give 57 hours of free time on his Texas stations to Senator Ralph Yarborough, his opponent for Democratic nomination to Senate.

May 18 □ ABC-TV, CBS-TV *pull out of Emmy awards* in hassle over method of picking winners.

May 25 □ NAB TV code board bans titles, teasers, credits, hopes to knock *30 seconds of clutter* out of each half-hour.

June 1 □ Common carriers buy 5 million shares of *Comsat stock*; AT&T gets most, then ITT, General Telephone, RCA.

June 15 □ Federal court upholds *FCC revocation of license of KWK(AM) St. Louis*. ■ ABC, CBS, NBC set up *Network Election Service*, central vote-counting system; AP, UPI join election-day pool.

June 22 □ House gets bill to *prohibit broadcasting of early Eastern election returns* while polls are still open in West.

June 29 □ *NAB President Collins resigns* to accept federal post as conciliator in civil rights disputes. ■ *FTC orders health warning on all cigarette packages* as of Jan. 1, 1965, in all advertising as of July 1, 1965; tobacco industry plans court fight, if necessary. ■ Capital Cable of Austin (Tex.) agrees to purchase TV Cable of Austin, ending *CATV dispute* in that city. ■ *Closed-circuit pay TV* takes lot of hardware: picture story of STV's Los Angeles set-up.

July 6 □ *GE stations get license renewals* after General Electric Broadcasting Co. is formed to

operate them. ■ *FCC lifts two-year-old AM freeze*; order sets rigid technical standards; limits FM duplication of AM programming to 50% of time in cities of 100,000 or more.

July 13 □ New SAG contracts with movie, TV film producers give actors *more residual pay*.

July 20 □ *STV starts pay-TV service by wire* to 2,500 homes in Los Angeles; in Hartford, Conn., RKO General completes two years of on-air pay TV, believes it can be made profitable, has found people most willing to pay for movies, sports, have little interest in culture. ■ Barry Goldwater, Republican candidate for President, challenges President Johnson to *TV debates*, is highly critical of CBS News's convention coverage. ■ San Francisco federal court reverses ruling of Idaho judge that CATV systems can't duplicate network or film programs of TV stations, *suggests that broadcasters seek copyright protection*.

July 27 □ Oak Knoll Broadcasting Corp., nonprofit organization, gets grant for *interim operation of KLRA(AM) Pasadena-Los Angeles* until permanent license is issued to one of 19 applicants.

Aug. 3 □ *FCC renews NBC licenses for WRCA-AM-TV Philadelphia*, on condition they be exchanged for Westinghouse stations in Cleveland, reversing deal made in 1956.

Aug. 10 □ SAG negotiates *first contract for actors on videotaped shows* with Universal; first for performers on pay TV with STV. ■ *Ranger 7* sends back close-up pictures of moon.

Aug. 17 □ *Spot billings per TV family* average \$11.80, TVAR finds. ■ *More than 300 stations get fallout shelters for transmitter engineers*, supplied by federal government.

Aug. 24 □ FCC, tax laws, prosperity spur *broadcasters to diversify*; BROADCASTING lists holdings of some 40 companies. ■ *No "Great Debates" in 1964*; Senate kills bill to suspend equal-time law.

Aug. 31 □ *Gracie Allen*, co-star of "Burns and Allen" on radio-TV for more than 20 years, dies at 58, after heart attack. ■ *Most stations accept piggybacks* at regular rates as controversy dies out.

Sept. 21 □ *Republican protest Democratic spots* linking little girl and nuclear cloud as unfair race tactic.

Oct. 5 □ *FCC turns down RKO, Philco pleas for reconsideration*, after NBC, WBC file applications to trade back Philadelphia, Cleveland stations. ■ FCC rules stations carrying *presidential news conferences are subject to equal-time demands* of other candidates.

Oct. 19 □ ABC urges FCC to *regulate CATV*. ■ FCC fines *KLV(TV) Tyler, Tex.*, \$250 for *rebroadcasting football game without consent of originating station*, reprimands *KSLA-TV Shreveport, La.*, for refusing permission. ■ *Television Audit Corp.* claims to measure audience from planes. ■ Heart attack kills *Eddie Cantor*, 72, top radio star of the 1930's.

Oct. 26 □ *GOP film*, "Choice," depicting crime, mob violence, sex, scandals in government, set to go on NBC-TV in many localities, when candidate Goldwater has it dropped as not "appropriate." ■ *Herbert Hoover*, 31st President, dies at 90. As secretary of commerce in early 1920's, he guided development of American system of broadcasting.

Nov. 2 □ *Campaign costs* for radio-TV put at \$40 million. ■ *WIFE-AM-FM* draws one-year renewal for "*improper use of ratings*." ■ Dodd committee interim report calls *relationships between TV violence and juvenile delinquency*

broadcasting

For 50 years it's been essential
to the American way of life.

Broadcasting ⚡

For 50 years it's been essential
to the American broadcasting industry.

Sincere Thanks & Warm Congratulations
from Paramount Television.

"conclusively established."

Nov. 9 □ *STV loses at polls*, starts court fight to have California law declared unconstitutional, closes operations in Los Angeles, San Francisco; plans for systems elsewhere held up.

Nov. 16 □ *Monday night baseball network* on TV loses out; maybe Saturday afternoons.

Dec. 14 □ *CBS sues Teleprompter* for CATV pickups of CBS-TV programs without permission of copyright owners. ■ Presidential commission recommends *massive antismoking drive*, spearheaded by TV documentaries. ■ Justice Department files *antitrust suit to require broadcasters to give up ownership of BMI*.

Dec. 21 □ *ABC-TV signs 18 major league ball clubs for 25 Saturday afternoon games*, two holiday games.

1965

Jan. 4 □ *Frederick W. Ford* leaves FCC for \$50,000-a-year NCTA presidency. ■ *Shell Oil "public service grant"* provides two nightly newscasts for WNDT(TV) Newark-New York non-commercial station, each preceded and followed by credit to Shell; commercial broadcasters wonder when commercial is not commercial.

Jan. 25 □ *Corinthian stations* change policy, will accept piggybacks. ■ *FCC considers TV network control of prime-time* programming to 50%, barring networks from syndication field. ■ Some 65 million watch *President Lyndon B. Johnson inaugurated* on TV.

Feb. 1 □ *Vincent T. Wasilewski*, NAB executive vice president, named president at \$50,000

per year; board also votes to have full-time chairman at same salary. ■ *NAB, NCTA split over CATV protection for local television stations*, FCC procedures for insuring it.

Feb. 8 □ AMST calls on FCC to take immediate *jurisdiction over CATV*. ■ BBDO, SSC&B test *new system of agency compensation*; formula assures agencies profit on accounts, assures clients that agency profits won't be excessive. ■ *White House TV studio* gets first live use for presidential news conference.

Feb. 22 □ Texas businessman urges conservatives to buy *CBS stock*, gain control of network news policies. ■ *Philip G. Loucks*, Washington broadcast-communications lawyer, managing director of NAB, 1930-35, dies at 65.

March 8 □ *James T. Aubrey Jr.* is suddenly out as president of CBS-TV; *John A. Schneider* succeeds him. ■ *Supreme Court* won't review award of \$550,000 (reduced from \$3.5 million) to John Henry Faulk in suit against Aware Inc., Vincent Hartnett, award director; also refuses to hear *KWK(AM)* St. Louis appeal for reversal of license revocation.

March 15 □ *Montana bill to have state set performing rights rates* for music used in state has broadcasters, licensing organizations in uproar: special report on music for radio-TV, who supplies it and for how much.

March 22 □ New York State Supreme Court orders *Kemper Insurance Group* to pay AB-PT for time Kemper tried to cancel following Alger Hiss appearance on news special on Richard Nixon. ■ *WINS(AM)* New York switches to *all-news format*.

April 5 □ *Film dominates TV network prime time*, supplies 84.1% of scheduled shows. ■ CBS-TV will have *seven one-minute prime-time*

breaks in fall, has two now. ■ FCC approves plan of *wnot(tv)* New York noncommercial station, for *programming underwritten by business organizations* that get name credits.

April 12 □ *Early Bird*, first commercial communications satellite, goes into stationary orbit, opens trans-Atlantic circuits for TV use. ■ *Supreme Court affirms FTC decision against Colgate-Palmolive*, Bates, in "sandpaper" case rules mock-ups OK if it's not implied they're real thing.

April 26 □ *FCC asserts authority over all CATV*, proposes requiring cable systems to carry local programs and stop importation of those from distant stations, freezes CATV microwave applications in major markets.

May 3 □ AAAA offers to help FCC solve problem of *overloud commercials*. ■ *Edward R. Murrow*, dead of cancer at 57, honored as man who did most to set standards for broadcast journalism.

May 10 □ Federal court finds *Kastor, Hilton, Chesley, Clifford & Atherton* guilty of preparing *fraudulent advertising* for Regimen; it is first agency ever convicted on such charge.

May 17 □ *ABC* tells FCC it wants to operate own *domestic satellite*. ■ Three surveys show *election returns, predictions* had no effect on votes of those who heard them before going to polls. ■ *John F. Dille Jr.*, Indiana broadcaster-publisher-CATV owner, elected NAB board chairman, now full-time salaried job.

May 24 □ California superior court finds *ban on pay TV unconstitutional*.

May 31 □ Comsat files *fee schedules*. ■ *Telemeter ends five-year test* of closed-circuit pay TV in Canada, calls it successful.

June 7 □ Owners of 27 TV stations break with

Congratulations to Sol Taishoff and Broadcasting Magazine on 50 years of excellence.

The next 50 will be even better!

Wometco Enterprises, Inc.
Mitchell Wolfson, President

NAB-AMST on CATV, support bill limiting FCC authority.

June 14 □ Supreme Court, in 5-to-4 decision, rules presence of TV cameras in court prevented fair trial of *Billie Sol Estes*. ■ *Gemini 4* flight coverage costs networks \$6 million. ■ FCC rejects plea of atheist *Madalyn Murray* that 15 Honolulu stations be ordered to sell her time at "preferential rates afforded to religion." ■ FCC issues *new table of UHF assignments*, proposes low-powered TV stations for smaller markets.

June 21 □ P&G drops fight against *piggybacks*. ■ *NBC gives Philadelphia stations to WBC, gets Cleveland stations*; WBC makes KYW Philadelphia all-news. ■ *Clutter doesn't seem to hurt commercial recall*, Needham, Harper & Steers, researchers find. ■ *H. V. Kaitenborn*, dean of news commentators, dies at 85.

June 26 □ FCC issues proposed rule limiting new group owners to *two VHF stations in top-50 markets*, makes it effective immediately. ■ NAB radio code *lifts ban on personal products*, if ad is in good taste.

July 12 □ FTC issues guides on *ratings claims* by stations.

July 19 □ Cigarette bill passed by Congress calls for *health warning on package*, not in advertising.

Aug. 2 □ FCC decides not to ban *TV-CATV crossownership*.

Aug. 23 □ Los Angeles broadcasters use helicopters to cover *Watts riots* after mobile units destroyed, newsmen beaten. ■ Court of Appeals overturns Tax Court ruling, upholds IRS stand that *network affiliation contracts* are not depreciable assets for tax purposes.

Aug. 30 □ *United Church of Christ* asks court to overturn license renewal of WLBT(TV) Jackson, Miss.

Sept. 6 □ *Robert W. Sarnoff* named president of RCA.

Oct. 4 □ KABL(AM) Oakland, Calif., KISN(AM) Vancouver, Wash., face *FCC fines for failure to identify properly communities* they are licensed to serve.

Oct. 11 □ FTC orders *J. B. Williams Co.* to stop misrepresenting Geritol's effectiveness. ■ *Pope's historic visit* to U.S. seen in 90% of nation's homes: Dr. Carl McIntire, radio evangelist, seeks free time to reply to what he calls "religious propaganda."

Oct. 18 □ *Color set sales* for first nine months of 1965 double those of same period year before. ■ FCC creates new class of service for non-common-carrier operators serving CATV. *Community Antenna Relay*, puts it in 12,700-13,200 mc band. ■ *NCAA drops NBC-TV*, signs four-year \$32 million contract with ABC-TV.

Oct. 25 □ FCC *outlaws double-billing*. ■ NBC gets rights for World Series, All-Star Game, Game of Week for 1967-68 for \$30 million. ■ *Directors Guild of America* absorbs Screen Directors International Guild.

Nov. 1 □ *TV nighttime audience* off slightly from previous year, Nielsen reports; TVQ finds interest less. ■ Ralph Blumberg sells WBOX(AM) Bogalusa, La., after *Klan boycott* reduced monthly income from \$4,000 to \$400; receives RTNDA's Paul White award for courageous civil rights stand.

Nov. 8 □ Four Los Angeles businessmen for Fidelity Television apply for *ch. 9* there, on which RKO General's KHJ-TV has operated since 1951.

Nov. 15 □ *Court upholds FTC complaint against General Motors, Libby-Owens-Ford* for misrepresentation in commercials shot

through open door, purported to be through safety glass. ■ Carnegie Corp. forms *blue-ribbon commission to study ETV*.

Nov. 22 □ *Dr. Allen B. DuMont*, pioneer TV inventor, manufacturer, broadcaster, dies at 64.

Nov. 29 □ NASA seeks feasibility study of *broadcasting satellite radio signals directly to home receivers*.

Dec. 6 □ *FCC approves transfer of WLBT(TV) Jackson, Miss., to Lamar Life Insurance Co.*; United Church of Christ, arguing for review of WLBT's license renewal, asks appeals court to give aggrieved members of public right to be heard in license-renewal proceedings. ■ *UPI takes over Radio Press International*, chief rival in audio news service field. ■ *ABC plans merger* with ITT. ■ *New York City issues three CATV franchises*: Sterling Information Services gets Manhattan south of 86th St. on East Side, 79th St. on West Side; Teleprompter nets northern Manhattan; CATV Enterprise gets Riverdale.

Dec. 20 □ NAB TV code board puts new *restraints on ads that criticize competitors*. ■ Five radio stations get *short-term renewals* for carrying more advertising than they proposed. ■ *Gordon McLendon* asks FCC to approve his acquisition of KGLA(FM) Los Angeles to be used as *classified-ad station* with no other programming. ■ *Walter D. Scott* named NBC president, chief executive officer; *Robert Kintner* to become board chairman, duties not defined.

1966

Jan. 3 □ Kastor, Hilton, Chesley, Clifford & Atherton gets new president, *Emerson Foote*; new name, Kastor, Foote, Hilton & Atherton; decides not to appeal Regimon verdict. ■ Representative *Harley Staggers* (D-W. Va.) succeeds Oren Harris (D-Ark.) as chairman, House Commerce Committee. ■ *Ford Foundation* reports gifts of \$16.5 million, to ETV in year.

Jan. 10 □ CBS-TV prices *commercial minutes in football telecasts* at \$70,000 each. ■ *James Lawrence Fly*, 67, FCC chairman, 1939-44, dies of cancer.

Jan. 17 □ People in *second-set TV homes* don't watch more, do watch differently, McHugh & Hoffman survey shows.

Jan. 24 □ Some ABC-TV affiliates protest *fourth commercial on "Batman"*; WJZ-TV Baltimore won't take it. ■ Cable-association campaign floods Congress with *protests of FCC regulation of CATV*. ■ *FCC erred in fining Minneapolis-St. Paul stations* for sponsor-identification lapse, U.S. district court rules, dismisses government suit to collect.

Feb. 7 □ *CBS-TV sets flat prices for time*, drops all discounts but one for 52-week continuity. ■ Ratings provide reasonably accurate *audience estimates*, Committee on National Television Audience Measurements reports. ■ Supreme Court refuses Corinthian petition to review lower-court ruling that *TV network affiliations cannot be amortized*.

Feb. 14 □ *John A. Schneider* named to new post, CBS group vice president for broadcasting; *John T. Reynolds* succeeds him as president of CBS-TV network.

Feb. 21 □ *FCC sets rules for CATV* for systems not using microwave as well as those that do, requiring carriage of all local-station signals, same-day nonduplication, no importation of distant signals by top-market systems except with FCC permission; reaction violent. ■ *Fred W. Friendly* quits as president of CBS News, when new boss Schneider cancels coverage

of Senate hearing on Vietnam; *Richard Salant* named acting news head.

Feb. 28 □ *Robert E. Kintner* leaves NBC. ■ Each radio network has *cumulative audience of 30 million* each week, NBC Radio's new measurement method shows. ■ *Supreme Court refuses to review 770 kc battle* of WABC(AM) New York and KOB(AM) Albuquerque, N.M., returns 25-year-old case to FCC.

March 7 □ FCC proposal to *limit network control* of TV programs unneeded, study made by Arthur H. Little asserts. ■ Bristol-Myers seeks *15-second spots* for Ban. ■ California Supreme Court rules measure *outlawing pay TV in state is unconstitutional*. ■ *Feature films are best buy* for advertisers, BBDO study shows. ■ *Britain chooses PAL* system of color TV.

March 14 □ FCC gives *one-year renewal* to *WGMA(AM)* Hollywood, Fla., provided quiz-tainted owners sell it within 60 days.

March 21 □ *Network coverage of Gemini 8 splashdown* brings thousands of calls from angry viewers who missed regular programs. ■ *George C. McConaughy*, 69, former FCC chairman, dies of cancer. ■ CBS-TV affiliates have choice of keeping present *compensation* or switching to new plan.

March 28 □ *Representatives of audience have right to be heard*, court tells FCC in ordering rehearing of license renewal of WLBT(TV) Jackson, Miss., requested by UCC.

March 28 □ Rex Sparger, government investigator during 1961-63 ratings probe, *admits rigging Nielsen* ratings of four network shows. ■ *S. L. (Pat) Weaver* resigns as head of STV, as company announces plans to acquire Shasta Telecasting.

April 4 □ FTC announces that *cigarette companies may advertise tar, nicotine content*; Lorillard withdraws from cigarette-advertising code. ■ *ABC-ITT merger application* filed with FCC.

April 11 □ *Chairman E. William Henry* resigns from FCC. ■ FCC proposes incorporating *fairness-doctrine provisions* regarding personal attack, editorials for or against candidates into commission rules. ■ *Fred W. Friendly* named Edward R. Murrow professor of journalism at Columbia graduate school of journalism, adviser to Ford Foundation; *Richard Salant* succeeds him as president of CBS News. ■ Appeals court upholds FCC contention that *CATV is not common carrier*.

April 18 □ *ABC-TV gets rights to summer Olympics* for \$4.5 million, already has winter Olympics rights. ■ *Westinghouse Broadcasting* offers alternate to FCC's proposal for limiting network control of prime-time TV programs to 50%: limit amount of programing affiliates in major markets may take from networks; most advertisers, agencies oppose 50-50 plan. ■ ANA finds 15% media commission *most popular agency compensation plan*, but fee system growing. ■ *Domestic satellite is technically feasible*, could save networks \$20-\$35 million per year of \$55-million line charges. Comsat hears, but first questions of ownership, operation, service must be answered.

April 25 □ *TV network news*, documentary programs, traditional loss leaders, near breakeven point. ■ *Court upholds WHAS Louisville, Ky.*, refusal to pay FCC fine for failure to identify political sponsor. ■ ABC-TV uses "Ben Casey" as example in answering FCC on *why shows are dropped*: Ratings fell off, so did sponsor interest, so did live station clearance, but costs kept rising.

May 2 □ FTC plans *probe of network rate structures*.

May 2 □ Many off-network TV programs, chiefly monochrome, go into syndication.

May 9 □ NBC affiliates celebrate network's 40th anniversary year at Honolulu meeting.

May 16 □ NAB radio code board bans feminine-hygiene products, adopts rule permitting comparisons of competitive products but banning disparagement. ■ Mutual Industries Inc. pays \$100,000 for option to buy MBS from 3M Co. for \$3.1 million.

May 30 □ U.S. district court finds *Fortnightly CATV systems guilty of infringing United Artists' rights* in films licensed to five stations picked up by Fortnightly systems. ■ WNUJ-TV Newark-Linden, N.J., accepts commercials for Rum Superior of Puerto Rico, *first hard-liquor advertising on TV*.

June 6 □ Network TV audience sees live close-up pictures of moon sent back by *Surveyor I* as they come into Jet Propulsion Laboratory.

June 13 □ Wicv-TV Chicago says it will take liquor ads; senators warn NAB to enforce code or expect legislation. ■ TV code board relaxes stand on comparative commercials to agree with radio code.

June 20 □ WICU-TV Chicago changes mind, won't take liquor advertising. ■ Twelve broadcast licensees, owners of 49 stations, plus Radio-Television News Directors Association, propose to attack constitutionality of FCC fairness rulemaking, say they'll push fight to Supreme Court if necessary. ■ New writers contract with film producers raises minimum payment for scripts, restores rerun system writers struck to change in 1960, eliminates clause denying screen credit to writers taking Fifth Amendment refuge under questioning.

June 27 □ President Johnson reappoints *Rosel Hyde* to FCC, names him chairman, nominates *Nicholas Johnson*, maritime administrator, to FCC vacancy. ■ Common carriers win hard-fought battle as FCC rules Comsat can deal only with them; FCC approves Comsat application to participate in construction of six satellites to be owned by Intelsat. ■ BMI, radio bargaining committee agree on 12.5% increase in music fees. ■ NAB board re-elects *John F. Dille Jr.* as chairman, approves appropriation of up to \$10,000 to help WGBB(AM) Red Lion, Pa., in fight against fairness doctrine, rejects proposal to create CATV division of NAB. ■ Concentration of control does not exist, is not threatened in TV, United Research Inc. tells FCC in preliminary report of study of TV industry structure. ■ Ed Wynn, 79, vaudeville comic who became Texaco Fire Chief on radio, star on TV, dies of cancer.

July 4 □ FCC gives conditional approval to *McLendon application* to purchase KGLA(FM) Los Angeles, turn it into all-advertising station. ■ CATV operators plan local programming; Dal-Worth proposes three-channel non-broadcast program service for Texas systems. ■ Universal Studios makes two-hour color movies for first use on NBC-TV; MGM makes three features for ABC-TV. ■ Hughes Aircraft gets minority interest in Teleprompter New York City CATV project; Hughes, Teleprompter form Theta Communications to make, market electronics equipment. ■ Appeals court upholds FCC rules on multiple-ownership of major-market TV stations, dismisses appeal of Meredith Broadcasting to declare them invalid.

July 11 □ Mutual Broadcasting Corp. is new owner of MBS. ■ FTC closes investigation of SESAC following commitment to publish catalogue of compositions so broadcasters can tell if they need SESAC licenses.

July 18 □ Overmyer Network announced as

fourth TV network by Daniel H. Overmyer, UHF station owner, Oliver Treyz, former president of ABC-TV; plans eight-hour nighttime service, including two hours of news, two-hour variety show from Las Vegas.

July 25 □ Nineteen religious, social, civic groups call on FCC to set license renewal of WXUR(AM) Media, Pa., for hearing, charge programming is one-sided.

Aug. 1 □ AT&T proposes rate boosts for radio-TV that would add -\$18.4 million per year to broadcast line charges. ■ Ford Foundation seeks domestic satellite of own, would sell service to networks cheaper than present ground lines, donate profits to educational network.

Aug. 8 □ Several Southern stations drop Beatle records over statement of John Lennon that "we're more popular than Jesus now." ■ Broadcasters pay \$44 million for football rights, except \$100 million for commercials on game broadcasts.

Aug. 22 □ FCC forms task force to deal exclusively with CATV.

Sept. 5 □ Rex Sparger, ex-investigator for House Investigations Subcommittee, admits Nielsen security system prevented his attempt to rig ratings, signs consent decree ending Nielsen suit. ■ All-out promotion battle ushers in new TV season.

Sept. 12 □ NAB, AMST, Texas stations oppose giving microwave facilities to Dal-Worth to service CATV systems with program material.

Sept. 19 □ Judge Ryan gives ASCAP access to financial reports of TV stations back to 1959.

Oct. 3 □ TV buys \$93-million worth of movies in week: 63 MGM films go to CBS-TV; 17 20th Century-Fox pictures, 32 Paramount features to ABC-TV. ■ ABC-TV's three-hour broadcast of "The Bridge on the River Kwai" has largest audience of any movie ever shown on TV. ■ More than 1,500 leaders of industry, government, science, religion honor Brigadier General David Sarnoff, RCA chairman, on 60th anniversary of his entry into communications.

Oct. 10 □ NAB TV code board issues new cigarette-advertising guidelines: will accept nicotine, tar-content statements, ban use of sports themes, athletes, children, implied health benefits from filters. ■ FCC issues new TV program reporting form, seven years in making.

Oct. 17 □ Matthew J. Culligan, former head of NBC Radio Network, Curtis Publishing Co., named president of MBS, succeeding Robert Hurligh, resigned. ■ Supreme Court refuses to review California court ruling that vote outlawing pay TV was illegal, opening way for pay TV to return to state; STV says it's broke.

Oct. 24 □ Overmyer Network claims 85 stations lined up to take Las Vegas nightly shows; TBC, another planned TV network, reports 50 stations ready to carry two-hour late-evening shows.

Oct. 31 □ Tift Broadcasting buys Hanna-Barbera Productions for \$26.4 million. ■ TV audience likes movies best, TVQ reports.

Nov. 7 □ Justice Department suggests FCC delay action on ABC-ITT merger until Justice study of deal is complete. ■ Kwhy-TV Los Angeles ready for continuous coverage of stock market, Monday-Friday, 7 a.m. to 3 p.m. local time.

Nov. 14 □ Kemper Insurance Group must pay ABC-TV \$298,800 for time unused; Supreme Court refuses to review lower court decision that Kemper had no right to cancel sponsorship of "Evening Report" because it didn't like pro-

gram critical of Richard Nixon on which Alger Hiss appeared. ■ TV networks do fast, comprehensive election reporting job, marred by some wrong predictions. ■ Lani Bird, Pacific satellite, fails to achieve synchronous orbit; is usable at some times.

Nov. 28 □ Court of Appeals dismisses petition of WGBB(AM) Red Lion, Pa., for reversal of FCC fairness doctrine notice, but tells FCC letters are not orders and cannot be reviewed in courts, putting decade of rulings in jeopardy.

■ ABC-TV, Lani Bird take Notre-Dame-Michigan State football game to Hawaii. ■ Continental Football League signs with Overmyer Network to three years of broadcasts, starting in 1967 ■ Blair Television stations test new rate formula making 30-second spot base figure; 60-second spot is priced at 30-second rate plus 40%; 60-second piggyback at 30-second rate plus 60%.

Dec. 5 □ WHEN-TV Syracuse adds 5% extra for color commercials: annoyed timebuyers see no reason for increase. ■ FCC splits channel assignments in 450-470 mc band to make room for land-mobile services; purposes reallocating UHF's top 14 channels for land-mobile use, sharing of seven lowest UHF channels with land-mobile services. ■ Lani Bird, usable eight hours per day, goes commercial, has heavy TV traffic both ways across Pacific. ■ Government suit against BMI ends with consent decree; broadcasters keep their BMI stock.

Dec. 12 □ FCC approves sale of KFWB(AM) Los Angeles to Westinghouse for \$9.1 million, but with stinging letter to Crowell-Collier for laxness in guarding against payola; price had been reduced \$1,650,000 by WBC for C-C's letting station's financial position deteriorate. ■ American Advertising Federation, formed by merger of Advertising Federation of America, Advertising Association of the West, invites other advertising groups to join AAF in united front against government attacks on advertising. ■ John F. Banzhaf III, New York attorney, asks WCBS-TV New York for free time for anti-smoking messages, roughly in proportion to time used for cigarette commercials.

Dec. 19 □ Thomas H. Dawson, senior vice president of CBS-TV, becomes president as John T. Reynolds leaves to return to Los Angeles as president of Paramount Television. ■ NFL, AFL sell Super Bowl four-year package to CBS-TV, NBC-TV for \$9.5 million; both networks will broadcast 1967 game; CBS-TV gets 1968, 1970; NBC-TV 1969. ■ Walt Disney, who added TV luster to movie fame, dies at 65. ■ Cox Broadcasting buys Walter Schuimner Inc., independent TV program production-syndication firm.

Dec. 26 □ FCC approves ABC-ITT merger, by 4-to-3 vote.

1967

Jan. 9 □ WCBS-TV New York rejects request of John Banzhaf III for free time to "answer" cigarette commercials; he files complaint with FCC. ■ American Tobacco puts all its agencies on fee basis. ■ CBS News admits paying over \$1,000 for maintenance for three TV newsmen aboard Haiti invasion boat.

Jan. 16 □ NET has first live coast-to-coast broadcast. ■ U.S., Mexico extend agreement on use of AM radio band to end of year.

Jan. 23 □ NAB radio code board removes 18 minutes per-hour ceiling on commercials, permits stations to exceed it for "good cause," in

"special circumstances." ■ Justice Department asks FCC to *reopen ABC-ITT merger case*, hold hearing; ABC stock drops 14 points.

Jan. 30 □ Carnegie Commission on Educational Television calls for *expansion of present 124 ETV stations to 380 by 1980*, supported by federal funds, tax on TV sets, supervised by "Corp. for Public Television," nonprofit, non-governmental body. ■ *FTC charges Bristol-Myers with misleading claims* for Bufferin. ■ Wisconsin state senate judiciary committee *kills bill to bar early election predictions*.

Feb. 6 □ *Cost of participating commercials in TV-network programs*, estimated by BAR, shows NBC-TV's "Bonanza" highest: \$55,000 per commercial minute. ■ *WHEN-TV Syracuse rescinds extra charge for color commercials*. ■ *Yankee Network ends operations after 38 years*.

Feb. 13 □ *Frank Stanton*, CBS president, signs new 21-year contract to 80th birthday, five more years active service, 16 as consultant.

Feb. 20 □ *ABC gets \$25 million loan from ITT to meet "critical cash shortage"*. ■ American Television Relay Inc. seeks FCC permission for point-to-point microwave relay to carry *Los Angeles signals to Texas CATV systems*. ■ *Baseball rights cost \$29 million*, sponsors' bill will be \$105 million. ■ *Gulf & Western Industries buys Desilu productions*.

Feb. 27 □ *CBS buys Republic Studio*, Hollywood, 70 acres, 17 sound stages, for \$9.5 million, renames it CBS Studio Center. ■ *Technicolor shows new tape-to-film transfer method*, claims full broadcast quality.

March 6 □ President sends toned-down version of *Carnegie "public television" plan* to Congress, asks aid for educational radio, too. ■ *FCC adopts NAB code commercial time limits* as benchmarks for license-renewal applicants. ■ *Justice Department sues General Tire & Rubber Co.* on charge of trying to coerce suppliers into buying time on RKO General stations.

March 13 □ *Overmyer Network is now United Network*, as western syndicate takes control.

March 20 □ FCC orders *rehearing of ABC-ITT merger*. ■ *ABC Radio West*, formerly Don Lee Broadcasting System, will fold July 1.

March 27 □ Agreement reached on *new ASCAP radio rates* calls for 6% drop in commercial fees, 10% reduction in sustaining fees.

April 3 □ *AFTRA strikes networks*; all live talent leaves; nonunion employees, reruns keep networks going; Brinkley, most others leave, Huntley, some others stay on ground union dominated by entertainers cannot properly represent newsmen.

April 17 □ *House passes copyright bill* with no exemptions for CATV. ■ Supreme Court holds *P&G acquisition of Clorox violated antitrust laws* because P&G's large advertising expenditures with resulting media discounts form effective bar to new entrants into bleach field. ■ Talent, newsmen return to networks after *13-day AFTRA strike*; Oscar broadcast gets on, but barely, as strike ends less than two hours before air time.

May 1 □ United Church of Christ agencies ask FCC to deny license to any station engaging in *discriminatory employment practices*.

May 8 □ Stations must make *run-of-schedule announcements available to political candidates* on request, FCC rules. ■ *News CBS-TV rate card* has simpler price structure, higher rates. ■ Senate subcommittee approves bill to *subsidize educational radio, TV*, changes names of Corp. for Public Television to Corp.

for *Public Broadcasting*. ■ *United Network begins operations*, sends nightly two-hour *The Las Vegas Show* to about 125 stations; 13 advertisers participate.

May 22 □ Senate passes *bill establishing Corp. for Public Broadcasting*. ■ Station that *broadcasts attack* must inform person or group involved that attack has been made or is about to be, include transcript or tape with invitation to reply on air, FCC tells KTYM(AM) Inglewood, Calif.

May 29 □ U.S. Appeals Court confirms *CATV liability for copyright infringement*, upholding lower court ruling that Fortnightly's West Virginia cable systems violated United Artists' rights in films licensed by UA to TV stations picked up by Fortnightly systems. ■ UHF broadcasters form own organization, *All-Channel Television Society (ACTS)*, independent of NAB.

June 5 □ *FCC denies request of John F. Banzhaf III*, for "roughly" proportional time to that used for cigarette spots on wcbstv New York, but tells station that antismoking proponents must be given chance to rebut cigarette advertising on radio-TV. FCC General Counsel Henry Geller gives personal view that three-to-one ratio of cigarette commercials to antismoking messages would be acceptable. ■ *United Network quits after 31 nights*, can't raise money for line charges. ■ U.S. district judge awards \$96,000 to *WEOL(AM) Elyria, Ohio*, in *triple-damage antitrust suit against Lorain (Ohio) Journal*; action was started 17 years earlier on charges newspaper tried to persuade advertisers to boycott WEOL.

June 19 □ *Court of Appeals upholds FCC's fairness doctrine* as "completely legal."

June 26 □ *ABC-ITT merger* gets FCC approval for second time, but applicants agree to wait 30 days before consummating merger to give Justice Department time to decide on appeal.

July 3 □ *Federal court affirms FCC jurisdiction over CATV*, upholds cease-and-desist order issued to Buckeye Cablevision of Toledo, Ohio, to prevent importation of distant signals without hearing. ■ NAB board elects *Grover Cobb, KVGB(AM) Great Bend, Kan.*, chairman; appropriates up to \$25,000 to fight fairness doctrine in courts. ■ FCC adopts rules permitting *daytime-only stations* authority to start broadcasting at 6 a.m. with 500 watts. ■ International Artists offers recent *motion pictures to CATV operators* for presentation on videotape. ■ Producers, TV networks, Screen Actors Guild sign *four-year contract* giving actors 20% pay increase.

July 10 □ FCC adopts *fairness doctrine on per-*

sonal attacks, editorials for or against political candidates as formal rules.

July 24 □ *Justice Department appeals FCC approval of ABC-ITT merger*, gets stay order preventing consummation for week.

July 31 □ Radio-Television News Directors Association, eight broadcast licensees, ask U.S. Court of Appeals in Chicago to *review FCC order adopting fairness doctrine provisions as commission rules*; CBS files similar appeal in circuit court in New York.

Aug. 7 □ *Football rights* cost over \$48 million this year, but advertisers are expected to pay \$105 million to get in on such popular broadcasts. ■ Larger revenue, more likely station is to *editorialize*, NAB survey finds. ■ *Newscasts are exempt from personal-attack provision* of fairness doctrine, FCC tells NBC after complaint of former employe of Senator Thomas Dodd (D-Conn.) that he was attacked by Senator Russel B. Long (D-La.) in film clip used on Huntley-Brinkley news program.

Aug. 14 □ All three TV networks reject recommendation of Senator Hugh Scott (R-Pa.) that networks, wire services adopt "code of emergency procedure" to *govern news coverage of racial riots*.

Aug. 21 □ President appoints *task force to study national, international communications policy*. ■ *Classified-ad station, KADS(FM) Los Angeles, can't make it*; Gordon McLendon seeks license renewal, new format. ■ *ABC Radio has radical plan*: four networks in place of one, each tailored to suit different station format; *Walter A. Schwartz* replaces *Robert R. Pauley* as ABC Radio network president.

Aug. 26 □ NAACP finds *Negroes used in only 5% of commercials* on TV sports shows, asks FCC to investigate "possibility of bias." ■ *CBS introduces EVR*, electronic recording-playback system for TV using low-cost film cartridges.

Sept. 4 □ *ABC Radio plan is OK with FCC*; rules ban "simultaneously" operated networks of same owner; ABC's four network services will operate consecutively within hour.

Sept. 18 □ NAB, *WTRF-TV Wheeling, W. Va.*, file suite in federal court in Richmond, Va., asking *overturn of FCC rule requiring broadcasters to give time for antismoking spots*: John F. Banzhaf III, instigator of rules, asks federal court in Washington to tell FCC its rule doesn't go far enough. ■ *Red Lion Broadcasting Inc. (WGCB-AM-FM Red Lion, Pa.)* asks Supreme Court to review personal-attack section of FCC fairness rule, reverse lower court decision upholding it. ■ *Cox Broadcasting Corp.* buys *Bing Crosby Productions*.

Oct. 9 □ *NAB television board revises TV code,*

Dear Sol:

You are one helluva guy !!

With affection,
HOWARD
(Stark)

divides broadcast material into program, non-program, limits latter to 10 minutes per hour in prime time, 16 minutes at other times, restricts program interruptions to two per half-hour in prime time, four at other times.

Oct. 30 □ *NBC retires from radio station representation*, names Eastman, Katz, Christal to handle its six owned stations.

Nov. 13 □ *President signs Public Broadcasting Act into law*, names educators Dr. James R. Killian Jr., Dr. Milton Eisenhower as first members of CPB board, accepts \$1-million gift from Carnegie Corp.

Dec. 4 □ *CBS Laboratories demonstrates broadcast EVR* to agency commercial-production executives.

Dec. 11 □ *Hill Blackett*, founder of Blackett, Sample & Hummert, advertising agency that pioneered radio daytime serials, dies at 75. ■ First spot in commercial cluster is most effective, Canadian study shows.

Dec. 25 □ *Kemper Insurance Group suit* against ABC ordered tried in district court by Court of Appeals in ruling reversing lower court dismissal of Kemper charges of antitrust violations.

1968

Jan. 1 □ *NCAA football stays with ABC-TV* for two years more at cost of \$16.5 million.

Jan. 8 □ *ITT cancels merger agreement with ABC* after two years of government obstruction.

Jan. 15 □ American Bar Association committee on fair trial-free press, headed by Judge Paul Reardon of Supreme Judicial Court of Massachusetts, submits report for action by ABA's house of delegates in February; recommendations would sharply restrict news coverage of criminal proceedings. ■ *WBBM-TV Chicago* denies charge that "Pot Party at a University" was staged. ■ ABC appoints *Thomas Moore*, ABC-TV president, to new post as vice president of reorganized grouping of broadcast departments.

Jan. 29 □ *NAB television board adopts new time standards for maximum of four consecutive commercial announcements* in any program interruption, maximum of three in any station break; radio board approves elimination of time standards for single sponsors of programs longer than 15 minutes; for single-sponsored radio program five-minutes-long, limit is minute and a half; for shorter single-sponsored radio shows approved commercial times are: five-minute program, one and a half minutes commercial; 10 minute program, two and a half minutes commercial; 15-minute program, three minutes commercial.

Feb. 12 □ *Lorillard drops sports sponsorship*, all nonnews programs before 9 p.m. ■ *FCC abandons two-to-a-customer policy* for VHF stations in top-50 markets after two-and-a-half years.

Feb. 19 □ *Frank Pace Jr.*, one-time secretary of Army, director of budget, former president, chairman, General Dynamics, is named chairman of Corp. for Public Broadcasting. ■ *Baseball rights* for radio-TV climb to \$31.7 million, sponsors will pay \$107 million for play-by-play coverage, associated programs.

Feb. 26 □ American Bar Association adopts *Reardon report*, tightening restrictions on news media trial, pre-trial coverage.

March 11 □ Department of Justice asks FCC

not to grant *sale of KDFM-TV Beaumont, Tex.*, to Enterprise Co., publisher of only two daily newspapers there, without hearing.

March 18 □ *General Artists Corp., Creative Management Associates* merge into possibly world's biggest talent agency.

March 25 □ *Children's Television Workshop* created by Ford Foundation, Carnegie Corp., Office of Education to develop 26-week hour-long color series for pre-school children.

April 1 □ *Plan to curtail clutter* by banning all station-break commercials, putting all TV advertising within programs, network, spot, local, under development by leading station representative. ■ *FCC proposes rule to prohibit licensee of any full-time station from acquiring another full-time station of any type in same market.*

April 15 □ Broadcasters win wide acclaim for *coverage of racial outbreaks* across nation in wake of Martin Luther King assassination.

April 22 □ ABC asks FCC to help keep *ABC-TV affiliates* in markets with fewer than three stations from switching to NBC-TV. ■ New York state supreme court rules *CATV system operating in New York City with underground telephone wires* does not need city franchise, refused to enjoin Comtel.

May 13 □ House Investigations Subcommittee opens hearing on *WBBM-TV Chicago pot-party broadcast*; charges that party was arranged are made, denied.

May 20 □ Teleprompter gets FCC OK for *wireless CATV*.

May 27 □ *Paul Segal*, pioneer communications attorney, assistant general counsel to Federal Radio Commission before entering private law practice in 1931, dies at 68. ■ *Broadcast Media Corp.* formed to handle spot-TV, radio buying for agencies.

June 3 □ *Madalyn Murray O'Hare* buys time on *KTBC(AM) Austin, Tex.*, for series of lectures, "The American Atheist," she instigated ban on Bible reading in public schools; KTBC is owned by President Johnson's family. ■ *Senate suspends equal-time requirement* for presidential, vice presidential campaigns.

June 17 □ Supreme Court gives *FCC jurisdiction over all CATV systems*. ■ Networks pledge cooperation with new *Commission on the Cause and Prevention of Violence*.

June 24 □ *Frank J. Shakespeare Jr.*, president, CBS Television Services Division, takes leave to join Nixon campaign staff.

July 1 □ FCC gives *full renewal to WLBT(TV) Jackson, Miss.* ■ *FCC takes CATV control*; tells phone companies to get approval to build, lease cable systems; rules that proof of economic damage not needed, restricts importation of Los Angeles TV signals by San Diego CATV systems. ■ Negro militants *protest inadequate program attention by St. Louis radio stations*, ask FCC to investigate.

July 8 □ *Howard Hughes* offers \$50 million for **July 22** □ *NBC cuts price of prime time* in half for political advertising from Aug. 1 to election day. ■ *FCC puts new freeze on AM applications*, considers revising allocation rules. ■ *ABC seeks merger* after Howard Hughes abandons fight for control.

July 29 □ *General Foods* tells agencies to steer clear of violence on TV, puts 57 syndicated programs off-limits.

Aug. 5 □ *Westinghouse proposes merger with MCA*; Department of Justice, IRS take close looks. ■ Federal court set aside *FCC approval*

of sale of WFMT(FM) Chicago to WGN, says FCC should have given hearing to protestors despite late filing of objections. ■ *Signal Companies* offers \$25 million for 49.9% of *Golden West Broadcasters*; Gene Autry to retain control.

Aug. 12 □ Networks pay \$55 million for *football rights*, expect \$107 million from advertisers. ■ NBC and CBS give *GOP convention gavel-to-gavel coverage*; *ABC has late-evening summary*, gains rating advantage with early-evening entertainment. ■ *Thirty-second commercial use* has 12-fold growth in year; piggybacks have slight gain, all other lengths decline. ■ *Sale of KDFM-TV Beaumont, Tex., to city's newspapers called off* because hearing on transfer, requested by Department of Justice, would run beyond contract termination date.

Aug. 26 □ *Basic agreement reached on new ASCAP pact* for TV, ending six-year-old lawsuit, saving 12% in first-year fees, more later. ■ Negro activist group, *Fair Play for Black Citizens Committee*, moves into convention of National Association of Television and Radio Announcers, claims 500 signed pledges from NATRA members. ■ *Norton Simon Inc.* acquires Talent Associates. ■ *AT&T gives lower rates to ETV*, but circuits can be pre-empted for commercial users.

Sept. 2 □ *Battles inside Democratic convention hall*, battles in Chicago streets outside, feud between politicians and broadcast newsmen add up to vivid contrast to Republican's Miami meeting. ■ *FCC modifies sunrise rule*, changes starting time from 6 a.m. to "local standard" time to 6 a.m. "local" time.

Sept. 9 □ Washington rings with *Chicago echoes*; Congress denounces TV reporting; broadcasters protest police harassment. ■ Report of staff on *President's Task Force on Telecommunications* sees cable systems supplementing broadcast television, not supplanting it, subject to FCC duopoly rule, other restrictions now applied to broadcasting. ■ *FCC rejects ABC-TV plea for help against raiding by other networks*, emphasizes it won't allow incentive-compensation features in affiliation contracts, revives rulemaking to require affiliation contracts to be made public.

Sept. 16 □ Court of Appeals in Chicago says *FCC fairness rules are unconstitutional*, contradicting earlier decision of Court of Appeals in Washington; Supreme Court appeal foreseen. ■ *Hughes Tool Co.* acquires Sports Network Inc. ■ Agencies, representatives concerned at *rise of independent buying services* as middlemen between buyer and seller.

Sept. 23 □ *Broadcasters call BMI demands exorbitant*, break off negotiations for new licenses.

Oct. 14 □ *Transamerica Corp., Metromedia plan merger* in \$300 million stock deal; FCC approval is needed because both companies have broadcast holdings. ■ *No "Great Debates"* this year; House votes to suspend equal time for presidential candidates but includes George Wallace; Senate fails to pass amended bill. ■ Pictures taken inside *Apollo 7* in flight, sent back to earth, revive public interest in space program.

Oct. 28 □ *Producers Guild of America* wins recognition as collective bargaining agent for movie, TV producers, who gain health, pension benefits under 10-year contract. ■ ABC seeks *broadcaster participation in ownership of domestic satellite*.

Nov. 4 □ *AAAA chairman attacks "middlemen"*, defends timebuying skills of agencies in speech to ANA. ■ *Republican campaign spot*

alternating still picture of grinning Hubert Humphrey with scenes of poverty, war, riots is called "smear" by Democrats, canceled by Nixon-Agnew committee. ■ **NBC requirement** for news personnel to furnish reports of financial investments, outside employment brings acceptance, resentment. ■ U.S. Tax Court approves *proportional write-offs of feature films* overrules IRS demand for straight-line depreciation.

Nov. 18 □ Iowa Supreme Court *upholds state 3% tax on advertising*, reversing lower court finding. ■ FCC affirms earlier decision to *ban CATV import of Los Angeles programs into San Diego*, except in areas served before Oct. 24, 1966.

Nov. 25 □ **FCC rule that stations must carry anti-smoking spots** upheld by Court of Appeals. ■ NBC-TV starts "*Heidi*" on schedule, loses Raiders' two-touchdowns-in-nine seconds defeat of Jets, rouses ire of fans; tape of game ending shown on affiliates' late news programs, on next morning's *Today*. ■ **TV commercials are prime source of actors' incomes**; SAG credits them as source of some 40% of members' earnings.

Dec. 2 □ **BMI, radio-music committee agree on new pact**, boosting fees 10% immediately, more later. ■ **U.S.-Mexican treaty** for use of AM broadcast band completed after two years of talks; 260 U.S. daytimers to get presunrise time after pact is ratified.

Dec. 16 □ **FCC proposes new rules for CATV**, would limit importation of distant signals into all markets, require program origination; authorize tightly controlled on-air pay TV. ■ **President's Task Force on Communications Policy** recommends single carrier for all types of international communications, create super

federal agency to allocate radio spectrum among government, nongovernment users. ■ **CBS demonstrates EVR** (electronic video recording); Motorola will build players for industrial, educational use; home use seen three to five years away.

Dec. 23 □ **Microwave Communications** offers plan for ETV interconnection service at rates lower than AT&T's. ■ Television blasted as corrosive force at hearing held by *President's Commission on the Causes and Prevention of Violence*; ABC's Goldenson, CBS's Stanton report steps to reduce violence in programs, deny staging incidents for TV cameras during Chicago disturbances. ■ Fifth global satellite, *Intelsat III-A*, launched for synchronous orbit over east coast of Brazil.

Dec. 30 □ **Christmas broadcast from Apollo space capsule** orbiting moon with three astronauts reading opening verses of Book of Genesis, successful splashdown, end eventful year. ■ **TWA underwrites Newsfront**, nightly newscast on Eastern Educational Network of 17 educational TV stations for six months for \$150,000, gets 4,550 on-air mentions. ■ **Sales of U.S.-made color TV sets top those of black-and-white** receivers for first time, EIA reports, about 6 million for year, versus 5.5 million monochrome sets. ■ **Raymond Swing**, radio news commentator with following in 1930's and 40's dies at 81.

1969

Jan. 6 □ Justice Department asks FCC to *break up media "monopoly"* in Cheyenne, Wyo., by ordering Frontier Broadcasting Co. to sell KRBCTV. Frontier also owns city's only full-

time AM station, only CATV system, has CP for city's second FM station; Frontier's principals also own Cheyenne's only morning, evening, Sunday newspapers. ■ **RKO General announces termination of Hartford pay-TV test** after six and a half years; Zenith seeks "showcase" Phonevision operation in major market. ■ Federal court in Nevada holds *CATV systems are essentially local*, subject to state regulation.

Jan. 20 □ NAB code boards *loosen personal-product restrictions*, approve feminine-spray ads on TV, tampon ads on radio. ■ **Frank J. Shakespeare**, president, CBS Television Services, named to head U.S. Information Agency. ■ More than 60 congressmen join in introducing legislation directing FCC to conduct *comprehensive investigation of effects of violence on TV*.

Jan. 27 □ **FCC decides to take ch. 5 Boston away from WHDH Inc.**, gives it to **Boston Broadcasting Inc.**; WHDH Inc. operated WHDH-AM-FM-TV Boston, is owned by **Boston Herald-Traveler**, publisher of two daily newspapers, Sunday paper; BBI is virtually free of media connections.

Feb. 10 □ FCC proposes rule to *prohibit broadcasters from accepting cigarette advertising* unless Congress says "no" or broadcasters voluntarily surrender billings that totaled \$236 million in 1968.

Feb. 17 □ Westinghouse stations withdraw from NAB TV code as too weak, call lifting ban on personal product ads "last straw." ■ **Baseball** gets 100th birthday present of \$37.2 million from broadcasters for rights to carry games on radio-TV. ■ FCC starts *investigation of conglomerate ownership* of broadcasting stations.

STATION IDENTIFICATION

Great stations make their own breaks.

We identify with community problems. That's why our documentary unit, PROBE, has been honored with the Peabody, Mental Health, Iris Awards, and many more.

We identify with the youth of today. That's why our KIDS CORNER children's program has been honored as one of the nation's five best by the Action for Children's Television.

We identify with news credibility and integrity. That's why the WLBT newsteam has been honored as Mississippi's best overall news coverage seven years in a row.

We identify with our audience. That's why we've won 24 straight sweep periods . . . for eight straight years.

Being one of America's few dominant stations proves that we're committed, not only to the best programming in our market, but also to the awareness of our community. We're one television station our viewers can identify with.

WLBT-TV3 

TV-3, INC. P.O. BOX 1712 JACKSON, MS 39205

Feb. 24 □ Advertisers, agencies active in *buying TV series, specials* for placement in special markets. ■ *Cosat cuts Pacific* satellite rates.

March 3 □ IRS ponders Supreme Court appeal of Court of Claims decision upholding *right of Meredith Broadcasting Co. to amortize network affiliation contracts* of KPHO-TV Phoenix.

March 10 □ *Senator John O. Pastore* (D-R.I.) asks U.S. surgeon general to make study of violence on TV and its effects on viewers. ■ *Top price of commercial minutes in prime-time TV network programs* is \$65,000 asked by *Laugh-In, Mission: Impossible, Mayberry RFD*.

March 17 □ New group, *Civic Communications Corp.*, challenges *WLBT(TV) Jackson, Miss.*, for ch. 3, asks for competitive hearing.

March 24 □ FCC adopts rule to permit *public inspection of network affiliation contracts*. ■ House publishes report of Investigations Subcommittee on *pot party*, recommending *government controls over broadcast news*.

March 31 □ *Public watches TV more*, trusts it more as news source, likes program mix better, Roper survey shows. ■ Preplanned network coverage goes into action with notice of *death of former President Dwight D. Eisenhower*, time pre-empted for funeral, memorial broadcasts, obituaries, but normal schedules not completely abandoned.

April 7 □ *CBS-TV fires Smothers brothers* after hassles over performers' failure to comply with network's program standards, or to meet deadline for delivery of program to network for preview by affiliates. ■ *Another applicant wants WNAC-TV's Boston ch. 7*, Dudley Station Corp., representing "black community of the Boston area." ■ *TV rights to 1972 summer Olympics in Munich, Germany*, go to ABC-TV for \$12 million.

April 14 □ *Local TV business grows* as department stores lead other retailers into video advertising. ■ Post-Newsweek Bonneville station groups take *no new cigarette business*, won't renew present contracts. ■ Corp. for Public Broadcasting plans *creation of Public Broadcasting System* to distribute programs to ETV stations.

April 21 □ *NAB drive for legislative relief* against competing applications filed at license renewal time gets several bills introduced in House.

April 28 □ NBC-TV adds three 30-second *anti-smoking spots* to weekly prime time schedule: Westinghouse stations drop all cigarette ads. ■ *MCA, Westinghouse* drop merger plans.

May 12 □ *New ASCAP TV contracts* finished

after eight years, could mean \$53 million savings to stations over 10-year period.

May 19 □ FCC says *wbbm-TV Chicago* should not have put *pot-party program* on air because it involved "inducements of the commission of crime" (smoking marijuana), urges guidelines for investigating reporting, but station's license not jeopardized. ■ *Television election broadcasts* have "no detectable influence on voting behavior," NBC researchers state, after analysis of 1964, 1968 elections.

June 2 □ *Plan for settling differences over cable regulation* reached by staffs on NAB, NCTA, accepted "in principle" by NCTA board, to be considered by NAB board in mid-June. Agreement proposes joint support of legislation to protect broadcasters' program rights, give CATV chance to grow. ■ *ABC-TV gets Monday-night pro football* for reported \$8 million a year. ■ *Apollo 10* is color spectacular: first color pictures of moon, of earth from moon, of splashdown.

June 9 □ AMST, ACTS, attorney for motion picture firms object to *NAB-NCTA agreement*. ■ *FCC gets tough on equal-employment opportunity*, orders broadcasters to establish programs "designed to assure equal opportunity in every aspect of station employment policy and practice."

June 16 □ Supreme Court holds FCC's *fairness doctrine, personal-attack rules* "enhance rather than abridge the freedom of speech and press protected by the First Amendment." Metromedia, Transamerica call off merger.

June 23 □ NAB board *scraps staff agreement on cable TV* as broadcasters demand more protection. ■ *FCC sets aside license renewal of WPXI(TV) New York*, paving way for comparative hearing with new group seeking to take channel; dispute rages on responsibility for commission's delay in acting on complaint.

June 30 □ *Court of Appeals takes license from WLBT(TV) Jackson, Miss.*, orders FCC to invite new applicants for ch. 3, castigates commission for its handling of case.

July 14 □ NAB proposes *phase-out of all cigarette advertising* on code stations, with total elimination by Sept. 1, 1973.

July 28 □ *Cigarette companies offer to cancel all radio-TV advertising* by September 1970. ■ *Man walks on moon and world watches it on TV*.

Aug. 4 □ *KTAL-TV Texarkana, Tex.*, gets license renewal.

Sept. 1 □ Politicians spent \$59 million for *radio-TV during 1968 campaign*.

Sept. 8 □ *More challenges for licensees*: Black group files against *WMAJ-TV Washington*; former state official bucks *WHTN-TV Huntington, W. Va.* renewal; lawyers seek channel occupied by *WTAR-TV Norfolk, Va.* ■ *Standard 15% commission* for station reps no longer standard, IBFM survey reveals. ■ *NAB, NCTA can't agree* on CATV, break off talks. ■ *AT&T proposes new broadcast tariffs*, seeks \$90 million a year for lines.

Sept. 22 □ President names *Dean Burch*, former chairman, Republican National Committee, *Robert G. Wells*, Kansas broadcaster, to FCC. ■ NCTA survey shows *98 cable systems carry ads; 329 originate programs*.

Oct. 6 □ *Twentieth Century Fund* proposes prime-time half-hours for presidential 'candidates for 35 days before election, broadcast on all stations, CATV systems, priced at 50% normal rate, with government paying bill. ■ *FCC gives Bartell heaviest fine*, \$30,000, for allegedly unauthorized transfer of control of three radio stations.

Oct. 13 □ *Avco stations will ignore NAB TV code*, use live models in lingerie commercials.

Oct. 20 □ U.S. Supreme Court upholds *FCC cigarette fairness rule*. ■ *Victor C. Diehm, WAZL(AM) Hazelton, Pa.*, elected president, chief executive officer of MBS, replacing *Robert R. Pauley*. ■ *Three-network consortium* to own, operate \$100-million satellite system, proposed by CBS's Stanton.

Oct. 27 □ *FCC requires program origination by CATV systems* with over 3,500 subscribers, permits commercials at natural breaks. ■ *Collections slow in TV spot*; paperwork, high interest blamed. ■ *James T. Aubrey Jr.*, former president, CBS-TV network, named president, chief executive officer, MGM.

Nov. 3 □ *Electronic Industries Assn.* forecasts multichannel wiring of whole country. ■ House Commerce Committee *cites FCC chairman Hyde for contempt of Congress* for refusing to produce confidential documents on case still open. ■ *WGN gives WFMT(FM) Chicago* to Chicago Educational Television Assn.

Nov. 17 □ *Vice President Agnew charges networks with biased reporting*; broadcasters fume: new FCC chairman defends Agnew's right to "express views on objectivity of network news coverage."

Dec. 8 □ Blacks, churches, liberals *protest Pastore bill* to protect broadcasters from irresponsible applications for their facilities as racist measure to guarantee licenses in perpetuity. ■ New merger in works: *Dun & Bradstreet would acquire Corinthian* broadcasting-publishing interests for \$134 million.

Dec. 15 □ *Senate approves ban of broadcast cigarette advertising* by Jan. 1, 1971.

Dec. 22 □ CBS-TV seeks *music licenses* on per-piece basis.

1970

Jan. 5 □ *CBS sues ASCAP, BMI* under antitrust laws in new attempt to get per-use music licenses.

Jan. 12 □ *Ailing Brigadier General David Sarnoff*, 78, key figure in RCA since its origin, resigns as board chairman, director, is elected honorary board chairman; *Robert W. Sarnoff*, RCA president, chief executive officer, elected to additional post of chairman. ■ *Committee to study feasibility of VHF channel-sharing with land-mobile* users completes task, dividends on results; broadcasters say it's not feasible,

Smart Money in Southeast Arizona is on

land-mobile users say it is. ■ *Competitive groups* seek ch. 10 Miami occupied by WLBW-TV, (Washington Post-Newsweek) ch. 2 Orlando now held by WESH-TV (Cowles).

Jan. 19 □ FCC eases broadcaster fears aroused by WHDH-TV decision by adopting policy statement asserting *it will favor incumbent broadcaster over rival applicants* if he can show his programming "has been substantially attuned to the needs and interests" of his area.

■ *AT&T rejects CPB request for free inter-connection service*, tells FCC 40% reduction is best it will do. ■ *Cypress Communications Corp., Harriscope Cable Corp.* plan merger of CATV operations into one company serving 165,000 subscribers. ■ *Frank Folsom*, RCA president, 1949-57, chairman of executive committee until 1966, dies at 75.

Jan. 26 □ Nixon administration recommends FCC establish *interim domestic satellite policy* permitting any one with proper financial, technical resources to own, operate its own system.

Feb. 2 □ ABC, CBS, NBC agree to underwrite *study of feasibility of jointly operating own satellite system* to distribute TV radio programs; AT&T says it will seek right to use satellites in its domestic-communications service.

Feb. 9 □ *BMI files antitrust suit against CBS, NBC, ASCAP* alleging conspiracy to destroy BMI, asks \$59 million treble damages. ■ *Orrin E. Dunlap*, former vice president in charge of advertising, publicity for RCA, earlier for 18 years radio editor of *New York Times*, dies at 73.

Feb. 16 □ President asks Congress to let him establish *White House Office of Telecommunications Policy*. ■ *"Frito Bandito,"* pulled off air after complaints of Mexican-American group, will be replaced by new Fritos campaign.

Feb. 23 □ *FCC proposes fee boosts for all licensees*, with broadcasters paying largest part; TV filing fee would rise from \$150 to \$5,000 for VHF in top-50 market.

March 2 □ FCC sets up *spectrum management task force* to develop, carry out centralized frequency-management program. ■ *Pay TV gets green light*; Supreme Court refuses review of lower court ruling upholding FCC's order authorizing such service. ■ *ABC-TV terminates affiliation with WKTR-TV Dayton, Ohio*, after network station-relations man is charged with accepting bribe for recommending that WKTR-TV get affiliation. ■ *State utility commissioners move quickly into CATV* after Supreme Court Nevada decision; National Assn. of Regulatory Utility Commissioners decides to recommend model CATV statute for all states.

March 9 □ House, Senate conferees agree on *legislation to outlaw cigarette advertising on radio-TV*, change date from Jan. 1, 1971, to Jan. 2, to let commercials appear on New Year's Day football bowl games.

March 16 □ Westinghouse Broadcasting asks FCC to prohibit major-market stations from taking more than three hours of network nonnews programming between 7 and 11 p.m.

March 30 □ *Elton H. Rule*, president, ABC-TV, named to new post, president of American Broadcasting Co., broadcast division of ABC Inc. ■ *FCC tentatively votes to limit amount of programming* TV networks may supply in prime time and to take networks completely out of domestic syndication, largely out of foreign sales. ■ *FCC adopts proposed rule barring owner of any full-time broadcast station—AM, FM, TV—from acquiring another station in same market*; issues notice of proposed rulemaking to break up existing multimedia

combinations, including newspapers, in same market, excepting only AM-FM combinations.

■ *FCC opens door to all comers interested in domestic satellite operation*, who have ability, money, need for service.

April 6 □ Anti-pollution group complains to FCC that WNBC-TV New York *failed to fulfill fairness doctrine* obligations when it refused to carry rebuttals to gasoline and automobile commercials, messages dealing with air pollution they cause. ■ Justice Dept. announces *agreement with TV networks, motion picture producers, associated unions* intended to insure 20-25% of daily craft employment going to *minority workers*. ■ *FCC rejects plan to open UHF channels 14 through 20 to land-mobile radio operators* in top-25 markets.

April 20 □ *FCC approves inclusion of coded patterns in TV signals* to identify programs, spots electronically. ■ Senate passes bill *repealing equal-time provision for presidential and vice presidential candidates*, enabling candidates to buy time at lowest rate for commercial advertiser for same period, limiting amount any candidate for national office can spend for broadcast time.

April 27 □ *AAAA lifts ban on media ownership* by member agencies. ■ *After over 20 years of sharing two channels*, 820 kc, 570 kc, WFAA Dallas, WBAP Fort Worth go separate ways; WBAP gets 820 kc, WFAA 570 kc.

May 4 □ FCC orders AT&T, Western Union to *end preferential private-line rates* for press users, including broadcasters.

May 11 □ *Richard A. Moore*, West Coast broadcaster, recently consultant to HEW Sec. Robert Finch, named special assistant to Atty. Gen. John N. Mitchell. ■ *FCC adopts rule*

prohibiting TV affiliates in top-50 markets from accepting more than three hours of network programming between 7, 11 p.m., bars networks from domestic syndication, lets them sell abroad only programs they produce themselves, all effective Sept. 1, 1971; after Sept. 1, 1970, networks barred from acquiring subsidiary rights in independently produced programs. Only on-the-spot, fast-breaking news, political broadcasts are exempt. ■ *BMI files \$6-million copyright infringement suit against NBC*. ■ *WKEF-TV Dayton, Ohio*, gets court order for ABC-TV to *reinstate pre-1969 affiliation*, switching from WKTR-TV. ■ *Triangle Publications*, having sold nine radio-TV stations to Capital Cities Broadcasting, agrees to sell remaining broadcasting properties, retire from radio-TV.

May 18 □ MBS affiliates ask other networks, NAB, to join in *test of law banning cigarette commercials*. ■ Sen. Frank E. Moss (D-Utah) introduces resolution directing FTC to *study possible connection between advertising, drug abuse*. ■ *Metromedia donates KNEW-TV San Francisco, UHF*, to Bay Area Educational Assn.

May 25 □ New FCC rules require broadcasters to adopt, report to commission, detailed *equal-employment opportunity programs*. ■ *FCC formulating plan for new CATV rule* dropping local station protection against importation of signals from overlapping markets, permitting importation of at least four nonnetwork station signals plus whatever affiliated-station signals needed for full network service, requiring deletion of commercials from imported programs and permitting voids to be sold to advertisers by local TV stations, requiring copyright payments, requiring payment of 5% of gross subscription charges to CPB, other changes. ■ *FCC amends double-billing prohibition rule* to

It can't be said enough

ban any kind of misrepresentation in station billing. ■ *Merger of Teleprompter Corp. and H&B American Corp.* approved by stockholders, would make Teleprompter largest CATV operator in nation.

June 1 □ *ASCAP asks court to order CBS-TV, NBC-TV to dispose of owned stations*, to enjoy them from producing, selling, distributing programs. ■ Appeals court hears fourth oral argument of WHDH-TV Boston case.

June 8 □ FCC warns that *kickbacks* to networks or producers as reimbursement for talent fees must be fully disclosed to audience or be counted payola violations. ■ Examiner recommends *awarding license of Orlando, Fla., ch. 9* to Mid-Florida Television Corp., major victory in 13-year battle. ■ FCC turns down *request of equal time by antiwar groups*. ■ BMI asks court to *order CBS-TV to pay it 70% of what network pays ASCAP*. ■ Former Sen. *Edwin C. Johnson* (D-Colo.), chairman of Senate Commerce Committee, 1949-54, dies at 86.

June 15 □ *Edward Petry*, founder of station-sales representation as it is today and leading figure in field for over 30 years, dies at 73. ■ *Department of Justice tells FCC it should deny license renewal to KHJ-TV Los Angeles*, if examiner's finding that General Tire & Rubber Co. had engaged in anticompetitive practices benefiting station is upheld.

June 22 □ If station sells time to political candidate it must sell reply time to opponents but it *doesn't have to give them free time* to answer paid announcement, FCC explains. ■ House Investigations Subcommittee *condemns CBS for part in Haiti invasion plot*, charges network with staging scenes for presentation in documentary, encouraging illegal invasion scheme, recommends new legislation specifically to

outlaw such practices. ■ *NAB plans all-out fight against FCC move to end media crossownership*, asks for more time to make extensive study, seeks to hire former FCC member Lee Loevinger as special counsel. ■ Examiner recommends *renewing WCCO-AM-TV Minneapolis licenses without hearing*.

June 29 □ Nixon picks *Dr. Clay T. Whitehead*, special assistant to President, as first director of new Office of Telecommunications Policy. ■ *FCC releases package of CATV actions*, proposals anticipate future role of cable television in nation's communications system. ■ CBS President Frank Stanton announces that *opposition party will be given several opportunities each year to present its views* on CBS in free program time, agrees to paid political fund-raising appeals of up to one minute's length between campaigns. ■ *Campaign of blacks to require broadcasters to change hiring, program practices* moves to Nashville, Memphis. ■ Formation of *National Black Network* to furnish news, information service to black-oriented radio stations, announced by Robert R. Pauley, former president of ABC, Mutual radio networks, Murry Woroner, head of Woroner Productions. ■ *ABC-TV affiliates resent acquiescence to FCC prime-time rule* of ABC Inc. President Leonard Goldenson, tell him so. ■ *Michael H. Dann* resigns as CBS-TV senior vice president, programing, to join Children's Television Workshop; *Fred Silverman*, vice president for programing and development, CBS-TV, succeeds Dann.

July 6 □ Triggys next? Alberto-Culver sounds stations out on acceptability of *three 20-second spots in single minute*. ■ Competing applicant will *withdraw bid for NBC's KNBC-TV Los Angeles* under agreement approved by FCC for NBC to repay expenses incurred in prosecuting application, about \$102,400. *FCC denies renewal application of wxur-AM-FM Media, Pa.*, orders stations off air by Sept. 1, 1970. ■ *FCC adopts \$20-million increase in fees from broadcasters*, other licensees; station fees vary with market location, type of service, hours of operation power. ■ *CBS spins off program-syndication, domestic CATV operations* in independent company, names *Clark B. George* as president; *Sam Cook Digges*, executive vice president, CBS-owned AM stations, succeeds George as president. CBS radio division. ■ Consolidation of *WNOT-TV New York*, National Educational Television into *Educational Broadcasting Corp.* provides expanded center of educational-TV programing or national distribution by Public Broadcasting Service.

July 13 □ Domestic broadcast in CBS-TV free time sets off *outbursts of political demands*. ■ Blacks ask FCC to *deny license renewals to WREC-TV, WHBC-TV*, both Memphis.

July 20 □ *Football rights* go up to \$66 million, cost of minutes rises to \$200,000 each. ■ *Blacks add WMC-AM-FM-TV to list of Memphis stations* whose license renewals they want denied; others feel stations have been too pro-black. ■ *WCCO-AM-TV Minneapolis get renewals*; FCC ducks mass-media-control issue. ■ Court sets *interim ASCAP fees* of \$4.3 million a year for NBC-TV; CBS-TV rejects same fees as too high, still wants to buy music on per-use basis.

July 27 □ Nixon appoints FCC Commissioner *Robert Wells*, now serving term ending June 30, 1971, to full seven-year term succeeding *Kenneth Cox*; *Sherman E. Unger*, general counsel, Dept. of Housing and Urban Development, named to serve out 11 months of Commissioner Wells's present term.

Aug. 3 □ *Hal C. Davis*, vice president, Ameri-

can Federation of Musicians, president of Pittsburgh local, named AFM president.

Aug. 10 □ *Food and Drug Administration acts to stop advertising of eight toothpastes, eight mouthwashes* as medically effective in combating bad breath, germs and sore throats, common cold symptoms; claims, FDA says, are false; cereal makers defend their products against "empty calorie" charges. ■ *FCC approves merger of Teleprompter, H&B American Corp.*; merger will form nation's largest cable system of SEC, Justice Dept. also approve. ■ Two UHF operators seek right to start *pay-TV service*.

Aug. 17 □ *Two-year agreement of AFM and TV networks* gives staff musicians weekly wage of \$300, but reduces number to 95, all in New York. ■ *Miles W. Kirkpatrick*, chairman of American Bar Assn. committee that was critical of FTC, appointed FTC chairman. ■ *Atty. General Mitchell* tells newsmen he alone will authorize subpoenas for sensitive information. ■ *Group opposing Post-Newsweek for Miami ch. 10* willing to drop out if they can get back out-of-pocket expenses. ■ *WREC-TV Memphis* settles with blacks. ■ *CBS agrees to pay ASCAP interim fees* of \$4.3 million a year while court settles per-use license dispute.

Aug. 24 □ *AAAA wants electronic logging* to verify broadcasting of commercials, done at broadcasters' expense.

Aug. 31 □ *KNBC-TV Los Angeles* gets renewal. ■ *Subscribers squawk about ARB, rate increases, findings, techniques, service* promises larger sample size, faster delivery, stands firm on price. ■ Women's Lib boycotts *Silva Thins, Ivory Liquid, Pristine, Cosmopolitan Magazine, calls advertising "offensive, insulting to women."* ■ *Kenneth A. Cox* leaves FCC at end of term, will be senior vice president of Microwave Communications of America, also counsel to communications law firm.

Sept. 7 □ *Nonprofit group gets custody of WLBT-TV Jackson, Miss.*, until permanent licensee selected. ■ *Blacks challenge renewals* of eight Columbus, Ohio, stations. ■ *George R. Katz*, former president of Katz agency, dies at 97.

Sept. 14 □ *Plans for agency-owned computer-services center* are announced by AAAA.

Sept. 21 □ *TV commercials* miss audience completely 4% of time, hit only 27% sometime, FC&B study reveals. ■ *Teleprompter, H&B American sign agreement* that merges H&B into Teleprompter.

Oct. 5 □ United Church of Christ, black broadcasting coalition of Youngstown, Ohio, *comes to terms with WFMJ-AM-TV, asks FCC to deny renewals to other Youngstown stations*. ■ FTC proposes *tough choice to advertisers* who break its rules: stop advertising for year or include in all advertising sins attributed to them by FTC; Chevron gasoline with F-130, HI-C are test cases. ■ *WPXI-TV New York executives admit judgment errors*, deny deliberate misrepresentation in license-renewal hearing. ■ *Major movie companies file antitrust suits* to stop ABC, CBS from producing entertainment programs for themselves, for theaters, for anyone else.

Oct. 12 □ FCC starts work on *standards to measure station performance*, for reference at renewal time; test work being done on top-50 market stations. ■ *Frontier Broadcasting Co. offers to drop crossownership* if FCC renews license of *KFBC-TV Cheyenne, Wyo.* ■ *NAB hunts for top-level executives* to implement top-to-bottom shake-up.

Oct. 19 □ *Time-Life negotiating sale of stations* to Combined Communications Corp. ■ *President vetoes political broadcasting bill.* ■ FCC invites comments about *antismoking spots* when cigarette advertising goes off air. ■ FCC has best chance of all federal agencies to play key role in *promoting civil rights*, U.S. Commission on Civil Rights report asserts. ■ *FCC probes financial ability of wPIX(TV) New York challenger* to raise initial million needed to take over station. ■ *Midwest Video Corp.* asks court to tell FCC it has no right to order cable systems to originate programming.

Oct. 26 □ Networks, affiliates have to start planning how to handle *shorter network nights*, as appeals court refuses to stay Oct. 1, 1971, effective date of FCC's prime-time rules.

Nov. 2 □ Agreement in principle for *McGraw-Hill's \$80.1 million acquisition of Time-Life TV and radio stations* announced. ■ U.S. district court rules *CBS-TV must pay BMI \$1,607,000 per year*, retroactive to Jan. 1, 1970, until litigation between them is settled. ■ *"New York Times" buys its first TV*, WREC-TV Memphis, as part of \$50-million deal for Cowles Communications properties.

Nov. 9 □ *FCC extends deadline for citizen groups to file against Chicago stations*, saying it will study means to allow more time for renewal challengers and to bar extensions of deadlines unless "all interested parties" join in request.

Nov. 16 □ Manship committee, set up with \$100,000 grant from NAB to *fight curbs on media crossownership* will solicit \$100,000 more from broadcasters.

Nov. 23 □ NBC and NBC-TV affiliate group withdraw from *appeals court case against FCC*

prime-time access rule.

Nov. 30 □ *FTC hardens line against allegedly deceptive advertising* by announcing intent to issue cease-and-desist orders against Mattel and Topper for toy commercials and duPont for Zerex antifreeze demonstration. ■ *Newly merged D'Arcy Advertising*, St. Louis, and MacManus, John & Adams, Bloomfield Hills, Mich., plan to buy control of Intermarco N.V., of Amsterdam, creating agency with \$250 million in billings. ■ *FCC's prime-time access rule comes under further attack* in filings with U.S. Second Circuit Appeals Court in New York.

Dec. 7 □ *Stronger role for citizen groups* in license-renewal process proposed by FCC staff and Dr. Barry Cole, commission consultant. ■ *FCC climaxes nine-month probe of Burden stations* by ordering hearing on activities of group owner's five AM and FM stations. Among 22 issues is charge of illegal gifts and contributions to members of Congress. ■ *Boards of Dun & Bradstreet and Corinthian Broadcasting Corp. extend deadline* on their \$100 million-plus merger to May 1, 1971. ■ Six AM stations file suit in federal district court in Washington to *stop ban on cigarette commercials* on radio and TV.

Dec. 14 □ President Nixon withdraws name of FCC nominee *Sherman Unger*, object of routine IRS audit, and instead nominates *Thomas J. Houser*, deputy director of Peace Corps.

Jan. 11 □ *Thomas J. Houser* sworn in as FCC commissioner to complete term of Commissioner *Robert Wells*, who in turn, was named to full seven-year term, succeeding *Kenneth A.*

Cox. ■ *With cigarette advertising banned* from radio and TV, effective Jan. 2, 1971, tobacco companies seek alternative methods. ■ *Capital Cities Broadcasting Corp. pledges \$1 million for minority programs* to demonstrate its public-interest commitment, which had been challenged by citizen groups opposing Capcities \$147-million acquisition of Triangle Publications' stations.

Jan. 18 □ FCC and Office of Telecommunications Policy embark on *long-range study aimed at more efficient use of radio spectrum.*

Jan. 25 □ Prodded by Action for Children's Television and other citizen groups, FCC announced inquiry and notice of proposed rulemaking on schedules, standards and commercials for *children's TV programming.*

Feb. 1 □ *Teleprompter Corp. and its president-chairman, Irving B. Kahn, indicted* by federal grand jury on charges of bribery and conspiracy in obtaining cable franchise in Johnstown, Pa.

Feb. 15 □ President's Advisory Council on Executive Reorganization *criticizes operation of seven regulatory agencies* and proposes FCC be trimmed to five members.

Feb. 22 □ *BROADCASTING's annual survey finds major league baseball will receive \$40.4 million for play-by-play rights in 1971.*

March 1 □ *FCC approves Capital Cities Broadcasting acquisition of Triangle Publications stations*, part of deal that, overall, added up to \$147 million.

March 15 □ *FCC endorses agreement of TV networks to designate 8-11 p.m. as prime time* in fall. Under prime-time access rule, networks were limited to three hours between 7 and 11

p.m. ■ **John A. Hardin** elected president and chief executive officer of Mutual Broadcasting Corp. ■ Under revised agreement, *Time Inc.* plans to sell five TV stations to McGraw-Hill for \$69.3 million, deleting Time's radio properties from earlier announced package.

March 22 □ Vice President **Spiro T. Agnew** renews attacks on media, including CBS News and its "The Selling of the Pentagon," program he describes as "subtle but vicious broadside against nation's defense establishment." ■ Coast-to-coast flap over *drug lyrics* in songs erupts following FCC notice telling broadcasters to be cautious. ■ **Philo T. Farnsworth**, who obtained first patent for electronic TV system in 1927, dies at age 64.

April 12 □ Stagers subcommittee subpoenas CBS, NBC documentaries in quest of information on how TV networks produce information programs; CBS's **Stanton** refuses to yield outtakes, other unaired material.

April 19 □ FCC backs off slightly on its controversial *drug-lyrics policy* issued in March.

May 3 □ CBS refuses to comply with subpoena from Stagers subcommittee for outtakes, unused material. *National Public Radio* starts up with 90-station interconnected lineup.

May 10 □ FCC's *prime-time access rule* and related restrictions on syndicated and related programming activities of networks is upheld by New York appeals court.

June 7 □ FCC belatedly approves CBS spinoff of cable and syndication to *Viacom International*.

June 14 □ FCC's Jan. 15, 1970, *policy statement*—regarded by broadcasters as protection against challenges to renewal applications—is thrown out by U.S. Court of Appeals in Washington. ■ Supreme Court, in case involving WIP(AM) Philadelphia, rules broadcasting has *First Amendment parity* with press and is immune to suits by private citizens under normal circumstances.

June 28 □ President Nixon names special administration subcommittee, headed by **Clay T. Whitehead** and including three cabinet members and three White House aides, to develop cable policy.

July 5 □ President Nixon confirms that Representative **Charlotte Reid** (R-Ill.), who at one time was singer on NBC Radio's *Don McNeill's Breakfast Club*, will be appointed to FCC. She eventually was sworn in Oct. 8. ■ Four different product TV ads of American Home Products Inc. are among latest batch challenged by *Federal Trade Commission*. ■ Stagers committee votes that CBS's **Frank Stanton** be cited for contempt for refusing to supply outtakes from "The Selling of The Pentagon."

July 12 □ House of Representatives refuses to back Stagers committee on Stanton contempt citation.

Aug. 9 □ Washington appeals court overturns FCC ruling and says broadcasters may not impose flat ban on sale of time for discussion of controversial issues.

Aug. 23 □ Washington appeals court rules that advertising of high-power cars and leaded gasoline raises fairness doctrine considerations—just as the FCC had held four years before with respect to cigarette advertising.

Sept. 6 □ Stern Community Law Firm plans campaign to force broadcasters to run "truth-in-advertising" public service spots that could contradict commercial station messages.

Sept. 13 □ **John Thomas Ireland Jr.** picked to succeed CBS President **Frank Stanton**, who becomes vice chairman and continues as

chief operating officer on Oct. 1.

Sept. 27 □ Government plans 1973 experiment with satellite and public institutions in Rocky Mountain area that some see as prelude to satellite-to-home broadcasting.

Oct. 11 □ Office of Telecommunications Policy Director **Clay T. Whitehead** calls for elimination of fairness doctrine, change of license-renewal process to get government out of programming, and to begin steps to deregulate radio.

Oct. 18 □ "Special Report" in BROADCASTING offers compendium of anecdotes about radio and television's yesteryears, based on magazine's personal interviews with pioneers in field. ■ Supreme Court refuses to review FCC decision that will strip WHDH-TV Boston of its license.

Oct. 25 □ **Irving B. Kahn**, chairman of Teleprompter Corp., is convicted of bribery, conspiracy and perjury in connection with award of Johnstown, Pa., cable franchise in 1966.

Nov. 8, Dec. 6, Dec. 13 □ NAB carves out proposed legislation that would favor performance over promise in FCC license-renewal proceedings. ■ Eighteen petitions to deny filed on Nov. 1 against California stations' renewals. by blacks, Orientals and chicanos.

Nov. 15 □ Compromise on FCC's proposed cable rules, orchestrated by Office of Telecommunications Policy, is reluctantly accepted by cable operators and broadcasters. ■ Questions raised in Congress as to why White House had FBI check made on **Daniel Schorr**, CBS correspondent who clashed with White House aides over accuracy of Schorr reporting. White House denies intimidation, says check was in connection with government post for which Schorr was considered.

Dec. 6 □ Nixon nominates FCC General Counsel **Richard E. Wiley** to succeed FCC Commissioner **Robert Wells**, who resigned Nov. 1. ■ **David C. Adams** succeeds **Walter D. Scott** as NBC board chairman.

Dec. 20 □ **David Sarnoff**, dominant force in electronics communications for more than 50 years, dies at 80. ■ Representative **Paul Rogers** (D-Fla.) introduces legislation to ban TV blackouts of sports contests that are sold out; similar bill by Senator **William Proxmire** (D-Wis.) to be subject of congressional hearing next year. ■ Action for Children's Television petitions Federal Trade Commission to ban toy advertising in children's TV programs.

Dec. 27 □ CBS abandons marketing of its electronic video recording system.

1972

Jan. 10 □ Federal Trade Commission urges FCC to enlarge its fairness doctrine to cover product commercials. ■ Former Florida broadcaster **C. Edward Little** is named MBS president. ■ **Dr. Peter C. Goldmark**, inventor and scientist recently retired as president of CBS Laboratories, establishes **Goldmark Communications** with **Kinney Services Inc.** as majority owner.

Jan. 24 □ Surgeon General **Jesse L. Steinfeld** and 12-member Scientific Advisory Committee on Television and Social Behavior releases \$1-million study that says there is casual link between TV violence and aggressive behavior in some children. ■ **Leonard H. Goldenson** becomes chairman and chief executive officer of ABC Inc. and **Elton H. Rule** becomes president and chief operating officer.

Jan. 31 □ Supreme Court refuses to stay August

1971 decision of U.S. Court of Appeals prohibiting broadcasters from enforcing ban on sale of time for discussion of public issues.

Feb. 7 □ FCC delivers its package of basic rules for cable, to be effective March 31.

Feb. 28 □ Satellite coverage of President Nixon's trip to Red China marks new milestone in broadcast history.

March 6 □ First official challenge to FCC's new cable rules comes from **Dale Moore**, Northwest TV station owner, who cites dangers rules pose for small-market broadcasters. NAB seeks stay pending copyright legislation. ■ **Paul Comstock** resigns as NAB executive vice president relations and is succeeded by **Grover C. Cobb**.

March 13 □ Congressional Black Caucus charges mass media is pervaded by racism in employment and news coverage, and conspire to keep public from learning that blacks and poor are exploited in advertising. ■ McGraw-Hill's \$69 million purchase of five Time-Life TV stations is approved by FCC.

March 20 □ Plans for formation of *National Black Network* (radio) are announced.

March 27 □ **David Foster** of Datran Corp. is named president of National Cable Television Association. ■ WHDH-TV Boston goes off air after 10-year fight at FCC for survival; WCVB-TV begins operation on vacated channel 5. ■ FCC is asked to hold up renewals of 11 Massachusetts stations pending inquiry into their employment practices.

April 17 □ Department of Justice files civil antitrust suits designed to prohibit three national TV networks from engaging in any entertainment-program or feature-film syndication. ■ Judge **Benjamin L. Hooks** of Memphis is nominated to be member of FCC—first black ever to serve on any federal regulatory agency.

April 24 □ Federal Trade Commission charges American Home Products, Bristol-Myers and Sterling Drug with false and misleading advertising for their pain-killer drugs.

May 8 □ *Television Communications Corp.* agrees in principle to acquire *Cypress Communications Corp.* in estimated \$58.7 million stock deal that would make TVC nation's second largest cable TV operator (value was restated to be \$51.5 million at completion of merger Sept. 29). ■ In copyright suit brought by CBS and three program packagers against Teleprompter, New York District Court rules that all signals local or far, can be taken by CATV's without liability, and—contrary to plaintiffs' claim—1968 Fortnightly decision still applies. ■ Twenty six stations in New York and New Jersey face license-renewal challenges with women's lib group among challengers for first time.

May 15 □ Citizen groups get unprecedented concessions from McGraw-Hill in form of hard commitments on chicano-black hiring and programming as well as abandonment of one of five VHF's McGraw-Hill planned to buy from Time-Life (FCC already had approved transfer). ■ FCC raises from 1% to 5% limit of broadcast ownership that banks may hold without it counting against station ownership limit.

May 22 □ **J. Paul Getty** among backers of new *Home Theatre Network*, pay-cable firm. *Opticals Systems* and *Theatrevision* simultaneously announced pay-cable tests at NCTA convention. ■ TV networks under fire for alleged distortion of news: Stagers subcommittee holds two-day hearing on issue; GOP newsletter claims NBC and UPI spread communist propaganda without considering national interest. ■ *Kaiser Broadcasting Corp.*

and Field Enterprises plan to put their UHF's together. ■ Coverage of Nixon trip to Soviet Union costs networks at least \$1 million each.

June 5 □ Ted Bates, founder of Ted Bates & Co. and considered architect of spot TV, dies at 70.

June 12 □ Supreme Court, in 5-4 decision, confirms FCC authority to require program origination on cable systems. ■ Charles T. Ireland, 51, who became president of CBS Inc. preceding October, dies of heart attack. ■ BROADCASTING "Special Report" offers analysis of middle-of-road radio and changes it has undergone.

June 19 □ FCC announces satellite policy that provides for "multiple-entry" but with restrictions on AT&T and Comsat.

July 3 □ Supreme Court rules against newsmen's privilege in grand jury investigations, disposing of three separate appeals.

July 10 □ Judge Benjamin L. Hooks sworn in as FCC commissioner.

July 17 □ Arthur R. Taylor elected president of CBS Inc.

July 24 □ Cox Cable Communications and American Television & Communications propose merger that would form second largest cable-system complex in U.S.

Aug. 14 □ INTV is founded as association for independent, non-network stations; Roger D. Rice is first president and Herman Land is executive director. ■ John W. Macy quits as president of Corporation for Public Broadcasting; decision is made one month after CPB Chairman Frank Pace says he will not seek re-election. ■ Study by FCC consultant shows prime-time access rule cost major Hollywood producers \$50 million in network business.

Sept. 4 and 11 □ FCC swamped with mass filings against stations in District of Columbia, Maryland, Virginia and West Virginia. ■ Nixon says he does not want to debate McGovern.

Sept. 18 □ Thomas B. Curtis named Corporation for Public Broadcasting chairman. ■ President Nixon supports move to limit network reruns, proposal to FCC initially advanced by film editor Bernard Balmuth and supported by Hollywood film craft unions. ■ BROADCASTING "Special Report" looks at new life in country radio.

Sept. 25 □ Henry W. Loomis picked to be Corporation for Public Broadcasting president.

Oct. 16 □ More New York TV stations promise to expand service to VHF-less New Jersey in line with campaign undertaken by New Jersey Coalition for Fair Broadcasting.

Oct. 30 □ FCC initiates inquiry into its controversial prime-time access rule.

Nov. 6 □ FCC takes first step in broadcast re-regulation as it drops seven technical requirements.

Nov. 13 □ In dissent to court ruling that FCC was correct in denying wxur-am-fm Media, Pa. license renewal, Chief Judge David Bazelon of U.S. Court of Appeals in Washington says fairness doctrine probably has outlived its usefulness.

Dec. 4 □ FCC sets up two EEO offices to work closely with FCC Commissioner Benjamin Hooks.

1973

Jan. 1 □ OTP Director Clay Whitehead makes Dec. 18 speech in Indianapolis that is regarded as one of administration's sharpest attacks on network news operation. ■ Justice Department

files antitrust suit in connection with proposed merger of Cox Cable Communications and American Television and Communications. ■ Comsat given key role in FCC's final order on domestic satellite service.

Jan. 8 □ Western Union gets first domestic satellite grant. ■ Renewal of Post-Newsweek TV stations in Miami and Jacksonville, Fla., challenged by groups with history of Nixon connections. ■ Appeals court upholds FCC order that ABC and XETV(TV) Tijuana, Mexico-San Diego terminate network affiliation. ■ ABC gets 1976 summer Olympics games rights for record \$25 million.

Jan. 15 □ FCC Chairman Dean Burch says commission's prime-time access rule has failed; producers' study backs contention that FCC plan failed. ■ White House assistant Lewis A. Engman is Nixon choice for FTC chairmanship being resigned by Miles Kirkpatrick. ■ Rueven Frank steps aside from NBC News presidency to become executive producer. Richard C. Wald succeeds him.

Jan. 29 □ FTC asks Congress to ban little-cigar advertising from radio-TV.

Feb. 12 □ National Telefilm Associates' purchase of NBC Films and other programming units completes networks' exodus from syndication.

Feb. 26 □ Television code review board of NAB adopts tough rules regulating advertising of non-prescription medication on TV.

March 12 □ In case of CBS and production companies against Teleprompter, New York appeals court reverses lower court by ruling cable systems are liable for copyright payment on distant signals. ■ Massive revolt by affiliates prompts CBS-TV to cancel "Sticks and Bones," bitter drama about blinded war veteran.

March 26 □ FCC begins campaign to clean up broadcasting including so-called topless radio, X-rated films and other suggestive material. ■ BROADCASTING "Man in the News" feature focuses on Frank Stanton, retiring as CBS Inc. vice chairman.

April 16 □ Appeals court stays FCC approval of sale of WEFM(FM) Chicago, upholding citizen group's protest against program format change proposed by new owners. ■ FCC sets up test case on obscenity by notifying Sonderling's WGLD-FM Oak Park, Ill., that station was liable for \$2,000 fine in connection with Femme Forum program.

April 23 □ Thomas B. Curtis resigns as Corporation for Public Broadcasting chairman after CPB board turns down working agreement he had negotiated with newly reorganized Public Broadcasting Service. ■ Combined Communications Corp. and Pacific & Southern Broadcasting sign \$38.6 million merger agreement with P&S and five of its stations coming under CCC. ■ FCC approves \$15.1-million Sale of KFI(AM) Los Angeles to Cox Broadcasting Corp. ■ Cox Cable Communications and American Television & Communications call off proposed merger rather than fight Justice Department's antitrust suit.

May 7 □ Format change issue involved in appeals court remand of FCC approval of wxez(fm) Sylvania, Ohio, sale and court's affirmation of FCC approval of KBTR(AM) Denver sale.

May 14 □ Sonderling decides it would be too expensive to fight FCC fine for allegedly obscene broadcasts.

May 21 □ Broadcast media around world begin coverage of Watergate hearing of Senate select committee under Senator Sam Ervin (D-N.C.).

June 4 □ Supreme Court rules there is no right of paid public access to radio and TV; decision denies separate cases of Business Executives Move for Vietnam Peace (BEM) and Democratic National Committee. ■ Boards of Corporation for Public Broadcasting and Public Broadcasting Service separately approve seven-point plan creating mutual partnership. ■ Dr. Carl McIntire loses Supreme Court fight to keep wxur-am-fm Media, Pa.

June 18 □ FCC grant for channel 32 WGPR-TV Detroit provides construction permit for what is to be first black-owned TV station in country.

June 25 □ Herbert Schlosser named president of NBC-TV. ■ Pacific & Southern Broadcasting sells three radio stations those not included in earlier agreement with Combined Communications (see April 23)—to Jefferson-Pilot Broadcasting for \$15 million.

July 9 □ National Black Network starts with 41 radio affiliates.

July 23 □ U.S. Equal Employment Opportunity Commission files its first lawsuit alleging discrimination on part of broadcast station against WREC-TV Memphis.

July 30 □ James H. Quello is Nixon's choice to succeed Nicholas Johnson on FCC.

Aug. 27 □ Communications Properties Inc. and Viacom International sign \$62-million agreement to merge.

Sept. 17 □ Congress passes and Nixon signs bill ending local TV blackouts of sold-out games in football, baseball, basketball and hockey. ■ Cox Cable Communications and LVO Cable sign letter of intent to merge. (Proposal called off in December due to market conditions). ■ FCC approves applications of five more domsat firms, putting them alongside first grantee, Western Union (see Jan. 8).

Oct. 1 □ Nixon signs into law legislation outlawing broadcast advertising of little cigars. ■ Dr. Carl McIntire's operation of pirate radio ship in Atlantic leads to court battle and injunction against operation that started Sept. 19.

Oct. 15 □ Resignation of Vice President Spiro T. Agnew, outspoken critic of media, defuses First Amendment controversy he stirred in connection with so-called leaks of Justice Department investigation of Agnew.

Oct. 22 □ Jack Kent Cooke takes over as chairman and chief executive officer of Teleprompter Corp., whose stock trading privilege was suspended Sept. 7 by Securities and Exchange Commission. (Suspension was lifted Nov. 8). ■ Supreme Court refuses to review case of two college radio stations that claim FCC warning against lyrics glorifying drugs is First Amendment violation.

Oct. 29 □ GOP study includes plan to drop in 66 new VHF channels in top-100 markets.

Dec. 3 □ FCC says it will modify prime time access rule, cutting it from one hour to one-half hour, eliminating it entirely on Sundays, and asks for more meaningful programming.

Dec. 10 □ Lame duck Commissioner Nicholas Johnson departs FCC. Chairman Dean Burch indicates plans to leave.

Dec. 18 □ FCC Commissioner H. Rex Lee announces intention to retire at yearend.

1974

Jan. 7 □ Department of Justice Antitrust Division widens attack on newspaper-broadcast crossownership with petitions to deny against

Pulitzer, Newhouse and Cowles broadcast properties. Action follows similar filing in December 1973 against Milwaukee Journal stations. ■ *Merger of Communications Properties Inc. into Viacom called off* because of market conditions.

Jan. 14 □ RCA inaugurates nation's *first domestic satellite communications service*.

Jan. 28 □ FCC approves *prime time access rule modifications* it offered in late 1973.

Feb. 11 □ *Julian Goodman* becomes NBC chairman with *Herbert S. Schlosser* succeeding him as president. *David C. Adams* relinquishes chairmanship to become vice chairman.

Feb. 18 □ FCC Chairman *Dean Burch* appointed counselor to President Nixon with cabinet rank.

Feb. 25 □ Commissioner *Richard E. Wiley* designated as FCC chairman.

March 4 □ FCC turns down National Association of Independent Television Producers and Distributors petition for one-year stay of *modified prime time access rule*.

March 11 □ FCC's entire *system of imposing fees* on those it regulates is set back by Supreme Court ruling that upholds NCTA appeal of commission's per-subscriber charge to cable systems.

March 18 □ President Nixon dominates *Luther Holcomb* of Equal Employment Opportunity Commission to succeed H. Rex Lee on FCC.

March 25 □ Nixon appearance at NAB convention in Houston marked by controversy over President's exchange with CBS's *Dan Rather*.

April 1 □ FCC *suspends annual fees* for broadcast stations and cable systems.

April 8 □ Senate Communications Subcommit-

tee opens *hearings on televised violence* and development of violence profile for gauging offerings of networks.

April 29 □ Democrat *Luther Holcomb* asks White House to withdraw his name as FCC nominee after letters and memoranda are made public casting doubts on genuineness of his party allegiance. ■ Senate Commerce Committee confirms *Quello* appointment to FCC.

May 20 □ Nixon announces he will nominate *Abbott Washburn* and *Glen O. Robinson* to FCC and will name *Robert E. Lee* for fourth seven-year term. ■ Watergate tape points to White House complicity in 1973 challenges to *renewals of Post-Newsweek stations*. ■ FCC approves *Capital Cities purchase from Carter Publications* of WBAP(AM)-KSCS(FM) Fort Worth as part of \$74.5-million deal that includes *Fort Worth Star-Telegram* and two suburban newspapers, and LIN Broadcasting Corp.'s buy of Carter Publications' WBAP-TV Fort Worth for \$35 million.

June 3 □ Start of *Associated Press Radio* in fall announced.

June 24 □ U.S. appeals court orders FCC to *delay changes in prime time access rule* at least until September, forcing networks to make quick adjustment of plans for fall.

July 8 □ NAB TV board ratifies changes in code that put *tighter restrictions on children's advertising* and issues statement taking issue with FTC ban on premium advertising for children.

July 15 □ *Knight Newspapers and Ridder Publications* propose merger of their newspapers and spinoff of broadcast holdings.

July 29 □ Networks face \$1-million daily ad loss as they take on historic *House impeachment coverage*.

Aug. 5 □ NBC-TV to pay record \$10 million for single two-part showing of paramount's *"The Godfather."*

Aug. 12 □ Up to 110 million witnesses *President Nixon's resignation* on TV. ■ *Clay T. Whitehead* resigns as *Office of Telecommunications Policy* and *John Eger* becomes acting head of agency.

Sept. 9 □ Growing role of *news consultants* spotlighted in BROADCASTING special report.

Sept. 23 □ FCC tentatively votes to *strip Alabama Educational Television Commission of nine TV licenses* following charges of racial discrimination in programing and employment practices.

Sept. 30 □ U.S. Court of Appeals *overturns FCC ruling that NBC violated fairness doctrine* in its investigative documentary on pension plans, "Pensions: The Broken Promise."

Oct. 7 □ Appeals court reverses FCC ruling that permitted *sale of WEFM(FM) Chicago* with hearing on proposed purchaser's plan to change format from classical music to rock.

Oct. 14 □ *Roger D. Rice* of Cox Broadcasting Corp. named president and chief executive officer of Television Bureau of Advertising.

Oct. 28 □ *Frederick S. Pierce* named president of ABC Television.

Nov. 4 □ Supreme Court, in affirming FCC grant of channel 9 in Orlando, Fla., indicates that when all other issues in comparative case are equal, *minority presence can afford edge*. ■ *James M. Cox Jr.*, board chairman of Cox Broadcasting Corp. and Cox Enterprises, dies at 71.

Nov. 18 □ *Civil Rights Commission report lists FCC* among five independent agencies that fail to protect civil rights of minority and female workers in industries they regulated. ■ FCC instructs staff to draw up *third version of prime time access rule* which would have PTAR's basic shape and PTAR II's exceptions. ■ U.S. District Court Judge Robert Kelleher in Los Angeles dismisses "without prejudice" Justice Department's *antitrust suit against networks*.

Dec. 9 □ U.S. District Court Judge Gerhard A. Gesell in Washington orders release to broadcasters of *Nixon tapes about Watergate*.

Dec. 16 □ *Justice Department-refiles antitrust suit against networks*, but this time under auspices of Ford administration that has not been charged with efforts to intimidate networks.

1975

Jan. 13 □ Three commercial TV networks say they will, on their own, implement *ban on sex and violence* in prime time, and NAB code board starts study of general option of same rules. ■ Former Senator *Burton K. Wheeler* (D-Mont.), who played key role in early communications legislation, dies at 92. ■ *Milton Cross*, narrator of Metropolitan Opera radio broadcasts for 43 years, dies at 77.

Jan. 20 □ FCC formally adopted third version of *prime time access rule*, to become effective in September 1975.

Feb. 3 □ FCC denies license renewals to all five *Don Burden* radio stations after charges of misconduct in political gifts and news slanting, among other things. ■ FCC orders *ban on*

future acquisitions of co-located crossownership of newspapers and television and radio stations; in addition, commission decrees breakup within five years of 16 small-market newspaper-television and newspaper-radio combinations that were said to constitute media monopolies. ■ Industry standards for children's TV written into FCC renewal forms. ■ Canadian Parliament gets proposal to prevent Canadian advertisers from claiming business expense on money used for advertising on U.S. stations to reach Canadian viewers.

Feb. 10 □ David Foster resigns as National Cable Television Association president.

Feb. 24 □ ABC, after yearlong test at its WLS-TV Chicago, asks FCC for rulemaking to authorize circularly polarized transmissions for TV services.

March 3 □ Major leagues to get \$44,495,000 from sales of baseball broadcast rights in 1975.

March 10 □ U.S. Court of Appeals in Washington affirms FCC's renewal of KHJ-TV Los Angeles, saying in substance that court would not substitute its judgment for FCC's if that agency acts reasonably.

March 24 □ FCC completes work on controversial package of pay cable and over-the-air TV rules that would affect programming siphoning from free television.

March 31 □ FCC says it will conduct inquiry into program warehousing. ■ C.M. Jansky Jr., internationally known consulting radio engineer, dies at 79.

April 7 □ FCC issues notice of inquiry into feasibility of dropping new VHF channels in top-100 markets.

April 14 □ TV board of National Association of Broadcasters adopts family-viewing standards espoused by FCC Chairman Wiley and proposed by NAB TV code review board.

April 21 □ Home Box Office, Time Inc.'s pay-cable subsidiary, announces it will begin satellite network in fall.

April 28 □ U.S. Court of Appeals in New York sends PTAR III (see Jan. 20, 1975) back to FCC for more precise language to eliminate future debate; court questions feasibility of September effective date.

May 12 □ FCC overrides local franchising authority in denying Teleprompter cable certificate in Johnstown, Pa., based on involvement in bribery case there in 1966 ■ FCC opens proceedings to overhaul procedures under which renewal applicants ascertain community needs.

May 19 □ FCC re-releases PTAR III, sticking to September starting date.

May 26 □ Fred Silverman quits as CBS-TV's vice president to become president of ABC Entertainment.

June 2 □ Teleprompter and Home Box Office announce agreement for HBO to supply about 800,000 subscribers nationally with pay-TV service.

June 16 □ NBC to launch its News and Information Service with 33 subscribing radio stations.

June 23 □ Washington attorney Robert L. Schmidt picked for NCTA presidency. ■ Appeals court in New York affirms FCC Sept. 8 starting date for PTAR III.

July 14 □ FCC removes March 31, 1977, deadline for rebuild of cable systems in operation before March 31, 1972, acknowledging economic squeeze of requirement.

July 21 □ FCC releases notice of inquiry and proposed rulemaking to clarify and strengthen equal opportunity guidelines for employment of minorities and women. ■ George Comte of WTMJ-AM-FM-TV Milwaukee outlines blueprint for federation to replace National Association of Broadcasters.

Aug. 4 □ Football broadcast rights for 1975 season level off at \$80 million.

Sept. 8 □ Texas banker Joseph Allbritton reaches agreement with families controlling Washington Star Communications with understanding that he abide by FCC order to dispose of properties as necessary to satisfy commission's crossownership rules.

Sept. 15 □ Group broadcaster Richard Eaton is denied renewal of WOOK(AM) Washington by FCC after allegations of false and misleading advertising, and airing of lottery information in violation of FCC rules and U.S. Code. ■ FCC drafts proposed new law that would be harsher on obscene or indecent programming.

Sept. 22 □ FCC throws out 1973 agreement between KTTV(TV) Los Angeles and National Association for Better Broadcasting, saying station relinquished too much control in agreeing to pact.

Sept. 29 □ FCC reverses long-standing position on equal time and says debates between political candidates and news conferences by President and other candidates for political office qualify for exemptions as "on-the-spot

coverage of news event" Debates, however, must not be under control of broadcaster or candidate. ■ U.S. district court rules CBS has not proved *restraint of trade* by BMI and ASCAP in CBS's try for per-use music license.

Oct. 6 □ Office of Telecommunications Policy says it is drafting legislation that would explicitly authorize FCC to *relax regulation of radio in top 10 markets* for five years. ■ FCC rules WFAB(FM) Miami engaged in fraudulent billings, owner *Richard Eaton* isn't qualified to be licensee, and denies WFAB license renewal. ■ WPGR-TV Detroit, *first black-owned TV station in continental U.S.*, goes on air.

Oct. 20 □ ABC petitions FCC for rulemaking to consider public policy questions in connection with *domestic communications satellite service*.

Oct. 27 □ Alan Torbet Associates and Avco Radio sales merge as *Torbet-Lasker Inc.*, major radio station rep firm.

Nov. 3 □ *Hollywood creative community files suit against FCC*, three networks and NAB for imposing family-viewing on TV.

Nov. 10 □ *Robert Sarnoff* resigns as RCA chairman, effective Dec. 31 *Anthony L. Conrad* takes over. ■ *George B. Storer*, co-founder of Storer Broadcasting Co., nation's first major station group, dies at 75.

Dec. 1 □ *ABC-TV* signs new two-year, \$36-million *football pact* with National Collegiate Athletic Association.

Dec. 8 □ *J. Walter Thompson* is top broadcast agency in 1975 with billings of \$269.5 million.

Dec. 15 □ FCC adopts policy statement that it will approve *station-citizen agreements*, but only if licensee prevails on responsibility. ■ Challenger for *WNAC-TV* Boston claims licensee *RKO General* should be blamed for *alleged*

misconduct of parent General Tire & Rubber Co.

Dec. 22 □ FCC decides to delete its *cable-television leapfrogging rule*.

1976

Jan. 5 □ President Ford signs *Public Broadcasting Act of 1975*, which authorizes payments totalling \$634 million to Corporation for Public Broadcasting over next five years. ■ *"The First Amendment and the Fifth Estate,"* special report examines past, present and future of broadcast journalism. ■ *Andrew D. Ring*, one of best known broadcasting engineers, former FCC assistant chief engineer and later senior partner in consulting engineering firm of A.D. Ring and Associates, Washington, dies at 76.

Jan. 12 □ Ampex Corp. and CBS develop *Electronic Still Store* system, using digital recording technique to store 1,500 frames in random mode, each accessible in 100 milliseconds. ■ *Lawrence K. Grossman* is approved as new president of Public Broadcasting Service, effective Feb. 1. He succeeds *Hartford N. Gunn Jr.*, who becomes PBS vice chairman. ■ FCC rules legally qualified candidates for presidential nomination are entitled to *lowest unit charge* during 45 days preceding any primary election.

Jan. 19 □ Corporation for Public Broadcasting asks FCC to establish new class of *low-powered VHF TV stations* to provide more non-commercial service and encourage minority involvement. ■ U.S. Court of Appeals in Washington overrules FCC decision that *WMCA(AM)* New York violated *personal attack rule* in broadcast in which Representative Benjamin S. Rosenthal (D-N.Y.) was called "coward."

Jan. 26 □ U.S. Court of Appeals in Washington upholds FCC's practice of continuing in effect *license of station in renewal hearing* until that hearing is concluded in appeal by Committee for Open Media involving Chronicle Publishing Co.'s *KRON-TV* San Francisco. ■ FCC formally approves sale of Washington Star Communications to Texas banker *Joe L. Allbritton*. ■ U.S. Court of Appeals in Washington denies *Don Burden's* request for remand or rehearing of case in which court upheld FCC order denying him renewal of all five of his broadcast licenses.

Feb. 2 □ House Communications Subcommittee staff releases report on *cable television*, charging FCC with following "protectionist policy" favoring broadcasters and recommending legislation that would regulate cable in its own right, not as ancillary to development of over-the-air television. ■ *Supreme Court strikes down statutory ceilings on political campaign spending* as violation of First Amendment guarantee of freedom of speech.

Feb. 9 □ League of Women Voters announces it will sponsor *series of five candidate debates*; invites radio and television to cover.

Feb. 16 □ Public Broadcasting Service member stations approve \$38.4-million plan to *interconnect stations by satellite*. ■ FCC authority to regulate *leased, two-way cable TV channels* is found to be excessive, rules U.S. Court of Appeals in Washington. It finds commission preempted authority from state and local authorities.

Feb. 23 □ *FCC Commissioner Glen O. Robinson*, whose term ends June 30, has decided to accept professorship at University of Virginia

law school. ■ FCC starts inquiry re-examining its rules regulating radio networks.

March 8 □ FCC upholds complaint by President Ford's re-election campaign agency against policy of *WGN-AM-TV* Chicago of *refusing to sell time in less than five-minute periods*.

March 29 □ *Calvin J. Collier* sworn in as chairman of Federal Trade Commission.

April 5 □ FCC relaxes restrictions on *cable TV system rebuild requirements*.

April 12 □ *Representative Torbert Macdonald* announces his resignation as chairman of House Communications Subcommittee effective April 26. *Lionel Van Deerlin* (D-Calif.) picked to succeed him. ■ *Trial on legality of family viewing policy*, brought by coalition of Hollywood writers and producers against FCC, NAB and networks, gets under way in Los Angeles. ■ *Thomas E. Wheeler*, vice president for public affairs, Grocery Manufacturers of America, named National Cable Television Association executive vice president/director of government relations.

April 19 □ *Robert Wussler* named president of CBS-TV, replacing *Robert D. Wood*, who resigns to form own production company. Wussler appoints *Robert A. Daly* to executive vice president post. ■ U.S. Court of Appeals in Washington upholds FCC equal time position of giving broadcasters broad discretion in dealing with debates and news conferences involving political candidates.

April 26 □ NBC's *Barbara Walters* accepts ABC offer of \$1 million per year for five years to be co-anchor of *ABC Evening News* with Harry Reasoner. ■ *Avery-Knodel Inc.*, New York, national sales rep, leaves radio to concentrate on TV, merging some of its represented radio stations with Buckley Radio Sales and others with Pro/Meeker Time Sales and changing own name to *Avery-Knodel Television*. ■ CBS-TV names *B. Donald (Bud) Grant* vice president in charge of programming replacing *Lee Currin*.

May 3 □ NBC-TV names president of CBS Records, *Irwin Segelstein*, to post of executive vice president, programs, replacing *Mike Weinblatt*, who becomes executive vice president in charge of sales, advertising and promotion.

May 10 □ *Keith Fuller*, named to succeed *Wes Gallagher* in October as president and general manager of Associated Press. AP also votes to admit *three broadcasting representatives* to its corporate board.

May 17 □ Securities and Exchange Commission files complaint in U.S. district court in Washington charging parent of *RKO General Inc.*, *General Tire & Rubber Co.*, with long list of violations of federal securities laws, including illegal and improper payments, contributions to officials of foreign countries, falsification of corporate books and maintenance of slush funds.

May 24 □ ABC-TV's *"Eleanor and Franklin"* wins 11 Emmy awards, record for one show.

May 31 □ *First Amendment protection of advertising* is extended with Supreme Court ruling in Virginia case involving ads for prescription drug prices. ■ FCC commissioner *Charlotte Reid* marries and announces she will resign from commission on July 1, two years before end of her term. ■ Representative *Torbert Macdonald* (D-Mass.), former chairman of House Communications Subcommittee, dies at 58. ■ Supreme Court denies review of FCC decision stripping *Don Burden* of his five AM and FM licenses.

Sept. 26 □ *ABC and NABET* agree to terms ending four-month strike.

Oct. 3 □ House committee recommends its chambers be *open to radio and TV coverage*. ■ President sends *public broadcasting legislation* to Capitol Hill to try and ease friction between its factions.

Oct. 10 □ Former FCC General Counsel, Henry Geller, is picked to head new executive branch telecommunications unit, National Telecommunications and Information Administration, formerly Office of Telecommunications Policy under commerce department. ■ Florida youth *Ronnie Zamora's* plea of 'TV intoxication' as defense in murder of elderly woman is rejected by jury in trial that is televised in Miami.

Oct. 17 □ Fledgling pay cable operation *Home Box Office* shows its first quarterly profit in its five-year history, as RCA shows its best quarter in 58 years.

Oct. 24 □ CBS reorganization finds *Gene F. Jankowski* as new president of CBS/Broadcast Group; *James H. Rosenfield*, new president of CBS Television Network; *Robert A. Daly*, new president of CBS Entertainment, and *Robert J. Wussler*, new president of CBS Sports.

Oct. 31 □ *House of Representatives* votes to allow broadcast coverage of its proceedings, with details to be worked out later. ■ *Viacom's Showtime* becomes second pay cable programmer service, following Time's Home Box Office.

Nov. 14 □ FTC Chairman Michael Pertschuk raises possibility of imposing *ban on TV advertising aimed at children*. ■ In CBS-Herbert case, U.S. circuit court rules *journalists cannot be forced to open their thought processes* even when being sued for libel.

Nov. 28 □ *Roscoe Barrow*, author of report for FCC in 1950's on networks, (report that bears his name) dies in Berkeley, Calif., at age 65. ■ Mutual Broadcasting decides to build *satellite interconnection system* for its 780-affiliate network.

Dec. 5 □ District judge signs order *freeing NBC from justice department's antitrust suit*; CBS and ABC still refuse to settle. ■ *Eric Sevareid* signs off after 38 years with CBS News. ■ Warner inaugurates two-way interactive *Qube system* in Columbus, Ohio.

Dec. 12 □ CBS technology innovator, *Peter Goldmark*, connected with long-playing record and first color TV system, dies in car accident in Rye, N.Y.

Dec. 19 □ CPB president Henry Loomis announces plans to retire in September of 1978.

1978

Jan. 2 □ *Sterling Drug Co.*, manufacturer of Bayer aspirin, agrees to stop running commercial that Food and Drug Administration said distorted FDA report on safety of pain-killing

drugs. ■ *Johnny Carson*, host of NBC-TV's *Tonight Show*, signs new contract for annual salary between \$2.5 million and \$3 million.

Jan. 16 □ *Supreme Court* agrees to review "seven dirty words" case involving Pacifica Foundation's noncommercial WBAI(FM) New York.

Jan. 23 □ *Fred Silverman*, president of ABC Entertainment, named president and chief executive officer of NBC, replacing *Herbert S. Schlosser*. ■ *Glen O. Robinson*, professor of law at University of Virginia, Charlottesville, and former FCC commissioner, named chairman of U.S. delegation to 1979 World Administrative Radio Conference. ■ *Ciarence C. Dill*, 93, former Democratic senator from Washington who helped draft Communications Act of 1934, dies.

Jan. 30 □ President Carter allocates \$11 million in his fiscal 1979 budget for *National Telecommunications and Information Administration*, which is being formed in Department of Commerce.

Feb. 6 □ *Anthony D. Thomopoulos*, chief assistant to ABC Entertainment President Fred Silverman, named to succeed Silverman. ■ President Carter proposes broad, "multifaceted" national program to *increase number of minority owners* in broadcasting and cable and to enhance financial conditions of those already established in communications.

Feb. 13 □ For first time, *Senate debate is carried live on radio*. CBS, NBC and National Public Radio broadcast opening of debate on ratification of Panama Canal treaties. CBS and NBC return to regular programming after few minutes; NPR broadcasts throughout first three days. ■ *ABC* celebrates 25th anniversary. ■ Senate and House pass *cable pole attachment legislation*, with provision for creating cable forfeitures, and sends bill to President for signing.

March 6 □ House Communications Subcommittee votes to begin *rewrite of Communications Act* of 1934 setting June 1 as deadline for drafting of bill. ■ Federal Trade Commission adopts staff report recommending FTC make broad changes in way *products are advertised to children*, and votes to institute rulemaking inquiry that could eventually lead to *elimination of commercials* from children's television programs.

March 13 □ In unprecedented move, FCC designates for hearing *renewal application of WQAL(FM) Cleveland* on programming grounds alone. ■ *Chris-Craft Industries*, diversified company active in TV station ownership, purchases \$9.4 million worth of 20th Century-Fox Film Corp. stock, amounting to about 5% of Fox's stock.

March 20 □ Group W announces plans to make its *Evening Magazine, prime-time access program* shown on its owned stations, available to other stations. It will be titled *PM Magazine*.

March 27 □ What was to be *largest station sales in television history*—that of WJLA-TV Washington to Combined Communications Corp. for \$100 million—is called off. ■ *U.S. Supreme Court* agrees to review *libel case* filed by former Army officer against CBS's "60 Minutes." U.S. Court of Appeals has held that First Amendment protects journalists from probing of their thought processes.

April 3 □ *National Telecommunications and Information Administration* signed into existence by President Carter, as successor to

White House Office of Telecommunications Policy and Department of Commerce's Office of Telecommunications. ■ *Voice of America* begins operating as part of new International Communications Agency.

April 10 □ CBS/Broadcast Group president, *Gene Jankowski*, goes on air to apologize to public for promoting four tennis matches as "winner take all" when in fact they were not. Action is in response to FCC's demand that CBS do something to inform public of "deceptive practices." ■ *John E. Reinhardt*, former director of United States Information Agency, is sworn in as director of new International Communications Agency. ■ Supreme Court lets stand U.S. Court of Appeals decision that FTC has authority to order *corrective advertising*.

April 24 □ *Supreme Court reverses U.S. Court of Appeals decision* that would have required district court in which Watergate cover-up trial of top Nixon aides was held in 1974 to make tapes available to public for copying.

May 1 □ *Time Inc.* agrees to acquire balance of American Television & Communications Corp., Denver-based cable company, in merger valued at between \$135 million and \$150 million.

May 15 □ FCC approved \$69 million *sale of Rust Craft Greeting Cards Co. to Ziff-Davis Publishing Co.*, including spin-off of six AM's and five FM's to Rust Craft shareholders. ■ Commission also approves settlement in 13-year old *Communications Satellite Corp. rate case*, providing for refund to Comsat customers of about \$100 million and agreement by company to lower its charges by 48%.

May 22 □ FCC votes to establish policy aimed at *promoting minority ownership of broadcast stations*. ■ Supreme Court refuses to review New Mexico ruling directing reporters for Hubbard Broadcasting's KOB(AM) Albuquerque, N.M., to disclose confidential sources.

June 5 □ Supreme Court in "*Stanford Daily*" case, upholds right of police with warrant to search newsrooms. ■ Four-year-old FCC decision that *product commercials* should be beyond reach of fairness doctrine is upheld by Supreme Court.

June 12 □ Proposed legislation that would *rewrite Communications Act of 1934* is unveiled by House Communications Subcommittee Chairman Lionel Van Deerlin (D-Calif.).

June 19 □ *Supreme Court affirms FCC media crossownership rules*, ruling out future instances of co-located newspaper-broadcast common ownership but upholding all but 13 present combinations. ■ *House of Representatives* votes not to allow anyone but House

employees to *control cameras* that may begin daily television coverage of House sessions in early 1979. ■ *Viacom International and Sonderling Broadcasting Corp.* sign agreement to merge in deal valued at up to \$28 million. ■ For first time, *radio covers floor debates* of House of Representatives, but broadcasters still have no control over feed.

June 26 □ *Harte-Hanks Communications' purchase of Southern Broadcasting Co.*, Winston-Salem, N.C., is approved by FCC. ■ Commission also adopts rules *prohibiting ex parte contacts* in cable proceedings.

July 3 □ *Henry Geller*, one-time FCC general counsel, confirmed by Senate to head new National Telecommunications and Information Administration.

July 10 □ *Supreme Court upholds FCC in "seven dirty words" case* involving Pacifica Foundation's WBAI(FM) New York. Ruling says FCC may regulate, and punish, broadcast of "indecent" material.

July 17 □ *William A. Leonard*, CBS Inc. Washington vice president, named to succeed *Richard S. Salant* as president of CBS News when Salant retires next April.

July 31 □ *Pacifica Foundation* petitions Supreme Court for rehearing in "seven dirty words" case.

Aug. 7 □ "*New York Times*" reporter *Myron Farber* begins serving indeterminate sentence in Bergen county, N.J., jail after Supreme Court denied further delay in punishment imposed by New Jersey court for withholding files from murder trial.

Aug. 14 □ National Association of Broadcasters holds *first annual radio programming conference*. ■ FCC begins inquiry into future role of *low-power television*.

Aug. 28 □ *Daniel L. Ritchie*, president of Westinghouse Broadcasting Co.'s corporate staff and strategic planning, named president and chief operating officer.

Sept. 4 □ *KSTP-TV* Minneapolis-St. Paul signs with ABC-TV, after 30-year affiliation with NBC-TV. ■ *Myron Farber, New York Times reporter, is released from New Jersey jail* after Supreme Court stayed his sentence pending lower court ruling that he must surrender notes dealing with murder case.

Sept. 18 □ *Robben Fleming*, president of University of Michigan, named president of Corporation for Public Broadcasting. ■ *Jane Cahill Pfeiffer*, former IBM executive who declined President Jimmy Carter's offer to become secretary of commerce, designated to become chairman of NBC and its representative on

board of parent RCA Corp. ■ *Viacom International* signs to make *Teleprompter Corp.*, nation's largest cable system operator, equal partner in *Showtime*, currently wholly-owned pay programming subsidiary.

Sept. 25 □ "*New York Times*" reporter *Myron Farber sent back to jail* for refusing to turn over notes to court in New Jersey murder trial. ■ FCC begins *rulemaking on AM stereo* and will include all five proposed systems.

Oct. 2 □ U.S. Court of Appeals in Washington rules in *WESH-TV* case. Court criticizes FCC for giving incumbents preference in comparative renewal proceedings simply because of their incumbency, and orders commission to hold further proceedings on renewal of license of WESH-TV Daytona Beach, Fla. ■ *FCC eliminates certificates of compliance* for cable systems.

Oct. 9 □ Tentative agreement for *General Electric Co. to acquire Cox Broadcasting Co.* for \$440 million to \$448 million in GE stock, biggest transaction in broadcasting history, is signed. ■ White House selects *Anne Jones*, general counsel of Federal Home Loan Bank Board, to succeed *Margita White* as FCC commissioner.

Oct. 16 □ U.S. Court of Appeals affirms FCC decision not to adopt *quantitative program standards*, specifically program percentages, for television broadcasters involved in comparative renewal proceedings. ■ Supreme Court agrees to review "*per-use*" *music-license suit* that CBS won against American Society of Composers, Authors and Publishers and Broadcast Music Inc.

Oct. 23 □ FCC reopens and broadens inquiry initiated in 1977 aimed at determining *whether television networks unduly dominate broadcasting*.

Oct. 30 □ FCC moves to enhance competitive environment of satellite-distributed TV superstations by endorsing "*open entry*" policy for resale carriers that feed local stations to cable systems. ■ U.S. Court of Appeals reverses FCC in fairness doctrine case involving *California stations and Pacific Gas & Electric Co. nuclear power spots*.

Nov. 6 □ Federal Trade Commission Chairman *Michael Pertschuk* is disqualified by U.S. district judge from further participating in children's advertising proceeding, saying chairman has "conclusively prejudged" factual issues.

Nov. 13 □ FCC approves \$140 million *merger of American Television & Communications Corp. into Time Television & Communications Inc.*, wholly owned subsidiary of Time Inc.

Nov. 20 □ Federal Trade Commission decides to *continue its children's advertising inquiry* despite disqualification of FTC Chairman Michael Pertschuk from proceedings.

Dec. 4 □ Supreme Court refuses to review *Myron Farber case*. ■ *Newhouse Broadcasting Corp.* agrees to sell its five television stations to Times Mirror for \$82 million.

Dec. 11 □ FCC completes report providing for *increase in AM band* and for UHF spectrum sharing that will provide basis for U.S. position at World Administrative Radio Conference in Geneva following September.

1979

Jan. 1 □ FCC adopts rulemaking that would *cut down service areas of clear channels* and provide space for more AM stations. ■ Mutual

Summer was hot, but Metro Weather was hotter!

AND STAYS AHEAD OF THE COMPETITION!!!**

Broadcasting System radio president, *C. Edward Little*, resigns. ■ *Ralph Baruch* named chairman and chief executive officer of Viacom International.

Jan. 15 □ National Telecommunications and Information Administration backs *reduction of AM channel spacing* from 10 khz to 9 in comments to FCC. ■ NTIA also submits endorsement to use *low-power TV stations* and translators to broadcast to unserved areas.

Jan. 22 □ *ABC reduces commercial time* on Saturday children's shows from eight-and-a-half minutes to six-and-a-half minutes over two years. ■ Federal Trade Commission begins *children's advertising hearings*.

Feb. 5 □ Second report by *Carnegie Commission on Future of Public Broadcasting* is released, detailing trust to be set up with subsidization from license fees.

Feb. 12 □ *Commerce department report* for industry outlook gives broadcasting and cable high marks. ■ Ampex demonstrates *digital videotape recorder* at Society of Motion Picture and Television Engineers conference in San Francisco, first such demonstration in U.S.

Feb. 19 □ NTIA files *retransmission consent* proposal with FCC. ■ *Rust Craft and Ziff Corp.* \$89.4-million merger is approved by Rust Craft stockholders.

Feb. 26 □ Revelations surface as to extent of war President Nixon waged against broadcasting especially public TV, as *Nixon era documents* are released. ■ *House* begins *internal television system*. ■ *Cox and General Electric* sign definitive merger agreement.

March 5 □ FTC begins second round of *children's TV ad hearings*. ■ *Margita White* leaves FCC.

March 12 □ NBC executive *Julian Goodman* takes early retirement from network.

March 19 □ Two *Senate bills* (S. 611 and S. 622) beat any House version of rewrite of Communications Act in introduction into Congress.

March 26 □ NAB announces \$8.5-million contributions for *Minority Broadcast Investment Fund*. ■ ABC, NBC and PBS are on hand as government announces *closed captioning* of TV programs for hearing impaired.

April 2 □ *Second rewrite*, H.R. 3333, is introduced in House with deregulation and license fee tradeoff. ■ Retiring CBS News President *Richard Salant* announces move to oversee NBC News operation. ■ *Sony* joins Ampex and Great Britain's Independent Broadcasting Authority in unveiling digital videotape recording system.

April 9 □ Westinghouse's *Daniel Ritchie*, president and chief operating officer, takes on additional title of chief executive officer. ■ U.S. Supreme Court rules FCC cannot mandate cable system to make available *access channels*. ■ Bill is introduced in Congress to *protect press from newsroom searches*. ■ AP announces plans for *satellite-delivered news* to its 660 stations.

April 23 □ In precedent setting case, U.S. Supreme Court reversed lower court ruling in *CBS-Herbert case* and says newsmen must answer questions of plaintiff in libel suit regarding journalists "state of mind" at time material was being prepared. ■ Spinoffs from *Cox-GE merger* seen to total \$121 million from 11 stations. ■ *Howard K. Smith*, ABC newsmen and commentator for 18 years, resigns. ■ ABC News correspondent *Tim O'Brien's scoops* on several U.S. Supreme Court items, in-

cluding *Herbert case*, causes controversy.

April 30 □ FCC initiates rulemaking that would eliminate rule that *limits number of distant signals* cable systems may import and rule protecting against duplication of syndicated programming.

May 7 □ ABC's *Fred Pierce* becomes executive vice president of ABC Inc., paving way towards company's presidency.

May 14 □ FCC begins looking at sweeping *radio deregulation* provisions.

May 21 □ Hearings on *rewrite II* begin in House before communications subcommittee. ■ *Westinghouse buys WRET-TV Charlotte, N.C.*, from *Turner Broadcasting* for \$20 million, highest price for UHF at that time. ■ U.S. Court of Appeals in Washington Judge *David Bazelon*, prime shaper of communications law, announces retirement after 30 years on court.

May 28 □ National Cable Television Association President *Robert L. Schmidt* announces resignation. ■ Ted Turner announces satellite-delivered 24-hour cable news service, *Cable News Network*.

June 4 □ Bosch-Fernseh introduces *digital videotape recorder* at international television engineering exhibition in Montreux.

June 11 □ FCC gives go ahead to \$370 million *Combined Communications-Gannett* merger. Spinoff from merger, *WNEC-TV Rochester, N.Y.*, to *BENI*, makes it first *black-owned major market, network affiliated station*. ■ *Out-of-court settlement reached in suit against WPXI Inc.* which retains channel 11 in New York.

June 18 □ *Justice department attacks commercial time standards* of NAB's television code, saying it violates Sherman Antitrust Act.

June 25 □ FCC issues notice of inquiry on 9 khz channel spacing. ■ ABC newsmen *Bill Stewart* is killed by Nicaraguan National Guardsmen in Managua. ■ *Kaiser Aluminum* allies itself with Mobil Oil in decrying TV network ban on issue advertising.

July 2 □ *Tom Bolger* takes over as NAB joint board chairman from *Donald Thurston*. ■ *Public Broadcasting Service* approves major reorganization plan. ■ *Young & Rubicam* agrees to buy *Marsteller Inc.*, New York and Chicago, for \$306 million.

July 9 □ McClatchy Newspapers agrees to sell *KOVX-TV* Sacramento, Calif., to *Outlet Co.* for \$65 million, largest station sale to date. ■ U.S. Court of Appeals reverses FCC policy, leaving *radio format questions* to licensee and marketplace. ■ *Willard Block* rejoins Viacom as its president.

July 16 □ *Lionel Van Deerlin* abandons efforts on H.R. 3333, Communications Act *rewrite* to concentrate on common carrier provisions, of present legislation. ■ *Thomas Wheeler*, NCTA executive vice president, elected to president by NCTA board.

July 30 □ Westinghouse Broadcasting announces plans to *distribute programs to its stations via satellite*.

Aug. 6 □ Communications Satellite Corp. unveils plans for *direct-to-home subscription television*.

Aug. 13 □ FCC considers using *lottery system* in comparative renewal cases. ■ "*Three's Company*" sets *record price* for syndicated product, \$30 million to Multimedia, Gannett and *kurv(tv)* Salt Lake City.

Aug. 20 □ *RCA and CIT Financial Corp.* agree

Flip Over Us!

Orlando Flipped Over Us... and We've Flipped Over Broadcasting!

WOFL congratulates Broadcasting on its 50th anniversary... as we congratulate ourselves on our own 2nd anniversary.

For 50 years Broadcasting magazine has been the journalistic standard of the broadcast industry. In just 2 years TV55 has already become a surprisingly strong force in the Orlando area. And we've surprised our competition more than anyone else!

We wish Broadcasting many more happy birthdays for ourselves, well, if our ratings keep going up... Florida will be turned upside down.

to merge in deal valued at \$1.35 billion.

Aug. 27 □ *RKO Radio Network* makes plans to share time on AP's proposed satellite distribution system.

Sept. 3 □ *William J. Small* moves from CBS Inc. Washington vice president position to presidency of NBC News. ■ *Entertainment and Sports Programming Network* goes on 625 cable systems.

Sept. 10 □ FCC adopts rulemaking and notice of inquiry into substantial *radio deregulation* by instituting marketplace forces for government guidelines.

Sept. 17 □ *American Express* acquires 50% interest in Warner Cable Communications.

Oct. 1 □ FCC changes *rules on subscription television* to allow more than one per market among other rules. ■ ABC wins rights to *1984 summer Olympics* for \$225 million.

Oct. 8 □ *R. Peter Straus* resigns as head of Voice of America. ■ Federal judge in Los Angeles rules *home taping of television programs is legal*.

Oct. 15 □ FCC *deregulates earth stations* by approving voluntary licensing of receive-only dishes. ■ First tidbits from *FCC's network inquiry* say networks are so firmly entrenched breakup is impossible and it encourages development of new programming sources.

Oct. 29 □ Federal Trade Commission orders American Medical Association to *allow physicians to advertise*. ■ *Carter-Mondale Committee* complains to FCC that three networks refused to sell it half hour of broadcast time.

Nov. 5 □ FCC releases *staff report on children's television* inquiry that says TV is not in compliance. ■ Major reorganization at *Storer Broadcasting* finds Peter Storer becoming chief executive officer. *Terry H. Lee* becoming president and chief operating officer. ■ Controversial radio priest of the 1930's *Rev. Charles E. Coughlin* dies in suburban Detroit home at age 88. ■ Presidential commission on news coverage of *Three Mile Island* accident finds media did best it could, but were ill-equipped to handle technical complexities.

Nov. 12 □ FCC approves *Viacom-Sonderling merger*.

Nov. 19 □ Decision that rules *family-viewing* concept unconstitutional is thrown out by circuit appeals court in San Francisco. ■ *Maurice R. Valente* of ITT, named president, chief operating officer and director of RCA. ■ *Television Bureau of Advertising* celebrates 25th year anniversary.

Nov. 26 □ FCC orders three networks to make time available to *Carter-Mondale campaign committee* in accordance with reasonable access provisions of Communications Act. ■ FCC orders *WNET(TV) Newark, N.J.*, to establish full presence in New Jersey. ■ New York Court of Appeals issues decision that narrows limits on excluding press and public from pretrial hearings. ■ Senate Commerce Committee approves legislation that would *curtail authority of FTC*. ■ *Martin Rubenstein* named network president at Mutual Broadcasting.

Dec. 3 □ House approves legislation that would *restrict FTC*.

Dec. 10 □ *RCA* unveils its *SelectaVision videodisk* player. ■ *World Administrative Radio Conference* ends in Geneva with prognosis that six-week event was qualified success.

Dec. 17 □ FCC staff recommends reduced *AM channel spacing* from 10 khz to 9. ■ *RCA's Satcom III* satellite is lost in space.

Dec. 24 □ FCC initiates ruling that would establish *reimbursements for public participants* in commission proceedings. ■ Commission also issues formal rulemaking on *children's television*, and recommends state department take 9 khz channel spacing stance to Region 2 Administrative Radio Conference in Buenos Aires in March.

1980

Jan. 7 □ Warner Communications Inc. and American Express Co. close deal forming joint cable venture, *Warner Amex Communications*, in which latter paid \$175 million for 50% interest in Warner Cable subsidiary of WCI.

Jan. 14 □ CBS and RCA reached agreement whereby CBS becomes licensed to *manufacture and distribute videodisks* using RCA SelectaVision system.

Jan. 21 □ Revolutionary governments in Iran and Afghanistan *expel all U.S. journalists*. ■ *Station trading* broke billion-dollar mark in 1979 (\$1,116,658,000), record high, given afterburner boost by \$370 million Gannett Co.-Combined Communications Corp. merger.

Jan. 28 □ *FCC lifts three RKO television licenses* due to misconduct of parent, General Tire & Rubber Co., by vote of 4-to-3. ■ Sony announces marketing of world's first *charged-*

coupled device color video camera, replacing conventional vacuum tube. ■ 1980 *Summer Olympic* games, for which NBC hold rights, go down tube after U.S. boycotts over Soviet invasion of Afghanistan.

Feb. 4 □ \$1.35 billion *RCA-CIT merger* is consummated.

Feb. 11 □ *Walter Cronkite* announces intention to step down as anchor of "CBS Evening News" in 1981. ■ Senate pulls plug on *FTC's children's advertising proceeding*.

Feb. 18 □ *Dan Rather* is named as successor to *Walter Cronkite* upon latter's retirement as anchor of *CBS Evening news* in 1981.

Feb. 25 □ ABC announces that *late night newscast* (later to be named *Nightline*, hosted by Ted Koppel), starting at 11:30 p.m., will become permanent fixture in network schedule.

March 17 □ FCC approves *\$65 million acquisition of KOVR(TV) Stockton, Calif.*, from McClatchy Newspapers to Outlet Co., record price for single TV station. ■ ABC commences broadcasting of *closed captioning* material as part of joint project with NBC and PBS.

March 24 □ Region 2 countries *vote against adoption of 9 khz AM spacing* proposed by U.S. at first session of Region 2 spectrum planning conference in Buenos Aires. ■ *New York Times* announces *agreement that led to purchase of cable systems* serving 55 franchised areas in southern New Jersey owned principally by Irving Kahn for approximately \$100 million.

April 7 □ FCC sets ceiling for *distress sale stations* at 75% of fair market value. FCC approves sale by *Newhouse Broadcasting Co.* to Times Mirror Co. of five Newhouse television properties for \$82 million.

April 14 □ FCC selects, by vote of 4-to-2, *Magnavox system to be standard for AM stereo*. ■ UA-Columbia Cablevision and Madison Square Garden Corp. enter into joint venture to form *The USA Network*.

April 21 □ Court of Appeals in Richmond, Va., affirms FCC order freeing cable television systems from obligation to black out "*significantly viewed*" *distant signals* that duplicate local ones.

April 28 □ *Getty Oil*, along with Columbia Pictures, MCA Inc., Paramount Pictures Corp., and 20th Century-Fox jolt pay-cable world with announcement of satellite program venture, to be named, *Premiere*.

May 5 □ CBS settles with Justice Department's antitrust division, agreeing to *limits on program production*. ■ Philadelphia appeals court rules that *state shield law protected broadcast station* (WTAE-TV Pittsburgh) against plaintiff's demand that it surrender outtakes.

May 26 □ *Thomas Wyman*, vice chairman of Pillsbury Co., is tapped to replace John D. Backe as president and chief executive of CBS Inc.

June 2 □ FCC breaks up *clear channel stations*. ■ *\$560 million Cox-GE merger collapses* as Cox bows out at last minute after FCC approves deal. ■ *Ted Turner's Cable News Network* commences operations.

June 9 □ *Orion Broadcasting Inc. and Cosmos Broadcasting* initiate deal which leads to eventual \$110 million merger. ■ U.S. Court of Appeals denies reasonable access complaint lodged against networks by *Senator Edward Kennedy* concerning network's refusal to grant him air time to respond to President Carter. ■ *Burt Harris* named chairman of *Premiere*. ■ *Comsat sets up DBS subsidiary*, Satellite Television Corp. ■ CBS and MGM announce creation

WAVZ/WKCI-FM

NEW HAVEN, CONNECTICUT

of joint venture to market videodisks and videocassettes. ■ **Arthur C. Nielsen**, 83, founder of A.C. Nielsen Co., pioneer marketing and audience research firm, dies.

June 16 □ WPix(TV) New York launches *Independent Network News*.

June 30 □ FCC announces decision to re-evaluate April order setting Magnavox system as standard for AM stereo.

July 7 □ Supreme Court, in case brought by "Richmond News Leader" and "Times Dispatch," holds that press and public alike have *First Amendment right to attend criminal trials*. Only one justice dissented. ■ Having failed to win top job at CBS News—evening anchor spot being vacated by Walter Cronkite—veteran newscaster **Roger Mudd** jumps to *NBC News*.

July 14 □ NBC President Fred Silverman fires NBC chairman **Jane Cahill Pfeiffer** after public display of corporate in-fighting.

July 21 □ *Subscription Television Association* makes its debut at Washington press conference.

July 28 □ *FCC repeals cable distant signal importation and syndicated exclusivity rules*, causing immediate outcry from broadcasters. ■ *Capital Cities Communications* plunges into cable, buying RKO General's Cablecom General for \$139 million. ■ Members of *Screen Actors Guild* and *American Federation of Television and Radio Artists* go on strike, shutting down most television production.

Aug. 4 □ After having second thoughts on its April decision to make Magnavox AM stereo system industry standard, FCC issues *further notice to re-examine five proposed systems*. ■ *CBS breaks ranks* with industry group seeking consensus on *teletext standard* and asks FCC to adopt French Antiope system as industry standard.

Aug. 11 □ Department of Justice files *civil antitrust suit in New York against Premiere*, incipient pay cable programer.

Aug. 25 □ After eight years of litigation, Department of Justice *drops antitrust suit against ABC* as network agrees to consent decree limiting amount of prime time programming it can produce over next 10 years.

Sept. 1 □ Problems with *equal time provisions* of Communications Act cause problems in set up of debate between Presidential candidates. ■ Controversial magazine, *The Dial*, published by public television stations makes its debut.

Sept. 15 □ FCC proposes creation of new medium: loosely regulated *low-power television*. At same time, it sanctions *four new VHF allocations* in Salt Lake City; Knoxville, Tenn.; Charleston, W. Va., and Johnstown, Pa.

Sept. 22 □ Believing strongly that more is better, FCC proposes creating as many as *139 more short-spaced VHF channels*. ■ FCC releases further notice on AM stereo which shows Motorola system in lead.

Sept. 29 □ PBS President Lawrence Grossman propose a new *partnership* between *public stations* and *private investments* from nonprofit cultural sources to increase dramatic programming.

Oct. 6 □ FCC releases notice of inquiry into *direct broadcast satellite* proposals and sets *RKO's stations* for renewal hearings. ■ Joint venture between media entrepreneur **Karl Eller** and *Charter Oil* dissolves. ■ CBS in Los Angeles unveils new *electronic cinematography system*, seen as solving many tape-editing problems.

Oct. 13 □ CBS suggests U.S. develop *high-resolution television system* compatible with present technology. ■ *Actors strike* is settled; network starts are staggered for fall. ■ BROADCASTING begins 50th year, taking chronological look at industry since magazine's 1931 inception.

Oct. 20 □ *Westinghouse and Teleprompter* propose \$646 million merger. ■ U.S. Supreme Court allows networks to air *Abscam tapes*. ■ President Carter signs bill against *newsroom searches*.

Oct. 27 □ Television is medium in middle as Presidential campaign winds down with broadcast *debate in Cleveland*. ■ *Cable News Network* adds independent candidate John Anderson to its debate-night coverage. ■ FCC releases *network inquiry report* that argues open marketplace is best regulator.

Nov. 3 □ *Warner Amex* garners one of year's biggest cable television franchises, 400,000 homes of Dallas. ■ ABC agrees to run unedited response to earlier "20/20" report on *Kaiser Aluminum*. ■ FCC lifts barrier on *AT&T* from providing data communications. ■ First locally-produced *all news television station* goes on air in Oklahoma City. ■ Ampex founder **Alexander Poniatoff** dies in Stanford, Calif., at 88.

Nov. 10 □ Sweeping election of **Ronald Reagan** signals changes in Washington's communications governing structure. ■ **Lionel Van Deerlin** is one of election's casualties as *Representative Timothy Wirth* (D-Colo.) and *Senator Robert Packwood* (R-Ore.) stand to hold key Hill positions in telecommunications world.

Nov. 17 □ CBS goes live with its *Los Angeles teletext experiment*. ■ NAB announces insurance plan to help members deal with *libel cases*.

Nov. 24 □ U.S. Court of Appeals stays FCC order *lifting distant signal and syndicated exclusivity rules*. ■ **Robert A. Daly**, CBS Entertainment president, resigns to head Warner Brothers. ■ Antitrust suit against *Premiere*, pay cable network, begins in New York.

Dec. 1 □ "Who Shot J.R." episode of "Dallas" becomes highest rating for any program in modern TV history with 53.3 rating and 76 share.

Dec. 6 □ ABC announces association with Warner Amex Satellite Entertainment Corp. for *new cable network, Alpha*, set to begin operation April 1981. ■ FCC authorizes construction and launch of additional *20 domestic satellites*.

Dec. 15 □ Former CBS President **Arthur Taylor** forms high quality, pay cable venture with Rockefeller Center that signs contract for BBC programming.

Dec. 22 □ Comsat unveils its \$700 million *direct-to-home broadcast satellite television system*. ■ Gannett announces plans for *national daily newspaper* and cable programming.

1981

Jan. 5 □ New York District Court grants Justice Department's request for preliminary injunction *barring launch of Premiere's* satellite-distributed premium movie channel to cable systems. ■ Court of Appeals rules that *scrambled pay television signals are protected* by Section 605 of Communications Act. ■ **Robert E. Kintner**, 71, former president of both ABC and NBC, dies. ■ **Marshall McLuhan**, writer, educator and communications theorist, dies at 69.

Jan. 12 □ FCC Commissioner **Tyrone Brown** resigns, effective Jan. 31. ■ Department of Justice opposes *CBS's request for waiver of FCC rule barring networks from ownership of cable systems*. ■ Senator Howard Baker (R-Tenn.) launches his term as majority leader by introducing S. Res. 20, resolution to *open Senate proceedings to broadcast coverage*.

Jan. 19 □ FCC votes 6-to-1 (Tyrone Brown dissenting) to *deregulate radio*. ■ According to Television Bureau of Advertising, *TV viewing in 1980* reached all-time high of six hours 36 minutes per TV households per day. ■ Supreme Court upholds lower court ruling that government consultants aren't "public figures" or "public officials" in working of libel laws.

Jan. 26 □ Busy day for broadcast newsmen as *American hostages* in Iran gain freedom within same hour **Ronald Reagan** is sworn in as 40th President. ■ Reagan administration transition team proposes that *Corporation for Public Broadcasting be abolished*.

Feb. 2 □ U.S. Supreme Court, in 8-to-0 decision, rules that Constitution doesn't bar states from permitting *radio and television coverage of criminal trials*, even over objection of defendants. ■ U.S. Supreme Court refuses to review appeals court decision holding that journalists have *qualified privilege not to disclose unpublished material*, including television outtakes, in their possession in criminal cases. ■ **Thornton F. Bradshaw**, president of Atlantic Richfield Co., is designated successor to **Edgar H. Griffiths** as chairman and chief executive of RCA effective July 1.

Feb. 9 □ *Coalition for Better TV* is set up to rid television of programs it considers offensive by threatening boycotts aimed at sponsors of offending programs. ■ Public Broadcasting Service announces plan to launch *PBS/Cable*, new pay television network supported by pay television revenues and institutional advertising. ■ CBS announces **Dan Rather** will succeed Walter Cronkite as anchorman and managing editor of *CBS Evening News* on March 9. ■ Reagan administration transition team recommends that President *narrow FTC's authority* and slash its budget. ■ *ABC and Hearst Corp. announce formation of joint venture* to produce programming for specialized cable network services.

Feb. 16 □ After more than five years of study, Federal Trade Commission votes unanimously to kill proposal to regulate *advertising of non-prescription drugs*.

Feb. 23 □ Federal jury in Houston finds city, its mayor and Gulf Coast Cable Television participated in *conspiracy to limit competition* in awards of five cable franchises in 1978. Jury awards *Affiliated Capital Corp. \$6.3 million in damages*. ■ Time Inc. details plans for major test of *satellite-distributed news and informational teletext service* designed for consumer use. ■ Republican **David Clanton** is named Federal Trade Commission acting chairman, replacing Democrat **Michael Pertschuk**. ■ U.S. Supreme Court refuses to review lower court decision dismissing CBS's 11-year-old suit for "per use" *music licenses*. ■ *Newhouse Broadcasting* purchases control of Vision Cable Communications Inc. for \$180 million, making it eighth largest cable MSO.

March 16 □ Number of *television and radio stations* authorized by FCC breaks 10,000 mark as of Jan. 31, 1981. ■ ABC announces it will break with other networks and accept *issue advertising* in its late-night entertainment programming as experiment. ■ **Clarence James**, chairman of Copyright Royalty Tribunal,

testifies before House subcommittee that *CRT should be abolished or radically restructured.*

March 30 □ U.S. Supreme Court affirmed FCC's authority to *leave radio entertainment to discretion of licensee* and marketplace. ■ FCC adopts rule to *shorten license renewal application*, for most radio and television stations, to size of postcard. ■ Democratic commissioner of Federal Trade Commission, *Robert Pitofsky*, announces he will resign April 30, giving President Reagan first opportunity to nominate Republican replacement. ■ Burkhardt/Abrams/Michaels/Douglas and Associates announces formation of *Satellite Music Network*, live, 24-hour, daily radio service to be delivered in contemporary country and pop adult.

April 6 □ With five ENG cameras rolling, *shooting of President Reagan* becomes history's most heavily covered assassination attempt. ■ After amassing voluminous record in controversial rulemaking to ban or restrict *children's advertising* on television, Federal Trade Commission staff recommends dropping proceeding. ■ FCC's order *deregulating radio* goes into effect despite efforts by United Church of Christ to stay order. ■ *Gulf United Corp. and San Juan Racing Association* apply to FCC for approval of planned \$33.5 million acquisition by Gulf of most of San Juan broadcast properties. ■ *Kaiser Aluminum & Chemical Corp.* files \$40 million slander suit against ABC in its year-long dispute over report on ABC News's 20/20 series.

April 20 □ Justice Department begins *civil antitrust investigation of music licensing.* ■ Washington Appeals Court rules that reporter's *First Amendment privilege to maintain secrecy of sources* in civil litigation should take precedence over private interests of complainants in compelling disclosure in all but most exceptional cases. ■ U.S. Court of Appeals in Washington holds that commercial television stations have *no direct obligation* under Rehabilitation Act of 1973 to make special effort to *meet needs of hearing impaired.* Nonetheless, it said *public television stations do* because they receive federal assistance. ■ *Writers Guild of America* membership votes to strike against television and film production companies and television networks.

April 27 □ FCC rules unanimously to let *public broadcasters broadcast logos and identify product lines* of program underwriters. ■ FCC accepts *Comsat DBS application.*

May 4 □ U.S. Court of Appeals in Washington affirms FCC policy of *barring proposed "distress" sale* to minority-controlled applicant after initial decision denying renewal had been issued by administrative law judge. Court agrees with FCC that permitting sales after initial decision has been issued would adversely affect integrity of commission's processes.

May 11 □ Working group on *digital television standards* of Society of Motion Picture and Television Engineers votes to adopt digital sampling frequency of 13.5 mhz, step crucial to establishment of world digital standard. ■ *Clarence James*, chairman of Copyright Royalty Tribunal, finds his views increasingly at odds with direction of CRT and resigns. ■ *RCA announces it is entering pay cable business* by forming partnership with Rockefeller Center Television to provide cultural programming to cable systems. ■ U.S. Court of Appeals in San Francisco holds that *companies distributing pay programming* in scrambled form should be protected against interception of that material by unauthorized decoders. ■ FCC adopts—as permanent standard—rule exempting TV sta-

tions in communities with population of 10,000 or less and not located within larger market area from *formal ascertainment filing requirements.*

May 18 □ *Mark S. Fowler* is confirmed by Senate to be chairman of FCC.

May 25 □ AT&T and proponents of French Antiope and Canadian Telidon videotext/teletext come to agreement on *common videotext/teletext standard.*

June 8 □ Getty Oil, Paramount, Columbia, MCA and Fox decide to *dissolve Premiere*, proposed pay cable joint venture, after Justice Department attacked venture on antitrust grounds. ■ Spanish National Television Network launches "*Noticiero Nacional SIN*," nation's first network newscast in Spanish.

June 15 □ Oil industry millionaire *Marvin Davis* buys *20th Century-Fox* for estimated \$720 million. ■ *Bernard Wunder* is confirmed by Senate as assistant secretary of commerce for communications and information, in charge of National Telecommunications and Information Administration. ■ FCC approves \$139-million *RKO Cablecom General/Capcities merger.*

June 22 □ U.S. Court of Appeals in New York affirms FCC order last year *repealing distant signal and syndicated exclusivity rules.*

July 8 □ *Fred Silverman* resigns as president and chief executive of NBC, and *Grant Tinker* of MTM Enterprises is named to succeed him. ■ U.S. Supreme Court rules that presidential and congressional candidates have *affirmative right of access* to nation's broadcast stations. ■ Donald Wildmon, chairman of Coalition for Better Television, *calls off planned boycott* against sponsors of programs group considered offensive, claiming at least temporary victory in group's war on sex, violence and profanity on television. ■ *Mimi Weyforth Dawson* is sworn in as member of FCC.

July 13 □ *Columbia Pictures Industries and Outlet Co.* agree in principle on terms for merger of two companies for estimated \$165 million.

July 20 □ *Writers Guild of America* and producers settle 13-week strike.

July 28 □ *Metromedia Inc.* agrees to pay *Boston Broadcasters Inc.* \$220-million for ch. 5 WCVB-TV Boston—highest price ever paid for single-station broadcast property.

Aug. 3 □ Congress passes legislation that extends *radio license terms to seven years and TV licenses to five years*; allows FCC to use lottery when awarding initial licenses; and authorizes Corporation for Public Broadcasting to receive \$130 million for each of fiscal years 1984, 1985 and 1986. ■ NBC Chairman and Chief Executive Officer Grant Tinker appoints *Robert Mulholland* NBC president and chief operating officer and names *Ray Timothy* president of NBC Television Network. Senate confirms appointment of *Henry M. Rivera* and reappointment of *James H. Quello* to FCC. ■ *Kaiser Aluminum*, given chance to air grievances against ABC on network's *Viewpoint* premiere, drops its FCC complaint and says it won't pursue defamation suit.

Aug. 10 □ FCC by 4-to-2 vote decides to dump proposal to switch to 9 khz and retains 10 khz on *AM channel spacing.* ■ FCC issues waiver permitting *CBS to own cable systems* serving no more than 90,000 subscribers or one-half of 1% of nation's cable subscribers, whichever number is smaller.

Aug. 17 □ Westinghouse Broadcasting and ABC combine forces to establish *Satellite*

NewsChannels, joint venture designed to produce two 24-hour channels of advertiser-supported cable news that will be beamed free to cable operators. ■ *NBC formally asks FCC to repeal prime-time access rule*, noting rule is barrier to 60-minute evening news.

Aug. 24 □ *Westinghouse Broadcasting Co.'s \$646-million acquisition of Teleprompter Corp.*, largest merger in history of cable TV, is completed shortly after U.S. Court of Appeals in Washington refuses to stay closing.

Aug. 31 □ NBC Chairman and Chief Executive Officer Grant Tinker names *Irwin Segelstein* NBC vice chairman. ■ Time Inc. agrees to purchase *UA-Columbia Cablevision's half interest in USA Network* for \$15 million and operate advertiser-supported cable network in joint venture with Paramount Pictures Corp. ■ Ted Turner announces Cable News Network will launch second cable news service, *CNN 2*, to compete with Group W/ABC Satellite NewsChannels.

Sept. 7 □ Gannett Broadcasting Group announces it will launch new broadcast news service—*America Today*—to provide short news and weather features to Public Broadcasting Service stations in October. ■ *Lowell Jackson Thomas*, dean of newscasters and renowned author and world traveler, dies at 89.

Sept. 14 □ Two months after its pending agreement to buy WCVB-TV Boston, *Metromedia agrees to sell KMBC-TV Kansas City, Mo.*, to Hearst Corp. for \$79 million. If approved by FCC, it will be second highest price ever paid for television outlet. ■ U.S. District Court judge rules that *allowing AT&T to enter growing data processing field* wouldn't violate consent decree AT&T signed with Justice Department 25 years ago. ■ *Hearst Broadcasting Corp.* closed its deal to purchase WDTN-TV Dayton, Ohio, from Grinnell Communications Corp.—same week it contracted to buy KMBC-TV Kansas City, Mo., from Metromedia for \$79 million.

Sept. 21 □ FCC calls on Congress to make *sweeping revisions in Communications Act* by repealing Section 315, repealing "reasonable access" provision, Section 312(a)(7); eliminating comparative renewal process and Section 307(b), which requires "equitable" distribution of radio service throughout nation; codifying its January radio deregulation, and redefining act to reflect reliance on marketplace forces in determining availability of telecommunications services to public. ■ *NBC announces move to hour-long news.* Affiliates get choice of two feeds and have option to take full hour or only first half. ■ Study reveals *public television and radio stations* could generate up to \$164 million if "clustered" advertising is used.

Sept. 28 □ *ABC teams up with ESPN* to offer pay sports programming and *CBS and AT&T* consider joint test of videotext. ■ *David Brinkley*, 38-year veteran of NBC News, joins rival ABC News where he will anchor upcoming *This Week* on Sundays, have major role in political coverage and handle special projects.

Oct. 5 □ FTC follows recommendation of staff in calling off controversial *four-year-old rulemaking on children's advertising.* ■ *Senator Ernest F. Hollings (D-S.C.) begins filibuster* to block consideration of S. 898, bill to allow AT&T to compete in unregulated telecommunications markets. ■ Republicans launch *multimillion-dollar ad campaign* to gain control of Congress in 1982.

Oct. 12 □ BROADCASTING magazine observes its *50th anniversary.* ■ *CBS Cable* begins its cultural program service.

COMTRAC

This new, on-line, computerized information resource helps Katz-represented TV stations make profitable programming decisions in an increasingly competitive marketplace.

Katz. The best.

LOVERS!

GRABBERS!

JOKERS!

KILLERS!

Movies that you'll simply love, such as Same Time, Next Year with Alan Alda and Ellen Burstyn, Yanks and The Greek Tycoon.

Movies that will grab the big shares, such as The Coal Miner's Daughter, starring Academy Award-winner Sissy Spacek, The Seduction of Joe Tynan, Resurrection and Off the Minnesota Strip.

Movies that will bring a smile to your ratings, such as National Lampoon's Animal House, Slap Shot, Peter Sellers as The Prisoner of Zenda, More American Graffiti and The Brink's Job.

Movies that will knock 'em dead, such as Jaws, James Michener's Caravans, Dracula and Samurai.

THE HIT LIST

Looking toward the America of 2001, the visions vary, but mostly they perceive a country as a whole not vastly different from today's. It will have more people, of course, and they will probably be a bit richer. They'll certainly be older. If recently detected signs should turn into a trend, they could even be less educated. At best they're apt to know more about less.

The nation will still have problems. Inflation will still be around, but perhaps on more manageable levels. The energy problem may have largely been handled, one way or another—or traded in for another problem: a water shortage. But on the whole, barring war, the U.S. of 2001 does not seem likely to differ from 1981 a great deal more than 1981 differs from 1961. Certainly the changes in the general world will seem small in comparison with the changes to come in the world of communications.

This relatively placid view has its dissenters, of course. There are those who maintain that the communications revolution will itself change the life styles and values of the world in fundamental ways: that the growing miracles of telecommunications, cable and computers—in combination with teleconferencing and in-home shopping and in-home banking, with scores or hundreds of new channels putting an almost endless variety of entertainment and specialized information at the consumer's fingertips—will turn many Americans into stay-at-homes, not needing to go out even to work, or cash a check, or buy a newspaper (which in this case, of course, will have been delivered electronically).

In some versions cable itself, instead of delivering scores or hundreds of programs into the home at the punch of a button, may prove inadequate and be replaced, eventually, by personal uplinks/downlinks capable of sending to and receiving from hundreds of other transponders—nationally, worldwide and into space. Some even say that by 2001, thanks to advanced microprocessors and chips and implants and add-ons and carryables, we may be well on the way toward having "smart" cities and even "smart" nations, and that, well

before the "smarts" reach that point, we could be carrying an education in a package on the wrist, and owning cars that refuse to start for a driver who is drunk.

The moderates temper the far-out with a larger dollop of today. In April, the Colgate Darden Graduate School of Business Administration at the University of Virginia, together with the Annenberg Schools of Communications of the University of Pennsylvania and the University of Southern California, with funding by Philip Morris Inc., assembled a group of experts and scholars at Richmond, Va., for two days of thought and talk about "Communications in the 21st Century." Those visionaries recognized that a communications revolution was under way, with what would probably be far-reaching results, but for the most part they tended to consider channel *content*—and its effects—more important than channel *profusion*.

Content is a concern shared by many. They fear that, as scientists Amory B. Levins and L. Hunter Levins told the Virginia/Annenberg/Philip Morris conference, "if we use four shiny new tools in ways that glorify their limitations," the tools "may enslave and befuddle us more than they serve us." In that case, as the Levinses said, the result could be to "spread darkness with the speed of light."

□

Elie Abel, NBC newsman turned dean of the Columbia Graduate School of Journalism, now Harry and Norman Chandler professor of communication at Stanford University, told his colleagues in the keynote speech that "My attitude toward futurism is decidedly skeptical, borrowing something perhaps from Thoreau, who in 1854 wrote: 'We are in great haste to construct a magnetic telegraph from Maine to Texas, but Maine and Texas, it may be, have nothing important to communicate.'"

Abel envisioned not only fragmentation of existing audiences but, worse, fragmentation of the information that reaches and is absorbed by the individual, "less common sharing of knowledge by rich and poor, by advantaged and disadvantaged," that "could seriously erode the common data base that makes possible our system of self-government."

"If present trends are projected through the end of the century," Abel said, "we shall be living with rather different media. The bill of fare will be more varied, permitting wider freedom of choice. It will probably be more appropriate by the year 2001 to speak of narrowcasting, rather than broadcasting, as individuals pick and choose those offerings that particularly appeal to them. This could mean, for example, a steady diet of sports, or financial news, or first-run motion pictures—all at a price—instead of the melange now programed by the TV networks.

"Radio has already reached that stage. . . Magazines reached that point of audience segmentation by the early 1970's. Trout fishermen, antique automobile fanciers, investors, liberated and unliberated women, skiers, golfers, stamp collectors, ten-

nis players all have their highly specialized magazines."

For all their protestations to the contrary, Abel said, networks "have seen the future—and they fear it may work, chipping away at their aggregated lion's share of the national viewing audience." Disinterested students of television, he said, "predict that by 1990 network television will have lost no less than 10% and as much as 50% of its audience," perhaps with "cataclysmic" effects.

"Over the next decade or two," he continued, "the sharp line separating print and broadcast can be expected to blur, giving birth to hybrid multimedia information systems for the home that depend less on the support of advertisers than on consumers willing to pay for the services they want. This does not mean necessarily that Americans will spend fewer hours of the day in front of their TV sets. They may spend more."

The process, Abel noted, is already beginning in the newspaper business, with different editions designed for readers and

Abel

advertisers having specific interests. But the biggest change, he suggested, could come from information-retrieval systems like those being tested "in several European countries, by Knight-Ridder in Coral Gables, Fla., and by Warner Communications Inc. in Columbus, Ohio.

"To the extent that home information retrieval takes hold," he continued, "substantially answering the needs of subscribers for a wide range of information services, newspapers have reason to fear a loss of subscribers, perhaps also a decline in classified advertising lineage. Once again, we face erosion of the common data base. The crucial question, as yet unanswered, is how information narrowcasting to the home is to be financed. It is possible, however, to foresee a pattern on the horizon."

Advertising, he said, now pays for 100% of the cost of broadcasting and 70% of the cost of newspapers. But with cable and pay cable and rising newspaper and magazine prices,

the consumer is paying more and more. "There is a danger," he said, "that sooner rather than later many Americans will be priced out of the market—debarred from the benefits promised by the new technologies because they cannot afford to pay for them.

"We may, in short, confront the prospect of media segregated by economic and social class: over-the-air broadcasting for the masses and the new technologies for the classes. The affluent would be better informed than they are today; the lower orders would be even less well informed."

□

Another speaker, J. Richard Munro, president and chief executive of Time Inc., reminded the Richmond conference that many past predictions about cable's future proved premature. He also reminded them that cable diversity has already reached the point that "we are confronted with a qualitative change."

He had no doubt that "the print media, under the spur of video competition or applying the whip of the new electronics, will enjoy its own 'new wave.'" But, he said, the marketplace as well as technology helps shape the future. "In the next 10 years, college-educated Americans will increase about two and a half times faster than the overall population. Households with constant-dollar incomes of \$25,000 or more will grow relatively faster. Those families are and will be readers of the printed page. So will their children and grandchildren."

Today's "basic condition," Munro said, is "a new multiplicity of choices and channels"—not just three networks but, through cable, a fourth and a likelihood of 40 or even hundreds of networks: "The first three resembled one another; the next 97 will be, or at least have the opportunity to be, quite different. Cable, especially pay cable, has demonstrated that a great hunger exists not only for more but for difference."

"The wired highway across America," he continued, "so long heralded and now a reality, will have a hundred lanes—some fast, others slow, some a hard pull uphill for serious viewers, others a razzle-dazzle downhill slide for entertainment fanciers. We already have specialized lanes for children, sports fans, movie buffs, ethnic and religious groups and so on.

"We will see those ethnic groups divided into subgroups, new culture channels divided into special cultural interests. We will witness the birth of new kinds of entertainment, new art forms, abstract entertainments and an entertainment lane or two, I am afraid, that will be mislabeled 'adult'.

"Some of these new lanes, no one really knows how many, will be used for information as distinguished from entertainment. Stock market and weather reports, continuous news, Congress in session, are already familiar. Almost limitless information will become available from tie-ins to immense data banks, accessible on demand. The television screen will become an information terminal

Late Evening

Introducing HTNTMplus

**Expanded Family
Programming from
Home Theater NetworkTM**
A Service of Group W

You asked for it. And it will be here January 1, 1982. More of HTN. The only pay cable service offering movie hits without R ratings will soon be 12 hours a day, 7 days a week. More hours of all the good programming you've come to expect from HTN. That's why we're calling it HTNplus.

By every audience measurement standard, the afternoon, evening, and late evening hours are the most important. HTNplus is on tap for all these hours. A new 12-hour family service, HTNplus brings you more. More quality entertainment. More exciting travel features. More great movies. And more profits for you.

HTNplus is packaged to be priced lower than other pay services—but you make more.

Reserve a channel for HTNplus. Today!

HTNplus

Munro

able to provide endless streams of videotext, the electronic distributor of news and information."

But what nobody knows, Munro said, "is how many people want it."

He noted that Time plans to test a round-the-clock textual and graphic information service for in-home use this year. And he said that interactive TV is the second basic trend likely to affect the future—not necessarily limited to the calling up of information.

"You may one day view a movie no one else will ever see because you yourself directed it along lines that appealed especially to you," he said. "That includes not just compressing or expanding sequences, but choosing them according to your taste. You could have 100 hours of film, stills and graphics from which to put together your own 40-minute or two-hour show. Or your home computer, containing profiles of members of your family, would automatically pick certain elements and eliminate others, depending upon which family member was watching."

Similarly, Munro said, the home viewer could become his own editor and publisher. "Time Inc.," Munro said, "is developing what we call Demand Electronic Publishing, enabling the home viewer-reader to create his or her own magazine, to pick and choose from a sea of information photos, maps and graphics so that some stories can be greatly expanded and others cut down or eliminated. Demand Electronic Publishing will also provide its own designs and typefaces, offering a range of choices to the individual viewer-reader who in effect becomes his or her own editor."

Munro saw as "a third basic trend of the information age" a "gradual move toward a more comfortable human relationship with electronic equipment, especially the computer." He explained:

"Advances in what might be called the

technology of relationships between humans and media machines are on many drawing boards, or already off them. TV screens can be made touch-sensitive. Press on a particular point and that part of the screen will be enlarged. Press harder and the enlargement will be greater. Computer control by speech has also made strides. Some computers may be programmed to respond to only one particular voice. If it reveals too much tension, the user could receive a message telling him to 'Relax.'"

Digitization, Munro said, is another basic concept holding great promise for making transmissions clearer and more accurate and retrieval more efficient.

"Digitization, comfortable man-machine relationships, interactive video and multiplicity all will be fundamental to the video media we will be using in the year 2001 and beyond," Munro said. "New media do not replace old, nor do they work as first intended. Gutenberg considered his movable type primarily a way of making the Holy Bible more broadly available. It did—paving the way for the Reformation. Marconi thought his wireless was a better means of point-to-point communication. What he gave us was the radio. As for television, it was generally conceived as a medium for visual instruction. In each case the socioeconomic system, not the technology, determined the use. Progeny of the computer-telecommunications marriage will certainly make possible many shifts in our social behavior. But they cannot guarantee which shifts will occur."

□

To Irving B. Kahn, the feisty cable visionary who founded Teleprompter and now heads Broadband Communications, communications in 2001 will be almost unrecognizable by today's standards.

Long before then, he said in an interview, there will be a virtually total marriage of communications and computers, turning the home screen into a complete information center.

"Entertainment as we now know it will be no more than 5%-10%" of what is punched up on the home screen, in Kahn's view.

"The networks as we know them will be extinct long before 2001," he continued, "because there will be other means of distribution and the present need for them will no longer exist."

This does not necessarily mean, Kahn added, that the present network companies will be out of business. But if they're still in business, he said, they'll be in "vastly different" businesses.

He expects stations, too, to be substantially different. In fact, he said, "the only thing in broadcasting that has a shot is the creative types."

With the space shuttle, Kahn said, it will be possible to take "little packages of power" into space, assemble them and shoot them out farther, providing immensely greater power than available on present satellites and permitting reduction in the size

of receive dishes on the ground to a minimum.

Within the next five to 10 years, Kahn predicted, satellite power may be increased by five to 10 times and the size of receive dishes reduced to a 10th of the present. Dishes six to 18 inches in diameter he expects to become commonplace.

Direct broadcast satellites, in his view, are "not so crazy. And you don't need a franchise for that," he added.

Kahn noted that many broadcasters "have taken a substantial position in the new technology." Even so, he said, "what surprises me is that the broadcasting industry is so unknowledgeable about the technologies."

The industry's attitude, he said, is like that of the motion-picture exhibitors initially toward the development of television—an attitude he characterized as "go away—don't bother me."

Kahn

Harkins

Visions of far more fundamental and far-reaching—some might say in many ways incredible—changes are offered by Dr. Arthur M. Harkins, director of Graduate Concentration in Future Cultural and Educational Systems at the University of Minnesota. Writing in an "afterword" to an extensive, factual report on "Telecommunications: A Picture of Change" by the Upper Midwest Council, a Minneapolis-based nonprofit,

**Thanks, Broadcasting.
You've kept us

WABC-TV**

Broadcasting  Oct 12

The News Magazine of the Fifth Estate □ Vol. 101 No. 15

51st Year □ 1981

nonpartisan research organization supported by some 360 corporations and foundations, Harkins offers what he calls "one view of telecommunications/human futures—one future from among an infinite range of alternatives."

In his view, if the declining prices of home dishes reach about \$1,500 by, say, 1983, and assuming that the dishes and demodulators allow C and Ku band reception, home owners by then "should be able to pick up several hundred transponders featuring a data/text/video/radio cornucopia"—not just from U.S. satellites but from foreign birds as well. This prospect, he suggests, together with the emergence of DBS plans such as those advanced by Hubbard Broadcasting of Minneapolis-St. Paul, "make the prospect of paying for cable services over an indefinite period increasingly questionable."

"The inability of any planned cable system," he continues, "including those with multiple coax or limited fiber optics capability to handle near-term U.S.-Canadian satellite video traffic alone makes cable look potentially unattractive. Mid-term traffic by U.S.-Canadian satellites is completely beyond comparison with cable: it is expected that approximately 800 transponders will be operating in orbit by 1985.

"Therefore a home owner with the ability to purchase a home dish not only would receive far more and probably varied pro-

gramming than through cable; he or she would pay for a \$1,200 dish with about 2.5 years of cable-fees figures at only \$50 per month (average) in 1983-84-85 dollars."

And when space-based laser-driven light-wave communications come into play, Harkins continues, far more gains would accrue:

"An advantage of lasersats is their ability to pinpoint footprints within radii of under one city block, thereby allowing for many thousands of such footprints without mixing and cluttering signals. The potentials for teleconferencing from such systems is enormous. If such systems are placed on the ground for directional or omnidirectional broadcasts of laser-encoded video and other signals, thousands of channels of information can be delivered over line-of-sight paths.

"Many different transmitters could operate on numerous light frequencies invisible to the human eye. Home antenna systems would look like small telescopes. Again, the role of coaxial cable is questionable here, on both technological and cost grounds."

More than that, Harkins continues, "uplinks from home dishes," if approved by the FCC, "could become a real alternative to cable and telephone wire systems, allowing teleconferencing from the home over short or planetary distances, working at home or anywhere else, and the real-time news without the customary delays incurred through

the travel time of professional crews. Uplinks to lasersats or ground laser systems are possible and could have an ever larger suppressive effect on competing systems because of their vast carrying capacity."

In Harkin's scenario, something akin to "the information society," but "far more fundamental," is developing, and it will affect "the very nature of how we conceive not only of our societies, communities and selves, but also of our species."

"Think of it this way," he writes. "Microelectronics and telecommunications systems are still very primitive. What will begin to happen as they become more and more complex, inexpensive, energy-efficient and space-and-time 'free,' to the extent that they are implantable in the human body—and actually begin to replace and improve upon parts of the human body?"

"I think we are heading very swiftly in this direction... Imagine the body as a vehicle equipped with various 'busses' allowing for the amplification of human choices through information attachments and implants, and you have set the stage for regarding the present computer/telecom systems as experiments in evolution. I think we are transitioning to *homo sapiens ethnotronicus*, a hybrid of flesh, blood and information-processing silicon, of crawling nervous system and racing light speeds—a symbiotic blend of culture-bearing person and culture-bearing

machine!"

Harkins extrapolates, among other things, "wrist-watch size devices that calculate, compute, measure body functions, talk, listen, forecast, take dictation, store and update the Britannica every second, show pictures, act as a planetary picturephone and provide medical, legal and other professional assistance." These, he says, are a "logical compression of the many functions now built into different electronic devices and systems" and should be available in the '90's at a cost of \$10 to \$100.

He also sees the extension of current home protection devices into systems that turn houses into "solid 'citizens' in the '90's" that not only will be called by people from distant locations but will themselves "call people, especially in the event of something unusual—a problem, a celebration or an opportunity." From smart homes he moves on to smart cities, which "will attempt to prevent auto accidents, family violence, child abuse, waste, pollution and the like," and which "may actually evolve to the point where [they] can vote in city elections, or at least become [ex officio members] of the city council."

From there, "national and transnational wired systems with spacesat, computer and ethnotronic systems" will go on to "form systems of systems—continental and planetary societies of convivial, people-

amplifying systems. Currently aware homes, responsible cities, nurturing states and supportive regions will grow into countrywide, continental and planetary phenomena."

And from it all, Harkins suggests, will emerge the day of "the multiperson," in which "every individual will become a three-D multisensory television/radio/information/data/other 24-hour transmission/reception system" and "there will be as many broadcasting stations as there are people and their combinations, all amplified by ethnotronic 'people!'"

Harkins also envisions the possibility of an "era of machine intelligence and the power of selective reproduction" that he says "can come virtually at any time" and, when it comes, "will usher in the choice of immortality and the accompanying endless growth of complexity and choice." □

David Blank, chief economist of CBS Inc., offers an analysis more compatible with the views of broadcasters generally, although he recognizes that basic changes are under way and that "where they will take us," over the next 10 to 20 years, "is very uncertain." Changes in the general world he expects to be much more modest.

"Broadly speaking," he said in an interview, "this will be a somewhat larger, somewhat more populous, somewhat richer country than now, but not different in a revolutionary

sense. Look back 25 years: If you go through the economic side of the picture, it's not that different—a little bigger and a little richer: A few industries have grown up, a few have died, but there are still retailers and farmers and steel workers and autos—it's not that different [now] from what it was, except that the Japanese are stronger. You'll have that kind of change going through the society, but these are not revolutionary changes."

The communications business is something else again. That, Blank said, "could be very different 20 years from now." Even 10 years from now—which was the context for most of his analyses—the communications business "will look perceptibly, but not overwhelmingly, different."

A decade hence, he reasoned, cable penetration may be at 50% or more, compared with 25% now, and pay cable may be at 30%-40% instead of 10%.

"I don't think things like subscription TV and low-power [TV] will have profound effects," Blank continued. "I may be wrong, but STV I think is a kind of transitory business. It's hard for me to see how it can hope to compete with cable when cable comes into that community and puts on a full-court press.

"It will be very interesting to see, in that regard, what happens in Los Angeles in the next year or so. The STV operator in Los Angeles is really the only very successful one

in the country. Home Box Office is going to start competing vigorously there. It will be very interesting to see how that comes out.

"Low power—I don't know. I find it difficult to believe that's going to be a significant business. There may be lots of low-power stations but I can't believe they are going to have very big audiences or be very successful in terms of impact on the whole industry."

As for direct broadcast satellites, Blank feels that "we're not really talking about DBS of any consequence by the end of this decade."

"They may be starting to fly by then, in the late 80's," he said, "but it's unclear to me that they will be of significant consequence. They could be of significant consequence in the 90's—how much I don't know—and they could have a very significant effect upon the broadcasting industry. But it's hard for me to see how that could happen in this decade."

For the 80's, in Blank's opinion, the broadcaster's "really big competition," of course, is cable.

Videodisks and videocassette recorders are coming along, too, and by the end of this decade Blank figures that "there'll be a very substantial number of both kinds of gadgets out there—maybe 10 million to 15 million of each kind, a good hunk of which might be owned by the same people."

What it all nubs down to, in Blank's opinion, is how much impact all these new methods of distribution are likely to have. "They're going to have an impact, sure," he said. "There's no way you can have a new program service without its affecting people's behavior patterns."

He is also cautious in assessing cable's probable long-term impact, pointing out that "it's very early in the game yet, programing is hard to predict and maybe tomorrow a lot of people will have some new ideas" that will change current trends. "But thus far," he said, "the basic cable origination services seem to be getting ratings of 1 to 2, closer to 1 than 2 in most cases." Nevertheless he thinks a lot of these basic program services will prove viable. For one thing, "They involve a lot of repetition, which a commercial broadcaster doesn't have."

"I think a good number of them will make money and continue on," he said. "How many, I don't know. There surely will be people who will enter the business and fail over the decade. But it certainly looks as if you'll have one or two sports channels, one or two news networks—Ted Turner [Cable News Network] isn't making money yet, but I have no doubt that that service, if it stays on the air, in due course—in a couple of years— will be making money. In fact there might be two of them that might make money out there as basic cable grows."

"There are some other kinds of programing around that will make some money. But we're not talking about a lot of viewing at any particular point in time for that array of programing."

There has been speculation that the number of cable program services will dwindle in time to 10 or so. Blank says that's a judgment call that may or may not be right, "I don't know if 10 is the right number, or six or 15. It takes a lot of money to put on good programs. You get the feeling that there won't be enough advertising support or enough viewing to warrant 30 of them, or 50. That's a judgment, and obviously all kinds of things can change. But as best we can see it today, it doesn't seem that they can support 20 or 30 major basic channels.

"My feeling is that in this decade you'll end up with six or eight or 10 or 12 basic cable channels supported by advertising. In the same way, I think more than HBO will be making money in the pay business. But it's hard to think of dozens of them—there's just not that much product around."

Pay cable is a different proposition entirely. "It's very clear," Blank noted, "that people

Blank

who subscribe to pay cable watch movies with great avidity. Before Nielsen started measuring cable, we used to do some private studies here, and [HBO] was getting 10 to 12 ratings in prime time, on average, for a long time. It hasn't grown much, but it hasn't declined, either.

"There've been periods when the movies were better and periods when the movies were worse, and there've been periods when HBO had trouble getting hot new product. But that seems to be a fairly stable figure. Again, maybe someone will think of some way to raise it substantially in due course, but no one's done it yet."

"Now that's a rating that's not up to the equivalent of an average network affiliate rating—though it's pretty close. It's almost like a fourth network in terms of audience attraction. And HBO is making lots of money. I don't know whether any of the other pay services are making money, but I would think that there should be some who should make money as business grows and as more and more systems offer more than one pay service."

As for videocassette recorders, Blank sees

rapid growth. But thus far, he said, "most of the people who buy VCR's are not watching much in the way of prerecorded material. Some of the studies suggest that not more than one in three VCR owners has ever bought a prerecorded tape."

So who's to get hurt, and how much? Blank is reasonably sanguine for both networks and stations. He also thinks much of the damage has already been done.

"One reason the networks will be hurt only to a degree is that a very large fraction of their audience is in markets where there's already a lot of competition, and in those areas things are not going to change in any revolutionary fashion.

"Probably over half the country is wired now. Most of the places that haven't been wired are big cities and suburbs where there is already a lot of competition. So a lot of affiliates are already feeling effects of cable competition; some are feeling it more and some less ... But a lot of that's happened already, and on the whole the broadcasting industry has survived pretty well. It's a little hard to find cases of real hardship thus far."

It's obvious that stations and networks would be better off in the years to come if there were no change in the old broadcasting structure. But clearly there will be a change: They will have more competition.

"But that," says Blank, "is not the same as saying that they won't be more profitable and that station values won't rise. It just means that maybe they won't be as much more profitable as they otherwise might be and that station values won't rise as much as they otherwise would."

He drew a parallel with broadcasting's loss of cigarette advertising: "We used to be asked where we'd be if we still had cigarettes. We'd be better off, obviously. But that was a decade or more ago and it's a silly question now, because it's not an option that we have and it's nothing you think about. You'd be richer today if you had cigarettes, but you're still richer today than you were then. There's some of that in all this new competition situation."

□

One thing to remember is that inventions often produce unexpected and unintended results. The telephone, for example, contributed importantly to the development of the suburbs and, with the elevator, to the feasibility of high-rise office and apartment buildings. The magnetic telegraph, in addition to enabling Maine and Texas to communicate with each other, gave rise to, among its less profound results, the singing telegram. And the automobile, designed for transportation, made far-reaching changes in American sex habits.

The unexpected aside, however, whose vision of 2001 is apt to prove closest to the mark? The late physicist Niels Bohr may have supplied the best answer. As the Levinses reminded the Virginia Annenberg/Philip Morris conference last spring, Bohr said: "It is very difficult to make predictions—especially about the future."

“Go to the nearest place of shelter.”

When a fast-moving tornado smashed into Kalamazoo, it left behind the worst destruction in the city's history. But thanks to sufficient advance warning, only five lives were lost in a fifty-million-dollar disaster that could have meant death for hundreds.

The Federal Communications Commission commended WKZO-TV and WKZO Radio for their quick action in having “activated the EBS signal on their own initiative prior to receiving an official tornado warning from the Weather Service.”

In addition, the Michigan State Senate adopted an official resolution of commendation praising WKZO-TV's alert service and Stormsearch Radar tracking throughout the course of the tornado.

The staff of both WKZO-TV and WKZO Radio are grateful for such special recognition for what they consider “just doing our jobs.” Because serving the public, whether during a crisis or not, is all part of the Fetzer tradition of total community involvement.

How do the seers of Wall Street, its security analysts, read the prospects of companies in communications? The images in their crystal balls share many similarities.

An underlying theme that unites the forecasts of Wall Street is spelled out by Ellen Sachar of Goldman Sachs. "One thing is clear," she says, looking at the broad outline of electronic communications. "The networking concept is the only thing that works—the cost [of production] has to be amortized." Without suggesting that the year 2001 will see only three national networks, or even the same three that are now in business, Sachar maintains that "people are used to a given level of professionalism" in the television they watch, and that unless the various new media's programs can match that level of production quality, viewers will "just go back to over-the-air."

Dennis Leibowitz of Donaldson, Lufkin & Jenrette also senses a continuity of networking. "There will always be a need," he says, "for a national product, and for national networks," although Leibowitz has some questions about what form those networks might take. "Somebody's still going to have to do the equivalent of today's networks," largely because "people are basically lazy—they want somebody else to program for them."

While touting the economic necessity of networking, Sachar also draws an economic limit to the proliferation of that distribution form. Starting 10 years out, the analyst runs the numbers for the likely economic support of networking, and ends up with a "dozen-network theory" for 1990 and beyond. Using the Television Bureau of Advertising's estimate for the total broadcast television economy of 1990—\$42.7 billion—and TVB's breakout of \$18.9 billion in network revenues, Sachar adds \$2 billion to \$3 billion for cable network advertising revenues and another \$3 billion she thinks would be available to cover program costs from an estimated \$6 billion in pay cable revenues. Throwing in a few billion from subscription television and other forms, Sachar calculates that in 1990, there might be \$20 billion to \$30 billion available to pay for networked television

programs. Returning to her concept of production quality, Sachar reasons that if each of the three commercial networks spends roughly \$1 billion now on program production, allowing for inflation they would have to spend \$3 billion each by 1990 to maintain equivalent quality, and so would any serious competitor.

That leads Sachar to conclude that the upper limit of viable national networks is around 10, perhaps a dozen, and she sees that pattern continuing to the end of the century. Sachar makes a separate point in talking about a limitation that "viewer awareness" will place on the proliferation of networks in the next two decades. Drawing what's become the inevitable analogy to radio when talking of new media, Sachar says: "Even in markets where you have 50 radio signals, any individual tunes into at most four or maybe six on a regular basis."

While analysts shy away from specific predictions about who might step in to swell the ranks of national networking, one forecast, by John Reidy of Drexel, Burnham, Lambert, finds no dissenters. "There's going to be a lot of money lost trying to make sense of this picture," he says.

As Reidy paints it, the communications picture will be filled in as follows over the next 20 years. Television households will grow as both the population and number of households expand—from 78 million television homes now to 90 million or 95 million in 1990, and 105 million to 110 million television homes in 2001. (Variables that could affect that growth are housing costs, living patterns, whether couples marry earlier or later than at present, Reidy concedes.) Cabled homes, he thinks, will grow from the low 20 millions, to 40 million or 42 million by the end of this decade and 45 million to 50 million by the end of the century. Pay cable subscriptions, as distinct from subscribers, should experience even more rapid acceleration—increasing from 11 million to 40 million by 1990, equaling the number of basic subscribers, and with 50 million pay subscriptions being his minimum projection for 2001.

Direct broadcast satellites, Reidy reasons, will attract six million subscribers by 1990, 11 million by 2001. And on-air subscription television, in his estimation, could reach five million subscribers by 1990. But slowed by cable's expansion, Reidy doesn't see STV in more than six million homes even by 2001. The total number of households Reidy sees subscribing to cable, DBS or STV service by 2001 is then about 68 million, or 62% to 65% penetration of the total number of television homes.

One place Reidy sees some potential for shift in those figures comes from the growth of addressable two-way cable capability. His initial estimate is that by 1990 there could be at least 10 million cable homes wired with addressable converters, with perhaps five million served by two-way cable. By 2001, he estimates those numbers could hit 15 million and 10 million, respectively. With the

capability both those technologies offer in allowing per-program charges for occasional pay television use, Reidy believes the mix between pay subscriptions and addressable and two-way penetration embodied in his figures could change.

"News, soaps and talk" are the three formats Leibowitz believes will make the most economic sense for commercial television networks. The producers of movies and sports, meanwhile, can get better deals from pay television, Leibowitz contends. And even children's and cultural programs would be most economically packaged on specialized channels, he maintains.

Elaborating on the reasoning behind his theorizing, Leibowitz says that commercial networks will face the same "revenue/cost bind" that was displayed in the "Life/Look syndrome"—"they can't continue to show the more expensive product" as their revenue growth bumps up against the constraints imposed by the growth of new media. But in Leibowitz's opinion there is one saving grace for the three big networks—"the stuff they do best is also the cheapest to make," namely news, soaps and talk programs.

Leibowitz emerges as somewhat more sanguine than Ellen Sachar on the future of specialized networks. As viewers are diverted from the three commercial networks, Leibowitz believes, "advertisers will attempt to get hold of them." One approach will be through "a multiplicity of advertiser-based, special-interest channels," while another development Leibowitz sees in the offing is either advertisers themselves or some independent entrepreneurs gearing up to "provide a free 'pay' service, or the low-cost equivalence of HBO," with advertiser revenues used to defray or eliminate subscription fees.

Still, Leibowitz thinks that "economically, it would make more sense for specialized networks to be pay networks." And John Reidy walks through a scenario that supports that contention. "Assume 54 channels become the standard for cable systems," he says. "If you have 'X' number of major networks (perhaps three commercial networks, an equal number of pay movie networks and a sports channel or two) plus some pay-per-view, rationally that's at least half and up to three-quarters of a viewer's time taken up by those channels. That's 45 channels and maybe 25% of viewing time left—not much economic support for nonsubscriber-supported services." Figuring there'll be "maybe some cultural channels and a couple of superstations," Reidy says, "that puts a sharp limitation on cable programs with big advertiser-supported budgets—I just don't see the advertiser dollars there."

Ellen Sachar has some questions about what the sale of information will mean to cable (or to broadcasting via teletext). "I'm not sure selling information to the home is that much of a business. To businesses, yes, that'll be a big business. But look what's happened to newspaper readership. Part of the news-

papers' problem is that to the extent to which they've been successful, they've shifted their focus from information to entertainment." And Sachar points out that there's "been a steady downtick in newspaper circulation per household—it's now less than one [paper] per household, which has meant the death of evening newspapers."

Turning to the question of local broadcasters' part in the future, Leibowitz makes a point that applies as well to all the various levels of the communications infrastructure. "There are two separate issues," he stresses: "What is the product, and what happens to the companies?" In the case of most group broadcasters, Leibowitz notes, "the companies are OK—look at the percentage of cable that is owned by newspaper and group television interests."

Indeed, right now among the top 10 multiple system operators, which alone encompass 40% of the cable industry, 36% of current subscribers are in systems owned by broadcast companies, another 25% by publishing companies, and 9% by Warner Amex Cable Communications—a joint venture involving a motion picture company with substantial television production interests.

And, of course, there are other ways for group broadcasters to participate in the future of the new media. Leibowitz says of Metromedia, which has repeatedly stated its intention of not buying cable, "Anybody who creates programming as much as they do is going to be doing the right thing."

On the product side of the local television equation, Leibowitz sees the local broadcaster largely providing the "local cut-in" equivalent of the network feed of the future—with an emphasis on news. In Sachar's view, the local broadcaster "will still carry a network feed, but will have less of an impact in a market." And on the question of revenues, John Reidy sees local television "ultimately mirroring the networks—after all, it is the network business."

Sachar finds one "curious paradox" in local broadcasters' talk of increased spending on local production for both news and entertainment. "Wait till they see what it costs," she says, "after they've become used to 40%-plus pre-tax profits."

In all their musings, the analysts invariably return to one point, which makes it impossible for them to speak with any certainty of the distant future of the industry—the inability to predict the future pattern of government regulation and its impact on the emerging and existing technologies. Sachar wonders how far the telephone company, with its potential for fiber optics use, will be allowed to penetrate into the areas that cable is looking to for the generation of added revenues. Leibowitz ponders whether the broadcast networks will be permitted extensive roles in the cable game. And he questions whether, if cable is a success by the year 2001, it won't have achieved such high penetration levels that it will find itself regulated as a common carrier.

SOL TAISHOFF

Thank you for being the "historian" of the broadcasting industry these past 50 years.

Thank you for continually reminding both industry and government that the free enterprise market is the best regulator of all.

Thank you and your staff for Broadcasting Magazine's many contributions to the development of the greatest telecommunications system in the world.

Thank you especially for your participation in BFM's 21st Annual Conference "Washington Crossroads '81" and your advice "If the past is prologue, then the future belongs to those who prepare for it."

BROADCAST FINANCIAL MANAGEMENT ASSOCIATION

1100 PEOPLE SHARING THEIR EXPERTISE IN GENERAL AND FINANCIAL MANAGEMENT, ACCOUNTING, PERSONNEL AND BUSINESS AFFAIRS WITH THE BROADCASTING AND CABLE TELEVISION INDUSTRY.

Entrepreneurial points of view

The pattern of the future will, of course, be determined in large measure by the actions of the companies that compose the industry, making the view from their corporate suites an important component of any look into the future of electronic communications. And so BROADCASTING went to the top, talking with the heads of the largest companies in broadcasting and cable. In most instances, they begged off making hard projections of what their companies would be doing in 2001, but their broad outlines of both their businesses and their industries are clear.

□

CBS's William S. Paley

"We're keeping our eye on everything," says CBS Inc.'s chairman, acknowledging the steps the company has taken to position itself in cable programming, home video, teletext, theatrical film production and—with its recent proposals to the FCC—in DBS and cable.

Still, Paley says, there will be a solid business in 2001 for the company's core business of broadcasting. According to his projections, "We see a larger audience for network television in 2000 than exists today . . . There'll be less listening per person, but population increases will mean larger circulation."

In talking of the future of the network business, Paley discussed the importance of series programming, a phenomenon he's had the opportunity to study in detail over 50 years in radio and television. "Series entertainment provides the audience with something they can look forward to. It appeals," he says, to their "interest in continuity." Paley relates a story from broadcasting's earlier days, in which comedian Jack Benny said he found the series format "a great safety valve" because it meant "people became interested in me."

The CBS chairman also stresses the importance of news. "The public's demand for news," he says, "if anything, will grow." Does that suggest a CBS entry into cable news? Paley parries that question by asserting: "I wouldn't say no to anything." Without letting himself be pinned to the specifics, he adds: "We're trying to be alert to all the opportunities, particularly to those that we seem to fit into because of our expertise."

CBS would "absolutely" get back into ca-

ble ownership, says Paley, if the FCC rescinds its strictures against network ownership of cable (he was speaking before the grant of CBS's waiver request for limited cable ownership). The FCC order that CBS divest itself of cable (which, with the FCC-ordered divestiture syndication, provided the genesis of Viacom) "was a mistake that we're paying a hell of a price for."

One subject that excites Paley is high-definition television (HDTV). With half a century of anticipating the public's appetites behind him, Paley says of HDTV: "It's hard to believe the public wouldn't want HDTV . . . there's something beautiful and wonderful about it." The CBS approach to HDTV, which incorporates satellite distribution to local stations, is designed to overcome what Paley terms "a worrisome aspect of DBS"—"the temptation to invade something of great importance," the network/local relationship. "Local service is of the utmost importance," Paley says. "It meets with the network in an almost perfect manner."

□

ABC's Leonard Goldenson

"The horizons for the communications industry are just fantastic . . . It challenges one's imagination as to how far you want to go." So says the chairman of the board of the American Broadcasting Companies, and the horizons he spies from ABC's corporate suite are broad indeed. "The whole concept of merchandising and marketing may be completely revolutionized" by home shopping and banking, Goldenson believes, and he even sees the possibility of two-way educational television. "I can visualize a set with 100 buttons," he says, and he wants ABC to be on its share of those channels—providing "programs to every form of technology as it develops."

Still, Goldenson believes, "commercial TV will be the dominant mass medium" for the foreseeable future. "We intend to furnish the programming to assure that . . . We intend to maintain the affiliates as the dominant force in the community." Elaborating on the network-affiliate relationship, Goldenson says: "It's the combination of the two that gives [the commercial television system] its vitality." That relationship would shield the network system from encroachment by DBS,

Goldenson thinks, also noting that ABC supports the CBS concept of using DBS for a high-definition system. Meanwhile, radio "will maintain its growth and vitality as it becomes more specialized," says Goldenson.

With ABC already involved in four cable programming ventures—ARTS, Beta, and Satellite NewsChannels, and most recently in an announced partnership with ESPN. Goldenson talks of the possibilities cable offers to publishers like ABC in the way of two-way access to their data bases. Yet for all the potential he sees in two-way services, Goldenson sees little impact on national advertising from home shopping and the like. Those services, he maintains, will be "local market phenomena."

"Publishing is going to change," he says. "Novels won't be in that (electronic) form, but newspapers will change," with cable carriage of classified ads challenging them. And the ABC chairman sees the possibility of having "one or two pages covering every item in a newspaper" delivered electronically to a home each morning.

And although he's not sure cable ownership would prove economical for ABC, given the current prices for systems, the ABC chairman is adamant about the principle that ownership restrictions should be lifted.

Contrasted with Goldenson's general stands in favor of broadcasting deregulation, there is one area in which he makes it clear he's in no rush to have regulation disappear—the fairness doctrine. "After all," he says, "the airwaves belong to the public; we have merely a license."

□

RCA's Thornton Bradshaw

RCA's new chairman, while having served for years on the company's board, still brings something of an outsider's perspective to the helm of this electronic communications giant. And he takes a philosophical perspective on the future of the industry and his company's participation in it.

Bradshaw speaks of "two main thrusts of recent civilization." "Tastes change more slowly than technologies" and people have "a thirst for information," whether supplied in the form of entertainment or education.

It's been, Bradshaw says, "not the fault but the achievement of television to create a homogeneous culture in the United States" and

the "bond of TV" has, he believes, "provided a glue in our society."

Against that background, Bradshaw sees the commercial networks (including NBC) remaining "the predominant delivery system" into the next century. RCA's latest consumer electronics catalogue offers a 127-channel television receiver, Bradshaw notes, but he adds: "Divide that into the maximum number of rating points" and the result would not provide economically feasible levels of viewership for every channel.

"There'll be an awful lot of choice" in the year 2001, Bradshaw admits, but at the same time he's certain "there'll be an awful lot of people who are not going to avail themselves of that choice."

For RCA as a whole, Bradshaw maintains, the company's "posture has to be positioned on its greatest strength ... the enormous base of electronic knowledge" embodied in its "great laboratory." "We're fully prepared to be flexible, whatever direction electronic delivery systems take in the future." And coupling the labs with RCA's software businesses puts his company "in an almost unique position," Bradshaw claims.

Bradshaw doesn't seem quite as enthusiastic as his predecessor in singing the praises of RCA's SelectaVision videodisk. Still, he says, home video will be "one of the prime areas of consumer choice" in the next decade.

For all RCA's heavy involvement in satellite distribution, DBS remains for Bradshaw "one of the unknowns." And while HDTV's adoption would mean a lot of television set sales for RCA, Bradshaw has some reservation about the huge volume of change-over that would be involved. Eleven million television sets are now sold annually in the U.S., with 100 million in use. Adding one HDTV set to each TV household (77 million of them) would, at that sales rate, take seven years.

Looking back at the television network, Bradshaw singles out the importance of "the news component," saying "it will grow in the future." But that future, in his mind, is such that "I don't think someone coming back 20 years from now will be surprised."

Warner's Gustave Hauser

The chairman of Warner Amex Cable Communications might well be called "the compleat futurist." By 2001, in his opinion, the

whole country will be wired with broadband fiber optics systems, with all the cable systems being built today with coaxial cable rebuilt by then with fiber optics. "Homes will be equipped extensively for video and non-video services," with the "prevalence of microprocessors permitting access to and manipulation of a great deal of information." Large-screen television sets adapted for high-definition signals will replace conventional sets, with tie-ins to home video systems as well.

Across the two decades, the cable industry will necessarily move toward greater centralization, says Hauser. "Just as in the telephone business years ago, we will see an

evolution from just anybody doing it to a small number of highly professional organizations doing it." Forces driving that evolution include the need for "harmonization and standardization" within systems and the industry as a whole. "It might well come down to 10 companies by 2001," Hauser suggests, each with about 10% of the industry.

This national skein of broadband cable will be supplemented by greatly increased satellite capacity, Hauser thinks, but in his view that capacity will be devoted to point-to-point distribution of signals that will then be carried on local cable systems. Any DBS applications will be severely restricted by

Congratulations...

spectrum considerations, with Hauser believing that spectrum is too valuable for such use, when broadband offers the possibility of "thousands of TV channels entering the home."

What does that mean for broadcasters? By 2001, Hauser thinks, their signals will have disappeared from over-the-air, instead being piped into cable systems. "There will still be an appetite for a mass medium kind of program," he says, "and the providers of it [such as the three present networks] will likely continue to do so." But the economics of their businesses are likely to change, as there is an increasing diversity of programming offered. "Who decreed there should only be three networks?" he asks.

All this augurs well for his own company, Hauser believes. "I would expect our business to reach the multibillion-dollar level long before 2001," he says—perhaps even by the end of this decade.

□

Group W's Dan Ritchie

Westinghouse Broadcasting President Dan Ritchie thinks by 2001 the communications universe will have grown to "50 to 100 networks," in a process to which his company has already begun to contribute with Satellite NewsChannels, its joint venture with ABC. In that future, Ritchie isn't concerned about media concentration, on the minds of some people when Group W arranged to purchase Teleprompter, which until recently was the largest cable MSO. "I don't see two or three companies dominating the business," he says. Instead "we'll have gone from three networks to those 50 to 100."

Turning to the structure of that universe, Ritchie says: "If we can do the job, cable will reach 80% to 90% penetration long before 2001." At the same time, donning his group broadcaster hat, Ritchie maintains that "I don't see any serious damage on the horizon for the well-managed network affiliate." There will be erosion of audiences, which Ritchie says his independent station in San Francisco already experiences in a market with 60% cable penetration. But at the same time, he thinks, people will use their television sets more. "To reach a mass audience," he reasons, "a mass medium is the most efficient way to do it," and that's something anyone who wants "to sell soap" will still have

to do.

Local stations of the future, as Ritchie foresees them, will have satellite receive stations "and a surprising number will have uplinks as well."

"The biggest jump," insofar as Group W's division of its labor is concerned, will come in the direction of cable programming. Ritchie notes that "cable programming isn't easy or cheap," but that's a further reason he thinks large companies like his are needed in the field. At the same time, Ritchie adds, "I've seen enough to let me believe there's a lot of price elasticity" in cable programming, at least in the case of services that viewers are really anxious to have. "People substantially underestimate what consumers will pay," he says.

Finally, taking note of current DBS proposals and their designs on the future, Ritchie asserts that, with the exception of CBS's HDTV proposal, "I can't figure out a sensible thing to do with DBS."

□

Cablevision's Charles Dolan

The man who won the Boston franchise with a \$2 basic fee connects that bid directly to his view of cable's future, and indeed the future of electronic communications. "We'll have substituted a wired environment for an over-the-air system," Cablevision President Charles Dolan believes, by the end of the century. "Video channels in and out of the home will no longer be a scarce resource" but instead will be provided in quantity by "switched systems," combinations of telephone and circuits, "organized around switching centers." In line with the concept of virtually universal basic cable, Dolan says, "everybody will need to be included unless they have perversely decided that they don't want cable, the way some people, even now, don't have television sets."

That availability of channels will have significant implications, and not only for broadcasters, who will be feeding their signals to cable systems in Dolan's conception of the future. "The cable industry," he thinks, will "come to look very much like publishing, with entrepreneurs concerned [principally] about the economics of distribution," and not hardware. Drawing a comparison with publishing, Dolan says, "nobody has a position in newspapers or magazines on account of the printing presses they own." And he has

a shared caution for both cable operators and broadcasters: "Anybody who depends on his license or his franchise for the value of his company has a lot to worry about in the next 20 years. However, those who think of themselves as programmers, who remember their audience, should be OK."

"The idea that a franchise is a refuge from competition will erode," Dolan insists. "All we'll have is a decade with that." It's the strength a cable operator builds in programming and marketing that will be the defense against competition after this decade is over.

Dolan writes off DBS and MDS. "Wire is so much more perfect an instrument" for the delivery of video, he maintains. And while Dolan is making sure his systems are built with capacity to handle interactive technology if it develops, Dolan is still not sure whether some interactive services might not be more efficiently delivered by the telephone company.

□

TCI's John Malone

John Malone, the president of Denver-based Tele-Communications Inc., is not sure what the pattern of television use in the home will turn out to be by 2001. "It depends on the direction interactive takes—if the industry can make two-way work." "The ultimate question" Malone sees about two-way, and one that he doesn't believe can yet be answered, is "whether data can be more efficiently handled by the telephone company, cable or some hybrid."

"The toughest question I have to face today," says Malone, with an eye on the next 20 years, is whether franchise bids that require operators to spend upwards of \$1,000 per subscriber to build "will make me vulnerable to competition." "We can't get carried away and think we have 15-20 years to recover an investment." "We may be building the Erie Canal... we don't own the poles; franchises are nonexclusive... Somebody else could say to a city council: 'I'll just build 12 channels parallel to those guys, and charge less.'"

Bandwidth is cable's ultimate trump, says Malone. And while he sees a potential for cable companies to be divided into common carrier and cable halves, he says: "I don't believe entertainment will ever be a common carrier function."

MVP, again.

**For the second straight year,
ESPN is the Most Valuable Player
in cable sports.**

We've been up at the plate exactly two years now.
And we've never swung a heftier bat.

ESPN, the 24-hour cable sports network, is now reaching over 12 million upscale households...and is still growing. ESPN continues to attract more and more of the most respected advertisers in the business. Those who have been successful, not by reacting to fads, but by solid marketing and media planning. At last count, they number over 150 innovative national advertisers.

So when sports is your buy, complete your lineup with the MVP of cable sports, ESPN.

(212) 245-6650.

**The 24-hour
total sports network** 

1981

When *The Outer Limits* first ran on ABC-TV from 1963-65, the science-fiction anthology series opened each week with the video seemingly gone haywire. A voice from televisionland advised viewers not to try to adjust their sets—that an unknown “we” had taken control.

In the 1980's and beyond, *The Outer Limits* concept seems to apply to the entire programing business.

From the perspective of today's television generation, nurtured on a handful of channels, video appears to be going haywire all over the dial. Indeed as programers now race to catch up with technology, there's promise of an abundance that will test the limits of the television dial.

What's coming? Apparently anything that makes an inviting economic gamble. As MCA TV Chairman Lou Friedland says, “It always comes down to the simple question: Will it be profitable?” Thus the unknown “we” in control is untested consumer demand.

As the Time Inc. Home Box Office experience demonstrates, consumer demand isn't necessarily trackable in advance. Initial research gave Time the indication that the public didn't care about having pay TV. Time took a chance that it could create demand.

Given all the new technological avenues available to reach the public, no one questions that there will be more programing choice. Where the programing prophets differ is on the extent of change the marketplace will support, and in particular the impact of specialized services on traditional mass-viewing habits.

Today's *listening* habits also may be different from tomorrow's. Technology is offering radio new options to explore as well, as satellite networks, cable and perhaps even pay become part of that medium's vocabulary.

Edith Bjornson, Teleprompter's vice president, programing, offers an answer to cynics who claim that the economic and creative lessons of the past should prove that there aren't the dollars and talent to support the multitude of programs that some predict.

ENTERTAINMENT WEEKLY

Simply, she says, "Our thinking has been narrowed by our experience." As experience begins to change, so will thoughts about what's feasible.

A key question is whether more will mean better. Herb Schlosser, who built his reputation on the conventional side of television and now has crossed into the new media, is optimistic enough to predict, "It can be a truly golden age for program suppliers and creators." Schlosser, now RCA executive vice president in charge of its Home Entertainment Group, says the program market will no longer be dominated by the three television networks. There will be various configurations of service in broadcasting, cable and home video.

MCA TV's Friedland also thinks there will be "a substantial improvement in the amount of money spent" for programing. With more distribution windows, program development is "less a game of Russian roulette."

NBC Entertainment President Brandon Tartikoff believes that increased competition will improve programing quality at the networks and "drop out the low end of programing." Those shows following the "least-objectionable-programing" theory, he says, will "evaporate."

Yet a top executive elsewhere (who asked that his name not be used) expects that programing quality can only get "worse. There's going to be so much [programing] that the level of excellence can't be high."

First he cites the "limited body of dollars," then he claims that "there isn't that much creativity and taste" right now for ABC, CBS, NBC and the Public Broadcasting Service. "Cutting it into 50 slices," he adds, "can't make it better." If that is the case, why is he an active participant in molding a future of worse things to come? "I can't change it," he says.

Whatever the level of quality within the programing mix, few doubt that major over-the-air commercial networks—whatever their evaluation—will play a significant role. At least for the present, any reports of the networks' deaths do seem to be exaggerated. They are viewed to be strong survivors with advertisers still needing their mass reach.

While specialized services may open new programing doors, mass-appeal offerings in the foreseeable future are not expected to change dramatically. No full-scale upheaval appears to be in store, but some alterations are predicted.

ABC Entertainment President Tony Thomopoulos sees theatrical films, for example, "being funneled" through other media. It's already happening, he explains, as some of the public "appetite to watch feature films is being satisfied elsewhere" and the network is finding its return on movie investments decreasing.

While theatricals are on the decline on network TV, news and information are expected to play a larger role.

RCA's Schlosser sees the networks' edge in

the spontaneity they offer, particularly with their already established news organizations. Similarly, he says the networks have the set-up for nationwide, "truly spontaneous entertainment." Unlike the disk, for example, Schlosser says the networks can go "as it happens."

John Schneider, president of Warner Amex Satellite Entertainment Co., is another who sees greater network reliance on news, but he stretches the network strength to encompass "actuality" programing, adding that it is generally less expensive to produce an actuality hour than an hour drama. On the news division front, he says the process of expansion already has begun when a weekly *60 Minutes* breeds an afternoon *Up to the Minute* daily strip.

The future of series programing—particularly the situation comedy—is regarded as solid. CBS Entertainment President B. Donald Grant believes that the series "form as we know it today will always be the staple of network television," although content may range from a *Father Knows Best* to an *All in the Family*.

Schlosser explains that "the one thing we learned is that when you take characters the public likes and put them in a format it likes, there is a tremendous appetite to see [a series] frequently."

Cost-consciousness is expected to weigh heavier on network programers. ABC's Thomopoulos agrees that network dollars will have to be used more efficiently but notes that creativity is not totally based on the amount spent.

Although believing that there will be a continuing place on network television for spectaculars, Tartikoff thinks series costs will have to be watched more closely. He expects more "controllable" drama, perhaps without expensive car chases and the like. Following the same line of thought, he thinks westerns may be too expensive to come back full force as a genre but that there will "always be a place for family drama."

From an affiliate's position, Bob Bennett, president of WCVB-TV Boston, believes that a prime-time network schedule a decade hence may include one-third to one-half news and news-oriented programs. Again it's an economic judgment because "you can control your destiny." Bennett also thinks television plays make a significant comeback in place of the more expensive theatrical movies. He expects series to continue, and sports, he says, will always play a part—although a lesser one as more and more action moves to cable.

In the immediate future, at least, the top sporting events such as the World Series and the Superbowl seem to be network television's if only because of political consequences if popular television features went to pay television. Viacom International Chairman Ralph Baruch sums up the industry opinion that "legislation would come very quickly" if those events went pay.

As for public television, Larry Grossman, president of the Public Broadcasting Service,

believes it will survive because there always will be a need for subsidized programing "that represents the best." He makes comparisons to university presses, museums and public radio. Grossman doesn't believe cultural cable channels will fill that need, claiming that they will have to become oriented to mass entertainment to survive in the marketplace.

Joan Ganz Cooney, president of Children's Television Workshop, which has produced such PBS series as *Sesame Street* and *The Electric Company*, also doesn't think "public television is going to roll over and play dead." She says PBS is going to be strapped "but I don't see it going away." And, like Grossman, she is skeptical about cultural competition from cable. "When they say 'culture,' let's wait and see what they are talking about," she cautions.

On cable, the world according to the futurists couldn't be more wide open. The vast channel capacity has opened up programers' eyes to specialization and the prospects of making money from narrower appeal.

WASEC's Schneider expresses the attitude of many programers who used to go for mass numbers and who now look for a specific piece of the audience pie. While with CBS, he claims, "I was very naive" when he gave speeches about "The audience." Today Schneider stresses that the "public is not a monolith."

The over-the-air commercial networks' parent corporations seem to have realized that as well. Through joint ventures, ABC so far has its hands in cultural, women's/daytime, news and pay-sports cable services. CBS Cable, another cultural service, is soon to be launched. And RCA, owner of NBC, is involved with Rockefeller Center in an upcoming entertainment service with a goodly portion of BBC fare.

Elsewhere across the industry, investments attest to the belief, for example, that a movie channel is not just a movie channel. It can be all movies (The Movie Channel); movies and specials (Showtime); movies, specials and sports (Home Box Office), with other services ranging from Spanish movies and sports (Galavision) to black movies and sports (Black Entertainment Network) to R-rated movies (Escapade).

Other specialized fronts have produced children's programing (Nickelodeon), public affairs (C-Span) and video rock (Music Television), not to overlook news and sports. In the works are others ranging from health to weather.

Is a knitting or chess channel far off? Only as far as the chances for profit. By just 1984, programers expect there will be potential capacity on the various satellites to accommodate 84 full-time nationally delivered services.

Cable operators—at least publicly—express no fears about filling the channel capacity that even the new, larger systems allow. Of the 80-channel "Super Service" that Warner Amex Cable Communications

TELEVISION

Considering technology alone, and disregarding politics and economics, the U.S. telecommunications system of 20 years from now could look like this—the composite of a multitude of interviews with experts from across the technological spectrum:

In 2001 the United States will still be essentially a nonwired nation. That is to say, as today, most popular television and radio programming will reach American homes piggybacked on electromagnetic waves sent through the air—in other words, through the magic of broadcasting.

The cornerstone of the broadcasting medium in the future will not be the local station alone, however. It will be joined in the broadcast spectrum by high-powered communications satellites that, hurtling through space at 10 times the speed of sound, will beam multiple channels of programming to virtually every home in the country.

Terrestrial broadcasting will continue to play an important—albeit secondary—role in the future. Stations will be in a position to rebroadcast much of the broadcast satellites' national programming (although no community will have enough terrestrial stations to carry all the satellite signals available from above), making it unnecessary for viewers to buy special antennas to receive the programming directly from the satellite while mixing in some local programming and advertising.

The nature of terrestrial broadcasting also will be reshaped by the proliferation of low-power television stations. A number of mini-stations will pop up in every community, opening the medium of television to most who want to play.

Millions of Americans will want to receive the full range of satellite programming, which may consist of 100 channels or more. Most will aim inexpensive antennas from their rooftops or backyards to gather the satellite signals. But apartment and condominium dwellers and others who can't get a direct look at the satellites will hook up to master antenna systems or local cable systems.

As a television medium, cable will have reverted to what it was in its

TELEVISION

early years: a means of taking television to hard-to-reach places. The only difference between cable's past and future is that those places primarily will be high-rise in densely populated urban areas rather than in the homes of a small town.

Although the multi-point distribution services (MDS) will win more spectrum from the FCC in the years ahead—primarily to beam multiple channels of pay television across uncabled marketplaces—they will have a tough time competing with broadcast satellites and their local affiliates. The problem is that horizontally transmitted MDS microwaves (2 ghz) propagate poorly and are easily blocked by buildings and trees. What's more, reception of MDS signals requires a special antenna and receiver virtually as complicated and expensive as that anticipated to be required for DBS. Given that trade-off, eventually, a consumer will more likely invest in a satellite earth station capable of receiving multiple signals than an MDS antenna that will pull in only one channel. Thus the likelihood that MDS—as, in some cases, low-power TV—will be a medium of the moment, which will one day give way to something technologically superior.

It will not be just the delivery systems that will have changed by 2001. The pictures and sound of television will be vastly improved. Through the application of advanced electronic and computer technology, pictures will be displayed in the homes of the future on panoramic screens covering perhaps an entire wall. The extraordinary pictures, comparable in color and clarity to 35-mm film, will, when combined with the super high-fidelity stereophonic sound, create a viewing experience unachieved in today's best movie theaters.

A host of audio (radio) services will be broadcast along with the television programming by the satellites. But the outlook for AM and FM broadcasting is as bright (or as dismal) as the prospects for the private automobile. The radio broadcasters' market in 2001 will still be equal to the number of cars on the road and or the number of mobile situations the audience finds itself in. (The only thing that could short-circuit terrestrial radio's future is the development of an inexpensive, omnidirectional satellite antenna that could be mounted on cars to receive signals from satellites.)

The future also will bring with it a host of computer-based services to supplement telephone service and familiar radio and television programming in the home. Computers have been around for decades as tools of science, government and business, but for the most part have been too costly and too esoteric for the average consumer. Through two-way systems established by cable and telephone companies and one-way systems operated by broadcasters, the power of the computer will be brought into the home. Using low-cost "intelligent" computer terminals, consumers will be able to call up "pages" of information from vast electronic

libraries of computerized newspapers, magazines and libraries.

There will be plenty of "wire" in the communications environment of 2001 to carry such services locally among homes and businesses. "Twisted pairs" (telephone lines) and coaxial cable will gradually be replaced by fiber optics during the next 20 years. By impressing signals on lightwaves rather than radiowaves and channeling them through glass strands, the technology promises to drastically reduce the cost and difficulties of communications while increasing quality.

Such a technology in the hands of a carrier legally able to distribute television—cable television operators are and telephone companies are not—could challenge the dominance of broadcasting in 2001 or just beyond. As each day passes, however, the cable television industry's commitment to coaxial cable, a technology rapidly approaching obsolescence, increases with every mile of coax it strings or buries in Pittsburgh, Houston, New Orleans and the other cities and towns now under construction. When the telephone begins in earnest the shift to fiber in the 1990's to carry computer digital communication services to the home, the cable industry will be awaiting its first real profits from the urban systems built in the early and mid-1980's. It will be in no position to rewire with fiber.

Parallel but not necessarily in competition with the rise of broadcast satellites and the computer services will be the increasing presence of videocassettes—but not videodisks—in the home. The first of those technologies will allow consumers to build personal libraries of favorite programming, supplementing broadcast services of the future as phonograph records have supplemented radio in the past. VCR's will permit the taping of broadcast television and of the "home movies." Videodisks will have proved to be an excellent storage medium not only for pictures and sound but also for words and numbers, but they won't have found favor as a consumer item because of their inability to record.

In offering equipment for all these different media and services, the consumer electronic marketers of 2001 will take the same approach they did with high-fidelity audio. The consumer will build his home communications system to conform to his needs from a variety of discrete components. A typical system may include a VHF-UHF tuner, an AM-FM tuner, a multichannel broadcast satellite tuner connected to a rooftop antenna, a videocassette recorder and a computer terminal.

The telephone, essentially unchanged since its introduction over 100 years ago, will have shed by 2001 many of the wires—glass and copper—that limit its use today. By that year, every major urban area will have a cellular mobile radio system, permitting high-quality voice communications from anywhere within the service area with small lightweight transceivers.

The real revolution will come in the mid-1990's when mobile telephone service will be extended to every spot in the continental United States, regardless of how remote, through interconnection of cellular radio systems and conventional wired networks with a "land mobile satellite." The transceiver needed to talk through the mobile satellite will be no bigger than a cellular radio transceiver and could be made small enough to wear on the wrist.

Broadcast satellites—the medium of the future—are natural steps in the evolution of communications satellites.

As satellites have become more powerful through the years, the parabolic antennas needed to gather a signal of sufficient strength have shrunk in proportion. Improvement in the electronics, the loosening of stringent federal regulations and the mass production of earth stations (after the cable industry began wholesale use of them in the latter half of the 1970's) all contributed to earth stations' steadily decreasing cost.

Up to now, communications satellites have been designed for point-to-point or point-to-multipoint communications or program distribution. They operate with 4 ghz (C-band) or 12 ghz (Ku-band) frequencies and are characterized by transponders (satellite transceivers) with output powers of between five watts and 20 watts.

Broadcast satellites are a different breed. The gradual evolution of communications satellites—more powerful transponders and smaller earth stations—will be accelerated enormously to produce them. The first generation of broadcast satellites will possess transponders with as much as 400 watts of power focused on perhaps one-quarter of the country. (Fixed satellites, by contrast, scatter their power over the entire country.) Consequently, the signal strength of a broadcast satellite on the ground will be as much as 1,000 times greater than a fixed satellite and the size of the receive dish will be small indeed. Today's broadcast satellite applicants at the FCC say that dishes one meter in diameter will suffice for fringe coverage areas and that dishes as small as six-tenths of a meter will be suitable for reception toward the center of the satellite "footprint."

Broadcast satellites will combine the best of terrestrial broadcasting and cable television. Like a powerful VHF station, a broadcast satellite can deliver its product to virtually every home within reach of its transmitter. In the case of the VHF station, the reach is about the size of any metropolitan area. In the case of broadcast satellites, it is the entire country. Although broadcast satellites are plagued by rain attenuation—interference caused by moisture in the atmosphere—they have none of the problems terrestrial stations have with such obstructions as buildings, trees and mountains.

Not only can a broadcast satellite system—perhaps four separate satellites each serving a time zone—reach the entire country, but it also can deliver multiple chan-

rugged, cost effective vans... Philips equipped.

Photos courtesy Wolf Coach (Models A, C, D); Shook Electronics (Model B)

If you want the best mobile... for the best price... and with the best equipment... start with Philips.

These 4 standard fully equipped mobiles will consistently and reliably produce the quality you require for prime time and network feeds.

Selectively equipped with rugged, reliable equipment including:

- Philips LDK14S ENG/EFP cameras, or LDK5B triax or LDK25B multicore remote/studio cameras, or Philips' new LDK44 ENG/EFP cameras,
 - ADC or CDL switchers,
 - portable or rack mount 1" C type VTR's...
 - even lighting kits and mics,
- these vans are ready to roll with self-contained airconditioning and power generator systems.

And, these vans are designed for expansion and customizing.

Plus we offer total financing.

It's easy to get started. Call or write and our design team will aid you in selecting a model and equipment to match your budget and application.

Model C-16

A-10: 10-11' production area, 1-2 cameras, 1 portable VTR, audio mixer, video switcher, audio cart recorder, and ancillary equipment.

B-14: 12-14' production area, 2-3 cameras, 1 studio VTR, audio console, production switcher, audio cart and reel/reel recorder, intercom, and ancillary equipment.

C-16: See illustration to right. 16-18' production area, 2-4 cameras, 1-2 studio VTR's; other equipment similar to B-14.

D-22: 18-24' production area, 3-6 cameras, 1-3 studio VTR's, A/V routing switcher, 2 audio cart recorders, telephone system; other equipment similar to B-14.

CENTRAL DYNAMICS CORPORATION

The U.S. Broadcast Company for ■ **COL** ■ **PHILIPS** ■ **American Data**

nels into the home. Since numerous broadcast systems can be launched, the medium will one day offer as many channels as the urban cable system of today. (It is impossible now to determine precisely how many channels broadcast satellites will deliver since the plans for dividing the choice orbital locations and limited frequencies with other countries of North and South America will not be determined until the 1983 international conference on broadcast satellites.)

It can be said with some certainty, however, that there are likely to be more broadcast channels available than programming to fill them. Satellite Television Corp., the Comsat subsidiary that got the broadcast satellite ball rolling with an application to the FCC in December 1980, believes that there could be room for 110 to 152 channels to serve each of the United States' four time zones—a calculation believed to be conservative and realistic. It assumes that the satellites in orbit will be spaced 16 degrees apart (fixed satellites are now spaced three or four degrees apart), that 36 or 38 channels can be squeezed out of the 500 mhz of allocated spectrum (12.2 ghz to 12.7 ghz) and that each of the four time zones can be served from four orbital slots. The number of channels will be reduced, but not significantly, if a channel bandwidth wider than STC has proposed—to accommodate HDTV signals—is finally adopted as the international standard. A wider bandwidth would result in perhaps 27 channels per orbit slot.

Even after sharing with other countries of the hemisphere, it is entirely possible that the United States could end up with 90 to 100 channels per time zone. And if that's not enough, the satellite operators need only wait until the next band of broadcast satellite spectrum (22.5 ghz to 23 ghz) opens up in the early 1990's. According to STC engineer Leo Keane, the new band should be good for another 150 channels which would be divided up among the countries of the hemisphere and, since an earth station has more discrimination at higher frequencies, spacing could perhaps be halved and channel number doubled to 300 per time zone.

Fourteen companies have asked the FCC for permission to begin the construction of broadcast satellites prior to the 1983 international conference and chances are that at least half of them may receive the go-ahead. Prompt FCC approval of the applications could mean a dozen broadcast satellite channels beaming into every home in the country as early as 1985 or 1986—possibly before such cities as Washington, Cleveland, Detroit, Philadelphia and parts of New York are completely wired by cable.

Broadcast satellites would be the basis for the long-promised fourth network. By reaching millions of homes directly and millions of others through local broadcast stations and cable systems, a broadcast satellite programmer could put together an audience as large as those maintained by any of the three major networks. Once the audience was set and

counted, the advertising and programming would naturally and quickly follow. This is precisely what two of the broadcast satellite applicants, United States Satellite Broadcasting and Video Satellite Systems, have proposed. The success of such a network would beget even greater success as more consumers line up to buy and install equipment to receive it. As the network gained momentum, the three major networks would have to grab spots on the satellites or risk being left behind.

As a pay television medium, broadcast satellites will use the same technology being pioneered today by cable and subscription television operators. Addressable decoders attached to the satellite tuners in the home will allow satellite programmers to offer pay services on a monthly subscription basis or on the potentially lucrative pay-per-view basis.

Broadcast satellites will ascend to pre-eminence by 2001 simply because they will be the most efficient means of delivering multiple channels of television to the home. In an analysis of the comparative cost of delivery systems, Isaac Blonder, chairman of Blonder-Tongue Laboratories, found that "cable is the most expensive method of distributing signals." Cable systems cost anywhere from \$1.50 to \$5 per home per channel to wire while broadcast satellites can reach each home directly for approximately \$2 per channel, assuming a penetration of 20 million.

Besides its high initial cost, cable requires constant and costly maintenance. The "beauty" of broadcast satellites, Blonder says, is that "qualified engineers" are needed only to monitor the satellites. The receiving systems, he says, "can be operated by people at the lowest technical level and it won't hurt the overall system no matter how fumbling they are."

In a cable system, on the other hand, Blonder says, lack of careful maintenance could cause a system to deteriorate overnight. "It's a precision electronic package which a super qualified engineer has to understand thoroughly."

Although Oak Industries Chairman Everett Carter doesn't believe broadcast satellites will "knock out" cable, he does feel they will "slow down" or "suspend cable expansion." He too notes the high cost of cable maintenance and adds that the satellites will deliver a much better picture on top of it all. "And," he says, "I see satellites becoming less expensive as cabling becomes increasingly expensive."

Cable's primary problem is that it will never achieve the circulation potential promised by broadcast satellites. Thus, cable will be at a distinct disadvantage in the battle to procure high-quality pay programming and advertising dollars to support free programming.

Industry prognosticators show cable as having no more than 50% to 60% of the total television homes by 1990. That's more than broadcast satellites are expected to reach at the end of the decade, but whereas broadcast satellites have the potential to reach every

television home and then some, cable will have come to the end of the line. There will be no place for cable to grow and 50% or 60% penetration is insufficient to warrant the production of high priced programming.

Some time during the 1990's broadcast satellites will surpass cable and later they will cross over that threshold that will make the fourth and perhaps a fifth network possible and permit the development of advertiser-supported specialty programming. Even the programming network created to serve cable systems will be prompted to move to the broadcast satellites.

It will be ironic if satellites are the cause of cable's demise as a television medium. It has been the synerism of fixed satellites and cable that has made cable the thriving industry it is today. Since its inception in the 1940's as a means of delivering television broadcast signals to homes in areas of weak off-the-air reception, cable grew erratically and slowly for 25 years. The industry floundered until Home Box Office in 1976 began to distribute its programming to widely scattered cable affiliates by fixed satellites, which proved to be inexpensive and reliable. Seeing HBO's success, scores of other pay and advertiser-supported programmers followed suit.

Broadcast satellites are by no means cheap. First-generation broadcast satellite channels will cost 15 to 40 times more than fixed satellite channels. The four-satellite system proposed by RCA, for instance, will cost \$760 million. To lease a single transponder (serving one time zone) on a satellite will cost \$20 million a year. Four transponders (to reach the entire country) will cost between \$60 and \$80 million, according to RCA's filing. That's a lot of money considering that there will not be a single home equipped to receive programming from it, assuming the RCA satellites go up with the first generation of satellites in the latter half of the 1980's.

DBSC, another potential satellite broadcaster, would offer more affordable channels. A national channel (three transponders) could be had for approximately \$30 million a year, according to DBSC's Pat McDougal.

The high cost of the channels will retard the growth of broadcast satellite services in the early days, but will not stop them. Furthermore, transponders on subsequent generations of broadcast satellites will be far less expensive. The high cost of transponders on the first generation is caused primarily by the need to limit the size of the satellite (and, by extension, the number of transponders on each satellite) so that it can be lofted on an available launch vehicle. The problem will be resolved by the space shuttle and supplemental rockets to carry large satellites from the relatively low orbit of the shuttle to geostationary orbit. When size is no longer an important design factor, broadcast satellites may be built with as many as two dozen transponders and will benefit from economies of scale.

Although broadcast satellites will even-

Hitachi-5 Competition-0

That's the score in one-inch VTR technology.

We've gone the first generation of TYPE C machines *five* better...to help you get all the potential of one-inch out of your video installation. Here's what the competition *doesn't* give you.

• Tape guide retracts for threading ease • Air drum eliminates head contact in shuttle/standby modes

1. Retracting Tape Guide

Retracts for unequalled ease of threading; repositions with one micron accuracy for up to two million threadings. Provides the reliability of a quad thread system in a one-inch format.

2. "PRO" Tape Path

The protective reverse oxide ("PRO") configuration of the tape path means *only* the video and audio heads touch the oxide surface. All other transport mechanisms guide the tape by its reverse side. Result: noticeably reduced dropouts; longer tape life.

3. Instant Head Replacement

Pre-aligned head design permits easy replacement of video heads in three minutes. No adaptors or jigs; no adjustments required.

4. Audio and Video Confidence

The others only let you *see* what you're taping. We let you *see* and *hear* everything being recorded...simultaneously.

5. Non-contact Tape Shuttle

In shuttle and standby modes, tape rides on a cushion of air. Increases head and tape life immeasurably. Cuts frictional

resistance, yielding shuttle times of only 80 seconds end to end.

We could go on. With impressive features like microprocessor control; broadcastable slow motion; one-touch shuttle and jog; front access circuit boards; audio spot erase; and on and on. But why run up the score, when it's already no contest? See the Hitachi HR-200, it's equally impressive portable HR-100 model, and companion TC-200 Time Base Corrector.

• Full audio and video confidence
• "PRO" tape path reduces dropouts

tually be used as advertising media, their early success will be achieved through pay television. According to Oak Industries, broadcast satellites will be helped through their infancy by a large market unexposed to pay TV. Leo Jedynek, senior VP for corporate research and development, says Oak's research shows 17 million homes in 1984 affluent enough to buy \$250 antennas and unable to receive subscription television or pay cable. STC, a pay satellite broadcaster, predicts that it will penetrate 6% to 8% of the total television homes for between five million and seven million homes by the time its four-satellite system is in full operation. Since all the early broadcast satellites probably will be co-located, a dish installed to receive STC's programming could also pick up whatever is on the RCA satellite. RCA says that if five million homes were looking at its satellites, the cost of reaching each home would be a modest \$1.33 per month.

Besides the high cost of satellites, the major drawback to the broadcast satellite service is the need for special receive antennas—small parabolic dishes with associated electronics for tuning. Although many believe the awkwardness and cost (estimates range from \$250 to \$500) of the gear will keep the medium from ever getting off the ground, others feel the problem is overstated. "What's the difference between putting up an antenna to receive a local television station and putting up a dish to receive the satellites?" asks Ike Blonder, who has spent 30 years building television antennas.

The earth station problem will be ameliorated if all first-generation satellite programmers serve the country from the same orbital slot so that antennas don't have to be turned to receive different programming. Standardization of the electronics also would help. Some of this work will be done by the 1983 international conference that will set the channels and the channel bandwidths. It would benefit the entire medium if all tuners were made to receive the full range of channels. Otherwise an STC viewer would be faced with buying another tuner to pick up programming from other satellites.

Technology may erase many of the problems associated with the antenna by 2001. Walter Morgan, an independent broadcast satellite consultant, suggests that planar or waveguide antennas could one day be substituted for the familiar parabolic dishes. The planar would have to have the same surface area as the parabolic dish, Morgan says, but it would be perfectly flat. A one-meter parabolic antenna then could be replaced by a flat planar three feet square. Not only is the planar less obtrusive, Morgan says, but it is capable of being electronically steered from satellite to satellite across a wide arc without being physically moved. If the steering mechanism were controlled by a microprocessor designed to keep it locked on one signal, the planar could be mounted on a car or truck and mobile broadcast satellite service would have been born.

Morgan says there is no reason why the mass-produced planar couldn't be made as cheaply as conventional dishes.

The future of broadcast satellites is tied to a great extent with that of terrestrial broadcasting. The satellite service will never get off the ground without local broadcast affiliates to help build immediate mass audiences. And it is unlikely that every home in the country will ever be hooked up to an antenna to receive programming directly from the birds.

The marriage of terrestrial and satellite broadcasting systems will not only be financially beneficial to both parties, but it also will preserve localism in television. The local stations will insert local news and advertising into the national feeds from the satellites.

In terms of localism the low-power stations may have more impact on conventional broadcasting than will the broadcast satellites. Scores of mini-stations serving fractions of the full-service stations' coverage area could erode the latter's viewership and advertising revenue. Most of the mini-stations, however, will be low-cost, nonprofit operations intended to provide public services and public access to the airwaves. Since such stations can be built for as little as \$5,000 or \$10,000, they will be within the scope of any significant group. The consulting firm of Block, Butterfield & Reilly predicts that within the next five years 600 low-power stations will go on the air and that a full 450 of them will survive and generate \$500 million in advertising and subscription television revenue. But that is just the tip of the iceberg. There are thousands of LPTV applications on file at the FCC, and indications are that there are thousands more waiting for the FCC's processing freeze to be lifted.

The upshot of it all is a cornucopia of television programming. Every home will be able to receive multiple channels of pay and free television from local stations and direct from the broadcast satellites.

Along with the many channels of television programming the broadcast satellites will beam an array of audio services. Some of the services will be designed for reception directly in the home. But others will be intended for rebroadcast by conventional AM and FM radio stations. As they do today, stations will have the option of rebroadcasting a single feed or patching together a programming schedule from several network services and local programming.

□

The quality of television technology will undergo tremendous changes for the better over the next 20 years, brought about by the conversion from analog to digital technology and the adoption of a high-definition television standard to replace today's standards, now showing definite signs of age. The switch to digital, a spin-off of computer technology, will allow more faithful electronic reproduction of sights and sounds than analog technology. The HDTV standard will produce pictures twice as sharp as to-

day's standard and will feature wider pictures and stereophonic sound.

Most video signals are analog today. That is, a camera produces a fluctuating electrical voltage analogous to the brightness of a picture along one television scanning line. With digital television, the fluctuating voltage is sampled millions of times per second and each sampled voltage is assigned a unique code word made up of several binary digits. The industry seems to have compromised on a sampling rate of 13.5 million times per second. At eight bits per sample, the digitizing of a television picture produces a bit stream of 108 megabits per second (mbs).

The digitizing of video guarantees that the videographer will get the most out of the existing television standards. Digital devices are transparent; they add virtually no interference to a signal. Signals can pass through digital processors, switchers, special effects generators and videotape recorders with no apparent degradation. Digital studio equipment also is easier to automate and is more stable and reliable than analog equipment. Although the initial conversion from analog to digital will be costly, the cost of individual digital equipment is expected to be less than the cost of analog.

The heart of any video production studio is the videotape recorder, and before the studio can go digital a practical digital videotape recorder will have to be developed. Several companies have shown prototypes, but they may be some years away from the marketplace. Some believe the machines are already perfected and that manufacturers are merely waiting for the adoption of standards and more return on their investment in the development and production of the one-inch analog recorders introduced just three years ago. Dennis Fraser of NEC America discounts such talk, however, saying the digital recorder is simply not cost competitive with today's analog machines. They will be within three or four years, he says.

When it does come, digital will work wonders in program production. In the course of making a program, any given portion of a program must pass through a recorder at least three or four times. Each time it does, a significant amount of noise is added. After just 10 passes through a recorder, the picture is hopelessly distorted. Such technical limits restrict the creativity of the producer. A digital recorder, because of its transparency, can create multiple generations of a picture, perhaps as many as 50 without causing it to decay.

The signal will be passed around the studio with fiber optic cable rather than coaxial cable. The glass fiber is immune from interference created by power lines and electrical devices and is itself remarkably transparent—literally and figuratively.

Many of the benefits of the digital studio will be lost if the signal emanating from it is distributed in the analog mode. Distribution systems—satellites and terrestrial

microwave—will therefore make the conversion to digital along with the studio.

The digits will also gradually infiltrate the television receiver over the next decade. Because of bandwidth restrictions and compatibility problems, the signal from broadcasters—terrestrial or satellite—to the home will remain analog for some time, but, says Kern Powers, a staff vice president at RCA Labs, the “first thing the receivers are going to do is convert the signal back to digital to do the signal processing.” Don McCoy, head of CBS Technology Center, agrees with Powers. An inexpensive digital frame store in the receiver, he says, will bring a wealth of benefits. It will eliminate ghosts, permit stop action and significantly improve picture quality.

Digital television's one major flaw is the tremendous bandwidth required for its transmission. The raw digital signal demands a channel 50 mhz or 60 mhz wide. Fortunately, digital television can cure itself of its profligate use of always scarce spectrum. According to Dick Green, a colleague of McCoy's at CBS, there are several kinds of bandwidth compression schemes that can be applied alone or in concert with one another. One technique is entropy encoding. “If you look at the statistics of a picture,” says Green, “you find that certain picture elements occur very frequently and others very rarely. So it's wise in your coding scheme to use the minimum number of bits to send those elements that occur most often.” Green makes the analogy to the Morse code, where the letter “E” is represented by a single dot.

McCoy adds that the frame store in the receiver can also be used to reduce bandwidth. “We can retain the common elements at the receiver and only send the new elements to update,” he says. “The efficiency becomes enormous.”

Despite the wonders of digital technology, it can only do so much for the U.S.'s NTSC television system, originally adopted in 1941 and modified for color in 1951. Improvements in the NTSC system are restricted by the 525 scanning lines that determine vertical resolution, the narrow video bandwidth that constrains horizontal resolution and the picture's narrow aspect ratio.

The motion picture industry and marketplace demand for large-screen television are pushing the industry toward what has become known as high-definition television is pushing the industry toward what tall and vertical resolution (perhaps 1,150 scanning lines) and a much wider aspect ratio. The movie industry is clamoring for HDTV so it can replace antiquated film technology with video. Hollywood types like Francis Ford Coppola, Glen Larsen and George Lucas see video as a less costly and more creative medium than film. At a recent seminar on HDTV in New York, Coppola said video will transform the art of moviemaking by allowing movies “to be mixed like music instead of being edited.” Movies produced on HDTV videotape could be transferred to

film for theatrical distribution or transmitted by satellite directly to theater.

There were 57,132 large-screen projection television sets sold last year in the United States even though the images they produced are marginal at best. They magnify the inadequacies of the present television system. The NTSC is designed to be viewed from a distance of six times the picture height. To properly watch a screen five feet high requires the viewer to sit 30 feet away. He might as well watch a foot-high screen from six feet away. An HDTV system would allow a viewer to sit twice as close to the screen so that a large screen would fill a much larger portion of his field of vision.

Because of the enormous bandwidth required to carry a HDTV signal, the HDTV standard will be analog in its initial applications. But as compression techniques evolve, a digital HDTV standard could be adopted compatible with the worldwide digital standard. By 2001 there are those who believe HDTV will be available in every home, delivered by broadcast satellites and by special terrestrial broadcast stations granted extra wide channels.

The HDTV could also be received in homes without HDTV sets although in a much degraded form. Conventional broadcasters could pick the HDTV signal from the satellite, downconvert to the 525-line standard and rebroadcast it through a standard six-mhz VHF or UHF channel. Homes equipped to receive broadcasts direct from the satellites could purchase devices to perform downconversion at home.

The HDTV signal will, of course, have high fidelity stereo sound, but stereo television will be old news by the time HDTV rolls around. A committee of the Electronic Industries Association is now working to develop a standard for stereo sound, and according to Tom Keller, the chief engineer of the National Association of Broadcasters and the committee's chairman, television stations could be broadcasting stereo “within two years, with luck.” In addition to stereo sound, Keller says, the standard will accommodate a second channel that could be used for second-language sound tracks. The standard would also incorporate a noise reduction system to enhance the sound quality.

Audio, in general, is undergoing the same digital revolution as video except that events are happening more quickly in audio. Sophisticated multitrack tape recorders already are in widespread use in audio production, and Sony has a device for recording sound digitally on an unmodified Betamax videocassette recorder. Since audio—in either an analog or digital manifestation—has but a fraction of the bandwidth as digital video, transmission of audio signals is not nearly the problem.

□

When Johann Gutenberg developed movable type in 1436-37, he invented mass communications and an entirely new storage

medium: the printed page. Before Gutenberg, putting words on clay tablets, papyrus or paper was an assiduous and time-consuming task. Consequently, few copies of any work existed and few individuals had access to them. By devising a means of easily making many copies, Gutenberg created a way to disseminate words (knowledge) among the masses, who suddenly had a reason to learn how to read.

Although the first books off the Gutenberg press were copies of the Bible—the German knew a best seller when he saw one—the ease with which books could be produced on the press gave birth to books containing facts and ideas that would never have been recorded or widely circulated before Gutenberg.

The printed page was a superior storage medium, not because it was more durable than the handwritten page, but because many copies could be made, improving the survivability of knowledge. Never again would man have to fear a fire like the one that destroyed the library of Alexandria in the third century and set back human progress by centuries.

The 19th and 20th centuries gave rise to some clever ways of recording sights and sounds. Still photography flowered in the mid-1800's and gave birth to motion pictures at the turn of the century. The phonograph record and later magnetic tape were invented to record sounds. And not long after the invention of video came the appearance of a video recorder.

The primary vehicle for recording and circulating words, however, remains to this day the printed page. It has served mankind well for over five centuries, but its days may be numbered. As the printing press replaced the scribe, it is itself being replaced, at least partially, by the computer. Born less than 50 years ago, the computer is revolutionizing the entire business of storing information and, with the aid of telecommunications, the way it is distributed.

Computers were originally designed to solve complex mathematical problems, automate machinery and detect patterns in and reorder vast amounts of information. For computers to perform these tasks, they required great “memories” to store the information to be worked on and “programs,” additional instructions, on how their work was to be done. As the machines evolved and their memories increased, computer operators found that aside from their other capabilities computers were excellent information storage media. Enormous amounts of information could be tucked away in computer memories and quickly and easily retrieved with a few keystrokes. What's more, the information could be called up on remote terminals and other computers anywhere in the world.

For the last few decades the computer has been the tool of government, science and business. What has been lacking is a way of making the computer's prodigious powers accessible to everyone. Open access to com-

puters, particularly their information banks, is what the home information revolution of the next two decades will be all about. Those who think the revolution has been a long time coming should be thankful that it did not take 5,500 years—the time that elapsed between the invention of writing and universal access to it made possible by the Gutenberg press.

Videotext and its somewhat less capable cousin, teletext, are the technologies that will bring the computer into every living room. By utilizing the conventional television set as a display terminal, videotext and teletext will give every owner of a television set entry to the world of computers for a small incremental cost. The price derives from the decoders, which as add-ons to the set will decode and display in numbers, letters and simple graphics the digital information received from the computer, and the keypad or keyboard, which will permit the user to pick out specific "pages" of computerized information and, in the case of videotext, "talk back" to the computer.

The nature of the two systems will dictate, to a certain extent, the types of media that they can employ. Videotext can be set up over a two-way cable system, telephone lines and the fiber-optic networks that will interconnect most homes by 2001. Broadcasting, a one-way medium, is a natural for teletext. All four classes of broadcast stations—AM, FM, full-service television and low-power television—as well as broadcast satellites could be used to deliver teletext services to homes.

The nature of the information served up by the systems will be diverse. It will include news, weather, travel schedules, emergency information, real estate listings, classified and display advertising, catalogues full of merchandise, instructional and reference material and perhaps entire novels. The system also will offer a closed-captioning service that will help the hearing-impaired or translate programming into other languages.

Videotext's interactive (two-way) capability gives it a distinct advantage over teletext when it comes to information retrieval. In a videotext system, all pages of information sit passively within the computer's information banks. Using a keypad, the consumer asks for a specific page and the computer—reacting at the speed of light—immediately sends it. The amount of information—the number of videotext pages—is limited only by the computer's capacity and that of any other computer with which it may be interconnected. Theoretically, videotext information capacity is limitless.

Because it is interactive, videotext is capable of far more than information retrieval. It also can be used to order and pay for merchandise, respond instantly to surveys and referenda and, for example, to make banking transactions.

A teletext system, confined to one-way transmission, is configured differently and, in

practice, does not have the information capacity of videotext. A limited number of teletext pages are transmitted sequentially and cyclically during the vertical blanking interval (VBI) of a conventional television broadcast. The teletext user signals with his keypad for his decoder to grab a specific page from the stream of pages and display it on his television screen.

The VBI is the fraction of time it takes for the scanning beam of the television set to move from the bottom of one picture frame to the top of the next. During this time the scanning beam traces 21 diagonal lines as it moves back and forth up the raster, but these lines are "blanked" (made invisible). Many of these lines, each representing tiny fractions of a second, are used to transmit signals critical to the television picture. But as teletext proponents point out, perhaps nine of them could be used for teletext transmission.

A typical teletext system, using just a few lines of the vertical blanking interval, can offer just a few hundred pages without making the user wait an unduly long time for the page he selects to be transmitted and displayed. It is axiomatic in the teletext planning that the more pages of information broadcast, the slower the access time. Both factors—limited number of pages and slow access times—detract from the applicability of teletext and must be weighed against each other in developing a service. KNXT(TV) Los Angeles has been broadcasting an 80-page teletext magazine since April. The users must wait an average of seven seconds for each selected page to appear. While that doesn't seem like a lot of time to wait, a teletext page is not much to wait for. A single page contains only 160 words, significantly less than a typewritten page or three or four inches of a typical newspaper column. If all a consumer is offered is 80 such pages he may have little incentive to pay for a decoder-equipped set.

Teletext systems are being tested or planned in the United States by CBS, KCET(TV) Los Angeles, NBC, Westinghouse Broadcasting, Field Communications and the Public Broadcasting Service. The one question they're all asking is: What is the market potential of teletext broadcast over the vertical blanking interval? It seems that most are bullish on the prospects for teletext. Strategic Inc., a San Jose, Calif., consulting firm, predicts that by 1990 some 20 million homes could have some form of teletext.

Teletext also would be enhanced considerably if an entire television channel were devoted to the service and if a telephone line were used to talk back to the teletext decoder computers. A full channel would allow the transmission of hundreds of thousands of pages in the same time that two lines of the vertical blanking interval would pass 200 pages. Although such capacity is still not as great as the millions of pages that will be contained in a typical videotext computer, it is presumably sufficient to keep happy the consumer who has made a modest in-

vestment in a teletext decoder.

The rise of the videotext and teletext systems in the 1980's will create an extensive infrastructure of information suppliers and service providers. The infrastructure will form the foundation of a nationwide communications system fully integrating computers and communications. Advancements in computer science and integrated circuitry will put highly sophisticated (by today's standards) terminals in homes to facilitate access and use of the system. Telephones will use the same wires as the computer services and will be enhanced by video. The picturephone, which failed to find a market when it was first introduced by AT&T in the early 1960's, will be reborn. While the picturephone will serve some homes, it will be used extensively by business institutions for videoconferencing. Such electronic gatherings will cut down the time spent traveling and the energy needed for transportation.

The integrated communications systems will be built up gradually upon the existing telecommunications networks of wire and cable. By 2001 the system will rely on fixed satellites to handle the long-haul traffic and the revolutionary medium of fiber optics for the short hops around town (as well as some of the long ones across several states).

□

For more than a century there had been only two ways of getting an electronic signal from A to B: radio waves and wire. The last 15 years however, have given birth to a third medium, fiber optics, that will replace most wires and cable by 2001.

The new medium uses pulsating light beams as the information carrier. The light is fed from transmitter to receiver through hair-thin glass fibers, far more transparent than the highest quality window glass and flexible enough to tie into a knot.

Fiber optics is the heir apparent to coaxial cable in virtually every conceivable application. A single fiber will one day be able to carry dozens of multiplexed telephone signals and tens of thousands of telephone conversations and, since many fibers can be bunched together in a single cable, a fiber system will be capable of delivering hundreds of television channels or their equivalent in audio and information services to homes and offices.

Fiber also is sure to find its way into the production studio, where it will help to preserve the high-quality signals as they are processed. CBS's Dick Green says there is a "synergism between digital television and fiber optics. Fiber can carry 600, 700 or 800 megabits per second over reasonable lengths."

The 21st-century technology has an antecedent in the 19th century. Alexander Graham Bell, four years after contributing the variable-resistance telephone to telecommunications in 1876, built the photophone, a quaint device for transmitting voices with light beams through the air. On April 1, 1880, he tested the "wireless"—and it worked. Bell

sent a message more than 213 meters using modulated sunlight and the recently discovered light-sensitive properties of selenium as a demodulator. Unfortunately, sunlight cannot be counted on, and the rapid dispersion of the transmitting light beam made reliable communication impossible. Also, Bell's system was restricted to line-of-sight transmission.

In the 1950's, lasers, which could sharply focus light into narrow and powerful beams, were heralded as a possible new communications technology, but—like Bell's photophone—the lasers lacked a suitable transmission medium.

As the November-December 1980 issue of *RCA Engineer* notes, lightwave communications lay dormant until K.C. Kao and G.A. Hockman released the results of their work in 1966. They proposed the use of glass fibers as a pipeline for carrying the laser beams. The best glass then available was inadequate for the task, they asserted, but by reducing the impurities in glass, light transmissions over long distances could be practical.

Building on their conclusions, countless research and applied scientists worked on perfecting the glass fibers and lasers and light emitting diodes used to generate the signals, the "repeaters" used to regenerate them and the detectors used to translate the light beams back into data, sounds or pictures.

Everybody seemed to recognize immediately the technology's broadband capabilities and set to work to make fiber optics a practical tool. A whole new field of integrated optics has been created out of this effort. Engineers are putting modulators, lasers, lenses and filters on a "chip," just as the makers of integrated circuits put capacitors, transistors and resistors on chips.

The technology has already been put to work by the telephone companies, which have found fiber to be a cost-effective alternative to conventional telephone trunk lines. General Telephone & Electronics claims to have installed the first fiber link carrying regular telephone traffic in 1977. The 5.6-mile-long link carried up to 24 simultaneous conversations on a pair of fibers between switching centers in Long Beach and Artesia, Calif. The first large-scale application is AT&T's Washington-to-Boston line. The 611-mile digital link will be capable of carrying 80,000 simultaneous conversations on 12 fibers. The first half of the system—from Washington to New York—should be operational by the year 1983.

In addition to far greater potential bandwidth, fiber optics has many other inherent advantages over coaxial cable. Signals carried on a fiber are immune from electrical interference produced by radio waves, power lines and lightning and—since the fiber signals radiate no electromagnetism—there is no cross-channel interference to worry about. Fiber is virtually impossible to tap and thus affords a high level of security. A signal sent on a fiber can go much farther without having to pass through a signal-degrading

repeater than one sent on a cable. Fiber also is lighter and easier to install than the typical coax cable, which, by comparison, is heavy and clumsy.

Perhaps the chief advantage of fiber is its relative inexpensiveness. "We are talking about sand and borax," says Lawrence DeGeorge, president of Times Fiber Communications. Coax, on the other hand, is "pure energy," he says. "All the plastic components are petrochemical-based and the aluminum requires a lot of energy to process." Alvin Toffler, in his "The Third Wave," makes the point graphically: "The same ton of coal required to produce 90 miles of copper wire can turn out 800,000 miles of fiber!"

□

There will be no dearth of fixed domestic satellite capacity to serve the long-distance communications needs of 2001. Many of the fixed transponders now used for video distribution will be freed up in the move to the higher power broadcast satellites. Andrew F. Inglis, president of RCA Americom, has calculated that over the next nine years, total transponder capacity could grow from 168 transponders to 984 transponders, assuming full use of the C-band and Ku-Band spectrum and three degree satellite spacing. (Just two weeks ago [BROADCASTING, Oct. 5] the FCC began an inquiry looking toward reduction of satellite spacing to two degrees.)

If that is not enough to satisfy the communications industry's demands, another band with five times as much spectrum (2,500 mhz) as either the C-band or K-band will then open up. It will be the Ka-band at 22 ghz.

What's more, because the satellites being planned for use in the band contain switched multiple-beam antennas, the allocated band could be reused perhaps four times, resulting in a total effective capacity of 10 ghz per satellite. And since satellites using that frequency can be spaced one or one-and-a-half degrees apart, the 10 ghz can be multiplied many times by launching additional satellites. In what may or may not be an understatement, Joe Sivo, who heads the National Aeronautics and Space Administration's Ka-band development project, says: "Multiple satellites of that size look like a very, very good building block for communications systems of the 1990's."

The Ka-band satellites envisioned by the NASA planners would have 18 spot beams covering 18 major urban centers. Each of the beams would lay down a footprint 125 miles wide. In addition, the satellites would have six regional "scanning beams" each that would literally scan within a narrow beam one-sixth of the continental U.S., sending and receiving bursts of digital information to every tuned-in earth station in the beam's path. What's so amazing is that one entire scan of the region would take only a tiny fraction of a second, so fast that a telephone conversation could be held without a single syllable being lost. Instead of scattering

power over a large area, Sivo says, the satellite's scanning beam "shares its power on a time basis."

Signals flowing through the various fixed and scanning beams will be routed through an on-board switcher.

The scanning and the switching are untested satellite technologies and the Ka-band an untested spectrum. To try out the practicality of all this, NASA is now seeking funds to place a scaled down Ka-band satellite (perhaps four fixed beams) into orbit during the late 1980's. Although the satellite would not be configured for optimum testing of television broadcasts, Sivo says, broadcasters will be welcome to send television signals over one of the spot beams and extrapolate the results.

□

Mobile communications from the most remote areas of the country will be possible in the 1990's through a similar type of multibeam satellite, operating at much lower frequencies. A single "land mobile satellite" will serve the entire country with scores of contiguous spot beams, interconnected with one another through the on-board switcher routing and with cellular mobile radio systems in urban areas and the wired communications network.

The cellular radio system, which already exists in experimental form, divides a city into cells, each served by its own transmitter/receiver. A mobile transceiver in any one of the cells is linked by the central transmitter/receiver with the wired telephone network. If the transceiver passes from one cell into another, its signal is automatically passed to the new cell's transmitter/receiver without interruption.

The land mobile satellite permits the same kind of service, except that the service area is the nation, not a single city. The satellite beam will be powerful enough and its receive antenna large enough that small hand-held transceivers with small omnidirectional antennas will be sufficient to tap into the system.

The satellite itself will be unlike any other communications satellite before it. The satellite will possess an antenna at least 150 feet wide that will catch the weak signals from the ground and bounce transmissions back to earth. To get such a satellite into space the antenna will be wrapped into a tight cocoon and deployed in low earth orbit. The satellite with fully extended antenna will then be pushed by small rockets to its permanent orbiting position. NASA is seeking development funds for a land mobile satellite that would operate with frequencies around 800 mhz and cover the country with perhaps 87 contiguous spot beams.

According to Lockheed, which is developing the immense collapsible antenna for the land mobile satellite, if the antenna were made wide enough—perhaps 600 feet—the transceivers needed could be made small enough to wear on the wrist. The day Dick Tracy's creator foresaw will have arrived. ■

DELTA BROADCAST PRODUCTS

AMC-1

The Amplitude Modulation Controller is the only modulation controlling system that provides a completely closed loop around the transmitter. The sampling of actual modulation levels after the PA output network assures precise adjustment for optimum modulation levels. The AMC-1 also keeps a digital count of positive and negative overmodulation bursts for both present and previous one minute periods.

DAM-1

The Digital Antenna Monitor couples pushbutton ease of operation with digital accuracy. The DAM-1 will accept RF samples from up to 12 towers (with an auxiliary panel) and features $\pm 1^\circ$ phase and $\pm 2\%$ current ratio accuracies. Remote panels and other accessories are available.

AAM-1

The Analog Antenna Monitor gives stable phase and ratio readings even in high RF fields. Separate phase and ratio mirrored-scale meters assure accurate meter indications.

RCS-1V

The RCS-1V Remote Control System combines microprocessor technology with simplified operation. Features include direct interface boards for antenna monitors, patented remote modulation bargraph, automatic logging, and synthesized speech telephone interface. The modular design allows the customer to plug in additional input or control boards to expand remote control capabilities even after the system is operating in the field.

APC-1

The Automatic Power Controller is your insurance against citations for over- and under-power operation. The APC-1 continuously monitors the transmitter output power, and makes automatic power adjustments with the transmitter loading control. This assures proper power adjustment at all times.

6730-E
6740-B

Designed to switch two transmitters from antenna to dummy load, the 6730E interfaces with 1 5/8 inch coaxial cable. For 3 1/8" lines, the 6740-B transfer switch is used. Either manually or remote controlled, the Transfer Switch is fully interlocked and can be wired to existing equipment to prevent "hot" switching.

TCA

State of the art antenna current metering has arrived in the TCA Ammeter Systems. Accurate, Modulation-free, temperature stable current indications are found in the TCA. Models include single and dual scale meters.

TCT

Delta's Toroidal Current Transformers provide accurate sampling current and phase values without the problems associated with sampling loops. Three output voltage ranges are available, as well as high voltage models for high-power facilities.

OIB-1

OIB-3

The Operating Impedance Bridge measures the impedance of networks, radiators, and the like while they operate under full power. VSWR as well as complex impedances of up to $400 \pm j300$ ohms can be measured.

The OIB-3 Operating Impedance Bridge provides extended resistance and reactance ranges, measuring up to $1000 \pm j900$ ohms. The bridge has a built-in carrying case and RF amplifier for improved nulling.

RG-3

The Receiver/Generator combines a two-watt RF output and a correlation detector circuit that virtually eliminates interference problems. The RG-3 can be used in conjunction with any conventional impedance bridge including the OIB series.

CPB-1

The Common Point Impedance Bridge is designed for permanent installation; and allows continuous monitoring of the common point, thus facilitating network adjustment. This model can be provided with one of Delta's TCA ammeters mounted in the front panel.

Congratulations from one pioneer to another

WSPA went on the air February 17, 1930, as South Carolina's FIRST radio station. The following year **Broadcasting** rolled from the presses as the FIRST publication devoted exclusively to the new and exciting medium which would change the habits of the American people.

In 1947, WSPA-FM became the first frequency modulation station in South Carolina; it later became the first in the Southeast to broadcast in stereo.

WSPA-TV, a CBS affiliate, went on the air in 1956. It was subsequently the first station in South Carolina to broadcast in color.

During these 50 years **Broadcasting** has pioneered in helping to set the course that has made the American system of free broadcasting the envy of the world. The WSPA Stations extend heartiest congratulations to Sol Taishoff and **Broadcasting** on achieving this important milestone in printed media history. May both continue to thrive and prosper!

Serving the Greenville, Spartanburg, Asheville Market

As the 21st century rushes toward us, the technological revolution in telecommunications, already under way in the U.S. for a couple of decades or more, gathers speed. And the promises it holds are enormous. For those concerned about the U.S.'s place in the world, telecommunications is the new symbol of American leadership. The services—computers talking to computers; instantaneous, multipoint communication in text and living-color graphics—are awesome to contemplate (if a touch Orwellian). And for those concerned about the application of the First Amendment to all publishers, electronic as well as print, the diversity of ownership and of media that the explosion in technology makes possible seems to offer the means of bringing that about: Scarcity—the perennial justification for regulation—is giving way to abundance.

And yet, it's not an exaggeration to say that those much-to-be-desired consequences of American genius (how long has it been since "American genius" was mentioned in other than ironic terms?) are not likely to occur as a matter of natural law. The public policy governing telecommunications development in the U.S. for the past 50 years and more must be reconstituted in a manner that not only meets the needs of today but those of the next generation.

It's no easy task. As Congress and the FCC deal with it, they are subjected to conflicting pressures applied by competing forces with enormous stakes in the outcome. It requires fresh scrutiny of principles that have long served as the foundation of economic and public policy in this country.

For instance, do classic antitrust principles continue to serve the public interest in telecommunications matters? To what degree will the First Amendment be applied to the new technologies—to what is being called "telepublishing" or the "electronic press?" And those questions hardly scratch the surface. Public Policy Forecasting Inc., of Potomac, Md.—a firm whose business is public policy forecasting and whose clients are private companies and government agencies—has identified almost 2,000 public policy issues likely to be raised by the

emerging information technologies.

There's no certainty things will turn out as expected: The public policy ball could take a funny bounce. Ithiel de Sola Pool, a professor of political science at the Massachusetts Institute of Technology, in a paper on the implications for the First Amendment in the passage "From Gutenberg to Electronics," says a disturbing question is suggested by the fact that electronic media today are tightly regulated as to who may provide what service to whom: "If virtually all communications become electronic, will the legal norm that governs them be the civil liberties tradition of the print media or the regulated tradition of the electronic media? As publishing becomes an electronic activity, will the producers of text find themselves under the same regulations that govern the electronic communications?"

Some observers have indeed raised the question of whether, for instance, the fairness doctrine will be applied to users of teletext service. And, as Pool notes in his paper, the FCC, in its Computer Inquiry II proceeding, would leave computing unregulated while licensing and controlling communications. (The Senate bill deregulating AT&T similarly restricts AT&T's ability to control content in the new era of telepublishing.) "The irony," says Pool, "is that the Constitution has it the other way around. Congress's power stops at communication."

Whatever dispute there may be over policy, there is no controverting the fact of the revolution bringing abundance where there was scarcity. UHF television, once regarded patronizingly as a stepchild of the mass media, is showing strength. Radio stations continue to proliferate. Even before the FCC adopts rules governing the new service, the demand for low-power television stations is awesome. Cable television now serves 27% of the country's television homes, and is moving from its mom and pop community antenna origins to an information-dispensing business that worries AT&T (and, in turn, is big enough to be worried by it). Multipoint distribution service is providing pay TV services, and videocassettes and disks are finding a place in the video market. Then there is direct broadcast satellite service: The 14 DBS applications filed with the FCC in July are proof enough of the enormous interest of entrepreneurs in providing programming services. (The Communications Satellite Corp., one of the applicants, has petitioned the commission to dismiss six of the applications—including two by groups of federal penitentiary prisoners—on grounds of being incomplete or late-filed, or both. Nevertheless, the conflicts among even the remaining proposals in terms of technical requirements do not augur well for swift action by the commission in adopting DBS standards and policy or clearing the way for even an interim operation for years.)

Nor is that all. For what Pool refers to as an "electronic superhighway," on which a

variety of communications can travel, is being built. Teletext and videotext services are struggling to be born in this country and make telepublishing a reality. Electronic data processing is already widespread. And the companies involved in the research, manufacture and distribution of communications equipment offer eloquent testimony to the fact that the information age has arrived—AT&T, IBM, Control Data, RCA and Texas Instruments, to name but a handful. And if Exxon is still regarded primarily as an oil company, its emergence in the public mind as a factor in the development of communications high technology is only a matter of time.

□

Telecommunications, then, is big business. According to a Department of Commerce study, "The Information Economy," by Marc Porat, the proportion of the labor force in the information sector had grown from 25% to 50% in the 25-year period ending in the early 1970's. And Representative Timothy Wirth (D-Colo.), chairman of the House Telecommunications Subcommittee, notes that more than half the nation's gross national product—now estimated at almost \$3 trillion—is based on the development, storage, transfer and use of information.

The onrush of telecommunications technology is seen as transforming in the years ahead even middle-class homes in developed countries into information centers. Pool estimates that most such homes have invested \$1,500 in a telephone, a television set, a radio and a hi-fi phonograph or tape player. "One may guess," he writes, in a paper for the International Commission for the Study of Communication Problems, "that a future broadband two-way computerized home system would include a videophone with conference capability, an intelligent processing and electronic mail terminal, a multichannel optical fiber TV with feedback controls, and a video recorder and player." Given the sharp decline in the cost of microprocessors (20% annually), computer memories (40% annually) and communication (11% annually), he said, "the cost of such a facility should be about twice that of the present plant" (in constant dollars).

In those terms alone, telecommunications is important to the nation's economy. Graham Molitor, president of Public Policy Forecasting, sharpened up that reason in an article in the April 1981 issue of *The Futurist*. America, he wrote, is at present "by far the world leader in information industries. Information equipment sales for 1980 are estimated at \$30.5 billion in the U.S., contrasted with \$8.6 billion in the second-ranked nation, Japan." He also noted that America leads all other countries by large margins in the production of computers—\$13.3 billion to second-ranked Japan's \$2.9 billion, according to 1979 figures. But, he adds, there are signs America's competitors—West Germany as well as Japan—are catching up: Research and development in the U.S. are

declining, while R&D in Japan and West Germany are on the rise.

To Molitor, and many other observers, "the high value-added technologies are, as he said in an interview with BROADCASTING, "the solution and hope of maintaining America's leading economic position in the marketplace." But, he said, "a sense of national purpose"—like that in Japan, where the government develops strategies to promote telecommunications technology—"is lacking."

What does he have in mind as a way of maintaining America's lead in telecommunications? For one thing, he would change the country's attitude toward antitrust enforcement. The antitrust suits launched by the Justice Department to break up AT&T and IBM are not, in Molitor's view, sound policy. "The economics of the world marketplace have changed radically since the 1930's," he said.

Molitor takes as a model practices in foreign countries, both communist and non-communist. "Communist countries focus all trade with other countries in a few trading companies," he said. "Japan does the same, and open cartel registries encourage combinations of companies in Europe to attain a parity of scale for effective competition in world markets. There also are planned economies in noncommunist countries—in France, for instance—where national goals are set and responsibility for reaching the goal is apportioned among the companies."

Molitor believes the government should swiftly resolve the suits against AT&T and IBM, as well as others "plaguing" American telecommunications industries. "They're enormously costly, and we need the parity of scale to compete with state-owned trading companies."

Members of Congress working on amendments to the Communications Act, as well as the White House, are sensitive to the issue Molitor raises. They are aware of the importance of telecommunications to the nation's economy, and are attempting to shape deregulation bills in ways that would insure AT&T's ability to serve as a primary engine of the technological revolution. Indeed, that is the reason administration officials urged President Reagan to direct Justice to drop its suit against AT&T.

But not all members of Congress see things quite that way. Wirth, for instance, opposed dropping the suit against AT&T, and he continues to see the virtue in competition. In a series of speeches recently, he made this point: "I hope we have learned the principle that those who would limit competition and consumer choices must bear the burden of proving there is a public interest in exclusion. Unfortunately, this principle runs contrary to the instincts of many regulated industries. Among many, there is a sense of private entitlement to public rights or resources which fits neatly with economic self-interest."

Then there is what might be called the

technological determinism view of Charles River Associates, a Boston-based consulting firm. Dr. Alan Baugham, director of telecommunications research for CRA, suggests in a paper "On the General Impossibility of Communications Monopoly" that regulated monopolies are dinosaurs in the current age of technological change. Such change, he says, has already caused considerable restructuring of the economy "and will cause greater restructurings in the future." Why? Because of the "large profits" the new technologies make possible.

For Baugham, such changes are in the public interest and should be encouraged. He noted that, as distinctions between services—like newspapers and television—merge, "inappropriate regulatory strictures offer the prospect of imposing costs at least as great as the benefits which they purport to achieve." Thus, he argues, let the market operate. If problems of sufficient magnitude develop, he says, there will be time enough to adopt regulations.

□

Obviously, the question is complicated. But there are those who pose even more complicated ones. Donald Jansky, an associate administrator of the National Telecommunications and Information Administration, for instance, talks of "industries in collision." He is referring to the broadcasting, computer and telephone industries meeting on a single wire or optical fiber running into the home. "Does that portend a realignment of industries? Will there be a single electronic-information distribution industry? If fiber optics comes along, that's the way to go." But in that event, he said, the principal policy question would be: Who controls the source of information? "You can own the technology or the information," he says, "but not both."

Even in a time of rapid technological change, the question posed by Jansky seems a generation away. Walter Baer, a former member of the Rand Corp. specializing in telecommunications matters, and now director of advanced technology for the Times Mirror Co., sees it as "a question for the 90's"—although, he says, "it's not too early to begin considering it now." The question, he says, is whether it would be worth keeping two channels in the home in spite of the economies of scale offered by placing all services on one. "Those economies," he says, "may not be so great as to warrant restricting competition between the two sources."

The question of control of both the content of material to be transmitted and the means of transmission is one of the most sensitive and controversial of the information era. The prospect of the power such control on a mass media would offer is frightening to many. For instance, John Wicklein, in his "The Electronic Nightmare: The New Communications and Freedom," says that an agency that gained such control, "if left to operate it without adequate restraints, could dictate its contents and decide its political, economic and social applications. It would

be far easier to control what is seen, heard and read on a monolithic electronic communications system than it is today to control content on thousands of radio and television stations and in the diverse outlets of the printed press."

The telephone network at present provides the principal medium for the two-way videotext service, since it reaches virtually every home. Because telephone lines are the means of transmission, videotext is not subject to content regulation. But it's unlikely any company would be permitted to acquire the kind of control that worries Wicklein. The Senate Commerce Committee seems to have been aware of the danger when, in its bill to deregulate AT&T (S. 898), it proposed limitations on the kinds of data services the separated Bell subsidiary could offer: mass media, cable television and alarm services would be denied the subsidiary, but electronic Yellow Pages would not.

It may be, however, that the language in the bill is sufficiently fuzzy, or elastic, to permit AT&T to offer other data services—as AT&T evidently intends to do. Morris Tannenbaum, AT&T executive vice president, says that, "to make videotext viable, there will have to be a large number of people in it, to supply data bases. . . . If others don't supply [them], we will." At present, AT&T and Knight-Ridder Newspapers Inc. are conducting a test in Coral Gables, Fla., to determine what the public wants in the way of videotext service. And last month, AT&T was reported planning to embark on a large-scale test with CBS (BROADCASTING, Sept. 28).

(AT&T as villain is not unusual in scenarios of the future. The Arthur D. Little Co., in a scenario it prepared five years ago for the White House's old Office of Telecommunications Policy, pictured AT&T as acquiring complete dominance of the telecommunications system in the country by 1991. According to the scenario, AT&T had persuaded Congress to permit the company to develop a nationwide system of fiber optics over which it was transmitting not only telephone messages but also programs of conventional and pay cable and conventional television. The ADL futurists saw the FCC reallocating the frequency space vacated by television to land mobile radio [BROADCASTING, July 26, 1976]).

It isn't only the Bell System that is a source of concern for some looking ahead to the new information era. The cable television industry is, too. Henry Geller, former head of NTIA, and others have asked whether an owner of a cable system with 50 or even 100 channels is a broadcaster or a "telepublisher" on all of the channels, or whether the cable entrepreneur can be required to lease some (if not all) channels to others, with no control over their content. Geller, noting the advantage control over access affords—a system could deny channels to companies interested in offering services that would be competitive with those it is providing, and could also exercise a kind of censorship in suppressing unpopular ideas—asks: "Can a

guy control 100 channels and get away with it?"

The response of Thomas Wheeler, president of the National Cable Television Association, appears to be, "Why not?" He says the cable system should continue to be allowed to own the hardware and control the content. And Wheeler is not speaking only of television-type programming (although he says that cable systems would be obliged to lease facilities to programmers simply to fill up some of the channels). He has a vision of cable moving boldly into the switched-services and data-transmitting business now dominated by AT&T. And more than that. "Cable wants it all," he says, "to provide the lines [of communications] and the information."

How does he reconcile that ambition with the vigorous support NCTA contributed to the successful effort to limit, under S. 898, the data services the AT&T subsidiary could provide. Here, boldness gives way to pragmatism. "Everyone says cable should compete with AT&T," Wheeler says. "To do that, we have to be in both, hardware and software. As in broadcasting, the networks have owned-and-operated stations, to stimulate them to produce programming for other outlets. The same theory holds here . . . AT&T is so big it doesn't have to be in both hardware and software. It makes more in profit on the Yellow Pages than the cable industry makes in revenues."

(That's a bit of an overstatement. The Yellow Pages last year generated slightly more than \$2 billion in revenues, somewhat more than the \$1.8 billion the cable television industry produced in 1979.)

Wheeler gets some support from Pool. "There's no way to make a sharp separation between ownership of the system and control of content," Pool says. "The money is in the programming. If you say the person who provides the facilities can't control the programming, you won't get a system. There's not enough money in facilities." But that's only for the present. "Later on," Pool says, "the American society won't put up with one person owning the system and controlling the content."

The question of whether society will permit that dual control, even to the degree Wheeler regards as benign, may not yet be answered—certainly not to Geller's satisfaction. Geller has petitioned the FCC to initiate a rulemaking aimed at requiring cable systems with between 30 and 100 channels to lease a percentage of them on a first-come, first-served basis. His principal argument is that requiring systems to surrender control over a certain number of channels furthers "the most fundamental policy under the Communications Act"—diversification of control of mass media. (S. 898 contains a provision that would insulate cable systems against mandatory common carrier service. However, chances of enactment of the bill—given serious reservations in the House—do not appear bright.)

As for the question Jansky poses of who

would own the wire entering the home, if there were only one, Wheeler has an answer. He draws an analogy to the undersea cables, in which a number of common carriers have infeasible rights. Indeed, Wheeler said, the cable industry does not object in principle to AT&T being the sole owner of the wire, provided it "leased space 'fairly' to others," including cable entrepreneurs. And here, the cable industry says its experience in leasing pole space or entire plant facilities from telephone companies offers little optimism that relations would be amicable. (The cable industry has spoken of AT&T as a brute whose anticompetitive practices require the government to keep it in restraints.) "You have to have a second wire to keep AT&T honest," Wheeler says. "It would have no incentive to be honest unless you held over its head the club of being able to do it yourself."

For those government policymakers pondering the regulatory course to pursue at a time when technology blurs lines separating services and creates, in a sense, new wines for old bottles, Wheeler has a suggestion: Focus policy concerns on the product, not the hardware. "We're heading for a situation in cable where you'll have coming down the same pipe different services that are regulated differently, depending on the nature of the service and the degree of competition involved."

For instance, he sees cable television fragmenting into three distinct services: community antenna television (retransmission of broadcast signals), broadband information and entertainment (original programming, videotext or services like Cable News Network) and, finally, the local distribution loop business (an alternative to the data-distribution service offered by the telephone companies). "All three will go down the same pipe on the same wire, but each is different in its approach to the marketplace and with whom it competes. As a result, not all should be treated alike. It's not the hardware; it's the service." He says the same principle applies to broadcasters in connection with teletext—an over-the-air videopublishing service bearing no resemblance to broadcasting as it is now known.

But what of the variety of mass communications already in place as a result of the technological revolution—those using satellites or disks or cassettes to deliver additional pay, advertiser-supported or hybrid services, for instance? As Geller notes, it has led to "letting go" by the government of content regulation. First, the FCC eliminated its information and commercial guidelines for radio, already a medium of abundance, and abandoned requirements for formal ascertainment of community needs. Congress seems likely to follow suit in the months ahead; it already has extended the length of radio and television license terms.

As for the future, Geller believes that government will attempt to equalize competition. Why, for instance, should a pay TV station competing with MDS, pay cable and

other pay services be required to satisfy special requirements, such as having to broadcast 28 hours of nonpay programming a week? (The FCC is now addressing that question). Why also, Geller wonders, citing a matter that seems to have become a personal cause, should competition between cable and broadcaster be "skewed" in favor of cable by the compulsory copyright license it is given that requires only a relatively small fee set by law?

For the most part, at least, the regulatory movement accords with Geller's views. "Behind this trend is the U.S.'s deep commitment to First Amendment principles—to the notion of diversity—that we have staked our all on the marketplace of ideas, on information coming to the people from many diverse and antagonistic sources," he said in remarks prepared for a group of Japanese government officials visiting Washington last summer.

But even apart from the public interest groups still fighting a last-ditch effort to block the deregulatory tide, Geller—and, as it turns out, former FCC Chairman Newton N. Minow—makes clear that the current government passion for letting the marketplace regulate in place of government is likely to long remain a matter of controversy. The marketplace, they say, has its limits as a doer of good.

There is the matter of public broadcasting, for instance. Both Geller and Minow argue that the marketplace is not an effective instrument for remedying what Geller refers to as a "deficiency" of broadcasting service. "It is by no means clear that the marketplace will supply the educational, cultural, informational and similar programming required for an informed and enlightened citizenry," he says. He notes that it was noncommercial radio that covered Senate debates on the Panama Canal treaties and that presents educational material and programs on Shakespeare. Thus, he doubts the wisdom of the Reagan administration's plans for cutting funds for public television on the assumption that the new video—cable, cassettes and the like—will supply the kind of programming now available on public television.

Minow not only echoes Geller's concern; he goes beyond it. The man who as FCC chairman referred to commercial broadcasting in 1962 as "a vast wasteland" does not believe—as Geller does—that the government should abandon the "public interest" standard for broadcasting. Speaking at an international conference on broadcasting in Tokyo, on Sept. 30, Minow said: "I believe broadcasting has a unique public responsibility, and I am not ready to turn that responsibility over to market forces. I believe it essential to continue to insist on fairness in broadcasting of public issues, on fairness to our minority interests and our minority populations."

Minow also makes a point that, in view of today's rush to marketplace deregulation, seems almost quaint. Speaking of the questions raised by the technological revolution

in telecommunications, he said: "As we try to find answers to these dilemmas, we must remember that it is the listener and viewer whose interests should be paramount [a paraphrase of language in the Supreme Court's 1969 decision affirming the constitutionality of the FCC's fairness doctrine], not the interest of the broadcaster, nor the interest of the cable operator, nor the private interest. The public interest should prevail."

Minow may take the argument a bit further than some who try to peer into the future. But there are others who do not foresee the proliferation of news services leading inexorably to the granting to broadcasters of First Amendment freedoms on a par with those enjoyed by the print press.

"The First Amendment issue will be with us regardless of what the technology is," says Walter Baer. "There will always be groups contending they are unfairly being kept out." Nor does he foresee Congress abandoning the equal-time law or the fairness doctrine in the foreseeable future. Certainly Pool, the seer who worries about broadcasting's shackles being copied and applied to telepublishing, does not expect sympathy for broadcasters from Congress. "Politically, it may take quite a few years to persuade Congress to move in the direction [of First Amendment freedom for broadcasters]."

Pool may be right. Wirth, for instance, foresees deregulation of broadcasting, but affording broadcasters the kind of First Amendment protection print media take for granted is not what he has in mind, ever. He is not anticipating repeal of the equal-time law or the fairness doctrine, let alone the public interest standard that is used to justify content regulation.

"I don't see any groundswell of opinion favoring repeal of Section 315 [the equal-time law] or the fairness doctrine," Wirth said in an interview. "Broadcasters are not saying, 'Get rid of the public interest, fairness or 315. They want certainty; they want to know what the rules are.'" To Wirth, the public interest standard seems a kind of security blanket Congress should never discard. For, he says, a Congress that finds deregulation being "abused" would, under the public interest standard, retain the "ultimate" authority to reimpose regulations. He would even subject the "teletext publisher" to that "ultimate" control.

Wirth's rationale is the conventional one, that the spectrum is a public resource broadcasters are allowed to use "in the public interest." What, then, of Congress changing the rules of the game and selling or auctioning the spectrum to those who would use it? The public would have something in return for the spectrum. Wirth brushes off that suggestion with the confidence of one familiar with the politics of issues. "Broadcasters won't go for auction," he says. "So that takes care of that."

The conventional political wisdom that Wirth reflects—that members of Congress are not about to trust their political fortunes

and the fate of issues they care about to what many consider the suspect journalistic integrity of broadcasters—will be tested in the current Congress, however. The FCC has proposed legislation repealing Section 315 of the Communications Act, which includes the equal-opportunities provision as well as language giving statutory support for the fairness doctrine. And FCC Chairman Mark S. Fowler addresses the issue with the fervor of a true believer.

"The equal-time rule hasn't worked," Fowler said in an interview with BROADCASTING. "It has stifled political debate. And the fairness doctrine has involved the government in an outrageous manner in the editorial judgment [of broadcasters]. I want editors to make decisions on fairness issues, not the government." His fervent hope is that well before the bicentennial of the Bill of Rights, in 1991, "we'll apply those rights across the board to electronic media."

Fowler is counting on broadcasters to demonstrate the political power with which they are credited in behalf of the FCC's legislative package. Indeed, he is sharply critical—almost contemptuous—of broadcasters for what he says is their failure to fight vigorously for their First Amendment rights. "Broadcasters have bartered away their rights for economic benefits, for license stability," he says. "Adhere to the fairness doctrine, and you're responsible," is how he sees broadcasters as having regarded the content regulations. "They should have fought," he says. But regardless of any failure to have done so in the past, Fowler expects broadcasters to fight now for their freedom from the strictures of the equal opportunities law and the fairness doctrine.

"We should be a federal traffic cop," Fowler says, in describing his idea of the FCC's role. "That would be Nirvana. And we're closer than people think." All it takes, says Fowler, President Reagan's first FCC chairman and a devoted Reaganite, is "effective presentation" of the President's program. As he sees it, "There is a struggle between those who want government to decide in some measure what people will see and hear, and those who want people to make choices directly through the marketplace."

But Wirth is speaking from the congressional trenches, where the battles are fought and where things like the fairness doctrine and the equal-time rule have particular meaning for the congressional troops. And Fowler is speaking as a fierce advocate for broadcasters' First Amendment rights. What of those with a more detached view? Senior Judge David L. Bazelon of the U.S. Court of Appeals in Washington examined in some depth the question of government regulation of content in the developing information era, as well as the existing services, in a speech at the ninth annual Telecommunications Policy Research Conference, in Annapolis, Md., in April, and in a subsequent statement to BROADCASTING. And his view is considerably different from Wirth's, though not identical

to Fowler's view.

Bazelon, who was appointed to the bench by President Truman in 1949, feels the kind of content regulation imposed by Congress and the FCC and upheld by the courts, including Bazelon's, over the past 50 years, has been something of a disaster. "Government attempts to improve the quality or diversity of broadcast speech through content control failed miserably," he said in his speech. "Forced to choose between an unfettered right to speak and a meaningful right to know, we achieved neither." For Bazelon, the new information era affords policymakers a second chance.

It's not that Bazelon, whose reputation as a liberal and activist judge is secure, sees only a slack role for government in the new information era. Marketplace regulation is not for him. For he said: "Before the current clamor for 'deregulation' hardens into political sloganeering and facile solutions, we should carefully consider the lessons of the past."

He cited three:

He said government "cannot regulate the content of speech consistent with democratic values . . . Content regulation should not be applied to the new technologies unless absolutely necessary." Bazelon said it is pointless to apply, say, the fairness doctrine to a cable system with access and leased channels or to a teletext system whose interactive nature—subscribers punch up the pages they want to see on the television screen—likens it to a library. (Indeed, with electronic and print journalism merging in teletext, it's a virtual certainty that newspapers would mobilize their considerable power in opposition to any effort by government—FCC or Congress—to extend content regulation to the new technology. Fowler cites the possibility of such an extension as a reason for abandoning content regulation now.)

Bazelon also warned against concentration of control of mass media "in the hands of a relative few." He said it would undercut the grounds for applying the First Amendment protection to the new technologies. For if the spectrum-scarcity theory, on which the Supreme Court upheld the constitutionality of the FCC's fairness doctrine, no longer fits in an era of proliferating technologies, he said, the court in the Pacifica case (involving the broadcast of indecent language) seems to rely on the "intrusive" nature of the media as a basis for regulation. "In essence," he said, "the argument is that the telecommunications press is too powerful to be free."

It is in that connection that Bazelon sees government's role. He favors structural regulation of the media—the use of antitrust laws, for instance, or the FCC's rules restricting crossownership of media outlets. Not only would laissez faire lead to the domination of the new technologies by "the same voices that have brought us today's homogenized fare," Bazelon said. But, he ad-

ded, it also would allow "communications giants to grow to the point where our only alternative is content regulation."

The third lesson he cited from the past is that "we sacrifice one First Amendment value for the sake of another at our peril." Bazelon said the structural approach promotes "both the right to speak and the right to know" (which he said the Supreme Court has found implicit in the First Amendment). And both rights should be enhanced through the new technologies, he said.

How does Bazelon feel about content regulation as applied to existing services? In response to a question from BROADCASTING, he indicated, as he has in several of his opinions, that the fairness doctrine poses a "threat" to First Amendment values. He does not feel the equal-time rule poses the same threat, since it does not "require the commission to make judgments about the content of broadcast material." But in view of broadcasters' arguments that the rule inhibits "robust, wide-open" political debate, he suggested that Congress review various proposals that have been made to deal with that problem—perhaps limiting the rule to paid time and requiring time only for "significant" candidates.

But what policymakers may find particularly interesting is that crusty, old liberal Bazelon is prepared to see the "public trustee" obligation lifted, at least from radio broadcasters. With some 9,000 radio stations on the air, he said, "there appears no reason to impose a 'public trustee' concept based on scarcity." However, he does not feel the same regarding television and its 1,000 stations: "The scarcity rationale is still relevant to that medium," he said.

While those who support the First Amendment across the board have reason to cheer those who, like Bazelon, oppose the application of content regulation to the new technologies, a report issued last month by the Modern Media Institute, of St. Petersburg, Fla., raises a number of questions indicating the issue is exceedingly complex.

For instance, the authors—Harry M. Shooshan, Dr. Charles L. Jackson, and Jane Wilson, all of the Shooshan & Jackson Inc. consulting firm—note that broadcasters are not subject to common carrier regulation. But should broadcasters, the authors ask, automatically be favored as suppliers of teletext? Should they be permitted to deny access, say, to a newspaper wishing to use the vertical blanking interval in the television signal over which teletext material is transmitted? (Broadcasters now have complete editorial control over use of line 21 of the VBI used for closed-captioning for the hard of hearing.)

What if the commission were to deal with the access problem by licensing teletext services separately? There is precedent for time-sharing arrangements in the broadcast field. But the commission might then feel obligated to establish criteria for choosing among applicants for teletext service. That,

There are two R's in Xerox.

One is right in the middle.

But the really important one is the one you probably never notice.

It's the little R in a circle—like the one you see at the bottom of this ad—that tells you that Xerox is a registered trademark.

And it reminds you that our name— which is also our trademark— should only be used in connection with the products and services of our corporation.

Including everything from Xerox copiers to information processors to electronic printers.

So as you can see, our trademark is a very valuable one.

To us. And to you, too.

Because it ensures that when you ask for something you can be sure of what you're going to get.

Of course, we don't expect you to use the second R every time you use our name.

But we do hope you'll give it a second thought.

XEROX

the authors note, raises the specter of the commission imposing the full panoply of broadcast regulation—including public interest service (with its implications for content regulation)—on those seeking access to broadcast teletext, including newspaper publishers.

As the authors point out, the prospect of such regulation is not remote. Cable television is, under the Communications Act and the commission's rules, subject to the same equal-time and fairness obligations as are broadcasters. Of course, as the Cable Television Bureau has noted, such regulations may be unenforceable, given the cable operator's limited control over programming and the lack of a license to revoke.

However, the authors, again, raise some interesting questions. "Does a newspaper (or magazine) become a cablecaster when it distributes its own videotext service on a cable system which it also owns? What obligations, if any, should such a system have to carry videotext services offered by competing publications?" They note that Time Inc. plans to use its own editorial resources in combination with its cable subsidiary, American Television & Communications Corp., to test market a national videotext service.

The FCC has held that it did not intend to apply its equal-time and fairness rules to "the distribution of printed newspapers to their subscribers by way of cable." But, the authors ask, "will an 'electronic *Time*' be subject to equal time. Or, will [it] be regarded as the legal equivalent of a 'bona fide newscast,' and thus exempt," as are broadcast newscasts? "If not, will *Time* be regarded as a cablecaster because it is distributing its videotext service on cable systems which it also owns?"

The questions, it seems, outpace the technology.

□

Important as it is, the application of the First Amendment to telecommunications in the new information era is not the only sensitive question that policy makers must address in the years ahead. There are those 2,000 that Public Policy Forecasting said it expects the new technology to generate. But many of them can be compressed into the single word: "privacy."

With the technologies of television, computers, telephone, cable and data message transmission merging into what is being called a home information center, the services available to the subscriber at home are remarkable—banking, shopping, home security, energy load management, opinion polling, stock quotations, direct sales merchandising, conventional and pay television service, and dozens more.

But every time they take advantage of those services, subscribers yield up bits of their privacy. Punch up a movie on the home information center, and whether it's "Benji" or "Deep Throat," the computer is informed. It is told, too, when and how subscribers

use the system to bank, shop, answer polling questions—whatever. In short, the interactive home information center—no more sophisticated than Warner Amex's Qube, in Columbus, Ohio—could compile a dossier-like profile on every subscriber.

The issue has not yet attracted much attention. But awareness of the problem is increasing. It's a central concern of Wicklein's "Electronic Nightmare." Collingwood Associates Inc., of Washington, a management consulting firm specializing in telecommunications and media processing, has done an exploratory study on the issue for the Federal Trade Commission.

Nor is Public Policy Forecasting the only think tank concerned with the future to be thinking about the issue of privacy in the new information era. The Institute for the Future, of Menlo Park, Calif., which is assessing teletext and videotext under a National Science Foundation grant, sees privacy as one of 12 public policy concerns raised by videotext. Indeed, NCTA, seeing the issue as one growing rapidly in importance, has given a high priority to development of an industry code under which systems offering interactive service would protect the privacy of subscribers; the NCTA staff will also prepare a possible association position in the event legislation is introduced in Congress. "We want to stay ahead of the power curve," says NCTA's Wheeler, one of whose skills is staying ahead of—or at least even with—that curve.

The privacy question does not involve simply the danger of an unauthorized person's breaking a system's security lock and obtaining information from the computer, although that is a concern. Rather, what is involved is the possible use of the information in ways not imagined by subscribers—although they had been anticipated by George Orwell, who foresaw individuals stripped of their privacy, and the dignity and sense of self-worth that depend on it, by the telecommunications technology present in 1984.

Deanna C. Nash, president, and John B. Smith, senior associate, of Collingwood Associates, listed a number of possible dangers, in a speech they delivered earlier this year at a conference on "The Consumer and Cable Television," sponsored by the National Citizens Committee for Broadcasting and the National Federation of Local Cable Programmers. They talked of security sensors designed to detect the presence of an intruder in the home that could also be used to monitor the homeowner's movements. They said a person's programming choices could be checked to assess his political views (as, during the McCarthy era, library circulation records were used as "incriminating" evidence), information that would be of interest to political groups. Electronic funds transfer systems would be vulnerable to abuse by police monitoring the financial activities of innocent citizens—as well as those of corrupt officials, they said. And, they noted, the information on a family's buying habits com-

plied in a computer would be highly salable to merchandisers and advertisers.

Wicklein finds a precise parallel of 1984 in technology now available: "'Spook' devices now exist for switching on a private telephone from a remote location and amplifying the sound it captures sufficiently for pickup of conversations across a room. The same techniques could switch on the camera and microphone in the HCS [home communications set] making possible video and audio surveillance of the home without revealing this surveillance to the residents. The capability now existing makes George Orwell seem to have been extremely prescient when he described in 1949 the telescreen's constant monitoring of Winston's [the protagonist's] presence in his own home in the mythical England of 35 years later."

So, the wonders and advantages of the new information era are not without their dangers. As Bazelon said in his Annapolis speech, "The information revolution means that I may find out everything about anything. But it also means that I may learn more about you than you want me to know. Nor can I be sure that I will be able to control who knows what about me. Will we still be able to afford unfettered rights to speak and know as the pace of technological development quickens?"

How to proceed, then? Will the marketplace philosophy that has taken hold in Washington dominate the development in the years ahead of policy to guard the individual's right to privacy? A study by two FCC Office of Plans and Policy staffers—James A. Brown Jr. and Kenneth Gordon—says that it should: that privacy would be treated as an economic good—e.g., privacy for individuals means less information for others. (They talk of customers wanting privacy simply "shopping around for companies with reputations for discretion." What if a monopoly firm or a government does not provide such protection? Then regulation "may" be needed.)

Or should the gun of government be taken out of the closet? Local authorities could have much to say about privacy protection in the franchises they grant cable systems providing interactive services. And principles for federal privacy law have been established in several statutes already on the books, particularly the Privacy Act of 1974, which involves individuals' rights to information obtained by federal data banks.

But government's capability and will offer no guarantee of success. In the First Amendment area, for instance, there is that concern of MIT's Pool that the proliferation of telecommunications technologies will mean not that content regulation will fall from the backs of over-the-air broadcasters' but that it will be imposed on electronic publishing.

It may be time to address the question Dr. Frankenstein could have asked but didn't when the monster got off the table: Will we master technology or will it master us? ■

Congratulations

2001

To make a point, Marshall McLuhan once conjured up a committee convened at the beginning of the 20th century and charged with investigating the future of the horse. The committee's conclusions, of course, were lost in clouds of carbon monoxide while America embraced the automobile as a more desirable means of transportation for a growing industrial society.

Once again, American society is growing in directions that will drastically affect a new century—the 21st—as well as the closing decades of the present one. BROADCASTING magazine's 50th anniversary, and this special report occasioned by its celebration, coincide—by coincidence if not design—with the pivot point of that revolution. Transporting information, the experts say, will become as important as moving people used to be. Were McLuhan conjuring up a committee to debate the future of telecommunications, it couldn't wait for 2001 to be convened. By then, the verdict will be in.

Few questions are more important to the electronic communications entrepreneurs and artisans of 1981 than guessing correctly how that future will come out. From all the opinions that have been collected by BROADCASTING's reporters—and herein displayed by its editors—three principal possibilities emerge.

The first—in the broadest terms—is the survival of the status quo. That is, that the broadcast media (and particularly the television) superstructure that has evolved since World War II will remain essentially the same, with essentially the same players occupying essentially the same places and reaping essentially the same proportionate share of the rewards. This point of view is prevalent within the precincts of ABC, CBS and NBC—all of them now beginning to put out new media anchors to windward while protesting (and presumably believing) that their basic businesses will stay intact. The most frequently cited element in that argument: that although the shares of audience enjoyed by network programs will be eroded by competition from other media, the growth in size of the television universe will, in absolute terms, insure continued high numbers for

2001

conventional television.

The second scenario—one that has enjoyed increasing currency for the past two decades and still infects many of the futurists looking forward to the next two—is that television broadcasting as we know it will be replaced by The Wired Nation. Those who believe that presumably include such companies as Time Inc., which sold out most of its television properties to make an ever increasing commitment to cable—and whose Home Box Office has been the most conspicuously successful and revolutionary development in that medium—and Warner Communications, whose Gustave Hauser is quoted elsewhere in this issue as saying that the wired nation is inevitable, and such relatively new big-stakes cable players as Westinghouse, whose Dan Ritchie told BROADCASTING that “I can’t think of a sensible thing to do with DBS.”

(Not all who agree on the wired nation, of course, agree on who will wire it. The sorting out of that question between conventional cable television operators and the increasingly ambitious—and active—telephone companies will be among the more fascinating sub-plots of the business drama to be played out in the next 20 years.)

And then there is the prospect advanced by the boldest of the electronic media seers—those who believe that both terrestrial broadcasting (to a degree) and cable (to a similar degree) will both be put in the shade by the technology that so unimpresses Dan Ritchie. Their point of view has been given a loose rein by the editors in this issue’s section on “Technology” (pages 249-258). Of all the possibilities for the future, it is both the most recent (in generation) and dramatic (in revolutionary impact). It is also the most risky: At the moment there is no DBS, no authority for any system, no spectrum officially assigned in the western world and certainly no agreement as to what the eventual technology will look like.

(That’s on the one hand. On the other, there already are thousands of individually owned earth stations—from home-made to state of the art—pulling in the hundreds of signals available from the fixed broadcast satellites whose application by HBO revolutionized that art, and the entire cable universe, almost overnight.)

What those earth stations are demonstrating—among many other things—is the enormous appetite for television that exists among the American audience. No matter how many new TV media come on the scene, no old ones have fallen off; the public just keeps absorbing more and more. It is that appetite that fuels the hopes of cable entrepreneurs risking hundreds of millions—billions, in the aggregate—to wire major American cities with systems that promise over 100 individual channels. And it is that ambition—to supplant broadcast television as the major supplier of entertainment and information to the home—that stands to be dealt the most cruel economic blow if broadcast satellites join and succeed in the media competition, perhaps within this decade.

Each of those scenarios has its own Achilles heel.

For conventional television, it is the risk that—operating within a relatively scarce spectrum—it will not be able to keep up with—or effectively compete against—the volume of program offerings that can be brought into a given community by either cable or DBS. That relative scarcity has made the media giants what they are today: dominant, powerful and wealthy. It could topple them tomorrow.

For cable, it is the risk (a) that people won’t turn out to want

all that much programing anyway, or (b) that the high cost of stringing all that wire (or burying it) will bring CATV to its economic knees. John Malone, of Tele-Communications Inc., makes that point tellingly when he talks of franchise applications that may end up costing \$1,000 per subscriber, and adds: “We may be building the Erie Canal.”

For DBS, the Achilles heel at this moment looks like a multiple fracture. There are political problems, technical problems, conceptual problems, capital problems—and a good number of skeptics who ask: “Who needs it?” What few have realized, so far, is that there is so much spectrum potentially available for its use, and that—should the obstacles be overcome—broadcast satellites could compete with cable virtually head to head in channel capacity without the capital-intensive construction that attends each new cable connection.

But if each of those scenarios has “downside ticks,” as Wall Street likes to say these days, each also has demonstrable strengths.

For conventional television (and radio), it is incumbency. The system is there and it works—not just well but spectacularly.

For cable, it is channel capacity—broad bandwidth that gives narrowcasting ability.

For DBS, it is one of the greatest forces of all in electronic communications: the almost magic capacity to reach virtually every home in the nation with a studio-quality picture from a point over 20,000 miles distant in space. Moreover, for those who look forward to a new television system to replace the 525-line NTSC system now standard in the western hemisphere, broadcast satellites hold out the brightest hope for change: to 1,000-line-plus, wide-screen television that would remarkably enhance the state of the art.

What does it mean for the business? That billions of dollars will be invested in search of the right solution, and a good portion of that at high risk. The American way, as they say.

What does it mean for the consumer? That no matter which medium triumphs—or media triumph, in the quite possible event that all will succeed to varying degree—there is about to be a new world of program opportunity at his or her command.

This analysis thus far has not taken into account such peripheral new media technologies as videocassettes and videodisks (or such programing phenomena as video games). The editors intend no disrespect in not positioning them in the media mainstream. Yet it is a temptation to say that both represent *methods* of communication rather than *media* of communication. Each serves a distinct, useful and over the long run assuredly valuable function. But both suffer—in comparison to the three main media upon which attention has been focused thus far—in failing to provide interconnection. As such, while they provide the *greatest* degree of viewer control, they afford the *smallest* dimension of simultaneous reach. And it has been the shared entertainment and information experience that has, until now, been the main measure of electronic media success.

Having said that, it may be worthwhile to examine the difference between television and video. There is, the editors believe, a big difference—albeit one hard to define. Nevertheless, this attempt:

Think in terms of a continuum, from left to right. At the far left is conventional television, which almost everyone understands. Typically, let’s say, a four-station market with an ABC, CBS and NBC affiliate and an independent. Viewers watch in great numbers whatever is programed on those networks and

stations, and what is not programed they go without.

At the far right are the videodisk and videocassette players. The viewer selects the programs he or she wants to play and the time at which he or she wants to play them. (The viewer may even create his or her own programing, on videocassettes, with an accessory camera.) The viewer is in total control.

In the middle is cable. At the left side of the cable spectrum, insofar as it is simply rebroadcasting the programing of conventional TV, cable is television. At the right side of the spectrum, as it gets into interactive programing and pay-per-view, it begins to approach video. To an increasing degree, the viewer has been given control.

Thus: Television—the medium is in control. Video—the viewer is in control.

There is a wider conception of video, of course, that seems to be behind such broad phrases as "the new video technologies." What's meant by video, in that instance, is something that's more than television—a confluence of all the individual TV/video media in the marketplace. Accompanying that confluence is a blurring of the distinctions among the media and the media entrepreneurs—a phenomenon perhaps most evident in the new entries of ABC and CBS into cable programing, and the further amalgamation of media interests through partnerships with, for example, AT&T, Hearst and Getty Oil.

And then, inevitably, there's the computer. Join the broadcast/cable/satellite media complex with the home computer and you have 2001. God help us all.

In electronic communications terms, the force that shapes the future is not simply technology but the uses of technology the society is willing to embrace. It's not at all certain that America will open its arms to all the ordnance in the new media armory. RCA's Thornton Bradshaw—a relatively new boy on the block in terms of commanding a major communications company, but a relatively old and experienced hand at humanity—may be uncomfortably right when he notes that "tastes change more slowly than technologies." There's more than one skeptic out there who believes that the idea of shopping at home by video was dreamed up by men who knew nothing about women.

But there are more than just technological changes at work here. There are generational forces, too. The age group that is just beginning to be comfortable with pocket calculators would be amazed to walk into a neighborhood computer store and watch the kids so at ease with—and seemingly in control of—all those CRT's. Not to mention the scene in the video games department, where "Star Wars" are being waged day and night. And we are told of homes where video addicts stay glued to their sets late into the night playing their TV games with the passion an earlier generation devoted to Monopoly.

□

So much for technology. What of its corporate and business impact?

Among the principal facts of life with which the major U.S. telecommunications companies will have to deal in the decades ahead is the difficulty in planning; that's among the more significant consequences of losing control. So long as television stayed put, and as long as the audience sat passively by, the media companies had it made. No longer. Now, as we approach the turn of the century, there will always be at least the *threat* that control will be wrested away—if only tem-

porarily, as had already begun to happen with *Operation Prime Time* and other non-network program outreaches even before pay cable and superstations came along to challenge the ABC-CBS-NBC habit. Now, one can never tell when some upstart network or program entrepreneur with the courage and the capital to put together something new will find his way into a significant number of homes.

Of those two qualities—courage and capital—the second has often been in shorter supply. But among the *real* revolutions wrought by the new video technologies is a dramatic lowering of the barrier to entry. Once was, the three principal networks and AT&T had it virtually to themselves in terms of national TV interconnection. Now, first with the introduction of communications satellites to break the Long Lines monopoly and then with the proliferation of transponders to break down the incipient monopoly that had begun to grow in the fixed satellite field, it will—in the two decades before 2001—be increasingly possible for the Ted Turners of the world to thumb their noses at the conventional way of doing things. More and more, they too will have the opportunity to go broke in the mass media marketplace.

And that takes into consideration only the high end of the technological spectrum. At the lower end—with low-power TV—the entry barrier will be of virtually no consequence at all. And not only will the means of *distribution* become ever less dear, the means of *production* will similarly be put within reach of all with electronic ambition. The day is coming when television/video will be a forum for the equivalent of the 18th century pamphleteers in whose behalf the founding fathers framed the First Amendment.

One can only hope, by then, that the media application of that body of law will have embraced the Fifth Estate, too. Latter-day politicians have used the mass of the mass media as an excuse to deny First Amendment protections to the electronic media. The argument of scarcity—long since passe in the real world of media—will shortly be as transparent as the emperor's new clothes.

□

The good news for those at the top of the media superstructure is that the ferment below will come to the surface as creativity—and, in the long run, it is creativity upon which the entire system depends for survival. The Edwin Armstrongs of the world, and the Norman Lear, and the Paddy Chayefskys, are often a pain to put up with—as are the Edward R. Murrows and the Elmer Davises. But it is their stuff and their vision that make the medium.

There are, of course, no guarantees. Once new forces are set in motion, their eventual outcome is beyond prediction. "It is the framework itself that changes with new technology and not just the picture within the frame," McLuhan said. (Or, as Major Bowes put it in a simpler time: "Round and round she goes, and where it stops, nobody knows.")

What does seem clear—and relatively stable, in terms of one's ability to predict or to have confidence in the future—is that the people remain eager about broadcasting, both as it was and will be. They identify with radio and television and the other media of the Fifth Estate in a way that continues to amaze and confound the practitioners of those media and to frustrate and even enrage the Fourth Estate practitioners who must compete with them. That favor—and trust—is at once broadcasting's major asset and greatest obligation.

RADIO

HELP WANTED MANAGEMENT

Station Manager—Strong sales background. Class A FM in rural Michigan. Salary, volume bonus, and profit participation. Box J-31.

Sales Manager, who is top producer of agency business and can motivate large sales staff. Salary plus override. This is a tremendous opportunity for dynamic individual that wants a great future with group. Send resume and salary requirements to: Box K-24. E.O.E.

WEST—Selling Manager with proven ability to provide immediate results. Excellent medium growth market. Send industry references with resume. EEO (M/F). Box K-89.

Station Manager with proven sales and administrative ability for growing South Texas station. E.O.E. Box K-52.

Station Manager for small Rocky Mountain growth area. No limit on income from profits. You must be able to build a high profile community image and improve profits. 1515 West Main, Farmington, NM 87401.

General Sales Manager needed for AM Adult Contemporary Market leader. Must have previous radio sales experience. Previous sales management preferred but not necessary. Do you want to have fun, earn in excess of \$30K per year, have a company car, join a growth company with real career potential? Send resume to Mike Deardorff, KRIG, Box 4312, Odessa, Texas, 79760. EOE.

General Manager Needed by Northern California group. Take charge individual needed to add spark to successful small-medium market AM-FM. Person must be results oriented, organized, professional, articulate, "small town" oriented and willing and able to work 75 hour weeks when necessary. Compensation tied to operating profit. Box K-136. EOE/MF

Excellent Sales Manager with longevity in prior jobs documented with proven success sought for top shelf No. 1 FM rock station. Must carry heavy list and understand bottom line. This is a permanent opportunity that will pay the price for a true professional. All candidates will be thoroughly checked. Number one salesperson that is now highest bidder at their station okay. Compensation package proves we want a winner. Letter and resume Box K-118.

General Manager with strong sales and collection background, for the dominant AM station in central New York. Bachelors degree and good sales track record required. Complete knowledge of co-op, agency and direct sales and heavy collections emphasis a must. Chance to grow with rapidly rising national communications firm. Send resume and salary history to Box K-108. Equal Opportunity/Affirmative Action Employer.

Sales Manager—WJRO Glen Burnie MD. Must know the Baltimore market. Guaranteed draw. Call George Dietrich 301-762-2590.

See Owners Work Harder, under Business Opportunities.

Sales oriented General Manager needed to direct medium market, Oklahoma AM-FM. Great staff and great product needs proven GM to motivate and lead. Must be knowledgeable in sales, production & programming with good references. Send complete resume to Bob Brewer, P.O. Box 756, Okmulgee, Oklahoma, 74447, phone 918-756-1800.

HELP WANTED SALES

Professional sales person sought for lucrative station in one of richest counties in Alabama, \$20,000 guaranteed draw against commission strong active sales list and other benefits. Ask about this unusual county, a delightful place in which to live. Write Jeffrey Millar, WKUL, P.O. Box 968 Cullman, AL 35055. An Equal Opportunity Employer.

Sales pro for Southern New Hampshire Metro. Format success dictates immediate increase in sales staff. Good earning potential. Advancement to sales management possible. Call Dick Lange at 603-983-5768.

Dynamic Salespeople Wanted! Syracuse's fastest growing station needs experienced, big producers to join WOLF! If you can really sell and want a golden opportunity to join one of the fastest growing groups in the country, reply immediately with resume and salary requirements to: Manager Box 1490, Syracuse, N.Y. 13201 E.O.E.

Sales Manager Needed for top 40 market—aggressive, experienced, team oriented. Rush resume. EOE Box K-132.

Dynamic opportunity in radio sales. One of America's top Christian broadcasting groups seeks sales manager and account executives. Numerous company benefits in this unique organization. Send resume to Box K-112. An Equal Opportunity Employer.

Need A Real Pro salesman. Must be able to take a short briefing, then take rate card and start production. Excellent returns. This is the real gravy time of the year. Must be able to go to work immediately. References on track record and character required. Small town. Excellent possibilities of management job in the future. Call Coy Palmer, 806-659-2529. Radio station KRDF, Spearman, Texas 79081.

Are you interested in an outstanding career opportunity? Recently acquired New England powerhouse FM with 1 KW AM looking to build strong sales team. Southern New Hampshire and Northeast Massachusetts provide tremendous growth potential. Your sales experience could put you on the ground floor. Send resume and income requirements to Scott Norton, "The Wave" and WHAV AM, Box 590, Haverhill, Massachusetts 01830. E.O.E.

PROFITS!!

It's what all of us in business are trying to obtain with a minimal amount of problems. Radio Stations have a unique problem—we have a unique solution! Let's get together! We've earned thousands of extra \$\$\$ in advertising sales revenue for Radio Stations all across the nation and we did it our way—with integrity and honesty. What are we talking about? An extremely sophisticated and well-managed telephone sales operation for merchandising your unsold R.O.S. time. No, the concept is not new, but our approach truly is. We are not like all the others. We are different and you must be different to be better. For information contact Radio-Active Marketing Inc. at 715 East Golf Road, Schaumburg, Illinois, 60195 or better yet call our new toll-free number 800-323-6875 or stations on Illinois 312-885-9573 collect. No obligations—no commitments—and best of all, NO COST TO YOU! We really believe in Radio-Active Marketing—so will you!

EDEN BROADCAST SERVICES
P.O. Box 647, Eden, N.C. 27288
919/623-3000

Effective with the Nov. 16, 1981 issue of BROADCASTING

Classified Advertising rates will be increased to the following:

Rates: Classified listings (non-display) Help Wanted: 85c per word. \$15.00 weekly minimum. Situations Wanted: (personal ads) 50c per word. \$7.50 weekly minimum. All other classifications: 95c per word. \$15.00 weekly minimum. Blind box Numbers: \$3.00 per issue.

Rates: Classified Display: Situations Wanted: (personal ads) \$40.00 per inch. All other classifications: \$70.00 per inch. For Sale Stations, Wanted To Buy Stations, and Public Notice Advertising require display space. Agency commission only on display space.

Situations Wanted, For Sale Stations, Wanted To Buy Stations, Employment Services, Business Opportunities, Radio Programming, Miscellaneous, Consultants, For Sale Equipment and Wanted to Buy Equipment advertising requires payment in advance.

BROADCASTING'S CLASSIFIED RATES

Payable in advance. Check or money order only. (Billing charge to stations and firms: \$2.00.)

When placing an ad, indicate the EXACT category desired: Television or Radio, Help Wanted or Situations Wanted, Management, Sales, etc. If this information is omitted, we will determine the appropriate category according to the copy. No make goods will be run if all information is not included.

The publisher is not responsible for errors in printing due to illegible copy. All copy must be clearly typed or printed.

Deadline is Monday for the following Monday's issue. Copy must be submitted in writing. (No telephone copy accepted.)

Replies to ads with *Blind Box* numbers should be addressed to (box number) c/o BROADCASTING, 1735 DeSales St., N.W., Washington, DC 20036

Advertisers using *Blind Box* numbers cannot request audio tapes, video tapes, transcriptions, films or VTR's to be forwarded to BROADCASTING *Blind Box* numbers. Audio tapes, video tapes, transcriptions, films and VTR's are not forwardable, and are returned to the sender.

Rates: Classified listings (non-display) Help Wanted: 70c per word. \$10.00 weekly minimum. Situations Wanted: (personal ads) 40c per word. \$5.00 weekly minimum. All other classifications: 80c per word. \$10.00 weekly minimum. Blind Box numbers: \$2.00 per issue.

Rates: Classified display: Situations Wanted: (personal ads) \$30.00 per inch. All other classifications: \$60.00 per inch. For Sale Stations, Wanted To Buy Stations, Employment Services, Business Opportunities, and Public Notice advertising require display space. Agency Commission only on display space.

Publisher reserves the right to alter Classified copy to conform with the provisions of Title VII of the Civil Rights Act of 1964, as amended.

Word count: Include name and address. Name of city (Des Moines) or state (New York) counts as two words. Zip code or phone number including area code counts as one word. Count each abbreviation, initial, single figure or group of figures or letters as a word. Symbols such as 35mm, COD, PD, etc. count as one word. Hyphenated words count as two words. Publisher reserves the right to abbreviate or alter copy.

Deaths

Berry Greenberg, 69, former VP of international sales and administration, Warner Bros. Television Distribution, Burbank, Calif., died Oct. 4 at Cedars-Sinai medical center, Los Angeles. He had suffered series of heart attacks. Greenberg had been with Warner Bros. for 27 years, 13 of which he spent with television distribution. He is survived by his wife, Lee.

Jack Dolph, 53, director of CBS Sports from 1960 to 1969 and recently independent sports producer, died of heart attack at his home in Riverside, Conn., on Oct. 3. After he left CBS, he served as commissioner of American Basketball Association from 1969 to 1972. He is survived by his wife, Mary Jean, and two sons.

Jeff Sparks, 76, radio-television producer and special projects officer for United Nations from 1947 until his retirement in 1968, died of heart attack at his home in New York on Sept. 30. Before World War II Sparks was announcer for WOR(AM) and WCBS(AM) New York. He is survived by his sister, Juliette Buckley.

Jayne Ward, 67, director of viewer services, noncommercial WNET(TV) New York, died of circulatory ailment Sept. 28 at Roosevelt hospital there. She had been with station since 1971. Her marriages to Francis Warren Lawrence and Dr. Robert Warden ended in divorce.

Susan Welday, 27, reporter-news anchor, WPTA-TV Fort Wayne, Ind., died Sept. 26 from rare bacteriological disease at Parkview hospital, Fort Wayne. She had been with station since 1977. She is survived by her parents and two brothers.

KOIN-TV REACH FOR THE BEST

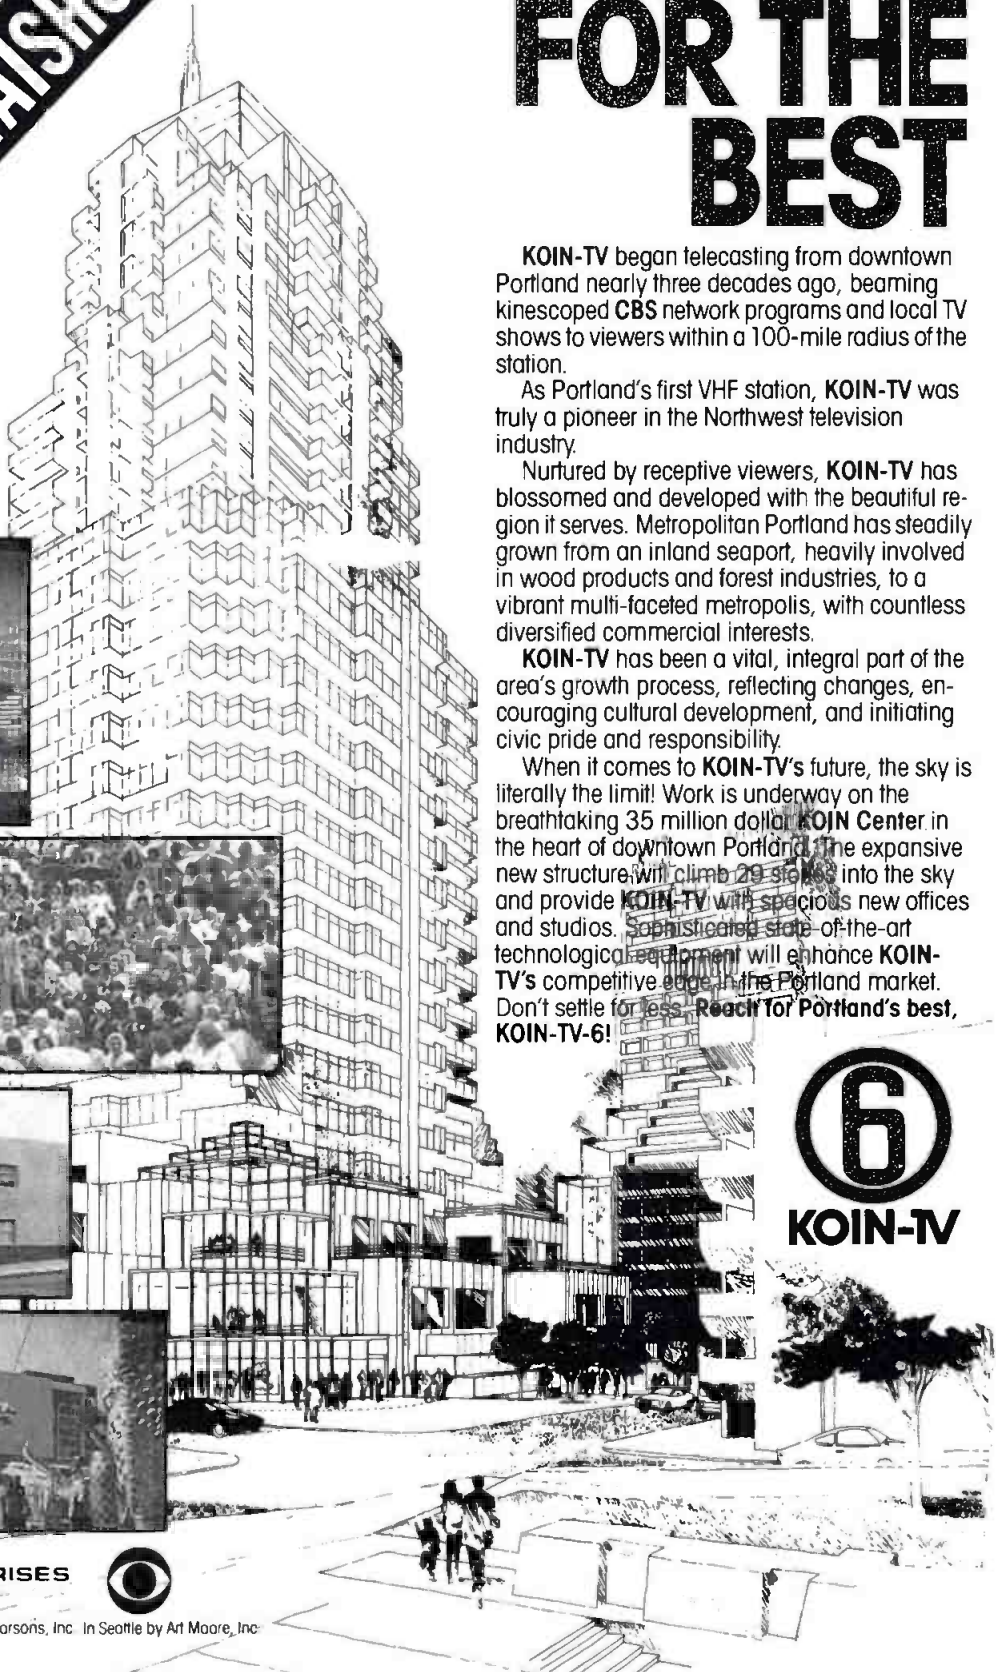

KOIN-TV began telecasting from downtown Portland nearly three decades ago, beaming kinescoped CBS network programs and local TV shows to viewers within a 100-mile radius of the station.

As Portland's first VHF station, KOIN-TV was truly a pioneer in the Northwest television industry.

Nurtured by receptive viewers, KOIN-TV has blossomed and developed with the beautiful region it serves. Metropolitan Portland has steadily grown from an inland seaport, heavily involved in wood products and forest industries, to a vibrant multi-faceted metropolis, with countless diversified commercial interests.

KOIN-TV has been a vital, integral part of the area's growth process, reflecting changes, encouraging cultural development, and initiating civic pride and responsibility.

When it comes to KOIN-TV's future, the sky is literally the limit! Work is underway on the breathtaking 35 million dollar KOIN Center in the heart of downtown Portland. The expansive new structure will climb 29 stories into the sky and provide KOIN-TV with spacious new offices and studios. Sophisticated state-of-the-art technological equipment will enhance KOIN-TV's competitive edge in the Portland market. Don't settle for less. Reach for Portland's best, KOIN-TV-6!

Represented nationally by Harrington, Richter & Parsons, Inc. In Seattle by Art Moore, Inc.

HONOR ROLL

OF THE Fifth Estate

A reader's guide to who's been who in electronic communications during the past 50 years, as reflected in the "Our Respects" and "Profile" sketches that have appeared in each issue of BROADCASTING magazine since Vol. 1, No. 1, on Oct. 15, 1931.

Reagan administration would not drop its antitrust suit against AT&T if Senate-passed **S. 898** became law in its present form, Assistant Attorney General for Antitrust William Baxter said last Thursday. Exchange-access amendment drafted by administration and adopted in full by Senate would permit AT&T "too much discretion in deciding how to provide access" to its network to other companies, he said, and provisions for license contract arrangements between AT&T and its fully separated affiliate did not emerge from Senate in form recommended by administration. Baxter said he has language that would satisfy his concerns in exchange-access area, but Cabinet Council on Telecommunications could not agree on all details before submitting amendment to Senate. He could not say with certainty that senators sponsoring bill had been informed that administration is not completely satisfied with amendment. Baxter said he spends "about one-third" of his time in discussions with AT&T these days and although possibility of out-of-court settlement of suit has been discussed, proposals for settlement have not been made lately.

International Radio Consultative Committee last week adopted **worldwide digital standard** eradicating many of incompatibilities of various analog standards in use around world. Application of standard, its framers hope, will foster economies in digital equipment development and production and facilitate international exchange of programming. Crux of standard is component coding. Analog signals emanating from camera are converted to three distinct digital signals. Standard also allows for "extensible family" of compatible digital standards of greater or lesser video quality. Sampling frequencies of three signals (luminance and two color difference signals or red, green and blue) are "related in ratio of 4:2:2." Compatible standard of higher quality would have sampling ratio of 4:4:4. CCIR settled on 13.5 mhz luminance sampling frequency, making sampling frequency of color difference signals 6.76 mhz. Coding is pulse code modulation with eight bits per second.

RCA last week reported losses of \$109.3 million on sales of \$1.99 billion for third quarter. Major factor contributing to losses was \$230-million "provision for restructure of operations and revaluation of assets." Discounting nonrecurring items, report shows earnings took tumble from \$80.4 million in third quarter of 1980 to \$22.6 million. Sales were flat compared to 1980. NBC logged "substantially lower earnings" as higher program costs offset sales increases.

California-Oregon Broadcasting Inc. has reached agreement to sell its **Medford, Ore.-based cable system** for consideration in neighborhood of **\$45 million**. Buyer is joint venture of **Boston-based Affiliated Publications** and **McCaw Communications** of

Bellevue, Wash. Affiliated is publicly traded publisher of *Boston Globe* and group owner of six AM's and six FM's. William O. Taylor is president. Last June it bought 45% of **McCaw Communications**, family owned cable operator with systems in seven Washington communities and Yakima county. Seller is owned by William B. Smulling and family, who are Medford-based group owners of four AM's, one FM and four TV's. Medford system serves 50,000 basic subscribers and includes 11,700 pay subscribers and passes 77,000 homes. McCaw will operate Medford system. McCaw also owns cable relay telephone and paging service. Broker: R. C. Crisler & Co., in consultation with Ward L. Quaal Co.

U.S. District Court for Northern Illinois has denied injunctive relief and **dismissed case by WGN Continental against United Video Inc.**, both Chicago. At issue is copyright ownership of vertical blanking interval in retransmitted signal of WGN-TV Chicago, which United Video resends by satellite to cable TV systems. Plaintiff objects to United Video's deletion of teletext material from vertical blanking interval and substitution of latter's Dow Jones business news service (**BROADCASTING**, May 4). Ruling was by Judge Susan Getzendanner.

ABC Video Enterprises' Alpha Repertory Television Service (ARTS) has acquired **two major sponsors** for its performing arts and visual arts programing: **Mobil Corp.** and **American Telephone & Telegraph**. Mobil's sponsorship begins in January and is committed to one program per week, with two spots appearing 9 p.m. to 10 p.m., Monday nights, plus opening and closing billboards. AT&T's sponsorship, which began earlier this month and continues through third quarter of 1982, presents messages that rotate throughout ARTS format as well as receiving billboards as participating sponsor each evening. AT&T spots include highlights of *Bell System American Orchestras On Tour* program funded by that corporation.

National Republican Congressional Committee last week opened **radio phase of advertising campaign** that it, National Republican Committee and National Republican Senatorial Committee have launched to urge voters to support Republican candidates in 1982 elections (**BROADCASTING**, Oct. 5). NRCC, acting on its own, is spending \$200,000 to air two spots on CBS, NBC and Mutual Broadcasting System radio networks through first week in November. Spots are audio versions of two television pieces now running.

Representative **Al Swift (D-Wash.)** has introduced "**Public Responsibility Bill**" requiring **FCC to establish point system** to quantify public trust responsibility of broadcasters and at same time prohibit FCC from requiring program logkeeping or any

Behind the scenes at the FCC

The FCC, responding to a congressional request, last week made public the videotape of its closed meeting (April 6) at which it approved raising AT&T's allowed rate of return from 10.5% to 12.75%. Congressional critics had argued the increase was excessive, estimating each 1/2% increase could cost consumers \$550 million per year. AT&T, arguing that it faced increased costs, asked for 13%. The tape reveals Commissioner Joseph Fogarty first moved to give AT&T 13%, but the vote on the motion bogged as the other commissioners worried aloud about "public relations." Commissioner Abbott Washburn pointed

out the "headlines" would say rates for consumers would rise 17% and AT&T would reap "billions of dollars." Then acting Chairman Robert E. Lee suggested setting the rate at 12.5%, but permitting AT&T's return to fluctuate over a "range" to solve the public relations problem. That way "it doesn't look like you rolled over for the company," he said. Although another proposal would have set the rate at 12.75%, with AT&T actually allowed a return ranging from 12.25% to 13.25%, Lee pointed out that the "headlines" would read: "first time in history" the agency has given more than requested. After a whispered conference

that excluded Commissioner Anne Jones, the commission proposed allowing the rate to vary from 12.5% to 13%, with Lee telling the staff to "think up some good reason" to explain it. The staff objected on the grounds AT&T would need one number for a target, so the commission finally adopted 12.75% but permitted AT&T's actual return to vary from 12.5% to 13%. Lee pointed out the decision was "kind of sneaky PR" ... but "we've cut their request." The commission denied reconsideration of that decision at its meeting last week, arguing that the 12.75% rate of return for the phone company was "well founded."

articular kind of programing. Circulated earlier this year (BROADCASTING, March 2), bill drew negative reviews from both broadcasters and public interest groups, Swift said in introducing bill last Wednesday (Oct. 7), but still has merit because, "even in the present political climate, the industry may have a better chance of getting deserved relief from pointless regulations if the justification is based on something other than just the competition argument." Bill (H.R. 4726) is essentially same as draft earlier circulated.

Acquisition of **UA-Columbia Cablevision** by joint venture of United Artists Theatre Circuit and Rogers CableSystems for 90/share won approval of UACC stockholders last week. Merger is expected to become effective about Nov. 17.

CBS Special Correspondent **Walter Cronkite** last week resigned from Pan American World Airways board of directors. Cronkite, who took **Pan Am** post earlier this year (BROADCASTING, March 16), said he had expected different continuing relationship with CBS that would not subject him to any conflict of interest problems. He said he was "rudely disabused of that expectation" when CBS News told him he was removed from further space program coverage because of Pan Am's involvement. Problem escalated, he said, and he decided to resign.

Sandy Frank Productions, New York, which has television rights to "In Search of Identity," life story of assassinated **Egyptian President Anwar el-Sadat**, says it expects to announce this week name of company that will co-produce book-based two-hour movie with Frank for network showing next spring. William Morris Agency has been representing Frank in discussions with major production companies. Frank obtained TV rights to Sadat's life story for \$100,000 in 1979, plus yearly payments of \$25,000, he says, but production was held up because TV presentation of Sadat till now has been considered "politically sensitive."

Tucson, Ariz., cable franchise has been awarded to **Cox Cable Communications**. Cox says it will build 1,060-mile system in three years in 125,000-home community. Service to be offered includes 65-channel basic for \$6.95, 91-channel package for \$9.95, with added tier costing \$4. In winning 15-year franchise, Cox promised to spend \$2.1 million on equipment for community access programing.

Opportunities and challenges of satellite broadcasting make it increasingly important for closer relations among American and Mexican broadcasters, said National Association of Broadcasters President **Vincent Wasilewski** before annual convention of **Mexican Association of Broadcasters** last week in Mexico City. Broadcasters have opportunity to assist in both development and acceptance of satellite broadcasting, he said, with its "enormous potential" and in spite of "sensitivities all nations have concerning their sovereignty."

"Newspaper publishers and broadcasters owe the nation and their communities an effort to recruit and train minority journalists," said **Allen H. Neuharth**, chairman of Gannett Co., last Thursday before annual convention of **National Black Media Coalition** in Washington. Representation of minorities in both print and broadcast journalism falls far short of representation in national population, even though it's "smart newspapering and smart business to employ from the whole community to cover the whole community," he said. "Political winds change ... but the lasting winds of change in our society must be fanned by the private sector."

Third annual **David Sarnoff Award** for outstanding achievement in radio or television will be presented to **Sol Taishoff**, chairman

and editor of **BROADCASTING** magazine, in Nov. 20 ceremony in Scottsdale, Ariz. Award is given by University of Arizona in conjunction with Arizona Broadcasters Association. Previous recipients: CBS's William S. Paley, RCA's Dr. George H. Brown.

CBS Inc. last week named new **VP, Washington affairs**—**Donald D. Wear Jr.** Wear replaces **William Lilley III**, who moved to company's New York headquarters as VP, corporate affairs. Wear is one-time staff member of FCC, having served in 1975-76 as special assistant to then-chairman Richard E. Wiley. Wear's background also includes prior stint with Washington law firm Dow,

Wear

Lohnes, and Albertson. His most recent service has been with NBC, firm he joined in 1978 as European counsel. Wear then moved to post as VP, Europe, NBC Sports, and was serving as VP, program and talent negotiations for NBC Sports when tapped by CBS. Two other appointments were announced by CBS last week: **C. S. LaFollette**, who had been executive VP and chief financial officer of Crown Zellerbach, was named VP, finance, and chief financial officer of CBS Inc., effective Nov. 2. Post is one vacant since Thomas Kirwan was appointed president, CBS/Columbia Group. **J. Roger Moody**, assistant VP, business market operations, AT&T, was appointed VP, development for CBS Inc. Reporting to Moody will be three other CBS VP's: **Dr. David Blank**, VP and chief economist; **Harry Smith**, VP, technology, and **Nathan Snyder**, VP, planning and acquisitions.

Reports were circulating last week that CBS News Correspondent **Lesley Stahl**, whose contract is up, would quit that network to move to weekend anchor spot at NBC News. CBS officials confirmed Stahl has not yet renewed her contract with them, but stressed negotiations are in progress and expressed "every confidence" Stahl would remain in CBS fold.

Upcoming

On Capitol Hill: House Small Business Subcommittee will hold second hearing on cable TV and minority opportunities in room 2359-A, Rayburn House Office building, Tuesday, 8:30 a.m. Judiciary Subcommittee on Courts, Civil Liberties and Administration of Justice will hold first day of mark-up on cable copyright and performers royalty legislation on Thursday in room 2237, Rayburn, Thursday, 10 a.m. **In Washington:** Roger Peterson, ABC energy commentator, will address luncheon of The Media Institute at University Club Tuesday at noon. Society of Professional Journalists, Sigma Delta Chi, Radio-Television News Directors Association and Public Relations Society of America will present address by Ted Turner at National Press Club on Wednesday, 7:15 p.m. **Also in Washington:** Fund-raising dinner of Broadcast Pioneers, honoring Sol Taishoff on 50th anniversary of BROADCASTING magazine, will be held at Washington Hilton Thursday. **In Fort Collins, Colo.:** Timothy Wirth (D-Colo.), chairman of House Telecommunications Subcommittee, will address annual Colorado State University/Colorado Broadcasters Association's annual Broadcast Day at CSU Friday. **In Los Angeles:** Dwight Ellis, National Association of Broadcasters, will speak at first scholarship awards dinner of Black Journalists Association of Southern California at Sheraton Plaza LeReina hotel Friday. **At Hunt Valley, Md.:** National Association of Public Television Stations board meets at Hunt Valley Inn Thursday.

Editorials

The Fifth Estate at 50

The first editorial in the first issue of BROADCASTING Magazine, 50 years ago, cited Edmund Burke's designation of the press as the Fourth Estate, along with clergy, nobility and commoners a principal component of the British realm. "And now, Radio," said BROADCASTING. "Who is there to gainsay its rightful status as the Fifth Estate?"

It may be niggling at this late date to note that authorities question Burke's coinage of the "Fourth Estate," which Thomas Carlyle, writing in 1841, 44 years after Burke's death, attributed to him. There is no doubt, however, that Thomas Babington Macaulay wrote in 1828: "The gallery in which the reporters sit [in the English Parliament] has become a Fourth Estate of the realm." To which BROADCASTING, on its 50th anniversary, adds: And now, AM and FM Radio, Television, Cable Television, Satellite Television, Low-Power Television, Multipoint Distribution Service Television, Videotext, Teletext. Who is to gainsay their rightful status as the Fifth Estate?

BROADCASTING's first editorial dedicated the magazine to "the American system of free, competitive and self-sustaining radio enterprise." From the start, the magazine asserted that the Fifth Estate was the electronic press and thus protected by the First Amendment. The Fifth Estate has changed almost beyond recognition, but the original dedication remains.

Indeed the sheer multiplicity of electronic distribution modes reinforces the argument that the First Amendment protection that the courts and Congress have consistently honored in application to the Fourth Estate must be extended to the Fifth Estate, if the First Amendment is not to be drained of all its meaning. But the Fifth Estate, in its enormously expanding configuration, will have to make a stronger effort than its pioneers made if the argument for First Amendment parity is to prevail.

□

Not until broadcasting grew into a serious medium of journalism did its proprietors begin to claim equal status with the press under the First Amendment. At the outset they accepted content regulation without challenge to its constitutionality. When the Federal Radio Commission came into existence in 1927, it immediately began eliciting information on the average weekly time devoted to entertainment, religious, educational, agricultural and other types of programs. The 1927 act creating the FRC contained the equal-time provision that still remains in Section 315 of the 1934 Communications Act that created the Federal Communications Commission.

In 1941, the FCC plunged straight into program control in the Mayflower decision that outlawed broadcast editorializing. The order was issued in a case renewing the license of a Boston station which did not appeal for fear of reviving its risk. Nor did others appeal. Few broadcasters wanted to editorialize anyway. The First Amendment was something that had been read in high school civics class.

Time passed until Cornell University, owner of WHCU(AM) Ithaca, N.Y., petitioned the FCC for reconsideration of Mayflower. It was joined by the National Association of Broadcasters, headed by a new president, Justin Miller, who had been a judge on the U.S. Court of Appeals and had read the Constitution. The Federal Communications Bar Association belatedly came to life on behalf of Cornell. In 1949, the FCC undid Mayflower, but in a way that was to create far more problems than it cured.

The FCC's 1949 Report on Editorializing removed the prohibi-

tion against the broadcasters' expression of opinion, but it produced the fairness doctrine, which has kept lawyers working overtime in Washington to this day.

□

It was all downhill after 1949. The fairness doctrine was incorporated into law when the Congress in 1959 amended Section 315 to exempt news programing from the equal-time obligation. When broadcasters finally realized they had been had and challenged the personal-attack rules emanating from the FCC in application of Section 315's fairness doctrine, they suffered the terrible defeat of the Red Lion case of 1969.

Red Lion has become the all-purpose excuse for every post-1969 venture into content regulation. "It is the right of the viewers and listeners, not the right of broadcasters, which is paramount," said the Supreme Court, thus turning the First Amendment upside down. Can anyone imagine the court saying of the press that readers' rights are paramount over publishers'?

The willing acceptance of second-class citizenship is out of character for a Fifth Estate that can rise to such journalistic heights as were reached last week after Anwar Sadat's assassination. It is out of character for a Fifth Estate that is incredibly more influential and proliferous than the infant Fourth Estate that the authors of the Bill of Rights thought big and diverse enough to serve the public without governmental supervision. Then why are not members of the Fifth Estate rushing to join the crusade for first-class citizenship that is being led, in a radical reversal of roles, by the present FCC?

Eric Sevareid, in an address to the National Association of Broadcasters' 1977 convention, said: "Most newspapers were started by men who wanted an outlet for their views, usually political. Most broadcasting stations were started by men who wanted an advertising medium, a business. They found themselves, in time, co-trustees of the First Amendment, a positive challenge to some, a discomfiture to others. But that goes with the job, with the right and the privilege. Station or network owners and managers unwilling to fight for full constitutional freedoms ought not to be in the business."

Let the guarding of First Amendment freedoms be the challenge, not the discomfiture, of the whole Fifth Estate in the next 50 years.

Drawn for BROADCASTING by Jack Schmidt

"... Now insert Tab C into Slot C ..."
