THE EDITOR'S PAGE

SCIENTISTS are deeply interested in a phenomena, not new, but recently studied, which may in time rival electricity as a world force. It is known as "capillarity," or the queer attraction which seems to exist between two substances in close contact. Water in a tube illustrates this perhaps to the most graphic degree. It is a molecular action of some sort which will make water rise in a small-bore tube of its own effort and in defiance of the laws of gravity. Charcoal which sucks up gas, is another application of the idea. Recently professors at Johns Hopkins University have discovered that the force involved was little short of terrific and have started a series of intensive studies of the phenomena. It is believed that the force itself may be harnessed. The development illustrates how the simple things of life are continually overlooked by man who accepts without question the things he sees. It is that quality of man which make the shell and pea game a good investment for a fast-handed worker.

The phrase of the street, "Nice day, isn't it?" once a meaningless lingo to fill in a conversational void, has become the dream of aviation. For radio added to aviation equipment has converted the day's status into the first factor in flying. Hardly a plane leaves the ground today without first getting the latest weather bulletin from the field station. And those in air take hourly reports of flying conditions from an operator's key at some airport. It is making the world of flying at least "weather conscious," and more and more the rest of us weather conscious also. It is important to know what the weather is these days—as every farmer knows who seeks a market for his products. The day's climate now ranks with the day's breakfast as a "starter" for many activities.

"Nothing" is one of the most important things in science. We are prone to take nothing, emptiness, zero as symbolic of waste. It is no longer true. The discovery that the hole in a hollow wire saves power companies millions in high potential leakages, is one of the graphic examples of the extent to which "nothing" has become of commercial value. Experiments by Dr. M. G. Lloyd of the Bureau of Standards at Washington have shown that hollow wires save current and out of this discovery "nothing" has acquired a new value. In astronomy, the nothingness of space is being recognized as the essential essence of all things. The laboratory axiom "Nothing is lost" would be a veritable tragedy—if it were true.

For the first time radio affairs of the United States are under control of a balanced commission. The radio commission under President Coolidge, for some odd reason, was composed of men who knew little or nothing of radio, for the most part, and as might have been expected their administration of radio affairs goes into the limbo of all of our national flops. The present commission, however, is another matter. Lawyers and engineering personnel make up its elements. The forthcoming legislation at Washington, it is anticipated will be cut on similarly intelligent lines. Radio men look to the present commission to solve many of the problems which the other commission pigeon-holed because the problems were too big for their understanding.
That plus Sensitivity and Selectivity is the key note of the new MAJESTIC Electric Radio. To appreciate this new marvel you must hear it and see it. It embodies everything that can be demanded of a receiver.

There is a total absence of hum and internally-created "background" noises. All you hear is perfect reproduction.

Precision of tuning, a "single channel selectivity," that will delight even the most cynical distance hunter.

**TUNE IN MAJESTIC THEATRE OF THE AIR**

Radio scrapes the foam off of the entertainment glass. It also stirs up the sediment. Likewise it puts on the same program, the grand opera star, the soap maker, and the divine—shakes them like dice in a box, and rolls them forth for a seven or an eleven, according to the applause cards. Wherefore radio is the grand leveller, a supreme democracy, and a human sieve.

* * *

We heard an old trooper say once, after a great singer had appeared on the vaudeville stage: "She finished the program, all right, but me and my trained dogs, we opened for her." Radio is like that. There is no aristocracy of the air. The microphone makes commoners of us all, and this applies to both sides of the "mike," for out in space a king can hear no more than a grave digger—if each has the latest set.

* * *

Tonight we have a President at our dinner table. Tomorrow a queen of music lifts her voice for our entertainment. The difference between the two is key pressed in remote control—the flip of a circuit, the path of a shout down a copper line. And between those two, and the cowboy with his harmonica, tonguing cow-land harmonies for a million listeners—the twist of a dial, only. Wherefore—between this and that, and thus and so we have a black line painted on a disk, or the forward and back play—one inch perhaps, of a control switch.

* * *

Interesting angle this: Says one mother: "Johnny—behave yourself or you'll never be President!" Johnny doesn't behave because he has temperament. Having temperament, he grows to be a great musician and toodles a tuba. In the heydey of his fame he is booked on the inauguration program. A President speaks and gets applause. Johnny toodles—and gets 50,000,000 applause cards and a contract that would shock a banker. Radio has placed Johnny next to the Presidency and fame is his. What, then, has radio done?

* * *

Radio is a scalpel that exposes the ganglia. It takes personality, such as one buys in books, and throws it bodily out of the window. It peels pretense like skin from a banana. The bimbo who broadcasts must have something on the pan or the public chuckle is his and without the asking. The high chest and haughty look no longer counts. The personal gesture, the oratorical eye, the imposing dignity—rinds, peelings, hurled into the discard.

* * *

Radio clicks a shutter and we see through a hole into the nakedness of fact. A singer either sings or she doesn't. No jewels, gauds, complimentary lights to soften or distract. We sit in the dark and listen and we can tell her to the nicety of a gnat's apron-string if she is or isn't, if she does or doesn't. The politician—professional legerdemainist—juggling words in the harlequin colors of royal verities—over the radio, speaks into a cosmic void—and the hollow echoes come back to him like thunder. Sunk his ship of hope. He had nothing to offer and the mike, with its horse-laugh, drove the realization home.

* * *

Brotherhood! Well—what has radio done for that? Much—much that is lasting. It has taught the German lie is British, the Briton he is American. It has left us, so to speak, on each other's doorsteps. Baptist in the lap of Catholicism, Presbyterian on the same wave length with Jewry. It has wrapped a winding sheet around the corpse of sectional difference, and buried it squarely across every Mason and Dixon line we ever mapped—half on each side. It has broadcast our secret foibles to the world and defied our public prayers into a ritual. Radio ran its gay finger over our lines of demarcation and we were just letters of an alphabet, jumbled together.

* * *

Well, it's been a busy science or art, whichever you prefer. It has held up our great ones to the light so we could see the watermark. It has taken the obscure and thrust them on thrones. It has gone about life, turning this and that topsy-turvey, chuckling in its sleeve at our gaspings. It brought us gifts wrapped in promise, and voided our specious contracts with limitation. One can't turn a dial and not be universal. One can't beg for the petty panhandlings when the snap of a switch unleashes the world's cornucopia.

(Continued on Page 12)
Type M26 — Amplifier — a 1½ volt, four prong, UX base, 1.05 amp. A.C. tube for operation on alternating current through a step down transformer. Price $1.75.

QUALITY

There are two things that determine the quality of a radio tube.

First—The ability to give long service. For this CeCo tubes have long been noted.

Second—The ability to reproduce clearly all tones. CeCo tubes are not mushy and do reproduce only sweet clear tones.

To prove to yourself that CeCo tubes will make any good set better, try a complete new set of CeCo's and be convinced.

Lew Miller and Pete Peterson are two boys who play piano duo programs over KYA and ABC Western Network stations billed as “Dealers in Old Ivory.” Pete was Ruth Etting’s accompanist in the East before he teamed up with Miller.

* * *

The name of Adele Rowland needs no introduction to the millions who for years enjoyed her work as a musical comedy star and as a vaudeville headliner.

Recently at KFI, Los Angeles she was introduced to a new audience—the radio audience. Although she is a veteran of the stage, Miss Rowland was at first distinctly nervous. She soon recovered, however, and was at home in a few seconds.

In private life, Miss Rowland is Mrs. Conway Tearle, wife of the well-known moving picture star.

* * *

“Big Brother Don,” who handles the children’s hour every afternoon over KFI, believes he has the youngest radio performer in captivity. He is Joe Hawkins, 2 years old—pink-faced, golden-curl’d, chubby-kneed.

Joe went on the air for the first time recently, declaiming the poem that tells about Humpty-Dumpty and the king’s horses. His fan mail is already equal to that of many veterans.

* * *

Sid Goodwin, KGW’s chief announcer, gets all sorts of gifts—cakes, bottles of near beer, cigarettes, etc., but the latest one takes first prize. It is a share of stock, a present from WENR, Chicago. The official looking certificate got Sid all excited until he examined it carefully. It was Wild Hooten-attie stock, “Very Common”—Resources, “Infinitesimal”—Dividends, “Maybe” and dated simply “yesterday.”

* * *

The melodious voice of Del Milne, KGW’s popular pianist, now floats gently up and down the Pacific Coast. Del is doing a little announcing—and he’s good.

* * *

Jack Barnet of KGW has had “KGW” in big gold letters put on the windshield of his Hudson and hasn’t been in jail since.

* * *

KGW studio snapshot: Mark Daniels unable to sing because he can’t find the inevitable handkerchief to hold in his hand.

A few remarks made by Madame Berthe Baret before the KGO microphone gave the radio audience an insight into the delightful personality of this vivacious French violinist. Although Madame Baret’s playing has always commanded a wide audience, her popularity seems to have increased at the General Electric station since dialers heard her charming French accent.

* * *

Few of those in distant parts who have heard Dorothy Dukes Dimm play the ’cello over KGO know that she is one of the most popular society girls in Central California.

In radio Miss Dimm finds an incentive to keep on with her music. The Rembrandt Trio, of which she is an associate artist, affords Miss Dimm ample outlet for the musical ability which musical critics and listeners say is undeniably hers.

* * *

Bert Horton has appeared in about 400 plays at KGO and a little over 350 plays for the NBC System on the Pacific Coast. Horton was cast in the first ether drama at KGO and has been a member of the KGO Players for the past six years. He has been with NBC for about one-third of that time.

Professor Herman Schnitzel fooled the two German members of Paul Whiteman’s orchestra with his dialect.

Schnitzel was kidding with Richard V. Haller, head of the ABC chain in San Francisco while Whiteman’s Old Gold Orchestra was in the KYA studios for a nation-wide broadcast.

The two Germans heard Schnitzel’s rich German dialect.

First one, then the other, went to him and in good German asked him where he was born.

Schnitzel neither understood nor answered. He then explained in English that he was born in San Francisco, sells real estate to keep the home fires burning, and does German dialect over the radio “for the fun of it.”

An ILLINOIS grocer has sued a noodle manufacturing concern alleging that they left the “p”s and “q”s out of a case of alphabet noodles which he innocently sold to his customers.

Aside from knowing his “p”s and “q”s he might be called a man of letters.

Commissioner Wha''en of New York has purchased the whole police department new hats.

He couldn't afford to have the bootleggers better dressed.

A speeder who was arrested for running down a man in front of a hospital insisted that a hospital sign forbade him to honk his horn in a zone of silence and there was nothing he could do.

The court should have fined the pedestrian for playing a dirty trick on an honest motorist.

Examining the new tariff bill, someone has discovered that we may import certain necessities of life free. They include: garlic, lifeboats, skeletons, altars, curing stones, leeches, zoo animals, turtles, licorice root, palm leaf fans, ice and spunk.

Downtrodden husbands will welcome that last one.

Some of the prominent laboratory boys who are giving their lives to chas ing up vitamins have discovered that onions possess about all the necessary ingredients of human existence.

The new slogan: “Reach for an onion instead of a meat!”

A Chicago girl had a suitor arrested because he tried to force her to reveal the address of a successful rival. The suitor denied to the police that he intended to hurt the rival.

He just wanted to sell him the ring!

The new dry maxim: Shoot first and apologize to the widow; afterward!

An eastern millionaire has installed a private bath in his airplane.

Now if he will dump his bathwater in the right place the desert can be made to bloom indeed.

British battleships are installing windshield wipers to keep the rain off the observation windows.

Now if the admiral will only stick out his hand when he turns a corner . . . !

Al Smith is to write his life for the Saturday evening Post.

Probably one of the “Short Turns and Encores!”

The famous actress Spinelli appeared at the Deauville races recently with her back stripped to the waist.

Many famous people have been stripped even more at American race tracks.

Papa Browning, who intended to sell all his property and buy toys for poor children with the proceeds, thinks now there may be a better philanthropy in the world and has broadcast a call for ideas.

How about a new method of canning Peaches?

Uncle Sam’s new currency goes into circulation July 10. It is only slightly larger than cigar coupons.

It will still be easier to save the coupons, however.

Two San Francisco jewelry concerns are at loggerheads in the courts, one of them alleging that the other has infringed a patent wedding ring.

One that stays on, perhaps.

A London scientist—Dr. James C. Mavor—is having a lot of fun mixing up sex cells with an X-ray. He recently so confused a sea urchin that it married its own father. The two seem quite content in their strange alliance.

There must be one of these X-ray machines working around here, judging by some of the divorce complaints.

The state authorities are greatly agitated over the deadly citrus fly which they fear will invade California fruit growers.

No matter whether it does or not, we will still have orange drinks made from genuine oranges manufactured in a chemical laboratory.
Here’s Why
PERRYMANTUBES are better

Better because the tone is sweeter, the volume greater, the reception clearer.
Better because Perryman tubes are the result of extensive study and years of research.
Better because the Patented Perryman Bridge and Spring—two features exclusive to Perryman Tubes—insure greater clarity and longer life.

Every day more people demand Perryman Tubes. Sell them a complete set. Tell them about the Patented Bridge and Spring in Perryman’s. Your own ears will convince you they are better.

PERRYMAN RADIO TUBES
A Complete Line of Standard Equipment for every Radio Purpose.
San Francisco, June 15, 1929.

Dear Public:

Tune in everybody, as this broadcast is a digest of Mrs. Remont's enlightening letter, appearing in this week's number of Broadcast Weekly, and is the very latest statistics on radio audiences.

How many of you know that 95 per cent of the people that write to the stations are "morons"? Yes, indeed. Why, even you might be one 95 and not suspect it, and your dearest friends be in total ignorance of your deplorable condition. What an awful state of affairs. Can't something be done about it? We are so grateful to Mrs. Remont and her radio friend for calling our attention to this stupendous calamity.

How ignorant we have been. We have always designated ourselves as radio audiences, but we are all wrong; we are "the mob." Isn't that cute? Take that down in shorthand and see how it sounds.

Somebody please let the Radio Commission know that part of the programs are vulgar and I think they will put a stop to it. We have enjoyed them, not knowing, of course, that they were vulgar. There again we show our ignorance, but thanks to this illustrious woman and her radio friend for this enlightenment.

Mr. Barry, God bless him, is about the only one that has not been censored. What, Oh what is to become of the "sentimental broadcaster"? Does Mrs. Remont wish him sent to Timbuctoo along with Sonny Boy or murdered at the same time the awful deed is committed on the Glad Rag Doll?

Sincerely,

J. N. SAXTON.

Woodland, California, June 10, 1929.

Gentlemen:

Just a few words to tell you how much I like your book, the Broadcast Weekly.

It not only gives us a life story about one of our favorites, jokes, and important information about different stations, but it also has pictures of the different radio artists that we would otherwise be unable to see if it were not for the Broadcast Weekly.

We all know that life is made up of joys and disappointments, so that whenever I find I have dialed to a certain station for a certain program that you have printed in your book, and I find that it isn't on the air at the time you have stated, I just call that one of the disappointments and laugh it off, because I know that it was not your fault.

According to my estimation your book is the best on the market. Sincerely,

DORA HOERNLEIN.

THE RADIO TATTLE (Continued from Page 6)

Radio has made us think—of the other fellow. It has broken down the exclusiveness of our little individual puddle-splashing. The world is full of "ke-zugs" and we hear other frogs diving. It makes us wonder if our own diving is to a purpose. Radio turns us in upon ourselves, spotlighting our inhibitions. It breeds opinions. It develops analysis. Today we like thus and so and we know why. Yesterday we liked thus and so—and pawed for the reason. We can't be fooled as easily today as yesterday. The bunco men are starving.

* * *

If today, tomorrow, next week—every station in the world shut down—every broadcast unit closed, for one week—a roar like Niagara would go up! Is it that we so value our amusement? Our entertainment? Our relaxation? Not us. We'd be amused, notwithstanding. But radio has become to us a pulse in the world's wrist. Radio in us—our inner selves, beating like a giant metronome to the rhythm of world cycles. Radio is a fine wire to which we cling in the giant ocean of the thing called Time. Through it we have a kinship with all that lives and breathes. If that wire has broken we'd be hellishly lonesome.

* * *

Nobody can define radio. It has grown from a seed, mushroomed upward and now overshadows a whole civilization. In it, as in a giant mirror, we see the things we are doing, reflected for all to see. Radio is psychic vision—that inner sight which makes every man's thoughts the property of every other man, and an integral part of world consciousness. Turn your dial if you will, to this or that—it is all part of everything. Radio is the ear of Mother Nature turned so that we, too, may listen. It is Pandora's box with the lid cast aside.

* * *

And so tonight, when you bring in radio from the airplanes—forget not that the harlequin which dances in cap and bells is, after all, your child. And be concerned about his future!
EVERYONE wants power in a radio set. To turn up the volume, and feel the full, deep surge of a big symphony broadcast, is one of the big thrills of radio. The disadvantages, however, have been that the speaker "overloaded"... sound was distorted... with power you couldn't get selectivity... but Temple has overcome these handicaps. Full-toned power in abundance... always with knife-edge selectivity....

Sensibly priced, too!

WALTER BEBAN—NBC SAXOPHONIST. He makes the instrument laugh, wail or "what have you?" Walter is a cousin of the late George Beban and has a reputation of his own a long way around the world, having directed the orchestra in the world's largest dance hall at Sydney, Australia. Besides playing in Max Dolin's orchestra, he is a leader and soloist. When Walter isn't playing, he boxes. He represented the U. S. Marine Corps contending for National Championship and boxed for the Olympic Club at San Francisco.
Astonishing advancement in radio reproduction

MAGNAVOX X-CORE DYNAMIC SPEAKER

Magnavox X-core is a new, exclusive principle of dynamic speaker construction. It assures, for the first time in any speaker... freedom from hum, rattles and distortion at any volume.

Also, the X-core enables Magnavox to offer, for the first time in speaker history...

A LIFETIME GUARANTEE of original standard of performance

You will marvel at this new dynamic speaker. Used as built-in equipment in several makes of fine radio sets... also sold as a separate unit under the Magnavox name. Hear it!

THE MAGNAVOX COMPANY
CHICAGO, ILLINOIS • OAKLAND, CALIFORNIA

REALISM
THE Radio Corporation of America announces the forthcoming development of Bolinas and Marshall, the receiving and transmitting centers of their Pacific communications plant, into the nerve center of a vast radio communication system that will link the United States and all transpacific countries from Australia to Siberia. The announcement is made by G. Harold Porter, manager of the Pacific division. Expansion of the present plants to accommodate twenty short-wave circuit systems which will be added to the present marine-ship transmitters and the famous long-wave high-powered equipment.

Soviet scientists are taking up in earnest the possibility of establishing a six-day week in place of the regular seven-day affair. The plan is to establish five working days and one of rest. This would turn the year into 61 weeks instead of 52 and give nine additional days of rest. All legal holidays would be eliminated under this plan, with the exception of the revolutionary holidays of May 1 and November 7. It is planned to start the new arrangement January 1 of 1930. In Tomsk certain schools and organizations have already substituted Wednesday for Sunday as a day of rest.

Financial wires carry the information that the Pan-American Airways system plans the expenditure of $1,000,000 in the establishment of 72 air-radio stations for plane and airport communication work. The stations will be located in practically every country south of the Rio Grande and Florida. Every plane will be fully equipped, both for communication and for picking up broadcast programs while in flight. The ground stations will be so located that the pilot of any one plane will be in touch with at least two of them at all times.

The Transcontinental Air Transport Corporation, also, which begins transcontinental train-plane service in July with coast-to-coast network of radio stations as control points for its planes. Special radio apparatus will be installed in these planes to pick up, automatically, messages intended for various pilots. This service is independent of the Boeing Air Lines, whose radio units are already in operation east and west as well as along the Pacific Coast.

Arthur Gould, a Rhode Island farmer, anticipating that airplane travel will shortly be as common as automobile transportation, has established the first airplane service station in the country. He has turned his 27-acre farm into a station, with hangars and gas tanks. A 400-foot arrow in another field points the way for aviators. He has a weather indicator, a wood-turning lathe, a forge, and plenty of tools. The flier may drop down and get an overhauling any time.

Edward F. Renwick and W. H. Holland joins W. E. and W. H. Jackson, Inc., San Francisco, in the sales department, and will cover the Sacramento and San Joaquin, featuring the Apex line of radios manufactured by the U. S. Radio and Television Corporation, and distributed in northern California by the Jacksons through their San Francisco and Oakland stores.

In the battle against the Mediterranean fly, deadly fruit pest, six new quarantine stations have been established in California. The stations have been located at Crescent City, Hornbrook, Dorris, New Pine Creek, Cedarville and in Siskiyoo County, near Marlin, Ore. More than 1,900,000 acres are to be kept under patrol, eleven new inspectors having been appointed for the work. These additions are because of the fact that it is felt that the California fruit crop is somewhat in jeopardy from the pest, which has quarantined Florida grapefruit out of this state for years.

Out of the radio field has come another development this time to aid the power companies. Radio engineers discovered that hollow wires or tubes were best for high currents because of the fact that little line leakage accompanied their use. The bureau of standards at Washington has been studying this phenomena for some time, and as a result the hollow wires are now being applied to the long-distance transmission of electrical currents of high voltage, curtailing losses that in the past have been enormous. The hollow wires eliminate the weight and cost of solid wires as well as electrical loss. The wires are braided around a metal core which gives high strength and low long-distance loss.
Gives Your Set More Pep

Improves Daylight Reception

Increases Selectivity

Needs No Tube, Draws No Power

A New and Improved Station Isolator
Designed by E. M. Sargent

A Universal Model
Works with Any Set

Price $10.00

Sold on 5-Day, Money-Back Trial

Stop Overlapping of Locals

No matter what kind of radio set you have, a Station Isolator will improve it. If you have an Isolator you do not have to wait until late in the evening when all the locals are off, in order to hear distant stations. You can CUT RIGHT THROUGH the locals and hear up and down the Coast and further, at any time in the evening. The Station Isolator absolutely prevents overlapping of local stations. No matter how close you may be to the broadcast stations, you can hear your favorite station clearly, and without interference.

Reception is quieter with the Isolator. It increases the efficiency of the receiver and consequently the volume control can be turned lower, easing some of the strain on the tubes and usually improving the tone quality.

Increase Your Daylight Range

If you are in the outlying districts, away from the immediate vicinity of the broadcasting stations, you can count on a substantial increase in your daytime receiving range when you add a Station Isolator to your radio. Good, strong daytime signals can be had on stations that are now too weak to enjoy in the daytime.

One Model Works With All Sets

The Station Isolator will work with any standard receiving set. Full directions accompany it. It is so simple that anyone can install it in five minutes. It does not use a tube, and draws no power,—it connects between the antenna, ground, and the receiver,—and what a difference it makes!

Brings In Those Weak Stations

The Station Isolator tremendously increases the efficiency of the receiver and as a result, brings the distant stations hundreds of miles closer. It brings the weak ones up to loud speaker volume and brings in some more weak ones from still further away that cannot be heard at all without it.

Absolutely Guaranteed

THE musical world is looking forward—for a change—to the appearance of Eleonore La Mance, a young American singer who has been winning fame at the opera in Cairo, Egypt. This seems a peculiar place for a singer to win fame unless one has been in Cairo during opera season and seen the immense interest taken in such events. Miss La Mance appeared in “Aida,” “Das Rheingold” and rocked the musical colony to its foundations. She is scheduled to return to New York later this year.

** * * *

The Curtis Institute of Music, whose wholly worth while programs are heard occasionally via KYA in this area, are performing a valuable work in colleges toward the stimulation of musical interest. They have undertaken a series of concerts before leading educational institutions near Philadelphia under direction of Josef Hofmann to promote an appreciation of good music. No charge is made for the concerts, which are given by the finest artists of the Curtis organization. Bryn Mawr, Peddie School, George School and nearly a dozen others are the beneficiaries. Among those who are appearing are Lois Putlitz, St. Louis symphony concertist and violinist, and guest artist with the Los Angeles Symphony Orchestra; Lucie Stern, pianist, European recitalist; Helen Jepson, soprano of the Philadelphia Civic Opera Company; Conrad Thibault, tenor of Philadelphia Grand Opera Company, and a number of others.

** * * *

The first Anglo-American conference of school music supervisors will be held in Switzerland during the summer for an interchange of ideas. Walter Damrosch and Sir Henry Hadow will preside. The conference will meet in August.

** * * *

The statistician has been busy again, this time with the piano. He or she has discovered that more than 150,000 teachers in the United States make their living through the piano. It may be safely said that the piano is the most important instrument in the musical world. Conversely there are, perhaps, fewer good pianists than players of other instruments and this may be due to the fact that a piano is comparatively easy to play and most difficult to play well. Any one evening with a radio set, piloting the air, will confirm this.

The march of Bohemian clubs still continues. New York’s famous aggregation has long been a home of sponsors for musical development. On the West Coast our own Bohemian Club has stepped to the forefront of musical development with its annual plays in Bohemian Grove and its whole-hearted patronage of moments musicale. Chicago, not to be outdone East and West, now has its own Bohemian Club, and its introduction to musical interest brought no less than Rudolph Ganz, pianist; Remo Bolognini, violinist, and the Felber string quartet to its formal inauguration. The purposes of the organization are to foster the cooperative spirit among musicians, and the development of chamber music presentations.

** * * *

Deems Taylor, commissioned by the New York Metropolitan Opera Company to write an opera, tackled the job with unbounded enthusiasm, dwindled in effort and finally laid the work aside with the remark that he was “stuck with too much thought.” Later he explained this by saying that opera was a thing of emotion and that too much thought clogged its purposes and renditions. We agree with Deems Taylor heartily, for there is hardly a successful opera in which the thinking process appears to have been used at all. Murder, suicide, infidelity—all qualities of emotion, are its pre-eminent characteristics. A touch of human intelligence, and the plot would vanish, which recalls the famous remark of a famous singer: “Why have a plot?”

** * * *

The overwhelming success of the German Grand Opera Company in Philadelphia, Chicago, Pittsburgh and Cleveland, lays emphasis on the efforts which are being made to effect an interchange of opera companies between Europe and this country, on a basis similar to the interchange of conductors. The expense attached, however, to the operatic interchange has previously made this a difficult matter to accomplish. Under the sponsorship of musical enthusiasts who see great benefits to be accomplished by such a program definite arrangements to this end are now being made and we may see, this year, a number of foreign countries brought here in toto from their own land to give us the best in European productions. The educational value along comparative lines alone would warrant the cost.

Demonstration rooms will be one of the features of the 1929 Pacific Radio Show which will be held in the San Francisco Civic Auditorium from August 17 to 24.

Window strips announcing broadcast features are being sent to all radio retailers in the bay area weekly by the Pacific Radio Trade Association with the cooperation of the Radio Retailers' Association.

Selling by radio was the subject discussed at two afternoon departmental sessions during the recent convention of the Pacific Advertising Clubs Association, held in Oakland from 16 to 20. Howard Milholland, manager of KGO, acted as chairman. Many prominent radio and advertising men participated.

The city of Sacramento has just adopted an ordinance controlling radio interference, with the provisions made for an investigator to be paid from a fund derived from a tax of $100 per year levied on all firms and individuals engaged in the sale or servicing of radio apparatus. The Sacramento Music and Radio Trades Association, headed by John Zak and J. Hobrecht, is responsible for the measure.

Grover Anderson, manager of the Electric Corporation, with offices at 145 Ninth Street, announces that they have taken on the distribution of the Silver radio set, manufactured by the Silver-Marshall Company.

The Coast Radio Supply Company, 648 Howard Street, San Francisco radio distributors, have now taken on the Erla radio.

The United Radio Supplies Company announce that they have taken over the distribution of Fada radio for Northern California.

What bids fair to be the largest order to date for the new A. C. screen-grid tubes was recently split by Silver-Marshall, Inc., between the Radio Corporation of America and E. T. Cunningham, Inc. Nearly 250,000 tubes of UY224 and C324 types alone have been released by Silver-Marshall for specified delivery in the next few months.

McMurdo Silver's comments upon these tube orders are interesting: "We have ordered only a sufficient quantity of screen-grid A. C. tubes to supply Silver radio distributors with tubes for their minimum delivery commitments now on order at our plant. In ordering these tubes, we have sought to definitely insure delivery of only a portion of our distributors' requirements of screen-grid tubes for Silver radio, and are depending upon them to place their own orders for all except the minimum, which we have now arranged to furnish, or, if possible, to hold as a reserve stock against possible shortage later in the season."

Work on the new unit for the Jensen Radio Manufacturing Company plant for which ground was broken the middle of last month is progressing at a rapid rate, and, according to Peter L. Jensen, president of the company, installation of machinery and equipment will start during the present week.

This new unit doubles the manufacturing capacity of the Chicago plant of the company. The first unit into which the company moved, this spring was considered by Jensen officials to be of sufficient size to provide ample manufacturing space for the 1929 and 1930 season. The introduction of a new Jensen Concert Dynamic resulted in a volume of business being placed with the company which made it imperative to immediately expand the manufacturing capacity.

According to Thomas A. White, general sales manager of the company, contracts have been signed with sixteen of the leading radio set manufacturers to supply them with their electro-dynamic speaker requirements for the coming season. Among these are numbered several of the largest producers in the country. The company, according to Mr. White, is also obtaining a large volume of business from the automatic phonograph manufacturers and builders of apparatus for talking movie pictures.

Practically all departments in the Jensen plant are operating on a twenty-four hour basis to keep up with shipping schedules called for on manufacturers' contracts and orders being received from the distributing trade.

Mr. White also announced today the opening of a new office in New York City to serve the metropolitan area. This office is located at 1650 Broadway and is in charge of James A. Kennedy, Eastern sales manager for the company.
replace

your old 171 or 171A in your AC set

with the

New Sonatron

171AC!

Offered only by Sonatron!

Whether you already have an AC set, or are about to buy one, be sure to use this new tube in the 171 socket. It has been especially designed by Sonatron engineers for AC circuits—and offers far longer life, greater volume and a newer and richer tone quality! It replaces the 171 or 171A without re-wiring.

Already—

A Sensational Success!

Many thousands of these tubes already in actual use throughout the country have amazed set owners with their unusual results. Ask your dealer for this newest development in AC reception.

SAN FRANCISCO RADIO SHOW

Bay region radio dealers returning from the convention and trade exhibit of the Radio Manufacturers' Association at Chicago are providing advance indications of the character and scope of the forthcoming Pacific Radio Show.

The show will be held at the Civic Auditorium August 17 to 24 and will be the first public exposition in America of the various things in radio that were viewed by the dealers on their Chicago visit. The returning dealers emphasized that virtually all of the newest developments viewed by them are embodied in sets already on the market.

They joined in predicting that the Radio Show will nevertheless prove one of the most attractive ever held from the standpoint of the public, with its opportunity for intimately comparing the finer points of distinction.

One of the most striking impressions of the Chicago visit, according to dealers, was the fact that television was conspicuous by its absence. While the belief prevailed that television is an ultimate possibility it was admitted that a vast amount of work remains to be done before this becomes a commercial factor.

It is expected that the first television apparatus to appear on the market will be designed for the experimenter and that the first commercial broadcasting of television will be from talking picture films.

The dealers found at the Chicago exhibit that the console type with built-in speaker continues to hold a prominent place, with a tendency toward the use of a much larger cone.

Among the noticeable features was the exhibiting of a number of standard sets employing two or more screen-grid tubes, one or two 227 type tubes, and 245's in push-pull in the last stage of audio.

Furniture tendencies were found to be toward smaller consoles at lower prices. Walnut in two-toned paneling continues to be the popular wood. Complete shieldings and solid metal construction of chassis prevailed, with aluminum and steel as the metals most generally used.

Among the more expensive sets, several were shown with both remote and selective control systems. Improved types of dynamics seemingly dominated the speaker field.

The show committee of the Pacific Radio Trade Association, conducting the Pacific Radio Show, has announced that practically all of the exhibit space has already been taken, assuring that the show will again be completely representative of the industry.

This is the way to get rid of that man-made "static" from motors, street cars, telephones, electrical appliances, etc. Plug in a Falck Claroeceptor between your receiving set and the wall socket; it will block out those line interference noises and radio frequency disturbances. Also helps selectivity and distance amazingly! Thousands all over America are praising this splendid improvement. An absolute necessity to clear reception in some locations.

The Falck Claroeceptor requires no changes in your set. Measures just 3½ x 5½ x 2½ inches. Tested, proved. Get one right away—only equipment of its kind. At radio parts dealers, or write to factory for new descriptive folder, FREE.

$7.50 complete with cord and plug

**Broadcast Weekly**
SUNDAY Programs

NBC National Broadcasting Company
12 to 1:30 p.m.—National Sunday Forum.
"Tale of Two Cities" is the title given by Dr. Ralph W. Soekman, eminent New York clergyman, to his address for the National Sunday Forum which will be broadcast today. Dr. Soekman also will answer a group of questions which come each week from the radio congregation.

Hart Giddings, organist, and the Oratorio Choristers under George Dilworth's direction will interpret religious compositions of note and fineness.

KHQ and KPO will broadcast the entire service and KOMO and KGO will present it beginning at 12:15 p.m.
1:30 to 2:30 and 3 to 4 p.m.—Sunday Afternoon Concert
Gems from a musical treasure chest will be presented by Noah Steinberg, pianist, and the National Concert Orchestra under the baton of Charles Hart when the Sunday afternoon concert is broadcast through KHQ (1:30 to 2:30 p.m.), KFI (2:30 to 3:00 p.m.), and KOMO, KGW, KGO and KPO for the entire two hours.
2:30 to 3 p.m.—Whittall Anglo-Persians
Mysteries of solitary sands at twilight will be pictured in the music of Beghion's "Nocturne au Desert" as the Whittall Anglo-Persians answer the "Call of the Desert" this afternoon.

Louis Katzman, leader of the Whittall Anglo-Persians, made a salon arrangement of the new popular "Was It a Dream" and composed "The Whittall Airplane Patrol," both of which will be played during the program.

Broadcast through KHQ, KOMO, KGW, KFI, KPO and KFI.
4 to 4:30 p.m.—Rural Tales
Another of the popular "O. Henry stories, "A Lickpenny Lover," will be dramatized. "A Lickpenny Lover" is the story of Maizie, the Hop girl, with whom a millionaire falls in love. Despite the difference in their social positions and background, he asks her to marry him and promises her a honeymoon in a city "where the streets are water," Maizie's misinterpretation of the whole affair forms the basis of the plot.

Broadcast through KHQ, KOMO, KGW, KFI, KPO and KFI.
5:15 to 5:45 p.m.—Atwater Kent program
Alfredo Gandolfi, eminent Italian operatic baritone, will be heard as the soloist for the Atwater Kent program this evening.
Complete details follow:
Orchestra—From the Canebrake.............Gardner Orchestra—Rustle of Spring.............Sinding Baritone solos—
a. Love Me or Not.............Seechi
b. II Gitano Re (The Gypsy King)......Gandolfi Orchestra—Menuet..........Faderewski Orchestra—La Pastiche (To the Firewell).............Alvarez-Pasternack
Baritone solos—
a. Kashmiri Song.............Woodford-Finden
b. Tally-Ho!..................Leonard Orchestra—Barcarolle — "Tales of Hoffman"—Offenbach

Broadcast through KHQ, KOMO, KGW, KFI, KPO and KFI.
5:45 to 6:15 p.m.—Rapid Transit
In a series of brief and varied dramatic sketches familiar types of people who are encountered in every large city will be brought before the microphone. The plots are separated by interludes of popular music, offered by Enrique Madriguera and a dance band.

Broadcast through KHQ, KOMO and KGO.
6:15 to 6:45 p.m.—Studebaker Champions
With their always colorful group of popular airs, the Studebaker Champions will be on the air again tonight between 6:15 and 6:45 o'clock.
"Anything Your Heart Desires" will be the opening number played by the 26-piece orchestra under Jean Goldkette's baton. "Do Men in the Rain," with vocal chorus, will follow, introducing again Fred Waldner, tenor.

Broadcast through KHQ, KOMO, KGW, KGO, KPO and KFI.
7:45 to 8 p.m.—"Enna Jettick Melodies"
Lavalle's "O, Canada," interpreted by the mixed quartet and ensemble, opens the program of old-fashioned airs, while the hymn for the day is "One Sweetly Solemn Thought."
"Spanish Cavalier," a brilliant number of Hendrickson's, is one of the bright spots of the program.

Broadcast through KHQ, KOMO, KGW, KGO, KPO and KFI.

**www.americanradiohistory.com**
Reproduction, for instance.

So much has been claimed by so many radio manufacturers that it really would be a difficult matter to make an intelligent decision from the printed word alone.

Reproduction, for instance. It is not logical that one product produced at half the cost of another can perform on a comparable basis. Nor is it logical that every brand of speaker can have the accuracy and tone quality that is so generally claimed.
The Jensen Electro-Dynamic Speaker is manufactured by a recognized leader in the field of acoustics. The underlying reason for Jensen superiority is that it was designed and is manufactured to be superior.

Quality and knowledge come first, last, and in every phase of its manufacture. Jensen claims "Reproduction, True as the Original," because of the sincere belief that the Jensen Speaker is really that perfect . . . Ten minutes at any good radio store will convince you that this is true.

**NBC**

National Broadcasting Company

10:30 to 11:30 a.m.—“Woman’s Magazine of the Air”

Helen Webster will read another group of “Household Hints” and Ann Holden will talk. The Arion Trio and NBC soloists will provide music during the hour and Benny Walker, editor, will read a group of selected poems from a long list of “requests.”

Broadcast through KHQ, KOMO (10:45 to 11:30 a.m.), KGW, KGO, KPO and KFI (11 to 11:30 a.m.).

5 to 5:30 p.m.—Edison program

Favorite music of another famous person will be heard during the broadcast of the Edison program through KHQ, KOMO, KGW, KGO, KPO and KFI.

5:30 to 6:30 p.m.—General Motors Family Party

Sixty minutes with John Philip Sousa and his world-famous band will be offered through KHQ, KOMO, KGW, KGO, KPO and KFI.

6:30 to 7 p.m.—“The Empire Builders”

Dramatizing another Indian legend of Glacier National Park and Waterton Lakes, “The Empire Builders” tonight will close their series of historical broadcasts.

Broadcast through KHQ, KOMO, KGW, KGO, KPO and KFI.

7 to 8 p.m.—In Danceland

Eddie Fitpatrick and a twenty-piece jazz band go on the air.

8 to 9 p.m.—Singers, Schedule: Henry Starr, tenor, and other NBC artists will present novelty numbers and vocal choruses appropriate to the hour.

Broadcast through KHQ, KGW (7 to 7:30 p.m.) and KOMO (7:30 to 8 p.m.).

8 to 9 p.m.—Rudy Selger's Shell Symphonists

Playing as a violin solo his own “Berceuse,” Rudy Selger conducts his Shell Symphonists in an hour of light classical and semipopular music.

Complete details follow:

**Orchestra—My Maryland**

Romberg

**Orchestra—A Night in Venice**

Strauss

**Orchestra—A South Sea Island Romance**

“The Pale Star”

Roth

**Orchestra—Group of Schubert’s songs**

Vogler

**Orchestra—Spanish Students (Watts)**

Waldeufel

**Violin solo—Berceuse**

Selger

**Orchestra—Niebelungen March**

Wagner

**Orchestra—Je T’Alime**

Massenet

**Orchestra—Nymph and Paean**

Bemberg

**Orchestra—Yankee Patrol**

Meacham

Broadcast through KHQ, KOMO, KGW, KGO, KPO and KFI.

9 to 9:30 p.m.—“Voice of Firestone”

Those who will participate in the program include Easton Kent, the “Voice of Firestone,” Marlan Gilbert, contralto, the 32-piece orchestra conducted by Mr. Dolin and the Choristers under Michael Jones’ direction.

Broadcast through KHQ, KOMO, KGW, KGO, KPO, KFI, KSL and KOA.

9:30 to 10 p.m.—Plantation Echoes

“Plantation Echoes” will come to NBC when the lazy airs of the southern folk are broadcast from the imaginary home of Judge Chandler.

Johnny Toffoll’s accordion will be heard and Sylvano Dale will present a novelty tap dance.

Others programmed are Bobbe Deane, Clarence Hayes, Charles Marshall and Jerry and his Dixie Melodists.

Broadcast through KSL and KOA.

10 to 11 p.m.—Slumber Hour

Several of the most familiar and beloved classics are chronicled for the broadcast of the Slumber Hour program.

Harold Spaniuling, tenor, will be heard in “I Shall Return” by Schipa and “Sunrise and You.”

Broadcast through KSL and KOA.

**NBC**

**National Broadcasting Company**

10:30 to 11:30 a.m.—“Woman’s Magazine of the Air”

Continuing the series, another “Pictorial Play” will be broadcast.

In a musical setting there also will be talks by Ann Holden, domestic science expert, on the variation of sandwich during the Kraft feature and on pies during the Wedgewood period.

Broadcast through KHQ, KOMO, KGW, KGO, KPO and KFI.

2 to 3 p.m.—The Wanderers

The trio of touring artists will visit another by-way of Europe, bringing to their listeners a program of appropriate music and another episode of “The Wanderers” romance.

Broadcast through KHQ, KOMO and KGO.

6 to 6:30 p.m.—Cliquet Club Eskimos

Cliquet Club Eskimos, one of radio’s first dance orchestras, will play a half hour tonight through KGO, KPO and KFI. KHQ, KOMO, and KGW.

6:30 to 7 p.m.—C. A. Earl Orchestrations

Tom Waring, tenor, will be the guest artist when the C. A. Earl Orchestrations are heard tonight.

Waring’s solos will be “Louise” and “Baby, Who Can You Be?” Selections by the Orchestrations, under Phil Spitalny’s baton, are popular airs.

Broadcast through KHQ, KOMO, KGW, KGO, KPO and KFI.

8 to 9 p.m.—Tales Never Told

“Tales Never Told” is considered unique among programs. During the hour four songs, chosen from favorites of the past and popular hits of the present, are sung by a mixed quartet. Each song is followed by a brief drama, written especially for this program by Harry De Lassaux.

An orchestra directed by Charles Hart completes the musical cast. Members of the National Players participate in the dramas under Ted Maxwell’s supervision.

Broadcast through KHQ, KOMO, KGW and KGO.

10 to 11 p.m.—Spotlight Review

Memories of programs of the past will be recalled as the “Spotlight Review” is broadcast.

In this sixty-minute period auditors will hear several NBC artists, both musical and dramatic. Frank Ellis will conduct the orchestra. Other participants will be announced when the program goes on the air.

Broadcast through KHQ, KGW (10:30 to 11 p.m.), KGO (10:15 to 11 p.m.), KPO and KFI.

11 to 12 midnight—Dance music by the Trocaderans under the leadership of Frank Ellis will be broadcast through KHQ, KGW and KPO.

**WEDNESDAY Programs**

**NBC National Broadcasting Company**

10:30 to 11:30 a.m.—“Woman's Magazine of the Air”

Magnolia has her new “position” in Col. Bennett’s home and, through the Oronite feature, she is heard with her colored companions in a few minutes of comedy.

Webster will describe “the different little house across the street.” The dining room will be featured and Miss Webster will reveal the activities of the young people who made this bungalow “the different one.” Instrumental and vocal music will complete the hour.

Broadcast through KHQ, KOMO, KGW, KGO, KPO and KFI.

3 to 4 p.m.—The Cabin Door

The NBC artists heard during this hour are Clarence Hayes, tenor; Phyllis Campbell, contralto; Johnny O'Brien, who plays the harmonica; Walter Bepien as "Walter" and director of "The Cabin Door" and Bert Grauenhorst, banjoist.

Broadcast through KHQ, KOMO and KGO.

5 to 5:30 p.m.—Land o’ Health

These child nutrition programs are broadcast through KGO, KPO and KFI.

5:30 to 6:30 p.m.—Palmolive Hour

Two famous operatic selections and a variety of lighter melodies are listed on the program for the Palmolive Hour, to be broadcast.

Paul Oliver, tenor; Elizabeth Lennox, contralto; Johnny O'Brien, who plays the harmonica, under the direction of Gustave Haensch will be heard.

Broadcast through KHQ, KOMO, KGU, KGO, KPO and KFI.

6:30 to 7 p.m.—romberg-Carlson program

The 18-piece concert orchestra will be under Victor Wagner's direction.

Broadcast through KHQ, KOMO, KGW, KGO, KPO and KFI.

7:30 to 8 p.m.—NBC Balalaika Orchestra

The NBC Balalaika Orchestra, with Gregory Golubeff as conductor and announcer, will present a half-hour program of music through KHQ and KOMO.

8 to 8:30 p.m.—“Roads to Romance”

To the slope Decatur which steamed into Puget Sound in 1856 Seattle boasts a great debt. Jack and Ethyl will learn when the “Roads to Romance” program is broadcast.

Shattering the morale of the hostile Washington Indians and strengthening the faith of the hardy vessels that built the great city, the vessel saved the inhabitants of Seattle from massacre and set up for all time the supremacy of the whites. This last battle will be dramatized during tonight's appearance of the Associated Motor Mates before the microphone. They will greet their radio audience from Seattle.

Broadcast through KHQ, KOMO, KGW, KGO, KPO and KFI.

8:30 to 9 p.m.—The Hill Billy Boys

NBC system stations offer a half hour of mountain folk songs when Charles Marshall, Bone McLaughlin, Virgil Ward and Johnny O'Brien are on the air.

Johnny has some novel interpretations on his harmonica and Marshall's guitar accompanies the quartet in a series of Hill Billy songs.

Broadcast through KHQ and KPO.

10 to 11 p.m.—Cotton Blossom Minstrels

With a special group of colored singer, the Cotton Blossom Minstrels will entertain NBC system station auditors tonight.

Harry Hopkins is interlocutor during the minstrel hour, and, beside the Southern Harmony Four, there are Captain "Bill" Royle, Harold Peary, Clarence Hayes and Jerry and his Dixie Melodists, Sylvia Dale, tap dancer, has a new novelty with the bones.

Broadcast through KHQ, KFI and KSL.

11 to 12 midnight—Dance music by the Trocadero's will be broadcast through KPO.

THURSDAY Programs

NBC
National Broadcasting Company

10:30 to 11 a.m.—“Woman’s Magazine of the Air”
Bennie Walker will introduce the famed violin virtuoso, Don Amaiz.

Interpreting “Estrellita,” Don Amaiz will herald the Amaiz period during which Sara Treat will talk. Another violin solo follows.

Broadcast through KHQ, KOMO, KGW, KGO, KPO and KFI.

1:15 to 1:30 p.m.—The Magic of Speech
The appeal of correct speech will be stressed by Vida Ravenscroft Sutton during her 15-minute talk through KOMO and KGW.

3 to 4 p.m.—The House of Myths
“Venus, Goddess of Beauty” is the myth to be heard in a musical setting provided by the Arion Trio and Margaret O’Dea, conductor.

Broadcast through KHQ, KOMO and KGO.

6 to 6:30 p.m.—Halsey Stuart program
With further suggestions to his nation-wide audience regarding the subject of investments and finances, the “Old Counselor” will come before the microphone again tonight.

Music by an orchestra conducted by Andy Sanella will complete the program.

Broadcast through KHQ, KOMO, KGW, KGO, KPO and KFI.

6:30 to 7 p.m.—“Around the World with Libby”
Stopping for thirty minutes in another colorful and romantic section of the world, auditors who are making the musical tour “Around the World with Libby” will hear typical music of the land broadcast through KHQ, KOMO, KGW, KPO and KFI.

7 to 7:30 p.m.—NBC Troubadours
Spartan women are celebrated among the ancients for their courage and severity, but it will be the hardy, brave warriors of the Greek city whose praises will be sung by the NBC Troubadours as they open their broadcast tonight.

Marion Hunter and Doris Blaney, pianists, will present four duets, including Debussy’s amusing number, “The Golliwog’s Cakewalk,” and a reprise of Schumann’s “Carnival” by Mendelssohn.

Broadcast through KHQ and KGW.

7:30 to 8:30 p.m.—Standard Symphony Hour
Independence Day suggests the theme of the Standard Symphony Hour which will be broadcast tonight.

“An American Holiday” is the descriptive title in the mood of which all of the musical selections for the hour have been chosen. The ten numbers listed will be presented by Max Dolin and the Standard Symphony Orchestra.

Complete details follow:

Orchestra—Turkey in the Straw.................Gulon
Orchestra—To a Wild Rose—Woodland Sketches—MacDowell
Orchestra—Wood Pixies.....................Hadley
Orchestra—From the Canebrake.............Gardner
Orchestra—Syncopation......................Kreisler
Orchestra—Final: “New World Symphony”..................Dvorak
Orchestra—At the Fair....................................Powell
1. Merry-Go-Round
2. Circaussion Beauty
3. Southern Nights Valse Suite..............Gulon
Orchestra—Silhouettes..........................Hayden
Spanish, French, Italian, American, Egyptian, Irish

Orchestra—American Fantasy..................Herbert
Broadcast through KHQ, KOMO, KGW, KGO and KFI.

8:30 to 9:30 p.m.—Memory Lane
A C. Connette, who has written the entertaining “Memory Lane” dramatize these many months, provides another episode in Goshen Center’s social life in which the following cast will be heard: Eileen Piggott, Bernice Berwin, Billy Page, Ben McLaughlin and Richard Le Grand.

Fifteen-minute musicals will precede and follow the dramatologue, with Miss Piggott and McLaughlin singing.

Broadcast through KGW and KGO.

10 to 11 p.m.—Slumber Hour
Max Dolin will direct the orchestra and Harold Spaulding, tenor, is the artist of the evening.

Broadcast through KGO, KPO and KFI.

11 to 12 midnight—Dance music by the Trocaderans will be broadcast through KGO and KPO.

FRIDAY Programs

National Broadcasting Company

10:15 to 10:30 a.m.—Mary Hale Martin's Household Period

During these brief periods a musical program is heard in addition to Miss Martin's chats. She discusses recipes which she has proven successful in her many years of experience with foods and methods of cooking and serving them.

Broadcast through KHQ, KOMO, KGW, KGO, KPO, KFI and KSL.

10:30 to 11:30 a.m.—“Woman's Magazine of the Air”

It will be a case of “double the nutrition and halve the expense” during the Alpine feature and “halve the cost of living” during the Kraft feature Miss Holden will explain. In the latter talk, how housewives of foreign nations use quantities of cheese and live more economically than their American cousins.

It runs through KHQ and KOMO from 10:30 to 11:10 a.m. and through KGW, KGO, KPO and KFI for the full hour.

12 to 1 p.m.—Pacific Little Symphony

Solemn chords leading into a beautiful love melody will be heard as the Pacific Little Symphony begins its coast-to-coast broadcast through KOMO and KGO.

5 to 5:30 p.m.—Interwoven Pair

Will C. Perry will direct the Interwoven Orchestra which presents the program in conjunction with the tenor and baritone duo. Broadcast through KHQ, KOMO, KGW, KGO, KPO and KFI.

6 to 6:30 p.m.—The Gossipers

The Gossipers will exchange their secrets before the microphone through KOMO, KGO and KPO.

7 to 8 p.m.—NBC Green Room

The first of a series of intimate recitals featuring members of the NBC staff and guest artists.

In the Green Room for tonight's presentation will be Miss O'Dea, contralto, and Harold Spaulding, tenor, both of whom are familiar personalities among those appearing on NBC broadcasts.

Their selections will be chosen from operatic and classic repertoires. Besides the singers, an organist will be heard in solo offerings.

Broadcast through KHQ and KGW.

8 to 9 p.m.—RCA Hour

Instead of his customary lecture on “Wonders of the Sky,” Hyde speaks tonight on “Wonders of the Earth.” His talk will be preceded by the orchestra's playing of Smetana's symphonic poem, “Vltava,” which describes the River Moldau as it runs through many changing scenes in Bohemia. “Vltava” will be conducted by Max Dolin.

Soloists on this program will be Margaret O'Dea, contralto, and Harold Spaulding, tenor. Miss O'Dea’s contributions include a lovely Grieg song seldom heard over the air—“My Mountain Maid.” Spaulding's numbers will be announced during the broadcast.

The hour will come to a close as the orchestra offers the familiar piece, the stirring “ Prelude and Toreadors’ March” from Bizet’s “Carmen,” which has been classed among the four most popular of all operas.

Broadcast through KHQ, KOMO, KGW, KGO, KPO and KFI.

9 to 9:30 p.m.—Borden Dairy

The NBC Harmony Four are the headliners of the Borden Dairy broadcast.

Irvine Kennedy, Harry Stanton, Austin Mosher and Myron Niesley are the singers who will provide interpolations during a musical by the concert orchestra under Charles Hart's baton.

Broadcast through KHQ, KOMO, KGW, KGO, KPO, KFI, KSL and KOA.

10 to 11 p.m.—Broadway Melodies

Interpreting the successes of the “Great White Way,” an orchestra, and a bevy of radio names will present the “Broadway Melodies” hour.

Gail Taylor, soprano, is the soloist and the feminine harmony duo, Gypsy and Marta, introduce novel offerings. A mixed quartet also is featured during the hour, for which old and new syncopated successes are scheduled.

Broadcast through KFI, KSL and KOA.

11 to 12 midnight—Dance music by the Toreadors will be broadcast through KPO.

Radio Service Corp., Salt Lake City, Utah

**NBC**

**National Broadcasting Company**

3:15 to 3:30 p.m.—Universal Safety Series
Hon. James J. Davis, Secretary of Labor, will be heard in a fifteen-minute talk on "Safety and the Worker" during the Universal Safety Series broadcast through KHQ, KOMO, KGW, KGO and KFI.

4 to 5 p.m.—The Cavalcade
Filing past the microphone to contribute their share of vocal and instrumental diversification to the invisible listening audience, the array of radio stars who form The Cavalcade will be presented in a coast-to-coast broadcast through KOMO, KGW and KGO.

5 to 6 p.m.—General Electric Hour
Under Nathaniel Shilkret’s direction, the hour will be presented by the General Electric Orchestra with Gladys Rice, soprano, and Robert Simmons, tenor, as soloists. Broadca t through KHQ, KOMO, KGW, KGO, KPO and KFI.

6 to 7 p.m.—Lucky Strike Hour
Radio auditors from coast to coast will be able to dance to the "tunes that made Broadway," as B. A. R. and his Lucky Strike Dance Orchestra broadcast through KHQ, KOMO, KGW and KGO.

7 to 8 p.m.—Nights in Spain
Transporting dialers to the romance-filled atmosphere of starlit Spanish patios, another "Nights in Spain" hour will be broadcast.

Melodies typical of the European kingdom will be sung by Francesca Ortega, contralto, and Easton Kent, tenor. Max Dolin will direct the orchestra.

Broadcast through KHQ (7 to 7:30 p.m.), KOMO, KGW and KGO.

8 to 8:30 p.m.—Temple of the Air
Mixed and male quartets, a bass soloist, tenor and soprano duettists, and an orchestra will sing and play in the "Temple of the Air" tonight.

One of the best known of popular old-world melodies, "La Cinquantaine," by Gabriel-Marie, will be the orchestra’s initial number. The male quartet will be heard in a special arrangement of the song, "Lady Divine," which was composed by Nathaniel Shilkret, nationally known orchestrator and composer at the NBC’s New York studios.

The only solo will be offered by the basso, who will sing "Spanish Gold."

Broadcast through KHQ, KOMO, KGW, KGO, KPO and KFI.

9 to 10 p.m.—Golden Legends
National Players and staff artists will be heard through NBC system stations tonight broadcasting the last of the "Golden Legends’ hours, "The Lady of Lyons." This program closes the series of these beloved tales until fall.

Broadcast through KHQ, KGW and KGO.

10 to 11 p.m.—School Days
Professor Knicklebine’s little red school house, “open all year round,” will be on the air tonight.

While the kiddies have their vacation, the radio school pupils know no change and the usual program of recitations, songs and school days antics will be heard. Music will precede and follow the half-hour in school.

Broadcast through KHQ, KOMO, KGW and KGO.

11 to 12 midnight—Let’s Dance
Syncopated airs by a jazz band and under Frank Ellis’ direction will be heard through KOMO, KGW and KPO.
