FOR WEEK OF JANUARY 15th to 21st

BROADCAST WEEKLY

BETTY and HARDY GIBSON

Who are better known to the radio audience as Joe and Cynthia Doakes, are heard regularly on the Blue Monday Jamboree over the Don Lee Columbia stations.
"HELD CAPTIVE BY CHINESE BANDITS"

The story of an 18-year-old girl prisoner—told in her own words

Dramatized on the Air

A young English bride and her companion—captured and held for ransom for seven long weeks.

Her days of agonized waiting—her nights of terror—the insults and tortures she was subjected to—

Will be told in The American Weekly, distributed with the San Francisco Examiner, Sunday, January 15.

On Friday, January 13, her horrifying experiences will be dramatized on the air—with noted actors and actresses taking the roles in the young girl’s adventure story.

Don’t miss this great air feature—

FRIDAY EVENING, JANUARY 13

Read the Story Sunday in the American Weekly of the San Francisco Examiner
MORE POETRY

The rôle that radio has cast itself to play in the rapidly moving drama of human lives and events may well determine the scope of its guises and the nature of its lines. If it be conceded that the performance of a star so versatile and talented should induce culture and provide inspiration as well as entertainment, then this consummate actor has failed to utilize adequately and effectively at least one important means of fulfilling his part. Radio's repertoire should include more poetry.

Webster defines poetry as "The embodiment in appropriate language of beautiful and high thought, imagination, or emotion, the language being rhythmical, usually metrical, and characterized by harmonic and emotional qualities which appeal to and arouse the feelings and the imagination." This definition in itself establishes both the timeliness and adaptability of poetry for present-day radio programs.

Long hair, dirty finger nails, and erudite eccentricities are not essential to the enjoyment or understanding of poetry. Its meaning is not merely gathered from the literal translation of single words or phrases, but sensed and felt in their vivid connotation, euphonious grouping, and rhythmic swing. It caters to a human passion as ubiquitous and deep-seated as the instinct for food. The mind and the heart take to it as naturally as feet fall to dancing. It is the voice of Romance, the Aladdin's Lamp of the imagination, the unflinching antidote for sorrow and discouragement and lethargy of the spirit. Coleridge, himself a celebrated poet, said—

"For poetry is the blossom and the fragrance of all human knowledge, human passions, emotions, language."

What person so unimaginative he is not carried in retrospect back to those glorious, glamorous days of boyhood by the lilting, carefree lines of "Barefoot Boy"—

"Blessings on thee, little man,
Barefoot boy with cheeks of tan,
With thy turned-up pantaloons,
And thy merry whistled tunes—
—From my heart I give thee joy,
I was once a barefoot boy."

What heart so hard, what soul so sodden it can fail to feel the uplift in those sublime lines of Oliver Wendell Holmes' "Chambered Nautilus"—

"Build thee more stately mansions, oh my soul,
As the swift seasons roll;
Leave thy low-vaulted past,
Let each temple, nobler than the last,
Shut thee from Heaven with a dome more vast
'Till thou at length art free—
Leaving thine outgrown shell by life's unresting sea."

There have been some attempts at poetry on the air, but rather timid, half-hearted, ill-conceived dabblings, which condemned themselves to failure because of poor selection and poor reading. More poetry broadcasts should be scheduled, and so planned and staged as to give this type of program fair and ample opportunity to prove its popularity and value.
ETHER GLEANINGS

By J. CLARENCE MYERS

CANNED music is coming in to its own on the radio in rapid strides. In fact, there is a decided trend toward the broadcasting of electrical transcription programs this year, what with a half dozen or so new features recorded in this method being released by KPO and KFRC not counting those put out by the smaller stations.

Is the electrical transcription the answer to the perfect radio program? Apparently many radio program chiefs think so, judging by their increased interest in the discs. Things are humming in the three San Francisco recording laboratories, which furnish these electrical transcription to stations all over the world.

Only recently the Hearst papers announced that they were presenting dramatizations of their Sunday supplements by means of electrical transcription over stations throughout the United States. One of the largest recording laboratories in New York City is turning these out.

Big manufacturers, too, are turning to the transcriptions to "plug" their wares over the ether highways and byways. Right now Dodge Brothers, the auto makers, have electrical transcription broadcasts over KFRC and KPO. They were placed for thirteen consecutive nights and are but five minutes in duration. The Modern Food Company is another that has adopted this means of program presentation. They sponsor a program entitled: "Mahdi" over KFRC every Tuesday and Thursday.

Still another using the wax discs is the Musterole people who have contracted with KPO for a series of broadcasts twice weekly.

There are no "boners" possible in the electrically transcribed program. If an error is made while the program is being recorded everything is stopped and it is re-cut and this keeps up until the production is perfect. So that when the finished product is placed on the revolving table in the broadcasting studio, it reproduces flawlessly (that is, if it has been made so).

This feature, coupled with the fact that by using transcriptions the sponsor who plans a wide coverage avoiding the terrific telephone line costs for chain broadcasts, points toward a very brilliant future for the transcribed radio production.

Even more can be done with transcriptions as regards sound effects than with the program produced in the radio studio. An illustration of the wide possibilities of this means of program making was the Southern Pacific programs which were first recorded on discs and then broadcast over spot stations in the West. The train effect in that broadcast was not just a studio gadget but the sound of a real choo-choo. In a special laboratory car they went out and recorded the sound made by the rushing locomotive and then dovetailed it on to the record which was the final production.

Why they've taken Monroe Upton and silver-tonesided Irving Kennedy off the Associated Spotlight is more than we can savvy. Captain Bill Royle is the new m. c. for the Saturday night funfest. Cecil Underwood, who had held that post these many moons, is spending his full time in his official capacity as production manager of the NBC Pacific division. * * *

Happy Birthday, KJBS. And many, many more of them.

The Brunton station, which we monickered, "San Francisco's baby broadcaster" some years back, celebrated its eighth anniversary on the air a few days ago, with a series of special sugar-coated programs. Bernard Linden, supervisor of radio for the sixth district, was there too, to broadcast his official felicitations.

During the year 1932, according to Ralph Brunton, daddy of KJBS, the station was operated a total of 6,668 hours with a daily average of 18 hours and 10 minutes. Seventy-six per cent of the total production time was devoted to sustaining programs from which the station received no revenue.

* * *

Those NBC Hill Billies, one of the first group of that variety on the air hereabouts, have changed their name to Marshall's Mavericks. They are on KPO Wednesday nights.

* * *

Crooning Russ Columbo is staging a radio come-back. He can be dialed Monday nights from 9:15 to 9:30 o'clock on the NBC-KGO net while singing with his Hotel Park Central Orchestra in New York.

* * *

Hazel Warner, who recently moved to KHJ with the Happy Go Lucky aggregation, decided that she can't get along without her scrumptious new yacht, so Opie Warner, her husband, is piloting it down to Los Angeles next month.
Those famous Revelers may go back on the NBC. 'Tis rumored that a contract has been drawn up, but it hasn't been signed yet.

This fellow Johnny Hamp whose dance "chunes" float out of your loudspeaker these days is a grand guy. He placed himself close to the hearts of the radio scriveners and NBC gang almost as soon as he hit town. Invited us all up to lunch at the Hotel Mark Hopkins to meet his musical gang. And a fine lot of young fellows they are, too, and pardon us, 'there's a young lady, too. Yep, June McCloy, a gorgeous blonde, blues singer, was there. And so was that platinum haired siren of the talkies, Jean Harlow, looking lovelier than we've ever seen her on the screen, no foolin'.

As master of ceremonies, Hamp, introduced his vocalists and each in turn did a number for us. And just to show Hamp that the NBC announcing stuff is likewise talented, Nelson Case sang a song and Cecil Underwood told a very funny story.

Tom Gerun, whose grand band is also an NBC feature, has increased his musical organization with three new members, we learned on a visit the other day to the Bal Tabarin.

Benjamin Franklin will be honored when the annual luncheon in memory of the famous American is held by the Printers Board of Trade of San Francisco at the Commercial Club. KGO will broadcast the program on January 16 beginning at one o'clock.

Another oil company has jumped those already on the air. The Hancock Oil Company has signed for fifty-two programs over KPO, which are being released thrice weekly, Mondays, Wednesdays and Fridays from 7:45 to 8 p. m. via means of electrical transcription. "Musical Varieties" is the name of the production.

Is the radio drama leaning toward the make believe? Bill Rainey, production chief for the NBC in New York, says yes. The public is tired of realism in radio drama. They no longer want their own thoughts and lives analyzed. They want to get away from reality. And so the classics of fairyland will soon be heard on the air.

WOR in New York has put a strict ban on all depression songs and gags and those who sing or speak them will be penalized the exact sum they were to receive for the broadcast. Good idea. Other broadcasters should follow in WOR's footsteps.

Harris Brown of the vocal team of Murray and Harris, is back to the KFRC studios after an operation for appendicitis which he underwent in Santa Monica just recently.

We read that the Rockefeller interests have just moved into the radio industry. They acquired 100,000 shares of stock of the Radio Corporation and another 100,000 in Radio-Keith-Orpheum. They paid no money for it, but agreed to reduce the rental Rockefeller City (Radio City) will charge the RCA when it moves into its new quarters.

You probably guessed it anyway, but two thirds of the programs released by the NBC during 1932 were devoted to music. Of all the NBC times on the air 24.1 per cent was devoted to programs of an educational nature. Programs from foreign countries showed a ten per cent increase in quantity. The list was led by Switzerland with a total of 43 broadcasts, due to the larger number brought in from Geneva during the Disarmament Conference. In all the NBC releases 50,000 broadcasts, which originated in the United States and twenty-two foreign countries. Five hundred thousand speakers, singers, and musicians participated in these programs.

From John Haughn, Jr., our Northwest scout, we get:

Harold and Myrtle Strong, KJR's piano duo, are Mr. and Mrs. ... Winifred Aukland Lundberg is the only woman who appears on the Mardi Gras ... KOMO's Alaskan program changed sponsors recently ... Herbert Wixson, KHQ "Musical Milkman" learned his trade while working in the Washington State College station, KWSC.

Brief Broadcasts ... What a popular guy was Gene Sullivan of KYA when some fan sent him a bunch of ducks recently ... The Radio Guild of New York will do the famous play "Michael and His Lost Angel" over the NBC-KPO net on January 16 ... Bristol Myers, the cosmetic people, have a new program on KPO monickered: "Through the Looking Glass" ... The final of the series of San Francisco Symphony concerts to be broadcast transcontinentally over the NBC will be released this week with Molinari wielding the baton ... Tom Mitchell has a wire-haired fox terrier which was named "Twirpie" by Mary Pickford ... Swift has renewed its Formay program on the Happy Go Lucky hour over the Don Lee network ... The Paris Medicine Company is sponsoring a nightly one minute weather report over KPO.
PHILCO
LONG AND SHORT WAVE RADIO

THRILLS!! THRILLS!! AND YOUR FAVORITE PROGRAMS TOO

FOR THE PRICE OF A
REGULAR
RADIO

Single Dial Control

No complicated attachments, no multiple switches — you change wave lengths easily and quickly. Positively the last word in simplified design.

You tune in on your favorite programs — you listen to the excitement and fascination of direct broadcasts the world over. Everything on the air is yours with startling clarity.

The mother of Ann Chase, NBC actress, sits up late at night in her home near Chicago, in order to hear NBC programs originating in San Francisco. She never yet has failed to recognize her daughter's voice, although Ann is noted for her ability to change her voice for every characterization she makes on the ether.

The fact that William Hall's twin brother is a member of the New York police force occasionally brings him some harsh words. The other day he was hurrying to the studios when he bumped into an inspector.

"Where d'ya think you're going?" queried the official.

"Why, hello," said Bill. "I'm on the air in ten minutes."

"You taking me for a ride?"

asked the inspector, raising one-brow menacingly. "Get back to headquarters and put on your uniform."

KTAB's Tarzana Hillbillies gathered in more than 8,000 presents for the needy kiddies in two Christmas tree events in which the boys did most of the entertaining. Elton Britt, one of the boys, was relieved of $28 in Oakland last night preceding the first event when two holdup men evidently mistook him for Santa Claus.

Nine out of ten visitors to the KFI-KECA studios point to a box-like contraption that can be moved noiselessly about, from one mike to another, and ask, "What in the world is that?"

Answer: What may appear to be a glorified tea-wagon is in reality one of radios most compact assortment of sound-effects. It has four doors, each opening and closing with various accompanying sounds. On the back of each door are countless sound-making gadgets, from whistles and sirens to bells, gongs, a telephone, devices which look like egg-beaters (but in reality reproduce the effect of block-and-tackle, used in storing or unloading a ship's cargo). Name your sound-effect, and if this little perambulator hasn't got it—it will soon have it.

Some of the little idiosyncrasies which prove radio stars are human... Meredith Willson likes apple pie and cheese before he goes to bed... Ned of John and Ned, the NBC Harmony duo, has never played a game of cards in his life and admits it's because he would hate to lose... Gail Taylor, NBC soprano, likes her salad very cold, and accompanied by hot crackers... Ann Chase, NBC actress, will stay up all night playing bridge... Bernice Berwin, NBC actress did stay up all night playing bridge, not long ago, but it was because her guests wouldn't stop and she was too polite to send them home... Gypsy, NBC interviewer, has never had her hair cut by a barber; her sister bobs it for her and has done so since they both were small girls... Monroe Upton, (Lord Bilgewater and Simpy Fitts) has never lost his temper... his wife says... They've been married less than six months.

The demand in Great Britain for gramophone records by Arthur Tracy, CBS "Street Singer," recently occasioned a $480 transatlantic telephone call. As soon as the two promising tunes, "Dreaming" and "Dawning," were released in London, the British representative of an American recording company telephoned orchestra leader Vic Young at the New York office. As the tunes were hummed, Young transcribed the melodies on a lead sheet. An arranger was put to work on them forthwith, and the next day Tracy and an orchestra were at work on the recording.

An impromptu program presented every afternoon at 1:45 from KHQ has gained a wide and very responsive audience, though it has been on the air only a few weeks. It engages the talents of Harvey Wixson, program director of the station and M. C. of the program; Walton MacKinney, tenor, star of many programs heard from the station; Herb Wixson, announcer, who serves the listeners with vocal music, as well as guitar and piano music; Bill Ross, announcer, who is also popular as a singer of "hit" songs; Marian Boyle, pianist, who does some brilliant solo work.

KTAB is moving the main part of its office force to the new Oakland studio, but will maintain a part of the organization at the San Francisco home.

When Celia Lee, who conducts the Home Baking School of the Air four mornings a week for Continental Flouring Mills, was confined to her home with the "flu" recently, an old friend carried on the program for her. It was none other than Harry Lantry, announcer, best known for his reliable football broadcasts throughout the Pacific Northwest. From gridiron to oven may not be a very big jump, but Harry found it necessary to do some fast training for it. No one mistook him for Celia Lee, but the demand for Miss Lee's popular recipes continued at its regular pace while he was pinch-hitting.
The great success of Captain Don Wilkie in his Sunday programs over KFI has compelled that station to assign to him a second weekly period. Captain Wilkie, since his radio debut a few weeks ago, has earned one of the largest audiences ever collected by an individual speaker. His direct mail response to a single program totaling more than 10,000 letters from all parts of the country. This is considered one of the phenomena of radio, since Captain Wilkie resorts to no music, sound effects or fiction material for his broadcasts. He simply tells stories from life from his own experience as a member of the United States Secret Service and as an investigator in many of the most baffling and notable criminal cases of the past twenty years.

Leslie Adams is back on the air at KMTR with all the old fire in his voice which has made him one of the most popular announcers in this neck of the woods. Leslie loves to announce Santaalla’s Concert programs. How that boy can toy with composer’s names.

Chris Ford, shy young star who plays Dalt Scroggins in NBC’s Memory Lane, was the recipient of an unexpected honor when he was elected president of the student body in his school, Polytechnic High School, recently. The NBC juvenile was a dark horse in the race for the student body presidency, and did not even know that some of his fellow students were planning to nominate him until he was called to the platform.

Robert Hurd, tenor, rushes out of the studio after finishing a program catches “Jane” in his arms and asks her how she liked it. “Jane” is a wire-haired terrier, who also plays piano and sings.

Curiosity prompted a statistician to figure out that the NBC Magic Carpet dramatization scripts averaged 4,700 words each... just about enough to keep Floyd Gibbons swinging along at a 235-word-a-minute clip for twenty minutes without a station announcement.

Jack Carter recently stood before a KNX remote control microphone in the Paris Inn, Los Angeles, made an announcement, and heard his words returned to him by telephone from New York City. A resident of the New York Waldorf-Astoria called Carter by telephone, and to convince the latter that he was being heard distinctly so far away, held the mouthpiece of the phone to his radio receiver, while Carter at the western terminus held the phone receiver to his ear while he talked into the “mike.”

Grant Pollock, studio manager for the new Oakland home of KTAB will move his family across the bay and become an east bay resident.

Jerry Jermain and husband are mourning the loss of their little scotty which answered to the name of Smudge. One bright spot is on the horizon. The veterinarian has promised them a little Sealyham pup... and one Sealyham is enough to make anybody forget anything.

Audiometer tests are currently being held for members of the CBS studio engineering and production divisions. The purpose is to determine the sound-frequency range that each man can hear. For example, if one were deficient in hearing high frequencies, he would not detect the overtones of a violin passage; while if one were deficient on low frequencies, he would not be able to note that the bass instruments were coming through too loudly.

Beau Balladeer, who in daily life is Leonard Lewis, NBC baritone, means many things to NBC listeners. Letters reach him addressed in many ways. Some of these are: “Bo Balladeer,” “Bold Burnie,” “Baribaldi,” “Bow Balaclear,” “Dear Bo,” “Mr. Balladeer,” “Dear Bozo.”

KROW has begun a new mystery serial entitled “Born of the Dead,” by Paul H. Johnson, and is being presented by the Pemm Repertory Players every Friday evening at 8 o’clock. The story is one of the grimmest of extremes in which a state destroys life in a deadly chair.

Included in the cast of players are Madeline Sulik, Erwin De Vore, John Abbott, Walter Govea, Harold Butler, Vernon Young, George Foss, Charles McNaulty and Grace Rhodin. The production is under the direction of Elmer Pemm.

If you should walk into the studio where Andre Kostelanetz, CBS conductor and arranger, is rehearsing his orchestra, you might think you had invaded a session of the League of Nations, for Andre is likely to speak to various members of his organization in one of seven different languages—English, Russian, French, Spanish, Italian, German and Polish.

The “Three Coconuts” are the latest addition to KTAB’s staff of instrumentalists and vocalists. The three boys play the dreamy music of the Islands and have appeared on KLX, KNX, KFWI and KFRC. They are heard on Monday, Wednesday and Friday.

Howard Clancy, Lucky Strike announcer, believes his hobby, art, is one of the most profitable he knows of. So far this year he has sold several paintings he made in his spare time.
ISHAM JONES' first name is an enigma to his host of followers. They are divided into two camps—one using the short "i" as in "it"; the other the long "i" as in "ice." Let Isham himself decide it. All right, the long "i" wins.

One of the few orchestra leaders who actually creates his own tunes, he won considerable reputation as a song writer before he became prominent as a bandman. At present three of his numbers are riding the crest of the air-waves. They are "If You Were Only Mine," "I Can't Believe It's True" and "Let's Try Again."

To run the gamut of the Isham Jones' song hits, one must include his first success, "Swingin' Down the Lane," which was followed by "The One I Love Belongs to Somebody Else." Then came the greatest seller of all his melodies, the ever-popular "I'll See You in My Dreams."

Other numbers by Jones written during the golden Decade of Tin Pan Alley are "It Had to Be You," "Spain" and "Down Where the Sun Goes Down," and even a "moon" title. "Indiana Moon" (no relation to the Wabash).

These tunes are listed primarily because Isham himself won't revive them on the radio, let alone discuss them. "People aren't interested in the old songs I wrote," he says. "They want to hear all the up-to-the-minute pieces. And besides, it looks too much as though I'm showing off." Even a continuous deluge of requests has failed to convince him otherwise. Ish is like that.

Lanky, red-haired, and awkward in his movements, he looks more like a mid-western farmer than a composer of tuneful music. In truth, he is a former coal miner.

He is from Coaltown, Ohio, which, as its name signifies, centers around the mines, and boasts a population of only three or four hundred people. His father was a mine boss, but at home was a music-lover who played all the string instruments. Isham first displayed his aptitude for music when only five years old. Standing on a chair, he would saw away at an old bass fiddle while his father played the violin. It was when the youngster changed keys with him that the parent took full cognizance of his talent.

When still a boy, Ish's parents moved to Saginaw, Michigan. There he learned the use of the musical instruments—eight in all. At church he led a small ensemble in Sunday concerts until one time he made the fatal mistake of striking up the currently popular "Alexander's Ragtime Band." The elders of the church lost no time in striking him off their sabbath devotions.

Isham left high school to work in the mines. Ambitious to be a musician, he worked in the coal dust during the day, and at night wrote music and practiced. In two years of mine labor he had done every type of duty, and was progressing nicely. That is, until one day he fell asleep while driving the mules. His load was bumped by the next string of cars, and Isham was sent sprawling out. "I just kept going," he said. "I didn't wait to be fired."

Relieved of his mine work, young Jones decided to become a professional musician. He played in orchestras throughout the middle west.

His first endeavors in the song-writing field met with unexpected success. He composed a march for a band contest at Saginaw, Michigan, entitled "Soldiers of the Sea." The local band accepted it only as a preliminary marching piece. For the crucial moment when they would pass the judges stand, they had carefully rehearsed a Sousa composition. However, the drum major had miscalculated the distance, and when the outfit reached the judges, they were highly embarrassed to find themselves playing "Soldiers of the Sea." It was too late to change, so they stuck it out. That evening the band was awarded first prize. "Originality in choice of a march" was the deciding factor.

Encouraged by this bit of luck, he gave much time to songs. He wrote "You're in the Army Now" while serving at a training camp during the war. This has become the theme song of army life. After the war he formed his own orchestra, and has been one of the few bandleaders not only to retain his popularity for more than a decade, but to enhance it with each year.
DON'T GUESS

Be sure your tubes are good! Take them to the nearest PRECEPTOR dealer listed below.

SEE FOR YOURSELF

You don't have to take anybody's word for it when you have your tubes tested on

The PRECEPTOR

Because, even if you don't know a tube from a hole in the ground, you can tell at a glance whether your tubes are good, bad, or indifferent, if you see them tested on the PRECEPTOR.

DX fans are often puzzled by the time difference throughout the world, and have difficulty in computing the time at distant points with respect to the local time. Particularly is this true in the short-wave field, where foreign DX reception is not only possible, but a regular occurrence. For instance, when the Pacific network gives us the London rebroadcasts, no doubt many listeners are puzzled to know the hour in London corresponding to Pacific time. The accompanying World Time Chart answers all questions concerning world time.

The local time, under the "Pacific" heading, corresponds to the time indicated on the same horizontal line in any other part of the world. It is seen that 2 a.m. here is 10 a.m. in London, 9:30 p.m. in New Zealand, 8 p.m. in Sydney, 7 p.m. in Japan, etc. If you should hear Manila on short waves at 6 a.m., you will know that it is 10 p.m. there. In order to determine whether it is the same day, or the preceding or following day, follow this rule: Crossing from dark to light area at midnight, indicates the following day. Crossing from light to dark area indicates preceding day. As an example, 4 a.m. here is 9 p.m. in Tokyo of the preceding day.

see—no soot, no "coal oil odor" with

Burnbrite KEROSENE

If your heater gives off an unpleasant "coal oil" odor—if you have to trim the wick frequently—you should get Associated with Burnbrite.

Burnbrite Kerosene is a pure, crystal clear fuel for modern stoves and heaters. Here's how we make it: we take the product commonly sold as kerosene and further refine it by our advanced Edeleanu process. We remove the impurities that form soot, char the wick and burn with an unpleasant odor.

Burnbrite is the finished product. It burns with a clean, intense flame and a sweet odor. It forms no soot and does not char the wick.

Get Associated with Burnbrite. Order it today from your grocer, or your neighborhood Associated Station or Garage.

ASSOCIATED OIL COMPANY

Maker of Associated Ethyl and "FLYING A" Gasoline, Cycol Motor Oils and Greases, Associated Household Products and Associated Stoddard Cleaning Solvent

Are You a Man Who Has to be Shown?  
... Then SEE What These Men Are Doing With LaSalle Training TODAY

HAVE you ever thought about home study training—wondered if it might not help you?
Listen, then, to these four men—four out of thousands of similar cases in our files—four men who were once as doubtful as you—and when you have heard their actual experiences, tell us, if you can—why you can’t do as well.

**Guild Raises Pay 100% During Depression**

If you think these hard times are unbeatable, meet Leslie L. Guild and look at his record! A few years ago he was a clerk, studying Higher Accounting with LaSalle doubled his pay.

Then came the depression—but instead of falling back, Guild stepped up into a better job, again increasing his pay! As he puts it, “I took up your training in Traffic Management and solely through its application was able to qualify as Traffic Manager of the Charles N. Miller Company.”

Guild’s rise—like hundreds of others we could name—is definite evidence that the trained man wins. Neither hard times nor tough breaks can hold him back.

**Promoted to Partnership During Depression**

His name is William J. Carter and the depression was only one of his handicaps.

At sixteen he left school; at eighteen he was broke—and married. He enrolled with LaSalle for Higher Accounting—and before he finished the course obtained a position with the Atlanta office of Mount & Clapp, an outstanding firm of Public Accountants. In 1929 he was made Resident Manager. On September 1, 1930—right in the depression—the firm became Mount, Clapp & Carter. And in June, 1932, Mr. Carter was elected President of the Georgia Society of Certified Public Accountants. “To LaSalle training goes most of the credit,” Mr. Carter generously writes us.

He says further—and every word is opportunity beckoning to you—"The greatest need of American business today is the proper use of trained, analytical and constructive men. Thanks to LaSalle for their practical and interesting training available to everyone who will reach out and seize it."

Climbs Out of 20-Year Rut—Doubles His Salary

The future looked bright when Arthur Griffin—"just a kid"—went to work as a railroad clerk twenty years ago. A year passed—then another—and another—until, to his horror—he realized that he was caught in a rut, with his best years almost gone. Perhaps you know how helpless he felt.

Courageously he looked the facts in the face—saw that the man who makes himself more valuable always gets higher pay and promotion. He invested his spare time in LaSalle training.

Today, he writes: “My recent appointment with the Interstate Commerce Commission is due to LaSalle... My progress started as I studied with you, and now I am not only in a position that pays a much greater salary (100% greater) than I was getting, but my future looks bright.”

**What About Yourself?**

Today we are in a serious depression. Most men think they can’t beat it. But as in 1922—a few forward-thinking men like Carter and Guild will thank their lucky stars they started this year.

So far four men have testified—but, as you will notice, there’s a figure "five" below. It indicates a coupon which will bring directly to you final proof and evidence. If you will mail it, we will send you without obligation:

1. The complete story of your possibilities today in your field—translated in terms of pay and advancement.
2. Full details about LaSalle training for your individual needs.
3. Free copies of "100 Pay Raises Today"—and "Ten Years' Promotion in One"—two booklets which are nothing short of amazing, but every word true.

We like to meet men with your attitude. For experience has taught us that “show-me” men are the men with the mettle to make good. And that is all that is necessary with LaSalle; our plan takes care of the rest.

Here we present figure 5 and the coupon. We are waiting to know whether that “show-me” attitude of yours is real spunk—or whether it is simply an excuse for lack of ambition. What you do with the coupon tells the story.

BONNIE BLUE: Sometime prior to becoming identified with broadcast stations on the Pacific Coast, Bonnie Blue was presented over the air lanes of WBBM. Her specialty is current song hits done in the prevalent “blues” fashion and in case you haven’t heard—Bonnie was Television Girl of the 1929 Radio Show, held in Chicago, Illinois. Pretty! But of course that’s superfluous information. She is 5 feet 5 inches in height, weighs 122 pounds, has eyes as blue as the Mediterranean and hair of an auburn hue.
BOB SWAN: During World War II, Robert Wade Swan served in the Navy. He was a bank teller, dance band leader, and auditor before he faced his first microphone in 1926. His birthplace is Pasadena, his ancestry, English. He is 5 feet 10 inches tall, weighs about 140 pounds, has blue eyes, brown hair, and is in his thirties. Has been married for over ten years and is extremely proud of his wife and small daughter. His radio activities embrace announcing, music and drama. Complete silence with a detective story close at hand, spell his paradise.
MARY MADELINE DE MICHEL: Madeline, as she is known professionally, names Nelson, B.C., as her birthplace, and tells us that her ancestry is French and Italian. All members of the family being musically inclined, it is only natural that Madeline should find expression for her talents in radio. She is somewhere in her twenties, single, brown-eyed, dusky-haired and slightly taller than average. Has been broadcasting for over three years, makes records, seldom misses a football game, loves gardenias, and rides horseback daily.
DR. LAWRENCE L. CROSS and his "Cross-cuts from the Log o' the Day" are well known to listeners throughout the West. He has been broadcasting ten years and many who love him call him "the preacher who doesn't preach." Dr. Cross is pastor of the Northbrae Community Church in Berkeley, California. His father is a retired minister and his two brothers are clergymen. He was born in Gastonburg, Alabama, in 1892, graduated from college in Tennessee, is married and has five children.
CALTANA CHRISTOPH, soprano, was born in Montana about twenty-eight years ago. Her parents loved California where they had formerly lived and Montana as well, so they coined a name from two states. Caltana is a fraction of an inch over five feet in height, weighs 118 pounds, has hazel eyes, brown hair, and is of English origin. Vaudeville audiences applauded her in pre-radio days. Her broadcast activities began in New York. She is married to Chauncey Haines, organist.
EARL TOWNER, orchestra leader, basso and director of vocal ensembles, received his musical training at Boston's New England Conservatory of Music. He is 5 feet 10 inches in height, weighs 140 pounds, has hazel eyes and a ready smile. Radio audiences have known him since 1927. His hobby is handling carpenter tools. There is a Mrs. Towner; three children complete the happy home life in Berkeley. Mrs. Towner, incidentally, is organist of the First Methodist Church in Oakland.
TOMMY HARRIS was born in San Francisco December 11, 1910. His professional activities began when he was still in grammar grades. Graduating from high, he organized a band, booked it with a steamship company and saw the world. The trip over, he went into vaudeville. Radio listeners became acquainted with his voice in 1929. He is 5 feet 2 inches tall, weighs 135 pounds, has hazel eyes and black hair. His real name is Milton Colberg. Married. Of Jewish parentage.
WALTER DAMROSCH, dean of American orchestra conductors and noted composer, was born in Breslau, Germany. His illustrious career was begun in New York in 1885 when, at the death of his famous father, Leopold Damrosch, he was called upon to serve as emergency conductor at the Metropolitan Opera House. Having virtually retired, after many useful years during which he attained the pinnacle of success, Mr. Damrosch was urged to assume responsibilities anew and has enriched a nation—through radio.
ENJOY RADIO MORE

JACKSON

COMPLETE WITH CUNNINGHAM TUBES

IF YOUR present radio is more than a year old, don't fail to see this new 12-tube JACKSON-BELL. And do it NOW while winter sales volume permits the present low price. It will multiply your radio enjoyment and at the same time save you at least $50. A genuine JACKSON-BELL 12-tube Super-Heterodyne with latest 1933 features and latest type Cunningham Tubes, complete for $59.95.

New 1933 Model 25 JACKSON-BELL

THOUGH somewhat resembling Model 24-U "Peter Pan" described at right above, Model 25 shown at left is larger, has 5 latest type tubes, and the additional advantage of Automatic Volume Control. Ask your Dealer to demonstrate the two, side by side.

895 O’FARRELL ST., SAN FRANCISCO

One Home on Trial TODAY!
JACK COWDEN: Two boys in high fourth at West Portal school in San Francisco shared a locker and became fast friends. The younger, Billy Page, had become associated with radio drama. It was lots of fun, he reported to his chum, and hearing of a cast which was incomplete, urged Jack Cowden to try out for the job. Jack went with conflicting boyish emotions. He landed the part. Others followed and now at fifteen, he has chalked up four years of broadcast experience. He is a very likable boy; tall, brown eyes and rather serious.
SUNDAY Programs

January 15, 1933

POOSH-M-UP

THE MOST FASCINATING TOY GAME EVER PRODUCED

It's Glass Covered!
It's Automatic!
It's Portable!
It's NEW!

Every thrill of the large commercial machines in a portable, toy model.

Everyone knows the tremendous popularity of trickle boards, and in "Poosh-M-Up" we present the only completely automatic, self-contained toy board on the market. It makes all other toy boards obsolete.

— LARGE ENOUGH TO BE INTERESTING —
— SMALL ENOUGH TO BE READILY PORTABLE —

To Play—
The board is tilted so that the balls roll into a pocket at the upper right hand corner, and is then returned to the playing position, causing the balls to roll into a magazine where the number to be played is always visible. The spring operated ejector is pulled all the way back and one ball at a time falls automatically into playing position.

Features
The playing field of the Poosh-M-Up toy game is entirely glass covered. This is made possible by the exclusive, automatic return and feed device. The ten non-chipping metal balls cannot be lost or misplaced, as the game is a completely inclosed unit. Folding wire legs are provided to hold the board in proper playing position. Non-mar tips at the lower ends for protection of furniture.

Description
Beautiful mahogany finish frame. Playing field in natural wood with appropriate design. Over-all size: 11 1/2 inches wide by 18 inches long by approximately 1 inch thick. Packed one to corrugated carton.

Poosh-M-Up—regular price, $2
AND
Broadcast Weekly, for one year—regular price, $3
Both for Only $4

New
REMLER MINUETTE
now with 5 tubes instead of four—same low price!

NOW the new Remler Minuette is a superheterodyne! It has five of the new type tubes instead of four. That means greater power and even finer tone quality.

The speaker is larger and decidedly more efficient than the type ordinarily used in small sets. Other improvements include continuous tone control which permits full tonal values at any desired volume and a single dial controlled short wave, which “brings in” a host of new thrills.

With its superior richly resonant tone quality and with these new improvements, the Remler Minuette is more than ever an outstanding value. At the same price as formerly, complete with tubes—short wave included $29.90

Model No. 21-3
Five-tube Superheterodyne
$29.90
With Short Wave

REMLER COMPANY, Ltd.
