BURSTEIN-APPLEBEE CO.
This improved Bandmaster Senior has many new features including switching for internal crystal oscillator or external VFO. Broad tuned excitors circuits do not require retuning when changing frequency. Work either Phone or CW, eight bands, 80-40-20-15-10-6-2 and meters. A power supply of 450 volts up to 275 MA is required and for the filament, 6.3 volts at 4 amps.

Tubes used are 6AQ5 crystal oscillator, 6DJ8 electron tetrode and 807 final amplifier with two 6LS6 driver. The oscillator requires only a low priced T17B or Learadio carbon microphone. The oscillator comes complete with tubes, is wired and ready to go. Price for an 807 is $17.00. No. 37A123 Complete as described, less Microphone. Each $111.50.

### Go to Sleep with Music! Wake to Music!
**Jewel WakeMaster with Telechron Alarm Movement**

Go to sleep with music. The wonderful new Lullaby Switch can be set by setting to play up to one hour and shut itself off automatically, so you can set the Wake-Up Alarm at the pre-set time to awake you to music or Morning News. The alarm sounds 10 minutes later to make sure you’re up! The Telechron Clock and Alarm movement operate independently whether the radio position is turned on or not and operate with sweep second hand with or without radio.

Radio has superhet Jewell circuit, 5 tubes plus Selenium rectifier. Two IF transformers. Self-contained Air-core loop antenna, shock proof chassis, Alinco V PM speaker, Automatic volume control. Operates on 105-125 volts AC only is listed by Underwriters Laboratories.

WELCOME TO THE POPULAR LATEST MODEL CARS

VERY Seldom DOES A VALUE LIKE THIS COME ALONG

It was made possible because Tucker in his plans for an outstanding car, purchased from Motorola Inc. the tops in an Auto Radio to use as a part of an accessory deal to be offered with it. When the Tucker plans "blew up" there were no Autos to sell but the radios were on hand. B.A made a "good buy" and here it is passed on to you. Brand New—unbeaten—still in the original factory cartons bearing the Tucker name. The set itself as pictured above is included with the name MOTOROLA Model 708. It's an 8-Tube set (including rectifier) using a 6BQ6 RF amp., 6BQ6 osc. mod., 6BQ6 IF amp., 6AQ5 set AVC. AF, 6A6 set AVC, 6X4 rectifier.

- Push-Pull Audio System---Uses 2-682GT beam power tubes, heavy duty Al- nico V dynamic speaker and provides a surprisingly rich tone with emphasis on natural mellow bass response---remote solenoid operates tune control.

POWERFUL 6 TUBE SUPERHET---8 TUBE PERFORMANCE

- 1 Gang Control
- 1 Full Wav Speaker
- 1 Full Wave Plastic Control
- 1 Beam Power Output

DECIPLIER "PROFESSIONAL" TWO STAGE TV PREAMPLIFIER
LIST PRICE $59.50
$35.77

WITH BEAUTIFUL WALNUT WOOD CABINET:
- Incorporates every refinement of mechanical design to assure maximum usable amplification.
- All tuned elements of the circuit have been factory aligned for uniform broad band coverage.

Special attention has been devoted not only to increasing the signal without distortion, but also to excluding all types of interference which may find their way through the circuit. Two stages of balanced push-pull amplification using stable double triode amplification for local stations. This reduces interference and actually improves picture quality.

Response has been engineered to eliminate extra tuning controls yet picture is very sharp and sound distortion is at a minimum. Channels are selected by turning a knob which shows channel in operation.

Cabinet is hand-crafted walnut wood to harmonize with most furniture. Size 6 1/4 x 10 1/2 x 5 1/2". Supplied with same 8-foot mast and stand-off insulator, a wall bracket and a universal mounting base. Antenna sections may be oriented separately. Less 300-ohm lead.

No. 36A8. Net Each $26.43
No. 36A9. Net Each $5.26

THE $$$ SAVING ANTENNA VALUE OF THE YEAR!

For Long Distance TV Reception this 6 Element Stacked Yagi Antenna Gives 8 1/2 DB Signal Boost

- Developed especially for extreme distance reception and maximum rejection of interference noise.
- Inherent directional characteristic of the Yagi design prevents interference from other TV stations where the ordinary type antenna would allow signals to pick up from the rear or side.

Throughout of full-hard aluminum alloy tubing. The mast sections and the crossarms are 1 1/4" diameter. All hardware including screws are cadmium plated. Insulation is enough phe-

TACO-MADISON MODEL E-612

Electrically, the array consists of two 3 element Yagi bays phased and matched by means of a special transmis-

ion line made of aluminum tubing. A very good impedance match is thus provided for 300-ohm twin lead. The band width is such that adjacent channels to the one for which the arr-

ay is tuned may be received with appreciably 6 db gain, but maximum performance 18 1/2 db gain can be had only on one specific channel. Mechanically designed to give max-

imum strength and withstand severe ice and wind conditions. Made

AMPLIFIERS-SYSTEMS

 THESE 50-WATT AND 75-WATT AMPLIFIERS AND SYSTEMS AS LISTED BELOW WILL FULLFILL THE REQUIREMENTS WHEREVER LARGER P-A SYSTEMS ARE NEEDED.

25-WATT AMPLIFIERS and Portable Systems
Fill the Majority of All Amplifier Requirements

LOW COST 25-WATT AMPLIFIER OR SYSTEM

APPLICATOR SPECIFICATIONS

MASCOS 25-WATT PHONO-AMPLIFIER COMBINATION
Model M-25-10, 25-Watt Phono-Amplifier Combination. All circuit features as described above for 25-Watt Amplifier Combination, with the exception that the 12 and 25-Watt amplifiers are combined in one chassis. Complete. Price, $89.35.

MASCOS MAN-DYNAMIC PHONO-AMPLIFIER

50-WATT AMPLIFIER SPECIFICATIONS
50 watts undistorted output for driving from 2 to 6 SPEAKERS to a sufficient power level to drive a room of up to 100,000 square feet. Used in auditorium or area, or up to 10,000 sq. ft. of Stadium Bleachers or Gym. Soundproofing: Peak output is 60 watts! Price, $80.85.

MASCOS 50-WATT DELUXE HI-POWER AMPLIFIER
Model M-50-DMA. 50-Watt Amplifier Specifications: Full 50 Watts Class A81 power output at less than 5% distortion, peak power. 70 watts at 60 cycle AC. Response, 50-10,000 cps. HUM LEVEL below zero 25 decibels. Individual gain controls for all amplifiers. Bass and Treble controls, 250-10,000. Crossover 600 ohms. Switches in push-pull parallel—Tubes used are 2 1073, 3 1071, 1 1075, 2 6SL7, 2 6H6G (Rectifiers). Complete with speaker output, 4 6W5G rectifiers. Weight, 125, 250, 5000 ohms. Bass and Treble control. Price, $127.82.

MASCOS 75-WATT DELUXE HI-POWER AMPLIFIER
Model M-75-DMA. 75-Watt Amplifier Specifications: Full 75 Watts Class A81 power output at less than 5% distortion, peak power. 100 watts at 60 cycle AC. Response, 50-10,000 cps. HUM LEVEL below zero 25 decibels. Individual gain controls for all amplifiers. Bass and Treble controls, 250-10,000. Crossover 600 ohms. Switches in push-pull parallel—Tubes used are 2 1073, 3 1071, 1 1075, 2 6SL7, 2 6H6G (Rectifiers). Complete with speaker output, 4 6W5G rectifiers. Weight, 125, 250, 5000 ohms. Bass and Treble control. Price, $116.51.

TV-FM SWEEP SIGNAL Generator Model 360-K

Look at These Features!
- Covers all TV-FM frequencies 228 to 228 MHz.
- Variable sweep width 0.3 to 15 MC with Mechanical Inductive sweep. Wide sweep width allows gain comparison of adjacent channels.
- Provides for external signal generator marker injection. Has phasing control.
- Vernier driven dial with easy-to-read collimations directly in frequencies.
- Can be used with any standard Oscilloscope.
- Crystal controlled oscillator gives stablctrace pattern. Uses new miniature tubes 8X5GT, 12AU7, two 6C4. All components and tubes are made of crystal, furnished with etched panel and steel cabinet. Size: 10x8x4 1/2 in. with full instructions and diagram. Designed for easy assembly and good performance. WT: 25 lbs.

TV-FM SWEEP SIGNAL Generator Model 360-K

FEATURES:
- SMALL SIZE • PORTABILITY • DEPENDABILITY • LOW COST

Model 303 opens the way to proper television and radio servicing. Readings up to 30,000 volts DC with HV probe—has galvanometer zero centering for discriminating operation. Equipped with polarity reversing switch—RF signal tracing with high frequency probe—ohmmeter range to 1000 megohms. The small size $14.75 model was achieved at no sacrifice of accuracy. It matches the famous 200 ohm-meter probe. The larger model is an easy-to-read meter.

D.C. Voltage ranges 1.2, 12, 60, 300, 1200 at 10 megohms. 30,000 volts with access for high voltage probe.

A.C. Voltage range 12, 60, 300, 1200. Impedance with cable 200 mft.

Ohms—1000 ohms (with 10 ohm center scale). 100,000. 1 Megohm, 1000 megohms.

NEW! OAK RIDGE TV-FM TESTER
A Miniature Signal Generator

Use it in the shop or take it on the job for quick locating of TV or FM set troubles. Here is what it will do:
- It generates a calibrated RF carrier on TV channels 2, 13—FM from 88 to 108 MC.
- Audio, 500 cycle signal. Has attenuator controls.
- A generated signal is supplied to quickly locate signal failures on TV or TV circuits from point of the antenna input to the CRT or the speaker.
- Tests RF, Osc. and Mixer, Video and Audio IF's, Video, and Audio Amplifiers.
- Aligns sound track and adjacent picture track.
- Lasts as marker generator.
- Use for antenna orientation and sensitivity checking.
- Extremely compact, only 5½ x 4 ½ x 2 ¼". Sturdy oak cabinet. Comes complete with instructions and instructions for its many uses. Operates on 115 V, A.C. Shpg. wt: 23 lbs.

1012-14 McGee St., Kansas City 6, Mo.
TRUE HIGH FIDELITY AND EXTREME SENSITIVITY ON BOTH FM AND AM systems

This Browning Model was the choice of a nationally known manufacturer for assembly in a $200.00 Radio Phone combinations. It is not just another tuner than they needed...we made a good "buy", so here it is passed on to you.

Actually, two independent tuners on each shelf, using miniature tubes and incorporating separate RF and IF systems. The FM section employs Major Armstrong's circuits—one TRF stage, mixer and separate local oscillator at higher frequency to minimize image, two IF's, a dual limiter which successfully removes amplitude noise, and a discriminator stage. The AM section is a superhet with one RF stage, containing a high gain IF stage and diode detector which furnishes all voltages as well as audio. The audio level from both channels is approx. 0.5 volts RMS to a common output connection.

- 6E6E, 1-6G4, 1-6B4, 1-6G7T, 2-6G7T.
- 1-6H6, 1-6AS7T, 1-6ES, 2-7AG.

Ruggedly constructed, all components of highest quality.

Panel Controls include eye sensitivity, a large edge lighted slide rule dial, smooth volume controls.

MODEL MHP-110
10 watts power output at less than 0.05% distortion; frequency response ±1 db. 40-15,000 Hz with Inputs for Crystal Pickup or Radio Tuner; voltage supply socket for external preamplifier; power supply socket for chassis for record changer. 4-way Tone Compensation: Deep Bass, Medium Bass, Normal, Treble boost. Every One Brand New in Original Factory Cartons

Popular for custom installations or modernizing old receivers. Replaces FM 88 to 108 MC and AM 550 to 1700 KC. Push Pull 6X6 Audio, Response 40-1400 CPS Pre-Selection on AM. Phone Input.

SPECIFICATIONS: 10 tubes plus rectifier. 6A6G FM RF, 6AB6 Mixer, 6U6 osc.AFC, 6AS6 1st IF, 6SH7 2nd IF 6SH7 Limiter-2nd/det., 6H6 disc. 6SK7 1st audio, 26SK6 PP audio output, and 5Y3GT grid rectifier. Two 450/600 ohm lines 1700 kc. and 88 mc. to 108 mc. AM. Automatically connects in the FM signal-no drift. Full range tone control with boost.

12-INCH COAXIAL EXTENDED RANGE SPEAKER FOR ONLY $9.95

- Special Low Price
- Higher Check of Reproduction
- Brand New, Direct from Manufacturer

Manufactured. Hand made of finest materials and equipped with super-efficient molded seamless cone—frequency range of 50 to 12,000 cps needed to heavy duty 10,000 watt "WOOFER" and high frequencies handled by special designed 3" TWEETER" speaker. Built in bridging network allows proper frequencies to reach the lungs. Easy to install and connect to any Radio or amplifier having standard 8-ohm output by merely connecting two wire speaker leads to output of Radio or amplifier. Improved ALNICO 3 Magnet in both TWEETER" and WOOFER" speakers. Dual cone base, 12" inside diameter, 15" deep overall. R.M.A. standard mounting holes. Shipping weight, 6 lbs.

Stock No. 3188. 12" EXTENDED RANGE SPEAKER SYSTEM. EACH...$9.95

BIG SPECIAL PURCHASE VALUE AND OTHER SAVINGS!

SUPREME MODEL 574 — COMPLETE ELECTRONIC MULTIMETER — REGULAR PRICE $72.50! WHILE THEY LAST.

$38.88

- HAS ALL Volts, CURRENT, OHMS, RANGES
- 9006 DIODE PROBE
- 4-INCH METER WITH REVERSE SWITCH

Model 574 Electronic Vacuum Tube) Multimeter and Set Tester is a completely modern Set Tester, indispensable to the Servicer for accurate measurements in high impedance circuits as encountered in FM, Television, High Fidelity Audio, and the measurement of AC voltages in the RF spectrum up to 100 mc with negligible frequency error! DC input impedances of 10 meg; maximum for DC volts ranges of 0, 1, 2.5, 5, 10, 25, 50, 150, 500, 2500 volts. AC input impedances of 50 cycles and 10 meg — 10 megohms to provide VT ranges of 0, 1, 2.5, 5, 10, 25, 50, 250, 500, 2500 volts by use of standard test leads.

Resistances Ranges of 1/1000 to 100,000,000-Ohms and 0, 1, 10, 100, 1,000 Megohms! DP Switch changing ranges. Push-button selectors for all ranges and functions and clearly etched steel panel in white on gray wrinkle enamel finish. Small cabinet is 5x9x12" weight, 16 lbs. Complete with easily followed operating instructions. Diode H.F. Probe, high quality standard test leads and AC cord and plug; for use in Schools, Industries, Servicemen and Experimenters really: "MIX THE JACKPOT ON A WHALE OF A VALUE" on Model 574 at this price! Shpg. wt. 16 lbs.

By This Nationally-Famous Manufacturer of Fine Luggage

$42 Value

Modern Design!

- Faced with fine SunTan Vinyl, a material that looks like high grade leather, but is actually much more durable. Positively will not scuff or scratch. Top grain cowhide leather handles and bindings. Size 8 x 13 x 11.
- Light-weight, but tough, rugged construction to withstand hard usage.
- Chrome-plated rack with 4 hangars to carry dresses and suits wrinkle-free. Protecting dual curtain over dress rack. Plenty of room for traveling accessories.
- Beautifuily furnished, finely tailored rayon lining and dust curtain. Padded bottom and 3 roomy shirted pockets, one felt lined to accommodate shoes.
- Highly polished solid brass locks and hardware. Two keys included.

No. B-A has not gone into the luggage business... it's just that one of our buyers stumbled onto this as a part of the Tucker Accessory Kit from which he secured a great value in Motorola Auto Sets.

He bought one only for his lady... and in showing it around the B-A offices, all the gals and fellows too, went into ecstasy over its beauty... its usefulness... were stunned at the amazing low price. The business of the day for that buyer was, "get me one"... "get me one"... "get me two"... and on by practically everybody in the place.

With all this furo over luggage the thought hit us, why shouldn't many B-A customers appreciate the opportunity for such a Bar-
