Lafayette 5 TUBE AC Superhet with Automatic Push-Button Tuning

THE miracle set of the times—miraculous in that it is offered at a seemingly impossibly low price—miraculous in that it incorporates features heretofore found only in sets selling at two and three times the prices quoted. You get the very most for your money when you purchase one of these remarkable 5-tube a.c. superhets.

7-TUBE PERFORMANCE: Multi-purpose tubes provide 7-tube results. Tubes used are: 1-6ABG, 1-6U7G, 1-6Q7G, 1-6K8G and 1-7SYG. A matched electro-dynamic speaker provides crystal-clear reception with ample volume.

4-STATION AUTOMATIC TUNING: Just press a button on the panel and your favorite station is perfectly tuned in. Any one of four stations can be tuned—once the button is set no further adjustments are necessary. There is absolutely no drift, and settings are unaffected by changes in temperature or humidity. Stations can be tuned manually by means of a control knob on the side.

UNIQUE DIAL: Station settings are shown in large Arabic numerals—numbers denote kilocycles. A magnifying glass inset in the escutcheon insures complete legibility. Tuning range covers from 75 to 550 meters (220-1713 kc.).

CHOICE OF COLORS: The beautiful, ultra-smart plastic cabinet is available in three colors: Ivory, Walnut or Black as desired. Size: 11” wide, 7” deep, 6½” high. Shpg. wt. 13 lbs. For operation on 110-120 volts, 60 cycles a.c. only. For 220 volt operation, any model, add $2.00.

MODEL EM-72—in Black Case
YOUR COST EACH. IN LOTS OF 3: $10.45

MODEL EM-76—in Ivory case.
YOUR COST EACH: $11.95

MODEL C-6, C54 and C60
Lafayette 5-tube, a.c.-d.c. extended band receiver—one of the most beautiful examples of plastic cabinet design ever conceived. Extended Tuning Range. A single tuning band will cover all the standard American broadcasts, the upper police band and high-fidelity experimental stations. Tunes from 170 to 550 meters.

Available in Choice of Colors. Three beautiful shades of plastic to match any room are available: Ivory, Walnut and Black. This attractive set can be plugged into any 110 volt a.c. or d.c. socket. Requires no ground and has efficient built-in aerial.

MODELS C6, C54 and C60
Lafayette 5-tube, a.c.-d.c. receiver with tubes, for 110 volts a.c. or d.c. (50-60 cycles). Sizes: 10½x7½x5¼”. Weight: 10 lbs. Shipping weight 10 lbs.

UNBEATABLE PRICES

Lafayette 5 TUBE AC-DC with Inclined Panel

A n ideal set for that vacation trip, for travelers, or around the house where you want a good, inexpensive set. Its built-in aerial and 110 volt a.c.-d.c. operation means you can place it anywhere at all with uniformly excellent results. In a highly attractive cabinet, with modern slope front.

The time-proven tuned radio frequency circuit uses a pentode power output tube providing fine tone quality with ample volume. Five modern tubes are used: a 6C6, 6D9, 43 pentode, 2523 and a C-3268 ballast tube which eliminates the annoying "hot cord" of former days.

Tuning range from 200 to 545 meters covers the standard broadcast band. Attractive gold-finished dial calibrated directly in kilocycles for simple tuning.

MODEL FS17
Lafayette 5-tube, a.c.-d.c. t.r.f. receiver complete with tubes and built-in aerial. 110 volts d.c. or a.c. (50 60 cycles), 8½", 11¾" deep, Shpg. wt. 9 lbs. Code, FACIP. List Price $15.90.

★ Two-Band Tuning
★ Dynamic Amplifier

Lafayette 6 TUBE 2 BAND AC-DC SUPER

With this excellent 6-tube a.c.-d.c. Superheterodyne, incorporating many refinements usually found only in sets selling at much higher prices, you can enjoy the cream of short-wave and standard American broadcasts. Try one on our 30-day Free Trial Offer and you'll soon see why it rates up among the greatest Lafayette values.

A special dynamic amplifier capable of great audio output with splendid tone quality is incorporated. Six of the latest type tubes give 8-tube performance. Tubes used: a 6A7, 2523, 6D1, 6Q7G, 2585 and 1428. A full-sized electro-dynamic speaker provides humless, distortion-free reproduction.

Two Tuning Bands

Covering short-wave broadcasts, police calls, amateur and airplane signals on the 48.5 to 131 meter band and the standard American broadcasts from 173 to 555 meters this set will bring you entertainment as you desire it. An automatic volume control circuit minimizes fading and prevents annoying blasting.

Styled in the modern mode in fine grained walnut cabinet with its airplane-type dial will enhance the appearance of any room.

MODEL D23
Lafayette 6-tube a.c.-d.c. superhet complete with tubes. For 110 volts, d.c. or a.c., 50 60 cycles. 12"x11½"x7¾", Shpg. wt. 15 lbs. Code, WAITE.

## SIX-MONTHS GUARANTEE

All RCA Radiotron, Raytheon and Lafayette tubes are fully guaranteed for a period of six-months from the date of purchase (burnouts and broken glass are the only exceptions). Please save sales slips that are given with each purchase.
Our famous guarantee still holds. Order any Lafayette receiver—put it through its paces right in your own home—take a full 30 days to decide that it’s the best set your money can buy. But if for any reason you are not delighted with your choice, you may return the set within 30 days and your money will be refunded (Shipping costs excluded).

For over 17 years, Lafayette engineers have pioneered, step by step, introducing new features, more advanced circuits, greater values. No other company has so consistently maintained top quality. Lafayette radios cost more to build—but THEY COST LESS TO SELL. That's why you save 40%, to 50% when you buy a Lafayette radio receiver.

You buy with confidence at "WHOLESALE". We don't trust to luck. Expensive testing equipment and trained engineers make sure of that. No product is listed until it has passed exacting tests. Even the most minute part is tested scrupulously before it goes out to you. It's a costly system to maintain—but it's just another one of WHOLESALER'S services.

Among the most important factors in the growth of WHOLESALE RADIO is its ultra-rapid delivery service—a service that gets out an overwhelming majority of the orders received within the space of 24 hours! This service, of course, is made possible by the fact that complete stocks are maintained. No effort is spared in giving you SERVICE.

Seven great branches, strategically situated throughout the country, await the opportunity of serving you. Giant warehouses in New York, Chicago and Atlanta act as the supply depots from which over 56,000 items are drawn as needed. Four local salesrooms in Boston, Newark, Jamaica and the Bronx serve the local territories with maximum efficiency.

WE WILL NOT BE UNDERSOLD

HAVE YOU A COPY OF OUR GREAT 180 PAGE MASTER CATALOG No. 69?

Although this catalog (No. 71) contains hundreds of new items, special bargains, new developments in P.A., etc., etc., it by no means represents the complete listing of radio sets, tubes, amateur apparatus, electrical appliances and countless other items which WHOLESALE RADIO SERVICE CO. stocks at all times. This catalog is designed as a supplement to our great 180-page master catalog No. 69. Everyone in any way connected with the radio industry needs this big, money-saving book. If you haven’t a copy, or if your present copy is worn, we’ll be glad to rush one to you FREE—just use the convenient coupon at the right. (Paste on a penny post card.)

LAFAYETTE 7 TUBE AC-D C 2 BAND Superhet

WHEREVER you go you'll find an outlet for this fine
110 volt a.c.-d.c. 7-tube Superhet. Having all the
latest radio developments, it is offered at a competition-
defying price. Styled in the most pleasing modern man-
er you'll be proud to place it in your home.

Powerful Superheterodyne

The sensitive and selective quality of this receiver's superhet

circuit takes full advantage of seven of the most modern
tubes giving results formerly heard only on radios with
nine or more tubes. Tubes used are: 1-6A7, 1-6D6,
1-6CG7G, 1-535S (twin output tube), 1-2525, 1-642B bal-
ast and a 6CG cathode ray tuning "eye".

Electro-Dynamic Speaker

To handle the audio output of this fine receiver a pow-
ful electro-dynamic speaker, matched to the cabinet
and to the audio circuit, gives distortionless reprodu-
cation.

Cathode Ray Tuning "Eye"

The tuning "Eye" placed directly in the dial will per-
mit anyone to tune perfectly. By tuning until the "Eye"
space indicates peak resonance you are always as-
ured of reception at its very best.

Broadcast and Short-Wave Bands

Both the American broadcast band, from 171 to 535 meters and the short-
wave band from 48.3 to 131.5 meters are covered by two bands. In addi-
tion to thrilling police calls, amateur and airplane signals you can bring
in entertaining foreign broadcasts on short-waves. Automatic volume con-
trol to minimize fading, airplane-type calibrated dial are featured.

MODEL D48
Lafayette 7-Tube A.C.-D.C. Superhet with all tubes. For 110 volts d.c. or
a.c. (50-60 cycles). Size: 12 1/2" x 9 1/4" x 8". Shpg. wt. 15 lbs. Code. WABLE.

2 TUBE AC Superhet

A nother Lafayette super-value is this 2-tube, 2-band A.C. Superhetodryne. Featuring a
cathode-ray tuning "eye", automatic volume con-
trol, two-band tuning, tone control and full 6" elec-
tric-dynamic speaker, it is in every respect a
real 1939 "hit".

Super-Selective Superheterodyne

The powerful superhet circuit, with built-in labora-
	yory engineering, uses six of the latest type tubes
do which the work of eight! Tubes used are: 6A7,
6D6, 73, 41, 80 and a 685 tuning "eye".

Visual Tuning "Eye" Indicator

That miracle of modern radio, the cathode-ray tun-
ing "eye", set directly in the dial helps you bring in your
stations with their greatest clarity and tone.

Hear Stations From Foreign Shores

The two tuning bands permit you to choose from everywhere
for your radio entertainment. American broadcasts are covered from
174 to 580 meters while foreign stations, police calls,
amateur and airplane signals are on the 47 to 143 meter band.

6" Electro Dynamic Speaker

To handle the full output of the powerful pentode power am-
p利fier a beautiful toned full electro-dynamic speaker is used.
A.V.C. circuit minimizes fading and blasting.

SUPERB VALUES!

8 TUBE AC-D-C 3 BAND
Superhet

All Wave—All World Reception
With this powerful 8-tube Lafayette 3-band A.C.-D.C. Superhet to bring you radio entertainment on all bands and from everywhere the world of radio will be truly yours. Offered at the lowest price ever for a radio of this quality, Lafayette’s 30-day Free Trial arrangement will convince you of its value.

Dynamic Coupled Amplifier
Uses eight latest type tubes including a 2385 multi-purpose dynamic coupled amplifier. Tubes used include: 1-6D6, 1-6A7, 1-76, 1-807G, 1-2585, 1-2525, 140R8 ballast and a 6G5 cathode ray “Eye” visual tuning indicator. Three separate tuning bands cover from 187 to 54.6 meters, 60 to 176.5 meters and 187.5 to 545 meters. Included in this range are foreign short-wave stations. American broadcasts, police, amateur and airplane calls.

Cathode Ray Visual Tuning Indicator
No more “guesswork” tuning when you use the wonder cathode-ray tuning “eye”. All stations on all bands are brought in with knife-edge precision. You make sure that everything broadcast is reproduced. And reproduction is perfect because of the large electro-dynamic speaker, fully variable tone control and a sensitive A.V.C. circuit.

MODEL BA2
Lafayette 8-tube A.C.-D.C. Superhet in Walnut Duo-Tone Cabinet, with tubes. For 110 volts a.c. or d.c. Size: 21 1/4"x11 1/2"x8 1/4". Shpg. wt. 25 lbs. Code, CACHE List $49.90.

PURCHASED SINGLY, EACH $24.95
IN LOTS OF THREE, YOUR COST EACH $23.95

Lafayette 6-tube A.C.-D.C. Superhet Superhet

LAFFAYETTE scores another first by offering perfected push-button tuning at the lowest price ever asked for a set with this 1938 radio luxury! Featured in a beautifully molded modernistic Ebony or Ivory plastic cabinet this splendid a.c.-d.c. superheterodyne will operate anywhere on 110 volts. Uses six of the latest high-gain tubes and a fine electro-dynamic speaker.

Push-Button Tuning
Touch a button and presto any one of five stations is tuned in immediately and perfectly. An exceedingly simple arrangement on the underside of the set which can be adjusted by a child in a few moments permits you to choose your favorite stations to touch tuning.

Advanced Superhet Circuit
Full advantage is taken of the most modern superheterodyne circuit by six late type high-gain tubes. These include: 1-6D6, 1-6A7, 1-76, 1-43 pentode power output, 1-25Z5 and a 165R8 ballast. A fine electro-dynamic speaker reproduces with exceptional quality.

Two Tuning Bands
Continuous two band tuning is provided. Covers the standard American broadcast from 200 to 545 meters and police and amateur stations from 68 to 200 meters.

MODEL BA4
Lafayette 6-tube, 2-band, a.c.-d.c. superhet in EBONY case, with tubes. 110 volts d.c. or a.c. (50 60 cycle.) Size: 7 3/4"x11 1/2"x7 1/4" deep. Shpg. wt. 16 lbs. Code, CAMEL List $75.90.

FIVE TUBE...A.C. SUPERHET.

$14.75 EACH
IN LOTS OF 3

LAFAYETTE'S great radio values have amazed the radio public before, but this 5-tube A.C. Superhet-erodyne tops anything we've offered before in a fine, small radio priced ridiculously low. Our vast production, plus Lafayette engineering result in economies which we gladly pass on to you. In performance it towers over anything near its price.

7-Tube Performance From 5 Tubes
Two "twin" tubes, a 6A8G and a 6Q7G, in addition to 1-6K7G, 1-6F6G and a 5Y3G provide real seven tube performance in the advanced superhet circuit. Excellent audio output.

Matched Electro-Dynamic Speaker
Studio-like tone quality is assured through the use of a fine electro-dynamic speaker matched to the circuit and the cabinet. Listen to all the standard American broadcasts as well as the upper police band on this set's extended tuning range, 174.3 to 560 meters. Automatic volume control makes for enjoyable listening as blasting and fading are minimized.

MODEL FS-7
Lafayette 5-Tube, A.C. Superhet complete with tubes. For 105-125 volts, 50-60 cycles a.c. Size: 12" wide, 9" high. 8" deep. Code: FEVER. Shpg. wt. 13 lbs.

PURCHASED SINGLY, EACH $10.75

6-TUBE MODEL FS-8
Identical with above set, but includes a 6G5 cathode-ray tuning "Eye" for precision tuning. Code: FEZET.
LIST PRICE $23.50
IN LOTS OF THREE, YOUR COST, EACH $11.45
PURCHASED SINGLY, EACH $12.25

HERE is the little set that will exceed your highest expectations. View it from every angle, for tone quality, selectivity, ability to bring in foreign stations, beauty of cabinet and you will see why it is hailed as a typical great Lafayette value. But the wise buyer will see that it is also more radio per dollar than has ever been offered before. Try one on our 30-Day Free Trial offer—or that's our way of saying that we are certain it will satisfy you.

Modern Superhet Circuit
The powerful, sensitive superhet circuit makes full use of late late type multi-purpose tubes. Tubes used are: 6A7, 6DE, 75, 41 pentode power output and an 80 rectifier.

Two Tuning Ranges
Your choice of the popular foreign short-wave stations, police calls, amateur and airplane signals is provided on the 47 to 143 meter band. Standard American broadcasts from 174 to 560 meters.

6" Electro-Dynamic Speaker
Matched to the cabinet and the audio circuit, the 6" electro-dynamic speaker gives splendidly realistic reproduction with complete freedom from distortion.

Automatic Volume Control
Blasting when tuning from station to station, or fading on weak or DX stations is greatly diminished through the use of a sensitive A.V.C. circuit.

MODEL D21
IN LOTS OF THREE, YOUR COST, EACH $14.75
PURCHASED SINGLY, EACH $15.75
For 220 volt operation, add $2.00

LAFAYETTE...FIVE TUBE...A.C. SUPERHET...
LA FAYETTE

SIX TUBE ... THREE BAND
A.C. SUPER

SETTING a new high in radio value this exception-
ally fine little cathode-ray tuning, 6-tube, 3-
band a.c. superheterodyne will exceed your
highest expectations. Our liberal 30-day Free
Trial offer will give you the opportunity to prove
to yourself that here is more radio per dollar
than has been marketed before. Consider its
numerous features and you’ll agree that this is
a rare radio bargain.

"Beam-Power" Audio Output
A powerful 6VE6 "beam-power" tube supplies
3 watts of undistorted audio for this sensitive
superheterodyne. Modern tube line-up is: 16A7,
16Q6, 16Q7G, 16V6G, 1-80 rectifier, and a 6G5
cathode-ray tuning "eye".

Tunes From 16 to 555 Meters
Foreign short-wave stations, thrilling police
calls, airplane and amateur signals pour in on
the 16 to 60 and 60 to 187.5 meter bands. All
the standard American broadcasts may be heard
from 173 to 555 meters.

Cathode-Ray Tuning "Eye"
Tuning any station with the precision of an-
gle-eyes becomes amazingly simple through use
of the tuning "eye". All your stations are brought
in at peak resonance, perfectly.

Automatic Volume Control
Blanking and fading are reduced to a minimum
through the A.V.C. circuit. Other outstanding
features are 6" electro-dynamic speakers; fully
variable tone controls; beautifully designed rose-
wood and walnut inlay cabinet.

MODEL D36
Lafayette 6-tube, 3-band A.C. Superheterodyne with all

LA FAYETTE... SEVEN TUBE, 3 BAND ... A.C. SUPER...

TRAVEL over the radio "highways" of the world
with this ultra-sensitive 7-tube, 3-band A.C.
Superbell You’ll be amazed and delighted with the
new world of radio entertainment this fine radio
brings to your home. As beautiful to look at as to
hear this 1938 receiver adds up to an outstanding
radio buy.

All-Wave Tuning
In three tuning bands, 16 to 60 meters, 60 to 187.5
meters and 172.3 to 555 meters the short-wave and
broadcast bands of America and Europe are cov-
ered. Hear novel foreign short-wave broadcasts,
thrilling police calls, interesting amateur and airc-
plane signals and all standard American stations.

Crystal Clear "Beam-Power" Output
Specifications for distortionless, high-power output of the newest
"Beam-Power" tube supplies over 3½ watts of audio. Complete tube complement includes: 1-76,
1-6A7, 1-6D06, 1-6Q7G, 1-6V5G. 1-6G5 and an 80
rectifier.

Cathode-Ray Tuning "Eye"
Set directly in the giant airplane-type dial the tuning
"eye" will help you bring in both foreign and local
stations at peak resonance. The superbly chosen 8" electro-dynamic speaker will
 reproduce with perfect clarity and fidelity. Cabinet of high polished grained but walnut veneer.

www.americanradiohistory.com
Here is just the receiver discriminating persons have been seeking. Incorporating the novel "Phantom-Dial" Tuning, this 8-tube, 3-band A.C. Superheterodyne brings you the luxury of world-wide radio entertainment. Its tremendous reserve power, thrilling life-like tone, remarkable sensitivity and selectivity make it a truly great Lafayette value.

Compare the following super-features of this exceptional receiver with any on the market dollar-for-dollar and feature-for-feature! CONTINUOUS SHORT-WAVE RECEPTION over three extended tuning bands: 13.7 to 47.7, 47 to 166 and 164 to 570 meters; All-World reception is assured.

CATHODE-RAY TUNING "EYE" gives you laboratory-precision tuning always.

SYMPHONIC 10" ELECTRO-DYNAMIC SPEAKER reproduces EVERY note with startling fidelity.

HIGH FIDELITY TONE EXPANDER provides the wide band passage necessary for pure tone.

THERMOSTATIC COMPENSATORS in oscillator and i.f. circuits eliminates temperature change drifts.

DIODE AUTOMATIC VOLUME CONTROL for constant volume, minimises blasting and fading.

COMPENSATED AUDIO automatically increases bass and treble response at low volumes.

WIDE-RANGE TONE CONTROL accentuates high and low tones as you wish.

MANDY PHONOGRAPH SOCKET permits immediate adaptation without rewiring or going into chassis.

WIDE-RANGE POWER TRANSFORMER for operation on 40 to 60 cycle a.c., either 110 or 220 volts without the use of additional appliances.

This Lafayette Superheterodyne, one of the finest ever to come from our laboratories is available in both the "Phantom-Dial" Tuning model or with perfected Electrical Touch Tuning. All models contain identical chassis, tube complements and dynamic speakers. The following tubes are used: 1-K7 i.f. amplifier, 1-S77 lat. detector, 1-C5C oscillator, 1-R66 2nd detector and automatic volume control, 1-E85 i.f. amplifier, 1-E86 audio output, 1-SY3G rectifier and a 6G5 cathode-ray tuning "Eye". The SY3G and the 6G5 are glass, the remainder being of the all-metal type.

TUBE 3 BAND A.C. Superhet

This splendid radio-phonograph combination incorporates the new 1938 Phantom Dial Tuning 11-tube, all-wave tuning A.C. Superhetdorene and a high-fidelity phonograph unit using the well-known Garrard motor. It will bring new brilliance to recordings and set a new high in high-fidelity reproduction. The superhetdorene features a high-complementary circuit which automatically increases high and low frequency response and brings out ultra-realism in both radio and records. Other features of this set (fully described on page 12) are all-wave coverage from 13.7 to 368 meters, cathode-ray tuning "Eye," high-fidelity switch, 12-inch concert type electro-dynamic speaker, a stage of pre-selection on all bands.

The dependable Garrard phonograph motor is of the 78 r.p.m. type. Operates at absolute uniformity of speed with no "wobble" to insure perfect reproduction at all times. With speed-control and automatic stopping device, Turntable is 12 inches in diameter to accommodate both 10 and 12-inch records. The newest type high-fidelity crystal pickup is used for superior reproduction and long record wear.

**MODEL BB-56**

All LAFAYETTE sets are RCA and HAZELTINE licensed.
WITH the mighty power of this Lafayette 12-tube, 4-band a.c.-d.c. superhet, all-world coverage becomes a positive reality; as positive as will be your enjoyment of its thrilling life-like tone on d.c. as well as a.c. Built into the deal for easy tuning, you are bound to admit its superiority as you hear it bring in foreign stations with the tone and volume usually heard only from local stations.

Stage of R.F. Preselection is incorporated on all bands. Selectivity and sensitivity are tremendously increased, while clarity is improved and incessant "birdies" eliminated.

"Beam-Power" Output Tubes. Four of these new super-powerful audio output tubes supply a reserve of power. Tubes used are 4-25LE's, 3-252GC's, 1-6K7, 1-6Q7G, 1-6B5G, 1-6ASB and a 605 cathode-ray tuning "eye". Cathode-Ray Tuning "Eye". With this miracle tuning aid anyone can bring in desired stations at peak resonance just as radio engineers do, 4-bands, All-Wave Coverage. The entire short-wave and broadcast spectrum is covered in three bands: 13 to 41, 40 to 130 and 170 to 555 meters. The fourth band 935 to 2050 meters covers European long-wave broadcasts, ships, trains, airplanes, etc.

Noise Reducing Control. Those living in urban areas will appreciate this boon. Background noises reduced to a minimum. A simple turn of the knob "man-made" static.

10" Electro-Dynamic Speaker. A modern speaker for a modern radio handles the powerful output and reproduces everything faithfully.

Automatic Volume Control. Enjoy non-fading reception and freedom from blasting when tuning across the band from weak to strong signals.

Full-Range Tone Control. Adjust the tone to suit your own musical taste. Accentuate brilliant, high trebles or lown, mellow basses as you please. Compensates for acoustical differences.

Beautiful Walnut Cabinet. Finely constructed, hand finished cabinet of walnut and matched mahogany veneers, pleasingly modernistic.

5 TUBE AC OR AC-DC

If you haven't room for a full-size phone-radio combination but still demand results that compare favorably with larger outfits then these remarkable 5-tube A.C. or A.C.-D.C. combinations will more than adequately serve your purpose. Plays records up to 16” size, 78 r.p.m., without the bother of removing the cabinet lid. House in a modernistic cabinet of rare beauty and utility.

"Beam-Power" Output

The audio output uses the new super-powerful beam power tube for the distortionless reproduction so necessary for real studio realism. Tubes: 1 DU6, 1-EC8, 1-314LG "beam-power," 2523 rectifiers and M55F ballast.

Electro-Dynamic Speaker

A large electro-dynamic speaker matched to the audio output and the cabinet provides exceptional tonal quality. A full range tone control permits adjustment to suit all tastes. The radio unit is similar to the T.B.F. receiver described on page 2. Tuning range covers the entire American broadcast band.

All LAFAYETTE sets are RCA and HAZELTINE licensed.
Here is a superb musical instrument to delight the lovers of music everywhere. Not only can you enjoy the best entertainment on the air the world over, but you may listen to the music you want to hear whenever you want to hear it, reproduced through the phonograph unit. Designed for fidelity reproduction on both radio and recordings, the “beam-power” push-pull audio delivers superlative quality with approximately 8 watts output.

Full description of the Lafayette 8-tube, 3-band a.c. superhetodryne, forming the radio section of this combination, will be found on page 10 where all of its innumerable advanced features are detailed, including: “beam-power” output, cathode-ray tuning “eye,” three tuning bands covering 15.8 to 560 meters, full-range tone control, etc.

High-Fidelity Crystal Phono Pickup

The fine records produced today are reproduced most faithfully through a high-fidelity crystal pickup such as is used in this combination. All of the thrilling tonal colors and nuances of modern recording are brilliantly reproduced.

Genuine "Garrard" A.C. Motor

The well-known "Garrard" a.c. motor drives the 12-inch turntable. No "wobble" or vibration will mar reproduction. Motor speed is 78 r.p.m. adjustable by smooth speed control. Cabinet is the beautiful "Florence" console of delicately matched grained walnut.

PHONO-RADIO MODEL D55

The Best Music • WHEN YOU WANT IT • with a Lafayette
The World's Finest Record Player
Higher Fidelity Crystal Pick-Up
Cathedral Tone Chamber
Automatic Volume Expander

Enjoy the world's finest recorded music on the world's finest reproducing instrument, especially designed and constructed for that one function—Record Reproduction Fidelity. It is a superb, high power, audio amplifying unit specifically engineered to reproduce the full frequency range of modern day electrical recordings, not merely a line conversion of a radio receiver for that purpose.

Garrard Automatic Record Changer

Plays eight 10” or 12” records automatically, permitting approximately 40 minutes of uninterrupted entertainment. Full, detailed description of this exceptional record changer on page 31.

"Beam-Power" Tubes—Automatic Volume Expander

The especially designed 15-watt amplifier, using 6 tubes, features a Class "A" push-pull output stage using two "Beam-Power" tubes. To compensate for modern "compression" recording an automatic volume expander circuit is used, thus assuring full, life-like reproduction of crescendo passages. Other features include: velvet-smooth volume control and an ultra-wide range tone control. Tubes used are: 1-6L7, 1-6C6G, 1-6N7, 1-6V6s and 1-5V4 rectifiers.

Cathedral Tone Chamber—Beautiful Walnut Cabinet

An acoustically treated tone chamber houses the 12-inch high fidelity symphonic speaker, perfectly matched to the audio system and the exceedingly attractive walnut cabinet. The latter is of quartered walnut veneer, 13 1/2” thick, with matched grain, hand-rubbed finish. Four album shelves, each 4 3/4” x 12 1/4”, x 1 1/4” provided.

MODEL 392-T
Lafayette Dual-Speaker Higher Fidelity Phonograph Reproducer is specifically designed for flawless performance of one function, record reproduction. Using two six-inch permanent magnet type dynamic speakers its frequency range more than amplifies modern day recordings. Equipped with the matchless Garrard Automatic Record Changer for eight 10” or 12” records identical to the unit described above. Velvet-smooth volume control and ultra-wide range tone control to suit all acoustical conditions. Modern audio circuit of the most advanced type gives 5 watts of undistorted reproduction using the following tubes: 1-6N9, 1-6L7 and a 5V4 rectifier. Small illustration directly above shows top view with cabinet lid raised. Cabinet of very pleasing modern design, constructed of American walnut veneer, with solid walnut speaker picture crossbars fronting the scientifically designed acoustic tone chamber.

For 220 volt operation, add $1.95

MODEL 389-T
Same as above, less record changer, but with excellent 70 r.p.m. A.C. motor, 12” turntable, automatic stop, speed control and higher fidelity crystal pickup. Code, SABCD. Shpg. wt. 60 lbs. List Price $109.00.

For 220 volt operation, add $1.95

$52.50

Designed Especially for Record Reproduction; Acoustically Correct Cabinet
Full Fidelity Amplifier and Pick-up
Available with Garrard Record Changer
Special 8 TUBE 6 VOLT 3-BAND Super

Because this receiver is being offered at an unusually low price, and because our supply is extremely limited, we are not advertising the name of the nationally famous manufacturer. It is, however, one of the finest battery radios on the market. It incorporates every feature desired by the rural home owner—economical operation—high sensitivity—excellent tone—foreign reception. Remember though, that our stocks are limited—order now and avoid disappointment.

One Battery Operation

The cost of operating this excellent receiver is unusually low—less than half the cost of operating an a.c. set. Only one six volt storage battery is required to supply all the necessary power.

Three Tuning Bands

Foreign reception and amateur calls, as well as American broadcasts can be tuned on the three bands covering from 16.5 to 545 meters; BAND INDICATOR shows band in use at a glance.

MODEL 804

Special 8-Tube 3-Band 6-volt battery superhet in console cabinet measuring: 39" high, 22¾" wide and 10¾" deep. Complete with all tubes, but less storage battery. Shpg. wt. 58 lbs. Code GAR4.

YOUR COST $26.00

PURCHASED SINGLY...$27.50

Special All-Wave deal kit.

K16484—YOUR COST...$16.95

* 14.45

Permanont Magnet Speaker

A powerful, modern type permanent magnet dynamic loudspeaker handles the entire set output with life-like fidelity, and minimum distortion.

Extended Tuning Range

The receiver covers from 540 to 2600 kc. (120 to 545 meters), bringing in police calls and the 160 meter amateur band broadcasts as well as the standard American programs. The large, easy-to-read dial simplifies tuning.

Full Range Tone Control

It's easy to bring out those pleasing bass notes and soften the very high tones. Just turn the tone control knob on the panel till the results meet with your requirements. A powerful automatic volume control minimizes fading on distant stations and prevents blasting.

MODEL EB-52

Lafayette 5-Tube Dry "A" Battery Superhet complete with all tubes, less batteries. 13¾" wide, 8½" high, 7¾" deep. Shpg. wt. 14 lbs. Code TUPPC. List $29.90.

★ Economical Operation

★ 10-Tube Performance

Lafayette 5 TUBE 2 VOLT

LOW-DRAIN BATTERY Superhet

No longer is it necessary for those living in the rural districts to be without high quality radio entertainment because of high initial cost and high cost of operation. Lafayette engineers, by utilizing modern radio improvements, have designed this excellent little receiver to overcome these disadvantages.

Although unusually low in price, this set requires only low-cost battery power and is capable of real high fidelity performance. Only one "hot shot" "A," battery and 90 to 135 volts of "E" battery are required. Current drawn by the tubes is so low that batteries will last as long as their rated shelf life.

7-Tube Performance

Five multi-purpose tubes, used in the powerful superhet circuit, provide results heretofore associated only with 7-tube receivers. Tubes used are 1-A8, 1-A4, 1-30, 1-B84 and 1-F4. Power output is more than ample for home use—you can fill the room with clear, natural tones.

10-Tube Performance

By employing multi-purpose tubes, results heretofore obtainable only in 10-tube receivers have been attained. In addition, the tubes selected draw very little current so your battery requirements for frequent charging. Tubes used: 2-6S7G, 1-6DEG, 1-677G, 2-6SLG, 1-18 push-pull output tube and 1-6N3 tuning "eye" that simplifies station adjustments and makes possible peak performance at all times. Extreme sensitivity afforded because of the use of an R.F. stage on all bands.

Full Range Tone Control

Bass notes can be fully emphasized and "scratchy" high notes can be softened by means of the panel operated full range tone control.

A powerful Automatic Volume Control eliminates blasting and minimizes fading on distant stations.

8" PM Reproducer

Draws no current, yet provides crystal-clear reception with great fidelity.

Wwww.americanradiohistory.com
heterodyne complete with all tubes. Size: 11 1/4" x 22 1/8" x 10 7/8". Code, VIRBE. Shpg. wt. 25 lbs. List $45.90.

PURCHASED SINGLY, EACH $24.95

All LAFAYETTE sets are RCA and HAZELTINE licensed®
NOW Lafayette gives you AUTOMATIC TOUCH TUNING on an auto set—a very important aid to SAFE DRIVING. No need to take your eyes off the road for an instant when you operate this powerful 5-tube superhet—just press one of the buttons with your finger and the desired station comes in perfectly tuned. The receiver is extremely sensitive and selective, and draws very little battery current—yet it is offered at a price that defies all competition. To get the very most and the best for your money, buy Lafayette.

Tune Any One of Four Stations Automatically

Any one of your four favorite stations can be tuned AUTOMATICALLY, instantly, by just pressing one of the push-buttons. These buttons can be set accurately by anyone in a few moments without the necessity for using any tools and without opening the case. No electric motor or condensers are used, so that there is absolutely no possibility of drift. Once the button is set, no further adjustments are needed. Station settings can be changed easily.

Powerful Superhet Circuit

Five specially selected tubes are used in the powerful superhet circuit as follows: 1-6A8G converter and oscillator; 1-6CG7 triode detector, a.v.c. and audio; 1-6X5G output tube; 1-6X5G rectifier. Power output is a full 2-watts.

A matched electro-dynamic speaker reproduces the set output with good fidelity, and is so designed that it will maintain maximum efficiency over a long period of time.

Slide Rule Full Vision Dial

The dial is of the "slide rule" type and is extremely legible. It is calibrated in kilocycles (550 to 1600) and is fully illuminated. Stations can be tuned manually by means of the control knob on the panel.

Automatic Volume Control Circuit

A powerful a.v.c. circuit minimizes fading when traveling under steel structures and prevents annoying "backlash". Volume is automatically maintained at a constant level.

Single Unit Construction

The receiver is housed in a single steel case designed for under-dash mounting. It is particularly easy to install and service. Detailed instructions are furnished. Finish in tan shrivel.

MEISSNER HOME RADIO ROBOT CONTROL UNIT

Can Be Used With Any Set

• Easy to Install

• Tunes 7 Stations Automatically

• No Drift

• Hardwood Cabinet

The most modern, most efficient remote control unit on the market today. Can easily be installed on any home radio receiver, either t.r.f. or superheterodyne, and there are only TWO CONNECTIONS to MAKE. Does not affect the performance of the set.

Tune Any One of Seven Stations

You can tune any one of your seven favorite stations merely by pressing the station button. Accurate station settings can be made in a few minutes without using any tools, without disassembling the unit and without the need for any technical knowledge. Once the stations are set, no further adjustments are necessary unless you want to change from one station to another. The unit is PERMEABILITY TUNED and there is absolutely no drifting—once setting is all that is needed. An eighth button, when depressed, permits manual tuning at the set.

A BUILT-IN VOLUME CONTROL permits volume adjustments at the remote control unit. The unit can be placed at any distance from the receiver without affecting operation. House in a beautiful hardwood two-toned cabinet 9½ x 9½ x 4½". Wt. 7 lbs.

$21141—Meissner Remote Control Unit. Complete with tubes (1-6AV, 1-LIV). For 110 volts, AC or DC. List $26.50 YOUR COST $15.58.

All LAFAYETTE sets are RCA and HAZELTINE licensed.
7 TUBE SUPER

THE leader in the auto radio field—unsurpassed in quality—unsurpassed in price. You own the finest when you buy the Lafayette model D-15, and you pay a price that would ordinarily be charged for a very much inferior receiver. Examine the features outlined below—compare them with others make—your choice is sure to be this superlative superheterodyne auto radio.

High Power Superhet
Seven modern tubes employed in the well engineered superhet circuit provide 5 watts of audio power—more than enough for any auto or trailer. Tube complement includes: 1-8Y7, 1-6AG7, 1-6R7G, 1-6R7, 1-6V6G and 1-6X5G. Current drain only 7.5 amperes.

Electro-Dynamic Speaker
A high quality electro-dynamic speaker is employed to handle the entire set output with excellent fidelity. Speaker is dust-proof and maintains its efficiency.

Automatic Volume Control
A powerful a.v.c. circuit maintains volume at a constant level, eliminates "blow-lag" and minimizes fading when travelling under steel bridges, high tension lines, etc.

Full Range Tone Control
Emphasizes the bass notes or softens the ultra-high tones at will by merely turning the tone control knob.

Threaded inserts permit mounting in several different positions. Any modern aerial can be used: running board, triangle, hook, etc. NO SPARK PLUG SUPPRESSORS ARE NECESSARY.

$27.50 EACH IN LOTS OF 3

MODEL D-15
Lafayette 7-Tube DeLuxe Auto Radio, complete with all tubes, generators condenser, distributor suppressor, drive cables and remote control head. Less dial, mounting plate and knobs. Size: 11'x6'x8'1" Shpg. wt. 23 lbs. Code: WAFIS. List Price: $27.50
YOUR COST EACH, IN LOTS OF 3 $28.50
PURCHASED SINGLY, YOUR COST EACH...

Tailor made control mounting kits for any late model automobile supplied at an additional $1.00. BE SURE TO SPECIFY MAKE OF CAR, YEAR AND MODEL WHEN ORDERING.

6 TUBE SUPERHET

THIS newly designed 6-tube auto superhet incorporates every feature necessary for high quality performance in the modern car. It is highly sensitive, selective, and provides ample power. In addition, low tube drain and efficient engineering combine to provide extremely economical operation. Very little current is drawn from the storage battery. Without the price quoted for this excellent receiver is lower than ever—you get more than your money's worth when you buy Model M-94.

Uses Six Multi-Purpose Tubes
The powerful superhet circuit employs six of the latest type multi-purpose tubes, including: 3-6SN7's, 1-6A7, 1-6Q7G, 1-614 output tube and 1-024 rectifier. A matched electro-dynamic speaker reproduces the entire set output with great fidelity. Dust-proof construction insures maximum efficiency at all times.

Provision For Extra Speaker
A second speaker can be attached to this set at any time. Additional speaker must be of the permanent magnet type (prices quoted on request).

Tone and Automatic Volume Controls
A tone control, governed by a knob on the side of the case, permits the operator to emphasize the bass notes as desired. Powerful a.v.c. circuit minimizes fading when travelling over steel bridges, etc., and prevents blasting.

Built-in Filter Circuit
A built-in filter circuit makes it unnecessary to use spark plug suppressors (other than one in distributor head). Any modern type aerial can be used with good results. The entire unit is contained in a single steel case, and mounts by means of three bolts. Full installation instructions furnished.

Tailor-made panel plate assemblies, complete with matched knobs supplied at additional $1.00. Specify make of car, model and year.

---

**Hull Auto Compas**

Tells you the direction every instant. Easy to install. Mounts on the window or dash with suction cup. Has sapphire bearing. Liquid float type. Excellent quality. Made of a built-in magnetic compass, adjustable brackets; 7 lbs. Shpg. wt. 2 lbs.

K1632 — List $2.50

Your Cost $1.91

---

**Standard Model**

Similar to above, but with two units. Suction cups mount each part firmly on the windshield. Compass and compensator in the same case are easily maintained in perfect working order.

K1633 — List $3.00

Your Cost $1.27

---

**Auto Type Extension Shaft**

Used to convert standard volume control shaft to slotted auto type. Extension shaft is 3½ long, ¼ inch, and has ½ inch coupling with screw set screw on end. Accommodates slotted or tongue-coupler. Supplied with guide-tined and slotted insert.

K16229 — Each $0.90

---

**BURGESS Super Service-Safety-Lite**

Can be dropped without damage, has 22,000 volts insulation, gas tight end caps and is waterproof. Rubber bonded end caps, fibre drawing. Focusing type. With bulb, lens, socket. W2224 — Each $0.50

K13613 — Your Cost $1.04

K18201 — Cello. Each $0.65

---

**TruTest Auto Radio Suppressors**

For 1938 PLYMOUTH

E l a b o r a t e d by the standard type.

M o d e l e d case...

K12565 — Your Cost Each $12.00 (same quantity prices as shown at left below.)

---

**Wire Wound Suppressors**

Type G. Low resistance units (500 ohms) in the above models. Use for all Ford 1938's.

K12566 — Spark Plug Type $2.75

K12567 — Distributor Type $10 for $5.50

---

**Copper Shielding**

Used for shielding of interference creating circuits. Closely woven.

K12568 — Bare $1.00

K12569 — Tinned $1.50

---

**Auto Ignition Wire**

Standard 7 mm. black lacquered braided wire. Moisture proof and of excellent quality. Shpg. wt. 7 lbs. per 100 feet.

K12570 — Per Foot $2.50

K12571 — 100 Feet $2.50

---

**Shielded 7 MM. Wire**

Lacquered braided wire with a heavy rubber wall and outer covering of tightly woven copper shielding. Shpg. wt. 7 lbs. 100 ft.

K12572 — Per Foot $2.00

K12573 — 100 Foot Spool $14.40

---

**Antenna Connector**

Two-piece metal container, fibre inside insulation. Powerful spring contact. 10 for 50¢.

K12574 — Your Cost Each $2.00

---

**Exact Replacement PHILCO VIBRATORS**

The two models listed below will fit all Philco auto radios, up to and including 1938 sets.

K14635 — For Philco models up to 1938, including models: 3, 5, 6, 7, 8, 9, 10, 11, 51, 700, 800, 802, 805, 806, 807, 808, 809, 810, 810PA, 810PB, 810PV, 811P, 816, C, D, E, F, FN, G, GI22, H, H122, J, PAD, PBD, Q, R, EF elim., EG elim. Fits 4 prong base. 43¢.25¢

K14636 — For all Philco 1937 and 1938 models.

Lots of 6 each 35¢

Your Cost Each, Either Type $9.85

---

**SPECIAL VALUE 4-PRONG NON-SYNCHRONOUS VIBRATOR**

A special general replacement vibrator that fits any auto set, using a standard 4-prong socket. Non-synchronous. Used in most of the popular sets put on the market in the last few years. 3½ inches, ½ inch, 1½ inches, 1 inch, 2½ inches, 3½ inches, 1¼ inches. Shpg. wt. 2 lbs.

K14637 — Your Cost Each, Special $0.95

K14638 — Your Cost Each, Special 5¢

---

**Standard Auto Radio Condensers**

These units will eliminate the noise caused by the motor arm commutator and the cutout. Easy to install. Completely shielded; dirt and oil proof.

Stock No. Cap. Your Cost

K14219 — 19 mil. $1.26

K14220 — 60 mil. $1.30

K14221 — 130 mil. $1.60

---

**FORD V8 Condensers**

Tailer made for Ford V8's.

K14219 — Type A. For V8 models 1936.

K14199 — Type B. For 1937 and 1938 models Ford V8.

Your Cost Each $2.60

---

**MOTOROLA 65 and 70 Special Condenser**

High voltage condenser used in the above models. Consists of two 3000 mil. 1000 volt units in a single housing. Four leads.

List 60¢.

Your Cost Each $3.25

---

**Dome Light Filter**

Eliminates the noise in dome light. Has a condenser choke. K14208 — $1.30

Your Cost $1.40

---

**Ammeter Condensers**

Eliminates noise in ammeter, horn, etc. Has lug.

K14218 — Each $0.50

**SPRAGUE Oil and Gas Gauge Filters**

Your Cost Each $2.95

---

**Wheel Static Eliminator**

Eliminates the noise caused by static electricity, wheel noise, easy to install in each hub of car. All rust proof. K18286 — Your Cost Each $2.45

---

**RCA M-34 VIBRATOR**

Genuine RCA part No. 7604, used in models: M-100, M-105 and M-116. Also used in G.E. models B-40, C-41, E-32 and C-61, Full-wave type. Weight: 2 lbs.

K13906 — Your Cost Each $3.60

---

Never Before So MUCH Amplifier
For So LITTLE Money!
The System of a Thousand Uses
Has Every Feature Usually Found
Only in Expensive Amplifiers
Beam-Power Tubes—Full Tone Control
Complete Mixing-Fading Controls

Sensational
12 TO 15 WATTS

Choice of Microphone
Lafayette offers, at no additional cost, your choice of the microphones shown above, 1) American-Valve, 2) Shure Spherical Crystal, 3) Shure Spherical Crystal, 4) Shure "Grille" Crystal, 5) Shure Diaphragm Crystal, 6) American Dynamic.

Special "Expander" Model
For High-Fidelity
Phone-Repoduction
Lafayette offers this special Model 252AT amplifier for use exclusively for high-fidelity phone-reproduction. Special "Expander" circuit permits perfect reproduction of modern recordings, producing realistic dynamic changes not possible with ordinary amplifiers. Uses 1-6L7, 1-SCH, 1-6N7, 2-6V6s, and a 5V4 rectifier. Controls for Volume, Expander and Tone Control. Similar in appearance to Model 250T.

"Expander" Model
List Price $37.90.
YOUR COST
Model 252T — Same as above, but with complete set of matched tubes.
$23.71.

Mixer-Fader Controls—Streamlined Case
Built-in mixer-fader control permits fading from one low gain channel to the other as well as mixing either low-gain with the high-gain channel. Continuously variable tone control to correct acoustical differences in all locations. Operates on either 105-115 or 115-volt systems. A.C. or D.C. Fuse block affords protection under all voltages. A.C. line fuses are furnished with each complete "Co-ordinated" System at no extra charge.
LAFAYETTE Furnishes Baffles With Every System Because

$20.70 Less Tubes & Cover

Once again Lafayette offers more power, more features and more quality in a public-address amplifier. At a new low competition-defying price. Designed especially for the average sized night club, hotel dining room, large auction rooms, etc., paging systems in offices and factories where considerable coverage is needed. Amply serves the medium-sized installation, providing dependable, quality sound re-enforcement from mike, phone or other source.

Three Input Channels

Provisions for one mike and two phone-pickups, electric instrument inputs etc. are incorporated. Uses any modern type mike as illustrated above. Also operates with photocell devices.

Mixing-Fading Controls

Built-in electronic mixer-fader controls permit perfect control over any combination of inputs making possible a great degree of variation for any desired results. Faultless in operation.

20 Watts Field Supply

Sufficient field supply, 20 watts, is provided for two speakers with a total resistance of 5000 ohms.

"Beam-Power" Tubes

Two modern "Beam-Power" tubes are utilized to assure high power output with a minimum of distortion. Complete tube line-up includes: 1-687, 1-6C5, 1-6N7. 2-6L6Es beam-power tubes and 1-594 rectifier.

Multi-Voltage Input

Power transformer is tapped for either 105-115 or 115-125 volts, 50/60 cycles a.c. to meet varying power line requirements. A Dual Fuse Selector is incorporated to provide full protection at either voltage.

New Streamline Design

Fully streamlined in design and construction, this versatile amplifier is ultra-modern in every respect. Chassis finished in slate grey with decorative steel cover a matching platinum grey with handsome silvered nameplate and contrasting chromium and red plastic handles. Sturdy carrying handles on chassis.

Complete "Co-ordinated" Sound System

The new 864-T Lafayette "Co-ordinated" Sound System includes every component necessary for operation, all perfectly matched for the best possible results. Any one of six modern microphones may be chosen. Two 12-inch heavy duty concert speakers and two sturdy speaker stands are furnished. A heavy, friction clutch, floor stand of the latest design is part of the system, and 15 ft. of mike cable and 50 ft. of speaker cable. All necessary shielded plugs and connectors are included, with complete instructions.

Technical Specifications

Model 261A—Lafayette 25-35 watt Amplifier, less tubes and cover. Siz: 161/4" x 81/4" x 21/2". For 115 volts. 50/60 cycles a.c. Code: SC0F. Shpg. wt. 30 lbs. List $41.40

YOUR COST $20.70

Model 261T—Same as above, with complete set of tubes.

Lafayette offers a new high-quality, high-power amplifier at a new low price made possible by our vast engineering and production facilities. Ideal for larger groups, banquet halls, churches, auditoriums, entertainment clubs, it offers greater facilities — two microphone inputs, heigh fidelity reproduction, reverse feedback, automatic equalization. "Beam-Power" output.

**Reverse Feedback**
Both Standard and "Remotrol" models have reverse feedback circuits for high quality reproduction with high power output. Tube complement of Standard model: 2-677s, 2-697s, 2-6L6Gs and 2-5V4Gs. Remotrol model uses: 2-677s, 2-677s, 1-6N7, 1-6L6Gs and 2-5V4Gs.

**Four Input Channels**
Two high-gain and two low-gain channels are provided. Mixing and fading of any two inputs is afforded by means of a built-in electronic mixer. Provision for photo-cell operation.

**Automatic Equalization**
Automatic equalization of frequency response controls amplifier gain so that amplification of various frequencies is compensated for according to their strength.

**Luminous "Neo-Dials"**
Enhancing the appearance of the streamlined cabinet, the exclusive "Neo-Dials" provide a means of controlling the amplifier when in use in darkened locations as in mini clubs, etc.

**"Remotrol" Model**
Remotrol is a startling new, and exclusive device which permits full control of volume of both input channels (mike and phone), at any distance from the amplifier. When used in an auditorium, by orchestra leaders, by stage directors, etc., it affords positive monitoring control where it is most desired — at the point of reception. It is a real boon to orchestra leaders, lecturers and for all requiring special effects. Operates perfectly at any distance within hearing range of the sound system. Remotrol cable carries only D.C. It is stable, hum-free. Remotrol box can be mounted in permanent position, if desired. Light in weight, only 3.15/16"x2'/1x1.15'/18", high, it may easily be held. Furnished with 50 ft. of 5-conductor cable. Additional lengths may be added.

**Choice of Mike**

**Technical Specifications**
- **Peak Output**: 40 watts. Rated Output: 30 watts.
- **Mikes Gain**: 130 db. **Phone Gain**: 82 db.
- **Inputs**: 2 Microphone, 2 Phone, etc.
- **Field Supply**: 50 watts for two 2500 ohm units.
- **Frequency Response**: 50-10,000 c.p.s.
- **Hum level**: below .30 watts. 55 db.
- **Out Imp**: 2, 4, 8, 16, 50, 250, 500 ohms.

**MODEL 271-A**: Lafayette Standard 30-40 watt Amplifier, less tubes and cover. For 105-115, 115-125 volts. 50/60 cycles a.c. Size: 18" x 6.5x6.9" high. Code: SABCN. YOUR COST $28.95.

**MODEL 271-T**: Same as above, but with standard tubes. YOUR COST $36.19.

**MODEL 271-D**: Steel Cover for above. Shpg. wt. 6 lbs. YOUR COST $1.95.

**"Remotrol" Model**
- **MODEL 272-A** : Similar to Model 271-A, but with "Remotrol" remote control box and 50 ft. of connecting cable. Code: SBCDG. Shpg. wt. 45 lbs. **List Price**: $37.00. **YOUR COST**: $43.50.

**MODEL 272-T**: Same as above, but with set of matched tubes. YOUR COST $51.33.

**MODEL 271-DF**: Steel Cover for above. Shpg. wt. 6 lbs. **YOUR COST**: $1.95.

**MODEL 271**: For 220 V. operation, either model: 50/60 cycles. add 22.50. YOUR COST $74.10.

**"Co-ordinated" Sound Systems**
- **MODEL 812-T**: Lafayette Standard 30-40 watt "Co-ordinated" Sound System including Model 271-TD amplifier complete with tubes and covers. one mile from list above (specify your choice): 2-12" Audition speakers (K-15277). ADD $7.50. Deluxe Floor stand (K-15328) 12 ft. high, wire, 100 ft. speaker cable, all necessary shielded plugs. Shpg. wt. 110 lbs. Code: RABCF. **List Price**: $158.50. **YOUR COST**: $129.95.

**MODEL 814-T**: Exactly same as above system, but includes "Remotrol" remote control box and 272-TDF Amplifier. Shpg. wt. 120 lbs. Code: SRBCD. **List Price**: $185.00. **YOUR COST**: $94.50.
**Low Cost De Luxe 40 to 55 Watt System with Built-in Equalizer**

- **Super Power—Super Quality** 1938's Super Amplifier Value
- **Coverage and Quality Reproduction** For the Larger Gatherings and Installations
- **Low and High Frequency Equalization Controls** for Acoustic Correction
- **4 "Beam-Power" Tubes**
  - In this De-Luxe 40-55 watt Amplifier Lafayette offers P.A. users one of the finest high-quality, high-power amplifiers its engineers have ever developed. Designed for coverage at very large groups, as in school auditoriums, political gatherings, large dance halls, nice clubs, swimming pools, banquet halls and small armories. Individual bass and treble controls adjust the amplifier for perfect reproduction in any acoustical conditions, thus achieving tonal quality that will meet the most exacting requirements. All in all it is one of the greatest P.A. values on the market today.

- **Choice of Mike**

- **Individual Bass-Treble Controls**
  - An outstanding feature of this amplifier is the incorporation of individual bass and treble controls to permit full correction of all acoustical conditions, without affecting the middle tone register, either the bass or the treble may be adjusted to meet all circumstances. This permits a flexibility of operation and tonal quality second to no amplifier on the market today, and a rare value at the extremely low price.

- **Reverse Feedback**
  - Designed to make possible high outputs with a minimum of distortion, reverse feedback is featured in this amplifier, another Lafayette development making for perfect reproduction.

**"Co-ordinated" Sound System**

Lafayette engineers have selected not only oversized, long-life components throughout but have co-ordinated every unit used in the complete sound system to afford matchless results.

**Technical Specifications**

- Peak Output 55 wattsRated Output 40 watts Microphone Gain 132 db Phone Gain 87 db 4 Input Channels: 2 Mike, 2 Phono, etc.
- Field Supply 20 watts for two 2500 ohm fields. Hum level below 40 watts. 60 db Frequency Response: 50-10,000 c.p.s.
- Output Imp: 2, 4, 8, 16, 50, 250, 500 ohms
- Max. Equalization at 30 & 6,700 c.p.s. = +15 db
- List Price $83.90.

**Your Cost**

- Model 283D—Same as above, but with complete set of matched tubes.
- Your Cost $173.95
- Model 283DF—Steel cover for above amplifier. Shpg. wt. 6 lbs.
- Your Cost $22.25
- For 220 volts 60 c.c.w., add $3.25. 25 c.c. $14.50

**"Co-ordinated" Sound System**

- Model 844T—Lafayette 40-55 watt "Co-ordinated" Sound System, including Model 283 TDF Amplifier with tubes and cover, one mike (specify your choice from list above) two 12 inch speakers (K 19237T), 2-tube baffle (K 19036); Heavy Duty mike stand (K 1352f), 12 ft. mike cable, 100 ft. speaker cable, all necessary plugs, full instructions, ready to operate. Shpg. wt. 128 lbs. Code: RABCD.
- List Price $313.50
- Your Cost $93.75
This Super-Power Lafayette Amplifier is especially designed for use where more than a single large group or area must be covered from a single sound source, as in Exhibitions, Indoor and Outdoor Rinks, overflow political and other meetings, stockyards, multi-speaker call systems in industrial plants, hospitals, sanitoriums, etc. Will amplify serve gigantic track and athletic meets in huge stadiums.

Equipped with EVERY modern development known to the science of sound reinforcement, this amplifier provides the ultimate in reproduction as well as tremendous power. Ruggedly built, with oversize components used throughout it will give long, trouble-free operation.

**Variable AVC-AVE**

Automatic control of volume expansion compensates for "compression" in modern recordings and provides high-fidelity reproduction at all volumes. Automatic volume control minimizes acoustic feedback and keeps a constant volume level as the person at the mike alters his position.

**Cathode "Eye" Indicator**

To adjust volume controls for the best results a cathode-ray "Eye" indicator is used.

---

**Four Input Channels**

Two low gain and two high gain channels for use with any type of microphone, phone pickup or other sound source are provided. Shielded input plugs are used throughout. Photo-cell, electric instrument or other sound source may be used with no change required in the amplifier.

**14 Modern Tubes**

4 "Beam-Power" tubes comprise the double push-pull audio output supplying full rated output with a minimum of distortion. Complete tube line-up is: 3-876, 1-6L7, 1-6G5, 1-6P6, 1-6H6, 1-6N7, 4-6L6G and 2-6L6 rectifiers.

**Illuminated "Neo-Dials"**

Another exclusive Lafayette feature is the luminous, soft-glow "Neo-Dial" Controls which permit complete operation of the amplifier in darkened locations—a boon to night clubs, hotels and other establishments.

**Wide-Range Tone Control**

To adjust the amplifier for acoustical differences in various locations a fully variable, wide-range tone control is incorporated. Full control over the amplifier frequency response is thus possible.

---

**Technical Specifications**

- Rated-70 watts Peak—100 watts
- Mike Gain: 139 db Phone: 85 db
- 4 Inputs: 2 Mike, 2 Phone, etc.
- Hum level below 70 watts—50 db

**"Co-ordinated" Sound System**

Model 1927—Lafayette 70-100 watt "Co-ordinated" Sound System complete with model 291-TDF amplifier, with tubes and cover; one microphone (specify choice from list above); Heavy Duty mike stand (K 13250); 4-12 Heavy Duty P.M. speakers (K 1320); 4 speaker baffles (K 1325); 12 ft. mica cable; 20 ft. speaker cable, all necessary plugs, instructions. Ready to operate. Code, RDEF. Shpg. wt. 171 lbs.

**List Price $147.00**

**Your Cost $143.50**
Lafayette offers, at no additional cost, TWO mike sets, as shown above. (1) Amperite-Velocity, with switch. (2) Shure Swivel Crystal. (3) Shure Spherical. (4) Shure Grille Crystal. (5) Shure Diaphragm. (6) American Dynamic.

Supreme Achievement of Lafayette Engineers
Now Lafayette makes available for the first time the highest-powered amplifier ever offered at P.A. price levels. No finer amplifier made for beaches, armories, boardwalks, airports, stadiums, race-tracks, ball parks, parade grounds, etc.

Complete 5 Channel Amplifier
The complete 5 channel 125 to 180 watt Amplifier is housed in a new streamlined platinum grey finished rack type cabinet which measures 23"x21"x13½" deep. Upper panel contains three high-impedance pre-amplifiers for any modern mike. Uses three 417 tubes. Second panel is a five channel mixer with individual controls for three mike inputs and two low-impedance inputs, such as phone pick-up, electrical instrument and similar source. Uses 6557 tubes. Third panel has complete monitoring facilities, including 8" P.M speaker with volume control, and calibrated decibel meter with range control.

Power Amplifier Section
The fourth panel contains the complete driver and 125 watt power stage on the one panel which operates from zero db input level. Peak output: 180 watts. Gain 65 db. Hum level: -70 db. Tubes used are: 6-809s, 2-2A3's, 1-4C5S and 2-83 rectifiers. Input impedance, 509,000 ohms. Output impedances, 500 and 1000 ohms. Panel contains plate current meter and master volume control.

Complete Indoor System
MODEL 988T-Complete System includes Model 299T 5 Channel Rack Amplifier, with all tubes. TWO microphones, 12 ft. mike lead on each (specify choice from list above). 2 floor stands (R11528), 8 heavy-duty P.M speakers (K19228), 8 multi-impedance line transformers (K1565), 8 flare-balls (K1938). Ready for immediate operation, on addition of proper lengths of speaker cable. Code: RA6CI.
Wt. 400 lbs.-YOUR COST $858.20

Complete Outdoor System
MODEL 989T-Complete 125-180 watt System includes Model 299T, with all tubes, TWO microphones each with 12 ft. mike lead (specify choice from list above), 2 floor stands (R13250), 4 Cinadograph SWA horn units (K19397). 4 - SWA Supporting Brackets (K19398), 4 SW trumpets (K20091), 4 multi-impedance High Power line transformers (K5764). Ready for immediate operation, on addition of proper lengths of speaker cable. (See page 56 for prices.) Shpg. wt. 500 lbs. Code: RCDER.
YOUR COST $599.50
price which stamps it as a truly great Lafayette value. Available with or without phonograph mechanism this amplifier will supply higher fidelity reproduction for both indoor and outdoor use and will provide the long-troubles-free operation which those who know Lafayette's reputation have the right to expect.

Standard Universal System
MODEL 269A-Lafayette 20 to 30 watt Standard Universal Amplifier for operation on both 6 volts d.c. and 110 volts 50-60 cycles a.c. Less tubes and cover, but with connector cables and plugs. Shpyg. wt. 45 lbs. Code: SBCD in List Price $41.95

YOUR COST $41.95

MODEL 269T—Same as above, but with all tubes.

No Power Packs Required

Completely Self-Contained

Lafayette is proud to present this latest development of its engineering staff which banishes forever the bother and trouble of external power packs in the use of amplifier for use on both 6 volts d.c. and 110 volts a.c. When you buy the Lafayette Model 269 Amplifier you have a COMPLETE unit which will serve you perfectly on either type of current. For excelling in performance competitive makes of universal amplifiers which do not have this feature, it is offered at a price which stamps it as a truly great Lafayette value. Available with or without phonograph mechanism this amplifier will supply higher fidelity reproduction for both indoor and outdoor use and will provide the long-trouble-free operation which those who know Lafayette's reputation have the right to expect.

NEW UNIVERSAL SINGLE UNIT

20-30 WATT MODEL

PHONE UNIT OPTIONAL

★ New Universal Amplifier Development
★ Lowest Price High Power Universal Amplifier For Mobile P.A.
★ Operates Equally Well On Both Car Battery and 110 V. A.C.
★ Instantly Convertible
★ Ideal For All Types of Mobile P.A.
★ Stand-by Switch—Tone Control
★ Fades-Mixes Mike and Phono
★ New Modern Streamline Design

Especially designed for use on sound trucks, trains, railcars, boats where a high power, high quality ampli

fier operating from a 6-volt, 12 volt battery is required. Since there is no additional external power pack for use on 110 volt a.c. house current it is ideal for political rallies, sports events, fairs, carnivals, etc.,

where it can be instantly converted from outdoor to indoor use. Outputs on both types of current are GUARANTEED to meet specifications listed.

Uses Four "Beam-Power" Tubes
Four modern "Beam-Power" tubes provide the full rated output with the high fidelity now necessary on both voice and music reproduction. Tubes used are: 1-677, 2-6N7s, 4-6VGs and 2-624 rectifiers.

Mixing-Fading Controls
A built-in electronic mixer-timer permits blending of the inputs of both low-gain channels or of one low

gain channel with the high-gain input. Tone control permits adjustment to meet all acoustical conditions met both indoors and out. Extremely necessary in a dual unit such as this.

Modern Streamlined Appearance
Amplifier has slate grey chassis with platinum grey

wrinkle finish cover. Overall size: 16 x 10 x 14" deep.

Technical Specifications
Peak Output—20 watts (Output GUARANTEED on 6 and 110 volts.)
Microphone gain: 130 db
Input Channels: 1 Mike 2 Phono. Phonocell, etc.
Frequency Response: 50—100 cycles
Hum Level Below 20 watts—50 db
Output Imped. 2.4.8.16.50.250 and 500 ohms.

Choice of Microphone
Lafayette offers, at no additional cost, your choice of microphone.
(1) Amperite-Velocity, with switch.
(2) Shure Swivel Crystal.
(3) Shure Spherical Crystal.
(4) Shure Grille No. 8 Crystal.
(5) Shure Diaphogram Crystal.
(6) American Dynamic. Please be sure to specify your choice when ordering.
6 Volt 110 Volt PHONO-AMPLIFIER
MOBILE P.A. SYSTEMS

30 TO 40 WATT SYSTEM
★ 1938's Finest 6 Volt-110 Volt Combination
★ Ideal for Indoor and Outdoor P.A. Use
★ Unexcelled for Political Meetings and Rallies
★ For the Larger Outdoor and Indoor Groups
★ Built-In Phono Motor and Turntable
★ High Fidelity Xtal Pickup
★ Remove Only Turntable to Reach All Tubes
★ All Controls, Switches, Plugs Placed on Top
★ Mixing-Fading Facilities
★ Variable Tone Control
★ Operates Any Type Modern Microphone
★ Completely Enclosed Metal Carrying Case

30-40 Watt Universal Portable System

This completely modern universal portable system has many tremendous advantages for the sound dealer and technician because of its improved circuit design, innumerable improvements and completeness. Complete description of amplifier at right.

Standard 30-40 Watt Amplifier

MODEL 334P - Lafayette 30-40 watt Universal Amplifier with phonotor, 12" turntable, Shure Crystal Pickup, in metal carrying case. Dimensions 18 1/4" x 14 1/4" x 9" high. For 6 volts d.c. and 110.128 volts. 60 cycles o.c. Less tubes. Shkp. wt. 50 lbs. Code. BARCK. List $159.95.

YOUR COST
$101.85

Complete Standard 30-40 Watt System

MODEL 817T - Complete 30-40 watt Standard System includes:
- Model 334T Amplifier and phone unit as listed above, with all tubes, one Shure Military Hand Mike, 12 ft. of mike cable, 2-1/2" heavy duty P-M speakers (X1928), 2 aluminum dome baffles, 2 speaker mounting fixtures (K1929), 10 ft. speaker cable, all connectors and plugs.

$152.75

Two Systems in One

By offering a dual convertible system that performs equally well on both 6 volts d.c. and 110 volts a.c. without the need of external power packs or converters of any kind you get TWO splendid systems for the price of one! No liner unit is available at any price for use in sound trucks, trailers, trains, boats, fairs, sports events, etc. where current is not available and where a high power, high quality amplifier is required. It is the highest power convertible system available.

Speedy Changeover to Either Current

Changeover from 6-volt battery to 110 volts a.c. or vice versa can be accomplished in less than 5 seconds! A simple cable consisting of a plug and two heavy rubber covered leads is furnished for permanent connection to car storage battery. Another cable with ordinary plug for house current connection is provided. Changeover consists of removing one plug and inserting the other. Both amplifier and phonograph are instantly converted and ready for immediate operation. They are of untold value for political rallies, etc. which start outdoors and continue indoors.

Plug-In Type Connections-Mixer-Fader Controls

Microphone jack provided for connection to amplifier. Input of mike and phonograph can be mixed to any desired degree through use of built-in electronic mixer-fader controls. Variable tone control permits compensation for any acoustic condition likely to arise. Tubes used 617, 2-677A, 6E6, 4-79s and an 83.

Technical Specifications

Peak Output-40 Watts
Rated Output-30 Watts
Microphone gain 130 db
Phono Gain: 87 db
2 Input Channels
1 Microphone
1 Phono, etc.
Frequency Response: 50-10,000 c.p.s.
Hum level below 30 watts-58 db
Output Impedance: 2, 4, 8, 16, 50 250 and 500 ohms

FROM CAR TO AUDITORIU
MODERN INEXPENSIVE

**DUAL SPEAKER**

2 Auditorium Speakers

New powerful auditorium type electro-dynamic speakers are housed in each half section of the carrying case which serve as baffles. 25 ft. of cable is furnished with each speaker which may be plugged into each other to permit the sound speaker to be placed 50 ft. from the amplifier proper, permitting for more coverage than obtainable with the average portable P.A. system.

"Beam-Power" Tubes

Two of the modern "Beam-Power" tubes in the output stage provide ample volume for the many uses this system is used for, with high fidelity on mike, phone for other sound sources. Tubes used include: 1-617, 1-6N7, 2-6V6G beam power tubes and a 5V4G rectifier.

Mixer-Fader Controls

Fading from one low gain channel to the other as well as mixing either low-gain channel with the high gain channel is provided for through the built-in electronic mixer-fader control. Wide-range variations of this control help to select the many acoustical conditions encountered in various locations.

**Handsome Carrying Case**

Carrying case is covered with Spanish Brown leatherette with contrasting dark brown stripes in airplane-luggage style. Outside dimensions are 17 inches high, 12% inches wide and 10 inches deep. Sturdy handle, nickel-plated hardware.

MODEL 212P—12 to 15 watt. Portable system, less tubes and mike. Sizes: (17 x 12")/x10" deep. Shpg. wt. 62 lbs.

Code, REFG. List Price $46.50

Your Cost...YOUR COST.

**Portable System**

MODEL 300P—Lafayette 5 to 8 watt Portable system with model 230-A Amplifier, less tubes and microphone. Shpg. wt. 42 lbs. Code, RBCH.

List Price $36.80—Your Cost...$18.40

MODEL 849-T—Same as above, but with tubes and one microphone (select between from list above): banquet stand (K13526), 12 ft. of mike cable, 25 ft. of speaker cable, plugs and operating instructions. Wt. 55 lbs. Code, RACK.

List Price $35.50—Your Cost...$35.50

K21929—Carrying Case only...$3.60

**Choice of Mike**

Choice of mike

In portable use many different acoustical variations are encountered. To offset this a fully variable tone control is provided which permits adjustment for full acoustical compensation.

Variable Tone Control

In portable use many different acoustical variations are encountered. To offset this a fully variable tone control is provided which permits adjustment for full acoustical compensation.

Four Modern Tubes

Complete technical specifications for the amplifier will be found on page 28. Amplifiers for both type mike use the following modern tubes: 2-6J7, 1-6N6G and a 5V4G rectifier.

Standard Mike Model

Identical in every respect with Carbon Mike model, but only for use with high gain mikes listed above.

5 to 8 WATT

No more useful and efficient portable system for window demonstrations, salesmen, lecturers, demonstrators, small orchestras, etc. than this compact 5 to 8 watt Lafayette system is available on the market today. Now offered at new low prices in two models, special carbon mike model and the standard mike model, it is certain to find a warm welcome wherever real value is recognized.

Carbon Mike Model

Incorporating Lafayette Amplifier Model 231-T this system has additional input facilities, with built-in current supply for use with a modern double-button carbon microphone. This model is especially designed for voice reproduction, but will also serve amply for small orchestras and sound effects. No changes are necessary if a high-gain mike is to be added at a later date.

Variable Tone Control

In portable use many different acoustical variations are encountered. To offset this a fully variable tone control is provided which permits adjustment for full acoustical compensation.

Four Modern Tubes

Complete technical specifications for the amplifier will be found on page 28. Amplifiers for both type mike use the following modern tubes: 2-6J7, 1-6N6G and a 5V4G rectifier.

Standard Mike Model

Identical in every respect with Carbon Mike model, but only for use with high-gain mikes listed above.

12 to 15 WATT

High Power—Low Cost

Compact—Modern

2 Auditorium Speakers

Choice of Microphone

An excellent, powerful, single case portable Lafayette 12 to 15 watt system that combines every feature required for the average orchestra, lecturers, electrophone, sales meetings, carnivals, midways, ballrooms, demonstration, etc., with no loss in efficiency, it is encased in a handsome Spanish Brown leatherette covered airplane-luggage styled carrying case with two auditorium speakers built into each half section. All necessary plugs and cables are furnished. The system is ready for instant operation as sold.

The amplifier is the Lafayette Model 250-T—fully described on page 29 where technical specifications and other details will be found.

20-30 WATT A.C.-D.C. MODEL
PERFECT PERFORMANCE ON EITHER TYPE OF CURRENT

With this perfected A.C.-D.C. 20-30 watt Portable Lafayette offers the solution to the problem frequently met by traveling orchestras, lecturers, demonstrators, carnivals, political rallies, etc., namely, how to use their P.A. systems without some external conversion unit for D.C. operation. Our engineers have countered with one of the greatest of their engineering feats and we feel certain that this A.C.-D.C. model will rival its A.C. counterpart (listed and described above) in popularity and usefulness.

Operates From Any 115 Volt A.C. or D.C. Outlet
Supplying the same high-power, high-quality reproduction from both types of current, absolutely no external change is necessary when changing from one to the other. Hum-free, dependable and completely foolproof in operation. Has three inputs, one for microphone, two for phone pick-up, photocell, electrical musical instrument or other sound source. Maximum gain on mike 128 db., maximum gain on phone, etc., 80 db. For complete technical specification on the amplifier see page 31. Complete mixing and fading control facilities are provided as well as full range variable tone control.

A.C. & A.C.-D.C. Models Illustrated Above
The illustrations on this page are of both the 25-35 watt A.C. portable system and the 20-30 watt A.C.-D.C. portable system. Both are identical in size and external and internal appearance. Illustration A shows the carrying case in closed position. 17 inches high, 17½ inches wide and 9 inches deep. It is covered in handsewn, long-wearing Tan Fabric with contrasting Brown stripes in the modern airplane-luggage style. Sturdy carrying handle and brass fittings throughout. Illustration B shows the amplifier alone, removed from the case. Illustration C shows speakers in case with electronic rear-panel limiters mounted above and left. Illustration D shows amplifier slightly removed from carrying case section.
WATT SYSTEM
SMART AIRPLANE CASE
Also Available With Remotrol

Power, portability and practicality are the words most descriptive of this high quality, compact 30 watt portable system. Encased in sturdy airplane luggage the amplifier is identical with that described on page 32, model 229-11. Auditorium type speakers, built into halves of the lightweight, strong carrying case will amply cover large audiences, banquet halls, auditoriums, dance halls, political gatherings, carnivals, side-shows, etc. Especially excellent for traveling orchestras, this model is also available with "Remotrol" that amazing new Lafayette remote control device for tending and monitoring (fully described on page 32).

Four Input Channels
Inputs for two high-gain and two low-gain sound sources permits the use of two modern mikes as well as of any phonograph, photo-cell, electric instrument or similar sound source. Built-In mixer permits mixing of both high-gain, both low-gain or one high and one low gain input.

Two 12-Inch Electro Dynamic Speakers
Housed in each half section of the carrying case is a powerful 12-inch concert type speaker. Case serves as baffle for each speaker. 50 feet of cable is supplied with each speaker which permits extremely wide audience coverage. Amplifier unit slips in or out of case for greater convenience.

Choice of Any Type Mike—Neo-Dial Controls
System supplied with your choice of microphone (please see page 32 for choice offered in this system) and will work equally well with phonograph pickup. Carrying case is 18" wide, 19½" high and 11½ deep. Operation and adjustment of amplifier in darkened locations is greatly facilitated through the use of the exclusive Lafayette "Neo-Dials".

Remotrol System
Particularly valuable for orchestra leaders, stage and production directors, lecturers, auditors, etc., the new Lafayette Remotrol box is easily built into the carrying case and monitoring from point of reception. Lafayette MODEL 330-P—30 watt Portable System, less tubes, microphone and input stand. Shpg. wt. 75 lbs.

Code. SJKXL. List Price $115.50.

YOUR COST $56.75

YOUR COST $9.45

Trans-Portable AUDITORIUM SYSTEM
70 WATT SYSTEM
"TRANS-PORTABLE"

This, the largest "trans-Portable" auditorium sound system, is designed to be completely demountable for easy movement from installation to installation. No tools necessary for individual assembly. Everything in three readily moveable, sturdily built and smoothly covered, airplane-luggage carrying cases. Customer demand has moved us to place this in our regular line of P.A. systems. In many orchestra leaders, traveling shows, churches, temperance and political organisations, carnivals, circuses, traveling fairs and the like have had this system custom-built that we have placed it in production and can now offer it at a lower price.

Four Heavy-Duty Auditorium Speakers
To afford the greatest possible coverage four heavy duty Cimaudograph type FB-12-11 PM speakers are used. Requiring no field current these speakers afford high fidelity reproduction. They are inserted in half sections of each of the speaker carrying cases and have the newest type inclined input terminal plate and elbow type catch for releasing the baffle for access to microphone and cable which is stored there during transportation.

Automatic Volume Control—Automatic Volume Expansion
With automatic volume control speakers or performers may move freely at the moment without affecting volume level which remains constant at all times. Automatic volume expansion compensates for compression of sound in reception and film sound-in-tubes, affords a high fidelity quality.

"Beam-Power" Tubes—Cathode Ray "Eye"
14 tubes are used in the 5-stage circuit of this amplifier, fully described on page 34. The output stage uses 4 modern "Beam-power" tubes to supply the great volume and excellent tone quality. Cathode-Ray "Eye" output indicator aids in adjusting volume level and acts as a check on the output.
One case. measuring 19" x 15" x 13½", contains the amplifier only; the other two cases, each measuring 18½" x 15" x 13", contain four 12" p.m. speakers, two microphones, two mike stands and all speaker and mike cables.

The speaker cases especially merit further description. Speaker units are mounted in inclined baffles, and clever elbow type catches release the baffle boards, permitting instant access to the compartment in which cables and microphones are contained. Each half of each speaker can be mounted on a wall in such manner as to provide excellent angular reflection sound can be reflected towards ceiling or floor, as desired.

The amplifier case has the amplifier mounted on the base; when top is removed, all controls are easily accessible. Exclusive Neodymium permit efficient operation in darkened locations.

New Inclined Infinite Baffle Speaker Case
Two 12-inch heavy duty speakers are mounted in a separate case, one speaker in each half section. Each speaker has 50 ft. of rubber covered cable and shielded plug. These speakers add to the versatility of this line system, being mountable in any position, or edge, on their sides, or may be hung conveniently thus permitting maximum coverage on any type of P.A. installation.

All Cables, Microphone and Mike Stand In Speaker Case
A clever elbow-type catch releases the speaker baffle and its attached speaker for easy access to speaker cables, microphone and mike stand which readily fit into the speaker case. Floor stand is a 3-section "Take-Down" which can be varied in height from 17 to 66 inches for every type use.

Individual Bass and Treble Control
This high quality amplifier is equipped with individual bass and treble control to adjust high and low frequency response without affecting the middle register. This excellent feature permits compensation for acoustical differences in various locations and assures higher fidelity reproduction at all times. Four inputs are provided, two high-gain and two low-gain channels which may be blended at will by means of the built-in electronic mixer and fader control.

Complete "Co-ordinated" Portable System
As with all Lafayette systems every component is matched for optimum results. System is complete, ready for operation. No extras to buy. Choice of microphone, from microphone listing on page 33. Amplifier and speaker cases covered in New Spanish Brown leatherette, with contrasting dark brown stripping. Amplifier case size: 16½" x 12 x 15½". Speaker case: 18½" x 15 x 13½".

MODEL 340-P-40 Watt Portable System, less tubes, microphone and floor stand.

MODEL 842-T-Same as above, but complete with tubes, microphone (Specify your choice from listing on page 33). 3-section "Take-Down" floor stand.
Shpg. wt. 130 lbs. Code. RABC.
A NEW LINE OF

WORLD’S FINEST PORTABLE
★ EVERYTHING In Two Cases
★ Performance Second To None
★ Incorporates Every Modern
Public-Address Advancement
★ Ultra-Modern Appearance
★ 2 High Fidelity Speakers
★ Walnut From Infinite Baffles
★ Automatic Volume and Ex-
pansion Control
★ 30 To 40 Watts Output
★ Cathode-Ray "Eye" — "Neo-
Dials" — "Beam Power" Tubes
★ Dual Tone Controls

No Other System Has All These Features
No finer studio model portable system has ever been offered than this Lafayette Model 327-T. Absolutely the last word in engineering advancement, appearance and quality. Supplying 30-40 watts of the highest quality reproduction, the entire system is contained in two Light Brown checked leatherette cases, with Dark Brown striping and solid brass hardware. All cab-ees, microphone and mike stand fit into the amplifier case.

The speaker case contains two high fidelity 12" speakers having new improved infinite type baffles, with walnut fronts. These may be mounted in any position for maximum sound dispersion. Among the many advanced features are:

Automatic Volume Control which keeps volume level constant as speaker or artist varies distance from the microphone.
Reverse Feedback Circuit permitting distortionless high outputs.
Automatic Equalization to compensate for acoustical deficiencies and provide maximum high fidelity on phone pick-up.
Master Volume Control and Two Individual Tone Controls.
Cathode-Ray "Eye" Visual Output Indicator—Plate Current.
Meter—"Neo Dial" Luminous Controls. Tubes used are 1-6L7, 2-497s, 3-6Q7s, 1-6H8, 1-6G5, 2-6L6G "Beam-Power" tubes, and 1-8S.

Complete Studio Model Portable System
MODEL 325-T—Lafayette Studio Model Portable 30 to 40 Watt System, complete with all tubes. Amplifier case size 19"x20"x11½" deep. Speaker case size: 21½"x18"x12½" deep. Complete with choice of microphone (specify from list on page 43), 3 Section Mike Stand (K13646), 12 ft. of mike cable, 100 ft. of speaker cable. READY TO OPERATE. Shpg. wt. 140 lbs. REVOLUTIONARY Third Dimensional SOUND

Only LAFAYETTE Offers DeLuxe Sound Equipment

Lafayette now makes available for general use "Third-Dimensional" Sound Reproduction. This newest and finest P.A. development, which has been in successful use in the world's finest theatre, the Radio City Music Hall, affords a realism of tonal quality and an illusion of sound emanating from the position of the source which is startling in its approximation to its actual living artist. For theatres, concert halls, modern night clubs, audition studios and other installations where high power and supreme quality are of utmost importance, The "Binaural" system is available in three sizes for every need. For medium sized installations use 35-35 watt model 380T (total output 50-70 watts); larger installations require 30-40 watt model 382T (total output 60-80 watts); largest installations require model 384T (total output 90-110 watts).

Lafayette's "Binaural" systems actually comprise TWO complete sound systems, with both amplifiers housed in a single metal cabinet finished in attractive platinum grey, with chromium and red enamel center stripe giving fine unity of design. Pictorial diagram illustrated shows the general design, with each microphone feeding to its own amplifier. Speakers supplied by each amplifier are to be placed in corresponding position to its microphone. Since all "Binaural" systems are dual systems, actual output is doubled, thus permitting volume of a tremendous order with higher fidelity reproduction. The term "High Fidelity", when used in conjunction with any type amplifier other than "Binaural" amplifiers, refers solely to frequency response and distortion level. In "Binaural" amplifiers, the term "High Fidelity" includes sound dimension.

www.americanradiohistory.com
STUDIO-TYPE Sound Equipment

New All Metal Console Unit
★ Converts Standard Lafayette Amplifiers Into Studio Models
★ Ideal For Audition Studios, Theatres, Nite Clubs, Professional Use
★ First Studio Unit At Regular Prices
★ Complete Monitoring Facilities
★ Stand-By and "Cue" Switches
★ Modern Inclined Control Panel
★ Adds The Modern Touch to Sound
★ Attractive Platinum Grey Finish

Lafayette now offers a means of improving the appearance of standard amplifiers to harmonize with the most de luxe installation. Especially designed to house several of its most popular amplifier units, this new, all metal console not only adds the final touch of modernity but, in addition, provides complete monitoring facilities through the use of an extra, built-in, 5" P.M. speaker located on the inclined control panel. Entire unit finished in beautiful platinum grey, with polished aluminum trimmings throughout.

Choice of Mikes
Lafayette offers, at no additional cost, your choice of any microphone illustrated above, with the complete systems on both these pages. Types are: 1) Amplifier, Velocity, with switch. 2) Shure Swivel Crystal. 3) Shure Spherical Crystal. 4) Shure Grille Crystal. 5) Shure Diaphragm Crystal. 6) American Dynamic.

MODEL 261-T—Consist of Lafayette Model 261-T 25-35 Watt Amplifiers, complete with all tubes, less screen cover, mounted in Model 268-T Console Type Cabinet, with built-in 5-inch P.M. monitor speaker, volume control, and "Cue" switch, completely wired, ready to operate. 209x11x13". Shpg. wt. 60 lbs. Code, SEFG1. List $215.40. YOUR COST $57.74

MODEL 266-T—Consist of Lafayette Model 266-T 29-35 Watt Amplifiers, complete with all tubes, less screen cover, mounted in Model 399-P Console Type Cabinet, with built-in 5-inch P.M. monitor speaker, monitor volume control, and "Cue" switch, completely wired, ready to operate. 209x13x13". Shpg. wt. 60 lbs. Code, SEFG1. List $215.40. YOUR COST $31.80

MODEL 268-T—Lafayette "Binaural" Co-Ordinated Sound System consisting of TWO Model 268-T 29-35 Watt Amplifiers complete with all tubes in special "Binaural Rock Cabinet". Shpg. wt. 310 lbs. Code, REFG1. List $258.00. YOUR COST $129.00

MODEL 382-T—Lafayette "Binaural" Co-Ordinated Sound System consisting of TWO Model 283-T 40-55 Watt Amplifiers complete with tubes. In special "Binaural Rock Cabinet". Shpg. wt. 192 lbs. Code, RIFKL. List Price $258.00. YOUR COST $102.60

MODEL 384-P—Same as above, but less amplifier and tubes, with instructions for mounting Lafayette Amplifier Models 101, 121, 134, 253, 261, 271. Wt. 30 lbs. Code, SEFG1. List $99.00. YOUR COST $31.80

These new Lafayette "Binaural" systems have all components scientifically switched for optimum results throughout. It is only through such careful engineering and precision reproduction for which Lafayette equipment has earned its enviable reputation is attested. They are simple to install and operate. Models 261-T, 268-T have "New-Dial" controls for operation in darkened locations. Binaural platinum grey cabinet measures 21x19x13".

Complete monitoring control for amplifiers in use in theatres, night clubs, audition studios and other locations requiring professional type control is provided by this new Lafayette console unit. Equipped with a 5-inch P.M. monitoring speaker mounted on the inclined control panel, with separate volume control it permits perfect control over system from the operating position.

Stand-By "Cue" Switches
A dummy speaker load is thrown on when the "On-off" "Cue" switch is used. This permits hearing the program through the monitor speaker only, or through the monitor speaker with the rest of the speakers. Particularly valuable for theatrical performances with operator in full control at all times.

ACCESSORIES TO COMPLETE SYSTEMS
Consist of the following: TWO microphones (specify your choice from list above). TWO De Luxe Floor Stands (K13928). FOUR heavy duty 12" Concert speakers (K19237). FOUR Flare Baffles (K19836), 24 ft. of speaker cable. 200 ft. of speaker cable all necessary plugs and connectors. Shpg. wt., all units listed, 120 lbs. Code, REFG1. MODEL 873-P—YOUR COST $82.30

NOW AVAILABLE IN THESE "Binaural" UNITS
**NEW! Professional Amplifying Equipment**

**"ADD-A-UNIT" WIDE RANGE PRE-AMPLIFIERS**

- **Available With Low or High Impedance Input**
- Especially designed for studio applications, these new high-fidelity pre-ampifiers are capable of superb-line performance. Available in both FIXED-IMPEDANCE and HIGH IMPEDANCE models. Both types use a 617 in a circuit affording a gain of 35 db. Low impedance pre-ampiller incorporates a newly designed triple magnet shielded input transformer and a high-fidelity input coupling network. This transformer is used to insure minimum hum pickup. The high imp. model uses no transformer, and feeds directly into a grid. Minimum input level, both models: -45 db. max. output 50 volts; input impedances: low imp. model, 50, 125, 250, 500, 500 ohms balanced line; high gain model: 5 megohms. Response, low gain model = 1 db from 30 to 10,000 c.p.s.; high imp. model = 1/2 db from 30 to 15,000 c.p.s. Power requirements, either model, 6 volts a.c. or d.c. at .3 amps., and 180-350 volts at 3 ma. Chassis mounts on four rubber cushions and is 3/4x4 1/4". Amphenol locking type shielded connector plug supplied.

**MODEL 147L-Low Impedance Model, with tube List $37.00. Shpg. wt. 10 lbs. YOUR COST $18.50**

**MODEL 148TH-High Impedance Model, with tube List $75.00. Shpg. wt. 10 lbs. YOUR COST $37.50**

**BACK PANEL AND CHASSIS:** Accommodates up to 3 pre-ampifiers. Has chassis with shielded plug for input connections. Panel 3 5/16", with chassis 3x4 3/8". Panel is removable (two knurled screws), exposing all wiring. Shpg. wt. 5 lbs.

**MODEL 147F-List $19.50. YOUR COST $9.75**

**NEW FULL RANGE EQUALIZER**

- **Star Complete Equalization of Low and High Frequencies**
- **New Coil Design Eliminates Hum Pick-Up**

An efficiently engineered combined low and high frequency equalizer that is extremely easy to adjust. The unit is so constructed that one half the panel contains the low frequency equalizer and the other contains the high frequency end. Each range has its individual tap switch frequency selector and a smooth operating control. Low frequency selector has taps at 25, 50 and 100 cycles; high frequency selector has taps at 4000, 6000, 8000 and 10,000 cycles. The amount of equalization controls are smooth and Milseded in operation, and the unit complete control over low or high frequencies. Each range incorporates specially designed filter coils that are triple magnet shielded, insuring minimum hum pickup, and 500 ohms output impedances 500 ohms. Minimum insertion loss 2 db, maximum insertion loss 20 db. Full scale response 10-20,000 cycles. With tap switch at either 25, 50 or 100 cycles is 28 db; max. equalization with top switch at either 4000, 6000, 8000 or 10,000 cycles is 25 db. Panel is beautifully finished in light grey, with black finger grip control knobs and contrasting stripes to match other units. Panel size 3x4 1/4", chassis is 3x4 19x9/16". With connecting plug. Shpg. wt. 25 lbs.

**MODEL 188F-List $170.00. YOUR COST $85.00**

**MONITOR PANEL WITH DECIBEL METER**

- **Star Variable Control Range Up to +45 db.**
- **New Action Highly Accurate Decibel Meter**

A newly designed high quality meter that provides complete visual control of the output. Incorporates a new type 2" bakelite cased decibel meter that has a high return dump, yet needles travels across the scale with medium speed. With this instrument, more accurate peak values can be read. Input to monitor designed for 500 ohm line. Meter is calibrated from -10 to +6 db, and the nine-position tap switch, controlled from the panel permitting any gain from 3 to 96 db. With tap switch at 45 db, +4 to +21 db, or .02 to .75 watts maximum reading (position 9) from +4 to +45 db, or 4.7 to 190 watts. Switch is calibrated in 3 positions, plus 10 db on one side, & 10 db on the other side. Two connections (shielded plugs furnished), for input and external output devices. Panel is beautifully finished in grey and is 3x4 1/4". Chassis is 3x4 19x9/16". Shpg. wt. 5 lbs.

**MODEL 146F-List $83.50. YOUR COST $41.95**

**NEW 5-CHANNEL HIGH FIDELITY MIXER**

- **The Finest Mixer Obtainable Anywhere**
- **A New Development in Electronic Mixers**

A specially designed high quality unit that affords a greater db attenuation range with absolute precision of output levels of any kind. For superior to "T" or "H" pad mixers. The mixer has a wide range of input impedances, permitting its use with virtually any one of the current line of clocking crystal mixes, electronic musical instruments, transcription pick-ups, etc. and a special network in the output circuit eliminates any volume range compression or linear distortion. The five channels each have input impedances of 500,000 ohms and output impedances of 50, 125, 250, 333 and 500 ohms balanced line. The balanced line output will operate directly into a link for Nemo (remote control) applications. Maximum output level: 0 db max. input 100 volts, none 37 db each channel, frequency response ± 8 db from 40 to 10,000 c.p.s., tubes used, 6-671's, voltage requirements, 6 volts at 1.8 amps, and 180-350 volts at 15 ma. Rack panel is beautifully finished in light grey, with decorative stripings to match other units. Separate control for each channel. Output transformer especially designed for low hum pickup since it also forms a part of the succeeding amplifier input circuit. Shielded plugs supplied for input connections for each channel, and a plug for output connections is also furnished. Panel is 3x4 19x9/16". Chassis measurements 3x4 19x9/16".

**MODEL 1827-5-Channel Mixer, With tube List $71.40. Shpg. wt. 20 lbs. YOUR COST $35.70**

**10-WATT HIGH FIDELITY POWER STAGE**

A special wide range power amplifier designed primarily for studio recording purposes. Where separate monitoring is desired, two amplifiers can be used to provide excellent results. Concept design of this unit has resulted in extremely low harmonic content and hum pick-up. Special triad magnetic shielded transformers are incorporated in this amplifier. Power output is 10 watts normal. 15 watts peak; harmonic content at 10 watts is only 2.5%. Hum level is -31 db from zero level, -63 db from 10 watts. Output impedances: 1.2, 2.5, 7.5, 15, 30, 50, 125, 200, 250, 333 and 500 ohms for all voice coils and lines. Input impedances: 50, 125, 250, 333 and 500 ohms balanced line. Most standard amplifiers use a 617, 6C5 and 2A3As low impedance triodes for non-critical matching. Controls provided include a main volume control for recording and a fixed low frequency attenuation is placed in the circuit to prevent overcutting. Five shielded plugs are furnished for output connections: one for power supply input, one for output to cutting head, one for output to auditorium speaker, one for output to monitor speaker and one for output to monitor panel. Panel size 3x4 1/4". Chassis is 3x4 19x9/16". Shpg. wt 32 lbs.

**MODEL 1917-9-Tube, with tube List $111.40. YOUR COST $55.70**

**DELUXE "HUM-FREE" POWER SUPPLY**

- **Provides Plate and Filament Power for All Units**
- **Oversized Filters Insure Low Ripple**

Designed to supply all necessary power for the units listed on this page. Incorporates a special power transformer housed in a cast iron shielded case, a three section or three pi filter choke circuit and a total of 72 mfd. of capacitors. Resultant output has amazingly low ripple content. Plate circuits: 110-125 volts, 50-60 cycles a.c. Output: 360 volts d.c. at 160 ma. maximum 4 volts at 4 amperes and 6 volts at 6 amperes. A 5X4G rectifier is used. Unit will supply all plates, the monitor panel, power amplifier, four pre- amplifier panels (12 individual pre-ampifiers) and two mixer panels (10 channels). OR to three 20-watt mixer panels (20 input channels) and two pre-amplifier panels (6 individual pre-ampifiers). Pilot Light, "on-off" switch and line fuse furnished. Panel size 3x4 1/4". Chassis is 3x4 19x9/16". Shpg. wt. 25 lbs. Complete with 5X4G tube.

**MODEL 1917-List $46.50. YOUR COST $28.25**
AMPLIFYING EQUIPMENT IN ITS FINEST FORM!

★ Complete Facilities for Any Sound Requirement
★ Professional In Design, Operation, Appearance
★ Beautifully Designed in Gray Duo-Tone With Red Trim
★ All Units Harmonize in Any Arrangement
★ All Units Completely Shielded Front and Rear
★ All Inter-Unit Wiring by Means of Patch Cords
★ All Operating Controls On Panel Faces
★ Extremely Compact—No Waste Space—No Cramping
★ Highest Fidelity Transformers Used Throughout
★ Pre-Amplifiers Cushion Mounted—Non-Microphonic
★ Any Number of Pre-Amplifier and Mixer Panels Can Be Ganged Where Many Miles Are Required
★ Equalization Facilities for All Frequency Corrections

LADETTIE engineers have spared neither time nor expense in making these professional amplifying devices the finest that could possibly be constructed. Each component was selected with special care, and every modern circuit development was utilized. Every input transformer was constructed with a newly designed triple magnetic shielded coil to insure minimum hum pick-up. Over Assad Filters. Three pi choke filter circuits, scientific placement of components on chassis, are but a few of the reasons for the superiority of this equipment.

The systems listed below utilize the units fully described and illustrated on page 44. Only a few popular applications are shown; if you require a system for any special application, Lafayette engineers will be glad to offer their services in a consultant capacity. Make your problems their problems.

MODEL 345T DeLuxe Assembly
A complete assembly designed to meet all requirements for the finest studio recording and broadcasting work. Comprised of: one model 195-T power supply, one model 195-T pre-amp panel, one model 191-T power stage, one model 188-P equalizer panel, one model 182-T 5-channel mixer panel, one model 187-P pre-amplifier mounting panel with three model 168-TH high impedance pre-amplifiers. Complete with all tubes, specially selected and tested in the system. All units are interconnected, ready for operation. Rock cabinet has one blank panel (not shown); one additional pre-amp of mixer panel can be added. Overall sizes: 28" high, 21" wide, 13½" deep. Wt. 273 lbs. Code: RABCF.
FOR 110-125 volts, 50/60 cycles a.c. YOUR COST, COMPLETE...
$309.50

MODEL 346T Standard Assembly
Similar to the above system, but does not include the equalizer panel. Especially designed for use where acoustic defects, differences in cutting heads, etc., need not be corrected. Comprised of: one Model 195-T power supply, one Model 195-T pre-amp panel, one Model 191-T power stage, one Model 182-T mixer panel, one Model 187-P pre-amplifier mounting panel with three Model 168-TH high impedance pre-amplifiers. Complete with a few specially selected and tested tubes, ready for operation. Size: 28½" high, 21½" wide, 13½" deep. Code: RDEFX. FOR 110-125 volts, 50/60 cycles a.c. YOUR COST...
$224.50

MODEL 347T "Broadcast" Assembly
Designed for use where a number of sound sources must be picked up in complete facilities for mixing and feeding. Ideal for broadcast studios, for deluxe theatre installations, for "sound effects" work, etc. Comprised of: one Model 195-T power supply, two model 182-T mixer panels, two Model 187-P pre-amplifiers, three Model 168-TH high impedance pre-amplifiers. Ten channels are provided, six high gain channels (through pre-amps) and four low gain channels. Special wide cut, close talking tubes, transcription pick-ups, etc. Complete with specially selected and tested tubes, ready to operate. Rock furnished with two blank panels that can be used for additional pre-amp or mixer panels. Overall sizes: 28½" high, 21½" wide, 13½" deep. OR 110-125 volts, 50/60 cycles a.c. Shipped wt. 210 lbs. Code: REFGL. LIST $369.00. YOUR COST, COMPLETE...
$194.50

NOTE: All systems are regularly furnished with high impedance input pre-amplifiers. If low impedance input pre-amplifiers are desired (for low imp. mikes, lines, etc.), add $11.00 for each low impedance pre-amplifier ordered.

AMERICAN RADIO HISTORY
Complete Line of Faccsimili-Tone Theatre Sound Systems

Lafayette's entry into the field of theatre sound systems with the sensational "Faccsimili-Tone" Sound Systems revolutionized the industry by offering highest quality wide-range theatre equipment at typical Lafayette low prices. Never before have theatre owners been offered the opportunity of purchasing such precision built apparatus, using Bausch and Lomb lenses, Jensen speakers and other nationally famous products at such price levels. Hundreds have been installed in theatres throughout the country with eminently satisfactory results. A booklet describing in detail the various models of "Faccsimili-Tone" Sound Systems has been prepared. In addition to the systems a complete Line of Wide-Range Sound Heads, Sound Screens, Lens Systems, Photo Electric Cells, Exciter Lamps, Rectifier Bulbs, Hearing Aids, Speakers, Cables and other theatre sound system accessories are listed. A copy of this valuable booklet will be forwarded upon request to any W.R.S. Co. branch.
NEW "Simplified" INTER-COMMunicators

★ Modern Compact Design
★ Takes No More Space Than An Ordinary Desk Clock
★ Walnut Cabinet Blends With Other Furnishings

Complete Operating Facilities. Any Remote Station Can Call Master Station
Remote Can Have Privacy or Turn Complete Control Over to Master Station

This new Lafayette Inter-Communicating System features economical operation, simplified installation and a wide range of operating facilities. It affords the most efficient and speedy method of holding direct two-way amplified communication between two persons or departments. The system works equally well on 110 volts a.c. or d.c. and can be installed easily and quickly by anyone—no mechanical or electrical ability is necessary. Merely connect the cables, plug into the nearest light socket, and the system is ready to operate. A system can be made up of one master station and one remote station, and additional remote stations can be added at any later date. Up to 5 remote stations can be used.

Ample Volume For Distant Pick-Up

The master station includes a high power amplifier that makes use of the latest type "beam power" tube to insure ample power. Remote stations can be placed at any distance from the master station without affecting volume or tone quality. Tubes used in the circuit include: 6CG7 cascode amplifier, 12Sl6 "beam power" output tube and 12SL6 rectifier. Excellent filtering insures hum-free reproduction. External electrical devices will not cause noise in the reproducers.

Handsome Walnut Cabinets

Master and remote stations are housed in attractive walnut cabinets that will go well with any furnishing. Extremely compact, measuring only 7 3/4 x 7", they can be placed on any desk most conveniently.

Lafayette engineers designed this new MultiMaster system to meet every requirement for efficient two-way communication. Each individual station is a complete unit, embodying its own "beam power" tube and all controls. Any number up to seven can be grouped to form a complete office network. Executives and department heads will find it invaluable because it prevents clogging of telephone lines, permits private conversations and saves much time.

Push-Button Selection

Each unit has on its front panel a row of six buttons that select any one of the remote stations. Each button has a space above it on which the name of the remote station is printed. The station Individual may be marked in ink markings can be washed off and changed at any time.

Complete Operating Facilities

Three controls, all plainly marked, govern all operations (except station that you insert). These controls include: "on-off" switch, volume control and push-to-talk switch.

High Power, Excellent Tone

Each station incorporates a power amplifier using one 6CG7 cascode amplifier. 12SL6 "beam power" tube that insures ample volume with minimum distortion. 12SL6 rectifier and 1L-990 ballast. High quality permanent magnet reproducers provide excellent reproduction with natural, clear tone quality.

In any system, two stations can converse privately, without interference. It is impossible to be overheard.

Stations are housed in beautiful plastic cases in Ebony and Ivory blend. Size: 8 3/4 x 5 1/2 x 3/4.

MODEL 396-T—Multiple Master Station, complete with tubes and instructions. Less cables. For 110 volts a.c. or d.c. Shpg. wt. 12 lbs.

YOUR COST..............$19.95

MODEL 394-P—Remote Station only. Up to 5 can be used. Shpg. wt. 4 lbs.

YOUR COST.............$4.95

Special 3-wire cable for above.

K0894

YOUR COST, per 100 feet.....$2.15

Easy To Operate

The master station incorporates three controls: a selector switch, a combined volume control and "on-off" switch, and a "push-to-talk" switch. Master station can talk to any remote station by depressing the talk switch when released, the talk switch automatically returns to the listen position.

The remote station has one control, a three position switch. In position one, the remote can receive calls from the master station and can answer the master when any other adjustments. In position two (normal), the remote station can receive calls from the master, but neither master nor any other remote can listen. In position three, the remote station can answer the master or call the master. Thus, by keeping the switch in position two, the remote station can maintain complete privacy.

Easy To Install

Each remote station is connected to the master station by means of a three wire cable. Terminals on the rear of each unit make it unnecessary to disassemble the units to complete wiring. Complete instructions are furnished.

MODEL 395-T—Consists of one Master Station complete with tubes, one remote control station and full instructions. Less cables. For 110 volts a.c. or d.c. Shpg. wt. 12 lbs.

YOUR COST..............$19.95

MODEL 394-P—Remote Station only. Up to 5 can be used. Shpg. wt. 4 lbs.

YOUR COST.............$4.95

Special 3-wire cable for above.

K0894

YOUR COST, per 100 feet.....$2.15

STREAMLINED

Multiple Master

MODEL

★ First System Using Push-Button Selection
★ First System Employing Independent Units That Can Be Grouped In Any Arrangement
★ First Multiple Master System With Station To Station Wiring. No Junction Boxes Necessary
★ Up To 3 Private Conversations at One Time
★ Housed In Beautiful Ivory and Black Plastic Case
★ Any Numer Of Stations Up To Seven Can Be Used
★ More Than Ample Volume, Excellent Tone Quality
★ Economical Operation and Installation

High Power, Excellent Tone

Each station incorporates a power amplifier using one 6CG7 cascode amplifier. 12SL6 "beam power" tube that insures ample volume with minimum distortion, 12SL6 rectifier and 1L-990 ballast. High quality permanent magnet reproducers provide excellent reproduction with natural, clear tone quality.

In any system, two stations can converse privately, without interference. It is impossible to be overheard.

Stations are housed in beautiful plastic cases in Ebony and Ivory blend. Size: 8 3/4 x 5 1/2 x 3/4.

MODEL 396-T—Multiple Master Station, complete with tubes and instructions. Up to 7 can be used. Wt. 15 lbs.

YOUR COST EACH..........$21.00

Connecting Cables

Use 3-wire cable for 2-station systems, 4-wire cable for 3-station systems, etc.

Lafayette Single Speed Portable Electric Record Player

An efficient, low-cost record player that uses a newly designed high-torque heavy-duty synchronous motor. The head start type. Pick-up is a high fidelity Piezo crystal unit capable of excellent reproduction. Plays both 10" and 12" records at 78 rpm on its 7" turntable. Built-in variable volume control and a.c. line switch. Motor is constant speed type that requires no adjustments. Housed in an attractive airplane luggage carrying case of brown with contrasting stripes. Brass snap locks and leather hand strap. 13x12x5". For 110 volts, 60 cycles a.c. With cord and plug. Wt. 14 lbs.

K21993 - YOUR COST $16.50

In Lots of Three, Each $15.95

Lafayette Standard Portable Electric Record Player

A high quality single speed (78 r.p.m.) electric record player that employs a heavy duty governor controlled motor. Absolutely free from "wow" or lag. Speed adjustment control on panel. 12" turntable takes either 10" or 12" records. The Piezo crystal pick-up provides high-fidelity results. Built-in volume control operated from a panel knob. Housed in a beautiful case covered with Spanish brown leatherette having contrasting deep brown stripes. Brass snap locks, leather hand strap. Carrying handle, furnished complete with cord and plug and pick-up leads. For 110 volts, 60 cycles a.c. Size: 15½"x14½"x7½". Wt. 17 lbs.

K21994 - YOUR COST $19.50

Same as above, but two-speed (78 and 33⅓ r.p.m.).

K21995 - YOUR COST $24.95

K21993 - Carrying Case Only. Shpg. wt. 10 lbs. Each $5.70

Lafayette Transcription Record Player

The only portable record player on the market designed for 16" records. Constructed using the finest equipment and embodying the latest type components. Housed in an attractive airplane luggage carrying case with contrasting stripes in the center. Top of case contains record compartment for 16" records. All hardware fully plated. Two snap locks with keys furnished.

Powerful Motor With 16" Turntable

A special transcription motor with 16" felt padded turntable is used. Two-speed. 78 and 33½ r.p.m. Motor is governor controlled, constant speed type. Absolutely free from wobble or lag. Speed control adjustment on panel.

High Fidelity "Tru-Ton" Crystal Pick-Up

The pick-up is the latest type "Tru-Ton" crystal unit with a 12" arm. High impedance, no transformer required. Built-in volume control, panel operated. Overall size: 23" wide, 17¼" deep, 7" high (closed). For operation on 110/120 v., 60 cycles a.c. With cord and plug and pick-up cable. Wt. 22 lbs.

K2009 - YOUR COST $57.25

As above, but with Astatic 12" crystal pick-up.

K22008 - YOUR COST $48.25

Special transcription motor and 16" turntable only. For 110/120 volts, 60 cycles a.c. Shpg. wt. 18 lbs.

K22010 - YOUR COST $24.95

Lafayette Portable Automatic Electric Record Players

The most efficient, most versatile portable automatic record players on the market today. The latest type Piezo crystal pick-ups that afford high-fidelity reproduction. Pick up heads are on swivels, permitting top loading of needles. Tangent pick-up arm holds the needles at the correct angle, insuring minimum record wear and maximum efficiency. Motors are of the governor controlled type, constant speed, and speed can be regulated by means of a lever on the panel. Two needle cups.

Standard Automatic Record Players

Automatically plays eight 10" or eight 12" records. Records are loaded merely by placing them on the spindle. Mechanism automatically shuts off the current when last record has been played. Any record can be rejected by turning record around with the "rej. knob on the panel. All metal parts finished in statuary bronze. Housed in an attractive carrying case covered with Spanish brown leatherette with contrasting stripes. Brass snap locks and corner protectors. Operates on 100/130, 200/250 volts, 50/60 cycles a.c. With cord and plug and pick-up cable. Size: 17"x15"x11". Wt. 48 lbs.

K21997 - YOUR COST $54.25

Same as above, but operates on 100/130, 200/250 volts, 25/60 cycles a.c. or d.c. Shpg. wt. 54 lbs.

K21997 - YOUR COST $61.25

Deluxe Automatic Mixer-Changer Portables

Similar to above, but changer plays eight records, 10" and 12" intermixed in any order. Operates on 100/130, 200/250 volts, 50/60 cycles a.c. Size: 19½"x16"x11". Wt. 55 lbs.

K21998 - YOUR COST $77.00

Same as above, but operates on 100/130, 200/250 volts, 25/60 cycles a.c. or d.c. Shpg. wt. 60 lbs.

K21999 - YOUR COST $84.00

Special Electric Record Player

- Crystal Pick-Up

- Built-In Volume Control

- 12" Turntable

- Speed Control

A unique, highly practical modern record player housed in a walnut case that is a beautiful piece of furniture. No longer is it necessary to fuss with lids or toing them. A simple push of the button plays or stops the record. Any record can be rejected by turning the "rej. knob on the panel. Panel contains a motor speed control and a variable volume control. Separate "on-off" switch. Pick-up is provided with a special low-capacity shielded cable with phone tips on the ends. Easy to connect to radio or amplifier. Operates on 110/120 volts, 60 cycles a.c. All cabinet hardware fully nickel plated. The hard-rubbed walnut cabinet measures 17" long, 9½" high, 15½" deep (closed). Radio or amplifier can be placed on top of the record player without interfering operation. Shpg. wt. 23 lbs.

K21992 - YOUR COST $24.95

Special Playback Needles

Special steel needles, correctly ground to insure minimum record wear. Have very low scratch level. Can be used with all record players. Cost 10 c.

K209 - YOUR COST. PACKAGE OF 12...
An excellent tuner for all ordinary p.a. work, offered at an unusually low price. It covers a range from 16.3 to 56.1 meters in three bands as follows: 16.3 to 36.6, 60 to 176.5 and 191 to 561 meters. Six tubes are in the sensitive superhet circuit, and include: 476, 6A7, 6D6, 5Y7, 80 and 6255 visual cathode ray "eye" tube. Controls provided include: manual volume control, tone control, band switch and main tuning control. Circuit features include: powerful automatic volume control, tone control, output impedances of 500 and 25,000 ohms. For 105-120 volts, 50/60 cycles a.c. only.

MODEL 1024-TP - Lafayette 6-Tube Standard P.A. Tuner complete with tubes and with panel for standard 19" racks. 8 1/2" x 10" x 7 3/4" high. $29.95. Shpg. wt. 30 lbs. Code, SF6FGH. List $59.90. YOUR COST...

MODEL 1025-TP - Same as above, but less panel. For cabinet mounting. With tubes. Shpg. wt. 21 lbs. Code, SF6GHI. List $53.90. YOUR COST...

A custom built 7-tube all-wave tuner featuring: THREE-BAND coverage from 13.7 to 568 meters (13.7-47.7, 47.3-200, 190-568 meters) BAND EXPANSION permits high fidelity operation, switch on panel throws from broad to sharp tuning; CATHODE RAY "EYE" permits hairline visual tuning; PHANTOM "BEAM SPOT" DIODE has individually calibrated bands. Tubes used: 6L7, 6L7, 6EC6, 6E6, 573 and 6655. Circuit features: powerful a.v.c., full tone control, thermostatic osc. and i.f. capacitors; phone socket. Output impedances 500 and 25,000 ohms. For 95-130 volts, 50/60 cycles a.c.

MODEL 1022-TP - Lafayette High Fidelity 3-Band Tuner with tubes and panel for standard 19" racks. 10" x 19 1/2" x 4 7/8" high. $48.95. Wt. 35 lbs. Code, PABLA. List $99.90. YOUR COST...

SPECIAL PORTABLE CASES

Single and Dual Speaker Carrying Case

An exceptionally fine two-speaker carrying case offered at an unusually low price. Will take two speakers having diameters up to 12", and afford excellent results due to efficient design of baffles. Built of extra-heavy plywood with overall covering of Spanish brown leatherette having contrasting stripes of deep brown. Inclined baffles have speaker openings 10" in diameter, protected by steel grills. Openings in top of baffle boards permit carrying of speaker cables. Leather bumpers provided on all corners. Brass hardware. Sturdy leather carrying handle. Case opens into two equal halves, brass snap locks hold case firmly together for easy portability. Overall size: 39 1/4" wide, 12" deep, 13 1/2" high. Wt. 20 lbs. List Price $15.90. K22067. YOUR COST. SPECIAL...

Dual Speaker Case

Illustrated above, at left. Houses two speakers having diameters up to 12". Case opens into two halves and is built of plywood with black leatherette covering. Has leather carrying handle and metal bumpers top and bottom. Four nickel plated snap locks. Size (closed): 9" deep, 14 1/4" wide, 7 1/2" high. Shpg. wt. 13 lbs. List $12.50. K22062. YOUR COST...

Scientifically designed to conserve space and to facilitate the carrying of public address accessory units from place to place. Eliminates accidental damage to microphones, mike stands and cables and prevents costly delays due to forgotten or misplaced parts. Two heavy duty collapsible microphone stands with bases up to 10" in diameter, speaker and microphone cables and up to four microphones can be carried conveniently and safely. If less than four mikes are needed, compartments can be used for tools, spare parts, etc. Case is designed to balance nicely when loaded, thus making it easy to transport. Constructed of extra heavy plywood with overall covering of Spanish brown leatherette. Three heavy brass snap locks and brass corner protectors are provided. Sturdy leather carrying handle on cover. Overall size: 15" wide, 19 1/2" high, 12" deep (closed). The price quoted is exceptionally low for a deluxe case of this type. Shpg. wt. 30 lbs. List $19.90. K22066. YOUR COST...

SHURE 3B Carbon Mike

Excellent quality two-button carbon microphone, 200 ohms per button. Spring suspension; "red eye", mounted, with our unique "photograph way" hooks. 3" in diameter. Rigid cast frames, built-in stock. Shpg. wt. 1 lb.

K13845—Your Cost 2.25
**NEW! SHURE ZEPHYR PICK-UP**

A new, balanced-tracking crystal reproduction. 50 to 7,000 cycles, 45 rpm db. Needle tip: 55 ft. Flat needle pressure of 0.5 oz. balanced; high-lift arm; non-resonant—completely shielded. Headroom in beautiful stainless black mold. 100% long, 20% high, haze 2%. With 3.5 ft. shielded cord. For 10" and 12" records. List 3 lbs. $5.68. Your Cost $3.53.

**PIEZO CRYSTAL PICK-UPS**

In using these pick-ups, the quality of reproduction is limited solely by the equipment. Extremely light in weight: ball bearing arms. Plays either 78 or 33 1/3 R.P.M. records; no counter-weight needed. Overall finish in crystalline black. High Impedance.

K161—Series 3. For 10" and 12" records. List 16 lbs. $12.10. Your Cost $7.35.

**WEBSTER Crystal Pick-Up**

Ultra-modern in design and construction. Taut crystal tracking of needle groove decreases record wear and scratch level. May be led direct to grid with no transformer. Pick-up head can be lifted past vertical center facilitating needle change. Streamlined design minimizes undesirable resonance peaks. Light needle pressure without counter balance. 10" or 12" records.

K56—Crystal pick-up, streamlined tone arm. List Price $10.00. Your Cost $5.88.

**RANGERTONE Stylus Recording Needle**

A particularly fine recording needle made of Stellite, an extremely hard metal. Points are ground with diamant dust to a very particular angle, which gives a quiet cut, and at the same time, a much more faithful reproduction than does the usual needle. For acetate records. K137—Your Cost Each 1.00.

**Diamond Cutting Needle**

**ASTATIC Scratch Filter**

An astastic needle and tuned to resonate at point of greatest scratch intensity. Metal container. 1x1½ x2 inches. K138—Your Cost 88¢.

**ASTATIC Model 0-7 Crystal Pick-Up**

Employs the well known offset head to provide maximum fidelity, minimum tracking error. Axial cushioning reduces motor noise and feed- back. Has mechanical potential flat over the entire tone range. Streamlined design; lightly damped stylus; needle pressure only 0.5 oz.; easy needle lifting. Overall weight 3 lbs. K234—List $30.00. Your Cost $16.17.

**Sapphire Reproducing and Cutting Needles**

A

B

(A) For recording on celluloid and acetate record blanks $3.45

(B) For recording on aluminum. $2.25

(C) For recording on pre- grooved sandwich and celluloid. $2.50

(D) Low output, magnetic type. List $9.00.

**Steel Needles For Recording and Playback**

Recording K144—For aluminum. Standard Type. Your Cost Each 5c

K142—For Acetate. Flat Shank. Your Cost for 12 70c

K144—For Acetate. Round Shank. Low scratch level. Your Cost for 12 70c

K209—Very low scratch level. Reduces wear on disc. Your Cost for 12 10c

K345—Ideal for heavy pick-ups or acoustic photography. Your Cost for 12 10c

The famous models K2, D2 and D104 are now improved. Each now includes a plug and socket connector fitting for quick changes, and a snapping on ratchet to prevent cable breakage.

Model D-2. Double diaphragm type. Output, minus 64 db; response 50 to 6000 c.p.s. within 2 db. Only 2 1/4" in diameter, 5 1/4" thick. All chrome plated. Threaded for 1/4" male pipe; with adaptors for 1/4" and 5/8" pipe. Complete with 8 feet of cable. $18.40

Model D104. Single diaphragm. Output, minus 64 db; response 50 to 10,000 c.p.s. Within 2 db. Only 2 1/4" in diameter, 5 1/4" thick. All chrome plated. Threaded for 1/4" male pipe; complete with 8 feet of cable. $26.40

Model D104H. Same as D104H, but with switch. $32.80

Model D104R. Same as D104R, but with switch. $47.00

Model D104S. Same as D104R, but with switch. $55.00

Model K2. Double diaphragm. Substantially flat from 50-6000 c.p.s. with rise of 10 db at 10,000. Output, minus 64 db. With 8 ft. of cable. $28.15

Astatic "Acorn" Microphone

A new general purpose crystal microphone with unequalled diaphragm quality and figure. The model D104 listed above is now made with a new type of diaphragm which reduces acoustical feedback to a minimum. Easily mounted in a non-directional mike bodies. Also makes a stand head to a vertical position. 8 ft. of cable comes in a neck; preserves beauty of design. Output level 68 db below 1 volt per bar (approximately 18 db below diaphragm type). Attractive grille-type case finished in rich rubber black with chrome plated fittings. With 7 ft. of single conductor cable. Standard 27"-27 thread. Mounting, 1/4"-27. $26.40

Your Cost

Model 85A

A true high-fidelity crystal with response within a 10 db range from 30 to 10,000 cycles. Meets the most critical requirement in applica tions calling for the very highest quality sound reproduction. Output level 68 db below 1 volt per bar (approximately 18 db below diaphragm type). Attractive grille-type case finished in rich rubber black with chrome plated fittings. With 7 ft. of single conductor cable. Standard 27"-27 thread. Mounting, 1/4"-27. $28.40

Your Cost

"Grip-to-Talk" MIKE

This new mike is ideal for the better type communications systems. Non-directional with single diaphragm, it is rated for non-directional use in all broadcast applications. Other than a "grip-to-talk" switch on the upper right. Outputs minus 65 db; frequency range essentially flat from 30 to 10,000 c.p.s. Standard plug and socket; uses a 27"-27 thread. Specially made for the model D104 listed above, but may be adapted to any desk stand and in mounting. $16.17
Microphone Cables & Accessories

Lafayette "FRICTION CHUCK" MICROPHONE STANDS

Utilize a combination friction holding and chuck locking device. Locking device prevents picks from slipping. All stands listed have a minimum height of 36" and a maximum of 67". Rods are of heavy-gauge, seamless brass tubing, threaded to fit universal ball and socket joint for both ½" pipe and ¾"-27 thread. Canister base fitted with spun heavy copper chrome-plated shells and equipped with rubber feet.

- Base with Swivel: K13576 Base diameter 7½". Net weight 8 pounds. Shpg. wt. 10 lbs. $4.25 Your Cost K13526 - Base diameter 10". Extra heavy base. Net weight 10 pounds. Shpg. wt. 14 lbs. $5.25 Your Cost K13577 - Base diameter 10". Weight 18 pounds. Shpg. wt. 22 lbs. $7.95 Your Cost

- Portable Telescopic Stands

Simplicity in construction to above, but uses thumb screw adjustment because of 3-section makeup.

- Deluxe Banquet Stand

Right Height 13". Has 6" removable ring complete with 8 springs. 1½" diameter pipe extension. Finished in black wrinkle enamel. Shpg. wt. 8 lbs. $1.76 Each

- Friction Clutch Chrome Floor Stand

Made of seamless brass with triple chrome plate. Heavy, modern banjo design. Friction clutch lock varies height from 37½ to 65½". Weight 10 lbs. Has large, uniform base equal for price, beauty or durability.

- 3-Way Mike Plug Bakelite handle, brass contacts

- 3-Way Jack Used with above plug

- Microphone Springs Fine tempered steel.

- Carbon Granules Extra fine quality — not containing any dust. Contains sufficient granules to refill one or two batten mike.

- Chassis Connector

With knurled ring, lock washer, hex. lock nut. For same 1½" hole. Female type.

- PM Speaker Cable

Especially suitable for p.a. installations where PM speakers are used. Waterproof and low abrasion factor. Black live rubber cover. 18-gauge. K2092 - Per Foot 100 Feet for $2.24

- Crystal Mike Cable

Flexible stranded tinned copper single conductor, tinned copper braid shield, cotton wrap and lacquered braid, rubber overall. WT. 10 lbs. per 100 ft. K2084 - Per Foot 100 Feet for $3.30

- 4-Wire Cable

No. 18 gauge rubber covered conductors. Heavy duty, heavy wire. Overall heavy live rubber cover. Will stand up under severe conditions of use. Ideal for speaker connections. 60 ft., 6 lbs. K1354 - Per Foot 100 Feet for $4.30

- Cable & Microphone Connectors

3-Wire Shielded Locking Connectors

Similar to type described at left but for only 3 wires. ½" diameter, 2½" long. Will not pull apart. Used with 1 male, 2 female contacts. Each. K13448 MC4M 4 $6.40 K13449 MC4F 4 K13448 MC4M 4 K13449 MC4F 4

- Mike Connectors For Single Conductor

New high speed cable coupling unit for single cable or similar connections. Indestructible shielded Contact. Fits cables up to 1½" diameter. 2½" long. Will not pull apart. Can be used with similar MCIF female. K13359 Your Cost K13360 Your Cost K13361 Your Cost

- Special Chassis Type

Similar to type PC (left) but with 100 Foot Roll. Used with MC type. K13307 Contact K13308 - 3 contacts K13309 - 4 contacts K13310 - 4 prongs K13307 - 3 contacts each K13308 - 4 contacts each K13309 - 4 prongs each

Meissner "Build-Your-Own" KITS

KITS ARE COMPLETE—NOTHING ELSE TO BUY!

14-Tube Communications Receiver

- 5 Bands, S-555 Meters
- "Align-Aire" I.F.'s
- Electrical Band Spread
- Pre-Aligned Tuning Unit

This 14-tube communications receiver kit has been especially designed for the advanced amateur. The tuning range is split up into 5 overlapping bands covering from 5 to 555 meters (540 kc. to 60 mc.). Outstanding circuit features include: 5-band FACTORY ALIGNED tuning unit for r.f., mixer and oscillator. Align-Aire (air tuned) individual coils for each band; fully shielded switch assembly; ceramic insulated 3-gang precision tuning condenser; electrical band spread condensers with separate control; giant rectangular dial with 9" linear scales accurately calibrated on all 5 bands; fly-wheel tuning on both main and bandspread controls; mono-unit crystal filter assembly with variable selectivity and phasing control for panel operation; factory assembled crystal plug into top of unit; two stages of Ferrocort (iron core) I.F.; full a.v.c. beat freq. soc. with panel pitch control for CW signals; built-in noise silencer circuit (Lamb); "R" meter; headphone jack; stand-by switch. 8.5 watts undistorted output.

K21115 - Complete kit of parts, including coils, condensers, transformers, meter, crystal, hardware, wire, solder, etc., for the communications receiver described above. List $78.75.

Your Cost... $76.87

8-Tube Communications Receivers

- 5 Bands, 5-555 Meters
- "Align-Aire" I.F.'s
- Electrical Band Spread
- Pre-Aligned Tuning Unit

A condensed version of the 14-tube model described above. Features: 5-band bandspread tuning unit; covers from 5 to 555 meters (540 kc. to 60 mc.) in 5 overlapping bands; giant dial with 9" linear scales; beat freq. soc. with pitch control; Ferrocort I.F. stage; electrical band spread; 6.V6 "beam power" output; headphone jack. For 110 V.a.c.

K21116 - Complete kit of parts including coils, condensers, transformers, meter, crystal, hardware, etc. List $49.10

Your Cost... $49.10

7-Tube A.C. Tuning "Eye" Supers

- Broadcast Model
- Broadcast and Skips
- Broadcast, Police and Skip
- Broadcast, Long-Wave & Skip

Excellently engineered a.v.c. superheterodyne employing 1 cc. crystal tuning "eye" indicators and feature: r.f., mixer and oscillator stages on all bands; 8-gang precision tuning condenser; full-dial tuning with 7 line linear scales; vernier tuning; sensitivity control (except on 1-band models); Ferrocort (iron core) I.F.; diode second detector; manual volume and tone controls; full a.v.c.; 6.V6 class A output affording 4.25 watts.

K21226 - List $33.50

Your Cost... $22.64

9-Tube 4-Band A.C. Receiver

- 3 Bands: 640-1590 kc.
- 4 Bands: 640-1590 kc. (Broadband)

An extremely sensitive all-wave receiver covering from 540 kc. to 48 mc. (7.5 to 555 meters) in four overlapping bands. Features: 4-band aligned coil assembly; "Align-Aire" coils for each band; Automatic Push-Button Tuning with 8 selector buttons — permeability tuned, absolutely no drift; Ferrocort (iron-core) I.F. stage.

K21135 - Complete kit of parts, less chassis, cabinet, speaker and tubes. List $65.50

Your Cost... $61.65

**6-FT. EXPONENTIAL TRUMPET**

A completely assembled 6-foot exponential trumpet has been designed to be a highly efficient, high power speaker. It is specifically designed for use in large-scale installations such as theaters, auditoriums, and other public address systems. The trumpet is constructed using the finest materials and techniques, ensuring excellent sound quality and durability. It is available in a variety of sizes, allowing for flexibility in installation and application.

**40 WATT POWER PACK**

Oversized, Highest Quality Power Components

Shipped from New York only.

These components are specifically designed to deliver optimal performance and efficiency. They are carefully selected and tested to ensure consistent and reliable output. The pack includes a 250 ohm transformer, 5% rated, and a 100 watt amplifier with 211 tubes. This combination provides the necessary power for high-quality sound reproduction.

**URC 100-WATT “BOOSTER” AMPLIFIER**

Finest Construction

For Audiences Up to 5,000

Four 211 Tubes

Metered Plate Circuits

Distortionless Output

Designed by United Research Corporation, this 100-watt booster amplifier is ideal for large-scale installations. It features a 211 tube configuration, providing powerful and clear sound reproduction. The amplifier is suitable for up to 5,000 listeners, ensuring a high-quality listening experience.

**WOOFER AND TWEETER UNITS**

6-Inch Acoustic Enclosure

A high-quality 6-inch woofer and tweeter unit is available. It is designed to provide excellent sound reproduction, suitable for use in public address systems, theaters, and auditoriums. The unit is constructed using durable materials and includes a metal protective shield on the diaphragm.

**6-VOLT DYNAMIC HORN UNIT**

Sturdily built units especially designed for all requirements for high power and the finest sound reproduction. These units are constructed using oversize parts throughout, providing a factor of safety over 300%, guaranteeing continuous trouble-free service.

**JENSEN SPEAKERS AND UNITS**

**Special 1122573 complete with all necessary hardware.**

These units are designed to be used in theatrical and public address systems. They are available in a variety of configurations, allowing for customization based on specific requirements.

**Monitor Speaker**

This speaker is ideal for use in theatrical and public address systems. It is designed to provide excellent sound quality and durability. The speaker is available in a variety of configurations, allowing for flexibility in installation and application.

**YOU CAN'T BEAT THESE VALUES**

Price reductions on a wide range of products, including amplifiers, speakers, and power supplies. These offers are available for a limited time, so act now to take advantage of these exceptional deals.

AND NOW...TO COMPLETE THE PICTURE...

FOR over 17 years, Wholesale Radio Service Company has enjoyed an enviable reputation in the business world—a reputation built on SERVICE and fostered by honestly presented merchandise and money saving LOW NET PRICES.

And now, upon entering the camera field, Wholesale Radio Service Company pledges that same spirit of SERVICE, honest advertising and LOW NET PRICES on which its great success has been predicated.

Every effort has been made to make this new field of endeavor of great value to the camera fraternity. Seven great branches, strategically situated throughout the country insure speedy deliveries no matter where you are. Trained technicians in these branches are ready and anxious to serve you in every possible way.

**Satisfaction Guaranteed**

In all our dealings the CUSTOMER MUST BE SATISFIED. We make this statement without reservations—satisfaction is guaranteed or your money will be refunded. Cameras are sold on a 10-DAY FREE TRIAL basis. Merchandise returned for credit must be in its original packing and in perfect condition. Books, magazines, paper, films and chemicals are not returnable.

---

GEVAERT Roll Film and Film Pack

Supplied in two types: Express Superchrome and Panchroma. They are double coated to ensure the widest latitude in conjunction with extremely high speed. Express Superchrome emulsion possesses those highly orthochromatic qualities for which Gevaert chroma-type emulsions have been famous for many years. Panchroma emulsion is sensitive to all colors of the visible spectrum, in an exact balance.

---

**G.E. AV-1 Vacuum Cleaner (Fig. D)**

This excellent, easy to manage cleaner incorporates every feature that the housewife finds desirable. It gets all the dirt and is not tiring to operate. The powerful motor driven brush brings all dirt and hidden dirt to the surface, and at the same time it combs and freshens the rug pile. Front and rear wheels are provided to facilitate moving of cleaner. The cool-comforted motor requires no lubrication. A conveniently located adjustment screw provides for correct nozzle height. Rubber bumpers at base protect the furniture. The pilot grip handle contains a trigger switch. Metal parts are of aluminum, highly polished. Dust proof blue dust bag. Cleaner operates on 115 volts d.c. or a.c. (25-60 cycles). Complete with long rubber cord and plug. Fully guaranteed by G.E. for one year. Shpg. wt. 20 lbs.

**K25039—YOUR COST...**$24.95

**G.E. Tidy Cleaner (Fig. B)**

Just what the busy housewife needs. This modern, handy cleaner gets at those hard-to-get-at places with ease, and it does a remarkable cleaning job. Ideal for cleaning upholstery, drapes, everything from floor to ceiling. And it washes, too! The powerful G.E. motor provides greater cleaning ability than many of the floor model cleaners on the market, yet it is extremely light weight and compact. Balanced handle is easy to grip. Other features include: dust proof bag; sweep action brush; touch switch; finger tip controls; long approved rubber cord and plug. Accessories include: blower, extension tools; de-molding equipment; Dichloride crystals. Fully guaranteed by G.E. Size: 10x5x7. For 110 volts, d.c. or a.c. (25-60 cycles). Shpg. wt. 9 lbs.

**K25039—YOUR COST...**$14.10

---

**"SHAVE KING" ELECTRIC RAZOR—List $15.00**

This perfected electric shaver gives the perfect shave. It is quick in action, cannot injure the most delicate skin. Leaves the skin smooth and with a healthy glow—no smarting or burning. It won’t pull or nick, incorporates a brand new principle in shaving. Women don’t have to hold it at any particular angle to achieve results. Women will find it of utmost value in removing undesirable hair from arms and legs. This shaver will pay for itself in a short time by saving you the cost of blades, soap and shaving creams. Housed in an attractive molded case and furnished with detachable all rubber cord and plug set. Operates on 110 volts a.c., 60 cycle, or d.c., and consumes a minute amount of current. Induction motor driven wheel to start. Shpg. wt. 2 lbs.

**K25181—YOUR COST...**$7.35

Complete in case

---

**Charged Water Syphon**

This syphon will charge water at home, easily and inexpensively. Just fill bottle with water, insert charge and twist handle, and you have a full quart. Bottle encased in chrome shell with black trim. Built-in safety valve. Shpg. wt. 3 lbs. LESS CHARGES

**K25087—YOUR COST...**$3.75

Box of 6 cartridges. Fits all types of chargers.

**K25088—YOUR COST...**$33c

---

**"CLIPSHAVE" ELECTRIC RAZOR—New Low Price!**

An excellent quality electric dry shaver offered at an exceptionally low price. More bother than expense with blades, soaps, brushes and skin balms. Clips the toughest beard right down to the skin line without injury. Designed, made so how delicate it may be. Just plug it into any 110 volt outlet, a.c. or d.c., and it shaves smoothly over your face (women use it on arms and legs with excellent results too). Consumes so little current that the motor referred to as a "one mouse-power" unit. The entire mechanism is contained in an attractive molded case and provided with cord. Comes attached long rubber cord and plug set. Leatherette case also furnished.

**K25107—Wt. 2 lbs.**

HOW TO ORDER—Use our convenient order blank. than ONE item to a line. Make sure you write the exact stock number and that the price is the one quoted for item that you want. Specify how we shall make shipment. Check the preferred style: "Express", "Parcel Post", "Freight", "Boat", or "Best Way". We shall follow your instructions. If these are inadequate, we will change them If we feel that such a change is in your better interest. Radio sets should be ordered shipped by express or if quantity warrants, by freight. If you find it necessary to write for information, do not include your remarks on an order for parts—always use a separate sheet of paper.

DOMESTIC—Wholesale Radio Service Company, Inc. buys for our wholesale and sells for cash. That explains our low-price policy. We cannot afford to carry credit accounts and we pass on to our customers the savings effected by the elimination of costly bookkeeping departments. We ship C.O.D. if desired, providing a deposit of 25% accompanies your order. C.O.D. parcels may be shipped only to addresses within the United States and its territories possessions. Orders generally cannot be sent C.O.D. in care of banks, as most banks refuse to handle such shipments. On small orders, return charges in full plus transportation costs saves you extra collection costs.

TRANSPORTATION ALLOWANCE—On all radio orders (excluding sets) for $25.00 or more, deduct 25% from the total as a transportation allowance, except on Lafayette and National Co. products. Foreign orders excepted.

FOREIGN—Orders from foreign countries receive careful attention. They are carefully packed and shipped to ensure very prompt and satisfactory delivery. Our terms on ALL foreign sales are as follows: Payment in New York by letter of credit against documents, or 50% deposit ON ORDER balance sight draft against bill of lading. These conditions will not apply to certain countries where rigid exchange control conditions exist. In countries where rigid exchange control exists, merchandise plus transportation charges must be paid for in full in New York before shipment can be made. All quotations O.B. 100 Sixth Avenue, New York, with slight additional charge for export packing. ORDERS UP TO $25.00 PAYABLE IN FULL IN ADVANCE, PLUS SHIPPING CHARGES. Remittance by draft on New York bank in U.S. currency. We do not recommend that you send us foreign checks, as shipment will be delayed until cleared. Cable address "Wholrad", New York. The average Parcel Post rate on foreign shipments is 14c per pound. Insurance rate averages 1 1/4% of the order's value, with a minimum rate of 25 cents.

Our catalog prices are F.O.B. warehouse, packed for domestic shipment. For special export packing and delivery to pier, there is slight additional charge for covering our extra costs. There is no extra packing charge for shipments to points outside the United States which can be forwarded packed as for domestic shipment.

FINAL PRICES—shown in this catalog are net, F.O.B. our warehouse. All discounts have been deducted, including 25% discounts for cash. Prices are subject to change without notice. We give customers the benefit of all reductions taking place after catalog is printed.

SENDING MONEY—The safest and best way to express or telegraph money order, bank draft or air checks. Do not send cash. If absolutely necessary to remit cash, send by registered mail only. Do not hesitate to include sufficient postage or other carrying charges. Overpayment are promptly refunded. Insufficient postage often delays shipments needlessly.

RETURNING MERCHANDISE—If you need to return any merchandise, please write in advance stating the following reason: return when and where purchased—number of sales slip (if purchased over-the-counter). If your shipment is received damaged, obtain a report from the postmaster or express agent and mail it to us. Use a separate sheet of paper, and address it to the Adjustment Dept. Do not add your name or order for parts. Do not include money in the package you return. When returning merchandise, give your name, address and on all orders and letters before returning to us.

PARCEL POST RATES—Parcels up to 8 oz. may be shipped anywhere in U.S.A. for 8c. RATES FOR PARCELS OVER 8OZ FOLLOWS: Parcel post shipments to all zones must not exceed 70 pounds. The limit of size on all parcel post packages is one hundred inches in length and girth at widest point combined. Examples: a package 35 inches long, 10 inches wide and 5 inches high, measures 65 inches in length and girth combined. (Length 35 inches, plus twice 10 inches width, plus twice 5 inches height, equals 65 inches.)

POSTAGE CHARGES—For all domestic parcels, postage is based on weight of parcel and distance from shipper's city to your address. The rates are determined by zones. Each zone comprises a certain mileage radius from the point of origin. You can easily estimate the postage costs from our nearest warehouse to your town from the following chart. If in doubt about the zones you are in, as regards our nearest warehouse, consult your local postmaster. Total weight of your shipment can be estimated by adding weights of individual articles as given in catalog and then adding approximately 2 1/2 lb. for packing. Parcel post packages must be shipped prepaid. Please be sure to include postage with your remittance. All items are F.O.B. point of shipment.

INSURANCE—Charges are: 5c for parcels up to $5.00; 10c for parcels from $5.00 to $25.00; 25c for parcels from $25.00 to $100.00. After $100.00 value the charge for each $50.00 additional is 5c extra. If you are doubtful as to the correct amount to send, call us and we will estimate the appropriate rates for you. We GUARANTEE to refund any excess.

C.O.D. SHIPMENTS—Transportation charges on C.O.D. shipments are slightly higher than those fully prepaid. C.O.D. charges in addition to the regular postage costs outlined are as follows, including insurance: When value of parcel is up to $5.00 the extra charge is 12c; $5.00 to $25.00 the extra charge is 17c; $25.00 to $50.00 the extra charge is 22c; $50.00 to $100.00 the extra charge is 27c: $100.00 to $200.00 the extra charge is 40c; $200.00 to $500.00 the extra charge is 45c. For each $100.00 value above $200.00 the charge is 5c more (increasing 5c in 5c steps). Post Office charges an extra small money order fee on each C.O.D. parcel. You can save these fees by remitting in full.

EXPRESS & FREIGHT SHIPMENTS are sent transportation charges collect. If your station has no agent, please send sufficient money to cover transportation. Charges are the same either way. All over-payments are promptly refunded.

**CATHODE RAY TUNING "EYE"**

**12" HIGH FIDELITY SPEAKER**

**A Masterpiece**

**TUBE 3 BAND A.C. SUPERHET**

**This superlative 11-tube, 3-band all wave Superheterodyne is a real leader in any radio hit parade. Product of a nationally known manufacturer who does not wish his name to be revealed because of the competition-detering price at which we are offering this fine receiver. A rare value, your entire satisfaction is guaranteed by virtue of the excellent overall radio design, magnificient tone quality, super-sensitivity and selectivity plus beauty of cabinet. Try one in your own home on our 30-day Free Trial offer. Our quantities are extremely limited. Order now, avoid disappointment.**

**World Reception—3-Bands**

Bring the world right into your home; thrill to the greatest variety of entertainment the world has ever known. Three tuning bands cover every radio program of interest from 16.5 to 560 meters. Foreign short-waves, police calls, amateur and airplane signals are brought in on the 16.5 to 57, 57 to 175 meter bands, 175 to 560 meters for standard American broadcast.

**R.F. Stage on All Bands**

You'll be amazed by the extra sensitivity afforded by a stage of r.f. pre-selection on ALL three bands. This is a feature found only on the finest receivers. Every station, whether local or foreign, will be crystal-clear and life-like in tone.

**11 Newest Type Tubes**

11 of the most modern tubes are used in the advanced superhet circuit: 1-6X7 r.f., 1-6X7 1st detector, 1-6C5 oscillator, 1-6X7 L.L. 1-5H8 2nd detector and A.V.C., 1-6F5 a.f., 1-6F8 driver, 2-6F6 class AB push-pull output, 1-6D5 tuning "Eye" and a 523 rectifier.

Directly in the dial is the new cathode-ray "Eye" to help bring in all stations at peak resonance. It enables you to get the most out of your set.

**Push-Pull Audio Circuit**

12 watts of undistorted, humless output are provided through the use of a perfected push-pull audio circuit.

**Automatic Bass Compensator**

Bass tones are boosted when listening at reduced volumes. An automatic volume control circuit maintains constant volume at all times, minimizing fading and blasting.

**Full-Range Tone Control**

No matter what your preference, you can accentuate deep, mellow basses, or sparkling high trebles to your whim desires. Beautifullly grained walnut cabinet matched to both audio and speaker for superb results.

**Model 1173**
