Studio Cameras

BVP-375

3-Chip CCD Studio/OB Camera System

- The top-end CCD studio/OB camera to cover virtually all shooting applications
- Highest quality 1000H FIT Hyper HAD (Hole Accumulated Diode) CCD pickup (520K picture elements): High horizontal luminance resolution of 800 TV lines; Excellent signal-to-noise ratio of 62 dB; Incredibly high sensitivity of f/8.0 at 2000 lux; Incredibly low smear level of −140 dB (nominal value); Minimum lag and high resistance to image burn-in; Impervious to vibration and shock; Minimum effects from electric/magnetic field; Free from registration adjustment
- Super-enhanced operational features (Remote Linear Matrix, Flesh Tone Detail, Black Gamma, White Chip, View-finder Power ON/OFF)
- Super-Enhanced Vertical Definition (EVS) provides 450 TV lines of vertical resolution
- Flexibly built-up studio/OB camera system with the CCU-370 Camera Control Unit, MSU-350/370 Master Setup Unit, VCS-350/370 Video Selector, RCP-3700 series Remote Control Panel, and other high performance peripheral equipment
- The red and green horizontal/vertical enhancer and soft detail control are provided for natural color reproduction
- Electronic shutter provides clear images of high speed moving objects; Shutter speeds: 1/100, 1/125, 1/250, 1/500, 1/1000, 1/2000 sec.
- Advanced triax system transmission
- Two independent intercom channels and two microphone inputs; Auto setup function (black/white balance, gamma, etc)
- Four filling facilities, reference file, setup file, scene file, and lens file, are provided
- Optional teleprompter unit is available
- Optional standalone unit is available
- Both BVF-7700 7-inch color viewfinder and BVF-77 7-inch B/W viewfinder can be used
- Easy maintenance
- Advanced mechanical design and excellent serviceability

Supplied Accessories:
- Extension Boards
- Number Plates
- 10-pin Plug for Tracker Connector
- 6-pin Connector for Return Control
- 4-pin Connector for Script
- Tally Lamps
- Front Cover
- Fuses
- Metal Fitting for Attachment
- Operation and Maintenance Manual

Optional Accessories:
- BKP-3613 Script Holder with Lamp (one page) for BVP-360A/370/375/270 series
- BKP-3614 Script Holder with Lamp (two pages) for BVP-360A/370/375/270 series
- BKP-3700M Teleprompter Unit for BVP-370/375/270 series
- BKP-370 Standalone Unit for BVP-370/375 series
- BKP-3701 Contrast Control Unit for BVP-370/375/270 series
- BKP-3702 Sub Encode Board for BVP-370/375/270 series
**Specifications**

**BVP-375 Camera Head**

- **Pickup Device System:** 3-chip 3/4" Frame Interline Transfer CCD
- **Picture Elements (HV):**
  - Total: 1038 x 504
  - Effective: 980 x 494
- **Optical System:** f1.4 prism system
- **Filter Wheels:**
  - Color filters: A: CROSS
  - B: 3200K
  - C: 4300K
  - D: 6300K
- **ND filters:**
  - 1: CLEAR
  - 2: 1/4
  - 3: 1/8
  - 4: 1/16
- **Sensitivity:** > 18.0 at 2000 lux (3200K, 89.9% reflectance)
- **Minimum Illumination:** 7.5 lux (11.4 lens, +18 dB gain) (approx.)
- **S/N Ratio:** 62 dB (typical)
- **Horizontal Resolution:** 800 TV lines (luminance at center)
- **Geometric Distortion:** Below measurable level (without lens)
- **Output Signals:** Triax (Kings type)
  - AC utility out: Max. 100 VA
  - Monitor out (BNC): 1.0Vp-p, 75Ω for Return/VF
  - 1Prompter out (BNC): 1.0Vp-p, 75Ω
  - 2Encoded video out (BNC): 1.0Vp-p, 75Ω
  - 2VTR (25-pin): CCZ-type
- **Input Signals:**
  - Mic in (2-CH, XLR 3-pin): -60 dBs, balanced
  - 2Reference in (BNC): VBS/BS, 1.0Vp-p, 75Ω (0.286Vp-p, sync)
  - 2Remote (12-pin)
  - : Simple remote control unit (RM-3601) connector
  - AC in: AC-120V ± 10%, 50/60 Hz
- **Others:**
  - Tracking (10-pin):
    - For Intercom/PGM/Tally/Intercom/PGM (2-Ch independent): XLR 5-pin, ENG/PRD selectable
  - Lens connector: 38-pin
- **Operating Temperature:** 0°C to 45°C (32°F to 113°F)
- **Storage Temperature:** -20°C to 50°C ( - 4°F to 122°F)
- **Weight:** Camera head unit: 44 lb. 1 oz. (20 kg.) (w/o viewfinder) (approx.)
  - Camera head unit: 23000m with 4114.5mm triax cable (Fujikura)
  - Maximum Cable Length: 42400m for return video

**CCU-370 Camera Control Unit**

- **Communications:**
  - Intercorn (RTS): XLR 3-pin loopthrough (rear panel)
  - Intercom (4 wire: optional)/Tally/PGM: 19-pin (rear panel)
  - Intercom/PGM: XLR 5-pin (front panel)
- **Power Requirements:**
  - AC-120V ± 10%, 50/60 Hz
- **Power Consumption:** 350 VA with full system operation (approx.)
- **Operating Temperature:** 0°C to 45°C (32°F to 113°F)
- **Maximum Cable Length:** *3000m with a 14.5mm triax cable (Fujikura)
- **Weight:** Camera head unit: 37 lb. 8 oz. (17 kg.) (approx.)
  - Camera head unit: 424 x 133 x 380mm (16¾" x 5¼" x 15¾") (approx.)

---

**Input/Output Connectors:**

- **Input Signals:** Camera in: Triax (Kings type)
  - Return video 1, 2 in (BNC, loopthrough):
    - VBS, 1.0Vp-p, 75Ω
  - Reference in (BNC, loopthrough):
    - VBS/BS, 1.0Vp-p, 75Ω (0.286Vp-p, sync)
  - 1Prompter in:
    - VBS/BS, 1.0Vp-p, 75Ω (0.286Vp-p, sync)
  - 2Remote (25-pin): CCZ-type
- **Output Signals:**
  - Encoded video out (BNC):
    - VBS, 1.0Vp-p, 75Ω
  - VBS/BS, 1.0Vp-p, 75Ω (0.286Vp-p, sync)
  - R/G/B video out (BNC):
    - 0.714Vp-p, 75Ω
  - Y/R-Y/B-Y out (BNC):
    - Y: 1.0Vp-p, 75Ω
  - R-Y/B-Y: 0.7Vp-p, 75Ω
- **Picture monitor out (BNC):**
  - 1.0Vp-p, 75Ω
  - Waveform monitor out (BNC):
    - 0.141Vp-p, 75Ω
  - Sync out (BNC):
    - 0.3Vp-p, negative, 75Ω
  - Waveform mode out:
    - 0.62 dB (typical)
  - Mic out (XLR 3-pin):
    - 0 dBs/ - 20 dBs balanced
  - 2Channels
  - MSU-16 pin loopthrough
- **Output Connectors:**
  - Simple remote control unit (RM-3601)
  - RS-422:
    - 9-pin serial interface
  - RS-232C:
    - 25-pin serial interface
  - LINE OUT:
    - XLR 3-pin
  - TALLY OUT:
    - D-sub 25-pin
  - DC OUT (5V):
    - 19-pin (rear panel)
  - AUX:
    - XLR 3-pin loopthrough
  - INCOM/PGM:
    - XLR 5-pin (front panel)
  - TALLY:
    - XLR 3-pin
  - RTS/CLEARCOM-TW12
  - LINE OUT:
    - XLR 3-pin
  - INCOM/PGM Double jack
  - MSU-370:
    - 16-pin loopthrough
  - MSU-350:
    - 16-pin loopthrough

---

**MSU-350/370 Master Setup Unit**

- **Input/Output Connectors:**
  - MSU-350:
    - VCS: 424 x 133 x 400mm (16¾" x 5¼" x 15¾") (approx.)
  - MSU-370:
    - VCS: 424 x 133 x 400mm (16¾" x 5¼" x 15¾") (approx.)
- **Power Requirements:**
  - AC -120V ± 10%, 50/60 Hz
  - AC -90V -264V, 50/60 Hz
- **Weight:**
  - MSU-350: 8 lb. 13 oz. (4 kg.) (approx.)
  - MSU-370: 33 lb. 1 oz. (15 kg.) (approx.)
- **Dimensions (WHD):**
  - MSU-350: 400 x 66 x 177mm
  - (15¾" x 2½" x 7") (approx.)
  - MSU-370: 424 x 133 x 400mm
  - (16¾" x 5¼" x 15¾") (approx.)

---

**VCS-350/370 Video Selector**

- **Input Signals:**
  - VCS-350:
    - Pix (BNC x 8): 1.0Vp-p, VBS/VS, 75Ω
  - VCS-370:
    - Pix (BNC x 8): 1.0Vp-p, VBS/VS, 75Ω
- **Power Consumption:**
  - VCS-350: 8W
  - VCS-370: 12W
- **Dimensions (WHD):**
  - VCS-350: 424 x 133 x 400mm (16¾" x 5¼" x 15¾") (approx.)
  - VCS-370: 424 x 133 x 400mm (16¾" x 5¼" x 15¾") (approx.)

BVP-370A

3-Chip CCD Studio 10B Color Camera System

The BVP-370A is Sony's standard FIT CCD Studio/OB camera designed to cover virtually all shooting applications from full scale studio use to advanced field production applications even in the most difficult shooting environment. The FIT Hyper HAD™ sensor is employed.

Superb Picture Performance

The BVP-370A CCD boasts all the proven advantages of Sony's solid state sensors: ■ No problems of lag and image burn-in ■ Impervious to vibration and shock ■ Inherent immunity to strong electric or magnetic fields ■ Free from registration adjustment; what is more, the BVP-370A offers the extra superb picture performance of the Hyper HAD sensor.

High Sensitivity—Use of the newly developed Hyper HAD sensors significantly improves the sensitivity of the BVP-370A. The Hyper HAD sensor combines Sony's well proven HAD sensor™ with an OCL (On-Chip-Lens) layer placed on its surface. The structure of the HAD sensor enables a wide aperture ratio while the OCL layer effectively converges incoming light onto each photo sensor. As a result, the BVP-370A achieves the incredibly high sensitivity of f8.0 at 2000 lx.

Negligible Vertical Smear—The structure of the innovative Hyper HAD sensor also contributes to the reduction of vertical smear. The BVP-370A CCD imager combines the FIT charge transfer technique with the Hyper HAD sensor. As a result, the vertical smear level is reduced to the point where it is virtually invisible. An incredibly low smear level of -104 dB is achieved.

Excellent Signal-to-Noise Ratio—By employing advanced electronic circuitry, the BVP-370A achieves the excellent signal-to-noise ratio of 62 dB. Dark current is also considerably reduced due to the HAD sensor structure used in the Hyper HAD sensors. This gives a corresponding reduction in fixed pattern noise, maintaining low noise characteristics in any situation.

High Resolution/A total of 380,000 effective picture elements assures a remarkable horizontal luminance resolution of 700 TV lines.

Superior Color Reproduction/Enhanced Vertical Definition System (EVS)—In this system the charges of a field (odd or even) are read out every 1/90 second in the same manner as in the frame integration mode, but with the electronic shutter activated at a speed of 1/60 second at an appropriate time. This allows the BVP-370A to offer a vertical resolution of 450 TV lines with motion blur reduced to that of field rate integration.
### Studio Cameras

(BVP-370A, cont.)

#### Convenient System Operation

Along with the outstanding picture quality achieved by the Hyper HAD sensors and their associated, highly advanced electronic circuitry, the BVP-370A is designed with a wide range of functions and facilities for efficient operation in both studios and in the field. ■ Electronic Shutter—The BVP-370A features a variable speed electronic shutter built in the CCD imager. Shutter speeds—\( \frac{1}{100}, \frac{1}{128}, \frac{1}{256}, \frac{1}{500}, \frac{1}{1000}, \frac{1}{2000} \) (seconds).

■ Clear Scan™ and Extended Clear Scan—the Clear Scan and Extended Clear Scan (ECS) systems enable a precise shutter speed to be selected so that it can be matched with the computer display scanning frequency, eliminating the horizontal bands or flicker that usually occurs. Clear Scan—60.7 to 58.3 Hz (248 steps); Extended Clear Scan—30.4 to 58.3 Hz (248 steps) ■ Advanced Triax System—Sony's unique triax system employed by the BVP-370A system has been designed to match CCD camera performance. Utilizing wide band component (Y, R-Y, B-Y) video transmission, the highest quality images can be maintained for cable lengths up to 3000m.

■ Flexible Intercom System—The BVP-370A system is provided with two independent intercom channels, each of which can be connected to Production or Engineer line by switches on the camera head.

■ Improved Mic System—Two XLR connectors of the BVP-370A associated with Audio Ch-1 and Ch-2 provide phantom power to external microphones. Gain level of each channel can be remotely controlled via the 9-pin remote connector on the rear panel of the CCU-370/DCU-371 ■ Automatic Setup Function—The automatic setup of color balance (black/white balance, gamma, etc.) is provided and may be initiated from either the master setup unit or remote control panel via digital control ■ Filing System—The BVP-370A is provided with the following four filing facilities to support camera system operation. Reference file: stores the standard setup data in the auto setup mode; Setup file: 8 types of setup data can be stored; Scene file: 64 types of color paint adjustment data can be stored; Lens file: 16 types of correction data to compensate for various lenses can be stored ■ Teleprompter Facility—By using the optional BKP-3700 teleprompter unit, facilities for mounting a teleprompter are provided with an extra video circuit to feed the prompter monitor via the CCU. ■ Utility Power Outlet—(100VA) ■ Standalone Operation—By using the optional BKP-3700 standalone unit, the BVP-370A can be used alone with a VTR ■ Enhanced Controls—Skin Tone Detail: allows the detail level for human skin tones to be suppressed to a low constant value, regardless of the detail level adjustments in other areas of the picture. The color range in which the detail level is suppressed is adjustable for PHASE, WIDTH and SATURATION. Black gamma control is also provided on the BVP-370A for improved accuracy of color reproduction and picture matching between cameras. This function allows the slope of the linear part of the R, G and B transfer characteristic to be adjusted over a range of approximately 3.5 to 4.5 without affecting the gamma curve above the cross point. Master white clip from the MSU Master Setup Unit. As a further convenience, a viewfinder box cursor memory is incorporated allowing subjects to be framed easily and accurately. Three combinations of box H position, V position, height and width can be memorized and assigned to the three cursor buttons on the camera switch panel.

■ High Performance 7-inch Viewfinders—BVF-7700 and BVF-77 ■ Easy Maintenance

*1 Optional BKP-3700 teleprompter unit is required.

*2 Available for only optional standalone camera operation using BKP-370.
**BVP-370**

**3-Chip CCD Studio/OB Camera System**

- The top-end CCD studio/OB camera to cover virtually all shooting applications
- Highest quality 768 FIT CCD pickup device camera with the Hyper "HAD" (Hole Accumulated Diode) sensor: High horizontal luminance resolution of 700 TV lines; Excellent signal-to-noise ratio of 62 dB; Incredibly high sensitivity of f8.0 at 2000 lux; Incredibly low smear level of -140 dB (nominal value); Minimum lag and high resistance to image burn-in; Impervious to vibration and shock; Minimum effects from electric magnetic field; Free from registration adjustment
- Flexibly built-up studio/OB camera system with the CCU-370 Camera Control Unit, MSU-350/370 Master Setup Unit, VCS-350/370 Video Selector RCP-3700 series Remote Control Panel, and other high performance peripheral equipment
- The red and green horizontal/vertical enhancer and soft detail control are provided for natural color reproduction
- Electronic shutter provides clear images of high speed moving objects: <Shutter Speed> BVP-370: $\frac{1}{1000}, \frac{1}{125}, \frac{1}{250}, \frac{1}{500}, \frac{1}{1000}, \frac{1}{2000}$ sec.
- Advanced triax system transmission
- Two independent intercom channels and two microphone inputs
- Auto setup function (black/white balance, gamma, etc.)
- Four filing facilities, reference file, setup file, scene file, and lens file, are provided
- Optional teleprompter unit is available
- Optional standalone unit is available
- Both BVF-7000AQ/7000AQM 7-inch color viewfinder and BVF-70A/70ACE 7-inch B/W viewfinder can be used
- Easy maintenance
- Advanced mechanical design and excellent serviceability

**Supplied Accessories:**
- Extension Boards
- Number Plates
- 10-pin Plug for tracker connector
- 6-pin Connector for return control
- 4-pin Connector for script
- Tally Lamps
- Front Cover
- Fuses
- Metal Fitting for attachment
- Operation and Maintenance Manual

**Optional Accessories:**
- BKP-3613 Script Holder with Lamp (one page) for BVP-3600A/370/375/270 series
- BKP-3614 Script Holder with Lamp (two pages) for BVP-3600A/370/375/270 series
- VF-502 7" Viewfinder Sports Hood for BVP-350A/360A/370/270 series
- BKP-3700 Teleprompter Unit for BVP-370/375/270 series
- BKP-370 Standalone Unit for BVP-370/375 series
- BKP-3701 Contrast Control Unit BVP-370/375/270 series
- BKP-3702 Sub Encode Board for BVP-370/375/270 series

BVP-270/BVPS-270
3-Chip CCD Studio Camera

- Cost effective studio camera package
- BVPS-270 consists of standard BVP-270 with: CCU-370 Camera Control Unit; RCP-3720 Remote Control Panel; CCA-230 Remote Control Cable; BVF-77 Black & White Viewfinder
- Ideal for general studio use
- Higher quality 768 IT CCD pickup device camera with the Hyper "HAD" (Hole Accumulated Diode) sensor
- High horizontal luminance resolution of 700 TV lines: Excellent signal-to-noise ratio of 62 dB; Very low smear level of -105 dB (nominal value); High sensitivity of f8.0 at 2000 lux; Minimum lag and high resistance to image burn-in; Impervious to vibration and shock; Minimum effects from electric/magnetic field; Free from registration adjustment
- Flexible built-up studio/OB camera system with the CCU-370 Camera Control Unit, MSU-350/370 Master Setup Unit, VCS-350/370 Video Selector, RCP-3700 series Remote Control Panel, and other high performance peripheral equipment
- The soft detail control is provided for natural color reproduction
- Electronic shutter provides clear images of high speed moving objects <Shutter speed> BVP-270: 1/100, 1/125, 1/250, 1/500, 1/1000, 1/2000 sec.
- Advanced triax system transmission
- Auto setup function (black/white balance, gamma, etc.)
- Four filing facilities, reference file, setup file, scene file, and lens file, are provided
- Optional teleprompter unit is available
- A high resolution 7-inch B/W viewfinder BVF-70A/70ACE is available
- Easy maintenance
- Advanced mechanical design and excellent serviceability

Supplied Accessories:
- Extension Boards
- Number Plates
- 10-pin Plug for Tracker Connector
- 6-pin Connector for return Control
- 4-pin Connector for Script
- Tally Lamps

BVP-9000
3-CCD Video Camera

- FIT Hyper HAD™ CCD Sensors—The BVP-9000 uses three 3/4-inch FIT Hyper HAD sensor CCDs, each with 410,000 total picture elements. CCD sensor have many well known advantages, for example a consistent performance during their long life and their freedom from stick, lag and burn-in effects make a particularly significant contribution to the smooth and natural image quality of the Super Motion System. The highly developed structures of these BVP-9000 CCDs enable them to be clocked out at the required 43 MHz, three times normal, giving a dramatic improvement in slow motion picture quality. And the OCL (On-Chip-Lens) layer of these Hyper HAD sensors, concentrating light onto individual pixels, provides excellent picture quality even in low light conditions.

- Refined Ergonomics—The portable camera head, which weighs only about 8 kg (17 lb 10 oz.) is well balanced with low center of gravity and is extremely comfortable to operate. Its low profile guarantees good peripheral vision for the operator when used on the shoulder and its stability makes it just as suitable for tripod mounting or hand-held in positions such as low-angle shooting.

- Wideband Video Signal Processing—Processing of the wideband video signals within the camera uses techniques that have been developed as part of the long term research by Sony into its advanced High Definition technology. In addition to the linear processing, the non-linear processing such as gamma control is also performed on these wideband camera signals.

Supplied Accessories:
- VCT-14 Tripod Adaptor
- Extension Board
- Carrying Case
- Operation and Maintenance Manual

LBU-2000

Laser Beam Link Unit

- The compact and lightweight design of the LBU-2000 gives a wide range of applications in the field. - The automatic beam angle adjustment function of the LBU-2000 minimizes the initial set up period. - The LBU-2000 comes equipped with a new beam servo mechanism in which real time correction of the beam angle is automatically and accurately achieved within the range of ±5°. This plays an important role if the unit is subjected to external vibration or is accidentally moved. - Up to 4 channels of video (such as one Y/R-Y/B-Y component signal plus one VBS signal, 4 VBS signals), 8 channels of audio, and one bi-directional intercom signal can be transmitted with the LBU-2000 system. Transmission direction between units is individually selectable for each video channel which is accompanied by two audio channels. - Video transmission bandwidth is a remarkable 8MHz which provides an excellent transmission quality equivalent to that of optical cables. Furthermore, a long transmission distance of up to 2km is achieved with the high beam transmission efficiency of the LBU-2000. - Since the Laser Beam Link System does not use radio frequencies, users need not be concerned with communication regulations. - The Laser Beam Link System is virtually immune from interception, resulting in high security. Furthermore, interference between the laser beams is much less in comparison to microwave transmission, allowing multiple LBU-2000 systems to transmit in parallel. - Due to the system's low power consumption, the continuous operating time of the LBU-2000 is approximately 90 minutes with one BP-90A battery pack. The LBU-2000 can also be powered with an AC-550 AC adaptor.

System Connections

1. Stand-alone Operation: The LBU-2000 comes equipped with a modulator and demodulator for multiplex transmission, allowing stand-alone operation with an AC-550 AC adaptor or BP-90A battery. Two channels of both video and audio are available with this configuration.
3. CCU Operation System: The LBU-2000 enables Sony portable cameras docked with the CA-50/50A Camera Adaptors to interface with the CCU-350 Camera Control Unit using the laser beam link. The CCU-350 can also supply power to the LBU-2000.

Note: Power to camera head cannot be supplied from the CCU.
Optional Accessories:
- LBC-2000 Laser Beam Link Control Unit
- LC-LB1 Carrying Case for LBU-2000
- CCW-C Cables
- CCW-C25: 62.5 ft. (25m)
- CCW-C50: 165 ft. (50m)
- CCW-C100: 330 ft. (100m)

Specifications

General
- Power Requirements: DC 10.5V to 17V
- Power Consumption: Max. 40W
- Operating Temperature: -20 to 45°C (-4 to 113°F)
- Dimensions (WHD): 232 x 253 x 684mm (approx.)
- Weight: 29 lb, 12 oz. (13.5 kg) (approx.)

Laser Diode
- Material: GaAlAs
- Wavelength: 820 nm
- Laser Power: 10mW

Transmission
- Transmission Distance
  - LBU-2000 → LBC-2000: 300m Max.
- Transmission Channels
  - Video: 4 CH (VBS, Component, RGB)
  - Audio: 8 CH
  - Intercom: 1 CH (Bi-Directional)
- Video Bandwidth: 8 MHz
- Signal to Noise Ratio: 56 dB
- DQ, DP: 2%, 2°
- Audio Bandwidth: 15 kHz
- Signal to Noise Ratio: 60 dB

Specifications (continued)

Beam Servo
- Beam Correction Angle: ±5°
- Beam Monitoring: 1/4-inch CCD, LCD

- Headset IN/OUT: XLR 5-pin
- Camera/LBC/CCU IN/OUT: CCW 41-pin, Video/Audio/Intercom Signals, DC
- Laser Beam ON/OFF Control: BNC-type (75Ω - ON, OPEN - OFF)

LBC-2000 Laser Beam Link Control Unit

General
- Power Requirements: AC 120 ± 10%
- Power Consumption: Max. 135W (with LBU-2000)
- Operating temperature: -10 to 40°C (14 to 104°F)
- Dimensions (WHD): 217 x 125 x 357.5mm (approx.)
- Weight: 14 lb, 12 oz. (6.4 kg.)

Inputs/Outputs
- AC IN: AC 120V ± 10%
- Monitor OUT: BNC-type, 1.0Vp-p, 75Ω
- Video CH1-CH4 IN/OUT: BNC-type x 4, 1.0Vp-p, 75Ω
- Audio CH1-CH4, L, R IN/OUT: XLR 3-pin x 8, 0dB, 600Ω
- Intercom IN/OUT: XLR 7-pin, 0dB, 600Ω
- Headset IN/OUT: XLR 5-pin
- Input/Output: CCW 41-pin, Video/Audio/Intercom Signals
- Remote: D-sub 9-pin (for RS-232C interface)
BVF-77
7-Inch B/W Viewfinder

- Specially designed for use with the BVP-360A/370/375/270—for direct camera installation
- Fixed center of gravity
- High resolution, 800 TV lines at center
- Various camera indications provided in viewfinder
- Wide range of mechanical positioning
- Dimensions and camera interface compatible with BVF-7000A0/7000AQM

7-inch color viewfinder

Specifications

- Screen Size: 120(W) x 90(H)mm (4⅛" x 3⅜")
- Tilt Angle: ±40°
- CRT: 7", 70° deflection
- Resolution: 800 TV lines at center
- EHT Voltage: 16 KV typical
- Geometry Distortion: Within 1.0%
- Power Requirement: DC-10.7V-17.0V
- Input Video: 1.0Vp-p (+4/-6) dB sync negative
- Weight: 17 lb. 10 oz. (8 kg.)
- Dimensions (WHD): 308 x 220 x 390mm
  (2⅜" x 8⅛" x 15⅞")
**BVF-7000AQ**

7-inch Color Viewfinder

- Specially designed for use with BVP-360A/370/375—
  for direct camera installation  
- Fixed center of gravity
- Various camera indications provided in viewfinder
- Wide range of mechanical positioning  
- Dimensions and camera interface compatible with BVF-70A  
- 7-inch monochrome viewfinder  
- High resolution from Super Fine Pitch Trinitron (0.2mm center, 0.25mm side)
- Underscan display  
- RGB inputs from camera give high quality color monitoring
- Composite video input for return video display

CCU-370

Camera Control Unit for BVP-375/370/ BVP-270

- Y/R-Y/B-Y transmission via a triax cable
- An operating range of up to 3000m (2400m for return video)
- R/G/B and Y/R-Y/B-Y output
- SMPTE/EIA color bars output (CCU-370)
- Mic level control and intercom switching control can be executed via the 9-pin remote control connectors on the rear panel
- Controlled by the MSU-350/370 Master Setup Unit or the RCP-3700 series Remote Control Panels
- Compact design and 19-inch rack mountable (3 units height)

Supplied Accessories:
- Extension Boards
- 19-pin Connector for PGM/Intercom/Tally
- AC Power Cable
- 4-pin Connector for WF Mode Selection
- Tally Number Plate
- Plug Holder
- Operation and Maintenance Manual

0°C to 45°C (32°F to 113°F)

Maximum Cable Length:

3000m with φ14.5mm triax cable*3 (Fujikura)

Weight:

37 lb. 8 oz. (17 kg.) (approx.)

Dimensions (WHD):

424 x 133 x 380mm

(16¼" x 5¼" x 15") (approx.)

*1 Optional prompter board is required.
*2 Video amplitude 100/0/75/0 color bar
*3 2400m for return video
*4 Available as an option
**Specifications**

**Input Signals**

- **Camera in:** Triax (Kings type)
- **Return video 1, 2 in Digital (BNC):** Component Serial Digital (270 Mb/s) x 2
- **Digital (BNC Loop-through):** VBS, 1.0Vp-p, 75Ω x 2
- **Reference in (analog):** VBS/BS, 1.0Vp-p, 75Ω
- **Prompter in (analog):**
  - **(BNC Loop-through):** VBS, 1.0Vp-p, 75Ω (with optional BKP-3700)

**Output Signals**

- **Digital out (BNC):** Component Serial Digital (270 Mb/s) x 3
- **Encoded Video out (analog, BNC):** VBS, 1.0Vp-p, 75Ω x 2
- **R/G/B Video out** (analog, BNC):
  - **0.7Vp-p, 75Ω**
- **Y/R-Y/B-Y Video out** (analog, BNC):
  - **Y: 1.0Vp-p, 75Ω**
  - **R-Y/B-Y: 0.7Vp-p, 75Ω**
- **Picture Monitor out (analog, BNC):** 1.0Vp-p, 75Ω
- **Waveform Monitor out (analog, BNC):** 0.714Vp-p, 75Ω
- **Monitor out (analog, BNC):** 0.714Vp-p, 75Ω
- **Waveform Mode out:** 4-pin
- **Mic out (analog)** (XLR 3-pin): 0 dBs/ -20 dBs balanced, 2 channels

**DCU-371**

**Digital Camera Control Unit**

**Component Serial Digital Inputs/Outputs**—The DCU-371 provides component serial digital inputs and outputs. The three component serial digital outputs can be directly connected to the Sony DVS/DVS-V series of digital switchers or DVR/DVW series digital VTRs, while the two component serial digital inputs (RET 1/RET 2) accept digital return video from the serial outputs of the digital switcher or picture sources. Interfacing with this equipment is via conventional coaxial cables with a maximum transmission distance of 200m. The use of component serial digital transmission eliminates the need to adjust output level and equalization.

**Analog Inputs/Outputs**—In addition to its component serial digital inputs/outputs, the DCU-371 provides Y (G)/R-Y (R)/B-Y (B) and VBS signals in their analog forms.

**Compatibility with Current Triax System**—The DCU-371 uses the triax system that has been proven through widespread use with the CCU-370. This allows the DCU-371 to interface with and provide control of BVP-375/370A/270 series Studio/OB cameras as well as BVP Portable and CA-57/57A combinations.

**Compact Design**—Despite the complex circuitry required for digital video processing, the DCU-371 is designed to be very compact—19 inches in width and only three rack units high. This allows the DCU-371 to be installed in space limited areas such as OB vans as well as in studios.

**Optional Accessories:**

- **MSU-350 Master Setup Unit**
- **VCS-350 Video Selector**
- **Remote Control Panels:**
  - **RCP-3710/3711 Type I**
  - **RCP-3720/3721 Type II**
  - **RCP-3730/3731 Type III**

**Input/Output Controls**

- **MSU:** 16-pin loop-through
- **RCP:** 16-pin
- **REMOTE:** D-sub 9-pin x 2 (for MIC GAIN and INTERCOM remote control)

**Communications**

- **Intercom (RTS):** XLR 3-pin loop-through
- **Tally/PGM:** 19-pin
- **Intercom/PGM (Front Panel):** XLR 5-pin

**General**

- **Power Requirements:** AC 120V ± 10%, 50 Hz/60 Hz
- **Power Consumption:** Max 400 VA (approx.)
- **Operating Temperature:** 0°C to 45°C (32°F to 113°F)
- **Maximum Cable Length:** 3000m with Ø14.5mm triax cable
- **Weight:** 45 lb. 3 oz. (20.5kg.) (approx.)
- **Dimensions (WHD):** 424 x 132 x 450mm (16¾" x 5⅞" x 17¾"")

---

1 Optional BKP-3700 teleprompter unit is required.
2 Output signal is selected between either analog RGB or Y/R-Y/B-Y.
3 2400m for return video
Studio Camera Accessories

MSU-370
Master Setup Unit

- Designed for very sophisticated camera operation in large-scale studios or production systems
- Can setup a maximum of 8 camera/CCU units with one VCS-370
- The addition of up to four VCS-350's allows the MSU-370 to control up to 36 cameras
- A large LCD display is provided for displaying various camera data at the same time
- Can control the CCU-370/370P, CCU-355/355P and CCU-350/350P

Supplied Accessories:
- 19-pin Connector (tally/Intercom)
- Operation and Maintenance Manual

Specifications
- Input/Output Connectors: VCS: 50-pin
- AUX: D-sub 37-pin
- INCOM/PGM: 19-pin (rear panel)
- RTS/CLEARCOM-TW12: LINE IN: XLR 3-pin, LINE OUT: XLR 3-pin
- INCOM/PGM: Double jack (front panel)
- TALLY OUT: D-sub 25-pin

- Power Requirements: AC-90V-264V, 50/60 Hz
- Operating Temperature: 0°C to 45°C (32°F to 113°F)
- Weight: 26 lb. 7 oz. (12 kg.) (approx.)
- Dimensions (WHD): 424 x 133 x 400mm (16¼" x 5¼" x 15¾") (approx.)

MSU-350
Master Setup Unit

- Designed to cover operation of camera system for typical compact studios and OB vans
- Can setup a maximum of 8 camera/CCU units with one VCS-350
- By connecting one more VCS-350, a total of 15 camera/CCU units can be setup
- Small size, lightweight, and low consumption
- The CCU-370/370P, CCU-355/355P, and CCU-350/350P can be controlled

Supplied Accessories:
- AC Power Cord (3) (1 x three types)
- ID Card Sheet
- ID Card
- Plug Holder
- Operation and Maintenance Manual

Specifications
- Power Requirements: AC-90V-264V, 50/60 Hz
- Power Consumption: 12W
- Connectors: CCU/VCS: 16-pin loopthrough
- Operating Temperature: 0°C to 45°C (32°F to 113°F) (approx.)
- Dimensions (WHD): 400 x 66 x 177mm (15½" x 2¼" x 7") (approx.)
- Weight: 8 lb. 13 oz. (4 kg.) (approx.)
### Studio Camera Accessories

#### RCP-3710/3711/RCP-3720/3721/ RCP-3730/3731

**Remote Control Panel**

**Remote Control Panel Type-I**
- RCP-3710 (Joy Stick Type)/3711 (Dial Control Type): Ideal for use in combination with MSU system; Includes most frequently used control functions during camera operation

**Remote Control Panel Type-II**
- RCP-3720 (Joy Stick Type)/3721 (Dial Control Type): Standard Remote Control Panel; Scene file capability

**Remote Control Panel Type-III**
- RCP-3730 (Joy Stick Type)/3731 (Dial Control Type): The top of the range unit with full control function; Maintenance controls with reference file capability; Can be used as a substitute for the MSU

**Supplied Accessories:**
- 16-pin Connector
- 6-pin Connector
- Number Plate
- Rack Bracket (RCP-3720/3721 and RCP-3730/3731)
- Operation and Maintenance Manual

Studio Camera Accessories

VCS-370

Video Selector
- Routes video output of multiple cameras for picture and waveform monitoring. Up to 8 pix and WF signal can be input.
- Designed exclusively for the MSU-370

Supplied Accessories:
- AC Power Cord (3) (1 x three types)
- MSU Connecting Cable (D-sub 50-pin, 10m)
- 4-pin Connector for WF Mode Selector
- Operation and Maintenance Manual

Broadcast Portable Cameras

BVP-90
3-Chip CCD Camera
- Highest quality 1000H FIT Hyper HAD (Hole Accumulated Diode) CCD pickup (520K picture elements); High horizontal luminance resolution of 800 TV lines; Excellent signal-to-noise ratio of 62 dB; Incredibly low smear level of -140 dB (nominal value); High sensitivity of f8.0 at 2000 lux; Minimum lag and high resistance to image burn-in; Impervious to vibration and shock; Minimum effects from electric/magnetic field; Free from registration adjustment ■ Enhanced operational features: Two, four position filter wheels; Programmable gain; Extended Clear Scan™; Auto level set-up; Super Enhanced Vertical Definition (EVS); High resolution 10-bit control system ■ Electronic shutter provides clear images of high speed moving objects; Shutter speeds: 1/1000, 1/500, 1/250, 1/125, 1/60, 1/30, 1/15, 1/8, 1/4, 1/2, 1/1, 1/0.5, 1/0.3, 1/0.15, 1/0.06 sec. ■ Compact and lightweight (only 6 lb. 13 oz. (3.1 kg.) with VF) ■ Remotely controlled by various CCUs via CA-50 series Camera Adaptors ■ Dynamic Contrast Control ensures wide dynamic range ■ Automatic iris control ■ Automatic white/black balance ■ Two-line image enhancement ■ Linear matrix ■ Viewfinder indications for warning/confirmation ■ A high resolution 1.5-inch viewfinder and anti-vibration microphone ■ Camcorder, stand alone or CCU operation ■ Studio companion camera for BVP-375 studio camera

Supplied Accessories:
VCT-14 Tripod Adaptor
Extension Board
50-pin Connector Cap
Rain Cover
Mic Connector Cover
Operation Manual
Maintenance Manual
VTR Attachment

Gain Selection: -3 dB, 0 dB, 3 dB, 6 dB, 9 dB, 12 dB, 18 dB, 24 dB, 30 dB
Shutter Speed Selection: 1/1000, 1/500, 1/250, 1/125, 1/60, 1/30, 1/15, 1/8, 1/4, 1/2, 1/1, 1/0.5, 1/0.3, 1/0.15, 1/0.06 sec.
Clear Scan Selection: 60.1 Hz-125.3 Hz (137 steps)
Extended Clear Scan Selection: 49.0 Hz-58.1 Hz (51 steps)
Registration: 600 TV lines
Geometric Distortion: Below measurable level
Power Requirements: DC-12V (10.5V-17V)
Power Consumption: 13W
Operating Temperature: -20°C to 45°C (-4°F to 113°F)
Storage Temperature: -20°C to 60°C (-4°F to 140°F)
Weight: 6 lb. 13 oz. (3.1 kg.) (approx.)

Viewfinder
- Picture Tube: 1.5" monochrome
- Warm-Up Time: 1 sec.
- Controls: BRIGHT control, CONTRAST control, AUDIO LEVEL CH-1 control, PEAKING control, ZEBRA ON/MOMENT/OFF switch, TALLY HIGH/LOW/OFF switch

Specifications
Camera
- Pick-up Device: 3-chip 5/4" Frame-Interline-Transfer CCD
- Picture Elements: Total: 1038(H) x 504(V)
- Effective: 980(H) x 494(V)
- Optical Filters: Color filters ND filters
- Lens Mount: Special bayonet mount
- Video Output: 1.0Vp-p, 75Ω, sync negative
- Connectors: VTR: 50-pin TEST OUT: BNC type LENS: 12-pin REMOTE: 6-pin
- Sensitivity: > 18.0 at 2000 lux (320K, 89.9% reflectance)
- Minimum Illumination: 1.9 lux (f1.4 lens, +30 dB gain) (approx.)
- Video Signal-to-Noise Ratio: 62 dB (typical)
- Horizontal Resolution: 800 TV lines
- Vertical Resolution: 350 TV lines
- Horizontal Resolution: 450 TV lines (with Super EVS Mode ON)
Broadcast Portable Cameras

BVW-400A
Betacam SP One Piece Camcorder

- High performance single piece (inseparable) type camcorder
- Incorporates advanced 768 FIT Hyper HAD™ CCD technology in the camera section and Betacam SP recording technology in the VTR section to cover from ENG to the most complex and quality conscious EFP applications
- Extremely high sensitivity of f8.0 at 2000 lux and very low smear level of -140 dB (nominal value)
- Ultra compact mechanical deck allows the smallest body in Betacam SP line-up
- Approx. 15 lb. 7 oz. (7.0 kg.) including the battery, cassette, and latest 13 x 9 lens with extender
- Low power consumption of 22W
- Up to 70 minutes of operation with a single NP-1B battery
- More than 30 minutes of recording time using the S-cassette
- 26-pin VTR interface capability with the optional BKW-402 VTR Connector Unit (Parallel component recording with the external VTR is possible)
- Interface capability with the BVW-50 via the optional CCRZ-5 cable for emergency recording needs
- Electronic shutter provided BVW-400: Ⅰ/100, Ⅰ/125, Ⅰ/250, Ⅰ/500, Ⅰ/1000, Ⅰ/2000 sec.
- Full color genlock capability
- Newly designed high resolution viewfinder with quick start CRT: Detachable viewfinder eyepiece; Center marker, safety zone (80% or 90%) and VTR save mode indications provided; Viewfinder rotation function with the optional BKW-401 Viewfinder Rotation Bracket
- Various automatic functions in camera section
- Two AFM audio channels in addition to two longitudinal channels with the Dolby C-Type NR (Noise Reduction) system
- Audio confidence playback (longitudinal)
- Viewfinder playback (luminance or CTDM selectable)
- Color playback in the field with the optional VA-500 Playback Adaptor
- Full range of machine control provided (Fast forward/Rewind/Play/Stop/Eject)
- Recording review function
- Built-in LTC/VITC/User Bit generator and LTC reader with external time code lock capability
- Frame accurate back space editing
- 8-digit LCD display
- Bar graph meter for audio level and battery status
- Built-in loudspeaker
- Phantom power supply (48V, CH-1/2)
- External DC output for Sony Wireless microphone receiver
- Super EVS operation mode for increased vertical resolution and perceived detail
- New Electronic Shutter Modes: Extended clear scan 51 steps (¼ to ½87.7 sec.)
- Clear scan 137 steps (¼0.1 to ½25.3 sec.)
- New high resolution viewfinder with improved displays
- Automatic key light
- Accepts Anton Bauer "Intelligent" Battery

Supplied Accessories:
- VCT-14 Tripod Adaptor
- Extension Board
- Rain Cover
- Shoulder Belt
- Operation and Maintenance Manual

* The specifications given above were measured by playing back tapes recorded by the BVW-300A/400/BVV-5 on standard Betacam SP VTRs.
Broadcast Portable Cameras

BVW-300A
Betacam SP One Piece Camcorder

- High performance single piece (inseparable) type camcorder
- Incorporates advanced IT Hyper HAD™ CCD technology in the camera section and Betacam SP recording technology in the VTR section to cover from ENG to the most complex and quality conscious EFP applications
- Extremely high sensitivity of f8.0 at 2000 lux and very low smear level of -105 dB (nominal value)
- Ultra compact mechanical deck allows the smallest body in Betacam SP line-up
- Approx. 15 lb. 7 oz. (7.0 kg.) including the battery, cassette, and latest 13 x 9 lens with extender
- Low power consumption of 21W
- Up to 75 minutes of operation with a single NP-1 battery
- More than 30 minutes of recording time using the S-cassette
- 26-pin VTR interface capability with the optional BKW-402 VTR Connector Unit (Parallel component recording with the external VTR is possible)
- Interface capability with the BVW-50 via the optional CCRZ-5 cable for emergency recording needs
- Electronic shutter provided BVW-300A: 1/100, 1/125, 1/250, 1/500, 1/1000, 1/2000 sec.
- Full color genlock capability
- Newly designed high resolution viewfinder with quick start CRT: Detachable viewfinder eyepiece; Center marker, safety zone (80% or 90%) and VTR save mode indications provided; Viewfinder rotation function with the optional BKW-401 Viewfinder Rotation Bracket
- Various automatic functions in camera section
- Two AFM audio channels in addition to two longitudinal channels with the Dolby C-Type NR (Noise Reduction) system
- Audio confidence playback (longitudinal)
- Viewfinder playback (luminance or CTDM selectable)
- Color playback in the field with the optional VA-500 Playback Adaptor
- Full range of machine control provided (Fast forward/Rewind/Play/Stop/Eject)
- Recording review function
- Built-in LTC/VITC/User Bit generator and LTC reader with external time code lock capability
- Frame accurate back space editing
- 8-digit LCD display
- Bar graph meter for audio level and battery status
- Built-in loudspeaker
- Phantom power supply (+48V, Ch-1/2)
- External DC output for Sony wireless microphone receiver

Supplied Accessories:
- VCT-14 Tripod Adaptor
- Extension Board
- Rain Cover
- Shoulder Belt
- Operation and Maintenance Manual
### Broadcast Portable Cameras

#### Specifications (BVW-300A, cont.)

**General**
- **Weight:** 11 lb. (5.0 kg.) (approx.)
- **Power Requirements:** DC-12V (+5.0/−1.5)V
- **Power Consumption:** 21W (with viewfinder)
- **Operating Temperature:** 0°C to 40°C (32°F to 104°F)
- **Storage Temperature:** −20°C to 60°C (-4°F to 140°F)
- **Humidity:** < 85% (relative humidity)

### Tape Specifications
- **Tape Speed:** 11.86 cm/sec.
- **Recording/Playback Time:** > 30 min. BCT-30M
- **Fast Forward Time:** < 9 min. with BCT-30M
- **Rewind Time:** < 5 min. with BCT-30M
- **Continuous Operating Time:** 75 min. (approx.) with NP-1B

### Camera Specifications
- **Pick-Up Device:** 3-chip 1/3" interline transfer CCD
- **Picture Element (HV):** 768 x 493
- **Optical System:** f1.4 prism system
- **Built-In Filters:** 1: 3200K, 2: 5600K, + 1/4ND, 3: 5600K, 4: 5600K + 1A6ND
- **Shutter Speed:** 1/1000, 1/500, 1/250, 1/125, 1/60, 1/30, 1/15, 1/8, 1/4, 1/2, 1, 2 sec.
- **Lens Mount:** Special bayonet mount
- **Video Output:** 1.0Vp-p, 75Ω, sync negative, two outputs
- **Sensitivity:** f8.0 at 2000 lux, 89.9% reflectance
- **Minimum Illumination:** 7.5 lux (approx.) (fl.4 lens, +18 dB gain)
- **Video S/N Ratio:** 62 dB (typical)
- **Horizontal Resolution:** 700 TV lines
- **Registration:** 0.05% (all zones, without lens)
- **Geometric Distortion:** Below measurable level (without lens)
- **Warm-Up Time:** 2 sec.
- **Viewfinder:** 1.5" monochrome, 550 TV line resolution
- **Microphone:** Sharp-directional (detachable)

### Video/Audio Specifications

#### Video
- **Bandwidth**
  - **Luminance:** 30 Hz−4.5 MHz (+0.5/−3.0) dB
  - **Color Difference (50% modulation):** 30 Hz−1.5 MHz (+0.5/−3.0) dB
- **S/N Ratio**
  - **Luminance (Component IN/OUT):** > 51 dB
  - **Chrominance:** AM: > 53 dB, PM: > 53 dB
- **Distortion:**
  - **Differential Gain:** < 2%
  - **Differential Phase:** < 2°
  - **K-factor (2T pulse):** < 2%
  - **Y/C Delay:** < 20 ns

#### Audio
- **Longitudinal**
  - **Frequency Response:** 50 Hz−15 kHz
  - **S/N ratio (at 3% distortion level):** > 72 dB
- **Distortion T.H.D.**
  - (at 1 kHz reference level): < 1.5%
  - (at 1 kHz reference level): < 2%
  - (at 1 kHz reference level): < 55 dB
  - **Depth of Erasure (at 1 kHz):** > 65 dB
  - **Wow and Flutter:** < 0.15% rms
- **AFM**
  - **Frequency Response:** 20 Hz−20 kHz
  - **Dynamic Range:** > 80 dB

- **Oxide Tape**
  - **Bandwidth**
  - **Luminance:** 30 Hz−4.1 MHz (+0.5/−6.0) dB
  - **Color Difference (50% modulation):** 30 Hz−1.5 MHz (+0.5/−3.0) dB
  - **S/N Ratio**
  - **Luminance (Component IN/OUT):** > 48 dB
  - **Chrominance:** AM: > 50 dB, PM: > 50 dB
  - **Distortion:**
    - **Differential Gain:** < 3%
    - **Differential Phase:** < 3°
    - **K-factor (2T pulse):** < 3%
    - **Y/C Delay:** < 20 ns

* The specifications given above were measured by playing back tapes recorded by the BVW-300A/400/BVV-5 on standard Betacam SP VTRs.
BVP-70IS
3-Chip CCD Camera

- Highest quality 768 FIT CCD pickup device camera with the Hyper "HAD" (Hole Accumulated Diode) sensor: High horizontal luminance resolution of 700 TV lines; Excellent signal-to-noise ratio of 62 dB; Incredibly low smear level of -140 dB (nominal value); High sensitivity of f8.0 at 2000 lux; Minimum lag and high resistance to image burn-in; Impervious to vibration and shock; Minimum effects from electric/magnetic field; Free from registration adjustment.

- Electronic shutter provides clear images of high speed moving objects <Shutter speed>
  BVP-70IS: 1/100, 1/125, 1/250, 1/500, 1/1000, 1/2000 sec.

- Compact and lightweight (only 7 lb. 7 oz. (3.4 kg.) with VF)
- Remotely controlled by various CCUs via CA-50 series Camera Adaptors
- Dynamic Contrast Control ensures wide dynamic range
- Automatic iris control
- Automatic white/black balance
- Two-line image enhancement
- Linear matrix
- Viewfinder indications for warning/confirmation
- A high resolution 1.5" viewfinder and anti-vibration microphone

Supplied Accessories:
- VCT-14 Tripod Adaptor
- Extension Board
- Extractor
- 50-pin Connector Cap
- Rain Cover
- Cap for Handle Hole
- Carrying Handle
- Operation and Maintenance Manual

Specifications

- Pickup Device: 3-chip 2/3" Frame Interline Transfer CCD
- Picture Element: 768(H) x 494(V)
- Optical System: f1.4 prism system
- Lens Mount: Special bayonet mount
- Viewfinder: 1.5" monochrome, 550 TV line resolution
- Sensitivity: f8.0 at 2000 lux (3200K, 89.9% reflectance)
- Minimum Illumination: 7.5 lux (f1.4 lens, + 18 dB gain) (approx.)
- Video S/N Ratio: 62 dB (typical)
- Horizontal Resolution: 700 TV lines (luminance at center)
- Registration: 0.5% (all zones, without lens)
- Geometric Distortion: Below measurable level (without lens)
- Power Requirements: DC-12V (10.5V~17V)
- Power Consumption: 14W
- Warm-Up Time: 2 sec.
- Operating Temperature: -20°C to 45°C (-4°F to 113°F)
- Storage Temperature: -20°C to 60°C (-4°F to 144°F)
- Weight: 7 lb. 7 oz. (3.4 kg.) (approx.) with viewfinder

- Auto W/B Balance: Yes
- 2-Line Image Enhancement: Yes
- Color Framing Out from Multi Connector: Yes
Broadcast Portable Cameras

BVP-7A
3-Chip CCD Camera

- Higher quality 768 IT CCD pickup device camera with the Hyper "HAD" (Hole Accumulated Diode) sensor: High horizontal luminance resolution of 700 TV lines; Excellent signal-to-noise ratio of 62 dB; Smear level reduced to a remarkably low −105 dB (nominal value), making the smear phenomenon almost invisible; High sensitivity of 18.0 at 2000 lux; Minimum lag and high resistance to image burn-in; Impervious to vibration and shock; Minimum effects from electric/magnetic field; Free from registration adjustment
- Electronic shutter provides clear images of high speed moving objects
- <Shutter speed> BVP-7A: \(\frac{1}{100}, \frac{1}{125}, \frac{1}{250}, \frac{1}{500}, \frac{1}{1000}, \frac{1}{2000}\) sec.
- Compact and lightweight (only 7 lb. 7 oz. (3.4 kg.) with VF)
- Remotely controlled by various CCUs via CA-50 series Camera Adaptor
- Dynamic Contrast Control ensures wide dynamic range
- Automatic iris control
- Automatic white/black balance
- Two-line image enhancement
- Linear matrix
- Viewfinder indications for warning/confirmation
- A high resolution 1.5” viewfinder and anti-vibration microphone

Supplied Accessories:
- VCT-14 Tripod Adaptor
- Extension Board
- Extractor
- 50-pin Connector Cap
- Rain Cover
- Cap for Handle Hole
- Carrying Handle
- Operation and Maintenance Manual

Specifications

- Pickup Device: 3-chip 3/4" Interline transfer CCD
- Picture Element: 768(H) x 493(V)
- Optical System: f1.4 prism system
- Lens Mount: Special bayonet mount
- Viewfinder: 1.5” monochrome, 550 TV lines resolution
- Sensitivity: 18.0 at 2000 lux (3200K, 89.9% reflectance)
- Minimum Subject Illumination: 7.5 lux (f1.4 lens, +18 dB gain) (approx.)
- S/N Ratio: 62 dB
- Horizontal Resolution: 700 TV lines (at center)
- Registration: 0.05% (all zones without lens)
- Geometric Distortion: Below measurable level (without lens)
- Power Requirements: DC-12V (10.5V–17V)
- Power Consumption: 13W
- Warm-Up Time: 2 sec.
- Operating Temperature: −20°C to 45°C (−4°F to 113°F)
- Storage Temperature: −20°C to 50°C (−4°F to 122°F)
- Weight: 7 lb. 8 oz. (3.4 kg.) (approx.) with viewfinder
- Auto W/B Balance: Yes
- 2-Line Image Enhancement: Yes
- Color Framing Out from Multi Connector: Yes
- Video Level Indicator: Yes

A-26
BVP-T70
3-Chip CCD Camera

- A high resolution 1.5" viewfinder and anti-vibration microphone
- Convenient intercom system between optical head, camera body and CCU
- Detachable compact optical head (WHD): 100 x 85 x 90mm (4" x 3½" x 3½") can be remotely operated at locations up to 20m away from camera body
- By using the supplied Connector Conversion Unit, Cable Compensation Unit, and optional CCZ-A cable, remote operation at up to 100m can be accomplished
- Higher quality 768 FIT CCD pickup device camera with the Hyper "HAD" (Hole Accumulated Diode) sensor: High horizontal luminance resolution of 700 TV lines; Excellent signal-to-noise ratio of 62 dB; Incredibly low smear level of -140 dB (nominal value); High sensitivity of f8.0 at 2000 lux; Minimum lag and high resistance to image burn-in; Impervious to vibration and shock; Minimum effects from electric/magnetic field; Free from registration adjustment
- Electronic shutter provides clear images of high speed moving objects

Shutter speed:
BVP-T70: 1/100, 1/125, 1/250, 1/500, 1/1000, 1/2000 sec.

- Various system connections possible with portable VTRs and CCUs using Camera Adaptors
- Directly dockable to the BVV-5 Betacam SP Recorder Unit
- Automatic iris control
- Two-line image enhancement
- Automatic white/black balance
- Linear matrix
- Compatibility between three different optical heads
- Viewfinder indications for warning/confirmation

Supplied Accessories:
- Extension Cable (20m)
- CCZ-A5 Cable (5m)
- Connector Conversion Unit
- Cable Compensation Unit
- VCT-14 Tripod Adaptor
- Extension Board
- Extractor
- Incom Adaptor
- 50-pin Connector Cap
- Rain Cover
- Cap for Handle Hole
- Operation and Maintenance Manual

Broadcast Portable Camera Accessories

AN-27
UHF Shoulder Antenna

BKW-401
Viewfinder Rotation Bracket for BVW-300A/400A Series

BKW-402
VTR Connector Unit (26-pin) for BVW-300A/400A

BTA-37
UHF Diversity Tuner Attachment Kit
- Leatherette case with accessories to allow a WRR-37 receiver to be mounted on Betacam series Camcorders including BVW-507A/5701S/200/300A/400A

BVF-3
3-Inch B/W Viewfinder
- Sharp and wide pictures without the need of eye-piece optics
- High resolution of 650 TV lines
- For versatile shooting style
- Phase corrected peaking circuit
- Portability and low power consumption
- Automatic EIA/CCIR system selection
- For the BVP series portable camera and BVW-300A/400A

Supplied Accessories:
- Hood
- VF Slide Guide for the BVP-7A/701S/7000HS
- 12-pin to 12-pin Cable for the BVP-350A
- 12-pin to 20-pin Cable for the BVP-7A/701S/7000HS and BVW-300A/400A
- Operation and Maintenance Manual

Specifications
- Screen Size: 56(W) x 47(H)mm (2 ¼" x 1 ¾") underscan
- Power Requirements: DC-10.5V-17.0V
- Power Consumption: 3W
- Resolution: > 850 TV lines at center
- > 500 TV lines at corners
- Picture Distortion: < 2%
- Operating Temperature: - 20°C to 50°C (-4°F to 122°F)
- Weight: 2 lb. 3 oz. (1 kg.)
- Dimensions (WHD): 87 x 94.6 x 226.4mm (3 ½" x 3 ½" x 9")
Broadcast Portable Camera Accessories

BVF-55
5-Inch B/W Viewfinder
- 650 TV lines of resolution at center
- High brightness—600 NIT
- Adjustable center position marker with ON/OFF switch
- Panning and tilting facility
- Easy installation and handling
- For BVP series portable cameras

Supplied Accessories:
- Connecting Cables (12-pin–20-pin)
- Slide Shoe
- V Wedge Shoe Attachment
- Screws
- Monitor Hood for Studio Use

Specifications
- Screen Size: 73(H) x 97(W)mm underscan (2¾" x 3¾")
- Power Requirements: DC-12V
- Power Consumption: 10W
- Resolution: 650 TV lines at center
- 550 TV lines at corners
- Picture Distortion: < 3%
- Operating Temperature: -10°C to 50°C (14°F to 122°F)
- Weight: 4 lb. 3 oz. (1.9 kg.)
- Dimensions (WHD): 191 x 188 x 291mm
  (7½" x 7½" x 11½")

BVP-T70H
Camera Head Unit
- Designed for use with the BVP-T70 portable camera
- Includes Optical Head, Connector Conversion Unit and Viewfinder

Supplied Accessories:
- Installation Manual

Specifications
- Weight: 3 lb. 12 oz. (1.7 kg.) (without VF)
- Dimensions (WHD): 128 x 208 x 216mm
  (5¼" x 8¼" x 8½")

CA-3A
Camera Adaptor for Portable Camera
- Provides a 26-pin connector to interface with portable VTRs via the CCZ or CCZQ cable

Specifications
- Connectors:
  - MIC IN: XLR 3-pin, 600Ω, balanced
  - DC IN: XLR 4-pin, 10.5V–17V
  - GENLOCK IN: BNC, 1Vp-p, 75Ω
  - EARPHONE: Mini jack, 8Ω
  - CAMERA: 50-pin
  - VTR: 26-pin
  - VF: 12-pin
  - REMOTE: 10-pin
- Power Consumption: 0.8W (with BVP-7A/70IS/T7A/T70/7000HS series camera)
- Weight: 1 lb. 3 oz. (550 g.) (approx.)
Broadcast Portable Camera Accessories

CA-57A

Triax CCU Adaptor

- Furnished with a triax cable interface for use with the
  CCU-370 Camera Control Unit and DCU-371 Digital Camera
  Control Unit.
- High picture quality is provided through component
  (Y/R-Y/B-Y) transmission in the triax cable.
- Ideal for studio use — All function switches are located
  at the rear in order to lower the viewfinder position and
  for comfortable tripod use in studios.
- Switchable intercom system (Producer or Engineer line can
  be selected).
- Connecting Cable (CA-57A to CCU-370/DCU-371)

Others

- Built-In Shoe for Mounting the BVF-55 5-inch Viewfinder | Yes | Yes | Yes |
CCU-350

Camera Control Unit

- Provides multicore transmission
- Directly interfaces with the MSU-350/370
- Directly interfaces with the RCP-3700 series to allow a flexible choice of operational control
- Interfacing capability with BVP-7A/701S series cameras with the CA-50 Camera Adaptor
- Remote operation up to 300 meters
- Compact and lightweight
- Low power consumption
- Half a 19-inch rack size wide
- 19-inch rack mountable with the optional RMM-301 Rack Mount Unit
- Built-in genlock
- Full communication facility including talkback and program audio feeds to the camera, plus camera reverse talkback to the CCU

Supplied Accessories:
AC Power Cord
Extension Board
Tally Number Label
4-pin Connector for Waveform Monitor
Operation and Maintenance Manual

Optional Accessories:
BKP-3550 Auto Upgrade Board for CCU-350/355 series

Specifications

Input Signals

- Camera In: 41-pin Multicore connector
- Return Video 1, 2 In (BNC, loopthrough): VBS, 1.0Vp-p, 75Ω
- Genlock In (BNC, loopthrough): VBS/BS, 1.0Vp-p, 75Ω

Output Signals

- Encode Video Out 1 (BNC): VBS, 1.0Vp-p, 75Ω
- Encode Video Out 2 (BNC): VBS/BS, 1.0Vp-p, 75Ω
- R/G/B Video Out (BNC): 714mVp-p, 75Ω
- Y/R-Y/B-Y Out (BNC): Y: 1.0Vp-p, 75Ω
- R-Y/B-Y: 700mVp-p, 75Ω
- Picture Monitor Out (BNC): 1.0Vp-p, 75Ω
- Waveform Monitor Out (BNC): 714mVp-p, 75Ω
- Sync Out (BNC): 2Vp-p, negative, 75Ω
- Waveform Mode Out: 4-pin
- Mic Out (XLR 3-pin): 0 dBs/ -20 dBs balanced

Input/Output Connectors

- MSU/CCP: 16-pin loopthrough
- RCP: 16-pin

Communications

- Red Tally/Incom: XLR 7-pin (rear panel)
- Green Tally/Incom: XLR 7-pin (rear panel)
- Incom/PGM: XLR 5-pin (front panel)
- Cable Compensation: 0 (25m) to 300m, in 50m steps
- Power Requirements: AC-90V--264V, 50/60 Hz
- Power Consumption: 25W
- Operating Temperature: -10°C to 45°C (14°F to 113°F)
- Maximum Cable Length: 300m
- Weight: 14 lb. 5 oz. (6.5 kg.) (approx.)
- Dimensions (WHD): 200 x 120 x 335mm (7¾" x 4½" x 13¼") (approx.)
  (Not including projecting parts and controls)

*1Video amplitude 100/0/75/0 color bar.
Broadcast Portable Camera Accessories

CCU-355
Camera Control Unit
- Y/R-Y/B-Y transmission via a triaxial cable
- Directly interfaces with the MSU-350/370
- Directly interfaces with the RCP-3700 series to allow a flexible choice of operational control
- Interfacing capability with the BVP-7A/70IS series cameras with the CA-55 Camera Adaptor
- Remote operation up to 1800 meters with ∅14.5mm cable
- Compact and lightweight
- Low power consumption
- Half a 19-inch rack size wide; 19-inch rack mountable with the optional RMM-301 Rack Mount Unit
- Built-in genlock
- Full communication facility including talkback and program audio feeds to the camera, plus camera reverse talkback to the CCU

Supplied Accessories:
- Power Cable
- Tally Number Label
- 4-pin Connector for Waveform Monitor
- Operation and Maintenance Manual

Optional Accessories:
- BKP-3550 Auto Upgrade Board for CCU-350/355 series

Specifications

Input Signals
- Camera In: Triax (Kings type)
  - Return Video 1, 2 In (BNC, loopthrough): VBS, 1.0Vp-p, 75Ω
  - Genlock In (BNC, loopthrough): VBS/BS, 1.0Vp-p, 75Ω

Output Signals
- Encode Video Out 1 (BNC): VBS, 1.0Vp-p, 75Ω
- Encode Video Out 2 (BNC): VBS/BS, 1.0Vp-p, 75Ω
- R/G/B Video Out (BNC): R: 1.0Vp-p, 75Ω, Y: 0.7Vp-p, 75Ω, Y/R-Y/B-Y: 1.0Vp-p, 75Ω, Y/R-Y/B-Y: 0.7Vp-p, 75Ω
- Picture Monitor Out (BNC): Y: 1.0Vp-p, 75Ω
- Waveform Monitor Out (BNC): Y: 1.0Vp-p, 75Ω
- Sync Out (BNC): 2Vp-p, negative, 75Ω
- Waveform Mode Out: 4-pin
- Mic Out (XLR 3-pin): 0 dBs/ -20 dBs balanced

Input/Output Connectors
- MSU/CCP: 16-pin loopthrough
- RCP: 16-pin
- DATA: 16-pin

Communications
- Red Tally/Incom: XLR 7-pin (rear panel)
- Green Tally/Incom: XLR 7-pin (rear panel)
- Incom/PGM: XLR 5-pin (front panel)
- Power Consumption: 25W
- Operating Temperature: -10°C to 45°C (14°F to 113°F)
- Maximum Cable Length:
  - 900m with ∅6.5mm triax cable
  - 1800m with ∅14.5mm triax cable
  - 1350m with ∅13.2 triax cable
- Weight: 18 lb. 12 oz. (8.5 kg.) (approx.)
- Dimensions (WHD):
  - 200 x 184 x 335mm
  - (7¾" x 6¾" x 13¼") (approx.)
  - (Not including projecting parts and controls)

LC-201
Carrying Case for BVW-300A/400A Series
- This model is not available in some areas
LC-555
Carrying Case for BVW-507A/570IS Series
This model is not available in some areas

RM-P3
Remote Control Unit
Designed to control field portable cameras such as the BVP-7A/70IS/T7A/T70/7000HS series
Supplied Accessories:
- 6-pin Cable (10m)
- Operation and Maintenance Manual

Specifications
- Weight: 13 oz. (370 g.)
- Dimensions (WHD): 82 x 158 x 54mm
  \( (3\frac{1}{4}'' \times 6\frac{1}{4}'' \times 2\frac{1}{4}'') \)
- Power Consumption: 0.15W

WRR-28
UHF Portable Tuner
- Operation in 902 MHz to 952 MHz (WRR-28H) or 470 MHz to 860 MHz (WRR-28M/28L(AE)/28L) band
- Easy mounting on Betacam using supplied attachment kit
- Switchable linear/compander mode (compatible with conventional transmitters and wireless microphones in linear mode)

Specifications
- Dimensions (WHD): 64 x 121 x 23mm
  \( (2\frac{1}{4}'' \times 4\frac{1}{4}'' \times 96\frac{1}{4}'') \)
- Weight: 9 lb. 9 oz. (280 g.)

WRR-37
UHF Diversity Tuner
- Dual tuner for diversity reception on 400 or 900 MHz band
- Whip and shoulder antennas supplied

Specifications
- Dimensions (WHD): 35 x 172 x 203mm
  \( (1\frac{7}{4}'' \times 6\frac{3}{4}'' \times 8'') \)
- Weight: 3 lb. (1.35 kg.) w/batteries
DXC-M7/1 Series
3-Chip CCD Color Video Camera
- Three Interline-Transfer CCD chips for the image sensor
- High density CCD chips accurately mounted on the prism by Sony's original spatial offset technology offer true 700 TV lines of horizontal resolution
- Hole Accumulated Diode Sensors provide an excellent S/N ratio of 60 dB
- Wide ratio of photo sensing area offers a high Matrix circuit
- Variable speed electronic shutter greatly improves the dynamic resolution when shooting moving subjects
- DCC (Dynamic Contrast Control) circuit can reproduce 600% dynamic range
- Automatic white balancing and A/B white balance memories for each optical filter positions
- Auto iris reference level can be controlled by five steps (+ 1f stop/+ 0.5f stop/Preset/− 0.5f stop/− 1f stop)
- Each the master gamma and the R/B gamma can be controlled independently on the camera head
- Detail level of the 2-line image enhancer can be delicately controlled for both the horizontal and the vertical lines
- Pedestal level can be controlled on the camera head
- Convenient gain-up switch (0/ + 9/ + 18 dB)
- Interfaces with the Betacam and the U-matic portable VTRs via Sony Z-type 26-pin connector
- The DXF-M7 multi-position viewfinder provides the most comfortable viewing position (DXC-M7K/M7 only)
- Built-in SMPTE color bars generator and RS-170A sync generator
- Zebra video level indication
- Phantom power supply for an external microphone
- Magnesium diecast body and shielding on the body to avoid radio frequency interference
- Extended system versatility with optional CCU-M7 camera control unit, RM-M7G remote control unit and CA-M7 studio adaptor

DXC-537A

3-Chip CCD Color Video Camera

- Picture Performance Features—2/3-inch IT Hyper HAD Sensor; High resolution—750 TV lines of horizontal luminance resolution; High sensitivity—f/8.0 at 2000 lx; Excellent S/N ratio; (62 dB), Low smear level; Reduced aliasing; Stepping diagonal edge reduction; Extremely low lag; Variable speed electronic shutter: OFF, 1/100, 1/250, 1/500, 1/1000, 1/2000 (second); Clear Scan™ (CLS)

- Advanced Functions—Dynamic Contrast Control (DCC) (allows dynamic range up to 600%); Enhanced Vertical Definition System (EVS) (450 TV lines Vertical Resolution); Auto Tracing White Balance (ATW); Programmable gain (−3 dB, 0 dB, 3 dB, 6 dB, 9 dB, 12 dB, 18 dB, 24 dB, and 30 dB Turbo gain); Three Mode Matrix (Standard, High Saturation, Fluorescent light); Three Mode Auto Iris (Standard, Backlight, Spotlight); Built-in 1 kHz audio reference; Built-in clock

- Convenient Features—Compact and lightweight; Die-cast magnesium camera body; DXF-501 High Resolution Viewfinder (Supplied with the DXC-537AK/537AL); ECM-670 External microphone and audio system; New VCL-916BYA 16X zoom lens; Safety Zone and Center Marker Generator; Low power consumption (105 min. operating time with NP-1B battery); SMPTE type color bars; RM-M7G Connector

- Other Features—Built-in character generator; Zebra video level indication; White shading compensation; Flare compensation; Automatic warning system displayed on viewfinder; Genlock capability; 2-line image enhancer; External DC input (with optional CA-537); Audio monitor jack (with optional CA-537); Intercom jack (with optional CA-537); Connection with S-VHS Recorder Units via the CA-512 or CA-513 camera adaptors

Supplied Accessories:
- VCL-916BYA (DXC-537AK) Zoom Lens
- DXF-501 (DXC-537AK/537AL) Viewfinder
- ECM-670 (DXC-537AK/537AL) Microphone
- CAC-12 (DXC-537AK/537AL) Microphone Holder
- LC-421 (DXC-537AK/537AL) Carrying Case
- VCT-14 (DXC-537AK/537AL) Tripod Adaptor
- Lens Cap
- Flange Back Chart
- Operation Manual

**Production Cameras**

**DXC-537 Series**

3-Chip CCD Color Video Camera

- Excellent picture quality provided by use of three Sony 2/3-inch IT Hyper HAD™ (Hole Accumulated Diode) sensors
- 700 TV lines of horizontal luminance resolution thanks to the high density CCD chips (380,000 picture elements/chip) and Sony's original spatial offset technology
- The HAD sensor™ structure in combination with advanced electronic circuitry allows an excellent S/N ratio of 62 dB
- The Hyper HAD sensor's wide photo sensing sites and OCL (On-Chip-Lens) layer result in an extremely high sensitivity of f8.0
- Smear almost negligible due to the HAD sensor structure and OCL layer of the Hyper HAD sensor
- Variable speed electronic shutter improves dynamic resolution when shooting moving objects
- Innovative Clear Scan™ function for shooting computer displays without horizontal bands appearing across display screen
- 2-line image enhancer for crisp images
- Modular design allows choice of combo, standalone or multi-camera use
- Can be coupled directly with the PVV-1 for high quality component acquisition or with the EVV-9000 for handy operation
- Can be combined with the BVV-5 via the CA-511 Camera Adaptor
- 26-pin connector on camera adaptor provides signal output in Y/R-Y/B-Y, VBS, Y/C and RGB forms for connection with various equipment
- The DXF-501 quick start viewfinder needs no preheat time and adopts a new diopter mechanism for easier diopter adjustment
- Compact size, lightweight and low power consumption
- Convenient built-in microphone
- Safety Zone and Center Marker indications in viewfinder
- Built-in character generator can generate letters and numbers for titles and dates
- 5 step auto iris override (+1 f stop/ +0.5 f stop/Preset/ -0.5 f stop/ -1.0 f stop)
- Convenient gain-up function (0/ +9/ +18 dB)
- Zebra video level indication
- Two memory white balance system
- RM-M7G remote connector on camera head for remote control in any configuration
- Extended system versatility with optional CA-325A/325B camera adaptors, RM-M7G remote control unit, and CCU-M7

3-Chip CCD Color Video Camera

■ The most suitable camera for operation with the PVV-1 and EVV-9000
■ Superior color reproduction due to the innovative 1/2-inch Hyper HAD Interline-Transfer CCD chips
■ 700 TV lines of horizontal luminance resolution thanks to an integration of over 380,000 picture elements within each chip
■ Hole Accumulated Diode sensors provide an excellent S/N ratio of 62 dB
■ Wide ratio of photo sensing area offers high sensitivity
■ Variable speed electronic shutter improves dynamic resolution when shooting moving subjects
■ Modular design allows choice of combo, stand-alone or multi-camera use
■ The DXF-501 quick start viewfinder needs no preheat time and adopts a new diopter mechanism for easier diopter adjustment
■ Compact size, lightweight, and low power consumption
■ Convenient built-in microphone
■ Safety Zone and Center Marker Generator
■ The built-in character generator can generate letters and numbers for titles and dates
■ 5 step auto iris override (+1 f stop/ +0.5 f stop/Preset/ −0.5 f stop/−1.0 f stop)
■ Convenient gain-up function (0/+9/+18 dB)
■ Zebra video level indication
■ Two memory white balance system
■ Component video output to connect Betacam VTRs
■ Built-in SMPTE type color bar generator
■ 2-line image enhancer
■ ABL (Automatic Black Level) function
■ RM-M7G remote connector on camera head for remote control in any configuration
■ Extended system versatility with optional CA-235A/325B camera adaptors, RM-M7G remote control unit, and CCU-M3 camera control unit

### Production Cameras

**Specifications**

**DXC-327A Video Camera Head**

- **Image Device:** Interline-Transfer CCD, 3-Chip
- **Optics:** 1.4 medium index prism system
- **Effective Picture Elements:** 768(H) x 494(V)
- **Sensing Area:** 6.4mm x 4.8mm (equivalent to a 1/2" picture tube)
- **Built-In Filters:**
  - 1: 3200K
  - 2: 5,600K + 1/2 ND
  - 3: 5,800K
- **Lens Mount:** Bayonet Mount
- **Signal System:** EIA standards, NTSC color system
- **Scanning System:** 2: 1 interlaced, 525 lines, 60 fields/s
- **Horizontal Frequency:** 15.734 kHz
- **Vertical Frequency:** 59.94 Hz
- **Sync System:** Internal or External with the VBS or BS signal
- **Horizontal Resolution:** 700 TV lines
- **Minimum Illumination:** 7.5 lux with f1.4, + 18 dB
- **Gain Selection:** 0 dB, + 18 dB
- **Shutter Speed Selection:** OFF, 1/1000, 1/250, 1/600, 1/2000 sec.
- **Video Output**
  - **Camera Head**
    - **BNC Connector:** VBS: 1.0Vp-p, sync negative
    - **Lens:** Hot-shoe type or 6-pin
    - **VF:** DIN 8-pin
    - **REMOTE:** 10-pin
  - **Power Requirements:** DC-12V
  - **Power Consumption:** 2.3W
  - **Inputs/Outputs:** INTERFACE: DIN 50-pin
  - **Weight:** 1 lb. 2 oz. (0.5 kg.)

**CA-325A Camera Adaptor**

- **Power Requirements:** AC-100V/120V, 50/60 Hz
- **Power Consumption:** 48W
- **Inputs/Outputs:** INTERFACE: DIN 50-pin
- **Weight:** 2 lb. 14 oz. (1.3 kg.)

**CA-325B Camera Adaptor**

- **Power Requirements:** DC-12V
- **Power Consumption:** 2.3W
- **Inputs/Outputs:** INTERFACE: DIN 50-pin
- **Weight:** 1 lb. 2 oz. (0.5 kg.)

**DXF-501 Viewfinder**

- **Picture Tube:** 1.5" monochrome
- **Indicators:** REC/TALLY, BATT, SHUTTER, GAIN UP
- **Resolution:** 550 TV lines
- **Power Requirements:** DC-12V
- **Power Consumption:** 2.3W
- **Inputs/Outputs:** INTERFACE: DIN 50-pin
- **Weight:** 1 lb. 2 oz. (0.5 kg.)

**VCL-712BX Zoom Lens**

- **Focal Length:** 7.5mm–90mm
- **Zoom Ratio:** 12 x
- **Zoom Control:** Manual/Motorized
- **Maximum Aperture Ratio:** 1.4
- **Iris Control:** Manual/Auto, selectable 1.4–16 and C (Close)
- **Range of Object Field** (at the distance of 1.1 meter):
  - W (Wide angle): 660 x 880mm (26" x 34½")
  - T (Telephoto): 55 x 73mm (21/4" x 3")
- **Minimum Object Distance:** 0.9m
- **Filter Thread:** 472mm P = 0.75
- **Mount:** Bayonet mount
- **Weight:** 2 lb. 10 oz. (1.2 kg.) with lens hood
- **Dimensions (WHD):** 17 lb. (7.7 kg.) (approx.)

**LC-420 Carrying Case**

- **Weight:** 17 lb. (7.7 kg.) (approx.)
- **Dimensions (WHD):** 790 x 440 x 340mm (31½" x 17¼" x 13½") (approx.)

---

**CA-537 Camera Adaptor**

- **Power Requirements:** DC-12V
- **Power Consumption:** 1.7W
- **Inputs/Outputs:** INTERFACE: DIN 50-pin
  - VTR/CCU/CMA: Sony Z-type, 26-pin
  - MIC IN: XLR-type, 3-pin
  - DC IN: XLR-type, 4-pin
  - GENLOCK: BNC-type
  - EARPHONE: mini jack
  - INTERCOM: mini intercom jack
- **Weight:** 2 lb. 14 oz. (1.3 kg.)

**CA-511 Camera Adaptor**

- **Power Requirements:** DC-12V (10.5V–17V)
- **Inputs/Outputs:** INTERFACE: DIN 50-pin
  - Betacam output: D-sub 50-pin
- **Weight:** 1 lb. 2 oz. (0.5 kg.)
Production Cameras

DXC-325 Series

3-Chip CCD Color Video Camera

- Superior color reproduction due to the innovative 1/2-inch Interline-Transfer CCD
- 530 TV lines of horizontal luminance resolution thanks to an integration of over 250,000 picture elements
- Hole Accumulated Diode Sensors provide an excellent S/N ratio of 58 dB
- Wide ratio of photo sensing area offers high sensitivity
- Variable Speed Electronic Shutter improves dynamic resolution
- Separable design of camera head and camera adaptor via 50-pin interface
- The DXF-325 quick start viewfinder needs no preheat time
- Compact size, lightweight, and low power consumption VCL-810BX cableless 10 x zoom lens
- Convenient built-in microphone
- The built-in character generator can generate letters and numbers for titles and dates
- 5 step auto iris override (+1F stop/ + 0.5F stop /Preset/ - 0.5F stop / - 1F stop)
- Convenient gain-up function (0/ + 9/ + 18 dB)
- Zebra video level indication
- ABL (Automatic Black Level) function
- Extended system versatility with optional CA-325A/325B Camera Adaptor, TGR-325 Title Generator and CCU-M3 Camera Control Unit

EVW-300

Video Hi8 3 CCD Camcorder

- Ultra-lightweight and compact size for one hand operation
- Video Hi8 format for improved picture quality: over 400 TV lines
- 3 high density ½-inch IT (Interline Transfer) Hyper HAD™ (Hole Accumulated Diode) sensors
- Excellent sensitivity of f8.0 at 2000 lux
- Camera genlock capability for multiple camera operation
- Automatic Adjustment Functions: Auto Tracing White Balance (ATW); Automatic Gain Control (AGC); Automatic Exposure (AE); Intelligent Auto Iris
- Video Hi8 and Standard 8mm format recording/playback capability
- Video Hi8 tape for Hi8 recording and high picture quality
- 380,000 picture element CCD chip and checker filter for high luminance resolution: 700 TV lines (camera portion)
- True color fidelity even under limited lighting and strong resistance to image burn-in
- S video IN/OUT (4-pin DIN) connectors to reduce cross color and dot interference
- Built-in 8mm time code capability
- Variable speed electronic shutter: speeds of 1/80, 1/100, 1/250, 1/500, 1/1000, 1/2000 seconds selectable
- Narration microphone to record commentary
- Built-in 5-inch viewfinder: indication of DATE, TIME, or TIME COUNTER and battery, moisture, lighting information
- Selectable gain-up
- Safety zone and center marker generator
- Clear Scan™ function

Design and specifications subject to change without notice.
EVO-150TR
Video Hi8 Camcorder

- Video Hi8 Format—the 7.0 MHz FM carrier and 2.0 MHz wide frequency deviation used in this format, a high resolution of more than 400 TV lines and a high signal-to-noise ratio is achieved by the VTR section

- 1/3-inch Precision CCD—The 410,000 pixels (effective 380,000 pixels) of the 1/3-inch precision CCD chip and color filter provides high luminance resolution and excellent color fidelity

- 10-Bit Digital Signal Processing—which provides accurate luminance/chrominance separation. Thus a clear picture with minimum noise and signal loss can be obtained

- Video Hi8 and Standard 8mm Recording/Playback Capability—for video Hi8 recording, the professional Hi8 tape must be used. The Hi8 Auto ON/OFF switch is available for the selection of Hi8 or standard 8mm recording mode

- S VIDEO Connector—4-pin DIN connector which provides separate Y (luminance)/C(chrominance) signals to reduce cross color and dot interference. Either input or output can be selected

- AFM Hi-Fi Stereo Audio—Now high quality sound can accompany high quality pictures for more real-life depth and presence

- Stereo Zoom Mic—By switching the Mic mode to ZOOM MIC, directivity of the built-in microphone is changed from omni to unidirectional according to the zooming operation of the lens. When shooting at Wide, the omni-directional microphone picks up sound from all directions. As the zoom moves to the Tele position, the directivity of the microphone is gradually changed to unidirectional, which picks up sound from a forward direction

- 10 Times Zoom with Variable Speed control—The EVO-150TR incorporates a 10:1 zoom lens with a 6.2mm to 62mm zooming range, plus a macro function. For more effective picture composition, fast or slow zooming speed is provided. The harder the Zoom button is pressed, the zooming speed becomes faster. In addition, the Mach Auto focus zoom lens provides quick auto-focusing in zooming operation

- Mach Start—starts picture and sound recording in 0.2 seconds from the STANDBY mode

- Built-in RC (Re-writable Consumer) Time Code Generator—incorporated to record absolute tape addresses, which is indispensable for accurate editing. (The EVO-150TR can only write and not read the RC time code)

- Data Code Function—enables the EVO-150TR to automatically record the recording data and time data on the time code track of the recorded tape. By pressing the DATE/TIME button on the EVO-10TR or the DATA button on the remote control, the code can be displayed on the monitor and the viewfinder during playback or editing. Since the data is not recorded on the video track, the original picture is unaffected by the data code being displayed

- Automatic Adjustment Control—The AUTO LOCK mode is provided to automatically adjust focus, white balance, and exposure with a fixed shutter speed

(EVO-150TR, cont.)

of 1/60 seconds. Manual operation can also be performed by overriding this mode — Variable Shutter Speed—When the shutter mode is set to ON, shutter speeds of 1/60, 1/100, 1/250, 1/1000, 1/2000, 1/4000, and 1/10,000 second can be manually selected — Edit Search and REC Review Function —The Edit Search function allows for confirmation of previous recordings, to easily locate the starting point of the next recording. Playback pictures can be seen in the viewfinder in either forward or reverse by pressing the EDIT SEARCH button during both REC PAUSE and PLAYBACK PAUSE modes. In addition, the last recorded picture can be reviewed in STANDBY mode using REC REVIEW function. — LANC (Local Application Control Bus system) connector — World Data/Time — Black/Mosaic Fader — Title Insert Capability: Scroll, Invert, See-through mode — Extremely Compact and Lightweight — The main body weighs only 1 lb 15 oz (890 g) and 2 lb 12 oz (1,250 g) when fully equipped. — SteadyShot™ Function—For optical image stabilization. By switching the STEADY SHOT switch on, the Active Prism system is activated and detects both yawing and pitching camera shake. It then automatically compensates for the light tracing angles of the lenses to accurately focus the picture. This "optical gyro" compensates for camera motion without degrading the image or changing picture size — Color Viewfinder—0.7-inch TFT active Matrix system color LCD (Liquid Crystal Device) panel with 103,000 pixels (effective) to provide color picture monitoring. Data, time, time code, tape counter, warning for battery, tape end, condensation, and other operational information can be displayed on the viewfinder. The same information can be displayed on the LCD window. The information can also be displayed on an external monitor via the VIDEO OUT connector. — Active Prism System—The Active Prism system consists of two glass lenses and accordion rings which contains a liquid. These two lenses are designed to control the high refraction angle by moving between the gap of accordion rings. When the STEADYSHOT switch is set to ON, each sensor, one for yawing and one for pitching, detects the camera shaking angle. Then the microprocessor calculates the compensation rate. According to the compensation rate, the actuators control the angles of each lens to provide the appropriate light refraction angle to ensure a steady picture.

**Specifications**

### General

- **Weight:** Net: 1 lb 15 oz (890 g) (approx.); with accessories: Total: 2 lb 12 oz (1,250 g) (approx.)
- **Dimensions (WHD):** 109 x 104 x 197 mm (4 3/4" x 4 1/4" x 7 3/4")
- **Power Requirements:** 6.0V (Battery pack)
- **Power Consumption:** 9.0W (camera recording) including the viewfinder
- **Operating Temperature:** 0°C to 40°C
- **Storage Temperature:** -20°C to 60°C
- **Viewfinder:** 0.7" LCD color viewfinder (103,000 pixels)
- **Camera:** One 1/3" CCD, 410,000 pixels
- **Lens:** 0.7" LCD color viewfinder (103,000 pixels)
- **Auto Focus System:** TTL autofocus system inner focus wide screen system
- **Color Temperature:** Auto, HOLD, Preset (Indoor: 3200k, Outdoor: 5600k)
- **Minimum Illumination:** 3 lux (at f1.8)
- **Illumination Range:** 3 lux to 100,000 lux
- **Shutter Speed Selection:** 1/60, 1/100, 1/250, 1/1000, 1/2000, 1/4000, 1/10,000

### Video

- **Video Signal:** EIA standard (monochrome)/NTSC (color)
- **Video Recording System:** Four rotary heads helical scanning FM system
- **Recording Mode:** HH, standard 8mm
- **Playback Mode:** SP/LP Auto detect
- **Horizontal Resolution:** Hi8 Mode: > 400TV lines
- **Vertical Resolution:** SP Mode: 240TV lines
- **S VIDEO IN/OUT:** Y (luminance): 1 Vp-p, 75Ω, unbalanced, sync negative
- **VIDE0 IN/OUT:** C (chrominance): 0.286Vp-p, unbalanced, sync negative
- **RFU DC OUT:** DC 5V
- **REMOTE:** LANC
- **S/N Ratio:** 44 dB
- **Time Code:** RC time code (Write only)

### Audio

- **AFM Audio:** Hi-Fi Stereo
- **Audio IN/OUT:** Input: -7.5 dB (0 dBm = 0.775 Vrms), Input impedance > 47 kΩ
- **Output level:** -7.5 dBs (Load impedance 47 kΩ)
- **MIC:** -66 dBs low impedance with DC 2.5V–3V, with accessories

### Connectors

- **S VIDEO Input/Output:** Mini DIN 4-pin connector x 1
- **PHONE Jack x 1**
- **AUDIO Input/Output:** Phone jack x 2 (stereo L and R)
- **RFU DC OUT:** Special mini-jack
- **Headphone:** Stereo mini-jack (3.5 mm)
- **Remote:** Stereo mini-jack (2.5 mm)
- **MIC:** Stereo mini-jack (3.5 mm)

**Recommended illumination:**

- **Shutter Speed Selection:** > 100 lux
**BVR-3**

**Remote Controller**
- Designed for use with the BVW-50 in EFP applications
- Fast Forward, Rewind, Play, Stop, Record, Pause, Search, and Key inhibit can be remotely controlled via its special RCC-B5G/B10G/B30G cable (option), which combines a Sony 9-pin remote control cable with a 4-pin DC power cable
- Can be easily mounted on a tripod or microphone stand
- Remote control of other RS-422 equipped Sony VTR's are possible via the RCC-5G/10G/30G cable when external DC power is supplied to the BVR-3 through the DC IN connector.

**Supplied Accessories:**
- Thread Adaptor (for 1/4" screw)
- Operation and Maintenance Manual

**Specifications**
- **Power Requirements:** DC-8.5V-17V, 30 mA
- **Operating Temperature:** -20°C to 60°C (-4°F to 140°F)
- **Storage Temperature:** -20°C to 80°C (-4°F to 176°F)
- **Weight:** 7.8 oz. (220 g.) (approx.)
- **Dimensions (WxHxD):** 80 x 37 x 118mm (3 1/4" x 1 1/2" x 4 3/4")

---

**CA-325**

**Camera Adaptor for DXC-325 Series**
- For interfacing DXC-325 with portable VTRs, CCU-M3, and CMA-8A
- Can be used with DXC-327
- Supplied with DXC-325K/325L

**Specifications**
- **Power Requirements:** DC-12V

**Inputs/Outputs**
- INTERFACE: DIN 50-pin
- VTR/CCU/CMA: Sony Q-type, 14-pin
- MIC IN: XLR-type, 3-pin
- DC IN: XLR-type, 4-pin
- GENLOCK IN: BNC-type
- EARPHONE: Mini jack
- INTERCOM: Mini intercom jack
- **Weight:** 2 lb. 3 oz. (1.0 kg.)

---

**CA-325A**

**Camera Adaptor for DXC-325 Series**
- Multiple outputs of R/G/B, composite sync, VBS, Y/C and AUDIO signals
- Built-in AC power unit
- Can be used with DXC-327/537

**Specifications**
- **Power Requirements:** AC-100V/120V, 50/60 Hz
- **Power Consumption:** 48W
- **Inputs/Outputs**
  - INTERFACE: DIN 50-pin
  - VBS OUT: BNC-type
  - R/G/B OUT: BNC-type (x 3)
  - COMPOSITE SYNC OUT: BNC-type
  - Y/C OUT: Y/C connector (4-pin)
  - AUDIO OUT: Phone jack
  - GENLOCK IN: BNC-type
  - REMOTE: 10-pin
- **Weight:** 2 lb. 14 oz. (1.3 kg.)

---
Production Camera Accessories

CA-325B
Camera Adaptor for DXC-325 Series

- Multiple outputs of R/G/B, composite sync, VBS, Y/C and AUDIO signals
- DC operation type
- Can also be used with DXC-327/537

Specifications

Power Requirements: DC-12V
Inputs/Outputs:
- INTERFACE: DIN 50-pin
- VBS OUT: BNC-type
- R/G/B OUT: BNC-type (x 3)
- COMPOSITE SYNC OUT: BNC-type
- Y/C OUT: Y/C connector (4-pin)
- AUDIO OUT: Phono jack
- GENLOCK IN: BNC-type
- REMOTE: 10-pin
- DC IN: XLR-type, 4-pin

Weight: 1 lb. 2 oz. (500 g.)

CA-327
Camera Adaptor for DXC-327 Series

- For interfacing DXC-327 with portable VTRs, CCU-M3 and CMA-8A
- Equips an S-connector and audio out connector
- Can be used with DXC-325

Specifications

Power Requirements: DC-12V
Inputs/Outputs:
- INTERFACE: DIN 50-pin
- VTR/CCU/CMA: Sony Q-type, 14-pin
- MIC IN: XLR-type, 3-pin
- DC IN: XLR-type, 4-pin
- GENLOCK IN: BNC-type
- EARPHONE: mini jack
- INTERCOM: mini intercom jack

Weight: 21 lb. 10 oz. (1.2 kg.)

CA-511
Camera Adaptor for DXC-537

- Allows a BVV-5 to be coupled with DXC-537

Note: The CA-511 does not allow connection with the CA-50/55/57 camera adaptors.

Specifications

Power Requirements: DC-12V
Power Consumption: 0.1W
Inputs/Outputs:
- INTERFACE: DIN 50-pin
- Betacam output: D-sub 50-pin

Weight: 1 lb. 2 oz. (0.5 kg.)
Production Camera Accessories

CA-537
Camera Adaptor for DXC-537 Series
- For interfacing DXC-537 with portable VTRs, CCU-M7 and CMA-8A
- Supplies mic power from MIC IN connector

Specifications
- Power Requirements: DC-12V
- Power Consumption: 1.7W
- Inputs/Outputs: INTERFACE: DIN 50-pin
  VTR/CCU/CMA: SONY Z-type, 26-pin
  MIC IN: XLR-type, 3-pin
  DC IN: XLR-type, 4-pin
  GENLOCK IN: BNC-type
  EARPHONE: mini jack
  INTERCOM: mini intercom jack
- Weight: 2 lb. 14 oz. (1.3 kg.)

CAC-1
Microphone Holder for DXC-M7/537/325/327
- For attaching the ECM-672 or the C-74 condenser microphone to the DXC-M7/537/325/327 Series

CAC-4
Chest Pad for DXC-M7/325/327/537 Series
- Suitable for more stable camera operation
- Attachable to the VCT-12/13/14 tripod adaptors directly

Specifications
- Weight: Approx. 7 oz. (185 g.)

CAC-11A
Camera Microphone Holder for DXC-M7/537/3000A/3000/3000IR/325/327 Series
- For attaching the ECM-672 or the C-74 condenser microphone to the DXC-M7/537/3000A/3000/3000IR/325/327 Series

CAC-12
Camera Microphone Holder
- Adjustable microphone direction
- For attaching the ECM-672 or the C-74 condenser microphone to the DXC-M7/537/325/327 series
Production Camera Accessories

CAC-21
Battery Shoe
- For attaching the DC-8 Camera Battery Adaptor to the DXC-M7 series

CAC-50
VF Attachment Metal
- For attaching the DXF-50 monochrome electronic viewfinder to the CA-M7 studio adaptor or the camera head
CA-M3

Camera Adaptor
- Camera cable extension adaptor for 3-tube/3-chip CCD color camera DXC-M3A/M3/3000A/3000/3000IR series
- Cable extension between camera and CCU (200m or 300m selectable) • Improved power supply capability by automatic power sensing circuit with CMA-9

*CA-M3 consists of CHU Adaptor and CCU Adaptor, to which the power is supplied by CMA-9

Supplied Accessories:
- CCQ-0.3AM Cable: between camera and CHU Adaptor
- CCQ-0.6AM Cable (2 pcs): between CHU Adaptor and CCU
- BNC Cord 0.13m: between camera head and CHU Adaptor for Genlock
- DIN (4-pin) DC Cord: between CCU Adaptor and CCU
- Battery Shoe for DXC-M3
- Tally Number Plate for CCU Adaptor

Specifications

**CCU Adaptor**
- Dimensions (WHD): 213 x 105 x 306.5mm (approx.)
- (8 1/8" x 4 1/4" x 12 1/8")
- Weight: 8 lb. 6 oz. (3.8 kg.) (approx.)
- Power Consumption: 1W
  - Input/Outputs
    - BNC: RETURN VIDEO IN/OUT, GENLOCK IN/OUT
    - VBS out x 2 R, G, B OUT, SYNC OUT
      (4Vp-p, 75Ω)
    - DIN (4-pin female): TALLY/INTERCOM, DC OUT
    - DIN (8-pin female): Output for VF
    - CCQ (14-pin male): CCU-M3, CMA-9 (DC IN)
    - CCZ (26-pin female): CHU ADAPTOR
    - XLR (3-pin male): MIC OUT
    - Mini Jack: INTERCOM, SERIAL DATA IN

**CHU Adaptor**
- Dimensions (WHD): 90 X 117 X 81mm (approx.)
- (3 1/8" x 4 1/4" x 3 1/4")
- Weight: 15 oz. (430 g.) (approx.)
- Power Consumption: 9W
- Inputs/Outputs
  - BNC: GENLOCK OUTPUT or CHU
  - CCQ (14-pin female): Camera head
  - CCZ (26-pin male): CCU ADAPTOR
  - XLR (3-pin female): MIC IN
  - Mini Jack: Serial data out

CA-M7

Studio Adaptor for DXC-M7 Series
- For more stable operation of DXC-M7 series in studio
- Built-in zone and cursor generator • DXF-50/40A mountable on the top • RM-M7G mountable on the rear panel

Supplied Accessories:
- Camera Number Sheet
- CCA-7-0.5 Connecting cable

Specifications
- Power Requirements: DC-10.7V-17V from a camera head
- Power Consumption: 5W
- Weight: 8 lb. 13 oz. (40 kg.)
- Dimensions (WH): Approx. 180 x 273 x 430mm
  (6 1/2" x 10 3/4" x 17")
- Inputs/Outputs: CAMERA: 8-pin
  VIEWFINDER: 8-pin
Production Camera Accessories

CCU-M3

Camera Control Unit for DXC-M3A/3000A/3000IR/325/327 Series

- Capability of remote control
- DC operation capability
- Automatic cable compensation
- RGB outputs
- Also connectable to DXC-M7/1 and DXC-537

Supplied Accessories:
- CCDQ-06 Connecting Cable (4-pin to 14-pin for connecting the CMA-8A camera adaptor)

Optional Accessories:
- (CCU-M3 ↔ DXC-M3A/M3/3000A/3000IR/325/327 series)
  - CCQ-10AM Cable (10m)
  - CCQ-25AM Cable (25m)
  - CCQ-50AM Cable (50m)
  - CCQ-100AM Cable (100m)
- (CCU-M3 ↔ DXC-M7/537 series)
  - CCZQ-A2AM Cable (2m)

Specifications

- Power Requirements: DC-12V with the BP-60 (optional)
- Power Consumption: 6W

Inputs/Outputs

- VIDEO OUT (BNC Type): 1.0Vp-p, VBS, 75Ω (x 1)
  - 1.0/0.714Vp-p, VBS/VB selectable, 75Ω (x 1)
    - (V: 0.714V B: 0.286V, S: 0.286V)
- R/G/B (BNC Type): 0.714Vp-p, 75Ω (1 each)
- SYNC OUT: 4Vp-p, 75Ω negative
- GENLOCK IN/OUT (BNC Type): VBS or black burst (1Vp-p or 0.286Vp-p), loop-through

RETURN VIDEO IN/OUT (BNC Type): VBS, 1Vp-p, loop-through

- CAMERA: 14-pin, Q-type
- DC IN: 10V-17V (DIN 4-pin)
- TALLY/INTERCOM: DIN 4-pin
- VF: DIN 8-pin
- Intercom: Mini intercom jack
- Control: Iris (auto/manual)
  - White balance (auto/manual/preset)
  - Black balance (auto/manual)
  - Gain select
  - R/B pedestal
  - R/B gain
  - Master pedestal
  - SC phase
  - H phase
  - Auto centering
  - COLOR BAR/CAMERA
  - Tally/Intercom
- Power

Operating Temperature: −10°C to 45°C (14°F to 113°F)

Dimensions (WhD): 210 x 105 x 290mm
  - (8¾" x 4½" x 11¼")

Weight: 6 lb. 13 oz. (3.92 kg.)
Production Camera Accessories

CCU-M7
Camera Control Unit for DXC-M7 Series
- Full remote control of DXC-M7 series color video camera with maximum cable length of 300m
- Remote control of DXC-537 series color video camera with maximum cable length of 300m
- Scene File memory for up to four shooting conditions
- VBS, R/G/B, Y/R-Y/B-Y, Y/C outputs
- XLR connector for MIC output
- Built-in AC power supply
- 19-inch rack mountable and 2-units high

Supplied Accessories:
- AC Power Cord
- Rack Mount Metals

Optional Accessories:
- CCU-M7-DXC-M7/537 series
  - CCZ-A2 (2m)
  - CCZ-A5 (5m)
  - CCZ-A10 (10m)
  - CCZ-A25 (25m)
  - CCZ-A50 (50m)
  - CCZ-A100 (100m)

Specifications

Power Requirements:
- AC 85V-138V, 50/60 Hz

Power Consumption:
- 62W

Inputs/Outputs:
- VBS OUT (x 2); BNC-type, 1.0Vp-p, sync negative, 75Ω
- R/G/B OUT;
- BNC-type, 0.714Vp-p, 75Ω
- Y/R-Y/B-Y OUT;
- BNC-type, Y: 1.0Vp-p, sync negative, 75Ω
  R-Y/B-Y: 0.7Vp-p (75% color bars)
- Y/C OUT;
- Y/C connector (4-pin), 1.0Vp-p, 75Ω
- SYNC OUT;
- BNC-type, 4.0Vp-p, 75Ω, negative
- GENLOCK IN;
- BNC-type, VBS (1.0Vp-p) or BB (0.286Vp-p), loop through
- RET VIDEO IN;
- BNC-type, VBS, 1.0Vp-p, loop-through
- CAMERA;
- Sony Z-type, 26-pin
- TALLY/INTERCOM;
- DIN 4-pin or screw terminals
- MIC OUT;
- XLR-type, 3-pin, -20 kB

Control:
- Gain select
- Output mode select
- Status display ON/OFF
- Shutter speed select
- Iris (auto/manual)
- White balance (auto/manual/preset)
- R/B gain
- Black balance (auto/manual/preset)
- Master pedestal
- R/B pedestal
- Gamma (manual/preset)
- Master gamma
- R/B gamma
- Knee point (auto/manual/preset)
- Detail level
- Sub-carrier phase
- Horizontal phase
- Scene File operation
- Tally/Intercom

Operating Temperature:
- -10° to 45°C (14°F to 113°F)

Dimensions (WHD):
- 424 x 103 x 387mm (approx.)
- 163/4" x 41/4" x 151/4"

Weight:
- 18 lb. 12 oz. (8.5 kg.)
Production Camera Accessories

CMA-8A
Camera adaptor for DXC-M7/537/M3A/3000A/3000IR/325/327, DXC-537/PVV-1 camcorder, EVW series
- Supplies DC power to the Camera, VO-6800/8800 and dockable VTRs. Video output is selectable between composite (BNC) or Y/C separate (S-connector). Also connectable to DXC-1800/1820/1821H/6000/M3/3000 series

Specifications
- Power Requirements: AC-120V, 50/60 Hz
- Power Consumption: 95W max.
- Input Connector: 14-pin (CCQ type) for the camera
- Output Connectors
  - VIDEO OUT: BNC; VBS
  - MIC OUT: XLR 3-pin
- Dimensions (WHD): 105 x 105 x 308mm (4\(\frac{1}{4}\)" x 4\(\frac{1}{4}\)" x 12\(\frac{1}{4}\)"")
- Weight: 6 lb. 3 oz. (2.8 kg.)

CMA-9
Camera AC Adaptor
- Adaptor with extra-large power supply capacity is designed to operate video equipment which cannot be operated with a conventional AC power adaptor from a 120V AC, 50/60 Hz power line. Used with CA-M3 camera adaptor, CMA-9 supplies stable power to a camera through a long camera cable (up to 300m). Supplies DC power to the camera and VO-6800/8800

*You can also use CMA-9 as the camera adaptor for DXC-1800/1820/1821H/6000/M7/537/M3/M3A/3000/3000A/3000IR/325/327 series

Supplied Accessories: AC Power Cord

Specifications
- Camera Input: CAMERA connector, Q-type 14-pin
- Power Output: 13V, 7A max.
- Video Output: VIDEO OUT connector, BNC type, Video 0.71Vp-p, sync 0.286Vp-p, 75f2 sync negative, unbalanced
- Audio Output: MIC OUT connector, XLR 3-pin
- Operating Temperature: 0°C to 40°C (32°F to 104°F)
- Power Requirements: 120V AC, 50/60 Hz
- Power Consumption: 135W
- Dimensions (WHD): 213 x 105 x 310mm (approx.) (8\(\frac{3}{4}\)" x 4\(\frac{1}{4}\)" x 12\(\frac{1}{4}\)"") incl. projecting parts
- Weights: 8 lb. 6 oz. (3.8 kg.) (approx.)
**Production Camera Accessories**

**DC-520**

**Battery Adaptor for PVV-1, DXC-325/327/537 EVW-325/327/537 Series**

- Can be attached to the supplied battery case of the BVV-5 Betacam SP recorder or BVW-300A/400A Betacam SP Camcorder
- Allows the BVV-5/BVW-300A/400A to be operated with two NP-1B batteries
- Supplies DC-12V to the BVV-5/BVW-300A/400A

**Supplied Accessories:**
- Screws (M3 x 6)

**Specifications**
- Dimensions (WHD): 100 x 195 x 44mm (4" x 7¾" x 1¾"")
- Weight: 8 oz. (230 g.)

**DXF-325**

**High Resolution 1.5-inch Electronic Viewfinder for DXC-325 Series (Monochrome)**

- Supplied with the DXC-325K/325L, EVW-325K/325L
- Quick start CRT
- Can be used with DXC-327

**Specifications**
- Picture Tube: 1.5" monochrome
- Horizontal Resolution: 400 lines (center)
- Power Requirements: DC-12V, supplied from a camera
- Power Consumption: 2.3W
- Weight: 1 lb. 2 oz. (500 g.) (approx.)
- Dimensions (WHD): 182 x 64 x 189mm (approx.) (7¾" x 2¾" x 7½") (approx.)

**DXF-40A**

**4-inch Electronic Viewfinder for DXC-M7/537/ M3A/3000A/3000IR/325/327 Series (Monochrome)**

- Tally, intercom facilities
- Can be mounted into the RMM-1800 rack mounting metal
- Also connectable to DXC-1800/1820/1821H/6000/M3/3000 series

**Supplied Accessories:**
- Stand
- Screws (4)
- Hood
- Connecting cord (mini-mini)

**Specifications**
- Picture Tube: 4" monochrome, 50° deflection
- Video Signal: EIA standard
- Scanning System: 2:1 Interlace, 525 lines
- Horizontal Resolution: 400 lines (center)
- Connectors: DIN 8-pin connector
- Power Requirements: Supplied from a camera
- Power Consumption: 11W
- Operating Temperature: 0°C to 40°C (32°F to 104°F)
- Dimensions (WHD): 105 x 107 x 252mm (approx.) (4¾" x 4¾" x 10")
- Weight: 3 lb. 11 oz. (1.7 kg.) (approx.) with stand and hood
**Production Camera Accessories**

**DXF-50**

*High Resolution 5-inch Electronic Viewfinder for DXC-M7/537/M3A/3000A/3000IR/325/327 Series (Monochrome)*

- Tally facility: "+" mark appears on the screen with CENTER MARK switch
- Also connectable to DXC-1800/1820/1821H/6000/M3/3000 Series

**Supplied Accessories:**
- Stand
- Screws (4)

**Specifications**

Production Camera Accessories

**LC-304SFT**

Soft Carrying Case for DXC-M7/537/327/325, EVW-537/327/325 and DXC-537/PVV-1 Camcorders

- Suitable for transportation of DXC-M7 or DXC-537/327/325 with a camera adaptor connected
- Can also hold EVW-537/327/325 or DXC-537/PVV-1 camcorders
- Lightweight for easy transportation

**Specifications**

Dimensions (WHD): 720 x 360 x 286mm (approx.)

Weight: 4 lb. 14 oz. (2.2 kg.)

---

**LC-325**

Carrying Case for DXC-325 Series

- Suitable for transportation and storage of DXC-325
- Supplied with the DXC-325K/325L

**Specifications**

Dimensions (WHD): 608 x 386 x 260mm

Weight: 9 lb. 6 oz. (4.3 kg.)

---

**LC-420**

Carrying Case for DXC-327/EVW-327/325 Hi8 Camcorder Series

- Suitable for transportation and storage of DXC-327/325
- Can hold the DXC-325/327 in camcorder configuration with the EVV-9000
- Supplied with the DXC-327K/327L, EVW-325K/325L/327K

**Specifications**

Dimensions (WHD): 790 x 440 x 340mm (approx.)

Weight: 17 lb. (7.7 kg.)

---

**LC-421**

Carrying Case for DXC-537, EVW-537 and DXC-537/PVV-1 Camcorder

- Suitable for transportation and storage of DXC-537
- Can hold the DXC-537 with the EVV-9000 or PVV-1 attached
- Supplied with the DXC-537K/537L, EVW-537K

**Specifications**

Dimensions (WHD): 790 x 440 x 340mm (approx.)

Weight: 17 lb. (7.7 kg.)
Production Camera Accessories

LC-2003
Carrying Case for CCU/Monitor/WEX/CRK

Optional Accessories:
- Rack Mount Metal
- RMM-1800
- RMM-301

Specifications
- Dimensions (WHD): 502 x 500 x 156mm
  (19 11/16" x 19 13/16" x 6 1/4"
- Weight: 15 lb. 8 oz. (7 kg.)

LC-M7G
Carrying Case for DXC-M7 Series
- Suitable for transportation or storage
- Supplied with the DXC-M7K/M7 series

Specifications
- Dimensions (WHD): 608 x 386 x 260mm (approx.)
  (27 1/4" x 17 3/4" x 12 1/4"
- Weight: 12 lb. 13 oz. (5.8 kg.)

LCR-1
Camera Rain Cover for DXC-M7/537/327/325,
EVW-537/327/325, and DXC-537/PVV-1 Camcorders
- Can be used for DXC-M7/537/327/325, EVW-537/327/325, and DXC-537/PVV-1 camcorders
- Transparent material used to operate camera and VTR switches with the LCR-1

Specifications
- Weight: 9 oz. (260 g.)

LO-32BMT
3/4" Lens Mount Adaptor for DXC-325/327,
EVW-327/325 Series
- For mounting a 3/4" bayonet-mount-type lens on the
  DXC-325/327, EVW-327/325 series
Production Camera Accessories

MVA-40
Microscope Adapter for DXC-325/327
- For mounting the DXC-325/327 series onto various types of microscopes
- Automatic/manual light control

Specifications
Dimensions: 74(dia.) x 108mm(L) (max. width of 116mm)
(3" x 43/8") (max. width of 43/4")
Weight: 1 lb. 5 oz. (600 g.)

MVA-41
Microscope Adaptor for DXC-325/327
- For mounting for DXC-325/327 series onto various types of microscopes

Specifications
Dimensions: 58(dia.) x 108mm(L)
(27/8" x 43/8")
Weight: 9 oz. (250 g.)

RM-930
Remote Control Unit
- The RM-930 can remotely control all functions of the DXC-930 including the zoom, focus and iris functions.
- Maximum cable length is as follows:
  
<table>
<thead>
<tr>
<th>CCMC-12P Cable (DXC-930 ↔ RM-930)</th>
<th>CCDC Cable (RM-930 ↔ CMA-D1)</th>
</tr>
</thead>
<tbody>
<tr>
<td>5m</td>
<td>10m, 25m</td>
</tr>
<tr>
<td>10m, 25m</td>
<td>10m</td>
</tr>
</tbody>
</table>

Specifications
Connectors: CAMERA (12-pin), MONITOR OUT (BNC), DC IN (12-pin)
Operating Temperature: -5°C to 45°C (3°F to 113°F)
Power Requirements: DC-12V
Weight: 14 oz. (400 g.) (approx.)
Dimensions (WHD): 212 x 52.5 x 132mm (83/4" x 21/4" x 51/4")
(including projecting parts and controls)
Production Camera Accessories

RM-M7G
Remote Control Unit for DXC-M7 Series
- Compact and lightweight hand-held control unit for DXC-M7 series
- For field production or video operational panel for CCU-M7
- Connectable to DXC-537/327 camera head
- Also connectable to DXC-325 with CA-325A/325B (certain controls do not function)

Specifications
- Power Requirements: DC-9V~17V
- from a camera or a CCU
- Power Consumption: 0.4W
- Weight: 1 lb. 2 oz. (500 g.)
- Dimensions (WHD): Approx 86 x 47 x 170mm
  (3⅞" x 1⅞" x 6⅞")
- Input/Outputs:
  CAMERA: 10-pin
  MONITOR OUT: BNC-type
  AUXILIARY IN: 10-pin
- Control:
  Gain select
  Output mode select
  VTR start/stop
  Iris (auto/manual)
  Auto iris override
  White and black balance
  (auto/manual/preset)
  White balance memory
  R/B gain
  Gamma (manual/preset)
  Master pedestal (manual/preset)
  R/B pedestal
  Knee point (auto/manual/preset)
  Shutter speed select
  Detail
  Lock (ON/Part/OFF)

RMM-1800
Rack-Mounting Metal
- This mounting adaptor is used for installing the CCU-M3, CCU-1820/1800, DXD-40A, PVM-4000 and CMA-7/8A into a 19" EIA standard rack which provides a clean and organized arrangement for studio system

Supplied Accessories:
Blank Panel

Specifications
- Dimensions (WhD): 482 x 136.2 x 223mm
  (19" x 5⅝" x 8¾")
- Weight: 6 lb. 13 oz. (3.1 kg.)
TGR-325

Title Generator for DXC-325 Series

- 9 title page memory
- Clock, lap, and pointer indication
- Mountable on the viewfinder of DXC-325 series

Supplied Accessories:
- Attachment Plate
- Bolts (2)

Optional Accessories:
- RC-75 Extension Cable

Specifications

- Connector: 8-pin connector
- Power Requirements: DC-5V, supplied from a camera
- Power Consumption: 350 mW
- Operating Temperature: -5°C to 45°C (23°F to 113°F)
- Weight: 11 oz. (300 g.) (approx.)
- Dimensions (WHD): 137 x 18.5 x 82mm
  (5 1/2" x 3/4" x 3 1/4"")
  excl. connection cable

VA-5

Component/Composite VTR Adaptor

- Enables BVV-5 to be connected via cables to a single source
- Component or composite signals can be connected via 26-pin connector
- Additional composite signal input via BNC connector
- Two audio level meters provided
- Recorder control provided on top panel
- Tape remaining indicator

Supplied Accessories:
- Shoulder Belt
- Operation and Maintenance Manual

Specifications

- Power Requirements: DC-12V (+5/-1.5)V
- Power Consumption: Max. 15W
- Power Consumption: Max. 2.5W (Composite I/P)
- Weight: 4 lb. 7 oz. (2.0 kg.) (approx.)
- Dimensions (WHD): 212 x 88 x 222mm
  (8 3/4" x 3 1/4" x 8 3/4"")

VA-500

Playback Adaptor

- Provides full color replay from BVV-5, BVW-300A/400
- Single 20-pin multicable connection to recorder (2m cable supplied with VA-500)
- Composite Video Output
- VHF output gives color replay on TV receivers
- One channel audio (either single or mixed channel) replay
- External TBC interface capability provides broadcast quality replay

Supplied Accessories:
- Connecting Cable (2m, 20-pin)
- Shoulder Strap
- Operation and Maintenance Manual

Specifications

- Power Requirements: DC-12V (+5/-1.5)V
- Power Consumption: 15W
- Weight: 4 lb. 7 oz. (2.0 kg.) (approx.)
- Dimensions (WHD): 212 x 88 x 222mm
  (8 3/4" x 3 1/4" x 8 3/4"")
Production Camera Accessories

VCS-350
Video Selector
- Routes video output of multiple cameras for picture and waveform monitoring
- Up to 8 pix and WF signal can be input

Supplied Accessories:
- AC Power Cord (3) (1 x three types)
- 4-pin Connector for WF Mode Selector
- Plug Holder
- Operation and Maintenance Manual

Specifications
- Input Signals:
  - Pix (BNC x 8): 1.0Vp-p, VBS/VS, 75Ω
  - WF (BNC x 8): 1.0Vp-p, VBS/V, 75Ω
- Output Signals:
  - Pix (BNC): 1.0Vp-p, VBS/VS, 75Ω
  - WF (BNC): 1.0Vp-p, VBS/V, 75Ω
- Sync out (BNC): 0.3Vp-p, 75Ω
- WF mode out: 4-pin
- Input/Output Connector:
  - CCU/MSU: 16-pin loopthrough
- Power Requirements:
  - AC: 90V-264V, 50/60 Hz
- Power Consumption:
  - 12W
- Operating Temperature:
  - 0°C to 45°C (32°F to 113°F)
- Dimensions (WHD):
  - 424 x 44 x 350mm
  - (163/4" x 13/4" x 13/4") (approx.)
- Weight:
  - 8 lb. 13 oz. (4 kg.) (approx.)

VCT-12
Tripod Adaptor for DXC-325/327, EVW-327/325 Series
- Supplied with the DXC-325K/325L/327L, EVW-325L series
- For attaching the DXC-1820/325/327, EVW-327/325 series to a tripod without detaching the shoulder pad

Specifications
- Dimensions (WHD):
  - Approx. 340 x 32 x 105mm
  - (13/4" x 11/16" x 4 1/4")
- Weight:
  - Approx. 1 lb. 11 oz. (770 g.)

VCT-13
Tripod Adaptor for DXC-3000A/325/327A, EVW Series
- Adjustable camera position with screws
- Supplied with exclusive camera shoe

Specifications
- Dimensions (WHD):
  - 342 x 27 x 80mm
  - (13/4" x 1 1/4" x 3 1/4") (approx.)
- Weight:
  - 2 lb. (900 g.) (approx.)
VCT-14

Tripod Adaptor for DXC-M7/537/EVW-537 Series

- Supplied with the DXC-M7K/M7/537/537L series
- To attach the DXC-M7K/M7/537/537L series to a tripod
- Adjustable camera position with screws

Specifications
Dimensions (WHD): 282 x 27 x 80mm (approx.)
(11 1/8" x 1 1/4" 3 1/4")
Weight: 2 lb. (900 g.)
**DXC-930**

**Three Chip CCD Color Video Camera**
- Designed for multi-purpose applications such as computer imaging, scientific research, video conference and industrial inspection
- Three high resolution 1/2-inch IT Hyper HAD™ (Hole Accumulated Diode) sensors
- High sensitivity of f5.6 at 2000 lux with an excellent signal-to-noise ratio of 58 dB
- High horizontal resolution of 720 TV lines
- Various camera control functions can be easily and quickly set via the MENU/DISPLAY/FUNCTION/DATA buttons on rear panel
- Variable speed electronic shutter with 8-step speed selection: 1/100 (flickerless mode), 1/125, 1/250, 1/500, 1/1000, 1/2000, 1/4000, 1/10,000 seconds
- Clear Scan™ function
- Multiple signal outputs: RGB, Y/C and composite video
- Genlock capability and built-in color bar generator
- 1/2" dual "Hot Shoe“ bayonet mount
- RM-930 can remotely control all functions of the DXC-930 including zoom, focus and iris functions

**Supplied Accessories:**
- Lens Mount Cap
- Operation Instructions

DXC-755

3-Chip CCD Color Video Camera

- Two-piece design composed of a camera head and camera control unit
- Compact and lightweight camera head (600 g. without cable) for easy installation
- Various camera adjustment from a camera control unit
- High resolution Hyper HAD IT sensor offers superior picture quality
- High sensitivity of f8.0 at 2000 lux, high horizontal resolution of 750 TV lines and high signal-to-noise ratio of 60 dB
- Linear matrix circuit, gamma selection, detail level adjustment and selectable knee position for precise picture controls
- Seven step variable speed electronic shutter (from 1/125 to 1/10,000)
- Multiple outputs of composite, R/G/B, Y/R-Y/B-Y and Y/C signals
- Built-in full color bar generator
- Auto white/black balance
- Convenient gain-up switch (0/ +9/ +18 dB)
- Genlock capability with VBS or HD/VD
- Monitor output from camera head
- Up to 100mm cable extension capability between camera head and camera control unit via CCZ-A cable
- Adoption of bayonet lens mount
- TGR-750 supplied title generator produces characters to be superimposed on a picture

Supplied Accessories:
- TGR-750 Title generator
- ND filter
- Rack Mount Kit
- Screws (4)
- AC Power Cord
- Operating Instruction Manual

Optional Accessories:
- MVA-20 Microscope Adaptor with auto iris
- MVA-33 Microscope Adaptor
- MVAC-33/N Coupler for NIKON X/Y series microscopes
- MVAC-33/O Coupler for OLYMPUS BH-2/AH series microscopes
- MVA-365 Microscope Adaptor (one way)
- MVA-365 Microscope Adaptor (two way)
- RM-385 Remote Controller of the MVA-385
- MVA-302/MVA-302M/MVA-302F Endscope Adaptor
- RC-75 Extension Cable for TGR-750 (3m)
- CCZ-A2/A5/A10/A25/A50/A100 Camera Cable
- CCZZ-1E CCZ-A Cable Extension Connector
- VCL-25BY 25mm Fixed Focal Lens (f1.4)
DXC-107
Single Chip CCD Color Video Camera

- High resolution 1/2-inch IT HAD sensor CCD offers high quality picture
- High sensitivity in minimum illumination of only 9 lux with f1.2 lens
- Excellent signal-to-noise ratio of 48 dB
- High horizontal resolution of 470 TV lines
- Four alternative white balance control: Automatic control modes; AWB (Auto White Balance)/ATW (Auto Tracking White), Preset modes; INDOOR (3200K)/OUTDOOR (5600K)
- CCD IRIS control is incorporated for eliminating the need for using an automatic iris lens
- Variable speed electronic shutter is provided
- Built-in four digit ID number generator is provided
- C-mount adoption
- External genlock capability of VS
- Together with the CMA-D7 or YS-W230 AC adaptor, video and sync signals, and DC power can be transmitted up to 300 meters away through a single 5C-2V coaxial cable
- Remarkably compact and lightweight

Supplied Accessories:
- Lens Connector
- Lens Mount Cap
- Operating Instruction Manual

Optional Accessories:
- CMA-D7 AC Adaptor
- CCMC-12P02/05/10/25 Cable (12-pin multi-core)
- VCL-06XK Manual Iris Lens (6mm, f1.2)

Specifications
- Image Device: 1/2" Interline Transfer CCD
- Signal System: EIA standards, NTSC color system
- Sync System: Internal or external with VS
- Horizontal Resolution: 470 TV lines
- Lens Mount: C-mount
- Sensitivity: f4.0 at 2,000 lux (AGC off)
- Minimum Illumination: 9 lux with f1.2 (AGC on)
- Gain Selection: AUTO (ON/OFF selectable)
- Electronic Shutter: AUTO, 1/60, 1/120, 1/250, 1/500, 1/1000, 1/2000, 1/4000, 1/8000 (sec.)
- S/N Ratio: 48 dB
- Operating Temperature: 0°C to 40°C (32°F to 104°F)
- Power Requirements: DC 28/12V, supplied from CMA-D7
- Power Consumption: 6.3W using coaxial cable (DC-2B)
- 3.3W using CCMC-12P multi-core cable (DC-12V)
- Maximum Cable Length: 300m using 5C-2V coaxial cable
- 100m using 5C-2V coaxial cable
- 25m using CCMC-12P25 multi-core cable
- White Balance: AUTO; ATW or AWB white balance only
- PRESET: 3200K or 5600K
- Dimensions (WHD): 52 x 50 x 130mm
- (2 1/4" x 2" x 5 1/8")
- Weight: Approx. 12.7 oz. (360 g.) without lens
- Connectors: DC IN/VIDEO OUT (BNC)
- DC IN (12-pin)
- LENS (4-pin)

**Notes**

- Auto-iris control by the E-E amp, which are installed in the lenses, makes the PH6 x 8REA-IA-II and PH10 x 8REA-IA-II particularly suitable for multi-camera operation by a single remote control box.
- Zoom and iris can be controlled by the CC-8T-II (by Canon).

### LENSES W/O REMOTE CONTROL BOX

- J6 x 11R-II-A
- J6 x 11REA-II-A
- J6 x 11REA-IA-II-A

**DXC-151**

**Single Chip CCD Color Video Camera**

- RGB camera for image processing
- High resolution 2/3-inch IT HAD CCD, together with 380,000 effective pixels
- 460 TV lines (VBS or Y/C output) or 440 TV lines (RGB output) of horizontal resolution and superior color reproduction
- Excellent signal-to-noise ratio of 48 dB
- RGB output via a 9-pin D-sub connector
- Y/C or VBS output can also be selected from the 9-pin D-sub connector
- Composite signal output via a BNC connector
- Four alternative white balance control: Automatic control modes AWB (Auto White Balance)/ATW (Auto Tracking White), Preset modes INDOOR (3200K)/OUTDOOR (5600K)
- Variable speed electronic shutter is provided
- C-mount adoption
- Remarkably compact and lightweight

**Supplied Accessories:**
- Lens Connector
- Lens Mount Cap
- CCDC-50 DC Cable
- Operating Instruction Manual

**Optional Accessories:**
- CMA-D1 AC Adaptor
- Coaxial Cable (BNC)
- CCDC-10/25/50A/100A DC Cable
- CCXC-9DD RGB Cable (9-pin D-sub) (5m)
- CCXC-9DS RGB Cable (9-pin D-sub ↔ BNC's, DIN 4-pin) (5m)
- CMC-9DS RGB Cable (9-pin D-sub ↔ 4BNC's, DIN 4-pin) (5m)

**Specifications**

| Image Device: | 2/3" Interline-Transfer CCD (x 1) |
| Picture Elements: | 788 x 493 |
| Signal System: | EIA standards, NTSC color system |
| Scanning System: | 525 lines, 2.1 Interface |
| Horizontal Frequency: | 15.734 kHz |
| Vertical Frequency: | 59.94 Hz |
| Sensing Area: | 8.8mm x 6.6mm |
| Sync System: | Internal or external with VBS, BS |
| Horizontal Resolution: | 460 TV lines (VBS or Y/C output) |
| Lens Mount: | C-mount |
| Sensitivity: | f4.0 at 2,000 lux (0 dB) |
| Minimum Illumination: | 25 lux with f4.4 (+ 12 dB) |
| Gain Selection: | 0, +6, +12 dB, AGC selectable |
| Electronic Shutter: | OFF, 1/100, 1/250, 1/500, 1/1000, 1/2000, 1/4000, 1/10,000 (sec.) |
| S/N Ratio: | 48 dB |
| Operating Temperature: | 0°C to 40°C (32°F to 104°F) |
| Power Requirements: | DC 12V, supplied from CMA-D1 |
| Power Consumption: | 7W |
| Maximum Cable Length: | 100m using CCDC-100A cable |
| White Balance: | AUTO, ATW or AWB |
| Color Bar Generator: | NO |
| Camera Control: | NO |
| Dimensions (WHD): | 2/5" x 2 1/8" x 6 1/4" |
| Weight: | Approx. 1 lb. 2 oz. (520 g.) with lens |
| Connectors: | VIDEO OUT (BNC) |
| GENLOCK IN (BNC) |
| DC IN (12-pin) |
| LENS (4-pin) |
| RGB, VBS or Y/C out (9-pin D-sub) |

Image Capture Cameras

VID-P10

Video Presentation Stand

Documents, pictures, books, and three dimensional objects can be shown on TV monitors and projection screens. Built-in microphone amplifier with an audio output. Can be folded and carried like a briefcase. Built-in one chip CCD color video camera with six times zoom lens.

Supplied Accessories:
- Soft Cover
- Lamp (2)
- AC Cable
- Operation Manual
- Operating Seal

Specifications

Pick-Up Device: Interline Transfer CCD (Single Chip)
- Picture Element: 510(H) x 492(V)
- Horizontal Resolution: 320 TV lines
- Video Output: 75Ω, 1Vp-p unbalanced
  - BNC connector (x 1)
  - PHONO jack (x 1)
- Audio Input: 68Ω, –5 dB unbalanced
  - PHONE jack (x 1)
- Audio Output: 68Ω, –5 dB unbalanced
  - PHONO jack (x 1)
- Lighting: 25W lamp (x 2)
- Projectable object size to fill screen:
  - ZOOM MAX.: 58 x 43mm (23/8" x 11/4")
  - ZOOM MIN.: 340 x 250mm (131/2" x 91/2")
- Power Consumption: 60W
- Power Requirements: AC-120V, 60 Hz
- Weight: 20 lb. 5 oz. (9.2 kg.) (approx.)
AVC-D7

Single Chip CCD Monochrome Video Camera

- High resolution 2/3" IT HAD sensor offers high quality picture
- High horizontal resolution of 570 TV lines with high signal-to-noise ratio of 50 dB
- High sensitivity in a minimum illumination of 3 lux with f1.4 lens
- Variable speed electronic shutter is provided
- C-mount lens adaptor
- External genlock capability of VBS, VS, Sync or HD/VD
- Built-in f1.4 camera ID generator is provided
- Together with the CMA-D7 or YS-W230 AC adaptor, video and sync signals, and DC power can be transmitted up to 500 meters away through a single 7C-2V coaxial cable or 300 meters away through a single 5C-2V coaxial cable respectively
- All aluminum diecast body

Supplied Accessories:
- Lens Mount Cap
- Operating Instruction Manual

Optional Accessories:
- CMA-D7 AC Adaptor
- YS-W230 Camera Adaptor
- Coaxial Cable (BNC)
- 12-pin Multi-core Cable
- CCMC-12P02/05/10/25
- VCL-16Y Auto Iris Lens (16mm, f1.4)
- VCL-08Y Auto Iris Lens (8mm, f1.4)
- VCL-1106YM Manual Zoom Lens (11.5mm to 69mm, f1.4)

Specifications

- Pick-up Device: 2/3" Interline Transfer CCD
- Picture Elements (HV): 768 x 493
- Sensing Area: 8.8 x 6.8mm (equivalent to 2/3" camera tube)
- Scanning System: 525 lines, 60 field/s, 2:1 interlace
- Sync System: Internal or external with the VBS, VS, Sync, or HD/VD
- Horizontal Frequency: 15.734 kHz
- Vertical Frequency: 59.94 Hz
- Horizontal Resolution: 570 TV lines
- Lens Mount: C-mount
- Sensitivity: 400 lux with f4 (gamma ON, 0 dB)
- Minimum Illumination: 3 lux with f1.4 (AGC ON)
- Automatic Gain Control: ON/OFF selectable
- Gamma Correction: ON/OFF selectable
- Electronic Shutter: OFF, 1/60, 1/120, 1/240, 1/500, 1/1000, 1/2000, 1/4000, 1/10,000 (sec.)
- Video Output: 1.0Vp-p, sync negative, 75Ω, unbalanced
- S/N Ratio: 50 dB
- Operating Temperature: 0°C to 40°C (32°F to 104°F)
- Power Requirements: DC-12V from CMA-D7
- DC-28V from CMA-D7/YS-W230
- Power Consumption: 6.5W using coaxial cable, 3.3W using CCMC-12P multi-core cable
- Maximum Cable Length: 500m (using 7C-2V coaxial cable)*
- GENLOCK Capability: H phase control
- Dimensions (WHD): 50 x 55 x 128mm
- Weight: 11.6 oz. (330 g.) (approx.) without lens
- Connectors: BNC: DC IN/VIDEO OUT, GENLOCK IN
- 12-pin: DC IN
- 4-pin: LENS (for iris control)

*When using the YS-W230, the maximum cable length is 300mm with the 5C-2V coaxial cable.
Lens Accessories

**LO-23**
Flexible Cable Unit
Servo zooming and manual focusing

**Specifications**
- Cable Length: 1m (3.3 ft.)
- Weight: 2 lb. 10 oz. (1.2 kg.)

**LO-26**
Flexible Cable Unit
Servo zooming and manual focusing

**Specifications**
- Cable Length: 1m (3.3 ft.)
- Weight: 2 lb. 7 oz. (1.1 kg.)

**LO-27**
Flexible Cable Unit
Servo zooming and manual focusing

**Specifications**
- Cable Length: 1m (3.3 ft.)
- Weight: 2 lb. 7 oz. (1.1 kg.)

**MVA-12**
Video Camera Microscope Adaptor
For 1" or 3/4" color or monochrome video camera with C-mount

**Specifications**
- Video Camera Mount: C-mount
- Application Microscope: Biological or metallurgical microscope with straight tube
- Dimensions: 48(dia.) x 96(L)mm
  (11 3/4" x 3 3/4")
- Weight: 1 lb. 9 oz. (400 g.)

**MVA-20**
Microscope Adaptor with Auto Iris
For 3/4" video camera with bayonet mount

**Specifications**
- Video Camera Mount: Bayonet
- Applicable Microscope: Biological or metallurgical microscope
- Dimensions: 74(dia.) x 116(W) x 104(L) mm
  (3" x 4 1/2" x 4 1/4")
- Weight: 1 lb. 5 oz. (600 g.)

Note: Optional "mount head OES" is necessary to connect the Olympus OES series endoscope with the MVA-302.
Lens Accessories

MVA-365
Operation Microscope Adaptor (One Way)
- For 3/4" video camera with bayonet mount
- For Carl Zeiss OPMI series

Specifications
- Video Camera Mount: Bayonet
- Applicable Microscope: Operation microscope
- Dimensions (WHD): 80 x 154 x 86mm (3 1/4" x 6 1/4" x 3 1/4")
- Weight: 1 lb. 7 oz. (650 g.)

MVA-385
Operation Microscope Adaptor (Two Way)
- For 3/4" video camera with bayonet mount
- For Carl Zeiss OPMI series
- Zoom and focus functions can be remotely controlled by the optional RM-385 Remote Controller

Specifications
- Video Camera Mount: Bayonet
- Applicable Microscope: Operation microscope
- Dimensions (WHD): 90 x 95 x 245mm (3 3/4" x 3 3/4" x 9 3/4")
- Weight: 3 lb. 5 oz. (1.5 kg.)

MVAC-33 Series
Coupler
- MVAC-33/N: For NIKON X/Y series microscope
- MVAC-33/O: For OLYMPUS BH-2/AH series microscope
- Used with the MVA-12/20/33

Specifications
- Dimensions: MVAC-33/N: 49(dia.) x 44mm(L) (1 15/32" x 1 3/4")
  MVAC-33/O: 55(dia.) x 48mm(L) (2 3/4" x 1 19/32")
- Weight: MVAC-33/N: 1.8 oz. (50 g.)
  MVAC-33/O: 3.6 oz. (100 g.)

RM-385
Remote Controller for the MVA-385
- Controls the zoom and focus function of the MVA-385 Microscope adaptor

Specifications
- Dimensions (WHD): 170 x 45 x 130mm (3 3/4" x 1 7/16" x 5 1/4")
- Weight: 2 lb. (900 g.)
AC-500/500CE

AC Adaptor
- Supplies DC power to Sony BVP-series equipment
- Genlock functions by means of a VBS signal

Supplied Accessories:
AC Power Cord
DC Cord 2m with XLR-plugs

Specifications
Power Requirements: AC-100V/120V/220V/240V selectable, 50/60Hz
Power Consumption: 120W max.
Input/Output Terminals:
- CAMERA connector (14-pin)
- VIDEO OUT connector (BNC type) 1Vp-p, 75Ω
- MIC OUT connector (equivalent to XLR-3-31)
- Reference output: -60 dBm 6000, balanced
- DC OUT connector (equivalent to XLR-4-31) 12.3V, 7A
- EXT VBS Input connector (BNC type) VBS (1Vp-p) or BS, 75Ω
Weight: 9 lb. 8 oz. (4.3 kg.)
Dimensions (WHD): 217 x 91 x 327mm (85/8" x 3%" x 12%"

BC-1WB
Battery Charger for NP-1B
- The BC-1WB is a battery charger for the NP-1B battery pack
- Up to four NP-1B batteries can be charged sequentially

Specifications
Power Requirements: AC-100V -120V ± 10%, 50/60Hz
Power Consumption: 60W
Charging Time: 90 min. (Max. 120 min.) (approx.)
Rechargeable Battery: NP-1B
Weight: 2 lb. 4 oz. (1.3 kg.)
Dimensions (WHD): 107.5 x 81 x 315mm (41/4" x 31/4" x 122/3"

BC-410/410CE
Battery Charger for BP-90A/NP-1B
- Battery charger for BP-90A and NP-1B
- Up to four BP-90As and four NP-1Bs can be charged
- Battery refreshing function
- Trickle charge to avoid self-discharge

Supplied Accessories:
AC Power Cord
Operation and Maintenance Manual

Specifications
Power Requirements: AC-100V/120V/220V/240V selectable, 50/60Hz
Power Consumption: 75W
Charging Time: BP-90A: 160 min. (Max. 240 min.)
- NP-1B: 90 min. (Max. 120 min.)
Weight: 8 lb. 13 oz. (4 kg.)
Dimensions (WHD): 212 x 85 x 325mm (41/2" x 31/4" x 121/2"

A-79
BP-90A
Rechargeable Battery Pack
Specifications
Type of Battery: NiCd rechargeable
Voltage: DC-12V
Current Capacity: 5Ahr
Dimensions (WHD): 123 x 171 x 37mm
(4 7/8" x 6 3/4" x 1 1/2"
Weight: 31 lb. 8 oz. (1.6 kg.)

CCZ-2/10
Connecting Cable (2m/10m) (26-pin—26-pin) for BVW-400

CCRZ-5
Connecting Cable (20-pin—26-pin) for BVW-300A/400 Series

CCT-K50/100/150/300
Triax Cable for CCU-355/370
Specifications
Cable Length:
CCT-K50/50: 50m (164')
CCT-K100/100: 100m (328')
CCT-K150/150: 150m (492')
CCT-K300/300: 300m (984')
BVP-370/270—CCU-370
BVP-701S/7A/7000HS with CA-57—CCU-370
BVP-701S/T7A/T70/T7A/7000HS with CA-55—CCU-355

CMA-D1
AC Adaptor for DXC-151/AVC-D5
- Supplies power to two AVC-D5 simultaneously
- Supplies power to one DXC-151
- Maximum cable length: 100m (with CCDC-100A cable)
Supplied Accessories:
AC Power Cord
Specifications
Connectors: DC OUT x 2
DC OUT: 12V, 1A (2 outputs)
Power Requirements: AC-120V, 50/60 Hz
Power Consumption: 25W
Dimensions (WHD): 167 x 76 x 158mm
(6 1/4" x 3" x 6 1/4"
Weight: 14 lb. 13 oz. (2.2 kg.)
CMA-D7
AC Adaptor for AVC-D7/DXC-107

- Power supply and video/sync signal transmission by connecting to AVC-D7/DXC-107 with a single coaxial cable
- Extends the cable length up to 300 meters by using 5C-2V coaxial cable

Supplied Accessories:
AC Power Cord

**DC-310**

Battery Case for Two NP-1Bs

- Battery case for BVP series 3-tube cameras and CA-3A/CA-50/CA-55/CA-57 equipped cameras
- Up to two NP-1B batteries can be held

Supplied Accessories:
- Holder (1)
- Screws (1 set)

Specifications
- Dimensions (WHD): 86 x 203 x 77mm
  (3 1/4" x 8" x 3 1/4"
- Weight: 1 lb. 6 oz. (630 g.)

**DC-500**

Battery Case for BP-90A

- Battery case for one BP-90A battery
- Specially designed for the BVV-5/BVW-300A/400
- Supplies DC-12V

Supplied Accessories:
- Screw (M3 x 5)

Specifications
- Dimensions (WHD): 147 x 207 x 62mm
  (5 1/4" x 8 1/4" x 2 1/2"
- Weight: 14 oz. (400 g.)

Data Storage

**DIR-1000 Series**

**Digital Instrumentation Recorder**

- High density, helical scan recording is used to record wide band and high data rate digital signals. Using a large size cassette, the DIR-1000 series provides up to 770 Gbits of data storage capacity.
- Incorporates cassette based digital recording technology to make a significant contribution to the automation of complex operations in various types of data storage systems, and also ensure effective space saving, easier handling and storage of large quantities of data and better tape protection than that of open reel recorders.
- Conforms to the standard specified in the 19mm type D-1 format, which has been widely adopted by broadcast and post production users all over the world.
- Complies with the ANSI X3B.6 ID-1 standards, maintaining compatibility with other data recorders which conform to this format.
- Extremely high speed recording and playback is possible with a maximum data rate of 256 Mbps.
- Time companding capability: Recording and playback are possible at data rates from 256 Mbps down to 8 Mbps.
- Reed-Solomon error correction is performed by the use of customised encoder and decoder chips to permit powerful error correction.
- Read-after-Write facility makes it possible to monitor the error conditions of recording in real time.
- Two annotation channels are provided to record auxiliary information such as oral comments, time code, etc. One of two annotation channels (Channel 1) can be used to record and play back oral comments through microphone and headphone jacks on the front panel.
- Search function via Track Set ID numbers recorded on the control track can be read at any tape speed during fast forward or rewind.
- Versatile remote control system interface via three different types of communication port: RS-422/485 (Primary port), IEEE-488 (GPIB), and RS-232C.
- Built-in diagnostic system, which is designed to detect an operation error or hardware fault.

- Operation and Installation Manual

### Optional Accessories:

- Cables
  - VCD-2D/VCD-5D/VCD-10D/VCD-30D (2/5/10/30m) Digital Video Cable for data input/output signals
  - ECD-3C/ECD-10C/ECD-30C (3/10/30m) Digital Audio Cable, for annotation input/output signals
  - EC-5XL2/EC-10XL2 (5/10m) analog Audio Cable for annotation input/output signals
  - RCC-5G/RCC-10G/RCC-30G (5/10/30m) RS-422/485 Remote Control Cable for remote interface
- SMK-0032 (2m) IEEE-488 (GPIB) Interface Cable for remote interface
- RMM-18DV Digital VTR Rack Mount Rail (for use with Rack angle assemblies)
- D-1 19mm Type Cassette (Hi-Hc): L/M/S size tapes
**Specifications**

### Performance
- **Recorded Tape Format:** ANSI X3B.6 ID-1 Standard
- **Cassette Tape:** 19mm type D-1 Broadcast standard (Hi-Hc)
  - **Large:** Max. 770 Gbits (L-cassette, 16 μm)
  - **Medium:** Max. 330 Gbits (M-cassette, 16 μm)
  - **Small:** Max. 100 Gbits (S-cassette, 16 μm)
- **User Data Rate (Mbps) (Record/Playback):**
  - DIR-1000: 256, 128, 64
  - DIR-1000M: 128, 64, 32
  - DIR-1000L: 64, 32, 16
  - DIR-1000: 16
  - DIR-1000M: 8
  - DIR-1000L: 8
- **Bit Error Rate (Corrected):** 1 x 10E-10
- **Data Assurance:** Read-after-Write for Data and CTL
- **Tape Loading Time:** < 14 seconds
- **Servo Lock Time:** 10 sec. from stop mode (approx.)
- **Fast Forward/Rewind Time:** < 180 sec. with L-cassette
- **Rewind Time:** < 90 sec. with M-cassette
- **Rewind Time:** < 45 sec. with S-cassette

### General
- **Power Requirements:** 100V ~ 120V/220V ~ 240V
- **Power Consumption:** ± 10%, 50/60 Hz
- **Operating Temperature:** 10°C to 35°C (50°F to 95°F)
- **Storage Temperature:** -20°C to +60°C (-4°F to 140°F)
- **Operating Humidity:** 20%~80% (non-condensing)
- **Storage Humidity:** 10%~90% (non-condensing)
- **Weight:** Approx. 147 lb. 11 oz. (67 kg.)
  - DIR-1000: Approx. 136 lb. 11 oz. (62 kg.)
  - DIR-1000M: Approx. 127 lb. 14 oz. (58 kg.)
- **Dimensions (WHD):** 436 x 42.5 x 635.5 mm
  - (17 3/4" x 17 3/4" x 25 3/4")
  - Including handles and feet

### Input/Output Signals (Connector)
- **Data Input (D25S):** 8 line pairs for data (ECL, NRZ) (with clock, sync, parity)
- **Data Output (D25S):** 8 line pairs for data (ECL, NRZ) (with clock, sync, parity and error flag)
- **REF (reference) Input (D25S):** Clock and sync (ECL)
- **Annotation Input:** + 4 dBm, 600Ω, balanced
- **Annotation Output:** Low Impedance, balanced
- **Mic IN (Standard Jack):** For Annotation CH-1
- **Headphone Out (Standard Jack):** For Annotation CH-1
- **AUX (Auxiliary) Data Input/Output (D15S):** RS-422 interface
- **Remote 3:** IEEE-488 (GPIB) interface
- **Remote 4/5 (D9S):** RS-422/485 (Primary) interface

Data Storage

DMS-24/16
Digital Mass Storage System
- Maximum data storage capacity of 2.3 terabytes with 24 D-1 large cassettes
- Incorporates Sony’s DIR-1000 series digital instrumentation recorder which conforms to ANSI ID-1 format
- With a one recorder system, 24 D-1 large or medium cassettes can be loaded
- With a two recorder system, 15 D-1 large or medium cassettes can be loaded
- Space efficient, high density data storage of 3.8 terabytes per square meter (360 gigabytes per square foot) with 24 large cassettes loaded in the system
- High density data recording capacity of up to 96 gigabytes on a single D-1 large cassette
- High speed data recording/playback capability at a maximum data rate of 32 megabytes/sec. with the DIR-1000

Data Storage

DMS-700M/300M

Digital Mass Storage System

- Mass data storage capacity of 27 terabytes or 13 terabytes with a 672 or 320 medium cassette console, respectively.
- System can be configured with up to three Sony DIR-1000 Series recorders conforming to the ANSI ID-1 format.
- Space efficient, high density data storage of 8.6 terabytes or 6.2 terabytes per square meter (800 gigabytes or 570 gigabytes per square foot) with each 672 or 320 medium cassette console, respectively.
- High density data recording capacity of up to 41 gigabytes on a single D-1 medium cassette.
- High speed data recording/playback capability at a maximum data rate of 32 megabytes/sec. with the DIR-1000.

### PC-204/208

**Instrumentation Cassette Recorder Using DAT Technology**

- **Double Bandwidth Record/Playback**: The PC-204 provides four 20 kHz channels while the PC-208 offers eight 10 kHz channels.
- **Double Speed Time Compression/Expansion**: Second generation DAT tape transport mechanisms and considerable LSI technology has enabled the manufacture compact, lightweight recorders suitable for a wide range of applications.
- **Multiple AC/DC Power Source**: 200 times normal speed, high speed search enables quick access to any desired data location.
- **3 Hour recording with DDS tape**: Automatic zero adjustment and gain calibration.
- **Head scanner enables real time read-after-write monitoring** for the ultimate in recorded data confidence.
- **Highly accurate inter-channel phase difference error**.
- **Dynamic range of more than 80 dB** within the bandwidth is achieved utilizing 16-bit linear quantization.
- **Switchable %/dB bar display**.
- **Optional PCRM21 remote control unit** comes equipped with bar meters for all channels and a tape position indicator. Can also be controlled by a PC computer via RS-232C interface. An external control terminal is also provided for relay contact input.

### Optional Accessories:
- PCRM21 Remote Control Unit
- NP-1B Battery Pack
- PCHL21 Guard Frame
- BC-1WB 4-Cell Battery Charger
- BNC Cable: PCBK11 (BNC/BNC), PCBK18 (Colored BNC/BNC, 8 pieces)
- Cassette Tapes: DG90MA, DG60MA, DG-5CLA (Cleaning Tape)
- PCTC21 Carrying Case (aluminum)

### Specifications

#### Tape Transport
- **Tape Used**: DG80MA, DG90MA, DT-46, DT-60, DT-120
- **Tape Width**: 3.81 mm
- **Tape Speed**: 8.15 mm/sec. (normal speed), 16.30 mm/sec. (double speed)

#### Record/Playback
- **Time (in min.)**:
  - PC-204: Normal Speed 46, Double Speed 23; DT-60: Normal Speed 60, Double Speed 30; DG-90MA: Normal Speed 90, Double Speed 45; DT-120: Normal Speed 120, Double Speed 60; DG-90MA: Normal Speed 120, Double Speed 60; DG-90MA: Normal Speed 90, Double Speed 45; DT-120: Normal Speed 120, Double Speed 60
- **Channel**: 4 (PC-204), 8 (PC-208)
- **Sampling Frequency**: PC-204: 24 kHz (normal speed), 48 kHz (double speed)
- **PC-208**: 12 kHz (normal speed), 24 kHz (double speed)
  - (64-times oversampling in both record and playback)
- **Quantization**: 16-bit, linear
- **Head Configuration**: 2 heads for recording, 2 heads for playback
- **Subcode Channel**: ID, time, address, announce, input range setting
- **Frequency Response**: PC-204: DC to 10 kHz, 0.5 dB to -1.0 dB @ 200 Hz (normal speed), DC to 20 kHz, 0.5 dB to -1.0 dB @ 200 Hz (double speed)
  - PC-208: DC to 5 kHz, 0.5 dB to -1.0 dB @ 200 Hz (normal speed), DC to 10 kHz, 0.5 dB to 1 - 10 dB @ 200 Hz (double speed)
- **Dynamic Range**: > 80 dB (within the bandwidth)
- **S/N Ratio**: > 78 dB (within the bandwidth)
- **Input Range**: ± 20V, ± 10V, ± 5V, ± 2V, ± 1V, ± 0.5V

### Input/Output
- **Zero Adjustment**: Automatic (at power-on, E-E, recording and playback)
- **Output Lever Adjustment**: ± 1V to ± 3V, continuously variable
- **Output Current**: 10 mA max.
- **Input Impedance**: 100 kΩ, unbalanced
- **Output Impedance**: 50Ω
- **Drift**: < ± 0.1% in record and playback (in the 15 min. ~ 20 min. period after power-on)

### Function
- **High Speed Search**: Max. 200 times normal speed
- **High Speed**: Mark, 1, Mark 2, ID, Start ID
- **Manual Search**: Tape runs at 16 times normal speed
- **Remote Control**: Optional PCRM21
- **External Control**: External relay contact input
- **Test Signal**: ± 100% AC (500 Hz @ (normal speed), 1 kHz @ (double speed), 100% DC, 0V)
- **Centralized Display**: Simultaneous all channel display, voltage % and dB (characteristics selectable) input range and monitored channel indicators
- **ID**: 1000 - 999, auto increment
- **Tape counter**: ± hr., min., sec.
- **Tape Reminder**: Counter: hr., min. (in recording and playback)
- **Address**: ± hr., min., sec.
- **Time**: Year-month-day/hr.-min.-sec.
- **Display**: High-contrast, wide view LCD (with backlight)
- **Bar Meter**: Simultaneous all channel display, voltage % and dB (characteristics selectable) input range and monitored channel indicators
- **Warning**: Display: DC battery low, mechanical troubles, condensation, and error check messages
- **LED**: Overrange input
- **Monitor Output**: Data signal of a selected channel
- **Sound Monitor**: Switchable between memo announce and data signal of a selected channel; built-in speaker or earphone
Data Storage

PC-116

Instrumentation Cassette Recorder

Using DAT Technology

- 2 to 16-channel multi-band/channel mode offers a wide range of applications
- Signal-to-noise ratio of more than 78 dB (Dynamic range: more than 80 dB)
- Interchannel phase difference error of 5° or less
- Various monitoring functions including 2 channel waveform monitor
- Direct-drive mechanism (pinch roller, capstan and reels) ensures high reliability
- Optional GP-IB interface for digital data transfer
- 16-bit digital data output
- Menu-driven operation for ease of use
- 6 distinct search modes
- Automatic attenuator setting and input/output zero adjustment
- 1-bit digital input/output using data LSB (switchable)
- Easy-to-read EL display

Recording/Reproducing System (continued)

Signal-to-Noise Ratio: > 7 dB, Dynamic Range: > 80 dB
Crosstalk: < -80 dB
Distortion: Within 0.1%
DC Linearity: < ±0.1%
Inter-channel Phase Difference Error: < 5° between channels of the same bands
Drift: Within ±0.1% (from 15 minutes after power-on)
Analog Input: Input Level: ±20Vp, ±10Vp, ±5Vp, ±2Vp, ±1Vp; auto/manual selectable
Coupling: AC/DC selectable, cut-off frequency 3 Hz
Input impedance: > 100 kΩ, unbalanced
Analog Output: Auto zero point adjustment: Output Level: ±1Vp – ±5Vp, in 0.1V steps
Output Current: 10 mA max.
Load impedance: > 600Ω
Digital Output: Data 16 bits + Address 4 bits + Data block 1 bit + Trigger 1 bit + Error flag 1 bit + Muting 1 bit
Functions: Monitor: EL display, waveform display, bar meters for all channels, digital voltmeter
High-Speed Search: Max. 200 times the normal speed (counter, address, time code, ID, event marker, start ID, manual search and blank search)
GP-IB Interface: Remote control, digital data transfer (2 MB buffer), frame trigger/event marker trigger

Recording/Reproducing System

Sampling Frequency: 48 kHz (2 channels, 20 kHz bandwidth)
Recording Block: ½ decimation digital filters
Reproducing Block: 2-times oversampling digital filters
Quantization System: 16-bit
Modulation System: 8–10 modulation
Error Correction System: 2-track finished interleave, Double Reed-Solomon
Transmission Rate: 1.536 Mbit/sec. (data only)
Postrecording System: Non-erase, overwrite system
Subcodes: PCM Area: Format partition, subformat partition, sampling frequency, B/C mode, recording tape speed
Subcode Area: ID, time code, address, voice memo, memo, start ID, data ID, format ID, event marker, attenuator code, coupling code
Data Storage

PC-108M
Digital Audio Tape (DAT) Instrumentation Cassette Recorder

- Easy-to-read high-contrast LCD for the display, information including the signal levels of each channel are accurately displayed. The contrast of the LCD can be adjusted for optimum monitoring. In addition, a backlight is provided for monitoring in the dark. Signal-to-Noise ratio of more than 78 dB: Enhanced dynamic range. Marked decline in inter-channel phase difference error. "Double Reed-Solomon" error correction system. High anti-vibration and heavy-duty characteristics. Large capacity subcode area permits various supplementary information to be recorded and reproduced simultaneously with data for easy data retrieval and rearrangement. High-speed search of maximum 200 times normal speed enables quick access to any desired data. Compact design.

- Easy operation. Palm-size cassette tape of large capacity (Commercially available DAT cassette tape can be used). Multiple B/C (band/channel) modes to extend the use of this unit. Digital output permits easy system upgrading. GP-IB control which permits various control functions of the unit from a personal computer, EXT control which permits tape transport control by control signals through make-contacts, and remote control using an optional remote control unit are possible. Memory buffer expandable to 8-Mbytes: 2-Mbyte standard configuration, expandable in 2-Mbyte increments. Channel Selectable: User can select which channels of data are loaded in the buffer, allowing more efficient use of memory.

- Selectable Storage Rate: user can store selected data samples rather than all samples, reducing memory required for a given record length. Pre-Trigger Memory: data prior to trigger point can be stored in the buffer.

- Programmable Loading Conditions: Channels to be stored, storage rate and block length for a series of data blocks can be preset. This enables intermittent loading and quick switching of loading conditions.

- Various Trigger Functions: 1. GET (Group Execute Trigger): Trigger via GP-IB from host computer. 2. Internal trigger (address, event marker): Trigger by address or event marker. Using address trigger, timing is accurate to 1/32 of a second. 3. External Trigger: BNC connection for external trigger. Trigger input level selectable from TTL, 0.5V, 1.0V and 2.0V.

Optional Accessories:
RM-108 Remote Control Unit
HL-108 Carrying Handle (A, B)
DK-108 Digital Dubbing Cable
RT-108 Rack Mount Adaptor
Data Recorder Interface
## Data Storage

### Specifications

#### Tape Transport

- **Tape Used:** Commercially available DAT cassette tapes (DT-46, DT-60, DT-90, DT-120)
- **Tape width:** 3.81 mm, **Tape speed:** 8.15 mm/sec.
- **Recording/Reproducing Time:**
- **Heads:** Rotary Heads
  - Drum dia.: 30mm, Wrapping angle: 90°
  - Drum rotation: 2,000 rpm
- **Relative Speed:** 3.133 m/sec.
- **Track Pitch:** 13.59 μm
- **Tracking:** Area-dividing ATF
- **Starting/Stopping Time:** < 3 sec./< 1 sec.
- **Tape End Detection:** BOT/EOT transparent leader sections are detected by photo sensors

#### Recording/Reproducing System

- **Direction:** Forward Direction Only
- **Servo:**
  - Capstan: ATF control (in FWD) and phase control (in REC/FWD)
  - Drum: Phase control, speed control
  - Reel: Tension-constant control (except search and FF)
- **Fast Forward/Rewind Time:** < 1 min. (with DT-120)

#### Inter-Channel Phase

- **Difference Error:** < 6° between channels of the same bands
- **Drift:** < ±0.1% each in recording and reproducing blocks (for 2 hours from 15 minutes after power-on)

#### Analog Input

- **Input Level:** ±20Vp, ±10Vp, ±5Vp, ±2Vp, ±1Vp
- **Coupling:** AC/DC selector, cut-off frequency 3 kHz
- **Input Impedance:** > 100 kΩ

#### Analog Output

- **Output Level:** ±1Vp to ±5Vp continuously variable
- **Output Current:** 10 mA max.
- **Load Impedance:** > 600Ω

#### Digital Output

- **Data 16 bits + Address 3 bits + Data clock 1 bit + Trigger 1 bit + Error flag 1 bit + Muting 1 bit**
- **Transmission Rate:** 1.536 Mbit/sec. (data only)
- **Head Configuration:** 2 heads for both recording and reproducing uses

#### Subcodes

- **Signal-to-Noise Ratio:** > 76 dB
- **Crosstalk:** < -70 dB (0 dB = ±1Vp)
- **Distortion:** < 0.05%
- **DC Linearity:** < ±0.1%

### Inter-Channel Phase

- **Difference Error:** < 6° between channels of the same bands
- **Drift:** < ±0.1% each in recording and reproducing blocks (for 2 hours from 15 minutes after power-on)

### Analog Input

- **Input Level:** ±20Vp, ±10Vp, ±5Vp, ±2Vp, ±1Vp
- **Coupling:** AC/DC selector, cut-off frequency 3 kHz
- **Input Impedance:** > 100 kΩ

### Analog Output

- **Output Level:** ±1Vp to ±5Vp continuously variable
- **Output Current:** 10 mA max.
- **Load Impedance:** > 600Ω

### Digital Output

- **Data 16 bits + Address 3 bits + Data clock 1 bit + Trigger 1 bit + Error flag 1 bit + Muting 1 bit**
- **Transmission Rate:** 1.536 Mbit/sec. (data only)
- **Head Configuration:** 2 heads for both recording and reproducing uses

### Subcodes

- **Signal-to-Noise Ratio:** > 76 dB
- **Crosstalk:** < -70 dB (0 dB = ±1Vp)
- **Distortion:** < 0.05%
- **DC Linearity:** < ±0.1%
Data Storage

PC-IF21

Instrumentation Recorder Start-Up Memory Unit

- Trigger Input: The data recorder connected can be started by an external trigger input, an advantage in applications such as monitoring of irregular events. In addition, data signal such as irregular events can be used to trigger recording, which proves very convenient in measuring meteorological phenomena such as thunder.

- Time Shift: The time shift function using memory prevents failure to record data at the start-up and also enables recording of the data that precedes the trigger.

- Memory Expansion: Expansion by 10 sec. is possible with each set (2 pcs) of Expansion Memory PCEB14 added, enabling time shift of up to 40 sec.

- Recording Duration Setting: The time from the start-up to stop can be selected from 6 duration of 1 min., 2 min., 3 min., 5 min., 10 min., and CONT. When CONT. is selected, the recording is continued until an external stop signal is input.

- Data Backup: Since the data recorder connected can be started or stopped by an external signal (TRIG IN/STOP IN), the PC-IF21 can be used for data backup with an analyzer or monitor.

Operations

- The analog data loaded in the recorder is digitized before it is produced from the DIGITAL DATA OUT terminal.

- The digital data is delayed by the memory in the PC-IF21 (a delay of about 10 sec. is effected by a 2 Mbyte) and fed back to the digital input terminal of the recorder. In response to the external trigger, the signal preceding it is recorded for a delay time set (less the recorder’s start-up time).

- The data recorder stops after recording for a RECORDING DURATION set.

The PC-IF21 awaits the next trigger to repeat the above operation.

Specifications

- Signal Input: Serial digital data from the recorder.
- Signal Output: Serial digital data to the recorder.
- Clock Input: Synchronizing word clock.
- Trigger Input: External trigger causes the recorder to initiate recording.
  [Level]: +0.5V/ +1.0V/ +2.0V (rise) and TTL (rise).
- Stop Input: External stop signal causes the recorder to stop after the set delay.
  [Level]: TTL.
- EXT Control: Controls the tape transport.
- Time Shift: 0 sec./5 sec./10 sec./20 sec./30 sec./40 sec. Up to 10 sec. as standard. Extension possible in 10 sec. steps with every PCEB14 expansion memory additionally used.
- Recording Duration: Selectable from 6 durations: 1 min., 2 min., 3 min., 5 min., 10 min., and CONT. When CONT. is selected, the recording is continued until an external stop signal is input.
- Power Supply: 100V AC to 240V AC, 50/60 Hz. 12V DC ±10% (inversed-polarity connection prevented).
- Dimensions (WHD): 430 x 49.5 x 275mm.
- Mass: Approx. 3 kg.
PC-IF11
Data Recorder Interface

- Memory buffer expandable to 8-Mbytes: 2-Mbyte standard configuration, expandable in 2-MByte increments
- Channel Selectable: User can select which channels of data are loaded in the buffer, allowing more efficient use of memory
- Selectable Storage Rate: User can store selected data samples rather than all samples, reducing memory required for a given record length
- Pre-Trigger Memory: Data prior to trigger point can be stored in the buffer
- Programmable Loading Conditions: Channels to be stored, storage rate and block length for a series of data blocks can be preset. This enables intermittent loading and quick switching of loading conditions
- Various Trigger Functions: 1. GET (Group Execute Trigger): Trigger via GP-IB from host computer 2. Internal trigger (address, event marker): Trigger by address or event marker. Using address trigger, timing is accurate to $\frac{1}{32}$ of a second. 3. External Trigger: BNC connection for external trigger. Trigger input level selectable from TTL, 0.5V, 1.0V and 2.0V.

Supplied Accessories:
- AC Cord (1)
- AC Spare Fuse (1)
- Digital Cable (1)
- Operation Manual (1)

Optional Accessories:
- PCEB14 (2-Mbytes Expansion Memory)

Specifications

- Input: Digital Data from PC-108M/PC116
- Output: GP-IB (IEEE-488) SH1, AH1, T6, TE0, L4, LE0, SR1, RL2, PPO, DC1, DT1, C0
- Trigger Input: TTL, +0.5V, +1.0V, +2.0V
- Memory Capacity: 2-Mbytes (1M words) Expandable up to 8-Mbytes (4M words) (Optional)
- Power Requirement: 90V–250V AC, 50/60 Hz
- Power Consumption: 20W max.
- Dimensions (WHD): 430 x 50 x 275mm
- Weight: Approx. 6.8 lbs. (3 kg.)
- Operation Temperature and Humidity: 0°C to 40°C (32°F to 104°F) 20%–80% RH (No condensation)

**BVM-2811**

28-inch Broadcast Color Monitor

- Large size master monitor for precise evaluation of video signals
- Employs a 16:9 aspect ratio CRT switchable between 16:9 and 4:3
- CPU Control system for enhanced monitor operation and remote control flexibility
- High resolution of approx. 750 TV lines (16:9) and approx. 1000 TV lines (4:3)
- Highly stable white balance
- Optional accessories available for alternative applications—BKM-2056 and BKM-2053 for Auto setup and with fine adjustment capability (NTSC, PAL, PAL-M, SECAM, RGB/Component)—Optional Comb Filter for NTSC (BKM-1412") and PAL (BKM-1422)—Accepts serial component digital input with BKM-2085 or composite digital input with BKM-2090

*The BKM-1412 is supplied with the BVM-2811.*

**Input Performance**

- **RGB/VIDEO/TEST:**
  - Loop-through BNC
  - Component Y: 0.7Vp-p non-composite or 1Vp-p composite ±6 dB positive, high impedance
  - R-Y/B-Y: Loop-through BNC ±6 dB positive, high impedance
  - External Sync: Loop-through BNC ±6 dB positive, high impedance
  - Return loss: ≥ 46 dB, up to 7 MHz
  - Cross Talk: ≥ 50 dB, up to 7 MHz

- **RGB Performance**
  - Frequency Response:
    - DC Restoration: Back porch type, Back porch level: within 1% of peak luminance, 10% to 90% APL
  - PAL/NTSC Performance
    - Differential Gain: Within 2%
    - Differential Phase: Within 2°
    - Frequency Response:
      - Y: 50 Hz to 6 MHz ±1 dB
      - C: 1.3 MHz
  - Aperture Correction: Adjustable continuously up to 6 dB boost at 4.5 MHz or 6.5 MHz (selectable)

**Specifications**

**General**

- **System:** BVM-2811: 525 lines, 60 fields interlaced
  - BVM-3011P: 625 lines, 50 fields interlaced
- **Power Requirements:** AC-100V/120V and 220V/240V ±10%, Line frequency 48 Hz to 66 Hz
- **Power Consumption:** 220W (typical)
- **Dimensions (WHD):** 754 x 615 x 677mm (291/4" x 241/2" x 261/4"")
- **Weight:** 202 lb. 13 oz. (92kg.)

**CRT Performance**

- **CRT Type:** Super fine pitch Trinitron with SMPTE C phosphors (BVM-2811) EBU phosphors (BVM-3011P), aspect ratio 16:9, 0.35mm phosphor trio pitch
- **Center resolution:** Approx. 750 TV lines (16:9)
- **Screen Size:** Diagonal: 711.2mm (28")
  - Width: 620mm (241/2")
  - Height: 349mm (131/4")
- **Color Temperature:** PRESET: Factory adjusted for 6500k white MANUAL control is also available, which allows alternative setting of color temperature

**Raster and Picture Performance**

- **Normal Scan:** 16:9 aspect ratio, Blanked raster < + 5%, raster size has internal adjustment
- **Under Scan:** 16:9 aspect ratio, – 3%, picture blanking boundaries displayed
- **Stability of Raster Size:** 1% of picture height for a 0% to 100% APL change
- **Linearity of Center H & V Lines:** 0.5% of picture height
- **Geometry (all over the screen):** 1% of picture height
BVM Monitors

BVM-1911

19 Inch Broadcast Color Monitor

- CPU Control system for enhanced monitor operations and remote control flexibility
- Aspect ratio is switchable between 4:3 and 16:9
- Auto setup (optional BKM-2056 for NTSC, PAL, PAL-M, SECAM, RGB/Component and BKM-2053) with capability of fine adjustment
- By using optional decoder boards (plug-in type), a maximum of 3 TV standard systems can be selected
- Component (Y, R-Y, B-Y) and RGB input facilities are available
- Stabilized color temperature is obtained by employing a developed beam control unit
- A unique picture setup switch functions as an adjustment for accurate incoming video level alignment
- Up to 6 dB of aperture correction at 4.5 MHz and 6.5 MHz selectable
- H. delay/V. delay functions are provided to check the horizontal and vertical syncs simultaneously
- Built-in cross hatch and white signal generator (100 IRE) for easy monitor alignment
- Optional component (Y, R-Y, B-Y) and R, G, and B output facilities are available with the BKM-1440
- Split screen (upper half: color mode; lower half: monochrome mode) for precise picture confirmation
- VITC display facility (with optional BKM-1460)
- Safe Area Display facility (with optional BKM-1470)
- With the optional BKM-1480, the black level signal generator is available for easy and precise adjustment of black level settings of the monitors
- Blue only mode with monochrome display to evaluate noise components precisely
- Optional Comb Filter BKM-1412 for NTSC (supplied with the BVM-1911)
- Optional Comb Filter BKM-1422 for PAL
- Digital 4:2:2 input capability (with optional BKM-2085)
- Composite digital signal input capability (with optional BKM-2090)
- Auto/Manual Degaussing
- Provides SMPTE C and EBU standard phosphors to meet customer requirements
- The AFC switch provides 3 modes. (FAST/NORMAL/SLOW)
- Over Drive Protection circuit protects against picture tube damage
- Super Fine pitch CRT provides a center resolution of 900 TV lines at 103 cd/m² (30 fL)
- 19-inch rack mountable with the optional BKM-2000
- Raster size stability within 1%, from 0 to 103 cd/m² (0 to 30 fL)
- Precise convergence: convergence errors are less than 0.4mm at the center and 0.7mm at the edges.

Supplied Accessories:
BKM-1410 NTSC Decoder
BKM-1412 Three-Line Dynamic NTSC Comb Filter
AC Power Cord
Extension Board
10 Pin Connector
Tally Number Plates
Operation and Maintenance Manual

Optional Accessories:
BKM-2000 Rack Mount Kit (slide rails, screws)
BKM-1420 PAL Decoder
BKM-1421 PAL-M Decoder
BKM-1422 Three-Line Dynamic PAL Comb Filter
BKM-1430 SECAM Decoder
BKM-1440 RGB/Component Adaptor
BKM-1460 VITC Adaptor
BKM-1470 Safe Area Display Board
BKM-1480 Black Level Signal Generator
BKM-2053 Probe for Auto Setup
BKM-2056 Auto Setup Adaptor
BKM-2085 Digital 4:2:2 Input Adaptor Kit
BKM-2090 D2 Serial Input Adaptor Kit
BVM Monitors

Specifications (BVM-1911, cont.)

CRT PERFORMANCE

| CRT Type: Super Fine Pitch In Line Stripe Grille |
| Aperture Grille (AG) pitch: 0.40mm |
| Center resolution: 900 TV lines |
| Screen Size: Diagonal: 48.2cm (19") |
| Width: 38.4cm (15") |
| Height: 28.1cm (11") |
| Chromaticity Coordinates: |
| SMPTE C Standard Phosphors (NTSC only) |
| BVM-1911 |
| Red x y u v | 0.630 0.340 0.433 0.351 |
| Green x y u v | 0.310 0.595 0.130 0.375 |
| Blue x y u v | 0.155 0.070 0.176 0.119 |

Tolerance = ±0.005

EBU Standard phosphors BVM-2011P

| Red x y u v | 0.64 0.33 0.451 0.349 |
| Green x y u v | 0.29 0.60 0.121 0.374 |
| Blue x y u v | 0.15 0.06 0.175 0.105 |

Tolerance = ±0.005

Color Temperature: PRESET control—Factory adjusted for 6500K white. When using the optional Auto Setup Kit, 4 different color temperatures can be adjusted automatically. MANUAL control is also available, which allows alternative setting of color temperature.

Color Temperature Stability: Differential variations between Red, Green and Blue screens are less than 1% over 500 hour period. This high level of stability is guaranteed by the novel Beam Feedback Control system employed to stabilize CRT black level.

Preset Brightness Range: From below cut off to 5.14 cd/m² (1.5 ft/lx)

Maximum Brightness: > 206 cd/m² (60 ft/lx)

Preset Contrast: 103 cd/m² (30 ft/lx) at 100% white

CRT Protection: High voltage is automatically switched off if either scan fails. A warning lamp on the front panel lights if the CRT is driven beyond preset limits.

Degaussing: Manual push button and automatic Warm Up Period: 30 minutes to meet specifications.

Raster and PICTURE PERFORMANCE

Normal Scan: 4 x 3 Aspect Ratio, Blanked raster < +5%

Underscan: 4 x 3 Aspect Ratio Approx. -3%, Picture and blanking boundaries displayed, Underscanned raster has additional internal adjustments.

Stability of Raster Size: 1% of picture height for a 0 to 100% APL change when 100% peak white set to 103 cd/m² (30 ft/lx brightness).

Linearity of center: 0.5% of the picture height

Geometry (all over screen): 1% of the picture height

Convergence: 0.4mm within circle centered on the screen and with a diameter equal to the vertical height.

0.7mm at any other point

High Voltage: 27 kV typical

High Voltage Regulation: When set at a beam current of 150 µA there shall be less than ±0.5% change when the brightness is varied from 0 to 103 cd/m² (0 to 30 ft/lx).

Hum Fluctuation: Periodic movement or jitter of the raster is less than 0.2mm (0.07%) for any power hum interference.

INPUT FACILITIES

RGB PERFORMANCE

The following specs are measured from the RGB inputs to the input of the final stage CRT video drive amplifier. The specs apply to both 625 and 525 systems and therefore all waveform specs are quoted with 625 test waveforms:

Frequency Response: 100 Hz to 10 MHz ±1.0 dB

Linear Waveform Distortion: 625 Line T-Step: Line-time waveform distortion: < 1% Short-time waveform distortion: < 1% 50 Hz squarewave: Field-time waveform distortion: < 1% 2T pulse response: 2T Pulse to Base Ratio: < ±0.5% K rating 2T Pulse base line: < ±1% K rating Non Linear Distortion: Line-time non linearity (measured with 5-rise staircase): < 3% Dynamic gain (for all APL's): < 3%

*Using the optional BKM-1422, PAL comb filter is available.*

**Non Linear Distortion:**
- Line time non linearity: < 1%
- Dynamic gain (for all APL's): < 1%

**Aperture Correction:**
This can be internally selected to provide one of two modes of operation:
- **MODE 1** provides continuously adjustable (control on front panel) control of frequency response with up to 6 dB boost at 6.5 MHz. This control can be employed to compensate for the aperture loss of the CRT.
- **MODE 2** provides continuously adjustable control of frequency response, with up to 6 dB boost at 4.5 MHz. This control can be employed for subjective enhancement of the display picture.

**Chrominance/Luminance Parameters:**

*Using the optional BKM-1422, PAL comb filter is available.*

**Chrominance:**
- Demodulator axes: R-Y and B-Y (90° ± 1° relative to each other)
  - Hue regulation
  - Calibrated position: ± 1°
  - Control range: ± 15° (NTSC), ± 10° (PAL/PAL-M)
- Saturation regulation
  - Calibrated position: ± 3%
  - Variable range: ± 6 dB

**Oscillator Performance:**
- Phase error: < 2° for burst frequency change of ± 10 Hz
- < 2° for burst level change ± 6 dB
- < 2° for ambient temperature change of 10°C
- < 2° if time relation of sync and burst moves anywhere within allowable FCC or CCIR regulatory range
- Subcarrier lock in range ± 200 Hz (NTSC/PAL-M) ± 900 Hz (PAL)

**DECODER PERFORMANCE (SECAM)**

**Luminance Channel:**
- Differential gain: Within 1% for a luminance from 0 to 103 cd/m² (0 to 30 fL)
- Frequency response
  - Monochrome mode: 100 Hz to 8 MHz ± 1 dB
  - (aperture correction at zero)
  - Color mode (with notch filter): Chrominance Filter removes frequencies in 4.25 MHz and 4.406 MHz (−3 dB at 2.7 MHz)
- Error: 3.9 MHz to 4.75 MHz ± 0.5 dB
- Drift: ± 20 kHz at 4.286 MHz
- Limiting ratio: > 30 dB
- Linearity of the demodulator: < 3% at ± 350 kHz
- Demodulator center frequency stability: Within ± 3.0 kHz
- Color range: Preset at zero dB
  - > ±6 dB

**Chrominance/Luminance:**
- Rise time R-Y/B-Y: 500 ns at 25% modulation
  - Time error: < 40 ns
  - Gain error: < 5%
- Aperture correction: Adjustable continuously up to 6 dB boost at 4.5 MHz, 6.5 MHz (selectable)
- DC restoration: Back porch type
- Back porch level: Within 1% of peak luminance 10% to 90% APL
- R-Y/B-Y Crosstalk: > 50 dB
BVM Monitors

Specifications (BVM-1911, cont.)

SYNCHRONIZATION

Sync Input Return Loss: > 46dB up to 7MHz
Vertical Hold: Digital countdown systems
Free running frequency of oscillator:
Automatic
Mode 1: 42Hz to 50Hz
Mode 2: 50Hz to 60Hz
Stability of free running frequency: within 1Hz
Horizontal Hold:
Free running frequency of oscillator:
15.7kHz ± 1kHz with H-hold control or
15.625kHz ± 1kHz with H-hold control
Horizontal oscillator locking range:
Pull in: ± 500Hz
Holding: ± 500Hz
Free running stability: Within ± 100Hz
AFC Time constant: Three horizontal time constants are provided (0.5ms, 2.0ms and 7.0ms)
Sync Stability:
On INTERNAL sync the stability of the raster shall be preserved under the following conditions:
Video Input Level: ± 6 dB about nominal
Picture level changes: +3 dB to -40 dB and sync level changes -6 dB.
Line-sync white-noise immunity: 26 dB
Field-sync white-noise immunity: 26 dB

AFC: Switchable (FAST/NORMAL/SLOW): Slow AFC displays timing errors of incoming sync with a selected horizontal time constant of 7.0ms.
Fast AFC largely corrects for incoming timing errors with a selected horizontal time constant of 0.5ms.
Normal AFC is set at 2.0ms
Blanking Intervals:
Horizontal retrace time: 10µs
Horizontal blanking: Adjustable
Vertical retrace time: < 0.6ms
Vertical blanking: <19H for normal scan
<15H for under scan
Interlace: Better than 45/55

PHYSICAL CHARACTERISTICS

Weight: 94 lb. 12 oz. (41 kg.) (approx.)
Dimensions (WHD): 448 x 440 x 506mm
(17¾" x 17¾" x 20")
Environmental:
Operating temperature range: 0°C to 40°C
Optimum temperature range: 20°C to 30°C
Humidity: 0 to 90% non-condensing
Altitude: 3,050m (10,000 feet)
X-ray Radiation:
PTB (for West Germany)
DNH/W (for Canada)
Complies with DHHS rules 21 CFR Subchapter J sec 1020 10
Electro Magnetic Compatibility:
Complies with FCC rules part 15 (Computing Device Class A)
BVM-1916
19 Inch Broadcast Color Monitor

- CPU Control system for enhanced monitor operations and remote control flexibility
- Aspect ratio is switchable between 4:3 and 16:9
- Auto setup (optional BKM-2056 and BKM-2053) with capability of fine adjustment
- Stabilized color temperature obtained by employing a beam current feedback
- Component (Y/R-Y/B-Y) and R, G, B inputs standard
- Optional decoder boards (plug-in type) available for different TV standards (NTSC, PAL, SECAM, PAL-M)
- A unique picture setup switch facilitates setup level adjustments
- Up to 6 dB of aperture correction at 4.5 MHz and 6.5 MHz selectable
- H. delay/V. delay functions are provided to check the horizontal and vertical intervals simultaneously
- Built-in cross hatch and white signal generator (100 IRE) for easy monitor alignment
- Split screen operation (upper half-color, lower half-monochrome) for precise picture confirmation
- Blue only mode with monochrome display available for easy chroma gain/phase adjustments and VTR noise observation
- Optional Comb Filter BKM-1412 for NTSC (supplied with the BVM-1916)
- Optional Comb Filter BKM-1422 for PAL
- Three switchable AFC modes (FAST/NORMAL/SLOW)
- Manual color balance/level adjustments in the lockable pull-out drawer
- Component (Y, R-Y, B-Y) and R, G, and B outputs available with the optional BKM-1440
- Optional VITC display (with BKM-1460)
- Optional Safe Area display (with BKM-1470)
- A black level signal generator (PLUGE signal generator) available for easy and precise black level settings (with BKM-1480)
- Digital 4:2:2 input capability (with the optional BKM-2085)
- Composite digital signal input capability (with optional BKM-2090)
- Super Fine Pitch CRT provides a center resolution of 600 TV lines at 103 cd/m² (30 fL)
- Provides SMPTE C and EBU standard phosphors to meet customer requirements
- Raster size stability within 1%, from 0 to 103 cd/m² (0 to 30 fL)
- Auto/Manual Degaussing
- Over Drive Protection circuit incorporated to prevent picture tube damage
- 19-inch rack mountable (with the optional BKM-2000)

**Supplied Accessories:**
- AC Power Cord
- Extension Board
- 10-Pin Connector
- Tally Number Plates Operation
- BKM-1410 NTSC Decoder
- BKM-1412 NTSC Three-Line Dynamic Comb Filter

**Optional Accessories:**
- BKM-2000 Rack Mount Kit (slide rails, screws)
- BKM-1420 PAL Decoder
- BKM-1421 PAL-M Decoder
- BKM-1422 Three-Line Dynamic PAL Comb Filter
- BKM-1430 SECAM Decoder
- BKM-1440 RGB/Component Adaptor
- BKM-1460 VITC Adaptor
- BKM-1470 Safe Area Display Board
- BKM-1460 Black Level Signal Generator
- BKM-2053 Probe for Auto Setup
- BKM-2056 Auto Setup Adaptor
- BKM-2085 Digital 4:2:2 Input Adaptor Kit
- BKM-2090 D-2 Serial Input Adaptor Kit

Color Temperature: PRESET control—Factory adjusted for 6500K white.
When using the optional Auto Setup Kit, 4 different color temperatures can be adjusted automatically.
MANUAL control is also available, which allows alternative setting of color temperature.

Color Temperature Stability:
Differential variations between Red, Green and Blue screens are less than 1% over 500 hour period. This high level of stability is guaranteed by the novel Beam Feedback Control system employed to stabilize CRT black level.

Preset Brightness Range:
From below cut off to 5.14 cd/m² (1.5 fl.)
Maximum Brightness:
103 cd/m² (30 fl.) (at 100% white) factory setting (Any other contrast available)

CRT Protection:
High voltage is automatically switched off if either scan fail.
A warning lamp on the front panel lights if the CRT is driven beyond preset limits.

Degaussing:
Manual push button and automatic 30 minutes to meet specifications.

Warm Up Period:
30 minutes to meet specifications.

RASTER and PICTURE PERFORMANCE

Normal Scan:
4 x 3 Aspect Ratio, Blanked raster < + 5%, Raster size has internal adjustment

Underscan:
4 x 3 Aspect Ratio Approx. = 3%, Picture and blanking boundaries displayed, Underscanned raster has additional internal adjustments.

Stability of Raster Size:
1% of picture height for a 0 to 100% APL change when 100% peak white set to 103 cd/m² (30 fl. brightness).

Linearity of center H & V lines:
1% of the picture height

Geometry (all over screen):
2% of the picture height

Convergence:
0.5mm within circle centered on the screen and with a diameter equal to the vertical height.
1.0mm at any other point

High Voltage:
27 kV typical

High Voltage Regulation:
When set at a beam current of 150 µA there shall be less than ± 0.5% change when the brightness is varied from 0 to 103 cd/m² (0 to 30 fl.),

Hum Fluctuation:
Periodic movement or jitter of the raster is less than 0.2mm (0.07%) for any power hum interference.

INPUT FACILITIES

Power Inputs: 3-pin power plug
Voltage selector AC 100/120 & AC 220/240V ± 10% BVM-1916: 135W (typical), 170W (max.) BVM-2016P: 130W (typical), 165W (max.)

AC 220/240V ± 10%

OUTPUT FACILITIES

100 Hz to 6 MHz ± 1.0 dB

*Component out (option) Red/R-Y 1.4Vp-p 0.7Vp-p Green/Y 2.0Vp-p (with sync) 1.0Vp-p Blue/B-Y 1.4Vp-p 0.7Vp-p

*Using the optional BDM-1440, component out is available.

RGB PERFORMANCE

The following specs are measured from the RGB inputs to the input of the final stage CRT video drive amplifier. The specs apply to both 625 and 525 systems and therefore all waveform specs are quoted with 625 test waveforms:

Frequency Response:
100 Hz to 6 MHz ± 1.0 dB

Linear Waveform Distortion:
625 Line T-Step: Line-time waveform distortion: < 1% Short-time waveform distortion: < 1% 50 Hz squarewave: Field-time waveform distortion: < 1% 27 Pulse base line: < ± 1% K rating

Non Linear Distortion:
Line-time non linearity (measured with 5-rise stairsteps): < 5% Dynamic gain (for all APL's): < 5%
Specifications (BVM-1916, cont.)

*Using the optional BKM-1422, PAL comb filter is available.

Non Linear Distortion:

- Line time on non linearity: < 1%
- Dynamic gain (for all APLs): < 1%

Aperture Correction:

- This can be internally selected to provide one of two modes of operation:
  - MODE 1 provides continuously adjustable (control on front panel) control of frequency response with up to 6 dB boost at 6.5 MHz. This control can be employed to compensate for the aperture loss of the CRT.
  - MODE 2 provides continuously adjustable control of frequency response, with up to 6 dB boost at 4.5 MHz. This control can be employed for subjective enhancement of the displayed picture.

Chrominance/Luminance Parameters:

</tbody>
</table>

*Using the optional BKM-1422, PAL comb filter is available.

Chrominance:

- Demodulator axes: R-Y and B-Y (90° ± 1° relative to each other)
- Chrominance bandpass: 1.3 MHz equiband
- *Hue regulation
  - Calibrated position: ± 1°
  - Control range: ±15° (NTSC), ±10° (PAL/PAL-M)
- *Saturation regulation
  - Calibrated position: ±3%
  - Variable range: ±6 dB

*Chrominance can be adjusted automatically using the optional Auto Setup Kit.

Oscillator Performance:

- Phase error: < 2° for burst frequency change of ±10 Hz
- < 2° for burst level change ±6 dB
- < 2° for ambient temperature change of 10°C
- < 2° if time relation of sync and burst moves anywhere within allowable FCC or CCIR regulatory range
- Subcarrier lock in range ±200 Hz (NTSC/PAL-M) ±300 Hz (PAL)

**DECODER PERFORMANCE (SECAM)**

Luminance Channel:

- Differential gain: Within 1% for a luminance from 0 to 103 cd/m² (0 to 30 ft-L)
- Frequency response
- Monochrome mode:
  - 100 Hz to 8 MHz ±1 dB
  - 100 Hz to 6 MHz -3 dB
  - (aperture correction at zero)
- Color mode (with notch filter): Chrominance Filter removes frequencies in 4.25 MHz and 4.406 MHz (-3 dB at 2.7 MHz)
- High-frequency de-emphasis (Bell filter)
  - Error: 3.9 MHz to 4.75 MHz ±0.5 dB
  - Drift: within ±20 kHz at 4.286 MHz
  - Limiting ratio: > 30 dB
- Linearity of the demodulator: < 3% at ±350 kHz
- Demodulator center frequency stability:
  - Within ±3.0 kHz
- Color range: Preset at zero dB
- Chrominance/Luminance:
  - Rise time R-Y/B-Y: 500 ns at 25% modulation
  - Time error: < 40 ns
  - Gain error: < 5%
  - Aperture correction: Adjustable continuously up to 6 dB boost at 4.5 MHz, 6.5 MHz (selectable)
  - DC restoration: Back porch type
  - Back porch level: Within 1% of peak luminance 10% to 90% APL
  - R-Y/B-Y Crosstalk: > 50 dB

19-inch Color Monitor

- Auto Convergence adjustment
- Auto Geometry correction
- Auto setup capability (with the optional probe BKM-2053) with capability of fine adjustment
- SMPTE C standard phosphors
- Stabilized color temperature is obtained with a beam current feedback
- Super Fine Pitch CRT provides a center resolution of 900 TV lines at 30 fL
- Component (Y, R-Y, B-Y) and R, B, and G inputs standard
- Optional plug-in type decoder boards available for PAL, SECAM and PAL-M operation (supplied with BKM-1410 for NTSC)
- Pulse Cross Function
- Built-in cross hatch and white signal generator (100 IRE)
- Composite digital signal input capability (with the optional BKM-2090)
- 4:2:2 Digital serial and parallel input capability with the optional BKM-2080 or BKM-2085
- Split screen operation (upper half: color mode, lower half: monochrome mode)
- Blue only mode with monochrome display
- Selectable NTSC Comb Filter: Two-line simple comb filter/Three-line dynamic comb filter (supplied with BKM-1412)
- Optional PAL Comb Filter (BKM-1422)
- Optional Component (Y, R-Y, B-Y) and R, G, and B outputs (with the BKM-1440)
- Optional VITC display (with the optional BKM-1460)
- Optional Safe Area Display (with the BKM-1470)
- The black level signal generator with the optional BKM-1480
- Provides US and EBU standard phosphors to meet customer requirements
- Auto/Manual degaussing
- 19-inch rack mountable (with the optional BKM-2000)

Supplied Accessories:
BKM-2056 Auto Setup Adaptor
AC Power Cord
Extension Board
10-pin Connector
Tally Number Plates
Operation and Maintenance Manual

Optional Accessories:
BKM-2000 Rack Mount Kit (slide rails, screw)
BKM-1420 PAL Decoder Board
BKM-1421 PAL-M Decoder Board
BKM-1422 PAL Comb Filter
BKM-1430 SECAM Decoder Board
BKM-1440 RGB/Component Board
BKM-1480 VITC Adaptor
BKM-1470 Safe Area Display Adaptor
BKM-1480 Black Level Signal Generator
BKM-2053 Probe for Auto Setup
BKM-2085 Digital 4:2:2 Input Adaptor Kit
BKM-2090 D-2 Serial Input Adaptor Kit
BVM Monitors

Specifications (BVM-1912, cont.)

**GENERAL**
- **System:** 525 lines 60 fields NTSC
- **Power Requirements:** AC 100V–120V/220V–240V ± 10% selectable
- **Power Consumption:** Typical 145W, max. 190W
- **Dimensions (WHD):** 448 x 455 x 570mm (17 3/4" x 18" x 22 1/2"")
- **Weight:** 94 lb. 13 oz. (43 kg.)

**CRT PERFORMANCE**
- **CRT Type:** Super Fine Pitch In Line Strip Grille, AG pitch: 0.3mm, center resolution: 900 TV lines
- **Screen Size (DWH):** 48.2 x 38.4 x 29.1cm (19" x 15 1/8" x 11 1/2"")
- **Color Temperature:** PRESET: Factory adjusted for 6500K white, MANUAL control is also available, which allows alternative setting of color temperature
- **Preset Brightness:** From below cut off to 1.5 fl
- **Preset Contrast:** 30 fl. (at 100% white)

**RASTER AND PICTURE PERFORMANCE**
- **Normal Scan:** 4 x 3 aspect ratio, blanked raster < +5%, raster size has internal adjustment
- **Under Scan:** 4 x 3 aspect ratio, (approx.) −3%, picture and blanking boundaries displayed
- **Stability of Raster Size:** 1% of picture height for a 0%–100% APL change when 100% peak level white set to 30 fl brightness
- **Linearity of Center H and V Lines:** 0.5% of the picture height
- **Geometry (all over screen):** < 0.5% of the picture height
- **Convergence:** < 0.2mm within 80% of entire screen, < 0.5mm at any other points (Convergence can be automatically adjusted in the Auto Convergence mode)

**INPUT PERFORMANCE**
- **R,G,B/VIDEO/TEST:** 0.7Vp-p non-composite or 1.0Vp-p composite video signal ± 6 dB positive, loop-through, high impedance
- **Component:** Y: 0.7Vp-p non-composite or 1.0Vp-p composite video signal ± 6 dB positive, loop-through, high impedance
- **R-Y/B-Y:** 0.7Vp-p non-composite ± 6 dB positive, loop-through, high impedance
- **EXT SYNC:** 0.3Vp-p–8Vp-p negative, loop-through, high impedance
- **Return Loss:** > 46 dB, up to 7 MHz
- **Cross Talk:** > 50 dB, up to 7 MHz

**OUTPUT FACILITY**
- **Component/RGB**
  - **(BKM-1440):** 1.4Vp-p non-composite or 2.0Vp-p composite, 0.7Vp-p non-composite or 1.0Vp-p composite if terminated
- **R-Y (VECTOR OUT):** 0.8Vp-p for 75% color bar
- **B-Y (VECTOR OUT):** 0.5Vp-p for 75% color bar

**RGB PERFORMANCE**
- **Frequency Response:** 100 Hz–10 MHz ± 1 dB
- **DC Restoration:** Back porch type

**NTSC PERFORMANCE**
- **Differential Gain:** Within 2% for a luminance from 0 fl–30 fl
- **Differential Phase:** Within 2 degrees for a luminance from 0 fl–30 fl
- **Frequency Response:**
  - **Monochrome mode:**
    - 100 Hz–8 MHz ± 1 dB
    - (Aperture correction at 0)
  - **Color mode:**
    - -30 dB @ 3.58 MHz (with Notch Filter)
    - 100 Hz–8 MHz ± 1.5 dB (with Comb Filter)

**Aperture Correction:** Adjustable continuously up to 6 dB boost @ 4.5 MHz or 6.5 MHz (selectable)
BVM-1311

13 Inch Broadcast Monitor

- CPU Control system for enhanced monitor operations and remote control flexibility
- Aspect ratio is switchable between 4:3 and 16:9
- Auto Setup (optional BKM-2056, for NTSC, PAL, SECAM, RGB, Component and BKM-2053) with capability of fine adjustment
- By using optional decoder boards (plug-in type), a maximum of 3 TV standard systems can be selected
- Stabilized color temperature is obtained by employing a developed beam control circuit
- A unique picture setup switch functions as an adjustment for accurate incoming video level alignment
- Up to 6 dB of aperture correction at 4.5 MHz and 6.5 MHz selectable
- H. delay/V. delay functions are provided to check the horizontal and vertical syncs simultaneously
- Built-in cross hatch and white signal generator (100 IRE) for easy monitor alignment
- Component (Y, R-Y, B-Y) and RGB input facilities are available
- Optional component (Y, R-Y, B-Y) and RGB output facilities are available with the BKM-1440
- A split screen (vertical only) for precise picture confirmation
- VITC display facility (optional BKM-1460)
- Safe area display facility (with the optional BKM-1470)
- With the optional BKM-1480, black level signal generator is available for easy and precise adjustment of black level setting of monitor
- Blue only mode with B/W display to evaluate noise component precisely
- Two lockable pull-out drawers give access to convergence, color balance, level adjustment and other controls
- Optional Comb Filter BKM-1412 for NTSC (supplied with the BVM-1311)
- Optional Comb Filter BKM-1422 for PAL
- Optional Digital 4:2:2 Input Adaptor Kit BKM-2085 and D-2 Serial Input Adaptor Kit BKM-2090 available
- Auto/Manual Degaussing
- Provides SMPTE C and EBU standard phosphors to meet customer requirements
- The AFC switch provides 3 modes (FAST/NORMAL/SLOW)
- Over Drive Protection circuit protects against picture tube damage
- Super Fine Pitch CRT provides a center resolution of 700 TV lines at 137cd/m² (40 fL)
- 19-inch rack mountable with the optional BKM-1400
- Raster size stability within 1% from 0 to 137cd/m² (0 to 40 fL)
- Precise convergence; convergence errors are less than 0.3mm at center and 0.6mm at edge of area

Supplied Accessories:
- BKM-1410 NTSC Decoder
- AC Power Cord
- Extension Board
- 10-Pin Connector
- Tally Number Plates

Optional Accessories:
- BKM-1400 Rack Mount Kit (slide rails, screws)
- BKM-1420 PAL Decoder
- BKM-1421 PAL-M Decoder
- BKM-1422 Three-Line Dynamic PAL Comb Filter
- BKM-1430 SECAM Decoder
- BKM-1440 RGB/Component Adaptor
- BKM-1460 VITC Adaptor
- BKM-1470 Safe Area Display Board
- BKM-1480 Black Level Signal Generator
- BKM-2050 Probe for Auto Setup
- BKM-2056 Auto Setup Adaptor
- BKM-2085 Digital 4:2:2 Input Adaptor Kit
- BKM-2090 D2 Serial Input Adaptor Kit

Color Temperature:

PRESET control—Factory adjusted for 6500K white.

When using the optional Auto Setup Kit, 4 different color temperatures can be adjusted automatically.

MANUAL control is also available, which allows alternative setting of color temperature.

Color Temperature Stability:

Differential variations between Red, Green and Blue screens are less than 1% over 500 hour period. This high level of stability is guaranteed by the novel Beam Feedback Control system employed to stabilize CRT black level.

Preset Brightness Range:

From below cut off to 5.14 cd/m² (1.5 ft-L) to 137 cd/m² (40 ft-L)

Maximum Brightness:

> 274 cd/m² (80 ft-L)

Preset Contrast:

137 cd/m² (40 ft-L) (at 100% white)

CRT Protection:

High voltage is automatically switched off if either scans fail.

A warning lamp on the front panel lights if the CRT is driven beyond preset limits.

Degaussing:

Manual push button and automatic

Warm Up Period:

30 minutes to meet specifications.

RASTER and PICTURE PERFORMANCE

Normal Scan:

4 × 3 Aspect Ratio, Blanked raster < +5%, Raster size has internal adjustment

Underscan:

4 × 3 Aspect Ratio Approx. -3%, Picture and blanking boundaries displayed, Underscanned raster has additional internal adjustments.

Stability of Raster Size:

1% of picture height for a 0 to 100% APL change when 137 cd/m² (40 ft-L brightness).

Linearity of center H & V lines:

0.5% of the picture height

Geometry (all over screen):

1% of the picture height

Convergence:

0.3 mm within circle centered on the screen and with a diameter equal to the vertical height.

0.8 mm at any other point

High Voltage:

25 kV typical

High Voltage Regulation:

When set at a beam current of 150 μA there shall be less than ±0.5% change when the brightness is varied from 0 to 137 cd/m² (0 to 40 ft-L).

Hum Fluctuation:

Periodic movement or jitter of the raster is less than 0.2 mm (0.07") for any power hum interference.

INPUT FACILITIES

Video Inputs:

Power Inputs:

3-pin power plug

Voltage selector AC 100/120 & AC 220/240 V ± 10%

140W (typical), 160W (max.)

Line frequency 48 Hz to 66 Hz

Control Inputs:

Tally and Remote Control via 10-pin connector

Input Technical Specifications:

The following specs apply to all video inputs

Return Loss: > 46 dB, up to 7 MHz

Crosstalk (between inputs): > 50 dB, up to 7 MHz

Hum Suppression: 50 dB down with up to 4 V RMS power hum when in floating ground mode.

RGB PERFORMANCE

The following specs are measured from the RGB inputs to the input of the final stage CRT video drive amplifier. The specs apply to both 625 and 525 systems and therefore all waveform specs are quoted with 625 test waveforms:

Frequency Response: 100 Hz to 8 MHz ± 1.0 dB

Linear Waveform Distortion:

625 Line T-Step:

Line-time waveform distortion: < 1%

Short-time waveform distortion: < 1%

50 Hz squarewave:

Field-time waveform distortion: < 1%

2T pulse response:

2T Pulse to Bar Ratio: < ±0.5% K rating

2T Pulse base line: < ±1% K rating

Non Linear Distortion:

Line-time non-linearity (measured with 5-rise stair-steps): < 3%

Dynamic gain (for all APL's): < 3%

*Using the optional BKM-1422, PAL comb filter is available.

**Non Linear Distortion:** Line time non linearity: < 1%

**Aperture Correction:** This can be internally selected to provide one of two modes of operation:
MODE 1 provides continuously adjustable control on front panel control of frequency response with up to 6 dB boost at 6.5 MHz. This control can be employed to compensate for the aperture loss of the CRT.
MODE 2 provides continuously adjustable control of frequency response, with up to 6 dB boost at 4.5 MHz. This control can be employed for subjective enhancement of the display picture.

*Using the optional BKM-1422, PAL comb filter is available.

Chrominance:
Demodulator axes: R-Y and B-Y (90° ± 1° relative to each other)

Chrominance bandpass: 1.3 MHz equiband

"Hue regulation
Calibrated position: ± 1°
Control range: ± 15° (NTSC), ± 10° (PAL/PAL-M)

"Saturation regulation
Calibrated position: ± 3°
Variable range: ± 6 dB

Chrominance can be adjusted automatically using the optional Auto Setup Kit.

**Oscillator Performance:**

Phase error: < 2° for burst frequency change of ± 10 Hz
< 2° for burst level change ± 6 dB
< 2° for ambient temperature change of 10°C
< 2° if time relation of sync and burst moves anywhere within allowable FCC or CCIR regulatory range
Subcarrier lock in range ± 200 Hz (NTSC/PAL-M) ± 300 Hz (PAL)

**DECODER PERFORMANCE (SECAM)**

**Luminance Channel:**

Differential gain: Within 1% for a luminance from 0 to 137 cd/m² (0 to 30 fl)
Frequency response
Monochrome mode:
100 Hz to 8 MHz ± 1 dB
(aperture correction at zero)
Chrominance Band 4.25 MHz and 4.406 MHz
(3.9 MHz to 4.75 MHz ± 0.5 dB)
Drift: Within ± 20 kHz at 4.286 MHz
Limiting ratio: > 30 dB
Linearity of the demodulator: < 3% at ± 350 kHz
Demodulator center frequency stability: Within ± 3.0 kHz
Color range: Preset at zero dB > ± 6 dB

Chrominance/Luminance:
Rise time R-Y/B-Y: 500 ns at 25% modulation
Time error: < 40 ns
Gain error: < 5%
Aperture correction: Adjustable continuously up to 6 dB boost at 4.5 MHz, 6.5 MHz (selectable)
DC restoration: Back porch type
Back porch level: Within 1% of peak luminance 10% to 90% APL
R-Y/B-Y Crosstalk > 50 dB

BVM-1316

13 Inch Broadcast Monitor

- CPU Control system for enhanced monitor operations and remote control flexibility
- Aspect ratio is switchable between 4:3 and 16:9
- Auto setup. (optional BKM-2056 and BKM-2053) with capability of fine adjustment
- Stabilized color temperature is obtained by employing an automatic beam control circuit
- Component (Y, R-Y, B-Y) and R, G, and B inputs standard
- Optional decoder boards (plug-in type) available for different TV standard systems. (NTSC, PAL, SECAM, PAL-M)
- A unique picture setup switch functions setup level adjustments
- Up to 6 dB of aperture correction at 4.5 MHz and 6.5 MHz selectable
- H. delay/V. delay functions are provided to check the horizontal and vertical syncs simultaneously
- Built-in cross hatch and white signal generator (100 IRE) for easy monitor alignment
- Split screen operation (upper half: color mode; lower half: monochrome mode) for precise picture confirmation
- Blue only mode with monochrome display available for easy chroma gain/phase adjustments and observation of VTR noise
- Optional Comb Filter BKM-1412 for NTSC (supplied with the BVM-1316)
- Optional Comb Filter BKM-1422 for PAL
- Optional Digital 4:2:2 Input Adaptor Kit BKM-2085 and D-2 Serial Input Adaptor Kit BKM-2090 available
- The AFC switch provides 3 modes. (FAST/NORMAL/SLOW)
- Manual color balance/level adjustments are possible in the lockable pull-out drawer
- Component (Y R-Y, B-Y) and R, G, and B outputs available with the optional BKM-1440
- VITC display (with optional BKM-1460)
- Safe Area Display. (with optional BKM-1470)
- With the optional BKM-1480, a black level signal generator (PLUGE signal generator) is available for easy and precise adjustment of black level settings of the monitors
- Super Fine Pitch CRT provides a center resolution of 600 TV lines at 137cd/m² (40 fl)
- SMPTE C and EBU standard phosphors provided to meet customer requirements
- Raster size stability within 1%, from 0 to 137cd/m² (0 to 40 fl)
- Auto/Manual Degaussing
- Over Drive Protection circuit incorporated to protect picture tube against damage
- 19-inch rack mountable with the optional BKM-1400 rack mount kit

Supplied Accessories:
- BKM-1410 NTSC Decoder
- BKM-1412 Three-Line Dynamic NTSC Comb Filter
- AC Power Cord
- 10-Pin Connector
- Tally Number Plates
- Operation & Maintenance Manual

Optional Accessories:
- BKM-1400 Rack Mount Kit (slide rails, screws)
- BKM-1420 PAL Decoder
- BKM-1421 PAL-M Decoder
- BKM-1422 Three-Line Dynamic PAL Comb Filter
- BKM-1430 SECAM Decoder
- BKM-1440 RGB/Component Adaptor
- BKM-1460 VITC Adaptor
- BKM-1470 Safe Area Display Board
- BKM-1460 Black Level Signal Generator
- BKM-2053 Probe for Auto Setup
- BKM-2056 Auto Setup Adaptor
- BKM-2085 Digital 4:2:2 Input Adaptor Kit
- BKM-2090 D-2 Serial Input Adaptor Kit
Specifications (BVM-1316, cont.)

CRT PERFORMANCE

**CRT Type:** Super Fine Pitch In Line Stripe Grille
Aperture Grille (AG) pitch: 0.25mm
Center resolution: 600 TV lines

**Screen Size:** Diagonal: 33.08cm (13 1/8")
Width: 26.72cm (10 1/8")
Height: 20.03cm (8")

**Chromaticity Coordinates:**

- **SMPTE C Standard phosphors (NTSC only)**
  - BVM-1316

**Color Temperature:** PRESET control—Factory adjusted for 6500K white.
When using the optional Auto Setup Kit, 4 different color temperatures can be adjusted automatically.
MANUAL control is also available, which allows alternative setting of color temperature.

**Color Temperature Stability:** Differential variations between Red, Green and Blue screens are less than 1% over 500 hour period. This high level of stability is guaranteed by the novel Beam Feedback Control system employed to stabilize CRT black level.

**Preset Brightness Range:** From below cut off to 5.14 cd/ m² (1.5 F.L.)

**Maximum Brightness:** > 274 cd/ m² (80 F.L.)

**Preset Contrast:** 137 cd/ m² (40 F.L) (at 100% white)

**CRT Protection:** High voltage is automatically switched off if either scans fail. Warnings are given when the beam current is driven beyond preset limits.

**Degaussing:** Manual push button and automatic
Warm up Period: 30 minutes to meet specifications.

**Raster and Picture Performance**

**Normal Scan:** 4 x 3 Aspect Ratio, Blanked raster < + 5%.
Raster size has internal adjustment

**Underscan:** 4 x 3 Aspect Ratio Approx. - 3%, Picture and blanking boundaries displayed, Underscanned raster has additional internal adjustments.

**Stability of Raster Size:** 1% of picture height for a 0 to 100% APL change when 100% peak white set to 137 cd/ m² (40 F.L. brightness).

**Linearity of Center H & V lines:** 1% of the picture height

**Geometry (all over screen):** 2% of the picture height

**Convergence:** 0.5mm within circle centered on the screen and with a diameter equal to the vertical height.
1.0mm at any other point

**High Voltage:** 25 kV typical

**High Voltage Regulation:** When set at a beam current of 150 µA there shall be less than ±0.5% change when the brightness is varied from 0 to 137 cd/m² (0 to 40 F.L).

**Hum Fluctuation:** Periodic movement or jitter of the raster is less than 0.2mm (0.07%) for any power hum interference.

*Using the optional BKM-1422, PAL comb filter is available.

Chrominance:
- Demodulator axes: R-Y and B-Y (90° ± 1° relative to each other)
- Chrominance bandpass: 1.3 MHz equiband
- *Hue regulation
  - Calibrated position: ± 1°
  - Control range: ± 15° (NTSC), ± 10° (PAL/PAL-M)
- *Saturation regulation
  - Calibrated position: ± 3%
  - Variable range: ± 6 dB

*Chrominance can be adjusted automatically using the optional Auto Setup Kit.

Oscillator Performance:
- Phase error: < 2° for burst frequency change of ± 10 Hz
- < 2° for burst level change ± 6 dB
- < 2° for ambient temperature change of 10°C
- < 2° if time relation of sync and burst moves anywhere within allowable FCC or CCIR regulatory range

### DECODER PERFORMANCE (SECAM)

#### Luminance Channel

- Differential gain: Within 1% for a luminance from 0 to 137 cd/m² (0 to 40 fL)
- Frequency response
  - Monochrome mode: 100 Hz to 8 MHz ± 1 dB
    - (aperture correction at zero)
  - Color mode (with notch filter): Chrominance Filter removes frequencies in 4.25 MHz and 4.406 MHz
    - (− 3 dB at 2.7 MHz)
- Chrominance Channel:
  - High frequency de-emphasis (Bell filter)
  - Error: 3.9 MHz to 4.75 MHz ± 0.5 dB
  - Drift: within ± 20 kHz at 4268 MHz
  - Limiting ratio: > 30 dB
  - Linearity of the demodulator: < 3% at ± 350 kHz
  - Demodulator center frequency stability:
    - Within ± 3.0 kHz
  - Color range: Preset at zero dB
    - > ± 6 dB
- Chrominance/Luminance:
  - Rise time R-Y/B-Y: 500 ns at 25% modulation
  - Time error: < 40 ns
  - Gain error: < 5%

Aperture correction:
- Adjustable
  - Continuously up to 6 dB boost at 4.5 MHz, 6.5 MHz (selectable)
  - DC restoration: Back porch type
  - Back porch level: Within 1% of peak luminance 10% to 90% APL

R-Y/B-Y Crosstalk: > 50 dB
BVM Monitors

Specifications (BVM-1316, cont.)

SYNCHRONIZATION

Sync input Return Loss: > 46dB up to 7MHz

Vertical Hold: Digital countdown systems
Free running frequency of oscillator:
Automatic
   Mode 1: 42Hz to 50Hz
   Mode 2: 50Hz to 60Hz
Stability of free running frequency: within 1Hz

Horizontal Hold:
Free running frequency of oscillator
15.75kHz ± 1kHz with H-hold control or
15.625kHz ± 1kHz with H-hold control
Horizontal oscillator locking range
Pull in: ±500Hz
Holding: ±500Hz
Free running stability: Within ±100Hz
AFC Time constant: Three horizontal time constants are provided (0.5ms, 2.0ms and 7.0ms)

Sync Stability: On INTERNAL sync the stability of the raster shall be preserved under the following conditions:
Video Input Level: ±6 dB about nominal
Picture level changes: +3 dB to -40 dB and sync level changes -6 dB.
Line-sync white-noise immunity: 26 dB
Field-sync white-noise immunity: 26 dB

AFC: Switchable (FAST/NORMAL/SLOW): Slow AFC displays timing errors of incoming sync with a selected horizontal time constant of 7.0ms.
Fast AFC largely corrects for incoming timing errors with a selected horizontal time constant of 0.5ms.
Normal AFC is set at 2.0ms
Blanking Intervals: Horizontal retrace time: 10µs
   Horizontal blanking: Adjustable
   Vertical retrace time: < 0.6ms
   Vertical blanking: <18H for normal scan
   <15H for under scan
Interface: Better than 45/55

PHYSICAL CHARACTERISTICS

Weight: 63 lb. 14 oz. (29 kg.) (approx.)
Dimensions (WHD): 480 x 281.5 x 490mm
   (19" x 11½" x 19¾")
Environmental: Operating temperature range: 0°C to 40°C
   Optimum temperature range: 20°C to 30°C
   Humidity: 0 to 90% non-condensing
   Altitude: 3,050m (10,000 feet)
X-ray Radiation: PTB (for West Germany)
   DNHW (for Canada)
   Complies with DHHS rules 21 CFR Subchapter J sec 1020 10
PHM/PVM Monitors

PHM-3400
34" HDVS/IDTV Color Monitor

- Can reproduce 1125-line high definition signals as well as 525-line NTSC signals with the best possible picture quality
- New, large Trinitron CRT (16:9 aspect ratio) for a bright clear image
- IDTV (Improved Definition TV) capability with digital frame memory makes scanning lines unnoticeable and minimized line-flickering
- Wide bandwidth of 25 MHz for precise reproduction of the HDTV picture
- Beam Current Feedback for consistent picture performance
- Picture Out Picture (NTSC only)
- Picture Zoom mode to adjust the picture to fit the screen area when an NTSC signal is selected
- Multiple input terminals: two high definition video inputs, four channels of either composite video or Y/C input
- Dolby Prologic

Supplied Accessories:
RM-796 Wireless Remote Control Unit
AC Power Cord
Operation and Installation Manual

Speaker Output: Speaker terminal x 5 (Left, Right, Center, Side Left and Side Right) Left, Right and Center: 15W Side Left and Side Right: 10W *Dolby Prologic included.

Headphone Output: Stereo Mini-jack

CONTROL S: IN/OUT (Mini-jack)

*1 VIDEO 4 is loop-through of VIDEO IN in the front panel.
PHM/PVM Monitors

**PVM-3230**

*Color Video Monitor*

- The cubic style
- High resolution of 650 TV lines (composite video)/640 x 200 pixels (RGB input)
- Accepts composite video, Y/C, and Analog/Digital RGB signals
- Accepts external sync and sync on Green
- Memorizes the adjusted picture and sound settings for each input, and 4 sets of global settings for all inputs
- Can be used with IBM PC with CGA card
- Touch key control and supplied remote control unit RM-785

---

*1 The NTSC4.43 system refers to an NTSC color system in which the subcarrier frequency is modified to 4.43 MHz.

*2 The Y/C input has priority over the VTR input.

*3 RGB/Component is switch selectable.

*4 75Ω termination is automatically set to OFF when connection is made to the OUT connector.
13" PVM-1390

Color Video Monitor

- A high resolution of 450 TV lines (video), 2000 characters (RGB)
- Y/C input
- D-sub 25-pin connector for Analog/Digital RGB input
- Built-in speaker for sound monitoring

PVM-1380

Color Video Monitor

- Exclusive Sony Trinitron one-gun/one lens system for superior picture quality
- Two-line selectable audio/video inputs/outputs
- Loop-through with switchable 75Ω termination
- Built-in speaker for audio monitoring

Optional Accessories:
VMC Monitor Connecting Cable
(8-pin (male)/8-pin (male))

**PVM-1344Q**

**Super Fine Pitch, SMPTE C Phosphors, for Studio Use**

- High resolution of 600 TV lines at center
- Adoption of SMPTE C phosphors for monitor matching
- Beam current feedback circuit for stable color reproduction
- Accepts three TV system standards: NTSC and modified 4.43 MHz NTSC; PAL; SECAM
- Component (Y/R-Y/B-Y) or RGB input facility
- 6500K/9300K color temperature selection switch
- Comb filter for NTSC H/V delay and Normal scan/Underscan selection
- Blue only mode
- User preset function
- Accepts an external sync and sync on Green
- Built-in speaker for Audio monitoring
- Two composite line inputs and one S-video input
- Mountable into a 19-inch EIA standard rack with optional MB-502A and SLR-102

**Optional Accessories:**
- Monitor Connecting VMC Cable
- MB-502A Mounting Bracket
- SLR-102 Slide Rail Kit

*1 The NTSC4.43 system refers to an NTSC color system in which the subcarrier frequency is modified to 4.43 MHz.
*2 The Y/C input has priority over the VTR input.
*3 RGB/Component is switch selectable.
*4 75Ω termination is automatically set to OFF when connection is made to the OUT connector.
14" PVM-1341
High Cost Performance Color Monitor

- A variety of input facilities
- Beam current feedback circuit for stable color reproduction
- 6500°K/9300°K color temperature selection switch
- Comb filter for NTSC
- Accepts Analog/Digital RGB signals
- H/V delay and Normal scan/Underscan selection
- Blue only mode
- Accepts an external sync
- Mountable into a 19-inch EIA standard rack with optional MB-502A and SLR-102

Optional Accessories:
- Monitor Connecting VCM Cable
- MB-502A Mounting Bracket
- SLR-102 Slide Rail Kit
PVM-1340

Color Monitor for General Use

- Beam current feedback circuit for stable color reproduction
- 6500K/9300K color temperature selection switch
- Comb filter for NTSC
- Dynamic picture for high contrast picture reproduction
- Accepts an RGB video signal
- Blue only mode
- Mountable into a 19-inch EIA standard rack with optional MB-502A and SLR-102

Optional Accessories:
- VMC Monitor Connecting Cable
- MB-502A Mounting Bracket
- SLR-102 Slide Rail Kits

PVM-8044Q
Super Fine Pitch, Rack-Mount Type Monitor for Studio Use
- High resolution 8-inch Trinitron CRT provides 450 TV lines horizontal resolution
- Beam current feedback for stable color reproduction and comb filter for improved luminance/chrominance separation
- 8-inch Trinitron CRT
- Component input (Y/R-Y/B-Y or RGB), Y/C input and composite inputs for convenience and versatility
- Pulse cross and Blue only modes
- AC or DC powered for field operation
- Accepts external sync and sync on green signal of an RGB input
- 19-inch EIA standard rack mountable
- Compatible with NTSC, PAL, SECAM and NTSC4.43

PVM-8041Q
AC/DC Operation, Portable Color Video Monitor
- Beam current feedback for stable color reproduction and comb filter for improved luminance/chrominance separation
- 8-inch Trinitron CRT
- Component input (Y/R-Y/B-Y or RGB), Y/C input and composite inputs for convenience and versatility
- Pulse cross and Blue only modes
- AC or DC powered for field operation
- Accepts external sync and sync on green signal of an RGB input
- 19-inch EIA standard rack mountable
- Compatible with NTSC, PAL, SECAM and NTSC4.43
**PVM-8040**

8-Inch Portable Color Video Monitor

- Beam current feedback for stable color reproduction over a long period of time
- Heavy duty construction with metal cabinet to minimize electromagnetic interference between adjacent monitors
- Built-in speaker
- 19-inch EIA standard rack mountable

**Optional Accessories:**
MB-504 rack mount for two PVM8040 monitors in a 19" rack

PHM/PVM Monitors

PVM-5041Q

Color Video Monitor

- Compact, rugged lightweight 5-inch color monitor especially suited for field operation.
- Also ideal in studios when rack mounted.
- Beam current feedback circuit for greatly improved color balance stability.
- Accepts composite video component (Y/R-Y/B-Y or RGB) and an external sync input for system versatility.

Supplied Accessories:
- AC Power Cord
- Mini DIN 8-pin Connector with Cable (cable length: 350mm, 137¼"
- Operation Manual

Input

Video Input Line: Composite Video: Loop-through BNC connector

1 Vp-p ±6 dB, Sync negative, Automatic 75Ω termination*

(*75Ω termination is automatically set to OFF when connection is made to the OUT connector)

Component (Y/R-Y/B-Y or RGB)*:

- BNC connector
  - Red/R-Y: Non-composite
  - 0.7Vp-p ±6 dB, Positive, 75Ω
  - Sync on Green/Y:
    - Composite: 1Vp-p ±6 dB, Sync negative, 75Ω
    - Green: Non-composite: 0.7Vp-p ±6 dB, Positive, 75Ω
    - Blue/B-Y: Non-composite: 0.7Vp-p ±6 dB, Positive, 75Ω
  - Composite: 1Vp-p ±6 dB, Sync negative, 75Ω
  - Green: Non-composite: 0.7Vp-p ±6 dB, Positive, 75Ω
  - Blue/B-Y: Non-composite: 0.7Vp-p ±6 dB, Positive, 75Ω
  - (*Y/R-Y/B-Y or RGB input is switch selectable)

External Sync: BNC connector

4.0Vp-p ±6 dB, Negative, 75Ω

DC: XLR 4-pin connector

Remote: Mini DIN 8-pin connector

Audio Input Line: Loop-through phono connector — 5 dBs, high impedance

Component (Y/R-Y/B-Y or RGB):

- Phono connector
  - — 5 dBs, high impedance

Output

Speaker Out: 0.5W, 8Ω, monaural

Physical Characteristics

- Weight: 12 lb. 2 oz. (5.5 kg.) (approx.)
- Dimensions (W/H/D): 146 x 173 x 352.5mm (5¼" x 6¾" x 14") (approx.)
GVM-2020

Color Monitor for a Variety of Sources
- Multiple input facility with audio
- MultiScan capability; horizontal 15 kHz to 36 kHz, vertical 50 Hz to 100 Hz
- A high resolution of 560 TV lines/720 x 480 pixels
- Beam current feedback circuit for stable color reproduction
- Can be used with IBM PC with CGA/EGA display adapter, IBM PS/2, 8/16/64-color display capability
- Horizontal shift and Horizontal/Vertical size controls in RGB mode
- Slot type RGB input modules for future I/F board
- Optional wireless remote control unit RM-787

Optional Accessories:
RM-787 Wired Remote Control Unit

13” GVM-1316TSQ
(NTSC/PAL/SECAM/NTSC4.43)
- Employs Surface Acoustic Wave touch screen system for high transparency and reliability
- Two-piece construction
- Multiscan capability; horizontal 15 kHz–36 kHz, vertical 50 Hz–100 Hz
- A high resolution of 1024 x 768 pixels (RGB)/600 TV lines (composite video)
- Can be used with IBM PC with CGA/EGA card, IBM PS/2, and Apple Macintosh II color mode
- VGA autosize function in RGB A mode
- Horizontal and vertical size/shift controls in RGB mode
- Slot type RGB input for future I/F board
- 8/16/64-color and monochrome display capability
- Sub picture control for RGB mode
- Built-in speaker and earphone jack for audio monitoring
- Minimizes VLF/ELF interference

Supplied Accessories:
Softwares for Touch Screen:
- Users' Disk 3.5-inch (1 piece), 5-inch (1 piece)
- Programmers' Disk 3.5 inch (1 piece), 5-inch (1 piece)

Optional Accessories:
RM-787 Wired Remote Control Unit
SU-552 Tilt Swivel Stand
13" GVM-1311Q
(NTSC/PAL/SECAM/NTSC4.43)
- Multiple input facility with audio
- Multiscan capability; horizontal 15 kHz–36 kHz, vertical 50 Hz–100 Hz
- A high resolution of 600 TV lines/1024 x 768 pixels
- Can be used with IBM PC with CGA/EGA card, IBM PS/2, and Apple Macintosh II color mode
- 8/16/64-color and monochrome display capability
- VGA Audiosize function in RGB A mode
- Horizontal and vertical size/shift controls in RGB mode
- Slot type RGB input for future I/F board
- Sub picture control for RGB mode
- Built-in speaker and earphone jacks for audio monitoring
- Minimizes VLF (Very Low Frequency)/ELF (Extreme Low Frequency) interference

Optional Accessories:
- RM-787 Wired Remote Control Unit
- SU-552 Tilt Swivel Stand

*The Y/C input has priority over the composite input.

**75Ω termination is automatically set to OFF when connection is made to the OUT connector.

*The NTSC4.43 system refers to an NTSC color system in which the subcarrier frequency is modified to 4.43 MHz.
B/W Monitors

PVM-411
Rack Mount Type
- Specially designed as a camera monitor for a surveillance system or a video studio with multiple camera installation
- Accepts external sync
- BNC connectors for cable connections

PVM-91
High Resolution Monitor
- 800 TV lines of horizontal resolution at center
- Normal/Underscan can be selected
- DC clamp switch provides a stable reference for the black level
- Accepts an external sync
- Can be used as a dual monitor with the MB-504 optional bracket

Optional Accessories:
MB-504 Mounting Bracket

PVM-122
High Resolution Monitor
- 1,000 TV lines of horizontal resolution at center
- Normal/Under scanning selection
- Accepts an external sync
- Dual inputs (LINE A and B)
- Built-in speaker for audio monitoring
- DC Clamp ON/OFF switch

Optional Accessories:
SLR-102 Rack Mounting Rail

**Specifications**

**General**
- **Color System:** NTSC
- **TV System:** American TV Standard
- **Channel Coverage:**
- **Antenna Terminal:** 75Ω external antenna terminal for VHF/UHF/CATV
- **Picture Tube:**
  - CKV-27EXR 28” Microblack Trinitron tube, visible picture size 27” measured diagonally, 100° deflection
  - CKV-20EXR 21” Microblack Trinitron tube, visible picture size 20” measured diagonally, 100° deflection
- **Horizontal Resolution:**
  - CKV-27EXR: 500 TV lines
  - CKV-20EXR: 450 TV lines
- **White Balance:**
  - Dark (10 Nit): 8000K
  - Trinitone® Low, bright picture: 8000K
  - High, bright picture: 9000K
- **Normal Scan:** 15% overscan
- **Power Requirements:** AC-120V, 60 Hz
- **Power Consumption:**
  - CKV-27EXR: Max. 160W (stand by: 1.5W)
  - CKV-20EXR: Max. 130W
- **Weight:**
  - CKV-27EXR: 108 lb. 1 oz. (49 kg.)
  - CKV-20EXR: 55 lb. 2 oz. (25 kg.)

**Video Inputs**
- **VIDEO 1:** S VIDEO: Mini DIN 4-pin connector
  - (Y/C Separate): Y (luminance): 1Vp-p, sync negative, 75Ω
  - C (chrominance): NTSC: 0.286Vp-p, 75Ω
- **Composite Video:**
  - BNC connector: 1Vp-p, sync negative, 75Ω
- **Composite Video:**
  - BNC connector: 1Vp-p, sync negative, 75Ω

**Audio Input:**
- **VIDEO 1:** Phono connector (x 2)
  - 500 mVrms, impedance 47 kΩ
- **VIDEO 2:** Phono connector (x 2)
  - 500 mVrms, impedance 47 kΩ

**Output**
- **Audio Out (Variable):** Phono connector (x 2)
  - > 408 mVrms at the maximum volume setting (variable), impedance: 5 kΩ
- **Speaker Out:** 5W (x 2)

---

**CKV-27EXR/20EXR**

Trinitron® Color TV Monitor

- Microblack Trinitron tube for a high resolution/high contrast picture display
- CKV-27EXR: 27-inch screen measured diagonally, CKV-20EXR: 20-inch screen measured diagonally
- Comb filter and notch filter (3.58 MHz, ON/OFF selectable) for reduced cross color/dot interference
- New dynamic color with Trinitone® color adjustment system (Trinitone HIGH/LOW selectable) for natural color reproduction
- Dynamic picture for enhanced contrast
- Multi-band tuner is capable of receiving up to 181 channels with MTS and Matrix Surround Sound system

**Supplied Accessories:**
- RM-77 Remote Commander
- Size AA battery for RM-771 (2)

**Operation Manual Optional Accessories:**
- EAC-66 U/V Mixer
- EAC-31 Antenna/Connector
- UGC-1/2, RK-C73/C75, YC-15V/30V Connecting Cables
CVM-1271

12" Trinitron® Color TV Receiver/Monitor

- Patented Trinitron color system
- 12" picture, measured diagonally
- Built-in TV channel tuner
- Super Fine Pitch™ tube with 0.25mm Aperture Grille
- Comb filter for high resolution
- 500 lines of horizontal resolution, via video inputs

Supplied Accessories:
F-Type Connector
Antenna Connector with 300Ω–75Ω matching transformer

Specifications

- **Video Signals:** IEA 525 lines, 60 fields
- **Color System:** NTSC
- **TV Signal Standard:** American TV Standard; VHF channels 2–13, UHF channels 14–83 (channels 2–13 preset at factory)
- **Picture Tube:** Super Fine Pitch Trinitron tube (0.25mm phosphor stripe pitch), 12" picture measured diagonally, 90° deflection
- **Horizontal Resolution:** > 500 lines, video input
- **Color Temperature:** Switchable 6500°K or 9300°K
- **Frequency Response:** 5.5 MHz, −3 dB composite video
- **Linearity:** Horizontal: +8%; Vertical: +5%
- **Long Pull Range:** Horizontal: +500 Hz; Vertical: 10 Hz
- **Video Inputs:** 8-pin VTR connector 0.5Vp-p–1.5Vp-p, 75Ω sync negative, Line BNC connector; 1.0Vp-p nominal, 75Ω, sync negative
- **Audio Inputs:** 8-pin VTR connector and minijack; −5 dB, high impedance
- **Loop-Through Outputs:** Video Out BNC connector 1.0Vp-p, 75Ω, sync negative, high impedance; Audio Out minijack −5 dB, <4.7 kΩ
- **Video Outputs:** Video Out BNC connector 1.0Vp-p, 75Ω, sync negative, high impedance; Audio Out minijack −5 dB, <4.7 kΩ
- **TV Outputs:** Video Out BNC connector 1.0Vp-p, 75Ω, sync negative, high impedance; Audio Out minijack −5 dB, <4.7 kΩ
- **VTR Outputs:** 8-pin VTR connector 1.0Vp-p, 75Ω, sync negative, high impedance; Audio Out minijack −20 dB, <4.7Ω
- **Antenna Inputs:** 75Ω for VHF (F-type connector); 300Ω screw terminals for UHF
- **Power Requirements:** 120V AC, 50/60 Hz
- **Power Consumption:** 80W average
- **Dimensions (W/H/D):** 33.9 x 34.6 x 388mm
  (13 7/8" x 13 7/8" x 15 3/4")
- **Weight:** 34 lb. 13 oz. (15.8 kg.)
## LCD Color Monitors

### FDL-X600

**LCD Color Monitor**
- 5.9-inch (visible size) Liquid Crystal Display (LCD)
- Thin Film Transistor Active Matrix LCD panel with 194,040 pixel
- Accepts both NTSC and PAL signals
- DC operation capability
- Switchable to B/W mode
- Color temperature switch selectable; 5000K/6500K/9300K
- Automatic detection of EXT SYNC and SYNC ON GREEN
- Multiple input facilities
- Built-in monaural speaker

**Supplied Accessories:**
- Detachable Hood
- Carrying Belt

**Optional Accessories:**
- AC-S10, AC-V55 AC Power Adaptor
- DCP-77 Car Battery Adaptor
- Rechargeable Battery Pack
- NP-55H/66H/77H/77HD
- EBP-77 Battery Case

#### Input/Output

**Video Inputs:**
- Composite video
- Line A/B; Loop-through BNC
- Y/C; Mini-DIN 4-pin

**Audio Inputs:**
- Composite video
- Line A/B; Loop-through phono
- Y/C; Phono
- RGB; Phono

**Headphone Output:**
- 3.5 Stereo mini jack (Audio monaural)
LCD Color Monitors

FDL-X40

LCD Color Monitor

- High-quality 4-inch color liquid crystal display (LCD)
- Audio playback with built-in speaker
- Built-in fluorescent lamps provide high and equal luminescence, and allows for variable adjustments in brightness
- Four-way AC/DC power capability
- Auto power saving function turns the power off automatically when there is no signal coming into the monitor

Supplied Accessories:
- VF-K41 Shading Hood
- AV Connecting Cord
- Instruction Manual
- VCT-K41 Connecting Bounce Shoe

Optional Accessories:
- NP-77H Battery Pack
- ACV-55 AC Power Adaptor

Specifications

- Color System: NTSC
- Display: TN LCD/TFT active matrix
- Picture Size: 4" picture measured diagonally
  80.6 x 60.5mm (3⅛" x 2⅜")
- Picture Elements: 105,600 pixels (480 x 220)
- Speaker: 36mm (1⅜") round
- Input Jack: A/V In jack: minijack
- Input impedance: Audio 47 kΩ, 500 mVrms;
  Video 75Ω, 1Vp-p
- Output Jacks: A/V Out jack: minijack
- Output impedance: Audio 1 kΩ
- Video: 75Ω, 1Vp-p
- Earphone jack: Stereo minijack;
- Load impedance: 8–45Ω

- Power Requirements: 6V DC
- Battery Life: NP-77H (approx. 205 min.)
- Power Consumption: 4.2W (approx.)
- Dimensions (WHD): 135 x 114 x 49mm
  (5⅜" x 4⅜" x 1⅛")
  (Not including projecting parts and controls)
- Operating Temperature: 0°C to 40°C (32°F to 104°F)
- Weight: 11 oz. (350 g.) (approx.) not including batteries
Monitor Accessories

APM-X5A
Speaker System (One Pair)
- For PVM-2030/2530/3230
- Provides high quality Hi-fi sound
- Magnetically shielded
- Can be attached directly to the monitor

Specifications
Dimensions (WHD): 183 x 280 x 90mm
(7 1/4" x 11 1/6" x 3 3/4")
Weight: 5 lb. 8 oz. (2.5 kg.)

BKM-2080
Digital 4:2:2 Input Kit for the BVM-1912/1910/1915 Series (Both parallel and serial video available)

BKM-2085
Digital 4:2:2 Serial Input Kit for the BVM-1912/1910/1915/1310/1315 Series

BKM-2090
D-2 Serial Input Adaptor Kit for the BVM-1912/1910/1915/1310/1315 Series

DCC-16AW
Car Battery Cord
- Supplies car battery power to Sony portable video monitor

Specifications
Input: DC-12V or 24V
Output: DC-12V or 24V
Max. Output Current: 5A
Cable Length: 3m (9.8 ft.)
DMIF-1000

Digital Monitor Interface

- Accepts a Component Serial Digital Video signal input
- Outputs analog component (Y, R-Y, B-Y) signals
- Operates in either 525/60 or 625/50 systems (automatic selection)
- Employs active outputs
- 19" EIA standard rack mountable with a second DMIF-1000 using the optional rack mount kit MB-510

Optional Accessories:
MB-510 Rack Mount Kit

DMIF-2000

Digital Monitor Interface

- Accepts a composite serial digital video signal input
- Outputs analog composite signals
- Operates in both NTSC and PAL systems (front panel switch)
- Active buffered output which allows the signal to be fed to other equipment up to 200m away
- 19" EIA standard rack mountable with a second DMIF-2000 using the optional rack mount kit MB-510

Optional Accessories:
MB-510 Rack Mount Kit

Specifications

| Input: | Serial Composite: BNC, 75Ω |
| Output: | Analog Composite: BNC, 75Ω |
| Active Output: | BNC, 75Ω |
| Signal System: | NTSC or PAL manual selection |
| Sampling Frequency: | NTSC: 14.3 MHz |
| PAL: 17.7 MHz |
| Bit Rate: | NTSC: 143 Mb/s |
| PAL: 177 Mb/s |
| Quantization: | 8 bits/sample |
| Video Bandwidth: | 100 Hz–6 MHz ± 1 dB |
| K Factor: | < 1% (2T pulse) |
DSG-10
Display Signal Generator

The DSG-10 is a portable Display Signal Generator which provides the many test patterns necessary for proper monitor adjustments. Compact and lightweight, the DSG-10 makes monitor adjustments and installation simple by incorporating various test patterns such as SMPTE bars, window, gray scale, flat field, and cross hatch. To further simplify the adjustment process, the DSG-10 provides step-by-step on-screen operating instructions, making it easy to achieve accurate pictures. In addition, it is convenient for field use with its DC capability. With its small size and easy operation, the DSG-10 will be an indispensable tool for simple and precise monitor adjustment and installation in practically any situation.

Portability—The DSG-10 is extremely compact and lightweight. It can easily be transported to anywhere adjustment or installation of monitors is required. The DSG-10 has DC operation capability with the optional NP-55H/77H rechargeable battery. Using the supplied AC adaptor, AC operation is also possible. The DSG-10 incorporates a variety of test patterns, which are indispensable for adjusting or installing monitors. This color bar, which corresponds to the SMPTE ECR-1978, aids in achieving the precise color adjustment by adjusting the Chroma, Phase, Brightness, and Contrast volume controls respectively. The adjustment procedure necessary for each control is displayed step by step on the monitor screen as a guide for easy operation.

Window Pattern; Characteristics of the video circuits and high voltage stability can be examined with this test pattern which is composed of a white window against a black background. The white window changes alternately from 100 IRE to 20 IRE by pressing the pattern button.

Gray Scale Pattern; Three types of patterns (10 steps of full field: normal, split (normal/invert), invert) are provided to aid the adjustment of the white balance. By adjusting the Bias and Gain volumes, white balance can be attained. In this mode, operating instruction is displayed on the screen.

Flat Field Pattern; Five patterns (all white (100/20 IRE), red, green, blue) can be displayed one by one to check the white balance and uniformity of monitors.

Cross Hatch Pattern; Monitor linearity, convergence, and picture positioning can be verified with this test marks. In addition to the 17 vertical and 13 horizontal lines, the DSG-10 also contains display area markers, which enables easy reference to the size of the picture.

Ease of Operation—Blue Filter; as a supplied accessory for monitor adjustment. By looking through this filter, the same effect as the blue only mode of a monitor can be attained. This filter can be stored in the DSG-10 when not in use.

Hand Strap; For easy operation on location, the DSG-10 contains a sturdy hand strap.
Monitor Accessories

MB-502A
Mounting Bracket
- Bracket for PVM-1270Q/1271Q/1344Q/1342Q/1341/1340/CVM-1270/1271 to mount into 19" EIA standard rack (used with SLR-102)

Specifications
Dimensions (WHD): 483 x 355 x 329mm
(19¼" x 14" x 13½"
Weight: 8 lb. 13 oz. (4 kg.)

MB-503
Mounting Bracket
- Bracket for PVM-122 (used with SLR-102)

Specifications
Dimensions (WHD): 483 x 355 x 332mm
(19¼" x 14" x 13¼"
Weight: 9 lb. 4 oz. (4.2 kg)

MB-504
Mounting Bracket
- The MB-504 is specially designed to hold a pair of PVM-8220/8221/91 video monitor units as a dual monitor and can be mounted in a 19" EIA standard rack

Specifications
Dimensions (WHD): 482 x 221 x 341mm (approx.)
(19" x 8¾" x 13¼") (approx.)
Weight: 5 lb. 5 oz. (2.4 kg)

NP-1A
Rechargeable Battery Pack
- Supplies DC-12V to PVM-8020, EVM-8010R

Specifications
Battery Used: Nickel-cadmium battery
Output Voltage: 12V DC
Capacity: 1.7Ah
Dimensions (WHD): 72 x 25 x 185mm
(2¾" x 1" x 7½"
Weight: 1 lb. 8 oz. (690 g.) (approx.)

RM-787
Wired (10m) Remote Control Unit for GVM-2020/1311Q/1316TSQ

Specifications
Remote Control System: Infrared control
Power Requirements: DC-3V, two size AA (R6) batteries
Dimensions (WHD): 40 x 177 x 20mm (1¾" x 7" x ¾"
Weight: 4 oz. (110 g.) (with batteries)
Monitor Accessories

**SLR-101/102**
Slide Rail Kit

**SMF-500**
Monitor Cable
- For PVM-2030/2530
- IBM PC with CGA adaptor
- 25-pin/9-pin, 2m (6.4')

**SS-X6A**
Speaker System (One Pair)
- For PVM-2030/2530/3230
- Magnetically shielded
- Can be attached directly to the monitor

**ST-92TV**
TV Stereo Tuner Unit
- For PVM-2030/2530/3230
- Multi-band American TV standards VHF/UHF and Cable TV channels (1 to 125)
- Supplied remote control unit RM-U72 can control full functions of the monitor

**SU-538**
Tilt Swivel Stand
- For PVM-2030

C-48
SU-539
Tilt Swivel Stand
■ For PVM-2530

Specifications
Dimensions (WHD): 656 x 203 x 494mm
(25 1/2" x 8" x 19 1/2"")
Weight: 29 lb. 12 oz. (13.5 kg.) (approx.)

SU-540
Monitor Stand
■ For PVM-2030

Specifications
Dimensions (WHD): 512 x 535 x 560mm
(20 1/4" x 21 1/4" x 22 1/8"")
Weight: 39 lb. 11 oz. (18 kg.) (approx.)

SU-541
Monitor Stand
■ For PVM-2530

Specifications
Dimensions (WHD): 629 x 535 x 560mm
(24 1/2" x 21 1/2" x 22 1/8"")
Weight: 48 lb. 8 oz. (22 kg.) (approx.)

TU-1110
TV Tuner Unit
■ For PVM-1910/1911/1910Q, PVM-8020 ■ American TV standards VHF/UHF and Cable TV channels (1 to 99)

Supplied Accessories:
Connecting Cable for Monitor
Mounting Bracket with 2 Screws for PVM-19" Series

Specifications
External Power Input: 8-pin DIN Connector, 12V
Power Consumption: 45W DC max.
Dimensions (WHD): 210 x 50 x 154mm (8 1/2" x 2" x 6 1/4"")
Weight: 2 lb. 7 oz. (1.1 kg)

VLC-100
TV Tuner/BP-90A Holder
■ Bracket for TU-1110 TV tuner unit and BP-90A

Specifications
Dimensions (WHD): 229 x 185 x 307mm (9 1/4" x 7 1/4" x 12 1/4"")
Weight: 4 lb. 3 oz. (1.8 kg)
Multiscan Projectors

VPH-1271Q

MultiScan Projector (NTSC/PAL/SECAM/NTSC 4:43)

- MultiScan capability: Horizontal 15 kHz–85 kHz; Vertical 36 Hz–150 Hz
- Remarkable light output of 650 lumens (peak white), 200 lumens (all white)
- A high resolution of 1280 x 1024 pixels (RGB input)/ 700 TV lines (video input)
- RGB bandwidth of 70 MHz for precise reproduction of high frequency computer graphic images
- New HACC lens for superior and stable picture performance
- Dynamic Focus feature for improved corner focus
- 21 point registration for accurate registration across the entire screen area
- Handles both analog and digital RGB signals
- Plug-in type RGB input modules
- Wired/wireless remote control RM-1271 for full adjustments and operation of the projector
- Optional IFB series interface boards, the SIC series signal interface cable and the PC-1271 signal interface switcher for enhanced system versatility
- Can be used with screens from 70-inch to 300-inch in size with a simple adjustment (factory preset 120-inch)

Supplied Accessories:
- IBF-11 Interface Board
- RM-1271 Remote Commander
- Remote Control Cable (10m)
- Lens Spacer (2)
- CRT Spacer
- Washers (12 pcs each for 4 types; t = 0.4mm/t = 0.5mm/t = 1.0mm/t = 1.2mm)
- AA Size Battery (3) (for RM-1271)
- AC Power Cord
- Operation Manual

Optional Accessories:
- IBF-11/20/30/100/101/1000/1200 Interface Board
- IFU-1271 Interface Unit
- PC-1271 Signal Interface Switcher
- SIC-10/20/21/22/30 Signal Interface Cable
- RM-1270S Infrared Remote Control Unit, (Supplied with PC-1271)
- VXP-010 Projector Auto Setup System
- PSS-10/1270 Suspension Support
- VPS-100F1: 100", VPS-120F: 120" Flat Screen
- VPS-72HG1: 72", VPS-100HG1: 100" Curved Screen
- VPS-701R, VPS-700R2: 70" Rear Screen
- VPF-701R Rear Screen Frame
- Multi Cable: CCQ-5RS cable (14-pin–14-pin, 2/5/10/25/50m)
- RM-PJ10 Remote Infrared Sensor for wireless projector control
- MB-507 Rack Mounting for PVM-5041Q/8040/8041Q/8044Q
- MB-508 Blank Panel for use with PVM-5041Q and MB-507
- MB-509 Blank Panel for use with PVM-8040/8041Q/8044Q and MB-507
- MB-510 Mounting Bracket
Multiscan Projectors

Specifications

Optical

Projection System: 3 picture tubes, 3 lenses, direct projection system
Picture Tube: 7" (6.2" V) high luminance monochrome tubes with coolant sealed
Projection Lens: New high performance HACC hybrid lenses, f1.2/140mm, resolution 8 lp/mm
Screen Size: 70" - 200" measured diagonally (factory preset 120"
Light Output: 200 lumens (all white)
650 lumens (peak white)
Throw Distance:
72" : 2047mm (6' 9"
120" : 3278mm (11' 9"
200" : 5334mm (17' 6"
250" : 6635mm (21' 1"
300" : 7935mm (26' 1"

General

Color System: NTSC, PAL, SECAM, NTSC4.43 automatically selected
Resolution: 700 TV lines (VIDEO IN)
1280 x 1024 pixels (RGB IN, VPH-1271Q: measured at fH: 64 kHz, fV: 60 Hz
VPH-1251Q: measured at fH: 40 kHz, fV: 38 Hz)
RGB bandwidth:
VPH-1271Q: 70 MHz (-3 dB)
VPH-1251Q: 40 MHz (-3 dB)
Scanning Frequency:
Horizontal: VPH-1271Q: 15 kHz–85 kHz
VPH-1251Q: 15 kHz–58 kHz
Vertical:
VPH-1271Q/1251Q: 38 kHz–105 kHz
Test Signal:
Hatch (coarse), Hatch (fine), Hatch (fine, invert), Cross hair, Dot pattern, H-pattern, Window, Pluge, All white
Speaker: Max. 3W, 8Ω, monaural
Power Requirements:
AC-120V, 50/60 Hz
Power Consumption:
VPH-1271Q: Max. 450W
VPH-1251Q: Max. 440W
Dimensions (WHD):
620 x 355 x 817mm
(24 3/4" x 14" x 32 1/4"
Weight:
VPH-1271QM: 143 lb. 4.8 oz. (65 kg.)
VPH-1251QM: 141 lb. 1.5 oz. (64 kg.)

Input

VIDEO IN
Composite Video: BNC connector
Y/C: Mini DIN 4-pin
Y(luminance): 1Vp-p, sync negative, 75Ω
C(chrominance): 0.288Vp-p (NTSC)
0.3Vp-p (PAL), 75Ω
The Y/C IN has priority over the composite video in.

AUDIO IN:
Phono connector
~5 dB, monaural, impedance more than 47 kΩ

INPUT A: Supplied with IFB-11 fitted.
R/L: BNC connector
0.7Vp-p, positive, 75Ω

G/Sync on G: BNC connector
0.7Vp-p, positive 75Ω (non-composite)
1Vp-p, sync negative, 75Ω (composite)

Sync:
Composite sync: BNC connector
*Analog level: 0.8Vp-p–8Vp-p, high impedance, positive/negative
*TTL level: Positive/negative
HD/VD separate:
*Analog level: 0.6Vp-p–8Vp-p, high impedance, positive/negative
*TTL level: Positive/negative

AUDIO IN:
Phono x 2
~5 dB, impedance more than 47 kΩ (stereo or monaural selectable)

INPUT B: Open

REMOTE 1: 14-pin connector (male)
REMOTE 2: D-sub 8-pin connector (female, RS-422 port)
CONTROL 5: Loop-through Mini connector

Output

VIDEO OUT: BNC connector
1Vp-p, sync negative, 75Ω
**Multiscan Projectors**

**VPH-1251Q**

MultiScan Projector  
(NTSC/PAL/SECAM/NTSC 4:3)

- MultiScan capability: Horizontal, 15 kHz to 58 kHz; Vertical, 38 Hz to 150 Hz
- Remarkable light output of 650 lumens (peak white), 200 lumens (all white)
- A high resolution of 1280 x 1024 pixels (RGB input)/700 TV lines (video input)
- RGB bandwidth of 40 MHz for precise reproduction of high frequency computer graphic images
- New HACC lens for superior and stable picture performance
- Dynamic Focus feature for improved corner focus
- Handles both analog and digital RGB signals
- Plug-in type RGB input modules
- Wired/wireless remote control RM-1271 for full adjustments and operation of the projector
- Optional IFB series interface boards, the SIC series signal interface cables and the PC-1271 signal interface switcher for enhanced system versatility
- Can be used with screens from 70-inch to 300-inch in size with a simple adjustment (factory preset 120-inch)

**Supplied Accessories:**
- IFB-11 Interface Board
- RM-1271 Remote Commander
- Remote Control Cable (10m)
- Lens Spacer (2)
- CRT Spacer
- Washers (12 pcs each for 4 types; t = 0.4mm/t = 0.5mm/t = 1.0mm/t = 1.2mm)
- RM-1271 AA Size Battery
- AC Power Cord
- Operation Manual

**Optional Accessories:**
- IFB-1200 Interface board
- IFB-100 Interface Board
- RM-PJ10 Remote Infrared Sensor for wireless projector control
- MB-507 Rack Mounting Bracket for PVM-5041Q/8040/8041Q/8044Q
- MB-508 Blank Panel for use with PVM-5041Q and MB-507
- MB-509 Blank Panel for use with PVM-8040/8041Q/8044Q and MB-507

- **Power Requirements:** AC-120V, 50/60 Hz
- **Power Consumption:** Max 440W
- **Dimensions (WHD):** 620 x 355 x 817mm
  - (24½" x 14" x 32½")
- **Weight:** 141 lb. 1.5 oz. (64 kg.)

### Input

- **Composite Video:** BNC connector
  - 1Vp-p, sync negative, 75Ω
- **Y/C:**
  - Mini DIN 4-pin
  - Y (luminance): 1Vp-p, sync negative, 75Ω
  - C (chrominance): 0.286Vp-p (NTSC)
  - 0.3Vp-p (PAL), 75Ω
  - *The Y/C IN has priority over the composite video in*
- **AUDIO IN:**
  - Phono connector
  - -5 dBs, monaural, impedance >47 kΩ
- **INPUT A:** Supplied with IFB-11 fitted
  - R/B: BNC connector
  - 0.7Vp-p, positive, 75Ω
- **G/Sync on G:**
  - BNC connector
  - 0.7Vp-p, positive, 75Ω (non-composite)
  - 1Vp-p, sync negative, 75Ω (composite)
- **Sync:**
  - Composite Sync: BNC connector
  - *Analog level: 0.8 to 8Vp-p, high impedance, positive/negative
  - *TTL level: Positive/negative
  - HD/VD Separate:
  - *Analog level: 0.8 to 8Vp-p, high impedance, positive/negative
  - *TTL level: Positive/negative
- **AUDIO IN:**
  - Phono x 2
  - -5 dBs, impedance >47 kΩ
  - (stereo or monaural selectable)
- **INPUT B:** Open
- **REMOTE 1:** 14-pin connector (male)
- **REMOTE 2:** D-sub 9-pin connector (female, RS-422 port)
- **CONTROL S:** Loop-through Mini connector

### Output

- **VIDEO OUT:** BNC connector
  - 1Vp-p, sync negative, 75Ω
Multiscan Projectors

VPH-1031Q

Color Video Projection System

- Can project RGB input within 15 kHz–36 kHz Horizontal Frequency and 40 Hz–150 Hz Vertical Frequency. A high resolution of more than 1100 TV Lines at center/640 x 480 pixels (RGB input) with PGA card. Can be used with IBM PC with CGA, PGA, or EGA adaptors.
- Employs high quality lens HACC/HD-6. Responds to Analog/Digital RGB Signals. Sync signal on green channel can be detected automatically. RGB signals can be superimposed on Composite Video signal (only when connected with RGB-2 (25-pin)). Can be used with screen from 67-inch to 250-inch in size with a simple adjustment.

Supplied Accessories:
- AC Power Cord
- Optional Accessories:
  - VPR-722S Remote Control Unit
  - CCQ-5BRS/10BRS/25BRS/50BRS Extension Cables between VPR-722S and VPH-1031Q
  - SU-722 Projector Pedestal
  - VPS-701R/700R2 70" Rear Screen
  - VPS-72HG1 72" Concave Screen
  - VPS-100F1 100" Flat Screen
  - VPS-120F 120" Rear Screen
  - VPS-100HG1 100" Concave Screen
  - VPS-710R/700R2 Screen Frame
  - VLC-1040 Carrying Case
  - VSS-100 Screen Stand
  - SMF-508 Shielded Cable
  - PSS-10/722 Projection Suspension Support

VPH-1031Q

Specifications

General
- Projection Picture
  - Size (WH): 70": 1422 x 1067mm (4.7’ x 3.5’)
    72": 1483 x 1097mm (4.8’ x 3.6’)
    100": 2032 x 1524mm (6.7’ x 5.0’)
    200": 4064 x 3048mm (13.5’ x 10.2’)
- Projection Distance:
  - 70": 2.5m (8.2’)
  - 72": 2.5m (8.2’)
  - 100": 3.3m (10.8’)
  - 200": 6.4m (21.0’)
- Picture Tube: 5.5" high-luminance monochrome tubes, with coolant sealed
- Projection Lens: F1.0, 135mm (3 pcs.) High performance hybrid lens HACC/HD-6

Video Graphic
- Built-in Speaker: 2 speakers (monaural)
- Power Requirements: AC -120V, 50/60 Hz
- Power Consumption: 215W max.
- Dimensions (WHD): 532 x 280 x 597mm (21" x 11¼" x 23¾")
- Weight: 83 lb. 12 oz. (38 kg.)

Input
- Video Input: BNC, 1.0Vp-p, sync negative, 75Ω
- Audio Input: 9-pin D: TTL level

Output
- Audio Power Output: Phono: 5 dB, high impedance

Controller (VPR-722S):
- Power Requirements: DC: 28V (Supplied from projector)
- Power Consumption: 2.0W max.
- Video Input: 1Vp-p, 75Ω, sync negative
- Y/C Input (S VIDEO): Y (Luminance): 1Vp-p, sync negative, 75Ω
  C (Chrominance): 0.286Vp-p (NTSC), 0.3Vp-p (PAL), 75Ω
- Y/C Output (S VIDEO): Loop-through
- Audio Input: 5 dB, high impedance
- Audio Output: 5 dB, high impedance
- Audio Monitor Output: 5 dB, high impedance
- Connector: 14-pin for projector (Phono for Audio, Video)
  8-Pin for VTR (Mini for Control)
  BNC for Video

Dimensions (WHD):
- 70 x 50 x 235mm (17" x 2" x 9¾")
- Weight: 4 lb. 10 oz. (2.1 kg.)

Screen and Stand
- Optional screen
  - VPS-701R (70’): 16 lb. 9 oz. (7.5 kg.)
  - VPS-70OR2 (70’): 18 lb. 11.8 oz. (8.5 kg.)
  - VPS-72H G1 (72’): 30 lb. 14 oz. (14 kg.)
  - VPS-100F1 (72’/100’): 17 lb. 10 oz. (8 kg.)
  - VPS-100HG1 (100’): 68 lb. 2 oz. (30 kg.)
  - VPS-120F (120’): 46 lb. 5 oz. (21 kg.)
- Optional stand
  - VSS-72 (72’): 55 lb. 2 oz. (25 kg.) for VPS-72H G1
  - VSS-100 (100’): 63 lb. 15 oz. (29 kg.) for VPS-100HG1

*The NTSC4.43 system refers to an NTSC color system in which the subcarrier frequency is modified to 4.43 MHz.
RVP-6000Q

Rear Screen Color Video Projection System

- 60-inch MultiScan rear projection unit
- MultiScan capability: horizontal 15 kHz to 65 kHz, vertical 38 Hz to 150 Hz
- High contrast images with Optical Coupling CRT
- Super Fine Pitch screen with black stripes for wide vertical viewing angle
- A high resolution of 1280 x 1024 pixels (RGB input)/700 TV lines (video input)
- Heavy duty casters with brakes for high mobility
- Wired/wireless remote control RM-1270 for full adjustments and operation of the projector
- Slot type RGB input modules
- Optional IFB series interface boards, the SIC series signal interface boards and the PC-1270 signal interface switcher for enhanced system versatility

Supplied Accessories:
- RM-1270 Infrared Remote Control Unit
- IFB-11 Interface Board
- Remote Control Cable for RM-1270
- Extension Board
- AC Power Cord

Optional Accessories:
- IFB-11/20/30/1000 Interface Board
- PC-1270 Signal Interface Switcher
- SIC-10/20/21/22/30 Signal Interface Cables
- CCO-BRS Cables (14-pin/14-pin, 2m, 5m, 10m, 25m)

RVP-400Q

Rear Screen Color Video Projection System

- 40-inch MultiScan rear projection unit
- Suitable for both a multi-screen display and a stand-alone projection
- MultiScan capability: horizontal 15 kHz to 50 kHz, vertical 38 Hz to 150 Hz
- High resolution, high brightness, high contrast display
- Up to 4 projector units can be stacked vertically
- Wide viewing angle of 110° horizontally and 44° vertically
- Thin screen frame of only 5mm (7/32") wide
- Color temperature selection: 9300K/6500K/3200K/User preset (Factory preset: 6500K)
- Various optional accessories available for system versatility
- Automatic power on with the external power feed and presettable delay time for power on
- Optional wire/wireless remote commander RM-1271 with address function for all projector control functions, including input selection, picture control, RGB size and shift and centering controls

Supplied Accessories:
- IFB-11 Interface Board
- Control S Connecting Cable (1m, 3', 3")
- Extension Board
- AC Power Cord
- Operation Manual

Optional Accessories:
- RM-1271 Remote Commander
- PC-1270 Signal Interface Switcher
- IFB-11/20/30/1200/1000 Interface Board
- SIC-10/20/21/22/30 Signal Interface Cable
- CCO-BRS Cable (14-pin/14-pin, 2m, 5m, 10m, 25m)

---

<sup>1</sup>The NTSC<sub>4,3</sub> system refers to an NTSC color system in which the subcarrier frequency is modified to 4.43 MHz.

<sup>2</sup>The Y/C input has priority over the VIDEO input.

<sup>3</sup>INPUT A for RVP-5000Q is supplied with IFB-11.
VPH-1042Q

Color Video Projection System

- Remarkable light output of 600 lumens
- Can be used with screen from 70-inch to 250-inch in size with a simple adjustment
- Y/C input
- Adopts high quality lens HACC/HD-6
- Desk top mounted projection, Ceiling mounted projection, Floor mounted projection and Rear projection capabilities
- A high resolution of 1000 TV lines or 2000 characters (RGB input)
- Accepts an analog RGB video signal
- Normal/Blue Background/Clear Blue switchable
- Remote control possible up to 50m by using optional remote control unit VPR-722S and optional CCQ-BRS cable
- Designed to be easy-to-operate and easy-to-adjust model for functional use

Optional Accessories:
- VPR-722S Remote Control Unit
- SU-722 Projector Pedestal
- PSS-722/PSS-10 Projector Suspension Support
- VLC-1040 Carrying Case
- CCQ-BRS Cables (14-pin/14-pin, 2m, 5m, 10m, 25m, 50m)
- VPS-120F 120” Flat Screen
- VPS-100F 100” Flat Screen
- VPS-100HG1 100” Concave Screen
- VPS-72HG1 72” Concave Screen
- VPS-701R/700R2 70” Rear Screen
- VPF-701R 70” Rear Screen Frame
- VPE/VPL/VPM Series for 150” – 250” projection

VPH-1000Q

Color Video Projection System

- Remarkable light output of 600 lumens
- Can be used with screen from 70-inch to 250-inch in size with a simple adjustment
- Y/C input
- Desk top mounted projection, Ceiling mounted projection, Floor mounted projection and Rear projection capabilities
- Remote control possible up to 50m by using optional remote control unit VPR-722S and optional CCQ-BRS cable
- Designed to be easy-to-operate and easy-to-adjust model for functional use

Optional Accessories:
- VPR-722S Remote Control Unit
- SU-722 Projector Pedestal
- PSS-722/PSS-10 Projector Suspension Support
- VLC-1040 Carrying Case
- CCQ-BRS Cables (14-pin/14-pin, 2m, 5m, 10m, 25m, 50m)
- VPS-120F 120” Flat Screen
- VPS-100F 100” Flat Screen
- VPS-100HG1 100” Concave Screen
- VPS-72HG1 72” Concave Screen
- VPS-701R/700R2 70” Rear Screen
- VPF-701R 70” Rear Screen Frame
- VPE/VPL/VPM Series for 150” – 250” projection

*The NTSC4.43 system refers to an NTSC color system in which the subcarrier frequency is modified to 4.43 MHz.
PC-1271

Signal Interface Switcher
- The PC-1271 is a signal interface switcher for the VPH-1271Q/1251Q and is designed to offer maximum flexibility in the display system. It accepts up to eight signal inputs with IFB interface boards installed (a maximum of sixteen signal inputs with a second PC-1271).
- Connection to the VPH-1271Q/1251Q via a single CCQ-BRS multi-cable.
- Incorporates cable length compensation to maintain the RGB bandwidth of 70 MHz when using a CCQ-BRS cable of up to 50m (165 ft.) (Compensation switch selectable according to cable length).
- Can be remotely controlled via a REMOTE 2 (D-sub 25-pin) for use with an external control unit.
- Last channel memory.
- Supplied RM-1270S remote control unit for easy operation.
- 19-inch EIA standard rack mountable with supplied rack mount kit.

Supplied Accessories:
- RM-1270S Remote Control Unit
- AA Size Battery (2)
- AC Power Cord
- Rack Mount with Screws
- Operation Manual

Specifications

General
- RGB Bandwidth: 100 MHz (-3 dB)
- Power Requirements: AC-120V, 50/60 Hz
- Power Consumption: 60W (approx.)
- Dimensions (WHD): 424 x 133 x 290mm (163/4" x 51/4" x 111/2")
- Weight: 17 lb. 10 oz. (8 kg.) (approx.)

Inputs
- Input 1–8: Blank, Part of optional IFB series input modules.
- REMOTE 1: 14-pin (male), from a second PC-1271.
- REMOTE 2: D-sub 25-pin (female) from the external control unit.
- Control S: Loop-through Mini jack.

Outputs
- MONITOR OUT
- VIDEO: BNC connector
  - 1Vp-p, sync negative, 75Ω
- Y/C: Mini DIN 4-pin Connector
  - Y (luminance): 1Vp-p, sync negative, 75Ω
  - C (chrominance): 0.286Vp-p (NTSC)
  - 0.3Vp-p (PAL), 75Ω
- R/B: Analog level: BNC connector
  - 0.7Vp-p, positive, 75Ω
- G/Sync on G: BNC connector
  - 0.7Vp-p, positive, 75Ω (Non-composite)
  - 1Vp-p, sync negative, 75Ω (Composite)
- HD/VD/HV: BNC connector
  - 1Vp-p, positive/negative, 75Ω
- AUDIO: Phono x 2 (stereo or monaural selectable)
  - -5 dBs, impedance 1 kΩ
- REMOTE 1: 14-pin (female), To VPH-1271Q/1251Q, or first PC-1271
Projector Accessories/Peripherals/Interface Boards

IFU-1271

Interface Unit for VPH-1271Q/1251Q, RVP-6000Q/400Q, PC-1271

This interface unit is used when two outputs are necessary from one IFB board. The IFU-1271 will accept an input signal from any IFB board. The two signals are output from this unit in the same form as the input signal: composite, Y/C separate, analog RGB or component (Y/R-Y/B-Y). A digital RGB signal input is converted into an analog RGB signal for output. The output sync signal type can be selected via the sync output select mode switch.

Supplied Accessories:
AC Power Cord
Operation Manual

RM-1271

Infrared Remote Control Unit

(Supplied with the VPH-1271Q and VPH-1251Q) The RM-1271 offers full remote control functions including input selection on both the projector and signal interface switcher, picture control, RGB size/shift, centering and volume controls. These function keys can be illuminated to ease operation in darkened rooms. When several projectors are installed in a system, each one can be assigned a unique number when fitted with an optional IFB-101 index board. By selecting a projector number on the RM-1271, only this individual unit is then controlled. The wired remote control can be implemented by interconnecting the remote control unit to either the VPH-1271Q/1251Q or PC-1271 with the supplied 10m cable.

RM-1270S

Infrared Remote Control Unit

(Supplied with the PC-1271) The RM-1270S provides simplified operation of only power on/off and input selection for both a VPH-1271Q/1251Q and a PC-1271.
IFB-11
Interface Board for VPH1271Q/12510, RVP-6000Q/400Q, PC-1271
Specifications
Inputs
- RGB: Analog, BNC x 5
- AUDIO: Phono x 2
  (Stereo or monaural selectable)
Dimensions (WHD): 129 x 35 x 125mm
  (5½" x 1½" x 5")
Weight: 6.3 oz. (180 g.) (approx.)

IFB-20
Interface Board for VPH-1271Q/1251Q, RVP-6000Q/400Q, PC-1271
Specifications
Inputs
- RGB: Analog, D-sub 9-pin (male)
- AUDIO: Phono x 2
  (Stereo or monaural selectable)
Dimensions (WHD): 129 x 35 x 125mm
  (5½" x 1½" x 5")
Weight: 6.0 oz. (170 g.) (approx.)

IFB-30
Interface Board for VPH-1271Q/1251Q, RVP6000Q/400Q, PC-1271
Specifications
Inputs
- RGB: TTL level, D-sub 9-pin
- AUDIO: Phono x 2
  (Stereo or monaural selectable)
Dimensions (WHD): 129 x 35 x 125mm
  (5½" x 1½" x 5")
Weight: 3.9 oz. (110 g.) (approx.)

IFB-1000
Interface Board for VPH-1271Q/1251Q, RVP-6000Q/400Q, PC-1271
Specifications
Inputs
- VIDEO*: Loop-through BNC
- Y/C*: Loop-through mini DIN 4-pin
- AUDIO: Phono x 2
  (Stereo or monaural selectable)
Dimensions (WHD): 129 x 35 x 125mm
  (5½" x 1½" x 5")
Weight: 5.6 oz. (160 g.) (approx.)
*The Y/C IN has priority over the VIDEO IN.

IFB-3000
Interface Board for the PC-1271
- Interface board for double scanning composite video input (x3), Y/C input (x3) component input (Y/R-Y/B-Y) (x3), and audio input

Projector Accessories/Peripherals/Interface Boards

PSS-10/722/1270
Suspension Support: PSS-10/722 for VPH-600Q/722Q1/1020Q1/2020Q1/1030Q1/2030Q1/1040Q/1041Q/1042Q/1000Q
PSS-10/1270 for VPH-1270Q/1271Q/1251Q

- Methods of installing the projector using the PSS-10 and PSS-722 or PSS-1270: 1. Direct installation on the ceiling (PSS-722) 2. Installation on the ceiling (height adjustable) (PSS-10 + PSS-722 or PSS-1270)

Specifications
Weight
- PSS-10: 22 lb. 11 oz. (10.3 kg.)
- PSS-722: 3 lb. 15 oz. (1.8 kg.)
- PSS-1270: 17 lb. 3 oz. (7.8 kg.)

SU-722
Pedestal for VPH-600Q/722Q1/1020Q1/1030Q1/1031Q/1040Q/1041Q/1042Q/1000Q

- For floor mounting operation used with the concave screens VPS-72HG1 or VPS-100HG1
- Equipment, such as a U-matic VTR can be placed on the bottom plate (in the case of the VPH-722Q1)

Specifications
Carrying Capability:
- Bottom plate: 132 lb. 4 oz. (60 kg.)
- Shelf: 66 lb. 2 oz. (30 kg.)
Dimensions (WHD):
- 590 x 640 x 600mm
  (231/4" x 251/4" x 235/8")
Weight: 32 lb. 3 oz. (14.6 kg.)

### VPF-701R

#### Rear Screen Frame

**Supplied Accessories:**
Bracket
Screws

**Specifications**

**Dimensions (WHD):**
- Outer size: 1597 x 1240 x 30mm (63" x 48 3/4" x 1 1/8")
- Inner size: 1427(W) x 1070(H)mm (56 1/4" x 42 1/4")

**Weight:** 18 lb. 11.8 oz. (8.5 kg.) (approx.)
VPX-010

**Projector Auto Setup System for VPH-1270Q/1271Q, RVP-6000Q/400Q**

- Comprises three components: a high resolution CCD camera, a processing unit and a controller.
- Various adjustment modes available: geometry distortion adjustment, convergence adjustment, centering adjustment and white balance adjustment.
- Can adjust plural projector with the system.
- Can adjust projector regardless of the type of installations.
- All the system components including connecting cables fit into a supplied carrying case.

**Supplied Accessories:**
- AC Power Cord
- Operation Manual

**Optional Accessories:**
- RMM-010 Rack Mount Kit
- CCQ-BRS Cables: (14-pin/14-pin, 2m, 5m, 10m, 25m, 50m)
- RCC-G Control Cables: (9-pin/9-pin, 5m, 10m, 30m)

**Specifications**

**General**
- Power Requirements: VPX-010: AC-100V~120V, 50/60 Hz
- Power Consumption: Complete system: 20W (approx.)
- Dimensions (WHD): Complete system: 28 lb. 7oz. (12 kg.) (approx.)

**Compatible Projectors**
- VPH-1270Q, RVP-6000Q, RVP-4000, HDIH-1200, HDIH-2000, HDIH-3000, HDIR-500

**Connectors**
- Projector 1: 14-pin (Female), D-sub 9-pin (Female, RS-422 port)
- Projector 2: 14-pin (Female), D-sub 9-pin (Female, RS-422 port)
- Controller: 6-pin (Female)
- Camera: 12-pin (Female)
- Monitor: BNC connector, Composite Video
- External Sensor: D-sub 9-pin (Female)

**Main Unit**
- Dimensions (WHD): 261 x 81 x 239mm (10¼" x 3¼" x 9¼")
- Weight: 5 lb. 15 oz. (2.7 kg.)
- 420,000 pixels (768 x 486 dots)

**CCD Camera**
- Dimensions (WH): 44 x 29 x 128mm (1¾" x 1½" x 5¼")
- Weight: 1 lb. 9 oz. (0.7 kg.)

**Controller**
- Dimensions (WH): 111 x 35 x 247mm (4½" x 1½" x 9¾")
- Weight: 1 lb. 9 oz. (0.7 kg.)

**Camera Tripod**
- Dimensions: Extended: Max. spread: 860(H)mm (33¾")
- 25° spread stride 1050(H)mm (41½")
- Collapsed: Max. spread: 415(H)mm (16¼")
- 25° spread stride: 485(H)mm (19")
- Weight: 2 lb. 3 oz. (1.0 kg.)

**Carrying Case**
- Dimensions (WH): 550 x 435 x 217mm (21½" x 17¼" x 8¾")
- Weight: 12 lb. 6 oz. (5.6 kg.)

Still Video Camera

MVC-7000
Still Video Camera Recorder

- High density 1/4 inch Interline Transfer CCD 3-chip camera
- Approx. 380,000 effective pixels per CCD
- Over 500 TV lines of resolution using Hi-band recording
- Easy-to-operate, ergonomically designed
- Increased effective focal length
- Flexible exposure control system
- Playback and erase functions
- High quality video output
- Convenient ID recording
- Mechanical focal plane shutter for quality frame recording
- Skip function
- Selectable frame or field recording mode
- Precise metering system
- Informative LCD
- Convenient shutter release
- AC/DC operation
- Optional electronic flash

Supplied Accessories:
- Shoulder Strap
- Body Cap
- Lithium Battery
- Instruction Manual

Optional Accessories:
- MKA-7 Output Adaptor
- MCL-06T Wide Lens
- MCL-300C Lane Adaptor (for Canon)
- SMF-1200 RGB-48NC Cable
- SMF-1230 LCD Monitor Cable
- AC-M55 AC Adaptor/Battery Charger
- NP-55H/77H Rechargeable Battery Pack
- MCL-913T Zoom Lens
- MCL-808H Zoom Lens
- MCL-05H Wide Lens
- MCL-200N Lane Adaptor (for Nikon)
- SMF-512 RGB-D-sub Cable
- SMF-1210 Y/R-Y/B-Y Cable
- MFL-36 Electronic Flash
- RM-S7 Remote Control Unit
- MCL-50/50H Still Video Disk
- MCL-710H Zoom Lens

Specifications

Recording Format: Still Video Floppy

Video: Luminance: FM recording
Chrominance: R-Y, B-Y Differential Color Line
Sequential FM recording

Recording Mode: Hi-band

Video Signal System: NTSC color
Imager: Three 1/2" interline transfer CCD image sensors

Picture Elements: 380,000 pixels (768(H) x 494(V))
Lens Mount: Bayonet mount (Sony original)

Focusing System: Manual
Viewfinder: TTL optical viewfinder, viewing area 92%
Light Metering: TTL center-weighted and spot metering
Shutter: Focal-plane, 1/4 - 1/500 sec.
Flash-Sync: 1/500 sec. (Max. synchronization speed)
White Balance: Self-adjusting automatic white balance, 3200K/5800K/memory

Drive (Shutter) Mode: Single, approx. 2.5 images/sec. continuous self timer, interval
Multiplex Data: Normal: Year, month, day, hour, minute, second, aperture value, shutter speed
ID: Year, month, day, ID (11 digits)

Video Recording Mode: Frame/Field, selectable

Exposure Control System: Programmed AE/Shutter Priority, AE/
Aperture Priority, AE/Manual Mode

EV Compensation: -3EV to +3EV (0.5EV steps)
Normal Sensitivity: Frame Recording: ISO 200 (100, 400 selectable)
Recording Capacity: Field Recording: ISO 400 (200, 800 selectable)
Recording Capacity: Field Recording: 50 pictures
Horizontal Resolution: More than 500 TV lines (Hi-band, recorded on floppy disk)
Inputs: More than 650 TV lines (Through Video Output)
Power Requirements: Remote control (for RM-S7)
Hot shoe

Power Requirements:
- Power Consumption: 9.1W (Standby mode)
- 6.2W (Playback mode)
- 8.3W (Video Out mode)

Operating Temperature:
- 0°C to 40°C (32°F to 104°F)
Storage Temperature:
- -25°C to 60°C (-13°F to 140°F)
Dimensions (WHD):
- 168.2 x 114 x 140mm
- (63/4" x 43/4" x 53/4") w/o lens
- 5 lb. 1 oz. (2.57 kg.) w/NP-55H, floppy disk
- and MCL-710H zoom lens
Still Video Recorder/Players

MVR-5300

Still Video Recorder/Player
- High quality picture due to the adoption of the Hi-band format
- Offers 500 TV lines of horizontal resolution
- Both Hi-band and normal band recording/playback capabilities
- A maximum of 25 frame or 50 field pictures, or any combination of the two, can be recorded on a single video floppy disk
- Multiple inputs/outputs
- Quick random access of 1.5 seconds or less
- Remote control operations using optional RM-C540 or RM-C30
- External computer control capabilities through the RS-232C interface
- Cue tone control through the TC SYNC connector
- On screen display
- ID number/truck number/recording information display
- Rack mountable on a 19-inch EIA standard rack with the optional RMM-57K
- Time base corrector interface and external SYNC input

Supplied Accessories:
- AC Power Cord
- AC Cord Holder
- Operation Manual
- RS-232C Interface Manual

Optional Accessories:
- MP-50 Still Video Disk
- RM-C540 Remote Control Unit
- RM-C30 Wireless Remote Commander
- FS-20 Foot Switch
- RMM-57K Rack Mount Kit (19-inch)
- MP-5CL Cleaning Disk
- SMF-0131 Cable for RS-232C

Specifications

### Video

**Signal:**
- EIA standard, NTSC color

**Horizontal Resolution**
- 500 TV lines (Hi-band)
- 360 TV lines (normal band)

**S/N Ratio:**
- 45 dB (luminance)
- 46 dB (chrominance)

**Input:**
- Composite (BNC x 1): 1.0Vp-p, 75Ω, unbalanced, sync negative, Y/C (DIN 4-pin S type):
  - Y: 1.0Vp-p, 75Ω, unbalanced, sync negative
  - C: 0.286Vp-p, 75Ω, unbalanced
- RGB (BNC x 3): 0.7Vp-p, 75Ω, unbalanced
- Sync (BNC x 1): 0.2–4.0Vp-p, 75Ω, unbalanced, negative

**Output:**
- Composite (BNC x 1): 1.0Vp-p, 75Ω, unbalanced, sync negative, Y/C (DIN 4-pin S type):
  - Y: 1.0Vp-p, 75Ω, unbalanced, sync negative
  - C: 0.286Vp-p, 75Ω, unbalanced
- RGB (BNC x 3): 0.7Vp-p, 75Ω, unbalanced
- Sync (BNC x 1): 4.0Vp-p, 75Ω, unbalanced, negative

### General

**Video Format:**
- Still video floppy (2" size)
- Luminance: FM recording
- Chrominance: R-Y, B-Y differential color line sequential FM recording
- Hi-band/normal band selectable

**Recording/Playback Mode:**
- Frame or field recording by dual head guard band method

**Recording Method:**
- Frame or field recording by dual head guard band method

**Recording/Playback Capability:**
- 25 frame pictures (frame REC/PB)
- 50 field pictures (field REC/PB)

**Access Time:**
- 30 ms (to the next track) to 1.5 sec. (from the first track to the fiftieth track)

**External Control:**
- RS-232C (D-sub 25-pin female) for computer control
- TC SYNC (Mini-jack) for tape recorder control, 1 kHz/0.5 sec. to the next track, 1 kHz/2.5 sec. to outermost picture track
- REMOTE (6-pin mini DIN) for RM-C540 FOOT SW (Mini-jack) for FS-20 EXT. CONT. OUT (Mini-jack) for MPU-F100

**Power Requirements:**
- AC120V, 60 Hz

**Power Consumption:**
- Approx. 32W

**Dimensions (WHD):**
- 424 x 97 x 455mm
  - (16½" x 3½" x 18")

**Weight:**
- 19 lb. 13 oz. (8.7 kg.)

**Operating Temperature:**
- 5°C to 35°C (41°F to 95°F)

**Storage Temperature:**
- –20°C to 60°C (–4°F to 140°F)
### Video

**Signal:** EIA standard, NTSC color

**Horizontal Resolution:**
- 500 TV lines (Hi-band)
- 360 TV lines (normal band)

**S/N Ratio:**
- 45 dB (luminance)
- 46 dB (chrominance)

**Input:**
- Composite (BNC x 1): 1.0Vp-p, 75Ω, unbalanced, sync negative
- Y/C (DIN 4-pin S type): Y: 1.0Vp-p, 75Ω, unbalanced, sync negative
- C: 0.286Vp-p, 75Ω, unbalanced
- RGB (BNC x 3): 0.7Vp-p, 75Ω, unbalanced
- Sync (BNC x 1): 0.2~4.0Vp-p, 75Ω, unbalanced, negative

**Output:**
- Composite (BNC x 1): 1.0Vp-p, 75Ω, unbalanced, sync negative, Y/C (DIN 4-pin S type): Y: 1.0Vp-p, 75Ω, unbalanced, sync negative
- C: 0.286Vp-p, 75Ω, unbalanced
- RGB (BNC x 3): 0.7Vp-p, 75Ω, unbalanced
- Sync (BNC x 1): 4.0Vp-p, 75Ω, unbalanced, negative

**DUB (D-sub 15-pin) for video/audio dubbing**

### Audio

**Input:**
- LINE (phone): ~10 dBs, more than 47 kΩ
- MIC for microphone: ~55 dBs

**Output:**
- LINE (phone): ~10 dBs

---

### MVR-5400

**Still Video Recorder/Player**

- High quality picture due to the adoption of the Hi-band format
- Offers 500 TV lines of horizontal resolution
- Both Hi-band and normal band recording/playback capabilities
- A maximum of 25 frame or 50 field pictures or any combination of the two can be recorded on a single video floppy disk
- Audio recording capability
- Multiple inputs/outputs
- Quick random access of 1.5 seconds or less
- Remote control operation using optional RM-C540 or RM-C30
- Cue tone control through the TC SYNC connector
- 11 digits of ID number recording with the aid of RM-C540
- On-screen display
- Superior quality dubbing via DUB IN and OUT connectors
- 19-inch EIA standard rack mountable with the optional RMM-57K
- Time base corrector interface and external SYNC In

### Supplied Accessories:

- AC Power Cord
- AC Cord Holder
- Operation Manual

### Optional Accessories:

- MP-50 Still Video Disk
- RM-C540 Remote Control Unit
- RM-C30 Remote Control Unit
- FS-20 Foot Switch
- RMM-57K Rack Mount Kit (19-inch)
- VDC-54 Dubbing Cable (2m)
- MP-5CL Cleaning Disk

**MVP-660**

**Portable Still Video Player**
- High quality picture due to the adoption of the Hi-band format
- Hi-band/normal band selectable
- Compact size and easy to operate
- AC (ACP-150 AC pack, battery charger)/DC (NP-1B) operation capabilities
- Audio playback capability (9.6 sec. per track)
- Shuttle dial for easy picture search operation
- Automatic playback operation
- Erase function
- External computer control capabilities through the RS-232C
- Cue tone control through the TC SYNC connector
- Wired remote control capability with the RM-52

**Optional Accessories:**
- ACP-150 AC Pack/Battery Charger
- NP-1A Battery Pack
- BC-1WA Battery Charger
- RM-52 Remote Control Unit
- SMK-0002 Color Monitor Cable (D sub 25-pin-D sub 25-pin)
- SMF-506 Color Monitor Cable (D sub 25-pin-BNC x 4)
- VDC-52 Dubbing Cable
- MP-50 Still Video Disk
- FED-0002 RGB and Audio 25-pin Connector Cable
- MP-5CCL Cleaning Desk
- MVM-660 Interface Manual for MVP-660

**Specifications**
- **Playback Format:** Still Video Floppy
- **Video:**
  - Luminance: FM recording
  - Chrominance: R-Y, B-Y Differential Color Line
  - Sequential FM recording
- **Audio:**
  - Time compressed FM recording (9.6 sec./track)
- **Playback Capacity:**
  - Frame pictures: 25
  - Field pictures: 50
  - Frame picture with audio recording: 16 pictures
  - Field picture with audio recording: 25 pictures
- **Playback Mode:**
  - Hi-band/normal band automatic detection
  - Frame/Field automatic detection
- **Horizontal Resolution:**
  - 500 lines (Hi-band)
  - 360 lines (normal band)
- **S/N Ratio:**
  - Luminance: 45 dB, Chrominance: 46 dB
  - TC Sync: 1 kHz/0.3 sec., to the next track, 1 kHz/2.5 sec. to the outer most track, mini jack
  - RS-232C: D-SUB 25-pin (with a baud rate selector: 1200/2400/4800/9600 bps)
- **Remote Control:**
  - D-SUB 9-pin (for RM-52)
- **Output:**
  - Video: Composite NTSC: 1Vp-p 75Ω, unbalanced, sync negative, BNC
  - Analog RGB: 0.7Vp-p, Sync 1.1Vp-p, D-SUB 25-pin
  - Component (Y/R-Y/B-Y): Multi-connector 16-pin, 1.0Vp-p (luminance), 0.7Vp-p (R-Y/B-Y), 75Ω, unbalanced
  - S VIDE0 Out: 4-pin DIN Y: 1Vp-p, 75Ω unbalanced, Sync negative
  - C: 0.28Vp-p, 75Ω unbalanced
  - Audio: Line: -10 dBs (less than 10 kΩ), pin jack

**Playback Mode:**
- 1. Picture by picture via the dial (8 pictures/rotation)
- 2. Auto play mode
- 3. Power on auto play mode

**Erasure:**
- All erase/one picture erase/Audio erase

**Power Requirements:**
- AC power adaptor usable (ACP-150)
- DC 12V ± 0.5V (DIN 5-pin)
- Rechargeable battery (NP-1A)
- (1 consecutive hour playback with the NP-1A)

**Power Consumption:**
- 14W (playback mode)

**Operating Temperature:**
- 10°C to 40°C (50°F to 104°F)

**Storage Temperature:**
- -20°C to 60°C (-4°F to 140°F)

**Dimensions (WxHxD):**
- 335 x 77 x 230mm (13.2" x 3" x 9.2")

**Weight:**
- 5.3 lb. (2.4 kg.) (without battery)
Frame Synchronizer

Specifications

General
- Power Requirement: 120V AC
- Power Consumption: 35W
- Dimensions (W x H x D): 424 x 54 x 446mm (16 1/4" x 2 1/4" x 17 1/4"
- Weight: 14 lb. 5 oz. (6.5 kg.)
- External Control: RS-232C, D-sub 25-pin female for micro computer control
  - CONTROL 1 (A), D-sub 9-pin male for ProMavica Recorders/Players
  - CONTROL 1 (B), D-sub 9-pin female for RM-52

Video Input
- Composite Video: 1.0Vp-p, 75Ω (BNC), with loop-through
- S Video: Y: 1.0Vp-p, 75Ω
- C: 0.28Vp-p, 75Ω (DIN 4-pin)
- R, G, B: 0.7Vp-p, 75Ω (BNC x 3)*
- Sync: 1.0-4.0Vp-p, 75Ω (BNC)
- Y/R-Y/B-Y: 0.7Vp-p, 75Ω (BNC x 3)*
- Y/R-Y/B-Y: 0.7Vp-p, 75Ω (BNC x 3)*
- *RGB or Y/R-Y/B-Y is selectable
- Reference Video: 1.0Vp-p, 75Ω (composite video black burst signal, with loop-through)

Video Output
- Composite Video: 1.0Vp-p, 75Ω (BNC), with loop-through
- S Video: Y: 1.0Vp-p, 75Ω
- C: 0.28Vp-p, 75Ω (DIN 4-pin)
- R, G, B: 0.7Vp-p, 75Ω (BNC x 3)*
- Sync: 4.0Vp-p, 75Ω (BNC)
- Y/R-Y/B-Y: 1.0Vp-p, 75Ω
- R-Y: 0.7Vp-p, 75Ω
- B-Y: 0.7Vp-p, 75Ω (BNC x 3)*
- *RGB or Y/R-Y/B-Y is selectable
- Memory Input: Odd field, Even field, Frame
- Frame Memory: Y: 1.0Vp-p, 75Ω
- Picture Effects: LAP DISSOLVE (transition time: 1.2 sec.)
  - MOSAIC
  - POSTERIZATION
  - MULTI-PICUTURE (3 x 3)
- Gen Lock: H Phase: -0.5µs to 1 µs
  - SC phase: 0° to 360°

Supplied Accessories:
- AC Power Cable
- Operation Manual
- Interface Manual

Optional Accessory:
- IFC-100 Interface Cable (2m)
UY-T55V

Color Video Scanner

- High speed scanning of approx. 7 sec. per image (normal color mode, A4 size)
- High quality video images: horizontal resolution of more than 500 TV lines, 256 gradations/each color of R, G, B
- No image distortion for whole area of the image using CCD technology
- Multiple outputs of RGB video signal output, Y/C separate output, and composite video output
- Trimming function
- Title superimpose function
- Scroll and pointer functions for presentation
- Various color adjustment functions (color, contrast, brightness, and sharpness)
- External sync in/out connectors for sync lock with other video equipment
- Transportable (compact and light weight)

Supplied Accessories:
AC Power Cord
Operating Instructions
Carrying Case

Specifications

General
- Scanning System: Flat-bed, linear CCD sensor one pass scanning
- Input Media: Sheet, card, book
- Maximum Scanning Area: 212 x 283mm (8 3/4" x 11 1/4")
- Sensor: Linear CCD sensor (8 dots/mm: 1,728 dots)
- Light Source: Red LED, green LED, blue fluorescent lamp
- Gradations: 256 gradations/each color (R, G, B 3-channel)
- Scanning Time: Approx. 7 sec. (normal color mode)
- Trimming: 12 trimming levels, free positioning
- Picture Memory (HV): 768 x 512 x 8 bits x 3 colors for image—Effective image area: 700 x 430
  768 x 512 x 4 bits for superimpose—Effective image area: 700 x 430
- Pointer: 2 pointers selectable (8 colors/pointer)
- Scanning Mode: NORM/FINE/B&W/TITLE
- Color Adjustment: COLOR/CONTRAST/BRIGHTNESS/SHARPNESS RED/BLUE (on rear panel)
- Dimensions (WHD): 328 x 121 x 507mm (13" x 4 3/4" x 20"")
- Weight: Approx. 19.1 lb. (8.7 kg.)
- Power Requirements: AC 120V, 50/60 Hz
- Power Consumption: Approx. 45W

Video
- Video Format: EIA standard, NTSC (H: 15.73 kHz, V: 59.940 Hz, interlaced)
- Resolution: 500 TV lines
- RGB Analog: BNC x 4 (R/G/B/SYNC)
  R/G/B: 0.7Vp-p, 75Ω, unbalanced
  SYNC: 1.0Vp-p, 75Ω, unbalanced, negative
- Y/C Separate: Multi-connector (4-pin), Y: 1.0Vp-p, C (burst level): 9.29Vp-p
- Composite: BNC x 1: 1.0Vp-p, 75Ω, unbalanced, sync negative

Sync Lock
- Ext. Sync In: BNC x 1: 1.0 ~ 4.0Vp-p, 75Ω, unbalanced, negative
- Ext. Sync Out: BNC x 1: Loop-through
UP-2200

Color Video Printer

- Superb print quality using RGB full frame memory
- Input video signal digitally processed in 8-bit/256 gradations
- More than 500 TV lines of resolution
- A6 print size (5½" x 4") can be printed out in approx. 67 seconds
- Accepts Y/C and composite input through S-video and (DIN 4-pin) BNC connectors
- Multiple print modes including: 4 or 16 Split Memory Print; 4 or 16 Multi Picture Print; Composite Print; 4 or 16 Strobe Image Print; Caption Setting
- Menu options include: print quantity, date, title or caption, print mode selection and picture adjustment
- Front access for print paper and ribbon
- Supplied wireless remote control

Supplied Accessories:
- RMT-7 Remote Control Unit
- UM-3 Battery (2)
- VPM-30STA Standard Printing Pack
- Paper Tray
- AC Power Cable
- Operation Manual

Optional Accessories:
- VPM-30STA Color Printing Pack
- VPM-90STA Color Printing Pack
- VPM-30WSA Sticker Printing Pack
- PAF-A6 Original Album

Specifications

- Printing Method: Dye transfer sublimation printing (Yellow/Magenta/Cyan three channels)
- Thermal Head: 512 elements (6 dots/mm)
- Printing Paper Size: 102 x 75 mm (4½" x 3")
- Picture Elements: 708(H) x 448(V)
- Gradations: 256 levels process (Yellow, Magenta, Cyan) over 16.7 million colors per pixel
- Picture Memory: One frame memory (8 bits x RGB three color process)
- Printing Time: Approx. 67 sec.
- Inputs: Y/C separate (4-pin S terminal x 2)
  - Y: 1.0Vp-p, sync negative, 75Ω, unbalanced
  - C: 0.286Vp-p, 75Ω, unbalanced
  - Composite video (BNC x 1, Phono x 1)
    - EIA/NTSC 1.0Vp-p, sync negative, 75Ω, unbalanced
- Power Requirements: AC-120V, 60 Hz
- Power Consumption: 120W (during printing)
  - 20W (during stand-by)
- Dimensions (WHD): 430 x 109 x 375mm (17" x 4½" x 14½")
- Weight: 18 lb. 4 oz. (8.3 kg.) (approx.)
- Safety Standard: UL-1409
UP-2200R

Color Video Printer

- Color video printer ideally suited for producing a variety of novelty goods including: Buttons, Mugs, Photo Key Chains, T-shirts, etc. When set in “Mirror” mode the image acquired is reversed and then output using optional transfer media (10UPC-3050). Using the RGB full frame memory, up to 330,000 effective pixels with an image size of 708(H) x 448(V) can be printed. Natural photographic quality outputs 16.7 million full color variations on A6 size media. Up to 30 consecutive prints of the same picture are possible. Menu options can be accessed by the control keys on the unit’s front panel. Functions include Print Quantity, Date, Title or Caption Input, Print Mode Selection, Picture Adjustment (RED, GREEN, BLUE, BRIGHT and SHARP). Print paper and ribbon cassette can be easily loaded from the front panel.

Supplied Accessories:
Paper Tray
AC Power Cable
Operation Manual

Optional Accessories:
10UPC-3050 Color Transfer Printing Pack

Specifications

- Printing Method: Dye transfer sublimination printing (Yellow/Magenta/Cyan, 3 channels)
- Thermal Head: 512 elements (8 dots/mm)
- Printing Paper size: A6 size
- Picture Size: 140 x 100mm (5½" x 4")
- Picture Elements: 708(H) x 448(V)
- Gradients: 256 levels process (Yellow, Magenta, Cyan) over 16.7 million colors per pixel
- Picture Memory: 24 bits, one frame memory
- Printing Time: 67 seconds (approx.)
- Inputs: Y/C separate (4-pin S terminal x 2)
  - Y: 1.0Vp-p, sync negative, 75Ω, unbalanced
  - C: 0.286Vp-p, 75Ω unbalanced
  - Composite video (BNC x 1, phono x 1)
    - EIA/NTSC 1.0Vp-p, sync negative, 75Ω, unbalanced
- Outputs: Y/C separate (4-pin S terminal x 1)
  - Y: 1.0Vp-p, sync negative, 75Ω, unbalanced
  - C: 0.286Vp-p, 75Ω unbalanced
  - Composite video (BNC x 1)
    - EIA/NTSC 1.0Vp-p, sync negative, 75Ω, unbalanced
- Power Requirements: AC-120V, 60 Hz
- Power Consumption: 120W (during printing)
  20W (during stand-by)
- Dimensions (WHD): 420 x 109 x 375mm
  (17" x 4½" x 14½")
- Weight: 18 lb. 4 oz. (8.3 kg.) (approx.)
- Safety Standard: UL-1409
UP-3000

Color Video Printer

- Single frame memory
- High quality prints with 8-bit/256 gradations, and over 16 million colors per pixel
- More than 500 TV lines of horizontal resolution
- A6 size print, 140 x 100mm (5½" x 4") in approx. 80 seconds
- Easy-to-use operation with function menu display on the monitor
- Front access operations
- Remote control function by an optional foot switch FS-20 or an external computer via an RS-232C interface
- Multiple video inputs: Analog RGB, Y/C and composite video
- Various print modes such as four split memory print mode, composite print mode, 25 multi picture print mode, mirror print mode, wide scan mode and caption setting
- Alarm display for easy maintenance

Supplied Accessories:
- Remote Control Unit
- Two "AA" Batteries (IEC Designation R6) For Remote Control Unit
- Remote Control Cable (5m)
- Operation Manual
- AC Power Cable

Optional Accessories:
- UPC-3010 Color Printing Pack
- UPC-3020 Black & White Printing Pack
- FS-20 Foot Switch
- RM-81 Remote Commander
- SMF-1015 Cross Cable for RS-232C
- UPM-3000 Interface Manual

Specifications

- Printing Method: Dye transfer sublimation thermal printing
- Thermal Head: 512 elements (512 x 2 dot drive, 6 dots/mm)
- Printing Paper Size:
  - Normal Scan Mode: 103 x 78mm (4½" x 3½")
  - Wide Scan Mode: 108 x 82mm (4¼" x 3¼")
- Picture Size:
  - Normal Scan Mode: 716 x 468 dots
  - Wide Scan Mode: 750 x 490 dots
- Gradations: 256 levels process (yellow, magenta, cyan)
- Picture Memory: One frame (R, G, B, three channels)
- Printing Time: Approx. 80 sec.
- Input Terminal:
  - RGB analog (BNC x 4, R, G, B, Sync)
  - Sync: 0.7Vp-p, 75Ω, unbalanced
  - Y/C separate (4-pin S terminal)
  - Y: 0.7Vp-p, sync negative, 75Ω, unbalanced
  - C: 0.286Vp-p, 75Ω, unbalanced
  - Composite video (BNC x 1)
  - EIA/NTSC 1.0Vp-p, sync negative, 75Ω, unbalanced

Output Terminal:
- (Monitor out)
  - RGB analog (BNC x 4, R, G, B, Sync)
  - RGB: 0.7Vp-p, 75Ω, unbalanced
  - Sync: 1.1Vp-p, negative, 75Ω, unbalanced
  - Y/C separate (4-pin S terminal)
  - Y: 1.0Vp-p, sync negative, 75Ω, unbalanced
  - C: 0.286Vp-p, 75Ω, unbalanced
  - Composite video (BNC x 1)
  - EIA/NTSC 1.0Vp-p, sync negative, 75Ω, unbalanced

Remote Terminal:
- Remote (for the optional foot switch FS-20):
  - stereo mini jack
- Optional foot switch jack: stereo mini
- RS-232C: D-sub 25-pin

Power Requirements:
- AC 120V, 50/60 Hz
- Power Consumption:
  - 140W max. (during printing),
  - 50W max. (during stand-by)

Dimensions (WHD):
- 430 x 125 x 435mm
  - (17" x 5" x 17½")

Weight:
- 22 lb. (10 kg.)

D-10
UP-5100

Color Video Printer

- Single frame memory
- High quality pictures: more than 500 TV lines of horizontal resolution, 720(H) x 468(V) dots in normal mode
- 8 bit/256 gradations
- OHP print capability
- A5 size print in approx. 60 seconds
- Easy to use operation menu displayed on the unit's LCD panel or a connected monitor
- Wireless or wired remote control operation
- Multiple video inputs of RGB, Y/R-Y/B-Y, Y/C and composite EIA/NTSC inputs
- Multiple print mode and caption setting capable

Supplied Accessories:
Remote Control Unit (with battery)
Cable for Remote Control Unit (5m)
UPC-5010A Color Printing Pack
AC Power Cord
Operation Manual

Optional Accessories:
UPC-5010A Color Printing Pack
UPC-5020A Black and White Print Pack
UPC-5030 OHP Transparency Printing Pack
FS-20 Foot Switch
RM-81 Remote Commander
UPM-5000 Interface Manual
SMF-1015 RS-232-C Cross Cable
FED-0002 RGB and Audio 25-pin Connector Cable
SMF-506 RGB Video Cable (25-pin-BNC)

UP-7000

Color Video Printer

- High Quality Full Color Pictures
- Signal processed digitally in the unit's frame memory in 8-bit/256 gradations
- Over 16 million colors per pixel
- Thermal head, with 1120 dots of picture elements, provides resolution of 5.6 dots/mm
- OHP Print Capability: the images can also be printed out on OHP transparency material for effective business presentations
- Prints a full color image on letter size paper in approx. 140 seconds and a black and white image in approx. 60 seconds
- Multiscan Capability accepts a wide range of signal frequencies, from 15.75 kHz (525 line system) to 35.5 kHz horizontal frequency
- Optional cables facilitate the connection to IBM PS/2*/1/Apple Macintosh*/2 II series computer
- Accepts NTSC composite video, Y/C and RGB analog (high scan/525 line scan) signal inputs
- Menu operation displayed on the printer's LCD (liquid crystal display) and on the monitor
- Caption setting for up to 50 alphanumeric characters
- Up to 20 copies of the same image can be continuously printed
- Multi-picture capability with four frame memories
- Remote control operation

Control Terminal: RS-232C (D-sub 25-pin)
Remote control jack (special mini)
Foot switch jack (stereo mini)

Power Requirement: 120V AC, 50/60 Hz
Operating Voltage: 85V–138V AC
Power Consumption: 270W
Dimensions (WHD): 424 x 177 x 490mm
(16¾" x 7" x 19¾")
Weight: 44 lb. 1 oz. (20 kg.)
UP-D7000

Digital Color Printer

- State-of-the-art "dye transfer sublimation thermal printing"  
- Component dye colors (yellow, magenta and cyan) provide 256 gradations, for over 16 million colors  
- Thermal head with 1280 elements reproduces high quality output  
- Prints a full color image on letter size paper and transparency material in approx. 140 seconds, and black and white in approx. 60 seconds  
- SCSI interface to directly connect to a number of computers and networks  
- Digital processing assures optimum image quality  
- High data transmission speed (1.5 Mbyte/sec.)  
- Cascade connection of up to seven printers from the source signal  
- Versatile print control menu  
- Print quantity (Max. 20 copies)  
- Color adjustment of red, green, blue, dark and light, even after capturing the image in the built-in frame memory  
- Fine adjustment of aspect ratio (± 20mm longitudinally)  
- Print area assignment (the image can be printed out in a selected area of the paper)  
- Data transmission method (Dot sequential or plane sequential)

Supplied Accessories:
- Ink Ribbon Holder (Color/Black & White/OHP) (x 3)  
- Paper Tray  
- Paper Cover  
- SCSI Terminator  
- AC Power Cord  
- Operating Instructions

Optional Accessories:
- UPC-7011 Color Print Pack  
- UPC-7021 Black & White Print Pack  
- UPC-7031 OHP Print Pack  
- (100 sheets of print paper and 1 roll of ink ribbon)  
- (100 sheets of print paper and 1 roll of ink ribbon)  
- (100 sheets of transparency paper and 1 roll of ink ribbon)

Specifications

- Printing Method: Dye transfer sublimation thermal printing  
- Thermal Head: 1280 elements  
- Resolution: 163 dpi, 6.4 dots/mm  
- Paper Size: 216 x 279mm (8½" x 11") (letter)  
- Picture Elements: 1478 x 1280 dots (letter)  
- Picture Size: Max. 231 x 200mm (9½" x 7½")  
- Print Media: Ribbon: Color, black & white paper and transparency  
- Gradation: 256 gradations for yellow, magenta and cyan  
- (16.7 million colors per dot)  
- Picture Memory: 2040 x 1536 x 8 x 3 bits (RGB three channels)  
- Printing Time: Approx. 140 sec. for color, and approx. 60 sec. for black & white  
- Interface: SCSI 1 channel (amphenol 50 pin), unbalanced, data transfer speed approx. 1.5 Mbyte/sec. (asynchronous), accepts both dot sequential and plane sequential transmission

- Power Requirement: AC 120V, 50/60 Hz  
- Power Consumption: Max. 240W  
- Dimensions (WHD): 424 x 177 x 490mm  
- (16½" x 7" x 19½")  
- Weight: Approx. 44 lbs. (20 kg.)
UP-D860
Digital Graphic Printer

- High quality pictures with a fast print speed
- Compact and lightweight
- Digital interface
- Print mode selections
- Printing paper selectable
- Selectable gamma levels
- Printing pixel aspect ratio
- Positive/negative printing selectable
- Normal/reverse direction selectable
- User-friendly operation
- Easy paper loading
- Alarm buzzer/indicator
- Thermal head protection

Supplied Accessories:
- AC Power Cable
- UPP-110HD Paper Roll
- Head Cleaning Sheet
- Operation Manual

Optional Accessories:
- UPP-110S Printing Paper Type I (110mm x 20m)
- UPP-110HD High Density Printing Paper Type II (110mm x 20m)

Specifications

- Thermal Head: Thin film thermal head 896 dots drive
- Gradation: 64 gray levels (6-bit internal process, without dithering)
- Memory Configuration:

Printed Picture Size: 100.3(H) x 69(V)mm (4" x 2¾")
Printing Speed: 4.0 sec./print (approx.)
Picture Elements: 896(H) x 612(V) dots
Dot Density:
H: 896/100.3 = 8.9 dots/mm
V: 612/69 = 8.9 dots/mm
Interface Connector: Centronics standard, 8-bit parallel, TTL level, 36-pin Amphenor type (x 1)
Power Requirements: AC-120V, 50 Hz/60 Hz
Power Consumption: Max. 1.8A
Dimensions (WHD): 154 x 106 x 300mm (6½" x 4½" x 11½")
Weight: 7 lb. 15 oz. (3.6kg.) (approx.)
Safety Regulations: UL-1950, CSA-C22.2 No. 950
UP-860

Monochrome Video Graphic Printer

- Thermal video graphic printer with 256 steps of gradation
- Small size and lightweight
- Fast printing speed of less than four seconds
- High resolution printing of 896 x 508 dots (in Wide 2 scan mode)
- Wide scanning function (Normal/Wide 1/Wide 2 selectable)
- Multiple copy function
- Economy print mode offers maximum 270 prints from one paper roll (230 prints in normal print mode)
- Frame/Field memory selectable
- 4:3/1:1 aspect ratio selectable
- Positive/negative printing
- Normal/reverse direction printing

Supplied Accessories:
- AC Power Cord
- BNC Cable (1.5m)
- UPP-110HD Printing Paper Roll
- Head Cleaning Sheet
- Operation Manual

Optional Accessories:
- UPP-110S Printing Paper (Type I)
- UPP-110HD High Density Printing Paper (Type II)
- FS-20 Foot Switch
- RM-91 Remote Commander
- MB-860 Rack Adaptor for use with MB-920 for mounting one UP-860 and one SSM-920 in a 19" rack space

Specifications

- Thermal Head: Thin-film thermal head (with built-in drive IC)
- Gradations: 256 gray levels (quasi)
- Print Size: EIA
  (at aspect ratio 4:3):
  - Normal: 90 x 69mm (3¾" x 2½")
  - Wide 1: 95 x 72mm (3¾" x 2¾")
  - Wide 2: 100 x 74mm (4" x 3")
- CCIR
  - Normal: 90 x 68mm (3¾" x 2⅛")
  - Wide 1: 95 x 71mm (3¾" x 2⅛")
  - Wide 2: 100 x 74mm (4" x 3")
- Effective Pixels: EIA
  - Normal: 808 dots x 472 lines
  - Wide 1: 848 dots x 490 lines
  - Wide 2: 896 dots x 508 lines
  - CCIR
    - Normal: 808 dots x 560 lines
    - Wide 1: 848 dots x 582 lines
    - Wide 2: 896 dots x 608 lines
- Printing Speed: Less than four seconds/screen
  (at aspect ratio 4:3)
- Picture Memory: 6 bit (3.36 Mbit)
- Input/Output: Video IN (BNC): EIA or CCIR composite video signal 1.0Vp-p, 75Ω, high impedance switchable
  Video OUT (BNC): Loop-through or E.E. switchable
- Remote: Stereo mini jack for the optional foot switch FS-20
- Power Requirements: AC120V, 50/60 Hz
- Dimensions (WHD): 154 x 106 x 300mm
  (6½" x 4¼" x 11¾")
- Weight: 7 lb. 15 oz. (3.6 kg.)
UP-910
Monochrome Video Graphic Printer
- Large print size (182 x 140mm in normal scan mode, 200 x 150mm in wide 2 scan mode, at aspect ratio 4:3)
- High quality printing with a horizontal resolution of 768 dots and 128 gradations of gray level
- High speed printing (approx. 20 seconds)
- Frame/Field memory selectable
- Printing direction selectable: Normal/Reverse
- Normal/Wide scan selectable
- 4:3/1:1 aspect ratio selectable
- EIA/CCIR automatic selection
- Multiple copy function by pressing the "COPY" button
- Safety regulations (UL-544, CSA C 22.2 No. 220 and No. 125 approved)

Supplied Accessories:
- AC Power Cord
- UP-216HD Paper Roll
- Paper Shaft
- Head Cleaning Sheet
- BNC-BNC Connecting Cable (1.5m)

Optional Accessories:
- FS-20 Foot Switch
- RM-81 Remote Commander
- UPP-216HD High Density Paper (Type II)
- UPP-216SE Normal Density Paper (Type II)

Specifications
- Printing Method: Direct thermal printing
- Thermal Head: Thin-film thermal head (with built-in drive IC)
- Print Size
  - (at aspect ratio 4:3): EIA/CCIR
    - Normal: 182 x 140mm (7/4" x 5/4"
    - Wide 1: 192 x 146mm (73/4" x 5/4"
    - Wide 2: 200 x 150mm (77/8" x 6"
  - EIA
    - Normal: 700 dots x 472 lines
    - Wide 1: 736 dots x 490 lines
    - Wide 2: 768 dots x 508 lines
  - CCIR
    - Normal: 700 dots x 560 lines
    - Wide 1: 736 dots x 582 lines
    - Wide 2: 768 dots x 608 lines
- Picture Elements

    - Normal: 700 dots x 472 lines
    - Wide 1: 736 dots x 490 lines
    - Wide 2: 768 dots x 508 lines
    - CCIR
    - Normal: 700 dots x 560 lines
    - Wide 1: 736 dots x 582 lines
    - Wide 2: 768 dots x 608 lines
- Gradations: 128 (black & white)
- Picture Memory: One frame (600k x 6 bit)
- Printing Time: Approx. 20 sec./screen (at aspect ratio 4:3)
- Input/Output: Video IN (BNC)--EIA/NTSC or CCIR/PAL composite: 1.0Vp-p, sync negative, 75Ω, high impedance (switchable)
  - Video OUT (BNC): Loop-through
- Remote Terminal: REMOTE (for the optional foot switch FS-20: Stereo mini jack
- Power Requirements: AC 100-120V, 50/60 Hz
- Power Consumption: Max. 2.5A, 190W
- Dimensions (WHD): 424 x 130 x 380mm
  - (163/8" x 51/8" x 15"
- Weight: Approx. 20 lb. 1 oz. (9.1 kg.)
Monochrome Video Printers

UP-930

Monochrome MultiScan Video Printer

- MultiScan capability (max. scanning rate: approx. 50 kHz)
- Large print size (EIA standard: 1216 dots x 478 lines, 190 x 141mm at normal direction print mode)
- Multiple print modes (up to four split pictures)
- 128 gradations of gray level by 7-bit digital processing
- Two types of input video signals of Composite video (BNC)/RGB analog or TTL (D-sub 15-pin)
- Scan adjust function (Scanning size and aspect ratio)
- Selectable printing direction: Normal/Reverse (180° rotation)/Side (90° rotation)
- Auto paper cut function
- RS-232C interface for external computer control
- Medical safety regulation (UL-544 and FCC class A listed)

Supplied Accessories:
- AC Power Cord
- UPP-216SE Printing Paper
- Paper Shaft
- Head Cleaning Sheet
- BNC-BNC Connecting Cable

Optional Accessories:
- SMF-3005 RGB Cable
- FS-20 Foot Switch
- RM-81 Remote Commander
- UPP-216HD High Density Paper (Type II)
- UPP-216SE Normal Density Paper (Type II)

Specifications

| Printing Method: | Direct thermal printing |
| Thermal Head: | Thin-film thermal head, 1280-dot drive x 2 |
| Picture Size (aspect ratio 4:3): | Normal Direction: (EIA) 190 x 141mm (7 1/4 x 5 1/4") |
| | Side Direction: (EIA) 200 x 149mm (7 3/4 x 5 7/8") |
| Picture Elements: | (EIA) 1216 x 478 dots |
| Gradations: | 128 (black & white) |
| Picture Memory: | 2 MB |
| Printing Time: | Approx. 20 sec./screen (at normal direction) |
| Input Terminal: Video In (BNC) | Composite video signals 1.0Vp-p, 75Ω/high-impedance |
| | RGB In (D-sub, 15pin) Composite sync/Separate Sync/Sync on G, 0.7Vp-p (analog)/5Vp-p (TTL), 75Ω/high-impedance |

| | RGB Out (D-sub, 15-pin) Loop-through |
| Remote Terminal: REMOTE (for the optional foot switch FS-20): stereo mini jack |
| | RS-232C: D-sub 25-pin |
| Sampling Frequency: | Max. 40 MHz |
| Scanning Rate: | Approx. 15 to 50 kHz |
| Power Requirements: AC 100V~120V, 50/60 Hz |
| Power Consumption: | Max. 3.5A |
| Dimensions (WxHxD): | 424 x 130 x 380mm (16 1/4 x 5 1/4 x 15") |
| Weight: | 23 lb. (10.5 kg.) |
DiH-2100
Digital Information Handler

- Superior quality picture transmission (a horizontal resolution of 500 TV lines or 768 x 480 pixels) in seconds
- Can use multiple communication lines such as a conventional analog telephone line, a high-speed digital leased line and the new ISDN
- Magneto-optical disk file via SCSI interface
- Can communicate with the DIH-2000, DIH-2100 and the portable still image transceiver PVT-115
- Audio commentary, characters or handwritten messages can be added using the keyboard or optional writing tablet
- Unattended send and receive function
- Image magnification/reduction, move and trim functions
- Multiple display and send function
- Automatic dial and programmed send function
- Character superimposition on each image
- Security provision

Supplied Accessories:
- AC Power Cable
- Operation Manual

Optional Accessories:
- KI-500 Keyboard
- VTI-T50 Writing Tablet
- RK-835 Connecting Cable (D-sub 15-pin-V.25)
- PCZ-310T Connecting Cable (SCSI, half-pitch-standard pitch)
- SMF-3002 Monitor Cable (D-sub 15-pin-D-sub 25-pin)
- SME-3005 RGB Cable (D-sub 15-pin-BNC x 4)
- SMF-3001 Straight Cable for RS-232C (D-sub 9-pin-D-sub 25-pin)
- SMF-303C Cross Cable for RS-232C (D-sub 9-pin-D-sub 25-pin)
- VDC-52 Dubbing Cable (16-pin-16-pin)

PVT-115

Portable Still Image Transceiver

- Compact size and lightweight: A4 paper size (210 x 60 x 297mm) and 1.8 kg. without batteries
- Superior quality picture transmission (a horizontal resolution of 500 TV lines or 768 x 480 pixels) in seconds
- System-up flexibility with DIH-2100 Digital Information Handler
- Three way power supply (from card batteries, from 120V AC power sources, from NP-55/77H DC batteries)
- Easy transmission using conventional telephone network
- Transmission via public telephone or cellular phone by the SMF-1600 acoustic coupler
- Unattended send and receive function
- Image memory function
- External modem facility
- RS-232C interface for external computer control

Supplied Accessories:
- Shoulder Strap
- Operation Manual
- Power Adaptor

Optional Accessories:
- FDL-X40 LCD Color Monitor
- SMF-1600 Acoustic Coupler
- AC-M55 AC Power Adaptor
- DCP-77 Car Battery Adaptor
- LC-S110 Pliable Bag
- NP-55/77H Rechargeable Battery Pack
- SMF-1600 RGB Cable (D-sub 9-pin–BNC x 4)
- LCP-115 Hard Shell Attach
- SMF-1210 Y/R-Y/B-Y Cable (D-sub 9-pin–16-pin multi)
- SMF-1220 RGB Cable (D-sub 9-pin–D-sub 25-pin)
- SMF-1020 External Modem Cable (Mini D-sub 15-pin–D-sub 25-pin)
- SMF-1025 RS-232C Cable (Mini D-sub 15-pin–D-sub 25-pin)
- SMF-1035 Video Control Cable (Mini D-sub 15-pin–Miniplug)

Specifications

- Picture Elements (HV): 768 x 480
- Horizontal Resolution: 500 TV lines (RGB, Y/R-Y/B-Y input)
- Data Compression Method: JPEG (Joint Photographic Experts Group) standard
- Communication Protocol: "HDLC"
- Data Sampling: 14.3 MHz sampling frequency, 8-bit resolution, Y/R-Y/B-Y, 4:2:2
- Modem: CCITT V.29, V.27ter, V.21
- Control: RS-232C (Mini D-sub 15-pin) for ProMavica, video printer, or VCR
- Connection to Phone Line: Phone line: Modular jack (6 position, 2 conductor type) Acoustic coupler (6-pin mini DIN)
- Video Input: NTSC composite (BNC): 1.0Vp-p, 75Ω Analog RGB (D-sub 9-pin): 0.7Vp-p, 75Ω Y/R-Y/B-Y (D-sub 9-pin) Y: 1.0Vp-p, 75Ω R-Y/B-Y: 0.7Vp-p, 75Ω (75% color bar) S Video (4-pin mini DIN) Y: 1.0Vp-p, 75Ω C: 0.286Vp-p, 75Ω (color burst)

Video Output: NTSC composite (BNC): 1.0Vp-p, 75Ω Analog RGB (D-sub 9-pin): 0.7Vp-p, 75Ω Y/R-Y/B-Y (D-sub 9-pin) Y: 1.0Vp-p, 75Ω R-Y/B-Y: 0.7Vp-p, 75Ω (75% color bar)

Recommended
- External Modem: TELEBIT T-2000, T-2500 Motorola Codex 2286 MICROCOM AX/9624C
- Dimensions (WHD): 210 x 60 x 297mm (8¼" x 2¾" x 11¾")
- Weight: Approx. 1.8 kg. (without battery) Approx. 2.5 kg. (with NP-77H x 2)
- Power Consumption: Max. 12W
- Power Requirement: DC 6V–14V

AC 100V–240V, 50/60 Hz with AC-M55 AC adaptor
Digital Camera System

SEPS-1000™
Digital Studio Camera System

- Includes camera, real-time viewfinder, 13° color monitor calibrated to 5000°K, remote control for aperture, color, and contrast adjustments, 28.4 MHz digital processor, and Adobe Photoshop® plug-in software module
- Interchangeable lenses sold separately
- Three CCDs (1.3 million total elements) separately capture red, green, and blue light
- Separate reference and graphic memories for layout and text overlays
- Built-in strobe, tungsten, and daylight filters
- Built-in strobe synchronization
- 256 gray levels per color (16.7 million colors)
- High resolution images (4.9 Mbyte file)
- Sony HyperHAD™ CCDs with on-chip lens and overflow substrate
- Built-in AC power supply
- SCSI output to Macintosh® computers
- VCT-14 quick mount tripod adaptor
- Sony quality and support

Optional Accessories:
- Wide variety of Canon®, Fujinon®, and Nikon® lenses
- Remote Lens Controls
- Sony Magneto-Optical Disk Drives
- Sony UP-D7000 Digital Dye Sublimation Thermal Color Printer
- High Resolution Viewfinder
- Microscope Adaptor
- RGM-1901 5000°K Color Graphic Monitor
- SCI-537 PAC Camera Control Module
- Cacher™1000 Color Calibration Software from Electronics for Imaging

Specifications

| Image Sensors: | Interline-transfer CCD, 3 chips |
| Optics:        | f1.4 medium index prism system |
| Sensing Area:  | ½" arrays (786 x 582 pixels each) |
| Scan System:   | Frame integration, 10 MHz bandwidth |
| Minimum Illumination: | 13 lux with f1.8, ±18 dB; 7.5 lux with f1.4, ±18 dB |
| Signal-to-Noise: | 60 dB (F8 at 2000 lux) |
| Registration:  | About 400 ASA at 0 dB |
| Distortion:    | Below measurable level |
| Lens Mount:    | 2/3" bayonet mount |
| Viewfinder:    | Monochrome, 400 scan lines |
| Effective Shutter Speed: | Strobe: dependent on exposure time, Tungsten: 1/25 sec. |
| Frame Memory:  | 1536 x 576 x 3 colors x 8 bits  (picture area: 1476 x 576 x 3 x 8) |
| Reference Memory: | 768 x 576 x 3 colors x 8 bits  (picture area: 738 x 576 x 3 x 8) |
| Graphic Memory: | 768 x 576 x 1 bit  (picture area: 738 x 576 x 1) |
| Digital Sampling: | 28.4 MHz bandwidth, 8 bits |
| Digital Interface: | Amphenol 50-pin SCSI  (1.2 MB/sec., unbalanced) |
| Strobe Interface: | X connector |
| Final Resolution: | 1476 x 1108 x 3 colors x 8 bits |
| Dimensions (WHD): | Camera: 7½" x 10¼" x 18½"  Processor: 16¼" x 4¼" x 17½"  Monitor: 15" x 14½" x 16½" |
| Weight: | Camera: 7 lb. 11 oz., Processor: 25 lb. 7 oz., Monitor: 38 lb. 9 oz. |
| Power: | 120V AC, 50/60 Hz, Camera: 11.8W, Processor: 100W, Monitor: 95W |
**FDL-X40**

**LCD Color Monitor**
- High-quality 4-inch color liquid crystal display (LCD)
- Audio playback with built-in speaker
- Built-in fluorescent lamps provide high and equal luminescence, and allows for variable adjustments in brightness
- Four-way AC/DC power capability
- Auto power saving function turns the power off automatically when there is no signal coming into the monitor

**Supplied Accessories:**
- VF-K41 Shading Hood
- AV Connecting Cord
- Instruction Manual
- VCT-K41 Connecting Bounce Shoe

**Optional Accessories:**
- NP-77H Battery Pack
- ACV-55 AC Power Adaptor

LCD Color Monitors

FDL-X600

LCD Color Monitor

- 5.9-inch (visible size) Liquid Crystal Display (LCD)
- Thin Film Transistor Active Matrix LCD panel with 194,040 pixel
- Accepts both NTSC and PAL signals
- DC operation capability
- Switchable to B/W mode
- Color temperature switch selectable; 5000°K/6500°K/9300°K
- Automatic detection of EXT SYNC and SYNC ON GREEN
- Multiple input facilities
- Built-in monaural speaker

Supplied Accessories:
- Detachable Hood
- Carrying Belt

Optional Accessories:
- AC-S10, AC-V55 AC Power Adaptor
- DCP-77 Car Battery Adaptor
- Rechargeable Battery Pack
- NP-55H/66H/77H/77HD
- EBP-77 Battery Case

Specifications

General
- System: 525 lines, 60 fields/625 lines, 50 fields
- NTSC and PAL automatically selected
- LCD Panel: TN (Twisted Nematic) full color with Anti-Reflection Glass Panel
- Drive Method: a-Si TFT (Thin Film Transistor) Active Matrix, Normally White, Non-Interface, line order scan (NTSC) with line skip (PAL)
- Picture Size: Visible picture size 5.9" (14.9cm) measured diagonally
- Dots, Pixels: Dot pitch: 404 μm (V) x 405 μm (H); 135 μm for each pixel
- Pixel number: 220 (V) x 882 (H) = 194,040
- RGB delta arrangement
- Color Temperature: 9300K or 6500K or 5000K switchable
- Horizontal Resolution: Composite video input, 330 TV lines
- RGB input, 294 dots
- Speaker: 0.15W monaural
- 0.28mm Round x 1
- Power Requirements: DC-6V–9V
- Power Consumption: 12W (approx.)
- Dimensions (WHD): 216 x 132 x 82.4mm (8¾" x 5¼" x 3¼")
- (including projecting parts and controls)
- Weight: 2 lb. 10 oz. (1.2 kg.) (approx.)

Input/Output
- Video Inputs: Composite video
  Line A/B; Loop-through BNC
  Y/C; Mini-DIN 4-pin
  RGB Input (Analog); D-sub 9-pin
- Audio Inputs: Composite video
  Line A/B; Loop-through phono
  Y/C; Phono
  RGB; Phono
- Headphone Output: 0.35 Stereo mini jack (Audio monaural)
PVM-8040
8-Inch Portable Color Video Monitor
- Beam current feedback for stable color reproduction over a long period of time
- Heavy duty construction with metal cabinet to minimize electromagnetic interference between adjacent monitors
- Built-in speaker
- 19-inch EIA standard rack mountable

Optional Accessories:
MB-504 rack mount for two PVM8040 monitors in a 19" rack

Specifications
- Video Signal System: EIA Standard, NTSC Color
- Picture Tube: 8" Trinitron® measured diagonally, 70° deflection
- Video Input: BNC type, 1Vp-p ± 6 dB composite, 75Ω, sync negative
- Video Output: BNC-type, 1Vp-p ± 6 dB composite, sync negative
- Horizontal Resolution: > 250 lines
- Power Requirements: AC-120V 60 Hz
- Power Consumption: AC-49W
- Operating Temperature: -10°C to 40°C (14°F to 104°F)
- Storage Temperature: -10°C to 149°C (14°F to 149°F)
- Dimensions (WHD): 216 x 217 x 351 mm
- Rack Mount: Optional MB-507 for two monitors, MB-509 blank panel for mounting one PVM-8040
- Weight: 16 lbs. 8 oz. (7.5 kg.)

PVM-8044Q
Super Fine Pitch, Rack-Mount Type Monitor for Studio Use
- High resolution 8-inch Trinitron CRT provides 450 TV lines horizontal resolution
- Beam current feedback for stable color reproduction and comb filter for improved luminance/chrominance separation
- 8-inch Trinitron CRT
- Component input (Y/R-Y/B-Y or RGB), Y/C input and composite inputs for convenience and versatility
- Pulse cross and Blue only modes
- AC or DC powered for field operation
- Accepts external sync and sync on green signal of an RGB input
- 19-inch EIA standard rack mountable
- Compatible with NTSC, PAL, SECAM and NTSC4.43
14" PVM-1341
High Cost Performance Color Monitor
- A variety of input facilities
- Beam current feedback circuit for stable color reproduction
- 6500°K/9300°K color temperature selection switch
- Comb filter for NTSC
- Accepts Analog/Digital RGB signals
- H/V delay and Normal scan/Underscan selection
- Blue only mode
- Accepts an external sync
- Mountable into a 19-inch EIA standard rack with optional MB-502A and SLR-102

Optional Accessories:
- Monitor Connecting VCM Cable
- MB-502A Mounting Bracket
- SLR-102 Slide Rail Kit
**Color Monitors**

**PVM-1344Q**

**Super Fine Pitch, SMPTE C Phosphors, for Studio Use**

- High resolution of 600 TV lines at center
- Adoption of SMPTE C phosphors for monitor matching
- Beam current feedback circuit for stable color reproduction
- Accepts three TV system standards: NTSC and modified 4.43 MHz NTSC; PAL; SECAM
- Component (Y/R-Y/B-Y) or RGB input facility
- 6500K/9300K color temperature selection switch
- Comb filter for NTSC H/V delay and Normal scan/Underscan selection
- Blue only mode
- User preset function
- Accepts an external sync and sync on Green
- Built-in speaker for Audio monitoring
- Two composite line inputs and one S-video input
- Mountable into a 19-inch EIA standard rack with optional MB-502A and SLR-102

**Optional Accessories:**
- Monitor Connecting VMC Cable
- MB-502A Mounting Bracket
- SLR-102 Slide Rail Kit

Color Monitors

13" GVM-1311Q/5K
(NTSC/PAL/SECAM/NTSC4.43)
- Multiple input facility with audio
- Multiscan capability; horizontal 15 kHz–36 kHz, vertical 50 Hz–100 Hz
- A high resolution of 600 TV lines/1024 x 768 pixels
- Can be used with IBM PC with CGA/EGA card, IBM PS/2, and Apple Macintosh II color mode
- 8/16/64-color and monochrome display capability
- VGA Audiosize function in RGB A mode
- Horizontal and vertical size/shift controls in RGB mode
- Slot type RGB input for future I/F board
- Sub picture control for RGB mode
- Built-in speaker and earphone jacks for audio monitoring
- Minimizes VLF (Very Low Frequency)/ELF (Extreme Low Frequency) interference

Optional Accessories:
RM-787 Wired Remote Control Unit
SU-552 Tilt Swivel Stand

GVM-2020
Color Monitor for a Variety of Sources
- Multiple input facility with audio
- Multiscan capability; horizontal 15 kHz to 36 kHz, vertical 50 Hz to 100 Hz
- A high resolution of 560 TV lines/720 x 480 pixels
- Beam current feedback circuit for stable color reproduction
- Can be used with IBM PC with CGA/EGA display adapter, IBM PS/2
- 8/16/64-color display capability
- Horizontal shift and Horizontal/Vertical size controls in RGB mode
- Slot type RGB input modules for future I/F board
- Optional wireless remote control unit RM-787

Optional Accessories:
RM-787 Wired Remote Control Unit
RGM-1901

Trinitron® Color Graphic Monitor

- Excellent color reproduction
- Specially selected Trinitron CRT is employed for excellent color uniformity
- SMPTE Type C color phosphors provide wide color dynamic range
- Color temperature of 5000°K provides natural color reproduction
- High resolution display of 1024(H) x 768(V) dots reproduces fine graphic images
- Color Temperature Stability
- Can drive any high resolution 24-bit color graphics card with a vertical refresh rate of 75 Hz
- Flat screen provides minimum distortion even in the corners
- Easy operation with optional tilt/swivel display stand

Supplied Accessories:
- Operation Manual
- Power Cable

Optional Accessories:
- SU-536 Display Stand

### HDC-500

**High Definition Color Camera**

- Highest quality 2 million pixel FIT CCD pickup device camera with the Hyper "HAD" (Hold Accumulated Diode) sensor: High sensitivity (f8.0 at 2000 lux); High horizontal luminance resolution of 1000 TV lines; Excellent signal-to-noise ratio of 54 dB; Vertical smear level of practical imperceptibility; Minimum lag and high resistance to image burn-in; Impervious to vibration and shock; Minimum effects from electric/magnetic field; Free from registration adjustment; Super EVS (Enhanced Vertical Definition System) for enhanced vertical resolution
- Lower optical axis of 75.5 mm
- Color balance adjustment at 5600K without a filter
- Auto setup function (black/white balance, gamma, etc.)
- System versatility with the peripheral equipment
- Remote operation up to 25m away from a camera adapter

### Supplied Accessories:

- Tripod Attachment
- Carrying Case
- Operation Guide
- Maintenance Manual

### Optional Accessories:

- HDVF-150 1.5" Viewfinder
- HDVF-30 3" Viewfinder
- HDVF-500 5" Viewfinder
- HDVF-75 7" Viewfinder
- HDM-90 9" Monochrome Monitor
- HDC-2/5/50/100 Multicore Cable
**Camera System**

**HDCA-350**

**Camera Adaptor**
- Up to 25 remote operation of HDC-500

**Supplied Accessories:**
- 110 Jack Type Intecom Panel
- Operation Guide
- Maintenance Manual

**Specifications**
- **Outputs:**
  - MONITOR OUT (BNC): 1.0Vp-p, 75Ω SCRIPT (4-pin); 12V, 5W
  - INTERCOM (XLR 5-pin x 2): Mic on/off
- **Connectors:**
  - CCU (11-pin) for HDCS-350
  - VF OUT (12-pin)
  -VF POWER OUT (4-pin) for HDVF-75
  - AUX 12V OUT (4-pin)
- **Special Function:**
  - Frame and Center mark on/off
  -VF video select
  - Filter select
- **Power Consumption:** 5W
- **Dimensions (WHD):** 165 x 156 x 127mm
  - (6⅛" x 6¼" x 5")
- **Weight:** 3 lb. 11 oz. (1.7 kg.)
Camera System

HDCO-350
Camera Operation Control Unit

- Provides full automatic camera setup functions and full manual control
- Four setup files and four scene files
- Electronic shutter on/off switch with shutter speed selection
- Super EVS on/off switch with mixing ratio selection

Supplied Accessories:
- Rack Mount Assembly (3U)
- Intercom Panel Assembly (for 110 Jack type)
- Operation Guide
- Maintenance Manual

Specifications

Lens:
- IRIS: Automatic/Manual, close
- FOCUS: Remote control operation on/off

Levels:
- CONTROL DATA: PRESET/MEMORY switched
- PEDESTAL: MASTER/R/B
- GAIN: G/R/B, Master gain
  - 0 dB/+6 dB/+12 dB/+18 dB selectable
  - Color gain at 56
- FLARE: G/B/R
- GAMMA: OFF/VARIABLE/FIX selectable, Black
  - (continuously adjustable within each range except for OFF)
- KNEE: MASTER/AUTO/OFF
- SLOPE: MASTER
- WHITE SHAD: Vertical SAW

Camera Head:
- CHU POWER: Power on/off
- SHUTTER: 1/100, 1/250, 1/500, 1/1000, 1/5000
  - selectable 1/500 variable
- Super EVS: 0.125, 0.25, 0.375, 0.5, 0.625, 0.75, 0.875 selectable
- Automatic white balance
- Automatic black balance
- Automatic time delay compensation

Digital Image

Enhancement Levels:
- Crisp, Level dependence, Limit curve, Limit level
- Boost frequency, V ratio Detail gain
  - (*Detail signals detected from R/G/B/R+G/B+G/R+G+B)

Monitor Outputs:
- PIC MONI: G/B/R/Y/NAM Y
- WFM: G/B/R/SEO/Y/R/B/R+G/B+G/GBR

Intercom:
- INTERCOM: COMM/PRIV switched
- AUX INTERCOM: 4 wires, 600 ohm, 0 dBm or RTS system

Buzzer:
- Buzzer on/off

Dimensions (W/H/D):
- 424 x 100 x 440mm
  - (16 3/4" x 4" x 17 3/4") (approx.)

Weight:
- 20 lb. 15 oz. (9.5 kg.) (approx.)
**HDCS-350**

**Camera Signal Processor**
- Up to 300m (985') cable compensation circuit
- All-digital image enhancer for clear and natural pictures
- Incorporates selectable five linear matrixes
- Black gamma correction

**Supplied Accessories:**
- Connecting Cable (for HDCS-350)
- Connecting Cable (for waveform monitor)
- Connecting Cable (for picture monitor)
- 19-pin Plug
- 19" Rack Mount Bracket
- AC Power Cord (2)
- Extension Board
- Operation Guide
- Maintenance Manual

Camera System

HDCA-50
Camera Adaptor

• Provides basic camera control functions, including SMPTE 240M signal processing, digital image enhancement, auto white/black balance, Auto setup and four scene files • Up to 25m remote operation of HDC-500
• Full Genlock capability • AC/DC operation

Supplied Accessories:
Operation Manual for HDC-500, HDCA-50, HDCD-50, HDCR-50, HDCH-500
Operation Guide
Maintenance Manual

Specifications

Signal Standard: SMPTE 240M, BTA-S001
Output Signals: G(Y): B(Pb), R(Pr) OUT (HDCZ 26-pin):
1.0Vp-p, 75Ω G, B, R/Y, Pb, Pr selectable
MIC OUT (HDCZ 26-pin): +20 dBm
MONITOR OUT (BNC): 1.0Vp-p, 75Ω
Input Signals: GENLOCK SYNC (HDCZ 26-pin):
+0.3Vp-p, 75Ω
RETURN VIDEO (HDCZ 26-pin):
1.0Vp-p, 75Ω
MIC IN 2CH (XLR 3-pin):
-60 dBs/-40 dBs/-20 dBs selectable
+48V power supply to external condenser microphone on/off
Outputs: Script DC out: DC 10.5V–17V
Earphone out: mini jack
Connectors: Viewfinder (12-pin):
for HDVF-500, HDVF-150, HDVF-30
Intercom (XLR): Mic on/off switchable
Remote (12-pin): for HDCR-50, HDCR-350
DC IN (XLR 4-pin/HDCZ 26-pin):
DC 10.5V–17V
Power Consumption: 14W
Dimensions (WHD): 165 x 155 x 114mm
(6½" x 6½" x 4½")
Weight: 4 lb. 3 oz. (1.9 kg.)
HDCD-50

Signal Distributor

- Provides two channels of G(Y)/B(Pb)/R(Pr) outputs in addition to VTR and MONITOR outputs
- Accepts a return video and an external sync signal
- AC/DC operation
- Half a 19" EIA rack size wide

Supplied Accessories:
- Extension Board
- Mail XLR 3-pin MIC Panel
- 110 Jack Intercom Panel

Specifications

Outputs:
- G(Y), B(Pb), R(Pr) OUT (BNC x 2 each): selected in HDCA-50: 1.0Vp-p, 75Ω
- MONITOR OUT (BNC): 1.0Vp-p, 75Ω
- MIC OUT CH+1/2 (XLR 3-pin): 600Ω balanced

Inputs:
- RETURN VIDEO (BNC): 1.0Vp-p, 75Ω
- GENLOCK SYNC (BNC): ±0.3Vp-p, 75Ω

Intercom:
- INTERCOM (19-pin/XLR 3-pin)
- PGM (19-pin): 0 dBm/-20 dBm switchable
- TALLY (19-pin): Red and Green tally

Power Requirements:
- AC IN: AC-100V-120V/220V-240V ± 10%, 50/60 Hz
- DC IN: DC 10.5V-17V

Power Consumption:
- AC IN: 380 VA
  (WITH HDC-500, HDCA-50, HDVF-150)
- DC IN: 9W (with only HDCD-50)

Dimensions (WxHxD):
- 200 x 118 x 336mm
  (7¾" x 4¾" x 13¼")

Weight:
- 15 lb. 7 oz. (7 kg.) (approx.)

HDCR-50

Remote Control Unit

- Connected to either the HDCA-50 or HDCD-50
- Contained in a rugged die-cast casing

Supplied Accessories:
- Operation Guide (1)
- Maintenance Manual (1)

Specifications

Lens Control:
- IRIS: Automatic/Manual
- PEDESTAL: Master/R/B
- GAIN: R/B Master gain select
  0/ + 6/ + 12/ + 18 dB

- Selectable

Other Control:
- CHU POWER: On/off
- TEST SELECT: Camera/Color bars/CHU test
- STORE: Storing to HDCA-50 files

Power Consumption:
- 3W

Maximum Cable Length:
- 5m (16.4 ft.)

Dimensions (WxHxD):
- (3½" x 7½" x 2¾")
- 86 x 186.2 x 66mm

Weight:
- Approx. 1 lb. 5 oz. (0.6 kg.)
Camera System/Optional Accessories

HDVF-150
1.5-Inch Viewfinder

HDVF-30
3-Inch Viewfinder
- This viewfinder provides a high resolution of 450 TV lines.

HDVF-500
5-Inch Viewfinder
Supplied Accessories:
- Connecting Cord
- Indoor Hood
- V-wedge Shoe Attachment
- Operation and Maintenance Manual

Specifications
- Power Consumption: 16W
- Input: Composite video
- Aspect Ratio: 16:9
- Picture Size (HW): 54 x 96mm (21/4" x 37/8"")
- Resolution: 650 TV lines
- Dimensions (WHD): 191 x 186 x 291mm (75/8" x 71/2" x 111/2"")
- Weight: 4 lb. 3 oz. (1.9 kg.)

HDVF-75
7-Inch Viewfinder
- A seven inch monochrome viewfinder designed to enhance operational ease.

HDM-90
9-Inch Monochrome Monitor
- This monitor is used with the camera system and can be mounted in a rack with the HDCS-300/HDCO-300 and the 1730HD.
Camera System/Optional Accessories

HDM-145
14 Inch Monochrome Monitor
- This monitor provides a high resolution of 1000 TV lines.

Optical Fiber Transmission System

Optical Fiber Transmission System
- Mutual transmission system via optical fiber cables between the HDCA-350 and the HDCS-350 (video x 1, return video x 1, talk back x 2, data x 2)
- Analog transmission of full bandwidth (G, B, R) component video
- Digital transmission of total six channels of audio
- HDFT-300 (Transmitter): Four channels of digital audio inputs conforming to the AES/EBU format, Two channels of analog audio inputs
- HDFR-300 (Receiver): Six channels of digital audio outputs in which two channels can be selected for output of analog audio parallel to digital outputs
- Transmission distance can be extended up to 1 km using cable extension connectors
- Power supply for the HDC-500, HDCA-350 and HDFT-300 is provided by the HDFR-300
- The HDFT-300 provides audio synchronization to video capability
- Reel with casters is supplied for easy wiring operation

HDFR-300
Optical Fiber Receiver

Supplied Accessories:
- AC Power Cord
- HDCC-2A Multicore Cable
- Rack Mount Assembly
- Maintenance Manual

Specifications
- Input: 11-pin multiple connector to HDFT-300
- Output: G/B/R analog component video
- Power Requirements: AC-100V to 120V/220V to 240V, 50/60 Hz
- Power Consumption: Max. 400W
- Dimensions (WHD): Approx. 423 x 88 x 450mm
- Weight: Approx. 26 lb. 7 oz. (12 kg.)

---

HDFT-300
Optical Fiber Transmitter

Supplied Accessories:
- Carrying Case
- HDCC-5A Multicore Cable
- Shoulder Belt
- Maintenance Manual

Specifications
- Input: G/B/R analog component video (11-pin multiple connector)
- Analog audio (XLR 3-pin, 2 channels)
- Digital audio (XLR 3-pin, 4 channels)
- Output: 11-pin multiple connector to HDFR-300
- Sync out (11-pin multiple connector)
- Digital audio sync out (XLR 3-pin)
- Dimensions (WHD): Approx. 316 x 116 x 286mm
- Weight: Approx. 11 lb. (5 kg.)
Optical Fiber Transmission System

**FC6-PA250/500**

**Optical Fiber Cable**

**Specifications**
- Cable Length: 250m (FC6-PA250), 500m (FC6-PA500)
- Fiber Type: G.I. type, 80/150m diameter (internal/external)
- Connector: Optical multi-connector
- Optical Fiber Loss: < 4 dB/km
- Dimensions (WHD): FC6-PA250 (with a reel):
  - Approx. 520 x 680 x 440mm
  - (20¹/₄" x 26¾" x 17¾")
- FC6-PA500 (with a reel):
  - Approx. 600 x 790 x 440mm
  - (25¹/₄" x 31½" x 17¾")
- Weight: FC6-PA250 (with a reel): 121 lb. 4 oz. (55 kg.)
- FC6-PA500 (with a reel): 187 lb. 6 oz. (85 kg.)

---

**FC6E-PA10**

**Cable Extension Connector**

**Specifications**
- Connection Loss: < 1 dB
- Dimensions: Approx. 36 Ø x 32mm
  - (1⁵/₈" x 1½")
- Weight: 5 oz. (150 g.) (approx.)
VTR System

Specifications

GENERAL

Signal Standard: SMPTE 240M
Power Requirements: AC-100-120/220-240V ±10%, 50/60 Hz
Power Consumption: 550W
Operating Temperature: 5°C to 35°C (41°F to 95°F)
Storage Temperature: -20°C to 60°C (-4°F to 140°F)
Humidity: 10% - 85% (non-condensing)
Weight: 147 lb. 11 oz. (67 kg.) (approx.)
Dimensions (WHD): 480 x 680 x 572mm (approx.) (19" x 26⅞" x 22¾")
Tracks: Video tracks: 8, Audio tracks: 8, CTL tracks: 1, T/C tracks: 1, Cue tracks: 1
Tape Speed: 80.5 cm/s
Writing Speed (Relative Speed): 51.5 m/s
Recording Time: 63 min. with 11.75 in. reel
Fast Forward/Reverse Speed: Approx. 5 minutes
Recommended Tape: Sony’s 1-inch High Density Tape or equivalent
Input Size: NAB Standard, 6.5 in. - 11.75 in. reel

TO PROCESSOR:
CN-1: D-sub 50-pin

AUDIO

Frequency Response: 20 Hz - 20 kHz (+0.5/-1.0) dB
Crosstalk: < -80 dB at 1 kHz (between any two channels)

HDD-1000

Digital VTR

- Incorporates many of the features of the BVH-3000 including compact size, lightweight, ease of tape threading, computerized servo control, and front panel operation
- With wide band Y, P_b, P_r recording, a high quality picture is assured
- Wide band (30 MHz) recording system
- Front panel controls for basic simple editing
- One hour recording time with 11.75-inch reel
- Time code editing possible when interfaced with the BVE-910 Editing Control Unit or the BVE-9100 Editing Control System
- Built-in time code generator/reader
- 9-pin Remote Interface
- Special playback modes — JOG: still to ± ⅛ times normal — SHUTTLE: still to ± 8 times normal
- Eight channels of digital audio

Optional Accessories:
BVE-910 Editing Control Unit
BVE-9100 Editing Control System
HDDP-1000 VTR Signal Processor
HDDP-1000

VTR Signal Processor
- Compact
- Easy to service
- 8-bit digital processing system
- Signal to noise ratio of 56 dB

Specifications

GENERAL
- Power Requirements: AC-100–120/220–240V ± 10%, 50/60 Hz
- Power Consumption: 1200W
- Operating Temperature: 5°C to 35°C (41°F to 95°F)
- Storage Temperature: -20°C to 60°C (-4°F to 140°F)
- Humidity: 10%–85% (non-condensing)
- Weight: 220 lb. (100 kg.) (approx.)
- Dimensions (WHD): 482 x 650 x 630mm (approx.)
  (19° x 255/8” x 247/8”)

Input/Output:
- Video: VIDEO IN:
  - G/Y, B/PB, R/PR (BNC, 2 inputs)
  - EXT SYNC (BNC, 1 input)
- VIDEO OUT:
  - G/Y, B/PB, R/PR (BNC, 2 outputs)
  - EXT SYNC (BNC, 2 outputs)
- MONITOR OUT:
  - G/Y, B/PB, R/PR (BNC, 1 output)
  - EXT SYNC (BNC, 1 output)
- WFM OUT:
  - G/Y, B/PB, R/PR (BNC, 1 output)
  - EXT SYNC (BNC, 1 output)
- TO VTR:
  - CN-2 D-sub 50-pin
  - CN-3 D-sub 50-pin
- DIGITAL VIDEO IN/OUT:
  - DIGITAL VIDEO IN D-sub 50-pin
  - DIGITAL VIDEO OUT D-sub 50-pin

Audio:
- ANALOG AUDIO IN:
  - XLR 3-pin (8 channels)
- ANALOG AUDIO OUT:
  - XLR 3-pin (8 channels)
- DIGITAL AUDIO IN:
  - XLR 3-pin (4 channels)
- DIGITAL AUDIO OUT:
  - XLR 3-pin (4 channels)
- DIGITAL AUDIO PARALLEL IN D-sub 15-pin
- DIGITAL AUDIO PARALLEL OUT D-sub 15-pin
- TO VTR:
  - CN-1 D-sub 15-pin
- REMOTE:
  - RS-232C

HDDR-1000

VTR Control Unit
- Similar control functions available on the HDD-1000 function control panel
- Accepts both the HD sync signal and conventional sync signals as reference
- Controls other VTRs having a Sony 9-pin remote interface

Supplied Accessories:
- Rack Mount Kit

Specifications
- Power Requirements: AC-100–240V ± 10%, 50/60 Hz
- Power Consumption: Approx. 25W max.
- Dimensions (WHD): 446 x 129 x 260mm
  (17½” x 5⅞” x 10½”)
- Weight: Approx. 14 lb. 5 oz. (6.5 kg.)
- Serial Remote: REMOTE R: 9-pin remote
  REMOTE P: 9-pin remote
  AUX: D-sub 9-pin
- Parallel Remote: REMOTE: D-sub 25-pin
VTR System

HDDR-A1000
Audio Remote Control Unit
- Adjustments for recording/playback level in analog mode
- Adjustments for playback level in digital mode

Supplied Accessories:
Rack Mount Kit

Specifications
Power Requirements: AC-100–240V ±10%, 50/60 Hz
Power Consumption: Approx. 15W max.
Dimensions (WHD): 424 x 84 x 123mm
(163/4" x 33/4" x 43/4")
Weight: 6 lb. 10 oz. (3 kg.) (approx.)
Remote: HOST: D-sub 9-pin
ADDITION: D-sub 9-pin
SPARE for a custom made control unit: D-sub 25-pin

HDDR-V1000
Video Remote Control Unit
- Adjustments for input level of G/Y, B/PB, R/PR for analog mode
- Adjustments for output level of Y, PB, PR for analog mode
- Video Phase and Sync Phase adjustment

Supplied Accessories:
D-sub 15-pin cable

Specifications
Power Requirements: AC-100–240V ±10%, 50/60 Hz
Power Consumption: Approx. 10W max.
Dimensions (WHD): 214 x 133 x 301mm
(81/2" x 51/4" x 117/8")
Weight: 7 lb. 11 oz. (3.5 kg.) (approx.)
Remote: HOST: D-sub 9-pin
ADDITION: D-sub 9-pin
WFM out: D-sub 15-pin
SPARE for a custom made control unit: D-sub 25-pin
HDV-10
Videocassette Recorder
- Wide bandwidth analog frequency modulation recording
- Four digital audio channels
- UNIHI videocassette tape
- HCT-63
- Compact and lightweight
- Sequential recording/playback capability
- Automatic operation
- Picture freezing
- Simple operation
- Built-in editing facility
- Digital audio I/O
- Analog video and audio I/O
- RS-232C/9-pin remote interface

VTR System

**Specifications**

**GENERAL:**
- **Signal Standard:** SMPTE 240M
  - 1125 line, 2:1 interlace, 60 Hz, 1035 active lines
- **Power Requirements:** AC -100-120/220-240V ± 10%, 50/60 Hz
- **Power Consumption:** 400W max.
- **Operating Temperature:** 5°C to 40°C (41°F to 104°F)
- **Storage Temperature:** -20°C to 60°C (-4°F to 140°F)
- **Humidity:** 10%–85% (non-condensing)
- **Weight:** 72 lb. 12 oz. (33 kg.)
- **Dimension (WHD):** 424 x 241 x 555mm (163/4" x 91/2" x 217/6"

**VIDEO:**
- **Sampling Rate:** 74.25 MHz in each G, B, R channel
- **Quantization:** 8 bit/sample
- **Capture:** 8–32 frames or 16–64 fields (G, B, R)
- **Display:** Frame or field (selectable)
- **Memory Content:** 1920(H) x 1040(V) pixels per frame
- **Memory:** 2 Mbyte per frame each channel
- **Frequency Response:**
  - 0–27 MHz: ± 0.5 dB
  - 0–30 MHz: −1.5 dB ± 0.5 dB
- **K Factor:** < 1% (HDTV 2T-66 ns HAD)
- **Tilt:** < 1% (Horizontal and vertical)
- **S/N Ratio:** > 56 dB
- **Sync Jitter:** < 2 ns

---

**HDDF-500**

**Digital Frame Recorder**

- 3 channel (G, B, R) equal bandwidth system (30 MHz)
- Can store 8 up to 32 HDVS frames (or 16-64 fields) by combining any of the optional 8 frame memory and 4 frame memory boards (a minimum of two same boards is required)
- Emulates HD Digital VTR (Real time operation): Can be controlled by VTR remote controllers provided for BVH-2000 or BVH-3000 series, a front panel of HD Digital VTR or editing control units through the 9-pin remote interface; Basic control is possible via pre-set internal switches of the HDDF-500
- Equipped with computer parallel interface and SCSI interface (Non-real time operation): Allows special effects or computer graphics storage into the HDVS format; Transfers to and from the external equipment such as DEC Micro VAX™, Micro PDPTM or VAX™
- Single and multi-frame recording is possible just like the BVH-2500 or BVH-3000 series 1-inch VTR when using the BKH-2501 with BKH-2017A or BKH-3090 Sony VTR remote controller
- Looping Playback/Endless recording is possible
- Equipped with the need of a variety of video signal I/O with selectable analog or digital input and simultaneous analog and digital outputs
- Allows stunt motion playback when tied to auxiliary controller
- 74.25 MHz sampling frequency, 8 bit quantization digital processing system

**Input/Output Signal:**

**Input**
- **Analog:** G, B, R: 1Vp-p ± 2 dB (75Ω BNC per channel)
- **Digital:** D-sub 25-pin (one per channel)
- **Reference:** Composite video: 1Vp-p ± 3 dB or Sync (Tri Level): ± 0.3V (BNC, loop-through)

**Output**
- **Analog:** G, B, R: 1Vp-p (0.7Vp-p video into 75Ω, ± 0.3V Tri Level sync)
- **Digital:** D-sub 25-pin (one per channel)

**Remote 1, 2:** 9-pin remote

**Computer Parallel Interface**
- **DRV-11WA (for Q bus system)**
- **DR-11W (for Unibus system)**

**Audio Processing:** None

**SCSI Interface:** ANSI x 3.131-1986, 50-pin shielded connector
VTR System

HDL-2000
Videodisc Player
- Full band high definition video (\(Y = 20 \text{ MHz}\))
- Two channel PCM audio
- 15 min. of playback with a CLV disc (CAV disc = 8 min.)
- Automatic selection of CLV/CAV
- Special playback modes available in CAV mode (SCAN/SLOW/STILL)
- Wired/wireless remote control available
- RS-232C interface provided
- Automatic repeat

Specifications
- Signal Standard: SMPTE 240M
- Power Requirements: AC-100V-120V/220V-240V (±10%)
- Power Consumption: 350W
- Video: S/N: 42 dB (Y)
  - Bandwidth: 20 MHz (Y)
  - 6 MHz (C)
- Audio: Frequency bandwidth: 20 Hz–20 kHz (±1 dB)
  - Harmonic distortion: < 0.05%
  - Dynamic range: 90 dB
  - Channel crosstalk: < 80 dB
  - Wow and flutter: Below measurable levels
- Input/Output: VIDEO OUT: G/Y, B/PB, R/PR (BNC, 2 outputs)
  - REF VIDEO IN: Loop-through BNC
  - AUDIO OUT: CH-1/CH-2 (XLR 3-pin, 2 channels)
  - REMOTE: RS-232C
  - SPARE: D-sub 9-pin
- Weight: 77 lb. 10 oz. (35.2 kg.) (approx.)
- Dimensions (WHD): 436 x 286 x 608mm (6 rack units)
  - (17\(\frac{1}{4}\)" x 11\(\frac{1}{8}\)" x 24")

HDN-2000
NTSC Down-Converter
- Four down-conversion modes: Edge Crop; Letter Box; Squeeze; Magnify
- Field freeze mode
- 60.00 Hz or 59.94 Hz
- Field synchronizer
- Image enhancer
- NTSC color bar generator

Specifications
- Signal Standard: SMPTE 240M SONY sync
- Power Requirements: AC-100V-120V/220V-240V ±10% (50/60 Hz ±5%)
- Power Consumption: 800W
- Inputs: High definition video: SMPTE 240M (G/B/R)
  - NTSC sync: Black burst (through input)
- Outputs: NTSC composite: Based on EIA RS-170A (x3)
  - NTSC component: G/B/R or Y/B-Y/R-Y
  - DUB/component: 12-pin for Betacam VTRs
  - High definition video: Waveform, monitor (with cursor), sync
- Dimensions (WHD): 436 x 650 x 630mm
  - (17\(\frac{1}{4}\)" x 25\(\frac{1}{8}\)" x 24\(\frac{3}{4}\")
- Weight: 209 lb. 7 oz. (95 kg) (approx.)
VTR System

HDL-5800
Video Disc Recorder

- The HDL-5800 is designed to record both high definition still images and continuous video onto an optical disc with a video bandwidth of 20 MHz for the Y signal and 6 MHz for P_B and P_R signals. Taking full advantage of optical disc technology, the HDL-5800 has many convenient features, such as single frame recording, fast random access, and slow/still playback. With the HDL-5800, a disc program can be internally produced, providing substantial savings in cost and time.
- Superior Picture Performance
- Capable of recording HD still images and video onto either the WHD-3AL0 or the WHD-3AA0 optical disc; WHD-3AL0 for CLV mode (Up to 10 minute video or 18,000 still frames per side); WHD-3AA0 for CAV mode (Up to 3 minute video or 5400 still frames per side)
- Wide Bandwidth: Y: 20 MHz, P_B/P_R: 6 MHz
- The alloy formation technique assures long term storage of quality images
- High resolution black and white mode with the extended Y signal bandwidth of 26 MHz
- PCM recording with 2/4 selectable digital audio channel
- Operating Convenience
- Frame picture recording/playback capability
- Fast random access within 0.6 seconds in the CAV mode
- Frame memory
- Compatibility with read-only videodisc for the HDL-2000 (A supplied disc tray should be attached to a read-only disc)
- Jog/Shuttle dial operation for picture playback at variable speed
- Auto repeat playback mode
- Interface Facilities
- Equipped with RS-232C/RS-422 remote interfaces
- Digital Audio input facilities

Supplied Accessories:
RM-5800 Remote Control Unit
RS-232C I/F Manual
9-pin Remote I/F Manual
Read-Only Disc Tray
Rack Angle (1 pair)
AC Power Cord
Operation Manual

Optional Accessories:
WHD-3AA0 Laser VideoDisc Media for CAV Mode
WHD-3ALO Laser VideoDisc Media for CLV Mode
RM-9000PR Programmable Remote Controller
FS-20 Foot Switch

Specifications
General
- Signal Standard: SMPTE 240M, BTA-S001
- Power Requirements: AC 100 to 120V/220 to 240V, 50/60 Hz
- Power Consumption: Approx. 350W
- Operating Temperature: 5°C to 35°C (41°F to 95°F)
- Humidity: 30% to 70%
- Weight: 85 lb. 15 oz. (39 kg) (approx.)
- Dimensions (WHD): 436 x 332 x 643mm (17 ½" x 13 ¼" x 25 ¾")

Recording/Playback System
- Recording Mechanism: Alloy mode
- Laser: Semiconductor diode laser (λ: 780nm)
- Laser Output Power: 35 mW x 2
- Maximum Playback Time: CAV: 3 min./side, 5400 frames/side
- Recording Time & Frames: CLV: 10 min./side, 18,000 frames/side
- Read-only disc CAV: 8 min./side
- CLV: 15 min./side
- Spindle Speed: CAV: 1900r/min.
- CLV: 1200 to 3000r/min.
- Access Time: 0.6s in CAV mode (full stroke average)
- 15s in CLV mode (full stroke average)

Video
- Video Bandwidth: Y: 20 MHz, P_B/P_R: 6 MHz
- S/N Ratio: Y: 42 dB (WHD-3AA0/3AL0)
- Y: 41 dB (read-only disc)

Audio
- Sampling Frequency: 48 kHz
- Quantization: 16 bits (linear)/sample (2-channel)
- Frequency Response: 12 bits (non-linear)/sample (4-channel)
- Dynamic Range: > 88 dB
- Distortion: < 0.04%
- Crosstalk: < -63 dB
- Head Room: 20 dB
- Emphasis: Analog Input: 50µs/flat (automatic selection)
- Digital input: 50µs/flat (ON/OFF, selectable)

Input/Output Signal
Video
- Input
  G, B, R/Y, P_B, P_R: 1.0Vp-p, 75Ω, loop-through BNC
- Output
  G, B, R/Y, P_B, P_R: 1.0Vp-p, 75Ω, BNC
  Monitor: 1.0Vp-p, 75Ω, BNC

Audio
- Input
  Analog
  CH 1-4/1-2: + 4 dB, balanced, 600Ω, XLR
  - 5 dB, unbalanced, 10 kΩ, Phono
  CH 1-4/1-2: -8 dBs to +10 dBs, balanced; 600Ω/10kΩ switchable, XLR
  - 15 dBs to -5 dBs, unbalanced 10 kΩ, Phono

Digital
- Output
  Analog
  CH 1-4/1-2: AES/EBU format, XLR

REMOTE
- REMOTE 1 IN: For RS-232C interface
- D-sub 25-pin
- REMOTE 2 IN: For Sony 9-pin serial interface, D-sub 9-pin
- REMOTE 2 OUT: For Sony 9-pin serial interface, D-sub 9-pin

Writable Laser VideoDisc Media (WHD Series)
- Recording System: WHD-3AA0: CAV Mode
- WHD-3AL0: CLV Mode
- Disc Diameter: 300mm (12-inch)
- Cartridge Dimension (WHD): 325 x 345 x 16mm (12 ¼" x 13 ¼" x 2 ½")
- Weight: 2 lb. 3 oz. (980 g.)
Post Production Equipment

HDS-1000T

Switcher
- Thirty-one standard/rotary wipes
- Effects (Wipe/Key Wipe/Mix/Key Mix)
- Variable soft and border wipes
- Chroma keyer/Downstream keyer
- 7 input and 4 output buses
- Serial and parallel interfaces
- Color bar/Two title color generator
- Take/Auto take (variable transition time)
- Pattern modulator/Positioner
- Genlock inputs

Specifications
- Signal Standard: SMPTE 240M
- Video Input: VS x 7, RGB component
- Title Input: VS x 2, B/W
- Program Output: VS x 2, RGB component
- Preview Output: VS x 1, RGB component
- Return Video Output: VS x 1, RGB component
- Sync Output: Tri-sync x 2, ± 0.3Vp-p
- Differential Gain: < 2% at 50% APL
- Frequency Response: 20 MHz ± 0.3 dB, ~ 30 MHz (+0.3/-0.3 dB)
- Cross Talk: ~40 dB at 30 MHz
- Power Requirements: AC-100V-120/220V-240V
- Power Consumption: 160W
- Dimensions (WHD): 450 x 150 x 420mm
  (173/4" x 6" x 165/8") (approx.)
- Weight: 28 lb. 11 oz. (13 kg.) (approx.)

HDST-1000T

Telop Camera
- High resolution
- Single 2/3" Saticon
- Auto beam optimizer
- Genlock
- Auto gain control
- Auto black level

Specifications
- Signal Standard: SMPTE 240M
- Resolution: 750 TV lines
- Pick Up Tube: Single 2/3" MF Saticon
- Auto Gain Control: 0 dB/ +6 dB/AGC
- Frequency Response: 30 Hz-25 MHz ± 1 dB
- Lens Mount: C mount

EBR System

Digital Electron Beam Recording (EBR) System
- Developed to meet the demand for tape to film transfer
- Provides producers with an alternative to producing with film

Specifications
- Video Interface: Input: Y, Pb, Pr/8-bit parallel interface (Clock frequency: 74.5 MHz, conforms to SMPTE 240M)
- Bandwidth: 30 MHz
- EBR Interface: Signal: G, B, R, Time Division
  Multiplex Output/10-bit parallel interface (Clock frequency: 59.4 MHz)
- Film Speed: 24 frames/sec., 30 frames/sec.
- Film Size: 35mm
- Operation: Microcomputer aided
Specifications

General

- **Power Requirements**: AC-120V, 50/60 Hz (HDIH-1200/2000/3000)
- **Power Consumption**: 480W (approx.)
- **Horizontal Resolution**: 1000 TV lines (at screen center) — HDTV input
- **Vertical Resolution**: 850 TV lines (at screen center) — HDTV input
- **Video Bandwidth**: 30 MHz
- **Brightness**: 300 lm (peak white), 130 lm (all white)
- **Input**: G/Y, B/Pb, R/Pr, Sync/HD, VD (HDTV) x 2 lines: BNC, 75Ω terminated

- **Projection Size**:
  - HDIH-1200: Display in size from 100-inch to 150-inch diagonally
  - HDIH-2000: Display in size from 150-inch to 220-inch diagonally
  - HDIH-3000: Display in size from 220-inch to 350-inch diagonally

HDIH Series

**High Definition Projector HDIH-1200, HDIH-2000, HDIH-3000**

- Automatically selected aspect ratio: 16:9 (H:V) for HDTV; 4:3 (H:V) for four color standards (NTSC, PAL, SECAM, NTSC4.43)
- Large scale of screen display: HDIH-1200: Display in size from 100-inch to 150-inch diagonally; HDIH-2000: Display in size from 150-inch to 220-inch diagonally; HDIH-3000: Display in size from 220-inch to 350-inch diagonally
- High brightness: The light output of 300 lumens at peak white is realized thanks to the adoption of high performance 9-inch CRT and HACC lens. The HACC lens also provides accurate color reproduction.
- LC² system: Liquid Coupling and Cooling (LC²) system is adopted to realize high contrast ratio.
- Wireless or wired remote control is possible for both registration and lens focus adjustments.
- The registration is digitally adjusted, and instructions and status indications are displayed on the screen.
- 9 types of test signal generators are built-in for easy adjustments of registration, white balance and lens focus.
- Ceiling and table top setup both possible.
- Rear projection: Employing with the optional HDIS-1200RK Rear Screen kit, the HDIH-1200 can be used as the rear projection system.
- Twin stacking capability: Using the optional HDIT-3000W Projection Head Stand, twin stacking application of HDIH-3000 is possible.

Optional Accessories:

- HDIS-1200RK Rear Screen Kit, using the optional HDIS-1200RK, the HDIH-1200/1200M can construct a rear projection system which provides a wide viewing angle (±60° horizontally, ±26° vertically). This system can be more effectively used even in the difficult lighting conditions compared with the front projection system.

Dimensions (WHD):

- 743 x 402 x 998mm
- (29½" x 15¾" x 39½")
- Weight: 218 lb. 4 oz. (99 kg.)

Optical

- **Projection System**: 3 picture tubes, 3 lenses, horizontal in-line system
- **Picture Tube**: 9-inch high brightness, magnetic focus CRT Indirect cathode, LC² (Liquid Coupling and Cooling) system
- **Lens**: High performance HACC lens, Anti-reflection coating
  - f1.24, f172mm (HDIH-1200)
  - f1.25, f174mm (HDIH-2000)
  - f1.25, f177mm (HDIH-3000)

- **Projection Size**:
  - 100~150-inch diagonally
  - (120-inch, factory set) — HDIH-1200
  - (200-inch, factory set) — HDIH-2000
  - 220~350-inch diagonally
  - (240-inch, factory set) — HDIH-3000
HDIS-1200RK

Rear Projection
Using the optional HDIS-1200RK Rear Screen Kit, the HDI-1200 can construct a rear projection system, which provides a wide viewing angle (±60° horizontally, ±26° vertically). This system can be more effectively used even in the difficult lighting conditions compared with the front projection system.

HDIR-550

High Definition Rear Projector
One-piece unit: A projection head, a rear screen and other mechanical devices are put together in one-piece unit for high mobility. Four casters allow easy transportation. High quality picture: With the adoption of new 7” CRT, high resolution/non-spherical lens and super fine pitch screen, the HDIR-550 can provide high quality and precise images. High contrast ratio is realized due to the development of the optical coupling and liquid cooling system together with the adoption of anti reflective multi-coating lens. Black stripes are coated on the screen surface for absorption of the ambient light. Automatically selected aspect ratio: 16:9 (H:V) for HDTV; 4:3 (H:V) for four color standards (NTSC, PAL, SECAM, NTSC4.43)

Specifications

General
Power Requirements: AC-120V, 50/60 Hz (HDIR-550)
Power Consumption: 400W (approx.)
Horizontal Resolution: 800 TV lines (at screen center)—HDTV input
Vertical Resolution: 750 TV lines (at screen center)—HDTV input
Frequency (H,V): 15 kHz—35 kHz, 50 Hz—120 Hz
Video Bandwidth: 30 MHz
Brightness: 200 ft.-L (peak white), 50 ft.-L (all white)
Input: G/Y, B/Pg, R/Pr, Sync/Hd, VD (HDTV) x 2 lines: BNC, 75Ω terminated
Composite video: BNC, 75Ω terminated
Control S: Mini-jack
Operating Temperature: 0°C to 40°C (32°F to 104°F)
Dimensions (WHD): 1340 x 1815 x 990mm
Weight: 446 lb. 14 oz. (220 kg.)

Optical
Projection System: 3 picture tubes, 3 lenses, horizontal in-line rear projection system
Picture Tube: 7” high brightness, optical coupling and liquid cooling system
Lens: High performance HACC lens, f1.1, f116mm, multi-coating
Projection Size: 55” diagonally
Screen: 2 pieces type, black stripe coating
Optimum Viewing Angle (H,V): ±50°, ±20°
Color Monitors

HDM-1230

Color Monitor
- 16:9 aspect ratio
- SMPTE standard phosphor
- Adjustable color temperature
- The beam detecting circuit system allows black level and color temperature to be stabilized
- Tri-level sync system
- G, B, R/Y, PB, PR inputs both are available
- H Delay, V Delay and Under-scan facilities are provided for monitoring or evaluating of camera/VTR signals
- The pulse adding current is used for precise brightness and contrast controls
- 9 independent sections of the screen for convergence adjustment
- 7 types of test signals are incorporated
- Aperture adjustment in RGB mode
- EIA standard 19” rack mountable

Optional Accessories

**HDSC-1000**
Sync Converter
- Supports all three high definition video sync signals
- Automatic sync signal input and field frequency detection
- Genlock capability
- Sync phase adjustment
- 525 sync output for off-line editing
- Two sync converters per unit

**HKDF-504/HKDF-508**
HKDF-504—
HD Frame Memory Board (4 Frame Memory)
HKDF-508—
HD Frame Memory Board (8 Frame Memory)
- These boards are designed for storing HDVS frames or fields, which are inserted into the HDDF-500 HD Digital Frame Recorder

**HDCC-2/5/50/100**
Multicore Cable
(2m, 5m, 50m, 100m)

**HDVF-150**
1.5-inch Viewfinder

**HDVF-30**
3-Inch Viewfinder
- This viewfinder provides a high resolution of 450 TV lines.
Optional Accessories

**HDVF-500**

5-inch Viewfinder

**Supplied Accessories:**
- Connecting Cord
- Indoor Hood
- V-wedge Shoe Attachment
- Operation and Maintenance Manual

**Specifications**
- **Power Consumption:** 16W
- **Input:** Composite video
- **Aspect Ratio:** 16:9
- **Picture Size (HW):** 54 x 96mm (2¼" x 3¾"
- **Resolution:** 650 TV lines
- **Dimensions (WHD):** 191 x 186 x 291mm (7¾" x 7¼" x 11½"
- **Weight:** 4 lb. 3 oz. (1.9 kg.)

**HDVF-75**

7-Inch Viewfinder

- A seven inch monochrome viewfinder designed to enhance operational ease.

**LBX-1000**

Lightbox

- For use with the HDST-100T Telop Camera.

**VF-503**

Monitor Hood

- Created expressly for use with the HDM-2820/2820E HD Color Monitor, this hood enhances viewing.

**HDM-90**

9-Inch Monochrome Monitor

- This monitor is used with the camera system and can be mounted in a rack with the HDCS-300/HDCO-300 and the 1730HD.

**HDM-145**

14 Inch Monochrome Monitor

- This monitor provides a high resolution of 1000 TV lines.
Optional Accessories

HD-1D Series
High Quality Video Tape
- This tape was especially designed for the digital VTR of HDVS. It is available in 33, 48 and 63 minute recording time.

HCT-63
Sony UNIHI Videocassette
- This cassette was especially designed for analog videocassette recorder of HDVS, based on the UNIHI format. It is available for 63 minute recording time.

FC6-PA250/500
Optical Fiber Cable

Specifications
- Cable Length: 250m (FC6-PA250), 500m (FC6-PA500)
- Fiber Type: G.I. type, 80/150m diameter (internal/external)
- Connector: Optical multi-connector
- Optical Fiber Loss: < 4 dB/km
- Dimensions (WHD): FC6-PA250 (with a reel): Approx. 520 x 680 x 440mm (20 1/2'' x 26 1/4'' x 17 3/4'')
  FC6-PA500 (with a reel): Approx. 600 x 790 x 440mm (25 1/4'' x 31 1/4'' x 17 3/4'')
- Weight: FC6-PA250 (with a reel): 121 lb. 4 oz. (55 kg.)
  FC6-PA500 (with a reel): 187 lb. 6 oz. (85 kg.)

FC6E-PA10
Cable Extension Connector

Specifications
- Connection Loss: < 1 dB
- Dimensions: Approx. 36 Ø x 32mm (1 7/8'' x 1 1/4'')
- Weight: 5 oz. (150 g.) (approx.)

#### BVE-9100

**Editing Control System**

- Fast CPU processing: 32 bit CPU running at 20 MHz
- Large memory capacity: Approx. 4.5 Mbytes
- Standard color display monitor interface
- Optional color corrector interface for BVX-D10
- Modular design: system expansion via a variety of optional BKE boards/units and BZE softwares
- Full system interface; Parallel or serial video switcher interface; Parallel or serial audio mixer interface; Direct DME interface; 14 VTR control (can assign up to 8 VTRs as recorders or 12 as players); 4 standard GPI ports and 32 optional GPI ports
- 2 standard RS-232C printer ports and 4 optional RS-232C ports
- Full list management
- Four channel audio control
- DMC/switcher/mixer/color corrector learn functions
- Two types of editing keyboards, Qwerty style and dedicated style
- 16 user programmable keys
- Keyboard reassignment function
- Action Track (enhanced timetrack operation) capability
- Sub keyboard with 30 x 3 assignable keys
- Character superimposing on picture monitor
- Self-diagnostics

Peripheral Equipment

Supplied Accessories:
- 3.5" Micro Floppydisk with Based Program
- System Disk x 2
- Extension Board
- AC Power Cord
- 15-pin D-sub Connector (male)
- 25-pin D-sub Connector (male)
- 9-pin D-sub Connector (male)
- Rack Angle Set
- Plug Holder
- Indicator Label
- Operation and Maintenance Manual

Optional Accessories:
- BVS-A1201 12 x 1 Analog Audio Preview Switcher
- BVS-V1201 12 x 1 Analog Video Preview Switcher
- EDLEXPRESS List Management and Translation Software
- OKIDATA TURBO 80 Column Serial/Parallel
- PLUS UPGRADE EdiExpress Software Upgrade

Specifications

- **Power Requirements:** AC-100V−240V, 50/60 Hz (± 10%)
- **Power Consumption:** 60W (incl. 7 BKE boards)
- **Operating Temperature:** 5°C to 35°C (41°F to 95°F)
- **Storage Temperature:** −20°C to 60°C (−4°F to 140°F)
- **Dimensions (WHD):** 424 x 220 x 480mm (16½" x 8¼" x 10") (approx.)
- **Weight:** 46 lb. 5 oz. (21 kg.) excl. optional boards (approx.)
- **System:** 32-bit microprocessor with 4 Mbytes DRAM and 512 Kbytes SRAM
- **Editing Reference:** CTL, LTC and VITC (SMPTE/EBU time codes)
- **Editing Accuracy:** ± 0 frame in time code operation (normal play mode)
- **EDL Memory Capacity:** 6000 edits/lines

**BKH-2501/BKH-2017A**

Remote Control Panel with a Adaptor Box

This remote controller is capable of controlling the HDDF-500 Digital Frame Recorder

### Specifications

**Inputs:**
- 8-72 channels (user configurable): MIC, LINE, RETURN
- EXT MONITOR IN (×2)

**Input Connectors:**
- MIC: 45-pin multi-connector
- LINE: 45-pin multi-connector
- RETURN: 45-pin multi-connector
- MONITOR: 45-pin multi-connector
- TB: 45-pin multi-connector

**Frequency Response:**
- 30 Hz to 20,000 Hz ± 0.5 dB
- 20 Hz to 30,000 Hz ± 1.5 dB

**Harmonic Distortion:**
- < 0.1%
  - (+ 12 dB at 1 kHz, THD + Noise)

**Equivalent Input Noise:**
- (150Ω terminated): MIC: -124 dBs
  - Residual Noise: -80 dBs (master fader OFF)
  - Crosstalk: -83 dB (channel fader OFF) w/MXP-2916

**Specifications (Continued)**

Max. Overall Gain:
- +72 dB (w/MXBK-MI23 or MXBK-MI24)

Built-in Oscillator:
- 1 kHz (w/MXBK-2916/2926)
- 15 Hz to 15 kHz variable (w/MXBK-2917)

Equalizer:
- High frequency: 10 kHz, ± 15 dB, shelving
- Mid frequency: 150 Hz to 5 kHz, ± 15 dB, shelving
- Low frequency: 80 Hz, ± 15 dB, shelving

Filter:
- Low cut filter: 80 Hz (at -3 dB), 12 dB/oct

Compressor:
- Threshold: -20 dB to -10 dB
- Attack time: 1 ms to 5 ms
- Recovery time: 25 ms to 1,000 ms
- Ratio: 1:5:1 to 5:1

Limiter:
- Threshold: -12 dB to -12 dB
- Attack time: 100 μs
- Recovery time: 500 ms
- Ratio: 20:1

**Metering:**
- VU or peak

**Outputs:**
- LINE OUT, GROUP OUT (up to 4)

**Output Connectors:**
- LINE: 45-pin multi-connector
- GROUP: 45-pin multi-connector
- TB: 45-pin multi-connector

**Power Requirements:**
- AC-90-132V or 198-264V (w/AC-P8 or AC-P2000A)

**Power Consumption:**
- MXP-2908: 200 W
- MXP-2916/P: 280 W
- MXP-2926/P: 350 W
- MXP-2936/P: 450 W

**Dimensions (WHD):**
- MXP-2908: 476.2 x 620.3 x 158.5 mm (18⅞" x 24½" x 6⅞")
- MXP-2916/P: 850.9 x 331.7 x 624.2 mm (33⅞" x 13¼" x 24⅛")
- MXP-2926/P: 1257.3 x 331.7 x 624.2 mm (49⅞" x 13¼" x 24⅛")
- MXP-2936/P: 1663.7 x 331.7 x 624.2 mm (65⅞" x 13¼" x 24¼")

**Weight:**
- MXP-2908: 63 lb. (28.9 kg.)
- MXP-2916/P: 125 lb. (57 kg.)
- MXP-2926/P: 175 lb. (80 kg.)
- MXP-2936/P: 225 lb. (102 kg.)

Library Management Systems

DVC-80/DVC-300M/DVC-500S/ DVC-600M/DVC-1000S

D-2 Multi-Cassette System

- Uses composite digital (D-2) VTR—DVR-C20/C20P
- Four VTRs can be internally accommodated (Expansion to six VTRs is possible)
- 12 x 10 digital video matrix switcher
- 12 x 10 digital audio matrix switcher
- Choice of cassette size and capacity: DVC-80S provides 84 S-size D-2 cassette capacity (All direct access bins); DVC-80 provides 84 S-size/M-size D-2 cassettes capacity (All direct access bins); DVC-300M provides 316 M-size D-2 cassette capacity (28 direct access bins); DVC-500S provides 460 S-size D-2 cassette capacity (28 direct access bins); DVC-600M provides 668 M-size D-2 cassette capacity (28 direct access bins); DVC-1000S provides 1036 S-size D-2 cassette capacity (28 direct access bins)
- Direct access bins allow cassette insert/eject even during on-air operation
- Equipped with cassette input and output ports for long term bins (except DVC-80S/80)
- High speed elevator mechanism
Specifications

INTERNAL VTRs

- DVR-C20/C20P: Max. 6 VTRs (optional)
- Minimum Preroll: 0.6 sec. (Standby to CF lock)
- Audio Stabilization: 0.6 sec.

EXTERNAL VTRs

- Sony 9-pin equipped VTRs

CONNECTIONS

- Reference Signal: Black burst
- Color Reference: SMPTE/EBU time code, XLR input
- External Event Input: A and B program out. Next event, Monitor channel
- Output Channels: 1 channel (data for current and next event), 1 RS-422 port accepts either IF-10 or BVR-12/15
- Character Superimposer: 1 parallel port
- Remote Control: 1 parallel control port

Max. 6 VTRs (optional)

0.6 sec. (Standby to CF lock)

BVC-80/BVC-400A/BVC-1000A
Betacam SP Multi-cassette System

- Uses Betacam SP VTRs
- Four VTRs can be internally accommodated (Expansion to six VTRs is possible)
- Optional DVS-V1616 switcher accommodates DVW VTR's
- 12 x 12 video matrix switcher
- 12 x 12 stereo audio matrix switcher
- Choice of cassette size and capacity; BVC-80 provides 84 S/L-size Betacam cassette capacity (All direct access bins); BVC-400A provides 351 S-size and 28 S-size/L-size Betacam cassette capacity (28 direct access bins); BVC-1000A provides 1114 S-size and 28 S-size/L-size Betacam cassette capacity (28 direct access bins)
- Direct access bins accommodate both L-size and S-size cassettes and allow insert/eject even during on-air operation
- Equipped with cassette input and output ports for long term bins (except BVC-80)
- High speed elevator mechanism
Specifications

**INTERNAL VTRs**
- BVW-60/60P: Replay, Max. 6 VTRs (optional)
- BVW-65/65P: Replay with DT, Max. 6 VTRs (optional)
- BVW-70/70P: Recorder, Max. 6 VTRs (optional)
- BVW-75/75P: Recorder with DT, Max. 6 VTRs (optional)
- Minimum Preroll: 0.3 sec. (from still mode)
- 0.9 sec. (from tension release)
- Audio Stabilization: 0.5 sec.

**EXTERNAL VTRs**
- Sony 9-pin equipped VTRs

**CONNECTIONS**
- Reference Signal: Black Burst
- Clock Reference: SMPTE/EBU time code, XLR input
- External Event Input: 1 NTSC/PAL input
- Output Channels: A and B program out, Next event, Monitor channel
- Character Superimposer: 1 channel (data for current and next event)
- Remote Control: RS-422 port accepts either IF-10 or BVR-12/15
- Tally Interface: 1 parallel port for tally signal interconnection
- External Barcode Reader: 1 RS-422 port for connection to BVBR-10

**BARCODE LABELS**
- Code Format: Interleaved 2 to 5

**APPLICATION CONTROLLER**
- **Disk Drive:** Hard disk (286MB)
- **Disk Format:** 3.5" (1.0MB) microfloppy drive x 1
- **Memory Backup:** Hard disk or uninterruptable power supply

**Standard Interface:**
- ETHERNET x 1
- SCSI x 1
- RS-232C x 2
- Centronics parallel x 1

**Optional Interface:**
- NWB-231A 4 channel
- RS-232C/422 serial interface board

Betacart System

BVC-10
Betacart System
- BVC-E10 console; 40 S-size Betacam SP cassette capacity; Storage bins allow cassette insert/eject even during on-air operation; High speed/two port elevator mechanism; Uses Betacam SP VTRs, BVW-95/95P/96/96P
- BVS-V1212 12 x 12 video matrix switcher
- BVS-A1212 12 x 12 stereo audio matrix switcher
- DVS-V1616 serial digital switcher and DVW-C500 side loading digital Betacam

Specifications
GENERAL
- Power Requirements: AC-90V-265V, 48 Hz-64 Hz
- Power Consumption: 1.4 KVA
- Operating Temperature: 5°C to 40°C (41°F to 104°F)
- Humidity: 25%-80% RH, non-condensing
- Dimensions (WHD): 1025 x 2050 x 710mm (40 5/8" x 80 3/4" x 28")
- Weight: 1146 lb. (520 kg.)

SYSTEM
- Cassette Players: Sony BCT-5G/10G/20G/30G, BCT-5M/10M/20M/30M
- Cassette Capacity: 40 cassettes maximum
- Cassette Players Format: BVW-95/95P/96/96P (x 4) (optional), side loaded, Betacam format
- Format: Sony Betacam CTDM
- Cassette ID: SMPTE/EBU Time Code/Bar Code Label
- ID Format: ID Code, Title, Start of Message, End of Message, Duration
- Host Interface: RS-422
- Remote Interface: RS-422, interface to parallel control systems by serial/parallel interface
- Printer Port: RS-232C, serial

CENTRAL CONTROL SYSTEM
- Disk Drives: 3.5" format (x 2)
- Desk Format: MS-DOS® compatible
BFC-1

FLEXICART™ Multi-Cassette System

- Flexible configuration of VTRs and cassette bin units allows installation of Sony DVR-28/20/18/10 series, D-2 VTRs, or BVW-75/70/65/60 series, Betacam SP VTRs (also S-VHS models) which are recognized by the television and post production industry for their high quality picture reproduction and reliable operational performance.

- Compatible cassette bin units achieve flexible cassette handling by allowing operators to use any cassette tape length, regardless of its size.

- For flexible system configurations equipped with the VCC (Versatile Cart Controller) interface communicating through a RS-232C/422A selective port, which enables versatile connection with an application controller.

- IBM PC/AT based application software for simple operation.

APPLICATION OVERVIEW

The Flexicart system's unique collection of features—size, functionality, reconfigurability—makes it an incredibly versatile system. And the incredibly low price means that a wide range of needs can be cost-effectively automated.

Program Playback. Now any operation can automate its program playback with the Flexicart. VTRs are readied, tapes are cued and events are switched automatically. Tapes can be loaded in advance—there's no shuffling back and forth of tapes, no need to stand by to load a tape. The Flexicart maximizes VTR resources with a minimum commitment of human resources.

Recording. More and more program material is delivered by satellite feed rather than in tape form. Someone has to be on call to initiate and monitor the recording—no matter what time the feed comes in. The Flexicart now lets you automate the process, freeing up your valuable manpower.

News. By the same token, the Flexicart has some powerful news applications. The Flexicart can record incoming news service and local feeds from ENG vans. Your recording is not limited by the length of a cassette because the Flexicart automatically switches to the next cassette. And, when the news segments have been edited, they can be replayed by the Flexicart.

Sports. And in the sports arena, the Flexicart system's ability to record any length material makes it particularly well suited to recording lengthy sports events.

Cable. Plays back even the most demanding schedule of cable movies and filler material. The Sony software allows up to four different outputs.

Time Delay. The network feed arrives on the hour, but you need to delay broadcast by five minutes. Or an hour. With the Flexicart, whether you want to extend primetime or adjust for a time-zone difference, you can make it happen automatically and seamlessly.
Flexicart System

APPLICATION OVERVIEW (BFC-1, cont.)

Editing. The Flexicart makes editing tasks like auto-assembly and personalization of promo tags an easy automated process.

Dubbing or striping. Use the Flexicart to automate these procedures during off-peak hours, maximizing resources, saving time and cutting costs.

A wide range of software packages—both from Sony and third party vendors—make the Flexicart perfect for applications you may never have considered automating. This kind of flexibility lets you reassign manpower to other areas, smooth operations and help you accomplish things you never had time for before. In fact, the Flexicart can be used in so many ways, it’s impossible to describe them all here.

Optional Accessories:

- BVS-V1212 Analog Video Routing Switcher
- BVS-A1212 Analog Audio Routing Switcher
- DVS-V1616 D-1/D-2 Serial Digital Routing Switcher
- DSU-A210 AES/EBU Digital Audio Routing Switcher
- DAD-A210 Audio AD/DA Converter
- Application Software Packages
  - BZC-100: Remote Control Software
  - BZC-110: Playback Software
  - BZC-120: Record Software

¹: Each cassette bin can hold one L/M-cassette or two S-cassettes, except for the BKFC-10S for S-VHS cassettes.

²: Space for radiation

Specifications

General
- Power Requirements: AC 100/120/220/230/240V, 50/60 Hz
- Power Consumption: 600 VA (without VTRs)
- Operating Temperature: 5°C to 35°C (41°F to 95°F)
- Operating Humidity: 25%—80% (non-condensing)
- Weight: 551 lb. 2.5 oz. (250 kg.) (without VTRs, cassette bin units and cassettes)
- Dimensions (WHD): 600 x 1800 x 1090mm (23⅞” x 78” x 43”)

Connections
- Remote Control Interface: REMOTE-1
- RS-422A D-SUB 9-pin
- REMOTE-2
- RS-232C D-SUB 25-pin
- Parallel Interface: D-SUB 50-pin
- Reference Video in: BNC Black burst or Composite video
- Time Code in: BNC

F-8
VLCS-800

Video Hi8 Library System

- Large Capacity and Compact Console permits storage of up to 808 videocassettes
- 32 VTR Capacity
- Multiplex Signal Transmission allows video, audio, and remote signals to be transmitted up to 1 km via a single coaxial cable
- Video Hi8 VTR provides both Hi8 and standard playback
- Intelligent System Control by the Sony NEWS computer using the VL-ZC800 Multi Cassette System Software
- 32 x 32 Matrix Multiplex Switcher
- VL-DC1 Device Control Unit converts RS-422 serial interface signals from the NEWS computer into parallel signals to control the MPXS-3232 Multiplex Switcher
- MPXM-1 Multiplex Modulator Unit (Optional) captures external sources, such as those from VTRs or studio cameras shooting live programs
- VL-PS1 Program Selector Unit is designed for easy access to the desired programs
- MPXD-1 Multiplex Demodulator Unit (Optional) provides demodulation capability of a multiplex signal without a program selection function

Supplied Accessories:
- VL-CC800 Multi Cassette Console
- VL-V8 (NTSC) Video Hi8 VTR
- NEWS Computer
- MPXS-3232 Matrix Multiplex Switcher
- VL-DC1 Device Control Unit
- VL-PS1 Program Selector Unit
- AC Power Cord
- Operating Manual

Optional Accessories:
- MPXM-1 Multiplex Modulator Unit
- MPXD-1 Multiplex Demodulator Unit

Multicassette Systems Software Packages

BZC-100
Remote Control Software
This package operates on IBM PC/AT compatible computers with MS-DOS® (V5) and Windows® (V3.1, enhanced mode) installed as their operation system. The software provides comprehensive on-screen HELP menus for operational assistance. Based on GUI (Graphical User Interface) operation, the BZC-100 Remote Control software supports manual control of the entire FLEXICART system, including internal VTRs and external video and audio routing switchers. During operation of this program, graphical representations of cassette bins, VTR front panels (including basic function keys and time code) and switcher matrices are displayed in each sub-window, showing the real-time status of the entire system. Cassettes loaded into the FLEXICART console are identified with their corresponding bin number, even while loaded in a VTR. By simply designating these output external pulses to trigger external equipment such as a switcher or DME. The timing of these pulses can be adjusted to occur before, after or Co-incident with a Playlist event.

Utilities for The Playback Program
■ Edit Function—The Playlist can be edited either online or off-line. The off-line editing utility has the same function as on-line, but without operational commands.
■ Status Monitoring—During operation of the Playlist, the status of each event is displayed, together with a message, as the schedule is being implemented. ■ Auto Skip Control—When an error occurs during the execution of a Playlist event, this event can be automatically skipped and the next event started to avoid interrupting the entire schedule. ■ As Run Log and Channel Record Log—As the Playlist schedule is carried out, the completion of each event is logged into the As Run Log and Channel Record Log files respectively, together with actual start times and durations. The operator can then confirm later if scheduled events were correctly accomplished. If a malfunction occurs during an event, up to four error messages can be viewed from an on-screen pop-up sub-window and also logged. This is useful in diagnosing the location of a fault to allow quick restoration of the system. ■ File Exchange—The Playlist files can be exchanged between the FLEXICART application controller and a host computer via a floppy disc. The format of the Playlist is also the same as the BZC Series of application software for the LMS and Betacart ranges, providing full interchange of Playlist data with a Flexicart system.

BZC-110
Playback Software
This package operates on IBM PC/AT compatible computers with MS-DOS® (V5) and Windows® (V3.1 enhanced mode) installed as their operation system. Simultaneous operation of the BZC-120 and the BZC-110 is possible by the use of four VTRs, two for recording and two for playback. All the software provides comprehensive on-screen HELP menus for operational assistance. The installation of the BZC-110 Playback software provides automatic playback operation for applications such as sequential program transmission. This automatic playback operation is accomplished for a schedule known as a Playlist. Up to 1000 events can be programmed into a single Playlist and each Playlist is managed as a file in the Playback program. The Playlist can be programmed by using simple edit commands.

■ Transmission of programs to be played back from cassettes are scheduled as Play Events in the Playlist by storing details of their Start time, Bin number, SOM; start time code and duration. If some events are scheduled to be executed consecutively, then only the start time of the first event need be entered. The Playlist can be started manually or triggered by an external equipment or system via a parallel communication port. Additionally, one of four output channels can be selected for each event in the Playlist to transmit the output signal to the required destination. As well as Play Events, Logo Events and Break Events can also be programmed into the Playlist. During a Logo Event, the FLEXICART simply outputs a signal fed into the FLEXICART system switcher, making it simple to transmit external signals such as station and network logos. The Break Event holds Playlist execution while a live program, external to the FLEXICART system, is being transmitted. ■ The Playback program can also output external pulses to trigger external equipment such as a switcher or DME. The timing of these pulses can be adjusted to occur before, after or Co-incident with a Playlist event.

Utilities for The Playback Program
■ Edit Function—The Playlist can be edited either online or off-line. The off-line editing utility has the same function as on-line, but without operational commands.
■ Status Monitoring—During operation of the Playlist, the status of each event is displayed, together with a message, as the schedule is being implemented. ■ Auto Skip Control—When an error occurs during the execution of a Playlist event, this event can be automatically skipped and the next event started to avoid interrupting the entire schedule. ■ As Run Log and Channel Record Log—As the Playlist schedule is carried out, the completion of each event is logged into the As Run Log and Channel Record Log files respectively, together with actual start times and durations. The operator can then confirm later if scheduled events were correctly accomplished. If a malfunction occurs during an event, up to four error messages can be viewed from an on-screen pop-up sub-window and also logged. This is useful in diagnosing the location of a fault to allow quick restoration of the system. ■ File Exchange—The Playlist files can be exchanged between the FLEXICART application controller and a host computer via a floppy disc. The format of the Playlist is also the same as the BZC Series of application software for the LMS and Betacart ranges, providing full interchange of Playlist data with a Flexicart system.
Multicassette Systems Software Packages

BZC-120

Record Software
This package operates on IBM PC/AT compatible computers with MS-DOS™ (V5) and Windows™ (V3.1, enhanced mode) installed as their operation system. Simultaneous operation of the BZC-120 and the BZC-110 is possible by the use of four VTRs, two for recording and two for playback. All the software provides comprehensive on-screen HELP menus for operational assistance.

With BZC-120 Record software installed, input sources can be automatically recorded according to a schedule. It can be used for various applications, for example the automatic recording of programs received from a key station on a network line, the continuous recording of a long duration event such as a live sports program or tape initializing (striping). The Record program operates in a similar way to Playback program. However an additional feature is that each source channel can be identified with an ID word to allow an operator to clearly recognize each input source. The Recordlist also allows up to three different input signals to be recorded as a tape header prior to recording the source program. This is ideal for recording a station logo and reference and test signals such as black burst, color bars and 1 kHz audio signal. The source signal can also be recorded with either a preset time code or current time, depending on Setup menu selection.

Utilities for the Record Program

- **Edit Function**—The Recordlist can be edited either on-line or off-line. The off-line editing utility has the same function as on-line, but without operational commands.
- **Status Monitoring**—During operation of the Recordlist, the status of each event is displayed, together with a message, as the schedule is being implemented.
- **Auto Skip Control**—When an error occurs during the execution of a Recordlist event, this event can be automatically skipped and the next event started to avoid interrupting the entire schedule.
- **As Run Log and Channel Record Log**—As the Recordlist schedule is carried out, the completion of each event is logged into the As Run Log and Channel Record Log files respectively, together with actual start times and durations. The operator can then confirm later if scheduled events were correctly accomplished. If a malfunction occurs during an event, up to four error messages can be viewed from an on-screen pop-up sub-window and also logged. This is useful in diagnosing the location of a fault to allow quick restoration of the system.
- **File Exchange**—The Recordlist files can be exchanged between the FLEXICART application controller and a host computer via a floppy disc. The format of the Recordlist is also the same as the BZC Series of application software for the LMS and Betacart ranges, providing full interchange of Recordlist data with a Flexicart system.
BZC-1100

LMS Application Software Package

- Commercial/program direct on-air replay
- Off-line tape preparation
- Barcode label identification
- Single segment commercials (random order replay)
- Sequential multi-segment programs (sequential order replay)
- Control up to four external VTRs
- Automatic spot reel recording and back-up replay option
- Preview facility with "Preview record"
- Record option
- Up to four user work stations
- Traffic interface
- Automation interface
BZC-2100

LMS Application Software Package
- Commercial/program direct on-air replay
- On-line tape preparation
- Data based identification
- Random multi-spot commercials
- Sequential multi-segment programs (off-line prepared tape, sequential order replay)
- Control of four external VTRs
- Dual mother tape system
- Control of equipment for replay of source material
- Preview facility with "Preview record"
- Upgradeable from BZC-1100
- Up to 10,000 spots on-line
- Control of external program playback VTRs (BZCA-2101 – option)
- Automatic spot reel backup and simultaneous replay (BZCA-2102 – option)
- Traffic interface (BZCA-2102 – option)
- Automation interface (BZCA-2103 – option)
- Record utility (BZCA-2104 – option)
- Graphic user interface (BZCA-2105 – option) (multi-window display – option – multi LMS control)
Multicassette Systems Software Packages

BZC-3009
LMS Application Software Package
- On-line tape preparation
- Data based identification
- Random multi-segment commercials
- Automatic Commercial compilation of transmission tape with external VTRs
- Off-line transmission system
- Single and dual cart configurations
- Up to 10,000 commercials on-line
- X-window graphical user interface
- Up to 6 workstations
- User and terminal security system
- Ultimate in system reliability
- Traffic interface
- Simultaneous compiling and filing of commercials

BZC-0201
Betacart Application Software Package for Commercials Replay
- Commercial transmission package
- Extensive playlist editing facilities
- Last minute changes even while on air
- Traffic interface
- Automation interface
- Off line tape preparation

BZC-0101 Series
Betacart Application Software Package for News Presentation
- Automatically assigns consecutive stories in the play list to up to 4 output channels
- Independent control of each channel
- Continuous display of countdowns of each story
- Traffic interface
- Automation interface
- Off line tape preparation
Sony Cassette Management System

COMBAK™

Backup Compiler System

- Fast, Simple Backup Reel Assembly: The COMBAK™ system runs on the same PC as the CPS Cassette Preparation System and uses the VTRs already connected to CPS as a simple edit pair to compile backup spot reels. Using a copy of the cart system's playlist, the COMBAK™ Backup Compiler provides bin locations for the required cassettes. It prompts the operator to retrieve the cassettes and load them into the source VTR. As the cassettes are loaded, the COMBAK™ system automatically assembles a backup spot reel. Editing capabilities include Add, Delete, Move, and Redo. A list of events compiled onto tape can be automatically printed out.

- When integrated into MMS (to complete CMC-2100) all data transfer may be accomplished by electronic transfer between the LMS and the COMBAK™ system.

- Minimal Operator Input: When the COMBAK™ system is resident on the CPS PC, it has full access to the cassette database. This tight integration of the COMBAK™ Compiler with the CPS database results in advanced features that greatly simplify operation. In a panic situation, it provides immediate access to SOM and duration information.

- Time-Saving and Hardware-Saving: The COMBAK™ system can replay the compiled spot reel directly from the record VTR after the assembly process is completed for each sequence. Using this feature, backup reels can be quickly readied for airplay without the need for additional hardware. The COMBAK™ Backup Compiler System is thus an invaluable, highly cost-effective investment for any station with a Sony multi-cassette system.
Sony Cassette Management System

CPS

**Cassette Preparation System**

CPS significantly improves the efficiency and precision of dubbing room operations. A PC-based off-line tape preparation system, CPS automates the repetitive, labor-intensive tasks involved in cassette dubbing and identification for Sony multicassette systems. It accommodates both single- and multi-segment tapes. Furthermore, CPS creates a database into which all new material is automatically logged.

**Faster, Easier Dubbing**

The advanced Auto-Dub™ feature simplifies the transfer process. The entire process is essentially automatic, requiring little more of the operator than loading and unloading the VTRs.

After the spot master has been threaded and cued on the source VTR and a blank cassette loaded into the record VTR, the Auto-Dub™ system takes over the dubbing process. After dubbing, an automatic preview feature allows for EOM (End of Message)/SOM (Start of Message) verification and correction. The label is printed and applied to the cassette while the spot is logged into the database.

**Improved Multi-Segment Cassette Preparation and Management**

CPS also simplifies the process of preparing multi-segment tapes. The Sony Multi-Segment Identification System or SID (Segment ID) Code is a “directory” of program segment locations and durations written into the timecode user bits. Unlike external identification methods, all relevant segment information resides entirely on tape in the user bits. Multi-segment cassettes thus retain the full transportability and ease of management associated with single-segment barcoded cassettes.

When CPS is used to prepare multi-segment tapes, the user bit data is automatically verified. In addition, segment user bit information can be read, modified, and rewritten should the program format change. And since CPS automatically logs the completed multi-segment cassettes into a database, media management is enhanced while cart room operations are streamlined.

**Early Warning Protection**

By providing the ability to check playlists prior to their use in Sony multi-cassette systems, CPS helps avert last-minute panic situations. A powerful analysis feature compares a new playlist to the database. Potential problems—such as missing (unmade) cassettes, title mismatches, and exceeding the maximum-play count—are quickly identified, leaving ample time to take any necessary corrective action.

**Simple, Precise Database Maintenance**

CPS permits a variety of database tests to be performed with ease and provides more positive control over the insertion and deletion of cassettes. For example, when CPS resides on a network with MMS or MTS, the traffic interface permits a purge list be printed at any network station. Using the optional barcode reader, the CPS operator can quickly and easily act on the list to remove inactive cassettes from the database.

**CPS + MMS/MTS: An Even Better Way to Prepare Cassettes**

While the information needed to dub and barcode a cassette can be entered manually or transferred via floppy disk, it is ideally supplied to CPS electronically via MMS or MTS. This not only saves time, but also virtually eliminates the problem of missing or mismatched titles caused by operator typing errors.

Once the ID numbers, titles, durations, and any user data have been supplied to CPS, the operator can select a spot simply by moving the on-screen cursor to the title. All relevant information about the spot appears on the screen in the form of a barcode label. From there, the operator can initiate the Auto-Dub™ process with the push of key.
A traffic system interface should provide much more than simple log-to-playlist translation. MMS enhances the power of CPS and Sony multi-cassette systems by enabling them to communicate directly with your station's traffic computer. This critical link to traffic is enhanced by comprehensive translation and data transfer capabilities that eliminate the need to manually re-type list and log information from hard copies. MMS is in essence a remote "front end," providing vital information regarding a station's operations areas. It gives your traffic department access to detailed information on media inventory, including tapes in library storage and those loaded in Sony multi-cassette systems.

Efficient, Intelligent List Translation
MMS translates a station's traffic log/schedule into playlists ready for use on Sony multi-cassette systems. The translation of the raw data from the traffic system schedule can be customized to suit virtually any station configuration. For example, the translation process can be designed to accommodate non-cart events, or provide separate playlists for multiple cart systems.

In addition, MMS has the capability to translate dub lists and purge lists from a station's traffic computer into a format readable by Sony multi-cassette systems.

Versatile Data Transfer Capabilities
MMS expedites the flow of lists and logs in and out of your traffic department. Dub lists can be transferred from MMS to CPS workstations. Playlists can be transferred to Sony multi-cassette systems. Playlists can also be transferred to CPS, where they can be checked against the database for any missing cassettes.

MMS can also access the As-Run Log generated by a Sony multi-cassette system. This can be transferred back to the station's traffic computer for efficient, accurate reconciliation of daily schedules.

Comprehensive Database Management
MMS not only provides access to virtually every aspect of a cassette's history, but also helps you better utilize that information with flexible analysis and reporting tools. MMS can search the CPS and/or multi-cassette system database, then sort the information using a virtually limitless number of parameters. These can include, ID number, when the spot was dubbed, who performed the dub, when the spot aired, how often it aired, and numerous others. This expanded ability to gather and analyze media data enables a station to optimize operating efficiency.

MMS can also update the number of plays counter in the CPS database according to the traffic log or the multi-cassette system As-Run log. Based on this counter, a warning can be issued whenever a cassette exceeds a presetable maximum number of plays.

Powerful Playlist Editor
The versatility of MMS is further enhanced by its integral playlist editor. Using information from the CPS database, MMS enables the user to create and revise playlists with an absolute minimum of keystrokes. Typing errors are virtually eliminated, and many routine playlist modifications are vastly simplified. Event insertion, for example, can be accomplished easily with a search of the database or very quickly with an optional barcode reader. The editor also automatically performs accuracy checks and alerts the operator should it find any missing or erroneous event information.

MTS Media Translation System
MTS is a version of MMS that provides the file translation and transfer capabilities of MMS; it is a cost-effective solution when database management and playlist editing capabilities are not required.
BAC-1101A

Cart Controller for LMS

- The cart controller includes virtual device control and receives commands from the application controller. An important feature of this controller is its ability to provide real time control of the various devices.
- The cart controller utilizes a distributed processing system incorporating both 68000 and Z80 family devices.
- Through the cart controller, the application software provides control of up to 6 internal VTRs, as many as 3 or 4 external VTRs, audio and video switchers and the cassette storage console(s).
- In addition, the cart controller manages interfaces to a serial port for an emergency barcode reader, a parallel port for on-air transmission control (play, freeze, recue etc.), external trigger outputs, tally control.
- The cart controller includes a 40M BYTES hard disk and battery protected RAM to protect the system data from being deleted during power failures. After applying power, the cart control software is loaded from hard disk to RAM. Cassette data (bin number, cassette ID, SOM, DUR etc.) is maintained in the cart controller.
- The BAC-1101A exclusive for the LMS includes two main control systems: SCC (Standard Cassette Console) and VCC (Versatile Cassette Console). SCC is used mainly for control of VCC, external VTRs, internal switchers and CCC (Cassette Console Control) which controls virtual devices within cassette console.

Supplied Accessories:
- Power Code
- AC Plug Holder
- Mounting Tools
  - Rack Angle (6U) Assemblies, 1 set
  - Screws and Nuts, 1 set
- Extension Boards
  - EX-105 Assembly (rear extension board)
  - EX-181 Assembly (front extension board)
- 9-pin Interface Cable (50cm)
- Maintenance Manual

*This is included in a maintenance manual for DVC or BVD series multicassette system.

Specifications
- Dimensions (WHD): 424 x 280.5 x 500mm
  (16¾" x 11" x 19¾") (approx.)
- Weight: 66 lb. 3 oz. (30 kg.) (approx.)
- Power Consumption: 50W in Standard Configuration

BKAC-1105

9-pin Remote VTR Interface (Board and ROM Set)
- The BKAC-1105 is a ROM set to provide a VTR interface for the BAC-1101A cart controller, which is mounted on the BKAC-1103. It can control VTRs of not only Sony but also AMPEX® (VPR-3/6/80). A single BKAC-1105 with the BKAC-1103 allows the combination use of Sony and AMPEX VTRs. The power-on sequence identifies the VTRs connected to the BAC-1101A.
The application software is designed to run under the UNIX™ operating system on an application controller such as the Sony NEWS™ (Network Engineering Work Station) computer (NWS-1850). The application controller connects to the LMS Cart Controller which provides real-time control of the multi-cassette system and other devices within the system. The application controller provides a multi-tasking, multi-user environment for the operation of the system. The maximum number of operator terminals to be connected to the application controller depends on the application software package, each with full or limited access to the system, as determined by the user in the set-up mode. The application controller manages the user interface and maintains the system cassette database. Play lists, as run logs, data base files, and system files are maintained on this hard disk. The application controller also interfaces to host computers (including provision for both direct serial and micro-floppy disk interfaces to traffic systems), a (parallel) log printer, a barcode printer and an external barcode reader. The NEWS system of NWS-1850 used with the LMS also incorporates a 3.5” micro-floppy disk drive for writing and reading MS-DOS format disks. This system clock runs at 25 MHz for NWS-1850. An additional NWB-231A interface board provides 4 additional RS-232C/422 serial ports. The license for UNIX (UNIX 4.3 BSD for NWS-1850) is included in the system. A UPS (Uninterruptible Power Supply) should be used to protect the hard disk in the event of power failure. We recommend a minimum rating of 1500W for 5 minutes in order to protect the hard disk of the application controller and cart controller. This is sufficient to support the application controller, the cart controller and one control terminal. Software is layered and modularized for easy maintenance and modification, and mostly written in the C programming language. The NWS-1850 used with the LMS is a powerful workstation employing the following specifications:

**Specifications**

- **CPU:** MC 68030 (25 MHz)
- **I/O Processor:** MC 68030 (25 MHz)
- **MIPS:** 5.3
- **Main Memory:** 16 Mbytes
- **Cache Memory:** 64 Kbytes
- **3.5” FDD:** 720 Kbytes MS-DOS, 2 HD (formatted)
- **Hard Disk:** 286 Mbytes (formatted)
- **Standard I/F:** ETHERNET, SCSI, RS-232C x 2, CENTRONICS, PARALLEL
- **Dimensions (WHD):** 430 x 145 x 377 mm
  (17” x 5¾” x 14¾”) (approx.)
- **Weight:** 33 lb. (15 kg.) (approx.)
- **Power Consumption:** 600W (100–120V)
  650W (220–220V)

*MIPS = Mega-Instructions Per Second*
LMS/Betacart Accessories

NWB-231A
Serial Interface Board
- The NWB-231A is a serial interface board for the NWS-1850, with 4 channels of switchable RS-232C/RS-422 serial port.

BAC-1200
Control Terminal
- The application computer system in the LMS/Betacart system can support independent control terminals. For example, these may be used by master control, library, and engineering. The maximum number of control terminals used depends on the application software package.
- The BAC-1200 comes with two parts: control terminal and keyboard. The BAC-1200 is used with a color monitor (CPD-1302/1402E) which is mounted on the top of the control terminal, and connected via 9-pin remote control and RGB cables.

Supplied Accessories:
- RGB Cable (50cm)
- 9-pin Remote Cable (10m)

Specifications
- Dimensions (WHD): Control terminal: 300 x 65 x 380mm (11 3/4" x 2 1/2" x 15") (approx.)
  Keyboard: 516 x 43 x 206mm (20 1/2" x 13/4" x 8") (approx.)
- Weight:
  Control terminal: 6 lb. (2.7 kg.) (approx.)
  Keyboard: 5 lb. (2.3 kg.) (approx.)
- Power Consumption: 10W total

BVBC-10
Barcode Writer
- If the Betacam LMS/Betacart application requires only single segment tape replay but not sequential multi-segment or mother tapes, a barcode writer system is required. The Barcode writer system consists of a Barcode writer BVBC-10, a monitor, a Barcode Printer BVBP-11/14, and a VTR.

Supplied Accessories:
- Remote Control Cable (36-pin)
- Printer Parallel Cable (36-pin)
- XLR-3 pin Time Code Connecting Cable
- AC Power Cord
- Operation Manual
- Maintenance Manual

Specifications
- Dimensions (WHD): 452 x 87 x 263mm (14 4/5" x 3 1/2" x 10 1/5") (approx.)
- Weight: 11 lb. (5 kg.) (approx.)
- Power Consumption: 18W
The BVBP-11/12/14 is specially designed for high speed printing and semi-automatic attachment of barcode labels for Betacam small/large or D2 small/medium size cassettes. RS-232C serial and 36-pin parallel interface ports are included in each barcode printer to interface to the BVBC-10 Barcode writer. The types of cassettes which can be handled by the BVBP-11/12/14 are shown below:

- **BVBP-11**: Betacam small size cassettes
- **BVBP-12**: D2 small and medium size cassettes
- **BVBP-14**: Betacam small and large size cassettes

**Supplied Accessories:**
- BVCR-11 Ribbon Cartridge
- BVCP-10 Label Sheet
- Head Cleaner
- Rack Mount Handle*
- AC Power Cord
- Operation Manual
- Maintenance Manual

*Rack mount handle is not supplied with the BVBP-12/14. THE RMM-950 rack mount metal is required to mount the BVBP-12/14 on the 19" rack.

**Specifications**

**BVBP-11**
- Dimensions (WHD): 424 x 176 x 420 mm (16 1/2" x 7" x 16 1/2") (approx.)
- Weight: 56 lb. (25.5 kg.) (approx.)
- Power Consumption: 120W (120V), 135W (220V–240V)

**BVBP-12/BVBP-14**
- Dimensions (WHD): 424 x 221 x 450 mm (16 1/2" x 8 3/4" x 17 3/4") (approx.)
- Weight: 68 lb. (30.0 kg.) (approx.)
- Power Consumption: 120W (120V), 135W (220V–240V)
**LMS/Betacart Accessories**

**BVBR-10**

**Barcode Reader**
- The BVBR-10 reads any Sony barcode label attached to any Betacam SP small/large or D2 small/medium cassettes. It incorporates a scanning laser diode for fast operation. It is used with LMS for manual or emergency operation; for identifying programs replayed on external cassette VTRs; or used with the CMS* series system. This versatile product also has applications in any custom designed control system where barcode labels must be read. **The BVBR-10 includes beeper to make sure if a barcode is correctly read, and provides interface facility using either RS-232C or RS-422**

* CMS is a comprehensive cassette management system for an off-line tape preparation.

**Supplied Accessories:**
- AC Power Cord
- 9-pin Remote Cable (10m)
- Rack Mount Kit (1 set)
- Installation Manual
- Maintenance Manual

**Specifications**
- Dimensions (WHD): 424 x 87 x 255mm
  
- Weight: 11 lb. (5 kg.) (approx.)
- Power Consumption: 15W max.

---

**DSU-V210**

**Digital Video Matrix Switcher for D-2 LMS**
- A maximum system configuration is a 12 input x 10 output matrix. **Select from optional boards for analog or digital inputs, and analog or digital outputs (2 channels per board). A maximum of 11 optional boards can be installed.** Switches parallel digital/analog composite video. **Automatic chrominance phase control.** Protection against phase shift and jitter. **Built-in black burst and color bar generators.** **Built-in reference DA (Distribution Amplifier)—6 analog BNC outputs.** **Equipped with RS-422 control ports.**

**Supplied Accessories:**
- Rack Angle (1 set)
- EX-139 Extension Board
- AC Power Cord
- 7511 Terminator (for Reference Video)
- Operation Manual
- Maintenance Manual

**Specifications**
- Dimensions (WHD): 424 x 132 x 498mm
  
- Weight: 44 lb. (20 kg.) (approx.)
- Power Consumption: 100W max.
BKDS-V211
**Digital Video Input Board for DSU-V210**
- The BKDS-V211 is a digital input board for the DSU-V210. It accepts two channels of composite parallel digital video via its two connectors. When it is installed in the DSU-V210, the two input channels can be switched independently.

**Specifications**
- **Dimensions (WHD):**
  - Circuit Board: 20 x 380 x 105mm
  - (4¾" x 15" x 4") (approx.)
  - Connector Panel: 25 x 130 x 70mm
  - (1" x 5" x 2½") (approx.)
- **Weight:**
  - Circuit Board: 1 lb. 1 oz. (500 g.) (approx.)
  - Connector Panel: 7 oz. (200 g.) (approx.)
- **Power Consumption:** 6W max.

BKDS-V212
**Digital Video Output Board for DSU-V210**
- The BKDS-V212 is a digital video output board for the DSU-V210. When it is installed in the DSU-V210, two channels of composite parallel digital video can be output from its two connectors.

**Specifications**
- **Dimensions (WHD):**
  - Circuit Board: 20 x 380 x 105mm
  - (4¾" x 15" x 4") (approx.)
  - Connector Panel: 25 x 130 x 70mm
  - (1" x 5" x 2½") (approx.)
- **Weight:**
  - Circuit Board: 1 lb. 2 oz. (550 g.) (approx.)
  - Connector Panel: 7 oz. (200 g.) (approx.)
- **Power Consumption:** 7W max.

BKDS-V213
**Analog Video Input Board for DSU-V210**
- The BKDS-V213 is an analog video input board for the DSU-V210. It accepts two channels of analog composite video via its two BNC connectors. When it is installed in the DSU-V210, two input channels can be switched independently.

**Specifications**
- **Dimensions (WHD):**
  - Circuit Board: 20 x 380 x 105mm
  - (4¾" x 15" x 4") (approx.)
  - Connector Panel: 25 x 130 x 70mm
  - (1" x 5" x 2½") (approx.)
- **Weight:**
  - Circuit Board: 1 lb. 3 oz. (600 g.) (approx.)
  - Connector Panel: 7 oz. (200 g.) (approx.)
- **Power Consumption:** 10W max.
LMS/Betacart Accessories

BKDS-V214

Analog Video Output Board for DSU-V210

The BKDS-V214 is an analog video output board for the DSU-V210. When it is installed in the DSU-V210, two channels of composite analog video can be output in pairs from its four BNC connectors.

Specifications

- Dimensions (WHD): Circuit Board: 20 x 380 x 105mm (\(\frac{5}{8}\)" x 15" x 4") (approx.)
- Connector Panel: 25 x 130 x 70mm (1" x 5" x 2\(\frac{3}{4}\)" ) (approx.)
- Weight: Circuit Board: 1 lb. 4 oz. (650 g.) (approx.)
- Connector Panel: 7 oz. (200 g.) (approx.)
- Power Consumption: 6W max.

DSU-A210

Digital Audio Matrix Switcher

- Maximum system configuration is a 12 stereo input x 10 stereo output matrix
- Select from two types of optional boards: digital audio input and output boards
- A maximum of 11 optional boards can be installed
- Switches only serial digital audio conforming to AES/EBU format
- Protection against phase shift and jitter
- Two stereo channels per optional board
- Built-in 1 kHz audio tone and muted signal generators
- Equipped with RS-422 control ports
- Reference audio input facility to synchronize to external audio equipment
- Reference video input facility to synchronize to its input video

Supplied Accessories:
- Rack Angle (1 set)
- EX-139 Extension Board
- AC Power Cord
- 75Ω Terminator (for Reference Video)
- Operation Manual
- Maintenance Manual

Specifications

- Dimensions (WHD): 424 x 132 x 498mm (16\(\frac{1}{2}\)" x 5\(\frac{5}{8}\)" x 31\(\frac{3}{4}\)" ) (approx.)
- Weight: 40 lb. (18 kg.) (approx.)
- Power Consumption: 50W max.

BKDS-A211

Digital Audio Input Board for DSU-A210/A210P

The BKDS-A211 is a digital audio input board for the DSU-A210/A210P. It accepts two stereo channels of AES/EBU format digital audio via its two connectors. When it is installed in the DSU-A210/A210P, the two stereo input channels can be switched independently.

Specifications

- Dimensions (WHD): Circuit Board: 20 x 380 x 105mm (\(\frac{5}{8}\)" x 15" x 4") (approx.)
- Connector Panel: 25 x 130 x 70mm (1" x 5" x 2\(\frac{3}{4}\)" ) (approx.)
- Weight: Circuit Board: 14 oz. (400 g.) (approx.)
- Connector Panel: 7 oz. (200 g.) (approx.)
- Power Consumption: 1W max.
LMS/Betacart Accessories

BKDS-A212
Digital Audio Output Board for DSU-A210/A210P
  The BKDS-A212 is a digital audio output board for the DSU-A210/A210P. When it is installed in the DSU-A210/A210P, two stereo channels of AES/EBU format digital audio can be output from its two connectors.

Specifications
  Dimensions (WHD): 20 x 380 x 105mm
  Connector Panel: 2 x 150 x 70mm
  Weight: Circuit Board: 14 oz. (400 g.) (approx.)
  Connector Panel: 7 oz. (200 g.) (approx.)
  Power Consumption: 1W max.

DAD-A210
Audio AD/DA Converter
  Required for use with DSU-A210 if analog audio signals are incorporated within the system. Select from optional boards for A/D or D/A converter; A/D board: 2 analog inputs/1 stereo digital output; D/A board: 1 stereo digital input/2 analog outputs. Standard system configuration is 2 A/D and 4 D/A converter boards. A maximum of 10 optional boards can be installed. Reference audio and video input facilities.

Supplied Accessories:
  Rack Angles 1 set
  EX-139 Extension Board
  AC Power Cord
  7511 terminator (for reference video)
  Operation Manual
  Maintenance Manual

Specifications
  Dimensions (WHD): 424 x 132 x 449mm
  Weight: 44 lb. (20 kg.) (approx.)
  Power Consumption: 150W Max.

BKDA-A211
Analog Audio Input Board for DAD-A210/A210P
  The BKDA-A211 is an analog audio input board for DAD-A210/A210P. When it is installed in the DAD-A210/A210P, the analog audio signals fed to its two analog input connectors are converted into a stereo digital audio signal which conforms to the AES/EBU format.

Specifications
  Dimensions (WHD): 20 x 380 x 105mm
  Connector Panel: 25 x 130 x 70mm
  Weight: Circuit Board: 1 lb. 4 oz. (650 g.) (approx.)
  Connector Panel: 7 oz. (200 g.) (approx.)
  Power Consumption: 12W max.
BKDA-A212

Analog Audio Output Board for DAD-A210/A210P

The BKDA-A212 is an analog audio output board for DAD-A210. When it is installed in the DAD-A210, a stereo digital audio signal conforming to the AES/EBU format, is converted into two channels of analog (stereo) audio.

Specifications

- Dimensions (WHD): Circuit Board: 20 x 380 x 105mm (3/4" x 15" x 4") (approx.)
  Connector Panel: 25 x 130 x 70mm (1" x 5" x 21/4") (approx.)
- Weight: Circuit Board: 19 lb. 8 oz. (550 g.) (approx.)
  Connector Panel: 7 lb. (200g.) (approx.)
- Power Consumption: 12W max.

BVS-V1212

Analog Video Matrix Switcher for Betacam SP LMS/Betacart

- 12 input x 12 output matrix size
- Audio-video simultaneous switching is possible by looping RS-422 control on the BVS-A1212
- Built-in reference DA (Distribution Amplifier)
- 8 analog BNC connectors
- Reference video input facility to synchronize to the BVS-A1212
- Allows component video inputs with the interconnection of 3 BVS-V1212 units
- Retains the last cross points even after AC power is interrupted
- Equipped with two RS-422 serial control ports (one for loop-through)
- Parallel remote control from the optional BKS-R1210 remote control panel is possible

Supplied Accessories:
- AC Power Cord
- Plug Holder
- Unit Harness (D-sub 25P) (for connection to BKS-R1210)
- Extension Harness (20 pin) (for connection to BVS-A1212)
- 7511 Terminator (for reference video)
- Operation Manual
- Maintenance Manual

Specifications

- Dimensions (WHD): 424 x 88 x 350mm (163/8" x 33/4" x 13/5") (approx.)
- Weight: 15 lb. 8 oz. (7.1 kg.) (approx.)
- Power Consumption: 15W
BVS-A1212

Analog Audio Matrix Switcher for Betacam SP

LMS/Betacart

- 12 stereo input x 12 stereo output matrix size
- Two channels of audio switching capability
- Audio-video simultaneous switching is possible by looping RS-422 control on the BVS-V1212
- Selectable input/output audio impedance (input: 20k, 600Ω, balanced; output: 600/150/37.5Ω)
- Retains the last cross points even after AC power is interrupted
- Reference video input facility to synchronize to the BVS-V1212
- Allows 4 channel audio switching system with the interconnection of two BVS-A1212 units
- Equipped with two RS-422 serial control ports (one for loop-through)
- Parallel remote control from the optional BKS-R1210 remote control panel is possible

Supplied Accessories:
- AC Power Cord
- Plug Holder
- Unit Harness (D-sub 25P) (for connection to BKS-R1210)
- 75Ω Terminator (for reference video)
- Operation Manual
- Maintenance Manual

Specifications

- Dimensions (WHD): 424 x 132 x 350mm (16 1/2" x 5" x 13 1/4") (approx.)
- Weight: 34 lb. 6 oz. (15.6 kg.) (approx.)
- Power Consumption: 30W

BKS-R1210

Remote Control Panel

- The BKS-R1210 is a remote control panel for use with the BVS-V1212/A1212 analog matrix switchers. It provides manual cross point selection via D-sub 25-pin remote control cable supplied with the BVS-V1212/A1212.
- In addition, by using an extension harness (20 pin) supplied with the BVS-V1212, a video-audio simultaneous switching is possible.

Specifications

- Dimensions (WHD): 482 x 44 x 30mm
- Weight: 230 g (Approx.)
- Power Consumption: Max. 0.1W (supplied from the connected switcher)
DVR-C20

Composite Digital VTR for D-2 LMS

- Digital Composite
- Superior multi-generation performance
- Digital error correction and concealment for ultimate reliability and ruggedness

- Two cassette sizes accommodated:
  - Small D2S-6M/12M/22M/32M
  - Medium D2M-6M/12M/22M/34M/64M/94M
**LMS/Betacart Accessories**

**BVW-75/70/65/60**

**BVW-75/70 Betacam SP Recorder/Players**
- The BVW-75 provides more than 90 minutes (NTSC)/100 minutes (PAL) record/playback time with large cassettes. It offers 4 channels of audio and Dynamic Tracking (DT). ■ The BVW-75 can be used in either internal or external to the multi-cassette system
- The BVW-70 is a Betacam SP VTR that is basically the same as the BVW-75 except it does not offer Dynamic tracking (DT) ■ It can be used in either internal or external to the Multi-cassette system

**BVW-65/60 Betacam SP Players**
- The BVW-65 can be used in the Multi-cassette system if the application of the LMS includes only playback capability ■ It offers Dynamic Tracking capability and 4 channels of audio ■ The BVW-60 is a Betacam SP player that is basically the same as the BVW-65 except that it does not offer Dynamic Tracking

**Supplied Accessories:**
- AC Power Cord
- 9-pin Remote Control Cable (5m)
- 12-pin Dubbing Cable (Exclusive for BVW-70/75)
- Extension Board
- Operation Manual
- Maintenance Manual

**Specifications**

| Dimensions (WHD): | 427 x 237 x 520mm |

| BVW-65, 62 lb. (28 kg.) Max. (approx.) |
| BVW-60, 60 lb. (27 kg.) Max. (approx.) |
| Power Consumption: BVW-75, 240W Max. |
| BVW-70, 240W Max. |
| BVW-65, 175W Max. |
| BVW-60, 160W Max. |
LMS/Betacart Accessories

BVW-96
Betacam SP Recorder/Player for Betacart

- The BVW-96 is a Betacam SP recorder/player exclusive for Betacart system to be used with recording software. It enables time delay operation and other recording applications. The BVW-96 offers Dynamic Tracking (DT) capability and 4 channels of audio.

BVW-95
Betacam SP Player Exclusive for Betacart

- The BVW-95 is a Betacam SP player exclusive for Betacart. It can be used in Betacart System when the application of Betacart includes only playback capability. The BVW-95 offers Dynamic Tracking capability and 4 channels of audio.

Supplied Accessories:
AC Power Cord
9-pin Remote Control Cable (5m)
12-pin Dubbing Cable
Extension Board
Operation Manual
Maintenance Manual

Specifications
Dimensions (WHD): 482 x 309 x 641mm
(19” x 12” x 25 1/4”) (approx.)
Weight: 77 lb. (35 kg.) (approx.)
Power Consumption: 230W (NTSC), 245W (PAL)

BKE-9600
Intelligent Device Controller

- The BKE-9600 is the general purpose Intelligent Device Controller (IDC) used with the BKC-1601/BKC-1612 optional boards. These optional boards are installed in this controller. IDC is equipped with RS-422 serial control ports, and with reference video inputs for system synchronization (one for loop-through)

Supplied Accessories:
AC Power Cord
Plug Holder
Rack Angle Assembly (1 set)
Rack Mount Screws (1 set)
Equipment Number Label (1 set)
Installation and Maintenance Manual

Specifications
Dimensions (WHD): 424 x 43 x 410mm
(16 5/8” x 1 3/4” x 16”) (approx.)
Weight: 12 lb. (5.4 kg.) (approx.)
Power Consumption: 25W
BKC-1601
Title Character Generator Board (NTSC)

The BKC-1601 is the title character generator board installed in the BKE-9600. It permits information to be superimposed on the video signals for monitors. In the BKC-1601 installed in the BKE-9600, information on character and time is provided by the cart controller through the RS-422 control port. The BKC-1601 is equipped with two video input/output connectors and one input of video with VITC (Vertical Interval Time Code) for sending its VITC data back to the cart controller through the RS-422 control port. User must supply scanning circuit. The BKC-1601 is only used in the BZC-3100/3200 system.

Main Parts
- DP-38 Board
- TCR-5 Board
- BF-32 Board
- Rear Panels (4)
- ROM (2)

Supplied Accessories:
- Installation and Maintenance Manual
- Board Name Labels (1 set)
- 9-pin Control Cable (10m)

Specifications
- Color of Characters: 64 colors
- Number of Displayed Characters: Double size: 5 lines x 6 characters
- Normal size: 10 lines x 16 characters
- Display Mode: With border (white or black)
- Dimensions:
  - DP-38 board: 219 x 193mm (8½" x 7½") (approx.)
  - TCR-5 board: 210 x 94mm (8¾" x 3¾") (approx.)
- Power Requirements: Supplied from BKE-9600
**BKC-1612**

*Parallel/Serial Interface Board*

The BKC-1612 is a board installed into the BKE-9600 to permit mixed use of serial and parallel control of a serial device. It is used with the DSU/DAD series and the BVS series switchers to provide alternate selection of switcher cross points from customized switcher panel. The BKC-1612 receives commands and status from the switcher panel through parallel connectors, and converts its parallel signals into serial ones to provide them for an LMS application controller and switchers internal to the multi-cassette system. It is equipped with three 36-pin connectors for parallel input and output respectively. Users must supply the switcher panel as required.

**Main Parts**
- IF-169 Board
- PS-153 Board
- RX-5 Board
- Rear Panels (with cables connected to the boards) (4)
- Parallel Port Connectors (36-pin) (6)
- ROM (2)

**Supplied Accessories:**
- Installation and Maintenance Manual
- Board Name Labels (1 set)
- 9-pin Control Cable (10m)

**Specifications**

- **Dimensions:**
  - IF-169 Board: 219 x 94mm
  - (8½" x 3½") (approx.)
  - PS-153 Board: 219 x 193mm
  - (8½" x 7¾") (approx.)
  - RX-5 Board: 219 x 71mm
  - (8½" x 2½") (approx.)

- **Weight:** 6 lb. 10 oz. (3.0 kg.) (approx.)

- **Power Requirements:** Supplied from BKE-9600
LMS/Betacart Accessories

Supplied Accessories:
- AC Cable
- Extension Board
- ELCO 56-Pin Plug
- ELCO 20-Pin Plug
- Number Label

Specifications

Readable Code: Primary code, Segment code, Stop code, End code, User's code, Material code

Recorded Code: Through Parallel I/O: Stop code, End code
Through RS-422: All codes are acceptable except for material code

IF-9300A
VTR Interface Unit

The IF-9300A VTR Interface Unit provides simple and effective on-air control of VTRs external to the multi-cassette system, with use of the automation controller. Only simple commands may be required for replay of commercial or program materials in this on-air system using the IF-9300A. The IF-9300A is designed to be utilized in a direct on-air system for replay of compiled commercial or program tapes.

For tape preparation, the tape cueing point is determined, the stop code must now be recorded in the user bit area of LTC by means of the IF-9300A.

When used as part of an on-air system, the IF-9300A detects the stop code recorded in the user bit area of LTC and automatically stops the VTR.

Once the prepared tape is loaded into the on-air VTR, only two kinds of pulse from an external controller are required for on-air replay. One is the play pulse which is necessary for initiating replay of a segment, another is the switching pulse for the presentation switcher.

The IF-9300A also provides effective operation when used for on-air replay of the compiled tape prepared by the BZC-3100/3200 application software packages.

A further application for the IF-9300A is to provide emergency transmission of spot reel back-up tapes from a BZC-1100/2100 system.

- Provide such functions as "play", "stop", "rewind" and "standby on/off" for the DVR-10/BVW-75/BVH-3000 series studio VTRs
- Record and erase stop code in the user bit area of LTC through the ELCO 56-pin at the rear panel
- Detect stop code in a range of ±50 times normal playback speed, and automatically stop the VTR when the tape speed is normal
- Record/erase and detect the tape data in the user bit area of LTC, such as primary code (tape ID/title) and segment code (segment ID/title) when used with the external computer.
- Also detect material code in the user bit area of VITC
- Provide superimposer of characters: tape ID/title, segment ID/title, material code and time code when used with the external computer.
- Color display is also possible

| Character: | Alphabet (Capital) |
| Number: | KATAKANA (Japanese Alphabet) |
| Number of Characters: | 5 lines x 8 characters or 5 lines x 16 characters |
| Color: | White with black border |
| LTC Readable Range: | +1/4 to +50 times normal playback speed |
| VITC Readable Range: | Less than normal playback speed |
| Dimensions (WHD): | 424 x 88 x 350mm (161/2" x 31/2" x 131/2") (approx.) |
| Weight: | 17 lb. 8 oz. (8 kg.) (approx.) |
| Power Requirements: | AC 120V/220V-240V, 50/60 Hz |
| Power Consumption: | 20W |
IF-10

Parallel Interface Box
- The IF-10 is a parallel interface box to provide parallel control of LMS program transmission from a customized program transmission panel. It connects to the cart controller through RS-422 connector and to the transmission panel through parallel connectors. The commands include play, freeze, recue, tension, etc. It is equipped with alarm and status lines on separate connectors. The IF-10 is equipped with a pair of parallel input/output connectors (50-pin) and RS-422 serial remote out connector.

Supplied Accessories:
- 50-pin Plug (for Parallel Connector) (2)
- Rack Mount Screws (1 set)
- AC Power Cord
- Operation Manual
- Maintenance Manual

Specifications
- Dimensions (WHD): 424 x 43 x 440mm
- (16 3/4" x 1 3/4" x 17 3/4") (approx.)
- Weight: 11 lb. (5 kg.) (approx.)
- Power Consumption: 12W (max.)

BVR-12

Simple Remote Controller for Betacart
- The BVR-12 is a desk top controller that provides simple commands referring to on-air transmission with the multi-cassette system. It is designed for use with the Betacart system but is also supported in the LMS via RS-422 serial remote control port. The commands available for the BVR-12 are play, freeze, and recue.
- BVR-12: 3 channel remote controller

Supplied Accessories:
- 9-pin Remote Control Cable (10m)
- Operation Manual
- Maintenance Manual

Specifications
- Dimensions (WHD): 275 x 216 x 85mm
- (10 3/4" x 8 1/2" x 3 1/2") (approx.)
- Weight: 6 lb. 8 oz. (3 kg.) (approx.)
- Power Consumption: 7.5W max.

### LDP-2000

**Videodisc Player**
- Engineered for demanding professional applications and long-term reliability
- Automatic Optical Block Locking Mechanism
- Expandability—Plug-in boards allow upgrading the capabilities of your player
- High-Speed Access—CAV frame search is only 1.5 seconds or less
- The LDP-2000 offers extensive software control features including audio muting, video on/off, videodisc tray eject with enable/disable, memory search, picture stop code enable/disable, etc.
- External Computer Interface—An intelligent RS-232C serial communications port which receives commands from virtually any kind of computer and returns status information to the CPU
- Automatic Front-Load Mechanism

**Supplied Accessories:**
- 75Ω Coaxial Cable (F-type connector to F-type connector)
- Operating Instructions Manual

**Optional Accessories:**
- RM-2001 Remote Commander
- LDM-G1000 Interface Manual
- SMF-3036C Null Modem Cable
- SMF-5036C Null Modem Cable
- SMF-0033 IEEE-48 Cable
- DB-2010 Plug-in Board
- DB-2020 Plug-in Board
- DB-2040 Plug-in Board
- DB-2050 Plug-in Board
- DB-2060 Plug-in Board
- LDP-232A Cables
- LDP-488A Cables

**Audio Section**
- Outputs: 0 dBV (1 kHz, 100% modulation, 47 kΩ terminated) unbalanced
- Headphone: 8Ω, -21 dB max.
- Signal-to-Noise Ratio: CX On: 67 dB
  - CX Off: 55 dB
- Frequency Response: 20 Hz - 20 kHz ±2 dB

**External Computer Interface**
- Interface Type: RS-232C (Female, 25-pin, D-shell connector)
- Baud Rates: 1200, 2400, 4800 and 9600 selectable

**Operating Environment**
- Operating Temperature: 5°C to 35°C
- Operating Humidity: 25% - 80% non-condensing
- Storage Temperature: -20°C to 60°C
- -4°F to 140°F

**General**
- Power Requirements: 120V AC, 60 Hz
- AC Outlet: Unswitched, max. 300W
- Power Consumption: 75W max.
- Dimensions (WHD): 424 x 132 x 448mm (approx.)
- Weight: 29 lbs. 9 oz. (13.4 kg.)

---

### Specifications

#### Playback System
- **Videodisc Format:** Laservision
- **Videodisc Size:** 8" and 12"
- **Pick-up Method:** Laser beam (reflective)
- **Laser Type:** Semiconductor laser diode
- **Laser Output:** .7 mW max.
- **Maximum Playing Time:**
  - CAV: 30 min./side
  - CLV: 60 min./side
- **Spindle Revolution:**
  - CAV: 1800 RPM
  - CLV: 1800-600 RPM
- **Access Time:**
  - CAV: 1.5 sec. max.
  - CLV: 36.0 sec. max.

#### Video Section
- **Signal:** EIA standard, NTSC color
- **External Inputs:** Ext. sync (BNC), 4V ± 1.0Vp-p, 75Ω unbalanced
- **Outputs:**
  - Video Out (BNC) = 1.0Vp-p, 75Ω unbalanced, negative polarity sync
  - VHF Out (F-type): channel 3 or 4 selectable, 75Ω unbalanced
- **Resolution:** 360 lines
- **Signal-to-Noise:** 42 dB
LDP-1550

VideoDisc Player
- RS-232C interface for connection to external computers
- Multiple track jump function
- Quick random access within 2 seconds (CAV mode)
- Adopts the CX™ noise reduction system for high fidelity sound reproduction
- Auto repeat function
- Wired/wireless remote operation via the RM-2001 optional Remote Control Unit
- Can be synchronized with external sync signals using the optional DB-1550 Synch Lock/Generator board
- 19-inch standard rack mountable with the optional rack mount kit RMM-201B

Supplied Accessory:
- Operation Manual

Optional Accessories:
- DB-1550 Sync Lock/Generator Board
- LDM-1550 Interface Manual
- RM-2001 Remote Control Unit
- RMM-201B Rack Mount Kit

Specifications

**General**
- Disk Format: LaserVision
- Pickup Method: Laser beam (reflective)
- Laser: Semiconductor diode laser (λ = 7800Å)
- Maximum Playing Time: 300mm (12") standard play disc CAV (Constant Angular Velocity): 36 min./side
- 300mm (12") extended play disc CLV (Constant Linear Velocity): 60 min./side
- Spindle Revolution: CAV: 1800 rpm
- CLV: 1800 rpm (inner circumference to 600 rpm (outer circumference)
- Access Time: CAV: 2 sec. or less by frame number search, 10 sec. or less by chapter number search
- CLV: 10 sec. or less by chapter number search
- Disc Size: 300mm (12"), 200mm (8")
- Ext. Communication Port: RS-232C (D-sub 25-pin female)
- Baud rate: 1200/2400/4800/9600 (selectable)
- Power Requirements: AC-120V, 60 Hz
- Power Consumption: 39W
- Dimensions (WHD): 424 x 116 x 405mm (16¾" x 4½" x 16")
- Weight: 23 lb. 9 oz. (10.7 kg.)

**Video**
- Signal: EIA standard, NTSC color
- Output: Composite: 1Vp-p, 75Ω sync negative (BNC, TV 8-pin connector)
- Horizontal Resolution: 400 TV lines

**Audio**
- Output: Line Out: 0 dBV (1 kHz 100% modulation 47 kΩ terminated), unbalanced (Phono x 2, TV 8-pin connector)
- Headphone Out: -20 dBV (Variable resistance) max. 8Ω (Phono)
- Frequency Response: 40 Hz~20 kHz
- Signal-to-noise Ratio: 70 dB (CX on), 56 dB (CX off)

MDP-1150

Multi Disc Player™

- Universal playback of 12 inch and 8 inch videodiscs, 5 inch CDV discs, 5 inch and 3 inch digital CD audio discs
- Computer Connection (RS-232C) compatible with the Sony LDP series offers control of both videodisc and CD audio disc functions
- Bar code control compatible with LaserBarcode, LaserBarcode2 and Bar Code CD systems
- Dual scan mode shuttle for easy operation
- Front Panel Display
- Simple level—1 extended control with the included Wireless Remote Commander™ remote control
- Remote/Local switch allows level—1 control even while the player is connected to a computer
- Surround Sound for enhanced theater-like sound quality
- S-Video output terminal for improved picture quality
- Unique Clear Scan™ or CLV laser discs
- Programmable playback of up to 20 chapters or tracks
- RF adapter included for easy connection to any television set
- 8x Oversampling digital filter
- Playback of either digital or analog videodisc audio tracks

Supplied Accessories:
- RMT-1050 Remote Commander™
- Size AA Batteries
- RFU Adaptor
- Video Connecting Cord (Phono Male—Phono Male)
- Audio Connecting Cord (Phono Male—Phono Male)
- SMF-503C Computer Control Cable for Apple Macintosh® Computers
- Interface Manual
- Operating Instruction Manual
- Bar Magic BarCode Print Program Sample Disk

Optional Accessories:
- YC-15V S-video Connection Cable
- EAC-57 BNC Plug to Phono Jack Adapter
- LBS-1150 Laser BarCode Scanner
- RMB-1150 Infrared BarCode Controller
- SMF-5036 Cable Kit, NULL Modem Cable, 25 MF at AT 9-25 Pin Adapter

VIW-5000A
Low-Cost Interactive Delivery System

- Designed as a low-cost integrated delivery system workstation with advanced features and performance
- Its low profile, small-footprint one-piece configuration saves valuable work space and simplifies setup, installation and transportation.
- Offers compatibility with industry standard graphics, software, hardware and courseware practices.
- Features non-interlaced, flicker-free display, rapid access of 2.0 seconds or less, and overlay in VGA and Super VGA graphic modes.
- The addition of SMI-3086/5061 Light Pen support gives the View System a new value for applications where a light pen may prove to be more desirable.
- The ability to run most IBM® InfoWindow™ courseware provides a large library of ready-to-run courseware solutions.
- A single-vendor integrated system offering component compatibility, simplified interconnection, compact design and Sony high performance.

Optional Accessories:
SMW-3062 VDI (Virtual Device Interface) Software Package

Specifications
System Controller
- CPU: Intel 80286
- Clock Frequency: 8 MHz/10 MHz (keyboard switchable)
- Main Memory: 640K
- Standard Graphics Memory: 256K-(max. resolution: 640 x 480, 16 colors) can be increased with SMI-5051 graphics memory option.
- BIOS ROM: 128K Phoenix BIOS ROM Version 3.10
- DMA: 7 channel programmable DMA
- Expansion Slots: Two 16-bit, full length PC-AT compatible expansion slots

Display
- Graphics Output: Superimposed VGA graphics over video from videodisc player
- RGB Video Output: RGB analog signal, 0.7Vp-p, 75Ω
- Sync Signal:
  - Horizontal: 31.5 kHz
  - Vertical: 60 Hz when displaying any VGA graphics superimposed over video
  - 60 Hz when displaying VGA modes 11, 12 and 5F without superimpose
  - 70 Hz in standard VGA modes except for 11, 12, and 5F

I/O Interface
- Keyboard: 5-pin DIN jack, TTL level, serial interface
- RS-232C: 9-pin connector, programmable to 9600 baud asynchronous serial communication, COM1
- Printer: 25-pin connector, TTL level, 8-bit parallel interface, LPT1
- Real Time Clock: DS-1287 with battery backup (5 year life)
- Floppy Disk: Built-in controller on motherboard to support 3.5" micro floppy disk. Floppy disk drive supports both 1.44 MB (2HD) and 720K (2DD) diskettes
- Hard Disk Drive: Built-in hard disk drive controller on motherboard with AT task File Interface
- Videodisc Drive: Internal audio/video connections, system controller to videodisc communications are connected internally as COM6

Software Required

SMW-5001C: VIEW/VGA Operating System Package including MS-DOS 3.3 and VGA control program software VVCP version 1.35 providing IBM InfoWindow System Emulation

Optional Peripherals

Hard Drives

SCK-5015APAC: Hard Disk Drive Kit 42.6 MB (formatted) hard drive, Auto parking heads on power off. Includes SMF-5080 Hard Disk Drive Mounting Kit
Seek Time: < 19 ms (avg.)

SCK-5020BPAC: Hard Disk Drive Kit 100 MB (formatted) hard drive, Auto parking heads on power off. Includes SMF-5080 Hard Disk Drive Mounting Kit and EV-5000/01 EPROM Upgrade
Seek Time: < 19 ms (avg.)

Expansion Cards

SMI-5051: VGA Graphics RAM Expansion
SMI-5050c: 2 MB Memory Upgrade Provides extended and/or LIM 4.0 extended memory
SMI-3031: Dual RS-232C Board

Input Devices

SMI-3062: Mouse
SMI-3066/5061: Light Pen and Interface Card

Monitors

CPD-1302AW2: 13" Multiscan™ Monitor
GVM-1311Q: 13" Multiscan video/computer monitor
GVM-1316TSQ: 13" Multiscan video/computer Touch Screen Monitor

Cables

CTG-PS11: Analog RGB Cable for VGA graphics Male 15-pin to male 9-pin DSUB
SMF-3031: Standard RS-232C serial communications cable for touch screen monitors. 25-pin male to 9-pin female
Specifications

CPU
- Processor: V20HL™ (C-MOS software compatible with 8088 CPU)
- Clock Frequency: 9.55 MHz

Memory
- System RAM: 1 Mbyte
- Video RAM: 64 kbyte
- EE-ROM: 256 bytes
- Main ROM: 512 kbytes, 3.22 operating system
- Keyboard: Qwerty, numeric function, yes/no cursor pad
- LCD: 320 x 200 pixels; 7 shades of gray, backlit with adjustable contrast
- Audio: Internal monaural speaker (L&R)
- CD-ROM Drive: Lead screw type drive; 12cm without caddy (8cm acceptable) CD-ROM XA Format (1 stereo channel ADPCM audio)

Laser Diode Properties
- Material: GaAlAs
- Wave Length: 780 nm
- Emission Duration: Continuous
- Laser Output: < 44.6 µW (at 200 mm)

PIX-100
Multimedia CD-ROM Player
- Portable personal information product for general reference, business, education, entertainment, and personal productivity
- Plays multimedia CD-ROM player software and audio CDs
- Integrates playback of text, graphics and animation with CD quality sound
- Provides instant access to information
- Allows for high level of user interaction with information
- User’s guide CD-ROM disc includes player demonstration, tutorial, and interactive electronic instruction manual
- Each Multimedia CD-ROM disc stores 600MB of information; Up to 300,000 pages of text, 39,000 graphic images, or 16 hours of audio
- High resolution backlit 5 inch screen
- 256-Color video output
- Stereo audio output
- Built-in monaural speaker
- Screen displays 25 lines x 40 characters of text or 320 x 200 pixel graphics
- Easy to use typewriter-style keyboard
- Supplied rechargeable battery
- Programmable power-off timer
- Three-way power operation
- Scratchpad memory
- Character key language setting
- Slim compact design

Supplied Accessories:
- AC Adaptor/Battery Charger
- NP-55H Rechargeable Battery
- Player Demonstration, Tutorial, and Instruction Manual
- CD-ROM Disc
- Battery Attachment Stand
- Rechargeable Battery Pack
- AC Power Adaptor/Battery Charger
- Battery Attachment Stand (not shown)

Optional Accessories:
- NP-77H Rechargeable Battery
- DCC-E190L Car Battery Cord*
- MDR-E565 Headphones

*Use with car battery cord, will not recharge battery (NP-77H, NP-55H)

Outputs
- Video: NTSC composite (video out pin jack);
- Output Level: 1Vp-p
- Audio: Stereo mini-jack;
- Maximum output level 10 mW + 10 mW
- Serial Port: Asynchronous communications port accessible as COM1; Baud rate can be set to 110, 150, 200, 300, 600, 2400, 4800, and 9600 (supported applications required)

General
- Inputs: DC In
- Power Requirements: DC: NP-55H rechargeable battery
- AC: 120V, 60 Hz (supplied AC adaptor required)
- Power Consumption: 6W (approx.)
- Battery Life: Up to 2 hrs. continuous play (depending on conditions)
- Operating Conditions: Temperature: 5°C to 35°C (41°F to 95°F)
- Dimensions (WHD): 180 x 148 x 48mm (7 1/4" x 5 7/8" x 1 15/16") (approx.)
- Weight: 1.94 lbs. (870g) (approx.) without battery
SMI-3082

High Scan Superimposer

- Upgrades IBM-PC/XT/AT computers to implement interactive video systems
- Provides non-interface, flicker-free VGA graphics superimposition
- Compatible with CGA, EGA, VGA and advanced VGA

Supplied Accessories:
- Operation Manual
- Video Cable
- Utility Disk (3.5 inch DD) (5.25 inch 2HD)

Optional Accessories:
- SMW-3060C Control Program Software
- GVM-1315TS Touch Screen Monitor
- SRS Series Speakers
- SMW-3062 VDI Software Package
- SMI-3086/SMI-5061 Light Pen and Interface

Specifications

Display System:
- Maximum Resolution: 640 x 480 pixels/256 colors
- Graphics Memory: 512 Kbyte

Connectors
- Video Input: Phono Connector, 75Ω terminated
- Analogue RGB Output: High Density D-sub 15-pin

General:
- Dimensions (WHD): 339 x 107 x 22mm
  \((13\frac{1}{4}'' \times 4\frac{1}{4}'' \times \frac{7}{12}''\)\)
- Weight: 14 oz. (400 g.)

| Video: | Phono jack (x1), 1 Vp-p, 75Ω unbalanced, sync negative (input/output switch selectable) |
| Audio: | Phono jack (x2, L & R) |
|        | Input: -7.5 dBs, impedance more than 47 kΩ |
|        | Output: -1.6 dBs, impedance less than 10 kΩ (input/output switch selectable) |
| Control R: | 8-pin mini DIN (x1) |
| Headphones: | 3.5mm stereo minijack (x1) |

### IVO-V11

**Portable CD-I Viewer**

- CD-I represents an advanced multimedia application of the Compact Disc. In addition to audio, the CD-I disc can store text, graphics and high-quality color images. With a capacity of 600 MBytes, a single disc of 12 cm in diameter holds up to 16 hours of audio data, approximately 7,000 photographic quality pictures, or a whole copy of a 20-volume encyclopedia. The high capacity and multimedia capability of CD-I make it a powerful, high-leverage information tool, and at the same time, contribute greatly to cost and space savings. Aimed at the simplest possible operation. CD-I also provides a new way of information access.
- Designed for business and industry applications, Sony's CD-I viewer is simple to operate, compact and battery operated for complete portability. This cost-effective powerful information delivery tool is ideally suited for a variety of applications including presentations, sales, service, and reference. The Sony IVO-V11 provides cost-effective multimedia information for more effective communication of your important message.
- Worldwide compatibility
- User-friendly operation
- Exceptional data capacity (600 MBytes)
- Versatile special effects (Fade In/Out, Dissolve, Overlay, Scroll, Animation, Wipe and Mosiac)
- Complete portability (Operates on AC or Battery)
- Operational simplicity, just 2 buttons and a cursor pad give random access to the information required
- High Resolution Display (4” LCD Color Display which supports the multi-window system; The screen is backlit for easy viewing
- Flexible Audio/Video connection

**Supplied Accessories:**

- IVA-M10 CD-I Mouse
- AC-JV10 AC Power Adaptor
- Lithium Battery

**Optional Accessories:**

- LCH-V10 Carrying Case
- NP-77HD Rechargeable Battery Pack
- BC-S10 Battery Charger

**General**

- Power voltage: 7.5V/6V at battery input (AC power adaptor or battery pack)
- Power consumption: Approx. 9W
- Speaker output: 200 mW
- Operating temperature: 5°C to 35°C (41°F to 95°F)
- Dimensions (WHD): 139 x 63 x 193mm (5.47” x 2.48” x 7.60”)
- Weight: 2.6 lb. (1.2 kg.) (approx.)
CD-I Recording Capacity and Quality

CD-I enables high-density recording of text, audio, graphics and image data with an easy-to-handle, space-saving 12 cm disc. CD-I is also compatible with various coding formats, giving the flexibility you need to create applications that precisely meet your needs.

Digital Switchers

DVS-8000/8000C

Digital Video Switcher

- DVS-8000 Composite Digital Video Switcher—Accepts serial composite digital video signals
- DVS-8000C Component Digital Video Switcher—Accepts serial component digital video signals
- Analog composite video input is available (DVS-8000 only)
- A total of thirty-two Primary/External key inputs (except color black and two independent color backgrounds): DVS-8000 Serial composite digital video (standard)—8 ch
- Analog composite or serial composite digital video (option)—24 ch
- DVS-8000C Serial component digital video (standard)—32 ch
- Twenty-four inputs are assigned as primary sources and eight for external key sources
- Two M/E busses plus Program/Preset bus with mix/wipe/DSK capabilities
- Two independent key processors with priority control for each M/E bus
- Three types of mix/effects; Normal Mix, NAM (Non-Additive Mix), Super Mix
- Digital wipe function (Diamond Dust, Polygon, Spring wipe, Multi pattern, Spiral modulation, etc)
- Powerful key functions with Drop shadow, Drop Border, Outline, Border
- Clean Chroma Key™ system for each M/E bus (option)—Component signals are used for both foreground and background—Digital component video for DVS-8000C and analog R/G/B or Y/R-Y/B-Y for DVS-8000
- Color wash for background colors
- Snapshot memory
- Keyframe memory (Up to 1000 key frames or 100 effects)
- Status Report interface with the BVE-9100
- Keyframe link with the DME-5000/9000
- DME-5000 linked operation—DME Wipe, Squeezy Wipe

System configuration

DVS-8000 Composite digital switcher processor
DVS-8000C Component digital switcher processor
BKDS-8010 Control panel
BKDS-8020 Digital input board for DVS-8000 (8 ch)
BKDS-8021 Analog input board for DVS-8000 (8 ch)
BKDS-8030 Clean Chroma Key board for DVS-8000
BKDS-8031 Clean Chroma Key board for DVS-8000C
BKDS-8040 Frame memory board for DVS-8000
BKDS-8041 Frame memory board for DVS-8000C
BKDS-8050 Second 3½” floppy disk drive unit
BKDS-8090 Spare power supply unit

Specifications

Power Requirements: AC-100V–240V, 50/60 Hz (±10%)
Power Consumption: 300W
Dimensions (WHD):
  Processor 424 x 443 x 450mm (16⅜” x 17½” x 17¾”)
  Control Panel 1290 x 111 x 532mm (50⅞” x 43¼” x 21¼”)
Weight:
  Processor 110 lb. 4 oz. (50 kg)
  Control Panel 72 lb. 12 oz. (33 kg)
DVS-6000/6000C

Digital Video Switcher

- Module configuration
- Control panel
- Mix and wipe transition
- Key effects
- Alternative key functions
- Versatile chromakey functions
- Clean Chromakey™ (DVS-6000/6000C)
- RGB Chromakey (DVS-6000 only)
- Powerful effect memories
- Keyframe effects—optionally available
- Snapshot—stores all the panel settings
- Shotbox—permits ten memories each of snapshots and keyframes to be preset and recalled instantly
- Frame memories
- Color background mix
- System interface
- Compact processor
- Software upgrades readily implemented with a 3.5-inch floppy disc

The DVS-6000C component switcher operates on either the 625-line or 525-line system, with DIP switch selection

- Automatic phase adjustment function for input video signals within a range of ±0.4H
- Spare power supply option for minimizing downtime in the event of a fault

BVS-3200

Composite Video Switcher

- BVS-3200 Composite Video Switcher—Accepts composite video signals
- Ten Primary inputs (including color black and color background)
- One M/E and two Key Busses/Processors (assignable)
- Key Over function
- Two common EXT Key sources and Fills available for both Keyers
- One EXT Key source and Fill available for DSK
- Ten basic and eight matrix wipe patterns with modifiers
- Fully adjustable internal Box Mask and EXT Mask inputs
- Four Color Matte Generators for Background, EFF/Border (Key 1 and Key 2), and DSK
- Chroma Keyer (RGB or Y/R-Y/B-Y selectable)
- DSK with Border, Drop Shadow, Outline-2H/4H selectable
- Fade to Black (FTB) function
- Auto Transition for M/E, DSK, and FTB
- RS-422 editor interface
- Communication of E-File™ and initial panel information with BVE-910/9100/9000
- DME-450/450P and DFS-500 interface
- Four Black Burst Outputs
- GPI Input port for M/E, DSK, FTB, and Select
- Two PGM Outputs and one PVW Output

Supplied Accessories:
- AC Power Cord
- Control Panel Cable (5m)
- Extension Board

Optional Accessories:
- SWC-2530D Control Panel Cable (30m)
- RMM-3000 Rack Mount Kit

- Storage Temperature: -20°C to 60°C (-4°F to 140°F)
- Dimensions (WxHxD):
  - Control Panel: 424 x 111 x 440mm
    (163/4" x 3/4" x 173/4")
  - Processor Unit: 424 x 176 x 450mm
    (163/4" x 7" x 173/4")
- Weight:
  - Control Panel: 9 lb. 11 oz. (4.4 kg.) (approx.)
  - Processor Unit: 39 lb. 11 oz. (18 kg.) (approx.)
Analog Switchers

BVS-3100

Composite Video Switcher

- Ten Primary inputs (including color black and color background)
- One M/E and one Key Bus
- Two Ext Key sources and Fills available for Keyer
- One Ext Key source and Fill available for DSK
- Ten basic and eight matrix wipe patterns with modifiers
- Fully adjustable internal Box Mask and Ext Mask inputs
- Three Color Matte Generators for Background, EFF/Border and DSK
- Chroma Keyer (RGB or Y/R-Y/B-Y selectable)
- DSK with Border, Drop Shadow, Outline (2H/4H) selectable
- Fade to Black (FTB) function
- Auto Transition for M/E, DSK, and FTB
- RS-422 editor interface
- Communication of E-File™ and initial panel information with BVE-910/9000/9100 and DFS-500 interface
- DME-450/450P interface
- Four Black Burst Outputs
- GPI input port for M/E, DSK, FTB, and Select
- Two PGM Outputs and one PVW Output

Supplied Accessories:
- AC Power Cord
- Control Panel Cable (5m)
- Extension Board
- Operation and Maintenance Manual

Optional Accessories:
- SWC-2530D Control Panel Cable (30m)
- RMM-3000 Rack Mount Kit

Specifications

Power Requirements: AC-100V–240V ± 10%, 50/60 Hz ± 10%
Power Consumption: 125W
Operating Temperature: 0°C to 40°C (32°F to 104°F)
Storage Temperature: -20°C to 60°C (-4°F to 140°F)
Dimensions (WHD): Control Panel: 424 x 111 x 440mm (16 3/4" x 4 3/4" x 17 3/8") (approx.)
Processor Unit: 424 x 132 x 350mm (16 3/4" x 5 1/2" x 13 3/4") (approx.)
Weight: Control Panel: 9 lb. 11 oz. (4.4 kg.)
Processor Unit: 28 lb. 11 oz. (13 kg.)
Analog Switchers

CRK-2000
Universal Chroma Keyer

- The CRK-2000 is a universal Chroma Keyer which has both RGB and encoded Chroma Key functions. The CRK-2000 is provided with effect amplifier, background color generator, sync generator, external key input for telop, SC/H phase indicator for Genlock. The CRK-2000 works as a switcher (3-input) without an external SEG and as a chroma keyer. Also, in combination with SEG-2000, SEG-2000A, SEG-2550/2550A and WEX-2000, more artistic special effects operations can be performed. ■ RGB/LINE input (Video 1 and 2, RGB) ■ Hard/Natural mode ■ Background color generator ■ Sync generator ■ SC/H phase indicator ■ Can be mounted into a 19-inch EIA standard rack

Supplied Accessories:
AC Power Cord
Chroma Key Cloth (Blue)

Specifications
- Power Requirements: AC-120V, 50/60 Hz
- Power Consumption: 29W
- Operating Temperature: 0°C to 40°C (32°F to 104°F)
- Dimensions (WHD): 482 x 88 x 300mm (18" x 3½" x 11⅞") (approx.)
- Weight: 15 lb. 7oz. (7 kg.) (approx.)
- Color System: NTSC
- Video Input: VBS 1.0Vp-p, 75Ω
- RGB Input: V1.0Vp-p, 75Ω
- External Key: Video Input 1.0Vp-p or 0.714Vp-p, 75Ω
- Gen-Lock Input: Sync 0.3Vp-p, Burst 0.286Vp-p
- Video Outputs: VBS 1.0Vp-p, 75Ω
- Video Output DP: 1.5°
- Video Output DG: 1.5%
- Video Frequency Response: 5 MHz ± 1 dB
- Chroma Key Outputs: VBS 1.0Vp-p, 75Ω
- Chroma Key Output DP: 2.5°
- Chroma Key Output DG: 2.5%
- Chroma Key Output Frequency Response: 5 MHz ± 1 dB
- Black Burst Outputs: Sync 0.286Vp-p, Burst 0.286Vp-p
- Keying Bandwidth: RGB mode > 2.0 MHz
- LINE mode > 0.8 MHz
SEG-2550A

Color Special Effects Generator

The SEG-2550A is a compact and cost effective special effects generator for program production and post production. The E-File™ function, which memorizes and reproduces the setting of switches and buttons and the movement of the controls, levers and positioners, is adopted. Interface capability with the BVE-900/910 automatic editing control unit and an external computer. A total of 137 versatile wipe patterns. Wipe pattern modifiers such as the positioner, the border wipe, softness border edge, echo/pairing wipe, and mosaic wipe are provided. Perfect interface capability with the CRK-2000 universal chroma keyer and the WEX-2000 wipe pattern extender. 8 video inputs and 4 bus lines (A, B, PGM and PST) for special effects (Mix, Wipe, and External Key) Built-in background color. Built-in downstream keyer (DSK). Independent color generation for the DSK. Shadow and edge adjustment for the key signal. Built-in sync generator. 4 black burst signal outputs for synchronization of video equipment. SC and H phase indicators for easy phase adjustment. 19-inch rack mountable. Torque adjustment of the effects levers.

Supplied Accessories:
AC Power Cord
Wipe Pattern List
CCJ Connector for Tally/Intercom
Designation Label
D-sub (15-pin) Connector
Transparent Designation Chips
White Seal

Specifications

Power Requirements: AC-120V, 60 Hz
Power Consumption: 82W
Operating Temperature: 0°C to 40°C (32°F to 104°F)
Dimensions (WHD): 481 x 155.5 x 310.4mm (19" x 6¼" x 12¼") (approx.)
Weight: 31 lb. 15 oz. (14.5 kg.) (approx.)
Color System: NTSC color
Switching System: Vertical blanking switcher
Effects: MIX
Mixing by PGM/PST MIX lever and the EFF lever
WIPE
137 wipe patterns (selectable)
Wipe Edge: The softness is continuously variable
Border: Hue, chroma, luminance and width are continuously variable
Pairing: Scanning lines 2 lines/3 lines/4 lines (selectable)
Echo: Possible
EXT KEY
Output signal (DIN, 6-pin): HD, VD, 4Vp-p, 75Ω, unbalanced
Input signal (BNC type and DIN, 6-pin): 0.714Vp-p (video), 1Vp-p (VS), 75Ω, unbalanced with 75Ω termination switch
EXT KEY connector (BNC type and DIN, 6-pin): with 75Ω termination switch
Slicer circuit is included (Clip level is variable)
DOWNSTREAM KEYER
Output signal (DIN, 6-pin): HD, VD, 4Vp-p, 75Ω, unbalanced
Input signal (BNC type and DIN, 6-pin): 0.714Vp-p (video)
1Vp-p (VS), 75Ω, unbalanced
DSK KEY connector: (BNC type and DIN, 6-pin) with 75Ω termination switch
Shadow: Wide and narrow (selectable)
Edge: Variable
Color matte: Continuously variable
Chroma: 0mVp-p to 700mVp-p (approx.) (variable according to the hue level)
Hue: 0° to 360°
Luminance (Y): 50mV to 700mV continuously variable

BACKGROUND COLOR
Chroma: 0mVp-p to 700mVp-p (approx.) (variable according to the hue level)
Hue: 0° to 360°
Luminance (Y): 50mV to 700mV continuously variable
Analog Switchers

Specifications (SEG-2550A, cont.)

**Input Signal:**
- **VIDEO IN:** 1 to 8 connectors (BNC type) x 8
  - 0.714Vp-p (VB) or 1Vp-p (VBS), 75Ω, unbalanced with 75Ω termination switches
  - (The INDICATION selector does not function with the VB input signal)
- **GENLOCK IN connector:** (BNC type) x 1
  - 0.286V/0.286Vp-p (BS) or 1Vp-p (VBS), with 75Ω termination switch
- **DSK INSERT IN connector:** (BNC type) x 1
  - 1Vp-p (VS)
- **EXT WIPE IN connector:** (DIN, 6-pin) x 1
- **Output Signal:**
  - **VIDEO OUT:** 1 to 8 connectors (BNC type) x 8
    - 1 Vp-p (VBS), 75Ω, unbalanced (loop-through output of the corresponding VIDEO IN connector)
  - **PGM OUT:** 1 to 3 connectors (BNC type) x 3
    - 1Vp-p (VBS), 75Ω, unbalanced
  - **PST OUT:** 1 to 2 connectors (BNC type) x 2
    - 1Vp-p (VBS), 75Ω, unbalanced
  - **GENLOCK OUT connector:** (BNC type) x 1
    - (loop-through output of GENLOCK IN connector)
  - **DSP OUT connector:** (BNC type) x 1
    - 1Vp-p (VS), 75Ω, unbalanced
  - **BLACK BURST OUT:** 1 to 4 connectors (BNC type) x 4
    - 0.286V/0.286Vp-p (BS), 75Ω, unbalanced

**Tally/Intercom:**
- **TALLY/INTERCOM:** 1 to 4 connectors (DIN, 4-pin) x 4
  - TALLY/INTERCOM: 5 to 8 connectors (CCJ, 10-pin) x 1
  - Maximum pick-up value in a relay: 24V 200mA DC

**Trigger:**
- **TRIGGER:** (special minijack) x 1
  - TAKE function by earth
  - (OPEN: ± 5V, impedance 65 kΩ)

**GPI:**
- **GPI (D-sub, 15-pin) x 1**
  - TAKE function, PGM DSK Cut-in/out by earth
  - (OPEN; ± 5V, impedance 65 kΩ)

**RS-232C:**
- 9600 baud (fixed), DTE (terminal), Signal level ± 9V

**DG:**
- < 1%

**DP:**
- < 1°

**Crosstalk:**
- Over – 50 dB

**Frequency Response:**
- 8 MHz ± 0.5 dB

**S/N Ratio:**
- Over – 60 dB
BVE-9100

Editing Control System
- Fast CPU processing: 32 bit CPU running at 20 MHz
- Large memory capacity: Approx. 4.5 Mbytes
- Standard color display monitor interface
- Optional color corrector interface for BVX-D10
- Modular design: system expansion via a variety of optional BKE boards/units and BZE softwares
- Full system interface; Parallel or serial video switcher interface; Parallel or serial audio mixer interface; Direct DME interface; 14 VTR control (can assign up to 8 VTRs as recorders or 12 as players); 4 standard GPI ports and 32 optional GPI ports
- 2 standard RS-232C printer ports and 4 optional RS-232C ports
- Full list management
- Four channel audio control
- DMC/switcher/mixer/color corrector learn functions
- Two types of editing keyboards, Qwerty style and dedicated style
- 16 user programmable keys
- Keyboard reassignment function
- Action Track (enhanced timetrack operation) capability
- Sub keyboard with 30 x 3 assignable keys
- Character superimposing on picture monitor
- Self-diagnostics

H-12
BVE-2000

Editing Control Unit

- VTR Interface—The BVE-2000 allows versatile machine control in various editing configurations and takes full advantage of the available Sony VTR functions
- VTR control
- Dynamic Motion control
- Recorder control/assignment
- Four channel audio control
- Color framing
- Pre-read control
- Time code source selection

- Switcher Interface—For sophisticated post production operations, interactive communication between the editing control unit and the switcher is essential. The BVE-2000 incorporates a powerful switcher interface capability for a wide range of switchers.
- Basic controls
- Independent DSK control
- Initial panel settings
- E-File™/Snapshot control

- Audio Interface—Advanced audio device control for sophisticated audio/video production is featured in the BVE-2000.
- PCM-7000 series interface

- Ease of operation—During program production, the editing control unit is always at the heart of the system regardless of the system application. The BVE-2000 allows creative edit decisions to be made with its logical keyboard layout and advanced software.
- Improved CRT display
- Reel number settings
- Programmable function keys
- Advanced match frame edits

- List Management—In the actual video editing process, edit data is not merely a simple compilation of tape address information. The BVE-2000 provides facilities to store, review and modify the edit data for efficient editing.
- List management function
- 998 event memory
- Built-in floppy disk drive
- Notes/Remarks
- Other Interfaces:
  - Eight Standard GPI ports
  - Two Standard RS-232 interfaces

Supplied Accessories:
- Maintenance Manual
- User's Guide
- Operational Manual
- 25-pin D-Sub Male
- Rack Mount Screws
- AC Power Cord

Optional Accessories:
- BKE-2010 Editing Keyboard
- BKE-2020 Expanded RS-422 I/F Board
- BKE-2030 NTSC Color Framing Detector Board
- BKE-2031 PAL Color Framing Detector Board
- Peripherals:
  - GPD-121/CE BW Data Display Monitor
  - BVS-1201 Video Monitor Switcher
  - BVS-A1201 Audio Monitor Switcher
  - BKE-9500 Editing Disk Unit

Specifications

- Power Requirements: AC-100V to 240V ± 10%, 48 Hz to 64 Hz
- Power Consumption: 28W max. including all BKE boards
- Operating Temperature: 0°C to 35°C (32°F to 95°F)
- Storage Temperature: -40°C to + 60°C (-40°F to + 140°F)
- Weight:
  - Card file unit 25 lb. 4 oz. (11.1kg.) (approx.)
  - Keyboard 5 lb. 1 oz. (2.3kg.) (approx.)
- Dimensions (WHD):
  - Card file unit 424 x 192 x 250mm (approx.)
  - Keyboard 424 x 65 x 250mm (approx.)
- Video/Reference Signal:
  - External sync input -0.2 to 5.0Vp-p
  - 1.0 ± 0.2Vp-p video signal, 75Ω
- Reference video input -0.1 ± 0.2Vp-p, 75Ω (when BKE-2030/1 fitted)
- VDU output 1.0V ± 0.3Vp-p, 75Ω
- Operation:
  - Data and source controlled by keyboard with VDU of edit data and source status
- Edit Reference:
  - Control track signal, SMPTE/EBU LTC, VITC
- Editing Accuracy:
  - ± 0 frame with time code operation (normal play mode)
- Edit List:
  - 998 events
- GPI:
  - 8 ports, programmable pulse output
- External Edit Control:
  - RS-232C x 2, programmable BAUD rate and bits
  - VDU: 8 x 9 dot matrix, 80 characters x 29 lines
Editors

BVE-600
Editing Control Unit

Plug-in optional switcher boards enable simple A/B roll editing without an external switcher: Cut, Dissolve, Wipe (ten wipe patterns), and Title superimpose (B/W); Either composite or component switcher board selectable; Various edit data can be superimposed onto the main monitor; Background, color bar, and black signals can be generated; Up to three VTRs (one recorder and two players) can be controlled in an A/B roll edit; The two search dial operation enabling quick and easy access to edit points; Audio mixer interface for VSP-A600 or MXP-290; VITC/LTC/CTL editing; Two GPI ports (T1, T2 pulses); Dynamic Motion Control; Audio/Video split editing possible; Automatic time tracking; Color frame editing possible.

Supplied Accessories:
- AC Power Cord
- 15-pin Mixer Control Cable
- Operation and Maintenance Manual

Optional Accessories:
- BVE-600 Optional Board Kit
- BKE-611 NTSC Composite Switcher Board
- BKE-621 NTSC Component/Composite Switcher Board
- RCC-30A Parallel Audio Mixer Interface Cable (30m, 15-pin D-sub)
- RCC-5G/10G/30G Remote Control Cable (5m/10m/30m, 9-pin)
- VSP-A600 Audio Follow Mixer
- VSBK-802 Rack Mount Adaptor for VSP-A600

Specifications

General
- Power Consumption: Max. 110W
- Operating Temperature: 0°C to 45°C (32°F to 113°F)
- Storage Temperature: 0°C to 60°C (-4°F to 140°F)
- Dimensions (WHD): 440 x 175 x 574mm (17 1/4" x 7" x 22 5/8") (approx.)
- Weight: 25 lb. 9 oz. (11.8 kg.) (approx.) without option boards
- 30 lb. 7 oz. (13.8 kg.) with BKE-611/612
- 33 lb. 8 oz. (15.2 kg.) with BKE-621/622

Systems
- Edit Reference: CTL, LTC, LTC/VITC (SMPTE/EBU time code)
- Edit Accuracy: ± 0 frame on time code, ± 1 frame on CTL
- Memory Capacity: 1 event
- Transition Control: 0 sec. – 9.9 sec. (in 0.1 sec. step)

Control
- VTR Interface: RS-422, Sony 9-pin remote connector
- Controllable VTR: 1 recorder, up to 2 players
- RS-232C Interface: Printer interface for edit point data output
- GPI: BNC (2) (T1, T2 pulse out)
- Mixer Interface: 15-pin D-sub x 1 for VSP-A600/MXP-290 interface
- Display: LED display, 8 digit (3)
RM-450

Editors

The RM-450 Editing Control Unit is designed to make two-machine editing operation easy and effective. The RM-450 has 33-pin remote control interface connectors and can be connected to 33-pin equipped editing VTRs directly. Also, 9-pin remote control interface (RS-422 serial interface) connectors are provided to allow the RM-450 to be connected to 9-pin equipped VTRs. Furthermore, mixed operation of 33-pin and 9-pin equipped VTR can be executed. The RM-450 has many features which allow easy editing, a keyboard layout which minimizes key strokes, a JOG/SHUTTLE DIAL on both the player side and recorder side for convenient picture search operations, the Time Code/CTL/Relative Time Code editing modes for easy and accurate editing, the in-point auto counter reset function for convenient editing, and much more.

33-pin Interface and 9-pin Interface—The RM-450 provides 33-pin remote control interface connectors and 9-pin remote control interface (RS-422 serial interface) connectors on both the player side and recorder side. The RM-450 can be connected to various VTRs, such as the VO-5850/5800, which has a 33-pin interface, as well as VO-9850 series U-matics and other 9-pin equipped VTRs. Each player VTR and recorder VTR can be selected via the 9-pin/33-pin switches on the front panel. Therefore, the RM-450 can edit using any combination of 33-pin and 9-pin equipped VTRs.

Time Code/CTL/Relative Time Code Editing—When a 9-pin equipped VTR is connected, the RM-450 not only allows CTL based editing but also makes Time Code based editing possible. Furthermore, the RM-450 provides the Relative Time code (RTC) editing mode, in which time code is used as an edit reference and time code progress is counted like CTL on the LED counter. It has the feel of CTL editing with the precision of time code editing. The AUTO COUNTER RESET function, in which the editing point first designated is automatically reset to "0:00:00:00", is also provided.

Editing Functions—The RM-450 can use the Assemble and Insert (V/A1/A2) edit modes, and provides editing functions such as editing IN-POINT/OUT-POINT ENTRY, PREVIEW, TRIM, AUTO EDIT/END, REVIEW/JUMP, GO TO, AUDIO SPLIT, and LAST EDIT. The function keys are laid out to enable easy operation.

Easy Operation—The RM-450 provides JOG/SHUFFLE dials on both the player side and recorder side and the function keys are laid out for easy operation to meet user demands. The RM-450 JOG/SHUTTLE dial operation adds a new dimension to the VO-5850/5800 by providing a JOG function. The RM-450 can remotely control basic functions of VTRs such as PLAY, STILL, FF, REW, STAND BY, EJECT, REC, and EDIT.
Editors  

(RM-450, cont.)

Synchronized Capability—The RM-450 accepts REF. VIDEO IN (reference video input) for synchronized operation. Therefore, when a reference video signal is input, the RM-450 can perform absolutely precise synchronized editing. The synchronization precision can be selected via the SYNCHRONIZE GRADE switch. Pinch on Delay Time Learning Capability—The RM-450 detects differences between the pinch on delay times of the player and recorder and stores them in the memory using the LEARN function. The RM-450 can change the play command timing of one of the VTRs to adjust the timing of the edit in-points automatically. Audio Split Editing—The RM-450 provides the AUDIO SPLIT function, which allows the audio edit in-point to be set differently from the video edit in-point. Therefore, the RM-450 can effectively edit sound or music. Easy Mode Setting—Mode setting is very easy and convenient when using the preset switches on the front panel. 33-PIN/9-PIN ■ CTL/RTC/TC ■ PREROLL TIME: 3/5/7/10 ■ EDIT TIMING: AUTO/−1F ~ −7F ■ SIGNAL STANDARD: 30F/25F ■ CUE OUT SIGNAL TIMING: −7 SEC ~ 7 SEC FROM IN-POINT ■ BEEP SOUND: ON/OFF ■ SYNCHRONIZED VTR: PLAYER/RECORDER ■ SYNCHRONIZE GRADE: 0F/±1F ~ ■ EDIT ENABLE WITHOUT SERVO LOCK: ON/OFF ■ CTL DISPLAY: 24H/±12H ■ SLO-420 USE: ON/OFF ■ AUTO COUNTER RESET: ON/OFF  

Error Message—The RM-450 indicates the “Error” and error number on the LED counter along with a warning sound to point out misoperation. The error number is explained on the error message chart. Cue Signal Out—A cue pulse out from the RM-450 is provided for external equipment on which an external start trigger capability is equipped. Self-Diagnostics—The RM-450 has a built-in self-diagnostic function to improve serviceability and make maintenance easy.  

Supplied Accessories:  
AC Power Cord  
Error Message Chart  
Operation Manual  

Optional Accessories:  
RCC-5F 33-pin Remote Control Cable  
RCC-15FT 33-pin Remote Control Extension Cable  
RCC-5G/10G/30G 9-pin Remote Control Cable  
RMM-450 Rack Mount Kit  
(for 19" EIA and SONY SU-512 rack)  
SU-450 Double size table (for SONY SU rack)

PVE-500

Editing Control Unit

- Three VTR control
- Dynamic motion control
- Time code based editing
- Editing functions
- 99 edit memory capacity
- Audio split edit
- Switcher interface
- DFS-500 snapshot control
- Audio mixer interface
- Synchronized operation
- RS-232 interface
- GPI output
- Ease of operation
- Comprehensive error message
- Self diagnostics

Supplied Accessories:
- AC Power Cord
- Operation Manual

Optional Accessories:
- RCC-5AA Audio Mixer Control Cable
- RCC-5/10/30G 9-pin Remote Control Cable
- RMM-500 Rack Mount Metal (for 19" EIA Standard)

Specifications

- Power Requirements: AC-100V/120V/220V to 240V, ±10%
- Power Consumption: 12W
- Weight: 7 lb. 8 oz. (3.2kg.) (approx.)
- Dimensions (WHD): 390 x 93 x 265mm (approx.)
  (15¼" x 3¾" x 10⅞")
- Operating Temperatures: 5°C to +40°C (41°F to +104°F)
- Storage Temperatures: -20°C to +60°C (-4°F to +140°F)
- Editing Accuracy: ±0 frame with time code
  ±1 frame with CTL
- Edit Reference: Control Track Signal, SMPTE/EBU Time Code
- GPI OUT: Active low — low level 0V~0.5V
  high level 3.5V~5V
- REF VIDEO IN: 0.5V to 2Vp-p, 75Ω, unbalanced
Digital Multi Effects Systems

DME-9000
Digital Multi Effects System
- High quality picture manipulation: High performance Anti-Aliasing filter; 4:2:2:4 (Component digital + key) video processing
- Real time Texture Mapping: Maps incoming video in real-time to the created object
- Surface Deformation: Adds natural deformation to the surface of the object
- Rotation object creation
- Keyframe operation: 4 Independent Timelines
- Animation effects available
- Basic digital effects (2D linear and 3D non-linear): Independent rotation of target, independent positioning, size adjustment, perspective, page turn and roll, crop, mirror, mosaic, sparkle, etc.
- Optional lighting effects
- Multi Channel/Multi User operation
- Graphic menu display
- Sophisticated control panel: track ball and Z-ring™
- BVE-9100 editor interface (keyframe control):
  RS-422 serial interface

System Configuration
DME-9000 Digital Multi Effects Processor
BKDM-9010 Controller (Control panel, Control unit, ASCII keyboard, Mouse)
BKDM-9030 Lighting Effect Board (3 lighting sources)

Specifications
Power Requirements:
- AC -90V~132V, 50/60 Hz (625/60)
- AC -175V~265V, 50/60 Hz (625/50)
Power Consumption:
1200W
Dimensions (WHD):
Processor: 424 x 890 x 550mm
(16½" x 35½" x 21½")
Control Panel: 270 x 85 x 310mm
(10¾" x 3½" x 12¾")
Control Unit: 424 x 177 x 450mm
(16½" x 7" x 17½")
Weight:
Processor: 265 lb. (120 kg.)
Control Panel: 7 lb. 11 oz. (3.5 kg.)
Control Unit: 44 lb. 1 oz. (20 kg.)
Digital Multi Effects System

DME-5000

Digital Multi Effects System
- Component and composite mode selectable (525/60 system only): Accepts either composite or component video signals (Only component mode is provided for 625/60 system); Both digital and analog input/output is available for each mode.
- Frame based picture processing for high picture manipulation.
- Adaptive frame-field based processing and interpolation.
- Dedicated key-channel input/output.
- Attractive 2D, 3D, non-linear effects: 2D Effects: Slide, Squeeze, Expansion, Split, Mirror, etc.; 3D Effects: Fade, Dim, 3-axis rotation, Perspective, etc.; Non-linear Effects: Page turn, Roll, Cylinder and Sphere.
- Powerful Modifiers: Border width, Softness, Drop shadow, Mosaic, Recursive (Motion decay, stardust, Strobe freeze), etc.
- Multi Channel/Multi User operation.
- High performance anti-aliasing filter.
- Graphic display.
- RS-232C computer interface port.
- DVS-8000 linked operation: DME-5000 and DVS-8000 can share a common control panel; DME Wipe function.
- Squeezzy Wipe function.
- Keyframe operation: Up to 100 keyframe effects with 1000 keyframes can be created and stored in keyframe memories.
- BVE-9100 editor interface.

System Configuration
DME-5000 Digital Multi Effects Processor
BKDM-5010 Digital/Analog Composite Input/Output Board (525/60 only)
BKDM-5011 Digital/Analog Component Input/Output Board
BKDM-5012 Digital Composite Input/Output Board (525/60 only)
BKDM-5013 Digital Component Input/Output Board
BKDM-5020 Digital Combiner Board for composite operation (525/60 only)
BKDM-5021 Digital Combiner Board for component operation
BKDM-5030 Non-linear Effects Board
BKDM-5040 Wipe and Lighting Effects Board
BKDM-5080 Graphics Board
BKDM-5070 Stand-alone Control Panel
BKDM-5080 Source Selector

Specifications
Power Requirements: AC-100V–240V, 50/60 Hz (± 10%)
Power Consumption: 500W (Full option)
Dimensions (WxHxD):
- Processor: 424 x 443 x 450mm (163/4” x 171/2” x 173/4”)
- Control Panel: 420 x 308 x 133mm (16¼” x 12¼” x 5¼”)
Weight:
- Processor: 110 lb. 4 oz. (50 kg.)
- Control Panel: 22 lb. 1 oz. (10 kg.)

### DME-3000

**Digital Multi Effects**
- Superb picture quality
- Digital signal processing
- Frame-based picture processing
- Stunning visual effects
- Non-linear effects
- Lighting effects
- Recursive effects
- Wipe pattern generator
- Modifiers
- DME capability
- Key-channel input/output
- Keyframe operation
- Multi-channel operation
- Switcher interface
- Keyframe-LINK™
- DME-WIPE™ function
- System integration
- Easy operation
- Built-in floppy disk drive

### Supplied Accessories:
- Rack Mount Metal
- AC Power Cord
- Plug Adaptor
- Terminal Adaptor 75Ω
- D-sub 25-pin Cable
- Installation and Maintenance Manual

### Video Characteristics
- **Linearity:** —
- **Frequency Response:** 0 MHz to 5.5 MHz, ± 0.5 dB
- **K Factor:** <1%
- **S/N Ratio:** 58 dB
- **Sampling Clock:** 13.5 MHz
- **Quantization:** 10-bit
- **Delay:** 1 Frame

### GENERAL
- **Dimensions (WHD):** Processor: 424 x 221 x 450mm
  (16½" x 8½" x 17½")
  Control Panel: 424 x 80 x 285mm
  (16½" x 3¼" x 11¼")
- **Weight:** Processor: 25 lb. 2 oz. (25kg.) (approx.)
  Control Panel: 7 lb. 11 oz. (3.5kg.) (approx.)
- **Power Requirements:** AC 85V to 265V
- **Power Consumption:** 300W
DFS-500

DME Switcher

- 2D, 3D, linear and non-linear effects, such as Compression, Location, Rotation and Perspective, are easily achieved by use of the positioner and associated controls; Non-linear effects such as Page Turn, Roll and Sphere are also controlled manually. ▪ User programmable effects, including 3D linear and some of the non-linear effects, can be created by just storing the pictures at several spatial points. ▪ Over 300 factory preset effects are stored for instant access including Mirror, Ripple, Flag, Melt Down, Zig Zag, Twist, Page Turn, Sphere, Picture-in-Picture, etc. ▪ Effects modification of preset and programmed effects provided by control over various parameters of the effects such as, Mosaic, Postarization, Solarization, Flag, Split, Strobe, Soft Luminance, etc.

- Optional Trail and Lighting board to provide advanced and powerful effects such as Drop Shadow, Trail and Lighting effects. ▪ Auto/Manual Transition Cut, Mix and Wipes available from the stored preset patterns. ▪ Optional (Down Stream Keyer) DSK available to introduce captions, characters, etc. after mix/effects processing. ▪ Title key allows a title, caption or figure to be self-keyed over a BKGD source, rotated, compressed and located in 3D space. ▪ Positioning function can store the panel status for subsequent recall. ▪ Internal Video Generator generates a color bar, grid pattern, color background and various embossed background patterns. ▪ Accepts input signals in composite, component (Y, R-Y, B-Y) and S-VIDEO formats. ▪ Digital component processing is particularly suitable for interfacing with the Sony Betacam SP® series VTRs, providing editing facilities with superb picture quality. ▪ Two frame synchronizers which allow video input signals to be synchronized.

- With the RM-450 Editing Controller, allows two-machine editing with effects.

Digital Multi Effects Systems
## Digital Multi Effects Systems

**Digital Multi Effects**

- Simple switcher system with mix, wipes and digital effects capabilities
- Various preset effect patterns of 120 DMEs and 161 wipes
- Built-in field memories allow non time base corrected video signals input
- Freeze function allows simulated A/B roll in two machine editing systems
- Title superimpose/effect capability
- 5 preset transition speeds
- 4 user preset memories
- 3 video inputs and 2 busses (foreground and background)
- Key signal output
- External trigger capability with Cue or T1/T2 pulses from editing controller such as RM-450
- Two color matte generator
- Modular design composed of a control panel and main unit
- Simplified control panel for easy operation
- 3 units high and 19-inch rack mountable (main unit)

### Typical DME Patterns
- Mosaic, Static mirror, Negative, Monotone, Posterization
- Freeze, Drop shadow, Picture in picture
- Translation
- Split
- Squeeze
- Rotation
- Flip, Tumble

### Supplied Accessories:
- AC Power Cord
- 25-pin Control Cable (5m)
- Rack Mount Adaptors (2)

**DME-450**

**Digital Multi Effects**

- Simple switcher system with mix, wipes and digital effects capabilities
- Various preset effect patterns of 120 DMEs and 161 wipes
- Built-in field memories allow non time base corrected video signals input
- Freeze function allows simulated A/B roll in two machine editing systems
- Title superimpose/effect capability
- 5 preset transition speeds
- 4 user preset memories
- 3 video inputs and 2 busses (foreground and background)
- Key signal output
- External trigger capability with Cue or T1/T2 pulses from editing controller such as RM-450
- Two color matte generator
- Modular design composed of a control panel and main unit
- Simplified control panel for easy operation
- 3 units high and 19-inch rack mountable (main unit)

**Typical DME Patterns**
- Mosaic, Static mirror, Negative, Monotone, Posterization
- Freeze, Drop shadow, Picture in picture
- Translation
- Split
- Squeeze
- Rotation
- Flip, Tumble

**Supplied Accessories:**
- AC Power Cord
- 25-pin Control Cable (5m)
- Rack Mount Adaptors (2)

- Crosstalk: < -52 dB
- Frequency Response:
  - 300 kHz – 5.5 MHz ± 0.5 dB (BKGD Path)
  - 300 kHz – 2.0 MHz (+1.0/-3.0) (FRGD Path at full size)
- S/N: > 58 dB (BKGD Path)
- Effect System: 284 preset effects
- 5 transition speeds
- 2 field memories
- 455 x fH sampling

**Power Requirements:**
- AC-100V/120V, 50/60 Hz
- Power Consumption: 70W
- Operating Temperature: 0°C to 40°C (32°F to 104°F)
- Dimensions (WxDxH):
  - Control Panel: 390 x 62 x 265mm (15¾" x 2½" x 10¼")
  - Main Unit: 424 x 132 x 350mm (16¾" x 5¼" x 13½")
- Weight:
  - Control Panel: 9 lb. 10 oz. (3 kg.)
  - Main Unit: 24 lb. 5 oz. (11 kg.) with cable
**DVS-V1201**

**Digital Video Routing Switcher**
- Serial digital input/output with BNC connectors
- 12 input and 1 output matrix size
- Handles either serial component or serial composite signals
- Both local and remote control panels are available
- D-sub 25-pin parallel remote control to interface with optional remote control panel or BVE-910/9100/9000
- Compact design, one unit height

**Specifications**
- Power Requirements: AC-100V-240V, 50/60 Hz
- Power Consumption: 20W
- Operating Temperature: +10°C to +35°C (+50°F to 95°F)
- Dimensions (WHD): 424 x 43.6 x 450mm (163/4" x 13/4 x 173/4")
- Weight: 12 lb. 6 oz. (5.6 kg.)

---

**DVS-V1616**

**Digital Video Routing Switcher**
- Serial digital inputs/outputs with BNC connectors
- 16 input and 16 output matrix size
- Can operate in a combined environment of serial component and serial composite signals
- Sony Serial-Bus networking for advanced control with Source Control units and X-Y Control units
- Can be controlled by external computers via RS-232C serial port
- Compact design, two units height

**Specifications**
- Power Requirements: AC-100V-240V, 50/60 Hz
- Power Consumption: 65W
- Operating Temperature: +10°C to +35°C (+50°F to 95°F)
- Dimensions (WHD): 424 x 88 x 450mm (163/4" x 31/2 x 173/4")
- Weight: 17 lb. 10 oz. (8 kg.)

---

**DVS-V3232**

**Digital Video Routing Switcher**
- Serial digital inputs/outputs with BNC connectors
- 32 input and 32 output matrix size
- Can operate in a combined environment of serial component and serial composite signals
- Expandable up to 256 input and 256 output matrix size by using a master control unit
- Sony Serial-Bus networking for advanced control with Source Control units and X-Y Control units
- Can be controlled by external computers via RS-232C serial port
- Compact design, seven units height

**Specifications**
- Power Requirements: AC-100V-240V, 50/60 Hz
- Power Consumption: 200W
- Operating Temperature: 10°C to 35°C (50°F to 95°F)
- Dimensions (WHD): 424 x 310 x 450mm (163/4" x 121/4 x 173/4")
- Weight: 66 lb. 2 oz. (30 kg.)
DVS-V6464
Digital Video Routing Switcher

- **Serial digital transmission**—The DVS-V series offers transparent performance in data transfer by taking full advantage of digital technology. Its 1-chip LSI matrix processor and high-speed digital processors transfer data at extraordinarily high-speed—270 Mbits/s in the case of component signals for example. Further, as each video input and output uses BNC type connectors with a coaxial cable for data transfer, systems are easy to install, are highly reliable and easy to maintain.

- **Flexible routing size**—With the DVS-V series, a wide range of matrix sizes are available from 12 x 1 up to 512 x 512. The DVS-V1201 and DVS-V1616 are standalone routing switchers for smaller systems. The DVS-V1201, equipped with 12 inputs by 1 output, may be used as a multi-purpose source selector or a monitor switcher and used with DVS-A1201 audio routers in digital video editing systems. The DVS-V1616 provides 16 inputs and 16 outputs for flexible source and destination selection. As the DVS-V3232 and DVS-V6464 only include cascade inputs and outputs as a standard configuration, the appropriate number of optional input/output boards must be installed in the main frame for proper operation. Each board accommodates eight channel ports so that a fully-loaded router forms a 32 x 32 or 64 x 64 matrix. By using more of these “Building Blocks,” a large matrix system can be configured, expandable to 512 x 512 by using a router control unit. System expansion is accomplished by the addition of optional cascade boards to each router. Also the DVS-V3232 and DVS-V6464 can be configured for flexible routing sizes such as 48 x 56 or 192 x 128 as well as square sizes.

- **Multiple signal format**—The DVS-V1201 can handle either serial component or serial composite signals by setting an internal switch. Moreover, if a system requires it, the DVS-V1616/V3232 can operate in a combined environment of both serial component and serial composite signals. This eliminates the need to prepare completely separate routing systems to handle two different signal formats. In such a combined operation source and destination selection is completely protected to preclude supplying incorrect format signals. For example, this protection capability prevents accidently sending a composite digital signal to component digital equipment or vice versa.

**Optional Accessories:**
- BKDS-V3210A Input board (8 ch)
- BKDS-V3211A Output board (8 ch)
- BKDS-V3220A Cascade input board (8 ch)
- BKDS-V3222A Cascade output board (8 ch)
- BKDS-V3232A 32 x 32 matrix board (only for DVS-V6464)
- BKDS-V3233 Reclocking board
- BKDS-V3290 Backup control board
- BKDS-V6491 Backup power supply (only for DVS-V6464)
Specifications (DVS-V6464, cont.)

DATA TRANSFER
Data transfer method: SCRAMBLED NRZI
Data transfer speed:
- 270 Mbits/sec (component)
- 178 Mbits/sec (PAL composite)
- 143 Mbits/sec (NTSC composite)
Signal amplitude: 0.8Vp-p ± 10%
Transfer distance: Max 200m (25 dB/km at 10 MHz)

DIGITAL VIDEO CHARACTERISTICS
Signal Type: Serial digital video conforming to SMPTE 259M
Impedance: 75Ω
Return Loss: Less than 15 dB
Cable Equalization: Automatic for up to 200m of Belden 8281 or equivalent for 270 Mbit/sec.
Signal Amplitude: 800 mV ± 10% when terminated into 75Ω
DC Offset: ± 5% when terminated into 75Ω
Rise/Fall Times: 0.75 ns–1.5 ns (20% to 80%)

INPUTS/OUTPUTS
- Serial Video IN: BNC type (64), 75Ω (w/eight BKDS-V3210A)
- Serial Video OUT: BNC type (64), 75Ω (w/eight BKDS-V3211A)
- Cascade IN: D-sub 25-pin (8)*
- Cascade OUT: C-sub 25-pin (8)*
- Reference Video IN: BNC type (2), loop-through
- Remote-1: BNC type (4), S-BUS
- Remote-2: D-sub 9-pin (1), RS-422A
- Remote-3: D-sub 25-pin (1), RS-232C

GENERAL
- Power Requirements: AC 100V to 240V, 50/60 Hz
- Power Consumption: 600W
- Operating Temperature: 10°C to 35°C (50°F to 95°F)
- Dimensions (WxHxD): 424 x 924 x 450mm (163/4" x 361/2" x 171/4")
- Weight: 132 lb 4 oz (60 kg)

*The DVS-V3232 and DVS-V6464 respectively provide 8 or 16 cascade ports as standard and 8 slots or 16 slots for optional boards. Combination of video boards, cascade boards, 32 x 32 matrix boards and reclocking boards for each routing switcher depends on the system configuration.

DVS-A1201

Digital Audio Routing Switcher
- Stand-alone switcher with a 12 input x 1 output stereo matrix
- Suitable for a small system such as a source selector or a monitor switcher
- Two DVS-A1201 units provide four-channel audio operation
- Conforms to the AES/EBU format with the 48.0 kHz sampling frequency using XLR type connectors
- Ensures reliable and high speed signal transmission without noise penalty or signal degradation
- Phase synchronization for AES/EBU input
- Compact design, two units height

Specifications
- Power Requirements: AC-100V–240V, 50/60 Hz
- Power Consumption: 18W
- Operating Temperature: 10°C to 35°C (50°F to 95°F)
- Dimensions: 424 x 88 x 350mm (16¾" x 3½" x 13¾")
- Weight: 15 lb 7 oz (7.0 kg)
DVS-A3232
Digital Audio Routing Switcher
- Provides 32 x 32 stereo, or a 16 x 16 four-channel audio matrix in a single unit - The BKDS-A3220 optional cascade set enables various matrix sizes from 32 x 32 to 256 x 256 - Conforms to the AES/EBU format with the 48.0 kHz sampling frequency using XLR type connectors - Ensures reliable and high speed signal transmission without noise penalty or signal degradation - Phase synchronization for AES/EBU input - Optional backup control board and backup power supply for continued operation - Compact design, seven units height

Optional boards
- BKDS-A3220 Cascade set
- BKDS-A3290 Backup control board
- BKDS-A3291 Backup power supply

Specifications
- Power Requirements: AC-100V~120V/220V~240V, 50/60 Hz
- Power Consumption: 50W
- Operating Temperature: 10°C to 35°C (50°F to 95°F)
- Dimensions (WHD): 424 x 310 x 450mm (16 3/4" x 12 1/4" x 17 3/4")
- Weight: 44 lb. 1 oz. (20 kg.)
DVS-RS1616

RS-422A Remote Routing Switcher

■ Video and audio equipment often use D-sub 9-pin connectors for remote signals conforming to RS-422A, an EIA serial digital interface standard which specifies the electrical characteristics of balanced voltage digital interface circuits. Sony’s equipment is no exception and provision of RS-422A interfaces allows sophisticated control between VTRs, ATRs, switchers, DMEs, editors and so on. The DVS-RS1616 accommodates a 16 x 16 matrix as a standard configuration, providing 16 RS-422A ports for inputs and outputs. Its routing size can be expanded up to 128 x 128, using eight units in the same cascade connection as that of the audio router. The DVS-RS1616 matrix circuits correspond to the two-way signal transmission specification for the RS-422A interface, in which a bi-directional signal is transmitted over a single, four wire, cable. Crosspoint selection in the router can be restricted to one destination per source to prevent jamming from other ports.

Optional Accessories:
BKDS-RS1620 Cascade Set
BKDS-RS1690 Backup Control Board
BKDS-RS1691 Backup Power Supply

Weight:
66 lb. 2 oz. (30 kg.)

*The DVS-RS1616 and DVS-TC3232 can contain up to seven BKDS-RS1620 optional cascade set for system expansion. The cascade board provides one cascade input and one cascade output port.
Routers

**DVS-TC3232**

Timecode Routing Switcher

- The DVS-TC3232 facilitates transmission of time code signals that conform to the SMPTE/EBU standard. Thirty-two XLR-type connectors are arranged on the rear panel for both time code inputs and outputs. As all the I/O ports of a DVS-TC3232 are equipped as standard, a single unit forms a complete 32 x 32 matrix. Its routing size can be expanded in square format up to 256 x 256 by using eight units with the same cascade connection as that of the audio router. Input ports will accept wide variations of signal level, ranging from 0.5Vp-p to 18Vp-p, making the routing system adaptable to various video and audio equipment. Input and output buffers, provided for all ports including XLR-type and cascade connectors, reshape the waveform of the time code signals and regulate the output level to +4 dBm. Either NTSC or PAL format time code can be handled in the DVS-TC3232 without modification.

**Optional Accessories:**
- BKDS-RS1620 Cascade Set
- BKDS-RS1690 Backup Control Board
- BKDS-RS1691 Backup Power Supply

**Specifications**

- **Inputs/Outputs**
  - **Signal IN:** SMPTE/EBU time code, XLR-3-31 type (32)
    - 0.5Vp-p to 18Vp-p, 80Hz to 300kHz, 10kft
  - **Signal OUT:** SMPTE/EBU time code, XLR-3-32 type (32)
    - +4 dBm, 600Ω
  - **Cascade IN:** 68-pin Half-pitch, RS-422A (7)*
    - (with seven BKDS-RS1620)
  - **Cascade OUT:** 68-pin Half-pitch, RS-422A (7)*
    - (with seven BKDS-RS1620)
  - **Reference Video IN:** BNC type (2), loop-through
  - **Remote-1:** BNC type (4), S-BUS
  - **Remote-2:** D-sub 9-pin (2), RS-422A
  - **Remote-3:** D-sub 25-pin (1), RS-232C

- **General**
  - **Power Requirements:** AC 100V to 240V, 50/60 Hz
  - **Power Consumption:** 200W
  - **Operating Temperature:** 10°C to 35°C (50°F to 95°F)
  - **Dimensions (WHD):** 424 x 355 x 450mm
    - (16⅞” x 14” x 17¾”)
  - **Weight:** 66 lb. 2 oz. (30 kg.)

*The DVS-RS1616 and DVS-TC3232 can contain up to seven BKDS-RS1620 optional cascade set for system expansion. The cascade board provides one cascade input and one cascade output port.

**BKS-R1210/R1601/R3202/R3203/R5000**

Control Units for Digital Routing Switchers

- **BKS-R1210:** Remote control panel for DVS-V1201/A1201
- **BKS-R1601:** 16 Source control unit for DVS-V1616/V3232/A3232
- **BKS-R3202:** X-Y Control unit for DVS-V1616/V3232/A3232
- **BKS-R3203:** 32 Source control unit for DVS-V1616/V3232/A3232
- **BKS-R5000:** Router control unit for matrix sizes above 64 x 64

**Optional Accessories:**
- **BKS-R5001 S-BUS I/F Board**
- **BKS-R5002 RS-232C/422 I/F Board**
**BKS-R3204**

*Universal Control Unit*

- The BKS-R3204 is an universal control panel which uses thirty-two buttons on the front panel and allows the flexible combination of source and destination assignments, so that it can be used as a 32 x 1, 24 x 8, 16 x 16, or 8 x 24 source destination selector. For easy confirmation, source buttons have green illumination and destination buttons amber. The number of sources or destinations controlled can be expanded by using further BKS-R3204s and be chained to other control units such as BKS-R3205 and BKS-R3206. Up to 253 BKS-R3204 panels can be combined and operated as if a single control unit. The phantom function allows simultaneous switching of multiple sources by a press of a single source button.

*Note:* In multiple-unit application, the BKS-R3204 can be used as an extension of the BKS-R3205 or BKS-R3206.

---

**BKS-R3205**

*Source and Destination Control Unit*

- The BKS-R3205 is a multi-source control panel which has thirty-two buttons, eight level control buttons and a sixteen-character LED display to show sources, destinations, levels, phantom names and panel ID. Like the BKS-R3204, this unit also allows flexible combination of source and destination assignments. Therefore, the unit can be used as a 32 x 1, 24 x 8, 16 x 16 or 8 x 24 source-destination selector. For easy confirmation, source buttons are illuminated green and destination buttons amber. The number of sources or destinations controlled can be expanded by using this unit and a further number of BKS-R3204 control panels. Up to 253 units can be combined and operated as if a single control unit. The phantom function allows simultaneous switching of multiple sources by a press of a single source button. Up to eight levels can be handled and the same breakaway capability as the BKS-R3202 is provided.
Routers

**BKS-R3206**

*8-Destination Control Unit*

The BKS-R3206 is a multi-destination control panel which controls up to sixteen switcher destinations. The sixteen switcher destinations are divided into two sets of eight A and B. The BKS-R3206 control panel features eight displays and select buttons which can be switched between sets A and B. Hence control of sixteen destinations is made possible. This unit can be used either as a button-per-scource controller or as an X-Y controller. As a button-per-scource controller, 16 sources can be selected for routing 16 destinations. In the X-Y control mode, up to 512 sources are controlled for routing to 16 destinations. To expand the number of sources and destinations to be controlled, like the BKS-R3205, this unit can be a mother unit of the BKS-R3204s. Up to 253 units can be combined in total and operated as a single control unit. Like the BKS-R3205, the phantom function, eight-level control and breakaway capability are provided.

**BKS-R3280/R3281**

*Single Status Display*

The BKS-R3280 and BKS-R3281 are status display units for under-monitor use. To show source, destination, source line number and source status the BKS-R3280 has a seven-character display. The BKS-R3281 has a sixteen-character display which can show two of these items simultaneously. The BKS-R3280/R3281 modes of operation are programmed from the control terminal of the routing system. PGM and PST indicators are provided via a tally line to show if a source is on air or not.
BVS-V1201

Analog Video Routing Switcher

- Twelve inputs with loop-through and one output
- Remote (optional)/Local (standard) control panel
- 25-pin remote connector for parallel remote control from the BVE-9000/9100/910 for the optional BKS-R1210
- 9-pin remote connector for serial remote control
- RGB or Y/R-Y/B-Y component signal process using three units
- 15-pin tally output
- 1 unit height and 19-inch rack mountable

Supplied Accessories:
- AC Power Cord
- AC Plug Holder
- Extension Board
- Extension Flat Cable
- D-sub 25-pin Unit Harness (25m)
- 75Ω Terminator
- Operation and Maintenance Manual

Specifications

- Power Requirements: AC-100V~240V ± 10%, 50/60 Hz ± 10%
- Power Consumption: 5W
- Operating Temperature: 0°C to 40°C (-4°F to 104°F)
- Dimensions (WHD): 424 x 44 x 350mm (16 3/4" x 1 3/4" x 13 3/4")
- Weight: 12 lb. 6 oz. (5.6 kg.)

BVS-A1201

Analog Audio Routing Switcher

- Twelve inputs and one output of stereo audio
- Output transformer
- 25-pin parallel remote control from the BVE-9000/9100/910 or the optional BKS-R1210
- 9-pin serial remote control
- Independent 4 channel audio signal control using two units
- Two units height and 19-inch rack mountable

Supplied Accessories:
- AC Power Cord
- AC Plug Holder
- Extension Board
- D-sub 25-pin Unit Harness (25m)
- 75Ω Terminator
- Operation and Maintenance Manual

Specifications

- Power Requirements: AC-100V~240V ± 10%, 50/60 Hz ± 10%
- Power Consumption: 10W
- Operating Temperature: 0°C to 40°C (-4°F to 104°F)
- Dimensions (WHD): 424 x 88 x 350mm (16 3/4" x 3 1/2" x 13 3/4")
- Weight: 16 lb. 12 oz. (7.6 kg.)
Time Code Generator and Reader

**BVG-1500**

**Time Code Reader**
- Readout capability of LTC/VITC and user bits
- Built-in character generator
- 8-digit LED display/display hold
- Waveform processing function (LTC)
- Various mode indication
- Frame suppress function
- Compact and lightweight
- TTY interface capability with BKG-1501 (optional)

**Supplied Accessories:**
- 50-pin Ribbon Connector
- 6-pin Connector
- Rack Mount Kit
- Labels for Remote Indicator
- Operation and Maintenance Manual

**Optional Accessories:**
- BKG-1501 Sony Printer Interface

**Specifications**
- **Power Requirements:** AC-100V-120V/220V-240V ± 10%, 50/60 Hz
- **Power Consumption:** < 20W
- **Operating Temperature:** 0°C to 40°C (32°F to 104°F)
- **Storage Temperature:** −20°C to 60°C (−4°F to 140°F)
- **Dimensions (WHD):** 424 x 44 x 330mm
  - (16¾" x 1¾" x 13")
- **Weight:** 8 lb. 13 oz. (4 kg.) (approx.)

**BVG-1600**

**Time Code Generator**
- LTC/VITC generator
- Hexadecimal user bits data setting
- Normal speed LTC reader function
- Slave/Extrapolation capability
- Time code color frame locking capability
- 8-digit LED display
- Various mode indications

**Supplied Accessories:**
- 50-pin Cable
- 50-pin Ribbon Connector
- 5-pin Connector
- Rack Mount Kit
- Labels for Remote Indicator
- Operation and Maintenance Manual

**Specifications**
- **Power Requirements:** AC-100V-120V/220V-240V ± 10%, 50/60 Hz
- **Power Consumption:** < 20W
- **Operating Temperature:** 0°C to 40°C (32°F to 104°F)
- **Storage Temperature:** −20°C to 60°C (−4°F to 140°F)
- **Dimensions (WHD):** 424 x 44 x 330mm
  - (16¾" x 1¾" x 13")
- **Weight:** 9 lb. 15 oz. (4.5 kg.) (approx.)
DNS-1000

Stillstore System

- Uses transportable and reliable recording media: Magnetooptical (5.25" MO disk): 500 stills per disk (250 per side), NTSC; 400 stills per disk (200 per side), PAL
- Highest picture quality image storage thanks to 4:2:2:4 digital component signal processing
- Key channel storage and recall
- Image library management by use of the optional system software
- Optional analog interface boards for composite, RGB or Y/R-Y/B-Y
- Optional RAM cache board for instant recall of stored still images
- MO drives can be located 200m away from the mainframe
- Stillstore mainframes can be linked as a network for image transfer (Up to six users for one frame)
- High speed and image control network system: Several users can share the same still images
- Two types of mainframe: SSCU-1000 (five slots for option boards); SSCU-1010 (thirteen slots for option boards)

System Configuration

SSCU-1000 Stillstore Central Unit
SSCU-1010 Stillstore Central Unit
BKSS-1010 Digital Input Board
BKSS-1011 A/D Converter Board
BKSS-1020 Digital Output Board
BKSS-1021 D/A Converter Board
BKSS-1022 Key Output Board
BKSS-1031 Full Function Control Panel
BKSS-1040 Serial MO Drive Unit
BKSS-1041 MO Drive Interface Board
BKSS-1042 Rack Mount Bracket for Sub MO Drive
BKSS-1050 RAM Cache Memory Board
BKSS-1060 Picture Resize Board
BZSS-1010 System Software for Workstation
SMO-S501 Sub MO Drive Unit

Optional Accessories:
EDM-1DA0 MO Disk
SMO-8801 MO Drive

Specifications

Video Characteristics

Component Analog
- Signal-to-Noise Ratio: 56 dB
- Bandwidth: Y: 30 Hz - 5.5 MHz ± 0.5 dB
  R-Y/B-Y: 30 Hz - 2.5 MHz ± 0.5 dB

Composite Analog
- Signal-to-Noise Ratio: 52 dB
- Bandwidth: 30 Hz - 4.5 MHz ± 0.5 dB
### Digital Peripherals

#### DFX-1200

**Digital Rate Converter**
- 4:2:2 component digital video (525/60 or 625/50) sampled at \(Y = 13.5\) MHz, \(R-Y/B-Y = 6.75\) MHz is converted into NTSC/PAL composite digital video sampled at 14.318 MHz/17.734 MHz.
- \(Y, R-Y, B-Y\) component signals are encoded into NTSC composite digital signals.
- Equipped with both parallel and serial digital I/O ports.
- Audio transmission in video blanking period is possible.
- Two rack units high and 19-inch rack mountable.

**Specifications**

## DDU-2100
### Digital Audio Delay Unit
- Capable of delaying a maximum of 8 channels (4 inputs of AES/EBU digital audio signals and SMPTE/EBU time code (LTC) simultaneously)
- Delay time can be adjusted by field, msec., samples: Field: 8.5 fields (0.1 field/step); M sec: 170m sec. (2.0m sec./step); Sample: 8100 samples (100 samples/step)
- Accepts 48 kHz, 44.1 kHz, 44.056 kHz and 32 kHz sampling frequencies
- One rack unit high and 19-inch rack mountable

## DFX-2400
### Sampling Rate Converter
- Converts any sampling frequency between 30 kHz and 50 kHz into any of the following frequencies: 32 kHz, 44.056 kHz, 44.1 kHz and 48 kHz
- Enables conversion between AES/EBU format and SDIF-2 format
- 16-bit conversion resolution, with no signal degradation such as that involved in A/D and D/A processing of analog methods
- Compact size and low power consumption

### Supplied Accessories:
- AC Power Cable
- 19" Rack Mount Kit

BKDV-4224AD/4224DA

D-1 Signal Converter

- The BKDV-4224AD/4224DA is a D-1 signal converter which provides, respectively, 8 bits A/D and D/A conversion capabilities for a D-1 VTR. In conjunction with two D-1 VTRs such as DVR-2100/2000, they can form a range of recording/playback systems: 4:2:2 picture plus key channel production (4:2:2:4 mode); Full band GBR plus key channel production (4 x 4 mode); Doubled horizontal resolution 525/60 or 625/50 signals (8:4:4 H mode); Progressive scan 525/60 or 625/50 system (8:4:4 V mode) ■ 4:2:2:4 Mode: A wide bandwidth key signal recording, impossible with analog equipment, can be carried out. Through the BKDV-4224AD, one D-1 VTR is used for recording/playback of the 4:2:2 component serial digital video, and the other VTR for key signal recording on the luminance channel, leaving the two color difference channels unused. The signal processing varies depending on whether input signals are in analog or digital form. ■ 4 x 4 Mode: The 4 x 4 mode is used for systems where recording of four equal video bandwidth signals such as G/B/R/Key or full band Y/B-Y/R-Y/Key is required. The signals encoded in the BKDV-4224AD are divided and then recorded onto two D-1 VTRs, one for standard 4:2:2 video and the other for the key signal and further color difference information. ■ 8:4:4 H Mode: The 8:4:4 H mode is designed for a system where double the horizontal resolution of 525/60 or 625/50 signals is required (1440 pixels per horizontal line). Every other sample encoded in the BKDV-2442AD is divided and then recorded onto two D-1 VTRs, one for standard 4:2:2 video and the other for the key signal and further color difference information. ■ 8:4:4 V Mode: The 8:4:4 V mode is designed for progressive scan 525 or 625 (60 frames/sec. or 50 frames/sec.). Encoded samples in every other TV line are fed into one D-1 VTR as one 4:2:2 data stream while the remaining information from other TV lines forms another 4:2:2 data stream and is fed into a second D-1 VTR. ■ 4:2:2 Mode: The BKDV-4224AD/4224DA can also be used as an 8 bit A/D or D/A unit respectively conforming to CCIR-601 filter specifications.

Supplied Accessories:
- AC Power Cord
- Plug Holder
- Rack Mount Bracket (1 set)
- Operation and Maintenance Manual (1 set)
- Plug Adaptor (1 set)
- 75Ω terminator 5 (BKDV-4224AD only)

Specifications

General
- Power Requirements: AC 100V to 120V 50/60 Hz
- Power Consumption: 55W (Max.)
- Operating Temperature: 5°C to 40°C (41°F to 104°F)
- Dimensions (WHD): 424 x 44 x 550mm
- Weight: 15 lb. 7 oz. (7 kg.)

Video
- Sampling Frequency: (4:2:2:4): Y/KEY = 13.5 MHz, B-Y/R-Y = 6.75 MHz
- (4 x 4): Y/KEY/B-Y/R-Y or G/B/R/KEY = 13.5 MHz
- Frequency Response: (4:2:2:4): Y/KEY = DC to 5.75 MHz
- (± 0.5 dB)/6 MHz (± 3 dB) B-Y/R-Y = DC to 2.75 MHz
- (± 0.5 dB)/3 MHz (± 3 dB) B-Y/R-Y = 13.5 MHz
- (4 x 4): Y/KEY/B-Y/R-Y or G/B/R/KEY = DC to 5.75 MHz
- (± 0.5 dB)/6 MHz (± 3 dB)
- (± 0.5 dB)/3 MHz (± 3 dB)

S/N (Analog Output): 56 dB
- Linearity: Within 2.0%
- K Factor (2T pulse): Below 1.0%
- Channel Delay: Below ± 15 ns
- Serial Input/Output: Bit Rate: 270M bps
- Transmission Distance: Max. 200m
- Input/Output Level: 0.8Vp-p (75Ω terminated)

Input/Output

Video Input
- Analog: (BKDV-4224AD only)
  - Y(G)/B-Y(B)/R-Y(R)/KEY/SYNC, BNC
  - GBR = 0.7Vp-p
  - SYNC = 0.28Vp-p to 4.0Vp-p
- Digital: BNC: Digital Serial (270 Mb/sec.)
  - BKDV-4224AD: VIDEO & KEY
  - BKDV-4242DA: SERIAL INPUT 1 & 2

Video Output
- Analog: (BKDV-4224DA only)
  - Y(G)/B-Y(B)/R-Y(R)/KEY/SYNC, BNC
  - B/R = 0.7Vp-p, G = 1.0Vp-p (including sync)
- Digital: BNC: Digital Serial (270M bps)
  - BKDV-4224AD: SERIAL OUTPUT 1 & 2
  - BKDV-4224DA: VIDEO & KEY

REMOTE: D-SUB 25-PIN: VIDEO INDEX OF INFORMATION
DAD-A2000

Audio Converter Unit

- 16-bit audio A/D and D/A conversion for the DVR-2100/2000 D-1 VTR.
- Up to four A/D and/or D/A boards can be installed in the DAF-2000 audio frame.

Supplied Accessories:
- DABK-2001 A/D Converter
- DABK-2002 D/A Converter

Specifications

Power Requirements:
- AC-100V–120V/220V–240V 50/60 Hz

Power Consumption:
- 50W (approx.)

Dimensions (WHD):
- 424 x 88 x 350mm
- (16¾” x 3½” x 13¾”)

Weight:
- 19 lb. 13 oz. (9 kg.) (approx.)

Input/Output

Reference Video:
- Analog video signal
- Black burst
- Composite sync
- Composite video
- (525/59.94, 625/50 or 525/60)
- BNC, loop-through

Reference Audio:
- Word Sync In: BNC, loop through
- AES/EBU Sync In: XLR-3-31 or XLR-3-32 buffered-through

Digital In:
- AES/EBU, XLR-3-31 on DABK-2002
- AES/EBU, XLR-3-32 on DABK-2001

Digital Out:
- AES/EBU, XLR-3-31 x 2 on DABK-2001
- AES/EBU, XLR-3-32 x 2 on DABK-2002

Analog In:
- XLR-3-31 x 2 on DABK-2002

Analog Out:
- XLR-3-32 x 2 on DABK-2002
**PFV-D50**

*Digital Video Interface Unit*

- Digital video interface unit which can hold and supply power to ten types of optional interface boards.
- Each optional board provides an independent function such as A/D or D/A conversion, digital video distribution, or digital video delay capabilities.
- Up to 4 optional boards can be installed in any combination.
- Digital input/output signals are provided in the 10 bit serial digital format.
- Processor board can be slotted in the chassis either from the front or rear of the unit.

**System Configuration**

- **PFV-D50 Digital Video Interface Unit**
- **BKPF-101 A/D Converter Board (NTSC composite video)**
- **BKPF-101C A/D Converter Board (Component video)**
- **BKPF-102 D/A Converter Board (NTSC composite video)**
- **BKPF-102C D/A Converter Board (Component video)**
- **BKPF-103 Digital Video Distribution Amplifier Board (NTSC, PAL composite video, 4:2:2 component digital)**
- **BKPF-104 Digital Video Delay Line (NTSC composite digital)**
- **BKPF-104C Digital Video Delay Line (4:2:2 component digital)**
- **BKPF-109 Serial-Parallel Interface Board (NTSC, PAL composite digital, 4:2:2 component digital)**
- **BKPF-110 Parallel-Serial Interface Board**
- **PFV-D50 System Configuration (NTSC, PAL composite digital, 4:2:2 component digital)**
- **BKPF-105 A/V Multiplexer Board (D2)**
- **BKPF-105C A/V Multiplexer Board (D1)**
- **BKPF-106 A/V De-Multiplexer (D2)**
- **BKPF-106C A/V De-Multiplexer (D1)**
- **BKPF-107 Line Synchronizer Board (D2)**
- **BKPF-107C Line Synchronizer Board (D1)**
- **BKPF-108 Frame Synchronizer Board (D2)**
- **BKPF-108C Frame Synchronizer Board (D1)**
- **BKPF-PS50 Backup Power Supply for PFV-D50**

**Specifications**

- **Power Requirements:** AC-90V–246V, 48 Hz–62 Hz
- **Power Consumption:** Max. 100W
- **Dimensions (WxHxD):** 424 x 132 x 450mm
- **(163/4" x 51/4" x 171/4")**
- **Weight:** 33 lb. 1 oz. (15 kg.) (approx.) without optional boards
PFV-D100
Digital Video Interface Unit

- Digital video interface unit can hold and supply power to ten types of optional interface boards.
- Each optional board provides an independent function such as A/D or D/A conversion, digital video distribution, or digital video delay capabilities.
- Up to 14 optional boards can be installed in any combination.
- Digital input/output signals are provided in the 10 bit serial digital format.
- Processor board can be slotted in the chassis either from the front or rear of the unit.

Specifications

- Power Requirements: AC-90V-264V, 48 Hz-62 Hz
- Power Consumption: 300W Max.
- Dimensions (WHD): 424 x 310 x 450mm (163/4" x 121/4" x 171/4")
- Weight: 44 lb 1 oz. (20 kg.) (approx.) without optional boards
PFA-D100
Digital Audio Distribution Amplifier
- Conforming to the AES/EBU format with 48.0 kHz sampling frequency
- Four selectable distribution: Four blocks of one stereo input x 6 outputs; Two blocks of one stereo input x 12 outputs; A block of one stereo input x 24 outputs; Two blocks of one stereo input x 6 outputs and a block of one stereo input x 12 outputs; A block of one stereo input x 18 outputs and a block of one stereo input x 6 outputs
- Locking to video reference or AES/EBU sync signals
- Operation standard video signals can be selected with an internal switch
- Re-clocking digital audio signals using a reference video or AES/EBU sync signal
- Optional back-up power supply unit: BKPF-A100
- Dual AC inlets
- 2U height and 19-inch rack mountable

Specifications
- Power Requirements: AC-100V—120V/220V—240V, 50/60 Hz
- Power Consumption: 15W (approx.)
- Dimensions (WHD): 424 x 86 x 350 mm
  (16 1/4" x 3 3/4" x 13 3/4") (approx.)
- Weight: 15 lb. 7 oz. (7.0 kg.) (approx.)
- Digital Input: AES/EBU format, XLR-3-31 type x 4
  *(One digital input signal selected with an internal switch is used as a reference audio signal)
- Digital Output: AES/EBU format, XLR-3-32 type x 24
- Sync Input: AES/EBU format, XLR-3-31 type x 1
- Reference Video Input: Analog video signal
  Black burst
  Composite sync
  Composite video (525/59.94, 625/50 or 525/60)
  BNC, loop-through

BVX-100
Digital Decoder
- Capable of digitally decoding analog composite video into analog or digital component video
- Y/C separation employs field comb, line comb and bypass mode filtering
- Parallel digital component output allows direct interface to CCIR-601 equipment
- 12-pin Betacam™ dubbing connector is provided
- Adjustment of video parameters is possible: Input level, chroma gain, video phase, black level, Y/C delay, active video phase
- Frame store synchronizer function
- Auto freeze function
- Basic parameters can be remotely controlled by the optional BVR-51 Remote control unit

Specifications
- Power Requirements: AC-90V—132V/AC-198V—264V selectable, 50/60 Hz
- Power Consumption: 130W
- Dimensions (WHD): 474 x 86 x 515 mm
  (18 3/4" x 3 3/4" x 20 5/6")
- Weight: 28 lb. 10 oz. (13 kg.)
BVX-D10
Digital Color Corrector
■ Designed for use with Sony D-1 and D-2 VTRs ■ High quality color correction due to the digital signal processing ■ Handles either component digital parallel/serial video or composite digital parallel/serial video ■ Operates on 13.5 MHz for component digital and 14.318 MHz for NTSC composite digital ■ Precise gain, black, and gamma corrections of R/G/B control ■ Adjustments of luminance gain, chroma gain, black level, hue and output gain is possible ■ Remote control of the BVX-D10 is possible by the optional BVR-D10 remote control unit

Optional Accessories:
BKX-101 NTSC Composite Digital Input/Output Board
BKX-101C Component Digital Input/Output Board
BVR-D10 Remote Control Unit

Specifications
Power Requirements: AC-90V~264V, 48 Hz~62 Hz
Power Consumption: BVX-D10: 50W (including the optional boards)
Dimensions (WHD): BVX-D10: 424 x 88 x 490mm
(163/4" x 31/2" x 191/2"
Weight: BVX-D10: 17 lb. 10 oz. (8 kg.)

Component Operation: Component serial x 4 (BNC)
Component parallel x 1 (D-sub 25-pin)
Composite Operation: Composite serial x 4 (BNC)
Composite parallel x 1 (D-sub 25-pin)

DMIF-1000
Digital Monitor Interface
■ Accepts a Component Serial Digital Video signal input ■ Outputs analog component (Y, R-Y, B-Y) signals ■ Operates in either 525/60 or 625/50 systems (automatic selection) ■ Employs active outputs ■ 19” EIA standard rack mountable with a second DMIF-1000 using the optional rack mount kit MB-510

Optional Accessories:
MB-510 Rack Mount Kit

Specifications
Digital Serial Component: BNC, 75Ω
Analog Component: Y: BNC, 75Ω
R-Y/B-Y: BNC, 75Ω
Signal System: 525/60 or 625/50, automatic selection
Transmission Length: Max. 200m (656 ft.)
Sampling Frequency: Y: 13.5 MHz
R-Y/B-Y: 6.75 MHz
Bit Rate: 270 Mb/sec
Quantization: 8 bits/sample
Video Bandwidth: Y: 100 Hz to 5.75 MHz ± 1 dB
R-Y/B-Y: 100 Hz to 2.75 MHz ± 1 dB
K Factor: < 1% (2T pulse)
Power Requirements: AC-100V~240V, 50/60 Hz, automatic selection
Power Consumption: 15W
Dimensions (WHD): 212 x 44 x 260mm
(8½" x 1½" x 10½"
Weight: 4 lb. 6 oz. (2 kg.)
**DTR-3000**

**Dynamic Motion Controller**
- Provides speedy control of DT equipped VTRs in STILL, JOG, VARIABLE, and SHUTTLE modes.
- Five current cues can be entered and accessed for search to the desired event.
- Additional five memory cues are provided to store current cues.
- Each cue point is easily accessed using the cue scroll or memory cue scroll keys.
- Up to two VTRs can be controlled by one DTR-3000.
- Up to four DTR-3000s can be interconnected for parallel operation, thus a maximum of eight VTRs can be controlled at the same time.
- Both dial and lever operation are available.
- Playback speed from $-100\%$ to $300\%$ in 50 steps (normal speed = 100\%).
- Preroll times can be set within the range of 0 sec. 00 frames to 9 sec. 24 (NTSC)/29 (PAL) frames.

**Specifications**
- **Power Requirements:** AC-100V–240V, 50/60 Hz
- **Power Consumption:** 35W
- **Dimensions (WHD):** 212 x 257 x 271mm
  - (8¾" x 10⅞" x 10¼")
- **Weight:** 10 lb. 2 oz. (4.6 kg.)
- **Input/Output Connectors:**
  - RS-232C: D-sub 25-pin
  - VTR-1: D-sub 9-pin, RS-422
  - VTR-2: D-sub 9-pin, RS-422
  - GP-IB: GP-IB 24-pin
  - TALLY: D-sub 9-pin, AC/DC-24V
  - VIDEO IN: BNC, 1.0Vp-p, 75Ω
  - MONITOR OUT: BNC, 1.0Vp-p, 75Ω

**BKDV-108**

**Digital Video Controller**
- Up to four D-2 VTRs can be connected via RS-422 interface port.
- Precise control of video output parameters: Video level, chrominance gain, black Level (setup level), hue (burst/chroma phase), video phase, sync phase, SC phase.
- Input video gain can be controlled.
- Unity (fix) and Variable modes for each parameter.
- Video level and SC-H phase of the incoming video are displayed with LED bargraphs.
- Fix, adjust, and free modes are available for input CF mode.
- A total of 99 settings can be stored and retrieved.

**Specifications**
- **Power Requirements:**
  - AC-100V–120V ± 10% (BKDV-108)
  - AC-220V–240V ± 10% (BKDV-109)
- **Power Consumption:** 10W
- **Dimensions (WHD):** 424 x 43.6 x 110mm
  - (16¾" x 1⅞" x 4⅝")
- **Weight:** 4 lb. 6 oz. (2 kg.)
Digital Interfaces

DAF-2000 SYSTEM

Audio Converter Unit

- The DAF-2000 system is designed to provide a 20 bit or 16 bit A/D and D/A conversion for the DVR-2100 and DVR-2000. The system is based on the DAF-2000 Audio Frame, into which any combination of the four A/D and D/A converter boards can be installed;
  - DABK-2001: 16 bits A/D converter board;
  - DABK-2002: 16 bits D/A converter board;
  - DABK-2003: 20 bits A/D converter board;
  - DABK-2004: 20 bits D/A converter board;

These optional boards employ state of the art digital technology, i.e. ΔΣ type A/D converter and an 8-times oversampling filter for the D/A conversion, ensuring superb audio fidelity. The DAF-2000 system features phase synchronization to NTSC or PAL video signals, a word clock or an internal reference signal. DAF-2000 Audio Frame

2 unit height and 19 inch EIA standard rack mountable frame. Up to four optional A/D and D/A converter boards can be accommodated and any combination of these four boards is available depending on the customer requirements. It is easy to check operational condition shown by LED display through the window of the front panel. DABK-2001 16 bits A/D Converter Board, DABK-2003 20 bits A/D Converter Board. Two channels of analog signals can be converted to the stereo AES/EBU format signals at 16 bits/sample in the DABK-2001 and 20 bits/sample in the DABK-2003. ΔΣ type A/D conversion technique is provided for superb linearity.

- Locking to NTSC/PAL video signals, a word clock or an internal AES/EBU sync signal is possible.
- Sampling frequency can be selected from 48 kHz, 44.1 kHz or 44.056 kHz when using a video reference signal.
- Usable sampling frequency range is 38 kHz to 50 kHz with the DABK-2001 and 40 kHz to 54 kHz with the DABK-2003 when using Word sync or AES/EBU D-1 sync signal.
- Complete A/D conversion with no reference signals is possible.
- Analog input signals to the A/D converter can be monitored both via a headphone output and a monitor output.

- DABK-2002 16 bits D/A Converter Board, DABK-2004 20 bits D/A Converter Board. Two channels of AES/EBU signals can be converted to analog audio signals at 16 bits/sample in the DABK-2002 and 20 bits/sample in the DABK-2004. Δ/D conversion with an 8-times oversampling digital filter ensures the highest quality audio. Can accept a sampling frequency range of 38 kHz to 54 kHz. Analog output signals can be monitored via both a headphone output and a monitor output.

Supplied Accessories:
- 19-inch Rack Mount Adaptor
- AC Power Cable (3)
- Extension Card

Specifications

General
- Dimensions (WHD): 424 x 88 x 350mm
  (163/4" x 31/2" x 137/6")
- Weight: 19 lb. 13 oz. (9 kg.)—DAF-2000 System
- Power Requirements: AC 100V to 120V/200V to 240V 50/60 Hz
- Power Consumption: 90W (approx)

Inputs/Outputs
- Reference Video: Black Burst
  (Analog video Signal) Composite Sync
  Composite video: (525/59.94, 625/50, or 525/60)
  (75Ω terminated, switchable, BNC, loop-through)
- Reference Audio: WORD Sync IN: TTL compatible, 75Ω, switchable, BNC, loop-through
  AES/EBU D-1 Sync IN: AES/EBU format, XLR-3-31 type buffered, through XLR-3-32 type (1)
- DIGITAL IN: AES/EBU format, XLR-3-31 type (1)
  —DABK-2002 or DABK-2004
- DIGITAL OUT: AES/EBU format, XLR-3-32 type (1)
  —DABK-2001 or DABK-2003
- ANALOG IN:
  + 4 dB (± 24 dBFS max.) adjustable range of
  - 4 to + 8 dB, 0 kHz or 600Ω (selectable, balanced, XLR-3-31 type (x 2))
  —DABK-2001 or DABK-2003
- ANALOG OUT:
  + 4 dB (± 24 dBFS max.) adjustable range of
  - 4 to + 8 dB, ≤ 60Ω, balanced, XLR-3-32 type (x 2)
  —DABK-2002 or DABK-2004

Audio
- Quantization:
  DABK-2003/2004—20 bits/sample
  DABK-2001/2002—16 bits/sample
- Frequency Response:
  DABK-2003/2004—20 Hz to 20 kHz
  (± 0.5, ± 1.0) db
  DABK-2001/2002—20 Hz to 20 kHz
  (± 0.5) db

Total Harmonic Distortion:
DABK-2001/2002—< 0.05% at 1 kHz,
+ 4 dB output, emphasis OFF
DABK-2003/2004—< 0.03% at 1 kHz,
+ 4 dB output, emphasis OFF

Signal-to-Noise Ratio:
DABK-2001/2002—> 90 dB (at max. input level, emphasis OFF)
DABK-2003/2004—> 102 dB (at max. input level, emphasis OFF)

Crosstalk:
DABK-2001/2002—< 80 dB
DABK-2003/2004—< 90 dB

Emphasis:
DABK-2001/2002—50 µs/15 µs (ON/OFF, selectable)
DABK-2003/2004—50 µs/15 µs (ON/OFF, automatic selection)

Sampling Frequency:
DABK-2001/2003;
When using reference or internal clock generator:
—44.056 kHz, 44.1 kHz, or 48 kHz, selectable
When using Word sync or AES/EBU sync signal:
—38 kHz to 50 kHz (DABK-2001)
40-kHz to 54 kHz (DABK-2003)
DABK-2002/2004; 38 kHz to 54 kHz
Select™ Systems
Select™ Systems for Post Production
- Select Systems are a series of complete post-production systems that are predesigned and pre-engineered by Sony's Systems Integration Division
- Seven levels of system configuration offered from simple A/B roll to a fully digital edit suite
- Sony assures professional setup and installation backed by training and technical support
Select Systems for Duplication

Select™ Systems

Select™ System for Duplication

- Real Time duplication with up to 1,000 slave VTRs
- 3 levels of Master Control capability
- 4 levels of Slave VTR racking
- Automated operation for unattended production

Supplied Accessories:
AC Power Cable (x 2)
Remote Cable (10m)
RH-10DA Empty Reel (10"
Multi-connector Plug (27-pin male, x 6)
Multi-connector Plug (27-pin female, x 6)
RM-3348 Remote Control Unit with Stand

Optional Accessories:
DABK-3340 Remote Interface Board for PCM-3348
DABK-3341 Upgrade Kit for PCM-3348
DMU-3048 Digital Meter Unit for PCM-3348

Specifications
Tape Format/
Performance
Recording Format: DASH-F double density
Number of Tracks: 48 digital audio tracks, 2 cue tracks
Tape Speed (at fs = 48 kHz): 76.20 cm/sec.
Recording Time: 60 min. with 14" reel at fs = 48 kHz
FF andREW Time: 4 min. 20 sec. with 14" reel
Variable Speed Range: ± 12.5%

Digital Audio Signal
Sampling Frequency: 48 kHz, 44.1 kHz and 44.056 kHz
Quantization: 16-bit linear
Dynamic Range: > 90 dB (emphasis ON)
Frequency Response: 20 Hz – 21,700 Hz + 0.5 dB / -1.0 dB
Total Harmonic Distortion: < 0.1% (+4 dBs)
Wow and Flutter: Below measurable limit
Inter-Channel Crosstalk: < –80 dB
Editing Resolution: 1 sector (1 msec. at fs = 48 kHz)
Crossfade Punch In/Out: 1.4 msc. to 341.3 msc. (in 16 steps)
Splice Editing: 5.2 msc.
Emphasis: 50 µs/15 µs, on/off selectable

Inputs/Outputs
Analog Inputs: Digital Audio IN (x 48): +4 dB (+ 24 dB max.)
           10 kHz or more, balanced, NK-27-31SL
           (1NK consists of 8 ch in total 6NKs)
           Analog Audio IN (x 2): +4 dB (+ 19 dB max.)
           10 kHz, balanced, XLR-3-31 type

PCM-3348
Digital Audio Multi-Channel Recorder
- 1/2" DASH recorder with 48 digital audio tracks, 2 cue tracks and one track each for CTL and time code signals
- Compatible with PCM-3324A/3324 in recording and playback of digital audio tracks 1 through 24
- 2 times oversampling digital filtering for both A/D and D/A converters
- Wide interfacing—balanced analog multi I/O and three types of digital I/O (AES/EBU, SDIF-2 balanced/unbalanced)
- Comprehensive microprocessor-controlled servo system, unique design and excellent mechanics for fast and stable transport
- Built-in time code generator/reader capable of handling SMPTE drop frame/non-drop frame, EBU and film time codes
- 48 kHz, 44.1 kHz or 44.056 kHz sampling frequency selectable
- Advanced digital/analog output function enables pre-delay adjustment in 1-sample steps to compensate for signal processing delay in external equipment
- Approx. 20 sec. of digital audio data can be stored in sound memory and re-recorded back onto tape at any position
- Real-time digital ping pong

Analog Outputs: Digital Audio OUT (x 48): +4 dB (+ 24 dB max.)
               < 100 load, balanced NK-27-325 (1NK consists of 8 ch in total 6Ks)
               Analog Audio OUT (x 2): +4 dB (+ 19 dB max.)
               < 100 load, balanced, XLR-3-32 type

Digital Inputs: AES/EBU: XLR-3-31 type
               SDIF-2 balanced: RS-422, D-sub 50-pin (x 2)
               (cover 48 ch)
               SDIF-2 unbalanced: TTL level, 75Ω, BNC

Digital Outputs: AES/EBU: XLR-3-32 type
                SDIF-2 balanced: RS-422, D-sub 50S (x 2)
                (cover 48 ch)
                SDIF-2 unbalanced: TTL level, 75Ω, BNC

Other Inputs: WORD SYNC IN (loop through): TTL level, 75Ω, unbalanced
              SECTOR SYNC IN (loop through): TTL level, 75Ω, unbalanced
              SYNC INPUT VIDEO: TTL level, 75Ω, unbalanced
              COMPOSITE VIDEO, COMPOSITE SYNC and SQUARE WAVE
              REMOTE 1 IN: SRIF-1 format, TTL level, D-sub 37P
              REMOTE 3 IN: SRIF-3 format, RS-422, D-sub 50P
              TIME CODE IN: 0.5Vp-p – 10Vp-p, 10 kHz, balanced, XLR-3-31 type
              SECTOR ADDRESS IN: TTL level, 75Ω, BNC
              EXT. SPEED CONTROL IN: ±10V, 10 kHz, balanced, XLR-3-31 type
              EXT. PHASE CONTROL IN: ±10V, 10 kHz, balanced, XLR-3-31 type

Other Outputs: WORD SYNC OUT (x 2): TTL level, 75Ω, BNC
               SECTOR SYNC OUT (x 2): TTL level, 75Ω, BNC
               TIME CODE OUT: 2.4Vp-p – 8Vp-p, 100Ω, balanced, XLR-3-32 type
               SECTOR ADDRESS OUT: TTL level, 75Ω, BNC

General
Power Requirements: AC-100 – 120V/220 – 240V, 50/60 Hz
Power Consumption: 1.2 kW
Dimensions (WHD): 816 x 997 x 740mm
(32 7/16" x 39 1/4" x 29 1/4")
Weight: 543 lb (246 kg.)
RM-3348
Remote Control Unit for PCM-3348 (Supplied)
- Provides control over all functions of PCM-3348 including variable speed control, digital ping pong, sound memory, memory back up for three days, repro mute, synchronized operation of two or three PCM-3348 or PCM-3324A/3324 machines

Specifications
- Dimensions (WHD): 52 x 1068 x 536nm
  (20½" x 42½" x 21½") with stand
- Weight: 61 lb. 12 oz. (28 kg.) with stand
- Power Requirements: AC-100V–120V/220V–240V, 50/60 Hz
- Power Consumption: 42W
PCM-3324S

DASH 24-Channel Digital Audio Recorder

- Conforms to the DASH-F (Digital Audio Stationary Head—Fast speed) format which has been widely accepted as a major force in digital audio
- Compatibility with other DASH machines
- PWM (Pulse Width Modulation) system for cue track recording and playback, giving a dynamic range of over 60 dB
- Up to 3 recorder multi-operation/DASH chase synchronizer
- Customer configurable design to give maximum flexibility in choosing the best combination for a particular requirement; 13 optional units, including two remote controllers
- Compact dimensions and low power consumption
- Built-in video sync capability (external synchronization)
- Flexible remote control capability provides a wide range of remote interface connections, with enhanced remote-control available from the optional remote controllers RM-3324/RM-3324S
- A/D conversion uses 1-bit delta Σ type A/D converter with 64 x oversampling digital filters, giving superb linearity; for comparable playback quality, 18-bit D/A converters with eight times oversampling digital filters are used
- Three selectable sampling frequencies and Fs shift function
- Versatile digital audio interfacing options: 2-CH AES/EBU digital I/O (with DABK-3327); 2-CH unbalanced SDIF-2 digital I/O (with DABK-3326); 24-CH balanced SDIF-2 digital I/O (with DABK-3325)
- Advanced output function
- Optional stereo sound memory
- Digital ping pong
- Stable, high speed tape transport
- 4 x normal speed prestriping
- Built-in time code generator
- Time code re-generation option
- Time code chase synchronization
- Noiseless punch IN/OUT with cross fade
- Accurate auto location
- Convenient roll-back function
- Variable speed playback ranging over ± 12.5%

Optional Accessories (continued)

DABK-3329 Sound Memory Board: Stereo sound memory control is available on the PCM-3324S by installing a DABK-3329 under RM-3324 control

DAH-24R Monitor Playback Head: Installing the DAH-24R head in the head block of the PCM-3324S allows real time confidence monitoring (Read After Write) for checking the recording when in the advanced recording mode

DMU-3024 Digital Meter Unit for PCM-3324S/3324A/PCM-3324: Displays 24 channels of digital audio signal level and over level

D-1/2-2920 1/2-inch Master Tape: 14-inch size
- Recording time: 60 min. (at fs 48 kHz)
- 65 min. (at fs 44.1 kHz)

D-1/2-1460 1/2-inch Master Tape: 10-inch size
- Recording time: 30 min. (at fs 48 kHz)
- 32 min. (at fs 44.1 kHz)

RH-14DA: Empty Reel for D-1/2-2920
RH-10DA: Empty Reel for D-1/2-1460
SU-224 Stand: with adjustable height and angle for use with the RM-3324S
SU-15 Stand: with adjustable height and angle for use with the RM-3324S
SMK-0032 IEEE 488 Interface Cable for RM-3324
CY-24A Tape Splicer: for 1/2-inch and 1/4-inch digital audio tapes
AM-9 Audio Marker
### Specifications

**Format/Performance**
- Recording Format: DASH-F (Digital Audio Stationary Head-Fast Version), 1 track/channel
- Digital Audio Channels: 24 channels
- Quantization: 16-bit linear
- Error Correction: Cross Interleave
- Recording Time: 60 min. (Fs = 48 kHz) with 14" reel
- Tape Speed: 76.20 cm/sec. (Fs = 48 kHz)
- Variable Tape Speed: ±12.5%
- Fast Forward Time: 4 min. 20 sec. (with 14" reel)
- Recommended Tape: 1/2" width, Sony D-1/2-2920 (14" reel)
- Reel Size: 14.25, 10 inches
- Recording Tracks: Digital tracks 1 through 24, CTL, Analog tracks 1, 2
- FWD Rise Time: <0.40 sec.
- FF/REW Speed: 1.52m/sec., max. in slow wind
- Shuttle Speed: 1.52m/sec., max. in slow wind
- Input Sensitivity: External speed control:
  - Fs shift (0.1% down at 44.1 kHz or 48 kHz)
  - 48 kHz: ±50 ppm
  - 44.1 kHz: ±50 ppm
- Phase Speed Control:
- Locate Accuracy: ±16 sector, with CTL address, 14" reel (used when the CTL address on the tape can be read)
- Crossfade Time: ±7.6 cm/sec. to 3.8m/sec.

**Editing Performance**
- Electronic Crossfade:
  - Fs (kHz): 44.056, 44.1, 48
  - Electronic min. editing (ms): 1.5, 1.5, 1.4
  - Electronic max. editing (ms): 372, 372, 341.3
  - Splice editing (ms): 5.65
  - Splice editing (ms): 5.65
  - Splice editing (ms): 5.2
- Splice Editing Accuracy:
  - 1 sector: 1.00 ms (Fs = 48 kHz)
  - 1.09 ms (Fs = 44.1 kHz, 44.056 kHz)

**Digital Audio Signal**
- Frequency Response:
  - 20 Hz - 20 kHz, within ±0.5% - 1.0 dB
  - 20 Hz - 20 kHz, at reference level:
    - Signal-to-Noise Ratio: > 90 dB
  - Crosstalk: -80 dB between channels
  - Emphasis: 50 µs/15 µs, ON/OFF selectable for each channel
- Sampling Frequency: 44.056 kHz
- Delay Time of Signal Processing:
  - Average delay time in playback: 252 blocks
  - Average delay time in recording: 236 blocks
  - Advance out: 256 words fixed

**Digital Inputs/Outputs**
- Digital Audio I/O: SDIF-2 balanced (24-CH): RS-422, D-sub 50P (x 1) and D-sub 505 (x 1) with DABK-3325
  - SDIF-2 unbalanced (2-CH): TTL level 75Ω, BNC, with DABK-3326
  - AES/EBU IN: XLR-3-31 type (x 1), with DABK-3327
  - AES/EBU OUT: XLR-3-32 type (x 1), with DABK-3327

**Analog Audio Signal**
- Frequency Response: 50 Hz - 10 kHz ±3 dB
- Signal-to-Noise Ratio: > 80 dB
- Total Harmonic Distortion: < 3%
- Wow and Flutter: < 0.1% RMS WTD (LPF 200 Hz)

**Analog Inputs/Outputs**
- Digital Audio In:
  - 4 dB (24 dB max.), 10 kHz or more, balanced, XLR-3-31 type (x 24)
- Digital Audio Out:
  - 4 dB (24 dB max.), 10 kHz or more, balanced, XLR-3-32 type (x 24)
- Analog Audio In:
  - 4 dB (12 dB max.), 10 kHz or more, balanced, XLR-3-31 type (x 2)
- Analog Audio Out:
  - 4 dB (12 dB max.), 10 kHz or more, balanced, XLR-3-32 type (x 2)

**Other Inputs/Outputs**
- Time Code In:
  - 0.5Vp-p, -5Vp-p, > 10 kHz, balanced, XLR-3-31 type (x 1)
- Time Code Out:
  - 2.4Vp-p ± 0.1V, > 10 kHz, balanced, XLR-3-32 type (x 1)
- Word Sync I/O:
  - TTL compatible, 75Ω, unbalanced, with loop-through, BNC (x 2, each)
- Sector Sync I/O:
  - TTL compatible, 75Ω, unbalanced, with loop-through, BNC (x 2, each)
- Sector Address I/O:
  - TTL level, 75Ω, with loop-through, BNC (x 1, each)
- Reference Video:
  - Black Burst: 0.3Vp-p, 75Ω
  - COMPOSITE SYNC: 4Vp-p, 75Ω
  - SQUARE WAVE: 0.3Vp-p, 75Ω
- Remote-1 In:
  - SRIF-1 format, TTL level, D-sub 37P (female x 1), with DABK-3321
  - XLR-3-32 type (x 1)
- Ext. Speed Control In:
  - ±10V, >10 kHz, balanced, XLR-3-31 type (x 1), with DABK-3321
- Ext. Phase Control In:
  - ±10V, 10 kHz, balanced, XLR-3-31 type (x 1), with DABK-3321

**Cable Length**
- Maximum Cable Length:
  - Digital I/O: Up to 30m
  - SDIF-2 Balance: Up to 30m
  - SDIF-2 Unbalance: Up to 30m
  - AES/EBU: Up to 100m
  - Sync: Up to 30m
  - Remote meter: Up to 100m
  - Remotes: Up to 30m
  - Remote-2: Up to 30m
  - Remote-3: Up to 120m
  - Remote-4: Up to 30m

**Dimensions (WHD):**
- 766 x 843 x 726mm
- (30 1/4" x 33 1/4" x 28 1/4")
- Weight: 264 lb. 9 oz. (120 kg.) (approx.)
- Power Requirements: AC-100V - 240V, 50/60 Hz
- Power Consumption: 800W
Dash Format Digital Products

RM-3324S
Remote Control Unit for PCM-3324S
- Up to 120-CH DASH chase operation
- Time code chase synchronizer
- Auto punch IN/OUT operation
- 2-CH Digital I/O assign
- Crossfade time select
- Variable speed playback control/Variable speed setting
- Repeat
- Memorizing up to 100 cue points (memorizing up to 10 cue points, selectable)
- Recording/reproduction channel setup
- All input setting
- All repro setting
- Rec disable setting

Supplied Accessories:
- DIN 8-Pin Remote Cable

Optional Accessories:
- SU-15 Stand
- SU-224 Stand

Specifications
- Dimension (WHD): 472 x 266 x 78mm
- (183/4" x 101/2" x 31/8"
- Weight: 6 lb. 10 oz. (3 kg.) (approx.)
- Power Supply: Supplied from the PCM-3324S via a DABK-3322

RM-3324
Remote Control Unit for PCM-3324S
- Up to 120-CH DASH sync operation
- Up to 120-CH DASH chase operation
- Time code chase synchronizer
- Stereo sound memory control
- Digital ping pong
- Auto punch IN/OUT operation
- 2-CH Digital I/O assign
- Crossfade time select
- Variable speed playback control/variable speed setting
- Repeat
- Memorizing up to 100 cue points (memorizing up to 10 cue points, selectable)
- Recording/reproduction channel setup
- Recording/reproduction channel control
- All input setting
- All repro setting
- Rec disable setting

Supplied Accessories:
- AC Power Cable
- 50-Pin Remote Cable

Specifications
- Dimensions (WHD): Unit: 472 x 399 x 187mm
- (183/4" x 153/4" x 73/4"
- Stand: 525 x 600 x 536mm
- (203/4" x 233/4" x 211/8"
- Weight: Unit: 24 lb. 4 oz. (11 kg.) (approx.)
- Stand: 31 lb. 15 oz. (14.5 kg.) (approx.)
- Power Requirements: AC-100V~240V, 50/60 Hz
- Power Consumption: 30W
PCM-3324A
Digital Audio Multi-Channel Recorder

- ¼" DASH recorder with 24 digital audio tracks, 2 cue tracks and one track each for CTL and time code signals
- Switchable 48 kHz and 44.1 kHz sampling frequencies
- Bi-directional manual search to any desired point on the tape using shuttle dial
- Auto locate of any cue point
- Electronic punch in/out with crossfade variable in 16 steps
- Splice editing
- Two selectable channels of AES/EBU and SDIF-2 digital I/O
- Built-in video clock board for synchronized operation with video equipment
- 2 times oversampling A/D and D/A with digital filtering
- External synchronization and external servo control
- Variable speed playback

Supplied Accessories:
- AC Power Cable
- RH-10DA Empty Reel (10"
- RM-3310 Remote Control Unit

Optional Accessories:
- DABK-3000 Video Clock Board for PCM-3324A
- DMU-3024 Digital Meter Unit for PCM-3324A
- D-1/2-2920 Digital Master Tape (65 min. at 44.1 kHz)
- D-1/2-1460 Digital Master Tape (32 min. at 44.1 kHz)
- RH-14DA Empty Reel for D-1/2-2920
- RH-10DA Empty Reel for D-1/2-1460
- CY-24A Digital Tape Splicer

Specifications

Tape Format/Performance

- Recording Format: DASH-F normal density
- Number of Tracks: 24 digital audio tracks, CTL track, TC track and 2 cue tracks
- Tape Speed (at fs = 48 kHz): 76.20 cm/sec.
- Recording Time: 60 min. with 14" reel at fs = 48 kHz
- FF andREW Time: 4 min. 55 sec. with 14" reel
- Variable Speed Range: ± 12.5%

Digital Audio Signal

- Sampling Frequency: 48 kHz and 44.1 kHz
- Quantization: 16-bit linear
- Dynamic Range: > 90 dB (emphasis ON)
- Frequency Response: 20 Hz–20,000 Hz + 0.5 dB/– 1.0 dB
- Total Harmonic Distortion: < 0.1% (+4 dBs)
- Wow and Flutter: Below measurable limit
- Inter-Channel Crosstalk: < – 80 dB
- Editing Resolution: 1 sector (1 msec. at fs = 48 kHz)
- Crossfade Punch In/Out (fs = 48 kHz): 1.33 msec.–341 msec. (in 16 steps)
- Splice Editing: 5.2 msec.
- Emphasis: 50 µs/15 µs, on/off selectable

Inputs/Outputs

- Analog Inputs: Digital Audio IN (x 24): + 4 dB (+ 24 dB max.) 10 kHz or more, balanced, XLR-3-31 type
- Analog Audio IN (x 2): + 4 dB (+ 12 dB max.) 10 kHz, balanced, XLR-3-31 type
- Analog Outputs: Digital Audio OUT (x 24): + 4 dB (+ 24 dB max.) < 100Ω, balanced, XLR-3-32 type
- Analog Audio OUT (x 2): + 4 dB (+ 12 dB max.) < 100Ω, balanced, XLR-3-32 type

Digital Inputs:

- AES/EBU: XLR-3-31 type
- SDIF-2 balanced: RS-422, D-sub 50-pin (x 2) (cover 24 ch)
- SDIF-2 unbalanced: TTL level, 75Ω, BNC

Digital Outputs:

- AES/EBU: XLR-3-32 type
- SDIF-2 balanced: RS-422, D-sub 50S (x 2) (cover 24 ch)
- SDIF-2 unbalanced: TTL level, 75Ω, BNC

Other Inputs:

- WORD SYNC IN (loop through): TTL level, 75Ω, unbalanced, BNC
- SECTOR SYNC IN (loop through): TTL level 75Ω, unbalanced, BNC
- SYNC INPUT VIDEO: TTL level, 75Ω, unbalanced, BNC, COMPOSITE VIDEO, COMPOSITE SYNC and SQUARE WAVE
- REMOTE 1 IN: SRIF-1 format, TTL level, D-sub 37P
- REMOTE 3 IN: SRIF-3 format, RS-422, D-sub 50P
- TIME CODE IN: 0.5–10 Vp-p, 10 kHz, balanced, XLR-3-31 type
- SECTOR ADDRESS IN: TTL level, 75Ω, balanced, XLR-3-31 type
- EXT SPEED CONTROL IN: ± 10 V, 10 kHz, balanced, XLR-3-31 type
- EXT. PHASE CONTROL IN: ± 10 V, 10 kHz, balanced, XLR-3-31 type

Other Outputs:

- WORD SYNC OUT (x 2): TTL level, 75Ω, BNC
- SECTOR SYNC OUT (x 2): TTL level, 75Ω, BNC
- TIME CODE OUT: 2.4Vp-p, 200Ω (PCM-3348), 1.5Vp-p–5Vp-p, 100Ω (PCM-3324A), balanced, XLR-3-32 type
- SECTOR ADDRESS OUT: TTL level, 75Ω, BNC

General

- Power Requirements: AC-100V–120V/220–240V, 50/60 Hz
- Power Consumption: 1.2 kW
- Dimensions (W/H/D): 842 x 1,002 x 745mm (33¾" x 39½" x 29½")
- Weight: 400 lb. (180 kg.)
RM-3310
Remote Control Unit for PCM-3324A/3324
- Single cable connection to PCM-3324A/3324
- Consists of compact system control unit and separate keyboard for audio control
- Enables synchronized operation of up to three PCM-3324A/3324 recorders
- Complete master control and precise auto locate function

Optional Accessories:
SU-15 Mounting Stand

Specifications
Dimensions (W x H x D):
- System Control Unit: 424 x 152 x 260mm (16 5/8" x 6" x 10 1/4")
- Audio Control Unit: 424 x 132 x 51mm (16 5/8" x 5 1/2" x 2")
Weight:
- System Control Unit: 16 lb. 8 oz. (7.5 kg.)
- Audio Control Unit: 5 lb. 8 oz. (2.5 kg.)
Power Requirements:
- AC-100V-120V/220V-240V, 50/60 Hz
Power Consumption: 32W

VSU-3310
Vari Sync Unit
- Provides word sync output for varying the tape speed of PCM-3324A/3324/3324S within a range of ±12.5%, making it easy to obtain digital audio signals of different pitches
- Fixed or variable word sync output available
- Capable of producing word sync output in synchronization with any of composite video signal, word clock and TTL level rectangular wave
- Complete interchangeability with RM-3310/IF-3310 system

Supplied Accessories:
- Rack Mount Adaptor
- IEEE-488 Cable (10m)

Specifications
Inputs/Outputs:
- VIDEO IN
- WORD IN
- AUX IN
- EXT PHASE IN
- SUB IN
- WORD OUT
- IEEE-488 SECTOR I/O
Power Requirements:
- AC-100V-120V/220V-240V, 50/60 Hz, selectable
Power Consumption: 23W
Dimensions (W x H x D):
- 424 x 44 x 330mm (16 3/4" x 1 3/4" x 13")
Weight: 9 lb. 8 oz. (4.3 kg.)
Dash Format Digital Products

**IF-3310**

**Console Interface**
- Adds versatility to the system set-up of PCM-3324A/3324/3324S digital audio multi-channel recorder/RM-3310 remote controller combination by making it compatible with specified mixing console
- Supports tape transport control and channel REC READY control of 24 channels

**Supplied Accessories:**
- IEEE-488 Cable (2m)
- TACH Pulse Cable (10m)
- D-sub 50-Pin Connector and Shell for REC READY control (2)
- D-sub 25-pin connector and shell
- D-sub 37-pin connector and shell for TRANSPORT control
- Rack Mount Adaptor

**Specifications**
- **Inputs/Outputs:** TRANSPORT CONTROL, REC READY CONTROL, IEEE-488, TACH, AUX
- **Power Requirements:** AC-100V~120V/220V~240V, 50/60 Hz
- **Power Consumption:** 18W
- **Dimensions (WHD):** 424 x 44 x 330mm (16¾" x 1¾" x 13")
- **Weight:** 9 lb. 15 oz. (4.5 kg.)
Dash Format Digital Products

PCM-3402
Digital Audio 2-Channel Recorder
- Switchable tape speed—7.5 ips (DASH-S) or 15 ips (TWIN DASH)
- Built-in editing facility to enable electronic editing between two PCM-3402's
- Two pairs of time code generator/readers to allow chase synchronization between two time codes of different types
- 6 chase synchronization modes to bring greater convenience and efficiency in post-production
- Digital level control (+21 dB to −∞) and balance control (max. ±3 dB)
- 50-pin parallel remote Sony 9-pin serial remote connectors
- 3-head configuration (REC-PB-REC) to enable sync recording (punch-in/out) and simultaneous monitoring
- Individual selectable crossfade time for punch-in/out operation and electronic editing
- 16 M-bit stereo digital sound memory capable of memorizing up to 12 seconds of stereo audio data (6 seconds each from recorder and player) to permit precise and efficient edit point search

Supplied Accessories:
- Stand for Mounting PCM-3402
- AC Power Cable
- R-1/4-1ODA 10½” Empty Reel
- Reel Clamps (2)

Optional Accessories:
- RM-3400 Remote Control Unit
- DABK-3400 Auxiliary D/A Board
- IF-3402 Interface Box

Specifications

Tape Format/Performance
- Recording Format: DASH-S/TWIN-DASH selectable
- Number of Tracks: 2 digital audio tracks, CTL track, TC track and 2 cue tracks
- Tape Speed (at fs = 48 kHz)
  - Low: 19.05 cm/sec. (7.5 ips)
  - High: 38.1 cm/sec. (15 ips)
- Recording Time:
  - Low: 180 min. with 12½” reel
  - High: 90 min. with 12½” reel
  - FF and REW Time: 3.5 min. with 10½” reel
- Variable Speed Range: ±12.5%

Digital Audio Signal
- Sampling Frequency:
  - 48 kHz, 44.1 kHz and 44.056 kHz
- Quantization:
  - 16-bit linear
- Dynamic Range:
  - >90 dB (emphasis ON)
- Frequency Response:
  - 20 Hz−20,000 Hz (+0.5/−1.0) dB
- Total Harmonic Distortion:
  - <0.05%
- Wow and Flutter:
  - Below measurable limit
- Inter-Channel Crosstalk:
  - <−80 dB
- Editing Resolution:
  - Within 1 ms
- Crossfade Punch In/Out:
  - 0 ms−171 ms (in 16 steps)
- Splice Editing:
  - 0 ms−10.7 ms (in 16 steps)
- Emphasis:
  - 50 µs/15 µs on/off selectable

Input/Outputs (continued)

Analog Inputs:
- LINE IN (x2):
  - 4 dB (24 dB max.) −2 dB to 10 dB adjustable, <50Ω balanced XLR-3-31 type
- AUX TRACK IN (x2):
  - 4 dB (14 dB max.) 10 kΩ, balanced XLR-3-31 type

Analog Outputs:
- LINE OUT (x2):
  - 4 dB (24 dB max.) 600Ω load.
  - −10 dB to 2 dB adjustable, <50Ω, balanced XLR-3-32 type
- AUX TRACK OUT (x2):
  - 4 dB (14 dB max.), 600Ω load, <50Ω balanced, XLR-3-32 type

Digital Inputs:
- AES/EBU: XLR-3-31 type SDIF-2
- AES/EBU: XLR-3-32 type SDIF-2
- unbalanced: TTL compatible, BNC

Digital Outputs:
- AES/EBU: XLR-3-32 type SDIF-2
- unbalanced: TTL compatible, BNC

Other Inputs:
- WORD SYNC IN (loop through): TTL level, 75Ω, unbalanced, BNC
- COMPOSITE SYNC IN: TTL level, 75Ω BNC, NTSC/PAL/SECAM, >0.3Vp-p
- TIME CODE IN: 10 kΩ, balanced, XLR-3-31 type
- PARALLEL REMOTE CONTROL IN: TTL compatible, D-sub 50S
- SERIAL REMOTE CONTROL IN (loop through):
  - Sony 9-pin serial remote, RS-422, D-sub 9-pin

Other Outputs:
- WORD SYNC OUT: TTL compatible, 75Ω, BNC
- TIME CODE OUT: 200Ω, balanced; XLR-3-32 type

General
- Power Requirements: AC-100V−120V/220V−240V, 50/60 Hz
- Power Consumption: 300W
- Dimensions (WHD):
  - 680 x 1,120 x 782mm
  - (26½" x 44¼" x 30¾")
- Weight: 169 lb. 13 oz. (77 kg.)
APR-24

24-Channel Multitrack Audio Recorder

- 24 track recording/playback on 2" tape
- Supplied remote controller
- 16-bit microprocessor controls all transport parameters
- Deep-webbed die-cast deck provides extra strength for stable handling of tape
- Servo-controlled DC capstan motor with ceramic shaft for long life and mechanical precision
- Choice of stored presets for overbias selection, reference flexibility, tape formulation and equalization standards
- Three alternative alignment presets per tape speed can be stored in non-volatile memory
- Amorphous record and playback heads deliver wide response and long life
- Transformerless, balanced input and outputs
- Full-range, bi-color bargraph display, Zoom mode provides finer resolution of 0.25 dB around the 0 dB point
- Built-in time code generator/reader
- Synchronization to LTC and VITC, including SMPTE D/ND, EBU and film
- Chases and locks to external time code, tone and video
- Burst time code output facility

Supplied Accessories:
- Remote Control Unit
- Empty Reel
- Blank Tape
- Extension Board
- Preset Alignment Card Pack
- Spare Fuses
- Tuchel® Connector Kit

Optional Accessories:
- SU-224 Stand for mounting supplied remote controller
- MB-24U Rack Mount Kit for mounting supplied remote controller into 19" rack
- MB-24M Mounting Kit for mounting RM-5010/RM-3110 on supplied remote controller of APR-24
- MB-24D Mounting Kit for mounting dual multitrack remote controller on supplied remote controller of APR-24
- MB-24H Mounting Kit for mounting RM-3400 on supplied remote controller of APR-24
- MB-24A Arm Rest
- APR-OP24C Console Interface provides parallel record ready commands to audio mixing console

### Analog Recorders

#### APR-5003V

**Audio Recorder**
- 12½" reel, ¼" format two channel NAB standard three speed recorder/reproducer including IEC standard center track time code capability
- Internal chase synchronization to VITC or LTC time code
- Video style pre-view/review editing with Sony video editor BVE-910/9100 system
- Time code generation locked to a video reference
- Burst time code for synchronization with external devices
- 16-bit microprocessor control
- Precision tape counter with both location and go-to displays
- Forward-reverse tape shuttling and wind speed control through Manual Velocity Control (MVC) ±50% vari-speed range
- 400 kHz bias frequency for low modulation noise, low distortion and reduced "edit squeal"
- Spot erase function sensing
- Microprocessor-managed audio alignments with non-volatile parameter memory
- Instant recall of "personality" presets upon plug-in of alternative head block units
- Quick-change alignment stable head block units

Analog Recorders

TC-D5 PROII

Portable Cassette Recorder

- Reliable mechanism including disc-drive capstan-servo tape transport
- Powered by two "D" size batteries; operates also on AC with the addition of optional AC-D468 AC adapter and connects to car battery with optional DCC-127A car battery cable
- Compact

Supplied Accessories:
- Connecting Cable
- Carrying Case
- Shoulder Strap
- Belt

Specifications

- **Recording System:** 4-track 2-channel stereo
- **Frequency Response:** FeCr cassette (Tape Select: Type III)
  - (Dolby NR OFF): 40 Hz – 16,000 Hz ± 3 dB (NAB)
  - 40 Hz – 16,000 Hz (DIN)
- **Total Harmonic Distortion:** 0.9% (Crop cassette)
- **Wow and Flutter:** 0.06 (WRMS), ± 0.17% (DIN)
- **Inputs:**
  - MIC (XLR type × 2) 0.28 mV, balanced, for low-impedance microphone
- **Outputs:**
  - LINE (Phone jack × 2) Output level 0.44V, < 4.7 kΩ
  - HEADPHONES: (Stereo phone jack × 1) 20 mW + 20 mW at 10% harmonic distortion, load impedance 8Ω
- **Built-in Speaker:** Approx. 5 cm (2") dia., 200 mW (at 10% harmonic distortion, DC operation)
- **Power Requirements:**
  - DC-3V, two "D" size batteries
  - DC-12V car battery with optional DCC-127A
  - AC-110, 120, 220, 240V, 50/60 Hz with optional AC-D468
- **Battery Life:**
  - Approx. 4.5 hours with "D" size alkaline batteries; approx. 2.5 hours with "D" size dry batteries
- **Dimensions (WHD):** 242 x 48 x 168mm max
  - (9 1/2" x 1 7/8" x 6 1/2")
- **Weight:** 3 lb. 12 oz. (1.7 kg.) (approx.) with batteries
CDP-3100/CDS-3100

CD Player System

- The CDP-3100/CDS-3100 is an exceptionally compact CD player system. The front loading design of the CDP-3100 player permits two of these units to be mounted side by side in a 19-inch standard rack, and up to four CDS-3100 remote controllers can be mounted in the same way. The CDS-3100 provides very convenient remote operation of the CDP-3100 player, minimizing errors in an air applications. Only a single cable is required for the control interface. The playback speed can be varied over a range of ±12.5% in 0.1% step from the CDS-3100. A JOG search function, operated from the CDS-3100, allows speedy, easy and precise search to a desired start point. An AES/EBU digital output allows professional digital audio equipment to be directly connected. The CDP-3100/CDS-3100 can be fitted with various optional interface boards, so that a system can be expanded according to its application.

- **DABK-3101 Memory Board** (optional)—With the DABK-3101, a memory start function which gives a rapid start and a memory JOG function to an accuracy of one WORD unit are provided. The DABK-3102 is an interface board for a digital mixer. AES/EBU digital out (which can be locked to an external sync signal in the range of 38 kHz to 50 kHz), reference video sync input, word sync input and time code signals are provided. The absolute time on a disc can be transformed to SMPTE 30 Hz NDF, 29.97 Hz DF or EBU 25 Hz timecode. This interface board also allows the CDP-3100 to be controlled from a digital mixer via 9-pin serial remote connector. The DABK-3103 is an interface board for a digital mixer. Both an SDIF-2 output and word sync capability are provided.

- The CDP-3100/CDS-3100 has other enhanced functions such as: AMS (Auto Music Sensor) function, Player Mode Setting function, Auto Remain Time indication, End Alarm function, Source Original Code Setting capability on AES/EBU digital out, Single Play function, Cue Point Memory function, Last Cue Memory function, Top Rehearsal function, and End Rehearsal function.

**Supplied Accessories:**
- CDP-3100 AC Power Cable
- CDS-3100 Connecting Cable, 2m
DAT Recorders

Specifications (CDP-3100/CDS-3100, cont.)

**CDP-3100 CD Player**

- **Number of Channels:** 2 (stereo)
- **Error Correction:** Sony Super Strategy Cross interleave Reed Solomon Code (CIRC)
- **D/A Converter:** 18-bit 8 times oversampling
- **Sampling Frequency:** 44.1 kHz
- **Frequency Response:** 20 Hz - 20 kHz + 0.5 dB/−1.0 dB (maximum output level)
- **Harmonic Distortion:** < 0.01%
- **Wow and Flutter:** Below measureable limit
- **Dynamic range:** > 94 dB
- **Cross Talk:** > 80 dB
- **Access Time:** Within 2 seconds
- **Variable Speed Range:** ± 12.5% (0.1% steps)
- **Outputs:**
  - LINE OUT: Balanced, XLR-3-32 type (x2), nominal +4 dBu (600Ω), maximum +19 dBu (600Ω)
  - MONITOR OUT: Unbalanced, Phono (x1), 0 dBu (10 kΩ)
  - DIGITAL OUT: AES/EBU, XLR-3-32 type (x1)
  - HEADPHONE OUT: 20 mW (8Ω)

**CDS-3100 Remote Controller**

- **Search Precision:** 1 frame (13.3 ms)
- **Headphone Output:** 20 mW (8Ω)
- **Dimensions (WHD):** 106 x 58 x 220 mm (41/4" x 3¾" x 8¾")
- **Weight:** 1 lb. 9 oz. (700 g) (approx.)

**Parallel Remote Connector:** DIN 8-pin type

**Remote Control Connector:** 10-pin

**Power Requirements:**
- AC-100V, 120V, 220V, 240V,
- 50 Hz/60 Hz

**Dimensions (WHD):** 212 x 118 x 408 mm (8% x 41/4" x 16¼")

**Weight:** 16 lb. 11 oz. (8.5 kg) (approx.)

0 dBu = 0.775V r.m.s.
DAT Recorders

CDK-3600
CD Auto Disc Loader

- Holds 360 compact discs
- Incorporates two CD players for continuous playback, with crossfade between the two; crossfade time is variable over the range of zero to ten seconds in 0.1 second steps for each player
- Various types of CD formats such as CD-DA, CD-G, CD-I and CD-ROM can be played back
- Each player can be separately connected to an audio mixer
- Automatic cueing gives a rapid start from the point where modulation is detected on a compact disc for on-air applications
- Playback speed is variable over the range of ± 12.5% in 0.1% steps, the adjusted playback signal being output from analog connectors
- Most operations are controlled from an external computer connected via the RS-232C or RS-422A interface
- Up to 28 CDK-3600 units can be connected through the computer interface, allowing up to 9,999 discs to be controlled from the user's computer
- Disk access time is less than two seconds and loading time is less than 15 seconds under computer control
- Digital outputs conform to both AES/EBU and unbalanced IEC-958 (type II) for direct connection to professional digital equipment
- Balanced XLR and unbalanced phono analog outputs are provided for connecting with various monitor systems
- A self-diagnosis function and hour-meter are provided for easy maintenance
- 19-inch rack mounting is possible with the optional rack mounting kit

Supplied Accessories:
AC Power Cable

Optional Accessories:
RMM-3600 19-inch Rack Mount Adaptor

Specifications

CD Storage Capacity: 360
Number of Players: 2
Frequency Response: 20 Hz to 20 kHz ± 0.5 dB
Signal to Noise Ratio: > 100 dB
Harmonic Distortion: < 0.04%
Wow and Flutter: Below measurable limit
Channel Separation: > 90 dB
D/A Converter: 8 x fs 2DAC 18-bit DF (45-bit)
Loading Time: < 15 sec.
Access Time: < 2 sec.
Analog Outputs: Balanced + 4 dBu (+ 24 dBu max.)
Load impedance 600Ω
XLR-3-32 type (x6), (A, B, mixed)
Unbalanced: + 5.5 dBu max. (50 kΩ terminated)
Load impedance > 10 kΩ
Phono type (x6), (A, B, mixed)
Digital Outputs: AES/EBU, XLR-3-32 type (x2), (A, B)
IEC-958 unbalanced (type II), Phono (x2) (A, B)
Interface: RS-232C: D-sub 25-pin In/through
RS-422A: D-sub 9-pin In/through
Sub Code Outputs: D-sub 15-pin
Variable Speed: ± 12.5% (0.1% steps)
Crossfade Time: 0 to 10 sec. (0.1 sec. steps)
Power Consumption: 30 W (approx.)
Power Requirements: AC 120V, 60 Hz (U/C)
AC 220V to 240V, 50 Hz/60 Hz (EK)
Dimensions (WHD): 430 x 800 x 452 mm (approx.)
17" x 31½" x 17¾" (approx.)
Weight: 88 lb. 3 oz. (40 kg.) (approx.)
PCM-7000 Series
Professional DAT Recorders
- Allows flexible system configurations with three recorders and a full range of options for each recorder
- Sophisticated electronic editing capability
- SMPTE/EBU time code recording/reading
- Memory start for instant-start playback
- Synchronized operation with video/audio equipment
- Time code chase synchronization (PCM-7050/7030 with appropriate options)
- 4-head construction for RAW (Read-After-Write) and RMW (Read-Modify-Write)
- Search/location capability
- Variable speed playback in a range of ±12.5%
- Switchable sampling frequencies of 48 kHz and 44.1 kHz (PCM-7010 supports recording and playback of digital audio data sampled at 32 kHz)
- Controlled from Sony video editor BVE-9100/910 or digital audio editor DAE-3000
- 19” rack mountable with optional rack mount rail/adaptor RMM-30/31

Optional Accessories:
RM-D7200 Dual Remote Controller
RM-D7100 Remote Controller
DABK-7030/7010 Time Code Reader/Generator Option
DABK-7031/7011A/7011B Digital I/O Option
DABK-7032/7012 Memory Start Option
DABK-7033/7013 Computer Interface (RS-232C) Option
DABK-7055 Edit Memory Option
RMM-30 19” Rack Mount Rail
RMM-31 19” Rack Mount Adapator

PCM-7050
2-Channel Digital Audio Recorder
- Sony’s top range model recommended for use as the recorder in an editing system
- Millisecond accurate editing capability with DABK-7055

PCM-7030
2-Channel Digital Audio Recorder
- Optimized for use as a player in an editing system: ideal also for use in on-air or integrated audio/video systems

PCM-7010
2-Channel Digital Audio Recorder
- An affordable recorder suited for simple on-air applications
- Recording/playback of digital audio data sampled at 32 kHz
PCM-E7700

DATStation™ Dual-deck Editor

Large EL Screen for Graphical Editing—The PCM-E7700 has a large EL screen which graphically displays the EDL (Edit Decision List) and other operating information. This graphical presentation allows people unfamiliar with electronic editing to easily operate the PCM-E7700 without having to pay attention to the actual time code. Auto-Assemble Editing Function—As edit and out points are selected, they are displayed on the EL screen. A simple press of the Auto Edit key then initiates the complete editing sequence. High Speed Editing and Dubbing—Big savings in editing time can be achieved with the ability of the PCM-E7700 to edit and dub at twice normal speed, an advantage made possible by the development of special LSIs. Real Time Jog Capability with High Sound Quality—Newly developed technology also makes it possible to search for precise edit points in real time, using a jog dial. This mimics analog "Rock’n Roll" cueing, giving fast edit point location with excellent sound quality.

Compact and Lightweight Design—The compact, lightweight design of the PCM-E7700 means it is easy to carry and set up, providing DAT editing facilities anytime, anywhere. RAW (Read-After-Write) Function for Real Time Monitoring—A RAW function allows real time off-tape monitoring during recording, dubbing and editing. Editing Memory for Precise Editing—A large capacity edit memory enables edit point crossfade transitions to be rehearsed and modified. Time Code and Absolute Time Code Capability—SMPTE/EBU/Film time code or absolute time code can be used by the PCM-E7700 for editing. The same types of time code can be used during recording or dubbing. 44.1 kHz or 48.0 kHz Sampling Frequency. IDs can be inserted after recording. Time Code and ID Locate Capability. Headphone jack and unbalanced Analog Monitor Outputs are provided. EDL data and system set up data are stored in memory with battery back-up. Equipped with Both AES/EBU Digital and Balanced Analog Inputs.

Supplied Accessories:
AC Power Cord
Operation Manual

Specifications

Tape Format/Performance
Recording System: Rotary-head DAT recording
Tape Speed: Standard: 8.15mm/sec.
Twice normal speed: 16.30mm/sec.
FF and REW time: < 60 sec. (with Sony PDP-120)

Digital Audio Signal
Number of Channels: 2 (stereo)
Sampling Frequencies: 48 kHz, 44.1 kHz
Quantization: 16-bit linear
Error Correction: Double-encoded Reed Solomon Code
Dynamic Range: > 90 dB
Frequency Response: 20 ~ 20,000 Hz ± 0.5 dB
Total Harmonic Distortion: < 0.05%
Wow and Flutter: Below Measureable Limit

Power Requirements: AC-100V/120V/220V/240V ± 10%, 50 Hz/60 Hz
Power Consumption: < 50 W
Dimensions (WHD): 380 x 120 x 420mm
Weight: 28 lb. 10 oz. (13kg.) (approx.)
DAT Recorders

RM-D7300
Editing Controller
■ Provides comprehensive control over editing operations with PCM-7050 and PCM-7030 via Sony 9-pin serial interface
■ Makes it quick to input time code address, various ID codes and program numbers
■ Enables gain control of both analog and digital inputs in the digital domain when used with PCM-7050 with DABK-7055

Supplied Accessories:
AC Power Cable
9-pin Remote Cable (2)

Specifications
Dimensions (WHD): 464 x 78 x 308mm
(18⅝" x 3¼" x 12⅜")
Weight: 9 lb. 13 oz. (4.5 kg.)
Power Requirements: AC-100V to 240V, 50/60 Hz
Power Consumption: 10W

RM-D7200
Dual Remote Controller
■ Provides remote control of two recorder transports

RM-D7100
Remote Controller
■ Provides remote control of recorder transport functions of PCM-7050/7030/7010 and PCM-2700 via 37-pin parallel interface

DABK-7030/7010
Time Code Reader/Generator Option
■ Provides capability of reading and generating SMPTE/EBU time code
■ Enables recorder to operate in synchronization with an external video sync signal
■ Provides time code chase synchronization facility to PCM-7050/7030 (DABK-7030)

DABK-7031/7011A/7011B
Digital I/O Option
■ Conforms to the AES/EBU format (all models); offers unbalanced (IEC-958) digital I/O (DABK-7011A/7011B) and Sony SDIF-2 interface (DABK-7011B)
■ Allows recorder to lock to an external word sync signal

DABK-7032/7012
Memory Start Option
■ Uses 4 Mbit digital memory to give an instant start playback facility to PCM-7030/7010
DAT Recorders

DABK-7033/7013

Computer Interface (RS-232C) Option
- Enables recorder to be controlled from a computer
- RS-232C port
- Useful for building up a sound effects library or a programmed playback system

DABK-7055

Edit Memory Option
- Improves precision and flexibility of editing with PCM-7050
- Memory search/memory rehearsal
- Cross-fade at each edit point
- 1 ms editing accuracy

TCD-D10 PROII

2-Channel Digital Audio Recorder
- Portable DAT recorder of extremely compact dimensions
- Easy-to-read LCD multi-function display
- Absolute time recording
- Balanced, switchable MIC/LINE inputs
- Built-in hours meter, microphone low-cut filter and microphone attenuator/limiter
- AES/EBU type digital I/O
- High-speed search using the ID recorded in sub-code area
- Built-in speaker
- AC/DC operation: AC-100V to 240V with ACP-88 AC adaptor; DC-6V with NP-22H rechargeable battery pack

Supplied Accessories:
- Carrying Case
- Shoulder Belt
- NP-22H Rechargeable Battery Pack (2)
- ACP-88 AC Power Adaptor
- BC-D10 Charging Adaptor
- Digital I/O Connecting Cable
- SAD-44 Microphone Stand Screw Adaptor (P{}^1/4'' <{}^{00}W{}^{1/4}'' >)
- SAD-45 Microphone Stand Screw Adaptor (P{}^1/4'' <{}^{00}N{}^{1/4}'' >)

Optional Accessories:
- NP-4000 Rechargeable Battery Pack
- DCP-80 Voltage Stabilizer for NP-4000
- DCC-16A/AW/AE Car Battery Cord

### PCM-2700A

**2-Channel Digital Audio Recorder**

- Affordable DAT recorder
- Suited for simple program transmission at broadcasting stations and simple recording/playback use at recording studios
- Switchable sampling frequencies of 32 kHz*, 44 kHz, 1 kHz and 48 kHz
- Balanced digital I/O AES/EBU, Unbalanced (IEC-958 type I) digital I/O
- Balanced (XLR type) analog I/O
- 4DD mechanism for stable tape transport
- Auto locate-function based on absolute time
- 4-head construction for RAW (Read-After-Write)
- Remote-controlled from optional RM-D7100 via 37-pin parallel connector/8-pin DIN serial connector for Fader start capability
- Long play mode for 4 hours of recording/playback of 12-bit non-linear digital audio sampled at 32 kHz frequency with PDP-120 tape
- 19-inch rack mountable with supplied rack mount adaptor

*In both Standard and Long Play modes, PCM-2700A supports recording and playback at 32 kHz sampling frequency except recording of the analog input in the Standard mode.

**Supplied Accessories:**
- RM-D2700 Wireless Remote Control Unit
- SUM-3 AA size battery (2)
- 19-Inch rack mount adaptor
- RM-D7100 Overlay sheet

**Optional Accessories:**
- RM-D7100 Remote Controller

| Recording (Analog IN):     | 48 kHz/44.1 kHz/32 kHz |
| Recording (Digital IN):    | 48 kHz/44.1 kHz/32 kHz |
| Quantization               | 16-bit linear (12-bit non-linear in Long play mode) |
| Error Correction           | Double-encoded RSC          |
| Signal-to-Noise Ratio      | > 90 dB |
| Frequency Response         | 20 Hz to 20,000 Hz ±0.5 dB |
|                          | (44.1 kHz) |
| Total Harmonic Distortion  | < 0.05% |
| Wow and Flutter*           | Below measurable limit      |
| Channel Separation         | > 80 dB at 1 kHz            |

#### Input/Outputs

**Analog Inputs:** +4 dB (+24 dB max) adjustable range of -12 dB to +8 dB
- 10 kΩ balanced XLR-3-31 type (x2)

**Analog Outputs:** +4 dB (+24 dB max) adjustable range of -12 dB to +8 dB, <50Ω, balanced XLR-3-32 type (x2)

**Headphone Output:** -27 dB, >8Ω, stereo phone

**Digital Inputs:**
- Unbalanced (IEC 958 type I): Phono AES/EBU: XLR-3-31 (x1)
- Balanced (IEC 958 type I): Phono AES/EBU: XLR-3-32 (x1)

**Parallel Remote:** D-sub 37-pin DIN 8-pin

#### General

**Power Requirements:**
- AC 120V, 60 Hz (UC)
- AC 220V to 240V, 50 Hz/60 Hz (EK)

**Power Consumption:** 40W

**Dimensions (WHD):**
- 430 x 130 x 350mm
- (17" x 5¼" x 13¾")

**Weight:** 22 lb. 8 oz. (10.2kg.)

*With required options.*
PCM-2700
2-Channel Digital Audio Recorder

- Affordable DAT recorder
- Suited for simple program transmission at broadcasting stations and simple recording/playback use at recording studios
- Switchable sampling frequencies of 48 kHz, 44.1 kHz and 32 kHz*
- Unbalanced (IEC-958 type I) digital I/O
- 4-head construction for RAW (Read-After-Write)
- Remote-controlled from optional RM-D7100 via 37-pin parallel connector
- Long Play mode for 4 hours of 12-bit non-linear digital audio recording playback with DT-120R tape
- 19” rack mountable with supplied rack mount adaptor
- Auto locate function based on absolute time

*In both Standard and Long Play modes, PCM-2700 supports recording and playback at 32 kHz sampling frequency except recording of the analog input in the Standard mode.

Supplied Accessories:
RM-D2700 Wireless Remote Control Unit
SUM-3 AA Battery (2)
19” Rack Mount Adaptor
Overlay Sheet for RM-D7100

Optional Accessories:
RM-D7100 Remote Controller
PCM-2300

Digital Audio Recorder

- Cost effective digital recording
- Superb sound quality
- Three alternative sampling frequencies
- Powerful error correction
- Flexible interfacing
- Absolute time recording
- Remote control facilities
- Reliable transport mechanism
- Software controlled servo
- Long recording and playback duration
- Alternate subcode recording
- Easy-to-read information display
- Date function
- Digital fader
- 19-inch rack mountable

Supplied Accessories:
RM-D2300 Wireless/Wired Remote Control Unit
Remote Control Cable
SUM-3 (NS) AA Size Battery (2)
19-inch Rack Mount Adaptor
AC Power Cable

Optional Accessories:
DT-120R/90R/60R Digital Audio Tape
DT-120P/90P/60P/46P/30P Digital Audio Tape
DT-10CL Cleaning Cassette

Specifications

Tape Format/Performance
- Recording System: Rotary-head DAT recording
- Tape Speed: Standard: 8.15 mm/sec.
  Long-play mode: 4.075 mm/sec.

  AC 220 to 240V, 50/60 Hz (EK)
- Power Consumption: 33W (U/C) (approx.)
  37W (EK) (approx.)
- Dimensions (WHD): 430 x 125 x 350mm
  (17" x 5" x 13 3/4") (approx.)
- Weight: 15 lb. 14 oz. (7.2 kg.) (approx.)
PMD-C1/PMD-C1P
MD Cart™ Recorder and Player

- Provide quick random access; a desired track can be quickly accessed and cued by selecting the track number on a MD (MiniDisc™).
- Capable of memory start and cueing functions which provide rapid playback, suitable for on-air applications in radio broadcast stations.
- The PMD-C1/C1P have an easy-to-read FL display on the front panels, which indicates the following: 25 track calendar, Track title, End cue, the effective date of commercials, Peak level meter, etc. This information can be displayed in segments one after another at standstill, with a maximum 12 characters at a time, by pressing the DISPLAY button. The peak level meter is displayed in 14 segments.
- RMS (Random Music Sensor) transmission is capable with a supplied remote controller. The tracks can be freely and randomly programmed in any order.
- An EOM (End of Message) signal is provided for the operator within five to 30 seconds prior to the completion of a program. This signal can also be used as the tally system.
- Equipped with balanced XLR analog outputs (L/R).
- Provides both single and continuous play modes.
- Capable of parallel remote control.
- An hour meter is provided for easy maintenance.

Features of PMD-C1 (recorder): The PMD-C1 searches the point on the disc where no audio signal is recorded, and then quickly begins recording. This function avoids accidental erasing of audio data which has already been recorded.
- With the supplied remote controller, for example, the title, end cue and the effective date for broadcasting commercials can be displayed with up to 12 alphanumeric characters.
- The PMD-C1 provides the TOC (Table of Contents) EDIT function in which the following four functions are incorporated: COMBINE, DIVIDE, MOVE and ERASE. The DIVIDE function allows rehearsal with monitoring in ± 60 ms steps at a desired start point. Each of these functions are ideal for performing instant edits for on-air interviews and news.

Supplied Accessories:
PMD-C1 Remote Controller

CD Mastering System

PCM-9000
Digital Master Disc Recorder

- **Magneto-Optical Disc Advantages**—The adoption of a new, single sided, 133mm (5.25-inch) MO (Magneto-Optical) disc makes repeated recording and playback possible, and because there is no contact with the medium during the operation of the unit, excellent durability of the disc is achieved.

- **Long Recording Time**—The combination of a newly developed recording format and a high density MO disc means that up to 80 minutes of continuous recording is now possible in 20-bit linear mode. Sync-REC and Monitor-REC, two functions that are very attractive in a master recorder, are both provided and REC/READY operation of each channel allows single channel or two-channel recordings to be made.

- **User Data Recording**—Cue data and nondestructive editing data can be recorded in the AUX-data area, making possible nonlinear editing in which the main data can be preserved.

- **Time Code Recording**—Absolute Address is pre-mastered on to the MO disc during manufacture. External time code can also be recorded.

- **Quick Access for Improved Operating Efficiency**—Quick access, one of the benefits of a disc recorder, has been implemented by means of a linear motor thread mechanism.

- **Three Sampling Frequencies and Quantizations**—This unit is compatible with three sampling frequencies: 48 kHz, 44.1 kHz, and 44.056 kHz. In addition, 16-bit, 20-bit or 24-bit quantization can be selected.

- **Sync Signal Input Flexibility**—Reference video sync, D-I sync or word sync signals can be used as an external synchronization signal.

- **Variable Speed Recording/Playback**—The speed can be varied by ±12.5% of normal, in steps of 0.1%.

- **Double-Speed Copying**—Double-speed copying is provided through the SCSI interface, together with double-speed copying of the AUX-data.

- **AES/EBU Insertion Interface**—This unit is equipped with an AES/EBU insertion interface so that external digital effectors can be connected.

- **Disc Check Function**—The unit is equipped with a disc check function that allow the user to check the condition of the medium before it is used.

- **Disc Erase**—There are two erase modes: instant erase and disc erase. Instant erase erases only the data in the AUX data area, while disc erase erases all of the data on the disc.

- **Wide Options Range**—A wide variety of options has been developed, making for users to customize the recorder for their particular application.

### Specifications

- **Disc Size:** 133mm (5.25")
- **No. of Channels:** 2 channels
- **Recording Time:** 80 minutes (Sampled at 20-bit Fs = 44.1 kHz)
- **Rotational Mode:** CLV (Constant Linear Velocity)
- **Sampling Frequency:** 44.056 kHz/44.1 kHz/48 kHz
- **Quantization:** 16/20/24-bit Linear, Selectable
- **Error Correction:** CIRC (Cross Interleave Read Solomon Code)
- **Variable Speed:** ±12.5% at 0.1% steps
- **Digital I/O:** AES/EBU IN: XLR-3-31 type (x1) AES/EBU OUT: XLR-3-32 type (x1) SDIF-2 unbalanced (Optional): TTL level, 75Ω, BNC (x2)

### Analog I/O:

- **IN:** XLR-3-31 type (x2)
- **OUT:** XLR-3-32 type (x2)

### Sync Signal:

- **Reference Video IN:** BNC (x2)
- **AES/EBU D-I Sync IN:** XLR-3-31 type (x1)
- **Word Sync IN:** BNC (x2)
- **OUT:** BNC (x2)

### Power Requirements:

- **AC 100V to 240V, 50 Hz/60 Hz**
- **Power Consumption:** 130W
- **Dimensions (WHD):** 424 x 176 x 455mm (16 5/8" x 7" x 17 3/4")
- **Weight:** 39 lb. 11 oz. (18kg.)
PCM-1630

Digital Audio Processor

- 2-channel digital audio processor with 16-bit linear quantization
- Switchable 44.1 kHz and 44.056 kHz sampling frequencies
- RAR (Read After Read) function using optional DABK-1630 board and DMR-4000 recorder

Supplied Accessories:
- AC Power Cable
- BNC Cable (2)
- 8-pin to 8-pin Cable
- Extension Board
- Rack Mount Adaptors (2)

Optional Accessories:
- DABK-1630 RAR Board: Enables RAR and dub/edit RAW when used in PCM-1630 combined with DMR-4000
- DABK-1631 Digital I/O Board: Interfaces PCM-1630 with AES/EBU standard digital equipment
- K-1149 Delay Board: Provides delayed digital output; max 2.9 sec. delay time, 1 msec delay time resolution; suited for perfect lip-sync
- K-1154 Delay and D/A Board: Provides both delayed digital and analog delayed output; includes second D/A card in addition to K-1149 delay card; suited for analog disc mastering

Specifications

- Number of Channels: 2 (stereo)
- Modulation System: PCM system using NTSC standard TV signals
- Sampling Frequency: 44.1 kHz or 44.056 kHz
- Quantization: 16-bit linear
- Signal-to-Noise Ratio: > 90 dB
- Frequency Response: 20 Hz - 20,000 Hz + 0.5 dB/ -1.0 dB
- Total Harmonic Distortion: < 0.05% (at reference input level)
- Wow and Flutter: Below measurable limit
- Inputs/Outputs:
  - ANALOG IN CH-1 (D-I)/CH-2
  - ANALOG OUT CH-1 (D-O)/CH-2
  - COMPOSITE DIGITAL IN
  - COMPOSITE DIGITAL OUT
  - COMPOSITE DIGITAL I/O
  - COMPOSITE SYNC IN
  - COMPOSITE SYNC OUT
  - DIGITAL I/O
  - WORD SYNC IN
  - WORD SYNC OUT
  - STATUS OUT
  - HEADPHONE OUT
- Power Requirements: AC-100V/120V/220V/240V ± 10%, 50/60 Hz, selectable
- Power Consumption: 90W max.
- Dimensions (WHD): 424 x 200 x 530mm (163/4" x 77/4" x 207/8")
- Weight: 57 lb. 5 oz. (26 kg.)
CD Mastering System

DMR-4000
Digital Master Recorder

- Confidence playback heads for RAW (Read After Write)
- Two composite digital outputs (MAIN/SUB) for connection to PCM-1630 with DABK-1630 for reliable RAR (Read After Read) operation that minimizes the effect of code errors on the reproduced sound

Supplied Accessories:
- AC Power Cable
- 8-pin to 8-pin Cable
- 9-pin to 9-pin Cable
- Extension Board

Optional Accessories:
- DAU-30/60/75 Digital Audio Master Cassette (30, 60, 75 min.)

Specifications

Audio Performance
- Recording System: Rotary 2-head system, helical scanning, FM recording
- Signal Format: EIA standard
- Usable Tapes: DAU series audio master cassettes (DAU-30/DAU-60/DAU-75)
- Tape Speed: 9.53 cm/sec.
- Recording Time: 75 min. (with DAU-75)
- Number of Channels: PCM audio (2), AUX (analog) (2), and CTL (1)

Interfacing
- Inputs/Outputs:
  - COMPOSITE DIGITAL IN
  - COMPOSITE DIGITAL OUT
  - COMPOSITE DIGITAL OUT B-3
  - COMPOSITE DIGITAL I/O (8-pin)
  - AUX IN
  - AUX OUT
  - EXT SYNC IN
  - REMOTE-1
  - REMOTE-2
  - RF OUT
  - HEADPHONES OUT

Special Functions
- Shuttle: ½ to 10 times normal speed, variable
- Time Code: REGEN/REC RUN/FREE RUN (selectable) drop frame or non-drop frame
- Simple Editing: ± 2 Frame accuracy
- Head Cleaner: Activated in every 5 min. in record and play modes
- Long Pause Mode: 1.5 min.

General
- Power Requirements: AC-100V/120V/220V/240V, 50/60 Hz, selectable
- Power Consumption: 150W (at AC-100V)
- Dimensions (WHD): 454 x 283 x 550mm
  - (17½" x 11¼" x 21¾")
- Weight: 81 lb. 9 oz. (37 kg.)
CD Mastering System

DAE-3000

Digital Audio Editor

- Interfaces with a variety of digital audio equipment, including DMR-4000/2000 digital master recorder, PCM-3402 DASH 2-channel recorder and PCM-3324A/3324 DASH multi-channel recorder.
- Accommodates up to four DMR-4000/2000 players and one DMR-4000/2000 recorder.
- Edit point search with convenient memory rehearsal.
- High editing resolution of approx. 23 µsec.
- Easy-to-read, highly informative EL (Electro-Luminescent) display.

Supplied Accessories:
- DABK-3001 Interface Kit (2)
- Extension Board
- Keyboard Cable (15-pin, 10m)
- Composite Digital Cable (8-pin to 8-pin) (2)
- Remote Cable (8-pin to 8-pin) (2)
- AC Power Cable

Optional Accessories:
- DABK-3002 Interface Kit: interfaces DAE-3000 with PCM-3402
- DABK-3003 Interface Kit: interfaces DAE-3000 with PCM-3324A/3324
- DABK-3004 Interface Kit: interfaces DAE-3000 with DAO-1000

Specifications

- Inputs/Outputs: DIGITAL I/O (SDIF-2 unbalanced, with DABK-3001/3002/3003/3004)
- DIGITAL IN (AES/EBU, with DABK-3005)
- COMPOSITE DIGITAL REMOTE I/O
- Number of Controllable Players: 4 units
- Search Mode
- Memory Capacity: 6 sec. (16-bit digital, stereo) (approx.)
- Fader Level Control: +6 dB to –∞, selectable
- Balance Control: 0 dB to –3 dB (0.2 dB steps)
- Crossfade Time: 0 ms–999 msec
- Auto-locate Accuracy: ±1 frame (with DMR-4000/DMR-2000)
- Pre-roll Time: 0 sec–39 sec.
- Editing Resolution: 23 µs (equivalent to one sample with PCM-1830)
- Power Requirements: AC-100V~240V, 50/60 Hz
- Power Consumption: 60W
- Dimensions (WHD): Processor: 424 x 242 x 510mm
  (16¾" x 9¾" x 20¼")
  Keyboard: 424 x 329 x 334mm
  (16¾" x 13" x 13½")
- Weight:
  Processor: 55 lb. 2 oz. (25 kg.)
  Keyboard: 15 lb. 6 oz. (7 kg.)
Specifications
Digital Audio
Signal Processing: 32 bits
Sampling Frequency: 48 kHz, 44.1 kHz or 44.056 kHz
Digital IN: AES/EBU, XLR-3-31 type
SDIF-2, BNC (x 2)
DIGITAL OUT: AES/EBU, XLR-3-32 type
SDIF-2, BNC (x 2)
Unbalanced DIF (IEC-958), Phono (x 2)
Variable Q Range: 20.0, 2.45, 1.30, or 0.68, selectable

Cutoff Frequency: LOW: 16.0 Hz – 1 kHz (1/6 oct. steps)
HIGH: 500 Hz to 20 kHz (1/6 oct. steps)
Filter Slope: 6 dB/oct. or 12 dB/oct., selectable

SDP-1000
Digital Audio Effector
- 2 channel digit audio effects (equalizer/dynamics) control unit
- For use in DAT editing systems using PCM-7000 series or between two digital audio or video recorders
- Four band parametric equalizer
- Two shelving equalizers with high and low cut filters
- Limiter, compressor, expander and noise gate
- AES/EBU, SDIF-2 and unbalanced (IEC-958) digital I/O
- Advanced custom DSP ICs using 32-bit arithmetic
- Up to 100 events for storing effects settings
- Snapshot automation for recalling memorized events at specified time code addresses
- Dynamic automation based on time code
- Printing of effects data with captions and commentaries by adding a Centronics compatible printer
- Through function for digital dubbing without changing system connection
- 2" floppy disk for data storage

Supplied Accessories:
AC Power Cable
AC Plug Adaptor
9-pin to 9-pin cable (10m for controller)
9-pin to 15-pin cable (10m for CDP-1302/1402E)
PD-1 2" Floppy Disk (10)
19" Rack Mount Kit

Optional Accessories:
CPD-1302/1402E Display Monitor
HBK-100 14-pin to 36-pin Printer Cable

Dynamics
- Functions: Limiter, compressor, expander and noise gate
- Threshold Level: 0 dB to –96 dB
- Ratio: 1:1 to 1:64.992 (limiter/compressor)
- Attack Time: 1 ms to 1.64 sec. (expander/noise gate)
- Recovery Time: 1 ms to 9.43 sec. (expander/noise gate)
- Recovery Mode: Continuous or Discontinuous
- Pre-delay Time: 0 to 1,023 words
- Side-chain Equalizer: Parametric equalizer and low/high cut filters
- Hold Time: 0 to 129,024 samples (expander/noise gate)
- Hold Threshold: 0 dB to –96 dB (expander/noise gate)

Controller
- Track Ball Diameter: 0.44 mm (0.173")
- Fader: 100 mm stroke

General
- Power Requirements: AC-100V–240V, 50/60 Hz
- Power Consumption: 33W
- Dimensions (WHD): Processor: 424 x 155 x 465 mm
  (16 3/4" x 6 1/4" x 18 1/4")
  Controller: 418 x 87 x 249 mm
  (16 3/4" x 3 3/4" x 9 3/4")
- Weight: Processor: 26 lb. 7 oz. (12 kg.)
  Controller: 4 lb. 7 oz. (2 kg.)
DTA-2000

Digital Tape Analyzer

- Allows testing of the tape recorded with PCM-1630 system
- Connects to any printer with Centronics compatible interface for printing out a sequential list of CRC, Average, Hold, Mute and Parity errors as well as the sampling frequency, time code mode (drop frame/non-drop frame), time code jump and emphasis ON/OFF
- Error status/time code display
- Selectable operation mode: Auto or Manual

Supplied Accessories:
- 33-pin to 36-pin Cable
- 25-pin to 25-pin Cable
- 36-pin to 36-pin Digital Cable (2)
- Rack Mount Adaptor (2)
- Rail Bracket (4)
- AC Power Cable

Specifications

Output Information:
- CRC, average, hold, mute, parity, time code discontinuity, time code mode (DF or NDF), emphasis (ON/OFF), and sampling frequency (44.1 kHz or 44.056 kHz)

Input/Output:
- TIME CODE IN
- STATUS IN
- PRINTER OUT
- VTR REMOTE I/O

Power Requirements:
- AC-100V-120V/220V-240V, 50/60 Hz, selectable

Power Consumption:
- 20W

Dimensions (WHD):
- 424 x 44 x 330mm
- (161/4" x 11/2" x 13")

Weight:
- 9 lb. 15 oz. (4.5 kg.)
CD Mastering System

DAQ-1000

Cue Editor
- Cue editor used in CD mastering
- Capable of producing subcode data in the form of TOC (Table of Contents) and recording them on to audio track of master tape recorded with PCM-1630 system
- Memory function to store subcode information, with selectable DIRECT, EDITOR TRANSFER and EDIT input modes
- Built-in printer for making hard copies of data
- With the addition of DABK-1000 PQ generator unit, enables recording of subcode data on P and Q channels of compact discs

Supplied Accessories:
- Paper Shaft Assembly
- Printer Paper Roll (2)
- Cue Data Cable (3)
- Remote Cable Assembly
- Keyboard Cable (2)
- Handle (2)
- Dust Cover
- Bracket (2)
- Screw (3)
- AC Power Cable

Optional Accessories:
- DABK-1000 PQ Generator Unit
- PE-1000 Printing Paper Roll

Specifications
- Usable Recorders: DMR-4000/DMR-2000/DRD-100
- Inputs/Outputs:
  - TIME CODE IN
  - CUD CODE IN
  - CUE CODE OUT
  - VTR REMOTE I/O
  - KEY BOARD I/O
  - EDITOR TRANSFER IN
  - EDITOR TRANSFER OUT
  - DATA COMMUNICATION I/F
- Power Requirements:
  - AC-85V–276V, 50/60 Hz
  - 72W (AC-100V–120V)
  - 78W (AC-220V–240V)
- Dimensions (WHD):
  - Processor: 424 x 141 x 491 mm
    (16¾" x 5½" x 19¾")
  - Keyboard: 424 x 100 x 380 mm
    (16¾" x 4" x 15")
- Weight:
  - Processor: 32 lb. 1 oz. (14.5 kg.)
  - Keyboard: 18 lb. 12 oz. (8.5 kg.)
CD Mastering System

DMU-30
Digital Meter Unit
- For use with PCM-1630 CD mastering system, PCM-3402 2-channel digital audio recorder, BVH-2800 1 inch VTRs with digital sound and other digital audio equipment

Supplied Accessories:
D-sub 25-pin Cable (10m)
AC Power Cable

Specifications
Power Requirements: AC-100V-240V, 50/60 Hz
Power Consumption: 12W
Dimensions (WHD): 105 x 132 x 190mm
(4½" x 5¼" x 7¾")
Weight: 5 lb. 8 oz. (2.5 kg.)

DAL-1000
Digital Audio Limiter
- Digital limiter to achieve "ZERO WORD" attack time
- Direct interfacing with SDIF-2 or AES/EBU format digital equipment
- Selectable limiter curves: Type A and Type B
- 6 programmable preset memories for parameters setup
- Wired remote control unit supplied for quick, direct access from the console
- Selectable sampling frequencies: 44.056 kHz, 44.1 kHz and 48 kHz (auto select)

Specifications
Sampling Frequency: 44.056 kHz, 44.1 kHz or 48 kHz, automatically selectable
Number of Programmable Memories: 6
Power Requirements: AC-100V/120V/220V/240V, 50/60 Hz
Power Consumption: 10W
Dimensions (WHD): Processor: 482 x 44 x 320mm
(19" x 1¾" x 12¾")
Remote Control Unit: 120 x 180 x 20mm
(4¾" x 7½" x ¾")
Weight: Processor: 9 lb. 5 oz. (4.2 kg.)
Remote Control Unit: 1 lb. 13 oz. (0.8 kg.)
Remote Control Cable Length: 10m
DFX-2400

Sampling Rate Converter

- Converts any sampling frequency between 30 kHz and 50 kHz into any of the following frequencies: 32 kHz, 44.056 kHz, 44.1 kHz and 48 kHz
- Enables conversion between AES/EBU format and SDIF-2 format
- 16-bit conversion resolution, with no signal degradation such as that involved in A/D and D/A processing of analog methods
- Compact size and low power consumption

Supplied Accessories:
AC Power Cable
19" Rack Mount Kit

Specifications

MXP-3000 Series

Audio Recording/Remixing Consoles

- Available in three frame sizes: The MXP-3020 (20 inputs), the MXP-3036 (36 inputs), the MXP-3056 (56 inputs); all consoles can be ordered in non-automated or automated versions
- 24-track bus assigns for the MXP-3056 and MXP-3036
- 20-track bus assigns for the MXP-3020
- External microphone power supply (DC-48V) provided
- Six sends: 1-4 mono, 5-6 stereo pair with pan control, all pre- or post-fader with selectable channel or monitor location with level control
- Modular equalization section offers as standard: Wein 4-band EQ with Q of 1.5, low-band 40 Hz–250 Hz, mid 1 150 Hz–2.5 kHz, mid 2 800 Hz–8 kHz, high 8 kHz–20 kHz peak/shelf selectable on low- and high-bands with a cut/boost of ±15 dB
- Five optional EQ types available
- Modular mic input section offers as standard: electronically balanced mic input, optional transformer coupled single and dual electronically balanced mic inputs
- Variable high-pass filter (20 Hz–320 Hz); fixed low-pass selectable between channel and monitor independent of EQ location
- Switchable control room outputs to feed up to four sets of monitors
- Phase coherence meter
- 2-stage peak indicators at either mic preamp or EQ output
- Variable control-room dim-level
- Variable bus control from –14 to +5 dB
- Patchless audio sub-grouping mode allows any of the first 24 I/O modules large fader, to be assigned as an audio group-master
- Metering, choice of mechanical VU or bargraph VF
- Low distortion internal oscillator
- Modular patchbay
- VF (Vacuum Fluorescent) Meters with MXP-3036VF and MXP-3056VF. This VF metering consists of 101-segment display with selectable VU or DIN/Nordic/BBC peak scales as well as DC-level for automation fader position indication. This metering also features a variable duration peak hold function.
Recording/Remixing Consoles

MXP-3056VF
Audio Recording/Remixing Console
Features exclusive to the MXP-3056VF:
- Six Stereo Return modules which can be automated by each of the associated automated fader packages. These returns include equalization, bus assignment and enhanced solo capability
- Two cue modules allow the user to set-up stereo headphone mixes sourced from the 2-mix, Aux sends of external inputs. These cue modules include equalization, balance, solo and monaural switching control
- The MXP-3056VF includes a patchbay with 256 tie-lines
- X-Y phase meter
The optional MXP-OP3022 includes a built-in keyboard and electroluminescent display (only with MXP-3056VF) in the center section of the console. This eliminates the need for the stand-alone VT-220 keyboard and display
- The MXBK-3103 automation fader (only with MXP-3056VF) includes two panel switches. One for the channel “MUTE” functions and another “SEL” for selecting commands associated with the infrared remote keyboard of the automation system
- Includes remote transport control for three tape recorders. This provides the basic five button transport control, plus enhanced functions such as “LOCATE” and “RESET” which can be used with Sony APR-series recorders

MXP-3020/3036/3036VF
Audio Recording/Remixing Console
Features exclusive to the MXP-3020, MXP-3036/MXP-3036VF:
- Built-in mechanical phase meter
- Optional Wild Faders providing four or eight additional automated faders which can be used as group masters or returns. These include panning and solo control mounted on the wild fader facilities module
- Optional Dual Microphone patchbay
- The MXP-3020 includes a patchbay with 136 tie-lines
- The MXP-3036 includes a patchbay with 200 tie-lines
- Optional MXP-OP3011 includes a stand-alone VT-220 keyboard and display to access hard-disk automation control when ordered with a MXP-3036, MXP-3036VF or MXP-3020 console
Recording/Remixing Consoles

DMX-B4000 Series

Digital Audio Mixer

- **Full Digital Processing/Control On Air Console**—Audio Signals are input and output in digital form, making high quality audio processing possible by eliminating the distortion and crosstalk of analog signals. In addition, automated and integrated operation are also possible.

- **Simple Operation**—Unique and user friendly operation is made possible through the use of a touch panel and EL display for the assignable control surface. These assignable controls allow centralized access to the main console functions such as input switching matrix, EQ, monitor section etc. In addition, mixer functions can be set to three levels so that access to them can be made available depending on the operator's convenience, preventing errors that could result from misoperation. This makes it possible to match operations to application, whether they are for simple operation or sophisticated audio production.

- **Snapshot Automation**—With the exception of the control panel faders, all console settings for up to 99 scenes can be stored, making it possible to reproduce those settings at any time.

- **Input Switching Matrix**—The DMX-B4008/B4016 is equipped with a 16 x 8 (AES/EBU)/30 x 16 (AES/EBU) input switching matrix linked to the snapshot automation function. Each switching matrix makes it possible to assign external sources to console channels and recall the set up data associated with that source.

- **3-Band Equalizer and Delay for Each Channel**

- **Limiter for PGM Output and for Each Group Output (DMX-B4016)**

- **20-Bit D/A Converter for Analog Output**—DMX-B4008: Studio monitor, control room monitor DMX-B4016: PGM, studio monitor, control room monitor

- **Fader Start Function**—Each channel is equipped with a fader start and start/stop switch linked to the input switching matrix.

- **Channel Status Display**—This unit reads the channel status of the AES/EBU digital audio signal and displays the status for each channel, including the alphanumeric channel origin data.

- **Automation Control Data Storage**—The unit is equipped with a 3.5" FDD that can be used to store snapshot data.

- **Self-Diagnosis Function**

Optional Accessories:

- **Main Options**
  - Remote Controller
  - 4 Stereo-Input Expansion Kit for the DMX-B4016
  - Group Expansion Kit for the DMS-B4016
  - Mic/Line Input using a 20-bit A/D converter

The sampling frequency can be selected as either 44.056 kHz, 44.1 kHz, or 48 kHz.

**MXP-2900 Series**

**Broadcast/Post-Production Audio Console**

- Most suitable for video editing, post-production and on-air applications
- Four frame sizes: MXP-2908 — 10 slots (Desk or 19" rack mounted for edit suite and mobile applications); MXP-2916 — 20 slots; MXP-2926 — 30 slots; MXP-2936 — 40 slots
- Video editing features (controlled from BVE-9000 system or BVE-910 video editor): Stereo or 4 channel audio preview switching; Channel crossfade control; Depth of fade "voice over" control; 4 channels of group outputs
- Post-production features: 3-band EQ on mono, stereo and group modules; Four AUX sends; Assignable dynamics module
- On-air features: Control room and studio muting functions; Talkback and reverse talkback; Cough switch; Fader start; Multiple outputs; Programmable clock

Recording/Remixing Consoles

MXP-290
8-Channel Audio Mixer

- Suitable for video editing applications in broadcast and video post production
- Video editor control over VCA gain, preview switcher and monitor output mute via parallel 15-pin and 25-pin connectors
- Local switchable-channel to disable editor control
- Wide range of inputs: 8 channels of balanced MIC or LINE, unbalanced line (6 channels) and phono (2 channels)
- 30 dB trim on microphone and balanced line inputs
- DC-48V external power switch on microphone channel
- 3-band EQ, 2 AUX sends and PFL on each channel
- Two sub-inputs with level and panpot control
- Two external monitor inputs and switch
- Separate L and R master faders
- Two 15-segment VU meters
- 1 kHz test tone oscillator
- Talkback microphone, talkback output and “talk to master” switch
- Headphone amplifier

Supplied Accessory:
AC Power Cable

Optional Accessories:
MXBK-200 Rack Mount Adaptor (19")
MXBK-201 Table Kit

Specifications

**Inputs:**
- 8 channels
- MIC/LINE (balanced x 8)
- LINE (unbalanced x 6)
- PHONO (unbalanced x 2)
- SUB (unbalanced x 2)
- MONITOR (balanced x 2)

**Input Connectors:**
- LINE (Phone), MIC/LINE (XLR-3-31 type),
- PHONO (Phone), SUB (Phone), MONITOR (XLR-3-31 type)

**Frequency Response:**
20 Hz to 20,000 Hz (+0.5/-1.5) dB

**Harmonic Distortion:**
< 0.3% (4 dBs at 1 kHz output level)

**Equivalent Input Noise (150Ω terminated):**
- MIC: < -123 dB, LINE: < -80 dB (input shorted)
- Residual Noise: < -85 dB (master fader OFF)
- Crosstalk: > 70 dB (at 10 kHz)

**Built-in Oscillator:**
1 kHz

**Equalizer:**
- High frequency: 10 kHz, ±15 dB
- Mid frequency: 2.8 kHz, ±15 dB
- Low frequency: 100 Hz, ±15 dB

**Filters:**
- Low cut filter: 120 Hz (at -3 dB), 12 dB/oct

**Metering:**
15-segment LED type VU

**Outputs:**
- LINE (balanced x 2)
- AUX (unbalanced x 2)
- MONITOR (balanced x 2)
- PHONE
- TB (unbalanced)
- PFL (unbalanced)

**Output Connectors:**
- LINE (XLR-3-32 type or Phono)
- AUX (Phone)
- MONITOR (Phone)
- PHONE (Stereo phone)
- TB (Phone)
- PFL (Phone)

**Power Requirements:**
- AC-100V - 120V (UC)
- AC-220V - 240V (EK), 50/60 Hz

**Power Consumption:**
24W

**Dimensions (WHD):**
424 x 132 x 358mm
(16¾" x 5¼" x 14¼")

**Weight:**
16 lb, 9 oz. (7.5 kg.)
MX-P61VU/MX-P61PK

12-Channel Audio Mixer

- Equipped with 12 MIC/LINE inputs, 4 LINE outputs, TB output, communicate input and cascade connectors
- Switchable microphone power supply ±48V (external power supply) and ±12V (A/B feed)
- Built-in 1 kHz test tone
- High and low cut filters
- Monitoring through either headphones or external monitor speaker system
- Selectable displays: mechanical type VU meters (MX-P61VU) or bargraph peak program meters (MX-P61PK)
- Self-illuminating MUTE/LINE SELECT switches
- AC/DC operation

Supplied Accessories:
- AC Power Cable

Optional Accessories:
- MXBK-6100 Blank Panel
- MXBK-6101 Input Module
- MXBK-6101A Input Module provided with self-illuminating LINE SELECT and MUTE switches
- MXBK-6102 Master 1 Module
- MXBK-6102A Master 1 Module provided with self-illuminating LINE SELECT and MUTE switches for sub inputs 1 and 2
- MXBK-6103 Master 2 Module
- MXBK-6110 Maintenance Cables (4 pcs/set) for connecting each module to the mother board when servicing ECP-1.5P15 Cascade Cable (1.5m, 15-pin connectors)

Specifications

Inputs: 12 channels
- MIC/LINE (x 12), balanced
- MONITOR IN (x 2), balanced
- SUB (x 2), balanced
- COMM IN (x 1), balanced

Input Connectors:
- MIC/LINE: XLR-3-31 type
- MIC powering: DC-48V/12V
- LINE: XLR-3-31 type
- MONITOR IN: XLR-3-31 type
- COMM IN: XLR-3-31 type

Frequency Response: 30 Hz - 20 kHz ± 0.5 dB

Peak Indicator: Yes

Equalizer: High:
- 10 kHz ± 12 dB
- Mid: 500 Hz/1 kHz/2 kHz/4 kHz ± 12 dB
- Low: 100 Hz ± 12 dB

Filter: Low cut/high cut

Compressor/Limiter: Limiter for each input

Built-In Oscillator: 1 kHz

Metering: MX-P61VU: 2 VU + 1 VU (AUX/PFL)
MX-P61PK: 2 PPM + 1 PPM (AUX/PFL)

Outputs: LINE (x 4), balanced
- AUX (x3), balanced
- MONITOR (x 2), balanced
- PFL (x 1), balanced
- TB (x 1), unbalanced
- PHONE (x 2), unbalanced

Output Connectors:
- LINE (balanced): XLR-3-32 type
- AUX: XLR-3-32 type
- MONITOR: XLR-3-32 type
- PHONE: Phone
- TB: XLR-3-32 type
- PFL: XLR-3-32 type

Power Requirements: AC-100 to 120V or AC-220 to 240V, selectable, 50/60 Hz

Power Consumption: 52W (AC)/50W (DC)

Dimensions (WHD): 430 x 130 x 560mm
(17" x 5¼" x 22½")

Weight: 40 lb. 14 oz. (18.5 kg.)
Recording/Remixing Consoles

MXP-210
8-Channel Audio Mixer

- Suitable for a variety of institutional audio/video applications
- 8 channels of balanced MIC/LINE inputs, plus unbalanced line (6 channels) and phono (2 channels) inputs
- 30 dB trim on microphone and balanced line inputs
- DC-48V external power switch on microphone channel
- 3-band EQ, 2 AUX sends and PFL on each channel
- Two sub-inputs with level and panpot control
- Two external monitor inputs and switch
- Separate L and R master faders
- Two 15-segment VU meters
- 1 kHz test tone oscillator
- Talkback microphone, talkback output and “talk to master” switch
- Headphone amplifier

Supplied Accessories:
AC Power Cable
AC Plug Adaptor

Optional Accessories:
MXBK-200 19" Mount Adaptor
MXBK-201 Table Kit

Specifications

Inputs:
- 8 channels
- MIC/LINE (x 8), balanced
- LINE (x 6), unbalanced
- PHONO (x 2), balanced
- SUB (x 2), unbalanced
- MONITOR (x 2), unbalanced

Input Connectors:
- MIC/LINE: XLR-3-31 type
- MIC powering: DC-48V
- LINE: Phono
- PHONO: Phono
- SUB: Phono
- MONITOR IN: Phono

Frequency Response:
- 20 Hz - 20 kHz ± 0.5 dB/– 1.5 dB

Peak Indicator: Yes

Equalizer High:
- 10 kHz ± 12 dB

Mid:
- 2.8 kHz ± 14 dB

Low:
- 100 Hz ± 12 dB

Filter:
- Low cut

Built-in Oscillator: 1 kHz

Metering: 2 VU (LED)

Outputs:
- LINE (x 2), balanced
- LINE (x 2), unbalanced
- AUX (x 2), unbalanced
- PHONE (x 2), unbalanced
- TB (x 1), unbalanced
- PFL (x 1), unbalanced

Output Connectors:
- LINE (balanced): XLR-3-32 type
- LINE (unbalanced): Phono
- AUX: Phono
- MONITOR: Phono
- PHONE: Phono
- TB: Phono
- PFL: Phono

Power Requirements:
- AC-110V - 120V (UC)
- AC-220V - 240V (EK)

Power Consumption: 24 W

Dimensions (WHD):
- 424 x 132 x 358 mm
- (16¾" x 5¼" x 14¼")

Weight: 16 lb. 9 oz. (7.5 kg.)

Audio for Video Mixer

VSP-8000

Video Sound Processor

- Video sound processor designed primarily for digital video edit suites
- Controlled completely from BVE-9100 or other video editor
- Equipped with AES/EBU digital I/O
- 16 inputs, 4 outputs and 2 preview busses
- 4 sets of parallel outputs for recorder re-assignment application
- AES/EBU D I/O ports, direct connection to Sony D-1 and D-2 digital VTRs, PCM-3402 2-channel DASH recorder and PCM-7000 series DAT recorders
- Video sampling frequency locked to NTSC (29.97 Hz) PAL (25 Hz) and black and white (30 Hz) video signals
- Comprehensive preview control, no external audio switcher required
- Crossfade between program and preset busses, matches the style of video switchers
- Automated crossfade
- 48 kHz, 44.1 kHz and 44.056 kHz sampling frequencies
- 255 snapshot memories
- Store console settings, up to 99 snapshots triggerable by video editor
- Snapshots saved on 3.5" floppy disk

Specifications—(continued)

Equalizer:

- High frequency: 1 kHz - 16 kHz, ± 15 dB, Q = 1.4 shelving/peaking, selectable
- Mid frequency: 330 Hz - 5.3 kHz, ± 15 dB, Q = 1.4
- Mid-low frequency: 99 Hz - 1.6 kHz, ± 15 dB, Q = 1.4
- Low frequency: 21 Hz - 330 Hz, ± 15 dB, Q = 1.4 shelving/peaking, selectable

Filters:

- Low cut filter: 21 Hz - 330 Hz (at -3 dB), 12 dB/oct
- High cut filter: 1 kHz - 16 kHz (at -3 dB), 12 dB/oct

Limiter/Compressor:

- Threshold: 0 dB to -60 dB
- Attack time: Normal/fast
- Recovery time: 30 ms - 3 sec.
- Compression ratio: 1.1:1 to 100:1
- Gain make-up: 0 dB to 30 dB, automatic or manual

Expander/Noise Gate:

- Threshold: 0 dB to -60 dB
- Attack time: Normal/fast
- Recovery time: 30 ms - 3 sec.
- Expansion ratio: 1.5:1 to ∞:1
- Range: 0 dB to 40 dB
- Noise gate hysteresis: 6 dB

Metering:

- 201-segment plasma meters w/peak hold

Outputs:

- DIGITAL OUT (AES/EBU, 4 x 4 channels) (48 x 4 channels w/VSBK-8001)
- PREVIEW OUT (AES/EBU, 2 channels)
- VIDEO SYNC OUT (loop-through)
- WORD SYNC OUT (loop-through)
- REMOTE OUT
- RS-232C OUT

Output Connectors:

- DIGITAL OUT (XLR-3-32 type)
- PREVIEW OUT (XLR-3-32 type)

Power Requirements:

- AC-100V-120V/220V-240V, 50/60 Hz
- Power Consumption:
  - Controller/meter unit: 150W
  - Processor: 150W

Dimensions (WHD):

- Controller: 748 x 100 x 532mm (29½" x 4" x 21½")
- Processor: 424 x 265.6 x 550mm (18½" x 10⅜" x 21¾")
- Meter unit: 434 x 150 x 200mm (17¼" x 6" x 7½")

Weight:

- Controller: 50 lb. 7 oz. (23 kg.)
- Processor: 59 lb. 5 oz. (27 kg.)
- Meter unit: 10 lb. 4 oz. (4.7 kg.)
DMX-E3000
Digital Audio Mixer
- 32 Inputs and 16-Channel Mixing Capability
- Built-in 32 x 16 AES/EBU Routing Switcher
- 4-CH PGM Outputs
- Stereo Digital Insertion
- Audio Delay Control
- Flexible Cross Fades (Transitions)
- Four Manual Master Faders for PGM Outputs
- Channel Link Operation
- 4-CH PVW Digital/Analog Outputs for Flexible Preview CH 1 to 4 Preview Buses
- Monitor Mix Matrix
- Depth of Fade Control
- Optional 16 Channel, 3-Band Equalizer and Filters
- Versatile Remote Control Facility
- Up to 99 Snapshot Memory
- Signal Processing Locked to a Video/Audio Reference
- Selectable Two Sampling Frequencies
- Phase Reverse Function for Easy Signal Compensation
- 19-inch Rack Mountable
- Compact Sizes
- Removable Meter Housing
- Self-Diagnostic Function for Trouble Free Operation

Supplied Accessories:
- AC Power Cables (2)
- Processor - Controller Cable (30m)
- Controller - Meter Cable (3m)
- 19-inch Rack Mount Kit for Controller/Meter Unit
- BNC 75Ω Termination

Optional Accessories:
- DMBX-3000 Digital Equalizer/Filter Unit

Equipped with the DMBK-3000, the DMX-E3000 provides assignable control of equalizer along with low/high cut filters.

Specifications—(continued)
REMOTE I/O
Serial REMOTE:
- Connector: D-sub 9-pin
- Format: Sony 9-pin serial, ESAM II Extended
Parallel REMOTE:
- Controller ←→ Processor
- Connector: D-sub 25-pin
- Connector: D-sub 25-pin
Audio:
- Sampling frequency: 48.0 kHz, 44.1 kHz, 47.952 kHz
- Frequency response: 20 Hz – 20 kHz within 0.2 dB/–0.5 dB
- Total harmonic distortion: < 0.02%
- Dynamic range: > 105 dB
- Cross talk: < – 90 dB

Equalizer (w/DMBK-3000)
High Frequency
- Frequency range: 1 kHz – 16 kHz
- Gain range: ± 15 dB
- Q: 0.7 fixed
Mid Frequency
- Frequency range: 200 Hz – 3.2 kHz
- Gain Range: ± 15 dB
- Q: 0.7 fixed
Low Frequency
- Frequency range: 20 Hz – 320 Hz
- Gain range: ± 15 dB
- Q: 0.7 fixed

Filters (w/DMBK-3000)
Low Cut Filter:
- Cut off frequency: 20 Hz – 330 Hz
- Roll off characteristics: 12 dB/oct

General
- Power Requirements: AC-100V/120V/220V/240V, 50/60 Hz
- Power Consumption:
  - Processor: 50W
  - Controller: 30W
- Dimensions (WHD):
  - Processor: 424 x 177 x 450mm
    - (16 3/4" x 7" x 17 3/4")
  - Controller: 424 x 119.3 x 398.8mm
    - (16 3/4" x 4 3/4" x 15 1/2")
  - Meter: 424 x 132 x 40mm
    - (16 3/4" x 5 1/4" x 1 1/4")
- Weights:
  - Processor: 28 lb. 10 oz. (13 kg.)
  - Controller: 22 lb. (10 kg.)
  - Meter: 2 lb. 3 oz. (1 kg.)
- Built-in Oscillator:
  - Frequency: 1 kHz
- Indicator (peak metering):
  - Level meters: 101 segment LED bargraphs
Audio for Video Mixer

**MXP-390 Series**

12-Channel Audio Mixer

- Incorporates a D-sub 9-pin remote interface which conforms to the industry standard ESAM II Extended protocol. MXP-P390 is the parallel version and provides Sony standard parallel remote interfaces for flexible control from appropriate Sony editing equipment.
- 12 Channels/20 input capability: 4 monaural, MIC or LINE selectable inputs; 8 stereo LINE inputs.
- 4-Channel outputs for video editing.
- Enhanced video editor controlled functions: VCA gain on each channel fader; Crossfade trigger; 4-channel preview switching; Individual override of monitor outputs; Monitor output mute.
- Depth of fade control.
- Comprehensive four-channel monitor section.
- 4-Channel free recorder assignment and preview switcher.
- Monitor matrix switcher.
- Filter and equalization controls.
- Multi-position VTR configuration selector.
- 4 Mono send and 2 stereo pair send outputs.
- Easy-to-read 4-channel LED meters with VU scale.
- Trim control.
- Pan-pot control.
- AUX channel level control.
- A/B roll selection.
- Manual crossfader (transition fader) for manual crossfade control.

Optional Accessories:

- MXBK-S390 Serial Remote Interface Kit for MXP-P390
- MXBK-TK390 Table Kit for MXP-S390/P390
DMX-S6000 Series

Digital Audio Mixer

- A Complete Line-Up—The DMX-S6000 Series consists of four models, differentiated by the number of channel inputs and the number of multi-track sends/returns, allowing users to select a model that best suits their system. Three of the models in the Series, the DMX-S6024/S6032/S6048, are designed for use with the Sony PCM-3324/3324A/3324S Digital Multi-Track Recorders. The DMX-S6064 is designed to be used with the PCM-3348.

- Full Digital Processing
- Delay (max 9.9-frame delay for each channel)
- Snapshot Automation Function (up to 999 cues, 255 scenes, 999 events, 255 programs)
- Fader Automation Function
- 3.5-inch Floppy Disk Drive
- Dedicated Functions (all critical controls, such as mute, fader, PFL and solo are provided for every channel)
- Assignable Functions
- Definable Functions
- 4-Band Equalizer
- Dynamics includes high-quality limiter/compressor and expander/gate that can be set for each channel
- ALT Switch
- Channel Copy
- Large Fader/Small Fader
- Four-channel PGM outputs and Surround-Compatible Quad Panpot (Four Panpot modes: 1st stereo, 2 stereo, 2-2 Quad and 3-1 Quad. In addition a DIL (divergence) control is provided for 3-1 Quad mode so that the unit is also 3-1 surround compatible.)
- Flexible Monitor Outputs to select either STEREO, MONO or QUAD monitoring
- Control Interface
- External Synchronization
- Main Options
- Machine Controller a synchronizer that can control up to 5 slave VTRs, DAT Players, CD Players etc.
- Sampler/Shifter

Supplied Accessories:
- AC Power Cable
- Digital RGB Video Cable (30m)
- HDLC Cable (30m) (Processor—Console control surface)
- Rack Mount Bracket
- Operation Software
- Operation Manual

Optional Accessories:
- DMBK-6002 9.5-inch Blank Frame
- DMBK-6003 24/32 Channel Insertion Interface
- DMBK-6004 48 Channel Insertion Interface
- DMBK-6005 64 Channel Insertion Interface
- DMBK-6006 Extension Memory
- DMBK-6007 4 Channel Mic/Line Amplifier Module
- DMBK-6008 VU/Phase Meter
- DMBK-6009 Analog RGB Video Cable (30m)
- DMBK-6010 Mouse Table
- DMBK-6011 Console Stand (small)
- DMBK-6012 Console Stand (large)
- DMBK-6013 Stand Extension Kit
- DMBK-6015 Speaker Table
- DMBK-6016 24/32 Channel Sampler/Shifter
- DMBK-6017 48/64 Channel Sampler/Shifter
- DMBK-6018 Machine Controller
- DMBK-6001 18-inch Blank Frame
- DMBK-6014 Slide Table
## Specifications (DMX-S6000 Series, cont.)

### Inputs

**Channel:**
- **DMX-S6064:** 64ch, AES/EBU, XLR-3-31 type (x64)
- **DMX-S6048:** 48ch, AES/EBU, XLR-3-31 type (x48)
- **DMX-S6032:** 32ch, AES/EBU, XLR-3-31 type (x32)
- **DMX-S6024:** 24ch, AES/EBU, XLR-3-31 type (x24)

**Track Return:**
- **DMX-S6064:** 48ch, SDIF-2 balanced, D-Sub 50P (x2)
- **DMX-S6048:** 24ch, SDIF-2 balanced, D-Sub 50P (x1)
- **DMX-S6032:** 24ch, SDIF-2 balanced, D-Sub 50P (x1)
- **DMX-S6024:** 24ch, SDIF-2 balanced, D-Sub 50P (x1)

**AUX Return:**
- 8ch, AES/EBU XLR-3-31 type (x8)

**External Monitor:**
- 6 Mono or 16 Stereo, AES/EBU XLR-3-31 type(s)

### Outputs

**Program:**
- **DMX-S6064:** 4ch, AES/EBU XLR-3-32 type (x4)

**Track Send:**
- **DMX-S6064:** 48ch, SDIF-2 balanced, D-Sub 50P (x2)
- **DMX-S6048:** 24ch, SDIF-2 balanced, D-Sub 50P (x1)
- **DMX-S6032:** 24ch, SDIF-2 balanced, D-Sub 50P (x1)
- **DMX-S6024:** 24ch, SDIF-2 balanced, D-Sub 50P (x1)

**Mono:**
- 8ch, AES/EBU XLR-3-32 type (x8)

**AUX Send:**
- 8ch, AES/EBU XLR-3-32 type (x8)

**Insertion Send:**
- 8 Mono or 16 Stereo, AES/EBU XLR-3-32 type (x8)

**Monitor:**
- 4ch, AES/EBU XLR-3-32 type (x2) for Control room
- L/R, AES/EBU XLR-3-32 type (x1) for Voice over booth

### Reference

#### Video Sync
- **No. of Ch:** 1ch, BNC type (x2) through
- **Video Signal:** 25 Hz (PAL), 29.97 Hz (NTSC)
- **Sync Signal:** Composite sync, Black burst or Composite video
- **Termination:** 75Ω

#### Word Sync
- **No. of Ch:** 1ch, BNC type (x2) through, TTL Compatible

#### HD Sync
- **No. of Ch:** 1ch, BNC type (x2) through, ±0.3V, 75Ω

#### MIC/Line
- **No. of Channels:** 4ch, balanced, XLR-3-31 type (x4)
- **Frequency Response:**
  - **MIC:** 30 Hz to 20 kHz within +0 dB/-0.5 dB
  - **LINE:** 20 Hz to 20 kHz within +0 dB/-0.5 dB
- **Total Harmonic Distortion:**
  - **MIC:** < 0.3%
  - **LINE:** < 0.1%
- **Cross Talk:** > 70 dB (at 8 kHz)
- **Equivalent Input Noise:**
  - **MIC:** > 126 dB
  - **LINE:** > 80 dB

#### Sampling Frequencies
- 48 kHz, 47.952 kHz, 44.1 kHz, 44.056 kHz

### Equalizer

- **HF:** Frequency Range: 1.3 kHz to 17.4 kHz
- **Gain Range:** ±15 dB
- **Q Type:** 0.7/1.4/2.5 (Shelving/Peak Selectable)

- **HMF:** Frequency Range: 648 Hz to 8.7 kHz
- **Gain Range:** ±15 dB
- **Q Type:** 0.7/1.4/2.5

- **LF:** Frequency Range: 31 Hz to 420 Hz
- **Gain Range:** ±15 dB
- **Q Type:** 0.7/1.4/2.5 (Shelving/Peak Selectable)

### Filter

- **High Cut:** 1.3 kHz to 17.4 kHz
- **Roll off Characteristics:** 12 dB/oct
- **Low Cut:** 21 Hz to 330 Hz
- **Roll off Characteristics:** 12 dB/oct

### Dynamics

- **Limit/Compressor**
  - **Threshold Level:** 0 to –60 dB
  - **Attack Time:** 30 μs to 300 ms
  - **Recovery Time:** 30 ms to 3s
  - **Ratio:** 1:1 to ∞:1
  - **Gain:** 0 dB to 30 dB

- **Expander/Gate**
  - **Threshold Level:** –60 dB to 0 dB
  - **Attack Time:** 1 μs to 10 ms
  - **Recovery Time:** 30 ms to 3s
  - **Ratio:** 1:1.1 to 1:10
  - **Gain:** 0 dB to –60 dB

### Built-In Oscillator

- **Frequency:** PINK NOISE, WHITE NOISE, SIN WAVE (20 Hz to 20 kHz)
- **Output Level:** +10 dB to ∞

### Indicator

- **Level Meters:** 101 Segment LED bargraphs

### General

#### Power Requirements
- AC-100V/120V/220V/240V, 50 Hz/60 Hz

#### Power Consumption
- **DMX-S6064:** Max. 2.0 kW
- **DMX-S6048:** Max. 1.6 kW
- **DMX-S6032:** Max. 1.2 kW
- **DMX-S6024:** Max. 1.0 kW
- **Processor:** < 800W

#### Dimensions (WHD):**
- **DMX-S6064:** 2670 x 980 x 1010mm (approx.)
- **DMX-S6048:** 2160 x 980 x 1010mm (approx.)
- **DMX-S6032:** 1930 x 980 x 1010mm (approx.)
- **DMX-S6024:** 1650 x 980 x 1010mm (approx.)
- **Processor:** 424 x 885 x 600mm (approx.)
**VSP-A600**

**Video Sound Processor**

The VSP-A600 is a simple and compact audio mixer which meets the requirement of broadcast stations and post-production houses. Specifically it is designed to complement the BVE-600 Sony Video Editor, to which it can be connected directly via the Sony parallel remote interface. The VSP-A600 is only 1U high and was designed to fit on top of the BVE-600. With the VSBK-602 rack mount adaptor, it can also be installed in a 19-inch rack. The VSP-A600's compact design and its ability to interface directly to the BVE-600 are convenient features in news editing booths and other locations where space is at a premium.

- Built-in Sony parallel remote interface—Via the Sony parallel remote connector (D-sub 15-pin) video editing units, such as the BVE-600, can be interfaced directly. The following functions of the VSP-A600 can be controlled from the video editor:
  - Audio-follow-video editing
  - VCA fader level
  - Cross fade during A/B roll editing
  - Monitoring the audio output of the recorder VTR during the playback of the recorder VTR
  - Muting the monitor output when the VTR is in fast-forward or rewind

- 19" rack size—With the VSBK-602 optional rack mount adaptor, the VSP-A600 can be installed in a 19-inch rack.

- Six channel inputs and two channel outputs—A total of six channels are assigned for two player VTR inputs and two AUX inputs (MIC/LINE selectable).
- Editor remote or local mode selectable—Both remote and local modes are available to the operator. The local mode allows manual operation: pushing the local mode button on the front panel releases the unit from editor control.

**Optional Accessories:**

VSBK-602 Rack Mount Adaptor

Audio Processors

DPS-F7
Digital Dynamic Filter Plus
- 2-channels of digital dynamic filter plus 10 algorithms provide a wide range of filter effects and outstanding sound quality
- 18-bit oversampling A/D and 1-bit D/A converter system with 45-bit noise shaping digital filters for superb sound quality
- Interfacing with external control equipment such as MIDI equipment
- 100 preset memory
- User memory for up to 256 effects setting
- 1U high and 19-inch rack mountable

DPS-M7

Digital Sonic Modulator

- Dynamic modulation function
- Oversampling effect signal processing
- Versatile choice of effects—100 preset memory
- Enhanced effect editing
- 256 user presets
- Block load function
- Two channel I/O
- Remote control capability
- Interface with MIDI equipment
- Converts two analog input channels to digital form for versatile effects control
- Incorporates a high density linear converter system to retain the audio quality of source material
- High speed 32-bit digital signal processing
- Realtime monitoring
- Memory back up function
- 1U high and 19-inch rack mountable compact dimensions

Optional Accessories:
RM-DPS7 Wired Remote Control Unit: Connects to the DPS-D7, DPS-R7, or DPS-M7 via the 9-pin remote interface; Controls up to 15 DPS-series effect processors
RK-R005(5m)/RK-R050(50m)/RK-R100(100m) Remote Control Cable: (connector, D-Sub 9-pin)

Specifications

| Quantization | 18-bit linear |
| Sampling Frequency | 48 kHz |
| Inputs | 2 Channels: 4 dBs (24 dBs max.), 10 kΩ, balanced, XLR-3-31 type (1:GND 2:HOT 3:COLD) (x 2) or -10 dBs (10 dBs max.), 50 kΩ, unbalanced, PHONE (x 2); (0 dBs = 0.775 Vrms) |

Audio Processors

DPS-D7
Digital Delay Unit

- Stereo digital audio delay unit including digital delay processing algorithm, 3-band digital equalizer and digital panpot control
- 18-bit oversampling A/D and 1-bit pulse D/A converter* system with digital filters for superb sound quality
- High-speed 32-bit digital signal processing for complex delay effects control
- 100 preset memory
- User memory for up to 256 effects settings
- Selectable unit for delay time, 'msec', 'm', 's' or 'word'
- Realtime monitoring capability
- 1U high and 19" rack mountable

*Sony developed the Pulse D/A converter and designed the LSI circuitry, which incorporates the multistage noise shaping technique originated by NTT (Nippon Telegraph and Telephone Corporation).

Specifications

Quantization: 18-bit linear
Sampling Frequency: 48 kHz
Inputs: +4 dB ( +24 dB max.), 10 kΩ, balanced, XLR-3-31 type (x2)
-10 dB ( +10 dB max.), 50 kΩ, unbalanced, PHONE (x2)
Outputs: +4 dB ( +24 dB max.), > 600Ω balanced, XLR-3-32 type (x2)
-10 dB ( +10 dB max.), > 10 kΩ unbalanced, PHONE (x2)
Frequency Response: 10 Hz - 22 kHz ( +0 dB -1.0 dB)
Signal-to-Noise Ratio: > 84 dB
Total Harmonic Distortion: < 0.0035% (1 kHz)
Memory Capacity: 100 (Preset memory)
- Up to 256 (User memory)
Power Requirements:
- AC-120V, 60 Hz (UC)
- AC-230V, 50/60 Hz (AE)
- AC-240V, 50/60 Hz (UK)
Power Consumption: 28.2W (approx.)
Dimensions (W: H: D): 482 x 44 x 320mm
(19" x 1¾" x 12½")
Weight: 10 lb. 9 oz. (4.8 kg.)
DPS-R7
Digital Reverberator
- High-performance 2-channel digital reverberator
- 18-bit oversampling A/D and 1-bit pulse D/A converter* system with digital filters for superb sound quality
- High-speed 32-bit digital signal processing for complex delay effects control
- 100 preset memory
- User memory for up to 256 effects settings
- Versatile reverb effects control
- 1U high and 19" rack mountable

*Sony developed the Pulse D/A converter and designed the LSI circuitry, which incorporates the multistage noise shaping technique originated by NTT (Nippon Telegraph and Telephone Corporation).

Specifications
- Quantization: 18-bit linear
- Sampling Frequency: 40 kHz
- Inputs: +4 dB (+24 dB max.), 10 kΩ, balanced, XLR-3-1 type (x2)
  -10 dB (+10 dB max.), 50 kΩ, unbalanced, PHONE (x2)
- Outputs: +4 dB (+24 dB max.), > 600Ω balanced, XLR-3-1 type (x2)
  -10 dB (+10 dB max.), > 1 kΩ unbalanced, PHONE (x2)
- Frequency Response: 10 Hz–18 kHz (+0/-1.0) dB
- Signal-to-Noise Ratio: > 90 dB
- Total Harmonic Distortion: < 0.004% (1 kHz)
- Memory Capacity: 100 (Preset memory)
  Up to 256 (User memory)
- Power Requirements: AC-120V, 60 Hz (UC)
  AC-230V, 50/60 Hz (AE)
  AC-240V, 50/60 Hz (UK)
- Power Consumption: 28.2W (approx.)
- Dimensions (WHD): 482 x 44 x 320mm
  (19" x 1¾" x 12½")
- Weight: 10 lb. 9 oz. (4.5 kg.)

MU-R201
Stereo Digital Reverb
- Complete stereo sound processing with Sony developed VLSI
- 100 factory presets and 100 user presets
- 4-band stereo digital equalizer built in
- MIDI compatible
- 10 basic algorithms
- Split reverberation programs for two simultaneous yet different effectors

Optional Accessories:
- MU-RM1A Remote Control: Supports all operations and functions of MU-R201
- 5 meter cable

Specifications
- Dimensions (WHD): 482 x 44 x 320mm
  (19" x 1¾" x 12½")
- Weight: 9 lb. 15 oz. (4.5 kg.)
MU-L021  
**Stereo Compressor Limiter**  
- Two-channel design with independent or linked operation  
- Built-in noise gate on each channel  
- Noise gate operation can be performed by external control signals  
- Transformerless balanced input and output circuits  
- XLR and 1/4" phone input and output connectors  
- 19-inch EIA standard rack mountable  
- LED metering showing gain reduction and operation  
- Continuously variable control of threshold, attack time, ratio and release time

MU-E041  
**Parametric Equalizer**  
- Four-band parametric EQ  
- Center frequencies of 80 Hz, 320 Hz, 1,300 Hz and 5,000 Hz  
- Independent "Q" control of each band  
- Boost/cut level switchable between 6 dB and 12 dB  
- Transformerless balanced input and output circuits  
- XLR and 1/4" phone input and output connectors  
- 19-inch EIA standard rack mountable  
- Continuously variable center frequency (±2 octaves)  
- Stacking return and sends for increased flexibility
Wireless Microphones

WRT-820A
UHF Synthesized Transmitter

- PLL synthesized tuning for 94 frequencies
- Operates in the UHF TV band (initially ch. 68 thru 69 [794 MHz–806 MHz]) with a possible 11 simultaneous channels
- CPU controlled (PLL and all display functions)
- LCD display of Battery Status; Attenuation; RF; Audio Input; Channel Number
- "AA" Battery (x2) operation: 8 hrs. continuous
- Companded audio for wider dynamic range and resistance to external RF noise
- Tone squelch used during on/off to eliminate switching noise and to activate automatic squelch

WRR-820A
UHF Synthesized Diversity Receiver

- PLL synthesized tuning for 94 frequencies
- Operates in the UHF TV band (initially ch. 68–69 [794 MHz–806 MHz]) with a possible 11 simultaneous channels
- CPU controlled (PLL and all display functions)
- LCD display of Channel Number
- True space diversity operation
- Companded audio for wider dynamic range and resistance to external RF noise
- Tone squelch used during on/off to eliminate switching noise and to activate automatic squelch
- Switchable audio reference output level (−60 dBs, −40 dBs, −20 dBs)
- Output level control on front panel
- Balanced (XLR) and unbalanced (RCA) type output
- Mixed output/input connectors for mixing audio of multiple receivers to one output
- AC outlet on back
- RF and audio indications
- DC9V output on antenna connector to power active antenna system (AN-820)
- 19" rack mountable (one rack space high)
Wireless Microphones

**WRT-810A**

**UHF Synthesized Transmitter**
- PLL synthesized tuning for 94 frequencies
- Operates in the UHF TV band (initially ch. 68-69 [794 MHz–806 MHz]) with a possible 11 simultaneous channels
- CPU controlled (PLL and all display functions)
- LCD display of Battery Status; Attenuation; RF; Audio Input; Channel Number
- "AA" Battery (x2) operation: 8 hrs. continuous
- Companded audio for wider dynamic range and resistance to external RF noise
- Tone squelch used during on/off to eliminate switching noise and to activate automatic squelch
- Switchable RF power output (10 mW and 2.5 mW)

**WRR-840A**

**UHF Synthesized Diversity Receiver**
- PLL synthesized tuning for 94 frequencies
- Operates in the UHF TV band (initially ch. 68-69 [794 MHz–806 MHz]) with a possible 11 simultaneous channels
- CPU controlled (PLL and all display functions)
- LCD display of Channel Number
- True space diversity operation
- Companded audio for wider dynamic range and resistance to external RF noise
- Tone squelch used during on/off to eliminate switching noise and to activate automatic squelch
- Built in antenna distribution
- Switchable audio reference output level (-60 dBs, -40 dBs, -20 dBs)
- Output level control on front panel
- Balanced (XLR) and unbalanced (RCA) type output
- Mix output/input connectors for mixing audio of multiple receivers to one output
- AC outlet on back
- RF and audio indications
- DC9V output on antenna connector to power active antenna system (AN-820)
- 19" rack mountable (one rack space high)
Wireless Microphones

WRT-830A

UHF Synthesized Wireless Microphone
- PLL synthesized control transmission
- Easy-to-Read LCD Indication
- High quality sound for vocal
- ON/OFF power switch inside the body, (preventing turning-off the switch during operation.)
- Low handling noise
- AA-size battery operation
- Simultaneous multi-channel operation
- Selectable RF output power
- RF carrier with tone signal
- Compander (Compressor/Expander) system
- Unique and refined cosmetic design
- Rugged housing for complete protection during rough handling

*Use of Sony wireless devices is regulated by the Federal Communications Commission as described in Part 74 of the FCC regulations and users authorized thereby are required to obtain an appropriate license.

Supplied Accessories:
Microphone Holder
Stand Adaptor: PF 1/2-NS 5/8

Specifications

| Carrier Frequency: | 795 MHz - 806 MHz 94 channels selectable |
| Oscillator: | Crystal-controlled PLL synthesizer |
| Tone Signal: | Approx. 32 kHz (for tone squelch control) |
| Type of Emission: | 110KF3E |
| RF Power Output: | 10 mW or 2.5 mW, selectable |
| Frequency Stability: | Within ±0.005% |
| Antenna: | 1/4 λ whip antenna |
| Pre-emphasis: | 50 μs |
| Reference Deviation: | ± 5 kHz |
| Frequency Response: | 70 Hz - 15,000 Hz |
| Signal-to-noise Ratio: | 60 dB (A-weighted) |
| Attenuator Adjustment Range: | 21 dB, variable in 3 dB steps |
| Max. Input Sound Pressure Level: | 140 dB SPL |
| Microphone Capsule: | Electret condenser |
| Directivity: | Uni-directional |
| Operating Voltage: | 9V, LR6 AA size alkaline battery (2) |
| Power Consumption: | 170 mA |
| Battery Life: | 8 hours W/LR6 alkaline batteries (2) (approx.) |
| Dimension (WHD): | 0.48 x 238mm (1 15/16" x 9 3/4") |
| Weight: | 11 oz. (300 g.) (approx.) w/batteries |

### WRR-810A

**UHF Synthesized Tuner**

- **PLL Synthesized System**—The PLL (Phase Locked Loop) synthesized system controls the reception frequency of the WRR-810A. It assures stability and easy access to multiple channel frequencies. By virtue of the PLL synthesized control system, the WRR-810A provides up to 94 selectable frequencies.
- **Compact, Lightweight and Easy to Mount on Betacam SP Camcorders**—The WRR-810A is a compact and light-weight design. At only 7 oz. (220g.), it can be easily mounted on any Betacam® camcorder with the supplied holder kit and attachment case.
- **Pre-Programmed Channel Plan**—The WRR-810A has six pre-programmed channel plans which are factory preset for use in a multi-channel operation at one location. Up to 11 simultaneous channels can be programmed.
- **Easy-to-Read LCD Indication**—Employing an LCD (Liquid Crystal Display) on the front panel, the WRR-810A provides extensive information on operating conditions. The selected operating channel, group, battery status and AF level can be displayed.
- **Long Operation with LR6 (AA-size) Batteries**—Approximately six hours of continuous operation is possible with two LR6 (AA-size) alkaline batteries. The battery status can be shown on the built-in LCD.
- **Monitoring Function**—The WRR-810A provides a monitor jack for monitoring the output sound with a supplied earphone. It is also equipped with a built-in rotary monitor volume switch.
- **Tone Squelch Circuitry Control for Accurate Audio Reproduction**—Accurate audio reproduction is assured by the tone squelch circuitry control. Only after receiving the tone signals, will the WRR-810A reproduce audio signals for output.
- **Comander System for Wide Dynamic Range and Low Noise**—By employing the Comander (Compressor/Expander) System, the WRR-810A ensures extended service area and optimum transmission/reception over a wide dynamic range with low noise and interference.
- **Equipped with Muting Switch (ON/OFF)**

**Supplied Accessories:**
- Antenna 1/4 whip (x1)
- Output Cable
- Holder Kit for Betacam Camcorder
- Attachment Case
- Earphone

**Weight:** 7 oz. (220g.) w/batteries (approx.)
Wireless Microphones

**WRR-860A**

**UHF Synthesized Diversity Tuner**
- **PLL Synthesized System**—The WRR-860A employs the PLL synthesized system for stability and easy access to all 94 selectable frequencies.
- **Space Diversity Reception System**—A Space Diversity System is incorporated to eliminate signal dropout and provide stable reception. Dual input and reception circuitry incorporating individual UHF synthesized tuners enables the WRR-860A to receive transmitted signals and select the optimum signals to be output. Stable reception at extended operating distances is also ensured.
- **Compact, Lightweight and Easy to Mount on Betacam SP Camcorders**—The WRR-860A has a compact design, and weighs only 1 lb. 3 oz. (500g.), including a battery. It can be easily mounted on Sony Betacam camcorders with the supplied attachment and holder kit.
- **Pre-Programmed Channel Plan**—The WRR-860A has six pre-programmed channel plans which are factory-preset for use in a multi-channel operation at one location. Up to 11 multi-operation channels can be programmed without interference.
- **LCD Operating Status Display**—The WRR-860A employs an LCD indicator for more effective and accurate operation. RF input level, AF level, EXT DC, battery status, Muting RF level, group number, channel number, frequency and operating time are displayed on the LCD. By virtue of a back light, these indications can be seen even in low-light situations.
- **Long Operation by LR6(AA-size) Batteries**—Approximately six hours of continuous operation is possible with four LR6 (AA-size) alkaline batteries. The battery status can be shown on the built-in LCD.
- **Capable of Power Supply from Camcorders**—The WRR-860A is capable of receiving its power supply from all Sony Betacam camcorders with a DC output.
- **Monitoring Function**—The WRR-860A provides a monitor jack for monitoring the output sound with a supplied earphone.
- **Switchable Muting RF Level**—The WRR-860A has a Muting function which can easily be turned ON or OFF. In the ON mode, the RF level is selectable; from 5 dB, 15 dB, and 25 dB.
- **Compander System for Wide Dynamic Range and Low Noise**

**Specifications**

- **Spurious Rejection:** > 60 dB
- **Frequency Range:** 100 Hz to 15,000 Hz
- **Signal-to-Noise Ratio:** > 60 dB (A-weighted)
- **Harmonic Distortion:** < 1.0% at 1 kHz
- **Selectivity:** > 60 dB
- **Audio Output Level:** +58 dBu
- **Audio Output Connector:** XLR-3-12C type
- **Antenna Connector:** BNC-R connector
- **Operating Voltage:** 6.0V, LR6 (AA-size) alkaline batteries (x4)
- **Current Consumption:** 190 mA
- **Dimensions (WHD):** 95 x 108 x 33mm
  - (3¾" x 4½" x 1¼")
- **Weight:** 1 lb. 1.6 oz. (500g.) w/batteries

**Supplied Accessories:**
- Antenna 1/4 Whip (x2)
- Output Cable
- DC Cable
- Holder Kit for Betacam Camcorder
- Attachment case for Betacam Camcorder
- Earphone
- Battery Case (spare)
- Shoulder Belt

**Specifications—continued**

- **Operating Voltage:** 6.0V, LR6 (AA-size) alkaline batteries (x4)
- **Current Consumption:** 190 mA
- **Dimensions (WHD):** 95 x 108 x 33mm
  - (3¾" x 4½" x 1¼")
- **Weight:** 1 lb. 1.6 oz. (500g.) w/batteries
Wireless Microphones

WD-820A
UHF Antenna Divider
- Gain make-up for distribution loss
- For use in multiple system applications
- 2 or 4 antenna operation (for large rooms)
- 4 diversity antenna outputs
- 19" rack mountable (one rack space high)
- Cascade output for more than 4 systems

AN-820A
UHF Antenna
- Unique antenna design
- Provides 10 dB of gain to make up losses due to long cables
- Versatile mounting (wall mount or microphone stand mount)
- Water resistant construction
- LED indication of operation

WRT-67
UHF Wireless Microphone
- Uni-directional, dynamic capsule
- Available for operation in either 400 MHz or 900 MHz band
- 3-position audio attenuator: 0 db/−10 dB/−25 dB
- AA-size battery operation

WRT-57
UHF Wireless Microphone
- Uni-directional, electret condenser capsule
- Available for operation in either 400 MHz or 900 MHz band
- Outstanding dynamic range and transmitter frequency stability
**Wireless Microphones**

**WRT-28**

**UHF Transmitter**
- Compact and lightweight transmitter
- Operation in 902 MHz to 952 MHz (WRT-28H) or 470 MHz to 860 MHz (WRT-28M/28L(AE)/28L band)
- Switchable linear/comander mode (compatible with conventional receivers in linear mode)

**Specifications**
- Dimensions (WHD): 50 x 90 x 17mm
  (2" x 3¾" x 1½")
- Weight: 4.6 oz. (130 g.)

**WP-27**

**UHF Power Amplifier**
- Compact power amplifier for boosting WRT-28H
- Operates in 900 MHz band

**Specifications**
- Dimensions (WHD): 59 x 98 x 20mm
  (2¾" x 3¾" x 1³⁄₁₆")
- Weight: 7.8 oz. (220 g.)

**AN-17**

**UHF Sleeve Antenna**
- Slim, lightweight antenna for use with WRT-28H and WP-27

**Specifications**
- Dimensions: Ø10 x 222mm (L)
  (Ø1¾" x 8¾")

**AD-27**

**Power Adaptor**
- Supplies power to WRT-28H and WP-27 from external 12V DC source
Wireless Microphones

**WRR-28**
*UHF Portable Tuner*
- Operation in 902 MHz to 952 MHz (WRR-28H) or 470 MHz to 860 MHz (WRR-28M/28L(AE)/28L) band
- Easy mounting on Betacam using supplied attachment kit
- Switchable linear/compander mode (compatible with conventional transmitters and wireless microphones in linear mode)

**Specifications**
- Dimensions (WHD): 64 x 121 x 23mm
  \( \approx (2\frac{3}{8}" \times 4\frac{3}{4}" \times 2\frac{9}{32}"
  \)
- Weight: 9 lb. 9 oz. (280 g.)

**WRR-37**
*UHF Diversity Tuner*
- Dual tuner for diversity reception on 400 or 900 MHz band
- Whip and shoulder antennas supplied

**Specifications**
- Dimensions (WHD): 35 x 172 x 203mm
  \( \approx (1\frac{7}{16}" \times 6\frac{1}{4}" \times 8"
  \)
- Weight: 3 lb. (1.35 kg.) w/batteries

**PB-36**
*Portable Base Unit*
- Holds up to six WRR-37 receivers for multi-channel diversity reception
- Provides power, audio and antenna connections to receivers
- Built-in antenna divider

**Specifications**
- Dimensions (WHD): 258 x 273 x 338mm
  \( \approx (10\frac{3}{4}" \times 10\frac{5}{8}" \times 13\frac{5}{8}"
  \)
- Weight: 19 lb. 14 oz. (9 kg.)

**WB-57A**
*UHF Antenna Booster*
- Low noise booster
- 18 dB gain (400 MHz band)/20 dB gain (900 MHz band)
Wireless Microphones

AN-57

UHF Ground Plane Antenna
- Folding elements to save storage space
- Omni-directional for wide service area

BTA-37

UHF Diversity Tuner Attachment Kit
- Leatherette case with accessories to allow a WRR-37 receiver to be mounted on Betacam series Camcorders including BVW-507A/570IS/200/300A/400A
C-800
Condenser Microphone

■ Introduced after a two-year long evaluation program by Sony Music Entertainment, Sony Classical and the world's leading musicians and sound engineers ■ Uses a vacuum tube selected for optimum sonic quality ■ Ideal for quality recording of musical instruments at recording studios and for film post production ■ Successor to the world famous Sony C-37A ■ 150 dB SPL input capability and wide dynamic range ■ Warm, clear and natural reproduction of wide frequency range ■ Mechanically selectable directivity, either Omni- or Uni-directional ■ Fitted with a large diaphragm capsule ■ Rigorously selected vacuum tube for the ultimate in sound quality ■ Noise elimination construction ■ Incorporates an aluminum body divided into two parts which effectively prevents acoustic vibration from reaching the microphone capsule.

Microphones

C-800G

Condenser Microphone

- Introduced after a two-year long evaluation program by Sony Music Entertainment, Sony Classical and the world’s leading musicians and sound engineers.
- Uses a vacuum tube selected for optimum sonic quality and an innovative cooling system.
- Designed for the highest possible sound reproduction quality, warm, powerful, smooth and with fast transient response.
- Particularly suitable for critical vocal recording in recording studios and film post production houses.
- High sensitivity of -28 dB/Pa.
- Low noise and low distortion due to a built-in thermoelectric cooling system employing a semiconductor device, heat pipe, and heat sink, the first microphone in the world to use this technique.
- Fitted with a large diaphragm capsule.
- Electronically selectable directivity, either omni- or uni-directional.
- Rigorously selected vacuum tube for the ultimate in sound quality.
- Advanced cooling system for superb audio quality.
- Noise elimination construction.
- The C-800G incorporates an aluminum body divided into two parts which effectively prevents acoustic vibration from reaching the microphone capsule.

Supplied Accessories:
- Wind Screen
- Cradle Suspension
- Stand Screw Adaptor (PF 1/2 → NS ½)
- Stand Screw Adaptor (PF ½ → W ½)
- Microphone Cable
- Carrying Case
- Screwdriver

Induction Noise from Ext. Magnetic Field: ≤ 0 dB SPL/m gauss (0 dB = 20 µPa.)
Wind Noise: ≤ 45 dB SPL (0 dB = 20 µPa.)
Max. Input Sound Pressure Level: 114 dB SPL (0 dB = 20 µPa.)
Tone Control: Low-cut: M.V.

ECM-672
Uni-Directional Microphone
- Super-cardioid directional characteristics, rejecting indirect sound
- 2-way powering: internal battery (3,000 hours of continuous operation) or external power supply
- 2-position low-cut filter
- Suitable for mounting on Sony Betacam and DSC series cameras

Supplied Accessories:
Wind Screen
Battery (not included in some areas)

Optional Accessories:
AD-72 Wind Screen

Power Supply:
- Battery: SUM-3 (NS)
- Ext. Power: Yes

Standard
- Operating Voltage: Battery: 1.5V (approx.)
- Current Drain: Battery: ≤ 0.3 mA (approx.)
- AC Power: ≤ 0.5 mA (approx.)
- Dimensions: Ø 24 x 304 mm (approx.)
- Weight: 8.1 oz. (230 g.) (approx.) without battery
- Microphone Connector: XLR-3-12C Type
- Available Receptacle: XLR-3-11C Type
- External Power Supply: Yes (AC-148F) or equivalent
- Recommended Sony Battery: SUM-3 (NS)
- Battery Life: 3,000 hrs.
- Mounting on A-12: Yes (Available screw PF ½" thread, U ⅜" thread)
- Mounting on CRS-3P: Yes
ECM-531

Electret Condenser Microphone

- Gooseneck and extendable stem for flexible microphone positioning
- Superb elegant design with matt black finish and refined look, the ECM-531 harmonizes with its surroundings in any conference rooms or lecture room.
- Low-cut switch built in to the connector section permits optimum voice pick-up under almost any situations with enhanced intelligibility.
- Operates from an external DC-12V-48V external power supply.
- LED power indicator
- Designed to be easily and directly installed in conference tables and lecterns via an XLR-type connector

Supplied Accessories:
Wind Screen

ECM-530
Uni-Directional Microphone
- Ideally suited for conference and lecture applications
- Compact and slim table-top microphone
- 2-way powering: AA-size battery or external power supply

Supplied Accessories:
- Wind Screen
- Battery (not included in some areas)

Specifications
Capsule Type: Electret condenser
Frequency Response: 70 Hz ~ 18,000 Hz
Directivity: UNI
Effective Output Level: $-46.8 \text{ dBm} \text{ at } 1 \text{ kHz}$
$\text{ (0 dBm }= 1 \text{ mW/1 Pa.})$
$\text{ (1 Pa. }= 10 \mu\text{bar})$
Sensitivity: $-49.0 \text{ dB } \pm 2.0 \text{ dB}$
$\text{ (0 dB }= 1 \text{ V/1 Pa. at 1 kHz})$
Output Impedance: $150\Omega \pm 20\% \text{ at 1 kHz (balanced)}$
Dynamic Range: $\geq 95 \text{ dB}$
$\text{ S/N ratio: } \geq 83 \text{ dB (A weighted, 1 kHz, 1 Pa.)}$
Inherent Noise: $\leq 31 \text{ dB SPL (0 dB }= 20 \mu\text{Pa})$
Induction Noise from Ext. Magnetic Field: $\leq 5 \text{ dB SPL/m gauss (0 dB }= 20 \mu\text{Pa})$
Wind Noise: $\leq 55 \text{ dB SPL (0 dB }= 20 \mu\text{Pa})$
Max. Input Sound Pressure Level: $126 \text{ dB SPL (0 dB }= 20 \mu\text{Pa})$
Power Supply: Battery: IEC-R6 or IEC-LR6
Ext. Power: Yes
Standard
Operating Voltage: Battery: 1.5V (approx.)
Ext. Power: DC-14-48V (approx.)
Current Drain: Battery: $\leq 0.23 \text{ mA (approx.)}$
AC Power: $\leq 2 \text{ mA (approx.)}$
Dimensions: $\Omega 12 \times 314 \text{mm, } \Omega 86 \text{mm (Table Stand)}$
$\text{ (approx.)}$
$\Omega 1/4" \times 12\frac{1}{4}" , \Omega 3/4" \text{ (Table Stand)}$

Mounting on A-12: Yes (Available screw PF 5/16" thread, WF 9/16" thread)
Mounting on CRS-3P: Yes
ECM-999

MS Stereo Microphone

- Variable stereo angle (0° to 150°)
- Low-cut filter
- Battery operation

Supplied Accessories:
- Wind Screen
- Microphone Holder
- Microphone Cable
- Stand Adaptor

In some areas, the battery may not be included.

Specifications

- Capsule Type: Electret Condenser
- Frequency Response: 20 Hz ~ 20,000 Hz
- Directivity: UNI
- Effective Output: -51.0 (120°) at 1 kHz, (dBm)
  (0 dBm = 1 mW/1 Pa.)\(^1\)
- Sensitivity: -48.0 (120°)(dB) (0 dB = 1 V/1 Pa., at 1 kHz)
- Output Impedance: 480 at 1 kHz (balanced) (± 20%)
- Dynamic Range: ≥ 104 dB
- Signal-to-Noise Ratio:
  - Inherent Noise\(^2\): ≤ 26 (120°) (dB SPL)
  - Induction Noise from Ext. Magnetic Field\(^2\): ≤ 10 (dB SPL/1 x 10 \(^{-7}\)T)
  - Wind Noise: ≤ 50 (dB SPL)\(^2\)
- Max. Input Sound Pressure Level: 130 (dB SPL)\(^2\)
- Tone Control: Low-Cut: M.V.
- Power Supply: Battery Power: SUM-3 (ns)
- Standard Operating Voltage: Battery: 1.5V (approx.)
- Current Drain: Battery: ≤ 11.0 mA (approx.)
- Dimensions: Ø 40 x 246mm
  - 1 5/8" x 9 1/4"
- Weight\(^3\): 13 oz. (366g.)

Remarks:
- MS Stereo

\(^1\) 1 Pa. = 10 µbar
\(^2\) 0 dB = 20 µPa.
\(^3\) Without the battery for condenser and electret condenser microphones.
Microphones

ECM-23F3

Uni-directional Microphone

- Multi-purpose use
- Low-cut filter
- Battery operation

Supplied Accessories:
- Wind Screen
- Microphone Holder
- Microphone Cable
- Stand Adaptor (x2)
- Carrying Case

Specifications

Model: ECM-23F3

- Capsule Type: Electret Condenser
- Frequency Response: 20 Hz – 20,000 Hz
- Directivity: UNI
- Effective Output Level at 1 kHz (dBm):
  - 0 dBm = 1 mW/1 Pa.: -47.0
- Sensitivity (dB):
  - 0 dB = 1V/1 Pa., at 1 kHz: -48.0
- Output Impedance (balanced) (Ω ± 20%):
  - 200
- Dynamic Range: ≥ 110 dB
- Signal-to-Noise Ratio (dB)
  - (A weighted, 1 kHz, 1 Pa.): ≥ 70
- Inherent Noise (dB SPL):
  - ≤ 24
- Induction Noise from ext. magnetic field (dB SPL/1 x 10^-7T):
  - ≤ 5
- Wind Noise (dB SPL):
  - ≤ 45
- Max. Input Sound Pressure Level (dB SPL):
  - 134
- Tone Control: Low-cut: M.V.

Power Supply
- Battery Power: SUM-3 (NS)

Standard Operating Voltage
- Battery: 1.5V (approx.)
- Current Drain
  - Battery: ≤ 5 mA

Dimensions:
- Ø 27 x 246mm

Weight:
- 7.6 oz. (215g)

Microphone Connector:
- XLR-3-12C Type

Supplied Cable:
- XLR-3-11C Type = Phone plug

Cable Length:
- 6m

Available Receptacle:
- Phone jack

External Power Supply
- (AC-148F) of Equivalent: No

Recommended Sony Battery:
- SUM-3 (NS)
- Battery Life: 150H

Supplied Mic Holder:
- Yes

Stand Screw/Mic Holder Screw:
- pF ½-inch thread

Supplied Stand Adapter:
- NS ½-inch thread
  - W ½-inch thread
Specifications

- Capsule Type: Electret condenser
- Frequency Response: 70 Hz ~ 20,000 Hz
- Directivity: UNI
- Effective Output Level:
  - $-37.8$ (0°) dBm at 1 kHz
  - $-34.8$ (127°) dBm at 1 kHz
- Frequency Response:
  - 60 Hz - 20,000 Hz
- Directivity:
  - $-37.0$ (0°) dBm at 1 kHz
  - $-34.8$ (127°) dBm at 1 kHz
- Sensitivity:
  - $-40.0$ dB ± 2.0 dB (0°)
  - $-37.0$ dB ± 2.0 dB (127°)
- Output Impedance:
  - 150Ω ± 20% at 1 kHz (balanced)
- Dynamic Range:
  - $\geq$ 108 dB
- S/N ratio:
  - $\geq$ 72 dB (0°) (A weighted, 1 kHz, 1 Pa.)
  - $\geq$ 127° dB (127°) (A weighted, 127° kHz, 1 Pa.)
- Inherent Noise:
  - $\leq$ 20 dB SPL (0°) (0 dB = 20 µPa.)
  - $\leq$ 22 dB SPL (127°) (0 dB = 20 µPa.)
- Induction Noise from Ext. Magnetic Field:
  - $\leq$ 0 dB SPL/m gauss (0 dB = 20 µPa.)
- Wind Noise:
  - $\leq$ 54 dB SPL (0 dB = 20 µPa.)
- Max. Input Sound Pressure Level:
  - 130 dB SPL (0 dB = 20 µPa.)
- Tone Control:
  - Low-cut: M.V.
- Power Supply:
  - Battery: Yes (with DC-MS5 DC power supply unit)
  - Ext. Power: Yes

ECM-MS5

MS Stereo Microphone

- Compact and light MS (Mid-Side) stereo microphone
- 6-position stereo angle selector (0° to 127°)
- 2-way powering: external power supply or battery operation with optional DC-MS5
- Standard Operating Voltage: Battery: 1.5V (approx.) (with DC-MS5 DC power supply unit)
- Current Drain: Battery: $\leq$ 1.75 x 2 mA (DC-12V) (approx.)
- Dimensions: $\varnothing$ 47.5 x 21mm (approx.)
- Weight: 7.6 oz. (215 g.) (approx.) without battery
- Remarks: MS Stereo
- Microphone Connector: XLR-5-12C Type
- Supplied Cable: XLR-5-11C ↔ XLR-3-12C
- Cable Length: 3m
- Supply Voltage: XLR-3-11C Type
- External Power Supply: Yes (AC-148F) or equivalent
- Recommended Sony Battery: LR6 (Alkaline)
- Battery Life: 20 hrs.
- Supplied Mic. Holder: Yes
- Stand Screw/Mic. Holder Screw: PF/½" thread
- Supplied Stand Adaptor: NS ½" thread, W3/4" thread
- Mounting on A-12: Yes (Available screw PF/½" thread, U3/4" thread)
- Mounting on CRS-3P: Yes

ECM-166BC

Electret Condenser Lavalier Microphone

- Newly designed electret condenser capsule
- Uni-directional pick-up pattern
- Uses SMC-9 connector for connection to all Sony wireless systems
- Supplied wind screen and clip

Supplied Accessories:
- Wind Screen
- Microphone Holder
- Microphone Cable
- Stand Adaptor (2)
- Battery (not included in some areas)

Optional Accessories:
- DC-MS5 DC Power Supply Unit: Provides stable DC-12V to ECM-MS5 (20 hours of continuous operation with a single AA-size battery); Built-in battery indicator

Supplied Accessories:
- Wind Screen
- Microphone Holder
- Microphone Cable
- Stand Adaptor (2)
- Battery (not included in some areas)

Optional Accessories:
- DC-MS5 DC Power Supply Unit: Provides stable DC-12V to ECM-MS5 (20 hours of continuous operation with a single AA-size battery); Built-in battery indicator

Supplied Accessories:
- Wind Screen
- Microphone Holder
- Microphone Cable
- Stand Adaptor (2)
- Battery (not included in some areas)

Microphones

F-720
Uni-directional Microphones
■ For general applications ■ Efficient one-piece shock mount to protect the capsule from external noise and vibration ■ Built-in on/off switch ■ Integral double wind-screen to prevent pop/wind noise

Supplied Accessories:
Microphone Holder
Stand Adaptor (2)

Specifications

- Capsule Type: Dynamic
- Frequency Response: 50 Hz ~ 11,000 Hz
- Directivity: UNI
- Effective Output level at 1 kHz: -60.8 dBm (1 Pa. - 10 µbar)
- Sensitivity (0 dB = 1V/1 Pa. at 1 kHz): -60.0 ± 3.0 dB
- Output Impedance at 1 kHz (balanced) (11 ±20%): 300
- Induction Noise from ext. Magnetic Field (dB SPL/m gauss): ≤ 10 (0 dB = 20 µPa.)
- Wind Noise (dB SPL): ≤ 55 (0 dB = 20 µPa.)
- Dimensions: Ø37.6 x 180mm (Ø11/2” x 63/4”) (approx.)
- Weight: 9.2 oz. (260 g.) (approx.)
- Microphone Connector: XLR-3-12C Type
- Available Receptacle: XLR-3-11C Type
- Supplied Mic Holder: Yes
- Stand Screw:
- Supplied Mic Holder Screw:
- Stand Screw/Adaptor:
- Mounting on A-12 (Available Screw: PF1/4” thread, U9/16” thread): Yes
- Mounting on A-25 (Available Screw: U9/16” thread, PF1/4” thread): Yes
- Mounting on A-25N (Available Screw: N55/8” thread): Yes
- Mounting on CRS-3P: Yes

---

Microphones
Microphone Accessories

CRS-3P
Cradle Suspension
- Available screw: PF 1/4" thread
- Supplied stand screw adaptor: NS 9/16"
- Grip: Ø 19 mm to 24 mm (Ø 3/4" to 31/32")
- Weight: 5.3 oz. (150 g.)

PBR-330
Parabolic Reflector
- Dimensions (WHD): 345 x 377 x 135 mm (13 3/8" x 14 3/4" x 5 3/16")
- Weight: 1 lb. 7 oz. (650 g.)
- Supplied stand screw adaptor: NS 9/16"
Headphones

MDR-7506
Professional Headphones
- Rugged design — proven to be reliable in the toughest situations
- Folding construction — compact storage
- 40mm driver unit — for clear high quality reproduction of sound
- Closed ear design — comfort and reduction of external noise
- Stereo unimatch plug — ¼” and ⅛” applications
- Gold connectors and OFC cord — reliable and stable signal connection and transmission
- Tighter frequency response specifications — 10 Hz to 20 kHz
- Supplied soft case — protective storage
- Sony Pro Audio support — included service manual, Professional Audio procured product, and Pro service if necessary

MDR-7504
Professional Headphones
- Folding construction - compact storage
- 40mm driver unit - for clear high quality reproduction of sound
- Closed ear design - comfort and reduction of external noise
- Stereo unimatch plug - ¼” and ⅛” applications
- Gold connectors and OFC cord - reliable and stable signal connection and transmission
- Tighter frequency response specifications - 15 Hz to 18 kHz
- Supplied soft case - protective storage
- Sony Pro Audio support - included service manual, Professional Audio procured product, and Pro service if necessary

Video Recorders

EVT-801
Monochrome 8mm Time Lapse Video Recorder

- The adoption of the worldwide 8mm format standard has allowed the design of the smallest time lapse recorder ever made. Sony's advanced 8mm VCR technology provides outstanding overall picture quality: More than 380 TV lines of horizontal resolution; More than 45 dB of signal-to-noise ratio. Three kinds of still picture are available: 6-bit digital memory allows a choice of noiseless odd-field or even-field, plus a superclear noiseless frame still picture. Search function provides noiseless pictures at up to nine times normal speed in forward and up to seven times in reverse. Digital memory eliminates problems with head-clogging. Recording time for a single P6-90 cassette is selectable as shown below:

<table>
<thead>
<tr>
<th>TIME MODE (hr.) INTERVAL(sec.)</th>

</table>

- Automatic alarm recording capability (12 hr. time mode)
- Automatic repeat recording capability.
- Built-in time and data generator.
- Power-failure protection for 72 hours.
- Tapes recorded on the EVT-801 can be played back on any 8mm VCR.

Supplied Accessories:
Cleaning Cassette

Optional Accessories:
P6-15/30/60/90/90MP 8mm video cassette

Specifications

- Video Recording System: Rotary, 2-head, helical-scan FM recording
- Video Signal System: EIA standard
- Horizontal Resolution: > 380 TV lines
- Signal-to-Noise Ratio: > 45 dB
- Freeze Picture: Selectable: frame, odd-field, even-field
- Recording Time: 12/24/48/96/192/384 hrs. with P6-90 tapes
- Video IN/OUT: BNC, 1.0Vp-p, 75Ω unbalanced
- F Forward/Rewind Time: 3 min. (with P6-90 tape) (approx.)
- Power Requirements: 120V AC, 60 Hz
- Power Consumption: 27W
- Weight: 13 lb. 14 oz. (6.3 kg.)
- Operating Temperature: 5°C to 40°C (41°F to 104°F)
- Dimensions (WHD): 355 x 86 x 340 (14" x 3½" x 13½")
EVT-820
Color 8mm Time Lapse Video Recorder

- The adoption of the worldwide 8mm format standard has allowed the design of the smallest time lapse recorder ever made.
- Sony's advanced 8mm VCR technology provides outstanding overall picture quality: More than 380 (B/W)/250 (Color) TV lines of horizontal resolution; More than 45 dB of signal-to-noise ratio.
- Three kinds of still picture are available: 6-bit digital memory allows a choice of noiseless odd-field or even-field, plus a super-clear noiseless frame still picture.
- Search function provides noiseless pictures at up to nine times normal speed in forward and up to seven times in reverse.
- Digital memory eliminates problems with head-clogging.
- Weekly Matrix Timer allows up to three blocks of recording time during a 24 hr. period to be specified.
- Recording time for a single P6-90 cassette is selectable as shown below:

<table>
<thead>
<tr>
<th>TIME MODE (hr.)</th>

- Automatic alarm recording capability (12 hr. time mode)
- Convenient alarm recall capability
- Rapid alarm search function
- Automatic repeat recording capability
- Built-in time and date generator
- Power-failure protection for 72 hr.
- Tapes recorded on the EVT-820 can be played back on any 8mm VCR.

Supplied Accessories:
- Cleaning Cassette

Optional Accessories:
- P6-15/30/60/90 min. 8mm video cassette

Specifications
- Video Recording System: Rotary, 2-head, helical-scan FM recording
- Video Signal System: NTSC/EIA standard
- Horizontal Resolution: More than 380 TV lines (B/W), More than 250 TV lines (color)
- Signal to Noise Ratio: More than 45 dB
- Freeze Picture: Selectable: frame, odd-field, even-field
- Recording Time: 12/24/48/96/192/760 hrs. with P6-90 tape
- Video IN/OUT: BNC, 1.0Vp-p, 75Ω unbalanced
- Fast Forward/Rewind Time: 3 min. (with P6-90 tape) (approx.)
- Power Requirements: 120V AC, 60 Hz
- Power Consumption: 27W
- Weight: 13 lbs. 14 oz. (6.3 kg.)
- Operating Temperature: 5°C to 40°C (41°F to 104°F)
- Dimensions (WHD): 355 x 86 x 340mm (14" x 3½" x 3½")
Video Recorders

SVT-100

VHS Time Lapse Videorecorder

- Up to 24 hour time lapse recording capability
- Audio recording capability in 2, 12 or 24 hour modes
- Over 300 lines horizontal resolution (B/W)
- Built-in time/date generator, 3 day power backup
- Alarm Scan/Alarm Log capability
- On screen indicators for operating parameters
- Repeat/Timer/Alarm recording capabilities
- Security Lock
- Tape end output

Specifications

Video Recording System: 2 head rotary helical scanning
Television System: EIA Standard, NTSC Color
Video Recording Time Modes: 2, 12, 24, with T120 VHS Videocassette
Horizontal Resolution: B/W: over 300 lines
Audio Recording Time Modes: 2, 12, 24 hour modes
Audio Signal to Noise: > 46 dB in color
Audio Input/Output: RCA-type X2, 316 mV, 100 kΩ
Microphone Input: Minijack, -60 dBm, 600Ω unbalanced
Internal Timer: 7 day, 7 event plus daily
Operating Temperature: 41°F to 104°F (5°C to 40°C)
Power Requirements: 120V AC, 60 Hz
Power Consumption: 18W
Dimensions (WHD): 420 x 100 x 340 mm
(16½" x 4" x 14¼")
Weight: 15 lb. 7 oz. (7 kg.)

Connectors

- Alarm Input: Contact closure
- Alarm Output: +5V, 4.7 kΩ
- Tape End Output: +5V, 4.7 kΩ
- Remote Control Input: Minijack
- Camera Switch Out: +5V
**SVT-5000**

**Time Lapse VHS Video Recorder**
- 12 recording modes up to 960 hours on T-120 VHS tape
- Built-in time-date generator with 15-day backup
- 350-line resolution (B/W), 250-line (color)
- Audio recording up to 24 hours
- Alarm search, scan and log features
- On-screen indicators for all operating parameters
- One Shot, Serial and Repeat recording
- Tape end alarm
- Security lock

YM-X7RVAM/YM-RVF7AM

RVTV™ Rearvision System

RVTV™ Monitor SSM-721AMR
- Large, easy-to-see 7 inch screen
- Non-glare screen to minimize reflection
- Auto-on capability in reverse gear
- Dual camera input
- Audio capability with built-in speaker

RVTV™ Camera SSC-520AM
- Hyper HAD™ sensor for extra low-light sensitivity
- Less "Booming" distortion from the sun or headlights
- Built-in auto-iris wide-angle lens, (100° horz. viewing angle)
- All-Weather aluminum diecast housing
- Built-in microphone

2 System Packages Available
- YM-X7RVAM
- YM-RVF7AM
- Both System packages include: SSM-721AMR B/W Monitor, SSC-520AM CCD Camera

Supplied Accessories:
- YM-X7RVAM: VK-318A Water Resistant, 59’ cable
- WV-700AM Monitor Sun Hood
- YM-RVF7AM: VK-120A, 66’ cable

Specifications

RVTV™ Camera (SSC-520AM)
- Pick Up Device: Interline Transfer Hyper HAD CCD
- Pic. Element (HxV): 510 x 492
- Sensing Area: 6.2mm x 4.5mm
- Lens: 3.0mm, f:4 fixed focus, Auto Iris
- Signal System: EIA standard
- Scanning System: 525 lines, 2:1 Interface
- Sync System: Internal
- Horizontal Resolution: > 380 TV lines
- Vertical Resolution: 350 lines
- Min. Illumination: 0.5 lux
- S/N Ratio: > 45 db
- Power Requirements: 12V, DC 4-Pin Multi Connector
- Power Consumption: 1.8W
- Operating Temperature: -4°F to 158°F, (-20°C to 70°C)
- Storage Temperature: -22°F to 185°F, (-30°C to 85°C)
- Viewing Angle: 100° Horizontal, 80° Vertical
- Impact: 70G
- Weight: 1.7 lbs. (650 g)

RVTV™ Monitor (SSM-721AMR)
- Video Signal System: EIA Standard
- Picture Tube: 7" B/W
- Resolution: 650 TV Lines
- Power Connector: 12V/24V
- Speaker: 1/4" x 2 1/4" (42mm x 66mm)
- Input Connector: 4-pin Multi-connector (2)
- Audio Output: Phono Mini Jack (8Ω)
- Power Requirements: DC 12V/24V
- Power Consumption: 23W Max
- Operating Temperature: 5°F to 140°F, (-15°C to 60°C)
- Storage Temperature: -13°F to 185°F, (-25°C to 85°C)
- Weight: 5 lbs. 14 oz. (2.5kg)
SPT-T200/R200

Still Picture Transmission and Telecontrol System

Sony's innovative Telepix Still Picture Transmission and Telecontrol System is a powerful security management tool which allows you to see, hear and talk to a monitored CCTV installation anytime, day or night—over a standard telephone line.

Consisting of two primary components—the SPT-T200 Transmitter and SPT-R200 Receiver—Telepix is designed to flexibly integrate with any remote CCTV installation. Perfect for small retail stores, convenience stores, and jewelry stores, Telepix adds the dimension of visual confirmation of an alarm condition to security monitoring activities.

SPT-T200

TELEPIX TRANSMITTER

- Installed at the monitored site
- Integrates with existing CCTV equipment: up to three cameras, three microphones, three alarm/sensors and one audio output to loudspeaker
- Six relay outputs for activating peripheral equipment
- Automatically dials up to three pre-programmed telephone numbers of receiver sites in sequence
- 10-second transmission time for still image from video cameras to receiver over standard analog telephone line
- Locked box design with micro-switches automatically trigger alarm if forced
- DC 12V operation (user supplied 12V DC power support)

SPT-R200

TELEPIX RECEIVER

- Compact desktop receiver with built-in 4-inch monochrome monitor installed at office, home or central station monitoring
- Hooked to a standard touchtone phone, user can activate cameras, microphones, speakers and other equipment at the monitored site via phone keypad
- On-screen displays show complete system status
- Remote output jack allows triggered operation of a video printer or Time Lapse Video Recorder
- DC 6V operation (AC Adapter supplied)

Supplied Accessories:
SPT-T200
- Instruction Manual
- Warranty Card
- Keys (2)

SPT-R200
- Connecting Cord
- AC Power Adaptor
- Instruction Manual
- Warranty Card

Specifications

SPT-T200

- Telephone Line: Standard analog
- Resolution: 160(H) x 100(V) dot
- Gradation: 64 levels
- Transmission System: Amplitude Phase Modulation (TTC Standard)
- Transmission Time: 9.7 sec.
- Carrier Frequency: 1747.82 Hz
- Line Output Level: 0-15 dBm
- Dialing: Automatic
- Answering: Automatic
- Dialing Type: Tone/10pps/20pps
- Line Interface: Modular Connector
- Camera Input: 3 Inputs, BNC connector, EIA standard interlace
- Sensor Input: 3 Inputs, Make/Break
- Alarm Output: 3 Outputs, Make/Break, DC 24V-1A
- Telecontrol Output: 6 Outputs, Make/Break, DC 24V-1A
- Video Output: 1 Output, BNC, EIA standard
- Speaker Output: 1 Output, Max 2W (8Ω)
- Mic Input: 3 Inputs, −60 dBm
- Power Requirement: DC 12V, 1.5A
- Memory Backup: Super Capacitor (1.0f/5.5V), about 1 hour
- Power Consumption: About 15W (DC 12V-1.2A)
- Dimensions (WHD): 310 x 380 x 70mm
- Weight: 10 lb. (4.5 kg.)

SPT-R200

- Telephone Line: Standard analog
- Monitor: 4" B/W Flat CRT
- Video Output: EIA standard
- Visual Resolution: 180(H) x 100(V) dot
- Transmission System: Amplitude Phase Modulation (TTC standard)
- Calendar Backup: NiCad Battery, about 3 months
- Power Requirement: DC 6V, AC: 110V, 60 Hz (AC power adaptor supplied)
- Power Consumption: DC: 9W, AC: 13W
- Dimensions (WHD): 5⅜" x 11⅜" x 7⅜" (144 x 288 x 200mm)
- Weight: About 5 lb. (2.3 kg.)
**Peripherals**

**YS-D100 Intelligent Motion Detector**

- User programmable detection zones of up to 288 blocks per page
- Two "Pages" of user defined detection areas
- On-screen settings for ease of operation
- Displays intruded areas on alarm
- Five modes of detection; page 1, page 2 and 3 combinations using page 1 and page 2 memory
- Adjustable sense levels, alarm duration and sense interval
- Provides audible and visual indications on alarm
- Built-in RS232C and RS-485 communication ports

**Supplied Accessories:**
- Rack Mounting Bracket

**Specifications**

- **Video Input:** BNC type, 1Vp-p, 75Ω, unbalanced, sync negative NTSC Standard
- **REV (recovery) In:** M3 screw type, DC 2-5V, impedance less than 1 kΩ
- **Video Out:** BNC type, 1Vp-p, 75Ω, unbalanced, sync negative
- **Alarm Out:** M3 screw type, open collector, 5V DC/100 mA, resistive load
- **Communication Interface:** RS-232 and RS-485
- **Sense Interval Time:** 0, 3, 5, 15, 30 s, 1, 2, 4 min (adjustable)
- **Alarm Duration:** 5, 10, 20, 30 s, 1, 3, 5 min and external (adjustable)
- **Sensing Area:** 2 pages, each 288 blocks 24H x 12V
- **Operating Temp.:** 32°F to 104°F (0°C to 40°C)
- **Storage Temp.:** −4°F to 140°F (−20°C to 60°C)
- **Relative Humidity:** 30%-80%
- **Power Requirements:** 120V AC, 60 Hz
- **Power Consumption:** 80 mA
- **Weight:** 8.4 lbs. (3.8 kg.)
- **Dimensions (WHD):** 16¾" x 1¾" x 14" (424 x 44 x 355mm)
**YS-S6**

**Vertical Interval Sequential Switcher**

- Allows pictures from up to six cameras to be displayed sequentially.
- Six video inputs with loop through, and one switched output.
- Sequential and spot monitor modes.
- Variable dwell time.
- DC operation. AC adaptor included.

**Supplied Accessories:**
- AC Adaptor
- Operation Manual

**Specifications**

**General**

**Inputs**

| Video Input 1 to 6                  | BNC type, 1.0Vp-p, 75Ω, unbalanced, sync negative |
| DC In                               | DC jack type, DC 9V NOMINAL (DC 7V-15V is allowed) |

**Outputs**

| Video Output 1 to 6                 | BNC type, loop-through output of VIDEO INPUT, 75Ω termination ON/OFF switchable |
| Select Video Out                    | BNC type, 1.0Vp-p, 75Ω, unbalanced, sync negative |
YS-S100

Intelligent Sequential Switcher

- Eight video camera inputs and one external input
- A Sequential Monitor OUTPUT allows sequential monitoring of up to eight cameras
- Dwell time (displayed time) can be set for each video camera at eight different times: 1, 2, 3, 5, 10, 20, 30, 60 sec.
- A Spot Monitor OUTPUT gives manual selection of a specific camera
- Built-In Date/Time/Character Generator for video camera identification
- Eight ALARM INPUTS, each corresponding to a CAMERA INPUT, for automatic display of the picture at the relevant location
- Alarm time can be set in 7 steps: 5, 10, 20, 30 sec. 1, 2, 5 min.
- Alarm memory recall provides an on-screen display of up to 108 alarm events including camera number, date and time information
- Cascading up to four YS-S100's via an RS-485 communication port is possible for monitoring pictures from up to 32 cameras
- External control up to 255 YS-S100's from a central computer is possible via RS-485 communication port

Supplied Accessories:
EIA Standard Rack Mounting Bracket

Optional Accessories:
D-Sub Connector for RS-232C

Specifications

General
- Power Requirements: AC-120V, 60 Hz
- Power Consumption: 110 mA
- Operating Temperature: 0°C to 40°C (32°F to 104°F)
- Storage Temperature: -20°C to 60°C (-4°F to 140°F)
- Weight: Approx. 9 lb. 1 oz. (4.1 kg.)

Input Signals
- CAMERA INPUT 1 to 8: BNC type, NTSC color, 1.0Vp-p, 75Ω, unbalanced, sync negative
- EXT (External) IN: BNC type, NTSC color, 1.0Vp-p, 75Ω, unbalanced, sync negative
- ALARM INPUT 1 to 8: M3 screw type, alarm activated when connected to COM (Connection resistance < 600Ω)
- Maximum DC voltage on input, 5V
- REV (Recovery) IN: M3 screw type, DC-5V, impedance 2.2 kΩ
- EXT (External) TIMING IN: BNC type, Open circuit voltage DC-5V, impedance 5.6 kΩ

Output Signals
- SPOT MON (Monitor) OUTPUT: BNC type, impedance 75Ω
- SEQ MON (Sequential Monitor OUTPUT): BNC type, impedance 75Ω
- ALARM OUT: M3 screw type, open collector output, contact rating DC-5V/100 mA resistive load
- RESET OUT: M3 screw type, DC-4V, impedance 1 kΩ
- EXT (External) TIMING OUT: BNC connector, open collector output, contact rating DC-5V/100 mA resistive load

Others
- Interface Unit: RS-485 and RS-232C
- Dimensions (WxD): 424 x 44 x 355 mm (16¾" x 1¾" x 14")
**SSM-8000**

8-inch Color Monitor

- 8-inch Microblack Trinitron picture tube
- Excellent picture quality with more than 250 TV lines horizontal resolution
- Loop-through video input, with switchable 75Ω termination
- 19-inch EIA standard rack mountable for dual monitor configuration
- Front controls: Power, V-hold, Sharp, Hue, Color, Bright, Picture
- High immunity to external electrical and magnetic interference
- Suitable for many monitoring applications

Optional Accessories:
- MXB-504 Rack Mount for two SSM-8000 Monitors in a 19” Rack
- DCC-16AW Car Battery Adaptor

**Specifications**

- Video Signal System: EIA standard, NTSC color
- Picture Tube: 8” Microblack Trinitron measured diagonally 70° deflection
- Video Input: Composite 1Vp-p ±6 dB, 75Ω, sync negative
- Video Input Impedance: High impedance for loop-through, 75Ω terminated
- Video Output: Composite 1Vp-p ±6 dB, Sync negative
- Horizontal Resolution: 250 TV lines
- Power Requirements: 120V AC, 60 Hz, 12V DC
- Power Consumption: 36W
- Operating Temperature: -10°C to 40°C (14°F to 104°F)
- Storage Temperature: -10°C to 65°C (14°F to 149°F)
- Weight: 13 lbs. (5.9 kg.) (approx.)
- Dimensions (WHD): 216 x 312 x 216mm, (8¾” x 12¾” x 8¾”)

---

**PVM-8040**

8-inch Portable Color Video Monitor

- Beam current feedback for stable color reproduction over a long period of time
- Heavy duty construction with metal cabinet to minimize electromagnetic interference between adjacent monitors
- Built-in speaker
- 19-inch EIA standard rack mountable

Optional Accessories:
- MB-504 rack mount for two PVM8040 monitors in a 19” rack
- MB-507 for two monitors, MB-509 blank panel for mounting one PVM-8040
- MAMB-507

**Specifications**

- Video Signal System: EIA Standard, NTSC Color
- Picture Tube: 8” Trinitron® measured diagonally, 70° deflection
- Video Input: BNC type, 1Vp-p ±6 dB composite 75Ω, sync negative
- Video Output: BNC-type, 1Vp-p ±6 dB composite, sync negative
- Horizontal Resolution: > 250 lines
- Power Requirements: AC-120V 60 Hz
- Power Consumption: AC-40W
- Operating Temperature: -10°C to 40°C (14°F to 104°F)
- Storage Temperature: -10°C to 65°C (14°F to 149°F)
- Dimensions (WHD): 216 x 217 x 351mm (8½” x 8½” x 13½”)
- Rack Mount: Optional MB-507 for two monitors, MB-509 blank panel for mounting one PVM-8040
- Weight: 16 lbs. 8 oz. (7.5 kg.)
Color Monitors

PVM-1340

Color Monitor for General Use

- Beam current feedback circuit for stable color reproduction
- 6500K/9300K color temperature selection switch
- Comb filter for NTSC
- Dynamic picture for high contrast picture reproduction
- Accepts an RGB video signal
- Blue only mode
- Mountable into a 19-inch EIA standard rack with optional MB-502A and SLR-102

Optional Accessories:
- VMC Monitor Connecting Cable
- MB-502A Mounting Bracket
- SLR-102 Slide Rail Kits

- VTR: -5 dBs, high impedance (8-pin)
- Y/C: -5 dBs, high impedance (Phono)

Audio Out

- Line A: Loop-through (Phono)
- Line B: Loop-through (Phono)

*1. The Y/C input has priority over the VTR input.
*2. 75Ω termination is automatically set to OFF when connection is made to the OUT connector.
PVM-1344Q

Super Fine Pitch, SMPTE C Phosphors, for Studio Use

- High resolution of 600 TV lines at center
- Adoption of SMPTE C phosphors for monitor matching
- Beam current feedback circuit for stable color reproduction
- Accepts three TV system standards: NTSC and modified 4.43 MHz NTSC; PAL; SECAM
- Component (Y/R-Y/B-Y) or RGB input facility
- 6500K/9300K color temperature selection switch
- Comb filter for NTSC
- H/V delay and Normal scan/Underscan selection
- Blue only mode
- User preset function
- Accepts an external sync and sync on Green
- Built-in speaker for Audio monitoring
- Two composite line inputs and one S-video input
- Mountable into a 19-inch EIA standard rack with optional MB-502A and SLR-102

Optional Accessories:
- Monitor Connecting VMC Cable
- MB-502A Mounting Bracket
- SLR-102 Slide Rail Kit

Specifications

- Video Signals: EIA 525 lines, 60 fields/CCIR 625 lines, 50 fields (switching of EIA to CCIR or vice versa is automatically done)
- Color System: NTSC/PAL/SECAM/NTSC443.1 (automatically selected)
- Picture Tube: 36.8 cm (14”), Super Fine Pitch Trinitron tube, visible picture size 33.7 cm (13”) measured diagonally, 90° deflection
- SMPTE C phosphors
- Horizontal Resolution: 600 TV lines at center (Video Inputs)
- Audio Power Output: 0.6W with built-in speaker
- Power Requirements: AC-120V, 50/60 Hz
- Power Consumption: 99W max
- Dimensions (WHD): 346 x 340 x 412mm (135/4” x 131/2” x 161/4”)
- Weight: 36 lb. 6 oz. (16.5 kg.) (approx.)

VIDEO IN

LINE A: BNC: Non-composite 0.7Vp-p, Composite 1Vp-p, sync negative, Automatic 75Ω termination
LINE B: BNC: Non-composite 0.7Vp-p, Composite 1Vp-p, sync negative, Automatic 75Ω termination
VTR: 8-pin: Composite 1Vp-p, sync negative, 75Ω
Y/C: Mini, DIN, 4-pin:
Y (Luminance signal): 1Vp-p, Sync negative, 75Ω
C (Chrominance signal):
NTSC: 0.286Vp-p, 75Ω
PAL: 0.3Vp-p, 75Ω

COMPONENT:
(BNC) R-Y/B-Y: 0.7Vp-p, Automatic 75Ω termination
(BNC) Y: Sync on Green: Composite 1Vp-p, sync negative, Automatic 75Ω termination

VIDEO OUT

LINE A: BNC: Loop-through
LINE B: BNC: Loop-through
COMPONENT: BNC: Loop-through
RGB: BNC: Loop-through
SYNC IN
BNC: 4Vp-p, negative Automatic 75Ω termination
SYNC OUT
BNC: Loop-through

AUDIO IN

LINE A: Phono: -5 dBs, high impedance
LINE B: Phono: -5 dBs, high impedance
VTR: 8-pin: -5 dBs, high impedance
Y/C: Phono: -5 dBs, high impedance
COMPONENT: Phono: -5 dBs, high impedance
RGB: Phono: -5 dBs, high impedance

AUDIO OUT

LINE A: Phono: Loop-through
LINE B: Phono: Loop-through

1 The NTSC443 system refers to an NTSC color system in which the subcarrier frequency is modified to 4.43 MHz.
2 The Y/C input has priority over the VTR input.
3 RGB/Component is switch selectable.
4 75Ω termination is automatically set to OFF when connection is made to the OUT connector.
Color Monitors

PVM-1380
Color Video Monitor

- Exclusive Sony Trinitron one-gun/one lens system for superior picture quality
- Two-line selectable audio/video inputs/outputs
- Loop-through with switchable 75Ω termination
- Built-in speaker for audio monitoring

Optional Accessories:
VMC Monitor Connecting Cable
(8-pin (male)/8-pin (male))

Specifications

- Video Signals: EIA 525 lines, 60 fields
- Color System: NTSC
- Picture Tube: Trinitron 36.8 cm (14"), visible picture size 33.7 cm (13") measured diagonally, 100° deflection
- Horizontal Resolution: 250 TV lines at center
- Audio Power Output: 1.0W with built-in speaker
- Power Requirements: AC-120V, 50/60 Hz
- Power Consumption: 80W
- Dimension (WHD): 366 x 355.5 x 408.5mm
  (14 1/2" x 14 1/8" x 16 1/4")
- Weight: 25 lb. 6 oz. (11.5 kg.)

Video In
- Line A: Composite: 1.0Vp-p, sync negative, 75Ω and high impedance switchable (BNC)
- Line B: Composite: 1.0Vp-p, sync negative, 75Ω and high impedance switchable (BNC)
- 8-Pin: VTR: Composite: 1.0Vp-p, sync negative, 75Ω

Video Out:
- Line A: Loop-through (BNC)
- Line B: Loop-through (BNC)

Audio In
- Line A: -5 dBs, high impedance (Phono)
- Line B: -5 dBs, high impedance (Phono)
- (8-pin): VTR: -5 dBs, high impedance

Audio Out:
- Line A: Loop-through (Phono)
- Line B: Loop-through (Phono)

* VTR or S VIDEO can be selected via the selection switch.
PVM-2030/2530
20"/25" Color Video Monitor

- Fine Pitch Trinitron® cubic monitors
- High resolution: 560 TV lines
- Touch sensitive panel controls
- Two composite video inputs and one S-Video input plus CGA capability
- Stereo audio inputs
- Optional external speakers: APM-X5A or SS-X6A can be attached to monitor
- Built-in manual degaussing
- Supplied with RM-739 wireless remote control

Supplied Accessories:
RM-739 Remote Control Unit
Operation Manual

Optional Accessories:
APM-X5A Speakers
SS-X6A Speakers
SU-538, Tilt Swivel
SU-538, Tilt Swivel

Specifications

Video Signal: EIA 525 lines, 60 fields
Color System: NTSC
Picture Tube: 20"/25" Microblack Trinitron® measured diagonally
Horizontal Resolution: 560 TV lines
Color Temperature: 9300°K
Video Inputs:
- Line A/B: Composite 1Vpp sync negative, loop through with 75Ω switchable
- S-Video (Y/C) Mini DIN 4 connector
- Y (Luminance): 1Vpp, sync negative, 75Ω
- C (Chrominance): 0.286Vpp, 75Ω
- VTR (8 pin): Composite 1Vpp sync negative, 75Ω termination *VTR or S-Video selected via rear switch
- Audio Inputs:
  - Phone (RCA) connectors, stereo for Video A/B, loop through — 5 dBs, high impedance VTR (8 pin) — 5 dBs, high impedance
- Speaker Out: 7W max, 8 Ω/15W max, 8Ω
- Operating Temperature: 32°F to 104°F (0°C to 40°C)
- Power Requirements: AC 120V, 50/60 Hz
- Power Consumption: 150W max/180W max
- Dimensions (WHD): 516 x 409 x 481 mm (20¾" x 16½" x 19")
  653 x 508 x 491 mm (25½" x 20" x 19½")
- Weight: 67 lb. 4 oz. (30.5 kg.)
  116 lb. 14 oz. (53 kg.)
Color Monitors

CKV-20/27EXR

20" /27" Microblack™ Trinitron® Color Monitor/Receiver

- Better than 450 lines of horizontal resolution on CKV-20EXR, 500 lines on CKV-27EXR ■ Two BNC (Video inputs video 1 has S-Video capability) ■ Two stereo audio outputs (variable) ■ Built-in stereo speakers ■ Stereo external speaker connectors (5Wx2) ■ Built-in TV tuner ■ Remote control supplied (RM-771)

Supplied Accessories:
RM-771 Remote Control Unit
AA Battery (2)
Operation Manual

Specifications

- Video Signal: EIA 525 lines, 60 fields
- Color System: NTSC
- TV System: American TV standard
- Channel Coverage: VLF: 2 to 6 ch, VHF 7 to 13
  UHF: 14 to 69 ch
  CATV: 1 to 125 ch
- Picture Tube: 20" Microblack Trinitron measured diagonally
  27" Microblack Trinitron measured diagonally
- Horizontal Resolution: 450 TV lines/500 TV lines
- White Balance: Trinitone: Low, bright picture: 8000°K
  High, bright picture: 9000°K
- Video Inputs: Video 1 (composite or S video)
  S Video (Y/C) Mini DIN 4 connector
  Y (Luminance): 1 Vpp, sync negative, 75Ω
  C (Chrominance): 0.286 Vpp, 75Ω
  Composite Video: 1.0 Vpp, sync negative, 75Ω BNC connector
- Audio Inputs: Phono (RCA) connector stereo type for Video 1/2
  500mVrms, impedance 47Ω
- Audio Outputs: Variable over 408mVrms at max volume, impedance 5kΩ
  Phono (RCA) connector x2
- Speaker Out: 5W (x2)
- Power Requirement: AC 120V, 60 Hz
- Power Consumption: 130W max.
  (1.5W standby)
  160W max (1.5W standby)
- Weight: 55 lbs. 2 oz. (25 kg.)
  106 lbs. 1 oz. (49 kg.)
FDM-030

Hand-Held Flat-Display Monitor

- Hand-held video and audio monitor
- 2.7" flat monochrome display
- EIA/CCIR compatible by digital auto vertical lock
- Compact, lightweight and easily portable
- Operates on 4 AA batteries (included)
- BNC video input, mini jack audio input, external DC input
- Carrying Case with Hood, AC power adaptor, Earphone supplied

Supplied Accessories:
- AM3 Sony Alkaline Battery (N) (4)
- Earphone
- Handstrap (with the stand)
- Carrying Case

Optional Accessories:
- AC-D4M AC Power Adaptor
- AD-D4L AC Power Adaptor
- DCC-127A Car Battery Cord
- BP-310 Rechargeable Battery
- BC-310K Rechargeable Battery Kit
- EBP-6 External Battery Case

Specifications

Video Tube
- Screen Size: 2.7" (6.86 cm) measured diagonally
- Picture Tube: Flat display tube
- Horizontal Resolution: > 320 lines at center

Electrical
- Audio Input Signal: -10 dBs (0 dBs = 0.775 Vrms)
- Audio Input Impedance: 47 kΩ
- Video Input Signal: Composite 1.0Vp-p
- Video Input Impedance: 75Ω
- Scanning System: Automatic switching system by detecting the input signal, with EIA priority. EIA, 525 lines, 30 frames/sec., CCIR, 625 lines, 25 frames/sec.
- Scanning Method: Interlace and non-interlace
- Horizontal Frequency Range: 15.234-16.234 kHz
- Vertical Frequency Range: EIA 60 Hz, CCIR 50/60 Hz, H-frequency countdown vertical auto locked IC
- Input Power: 6V DC
- Power Consumption: 2.3W (6V DC)

Control and Connectors
- Control: Power ON/OFF 2-position slide switch
- Connectors: Video input: BNC type jack, imp. 75Ω
- Audio input: Minijack, imp. 47 kΩ
- Power: Miniature DC jack

Mechanical
- Dimensions (WHD): 76.2 x 154.6 x 48.4 mm (approx.)
  (3" x 61/8" x 1 15/32")
- Weights: 14½ oz. (400 g.) (approx.)
  including projecting parts and controls

Environmental
- Operating Temperature: -0°C to 40°C (32°F to 104°F)
- Storage Temperature: -20°C to 55°C (-4°F to 131°F)
- Humidity: 10% to 80%, noncondensing condition
B/W Monitors

FDM-402A

4" Flat-Display Monochrome Monitor

- Unique flat-display design for high space efficiency
- A/V Uniconnector output for VCR recording or multiple monitor applications
- Quadaxial (4-pin) cable camera connection for power, audio, video and ground
- Built-in 1.5" speaker
- Use with any video camera
- Quick BNC interface with optional VK-30D cable

Optional Accessories:
- IRS-10/AP-12 Infrared Sensor/Receiver
- AP-110 (AP-10/AP-11) Switcher/Remote Control Kit
- ECS-402 Sequential Switcher
- VCM-140 Quadaxial Adaptor Plug, A/V Uniconnector to 4-pin female
- VMC-512MS A/V Uniconnector to video (RCA phono type) and audio (RCA phono type) Connecting Cable with mini-plug adaptor
- VK-120 Quadaxial 66 ft. (20m) Camera Cable, 4-pin male to male connector
- VK-110 Quadaxial 33 ft. (10m) Camera Extension Cable, 4-pin male to female connector
- VK-30D Quadaxial to BNC 12" (0.3m) Connecting Cable, 4-pin male to BNC female connector
- VT-DC2 Switcher/Tuner
- DCC-40A Car Battery Adaptor Cord
- AC-40A AC Power Adaptor

Specifications

- TV System: EIA standards
- Picture Tube: Flat black-and-white
- 4-inch (10cm) picture measured diagonally
- Speaker: Approx. 1.5" (3.6 cm) dia.
- Audio Output: 0.05W (7.2Ω)
- Input: 4-pin Quadaxial connector, 6V DC (output), Video Input: 1.0Vp-p, 75Ω, sync negative, Ground, Audio Input: −5 dBs (436 mVrms) > 30 kΩ
- Outputs: AV OUT (AV uniconnector)
  - Video output: 1.0Vp-p, 75Ω, sync negative
  - Audio output: −5 dBs (436 mVrms), less than 10 kΩ Earphone jack (minijack)
- Power Requirements: 6V DC:
  - DC IN 6V jack accepts: Optional AC-40A power adaptor for use on 120V AC, 50 Hz or optional DCC-40A car battery cord for use on 12V
- Power Consumption: Approx. 3.9W
- Dimensions (WxHxD): 110 x 210 x 46mm
  - 4 3/4" x 8 1/2" x 1 3/4" (")
- Weight: 1 lb. 9 oz. (720 g.)
SSM-930

Black and White Monitor

- EIA standard
- 9-inch diagonal CRT size
- Excellent picture quality with more than 750 TV lines horizontal resolution
- Loop-through video input with switchable 75Ω termination
- DC clamp switch provides a stable reference for black level
- 19-inch EIA standard rack mountable for dual monitor configuration using optional MB-930
- 5 rack units high
- Front controls: power, H-hold, V-hold, contrast and brightness

Specifications

- Video Signal System: EIA standard
- Picture Tube: 9" B/W measured diagonally, 90° deflection
- Video Input: High impedance for loop-through; 75Ω terminated
  - Composite: 0.5Vpp–2.0Vpp, sync negative, BNC-type
- Video Output: Impedance > 10 kΩ
  - Composite: 0.5Vpp–2.0Vpp, sync negative, BNC-type
- Horizontal Resolution: > 750 TV lines (at center)
- Power Requirements: AC 120V, 60 Hz
- Power Consumption: 27W
- Operating Temperature: 0°C to 40°C (32°F to 104°F)
- Storage Temperature: −10°C to 65°C (14°F to 149°F)
- Weight: 19 lb. (5.8 kg.)

SSM-121

12-inch Monochrome Monitor

- EIA standard
- 12-inch CRT size
- Excellent picture quality with more than 750 TV lines horizontal resolution
- Dual loop-through video inputs, with switchable 75Ω termination
- Front controls: Power, INPUT select, H-hold, V-hold, Contrast and brightness
- High immunity to external electrical and magnetic interference
- Suitable for many monitoring applications

Specifications

- Video Signal System: EIA standard
- Picture Tube: 12-inch B/W measured diagonally, 90° deflection
- Video Input: Impedance 75Ω/high switchable
  - Level 0.5 to 2.0Vp-p/75Ω, sync negative, BNC-type (x 2)
- Video Output: Impedance > 10 kΩ, loop-through, BNC-type (x 2)
- Horizontal Resolution: > 750 TV lines (at center)
- Power Requirements: AC -120V, 60 Hz
- Power Consumption: 30W
- Operating Temperature: −10°C to 40°C (14°F to 104°F)
- Storage Temperature: −10°C to 65°C (14°F to 149°F)
- Weight: 20 lb. 5 oz. (9.2 kg.)
- Dimensions (WHD): 296 x 303 x 296mm (11¾" x 12" x 11¾")
B/W Cameras

SPT-M104
Monochrome Video Camera

- 1/3" CCD imager (510H x 492V picture elements)
- Hyper HAD™ (Hole Accumulated Diode) sensor technology
- High sensitivity (0.3 lux at f/1.3)
- Built-in electronic CCD IRIS™ function allows use of inexpensive manual iris lenses
- Accepts C-mount and CS-mount lenses
- AC Line Lock synchronization
- Ultra-compact design: 4 1/2" length, 10 oz. weight

Supplied Accessories:
- Lens Mount Cap

Specifications

Image Pickup Device: Hyper HAD™ Interline Transfer CCD
Picture Elements (HxV): 510 x 492
Sensing Area (HxV): 4.4mm x 3.3mm
Lens Mount: C/CS-mount (back focus adjustable)
Signal System: EIA standard
Scanning System: 525 lines, 2:1 interlace
Synchronization: AC line lock (V-phase adjustable)
Horizontal Resolution: 380 TV lines
Minimum Illumination*: 0.3 lux at f/1.3 (AGC on)
Video Output: 1.0Vp-p, 75f1, sync negative
Video S/N Ratio: > 46 dB (AGC on)
Automatic Controls: Electronic iris, AGC (Automatic Gain Control)
Inputs and Outputs: AC IN: 24V terminals; VIDEO OUT: 1 BNC type
Power Requirements: AC-24V ± 10%
Power Consumption: 2.5W (AC-24V)
Operating Temperature: 14°F to 122°F (-10°C to 50°C)
Storage Temperature: -40°F to 140°F (-40°C to 60°C)
Humidity: 20% to 80% (operation), 20% to 95% (storage)
Dimensions (WHD): 2 3/4" x 2" x 4 1/2" (excluding projecting parts)
(53 x 50 x 108mm)
Weight: 10 oz. (270 g.)
Camera Mount: 1/4" UNC-20

*Minimum Illumination: There is no industry-standardized procedure for testing minimum illumination; specifications should only be compared with models of the same manufacturer.
Single Chip CCD Monochrome Video Camera

- Especially designed for surveillance applications
- 1/2-inch IT Hyper HAD CCD offers extremely high sensitivity with a minimum illumination of 0.3 lux (f1.2)
- Excellent signal-to-noise ratio of 48 dB
- Eight-step CCD IRIS control eliminates the need to use an automatic iris lens for indoor use
- Accepts C or CS-mount lenses
- 24 V AC line lock for external synchronization
- Compact and lightweight

Supplied Accessories:
- 4-pin Plug for Lens Cable
- Lens Mount Cap
- C-Mount Adaptor
- Operating Instruction Manual

Optional Accessories:
- VCL-S03XM (3.6mm, f1.6) Manual Iris Lens
- VCL-S06XM (6.0mm, f1.2) Manual Iris Lens
- VCL-S12XM (12mm, f1.2) Manual Iris Lens

Specifications

Image Device: 1/2" Interline Transfer CCD (x 1)
Picture Elements (HV): 510 x 492
Sensing Area: 6.3 x 4.7mm (1/4" x 3/5")
Signal System: EIA standard
Scanning System: 525 lines, 2:1 interlace
Synchronization: Internal or AC line lock
Horizontal Resolution: 380 TV lines
Lens Mount: C (supplied C-mount adaptor is required) or CS mount
Minimum Illumination: 0.3 lux at f1.2 (AGC on)
Automatic Gain Control: ON
Electronic Shutter Speed: Not applicable
CCD IRIS Control: 8 steps, Initial setting (OFF)
Phase Control: V-phase control
Signal-to-Noise Ratio: 48 dB (AGC off)
Video Out: 1.0Vp-p, 75Ω, sync negative
Operating Temperature: -10°C to 50°C (-14°F to 122°F)
Storage Temperature: -40°C to 60°C (-40°F to 140°F)
Power Requirements: AC-24V ± 10%, 60 Hz
Power Consumption: 4.5W
Weight: 1 lb. 12 oz. (800 g.)
Connectors: AC-24V terminals, LENo (4-pin), GND, VIDEO OUT (BNC)
Dimensions (WHD): 64 x 54 x 160mm
(25/8" x 21/4" x 63/8")
SSC-M256
Single Chip CCD Monochrome Video Camera

- Especially designed for surveillance applications
- 1/2-inch IT Hyper HAD CCD offers extremely high sensitivity with a minimum illumination of 0.3 lux (f1.2)
- Excellent signal-to-noise ratio of 48 dB 
- Eight-step CCD IRIS control eliminates the need to use an automatic iris lens for indoor use 
- Accepts C or CS-mount lenses
- 120V AC line lock for external synchronization
- Compact and lightweight

Supplied Accessories:
- 4-pin Plug for Lens Cable
- Lens Mount Cap
- C-Mount Adaptor
- Operating Instruction Manual

Optional Accessories:
- VCL-S03XM (3.6mm, f1.6) Manual Iris Lens
- VCL-S06XM (6.0mm, f1.2) Manual Iris Lens
- VCL-S12XM (12mm, f1.2) Manual Iris Lens

Specifications
- Image Device: 1/2" Interline Transfer CCD (x 1)
- Picture Elements (HV): 510 x 492
- Sensing Area: 6.3 x 4.7mm (1/4" x 3/16"")
- Signal System: EIA standard
- Scanning System: 525 lines, 2:1 interface
- Synchronization: Internal or AC line lock
- Horizontal Resolution: 380 TV lines
- Lens Mount: C (supplied C-mount adaptor is required) or CS mount
- Minimum Illumination: 0.3 lux at f1.2 (AGC on)
- Automatic Gain Control: ON
- Electronic Shutter Speed: Not applicable
- CCD IRIS Control: 8 steps, Initial setting (OFF)
- Phase Control: V-phase control
- Signal-to-Noise Ratio: 48 dB (AGC off)
- Video Out: 1.0Vp-p, 75Ω, sync negative
- Operating Temperature: -10°C to 50°C (14°F to 122°F)
- Storage Temperature: -40°C to 60°C (40°F to 140°F)
- Power Requirements: AC-120V, 60 Hz
- Power Consumption: 4.5W
- Weight: 2 lb. 3 oz. (990 g.)
- Connectors: LENS (4-pin), VIDEO OUT (BNC)
- Dimensions (WHD): 64 x 54 x 160mm (2 1/4" x 2 1/4" x 6 1/4")
SSC-M350

Single Chip CCD Monochrome Video Camera

- Especially designed for surveillance applications
- 1/2-inch IT Hyper HAD CCD offers extremely high sensitivity with a minimum illumination of 0.3 lux (f1.2)
- Excellent signal-to-noise ratio of 48 dB
- CCD IRIS control eliminates the need to use an automatic iris lens
- Variable speed electronic shutter
- Accepts C-mount lenses
- Compact and lightweight
- External synchronization with VS
- Single cable operation (video/sync/power triple multiplex transmission) for easy installation with the optional YS-W130/W230 Camera Adaptor (Mode A)
- Monitor out function for on-the-spot camera positioning (Mode A)
- 12V DC power supply can also be used (Mode B)

Supplied Accessories:
- 4-Pin Plug for lens cable
- Lens Mount Cap
- Operating Instruction Manual

Optional Accessories:
- YS-W130 Camera Adaptor
- VCL-S03XM (3.6mm, f1.6) Manual Iris Lens
- VCL-S06XM (6.0mm, f1.2) Manual Iris Lens
- VCL-S12XM (12mm, f1.2) Manual Iris Lens

- Operating Temperature: -10°C to 50°C (14°F to 122°F)
- Storage Temperature: -40°C to 60°C (-40°F to 140°F)
- Power Requirements: AC-24V ± 10%, 60 Hz
- Power Consumption: 3.9W
- Weight: 1 lb 7 oz. (680 g.)
- Connectors: AC-24V terminals, LENS (4-pin), GND, VIDEO OUT (BNC)
- Dimensions (WHD): 84 x 57 x 164.9mm (25/8" x 21/4" x 61/2")
HVM-352

B & W Video Camera

• 1/2" Hyper HAD™ (Hole Accumulated Diode) sensor technology
• 250,000 effective picture elements
• Built-in auto iris lens (11mm f1.8)
• Built-in electric condenser microphone
• High sensitivity (0.7 lux f1.8)
• Easy installation using a single 4-pin quadraxial cable
• Optional wide angle lens adaptors available

Supplied Accessories:
Operating Manual

Optional Accessories:
FDM-402A 4 Inch Flat Display Monitor
• Unique flat-display design for high space efficiency
• 4-pin Multi-cable connection with the HVM-352 for power, audio and video
• Built-in 1.5 inch speaker
• A/V uniconnector output for VCR recording via optional VMC-612MS cable

Specifications

Power requirements: DC 6V (Supplied from the optional Power Adaptor)
Power consumption: 3.3W
Weight: 2 lb. (720g)
Dimensions (WHD): 110 x 210 x 48mm
(43/8" x 83/8" x 1 3/4")
(AC Power Adaptor DC 6V for FDM-402A)
ECS-402 4-Channel Camera Switcher
VCL-04HS Wide Angle Lens (f1.85, f = 3.8mm, 110°)
VCL-06HS Wide Angle Lens (f1.84, f = 5.5mm, 70°)
VCL-08PH Pinhole Lens (f1.81, f = 5.5mm, 70°)
VK-110 Extension Cable (10m 4-pin multi, female ↔ male)
VK-110A/120A Connecting Cable (10/20m 4-pin multi, male ↔ male)
VK-220/5 Water-resistant Extension Cable (20/5m 4-pin multi, male ↔ female)
VK30C Adaptor Cable (30cm 4-pin multi/female ↔ male BNC)
VK30D Adaptor Cable (30cm 4-pin multi/male ↔ female BNC)
WPC-140 Water-resistant Camera Housing (to be used with a VK-220/5 cable)

Specifications

Image Device:

Interline Transfer: CCD

Picture Elements (HxV): 510 x 492

Sensing Area: 6.4mm x 4.8mm

Signal System: EIA standard

Scanning System: 525 lines, 2:1 interlace

Synchronization: Internal

Horizontal Resolution: 380 TV lines

Built-in Lens: f = 11mm, f1.8, auto iris lens

Lens Mount: Mini bayonet mount (back focus adjustable)

Minimum Illumination: 0.7 1x at f1.8

Illumination Range: 0.7 to 100,000 lx

Power Requirements: DC 6V to 12V ±10%

Power Consumption: 0-2A (1.2W to 2.4W)

Operating Temperature: -10°C to 50°C

(14°F to 122°F)

Weight: 7.8 oz. (220 g)

Connectors: 4-pin multi-connector

1. DC input
2. Video Output: 1.0Vp-p, 75Ω sync negative
3. Ground
4. Audio Output: -5 dBs (436 mVrms),< 10 kΩ, unbalanced
5. 0 dBs = 0.775 Vrms
SSC-520AM/S
Outdoor B/W CCD Video Camera

- 1/2" CCD imager (510H x 492V picture elements)
- Discreet, compact size (3¾" W x 2½" H x 2½/16" D)
- Shock and weather resistant diecast aluminum environmental housing
- Wide operating temperature (−4°F to 158°F)
- Built-in 3mm f1.4 wide angle auto-iris lens
- High sensitivity
- Built-in weather resistant microphone
- Single cable 4-pin female connector carries video, audio, power and ground (1.5m)
- Supplied with breakout box (converts Sony 4-pin to BNC video, RCA audio and DC 12V input jack)
- Extra bracket supplied with wide adjustment angle

Supplied Accessories:
Mounting Brackets (2)
Breakout Box
Allen Wrench
Instruction Manual

Optional Accessories:
AC-D468 AC Adaptor with 6/9/12-volt selectable DC output
VK-025A 8-ft. Cable with male-male 4-pin connectors
VK110A 33-ft. Cable with male-male 4-pin connectors
VK120A 66-ft. Cable with male-male 4-pin connectors
VK-1PG 12-inch Pigtail Cable with male 4-pin connector

Specifications

| Image Device: | 1/2" Interline Transfer CCD |
| Sensing Area: | 6.2 x 4.5mm |
| Lens: | 3.0mm f1.4, fixed focus, auto-iris |
| Viewing Angle: | 100° Horizontal, 80° Vertical |
| Signal System: | EIA |
| Scanning System: | 525 lines, 2:1 interlace |
| Synchronization: | Internal |
| Horizontal Resolution: | 380 lines |
| Vertical Resolution: | 350 lines |
| Minimum Illumination: | 5 lux |
| Signal-to-Noise Ratio: | 45 dB |

**UP-860**

**Monochrome Video Graphic Printer**

- Thermal video graphic printer with 256 steps of gradation
- Small size and lightweight
- Fast printing speed of less than four seconds
- High resolution printing of 896 x 508 dots (in Wide 2 scan mode)
- Wide scanning function (Normal/Wide 1/Wide 2 selectable)
- Multiple copy function
- Economy print mode offers maximum 270 prints from one paper roll (230 prints in normal print mode)
- Frame/Field memory selectable
- 4:3/1:1 aspect ratio selectable
- Positive/negative printing
- Normal/reverse direction printing

**Supplied Accessories:**
- AC Power Cord
- BNC Cable (1.5m)
- UPP-110HD Printing Paper Roll
- Head Cleaning Sheet
- Operation Manual

**Optional Accessories:**
- UPP-110S Printing Paper (Type I)
- UPP-110HD High Density Printing Paper (Type II)
- FS-20 Foot Switch
- RM-91 Remote Commander
- MB-860 Rack Adaptor for use with MB-920 for mounting one UP-860 and one SSM-920 in a 19" rack space

Video Printers

UP-910
Monochrome Video Graphic Printer

- Large print size (182 x 140mm in normal scan mode, 200 x 150mm in wide 2 scan mode, at aspect ratio 4:3)
- High quality printing with a horizontal resolution of 768 dots and 128 gradations of gray level
- High speed printing (approx. 20 seconds)
- Frame/Field memory selectable
- Printing direction selectable: Normal/Reverse
- Normal/Wide scan selectable
- 4:3/1:1 aspect ratio selectable
- EIA/CCIR automatic selection
- Multiple copy function by pressing the "COPY" button
- Safety regulations (UL-544, CSA C 22.2 No. 220 and No. 125 approved)

Supplied Accessories:
AC Power Cord
UP-216HD Paper Roll
Paper Shaft
Head Cleaning Sheet
BNC-BNC Connecting Cable (1.5m)

Optional Accessories:
FS-20 Foot Switch
RM-81 Remote Commander
UPP-216HD High Density Paper (Type II)
UPP-216SE Normal Density Paper (Type II)

Specifications

Printing Method: Direct thermal printing
Thermal Head: Thin-film thermal head (with built-in drive IC)

Print Size
(at aspect ratio 4:3): EIA/CCIR
Normal: 182 x 140mm (7 1/4" x 5 1/4")
Wide 1: 192 x 146mm (7 5/8" x 5 1/4")
Wide 2: 200 x 150mm (7 7/8" x 6")

Picture Elements
(at aspect ratio 4:3): EIA
Normal: 700 dots x 472 lines
Wide 1: 736 dots x 508 lines
Wide 2: 768 dots x 560 lines

Gradations: 128 (black & white)

Picture Memory: One frame (600k x 6 bit)

Printing Time:
Approx. 20 sec./screen (at aspect ratio 4:3)

Video IN (BNC)-EIA/NTSC or CCIR/PAL composite: 1.0Vp-p, sync negative, 75Ω, high impedance (switchable)
Video OUT (BNC): Loop-through

Remote Terminal: REMOTE (for the optional foot switch FS-20):
Stereo mini jack

Power Requirements:
AC 100~120V, 50/60 Hz

Power Consumption:
Max. 2.5A, 190W

Dimensions (WHD):
424 x 130 x 380mm
(16 5/8" x 5 1/4" x 15")

Weight:
Approx. 20 lb. 1 oz. (9.1 kg.)
UP-2200

Color Video Printer

- Superb print quality using RGB full frame memory
- Input video signal digitally processed in 8-bit/256 graduations
- More than 500 TV lines of resolution
- A6 print size (5⅜" x 4") can be printed out in approx. 67 seconds
- Accepts Y/C and composite input through S-Video and (DIN 4-pin) BNC connectors
- Multiple print modes including: 4 or 16 Split Memory Print; 4 or 16 Multi Picture Print; Composite Print; 4 or 16 Strobe Image Print; Caption Setting
- Menu options include: print quantity, date, title or caption, print mode selection and picture adjustment
- Front access for print paper and ribbon
- Supplied wireless remote control

Supplied Accessories:
- RMT-7 Remote Control Unit
- UM-3 Battery (2)
- VPM-30STA Standard Printing Pack
- Paper Tray
- AC Power Cable
- Operation Manual

Optional Accessories:
- VPM-30STA Color Printing Pack
- VPM-90STA Color Printing Pack
- VPM-30WSA Sticker Printing Pack
- PAF-A6 Original Album

Color Cameras

SSC-C350
Single Chip CCD Color Video Camera

- Especially designed for surveillance applications
- 1/2-inch IT Hyper HAD CCD offers extremely high sensitivity with a minimum illumination of 2.5 lux (f1.2)
- Excellent signal-to-noise ratio of 48 dB
- CCD IRIS control eliminates the need to use an automatic iris lens
- Two alternative automatic white balance control modes: AWB (Auto White Balance)/ATW (Auto Tracing White Balance)
- Variable speed electronic shutter
- Accepts C-mount lenses
- Compact and lightweight
- External synchronization with VS
- Single cable operation (video/sync/power triple multiplex transmission) for easy installation with the optional YS-W130/230 Camera Adaptor (Mode A)
- Monitor out function for on-the-spot camera positioning (Mode A)
- 12V DC power supply can also be used (Mode B)

Supplied Accessories:
- 4-pin Plug for Lens Cable
- Lens Mount Cap
- Operating Instruction Manual

Optional Accessories:
- YS-W130 Camera Adaptor
- VCL-S03XM (3.6mm, f1.6) Manual Iris Lens
- VCL-S06XM (6.0mm, f1.2) Manual Iris Lens
- VCL-S12XM (12mm, f1.2) Manual Iris Lens

Color Cameras

SSC-S20
High Resolution Color CCD Camera
- 1/2" Sony high resolution color CCD camera (768 x 494) provides over 460 lines of horizontal resolution
- Minimum illumination of 4 lux with f1.2 lens
- Accepts C-mount lenses
- Built-in camera ID (0–99) and built-in time/date generator with 4 day battery backup
- AC-24V or DC-12V operation
- Electronic shutter speeds of 1/100 to 1/10,000
- Component color capable via S-connector
- Through-the-lens auto tracking white balance with lock and 2 fixed color temperature settings for outdoor and indoor use
- AGC on/off selectable
- Internal or external sync capable (genlock with VBS or BS)
- Subcarrier and H-phase adjustable

Supplied Accessories:
- Lens Mount Cap
- Mount Adaptor
- Connector for Auto Iris Lenses

Specifications
- Pickup Device: 1/2" CCD
- Picture Elements: 768(H) x 494(V)
- Sensing Area: 6.3 x 4.7mm
- Lens Mount: C
- Signal System: EIA
- Scan System: 525/2:1
- Sync System: Internal/External
- External Sync: Genlock
- Horizontal Resolution: 460 lines
- Vertical Resolution: 350 lines
- Signal to Noise Ratio: 46 dB
- Minimum Illumination: 4 lux at f1.2
- AGC: Auto/Fixed/Off
- Shutter: Variable
- Color Temperature: Auto/Fixed/Preset
- Camera ID: 0–99
- Time/Date: yes, w/4 day backup
- Video Out: BNC x 1
- Power Requirements: AC-24V or DC-12V
- Power Consumption: 5W
- Dimensions (WxHxD): 2 1/4" x 3 1/4" x 6" (64 x 82 x 153mm)
- Weight: 1 lb. 7 oz.
Video Conferencing

FSR-2000A ............................ K-2
FSR-2000 ............................... K-3
Video Conferencing

**Specifications**

- **Input Frequency Band:** 950 MHz - 1450 MHz
- **Input VSWR:** 2.5 max. (F type female, 75Ω)
- **Input Noise Figure:** -63 dBm to -30 dBm
- **Input Dynamic Range:** -64 dBm max. at input port
- **Image Rejection:** 45 dB min.
- **Local Oscillator Leakage in Input Frequency Band:** 45 dB min.
- **Clamped Video Output:** 1Vp-p ± 10% (BNC, 7510 at 9 MHz peak deviation; Factory set at 9.2 MHz peak deviation)
- **Composite Output:** 1Vp-p ± 10% (BNC, 7510 at 9.0 MHz peak deviation; Factory set at 10.5 MHz peak deviation)
- **Aux Output:** 50 Hz - 4.2 MHz ± 1 dB (F type female)
- **Audio Outputs:**
  - Audio 1: 6.2 MHz subcarrier, 0 dBm at 600Ω, ± 75 kHz deviation, phono
  - Audio 2: 6.8 MHz subcarrier, 0 dBm at 600Ω, ± 75 kHz deviation, phono
  - Audio 3: 6.8 MHz subcarrier wide deviation, +10 dBm at 600Ω, ± 239 kHz deviation, phono
  - Audio 1/2/3: Selectable output, phono
  - Audio 1/2/3: 0 dBm (775 mVrms) at 10 kΩ, ± 75 kHz deviation
  - Audio 3: ± 10 dB (2.45 Vrms) at 10 kΩ, ± 239 kHz deviation
- **Tuning Bandwidth:** 24 MHz
- **De-emphasis:** Video: CCIR 405-1 525 lines
- **Audio:** 75 µs
- **Differential Gain and Phase:** 5%, 5° max. at APL 10%-90%
- **Video Frequency Response:** 50 Hz - 4.2 MHz ± 1 dB
- **Remodulator Output:** Channel 3 or 4 selectable (F type female)
- **Video/Audio Inputs:**
  - Video: Video: 1Vp-p (BNC, 7512)
  - Audio: 0 dBm (775 mVrms) at 47 kΩ, phono
- **AGC Output:** Expanded offset type (speaker terminals)
- **Home Channel:** Any of 24 channels (Remotely preset, non-volatile)
- **Control Data Input:** RS-232C
- **Control Data Outputs:** RS-422/RS-222C, receive only
- **Data Carrier Detect:** TTL level, 4.7 kHz pulled up to +5V
- **Reset to Default State:** At Power-On, 10 Min. after loss of Data; Carrier Detect signal, or on the remote command from the network control
- **Power Supply Voltage:** 120V AC, 60 Hz
- **Power Consumption:** 19W (23W with LNB)
- **LNB Power Supply Output:** +18V DC ±10%, 4W max.
- **Operating Temperature:** 0°C to 40°C
- **Storage Temperature:** -20°C to 60°C
- **Dimensions (W x H x D):** 482 x 80 x 277mm incl. projecting parts and controls
- **Weight:** 5.5 kg
- **Mounting:** EIA standard 19” rack

**FSR-2000A Satellite Video Distribution System**

- Enables corporate video networks to control Sony recording, playback, and display devices through its network from a centralized uplink site
- Targets video information to specific areas in distant offices
- Reduces the cost of operating a satellite video network by centralizing all network control and by facilitating satellite transmission during off-peak hours
- Decreases the need for technical support staff at downlink sites
- Uses Sony's highly reliable FSR-2000A Addressable Satellite Receiver with 24 channel preset memory for tuning and subcarrier audio, a 10-key tuning system, and a two-digit LED strength indicator for precise signal quality monitoring
- A highly sensitive receiver with threshold extension as low as 7 dB (typ.) for superb picture reception
- Low DG, low DP and flat-frequency response for high-quality picture reception
- Frequency synthesized tuning memory
- One MHz-step precise tuning and memory
- 24 channel preset memory capability for the tuning frequency and subcarrier audio outputs
- CHECK button for confirming memorized information
- Two digit strength indicator for precise antenna positioning
- LED displays: Frequency (5-digit), Channel Number (2-digit), Receiving, Audio Output, Ext Video

**Supplied Accessories:**
- AC Power Cord
- Rack Mount Screws

---

K-2
Video Conferencing

FSR-2000
Satellite Receiver

- Designed for CATV, SMATV and business television applications
- Outstanding performance and high reliability at an affordable price
- Threshold extension to 7 dB (typical)
- Low DG, low DP and flat-frequency response, ensuring exceptional sensitivity and high quality picture reception
- Advanced tuning and memory system
- 24 channel preset memory capability
- 10-key tuning system
- Two-digit strength indicator for precise antenna positioning
- Three audio subcarrier demodulator outputs
- Compatible with most decoders through Composite and Auxiliary outputs
- NTSC clamped video output
- RF modulator is provided for an internal or external video signal to be processed for VHF output

Supplied Accessories:
- AC Power Cord
- Rack Mount Screws

Specifications

- Input Frequency Band: 950 MHz - 1450 MHz
- Input VSWR: 2.5 max. (F type female, 75Ω)
- Input Noise Figure: 15 dB max. at maximum gain
- Input Dynamic Range: -63 dBm to -30 dBm
- Local Oscillator Leakage in
- Input Frequency Band: -65 dBm max. at input port
- Image Rejection: 45 dB min.
- IF Bandwidth: 24 MHz
- Clamped Video Output: 1Vp-p ± 10% (BNC, 75Ω) at 9.0 MHz - 10.5 MHz peak deviation;
  Factory set at 10.5 MHz peak deviation
- Composite Output: 1Vp-p ± 10% (BNC, 75Ω) at 9.0 MHz - 10.5 MHz peak deviation;
  Factory set at 9.2 MHz peak deviation
- Aux Output: 50 MHz - 8 MHz, 0.7Vp-p (BNC, 75Ω) at 9 MHz peak deviation (pre-emphasis OFF)
- Audio Outputs: Audio 1: 8.2 MHz subcarrier, 0 dBm at 600Ω, ± 75 kHz deviation, phono
  Audio 2: 6.8 MHz subcarrier, 0 dBm at 600Ω, ± 75 kHz deviation, phono
  Audio 3: 6.8 MHz subcarrier wide deviation, ± 10 dBm at 600Ω, ± 239 kHz deviation, phono
  Audio 1/2: Selectable output, phono
  Audio 1/2: 0 dB (775 mVrms) at 10 kΩ, ± 75 kHz deviation
  Audio 3: ± 10 dB (2.45 Vrms) at 10 kΩ, ± 239 kHz deviation

- Tuning Frequency: 11.700 GHz - 12.199 GHz in 1 MHz step
- Channel Presetting: Up to 24 channels
- AFC Capture Range: ± 5 MHz
- Static Threshold: C/N 7 dB typical
- De-emphasis: Video: CCIR 405-1 525 lines
  Audio: 75 μs
- Differential Gain and Phase: 5%, 5° max., at APL 10% - 90%
- Video Frequency Response: 50 Hz - 4.2 MHz ± 1 dB
- Remodulator Output: Channel 3 or 4 selectable (F type female)
- Video/Audio Inputs: Video: 1Vp-p (BNC, 75Ω)
  Audio: 0 dB (775 mVrms) at 47 kΩ, phono
- AGC Output: Expanded offset type (speaker terminals)
- Power Supply Voltage: 120V AC, 60 Hz
- Power Consumption: 19W (23W with LNB)
- LNB Power Supply Output: +18V DC ± 10%, 4W max.
- Operating Temperature: 0°C to 40°C
- Storage Temperature: -20°C to 60°C
- Dimensions (WHD): 492 x 80 x 277mm incl. projecting parts and controls
- Weight: 5.5 kg
- Mounting: EIA standard 19" rack

Component Digital

DVR-1000

4:2:2 Component Digital VTR

- A world-wide standard VTR: Meets the SMPTE D-1 format and the EBU Tech 3252 format; 525/60, 625/50 switch selectable; Power supply voltage selectable (100V - 120V and 220V - 240V) - Both L (max. 94 min.) and M (max. 34 min.) size cassettes are available
- Digital Processing: Error detection and error correction capability; Sophisticated error Concealment System
- More than 20 generations of dubbing and playback without loss in video/audio quality - Four digital audio channels - Digital interface available: Video: SMPTE 125M and EBU Tech 3246 parallel interface; SMPTE draft standard; T14.224 serial interface; Audio: AES/EBU serial interface - Broadcast level playback and freeze pictures at up to ± 1/4 times normal speed - Recognizable color pictures at shuttle speeds up to ± 40 times normal speed
- EL (Electroluminescent) display supporting the menu driven control
- Control panel enables quick access to various menus
- System flexibility with three RS-422 ports: Remote control by BVE-910/9000/9100 series editing controllers possible; Built-in editing facility allows the control of two machines via these ports

Supplied Accessories:
BKDV-1010 Control Panel
EX-129 Extension Board
Rack Mount Fittings
AC Power Cord
Metal Plate (attached at factory)
Operation and Maintenance Manual

Optional Accessories:
ECD-3C/10C/30C Digital Audio Cable
VCD-2D/5D/100/300 Digital Video Cable
SMK-0032 IEEE-488 Cable
RCC-5G/10G/30G 9-pin Remote Control Cable
D1M-12/22/34 Sony Digital Video (M-Cassette)
D1L-76/94 Sony Digital Video (L-Cassette)
D1M-5CL Cleaning Cassette
Component Digital

DVR-2100

4:2:2 Component Digital VTR

- A world-wide standard VTR: Meets the SMPTE D-1 format and the EBU Tech 3252 format; 525/60, 625/50 switch selectable; Power supply voltage selectable (100–120V and 220–240V).
- Component digital recording: Broadcast quality pictures provided within the Dynamic Tracking™ (DT) range of −1 to +2 times normal playback speed.
- Compact and lightweight with low power consumption: 8 units high, 143 lb. 5 oz. (65 kg.) and 400 W.
- All of the information for operation provided via the large EL display (640 x 240 dots).
- Three sizes of cassettes are available; L-size (max. 94 min.), M-size (max. 34 min.) and S-size (max. 6 min.).
- Recognizable color pictures at shuttle speeds up to ±50 times normal speed.
- Component signals from acquisition to editing with the use of Betacam SP™ Camcorder and the BVW-D75 Betacam SP VTR.
- Channel condition (error rate) monitoring.
- Error Message Logger.
- Automatic Playback Equalization allowing automatic EQ optimization for minimum error rate.
- Automatic CTL allowing tracking optimized in normal and DT playback.
- Built-in test signal generator.
- Easy serviceability: All of the circuitry placed on plug-in type boards; A self-diagnostics system.

Supplied Accessories:
- BKDV-2010 Control Panel
- EX-244/EX-245/EX-288 Extension Board
- Rack Mount Fittings
- AC Power Cord
- Metal Plate (attached at factory)
- Operation and Maintenance Manual

Optional Accessories:
- RMM-180 Rack Slide Kit
- VCD-2D/5D/10D/30D Digital Video Cable
- ECD-3C/10C/30C Digital Audio Cable
- RCC-5G/10G/30G 9-pin Remote Control Cable
- D1S-4 Sony Digital Video: (S-Cassette)
- D1M-12/22/34 Sony Digital Video: (M-Cassette)
- D1L-78/94 Sony Digital Video: (L-Cassette)
- D1M-5CL Cleaning Cassette

D-1 Signal Converter

In conjunction with two D-1 VTRs, a range of recording/playback systems can be formed: 4:2:2 picture plus key channel production (4:2:2:4 mode); Full band GBR plus key channel production (4 x 4 mode); Doubled horizontal resolution of 525/60 or 625/50 signals (8:4:4 H mode); Progressive scan 525 or 625 (60 frames/sec. or 50 frames/sec.) system (8:4:4 V mode) Regular video A/D or D/A conversion conforming to the CCIR-601 filter specifications is possible One rack unit high and 19-inch rack mountable

Specifications

Power Requirements: AC-100V-120V, 50/60 Hz
AC-220V-240V, 50/60 Hz

Power Consumption: 55W (Max.)

Dimensions (W/H/D): 424 x 44 x 550mm

Weight: 15 lb. 7 oz. (7 kg.)

Sampling Frequency: (4:2:2:4) Y/KEY: 13.5 MHz, B-Y/R-Y: 6.75 MHz
(4 x 4) Y/KEY/B-Y/R-Y or G/B/R/KEY: 13.5 MHz
(8:4:4) Y: 27 MHz, B-Y/R-Y: 13.5 MHz
(4:2:2) Y: 13.5 MHz, B-Y/R-Y: 13.5 MHz

Frequency Response: (4:2:2:4) Y/KEY: DC to 5.75 MHz (±0.5 dB)/6 MHz (-3 dB)
B-Y/R-Y: DC to 2.75 MHz (±0.5 dB)/3 MHz (-3 dB)
(4 x 4) Y/KEY/B-Y/R-Y or G/B/R/KEY: DC to 5.75 MHz (±0.5 dB)/6 MHz (-3 dB)
(8:4:4) Y: DC to 11.5 MHz (±0.5 dB)/12 MHz (-3 dB)
B-Y/R-Y: DC to 5.75 MHz (±0.5 dB)/6 MHz (-3 dB)
(4:2:2) Y: DC to 5.75 MHz (±0.5 dB)/6 MHz (-3 dB)
B-Y/R-Y: DC to 2.75 MHz (±0.5 dB)/3 MHz (-3 dB)

S/N Ratio
(Analog Output): 56 dB

Linearity: Within 2.0%

K Factor (2T pulse): < 1.0%

Channel Delay: < ±15 ns

Serial Input/Output: Bit Rate: 270 Mb/sec.
Transmission distance: Max. 200m

Analog Video Input: Y(G)/B-Y(B)/R-Y(R)/KEY/SYNC, BNC
Digital Video Input: BNC; Digital Serial (270 Mb/sec.)
BKDV-4224AD: VIDEO & KEY

Digital Video Output: BNC; Digital Serial (270 Mb/sec.)
BKDV-4224AD: SERIAL OUT 1 & 2

Remote: D-sub 25-pin: Video Index Information
Component Digital

DVPC-4224

Digital Signal Processor

- Enables recording of component or G/B/R video signals combined with a full bandwidth key signal onto a D-1 format tape, with the use of newly developed coefficient recording technology with effective data handling
- Ultra linear A/D and D/A converters maintain high picture quality, with accurate key edges when using analog video signals (Y/B-Y/R-Y/Key or G/B/R/Key)
- Accepts both 525/60 and 625/50 signals to maximize VTR usage

To meet various application requirements, the DVPC-4224 supports the following four modes:

1. **4:2:2:4 mode** — 4:2:2 Y/B-Y/R-Y video signals and a key signal
2. **4:4:4:4 (4 x 4) mode** — 4:4:4:4 G/B/R or Y/B-Y/R-Y full band video signals and a key signal
3. **Dual 4:2:2 mode** — Two 4:2:2 Y/B-Y/R-Y video signals; D-1 mode
4. **D-1 mode** — D-1 signal

- Designed to be used exclusively with a Sony DVR-2100 or DVR-2000 VTR. The VTR requires a minor modification with an optional BKDV-2000K Update Kit

- Supplied with SDI (Serial Digital Interface) which allows simple connection with SDI equipped devices, including Sony DVR Series D-1 VTRs and DVS Series digital switchers

- The analog input and output gain of each Y(G)/B-Y(B)/R-Y(R)/Key signal can be independently adjusted
- Equipped with a built-in signal generator (Color bar 100%/75%, Black, Multi burst, Ramp)
- Equipped with two analog monitor outputs for the luminance (B/W) signal with the VTR character display superimposed

**Supplied Accessories:**

- AC Power Cord (1)
- 8-pin Remote Control Cable (2m) (1)
- Rack Mount Angle (3U) (1 set)
- Operation and Maintenance Manual (1 set)

**Specifications**

**General**

- **Power Requirements:** AC 90 to 132V, 50 Hz/60 Hz
- **Weight:** 311/2 lb. 8 oz. (17 kg.)
- **Dimensions (WHD):** 424 x 132 x 450mm

**Video**

- **Sampling Frequency:**
  - 4:2:2:4:
    - Y/Key: 13.5 MHz
    - B-Y/R-Y: 6.75 MHz
  - Dual 4:2:2, D-1 Mode:
    - Y(G)/B-Y(B)/R-Y(R)/Key: 13.5 MHz
    - Quantization: 10 bits/sample
    - Bandwidth:
      - 4:4:4:4 Mode:
        - Y/Key: 0 to 5.75 MHz ± 0.5 dB/6 MHz – 3 dB
        - B-Y/R-Y: 0 to 2.75 MHz ± 0.5 dB/3 MHz – 3 dB
        - D-1 Mode:
          - Y(G)/B(Y)/R-Y(R)/Key: 0 to 5.75 MHz ± 0.5 dB/6 MHz – 3 dB
          - S/N Ratio: 62 dB or more
          - Non-Linearity: 2% or less
          - Shuffling Size: 1 field
          - K Factor: 1% or less
          - Channel Delay: Below ± 15 ns

- **Input/Output**
  - **Digital:** BNC, Serial digital interface, SMPTE 259M (270 Mb/s)
  - **Analog:** BNC, Y(G)/B-Y(B)/R-Y(R)/Key/Sync Y(G)/Key: 1.0Vp-p, 75Ω
  - **Monitor:** BNC, LINK A/LINK B (Key) Y(G): 1.0Vp-p, 75Ω

- **Reference:** BNC with loop-through

- **Reference:** BNC with loop-through

- **Video Interface**
  - **Input:** BNC, Serial digital interface, SMPTE 259M (270 Mb/s), 0.8Vp-p, 75Ω
  - **Output:** BNC, Serial digital interface, SMPTE 259M (270 Mb/s), 0.8Vp-p, 75Ω
  - **Remote:** System control: 8-pin (RS-422 format)
  - **Control Panel:** 8-pin (RS-422 format)
Composite Digital

DVR-28 (NTSC) /28P (PAL)

Composite Digital VTR

- Conforms to the NTSC D-2/PAL D-2 format
- Three types of optional control panels are available for various applications: Direct access to operational functions and easy mode settings via the scroll menu with the BKDV-200 and BKDV-201; Easy access to all operational settings via the 12 menu keys and 12 function keys with the BKDV-101; All of the information for operation provided via the large FL display (256 x 64 dots) with the BKDV-200/201, and EL display (640 x 200 dots) with the BKDV-101
- Highly responsive tape handling in the jog and shuttle operations with newly developed Ultrasonic (US) guides
- Three sizes of cassettes are available; L-size (max. 208 min.), M-size (max. 94 min.) and S-size (max. 32 min.)
- Digital Jog Sound allowing for full recovery of digital audio at slow speed and speedy and precise audio editing point decision
- Recognizable color pictures at shuttle speeds up to ± 100 times normal speed
- Broadcast quality pictures provided within the Dynamic Tracking™ (DT) range of −1 to +3 times normal playback speed
- Digital Audio Crossfade for smooth sound transition in audio editing
- Automatic Edit Tracking and Automatic Equalization allowing adjustment-free operation
- Channel condition (error rate) monitoring
- Error Message Logger
- 20 bit/sample audio A/D and D/A converters achieving a wide dynamic range of 105 dB.
- 10 bit/sample video A/D and D/A converters offering high quality picture reproduction for analog signal input/output
- Built-in test signal generators
- Multi-loop Test for precise video parameter set-up to compensate for signal degradation in analog video system
- Easy serviceability: Most of the circuitry placed on plug-in type boards; A self-diagnostics system
- Audio program play offers ±15% normal speed sound (option)
- System flexibility: Serial digital video/audio interface with the optional BKDV-105/106 Serial Interface Board; Parallel digital video I/O ports; Analog composite video and audio I/O ports allow easy integration into a conventional analog system; Three RS-422A and one RS-232C serial communication ports

Supplied Accessories:
- Control Panel Connection Cable
- EX-341/EX-185/EX-241 Extension Board
- AC Power Cord
- Rack Mount Angle (8U)
- Connector Plug (50-pin)
- D-sub Connector Shell
- Plug Holder
- Operation and Maintenance Manual

Optional Accessories:
- BKDV-200/BKDV-201/BKDV-101 Control Panel
- BKDV-105/106 Serial Interface Board
- BKDV-110/111 Audio Program Play Board
- RMM-18DV Rack Slide Kit
- VCD-2D/5D/10D/30D Digital Video Cable
- ECD-3C/10C/30C Digital Audio Cable
- RCC-5G/10G/30G 9-pin Remote Control Cable
- SMK-0032 IEEE-488 Cable
- D2S-5M/12M/22M/32M Sony Digital Video: (S Cassette)
- D2M-6M/12M/22M/34M/64M/94M Sony Digital Video: (M-Cassette)
- D2L-126M/156M/188M/208M Sony Digital Video: (L-Cassette)
- D2S-12CL/DCM-12CL Cleaning Cassette
Composite Digital VTR

- Conforms to the NTSC D-2/PAL D-2 format
- Three types of optional control panels are available for various applications: Direct access to operational functions and easy mode settings via the scroll menu with the BKDV-200 and BKDV-201; Easy access to all operational settings via the 12 menu keys and 12 function keys with the BKDV-101; All of the information for operation provided via the large FL display (256 x 64 dots) with the BKDV-200/201, and EL display (640 x 200 dots) with the BKDV-101
- Highly responsive tape handling in the jog and shuttle operations with newly developed Ultrasonic (US) guides
- Both M-size (max. 94 min.) and S-size (max. 32 min.) cassettes are available
- Digital Jog Sound allowing for full recovery of digital audio at slow speed and speedy and precise audio editing point decision
- Recognizable color pictures at shuttle speeds up to ±100 times normal speed
- Broadcast quality pictures provided within the Dynamic Tracking™ (DT) range of −1 to +3 times normal playback speed
- Digital Audio Crossfade for smooth sound transition in audio editing
- Automatic Edit Tracking and Automatic Equalization allowing adjustment-free operation
- Channel condition (error rate) monitoring
- Error Message Logger
- 20 bit/sample audio A/D and D/A converters achieving a wide dynamic range of 105 dB
- 10 bit/sample video A/D and D/A converters offering high quality picture reproduction for analog signal input/output
- Built-in test signal generators
- Multi-loop Test for precise analog video parameter setup to compensate for signal degradation in analog video system
- Easy serviceability: Most of the circuitry placed on plug-in type boards; A self-diagnostics system
- System flexibility: Serial digital video/audio interface with the optional BKDV-105/106 Serial Interface Board; Parallel digital video I/O ports; Analog composite video and audio I/O ports allow easy integration into a conventional analog system; Three RS-422A and one RS-232C serial communication ports

Supplied Accessories:
- Control Panel Connection Cable
- EX-341/EX-185/EX-241 Extension Board
- AC Power Cord
- Rack Mount Angle (6U)
- Connector Plug (50-pin)
- D-sub Connector Shell
- Plug Holder
- Operation and Maintenance Manual

Optional Accessories:
- BKDV-200/BKD-201/BKD-101 Control Panel
- BKDV-205/206 Serial Interface Board
- RMM-18DV Rack Slide Kit
- VCD-2D/5D/10D/30D Digital Video Cable
- ECD-3C/10C/30C Digital Audio Cable
- RCC-5G/10G/30G 9-pin Remote Control Cable
- SMK-0032 IEEE-488 Cable
- D2S-6M/12M/22M/32M Sony Digital Video: (S Cassette)
- D2M-6M/12M/22M/34M/64M/94M Sony Digital Video: (M-Cassette)
- DCS-12CL/DCM-12CL Cleaning Cassette

L-12
Composite Digital DVR-18 (NTSC)/18P (PAL)

Composite Digital VTR
- Conforms to the NTSC D-2/PAL D-2 format
- High quality video with a bandwidth of 6 MHz (NTSC)/6.5 MHz (PAL) and a signal-to-noise ratio of 54 dB
- Powerful error correction/concealment
- Four digital audio channels
- Digital audio interface conforms to the AES/EBU format
- Compact and lightweight: 8 units high and 127 lb. 14 oz. (56 kg.)
- Longer recording/playback time using L-size (max. 208 min.), M-size (max. 94 min.) and S-size (max. 32 min.) cassettes
- Broadcast quality pictures provided within the Dynamic Tracking™ (DT) range of -1 to 3 times normal playback speed
- Recognizable color pictures at shuttle speeds up to ±100 times normal speed
- Precise level control of the high quality video and audio signals in the digital domain
- Analog composite video and analog audio ports allow easy integration into the current systems
- Digital video interface
- All of the information for operation provided via the large EL display (640 x 200 dots)
- Easy operation using 12 menu keys and 12 function keys
- Easy serviceability: Most of the circuitry placed on plug-in type boards; A self-diagnostic system
- Built-in editing facility
- Three RS-422 serial communication ports and one RS-232C port available
- Audio program play offers ±15% normal speed sound (option)
- Serial video/audio interface capability (option)

Supplied Accessories:
- BKDV-101 Control Panel
- EX-138/EX-185/EX-241 Extension Board
- Rack Mount Fittings
- Connector Plug (50-pin)
- AC Power Cord
- Plug Holder
- Operation and Maintenance Manual

Optional Accessories:
- BKDV-105/106 Serial Interface Board
- BKDV-110/111 Audio Program Play Board
- RMM-18DV Rack Slide Kit
- VCD-2D/5D/10D/30D Digital Video Cable
- ECD-3C/10C/30C Digital Audio Cable
- RCC-5G/10G/30G 9-pin Remote Control Cable
- SMK-0032 IEEE-488 Cable
- D2S-6M/12M/22M/32M Sony Digital Video: (S Cassette)
- D2M-6M/12M/22M/34M/64M/94M Sony Digital Video: (M-Cassette)
- D2L-126M/156M/188M/208M Sony Digital Video: (L-Cassette)
- DCS-12CL/DCM-12CL Cleaning Cassette
Composite Digital

DVR-10 (NTSC) / 10P (PAL)

Composite Digital VTR

- Conforms to the NTSC D-2/PAL D-2 format
- High quality video with a bandwidth of 6 MHz (NTSC/6.5 MHz (PAL) and a single-to-noise ratio of 54 dB
- Powerful error correction/concealment
- Four digital audio channel
- Digital audio interface conforms to the AES/EBU format
- Compact and lightweight: 6 units high and 103 lb. 10 oz. (47 kg.)
- Both M-size (max. 94 min.) and S-size (max. 32 min.) cassettes are available
- Broadcast quality pictures provided within the Dynamic Tracking™ (DT) range of -1 to +3 times normal playback speed
- Precise level control of the high quality video and audio signals in the digital domain
- Analog composite video and analog audio ports allow easy integration into the current systems
- Digital video interface
- All of the information for operation provided via the large EL display (640 x 200 dots)
- Easy operation using 12 menu keys and 12 function keys
- Easy serviceability: Most of the circuitry placed on plug-in type boards; A self-diagnostics system
- Built-in editing capability
- Three RS-422 serial communication ports and one RS-232C port available

Supplied Accessories:
- BKDV-101 Control Panel
- EX-138/EX-185/EX-199 Extension Board
- Rack Mount Fittings
- Connector Plug (50-pin)
- AC Power Cord
- Plug Holder
- Operation and Maintenance Manual

Optional Accessories:
- RMM-18DV Rack Slide Kit
- VCD-2D/5D/10D/30D Digital Video Cable
- ECD-3C/10C/30C Digital Audio Cable
- RCC-5G/10G/30G 9-pin Remote Control Cable
- SMK-0032 IEEE-488 Cable
- D2S-6M/12M/22M/32M Sony Digital Video: (S-Cassette)
- D2M-6M/12M/22M/34M/64M/94M Sony Digital Video (M-Cassette)
- DCS-12CL/DCM-12CL Cleaning Cassette
Composite Digital

DVR-2 (NTSC) /2P (PAL)

Portable Composite Digital VTR

- Conforms to the NTSC D-2/PAL D-2 format
- High quality video with a bandwidth of 6 MHz (NTSC)/6.5 MHz (PAL) and a signal-to-noise ratio of 54 dB
- Powerful error correction/concealment
- Four digital audio channels
- Broadcast quality playback pictures offered without the need for external equipment
- DC operation with two BP-90A batteries
- Compact and lightweight: 24,000cm³ (0.85 ft.³) and 26 lb. 7 oz. (12 kg.)
- Both M-size (max. 94 min.) and S-size (max. 32 min.) cassettes are available
- Front access design
- Two LCD displays: Main display: Timer, time code, UB, audio level, video level, error rate, SCH, battery capacity, remaining tape amount; Sub display: Menus for system control/servo setup
- Video/audio confidence playback
- Fast forward and rewind modes at speeds up to ±20 times normal speed
- When the Visible key is pushed, confidence pictures and fast forward/rewind pictures appear in color in each mode
- Recognizable color picture search at speeds ±5 times normal playback speed
- Back space editing function
- 26-pin camera interface to allow connection to any Sony BVP camera
- External microphone power supply (DC +48V)

Supplied Accessories:
- Extension Boards
- Operation and Maintenance Manual

Optional Accessories:
- BVR-2 Remote Controller
- Battery Charger 410 Series
- BP-90A NiCd Rechargeable Battery
- AC Adaptor AC-500 Series
- D2S-6M/12M/22M/32M Sony Digital Video: (S-Cassette)
- D2M-6M/12M/22M/34M/64M/94M Sony Digital Video: (M-Cassette)
- DCS-12CL/DCM-12CL Cleaning Cassette

**Composite Digital DVR-P28**

**Composite Digital VTR Player**

- Conforms to the NTSC D-2 format
- Direct access to operational functions and easy mode settings via the scroll menu with the BKDV-202: All of the information for operation provided via the large FL display (256 x 64 dots)
- Highly responsive tape handling in the jog and shuttle operations with newly developed Ultrasonic (US) guides
- Three sizes of cassettes are available L-size (max. 208 min.), M-size (max. 94 min.) and S-size (max. 32 min.)
- Digital Jog Sound allowing for full recovery of digital audio at slow speed and speedy and precise audio editing point decision
- Recognizable color pictures at shuttle speeds up to ±100 times normal speed
- Broadcast quality pictures provided within the Dynamic Tracking™ (DT) range of -1 to +3 times normal playback speed
- Channel condition (error rate) monitoring
- Error Message Logger
- 20 bit/sample audio A/D and D/A converters achieving a wide dynamic range of 105 dB
- 10 bit/sample video A/D and D/A converters offering high quality picture reproduction for analog signal input/output
- Built-in test signal generators
- Multi-loop Test for precise video parameter set-up to compensate for signal degradation in analog video system
- Easy serviceability: Most of the circuitry placed on plug-in type boards; A self-diagnostics system
- Audio program play offers ±15% normal speed sound (option)
- System Flexibility: Serial digital video/audio interface with the optional BKDV-103 Serial Interface Board; Parallel digital video I/O ports; Analog composite video and audio I/O ports allow easy integration into a conventional analog system
- Three RS-422A and one RS-232C serial communication ports

**Supplied Accessories:**
- Control Panel Connection Cable
- AC Power Cord
- Rack Mount Angle (8U)
- Connector Plug (50-pin)
- D-sub Connector Shell
- Plug Holder
- Operation and Maintenance Manual

**Optional Accessories:**
- BKDV-202 Control Panel
- BKDV-108 Digital Video Controller
- BVR-2 Remote Controller
- DTR-3000 Dynamic Motion Controller
- DFX-2101 Digital Rate Converter (D-2–D-1 format)
- DDU-2100 Digital Audio Delay Unit
- DFX-2400 Digital Audio Sampling Rate Converter
- BVX-010 Digital Color Corrector
- PFV-250/350 Digital Video Interface Unit
- DMIF-2000 Digital Monitor Interface
- VCD-2D/5D/10D/30D Digital Video Cable: D-sub 25-pin (2m, 5m, 10m, 30m)
- ECD-3C/10C/30C Digital Audio Cable: XLR 3-pin (3m, 10m, 30m)
- RCC-10G/30G Remote Control Cable: D-sub 9-pin (5m, 10m, 30m)
- SMC-0032, IEEE-488 Cable: 24-pin (2m)
- D2S-6M/12M/22M/32M S-size Cassette (6 min., 12 min., 22 min., 32 min.)
- D2M-6M/12M/22M/34M/64M/94M M-size Cassette (6 min., 12 min., 22 min., 34 min., 64 min., 94 min.)
- D2L-128M/158M/188M/208M L-size Cassette (126 min., 156 min., 186 min., 206 min.)
- BKDV-103 Serial Interface Board
- BKDV-110 Audio Program Play Board
- RMM-180V Rack Slide Kit
- DCS-120/DCM-12CL Cleaning Cassette (12 min.)
## Specifications (DVR-P28, cont.)

### General
- **Power Requirements:** AC-100V~120V ± 10%, 50/60 Hz
- **Power Consumption:** Max. 600 VA
- **Operating Temperature:** 5°C to 40°C (41°F to 104°F)
- **Humidity:** 10%~80% (non-condensing)
- **Weight:** 132 lb. 4 oz. (60 kg.)
- **Dimensions (WHD):** 438 x 370 x 656mm (17¾" x 14¾" x 25¾") (approx.)
- **Format:** SMPTE D-2 format
- **Tracks/Channels:** Digital video and audio (4 channels):
  - 6 tracks/1 field
  - Analog audio (cue): 1 track
  - Time code: 1 track
  - CTL: 1 track
  - Audio Output: 8, 4, 0, -20 dB adjustable (LINE OUT)
- **Tape Timer Accuracy:** ±2 frames (with continuous CTL signal)
- **Error Correction:** Correction and concealment
  - (Reed-solomon code)
- **Servo Lock Mode:** From stand by mode
- **Load/Unload Time:** Within 0.5 sec. (with color frame capstan)
- **Shuttle Speed:** Max. ± 100 times normal playback speed
- **Fast Forward/Rewind Time:** Within 5.5 sec. (with L cassette)
- **Working Speed:** 131.7 mm/sec. (Normal speed)
- **Reading Speed:** 27.387 m/sec. (Normal speed)
- **Playback Time:** Max. 208 min. with L cassette
- **Rec. Tape:** Sony metal (1500 Oe) tape or equivalent
- **Tape Speed:** 131.7 mm/sec. (Normal speed)
- **Time Code:** 1 track
- **Analog Audio (Cue track):** 6 tracks/1 field
- **Digital Audio (DA 1 to DA 4 channels):** 8, 4, 0, -20 dB adjustable (LINE OUT)
- **Format:** SMPTE T14.224 x 2131D
- **S/N Ratio:** > 50 dB (at 1 kHz, emphasis ON)
- **Wow and Flutter:** Below measurable limit
- **Head Room:** 20 dB
- **Operating Level:** 6, 4, 0, -20 dB adjustable (LINE OUT)
- **Emphasis:** T1 = 50 µs/T2 = 15 µs (ON/OFF auto)
- **Output Gain Range:** ± 12 dB
- **Power Requirements:** AC -220V -240V ± 10%, 50/60 Hz
- **Power Consumption:** Max. 600 VA
- **Operating Temperature:** 5°C to 40°C (41°F to 104°F)
- **Humidity:** 10%~80% (non-condensing)
- **Weight:** 132 lb. 4 oz. (60 kg.)
- **Dimensions (WHD):** 438 x 370 x 656mm (17¾" x 14¾" x 25¾") (approx.)
- **Format:** SMPTE D-2 format
- **Tracks/Channels:** Digital video and audio (4 channels):
  - 6 tracks/1 field
  - Analog audio (cue): 1 track
  - Time code: 1 track
  - CTL: 1 track
  - Audio Output: 8, 4, 0, -20 dB adjustable (LINE OUT)
- **Tape Timer Accuracy:** ±2 frames (with continuous CTL signal)
- **Error Correction:** Correction and concealment
  - (Reed-solomon code)
- **Servo Lock Mode:** From stand by mode
- **Load/Unload Time:** Within 0.5 sec. (with color frame capstan)
- **Shuttle Speed:** Max. ± 100 times normal playback speed
- **Fast Forward/Rewind Time:** Within 5.5 sec. (with L cassette)
- **Working Speed:** 131.7 mm/sec. (Normal speed)
- **Reading Speed:** 27.387 m/sec. (Normal speed)
- **Playback Time:** Max. 208 min. with L cassette
- **Rec. Tape:** Sony metal (1500 Oe) tape or equivalent
- **Tape Speed:** 131.7 mm/sec. (Normal speed)
- **Time Code:** 1 track
- **Analog Audio (Cue track):** 6 tracks/1 field
- **Digital Audio (DA 1 to DA 4 channels):** 8, 4, 0, -20 dB adjustable (LINE OUT)
- **Format:** SMPTE T14.224 x 2131D
- **S/N Ratio:** > 50 dB (at 1 kHz, emphasis ON)
- **Wow and Flutter:** Below measurable limit
- **Head Room:** 20 dB
- **Operating Level:** 6, 4, 0, -20 dB adjustable (LINE OUT)
- **Emphasis:** T1 = 50 µs/T2 = 15 µs (ON/OFF auto)
- **Output Gain Range:** ± 12 dB

### Video Input
- **Digital:** Test: ECL balanced, D-sub 25-pin SMPTE T14.224/062A format
- **Reference:** Black burst signal, 0.3Vp-p, 75Ω, BNC
- **Video Output**
  - **Analog (CH 1, 2):** 1.0Vp-p, 75Ω, BNC
  - **(CH 3):** 1.0Vp-p, 75Ω, BNC
  - **Composite:** Composite/non-composite switchable
  - **Character:** 1.0Vp-p, 75Ω, BNC
  - **Digital:** Parallel Interface: ECL balanced, D-sub 25-pin SMPTE T14.224/062A format
  - **Serial Interface:** 0.8Vp-p, 75Ω, BNC (option) SMPTE T14.224 x 2131D
  - **Monitor:** 1.0Vp-p, 75Ω, BNC

### Audio Output
- **Analog (CH 1, 2, 3, 4):** Max. 28 dB (Normal 8 dBs), low impedance, XLR 3-pin
- **Digital (CH 1, 2, 3, 4):** AES/EBU format, XLR 3-pin
  - **(Serial):** 0.8Vp-p, 75Ω, BNC (option) SMPTE T14.224 x 2131D
  - **Cue:** Max. 18 dBs (Normal 8 dBs), low impedance, XLR 3-pin
  - **Monitor L/R:** Max. 28 dB (Normal 8 dBs), low impedance, XLR 3-pin
  - **Headphones:** Variable level control by VR

### General
- **CF Pulse In/Out:** TTL level, BNC
- **WFM Out:** 1.0Vp-p, 75Ω, BNC
- **Video/CTL/RF ENV A, C and/or ENV B, D/LTC (selectable)
- **Time Code:** 2.4Vp-p, low impedance, balanced, BNC
- **Remote:** For 9-pin RS-422A interface, D-sub 9-pin
- **Remote-Out:** For 9-pin RS-422A interface, D-sub 9-pin
- **RS-232C:** For RS-232C interface, D-sub 25-pin
- **GP-IB:** For GPIB (IEEE-488) interface
- **Parallel I/O:** For parallel communication, D-sub 50-pin
- **V/A Control:** For video remote control using BKDV-108, D-sub 15-pin
- **Control Panel:** For BKDV-202 (can be used as alternative to the front panel connector for control panel connection), 8-pin
- **Remote-In:** For BVR-2 remote controller, D-sub 15-pin
- **Power Consumption:** 0 dB = 0.775 Vrms
Composite Digital

DVR-P20
Composite Digital VTR Player

- Conforms to the NTSC D-2 format
- Direct access to operational functions and easy mode settings via the scroll menu with the BKDV-202: All of the information for operation provided via the large FL display (256 x 64 dots)
- Highly responsive tape handling in the jog and shuttle operations with newly developed Ultrasonic (US) guides
- Both M-size (max. 94 min.) and S-size (max. 32 min.) cassettes are available
- Digital Jog Sound allowing for full recovery of digital audio at slow speed and speedy and precise audio editing point decision
- Recognizable color pictures at shuttle speeds up to ±100 times normal speed
- Broadcast quality pictures provided within the Dynamic Tracking™ (DT) range of -1 to +3 times normal playback speed
- Automatic Equalization allowing adjustment-free operation
- Channel condition (error rate) monitoring
- Error Message Logger
- 20 bit/sample audio A/D and D/A converters achieving a wide dynamic range of 105 dB
- 10 bit/sample video A/D and D/A converters offering high quality picture reproduction for analog signal input/output
- Built-in test signal generators
- Multi-loop Test for precise analog video parameter set-up to compensate for signal degradation in analog video system
- Easy serviceability: Most of the circuitry placed on plug-in type boards; A self-diagnostics system

- **Dimensions (WHD):** 436 x 282 x 65.6 mm
  

### Composite Digital

- **Format:** SMPTE D-2 format
- **Tracks/Channels:** Digital video and audio (4 channels): 8 tracks/1 field
- **Frequency Response:** 20 Hz - 12 kHz ±3 dB
- **S/N Ratio:** 80 dB (Normal +8 dB), low impedance, XLR 3-pin
- **Wow and Flutter:** < 0.02% (at 1 kHz, unweighted)
- **Operating Level:** 0 dBs (Normal +8 dB), low impedance, XLR 3-pin

### Video Output

- **Analog (CH 1, 2, 3, 4):** Max. +26 dBs (Normal +8 dBs), low impedance, XLR 3-pin
- **Digital (CH 1, 2, 3, 4):** AES/EBU format, XLR 3-pin (Serial)
  - **Frequency Response:** 0.8 Vp-p, 75Ω, BNC (option) SMPTE T14.224 x 2131D (video and audio)
  - **S/N Ratio:** > 50 dB (at 3% distortion)
- **Audio Output:** Composite/non-composite switchable
- **Character:** AES/EBU format, XLR 3-pin (Serial)
  - **Frequency Response:** 0.8 Vp-p, 75Ω, BNC (option) SMPTE T14.224 x 2131D (video and audio)

### Audio Output

- **Analog (CH 1, 2, 3, 4):** Max. +26 dBs (Normal +8 dBs), low impedance, XLR 3-pin
- **Digital (CH 1, 2, 3, 4):** AES/EBU format, XLR 3-pin (Serial)
  - **Frequency Response:** 0.8 Vp-p, 75Ω, BNC (option) SMPTE T14.224 x 2131D (video and audio)
  - **S/N Ratio:** > 50 dB (at 3% distortion)

### Input/Output Signal

- **Video Input:** Digital: Test: ECL balanced, D-sub 25-pin SMPTE T14.224/082A format
  - **Reference:** Black burst signal, 0.3 Vp-p, 75Ω BNC
- **Video Output:** Analog (CH 1, 2): 1.0 Vp-p, 75Ω BNC
  - **Character:** Composite/non-composite switchable
- **Audio Output:** Max. +26 dBs (Normal +8 dBs), low impedance, XLR 3-pin
  - **Character:** AES/EBU format, XLR 3-pin (Serial)
  - **Frequency Response:** 0.8 Vp-p, 75Ω, BNC (option) SMPTE T14.224 x 2131D (video and audio)

### Power Requirements

- **Max. 600 VA**
- **AC -100V -120V ±10%, 50/60 Hz**
- **DC -100V -120V ±10%, 50/60 Hz**

### Dimensions (WHD):

- **171/4' x 11'/2'' x 25'/2''** (approx.)
- **Max. 32 min. with S cassette**
  - **Max. 94 min. with M cassette**
- **27.387 m/sec. (Normal speed)**
  - **131.7 mm/sec. (Normal speed)**
- **20 Hz -20 kHz ±0.5 dB/ -1.0 dB**
- **Quantization:** 20 bits/sample
  - **S/N Ratio:** > 50 dB (at 3% distortion)

### Video Bandwidth

- **Relative Speed:** 0 MHz -5.5 MHz ±0.3 dB, 0 MHz -10.5 MHz ±0.3 dB
  - **Quantization:** 8 bits/sample
  - **S/N Ratio:** > 50 dB (at 3% distortion)

### Video Phase

- **Delay:** ± 560 ns (280 ns/step)
- **Phase:** ± 15°

### Audio Output

- **Analog (CH 1, 2):** 1.0 Vp-p, 75Ω BNC
- **Digital (CH 1, 2):** AES/EBU format, XLR 3-pin (Serial)
  - **Frequency Response:** 0.8 Vp-p, 75Ω, BNC (option) SMPTE T14.224 x 2131D (video and audio)
  - **S/N Ratio:** > 50 dB (at 3% distortion)

### Audio Code

- **AES/EBU format, XLR 3-pin (Serial)**
  - **Frequency Response:** 0.8 Vp-p, 75Ω, BNC (option) SMPTE T14.224 x 2131D (video and audio)
  - **S/N Ratio:** > 50 dB (at 3% distortion)

### Digital Audio

- **Sampling Frequency:** 48 kHz (synchronized to video)
- **Quantization:** 20 bits/sample
  - **Frequency Response:** 20 Hz -20 kHz ±0.5 dB/ -1.0 dB
  - **Dynamic Range:** > 105 dB (at 1 kHz, emphasis ON)
  - **Distortion:** < 0.02% (at 1 kHz, emphasis ON, operating level)
  - **Cross Talk:** < 95 dB (at 1 kHz between any two channels)
  - **Wow and Flutter:** Below measurable limit

### Remote Control

- **For 9-pin RS-422A interface, D-sub 9-pin**
- **For 9-pin RS-422A interface, D-sub 9-pin**
- **For 9-pin RS-422A interface, D-sub 9-pin**
- **For 9-pin RS-422A interface, D-sub 9-pin**
  - **Character:** AES/EBU format, XLR 3-pin (Serial)
  - **Frequency Response:** 0.8 Vp-p, 75Ω, BNC (option) SMPTE T14.224 x 2131D (video and audio)
  - **S/N Ratio:** > 50 dB (at 3% distortion)

### Control Panel

- **For BKDV-202 (can be used as alternative to the front panel connector for control panel connection), 8-pin**
- **Remote-In:** For 9-pin RS-422A interface, D-sub 9-pin
  - **Character:** AES/EBU format, XLR 3-pin (Serial)
  - **Frequency Response:** 0.8 Vp-p, 75Ω, BNC (option) SMPTE T14.224 x 2131D (video and audio)
  - **S/N Ratio:** > 50 dB (at 3% distortion)

### Video Input

- **Digital:** Test: ECL balanced, D-sub 25-pin SMPTE T14.224/082A format
  - **Reference:** Black burst signal, 0.3 Vp-p, 75Ω BNC
BKDV-108
Digital Video Controller
- Up to four D-2 VTRs can be connected via RS-422 interface port.
- Precise control of video output parameters: Video level, chrominance gain, black level (setup level), hue (burst/chroma phase), video phase, sync phase, SC phase.
- Input video gain can be controlled.
- Unity (fix) and Variable modes for each parameter.
- Video level and SC-H phase of the incoming video are displayed with LED bargraphs.
- Fix, adjust, and free modes are available for input CF mode.
- A total of 99 settings can be stored and retrieved.

Specifications
- Power Requirements: AC-100V-120V ± 10% (BKDV-108)
  AC-220V-240V ± 10% (BKDV-109)
- Power Consumption: 10W
- Dimensions (WxHxD): 424 x 43.6 x 110mm
  (16¾" x 1½" x 4³⁄₄")
- Weight: 4 lb. 6 oz. (2 kg.)

BKDV-105/106
Serial Interface Board for the DVR-28/28P/18/18P

BKDV-205/206
Serial Interface Board for the DVR-20/20P

BKDV-110/111
Audio Program Play Board for the DVR-28/28P/18/18P

BKDV-201
Control Panel for the DVR-28/20/18/10 series
DFX-C2
Component Adaptor

With the adoption of Sony's newly developed co-efficient recording technology with effective data handling, the DFX-C2 enables a Sony DVR Series D-2 VTR to record a component digital signal onto a D-2 format tape. Using a large D-2 cassette, the DFX-C2 achieves a long recording time of 208 minutes for a component digital recording. Designed to be used exclusively with a Sony DVR Series D-2 VTR. The VTR requires a minor modification with an optional BKDV-C2 Update Kit. Even after installing this kit, conventional D-2 format recording is still possible. Supplied with SDI (Serial Digital Interface) which allows simple connection with SDI equipped devices, including Sony DVR Series D-1 VTRs and DVS Series digital switchers. With an optional BKDF-525 Component Analog Interface board installed, analog component signal can be directly input to the DFX-C2.

By installing an optional BKDF-21 Digital Rate Converter board, the playback signal of standard D-2 format tape can be decoded within the DFX-C2 and output through common connectors of both analog component and SDI. This allows significant flexibility to directly use existing -format archives in a component system environment.

Allows for Dynamic Tracking™ playback of the component digital signal, which provides a broadcast quality picture within the range of -1 to +3 times normal playback speed. Parameters of a video signal including Video Gain, Chroma Gain, Black level, Chroma Phase, Sync Phase, SC Phase can be manually adjusted. These parameters can also be controlled from an optional BVR-50 Remote Controller via a video control port.

Equipped with a built-in signal generator (Color bar and Black) which provides monitoring of the luminance (B/W) signal with the VTR character display superimposed. With the BKDF-525 installed, a composite signal is alternatively output through a common connector and additionally, analog component signals become available.

Supplied Accessories:
AC Power Cord
Rack Mount Angle (3U) (1 set)
Operation and Maintenance Manual (1 set)

Specifications
General
Power Requirements:
AC 90 to 132V, 50 Hz/60 Hz
AC 198 to 264V, 50 Hz/60 Hz
Power Consumption: 120W
Weight: 33 lb. (15kg.)
Dimensions (WHD): 424 x 132 x 450mm
(16½" x 5¼" x 17¾"")

Video
Sampling Frequency:
Y: 13.5 MHz
B-Y/R-Y: 6.75 MHz
Shuffling Size: 1 Field
S/N Ratio: 60 dB (Unweighted)
Bandwidth:
Y: 0 to 5.75 MHz ± 0.5 dB/6 MHz -3 dB
R-Y/B-Y:
0 to 2.75 MHz ± 0.5 dB/3 MHz -3 dB

Specifications—continued
Operating Level:
Y: 1.0Vp-p ±0.01
R-Y/B-Y: 0.7Vp-p ± 0.01
K Factor: < 1%
Skew: < 10 ns
Output Adjustable Range:
Video level: -3 dB to +3 dB
Chroma level: -3 dB to +3 dB
Chroma phase: ± 30°
Black level: ± 30 IRE
Sync phase: ± 1/2H (Coarse), 148 ns/step
SC Phase: ± 1 subcarrier (fine), 0.6 ns/step

Input/Output Video
Digital:
BNC with active through out, Serial digital interface, SMPTE 259M (270 Mb/s), 0.8Vp-p, 75Ω
Analog (option):
BNC: Y: 1.0Vp-p, 75Ω
B-Y: 0.7Vp-p, 75Ω
R-Y: 0.7Vp-p, 75Ω

BVH-3000
1-inch VTR

New air threading technology limits tape handling to a
minimum for ease of operation and improved tape pro-
tection. TBC function supplied as a standard to operate
with an optional TBC processor (TBC processor is nec-
essary for VTR operation). Selectable TBC processor:
Standard TBC Processor or High Quality TBC Processor.
High Quality TBC Processor provides a steady DT play-
back picture. Separate SC-H phase meters for tape
SC-H phase and reference signals provided. Field
Freeze function. New self-aligning DT system for Dy-
namic Tracking playback within the DT range of
-3 times normal playback speed
High quality audio
noise reduction system (Dolby A/Dolby SR) offered by
Audio Processor Board (option). Multifunction
Serviceability improved with the one-board/one-func-
tion construction. Full scale built-in editing capability
Video/Audio confidence playback. Versatile system
interface. Two hour recording and playback. Self-diag-
nostics.

Specifications—continued

Tape Timer Accuracy: ± 1 frame (with continuous control
signal)
Fast Forward/Rewind Time: Within 110 sec. (with 1 hour tape)
Transfer Time:
Recommended Tapes: Sony’s 1” High Density Tape or
 equivalant
Reel Size: NAB Standard (6.5” – 11.75” type)
(VIDEO TBC-output: using BKH-3010/3050 (NTSC)
BKH-3020/3060 (PAL/SECAM))
Video Bandwidth: Flat to 4.2 MHz: ± 0.5 dB
4.5 MHz: -3 dB (TBC output)
SN Ratio: > 49 dB (unweighted) self recording
(Demodulator output, with Sony V1-K tape)
“K” Factor (2T pulse): < 1% (TBC output)
Tilt (H and V): < 1% (TBC output)
Moiré: < -40 dB (75% color bars)
Chrominance/Luminance Delay: < 20 ns (TBC output)
Low Frequency Linearity: < 2% 
Output SC-H Phase: Base upon RS-170A

AUDIO
Frequency Response: CH-1, CH-2 and CH-3
50 Hz–15 kHz (+ 1.5/-3.0)dB
200 Hz–7.5 kHz ± 1.0 dB
S/N Ratio:
(at 1 KHz, 3% distortion level):
CH-1, CH-2: > 56 dB
CH-3: > 50 dB with BKH-3080 (Dolby
on mode, available only on audio CH-1
and CH-2)
Distortion:
(at 1 kHz, operating level):
CH-1, CH-2 and CH-3 < 1%
Wow & Flutter: < 0.1% rms (0.5 Hz–200 Hz NAB
unweighted)
Crosstalk (at 1 kHz): Between any two channels < -60 dB

Specifications

GENERAL
Power Requirements: AC-100V–120V ± 10%, 50/60Hz
Power Consumption: 500W (max)
Operating Temperature: 5°C to 40°C (41°F to 104°F)
Humidity: 10%–90% (non-condensing)
Weight: 147 lb. 11 oz. (67 kg.) (approx.)
Dimensions (WHD):
(Including handle & foot): 570 x 762 x 572mm
(22½” x 30¼” x 22½”) (approx.)
Recording Format: SMPTE TYPE-C, high band FM recording
1.5 Head System:
1 head for Video track
1 head for Sync track
Tracks: 1 Video
1 Sync
2 Audio
1 Audio-3 tracks (time code and cue)
1 Control
Tape Speed: 24.4 cm/sec.
Writing Speed (Relative): 25.59 ms
Recording Time: 126 min. (with 11.75” reel)
Time Base Stability: Within 3 µs p-p
Servo Lock Time: 2 sec. (with frame capstan servo mode from
standby mode) (approx.)
BVH-3100

1-Inch VTR

- Non-sync head version of BVH-3000
- New air threading technology limits tape handling to a minimum for ease of operation and improved tape protection
- TBC function supplied as a standard to operate with an optional TBC processor (TBC processor is necessary for VTR operation)
- Selectable TBC processor: Standard TBC Processor or High Quality TBC Processor
- High Quality TBC Processor provides a steady DT playback picture
- Separate SC-H phase meters for tape SC-H phase and reference signals provided
- Field Freeze function
- New self-aligning DT system for Dynamic Tracking playback within the DT range of -1 to +3 times normal playback speed
- High quality audio noise reduction system (Dolby A/Dolby SR) offered by Audio Processor Board (option)
- Multicue function
- Serviceability improved with the one-board/one-function construction
- Full scale built-in editing capability
- Video/Audio confidence playback
- Versatile system interface
- Two hour recording and playback
- Self-diagnostic

Supplied Accessories:
- EX-136 Extension Board
- R1-11VA Empty Reel
- 37-pin D-sub Connector
- 50-pin D-sub Connector
- Phone Plug Adaptor
- Key ID Label
- Overlay Sheet (Printed)
- Overlay Sheet (Blank)
- Maintenance Sheet
- Screw and Washers
- Operation and Maintenance Manual

Optional Accessories:
- BKH-3001 Side Panel
- BKH-3002 Interface Board
- BKH-3010 Standard TBC Processor
- BKH-3050 High Quality TBC Processor
- gK1-3060 Audio Processor Board
- BKH-3090 Remote Controller
- R1-11VA Air Threading Take-up Reel

Specifications—continued

Recommended Tapes: Sony's 1" High Density Tape or equivalent
Reel Size: NAB Standard (6.5" -11.75" type)

VIDEO (TBC-output: using BKH-3010/3050 (NTSC)

DVW-A500
Digital Betacam Editing Recorder with Analog Betacam SP Playback Capability

- Superb picture quality—Component digital recording provides superb picture quality and multi-generation capability, overcoming the limitations of analog recording. Digital BETACAM adopts newly developed coefficient recording technology within the signal process which has made possible the recording of component digital signals within a BETACAM size VTR and cassette tape.
- High quality digital audio—Provides the capability to record four channels of 20-bit digital audio signals which can be independently editable.
- Long recording time—new metal particle cassette tapes for Digital BETACAM VTRs have the same dimensions as current BETACAM cassettes. A large cassette provides a maximum recording time of 124 minutes, a small cassette supports up to 40 minutes of recording.
- BETACAM SP playback capability—This compatibility is highly beneficial for users to utilize existing tape archives while realizing many advantages of digital technology.
- Compact and lightweight—The same dimensions as current BETACAM SP studio VTRs
- Library Management System™ (LMS), Betacart® and Flexicart™ Multicassette applications—Because the dimensions are the same as current BETACAM SP VTRs and cassette tape, Digital BETACAM VTRs and tape can easily be installed in the BVC Series LMS and Flexicart Multi-cassette systems.
- Serial Digital Interface—Conforms to the SMPTE 259M
- Digital Jog Sound—Complete reproduction of four channels of digital audio is achieved within the range of -1 to +1 times normal playback speed even in the Jog mode.
- High speed picture search—Recognizable color pictures up to approx. ± 50 times normal playback speed
- Dual dial operation—To select Jog and Shuttle modes
- Dynamic Tracking™ playback—Provides broadcast quality pictures over the range of -1 to +3 times normal playback speed. Equipped with dedicated analog DT heads, the DVW-A500 can also provide DT playback of analog signals from BETACAM tapes within the same range.
- Program Play—Allows video recordings to be reproduced within the range of ±15% normal speed in increments of 0.1%
- Read before Write; preread editing capability
- Digital Audio Crossfade
- Automatic Equalizer
- Auto Edit Tracking—For accurate tracking during editing.
- Easy maintenance—Most of the circuits are arranged on plug-in boards which allow quick and easy maintenance. Additionally, the DVW-A500 is equipped with a sophisticated diagnostic function. It also employs an automatic alignment system to adjust the RF equalizer and Servo system after rotary scanner replacement.
Digital Betacam

(DVW-A500, cont.)

Digital I/O

■ Serial digital video and audio—The DVW-A500 is equipped with SDI (Serial Digital Interface) which conforms to the SMPTE 259M. ■ Serial digital audio—The DVW-A500 is equipped with digital audio input and output ports conforming to AES/EBU format synchronizing video.

Analog I/O

■ Analog component video, four channels of analog audio, cue audio I/O ports and analog composite video output ports. Additionally, with the BKDW-505 optional Decoder Board, an analog composite video NTSC signal can be directly input.

Remote

■ RS-422A—Serial communication ports ■ RS-232C—A serial communication port ■ Parallel I/F ■ Video Control—15-pin video control port ■ Control panel—The control panel can be completely detached from the DVW-A500 and remote operation can be extended up to 10m with an optional BKDW-510/511 Control Panel Extension Kit.

Supplied Accessories:

AC Power Cord
RCC-5G 9-pin Remote Control Cable
PSW 4 x 16 Screws for Rack Mounting
Operation Manual
Installation Manual
Maintenance Manual

Optional Accessories:

BKDW-510/511 Control Panel Extension Kit
(for Component Digital VTRs)
BVR-50 Video Processor Controller
(for Component Digital VTRs)
DFX-1201 Digital Rate Converter
DDU-2100 Digital Audio Delay Unit
BKDV-115 Serial Interface Unit
BVX-D10 Digital Color Corrector
PFV-D50/D100/D200 Digital Video Interface Unit
DAF-2000 Audio Converter Unit
DFX-2400 Digital Audio Sampling Rate Converter
BKDV-2085 Digital 4:2:2 Input Kit
(for BVM-1910/1912/1915/1310/1315 Series)
DMIF-1000 Digital Monitor Interface
(for PVM-1344Q/1444QM/1944QM/2044QM Series)
RCC-5G/10G/30G Remote Control Cable
ECD-5C/10C/30C Digital Audio Cable (3m, 10m, 30m)
BCT-D6/D12/D22/D32/D40 Small Digital Video Cassette
BCT-D34L/D64L/D94L/D124L Large Digital Video Cassette
BKDW-505 Analog Composite Decoder Board
BKDW-507 Audio Program Play Board
BCT-5CLN Cleaning Cassette
BKDW-509 Parallel (50P) Interface Kit
(for Component Digital VTRs)
RMM-110 Rack Mount Kit

Specifications

General

Power Requirements: AC-90V to 265V
Power Consumption: 48 Hz - 64 Hz
DVW-A500: 260W
Operating Temperature: 5°C to 40°C (41°F to 104°F)
Storage Temperature: -20°C to 60°C (-4°F to 140°F)
Humidity: 25% - 80% (relative humidity)
Weight: 75 lb (34 kg)
Dimensions (WHD): 427 x 237 x 520mm (16 1/8" x 9 1/2" x 20 1/2") (including feet)

Recording Format: Digital BETACAM
Tape Speed: Digital BETACAM: 96.7mm/sec.
BETACAM playback: 118.6mm/sec.
Digital Record/Playback Time: Max. 124 min. with large cassette
Analog Playback Time: Max. 90 min. with large cassette
Recommended Tape: Sony BCT-D6/D12/D22/D32/D40
BCT-D34L/D64L/D94L/D124L
BETACAM SP cassette

Fast Forward
Rewind Time: < 3 min. with large cassette
Search Speed: Still to Approx. ± 50 times normal playback speed (Shuttle Mode)
Dynamic Tracking Range: –1 to + 3 times normal playback speed (Variable Mode)
Sevo Lock Time: 0.5 sec. or less (from standby on with color frame servo)
Load/Unload Time: 5 sec. or less with large cassette
4 sec. or less with small cassette

Input/Output Signal

Video

Input
Serial Digital Interface: BNC (x1) with active through out, SMPTE 259M, 270 Mbits/sec.
Analog Component: BNC (x1), Y/R-Y/B-Y
Y: 1.0Vp-p, 75Ω
R-Y/B-Y: 0.7Vp-p, 75Ω
Analog Composite: BNC (x1) with loop through
Y: 1.0Vp-p, 75Ω (with use of optional BKDW-505)
Reference: BNC (x1) with loop through
0.3Vp-p, 75Ω

Output
Serial Digital Interface: BNC (x4), SMPTE 259M
270 Mbits/sec. (Including 1 character out)
Analog Component: BNC (x1), Y/R-Y/B-Y
Y: 1.0Vp-p, 75Ω
R-Y/B-Y: 0.7Vp-p, 75Ω
Analog Composite: BNC (x3) 1.0Vp-p, 75Ω
(including 1 character out)

Audio

Input
Digital:
XLR 3-pin (CH 1, 2, 3, 4)
AES/EBU format stereo mode, balanced
BNC (SDI, video & audio)
SMPTE 259M, 270 Mbits/sec.
Analog:
XLR 3-pin (CH 1, 2, 3, 4, Cue)
LOW OFF: –60 dBu, High
impedance, balanced
HIGH OFF: +4 dBu, High
impedance, balanced
HIGH ON: +4 dBm
600Ω termination, balanced
Digital Betacam Specifications

### Output

**Digital:** XLR 3-pin (CH1/2, 3/4)
- AES/EBU format stereo mode, balanced
- BNC (SDI, video & audio) SMPTE 25M, 270 Mbits/sec.

**Analog:** XLR 3-pin (CH 1, 2, 3, 4, Cue)
- + 4 dBm at 600Ω load
- low impedance, balanced

**Monitor L/R:**
- XLR 3-pin, +4 dBm at 600Ω load
- low impedance, balanced

**Headphones:**
- JM-60 stereo phone jack
- -0.0 to -12 dBu at 8Ω load

**Time Code**

**Input:** XLR 3-pin, 0.5Vp-p to 1.8Vp-p, 10 kΩ, balanced

**Output:** XLR 3-pin, 2.2Vp-p, low impedance, balanced

**Remote**

**Remote 1 in:** D-sub 8-pin, RS-422A interface
**Remote 1 out:** D-sub 8-pin, RS-422A interface
**Parallel I/O (Remote 2) (option):**
- D-sub 50-pin, (with BKDW-509 Parallel Interface Kit)

**Video Control:**
- D-sub 15-pin, (for BVR-50 Remote Controller)

**Control Panel:**
- 15-pin, (for optional BKDW-510/511 Control Panel Extension Kit)

### Processor Adjustment Range

- **Video Level:** $\pm 3$ dB
- **Chroma Level:** $\pm 3$ dB
- **Setup/Level:** $\pm 30$ IRE
- **Hue:** $\pm 30^\circ$
- **System Sync Phase:** $\pm 15$ μs
- **System SC Phase:** $\pm 200$ ns
- **Y/C Delay:** $\pm 100$ ns (analog BETACAM playback only)

### Video/Audio Performance for BETACAM SP Playback

#### Digital Audio (DA 1 to DA 4 channels)

- **Sampling Frequency:** 48 kHz (synchronized with video)
- **Quantization:** 20 bits/sample
- **A/D and D/A quantization:** 18 bits/sample
- **Dynamic Range:** 85 dB (at 1 kHz, emphasis ON)
- **Distortion:** < 0.05% (at 1 kHz, emphasis ON, reference level)
- **Cross Talk:** < -80 dB (at 1 kHz, between any two channels)
- **Wow & Flutter:** Below measurable level
- **Head Room:** 20 dB

#### Analog Audio (Cue track)

- **Frequency Response:** 100 Hz to 12 kHz ± 3 dB
- **S/N Ratio:** > 45 dB (at 3% distortion level)
- **Distortion:** < 2% (T.H.D at 1 kHz reference level)
- **Wow & Flutter:** < 0.2% rms

*Reference level: +4 dBm

### Video/Audio Performance

#### Digital Video

- **Sampling Frequency:** Y: 13.5 MHz
- **Quantization:** 10 bits/sample
- **Error Correction:** Reed-Solomon code
- **Error Concealment:** Adaptive three dimensional

#### Digital In/Analog Component Out

- **Bandwidth:** Y: 0 to 5.75 MHz ± 0.5 dB / R-Y/B-Y: 0 to 2.75 MHz ± 0.5 dB
- **S/N Ratio:** 62 dB or more
- **K-Factor:** 1% or less

#### Digital In/Analog Composite Out

- **Bandwidth:** Y: 0 to 5.75 MHz + 0.5 dB / R-Y/B-Y: 0 to 3 dB
- **Differential Gain:** 2% or less
- **Differential Phase:** 2° or less
- **Y/C Delay:** 20 ns or less
- **K-Factor:** 1% or less

#### Analog Component In/Analog Component Out

- **Input A/D Quantization:** 8 bits/sample
- **Bandwidth:** Y: 0 to 5.75 MHz ± 0.7 dB / R-Y/B-Y: 0 to 2.75 MHz ± 0.7 dB
- **S/N Ratio:** 58 dB or more
- **K-Factor:** 1% or less
- **LF Non-Linearity:** 2.5% or less

#### Analog Audio (Cue track)

- **Frequency Response:** Y: 20 Hz to 20 kHz +0.5 dB / -2.0 dB
- **S/N Ratio:** > 85 dB
- **Distortion:** < 0.5% (T.H.D at 1 kHz reference level)
- **Stereo Phase:** < 10°
- **Cross Talk:** < -70 dB
- **Longitudinal Frequency Response:** Y: 20 Hz to 20 kHz +0.5 dB / -2.0 dB
- **S/N Ratio:** > 85 dB
- **Distortion:** < 0.5% (T.H.D at 1 kHz reference level)
- **Stereo Phase:** < 10°
- **Wow & Flutter:** < 0.1% rms

*Reference level: +4 dBm

Digital Betacam and Betacam SP Player

- Superb picture quality—Component digital recording provides superb picture quality and multi-generation capability, overcoming the limitations of analog recording. Digital BETACAM adopts newly developed coefficient recording technology within the signal process which has made possible the recording of component digital signals within a BETACAM size VTR and cassette tape.
- High quality digital audio—Provides the capability to playback four channels of 20-bit digital audio signals which can be independently editable.
- BETACAM SP playback capability—To play back tapes which are recorded in the current BETACAM SP (Metal/Oxide tape) format. This compatibility is highly beneficial for users to utilize existing tape archives while realizing many advantages of digital technology.
- Compact and lightweight—The same dimensions as current BETACAM SP studio VTRs.
- Library Management System™ (LMS), Betacart® and Flexicart™ Multicassette applications—Because the dimensions are the same as current BETACAM SP VTRs and cassette tape, Digital BETACAM VTRs and tape can easily be installed in the BVC Series LMS and Flexicart Multi-cassette systems.
- Serial Digital Interface—Conforms to the SMPTE 259M.
- Digital Jog Sound—Complete reproduction of four channels of digital audio is achieved within the range of −1 to +1 times normal playback speed even in the Jog mode.
- High speed picture search—Recognizable color pictures up to approx. ±50 times normal playback speed.
- Dual dial operation—To select Jog and Shuttle modes.
- Dynamic Tracking™ playback—Provides broadcast quality pictures over the range of −1 to +3 times normal playback speed. Equipped with dedicated analog DT heads, the DVW-A510 can also provide DT playback of analog signals from BETACAM tapes within the same range.
- Program Play—Allows video recordings to be reproduced within the range of ±15% normal speed in increments of 0.1%.
- Automatic Equalizer
- Easy maintenance—Most of the circuits are arranged on plug-in boards which allow quick and easy maintenance. Additionally, the DVW-A510 is equipped with a sophisticated diagnostic function. It also employs an automatic alignment system to adjust the RF equalizer and Servo system after rotary scanner replacement.

Digital I/O

- Serial digital video and audio—The DVW-A510 is equipped with SDI (Serial Digital Interface) which conforms to the SMPTE 259M.
- Serial digital audio—The DVW-A510 is equipped with digital audio input and output ports conforming to AES/EBU format synchronizing video.
### Analog I/O
- Analog component video, four channels of analog audio, cue audio I/O ports and analog composite video output ports.

### Remote
- RS-422A—Serial communication ports.
- RS-232C—A serial communication port.
- Parallel I/F—15-pin video control port.
- Control panel—The control panel can be completely detached from the DVW-A510 and remote operation can be extended up to 10m with an optional BKDW-510/511 Control Panel Extension Kit.

#### Supplied Accessories:
- AC Power Cord
- RCC-5G 9-pin Remote Control Cable
- PSW 4 x 16 Screws for Rack Mounting
- Installation Manual

#### Optional Accessories:
- BKDW-510/511 Control Panel Extension Kit
- BVR-50 Video Processor Controller
- DFX-2400 Digital Audio Sampling Rate Converter
- DAF-2000 Audio Converter Unit
- BKM-2085 Digital 4:2:2 Input Kit
- DDU-2100 Digital Audio Delay Unit
- DFX-1201 Digital Rate Converter
- BVR-50 Video Processor Controller
- BKDW-510/511 Control Panel Extension Kit
- Optional Accessories:
  - Maintenance Manual
  - Installation Manual
  - Operation Manual
  - PSW 4 x 16 Screws for Rack Mounting
  - RCC-5G 9-pin Remote Control Cable
  - AC Power Cord

#### Recommended Tape:
- Sony BCT-D6/D12/D22/D32/D40
- Sony BCT-D34L/D64L/D94L/D124L
- BETACAM SP cassette
- Sony BCT-D6/D12/D22/D32/D40
- Sony BCT-D34L/D64L/D94L/D124L

#### Power Requirements:
- AC-90V to 265V
- 48 Hz - 64 Hz

#### Time Code
- Output: XLR 3-pin, 2.2Vp-p, low impedance, balanced

#### Processor Adjustment Range
- Video Level: ±3 dB, ±0.5 sec to +3 dB selectable
- Chroma Level: ±3 dB, ±0.5 sec to +3 dB selectable
- Setup/Level:
  - ±30 IRE
  - ±30°
- Hue: ±15 μs
- System Sync Phase: ±15 μs
- System 5C Phase: ±200 ns
- Y/C Delay: ±100 ns (analog BETACAM playback only)

#### Input/Output Signal

### Specifications—continued

#### Dynamic Tracking Range:
- -1 to +3 times normal playback speed (Variable Mode)

#### Sevo Lock Time:
- 0.5 sec, or less (from standby on with color frame servo)

#### Load/Unload Time:
- 5 sec, or less with large cassette
- 4 sec, or less with small cassette

#### Analog Component Video Input

#### Analog Composite Video Input

| Reference | BNC (x1) with loop through 0.3Vp-p, 75Ω |

### Audio

#### Analog
- Analog: XLR 3-pin (CH 1, 2, 3, 4, Cue)
- LOW OFF: -60 dBu, high impedance, balanced
- HIGH OFF: +4 dBu, high impedance, balanced
- HIGH ON: +4 dBm
- 600Ω termination, balanced

#### Digital
- XLR 3-pin (CH 1/2, 3/4)
- AES/EBU format stereo mode, balanced
- BNC (SDI, video & audio)
- SMPTE 259M, 270 Mbits/sec.

#### Analog Composite
- XLR 3-pin (CH 1, 2, 3, 4, Cue)
- +4 dBm at 600Ω load
- low impedance, balanced
- Monitor L/R: XLR 3-pin, +4 dBm at 600Ω load
- low impedance, balanced
- Headphones: JM-60 stereo phone jack, -∞ to -12 dBu at 8Ω load, unbalanced

### Time Code

| Output | XLR 3-pin, 2.2Vp-p, low impedance, balanced |

Digital Betacam
### Digital Betacam

#### Specifications (DVW-A510, cont.)

**Video/Audio Performance**

**Digital Video**
- **Sampling Frequency:**
  - Y: 13.5 MHz
  - R-Y/B-Y: 6.75 MHz
- **Quantization:** 10 bits/sample
- **Error Correction:** Reed-Solomon code
- **Error Concealment:** Adaptive three dimensional

**Digital In/Analogue Component Out**
- **Bandwidth:**
  - Y: 0 to 5.75 MHz ± 0.5 dB
  - R-Y/B-Y: 0 to 2.75 MHz ± 0.5 dB
- **S/N Ratio:** 62 dB or more
- **K-Factor (2T pulse):** 1% or less

**Digital In/Analogue Component Out**
- **Bandwidth:**
  - Y: 0 to 5.5 MHz ± 0.5 dB
  - R-Y/B-Y: 0 to 2.75 MHz ± 0.5 dB
- **S/N Ratio:**
  - Y: 62 dB or more
  - R-Y/B-Y: 51 dB or more
  - R-Y/B-Y: 48 dB or more
- **K-Factor**: 2% or less

**Analogue Component In/Analogue Component Out**
- **Input A/D Quantization:** 8 bits/sample
- **Bandwidth:**
  - Y: 0 to 5.75 MHz ± 0.7 dB
  - R-Y/B-Y: 0 to 2.75 MHz ± 0.7 dB
- **S/N Ratio:** 56 dB or more
- **K-Factor (2T Pulse):** 1% or less
- **LF Non-Linearity:** 2.5% or less

**Digital Audio (DA 1 to DA 4 channels)**
- **Sampling Frequency:** 48 kHz (synchronized with video)
- **Quantization:** 20 bits/sample
- **Frequency Response:**
  - 20 Hz to 20 kHz
  - + 0.5 dB/ - 1.0 dB (0 dB at 1 kHz)
- **Dynamic Range:**
  - > 95 dB (at 1 kHz, emphasis ON)
  - > 85 dB (at 1 kHz, emphasis OFF)
  - > 95 dB (at 1 kHz, between any two channels)
- **Distortion:**
  - < 0.05% (at 1 kHz, emphasis ON, reference level)
- **Cross Talk:**
  - < - 65 dB (at 1 kHz, reference level)
- **Head Room:**
  - 20 dB
- **Emphasis:**
  - T1 = 50 µs, T2 = 15 µs
  - (ON/OFF selectable)

**Analogue Audio (Cue track)**
- **Frequency Response:** 100 Hz to 12 kHz ± 3 dB
- **S/N Ratio:** > 45 dB (at 3% distortion level)
- **Distortion:** < 2% (T.H.D at 1 kHz reference level)
- **Wow & Flutter:** < 0.2% rms

*Reference level: +4 dBm

**DVW-500**

**Digital Betacam Editing Recorder**

- Superb picture quality—Component digital recording provides superb picture quality and multi-generation capability, overcoming the limitations of analog recording. Digital BETACAM adopts newly developed coefficient recording technology within the signal process which has made possible the recording of component digital signals within a BETACAM size VTR and cassette tape.  
- High quality digital audio—Provides the capability to record four channels of 20-bit digital audio signals which can be independently editable.  
- Long recording time—new metal particle cassette tapes for Digital BETACAM VTRs have the same dimensions as current BETACAM cassettes. A large cassette provides a maximum recording time of 124 minutes, a small cassette supports up to 40 minutes of recording.  
- Compact and lightweight—The same dimensions as current BETACAM SP studio VTRs.  
- Library Management System™ (LMS), Betacart® and Flexicart™ Multicassette applications—Because the dimensions are the same as current BETACAM SP VTRs and cassette tape, Digital BETACAM VTRs and tape can easily be installed in the BVC Series LMS and Flexicart Multi-cassette systems.  
- Serial Digital Interface—Conforms to the SMPTE 259M.  
- Digital Jog Sound—Complete reproduction of four channels of digital audio is achieved within the range of −1 to +1 times normal playback speed even in the Jog mode.  
- High speed picture search—Recognizable color pictures up to approx. ±50 times normal playback speed.  
- Dual dial operation—To select Jog and Shuttle Modes  
- Dynamic Tracking™ playback—Provides broadcast quality pictures over the range of −1 to +3 times normal playback speed.  
- Program Play—Allows video recordings to be reproduced within the range of ±15% normal speed in increments of 0.1%.  
- Read before Write; preread editing capability  
- Digital Audio Crossfade—Automatic Equalizer—Auto Edit Tracking—For accurate tracking during editing  
- Easy maintenance—Most of the circuits are arranged on plug-in boards which allow quick and easy maintenance. Additionally, the DVW-500 is equipped with a sophisticated diagnostic function. It also employs an automatic alignment system to adjust the RF equalizer and Servo system after rotary scanner replacement.  

**Digital I/O**

- Serial digital video and audio—The DVW-500 is equipped with SDI (Serial Digital Interface) which conforms to the SMPTE 259M.  
- Serial digital audio—The DVW-500 is equipped with digital audio input and output ports conforming to AES/EBU format synchronizing video.
Digital Betacam

(DVW-500, cont.)

Analog I/O
- Analog component video, four channels of analog audio, cue audio I/O ports and analog composite video output ports. Additionally, with the BKDW-505 optional Decoder Board, an analog composite video NTSC signal can be directly input.

Remote
- RS-422A—Serial communication ports
- RS-232C—A serial communication port
- Parallel I/F—Video control—15-pin video control port
- Control panel—The control panel can be completely detached from the DVW-500 and remote operation can be extended up to 10m with an optional BKDW-510/511 Control Panel Extension Kit.

Supplied Accessories:
- AC Power Cord
- RCC-5G 9-pin Remote Control Cable
- PSW 4 x 16 Screws for Rack Mounting
- Operation Manual
- Maintenance Manual

Optional Accessories:
- BKDW-510/511 Control Panel Extension Kit
- BVR-50 Video Processor Controller
- DFX-2101 Digital Rate Converter
- DFX-1201 Digital Rate Converter
- ODU-2100 Digital Audio Delay Unit
- BKDV-115 Serial Interface Unit
- BXY-D10 Digital Color Corrector
- PFY-D50/D100/D200 Digital Video Interface Unit
- DAF-2000 Audio Converter Unit
- DFX-2400 Digital Audio Sampling Rate Converter
- BKM-2085 Digital 4:2:2 Interface
- Specification-continued

Specifications
- Recording Format: Digital BETACAM
- Tape Speed: Digital BETACAM: 96.7 mm/sec.
- Digital Record/Playback Time: Max. 124 min. with large cassette
- Recommended Tape: Sony BCT-D6/D12/D22/D32/D40
- BCT-D34L/D64L/D94L/D124L
- Fast Forward: < 3 min. with large cassette
- Rewind Time: Still to Approx. ± 50 times normal playback speed (Shuttle Mode)
- Search Speed: Still to Approx. ± 3 times normal playback speed (Shuttle Mode)
- Dynamic Tracking Range: 1 to + 3 times normal
- Sevo Lock Time: 0.5 sec. or less (from standby on with color frame servo)
- Load/Unload Time: 5 sec. or less with large cassette

Input/Output Signal Video Input
- Serial Digital Interface: BNC (x1) with active through out, SMPTE 259M, 270 Mbits/sec.
- Analog Component: BNC (x1), Y/R-Y/B-Y
- Y: 1.0Vp-p, 75Ω
- R-Y/B-Y: 0.7Vp-p, 75Ω
- Reference: BNC (x1) with loop through 0.3Vp-p, 75Ω

Audio Input
- Digital: XLR 3-pin (CH 1/2, 3/4) AES/EBU format stereo mode, balanced
- BNC (SDI, video & audio) SMPTE 259M, 270 Mbits/sec.
- Analog: XLR 3-pin (CH 1, 2, 3, 4, Cue) LOW OFF: -60 dBu, high impedance, balanced
- HIGH OFF: + 4 dBu, high impedance, balanced
- HIGH ON: + 4 dBm 600Ω termination, balanced

Input/Output Signal—continued Video Output
- Serial Digital Interface: BNC (x4), SMPTE 259M 270 Mbits/sec. (including 1 character out)
- Analog Component: BNC (x1), Y/R-Y/B-Y
- Y: 1.0Vp-p, 75Ω
- R-Y/B-Y: 0.7Vp-p, 75Ω
- Analog Composite: BNC (x3) 1.0Vp-p, 75Ω (including 1 character out)

Audio Output
- Digital: XLR 3-pin (CH 1/2, 3/4) AES/EBU format stereo mode, balanced
- BNC (SDI, video & audio) SMPTE 259M, 270 Mbits/sec.
- Analog: XLR 3-pin (CH 1, 2, 3, 4, Cue) LOW OFF: -60 dBu, low impedance, balanced
- HIGH OFF: + 4 dBu, low impedance, balanced
- HIGH ON: + 4 dBm 600Ω load, low impedance, balanced

Monitor L/R: XLR 3-pin, + 4 dBm at 600Ω load, low impedance, balanced

Headphones: JM-60 stereo phone jack, -∞ to -12 dB at 8Ω load, unbalanced

L-34
**Specifications—continued**

**Time Code**
- **Input**: XLR 3-pin, 0.5Vp-p to 18Vp-p, 10 kΩ, balanced
- **Output**: XLR 3-pin, 2.2Vp-p, low impedance, balanced

**Remote**
- Remote 1 in: D-sub 9-pin, RS-422A interface
- Remote 1 out: D-sub 9-pin, RS-422A interface
- RS-232C: D-sub 25-pin, RS-232C interface
- Parallel I/O (Remote 2) (option): D-sub 50-pin, (with BKDW-509 Parallel (50P) Interface Kit)
- Video Control: D-sub 15-pin, (for BVR-50 Remote Controller)
- Control Panel: 15-pin, (for optional BKDW-510/511 Control Panel Extension Kit)

**Processor Adjustment Range**
- **Video Level**: ±3 dB/∞ to +3 dB selectable
- **Chroma Level**: ±3 dB/∞ to +3 dB selectable
- **Setup/Level**: ±30 IRE
- **Hue**: ±30°
- **System Sync Phase**: ±15 µs
- **System SC Phase**: ±200 ns

**Video/Audio Performance**

**Digital Video**
- **Sampling Frequency**: Y: 13.5 MHz
- **Quantization**: 10 bits/sample
- **Error Correction**: Reed-Solomon code
- **Error Concealment**: Adaptive three dimensional

Betacam SP

BVW-D265
Betacam SP Studio Player with 4 fsc Serial Output

- 4 fsc composite serial digital video interface (D-2): Four outputs also carry four audio channels in digitized form; Single coaxial cable provides both video and audio output interfacing; Digital audio output also through AES/EBU format via XLR connectors
- Component video analog output (Y/R-Y/B-Y) and composite
- More than 90 minutes of playback time using the L-cassette
- Two AFM audio channels in addition to two longitudinal audio channels with the Dolby C-Type NR (Noise Reduction) system
- Dynamic Tracking (DT) provides broadcast quality pictures from -1 to +3 times normal speed
- Dynamic Motion Control playback with DT variable memory
- High speed picture search provides recognizable color picture at up to 10 times normal speed in forward and reverse (35 times in monochrome)
- RS-422 9-pin remote control interface
- 36-pin parallel remote control interface capability
- Built-in sophisticated TBC with 32 line correction window and advanced, high quality, digital dropout compensator
- Built-in LTC/VITC/User Bits reader
- Built-in character generator provides "Burnt-in" time code output
- Built-in capstan override allows playback tape speed to be varied ±20% normal speed in 1% steps via the search dial
- Initial setup offers operational flexibility via the search dial
- Built-in self-diagnostics

Supplied Accessories:
- AC Power Cord
- RCC-5G Remote Control Cable (9-pin)
- Extension Board (2)
- Operation and Maintenance Manual

Optional Accessories:
- BVR-75A Remote Control Unit
- BVR-50 TBC Remote Controller
- BVX-D10 Digital Color Corrector
- RMM-100 Rack Mount Kit
- RCC-5G/10G/30G Remote Control Cable (5m/10m/30m)
- ECD-3C/10C/30C Digital Audio Cable (3m/10m/30m)
- BCT-5M/10M/20M/30M Metal Particle Videocassette Tapes (Small Cassette)
- BCT-5ML/10ML/20ML/30ML/60ML/90ML Metal Particle Videocassette Tapes (Large Cassette)
## Specifications

### General
- **Power Requirements:** AC-90V–265V, 48 Hz–64 Hz
- **Power Consumption:** 210W
- **Operating Temperature:** 5°C to 40°C (41°F to 104°F)
- **Storage Temperature:** –20°C to 60°C (4°F to 140°F)
- **Humidity:** < 80% (relative humidity)
- **Weight:** 66 lb. 3 oz. (30 kg.) (approx.)
- **Tape Speed:** 11.86 cm/sec.
- **Playback Time:** > 90 min. (BCT-90ML)
- **Rewind Time:** > 30 min. (BCT-30M)
- **Search Speed:**< 3 min. with BCT-90ML
- **Dynamic Tracking Range:**< 1 to + 3 times normal speed
- **Lock Up Time:**< 0.6 sec. from standby mode

### Signal Inputs
- **REF VIDEO IN (BNC):** 1.0Vp-p, 75Ω

### Signal Outputs
- **D-2 V/A Serial (BNC x 4):** 0.8Vp-p, 75Ω
- **DIGITAL AUDIO OUT:** AES/EBU format, balanced
- **CH-1/2, CH-3/4 (XLR 3-pin male x 2):** 0.8Vp-p, 75Ω
- **ANALOG VIDEO OUT:** 1.0Vp-p, 75Ω, sync negative
- **Y/R-Y/B-Y, BNC x 3:** 0.7Vp-p, 75Ω
- **COMPOSITE 1 (BNC):** 1.0Vp-p, 75Ω, sync negative
- **COMPOSITE 2 (BNC):** 1.0Vp-p, 75Ω, sync negative

### Signal Inputs
- **ANALOG AUDIO OUT:**
  - **CH+1/2/3/4 (XLR 3-pin male x 4):** 4 dBm, (at 600Ω load), low impedance, balanced
- **AUDIO SELECTED OUT:**
  - **CH-1/2 or CH-3/4 (XLR 3-pin male x 2):** 4 dBm (at 600Ω load), low impedance, balanced
- **TIME CODE OUT:**
  - **(XLR 3-pin male):** 2.2Vp-p, balanced (at 600Ω load)

### Others
- **REMOTE 1 IN:** 9-pin, female
- **REMOTE 1 OUT:** 9-pin, female
- **REMOTE 2:** 36-pin, female
- **TBC REMOTE:** 15-pin, male
- **KY REMOTE:** 15-pin, female (for a BVR-75A)

### Processor Adjustment Range
- **Video Level:** ± 3 dB
- **Chroma Level:** ± 3 dB
- **Setup Level:** 0–15 IRE
- **System Sync Phase:** –1 μs to + 3 μs
- **Y/C Delay:** ± 50 ns
Betacam SP

BVV-5

Betacam SP Recorder Unit

- Compact, rugged, lightweight, and low power consumption
- Can be operated: directly connected to the camera as a Camcorder; standalone with the optional VA-5/5P Component/composite VTR Adaptor
- More than 30 min. of recording time using S-cassette
- Two AFM audio channels in addition to two longitudinal audio channels with the Dolby™ C-type NR (Noise Reduction) system
- Video/audio confidence playback
- Viewfinder playback (luminance or CTDM selectable)
- Color playback with the optional VA-500/500P Playback Adaptor
- Full range of machine control provided (Fast forward/Rewind/Play/Stop/Eject)
- Recording review function
- Built-in LTC/VITC/User Bit generator and LTC reader with external time code lock capability
- Frame accurate back space editing
- LCD time code display
- Built-in loudspeaker
- Phantom power supply (+48V, Ch-1)

Supplied Accessories:
50-pin Connector Cap
4-pin Connector Cap
Shoulder Belt
M4 Screw
Operation and Maintenance Manual

Specifications

General

Weight: 7 lb. 12 oz. (3.5 kg.) (approx.)
Power Requirements: DC-12V (+5.0/-1.5) V
Power Consumption: 14W
Operating Temperature: 0°C to 40°C (32°F to 104°F)
Storage Temperature: -20°C to 60°C (-4°F to 140°F)
Humidity < 85% (relative humidity)
Tape Speed: 11.86 cm/sec.
Recording/Playback Time > 30 min. (with BCT-30M)
Fast Forward Time < 4.5 min. (with BCT-30M)
Rewind Time < 3.5 min. with BCT-30M
Continuous Operating Time: 55 min. (with NP-1B, BVP-7A/701S and BVV-5) (approx.)
**BVW-50**

**Betacam SP Portable Recorder/Player**

- Accepts both L-size and S-size cassette
- Low power consumption—19W in Save Rec Mode
- Continuous operation for up to 180 min. on one BP-90A or up to 170 min. on two NP-1B’s is possible
- Compact and lightweight (Approx. 18 lb. 12 oz. (8.5 kg.), including a BP-90A battery and an S-size videocassette)
- Longer record/playback time; More than 90 min. with the L-size cassette; More than 30 min. with the S-size cassette
- Front loading system
- Audio/Video confidence playback
- Built-in TBC allows broadcast quality pictures to be transmitted with no additional TBC
- Interface for an external TBC is also provided for user convenience
- Player VTR capability via the RS-422 9-pin serial interface of field editing
- Built-in LTC/VITC/User Bits generator and reader with external genlock capability
- Four independent audio meters, record level controls, playback level controls and XLR input/output connectors
- Frame accurate back space editing
- Recognizable picture can be monitored at full range of the speed in SEARCH mode (±5 times normal speed, color) and FAST FORWARD/REWIND mode (±16 times normal speed, monochrome)
- Built-in character generator
- Phantom power supply (+48V, CH-1/2/3/4)
- Large LCD display
- Simple remote control from an optional BVR-3 Remote Controller
- Audio and video phono type output connectors allow handy monitoring on a TV receiver

**Supplied Accessories:**
- Soft Carrying Case
- Operation and Maintenance Manual

**Specifications**

**General**

- Weight: 14 lb. 9 oz. (6.6 kg.) (approx.)
- Power Requirements: DC-12V (+5.0/-1.0)V
- Power Consumption: Save Rec Mode: 19W, PB/EE Rec Mode: 29W
- Operating Temperature: 0°C to 40°C (32°F to 104°F)
- Storage Temperature: -20°C to 60°C (-4°F to 140°F)
- Humidity: 25%–95% (relative humidity)
- Tape Speed: 11.86 cm/sec.
- Recording/Playback Time: > 90 min. (with BCT-90ML)
- > 30 min. (with BCT-30M)
- Fast Forward/Rewind Time: < 7 min. (with BCT-90ML)
- < 2 min. (with BCT-30M)
- Fast Forward/Rewind Speed: Max. ±16 times normal speed (with monochrome picture)
- Search Speed: Max. ±5 times normal speed (with color picture)
- Continuous Operating Time: 180 min. (with BP-90A and BVV-5) (approx.)
- Dimensions (WHD): 12½" x 5¼" x 13¼"

### BVW-D75

**Betacam SP Studio Recorder/Player with 4:2:2 Serial Digital Interface**

- One component digital video serial input (with active loop-through) and four component digital video serial outputs, with four channels of embedded digital audio, via BNC connectors
- Four channels of ASE/EBU digital audio inputs and outputs via XLR connectors
- Component analog monitor output (Y/R-Y/B-Y, three BNC’s) with character display
- Conventional analog audio input/output
- More than 90 min. of recording/playback time using the L-cassette
- Two AFM audio channels with the Dolby C-type NR (Noise Reduction System)
- Dynamic Tracking (DT) provides broadcast quality pictures from -1 to 3 times normal speed
- DT playback speed can be varied in 54 steps with the search dial
- Dynamic Motion Control edit memory function
- High speed picture search provides recognizable color pictures at up to 10 times normal speed in forward and reverse (35 times in monochrome)
- RS-422 9-pin remote control interface
- 36-pin parallel remote control interface
- Audio/Video confidence playback
- Built-in comprehensive two-machine editing
- Built-in sophisticated TBC with 32 line correction window and advanced, high quality, digital dropout compensator
- Built-in LTC/VITC/User Bits generator and reader
- Built-in character generator provides "Burnt-in" time code output
- Built-in capstan override allows playback tape speed to be varied ±20% normal speed in 1% steps
- Initial setup offers operational flexibility via the search dial
- Built-in self-diagnostics
- 19-inch rack mountable

- 19-inch rack mountable

Supplied Accessories:
- AC Power Cord
- VDC-C5 12-pin Dubbing Cable (5m)
- RCC-5G 9-pin Remote Control Cable (5m)
- Extension Boards (3)
- Operation and Maintenance Manual

Optional Accessories:
- RMM-100 Rack Mount Kit for BVW-60/65/70/75 series

Specifications

General
- Weight: 66 lb. 2 oz. (30 kg.) (approx.)
- Power Requirements: AC-90V–265V, 48 Hz–64 Hz
- Power Consumption: 240W
- Operating Temperature: 5°C to 40°C (41°F to 104°F)
- Storage Temperature: -20°C to 60°C (-4°F to 140°F)
- Humidity: < 80% (relative humidity)
- Tape Speed: 11.86 cm/sec.
- Recording Playback Time: > 90 min. with BCT-90ML
- > 30 min. with BCT-30M
- Fast Forward/Rewind Time: < 180 sec. with BCT-90ML
- Search speed
  - SHUTTLE: STILL, 1/2, 1/4, 1/8, 1, 2, 5, and 24 times normal speed, forward and reverse
  - JOG: Frame by frame, forward and reverse
- Lock Up Time: < 0.6 sec. from standby mode
- Dimensions (WHD): 16¾" x 11¾" x 21½"

Betacam SP

BVW-65
Betacam SP Studio Player with DT

- More than 90 minutes of playback time using the L-cassette
- Two AFM audio channels in addition to two longitudinal audio channels with the Dolby C-type NR (Noise Reduction) system
- Dynamic Tracking (DT) provides broadcast quality pictures from −1 to +2 times normal speed
- Dynamic Motion Control playback with DT variable memory
- High speed picture search provides recognizable color pictures up to 5 times normal speed in forward and reverse (24 times in monochrome)
- RS-422 9-pin remote control interface
- 36-pin parallel remote control interface capability
- Built-in sophisticated TBC with 32 line correction window and advanced, high quality, digital dropout compensator
- Built-in LTC/VITC/User Bits reader
- Built-in character generator provides "Burnt-in" time code output
- Built-in capstan override allows playback tape speed to be varied ±16% in 2% steps via the search dial
- Initial setup offers operational flexibility via the search dial
- Built-in self-diagnostics
- BNC component signal outputs
- 19-inch rack mountable

Supplied Accessories:
- AC Power Cord
- RCC-5G 9-pin Remote Control Cable (5m)
- Extension Boards (3)
- Operation and Maintenance Manual

Optional Accessories:
- RMM-100 Rack Mount Kit for BVW-60/65/70/75 series

Specifications

General
- Weight: 81 lb. 11 oz. (28 kg.) (approx.)
- Power Requirements: AC-90V–265V, 48 Hz–64 Hz
- Power Consumption: 175W
- Operating Temperature: 5°C to 40°C (41°F to 104°F)
- Storage Temperature: −20°C to 60°C (−4°F to 140°F)
- Humidity: < 80% (relative humidity)
- Tape Speed: 11.86 cm/sec.
- Recording Playback Time: > 90 min. with BCT-90ML
- > 30 Min. with BCT-30ML
- Fast Forward/Rewind Time: < 180 sec. with BCT-90ML

Betacam SP

BVW-22

Betacam SP Player
- Simple, low cost office player
- Simply designed control panel
- More than 90 min. of playback time using L-cassette
- Two AFM audio channels in addition to two longitudinal audio channels with the Dolby C-type NR (Noise Reduction) system
- Wired or wireless remote control
- Picture search capability provides a monochrome picture at +3.5 times normal speed
- Built-in RF modulator for TV receiver
- Superrimpose function for time code, CTL and User Bit
- 19-inch rack mountable with the optional RMM-507 Rack Mount Kit

Supplied Accessories:
- RM-770 Remote Control Unit Including Remote Control Cable and BatteryAntenna Selector
- Coaxial Cables with F-type Connector (0.5m/0.2m)
- Top Cover Panel
- Operation and Maintenance Manual

Optional Accessories:
- RMM-507 Rack Mount Kit for BVW-22 series

Betacam PVW

PVW-2800
Recorder/Player

- Superior picture quality, inherent in the Betacam SP format
- More than 90 minutes of recording/playback time using L-size Metal (for both recording and playback) or Oxide (for playback only) cassettes
- High speed picture search provides recognizable color pictures at up to 10 times normal speed in forward and reverse (24 times in monochrome)
- Two longitudinal audio channels with Dolby C-type NR (Noise Reduction) system
- Direct RS-422 9-pin interface with other RS-422 equipped Sony machines (ex. Betacam/Betacam SP VTRs, BVU series U-matics)
- Built-in comprehensive editing facilities
- Dynamic Motion Control with memory provides slow-motion editing capability (when used with a player VTR equipped with DT function)
- Built-in Time Base Corrector with advanced high quality digital dropout compensator
- TBC remote control from an optional BVR-50
- Built-in LTC/VITC/User Bits generator and reader
- Built-in character generator
- Enhanced serviceability with built-in self-diagnostics
- User friendly dial menu operation
- Y/R-Y/B-Y component signal inputs and outputs via BNC or 12-pin Betacam DUB connectors
- S-video (Y/C separate) input/output connectors
- U-matic DUB output capability (option)
- Compact and lightweight (5 unit high, 19-inch rack mountable, approx. 55 lb. 2 oz., 25 kg.)
- Low power consumption (150W)

Supplied Accessories:
- AC Power Cord
- Remote Control Cable RCC-5G (9-pin)
- PSW 4 x 16 Screws for Rack Mounting (4)
- Operation Manual

Optional Accessories:
- BVR-50 TBC Remote Controller
- BVX-10 Component Color Corrector
- BKW-2010 Control Panel Extension Kit
- BKW-2020 U-Matic DUB Out Kit
- BK-803 Control Panel Case
- VDC-D5 12-pin Dubbing Cable (5m)
- RCC-5G/10G/30G (5m/10m/30m), Remote Control Cable
- RMM-110 Rack Mount Kit

### BK-803

**Control Panel Case**

- Mounts the control panel when removed from PVW-2800/2600
- Used with BKW-2010

**Specifications**

Dimension (WHD): 448 x 56.5 x 218mm

(17½" x 2¼" x 8½")
Betacam PVW

PVW-2650

Betacam SP 2000 PRO Studio Player with DT

- Dynamic Tracking (DT), −1 to 3 times normal speed
- Dynamic Motion Control (DMC) with DT variable memory
- Superior picture quality, inherent in the Betacam SP format
- More than 90 minutes of playback time using the L-size cassettes with Metal or Oxide tape
- High speed picture search provides recognizable color pictures at up to 10 times normal speed in forward and reverse (24 times in monochrome)
- Two longitudinal audio channels with the Dolby C-type NR (Noise Reduction) system
- Direct RS-422 9-pin interface with other RS-422 equipped Sony machines (ex. Betacam/Betacam SP VTRs, BVU series U-matics)
- Built-in Time Base Corrector with advanced high quality digital dropout compensator
- TBC remote control from an optional BVR-50
- Built-in LTC/VITC/User Bits reader
- Built-in character generator
- Enhanced servicable with built-in self-diagnostics
- User friendly dial menu operation
- Y/R-Y/B-Y component signal outputs via BNC or 12-pin Betacam DUB connectors
- S-video (Y/C separate) output connector
- 7-pin U-matic DUB output capability (option)
- Compact and lightweight (5 unit high, 19-inch rack mountable, 54 lb. (24.5 kg.) (approx.)
- Low power consumption (130W)

Supplied Accessories:
- AC Power Cord
- RCC-5G 9-pin Remote Control Cable
- Operation Manual

Optional Accessories:
- BVR-50 TBC Remote Controller
- BVX-10 Component Color Corrector
- BKW-2010 Control Panel Extension Kit
- BKW-2020 U-matic DUB Output Kit
- BK-803 Control Panel Case
- RMM-110 Rack Mount Kit
- BCT-5M/10M/20M/30M (Small Cassette) Metal Particle Videocassette Tapes
- BCT-5ML/10ML/20ML/30ML/60ML/90ML (Large Cassette) Metal Particle Videocassette Tapes
- SBT-10M/20M/30M (Small Cassette) Metal Particle Videocassette Tapes
- SBT-60ML/90ML (Large Cassette) Metal Particle Videocassette Tapes
- RCC-5G/10G/30G (5m, 10m, 30m) Remote Control Cable
- VDC-CS 12-pin Dubbing Cable (5m)
# Betacam PVW Specifications

## General
- **Power Requirements:** AC-90V–132V, 48 Hz–64 Hz
- **Power Consumption:** 130W
- **Operating Temperature:** 5°C to 40°C (41°F to 104°F)
- **Storage Temperature:** -20°C to 60°C (−4°F to 140°F)
- **Humidity:** < 80% (relative humidity)
- **Weight:** 55 lb. 2 oz. (25 kg.) (approx.)
- **Tape Speed:** 11.86 cm/sec.
- **Playback Time:** > 90 min. with BCT-90ML
- **Rewind Time:** > 30 min. with BCT-30M
- **Search Speed:**
  - SHUTTLE: 19 steps, still to 24 times normal speed, forward and reverse
  - JOG: Frame by frame, forward and reverse
- **Dynamic Tracking Range:** −1 to +3 times normal speed

## Signal Inputs
- **REF VIDEO IN (BNC):** 1.0Vp-p, 75Ω

## Signal Outputs
- **VIDEO OUT 1 (BNC):** Composite video, 1.0Vp-p, 75Ω, sync negative
- **VIDEO OUT 2 (BNC):** Composite video, 1.0Vp-p, 75Ω, sync negative
- **VIDEO OUT 3 (BNC):** Composite video, 1.0Vp-p, 75Ω, sync negative, with or without character insertion
- **COMPONENT OUT 1 (12-pin Male):**
  - Luminance: 1.0Vp-p, 75Ω, sync negative
  - Color Difference: R-Y: 0.7Vp-p, 75Ω; B-Y: 0.7Vp-p, 75Ω
- **COMPONENT OUT 2 (BNC x 3):**
  - Luminance: 1.0Vp-p, 75Ω, sync negative
  - Color Difference: R-Y: 0.7Vp-p, 75Ω; B-Y: 0.7Vp-p, 75Ω
- **AUDIO LINE OUT (XLR-3-pin male) CH 1/2:** 4 dBu, 600Ω, balanced
- **AUDIO MONITOR OUT (XLR 3-pin male) CH 1/2:** 4 dBu, 600Ω, balanced
- **U-Matic DUB OUT (with an optional BKW-2020):**
  - Y: 1.7Vp-p, 51Ω
  - C: 0.9Vp-p, 51Ω
  - S-Video Out: Y: 1.0Vp-p, 75Ω
  - C: 0.286Vp-p (burst), 75Ω
- **TIME CODE OUT (BNC):** 1.2Vp-p, 75Ω

## Others
- **REMOTE IN/OUT:** 9-pin, female
- **TBC REMOTE:** 15-pin, male
- **MONITOR:** 8-pin, female
- **HEADPHONES:** JM-60 headphone stereo jack

### Processor Adjustment Range
- **Video Level:** ± 3 dB
- **Chroma Level:** ± 3 dB
- **Setup Level:** 0 to +15 IRE
- **System SC Phase:** 360°p-p
- **System Sync Phase:** + 3 to −1 μs
- **Y/C Delay:** ± 50 ns

Betacam PVW

PVV-1A
Dockable Recorder Unit

- Superior picture quality, inherent in the Betacam SP format
- Full color playback in field through optional VA-500
- A wide range of dockable cameras—Directly connectable to DXC-537A and DXC-327A 3-CCD Cameras to configure a camcorder; The CA-514 Camera Adapter enables the PVV-1A to dock with the existing BVP series Broadcast Cameras such as BVP-7A/701S/90
- More than 30 minutes of recording time using the S-size cassette (Metal particle tape only)
- Compact and lightweight, rugged magnesium diecast body
- Two longitudinal audio channels with Dolby® C-type NR (Noise Reduction) system
- Luminance or CTDM viewfinder playback
- Record review function
- Recognizable viewfinder pictures in FF/REW
- Full range of machine control (Fast Forward/Rewind/Play/Stop/Eject)
- Built-in LTC/VITC/User Bits generator and LTC reader with external time code lock capability
- Frame accurate back space editing without time code discontinuity at the editing points
- 6-digit LCD display
- Digital hour meter
- Built-in power supply for external microphone (+48V, CH-1/2)
- Built-in self diagnostics with character display on TV monitor
- Enhanced serviceability

Supplied Accessories:
Shoulder Belt (1)
Screws B4 x 12 (2), B4 x 6 (2)
Operational Manual (1)

Optional Accessories:
NP-1B NiCd Rechargeable Battery
BP-90A NiCd Rechargeable Battery
DC-210 Battery Case for BP-90A
DC-500 Battery Case for BP-90A
DC-520 Battery Case for NP-1B
BC-1WB Battery Charger for four NP-1B's
BC-410 Battery Charger for four BP-90A's and four NP-1B's
CMA-8A AC Adaptor (used with the optional CCQX-3 cable)
BCT-5MA/10MA/20MA/30MA Metal Particle Videocassette Tapes (Small Cassette)
SBT-10M/20M/30M Metal Particle Videocassette Tapes (Small Cassette)
VA-500 Playback Adaptor
### Specifications

#### General
- **Power Requirements:** DC 12V ±5.0V / -1.0V
- **Power Consumption:** 10W
- **Operating Temperature:** 0°C to 40°C (32°F to 104°F)
- **Storage Temperature:** -20°C to 60°C (-4°F to 140°F)
- **Humidity:** < 85% Relative Humidity
- **Weight:** 7 lb. 8 oz. (3.4 kg.) (approx.)
- **Tape Speed:** 11.86 cm/s
- **Recording Time:** > 30 min with BCT-30MA/SBT-30M
- **Rewind Time:** < 4.5 min with BCT-30MA/SBT-30M
- **Continuous Operating Time:** 65 min (approx.) with NP-1B (PVV-1A and DXC-537A)

#### Video Performance (Metal Particle Tape)*

</tbody>
</table>

#### Audio Performance (Metal Particle Tape)*

| Frequency response: 50 Hz to 15 kHz +1.5 db / -3.0 db |
| SN Ratio (at 3% distortion level): >72 dB |
| Distortion T.H.D. (at 1 kHz reference level): <1.5% |
| Wow and Flutter: <0.15% rms |

#### Signal Inputs
- **VIDEO (from the Camera Head, Pro 50-pin):**
  - Luminance: 1.0 Vp-p, 1 kΩ
  - Color Difference: B-Y/R-Y: 0.7 Vp-p, 1 kΩ
- **GEN LOCK**
  - VIDEO IN (BNC): 1.0 Vp-p, 75Ω
  - AUDIO IN CH-1/2
- **TIME CODE IN (BNC):**
  - < 60 dBu / +4 dBu selectable, high impedance, balanced

#### Signal Outputs
- **ENCODED VIDEO OUT**
  - Camera Video Out, BNC: 1.0 Vp-p, 75Ω
- **TIME CODE OUT (BNC):**
  - 1.0 Vp-p, 75Ω

#### Others
- **EARPHONE OUT:** Mini jack
- **PLAYBACK ADAPTOR:** 20-pin

*The specifications of "video/audio performance" were measured by playing back material on a standard PVW-2800/2600 that had been recorded on a PVV-1A.

*0 dBu = 0.775 Vms

---

### BKW-2010

**Control Panel Extension Kit**
- Designed to remotely control the PVW-2800/2600
- Composition—Blank panel, 15-pin remote control cable, cable for the internal circuits

### BKW-2020

**U-matic DUB Output Kit**
- Enables transfer of Betacam SP material from a PVW VTR to a U-matic VTR

#### Specifications
- **Dimension (WHD):** 100 x 104 x 15mm (4" x 4\(\frac{1}{8}\)" x 6")
- **Weight:** 2.5 oz. (70 g.)

### RMM-110

**Rack Mount Kit**
- Designed for use in mounting PVW-2600/2600 into 19-inch rack
- Used with BKW-2020
Specifications

General
- Dimensions (WHD): 424 x 237 x 552mm (163/4" x 93/4" x 213/4") (approx.)
- Weight: 61 lb. 12 oz. (28 kg.)
- Power Requirements: AC -90V - 264V, 48 Hz - 66 Hz
- Power Consumption: 160W (with BKU-901A/903A/907 and BKU-905 installed)
- Operating Temperature: 5°C to 40°C (41°F to 104°F)
- Storage Temperature: -20°C to 60°C (-4°F to 140°F)
- Fast Forward Time: < 3 min. (with KSP-60)
- Rewind Time: < 2 min. 30 sec. (with KSP-80)
- Search Speed:
  - SHUTTLE: STILL, \( \frac{1}{2}, \frac{1}{5}, \frac{1}{10}, \frac{1}{12}, \frac{1}{15}, \frac{1}{20}, \frac{1}{25}, \frac{1}{30}, \frac{1}{40} \) times normal speed in forward and reverse direction
  - JOG: STILL to normal speed in forward and reverse direction
- Wow and Flutter: 0.15% rms

Video
- Horizontal Resolution:
  - SP Mode: 340 lines (color/monochrome)
  - Conventional Mode: 260 lines (color/monochrome)
- S/N Ratio:
  - SP Mode: > 47 dB (color)
  - > 49 dB (monochrome)
  - Conventional Mode: > 47 dB (color)
- Audio
  - Frequency Response:
    - SP Mode: 50 Hz - 15 kHz \( \pm 3 \) dB
    - Conventional Mode: 50 Hz - 15 kHz \( \pm 4 \) dB
  - S/N Ratio:
    - SP Mode: > 52 dB (at 3% distortion level, without Dolby NR)
    - Conventional Mode: > 50 dB (at 3% distortion level)
  - Distortion:
    - (at 1 kHz reference level): < 2.0%

Supplied Accessories:
- AC Power Cord
- VDC-5 Dubbing Cable (5m)
- RCC-5G Remote Control Cable (9-pin, 5m)
- Extension Board (small/large)
- Operation and Maintenance Manual

Optional Accessories:
- BKU-901A Time Base Corrector
- BKU-902 Digital Noise Reducer
- BKU-905 Time Code Generator/Reader
- BKU-906 Control Panel Extension Kit
- RMM-950 Rack Mount Kit
- BK-803 Control Panel Case

Superior Performance Videocassette Recorder

- Improved picture quality offered by SP technology: SP format, new Y/C separator, new noise canceller, CCD based DOC, and new DG compensation circuit
- Two modes of record/replay: SP mode or conventional mode (NTSC)/SP mode or High Band mode (PAL)
- New SP tape activates SP mode for the highest possible video and audio quality
- Dolby™ C-Type Noise Reduction System employed
- Plug-in time base corrector (optional: BKU-901A NTSC; BKU-903A PAL)
- Video S/N ratio is improved with Digital Noise Reducer (optional: BKU-902 NTSC; BKU-904 PAL, used with plug-in TBC)
- Plug-in time code generator/reader (optional: BKU-905)
- Dial Menu Operation provides maximum operational convenience
- Comprehensive built-in editing capability
- High speed picture search function: in the shuttle mode, speeds of STILL, \( \frac{1}{20}, \frac{1}{10}, \frac{1}{6}, \frac{1}{5}, 1, 2, 5, \) or 10 times normal speed in the forward and reverse directions can be selected; Jog mode provides field by field tape movement
- Versatile system interfaces: RS-422 serial interface and 24-pin parallel interface
- Compact, lightweight, and 19" rack mountable
BVU-920
Superior Performance Videocassette Player

- Improved picture quality offered by SP technology
- Advanced Dynamic Tracking (DT) playback capability offers noiseless playback within -1 to +3 times normal speed
- Dynamic Motion Control (DMC) capability via RS-422 interface
- Compatibility with conventional U-matics (High Band for PAL only)
- Superior Audio System with the adoption of the Dolby™ C-Type Noise Reduction System
- Optional Plug-in time Base Corrector (BUKU-901A NTSC, BUKU-903A PAL)
- Video S/N ratio is improved with optional Plug-in Digital Noise Reducer (BUKU-902 NTSC, BUKU-904 PAL used with optional plug-in TBC)
- Built-in time code reader
- Dial Menu Operation to maximize user convenience
- High speed picture search function: In the Shuttle mode, speeds of STILL, \( \frac{1}{50}, \frac{1}{100}, \frac{1}{200}, 1, 2, 5, \) or 10 times normal speed in the forward and reverse directions can be selected; Jog mode provides field by field tape movement
- Versatile system interfaces: RS-422 serial interface and 24-pin parallel interface
- 19-inch rack mountable

**Supplied Accessories:**
- AC Power Cord
- RCC-5G Remote Control Cable (9-pin–9-pin)
- Extension Board (small/large)
- Operation and Maintenance Manual

**Optional Accessories:**
- BUKU-901A Time Base Corrector
- BUKU-902 Digital Noise Reducer
- BUKU-906 Control Panel Extension Kit
- RMM-950 Rack Mount Kit
- BK-803 Control Panel Case

**Specifications**

**General**

- Dimensions (WxHxD): 424 x 237 x 552mm
- Weight: 61 lb 12 oz. (28 kg.) (approx.)
- Power Requirements: AC-90V-264V, 48 Hz-66 Hz
- Power Consumption: 145W (with BUKU-901A/903A installed)
- Operating Temperature: 5°C to 40°C (41°F to 104°F)
- Storage Temperature: -20°C to 60°C (-4°F to 140°F)
- Fast Forward Time: < 3 min. (with KSP-60)
- Rewind Time: < 2 min. 30 sec. (with KSP-60)
- Search Speed:
  - SHUTTLE: STILL, \( \frac{1}{2}, \frac{1}{4}, \frac{1}{8}, \frac{1}{16}, \frac{1}{32} \) times normal speed in forward and reverse direction (noiseless playback is possible within DT range)
  - VAR: \(-1, -\frac{1}{2}, -\frac{1}{4}, -\frac{1}{8}, -\frac{1}{16}, \) STILL, \( \frac{1}{2}, \frac{1}{4}, \frac{1}{8}, \frac{1}{16}, \frac{1}{32} \) and 1 and 2 times normal speed (noiseless playback)
  - JOG: STILL to normal speed in forward and reverse direction (noiseless playback)

**Video**

- Horizontal Resolution:
  - SP Mode: 340 lines (color/monochrome)
  - Conventional Mode: 260 lines (color/monochrome)
- S/N Ratio:
  - SP Mode: > 47 dB (color)
  - Conventional Mode: > 47 dB (color)
- Frequency Response:
  - SP Mode: 50 Hz -15 kHz ± 3 dB
  - Conventional Mode: 50 Hz -15 kHz ± 4 dB
- Distortion:
  - (at 1 kHz reference level): < 2.0%

**Audio**

- Frequency Response:
  - SP Mode: 50 Hz -15 kHz ± 3 dB
  - Conventional Mode: 50 Hz -15 kHz ± 4 dB
- S/N Ratio:
  - SP Mode: > 52 dB (at 3% distortion level, without Dolby NR)
  - Conventional Mode: > 50 dB (at 3% distortion level)
U-Matic and Accessories

BVU-900 (NTSC) /900P (PAL)
Superior Performance Videocassette Player

- Improved picture quality offered by SP technology
- Compatibility with conventional U-matics
- Superior Audio System with the adoption of the Dolby™ C-Type Noise Reduction System
- Optional Plug-in time Base Corrector (BKU-901A NTSC)
- Video S/N ratio is improved with optional Plug-in Digital Noise Reducer (BKU-902 NTSC, BKU-904 PAL used with optional plug-in TBC)
- Built-in time code reader
- Dial Menu Operation to maximize user convenience
- High speed picture search function: In the Shuttle mode, speeds of STILL, 1/10, 1/5, 1, 2, 5 or 10 times normal speed in the forward and reverse directions can be selected; Jog mode provides field by field tape movement
- Versatile system interfaces: RS-422 serial interface and 24-pin parallel interface
- 19" rack mountable

Supplied Accessories:
AC Power Cord
RCC-5G Remote Control Cable (9-pin~9-pin)
Extension Board (small/large)
Operation and Maintenance Manual

Optional Accessories:
BKU-901A Time Base Corrector
BKU-902 Digital Noise Reducer
BKU-906 Control Panel Extension Kit
RMM-950 Rack Mount Kit
BK-803 Control Panel Case

Specifications

General
- Dimensions (WHD): 424 x 237 x 552mm (16 1/4" x 9 3/4" x 21 1/4") (approx.)
- Weight: 59 lb. 8 oz. (27 kg.) (approx.)
- Power Requirements: AC-90V~264V, 48 Hz~64 Hz
- Power Consumption: 130W (with BKU-901A/903A)
- Operating Temperature: 5°C to 40°C (41°F to 104°F)
- Storage Temperature: -20°C to 60°C (-4°F to 140°F)
- Fast Forward Time: < 3 min. (with KSP-60)
- Rewind Time: < 2 min. 30 sec. (with KSP-60)
- Search Speed:
  - SHUTTLE: STILL, 1/10, 1/5, 1, 2, 5 and 10 times normal speed in the forward and reverse directions
  - Jog: STILL to normal speed in forward and reverse directions
- Wow and Flutter: 0.15% rms

Video
- Horizontal Resolution:
  - SP Mode: 340 lines (color/monochrome)
  - Conventional Mode: 260 lines (color/monochrome)
- S/N Ratio:
  - SP Mode: > 47 dB (color)
  - > 49 dB (monochrome)
  - Conventional Mode: > 47 dB (color)

Audio
- Frequency Response:
  - SP Mode: 50 Hz~15 kHz ±3 db
  - Conventional Mode: 50 Hz~16 kHz ±4 dB
- S/N Ratio:
  - SP Mode: > 52 dB (at 3% distortion, without the Dolby NR)
  - Conventional Mode: > 50 dB (at 3% distortion level)
- Distortion (at 1 kHz reference level): < 2.0%
BVU-150

Superior Performance Portable U-matic Videocassette Recorder

- Two modes of record/replay: SP U-matic mode and conventional U-matic mode
- Compact, lightweight, and rugged design
- Improved picture quality employing new Y/C separator, chroma enhancer, and noise canceller etc.
- New SP tape activates SP mode for the highest possible video and audio quality
- Integral Time Code Generator, BKU-150 (option)
- Video confidence playback
- Back space editing capability
- External Time Base Corrector capability
- Dolby™ C-Type Noise Reduction system employed
- Audio mixing for recording and playback
- Status and malfunction indicators
- Rapid point location with recognizable pictures

Supplied Accessories:
- Carrying Case
- Shoulder Strap
- Carrying Handle
- Carrying Strap
- Level Control Knob
- Operation and Maintenance Manual

Optional Accessories:
- BKU-150 Time Code Generator

Specifications

General
- Dimensions (WHD): 263 x 139 x 355 mm
  (10 ½" x 5 ½" x 14") (approx.)
- Weight: 15 lb. (6.8 kg.) (approx.)
- Power Requirements: DC 11.0V - 14.0V
  (NiCd battery pack BP-90A used)
  AC operation with AC adaptor AC-500/500CE
  (optional)
- Power Consumption: < 23W
- Operating Temperature: 0°C to 40°C (32°F to 104°F)
- Storage Temperature: -20°C to 60°C (-4°F to 140°F)
- Fast Forward Time: < 3 min. (with KSP-S20)
- Rewind Time: < 2 min. 30 sec. (with KSP-S20)
- Search Speed: 10 times normal speed in forward and reverse directions (approx.)
- Tape Speed: 9.53 cm/sec. (3 ½ ips)
- Wow and Flutter: < 0.2% rms

Video
- Recording System:
  FM: SP mode: 5.0 MHz - 6.6 MHz
  Conventional mode: 3.8 to 5.4 MHz
- Luminance:
  SP Mode: 50 Hz - 15 kHz ± 3 dB
  Conventional Mode: 50 Hz - 15 kHz ± 4 dB
- Chrominance:
  SC low-range conversion
- Horizontal Resolution:
  SP Mode: 340 lines (color/BW mode)
  Conventional Mode: 260 lines (color/BW mode)
- S/N Ratio:
  SP Mode: 46 dB (color mode)
  Conventional Mode: 46 dB (color mode)
- Distortion:
  SP Mode (at 3% distortion level): > 52 dB, Dolby NR off
  Conventional Mode (at 3% distortion level): > 50 dB, Dolby NR off

Audio
- Frequency Response:
  SP Mode: 20 Hz - 15 kHz ± 3 dB
  Conventional Mode: 20 Hz - 15 kHz ± 4 dB
- S/N Ratio:
  SP Mode (at 3% distortion level): > 52 dB, Dolby NR off
  Conventional Mode (at 3% distortion level): > 50 dB, Dolby NR off
- Distortion:
  (at 1 kHz reference level): < 2.0%
**U-Matic and Accessories**

---

**BVT-810**

**Digital Time Base Corrector**

- TBC for capstan servo color under VTRs
- Equipped with a newly developed chroma noise reduction circuit which improves the chrominance signal-to-noise ratio by 2 dB to 6 dB
- Compact and lightweight
- 15Hp-p window correction
- Connection with BVU-900/920/950 series U-matic VTRs is available
- Recognizable B/W picture up to ±40 times normal speed
- Built-in digital DOC (Dropout Compensator): 1H (NTSC)/Y-1H
- Remote control capability
- Selectable vertical blanking: NSTC 10H to 21H

**Supplied Accessories:**
- Multicore Cable
- Extension Cord
- Rack Mount Kit
- Operation and Maintenance Manual

**Specifications**

- **Power Requirements:** AC-100V-120V (90V-132V)/220V-240V (198V-264V) 50/60 Hz (48 Hz-62 Hz)
- **Power Consumption:** 96W (NTSC)
- **Operating Temperature:** 0°C to 40°C (32°F to 104°F)
- **Storage Temperature:** -10°C to 60°C (14°F to 140°F)
- **Humidity:** 10%~90%
- **Weight:** 25 lb. 9 oz. (12.5 kg.)
- **Dimensions (WhD):** 424 x 98 x 515mm
  
  (163/4" x 31/2" x 201/2"")

---

**BVR-820**

**Remote Control Unit**

- Cue-point memory of up to 3 points for cue up, preroll, and stunt play
- Adjustable preroll time: up to 9 sec. 29 frames
- Dynamic tracking playback between two cue points for the BVU-920 series and 3000 series
- Memory expansion up to 256 points
- Fluorescent tube display: CTL/Time code, VTR operation mode, Cue points
- Up to 500m remote control capability with RS-422 interface
- Various remote control functions: Record, playback, Fast Forward, Rewind, Stop, Standby, Eject, Preroll, Search
- External command input and status output

**Supplied Accessories:**
- AC Power Cord
- Operation and Maintenance Manual

**Specifications**

- **Preroll Time:**
  - 0 sec. 00 frame to 9 sec. 29 frames
- **Safety Timer:**
  - 10 sec. 1/2/3/4/5/6/7/8/9 min.
- **Connector:**
  - REMOTE (9P): 9-pin RS-422
  - START SIGNAL IN: BNC
  - EXTERNAL I/O: 14-pin
- **Operating Temperature:** 5°C to 40°C (41°F to 104°F)
- **Dimensions (WhD):** 424 x 92 x 263mm
  
  (163/4" x 31/2" x 103/4")
- **Weight:** 10 lb. 2 oz. (4.6 kg.)
- **Power Requirements:** AC-100V/120V/220V/240V ±10% selectable, 50/60 Hz
- **Power Consumption:** 21W

VO-9850

Editing Recorder

- Superior Performance (SP) Technology for excellent picture quality through multi-generation recording
- Completely interchangeable with conventional format
- Dolby® C-type Noise Reduction System for superior sound quality
- BKU-705 Time Code Generator/Reader or BKU-704 Time Code Reader (optional) for accurate time code editing
- Built-in Editing Facility allows ASSEMBLE and INSERT editing (VIDEO, AUDIO, CH-1/CH-2)
- Dial Menu Operation via search dial for user convenience: setting of time code (with the BKU-705), display of time code character on the monitor screen, setting preroll time, etc.
- Shuttle dial for high speed picture search: STILL, 1/30, 1/10, 1/6, 1/2, 2, 5, 8 times normal speed in the forward and reverse directions
- Jog Dial for precise frame by frame picture search
- 9-pin REMOTE Interface (RS-422 serial): to be interfaced with the RM-450 Editing Control Unit
- BKU-703A 33-pin Editing Interface (optional): editing operation using the RM-440 Editing Control Unit or remote operation from the RM-500/580 optional Remote Control Unit via this interface
- Audio XLR connectors for connection with professional audio equipment
- Connected to an external TBC
- 19-inch rack mountable with the RMM-501 Rack Mount Kit

Supplied Accessories:
- AC Power Cord
- Operation Manual

Optional Accessories:
- BKU-703A 33-pin Editing Interface
- BKU-704 Time Code Reader
- BKU-705 Time Code Generator/Reader
- RM-450 Editing Control Unit
- RMM-501 Rack Mount Kit
- RCC-5G/10G/30G 9-pin Remote Cable
- VDC-5 Dubbing Cable (5m)
- RCC-5F 33-pin Remote Cable

Specifications

Video Signal System: EIA standard, NTSC color
Horizontal Resolution: Monochrome, 340 lines; color, 260 lines
Video Signal-to-Noise Ratio: Monochrome, > 49 dB; color, > 46 dB
Video Input: BNC x 2 with 75 ohm termination switch and loopthrough output; 1.0V, +1.0Vp-p/-0.5Vp-p, 75 ohm, unbalanced, sync negative; DUB IN: 7-pin connector; TV: 8-pin connector
Video Output: BNC x 2; 1.0V, +0.2Vp-p; 75 ohm, unbalanced, sync negative; DUB OUT: 7-pin connector; TV: 8-pin connector
Subcarrier Input: BNC x 1; 0.5Vp-p-3Vp-p, 75 ohm, unbalanced, sync negative
Sync Input: BNC x 1; 2Vp-p-5Vp-p, 75 ohm, unbalanced, sync negative

Audio Input: LINE: Ch. 1 and Ch. 2 phono jacks, DUB IN: 7-pin connector; TV: 8-pin connector;
-10 dB, 47 k ohm; MIC: Ch. 1 and Ch. 2 phone jacks; -50 dB, 600 ohm
Audio Output: LINE: Ch. 1 and Ch. 2 phono jacks, -5 d.B, 47 k ohm; DUB OUT: 7-pin connector; TV:
8-pin connector; stereo phone jack for 8 ohm headphones

Tape Speed: 3/4 ips (8.53 cm/sec.)
Record/Playback Time: 60 minutes with KCA-60
Fast Forward/Rewind Time: < 4 min with KCA-60
Power Requirements: AC-100V -120V + 10%, 50/60 Hz + 10%
Power Consumption: 75W with RM-440
Dimensions (WHD): 9 3/4" x 17 3/4" x 20 1/2"
Including projecting parts and controls
Weight: 55 lb. (25 kg.)

VO-5850

U-Matic® Editing Recorder/Player
- Designed for flexible editing, camera-to-VTR and VTR-to-VTR, with front-panel controls to edit audio and video simultaneously (ASSEMBLE) or separately (INSERT)
- Bidirex search dial to find edit points quickly; search at any speed from 1/60 to 5x normal, in either direction
- Sony's exclusive Phi Square Servo with digital LSI prevents picture "whipping" at edit points
- Compatible with optional Sony RM-440 Automatic Editing Control Unit; editing accuracy with RM-440 ±2 frames with one preview
- Special editing features include pre-roll; noiseless still picture; long-term pause; framing servo; and rotary erase heads
- U-Scan™ high-speed picture search with optional RM-440 and KCS tape
- Advanced video circuitry with vertical interval switching; choice of internal or external sync; luminance noise canceller, luminance dropout compensator, and differential gain compensator
- Accurate readout of elapsed tape time in minutes and seconds; Mark-In function lets you note specific tape points for fast location later
- Random access and auto play with optional RX-353 or RX-303 Auto Search Control Units
- Sony's Type-5 transport with direct-drive servomotors for head drum and capstan, DC servo reel motor
- Tracking control, skew control
- Rugged die-cast aluminum chassis
- Switching power supply to maintain stable operation
- IC logic transport controls let you go from one mode directly to another, without first pressing Stop
- Automatic or manual level controls for video, audio Ch. 1 and Ch. 2; audio and video record level meters; audio limiter
- Dub In/Dub Out connectors minimize generation loss
- End-of-tape automatic rewind
- Convenient front loading with flexible tilt-out control panel
- Mounts in standard EIA 19-inch rack

L-70
**U-Matic and Accessories**

**VO-5800**

**U-Matic® Editing Recorder/Player**

- Designed for flexible editing, camera-to-VTR and VTR-to-VTR, with switching between sources
- Bidirex search dial 1/50 to 5x normal, in either direction
- Sony's exclusive Phi Square Servo with digital LSI prevents picture “whipping” at edit points
- Editing interface with optional Sony RM-440 Automatic Editing Control Unit
- Special editing features include backspace edits; virtually noiseless still picture; long-term pause; special framing servo; and rotary erase head for cleaner edits
- U-Scan ultrahigh-speed picture search with optional RM-440 and KCS tape
- Advanced circuitry with two video inputs; vertical interval switching; choice of internal or external sync; and luminance dropout compensator
- Audio dubbing adds new sound to previous recordings
- Accurate readout of elapsed tape time in minutes and seconds; Mark-In function lets you note specific tape points
- Programmed operation repeats a selected segment of the tape
- Random access and auto play with optional RX-353 or RX-303 Auto Search Control Units
- Sony's type-5 transport with direct-drive servo motors head drum and capstan, DC servo reel motor
- Tracking control, skew control
- Rugged die-cast aluminum chassis
- Switching power supply to maintain stable operation even during wide swings in AC line voltage and frequency
- Dub In/Dub Out connectors minimize generation loss
- IC logic transport controls let you go from one mode directly to another, without first pressing Stop
- Manual audio level controls for audio Ch. 1 and 2; record level meters; switchable audio limiter
- Playback on any TV set with optional RFK-634 RF modulator
- Convenient front loading with flexible tilt-out control panel
- Mounts in standard EIA 19-inch rack with optional RM-M501

**Specifications**

**Video Signal System:**
- NTSC color
- EIA standard

**Recording System:**
- Rotary two-head helical scan; FM luminance; converted color subcarrier, direct recording

**Horizontal Resolution:**
- Monochrome, 340 lines; color, 240 lines
- Monochrome, > 48 dB; color, > 46 dB
- > 48 dB (at 3% THD)

**Video Signal-to-Noise Ratio:**
- Monochrome, > 48 dB; color, > 46 dB

**Audio Signal-to-Noise Ratio:**
- > 48 dB (at 3% THD)

**Audio Frequency Response:**
- 50 Hz - 15,000 Hz

**Audio Outputs:**
- LINE: Ch. 1 and Ch. 2 phono jacks -5 dB, 47 kΩ load; DUB OUT: 7-pin connector; TV: 8-pin connector, HEADPHONES: stereo phone jack for 8Ω headphones with level adjustable from -24 dB to -46 dB
- 10 dB, 47 kΩ; MIC: Ch. 1 and Ch. 2 phone jacks; -60 dB, 600Ω

**Audio Inputs:**
- LINE: Ch. 1 and Ch. 2 phono jacks; DUB IN: 7-pin connector; TV: 8-pin connector; -10 dB, 47 kΩ; MIC: Ch. 1 and Ch. 2 phone jacks; -60 dB, 600Ω

**Video Inputs:**
- VIDEO IN: BNC connectors x 2, 1.0V + 1.0V/ -0.5Vp-p; 75Ω unbalanced, sync negative; DUB IN: 7-pin connector; TV: 8-pin connector

**Video Output:**
- VIDEO OUT: BNC connector, 1.0V, ± 0.2Vp-p, 75Ω unbalanced, sync negative; DUB OUT: 7-pin connector; TV: 8-pin connector

**Subcarrier Input:**
- BNC x 1; 0.5Vp-p -3Vp-p; 75Ω unbalanced, sync negative

**Power Requirements:**
- AC -120V ± 10%; 50/60 Hz ± 10%
- 75W with RM-440

**Dimensions (W x H x D):**
- 237 x 446 x 518mm
- (9¾" x 17¾" x 20½")

**Weight:**
- 53 lb. (24 kg.)
VP-9000

Player
- Superior Performance (SP) Technology for excellent picture quality through multi-generation recording
- Completely interchangeable with conventional format
- Dolby* C-Type Noise Reduction System for superior sound quality
- BKU-701 Computer Interface Board (RS-232C) (optional) for external computer operation
- Frame Code Operation: random access and sophisticated program operation from the RX-707 optional Auto Search Control Unit or an external computer
- Programmed operation with MARK IN A and MARK IN B
- Timer operation for playback using an external timer
- 33-pin REMOTE connector for remote operation from the RM-500/580 optional Remote Control Unit
- Wired/wireless remote operation via the RM-770 optional remote control unit
- Search dial for high speed picture search at STILL, 1/50, 1/10, 1/5, 1, 2, 5 times normal speed in the forward and reverse directions
- Audio XLR balanced connector for connection with professional audio equipment
- Connection to an external TBC
- Connection to a TV receiver using the RFK-634 optional RF Modulator
- 19-inch rack mountable with the RMM-507

Supplied Accessories:
- Operation Manual
- RF Unit Cover

Optional Accessories:
- FCG-700 Frame Code Generator
- BKU-701 Computer Interface Board
- RK-707 Auto Search Control Unit
- RM-770 Remote Control Unit
- RM500/580 Remote Control Unit
- RFK-634 Color RF Kit
- RMM-507 Rack Mount Kit

VO-8800
U-Matic Portable Recorder
- Ideally suited for news gathering and outdoor recording
- Superior Performance (SP) technology for excellent picture quality
- Completely interchangeable with conventional format
- Dolby® C-type Noise Reduction System for superior sound quality
- BKU-706 Plug-in Time Code Generator (optional) for time code recording
- Y/C separate input (14-pin camera) to reduce cross color
- Back-space editing capability for smooth transitions between scenes
- Video confidence playback to verify the recorded pictures simultaneously during recording
- Three ways of warning system: warning on LCD/camera viewfinder and through audible warning alarm
- Simple remote operation by the RM-770 optional Remote Control Unit (wired only)
- High speed picture search at ±10 times normal speed
- Headphone jack for audio monitoring
- Audio XLR connectors
- RF OUT: connected to a TV receiver
- Battery Operation: NP-1B x 2
- Compact and lightweight

Supplied Accessories:
Operation Manual
Shoulder Strap

Optional Accessories:
BKU-706 Time Code Generator

AH-8800 Carrying Handle

LC-8800 Soft Carrying Case

NP-1B Rechargeable Battery
BC-1WB Battery Charger
CMA-8A AC Adaptor
CCOX-3 Cable (CMA-8A ↔ VO-8800) 3m for AC adaptor
RM-770 Remote Control Unit

### U-Matic and Accessories

**Specifications (VO-8800, cont.)**

**General**

- **Type:** SP U-matic portable recorder  
- **Video Recording System:** Rotary 4-head helical scan  
- **Chrominance:** Converted subcarrier  
- **Video Signal System:** EIA monochrome/NTSC color  
- **Operating Temperature:** 0°C to 40°C (32°F to 104°F)  
- **Power Requirements:** DC-12V  
- **Power Consumption:** 18W  
- **Dimensions (WHD):** 263 x 130 x 354mm (10⅞” x 5½” x 14”)  
- **Weight:** 13 lb. 10 oz. (6.2 kg.)

**Video Signal**

- **Recording and Playback Mode:** Conventional and SP mode  
- **Horizontal Resolution:**  
  - **SP mode:** 330 lines (color)  
  - **Conventional Mode:** 250 lines (color)  
- **S/N Ratio (color):**  
  - **SP Mode:** Better than 46 dB  
  - **Conventional Mode:** Better than 46 dB  

**Audio Signal**

- **Input:**  
  - AUDIO IN CH-1/L/DUB, CH-2/R (XLR 3-pin, female) x 1 each  
  - +4 dB/-20 dB/-60 dB switchable  
  - +4 dB: more than 10 kΩ, balanced  
  - -20 dB/-60 dB: more than 3 kΩ, balanced  
  - CAMERA (microphone input) (audio channel 2)  
  - +4 dB/-20 dB/-60 dB switchable  
  - +4 dB: more than 10 kΩ, balanced  
  - -20 dB/-60 dB: more than 3 kΩ, balanced  
- **Output:**  
  - AUDIO OUT CH-1/L (monitor), CH-2/R (XLR 3-pin, male) x 1 each  
  - +4 dB, low impedance, balanced  
  - HEADPHONE: -40 dB to -20 dB (at 8Ω), unbalanced  

**Time Code**

- **Input:** 0 dB ±6 dB, 10 kΩ, unbalanced  
- **Output:** 0 dB ±3 dB, low impedance, unbalanced  
- **RF Output:** YES

**Tape Transport**

- **Tape Speed:** 9.53mm/s (3.8 ips)  
- **Wow and Flutter:** 0.18% rms  
- **REC or PB Time:** Max. 20 min.  
- **Videocassette:** KSP-S/KCS-BRS

**Technical Features**

- **Frame Code Operation:** NO  
- **Remote Control:** YES (Simple, wired only)  
- **Electronic Editing:** YES (Back space editing)  
- **Time Code Editing:** YES (with BKU-706)  
- **Time Code Capability:** YES (with BKU-706)  
- **High Speed Picture Search:** YES (x10)  
- **Jog Search:** NO  
- **Noiseless Pause/Still:** YES  
- **Dolby Noise Reduction:** YES (C-type)  
- **Audio Dubbing:** YES (CH-1)  
- **EXT Sync Lock (Vertical):** YES  
- **Programmed Operation:** NO  
- **Timer Operation:** NO  
- **RF Unit Adaptable:** RF out equipped
VO-7600

Recorder
- High quality U-matic picture and sound
- BKU-701 Computer interface board (RS-232C) (optional) for external computer operation
- FCG-700 Frame code generator (optional) for frame code recording
- Frame code operation: random access and sophisticated program operation from the RX-707 optional auto search control unit or an external computer
- Programmed operation with MARK IN A and MARK IN B
- 33-pin REMOTE connector for remote operation from the RM-500/580 optional Remote Control Unit
- Wired/wireless remote operation via the RM-770 optional Remote Control Unit
- Timer operation for record and playback using an external timer
- High speed picture search at ±5 times normal speed
- Audio dubbing on CH-1 or additional audio recording on the audio CH-1
- External SYNC input capability
- Connection to a TV receiver using the RFK-634 optional RF Modulator
- 19-inch Rack Mountable with the RMM-507

Supplied Accessories:
- Operation Manual
- RF Unit Cover

Optional Accessories:
- FCG-700 Frame Code Generator

U-Matic and Accessories

**BKU-702**

33-pin Interface Board

- When the BKU-702 is installed into the VP-7020, the VP-7020 can be controlled remotely by a current 33-pin remote control unit such as the RM-500/580 or RX-303/353

Supplied Accessory:
Installation Manual

Specifications
- Dimensions (WHD): 125 x 52 x 223mm
  
  (5" x 2½" x 8½")
- Weight: Approx. 9 oz. (260 g.)
- Recommended VTR: VP-7020

**BKU-703A**

33-pin Editing Interface

- The BKU-703A 33-pin (parallel) editing interface can be installed into the VO-9850/9800 or EVO-9800 for connection with the RM-440 Editing Control Unit and current 33-pin remote control units such as the RM-500, RM-580 and RM-555

Supplied Accessory:
Installation Manual

Specifications
- Dimensions (WHD): 63 x 108 x 64mm
  
  (2½” x 4½” x 2½”)
- Weight: 8 oz. (230 g.)
- Recommended VTR: VO-9850/VO-9800/EVO-9800

**BKU-704**

Time Code Reader

- When the BKU-704 is installed into the VO-9850/9800, this board allows to read SMPTE time codes. Time code or user bits can be superimposed on the video signal (monitor output) via the Dial Menu Operation of VO-9850/9800

Supplied Accessory:
Installation Manual

Specifications
- Time Code: SMPTE
- Dimensions (WHD): 199 x 41 x 145mm
  
  (7½” x 1½” x 5¾”)
- Weight: 7 oz. (190 g.)
- Recommended VTR: VO-9850 and VO-9800
BKU-705

**Time Code Generator/Reader**
- When the BKU-705 is installed into the VO-9850, this board allows to read and generate SMPTE time codes.
- Time code can be set easily via the Dial Menu Operation of VO-9850.
- User bits, drop/non-drop frame code, phase correction bit and binary group flag bit can be set via the Dial Menu Operation of VO-9850.
- Free-run/rec-run mode can be selected via a switch.
- Time code or user bits can be superimposed on the video signal (monitor output) via the Dial Menu Operation of VO-9850.
- Regeneration capability to an external time code or the one previously recorded on the tape.
- Easy installation.

**Supplied Accessory:**
Installation Manual

**Specifications**
- **Time Code:** SMPTE
- **Drop/Non-drop Frame:** Selectable
- **Dimensions (WHD):** 199 x 41 x 145mm (7 7/8" x 1 5/8" x 5 7/8")
- **Weight:** 7 oz (200 g.)
- **Recommended VTR:** VO-9850

---

BKU-706

**Plug-in Time Code Generator**
- Generates and sets SMPTE time code and user bits.
- Reads SMPTE time code.
- Provides time code input and output connectors.
- Automatic regeneration locked to an external time code and the time code previously recorded on tape.
- User bits can be locked to external user bits.
- Generate mode or read mode is selected via the GENERATE/READ switch.
- Free run/Rec run is selectable.
- Drop frame/Non-drop frame is selectable.
- Time code data is memorized and generated for more than 12 hours after the power is turned off when NP-1B batteries are installed.

**Supplied Accessory:**
Installation Manual

**Specifications**
- **Time Code:** SMPTE
- **Drop Frame/Non-Drop Frame:** Selectable
- **Dimensions (WHD):** 28 x 86 x 81mm (1 1/2" x 3 1/2" x 3 1/2")
- **Weight:** 5 oz (130 g.)
- **Recommended VTR:** VO-8800
**RM-500**

**Remote Control Unit**

- Basic functions of a VTR can be controlled remotely
- SEARCH buttons for picture search in both forward and reverse directions
- Can be mounted into 19-inch EIA standard rack or console using optional RMM-502 rack mount metal or optional RMM-505 rack mount metal (in case of attaching two RM-500s)

RM-770
Remote Control Unit
- Wireless/wired remote control capability for the VO-8800/6800/7600/9600, VP-7020/9000
- Controls advanced functions such as SEARCH-FWD/SEARCH-REW, in addition to the basic functions of STOP/REC/PAUSE/F FWD/PLAY

Supplied Accessories:
- Receiver
- 5m Cable
- R6 (AA size) Battery (2)

Specifications
- Power Requirements: DC-5V (wireless: supplied from two R6 (AA size) batteries; wired: supplied from the VTR)
- Power Consumption: 2 mW
- Connection: Special mini
- Dimensions (WHD): Approx. 65 x 18 x 150mm (2½" x 23/32" x 6")
- Weight: Approx. 4 oz. (105 g.) (excluding batteries)
- Recommended VTR: VO-8800/6800/7600/9600 VP-5040/7000/7020/9000

FCG-700
Frame Code Generator
- Generates frame codes sequentially from 000,000 to 299,999 (2 hours 46 minutes)
- Frame Code is inserted into the seventeenth and eighteenth lines of the vertical blanking intervals of the video signal
- Start point can be set from 000,000 to 299,999
- Three start triggers, an external pulse, a cue tone and the manual mode can be set
- The Frame Code and the status of the Frame Code Generator can be superimposed on the picture output from the VIDEO OUT-2 connector while recording
- 19-inch rack mountable

Supplied Accessories:
- Rack Mount Brackets
- Operation Manual
- AC Cord

Specifications
- Power Requirements: AC-120V, 50/60Hz
- Power Consumption: 10W
- Video In: BNC, 1.0Vp-p (75Ω on/off selectable)
- Video Out 1: BNC, 1.0Vp-p (at 75Ω load)
- Video Out 2: BNC, 1.0Vp-p (at 75Ω load)
- Audio In: XLR, +4 dB; Phono, -5 dB
- Audio Out: XLR, +4 dBm; Phono, -5 dB
- External Pulse In: BNC, TTL level
- Dimensions (WHD): Approx. 424 x 49 x 256mm (16½" x 1½" x 10½")
- Weight: Approx. 7 lb. 4 oz. (3.3 kg.)
RX-707

Auto Search Control Unit
- By setting a frame code number on the control unit, the desired picture can be easily retrieved.
- 15 program (PGM) segments can be memorized.
- Sequential playback of all of the program segments can be set at one to nine times or for continuous repeat.

Supplied Accessories:
- Operation Manual

Specifications
- Dimensions (WH): Approx. 62 x 18 x 215mm (2½" x 23/32" x 8½")
- Cable Length: 5m
- Weight: Approx. 14 oz. (400 g.)

BKU-701

Computer Interface Board
- Reads the Frame Codes that have been recorded on the videocassette tape.
- Provides an RS-232C interface and allows the VTRs to be controlled from an external computer or the RX-707.
- Video/audio signals can be output or muted by setting the BKU-701 dip switches to ON or OFF.
- The baud rate can be selected from 1200, 2400, 4800, or 9600 bits per second (bps).

Supplied Accessories:
- Operation Manual

Specifications
- Signal: RS-232C
- Connector: D-sub, 25-pin
- Dimensions (WHD): Approx. 125 x 52 x 223mm (5" x 2¼" x 8¾")
- Weight: Approx. 9 oz. (260 g.)
- Recommended VTR: VO-7600/9600, VP-7000/7020/9000
RM-555

Multi-Remote Control Unit

- Can simultaneously control up to 5 VTRs, and up to 20 VTRs can be controlled by using 4 RM-555s. Suitable for multi-dubbing system. Sequential recording or playback on up to 5 VTRs. An auto search control unit can be connected to the RM-555 for searching after any recorded point on the tape of any of up to 5 VTRs. Suitable for an editing system using two or more players when the optional VCS-500 and the RM-V5 are connected to the RM-555. SKIP function to skip the VTR engaged and start recording or playback on the next VTR during sequential recording or playback. DC IN connector for supplement to insufficient power from the VTR. Can be mounted into 19-inch EIA standard rack or console.

Supplied Accessories:
- Rack Mounting Screws (4)
- Washers (4)

Specifications

- Power Requirements: DC 6.8V (when the power is supplied from a VTR), DC 12V (when the power is supplied from the DC IN connector)
- Power Consumption: 6W (with DC 6.8V input)
- Remote Control Signal Inputs: VTR REMOTE IN (33-pin) x 1, SOURCE SELECT IN (20-pin) x 1
- Remote Control Signal Outputs: OUT (33-pin) x 5, SOURCE SELECT OUT (20-pin) x 1, DIRECT OUT TO RM-555 (33-pin) x 1
- Skip Signal Input: SKIP (Phono) x 1, active low
- Operating Temperature: 0°C to 40°C (32°F to 104°F)
- Operating Position: Horizontal
- Weight: Approx. 12 lb. 13 oz. (5.8 kg.)
- Recommended VTR: ALL TYPE-5/7/9 VTRS, SLO-383

RFK-634

Color RF Kit

- Plugs into the RF compartment for the VO-5800/5600/6800/7600/9600 and VP-5000/5020/7000/7020/9000

Supplied Accessories:
- 75Ω Coaxial Cables (0.5m, 1.5m) with F-type Connectors
- ANS-32 Antenna Selector
- EAC-24 Antenna Connector

Specifications

- Channel: American TV standard VHF Ch. 3 and 4 (switchable)
- Output Level: RF signal, < 75 dB, 75Ω
- Power Requirements: DC 9V, 20 mA, supplied from VTR
- Dimensions (WHD): 2½" x 54mm, RF unit only
- Weight: 3 oz. (90 g.), RF unit only
U-Matic and Accessories

RMM-501
Rack Mount Kit
- Rack mount kit for use in mounting VO-9850/9800 and Type 5 VTR into 19-inch rack

RMM-507
Rack Mount Kit
- Rack mount kit for use in mounting VO-9600/7600 and VP-9000/7020 into 19-inch rack

RCC-5F
Remote Control Cable
- 33-pin/33-pin, 5m (16.4 ft.) ↔ RM-440/450 ↔ VO-5850/5800 series, SLO-383, RM-555 ↔ RM-555 ↔ All Type-5/7/9 VTRs

RCC-15FT
Remote Control Extension Cable
- 33-pin/33-pin, 15m (49.2 ft.) ↔ RM-500/580 ↔ All Type-5/7/9 VTRs, RM-555

RCC-G
Remote Control Cable
- 9-pin/9-pin ↔ RM-450 ↔ VO-9850/9800/ EVO-9800/ BVU/BVW/BVH series VTR ↔ RCC-5G: 5m (16 ft.), RCC-10G: 10m (33 ft.), RCC-30G: 30m (98 ft.)
U-Matic and Accessories

BVR-800

Remote Control Unit

- Fluorescent tube display: CTL/Time code, VTR operation mode
- Up to 500m remote control capability with RS-422 interface
- Various remote control functions: Record, Playback, Fast Forward, Rewind, Stop, Standby, Eject, Preroll, Search
- Adjustable preroll time: up to 9 sec. 29 frames
- External command input and status output

Supplied Accessories:
AC Power Cord
Rack Mount kit
Operation and Maintenance Manual

Specifications

Preroll Time: 0 sec. 00 frame to 9 sec. 20 frames
Safety Timer: 10 sec. 1/2/3/4/5/6/7/8/9 min.
Connector: REMOTE (9P): 9-pin RS-422
START SIGNAL IN: BNC
EXTERNAL I/O: 14-pin

Operating Temperature: 5°C to 40°C (41°F to 104°F)
Dimensions (WxD): 424 x 92 x 177mm (16¾" x 3¾" x 7"")
Weight: 7 lb. 11 oz. (3.5 kg.)
Power Requirements: AC-100V/120V/220V/240V ± 10% (selectable), 50/60 Hz
Power Consumption: 17W
**LVR-5000A/LVS-5000A**

**Laser VideoDisc Recorder**
- Writable disc media, LVM-3AA0, with the storage capacity of 43,500 still frames or 24 minutes of moving pictures
- Capable of long-term storage
- Adopts the component time division multiplex video recording format for the high quality picture performance
- PCM audio recording
- Black and white mode
- Quick random access within 0.5 sec. or less
- NTSC/PAL* signal processing capability
- Provided with RS-232C remote interface and 9-pin REMOTE interface (RS-422)
- Noiseless picture playback at variable speeds
- Genlock capability
- Multiple video input/output facility
- Wired/wireless remote operation via the RM-W5000 supplied Remote Commander
- The optional RM-9000PR Programmable Remote Controller is available for programming customized playback operation

*With the optional DB-W5000AP PAL board installed in the LVS-5000A*

**Supplied Accessories:**
- LVR-5000A: Operation Manual
- AC Power Cord
- 36-pin System Control Cable
- BNC Cables (2)
- RM-W5000 Remote Commander
- LDM-5000 RS-232C Interface Manual
- LDM-5422 9-pin REMOTE Interface Manual
- LVS-5000A Operation Manual
- AC Power Cord

**Optional Accessories:**
- LVM-3AA0 Laser VideoDisc Media
- RM-9000PR Programmable Remote Controller
- DB-W5000AP PAL Board for LVS-5000A
- RMM-5000 Rack Mount Kit
- RCC-5000 36-pin Control Cable (1.5m)

---

**LVA-7000**

**Laser VideoDisc Player**
- High quality picture performance with the component time division multiplex video recording format
- Black and white mode
- Quick random access within 0.5 sec. or less
- Frame memory function
- NTSC/PAL* signal processing capability
- Provided with RS-232C remote interface and 9-pin REMOTE interface (RS-422)
- Noiseless picture playback at variable speeds
- Genlock capability
- Multiple video input/output facility
- Wired/wireless remote operation via the RM-W7000 optional Remote Commander
- The optional RM-9000PR Programmable Remote Controller is available for creating customized operational program

*With the optional DB-W7000P PAL board installed*

**Supplied Accessories:**
- Operation Manual
- AC Power Cord

**Optional Accessories:**
- LVM-3AA0 Laser VideoDisc Media
- RM-W7000 Remote Commander
- RM-9000PR Programmable Remote Controller
- DB-W7000P PAL Board
- LDM-5000 RS-232C Interface Manual
- LDM-5422 9-pin REMOTE Interface Manual
- RMM-7000 Rack Mount Kit
LVA-3500

Laser VideoDisc Player

- High quality picture performance with the component time division multiplex video recording format
- Black and white mode
- Quick random access within 0.5 sec. or less*
- Provided with RS-232C remote interface
- Noiseless picture playback at variable speeds*
- Multiple video output facility
- Wired/wireless remote operation via the RM-W7000 optional Remote Commander
- The optional RM-9000PR Programmable Remote Controller is available for creating customized operational program

*For these operations, either an RM-W7000 or RM-9000PR is required.

Supplied Accessories:
- Operation Manual
- AC Power Cord

Optional Accessories:
- LVM-3AA0 Laser VideoDisc Media
- RM-W7000 Remote Commander
- RM-9000PR Programmable Remote Controller
- LDM-5000 RS-232C Interface Manual
- RMM-7000 Rack Mount Kit
High Quality Picture and Audio Performance—Component time division multiplex video recording and a unique alloy format technique are combined in the LVR-3000N to provide high quality image recording. For audio, PCM (Pulse Code Modulation) recording is used for superb sound fidelity. During playback, its non-contact optical laser pick-up system allows the LVR-3000N to continuously reproduce optimum picture and audio signals without any long term deterioration in their quality.

Writable Disc Medium, Capable of Long-term Storage—The Laser VideoDisc Recording system makes it possible to record 24 minutes of video or 43,500 still images, together with associated sound, onto each side of an LVM-3AA0 optical disc. Using the LVR-3000N, even complex interactive video programs can be created with in-house facilities, saving time and reducing production costs. Accelerated aging tests conducted by Sony indicate that the drop out ratio will not exceed twice its initial level, even after 100 years of storage (in a normal office environment (20°C, 65% relative humidity). This assures long-term retention of valuable information without any quality deterioration.

Frame Picture Recording Capability—In addition to recording and replaying continuous video and audio, the LVR-3000N has a single frame image recording capability. This makes it particularly effective in computer graphics animation and similar recording applications. A maximum of 43,500 frames can be stored on each side of a disc. Furthermore, the stored images can be viewed immediately after recording, which enables quality to be checked at any stage.

Quick Random Access—Any image recorded onto a disc can be accessed within 0.5 second or less (average).

Frame Memory Function—The Frame Memory incorporated in the LVR-3000N facilitates recording and playback operation.

Non-TBC Operation—With its built-in frame memory, the LVR-3000N can accept signals directly from U-matic, VHS, Hi8 and similar VTRs. System sync/phase can also be adjusted.

Picture Freezing—In the FRAME RECORDING mode, one frame can be stored in frame memory for confirmation before recording.

Random Search Operation—Immediately before the search operation starts, frame memory retains the current picture and outputs it while the head is moving. When the required image is located, the video output is switched from the frame memory back to the head, giving continuity to the video signal.

Slow/Still Playback—Since a disc is played back frame by frame due to the recording format, fast moving objects are sometimes blurred—particularly in slow motion or still modes. A frame memory enables the LVR-3000N to provide field by field slow and still playback, which minimizes picture blurring. In slow motion or still playback, motion analysis can then be easily carried out.
No noiseless Picture Playback at Variable Speeds—Noiseless images can be played back at still and slow motion from 1/255 to normal speed, or fast motion at three times normal speed in either forward or reverse direction. This enables any sequence of pictures to be played back at a viewer’s preferred speed.

Repetition Function—The repeat function enables either the entire disc or a specified portion of the program to be played back continuously. Selection of the playback sequence and the number of repetitions is made on the LVR-3000N front panel.

Operation Indicating Panel—In addition to frame or time code display, the status of operating modes, such as Recording, Picture Search and Repeat Function, are shown on the display panel so that viewing is not disturbed (Index indication switch should be set to off).

Search Dial—During picture search, the Jog/Shuttle dial adds the operational convenience of controlling playback speed from 1/2 to 30 times normal speed in the Shuttle mode and frame by frame to normal playback in the Jog mode. This allows the desired image to be easily found.

User Data—A 64 K byte area is reserved on each side of the disc for user data, such as the disc ID, contents and picture index. This data can be recorded with the assistance of an external computer. User data makes it easy to recognize a disc without actually replaying its entire contents.

Remote Control Units—The supplied wired/wireless remote commander RM-W3000 provides full operational control of an LVR-3000N. When the optional foot switch FS-20 is connected to the RM-W3000, recording can be initiated without IN and OUT points designated. In addition, the optional programmable remote controller RM-9000PR allows customized playback operations to be easily programmed and carried out.

19-inch EIA Standard Rack—With the optional rack mount kit RMM-7000A, the LVR-3000N can be mounted into a 19-inch EIA standard rack.

9-pin Remote Interface—Via the RS-422 9-pin remote interface, the LVR-3000N can be controlled by Sony Editing Control Units (BVE-3000 and BVE-5000 cannot control the LVR-3000N). Together with VTRs, the LVR-3000N can be used in an editing system. The supplied LDM-5422 remote interface manual provides detailed protocol information.

A Choice of Input/Output Facility—For convenient use of the LVR-3000N, various input/output facilities, such as Component Video (Y/R-Y/B-Y), RGB, Y/C separate video as well as composite video, are provided for flexible connection to other equipment. Monitor video output connection is also available.

Supplied Accessories:
Operation Manual
AC Power Cord
RM-W3000 Remote Commander
LDM-5000 RS-232C Interface Manual
LDM-5422 9-pin Remote Interface Manual

Optional Accessories:
LNM-3AA0 Laser Videodisc Medium
RM-9000PR Programmable Remote Controller
RMM-7000A Rack Mount Kit
RS-29 Foot Switch
WOA-D11 Videodisc Cleaning Kit

Specifications

General

Power Requirements: AC-120V, 60 Hz
Power Consumption: 115W
Operating Temperature: 5°C to 35°C (41°F to 95°F)
Storage Temperature: -20°C to 60°C ( -4°F to 140°F)
Humidity: 20%–80%
Weight: 52 lb to 15 oz. (24 kg)
Dimensions (WHD): 439 x 214 x 568mm
(17¾ x 8½ x 22½")

User Data Area: 64 Byte x 1024 tracks per side

Recording/Playback System

Recording Mechanism:
Laser: Semiconductor diode laser (λ:780nm)
Laser Output: 1.7 mW

Audio

X: 1 Vp-p, 75Ω, balanced, sync negative (BNC)

B-Y: 0.7Vp-p, 75Ω, negative (BNC)

Sync:
EXT. Sync: 0.2Vp-p to 5Vp-p, 75Ω, negative (BNC)
Input CH-'/2: 1Vp-p, 75Ω, switchable, unbalanced, sync negative (BNC)

Headphone:
-46 dB to -26 dB, 8Ω, balanced

Dynamis Range:
+2 dB to -50 dB, 43,500 frames/side

Maximum playback/Recording Time and Frames:
In normal mode:
3 times normal speed in forward
1/255 to 3 times normal speed in reverse

Video

Bandwidth (Luminance): 4.5 MHz (Component video out)

Noiseless Picture Playback at Variable Speeds—Noiseless images can be played back at still and slow motion from 1/255 to normal speed, or fast motion at three times normal speed in either forward or reverse direction. This enables any sequence of pictures to be played back at a viewer’s preferred speed. The repeat function enables either the entire disc or a specified portion of the program to be played back continuously. Selection of the playback sequence and the number of repetitions is made on the LVR-3000N front panel.

Operation Indicating Panel—In addition to frame or time code display, the status of operating modes, such as Recording, Picture Search and Repeat Function, are shown on the display panel so that viewing is not disturbed (Index indication switch should be set to off).

Search Dial—During picture search, the Jog/Shuttle dial adds the operational convenience of controlling playback speed from 1/2 to 30 times normal speed in the Shuttle mode and frame by frame to normal playback in the Jog mode. This allows the desired image to be easily found.

User Data—A 64 K byte area is reserved on each side of the disc for user data, such as the disc ID, contents and picture index. This data can be recorded with the assistance of an external computer. User data makes it easy to recognize a disc without actually replaying its entire contents.

Remote Control Units—The supplied wired/wireless remote commander RM-W3000 provides full operational control of an LVR-3000N. When the optional foot switch FS-20 is connected to the RM-W3000, recording can be initiated without IN and OUT points designated. In addition, the optional programmable remote controller RM-9000PR allows customized playback operations to be easily programmed and carried out.

19-inch EIA Standard Rack—With the optional rack mount kit RMM-7000A, the LVR-3000N can be mounted into a 19-inch EIA standard rack.

9-pin Remote Interface—Via the RS-422 9-pin remote interface, the LVR-3000N can be controlled by Sony Editing Control Units (BVE-3000 and BVE-5000 cannot control the LVR-3000N). Together with VTRs, the LVR-3000N can be used in an editing system. The supplied LDM-5422 remote interface manual provides detailed protocol information.

A Choice of Input/Output Facility—For convenient use of the LVR-3000N, various input/output facilities, such as Component Video (Y/R-Y/B-Y), RGB, Y/C separate video as well as composite video, are provided for flexible connection to other equipment. Monitor video output connection is also available.
## Specifications for Laser VideoDisc Recorder/Player

RM-9000PR
Programmable Remote Controller
- Controls playback operation of LVR/LVA/LDP series Laser VideoDisc products via the RS-232C interface
- Creates up to eight customized operational programs
- Requires neither special skills nor computer knowledge for programming
- Auto Repeat/Auto Play capability
- Removable RMI-9000 memory card to store up to eight operation programs created on the RM-9000PR
- D-sub 25-pin interface connector for connection to custom made control device

When used with the LDP series, the RM-9000PR can create operational programs effective for frame operation in the CAV mode

Supplied Accessories:
- Operation Manual
- RMI-9000 IC Memory Card
- SMF-3036C RS-232C Cross Cable (D-sub 9-pin/D-sub 25-pin)
- CR-2016 Lithium Battery

Optional Accessories:
- RMI-9000 IC Memory Card

Specifications
- Power Requirements: AC-120V, 60 Hz
- Power Consumption: 4.5W
- Dimensions (WHD): 280 x 88 x 210mm (approx.)
  (11 1/4" x 3 3/4" x 8 1/4")
- Weight: 4 lb. 13 oz. (2.2 kg.)
- Interface: RS-232C (D-sub 9-pin), compatible with Sony LVR, LVA and LDP series
  External input terminal (D-sub 25-pin)

RM-W7000
Wired/Wireless Remote Control Unit for LVA-7000 and LVA-3500
- Remote Control Method: Wireless (Infrared Pulse Method), wired (when supplied cable is connected)

Supplied Accessories:
- R6 (AA size) battery (3)
- Connection Cord (2 m)

Specifications
- Power Requirements: DC-4.5V (wireless: supplied from three R6 (AA size) batteries; wired: supplied from the player)
- Dimensions (WHD): 70 x 20 x 210mm
- Weight: 7 oz. (185 g.) (approx.) with batteries installed

LVM-3AA0
Writable Laser VideoDisc Media
- Write-once optical disc media for Laser VideoDisc recording
- Long-term storage
- Large storage capacity; 43,500 still frames or 24 min. of moving pictures per side in NTSC, 37,250 still frames or 24 min. of moving pictures per side in PAL

Specifications
- Dimensions (WHD): 325 x 345 x 16mm
  (12 1/4" x 13 3/4" x 6 1/8")
- Weight: 2 lb. 3 oz. (980 g.)
DB-W5000AP

PAL Signal Processing Board
OUT: PAL signal processing board for LVS-5000A

Specifications
Dimensions (WHD): 300 x 342 x 23mm (approx.)
(117/16” x 137/16” x 253/32”)
Weight: 2 lb. 10 oz. (1200 g.)

DB-W7000P

PAL Signal Processing Board
OUT: PAL signal processing board for LVA-7000

Specifications
Dimensions (WHD): 150 x 351 x 23mm (approx.)
(6” x 131/4” x 253/32”)
Weight: 1 lb. 5 oz. (600 g.)
EVO-9650

Hi8 Videocassette Record/Player

- Single frame recording capability: ±0 frame accuracy
- Sony Institutional RS-232C interface for computer control applications
- Video Hi8™ format for excellent picture quality: over 400 TV line resolution
- Insert capability: Video/PCM audio/Time Code
- Built-in frame buffer for high quality computer graphics recording
- Digital NR (chrominance and luminance noise reducer) for high quality playback picture
- Digital special effects: Frame/field (selectable), 3 x 3 matrix display, Zoom, Variable noiseless slow motion by the digital frame memory
- Built-in 8mm time code generator/reader
- Preset Menu for VTR mode setting: digital CNR/YNR level, Time code display position, Still timer, etc.
- JOG/SHUTTLE dial for quick and precise tape control: with supplied wired remote commander RM-9650
- PCM digital stereo and AFM monaural audio recording systems
- S-VIDEO IN/OUT connectors

Supplied Accessories:
RM-9650 Wired Remote Commander
Cleaning Cassette
Operation Manual

Specifications

General

- Weight: 17 lb. 10 oz. (8.0 kg)
- Dimensions (WHD): 355 x 116 x 387mm (14" x 4½" x 15¼")
- Power Requirements: AC-100V-120V 60 Hz
- Power Consumption: 32W
- Operating Temperature: 5°C to 40°C (42°F to 104°F)
- Video cassette: SONY P6-HMPX series
- REC and PB Time: 120 min. (with P6-120)
- FF/REW Time: <3 min. (with P6-90)
- Search Speed: SHUTTLE mode: STILL FORWARD: ⅔, ⅓, ⅔, 1, 2, 9, 19 times normal speed
  REVERSE: ⅔, ⅓, ⅔, 1, 3, 7, 17 times normal speed

Video

- Input: NTSC composite: 1.0Vp-p, 75Ω, sync negative
  Y/C (S connector: 4-pin DIN)
  Y: 1.0Vp-p, 75Ω, sync negative
  C: 0.286Vp-p, at burst level, 75Ω, sync negative
- Output: NTSC composite: 1.0Vp-p, 75Ω, sync negative
  Y/C (S connector: 4-pin DIN)
  Y: 1.0Vp-p, 75Ω, sync negative
  C: 0.286Vp-p, at burst level, 75Ω, sync negative

Audio

- Input: Phono: -7.5 dB, 47 kΩ, unbalanced
  0 dB = 0.775VRms
  Mic: -60 dB, 4.3 kΩ, unbalanced
- Output: Phone: -7.5 dB, 2.2 kΩ, unbalanced
  (0 dB = 0.775VRms)
- Frequency Response: PCM: 20 Hz–15 kHz
  Dynamic Range: PCM: > 85 dB

Connectors

- Video: In x 1 (BNC)
  Out x 1 (BNC)
  Monitor out x 1 (BNC)
- Audio: In x 2 (Phono-stereo)
  Out x 2 (Phono-stereo)
  Monitor out x 1 (Phono-stereo)
- S-Connector: In x 1 (4-pin DIN)
- GPI: Out x 1 (4-pin DIN)
- Remote: VISCA IN x 1
  VISCA OUT x 1
  RS-232C x 1

Horizontal Resolution:

- Hi8 mode: 400 TV lines
- Hi8 mode: ≥ 45 dB

S/N Ratio:

- Hi8 mode: ≥ 45 dB
EVO-9800A

Video Hi8 Recorder/Player (Editing Player)

- Video Hi8 format for improved picture quality: over 400 TV lines
- Video Hi8 and Standard 8mm format recording/playback capability
- Video Hi8 tape for Hi8 recording and high picture quality
- Built-in Digital Chrominance Noise Reducer (Digital CNR) for improving chrominance S/N ratio and providing minimum jitter
- PCM (Pulse Code Modulation) digital stereo and AFM (Audio Frequency Modulation) recording systems
- S VIDEO IN/OUT connectors
- U-matic DUB OUT connector for direct connection to the U-matic VTR via the VDC-5 dubbing cable to minimize picture degradation
- 8mm time code capability for accurate editing
- 8mm time code insertion or after recording capability
- Dial Menu Operation via search dial for user convenience: Display of time code character on the monitor screen, Setting preroll time, etc.
- Shuttle dial for high speed picture search: STILL, 1/50, 1/10, 1/5, 1/3, 1, 2, 9, 17, 19 times normal speed in the forward and 1/50, 1/10, 1/5, 1/3, 10, 17 times normal speed in the reverse direction
- Jog Dial for precise frame by frame picture search
- 9-pin REMOTE interface for connection with the RM-450 Editing Control Unit
- BKU-703A 33-pin Editing Interface (optional) for editing operation with the RM-440
- Audio XLR connectors

- Compact size and 19-inch rack mountable: with RMM-980 Rack Mount Kit (3 Unit)

Supplied Accessories:
- AC Power Cord
- Operational Manual

Optional Accessories:
- RM-450 Editing Control Unit
- BKU-703A 33-pin Editing Interface
- RMM-980 Rack Mount Kit
- RCC-5G/10G/30G 9-pin Remote Cable
- RCC-5F 33-pin Remote Cable
- VDC-5 U-matic Dubbing Cable
EVO-9850

Video Hi8 Videocassette Recorder

Superior Editing Picture Quality—The EVO-9850 realizes improved picture quality with a high luminance FM carrier of 7.0 MHz and a wide deviation level of 2.0 MHz. This allows for more than 400 TV lines of resolution and a high single-to-noise ratio. Built-In Digital Noise Reducer—The EVO-9850 is equipped with a built-in digital noise reducer, for both chrominance and luminance signals, to provide superior picture quality. In the CNR (Chrominance Noise Reducer) mode, noise reduction level of either LOW or HIGH can be selected according to picture conditions.

Four Channel Audio—The EVO-9850 incorporates both PCM (Pulse Code Modulation) digital stereo and AFM (Audio Frequency Modulated) analog stereo recording systems for superb quality sound reproduction and for wide audio system versatility. Four channels of input and output XLR connectors and individual level volumes for PCM and AFM are provided.

Video Hi8 and Video 8 Recording/Playback Capability—The EVO-9850 can record or playback both the video Hi8 and Video 8 formats. In the Hi8 recording, the professional Hi8 tape series provides excellent performance. The VTR automatically identifies cassette type and recording mode.

Assemble and Insert Capability—Both assemble and insert editing modes are available in the EVO-9850. Independent editing of video, PCM-1, PCM-2 and time code is possible in the INSERT mode. Built-in Time Base Corrector—The EVO-9850 is equipped with a built-in Time Base Corrector. The EVO-9850 outputs highly stable video signals by 4 fsc sampling with 8-bit digital quantization. A digital drop-out compensator is also incorporated. The EVO-9850 can be installed into an A/B roll editing system. The TBC can be remotely controlled using the optional BVR-55 TBC Remote Control Unit.

Sound Monitoring in the Jog Mode—To assure edit point locations, the EVO-9850 provides sound monitoring capability in the JOG search mode. The sound data are once stored in the memory and output according to the searching speed.

Built-in 8mm Time Code—For recording absolute address on tape, the EVO-9850 is equipped with a built-in 8mm time code generator. Time code is absolutely required for frame accurate editing. Since the 8mm time code is recorded between the video and the PCM audio tracks in a separate and dedicated location, 8mm time code insertion or overwrite is possible without losing a generation. Frame Accurate Editing—The EVO-9850 ensures precise video editing of ±0 frame accuracy. This has been achieved by an advanced servo system, newly developed quick response mechanism and built-in 8mm time code capability.
SMPTe Time code IN/OUT Interface (optional)—By installing the optional SMPTE Time Code IN/OUT Board, the EVO-9850 inputs and outputs SMPTE time code data via BNC connectors for more flexible versatility. Accordingly, the EVO-9850 can feed time code to another VTR or can lock to an external time code.

Quick Response Mechanism—To provide smooth, fast editing operations, the EVO-9850 incorporates a newly developed quick response mechanism. Mode transitions, such as STOP to PLAY, REW to PLAY, FAST FWD to PLAY are instantaneous. This mechanism also provides smooth picture search in the JOG/SHUTTLE mode.

High Speed Picture Search—The JOG/SHUTTLE mode provides high speed picture search from -17 to 17 times normal speed. Frame accurate picture search is available in the JOG mode to precisely locate edit points.

9-pin REMOTE Interface (RS-422A serial)—The 9-pin REMOTE Interface (RS-422A serial) is incorporated in the EVO-9850 for configuration into 9-pin based editing systems. The 9-pin connector is utilized for communicating edit command and time code data. The 8mm time code data in the EVO-9850 is converted into SMPTE standard time code data and then output to an editing controller through this connection.

DUB Connector—To minimize picture deterioration during the editing process, the EVO-9850 incorporates DUB IN/OUT (7-pin) connectors, enabling direct transmission of separate luminance and chrominance signals to another EVO-9850 or to Sony’s U-matic editing recorders. The DUB OUT connector offers selectability between Hi8 and U-matic.

S-VIDEO IN/OUT Connector—The EVO-9850 is equipped with S-VIDEO IN/OUT connectors. The connector carries separate Y (luminance) and C (chrominance) signals. This minimizes picture deterioration due to cross color and dot interference, during signal transmission. For a secure connection, Sony employed a locking connector compatible with current S-VIDEO connectors and cables.

TBC Remote Connector—In addition to the built-in TBC adjustment capability in the EVO-9850, remote control adjustments are possible from the optional TBC Remote Control Unit BVR-55 via the TBC REMOTE connector (D-sub 15-pin).

REF VIDEO IN Connector—The EVO-9850 can lock to an external reference video signal fed from the REF VIDEO IN connector. As a result, the EVO-9850 can be operated to be synchronized with other video equipment and can be easily configured into an A/B roll editing system.

User Friendly Design

Dial Menu Operation—For customized usage, the Dial Menu Operation is incorporated in the EVO-9850, allowing an operator to set various VTR operation modes with the search dial. Time code preset, time code superimpose, self-diagnostics display, digital hour meter, are a few examples.

Adjustable Front Panel—The EVO-9850’s control panel can be slanted at 30 degrees, 60 degrees or 90 degrees for operational convenience.

Compact Unit Size—The EVO-9850 is designed to be compact. Full editing capability and a TBC, and EVO-9850 is just 3-units high.

19-inch EIA Standard Rack Mountable—with the optional Rack Mount Kit RMM-980, the EVO-9850 can be installed into a 19-inch EIA standard rack.

Supplied Accessories:
V8-25CLH Cleaning Videocassette
Operation Manual

Optional Accessories:
BKU-703A 33-Pin Editing Interface
BVR-55 TBC Remote Control Unit
RMM-980 Rack Mount Kit
RCC-5G/10G/30G 9-Pin Remote Cable
RCC-5F 33-Pin Remote Cable
VDC-5 Dubbing Cable
EVBK-100 SMPTE Time Code IN/OUT Board
## 8mm/Hi8mm

### Specifications

#### General
- **Weight:** 31 lb. (14.0 kg)
- **Dimensions (WHD):** 424 x 147 x 452mm
  - (163/4” x 51/4” x 173/4”)
- **Power Requirements:** AC-100V ~ 120V, 60 Hz
- **Power Consumption:** 60W
- **Operating Temperature:** 5°C to 40°C (41°F to 104°F)
- **Videocassette:** SONY E6-HMEX, P6-HMMPX series
- **Max. REC and PB Time:** 120 min (E-120)
- **FF/REW Time:** < 3 min. (with E-120)
- **Search Speed:** SHUTTLE mode:
  - FORWARD: 1/20, 1/40, 1/80, 1/160, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 times normal speed
  - REVERSE: 1/20, 1/40, 1/80, 1/160, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 times normal speed

#### Video
- **Recording System:** Rotary 2-head helical scan system
- **Chrominance:** SC low range conversion recording
- **Luminance:** FM recording
- **Input:** NTSC composite: 1.0Vp-p ± 0.3V, 75Ω, sync negative
  - Y/C (S-VIDEO: 4-pin DIN): Y:1.0Vp-p ± 0.3V, 75Ω, sync negative
  - C: 0.286Vp-p, at burst level, 75Ω, sync negative
- **Output:** NTSC composite: 1.0Vp-p ± 0.2V, 75Ω, sync negative
  - Y/C (S-VIDEO: 4-pin DIN): Y:1.0Vp-p ± 02V, 75Ω sync negative
  - C: 0.286Vp-p, at burst level, 75Ω sync negative

#### Audio
- **Recording System:** Rotary 2-head helical scan system
- **Input (0 dB = 0.775 Vrms):**
  - Line: +4 dB, 600Ω, balanced
  - Mic: ~60 dB, 3 kΩ, balanced
- **Output (0 dB = 0.775 Vrms):**
  - Line: +4 dB, 600Ω, balanced
  - Headphones: −26 dB to −46 dB (at 8Ω), unbalanced
- **Frequency Response:**
  - PCM: 20 Hz −15 kHz
  - AFM: 30 Hz −15 kHz
- **Dynamic Range:** PCM: > 80 dB

#### Connectors
- **Video:** IN x 1 (BNC)
  - OUT x 1 (BNC)
  - REF VIDEO IN x 1 (BNC with loopthrough)
  - Monitor OUT x 1 (BNC)
- **Audio:** IN x 2 (XLR 3-pin) (MIC/LINE selectable)
  - IN x 2 (XLR 3-pin)
  - PCM OUT x 2 (XLR 3-pin)
  - AFM OUT x 2 (XLR 3-pin)
  - Monitor OUT x 1 (Phono)
  - S-VIDEO: IN x 1 (4-pin DIN)
  - OUT x 1 (4-pin DIN)
- **TV Connector:** OUT x 1 (8-pin)
- **DUB Connector:** 8mm DUB IN x 1 (7-pin)
  - 8mm/U-matic OUT x 1 (7-pin) - selectable
  - 9-pin REMOTE x 1 (RS-422A)
  - TBC REMOTE x 1 (D-sub 15-pin)

L-99
**EVO-9700**

**Video Hi8 Desk-Top Editing Machine**

- Compact configuration: a player and a recorder are integrated in a compact unit
- Easy operation with RM-E9700 supplied Remote Control Unit
- Video Hi8 and Standard 8mm format recording/playback capability
- Superior quality editing thanks to Y/C separate signal processing from a player to recorder
- Built-in Digital Chrominance Noise Reducer (Digital CNR) for player portion to improve chrominance S/N ratio and providing minimum jitter for high quality editing
- Video Hi8 tape for Hi8 recording and high picture quality
- PCM (Pulse Code Modulation) digital stereo and AFM (Audio Frequency Modulation) recording systems
- Various editing functions: Quick Edit, Program Edit, Video Insertion, PCM Audio Insertion, Slow Motion Edit, Freeze Picture Edit
- Built-in 8mm time code capability: edit accuracy is guaranteed ±0 frame
- 8mm time code insertion and after recording capability
- One monitor editing capability by picture-in-picture function
- PREVIEW and REVIEW functions

**Supplied Accessories:**
- RM-E9700 Editing Controller
- KI-9700 Title Keyboard
- V8-25CLH Cleaning Videocassette
- VMC-710M Video/Audio Cable
- BNC to Pin Plug Adaptor
- Mini Plug to Extra Mini Plug Adaptor
- Connecting cord
- PAUSE/CONTROL Adaptor
- Operation Manual

**Optional Accessories:**
- 14-inch Color Monitor PVM Series
- EVO-9100 1-chip CCD Hi8 Camcorder
- EWV-537/EVW-325/EVW-327 3-chip CCD Hi8 Camcorder
- EVO-8500A Hi8 Videocassette Recorder

### Video Signal

- **Input**:
  - 1.0Vp-p, sync negative, 75Ω, unbalanced
  - S connector (4-pin DIN):
    - Y: 1.0Vp-p ± 0.1V, 75Ω, unbalanced, sync negative
    - C: 0.286Vp-p, at burst level, 75Ω, unbalanced

- **Output**: 1.0Vp-p, sync negative, 75Ω, unbalanced
  - S connector (4-pin DIN):
    - Y: 1.0Vp-p ± 0.1V, 75Ω, unbalanced, sync negative
    - C: 0.286Vp-p, at burst level, 75Ω, unbalanced

- **Horizontal Resolution**: Video Hi8 mode: > 400 TV lines (color) Video Hi8 mode: > 400 TV lines

- **S/N Ratio**: Video Hi8 mode: > 45 dB Video Hi8 mode: > 45 dB

### Audio Signal

- **Input**: Line: +4 dBs, 19 kΩ, balanced
  - Microphone: −60 dBs, 4.3 kΩ, unbalanced
  - Phono: −7.5 dBs, 47 kΩ, unbalanced

- **Output**: Line: +4 dBs, (at 600Ω), balanced
  - Headphone: −26 dBs to −46 dBs (at 8Ω), unbalanced
  - Phono: −7.5 dBs, 2.2 kΩ, unbalanced

- **Frequency Response**: AFM: 30 Hz–15 kHz
  - PCM: 20 Hz–15 kHz
  - Headphone: 20 Hz–15 kHz

- **Dynamic Range**: AFM: > 60 dB
  - PCM: > 80 dB
  - PCM: > 85 dB

### Tape Transport

- **Tape Speed**: 14.3mm/s
- **REC or PB Time**: 120 min with P6-120 tape
- **Videocassette**: Sony E6-HMEX, P6-HMPX videocassette
EVO-9500A

Video Hi8 Recorder/Player

- Video Hi8 format for improved picture quality: over 400 TV lines
- Video Hi8 and Standard 8mm format recording/playback capability
- Video Hi8 tape for Hi8 recording and high picture quality
- PCM (Pulse Code Modulation) digital stereo and AFM (Audio Frequency Modulation) recording system
- Auto repeat function
- Clear still and slow motion pictures thanks to Dual Azimuth 4-head design
- Control P terminals for multiple VTR operation
- Additional audio recording on the PCM sound track
- 8mm Time code insertion/overwrite capability
- Wireless and wired remote control using optional remote control unit
- Timer REC or PLAY operation from an external AC timer
- S video IN/OUT connectors (4-pin DIN) to reduce cross color and dot interference

Supplied Accessories:
- V8-25CLH Cleaning Videocassette
- Operation Manual
- Optional Accessories:
  - RM-S52A Wired/Wireless Remote Control Unit

EVV-9000

Video Hi8 Recorder Unit

- Compact and lightweight camcorder by connecting to Sony DXC-537A/327A/325 3-CCD color video camera
- Video Hi8 format for improved picture quality: over 400 TV lines
- Video Hi8 and Standard 8mm format recording/playback capability
- Video Hi8 tape for Hi8 recording and high picture quality
- Y/C separate input via 50-pin DIN to reduce cross color
- PCM (Pulse Code Modulation) digital stereo and AFM (Audio Frequency Modulation) recording systems
- XLR balanced audio connectors for stable signal transmission
- MIC/LINE input selectable
- Built-in 8mm time code generator (DF/NDF selectable)
- Warning indications for reliable operation
- REC REVIEW function convenient for confirmation of recording
- Low power consumption of 7.5W
- More than 85 min. of continuous operation with DXC-537A/327A/325 from a single NP-1B battery
- LCD window: indication of time code, warnings, etc.
- Built-in ear speaker for audio monitoring
- RF out

Supplied Accessories:
- Shoulder Strap
- Guide for Attaching Shoulder Strap
- Metal Mount for Attaching Shoulder Strap
- V8-25CLH Cleaning Cassette
- Operation Manual

Optional Accessories:
- DXC-537A 3-chip CCD Color Video Camera
- DXC-327A 3-chip CCD Color Video Camera
- DXC-325 3-chip CCD Color Video Camera
- NP-1B Rechargeable Battery
- BC-1WB Battery Charger
- CMA-8A AC Adaptor
- CCQX-3 AC Power Cable

CONNECTORS

### RMM-980

**Rack Mount Kit**

- Rack mount kit for use in mounting EVO-9800 into 19-inch rack
EVO-520
8mm Videocassette Recorder/Player

Compact and lightweight by taking advantage of standard 8mm format - Auto repeat function, present program playback, and auto play functions - Capable of both AC and DC operation - Recognizable color picture obtained at -7 and 9 times normal speed - Clean, noise-free picture can be obtained in the STILL, FRAME-BY-FRAME, and -1 times normal speed modes - Wireless/wired remote control is possible - External sync capability - Function lock capability - The CUE IN connector and PREROLL button allows simple feeding capability to a VTR which can be connected to the RM-440, RM-450, and the RM-E50 - Microphone input

Supplied Accessories:
AC Cord
75Ω Coaxial Cable with Two F-Type Connectors (1m)
EAC-24 Antenna Connector
Operation Manual
Mounting Brackets (2)

Optional Accessories:
RMT-412 Wireless Remote Control Unit
NP-4000 Rechargeable Battery Pack
DCC-2600 Car Battery Cord

Specifications

General
Type: Recorder
Video Recording System: Two rotary heads and a flying erase head, helical scanning FM system
Video Signal System: EIA monochrome/NTSC color
Operating Temperature: 5°C to 40°C (41°F to 104°F)
Power Requirements: AC-120V ± 10%, 50/60 Hz
DC-9.6V
Power Consumption: AC-14W, DC-10W
Dimensions (WHD): 213 x 85 x 260mm (8'/2") x 33/e° x 101/4")
Weight: 6 lb. 3 oz. (2.8 kg.)
Recording and Playback Mode: SP/LP playback
SP recording
Recording and Playback Format: 8mm Standard

Video Signal
Input: BNC connector
Video: 1Vp-p, 75Ω unbalanced, sync negative
Ext. sync: 4Vp-p, 75Ω, sync signal or composite video signal
Output: BNC connector
1Vp-p, 75Ω, unbalanced, sync negative
Phone jack
1Vp-p, 75Ω, unbalanced, sync negative
Horizontal Resolution: 230 lines (SP, color)
S/N Ratio: 44 dB (SP, color)

Audio Signal
Input: Line: Phono jack - 10 dBs, > 47 kΩ
Microphone: Mini jack (monaural) - 70 dBs, los impedance
Output: Phono jack
-10 dBs (250 mV, at load impedance 47 kΩ)
< 10 kΩ
Frequency Response: AFM: 30 Hz–15 kHz (SP/LP)
S/N Ratio: AFM: > 60 dB (SP/LP)

Tape Transport
Tape Speed: SP: 14.3mm/sec.
LP: 7.2mm/sec.
REC or PB Time SP: 120 min. with P6-120
LP: 240 min. with PD-120

Video Signal:
8mm format videocassette

VHF Connectors:
VHF IN: American TV standard ch. 3 or ch. 4 selectable, F type

Remote Connectors: CONTROL P: IN and OUT, phono
Cue Signal Input: Phono jack, active low
The EVO-540 is a standard 8mm videocassette recorder/player which provides Quasi Hi8 video playback and PCM digital/AFM Hi-Fi stereo audio recording. Its compact design contains many features for enhanced operation; Auto Repeat function, Timer Playback, clean still and slow motion, 8mm time code/RC time code reader and much more. The EVO-540 can be a convenient workhorse for both video 8 and Hi8 users, for various applications.

- **Quasi Hi8 Playback Capability**—Until now, tapes recorded in Hi8 mode could not be played back by standard 8mm VTRs due to the high luminance carrier frequency of video Hi8. The EVO-540 introduces a Quasi Hi8 Playback capability which is designed to playback Hi8 recorded tapes. When Hi8 recorded tapes are inserted, the EVO-540 automatically adjusts the de-emphasis circuit for the Hi8 format. Thus, Hi8 and standard 8mm video tapes will be played back without noise allowing easy video playback regardless of format. Since the EVO-540 uses the standard 8mm carrier frequency, the picture is reproduced with standard 8mm carrier frequency, the picture is reproduced with standard 8mm picture resolution.

- **Audio System**—PCM Stereo and AFM Hi-Fi Stereo Audio Playback/Recording—The EVO-540 provides PCM (Pulse Code Modulation) digital stereo audio and AFM (Audio Frequency Modulated) Hi-Fi stereo recording systems (PCM audio cannot be inserted after recording). Bilingual Function—the EVO-540 has secondary audio playback capability. Since two different sound sources are recorded on separate audio channels, such as in bilingual audio system, either Main, Sub, or Mixed sound monitoring can be selected. The sound monitoring mode is selected by pressing the AUDIO MONITOR button on the supplied remote control.

- **Dual Mode Shuttle Ring**—The dual mode shuttle ring offers quick and easy picture search. Fast Forward/Rewind, Still, 1/5 and 1 times normal speed in either forward or reverse as well as Play and Stop can be controlled. Double speed playback is also available.

- **Auto Repeat Function**—By switching on the AUTO REPEAT function, the EVO-540 will automatically playback one segment of the videocassette repeatedly.

- **Timer Playback Function**—With the TIMER PB ON, the EVO-540 automatically goes into playback mode when the power is turned on. Thus the playback operation can be controlled by an external AC timer.

- **Clear Still/Slow Motion Function**—The 3-head system provides a noiseless still picture. Clear slow motion pictures can also be obtained affording easy picture search.

- **8mm Time Code/RC* Timer Code Reader**—For accurately determining tape location, the EVO-540 can read both 8mm time code and RC time code. By reading the time code recorded on the tape, the desired point on the tape can be quickly and easily located. (RC time code: Rewritable Consumer time code)
The EVO-540 is equipped with Control L IN terminal which allows the VTR to be remotely controlled by other Sony equipment. The Control P IN/OUT terminals are used for Sony's wired remote controller RM-S52A which enables simultaneous recording for VTRs connected through the terminal.

Linear Time Counter/Time Code Display—The linear time counter shows tape position in hours, minutes, and seconds to indicate accurate tape running time. By pressing the TC/COUNTER button on the EVO-540, either the time code or counter display can be selected.

Supplied Wireless Remote Control—RMT-540, controls most of the VTR functions including picture search, frame-by-frame picture advance, slow motion playback, double speed playback, tape return and audio monitoring select.

Supplied Accessories:
RMT-540 Wireless Remote Commander
Size AA (R6) Batteries for Remote Commander (2)
Cleaning Tape
Operation Manual
AC Cable

Optional Accessories:
RM-S52A Wireless Remote Control Unit

PCM: 20 Hz–15 kHz

Dynamic Range: AFM: > 60 dB

PCM: > 75 dB

Input: Phono connector

Output: Phono connector

(0 dB = 0.775Vrms) -7.5 dBs, input impedance: > 47 kΩ

(0 dB = 0.775Vrms) -7.5 dBs, load impedance 47 kΩ,

Output impedance: < 2.2 kΩ

Connectors

Video: Line input: BNC (1)

Audio: Line input: Phono (1)

Others: Control P IN/OUT: Phono connector

AC Inlet: Un-switched
**EVO-210**

*Video 8 Handy Recorder/Player*

- A highly versatile handy video deck weighing only 1.1 kg. and operating on three power sources (AC/Rechargeable battery (NP-22)/Car battery)  
- Instant playback on any TV set using RF adapter (RFU-80UC)  
- No manual tracking adjustment necessary due to ATF (Automatic Track Following)  
- Continuous playback of more than 150 min. possible with a single battery (NP-22)

**Supplied Accessories:**
- RFU-80UC RF Adapter with ANS-34 Antenna Selector  
- EAC-24 Antenna Matching Unit  
- 75Ω Coaxial Cable with F-type connectors (1.5m x 2)

**Optional Accessories:**
- NP-22 Rechargeable Battery Pack  
- ACP-88 AC Pack Battery Charger  
- BCA-80 Battery Charger Adaptor for ACP-80UC  
- LC-V803 Carrying Case for EVO-110/210, plus RFU-80, ACP-88, BCA-80 and two NP-22s

---

**Specifications**

**System**

- **Video Recording System:** Rotary two-head helical scanning, FM system  
- **Audio Recording System:** Rotary head, FM system (Monaural)  
- **Usable Cassettes:** 8mm video format cassette  
- **Tape Speed:**  
  - LP: 0.72 cm/sec. (approx.) (playback only)  
  - SP: 1.43 cm/sec. (approx.)

- **Recording Time:**  
  - 120 min. (P6-120)  
  - 3 min. (approx.) (with P6-90)

- **Power Requirements:**  
  - DC -6V (with NP -22 Battery Pack)  
  - DC -8.5V (with ACP-88 Battery Charger)  
  - DC -8.5V MULTI Connector

**Connectors**

- **Video and Audio:** Phono, F-Type  
- **Earphone Jack:** Mini jack (811)  
- **Remote Jack:** 5-pin (control L)  
- **MULTI Connector:** 24-pin

**General**

- **Power Consumption:** 2.6W (battery operation)  
- **Installation:** Horizontally, vertically (battery operation)  
- **Operating Temperature:** 0°C to 40°C (32°F to 104°F)  
- **Dimensions (WHD):** 180 x 72 x 171mm (7.1" x 2.8" x 6.7") (approx.)  
- **Weight:** 2 lb. 7 oz. (1.1 kg.) (approx.)  
- Including the battery and cassette 3 lb. 5 oz. (1.5 kg.) (approx.)

---
EVM-8010R

- Portable 8-inch monitor combined with an 8mm VTR
- 3 power source operation with AC power cord, two optional NP-1As or NP-1Bs, car battery using the optional DCC-16AW car battery cord. Built-in battery charger for two packs of NP-1A.
- Optional remote control unit RM-749. Equipped with Video/Audio in/out and monitor out connectors.
- Control 8mm VTR section of EVM-8010R at distance of up to 5m with RM-749 wireless remote control.

*NP-1B cannot be charged.

Supplied Accessories:
- AC Power Cord
- Instruction Manual
- Sony SUM-3 (NS) Batteries (2)

Optional Accessories:
- RM-749 Wireless Remote Control Unit
- NP-1A Rechargeable Battery
- DCC-16AW Car Battery Cord

Specifications

**Monitor**
- Video Signals: 525 lines, 60 fields
- Color System: NTSC
- Picture Tube: 9-inch Trinitron tube, visible picture size 8-inch measured diagonally, 70° deflection

**8mm VTR**
- Video Recording System: Two rotary heads and flying erase head helical scanning FM system
- Audio Recording System: Rotary head, FM system
- Usable Cassettes: 8mm format videocassettes
- Tape Speed: SP mode: 1.43 cm/sec. LP mode: 0.72 cm/sec. (Playback only)
- Recording or Playback Time: 120 min. (P6-120)
- Fast Forward Time: Approx. 3 min. (P6-90)
- Resolution: 230 TV lines in SP mode

**General**
- Power Requirements: AC-120V, 50/60 Hz
- DC-12V, with the optional Sony NP-1A battery pack or 12V DC car battery using the optional DCC-16AW car battery cord
- Power Consumption: AC-40W, DC-35W
- Dimensions (WHD): 242 x 274 x 327mm (9¾" x 10⅜" x 12¾")
- Weight: 17 lb. 10 oz. (8 kg.) (without battery)
- Audio Power Output: 0.8W
- Video Input: Composite: 1Vp-p, sync negative, 75Ω and high impedance switchable, loop-through BNC connector
- Audio Input: -5 dBs, high impedance, monaural, loop-through phono connector
- Monitor Output (Video 8): Video: Composite 1Vp-p, sync negative, 75Ω, BNC connector
- Audio: -5 dBs, low impedance, monaural phono connector
- Headphone Output: 8Ω, monaural, mini
- Operating Temperature: 0°C to 40°C (32°F to 104°F)
VA-90
VTR Adaptor

- Can be directly attached to the EVV-9000 video Hi8 recorder to be operated as a portable VTR
- CCQ type (14-pin) connector for high quality video/audio recording
- S-VIDEO IN for high quality video recording
- Digital Y/C separator to achieve high quality video recording for composite video signals
- Audio input level selectable -20 dB/-60 dB
SVO-1410

VHS Recorder/Player

- HQ circuitry for high quality picture
- Dual Azimuth (DA) 4-Head Design for clear slow and freeze pictures
- Tape stabilizer for smooth tape transportation
- Rapid Access Tape Transport System for quicker image access
- High Speed Rewind to cut down 4 min. rewind time to 2 and a half min. (with T-120 tape)
- Dual-mode shuttle control
- Auto repeat function
- Auto head cleaner
- Auto tracking function to eliminate the need for manual adjustment
- On-screen Menus for convenient operation
- Linear time counter
- Control S IN terminal to be operated from RM-V100 optional remote controller
- BNC video IN/OUT connectors
- 8-pin AV connector
- Camcorder friendly design of audio/video connectors on the front panel
- Burglar-proof Hook
- Supplied Wireless remote commander RMT-V373A for remote operation

Supplied Accessories:
- RMT-V373A Wireless Remote Commander
- Size AA Batteries (IEC designation R6) (2)
- Operation Manual
- AC Power Cord

Optional Accessories:
- RM-V200 Wired Remote Control Unit

Specifications

General
- Weight: 14 lb. 5 oz. (6.5 kg.)
- Dimensions (WHD): 430 x 87 x 358mm (17" x 33/8" x 14/4"")
- Power Requirements: AC-120V, 60 Hz, 3-wire grounded receptacle
- Power Consumption: 28W
- REC and PB Mode: SP/EP Recording
- REC and PB Time: 160 min. in SP mode (T-160)
- F FWD and REW Time: < 4 min. (T-120)
- High Speed Rewind Time: < 2 min. 30 sec. (T-120)
- Frequency Response: 70 Hz – 10 kHz (SP)

Video
- Video Recording System: Rotary two-head helical scanning FM system
- Input: BNC (rear)/Phono (front): 1.0Vp-p, 75Ω, unbalanced, sync negative
- Output: BNC type (rear): 1.0Vp-p, 75Ω, unbalanced, sync negative

Audio
- Input: Phono type (2): – 7.5 dBi, 47 kΩ
- Output: Phono (1): – 7.5 dBi, 22 kΩ

Tuner
- Tuner System (audio): Split inter-carrier system
- Channel Coverage: VHF channels 2–13
- UHF Channels 14–89
- CATV channels 1–125
- Antenna: 75Ω F-type connector antenna terminal for VHF/UHF

Timer
- Clock: Quartz locked
- Time Indication: 12-hour cycle
- Timer Setting: Only for recording
- Power Backup: Backup duration: Up to 1 hour at one time

Connectors
- Video: Line in x 2 (BNC/Phono)
- Line out x 1 (BNC)
- Audio: Line in x 2 (Phono)
- Line out x 1 (Phono)
- AV Connector: 8-pin x 1
- Control S: Input x 1 (Mini-jack)
- RF: Input x 1 (F-type)
- Output x 1 (F-type)
**VHS/S-VHS**

**SVP-1210**

**VHS Hi-Fi Player**

- HQ circuitry for high quality picture
- Dual Azimuth (DA) 4-Head Design for clear slow and freeze pictures
- Tape stabilizer for smooth tape transportation
- VHS Hi-Fi stereo sound
- Rapid Access Tape Transport System for quicker image access
- High Speed Rewind to cut down 4 min. rewind time to 2 and a half min. (with T-120 tape)
- Auto repeat function
- Auto tracking function to eliminate the need for manual adjustment
- SP/EP/LP playback capability
- Control S terminal to be operated from RM-V100 optional remote controller
- BNC video OUT connector
- Supplied Wireless remote commander RMT-V33C for remote operation

**Supplied Accessories:**
- RMT-V33C Wireless Remote Commander
- Size AA Batteries (IEC designation R6) (2)
- Operation Manual

**Optional Accessories:**
- RM-V200 Wired Remote Control Unit

**Specifications**

| General | Weight: 12 lb. 9 oz. (5.7 kg.) |
|         | Dimensions (WHD): 355 x 94 x 345mm (14" x 3¾" x 13¾") |
|         | Power Requirements: AC-120V, 60 Hz, 3-wire grounded receptacle |
|         | Power Consumption: 25W |
|         | Operating Temperature: 5°C to 40°C (41°F to 104°F) |
|         | Video cassette: SONY T-120PRO-XB, T-120ESX-HFB, T-120/160ES-HGB or equivalent |
|         | Maximum PB Time: 8 hours in EP mode (T-160) |
|         | F FWD and REW Time: Approx. 4 min. (T-120) |
|         | High Speed Rewind Time: Approx. 2 min. 30 sec. (T-120) |

**Video**

- Video Recording System: Rotary two-head helical scanning FM system
- Output (LINE 1 and 2): BNC/Phono: 1.0Vp-p, 75Ω, unbalanced, sync negative
- S/N Ratio: Better than 45 dB

**Audio**

- Audio System: Rotary two-head hi-fi system, stationary head
- Output (LINE 1 and 2): Phono: -7.5 dB (0 dB = 0.775 Vrms), 47 kΩ, unbalanced
- Frequency Response: 20 Hz - 20 kHz
- Dynamic Range: > 90 dB
- Wow and Flutter: < 0.005%

**Connectors**

- Video: Line out x 2 (BNC/Phono)
- Audio: Line out x 2 (Phono)
- Headphone jack x 1 (stereo mini jack)
- Control S: Input x 1 (mini jack)
- RF: Input x 1 (F-type)
- Output x 1 (F-type)

**Wireless Remote Commander:**

- RMT-V33C

**Remote Control System:**

- Infrared control

**Power Requirements:**

- DC-3V, size AA batteries x 2

**Dimensions (WHD): 43 x 20 x 174mm (1¾" x ¾" x 7")**

Weight: 2.3 oz. (65 g.) excluding batteries

---

L-112
SVO-1610

VHS Hi-Fi Videocassette Recorder

- High Picture Quality—The SVO-1610 is designed to reproduce consistently high quality pictures. HQ circuitry ensures clear edged pictures and the Double Azimuth (DA) PRO 4-Head design provides superb resolution and high color reproduction in a choice of three speeds: SP, EP and LP mode. In addition, a variety of playback modes, including noiseless clear still pictures, slow motion, x2 normal speed, are possible thanks to this head design.

- Hi-Fi Stereo Audio System—The SVO-1610 incorporates a VHS Hi-Fi stereo audio system for a wide dynamic range of 90 dB and frequency response from 20 Hz–20,000 Hz.

- High Speed FF/Rewind Time—The Fast Forward and Rewind time of the SVO-1610 is a quick 2½ minutes with a T-120 videocassette.

- Auto Tracking—Digital Auto Tracking automatically adjusts tracking for tapes recorded on other machines. It eliminates the need for manual adjustment of tracking variances while providing clear pictures.

- Tape Stabilizer—Sony's unique tape stabilizer minimizes picture jitter. The result is consistently stable, sharp pictures.

- Auto Head Cleaner—Every time a tape is loaded or ejected from the VTR, a cleaning element automatically passes over the video heads removing tape residue. This helps prevent head clogging and deterioration of picture quality.

- Endless Auto Repeat Function—When the Auto Repeat switch is set to ON, the SVO-1610 will playback the program repeatedly. The VTR detects the end of the program and automatically rewinds the tape to restart the playback from the beginning.

- Sensor Recording—By using the Sensor Recording function, unattended automatic recording can be performed. When the Sensor Rec mode is set to ON, the VTR automatically starts recording when it receives the video signal through the VIDEO IN connector. When the video signal stops, the SVO-1610 stops recording and automatically enters the STANDBY mode. In the event the tape ends during recording, the VTR will stop recording and turn itself off.

- Sequential Playback—When the Sequential Play mode is set to ON, more than two VTRs connected via the control S connectors can playback their tapes sequentially and repeatedly. In two unit operation, when the tape of the first VTR reaches the end of its program, the second VTR starts to play while the first VTR rewinds its tape to the beginning. When the second VTR finishes its program, the first VTR starts to play. Thus, various programs can be continuously played back sequentially as often as desired.

- One-Time Playback—When only one VTR is used in the Sequential Play ON mode, One-Time playback can be performed. When the PLAY button is pressed, the VTR starts to play to the end of program. The VTR, then, rewinds the tape to the beginning and stops to wait for next press of PLAY button. Thus, the SVO-1610 is always ready to play the program when de-
VHS/S-VHS

(SVO-1610, cont.)

- Power On and Recording/Playback Capability—This function allows the VTR to automatically start either recording or playback when the power is turned on. LP Mode Recording Capability—The SVO-1610 has three recording modes of SP, LP and EP. The recording playback mode can be selected on the remote commander.

- On-Screen Advanced Menu—The SVO-1610 incorporates on-screen display for easy set up of the Tuner, Clock and Timer programming. In addition, Auto Menu provides eight automatic playback mode settings for convenient operation. Each setting can be easily performed by following the menus on the monitor screen using the supplied remote commander.

- Index Search—Specific programs on the tape can be located by using the Index Search Function. The index point is automatically recorded on the tape each time a recording starts. The Index Search automatically accesses the next index point in either forward or reverse by using the supplied wireless remote commander.

- Key Inhibit Function—in the Key Inhibit mode, all function keys are deactivated to prevent accidental operation.

- Linear Time Counter—The linear time counter shows tape position in hours, minutes, and seconds. When the DISPLAY button on the remote commander is pressed, the time counter, along with playback mode and remaining tape length are superimposed on the monitor screen.

- Dual Mode Shuttle Control—The Dual Mode Shuttle Ring is on both the SVO-1610 and the supplied remote commander. Its single, easy-to-use shuttle ring provides quick operation of Fast Forward/Rewind, Picture Search, Still Picture and x2 play in either forward or reverse. x1.5 and x1 play can also be performed in forward playback.

- Control S Terminal—The SVO-1610 is equipped with Control S In/Out terminals to allow the VTR to be remotely controlled by other Sony equipment such as the optional RM-V200 remote control unit.

- 8-pin TV connector—An 8-pin video/audio connector is incorporated in to the SVO-1610. Video and audio signals are transmitted via this connector.

- BNC Connectors—The SVO-1610 is equipped with BNC connectors for assured wiring connections.

- Supplied Remote Commander—Using the supplied remote commander, all the VTR functions such as Shuttle control and On-screen Menu can be remotely operated.

Supplied Accessories:
- Wireless Remote Commander
- Size AA Batteries (2)
- AC Power Cord
- Instruction Manual

Optional Accessories:
- RM-V200 Wired/Wireless Remote Control Unit
- V-25CL Video Head Cleaning Cassette
- T-120PR-6B/T-120ES-XF/T-120/160-ES-HGB

Specifications

General
- Weight: 13 lb. 7 oz. (6.1 kg)
- Dimensions (WHD): 430 x 95 x 350mm
  (17" x 3.7" x 13.7")
- Power Requirements: AC-120V, 60 Hz, 3 wire grounded receptacle
- Power Consumption: 26W
- Operating Temperature: 5°C to 40°C (41°F to 104°F)
- Tape Speed: SP: 33.35mm/s (1¼"
  LP: 16.67mm/s (11/16"
  EP: 11.12mm/s (15/32")
- REC and PB mode:
- Recording/Playback
  FWD and REW Time: Approx. 2.5 min (T-120)

Video
- Color System: EIA standard (monochrome)/NTSC (color)
- Video Recording System: Rotary two-head helical scanning system
- Input Composite: BNC connector
- Output Composite: 1Vp-p, 75Ω, balanced, sync negative
- Monitor OUT: BNC connector
- Audio Recording System: Rotary two-head Hi-Fi system
- Input (0 dB = 0.775 mVrms): Phono: 8 dB, 47 kΩ
- Output (0 dB = 0.775 mVrms): Phono: 8 dB at 47 kΩ, 10 kΩ
- Frequency Response: 20 Hz–20 kHz (Hi-Fi mode)
- Distortion: < 0.5% (Hi-Fi mode)
- Wow/Flutter: < 0.35% (Normal mode)

Tuner
- Tuner System: 181-channel, frequency synthesizer tuning system
- Channel Coverage:
  - VHF/UHF: 2-13
  - CATV channels:
    - Mid band: A-5 through A1
    - Low band: A-8
    - Superband: J through W
    - Hyperband: (W + 1) through W + 84
- Antenna: 75Ω F type connector antenna terminal for VHF/UHF

Timer
- Clock: Quartz locked
- Timer Indication: 12-hour cycle
- Time Setting: 6 programs for 1 year max.
- Power Back-up: 60 min
- Tape Counter: Linear time counter

Connectors
- Video: Input x 1 (BNC)
- Audio: Input x 1 (Phono)
- Monitor-Out: 8-pin connector x 1
- Control S: Input x 1 (Mini jack)
- VHF/UHF: Input x 1 (F type)

Wireless Remote Control Unit
- Remote Control System: Infrared control
- Command Mode: VTR 3
- Power Requirements: DC 3V, 2 size AA batteries
- Dimensions: 68 x 31 x 200mm
  (21/8" x 1 1/8" x 7 7/8")
- Weight: 146 g (5 oz. excluding batteries)

L-114
RM-V200

Wired/Wireless Remote Control Unit

- VTR operation: STOP / PLAY / REC / PAUSE / FWD SEARCH /REW SEARCH / FF /REW / EJECT / POWER ON AND OFF
- High speed rewind button/2x speed playback/Frame advance operations for SVO-1410/160, SVP-1210
- Either Control-S or Control P control signal selectable

Supplied Accessories:
- Size AA Battery (2)
- Control S Cable (3m)
- Control P Cable (1.5m)
- Operation Manual

RM-450

Editing Control Unit

The RM-450 Editing Control Unit is designed to make two-machine editing operation easy and effective. It provides 33-pin remote control interface connectors and can be connected to 33-pin equipped editing VTRs directly. Also, 9-pin remote control interface (RS-422 serial interface) connectors are provided to allow the RM-450 to be connected to 9-pin equipped VTRs. Furthermore, mixed operation of 33-pin and 9-pin equipped VTRs can be executed. The RM-450 has many features which allow easy editing, a keyboard layout which minimizes key strokes, a JOG/SHUTTLE DIAL on both the player side and recorder side for convenient picture search operations, the Time Code/CTL/Relative Time Code editing modes for easy and accurate editing, the in-point auto counter reset function for convenient editing, and much more.

- 33-pin Interface and 9-pin Interface—The RM-450 provides 33-pin remote control interface connectors and 9-pin remote control interface (RS-422 serial interface) connectors on both the player side and recorder side. The RM-450 can be connected to various VTRs, such as the VO-5850/5800, which has a 33-pin interface, as well as VO-9850 series U-matics and other 9-pin equipped VTRs. Each player VTR and recorder VTR can be selected via the 9-pin/33-pin switches on the front panel. Therefore, the RM-450 can edit using any combination of 33-pin and 9-pin equipped VTRs.

- Time Code/CTL/Relative Time Code Editing—When a 9-pin equipped VTR is connected, the RM-450 not only allows CTL based editing but also makes Time Code based editing possible. Furthermore, the RM-450 provides the Relative Time code (RTC) editing mode, in which time code is used as an edit reference and time...
VHS/S-VHS

(RM-450, cont.)

code progress is counted like CTL on the LED counter. It has the feel of CTL editing with the precision of time code editing. The AUTO COUNTER RESET function, in which the editing point first designated is automatically reset to "0:00:00:00", is also provided. Editing Functions—The RM-450 can use the Assemble and Insert (V/A1/A2) edit modes, and provides editing functions such as editing IN-POINT/OUT-POINT ENTRY, PREVIEW, TRIM, AUTO EDIT/END, REVIEW/JUMP, GO TO, AUDIO SPLIT, and LAST EDIT. The function keys are laid out to enable easy operation. Easy Operation—The RM-450 provides JOG/SHUTTLE dials on both the player side and recorder side and the function keys are laid out for easy operation to meet user demands. The RM-450 can remotely control basic functions of VTRs such as PLAY, STILL, FF, REW, STAND BY, EJECT, REC, and EDIT. (The EJECT function can be executed only on 9-pin equipped VTRs. The REC and the EDIT keys are only on the recorder side.) Synchronized Capability—The RM-450 accepts REF. VIDEO IN (reference video input) for synchronized operation. Therefore, when a reference video signal is input, the RM-450 can perform absolutely precise synchronized editing. The synchronization precision can be selected via the SYNCHRONIZE GRADE switch. Pinch on Delay Time Learning Capability—The RM-450 detects differences between the pinch on delay times of the player and recorder and stores them in the memory using the LEARN function. The RM-450 can change the play command timing of one of the VTRs to adjust the timing of the edit in-points automatically. Audio Split Editing—The RM-450 provides the AUDIO SPLIT function, which allows the audio edit in-point to be set differently from the video edit in-point. Therefore, the RM-450 can effectively edit sound or music. Easy Mode Setting—Mode setting is very easy and convenient when using the preset switches on the front panel. 33-PIN/9-PIN CTL/RTC/TC PREROLL TIME: 3/5/7/10 EDIT TIMING: AUTO/ -1F ~ -7F SIGNAL STANDARD: 30F/25F CUE OUT SIGNAL TIMING: -7 SEC ~ 7 SEC FROM IN-POINT BEEP SOUND: ON/OFF SYNCHRONIZED VTR: PLAYER/RECORDER SYNCHRONIZE GRADE: 0F/±1F EDIT ENABLE WITHOUT SERVO LOCK: ON/OFF CTL DISPLAY: 24H/±12H SLO-420 USE: ON/OFF AUTO COUNTER RESET: ON/OFF Error Message—The RM-450 indicates the "Error" and error number on the LED counter along with a warning sound to point out misoperation. The error number is explained on the error message chart. Cue Signal Out—A cue pulse out from the RM-450 is provided for external equipment on which an external start trigger capability is equipped. Self-Diagnostics—The RM-450 has a built-in self-diagnostic function to improve serviceability and make maintenance easy.

Supplied Accessories:
AC Power Cord Error Message Chart Operation Manual

Optional Accessories:
RCC-5F 33-pin Remote Control Cable RCC-15FT 33-pin Remote Control Extension Cable RCC-5G/10G/30G 9-pin Remote Control Cable RMM-450 Rack Mount Kit (for 19" EIA and SONY SU-512 rack) SU-450 Double size table (for SONY SU rack)

Specifications
Power Consumption: 11W
Weight: 6 lb. 13 oz. (3.1 kg) (approx.)
Dimensions (WHD): 390 x 93 x 265mm (15 1/4" x 3 3/4" x 10 1/2"
Operating Temperature: 0°C to 40°C (32°F to 104°F)
Storage Temperature: -20°C to 60°C (-4°F to 140°F)
Edit Reference: Control track signal, SMPTE/EBU LTC (Longitudinal Time Code), VITC (Vertical Interval Time Code)

REF VIDEO IN
Reference Video Input: 0.5Vp-p to 2.0Vp-p, negative, 75Ω, unbalanced
External Sync Input: 0.5Vp-p to 5.0Vp-p, negative, 75Ω, unbalanced
CUE OUT
Cue Pulse Signal: Active low: low level 0V to 0.5V high level 3.5V to 5.0V
SVAC-901
Audio Meter for SVO-960
- For monitoring audio recording level

SVAC-902
Cassette Holder
- To hold cassettes ejected by the SVCC-960

SVAC-903
Audio Head Cleaner
- For cleaning a stationary audio head in the SVO-960

SVAC-904
Bi-Directional Remote Control Panel
- To operate a duplications system with the SVRM-960
Bi-Directional Remote Control Unit
**SVBK-901**

*34-Pin Parallel Interface Board*
- To meet 34-pin based control system
- Control P serial control signal output connector

**SVBK-902**

*Bi-Directional Interface Board*
- To enable two way communication between duplication VTRs and the SVRM-960

**SVCC-960**

*Automatic Cassette Changer for SVO-960*
- Automatic cassette loading and ejecting for efficient duplication operation: Up to 5 cassettes
SVO-960
VHS Hi-Fi Duplicator

- High quality picture and sound by wide video/audio track design
- Quality construction and durable mechanism for highly reliable operation
- Low power consumption of 25W
- Compact size and lightweight
- Control IN/OUT connectors for loopthrough connection
- Loopthrough audio/video connectors for simpler system connection
- Control S IN connector for VTR operation checking
- Automatic check function for reliable recording results (operated from SVRM-901/SVRM-960)
- Data set function: VTR ID SET, ID code REC ON/OFF, ID code display ON/OFF, video AGC ON/OFF, audio limiter ON/OFF, Hi-Fi auto ON/OFF etc.
- Auto off function for technical difficulties
- Convenient front test terminals for easy technical testing
- Operation status indicator: TAPE RUN, REC, EJECT/AUTO OFF

Supplied Accessories:
AC Power Cord
Instruction Manual

Optional Accessories:
RM-V200 Remote Control Unit

SVRM-960 Bi-Directional Remote Control Unit

Specifications

General
Type: VHS Hi-Fi duplicator
Video Recording System:
Video Signal System: EIA monochrome/NTSC color
Operating Temperature: 5°C to 40°C (-41°F to 104°F)
Power Requirements: AC-100V
Power Consumption: 25W
Dimensions (WHD): 270 x 132 x 370mm
(105/8" x 5 1/4" x 14 3/4")
Weight: 16 lb. 9 oz. (7.5 kg.)

Video Signal
Input: 1.0Vp-p, 75Ω (with termination switch), sync negative (with loopthrough output)
Output: CH-1/CH-2: -10 dBs, 47 kΩ, unbalanced (with loopthrough)
Horizontal Resolution: > 240 TV lines
S/N Ratio: > 45 dB

Audio Signal
Input: 0.775Vrms (0 dBs)
Output: -10 dBs, 47 kΩ, unbalanced
S/N Ratio: 43 dB (standard)
Dynamic Range: > 90 dB (Hi-Fi)
Frequency Response: 50 Hz to 10 kHz (standard)
20 Hz to 20 kHz (Hi-Fi)

Tape Transport
Tape Speed: 33.35mm/sec.
F WFD andREW Time: 2.5 min. (E-120)
Video cassette: VHS standards cassette tapes

L-119
SVRM-901
Serial Remote Control Board for SVO-960
- Control P out connectors for controlling entire duplication VTRs: Up to 2,000 VTRs
- VTR mode set up capability: VTR ID code REC ON/OFF, video AGC ON/OFF, Hi-Fi Audio ON/OFF, audio limiter ON/OFF, etc.
- Auto Check function for examining secure video/audio recording

SVRM-960
Bi-Directional Remote Control Unit for SVO-960
- Duplication VTR control capability: up to 1,000 VTRs
- Individual VTR status monitoring capability
- System management capability
- VTR mode set up capability: VTR ID code REC ON/OFF, video AGC ON/OFF, Hi-Fi Audio ON/OFF, audio limiter ON/OFF, etc.
- Auto check function for examining secure video/audio recording
- RS-232C interface for computer control operation
- Centronics compatible printer interface
Cables

**ECD-3C/10C/30C**
Digital Audio Cable (3M, 10M, 30M—XLR 3-PIN)

**VDC-5**
Dubbing Cable
- 7-pin/7-pin, 5m (16.4 ft.)

**VCD-2D/5D/10D/30D**
Digital Video Cable (2m, 5m, 10m, 30m—D-sub 25-pin)

**RCC-1502D/1505D/1510D/1530D**
(2m, 5m, 10m, 30m—D-sub 15-pin)
Digital Video Controller Cable

**DDU-2100**
Digital Audio Delay Unit
- Capable of delaying a maximum of 8 channels (4 inputs of AES/EBU digital audio signals and SMPTE/EBU time code (LTC) simultaneously)
- Delay time can be adjusted by field, msec., samples: Field: 8.5 fields (0.1 field/step); M sec: 170m sec. (2.0m sec./step); Sample: 8100 samples (100 samples/step)
- Accepts 48 kHz, 44.1 kHz, 44.056 kHz and 32 kHz sampling frequencies
- One rack unit high and 19-inch rack mountable

**Specifications**
- Power Requirements: AC-100V–120V ± 10%, AC-220V–240V ± 10% selectable, 50/60 Hz
- Power Consumption: 15W
- Dimensions (WHD): 424 x 44 x 330mm
  (16¾" x 1¾" x 13")
- Weight: 7 lb. 11 oz. (3.5 kg.)
- Audio Input: AES/EBU x 4 (XLR 3-pin)
- Audio Output: AES/EBU x 4 (XLR 3-pin)
- LTC Input: SMPTE/EBU x 1 (XLR 3-pin)
- LTC Output: SMPTE/EBU x 1 (XLR 3-pin)
- Sampling Frequency: 48 kHz/44.1 kHz/44.056 kHz/32 kHz selectable
- Maximum Delay Range: 8.5 fields/170 ms/8100 samples
DTR-3000
Dynamic Motion Controller

- Provides speedy control of DT equipped VTRs in STILL, JOG, VARIABLE, and SHUTTLE modes
- Five current cues can be entered and accessed for search to the desired event
- Additional five memory cues are provided to store current cues
- Each cue point is easily accessed using the cue scroll or memory cue scroll keys
- Up to two VTRs can be controlled by one DTR-3000
- Up to four DTR-3000s can be interconnected for parallel operation, thus a maximum of eight VTRs can be controlled at the same time
- Both dial and lever operation are available
- Playback speed from -100% to 300% in 50 steps (normal speed = 100%)
- Preroll times can be set within the range of 0 sec. 00 frames to 9 sec. 24 (NTSC)/29 (PAL) frames

Specifications

Power Requirements: AC-100V~240V, 50/60 Hz
Power Consumption: 35W
Dimensions (WHD): 212 x 257 x 271 mm
(8 3/4" x 10 1/4" x 10 3/4")
Weight: 10 lb. 2 oz. (4.6 kg.)

Input/Output Connectors:
- RS-232C: D-sub 25-pin
- VTR-1: D-sub 9-pin, RS-422
- VTR-2: D-sub 9-pin, RS-422
- GP-IB: GP-IB 24-pin
- TALLY: D-sub 9-pin, AC/DC-24V
- VIDEO IN: BNC, 1.0Vp-p, 75Ω
- MONITOR OUT: BNC, 1.0Vp-p, 75Ω
