Editorial

We take pleasure in presenting the GLOBE CIRCLER in a new form at this time. We trust that this will be the beginning of a new era in the history of the I.D.A. We will not only be able to give you all the regular features, but will be enabled to include photographs, and circuits, etc. As our organization continues to expand, we will also add more pages to this booklet and endeavoring, with your cooperation, to always make it more complete and useful. In order that we may be able to get the B.C. in the mail on the first day of the month, we must ask that all material and reports be in this office not later than the 20th of months preceding date of issue.

FIRST LOCAL I.D.A. BRANCH

We are pleased to announce the establishment of the first local I.D.A. branch in the city of Toledo, Ohio. Charter I.D.A. members are as follows: Messrs. S.R. Lewis, Clarence Meader, R.G. Ludwig, Glen Windisch, R.J. Southward and Jack Land. The cooperation of leading Toledo papers has been promised, Regular DX Meetings and parties are planned. Also they plan a mimeographed sheet concerning the local dxing exploits of the club. According to a new I.D.A. ruling, whoever is chosen as Mr. of this local club, will also automatically become Asst. Director of that I.D.A. District, in charge of the state of Ohio. All cooperation will be given these local clubs, and supplies needed will be furnished, by headquarters. Several other cities are nearing a local membership of five members, which is necessary for a branch charter.

I.D.A. STATIONERY AVAILABLE

The new Two-color I.D.A. letterheads are now available, but as the supply is being diminished at quite a fast rate, we would suggest your putting in your order immediately.

Pricing: Per fifty sheets, 10c. Per one hundred sheets, 70c. Per two hundred sheets $1.20; all prices post-paid.

I.D.A. OFFICIALS

Presenting to you Mr. Francis Wiseman of Newcastle on Tyne, Eng in charge of all I.D.A. affairs in the British Isles, and Europe. Under the very capable management of Mr. Wiseman 40 members have already been enrolled in this territory.

Mr. Wiseman's latest stunt is the issuance of a little mimeographed booklet called the B.G.C. (British Globe Circler) which in reality is a supplement to our G.C., with local radio news added. Any I.D.A. member may get copies of the B.G.C. by sending Mr. Wiseman 50cts. stamp, as these are in demand there.

JOE STOKES AT KDKA MIKE

IDA member Joe Stokes is now conducting the DX Period, for the KDKA DX Club, at 11:30pm CST, each Sunday night over KDKA, 980kC/s, and Shortwave station W8XK, 48.83 meters. These periods bring you the DX Tips, and important news from all the leading DX Clubs. I.D.A. MEMBERS IN FOREIGN COUNTRIES, PLEASE LISTEN FOR W8XK, AND SEND US, AND MR. STOKES REPORTS ON YOUR RECEPTION. -- Address Mr. Joe Stokes, KDKA DX Club, Pittsburgh, Pa.

I.D.A. OFFICIAL STAMP EXCHANGE

Ralph Schofield, Missoula, Montana has started a Stamp Exchange for the benefit of I.D.A. Members, and other dx'ers wishing to secure or exchange Foreign stamps. By making use of this new department, a considerable amount can be saved over the purchase of International Reply Coupons. All wishing to purchase, or exchange foreign stamps, address Mr. Ralph Schofield, THE WILMA PLUNGE, Missoula, Montana.

EARLY GLOBE CIRCLERS IN DEMAND

Anyone having early issues of the G.C. they would like to sell, kindly get in touch with headquarters.

*****

According to Experts, the year of 1934 will bring maximum DX on BCB.
2. Official Organ "The Globe Circler"
March 1934.

THE BEST CATCHES OF FEBRUARY

In our estimation the best verifications received during the last 30 days are in order of importance as follows: Mr. C.H. Long, Winston, Missouri, with a veri' from JOCG, (300w) of Japan. Mr. Robt. Rosenberger, with a veri' from 7LA, (300w) of Tasmania. Mr. Alex Taylor, Montrose, Scotland with veri' from KROW, (500w) of Oakland, Calif. Mr. Evan B. Roberts, Danvers, Mass., with veri' s from Lille, (5kW) of France, and Lyons (La Doua), (15kW) of France. Mr. Chas. Hesterman, Saskatoon, Sask., Canada, with a veri' from P.P. (60kW) France

THE HONOR ROLL FOR MARCH

NOTE: We are listing our regular Honor Roll this month. Next month we will again give you a list of verifications received by districts. -Ed.

SPECIAL DEGREES.
The proposed new Degree Requirements, as listed in the last Globe Circler have met with such unanimous enthusiasm, that we have decided to adopt them, starting at this time. Those having received Degrees under the old ruling, are still officially recognized, the new ruling will only affect those applying for degrees from this time on. No changes, as yet have been proposed in regards to our foreign members, degree requirements. Following is a list of members, now becoming eligible for degrees.

H. R. Jordan, Colo Springs, Colo. C. Hesterman, Saskatoon, Sask.
F. L. Biss, Brittmont, Minn. Don H. Townsend, Fallon, Nev.
R. Hunt, Encinitas, Cal.
H. G. Gosney, Redondo Beach, Cal.

#### THE NEW FRENCH NATIONAL BROADCASTING PLAN

This list is through courtesy of our Mr. Beauclerk of Biarritz, gives the entire National Plan to be carried out. Those marked with an Asterisk are the first to be taken over by the Government under the plan.

- **Northern Region**: CAMPHIN-EN-CAREMBAULT, near Lille
- **Paris District**: VILLIERS-LE-BEL
- **L'Alsace District**: BRUMATH, near Strasbourg
- **Lyons District**: TRAMOYES, near Lyons
- **Alsace Region**: GRENOBLE
- **La Provence District**: REALPOR, near Marseilles
- **Languedoc Region**: MONTPELLIER
- **Pyrenees Region**: MURET, near Toulouse
- **Gironde District**: Near Bordeaux (No name picked yet)
- **Massif Central Region**: Limoges (No names picked yet)
- **Bretagne Normandie Region**: TOURS, near Nantes
- **Cote d'Azur Region**: BRAGUE, near D'Antibes
- **Radio Paris**: Paris, France (long Wave)

**NOTE:** These two lists are very valuable. We suggest you carefully file them away for future reference. -- Ed.

CONTEST NEWS

ALL CONTEST VERIFICATIONS FROM THIS DATE ON FROM NORTH AMERICAN MEMBERS.—Must be sent to Mr. Leo Folk, of Bradford, Illinois for O.K. Be sure, and enclose self-addressed and stamped envelope. This change is made necessary by the forced withdrawal of Mr. Frank A. Johnson of Chi-

cago, as Contest Judge, due to personal

conditions, which will take up all of his time.—Editor.

The ten leading CONTESTANTS up-to-date in the Contest are as

follows, in order of rank: (1) R. T. Coa-

Wm. H. Ansall, Regina, Sask, Canada (7)

Robt. Mumford, Dublin, Irish Free Sta. (8) F. R. Crowder, Leeds, England. (9) Chas. Reaterman, Saskatoon, Sask, Can-

ada (10) J. A. Shanks, Russellville, Tennessee.

So far the Contest is very close with anyone likely to win, and a very good chance for all. As this is the last official Month, I would suggest all members put in as much time as possible in securing as great a number of Veri's as possible.

All veri's must be sent for not later than March 31st, at midnight C.S.T.

We urge every member to send in every veri' eligible for the con-
test, to your contest judge, even if you only have one, as whether we may run future DX Contests, rests upon the amount of support you show this one. —Editor.

BROADCAST REPORT

WTIC—We are indebted to WTIC, for a very well arranged, and high-
class broadcast, with several fine announcements for the I. D. A. This broadcast will undoubtedly be the recipient of many foreign reports.

W5X0—Made a number of greatly appreciated announcements for the I. D. A.; and came in with tremendous volume.

KSCJ—We wish to compliment the announcer Mr. Renshaw, for putting on a very clever BC. His interest in the BC, and his pleasant personality was a pleasure to listen to.

NOS—Unfortunate weather conditions prevented this broadcast from getting out like it should.

CS1RP—A letter arriving from this station, just one day before the BC notified us they would be on 114.11kC., as we had assumed they would in the last issue of the G. C. The DX wasn't heard here, but we hope we get reports of its reception on the East Coast.

Nishni Novgorod DX was recorded by Mr. Wiseman, in England, although not received in this country.

May we count on every IDA member to listen in and send in a report if possible, but in any case, send a card of thanks for this opportunity of talking to you in person. WMED is a station that rarely DX's, and will be an especially good catch in New Zealand, Australia, etc. Several worth-while prizes will be given, and a programme of live talent provided. We would greatly appreciate any publicity you can give this broadcast, and then let's hear from you.</td>

General Notes: DX conditions started out good the first of the month, with good DX almost general. However since that time, static, and poor reception has been almost universal, although TF's are showing a little more power.
SOCIETY OF WIRELESS PIONEERS

Mr. M. Mickelson, 3229 Bloomington Ave, Minneapolis, Minn. Vice-President in charge of the Society of Wireless Pioneers states that, application blanks have been sent out to those who have been asked to become charter members. Several outstanding figures in radio have voiced enthusiastic sentiments concerning the new organization, and have expressed a willingness to cooperate with, and support the founders of the S.W.P. The charter members of which there will be twenty-five, will include men of unquestioned experience, and many years in the radio game. These will indeed be a firm foundation upon which to build one of the finest, and most unique of radio organizations. It is hoped organization detail work will be far enough advanced by the next issue of the 'Globe Circler', that the S.W.P., can take over a part of this booklet. Included in the S.W.P. section will be the most choice of selected, authentic and interesting information, and pictures concerning work on the Short-wave bands, as well as news of S.W.P. club activities. Just as soon as membership enrollment justifies it, we will be pleased to add more pages to the Globe Circler.

All those who can prove ten years or more of experience in the Short-wave, or high frequency end of Radio reception, transmission, or experimentation, are eligible for admittance into the S.W.P., and should write Mr. Mickelson, for an application blank.

Mr. R.H. Tomlinson, well known Short-wave writer, experimenter, and dx'er will have entire charge of editing the pages of the S.W.P., and all news pertaining to Short-waves. We are especially fortunate in being able to have Mr. Tomlinson services in this capacity. Please send any, and all information pertaining to Short-wave to Mr. Tomlinson, at 7 Madison Ave, Port Chester, New York.

SPECIAL SHORT-WAVE BROADCASTS

March 12, Monday, from 1:30 to 2:30am CST, VQ7LO, of Nairobi, Kenya Colony, British East Africa, will put on a special broadcast for radio listeners, and readers of RADEX. They will use a wave-length of 50.2 meters, the 20kW station of Transradio Internacional, on 28.98 meters. These periods are daily from 3-4, and 8-9 pm EST. Letters can be either sent to Radio Splendid at Callao 1526, or to Transradio Internacional, San Martin 329, Buenos Aires, Argentina.

A new station with call YV4BOD, in Caracas, Venezuela:

A station with call YV4BOD, is broadcasting nightly on 50.2 meters, from about 9-10:30pm EST. YV2AM will use call of YV5BMO:

YV2AM is now testing on about 31m and 50m, besides his regular 41.6m wave. This station as a commercial broadcaster, will use a power of 1Kw. Reports will be welcomed by Radio VQ7LO.

Radio Station HIZ, Santo Domingo, D.R., starting at 10:30pm CST, Saturday evening, March 17th. HIZ will be on 47.50m, 6315Kc. Some very novel, and unique stunts will be attempted on this occasion. Address your reports to 'Estacion Radiodifusora HIZ', Calle Duarte #68, Santo Domingo, D.R.

Radio Station CP5, Bolivian Broadcasting Co., LaPaz, Bolivia, will broadcast for the IDA on Saturday March 31st, from 3-4:30pm EST, and 8-9:30pm CST. CP5 ordinarily uses a wave-length of 49.5, but it has been reported lately on 50.2 meters, so watch both points.

Radio Estacion EAR58, Radio Club de Tenerife, Santa Cruz de Tenerife, Canary Islands, will broadcast for the IDA, on Saturday March 31st from 3-4:30pm CST, and 8-9:30pm CST. EAR58 has recently installed a new 200w Xmr, and is especially anxious to know how it is getting out. Their wave-length is 41.5 meters. The new address is "Radio Club Tenerife/Alavarez de Lugo 1., Santa Cruz de Tenerife, Canary Islands."

NEW SHORT-WAVE STATIONS:

Radio Edystone:

A communication is at hand from a new station in Lisbon, Portugal saying they are broadcasting, on 24.53 meters. The schedule is Sundays from 5 to 7pm, and Fridays 2-4am EST. The owner, Senior Oscar Lomelino, is very anxious for reports. The address is Estacao Radio Edystone, Rua Gomes Freire 79, Lisbon, Portugal.

LR4 Broadcasting over LSX:

Just in time to catch this issue comes the news that LR4, Radio Splendid is starting a series of Short-wave broadcasts. These are over LSX, the 20kW station of Transradio Internacional, on 28.98 meters. These periods are daily from 3-4, and 8-9 pm EST. Letters can be either sent to Radio Splendid at Callao 1526, or to Transradio Internacional, San Martin 329, Buenos Aires, Argentina.

Radio Station HIZ, Santo Domingo, D.R., will start at 10:30pm CST, Saturday evening, March 17th. HIZ will be on 47.50m, 6315Kc. Some very novel, and unique stunts will be attempted on this occasion. Address your reports to 'Estacion Radiodifusora HIZ', Calle Duarte #68, Santo Domingo, D.R.

Radio Station CP5, Bolivian Broadcasting Co., LaPaz, Bolivia, will broadcast for the IDA on Saturday March 31st, from 3-4:30pm EST, and 8-9:30pm CST. CP5 ordinarily uses a wave-length of 49.5, but it has been reported lately on 50.2 meters, so watch both points.

Radio Estacion EAR58, Radio Club de Tenerife, Santa Cruz de Tenerife, Canary Islands, will broadcast for the IDA, on Saturday March 31st from 3-4:30pm CST, and 8-9:30pm CST. EAR58 has recently installed a new 200w Xmr, and is especially anxious to know how it is getting out. Their wave-length is 41.5 meters. The new address is "Radio Club Tenerife/Alavarez de Lugo 1., Santa Cruz de Tenerife, Canary Islands."

Letters can be either sent to Radio Splendid at Callao 1526, or to Transradio Internacional, San Martin 329, Buenos Aires, Argentina.

A beautiful QSL card is sent by LSX, YV4BOD, in Caracas, Venezuela:

A new station with call YV4BOD, is broadcasting nightly on 50.2 meters, from about 9-10:30pm EST. YV2AM will use call of YV5BMO:

YV2AM is now testing on about 31m and 50m, besides his regular 41.6m wave. This station as a commercial broadcaster, will use a power of 1Kw. Reports will be welcomed by Radio VQ7LO.

Mr. S.M. Vegas is a member of I.D.A.
SHORT WAVE

NEW SOVIET STATION:

From the CSWRC comes word that a new Russian station on 29.80 meters was recently heard in connection with RNE. They think perhaps this may be RRLY, Moscow officially listed on 30.20 meters.

YNTRG new station in Nicaragua.

The "Radio Club of Granada," in Nicaragua, Central America, is being heard on 44.70 meters, from 4-6pm EST, irregularly.

UB1UG being heard in Ficaragua, Central America, is on 30.20 meters, irregularly, from 4-6pm EST, from 8:30 to 11 pm EST.

UB1UG being heard in East.

E6BAZ-21m—"Kenneth L. King, 1317 Drummondville, Quebec.

CM2AN-21m—"Sergio I. Vassallo, Box 178, Belize, British Honduras, C.R.

Other Ham Calls logged include HIZQ, CM2AQ, VPLJR, and K6FJK.

**

XETE is now being heard in the evenings, on 32.7 meters.

From Our Members

HJ1ABE is operating on 55.2 meters from 9-10pm EST. E31ABD also in Cartagena, Colombia is on 45.8m.

OPM in Belgian Congo, recently was heard well in Lansing, Michigan, on 29.56 meters, between 5-5:30pm EST.

CR7AA, Mozambique, E. Africa, was heard on their recent DX by G. R. Bigge of Pt. Benning, Ga., through a heavy barrage of CW. Two announcements, and several recordings were logged. He has sent for a ver.

CAG, famous S.W. station in Madrid, Spain, has now prolonged the evening schedule of the International Broadcasting Company from 7-8pm EST. EAQ on a wave of 50.00 meters is on now 5:30-8:00pm EST.

CON located at Macao, North China is being heard in this country. This station is on approximately 19.8m, with RNE. The writer logged this station on Feb. 11, 6:05am EST/QSA4-R5. This is considered to be one of the best catches. (R. E. Tomlinson) Send report to the Postmaster General at Macao, North China, Via Hongkong.

CRV Rabat, Morocco is now back on its old wave of 32.23 meters on Sunday afternoons from 3 to 5pm.

Soviet News, Tune for RKI on 39.9m and RRM on 39.8m around 7am EST. They work phone nearly every AM.

TGF was again heard on 44.5 meters on 9:05-10:49pm EST on Feb. 7th.

CJ2A on 9532kC, and CGA5 on 9905kC in Drummonville, Canada are both testing with GDB, London on 1320kC in the afternoons.

CT1AA was well heard on 19.55meters Feb. 5th & 7th, 9-9:30am and 7:09-7:17am in Russellville, Tenn.

HI2G Bogota, Colombia on 5825 kc, is testing with HI2A of Barrenquilla, Colombia from 6:00pm EST.

XICR the first Ham station in the Mexican State of Guanajuato, is owned by "luis Garciudenas," of Penjamo, Gto, Mexico, and has just been completed. (P.K. Boyd)

STOP PRESS

Cape Town Calling: The new station near Cape Town (At Milnerton), South Africa, was opened on Jan. 16 on 610 kW with 15 kW of power.

LRB Radio line Well Heard: LRB "Gine Pais," Canigallo 860, Buenos Aires, with 5 kW, on 1150kC, is being reported from several points at around 7:30 to 2:30am EST.

10BP, Wingham, Ont., 1200kC, 25 watts will DX March 10th, 9:30-6am EST.

VY3EK, Montmagny, Que, Canada, 1195kC, with 10 watts, will DX for CDX on March 25th, from 4-5am EST.

Ramon Martir, our Puerto Rican Representative writes he has arranged an IDA DX for March 11th, and starting at 1 am EST. We regret we were unable to make out for sure what station he had reference to, but believe it to be HI-1-A, S.W. station of Santiago de los Barrios, D.R. on 1,750m, or 6272kC.

RADIO PRAHA BROADCASTS:

Carleton Lord writes that our Puerto Rican Representative writes he has arranged an IDA DX for March 11th, and starting at 1 am EST. We regret we were unable to make out for sure what station he had reference to, but believe it to be HI-1-A, S.W. station of Santiago de los Barrios, D.R. on 1,750m, or 6272kC.
