

THE IRCA MEXICAN LIST

Compiled by Bruce Portzer
Copyright 1981 by IRCA

Here is the first edition of what may someday become an IRCA Institution. This list of stations was compiled from many sources, including several years' worth of DX Monitor and other DX bulletins, various station lists, and Mexican notifications to the FCC. It is my firm belief that this list would not have been possible without the use of a computer. This list was compiled using an HP3000 Computer system; the computer's editing and sorting functions helped make the job tolerable and reduced the number of errors considerably. A special word of thanks goes out to Pete Taylor, who was able to check an earlier revision during his vacation in Mexico.

The information in the list is as follows:

- Column 1: Frequency
- Column 2: Call letters. All calls begin with "XE", of course, but I left them off in order to save space.
- Column 3: City of License. A city name in parenthesis refers to a much larger, nearby city the station probably attempts to serve.
- Column 4: State. These are as follows:

Ags	Aguascalientes	Mor	Morelos
BC	Baja California	Nay	Nayarit
BCS	Baja California Sur	NL	Nuevo Leon
Camp	Campeche	Oax	Oaxaca
Chis	Chiapas	Pue	Puebla
Chih	Chihuahua	Qro	Queretaro
Coah	Coahuila	QR	Quintana Roo
Col	Colima	SLP	San Luis Potosi
DF	Distrito Federal	Sin	Sinaloa
Dgo	Durango	Son	Sonora
Gto	Guantanamo	Tab	Tabasco
Gro	Guerrero	Tam	Tamaulipas
Hgo	Hidalgo	Tlx	Tlaxcala
Jal	Jalisco	Ver	Veracruz
Mex	Mexico	Yuc	Yucatan
Mich	Michoacan	Zac	Zacatecas

Columns 5-6: Day and night power in kilowatts

Column 7: Slogan. A few are several years old and some may only be names of station owners, but most should be okay. Abbreviations used include: R-Radio, LV-La Voz, Stn-Estacion, Mx-Musica.

Column 8: A "Catch-all" column which includes the following:
Schedules in GMT, some zeros have been left off to save space, i.e.: 12-130 i.e.: 200-0130. AN means station is 24 hours.
Formats: Many stations play a mixture of different musical types. Others play "musica moderna", which I guess is their equivalent to adult contemporary. The following rather general categories have been noted for others:

EC: Educational/Cultural. Noncommercial, generally operated by a college or university. Talks, classical mx, jazz, folk, etc.
EE: Full or part time English-language programs.
EZ: "Easy" listening. Can include any of the following: romantic ballads, light instrumentals, light pops (in EE or SS), classical.
ME: Mexican mx. Mexican artists and/or traditional Mexican styles: Mariachi, ranchera, Norteña, Folk, regional, etc.
NX: News, sports, discussion, features, telephone talk, drama, etc. May also have a few hours of music per day, but places heavy emphasis on the spoken word.
RA: Ranchera. May also have Norteña or folk music thrown in.
TR: Tropical mx. Cumbias, merengues, etc.
UP: "Uptempo"; Juvenil mx, lively pops, EE or SS rock, disco.
Shortwave Parallels, noted by SW, then the freq in kHz
Verifications: VI-letter, VO-Card, VP-prepared card.
Network Affiliations: NS:Notistema; RPM:Radioprogramas de Mexico; RCN:Radio Cadena Nacional
Potential Changes: Applications and Construction Permits are noted by "CP" followed by the proposed freq, power, or pattern change.
PO means "presently operating (on or as)". UC means under construction. SSS: SWS w/oslogans,skeds,etc listed may also be UC.
Antennasi: most are non-directional. The rest are DJ Directional, days only. U2:Non-dir days, dir nights. U3:same pattern day/night. U4: directional,different patters day & night. U5:directional days, nondirectional nights.

In Mexico, unlike the U.S. and Canada, it is possible for stations in the same city to be owned by the same individual or organization, or to at least operate from the same studio/office location, or to share common personnel (same manager, sales staff, etc.).
As a result, it is possible that such stations may have similar attitudes towards verifications. Or they may plug one another on the air. Following is a list of some of the major station groups in the larger Mexican cities.
