OUR THIRTY-FIRST SEASON

April 14th, 1964

## IMPORTANT!!

In the past several weeks we at NRCI headquarters have received a number of interesting comments, the majority concerning the possibility of changing the name of this club. After careful consideration, those of us in Denver have reached the conclusion that a name change at this time would be unquestionably beneficial to the club. In order to support the proposed name change, the following items have been submitted:

- a) The NRCI is by its very name hindered from having a truly world-wide scope. If an international outlook is one of the things we are striving for, a less American name would go a great ways towards accomplishing it, in that the appeal of the club to persons outside the United States would be increased.
- b) We have come to realize that perhaps we acted too hastily in forming the NRCI and made some serious errors. Since the Constitution and Bylaws were not ratified in accordance with Article 15 of the Bylaws, we have no real right to the name. We went under the assumption that the documents would be ratified with a majority of those members voting, while in reality the article states that for ratification a majority of the entire membership is needed. Thus the NRCI Constitution and Bylaws have never been ratified and not only is our claim to the name invalid, but the present NRCI is without a foundation. However, we are still no less adamant in our belief that the 37-0 convention vote and the 98-53 special vote constituted a mandate for the reformation of the NRC government, particularly in the light of the fact that the NRC government would never consent to hold a vote on the issue. Furthermore, we still believe that a democratic form of government is necessary for a healthy organization and thus that a constitution and bylaws are a necessity. The 1963 Constitution contained flaws, one of which led to its failure to be ratified, yet we must abide by these flaws so long as we continue as the NRCI. Now that we have a strong base of active members who also believe in the principle of a democratic government, we can ourselves conceive and institute a new constitution and bylaws in a democratic manner.
- c) We do not want to see a democratic club be confused in any way with the dictatorial NRC.
- d) We would like at this time to examine and evaluate the long range policy of this club. Is it to work for co-operation and for a free exchange of information between all DX clubs of the world for the betterment of the hobby? If so, a change in name may indeed be warranted.

The best suggestion for a name to replace National Radio Club, Inc. has been International Radio Club, Inc., or IRCI. Not only would this name relieve the difficulties of the club listed above, but it would afford the minimum withdrawal from the name "National Radio Club, Incorporated." Now, without a constitution and bylaws from which to operate, the NRCI is in a very awkward position. With no precedent established, we are simply asking you, the members of this club, to vote on a special ballot which will be mailed to each of you with the April 14th issue of DX News. On this ballot you will be able to vote either a) for retaining the name National Radio Club, Inc.; (cntd. p.10)

David F. Gleason - 2520 Wellington Road - Cleveland Heights, Ohio 44118

Greetings from the land of confusion! After planning to leave for Guayaquil on the first of April, here I am still waiting. Looks like I will be there about the 11th... after a one day stopover in Panamá. (I plan to visit Radio Aeropuerto while there... maybe I can get veries for my reports...and anyone else whose report is laying around there. I promise not to raise any flags, though!) And amid everything, I did a little domestic DX. On 3/31 I caught the ET of KOFO-1220 with TT at 2:00 badly QRIed by XEB. That one was verified two years ago, but this is the first time heard since. The r/c of WBOL-1560 on 4/1 made it in well at 2:32, but not reported. on 4/2 at 12:40 an UNLD tester was noted under XEX-730, and was off the air by the 1.06 s/off of La Equis. The new 50 kilowatt xmtr of WCPC-940 has been noted at SSS several nights, but not reported. A few veries have wandered in, namely from KAUS-1480 who sent a CM and fact folder, WBT-relay-Shelby-1110 for a rare one caught on a test last January (runs only 1 kw. and is synchronized with WBT Charlotte), WLIL-730, WHSL-1490, one of the new ANers, WWML-1470, WEVE-1340, OKGM-980, WMBN-1340 whose f/c is the 3rd MM at 12:45 and KCLN-1390. The new WAQL-1600 has been noted days, but WELW-1330 has apparently not yet begun construction....both same owner. I would like to suggest a column similar to the supremacy ratings for domestic DX, in which instead of countries verified, states and provinces would be counted. This would give those of us who do not specialize in foreign DX to show what our accomplishments are. Any comments? On the nights of 4/1 and 4/2 I noted both on the BCB and SW many Brazilian stations on the cover the revolution. The 1220 station in Rio was apparently under rebel control, with the slogan of Radio Liberdade, along with an apparently large net of other stations. The Rádio Nacional stations were also active, playing the NA and marches, telling the people to keep calm and ignore the trouble. (Ignore tanks rolling down the streets?...I doubt whether they were very successful!) Well, 73's till next issue and good DX.

Eugene R. Shephard - 684 Quartz Way - Broomfield, Colorado 80020

Greetings, signal snatchers. Another week of little DXing. I did get two veries since the last issue. KSTP-1500, F. L. Street, C. E. was the v/s, and WDAY but Denverite DeWayne Bruce mentioned the v/s last week. This week I got ahold of an EICO power supply. I got it home and built it, then connected it to my radio. It worked very well for about a half hour but then I shorted the leads. Now I have a power supply with a blown fuse, but I don't have another fuse. Bill W., I was glad to get those batteries too, but now I have a blown fuse, so what do I do? hi? We had a nice big snow today (4/3). Marv would probably have liked to have been in Oklahoma (home of the "Oklahoma City Tiger") so he could miss this. 73's from the chief fuse blower of Sweeptown.

John Swanson - 3654 North Paulina - Chicago, Illinois 60613

Easter vacation gives me a short chance to write and DX. Recently logged were: 3/21- WHBN-1420 on ETs until 1:55. 3/27 KFSA-950 on f/c until 1:30. I was so tired that at first I thought they were KXJK, hi hi. KABL-960 finally logged today at 2:32. 3/28- WHBN-1420 again heard on ETs at 2:45. 3/30 KIOR-1510 heard until the r 2:00 s/off (hi Dallas!). KSEL noted AN on 950 over KIMN. Veries have been as scarce as spring weather--only WHBN-1420. Today, 3/31, I received a most enjoyable visit from future NRCLer Roger Vinsor. Au revoir.

Dave Johnson - 3620 Ivy Street - Denver, Colorado 80207

Hello! It looks like it's springtime in the Rockies. We got almost ten inches of snow here, and a big three foot drift on the side of the house. You can't beat this Colorado weather. In the way of verifications this week, I think quality makes up for quantity. After nearly two months, finally got JOBB, JOIB, and JOIK back. They did not verify my tentative of JOBK. Other veries in the last two weeks are WWOB, KGON, KOH, WFTR, KOSG, and KGLN. I'm afraid that I have very little DX to report this time. 3/29- KAGO-1150 ET at 5:19, KTCS-1410 s/on at 6:00, KVKM-1330 s/on 6:30. 3/30- WTOB-1380 s/on at 5:01, WTJH-1260 s/on 5:03 w/SSB. 4/4- Heard the new station in Hastings, Nebraska KITS-1550 concluding ET-TT at 1:16. Welcome to the NRCL, Bus Boatman, how about writing that letter you owe me. That's about it this time, hope I have more DX information next week. 73's and I hope you get lots of DX as we near the end of another season!

Rich Russell - 36 Alice Avenue - Lynn, Massachusetts 01902

Greetings from the NRCI's most easterly DXer in the U.S., namely me. I received my first copy of the new DX News, only it was the second copy. At least, it is really colorful for a DX newspaper. DX in March hasn't been too bad, only 28 stations were logged, which is good for me. All times are in EST and the 24 hour clock. 3/13, WGBS-710 w/WOR at 18:26, WBAM-740 o/CBL with S7 sig at 18:35, WVOK-690 o/WAPE & CBF with S9 x 15 sig from 18:45 to 19:00 s/off, Radio Belize-834 at 20:00; 3/14, WFST-600 f/c at 00:08, WKID-1580 f/c at 01:12 u/CBJ; 3/15, CKOY-1310 at 01:28, WNAV-1430 at 02:15, WHOT-1330 at 04:26, KAAV-1090 at 05:00, first Arkansas station, CBZ-1480 at 06:00 s/on; 3/20, WGMA-1320 at 06:17, CHEX-980 at 23:00 o/WTRY with S9 x 45 sig; 3/26, FF on 764 no positive ID as I don't speak FF, but pretty sure Senegal at 18:00 to past 19:00; 3/27, WCLS-1580 at 00:12; 3/28, WLEE-1480 at 03:08, CKOC-1150 at 03:14, GKCY-920 at 03:51, WPFB-910 at 03:55, KTRH-740 at 04:45 between mx on GBL, WRFC-960 at 05:19, WRUN-1150 at 05:56 s/on, WMBL-740 at 18:03 then again at 18:15 s/off, WCPS-760 at 18:10, WCKB-780 at 18:11, WVNJ-620 at 18:36, and finally, WVMT-620 at 18:37. I also noticed Senegal-764 was in at 17:17 on 3/28, quite strong. I was surprised at its strength because I hadn't heard a TA until now. Veries: WFYI, WWNH both letters, WDMV card and GM, WRKD, WOTW, WKOX, and WNBH all PP. I have a couple questions. Who s/off on 1580 at 00:12 on 3/27 and who plays rr on 1580 u/WCLS on 3/27. (KBOG is rr, dunno AN or not--DJ) According to Changes in Station Data in the 3/24 DX News, WWNH is listed as U-3. In my verie from WWNH, the C.E. said, "Although you copied our daytime non direct pattern, we now change to directional, three-tower operation at local sunset." So I think it should be U-2. I also think that this station would be glad to put on a DX for us as he wants to receive many more QSL's in the coming months concerning their new nighttime pattern. If a DX was possible, it would give the WCers a chance to get a N.H. station in the log. So CPC, why not try writing to Lawrence L. Prado, Jr. C.E. at WWNH. 73's

Jack Collins - 2207 Marie Place - Monroe, Louisiana

This is my first report to the DX club--I've got some news to report. Radio Station KTDL, 1000 watts, comes in well in Monroe, Louisiana. That's KTDL-1470 kc. 1000 watts, Farmersville, Louisiana. Good DXing!

Larry Godwin - P. O. Box 165 - Boulder, Colorado 80301

Hi gang! This week has been one of the most enjoyable since I began DXing. I had a great time in Amarillo seeing Jeff Stewart, Phil Scott, and NRCIer Terry Steeden. Terry and I spent two evenings talking DX and seeing each others' veries. He's really been sending out reports and has already heard half the states in the US. I regret I didn't see John Tudenham in Amarillo, but enjoyed talking to him by phone; he will be joining the NRCI this month! Friday 4/3 I had the pleasure of meeting Harvey Young in McAlister, NM, and seeing his fine collection of veries--only 2 short of 100! Harvey has the perfect DXing location, many miles from the nearest station with unlimited space for a long-wire. That evening as Barbara and I stopped at a cafe in Santa Rosa, I heard two men discussing KOMA and WLS. I offered them a sample copy of the NRCI bulletin, and one of them, Glen Sorenson, couldn't wait to join! Glen is from Racine, Wisconsin, and currently is serving in the Navy, based at San Francisco. Welcome to the NRCI, Glen! Saturday I enjoyed very much visiting NRCIer Charles Buckley of Albuquerque, where it was snowing, of all things. Charles uses a selective 12-transistor receiver and has received quite a few good stations, including WBZ and KHOS-940 (only 250 watts). He has a good long-wire and is planning to buy a new Zenith Trans-Oceanic soon. I phoned NRC-member Norm Maguire while in Albuquerque; he has been DXing on the ham bands mainly this season. We certainly have a fine group of DXers in the Southwest! While in Amarillo I DXed on MM 3/30 and heard several unusual foreign stations (details in the IDXD) and found three Australians 3/31. I believe West Texas is a better area for DU reception than Boulder, but poorer for SA and CA stations. Dakar-764 was stronger in Amarillo than Boulder, though other TAs were inaudible. Verie-wise, two new Canadians arrived while I was down south: CKEW-1000-Bridgewater, NS, for my 4th from that province, and CJJC-850 Langley Prairie, BC, for my 15th from that province. Incidentally, I have just received word that NRC musings editor Lefty Cooper misquoted NRCIer Dan Phillips on the front page of their bulletin. Dan said he would make the loop plans available to the NRC, but he didn't say "NRC only." Dan also requested that Lefty give him no publicity. I understand Dan is joining the NRCI as soon as possible! Well, 73 to all 'till next week.

Don Erickson - 24360 Myers Street - Sunnymead, California 92388

Hi everyone! Sure am sorry I didn't get a musings in the first issue of NRCI's bulletin but I have done practically no DXing. I have had all kinds of problems lately. I was ill for a long time and because of that I stopped DXing BCB after Febr. 4 and went to SWBC because it could be better done with the available time I had. Then my receiver started acting up about the time I wanted to get back to BCB. I bought a new rx hoping that it would remedy the situation and after hooking it up (a Grunow all-wave radio, \$6.50) I found it was also acting up. After a little bit of inspection I determined that all of my troubles were with the antenna which was shorting out. I fixed that and my Zenith was working fine. I took out the Grunow and put in the Zenith 8-S-365. I was unable to start DXing at that time because time was too short with all the school work I had. Then shortly after that I got interested in the G-100 Knightkit Walkie Talkie which had spread throughout our school. I ordered one and when it came a part was missing. This part I temporarily snatched from the Zenith because I was so anxious to get it together. Well, when I finally went to put back the .02 capacitor which I took out, I couldn't find where it went. That all happened 5 days ago. Now I have the Grunow in and the Zenith out in the workshop. The Grunow is not much good on SWBC and terrible on BCB so I must stick to Ham DXing until I find a way to get my Zenith fixed. And the money I just don't have. My one new station through all of this came shortly after installing the Grunow. A local SWBC and Ham DXer came over to look at the new radio. He was fooling around and happened to stop at a station which promptly IDed. The ID sounded unfamiliar so I waited for another ID. The station turned out to be KRRL call change from KBUG which this DXer, Norman Davis, just happened to come across! What luck! So at least I have one catch. The Grunow has poor sensitivity and poor selectivity as well as very poor calibration on the BCB so it isn't worth much in BCB DXing. Well, I guess that is about the end of this report. Probably won't report very often without a receiver, but I did want everyone to know that I certainly support the ideals of the NRCI 100%. 73.

Sid Rosenbaum - 806 Market Street - Wheeling, West Virginia 26003

Not much to report because I have only been active on SSS and twilight reception. Semi-local WETZ (1330) was partially under water in the Ohio Valley flood last week. Local stations were on "Flood Alert" and the starting gate at Wheeling Downs was under ten feet of water. WARO (540) easily heard here daytime, but a thank-you card sent. Will have some pictures of local WBZE (Radio Bizee-1470) soon and a card will get you some. Verie total now 2021. Best wishes to NRCI editors whose initial effort was tops.

Dallas John - 1870 South High Street - Denver, Colorado, 80210

Hello again this week. I liked Jack Keene's last remark in the 3/31 issue "Know with the NRCI." Makes sense, nght? Last MM was a flop, primarily because I was so tired that by around 0300 I was half-asleep. The only station I reported was KWIZ-1480 Santa Ana, Calif, which is usually quite good here 0230-0300 in SS, and 0300 EE s/off. Should be a possibility in the Midwest. I also heard a couple of foreign stations, and some other domestics too, but lost my notes on them. I remember YNMV-850 being heard after KOA s/off around 0230. The Hawaiians seemed good at first but faded down around 0330. On the verie front, I have little to report--just three. First, a QSL from KSDQ-1130 San Diego, and a v/1 on legal-sized paper from KOY-550 Phoenix--what is one to do with that? The third is from an old Illinois report, and would have to be my best California from there. It was KVON-1440 Napa (near SF) and it was finally answered from 3/2/63 when the GE went through some files. They were running only 500 watts at the time with a directional pattern unfavorable to the East (aren't they usually?). Anyway, do you have it, RHK? I think I'm getting on a Californian kick, and would like 50 of 'em veried before June--that's 26 to go. Maybe? For the graveyard CX out here, I know about 1340--that is local KDEN who is AN til MM s/off at 0200, then it alternates between NSPers KORK Vegas, KIKO Miami, and KICK Missou. On 1450 we get WVON S9+ almost without fail for some reason, and when not that, NSP KTIP Porterville, Calif. 1490 is KBON I think, Omaha. 1230-1240-1400: more next week, haven't listened there yet, hi. Oh yes, if anyone hears a version of "Wolfman Jack" on 670, it's not XERP, but 49-watt KVDU. I see where Len Lockwood in Olympia heard some Alaskans on with the quake news--must have really been interesting. What color paper is this, you guys? That's right--green! 73. PS: KVON v/s is Mr. J.B. Younggreen, GE, and QTH is 1124 Foster Road in Napa.

Alex Bowab - Box 154 - Spring Hill College - Mobile, Alabama 36608

Greetings, NRCIers everywhere, from the '64 Convention site. I'm genuinely proud to become a part of the NRCI, a club in which I feel more like a member than a "subscriber." Dan Phillips and Park Barton, soon-to-join NRCIers, if not already, have volunteered their assistance in hosting the NRCI gathering here. I will be in summer school at SHC during the July 4 weekend, and in Mobile during the Labor Day weekend. I would like to hear from each NRCI member who is interested in attending the convention, letting us know whether you would prefer having the gathering on July 4th, Labor Day, or some other weekend during the summer. Please let us know your preference as we want to hold the clambake at a time that would enable more of you to attend. I personally feel that it will help our club get off to an even better start if as many as possible can convene this summer, get acquainted or reacquainted, and have a successful business meeting with as many as possible represented. After all, remember, you are in the NRCI because you wouldn't want to pay tax on British tea, had you been told to do so. Let's make the NRCI a club of active, enthusiastic members, not armchair travellers! The first two issues arrived here over Easter vacation; let's hope the support evidenced therein will continue in the future. Have but one catch, WGGG-1230 Gainesville, Ga. heard on f/c-TT ending 2:00 on a Sun. morn in March, don't remember date. Finally, I will contact WMOE-1550 to garner a little information on upcoming initial ETs prior to beginning RS.

John Sampson - 23 Terrence Terrace - Freehold, New Jersey 07728

A brief musing to the new NRCI to reflect my relatively limited DXing activities of the past few months. This has been a good year for foreign DX. Recent loggings have been \*Bratislava (1097) on 1/27, \*Albania (1088) on 1/27, Radio Andorra (998) on 1/27, \*KORL (650) on 1/27, \*XMEMO (860) on 2/10, \*CSB2 (1034) on 2/17, \*TIRICA (625) and TIFC (1075) on 2/17, Hungary (1187) on 2/24, Netherlands (1007) on 2/24--the 746 outlet was verified last winter, BBC (1457, 908, & 1484) on 2/24, LR3 (950) on 2/24, Saar (1421) on 3/1, & RAI (845) on 3/3. Domestic material includes WHYN (560) AN on 2/24, CPSE (1425) on 3/1 running till 3 am, WIRY (1340) AN on 3/27, & WKOX (1190) 6 am s/on on 3/27. On 3/11, we had a new addition to the family--Melissa--who checked in at 11:25am. She has superceded DXing for the time being.

Maurice W. Nittler - 4590 South Julian - Englewood, Colorado 80110

Issue #4 is now a reality. DX on MM 3/31 was pretty sad with not a single new station logged. Gave up early as I was tired and discouraged at conditions. Senegal-764 again heard with fair signal and tape made. The NRCI has taken on the international flavor as Ken Brownless of York, England has joined our ranks along with our Canadian members. Why not, then, change the name of our club to "International Radio Club, Inc." to appeal more to members overseas. Our club is now well established and I feel that we can offer our members more than the old NRC. It is obvious to me that we are not going to get anywhere arguing or fighting with another group, so why not take on an identity of our own? I still believe very strongly in the democratic principles on which this club is founded and would never again support an organization that does not profess this belief. We should look forward to some day when the members of the NRC see the error of their ways and rejoin us. Let's face it, fellows, we have a good thing going so why jeopardize it by fighting with Buffalo? They need us more than we need them as has been shown by the last few bulletins. Let's have your opinions on a name change, men! Thus far, in the first three issues of DX News, 40 DXers have presented their DX activities in Musings. 10 of these were in all three. 4/1 logged YND-675 in Managua at 9:30 p.m. with one of the strongest LA signals ever heard in the evening. Where, oh where have all the veries gone? None in over a week. Am anxiously waiting for ones from countries like Japan, China, Dominican Republic, Peru, Argentina, Brazil, and Guadeloupe. Good to see some of you Easterners reporting to the NRCI bulletin! And lastly, welcome to new DXer Terry Steeden.

Tom Mann - 1805 East Mmdale Court - Milwaukee, Wisconsin 53211

WYLO-540 kcs. in Jackson, Wisconsin has been heard with a carrier and IDs every hour on the hour on 3/15/64 for three or four days from around 9 a.m. to 7 p.m. EST. Their ERP is 250 watts and it is a daytime station only. Their signal is S-9. WYLO-540 kcs. will be going on the air on April 15th, 1964 at 7 a.m. to 8:30 p.m. EST, so tune in on WYLO-540kcs. WYLO's QTH is: Rte. #1, Highland Road, Jackson, Wisconsin. 73

\*\*\*\*\*

The next issue of DX News will be dated 4/14, then 4/28, and then the monthly issues.

Howard J. McClain - 3012 23rd Avenue West - Seattle, Washington 98119

Greetings to all: May we hope that recent events in the BCB DXing fraternity result in even greater enjoyment of the DXing hobby. I might as well take my stand here and let others know how I feel about BCB DXing. First off: I do not request verifications from stations although at one time in the distant past I did, and so I know it is very fascinating. My aim now is merely to log new stations and devise ways of receiving those tough ones. I rarely sit up in the wee hours, but rather let the tape recorder do the listening. One of my peeves is the contests which require DXers to re-verify stations, adding to the station's work load and perhaps "alienating their affection for DXers." My largest gripe is with the AN situation. It continues to get worse and in a location like mine, a station on 24 hours not only "kills" its channel but also numerous others due to "slop-over" and images. Ray Kraul, I think you have a good idea on the "graveyard situation" and here is my contribution: 1230--KRDR, KTYZ, KCBW. 1240--KFLY (s/off 0530 EST), KROY, CBU relay, UnID. 1340--KMAK, KORK, KJSL. 1400--KPNT (s/off 0500 EST), KXIV, KPAT. 1450--KUDI, KPIP, KEYY. 1490--KCID, KLOG. This ties in with the idea of a more up to date "conditions of the frequencies" information center. Perhaps this could be tied in with Dave Johnson's column. How about it, fellows? Well, enough for now, and back to listening to last night's tape. 73.

Harvey Young - McAlister, New Mexico 88427

Hi all DX fiends. Not anything astounding, either quantity or quality-wise, but these are new loggings: 3/28- KXIT-1410 at 2000 w/s/off u/KRIG. 3/30- CJDV-910 at 0421 w/religious programs asking for letters. I was pleased to find YVPF coming in then to push them off the frequency. 0508 brought the "Radio Reloj" Cuban on 760 just above WJR, and a couple of other unk SSers. Finally that morning WBRC-960 at 0537. CX seemed to be excellent that morning, with a score of s/ons and lds of tests, only it was just "one of those mornings" when nothing would ID, hi. Veries (v/1) from WKEH-1410 and KGIS-1380. I heard KORL on 3/30 for the first definite time this year, really blasting in. Wx here is beginning to get much warmer but no noticeable difference in DX during the past few weeks. Good hunting during the unearthly hours. 73's.

DeWayne Bruce - 2101 South Logan Street - Denver, Colorado 80210

Guten Tag & all that jazz! Did I have a good week for DX'ing? You bet your life I did. On the basis of a few suggestions from some other DXers, I forfeited my usual beauty sleep on Sunday night, & I'm not sorry that I did, 'cause that's when I did most of my DXing this week. Well now, down to DX! On Sunday, March 29, I logged: KENN-1390, KSWO-1380; March 30, Monday, brought KOEL-1290, WRR-1310, KTT-1280, KXYZ-1320, KRUX-1360, KFH-1330, KSTP-1500, KAFY-550, KLAB-570, WGN-720, KONO-860, CFAC-960, KAKC-970, KUPD-1060, WAKY-790, WHAS-840, KLCN-910, WIBC-1070, and finally, KTMJ-750. Total time: 10 hours, 15 minutes. Is it any wonder that I fell asleep during my 1:00 o'clock German class? Tuesday, the 31st, brought only one new one, KSOO-1140. Still trying to nab the new one, KSNO (?). Mailman was very generous to me this week! KDAK sent a v/q for a 3-6-64 report; WOAI sent a v/q; KREX sent a v/c; WIBV sent a v/q; CBK sent a v/q; CJOC sent a v/c and CM; WJR sent a v/q; and that's all of those pretty little gems! Total veries now 57. Now for a little something special for ALL MEMBERS: I received a letter from a friend of mine to whom I sent a sample copy of "DX News" as he is also a DXer. He has no prejudices for or against the NRCI. He read this newspaper, and noted two things, both of which I shall quote. He wrote: "Very nice newsletter, but...YOU CAN TELL IT'S A COLORADO PAPER, because all the musings are from the Colo. locale---at least the majority." Also, esp. for Ed Krejny, he wrote, "Why in the ---is Alaska listed under 'Foreign Reception'? Don't you guys realize that Alaska and Hawaii are now states?" Ed, if you want to write him, I'll send you his address. FOR THE REST OF YOU GUYS, the 2nd point is relatively a small "gripe" but the 1st concerns YOU! This is supposed to be a national club, w/a national newsletter! You just read what an un-prejudiced person thought about it. Some of the rest of you guys start writing in or this club will go to pot and become the mockery of all the other DX clubs. So let's get busy and WRITE! Well, now that my speech (?) is over I think I'll shut up and leave some room for somebody else, although we can always add more pages, and I'm sure your editor would love to be swamped in musings every week, hi. Well, as the Germans say it, Auf Wiedersehen bis Dienstag! Pleasant DXing, and 73's. THE END!

+++++

Deadlines for 4/14 issue is 4/13 in Denver and 4/11 in Cleveland. Keep up the good work!

Steve Junak - 1606 North Altadena Drive - Pasadena, California 91107

Greetings, fellow NRCLers. DX is still pretty good here: 3/30- KAYO-1150 3:14, KLAJ-1600 3:31, KETO-1590 3:40 with an Equipment Test, KRKO-1380 4:17, KRLD-1080 4:58, KSTP-1500 5:04, WLAC-1510 5:28, WABC-770 very weak at 5:44, KYW-1100 5:53, CKWX-1130 6:19, KFJZ-1270 6:24, KCUL-1540 6:42, KSOP-1370 7:01, KMSL-1250 7:45, KPHO-910 7:53, KAFF-930 7:59. Reports out this MI to KETO, KRKO, KSTP, and KSOP. Only verie is a v/l from KGHF. 73s to all.

Leonard Lockwood - 516 North Lilly Road - Olympia, Washington 98502

KMED-1440 s/off 0300 weekdays and 0200 Sundays for the answer to Dallas John's question. Mike and I finally got together by phone after three days trying. Letter from Dave Gleason says my mystery SS on 2130 3/25 on 790 could very well be HJDC "Ecos de la Montana" using the Radio Montana slogan. This would be Medellin, Colombia a most welcomed catch, so Mike's visit to my den would not be in vain. 3/30 KBRO-1490 Bremerton, Wash. 1920-1933. 4/2 KRLC-1350 Lewiston-Clarkston Ida. s/off 0300. WSMB-1350 New Orleans, La. 0459-0517. 4/4 KSL-1160 Salt Lake City, Utah AN with Herb Jepko with "The Other Side of the Day" program where phone calls are taken. Was listening for prospective DXers to call in and have about 11 in the Denver area. Am sending tip to HQ for your follow up. 73 until next week.

Ed Krejny - 12904 Ferris Avenue - Cleveland, Ohio 44105

Greetings from a non-recipient of a verie from RADIKAI! Oh well, I'm probably among the majority anyway! Not very much activity this week, with no DX at all last weekend (Can't remember the last time that happened!), and very little activity by the mailman. Only two veries were received this week: HJNX-670, and WTON-1240. Current totals are: 1788 verified, and 2401 heard. Since I don't have much DX to talk about, I'd like to take this opportunity to let all of the many contributors to the IDXD know that I'll be writing to all of you soon; please be patient! Also, I'd like to welcome all of the new members to the club--"Let's Get More in '64!"

Dave (4 speed) Roys - 5121 Radnor Road - Indianapolis, Indiana 46226

Hello to all. This is my first NRCL report. It is a great feeling to be rid of the oppression of a dictatorial government. It's bad enough being member of such an organization, let alone living under such a government. DX activity has been sharply cut due to work hours and other activities. I plan to leave for a two month trip to Europe on April 10. Countries visited will be Portugal, Spain, Italy, Switzerland, Germany (including Berlin), Denmark, Holland, France, and England. I will visit as many radio stations as time permits. I will be back about 10 June, so I should be able to attend the convention. I am much in favor of an editorial column, as well as tape lists, etc. It seems that the Exec. Sec. of the NRC is in favor of an editorial column--for himself only.

Adolph Rattay - 1494 Beechwood St. N.E. - Warren, Ohio 44483

Got my third issue of the DX News, it's still above par. I liked the first page of the DXer of the month. Not much DXing this week as I'm on the 7-3 turn and could not get out of bed. I did hear WOWI-1570 testing on 4/3 from 2:30-2:45 and KBEW-1560 4/4 from 1:45-2:00, and WPET 3/30 on their sign-on at 4:00. During the early evening got WOMP-1290, WBVP-1230, WFRM-600, WEND-1580, WIGW-1490, WWOL-1120, all on RS. Only verie this week WAQT. Well, that's about it for this week. I think we've got a good thing going. Let's keep it up. 73s to all.

Mike Worst - 6314 20th, N.E. - Seattle, Washington 98115

Howdy. DX this week, quality (hi) wise, was as follows: 3/28 0600 weak station on 655. Language sounded more like a turkey gobbling. 0653-0733 logged enough to know it's not Radio Moscow. Tentative off to North Korea. I always think of the Russian stations as being a part of Radio Moscow. Does anyone know or think different? 0630 logged R.M. station on 547.7 with chimes. Assume RV145 as per LBG's 548 in bulletin #26. Het on 629. Radio Peking-1040 coming in nice at 0740. 3/30 SS on 1505 at 0510 to 0517 too weak to get anything. Other carriers noted on 553.6, 675, 725, 835, 866, 977, 1047, and 1273. 3/31 weak carrier on 705.3 but too much KIRO-710 to hear anything. KGU-760 good level over WJR 0430. 4/1 0442 2YC-660 weak. No sign of WNBC. Not enough for a report. 0630 R.M. chimes on 629 very weak. Len, you were right, if I want to hear any foreign stuff, I have to look for it. Are there any other projectionists in the club? 73.

Ernest J. Wesolowski - 1416 Pasadena Avenue - Omaha, Nebraska 68107

I'm sure glad that summer is coming along, so everyone can get out into the open air. Spring has sprung this last week and the one inch of rain really helped the farmers. Only one station logged this week, it being WKRC-550 in Cincinnati, Ohio, on MM 3/30 at 0404. Heard in the clear at S-4. Guess that the mailman is also sore at me too. Only verie in is from GKRM-980. CM also included. Had a very bad return on f/ups with only 2 out of 7 sent. April LSS is 1900 CST. Yesterday, I have been asked to give another lecture on the DX hobby. Last month one was given to 25 members or an Amateur Radio Club at work. All were very interested. Persons interested in the NRCI include two from Wisner, Nebr; 3 in Omaha; one in Council Bluffs, Ia. One other near Millard is not! Many thanks to all who are doing such a great job in the art of DX News. 73s and it's Mobile in '64.

John C. Johnson - 625 Park Street - Sheridan, Wyoming 82801

Greetings from the land of no veries. Hi. I haven't received a verie since the KMS-1490 one which came in Feb. Boy, a whole month without logging a station or receiving a verie, hi. Maybe things will pick up. I have been doing a little DX, but no new stations. 3/31 KORL-650 was coming in with little QRM from WSM, at 2:15am. I believe KGU-760 was coming in under some station in SS. What station is this? They were ticking off the seconds, with loud gongs for each minute. Sounded like they were giving the news. WJR also coming in. Who was on between 1 and 2am on 1400 4/2 with TT? Un-ID for an hour. No IDs hrd. Watch for the Wyoming members to grow. Murray plans to join, plus a few others. For you newer members, I have a total of 650 stations heard, with some 470 QSLed. April s/off time for local KROE is the same as it was in March (8pm). Complete operating schedules for both local stations are listed in DXDD. It's good to see that the NRCI's membership is growing, let's hope each and every one of the members will send in a report each and every issue. I will try to have one in each issue. Well, that's going to be about it for now. I hope to see a report in the next issue from all of YOU. 73 and best of DX. (760 is "Reloj Nacional" station in Cuba, NSP--DJ)

Bill Wilson - 1126 Alameda de las Pulgas - San Mateo, California 94402

Even with the wealth of free time which Easter vacation gave me, DX was poor, due to both poor cx and poor rx, which is really starting to give me trouble. Looks like I'll have to get a new one next season. 3/22 Peking again waking up the neighbors at 0630 on 1040, KFOX-1280 at last hrd u/KJOY 0709. 3/23 WCKY-1530 finally caught up with me, 0601. 3/25 KINT-1590 0802 rx, XENW-940 0810 SS, many ads. 3/28 semi-local KOMY-1340 topping KIAK for the first time in recorded history 1807. 3/29 CJIB-940 u/CJGX s/off 0307 GSO, KRDR-1230 s/off 0359 w/"Magnificent Seven" as theme. Veries are nil here. Locally (come to think of it, my "DX" is pretty local, too) KGO-810 has gone AN exc. MI with a swingin' blonde yl deejay named Heidi. If you get a sexy German accent on 810 between 4 and 8 EST, it's Heidi. I'm really glad to see that Phoenix got a new radio station. They really needed one so badly--just like Colorado Springs does. That's it from here for now--remember, potential GPCmen, if you want to join a CPC in which advice, not orders, are given, write me.

Ev. Johnson - 504 16th Street - Mendota, Illinois 61342

No DX here except WVOB on Monday a.m. 3/16 and WRAP-850 all night sched. Static has begun to build up. Latest veries consist of WENG-1600, KRSY-1230, WENB-1000 for Jan. 21, 1963 DX, WARO-540 DX, WGLB-1560, and WSKT-1580 for 1/63 test. Many TTers on such frequencies as 1500, 1510, 1590, 560, but no voice. DX was a little better on the 23rd of March with the following logged needed in my log: WRAK-1400 on their regular and veri back already. WTON-1240 r/c. WCHV-1260 r/c, they use AM and FM on identification. The new Joliet station on 1510, WJRC, was heard on ET's as was WDGL-1520 in Douglasville, Ga. WNGA was heard on a test at 01:00, they are listed as 3rd MI but on the 4th MI this month. Other DX heard but not needed in my veri collection were WEER-1570 r/c, KVKY-1150 s/off 01:00, WHIP-1590 Evanston, Illinois who seems to test every MI after 12 am CST. WEUP on 1600 has a c/w test on 2:15-3:10. Hardly know what a verie looks like anymore with only 9 for March with 24 reports out since November 15, 1963. A lot of f/ups will go out after the DX season is over. Fine on the NRCI bulletins and hope they continue to be big ones. On the 4th Sat. KWEM-1480 on r/c. Verie signer for WRAK is Glenn L. Sherman in case someone needs it. All for now, Best DX and Good Luck with the NRCI. 73s.

(continued from page 1) b) for adoption of the name International Radio Club, Incorporated; or c) for adoption of a name which you may write in.

Ballots will be sent out to all members of the NRCI along with the April 14th issue of DX News, and we urge you to give this proposal some very serious thought. The deadline for returning your postage-paid ballots will be May 12th, 1964, one week before the May DX News is published, thus guaranteeing time for the results to be published in that issue.

=====

As you probably know, your editors have been thinking of changing the names of their columns, and have asked for a number of suggestions. A good number have been received, but we would still like more, particularly for the column, "Supremacy Ratings." You can send any suggestions in as a "p.s." with your musing or DXDD items. Any other comments about the bulletin would also be welcome. We have had little reaction from you concerning the dropping of the v/s column and the adoption of a v/s-Wanted Column. Do you think this column is useful? Should we perhaps drop both of them, or maybe return to the original system? Another thing--more exact requirements for the Musings, DXDD, and IDXD columns will be printed soon. Don't forget to send your f/c info. to Larry Godwin this summer, for the 64-65 list which will be published this fall!

- 529 -SBC- Beromunster, SWITZERLAND. Verified promptly via QSL card from SBC HQ at Berne. (CMS)
- 540 CMJJ CUBA. Heard on 3/23 in PM ID'ing with call letters and location given as Camaguey, not Jatibonico. (DFG)
- 550 XEQW Merida, Yuc., MEXICO. "La QW - RCN" heard 3/31 at 0030 with "Fiesta Nortena" and 4/1 at 2330 with good signals. (DFG)
- 560 YVLX Villa de Cura, VENEZUELA, "Radio Rumbos"- "Cadena Nacional". S/on MM's at 0435 with NA, then program of Venezuelan native music. Parallel to 670. (DFG)
- BGBS- Georgetown, BRITISH GUIANA, heard at s/on 3/30 at 0445 without NA (Unusual for a Crown controlled country.) announcing as "BEBS", owned and operated by the Brit. Guiana Bcstg. Svc. No Report. (DFG)
- 575 TIJC San Jose, COSTA RICA, "Cadena Musical" (Also TIU-675 and TILS-925) These stations are all in San Jose, and all have the same programming. They are AN 7 days. Will verify. Send reports to: Carlos Molina Berrocal, "Cadena Musical", Apartado 854, San Jose. (DFG)
- 620 XENK Mexico City, DF, MEXICO, "Seis-veinte" (620). Had S 7 signal from 0100 to s/off at 0200 on 3/31 with old American non-rock "Top 40" mx. mixed in with Ray Conniff. Easy log, runs 10 KW. (DFG)
- 640 RADIKA Paramaribo, SURINAM. Finally verified via letter. Same signer and QRA as listed previously. (CMS)
- HOK Colon, PANAMA, "CPR-Radio Aeropuerto". Hard to believe that this one is using its licensed 250 watts. At 0018 on 3/30 was S 8 and way over KFI with loop pointed at LA. Sounds more like 10 KW. (DFG)
- PRF 9 Porto Alegre, BRAZIL, "Radiodifusora Portoalegrense" believed to be the PP station heard here at 0400 s/on on 3/30. Loaded with ads, end of NA caught. Almost certain it is Brazil. S 7 and moderate HOK QRM. (DFG)
- 645 HOS 22 Panama, PANAMA, "Radio Mia" is definitely in Panama City, thus making it obvious that HOK-640 must be in Colon. S/on is 0500 but transmitter is on sometimes as early as 0400 modulated with mx. and a few anncts.. Has many political ads for "Partido Reformista" (DFG)
- 660 CMCU Havana, CUBA. Probably the "Radio Progreso" outlet heard AN MM 3/30 with very strong signals. (LBC)
- 670 HJNX Bello, COLOMBIA, "Radio Tricolor-Voz de Bello". Verified this week with letter on HJCU-740 letterheard. Signer is same as listed before. Suggest sending postcards with rpts. as they apparently have a collection going. (ELK)
- YVLL Caracas, VENEZUELA, "Radio Rumbos"- "Cadena Nacional". S/on MM's is 0435 // 560-YVLX. Report both to Caracas. (DFG)
- 675 YND Managua, NICARAGUA. Signed and returned my PP card for f/up of 1/63. Power is listed as 15 KW. Signed by Secretaria Ejecutiva de Union Radio, but signature is illegible. (HH)
- 699 YVMH Maracaibo, VENEZUELA, "Radio Popular" hrd. almost every night up to 2330 s/off hetting with WLW. Has not changed slogan as per another club's report. (DFG)
- 700 TIHB San Jose, COSTA RICA, "Radio Reloj". Hrd. on AN program MM 3/30 with light pop mx., lots of US standards, in EE and SS. Power is 10 KW. V/s is Roger Barahona, Gerente. AN 7 days. (DFG)
- 715 HRTV Tegucigalpa, HONDURAS, "Radio Television". S/off hrd. at 0100 on 3/31. Uses "Exodus" as s/off theme. S/on is 0600. 1.1 KW. Does not mention relays on s/off so they are probably still under construction. (DFG)
- 730 YSR San Salvador, EL SALVADOR, "Circuito YSR" is hrd. on good LA nights with 0100 s/off // 710,720 and 740 relays. Many ads noted, but tough XEX et al. (DFG)
- CB 73 Valparaiso, CHILE, "La Voz de Chile" heard in fine shape on 3/30 at 0530 s/on, S 5-6 sigs., QRM from UNID SS or PP, not "R. Ariel". My second from Chile, unless my 820 was CB 82. Fade out at 0545 with

- 730 CB 73 (cont.) the sun coming up by then ! S/on annct. mentions CE 190 SW and all of the affiliated stations in the network. (DFG)
- ✓ 740 YVNC Maracaibo, VENEZUELA, "Radio Mundo" hrd. at 2130 on 3/29 with Billy Vaughan records. Think call is YVNC with YVMC as FM. (DFG)
- 760 HJAJ Barranquilla, COLOMBIA, "La Voz de Barranquilla". Verie card from Napoleon Guzman B.. Is part of CADENON Net. (DFG)
- ZFY Georgetown, BRITISH GUIANA, "Radio Demerara" s/on is 0415. In clear on 3/30. Gives complete sked at s/on. (DFG)
- CMCD Havana, CUBA. A regular here nightly. (RS)
- KGMB Honolulu, HAWAII. Completely atop CMCD 3/30 at ID 0317; R 5. (LBG)
- 764 .... Dakar, SENEGAL. Noted with fine sigs 3/19 and several eves from 1830-1900 s/off. Usually has American pop mx. till 1855, then 5 mins. of News in FF. S/off at 1900 with march mx.. (HH) Heard S 5 at 0208 with chants & drums on 3/30 (BN) Hrd. s/on one hour later than usual at 0200 on 3/30 w/ anthem. Woman anncr. gave ID, list of frequencies and complete program sked hour by hour. (LBG)
- 770 3 LO Melbourne, Victoria, AUSTRALIA. In quite good for 5 mins. on 3/23 at 0340-45, before WABC s/on. (RS)
- 780 4 YA Dunedin, NEW ZEALAND. Weak with a play at 0338. (RS)
- 795 .... Black Rock, BARBADOS. Form letter verie in for 12/16 rpt. (Second day of Bcstg.). Signer: Paul S. Watson, G/M. (HH)
- 800 1 YZ Rotorua, NEW ZEALAND. Veryweak 3/23 at 0335. (RS)
- CM.. CUBA. Cuban here ("Reloj Nacional") with same type of program as 760. Time tones every minute. Hrd. almost every MM. (RS)
- 818 Cairo V Cairo, Egypt, UAR. Verified with very attractive card. Sent Airmail but took over 3 months. QRA: Monitoring Section, Egyptian Bcstg., P. O. Box 1186. Signer illegible. (HH)
- .... Middle East Radio. Odds are approximately 2 to 1 that this station is a hoax; one of many which have plagued European DX circles, especially R. Sweden DX'casts. (CMS)
- 820 HJED Cali, COLOMBIA, "La Voz del Rio Cauca". No such luck ... after being off for three or four nights, returned AM of 3/29 with AN COLMOTORES program. Must have been equipment trouble. There goes Chile. (DFG)
- 2 GL Glen Innes, NSW, AUSTRALIA. Heard quite well at times 3/31 from 0430 to 0535 // 840-850. (LBG)
- 830 3 GI Sale, Victoria, AUSTRALIA. EE accent here w/ news at 0417-0421 on 3/23. Better than 840. (RS)
- JOB Osaka, JAPAN. Sometimes overwhelming signal. Noted over WCCO on 3/1. Quite regular. (RS) (Wish I could say that-Ed)
- KIKI Honolulu, HAWAII. Heard in EE w/ definite ID's MM 3/31. Especially strong at 0423. Power is only 250 watts, but unn.. (LBG)
- BHBS- Belize, BRITISH HONDURAS. Back on this freq. on 1/14 giving WCCO a good battle; but every eve since then hrd. on 834. Could it be that 830 is still used occasionally ? (DR)
- 834 -BHBS- Belize, BRITISH HONDURAS. Until June will be transmitting on BCB only. (ASWLC) Apparently ran AN on 3/30 (BN) Form verie letter rcvd. Signer: E. G. Waight, C/E. 20 KW. QRA: Radio Belize, Government Bcstg. Svc., Belize, Brit. Hond. (HH)
- 840 .... Paramaribo, SURINAM, "Radio Apintie". Stn. hrd. here 3/30 at 0448 is apparently this one. First hrd. about 3 years ago. Third freq., also used. 800 and 820. Has been noted several SM's when Brazil was good. S/on maybe at 0400 ? (DFG)
- HON 32 Boquete, PANAMA, "Ecos de la Montana". Same ownership as "Radio Aeropuerto" stns., so may relay their prgrms. at times. (DFG)
- 4 RK Rockhampton, Queens., AUSTRALIA. Presumably this stn. hrd. with portions of newscast 3/23 @ 0417-0421, simultaneously with 3 GI (RS) Hrd. w/ fair sigs 3/31 at 0400 with ABC time pips; // 820 and 850. (LBG)
- 850 2 CY Canberra, AUSTRALIA. Best sig of all Aussies hrd. 3/23; logged 0411-0417 (RS) Hrd. with very good signals 3/31 from 0409 to 0449, many

- 850 2 CY (cont.) ABC ID's and much loggable material. Strongest of 3 Aussies hrd. this AM. Didn't verify 2 yrs. ago, so another rpt. off. (LBG)
- WABA Aguadilla, PUERTO RICO. Hrd. s/on ½ hr. earlier than last week MM 3/30 0413 with SSB. (LBG)
- HJKC Bogota, COLOMBIA, "Radio Nuevo Mundo". Regular every morning here after 0500. Very good on 3/23. (RS)
- YNMV Managua, NICARAGUA, "Radio Continental". Hrd. 3/30 at 0230. Has 0300 s/off. (DJ)
- 860 HRU Tegucigalpa, HONDURAS, "Radio Centro" logged 2104 on 3/30 with soap opera and many ads. Gave CJBC a real rough time ! (DFG)
- 870 ???? Either "Radio Cristal" in Ecuador or "Radio Musical" in Panama hrd. here every SM. Very weak 3/22 @ 0504. Also 3/1 Who ? Are both these stations AN ? (RS) (Most likely HCNV 2 Randy - Panama not known to be AN. DFG says he'll check this soon !)
- 880 1 YC Auckland, NEW ZEALAND. Must have been the EE w/ classical mx MM 3/30 0200-0300 with good sigs at times. No other NZ'ers hrd. (LBG)
- 900 ???? UNID SS heard 3/31 at 0020 under XEW and CHML with mx. Suspect Costa Rica or Nicaragua. Anyone hear anything besides XEW here ? (DFG)
- 910 HRVS Tegucigalpa, HONDURAS. S/off caught at 2400 on 3/30. Gives complete slogan: "Radio Catolica, La Voz de Suyapa, Prp Dios y Patria". (DFG)
- YVPF Caracas, VENEZUELA, "Radio Aeropuerto". ID at 0453 on 2/24. Very loud before 0530 s/on of KLCN on 2/17. (RS) (Maiquetia, Randy ?)
- 918 ???? UNID SS heard on good LA nights up to 0100 or later with instrumental music. Doubt Ecuador - any help ? (DFG)
- 920 XEOK Monterrey, NL, MEXICO heard 3/31 at 0107, apparently s/off 0200. (DFG)
- YVQX Porlamar, VENEZUELA. Verie rcvd. Signer is Ennodio Ramos, Dir.-Ger., QRA: Apartado 58. (CMS)
- 922 HJAF Cartagena, COLOMBIA, "Emisora Fuentes" hrd. 4/1 at 2300 with poor sigs. Is part of Circuito Radial ABC with HJAN-AD-AZ-AO. (DFG)
- 945 HCDE 2 Guayaquil, ECUADOR, "Radio Ifesa" "La emisora de los exitos musicales" heard at 2200 on 3/30 with good signal. (DFG)
- 950 ???? UNID, possibly JOKR here at 0455 3/9. Faded, then WSPA s/on. (RS)
- 955 .... Rangoon, BURMA. Programs in Burmese 1945-2100; 2330-0200 and 0600-0915. In Hindustani (Weekdays only) 2130-2145 and ENGLISH 2100-2130, 0200-0230 and 0915-1030. (RSDXB) (See also 1150)
- HOB 33 Concepcion, PANAMA, "Radio Cultura" hrd. 3/31 at 2020. This one has been hrd. to s/off as early as 2000 and as late as 2350. (DFG)
- 965 HOF Panama, PANAMA can be heard every Sunday 2330 (YNLU s/off) and 2400 s/off. (DFG)
- 982 HIAS Santiago, DOMINICAN REPUBLIC, "Radio Cibao" hrd. 3/31 at 0015 with news - late for this country. (DFG)
- ???? Mystery SS here MM 3/20 @ 0526. Many commercials but no trace of an ID. Any ideas ? (Probably HIAS as above, Larry. Noted them off frequency earlier this season also.) (LBG's mystery, hl)
- 1000 PRB 9 Sao Paulo, BRAZIL, "Radio Record" heard with clear ID 3/30 giving frequencies. No KOMO-qrm. (LBG)
- YNTS Managua, NICARAGUA, "Radio Mil" logged at 2128 on 3/30. ID and mention of "cordobas" (Nicaraguan currency unit) convinced me of this one. Strong XEOY qrm. (DFG)
- 1030 HJER Cali, COLOMBIA, "Radio Pacifico" heard 3/30 u/o YVMX at 2100. This one verifies easily with QSL. (DFG)
- 1005\* 4 V.. UNID Haitian noted here. Plays American, Mexican, Creole and FF records. May be 4 VCPS ex-990, but mentions Aux Cayes often. (DFG)
- 1010\* XEDX Ensenada, BCN, MEXICO. Got this ID from them. Regular each eve after 2100. Somebody hrd. them as XEKK. Any data on this ? (RS) (Latest SACCA data says this is still XEDX, Randy.)
- 1015\* HOU 44 Panama, PANAMA is all night, 7 days. "Radio Reloj". (DFG)
- 1040 .... Peking, CHINA. Fantastic sig. Room volume almost every SM. Loudest on 3/1 from 0448-0508. Interrupted by OC at 0500. (RS)
- 1070 HJCG Bogota, COLOMBIA. Noted AN 3/30 w/ mx. Is AN 7 days. Verifies. (DFG)

- 1080 YVQJ Barcelona, VENEZUELA heard 2/17 with good signal, Four bells before ID as "Radio Barcelona" and complete ID at 0555-0558. (RS)
- 1085 ???? Mystery EE station; apparently in the Carribbean. Heard again 3/30 at 2050. Never ID'ed. (DFG)
- ✓ 1145 YST San Salvador, EL SALVADOR, "Radio El Mundo" is on this frequency till 0000 s/off with American pop tunes. Program at 2330 is called "Musica para sonar". V/s is Betty Suarez de Cross. 800 watts. (DFG)
- 1150 .... Rangoon, BURMA. Also on this frequency with Burmese only at 0600-1000. (RSDXB) (See also 955)
- XEJP Mexico City, DF, MEXICO. S/off MM's is 0300. QRA:Articulo 123 # 90, Mexico City, D. F., Mexico. This is also the QRA for XERC-790, XEQR-1030, XEAT-1320 and XELZ-1440. (DFG)
- 1160 ???? Mystery station hrd. here 3/30 at 0320 with a play ... man and a woman talking and every once in a while a brief musical selection ... like in soap operas between scenes. Antenna pointed SW for peak. In EE, faded out by 0350. (DFG)
- 1170 YNUW Leon, NICARAGUA, "Radio Dario" looks like a regular. Has 0200 MM s/off after remote broadcast. QRA: Apartado 25. Gerente is Juan Toruno Calderon. (DFG)
- WLEO Ponce, PUERTO RICO. S/on 3/30 at 0400 in EE & SS. No N.A. (LBG)
- 1187 HRVW San Pedro Sula, HONDURAS, "La Voz de Centro America". EE letter verie rcvd. for Xmas-1962 reception. Says new station affiliate is "Radio Panamericana" with 1 KW, no freq. given. (HH) (SACCA says frequency is 740 KC, call is HRJS. It is to replace HRYN.)
- 1200 ACE ? Fort Brooke, PUERTO RICO. Possibly the EE station hrd. 3/31 at 0430 but too weak for ID or time checks. (LBG)
- 1220 HJAV Monteria, COLOMBIA, "Radio Cordobesa". S/on MM is around 0415 with mx. transmitted for about 15 mins. previous while warming up the transmitter. Puts in S 9 here. Mentions affiliation of RCN at s/on annct. Goes directly into music. (DFG)
- 1260 CMCI Havana, CUBA. In almost every MM w/ time checks on minute. Overrides most 0500 domestic s/ons. (RS)
- 1280 ???? LA signal hetting 1280 on the high side 3/30. Suspect HJKN, "Radio Metropolitana" as he is a known drifter. Most likely Colombia as 1294, 820, 1329, and 1100 were all strong. Anyone get an ID ? (DFG)
- 1294 HJTH Medellin, COLOMBIA, "Radio Ritmos" is AN with music on this freq. Location is Medellin, not Bello, as reported by some. Have visited the station in Medellin which convinced me of its location ! Was hrd. 3/30 at 0237. Has vfd. for New Zealanders. (DFG)
- 1325 TIRG Liberia, COSTA RICA, "Radio Columbia - Canal 3" hrd. occasionally behind 4 VW. Does not appear to be // to either of the other two "Columbia" stations on 1195 and 725. Also hrd. with ID in Jan. while in Tegucigapla. S/off possibly at 2400. (DFG) Heard here on 3/15 at 0620. (JLK)
- 1329.5 HJAD Cartagena, COLOMBIA, "Radio Vigia" hrd. on its AN program 3/30. First noted at 0040 but it took nearly ten minutes to adjust my set to separate this one. Still had a bad het. This one is licensed to 1340 but never there..even though there pennant says 1340. (DFG)
- 1335 HCPX 1 Quito, ECUADOR, "Radio Victoria". Hrd. several eves @ 2200. (DFG)
- 1370 XEA Campeche, Cam., MEXICO on every SM till 0100 with remote. (DFG)
- 1400 XEDQ S. Andres Tuxtla, Ver., MEXICO heard 3/15 at 0620 under a mess. (JLK)
- .... "Radio Libertad". The Miami address currently reported for this stn. (2113 Ocean View Drive) is a park ! (NNRC)
- 1435 PJA 5 Oranjestad, Aruba, NETHERLANDS ANTILLES, "Radio Kelkboom" apparently this is the station producing the AN open carrier on this freq.. Noted no change in signal strength on 1435 after their 3/29 s/off ! (DFG)
- ✓ 1440 HOC Panama, PANAMA heard 3/23 and 3/30 most of AM // 550, 640, and 1500. Although ID mentions only HON 31, HOK, and HON, HOC is definitely in the Net. HOK & HON in Colon; others in Panama. (DFG)

- 1463 TIHCJ San Carlos, COSTA RICA, "La Voz de San Carlos" noted in well at 2055 on 3/30. S/off at 2300. Verifies. QRA: Apartado 41, Ciudad Quesada, San Carlos. Signer is Mario del Valle A. (DFG)
- 15050 TI.. Liberia, COSTA RICA, "Radio Norte". S/on MM at 0500 with a program of dedications and records, with as much time spent on the dedications as on the music! Music is typically Mexican. (DFG)
- 1590 XEMC Mexico City, DF, MEXICO, "El Heraldo de las Telas de Junco" heard poorly 3/31 through WAKR at 0220. Very few ads for a Mexican. (DFG)

LATIN AMERICAN TIME DIFFERENCES CURRENTLY IN EFFECT  
(From WRUL via SACCA)

EST plus 2 hours	Coastal Brazil	
	Uruguay	
EST plus 1½ hours	Surinam	
EST plus 1½ hours	British Guiana	
EST plus 1 hour	Argentina	Paraguay
	Bolivia	Chile
	Puerto Rico	
EST plus ½ hour	Venezuela	
EST	Dominican Republic	Panama
	Haiti	Cuba
	Colombia	Ecuador
	Peru	Jamaica
	Netherlands Antilles	
EST minus 1 hour	Costa Rica	Nicaragua
	Honduras	El Salvador
	Guatamala	
	Mexico (Except Sonora and Sinaloa which are EST minus 2 hours, and BCN and BCS which are EST minus 3 hours.)	

Remember to get your Supremacy Ratings into Bill Nittler (Address listed above, or to Club HQ) for inclusion in the first listing!

Anyone desiring a copy of the "Medium Wave Guide" published by O. Lund Johansen of WRTH should send his order to: Gilfer Associates, Box 239, Park Ridge, New Jersey 07656. Cost is \$ 1.85 (Note: this log seems to leave something to be desired with respect to accuracy as far as LA listings. SACCA seems to be far ahead in this respect. It is a very convenient Log, however, and highly recommended!)

Don't forget that Alaska counts as a foreign country under the continent of North America, and that Hawaii counts as a foreign country under the continent of Oceania!

\*\*\*\*\*

Two Alaskan Stations Hit Hard by the Earthquake

Of interest to DXers world-wide is the effect that the Alaskan earthquake had on various radio stations. The Good Friday catastrophe was most severe on KIBH-1340 in Seward as the station was physically demolished by the tidal waves which occurred after the first major earth shocks were recorded. The fate of four of KIBH's employees is still not known. KLAM-450 Cordova also suffered some damage; however, most of this occurred to the tower. This station is now back on the air. The power failure in Anchorage forced the city's four AM stations (KPOD-730, KENI-550, KHAR-590, KBYR-1270) off the air; however, most of these were back on the air within minutes. No other Alaska stations appeared to have suffered damage, so apparently the quake had its greatest effects on KIBH Seward which may not get back on the air for many weeks. Down in Crescent City, California both KPLY-1400 and KPOD-1310 were forced off the air due to the tidal waves. Sources report KPOD still "silent" by April 2nd.

The LA Scramble for Eleven-Ten

KRLA is vacating 1110 kcs., but it must be a most-sought spot on the dial for LA radio listeners. Already twenty applications have been filed for this facility, and there are probably more to come. Most of the applicants ask to maintain existing facilities (50kw day, 10kw night) but several of the powers range from 500 watts unlimited to the 50kw unlimited. Everybody from Bob Hope to Nat King Cole is names in the various applications. Other nearby suburbs hoping to land the facility include Burbank, Costa Mesa, Newport Beach, and Topanga. In addition, the applications from KCJH Arroyo Grande, KDHI Twenty-Nine Palms, and KFOX Long Beach have been received in hopes of landing KRLA's channel. It may take years to unscramble the log-jam of applicants for 1110 kc., so LA DXers, here's your golden chance: spend a little time now on 1110 kcas well as 1100 and 1120, since KRLA has been ordered to end it's business by May 1st, 1964.

LATE DX'ES

We have just been notified of a tentative DX program from CKBW-1000 Bridgewater, Nova Scotia. They should be on from 0400 to 0500 EST on Monday Morning, April 27th, 1964, running 10000 watts. More details on this NRCI DX soon!

Another DX program we have just heard about is KMED-1440 Medford, Oregon, which will be on from 0400 to 0430 EST for the "NRC" running 1000 watts. The v/s there is Mr. Ellis Feinstein, C.E.

\*\*\*\*\*

NRCI stationery & other printing is being held up pending the outcome of the May vote.
