NATIONAL RADIO CLUB, INCORPORATED

P.O. BOX 5181, TERMINAL ANNEX, DENVER, COLORADO, 80217

Volume 31 - Number 30

OUR THIRTY-FIRST SEASON

April 28, 1964

PERTINENT INFORMATION ABOUT YOUR CLUB

Don't forget to return your prepaid ballots concerning the club name by May 12. Remember, if your choice does not appear on the ballot, you may write it in, and if as many as 1/3 of the ballots received have a name written in, regardless on the number of different names, there will be another vote.

It has been suggested that the club emblem and the name of the club publication be changed. Your publishing committee believes both changes are in order, but you - the members - will make the decision. We have already received proposed new names for the bulletin, and proposed new emblems, from several NRCI members. If any of you would like to suggest a new emblem, sketch it and send it to NRCI headquarters by Friday, May 15; all the proposed designs will be put on an electronic stencil and mailed with the May 19 bulletin. Proposed new names to replace "DX News" should also be sent by May 15 and will be presented next issue.

As soon as the club name, emblem and name of publication are decided, we will have an attractive masthead printed. If all goes as planned, the June issue will have a new look!

NRCI Industry Advisor

We have asked John Tucker, Chief Engineer of KSNO in Aspen, Colorado, to be the NRCI Industry Advisor, and he has accepted. John will answer any questions the members might have concerning the viewpoint of the stations that receive our reception reports. He will be our official link to the broadcasting industry and will write several feature articles for future publication in "DX News". We are grateful to have the cooperation of a member of a radio station staff to further the close relationship between the DXer and the station. Welcome aboard, John!

DX Calendar

					EST	
Mon. May 4	HOXO	760	Panamá, República de Panamá	5000w	0300-0330	NRCI
Mon. May 11	HOXO	760	Panamá, República de Panamá	5000w	0300-0330	NRCI
Sun. May 17	HOE2	945	Guayaquil, Ecuador	1000w	0000-0030	NRCI

Ecuador DX Show

Once again we are indebted to NRCI member Dave Gleason for another fine DX program. Radio Ifesa on 945 kcs. will present this special program in English with typical music of Ecuador. The station is owned by the major record producer of the country, and reports should be sent to Sr. Camilo J. Andrade Pino, Gerente, Radio Ifesa, Apartado 3885, Guayaquil, Ecuador. Radio Ifesa will present another DX show for the NRCI on Monday, October 19.

REMEMBER! Future bulletins will be monthly through September; next issue is May 19.

Ernest J. Wasolowski - 1416 Pasadena Avenue - Omaha, Nebraska 68107

Spring has sprung around Mesquero Bend. High yesterday reached a record 90°. The mild weather has kept me out walking the car and lost little time to DX. About the only additions to the log have been in the way of WCAV-680 Charleston, W. Va. on 4/2 with s/off at 1 a.m. Then KCUL-1340 logged for the first time with KXEL off at 1:30. On the following evening I sent a report to SW Radio Havana, Cuba, and asking why they don't verify on BCB but do verify SW! They said they should answer via Radio. I'll let you know the outcome. Freq. is 6.135 mcs from 10:15 to 10:30pm Sundays. 4/17- KWL-D-920 logged from Wadena, Minn. s/on at 6:53 before semi-local KPNF at 7. Also same day, WWAL-800 Sauk Rapids, Minn. s/on 6:58 with 250 watts. Only veries in past two weeks are from CKRM, WDEL-DX for state #45, KMOO, and KMAN. Eastern Nebraska s/off in April is 1900 GST; in May it's 1930; June & July, it's 2000 hours, GST. KCUL, the Mighty 12-90 is #1 in Omaha and the call stands for: Keep Oil In Lizzy. Thanks to all for a great job, well done. 73's.

C. M. Stanbury III - Box 218 - Crystal Beach, Ontario, Canada

For those of you who were wondering about the reported BBC tests on Ascension Island, they did take place--unlike a lot of other European DX reports. This information from Brian Ayres of the ISWB, a very reliable source. They were conducted on the Broadcast Band and IDs were not transmitted. Frequencies, some of which were logged in Europe, included 566, 1205, and 1335 kc. The series has now been concluded, and the result, strangely, will be four 250 KW SHORT WAVE transmitters. Figure that one out. More next week.

Harvey Young - McAlister, New Mexico 88427

Hi gang, right into DX: 4/11- KPOS-1370 @ 8:15 s/off. MI 4/13- Despite the you-know-what, I was greatly pleased to catch WQOK-1440 at 4:50; I believe they had just signed on. Faded quickly, but I got a couple of nice ID's. This on a tip from NASA BCB Editor Steve Raiche. New state for me. Next, WAVE-970 s/on at either 5:00 or 6:00, I failed to jot down the correct time; then WLSH-1270 s/on 3 minutes afterwards; KVSA-1220 in beautifully at 6:45 for a surprise. Finally that morning KYVA-1230 s/on 6:47 with a surprisingly strong signal, blotting out KVSA. Frankly, I'm just as pleased to make a new New Mexico logging as any other state, almost. I get about 10 Texas stations for every one New Mexico station here. V/q from KFNB and v/l from KSTFO this week for No. 100 and 101 respectively. Big deal, hi. Welcome, Jesse Wadsworth, to the NRCI as New Mexico's newest member! Grow with the NRCI! Larry Godwin, let's hear from you soon. Well, spring is indeed here, and there's little time to DX, hi John Johnson! So long, I got things to do, hi! Remember what Confucius would have said: "He who seeks stations would find them--eventually!" 73s

Dan Phillips - 271 East 8th Street - Cookeville, Tennessee

Well, greetings for my first report to the NRCI. I was pleased very much with the first bulletin I got, which was great, especially the DX Down the Dial and the foreign digest. The green paper also is very eye-pleasing for a blind person like myself. The loop plans have been submitted to the NRC governmenting body, hi. Anyway most everyone will get a copy because I'm sure most members are members of both clubs. Anyway one explanation. The plans will be published by the NRC only for one obvious reason: I had promised Lefty the plans last year and had no idea there would be a split in the club. As a result, in all fairness to Lefty who helped me get started in this business and what have you, the plans will be published by the NRC. If I had known of the split, things would have been different, but I don't like to back out on promises. However, the plans will be available to non-NRC members by simply sending the small fee, covering publishing and postage, to the Buffalo address. I told pop to print up several additional copies and make them available to all DXers whether NRC or not. I think this is only fair. I am sorry they could not be published by the NRCI, but it's too much work to write them over. It's quite a job in fact. Anyway greetings and we in the Alabama clan are looking forward with anticipation to the arrival of all you great DXers to the Mobile Convention. I notice that most of my old pals are in the NRCI which pleased me muchly. I was missing David Roys, Gleason, Godwin, and Dallas John's reports in the other bulletin. Best of DX to all and long live the NRCI, or whatever name is decided upon. 73

X-X-X-X-X-X-X-X-X-X-X-X-X-X-X-X

The next issue of the bulletin will be dated May 19th, and after that, June 16th.

M. W. "Bill" Nittler - 522 South Jerome - Englewood, Colorado 80110

Welcome this issue to new DXers Tom Halverson, Dan Sledge, John Marshall, Glen Sorenson, and Jesse Wadsworth--may we see all of you in print often? DX? What's that? Nothing new heard with conditions at the worst summer level of static. No veries either. Where are some of those new countries? Checking over the ballot returns on our election, I find that thus far 44 votes have been cast with one name definitely in the lead. You'll read it on the May 19th masthead. Thanks for the support in the Supremacy Ratings column. The May issue will contain a new listing with many others already received since last listing. If you haven't done so, send me your totals for the May issue. Just list your total countries verified, total veries, total veries from each continent, separately (foreign), and total foreign veries. U.S. and Canada do not count in this listing of foreign veries. Alaska and Hawaii are still counted in the listing as countries. Also, list your best verie from each continent. Now for May issue, also please send your totals for a domestic supremacy rating as so many of you have requested. The first listing will contain your total veries, total states verified, total Canadian provinces verified, and states and provinces heard. Then maybe we can develop it from there after it is started. Hope to have a goodie for the Station of the Month either in May or June so keep your eyes on the "Station of the Month" column. Let's have some pictures for the "DXer of the Month" column along with a resume of your DXing career. Everyone is welcome to participate! We'll see you all in May when maybe I will have heard something.

Glen Kippel - 211 Hill Street - Oxnard, California

Hi gang! Oxnard is a very different DX location than Palm Springs! 3LO-770 had 80%-500-microvolt signal at 0710 on 4/18, also heard an Aussie who didn't ID, on 670 (2CQ?) in // to 680 (2KP?). My "antenna" is a gas heater, I clipped into the grille. Oh, KACY is carrying "Wolfman Sam" and is it a riot! Anyway, I will be at this address until further notice. 73

Ronald F. Schatz - 8065 Crespi Blvd. - Miami Beach, Florida 33141

Ab illia Florida, ego vos saluto, amici. (Et tu, Schatze?) Sorry about my absence from hisings--finals and this club's constitution have kept me off the DX front for a while. DX? well, nothing spectacular. On 4/20 I heard 4YA-780 in Dunedin between 0400 & 0430, Ramsey A.F.B. at 0430 s/on just covering 4YA. Also Radio Monserrat-885 and YVQM-980 "La Voz de El Tigre" (Correct the call in Gleason's log). To repeat, nothing spectacular. On the domestic scene, f/cs on 4/20 from WNGA-1600 & WTIF-1340, both at 0345-0355. Also a r/c from WELI-960 at 0035 4/13. Two more: KPLC-1470 Lake Charles, La, at 0105 s/off 4/13 & WPLA-910 at 0500. That seems to cover that for now. If all went well, my new Cuban list appears in this week's "DX World-Wide" and I hope you like it. The 4/14 issue hasn't arrived here as of 4/23 so no vote from me. Now what is this about me and the constitution? Well, I have been assigned the task of compiling amendments to the proposed NRC document which was created last August in convention. Most of them come to me via our Denver members, and many others are my own. I will arrange them in order of a ballot so that you will be able to vote on them clause by clause. My amendments reflect what I feel are the serious flaws and undesirables within the present Constitution and Bylaws. Here are some of those peeves: For one, the By-Laws repeat practically everything (except those on members and amendments) that appears in the Constitution, and I see no sense in this. What appears in one document shouldn't appear in the other. It will lead to unnecessary trouble when we may want to change certain Bylaws if it is also a part of the Constitution. Still another thing is Article IV--Dues. Better to have the members decide this by a vote--taxation without direct representation, I call it. On Article V, Sec. II, Part I--President--although his elected position makes him equal to the entire Board of Directors, there is little he can do without the latter's approval. I want to change this to "action may be taken unless disapproved by the Board of Directors--much simpler that way. And the Secretary-Treasurer must go. This office is hard work, instability, and red tape. I am for the creation of a new office--Publisher, elected by the members (not appointed). This office will be similar to that of the NRC's Executive Secretary, only he'll be very limited in power and authority in comparison, so don't worry, hi. Finally, Article XII will have to be done over so that we can find a remedy for irregularities within the Board of Directors. OK, voters, it's your say now. 73's and 4YA.

John D. Sheedy - 1876 West Drive - Encinitas, California 92024

God dag! Hvordan står det til? (and read and read and read) the April 14th issue. Just fine! The distinctive greeting is Norwegian (I got the idea from Herr Bruce and his German). Well, I harangued the parents into letting me twirl knobs this morning. Wow! Never have so few got so tired so fast!! Though of this frivolous chatter, down to DX. Last week (4/13-4/19) I got bit by the "bug" after a couple months' idleness, and sent out reports to KONO-860, KUIS-1250, WGN-720, WBAP-820, KRLA-1110 (read that it's QRTing on May 1st and wanted to verify it fast!), KOWN-1450, KGA-1510, WCCO-830, and WOAI-1200. MI was very nice to me, caught these: WFLA-970, KLAJ-1600, KALI-1430, WSB-750, WHAS-840, KJFT-620, KVOO-1170, KGHL-790, KTRH-740, KBAT-680, KOTA-1030, KSKY-660, CHCA-730, CBE-1550, CHHQ-640, and two ??s 1160 SS with same format as DFG's "mystery station" in EE. Could be R. Americas. Now for my "rare"-780--from 0356-0400 with records from the movie "Tom Jones," heavy QRM at 0359 prevented me from copying the ID (tentative will go off to 4YA Dunedin, N.Z. as per R. Seaver's report in DXWW), thence to EE accented news, possibly a relay. Now getting reports off to WFLA, WSB, and KGHL. These new stations put my heard total at 230+ for about 13 months of DXing. In the Verie column, I have the astonishing total of 20, hi hi! (With increased interest, I'm going to try to bring the verie total up to about 100 or so during the long, long summer.). So until next time, kiddies, 73's from THE peon of Encinitas, Calif.

Dave Johnson - 3620 Ivy Street - Denver, Colorado 80207

Hello! The weather here has been beautiful, but it sure hasn't helped the CX. Very little DX heard the last two weeks. 4/17- KBUR-1490 r/c 1:11, unnn KONO-1370 ET 1:37 didn't verie last report so f/up was in order. 4/20- All I could pull through the noise was KWWL-1330 f/c 3:30, and then that evening much-wanted KUBC-580 blaring through at 8:30. 4/21- KWTW-540 s/off 8:00 w/QRM from KLZ. 4/25- KSRV-1380 s/on 7:00 w/SSB. Only veries in are WDSK, KVOG, KVSF, KDON, and KVMJ. Totals in de ole log book are now 420/272. I hope the new name for DXDD will be ok with all of you, I'll welcome any suggestions. Well, I guess that does it for another report, and I sure hope that we can have at least one more good MM before summer officially comes. Until next month, 73's and Mobile '64.

Roy H. Miller - P. O. Box 91 - Marysville, Washington 98270

Hello! No "Buffalo issue" this week, so will make my first contribution to the "Denver venture," issue of April 28th, if I make deadline OK...first 5 issues from Denver have been real good; fine job, lads! The 2nd issue made it here on Friday, others on Monday. Believe local PO touches no 3rd class mail on Sat. or Sun., so once more it will take 1st class mailing if I want "DX News" within 48/72 hours of publishing. Briefly, my equipment here at this relatively new DX location about 8 miles north of Everett, Washington: Receivers--Hammarlund HQ180; Navy DAK3 Direction-Finder; Grundig #5077. Recorders--Crescent, Wollensak, Silvertone (all mono, speeds 1-7/8, 3-3/4, 7 1/2 ips). Time switches--five in all. Antennas--4 "Is" ranging from 75' to 250' in length, plus very high FI dipole, and a SWL7 designed for SW in attic of carport. My BCB DXing goes back to late '30s when I DXed in Colorado; reactivated in 1952 with purchase of a National NC125, and membership in NRC. First verie in my Washington State collection is KINT-1400 for ET of 6/3/52. My Marysville location is 3rd DX location in the Seattle area, and I'm sure the best yet, although I've been plagued by electric fence noise here. If you wish to establish a domestic listing similar to "Supremacy Ratings" why not set up an "All American DX/61" listing with points awarded at the rate of 1 for each of the 50 states, D. of C., and 10 provinces verified? From time to time "Best verie" in selected states or provinces might add a bit of spice. Re. the story in your DYN on KIBH and KIAM. I understand KAPA (Raymond, Washington) released a 100 watt xmtr which has been shipped to KIBH to replace damaged xmtr. Am certainly glad that I have these two graveyarders verified! Only other Alaskan graveyarders are Sitka's KIFW and KSEW, although I did log Kodiak AFRS and Anchorage KBYR years ago when these were on graveyard channels, but unfortunately never verified same, although KBYR has been verified on their 1270 frequency. Just a final thought before closing this out; while I must say that Ed Krejny is doing a very fine job with the foreign DX section, there would be some definite advantage in having the editor of that section also working out of the Denver P.O. Box, thus keeping uniform deadlines--what think? 73

Walt Snyder - 710 Stewart Ave., Apt. 1 - Cornell Univ. - Ithaca, New York

My first crack at MM 4/13 offerings in a while turned out to be a poor one. CX were real bad with med-heavy static and persistent electrical interference which I strongly suspect is largely due to my rx, Lafayette HE-30. Couldn't pick up anything of DX through all the gobbildy-gook, and a try for KENO-1460 (Nev.) fell short from static, with a wild guess out on 1 Beatles' record. New stations picked up on 4/13 included WISM-1480 around 12:15am, WRAL-1240 AN 1am. Then caught WGUS-1380 s/on at 4am, and ran into KCBG-1390 at 4:10. I wrapped up the wretching morning with WPON-1460 RS at 4:55am and WIRL-1290 after 5am. Other bits of garbage from the previous week include WIOF-950 at 10pm in Allentown while home on spring recess (my Panasonic's built-in Ferrite did a good directional job on WPIEN here), WEND s/off at 7pm on 4/11, and WBSO-1540, the same night, with CBE apparently directionalizing at 7:30 and covering up 1460. Recent veries in include WINZ, CKLG, BHBS-835, KWNL, WAVZ, and WKMI. Stations now stand 268/368 in Allentown and 49/71 here in Ithaca. States in Allentown 37/38, including Ithaca 41/42. Provinces likewise 7/8 and 8/9. 73's as usual.

Larry Godwin - P. O. Box 165 - Boulder, Colorado 80301

Hi gang. It's been a very interesting two weeks since my last report. The highlight was a visit from the NRC Industry Advisor, John Tucker of KSNQ. We talked quite a bit about reception conditions and John spent about two hours aligning my Hammarlund. Signals are noticeably stronger now, for it's the first time since I bought the receiver in 1957 that this type of work has been done on it. John has built a rhombic antenna on a 40-acre plot near Aspen beamed to Brazil--this I've got to see! Then last night I enjoyed a phone call from Mike Worst in Seattle, saying he has some more prospective members' names for contacts. He is planning to be in Mobile for the 1964 NRCI Convention! I think Marv's Membership Committee really deserves the praise of the club for such a commendable job. For instance, Harvey Young has already brought two new members from New Mexico into the NRCI. I think we will achieve our goal of 100 members by the June issue of "DX News." I'm glad to see that Marv's antenna is once again up, and I hope he has better luck with it this time, hi. With his new HQ-180 he will be putting us all to shame DX-wise. Speaking of DX, it has been pretty spotty here, but interesting. I caught the last part of the s/on of CX-16 on 850 4/12, thinking it was HJKC all along. What a surprise! Then Sat. AM 4/18 really brought surprises. After being discouraged over the complete absence of Chilean stations around 0600, I was surprised to find Jamaica still coming in on 770. At 0625 it was still coming in! Then I realized it was // to 700, and that it wasn't Jamaica at all! I was hearing 2NR-700 and 3LO-770 with excellent signals that prevailed until about 0715. The only possibility of a new catch, though, was 2KY-1020 in Sydney, logged and reported tentatively with a news program. I had weak stations on 670, 720, and 780 that might have been Chicago--1020 surely wasn't KDKA with that accent! To top it off, I heard oriental speaking on 1210 at 0642, so rushed off a taped tentative to never-heard JOOR in Osaka, Japan. On 4/22 & 4/23 I noticed 2NR and 3LO coming in around 0645, but no sign of other TPs. The Chileans should be popping up soon around 0600, especially CB76-760. New veries are CX32-1170 (quite definite for my tentative report), JOLB-870, and WDEL-1150 for my 48th state verified. I'm sure looking forward to the SACCA log in September. I know Dave Gleason is really logging the DX down in Ecuador, and his publication should be excellent. Till May, 73 and good DX.

Dallas John - 1870 South High Street/609 - Denver, Colorado 80210

Crackle, crackle. Otherwise all that has been coming in here is a verie now and then, like JOIB-750 Sapporo, Japan for my 23rd country. Also KPRO-1440 and KFAK-1100 for my 27 & 28th Californians. Also, KWJSC-1250 and KOSG-1500. When JOIB verified they sent a beautiful QSL picturing Fujiyama, along with a whole packet of SW info, especially requesting me to monitor one of their SW programs last Friday. My loop isn't too effective on SW, hi. So, totals are 681 veries from 23 countries and 49 states. Concerning Ron Schatz's musing in this issue, I think also that the duties of secy-treas. and publisher should be combined, as it's only logical he should do bookkeeping, etc. Welcome, Dan Phillips, and I'm looking forward to the convention also--yours is one area of the country besides the WC that I have yet to visit. All the suggestions for standards for a domestic supremacy ratings have merit, so why not let he who volunteers to compile them decide? See you in the May issue in my last report before returning to the land of mosquitoes, humidity, and Lake Michigan beaches. 73

A2C Bus Boatman - Box 1279 - Clinton-Sherman AFB, Oklahoma 73633

Guess I've sat on my duff long enough, time to add my bit to the DX Forum. Glad to see such a great response from all in getting the new organization started. I too believe that an entirely different name for the "NRCI" would avoid confusion, and allow each group to stand independent of the other. My personal DX has been at a complete standstill for the past two years. The interest is still here and the time will come when the veries will start again. Next project here is bringing my totals up to date. As I recall, they stood at 750 total, all but 6 states veried with 8 countries. Cuba was verified B.C. (Before Castro). Last week I made it to Stillwater, my home, and had a nice visit with the other half of the Stillwater duo, John Bryant. Marv, John said he would like to join this club. He asked about the possibility of an FM section. FM would lead to TV, but it would draw more members. His address is John Bryant, 25-1 North University Circle, Stillwater, Oklahoma 74074. What happened to Scooter Seagraves & Hank Ward? Any coin collectors in the crowd? I need a 1950-D Jefferson Nickel! More from here later. 73. (Bus, during an earlier personal "depression" the greater part of my coin collection went back into circulation, hi. Anyway I developed the habit of checking dates and mintmarks so I'll keep an eye peeled for it--DJ)

Jesse Wadsworth - 8 East Byrne W.A.F.B. - Roswell, New Mexico

Greetings from New Mexico's newest member. I have only been DXing for about nine months and do not have very many QSL cards. I have a Hallicrafters S-120 receiver with a 25 foot vertical antenna. I have not done very much DXing this week because of six weeks tests. Speaking of DXing, I do not get a chance to turn the radio on early in the morning because I have my radio in the bedroom which I share with my younger brother. He does not like to be awakened at 1:30 in the morning, so that put an end to early morning DXing. Since no DX this month here is a little info on myself. I am a sophomore at Roswell High. I am also interested in becoming a Novice, if I do, I will get another receiver which will help me in DXing both as an SWL and a ham. Well, till next time 73s and good DXing.

Michael G. Worst - 5903 Greenwood Avenue, N. - Seattle, Washington 98103

Happy days. I got set up in time to make this issue. But the noise level is so high all I've heard is K1AK-1600 4/20. Not so happy days. I think I'll retire my rx until I move again and in the meantime catch up on my letter writing and other paper work. John G., you'll get a letter from me sometime soon. If anyone has any suggestions for DX programs from the Pacific Northwest let me know and I'll see what can be done. 73

Don Erickson - 24360 Myers Street - Sunnymead, California 92388

Hi fellows! This has been an active week for me but not in DXing. Things are looking up though. I received nice tapes from Marv Robbins with Dallas John on it and from Ted Palmer. Charles McGeorge of Fontana, Calif. sent a real wonderful letter and I am hoping to see him in the NRCI soon. He may also have the answer to my receiver problem. Nick Jesch, another prospect of Anaheim, sent a real nice letter. He was not using a log of any type and was having trouble with the call letters so I sent him an extra White's Radio Log. I am also hoping to see Nick in the club. He has the makings of a real fine DXer. Val Hanney of Randolph, Utah tells me that he will probably be joining shortly. Jim Woller of Costa Mesa sent an interesting letter saying that he was also interested in the club. Sure hope each and everyone of these guys do join. Any more NRCIers want to tape? If anyone has any back issues of NRC bulletin, they would like to sell, please let me know. I am especially interested in those older than June 1962. Dal, how soon is the tape section going to be started? DX Forum and DX World-Wide are real good names. Bulletins are now arriving on Thursday via First Class Mail. For 6¢ a bulletin, it is the best possible investment you can imagine. I will be taking entrance examinations for Riverside City College tomorrow. I am going to miss the weekly NRCI bulletins. I would like to hear from some more NRCIers. Some information on the reports to DX Forum in the first five bulletins--52 members sent 124 reports. 24 states and one province were represented. California had the most reporters, and Colorado the largest number of reports. 7 members reported in every issue, 4 in 4, 7 in 3, 14 in 2, and 20 in 1. The number of reports per issue have been 27-17-28-27-25. 73. (Don, info. on the tape section will be published shortly--it is a bit "cloudy" now, hi. Perhaps we can list members' equipment w/membership list?--dj)

Jack L. Keene - 4902 Eppes Street - Houston, Texas 77021

Hello fellow DXers! Thunderstorms have spoiled the last two weeks of DX by the high static they have brought. I have added a grand total of one station to the log. That was KLAJ-1600 at 0300 on 4/20. I had just finished a term paper and found this as I flipped around the dial. Senegal-764 of course continues to come in. Anyone gotten a verie yet? The Colt .45 BB net is: (EE) KALB-580, KIXZ-940, KVET-1300, WJBO-1150, KIOX-1270, KLVI-560, KBYG-1400, KSIX-1230, KRLD-1080, KPSM-1380, KILL-1400, KPRC-950, KPFL-1420, KAOK-1400, KPYO-790, KTRF-1420, WWL-870, KRIG-1410, KGKL-960, KBAT-680, KWKH-1130, KNAL-1410, KWIX-1230, KPGV-1290, KANI-1500, KWFT-620, (SS) XEMS-1490, KOPY-1070, XEOR-1390, and XEFE-790. Tune in, you might just hear some baseball history made (like the Colts' loss in 9 innings 1-0 to Cincinnati on 4/23 in spite of Ken Johnson's no-hit pitching--the first such game in major league history). If you heard "wild" music on 1590 on 4/19 AM, that was the program KYOK dedicated to the WIRC. The GE said the station got calls from Shreveport, New Orleans, and someplace in Kansas, so I guess they were getting out at least a little. That's about it for now. Thanks to Larry and Alex for the postcards. 73 and best of DX from the home of the unbelievable Colt .45s.

George Junak - 1606 North Altadena Drive - Pasadena, California 91107

Greetings! I'm joining the CPC so I'll try to get some good DXes for you guys. Since my last report I've only listened to my radio one day. New DX: 4/13- XEG-1050 5:43 a.m., CKWX-1130 5:47 am, KRUX-1360 5:54 am, KXIV-1400 6:07 am, KENN-1390 6:08 am, KLAS-1230 6:20 am, GBX-1010 6:30 am, WWL-870 6:31 am. Think I heard GBK on 540 at 6:43 till about 6:50. Nothing but music was heard. If they are a CBC station it was probably them. Does anyone know if this was them? KTEB-1260 7:10 am. Only new station heard is KTEB and maybe GBK. No new veries. I'd like to have the NRCI's name changed to the IRCA. Also I'd like to have a verie-signers column. I guess that's all so 73's! (GBK is CBC, all right, more I don't know--dj)

Charles Buckley - 711 Madison, N.E. - Albuquerque, New Mexico 87110

Greetings, comrades, DXing here has been fairly good. I have logged about 12 new stations in the last few weeks. All of this has been done during the evening hours. I have had a cold for the last few weeks and have not been staying up very late. Next week I hope to get a lot more new stations. New stations--4/11 KENN-1390 7:30 pm, 4/12- KXOL-1360 4:50 am, 4/11 KHOB-1390 7:30 pm, 4/14- KLB-570 10:35pm, 4/16- KRZE-1280 8:15pm, KLAJ-1600 10:35 pm, KHOU-630 10:55 pm, 4/20- WBAP-570 10:05 pm, 4/22- KFKA-1310 11:12 pm, KVOR-1300 11:35 pm, 4/23- KFAC-1330 11:55 pm. Veries: v/c-- WEM, v/1--KROD-600, v/s Don Kirkpatrick, Program Director, v/1 WREN-1250 v/s Max G. Falkenstien, GM. All times are EST. I hope that all of us vote one way or the other, but vote. Domestic Supremacy Rating--Calif. 2, Colo. 2, NM.1, Ok. 1, Texas 7, Ia. 1, Kans. 2, Iowa 1, Mo. 1, Ill. 1, Ky. 1, Mass. 1, Neb. 1, Ohio 1. Till next time, 73s.

T. A. Mulvaney III - 2930 Westridge Road - Riverside, California 92506

Hola, amigos! I am brand new to your club and this is my first try at writing something. I've been BCB DXing for quite a while but just found out about your club. Now to DX. Summer conditions are starting to crash the kilocycles already. I haven't had too much within the past month, except for KWSL-1340 on 3/27, also KHOS-940 on 4/3. I had some real good DX last winter (or at least I think it's good)--WCIN-1480, CHLL-900, KPOI-1380, KEYY-1450, all these are verified. Other veries are WSAI, KBGO, WFLA, WSNB, WNAS, WBZ, KDKA, KTHK, WJWO, KAHN, WLS, CFUN, CKIX, CJOC, CBK, CKLW, and CFRB. Every station in Canada which I sent a report to has answered. Only 50% of US has answered. I wish stations like KXLF, KMO, KGU, KYND, KFLF, KBUY, WING, KENN, WKY would answer reports, but I guess that's the way it is, right? Riverside has two BCB stations, KPRO-1440, 1 kw; and KACE-1570, 1 kw day. From the looks of it KPRO is getting out pretty far. I live only 1 mile from KACE which blankets the dial when it's on in the day. There are other stations close by also, like KIEN, KCKC, KRNO, KFII, all in San Bernadino, and KREL, ex-KBUC, in Corona. I use two receivers, a Knight Star-Roader, and an RCA 3-RG-14 six transistor. I think the transistor is much more sensitive even though it cost only \$20 and the other \$40. I want to thank Bill Nittler for sending me a sample copy of the DX NEWS which I think is a BLAST, and also I want to thank him for telling me about your club and getting me interested. Adios and 73's.

Ray H. Krawl - 6423 33rd Street - Berwyn, Illinois 60403

The bulletin has been real good so far, fellows. Keep it up. It is especially interesting for a Mid-Westerner like myself to see all those Western tips. Not that I'll be able to log any of them, but at least it is nice to know that the stations do exist. First order of business I guess would be KRDS v/s. He is like Mitchell, Assistant Manager, and he was kind enough to also enclose a rear window sticker. Very colorful. My DX has not been quite that colorful, though, as there was a lot of static on most of the occasions that I tried to listen. Three new Wisconsin stations since the last Forum. WDOR on RS (910), and WSPT-1010, and WCOV both at s/off SSS at 7:45. WRAP-850 was heard on its AN programming, and I logged two new ones on test. KNIA-1320 on the 11th with rr music from 2:04 to 2:19, and WELI-960 f/c-TT from 00:30 to 00:40 on MM the 13th. Veries from KORL, KFAX, KWJX, WELI, WYLO, WEEF, and WCOV. Interest seems to be there for a domestic Supremacy rating. Since there are a limited number of states and provinces, and there are so many different ways to count veries, I think that probably the fairest way would be to count the number of different cities verified. That way a joker like me could not run up twenty veries in Chicago alone. Also, if all these changed calls a couple of times and frequency too, the total credit for Chicago would still be 1, not 101. I personally don't verify call changes as I figure that if you've heard the facility, it makes little difference what call it is. That is only one opinion. Also my ballot is in, glad to see the change in name, as you have to be a leader to succeed. Dal, a letter will follow eventually, but in the meantime, the middle of June should be OK for a suburban get-together, plus Swanson, hi!

Steven Junak - 1606 North Altadena Drive - Pasadena, California 91107

Hi everyone! DX has been poor around these parts: 4/6- KLYQ-980 0340 with TT, KGU-760 0358, KORL-650 0433, KPOI-1380 0442, KWBB-1410 0655, KHOW-630 0701. 4/10- KLOK-1170 0058. 4/13- KITE-930 0559, KLAS-1230 0617, KORK-1340 0619. 4/22- KUDU-1590 0033. Static is very bad around here now. I heard the mystery station of this area (KPIP) on February 8th from 0033 until their s/off at 0100 but have not heard them since. They operate on 840 kc. and at s/off gave power as 100 watts. Their programming consists of old rr records and a few announcements. There is a short note about them in the May Popular Electronics. (Did KRDS change call letters or something?--dj) Does anyone know who was Tting on 1560 kc/s on 4/11? I listened to them from 0008 until 0032 but no IDs were given. It must have been fairly local because it was on top of 10 kw. KPNC at times. I would appreciate it if someone could help me with this one. I would also like to hear from anyone in the NRCT, especially those in Southern California. V/ls are in from KPOI, KETO, and WREN. V/cs in from KGHL, KGU, and KSTP. 73s all.

John C. Johnson - 625 Park Street - Sheridan, Wyoming 82801

Greetings, Gang. Not too much DX to report again. I did manage to pull in one new one. KABR-1420 Aberdeen, S.D. was heard on MM April 13 from 7:42 a.m. to 7:50 a.m. I got one veri since last report. This was from KDHN-1470 in Dimmit, Texas. I logged KDHN on an ET last February. This was my 34th veri from Texas. If any of you need a Wyo. station try for KIYO here in Sheridan. KIYO has been heard on freq. checks in New Zealand quite a few times. Also has been heard in New York. Another North Carolina station that can be heard, at least in Denver, is WKIX-850. John Tracy heard them this last DX season on a 5 am s/on. As for South Carolina, WESC-660 might be a good one. While in Denver for the convention last Sept. I heard them on a 5:30 am s/on. To continue with what I was talking about last week. Quite often AN stations leave the air for adjustments. I logged WKBW-1520 on a Friday morning at 2:30 am because KOMA left the air for adjustments. Of course, if you live in a city with a 50kw AN station this might "kill" adjacent channels. But they might and should have periods of silence once in a while. Enough of that, hi. I still think a domestic supremacy rating would go over OK. Probably should be rated by total veries since lots of people have heard the same amount of states. I have 420 U.S. veries, and 45 Canadian veries. I have heard and verified 37 states and 5 Canadian provinces. One last thing, you newer DXers might wonder how come some DXers have as many as 2000 veries. I do too. No, hi. They have been DXing for quite a number of years. I have been DXing for only 2 years, hi. That's going to be about all this time. I have lots of tips for you in Dave's column. 73s and the best of DX.

Bill Woodfield - 7318 Yorktown Drive - Norfolk, Virginia 23505

After reading DeWayne Bruce's musing in the 4/7 issue, I thought I'd better report before he started sticking pins in a voo-doo doll, hi. Changing the name NRCI to International Radio Club is a good idea and Dave Gleason's suggestion of having a supremacy rating for domestic DX is very good. The temperature here has been in the 70's and 80's for over a week now and noise increase and antenna trouble have held up what DX there is left this season on the BCB. I've started devoting a little more time to FM and TV DX, but still turn the dials over the BCB. Veries that dribbled in the past two weeks: v/c KAAV, WAVY, WMTN, WBAP, KYW; v/l KTAR, WGOV. Total now 158/115. DX (?): 3/27 WINT-690 5:01 pm; 3/31- WTAR-790 5:54pm, WBAP-820 10:34pm. 4/10 WAVY-1350 8:46pm; 4/20 WXYZ-1270 3:02am. 4/22--two additional veries today, v/l WXYZ, v/c WIBC, also received first FM verie WCOD-98.1-Richmond. 73's.

Eugene Shephard - 681 Quartz Way - Broomfield, Colorado 80020

It's been two weeks since the last issue but I don't have much added to my log. I have added five which were: KSUB-590, KRMG-740, CFRN-1260 (I think--I heard a Canadian at 4:15 but I didn't have a definite ID. I'll know that it was them if they verify), KREM-610, and CKCK-620. I have QSL's back from CBK-540, KDKA-1020, KGHF-1350, KEDA-740, KSUB-590. It was a pretty good two weeks for me in getting a verie from KDKA and hearing two Canadians and getting a verie from another one. I blew another fuse this week but did have some spares (lucky for me or else I would have missed KGGM). I wonder what the club will have for a name, hope it isn't the NRCI. We went for the Bull two weeks without any snow! We were having it almost every week--does anybody know if this helps reception? I'll leave it at this now and give the rest of you guys a chance to get your names in ink. 73's.

Terry Tyrone Steeden - 1919 Currie Lane - Amarillo, Texas 79107

Greetings from the place of the 50th BCB verie! My 50th from WREN-1250. GM, Max G. Walkenstien sent a very nice letter with station info. on it. This has been my first verie since 4/17, it's now the 23rd, and I still have 15 out. Last DX News was pretty shern (good), and the name changes are seemingly more appropriate now. Let us once again pause here and say a special thanks to the editors of this fine paper. The Editors don't really get the credit they should have, because of all the typing, correcting, and running off they do, takes a lot more time than you guys realize. So, let's all give them a real thanks of appreciation. Latest here has been 4/12--GBV, tape sent; KFJB, S-7, KOY, under San Antonio station; GBK, for 2nd Canadian; KRKD, KYW, WWL, and CKLN, for third Canadian. Never did have any luck getting and keeping a Canadian station long enough to get up a report and then WHAM, three of 'em. Dave Gleason, thanks for setting up the programs, and everyone will be listening, like me. Well, for now that's 30, and Viva la Voz del Istmo, hi!

+--+--+--+--+--+--+--+--+--+--+

This week member Jack Keene sent in a list of stations carrying Colt 45 baseball this season. In cases such lists may be of value to the summertime DXer trying to ID a station with BB by process of elimination. Just recently a baseball facts book found its way into Forum HQ and I discovered it listed the key stations for each major league team plus the sportscasters doing the games. Hopefully, the following info. will help you to log some stations this summer, so here it is. National League: Chicago-WGN (Quinlan-Boudreau); Cincinnati-WGKY (Hoyt); Houston-KPRC (Elston-Passe); Los Angeles-KFI (Scully-Doggett); Milwaukee-WEMP (Harmon); New York-WHN (Nelson-Murphy-Kiner); Philadelphia-WTFL (Saam-Ashburn-Campbell); St. Louis-KMOX (Caray-Buck); San Francisco-KSFO (Hodges-Simmons). American League: Baltimore-WBAL (Thompson); Boston-WHDH (Cowdy-Martin-Gleason); Chicago-WCFB (Elson-Hamilton); Cleveland-WERE (Dudley-Jones); Detroit-WJBK (Harwell-Scheffing); Los Angeles-KATC (Blattner-Wells); Minnesota-WTCN, (Carneal-Scott-Hall); New York-WCBS (Allen-Barber-Rizzuto-Coleman); and Washington-WTOP (Daniels-McLean). A tip for you newer members--oftentimes a station which normally signs off early may be forced to stay on late if the game they are carrying is on late (if it is being played on the West Coast or goes into extra innings.)

==*==*==*==*==*==*==*==*==*

Remember that our next bulletin will be dated May 19th, and the one after that will be dated June 16th, and then July 21st. Also, don't forget that starting with the June issue of "DX News" you should send your reports to me, Dallas John, at 337 South Stewart Avenue, Lombard, Illinois, 60148, and the deadline will be Saturday before pub. date.

Alex Bowab - Box 154 - Spring Hill College - Mobile, Alabama 36608

No significant DX doings here; finally finished building a loop that Dan Phillips got me started on last August, a 36" diameter job described in an old DXing Horizons. Really does wonders with transistor portables. Tinkering with it during the day enabled me to bring in at least one new station, KABE-1540 Westwego (New Orleans suburb), La., which I didn't even know was on the air. ID as "Kabe, Demand Radio." My 4/7 musing contains a blunder--I confused WPGA-550 Gainesville, Ga.'s calls w/those of WGGG-1230 Gainesville, Fla. Local W4OZ-960 had its license revoked; was to be off by 3/31, but they remained on with no interruption, so apparently they transferred ownership. I am really pleased to see the club off to such an overwhelmingly successful start--count on seeing many of you here for the convention. Based on responses received thus far, the clambake will probably be either Labor Day or the weekend immediately before L.D. Alabama and Mississippi have gone NRCI 100%; Dan Phillips, Park Barton, and I here in Ala., plus Mike McIlwain in our neighbor state to the west are all among the ranks of NRCI now. Park, Dan, and I will all be in summer school during the July 4 weekend; Park in Troy, Ala.; Dan in Cookeville, Tenn.; and I in Mobile, so that date is apparently impossible for the convention. Lastly, letters or tapes (3-3/4 or 7 1/2, half track) are welcomed, at the above address through May 27, and again from June 8 to July 20. Other times the address will be Box 359, Atmore, Alabama 36502. Regards.

Harold S. Williams - 50 Third Avenue - Seymour, Connecticut 06483

I like the new heading for this column. "Loggings" is as obsolete as the Horse and Buggy days, hi. The mail continues to be a problem, especially 3rd class. Deliveries from the Denver Terminal Annex have proved very irregular. The 3/31 issue arrive 4/9; the 4/7 issue on 4/20 and the 4/14 issue on 4/22. Ballot card returned same day. Just hope we get all straightened out, name, column headings, mail, etc. before the fall DX season starts. Each issue seems better than the one before and I keep noting that more and more familiar names appear each issue. Good work. Dallas, I will answer your letter soon. DX by dateline: 4/7 CKSL-1290 London, Ont. Formerly AN now s/off at 0130 and s/on at 0530 per station announcement. 4/9 KMAQ-1320 Maquoketa, Iowa T/FC 0145-0200 with a surprisingly strong signal. I've been trying for them for a long time. Iowa #51. 4/15 WTTT-1430 Amherst, Mass. heard for first time, now easy all day with the loop. 4/20 Surprised to log WISM-1480 Madison, Wisconsin 0150-0200 s/off almost in the clear. Usually WHOM messes up 1480. That's all the new loggings here. The DX mail bag: 4/7 What a pleasant surprise--a colorful QSL card and v/1 GBY-790 Corner Brook, Nfld. for report on Mine Disaster on 10/30/58. 3 f/ups, 2 pp cards, all to no avail. A letter to CBC HQ, Toronto brought luck, hi. They are now 990 but the verie specified 790, with apologies. That was #159 for 163 Canadian reports and #6 from Nfld. 4/15 QSL, Radio Americas, 1165, for 4/1 report. Much better than old v/1 from R. Swan. Some of you may need a correct address for reports (as I did). It is Radio Americas, P. O. Box 352, Miami 1, Florida. 4/17 v/1 WJGO-1510 Jackson, Michigan & v/1 WTTT-1430. That is it for this time. Come on, fellow members, support every column that you possibly can. Everybody gives, everybody benefits. Supremacy ratings, whether listed for foreign or domestic are ALWAYS interesting reading here. Let's KEEP that valuable item. Maybe a different name would be in order such as DX Honor Roll, or something along that line. Whatever the MAJORITY decides is ALWAYS OK with me. 73 for now.

These v/s wanted by the following:

- a= Dallas John
- b= Dave " son
- c= Ev. " "
- d= John C. " "

I guess only Johns & Johnson's miss getting the veries, hi.

Hank Holbrook - 7211 Chestnut Street - Chevy Chase, Maryland 20015

Not much DX to report this time around. Have tried my hand at some daylight DXing and have added a few to the log here. On April 5th added WVOB Bel Air, Md. 1520 kc/s at 1:00pm with a good signal. At 3:15pm logged WQVA Quantico, Va. on 1530 kc/s with some splash over from WDON on 1540 kc/s. On the 12th two more stations added. This was a Sunday AM and tried 1450 kc/s as local WOL does not sign on till 7:00am an hour later than usual. At 5:59am identified WENZ Highland Springs, Va. and at 6:00am WLZS Henderson, N.C. joined the jumble on 1450 kc/s. Held WENZ till 6:25 and WLZS was copied for about 5 minutes until it sunk in the mire of QRM under WENZ. A week later Sunday April 19th noted WNRG Grundy, Va. on 940 kc/s from 7:30 to 7:50am. On the 25th copied WCTR Chestertown, Md. on 1530 kc/s with severe side band splash over from WDON 1540 kc/s. Also WQVA on 1530 kc/s gave them a rough time. In 50 minutes time identified two advertisements and one musical selection. Here in the East at any rate the bcb has really become cluttered with stations. Such nearby stations as WEMD-1460, WSEE-1550, WFGM-1590 Va. and others have yet to make it. Used to feel daytime reception was bad back in the early 50s, but there was good DX to be had then. One of the best months for daylight DX was noted in December of 1952. The 13th of that month showed the following logged--CHOK Ont. at 9:45am on 1070 kc/s; WHYL Pa. 1380 at 11:00am; WVKO Ohio 1580 kc/s (channel now blocked by local) at 12:43pm. Then at 1:32pm in came WATH Ohio on 1540 kc/s (this frequency also now blocked by local). On the 18th had WQSC N.Y. on 1300 kc/s at 3:20pm (they sent a splendid letter verie). The next day, the 19th, we had WLEA N.Y. on 1480 kc/s at 2:37pm. At 3:21pm the log shows WCMV Ohio on 1060 kc/s; WXRA 1080 kc/s at 3:48pm. On 12/31/52 WKAR Mich. on 870 kc/s at 11:30 am and WAIT 820 kc/s at 12:30pm. On some of these channels DX like this is still possible, but the good old days are gone, hi! Anyway--good DX to all.

John R. Boase - Box 993 - Trona, California

Guess I better get a few lines in and let everybody know that I am proud to be a charter member of the NRCI. I sure like the new format. The name "DX News" stands right out and speaks for itself. The different colors for the different sections is a big improvement and the new feature on the front page of the March 31st issue is really something, guess I'll have to clean up the desk and take a picture. With these new features and big improvements it shows that the NRCI is BEST. Hope the NRCI will see fit to come to the West Coast in '65. As to DX it is nil. I was elected President of the local rock club this year and it is taking up all of my time. Only verie this season was from KOJH-1280 kc/s on F/O as per Larry's list. KOB covers 770 like a ton of bricks, they sign off and what's there? Yes! There it is! WABC with an S-9 signal and the Beatles. Oh well, Dakar did make it through for a few minutes last week so all is not hopeless. I checked out my aerial when I came home from Denver and found it laying on the ground, so just rolled it in and haven't gotten around to putting it back up, only have about a 100' or so of the lead in tied to a rock up on the mountain. A note of interest this morning while listening to KFI they read a Public Notice (?) over the air that KFI was asking for 750 kw. on 640 kc/s non-directional days and directional nites. Last year and again this year I try to listen to the Dodgers and there's a Cuban (CINHQ?) tearing them up. Try to listen to the good musical programs on KNBR and there's a Mexican tearing them up. Talk about luck, after many months I finally made a trip down below (Los Angeles, that is) and who comes knocking on the door? Ted V. That made me sick when I got home and out you had been here, Ted. Next weekend plan on going to Tonopah, Nev. and the following weekend will be going down below again. See you then, Ted. A couple more comments on DX News. The name "DX Forum" is much better than Musings. And "DX World Wide" is good. No matter what the name of the club is, NRCI or ----, the club can go nowhere but forward and up. Regarding DeWayne Bruce's note in the April 7 issue, yes, most of the reporters were from Colo. and the WEST. Us Westerners are an independent bunch, you don't tell us to shut up or get out and have nothing happen. Enough. We have an odd ball mail situation here, mail only comes in once a day, and DX NEWS comes in the Fri. mail (first class). Will be listening for Murray Mann (my beer drinking buddy) and KATI on the 27th, and will get the sandpaper out to sharpen up the ears for HOXO on the 7th. Well, this is 43 lines on my machine so I'd better say 30 or I'll be filling up the whole bulletin with these ramblings. (34 lines on mine, hi--no sweat, an extra line here anyway!--dj)

Bill Wilson - 1126 Alameda de las Pulgas - San Mateo, California 94402

New loggings this month are 4/11 locals KLOC-920 and KTOB-1490 both heard around at 6:41pm when at a Bay Area DXers meeting at San Leandro. Others at the gathering were NRCers Pete Taylor, Bob Peitsch, Bob Lalonde, Dave Prather, and host Rich Heald, NRCer Don Chittenden and NASA member John Arthur. All were shown recent copies of the NRCI DX News, and all were impressed. It warmed my cold little heart to see Dave drool over Ed's great 4/7 IDXD. Rich is joining this week and maybe Don too. 4/20 KBLE (ex-KNEX)-1050 ET 3:18am, said s/on would be 9:00; WYZE-1480 came in with clear @ 4:30; WRAD-1460 for only my second Va. station at 5:00 s/on; WLIK-1270 and W/GBA for a solid half hour starting at 5:09. Another station on 1270 was heard s/on at 5:04--SSB interrupted by the Fledge of Allegiance. Who? Another station was heard on f/c on 1450 ending at 2:45. Probably KIMX. No veries have come in with the exception of a v/q from KOIL-1290. CPC is coming along well now with ten fine members. But we can still use some experienced CPCmen, especially from the East and South. Write if you'd like to perform this fine service for your club, the NRCI. Best of DX.

John Sampson - 23 Terrence Terrace - Freehold, New Jersey 07728

Greetings again. Not too much activity lately, but more than before. Monday 4/6 found WNEB-1230 atop at 0500 s/on. They verified promptly with a very friendly letter. The next Monday, 4/13, set the tape recorder to 1340 kcs. and with a special tape that runs for 3½ hours. Managed to get a good log on AN ZBM-2 with many ads, and the sign-on of WNEH in New Bedford at 0558. The next day, after taking the early feeding session, heard WHZN-1300 at 0545 s/on. Had tried for this for the last year as WHHT, with no luck. Recent veries include WOND-1400, WJZZ-1460, NRU-1007, and LR3-950. Veries now total 349 with 33 countries (from Freehold). Like the idea of a name change for the club--it will probably net a few new members from out here. The "Letters to the Editor" column idea leaves me cold. The "Forum" seems perfectly adequate for whatever editorial comments (hopefully brief) are necessary. The rest of the bulletin looks real good, too. It will be interesting to see how many members vote. Also, when's the first membership list to be published? That's all for now. 73 and good DXing.

Dave Gleason - c/o Colegio Americana - Quito, Republica del Ecuador

Hi gang! First, I'll explain how I happen to be here instead of Guayaquil: Simply I couldn't, because of local laws, get into school there. So I am in Quito, 10,000 feet above the sea, in the Andes. Panagra managed to misroute my HQ-180, tape recorder, etc. and on the 27th I will be back in Guay. to retrieve them. Then to DX! New law in RR.EE. (abbreviation for Rep. of Ecuador) says all XITRs must be outside of city. Some stations with little \$ have left the air, while many have moved and increased power. Will have more info when I visit the Ministry of Public Works. I am trying to get a ham license, so look for phone patches, you all. Will visit HGJB soon to see about a DX next season. Also, HCDG1 will receive my visit...and I'll try to get veries. Looks as if I will be living north of downtown, part way up one of Quito's many hills...far from factories, stores, etc. Looks good for radio. Might put up a nice beveredge to the top of the hill...about 500 meters, and some 2000 feet above Quito, plus or minus. Well, 73 till I have DX to report.

Leonard Lockwood - 516 North Lilly Road - Olympia, Washington 98502

Time to report in again. 4/11 KSOP-1370 Salt Lake City, Utah s/on 0659. 4/18 KWFT-620 Wichita Falls, Texas heard on DX special from 0452-0500. 4/24 WHO-1040 Des Moines Iowa 0016½-0059, KALE-960 Richmond, Washington heard with BB for the Evergreen League with Tri-Cities playing Wenatchee from 0030-0100. 4/25 KGA-1510 Spokane, Wash. with the Spokane Indians whopping the Indianapolis Indians 2 to 1, hi Dave and GAT. Daylight time is now in effect in Washington and in some sections of Oregon but I'm not sure of what sections. Also in B.C. Now is the time to get those votes in. Vote as you please, but VOTE.

XXXXXXXXXXXXXXXXXXXXXXXXXXXXX
 Miscellaneous Miscellaneous

Pittsburgh and Kansas City were left out of the baseball list of netstations because these stations were not known at the time the book was published. Let's see how this correction fluid works--the three lines above were all done over. Curses! If I ever get through a stencil without an error, well.....

What's New In the NRCI?

We are proud to feature KSNO-1260 in Aspen, Colorado, as the NRCI Station of the Month. Chief Engineer John Tucker has prepared the enclosed printed brochures on the station to explain the operations there. Here's one last item of interest: KSNO will shortly begin rebuilding its ground system. Our Industry Advisor says, "Due to the fact there was up to five feet of snow on the building site during construction it was at the time impossible to bury the radials. During the time of rebuilding it will be necessary to operate KSNO with reduced power and with no knowledge of the actual output power of the station. Any DX reports received during this period will be sent not only our usual letter of verification but the letter will contain a personalized 'congratulations' from the station owner. This should be an 'extra points' letter for the files."

While you are sending in your proposed emblem and publication name, why not give us your ideas on some other important topics?

- a. What type of receiver do you use? (This info for the upcoming membership list)
- b. How do you think the proposed column of Domestic Supremacy Ratings should be organized?
- c. Do you prefer a v/s list, or a v/s wanted list?
- d. Do you want a "Letters to the Editor" column? What's a good name for it?
- e. Do you wish to tape correspond with other NRCI members? If so, tell us about your tape recorder with respect to speeds, tracks, etc.

The following information was received from Mr. Douglas B. Hirtle, Chief Engineer of CKBW in Bridgewater, Nova Scotia, but arrived too late to be included in the last issue. CKBW went on the air December 24, 1947, with 1000 watts on 1000 kcs., and increased power to 10,000 watts on August 10, 1962 (same frequency). The station is supplementary to the Canadian Broadcasting Corporation but is wholly owned by local shareholders. All transmitting equipment is ROA, and includes: (1) Main Transmitter BTA-10U, (2) Standby Transmitter BTA-11X, (3) Remotely controlled operation from studios, and (4) Three tower array oriented on a line running due East and West. CKBW protects primarily WCFL in Chicago. The staff includes 18 full time members and several part-timers. The station has a very attractive QSL card which will be sent to members who successfully heard the DX program on Monday, April 27. The actual time of the show was changed to 0300-0400 EST, but CKBW was on the air at the scheduled hour (0400-0500) with regular programing.

Ronald Schatz, Chairman of the Constitution Committee, is currently preparing a new document to be presented to the NRCI. All members should have a copy of the NRC Constitution and Bylaws adopted in December, and if any of you have noted errors or have suggested changes, send these to Ron soon. Both documents will be formally presented to the membership for ratification in the near future; where changes have been suggested, votes on individual articles will be conducted. Ron seeks the support of all NRCIers; his address is 8065 Crespi Blvd., Miami Beach, Fla., 33141.

CORRECTION! The power output of KATI-1400-Casper, Wyoming, was 250 w., not 1000 w., when NRCIer Murray Mann conducted the special NRCI DX show on April 27. Our error.

~~~~~  
We would like to acknowledge two generous contributions to the NRCI. Dave Gleason has donated a large sum to help pay for the new mimeograph machine, and Mike Worst has now made it possible for prospective members to receive sample bulletins free.

~~~~~  
An NRC member reports that KPOL-1540 in Los Angeles has been ordered by the FCC to leave the air by May 1. The charge was altering logs and making false statements.

IMPORTANT! When reporting to the NRCI bulletin, please use EST in all references to time. This will alleviate any possible confusion, regardless of where a member lives. Although many eastern states are on daylight time, please use EST. Thanks!

DeWayne E. Bruce - 2101 South Logan Street - Denver, Colorado 80210
 Greetings from the land of the greatest DXing ever! Well, now down to DX! 4/12 brought only one new one, KTAR-620; 4/13 brought CKRI-980; 4/15 brought 2 new ones, KYSN-1460, and KELI-1430. 4/16 was very profitable, as it brought KBOX-1480, KFVR-550, WMAX-570, KRAC-1270, KYVA-1230, KRDO-1240, KGYM-1220, and a real puzzler for Marv Robbins as well as for myself, Radio Havana on AM band right on or close to 950 kc. I did make a recording, but not a very good one! Perhaps a Cuban playing around w/his output, or else a freak from short-wave! Did anyone else hear them, especially you Texans? I sure would like to know. 4/17 brought KBUY-1010, KOAI-860, KRBC-1470, and KTFO-1250. Hurrah!! Finally logged KSNO-1260 on 4/18, which also brought KFDA-1440, KXOL-1360, and KYW-1100 after three days of exceptionally hard work to log them (KYW that is). 4/19 brought only one, which is, incidentally, my first from Sacramento, KXOA-1470. 4/20 brought KAPB-1370, KLOU-1580, and KOKA-1550. 4/22 brought KXXY-790 and KTNO-1470 for my first from Casper. 4/23 brought KGIN-1450 and KGHJ-790. 4/25 brought KFTL-1400, KLIB-1260, KHAS-1230, all 3 of these from Greely where I was visiting, and KOVO-960. 4/27 brought KIMA-1460 and KUBC-580 in real strong, exceptionally well for Yakima, and a tentative log on KNBE-1530 but am not sure. Does anyone know whether KNBE is now on the air? It's listed in the Jones Log as being a new station not yet on the air, but I thought that perhaps they had started broadcasting since the publication of Jones' Log. Veries were fair these past two weeks, but here they are: WLN sent a v/q, no signer, WKY sent a v/q, no signer, WAKY sent a v/q, signer is W. J. Morrison (this verifies all of the Ky. stations I've logged), KS00 sent a v/l, signer is Max E. Pierce, KGCX sent a v/q, no signer, KSTP sent a v/c, signer is F. L. Street, WRR sent a v/l, signer is Mrs. Billie Davis, KFNB sent a v/q, D. A. Simmons is the signer, XEMO sent a v/q, signer is D. Venturino, XEG sent a v/c, signer is Teofilo Bichara, KAMY sent a v/q, signer is F. McDonald, WFAA sent a v/q, P. Allman is signer, WGN sent a v/q, signer is G. W. Lang, XETRA sent a v/l, signer is Russ Porterfield, KIT sent a v/l, signer is H. B. Murphy, finally, KGNO sent a v/l, signer is S. R. Parks. Mailman wasn't too good these past weeks, hi. 73s and good DX!

Jim Simonds - 978 So. Pennsylvania St. - Denver, Colorado 80209

Greetings. My radio was out of service last week but I hope to be DXing again by the end of this week. The last 4 stations I logged were: CBX from Edmonton, Alberta, at 11:00pm EST on 4/11, then at 11:31pm I logged KDKA from Pittsburgh, next I logged CBW at 12:00 from Winnipeg, Manitoba. I didn't log anything after that until 4/18 at 9:02 am EST and that was KLMR from Lamar, Colorado. Since I started DXing on 3/17, I have logged 68 stations from 3 countries (USA, Mexico, and Canada). So far I have received veries from 17 states. (I got my first reports to foreign countries out today). The veries I received last week were: a v/q from KWGH in Shreveport, La., a v/l from WBBH in Chicago, a v/q from WSB in Atlanta, Ga., and a v/q from KNX in L. A., Calif. Well, I am going to s/off now so good DXing and 73!

F.C.C. CHANGES AND INFORMATION

from the Seabrooke Co. of Washington, D. C.

Heard since last listing by the F.C.C.:

- 810 WMTS Murfreesboro, Tennessee, now in operation on this frequency, ex-860
- 930 WHON Centreville, Indiana, now in operation with new station
- 940 WINE Brookfield, Connecticut, now in operation with new station
- 950 WKTS Sheboygan, Wisconsin, now in operation with changed DA pattern
- 1080 WMVR Sidney, Ohio, now in operation with new station
- 1170 KLOK San Jose, California, now in operation with higher nite power=5kw, DA
- 1480 WJLE Smithville, Tennessee, now in operation with new station
- 1540 KAHB Westwego, Louisiana, now in operation with new station
- 1550 KICS Hastings, Nebraska, now in operation with new station
- 1600 WPRV Wauchula, Florida, now in operation with new station

Call letters assigned: 1410 WVCB Shallotte, North Carolina

X=X

If anyone has suggestions for changing the proposed constitution and bylaws, please send them to Ron Schatz, 8065 Crespi Blvd., Miami Beach, Fla.

Last week on page 11 of the Forum we listed all of the Western states except for one omission--Wyoming. So, to complete the list, we will add it here. The best bet for logging a Wyoming station is to listen for KTYO-1410's regular frequency check-TT on the third Monday of every month from 0200 to 0220. Another Wyoming station that at times manages to make it back East is KROE-930, also Sheridan, which holds a frequency check with tone on the Second Saturday of each month from 0205-0220.

Also, a few tips on how to log the Eastern Canadian provinces, which were left out last week for lack of space. Newfoundland: About your best chance would be CBN-640 St. John's, 10000 watts, on AN FM. Only interference should come from South of the border. This station carries the CBC AN show, primarily music. Also, time in Newfoundland runs $1\frac{1}{2}$ hours ahead of EST. Nova Scotia: We certainly hope you were able to log GKBW's NRCI DX show, but if they didn't make it last FM, you might try at 0400 on any FM as they are usually on by then. CHNS-960 also is normally on at this time. Both stations often carry c&w type programming in the morning. New Brunswick: CBA-1070 seems to be the best bet, on AN FM with the CBC AN program. Also GKCW-1220 can be logged at times around 0415 on their non-D daytime pattern. Best time of year to try for these stations is in September and October or in May.

A hot flash: You will no longer be able to get a refund of your dues payment from the "governing body" of the NRC, since in the new "rules" sheet sent out to members now Rule 15 has been changed so that you must apply for a refund within 10 days of sending in your money, or you're out of luck.

Here is a list of the various radio logs that can be purchased to aid your DXing: The best all-around log for a domestic DXer is the Vane A. Jones Log, which is published yearly. It contains all stations in the Northern Hemisphere by call, frequency, and by state/province, etc. The log also gives listings for FM & TV stations. The price for this log is \$1.95 and it can be obtained at any electronics store which carries the Howard W. Sams Photofact Publications--its number is RSG2. Also, you can send the money to Vane Jones in Indianapolis, 2525 East 36th Street. Another log for domestic DXers is the Broadcasting Yearbook, obtainable by sending \$5.00 to Broadcasting Publications, Inc. at 1735 DeSales St., N.W., Washington, D.C. This log contains a listing of all Northern Hemisphere stations by frequency, by call, and by state; it also contains the personnel at each station, plus miscellaneous info. on each station. Also, it contains info such as the NAB codes, FCC regulations, lists of consulting engineers, and so on. Another log is the Radio Station Directory published by Television Digest, 911 13th Street, N.W., Washington 5, D.C. The price is \$7 but if seven DXers go together as some of us did in 1962, you can get it at the reduced rate of \$5 apiece. The log contains all N. Hemisphere stations by frequency, call, and state. It also contains station addresses (same as Broadcasting Yearbook) plus a list of all the construction permits applied for in the previous year. White's Log is a notoriously inaccurate log found in the backs of some Scientific Experimenter magazines for \$.75. We've heard lately that they're improved, but the log still doesn't list nighttime powers and leaves out new CPs. It consists of all NA stations by state, freq. & call. For the foreign DXer an excellent log is the World Radio & TV Handbook, published in Denmark and distributed in this country the Gilfer Associates, Box 239, Park Ridge, New Jersey. This log contains all the broadcasting stations of the world by countries, plus their skeds, QRAs, leading personnel, etc. It costs \$3.25 and is well worth it. Then, this fall will see the publishing of the SACCA Log, by Dave Gleason, on the NRCI mimeograph. The price has yet to be officially determined, but it will not be expensive, and the log will contain all stations of the Western Hemisphere. The PAL Log (Pan-Asian) may or may not be available yet for \$1 from the New Zealand Club, the New Zealand Radio DX League. The address there is P.O. Box 1356, Christchurch, N.Z.

With this week you are seeing the largest bulletin yet to be published here in Denver, so it's an opportune time to say to all you members

THANKS FOR THE SUPPORT!

- 605 HJKL Bogota, COLOMBIA, "R. Nueva Granada" noted on 4/11 with S 8-9 signal from 2310 to 2315. (ELK)
- 638 -MBS- Forest Side, MAURITUS. MBS is commercial now. Schedule is: Daily 2130-1330 (Sat. 1400). FF and EE from 2200-0530, 0930-1330 (Sat. 1400). News in FF at 2230, 0100, 0330, 1000, and 1230. News in EE at 2300 and 1300. (WRTH) (Believe this frequency should be 683 - ed)
- 650 7777 Mystery LA heard briefly over KORL on 3/23 at 0325 giving time as 0530. CX 6 no doubt ? (RFS)
- 655 YSS San Salvador, EL SALVADOR, "R. Nacional de El Salvador". A regular here nights at good level; about S 9 on my meter. (JLK)
- 670 ZYR 56 Sao Paulo, BRAZIL, "R. Excelsior". Heard past MM's after 0300 under HJNX. (RFS)
- ZYM 22 Aracaju, BRAZIL, "R. Difusora de Sergipe". Heard past MM's after 0300 under HJNX. (RFS)
- 690 CMBC Havana, CUBA, "R. Progreso" now seems to be AN NSP. Report sent for 4/20 reception in the clear. (BN)
- 700 2 NR Grafton, NSW, AUSTRALIA heard very strong 4/18 around 0630 after WLW fade out, // 770 and 830 with popular music and standards. (Saturday night there.) Power is 50 Kw. (LBG)
- JBC- Montego Bay, JAMAICA. A regular here at night in, over, around and through WLW until 0000 s/off. (JLK)
- 710 WKJB Mayaguez, PUERTO RICO. S/off MM at 0105 in EE. (RFS)
- 730 CX 10 Montevideo, URUGUAY, "Radio Ariel". Really blasting in on 3/23. CX 28 also loud then. (RFS)
- CMCA Havana, CUBA, "The Friendly Voice of Cuba". S/off program is "Moonlight Serenade". S/off in EE at 0100; said s/on was at 0630. (BN) Hrd. 4/11 at 0700 in EE. First program is called "Melodies of the Countryside". Report sent. (LBG)
- 737 Lourenco Marques, MOZAMBIQUE, "R. Clube de Mozambique". Schedule is: 2330 (Sun. 0015) to 1600. (WRTH)
- 760 WORA Mayaguez, PUERTO RICO. Heard at s/off 2200 with SSB u/ WJR 1 (DR)
- 764 Dakar, SENEGAL. Still a regular after 0100 s/on. So good sometimes it's hard to believe this station is really in Africa ! (JLK)
- 770 3 LO Melbourne, Vic., AUSTRALIA. Hrd. with strong signals 4/18 at 0630. (LBG)
- 776 -AFRTS- Ramey AFB, PUERTO RICO. Not exactly new, but I thought I'd crow a bit too about verifying this 50 watter. Puerto Rican # 19. (ELK)
- 799 Bonaire, NETHERLANDS ANTILLES. Relays of Radio Nederland programs over Trans-World Radio (500 Kw) are scheduled to begin on May 3. (WRTH)
- 820 TGTO Guatemala City, GUATEMALA, "R. Internacional". Often breaks up WFAA here at night. (JLK)
- 822 TIOS San Jose, COSTA RICA, "R. Titania". Easily separable from HJED after WFAA 0100 s/off. (JLK)
- 828 YNOL Managua, NICARAGUA, "Ondas del Luz". Nightly, but the pile on 830 gives a bit of trouble. (JLK)
- 830 3 GI Sale, Vic., AUSTRALIA. Heard weakly on 4/18 // 700 and 770 at 0645. Power is 10 Kw. (LBG)
- 834 -BHBS- Belize, BRITISH HONDURAS. Current schedule is: 0700-1030, 1300-1400, and 1730-2300 on Weekdays; 0700-1400 and 1730-2300 Sundays. (WRTH)
- 840 Castries, ST. LUCIA. S/off is at 2037 with GSQ. (RFS)
- 850 CX 16 Montevideo, URUGUAY. Heard s/on 4/12 at 0457 very strong. No ID heard, but announcer definitely specified Montevideo as location. Time given was EST plus 2 Hrs., Many commercials before 0501 fade out. WRTH lists slogan as "Radio Carve". Taped tentative sent. (LBG)
- HJKC Bogota, COLOMBIA, "Emisora Nuevo Mundo" is best here from 0000-0030 s/off, over and under KOA. (JLK)
- YNAV Managua, NICARAGUA, "R. Continental". No sweat after 0205 KOA s/off, and often under KOA before then. (JLK)
- ???? Someone here gave four rather off pitch time pips at 0500 on 4/12. Not ABC, who ? (LBG)

- 860 XEMO Tijuana, BCN, MEXICO. Runs nightly until 0300 with religious programming in EE. Now verifies. (BN)
- 870 KAIM Honolulu, HAWAII, S/off SM 4/13 at 0502 w/ fair signals. (LBG)
JOLB Fukuoka, JAPAN. Sent QSL card and personal letter to verify 3/1 report. QSL is the station's own, not the standard NHK card. Letter in EE was from the Transmitting Station Master (Name illegible). Affiliated with JOLK-610. (LBG)
- 881 -BBC- In answer to my recent question about the location of this station: "The main transmitter (100 Kw) is at Washford, Somerset - which is an English county. The other transmitters are located at Penmon, Towyne, and Wrexham. Penmon is on the island of Anglesey, which is a part of Wales, while Towyne and Wrexham are both in Wales. As these transmitters are always in parallel, it seems to me that you are hearing England and Wales." (KB) (Thanks Ken - ed)
- 890 Algiers, ALGERIA, "Alger II". Form letter in FF received from M. Bourkiche, La Chef de Division Ecoutes et Mesures, QRA as per 1964 WRTH. Station broadcasts in FF: Sunday 0200-1800; all other days 0130-0400, 0600-0930 and 1200-1800. (ELK)
- 966 XEIQ Ciudad Obregon, Sonora, MEXICO, "Radio I-Q" (ee-koo) logged 3/25 at 0120 behind ZFB 1. Smart station, hi ! (RFS)
- 965 HOF Panama, PANAMA, "Onda Popular". V/c received from Circuito RPC for 12/29 reception. Thanks Dave. (ELK)
- 980 Algiers, ALGERIA, "Alger I". Station broadcasts in Arabic. Schedule is: Monday & Thursday 0130-0430 and 0600-1930; all other days 0130-1930. Data direct from the RTA. (ELK)
- 1000 YNTS Managua, NICARAGUA, "Radio Mil". Must have increased power. Very strong evenings. (RFS)
- 1005 HRVP San Pedro Sula, HONDURAS, "Radio Norte". Not heard this season. Was very strong last season. (RFS)
- 4 VCPS Port-au-Prince, HAITI. Here from 990. Blasting in daily just before sundown with SS records. ID's with NBC chimes and "Radio Cacique, 4 VCPS ... Port-au-Prince ... emettant a mille cinque kilocycles." (RFS)
- 1015 YSC San Salvador, EL SALVADOR. Best El Salvador station here nightly. (JLK)
- 1020 2 KY Sydney, NSW, AUSTRALIA. Heard tentatively 4/18 from 0635-0655 in the clear after KDKA fade out. Announcer had Australian accent. Tentative report sent. (LBG)
- 1025 TIAC San Jose, COSTA RICA, "Radio Fides" is the best Costa Rican station here until s/off about 2315. (JLK)
- 1040 TGXA Guatemala City, GUATEMALA, "R. Centro Musical" still comes through in spite of WHO and the VOA at night. (JLK)
- 1088 Tirana, ALBANIA. Foreign Service in EE is scheduled at 1630-1700. French from 1230-1300 and 1530-1600. (WRTH)
- 1100 HJCN Bogota, COLOMBIA, "R. Reloj de Bogota" heard at 0124-0130 on 4/13. No HJAT. Mentioned (Mentioned ?) CARACOL. (ELK)
- 1170 CX 32 Montevideo, URUGUAY. Sent a friendly v/1 to verify report of 3/9. Slogan is "Radio Sur". QRA: YI 1383. V/s is Jose Luis E. Amoroso, Director-Administrador. Sent verie by registered mail. (LBG)
- 1210 JOOR Osaka, JAPAN. Probably the one here on 4/18 at 0642 with what sounded like a sports event. Language appeared oriental. Taped tentative sent. (LBG)
- 1232 HJFV Barranquilla, COLOMBIA, "La Voz del Litoral". Here from 1220. (RFS)
- 1259 Nova Lisboa, ANGOLA, "R. Clube de Huambo". Schedule is: Weekdays 0100-0200, 0600-0830 and 0930-1200. Program "B" 1200-1530 (Umbundo at 1200, Portugese at 1300); Sunday 0100-1200. Power is 1 Kw. (WRTH)
- 1322 USSR. A British friend reports reception of a Russian station with EE at 1730. Location unknown. (JLK)
- 1325 4 VW Port-au-Prince, HAITI, "Radio Haiti" noted s/off with NA at 2259. (ELK)
- 1331 Mocamedes, ANGOLA, "R. Clube de Mocamedes". Schedule is: Weekdays 0100-0400, 0600-0830 and 1230-1700; Sundays 0200-1500. EE to Southwest Africa on Sundays 0500-0600. Power is 1 Kw. (WRTH)
- 1336 ???? Mystery LA heard 3/23 at 0330 with continuous music. ID sounds like

- 1336 ???? (cont.) "Radio Canativa". (RFS)
- 1340 HIBZ San Juan de la Maguana, DOMINICAN REPUBLIC, "Radio Centro" heard only weakly on 3/30 DX. (RFS)
- ZBM 2 Hamilton, BERMUDA noted AN and dominant 4/14 with uninterrupted mx. (RFS)
- 1366 ???? Mystery station heard. Strong BFO on 4/4 at 0140. Can't log it - local WKAT here. (FRS)
- 1420 "Radio Libertad, La Voz Anti-Communita de America" has been heard here several times, in Puerto Rico, although announcing as 1400 Kc. Probably drifts considerably. (CMS)
- 1421 Algiers, ALGERIA, "Alger III". Station broadcasts in Kabyle. Schedule is 0130-0400, 0700-1000 and 1300-1800. (ELK)
- 1493 Gomel (?), USSR. A British friend reports reception of a Russian station at 1730 with EE. Location possibly Gomel. (JLK)
- 1500 Nova Lisboa, ANGOLA, "R. Clube de Huambo". Schedule is the same as the 1259 station, except substitute Program "A" 1200-1530 for Program "B". Power is 500 watts. (WRTH)
- 1519 "Radio Caroline", INTERNATIONAL WATERS. The new commercial "pirate" station has moved to this frequency according to ISWL, who lists their British address as: 54-62 Oxford Street, London W 1. Meanwhile, according to newspaper accounts this is very close to a channel used by pilot boats, so here we have some Utilities right on the BCB proper. Some real DX to be bagged here. (CMS) The ship this station is located on recently had its Panamanian registration cancelled. However, this action is ineffectual as long as the ship remains in international waters. The 763 ton ship has a 168' antenna and two 10 Kw transmitters. Coverage is said to be 100-150 miles and 15 million persons. Station is operated by 4 DJ's and 3 Engineers, besides the ships crew. Schedule is said to be 0100 to 1300. (BROADCASTING, April 20, 1964)
- 1540 ZNS Nassau, BAHAMA ISLANDS. Verified with nice letterhead for 11/21/60 report and f/up of 12/12/63. Best bet for this one is Sunday AM's when KXEL is off at 0600 s/on. Coutry # 30. (BN)
- 1570 ???? MEXICO. Unidentified station under (Over at times) XERF announcing as "La Casa Mariachi", and s/off at 2140. (BN)

Via Bill Nittler comes the following news from Lars Ryden, Smedvagen 12, Kallhall, SWEDEN: "... As I have done in the past, I shall be glad to help other NRCI members with identification of European stations as they report to DXWW. The NRCI members are invited to send their reports on the BCB stations of the Swedish Broadcasting Corporation. We do not have a QSL card for the home service so their reports will be verified by the card of Radio Sweden, i.e. our International Service on shortwave. However, if the reports are sent to me, i.e. Lars Ryden, DX-editor, Radio Sweden, Box 955, Stockholm 1, Sweden, I shall take personal care of the reports and apart from the QSL card, I shall send a verification letter and some printed information on
