

INTERNATIONAL RADIO CLUB
OF AMERICA

PUBLISHED BY THE IRCA, POB 112,
ENGLEWOOD, COLO. 80110

VOLUME 10 NUMBER 4
ENGLEWOOD, COLORADO APRIL 27, 1965

NEW MEMBERS!!!

- 1372. Lance Clayton Miller, 8895 H alsted St., San Diego, Calif. 92123
- 1373. Michael D. Razor, Rt. 3, Box 894, Burlington, Wisconsin 53105
- 1374. Joseph Schmidt, 790 Graisbury Ave., Haddonfield, N.J. 08033
- 1375. Gary Scholl, 1272 3rd Ave. E., Owen Sound, Ontario
- 1376. Jerome Walsh, 368 16th St. E., Owen Sound, Ontario
- 1377. Del Green, 3098 So. 1730 E., Salt Lake City, Utah 84106
- 1378. Lee Staley, 1326 Windsor Road, Cardiff-by-the-sea, California

RENEWALS

- 1. Ken Austin, Toronto, Ontario Col. Harry Leon, San Diego, Calif.
- 3. Wayne Coombs, Jr., Bountiful, Utah

CHARTER MEMBERS

- 1. James Harris, Jr., Bill Lipis Col. Harry Leon Ken Austin
- Now that we are monthly in publication, undoubtedly time will be found to get the certificates printed and in the mail soon.....bear with us a little longer!

NEW CLUB ADDRESS

PLEASE USE THIS ADDRESS FOR ALL CLUB CORRESPONDENCE...ALSO IN PROMOTING THE CLUB AMONGST PROSPECTIVE MEMBERS. THE TERMINAL ANNEX BOX WILL BE PHASED OUT SOON. MAIL SERVICE SEEMS TO BE VERY GOOD IN ENGLEWOOD WITH AIR MAIL BEING RECEIVED IN LESS THAN A DAY. ED KREJNY'S STENCILS MAILED SATURDAY NIGHT WERE IN BY SUNDAY NOON! SO, PLEASE REMEMBER TO USE POB 112, ENGLEWOOD, COLORADO 80110 FROM NOW ON.

BULLETIN SCHEDULE

The DX MONITOR will be published on the following dates for the summer: May 19th, June 15th, July 20th, and August 17th. The fall schedule will be announced later. Be sure to listen during the summer and report what is being heard to the Monitor. Deadlines are the Friday before publication for all but Dave Johnson's column.

EDITORS

- DXM: Ed Krejny, 6538 Belmeadow Drive, Middleburg Heights, Ohio 44130
- DTI: Dave Johnson, 8263 E. Mansfield Ave., Denver, Colorado 80237
- DX Forum (West): Don Erickson, POB 476, Sunnymead, Calif. 92388
- DX Forum (East): Park Barton, POB 43, Troy, Alabama, 36081

FCC CHANGES

- Delete: WBZY-910 Torrington, Conn. Delete: WRTH-1250 Pahokee, Florida
- Delete: WIZI Hazleton, Pa.
- Power increase: WNSH-1340 Valparaiso, Fla. & KJCF-1400 Postus, Mo. to 1kw Day/250W
- WTUG-790 increase power to 1 kw. from 500w. WAFS-1570 granted non-directional days.

LOOP ANTENNA PLANS

The spiral loop antenna plans are still available from HQ for a SASE. Prompt return will be given to you as we now have a new access to reproducing them.

DST

Daylight Savings Time is now in effect in many areas of the country. However, times used in DX MONITOR should remain EST. This will give us a better standard of reporting since some areas don't change. Colorado is also on DST for the first time.

FRENCH REPORT FORM

Included with this bulletin is the French portion of a new IRCA French report form prepared by Larry Snouffer of Northampton, Ohio. The English translation will follow in the May issue of the Monitor. Our thanks to Larry for all his work on the form. It is not meant to be a 100% accurate report of the hobby, but to give a rough idea of what is going on.

"DOMESTIC TIP INDEX"

April 27, 1965

The following states will not be on DST: Alabama, Alaska, Arizona, Arkansas, Florida, Georgia, Hawaii, Kansas, Louisiana, Mississippi, Nebraska, North Carolina, North Dakota, Oklahoma, South Carolina, South Dakota, Tennessee, Texas, Utah, and Wyoming. Remember to use EST when reporting to all parts of DX Monitor.

Quite a bit was cut this time, because the times were for daytime stations, and applied only to April. When reporting information for daytimers, try to get it in towards the first of the month. Since the Monitor will be monthly the next four months, this will not apply, but when it is weekly, please try to do this. The next deadline here will be May 17.

Mike Shannon, 316 South Court, Appleton, Wisconsin, 54912

No DX this week, but I thought I might write a little about a subject that fascinates me: radio's history, I've picked up a lot of info on this topic f/old Popular Science Mags my dad bought in the late 20's and the 30's. A big article in the 6/'35 issue about WLW, which at the time had 500,000 watts power. All metal objects near thr xr picked up the programs-apliers held near the gate around the tower draws a spark f/the metal fence, and the programming can be hrd 15 ft away! There's also mention of WKBN in the article-seems some homing pigeons released in the area when WKBN was on couldn't find their way, but at night when they were off, everything was fine. Another interesting atticlo is in the 6/'38 Radio News-"New FCC B.C. Allocations". Many of the calls in the list are familiar but those that aren't so familiar are interesting, too. On 770 was to be WJZ, WEV, WBAL, KXII, 890 had WENR and WLS. 1000 WCFL, KJR. 1030 had WBZ and WBZA-maybe the WMMG pople saw this issue, hi! 1200 had WCAJ, KOB, WDCY, WINS & WMAZ. By far the most interesting magazine of all was the 6/'22 PS-fully $\frac{1}{2}$ the articles and ads pertain to radio. Jack Binns had a column, "On the Crest of the Radio Wave". A full-page ad for "Conn Radio Concerts, from Ocean to Ocean!", telling about the third of Conn Instruments' national series of radio concerts. Ads for Grebe Radio, Home Radio Apparatus, Magnavox and others. Seems as if LeRoy Ackerman shares my avid interest in radio history. If anyone knows any books or magazines that have articles on this, pse let me know. If other people find this sort of thing interesting, I'd be glad to write an article on it to be included in DXM. With summer coming up, it's time for us to take a good hard look at our club and its bulletin, and see what improvements can be made. High on my list of improvements is a column that anyone could contribute to, covering all sorts of various info about radio-an article on radio history could appear in it. There are too many topics of general use and interest that don't fit into the 3 present columns-this fourth column would really round out DX Monitor and set it apart from other DX club's publications. The IACA should be a club that has something for every BCB DXer-let's not be too strict about choking off everything that isn't DX. 73 from the midwest, home of the 1966 IACA Convention!

David Scholz, WPE2MUG, 24 Myrtle Ave., Allendale, N.J. 07401

Hi gang! It's been about 4 weeks since I last reported, so, here I am. I haven't done too much DXing at all in the last month because school and other activities have been taking my time. On 4/10 I finally got around to turning the radio on and doing some serious listening: logged were: WMAQ @ 670, KBAT @ 680, WJR @ 760, WABC @ 770, WHAS @ 840, and WKER @ 1500. Some of these are RL. Veries f/WOAI @ 1200 and KDKA @ 1020. For the last few days it has rained here in Allendale with 40mph winds, so a few fun things have happened-mainly my big longwire(150') which is (or,was) stretched between 2 trees in my back yard came down last night on top of the E-W antenna-what a mess! Not enough slack, I guess. That's about all for now, 73. (David, pse double space ur reports-it really saves me alot of time-pb)

Tom Peary, 2300 14 Street, Tuscaloosa, Ala. 35401

Hello again. JACK KEEN E, tnx for filter circuit. Hi Ron, WPE5OMI. Latest DX-WFAA-820 w/v/q. KOMA 2 hr. tape didn't reach destination-back in mail. In last 4UM I thought SC meant swap card...hi. In last 4UM tape speed is not 1 7/9 or 1 7/8 but $7\frac{1}{2}$ ips. CB call is KDO-4475-V1, as SWL I'm "The Ear Drum." I have homebrew CB -SWL card and will swap w/anyone. Hey! (grass is cheaper) Do any of you IACAers have plans for a 100 mw xmtr? How 'bout rx? Pse send by mail...tnx. DX totals so far v/h 2/4-all stn-Ws-FIA, CKY, TBC,- XEs-G. Thats it for now. 73's, '1's, Gd DX, Etc. Etc., and etc.

Albert Rodland, Jr., 416 Claremont Ave., Kenmore, N.Y. 14223

Hello all. here are my new loggings starting with March 6. 3/6 XEQ-940 0155, HJED-820 0230 3/8 CMCA-830 0030 in EE. 3/15- WGGT-920 0415, w/special test. WSVL-550 0530 for stn #400, WHWB-1000 0559 s/on, WNOE-1060 1900 u/WRCV. 3/21 ZFB-1-960 0445, WSAU-550 0502, WJZ-970 0600 s/on, KNEA-970 0602 s/on. 3/27 WKY-930 0114 in quite clear. 3/28 KALC-970 0210, WOSU-820 1745. 4/3 WWJC-1270 0130 (Its strange that I didn't hear their DX test of Dec.21) WAVZ-1300 0150. (Sounded like WABC), WFIL-560 0545. 4/5 CJNR-730 0007 s/off. 4/10 CJCA-930 0200 for my furthest northern logging. I had no time to send report though. 4/14 WS00-1230 0100 (sounded like s short test after signoff), KDTH-1370 0110 w/ what was called a regularly scheduled freq. check (Came in quite clear, but no time to send report). My nicest recent verie is from KNEA. Harold L. Baker the CE said "We appreciate very much hearing from you in that I don't believe we have received a report of reception from the state of New York, that is in the past ten years". He did say, however, that KNEA was hrd at about the same time in Schuylkill Haven, Pa.(another IACAer?) Also on 2/9 I received either CBN-640 or CFCY-630 f/0300-0500 w/ a CBC program. I picked up signal when KFI signed off. @ 0500 KXOK signed on which put me in doubt as to which stn I was listening to. I wrote both, and each verified. CFCY said, however, that they had the exact same programming I described.

Hugh Ducklow, 322 South Court, Appleton, Wisconsin, 54912 WRB9GZN
 (3/15) Hi! Easter vacation all this week (12-16) so lots of time to catch up on letters, tpaos, and mem-com work, and even some time to DX. Except that ex here are steadily de-proving, hi. Lots of QRN, and even WBZ and WOKY after sss are bad. A couple of new logging though. 4/1: WPDR-1350 @ 1719, a real DX w/a whole 80 miles to come. 4/2: WISN-1130. I guess that here I should state my logging policy. If a stn changes power and/or freq. it is comin in u/a new set of cx, so I log it as a new stn. But if it only changes the call like WYNR? WNUS I make a note of it, but don't count it. There. 4/4 CKCY-920 @ 1849 u/WOKY. V/1 in f/ WRBC for Nov. rpt. Totals 403/134. I'm making a "36" Cubical Beam "antenna" or in laymens terms, a 3 ft by 1 inch piece of wood w/500 ft of #36 wire on it, and it can be beamed! So far I've wound about 1 inch down the stick, and it's taken 30 minutes to do it! Hope it works. Henry Werheim: WFLI veries w/ v/q, WIRL, WRBC, WIP w/ v/1. MY EI Stateside Special Award came, and I see lots of IRCAs in the last PE awards section. About IRCA stationary: How about taking the 'International Radio Club off the outside of the emblem, and just leaving it on the line to the right? Not really any sense in habing it both places. That's all. SD'65 and GET THAT lbj STICKER OUT OF HQ!!!! OR GIVE US FEW GOP'ERS EQUAL TIME!!!! Milwaukee Braves Network-WTMJ-620, WGOR-910, WTCH-960 & WSAU-550.

John Day, 1300 Angels St., Key West, Florida 33040

Let's see. To add to last rpt. small huh, I have a Crown TR24 receiver. Hope to get a Hallicrafters soon. A few days ago I received my WPE cards and sent cards out to those who sent me one. Probably, if I get the time, I will send cards to other members of the club. Lately I have not listened to the BCB much. I have been tuning SW bands. Rat, huh. But yesterday I got on back on the BCB and logged these few stns in about 30 min.: WACO, Waco Tex. 1460; WMPS Memphis, Tenn., 680; WFBM 1260 Indianapolis, Ind. maybe I will get the urge to do more BCB DXing. This maybe be termed stupid but how about a SW part of IRCA. Probably will get a lot of cards about that one. Well thats about all. So 73's till next time from the middle of nowhere, Key West, Hi.

Robert Braun, 18 Winona Ct., Appleton, Wis. 54912

Hi all! Sorry I didn't make the 4/13 issue, just didn't have anything to say. The 4/6 DX MONITOR arrived today, late again as usual, I'm missing pages one & two of DXF in 4/6 Mon. cansomeone remedy this? Tom Jasinski U mentioned a passive booster (3/31) could U send me the schematic? DX- 4/3 WBCK-930, 4/7 CKCY-920, 4/10 WCMB-1460 @ 0115, 4/14 KHMO-1070 @ 2030 Veri's include WWVA & WSLR-my first DX Special. Sent veri to KNIN 3/24 and not back yet. Do they verify? Hi. (Did a few yrs ago, give them time-pb). Anyone, How far west did WSLR get? John Baldwin-I have a question. Is it possible to hook up an S-meter to an rx that has a tuning eye? If so, mention it in DXF and I'll send U the info thats needed. 73 for now.

Harold S. Williams, 50 Thrid Ave., Seymour, Conn.-06483

Very little new DX has been logged here since my last Forum rpt due to HNL and serious trouble with my hearing. By datoline: 3/27 WCCF-1580 Punta Gorda, Fla. T/FC 0530-0545; 3/29 WRKL-910 New City, N.Y. on a Sun. A.M. using the loop to null WACH, semi-local, good for 15 min., then faded; 3/29 Tried 565 for HGRM-1 but though something was there I could not ID; Umm WFTC-960 was well hrd bu no rpt as verified years ago; 4/5 Tried hard for CB-19 1000, La Paz, Bolivia, but no luck, Hi! A few veries rec'd as follows: WIVE-1430, Ashland, Va. for # 92 from that State, v/1 WIKX-1320 Superior, Wis. on a very nice letterhead; WHVW-950 Hyde Park, N.Y. for # 150 from N.Y. State. and last, but not least a PP card from WSEM-1500 Conaldsonville, Ga. after 4th rpt over a 15 month period for # 91 from Ga. In the 4/13 Monitor I note that the IRCA lists membership as 371, but with 14 listed as beingdropped and the loss of one member by death, my very good friend Ted Vasilopoulos, I see no point in printing numbers lke "371" when the actual number is at least 15 less than that number. Just one man's opinion, Hi. It is also confusing to see a Richmond, Va. report listed with the WC DX Forum and Colorado with the Eastern DXF. Probably caused by the reporter sending to the wrong editor. As time goes on, this probably will correct itself. 73, and remember there is some GOOD DX even in the summer.

Jim Foley, 5121 N. Berkeley Blvd., Milwaukee, Wisconsin 53217

Nice meeting fellow Milwaukee area members at the 4/17 tour of WRIT. WRIT has a 3/C 3rd. MM, 0315-0330 w/TT. The CE would be happy to hold a DX-test for IRCA. How could I get more info on arrangin and holding a DX Special? New veries: CF/M for DX v/q & KQAAQ v/1. Latest DX: 4/6 WMAD-1550 1337, WAAF-950 1531, WKBZ-850 1840; 4/11 SM, NOISE, no DX; 4/16 CBK-540 0500, WJJD-1160 1514; 4/18 WVA-1140 0448, WSGN-610 0513, WJAZ-960 0521; CBM-940 0355, KLIF-1190 0450, WOWO-1190 s/on 0500, KALB-580 0542. Rpts out to CBK, EJJD, WVA, CBM, KLIF & KALB. Midwest (not Miami) in '66! 73!

Jan Stetson, 3081 Brown Rd., Albion, N.Y., 14411

Hi to all! Tnx for WPE cards. DX as of 3/1. 3/1 KSOO-1140 0630-0700. 3/7 WDEL-1150 2300, WLIB. 4/7 WFEA-1370 1900. 4/1 P.M. CKCH-970, CKGM-980, CJBR-900, CKTR-1150, CKRB-1460. All but CKCH, CKGM, KSOO WLIB, relogs. Other relogs are 4/4 afternoon CPDS-560, WSYR-570, CFRA-580, CKEY-590, CKTB-610, WHEN-620, CFCC-630, CBF-690, CJSP-710, CBL-740, CKSO-790, CKCW, JJBQ-800, CKLY-910, CKNX-920, WBEN-930, CKWS-960, CHEX-980, CHUM-1050, CHWO-1250, CFGM-1310, CHOU-1350, CKPC-1380, CKPT-1420, CKFH-1430, CFJR-1450, CHOW-1470, CHFI-1540, CFOR-1570, CJRN-1600, WGU4-1240, WBTA-1490, WNNY-790, WHCU-870, WNEW, WCAR-1130, WCAU-1210, WWTN-1260. Most locals Semi locals. Veries since last report-WFEA card for 3rd report, Radio Belize card, 4VEH letter sked card stamps ruler. My RX is Zenith 3 bander (540-18 meg) 1935 circa 14 tubes. What say all us IRCAers who can't make it to SD have a gathering in NYC, Buffalo or Rochester this summer(any comments?) Got f/c list. Info on what kind of info to send to a station. Very helpful(Joie, Where art thou?) Oh, best of Happy Birthday to all on 1 year of the greatest BCB Club in the world! Don & Park, you do a great job, Bill N. & memcom guys too! Bye for this week. 73's Gud DX.

EVERYONE. PLEASE DOUBLE SPACE YOUR REPORTS-USE EASTERN STANDARD TIME-PLEASE

Mike Hunter, WPE4LJW, 1703 Westwood Ave., Richmond, Va. 23227

HIYA! Glad to see new DXF editor on EC cause my report never made deadline at Sunnymead. Veries this week; v/q WSLR for DX Spl., WTVN w/a cm. Form f/WOSU after 2nd report. Got a reject 1st time for a 10 min. rpt. Got folder, religious pamphlet, and program schedule f/PJB. V/s is Mrs. Kathy Moyer. Tnxed me for Int. Reply Coupons. Took 3 wks, 5 days. DX is getting worse. 4/1 WBMD-750 1631; WCPS-760 1645; KXOK-630 1919. 4/4 WPHB-1260 1806. 4/6 WAPE 690 1811; WGBS-710 1822. 4/7 WDNC-620 1831. What's with acting CE v/s on WSLR card? WRGM-15. 10kw tests every 3rd Month on MM. Nxt DX over Easter holidays. If I sent lists of NBC, ABC, and CBS stations to either Park or DEE would either one of you think it would be a good idea to put them in a DX MONITOR as a spl? I would like to swap SC's. I have WDET, WLEE, WMBG. That's all. 73. (Don't think this would be of any help to anyone, Mike, as most logs lists the station's network affiliation. What does everybody else think???-pb)

Steve Okino, 4410 Little York Rd., Dayton 14, Ohio 45414

This is my first report to the Forum, so let me introduce myself. I'm a freshman a Vandalia-Butler High and have been DXing for only about three months. Conditions here are pretty poor because of hills on all four sides. In spite of these horrible conditions, I've managed to log, in the last few months, KLRA--1010 on 2/23 @ 2134, WIND @ 1701, on 2/24, WCCO @ 2000, WWL @ 2230, and numerous other catches. DX lately has been hold down by mid-term exams, but did managed to catch CHUM-4/7 @2120 with heavy QRM, and on 4/9 found R. Americas u/one of Castro's jammers. This one is on tape, but where do I send it?(See Ron Schatz' 4UM a couple of wks ago-pb) Veries include WILS, WCCO, WIND, CKLW, WLAC, WLAP, CFOR, CBL, CJCB, & WHAM. Reports out to KXEL (Do they verify?) ((Yes-give them five months!!!-pb)), WJIM, WGAR, CHUM, WBAL. Tnx Bill Lipis, Mike Worst for WPE calls-as soon as Poptronics sends me mine, I'll swap 100%. I also collect SC's-send them along. DAVE GLEASON-#s is at HQ for SACC if they will be available. Where can I get info on bootleg stations? 73 for now.

Curt Fredrikson, 3300 W. 57th St., Chicago, Illinois 60629

"Official communication #2 f/WPE9GPZ t/DXF. Tnx for cards f/WPE9GOI, KL7PELL/7, WPE8IFB, & WPE9fmv. As for my card-swapping policies, I do swap.BUT..if I am buried under an avalanche of cards I may not be able to afford to answer them all(the word is tightwad, not tightwas) Since I am not interested in enemies I am making one request: If you wish to swap with me, please be an IRCAer of the fairer sex(no hi). John Buono, if you were refering to IRCA insignia stamps, count me in. Editor, what the heck is an SC? (A record survey-pb) Just put a wire in my room which is about 15' square. Brings things up about an S-unit or 2. Got v/q s f/CFOR & WBAP (Texas-sized-9" x 6"). DX since last report: 3/14 R. Americas-1165 fair @ 2055 w/SS news, WLW-700 @ 2146, CBF-690 @ 2200, PJB-800 @ 2230. 3/16 WHAM-1180 @ 2127, KMOX-1120 @ 2209, 3/17 WQWO-1190 @ 1900, 3/20 CBL-740 @ 2212, CJBC-860 @ 2217, WCCO-830 @ 2312(reported 3/27 WGY-810 @ 2315, KQA-850 @ 2327, KDKA-1020 @ 2344, 3/29 WCAU01210 @ 2200, WVON-1450 @ 2219, WLAC-630 @ 2157 nip & tuck w/KXOK, 3/30 WCKY-1530 @ 2111 & WMAQ @ 2120. Operation "ax the battery" went well. The battery died of exhaustion a few days ago. I see that I have 362 members to surrender the rest of the blue to this time, so you'd better grab it before I add a 50,000,000 line P.S. 73. Midwest in '66, '68, '70,...

Rick Jemison, 381 Warrington Rd., Des Plaines, Ill., 60016 WPE9HLZ

Greetings from the city of Destiney. There hasn't been much DX lately. The other nite (4/1) we had a pretty bad storm and the wind took down most of my antennas so there was no DX 4/1 MM. Reports are out to KOAM-860, WABC-770, KLCN-910, WKOW-1070, and WISN-1130. Latest veries in are KDKL, WFOX, WJOL(State #27) and KSD. Well thats it for now so 73's and the best of DX

Mike Levintow, 8304 Loring Drive, Bethesda 34, Maryland

Hi, fellow DX'ers. To introduce myself I will say that I am 15 years old and a junior at Wal Whitman High School in Bethesda, Md. I have been DXing for about a year now, using 2 hi-fi sets, a 10 transistor radio, and presently a knight-kit R100-A for receivers. I'm indebted to Steve Russell, who got me interested in the IRCA, and Rick Jorgenson, an area DXer who sold me the R100-A, for much of what I have been able to accomplish in the way of DXing. The R100-A has an outside antenna about 90 ft. long and 20 ft. above ground. However, I still need a loop, which I hope to build this summer. My verie collection consists of the following: WDXR-1560 12/23/64 @ 2105, WGTO-540 12/6/64 @ 1730, WCPC-940 1/12/65 @ 1805, WBIR-1240 1/18/64 f/c @ 0340, WVOK-690 12/8/64 @ 1745, WBAM-740 12/13/64 @ 1740, WDLF-610 1/11/65 @ 0235, WKOP-1360 DX Special, KPMO-1560 2/7/65 @ 0200, KFBK-1530 12/7/64 @ 0306, KGBS-1020 3/18/65 @ 0340, KQA-850 2/20/65 @ 0130, KSOO-1140 12/7/64 @ 0230, apparently TT, w/engineering info. sheet, KWKH-1130 2/2/65 @ 1855, KCMO-810 (lost time although it is hrd regularly around here at SSS w/heavy QRM f/WGY), KFI-640 12/23/64 @ 0315, my first verie and the only one w/stamp, KWL-1530 3/15/65 @ 0120 f/c, nice personal letter w/coverage map, KEEN-1370 12/26/64 freak reception and considered my best verie, @ 2125, KOMA-1520 12/7/64 @ 0300 s/off, WHWB-1000 3/8/65 @ 1755, KWK-1380 3/4/65 @ 0304. I hrd that this stn had lost its license because of a fake treasure hunt it conducted a few years back, so apparently they verified after they lost their liscense, KOB-770 1/11/65 @ 0205, KSGM-980 2/22/65 @ 0102 f/c, KVOO-1170 1/19/65 @ 1845, KRLD-1080 (hrd regularly) WAPZ-690 12/27/64 @ 1700, KSTP-1500 12/13/64 @ 0230, WINZ-940 3/4/65 when GBM was off, WDXN-540 3/23/65 @ 1900, PP, VOA-1180 12/13/64 @ 0200, KILQ-1440 3/21/65 @ 0206 f/c, and WSAO-1550 2/26/65 @ 0217 f/c. Rpts out to KRMG, KBOA, KONO, WOOD, KOAM, KARK, KSO, WHHY, WSEM, KCLT, KWIK, WAAV, WSMA, WBOL, and WHWJ. Also definitely hrd but not reported: WOW, WSGN, WTMJ, KGO, KPOK, WBNB, KLRA, KAAV, KLAB, KSEM, WCCS, WKGN, KOIL, WLAM, and WSVL, KGBT. Tentatively logged: KTAR, WHB, KTRH, KIOA, WIVI, KOMO, WCIL, KNX, KFQD, KGBT, KOMA, KEX, KWIK, and KGA. I have definitely logged 42 states, w/46 including tentatives. Also 8 Canadian provinces and the following TX DX: BBC-647, Senegal-764, VOA-1196, RTF-1205, R. Caroline North-1520, and BBC-881. 73's n

Russell Ply, 41 Beekman St., Bloomfield, N.J. 07003

Member #300 again. DX is LCUSY, but her goes: 3/31 WPVL-1460 @ 0045 TT o/WBNS. 4/2 WGOB-1590 @ 0042 TT; now stn in Richmond, Va. 4/3 WBRN-1460 @ 0224 r/c o/WBNS w/vry gud sig. 4/9 WAWK-1570 @ 0115 came in o/everything on 1570 w/any kind of signal. They t in code, also, and that is what caught my attention. To Ed Krajny, if you live at your present address, who lives at 12904 Ferris Ave. in Cleveland. Sure would like to know for sure when the Members list will come out. Mas anyone gotten a verie from WIDD yet? Bob Astmann, in Mar. 23 issue you said you have a log of 200, and have 32 stations from Ala. verified. Is this correct? Veries in f/WKID, WAGL in the form of letters. KLVL sends a copy letter, saying that most DXers reporting were f/the East. To Bob Millner: Pse thank your school's BB team for beating East Orange, enabling Bloomfield to tie for 1st place in the Big 10. If you West-erners ever hear s sign on at 0500 on MM, and the talking turns to SS, it may be WBNX in NYC. W3VD in NYC is sometimes SS, but WBNX is all SS although they s/on and off w/EE. I wonder if Don Eggert is typing his report amidst a pile of rubble. Hi. I wonder if any of our members actually were in the tornadoes that ripped throught the Mid-West? Did anyone notice DX being different because of the storms? What stns were knocked out of operation? 73 til next time.

Joe Johnston, WPE3FDN, 4834 Old York Rd., Philadelphia, Pa. 19141

Hi everyone, I'll keep it short, but this is first report fo DXF and I'm a new member...I saw Roy Ackerman's questions on different stns and think I can answer one of them. WFAA is in Dallas, Tex. and operates on 820 kcs. half-time an NBC affiliate, and half-time on 570 as ABC affiliate, 570 is 5kw and 820 is 50kw; WBAP Fort Worth is half time on 570 and half time on 820, to sum up when WFAA is on 820 as NBC, WBAP is on 570 as ABC, and when WFAA is on 570 ABC WBAP is on 820 NBC, the two stns are owned by the same people and just simply change calls at a certain time (WFAA will just change to WBAP at a time but program source is the same...I hope that clears that for everyone. I don't have any DX since my work as WMRC Exec. Editor has kept me pretty busy. I swap SWL cards and SC's...for now good luck and 73.....Joe. (Welcome to DXF, Joe, and let's hear a lot more from you.pb)

Bertram A. Podall, Apt. 512, 141-05 Pershing Cresent, Jamaica, N.Y. 11435

No DX here, hrd WGUS mention my name over the air as one of the more distant listners' but no card after 6 weeks. Card rec'd f/4VEH, Haiti. Correction accepted on my last letter, CMHQ is 630 and CMQ is 640. After checking, I find BOTH are coming in here. I have a couple of old QSLs (not to me) but one is a letter f/1916 and the other is a card from HHK, Port-au-Prince, Haiti 1926. Anybody beat these? (Thanks, Bert, your report was a great help-pb)

Bob Millner, 415 Lenox Place, South Orange, N.J., 07079

I've sent away to all the major league clubs for lists of their radio networks, and I'll pass them on to you as they come in. I have two teams in so far, the Tigers and Red Sox. (Bob, I sent these on to HQ to be printed if and when space permits, OK?-pb) Personal DX: WEOK-1300, 4/8, 1700; CKTR-1150, 4/3, 2120; CBAT-1300, 4/7, 2315-2330; WFLN-900, 4/7, 1640-1700; WSAJ-1470, 4/3, 1110 (That's right, in the MM); KQV-1410, 4/3, 2014 (?). The reason for most of this new DX is a new (?) rx. (At least it's new for me). It's a 1947 Stewart Warner model A61 CRL. It's not that good, but it's still better than the clock-radio I've been using. It's got 6 tubes and it has its very own built-in loop antenna! I will eventually string up a long wire probably about 100', running NW-SE. Bob Astmann: KWK-1380 is in my White's log (December '64). I read in the Federal Register last week that KWK will cease operation sometime this spring or early summer (I threw out the copy before I wrote this letter; I think the month is June). The table of assignments still lists 1380-St. Joe, so I'd bet that there'll be a new stn there sometime in the near future. LeRoy Ackerman: To answer one of your questions, I believe the WFMA/WBAP arrangement is that they share two frequencies, 570 and 820 kc.. 570, I believe (check this, someone) is 5 kw. and is affiliated with ABC. 820 is a 50 kw. clear channel affiliated with NBC. WFMA's address is in Dallas, WBAP is Fort Worth. They switch back and forth, and I haven't been able to decipher the schedule, but I think WBAP has 820 weekday evenings and nights (I hrd them @ 2100 on Wed. back in Dec. and then @ 0645 the next AM.), and 570 the rest of the time. Suggestion: for 10¢ you can send them a letter w/ret. post. and get the answer straight from the horse's mouth. Mike Worst: Tnx for the SWL card. Someone: where do I get the report forms. My %age of veries stinks. Also, does anyone have a list of the origin 25 clear channel stns and which ones are no longer clear? Mr. & Mrs. Park Barton: Congratulations! Vacation next week! 4 ball games (including opening day at Yankee Stadium and Mets-Giants Easter double-header) and the World's fair, and just maybe a night or two of DX! 73.

Fred Precht, 2844 Victoria Ave., Cincinnati 8, Ohio 45208

Hi gang, DX has been rather slow in the past several weeks, due to other pressing matters, however I was able to settle down to some DX the past week, but wouldn't you know it, all the thunderstorm activity made DX conditions very poor. Despite the obstacles I encountered, I was able to log 3 new stns. WSLM-1220 @ 1825 4/7, CKTR-1150 @ 2200 4/7 & WNOE-1060 @ 2325 '9, (despite WRCV's strong signal here.) Veries in since last report WATI & WRYT after 18 wks both v/l's. Totals now 346/178. Got my WMWG some time ago, and discovered numerous mistakes in their listings, and off all things, they spelled Cincinnati wrong, under the WSAI-1360 & WCKY-1530 listing. It seems as though this WMWG is even less accurate than White's Log. Some of the mistakes I found are as follows (first is correct, one in () is WMWG listing). WBZ-1030 50 kw. (WBZA-1030 1 kw.), WATI-810 (WIGO-810), WAWI-1210 .25 kw. (WAWI-1210 .2 kw.), KLRN-1010 10/5 kw. (KLRN-1010 10 kw.) WCIN-1480 5/.5 kw. (WCIN-1480 5/1 kw.) KFUC-850 5 Kw. d (KFUC-850 5 kw.), WJAR-920 5 kw. (WJAR-920 4 kw.), WSAI-1360 5/1 kw. (WSAI-1360 5 kw.). I also found the Canadian listing on page 54 to be incomplete. It would certainly be very helpful, if any member discovering mistakes, in addition to those I have listed above, to list them in their reports. 73 & best DX to all.

Bob Astmann, WPE2LWS, 191 Louvaine Drive, Kenmore, N.Y., 14223

Greeting again!!! I know that by the time you all read this, it will be too late, but I thought you would be interested to know that on April 13, Jimmy Brown, of the Cleveland Browns FB team came to our High School to speak. Well, now some DX(?). Only one new stn. hrd. this week: 4/4 WKMI Kalamazoo, Mich. 1360 @ 1902. 2 veries revd.: WBAM-"Voice of the Deep South", & WGLC for their EP of 2/22. The v/l f/WGLC said that they revd. 60 rpts. for this test and were very pleased w/the results. Farthest rpt. was Pointe Claire, Que., but they were probably hrd much farther away. Good news!! I have a MM to DX coming up on 4/19. That's all I guess, so 73 & good DX to all.

Mike Mitock, WPE8HUA, 1529 Nichols Ave., Lorain, Ohio 44053

Greetings to all IRC'ers. I'm spending my spring vacation in Elyria. The past two mornings have been real good ones. Tuesday 4/13- 0200 WCJU w/news: 0225 WLW-700 w/American Airlines Music Till Dawn; 0228 WWL-870 w/SS programs to Cuba. 0336-0430 took log on WIBW, Topeka, Kan. 580. Stn #119 and State #25 logged. Wed. 4/14 Took 0009-0043 log on WTMJ-620 Milwaukee. Since I already had them logged, I thought I'd try for a verie. At 0110, WCCO was noted w/ a flood watch. Can anyone give me info on the cw breaking in around 700 kc? The keying is too fast for me to read. 73 to all, and CU in 7 (I hope-hi).

Arne Henden: WMBR has a memo v/1 that measures 3 3/16 by 4 7/8. Time and date are typed in. C3 signs with a signature stamp. (This f/Bert Podall)

Bob Ziel, 222-89 Braddock Ave., Queens Village, L.I., N.Y.

Hi! DX hasn't been too good lately because of the noise level which is beginning to build up. We had a few local thunderstorms last week which raised havoc with my DX'ing. I did manage to log two new stns despite the static. WDEV-550 @ 1945 on 4/12 and WVMT-620 was well on top of semi-local WVNJ. WVNJ's xr is approximately 10 miles west of my house so I had quite a rough time nulling them out. R. Americas-1160 (1165) ishrd regularly here around 2300 QRM KSL. Uncle Sam's boys brought me one new verie since my last rpt. It came in the form of a post card from CHUM-1050 for a rpt sent to them last Feb. As I start my second year of membership in the IRCU, I'd like to re-introduce myself. First of all, I am 19. DXing is, and always will remain my favorite hobby. I'm also very interested in Photography (have a Yashica 44A camera and a Kodak Carousel 700 slide projector). I work full-time for a stock brokerage firm in Manhattan by day and attend Pace College by night. I have always been on the right side politically speaking. We are an ardent admirer of Barry Goldwater. Besides being a fine man, Mr. Goldwater is also a great DXer. He has a complete rig set up at his home in Ariz. Finals are coming up soon, so I have to s/off. Until next month, '73 and lots of good Spring

Damon Frison, 349 E. Beechwood Blvd., Columbus 14, Ohio 43214

Greetings from member # 294. This is my first rpt to the Monitor, so bear with me. My rx is a standard G.E. 5-tube AM job. It doesn't sound impressive but I recently put up an 82' wire antenna, which helps DX a great deal. DX past few days is as follows: (4/17) WIDW-1480, WKAR 1360, WCKR-610. All were logged between 0400-0500. (4/18) WLMJ-1280, WAMY-1580, WCMA-1230. I have logged 257 stns in 170 cities and 34 states. I would like to tnx Mike Worst for the card and D. Erickson & Fred Prechtl for introducing me into the organization. Best of '73's till next time.

Fred Prechtl, 2844 Victoria Ave., Cincinnati 8, Ohio

Hi gang, DX for the week, as follows. WIMA-1150 @ 1800 4/15, WLEN-1590 @ 1745 4/17, KEYS-144 @ 0210 4/18, also noted 4 new SS stns on SM 4/18, presumably CMHI-570, CMKV-600, CMMJ-740, CMCK-850, and WKBV-1490 @ 1345 4/18. Only one verie in this week, f/CKT, a v/1. SM 4/18 DX rather unusual, since stns North of here were very weak, (even Chicagoans WMAQ, WGN, WBBJ, WLS & WCFL were weaker than in the daytime.), while stns south of here were very strong. Th accounts for KEYS' good signal, almost like a 50 kw. clear channel stn. WROK is generally my night time regular on 1440. Nothing else of importance to report, so I will s/off now, and try to keep ur work to a minimum, Park. '73 & good DX.

Ray Hartman, WPE9GON, 5350 So. Nicolet Dr., New Berlin, Wis. 53151

Buenos dias amigos. Right down to DX. WKAM 1460 after WRAC s/off @ 1900, WFOR-1570 hrd 4/1, WXYZ-1270 4/6 around 2130, WJBK-1500 @ 0500 4/15, the following 5 were hrd 4/19: WKGW 1420 @ 0515, WGUS @ 0425 on 1380, WHCC ;400 @ 0345 w/fc, WIUP 1490 @ 0355 w/rr mx and good signal. WRIG 1400 @ 0430. At 0500, hrd a mystery on 750. It sounded like a men's choir singing but when id was given, WSB s/on. Nuts! Veries in since last Forum are WISN, WMT, both v/1's, WFOK, KSTP, WLYK, WRAC, WSIR, WIBA, CKIW, WSAI, KFAB, KONO, WDAF, CFRB. Tnx to those who made the Milwaukee get-together a success. WRIT was very generous in showing us around. Total stations are 438/97. '73.

Paul Kalisz, 38th Sup Sq, APO New York 09130

Just received the 16/3.65 DXM on 8/4/65. Surface mail usually takes about a month to cross the Atlantic. I am stationed about 300 miles west of Paris. Regular TA bisitors have been WOWO, WNEW, CHUM, WINS, WHN, WKBW, WMEX, CBA, WTOP, WLS, WQXR, & WBAL. For about the last 3 months interference has greatly increased making TA listing impossible. QRM in not a problem because the closet SN is in Frankfort which is about 75 miles north of here. Also the time difference greatly increases the possibility of picking up TA. When it is 0200 here it is 2000 in NY. At 0200 there are only a few stns on the air over here leaving the band open for TAs. Sent about a 3 hour rpt to hometown (Sept) WKBW and I have yet to hear from them. Veries have been CHUM, WNEW, & WTOP. R. Caroline North, which is about a 1000 miles away, can often be hrd during the daylight hours. 350KW R. Luxembourg, which is a mere 101 miles away in often completly overtaken by another stn on the same freq. R. Luxembourg is aimed at the English teenager with 9 hours of EE R. music nightly.

David Schwartz, 248 Links Dr. W., Oceanside, New York

Hi gang! DX here this week was great. On 4/2 WGNV 1550, WMTA 1631, ZNS 1919. WCKY 1921. 2/3 WDBO 0450; WCHS 0502; WNAK 0538-local s/on @ 0600, WQXR new to the log., CKEW 1725; CHFI 1854; XEWA 2211;. 4/4 after 5 months of DXing I finally got Vt.- WHWB 0717, got verie on 4/7; WBVM 1722. 4/5 KLAY 0058, new state; WPAL 0118 new state; I sent letter to KFBK cause I am pretty sure it was them on 1530 @ 0136; WTAR 0205. 4/7 WNLC @ 1715. Thats all DXing until now. Al Lewis, give me a call at any time; ur local # is OR 8-4311. Anyone know where WRAN is? Veries to date 119/201. 60 on the way. This week; WMCA, WHWB, CBL, CBE, WJCO, WINE, WFBL. WNEW. local. WSB. WFMA. WADS, it took long enough, WCFL, WMAQ, WEEL, KDKA, WGCH, sent

Joe Schmidt, 709 Graisbury Avenue, Haddonfield, N. J. 08033

Greetings! I have finally decided that I wish to join the IRCA. I was told about the club by Tom Kelley and have finally made the decision. I am 15 years old and a freshman in high school. I have been dxing for only the past 10 months. Only a few months ago I began sending out QSL letters. The biggest problem I have right now is SCHOOL. It really limits the amount of late DXing you can do and there isn't enough time on the weekends. I try to squeeze in the time I can get and log a couple. Recently, I have had very little new loggings and hope to get some on Easter holidays. Some of my better ones are KFL-640, KOA-850, and KSL-1160. All three of these QSLed. Lately the amount I have has really dropped. The most recent ones are: KWIT-540, 4/2, WARO-540 4/6, ZNS-1540 4/6, WINZ-940 4/15, WKYR-1270 4/15, WICE-1290 4/15. The only one of these that has returned is KWIT. As of the moment, (4/16) my totals are stations 227/50, states 37/30, Provinces 3/3. My late veries in are: WHO, KWIT, CBI, WJR, WBAY, and WCPC. That's about all for now so 73 and good dxing to all.

Oscar Reyes, Carmen 277, Vibora, Habana, Cuba

Today we had been enjoying programs of TV coming from Florida. Channel 2-7-8-10-12-4-5 were seen as locals, some better than local. I had fun with the Red Skelton Show, Hollywood Ago-go, Hullabaloo. Channel 4 Miami was interfering with our channel 4 as was Channel 6 in Habana interfered with by a Florida station. After locals signed off on 4 and 6, we could see Miami, WKBT-4 clearly. We had fun with Johnny Carson program. WINK-11 in Fort Myers, Fla. was strong and I could see for the first time, Paul Anka. We enjoyed seeing the wonderful 1965 cars. I was surprised to see so many wonderful things. Would like to see if anyone could teach me how to do some rubber repairing or vulcanizing. My tires, after 3 years, have some holes by the side of them. I need to repair them to get my car running again. Holes are 3 inches long. It is hard for me to get new tires. I can't buy old ones ¿Quiciera, Alguien Ayudarme? I have received many letters from the USA, in Spanish and English. The amigos writ@ good and plenty Spanish. Anyway, I can see the IRCA is a democratic club. Most all members have written me greetings to be an IRCA member. I am very proud to be one of you. Dios Los Bendiga.

+++++ This page was typed in Denver by that little old ex-Forum typer, BN. +++++

+++++ It had been my intention to run an editorial explaining the "censorship" of Forum reports but felt that one of the many letters received here in favor of it would sum it up quite well, so with this member's permission, I shall print it here: +++++

ORIG in re invitation to express views concerning censorship on P. 7, 3/31 Forum.

A lot of stuff appearing in our publication of late has sounded like the gabble at a pajama party and we are not proud of publishing such in the name of the IRCA.

But, I would not wish to be misconstrued. When I see those entries of nothing but call letters, dates and frequencies up to 30 lines, maybe---I just skip it. We welcome entries which reveal the personality, ambitions, community standings and just "dreams". 90% of our membership are young enough to possess the last mentioned. But we would like to get rid of most of this nonsense. The "Hi Jack! "Lo Bill", the "Why don't you write" and so on ad infinitum.

I never could see what SC'ing had to do with DXing. I can understand CM's in a way. They would make a very attractive album when filed with the corresponding verie.

WPE calls: I have one, WPE3IZ. What is it supposed to do for me? If it ever did anything for anyone I think the party is POPTRONICS. I am of the opinion that the folks at ARRL and fellows like Roy Waite of the NARC wish they had never been thought of.

All these things arise from thoughtlessness. The crowd wants twice as many vocal members. If we had 'em we would have to cut and edit similarly to DX World-Wide. The fellows who are doing the drudgery work have also a living to make, or a course to pass. Maybe they would like to have time to do a little DXing for themselves. I have seen many a formula turned in, running to ten or more lines in which the writer announced that he was writing because he had no news.

I suppose if you sharpened the old shears, somebody will be sore, but I see no other way. Ones that get sore would be ones that just can't understand fair play and would not have co-operated anyway. P.S. I also believe in clipping reference to bootleg stations. Please give this a good thinking over at least.

Herb Campbell, Athens, Pa.

+++++ CLARIFICATION +++++

In the 3/31 Monitor, Don Erickson answered a question in Mike Reynolds' report regarding KOIA reports. Don has been attacked pretty badly on this. However, I should like to rise to his defense. Perhaps he did include it in the wrong spot. Marv Robbins informed me in person that he would ask his brother not to co-operate with the IRCA any further so Don's statements are actual fact and not just an attempt to defame Marv.

Jimmy O'Brien, WPE5EFK, 1575 Chippewa St., New Orleans, La. 70130

Hi gang! The noise is getting real bad down here but I did manage some new DX since last rpt. DX by dateline. 4/10 WHAM @ 0202, 4/11 KMOX @ 0153, 4/12 KLAY @ 2331, 4/15 KSL @ 0016, 4/16 WHAS @ 2255. Now we come to the MM of 4/19 which was very LOUSY. Only 3 stns logged. They were WJR @ 0126, WDLA @ 0254 and WQAM @ 0339. UGH! What a LOUSY MM. The noise was TERRIBLE a true sign of summer. Speaking of summer I plan to build my DX DREAM antenna this summer. It will be either THE RHOMBIC ant. or a DOUBLE "V" BEAM ant. or maybe both. If any newcomer to the hobby wants to know what the RHOMBIC ant. is just drop me a line with a SASE. This kind of ant. requires SPACE. Fortunately I have it. Oh well enough said for now. Don't forget I TAPESPOND 3 3/4 and 7 1/2 ips or CORRESPOND WITH ANYONE. So 73 and gud DX. 88 to the YLs.

Roger Burket, WPE3EKS, 1213-24th Ave., Altoona, Pa. 16601

Hi everyone, I missed a few editions so I'll start where I let off. Domestic DX by dateline: 3/14 KOIL 1290 0245-0300; 3/15 WMBN 1340 0100 s/off, KVLK 1530 0105-0120 TT, KCAT 1530 0110-0130 TT, KTOK 1000 0130-0200 in the clear, KWYO 1410 0200-0215 TT asking for rpts Wyo. #1, KXEO 1340 0245-0255 TT; 3/19 WINR 680 2000-2100; 3/20 WSME 1220 0120-0130 TT, WTDW 1480 0240-0250; 3/21 WNYC 830 1840-1900; 3/22 WKJK 1580 0100-0115 TT, KLMS 1480 0140-0145 TT, WHSC 1450 0205-0212 TT; 3/24 CKAR 630 2000-2010, CJNR 730 2030-2100 way u/GKAC; 3/25 WSWW 1590 0115-0125 TT; 3/27 WICC 600 0200 0210, WDXN 540 1845-1855; 3/28 WFIV 1080 0255-0305 test w/music. CJGX 940 0330-0400, WVPO 840 1640-1730, WAVA 780 1650-1705; 4/3 WESA 940 1550-1630; 4/5 WEVA 860 0050-0100 TT, WPAL 730 0100-0110 TT; 4/16 WBCI 740 0010-0015 TT; 4/17 WLIJ 1580 0100-0120 TT, WAKS 1320 0149-0159 TT, KELO 1320 0200 ID; 4/18 KLVK 0120-0210 w/strong signals, WMBR-1460 0135-0230 w/on top 40/S9, WWOK 1480 0200-0250, WYDE 850 0300-0310 TT; 4/19 KCKW 0155-0205 TT, WSEM 1500 0205-0231 s/off w/SSB after TT. I noticed some very strange CX on 4/18 AM from 0100-til about 0330. SS stns were all over the band while regulars like WBZ and KYW were barely audible. XEG, which is usually buried u/CHUM and WHN, was 50/S9. That's about equal to WBZ's usual night signal here. Lots of other countries were in too, but I was too tired to try to figure out SS programming. Recent beries include: XEJP9 after 3 mos.), ZBM-1 (back in 2 wks) Bermuda #2, WGLC-DX, WESA, WFRB, WPSL, WMBN, KVLK, KTOK, WIND, KWYO (state #46), WKJK, WLC, WDXN, and CKVL. I swap WPE cards 100% and will be glad to correspond with anyone. 73 and don't let static make ur DX static.

Ron Schatz, 510 N. E. 158th St., No Miami Beach, Fla. 33162

Greetings from Miami, where the tropical Trades brush coconut palms on beaches of coral sand washed by warm, crystal-clear seas. Miami in '66! Or-how about New York in '66? The "Big City" greets you with the stendh of chemical factories, let's you sight-see crumbling, red-bricked office buildings from your car for hours because of the immense traffaic, gives your buddy a chance to practise driving around the block for an hour or two while you visit the sights (no parking spaces readily available), protects you from teenage gangs with two policemen w/aking together, stabs you for your subway token, geatures the major target of LBJ's domestic Peace Corps, and that NYC air is as feash as a Marlboro or a Kont. So why relax in beautiful Miami when you can fear for your life in a big industrial city like New York? Frankly, I've seen both, so come on down! On the subject of DX, brand-nov WBSR-740 in Boca Raton started daytime testing on 4/19 with a signal about equal to the Cuban there. Otherwise, no DX, thanks to power-line noise threatening to burn out the S-meter. A note of interest: Stn WLIZ-1380 in Lake Worth has all girl announcers and DJ's--fun to listen to, hi. WHER-1430 in Memphis is the only other stn like it, both owned by the same co. Tape-sponders: My TR has a few tubes, etc. gone, so please be patient for a month or so. While on that subject: WJLL in N.Y. recently began a SS DX pgm called "Club de radio-aficionados". Days and times are: Thursdays 0745-0800 on 11790 & 17730 kc/s; & Sundays 2145-2200 on 11855, 9695, 9620, & 6155 kc/s. My "special program for the IRCA" (now planned in both EE & SS), of course, has been indefinitely delayed, tnx to my TR. Stay tuned tho. Before I go, a favor; If you want the IRCA Convention held in Miami in '66, pse say so in your rpts, or do you want NY?

Arnold Galina, 49 Penn Ave., Worcester, Mass. 01604

Hello again from member 205. DX: 3/22 CFNB @ 0322 on 550, 3/29 WFTC for IRCA DX Special @ 0315 on 960, also on 3/29 WACB for NRC special DX @ 0346 on 1380. On that same day I tried for WSLR but I got a lot of QRM. 4/5 CBO in Ottawa, Ont. @ 0331 on 910, 4/5 WITH @ 0411 on 1230, 4/19 WBCB @ 0400 on 1490, 4/19 WQXI @ 0420 on 790, and 4/21 WRCV : 0233 on 1060. Veries: v/q CFNB, CBO, WACB. Thats all veries since last report. I8ve been getting a lot of WPE cards in the mail. Nothing more to say for now except 73's until next time.

NEXT DX MONITOR WILL BE CUT UNDER THE DATE OF MAY 19, 1965. PLEASE TRY AND REPORT EARLY.

Howie Modell, WPF2NGP, 22-36 Edgemere Ave., Far Rockaway, N.Y. 11691

Greetings disciples! Was very upset to see so many DX'ers quit the IRCA. Even more upset to notice that all 17 dropouts were among the first 100 members, who got this club started on its road to success. An even more disturbing note was that among the dropouts were a former IRCA convention-host and a former IRCA President! Oh well, if that's the way they feel about the club, it can only be their loss and out gain! Easter week has put a ray of hope upon my mailbox, and a little faith in Herbie the Mailman. Latest DX: 4/16 WBCI-740 TT 0000-0013 u/CBL; Possible log of KZOO-1210 Hawaii, signing off at 0126, preceded by 5 min. of Hula mx under WCAU. The announcer had a Southern accent, so it may have been WADE in N.C. on a test. Will have to wait for further news on that one. Still on 4/16, WEED-1390 w/ET 0201-0209 w/"Sunny Side of the Street" and 2 other songs. 4/18: WAAV-1550 Ala. (500 watts!) 0256-0325 w/very weak but readable signal; WQSN-1450 S.C. 0320 ID; WJNO-1230 Fla. 0340-0344; WAME-1260 Fla. w/ an A-1 signal, just like a local from 0349-0400; KXYZ-1320 Tex. 0400-0420; WDXB-1490 Tenn. 0422-0427; WKAT-1360 Fla. louder than every N.Y.C. 50,000 watter!!! "The Big Kat" maintained that fantastic sig until after 0630! At 0437 until 0444, hrd religious organ mx, which I think was WJAG-1550 exchanging top of frequency w/WAAV...not sure, tho; WQIC-1390 Miss. (new state) 0500-0520 w/a fantastic sig, no QRM at all!; WRBD-1470 Fla. 0519-0524; WBUX-1570 Pa. s/on 0543; WERA-1590 N.J. 1324-1331; WBUD-1260 N.J. 1356-1405; WTTM-920 N.J. 1409-1430, WEEZ-1590 Pa. 1421 ID; WHAT-1340 Pa. u/WMID 1443-1447; WJJZ-1460 N.J. 1413-1421. 4/19 saw some fantastic reception conditions as everything from the North and Northwest, and some Southwest faded out! Regulars such as WLAJ, WKBW, WCKY, & WPTR were nowhere to be found. At the lower end, couldn't locate CKAC, CBL, WSB, WJR, CKLW, WGY, and others. On 1540, ZNS-1 came in louder than local WQXR-1560! Also caught much needed WVOB-1520 Md. s/off 1900. Anybody know of an ABC stn on 1580 kc. that has Edward P. Morgan's News at 2000 hrs? 4/20: WLAJ-1430 Fla. s/on 0502; WDAV-1250 Va. 0510-0530; WDKD-1310 S.C. 0530-ID. Some semi-local s/ons are, hopefully, in DTI if I made the deadline. Have sent my t/r into repair (it's still guaranteed!), so will answer any tapes soon. First ones will be Gary B's, Hugh D's, Joe G's, and Don E's. By Don E., I mean both Eggert and Erickson. Here's another brainchild, so listen carefully: How about a column with stn nicknames, submitted by members. The column would show that WAME is called Whammy, and that WYLO is called Waylow, and that WKBW is called "KB". I'd be glad to edit it, if somebody would just show me how to type a mimeo carbon.....

Samuel Simmons, 11685 Guertin St., Montreal 9, Quebec

Hope everyone had a Happy Easter vacation. This is my first forum, but let's hope practice makes perfect. Hi. Recent DX: 4/17 0024-0030 WKJR-1520 f/c, 0056-0101 WMPY s/off, 0149-0155 WAKK-1320 f/c; 4/19 MM 2355-0006 WKBR-1250 RS, 0028-0037 WIRY-1340 w/unn. WKSN QRM, 0106-0111 WISZ-1590 ET w/WAKR QRM, 0113-0116 WLLA-1530 f/c. QSL's: WISL-1400, WACB-1380, NRC DX, WWSR-1420. N.M. is a blasted state to hear from up here. Reported KBIA-910 ET 3 years ago, begging for QSL, but no answer to that or 2 f/ups. Can you help me Arne Henden? If I verify N.M., then could shoot for Sriz. Hawaii and Als. to VAS. Answers to a few questions in the 3/30 issue; J.F. in Milwaukee, the FF on 1150 is CKTR, AN w/NSP & rr. They don't verify. G.W.J. in B.C., I would count the KEX card. If your rpt was wrong, they wouldn't sent it. L.P.A. in Phoenix; a) WBZA ran parallel to WBZ w/1000 w. from Springfield Mass. until WBZ's owners junked it. A FCC law says no net can own more than 8 stns. and in order to buy a Western stn., Westinghouse (the owners) would go over 8, so they deleted WBZA. b) WFMA and WBAP share time 50-50 when WFMA has 9 hrs on 120, so does WBAP, then a 6 hr. silent period. Same on 570, etc. Then each stn. would have an 18 hr day. c) Dunno, d) Dunno, but WATT-820 shared time w/WCBD religious and WHT was kicked off the air in the 30's for associating with Chicagoland hoods; H.C.G. in Ore., your 1190 stn could be XEWK. Kills WWO here occasionally. E.J. Mendota; No ans. f/CJRN-1600, but remember that old CHRO took their time. CKPM-1440 has QSL card, WVIC-730 no ans. yet, WHHL had a form 2 yrs. ago and is supposed to be friendly. G.J. Pasadena; WWHH-930 is a dud for ans. letters, try WLNH-1350 or WKNE-1290 for N.H. DXes. S. S. of N.Y., CJMS-1280 is 10 kw. days, 5 kw. night, but protects Quebec City and is directional your way. ID's as, " Say Gee Em Ess, Montreal" w/Nx in FF on the hour. Plenty of commercials on CJMS, but they accept reports in EE, but not in FF (so I am told). 73's.

Park Barton, P.O. Box 43, Troy, Alabama 36081

Greetings all. No new DX here. No excuses either. Veries in from WPON-1460, KALF-1510, WRUF-850, WACB-1380, & WBBB-920. WACB said my report was the futherest one received. Must not have gotten out too well. I am looking to do some DX this summer, but every time I try to listen, the static is so bad I can hear myself talk! Verie totals now 723. enuf.

The above list were sent in by Bob Millner. Jim Foley also sent in a list of the Milwaukee Braves stns. Thanks Boys...

H.J. Wertheim, 136-65 71st Rd., Flushing, N.Y. 11367

Hello from the sight of the IRCA's 1966 Convention! The hub of all activities in the Western hemisphere, New York City! On 4/14, the postman brought a big surprise for me. It was a letter from Havana, Cuba. Not a verie though. Just the return of a rpt I had sent to CMCY. What surprised me was how long it took it to return. I sent it on October 13, 1964, and it returned on 4/14. More than 6 months just for the return of a letter. It was stamped "wrong address". Does anyone know the address of CMCY? On 4/18 a group of N.Y.C. IRCAers numbering 7 in all met at the home of Murray Bob in Brooklyn. We exchanged DX tips and formulated out plans for acquiring the 1966 IRCA Convention. Al Lewis, Howie Modell, Bob Ziel, Dave Schwartz, Dave Bursky, Murray Bob and myself were present. As for DX from this corner, I've logged quite a few new ones since my last formula. They are the following. 4/16 WEED @ 0201, WVCH @ 1845, WBCI @ 1845. 4/18 WFUN, WTJH, WHSL, WLCY, WDAS, WHAT, WJZ, WEEZ, WHWH, WAAT, WBVD, WPTM, WERA. 4/19 WKAP, WVMT, WRFC, WWIT, WNAB. Totals are now 396/180 and 36/33 states 7/7 provinces and 9/3 countries. 88 to all beautiful YL's. 73 to those remaining (UGH!).

Bill Nittler, 4590 So. Julian St., Englewood, Colorado

First, to Hal Williams: The membership # is used to denote the # the member actually is since start of club, not to indicate the # of members we have. To Ron Schatz: The first rule of salesmanship is not to knock someone else's product but to promote your own in competition. Otherwise it is an indication that you have nothing to sell yourself. Don't recall you really saying anything about what Miami has to offer except sunshine. The job is still keeping me occupied with two 14 hour days already behind me this week. Managed to get myself elected president of the Englewood Junior Chamber of Commerce this week so my work is cut out for next year. Needless to say, my DX activity will be curtailed, including club work. This bulletin is being put together Wednesday due to lack of time previously.

Gray Scrimgeour, 1105 Virginia Way, La Jolla, California 92037

Anyone ever get a verie by telephone? The CE at KMFC-710 phoned me a few days ago to acknowledge a report, including interference by KIRO (0300 EST). He wanted me to see if I could hear any QRM near sunrise - before KMFC went non-directional, and after KIRO was on with full daytime power. I got none, though, from 0750-0915 on several tries. (KBTR and KIRO both audible around 0300). Fact of the month: did you know that multi-hop radio wave propagation is controlled by the ionosphere's condition at the points of initial and final refraction only (not at each refraction point)? As the waves travel from point to point, there is a scattering of the signal after the first reflection, giving continuous coverage past the skip zone. This also explains why distant stns in daylight areas are audible sometimes - the point of first refraction must still be relatively dark (i.e., not ionized). Our usual SRS or SSS is only one-hop, and therefore governed by ionospheric conditions at the midpoint. Good discussion of such phenomena in "Shortwave Radio Propagation" by Stanley Teinwoll (Rider, \$3.90). DX conditions deteriorated the last 10 days, but I still got a few more. 4/10 Releg of CKBI-900 for report, 0134-0210 s/off; WSUN-620 u/CKCK at 0430. 4/12 Hawaii loud and clear KORL-650 was S5 by 0120; KMVI-550 only new one; KSNM-1290 on RS at 0605, KWNS-1290 s/on at 0704. 4/18 WYDE-850 f/c per list (after 4 attempts, but not good enough to report). 4/19 KBLE-1050 testing until 0326; XEAW and KREG-1280 both at s/on 0700. WIBA's QSL is elegant! KITEE sent a CM card; WRUF and KRAC v/l's. The latter said they had over 60 ltrs from New Zealand on a DX. 73.

John C. Johnson - Company 132 - USNMC - San Diego, Calif 92133

Hello Gang. Well, here's another rpt from your SD member in the Navy---by the way, I only have 5 more weeks of boot camp left. It looks like I'll be going to Florida in June for school. I will then restart DXing---I know there will be lots of stns I don't have yet, hi. I plan on buying a real good small transistor radio to take with me. The big word here in S n Diego is rain! It's been raining for the past week now, hope it stops soon and warms up again. No DX here, of course, but I still get to hear radio once in a while here in the barracks, KGB rates the highest--beautiful survey music! I want to thank all of you who have written to me. I have answered every letter and I hope I answered all your questions. I also want to thank those who sent surveys out to me. I really enjoy receiving them here. If any of you need a KIMN and/or KBTR survey send a SASE to my Sheridan address and in May I'll get them out to you---I have a limited quantity, 1st come 1st served. If any of you need a KIMN/KBTR and send me something in equal trade, SASE not needed. I hope sometime to get some SD SCs; if we ever get a chance, hi. Since I'll be home (Sheridan) in May I'll be able to do some tapesponding. If you want to send a tape to my Sheridan address and I'll get it out as soon as possible. I'd enjoy hearing from you old tapesponders of mine. I haven't seen a DXM since Feb. as I don't have time to read them here---so they are stacking up in Sheridan. I plan to read each and every one of them though in May. I guess that's about all for this week. Hope you all have good DX and are supporting IRCA with your reports. Keep writing to me, I'll try to get in another report in a couple of weeks. Surveys welcomed. 73's to everyone.

AB Neal L. Lyons, AF19836065, Box 1503, Flight 387, Lackland AFB, Texas (temp.)

Hi everybody. Guess I better reveal myself before I forget who I am. No DX because no rx. Right now I have squadron liberty and a little time on my hands. Oh yes, b4 I forget it, I'm going to try to see Steve Clendenen before I leave Lackland;(Our dorm is just a hop-skip-and-a-jump from the Marksmanship school)and talk to him about DX. I will have been DXing 1 year on 4/28. My totals are 336 stns hrd, 14 countries hrd, 4 countries verified, 31 states hrd, 11 verified. I've hrd only 1 new stn here which is not included. Oh yes, I hope to make it to SD, if all goes right. 73 and good DX. (Address is temporary--change about the time you get this-DEE)

H. R. Titman, Meacham, Saskatchewan, Canada

Sorry, no DX to report. I would just like to get to know all you fellows. I am 16 and attending Viscount Central High taking Gr. 11. My rx is a Trio 9R - 59, 8 tube comm. type and I am using a 100 ft. long wire ant. I hope to rec my WPE call soon and will let you all know that I have cards to trade. I'll look forward to hearing from you and will answer all letters. 73. (Welcome to DXF, Howard---DEE).

David Lopetinsky, 11831-87 St., Edmonton, Alta., Canada

Hello from member #295. First of all I would like to thank Grant Olson and John Oldfield for getting me int'd in IRCA and for helping me to become a little better DXer. I am 23 years old, married and have been interested in ECB DXing for about 8 months, although I have done a lot of SWling prior to ECB DXing. My equipment is a No. Electric 2 bander and a Zenith Transoceanic Model 1600 which I do most of my work with. I have rcvd veries from Canada, USA, and Mexico and my recent ones are: KGO, KIRO, KGA, CFCN, WBZ, WWL, KGCX, KXEL, XEG, KEX, CFGP, CKWX, CKSA, KFAB and received a verie from KSL after 5½ months. Rpts out to XERF, CJDV and WLS. So until next time, 73.

Albert Fei---Presidio of Monterey, Calif.

VERIES RECEIVED IN MARCH: KID, KIRO, KGU, KAEC, PJB, KAOS, CJVI, KOMO, CBR, WBZ, WHO, XEG, KBLE, KPAY, KWJJ, KRLA, KRKD, WHAM, KTMS, WREN, KIT, KMEN, KPOJ, KSTN and KFBK.

Francis Gifford, 18515 San Jose Ave., Lathrup Village, Michigan 48037

(TWO REPORTS--DEE). DX: CHAK-860 s/off 0309 3/15 for NWT #1. Canadians, is this counted as a province for DX? I have forgotten what we classify it as. WRC-980 2104 w/NEC (D.C. #1) on 3/20. That's it. Still lacking FEI, YT, Me., Del, logs. Any help appreciated.

(Next report). DX very poor lately. But here it is: 3/27 CBN-640 at 1937-1946 for #2 Nfld. (CHCM-560 veried). WHLO-640 at 1942 trading w/CBN, WGGH-1150 at 1852-1900 s/off. Introduction: am 16, "student" at high school, sophomore, plan to be in mx. Would like to hear from anyone int'd in mx. I play 5 instruments--piano, viola, organ, violin, bassoon (in that order of proficiency, hi), take lessons on 1st 2. I like all types of mx, classical, jazz, pop, rr, etc. Rx is Halli. S-120 of 1962 vintage. Have been on ECB and verifying since Oct. '63. Before that, just roamed SW, record: states 47/38 (lots of new states recently) Prov. 10/8 and countries 13/8. Best ECB DX is KYUM-560 lkw, Yuma, Ariz. v/1. I am 10 miles from Canada-USA border and 10 NNW of Detroit. Within 5 miles are WXYZ AM-FM-TV, WWJ-WEXL, WOMC, WIDM, WPON, WHFI, etc. Lots of image problems from WXYZ. Am also a member of CDXC and soon NRC. Hope to have more next time. So until then, 73.

Bill Wilson, 1126 Alameda de las Pulgas, San Mateo, California 94402

Salutations again from the scenic S.F. Peninsula. Speaking of which, welcome to new member Gary Mondfrans--will get in touch with you soon. On to DX: My first PM DX session in several months (as a matter of fact, all season) produced the 3/18 logging of HJBI-840 w/beautiful ID at 2326 EST. 3/23 discovered that it's WFAA on 820 nites, not WBAP as I had assumed. Now have logged both. CMCA-830 was beating out WCCO for a change 2400 on. Next nite, 3/25, cuahgt Caribe-834, Brit. Honduras, at 2445 (i.e. 0045 EST 3/26) with EE religion programs. Veries: v/q WGY, CKLW (#200), v/1 KDOV after f/up. Have noted some mention in past Monitors of reducing non-essential comments in the Forum. While this is a good idea, have noted that in the 3/16 bulletin our editor has consumed about 2 pages all by his self. I can understand his anxiousness to answer questions from the members, but I suggest that some of this can be better handled in personal correspondence. Also, Don, you forgot to mention that the junior college basketball championship which Riverside won was held at my school, College of San Mateo (in the only JC gym w. padded seats, hi). Later.

A2C Kenneth J. Poole Jr., AF18657822, Box 5162, 7030th COSWG/ECES, APO 12, NY.

New York 09012: Hi guys and gals. DX here in Germany has been poor for me in the last 3 months. Since my last rpt to Forum was in January, our squadron has moved from one barracks to another and changed mail boxes too. Our other DXer A3C Paul Kalisz, also in Germany, has had better DX results than I have had. A letter is off to you soon. I got rid of the Halli. S-120 and I now have a Sony 3 bander LW-AM-FM 11 transistor. Its performance is a lot better than the Halli. On early MM's I can hear quite a few hets and possibly some statesiders may be coming through. Does anybody know what the noise is on 1000 kc/s? Quite a few of you I know hear it in the states, and it is audible here in Europe too. I have often thought it might be a 1 megacycle freq. marker. Anybody know? It could be anything. Oh, I almost forgot to tell you all I have received my Poptronics call letters for Germany and the call is DI4PE1BB. It looks like I'm the 28th person here in Germany with a DI4 call. It will be a while before I have cards to swap, because I am designing my own, and when I finish, all the hard work will be remembered by all the club. BN, I'll send in \$5 in a day or so for 1st class air mail. (Cost is \$2 for 1st, \$4 for air, Ken-DEE). It will take 3 or 4 days to reach me instead of 2 months sometimes. What's happened to our N.Z. friend, we haven't hrd from him in the Forum lately. Well, I'll close for now, and

Johnnie T. Arthur, 1758 Branham Lane, San Jose, California 95124

A rarity it is, but here it is! DX from the South Bay, and the QTH of the non-swapper WPE6FKF. Finally got another rx; bought back my old Lafayette KT-320 eight tube job. Peaked it up again, and it seems to be doing a better job than in the past. My antennas are two: a Hi-Gain 18V vertical mounted about 35 feet in the air, and a 77'10" long-wire about 20' up, running WNW/ESE. DX by dateline: 3/29 was a MM I'll never forget. I figured the TP openings would be over by now but was I ever proved wrong! 0329 had JOQC and the other one on 1220, and they were both totally smeared by KKAR's puny 250 watts. 0354, KABL-960 off!, and CFAC-960 in like a ton of something or other.. 0431, my first Tokyo stn came in on 950: JOKR. 0444 saw JOFC-1070 in with pretty good signals; tho't it was WFLI at 1st, but slightly the wrong language. 0448 got HJAT-1100 with their AN sked; sure botched up that frequency! Then at 0510, my last and best catch of the AM: PJD2-1295. Real weak, and with slopover from KYNO, I guess. Not only are they 1295 kc/s, they're #1295 in my log!! Monday PM I decided to hit that 1300 mark, and did so with YND-675 @ 2249; TIOS-825 @ 2300; that Guatemala stn on 840, hrd w/Radio Emperador ID @ 2305; HRU-865 @ 2310; YSC-1015 @ 2322; and HOJ2-1145 @ 2327. April 3 saw KNPT-1310 real wk under KDIA @ 2258; -- KDIA must be highly directional! 4/5 XEHC-920 0103 and KCTX-1510 w/TT 0209. 0304 XEAA-1340, easy after KIST 2400 s/off; and KAKA-1250 @ 0334 w/TT. That brings totals here to 1306/92 stns, from 37/34 states, and 27 countries. KDIA is announcing their new 5kw signal, to begin broadcasting soon. No date announced as of yet. I'll swap a KYA bumper sticker for a WINS sticker. Will also swap KLIV SC's, but the others are not available down here; that's about it, so 73 and all.....Like later!

Dave Martin, 6524 El Nido Ln., Apt. 3, Goleta, California 93017

Greetings! It's been raining for well over a week and there's no end in sight. Very unusual weather for sunny southern Calif. Anyway, recent stns logged, with rpts sent to all: 3/27 KASH-1600; 3/29 CBU-690, KWIL-790, KTHT-790 (DX Special -- hi Jody Coles); 4/3 PJB-800. Incidentally, PJB operates on medium wave with a non-DA power of 500 kw. Anyone ever notice the number of questions about stns in DXF that never get answered? As long as they pertain to ECB and are of interest to all, someone should take a stab at answering them; I'm no expert but am willing to try. Bill Wilson -- in regards to SS rpts, listen for product names (Coca Cola, Alka Seltzer, etc.), QTH, and stn slogans (R. Rebelde, etc.; this is about the only way to recognize SS stns, for it seems that call letters are rarely if ever given). Spanish words usually sound similar to the way they look. The pronunciation guide in a good EE-SS dictionary will give you an excellent run-down on the pronunciation of each letter in the alphabet. Also, Bill, KOHO-1170 is 100% JJ. Roy Ackerman -- Broadcasting Yearbook lists all US ECB stns with foreign language broadcasts, from Apache to Yugoslav. WBZA-1030 Springfield-1 kw operated synchronously until deletion in 1962 with WBZ-1030 Boston 50kw DA as the latter's booster. Was similar to WBT's 1 kw DA night amplifier in Shelby, N.C. WFAA-Dallas and WRAP-Ft. Worth share time on both 570 (ABC) and 820 (NBC). Each is owned separately from the other, but the owners cooperate in sharing time and networks. WLS shared time with WENR until the late 1950s, but I don't know the details (FM call letters were WENR-FM until 1964 though both were owned by ABC). Gordon Jarvis -- QTH of XERB is Rosarito Beach, which is 12 mi. south of Tijuana. I agree wholeheartedly with C.A.T. in 3/16 DXF that Directional Antenna info is very important; I also maintain lists which include DA facts. It's too bad that VJ's book, in my opinion the most accurate guide available, does not list DAs. DA facilities play a major role in determining DX possibilities. In many locations it is impossible to DX a stn like KBLA, which is highly directional, despite its 10kw. Would enjoy hearing from you all out there.....73

John Stevens, Route 1 Box 453A, El Paso, Texas 79927

Hello everyone. Pse note new address above, it's back to what it was a yr ago. Down to DX: 4/13 KRLA-1110 0230 with KFAB off, WGY-810 0235, CKAC-730 0240, KBLA-1500 0248, KYA-1260 0250, KSSS-740 s/off 0302, KGMS-1380 0305, 4/14 KHIP-1520 1915, KANS-1510 1906, KPOL-1540 2025, KCLR-1530 1945, KRYS-1360. Does KCBQ, KNOE, or KCUL verie?? (Believe KCBQ does w/v/q-DEE). New veries WBZ, WLAC, KMOX, WJR, & KNER. Now 554 hrd & 25 veries. I have plenty of KINT, KROD, KERP, & KHEY SC's for trade. 73.

Arthur Peterson WPE6FMV, 2726 Rollingwood Dr., San Pablo, Calif. 94806

Hi gang. Tnx to all you that sent me cards and ltrs. I need some info. White's Radio Log lists KCHY-1530 Cheyenne, Wyo. 10kw. Is this correct? Last time I noticed, it was 1590 and 1kw. Anybody tell me: when WTOP-1500 s/on; when WYDE-850 s/on; when can I hear WCOV-1170 on MM; and when KNOX-1310 s/on? Could someone fill me in on WRTVH and World Medium-wave Guide--what is listed, how listed (by freq., country or city), how often and when are new editions published, etc.? I want to buy one of them but am not sure which. (WVG contains ALL BCB stns by frequency; believe in 2 parts; US and Canada; and others----WRTVH contains listings of both BCB and Shortwave Broadcast Stations by country; it doesn't include U.S. BCB stns under 10kw----WVG is not considered too accurate---WRTVH is more accurate but it isn't too good for BCB DXers as an "only" log as info is awkward to use with their arrangement but it does contain much valuable and interesting info---DEE). QSL's: 4/1 v/1 from KSOO-1140 for state #31, QRA Sioux Falls, S.D. 57102, 10kw day, 5kw nite-direct. to NW, s/off 0200, s/on 0600; 4/2 v/1 from KICY-850 for state #32, QRA POB 303, Nome, Alaska 99762, v/s Earl Swanson, CE, s/off 0500 w/SSB-- Ernie Hansen, A; 4/10 v/q from WRVA-1140 for state #33, s/on at 0455 w/SSB; 4/10 v/q from CFAC-960, QRA 1301 17th Ave., S.W., Calgary. DX: 4/11 Discovered a new stn. CHQR-810 Calgary, Alberta increases power to at least 10kw at 0745, low power during nite, plays "good mx". 3LO-770 noted with exc. sig at 0510 but faded out at 0530 ID time, featured a radio play. Started an AN DX binge on 4/11 at 2100. 2158 XEDM-1580 in with a very strong signal and very little fading. 0300-0310 tried in vain for CHAK-860; CFPR-860 s/off w/GSQ at 0305--good signal. 0400 CBA-1070 w/standard CBC ID--good bet for those who need New Brunswick. 0430 tried for CBI-1140, but somebody's TT wiped out CBI's signal. 0500 CBM-940 w/standard CBC ID--good signal. - 0530 tried for CKBW/WHWB-1000, but TT from KOMO came blasting through instead! 0536 WBT-1110 in strong u/KFAB. 0600 3LO-770 in w/best signal ever hrd from an Australian stn! 0610 VOA-1178 w/strongest signal in months. For those of you who need Okinawa, this is a good bet. Rpts go to U.S. Information Agency, Wash. D.C. 0615 VOA-1180 noted with good signal. 0645 XEW-900 in with a very strong signal. 0700 tried in vain for KNOX-1310, but I did hear WRR-1310 for a new stn, so not a complete loss. 0730 JOLB-870 and JOBB-830 noted in // on the NHK-2 Network; both had good, strong signals. After a 12-hour DX session, climbed wearily into bed at 0900. Reports off to CKDA-1220, CHQR-810, XEDM-1580, CBA-1070, WBT-1110, 3LO-770, and XEW-900. Good DX, everyone, and 73.

Chuck Clark, WPE6CZI, 751 Onarga Avenue, L.A., Calif. 90042

Well, too long - no formula so here goes..... 1st a big Hi to all the YL's and new members. Now, DX since last report: KRUX-1360, KTIP-1450, KXRX-1500, KYOS-1480, KGST-1600, KYNO-1300, KSRO-1350, and KTEE-1260. New veries: CKWX and KEX. I've been busy with school, but now I have a wk off so have time to DX in the early AM's. Plenty of club correspondence coming in - keeping me busy - keep it coming members, I swap 100%!! Plan to attend the convention planning meeting in SD on 4/25 and, of course, the SD Convention in Aug '65. Let's see everyone there!! No more to say, so 73's.

John Wallis, WPE3DJF, P.O. Box 125, San Clemente, Calif. 92672

Greetings y'all. Right off the bat here is the latest DX. IT's all from just one weekend of listening. 4/3: KFDA-1440 at 0635, KILL-1460 at 0640, WSAO-1550 at 0642 s/o; KVGB-1590 at 0700, KANS-1510 at 0701, KCUB-1290 at 0707, KRDU-1130 s/on at 0726, KTFO-1250 at 0730, KVEL-1250 at 0731, KWIC-1570 at 0800, KSVN-730 at 0819. 4/5: KLYQ-980 f/c at 0335 as per list, KRZY-1450 at 0429, KLPR-1140 s/on at 0600, KSOO-1140 s/on at 0602, KELI-1430 at 0633, KSKY-660 at 0640, KEEP-1450 s/on 0700, KWNS-1290 at 0706, KFLI-1240 at 0730 (only 250w, but sounded like a local!), KRZE-1280 s/on 0746, KABH-1510 at 0753, KPIN-1260 at 0800, CHQR-810 at 0802, KXIV (looks like Roman Numerals!)-1400 at 0814. Was a good weekend, because KSOO-1140 was a new state. Only need Wyo. and Wisc. now. (Try MM for WKOW-1070 s/on-DEE). KSVN-730 was stn #400 hrd here in past year. 73's (that's the way the Hams say it) and CUL.

John Richards Jr. WPE6GAX, 4136 Briarwood, Palo Alto, California 94306

Greetings from member 354. On March 27, I rcvd CJVI-900. Tnx to Rich Heald for the visit I had with him and for letting me use his rx (I got WOWO-1190). 73.

WANT TO KNOW WHAT YOUR BOARD OF DIRECTORS IS DOING?????? JUST TURN THE PAGE!!!!

YOUR BOARD OF DIRECTORS...

consists of Dave Gleason in Ecuador, Ed Krejny our DXWW editor, Dave Johnson our DTI editor, Dallas John of Denver, our former DXF editor, and Don Erickson, present WC DXF editor.

The Board has been sent by the Chairman, Don Erickson, a large mailing with 10 items of business. Some of them are routine, some plain nonsense, while a couple are of vital importance to IRCA. Among the various proposals there is one that would stop ALL "editing" of DXF material by the editors; better known as the "anti-censorship" proposal. Were it passed, the club would supposedly be at the mercy of every half-wit that wanted to tell us how to bake a cake in 10 easy lessons. It would give the ed.'s absolutely no decision in what would be included in DXF. Two important proposals concern a Govt. Information Sheet, proposed by Mike Shannon, and a Countries Committee proposed by Ed Krejny. Still another important proposal would set up a new section in DXF to contain "Member of the Month", "Country of the Month", "State of the Month" and numerous feature articles. Section would be printed weekly when there is space. This proposal submitted by Gray Scrimgeour. There is a proposal for each of these: improper editorialization by DEE, a contest for DXF reporters, a new feature in DXF spotlighting a certain state's or province's members, and the sale of IRCA report forms. In the May DXF, a complete summary of the action taken will be included. ATTN BOARD MEMEBERS: Please be prompt in getting your ballots in! DEE

Larry Lehmer, WPE/CRW, 420 N. 28 Street, Council Bluffs, Iowa 51503

Well, it looks like this fine season has drawn to a close, at least for me. Increasing schoolwork and QRN have really taken their toll here. Even veries are very slow in reaching me these days. DX by dateline: 3/14 WRDR-1480 0412-0433, KCUL-1540 0433-0451, KTLN-1280 0512-0530, KTLN was possible due to an unusually weak KOIL. Their XR is 4 miles from my house and they are beamed right at me, but on this morning WIRL in Peoria, Ill. overrode them at times. CKLG-730 0532-0545 1st B.C., unk SS on 1180 @ 0606-0620, I think this is the VOA in Fla. if they are still on. 3/15 KCKW-1480 was in weakly w/Special from 0119-0130, WDAY-970 in very well as expected 0146-0200 s/off, WHHL-1440 testing from 0203-0214 w/IDs every minute, KERN-1410 over an unk SS 0215-0228, WMBR-1460 testing 0305-0320 very good signal, WKRT-920 DX in well w/int'g pgm 0400-0430, WRSJ-1560 in well at s/on but XERF splash killed 'em at 0430. Tape sent. 3/20 CKDA-1220 2nd B.C. 0406-0424, WXYZ-1270 0423-0438, WJW-850 0448-0505. They use SSB and s/on format when they change power at 0500. WKTX also s/on at 0500. WRPB-1350 0509-0521. 3/21 unnn's XEQR-1030, KXGN-1400 f/c, XEDM-1580 noted at various times. Also hrd was a myst. stn on 920 who tested from 0252 to 0258 w/ "I Feel Fine," continually. Is this the same stn I heard s/on as WKNX-1210 on 920 back in Dec.? An outlaw or what? If anyone has any help on either of these, write me. Also hrd KTNM-1400 f/c 0337-0345, KFRM-550 test 0350-0359 very poor considering distance. The Cuban overrode them here. I can imagine how you ECers did. Verie said only 4 rpts rcvd, mine & 3 Californians. 3/28 XEFB-630 r/c 0110-0125, R. Tupi-1040 put in a great signal. How come they won't verie? 3/29 KTHH-790 hrd briefly thru storm here 0445-0452. 4/2 WIRA-1310 DX Special hrd poorly thru WIFE, 0407-0440, KREC-1470 2004 2018, KKAM-1350 2019-2030, KEYZ-1360 2031-2037. Recent veries are: KFRM, WKRC, WJW, KLCN, WKRT, CBM, 4VEF, KNX, CKDA, WIRA, KEYZ, WTOB, WMBR, KREC, KIWO, WLAC, KDSN, WBYS. 73.

Bob Jacoby, 556 E. Alvarado St., Pomona, California 91767

Greetings from Pomona! DX was pretty good for a change this week, so here goes: 3/27 KWCO-1560 0729, KCAN-1550 0800, KPIK-1580 0815. 3/28 KETO-1580 0029 ET/M, CFOX-1470 0104. My vote for the worst stn in Calif., and probably in the nation, is KTYM-1460 in Inglewood. Anybody that has hrd their sick programming will agree that they make XERF sound like a WQXR. It seems as if the solution for any stn in financial trouble is to go rr. After having only two for so long, the greater Los Angeles market is soon to have 5 rr's: KFWB-980, KRLA-1110, KWIZ-1480, KASK-1510, and KHJ-930 starting in June. The ironical thing about KHJ is that now, during their interim programming before they go rr, they play the best mx I've ever heard on the stn. Until next week-73

REMEMBER TO ALWAYS USE EST NO MATTER WHERE YOU LIVE. EST is PST plus 3, PDT, MST plus 2, MDT, CST plus 1, and EDT minus 1. EST and CDT are equivalent. (DEE)

Brian Avery, VE5PE4V, Box 65, Carnduff, Sask.

SUCCESS!!!! A couple days after I wrote my last forumula, I had my rf amplifier working magnificently. At 1st, I didn't think I had to ground the chassis since the amplifier worked about the same without it. When I added a ground lead oscillations were reduced up to 750 kc/s. As I was fooling around I touched the output lead at the variable capacitor with my finger. This completely removed all oscillations. Adding a very high resistance between this point and ground produced the same effect. This lowered the sensitivity somewhat but it was much better than having oscillations most of the way across the broadcast band. A couple days ago the thought suddenly struck me that a feed back control should help. After some experimenting I connected a wire from the output through a switch and potentiometer to the input. Best results were obtained by wrapping the wire around the input lead 3 or 4 times. For some reason this regeneration control gives more signal strength than can be used on all frequencies up to 910 kc/s. After that it acts as a degeneration control. I have always been able to improve reception on the lower frequencies of the broadcast band but the higher frequencies always have room for improvement. I rcvd my 6SJ7 tubes today so I replaced the 12SK7 in the amplifier with one. These r inexpensive "Micro" tubes (33¢). One was a little weak. The other didn't produce as good as performance as the 12SK7. I decided to increase the filament by a volt or so to improve performance. I was very surprised to see that this lowered the strength of the signals. I couldn't go below 6 volts on the train transformer I am using so I added a resistor to bring the filament voltage down to 5 volts. Lowering the voltage any more gave the amplifier too much gain. On strong stns I couldn't lower the signal strength below the point of distortion. However, this lowered voltage has no affect on the frequencies up above 910 kc/s. I believe I stated before that the amplifier tunes only to 1300 kc/s. But higher frequencies are also amplified considerably. Total cost of the RF amplifier was \$2.85 (not including "Edu'Kit" parts which would only have been junk if I didn't use them.). I spent 50¢ today for labels. I wish I could give everyone a schematic of the amplifier but I don't know the inductance of the coils. If someone with an "Edu-Kit" wants to try and build such an amplifier I would be glad to help in any way possible. If anyone can explain some of the odd results I had, I would appreciate a letter. 73.

Nick Hall-Patch, 2643 Cavendish Ave., Victoria, B.C.

Fellas...fellas..please! CHQM-AM has not gone to 100kw! That is slightly illegal in Canada. It's CHQM-FM that's gone to 100kw. This ties it with 2 other FMers for the most powerful stn in B.C. (DEE accepts full responsibility for the error-DEE). William Wilson, your JJ stn on 1170 is more likely to be KLOK which broadcasts all sorts of weird languages. The DX has been wicked in the past 2 weeks. Also, do any of you know of a method of getting out of bed to DX before one falls back to sleep. I don't seem to have the will-power. (Set an alarm clock in another room--you'll have to get up and turn it off--use electric alarm, of course--DEE). DX???? 3/30 KLGW-1390 at 2335 ID as K-LoGaN, KOVO-960 at 2342. 4/4 KWAL-620 at 0020, KSEI-930 at 2350. 4/5 KOHU-1570 at 2131. 4/9 CKEM-730 at 0010. 4/10 KYMN left air at 0700 for work on xmtr and was back at 0730, KOMY-1340 at 0800 s/on w/SSB. 4/11 CKX-1150 at 0004. If you want to hear pandemonium listen to a graveyard frequency at about 5 AM local time. In 30 sec's I hrd 4 stns s/on on 1340 but could ID only KOMY before semi-local KAGT came on. V/q's from WSGN (CE said it was a nice rpt; first compliment I've rcvd from a stn), CFAM for DX and v/1 from CFOX. 73.

Charles W. Buckley, 711 Madison NE, Albuquerque, N. Mex. 87110

Greetings from the land of no DX. The wind has been blowing here, hard, for the last week. Along with the wind comes dust, and when the dust is blowing in NM there is no DX at all. W s the DXM mailed late, it was received here on Sat. (YES-DEE). Did my DXF get to you late for the 4/6 DXM (YES-DEE). The rpt mailed here on Tues. I have great news here. Radio Stn KDEF is coming back on the air on April 28. The freq. is 1150. This was the best stn that Alb. had until they went off the air, because they went bankrupt. At this time I do not know the power, but I think that it is 1kw. Later on I will also try to find out when they have freq. checks. That about all for now---73.

YOUR EDITORS APPRECIATE YOUR GREAT SUPPORT FOR THIS ISSUE. WE ALSO APPRECIATE THE FACT THAT WE (I) HAVE NOT HAD TO DELETE MUCH DRIVEL. IT REALLY HELPS A LOT. (DEE)

Jon Clark, WPE6FZU, 963 Moreno Avenue, Palo Alto, Calif.

Hi all. I've finally decided to write again. I'll bet you thought I was dead, hi. Now for some DX (?)...stayed up this MM 4/12 and got these: KFI-640, XETRA-690, KABC-790, and KWIL-790. This was weird. It sounded like there was a f/c going on around there, but I checked and there wasn't. (Not all freq. checks are listed, Jon--DEE). I wasn't using any antenna (other than a 3' lead-in) with my Knight R-100 for a while and then I used a loop sort of thing that I rigged up. Sent them a report. Oh yeah, I also got WGY-810 after KGO s/off but they were really bad. Fixed up 2 more old rx's, a Zenith "Long Distance" creature and an Atwater-Kent 545. I'm working on an RCA R-70 and an old Lyric thing so one of these days I might find a rx that's capable of some DX, hi. I won't be in SD. CU all around. 73's .. SF '66.

Mike Wilson, 196 Westover Drive S.W., Calgary, Alta., Canada

I'm back. I may not renew...don't know yet, but I have gone back to all-band DX, especially utilities. It all started with my hearing MMW under CBK on 540! If anyone is int'd in utility DX, drop me a line. A couple of us here are wondering about forming an IRCA-type specialty club for utilities. 'Nuff. Wow! DX! 3/9 2259 KRPL-1400 long-sought one! 3/11 2204 KWAL-620, never even noticed this one before, 2250 KWSC-1250, 2320 KEX-1190. 3/13 Yay! 0416 KGMB-590 for #1 Hawaiian-Country #12. Heavy fading, though. 3/16 0030 CKSA-1080 (ex-1150). 3/17 1958 brought KWAC, #2 Calif. on 1490! 3/27 took a tape on 1420 SS, def ID at last-XEEX, not XEH as previously thought. This was at 0257. 0400 logged Cuba-720 for verie try. 4/4 2046 KSRV-1380 finally sat down and logged this one; 2052 KPEG-1380 s/off by the ton---v/1 WXYZ, KCLX, KDWB, HJGK (ctry #8 QSLed--sent a pennant as well), KWAL, KRPL, KXGN, CKXL, CHQR (did you get yours, John O.?), KQRS, KWIZ, KWAC (signed by a Notary public yet!); v/q KWSC, KOB, WSM, KEX, CBF; v/c KGMB (ctry #9 QSLed). QSL total now 196.73.

Richard Henke, 5316 Lydia St., Kansas City, Mo. 64110

CQ IRCA DE WPE/DYZ. Greetings from the home of the nation's tallest self-supporting TV tower (KCMO-TV tower height is 1042'). Strange things are happening on 950 kc/s! On 4/16 I rcvd WSPA Spartanburg, S.C. @ 0000-0015. With 5kw they were stronger than any of the other 42 stns on 950 kc/s. When they had signed off, K1SX Denison, Tex. came in on top of the frequency @ 0030 with only 500w. KIMN is closer, so they should be coming in but I never hear them. Is KIMN directional? Other st: 4/15 KELI-1430 1935, 4/16 KSL-1160 0040, KFSA 0105, 4/17 KXEL-1540 0800. IRCAers in N.W. and Milwaukee are planning meetings. Why not a central Midwest meeting? We have quite a few members in the area of Mo. and bordering states. Those int'd, get in touch with me. MIDWEST IN '66 (and I don't consider Florida a Midwestern state, hi). 73.

Gary Mondfrans, 791 Linden Ave., San Bruno, Calif. 94066

Whew, what a MM, this is my 1st MM this Spring, next one will be, Memorial Day, my father's birthday. Today QSL from KFAC in L.A. for my 2nd rpt. Tnx to the IRCA I found out who the Oriental on 1040 was--Peking. Now for the morning's DX. Here they are in order: KYNO-1300, KTRH-740, KGIL-1260, KGB-1360, KTEE-1260, WIBW-580, that's my 3rd in Topeka, KBLA-1500, WCAR-1130, CJCJ-930; my 1st Cuban BCB, CMQ-640. Questions: What's the power of these Canadians: CHUB, CKWX, CHEC, CFCN? Who's the stn on 1390 with EE C & W music in an Oriental language, hrd around 0623 EST? (KEMN , N. Mexico in Navajo which sounds like JJ or Chinese, hi-DEE). 73.

Bill Block, 1036 N.E. 80th, Portland, Oregon 97213

Hi. I rcvd a ltr today from Oscar Reyes and the ltr is postmarked both Cuba and Denver. Why the Denver postmark? I finished my loop antenna on 4/11 just in time for some MM DX. Now down to DX: 4/5 KYES-950 2131, KGRL-940 2155, KGAL-920 2159. 4/6 KWRO-630 2155. 4/10 KBLE-1050 2145. MM of 4/12 KELO-1320 0640 state 32, KFKE-1330 0701, KOLT-1320 0711, KEYZ-1360 0728 state 33, KRUX-1360 0740, state 34, KFIV-1360 0759, KAJO-1270 0835. All of the stns that I hrd on MM were with the loop. Rpts sent to KELO, KOLT, KEYZ, and KRUX. No recent veries. 73.

Ronnie Coleman, 5564 Mt. Aconia, San Diego, Calif. 92111

I did it, I hit the 200 mark in stns logged. DX since last rpt: 4/7 KONO-860 0705, 4/10 WHAS-840 0523. KGMI-790 0615. 4/11 KOL-1300 0729 (no. 200), XECL-990 0810. 4/12 (DX from 12:00 - 3:30) quit at 3:30 because of lightning, but the main reason was that I was bushed. WJR-760 0305, KAYO-1150 0530, KLOS 0425, KPRO-1440 0432, WING-1410 0450, KPAY-1060 0513, WSM-650 0610. Totals now 210/63. Only two veries, WCAU and KDOT. 73 and San Diego in 1965.

Joe Grag, 1002 Hilltop Drive, Palestine, Texas 75801

Hello Dads. HEY!!! What's this about the tapespondents list being dropped? I'll accept the responsibilities of the list. (Consider the JOB yours, Joe, and members, pse support him better than you did me---DEE). DX: WBZ-1030, WABC-770, KDKA-1020, WTIK-690, KNIN-990, WKY-1100, KFJZ-1270, KELI-1430, and WLAC-1510. All tapespondents: speeds 3 3/4 and 7 1/2 ips half-track, 7" or less. Hey, anybody passing near here that can give you a lift to SD for Convention?? Got cash but not transportation. Bye Dads. (Joe--your WKY is KYW--DEE).

A3C Paul R. Kirkpatrick, CMR, Box 80649, Davis Monthan AFB, Arizona 85707

Just a short note to let the rest of the members know my address. To those I owe ltrs, pse bear with me as I attempt to answer them as soon as I get a chance to. Would appreciate hearing from any Arizonans, especially any living in the Tucson area. (We have no members in Tucson--Roy Ackerman in Phoenix is our only Ariz. member-DEE). Believe it or not, I actually will have some DX to report in a future Forum! The birthday issue of DXM was a masterpiece--at first I thought it was NNRC's bulletin. Let's have a birthday issue every time! Tucson '67 and I'll try for SD '65.

Roy Ackerman, 8245 N. 27th Avenue, Space C-110, Phoenix, Arizona 85021

Hi. April 13th was a weird DX night. Listened for 6 hours to 1420 (but tuned off at various times to other freqs to break up my concentrated listening) and was able to identify in some manner seven different stns. The signals varied with 1st one or two stns dominant and then another. It was so weird, never hrd anything like it. Stations hrd were XEXX, XERPC, XEF, XEH, KSTN, KHFH and a mystery stn which dominated the scene. The ID was "Radio Ranchito" with a chant afterwards and the call letters each time sounded clearly like "XERH" & Chihuahua. Any ideas? Perhaps it is the weather, April 9th was good and added Florida to my list - VOA in Tortugas Keys. New stns heard in April: 4/4: KXLF-1370 2313, 4/6 KTYM-1460 2130, KCOX-1270 2335. 4/9 VOA-1040 2255, 4/13 KDAY-1580 2055, KVIO-1600 2058, KYCA-1490 2242; and 1420 kc/s as above. One tip for members when DX is slack this summer: The days are longer and daytime stations are on longer. Why not try for those hard-to-get daytime stns near s/off times. Have logged KUTY, KTYM, KDAY, KVIO in this manner. Those in the East might try for KYND first and later KDAY on the same freq. Have 100 potential veries to try for on fairly easy to hear stns divided as follows: Local Daytime Listening 23 stns; California daytime listening 18 stns; Early Evening Listening to powerful or semi'local stns 41 stns; and Late Evening or Early morning 18 stns. Wish me luck. Will leave real hard to get items until the fall season. Anyone needing Mex. QTH's, I'll be glad to furnish list of veries. In turn, I need XERB, XEXX, XEHN, XET, XEQ, XERPC and others. Latest DX totals: 330 hrd/103 verified. Until next month, 73.

Doug Kelch, WPE5EFC, 1920 Coleen, Las Cruces, New Mexico 88001

Greetings from the "City of the Crosses". ATTENTION: I swap WPE cards 100%. Recent veries to find their way to my mailbox are WBAP-820 for my largest v/q, KGNC-710 v/q, KELP-920 a note typed on my report, KGO-810 v/q, and WLS-890 v/q on f/up. Only new DX has been KFJZ-1270 on 4/12 @ 0050, but not enough for a rpt. Anyone want to play chess out there? Just send me a move. I sure would like to see a list of base-ball network stns, if anyone working on that? Does anyone know whether the SX-100 or HQ-145 are any good for ECB? Sorry not much DX this time, will try to have more next time. Totals here are a dismal 35/41 w/17 states QSLed. Until next time, 73.

Ben R. Young, 5279 Waring Rd., San Diego, California 92120

Greetings from Convention City. Tom J: I listen to KOMO, KOMA, KFBK, WHO, and KOB on my 8 trans. Lloyd's every nite. Got my WPE call, WPE6GBW. I do NOT swap cards. Now for DX: 3/29 CKOK s/off 0309 with S9 signal (50Cw nighttime), WABC-770 0400, CFCN-1060 (0415-0500). Veries in from WWL, WJR, KIEE, CFCN (v/c and c/m), Radio Americas, CKWX, and v/c from KDKA. San Diego IRCA Convention Aug. 20-23. 73.

Doug Kirk, 82 Riley Cresc., Winnipeg 19, Manitoba, Canada

Hi all from Canada's worst DXer. Owing to other activities, DX has been almost nil this past winter. If anyone needs a stn from Manitoba try CKY-580, CKRC-630, CJOB-680, or CKDM-730 all NSP. Dave Gleason, \$2 has been sent to HQ for SACCA. Good DX. 73.

JOE GRAG, 1002 HILLTOP DRIVE, PALESTINE, TEXAS 75801 IS IN CHARGE OF THE LIST OF IRCA TAPESPONDENTS. PLEASE SEND HIM YOUR INFORMATION IMMEDIATELY (MAYBE SOONER!)

YOUR BOARD OF DIRECTORS (DEE on 4/23)----- Thanks to the very prompt action of Dave Johnson and Dal John, I am pleased to announce several proposals which have the sufficient 3 of 5 votes for passing. This is somewhat unofficial as of yet since ballots from Ed and Dave Gleason haven't had time to get here (Dave and Dal sent by air mail to reach here by deadline) but it gives you the idea--Prop. 1 concerns a section to be edited by Gray Scrimgeour which will consist of Country or State of the Month, general feature articles, and several other things of interest. It has received the necessary 3 YES votes. A Countries List Committee is the object of Prop. 2 by Ed Krejny. It has received 3 YES votes. Mike Worst will now form a committee to make decisions on new countries to be added. I might note that Jack Keene has before the Board (in a later mailing) a proposal that INTERNATIONAL WATERS be counted as a separate country. Let your Directors know promptly of your opinions on the subject. Prop. 3 by Mike Shannon re a Govt. Info Sheet has 3 YES votes. Mike is in charge of this---write to him with questions, suggestions, etc. Prop. 4 has 2 NO votes but I am withholding my vote for a while. Subject of Prop. 4 and the outcome will appear next issue. Prop. 5 concerns censorship. It proposes that there be no censorship at all. It has received 3 NO votes. Therefore, the present methods of editing will be continued until the editors themselves decide to change. The editing of various items has the full-fledged support of our Secretary-Treasurer, both editors, and Dave and Dal. Prop. 6 concerns whether or not DXF editor had the right to include certain comments on Marv Robbins in DXF. 1 YES and 1 NO vote, DEE abstains for the present time. The proposal was written by DEE and is NOT written to do anything but to give the editor(s) an idea how the Board feels. Prop. 7 concerns a possible contest and vote is 1 YES and 1 NO. Final decision next issue. 8 was re a letter by Allan Cameron in which there was no proposal--but instead Allan made his feelings known. Prop. 9 by DEE concerns outlaw stns and the use of his POB for rpts for them. 3 NO votes means that the club does not take authority in deciding how he uses his POB (mine-DEE) and allows for inclusion of information on illegal stns. 10 is pending with 2 NO votes. The proposal, by DEE, would have "dedicated" issues in which members of a certain state or area would be especially requested to report. Unless BOTH Ed and Dave favor it, the proposal will not pass. That is a summary of action by the Board.-----Another mailing is nearly ready for the Board. A proposal concerning counting INTERNATIONAL WATERS as a separate country, a proposal that birthdays be listed in DXM, and a proposal that there be awards (certificates) for IRCAers is on the slate. Others will be added and they will be in the hands of the Directors in time for announcement of result in May issue, I suspect. (DEE). NOTE--names of authors of proposals pending or not passing are not given should the person not wish his name included by some chance.

Bill Lipis, WPE6DRU, 839 Terra Lane, El Cajon, California 92021

Editorial comments: 1, I suggest that as soon as the BoD gets the latest proposals they or someone else in the vicinity should have a meeting of the local members. At this meeting all the issues could be reviewed and a decision reached by all the members in the area instead of a single member of the Board, who, in many instances, doesn't know what the members really want. Of course, this is impossible for a few of the BoD as they might live in an area with little membership; but this, of course, is why the club will elect the BoD in this coming year's election by the seven region membership plan. 2. Many members have never met each other even in the sizable membership areas. Why not have more local meetings to discuss club matters and DX? 3, Isn't it about time the quibbling over the '66 Convention site was ceased--even if it's a "magic" city? 4-Why doesn't the club have refunds? 5-Totals for the next DX Records will be in the 5/19 issue, remember to get your changes in. That's it. 73's.

BILL NITTLER, IRCA Secretary-Treasurer and Publisher, has the following to say about refunds: When a member joins, he gets all the services of the club, f/c list, membership card, SS report form, CoF list, etc....why should we refund a member's dues after he receives all this. He gets all he is told he will get. No other organization you join will refund dues. Dues are dues. This is a club not a magazine. This is not a subscription.....it is a membership. (It would be well to note that NRC, which formerly had a 10-day limit on refunds specified in their RULES SHEET, no longer refuses refunds for any reason at all. However, ONLY TWO members have requested (IRCA) refunds. One has since changed his mind. The other had only a few issues of the bulletin left anyway--only a few cents coming. The above from BN edited by DEE)

SAN DIEGO IRCA CONVENTION 1965

When: August 20-23 Friday thru Monday

Where: El Cortez Hotel, San Diego, California

Pre-convention Activities: Tour of city, radio stations, Tijuana and stations XETRA and XEC, swimming, DX and fun!

Activities: Beach party, banquet, station visits, guest speaker, quizzes, SD Zoo, Sea World, swimming, sports, DX and FUN FUN FUN!

Registration: (Scheduled for Saturday morning) Cost \$7 and includes banquet dinner, beach party (hot dogs, etc.), convention quiz and prizes, QSLs for radio stns in the area and lots more.

Watch for QSLs for KGB, KCBQ, KOGO, and KFMB, commemorating SD's IRCA Convention.

San Diego is one of the nation's finest vacation lands, with ideal weather year round. The average daily temperature during August is 75 degrees and it dips down to a pleasant 65 degrees at night. Everything is within a two hour drive (at most), beaches (5 minutes), Mexico (20 minutes), mountains and deserts (1 hour) and Los Angeles (2 hours). SD boasts the world's largest and finest zoo, beautiful beaches, historic landmarks and monuments and brand new Sea World.

The El Cortez is San Diego's convention center and one of the city's finest hotels. It has a beautiful pool, the world's first glass elevator, many convention and banquet rooms, and is to be sure, a small city in itself. The IRCA Convention rates are extremely reasonable:

\$5 a night per person for 3 or more in a room
\$13 a night per couple

We must have your reservations in before August 10th!

If you have any questions, comments, or suggestions concerning the convention or if you would like brochures on SD and the El Cortez, please write:

Larry Schwartz
4819 Atlanta Drive
San Diego, California

COME AND ENJOY THE FUN ----- San Diego '65!!!

Wally Sharp, 21814 Pacific Hiway South, Kent, Wash. 98031

KXLY-920, WCCO-830, CKOK-800, KYA-1260, KHSL-1290, KUJ-1420, KFMC-1560, KFBK-1530, KKHI-1550, KGA-1510. Am trying to get all RS in Washington.

The masthead supply has been exhausted but will place a new order soon. The bulletin had to be run out on letterheads this time. Any suggestions for changes on masthead? If so, get them in to HQ right away as they will have to be ordered as soon as possible to be ready for the May bulletin. The address will not be included on new mastheads as the club address is subject to change.

IRCA STATIONERY

Club stationery is available from HQ at the price of \$1.30 per hundred sheets, ppd. The letterheads are exactly like the ones used for the first page of the bulletin this time. The supply on these is also getting very low and any ideas for new ones will be appreciated.

WATCH FOR CHANGES IN THE CLUB AS THE IRCA CONTINUES TO IMPROVE WITH MATURITY!

The constitution and by-laws will most definitely be out in May for your ratification. Immediately thereafter, elections for new club officers will be held. Make your preference for club officers known! Nominations for office will be accepted soon.

- 550 KMVI Wailuku, HAWAII was logged through KOY at 0205 on 4/12 thanks to the Cuban shuffle. It was also caught at s/off in the clear at 0408. Other Hawaiians in well at the time were: KORL-650, KHAI-1090 and KAIM-870 (with WWL). (KGS)
- 615 YNM Managua, NICARAGUA, "Radiodifusora Nacional" sent a nice blue and white pennant and a letter verie. Thanks to Larry Godwin ! (BN)
- 692 SWH, EAST GERMANY verified via a QSL card that specifies the frequency, but no location. (CMS)
- 730 ???? A mystery station was noted here on 4/19 at 0512 and again at 0631 with accented English. Sounded like the same station both times. The latter time would probably rule out Trinidad. Possibly 5 CL in Adelaide. Real good signal at 0642. (RJS)
- Port-of-Spain, TRINIDAD, "Radio Trinidad" verified my 2/1 tentative report with the standard letter signed by E. R. Mc Dowell. (RJS)
- 770 ???? I'm not sure if I had 3 LO or WEW at 0630 on 4/19. They had three ascending bells similar to the NBC and a time check; possibly for "10:30". (RJS)
- 800 YSAX San Salvador, EL SALVADOR, "La Voz Panamericana" verified on a plain letterhead. Thanks to Larry Godwin for this one also ! (BN)
- 828 YNOL Managua, NICARAGUA, "Ondas del Luz" sent a postcard which was received 4/9 for my 12/29 reception, via Larry Godwin. Signed by Leonot E. de Martinez for Norberto Herrerez, Gerente General. They said they never received my original report. Has this one shifted frequency again ? I haven't heard it in a week or two which is highly unusual. (JLK)
- 830 3 GI Sale, AUSTRALIA was heard in // to 840 on 4/19 at 0628. (RJS)
- 840 4 RK Rockhampton, AUSTRALIA was heard weakly on 4/19 at 0628. (RJS)
- 850 KIMC Hilo, HAWAII was noted to sign off at 0302 on 4/17. It left two others on the frequency. (One was KICY, which was in at a readable level by 0415.) (KGS)
- ???? Another unidentified station ! This one was in SS. Very weak. Heard on 4/13 from 0359-0440 tune-out. This would preclude HJKC. It was mixed in with two EE stations. (KICY and WJW or 2 CY) WRTVH lists CX 16 sked as 0800 s/on. YNAV has an 0300 s/off (?). TIUCR has an 0900 s/on. So possibly YVLD or TGX, Ed ? (RJS) (I believe TGX is now supposed to be on 860, Randy. - ed)
- 860 XENL Monterrey, MEXICO - The best time to hear this one on the West Coast is Tuesday AMs when KONO is off. XEUN went 50 kws. didn't they ? Are they AN ? (RJS) (Supposed to be 50 kws. Day, 25 kws. Night. I doubt that they are AN. - ed)
- 875 TISS San Jose, COSTA RICA, "La Voz del Tropico" verified on a nice blue letterhead. Thanks to Larry Godwin ! V/s as listed by Larry. (BN)
- 908 Burg, EAST GERMANY - In response to my December report for this frequency I received the standard DDR type QSL card, but for 782 kcs. ! Much as I'd like to count this one, I won't. Wonder if they'll admit to operating this transmitter ? (ELK)
- 917 TIRS San Jose, COSTA RICA, "Radio Atenea" sent a verie on a "Club Juvenil 975" card definitely specifying 917 kcs., where I heard them. Was for a 1955 report; never give up ! Thanks again to Larry ! (BN)
- 940 KAHU Waipahu, HAWAII continues to put the best Hawaiian signal into La Jolla (e.g. on 4/19 at 0310). (KGS)
- 955 TGAX Guatemala City, GUATEMALA, "Radio Continental" was logged on 4/10 at 2310. Seperable from local KPRC on 950. (JLK)
- 980 XEKE Navojoa, MEXICO - The correct slogan is "La Grande de Navojoa KE". I goofed. (JLK)
- 990 XET Monterrey and XECL in Mexicali, MEXICO were both heard clearly. Need their full QTH so I can send for veries. (LPA) (WRTVH lists them as: XET, "El Progonero del Norte", 15 de Mayo Ote. 650, Monterrey; and XECL, Av. Madero 621, Mexicali. The latter checks with my verie. - ed)

- 1000 CP 19 La Paz, BOLIVIA, "Radio Aspiazu" was logged for about 10 minutes during their DX program. QRM from an OC (KOMO ?) and another LA. Static was bad, as you noted, and that carrier may have actually helped. (CMS)
- XEOY Mexico City, MEXICO, "Radio Mil" was heard weakly and rarely due to the strong signal of KOMO after dark. In the daytime it gets QRM from KTKT-990 and KCAC-1010. See 1420 kcs. comment. Perhaps XERH is operating in // with other stations, and RJS might be hearing XERV. (? - ed) after all. Any slogan, Randy ? (LPA)
- 1040 4 ZB Dunedin, NEW ZEALAND and KHVH in Honolulu, HAWAII etc. - It's great fun sitting here on Sunday mornings trying to get details from 4 ZB. They're "in and out" u/ KHVH and WHO's OC. "Radio Tupi" in Sao Paulo broke through on 4/11 at 0245 too. Peking was missing here, so only 4 countries ! (KGS)
- 1088 Tirana, ALBANIA verified via QSL card. They underlined their wavelength, and it is otherwise a good verie. Country # 102 ! (CMS)
- 1093 YNQ Managua, NICARAGUA, "La Voz de la Victoria" was possibly the station I heard on 12/28 on or near this frequency. Was heard by the NRC on 12/2. (RJS)
- 1100 3 ZB Christchurch, NEW ZEALAND verified my 4/5 report. V/s unreadable. (KGS)
- 1170 KOHO Honolulu, HAWAII was noted with JJ programming then a good s/off at 0400 on 4/19. Taped f/up on the way with a PPC. Gave s/on time as 1000 EST. (KGS)
- 1195 TICA Puntarenas, COSTA RICA, "Radio Columbia" verified on a network letterhead which lists 1175, but the verie specifies this frequency. Letter also verifies TIRU-1505, defunct one in Liberia. Thanks to Larry Godwin for these ! (BN)
- 1198 NAA (Reference DXNW, 30 March) This Naval Communications station is located in Cutler, Maine. (MR)
- 1210 KZOO Honolulu, HAWAII was almost positively the station I heard with slow hula music on 1/16 at 0120. Signed off at 0126 with a regular US s/off mentioning the FCC at Washington, but gave no anthem. Said s/on was 0600. Hawaii # 1, and the first station heard past KSL ! No fading, but WCAU QRM was heavy, although KZOO was surprisingly loud ! (HMM)
- 1260 XEL Mexico City, MEXICO was heard loud and clear in SS as a contrast to the EE language programs of CFRN in Edmonton. (LPA)
- 1270 XEAZ Tijuana and XEHN in Nogales, MEXICO were heard clearly again at 2345 on 4/13. XEHN has a strong signal in spite of being only 100 watts. (LPA) (Roy, see the comments on "XEHN" in DXNW, 13 April. Were any calls given ? - ed)
- 1300 KZQR Saipan, MARIANA ISLANDS is a United Nations Trust Territory station with IDs in EE only on the half hours. Programming noted on 4/12: from 0400-0430 RR music; from 0430-0515 classical music. The announcer could barely speak EE. Must be newly licensed. Announcer stated frequency as 1550, but measured here as 1300. (MR)
- 1385 WKLE Eniwetok, MARSHALL ISLANDS runs 250 watts (Gates transmitter). They have two operators: Lee Webb and Ed Cushman, and are on live from 0030-0600. At all other times they are on a record player continuously. They call themselves "The Voice of the Central Pacific". Mailing address is: WKLE, AFRS, Eniwetok, c/o FPO, San Francisco, California, 96333. (MR)
- 1420 KEXX Tijuana, XERPC in Chihuahua, XEF in Ciudad Juarez, and XEH in Monterrey, MEXICO - An unusual DX evening ! Tuned in this frequency off and on for 6 hours from 4/13 at 2052 through 0200 on 4/14. The various signals seemed to fluctuate, and first one was strong and then another. (Up to 3 distinguishable at one time.) I was trying to ID one station heard, but no luck. Heard "Radio Ranchito" ID followed by a chant-like cheer, seeming to repeat "Chihuahua" and the call letters "XERH" in SS very clearly every time. But XERH is on 1500 ! Is this a // program ? KSTN-Stockton and KHFH-Sierra Vista were also noted. Can anybody help

1420 XEXX (cont.) me on "Radio Ranchito" (LPA) (Roy, XERPC in Chihuahua is ex-XEII, and they use this "Radio Ranchito" slogan. I wonder if you're not confusing a fast "PC" (peh-seh) for "H" (ah-cheh) ? - ed)

1451 KEPP Orizaba, MEXICO was noted here on 4/10 at 2200. It has now returned to 1450. (JLK)

1495 "Radio Caroline South", INTERNATIONAL WATERS finally verified with a very nice and friendly letter from G. Saunders. I was very pleased to get this one - for my third "Pirate", and my 57th. European. (ELK)

1580 XEDM Hermosillo, MEXICO has a signal here which dominates KDAY in Santa Monica even though they're both 50 kw. stations. (LPA)

1590 XEMB Monterrey, MEXICO was heard in well on 4/13 at 2112. (LPA)

"PIRATES"

"Radio Caroline North" - 1520 and "Radio Caroline South" - 1495 operate from 0000 to 1400. (Recent verie says 0100-1500 for "South" and 0100 to 1600 for "North" - ed)

"Radio London" on 1129 runs from 0000 to 1500.

"Radio City" on 1033 and 1609 runs from 0100 to 1300. (Possibly 1033 in the daytime and 1609 in the evening per later SCXD info - ed) Has Religious and Cultural programs on 1609 from 1200-1300.

"Radio Veronica" on 1562 runs from 0100-1900 but has been heard after 1900. Has Indonesian programs every Thursday at 1400-1500, Spanish on Fridays from 1600-1630 and Italian on Saturdays from 1600-1630.

"KING Radio", Oxford House, Folkestone, Kent, England operates from an army fort off the coast of Kent, near Horne Bay, from 0100-1300 on 1268 kcs.. This is obviously the old "Radio Invicta" which is said to have been bought by the Irish "beat Group" "The Bachelors".

"Rade" (? - ed) is a new "pirate" expected to be on the air later this month on 288 or 294 meters (1043 or 1025 kcs. - ed) from 0200 to 2000 or 2100. Also intends to operate the first British "pirate" TV station at a later date.

(All of the above information is from SCDX, except as noted)

COSTA RICA

"Radio Columbia" lists the following network stations:

1	TILX	San Jose	725 kcs.	
2	TICA	Puntarenas	1175	(heard on 1195)

WRTVH Bulletin of the World Radio and Television Handbook

MEXICAN STAMPS - Note that the DX Stamp Service DOES have Mexican stamps in stock. "Sax" indicates that he may have been out of stock temporarily, but they are now available. He says that his only trouble lies with getting Somalia stamps ! I believe that they are still priced at 15¢ apiece. Gene Allen, please note. (ELK)

FOREIGN CONTEST -The next standings will be published in the 15 June issue, so get your entries in to me by the 12 June deadline. Remember that entries will be accepted until 14 August, although the final date for logging stations will be 30 June.

The following changes in the European broadcasting spectrum were noted in EBU Report No. 40, Supplement 40-B, dated 1 March 1965:

529	Bechar, ALGERIA noted here until mid-February. See 560 and 565.
