A list of the Holiday reporters will be included next issue. bl

A wonderful list of reporters and some fine DX tips considering the holiday season. Welcome PSM. Some fine catches and report often. But be sure and report what anthem if any, is used at s/on or s/off. JWH/This issue kind of short--several reports left over. All bulletins out by First Class this issue. Next issue will include an article on Radio Hauraki. Also, Domestic and Foreign DX Records, and State of the Month will be included, too. REPORT!!!!!!! HAPPY NEW YEAR!!!!!!! REPORT!!!! bl

Here I is again. Seems like the rock format is becoming the most popular; the most profitable at least! Two more California stations made the switch recently. KLOK-1170 and KNKS-620 are now among my list of favorite stations, hi. They REALLY made a switch KLOK from some foreign language and KNKS from middle of the road. Now, if KWKW goes rock, I'll be set for life!! Only new station heard is KGHT-1520 over KACY every day at sunset. Seems impossible though since KACY has 10 kw then and is only 100 miles away while KGHT is over 200 with 500 watts. KMAX-FM gets my award for the most varied programming; everything from classical to rock to country!! Does anyone know how much power KBLA uses at night??? 10,000 or 1000 watts??? (I'd say 1000 from signal here. mbn) KXRX starts to eat them up about 15 minutes before sunset. Later at night they get stronger tho. Won a single & album from them a few weeks ago. Do any US stations use reverbs?? None out here do. Well, I'll s/off for now. 73.

Phil Meidell - 19 Marlee Road - Pleasant Hill, California 94523

Hi fellow DX'ers: Well, I said about three months ago that I'd report regularly, which I of course didn't do, so I'm going to make a new year's resolution. I will report at least every other issue! Many thanks to Bob Foxworth for all the information on Q-Multipliers! I wish I could build one now, but I am really short on funds due to the Good Time of the Year. Congratulations to the CPC on the fantastic job on lining up DX specials!!! They have been a great help in my DXing. Ex member Bill Duncan once said to me that the IRCA would double my loggings. Well, it has done more than that for me. I've been thinking of compiling a list with the help of the members of stations which definitely do or do not respond to reception reports. I don't know if this would be practical or not, so I will ask any of you to make a comment on this idea in the DX Forum. That's about it for this time, so I'll say Merry Christmas and/or a Happy New Year, depending on which issue this appears in. (the latter. mbn) 73 Good DX etc.

Bruce Portzer - 14056 5th Avenue South - Seattle, Washington 96868

Just as I wuz hoping my veries have been coming in at a slightly faster rate. New ones in here are v/l KORL, KOOK+SC+CM, KEED+Owl Decal, KITT, KFRC, KGAL-DX; v/q KIDO (not KGEM, hi). This brings me up to a grand total of something like 231/21 with 29/13 states, 4/0 provinces, 7/2 countries. The KOOK v/s told me that my report "was one of the better received...most DXers don't even bother to tell us how we came in, let alone what they heard." I'm not going to mention any names but someone isn't doing a very good job of reporting to stations. He might be exaggerating a little in saying most DXers don't include program details but just the same it's not a very pleasing thing to hear (even after I wuz told my report wuz above average, hi). Its almost as bad as not reporting to DXF&R. Wots with Alaskan stations. I sent a rept. to KFAR-660 in 9/65 and a f/up in 12/65 neither of which produced results. A KFQD rpt didn't bring me anything either and its been out about a year also. If any of you have either of these veried let me know. OK? (Some lucky souls do, I believe. mbn) Well, by the time you read this report the Holidays will already have passed so I guess I'll have to wish everyone a BELEATED (sic) seasons greetings. 73. (Tnx for the call, Bruce. mbn)

Hello faithful readers. It's me again. I hope this isn't out of line, mbn, and doesn't violate the Editorial Policy. (Dunno, let's try it and get a ruling! mbn) Log Check: latest additions: #358-#367: (* rpted) KGRL* KYNG* KALL(#6 Utah) KWAL(#16 Idaho) KOFI (#12 Montana); KYES* KCTA KALF*(#1 Ariz) KRDR(#53 Ore) KBGO*(#7 Texas). Latest veries: v/q WKYC (very nice); KSLM, v/l KYNG+SC. Reports out to KGRL KYNG KSLM KYES-DX KALF KBGO and a f/up to KENY all w/return postage. mbn, all your typewriters look great. (Tnx, Jon. See below. mbn) Who is Province of the Month Editor? (Is there such an animal? mbn) Watt Power Dept: What is KXRX's watt power? KENY (seems to be very weak lately) (always weak here, hi. mbn) XEDM XETRA (50 kw. mbn) XERPM XEW XEQR XEWK XEWA? KGON's in 7/64? (Same as now. mbn) CFVR is 1 kw day and night. Merry Christmas to every one and a Happy New Year! Good Solstice DX! 73.

Brian Elder - 8267 14th Avenue - Burnaby 3, B.C. CANADA

Hi gang, a belated SEASONS GREETING and best wishes for a DX filled New Year to everyone. Only one new verie received here in the form of WJR - v/q. Reports out to KYES for IRCA DX special; KOFI; KKHI; KISN; KEYZ; and CHWK. Bruce Kirkpatrick: KPH veried for me last March. If XERB has 150 kw, how cum they ID as only 50 kw? (They probably know best--50 kw it is! mbn) That's about it for this year. 73 and good DX.

Dave Johnson, 940 Veta, Pueblo, Colorado 81005

Hello dare! As usual, have a little extra space to fill. Bruce K.; sorry, no room this week for your report, so will hold unless I hear from you next week. Due to the vacation, I've been able to get some DX done for a change. So far I've just been up on MM's, but plan on changing that. Only one DX special heard so far, but did hear a new country. Country #22 into the log book is Trinidad-730. Totals are now up to 689/490. Finally out of space, so audios.

Hi gang, to quote our illustrious President. Thought I would take a few lines of Dave Johnson's column to fill you in on a few things. First of all, some members have written regarding Sec. III, H, of the Editorial Policy. As I said in the 12/3 DXM, this section is primarily to preclude a major rephrasing to the extent that the published report would read entirely different or out of context to what the submitted report reads. Minor alterations such as corrections in grammar or punctuation, provided they do not alter the original meaning, would not necessarily be considered "rephrasing," for "rephrasing" means to restyle a group of words in a sentence. Also, editors do have the authority to alter reports in various circumstances such as outlined in in Sections II, B, 1, 2; II, B, 1, d, 3; III, A, and III, D, and reports falling in the categories mentioned in these Sections would not necessarily have to be indicated as being rephrased. Hope this clears up some misunderstandings. ATTENTION ALL IRCC MEMBERS! The kid will be visiting Reagan's land on Jan. 9. Will take a buss on the 9th to attend the 1965 SD Convention (better late than never?). Yours truly will be leaving Barry Goldwater's home in March to go to Germany for two tears. That's all I know about it so far. 73 and a closing thought: Did you thank God for his Christmas present?

"Snoopy" Fredrikson, 3300 W. 57th St., Chicago, Illinois 60629

Happy Robert E. Lee's birthday (missed all the other holidays). Just got myself an Airline 10 xstr AM/FM/SW rig, but I got it mostly 4 SW since I'm up to my front paws in xstr rigs (when standing erect on my hind paws). I guess nobody noticed my deliberate mistake on my Rose Bowl prediction (deliberate as of the moment before I discovered MSU isn't in the Rose Bowl). New prediction: Purdue 28, USC 14 (that I'll go along with dj). Rick Evans: Where'd u get the IRCA insignia stamp? Are they still available? I'm planning a trip t/Fla. after Christmas, & I may pause long enuf 2 pitch hand grenades at our southern members! dj, how do I get BoD approval 4 the cardswappers list? (Submit 8 copies of your proposal to the President. See the 9/10 issue for more details dj). V/q f/WBAP-820 & 3 straight picture v/cs f/KMOX, WDAF, & WKZO. How's about some of u guys putting in ur rpts what the #1 song is in ur area? 4 those interested, it's "Winchester Cathedral" here (12/21). I'll leave u now w/these words f/the inspired pen of Charles Schultz "Those who can't do, teach"-Charlie Brown.

Bob Rowen, 1729 Church Street, Stevens Point, Wisconsin 54481

Greetings From Central Wisconsin, Happy Holidays & Gud DX for the Holiday. After that lengthy intro, I feel I should tell you, I have just finished shoveling about three inches of Light and Scatter Snow Flurries as our Weatherman puts it. HI. Veries found in my mailbox are v/q WKYC, WIRL, WDBJ, WHB and v/1 KSAL, WMBD, and DX Special of WJPB. Have finally heard Wolfman Jack, but on both XERF & XEG what gives? Do either of these stations verie? (They did for me dj). Just finished my ant. booster only to blow a tube in the SX-96 before I could test it, HI, so while it is getting fixed the box sits unused and I'm using the standby (kn. Star Roamer). "Snoopy" Fredrickson; if you get approval for the swap list put me on. That's it from the Dairy State, so 73's and best of LUCK during Vacation.

Hi all! It's good to be back in these hallowed pages! I hear that Jim Foley is busy making a statue. We all know what a great magician Jim is, but it seems he isn't too good at making things reappear. Hi! New veries: 4VEF, Radio Belize, KUDL-1380, and CHUM-1050. My vacation DX thus far should be in DXR. Totals: 487/289, states 43&DC/41&DC, provinces 8/7, countries 12/7. Hope everyone enjoys the holidays. Go get 'em Pack!! 73.
