This bulletin going out at 3PM Saturday. Only 6 pages...REPORT! or... Latest word from Mike Mitock is that "in the latest IRCC elections, Lawrence Bainbridge Johnnsen (reverently refered to by IRCC members as "Larry Bird") won his second 8 year term by unanimous vote of the IRCC membership." Mike goes on to state that Lawrence was the only one running, but advances no proof of this. Another "attack" of Lawrence?

Editor: Mike Northam - 1840 Agate, Apt. 2 - Eugene, Oregon 97403 - (mbn)
Don Davis WPE6FXQ - 1862 Cliffhill Dr. - Monterey Park, Calif. 91754

It's about time I reported in, so you wouldn't think that I'd dropped out. Following current trends: here is a brief resume of my set-up. I bought a Hammarlund SP-400X for \$100 in June from my electric shop trader. It has 18 tubes, dual conversion, crystal selectivity, S-meter, BFO, AVC-MANUAL SW, etc. Sens.-3 k.c.+, selectivity unk. (Aren't those specs reversed, Don? mbn) I have logged 40 countries (SW - 23 verified), 33 sts, and 8 provinces. Coverage is from 1200 kc to 40 mc. Not quite all of the BCB (hi). Upon hearing the MN-26C mentioned in the forum, I jumped out with 20 bucks and got the radio and control box. I now have about 50 bucks tied up in it, and it still doesn't work! I still need a wiring diagram to connect some 40 connections. WHOEVER HAS AN MN-26C, OR A WIRING DIAGRAM, PLEASE WRITE!! I can't find the bulletin where it was described, otherwise I would have written him before I bot it. I'm a sophomore at Montebello High, and pushing a B+ average, so no DX on the BCB. SSB on 20 meters comes in great on my Super Pro, so I can log foreign hams easily. I've said about enough. Auf Wiedersehen und griten DX!

Dallas A. McKenzie - G.P.O. BOX 3700 - Wellington, New Zealand

NEWS FLASH, Rich Heald mentioned on N.Z.'s Pirate. Last night at 1010 GMT, I took a Rain Check on our 1480 kHz Pirate Radio Hauraki, guess what,...This is what I heard... 1010 GMT Carl Olsen's voice..."remember some time ago I asked you to write no matter where you lived, 2,000 or 3,000 miles away?...Well we got a letter from Alaska, well read you part of it..boy 7,000 miles away, Thanks Rich,..." Continued playing Pop Music then at 1017 GMT: "sorry folks, we can't find his letter, but we will and Quote to you from it, Carosel will be pleased their ad was heard 7000 miles away by a Yank, we'll sure tell you what he said when our Rat Fink Technician finds it!" Well, never thought that even though I forwarded Rich's report on to them, I'd hear them call him. A REAL FIRST FOR U.S.A. Regards. (Congrats Rich--you're famous now! mbn)

Mike Northam - 1840 Agate St., Apt. 2 - Eugene, Oregon 97403

Well gang, it's official. After several weeks of frenetic activity (and no DX, hi), I've finally accepted a position at the Northwest Regional Educational Research Lab in Portland, Oregon, where I'll be a computer programmer. I expect to move permanently to Portland on March 10, so be watching for my new address as soon as I find a place to live. I will continue to be editor of this column, although there may be a few changes in procedure necessitated by the move. Of course I'll pass on all details to my loyal following(?) as soon as they become available. Veries: KTNT v/1. Boy, I'm sure keeping the postman busy, hi! I really enjoyed the DXer of the month feature on Ed Krejny--hope we can have more. Paul K.: I'll retract my comments about your 1/21 report. I was just assuming that reception conditions in Berkeley were much the same as here in Eugene, and all those stations are regulars here! (Unless maybe you want to start another personal attack campaign, hi!) A hearty vote of appreciation from one editor to another goes to Steve Russell, a job well-done (even if with only one finger). Regarding Larry's Presidential Report: I think the IRCA Booklet would be an excellent idea, ideas anyone? I still have to be opposed to the idea of a "reluctant verifiers list", mainly from a public/station relations point of view as delineated by several (including myself) in the past. If it is really felt that such a list would not cause any ill feelings on the part of certain stations, then I'm in favor, however. 73's.

Eric Floden - 6565 Clinton - Burnaby 1, B.C. CANADA

I guess since I'm new, I should introduce myself. I use a Hitachi TH 812, and a scrapped Marconi 417 w/150' longwire, and I'm 15 years old, grade 11. Totals to date are: 55/35; states 20/17 (KLAK, Colorado, courtesy Brian Elder, Jon Pearkins); provinces 3/3; and countries 4/4. Unverified reports of a month or more are: KGW-620 (twice), KPAY-1060, XERB-1090, KOMA-1520 (twice) (send SASE. mbn), and WJR-760. These results are from my first logging, July 17, 1966--KCPX. GOOD DX!! (Welcome to yet another Burnaby member! Report often Eric, and to JWH!) (mbn)

John Peters 3518 Lakedale Ave. - Burnaby 2, B.C. CANADA

Hi! I'm back to the forum once more. Hi Little Jon! (Whoever you are.) Latest veries since last report are: WFAA KGO KWSC. I haven't had too much DX lately mostly on account of school. Totals 318/46. I built the IRCA loop, but am not pleased with it because it doesn't have enuf gain for my receiver, which is a seven tube Lafayette, the HA-63 I believe. It is quite a good RX as far as I'm concerned. I want to correspond, swap SC's, tapespond, or trade ID's by mail, (Hope). Gud DX & 73.

----- Deadline: Wednesday AM Mail -----

Bruce Portzer - 14056 5th Avenue South - Seattle, Washington 98168

Greetings guys, gals, and all other IRCA members. Yes, contrary to public demand, I'm back. First of all, congrats to Paul K. on his fine DX while in California. KNBR & KCBS are two of my most wanted stations (would you believe...). Also, where do we contribute our money for the 'send CMS & RFS to Swan Island' fund? (Make checks payable to me, hi. mbn) Well, a few new veries have been discovered in my mailbox since last time: v/folder PJB (country #5), v/1 CKOK (actually my report with OK scribbled on it) (that's usually denoted v/r. mbn), v/q KXEL. Got kind of a laugh of sorts from the KXEL verie. It seems that I reported in kHz. When the verie arrived the KC part where freq. was specified was underlined about 4 times and the following was written on the back: "We use KC/S to broadcast. Many other stations are 'really HERTZING!' not us." Apparently there are some (others mbn) who don't like to change! I also got a verie from KGU which was the second one from the same report signed by the same person! (They just wanted to be certain, Bruce! mbn) New #1 song in Seattle: "Kind Of A Drag". I've got SC's from KOL, CKLG, CFUN, and a few that aren't connected with any radio station. Anyone care to swap? A bientot.

Larry Godwin - P.O. Box 1048 - Berkeley, California 94701

Hi gang. We had a miniature IRCC convention in Berkeley on 2/1, with Clarence Freeman of Auburn, Mike Leventow of Berkeley (formerly of Maryland), and Art Peterson of San Pablo present. By the way, Clarence verified Fiji-890 about 8 years ago. I enjoyed Ed Krejny's profile and think "DXer of the Month" is a worthwhile feature. Congratulations on your 500th verie, Dave; I have 106 to date, hi (from Calif.). Ernie Wesolowski, did you get a verie from British Virgin Is.? My hard-back WRTH hasn't come yet; anyone else's? The 1/28 issue was good-sized - let's keep 'em that way! I enjoyed Gordon Nelson's comments on Swan, too, and certainly agree with his points. Carnival season started the 3rd, so watch for Latin American's on late. And don't forget to make plans now for the big IRCA National Convention in Denver! It'll be held August 25-27, so arrange your vacation time now. 73's.

Brian Elder - 8267 14th Avenue - Burnaby 3, B.C. CANADA

Hi there, I would like to welcome all new members to the IRCA especially Eric Floden, whom I visited on the 28th. That makes 5 IRCA members in Burnaby, a town (actually a municipality, hi) which isn't even on maps. Does any town have more members than 5? Latest veries here have been CKOV-630 (v/1) KAYO-1150 (v/1) KKHI-1550 (v/q). In Jan. I received only 10 new stations and 9 veries. I hope the future months will be better than this, tho. Last MM (1/30) CX took a turn to the good after 2 months of lousy CX. Let's hope they stay that way. Nothing else to say so I'll leave it at that. 73's.

Cx better both 1/30 & 1/31 so hoping for better things in Feb. KCLR TEST was a real boomer and their strength was amazing to me. I phoned Dave Taylor the C.E. about half way thru his program and let him listen to himself and he was pretty excited. The East Coast came thru same a.m. which is pretty unusual this season. A few veries trickled in this week due to a rash of f/ups I sent out 1/22. All v/1 from KKA-770, KAJ0-1270, KNPT-1310, KNEW-910, CKDA-1220, KWSO-620, KGAR-1550, & KUTI-980. Total is now 1730. 179 from Calif., 45 from Ore., & 53 from Wash. 232 of these are from DX in California. mbn, probably the reason your recent question was referred to me is that back in 1950-51 when I was young and had not discovered the female sex and all the drawbacks that accompany them I managed to verify 1003 stations in a years time. I have no idea how many stations I heard and/or reported but if my memory serves me my verie % was about 80-85. I believe I heard around 1800 stations from Jun 50-Jul 53, but that was in the days when the band wasn't so cluttered and the freq ck list was 15 pages or so. Also this was from Iowa where domestic DX is much better than the WC. (Don is referring to my query regarding the record # of stations heard by a beginning DXer in one year--I had 517, hi! mbn) Who's the station about 1605 giving wx rpt for No. Greenland and McMurdo Sound Area? 73's. LATE FLASH--Informed sources report that the so-called "Radio Americas Controversy" will be the leading issue in both the U.S. & Canadian Presidential/Prime Ministerial elections. I will gladly contribute to the proposed fund to send someone to investigate Swan Is., but will need to know who is going and whether it is to be round-trip or one-way passage. 7733's. (Whatever's right, Don! mbn)

CST/MST DX FORUM

Ed Marr, Route One Box 95, Elwood, Illinois 60421

How's the weather in your part of the country? It's about 23-24 inches deep here, hi. I just getting to where I can move around again after being snowbound out here in the sticks for 3 days. The mailman made it thru today with a couple veries. Un question: What constitutes a verie? Would one record survey, one bumper sticker, one book of matches, and one returned reception report qualify as a verie? (Not quite. dj) That's what I received today from KWOC. Maybe the CE wrote on the back of my report in disappearing ink. In a recent verie from KMPL the CE said he hadn't the time to enclose a survey and other literature that I had requested. Apparently KWOC used the opposite approach. Other veries: WABC, KPFR, *KROX, *KRG1, *WDKD (#1 S.C. state 35), WRBC, WCIN, *KFVS, *WARI, *KVOX, KAST, KAKC, WLSM, WGST, *KMPL, *KDCE (# 1 N.M. state 36), *WABD. * denotes hrd on a f/c from the list. Got my WRTH but I don't know if it is going to be much help to a hardened domestic DX'er like myself. Quite interesting tho. Noticed that WOKZ 1570 is listed as 20KW. Is this correct? Speaking of XERF, hi. Has anyone ever visited their studio or transmitter site? Have they ever verified anything? (Yes. dj) One last question. Am I correct in assuming that they are directional to protect CFOR? I have been DXing(I call it that) for 25 months now. Totals read 418 hrd 224 verified, states 39/36, provinces 5/5. Countries? Ha! If I let it be known that I plan to come to Denver next August, will anyone else show up? (Should be at least 4 of us anyway Ed. dj) Thus ends another of my interesting and informative Forum reports. 73.

Ernest J. Wesolowski, 1416 Pasadena Avenue, Omaha, Nebraska 68107

New stations logged during the past two weeks were KWBA, KXEN-DX, CBR, & a welcomed KOWB with local KOIL off on MM. Veries are from WTSN-DX for state #48. Needed are Alaska & Vermont. KOWB & WHKY-DX. Broadcasting Yearbook for 1967 arrived today. Cost is still \$5. BROADCASTING PUBLICATIONS, INC., 1735 DeSales St., N.W., Washington, D.C. 20036. Occupation required! A new antenna was placed in the attic N/S about 35'. Now I can receive many more frequencies without images of locals. The outside antenna is 160' in the form of a "V", opened toward the North. Totals: 1264/864. 73's.

Editors note: Feel that you're not getting your monies worth lately? Well, it's nobody's fault but your own. The MONITOR can be only as good as you make. A poor showing like this doesn't help. Report often!

VERIFICATIONS

- 650 Hawaii, Honolulu, KORL sent a form letter in about 8 weeks. (Bruce Portzer, 14056 - 5th Avenue S., Seattle, Washington, 98168)
- 680 Puerto Rico, San Juan, WAPA airmailed a v/c (also returned my letter and postage) for a 12/26 taped report. V/s is Roger Taylor, Jr., CE; address is Box 4563, San Juan, 00905. No comment about all the recent reports from WC, hi. (Mike Northam, 1840 Agate, Apt 2, Eugene, Oregon 97403)
- 681 Colombia, Cartagena, HJAQ sent long SS letter from Mario Javier Mesa, Gerente General. QTH is Edificio R.C.N., Plaza Bolivar, Cra. 33 No. 3-80, or Apartado Aereo 246. The "Nueva Granada" ID I heard was explained by the fact HJAQ relays "La Hacienda" which originates at the Bogota station. Sr. Mesa says the freq. of 681 kcs. is correct, caused by the effect of coastal winds on the antenna tower. He also sent a 7" reel of tape containing the program I heard 12/5/66. HJAQ now QSLed on 3 frequencies, including 660 & 1020 kc. (Larry Godwin, PO Box 1048, Berkeley, Calif. 94701)
- 760 Hawaii, Honolulu, KGU sent a v/q signed by the CE in about 4 days. A second card arrived a month later also by CE for same report. (Portzer, Wash.)
- 800 Netherlands Antilles, Bonaire, PJ8 sent a multi-color folder with map of Bonaire on front. Also enclosed sked and religious folder. (Portzer, Wash.)
- 1050 Mexico, Monterrey, N.L., XEG verified with a post-card showing transmitter site. Address is Fort Worth 11, Texas. (Portzer, Wash)
- 1140 Guatemala, Guatemala, TGT, Radio Sonora verified with a letter and two miniature pennants from Sr. Max Ruiz Tejada, Director-Gerente. Very friendly letter. Address as per WRTVH. (Ed Krejny, 6538 Belmeadow Dr., Middleburg Heights, Ohio 44130)
- 1170 Colombia, Neiva, HJDP, Radio Colosal became a most welcome addition via a very nice letter from Sr. Dario Silva Silva, Director. Address is Calle 6a, No. 4-59. My first verie from the state of Huila. (Krejny, Ohio)
- 1470 Mexico, Tijuana, BCN, XEBBC sent v/l in english from Alfredo Vazquez Garcia. Address: Edificio Madero No. 840-3, Apartado 1470. Is part of RCN network and that is its ID. The "BBC" comes from company name, "Broadcasting Baja California, S.A.". Mexican verie #64. (Bill Nittler, PO Box 112, Englewood, Colo. 80110) (I've misplaced Bill's home address, sorry-RJS)

DXWw LOGBOOK

- 670 Venezuela, Caracas, YVLL heard 2/6 at 0444 w/ID as "R. Rumbos" (Ray Hartman, 19330 W. Pinecrest La., New Berlin, Wisconsin 53151)
- 675 Colombia, Bello, HJNX, Radio Tricolor was noted here on 1/22 at 2200, from 670. Strong. (David F. Gleason, Casilla A-57, Quito, Ecuador)
- Nicaragua, Managua, YND has been heard nitely thru QRM f/WMAQ and IDed as Union Radio. Rpt. sent. (Hartman, Wis.) Heard AN with ER's in R. Nacional de Nicaragua network. (Nittler, Colo.) Was the strongest of the 4 YN's heard on ER. Very good 0413 MM 2/6, parallel to the rest. (Godwin, Calif.)
- 681 Colombia, Cartagena, HJAQ strong with "La Hacienda" 0556 MM 2/6. (Godwin)
- 690 Mexico, Tijuana, BCN, XETRA fighting it out w/CBU 0135-0151 1/27. (Portzer)
- 700 Nicaragua, Managua, YNSC the only new YN heard on ER broadcast AN MM 2/6. Generally under WLU, but on top for a few taped segments around 0200. (LBB)
- 725 Surinam, Paramaribo, SRS was possibly the one heard here 2/2 around 2130. Had female announcer and featured Andy Williams records. (Hartman, Wisc.) SRS put in the best signal ever heard from them at 0440 on MM 1/30. Trinidad on 730 was also at a very high level. (Bill Raczko, 3015 East Lincolnshire Blvd., Toledo, Ohio, 43606)
- 750 Nicaragua, Managua, YNX was logged 2/6 at 0335 w/ER. (Hartman, Wis) AN 2/6 with ER's also in R. Nacional network. (Nittler, Colo.)

PLEASE NOTE NEW ADDRESS ABOVE: 4568 Idaho St., Apt. 7, SD 92116. PO BOX SOON

NEW ADDRESS: 4568 Idaho St., Apt. 7, San Diego, Calif. 92116

- 782 Portugal, Miramar, CSB9 was probably the one here 1900-1915 2/4 with R&R. With present conditions, even this is a good catch. (Phil Sullivan, 94 11th St., Troy, New York)
- 800 Cuba, Santiago, Reloj Nacional heard good at 0318 1/30. (Raczko, Ohio)
- 840 Colombia, Santa Marta, HJBI, "R. Caribes" AN 2/6 with "carnival". (Nittler, Colo.) Heard good at 0255 on 1/30. (Raczko, Ohio)
- 850 Cuba, La Voz de Cuba ID at 0235 and women asked for reception reports in Spanish. (Nittler, Colo.)
- 855 Netherlands West Indies, Curacao, Willemstad, PJC2 heard 2/5 at 2120 with adult music in English. S/off at 2200 w/NA. I believe the language of the announcer was Dutch. (Hartman, Wisc.)
- 870 Hawaii, Honolulu, KAIM in and out under WWL ET 0312-0406 1/15 with classical music. (Portzer, Wash.)
UnID SS, with lots of chimes (not Rumbas) 0500-0520 SM 2/5. (Godwin, Calif)
- 885 Montserrat, Plymouth, R. Montserrat was possibly the unID EE here on MM 1/30 at 0500 w/hymns; female announcer gave TC as 6:15 at 0515, then more hymns. Tentative sent to Montserrat. If this was Montserrat, they sure pack a powerful 250 watts! (Raczko, Ohio)
Nicaragua, Managua, YNKW AN 2/6 with ER's but running their own programming with ER's from 0100 to at least 0400, but music heard later on. (Nittler, Colo.) AN with ER MM 2/6, not as strong as usual - perhaps reduced power. Was // -all other YN's heard, and at 0501 IDed as "Transmiste Radio Nacional de Nicaragua", indicating the source of the broadcast. (Godwin, Cal)
- 890 Haiti, Cap Haitien, 4VEL was probably the one w/hymns on 1/30 at 0455. Very good signal. I marked this one down in my logbook, even after getting no ID. But who else could it be besides Haiti? Reported. (Raczko, Ohio)
- 965 Nicaragua, Managua, YNLU surely the YN // -YND etc., 0410 2/6. Fairly good signal, thanks to KABL-960 silent period. (Godwin, Calif.)
- 1120 UnID SS noted occasionally o/u KMDX after 0100. Any ideas? (Portzer, Wash.)
- 1140 Japan, Kyoto, JOBR was probably the UFO at 0350 MM 2/6. First sign of it in weeks. (Godwin, Calif.)
- 1160 Peru, Tumbes, OAX1K was probably Randy's UnID as I heard a similar program of uninterrupted native music on this one from Boulder just after s/on. Verified. (Godwin, Calif.)
UnID, there seemed to be 2 UFO's here MM 2/6 0550-0600. The one on top most of the time seemed propaganda-oriented, suggesting USSR. I left the freq. just before the hour so don't know if there was an IS. (Godwin, Cal)
- 1187 Int'l Waters, R. Caroline South heard for first time here 1948-2125 2/3, first TA here since Nov. American and British RR mx, pen-pal letters after each record 2000-2100. Good strength until 2030 but afterwards got progressively worse as frequent fading dropped it below WQOW's sidebands. (Sullivan, N.Y.)
- 1200 Cuba, IDed as Reloj Nacional relatively strong 0140 MM 2/6. (Godwin, Calif.)
- 1220 Colombia, Bogota, HJKR, Radio Juventud blasting in for the best signal from them yet. Mostly ballads by male singer and frequent IDs. (Nittler, Colo)
- 1280 Peru, ????, OA..., Radio Noticias announces 1260. Probably located in Lima. Strong. 10 kw or more. Noted until 0030 daily. (Gleason, Ecuador)
- 1335 Ecuador, Chone, HCOF4, Radio Chone is new with 2 kw. Here from 1340. Strong in Lima on 1/1 at 2330. (Gleason, Ecuador)
- 1370 UnID SS was heard here MM 1/30 at 0230 w/fair signal. Seemed like classical music. This doesn't fit HJKX's format, does it? But who? (Raczko, Oh Ohio). (Bill-it does match, but all other possibles do too-RJS)
- 1382 Ecuador, Quevedo, HCHA2, La Voz del Rio Quevedo was noted here on 12/26 at 0230. Weak. (Gleason, Ecuador)
- 1442 Panama, Panama, HOC, CPR was strong here on 1/22 at 2235. Mixed with Radio Golfito of Costa Rica. (Gleason, Ecuador)
- 1501 Panama, Colon, HDN, CPR was strong on 1/22 at 2230. (Gleason, Ecuador)

NOTE NEW DXWW ADDRESS AT TOP OF PAGE-RJS

- 1505 Panama, Panama, HOA95, Cabina-95 was noted on 12/26 at 0300. Strong. Power is 1 kw, ex-La Voz de la Humanidad. Cabina means "announce booth" and 95 is from the call letters. Poor voice quality. (Gleason, Ecuador)
- 1535 Colombia, UnID HJ here is La Voz del Potroleo NOT La Voz del Populo. "Populo" does not exist in SS. (Gleason, Ecuador)
- 1580 UnID SS noted here w/fairly good signal around 0600 1/23 but too lazy to try for ID. Probably XEDM. (Portzer, Wash.) (Yes, Bruce-Rjs)
- 1616 Ecuador, Daule, HCCS2, Centro Radiofonico Sideral de Daule was noted here on 12/26 from 1560. Strong with little QRM from a beacon on 1610. (DFG)

Our man in Quito, the noted Capitalist, Dave Gleason reports the following changes in station data:

Ecuador:: HC..5 - 570 Cuenca, Radio Musical, 1 kw.
 HC..2 - 600 Guayaquil, Radio Musical, 1 kw
 HC..1 - 840 Tulcan, Radio Frontera, 500 watts

Your Editor has just moved, and consequently all my correspondence is in a very big turmoil at the moment. Please note the new address, all mail should be sent there until further notice. I have quite a bit of other material, including some interesting data from recent NRC bulletins, the January NZDXT, and the January Medium Wave News. I have noted in the Forum that Rich Heald up in Sitka has heard Radio Hauraki. Congratulations, Rich. Very little DX MM 2/6 here since I just moved, hooked up the radio to the TV antenna. Very quiet conditions, and did note YND-675, HJBI-840 on for carnival, and others. Good DX-Rjs
