VOLUME FIVE, No. 29

DX CALENDAR

Sat. May 4 WSNY Schenectady, New York 1240 1000/250 0100-0115 EST NRC Mon. May 11 KWYS W. Yellowstone, Mont. 920 1000 0300-0330 EST IRCA/TEST

<u>WSNY</u> reports should go to Mr. Gerald Pfarner, Chief Engineer, WSNY Radio, 144 Lafayette Street, Schenectady, New York 12305. -NRC/Joe Skurzewski <u>KWYS</u> reports go to Mr. Jon B. Hanson, KWYS, Box 9, West Yellowstone, Montana 59758. The above date was changed at the last minute from Sat. morning May 11.

IMPORTANT !!! NOTICE !!!

Percy Kesteven originally set the KWYS test for Saturday, May 11, as is listed in the NRC bulletin. However, they have consented to test on Monday morning, May 13 instead, during which time the frequency is expected to be clear on the West Coast with only KARK Little Rock, Arkansas heard or possibly KORK-920 if they are on MM. The change was made too late for word to be sent to John Callarman/NRC because they do not publish this week. If you know someone who might be interested in this test and who doesn't receive DX MONITOR, why not tell him of the change!

CST/MST DX ROUNDUP

Reports go the next two issues (May 18 and June 15) go to Standby Editor Bruce Collier, 3512 Avenue B, Council Bluffs, Iowa 51501. Lynn Brooks will be back from his trip to Panama in time for the July 20 section.

CST/MST DX FORUM

Reports go to David Johnson, 705 Belmont, Pueblo, Colorado 81005 for the May 18 issue and to Bruce Collier for the June 15 bulletin. Lynn Brooks has been officially appointed editor of the CST/MST DX Forum and will take over with the July 20 issue.

BULLETIN SCHEDULE

DX MONITOR will be published on these dates: May 18, June 15, July 20 and August 17. Deadlines are as previously established and publication will be Friday evenings.

KV11 is now KDJW

KVII-1010 Amarillo, Texas has changed call to KDJW despite mention of a couple of other calls in DXM and DX NEWS.

SRDS

All copies of SRDS are on loan at this time but another copy will be here the week of June 3; first request receives this 1000+ page listing of most USA radio stations, some Mexican stations and a Canadian station or so. Information includes telephone #'s, names of personnel, affiliations, schedules, power, etc. These copies are for loan purposes to any IRCAers desiring; postage (30¢) is appreciated but not necessary. If you'd like a copy, write directly to: Don Erickson, 6059 Essex Street, Riverside, Calif. 92504.

# FREQUENCIES OF THE WEEK

•		· · · · · · · · · · · · · · · · · · ·
1340	KIST	CALIFORNIA, Santa Barbara, Hrd. 0400 4/25 w/Who Everything Stops
		for the News".NSF rr. (DEE)Rerely off. (ed.)
	KM M	California, Fresno, S/off 0315 4/25. (DEE)
	KOMY	CALIFORNIA, Watsonville, Heard well during day but gives up
		frequency to KIST/KMAK at night.(cd.)
	KWSL	COLORADO, Grand Junction, Hrd. w/fruit frost warnings & many
		mentiones of western slop. Best from 0300-0600 4/25.(DEE)
		Opps! That typo should read "western slope"!(cd.)
	KSMK	WASHINGTON, Pasco, Hrd. occa ionally this scason w/C&I. Bost
		late evenings.(ed.)
	$KR\Lambda M$	NEVADA, Las Vegas, Good bet for this state in west. Late evenings. (ed.)
1350	KKAM	COLORADO, Fueblo, Good signal w/MoR mx 4/9 0732.(PM)
	KCKC	CALIFORNIA, Son Bernardino, S/off 0200 daily, w/OC on for 20min. +(DEE)
	KTOH	HANAII, Lihuc, Possible after WC s/offs w/MoR & Lt Cls mx. (cd.)
	KSRO	CALIFORNIA, Santa Rosa, S/off nightly at 0200 EST.(cd.)
1460	KDON	CALIFORNIA, Solinas, Hrd. well evenings w/rr.(DEE) Xntrs. just
		outside of Watsonville rather than Salinas. I should know
		as their xmtr. is right next to a beach thats very popular for
		weekend beer parties around here. Both KDON and the beer parties
		are hrd. quite well up and down the coast!(ed.)
	$KTM\Lambda$	WASHINGTON, Yakima, Heard well on MM when KDON is off around
		0850-0930. MoR. (cd.)
	MPNX	ALABAMA, Phonix City, Often tests MM w/good signal. Doesn't verie,
		drat!Often montions Columbus, Ga., across the border. (ed.)
	KSO	IGNA, Des Moines, Hrd. well last few months MM. MoR. v/c.(ed.)
i	MAGO	TEXAS, Maco, Hrd. occationally w/KSO. Excellent v/l.(ed.)
1560	KIMC	CALIFORNIA, Bakersfield, Carrys "Tumbleweed Turner's Korn County
		Country Time" to about 0200 EST except Sundays. s/off 0200.(DEE)
	WQXR	NEW YORK, New York, Hrd. occationally w/MoR, Lt. Cls. mx. AM's. (ed.)
	KGHO	WASHINGTON, Hoquism, RR around sunset w/good sig. u/K.MC. Reluctent
		verifier.(cd.)
	$\mathtt{KDFL}$	WASHINGTON, Sumner, Hrd. sometimes around sunset to s/off.(ed.)
	KIQS	CALIFORNIA, Willows, Hrd. weakly here all day w/KiMC. Might be a good
	-	in the MV just before s/off if you can get by KGHO.(cd.)
		The same of the sa

550	KhRI	WASHINGTON, Blaine, 2213 4/20 Tenetively logged w/ID as "KARI R."(ed.)
590	KSUB	UTAH, Coder City, Hrd. on f/c per list w/Id. at 0430, rptd. 4/1. (BE)

NOTE: I seemed to have misplaced the rpt. from Eric Floden and part of FM's rpt. My humble apoligies. I do remember that Eric suggested that it would be more appropriate if I use "(cd.)" for editorial functions and "(FBK)" for my own DX. (cd...or..ah...FBK)

May 4, 1968 THE CREDITS FOR THE PRECEEDING SHOULD GO TO THE FOLLOWING FOR THEIR SUPPORT:

(BE) Brian Elder 8267 14th Avc., Burnaby 3, British Columbia (Lafayotte)

(EF) Eric Floden 13 Parkside Cresent, Ottawa, 5, Ontario

1130 5th Avenue, Senside, Oregon 97138 (5 tube Philee) (IM) Pet Mortin

556 East Alvaredo Street, Pomona, California (Hallicrafters SX-99) (BJ) Bob Jacoby

(DEE) Don Erickson 6059 Essex Stroet, Riverside, California 92504(RCA ARB-8 tubes)

(RFM) Randy Miltier 1760 Whitwood Lane, Campbell, California 95008(Lafayette HA-700)

(ed.) Frank B. Kennedy 20340 Argonaut Drive, Saratoga, California 95070(Collins 51J3,

llease remember to change all loggings to EST when reporting, rather than EDT. I know it can get confusing as it is also to yours truly. Also all of my DX for last issue listed as 4/9 should have been for 4/8. Again my apoligies.

Also Stewart McKenzic, president of the ASVLC sent along the following info:

KGBS has been sold by the Storer BC/Co. for 1.8 million dollars to Norwood Patterson, owner of radio stations in Fresno, Visalia, and Scattle. Storer also withdrew its application for KRIA (see below). No mention was made of weather KGBS-FM was sold along w/KGBS-/iM.

The following, also forwarded by Stewart is a quote from the Register (I presume it to be Orange Co.): "Hearings have been completed on applications for Orange County's third Al radio station which will occupy the frequency used by KRLA, (Pasadona-Los Angeles) when it goes off the air.

Of the original 20 applicants who sought the Orange County station license from the Fedral Communications Commision (FCC), only seven are left in the scramble for . what has been described as one of the broadcasting industry's most valueable properties.

With a population of approximately 1.3 million, the county currently has only two AM statios: KEZY in Anaheim and KWIZ in Santa Ana.

The new station, broadcasting with 1,000 watts will be located in the Costa Mesa-Nowport Boach area, and opporate at 1110kilocycles(kc), the same frequency which has been used by KRLA, Pasadena, the FCC has ruled."

The Register went on to say that none of the pending applications to run KRI as a non-profit opporation were approved- thus the above ruling. If the front runner applicant gets it, then the station would broadcast as above w/MoR. Other applicants includ such wealthy groups as 1) Goodman-Todman, backed by John Daly, Art Linklotter, and Bob Hope, 2) Crown City BC/Co., owners of a station at Lake Tahoe, 3) Pacific Fine Music, owners of KCBH-FM in Beverly Hills, 4) Storer BC/Co. (see above), 5) Calif. Regional BC/Co., headed by L.A. finacier Howard Ahmanson & his son, 6) Voice in Pasadona, an organization made up of almost fifty show business personalities not yot in the "super star" category. The front runner is Chareles W. Jobbins of Newport Boach, electronic division manager of the J.C. Carter Co. in Costa Mosa.

Last week's FST/HST DX Roundup section arrived a day late and with one more page than had been expected. In the rush of transcribing reporter's names to the bottom of the preceeding stoncil, Harold H. Blake's name was misspelled. I also notice FBK left Father John Pejza (FJP) out of the credits by error. FBK also sent along on the last stencil of his last week's section some editorial matter. That appears at the bottom of Page 16.

The May 4, 1968 goes out on schedule, Friday evening about 0200 EST (Sat. AM). 14 sheets and 28 pages are included.

-Publisher

In the Western regions, wide-open spaces and small populations are the rule rather than the exception. As a result, the number of stations which any given area can support is minimal. In addition, a station cannot afford to waste large amounts of power to cover extra areas of low selling value, and are thus forced into regional and local channels. Some consolation, though, exists in knowing that when one has heard one of these stations, that the reception has been earned. The hard-to-get station is often just as willing to give one credit for hearing them from outside their general coverage area.

The following nearly encompasses the nearly eighty stations of Nevada, Utah, and Wyoming. Many are heard well throughout the west, and several frequently reach into the Eastern regions. The best representatives have proven themselves to be KENO-1460 from Nevada, KSL-1160 from Utah, and KWYO-1410 from Wyoming.

FUTURE STATES OF THE MONTH ----
F L O R I D A, and L O U I S I A N A; deadline: May 7, 1968.

A R K A N S A S, and M I S S O U R I; deadline: May 29, 1968.

Please send all contributions in order of frequency; and include all information as presented here (i.e. same order: freq,call,location,pwr,networks,tips,QSL status. It will greatly facilitate my compiling of the column.

Lance Muller - 8895 Halsted Street - San Diego, California 92123
Well, it looks like 3 states at a time is quite a bit to do in one month -- which is why this SOM is so awfully late in reaching yawl. Plus getting lots of overtime and louble-time work over Easter vacation, and lots of large homework assignments to fill in the time since then. I'll sure thy to get them out on time from now on. You can be sure that they will get out within about 3 or 4 weeks (no more than) the dadline. Of course, May's State of the Month column hasn't had any support so far, so it may be quite small. Good DXing to all of you lucky people who can still DX. 73's.

### Patrick Martin, 1130 5th Avenue, Seaside, Oregon 97138

Hi all: the Aussies have slowed down here, as have most of the Asians. Only a few Japanese and Chinese on the dial around 0700. I see the bulletins are getting thicker and thicker. Can hardly wait to see the new C of F List. Should be very helpful. That little bit in the 4/20 DXM on KDBM Dillon, Montana - I was the one who sent the rpt from Oregon and I've never hrd from them. MBN said that a PP was supposed to be included in the report; I didn't; just an SASE. I thought I would hear from them anyway. Did anyone else hear from KDBM? Heard KTOH-1350 last night 4/24, nice and all the Hawaiians. Has anyone hrd either KONA or KNU!? That's it for this time. 73.

Kon Schatz, 510 N.E. 158th Street, North Miami Beach, Florida סוככ Greetings! I depart 5/10 for Uleta, probably via Phoenix. During the 2 weeks I'll be home, I'll be DXing, possibly visiting ZNS-land once more, & DXing, obtaining my FCC 1st class radiotelephone license, DXing, preparing the final edition of the RFS <u>Cuban Station List</u>, and DXing. Ed Krejny: <u>Your PP Report Form has an error in it.</u> In the 2nd paragraph, the word "acompanhou" should read "acompanharam". Any question regarding the PRF should be addressed to me, not to ELK. Ed only typed it (but he did a beautiful job); I did everything else. On LBG's proposals A, B, C; the Board should vote 'Nay, Nay, Aye'. I especially urge the defeat of the 'free-membership' proposal. Father John Pejza: I enjoy reading your reports very much; I think they are among the very best in DX MONITOR. To help answer one of your questions, I judge best DX not by power-distance, but by difficulty. The more I have to sweat to hear a station, the fewer DXers that hear it, the better the logging. I believe that the difficulty-rarity factor is the only accurate way to value DX. Some of my best (from Florida), include several 100-watt Brazilians at 4000 miles, Tbilisi-1043, CBLK-1090, Thule-1425, and KZ00-1210. Remember, there's only one way to discover the real RFS. Meet him & judge him this August in LA: 73 and best DX to all. PS--For at least the next 2 years, I will be sailing the Pacific aboard the USS Hoel, a guided-missile destroyer out of San Diego.

Danny Sys, 149 West 26th Avenue, Vancouver, 10, B. C., CANADA Hi. Not much DX done, but I hope to get some DXing done in the Easter holidays. one verie in lately, KGDN-630 by v/l; they seemed very friendly. Why doesn't the IRCA feature a section for FM DXers? On my new rx, I've heard a lot of FM stns and it would be a good feature for the IRCAers that have FM Radios. A local R&B group have an international song, "Does your mama know about me" by Bobby Taylor & the Vancouvers. If you have a survey with it listed, I'd sure appreciate receiving it. SC traders: CFUN/CKLG/CKXL. Is the CBC starting a new card or is CBK just being different? (CBK uses their own card, others use the CBC card - ed.) 73 & Happy Easter Holidays.

Donald E. Erickson, 6059 Essex Street, Riverside, CA 92504 There continue to be reports of late delivery of the DXM, esp. the 3/16 and 4/6 issues. This appears to be due to the size; they will not go through the automatic cancelling machines, are hand-cancelled and handled as 3rd class mail. If you receive this issue later than 5/11, please notify Pub. HQ. Because of late bulletins and short notice, Frequency of the Week will be light this issue. Next 2 issues are (May 18) 1430, 850, 1050, and 1400; (June 15) 730, 1470, 1070, 1450. New Member Packets have been shipped to all new members through this issue. If you've not received packet (containing <u>DX</u> Booklet, f/c list, SS report form, etc.) by 5/20, please notify me. As general info, this sked: Stencils are royd Wed-Thurs from ed's exc. RJS. They are run as much as possible Thurs. PM, the remainder Fri. afternoon/evening. The bulletin has been mailed Fri. evening in all but 2 cases (3/16, 3/23) and they were mailed Sat. 5 PM. Bulletins will continue to go out on time, rest assured. 73 and see you in LOS ANGELES.

This page only was typed by Don wickson -- next issue, mbn will again type the ST/HST DA Forum and his deadline will be ionday, May 13. (DEE)

                                CST/MST DX ROUNDUP
                                                                              Page 9
  Please send all reports for the May 18th and June 15th issue to: Bruce
  Collier; 3512 Avenue B; Council Bluffs, Iowa 51501. The preceding is for Roundup reports only. Also for the June 15th issue ONLY, send all
 Forum reports to Bruce also. Thus Bruce will handle the DXR for the
 May 18th issue, and the DXR & DXF for the June 15th issue. Reason for
  this is that I am leaving for Panama on a business trip on May 1st and
 will not return for two months. I will be back in time to handle the
  column for the one issue in July. Dave Johnson's last issue as Forum
  editor is the May 18th one, so Bruce will have to handle his column in June pending the Board's appointment of a new Editor. Any tips which are
  already in the mail to me will be sent to Bruce for the next issue.
  sincere thanks to Bruce for his help. Now, on with the show!!!!!<u>LdB</u>

A big hearty THANKS to all those who have been so faithful in their support of this column during the winter DX season. Several have supported the column almost every week, and others have sent in reports over half of the time. Let's keep up the good work during the summer. Those of you who will be out of college for awhile can now do some DX, even though you have to fight the summer static. Any and all tips would be appreciated. Give Bruce good support during the next two issues and keep the CST/MSW DXR full of good tips. I wasn't expecting to stay so long in Panama, but such is the life of anyone in my occupation. Atleast this will be the last trip down there as project will be over. I've really enjoyed the CPC results sent in by PRK. Fine work, Percy, and I know we all appreciate your efforts. See you in about 10 weeks!! LdB:

4 May 1968 CST/MST DX FORUM Page 11

Percy R. Kesteven, 13112 134th Street, Edmonton, Alberta Hopefully our "tempest in a teapot" debate over RR mx has died down. Now I'd like to raise a question to get some constructive ideas exchanged. "Why do you DX?" No doubt there will be two reasons that apply to everyone: 1. It's fun. 2. It's interesting. But what else, if anything, do you get out of listening to DX stations? Personally, I like: 1. The veries, especially those that are letters with a personal note included. 2. Interpersonal contact among club members. 3. The competition (but for me, on a small scale as I don't go for contests, preferring DX awards). 4. Reading DXM both for information and entertainment. 5. The chance to work with others for a common goal (1.e. CPC work or what have you). Now, what do you get out of DX? I'm sure that this is a question of interest to everyone, so let's have your comments.

Gene Rust, Box 707, Carrollton, Texas 75006 Thought it was time I wrote a line. Well, the old man will be 48 May 1. I drive a wholesale dry cleaning truck, and am a Indiana transplant to Texas. I have worn the old cans (headphones) since 1934. 6 yrs 1934-1940 on BCB, and 1940-1968 SWL. I got sick of SW and all the Commie stations and came back to BCB, I like RR mx better. Starting all over on BCB I have 3 veries- KFI, KNBR, WRRV, and 21 more reports out. The pre-Easter work load has kept me busy so have not had much time. I still have the HQ-129X but last Thursday I got a Mint SX100 Marck II and put up a 100' longwire (the 30' vert is nothing on BCB). I never used a taperecorder before so I got a RCA Yhh-33 Mono 4-track, 3 speed last Sat. I have not received my "New Member Packet" yet and I'm going nuts to build a loop. Anybody have a spare copy on hand? 73's Chuck Grise, Box 108. Owen Hall. Purdue, W. Lafayette, Indiana 47906 Greetings from the home of the empty mailbox. Yep, only 2 veries in the last 5 weeks! They were WPFB and KFAL. Totals now are 366/282; states 39/38; provinces 5/5; countries 11/8. Well, it took only 10 extra days for the DXM to come(4/6 issue)! J. England, I've heard Wolfman Jack on at least two Mex., XEG and XERF. In fact, my report(the 4th one that is, hi) to XERF was one which contained 45 minutes of Wolfie w/rr. Dj- sorry to see you go. I discovered the source of my static problem during the last day of Spring break. It was coming (and probably still is, hi) from the power lines. I took the car, turned the radio on, tuned to 640 to get the best results, and drove for several miles around the community checking conditions. I soon discovered that the noise was worst when the lines crossed the road, and that I was getting clear rr sounds from WHLO when there were no lines present. I haven't had time to contact the company yet, but I will if it continues. Enuf about my problems. Congrats to Gary Peterson for answering KOMA's reports. hope he answers one of mine! Chicago '69! (after all, it is an east year) 73 BIBGW WGL

Ed Marr, Rural Route One, Elwood, IL 60421 Greetings ... oh whut wunderful word. No DX'ing dun here for a coupla weeks but sum veries have added themselves to my collection, namely WKYC (finally) along with WKCT, WLPO and KSCJ- not to be confused with KCSJ, hi. Well as sum of you already know ... I recently received a notice to report for induction into the armed forces. My moral repugnance to the role my country is playing in Viet Nam coupled with my basic opposition to the Selective Service System has forced me to refuse induction and face the consequences rather than lend my support to a war I cannot justify by submitting to a system I consider the greatest single threat to individual "liberty" in the U.S. today. I realize that this is hardly the place to discuss such issues. So I pray that any comment on my action will be addressed to me personally rather than to the membership at large via the DXF 73

A quick reminder that the next issue, 4/18, will be my last as Forum editor. There will be more details as to who to report to. dj

EDITOR: Dave Johnson 705 Belmont Pueblo, Colorado 81005
Greg Scheurman, 3522 Boston Road, Cheyenne, Wyoming 82001

One of the most interesting and useful series of programs I have had contact with is Radio Nederland's All-round DXers Course, which is aired every Thursday. Quite a little of the content is applicable to BCB DX-ing, and there is still time to enroll w/o missing a great deal. (The lessons are sent in mimeograph form, so even if you don't own a SW set, they will be of value.) Following Percy Kesteven's example of intraclub relations, I too would be willing to receive a photo of any fellow member. If luck prevails, you should expect one back. It seems that I have hit a low spot in my DXing career. Next season, maybe? I if by

George Tanner, 8349 East Cypress, Scottsdale, Arizona 85257

Hello folks. First of all, I want to thank everyone for the fine support of the CoF list, but I still need much more information. Where's all the midwest support, hi? Dave Verbil, I got my KSJB verie right after I left your house. How about them apples! I finally got my first country, Jamaica, on 750 kc over WSB. Phoenix has so many NSP stations now that DX may come to a stop or slowdown. All but two of our AN stations here are NSP, that being KTAR and KUPD. Why does VJ and Broadcasting Yearbook list Country-western and soul stations, but not rock and roll? A word to the wise: Watch out for some of our network radio shows to be on at odd times, either real late or real early, due to our remaining on standard time. However, to complicate things a bit, the Navajo Indian reservation to the north went to MDT. So on that confus-

ing note, I'll close with 73 and good DX.
Bill Lafferty, Box 1376, McCutcheon Hall, Purdue,

Greetings from the 1969 Rose Bowl Victors. New veries: v/l WREC after 8½ months and v/q & CM KLZ in 2 days, hi. Thought some of you may be interested in the Chicago radio scene... According to the latest Pulse ratings for morning, WIND and Howard Miller is by far tops with 23% of the audience, WGN next with 17% due to Wally Phillips, followed by Clark Weber and WLS 11%, WVON 8% and WBEM, WNUS(!), and WCFL with 5%. Howard Miller is by far the most popular DJ around Chicago, but yesterday during Rev. Kings' funeral, Miller, a staunch "patriot" with an extreme rightest mentality, said a few on the air remarks concerning civil right from his view that were, to say the least, questionable in light of circumstances. Result: Chicago's top DJ has been given an early "vacation" by WIND, altho WIND won't admit it. As for WLS vs WCFL, I think WLS still has the edge; WLS still has the large following among college kids and young adults, who grew up with Dick Biondi and Gene Taylor since that fateful May 1, 1960 when WLS went rock. Top rock DJs here are Ron Riley-WLS, Art Roberts-WLS, and possibly Ron Britain-WCFL. And WNUS really reeks now, hi, with very boring music. 73 to all.

Dave Johnson. 705 Belmont. Pueblo, Colorado 81005
Well, since I have the extra space, I might as well say my found farewell as FORUM Editor now. May 18 will be the last one. Didn't hear
from Larry this week, so can't tell you yet for sure who to report to
after the 18th. The way it is tentatively set up now, Bruce Collier
will do both DXF & DXR June 15, and then Lynn will resume with DXR and
take over the FORUM. I just hope that I will now be able to practice
what I have been preaching for the past 4 years; that is to give my
support to Lynn as often as I can. It has been an interesting 4 years,
I have seen a lot of members come and go, and I would like to thank
everyone for their faithful and even sparatic support. Every little
bit helps. Lynn as proven himself as a very capable editor with the
Roundup, and am sure he will do an excellent job with the FORUM. Will
let you know for sure next time who to report to June 15 and July 20.

New Format

After some disorganization here in recent months we are initiating the new format used this week which we hope will make this column easier to read or to glance at if you're looking for one state or province in particular. The use of asterisks will be incorporated to denote items of particular significance — this idea inspired by the National Radio Club. Please send in your reports using this new format, and be sure to keep tips in order of frequency and on one side of a page only. Remember that the deadline here is always the Saturday before publication and of course above all, please remember to report. Thank you.

ALASKA WILL USE DST THIS YEAR Ross Harp, Box 4-1160, Anchorage, Alaska 99503, notifies Pub-HQ that Alaska will this year observe Daylight Savings Time though they did not last year. Ross also sends along his new address, effective approximately May 10; P. O. Box 1717, Boulder, Colorado 80302. Ross is moving to COLORFUL COLORADO!

DON'T FORGET THE CORRECT DATE FOR KWYS SPECIAL -- Monday morning, May 13th. This is a change from previously scheduled Sat. morning, May 11th. Tell a friend! -DEE

Tom Hartloff, 179 Depew Avenue, Nyack, N.Y. 10960 The freq. of the week sure looks good here. Today (4/23) I got at least 8 stns on 1340-1350 & I haven't gotten to 1460 which has been hot here this year. Hard on the ears at times when you get 3 stns at once. But, it'll be worth it, if I can separate them enough for a few veries, hi. Bill Lafferty: WWBZ didnot ID during the TT I heard & they came on right on WHBG's tail end ancit. They send a nice v/1. And I envy all who hear WMCA badly. 3 wks ago, wife, daughter & I took a jaunt to Buffalo & met NRCers there. I was surprised how WADO-1280 gets out there. And WHN-1050, too; at night I couldn't hear NSP CHUM-Toronto. Finally, I got to hear WHOT while in the Queen City. Belated Happy Birthdays to IRCA & Richard Nall. I'm in IRCA & NRC and like both of them. I don't think I'm nutz. So there's a new RFS. Does that mean one doesn't have to pay admission to see him? 73, all.

Raymond Arruda, 6 Wilbur Ave., No. Dartmouth, Mass. 02747

It's good to be back in the blue pages of the DXM. I just renewed for my second year in IRCA. I'd like to get in as much as I can for this report because it could be quite a while before I'm heard from again. I've been ordered to duty in the active Army along with the rest of my unit (unless sooner relieved or extended) and my next duty station is Fort Benning, Ga. I should be there by June. During my first five mo. hitch with Uncle Sam I was at Fort Bragg, N.C. and Fort Lee, Va. My totals in the South were 48/6 with the use of an Elgin-10 transistor portable. DX time was very limited. I visited the WRVA studios in Richmond and also got my hands on a few WLEE surveys. The WLEE surveys are up for grabs.... I don't have any more WPRO or WICE surveys. I'll try to get caught up with correspondence that has piled up in the past months. Be patient. Please continue to mail the DXM to my home address. I'll probably have to renew while I'm away again. New veries are WWNH, WNOX, WRGM, WXGI, WWDC, WRC, and WJAS. Totals from my revised logs are: Stations 461/198, states 40/39, provinces 6/4, countries 7/2. Welcome to the many new members that have joined since I last reported. 73 and Good DX to everyone.

Bill Raczko, 3015 East Lincolnshire Blvd., Toledo, Ohio 43606 It's interesting to note how many members begin their Forum reports with something like "hi" or "well". (I made that statement just so I wouldn't have to say the same old thing again.) Not much has been happening here, but I did hear the WCAS test. I haven't received a verie in almost a month now, but I still have many reports out, especially to new countries that just don't want to verify. Anyone else out there collect CM's? I just started collecting them, and have over 80 after two weeks. CM collectors, please write! I find it hard to believe that a Montana graveyarder had over 50 reports on a test! Glad to see that the Cincinnati mini-convention will be a joint NRC/IRCA affair. Hope to see many IRCAers there! It was a ball last year! One of the most interesting parts was the trip to the VOA and WIW. Wouldnot it be nice to be able to listen to WLW on their 500kw transmitter? Well, graduation is about a month away, and, like every other high school senior this time of year, I have SENIORITIS! I'm even too lazy to DX. 73. P.S.: Whatever happened to DXer of the Month? If the members are told it will be bi-monthly, why isn't it? I think that is probably the biggest problem with this club: people are always saying something and not doing it. The least we could have is an explanation! (Thanks for the SC's. SRR).

Jerry K. Conrad, P.O. Box 244, Alexandria, Ky. 41001 Hi IRCAers, since this is my first report to DXM, I guess I'd better give a brief introduction to myself. I'm 25 and presently teach High School English here in Northern Kentucky though that is due to change soon. I've been DXing since 1964 with totals here now 1846/586 logged/verified. 55/37 countries, 49/47 states. Equipment is a National HRO-50T with an added mechanical filter, a 4 foot spiral-wound loop with a FET RF amplifier, a BC-221 frequency meter, a Tektronix 512 scope, a 4-track, 3-speed stereo Lafayette tape deck, a 2-track, 2-speed Sony recorder plus other odds 'n' ends. Also have a 100° by 30° high, long wire that is rarely used (more gain on the loop, hi!). As you know from the last issue, NRCer Pat Flanagan and I are cohosting a get-together titled Cincy V68, the weekend of June 14, 15 and 16. Anyone who can possibly make it plan to be here. This is the second annual and possibly the last Cincy get-together. Both Pat and I are planning to move, (con't next page(Jerry Conrad's report continued) - mine being to Florida (West Palm Beach area) hopefully just after the get-together. Ed Krejny, you owe me a tape, hi. DX condx have been poor here the past few weeks with only the high powered TA's making it through and nothing spectacular at all from the South where there has been some fantastic DX in the past few months. CU all N June for Cincy '68. 73

Ken Dunn, 668 Josephine Ave., Windsor, Ontario
The great DX'er in the sky has been good to me lately - I finally have logged North
Dakota and sent a report to KNOX, Grand Forks on 1310. Totals now are 323/77 stns,
38/32 states, 8/5 provinces and 8/5 countries. I received KNOX after a tip from
another Windsor DX'er, Mark Robinet, who will be joining IRCA as the result of my
persuasion. KSTP sent a v/q for my reception on 3/23 at 2015 with WJBK still on
and another important verie for me was the fine v/c from XERF, in Cd. Acuna. That's
just about it from Windsor this week so 73.

Steven R. Russell, 8914 Mohawk Lane, Bethesda, Maryland 20034

As many of you know my DX set up is in a corner of the basement (below ground level), so for the past week I decided to try my loop out up on the 2nd floor (25 ft. higher) to see if the signals would be any stronger. And to my surprise, there was no appreciable difference in signal strength. So its back down in the basement, again, hi. Looks like the only thing left to do is trade in my 15 inch loop for a 4 ft'er. Veries: v/r WBRC-960. v/l WEVD-1330, WROL-1490, WDAN-1490, WPTS-1540. v/f CKKW-1320. v/q WDGL-1520, XELO-800, R. Americas-1157, KONO-860, KFEK-1530, WJBK-1500, WTOP-1500, WFBL\_1390, WKWF-1600. And on a file card WAXU-1580. 73 & Best of DX.

WASHINGTON SENATORS BASEBALL NETWORK
WJMA-1340 Orange, Va.; WAGE-1290 Leesburg, Va.; WEPM-1340 Martinsburg, W.Va.; WSVA550 Harrisonburg, Va.; WTOP-1500 Washington, D.C.; and WEZR-106.7 Manassas, Va.
If you have lists of other baseball networks, please send them in.

# Bob Jacoby - 556 E. Alvarado St. - Pomona, Calif. 91767

A fair amount of veries have arrived since my last report including v/l's from KFCB-1380, KEVN-1010, KHOS, and KICO-1490. V/q's are represented by KSL, KYA, and KOSI-1430. To top it off a v/r came in also from KAFY. That brings the total to 215. My particular bag as far as DX'ing goes is collecting veries. I don't claim that any verie I have is absolute proof of reception. I do find receiving veries the most reverding part of the hobby just as others find it equally rewarding to just listen to or tape their catches. Anyhow the point is that a verie is only as good as an individual's word as to proof of recention. They're still fun to show off though. I took a little trip a couple of weeks to visit PSL at his new location in the Heart of Hollywood. While there, we got to take a look at KFI which has to be the most consevative station in the nation. Would you believe they still use a disc cutting machine as opposed to a tape cartridge machine? The engineer's answer to our questioning of this rather archaic practice was that they've used this system for over forty years and they don't want to quibble with This was quite a contrast to KLAC/KMET-FM where we also visited. These two Metromedia stations have close to three quarters of a million dollars worth of the latest in electronic equipment. I guess that's probably why KLAC is number one in the market while KFI is virtually on the bottom except when they're carrying Dodger baseball. 73 for now and everybody report your DX for the next fortnight. There is no reason why these bi-weekly and monthly issues should be under thirty-two pages.

Richard E. Brazier, 343 Fuego Avenue, Pomona, Calif. 91767

Hi gang - still alive and kicking for another issue. Ed Marr, you undoubtedly rovd my ltr - 'nuf said. Nothing done DX-wise since last issue due to senior project and lots of other homework due pretty soon. Also pool playing, hi. Will try next couple of MMs to make up for it. This factual and informative report will now come to an end. HOLLYWOOD IN '68! 73.

(Alta. cont'd from Page 20, January 13, 1968 <u>DX Monitor</u>) Selkirk Holding Ltd. operates three radio stations in Alberta: CFAC, Calgary; CJCA, Edmonton; CJOC, Lethbridge. One of these stations, CJOC, has just completed a \$20,000 office and studio expansion, and was accorded wide recognition for outstanding community service during a sudden spring snowstorm earlier this year. All station personnel were called in for emergency duty. For 72 hours, while 6-10 feet of snow fell in southern Alberta, the station kept snowbound city and farm families in touch with each other. CJOC was the first to contact civil defense, army and provincial government officials about the extent of the disabling storm.

Besides relaying messages for separated families, the station helped co-ordinate the rescue of stranded motorists and the evacuation of expectant mothers and critically ill persons to hospitals. Station manager J. McCall modestly says, "CJOC played a part in this flow of communications during the storm." Columnist Fred Kennedy said, "This was a fantastic public service achievement."

Other Alberta broadcasters aided their communities. Less dramatic, but equally important, was the result of an editorial project by CFRN. J. E. Hopps, recently retired station manager, summarizes the campaign: "A Bruce Hogle editorial crusade resulted in complete retraction within 24 hours of a proposed police ban on information concerning vehicular accidents, deathes, and injuries. CFRN was the only Canadian station to win an award at the 1966 National Headlines Club, capturing the Most Outstanding Radio Editorial Category. The retirement of Mr. Hopps after 33 years' service with Sunwapta Broadcasting Limited is noteworthy. He joined station founder G. R. A. Rice when CFRN was formed for an older radio operation in 1934. One of his programming projects, the Alberta Commercial Travellers -- CFRN Search for Talent, has just completed its 20th continuous season, and has raised more than \$350,000 for Alberta's crippled children. Mr. Hopps has been a director of many civic and trade organizations and served as the 1965-66 president of the Western Association of Broadcasters (CKNW is also a member - JEP).

Radio and televison stations in Alberta are finding greater-than-ever acceptance as advertising media. Radio stations like CJDV, CFGP, CKSA & CKRD are effectively reaching rural areas well beyond their base cities. CFCW prides itself in providing special news coverage of civic events in many central Alberta towns, and caters to the programming tastes of farm and small town audiences. CBR reports great success in reaching rural listeners as well as city audiences. Program Director J. S. Peach notes that a propane company and a farm implement firm found CBR an effectual advertising medium in combination with more remote private stations. General trend in advertising volume is extremely goods, he reports, with CBR radio billings up 20-25% over 1966.

Promotions to help community activities and add pep to advertising projects continue to be aggressively encouraged by Alberta's stations. CBR has been producing a local talent drama and jazz program. A widely-broadcast series, 'Get to Know Your City' was prepared for the Calgary Tourist and Convention Association. A similar series, in spot format, was aired on CHAT-AM & TV. Edmonton stations were on hand to help the city's successful Klondike Days. In Calgary, the first 90-day Stampede received equally full coverage. Major Stampede tie-in, and probably the biggest radio-TV promotion in the West, was the 7th nnual Stampede Breakfast, run by CFCN. Over 50,000 people turned out.

Helping local talent is one of the community and listener services undertaken by CKXL. The stations promotes 16 bands, one adult band, one western group and a magician, all of whom claim that CKXL has helped their entertainment careers. CKXL relies on a variety of sounds for its high ratings. It programs for an adult audience during the day, for young people in the evenings. It also has complete football coverage.

The only note of discord in the Alberta broadcasting picture seems to be the efforts to forestall new stations' intrusion into established coverage areas. The bids to license local radio in Edson, Westlock and Wetaskiwin were all opposed at the BBG hearings by stations already broadcasting into these areas.

Stations are willing to promote Canadian programs and produce their own shows but feel the time rulings as presently set up are faulty. Stations are also more than willing to abide by industry-set rules regarding the length, content and frequency of spots, and again, hope for clarification and re-alignment of current government rules.

(continued from last page) Billings are up, but so are many expenses. Alberta's television and radio stations are facing a future of growth and challenge. They want the chance to responsibly serve their audience with more of their own ingenuity and less limits.

DX EXPLANATION SHEETS Included with the last DX Monitor, they are designed to be sent along with reception reports and should serve to explain to the person receiving the report what the hobby is about. They can be obtained in any quantity (1-1000) at 1¢ each postpaid via third class mail. For orders of less than 30, they will be sent along with the following bulletin. Requests should be sent to IRCA Publishing Headquarters, Donald Erickson, 6059 Essex Street, Riverside, California 92504 and remittance should be in postage stamps ONLY. No cash or checks, please. If you have suggestions for changing the slips, send them to Larry B. Godwin.

OFFICIALS NAMED TO NEW AGENCY ON RADIO-TV This article was sent in by Eric Floden and was taken from his local paper; story is written by the Canadian Press. 'Harold Corbett, 44, has been appointed chief of the application and licensing bureau of the Canadian Radio-Television Commission.

The CRTC has also announced that Franklin Delaney, 27, has been appointed assistant secretary.

Mr. Corbett, an air force wirless officer during the Second World War, has been with the transport department's communication branch since 1947. For the last three years he has been in charge of its licensing and application group for broadcasting stations

Mr. Delaney, a law graduate, will be responsible for organization of public hearings of the CRTC, the new broadcasting regulatory agency that succeeded the Board of Broadcast Governors this year." Eric adds that this is not yet in effect.

DAYLIGHT SAVINGS TIME As is usual at this time of the year, DST takes effect and causes mild havoc among radio listeners trying to convert from local time to EST and add/subtract for DST at the transmitting and/or receiving location. This year, the job will be less difficult thanks to the uniform switching to DST by all states except Arizona and Hawaii. When reporting to all sections of the bulletin (including your Forum reports), please use only Eastern Standard Time. This does create a problem when giving schedules. For instance, KCKC-1350 signs off at 0300 EST during the winter and 0200 EST during the summer, while it remains 12 midnight PST/PDT. A possible solution to the problem of giving schedules (which remain the same throughout the year) would be to use ELT (Eastern Local Time) for those schedules stated without a date. That would tell the reader that the time is EST during the winter and EDT during the summer. This is only an idea thrown out for your comments -- please do not use ELT until/unless the club officially adopts it for the purpose.

NEW MEMBER PACKETS Consisting of nearly a pound of material, these packets have now been sent to all new members through this bulletin. If you have not received yours as of May 20, please write HQ. Among the material included in the packet, is the DX Booklet, 20 sheets which attempt to explain DXing and radio in the clearest possible manner. New members should read these carefully, especially noting the section on sending reception reports. Publishing Headquarters continues to hear of IRCA members sending reports without return postage. This is strictly against the club policy -- return postage is a MUST with each and every report.

Other material in the NMP: freq.ck. list, SS and FF Report Forms, PP Report Form, Report forms (to be filled out) for Domestic DX Records, Foreign DX Records, f/c's heard, and Dir. of IRCA Members, copies of various Special Features, States/Prov's of the Month, President's Reports, etc. The RFS Cuban List, the Mexican List, and the Countries List were included until supply ran out. They will be re-mimeographed at a later date and sent to all those who did not receive them.

PUB. HQ The correct address for any requests for missed copies, missing pages, blank pages, back issue material, sample copies and for information regarding DX programs is IRCA Publishing HQ, Don Erickson, 6059 Essex Street, Riverside, Calif. 92504. Phone number for last-minute DX program info, etc. is (714) 687-5910, after 6 PM and weekends.

1968 WRTVH SUMMER SUPPLEMENT Word has been received from the publishers of the World Radio-TV Handbook that the 1968 Summer Supplement will be ready for mailing approximately June 15th. IRCA members may order the Summer Supplement at the special price of \$2 (the regular price is \$2.50) by sending remittance (payable to "Larry B. Godwin") to the following address only: Larry B. Godwin, 6559 So. Clayton Street, Littleton, Colorado 80120. Deadline for orders is Saturday, June 8th.

# President's Report

- Last call for volunteers to edit the PST/HST DX Forum. Please write me immediately if interested.
- Lynn Brooks has been appointed editor of the CST/MST DX Forum and the appointment was confirmed by the Board. He will begin editing the column with the July 20 issue.
- C. Proposal to go the the Board of Directors: To allow listings of certain foreign stations (Mexican border stations broadcasting in English and other foreign stations likely to be mistaken for domestic stations) to appear in the DX Roundup at the editor's discretion. (Submitted by Mike Northam)

### CPC RESULTS

Percy Kesteven sends along this information on the WNAX-570 IRCA/NRC DX program: Six reports were received and they came from Denver, Colorado; Lancaster, Ohio; St. Louis, Missouri; Valparaiso, Indiana; Oklahoma City, Oklahoma; and Coal Creek, Colorado. Two other reports were received and listed hearing only tone--there were no tones anytime during the period. Mr. Clif Todd, Chief Engineer, comments on above. 'Needless to say, we expected many more reports. The test was of value to us, however, in that it helps us to determine the value of 24 hour per day operation which has been considered for some time." I (PRK) suspect that most DXers west of Montana just didn't have a chance with KVI, KLUB and KLAC on during the test.

WFOX Tom Mann, Milwaukee, sends along information that WFOX has changed call to WNOV as of 4/15/68 and now plays R&B music. WNOV is a 250-w daytimer on 860 kc/s and their address is 208 E. Wisconsin Avenue, Milwaukee, Wisc. 53202. Many of you will remember that they used IRCA Milwaukee Convention QSL cards and conducted a couple of DX programs for the club in 1966.

WAVY, Portsmouth, Va. on 1350 kc/s with 5kw fulltime is now WCVU. They are owned by Seaboard Broadcasting, Inc. -Broadcasting Magazine

RECEIVER FOR SALE Randy Miltier, 1760 Whitwood Lane, #3, Campbell, Calif. 95008 writes that he wishes to sell a Lafayette HA-700 5-band receiver in excellent condition for \$85. Write to Randy for details.

ADDRESS CHANGES AND REMITTANCES TO OREGON Please be certain that all changes of address and dues go to Mike Northam, IRCA Secretary-Treasurer, P. O. Box 605, Beaverton, Oregon 97005. Those members making a late change of address should also send along 25¢ per bulletin to cover the expense to the club of postage due (15¢) and remailing.

IRCA RUBBER STAMPS

IRCA Rubber Stamps (50¢), IRCA Report Forms (50 for 65¢), Explanation Slips (1¢ each), PSA Lists (free) and Loop Plans (two types--spiral and box; free)are all available at Pub. HQ. Write for whatever you need.

### PRIMARY ELECTIONS

This list of nominating primaries was contained in the April 25, 168 issue of the Postal Bulletin:

April 23: Pennsylvania May 4: North Carolina, Texas May 7: Alabama, Florida, Indiana, Ohio May 14: Nebraska, West Virginia May 28: Kentucky, Oregon June 4: California, Mississippi, Montana, New Jersey, South Dakota June 11: Illinois, South Carolina June 17: Maine June 18: New York July 9: Virginia July 30: Arkansas August 1: Tennessee August 6: Idaho, Kansas, Michigan, Missouri August 17: Louisiana August 20: Wyoming August 27: Alaska, New Mexico, Oklahoma September 3: Iowa, Nevada, North Dakota September 10: Arizona, Colorado, Maryland, Minnesota, New Hampshire, Rhode Island, Utah, Vermont, Wisconsin September 11: Georgia September 17: Massachusetts, Washington October 5: Hawaii

The preceeding information from the April 8, April 15, and April 22 issues of Broadcasting.

Frank Kennedy editorializes:

- 1) The to all those inquiring about the SX-100. It has been sold through the bulletin.
- 2) Have received a copy of a proposal to the BoD by Mike Northam which would allow Mexican stations to be listed in DXR. I am in agreement as long as only those programming in EE are listed in DXR.
- 3) It ""Dears to me that the Domestic Records section would be a little better if: 1 "e year a Dier started Ding was listed as in NRC for. records.

  2-An asterisk were to appear after the total veries for each state if the Dier has that state 100% verified. I know several Diers who have or are very close to having at least one state 100% veried.
- 4) Don't forget about the IRCA Convention auction in August. Bring something to sell. Last year we sold everything from radios and logbooks to empty beer cans and Bill Nittler's shirt, right off his back even. Anything you think might sell, preferably related to DXing. Above all, bring money!

EDITOR: Randy Seaver, 2119 - 30th St., San Diego, Calif.92104; 714-281-4182

# The Voice of Freedom - South Vietnam alloss vino odi al IVSX (instead of the second of

A 200,000 watt transmitter is going up on a man-made island in Hue Lagoon at the northern tip of South Vietnam. The new station, the Voice of Freedom, is expected to reach far into Red China, India, Burma, as well as Laos, North Vietnam, Thailand, Cambodia, Malaysia, the East Indies, and the Philippines. The transmitting equipment was built by Continental Electronics of Dallas, a subsidiary of Ling-Temco-Vought, Inc. The installation will include three steel towers, each 380 feet tall, and eight buildings. These include the powerhouse, transmitting station, Vietnamese military barracks, civilian barracks, manager's residence, adviser's quarters, military and civilian mess halls. Because of the Tet offensive, the construction schedule was upset, and the original opening date of May 15 was set back to July 15.

The above is from an article in the 4/21/68 Denver Post; Mike Reynolds called Mr. Sam Wallace, a Denverite who is the station's construction contractor, to find out the frequency, but he didn't know, and said to call back around July 1. Thanks to Mike and Bill Nittler for this IRCA exclusive.

# "soul" music, pop standards, calepse, classical music, folk, relations of the V. Conditions of the V. C. and the V. and the V. C. and the V. and the V.

Sunspots: The provisional Zurich mean sunspot number for February, 1968 is
107.3; that for March is 92.4. Although it appears that the numbers
are down from last December, we can't say if the trend will continue
as favorably yet; it takes 13 months to round off the values to see
where the peak was.

# Geomagnetic Activity: no bases, caw , 6801 . Ri RingA baseb , restal avoid and

from models = 2nd mort feet Islands a pairs blune restel GSJ e vidiacog out vo March 20, -26 at :notiv21 -26 - 04 - 019 - 14 - 15 - 14 pous bluow I mort p March 27-April 2: accordin - 12 - 15 - 19 - 11 - 16 - 3 - 12 | 10 notic night April 3 - 9 : 11 - 8 - 19 - 22 - 28 - 3 - 12 | 12 | 24 | 5 no April 10 - 16 : 5 - 9 - 11 - 19 - 23 - 12 - 12

A geomagnetic disturbance (Storm No. 134) began about 1500 UT April 5 and persisted through April 6. The Storm A-index was 32. Radio propagation conditions were affected significantly for about six hours on April 6. No unusual solar activity was noted during this disturbance. On April 1, a flare of importance | bright was noted at the west limb (sl7 degrees) on the disk. In the week previous, solar flares of importance one occurred almost daily March 20-26. Significant ionospheric events were observed at 1915Z, 21 March, 1635Z, 24 March, and 1446, 25 March.

Analysis: In the broad sense, and on the basis of previous sunspot cycles, we can expect slight improvement in overall reception conditions in the next 2 to 4 years, as the sunspot numbers gradually decline. During the summer months, the high sunspot count, coupled with the higher noise levels, will make long-distance high-latitude trans-oceanic DX next to impossible; however, north-south reception opportunities will be numerable, especially in the west, where the reception of west Coast SA (Peru, Chile, Bolivia) is likely to improve, in addition to trans-oceanic Down Under reception. Best times to try for WCSA is 0500-0630 EST, and for the DU's 0400-0900 EST (See the Focus articles on these areas published several months ago).

# Deadlines paramate and wist venit (I is beug babet and #1/4 C)

For the summer issues, the following Wednesdays will be DXWW deadlines:

May 15, June 12, July 17, and August 14.

Please keep these dates in mind and contribute anything you can, I hope we can have at least 10 pages each issue.

# British Virgin Islands - Station Z8VI

At the moment, ZBVI is the only station operating in the British Virgin and Islands. The station operates on an assigned frequency of 780 k/cys. and our present power is 1,000 watts, although this power will be increased tenfold to 10,000 watts within the next six weeks. Our call letters are ZBVI - that's ZED BEE VEE EYE. The station does not, at the moment, use a directional antenna system, although there is some possibility that we might do so in the future. At the moment, ZBVI has a control room, studio, transmitter/engineer's room, office space, and a tape and record storage area. Work on the installation of a new studio and control room, larger office area, and on the extension of the transmitter room is just about to begin. The station does use the following as a readily identifiable slogan... "This is ZBVI - The Voice of the so**British Virgin Islands,** the constru**ed and for each** 

ZBVI is on the air seven days a week on the following schedule. Monday thru :::Friday;ithe:station;broadcasts?from:6\a.m;:t6:8-p;m;~(0500-1900;£ST);;On Saturdays, from:60a.m. to 6.10 p.m. (0500-1710 ESTO, On Sundays, ZBVI begins its transmission at 12 noon and ends its broadcasting (day at 7.15 p.m. (1100-1815 ESTO. The programme content is varied, providing music of all kinds -"soul" music, pop standards, calypso, classical music, folk, religious, and a little jazz. News is carried via the 8.8.C. and the V.D.A.; there is also a Monday through Friday evening newscast — The Hometown News — at 6.30 p.m. Staffwise, there are, at present, six persons on the staff including myself, but with the expansion of the station moving into high gear now, there will be more persons added to the staff in the next few months. Sincerely, /s/ Leopold N. Mills, Manager - ZBVI, Baugher's Bay, Totola, The British Virgin Islands.

The above letter, dated April 19, 1968, was passed on by Ed Krejny Quite 🙃 possibly a CPC letter would bring a special test from this station next fall, I would suggest a MM from 0400-0500. This station is now operated by the Virgin Islands Broadcasting Limited, who purchased it March 5, 1968 from Mr. and Mrs. William N. Greer. SS - 91 - 8 - 11

- 21 - 22 - 21 - 11 - 0 - 2

Costa Rica - Jupda raped (AEL .oM mief2) obnadiusalb oltengamong A Radio Titania, Cadena Musical and Radio Monumental have formed a 19 station consortium, and immediately deleted two of the Musical stations (575 and 925) which now repeat Monumental. On 1880 kc, Radio Mil is the station and is rock and roll. Other changes are planned. (Ed Krejny) (Me) doll tesu shi to -degrees) on the diak. In the usek previous.

### ON ARV foot eads (OI AR) BE ofte CESE se orle dile 11/18 EX-2880 DXWW Forum - and rise and a contract of the c

Art Peterson: Greetings, gang! Since I last wrote, most of the time has been spent out here in the Gulf of Tonkin. Soon I will be on my way to Sasebo, located on the southern end of Japan, near Nagasaki. Should be an interesting time in port. I hope to monitor many north Asia stations there. Reception has been reasonably good, but poor at a distance. Not even a carrier from India-965, one heard regularly last cruise. Several good tapes have been taken, anyway. At the end of the cruise I should be able to assemble a decent ID tape of Asian stations. Well, until next time, 73 and good DX.

them distancian on Dr. Mind in Thei, Heard Odlf 48 48

Art also sent a note stating: The RFA-1580 EE newscast above (in Loggings) announced that a new 100 kw station near Bangkok was to be constructed soon. Frequency unknown because this ann. made just as I tuned in, but could very well be 808. This is to be an anti-propaganda station.

Charles Molloy, reporting from Lancashire, England, had some comments in his recent letter that were not included in the 4/20 DXWW: DX has been poor recently. There is a Portuguese speaking station on 697 kcs which I have not identified — QRM from 692 and 701 is bad here. The closedown is at 1908 EST on weekdays and 2000 hrs on Sundays. I thought I heard Emissora Nacional which could make it a new Portuguese station and I have written to R. portugal for information. It might just be heard on your side of the Atlantic. Two veries recently: 1034 CSB2 Card and pennant, this station IDs in EE at times 1594 CSB4 Card plus photographs of transmitter.

John Hoogerheide in Antofagasta, Chile also has some observations: Conditions on Sunday 4/7 were static-free, but only the US powerhouses like WLS-WCBS-WCFL-WCAU-WGBS-WLCY were making it through. Many frequencies like 1480 had nary a sound at full volume. Amazing, isn't it? Of interest is the Saturday PM, Sunday AM ANing of Santiago - 660, 1180, 1300, many Montevideo stations, Lima, and apparently every station in Guayaquil. Try for some weak Ecuadoeian splits on 945, 975, 985 and 995. No ID's noted on these but presumably Guayaquil - all ANers on Sunday AM. Other AN splits noted on 745 and 1425 (Peru, I think) as well as the usual Panamanian splits. Any of you who noted unusual AN-SS on MM 4/8 could check for Argentina as almost all the Argentine powerhouses were on AN that day.

Notes and Psides, Finis - John H., could you check some SM and MM for those ANer noted by you on 4/7 and 4/8. I think some may have been on for Palm Sunday (4/7). Thanks to our fine regular stateside members for their DX reports, and to Art, John and our English friends for their fine recent contributions. I had the pleasure of meeting Father Pejza at his father's home here in San Diego last Saturday and we had a fine chat about DX, IRCA and ERBA, amongst other things.73

Stanbury's Believe It Or Not - More R. Americas Confusion..by C.M. Stanbury II

Everytime it seems that the RA debate is about to settle down into a peaceful rut (across which the combatants can glare at each other in silence), the thing takes a new twist. The latest action takes place in the June-July(currentissue of RADIO-TV EXPERIMENTER.

The fun begins on page 66 where one C.M. Stanbury II is quoted as saying "Famous Radio Americas is even more easily heard. Though not everyone agrees, this transmitter is definitely on Swan Island". Which is certainly news to Stanbury! What I actually said was as follows: "Although no one knows for certain, this one was apparently moved a few years ago from parts unknown to a Swan Island site while at the same time its SW relay was installed aboard an aircraft". This was in turn based on evidence published in the previous issue titled "DX on Wings" (page 63).

This earlier article first establishes, with what I believe is great certainty, that the original Voice of America station on 1040 was airborne (if any member of "The Establishment" (sic) (his 'sic', not mine-RjS) challenge this I again invite them to write the VOA and ask for themselves). The article then goes on to point out that the original 1040 kc facility picked up its programming off the air from various points INCLUDING Radio Americas which its self received VOA programming off the air, and therefore RAVs use as a pickup point for VOA-1040 was most unusual and, in any event definitely established that RA had at least been involved in airborne operations and, in some respect at least was equipped for them. The article then presents strong but CIRCUM-STANTIAL evidence that RA's SW XMTR (the one deleted in Sept.66) was itself airborne. If this is true then there's no reason to doubt, based on the other evidence, that RA's MW XMTR is indeed on Swan Island.

The RTVE editors felt justified in changing at the last minute "apparently to "definitely" because of an item which appears elsewhere in the June-July RTV in the SW section of White's Radio Log which is edited anonymously by a certain well-known SWL. Said item (page 125) reads as follows (underlining is mine): "Guess who's back in town...R. Americas! That's right, it's holding down the fort on the old 6000 khz channel...Is it still (sic) on Swan Island? It sure is, however, the station is trying to make it appear that they are in Venezuel: The 8C8 channel (1157 khz) is still coming from Swan Island; there's no doubt about that any longer since the oress was allowed to visit the island".

Now, if an accredited member of the press, of known repute, did visit Swan Island and determined that both XMTRs were indeed operating there, this is a major breakthrough and there can be further dispute about the present location of R. Americas. Unfortunately, there are two major reasons for at least questicing the accuracy of this report. Taking them in reverse order of importance, there are (1) while RA, since returning to SW, has in fact attempted to create an impression, on the air only, that MW and SW were two different entities, merely because they used a Caracas SW address doesn't mean they were hinting at a Venezuela XMTR site. After all, they've used Miami addresses for years and no one ever assumed from this the XMTR was in Florida; (2) If a reporter has visited Swan Island, this is the most unpublicized scoop in the history of journalism. So far as I know, it has not been carried by any of the news services and the story has definitely not been reprinted in any of the club bulletins.

Needless to say, I have contacted RTVE's editors in order to find out exactly what constitutes the "press" when this alledged (sic-mine, RjS) visit took place, and any other details that are available.

Meanwhile, to add a touch of irony to the situation, this same June–July RTVE (page 83) contains an excellent article by Don Jensen titled "DXings Seven Greatest Hoaxes"....C.M. Stanbury II

This sleeping dog won't stay laid, will it? First, could somebody send me the "DX on Wings" article mentioned above? Second, I fail to see the reasoning between the VOA-1040 and RA airborne argument, and thirdly, I can think of no worthwhile reason for the wire services to pick up a report of a visit to Swan. Unpublicized? Hardly newsworthy, methinks. Back to bed, RA-RjS
