DX CALENDAR

Mon. Mar. 3	KRUX	1360	Glendale, Arizona	5kw	0515-0600 EST	IRCA
Sun. 16	KFML	1390	Denver, Colorado	5kw	0415-0445 EST	NRC
Mon. 17	KFSC	1220	Denver, Colorado	1kw	0330-0400 EST	NRC/TEST
Mon. Apr. 7	WADE	1210	Wadesboro, North Carolina	1kw	0100-???? EST	NRC/TEST

KRUX will test with short TTs and rock and roll music. Main interference will be WSAI and, possibly, KXOL. Power will be 5kw non-directional. This DX program is listed in NRC's DX NEWS as "evidently strictly for Western members," though it isn't known why. If ever a test had a good possibility of being widely heard, this should be the one. Chief Engineer Ray Thomson is very much interested in the response to this program so be sure and write to let him know how well it was heard at your location even if you don't desire verification. And a thank-you note if you are unable to tune-in or to log the station will show that you appreciate the effort of Mr. Thomson and the station in conducting this test. It isn't known for certain but your Publisher expects that phone calls will be accepted from listeners and the names of those calling announced over the air. This has generally been the case with PSL-type DX programs. And, a special word of thanks to Paul for arranging this and other tests from Arizona. Send your reception reports to: Mr. Ray Thomson, Chief Engineer, Radio Station KRUX, 7401 W. Camelback Road, Glendale, Arizona 85301. Program arranged by: -Paul S. Lotsof, Box 1233, Tempe, Ariz. 85281

KFML is 5kw, non-directional. IDs and music will be used. Reports to: Mr. John Morrill, Operations Manager, Radio Station KFML, 290 Fillmore Street, Denver, Colo. 80206. This test arranged by: -NRC/Glenn Hauser, Box C 8638, Lowry AFB, CO 80230

KFSC will play Mexican music and ID in EE and Spanish; channel should be clear throughout US and Canada. Report to: Andrew Neidig, Radio Station KFSC, 2185 Broadway, Denver, Colorado 80205. -NRC/Glenn Hauser

WADE will be Proof of Performance. No other details. -NRC's DX NEWS

Courtesy Programs Committee Those presently on the CPC, those who have just recently volunteered, and those who would like to volunteer at this time, please write pub. headqtrs and you'll be sent a supply of IRCA stationery at no cost, for use in writing stations, sending information on programs arranged to other clubs, etc. The address for your supply of IRCA letterheads is: IRCA, 6059 Essex Street, Riverside, Calif. 92504. Those wishing to become members of the CPC are invited to write Jim Korn, Box 156, 666 Radar Squadron, Mill Valley AFS, Calif. 94942 for a list of areas open and other details. If you have a particular area in mind, be sure and mention that when you write.

All DX/TEST Stations receive DX Monitor Every station listed in DX Calendar receives, automatically, one or more copies of DXM listing the DX or TEST program. These copies are sent to the address for reception reports. CPCers, if you would like the copy/copies sent to another address, or an extra copy for someone else at the stn, or copies for those stns considering a DX/TEST, we'll be glad to send out one promptly. No charge, of course.

ALL CHANGES OF ADDRESS AND DUES MONEY GO TO THE ADDRESS ON THIS MASTHEAD.

President's Report

The Board has selected Lynn Brooks as the new Director in Region #4; Lynn will finish the current term through August 31. Also, Ed Krejny was elected Chairman of the Board.

Note that the new Incorporation Committee is now functioning. If you'd like to help guide the IRCA through the new Colorado incorporation law, write Bill Lipis. The IRCA must come under certain provisions of the new law in 1969.

Proposal to go before the Board soon: The IRCA name, emblem or other identifier may not appear on "prepared card" QSLs sold by the club.

Attention authors of articles in the first edition of "The Principles of BCB DX-ing:" Please drop Gray Scrimgeour a line granting permission for reprinting in the second edition. If you would like to write a new article for the booklet, also write Gray at 227 Hanna Road, Toronto 17, Ontario.

I have written Bruce Portzer, Percy Kesteven and Ed Krejny requesting them to decide their own policies as far as counting taped veries affects the DX Records, achievement awards and contests, respectively. Each will make a statement soon.

Don't forget to report to the BIG Anniversary Issue on March 15, which will commemorate 5 years of successful operation of the IRCA. This issue is traditionally the largest of the year, and a ballot concerning new Bylaws amendments will be enclosed.

EAST COAST DX FORUM

Ken Lyon - 5155 South Newstead, Akron N.Y. 14001

Not much luck on recent tests, none heard here. WLAW tried for but not heard, even after 3:00 s/off of WSAI. KOWB and KGYN also not heard here. KOFO and WONS not heard. CKCM not heard. V/1: WCHI. CU.

Quentin K. Brown - 59 Kenilworth St. - Ottawa 3, ONT.

Greetings. FL: Give CKPM a f/up, they're friendly. MM 2/17 had bad US - Can. cx which left foreigners. ZBM1 slop ruined the 2 graveyards & XERF returned for the first time in 10 MM's. Veries in this week: WTMJ, a nice v/q, WPEN & WLAN, both v/1 & CM's. Re tapes: I agree 100% with AM & JF. For example could my tape of XEW ever be equal to EF's v/1 from them? To the top 10 & dom, con: sent cards w/5 cents, not 6 so hope they arrive. RB: KCKC seems like a pretty good catch, congrats. Do WNEB WSLB WOND (all gy's) verie? 73s.

Frank "Hank" Howell - Rt.2, Box 245 - Tennille, Ga.

Almost back in action after the flu & exams. Just when I think I'm OK, snow & ice hit us and now I've got to put up another antenna. Rcyd the WRTH about 2 weeks ago. Hey man look at the MW! I agree with Bill Nittler about the CIA. Now that I'm through for the season bouncing the Basketball, maybe I can twirl some dials and support the DXR & DXF more. QSLs: v/1 WTAR KNOE; v/q: CBM CFRB XEG + v/1, KWKH & WMAQ; PPC: WXPQ. All you DX champs better'd watch out, cause "Hank" Howell's fooling with a new ant design & if I don't blow myself up first, I might get some good DX for a change. 73s & watch out!

PFC Raymond Arruda, BTRY B 1/211 ARTY, 197 INF BDE, Ft. Benning, Ga.

The above address is temporary. Any correspondence should be sent to my home address. I shall answer any letters and also the ones requesting SC's when I'm home during leave which should be some time in the Summer before my ETS in December. Best catch here is KNX-1070 which is verified from Mass. I have already re-newed for my third year in IRCA. mbn: Did you receive my dues yet? Am seriously considering a course in electronics when my active time in the Service is completed. I'll get back to reporting frequently also. Marc DeLorenzo: truly a fine editor for our East Coast sections. 73 from the United States Army Infantry Center. (Why thank you, Raymond!-MD)

Jim Nall - 606 No. Hite - Louisville, Kentucky 40206

After reading what different members have to say about tape veries, I have a slightly changed view. I kind of agree with Randy Seaver and his QSL/tapes/total type of thing. This doesn't give the DX'er with a t/r an advantage. Veries: v/1 KLIZ+CM KFRE WRBN WBBK CKDR (they said my rpt was the farthest they had ever gotten, and they would use it for promotional purposes) WFRB WSWW WFTC KFRO CHAM KNIR WKO. v/q from KPRC, Dakar-764+FF pgm sked (the envelope had about 16 stamps on it), YVMY-840, WLDS, WCBG & WMQM. I was down at the new studios of WAKY the other day, and the secretary said that it would be some time before they could start sending out QSL's because they were so busy getting set up! So if you have been waiting some time for a verie from WAKY (wacky), hold on! 73.

Tom Hartloff - 49 Highview Court - Central Nyack, N.Y. 10960

DX cx are really weird this week. Last night 2/15 WHAS-840 was virtually nonexistent. Tapes of stations are nice but I can't see them as veries. QSLs are something the stn sends to you. A tape ceratinly is proof of hearing and I'm willing to accept any DXers word that he hrd such and such a stn w/out the tape, but I can't count the thing as a QSL somehow. And no stn is a complete non-verifier. As Alan Merriman said it takes the right combination. As Angel Garcia and I looked over each others' QSLs, we both had QSLs from stations that didn't verify for the other. Such is life. Verie #300 made it in the form of KNX state #32 along w/WAPI state #33 - #302 was a corker - WAAB-1440, a letter & map & form letter along with v/p I sent. All this from DJ/Eng. Bill Kay. QKB: My WRNC verie was very quick in coming. WPAT v/s is Paul DiSavino, tech. supervisor. WPAT is an easy QSLer, almost automatic. Welcome Jerry Robertson & Robert Schneider. 73 & support your local CE.

MIDWEST DX FORUM

BILL NITTLER - Box 112 - Englewood, Colo 80110

Veries: PP's from KCCC-930, KDIX-1230, KGLE-590-DX, KRBB-1560, WPAG-1050, KIML-1270, & KWKY-1150. V/1's from KSCQ-1080 & KDJW-1010! DX has been sparse with the past week-end spent at the Jaycee Conference in Denver & just not enough sleep the whole week-end to allow DX MM 2/17. The new KUAD-1170 Windsor, Colo should be on the air with tests sometime before March 1st. They were planning on being on by now but lost the top half of their tower in a windstorm just as they were getting ready to test. Can probably get a DX program from them if we could just find KVOO off. Hope all the ERBAnites had a great time & are back at the dials. Get well quick, Lynn, we have to keep ahead of the other sections. The support's been great for the various sections of the DXM. Keep it up, gang! 73.

PAUL S. LOTSOF - Box 1233 - Tempe, Ariz. 85281

Interesting to note that IdB's statement in the 2/8 DXM re the 15-line limit lasted 20 lines! Although the wording is less than ideal, the convention site change which was recently approved by the BoD is a vast improvement over the present system. I hope it will receive support from all IRCA mbrs when it comes up for a vote. In reply to JEP who has already suggested that the '70 gathering be held in Vancouver, I offer these comments: Fact #1: Both in US & Canada, the Eastern time zone has a greater population than all other zones combined. #2: As of '70, IRCA will have had 6 conv. with not a single one in the East! QUESTION: Is this a fair way to treat Eastern DXers?? If IRCA is not the undisputed leading DX club, one very likely reason is our image as a western club. Only recently have we taken the small step forward of publishing DXM with Eastern sections appearing first. If IRCA is ever to be on top in ALL the ratings, we must stop writing off half of the DXers in NA as being in NRC country. For once, let's end this pointless discrimination against half of the DX world. IRCA is the club for all DXers. Let's demonstrate this by holding the '70 affair in an Eastern city. (Has anyone in East volunteered to host one?? That must happen first!! Right???? -IdB)

DEADLINE: Friday, eight days before publication date.

NOTICE! NOTICE!! NOTICE!! NOTICE!! NOTICE!! NOTICE!! NOTICE!! NOTICE!! NOTICE!!

Right now, while you're thinking about it, sit down and write a short Forum report to your editor to be used in the BIG ANNIVERSARY ISSUE of the DXM (March 15th)!!!! And let's have a little of your recent DX for the DXR of that issue. Be sure and mark your report as ANNIV. RPT so editor can hold it for that issue. Don't read further until you get your report written. Then ENJOY your DXM! THANKS!! -ldB

BRUCE COLLIER - 3512 Ave. B - Council Bluffs, Iowa 51501

Hi gang! Little to report this time. With school back in full swing I can't do a thing. Four days a week my first class is at 0730 so I'm up at 0630. Saturdays, I work AN so what's that leave? SSS maybe, hi. Recent varies KNOE, KNIM, KDHL, Hope to boost DMK and my contest totals over spring break. Very poor showing so far. That is it for now. 73 and Good DX.

GARY PETERSON - 3705 N. W. 70th St. - Oklahoma City, Okla. 73116

Greetings. New varies: V/l: KVOD-730, KTRI-1470, KNOP-1410, KGKL-960, KBOR-1600, WIBR-1300, KFRD-980, KISD-1230, KUOA-1290, KTFS-1400, KFDF-1580, KDMS-1290; v/f: KLC-570, KBEA-1480, KNOK-970; V/q: KGO-810, WIBC-1070, WSMB-1350. The Asst. Manager at KPFE-1250-Paris, Texas, Curt Cochran said in his v/l that he would like to see how far north, south, east, & west the station could be picked up by IRCAers. Maybe the CPC could look into a possible test from this station? KPFE recently changed calls from KFTV. 73.

LYNN D. BROOKS - 2109 Mary Street - Ponca City, Okla. 74601

I've noticed a little dissatisfaction lately from members who think they don't receive their bulletins soon enough. Well, unless you think you can do better with the publishing of the DXM, then I say you should stay quiet. Seems that our publisher is going the extra mile to get the DXM out during the week, so that most of us receive ours almost before the publication date. Ever try to put out a bulletin one night and go to work the next day?? If that bulletin is in the mails by midnight on Sat., the date of publ., then the publisher has done his job. Keep up the griping & we'll find ourselves without a publisher!! Then the new publ. will probably be located in a city where it'll take 3rd Class about 3 weeks to reach you. When I order something from publ. hdqtrs., I think that a reasonable amount of time to wait is about 4 weeks. We are fortunate that our publisher has time to do anything but publish the bulletin. SUMMARY: Quit griping about time it takes to receive the DXM or materials from publishing hdqtrs unless you think you can do better. And I seriously doubt that we have anybody in that category. Join the NRC and it'll make you appreciate the Riverside mail service for 3rd Cl. mail. Count your blessings, or you'll lose them!!!!!!!!!!!!

DEADLINE FOR MEMBERSHIP-OPINION SURVEY IS 16 MARCH 1969

Ron Schatz reports a record number of 105 survey forms returned as of 22 February, this in spite of little promotional publicity on behalf of the survey, but more are still wanted to make the statistical analysis more accurate. If you have yet to return your "DX Monitor Survey of Membership Opinion" (included in the January 25 bulletin); please mail it to RFS immediately. As a point of information, Ron Schatz is responsible only for the first 12 questions; Q. 13 and the comments below it originated with Larry Godwin. Also, this is a survey only, and not a vote to decide anything, although it will probably be used in support of future proposals to the BoD. Remember, March 16th (Sunday) is the deadline for your survey forms, so mail yours to Ron Schatz now!

Publishers note: The above text was submitted by Ron Schatz and printed verbatim at his request. Ron's address is on the M.O.S.

DISA & DATA: Apologies for missing the 2/22 bulletin. Hectic have been how things have been around here since 2/12. Some items submitted were omitted or held back for various reasons, mostly due to time & space available. ERBA was another rousing success with 28 in attendance at one time or another. My thanks to all of you who came & also to those who couldn't make it but wrote & expressed regrets. The write up in 2/22 DYM by Father Jack was priceless & described things very well, especially the part about "Mead & Ale....etc." If Randall J. Seaver is not heard from again it is more than likely because he absconded with the ERBA Loop which may well be dangerous if the directions are not followed exactly. 73. DKK

Greetings group. The latest edition of ERBA was most enjoyable, as usual. It was nice seeing the old crew again, as well as a few new faces. High point of the gathering was SJB and I winning the pool doubles tournament - and special thanks to Randy Miltier for his fine work on the award certificates. Low point was all day Sunday (as several will attest), hi. Don Kenney should get a special award as top strategist in the tournament, however - that was a victory in the true ERBA spirit. As usual, special thanks to Don Kaskey for being a perfect host. He really knows how to put on a convention! Next ERBA meeting tentatively scheduled for Hollywood Memorial Day Weekend. Can someone arrange it (Russell/Lipis/Lotsof/DEE)? Reward offered for my green plaid raincoat which someone walked off with at ERBA Saturday night, by the way. KSLM-1390 DX 100% copy on 2/17 in Sacto. 73 and DX. Middleburg Heights in '70.

Buenas Dias, Amigos! DX w/out IRCA and especially the local mob (JEP, BE, Theo, et al) would be nothing like as much fun as it is. Just finished my first year of BCB DX, starting w/XELO Feb. 13, 1968. For the statistics hounds, totals are: 531/205; states 38/35; prov's 6/5; cties 24/9. I use a (cough, cough) four tube Nordmende w/40" NRC loop. Yes! The "veries" on a separate but equal basis w/the written kind, per RJS and others. Tnx fo all for the last six great IRCA monthes. 73. (whoops--WLEE-1480 makes state #39.)

Dave Christensen - 3434 39th W. - Seattle, WN 98199

Hi DXers. This being my first report, I'm not exactly sure what so say. Well a little about myself. I'm 14 years old and have been DXing for about one year (BCB for six monthes). I DX with a Hallicrafters SX-130 and a 50' longwire. I've gotten 10 states, 3 provinces, and two estados (Mex) veried. Only two holdouts so far are CKDA-1220 and KDON-1460. Bruce Portzer gave me a call to welcome me to the IRCA and he gave me some go tips for foreign DX. I can't DX on MM too much because of school. (Welcome to the Forum, Dave. Keep us informed on all your DX-BJ.)

Andy Lagomarsino - 11060 Chula Vista - San Jose, CA 95127

Hi all. Well, ERBA was about as neat as it could have been and then some. Actio was great including the 4:00 AM raid on ERBA HQ. Many veries in (40) but shock of the century was KDJW-1010. Totals 250/113 stns, 36/35 states w/KARK rpt out. Earphone offer is still open - anyone who wants good 600 ohm earphones for \$17.25 plus postage please write. I have only been able to help one IRCA'er on this so far. Anyone wishing to tapespond, I can take up to 7" reels at 7 1/2, 33/4, 17/8, or 15/16 ips, 4 tracks. Kaskey's 4'X2' ERBA looped a real fine effort. Has anyone received a CFCP verie yet? Long time no letter. Most tests have been heard and rptd but only CJVI has veried. What's the action? I finally remember where I knew RFS from. A chem teacher of mine looks EXACTLY like him. Tnx to all who have written. Enuf of this insanity!

Bruce Bacon - 15820 Miradero Ave. - San Jose, CA 95127

Well, with one ERBA meeting safely tucked under my belt, I can say I'm really looking forward to the next one. However, I won't be a full-fledged member for another four years, hi. For a few minutes on the way up I didn't think we would make it. With RPM at the wheel and me trying to navigate through the rain, I didn't think we would be there for ERBA. After getting there and taking the DX quiz, the big Pool Eliminator contest was held. mbn and associate really cleaned up on that. DX that night was limited, but with the help of GJ I was able to hear a weak, weak VOA Fla s/on. Finally got to sleep at 5:30 AM. Some people see spots before their eyes, not me. I see veries. Must have viewed 10,000 veries in a matter of 48 hours at hq's. TNX a million to RPM for the ride up! Must go now so as to let someone else go into their version of ERBA meeting. 73.

Bob Jacoby - 556 E. Alvarado St. - Pomona, CA 91767

Let me once again echo everyone else who was there and congratulate Don Kaskey on another great ERBA meeting. There are tentative plans to have an EREA "Memorial Day Melee" in Hollywood. A definite announcement re this in the not too distant future. Everybody report on 3/15 to the BIG Anniversary issue. 73.

A History of Idaho Radio

When young Harry Redeker arrived in Boise from Rupert in 1917 to teach chemistry and physics at Boise High School, he found he was also supposed to handle an extra class at night: teaching World War I preinductees to operate radio signal code keys.

First he had to teach himself. Then, fascinated with the novelty that radio was, he began scrounging equipment. Bit by bit, through Redeker and the members of his student radio club, Idaho's first broadcasting studio took shape under the stage of Boise High School.

By 1920, with a seven-watt radio telephone set loaned by the U.S. Forest Service, the school was broadcasting as 7Y-A. In 1922, when the government issued new licensing regulations for the experimental stations, Redeker became one of the first licensed operators and the high school found itself the owner of radio station KFAU.

The stations patch and scratch equipment search ended in 1925 when Western Electric Co. and Idaho Power Co. helped the school acquire new equipment at about one-tenth its actual cost. With a transmitter tower located on the roof of the school and students handling the programming, KFAU provided market reports, weather, lectures and local talent shows for the Boise Valley.

Redeker, now retired and living in California, recalls some of the excitement of the time. KFAU once broadcast "a big convention in Caldwell in about 1925. The Secretary of Commerce spoke, a man named Herbert Hoover." Redeker had met Hoover before the convention over short wave radio.

Redeker and his students experimented with the new media, and with the rules. When John Philip Sousa arrived in Boise to give a concert KFAU was ready with broadcast plans and mike in place.

But the March King wanted no part of broadcasting. He had never played "on the air" and he never would. Redeker politely removed the microphone and didn't mention the second mike, rigged for short wave transmission, that was out of sight.

So Sousa who never would agree to broadcasting, was heard on Boise 7X-T and Redeker got a listener-response card from New Zealand, a triumph he couldn't share with the great conductor.

And there was the time when broadcast-believers out of a booster club from Payette. The group appeared in 1926 on the station and, in the course of the broadcast, offered to mail a pre-paid box of Idaho apples to anyone who wrote in. The club received, and filled, hundreds of requests and sent boxes of fruit all over the western states.

Plenty of other people were playing the radio game too. In 1922 KFAU advertised that it would give a public exhibition of broadcasting at the First Congregational Church. Charging a small admission to raise money for equipment, it would let the community share the wonder of listening to far-away KSJ in Los Angeles.

"We were afraid something might go wrong, and it did," recalls Redeker. "Some joker drowned us out with a coil set right after we got started, but I had Bob Stone waiting over at the high school.

"As soon as I realized what was happening I called him to put KFAU on the air with records, so at the church we all sat and listened to a broadcast that was clear for the music, but you never could quite understand the announcer on the station identification.

"The only suspicious person was A.J. Priest, the Statesman reporter. He caught on and wanted to write it up, but he didn't and most of the people thought they had listened to L.A."

The above story is taken from KBOT's magazine, Intermountain Observer. I printed only the most interesting part, as the article is very lengthy. The article is by Alice Dieter. Thanks to Marv Garber for sending this article along. If anybody runs across interesting articles pertaining to BCB, send them along! 73.

Mail Delays There seems considerable likelihood the 2-22-69 issues sent by Third

Class Mail were not dispatched by their normally prompt means. If your copy is slow in coming, please wait about three weeks before writing for a duplicate. It has been found that good quality third class mail service is usually had between midnight and 4 AM but bulletins mailed before midnight are treated in the normal manner for Third Class Mail resulting in serious delays. --Publisher

CV=Countries Verified, TV=Total Verifications, TFV=Total foreigners verified.
 *=Totals need to be updated. Next month will tentatively feature Europe and Asia.
 Read further for possible changes in DX Records format. To clear up some of the
 confusion which seems to have arisen in certain cases totals for the following should
 include:

COUNTRIES VERIFIED: No. of countries verified, including the U.S. and Canada.
 N. AMERICA: Includes Alaska, Mexico, Central America, and the Caribbean except for
 Trinidad and Neth. Antilles. Do not include U.S., Canada, or Hawaii.
 S. AMERICA: South American countries, Netherlands Antilles (e.g. PJB), & Trinidad.
 EUROPE, ASIA, & AFRICA: All veries from those respective continents.
 OCEANA: Hawaii, Australia, New Zealand, S. Pacific Islands, and Antarctica (who'll be
 first to veric them?).

TDV=Total domestic veries, SV=states veried, PV=Provinces veried, *=Totals need to be updated. Next months deadline is March 8; Illinois, Nevada, N. Carolina will be featured. Many names were dropped for outdated totals, please update promptly.
 EDITORIAL COMMENTS: I have recieved numerous comments in regards to DK Records lately, most of them favorable.

First of all, in response to recent discussion in club circles, DKrec's will be expanded to include heard as well as verified totals. For heard totals, please submit the following: (figures should be exact and not approximate)

DOMESTIC- Total domestics heard, states and provinces heard, number and best heard from each state and province.

FOREIGN- Countries heard, total stations heard, foreigners heard, number and best hrd from each continent.

In other words, basically the same thing now required for verified totals. You can use one of the current DKrec's forms (available from DEE) to send in this info, but clearly label it as "heard" to avoid confusion. A taped veric listing might be added soon, also, if enough members show an interest in the activity. Initially, the listing would cover foriegn tapes only, with the possibility of domestics added later.

Because of the current financial situation, there will be a cutback of sorts in the amount of DKRecs printed each month, e.g. - Next month: Domestic veries, April: Foriegn veries, May: Domestic and Foriegn heard. CUN 30. Goody X. bp.

Listeners' Logs- East Coast

625 TIRICA Costa Rica, San Jose. Regarding WJFW's comment, this one has been off the air apparently since 1/10. Coincidentally, this one was noted 1/9 and 1/10 with, for the first time since it began using higher power, something other than music and IDs-- a political program at 2300. (CMS)
1160 HJCK Colombia, Bogota was topping this channel at 2115-2145 2/12 first with jazz and then classics. Positive ID at 2130. (CMS)

Mid-West

780 Barbados, Bridgetown seems to use 6 pips on the hour now. (LBG)
HJZG Colombia, Cali, "La Voz del Pais" heard with fair signals after years of trying with IDs at 2200 and 2230 2/11 with WBBM nulled. At 2228, power was announced as 20 kw. (directional?) Reported. (LBG)
820 YVSH Venezuela, Upata "Radio Guayana" s/on with NA MM 0423 2/17. S/on time seems to vary between 0400-0500. (LBG)
870 ???? UnID SS heard at 0401 SM 2/16 giving the date, and announcing a military march recorded by the Band of the Army of Argentina. Then a short mention of "converted to Christianity," normal for a Sunday morning, that would seem to rule out Cuba. Besides the loop bearing did not suggest Cuba. This may be LRA-Buenos Aires, although not on at this time per 1969 WRTH. Maybe on early for Carnaval? Played non-stop "good music" from 0402-0425. Tentative report sent to LRA with fingers crossed hard. (LBG)
HCNY2 Ecuador, Guayaquil presumed the one with tropical music and EST TC at 0432 SM 2/16, although no ID heard. (LBG)
CM- Cuba, "Radio Rebelde" IDed 0503 SM 2/16. Don't know if AN. (LBG)
880 ???? UnID Brazilian with telephone-talk show in Portuguese with excellent signals atop the Panamanian 0250-0302 MM 2/17. No ID, unfortunately. (LBG)
1090 CP57 Bolivia, La Paz "Radio Progreso" appeared suddenly at 0500 with an ID. Signals in February not nearly as strong as January. Still no verie. (LBG)
1180 XEFR Mexico, D.F. "Radio Felicidad" IDed 0330 2/16. I still haven't heard the AN Colombian here. (LBG)
1212 ???? UnID Brazilian in PP, easily separable from the Cuban on 1209 and HJFF-1210, at 0230 MM 2/17. No ID audible. (LBG)

West Coast

655 YSS El Salvador, San Salvador, "Radio Nacional de El Salvador", good to excellent 2340-0003 s/off 1/31. Played mostly US instrumental mx, detailed s/off w/IS, mention of frequencies and anthem which began w/"Wm. Tell Overture" trumpet call. (BW)
660 2YC New Zealand, Wellington, beautiful steady signal on perfectly clear freq. 0540-s/off 0555 2/19. Played heavy classical mx, ID at s/off was "These are the YC stations of the NABC." 100% readability for my 2nd report. (BW)
YERFM Mexico, D.F. clobbered KSKY w/US MoR mx 0715-0735 2/19. Many SIDs by YL.
770 3LQ Australia, Melbourne: weak but persistent 0526-0625 fade-out 2/10. / (BW) ABC gongs + 2 min. news 0530, then MoR vocals; gongs and TC (6 pips) 0600 followed by Count Basie instrumentals. No trace of WABC. Were they on? (BW)
790 ???? Pat Martin's UnID SS might be IR6- Radio Mitre. (50 kw). (LBG)
830 4VEC Haiti, Cap Haitien, very weak reception on 2/18 of "Special Test Broadcast" from 0048-0051 EST s/off. Requested reports be sent to Postal Box 90B (possibly 93?), Port au Prince. CFM from CMCA and WCCO, no sign of Belize. Reports sent to address mentioned in test and also one in '69 WRTH. (DCM)
840 ???? UnID SS here AN MM 2/17, also noted at 0200 2/16, probably AN due to Mardi Gras, whoever they were. Have one ID on tape beginning "Esta es umpa abundo musical..." or similar. Any ideas? (BP) (None here, Bruce. FJP)

- 860 1YZ New Zealand, Roto-Rooter (hi): fair to good 0523-0626 s/off 2/3. Aurora conditions killed LPRT OC's and CJBC, lvg. this frequency clear. 1YZ had jazz program 0530, ID 0600 "This is the National Program." TS (6 pips), BBC news and NZ news and weather. S/off GSQ 0626. (BW)
- 1210 HJFF Colombia, Pereira, "La Voz Amiga" finally heard 2/22 0300-0315 with no QRM, but some fading. ID 0300 w/chimes, and also between records. (FJP)
- 1420 ???? UnID SS atop KSTN 0530 2/17. (BP) (Many possibilities—XEF, XEEM, Colombian, HIAE, etc. FJP)
- 1470 XESM Mexico, D.F., Excellent strength with no QRM 0400-0420 2/17. Many "Radio Fiesta" jingles, generally good audio. Tape sent. (EW)
- 1510 2NA Australia, Newcastle audible again 2/17 MM w/TC 0505, then what sounded like a drama of some sort. (BP)
- 1550 4QD Australia, Emerald, probably the station heard 0455-0500 2/17 w/classical music and 6 pips on the hour. Nothing else heard. (DGM)
- 1560 CMBG Cuba, Veradero with non-stop news in SS, pips every minute or so. Same format as my UnID SS on 760; both listed as Reloj Nacional. No ID heard. / (FJP)

Verifications

- 730 Trinidad, Port of Spain sent nice v/l for cricket reception on 1/27. V/s E.R. McDowell, Engineer in Charge states "our 20 kw power is consisted of two Redifon G162 transmitters operated in parallel via a "T" network and feeding a "T" antenna 180' high. Took ten days!. Country #8(MG)
- 780 Barbados, Bridgetown, sent v/f and mentioned they are printing up QSL cards and that they would forward one to me when they are done. V/s is G.G. Taylor, CE. Country # 9. (MG)
- 830 British Honduras, Belize. My 45 minute report of 11/21 was finally verified by Chief Broadcasting Officer, Mr. Laudiford as best as I can read. The frequency on the card of 834 khz is xed out and 830khz written above it. This may have changed since. The card was the typical one with a figurative map of British Honduras on one side. (SA) / Old v/q via airmail after 3 months, specifying 830 khz. They sure do drift! Signer: Claude Ford. Country #9. (BW) (I believe the signer is Claude Ford, Steve.FJP)
- 840 CB84 Chile, Valparaiso "Radio Portales" returned my picture postcard of Colorado with a definite verie on the back; my 11th Chilean verie and 2nd on this frequency. V/s is Ana Maria Edwards O. Report for 2/3 reception. (LBG)

Welcome to new reporters Steve and Gene. Gene, it was nice meeting you at ERBA.

Brian Williams has called my attention to an item in SCDX I had overlooked: The Ginkrer DX Club, Box 27, DK-9600 Aars, Denmark, has published "Advertisements in Latin American Radio," a list of some 800 of the most frequently heard ads in LA radio. Copies for 2 IRCs or equivalent from Mr. Ivan Stensgaard, DK-8320 Maarslet, Denmark.

Larry Godwin relays the information that Glenn Hauser (NRC, Denver) has written Radio Nacional in Asuncion, Paraguay, on 920 khz, requesting them to sign-on early some MM to give us DXers a treat. No definite date was requested. 920 is clear in the west from 0300-0500 EST except for XELT. Keep watching for this one.

Don't forget the big anniversary issue March 13. Get your reports in, in plenty of time.
