PUBLISHED BY
THE INTERNATIONAL RADIO CLUB OF AMERICA
P.O. Box 605, Beaverton, Oregon 97005

September 20, 1969 Mailed from Riverside, California VOLUME SEVEN, NUMBER 2

President (dues, address changes): Mike Northam, P. O. Box 605, Beaverton, Oregon 97005. 503-224-3654 after 5 PDT (work). 6461 S.W. Edgewood, Lake Oswego, Oregon 97034. 503-639-9727 (residence).
Secretary-Treasurer: Larry B. Godwin, 5421 South Clinton Court, Englewood, CO 80110
Publisher (CPC and bulletin info; requests for back issue material and most club supplies): Don Erickson, 6059 Essex St., Riverside, CA 92504. 714-687-5910 ANYTIME
Dues: \$6.50 third class mail; \$9.50 first class mail; \$14 air mail --- 34 issues
Bulletin schedule: 10/4, 10/18, 10/25 and weekly thru 4/4, then 4/18, 5/2, 5/16, etc.
ALL TIMES: EASTERN STANDARD TIME. Add 5 hours for Greenwich Meridian Time (GMT, UT)

NEW MEMBERS!!!

Frank E. Aden, Jr. - 5805 Flamingo Drive - Boise, Idaho 83704
Harold W. Cook - P. O. Box 224 - Columbus, Nebraska 68601
C. M. Drake - c/o Coast Copper Mine - Port McNeill, B.C. CANADA
Dave Geringer - 41-11 40th Street - Long Island City, N.Y. 11104
Alan Gibson - 4412 Lynn Lane, Apt. E - North Little Rock, Ark. 72118
Tom Krakow - 1428 College Drive - Macon, Ga. 31201
Henry R. Lazarus - 1313 Dauphine Street - New Orleans, La. 70116
Jeff Osterman - 436 North Forest Road - Williamsville, N.Y. 14221
Bob Sigafos - 2015 Fremont Avenue - South Pasadena, Calif. 91030
Richard E. Wood - Dept. of European Languages, U of Hawaii - Honolulu, Hawaii 96822

RENEWALS

Walt Breville - St. Louis, Missouri
Robert H. Hostettler - Lake City, Minn.
Paul S. Lotsof - Kenmore, New York
S. B. Northam - Lake Oswego, Oregon
Fred Osterman - Williamsville, New York
Bruce Portzer - Seattle, Washington
Dave Prather - Woodland, California
Philip L. Sullivan - Leominster, Mass.

DX CALENDAR

Mon. Oct. 6	KIDO	630	Boise, Idaho	5kw	0300-0400 EST	IRCA
	KBMY	1240	Billings, Montana	1kw	0300-0400 EST	IRCA
	KOMW	680	Omak, Washington	1kw	0300-0400 EST	IRCA
	KMER	950	Kemmerer, Wyoming	5kw	0300-0400 EST	IRCA
	KBGN	910	Caldwell, Idaho	1kw	0400-0500 EST	IRCA
Sun. 19	WDON	1540	Wheaton, Maryland	1kw	0000-???? EST	IRCA
Mon. 27	WGSM	740	Huntington, New York	5kw	0230-0300 EST	NRC
Mon. Dec. 22	KXRB	1000	Sioux Falls, So. Dakota	10kw	0130-???? EST	NNRC

KIDO will use daytime pattern which has major lobes at 24°, 170°, and 270°. Reports to: Mr. D. K. Cederstrom, Chief Engineer, KIDO, 5th Floor--Owyhee Plaza, 1109 Main, P. O. Box 8087, Boise, Idaho 83707. Arranged by: -Percy R. Kesteven, Edmonton

KBMY will run tape recorded by Percy Kesteven. The tape will contain 5-digit numbers for the purpose of verification. Try to report the numbers as accurately as possible. Reports to: Mr. John P. Sweeney, Chief Engineer, KBMY, P. O. Box 20316, Billings, Montana 59102. Mr. Sweeney would also like to invite any interested DXers to attend the fall meeting of the Society of Broadcast Engineers, Montana Chapter, which meets on October 4 in the U. of Bozeman. Mr. Sweeney is Chairman and would like to meet BCB DXers. Write to Mr. Sweeney if you can attend. Info and arranger? -Percy K!

KOMW says they'll gladly test for the IRCA. The time is approximate; it may end before or after 0400 EST (2am PDT). Program will consist of various cycle tones, IDs, and music, presumably march music of other readily identifiable tunes. KOMW recently installed a new BTA-1R3 RCA xr; this will be combination DX program and equipment check. Reports to: Jerry Robinson, P. O. Box 151, Omak, Washington 98841. This program arranged by: -Randy P. Miltier, Campbell, California

KMER program is now ONE WEEK EARLIER, same times. Reports should go to: Mr. Bruce R. Hymas, General Manager, KMER, P. O. Box 432, Kemmerer, Wyoming 83101. -Percy Kesteven

KBGN reports to: Mr. Lee Schafer, Engineer, KBGN, 3303 E. Chicago St., Caldwell, Idaho 83605. This program arranged by: -Percy Kesteven

WDON times approx. Test will end when maintenance is complete. Please send reports to: Chief Engineer, WDON, 2647 University Blvd. West, Wheaton, Maryland 20902. WDON will verify by QSL card. This program arranged by: -Jerry Robertson, Crosswell, Mich.

WGSM will test for the National Radio Club with voice ID and open carrier. Reports to Mr. Don Huber, 9 Aquaview Court, Huntington, N.Y. 11743. Both 1kw and 5kw transmitters will be used. -NRC/Cliff Reno

KXRB will test for the Newark News Radio Club with 10kw directional antenna. Only time given is 0130 EST. Reports to: John L. Breece, General Manager, KXRB, P. O. Box 1101, Sioux Falls, South Dakota 57101. This information is from Page Taylor, a member of the NNRC BCB editing staff; program was arranged for NNRC by his brother, Pat Taylor.

CPC NOTES: Many will immediately notice that the designation "TEST" is absent this issue. Its use is being dropped as cumbersome, time-consuming, and unnecessary. It has been intended to differentiate between a station which is licensed to operate nighttime and will be using those facilities. Stations licensed for daytime-only operation or using daytime facilities are not supposed to 'dedicate' the test to the radio club, for the same reason they may not air advertisements under such conditions. It is perfectly OK for a station to inform a club in advance of its plans to test as long as the club name is not given. CPCers with questions on this may write to CPC Chairman Jim Korn, Box 156, 666 Radar Squadron, Mill Valley AFS, CA 94942. Remember to inform Ernie Cooper, 438 East 21st, Brooklyn, NY 11226 of all programs arranged! -DEE

IN MEMORIAM We regret to inform the membership of the passing of one of the hobby's best known and most colorful members, Ralph M. Johanns, on August 31, while under hospitalization. "Ralphie" was a real veteran of the hobby and very consistently active till the last. Many new DXers received their first assist from Ralphie who always found time to write those requesting information in print. Ralph Johanns is survived by daughters, Donna M. and Virginia R. Johanns. REST IN PEACE!!!

PUBLISHING CREW ...for the 8/16 DXM was Bruce Bacon, on vacation in Riverside, and Don Erickson. Publishing of 9/6 and 9/20 DXMs was by DEE accompanied by the 'boss' C&W sounds of KWOW-1600 Pomona and Arlen 'Much-More-Music' Miller!!-DEE

CONGRATULATIONS ...to Frank Waldron on being named National Radio Club's 1969 Domestic DXer of the Year. Frank was most deserving of this honor, having been a consistent DXer and contributor to the bulletin of both NRC and IRCA.

LOST IN CHICAGO!!!! Several items of high value, many impossible to replace, were lost during the Chicago Convention. If you know the possible whereabouts of 75-100 station photos, the entire collection of DX Quiz slides, the DX Quizzes, DX Quiz prizes, or the tape of the 1969 Convention business meeting, please write or call pub. hdq direct or collect, 714-687-5910. It is imperative these items be found before it is too late. Thanks!! -DEE

RADIO STATION KIBH

Radio station KIBH in Seward, Alaska has ceased broadcasting as of July, 26th, 1969.

The first radio voice of Seward, KIBH, came on the air in November of 1948, on 1340 Khz, with 250 watts of power. Station KIBH served a town of slightly less than 2,000. It operated with a partnership of over a dozen men.

KIBH operated for a little over 15 years, until March 27, 1964, the date of the occurrence of the Alaskan Earthquake. With the earthquake and tidal wave, the station and tower were destroyed. Seward had no radio voice until January 1965, when KIBH resumed broadcasting on a new frequency and power, of 950 Khz and 1,000 watts.

A station such as KIBH was, on 1340 Khz, operated from 6:00 AM to midnight daily. The new station on 950 Khz started operating from noon to 12:00 PM daily. Later in 1968 they changed operating time from noon to 7:00 PM, because KIBH was having trouble making money to operate the station, with very little advertising.

After the 1964 quake, Seward dropped in population to about 1,200 because people were afraid of other quakes to come.

When KIBH was on 1340 Khz, they had received reception reports from as far away as Australia and New Zealand. On their new frequency, they had received reception reports from California and Oregon.

After many years of operating with a local community type format, they changed over to a more modern type Up-tempo MoR format. KIBH was a CBS station.

What about the personnel that worked at KIBH? Most are seeking broadcast employment elsewhere in Alaska. The Seward Broadcasting Corporation is planning to liquidate all properties to satisfy obligations against the corporation.

As another station leaves the air, we say good-bye to "The Voice of Seward, Alaska," KIBH Radio.

THE TRUTH ABOUT VERIFICATIONS

A verification is confirmation of reception received for a correct and useful report sent to a station. Such a document is not so unless it bears the date and time of reception and the frequency the reception was made upon. The term QSL means an acknowledgement (a reply) and in many cases does not verify reception. From now on the term QSL will not be recognized as meaning a verification and only the word verification will be used to signify proof of reception. Will all shortwave clubs, DX bulletins and stations note this. Radio Canada, in a recent broadcast made it very clear over the air what a verification was. It was not a verification of reception unless it carried the date and time of the listener's reception and the frequency that reception was made upon, and so says everyone that knows. The term QSL has been used too loosely to mean a verification. Some shortwave clubs are advocating that anything received from a station in connection with a report should be counted as a verification, the BBC Big Ben card as well. Also that one should count upon the honesty of the listener to say that he has received a said station. Honesty will not prove reception, and only the words, date time and frequency have any significance. Let's have things right. Don't lead listeners up the garden path. Don't give them incorrect information to gain verifications as any price. So many listeners use verifications to gain listening diplomas and if the documents they present do not bear the full details, they have no hope of proving their reception. To make a document a verification by altering it, or adding any of the details is fraud. Such alterations are easily detected and would not be worn by the ISWC. ISWC does not like to see the

SPECIAL FEATURES

Verifications continued

listener lumbered with a useless piece of paper. When sending in reception reports please say to the station "If my report is found correct will you please send me your verification bearing the date, time and the frequency". It has been found that verifications bearing the full details are being sent by Radio Japan if they are requested. We have seen many veries from Radio Japan that do not bear the time. These are useless. Radio New Zealand is not verifying because their cards do not bear all the details. So do not refer to QSL's any more, only when they refer to acknowledgement. To the clubs that don't agree with what we say, we say don't undo our work in endeavoring to get the stations to verify properly.

Thank you Larry Gowdin for sending me this article from the bulletin of the International Short Wave Club!

SNORTING CATTLEMEN ASK REDUCED POWER FOR KOA RADIO

SALIDA, Colo--Colorado Cattlemen's Association (CCA) members placed a black hat on a city outfit Wednesday when they passed a resolution asking the Federal Communications Commission to reconsider radio station KOA's 50,000 watt status.

The resolution said a major factor in the Denver television and radio station's acquisition of 50,000 watts "was for the purpose of serving not only the Denver metropolitan area, but all of rural Colorado."

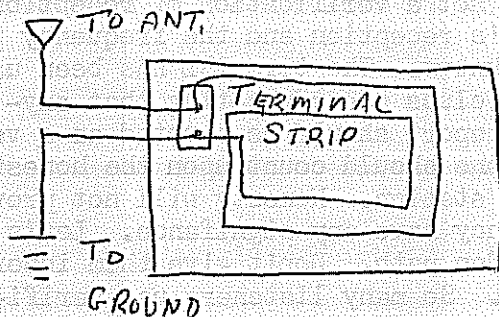

When ownership passed to General Electric Co. recently, the resolution claimed, KOA de-emphasized its farm and ranch programs and service. It asked the FCC to consider making the 50,000 watt power "available to another station who is dedicated to serving all of Colorado, including rural agricultural Colorado." No other station was mentioned.

Pete Smythe, whose early morning country store program on KOA has been replaced, was awarded a lifetime membership at a CCA banquet Wednesday night. Lifetime memberships were also conferred upon his mythical sidekicks, Elmie Elrod and Mote Watkins. Smythe is now engaged primarily in public relations work for KOA.

Thanks again to Larry Godwin for sending me this article from the NEWS & OPINION section of THE DENVER POST! 73.

NOTE: In case the similarity in name should cause any confusion, the article on Verifications is the opinion of the writer and does not necessarily reflect the opinion of the International Radio Club of America, its members, or DXers in general. Plenty of DXers do not agree with the 'standards' set forth in the article and do not adhere to them. The individual still has the right to decide for himself, within reasonable limits, what is a verie and what is not a verie and have it accepted by the club.

-DEE

George Bryson sends along an interesting tip on connecting external antennas to radios with built-in loop antennas and no connection for external antenna. George suggests, "Take an insulated piece of wire and form an oblong coil. Tape it to the back of the radio, connecting one end to an outside ant. and the other end to ground, using a terminal strip. Grounding is important. Coil will be inductively coupled to the receiver's loop antenna. See diagram.

-George Bryson, Detroit.

EAST COAST DX FORUM

Frank Waldron - 65 Lakeridge Drive - Matawan, N.J. 07747

This has been a surprisingly productive summer highlighted by the KUAT DX TEST. Veries have been: v/q- CBV WOKO WDAK WEXL & R.Monte Carlo in 8 months. V/c- WJMA. V/1- CKLD WTXL WABR WAB WQVI CBMM (from CBM) CHGB WBVM CKPM WSGU WDSL WBSC CJRP WCSH WAYB KUAT WCMS WINS & KGMO, originally sent to F.O. (Oh? - MD) V/f- WNEF. V/r- CKLM. V/pp- WHSL WJCO. 73. (Part of this report was cut as it clearly violated section III-D-2 of the IRCA Editorial Policy. - MD)

Paul S. Lotsof - 276 Nassau Ave. - Kenmore, N.Y. 14217 (716) 876-6924

With this issue, I begin my fifth year in IRCA. For the benefit of those who just tuned in, a couple months ago I decided to run for president of this fine club. My rather unique campaign statement stressed two points - that I firmly opposed any plans to submerge into NRC and that I considered mbn to be vastly more qualified to be president than myself. I concluded my statement with a request for only one vote in ten as a demonstration that there is substantial opposition to any merger. At our recent convention, I was amazed to find that I had received 47 votes or nearly one third of the total vote! I still can hardly believe that I got three times as many votes as I even requested. Now, if a third of those voting are willing to cast their ballots for a candidate who admits that he isn't qualified, I don't think it would be unreasonable to estimate that another t third of our members oppose submerging but didn't wish to throw away their votes on someone who could not win. Indeed, the recently published RFS survey indicated that a clear majority of IRCAers oppose submerging. But despite all this, Godwin again decides to promote additional dissention and hard feelings except that this time we are to be slowly indoctrinated over a period of a year. I wish to humbly thank all who voted for me, and I promise that these 47 voices will not go unheard.

Garv L. Munn - 24 White Birch Terrace - Kinnelon, N.J.

I'm new to the IRCA so here's an intro: I'M 15 and attend 10th grade at Kinnelon High School. I use a Halli SX-110 and a Lafayette Star Fire VI that operates sufficiently with a little coaxing, i.e. shaking the guts out of it, etc. Totals are 211?/48 stns, 27/22 states, 4/4 provinces. I caught the WCVR TEST this AM but I wish it were more contagious. Sigs were very poor because of "heat lightning" in the area. Later, at 4:30, the best DX stn in my 8 month career came up. WJNO-1230 Fla. w/250 watts. Local DX friends are eating their hearts out. Recent veries: WFBR WDRC WGAR WCKY CJCB(s/w) v/q's. CKOC sent a nice v/q. 73. (Welcome to IRCA! Had to shorten this a bit. -MD)

C.M. "Stan" Stanbury II, Box 218, Crystal Beach, Ontario, Canada

Some random notes on the ANARC Convention: (1) T.X. Thrush got a chance to look over Gordon Nelson's Man-of-the-Year plaque even before Nelson Himself did. We understand that, for security reasons, the award was then shipped from Toronto to St. Louis via armored truck, hi. (2) The convention was dominated by Television & BCB DXers w/TV people definitely having the edge. Even though a majority of ANARC clubs are Short Wave dominated, active SWLs were virtually non-existent. Only L. Barry Jones and myself spent any time there and we're both also interested in BCB. I think this must be indicative of something but I'm not sure what. (3) The single real criticism one could make - only two ANARC clubs, CIDXC & WTVFMDXA, bothered to send official representatives. In the cases of IRCA & NRC I can see absolutely no excuse for this. If regular reps were unable to attend, alternates could have been readily found. Best.

Jerry Robertson - 6065 Gardner Line - Crosswell, Mich.

Latest veries are: WJJD-1160 WEXL-1340 WGRP-940 WMIR-1550 WILS-1320 WNBC-660 WMAQ-670. All are QSL's. I now have a phone for anyone who wants to call: 313-679-3584. JEP: KTYN1430 has a PSA power of 5000 watts. So says my NRC Log. PM: KRBI in St. Peter, Minnesota is the only station on 1310 (in my NRC Log) that sounds like K?BY. Two more questions: What's a v/r and where do I get a VJ Log? 73. (A v/r is merely your report stamped or signed "confirmed" by the station and then returned to you. For a VJ Log, send \$2.95 to Howard W. Sans & Co., Inc., Indianapolis, Indiana 46206. - MD)

Paul R. Daplyn - 94 Mortimer Ave. - Toronto, Ontario

Hi Gang! Mucho veries in since last DX rpt. WGAN-560 WVMT-620 (after only two years), WTMJ-620 WPRO-630 WPTF-680 WHB-710 CJNR-730 WQXI-790 KOA-850 CBH-860 KOAM-860 WHCU-870 CHNO-900 WBSA-910 WWNH-930 WKY-930 CHNS-960 WIBG-900 WFLI-1070 KAAY-1090 CHRS-1090 WCAR-1130 CHSC-1220 WSOQ-1220 WLBR-1270 WROC-1280 WNEF-1290 WSLR-1350 CHOW-1470 WHBC-1480 WPTR-1540 CFOR-1570 KCHA-1580 KTUF-1580 and CFRA-580. Some of my best DX catches so far this summer are: KJR-950 KIMN-950 KESA-950 all on the same MM. Totaks are now 294 veries from 39 states, 10 provinces and 3 ctrys. The fellowship of DXM has really improved my attitude to DX-ing. I've verified a little over 100 stations since joining in Jan., making me three times more active than before I joined. I'm hoping to get a verie from WBRC-960-Alabama for state #40. 73's and good DX.

Cliff Reno - 75 Parish Road - New Canaan, Conn. 06840

Greetings! During the past few weeks, the lull in DX has seemed to vanish. Yesterday, I returned from the three day "Woodstock Music and Art Fair." I don't care what the news media say, it was the most amazing thing I've ever seen in my life! Everyone that I've talked to who attended, said they had a great time. I would like to add my name to the thousands who feel that way. Were there any IRCAs there besides me? Verifications: v/q- WIBC-1070 WBEN-930 CKWS-960 TGN-725 WFLI-1070 ; v/l- CJRP-1060. Re my last report, "4QD" turned out to be ZNS-1540. Guess my rx is off on calibrations or I was half asleep because I missed KXEL. Probably a little of both, hi. The ABC verified my report of 4QD. WC MEMBERS: it seems the ABC is too busy to check their logs, so be careful. Phone number here is: 203-966-4903, even on MM. Well, I've said enough. 73 and good DX. (Please report your DX to DXR, Cliff, rather than including catches in your DXF rpt. -MD)

Marc DeLorenzo, 132 Beacon Street - Box 53, Boston, Mass. 02116

Please send all further reports to the above address. I have just entered Emerson College where I will major in Mass Communications. If the NRC DDXD Editor's address looks somehow familiar, it's only because we are rooming together. Deadline for both DXR/DXF will continue to be Thursday, nine days before publication. KKJO-DX hrd briefly. 73.

20 September 1969

MIDWEST DX ROUNDUP

Page 8

EDITOR: Lynn D. Brooks - Box 253 - Ponca City, Okla. 74601

NEXT DEADLINE!!!!!! Thursday Sept. 25. I will be in Lake Charles, La. & my wife will have to send reports there to reach me by Saturday. NOTICE!! NOTICE!!!!!!

 WKSK NC, W. Jefferson in well on r/c 0004 8/18. (CG)

A list of changes to the NRC Log was held over as was a list of r/c's heard this past year by D. Osborn. Changes were sent in by C. Grise. They will appear next time. Please overlook any errors in the DXR or DXF this time as I am doing it while being extremely sick. I have held nothing down in over 24 hours, so my mind & fingers aren't functioning as usual, hi. Am leaving early in the morning for weeks trip to Newark, NJ so had to do the stencils tonight(Sat. 8/13). -ldB

MIDWEST DX FORUM

BOB DAVIS - 1641 South Main - Ottawa, Kansas 66067

No DX activity, but a note to Fred Osterman: I'll put KOFO-1220 on again whenever he likes. I normally have either KOFO-1220 or KOFO-FM-95.7 on the air just after midnight CDT (EST) Thursday mornings. I always give lots of IDs. These test transmissions usually consist of various tones or open carrier interrupted by the IDs. By the way, I always appreciate taped reports, & will return all tapes. IRCA hams, I work the county hunter's nets on 20 & 75 meters, also on CW all bands. My call is KØFPC.

H. W. "HANK" WARD - 9617 Panola Way - Houston, Texas 77055

The recent & current lists of "New Members" have been most encouraging for the growth of the IRCA. A hearty welcome to all those new members & especially to Heliodoro Rodero M. in Mexico. I hope he is the first of many members from that great land south of the Rio Grande! DXing from Mexico must be fascinating; however, with the great number of frequencies occupied in the Capital, it will be interesting to see Heliodoro's future reports in DX Monitor, & his reports of what it is like DXing from la Ciudad de Mexico! Trust any IRCA problems will be resolved in Chicago & good luck to all incoming officers! 73's, amigos!

GARY NUTHALS - 1155 Mather Street - Green Bay, Wisc. 54303

Hello everyone. Recent veries are v/c WING, WKY, CFRA; v/l WROK & CJNR. Have 20 new stations in the mail. Hope they verify. LDB: Do KTON, KAMO, WLW, KUDL, WIRE, & KLRA verify. (KLRA & WLW did for me. Remember that most everyone will verify if you have a good report, a little luck, & some perseverance! -LDB) Closest states not hrd are Wyoming & Miss. Anyone who has tips please write. SC collectors write. I have WBAY, WDOZ and Wiscons Hets to trade--none are current lists. Are there any Wisc. DX tests planned? Good DX. (Will answer your question in letter. -LDB)

OZ "DAVE" OSBORN - 3111 S. 105th Ave. - Omaha, Nebraska 68124

We meet again. New veries: v/l KABQ, KNIM, WKXV, KWYO. v/q: WJPF (A calling card actually) KPJM WBAP KMOX WOI FM (for test) KVOO. New reports out to: KBTA WLIQ WKYC KFH KCHR WAKR KTLK KDTH WLET WVCU KKIR WSJC WDAY WSAO KSIW KGVL WNAU KWK WKCL WGEN KSYL KDHL KFDI XERR. Do they verify? (Many of those in your list do verify. -LDB) Summer DX has been good to me with a total of 81 stns. (New). Picked up 6/20 - 8/27. L. "Bee" G.: Trx for SC's, I'll trade you some f/c's. Dan Meyers, where were you? In my personal opinion, tapes should not be counted as veries, cause some of us either don't have recorders or do have crummy ones (me, maybe?) (Not all of us have \$500 receivers either, right? -LDB) On labor day week-end, local KOIL will have a top 300 songs of all time. Is there anybody besides myself who is a KSL nightcap? KPAB has been going off the air at an alarming rate (hi). I've heard it off 4 times and I suspect they s/off at 0200. Mark Dirk informs me they s/on at 0500. Watch for this one gang. See you in Sept.

Gentlemen: Please report on one side of paper only for DXR reports. I cut them up & tape them on master sheets. Nothing like getting a report done on both sides. In the future it might not get printed, as time is usually limited here. -LDB

JOHN C. JOHNSON - 625 Park Street - Sheridan, Wyo. 82801

If you're made of the right material, a hard fall results only in a high bounce. With that thought in mind, we bring you the latest info on my small amount of DX in the past month. Oh well. Totals are now up to 769/569. Latest veries from KMUL-1380, KLINE-1330, KBAN-1410, KMO-1360, & WQXR-1560. Read DXR for details on new loggings this month. F/up out to KMO on 8/14 with a quick verie in form of a card. Most welcomed. WQXR-1560 was in on 8/16 w/gud signal. Verie by v/c quickly. 8/19 brought (IND #21) KGCA-1450. 8/22 on 1590 brought in 2 new catches, KLIV & KWEB s/on just a couple min. before KVGB's strong signal. Then a surprise as was waiting for KCHY s/on to send a f/up, but what happened was KCGO came on instead. I know I've been a-way for awhile but HELP, when did they change to KCGO?? Also, speaking of Cheyenne, does anyone know if the KEND-980 cp-is on the air or what???? Any help will be appreciated. Nice to know KEVA is around, will send a f/up if I can catch them again, hi. Thanks Bill, also thanks for info on KTLK. My stupid mistake, hi. Oh well, KCGO by the way, is Wyo. #33 catch. Bet you people in East would like to hear 33 Wyo stns, hi--come to think of it, I'd settle for one R. Island. Season starts soon... so watch out. Hope we have a domestic contest!!!! 73.

BRUCE COLLIER - 3512 Avenue B - Council Bluffs, Ia. 51501

Hi gang! Just returned from both the IRCA & NRC Conventions & really enjoyed both. My sincere thanks to both host committees. Enjoyed nice phone chats with Dan Myers & Frank Kennedy during the recent past. Congrats to all the newly elected officers & committee members. No recent veries but a little DX, see DXR. Also would like to thank the BoD for OKing my appointment to contest manager. All contests (Dom. singles, doubles, & foreign) open at 0000 local time on 9/15/69. Watch for this years rules plus a new bonus point system. Entry fee is 50 cents each for the domestic & foreign divisions. By entering the singles, you are also eligible for the doubles. For the doubles, entrants are to register as a team. I am now accepting entries for both contests. Lots of Good DX to you all. 73.

HANK WARD - 9617 Panola Way - Houston, Texas 77055

Recently excorted my Uncle & Aunt from Fla. on a mini-tour of Mexico visiting Monterrey, over to Saltillo, & up 57 to Piedras Negras-Eagle Pass. Visited several stations to obtain verifications from XEH XETKR XEFB XENL & XEJM Monterrey; XEWQ Monclova; and, XEZR Zaragoza, Coahuila. All were very cordial & interested in hearing their signal on the cassette as recorded in Houston. XET-XEJM says they accept reports in Spanish, English, German, or French; however, they said most of their reports come from Central America with very few from north of the Rio Bravo. XET has their new 1970 Fut Bol Mundial pennants to send with veries. Tip: If you want XEG sans their money grubbing evangelists in English, they transmit in Spanish with "Radio Melodia" every Thursday using 150,000 watts power...the only time they use that much power on Spanish language broadcasts. Despite their advertising, English language XEVIP in Mexico City is NOT 24 hours. They are 18 hours daily & s/off at 0100 EST. Night power is 500 watts per s/off announcement taped here, 10,000 watts daytime. 4-color XEZR verie particularly attractive. Setenta-tres, amigos.

AMN LARRY COLTON - FR 366527263 SQDN 3755- Box 10663, CMR3 - Sheppard AFB, Tex 76311

Well it's been quite awhile since I've been able to make these pages. Due to college for the last 2 years & now a hitch in the Air Force my DXing activities have been kept to a minimum. I did manage to log my 1000th catch while at home in Penna. before coming into the AF, tho. I'm hoping to get a new receiver soon, but on an airman's pay it might be a little while before I have the money, hi. I'm hoping to get an HQ-180, so if any of you have had one I'd appreciate hearing from you as to the performance of it. I should be here at Sheppard until about the 1st of Jan. but after that I should have more time for club activities. By this time the Chicago convention is history. Sure wish I could have made it as I remember well the fun at the 66 Milwaukee bash. Well, that does it for now. Good DXing & 73.

BILL HAWORTH - 3610 S. 114th St. - Omaha, Nebraska 68144

Hi all. Since I am a new member this is my first appearance in the DXF. As an introduction: I am 15 & have been DXing for 6 months. My receiver is a Zenith Inter-Oceanic. My current totals are: 249/51 stns, 34/28 states, 4/3 prov, 4/3 countries. New veries: v/q WOW WSUN KOIL KSCJ; v/l CJOB WTAE. Recent rpts: KCNI WIMA WCAR WDAF WMT WBZ KCNW CHAT KBTA WSPA, do they verify? All you SCers write. Jay Reeg: Thanks for the sc's. Local radio stn KFAB is not MSP. I have hrd if off (irregularly) 4 times, but no new stns yielded because of this. Good DX. (WELCOME to DXF, Bill. -LDB)

DAVE "FISH" FISCHER - Box 6256 - Lincoln, Nebraska 68506

Welcome another BCB season! Welcome all newcomers! Congrats mbn on 2 counts! DKK's stocking up for ERBA I bet! Pleasure meeting numerous IRCA chaps in St. Loo! Pirate continues on 1610 in Cincy area--weekends w/WSTN, WSEX, WLUV calls. Have much BCB gear to sell -- write for list! Need space here, can hardly turn my dials much less da loop! Let's all DX this season & stick to such items in our reports! (AMEN!!-LDB) Would like to consider FOW's again this year--i.e. DXM lists several frequencies each week to be spotlighted by DXers in their dial twirling for purpose of comparison reports, schedule data, etc. If interested write LDB or me. They say pi are squared --don't believe it, pi are round & good! Go ERBA, the best airline around, but pilots always flyin high!

PERCY R. KESTEVEN - 13112 - 134 St. - Edmonton 44, Alta, Canada

The highlight for this summer was a visit from Sheldon Goodman of Kenrfield, CA. It's real nice to meet some of you--sorry I couldn't make Chicago. Vancouver in '70? If so, I'll be there. My Allied Radio headphones, only a couple of years old, gave up the ghost here the other day when the permanent magnet fell out of one of the phones. A new Roberts headphone set of good quality has replaced them. All the best to the new IRCA officers, whoever they may be. 73s.

LARRY B. GODWIN - 5421 South Clinton Court - Englewood, Colo. 80110

Hi gang. I'll be leaving for Chicago in 4 hours & hopefully will be in St. Louis, too. Tom Stoltmann & his wife had a boy last June 2, by the way, so congratulations are in order. And also to mbn & Saralie for getting married August 2. Welcome back to the IRCA, Larry Colton! Bruce Portzer, I know you're having a good time in the Yukon & Alaska. I had the pleasure of visiting CFWH myself a few years ago. Another DX season has started, so let's hit the dials!

CHARLES GRISE - 1134 Northwestern Ave.-- W. Lafayette, Ind. 47906

Above is new address effective 9/1/69. Had a good time in Chicago & enjoyed meeting many members of the IRCA & NRC. The auction was especially enjoyable. Glad I went this year because it looks like B.C. '70. DXing-wise, interest hit an all-time low this summer, but the convention revived my interest. Conditions this summer aren't as bad as other years have been. Veries since 7/1: WNBK KCHA KPIK CKWJ CJNR WCMS & WCCN. Totals at the present time are: 567/439, states 43/43, prov 6/5, countries 12/8. I hope the ex last, for I won't be able to spin the dials from 9/4 - 11/25. Just a word for the 9/20 DXM before I go back to school. I'm writing this before I go back for I know I won't have time when I get there. Lots of DX in the week after the convention, but interest down again after Labor Day. After fixing my loop for Richard Wood, I tested it, & in doing so I logged my nearest unheard WYYY-1470. I found out it cost too much to send, so I sent R.W. the money he paid for it (& the plans for the IRCA loop). Just as well, the loops broke again. Veries up a little: WIDS-1180, WWHY-1470, WBIG-1300, KDHL-920, WMAN-1400, WTAX-1240. Total is now 571/445. Hope everyone has good DX this season. 73.

H.W. "HANK" WARD - 9617 Panola Way - Houston, Texas 77055

I have written to IRCA President Mike Northam & NRC's Gordon Nelson suggesting that they agree on ground rules, concessions, etc., to consider a merger and to communicate their findings in a joint release to the combined IRCA-NRC membership along with copies of each club's current bulletin to each member in order that the membership of both clubs can evaluate the merits of a merger. With this release, I have further suggested a "probing" ballot to the combined membership of IRCA-NRC based on the findings to determine if the members would favor a merger. If favored, the IRCA-NRC can proceed to engineer the merger. Due to time lapses, etc, no one will be served by a "discussion" in the pages of either club's bulletins. To me it is pertinent that the elected & recognized head of each club agree on merger terms and ballot these findings to the membership as outlined above. A unification of the best of both clubs & utilization of the talent and potential of combined membership is a worthy goal.

Sorry for not getting out stencils last DXM, but business trips & convention at St. Louis prevented it. Several members have more than one report in this issue and that is the reason. Best of DX to all of you, and let's have a sane & sensible DXF from those of you who want to talk merger, pro or con (myself included). I'm all for a merger but will discuss it in later DXF reports. -LDB

Roger S. Horie, CMR Box 1473, Mountain Home AFB, Idaho 83648

Greetings! Hope all attending the convention had a good time. Other commitments prevented me from making it to Chicago. Looks like DX is really starting to come alive with the logging of my first North Dakotan, and two new stations from Nebr. New RX for the coming season will be the Hallicrafters SX-122A. It's on order and should arrive in about 4 or 5 weeks. My spiral loop is nearing completion. All I need now is the capacitor which I had to special order because none of the stores had any in stock. Even the electronics wholesaler didn't have them, hi. Recent veries from KUAT & KMJ. Reports out to KCHJ, KCJB, KRVN, & KMMJ. That's about it for now....gud DX and 73's.

George Tanner, 8349 East Cypress, Scottsdale, Ariz. 85257

Greetings everyone. Well, I survived the Chicago convention, as I suspect everyone else who attended did also. The West shall rise again in the next softball game. DX has been picking up slightly, with a few new loggings made and a couple of veries in, including KIRV-1510 Fresno, Calif. & KWNS-1290 Pratt, Kansas. The Chicago clear-channel stns have been coming in regularly but not at tremendous strength yet. R. Belize was real strong a week or so ago but hasn't been heard at all since. KXRB-1000 has not verified for me either. I don't know anyone who has one. Congratulations to all our new club officers. I hope they keep the standards of our club as high as they have been in the past. I have confidence they will. I am against the proposed merger since I can see little to be gained for the average club members, who is neither interested in foreign DX nor fancy contests. Also, the merged club would be too large for the close contact between members I feel is desirable. If you want to know what I mean, take a look at the MNRC bulletin: this is a fine bulletin and I am a member, but there are no INDIVIDUALS presented in it. You might as well go out and buy some DX magazine. 73 and good DX to all.

Oz "Dave" Osborn, 3111 S. 105th Avenue, Omaha, Nebraska 68124

I am definitely against a merger with NRC. We are 2 different clubs entirely. I think it should be left that way. If you are a foreign DXer, NRC is for you. If you are technically oriented, NRC is for you. If you are a domestic DXer, IRCA is the club to join. I do not feel that we could get anything out of a merger. Practically everyone who wants one already belongs to both clubs. I am afraid that if there was a merger, we would develop at least one of their poor habits. For instance, IRCA bulletins always arrive on Sat. or Mon, with 3rd class, while NRC's 8/1 came on 8/30, and the 8/23 issue came 9/9. (This is not a "bad habit," Oz, but poor mail service, no fault whatsoever of NRC's; DXM is also mailed much earlier in the week. 1st class service to Riverside always arrives within 48 hours. -DEE). I don't want to see the MONITOR in a "handy magazine form," with no room for anything worth saying. What good is a Musing from New York to people who don't live anywhere near NY? It's much better to have the tips separated from the DX happenings. Sure, IRCA has its poor points, and if you give me until next issue, I might be able to think of some of them. In closing, I say "Divided we stand, united we fall."

Bob Hostettler, 417 Irving Street, Lake City, Minn. 55041

What's this? Where did I ever come from anyway? It's been many moons since I appeared in DXF, and it's nice to be back. During that time I haven't had a heck of a lot of DX anyway, so maybe I'll be more of an active DXer this season, and therefore get into DXF & DXR often. Since some of you can't even remember me, a reintroduction is in order. I'm 19, a DXer for nearly 3½ years. During that time I've heard 850 stns with about 374 verified. Nearly all of these are domestics. I managed to make both conventions this year, both for the first time, and in between them Dan Myers and I toured around parts of the Midwest, visiting stns in Wisc, Minn, SD, Nebr, Kans, Mo, & Ill. Oh, a couple in Iowa, too. When in Pontiac, Ill., we stopped at WPOK-1080, who said that they are currently changing their DA pattern and are "300-400 watts" non-DA right now! KDWB-630, St. Paul, is also changing their pattern, so they'll only have one for both day and night. They are supposedly taking out their null toward WOI-640 and expanding their coverage east and northeast. By the way, they are having a PoP in Oct. and I hope to find out the exact date in time to notify club members. New DX rpts are going out to WNTN-1550 for their DX test, WKAR-870 Lansing, KFEQ-680 St. Joseph, WDUX-800, WEAQ-790, WDMP-810, & WFLD-640. One verie in recent weeks, from WSB. Wow!! I'll be going to the U of Minn in a couple of weeks so should have a new address for correspondence purposes shortly. Virtually all DX will still come from Lake City, however. Everybody, feel free to write anytime. 73. THIS STENCIL TYPED BY DEE AT PUB HDQ.....

Editor: Don Kaskey, Hotel El Rancho, Box 235, West Sacramento, Calif. 95691 DL:Sat

West Coast DX Forum

Bradford Wall - 25776 Walker Street - San Bernardino, CA 92404

Greetings. I am new to the IRCA so I will introduce myself to the membership. I am 18 years old and recently graduated from high school; I plan to go into the service soon. I have been DXing for about 6 years. Formerly, I belonged to the Newark News Radio Club. I've done listening on TV, SW, amateur bands, FM, and, of course, BCB. I have only been DXing on medium wave for about 1 year. My call is WPE6GCJ. I've also recently passed my novice exam and am now awaiting my license. About the proposed merger with the NRC, I don't know much about either club yet, but I like the way the IRCA bulletin is put together and I would prefer it to remain the way it is. My rx is a Monarch Ham-1 and I use a spiral loop. Veries in this month from CBW, CBK, WFAA, KOAM, WNBC, KTWQ, KOOL, WGN, WBAP, WSM, WHO, WJR, and KDAY. All are v/q except KDAY. Well, that's all for this report so I'll say 73's for now.

Don Erickson, 6059 Essex Street, Riverside, CA 92504

DX is starting to pick up; I'm entered in both IRCA Contests and plan to put special emphasis on foreign DX this season. FJP will hear from me every issue! If you've not entered, by all means, please do. If you're new to DXing, no one is going to laugh, not with my last-place entries, hi. As I enter my 8th year of BCB DXing, I've come near the 1000 mark but must retabulate to get an exact count. Other hobbies include keypunch statistical analyses of radio-related data, tropical fish, and amateur printin I'm 23 and employed by Dow Jones (publishers of Wall Street Journal and National Observer newspapers) as an addressograph stencil clerk, having first started DXing in 12/61 after reading a 'Stan' Stanbury article on how to log a hundred countries. Still 70 short! The present rx's are a Navy Surplus ARB (6 tubes) and RBM-1 (12 tubes) with IRCA spiral loop used exclusively. There seems to be a flurry of DXF rpts with personal comments, extensive comments on survey collecting, and pop music. Older members are fast to criticize but I would like to ask these 'mature' members, 1) What did your first reports look like, and 2) have you been setting a good example in DXF?

LIFE-TIME SUPPLY OF CARBON PAPER--If you have need or use for carbon paper for keeping copies of reception reports or whatever, there is plenty of it free for the asking. Drop a note to publishing hdq and you'll be sent a hundred or so sheets. -DEE

ALWAYS REMEMBER TO INCLUDE RETURN POSTAGE WITH YOUR RECEPTION REPORTS TO ALL RADIO STATIONS ON THE BCB!! Newer members are likely not familiar with this policy of most major radio clubs. But it is a part of the DXer's "code of ethics" that return postage be enclosed, no matter how capable the station may seem to bear this expense. Shortwave Broadcast stations are in a slightly different category because they find reception reports to be of a higher value for their purposes and a majority of the stations are government-financed for propaganda purposes. But BCB stations should always receive return postage.

Editor: Robert J. Jacoby, 556 E. Alvarado St., Pomona, Calif. 91767
Ronald F. Schatz, FTM3 - T Div., USS Hoel, DDG-13 - FPO San Francisco, CA

(Reporting from IRCA Publishing HQ; Riverside, Calif.) Well, I'm leaving for TP land either the 17th or 26th of September. If I leave the 17th, I'll spend 5 days in Gisborne, New Zealand! I'll be away for some six months, returning about the 7th of March 1970. The Navy wouldn't let me make it to Chicago, a place I know well, but Vancouver can expect to see me there next year. One problem--ERBA will be hurting on Sunday, hi! On another subject, I am disturbed with LBG's decision to bring up the merger issue, especially so prematurely and in light of the recent bitterness it caused and in the face of our membership who opposed merger two to one! Yes, I'm against it. Human nature doesn't change--the radicals will be out again to embitter the rest of us. It will be just as before. And the pro-merger group will try to convince you to buy their "super club" at a cost of less than the \$20 it costs to be a member of both NRC and IRCA together at present. But how about the 2/3 of us who are IRCA members only? Can you afford to be a member of the "super club" at a rate of \$14 or \$15 dues a year? Needless to say, many of our members will be forced to leave us if that were to happen. This is your club, so think. 73.

Reid Wheeler - 915 Granada Rd. - Aberdeen, WA 98520

In response to our worthy editor's invitation to discuss member's views on an IRCA-NRC merger, I have a few questions and opinions. The pros and cons listed in DXM (Sept. 6) appear quite valid; however, would someone please elaborate on the item "More stable publishing"??? My major objection to a merger is the possible loss of our domestic format. After seeing both club bulletins, I much prefer the IRCA format. Having the DXM made up from stencils is no drawback (expect perhaps more work for the editors?) as it is as easy to read as NRC's offset process. Mentioned this as I believe I have read other's opinions that they like the offset method better. In summary, I think that a merger is possible if the officers and members of both clubs will willingly give up their autonomy and form a completely new club (not one swallowing the other) with an entirely new name, constitution and whatever. There is much to be gained but, without careful construction, there is also much to be lost. Keep an open mind!!! 73.

Kevin L. Slater - 4750 Verda Lane N.E. - Salem, OR 97303

Hi people. Few new stns logged. Recent varies in are v/c CFRN v/f CHAT and CJNB + CM, KTYM ET v/1 in which the CE couldn't figure why I'd listen to "all those tones without a loss of sanity." Many, many reports out since Aug. 1. With school back, MM's may not be as great as the past three. I received a package of SC's from KRKT-990 in Albany, Oregon so I have plenty on hand. Also, John White, CE at KFXD-580 sent a good supply of SC's. Rob Keeney, Dave Osborn, Jay Reeg: I'll be sending more SC's in the near future. A friend of mine in Portland is going to pick up some from there. That's all from the state capital of Oregon. 73.

Matthew J. Wall - 25776 Walker St. - San Bernardino, CA

Hi fellow DXers. I am a new member. I am a Junior High student and plan to go to college and be a civil lawyer. I am trying to win a scholarship. I have been DXing for about one year. I use a Monarch Ham-1 rx and a directional loop. I have 112/29 stns and 25/18 states. I am very much interested in daytime DX as well as night, and would like to hear from anyone else with the same interest. My varies include v/q KOAM CBW KGEM KTWO KNEW KVOO KORK WGN and v/1 KOY. Still out include KXEL, KXOL, KSWs, KJR, KPNW, KOMA, WFAA, and XERF. If anyone is interested, CBW Winnepeg sends a very nice dard. It is blue and at the top it says CBC WINNEPEG. I am against the merger because there would be a change in format. 73. (Welcome to the IRCA, Matt! It's always good news to add another southern-Cal member-BJ.)

Bob Jacoby - 556 E. Alvarado St. - Pomona, CA 91767

It looks like we're beginning to get into another heated merger controversy. All opinions are welcome, but let's label them as opinions and not as the supposed truth. For instance, RFS's statement that the "super club's" dues would be \$14 or \$15 has no basis for fact at this time. In one respect I'm glad we have something like the merger to chew over. Maybe it will get some of you off the subject of SCing which in my opinion is totally irrelevant to DX.

Well, that will do it for this third edition of the IRCA CoF List. OOPS, left out one station, and one of my locals at that. Please add the following:

910 KPHO Ariz Off SM only 0200-0900

The following is a list of the abbreviations used in this list:

NSP	No Silent Period	THM	Thursday Morning
SM	Sunday Morning	FM	Friday Morning
MM	Monday Morning	SATM	Saturday Morning
TM	Tuesday Morning	irreg	irregularly
WM	Wednesday Morning	????	information not known

Hopefully, the state abbreviations used are self-explanatory. However, a word should be said on some of the more confusing ones. "Col" stands for Colombia, while Colo stands for Colorado. "Alas" stands for Alaska and Ala stands for Alabama. Any others that are confusing should be brought to my attention. As done in the past, I will issue a supplementary correction if there are many. Send all comments, corrections, and deletions to: George Tanner, 8349 East Cypress, Scottsdale, Arizona 85257. Please submit all information for the next list in the following manner to ease the compilation of it:

STATION FREQUENCY

STATION CALL LETTERS	LOCATION(state only)	INCORRECT INFORMATION	CORRECTED INFORMATION
----------------------	----------------------	-----------------------	-----------------------

Listeners Loggings- East Coast

- 540 XEWA Mexico, San Luis Potosi, excellent with "La Hora Nacional" beginning 2300 9/7. This one will become an evening regular during the winter months in this area. (AMG)
- 548 ???? UnID here first heard 9/8 1952-2000 s/off w/march music. Language could be GG or Slavic. Odessa, Ukraine has listed s/off at this time but the 800 kw outlet of DLF, West Germany, would be more likely. Heard again this evening, 1925-2101½ s/off w/march. Programming 1942-2100 consisted of male and female announcers alternating in talks with short musical selections at :50 and :55. Who? (AMG)
- 655 YSS El Salvador, San Salvador heard 2340-2400 s/off with NA 9/7. Radio Nacional IDs. (AMG)
- 683 RNE Spain, Sevilla heard 1954-2007 9/9. Music until 2000 when there were time pips, TC, and news bulletin. ID not heard but TC was for "Las dos..." so surely they. Heard again 2005 9.10 w/"Radio Nacional de Espana" ID.
- 730 XEX Mexico, D.F. heard for the first time 9/8 0002 concluding "La Hora Nacional" program. (AMG)
- 764 Senegal, Dakar heard briefly 0059 9/8 with what I think was NA. (AMG)
- 782 ??? UnID noted with MoR pops 9/2 and 3 as early as 2015 EST. News at 2100, gone shortly after 2200. I do not think this is Springbok Radio in South Africa because (1) SR has been operating AN only on the tropical bands, although this could be altered at any time, and (2) on both evenings there was no trace of either SR on 2376 or ORTF Reunion at their 2130 s/on on 2446 kHz. A weak het has been heard a couple of evenings since and I strongly suspect that either R. Barbados or ZBVI is off frequency.
- 800 PJB Netherland Antilles, Bonaire buried CKIW 2030-2045 9/9 with SS /CMS program, "Palabras de Vida." ID as "Transmitte Radio Trans-Mundial." (AMG)
- 810 WKVM Puerto Rico, San Juan has been giving WGY a difficult time the past week. Particularly good 2015-2030 9/9 when heard with EE rock and roll. ID at 2030, "WKVM, desde San Juan, capital de Puerto Rico." Perhaps 50kw now. (AMG)
- 818 Egypt, Cairo in 9/2 with chanting at 2215. (CMS)
- 825 UnID SS here 8/30 when it faded up for a few seconds at 0020. TIOS and YNOL both listed here. (AMG)
- 834 British Honduras, Belize heard with weather report for "The country of Belize" at 2355, followed by s/off announcements and NA on 8/29. (AMG)
- 854/5 Carriers on each of these frequencies noted at 2022 9/9, nothing audible.
- 1205 ???? UnID heard 0005 8/30; unable to ID language, a real weakie! (AMG) / (AMG)

MidWest

- 670 JOBK Japan, Osaka surely the JJ with NHK pips at 0700 8/31 atop KBOI, the first Asian reception I've experienced in August since 1964. No other ones about, though. (LBG)
- 970 KPUA Hawaii, Hilo 9/8 0300 news, weather, sports, weak until 0330 fadeout. Ads for TV channel 9 new fall shows. Channel was clear otherwise. (JO)
- 1020 ZCO? Tonga, Nuku'alofa, perhaps the one with Hawaiian sounding anthem 0449 9/8. No sign of KGBS or KDKA. Too late for any ID. Heard before, but not QSLed.
- 1025 HJER Colombia, Cali, "Radio Pacifico," was AN MM 8/25 with fair to good / (JO) signals. There was one good ID at 0358. (LBG)
- 1080 XEDY Mexico, Ciudad Morelos was strong on top KRID with call ID at 0707 8/31. Hard to believe it is 500 watts as listed. (LBG)
- 1090 HJ?? Colombia. UnID was noted with CARACOL jingle at 0445 MM 8/25, then at 0446 there was an ID for Emisora Nuevo Mundo (850 kHz.), so apparently HJKC is the mother station on the AN program. Some day I hope to ID this one. (LBG)
- 1205 ???? UnID TA noted weak 2350 9/2 to past 0030 9/3 in what I believe was FF. There were 4 short pips on the hour. Does this sound like ORTF? (LBG)
- 1212 HJBE Colombia, Cucuta noted with fine signals and "Radio Internacional" ID 2333 9/2. Unneeded. (LBG)

- 1214 England, surely the EE station with pop music 0002-0030 9/3. Unneeded but a thrill to hear so early in the season. There was a strong OC on about 1215 that looped the same direction as the BBC. No sign of Tirana during reception. (LBG)
- 1420 2AP Western Samoa, Apia, I hope, // KCCN with EE accented comedy or play 0400-0431 s/off with UnID Hawaiian type anthem. Woman announcer gave time as "29 minutes to 10 PM" and mentioned s/on at 6 AM. Haven't heard since 12/12/60. (JO)
- KCCN Hawaii, Honolulu 0405-0445 fading in and out equal to 2AP. Ad for Hawaiian motots 0415. Hawaiian #18. (JO)
- 1521 HJLQ Colombia, Barranquilla noted here with commercials mentioning this city at 0509 MM 8/25. (LBG)

West Coast

- 820 ???? UnID SS audible only during WBAP talk 9/13 0209. Perhaps TGTO. (FJP)
- 850 KHLO Hawaii, Hilo, heard first time with new call letters, Raiders-49ers delayed broadcast 0147 9/2 MM. (FJP)
- 1420 XEXX Mexico, Tijuana mixed with KSTN, with SS music, ID as "XX" 0126 9/2. (FJP)

Reporters

- AMG Angel Garcia, Bronx, N.Y. FJP Your editor
- LBG Larry Godwin, Englewood, Colo. CMS C.M. Stanbury II, Crystal Beach, Ont.
- JO John Oldfield, 11623 84th St., Edmonton 20, Alberta. (Hope to hear from you again)

Australia 6WF, Perth, Western Australia, began broadcasting on 720 kHz on July 1, ex 690. (Merv Branks, via LBG)

Masarah The new BEC relay on 701 kHz has been heard by Arthur Cushen in Invercargill, N.Z. at 1330 EST with Arabic programming and relay from London. (Via LBG)

Philippines Voice of the Philippines on Malolos ex-VOA now is on 920 kHz with 50 kw, 1600-1100 EST daily. Owned and operated by the government of the Philippines. DZVL, although listed for 1160 kHz, is broadcasting on 1150 kHz with 1 kw of power S/off is 1100 EST. (Arthur Cushen, via LBG)

Fiji A new station in Rakiraki is broadcasting with 2 Kw on regular schedule with Fijian and Hindi programming. S/on is 1300 EST, s/off 0530. This station relays the Suva program heard on 710 and 890 at times. Richard Wood reports this is the strongest Fiji outlet at his post in Honolulu. (Arthur Cushen via LBG)

Costa Rica La Voz de la Victor has again been missing from its 625 kHz spot since mid-August. It has been suggested that this one is using a highly directional antenna with its null toward the East Coast of North America. If so, their million watts should be audible on the West Coast. California DXers especially should try to check this theory out. (C.M. Stanbury II)

Spain The following is a list of Spanish BCB stations operating past 1900 EST. All are in the 2 to 5 kw range except La Voz de Madrid which has 20 kw. (C.M. Stanbury)

- | | | | | |
|------|--------|----------------------|-------|---|
| 800 | EAJ7 | R. Madrid | 20 kw | 24 hours |
| 809 | EAJ5 | R. Sevilla | 5 | s/off 2100 |
| 827 | EAJ1 | R. Barcelona | 5 | 24 hours |
| 836 | EFJ51 | R. Juventud, Huelva | 5 | s/off 2000 |
| 872 | EAJ101 | R. Zaragoza | 20 | s/off 2300 Has been heard with EE 1900-2000 |
| 1097 | EFE14 | La Voz de Madrid | 20 | s/off 2200 |
| 1124 | EAJ15 | R. Espana, Barcelona | 10 | 24 hours |
| 1133 | EFJ56 | R. Malaga | 5 | 24 hours |
| | EFE31 | R. Pontevedra | 5 | s/off 2000 |
| 1259 | EAJ3 | R. Valencia | 5 | s/off 2130 |
| 1412 | EAJ14 | R. Castellon | 2 | s/off 2000 |
| | EAJ28 | R. Bilbao | 5 | s/off 2100 |
| 1475 | EAJ18 | R. Rioja | 2 | s/off 2000 |

Spanish Stations (continued)

1520	EAJ31	R. Alicante	2 kw	s/off 2100	EST
	EAJ42	R. Lerida	2	s/off 2000	

Editor's note: The above list was compiled by CMS. I added the call letters and powers as listed in WRTH. The powers listed there contradict CMS's statement about La Voz de Madrid being the only 20 kw station.

North Ireland A report on the Chet Huntley NBC news on 8/26 told about a "Radio Free Belfast" operating in the Catholic section of Belfast, behind the barricades. They seemed to be announcing a wavelength of 345 meters (i.e., 870 kHz). 24 hour operation, apparently low power, since coverage was given as only a 12 mile radius. (Phil Sullivan)

Constitutional Amendment At present, it is very difficult, in fact, almost impossible to amend the IRCA Constitution. However, following the procedure outlined in the Constitution, an amendment was proposed at the Chicago convention last month. This proposed amendment would make it possible to change the Constitution without having to wait for the annual convention. It calls for a proposed amendment to be submitted first to the Board of Directors, and if they approve it with a 2/3 majority, to be ratified by a 2/3 majority vote of the entire membership. An amendment to the constitution is something that should be taken seriously, and hence the procedure is more complicated than an ordinary proposal to the BoD. This proposed amendment would simplify the present procedure.

Tips for Newcomers This is an irregular feature of DXWW. It is intended as a help for the many new DXers who are interested in foreign DX, but don't know where to start. The help of experienced DXers is appreciated in submitting such tips to DXWW.

750 JOIB Japan, Sapporo was Bruce Portzer's most frequently heard Japanese station last season. It was audible whenever there was a half decent opening to Asia. WC DXers should try for this one after 0500 EST. Like all other NHK stations, JOIB has an IS on the hour, consisting of "... _" Reports sent to Nippon Hoso Kyokai, No. 2, 2-chome, Uchisaiwai-cho, Chiyoda-ku, Tokyo, will get a Radio Japan QSL. 100 kw.

Merger Proposal In the last issue of DX Monitor, our outgoing president, Larry Godwin, presented his presidential address given at the Chicago convention. In this talk, he proposed that consideration again be given to a merger with NRC. This is a position which I have held throughout the past year. I feel that, as adults, we can discuss calmly and reasonably the possibility of a merger, without engaging in the emotional outbursts which showed up last fall. The advantages and disadvantages of such a merger should be discussed fully before the question is posed to the members of both clubs for a vote. Larry suggested a year as sufficient time for such discussion. Let us hope that all members who are interested in discussing this issue do so with discretion and intelligence, avoiding disparaging remarks about individuals or groups, whether they be our BoD or NRC's leadership.

Worldwide Sunrise-Sunset Maps The series of 12 worldwide sr-ss maps may begin in DXM as early as the next issue. They should be in from the printers by that time. Anyone desiring the entire set of maps now, just send a couple of 6¢ stamps to Don Erickson, 6059 Essex Street, Riverside, Calif. 92504 and specify the worldwide set of maps. These are available for cost of postage in any quantity to any DXer in a club or not. -Don Erickson

Publisher's Comment Because no volunteer has been found to continue publication of DX Monitor through this next season, I am gladly continuing on a temporary (but NOT 'emergency') basis. I will continue as long as necessary provided I feel the membership illustrates by support of the bulletin that it cares! Your reports count! Make them DX-worthy (rock music and SCs are wonderful, but not in DX bulletins), friendly (no repeats of last fall, please!), and regular! Tnx.-DEE

Bruce Portzoc - 11,056 5th Avenue South - Seattle, Washington 98168 Phone (206)244,9361
 Next deadline: Two weeks after publication date of this issue. Featured will be
 Foreign DX records from Africa and Oceania.

TDV = Total domestics heard, SV = States verified, PV = Provinces verified, YR = year began DXing, * = totals are more than six months old and therefore need to be updated in order to remain listed. 73 and Good Eyecks.

October Sunrise-Sunset Map To fill in the last of a series of local sunrise-sunset maps appearing monthly in DXM, start with the area around Maine and label sunrise from 0600 EST through 0930 EST in Seattle, Wash. Label sunset from 1645 EST in northern Maine through 2030 EST in San Francisco. It is unlikely there will be further maps since this map is the 12th and last of the series. For those who joined before the series was started, a complete set is available for 18¢ from Don Erickson, 6059 Essex St., Riverside, Calif. 92504.

Address Changes and Dues It is very important that all changes of address and all dues continue to go to Mike Northam, P. O. Box 605, Beaverton, Oregon 97005. Mike will continue to handle production of address labels on computer facilities. Changes should arrive in Beaverton at least two weeks before they are effective; dues are appreciated 4 to 6 weeks before the date of expiration. This procedure will make the job of the President (mbn) and Publisher (DEE) a lot easier. Your past co-operation has been wonderful and much appreciated! -DEE

CONTEST REPORT

There are several very important changes in the contests to be announced. Please read them carefully and, if you have any questions, write to Bruce Collier. A revised set of rules will be typed and issued to all those who enter the contests.

2. Clarification: Entry in the Domestic Singles Contest makes you eligible for entry in the Domestic Doubles Contest. You are not required to do so. This way, if there is considerable doubt on your part about your future, you may wish not to enter the Doubles.
3. Correction: The contests will have RETROACTIVE starting date as specified in last year's rules, page DXW-5 of 9/7/68 DXM. The corrected dates for both contests are: 0000 (local time) 1 July 1969 to 2359 (local time) on 30 June 1969. However, next year's contests will NOT be retroactive; they will start only after announcement appears in DXM. This change will no doubt make a few unhappy, but it was the only fair solution to a problem in conflict between the announcement last year and the announcement this year. You may report for credit any stations verified for reception after the starting date.
9. Change: Rule 9 (of Rules Common to All Contests) should now read: No stations may be re-verified for any of these contests.
- '10.' Entries will be accepted (accompanied by 50¢ per contest) until 30 November 1969. NOTE: No entries will be accepted after that date for any reason.

FOREIGN CONTEST (numbers again refer to the numbered rules in last issue's RULES)

Extensive change: There have been comments and complaints about the difficulty in adhering to the rules announced in the last issue. Many DXers keep no 'heard' or 'logged' records or do so on a very informal basis. The rule against re-logging would require a fairly accurate log total.

To solve this problem, the contest will be for verification only. You may NOT re-verify any station but you may re-log it for the contest.

1. Briefly, Rule 1 should now specify that points will be awarded for each continent and country verified and bonus points will be awarded on the basis of the distance each station is from the DXer's location.
2. Change this to read that entries must be accompanied by "Countries Verified" total.
3. Contest divisions, if they are maintained, will be on the basis of veries (the total in Rule 2). Junior for those with 25 or less countries verified; Senior for those with 26 or more countries verified. This MAY need to be dropped entirely to meet requirements of the number of entries.
4. Stations submitted should include (a), (b), and (c) as specified plus the date verification was received. Positive ID is not necessary to any greater extent than it would otherwise be in sending a report. But be sure you report only positive verification of any tentative report.
5. Scoring remains the same as the verification portion of last issue's rules.

DOMESTIC SINGLES CONTEST

2. Correction of typo: In transcribing from last year's rules, your publisher left out one line which had the effect of eliminating credit for Local Channel stns and giving that credit to Daytime only stations. The correct bonus points are:
Clear: none Regional: 2 Local: 5 Daytime only: 1

DOMESTIC DOUBLES CONTEST - remains the same as announced.

As mentioned above, amended (completely re-typed) rules will be sent to all entering; extra copies are available at publishing hdq. Please enter these contests now! -DLE
