THIS ISSUE East Coast DX Roundup and Forum do not appear this issue because Marc is away from college and has no access to his mail. Grant Manning has decided not to type stencils for this issue because of the small number of reports that had reached him by deadline. There are no stencils for West Coast DX Forum; Bob Jacoby has not said anything about them so he either didn't have time or they are delayed in the mail.

October 17 DXM If you have not yet received your October 17, 1970, DXM, please write DEE for another copy; even one first class copy was lost in the mails and several third class copies haven't showed up after six weeks. A prompt replacement will be sent.

MAIL SERVICE In general, mail service has been extremely bad. San Diego to Riverside is now routinely taking two days. Mail from Los Angeles to Riverside is often taking as long as two to four days first class. This general decline in service will probably be responsible for some missing reports in various sections; please keep this in mind before complaining. -DEE

Underlined are new to the lists during the past week or changes in previous listings.

Note especially WINR, change from Mon. Dec. 7, to Mon., Dec. 21.

WCRV was on per sked with NRC/IRCA DX according to Rick Evans.

KOAM is not a DX; Mr. John H. Davis wrote to inform the club of their newly-instituted maintenance program at either 0105 EST or 0130 EST. Reports to Mr. Davis, KOAM, Box f, Pittsburg, Kansas 66762.

KORN will test each first Friday; Jan. could be an exception falling on New Year's morning. 1000 cycle tone and ID every 3 minutes will be used. Reports to: Mr. Arnold Monday, CE, KORN, Box 908, Mitchell, S.D. 57301. -IRCA/Neil Bartlett

WWOL info phoned in by Bruce McFadden. Country & Western music, with regular IDs, will be used. Telephone calls (PREPAID) will be accepted at 716-854-1120. Reports to: Mr. Walter Williams, CE, WWOL, Hotel Lafayette, Buffalo, N.Y. 14203. Ending time of the program is not known. -IRCA/Bruce McFadden

WPIC DX and PoP for NRC will be on as sked presumably; however, the appropriate NRC bulletin will not arrive in time so they may announce a rescheduling on the program itself. It was for this reason (lack of time to get word out) that WINR DX was re-scheduled for two weeks later. WPIC will probably feature Dave Schmidt mikeside. Reports to: Mr. Mark Hutchins, CE, WPIC, Sharon, Penna. 16146 (P. O. Box 211). Info from Jerry Starr and Ernie Cooper.

WKIX reports to: Mr. Floyd E. Houpt, CE, P. O. Box 12526, Raleigh, N.C. 27602. -NNRC

HCJB details as of yet unknown. -Larry B. Godwin

KREL will feature R&R music, ID between each selection. Reports to: Mr. James R. Miller, KREL, Box 100, Corona, Calif. 91720. -IRCA/Bill G. Powers and Edward Haden

WILM will use music, IDs, cycle tone and possibly code IDs. Reports to: Mr. Joe Benson, WILM, Wilmington, Del. 19801 (920 King St.). Arr. Dave Schmidt. Info: Starr

WGOE will program music, not C&W, probably R&R, and IDs. Code phrase will be used.

Reports to: Mr. Jim Grainger, CE, WGOE, 159 E. Belt Blvd., Richmond, Va. 23224.

Arranged for IRCA, NNRC, and the J. R. Tucker High School Radio Club. -David Singer

WINR will be conducted on Dec. 21st rather than 7th. Reports to: Mr. Kevin VanDerbeck, WINR, 70 Henry St., Binghamton, N.Y. 13901. Arranged by Wes Boyd and Stef Krieger. Info from: -NRC/Jerry Starr

WIZS will run until either 0300 or 0330; info is conflicting. Reports to: Mr. Walter M. Luce, Director of Engineering, P. O. Box 1299, Handerson, N.C. 27536.

WAZY will use 1000 cycle tone and ID every 3 minutes with code #'s for verie purposes. Recorded jingles will also be used. WAZY has a major lobe to the north and minor lobes east and west. Reports to: Mr. Larry Hitz, CE, WAZY, Box 1410, Lafayette, Ind. 47902. -IRCA/Tom McCormack

DX MEETINGS

Ind., Ill., and Mich. get-together on Dec. 19th from 12 noon to ?. Will be held at John Zondlo's. Call John at 219-844-7404 (no collect calls) or send a card to Al Ogrizovich, Box 654, Whiting, Ind. 46394 and let them know you can come. Further details from John or Al. The address is 6617 Maryland in Hammond, Ind. Please bring your own refreshments. -Al Ogrizovich

Southeast US get-together. "FLORI-DX (or ERBA-southeast) will hold its first official session in Uleta and Fort Lauderdale on Sunday, 27 Dec. 70. Activities will include DX, rag-chewing, FLORIDX initiations, a temporary beverage on Haulover Beach (Bal Harbour), other beverages, and much more! Bring your veries, tapes, portable rx's, etc. If you're coming (at least three nations will attend so far) write or phone: Ronald F. Schatz, 510 N.E. 158th St., No. Miami Beach, FL 33162 or Richard Clark, 4110 Bayview Dr., Ft. Lauderdale, FL 33308. Phones: RFS- 305-945-4915. RC- 305-564-3594. Remember: Last chance before the airlines hike their fares. Come on down!"

News-clipping Dept. RFS sends along a very interesting news-clipping on WMUM-FM in Palm Beach, Fla., with a pic of IRCA's own G. J. 'Geoff' Fox. As it is rather lengthy and not pertinent to DX, xerox's will be made available free of charge. If you like a copy, including Geoff's picture, drop DEE a pc. -via RFS

FLASH CPC Test At last minute, while typing this page, Neil Barlett phoned in the following: Tent. for Wed. Dec. 16, 0145-0200 EST, KGPC-1340, Grafton, N.D. 1kw, will use 400 cycle tone. Reports to: Lynn Nelson, CE, KGPC, Box 312, Grafton, N.D. 58237. -IRCA/Neil Bartlett

More news-clippings There are six more news clippings on hand; all are lengthy and not especially urgent so will be held until appropriate space is found. The item below is short enough to fit in, however:

Tower Dollars Now Total \$12,960

(North Pole, Alaska, Nov. 70 - 'All-Alaska Weekly') Tower Dollar contributions to the North Pole radio stn KJNP totals \$12,960 this week, according to stn mgr, Don Nelson. The new 450' tower, to replace the one toppled by vandals 2 months ago, is being erected. Nelson recently returned via the Alaska Highway with the 50kw tx from a factory in Quincy, Ill., which will make KJNP the strongest radio stn in the state. No date has been set for the stn to start operating with increased power. Bad wx cx are preventing the stn from testing the equipment. Nelson said that the Tower Dollars, a fund to help the church sponsored stn recover from their loss, continues to grow. They are still \$19,000 short of replacement cost. Contributions to Tower Dollars come in from Fairbanks area residents and listeners throughout the state.

-Tom Garcia, Tucson, Arizona; former Alaska resident

ANARC Report

The new executive secretary of ANARC is Wendel Craighead, the sole nominee. Wendel's address is 2110 W. 74th Terrace, Prairie Village, Kansas 66208. Our thanks go to Gray Scrimgeour who has ably served in this post for the past two years. (Gray will continue working for ANARC as one of the NASWA reps.)

Voting is now in progress on two measures: approving the application of the Midwest DX Club (MWDXC) for full membership in ANARC and allowing individual subscriptions to the ANARC Newsletter for \$2.00 per year (the Newsletter has in the past only gone to ANARC representatives and club executive officers.) IRCA is casting its votes in favor of both proposals.

ANARC Financial Statement (prepared October 1, 1970)

Cash on hand, Oct. 1, 1970		\$204.25	

1970 ANARC Man of the Year is LeRoy Waite of Ballston Spa, New York. LeRoy is perhaps best known for his 17 years as editor of the Amateur Section of the NNRC bulletin. During those years, he built the section into the NNRC Bulletin's largest, and developed it to the point where it receives regular recognition from the DX Columns in CQ and QST. The column is probably one of two in the world to have successfully dealt with amateur DXing on a listening basis, the other being the ISWL in London. Roy continues to serve the hobby through the ARRL SWL Bureau. In 1957, Roy founded the bureau to handle the many cards coming in from hams to listeners. Currently the bureau handles from 100 to 200 cards per month, distributing them to SWLs.

DX Census. A volunteer is needed to take over the census of DXers in North America not belonging to any ANARC clubs. This is the work that Dave Cheek, of the IRCA, began before his death. Several DXers have indicated a willingness to assist on the project, but someone is needed to supervise the work. (Contact Wendel Craighead.)

Possible New Associate Member Clubs include the Rocky Mountain DXers Association and the Idaho DX Association (both headed by IRCA members, incidentally). Any DX organization may become an ANARC associate member for \$1 per year and mailing the club bulletin to ANARC headquarters. To become a full member, however, requires that a club have a minimum of 50 members.

1971 ANARC Convention. Those interested in hosting the ANARC Convention should consider getting their bids together. IRCA has, in the past, volunteered to host a joint ANARC/IRCA convention, but somehow the organizations haven't gotten together. This might be something for prospective 1971 IRCA convention hosts to consider, however.

ANARC Abbreviations List is still available for \$1.25 from ASWLC, 16182 Ballard Lane, Huntington Beach, Calif.

Part 1 - The President and Secretary-Treasurer shall be elected by the membership-at-large. Each member in good standing shall have one vote for each office.

Part 2 - The seven members of the Board of Directors shall also be elected by the membership-at-large. Each member in good standing may vote for seven of the candidates seeking Directorships.

Part 3 - The Chairman of the Board of Directors shall be selected by the Directors on the Board in accordance with Article III, Sec. 6.

Section 3 - Eligibility to Hold Office

Any member in good standing, regardless of where he lives, shall be eligible for regular election to any office provided he has held one year's continuous membership in the IRCA as of April 15 of the election year. For purposes of special elections, the requirement shall be one year's continuous membership as of the effective date of vacancy of the office in question, such date to be determined by the President. It is not necessary for an eligible member's name to be printed on a ballot for him to be elected.

Section 4 - Authority for Elections

The Election Committee Chairman (ECC), appointed by the President and confirmed by the Board, shall handle all aspects of all elections of officers, whether regular or special, with complete authority.

Section 5 - Regular Elections: Procedures and Dates

Part 1 - The President shall be responsible for announcing in the DX Monitor full details concerning the upcoming elections approximately February 15 of election year.

Part 2 - Nominations shall be open for President, Secretary-Treasurer, and the seven members of the Board of Directors from March 1 through April 15. Only one nomination each for President and Secretary-Treasurer, and only seven nominations for the Board, shall be allowed each IRCA member. All nominations must be submitted in written form to the ECC by April 15.

Part 3 - As soon as possible after April 15, the ECC shall send to the Secretary-Treasurer a list of all nominees. The Secretary-Treasurer will return the list to the ECC as soon as possible, indicating which nominees have been members in good standing for the required one-year period.

Part 4 - The ECC shall notify by letter all eligible candidates concerning their nomination by May 1. Each letter of nomination shall contain the names of all eligible members who have been nominated for the particular office in question. Such letters must stress that the nominee must reply in writing if he accepts the nomination, and each such letter must request from each nominee a campaign statement, not to exceed 15 stencil lines, to appear in a June issue of the DX Monitor.

An IRCA member may be nominated for more than one office, but he must decide for which he prefers to run and so notify the ECC. A nominee who has indicated his intention to run for an office may not be considered as a write-in candidate in the same election.

Part 5 - All letters of acceptance of the nomination, and all campaign statements, must reach the ECC by May 20. The ECC shall prepare the ballot and the campaign statements and submit them to the Publisher by June 1. Ballots shall contain spaces for write-in candidates.

Part 6 - Ballots and the campaign statements are to be mailed to all members with a June issue of the DX Monitor.

Part 7 - The deadline for receipt of ballots by the ECC shall be August 1.

Section 6 - Election of the Chairman of the Board

The ECC shall ballot the Board of Directors soon after each regular election to determine the Chairman of the Board, who will be the spokesman for the Board and will be responsible for assuming the President's office in case it is vacated during the current term. In the event the Chairman of the Board becomes club President, he shall be required to resign his Board position. No election to determine a new Chairman of the Board shall be required due to a change in the composition of the Board during the current term.

Section 7 - Special Elections of Officers

In the event the Secretary-Treasurer, the Chairman of the Board, or a regular Director on the Board resigns, or in any other circumstance requiring a special election of officers, a special election shall be conducted as soon as possible by the ECC, in accordance with the relevant procedures outlined above. If advisable, the various deadline dates fixed in Article III, Section 5 shall be altered by the ECC, but the relative timing of the various procedures will be retained.

Section 8 - Determining Winners

The seven eligible members who receive the most votes cast shall be deemed winners during a regular election of the Board of Directors. In all other elections, whether regular or special, the eligible member who receives the most votes cast shall be declared the winner.

Section 9 - Ties in the Balloting; Insufficient Nominees

Part 1 - In the case of a tie in the balloting for President or Secretary-Treasurer, the Board of Directors (to be polled by the ECC) shall break the deadlock. In the case of regular elections, such deadlock shall be broken by the newly-elected Board members.

Part 2 - In the case of a tie in the balloting for the Board of Directors, a run-off election among the persons who tied will be executed immediately by the ECC. In the event there is a tie in the run-off election, the elected members of the Board shall determine the winner. A deadlock in the Board voting shall be broken by the President, or in the event his office is vacant, by the Secretary-Treasurer.

Part 3 - In the case of a tie in the balloting for the Chairman of the Board, the President (or in the event his office is vacant, the Secretary-Treasurer) shall cast the deciding vote.

Part 4 - In case no persons are nominated to fill the office of President or Secretary-Treasurer, or in case fewer than seven eligible members are nominated to the Board of Directors, and

4.2-15 (Cont'd)
New for Pres. &
S-T.

Part 4 (Cont'd) - no eligible write-in candidate(s) is (are) declared the winner(s), the Board shall select the officer(s) in the best manner they see fit.

Section 10 - Announcement of Results of Elections

Same as present
Art 3 Sec 2 Pt 4
with change to
allow for odd
convention dates.

The results of all regular and special elections shall in all cases be announced by the ECC in the DX Monitor within 30 days after the deadline for receipt of ballots. If it may be done in a timely manner, the election results shall first be announced by the ECC or his appointee at the annual business meeting."

4.2-15. Following is the (annotated) proposed amendment to the IRCA Bylaws:

"Article V - Officers and Duties

Section 4 - Replacements

Same as present
Art 5 Sec 4
Part 5.

Part 1 - If an IRCA officer's membership in the IRCA expires during the current term and he fails to renew it within two weeks, he will be deemed to have resigned his position.

Same as present
Art 5 Sec 4
Part 4.

Part 2 - Should a Director on the Board fail on two successive occasions to communicate to the President his vote on club business within the period prescribed by Article V, Section 2, Part 3 of these Bylaws, he will be deemed to have resigned his position.

Same as present
Art 5 Sec 4
Part 1.

Part 3 - Should the President resign, the Chairman of the Board will immediately assume the Presidency for the remainder of the current term.

Present Art 5
Sec 4 Part 2
says Pres.
appoints them.

Part 4 - Should the Secretary-Treasurer or any Director on the Board resign, a special election shall be conducted as soon as possible in accordance with the procedures outlined in Article III of these Bylaws, provided at least six months remain in the current term. In the event the Secretary-Treasurer resigns, the Chairman of the Board shall assume his duties on a temporary basis until the new officer is elected by regular or special election.

New

New

Part 5 - Should the Chairman of the Board resign, a special election among the Board of Directors shall be conducted immediately in accordance with the procedures outlined in Article III of these Bylaws."

Note that Article V, Section 3 was deleted in the proposed redrafting of Article III. Thus the above section dealing with replacements would become Section 3, and there would be no section 4.

Note that Article V, Section 2, Part 3-f was also deleted in the proposed redrafting of Article III. Thus Article V, Section 2, Part 3, sub-parts g, h, and i would become sub-parts f, g and h, respectively.

This proposed amendment and annotations drafted by Larry Godwin, with prior critical review by Don Erickson, Bill Lips, Percy Kesteven, Mike Northam and Gray Scrimgeour.

Condition of Frequencies List George W. Tanner, Jr., 8349 E. Cypress, Scottsdale, Ariz. 85257, is planning to do a one-half sheet addenda to the CoF List as a temporary 'corrector' until a complete new list is published early next year. Please check your CoF List now and send any additional information to George. If you would like a copy to mark up and send to him (for convenience of both of you), write DEE for extra copy(ies).

DX Roundup reminder As a reminder to reporters to DXR sections, the purpose is to provide up-to-date tips on what is being heard and how to hear it. There is sometimes a misunderstanding that it is intended strictly as a list of 'good DX'. Actually, the routine catches that you receive can often provide your fellow DXers more useful info than your very best catches. And whether you've heard it before or not makes no difference as long as you can provide some solid info to help others. New SPs, new ANers, new calls, f/c's, r/c's, etc. are especially useful. PLEASE mail your info as promptly as possible. Month old DX belongs in archives not in DXR. And please watch the format of your reports. Editors will appreciate that.

First, please note my new deadline. I'll be moving sometime within the next few weeks. I can't see driving 13 miles each way to work if I can walk only six-seven blocks. Will not be filing an address change with the P.O. for a couple of months after moving, so I'll have to come back here for reports and veries. For now, until that time, I will be accepting Thur. mailings until then, though. I'll wind up either in Hammond or East Chicago. V/q WGTO PJB (country #7) 4VEF (country #8) v/1 WCRK WAAX KLMR KJEF KLTR (for 11/14 report). KLTR commented on my report by saying "Your report is accurate almost to a 'T'. You're listening closer than I (the PD) was..." They switched to a remote broadcast only to have the guy insist he wasn't on the air. The verie says he still doesn't believe it! LDB, I like your quotations. Please keep them up! They're quite meaningful. Countries now 28/8. Why arrange tests from stations that get out very well on r/c's? The purpose of a special is to get available to DX'ers those stations which are rarely heard for one reason or another. And the way cx are now, half the specials will be poorly heard anyway. Gotta go now, so DEE take her away----- (73-rce)-----

NMPs and Membership Cards Some members should be receiving their New Member Packets even before their first issue of DXM. They are mailed several days in advance. However, past mail service indicates 2 to 5 weeks so please be patient (or should I say, 'thanks for your patience'; no one has complained so far) while Uncle Sam tries to move the Xmas mail. Membership cards go out in 3-oz. bulletins so sometimes there is quite a delay; you will receive yours in all likelihood.

Renewal Notices The only present form of renewal notice is 1) youexp. date on each bulletin address label; 2) a "please renew early" in red or black stamped on several bulletins before your final exp.; 3) a stamp in red advising that it is the last issue of current membership. It appears that a different method should be used. Possibly a letter to each about a month in advance, by first class, and with a return envelope would be more convenient all around. Also, soon there will be a stamp advising "membership expires with next issue" to give a little bit better advance notice. Early renewals make mbn's job much easier and are greatly appreciated by all.

FISH - Lincoln, Nebraska

Conditions continue to improve as static levels really drop out. Predominant condxs continue to favor LA/SA with several good Aurora openings into deep SA. TA's logged with typical expectancy in the 0100E period but TA's have already been heard in the early evening hours this season! TP's are still less dominant with 650KORL, 1020ZCO, 844VSZ1, 770 3LO, & 890VRH3 heard these past three weeks. Guatamela has moved to the 665 region giving Lisboa trouble both in early-mid evening & the TA-period most likely here, 2300-0200E. All KECK f/ups have been given to the new CE, so it's up to him now. For the record, AT NO TIME were the KECK reports turned over to me either for private reading or for verification -- those who write otherwise should evaluate their source before printing such trash. Any future remarks propagating the same trash can only pollute the pages of DXM and pollution is something to be eliminated!! Understand??!!

CHUCK "THE" WALL - 5966 Williamstown - Dallas, Texas 75230

No DXers, I am not dead, but alive & well picking grapes in Lower Volta, hi. DX so far this fall has been zero. Time spent debating, announcing football games, basketball, girls, etc. Need I say more? Really not too much time, hi! Summer was great though. Logged KEDO-1400 8/22 for best DX ever. ALL THAT HAVE WRITTEN FOR KLIF SC'S!!!--hang on! I have been trying to locate some for weeks. They, again seem to have stopped putting one out. As soon as I find some, you will get 'em. KLIF is Cowboy flagship station, feeding largest sports network anywhere. Consists of well over 100 stations in 5 states. LDB: Nothing to say about that football team, except YUK!! No, seriously, I cannot tell you what those boys are up to. (They'll still make the playoffs. I'll be in the stands Thanksgiving to root them on! -LDB) Pete Campbell: KRLD carries a series of NFL games of the week. Oilers just happened to be one of them. They do not carry all their games. They do carry Astros BB. Why? MONEY!! Be in L.A. 12/26 to 1/1. See ya Toyland Tinkers then! 47½...

Hello again! I recently got Rick Williams, who lives a couple of blocks away, to join IRCA. Report often Rick! Recent veries: v/q KTWO WCPC v/l WWNC KID-TV WTVJ-TV. Reports out to WBHP KULF WSPA WPNX WCLS KGMO(for f/c) WGUN CJIC KMNS WSUN XELO KRYS (Big Chris). Any FM DXers want KRMG-FM dial cards? Just write. Also SCers write; I've got some KAKC & KRAV-FM SC's. I think my UnID in my last report on 780 is ZVBI. Anybody know their address? Also does anyone have a list of Drake stations? Dave Faulkner - sunset DX is usually that good. D.A. Cunningham - the 6th Jones Log is out. Totals - 232/64, 30/27 states, 3/3 prov. Heard a stn in English around 1540 or 1550 giving address as P.O. Box 2000, Montreal, P.Q. At 0259, who is it? Help! That's about it. 73's, Texas #1.

Hello. For all of you who have not converted your WPE certificates into WDX certificates, you have until 12/31/72 to do so. Send your name, address, your WPE No., & 25 cents to Monitor & DX Hdqtrs, PO Box 333, Cherry Hill, N.J. 08034. I am thrilled that my Popular Electronics subscription ran out, so now I will not wreck my eyes on that mess called the communications section. Latest v/q KSD CKWS WREC WJJD v/l WCAZ. My fellow DXers, 73.

LYNN D. BROOKS - Box 253 - Ponca City, Oklahoma 74601

After spending the past MM trying almost vainly for some of those elusive foreigners, I have decided that my problem is that I don't know enough about the condition of the frequencies as far as foreigners are concerned. So have taken & xeroxed all the pages of DXWW for the past 15 or so issues, and have cut out each individual catch and pasted all catches on master sheets by frequency. Of course, I skip the catches made on the East or West coasts that I have no chance to make. This way, I can easily find what has been heard on any particular frequency in the past few months in my area. I think it will make a lot of difference in the number of foreign catches I make. The NRC Log is INCREDIBLE, a real tremendous asset to the BCB DXer. I have transferred all my records from the old NRC Log to the new one, so that I can tell in a second, on any particular frequency, which stns I have heard, reported, verified, taped, etc. My memory is very poor, so the Log is my crutch, hi. I couldn't even remember what stn is on 1200kHz, if I didn't have a log, hi. 73 & Good DX to all.

Synchronous Transmitters

Several weeks ago I raised a couple of questions about asynchronous transmitters (particularly those of NHK) on the same frequency. Both Richard Wood and Don Kenney replied, although on different aspects. Richard answered the immediate question at hand: "Yes, they are synchronized with network programming; however, twice during the evening hours, once at sign-off after the Anthem, all give individual local ID's, followed by a varying number of repeats of the network IS (each cutting audio and/or carrier at different times)."

Don's answer dealt with the effective power radiated by a group of synchronous transmitters. Since I should have realized that what I said was not entirely correct, I want to thank him for refreshing my memories on this point. To clarify his answer for others, a bit of wave mechanics is needed.

In simple terms, a point source of waves, S, sends off waves in all directions at the same rate of speed (the speed of light in the case of radio waves). Suppose that a second point source, S', is producing waves of the same wavelength as those from S and in phase, i.e., a crest of a wave is produced at the same instant by both sources. Suppose you are the same distance from each source. Then each crest (or trough) produced by S will reach you at the same time exactly as the corresponding crest (or trough) produced by S'. The effect will be that of adding the amplitudes (sizes) of the two waves, producing a wave twice as large as each one individually (supposing them both of the same size initially). (Figure 1). If you were one wavelength (or any whole number of wavelengths) further from S' than from S, the effect would be similar, except now the strength of the signal from S' would be weaker because of the extra distance. The effect still would be still a strengthening of the signal, but not to the same degree as when you are equidistant from S and S'.

However, suppose that you are $\frac{1}{2}$ wavelength (or $\frac{3}{2}$, $\frac{5}{2}$, ... wavelengths) further from S' than from S. Now the waves from the two sources are out of phase, i.e., a crest from one source would reach you at the same time as a trough from the other source. The effect would be to diminish the strength of the signal, through destructive or sub-active interference. The two signals would cancel out (if they initially were both of the same strength and the distance to the two sources is approximately the same distance); you would be in a null. (See Figure 2). If you were somewhere in between being in phase and completely out of phase, there would be a slight increase in signal strength over the strength of one source alone. (Fig. 3)

All directional stations use the principle of destructive interference to produce a pattern which blankets their primary coverage area efficiently while sending out very weak signals in other directions to prevent interference with stations in those directions. This is accomplished by two or more towers properly spaced, and by phase delay in the signal sent to the various towers.

Basically what has been described above applies to the original problem of synchronous transmitters. The big difference is, of course, that the sources (or stations) now are many miles apart, instead of sources (towers) approximately a wavelength or less apart. Don comments as follows, "I think that the effect of receiving several synchronous transmitters on the same frequency is a lot more complicated than just adding the powers....Considering the distances involved for most DX stations plus the fact that minor changes in the height of atmospheric layers, etc., will affect the phase relationship, it's hard to predict what the effect would be."

"I suspect that for a very large number of synchronous stations, the average effective power would be something like the square root of the sum of the squares of their powers, but that's just a suspicion based on the fact that a lot of things work out to answers like that. I doubt that I could work out the math to derive the real answer, and I'm not about to try."

- 1049½ HJFJ Colombia, Manizales is the WJN station here, heard with two "Transmisora Caldas" IDs 0950 MM 11/23. Listed on 1060. (LBG)
- 1080 YVQJ Venezuela, Barcelona, "Radio Barcelona" s/on very early at 0757 MM 11/23 with NA plus another anthem. Dominated completely. (LBG)
- 1178 VOA Ryukyu Islands, Okinawa fair with "Yankee Doodle" theme at 1330 11/18. Only TP heard here in weeks, except for 1475-USSR. (LBG)
- 1180 CBI18 Chile, Santiago, "Radio Portales" dominated with WHAM looped MM 11/23 0906-0910. Program name apparently is "Al Levantarse por Portales". Note Chile is on DST now. (LBG)
- 1256 CM.. Cuba "Reloj Nacional" AN and pretty strong with ID 0728 MM 11/23. (LBG)
- 1550 ??? UnID believed SS due to loop bearing, with non-stop instrumentals MM 11/23 0808 to past 0900. No voice noted at all. Music played had a slight Latin beat. Is WKFE in Puerto Rico AN here? (LBG)
- 660 YVNA Venezuela, Coro s/on with NA plus another anthem at 1002 MM 11/23. Slogan was "Ondas de los Medanos". (LBG)
- 730 HJCU Colombia, Bogota, "Radio Tricolor" is back here (thought they switched to 1280). Very strong MM 11/23 with non-stop SS songs 0925-0957 when ID was given. Also full ID at 1000½. Don't think was on before 0900. (LBG)
- CM.. Cuba "La Voz de Cuba" ID with chimes 1000 MM 11/23, believe s/on. HJCU was on top. (LBG)
- West Coast
- 580 XEFT Mexico, Chihuahua, Chih. 11/23 1255 with ranchera music and ID. (FJP)
- 590 CMW Cuba, Havana heard at 0902 with news, followed by music 11/16. (PM)/ Fairly good with La Voz de Cuba programming 0919 11/17, giving KGMB, KFXM much trouble. (KLS)
- KGMB Hawaii, Honolulu, good with up-tempo music MoR o/u CMW and KFXM, CJOR slop, 0853-0915, uses same news jingle as KPUA-970, all on 11/16. (KLS)
- 630 CMHQ Cuba, Santa Clara with Latin music 0907 11/16. (PM)
- 640 CMQ Cuba, Havana overriding KFT, also //with Cuban on 670, at 0850 11/16. (PM)
- 660 ??? UnID, several Latins on this frequency. Station in PP 0917 11/16. Ideas? (PM) (No Brazilians listed, Pat. Ed)
- 663 TGRT Guatemala, Guatemala noted here evenings 11/15 and 11/16, good signals with MoR music and SS IDs as "La Fabulosa". Will be widely reported. (DJK) UnID Latin heard with much KNBR-680 slop 0555 11/15 and 0500 11/17. A good strong signal most of the time. Thought it was a local image, because of music played (MoR) for ½ hour straight, but announcer was SS. Voice was too low pitched and slopped-on to read. (AWP)(Sorry for crooked stan.)

- 670 CMKP Cuba, San German here // 640 at 0850 11/16. (PM)
- 690 CMBC Cuba, Havana under and mixed with XETRA at 0807 11/16. (PM)
- 700 ZYR213 Brazil, Sao Paulo, giving several IDs, calling themselves Radio Brazil (isn't their slogan Radio Eldorado?) in PP 0927 11/16. Wanted to tape them, but recorded oscillator interference on 700. Grr! Country #41. (PM)
- 720 CMGN Cuba, Colon with music at 0942 11/16, not //670 and 640. (PM)
- 740 HLKG South Korea, Taegu, KBS pips at 1100 11/16. (AEL)
- 750 ??? UnID, several here, LAs, including Colombia 0822 11/16. (PM)
- 770 CMDC Cuba, Holguin mixed with other latins 0826 11/16. (PM)
- JOUB Japan, Akita fair with NHK pips 1200 11/9. (AEL)
- 740 JO.. Japan, NHK pips 1100 11/16 mixed with KBS (above). WRTH lists two Japanese stations, but they are commercial stations, not NHK. (AEL)
- 770 ??? UnID heard with pips along with JOUB 1200 11/9. Pips were identical to NHK (3 short low, 1 long high) except that they started about one second sooner and the final pip was slightly higher pitched than that of NHK (AEL)(South Korean, maybe? Ed)
- 780 ZBVI British Virgin Islands, Roadtown with religious request program, 1015' 11/16. Also commercial given: Excellent signals. Country #42. (PM) 1025 with spot for McDonald's Hamburgers, Morning Devotion program, unbelievably strong, 1030 with weather "on the mighty Zed" and spots for International Liquor, good tape made, WBBM ET on 1031 but ZBVI on top at times yet. 11/16. (KLS)
- JOIU Japan, Muroran, NHK1. NHK IDs with call letters at 1500 s/off. To answer Steve Kamp, although 3 NHKs are listed, only calls ever heard by LBG when he was in Berkeley and were JOIU's, even though JOKX is higher powered. Probably because JOIU on Hokkaido is much closer. (AWP)
- ??? UnID SS with MoR, very poor, 11/23 1135. Has to be CA, too late for SA. (FJP)
- 800 ??? UnID SS under PJB at 0948 11/16. (PM)
- ... North Korea, Kim-chaek believed to be the strong KK speaker at 1044 11/16 with PJB partially looped. (AEL)
- 810 FEN Japan, Tokyo. Tuned in just in time to catch the ID at 1000 11/15. Fair signal at 1000, but gradually weakened and faded out at 1006. ID followed by TC and 7 o'clock news. Report and tape sent. (AEL)
- 820 HJED Colombia, Cali with music and frequent IDs 1033 11/16. (PM)
- 830 CMCA Cuba, Havana, very poor with others, including Venezuela, 0938 11/16. (PM)
- 840 HJBI Colombia, Santa Marta, about S9 signal with Latin music, during the AM of 11/16. (PM)
- XEFG Mexico, Celaya, Gto. probably the one 11/23 MM 1230 with US rock, possible mention of Celaya. (FJP)
- 844 VSZ1 Gilbert and Ellice Islands, Tarawa beautiful, almost local-like signal 0905 11/15 with music. (PM)
- 850 CMKL Cuba, Cadena with fantastic signals, with talk in SS. Are they really only 2 kw? 0914 11/16. (PM) (Location is Santiago, Pat. Ed)
- KHLO Hawaii, Hilo finally logged MM 11/28 with fairly quiet music. Fair signal. Mentioned 24 hour schedule, but not clear if they are on MM after 1000 GMT. (DJK)
- XEUS Mexico, Hermosillo, Son. University of Sonora seems most likely source of EE lessons (0050) and GG lessons (0100) 11/15. KOA looped. Lots of SS QRM. (DJK)
- 870 CM/KAIM Cuba/Hawaii, mixing; very interesting, even with an Oriental in the background. near 1000 11/16. (PM)
- 890 VLH Fiji, Lautoka in Hindi/Arabic language 1010 11/16. (PM)
- 910 XEAO Mexico, Mexicali, B.C. under KDEO OC with "A-0" ID and US rock music 11/23 1201. (FJP)

- 950 JOKR Japan, Tokyo heard with two spits, with Japanese music 0929 11/16. (PM)
- 1003 ... North Korea, Hamhung net 1. Another slight shift from 1005 heard weak at 1045 11/16. This outlet has been heard on 1008, 1005 and 1003 so far. 1000 next? (AWP)
- 1020 ZCO Tonga, Nuku'alofa in native music at 1023 11/16. Good signals. Not needed, but always nice to hear. (PM)
- 1030 VQO Solomon Islands, Honiara with music in Polynesian, country #43. Beautiful ID 0830 11/16. (PM)
- 1034 ??? UnID TA carrier noted around 0300 11/3. Several other carriers noted that evening--nothing from that part of the world since. (DJK)
- 1040 ... China, Peking, JJ Foreign Service. Very readable (if you savvy JJ, hi) through competing TT and WHO. Mostly on top 1050 11/16; was solidly on top by 1100. Looks like even WHO can't compete with this blockbuster. (AWP)
- 1140 VOA Philippines, Poro probably the very strong signal in unID Asian language 1108-1132 11/16. No break in programming at 1130 for ID. XEXF s/on at 1132 covered them. (AEL)
- 1178 VOA Ryukyu Islands, Okinawa. My old favorite and very first TP was in with no QRM, some fade 1110, 11/16 in Chinese. (AWP)
- 1180YVMB Venezuela, Maracaibo. The former La Voz del Zulia has been replaced by La Voz del Petroleo. Obviously 0900 is s/on time. (REW)
- 1200 ??? UnID. There is something here that sounds a lot like Holiday Inh. Noted from time to time MM 11/16 fading in and out with CMKD's Reloj Nacional. Soft music, YL announcdr. NX in NA accent 0900. DF roughly same as CMKD (Northern Caribbean). Buried by YVOZ at 0945. Very weak. (DJK)
- YVOZ Venezuela, Caracas. Yes indeed, Radio Tiempo is not a time-signal station but has regular musical programming. (REW)
- 1210 JOOR Japan, Osaka, Mainichi Hoso (commercial). Was in well with JJ song, some QRM from a Latin (probably CMHK) 1015 11/16. This is a very friendly verifier; sent v/c and nice letter to me a couple of years ago. (AWP)
- 1215 ??? UnID, carrier and some weak audio 0500 11/3. DF for Colombia, Peru, Ecuador, etc. (DJK)
- 1310 JOLF Japan, Tokyo ID with call letters 0930 11/16. Fair signal. (AEL)
- 1376 ... Asiatic RSFSR, Vladivostok, R. Moscow very poor 1002 11/16 in Russian. (AWP)
- 1390 JO.. Japan, JOHC, Kagoshima/JOQC, Morioka, NHK2 syncros. New frequency for this pair, in well 0945 11/16. (AWP)
- 1395 ... UnID weak carrier 0942 11/16 on a TP bearing. Canton listed.
- 1410 XEAS Mexico, Nuevo Laredo, Tamps. ID as Radio Juventud and also as Radio Impacto 1315 11/23. (FJP)
- 1420 KCCN Hawaii, Honolulu strong 0955-1002 s/off 11/2, to return at 1430. KSTN off for a change. (AEL)
- XEF Mexico, Cd. Juarez, Chih. dominating channel 11/2 after KCCN s/off. (AEL)
- 1475 ... Asiatic RSFSR, Khabarovsk, R. Moscow much better than 1376 with CC program 1015 11/16. (AWP)
- 1510 2NA Australia, Newcastle fair 0955 with classical piano music. 11/16. Six pi;s at 1000. Slop from KXRX. (AEL)
- 1540 ZNS Bahamas, Nassau is the mystery language station here, reported by DS and AWP. The language is Creole French (French superimposed on an African base) for Haitian residents of the Bahamas at approximately 1045-1100 daily; it is IDed as such in EE before and after the show, which is religious. So DS is right in calling the language "vaguely FF"; neither Papiamentu nor Russian, and I know of no Far East Russian on 1540, while 1550 is a nightly powerhouse in Hawaii. (REW and AM)
- 1550 4QD/... Australia/ Asiatic RSFSR. 4QD noted weak with ABC news 0900 11/16 about even with TT assumed to be Khabarovsk. (DJK)

Please pardon any typographical errors. This page and the following one are being typed after a 12 hour ERBA session with ELK, RJS, DP, DKK, DJK. Maybe I'll make it.

East Coast

665 TGRT? Guatemala, another UnID, format vastly different from the above(?Ed) "Radio Nacional", has continuous soft music with short announcements at ½ hour and on the hour. Very rarely IDs. Only one ID heard between 11/23 0000-0300; two five-beat IS and "La Fabulos, la Fabulos" and mention of Guatemala. S/off at 0500 (GMT or EST? Ed) 11/22 the night before. Only heard when conditions were awful and of an auroral nature in contrast to the relatively good conditions when Radio Nacional was heard. Taped. Drifting Guatemalan from 670? (QKB) (Si.Ed)

Verifications

750 YNX Nicaragua, Managua v/l in 7 days for my taped report. Don't know how specific the wording is as I haven't had it translated yet. Included 2 (count 'em) "Estacion Equis" pennants. V/s is Leonidas Gurdian, Director. (CA)

834 ... British Honduras, Belize sent standard v/q, received ten days after report sent, postmarked Belize 11/17, received 11/19, no stamps or nothing. What's going on with our "Phoney Express"? (KLS)

1025 TIAC Costa Rica, San Jose, Radio Fides. As earlier promised in a v/l, two nice, small, red, white and blue pennants now received from Pbro. (= Presbitero, priest) Gonzalo Jimenez A., Director. (REW)

1230 LT2 Argentina, Rosario, Radio Splendid. Attractive but vague v/q and attractive blue, black, red and white pennant from Henry A. Melano, Sec. Gral. Again a follow up to earlier received v/l. (REW)

Pirates- Terry Greenhill, Hertford, Hertfordshire, England

In the November issue of "Medium Wave News" it stated that the RNI ship, "Mebo II" is to broadcast from the coast of Africa. Likewise in the "monitor" the publication of the International SW League, the Mebo has been sold to a Moroccan gent! To make the matter more mysterious, in the music paper, "Disc" of 11/14, in an interview with RNI's manager, Larry Tremaine, he still states that the Mebo II has not been sold, is still up for sale, and is still anchored off Holland with all DJ still on board. The owners of RNI, Miester and Bollier, are to be in Hamburg on 12/2 for the auction of the ex-Radio London ship, the M/V "Galaxy". The Galaxy, and old US mine-sweeper, still has the studios and transmitter on board; if anyone is interested it can be theirs for \$54,000.

Capital Radio's ship, the M/V "King David" went aground at Nordwijk, some 20 miles south of Amsterdam, on the evening of 11/9. This ship, which had battled against a Force 10 gale, was soon attended by a Dutch Lifeboat which took off 5 woman and a man, all DJs. The captain and crew stayed on board.

The French government has refused to broadcast anymore "Radio Geronimo" programs over Radio Monte Carlo. It seems that the London-based Gernimo owes the French £ 300 for their broadcasts. A new station "Radio Monte Carlo International" was to have started programmes over Radio Monte Carlo on 11/13, but as yet (11/15) nothing heard. Like Geronimo, R. Monte Carlo International is British based and employs some of the BBC's Radio One DJs.

Finally, Terry asks if anyone can trace a VOA station heard almost nightly under Bucharest, Rumania, on approximately 755 kHz. It doesn't seem to be in any of the lists. It seems to come from the Mediterranean area.

Congo The Congo will soon acquire the most powerful voice in Africa, equalled only by Egypt. Completion is due shortly of a 600 kW radio transmitter, equal in power that that of Radio Cairo. It will surpass the VOA, R. Moscow, and R. Peking facilities on the European continent. (Associated Press, via Glenn Hauser)

Bermuda Bermuda's only daily newspaper and the island's only two radio stations were fined a total of \$5600 and three newsmen associated with the companies were fined a total of \$1500 after being found guilty of contempt of court for publishing a statement from the Black Beret cadre, a militant black youth group. The statement which referred to the colony's magistrate court as a "Fascist kangaroo circus" was issued last month during the disorders after a leader of the Black Berets was sentenced to six months in jail for taking part in a flag-burning incident. Capital Broadcasting Co., which operates radio station ZFB, was fined \$500 for broadcasting a condensed version of the statement and the station's news director, Ira Philip, was fined \$250. The Bermuda Broadcasting Co., which operates station ZBM, was fined \$100 and its night news editor, Percy Ball, was fined \$50. (Globe and Mail, Toronto via C.M. Stanbury II.)

England The manager of Radio Leeds has ordered his news broadcasters to wear diner jackets at the microphone after 5 PM even though their audience can't see them. The 35 year old manager of the Yorkshire outlet for the BBC, Ray Beatty, says, "An announcer is influenced by his dress. If he wears a sweater his reading may be sloppy." Beatty says the announcer will be paid a dress allowance and he has "no plans to take formality any further." He says, "I will not, for instance, insist on short hair." "I did think of insisting on morning suits for news bulletins during the day, but that would be unfair to those starting work at 5:30 AM". Angus Turner, who reads the news on Radio Leeds most evenings, approves of Beatty's order, saying "Wearing the right clothes gives you a sense of occasion and definitely improves the news reading". But another newscaster, David Williams, says it is a "waste of time" and has called a union meeting to fight the regulation. The BBC says it has no rule about dress, and regulations for local stations are the responsibility of the station manager. Last night, one of the BBC's top TV newscasters, Jimmy Kingsbury, appeared before the viewers in a pink shirt, pink and purple tie, flecked gray trousers, blue jacket, blue socks, and buckskin shoes. England Radio Carolina is a new station about to start operation in East Anglia. The broadcast is planned to come from Reach, a small Cambridgeshire village. According to Mr. Leonard Warren, a member of Newmarket Rural Council, the village was granted the right of self-governemtn in 1201 by King John. Mr. Warren, self-appointed successor to the last "ruler", claims Reach is still entitled to the status of an independent kingdom. He has given Radio Carolina permission to broadcast from his "kingdom". The population of Reach is 269. Seventeen-year old Chris McCarthy, a programme director of Radio Carolina, claims the station is ready to go on the air. Several thousand pounds have been spent on equipment. The ministry of Posta and Telecommunications has been asked to provide a wavelength, but have not done so. (SCDX)

The big Thanksgiving weekend bash here in San Diego got off to a good start Friday, when Ed Krejny, Don Kaskey, and Dave Prather arrived at noon. Don Kenney arrived a little later in the day. Randy Seaver introduced them to King Luis. Give Mike Northam the prize for persistence--he located ERBA HQ, despite its secret location deep in the jungles of Chula Vista. A report on the SCECPOSDDX get-together at Mant Granning's next week, if I survive...

Foreign Contests Jr. & Sr. Division -- NO ENTRIES

Well, since this is my 1st stencil, I hope that it comes out all right but if it doesn't, well, eat your heart out, hi! As of this date, there are 40 entries in the domestics, 10 in the foreign Jr. division and 3 in foreign Sr. Still time to enter, deadline is 11/30, and all entries must be received here on the 30th, the deadlines must be enforced and will not be extended. The MW seems to be dominating the contests so far, where's the EC, and WC?? See ya in 30-----73 de DGC.

OOPS! I forgot to give you the definition of what is in the (), so here it is -- Domestic contest -- (local stns-regional stns-clear channel stns-daytime stns), and the Call Letters Contest -- (stns w/1 of the letters (I, R, C, A)- stns w/2 of the letters-stns w/3 of the letters). Sorry about that! Once again 73 de DGC.

HCJB DX Program Late word by phone from Larry Godwin (9 PM PST Mon. night) gives the necessary details on HCJB's program. WLW-700 was asked to stand by during the one hour program but did not reply. HCJB-700 will program separately from the SW outlet. Band or march music will be used with English ID after each record. Call letters, HCJB, will be given in Morse code periodically. Also, the regular HCJB Interval Signal will be used on the hour and half hour (0200, 0230, and 0300 EST). Reports may be sent to standard address. -Larry B. Godwin
