NEXT ISSUE IN 5 WEEKS

VOLUME EIGHT, NUMBER 32

Times in the domestic sections are Eastern Daylight Time during the summer; EST during the winter. Times in DXWW are all Greenwich Mean Time the year round.

President: (All dues and changes of address should be sent here)

Mike Northam - 1608 N.E. Knott Street - Portland, Oregon 97212

Telephone: 10AM-7PM PDT (503) 224-3651 7PM-1AM (503) 284-7369

Membership Dues: (U.S. funds) \$9.50 first class mail, \$6.50 third class mail, \$13 air mail. Please be sure to mail your renewal to Mike at least 30 days before the date of expiration to insure continuous bulletin service.

Publisher: Don Erickson - 6059 Essex St. - Riverside, Calif. 92504

Phones: 714-688-6010 and 714-687-5910; am home except 9AM-5PM PLT M-F; calls after midnight welcome. Last minute bulletin tips until bulletin is mailed.

Bulletin schedule: July 17, August 14; and September 4 to start the new volume.

Editors' deadlines are generally 7 to 9 days before date of issue. Rpt early!

CHANGES OF ADDRESS

Phil Dorsey - 900 North Harrison - East Lansing, Michigan 48823

Mark Drogin - 90-19 88 Avenue, Apt. B-14 - Woodhaven, New York 11790

O. P. Ferrell - c/o GILFER Associates - P. O. Box 239 - Park Ridge, N.J. 07656

Charles Grise - 69153 Cedar Road - Bremen, Indiana 46506

Bill Hardy - 303 West Tenth - Aberdeen, Washington 98520

Douglas Nyholm - 540 Mayfair Avenue - South San Francisco, California 94080

Richard S. Ryrholm - 100 Merryhill Street - Marietta, Ohio 45750

(Above includes only official changes of address cleared through mbn; those sent to publisher or which are temporary are not listed - see elsewhere for Geoff Fox and Marc DeLorenzo addresses)

WRTH PRICES - See page 32 for WRTH Discount prices available to IRCA members.

BALLOTS - Ballots were distributed by First Class Mail to most members ten days ago. Those who renewed late or just joined will receive them very shortly. Please return them to Dave Prather promptly. Let's have 100% response.

DX CALENDAR

See Grant Manning's column this week for info on KWIZ's series of ETs - KWYS-920 will be listed again for its quarterly series of frequency checks. In the meantime, no other information has been received on CPC programs. The May 17th KPIN test was a real success - see PSL's report for more details - this issue's East Coast DX Forum.

IRCs going up - International Reply Coupons will cost 22¢ effective July 1 according to a very recent Postal Bulletin. However, it appears that the old ones will be honored at the new postage rates. Which would indicate NOW is the time to purchase a good supply of IRCs. Check with your PO first, however, to guarantee that this is the case. For a limited time after July 1, those who desire them, may obtain old IRCs at 15¢ each from DEE at pub hdq; they have accumulated for the last 3 years.

MAILING TIME - This issue, as promised at the bottom of page 16 will hit the mails approximately ten days after the first part mailed separately. Meter was set for Monday 6-14; however, mailing time will be after midnight so Tues. AM postmark is likely. Will you be in West Sacramento, Calif., during Labor Day? DEE will. -DEE

CORRECTIONS

The following addenda to the IRCA Membership list included in the May 15th DXM is intended to correct typographical and content errors; any changes since the list was prepared will be found under "CHANGES OF ADDRESS" which appears with the listing of new members and renewals.

7. Jack E. Alexander, Jr. - USS Terrell County; add B854433; note: this address has since changed but has not officially cleared HQ in Portland.
21. John C. Bartholomew - ZIP is 46383
25. James Basile, 73-22 186th Street, Flushing, New York 11366
33. Robert Berger - SUNY rather than Suny - stands for State University New York
34. Thomas Berhalter - ZIP is 07631
42. Larry Black - ZIP is 48013
68. Peter Campbell - ZIP is 48105 (for clarification)
80. Ron Coleman - ZIP is 35652
82. Larry Colton, 2187-28 Comm Det, Bob 101, FPO New York, New York 09520
89. Roderick W. Corkum, R. R. 3, Bridgewater, Lunenburg County, Nova Scotia, Canada
98. Gary D. DeBock, 2539 N. Meridian Dr., FV, Great Lakes, Illinois 60088
(Gary's address is presently changing to Puyallup as of 6/12/71)(Washington)
108. Mark Drogin - SUNY - also has new address - see front page this issue
122. Richard C. Evans
126. Glenn Farnham, 1560 Pinewood Crescent
135. David Fischer - ZIP is 68506
139. William P. Fleming - ZIP is 13440
141. James L. Fortner, 11220 West 67th Terrace, Shawnee, Kansas 66203
142. Howard Fountain, 1116 Park Blvd.
143. Geoff Fox - 519 Second Avenue South - Lake Worth, Florida 33460 - this address
144. Robert L. Foxworth, GPO Box 2111 is OK after all - see p. 17
167. George C. Greene, 1527 Sunset Avenue
176. Gordon Hanson, 5224 Fauntleroy Way SW
178. Mike Hardester, 401 Birchwood Court,
185. Thomas Hartloff, 49 Highview Court, Nyack, New York 10960 (clarify N)
192. Harry L. Helms, Jr. - Ga. Univ. Station - remove comma - address has changed
193. David M. Hendricks - ZIP is 62526
194. Fred Hendricks - ZIP is 62526
204. Roger S. Horie - ZIP is 59801
220. Don Jensen, 5204 70th Street, Kenosha, Wisconsin 53140
221. Thomas A. Jerse - state is Indiana - ZIP is 47802
223. John C. Johnson - state is Wyoming - ZIP is 82801
232. Steve Karklin, 3041 Kersdale Road, Pepper Pike, Ohio 44124
248. Edward S. Kocsan - ZIP is 07950
253. Mark Krasnow - ZIP is 33143 NOTE: Now available is a 15-sheet membership list on either plain yellow mimeo paper or white gummed paper. Names and addresses are in blocked form and can be used for addressing. Send legal size SASE w/4 8¢ stamps to Don Erickson, 6059 Essex, 92504. Specify gummed or ungummed. An exclusive service of IRCA.
260. Jim Larson - city is Clanhassen
293. Stephen E. Martin 12115 Northwood Drive
298. R. Neil McDougald, 5977 Rothwell Road
319. Dan Myers
322. Robert L. Neal, Jr. - add ZIP 95941
350. Joseph Phaturus, 1512 Spring Garden Avenue
357. Kenneth Poole, Jr. - add ZIP 72202
384. Ronald F. Schatz, 510 N.E. 158th Street
387. K. G. Scrimgeour
390. David Shapiro
391. D. Sheedy, Box 31, Encinitas, California 92024
405. Larry Southend - temporary address is P. O. Box 2558, Riverside, Calif. 92506
413. Tom Sundstrom - city is Willingboro
419. C. Alan Taylor, ETN2
453. John F. Wilson - Lancaster Village, Wilmington, Delaware 19805
459. Clayton Woodward - state is Alaska
466. Tom Zeglin

Dropped from contests; Angel Garcia, Joseph Plonka

Dave Christensen 3434 39th W Seattle WA 98199

Hi all. Since the contests are nearly over, I'd like to thank DEE, rce, mbn, Bruce Portzter, FJP, Neil Bartlett, Bill Nittler, Steve Kamp, for the help they've given me in my 1st year as manager. Look for next year's rules, soon (maybe this issue?). Today is Memorial Day, and its been a good weekend, 1st, Kevin Slater & friend stopped by and spent Fri. nite, then we cleaned out the discount houses for SCs on Sat. Sun. saw a get-together at BPs w/JEP from BC. Kevin brought his N(a)RC LA Log, looks nice! Time to go, remember, you can never turn your back on your face. Happy trails.

Enclosed with this issue of DX MONITOR is a ballot for this year's election of officers. This year the seven members of the Board of Directors will be elected by the membership-at-large. Each member may vote for seven of the candidates seeking a position on the BoD. Spaces are provided for write-in votes for each office.

Included on the ballot is a space for you to write in your choice for the Ted Vasilopoulos Award. The TVA is awarded annually to the IRCA member who has done the most during the past year to promote the affairs of the IRCA and to improve the hobby of DXing. Because of changes in the regulations governing the TVA, Larry Godwin and Don Erickson (last year's co-recipients) are ineligible to receive the 1971 TVA.

Ballots must be sent to Dave Prather, 1711 6th St. #14, Woodland, Calif. 95695
Deadline for receipt of ballots is August 1, 1971.

The candidates and their campaign statements follow in alphabetical order by office.

Office: PRESIDENT

Percy Kesteven, 13112 - 134 St., Edmonton 44, Alberta, Canada

I'm 23, single, a university grad just finishing his second year of teaching. I've DX'ed for 5 1/2 years, been a member of the IRCA for 4. I DX mostly domestics and have 550 veries and 15 countries. My record stands thus: Board of Directors (current), 2 years; Achievement Awards Committee Chairman, 3 years; Countries Committee, 2 years; Courtesy Program Committee, 3 years (1967-1970), arranged 40 tests. Proposals on the Achievement Awards Committee, taped veries, the Ted Vasilopoulos Award, and other items have kept me active in club affairs. A few special features items have been submitted and various "odds and ends" typing jobs have been done for the club over the years. I chaired a small committee of DX'ers a couple of years ago who drew up and sold 10,000 copies of a Log Entry Sheet (a private venture). It is my feeling that our club, founded to promote and communicate the DX hobby, has strayed somewhat in its aims. While not advocating a stifling "censorship", I must go on record as favoring DX-oriented material for club publication. I hope to achieve this end if elected. Cooperation with NRC on such items as CPC is essential, yet IRCA must stay independent and continue to grow.

Father Jack Pejza, 3266 Nutmeg St., San Diego, Calif. 92104

Every radio club has its strong points and its weaknesses. IRCA's strengths lie in its top-notch bulletin and in the interest and enthusiasm of its members. Its weakness, I feel, is a lack of direction and unity. Our percentage of participation is high, but much of the effort is wasted wrangling about topics only remotely connected with DXing. Our next president has the tasks of trying to re-direct this enthusiasm and to re-establish common goals so that all members overcome petty differences for the improvement of IRCA. As a director and editor for the past two years, I have gained many insights into the opinions of members; I feel I can direct IRCA in such a way that we concentrate our efforts in working for the betterment of the hobby we all enjoy. Your vote for me will indicate that you agree a revitalization is needed; with your help we can move together hopeful of more productive participation.

C.M. Stanbury II, Box 218, Crystal Beach, Ontario, Canada

I have been a DXer for 20 years. I am a contributing editor for ELECTRONICS ILLUSTRATED where my column "The Listener" has the widest circulation of its kind in the world (about 300,000 per issue). I'm also the editor of SHORT WAVE NEWS SERVICE which provides tips and background information for 10 subscriber clubs as well as POPULAR ELECTRONICS. I have the outrageous notion that DX can be something more than mere knob twiddling when used to explore the broadcast media. This often leads me into all sorts of controversy, most recently with the Voice of America over their APOLLO coverage. Those who take the VOA's statement on page 8 of the July EI too seriously should compare the Voice's coverage during the early hours (Continued)

June 12, 1971

Stanbury (cont.) of the APOLLO 13 crisis with that provided by stations like WJW (850 Cleveland), WWDC (1260 Washington, D.C.) and WMC (790 Memphis). If this is not the kind of action which turns you on, if you want DXing to remain "harmless", please DON'T vote for me.

Office: SECRETARY-TREASURER

Larry Godwin, 5421 S. Clinton Ct., Englewood, Colorado 80110

I have been very pleased to serve as Secretary-Treasurer for the last two years. If re-elected, I shall continue to keep the financial records of the club in good order, and promptly advise the President and the Board of Directors of financial matters requiring consideration. Although postage rates have increased, I would prefer to see the club dip into its accumulated profits of \$1,500 rather than increase dues before September of 1972. I am a CPA and have an MBA degree in accounting from the University of California, Berkeley.

Office: BOARD OF DIRECTORS

Frank Aden, Jr., 5805 Flamingo Drive, Boise, Idaho 83704

Since I am running for a Board of Directors position, I think I should reintroduce myself. I am 17 and a sophomore in high school. I have been a member of IRCA for two years. I DX ECB, TV-FM and SW. If elected to the Board of Directors, I will push for better relations between members (which is needed badly) and better improvement of the club as a whole. I feel that a merger with any club is wrong by defeating the main purpose IRCA IS based on. I feel that censorship is wrong (except for obscene words). Any one should be able to state his opinion. I believe that we should stress for a more democratic IRCA and to keep IRCA a democratic club. Better relations and co-projects are needed with other clubs and a committee should be set up for this. If elected, I'll do my best to be a good board member and do my job to the best of my ability.

Lynn D. Brooks, Box 253, Ponca City, Okla. 74501

As a nominee for the BoD for IRCA, I would like to solicit your vote. I am 28, a graduate electrical engineer, DXer for over 5 years, member of NRC for 5 years and IRCA for 4 years, editor of MMDXF and/or MWDXR for over 3 years, and have served as a BoD member of IRCA for over two years. I think and hope that you will agree that the above qualifications give me the experience and knowledge on which to base my decisions as a member of the BoD. In these times of considerable turmoil within the IRCA, the club needs a BoD with MAJORITY and past experience in club operations so that sound, intelligent decisions can be made. Only through doing some of the club work can a person really understand the operation of the club and vote for the club's best interest on proposals. Please consider carefully your vote. Let's vote in a BoD who will uphold the IRCA's reputation within the DX hobby. As a current member of your BoD, I have always tried to vote so that the best interests of the club have been served (which at times caused me to vote in opposition to my own personal feelings). If elected to the BoD, I will continue to vote only for your best interest. Please vote!

Quentin K. Brown, 59 Kenilworth St., Ottawa, Ontario, Canada

For the past four years I have watched the progress of our club from an isolated point on the fringe of the DX community. I have seen our club survive several controversies, notably the merger, survey chart and the more recent censorship issue. I firmly believe that, despite the controversies which seem to be an integral part of the IRCA, our club shall continue to flourish and if elected I shall feel honoured to play a part in the progressive development of our club. Ladies and Gentlemen, good list'ning!

George Bryson, 8762 Hosmer, Detroit, Michigan 48214

I am running for the BoD because I think that I may be able to help the IRCA get better and better in this way. In other words, instead of being a loudmouth (Cont.)

June 12, 1971

Page 7

Bryson (cont.) all the time, I'm going to try to do something to remedy any problems that may arise. But I'd also like to stress something, when an issue comes up to a vote by the BoD, I want to receive letters from members giving me their opinions. How can I represent you members fairly if you don't tell me what you want or think of an issue?

Michael Daniels, 225 E. Glendale Rd., Webster Groves, Mo. 63117

My name is Michael Daniels. I here by accept the nomination to run for the IRCA BoD. I've been a fairly active member of IRCA for about 1 1/2 years. I am not a top DX'er like most of my opponents. And I don't have a big name like my opponents. So I appeal to the average member of the club who doesn't have a big name and that aren't the top DX'ers in the club. This is the chance for the average member of IRCA to get his or her say in how the club should be run. Just give me a chance.

Gary D. DeBock, AdCom, NTC, Great Lakes, Ill., 60083

It is very unfortunate that the concept of independent IRCA leadership is treated so contemptuously by many of our current elected officials; the allegiance of certain figures in the IRCA government towards the concepts and philosophies of another club appears to have hindered implementation of reforms which the membership as a whole supports, but which conflict with the philosophy of this other club. Independent IRCA leadership would do much to ensure that the DX MONITOR is not manipulated and biased by an outside group, and that new proposals would be treated fairly and given attention for their own merit. If elected, I would work to make the bulletin a more impartial publication and more relevant to our purpose of accurate dissemination of DX information, regardless of how the other club operates. Independent leadership concerned only with the IRCA could do much to make our club a leader in its field, and make our legislative process more responsive to the individual member. Your vote will help to ensure that our democratic government is developed, and not suppressed.

Donald E. Erickson, 6059 Essex St., Riverside, Calif. 92504

I am pleased to seek election to the IRCA BoD. In 9 years of BCE DXing, I have heard over 900 stas from 42 states and 28 countries with veries from about 450. Main DX interests are Mexicans and graveyarders. On the personal side, I'm 24, single, and employed as an Addressograph machine operator. If elected, I pledge only to continue trying to improve the IRCA bulletin and to seek improved co-operation with other DX clubs. My platform includes no changes in government operation nor do I seek election as an advocate of "free speech"; rather I will pledge myself to support responsible expression of divergent opinions.

Richard C. Evans, Box 2146, East Chicago, Indiana 46312

Having been fairly active and vocal in the past two years, I think my feelings on most things are fairly well known. If elected, my votes on matters will be cast with an eye for the future as to how things will be affected, but tempered by experience gained by being a member of the IRCA since early 1965. I think the way I have handled the MWDXR this past year reflects my capabilities and the fact that I am interested in keeping the IRCA high in terms of passing on good DX info. For those interested in DX totals, I have, for five years in northwest Indiana, stations 1177/650, states 48/47, provinces 8/5, countries 28/9, continents 4/3. Try to evaluate all the candidates carefully before voting. 73.

Ray Hartman, 19330 W. Pinecrest Lane, New Berlin, Wis. 53151

Hi gang. With the following statement, I accept the nomination to run for re-election to the BoD. During the past two terms on the Board, many issues have come and gone and in the process, I hope that I have served in the best interest of IRCA. By way of reintroduction, my age is 24 and have been an active member of IRCA since first joining in Jan., 1965. In '66, I helped host the Milwaukee convention, and have attended the '68 convention in L.A. and '69 in Chicago. I have a degree in business administration from Carroll College and am in management training at Red Owl Food Stores. (Continued)

June 12, 1971

Hartman (Cont.) DX statistics include 50 states hrd, 49 verified, station total hrd 1155, 418 verified, and foreign totals at 133/22. Before voting, I hope you consider each candidate intelligently and vote for the ones that will serve IRCA best for the next two years. 73.

Glenn Hauser, PSC Box 42309, Kelly AFB, Texas 78241

Since joining the IRCA, I've found it^a very friendly and progressive group of people. I'm honored that someone chose to nominate me for the BoD. If elected, I shall try to help along IRCA's maturation, which is already pretty far along. Many of you know me and what I stand for, but I'd like to emphasize a few points. DXers are a tiny minority, so it's silly for us to be constantly bickering among ourselves instead of striving for some degree of unity. For this reason, I fully support ANARC and the so-called "DX Establishment". A fervent believer in Free Speech, I nevertheless feel that profanity, personal attacks and other non-DX matters are a waste of valuable space in the DXM and should be voluntarily "censored" by the members. We should not lose sight of IRCA's prime function: to disseminate DX information. The experience I've gained from actively participating in IRCA and several other clubs should be of some value on the BoD. Finally, I believe it is more effective to lead by example than by exhortation. Thank you for your support.

Steve Kamp, 6149 Monteverde, San Jose, Calif. 95120

During the past few months, the membership of the IRCA has seen much censorship, by our Editorial Staff as well as our Publisher. Our Publisher has spilled correction fluid on many legitimate comments. Our Editors have also had to enforce several "censorship clauses" of the Editorial Policy which have no business being there. If elected, I will do everything within my power to bring about the stoppage of this arbitrary, senseless censorship that the IRCA has had to put up with lately. The only thing I will allow our Editorial and Publishing Staff to censor is libel and slander, and a watch will be put on them by the IRCA Govt. to make sure they aren't censoring anything else. In sum, a vote for Steve Kamp and any and all "free speech candidates" is a vote for a better IRCA. I solicit your vote. Thank you.

Don Kaskey, LGAE, Box 235, West Sacramento, Calif. 95691

I thank those of you who nominated me. I will be a candidate for the BoD and stand on my record of the past two years.

out of order: Bill Lipis (see last pg)

Paul S. Lotsof, 276 Nassau Ave., Kenmore, New York 14217

Over the past few years, our present establishment has worked hard to create the impression that I am a radical. This may well be accurate. My more outlandish ideas include the notion that our elected leaders have a responsibility to follow our Constitution and Lylaws. Another extreme notion of mine is that a dues paying club member ought to have the freedom to express himself in DX Monitor without unnecessary censorship. I further believe that a majority of our present "leaders" are unable and unwilling to try out new ideas which could enable IRCA to become the leading medium wave DX club. If I am elected to the Board, many of our present administrators will be very annoyed. Let's annoy a few people, and in so doing, secure the progressive leadership that our club deserves. Thank you.

Grant Manning, 4034 Ingraham St., San Diego, Calif. 92109

Fellow DXers. I have been a member of this club since Sept., 1969. I have learned much from it, and really enjoyed my membership. I have also done my best to constructively help others obtain the same knowledge and enthusiasm for the hobby that I have. I do feel there is room for improvement in several areas of the IRCA. I believe that it is the difference between having a person, and a person who cares doing a specific job, whatever that may be. If I am elected to the BoD of the IRCA, I will do my best to improve what we all joined for: DX, and improvements on disseminating the same. I feel that I care, and I am willing and able to help. I hope for your vote.

June 12, 1971

Tom McCormack, 275 Littleton St., West Lafayette, Indiana 47906

Page 9

With your support I will do my best to serve as an efficient BoD member. This is YOUR club and if I'm elected I'll represent the ideas and voices of YOU. I hope to instigate many profound changes and improvements through your help, if I'm elected. A large concerned majority of IRCA members are being ignored, and their opinions are oppressed. But I also think it is very important to keep a good balance of DX rather than just pointless controversies. It appears to me that the work load is not spread out enough, with too few members doing too much and too many doing too little. I take a firm stand against taped "veries", and think they are tape-logs, and is not an authorized verification from a BCB station by any stretch of the imagination. I also very much favor changing the procedure of reporting to DXR & DXF editors, from time zones to the more practical state boundaries. Let's all help make IRCA the club it should be!!! Tnx.

Michael B. Northam, 1608 NE Knott, Portland, Oregon 97212

During the past four years, I have been privileged to serve the IRCA in two elective positions. The press of personal matters precludes my running for an additional term as IRCA President, however, I am very pleased to accept the nomination as a candidate for the BoD. My philosophy regarding the club government remains essentially unchanged: if elected, I intend to work for the promotion and advancement of the hobby of BCB DXing, through close cooperation with the ANARC. I hope to participate in a strong, dynamic IRCA government which will be responsive to the problems of the membership and to the potentials of the hobby.

Gary Nuthals, 1155 Mather St., Green Bay, Wis. 54303

Since joining the IRCA two years ago, I have seen it grow into a well run and informative bulletin. However, in the past several months an increasing amount of criticism has been leveled against DEE. I feel some of it was justified but I'm not joining the free speech movement. If elected, I will submit proposals to restrict the opposing factions. This is a DX club and it should be mainly DX - not satires and other useless articles. I believe in upholding traditions of this club and the convention issue is one of them. I came out in favor of taped veries more than a year ago. Recently I opposed the use of GMT in the Domestic parts of the bulletin. I am 18 years old and will attend UW-GB this Sept. I have served on the CPC, and have contributed to the MWDXR-DXF, PoM, SoM, CoF, RVL, Sports Network, and the IRCA f/c list. If elected, I promise to serve in the best interests of the members and the club. This is your club - do you want DX info or constant complaining? Your vote will make the difference, use it wisely and above all VOTE whether for me or the other candidates.

Bruce Portzer, 14056 5th Ave. South, Seattle, Washington 98168

Among the qualities necessary for a good BoD member are a strong interest in and enthusiasm for the IRCA and BCB DXing, along with a willingness to work for the betterment of the club. I believe I possess these attributes. In my five years as an IRCA member I have been a regular contributor to DXF, DXR, & DXWW, along with PoM, the CoF, and f/c lists and other club features and activities. I am a former CPC member, have done memcom work at KOMO and am presently DX Records editor. I am 19 years old and have been BCB DXing since 1964. I have attended Highline Community College for the past two years and will transfer to the Univ. of Washington next fall with a major in Electrical Engineering. I am pleased to accept the nomination for board member. I favor a spirit of "friendly competition" between clubs and "free speech" in DXM except in the case of mudslinging, swearing, and the like, where I support the editors' rights to edit. If elected I will do all I can to see that IRCA operates efficiently and economically, growing and prospering as it has in the past.

Ron Schatz, 510 NE 158th St., North Miami Beach, Florida 33162

My fellow DX'ers and club members: I humbly and gratefully accept your nomination of me as a Director of the Board, and I welcome this opportunity to serve you in such a position after having been for 7 years a Charter member of IRCA. While most candi-

June 12, 1971

Ron Schatz (cont.) dates in these several pages are trying to tell you how great they are, I must tell you how great YOU are. I believe in you, and for good reason: Only YOU know what's best for IRCA. While candidates may express opinions, it is you who exercise the final power - by failing to be active in the club, or even failing to renew your membership, if we in turn fail to give you your dues worth of DX information and reading pleasure week after week. Isn't that what really counts to you? - whether or not you are getting at least \$9.50 worth of DX club every year? If you allow me to be your representative I will consider all legislation primarily with that question in mind. I will also vote on all issues with never an abstention, and I will vote as YOU want me to, even if it counters my own personal views, (for would you vote for me again otherwise?). Please help me guarantee a good investment of your membership; I humbly solicit your vote.

Phil Sullivan, 152 Third St., Leominster, Mass. 01453

Since joining IRCA 6 years ago I have seen many things happen in this club, some good, some bad. I would like to do my part, as a member of the BoD, to provide sensible leadership for the IRCA in the coming 2 years. For the benefit of those who may not know me, I am 27, an electrical engineer and have been DXing the BCB for almost 7 years. To set a few points straight, lest anyone try to distort my position: While I am for better relations between IRCA and NRC, and while I realize that there are many advantages to a merger of the two clubs, I am totally opposed to any merger now and for the foreseeable future - the disadvantages outweigh the advantages. Let me close by urging all IRCA members to vote (for a democratic club its membership is very apathetic, usually only 50% of the members vote) and I hope you will give me one of your votes.

George W. Tanner, 8349 E. Cypress, Scottsdale, Arizona 85257

Needless to say, I am seeking one of the seven positions on IRCA's BoD. I am 23 yrs. old, currently working fulltime at Motorola as an electrical engineer and part time as an announcer at Radio Station KSWW, 1250, in Wickenburg, on which I, along with IRCA'er Paul Lotsof, conducted a highly successful DX test last Oct. which was heard by almost 20 club members. I have been a member of IRCA since 1967, having served for two years as Election Committee Chairman and currently serving as editor of IRCA's Conditions of Frequencies List. During the past two years, IRCA's very foundations have been shaken with arbitrary censorship by DX Forum editors and correction-fluid-spilling by the publisher. I, by no means, favor slanderous comments or swearing in our bulletin, but I firmly believe that a person's right to air his views should be honored. Without this, our club loses one of, if not its major, feature over any other DX club in the world. Staying on top is a tough job for those leading the way, but IRCA has done it before and I'm confident it will do it again. I only ask for your vote on June 15. Thank you.

Frank Waldron, 65 Lakeridge Drive, Matawan, N.J. 07747

If elected, I shall endeavor to improvise and upgrade those precepts which our precursors have deposited upon us. Insipidity, a prevalent force in many of our lives, must be averted. I pledge to do my best to eliminate insipid perspectives of club culture. All of us possess a certain degree of individuality, an individuality that should be manifested in the pages of DX MONIROT (sic-dp). To be tacit is to be insipid, to be insipid is to be depraved in the functions of the mind. Strive we must, yes, striving together toward a common goal, unified against malevolent powers that seek to deprive us of the pleasures destined for humanity. Also, vote for me because I'll do one grok of a job.

Dr. Richard E. Wood, Louisiana State University, Baton Rouge, La. 70803

If elected, I will fight to bring IRCA back into the DX mainstream by an adherence to the principles established over 50 years of the DX hobby. We have strayed from these by introducing "tape verifications", a travesty of the meaning of the word "verification" which is something emanating from the station, not from the DX'er. Does a ham verify his contact by taping it? Let the Club get out of its dream world, (Cont.)

June 12, 1971

Page 11

Wood (Cont.) live up to its name "International" and adhere to the world-wide accepted standard. I favor most of present editorial policy but will fight to delete Editorial Policy III.L. We are DX'ers, not legal experts, and know nothing of the legal status of any station we hear. The membership is entitled to expect full information on each and every station of interest. Next, we are a broadcast band club, and I favor a clear definition of our coverage as broadcasting stations directed to a general audience, as distinct from code stations or other non-broadcasters which may stray into our band. Finally, I favor cooperation with ANARC to publicize DX and hold all-band DX conventions.

Mike Worst, 5903 Greenwood Ave. North, Seattle, Washington 98103

Hi gang. As I've decided to run for the BoD I would just like to say a few words. I'm a charter member and have also been the chairman of the Country List Committee since the club started. I've also been compiling the FCC station changes for the last few years. I feel that the club should be run on strictly democratic lines, and the Constitution and Bylaws should be followed at all times. I think we have a set of documents that work for us better than any other club's. 73.

Bill Lipis, Box 325, El Cajon, Calif. 92022

Those who have been IRCAers for the past few years know I am far from a newcomer to club administration. I have had previous experience as a Board member and I served as Publisher of DX Monitor for nearly two years. I think that the hundreds of hours which I have devoted to IRCA are ample evidence that I am willing to contribute more than my share of time and energy to club affairs. I am a Charter Member of IRCA, having joined the club when it was founded in 1964. Over the past seven years, I have watched our club survive many a crisis and it has been my observation that most of our dissention has revolved around one cause: "leaders" who refuse to accept the fact that IRCA is and ought to remain a democratic club. It is my firm belief that if we are ever to achieve unity in IRCA, it will be necessary for us to elect an entire slate of officers who are willing to abide by our Constitution and Bylaws. Moreover, our members deserve the right to express ourselves in DX Monitor. If you elect Bill Lipis to the Board, I shall devote my full resources toward giving IRCA the imaginative, democratic leadership which we so very much need. Thank you.

ALL BALLOTS SENT FIRST CLASS At Steve Kamp's suggestion (DXF, 6/12/71), in order to eliminate the need to replace missing ballots caused by lost, delayed, or returned third class bulletins; all ballots are being sent out in this separate packet by first class mail to all. Exceptions: new members for 6/12 issue will receive w/regular bulletin. Those sent overseas will also go with regular bulletin. This method of mailing part of the bulletin early (pages 5 through 16) is meant to alleviate any doubt that every member will receive a timely ballot. Some members have yet to receive the early April issues and it often takes 4 weeks for a returned third class bulletin to reach Riverside.

SEND BALLOTS TO DAVE PRATHER ONLY Please mail your ballots with sufficient postage to Dave Prather, 1711 6th St., Apt. 14, Woodland, Calif. 95695. And please don't put it off so long that you forget all about it. Shall we try for a record participation this election? YOU can make it possible!

Mail this form (see other side) to: Dan Myers
2650 104th St.
Toledo, Ohio 43611

TRANSPORTATION TO Toledo: If you are able to accept riders (to share expenses or otherwise) or need transportation, please send DEE your name, address, telephone number and any details. These will be published in June, July, and August issue of DXMs. Let's all make plans to be there.

NOTES ABOUT THE TOLEDO CONVENTION 6-12-71

When you read this, the 1971 Toledo IRCA Convention will be little more than two months away! Therefore it would be wise to begin planning for vacation days from work, and making any other plans and arrangements that may be required for attending the Convention. We have made some of the arrangements and set up some of the activities for the convention, and hope to have everything finalized in time for publication in the July bulletin.

The Convention will take place at the TOWN HOUSE MOTEL, 1111 West Bancroft St., near downtown Toledo. Arrangements have been made for the Convention room and the banquet, and a block of motel rooms will be reserved especially for persons attending the Convention. Room rates have been finalized as follows (ALL: Double Beds):

- One person in a room.....\$13 (THESE ARE NIGHTLY RATES!!)
- Two people in a room.....\$17 (or, \$8.50 apiece)
- Three people in a room.....\$18 (or, \$6.00 apiece)
- Four people in a room.....\$20 (or, \$5.00 apiece)
- Five people in a room.....\$22 (\$4.40 apiece. Two beds and a cot.)

As you can see from the above, it will be much more economical if you group several people together into the same room.

The other convention costs (besides transportation) will be registration and the banquet. Unlike most previous conventions, there will be a choice of THREE different main courses for the banquet, so everyone attending will be able to order something he likes. Each individual may opt to eat any one of the following entrees:

- French Fried Shrimp.....\$4.50
- Swiss Steak.....\$4.25
- Country Fried Chicken.....\$3.75

Total registration costs will probably be the price of the banquet (depending on which meal a person chooses) plus an extra \$2 to cover refreshments as well as supplies costs and mailing costs in preparation for the Convention. This extra \$2 charge, however, is not yet firm and definite, and could change slightly in either direction depending on how these miscellaneous expenses run. These will not be paid until Convention time, nor will the room charges, so no money need be sent through the mail.

We must have an accurate indication of who will be coming (i.e., how many people will show up) and how they will be arriving, banquet and rooming preferences, etc., by TUESDAY, AUGUST 10TH. However, we also recognize that some persons may not be able to finalize their plans on attending even by that late date - and we will try to provide room for those people who will not know until the last minute. People who wait until after August 10th to get the registration in our hands may run the risk of not being served at the banquet, as banquet arrangements with the motel must be made then. Though the motel is not hard to find, maps showing how to get here will be mailed to all people who make plans to attend the 1971 TOLEDO IRCA CONVENTION!

Definite Convention activities now include Saturday tours of WTTO and WTOD, the IRCA baseball game, and THE AUCTION! We are still awaiting replies in response to requests for tours at Detroit radio stations.

Below, you will find a form to be used to notify us that you will be attending the Convention. If you plan to attend, please fill out the below form and send it as soon as possible! Please answer all the questions and fill in all the blanks. In addition, on a separate piece of paper write your name and address, and STATE WHICH TYPE OF ROOM YOU PREFER (how many occupants), SPECIFYING THE NAMES OF ANY OTHER PERSONS WHOM YOU WISH TO ROOM WITH. Send that and the below form to the address shown below.

CONVENTION REGISTRATION FORM SEND TO: Dan Myers, 2650 104th St., Toledo OH 43611.

Your name: _____ Telephone #: (A/Code _____) _____
 Street address _____ City _____ State _____ Zip _____
 What day will you arrive? Check one (if known): Thurs. ___ Fri. ___ Sat. ___ Sun. ___
 What time EDT? (if known) _____ M Check one: Plane ___ Bus ___ Car ___ Boat ___
 Will anyone else be coming with you? _____ //Other(specify) _____
 If so, please list other persons who will be with you:

BANQUET - Which do you prefer? Shrimp _____ Swiss Steak _____ Fried Chicken _____
 DID YOU PUT YOUR NAME & ADDRESS & ROOM PREFERENCES ON ANOTHER SHEET? DO IT NOW!

 BH Bill Harang, San Jose CA
 PM Marty Megacycle, Warrenton OR
 MH Mike McCullough, San Jose CA HA63A

Note the following: CJCI 620 is a new station operating with 10KW from Prince George BC, supposed to have been in operation for a year (?) anyway, it isn't in any logs, and ought to clear up the UNID's of the past couple of months...I thought you were all crazy... (Tnx to PM for that) BC-221 and LM Frequency meter owners, rejoice! See the May issue of 73 Magazine for an excellent article on transistorizing your freq meter. Very little work involved! Noise blanker fans: two good circuits available in the March issue of CQ magazine, both are IF noiseblankers, and require a bit more than a diode across the audio, worth your while if you need it. Car radio DX nuts, hop it up next issue of the MONITOR. Old radio fans: an excellent exhibit of old radios on exhibit NOW, FREE, in the Aerospace Museum, Balboa Park, San Diego. They also have a command set that spent 26 years in salt water off San Diego, until they pulled the plane it was in up a few months ago...not much left. IRCA welcomes Jim Critchett, another San Diego DXer since 1935 (!) He's got a few veries anyhow...

=====Week of May 2-9=====

580 CKUA AL Edmonton strong w/end of classical mx pgm, then
 s/off 0508 4-30. (GF)
 630 CHED AL Edmonton fair w/RR and local spots 0447 4-30. (GF)

- 1590 KCIN CA Victorville 1640 4-28 w/CW & ID's, good sigs. (EH)

Have never formally introduced myself, for those who are wondering... 25, married, and have a two year old son. Electronic technician by trade, started DXing in '57 on a Hallicrafters S22R, have been BCB only since '58, with time out for USN service.(FTG-2) Currently, totals are slightly over 500, with a few unusual (to me) veries, due to high cost of postage! Receivers: RBM-3, ARB (standby's) a Heath/Collins (front end, mixer Heath, IF strip Collins) GR-78, and a double conversion 'Command Set' setup, for main receivers. I use a three foot box altaizmuth loop with a three stage differential (balanced) FET preamp, plus NS, and EW longwires, both 30' high, 60' long. Goal: ownership of a commercial broadcast station. Not used to my 2.1KC mechanical filter IF strip yet, but it will be at the Riverside DX meeting, I think this is the first time I've had a IF strip that cost more than the receiver! I use 2 @ \$60 ea...

Thanks to:

- RC Randy Cook, Long Beach CA ARB
- GF Graham Fleck, Victoria BC
- EH Ed Haden, Rosamond CA DX-150
- BL Bill Lipis, El Cajon CA HQ-129X
- GM Your editor, ARB etc.
- RS Ralph Sanserino, Huntington Beach CA ARB

Geoff Fox and Marc DeLorenzo - Geoff Fox's address is is 519 Second Avenue So., Lake Worth, Florida 33460. Geoff left on vacation and forgot to notify the PO; they returned "moved left no address" everything sent him after ten days. Marc DeLorenzo is temporarily at 814 Rosedale Avenue, Lafayette, Calif. 94549. Big George Kelley is reliably rumored to be in Colorado. Another reliable rumor: Make plans now to attend the NRC Convention during Labor Day to be hosted by a well-known ERBA Leader in a well-known Northern California city. And Toledo is "where it is" two weekends prior to Labor Day. Will Don Erickson be the only SoCal member there? Let's hope not!

Discount on WRTM and World Publications See page 32 for the list of materials available at a discount through IRCA. All orders MUST be in by Monday, July 12, and all must be sent to Larry B. Godwin.

CONVENTION TRANSPORTATION (A regular section for June, July, and August DXMs) Allen W. Ogrizovich, 2429 Schrage St., Whiting, IN 46383, 219-659-5749, would like to leave Th PM or Fri AM preceeding convention. John Zondlc likewise. John's address is 6617 Maryland, Hammond, IN 46323; tele is 219-844-7404. Andy Bolin, 709 Lincoln Ave., Charleston, Ill. 61920, can leave anytime. If you can help a fellow IRCA member with transportation, please contact him directly. If you would like transportation, send a card (only) to DEE for publication in one of the upcoming issues. Address, phone, dates you can leave or must return, etc. Add one more to list above: Don Erickson, 6059 Essex St., Riverside, Calif. 92504; ph 714-688-6010; needs transpo to conv. only; will pay all gas, misc. expenses.

=====

OK group. All I did was send out 20 post cards encouraging members to report & look what I get. Wow? Brh will not be home to type the next ECDXF section so send all reports to me if you want them to appear in the 7/17 issue, and please group, not quite so many this time! Don't forget to get your tips off soon to Quentin for the Iowa & New York SoM sections. New members; there is (or would be) a copy of a SoM section in your NMP to give you some idea of what the section is. Also my congratulations go out to all of you. You have mastered putting things in frequency order, now try putting the stations in alphabetical order! About half of this section was done cut-and paste, but this was messed up because one member who should have known better did not double space between tips hi. - DF

Remember to send all reports for the 7/17 issue to me by /79 - DF

THANKS FOR MAKING THIS ISSUE MY BIGGEST YET GO OUT TO;

Dave Faulkner - 1430 Pine Grove Avenue - Port Huron, MI 48060

Correction in last issue; RAC & not BCL sent the tip on WCNW. I decided that I didn't have enough stations for May (5 seemed a bit too few) so I decided to add a few. 8 stns were received on 5/30, SM and 6 on 5/31, giving me 19 for the month, as compared w/33 last may. This leads us to the idea of Sunday DX. FM commented in a note to me that most locals are not on until later than usual on SMs and that, this and next month, daytime conditions will have begun before many locals sign on. Channels are quite clear and many stations that are on can be recieved easily. This holds especially true in Michigan and in states bordering on areas where time zones change. Even 0700 & 0730 s/ons at 1450 in the eastern time zone can now be heard here because local WHLS does not sign on until 0700 EST, which Michigan is on, or, 0800 EDT, resulting in good DX at 1450. The same holds true at 1380, 1530 and 1590 here. Other places will probably find cx much the same. So if you want a few stations try when static is lowest and cx are best, SM 0500-0800 & watch the totals go up. (then report these new catches & make another huge section. Worcester loop had a broken wire, but that's fixed & it works as good as ever again. 73s.

Paul R. Daplyn - 94 Mortimer Avenue - Toronto 355, ON CANADA

Toronto BCB stn formats; CKEY 590, 247 Davenport Rd. Toronto, 180 is NSP w/MOR & pop mx. Sends v/l. CBL 740, 254 Jarvis St., Toronto 200 has CBC EE pgms 0500-0100. Sends standard CBC v/q. CJBC 860 (CBL address) has CBC FF pgms 0600-0100. Sends standard CBC v/q. CFRB 1010, 2 St. Clair Ave. W., Toronto 195 is NSP w/MOR & pop mx. Sends v/q & v/s is C. Eastwood. This stn has a bad habit of verifying SW reports when acknowledge BCB rpts. CHUM 1050 1331 Younge St., Toronto 290 is NSP w/rr. Sends v/q. CKFH 1430, 1 Grenville St., Toronto 189 has rr & is off 0100-0600 Mon-Sat & 0100-0700 Sun. to allow conversion to 50kw. When work's done will probably be NSP again. Sends v/l. CHIN 1540, 637 College St., Toronto 174 is a daytimer w/international pgms. In EE, Italian, sends v/l. CHFI 680 13 Adalaide St. E., Toronto 210 is NSP (off MMs irreg) w/MOR & pop mx. Sends v/l. Incidentally CKFM, CFRB's FM, aired Canada's first quadrasonic stereo best 5/22 which was compatible w/reg. stereo & Mono rx's. Pgm was taped Aurthur Fiedler concert. 6/2

Jim Catterfeld - 3765 Conklin St. - Saginaw, MI 48605

5/29 - 6/1 Hi. This is my first report since joining the club the first of the year, so I guess that calls for an introduction; I'm 16, go to Douglas MacArthur H. S. and have been DXing for about a year. My totals are 89/57, 29/25 3/2, but this sould improve after Brh & DF visit the 23rd and getting a copy of the "Broadcasting Yearbook." I decided to start working on the daytime stns finally so that should also help my totals. Latest veries are; v/q WKNX/WAKR/WTVN/CFCO/WPTF, v/l CHLO. Well that's all for this time so 'til the convention - 73s.

Jim: Welcome to ECDXF & 940 stn we hrd u/WTDG was WJOR. South Haven MI-LD

Editor: Bruce R Heimbürger - 817 Rawlins St. - Port Huron, MI 48060

Deadlines: 7/8, 8/6, 8/27. All ECDXFs to DF for JULY ISSUE ONLY!!!

.....

Ronald F. Schatz - 510 N.E. 158th St. - North Miami Beach, FL 33162

Greetings from Tropical America! I have received numerous inquiries re the Loop-Sensor Cardioid Array over the past several weeks, all of it tensely enthusiastic. Many of our newer members are confused, however, as they seem to think it's the ultimate in figure-8 loops! Please reread my article, "LSCA Pt. I". A cardioid array has a heart-shaped reception pattern, much like the surface of an apple cut in half (w/the antenna at the base of the stem). It differs from the ordinary loop antenna having only one broad null instead of 2 sharp ones. Also, the idea is nothing new, as navigators have used such arrays for decades before LORAN, etc, came along. Part II of my article, dealing w/the theory of operation, should appear shortly. I fully expect to be in Toledo for the convention - how about you? Locally, CMHQ-630 has boosted power - possibly up to 150kw. Its daytime signal here is crystal clear & hiss free, yet is still 220 miles due South of NMB. For AT&T clients, I'm home Wed. & Thurs. eves only - at AC305-945-4915.

Robert W. Buddenbohn Jr. - 2603 Evergreen Ave. - Baltimore, MD 21214

5/27-5/29 Greetings Everyone! DX fair these days, but I've laid off slightly, due to many factors: school, work, fun. Glad to se MD membership growing; MD now has about 15 members; let's see them all report! Had a GTG at Mitch Donock's house last week; tnx for a fine time Mitch. Tom Garcia, Tom Hartloff, QKB, DF; tnx for cards & letters; will answer as soon as possible. Local WFBR is now 24 Hours, MM SP. Latest veries include v/q: WCPC, KNBR, KYW, WELI, WFBL+letter & CM, CBM+CBC stn List & returned RP. , WGAR, WDON+CM, WBT+mobile, history pamphlet & sch., WNEW+CM & rate card, DJ profiles. v/l: WCTW & CM, WAPE, WITH & CM & sched.(3 days TM), KTUF, WOBR, WANN+CM, WCAZ+CM, WPLB+CM. v/f: WRUN+CM, WGMS, WIBG+CM, WINE, WKOG. Hope to see ya all in Toledo. Times up so 73s & CU later. (Tnx for comments Bob, they're appreciated-Brh)

Frank Merrill - 2501 Auburn - Apartment 3 - Toledo, OH 43606

Wale, I'z back, y'all! Sat. & Sun convention activities for the Convention are already being set up, so that we should know well in advance (& well in time to publish in the Forum) all the planned activities for the weekend. Room, hotel & banquet arrangements have already been made, as well as the Auction. We hope to see all of you here on Aug. 20-21-22! The 'ole logbook has been boosted to 472 stns hrd now, w/ some of my recent better DX being YNG-555, WSDS(no kidding, this one is TOUGH), CFAC, KUUU, PJA6, KILO (on RS), WRKO!, YNW. (others edited per policy-Brh) Some details will also appear in ECDXR. I no longer try to "QSL" my hears, though some veteran IRCA members (since 1966 or before) may remember my earlier one-year stint in the club, when I used to still actively strive for QSL's. Too time consuming, & expensive. Just got back from another of my long weekend trips, which took me back to WFLW-1360 again (where southern hospitality & record collectors prevail!!), and back thru WANY,WAIN, WIEL, WJCD, WTRE, WSVL, Muncie & others. As they say in Corbin KY, WCTT - Well, Come To Toledo for the big 1971 Convention!! 73 & DX to all.

Florence Mari Cohen - Box 328 - Goldens Bridge, NY 10526

It's been a year since I joined, so as a re-intro I'm 17 & am a senior @ John Jay HS. Beginning in Sept., I'll be DXing from McGill Univ. in Montreal. I use a Halli WR-600 w/a spiral loop antenna. I belong to WTFDA as well as IRCA, & I also DX the TV,FM, & SW bands. I haven't been catching too much DX recently as I've been using my spare time to QSL locals before I move. Our local WPUT 1510, Brewster, NY burned down on 5/2 & is currently off. Anyone w/SCs, CMs, bumper stickers & such to trade, please write. Peace & 73 to all.

Come to the Convention & see what I have planned for you-Brh

=====

Richard M. Bartos - 692 Moore Ave. - Campbell, OH 44405

5/11-5/12 Greetings from the Iron & steal Capital of the World. DX is now just beginning to get a little slow for me w/only a few new catches since my last report. Some catches are: WBBK, WAYN, WGUN, WKRK, & WTHE o/WINT null. Received only one verie this week, WBRC ALA. A few weeks ago my cousin spent a weekend at my pad & we really had a blst DXing on all bands. The two of us started building a new type of antenna. My cousin is a real electronic genius & he created his own plans for this antenna & the two of us built it. We didn't get a chance to test it yet but will try when we get the time. Right now its really a wierd lookingthing but a little work which I will handle myself might improve it. I'll let everybody know how it works out & maybe explain it a little better. That's it for now. 73s & Peace

Dave Whatmough - 284 Main St. W. - Hamilton, Ontario

5/27-5/29 Things look rather discouraging as far as veries go with only 2 in the past month. v/1 from WISE for test & a v/q from KCBS. Holdouts from past season include WMNC, WJDM, WSTP, WBLJ.specials + about 15 others. My closest unhrd. has changed for the 3rd time this yr. since logging WELW-Willoughby OH., in early Ap., & WBKC Chardon. I now have WWCH 1300 Clarion PA to chase after(150 miles). I haven't been doing much dial twisting lately, in fact I have missed the last 4 NMs. Too busy collecting CMs to DX. Local CHWO is still playing around w/their 10kw XR. They sent me the new CM this week & its all going North w/minor lobe S. o/Hamilton & Brantford. Totals to date 1655 logged, 844 veried - 49 states, 10 Provinces. Exactly 100 holdouts in last 6 years. Will be spending 2 wks in Newfoundland in Aug., maybe I'll string up a Beverage antenna in some campground down there. Maybe I'll hear something distant for a change. 73s for now.

Mark Perlmutter - 2 Fisher Dr. - Mt. Vernon, NY 10552

5/10-5/12 Well how do you like this, 3 reports in a row, this is a record. DX has been very gud(see DXR). My TRF is working great & have ordered the SM to make it better. AM: thank you very much for the Q-Mult. diagram. It always looks like the Ham is a newcomers best friend. Recent QSLs rcvd: WKBN v/q & WEAT v/1(best QSL from FL 1kw). Have been using a timer to turn on & off my rcvr at night. Have netted 15 stns this way. DF: thanks for the letter, but MD never wrote about the rpts so why should you? (Possibly because you're not following DFs reporting policies-Brh) Thats about it, see you next time. 73s & "Lets Go Mets"

Stephen Martin WDX3IDE - 12115 Northwood Dr. - Upper Marlboro, MD 20870

5/18-5/19!! Noticed in the 7/71 issue of EI that Tom Kneitel finally got around to answering my letter regarding the beacon "MDE". A little late, Tom, I found out about it several months ago, a week or two after I had written you. How about identifying "ENT", which no one seems to know about. I sold the SX-99 I had for sale to new member Don Blevins a week or two ago. The \$\$\$ helped me to acquire an Allied 2515A. Those mechanical filters really clear up the adjacent channels of locals. If you like SW DX, the sensitivity up toward 30 mHz is pretty lousy w/this rx though. AVC seems pretty slow too. Since I do quite a bit of SW DXing, I am pretty dissatisfied w/it. I may even return it. I got a personal letter from the CE for the WDLG DX test(if you can call it that). The signer(CE) is Henry Spahr, if you need it. Otherwise only QSLs are for some locals, WDON & WCBM. Had Don Blevins & Tom Yingling out here for a while. Just talked DX. 73s for now & hello to TY, DB, RZ, MD.

Well group, its time to editorialize again. It's about another YL member. It seems she is becoming discouraged drom DXing because certain members in her area are excluding her from their GTGs, etc. This is the 2nd case I've hrd of in the last few months. Come on DXers, GROW UP OR GET OUT. WE DON'T NEED YOU if that's the way you think!!

+++++

William T. Lount - 180 River Ave. - Patchogue, NY 11772

5/28-6/1 Hello Gang. This is my 1st ECDXF, so 1st an intro. I'm 23 yrs old, recently discharged from the Army, & am studying color TV repair w/RCA Institutes. I'm also a member of the NRC & NNRC. My equipment includes a 5 tube, 4 band Monarch (Japanese) receiver, Heathkit Q-mult., & a surplus BC-221 AE Freq. Meter. I want to thank Grant Manning for his help on the BC-221. I've been DXing on MW since 7/70 & so far my best catch is WSUN from FL. They veried in 6 days via AIR MAIL! (I only enclosed 1st class postage in my rpt). Conditions here have been fair w/occasional severe static, which will be w/us until the* summer. On 5/25, I caught WFEA, until s/off, then from under the mud came WSPD OH. WSPD is another Holiday Inn stn. I have rpts off to them both. Other regulars here lately have been WKLY-1350 & WBBF-950. By the way, my antenna is a 75' long wire, running E-W about 40' above ground. Anyone wishing information on the Q-multiplier or the Russell Antenna Booster, please write. 73s. (Nice to hear from you Bill, report often to both myself & DF.-Brh)(Ed. note-the words'end of' were left off the sentence marked by the *, sri-Brh)

Mike Muench - Sprucedale, Ontario

5/28-6/1 EST? GMT? CDST? TNT? Sure. Why not? Some QSL answerers might not know what GMT is. Some standard is needed(no pun intended) & EST makes sense. We should set our own standard period of daylight savings, since times change at different times sometimes. I suggest May 1 - Oct 31. And it is EDST, not EST. Ontario uses daylight savings. The rest of Canada I don't know. Who cares? Make all reports in EDST & if stns went(??-Brh) familiar w/it, they will be. (Mike, please be a little more careful w/your hand written rpts. I had a slight problem reading it, tnx-Brh)

Carol Schweiger - 41 Lawndale Rd. - Stoneham, MA 02180

5/31-6/2 Hi. Well, as of 5/12/71 I am 15 yrs old. To much school work & noise from our huge color TV antenna has been making it very hard to DX. Every day I either have tennis practice or plenty of homework. Latest totals: 85/64 veried, 17 states veried. Veries since last rpt: WENE, CBA WLIB+CM, WFBL, WWVA, CKTS, WKYC, WHAS, KMOX, WGAN+ 3CMs, WWL, & WFBR+CM. Regarding the 50kw situation. I feel that a beginner (like me) should start by hearing & reporting to the 50 kwers. As you get more advanced, these stns become old hat. Well, who know the Red Sox might keep 1st place by 4 games! 73s & good DX.

James Poterba - 24 Sherwood Dr. - Plainview, NY 11803

5/31-6/2 Greetings everyone. As this is my 1st report to DXF, I guess I am due for an intro. I'm 13, getting out of 7th grade, & have been DXing on & off since 5/70. I've been DXing seriously since 4/71. My best catch is KNX (veried) & best verie is WINF. We are moving to Yardley, PA in August (more on this next time) & I must decide whether to buy a HQ-200, HQ-180, or a Halli SX-133. Anyone w/these rx's pse drop me a line. (By all means choose one of the HQ line-Brh) My present rig is a Realtone Model 2540 & 75' LW. Now to DX. Latest veries v/qWGN WCAU WMEY WKBW WDRG WMMM CBL CKEC v/1 WLAM WINF WERI WRC. Totals now: 216/60, 29/26, 4/3, 7/2. 73 & good DX to all.

Leslie G. Wood - 1463 Tadmor St. - Merrick, LI, NY 11566

Hi DXers! Much to report here. Latest catches, WSBT, WRAR, & WDEL, amongst others. In logging WDEL I finally heard Del., a much, much long sought state here. New veries here - v/q WMEY, v/1 WBNF. Still out, WKBA, WSAR WOR, WJJD. Just received my 20 states veried award from Achievement Awards Committee & it looks great. Am looking forward to NY in the SoM Column. Pres. Stat's now - 468/75, 37/24, 5/2, 16/3. That's all for now. Best of DX. 73s.

My 1500' of wire has arrived from Burstein-Applebee!! All that remains is to string it & throw a switch. Crosswell, the DX Capital of MI.

.....
Paul S. Lotsof - 276 Nassau Ave. 6 Kenmore, NY 14217 (716) 876-6924

6/1-6/2!! Well, it looks as though my KPIN test was quite a success as far as DXing is concerned, but I'm not so sure if the stn was all that happy. It seems as though the test program ended abruptly when the XR blew out. Geo. Tanner informs me that KPIN missed their 1st 2 hrs of broadcasting later that morning! Ironically, during the test, Stn Man. Bud Thomas had been noting that KPIN ought to buy a new XR. I've been giving some thought to our election (ballots enclosed). I strongly suspect that there will be three kinds of voters. The 1st type will simply vote for the most familiar names such as editors & present Board members. The 2nd type of voter will make his selections on the basis of irrelevant factors like religion. The 3rd type of voter will consider the candidates' legitimate qualifications for holding office. I, for one, will consider some of the less famous names like Aden, DeBock, or worst who are really Best. 27.9.

Gary Siegel - 2728-106th St. - Toledo, OH 43611

5/28-5/29 Toledo says Thank-you & so do I, for selecting us as your convention host this year. We appreciate this opportunity & will make the best effort to make this convention a most enjoyable experience for those who attend. All of us on the convention committee are getting things ready for August. So far I have managed to get at least one stn tour arragned--WTOD; I'll be trying to get others added as well. WTOD has recently built a most modern facility after a \$75G fire leveled the stn in 1968. Their new facility has been described as a palace next to their old establishment. WTOD, by the way, will be observing their 25th ann. this summer. They said they would love to give us a tour, & of course I obliged, hi. More next time, 73s & BCNU in Toledo!

Bill Likens - 2578 Spaatz Ave. - Columbus, OH 43204

Hi all! Here's 2 mistakes & ommissions which I've so far found in the NRC Log. WMRI 860 call should be WGOM. WMRI is their FM call. Found that out when I wrote them. WHTH, Heath, OH, 250w, D3, w/address: WHTH 1000 N. 40th St., Newark, OH 43055. To whoever the 2 were who asked the following: KATZ v/led for me w/in a wk, WSUN: try for them at 0300 on a MM. I'd appreciate it if anyone could give me any suggestions on getting the following states: VT, HM, VE(??-Brh), RI. Recent veries: v/1 WEUP, WTHI, & WWBZ, v/q KNX, WMAQ, WHIS, WENO, WAKY, WTAD, WOW & WKY after 3 mos. Now h/153/90, 34/32, 3/3. Does anyone h/any info on the verie policies of the following: WARO, WCAW, WAOI, WCYB, WGST, KFH, WHOO, WXYZ, & WWOL. 73 & Good DX.

Quentin K. Brown - 59 Kenilworth St. - Ottawa, Ontario

Not too much DX has been done here but some veries still trickle in. KRSI sent a card & mentioned that they very seldom rcvd rpts from the NE part of the East. Funny, as they were in quite well. WLEA sent a nice letter. Have just rtn'd from a wk. of hitch-hiking thru the Maritimes. Saw some stns: CKBC - Bathurst is in a house. Hrd well in Europe. Null to WDRG. Nice CM. Has format of seven records in a cycle or MoR, rr, C&W, instr., jazz, rock, & 1 other. CFUN - Newcastle is MoR w/rr eves. New studios on top of grocery store. More next month. Remember NY SoM tips!

Robert A. Cohen - 1096 Endicott Dr. - Akron, OH 44313

5/28-6/1 DXing has been pretty fair lately despite a lot of static. Recent veries include WMCA, CJIC, WNOX, WPIC all v/q & CHOO, CKOC, WMVO, CHOK, WZAP, KFVS v/1. Much thanks to PRD & RCM for the Canadian postage that I so badly needed. I've started TV DXing lately & I might start DXing FM, so if any of you TV or FM DXers can give me any tips, I would appreciate it. My totals are up to 325/89. Hope to see everyone in Toledo. 73s & good DX.

 DON'T FORGET TOLEDO THIS AUGUST, IT WILL BE THE HIGH SPOT OF THE YEAR.

+++++

Donald L. Blevins - 2000 Starr St. - Edgewood, MD 21040

(2 rpts combined-Brh) Hi gang! Report No. 1 is my intro--- I am 18 & started DXing in Jan. I just acquired a Halli SX-99 & would appreciate anyone reporting to me about their honest opinion. WWL finally arrived (3rd report I ever sent) and I have since written a follow up. I have approx. 150 stn hrd w/about 50 veried. I also DX FM & TV. I have the WISE test veried & am the only Edgewood report. Recent catches are WANV Waynesboro, VA, daytime signal. Veried recent: WKOG test from Gordon, GA. I have a set up as follows: 50' LW on one side w/a 25' on the other composing a dipole on a balanced system. Please advise me on possible advantages &/or disadvantages, anyone who knows. Will someone tell me what '73' is? (It is a short way for DXers to say "until next time."-Brh) (It is ham radio lingo; literally "Best Wishes"-DEE)

Bruce D. Bennett - 82 Norman Lane - Levittown, NY 11756

Hi. I just renewed membership in IRCA so here is an intro. I'm 16, & go to W. T. Clarke HS & play hockey in a local High School League. I have been DXing since Nov. '69 & my totals are 285/116, 32/24, 4/4, 6/4. I am also a member of the NRC. Receivers are a Realistic TRF & a Guardian 5000. Monitor registration calls are WDX2RMJ & CB radio calls are KQD-7684. Recent veries: WRCP written on the top of a CM. WIBG v/l. WVOX v/q & bumper sticker. AM SCers write. 73s.

George Bryson - 8762 Hosmer - Detroit, MI 48214

5/18-5/19 Egrad. Greetings from this Region 2 BoD Candidate. I've just sent in a proposal to mbn to amend the EP & put an end to DEEs unauthorized editing of stencils sent to him for publishing. I think that the section editors are quite capable of determining what should be & what shouldn't be in their sections, & what is against the EP. (Not entirely correct, George. We editors sometimes miss some things that should have been edited. If it weren't for a final proof reader, there would be a lot more personal feuds in the IRCA than there are now.-Brh) Hey! Wanna be in on an IRCA first? If you do, all you have to do is attend the IRCA Toledo convention. It promises to be a BLAST! You proved you wanted the convention in Toledo, so BE THERE! BCB DX activities are slackening off now in favor of FM & TV DX, which is THE THING during summer. Wanna know whats new? CJOM FM in Windsor Natch!

Bruce R Heimbarger - 817 Rawlins St. - Port Huron, MI 48060

Well, as you all can probably guess, the BIG news around here is the fact that Blue Water Chapter of the IRCA will has a 1500' Beverage antenna by 6/6/71! DF, J&JR, & myself will be stringing it that afternoon, & DXing on it by SS. DF'll be using a couple of stencils just for our DX. Otherwise, I just finished exams and am glad the year is over (school-wise that is). I still haven't hrd more than a couple of new stns in over a month now. I plan on remedying that, though. My surprise, that I advertised earlier, is a quiz based on call letters & stn location. I tried it out on DF already, & he thought it was great fun. If the Toledo group accept it, the winner would probably receive one of the donated auction items for his prowess. If not, I'll come up with something. Well, that's about it for now except to remind all of you that all ECDXF reports MUST go to DF, as I will be on vacation thru the July bulletin deadline. See you in Toledo, bring your gripes & we'll hash them out. Brh clear.

No Midwest DX Forum Lynn Brooks notifies HDQ that there will be no stencils this issue for MW DXF; the deadline in Riverside was misinterpreted. They will be dated June 12, however, and appear next issue, at the start of the regular sections (just as WC DXR appears this issue).

THIS ISSUE For most, this issue arrives in two parts; page numbering is consecutive. If you renewed recently or if you are a new member, your ballot will be forthcoming very soon. Please return your ballot to Dave Prather promptly; don't put off casting this all-important ballot to elect officers for the next 2 years.

EDITOR: Richard C. Evans, Box 2146, East Chicago, INDIANA 46312
DEADLINES HERE: 7/8 8/5 8/26 9/9 9/23 10/8 then every Thursday again!

Contrary to what everyone seems to think, I have never had a policy of deleting all full-time clears. I realize that many can be hard to hear, as well as the fact that to newcomers to the hobby this is good stuff (to them) and I try to please all. While I'm on the soap box, my reporters are reminded that they do not have to arrange stns in order of frequency as I use the cut-and-paste method. I do request though that the frequency be shown for each station, as each item is cut up individually. Double space between items-single space within!

 GBS - GEORGE B. SHERMAN - 104 Pinewood Circle, Rosemount, Minn. 55068

That's it for this month. Too hot here now to DX--first week of June
 nad it's hitting 90 degrees already. Looks like a long hot summer.
 Already praying for winter. V/1 WOC-1420 KSDR-1480 KTGR-1550
 WREN-1250 V/q WNIL-1290 V/c WWRN-620 V/ppc WTHB-1550. Ballots will
 be in this bulletin--don't forget to vote. Next deadline is July 8.
 Aim for a Wednesday delivery though, as I get called into work early
 quite often. 73.

WRTH Prices and How to Order

<u>Publication</u>	<u>Regular Price</u> <u>(Sea Mail)</u>	<u>IRCA Price</u> <u>(Sea Mail)</u>	<u>IRCA Price</u> <u>(Airmail)</u>

Good to see everyone who could make it Memorial Day, also good to talk to all that phoned. Couple of questions: how many would like the WCDXR to be in PLT (either PDT, or PST which ever is being used at the time) rather than EST? It sort of makes more sense to have it in PST, since few of the EST crowd reads it...what say?? Also, how many are interested in a Labor Day meeting here in SoCal, and maybe a DXGettogether sometime this summer, also in SoCal?? I know there are more DXers out there, how 'bout some stuff??? Have a groovy summer!!! Later...

June 12, 1971

WEST COAST DX FORUM

Page 36

Editor: Bob Jacoby - 556 E. Alvarado St. - Pomona, Calif. 91767--Typed by DEE

Deadlines: Thursdays, 9 days before date of issue. Next deadline: July 8, 1971.

Steve Oster - 16080 Greenridge Terrace - Los Gatos, Calif. 95030

Hi all. Kamp and I have just thought up another controversy, hi. Its re the 1972 convention site. So far we've seen bids from San Diego and St. Louis. In keeping with "tradition" St. Louis is technically a western city, if the dividing line between East and West is considered the Miss. River. We can't think of a more unsuitable dividing line. We propose that the dividing line should be considered as going through North and South Dakota, Nebr., Kansas, etc., which would make St. Louis an Eastern city. Or, the dividing line could be 100 or 96 degrees longitude. Recent v/l's from KBEE-970, KEOS-690, KCMC-740, WKIS-740; v/f from KEWI-1440, KRVN-1010, CHWK-1270, CJVI-900; v/q from WBZ, WFLA-970, WSMB-1350, KELA-1470, CBU-690, CJIC-1050, KTKT-990; and a v/r from KTW-1250. Totals now 222/115. 1440 was a nice freq. for me last MM 5/10 with WBCM, WHDM, and KMLB. 73s and up with legitimate DX.

Dave Christensen - 3434 39th West - Seattle, Wash. 98199

Hi all. To whomever nominated me for the BoD; thanks (!), but I don't think I have the time to give the job all the time it deserves (I'll be starting college next March and w/homework, work, the contests, and some social life, I'll have a full schedule, hi), and, most of all, I don't have the knowledge for the job! Maybe in two years. V/l KGNO-1370 v/s Chuck Stark; Bruce Portzer rcvd a v/fl the same day I rcvd mine, and his rpt was almost a year old, so they have started verifying, and it appears that a f/up isn't needed if your rpt is quite old. FJP for Pres., and SD next year! 73 & good DX.

Jon E. Pearkins, Jr. - 6137 Service Street - Burnaby 1, B.C. CANADA

Hi! Next province in PoM is Ontario. Hope to see your tips soon. Last PoM-Manitoba was published in DXM Dec. 2/67 p. 13. Guest editor for that issue was Bill Lafferty; typist was mbn. To correct the LPRT list, DXM Sept. 5, 1970, p. 35, CBKB-860 and CBXF-860 relay CKSB-1050. Also, CBWB-690 Waboden (EE) came on the air in Sept. 70. Alberta and Sask. are the only parts of Canada not observing DST this year, as with every other year. Yellowknife is the official capital of N.W.T., despite info to the contrary in Capital Cities Stn List (May 1 DXM, p. 24). I would have to agree with those who feel that satirical material does not belong in DXM, but is better left to be printed and mailed by individuals or distributed at conventions or get-togethers. Got my EIDX DX awards and my opinion is that the IRCA AAC has a much better awards program, but you can't (sic-word missing-DEE) Electronics Illustrated for the price (free). 73.

C. Alan Taylor - US NavXmtrFac CAPAS - FPO SF 96658

The Chicom sts are not overmodulated as claimed in an earlier DXWW. They use forward XR sites which relay off-the-air signals which (I suppose) emanate from around Peking. They use some clipping which adds a "crispness" to audio. VOA uses the same technique to program its P.I. XRs. It uses a receiver site at Camp John Hay (USAF), Baguio where it receives off-the-air signals from Stateside VOA xr. These are sent via VHF link to Barrio Tinang, Capas, Tarlac; and Poro Point, San Fernando, La Union for transmission at those two XR sites. VOA-760 uses the same method and I presume VOA Okinawa also. Naturally, phase fades in the received signals cause distortion, which is "overmodulation" to the uninitiated. Visited VOA-1140. Uses big Continental 1000kW feeding four 0.625 wavelength towers. Present DA pattern yields 6.4db voltage gain into Indochina (more than 4,000kW, ERP!). When I was in Vietnam, VOA-1140 was always strong.

Bill Harang - 811 Nevada Ave. - San Jose, Calif. 95125

Greetings! I recently bought a Lafayette HA-63-A Communications rx. So far it works good. Has anyone got a verie or survey off WTIX-690 in New Orleans directly from the stn? If so, pse let me know. Earlier this year, I went on a trip to New Orleans. The announcers of WTIX said that they would be glad to send a Top 70 of 1970 survey if you send a SASE and live out of town. I sent them a SASE twice and still haven't rcvd a survey off WTIX. I don't like WTIX's survey policy. I think it is bad business. This stn apparently doesn't care about its listeners. Recent veries: v/l: v/l KFLI-1240 Mountain Home, Idaho (v/s Dick Scott); KREL-1370; v/q WWL-870, KGEM-1140, KPNW-1120, KFAB-1110, CBR-1010, KGBS-1020, KOA-850; v/f KTAR-620 and CKWX-1130. SCers and Tapesponders are welcome. 73 and down w/fake stns.

June 12, 1971

Dan Sys - 149 W. 26th Avenue - Vancouver 195, British Columbus - CANADA

Hope everybody's having a great summer. Yellowknife is officially the capital of N.W.T. and CKRW-610 Whitehorse, Y.T., wasn't on the Capital Cities List. The CRTC will hear applications for several new B.C. AM stns this month, one in Kelowna and one in Rutland. Now bad news, I was listening to a CBC show and they said Canada's SW outlets will be increased from 50kw to 250kw, and the CRTC is thinking about the same thing for CBC AM outlets. Let's hope this is just a bad rumour. I couldn't picture what it would be like trying to DX. Canadian postage increases to 8¢ on July 1st; at first it was 7¢, but things change. Local CJOR has dropped all C&W and is 13 hours open line, 11 hours MoR on weekdays and 24 MoR on weekends. CKWX will be carrying football this season, instead of CKNW. OK, you Seattle freaks, how about a 1972 convention. Meanwhile, I'll see you all in Toledo (somehow). Peace and long live the CBC.

Glenn Hobbs - 1072 Carolyn Ave. - San Jose, Calif. 95125

Greetings IRCA! I finally got a communications rx. It is a Hallicrafters SX-100. The rx will pick up from 540 kHz to 34,000 MHz. I have rigged up two antennas when I got it. One is a 150' LW. The second is a two foot loop. I am starting to write for veries now. My first veries are v/1 KMBY-1240 v/q KFTWO-1030, KOMO-1000, KNBR-680, KPNW-1120, WLS-890 and KOB-770. Still no answer from KFI-640. I have been waiting for a month. I haven't been DXing lately because of bad atmospheric conditions. So I have decided to DX Short Wave, CB and Ham. In regard to my Forum Report on May 15, 1971, line 3, a word was left out and that is alot between spend and money. Line 5, also, a word was left out. Better between getting and around. I DXed 5/31; there was too much static. I got no new stns. 73 & good DX.

Steve Kamp - 6149 Monteverde - San Jose, Calif. 95120

In this issue, ballots will be distributed for a very crucial IRCA election. This election must be conducted with the highest standards of ethics. UNDER NO CIRCUMSTANCES should DON ERICKSON, or anyone else other than the ECC, be permitted to issue any DUPLICATE BALLOTS. UNDER NO CIRCUMSTANCES should DON ERICKSON, or anyone else other than the ECC, be permitted to NUMBER ANY BALLOTS. UNDER NO CIRCUMSTANCES should DON ERICKSON or any other unauthorized person be permitted to give the members the rights (sic-DEE) to CHANGE THEIR BALLOTS. If someone other than the ECC does any of the above, it would be in violation of our Bylaws, and constitute (sic-DEE) an irregularity in club policy. If the ECC does any of the above, the election will be a farce. Also, UNDER NO CIRCUMSTANCES should the ECC divulge any election information to anyone else. The only exception to this is information on the (sic-word missing) who have been nominated to the various nominees. 73s - always three spots in a row on K-FaRCE Radio-610, hi.

H. John Clements - Route 2, Box 350 A - Port Orchard, WA 98366

Hello all. This is my first report. So for intros, I'm 21 and presently working at Puget Sound Naval shipyard in electronics, but will be going to Los Angeles Baptist College in Newhall, CA. Totals: 220/7, 5/1. I've been DXing for 5 years, but only seriously 5 years ago and last year. Rx is 5LJ3; ant's are 50 ft. LW east-west and 500' LW N-S 30' high. DX here has been mostly s/ons and s/off's: 5/4 KELA-1470 0800; KMWX-1460 0800; KQMS-1400 0830; 5/3 KITN-920 2200 (0905 s/on 5/6); 5/5 KUTI-980 0900 s/on; 5/6 KSEI 0800 s/on. Veries in (v/f) KRED, KGY. KGY sent nice pc of studios w/ltr. Since I will be going to college this fall, I imagine it will put a crimp in my DX activities. So I would like to compile a list of s/on & s/off times for West Coast stns since these are the times I will be able to DX. Since these times are a fruitful source, I am sure many of you would find such a list valuable, so I would be glad to make it available to all. (The NRC Log doesn't list times for lower power stns because they vary too much). So if you will send me the info on the stations in your area I will get started. If you happen to know times of power changes or pattern changes, these would be welcome. I would prefer post cards, index cards, or something that size - makes filing easier. Please list your source (stn, newspaper, hrd, etc.), date it, and make times PDT. Anybody know anything about KVIP-540? Never can hear them. Correspondence always welcome. Can't make Toledo, will see some of you at the NRC S.F. convention. Somebody pse tell me what a SC and a CM are. (survey chart & coverage map - DEE). (DXF limit is 15 lines, John; please use ELT in your rpts and send tips to Grant; welcome to DXF.)

Graham Fleck - 210, 666 Cook St. - Victoria, B.C. CANADA

I made a serious mistake in the 5/15 DXWV report of XEHL. I don't know what time standard I used but it was not GMT! Sorry. My 840 unID was GMT but XEHL WAS NOT. This is the kind of thing that happens when two time standards are used. Same goes for my last DX Roundup reports. I couldn't be truthful in saying whether they were ELT, EST, EDT, or GMT! Why can't this club have one basic time standard? But NOT ELT! Even that's confusing. Best veries, CBX-740 & KXLY-920. 73.

Mike McCullough - 5240 Rhonda Dr. - San Jose, Calif. 95129

Hi! DX getting worse w/only 5 new stns this MM 5/3; they were CJOB-680 (been chasing them for 1 mo.); KXRB-1000 S.D., state #39 hrd. KFDI-1070. If anyone wants to talk; landline is 408-253-0896 between 7pm-10pm PLT anyway. Track nuts write. If anyone has info on where to buy the ARB, please write! Let's see some more DX tests like WAGL-1560. Like the group Blue's Image say "73's from the S.F. Bay" and gud DX. P.S. All catches in the 5/1 DXM are ELT; set the time back one hour. Tnx. SCers pse.

Edward B. Haden - P. O. Box 1372 - Rosamond, Calif. 93560

Recent loggings include CJVI, CKLW, CKNW, KCKC, KCUB, KDAV, KFJZ, KJST, KLO, KONO, KOY, KPIN, KRIG, KSTN, and XELG. Got test program of KPIN in real good. V/q requests in for KCUB, KPIN, and KSTN. In SINPO, can anyone enlighten me as to the difference between N = Noise and P = Propagation disturbance? Latest v/q is KGIL, latest v/1's are KFWB, KUZZ, KWKW, and KWTC. (SINPO: N is static noise and P is fading; however, SINPO should not be used in rpts to BCB stns. Pse include ZIP code with your reports. -DEE)

Broadcasting Information (as compiled by Mike Worst) May 10 - 31 issues

CPC Results Blake Lawrence, Colo., reports exc. sigs from KPIN-1260. Also, KXEL-1540 was off 5/17 w/off & on testing; Blake rpts ZNS-1 for country #13. Mike Hardester rpts KFRC-610 off and testing w/TT & mx 5/25. Very rarely off. Gary Nuthals says KPIN not hrd in Green Bay, Wisc. By pc dated 5/9, Gene Martin, Denver, rpts: "760..WJR gone by 0620 EDT (1020 GMT) 5/8 Sat M, Cuba faded abt 15 mins. later leaving a LA there which I suspect was CB76. Approaching 0700 EDT, an OC from Guat. appeared, so I nulled all SE points to monitor the hash on the hour from the SW... here were 6 NZ pips riding thru the noise on top the channel w/KGU not audible. The NZ pips were completed ten seconds before the hour straight up and KGU had returned by 1103." And by phone, Gene reports that WCCO-830 was off sometime before 0140 EDT (0040 Minn. time, CDT). MM 6/14. Ron Schatz and Bill Powers monitored the freq. as did ur pub. while mimeographing. SS hrd in Riverside. WCCO is another stn very rarely known to leave the air. --- Prepaid mailing cards are once again being distributed to those who participated earlier this season. However, they must be printed on a hand press; to send just 5 to each member would require 10-20 hours printing time. So pse hold on.

KPSI Palm Springs, Calif. 1450 "KPSI Will Launch Operations June 14" - news item in local Palm Springs newspaper the first week of June.

"KPSI will begin broadcasting on Monday, June 14, and will be on the air 24 hours a day, lkw d, 250w n; the following is a list of the KPSI Staff: Rozene Moore, pres.; Elliot Field, vp & gen mgr; Lonnie Thomas, DoE; Richard Bisi, NxDir; Jack Hickey, Stan Layne, Jerry Burke, Felix Walker, Alan Light, all air personalities; Jim Martinez, newsman; Robert Jenkins, sales exec; John Sands, engineering; and Roberta Silkwood, traffic-bookkeeping." via Mort Meehan, North Palm Springs

KBYR HAS SWITCHED FROM 1270 TO 700 KILOCYCLES - WATCH FOR THIS ALASKAN - AK in NY?

 Telephones: 714-282-0076 or 714-282-2184. Deadlines: July 9, August 6, 27, Sepy. 10, 24, Oct. 8, 15, etc. Use GMT (EDT + 4 hours), one side of page, preferably typed in order of frequency.

IDing Trans-Pacific Stations-- Gene Martin

Perhaps I have stumbled onto a promising new way to identify some of those elusive trans-Pacific stations which use time pips on the hour or half-hour in some cases. This new method involves the precise musical classification of the pips. When this is done, important differences are revealed from sets of pips which have always been assumed to be identical.

For example, the six pips I recorded from 3LO in Melbourne on April 12 were in the key of G. One hour later, I recorded six pips from a most probable 5CL in Adelaide in the key of C. I cannot know the reason for this difference but it's worth noting that 5CL and 3LO are affiliates of different networks. The pips from 1YA, Auckland, on May 8, were in the key of C.

Art Peterson sent me a copy of his extremely valuable Asian ID tape, which contains samples of all the trans-Pacific pips. On that tape, he offers a set of six identical pips with the explanation that they represent what you would hear from New Zealand, ABC Australia, and the USSR Home Service. The Peterson pips are in the key of B, suggesting that he took the USSR Home Service pips as his sample of what would be heard from all three countries.

But it appears that there are differences in pips which can be detected by a good musical ear, and these differences may be enough to clear up the identity of some mystery TP catch if it has been preserved on tape.

Personally, I am a musical ignoramus. The musical ear I have been quoting belongs to Miss Ellen Lewis, a music major at the University of Denver. (She is my son Paul's girlfriend). She listened to all the pips on the Peterson tape, and here is what she tells me about them:

Japan: three short notes in A, and one long fourth note in A one octave higher.

North Korea: three short pips in F, one long in E flat.

Radio Viet Nam: Three short pips, one long, all in key of F. Sounded like cricket notes to me.

Radio Hanoi: Five short ones in D, one long pip in F.

Cambodia: Three short pips in D, and a final one in D an octave higher.

Red China: Five pips in G, a final one in G one octave higher. It takes 11 seconds through the Chinese pips.

South Korea KBS: Two short ones in B flat and a long pip in B flat an octave higher.

AFVN South Viet Nam: Three in B, and one in B an octave higher. The single note which Peterson connects with JONR, Japan, and Philippine stations is in the key of C. The single pip for FEN-Japan was diagnosed as the key of A.

I have previously been informed that the six pips from LRA, Buenos Aires, are in A flat, and the final one is prolonged.

I suspect a great deal more analysis of the musical characteristics of pips needs to be done. It well may be that we cannot assume that pips from 3LO and 1YA will always come in G and C respectively. But if that does turn out to be the case, then it becomes a splendid new tool in identification. Just get yourself some friend with a good musical ear!

Radio Carrousel I have received a sample QSL card from Dave Gleason. These QSLs will be available to the first 500 people correctly reporting reception of the station in Guayaquil, Ecuador, on 660 kilohertz. Reports, either new or follow-ups, should be sent to Dave Gleason at P.O. Box Q, Hato Rey, Puerto Rico 00919. Should anyone wish to have his verie mailed from Ecuador, they should enclose Ecuadorian stamps for return postage. There have been many DXers who have sent reports to Guayaquil, but such reports will not be answered from Ecuador. Dave, who is, I believe the owner of Carrousel, is the only source for verifications.

Report from Australia--Bob Padula, 404 Mont Albert Road, Surrey Hills, Victoria 3127. Rather unusual daytime conditions noted currently (May 18), with good openings to Queensland, New South Wales, Tasmania, of up to 1000 miles at 12:30PM local time. Similar reception has been observed throughout Australia at other receiving locations in recent weeks. Following notes relate to observations made 40 miles south of Melbourne, at a coastal resort on the Mornington Peninsula. (Receiver: Trio 9R59DS, with 4 ft. directional loop): (All heard May 13-14-15, 1971)

- 640 ... Fiji, Lautoka, clar ID 0645 (1645 local time here!) as "This is Radio Fiji", and time-check. Looped from 5CK.
- 660 2YC New Zealand, Wellington, usually the first NZ to fade-in, noted 0540 with classical music.
- 701 BBC Masirah Island with identical signal 1628, ID "Huna London" 1630.
- 770 JOUB Japan, Akita, NHK2, with English language lessons on a Saturday, 1415, strong.
- 844 VSZ1 Gilbert and Ellice Islands, Tarawa, fade in around 0730, much island music, and consistently better than old shortwave outlet.
- 1045 DXLM Philippines, morning music 2045, s/on 2054 with English announcements, frequency, license information, anthem. Also in evenings around 1330 with telephone talk-back program. (These calls are listed in WRTH71 for 690 kHz with 500 watts. Ed)
- 1214 ... Albania, Tirana Foreign Service, Arabic 1900, s/off 1927 with "Internationale".
- 1230 DXSS Philippines, s/off 1600 after ID, frequency, personnel listing, anthem; unlisted this call in WRTH is "Sound of South" reported previously by some sources as DXMM. (Location? Ed)
- 1313 ... USSR, Radio Moscow, Arabic 1935, listed as Simferopol, and probable.
- 1457 ... Rumania, Constanta, Rumanian announcements, classical music around 1820, mixed with BBC.
- BBC ??? Carrying World Service around 1800-1900. Is this the Cyprus relay? (Probably so, according to Glenn Hauser in last issue of DXWW. Ed)
- 1466 ... Monaco, Monte Carlo, fade-in around 1835, French with many pops.
- 1475 ... Austria, German talk 1820, through until fade-out around 2115 (0715 LT)
- 1511 RBI East Germany, with Danish talk 1935, good level at times. Blocked at 1945 by ABC opening up (2NA Newcastle).
- 1538 ... West Germany, Mainflingen, Polish 1900, ID signal 1928, into Czech 1930. A really tremendous signal, easily mistaken for semi-local. Held until 2130 (0730 LT), which is nearly ¼ hour after local dawn!
- 1546 ... USSR, Vinnitsa, Radio Moscow, in Italian 1820, usually good.
- 1554 ORTF France, Nice, French 1815, through until fade-out 2115.
- 1562 ... Switzerland, Beromunster. Frist time heard here! German 1855, into a bi-lingual program 1900, alternating with French and German until 1915. A really good signal.
- 1586 ... West Germany, Langenburg. Concert 1905, through until fade-out 2115. Powerful.
- 1602 ... West Germany, Munich, opera selections 1905. Equal strength to semi-local; 3NE on 1600 at times!

Recent Verifications: Omdurman-960 (after second follow-up) and country #95 as per ARDXC listing; Seoul KBS-970; Saudi Arabia-587.5; Lautoka-640; DZFM-710; KZOO-1210; 4RO; Radio I-1590; LZM; 3ZM; 1YZ; 1YW; I note a claim in another DX source of a first QSL from El Beida-1124. I would like to point out that my own QSL was for reception on 25 July 1970. This is the first for an Australian DXer from this outlet. Best regards.

Radio Northsea International (UPI and AP, Los Angeles Times and San Diego Union, May 16 and May 17) Two men were arrested and have confessed that they planted a fire bomb aboard the MEBO II, the ship holding RNI. A police spokesman said two of three men arrested on suspicion have given detailed accounts of their part in the attack. The men, who were not identified, offered no explanation of their motives. The bomb started a fire that extensively damaged the ship. The station went off the air a few minutes after 11 PM Saturday, but came back with an announcement saying

that an explosion caused by a fire bomb had occurred in the engine room. The crew and staff of seamen, disk jockeys, and engineers escaped without injury. About 2:30 AM two fire-fighting ships had extinguished the fire. The station resumed broadcasting in a while. Captain Jan Hartevelt broadcast a message that everything aboard was all right. Each member of the Swiss-Dutch-English crew sent a message to his family and then they all sang "Happy Birthday" to one of the crewmen. Police said that the three saboteurs used a rubber boat to go to the 670-ton broadcasting ship, anchored seven miles off the beach at Scheveningen, Holland. They cut the rubber boat to pieces after the return trip. The police said they understood detectives found parts of the rubber boat and diving suits at the beach opposite the position of the pirate station. Earlier reports said that a launch had raced along side the ship and lobbed the bomb into the engine room.

Thailand Radio Thailand broadcasts on 830 and 923 kHz from 2300-1530 GMT, in Thai. Reception reports are welcome and are acknowledged by QSL card if correct. Return postage is not required. Address for all correspondence is :The Overseas Broadcasting Division, Public Relations Department, Bangkok 2, Thailand. (Graham Fleck)

France ORTF, Limoges, 791 kHz, has increased power from 100 kw to 150/250 kw. (EBU via Dave Alpert)

Iran The following power boosts are planned: Radio Ahwaz-1390 to 400 kw; Radio Bandor Abbas-620 to 125 kw; and Radio Mashad-725 to 400 kw. (SDXK via Dave Alpert)

Israel The Armed Forces channel of IBA is negotiating the purchase of at least one 50 kw transmitter from an American firm. (MWDXC, via Dave Alpert)

Australia Station 3YB Warrnambool is now using 880 kHz, instead of 1210. The move took place on April 4, and is the latest of a series of frequency changes by ABC. 4TO Townsville, 780 kHz, is now operating on a 24 hour schedule, making 32 stations now operating full-time in Australia. (Bob Padula, in WRB)

Tahiti The new transmitter on 740 kHz has a power of 20 kw. They also still are on 1400 kHz with 4 kw. Schedule: 1615-1830, 2100-2330, 0300-0800. (Arthur Cushen in WRB)

Monaco Radio Monte Carlo's British service experiment: has failed. After 4 months of English broadcasting, the station closed in April. During the recent weeks of service, the station was forced to move a few kHz within the 205 meter band to avoid QRM from BBC World Service testing on both 204 and 206 kHz. (WRB)

Cyprus Radio Monte Carlo has been testing in Arabic on 1232 kHz, with IDs in Arabic and French, starting at 1000 GMT. (SCDX)

Portugal Emissora Nacional is testing a new powerful transmitter on 971 kHz which interferes in France with NDR, Hamburg, West Germany. (SCDX)

Listeners' Loggings- Latin America

- 680 XEL Mexico, Leon, Gto. strong 5/17 1055-1107 when carrier was cut. IDs as "La grande musica", "Extra Musica:.. Last call letter sounds more like a K than a G. (GF,W)(G, as a letter, is pronounced "Heh" in SS: this could easily be mistaken, with a little QRM for the English K. Ed)
- 810 HJCY Colombia, Bogota 5/24 0900 bombing in; Radio Sutatenza ID; later heard same MM with "Superamas..." ID. (GF,W)

- 854.5 OAX4A Peru, Lima in SS with LA music; signal weak 0900 5/9. (GM,W)
 870 ??? UnID 5/24 0900-pd6r lively SS, too weak to copy, possibly LRA. (GF,W)
 1080 XEDY Mexico, Cd. Morelos, B.C., with PDT TCs, mentions of Baja 6/2 1215.
 First time heard. (FJP,W)
 1230 XEGM Mexico, Tijuana, B.C. spur from 950 heard all day 6/1. (GM,W)
 1379+ XEKT Mexico, Tecate, B.C. s/off 5/21 0455. Gave list apparently of all R.
 Variedades stations. (FJP,W)

Pacific Area

- 770 JOUB Japan, Akita NHK2 with EE lessons 1027-1030 4/26; then apparently into
 JJ lessons in EE. No pips at 1/2-hour. (GM,W)
 870 ??? UnID 5/24 after UnID SS fade-out; fluttery EE religious program 0920;
 possibly KAIM. No WWL OC/TT! (GF,W)

Verifications

- 640 CMQ Cuba, Havana v/1 dated 5/6 for report of 2/2/70. V/s L. Miranda, Dept.
 of Int'l Relations, La Voz de Cuba, Apartado 60-17, La Habana, Cuba.
 Letter is specific for 640 and date I heard them. (KLS,W)
 870 LRA Argentina, Buenos Aires, R. Nacional v/c indicating 11,710/7690 kc.
 Card says "Thank you for your correct report." Too bad they didn't
 send a correct verie! F/u with prepared card already sent. (AWP,W)
 1010 XEHL Mexico, Guadalajara, Jal. surface mail, enclosed 2 IRCs. Returned my
 VE7DXLGA card with typed personal verie on back; v/s Blanca Margarita
 Aldrete, Departamento de Personal. (GF,W)
 1550 ... Asitatic RSFSR, Domestic Service. In reference to FJP's comments in
 DXWW 5/1, I have received verie for this domestic outlet. Accompanying
 letter from Mrs. Eugenia Stepanova, NA Service, indicated that as a
 rule they do not confirm locals, but they made an exception in my case.
 (Doc, W)

Radio Northsea International--further information from C.S. Stanbury II
 N.C. Jurgens, the advertising manager and PR officer for Radio Veronica has been
 arrested. It is alleged that he paid each of the three divers \$7200 to destroy RNI,
 and then went for a holiday in Hungary while the job was done. A popularity poll
 published the preceding week in a leading Dutch newspaper showed that RNI was
 taking many listeners from Veronica because of its higher power. Two Radio Veronica
 directors are also being held. They admit to investing \$24,000 in a plan to get RNI
 off the air. They claim that the plan was to drag the Mebo into port with two large
 tugs, and that the divers had disobeyed orders by trying to sink the ship. Also
 recently revealed is the fact that Veronica paid RNI \$240,000 to stay off the air
 for two months at the start of this year. RNI (1367//6205//FM) is presently on its
 summer schedule of 0500-0200.

Cyprus Clearing up the 1232 kHz. thing, the station here belongs to Radio Monte Car-
 lo, and was testing, relaying the BBC. Since then, the BBC relays have been dropped
 and replaced with near-continuous music. The station will assume a regular sked
 later this summer. (Dave Alpert)

Romania Since May 31, through the summer, there is a new special service called
 "Radio H9oliday", broadcasting music and information intended for visitors to Ro-
 mania in English, French, German, Russian, and Romanian on 1457 kHz. Sked is 0800-
 1300 and 1600-1800 GMT. (GNDXN via Dave Alpert)

Switzerland Fire struck the studios of SBC in late April, causing extensive damage.
 It is not known if/how their programming was affected. (MWDXC via Dave Alpert)

VOA Okinawa-1178 kHz is presently signing on at 0500 GMT. Better try for them now since it appears that the islands will very shortly be turned over to Japanese rule.

Guidelines for Reporting to DXWW

Foreign DXing is a new experience for many. Definite identification of stations requires a good ear, much patience, and in many cases, luck. To encourage DXers who have not tried foreign DXing, and to remind those who have been reporting to DXWW of the preferred methods of reporting, here are some guidelines.

1. There are basically two reasons to submit reports to DXWW: a) to aid others in logging the station; and b) to get help in identifying an unidentified station you have heard. To accomplish either of these, sufficient information must be included in your report. Too few details simply do not aid anyone. Your report should include the following information; date and time (in GMT) of reception, type of programming, ID if heard, conditions of reception (excellent, good, fair, poor), and any other helpful information, such as some details of the programming or any interference present.
2. If you are not certain of the exact identity of the station heard, indicate that your identification is tentative. To claim definite identification sometimes can place you in jeopardy, if the known facts about that station simply do not match up with your report. Never be afraid to admit that you don't know exactly what station you heard. On some frequencies there are a number of stations which are likely; if you don't know which one you heard, don't stick your neck out by claiming positive identification.
3. If you are not certain of the language used (for instance, on Oriental stations) don't definitely state that the station was broadcasting in a particular language, even though you are pretty certain of the identification of the station (because of pips, it is the only one on the split frequency, etc.). Some stations are Foreign Service stations and broadcast in languages other than their native one.
4. Try to check back on what has been heard on that particular frequency in back issues of DXWW. Very often people do not do this; they might be able to get their unidentified stations into the category of a tentative reception by a little research. DXWW recently changed its format to aid DXers in the process of IDing their unknowns. Make sure that your sources (WRTH, FBIS, etc) are up to date. There was a DXer a couple of years ago who was reporting obscure Venezuelans because they were all that was listed on certain frequencies in his out-dated MW Guide, when actually more recent publications listed other possibilities.
5. Above all, don't try simply to impress by the quality or quantity of your reports. All of us like to brag about our catches, but remember that your reputation as a DXer depends on the ability of others to use your information.

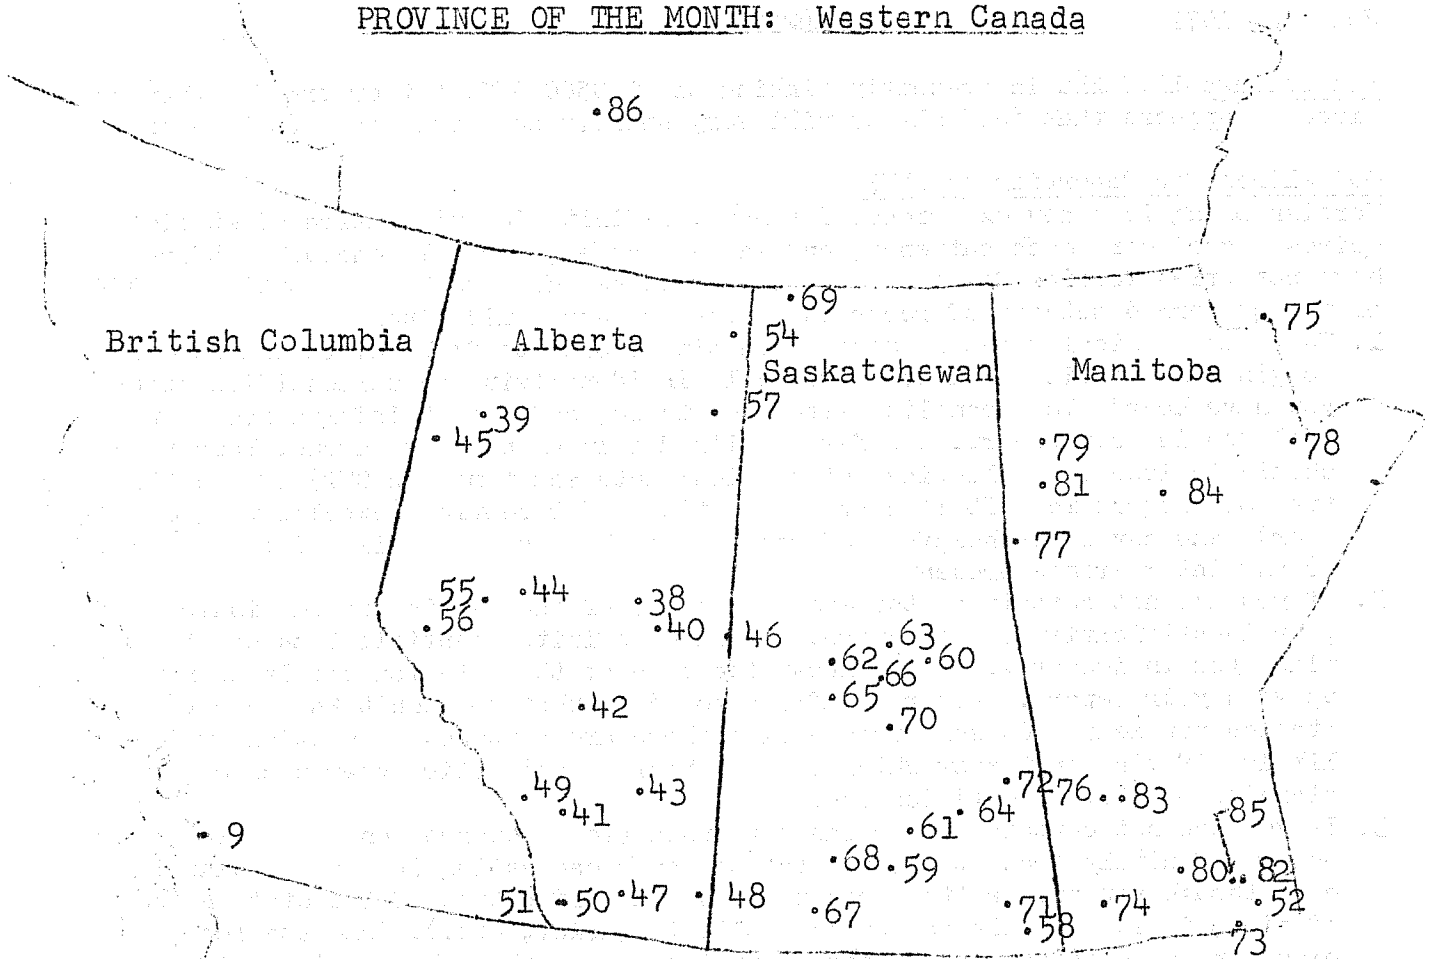

A good time was had by all at the Riverside DX get-together, I believe. About 20 showed up in the course of the weekend. Brian William's distance record for a SCEPSSDX meeting was easily broken by Big George Kelly and Marc Delorenzo of the Boston area. I finally got to see Toyland. Despite all I had heard about it before, I still found it hard to believe. It's impossible to describe in fifteen lines.

NRC Latin American Log

The National Radio Club has published a companion volume to its domestic log. The NRC LA log not only lists all Latin American and Caribbean stations, but also has a number of articles on methods of identifying them, by music, time checks, advertising, etc. The book sells, at least to NRC members for \$2.50 and the number published is limited. If you try, perhaps you can get a copy by writing to Box 99, Cambridge, Mass. 02138. My only complaint about the log is that it doesn't indicate drifters, at least not very often. All the other needed information is there: frequency, call and slogan, address, and schedules and verie signers in some cases.

What late afternoon adventure show used to open with a Chinese gong? Who used to live at 79 Wistful Vista? Who used to get "regusted?" Who lived on the B-Bar-B Ranch? What was the name of Tonto's horse? What show used a magic decoder ring (or badge)?

PROVINCE OF THE MONTH
Manitoba

There are 19 stations in Manitoba, including 3 EE and 2 FF LPRTs. Easiest catches are CKY-580 CBW-990 CKDM-730. Manitoba is on CST winters and CDT summers. Telephone Area Code(AC) is 204.

- 580 CKY 85 Winnipeg 2 - 50 DA-2 - 432 Main St N - 943-1531 - NSP "CKY, the Music Master"; "Voice of Manitoba"; "CKY Contemporary News" (Moffat network feed). cw for 3 hr early mornings, some open line shows, Jets Hockey Sun. evenings, and Winnipeg Blue Bombers(CFL) football when in season. Rest of format is mor. Best time for DX is MM, especially if CKWW is off for EC. After CKUA/KFXD/KMJ s/off to WC. WIBW is often prob in east, as well. Often gets out to Hawaii and DU, even nightly after 0300 o/KMJ. Seems to null N nights. December 31, 1949. Same call letters were used by CBW in earlier years. Verification policy best termed as "stubborn". Says REW: "Failed to verify five reports and f/ups, all w/rp. Responded angrily to an acquaintance in Winnipeg who called the station for me."
- 590 CFAR 77 Flin Flon - 10d 1n DA-D * - 75 Callinan St - 687-3469 - basically unk to the DX world. Strongly suspect not AN as 590 is pretty clear after 0315 on WC and never hrd on WC. Rare to Edmonton & Winnipeg.
- 610 CHTM 84 1 ND-U * - Thompson - P.O. Box 2020 - 677-3905 - Sked is Sun-Thur: 0700-0100; Fri-Sat: 0700-0300. Rare to Winnipeg w/KDAL/KGGM/WDAF; Edmonton u/CKYL/KFRC. March 28, 1964.
- 630 CKRC 85 Winnipeg 2 - 10 DA-2 - 300 Carlton St - 942-2231 - Xmtr @ St. Vital. NSP w/rr. Off MM 0330-0630 when maintenance required. Rare to WC w/CHED off occ MM. Sometimes to Great Lakes on MM w/CFCO. Quite a friendly station.
- 680 CJOB 85 Winnipeg 10 - 10d 2.5n DA-N - 930 Portage Ave - 786-2471 - Beams sharply north. NSP w/mor and open line shows. #1 rated in market area. Owned by Western BC (CKNW). To Edmonton alone MM and u/KNBR other am's after CHFA 0200 s/off. NBC nx. Throughout WC MM's -- weak but clear. JOB = John Oliver Blick. March 11, 1946 v/1 Dauphin - 10d 5n DA-N - P.O. Box 310 - 638-3230 - Xmtr @ Ashville. s/on 0630 exc MM 0700 w/Oh Canada Non-vocal. s/off 0200 exc MM 0101 w/nx, song about Dauphin, non-vocal Oh Canada, and non-vocal GSQ. Format is cw days, rr nights w/mor thrown in both. Regular to WC and Hawaii (exc near CKLG) o/XEX. Easy @MM s/on in west when CKLG is off (infrequently). Even hrd DU on occasion. Sometimes to Great Lakes w/CKAC/XEX on MM. Easy to Edmonton eves and am. January 7, 1951 on 1050. Sometimes sends attractive v/q.
- 920 CFRY 80 Portage la Prairie - 1 DA-1 - 1500 Saskatchewan Ave W - 857-5111 - Major lobe NW; minor lobe covering Winnipeg. s/off @ 0101 daily exc SM 0200 w/Oh Canada, GSQ. Format is mostly cw w/some rr and mor. Emphasizes sports, farm and Market rpt. Also some ethnic programs. Quite regular to WC on MM after s/on. October 18, 1956 (1570 w/250 watts). v/1 & CM from R.D. "Red" Hughes, CE.
- 950 CFAM 73 Altona - 10 DA-2 - P.O. Box 950 - 324-6464 - Huge lobe ENE, minor lobe WSW. Extremely deep null 10° E of S to protect WDAY KWAT KLTF and deep null NW for CJGX. Above info for daytime pattern (best time to listen).

PROVINCE OF THE MONTH -- Manitoba

CFAM cont. Night pattern has strong lobe NNE. No other lobes are even one-tenth as strong. Deepest nulls are WSW and 10° E of S corresponding to KBOI and KWAT. CFAM claims to protect KIBH KJR KBOI KIMN KWAT KOEL KRSI WWJ WBBF CKBB WIBX WAGM CKNB. Current sked seems to be NSP. Xmtr @ Winkler. Sometimes on lower power MM's. "Radio Southern Manitoba" refers to CHSM//CFAM. Carries hockey in season and varied ethnic programming, but format is mor days and cl AN. Runs ABC nx rpts, in own nxcasts. Has been hrd on WC w/KJR off MM after KIMN s/off.

- March 13, 1957 (1290). Very friendly.
- 990 CBW 85 Winnipeg2- 50 ND-U ** - P.O. Box 160 - Portage Ave - Xmtr @ Carman, Manitoba. 774-2541 - Sked is 0700-0210 exc SM s/on 0800. Seems to go AN on Canuck holidays. OC begins one hour before s/on. To Oklahoma o/XET and usually dominate on the WC. XECL/KKIS/KTKT provide only slight QRM eves. WNOX is only QRM in Great Lakes. Has been hrd in Europe and DU. 1922(call was CKY) v/q
 - 1050 CKSB 82 St. Boniface - 10 DA-N * - 607, rue Langevin - 247-4843 - Sked is 0725-0110 daily exc Sun 0855-0105. "Radio dix-cinquante" Format is all FF (much Radio Canada (CBC FF) feed) exc occ German program. s/off features Oh Canada & GSQ in FF vocal. Only CFGP was more reg in Hawaii. Occ to WC eves. Western Canada's first FF station. Pattern protects XEG. May 27, 1946 (1250). Rpt in FF.
 - 1150 CKX 74 Brandon - 10d ln ND-U - 2940 Victoria Ave - AN MM - 728-1150 - Format is mostly mor w/some cw & rr. Exc in Seattle & LA, hrd on WC eves and AN. In Vancouver, a null on KAYO gives CKX w/KSEN evenings. Reg to Hawaii(best on MM winter)eves and AN and even to NZ on occasion. In MW through CKOC MM's around 0400. December 1, 1928 Friendly v/1
 - 1230 CHFC 75 Churchill - .25 ND-U ** - P.O. Box 40 - Best @ s/off.
 - 1250 CHSM 52 Steinbach - 10 DA-2 - c/o CFAM - Xmtr @ St. Pierre - 326-3737 - "Radio Southern Manitoba" totally //CFAM. "The Dependable News Voice". March 13, 1964
 - 1470 CFRW 85 Winnipeg - 5 DA-1 - P.O. Box 1022 - 457 Main St - 947-1211 (on AN shows, try 942-1470 "Boss Line") - Lobes to NW & NE. Owned by Jim Pattison (CJOR's owner who fulfills Canadian content of ownership, but gets moola from NYC). NSP Drake type rr. Some progressive rr on "Stereo Rock" 0100-0300 daily exc MM. Also 1900-0100 MM. BBM ratings shows CFRW o/CKRC in no. of listeners. Sometimes uses 250 watt standby xmtr on MM, if maintenance necessary. Good every MM w/WOHO o/CFOX on WC w/few ID's. Rare on MM to Hawaii and NZ. KTRI and WMBD are hrd reg u/CFRW in Winnipeg, however. November 1, 1963 (CJQM). Sends long, attractive v/q.
