Mon. 13	0000-0600	WMAL	630	Washington, D.C.		WILL BE OFF -John Pinckney
Mon. 20	0100-0300	WJDA	1300	Quincy, Mass.	1kw	NADX/Sheldon Swartz
	0300-0330	KTYN	1430	Minot, N.D.	5kw	NRC/Carl Dabelstein
Mon. 27	0100-0130	WMMM	1260	Westport, Conn.	1kw	NRC/Russ Edmunds
	0201-0330	KGRT	570	Las Cruces, N.M.	5kw	NRC/Boyd & Junker
	0315-0415	KIMM	1150	Rapid City, S.D.	5kw	NRC/Ernest Cooper

WHUM info last week. Listed in DX NEWS as IRCA; only information here is from Russ Edmunds, NRC. **KUPK** is every 1st MM, same times. March mx & tones to be used. Reports to: Dale Roberts, CE, KUPK, P. O. Box 798, Garden City, Kansas 67846. -NRC/Winkelman.
KIWA info last issue. **WJEJ** will have 6 PoP tests on 3 consecutive weekends, Sat. and Sun. mornings, 0100-0500. Reports to: Al Brown, CE, WJEJ, Franklin Court, Hagerstown, Maryland 21740. -NRC/Ernest R. Cooper.

WMAL will be off its regular NSP schedule according to John Pinckney but will have ET for awhile w/TT. Will have an OC on and off most the time. If transmitter maintenance isn't completed on 3/13, they will be off 3/20. -John Pinckney

WJDA will use 1000 cycle tone, IDs, march mx. Reports to: Mr. Fred Lane, Engineer, WJDA, P. O. Box 130, Quincy, Mass. 02169. -NADX/Sheldon Swartz

KTYN will resked their DX test. Format will be cycle tone, C&W mx, and, perhaps, some Morse Code IDs. Reports to: Jim Rufus, CE, KTYN, P. O. Box 637, Minot, ND 58701. -NRC/Carl Dabelstein

WMMM will use march mx, cycle tone, code IDs & voice IDs. Reports to: Mr. Clifford Miels, CE, WMMM, 163 Main St., Westport, CT 06680. -NRC/Russ Edmunds

KGRT will use cycle tone, voice IDs, and RR mx. Wes Boyd says 0301-0430; Carl Junker states 0201-0330. Carl's times would be more likely if test starts at local midnight. Reports to: Roy Wells, CE, KGRT, P. O. Box 968, Las Cruces, NM 88001. Wes points out that the only interference should be KVI (MoR) and KLAC/KLUB (C&W); perhaps also WKBN if they are AN again by that time.

KIMM has started verifying the old 1967 TEST rpts; they've volunteered to do another pgm. Reports to: Mr. Ronald R. Hansen, CE, KIMM, Box 2006, Rapid City, SD 57702. -ERC

Mysterious Receptions and Unearthly Things

--By Walt Breville

Early some morning you may be at the dials and hear faint voices from an unidentified station which must be some exotic far-off location that you're after. Let me give an example which involved a midwestern DXer recently. He was listening on 660 on a MM, heard a man weakly but definitely talking in EE, but caught no ID. Then WNBC started testing and wiped it out. Since he had read a report that 4VUE broadcasts in FF, this left only KFAR Alaska and 2YC Australia. Should it be concluded that he definitely received one of the two? It's mighty tempting, but let's investigate any other factors first. After thinking about it, there are no less than six alternatives that come to mind:

(1) Daytimers KOZI, WESC, or KSKY may have been conducting a test. Although tests usually do not contain newscasts or long talks sounding like news, there are exceptions. I believe the FCC rules forbid newscasts, spots, etc. on ETs in the case of stations licenced to operate normally daytime only (am I right?) but some stations, especially in recent times, have been breaking many FCC rules. One that caused a lot of confusion a couple of years ago was daytimer KIRL-1460 which, for quite a while, conducted ETs on MMs sounding just like their regular programming, right down to spots and newscasts.

(2) Station 4VUE, although reportedly broadcasting in FF, may have just started partial programming in EE, perhaps including newscasts for American tourists.

(3) Possibly it was a bootleg station. Usually signals from a bootlegger are accompanied by a heterodyne tone, since most bootlegger's transmitters drift slightly off frequency. However, remember the time a couple of bright teenagers broke into an Ohio station, ran off with some of its equipment, and built a high-quality bootleg station with it?

(4) Reception could have been from a carrier-current station at some college or university. These stations normally cover only a radius of a few hundred feet but sometimes the lines have been mistakenly connected into outside lines allowing the signals to get out statewide.

(5) There is the possibility of a spurious image or response in the receiver from a strong station on another frequency.

(6) There just could be a slight chance that the signal originates from an unearthly source! Yes, there have been many instances of very mysterious signals, ranging from guttural jabbering in unearthly languages on VLF to Indian war whoops and wierd voices interrupting Apollo transmissions from the moon to NASA HQ on the microwaves. On the BCB, many people in the Midwest heard strange voices on the radio, interrupting programs, claiming origin from outer space, and warning them to discontinue preparations for war. This was back in 1954. For full details on many mysterious radio shenanigans, check your local bookstore for Our Haunted Planet by John A. Keel, a 75¢ paperback. Also revealed is the fact that a large majority of all UFOs, humanoids, and wierd unearthly monsters seen by thousands of people tend to occur in areas called "windows", where there are disturbances in the earth's magnetic field. I have noted that three of these "window areas" are also hotbeds of outstanding DX reception: Southern Michigan, the Ohio Valley (especially Ohio-W. Va.), and South Florida. Other suspected window areas are northwestern Indiana and Riverside, California.

What this all boils down to is that possibly these areas of disturbance of the earth's magnetic lines are also areas of outstanding DX reception due to the magnetic conditions there. These conditions also periodically result in the waves of UFO and monster sightings. I suspect that this is a large factor explaining why certain DXers seem to enjoy outstanding reception. And the excitement of having a much better than average chance of seeing something from out of this world!

Another source of info: "Flying Saucers" magazine, Palmer Publications, Amherst, Wisc. 54406. Quarterly, \$3/yr., covers all aspects of UFO/humanoid/monster scene.

Do you have a ugly stain on your wall, a drafty window, a garbage can without lining? Cover it, stuff it, or line it with an IRCA Achievement Award! They come in seven colors, one for each of the series. If you've lost your AA rules, write IRCA AAC, Percy R. Kesteven, 13112 - 134th Street, Edmonton 44, Alberta, CANADA for a copy.

— Dave Faulkner - 1430 Pine Grove Avenue - Port Huron, MI 48060 —

A little more DXing done this week as I'm adjusting to the schedule and looking forward to having Fridays & Saturdays available for school work instead of typing the EDXR. Tape of 1580 2/21 came out furprisingly well. TR has automatic shut-off when the tape ends and can get up to 3 hours on 1800 feet of tape thus making recordings of long periods easy. Now I'd like to thank all of those members who supported the Eastern section while it was edited by yours truly and helped make it the biggest and best in the club. Let's keep it that way. For latest CPC info see DX Callendar & I'll see you next week, but in Brh's section for a change. 73s, good DX & report often to both sections!

March 4, 1972

Deadlines: Fridays, 8 days before publication date.

=====
Brian L. Cartwright - 106 Leila St. - Johnstown, PA 15905

Hi gang. 21st was really great here. Went down to a friend's house to sleep over & it looked like I was moving in w/all the junk I had (blanket, books, etc). Incidentally, I got my WRTH 1/7 or 1/8. By the time it was 4 AM I had 2 tried fors but never heard, namely CBW & KSL, both for new states; KLUC Test for state #32; WKIG f/c; XERF, WVOS, WHAP, & WHBY. I agree w/John Tull on giving awards to SP stns & putting freqs. after calls. Reading about Jerry Maule, I have gone over my list of spurs, & have VOA, R. Nederland, R. Havana, RSA, & Deutsche Welle between 1370 & 1390. Also have WWV, R. Moscow, R. Havana & unID above 1600. I also sympathize w/Jeff H. & his static. Same thing has happened w/me. Well, Au revoir & 73s.

Karl Bartlett - 9 Tulip Dr., Apt. 2B - Fords, NJ 08863

Greetings DXers everywhere! It's 2/21 & we now have WKMB-1070-Stirling, NJ w/250w-D. Apparently they just came on the other day. Frmt is MoR. The pirate I rptd in ECDXR 2/19 is WENJ & they're on 1620, not 1610. Brh: What does v/f mean? (verie by form letter-Brh) Just figured my totals, here they are: 120/50, 23/21, 3/1, 1/0. 50th verie from WJJD just came the other day, after a wait of about 2 mos. I see there are still some stns which manage to be on every MM I am able to stay up (f'rinstance, WNEW). Maybe I should go FMDX. I turned on my FM rig @ 0300 & almost all the local stns were off. Oh, well....Time 4 me 2 s/off, so 73.

Budd Bailey - 8800 Wenner Rd. - Williamsville, NY 14221

This has been a great DX week for me. Stns have been bombing in. The highlight was KCRL, which is my best catch so far. KLUC came in fairly well, only DX Test hrd 2/21. Auroral cx prevailed on 2/16, TGRT was logged. Recent veries include: XEMO, WEVA, WJJD, CHNS, KFAB. New totals: 323/123, 38/32, 6/6, 13/3. F/c list sure helps totals climb. A blizzard this weekend helped SSS DX. Enjoyed SoM article on WA, maybe I'll log it this winter. 73s.

Jim Poterba - 949 Queens Dr. - Yardley, PA 19067

DX has really been great in the last few days - we got our first vacation of the 72 school year, & it brought 19 new stns w/it. Best were KLUC Test, XEPRS, KFH. New verie: WFBR. Two questions this week: Where can I buy a Broadcasting Yearbook, & what is Drake rock? (Not sure about Drake as I'm not a rr freak, but as for the BYB, it can be ordered from the publisher if you have a business title or know someone who does, such as DF-Brh) With KLUC & KFH, states totals are now at 38/33. CJCB was also logged of late for a new province. Re: format of CKCY - 920, are they rock or C&W? On 2/21, I was listening as they played C&W. Format change? Sorry to see Dave leave the ECDXR, but I just hope that the next editor will be as capable. I think that John Tull has a good idea in SP awards - after all, where would we be if every stn was NSP. Anyone w/out a loop would have in the area of 107 stns hrd. 73s til next time & best of DX to all.

Jeff Falconer - Box 63 - Clinton, Ontario, Canada

Hi gang! Haven't been doing as much DX as I would like due to work. On 1/15 I heard my 1st pirate; WIBH-1610 in Philadelphia. Has been hrd almost every evening since. Anyone know how much power it has? On 2/16 CJRN switched from 1600 to 710. Heard nights w/WOR & w/CHYR partially nulled days. Cx are still well above average w/41 hrd last mo. Recent veries: WGNT, WVOK, WFRO, WAIT, KCBS, WAVZ, WHEX, KLRA, KCRG, WAVA, WPUV all v/q; v/1: WARU, KWRP, WSOM, WYLD, WTCR, & WIOI. 73.

=====
I hope you all sent in lengthy Aniversary Issue DXF reports. I'll be disappointed if there aren't at least 5 pages of material.--Brh

Raymond Arruda - Holiday Inn - 70 Southbridge St. - Worcester, MA

Was unable to hear any Feb. Tests due to recent work schedule out of town. JR: Tnx for your recent letter. I don't collect CMs or SCs, its the verie that I'm mainly after. Very little time for DXing here w/the only verie in 2 weeks coming from CKEY. No new loggings in sometime & current totals are 804/344. 73.

Gary Grant - Route 1, Box 580 - Salisbury, NC 28144

Hello gang. DXing has been good lately w/25 new stns added. Veries are coming in very slowly. Veries in: v/c-WMAL, WCPC. Anybody ever in the area, stop by or give me a call (prepaid only). Bill Coleman is not but about 80 miles away. Give me a call, Bill. 73s & Good DXing.

Fred Precht1 - 6128 Glade Ave. - Cincinnati, OH 45230

DX here has not been fantastic, w/only an occasional new stn making its appearance on my dial. Veries rcd here since last rpt: WPTL, KYOK, KVGB(reputed as a non-verifier), KXOW, CFTR, KTRN, WAQI, WVAR, & WVAB, all pp'c's. CFTR stated that they use 13 towers in their antenna array. Wow, they must be the most directional stn in the world. I was always under the impression that WDGY-1130 held that record w/(I believe) something like 9 towers. Totals now at 1214/765, Canada 70/45, states 43/41, Prov. 7/6, Countries 11/5. 73s.

L. V. Flegle - 200 Delaware Ave. # 21 - Norfolk, VA 23504

Just sent in my membership to IRCA. Started DXing 1/8/72. So far I've logged 103 stns w/66 veries. Stations include: XEG, ZNS, PJB, WSRF, WINZ, WJAX, WNYC, WTVN, WIP, CKGM, CBE, CBM, CBL, & WWRL. I'm using a beefed-up car radio right now. Really enjoy DXing. Hoping for 250 stns this year. (Welcome to IRCA, report often. You should easily make 350 stns this year w/any time at all spent at the dials-Brh)

Bruce R Heimburger - 817 Rawlins St. - Port Huron, MI 48060

I am getting the responce that I thought I'd get on the other type. I promise next week bright and early to ask the boss if I can use the typewriter regularly, hi. Apologies to Bill Blazek for not printing his name at the top of his report. I'm known for that type of thing. Just ask DEE. I've frustrated our beloved publisher more than twice at this job. Couple of more unIDs for you to ponder. Stn at 665 2/21, 0403 w/cw. Kept repeating,, Also FF on 1140. Is CKXL in FF early morns?? Til next week.

CPC Results and Flash Tip cards Because the surface mail cards sometimes take 4 to 5 days, some air mail envelopes have been prepared and are being distributed. If you are willing to take time out MMs to notify of DX tests hrd or not hrd and other stuff of special time value, pse drop DEE a line for some envelopes. Be sure and mail cards/envelopes the same day as the test; even air mail won't make it during times DXM is mailed Tuesday night. -DEE

SORRY ABOUT THE TYPEWRITER. TURNED OUT THE ELITE AT WORK LIKES TO EAT STENCILS. CAN'T CUT THE PRESSURE ENOUGH TO AVOID TEARING STENCILS. THE KLUC-1140 TEST WAS LISTED IN THE DX CALENDER, BUT I SURE WOULDN'T CALL IT A SPECIAL TEST. MERELY DUPLICATED FM SIDE, AS FEW IDS AS POSSIBLE, CARRIED NEWS. HEARD ONLY TWO IDS THE ENTIRE 15 MINUTES I LISTENED. SUPPORT FOR THE COLUMN IS WAY DOWN FROM LAST YEAR. HOW ABOUT PITCHING IN AND SENDING SOME DXR REPORTS THIS WAY. 73.

CPC Results and Flash Tips No cards/envelopes in this week so far for the 2/28 pgms. Rick Evans, however, reports that KMMO was apparently on for their DX. WKLA 2/25 was not hrd by Tom Sundstrom. KLUC was hrd by Tom with ID 0307. And a mystery on same freq. at 0300 2/21 with call sounding like KMBC; power lkw and located in San Senota. A sign-on for r/c. WAQY not hrd 2/21. Steve Millay rpts that KLUC was in good parallel to KLUC-FM. Weaker but still good at 500w at 0321. ** Bill Feidt rpts no sign of WTOR 2/21. WGFA not hrd. He noted a Dominican Republic stn on 1192.5 or so about 0035 using slogan similar to "Radio Militario." KLUC-1140 was quite good to 0315 then faded. Alan Merriman rpts no sign of WTOR. KLUC and WAQY not needed. Al noted f/c's from WORV 0300-0315 and from WPJD-1550, 0245-0300. Steve Taaffe rpts that WGFA DX was definitely on; however they apparently did not come on until around 0400 when Steve hrd them w/cycle tone and march mx giving IDs after the music. KLUC hrd L&C with IDs, RR mx, and mention of KLUC-FM 98.5. Steve rpts KLUC seemed to go off at 0321 (this was when they went to 500w, Steve; DEE). That seems to summarize the flash cards on hand. Those with cards might pen on them "DELIVER ONLY AS ADDRESSED"--maybe that will wake up Riverside PO which is sending them down to POBox sometimes.

DX Meeting Robert Kramer, 3406 W. Pierce, Chicago, IL 60651, will host a DX Meeting Fri. Apr. 7 through Sun. Apr. 9. Bring veries, rx's loops and headphones (to avoid waking up the household). Also SCs & CM traders. If you need directions or can provide others transportation, call 312-235-5188. Get-together starts at 3PM on Friday. -Robert Kramer

CENTRAL DX FORUM

Editor: Lynn D. Brooks - P. O. Box 253 - Ponca City, Oklahoma 74601

David Oliphant - 798-16th St. N.E. - Medicine Hat, Alberta, CANADA

Greetings. By now you have all noticed that I am PoM editor. For those of you who don't know, the first province I am doing is Nova Scotia. Information on what you can and have heard, station formats, schedules, addresses, verie policy, and any other information you may have is needed. Send your tips now and help those of us who have not been lucky enough to hear this province. Deadline is March 15, 1972. Now to DX; cx around here seem to be good w/6 new stns hrd in the last week. Might have hrd the KUPK test on the 7th but I think they said they were on the frequency test portion. Total hrd now at about 365. If I had only done that in 1 yr, that would be a station a day. 73's.

When rptng to WDXR pse double-space between items, single-space w/in items, & use 1 side of sheet only. Typewritten rpts are preferred but a neat job of printing will do. Also, be sure to init:al your entries & give the call ltrs of the stn you're rptng. 73's, CU in Anniv. issue. -BGP

Editor: Bob Jacoby, 556 E. Alvarado St., Pomona, CA 91767 (Thurs deadline)
John Oldfield - 11623 84 St. - Edmonton 20, Alberta CANADA

Local CFLU, lots of working overtime, and even some DXing are mostly the reasons why I haven't answered many of you guys. Only four tapes to go so hang in there. Conditions have been lousy for over two months PLUS the static. Only a handful of good openings, one to Florida and the KLEB DX. Bless the Morse code. My longwire dropped dead on the roof, and it causes noise on my loop when the wind blows. Somehow I can't see myself up there when it's 58° below zero. Two examples of high powered regionals in this area: CFCW-790 beams 10kw NE&NW nights while KJRB & KGHL easily knock them down here, 50 miles from CFCW. Both "low" powered K's beam my way to protect each other. CJYR-970 beams so well at night that KOOK/WDAY/KREM/KOIN and even K-PUA Hilo are heard killing YR (90 miles west) here. KOOK/WDAY/KOIN/KREM also protect each other. Also: CKRC/KIDO/KHOW can be heard o/local CHED-630, 20 mi SE of here. Likewise KFAB o/local CHQT-1110 25 mi SE of here. CHFA-680 protects so well that KNBR is heard thru CHFA's OC. Dave Fisher: I guess I'd only count five months as real daytime DX here. Stuff like KFBK, WCCO, KKHI, KRED, KSL all over 800 miles have been heard here at noon. Still it's interesting how we suck KFBK out of its sunshine into our semi darkness.

Bruce Portzer - 14056 5th Ave. S. - Seattle, WA 98168

To JO: I don't really see why NWT should count as three provinces. A little research at the library revealed that the three districts are "administrative divisions" of NWT, probably similar to what counties are down here. Also, NWT is governed from one capital, Yellowknife, rather than three. To get technical, NWT (and Yukon for that matter) shouldn't even count as provinces, because they aren't provinces. However, since they're adjacent to the rest of Canada it would seem more logical to count them as provinces than to count them as countries. Besides, for those of us who can hear NWT or Yukon, it's an easy to boost our provinces heard and verified totals, hi. After nearly eight years of DXing I finally reached the coveted mark of 1000 stations heard. #1000 was KZUN-630 in Opportunity, Wash. Now to get KPUL-1150 for all of Washington logged. Totals are currently 1006/450, 42/38, 7/7, 38/21. Also have 13/5 Estados, 3/1 Aussie states, 6/2 Colombian Departamentos. Latest veries: v/q KPAT 2NR CMW+Pennent KPOW CKRM CFSL KFAC WOHO BBC-647 NHK-700 v/1 KFVB KYSS KORE KSUE CKPG KBEE KCNO ZNS KBLC v/r KJRB KCFA. That does it from here. Seventy trees.

Jerry Thatcher - P.O. Box 3014 - Nellis AFB, NV 89110

Hello out there from sunny Las Vegas where it is currently 80°. DX is coming in slowly but the static is making me wish I had never got started in this hobby. Current Nevada totals are 120/21/3. Total veries are at 178. Since being here I have added 29 stations to my overall heard total. Last night (2/21) I heard WOAI testing from 0305-0330. Do they have this test every MM? Thought the recent Washington SoM was done very well, hope everyone got their Nevada SoM tips in. Is anyone interested in a KENO-1460 "newspaper type" SC? It's not very extravagant but it is Las Vegas's only SC. PRK-What was the decision made by the board? Hate to take any credit from Fred Tankersley of NRC but the recent KLUC "test" was not a special. KLUC has these tests at regular periods (more info on this in NV SoM). Gotta go. 73's and DX. (DX Calendar does not pretend to indicate a listing is "special"; anything of unusual interest can be listed. A DX is a program from a fulltimer; a TEST is from a day-timer or a fulltimer using daytime facilities. KLUC could not legally have carried special programming and some stns that do are in violation of FCC policy. More at a late date-DEE)

FOR SALE Tom Sundstrom has PE mags (1/68 - 5/71) + 11/63 EI for \$14. Also 1/68 - 11/71 EI plus same 11/63 EI for 12. Plus Electronics Exp. Handbooks for 1958, 1960, & 1964; Radio TV Exp. 3 issues 1st half '68; and 1 issue CQ 7/59 (antenna issue); these 7 items for \$2. Write Tom at Box 205, Willingboro, NJ 08046, for any further details.

5.1-57	F	F	F	A	O	F	F	PASSED

Key to Symbols: O=Opposed; F= Favor; A=Abstain

Board of Directors: Lynn D. Brooks, Donald E. Erickson, Richard C. Evans,
Glenn Hauser, Michael B. Northam, Dr. Richard E. Wood,
Michael G. Worst

5.1-50, 5.1-51, and 5.1-52 For the original text of these proposals see 12/18/71
DX Monitor, "President's Report" p. 6-8.

5.1-57 It is proposed that, in the event of the dismissal of any or all of the mem-
bers mentioned in 5.1-50, 5.1-51, and 5.1-52, a full year's membership fee
be refunded. This fee will be at the current rate and at the class of mail
service the member currently holds. This fee shall be sent via registered
mail, return receipt requested, and shall be in the form of a cheque drawn
on Club funds or a U.S. Postal Money Order. Submitted 14 January by Percy
R. Kesteven

Commentary

Glenn Hauser's vote is a complete abstension due to lack of receipt of his
ballot at the specified deadline.

Respectfully submitted,

Percy R. Kesteven

Percy R. Kesteven
President

NOTES FROM THE JANUARY 1972 ANARC NEWSLETTER

"As of January 1, 1972, DX Stamp Service has a new address: G.N. Robertson, W2AZX,
83 Roder Parkway, Ontario, New York 14519. For those not familiar with this service,
DX Stamp Service has, for several years, supplied DXers with current mint stamps of
almost every country of the world--stamps which often would be difficult, if not
impossible, to obtain from any other source. In view of the recent devaluation of
U.S. dollar on the world market, it would probably be a good idea to get a current
price list from DX Stamp Service before placing an order."

The NRC reports that a 31 page list of information on Spanish Medium Wave stations
is available from Benelux DX Club, P.O. Box 2027, Den Bosch 4004, Holland. Jan
Burger prepared the list which contains details on networks, a station index ar-
ranged by province, and a station list by frequency giving power, network, address,
director's name, schedule, telephone number, and QSL policy. There is also a
Spanish/English form letter and a list of Spanish DXing terms. Price of the list
if six International Reply Coupons.

A new listing of clandestine stations, including their frequencies and mailing ad-
dresses, is available and will be sent by air for two International Reply Coupons
by writing Japan Radio Club, Terou Kataoka, 21-10, Koshien 7-Bancho, Nishinomiya 663,
JAPAN. It is not know if this list contains medium wave stations--perhaps someone
in the IRCA will write and let the rest of us know.

Your ANARC Reps are Percy R. Kesteven, Father Jack Pejza, and Dr. Richard E. Wood.

Support your CPC. Write Randy Minnehan, 975 Chestershire Road, Columbus, OH 43204.

And while you're at it, why not apply for an Achievement Award? Write IRCA AAC,
Percy R. Kesteven, 13112-134th Street, Edmonton 44, Alberta, CANADA. Do it today!

TDV is total domestic verics, SV is states verified, PV is provinces verified, YR is the year you began DXing. * indicates your totals need updating. Welcome to all new contributors! Next time we'll feature best verified from North and South America, followed by best heard from Idaho, Kentucky, & New Brunswick, and best heard from N. and S. America. Till then 73 and good DX to everyone. Take 'er away DEE.....

REMINDER--Please request forms for above from DEE where possible. Otherwise, the postage has to be paid to ship them to Bruce and them once again when they go out. But if you are writing Bruce, don't hesitate to enclose SASE for a supply. Or send DEE a card and get some FREE, no postage.

GRAVEYARD RECORDS - John Zondlo's pilot section is on pages 17 and 18 this issue.

If you glance down the list, you'll see a lot of stations up for grabs and a lot of records YOU can easily break. There is, currently, no distinction made between heard/verified. It is suggested that you do indicate date of reception and time if known. Future refinements might include other material. To submit your information, use either a card or letter and give the frequency, call, location, and date/time of reception. You should not figure mileage; John will calculate for the potential records. 1240 will be next section. Deadline: when there is enough material to complete 2 or 3 stencils. So send either your 1230 record breakers or ALL STATIONS LOGGED on 1240 kHz. John's address is: Palmer Box 101, Muncie, Indiana 47306.

KTYN REGARDING THEIR 1/31 DX "My sincere apologies to you and any members of NRC who may have spent time trying to raise KTYN Radio on 1/31. I got hit by the flu bug on the 29th and spent the weekend flat on my back. I was up and around by late Sunday afternoon, but I didn't go to the stn w/ the result that I didn't see my appointment calendar until Mon. What I'm trying to say without just plain admitting I goofed is that I forgot the test." See this issue's DX Calendar for re-scheduled program. -DEE

NEXT ISSUE It's that time of the year again. IRCA will celebrate its 8th Anniversary with the publication of next issue, March 11, 1972. Some special material is being worked on and it is likely to require a lot of extra work to produce the larger than normal issue so please be patient if it arrives a few days later than you have been receiving DXM. First class delivery should be made by March 17.

THIS ISSUE A few things are being held for lack of time to properly prepare if this bulletin is to get out tonight/tomorrow morning. While no promises are made, much of this material will either be used next issue or relegated to the files. Mailing should be by 4 AM on Wed., March 1, 1972. And to work by 8AM? Ugh!!! -DEE

NOTES--(I) Now WRIL

This article is a pilot project of what will soon become a regular feature of the DXM, pending BoD approval. Any questions/comments regarding the column, please send to me at Palmer Box 101, Muncie IN

Editor: Father Jack Pejza, 3266 Nutmeg St., San Diego, Calif. 92104. Telephones: 714-282-0076 or 714-282-2184. Deadlines: Fridays, eight days before date of publication. Use GMT (EST + 5 hours) in reports, one side of page, preferably in order of frequency, typed, and by section.

Geomagnetic Indices-- Feb. 16-22 5 15 8 9 8 6 3

- 529 ... Algeria, Ain Beida here 2/18 0105 still on and //548 with Quoranic chanting for New Year. Logged on TRF Portable, signal far better than on SX-130. (PT,E)
- 539 ... Kuwait, presume this one here on 2/18 on various checks between 2330 and 0100 with AA chanting. How does one ID a catch like this? Listed IS not used on the hour, and music continued over the hour. 1345 not heard. Of course, this logging not counted. What would YOU do? (PT,E) (Cry. Ed)
- 548 ... Algeria, Oran noted with chanting, very good strength at 0609 2/8. (JH,E)
- 593 ... Morocco, Oidja noted 2/11 2328 with lots of chanting and an excellent signal; a very low het also present. (PT,E)
- 665 ... Portugal, Lisbon with PP songs and male announcer at 0029 2/4. In general, conditions noisier than the 2nd or 3rd of February. (JH,E)
- 701 ... Morocco, Sebaa-Aioun also 2/11 2330 with better-than-average signal in chanting. (PT,E)
- 809 BBC4 Scotland, 2/11 at 0725 with weather, rare this season. WGY silent. (PT,E)
- 818 ... Egypt, Cairo with woman chanting at 0546 2/2. Some QRM from HJED on 820. (JH,E)
- 836 ... Lebanon, Beirut on late for New Year with chanting 2/18 at 0110. A super-signal--het and audio patches even on TRF. (PT,E)
- 863 ??? UnID. What gives here? A station with definite AA chanting and similar fade characteristics to other Middle East stations on 2/18 from 0146 to 0200, when carrier cut. (PT,E)
- 908 ??? UnID noted on both 2/15 and 2/16 with high-pitched Quoranic chanting by woman from 0200 to abrupt carrier disappearing promptly at 0355 on both dates. A conjecture says Bagdad, but in this business, conjectures ain't good enough, hi. (PT,E)
- 935 ... Morocco, Agadir at 0100 and later with Quoranic chanting 2/15 and 2/16; undoubtedly for Islamic New Year. (PT,E)
- 1115 RAI Italy, Bologna II with accordian and woman singing at 0621 2/3. Good strength. (JH,E)
- 1196 VOA West Germany, Munich in EE, very good ID at 0629 2/3. Believe this was them noted earlier in SS. (JH,E) (Not sked in SS per WRTH. Ed)
- 1142 AFN West Germany, Stuttgart perhaps the strong het with patches of audio, choral singing at 0637 2/3, per Bill Feidt. (JH,E)
- 1214 BBC England, excellent level, a snap in EE at 0535 2/3. (JH,E)
- 1223 RNE Spain, Madrid with SS tunes, very strong at 0545 2/3. (JH,E)
- 1376 ORTF France, Lille 0502 with man speaker in FF, good. 2/3. (JH,E)
- 1385 ??? Greece? station on 2/11 at 2307 looping north of ECS11 playing MoR including "Blowin' in the Wind" interspersed with talk in unusual-sounding language between each selection. (PT,E)
- 1466 ... Monaco, Monte Carlo at 0620 2/5, very strong with male in FF, in between vocals. (JH,E)
- 1475 ??? UnID TA heard with what appeared to be chanting alternately male and female, loop about 40° with very patchy and shallow audio. This at 0322 2/17. Later at 0400, heard with Russian male, female announcers, under Vienna IS. Baku?? (RJE,E)
+UnID heard on 2/18 0325-0400 with Near-Eastern music; some talking, male and female announcers, language not discernable; it ISed at the same time as Vienna (0359), sounded like it was an IS in minor key or modal, as contrasted to Vienna's major key IS. Could this be the new Baku outlet, listed as 150 kw.? (PT,E)
- 1502 EAK59 Spain, Orense, "Radio Popular de Orense" local ID noted 2/12 0703 on top of EAK pile-up, amazingly enough. (PT,E)

- 1529 ??? UnID station noted here often, notably 2/6 at 0000 s/off, returning 2/7 0800 in PP looping roughly 80°. Programming is MoR music, with constant segues, hardly and talking. There are alternate male/female announcers. May carry commercials. This one is either Madeira or Azonres (a new station). (PT,E)
- 1546 ... East Germany, Seelow noted here 2/7 at 0525 with light music and male announcer; weak but readable. This is the only station on the channel at this time. (PT,E)
- 1562 ... Switzerland, Beromunster, man in GG 0732 2/5, another quiet night. (JH,E)
- 1594 ??? UnID classical music format looping roughly 40° heard well atop the frequency with either Dutch or Flemish male announcer 2/14 0520. Again presume Hengalo, Holland. If so, WRTH'72 sked for this is wrong. (RJE,E)

Latin America

- 551 XEPL Mexico, Cd. Cuahutemoc, Chih. sure floats around; previously heard on 545 and 554; now here 2/20 0733 with similar ID as before, as Radio Exitos; s/off 0742. Bad het on KOY. (FJP,W)
- 570 XEBJB Mexico, Monterrey, N.L., Radio Fiesta, heard well over CFCB with SS MoR mostly instrumentals 0635 2/21. (RJE,E)
- 570 YVLX Venezuela, Caracas, s/on noted 0900 2/21. (RJE,E)
- 645 ZP5 Paraguay, or whatever calls are, Encarnacion in loudly with apparent news program 0850-0900 2/21. No tapable ID again, drat. (RJE,E)
- 650 HIAT Dominican Republic, Santo Domingo s/on noted 0900 2/21. (RJE,E)
- 655 YSS El Salvador, San Salvador good with ID 0905 2/21 MM; still there at 1023. Found out later from RJS that the numbers I heard were election returns. (FJP,W)
- +Presumably the one with what sounded like election returns noted in passing 0918 2/21. Didn't wait for an ID, but El Salvador did have elections on 2/20. (BP,W)
- +Presumed the one heard by Gordon Hanson, Chuck Albertson and myself around 0900-0930 2/21 with election returns and good signal. No spots or localities mentioned. (DGC,W)
- 660 XERPMP Mexico, D.F. Re recent conjectures here as to KFAR, XERPMP is the one with religion in EE 0300-0330, world news in EE 0330-0335, then MoR and EE to 0400 weekdays. Heard here 2/17 with distinct XERPMP EE IDs. Also, if EE heard on this channel, the Cuban does occasionally use EE, and a WIBS outlet has been heard here in past years by NRCers. More care before claiming Alaska here, I think, warranted. (RJE,E)
- +Beward, KFAR-seekers! This station heard 2/16, 2/17, 2/18, 2/19, etc. from 0330-0400 daily in EE, with MoR music, some religious tunes and inflection in voice which could confuse it for a syndicated religious program--it is not! (PT,E)
- 660 HCLG2 Ecuador, Guayaquil faint; but clear 2/21 MM 0732, with Radio Carrousel ID. (FJP,W)
- 670 CMKP Cuba, San German, booming in 0921 2/21 with IDs as "Radio Enciclopedia" and SS music. (DGC,W)
- 760 CMCI Cuba, Habana good with Reloj Nacional ID 2/21 MM 1029. (FJP,W)
- 760 ??? UnID, presumed a Mexican, with frequent Radio Moderna IDs, but no city or calls, 2/21 MM 1222; fade at 1226. Another SS weak underneath. (FJP,W)
- 834 ... British Honduras. Belize s/on 1200 with anthem 2/21. (FJP,W)
- 860 XEMO Mexico, Tijuana, B.C. s/off 0930 MM 2/21. (FJP,W)
- 880 ZYU33 Brazil, Porto Alegre noted here 2/1 with WCBS off, ID at 0645 as this station followed by mixture of MoR and Brazilian popular music; at first listen, expected normally--heard PRI3. This one noted in Peruvian's null. (PT,E)
- 880 OBZ4N Peru, Lima, Radio Union 2/20 0929-0935 fade-out. ID 0930, TC and SS announcements. Some ads. Latin Music. Fading very badly. (DW,W)
- 940 PRF4 Brazil, Rio de Janeiro, Radio Jornal do Brasil heard here before listed s/on time 2/21. In with PP well with WINZ off 0645 2/21. (RJE,E)
- Conditions seem to be improving--keep on trying for the good stuff...

- 970 XEJ Mexico, Ciudad Juarez, Chih. tested with ranchera music from 1121 tune-in to s/on 1200 2/21; no announcements at all during this time; full s/on at 1200. (FJP,W)
- 1020 HJDP Colombia, Neiva, Radio Colosal in well with KDKA nulled 2/10 0813. (FJP)
- 1190 XEWK Mexico, Guadalajara, Jal. heard here atop Cordillera 2/14 0550 for a truly unique experience, hi. (RJE,E)
- 1350 XEQK Mexico, D.F., La Hora Exacta, heard here briefly under WSLR 0633 2/14. (RJE)
- 1370 WIVV Puerto Rico, Vieques on before listed s/on, in fairly well under inSiPiD Ohio station from 0913 2/21. Talk program. (RJE,E)
- 1440 XEVSD Mexico, Villa Constitucion, B.C.S. s/on with "2001" theme 1259 2/21. KUHL s/on a minute later; XEVSD generally on top. Thanks to Randy Seaver for this tip. (FJP,W)
- 1460 ??? UnID LA 0653 0700 fade-out (or s/off) with SS and IS of two quick dog barks. Looped about 180. Very shallow audio. 2/21. I wonder if the slogan is La Voz del Perro Descortezando, hi. (RJE,E)
- 1520.36 HJLQ Colombia, Barranquilla, Radio Minuto measured here badly hetting HJLI with WKBW off 0515 2/14. (RJE,E)
- 1550 XEBG Mexico, Tijuana, B.C. local s/off at end of EE rock show 1100 2/21 MM. (FJP,W)
- 1550 XERM? Mexico. Whilst separating SS'es looking for 4QD, heard (and taped) a very clear "Equis Eh Erray Emmay" (sic) atop Radio Cafe WKFE s/on and Radio Fantasia HJZI AN. Nothing listed anywhere with this call, regardless of list origination or frequency. WKFE made further monitoring here pointless. 0900 2/21. (RJE,E)
- 1560 WRSJ Puerto Rico, San Juan noted with s/on 0900 2/21. (RJE,E)
- 1570 HIMS Dominican Republic, Santo Domingo noted with s/on 1000 2/21. (RJE,E) (I thought HIMS was on 570, Russ. HIAJ on 1570. Ed)
- 1580 HJKF Colombia, Zipaquira noted by accident whilst DXing for most-wanted KIRT domestic: 2/17 with clear and taped ID 0045 topping channel. Listed as 1 kw, but some signal. (PT,E)

Trans-Pacific

- 645 ... China, 2/21 1506 gal in Chinese; not strong but heard well. Scads of Orientals audible this MM. (DW,W)
- 650 KORL Hawaii, Honolulu finally heard 1/24 with nice ID at 0800. "More solid gold on KORL, Honolulu" followed by ad for A-Z Motor Oil and Holiday Mart stores in Honolulu, Pearl City and Kailua, this sometimes over a very loud WABC/WOR mixing spur. Hawaii #3 heard, #2 taped. (PT,E)
+Heard quite strong after WSM OC finally off. Heard with talk about Oahu problems, etc. Announcer had very "mushy" voice, but bits and pieces were clear, including TC 0848 2/21 (as 13 before 11). (RJE,E)
- 650 JOIG Japan, Toyama. 2/21 1355. Man in Japanese. Played "Beach Bum" selection. NHK ID 1400 with 4 time pips. Later heard with JOIG ID at 1429, anthem, s/off then chimes after. Not a bad signal; no sign of KORL at all this MM. (DW,W)
- 650 AFRTS Ryukyu Islands, Okinawa 2/21 1406-1500 s/off. End of news, man announcer with 62° in Okinawa, almost continuous music after. Badly mixing with Japan and KYAK at times. Played back tape several times. Announcements at 1458, then NA, then "American Forces Radio". Never heard this one before. Too poor to report this time! Pat Martin called ... (couldn't read the next words - Ed) It was 59° in Okinawa at 1 AM or 1600 GMT. (DW,W)
- 750 JOIB Japan, Sapporo //770 but much weaker 2/21 1034. (FJP,W)
- 770 JOUB Japan, Akita with British accented EE lesson 2/21 1033; no pips at 1040; first TP heard well since November. (FJP,W)
- 830 JOBB Japan, Osaka parallel to 770 but much weaker 2/21 1045. (FJP,W)
- 876.6 ... North Korea presumed the weak one with some kind of singing 2/21 1048. (FJP,W)
- 890 AFRTS Alaska, Adak 2/12 1200 heard briefly: TC for 2 AM Alaska Standard Time; too much Chicago this time; heard 2 or 3 times before, later and longer. (DW,W)
- 970 KPUA Hawaii, Hilo fair with MoR 0952 2/21. (BP,W)

- 973 ... Asiatic R.S.F.S.R., Yuzhno-Sakhalinsk listed: 2/21 1250-1305 tune-out. Man in Russian. 6 pips (I think) at 1300: possible ID, then classical type singing, not too strong, but well heard for 15 minutes. First time ever logged. (DW,W)
- 1005 ... North Korea listed. 2/21 1130, man in Korean, rather poor signal: listened only briefly. Don't recall hearing this one previously. (DW,W)
- 1130 KLEI Hawaii. Kailua probably the SSB under CKWX 1002 2/21. (BP,W)
- 1350 KIVM Hawaii, Lihue fair/good with rock and jingles like KOL-1300 0920 2/21 and again 1230 2/21. (BP,W)
- +With rock and spot, very fady 0822 2/21: over OC of BC LPRTs. (DGC,W)
- 1420 KCCN Hawaii, Honolulu 0700 2/22 with s/off announcement followed by anthem. Poor with KSTN nulled and some CKVN 1410 slop. (DGC,W)
- 1440 JOWF Japan, Sapporo: man in JJ: not sure of 1200 GMT ID, but Sapporo was mentioned. Very poor due to adjacent channel slop. Wasn't looking for Japan up there. 2/21. (DW,W)
- 1560 ??? UnID, 2/12 from 0830-0900 looping 270° in Cuban's null: native Polynesian, aborigine or African type music with lots of drums and bells: high-pitched woman announcer reminding one of Miss Tarawa: later, noticed jazz piano music to 0900, when the thing must have IDed, only to experience the well known fade-out phenomenon and WRSJ's s/on clobbering it. (PT,E)

Verifications

- 590 CMW Cuba, Habana ICR pennant and v/q in 3 months. Verie was sent in an envelope with no stamps or postmarks on it, which was mailed inside another envelope with a N.Y. postmark and no return address. Typed in my address as "Seattle Washington 98168 D.C.," hi. (BP,W)
- 700 2NR Australia, Grafton standard v/q in 3 weeks airmail for report sent directly to station. Verie was postmarked Potts' Point, wherever that is. Report for 2NA-1510 sent to ABC Sydney last summer was never verified. So does this mean reports for ABC should go directly to the station? (BP,W) (I sent my report for 4QD to Brisbane, I believe. Ed)
- 1540 ZNS Bahamas, Nassau sent v/l in three months. Usual v/s. (BP,W)

Reporters

- DGC Dave Christensen, Seattle, Wash. Super TRF, SM
- RJE Russ Edmunds, Wayne, N.J. NRC
- JH Jim Herkimer, Oxon Hill, Md. HQ-129x, Sanserino loop

Portuguese Guinea A new MW transmitter of Emissora Oficial da Guine Portuguese in Bissau has been heard in England after ORTF s/off at 2300 until their own s/off at 0100. (SCDX) (1070 kHz)

Swaziland The new Swazi Commercial Radio has been heard testing from 0400-0500 and 1600-1700, Saturdays and Sundays till 2300, on 1376 kHz. Power is reported to be about 10 kw. Address is Fwazi Commercial Radio, P.O. Box 941, Mbabane, Swaziland. (SCDX)

Albania Radio Kukes (unlisted in WRTH on this frequency--Ed) on 994 has extended transmissions to 1200-1500 and 1700-1900 and improved modulation from very poor to rather poor. Heard in Sweden. (SCDX)

Sudan Radio Omdurman has commenced an External Service in Arabic at 1800-1900, on Saturdays 1900-200, on 620. (SCDX) (Unlisted on this frequency in WRTH. Ed)

Lists Different lists of MW stations, giving locations, frequencies, and powers, are offered to DXers for one IRC each by Gerd Lotze, DDR 99 Plauen, Am Tannenhof 64K. Lists available are Algeria, Yugoslavia, Great Britain, France, Belgium, Jordan, Spain, Sweden and Canada. (SCDX)
