1973 WRTH Released

Ralph Sanserino reports that ASWLC's Stew Mac Kenzie has received his copy of the 1973 World Radio Television Handbook. Also, other ASWLC members have received copies during the week of Jan. 29. Those copies were ordered through GILFER Associates in co-operation with the club, it is understood. Whether or not the IRCA copies, to be shipped directly from Denmark, have been received or not isn't known.

- 560 WHYN MA Springfield noted 1/22 w/WFIL on OC w/RR, promo at 0250. Second time ever heard here in 7 years. (DS-DE)
WFIL PA Philadelphia noted off MM 1/22 at 0115. Back on RS by 0310. (DS-DE)
- 710 WOR NY New York again noted off MM 1/22 0110-0345+. Only jammer there, nothing else. (DS-DE)
- 790 CKSO ON Sudbury 1/4 in strong w/ID & RR 0129. QRM from unID rocker, CHIC? (RCM-PQ) (CHIC is off at that hour, I think.-NG)
- 900 *WSWN* FL Belle Glade 1/22 good w/r/c 0100-0110 tune out. Sounded sorta like WWV w/1000 cps. Detailed ID 0107 w/TC.(BLC)
- 950 WGOV GA Valdosta 1/8 1755-1800 nicely atop w/NN mx & PSAs; ID just before the hour and gone with power/pattern switch. (WBF-MD)
- 980 WILK PA Wilkes-Barre 1/22 2332 ID and into nx; o/WTRY/WRC.(NG)
- 1000 *WHCH*?OH ??? Station here testing before legally starting to broadcast, 0300-0320 tune out. IDs every couple of minutes but poor modulation, also ran a few jingles. City might be Cleveland. (BLC-PA) (How about new daytimer WHTH Newark, Ohio?-NG)
- 1010 WABZ NC Albemarle 1/8 1710-1714 o/QRM with 5 o'clock report for South-Central Oil Co.; ID at 1714 & faded. (WBF-MD)
- 1050 WLYC PA Williamsport 1/21 fair w/semi-local WSKE nulled. Pop and several spots 0830-0905. (BLC-PA)
- 1070 WAPI AL Birmingham 1/25 1731 ID and into nx sponsored by City Federal Savings & Loan Assoc.; fair w/CHOK QRM.(NG-NY)
WHYZ SC Greenville 1/24 1710-1729 w/RR, 20-20 sports at 1720; good with CHOK nulled. (NG-NY)
- 1080 WFIV FL Kissimmee 1/8 1735-1742 way atop for a while w/C&W mx and spot for Ocala Co. restaurant; WBAL splash got them at s/off time, so no tape, although had many good mentions of call. (WBF-MD)
- WKLO KY Louisville 1/24 1731 wx, then into RR on Mike Rivers show; excellent w/WTIC nulled. (NG-NY)
- 1130 WPUL FL Bartow 1/14 1758 o/u WMGA w/some WNEW QRM w/s/off amt., caught call & ownership for ID, but not enough for tape. (WBF-MD)
- 1150 WGOV TN Chattanooga 1/22 fair thru jumble & occasional WWVA splash 0300-0400 w/pop; CKOC very weak. (BLC-PA)
CHSJ NB St. John 1/22 fair thru jumble 0335 at end of nx w/ID.
CJRC ON Ottawa 1/22 fair thru WGOV w/mx & FF 0337.(BLC) (BLC)

- 1190 WIXE NC Monroe 1/13 1729-1730 good level, about equal to WAVS w/s/off, used "Till We Meet Again" for anthem: WOWO took over after 1730. (WBF-MD)
- 1240 WCBY MI Cheboygan 1/1 fair on fade in 0231 w/ID, RR mx. QRM fairly light this M on 1240. (RCM-PQ)
- WSSV VA Petersburg 1/2 good signal w/s/off anmt, SSB 0200-0204. QRM very light this night on 1240. (RCM-PQ)
- 1260 *KWFR* TX San Angelo 1/22 poor thru WFBM 0119 on r/c. (BLC-PA)
- 1270 WHLD NY Niagara Falls 1/9 1700 in middle of s/off anmt.; fair but dominant; had promo for FM 98.5, no anthem; got enough for tape on this one. (WBF-MD)
- 1280 WGSO LA New Orleans 1/18 2215-2230 w/RR, ads; using new calls; good signal. (LVF-FL)
- 1290 WIRL IL Peoria 1/2 0209 mixing o/u WHIO? w/mx, many IDs. Surprise here as CJMS splash usually messes up 1290 bad, so bad that it is hard even to get WHIO. CJMS splash very light this morning, cx exc. for a change.
- 1340 WJMB MS Broodhaven 1/18 2155-2235 good o/mess w/pop and (RCM) ID 2230, "This is WJMB, 1340 on your dial in Brookhaven, MS." That's the kind of ID you like to hear all stations give. (BLC-PA)
- WOOW NC Greenville 1/22 fair thru jumble w/pop and ID 0100 & back into mx. Had dom. for previous 1/2 hour. (BLC-PA)
- WOVE WV Welch 1/18 2155 fair thru WJMB w/ntwk nx & ID 2200.
- 1350 WXCL IL Peoria 1/5 0200 ID o/WSLR, then into nx. I (BLC) didn't think anything got thru WSLR, hi! My 2nd IL of the year, both from Peoria. (RCM-PQ)
- 1370 KTPA AR Prescott 1/14 1812 fairly sure this was the one with s/off anmt. amid much QRM; power checks out and call seemed to be this, but a little muddy. S/off anncr was Bill Townsend; can any of our midwest members confirm this? Seems a little early for west AR s/off. (WBF-ID)
- 1380 WIZO TN Franklin 1/13 1758 s/off amid QRM w/FM promo & SSB.
- 1390 *WEOK* NY Poughkeepsie 1/15 ETing w/RR mx, ID 0101. Fair (WBF) o/WNUS. (RCM-PQ)
- 1400 WKWK WV Wheeling 1/11 faded in on top w/start of nx, ID 0200, faded back out 1/2 minute later. (RCM-PQ)
- 1420 WLET GA Toccoa 1/13 1745 atop w/s/off anmt., promo for FM 106.1 and mentioned 500w PSA; no anthem. (WBF-ID)
- 1430 WBLR SC Batesburg 1/17 1745-1746 w/s/off read by Becky Klarr, unknown mx used as anthem; very strong w/little QRM.
- 1460 WBNS OH Columbus this NSP'er is now playing RR on their (WBF) AN show, a format switch from MoR. Noted 1/22 at 0133. (DS-DE)
- 1470 WRGA GA Rome 1/20 1747 above WSAN and others w/spot for Enloe Drug Stores & promo for WRGA Dog of the Year contest; then into Georgia weather. (WBF-MD)
- KLCL LA Lake Charles 1/18 2230-2245 booming in w/C&W mx. (LVF)
- 1480 *KLMS* NE Lincoln 1/22 poor thru WLEE 0130 w/r/c 1000 cps. (BLC)
- 1500 *WGMF* NY Watkins Glen noted on an ET 1/22 w/mx, tone, OC and a "voice check", 0120-0215+. Signal good here for 250 watts. (DS-DE)
- 1520 WKBW NY Buffalo again noted off very briefly 1/22 0254-0307. Second week in a row that they've done this. (DS-DE)
- WTTT OH Toledo w/KB off, in weakly 1/22 0256-0306 w/RR, and a real screamer of a jock. Still was readable when WKBW threw on OC at 0306, but was gone when they went back to RS at 0307. (DS-DE)

- 1550 WLUX LA Baton Rouge 1/14 1830 mostly atop WBSC et. al. w/s/off anmt. for tape. (WBF-ND)
- 1570 WFCA NC Siler City 1/19 1728 peaking briefly under stronger unid. w/s/off anmt.; enough for tape. (WBF-ND)
- 1580 KDAY CA Santa Monica again noted 1/22 0325 w/RR, wx reports. Audio very shallow, but signal was better than before. KLOU was off. (DS-DE) (A good catch, Dave. I've listened on 1580 literally hundreds of hours and never heard KDAY.-NG)
- *WSRF* FL Port Lauderdale brief ET 1/22 0324 w/long involved ID, short burst of mx, then off. (DS-DE)
- WKIG GA Glennville 1/15 1748 atop briefly w/jingle and s/off anmt. (WBF-ND)
- WCBU MA Lowell 1/20 2020 fair o/CBJ & no WCLS w/progressive rock, faded out later, but het noted til 2055 s/off. WCLS then completely dom. and no sign of WTKR which I was trying for. (BLC-PA) (Who's WTKR?-NG)
- *WORV* MS Hattiesburg f/c noted 1/22 0300-0315 per list, signal fair. (DS-DE)
- WPMP MS Pascagoula 1/23 1815 s/off w/mention of FM, SSB; good, o/KPCA who has become a regular here the past few months. (NG-NY)
- UnID ?? Extremely weak s/off heard 1/24 1900, sounded like 1000w. Told listeners to tune to FM 105.3 for pgmg. until 11pm. Mentioned 105.3 twice. Definately wasn't KPIK as sounded nothing like their s/off. I can't imagine it being one of the Texans--but how about KWED? Anyone?? (NG-NY)
- 1600 WPOM FL Riviera Beach 1/16 1800-1815 w/RR, ads; good sig.(LVF)
- WCGO IL Chicago Heights 1/21 fair o/jumble 0730 w/program from IL State University. (BLC-PA)
- WAQI OH Ashtabula 1/21 0800 excellent w/WNEU nulled w/"This is WAQI Ashtabula, OH. It's 20 sec. before 8 o'clock, at which time we present The Hour of Decision." Sounded like he talked about a minute. (BLC-PA)

Where is everyone this week? Lack of reports has forced ME to DX-- which is really bad, hi. I'll excuse some of you who submit reports nearly every week, but how about the rest of you? We have a good number of members here in the East, now you ALL can't be too shy to send us your DX! All I ask is that you use one side of the paper, leave a space between items, don't forget to initial everything, and tell me your rx and antenna. When listing your catches remember to give frequency, call letters, location (state & city), date, time, details and quality of reception. If you are a survey collector make a note of it somewhere on your report and I'll send you WBBF & WYSL surveys--just for reporting. There are alot of DX Tests coming up in February so why not try for at least a half dozen or so? 73/88

Geomagnetic indices for the week of Jan. 24 thru Jan. 30 are as follows:

17 15 16 25 25 14 14

"Increased geomagnetic activity Feb. 4 to Feb. 7." Not particularly encouraging for TA DXers wanting Europe. However, be sure to see elsewhere for Ralph Sanserino's tip on reception of Dakar-764; African reception, in general, has been good recently according to information supplied by Ralph. Dakar, Senegal, is the easiest African on the West Coast (and about the only one). For other African bets, see the article "DXing Africans...Systematically," by Russ Edmunds and Page Taylor, in the June 17, 1972, issue of DX Monitor. It is full of good bets for African reception. A reminder that phone tips for the bulletin are appreciated. 714-687-5910 24 hours. -DEE

Another in a series of big MMs occurred 1/15. After many nights of trying, I finally logged KOB w/a nice ID. New states are hard to come by, and it's always nice to hear one. The discouraging part came 20 minutes later when Josh Hill called and told me KKIM was testing. KKIM was super easy; see DXR for details. Big goals for this season would be to hear KRDS, KGEM, & KPAR. Holiday DX was non-existent around here, as there were many ANers Xmas Eve, & I had to travel to MA on New Year's. Only interesting verie in is BBC-1214; interesting that they had me down for hearing them at 1200 ELT. Too bad it isn't true, I'm sure any DXer this side of the Atlantic would like that one. It's nice to see my name in the DX Calendar for the WACK Test, hi. I'm not too sure how well they'll get out, as WHK might hurt. (You might say that-Brh) Was happy to see Don Smith report; W. New York is making a move on San Jose, hi. I'll be looking forward to the long-awaited PoM. 73s.

Jim Poterba - 949 Queens Dr. - Yardley, PA 19067

Greetings, all. DX has been doing quite well here lately, w/good cx and very little aurora noted. Best catches have included WQXL & WNMT. Quite a few veries have come in this week, 21 (!) in fact (that's a new record here - got 10 in one day!) WDR-1586 HJHN-960, WKAQ, KLIF, WEOK, WBLU, QZAP, WCWC, WEAN, WHAZ, WYOU, WPLB, WSLT, WTMJ, WESY, WRIC, WPME, WAGE, CBL, WHBG, WNBC, WBAY, WWJ, WDOS, WJMA, KGBS, & WRIC. WNBC was in answer to report #6 to them - and I value it as one of my best veries of all time. What, you say, a 50 kW clear 75 mi. from here? Yes, the v/s was Murray the K, longtime WNBC DJ, who return my ppc (I addressed it to him, since rpt was of his program) w/the notation added "Right on, Jim. Thanks for your letter. Regards, Murray the K." Thus, anyone plagued w/this one as a non-verifier, try writing to the DJ you listen to. Everyone w/in range of WXUR-Media, PA, should make some attempt to verify this stn now, before it leaves the air (they've lost several court suits so far, now before the Supreme Court. I think they'll lose again). Thats all...73s.

Greetings, everyone! DX continues to be excellent, w/34 new ones this week. Brings my total up to 1131 hrd, 105 this month as of pm 1/21, average of 5/day. If I can keep up the pace, I should have 155 for the month. Fri. morning, according to r/c list (3rd Fri) is 0000-0015 for WCDL-1440. @0010 hrd carrier come on & then tone, which lasted for 1½ min. Tonè went off, then carrier. No IDs. The next day, I called WCDL. Sunday I finally got hold of the guy who ran the test. He said that it was indeed they, w/1½ min. and no IDs. I asked why no ID & he said he didn't know any were required. I told him I would like to encourage him to give IDs next test & he said OK, having listened to a little about DXing. This points out the reason why so many r/cs are apparently "non-show": the fact that only about 1½ min. is actually needed to measure freq; if there's a r/c you really want to hear, listen straight thru whole time period, you'll increase your chances of hearing it. (Report cont. next issue-Brh)

A re-intro is due since it has been a while since I last reported. I'm 16 and a junior at Washington-Lee HS, & atarting my 3rd yr as a member of IRCA. Cx here have been good, but as far as I'm concerned, not as good as last year, especially SSS. WXLN has apparently been sold, hence the call nchange to WCTN. Per spots on WWDC asking for donations for WCTN, the call stands for Christ To the Nation. A lot of my DX time has been spent writing reception rpts, expecially to the many local stns around here, plus those national stns which ignored by 1st rpt. 1972 was the best year ever, w/a a little u/200 new stns hrd. Totals 442/72, 33/27, Hammond in 73.

Not much going in the way of DX on 1/14 and 1/15. On MM 1/15 WBTX Test tried but not heard. WJDX also tried with no luck the morning before. WWRL was on, and WOR off. I got a log on the 20 watt pirate from Westford, WCBU-1580. This is my first illegal station logged here. They were signing off and announcing power of 50 kW... ..the little rascals!!! Veries: WQQW, WDMV, WCWC, & CFGO. 73.

Don't forget to cast your ballot! The ballot card appeared in the Jan. 27, 73, DXM.

Greetings! This being exam week, I haven't had much time for DX. I did get one v/q KMOX and sent off a report to WWWE, formerly WKYC. Gregory Spencer: I just got your SCs! Thanks alot! I've got some WLEE SCs I'm going to send you soon. Anybody else who would like some WLEE SCs, send anything you're willing to sacrifice or an SASE. I'm trying to get my hands on some other stns, but am having a hard time. Talked to WRVA and found that they go off every Sunday night from 0000-0500 EST. It's a new one on mee. Sent to FJP for the Foreign Log. I'm now in the market for a new inexpensive receiver, so anybody out there, please write. Well, 73s.

Hi! Long time no rpt to EDXF. I had the flu from about 12/15 to Xmas, I was really down & out. Nothing was hrd as I couldn't stay up as I didn't feel too good. Also had a few exams which didn't help any. Re my tip regarding AN FFCs, I wasn't feeling too good Xmas eve so I didn't stay up too much. I noted my local CFLV on past midnight w/midnight mass, their usual s/off time is 0000 on MM. Also hrd some FF programming on 1270, maybe CFGT. After listening to my tentative CFGT, I really felt lousy so I gave it up and went to bed. I hope everyone else had better luck. Well, I ended the year at 249, my goal was 200 for the year. I had 248 on 12/11 but then I was sick. Boy, I could have made 260 or 270 if nothing had gone wrong. Such is the breaks of life. This year I got only 5 new by 1/13. That's bad. New Year's resolution here is to rpt at least once a month to DXR & DXF. One last thing, welcome to our new editor of EDXR. 73s.

SUGGESTION Glenn Hauser, Box 62, Von Ormy, TX 78073, writes: "I would like to request...you also list withdrawals...for the info of members and to show we have nothing to hide. Other clubs do, mainly overseas (ARDXC, e.g.)" As publisher, I feel the idea has merit. It certainly would not be particularly difficult and should prove helpful for the Contest Manager and DX Records editor. The opinion of the membership is solicited; assuming general agreement, "Withdrawals" or "Non-renewals" will be listed as soon as the next membership list is published. In the meantime, to accomplish approximately the same purpose, a list of those whose memberships are due to expire will appear occasionally, such as above. By checking subsequent renewal lists, you can tell if any individual listed has not renewed membership. Please send your comments on Glenn's idea to Don Erickson, 6059 Essex St., Riverside, CA 92504. Prompt renewals are greatly appreciated and help assure that you don't miss a single issue. -DEE

 Lots of things to say, and no room. Such is life, hi. No veries. 73

Dr. Richard Wood - Dept. of For. Lang., LSU - Baton Rouge, LA 70803
Continuing the offset discussion, I have to disagree w/GH; the present format becomes, over a period of years, so bulky that it occupies an entire file cabinet drawer or more; the alternative is to throw certain sections away, a difficult choice. Reduction to digest format would enable easy storage. For reference to certain much-wanted station lists, etc., Xeroxes could be made (at half the present cost) or a tab-index installed. But the essential unity of the DX hobby-foreign and domestic loggings, conditions, records, current controversies, all at one particular point in time, makes unitary filing of each easy issue of DXM preferable. Now an appeal - please, no unsolicited tapes. I receive five or six of these a week and cannot cope. I will gladly hear from any member by phone (504) 343-7771 and listen to tapes that way but cannot cope with the logistics of borrowing recorders to suit the various tapes and cassettes arriving out of the blue. Letters are always welcome.

Robert Kramer - 3406 W. Pierce - Chicago, IL 60651

Hi: Today I just marked the best day of my DXing history. I logged 16 new stations in one 24 hour period and sent out 17 reports today. I also have one report to type up to go out tomorrow. The best catch was definitely WVMT bombing in, I have a real good tape of their s/on. Other good catches were KEOS-690 also taped and KPNW (state 47). Also much wanted KCHY. A couple of veries in today. V/q KOGO-600 and v/l KLMR-920. I now have a perfect record for California with the KOGO verie. 12 heard and 12 veried. Remember Hammond is the place for the '73 convention. Speaking of 73, so long til next week.

Michael Hogan - 4811 Euclid Avenue - East Chicago, IN 46312

The best thing has happened to me since I joined the IRCA, I ordered a Deluxe SM-1 antenna for my BCB receiver. In anticipation of a large boost in my heard and verified records, I thought it would be nice if I warned the other contestants in the domestic heard contest. I've tried a few evenings to get frequency checks and not been able to get one station testing yet. Are the stations really testing or am I doing something wrong? Keep supporting the column and remember Hammond in 1973. 73's.

Joseph Markewicz - 1394 Elgin Ave. W. - Winnipeg, Manitoba R3E 1B6

The newest powerhouse noted since Xmas came in the form of KAAT 1090 Denver 'Radio Colorado'. KAAT is in here every day on any type of receiver with fair to excellent listenable signals with no slop from local KNDK 1080. Before this, KTGO 1090 Tioga ND used to be my semi-local on 1090 but KAAT now has the honors. KREX and KOA are still heard here days but not with that good of a signal as KAAT. I wonder when KAAT will start giving the wx for Winnipeg? If the day cx are really good, I am able to get decent signals from KLAJ and KBTR 710 during the day hours. Also the new KCHY on 1530 can be heard here days. 73

David Shapiro - YMCA Room 424 - 101 Locust St. - Des Moines, IA 5030

No new DX, but a couple of veries in are v/l KJSK 900 Nebraska and v/l WIZM 1410 WI. Does anyone know where to obtain the 1973 Communications Handbook? My local newstand doesn't have any in town, even though he said he had ordered some. Has anyone else ran into this same problem? (Have you tried any electronics shops, Dave?-jz) The IRCA Foreign DX Log is really great, and it is professionally well done. You DXers will miss out if you don't obtain one. Also I ordered me the NRC Night Pattern Log, and last week got a QSL card album from Gilfer, and boy it is really handy for displaying your prized cards. Hammond for 73 and good DX to all.

George Derringer - 4041 Bethel Dr. - St. Paul, MN 55112

Greetings! DX has been sporadic of late. A couple of format changes you should know about, from the chilly north. KUXL-1570 has changed afternoon programs from soul music to talk. Religion from 6AM-1PM, then talk till s/off. Only talk in town now with WL0L playing music. Also, KSTP now has C&W from midnite until 5:30. Just found out that the guy two apartments away on my floor is also an IRCAer, a new member, Wayne Forrest. Perhaps our mutual encouragement will get us both into the pages of the DXM with some regularity. He has been DXing for awhile, but we never knew about the other guy. If he had not joined IRCA, we would never have found each other. That's one of the problems with so many DX clubs being in existence--someone else in our building could be an NRCer and we would never find each other! Must be some better way to find other DXers in your area.

Keith Mehl - 1320 SW Broad St. - Des Moines, IA 50315

Hello dere! I have something to add to the XELO/XEROK thing. On Sat. January 14, from 2315 to 2330 I heard the last half of Back to The Bible, then at 2330 $\frac{1}{2}$ I heard an ID given in SS (no call letters but location was positive) then into RR mx. Now was it XELO or XEROK??? Now to other news, I would like to get started in survey collecting and if you need a KSO or KIOA or both drop me a line (be sure it has your local stations SCs in it). Special thanks to Jerry Peck in IDing my unID SS on 1180, that gave me state 32 Florida (now I've just got to get the other 18 states hi). Veric in of late, local KSO v/q after 147 days, report date 7/27, received date 12/20. I've got to send local KRNT f/up report #3 and pray that the CE verifies this time. Thats all for now so 73's in 73 and Hammond, Indiana in '73 (even though I won't be able to make it there).

Karl Forth - 630 S. Ardmore - Villa Park, IL 60181

Greetings. DX continues to be good here as we're in the heart of the season, even some foreign DX in. Radio Paradise-1265 is heard every evening now with religion. This one should become even easier than Belize. Many veries in: v/q- KAAT-1090 (address is 18th Ave. & Grant St.; Denver, CO 80203) WBAM-740, WFBR-1300, KPMC-1560, CKRM-980, WFIR-960, KOOL-960, WLPO-1220, v/1- KTAT-KMCD-1570, KCOG-1400, KZYM-1220, KVSA-1220, KDFW-1500, WPDQ-600, WIXN-1460, KRFS-1600, KSKY-660, KUSD-690 (#8 f/SD of 8 hrd) WNAD-640, KEND-1590 (6 mos.) Dave Rogers - 623 $\frac{1}{2}$ Kansas - Norman, OK 73069

Greetings & Happy New Year: Well, I made it back for the 2nd semester of my junior year at law school here at OU. I would favor the IRCA going offset if it would lessen the work load on Don Erickson even if it would mean an increase in dues. I generally agree with ree on his proposals on staggered terms for the BoD & on his stand on the FBIS controversy. In re open letter (DXM 12/23/72 p.34) on the consequences of sending reports to Communist stations: I don't see any more wrong with having a QSL from a Communist country. Several years ago I mailed a report to R. Moscow. The postmaster wanted to know if I was "their agent". But I don't let little things like that bother me. The most powerful clear channel in Norman is WOAI-1200, with nightly signals of 20db/S9 (local KNOR is 40db/S9) WLW-700 is best for distance. New veries: V/q WREC-600 v/1 KCMC-740. Brings totals to 546 verified on BCB from 43 states & 23 countries. 73 and Gud DX.

John Zondlo - Palmer Hall Box 113 - Muncie, IN 47306

Greetings everyone. Cx here still pretty bad, so no new loggings. Thanks for support of CDXF, and please try to limit # of veries listed.

John Tull - 5539 Oak - Kansas City, MO 64113

Things are not too great in the DX department. Very few domestic stations added in the last two months. I did notice an ad in QST that some of you may be interested in- "Collins Mechanical Filters 455 kHz 2.4 kHz bandwidth \$11 postpaid - V. Mozarowski, VE3AIA, 1 Belgrove Dr., Islington, ON, Canada." Sounds like a good deal. I have a few copies of plans for my FET loop preamp. Just send me a large SASE and I'll send it out. Radio Paradise really puts a good signal into KC. I sent a report on the night I received the first notice of this station from the IRCA. 73

This Issue ...will go out around 6 AM PST Tues. AM.

If after the mimeographing is complete, it appears impossible to complete before I must leave for work, the job will of necessity have to wait until Monday night. A lot of valuable work was completed this past week despite continuing problems with overtime. 7500 envelopes have been mimeographed eliminating the need for any further envelope mimeographing this season. Ready Verifiers List reprints were mimeographed and sent to all who requested. The 2/10 issue postage has already been applied and the labels are almost ready. With a week's vacation coming up during the period 2/17 thru 2/26, the NMPs should be complete at that time.

The envelope in which this bulletin is received contains 2 pages of next week's CDXF, that having been received on 2/3. However, it is numbered as part of the 2/3 DXM. On the other hand, DXWW-1 through DXWW-5 and page 34 of the 2/3 issue were mailed out with the 1/27 issue but included as part of this issue's Table of Contents. Therefore, you will find an apparent "hole" between pages 28 and 35.

CPC Results By phone, Skip Dabelstein reports reception of WERC & KTGO. WERC-960, the former WBRC, had phone calls from Ross Hansch & Randy Minnehan among others. Skip also relays word that Dave 'Fish' Fischer heard these two. KTGO had phone calls from Paul Hart, Ft. Worth, and someone from Rockford, Ill. IRCA member Rick Pinson? +++ Jim Boyd, Tulsa, rpts reception of KTGO between 0300 and 0310 w/wk sigs and XEPRS QRM + KAAV OC. +++ Alan Merriman rpts "another completely wasted MM at the dials. KTGO-1090 not heard...WERC-960 noted w/mention of NRC several times after 0300 but heavily QRMed. 2 weeks ago when I logged them for a report, WERC was completely alone on the frequency." +++ Bob Foxworth, NYC, had reception of tone at 0302 and 0307 but no voice. XEPRS & low het noted. By phone Bob confirmed that reception of the tones was correct. Though the engineer had told Bob they'd be on until exactly 0330, the tone was still noted until about 0334. WERC-960 tried but not noted. An AST zone stn atop, thought to be CHNS. Also lots of WJRZ-970 splash. +++

Flash Tips Dave Mielke, Vancouver, B.C., advises that CJJC-850 has now moved to 800 kHz; until sometime Monday 2/5, there will be a recording on 850 kHz advising listeners to tune to 800 kHz; this will be simultaneous transmission on both frequencies. CJJC is licensed to Langley, B.C. +++ Another tip from Dave is that CJVB-1470 is now AN, off MM only, 0000-0600 PST, 0300-0900 EST. +++ Jim Boyd noted WBAP-820 off, testing w/OC & TT, on 1/29, and hrd HJED underneath. Cx good to the south w/many Colombians heard. +++ Jim also rpts WHAS-840 continues to relay "Nitecap" with Herb Jepco; they started doing so 1/1/73. "Nitecap" originates at KSL-1160 Salt Lake City, Utah, and is one of the oldest telephone talk shows. Does anyone know HOW old? +++ Alan Merriman mentions Dakar-764 in with local like signal 0710 GMT 1/29; good sigs also heard from Canary Islands on both 836 and 1097. Carriers on other Canary Islands freq's. Loud het on 1350 from Mauritania but no useable audio. And last, possibly had much-wanted KCHY-1530 Cheyenne, Wyoming, at 0315 EST 1/29 but too much KFBK QRM for ID. +++ Skip Dabelstein says Fish is working on some more technical articles which should be ready for publication in both clubs' bulletins before long. +++ Flash Tips continued on page 14 with more items from Ralph Sanserino, Bob Foxworth, Wes Boyd, and DEE. Please keep up the fine support for CPC Results and Flash Tips.

editor: John Zondlo - Palmer Hall Box 113 - Muncie, Indiana 47306
for reports to be received between Feb. 22 and March 4, send them to
6617 Maryland, Hammond, IN 46323. I'll be back there then for quarter
break from school.
deadlines: every Thursday

Blake Lawrence - Box 803 - Canon City, CO 81212

Hello all. Not much DX done here at all recently...about the only thing of note is that KAAT-1090 is on, and seems to be widely heard north, east and west of Denver. But to the south, forget it. I get better signals from the low-powered Denver stations than I do from 50kw KAAT! They must be directional toward Cheyenne w/a null south. No big loss here, though; their format leaves a lot to be desired, hi. DXers in the midwest should watch for MSP KEDI-1490 Manitou Springs, CO. They're rock, and ID for KCMS-FM on the hour and half hour. KEDI seems to have improved its coverage, they even get in here (50 miles away) which they couldn't do a year ago! To the east, w/o mountain blockage, they should really move. Also watch for MSP rocker KDZA-1230 Pueblo. This station uses the "Solid Rock" jingles which WLS made popular. Aircheck collectors: I hope to have checks of rockers KKAM, KDZA and KEDI ready for you soon; send cassette or 7 $\frac{1}{2}$ ips reel with your local rockers and I'll reciprocate. FM rockers are of particular interest here, but please, no progressives...just Top 40 types. I'll try to write in again soon, but for now 73.

Joe A. Markewicz - 1394 Elgin Ave. W. - Winnipeg, Manitoba, Canada

During the federal elections here, CKY was going to start their coverage at 7pm CST, but DOC told them they couldn't begin coverage until 8pm because of CKY's good signals into Sask. (CST) yet CBW, which also has good signals into Sask. was able to begin at 7pm. Does this mean DOC has one set of rules for the CBC and another for private stations? The CRTC has approved the sale of CFCN 600, CKGB 680, CJKL 560, and CJTT 1230 (both Kirkland Lake) from the Thomson-Davies newspaper group to Maritimes Broadcasting for more than \$1 million. CKAT FM opposed the purchases. 73 and good FM DX.

Frank McCoy - Box 22374 LSU - Baton Rouge, LA 70803

It sure pays to read DXM. After reading about members hearing KGEM-1140 ID I decided to give it a try. On 1/22 I heard their 0200 s/off for state #33. Just last week I heard WEMP-1250 WI for #32. I knew it was there after hearing it from TN so I just waited for it and my patience was rewarded. Now for HI if I could get rid of HKKX-650. No varies, about to give up on KSWs-1020. 73's

Mark Fisher - 3032 Boynton Ave. - South Bend, IN 46615

DXing conditions here have been terrible. Highs have reached into the 50's two weeks in a row. Since I am a new member, I'd better identify myself. I'm 16, a sophomore in high school, and have been DXing for maybe seven years now. I have only seriously DXed for the past 3 years and only began to QSL stations a year ago, so my totals date from then. My totals are at this moment 63/46, 19/15, 3/2, and 1/1. I DX with a Motorola XCLZ3N AM clock radio, using a 56' longwire running E-W and using a Graymark 501 crystal tuner in the ground circuit as antenna tuner. So far, my biggest DX thrill was receiving and QSLing KNX 1070 (which shows you how good my receiver is, hi). At this moment I am wishing I had my NMP, since I could then QSL CMHI, CMKV, CMHQ, CMQ, I think XETRA and an as yet unidentified SS station on 830. Recent varies in are CBK Regina, Sask., WKBW 1520 Buffalo NY, WPTR 1540 Albany NY, (all these on New Year's Day), KSD 550 St. Louis MO, WVOK 690 Birmingham AL, v/q, and v/l from WTAR 790 Norfolk VA, WTHM 1530 Lapeer MI and CJRC 1150 Ottawa ON (6 months). Well, 73's and good DX. (Welcome to the club, Mark. It's good to see another Hoosier belonging to the IRCA)

Robert McKinney - RR 2 - Clinton, IL 61727

This is my first report to the CDXF since joining the IRCA over 2 years ago. Began DXing some 5 years ago at the age of 26 using a Halli-S-120 and long wire. Have since added a SM-1 and TRF (FM model). Thanks to tips and info in the DXM I have been able to log over 500 new stations, 13 new states, and several new provinces. Recent veries: v/l KSAL, WAVI (test); v/l & CM: WTAW, WTSO (test), WCHV (test), WEKR (test), WKUN, WDEL, KBRX f/c. WTAW, WDEL & KBRX were very friendly. CE at WTAW says he conducts weekly maintainance on Sat. or Sun. between 0100 & 0700. Uses C&W mx and has been heard in MN & ON. CE at KBRX conducts f/c every 3rd Tuesday 0125-0140 for Commercial Monitoring Co. Also v/q & CM: WSPD.

Robert Kramer - 3406 W. Pierce - Chicago, IL 60651

More fantastic DX made it here on 1M 1/22. The best being WPRO-630 in Providence RI. No. 2 from that state. It came in briefly while I was getting a report for KHOW. A grand total of 10 reports were sent out Monday with 4 more sent from SSS on Tuesday. Georgia got hot on 1/22 at SSS with 2 new ones from that state, WDXY-1460 & WSEM-1500. I just sent in my application for contest committee chairman today. Hopefully I'll become the head of next year's contests. A few veries in: v/q KAAAT. V/l WYVY, KMAR. I'm now exactly 3/4 of the way to 1,000 veried with 750. Heard totals presently 1082. Does anybody know if KXLF-1370 veries? I've been waiting since early this month for them and I want a verie out of them real bad, because they are my best catch of all time. Well that does it for now, see you in 7. 55 trees, somebody burned down part of the forest.

Houser Crain - 317 S. Sangamon - Lincoln, IL 62656

Greetings everybody, from the Land of Lincoln, in Lincoln! This is my first report as an IRCA member. Not much doing in Central Ill. on the DX line right now. My latest verie was CFRA-580 10/24/72; I also heard Trans World Radio on 800 1/27/73 for half hour. This is about it for now, so best of DX and 73's and 88's to all, especially to Shel.

John Zondlo - Palmer Hall Box 113 - Muncie, IN 47306

Greetings everyone. No veries in here lately, but conditions have been picking up. Most of my DX work has been concentrated on the graveyards. Welcome to the column, Robert and Houser, lets hear from both of you often. Hope some of you heard WERK 990 here in Muncie testing on 1/29. WERK has to be about the toughest stations in this state to hear, and this would be one of the few shots at them. By now you probably all have received your ballots for the convention election. Let's make Hammond "The place to be in 73". 73 and good DX to all.....

Flash Tips (continued from page 12) Bob Foxworth is another who noticed Dakar quite good on 1/29; "some TA's in fair, Dakar quite good, however, at 0726 GMT in vernacular." +++ At Ralph Sanserino's tip, DEE's effort at Dakar-764 for a new continent was a total failure without so much as a carrier. +++ Ralph on 2/3 rptd reception of Paradise-1265, St. Kitts; Haiti-1035; R. Monumental-1135 Costa Rica; Costa Rica-1225; and Senegal-764 for 2/2 PM local time. +++ Wes Boyd has this tip on WELW-1330, Willoughby, Ohio: "WELW normally runs a tight figure-8 N/S. This protects WRIE, Pa., & WFIN, Ohio, plus WHOT, Campbell, Ohio. Power to Findlay/Erie/Youngstown (Campbell) about 50w or so. Main N/S lobes about 2500w. For measurements they will go nondirectional w/250w. This will be between 0900 and about 1600 until measurements are finished. Expect 3-4 days a week for about 3 weeks (mostly Mon-Fri measurements). This grant for testing from FCC runs out 2/28/73. Will help some normally in nulls get them and those in lobes to hear WHOT, etc. In all cases, signal strength change will not be more than 2 S units; however, this could be enough for many." -Wes Boyd, WHOT, Campbell, Ohio. (WHOT is licensed to Campbell mailing add. is Youngstown, Ohio. -DEE). +++ XEROK/XELO situation explained in earlier issues of DXM. See page 34 of 1/20/73 DXM for explanation received by Jeff Brasier. -DEE

British Columbia is Canada's most mountainous province, which is probably also the reason it contains the greatest number of LPRTs of any province, around 77 to date. The most well known of these LPRTS is CBXQ-540 in Ucluelet. This relay often makes it down the coast as far as California and has also been heard in Alberta. But in general most LPRTs do not get out that well, and are certainly not your best bet if you have not heard British Columbia.

Your best bet for British Columbia, unless you happen to live near XETRA, would be CBU-690. If you live in the east the best time to listen for them seems to be a MM after CBF signs off but before CBU's 0300 sign off. For those living in California or those who have heard CBU, other possibilities include CKLG-730, CKWX-1130, CKDA-1220, CHQM-1320, and CKVN-1410.

Time Zones: CFEK-1240, CKEK-570, CJDC-1350, CKNL-560, and CFNL-590 all use MST or MDT TC's. CKKC-1390 and CFKC-1340 use both PLT and MLT. All other BC stations are on PLT.

LPRT's: Most BC LPRT's are normally on until 0400. Between the time that CBU goes off and the LPRT's go off, a program called Focus is played. These consist of 2-3 minutes items on science, humor, etc.

Seven Sisters Network: consists of 13 LPRTs most of which are located between Prince Rupert and Prince George. These LPRTs operate 0858-0400 Mon-Thur, 0858-0410 Fri and Sat, and 0958-0400 Sun. This network is // to CFPR-860 except 1512-1555, 2005-2030, 2035-2100, 0311-0400 Sun-Fri, and 1000-1100 Sun when they are // to CBU-690. For a list of LPRTs see Volume 8, Number 1 or write to Station Relations, CBC, Ottawa, Ontario and request a list of Radio Stations in Canada.

Thanks again to all those who contributed this time and also to all those who have contributed in the first two PoMs. Sorry this one has taken so long to type up but I kept putting it off by saying to myself that it was because of school. Have started a new system which I think will be able to combat this problem. For those who have been asking, a PoM on NWT and Yukon will be done after Newfoundland. Don't forget the Newfoundland deadline: March 15. 73s

Special note on KLCL 2/24 DX for NNRC: Glenn Hauser reminds members to check their second harmonic (2 x 1470 = 2940 kHz) for possible reception. It is known to get out, and has been heard by Glenn.

WPCF will conduct a 15-minute f/c followed by mx, frequent IDs, and mentions of NNRC. Reports to: Mr. Reed Kinney, Asst Eng, WPCF, P. O. Box 1430, Panama City, FL 32401.

WEEO will use cycle tone and voice IDs. Reports to: Mr. Jim Hartzler, CE, WEEO, R. D. 4, Box 309, Waynesboro, Penna. 17628. -NRC/Wes Boyd

KOTA reports to: Mr. William F. Duhamel, Station Manager, KOTA, Duhamel Broadcasting Enterprises, P. O. Box 1752, Rapid City, S.D. 57701. -NNRC/Gene Vonderembse

KWHN reports to: Mr. Rance R. Rhodes, CE, KWHN-KMAG, P. O. Box 143, Fort Smith, Ark. 72902. -NNRC/Gene Vonderembse

WAMO is an r/c of their aux. trans. Reports to: Mr. Milford Flack, CE, WAMO, 1811 Blvd. of Allies, Pittsburgh, Penna. 15219. -IRCA/Brian L. Cartwright

KGHL will use popular mx; the call letters and other pertinent information will be sent in Morse Code. Reports to: Mr. Wayne Coffey, PD, KGHL, P. O. Box 1657, Billings, Montana 59103. -NNRC/Gene Vonderembse

WNWI will use march music and IDs. Reports to: D. E. Wiggins, WNWI, Center Street, Valparaiso, Ind. 46383. -IRCA/Glenn Swiderski

WKIG is a frequency check; reports to: Mr. Don P. Cobb, WKIG, P. O. Box 98, Glennville, Georgia 30427. -NRC/Dave Schmidt

WDVL will be PoP w/annmts at s/on, within 2 min's of 0100 & 0200, s/off, and elsewhere as convenient. Remainder mostly TT. They beam E to ENE and E to SSE; very little to W & SW; none 355°-015°. Reports to: Mr. Joe Fitzgerald, CE, WDVL, Radio Park, Vineland, N.J. 08360. -NRC/Russell J. Edmunds

WLIB is a frequency check; reports to: CE, WLIB, 310 Lenox Avenue at 125th St., New York, New York 10027. -IRCA/Budd Bailey

KLCL will use C&W music; reports to: Mr. Mike Fluit, CE, KLCL, P. O. Box 3067, Lake Charles, Lou. 70601. -NNRC/Gene Vonderembse (see also note at the end of DX Calendar)

WUDO will use rock records interspersed w/testing ID annmts. Reports to: Mr. K. Jebauer, GM, P. O. Box 93, Lewisburg, Penna. 17837. -IRCA/Brian Cartwright

KSYL info from Tom Gates, a DXer himself and NNRC member; IDs and 1000 cycle tone is used every 4th MM. The f/c is done with the ND daytime pattern. Reports should be sent to: Tom Gates, KSYL Test, P. O. Box 1431, Pineville, Louisiana 71360.

WCPK times in DX NEWS are as listed, 0200-0230; times originally received here were 0230-0300. This may have been changed so as not to conflict with WKEN. No word from either Ernie Cooper (who doing most of the scheduling of the 1600 kHz test series) or from Jim Poterba on any change. Reports to: Mr. Charles Payne, Pres./Owner, WCPK Radio, 500 E. Liberty St., Chesapeake, Virginia 23324. -NRC/Jim Poterba

WKEN will use 400, 1000 Hz tones, a record or so, and many IDs. The 500w ND day pattern will be used and rpts should be sent to: Mr. Rich Gamberg, CE, WKEN, P. O. Box 553, Dover, Delaware 19901. -NRC/Dave Schmidt

KLEB times have definitely been changed to 0330-0400 from the original sked; this to avoid the WKEN conflict. Reports to the CE. -NRC/Ernest R. Cooper

WDEL will be testing for both NRC and NNRC. Big Band music, cycle tone, dial tone, and IDs will be used. The test will continue until RS. Reports to: Mr. Joe Jones, WDEL, Staff Engineer, P. O. Box 1269, Wilmington, Del. 19899. Joe Jones is a long-time NRCer. -NRC/Dave Schmidt; -NNRC/Jim Lovell, via Gene Vonderembse

CPC Results appears on pages 12 and 14 along with flash tips and miscellaneous notes. Members are invited/urged to participate in the CPC Results section by sending a pc with notes on reception (and non-reception) of DX programs. Please address to HQ.-DEE

THIS SPACE FOR NOTES

Mon. 2/5--12 noon LT--This bulletin will be mailed 0600 Tues. 2/6. After completing stencil work last night, it was obvious I could not complete the job before 7 AM LT.

These flash notes from Monday's mail: Next week's issue will contain 9 DXWW pages and will be 2 oz's almost certainly. RCE has 4½ stencils; Nancy has 3+. Brh has 2+. Andy Hecker has none; likewise Bill Lipis. John Zondlo's appear this issue. The following CPC info received:

Mon. Mar. 26 0230-0300 WBRJ 910 Marietta, OH 5kw D3 IRCA/Cathy Woodruff
 Mon. Apr. 9 0200-0330 WKIK 1370 Leonardtown, MD 1kw ND NRC/Wes Boyd
 WBRJ rpts to Mr. Thomas O. Hamilton, CE, WBRJ, 910 Penn. Ave., Marietta, OH 45750.
 WKIK rpts to Mr. George E. Clark III, GM, WKIK, standard add.

WRTH's have been received by Richard N. Allen, Okla., and Dr. Michel Breger, Texas, so probably most of those who ordered from IRCA by Air Mail will have already received your copy mailed directly from Denmark.

Hi to all once again and hope everyone the best of DX for '73. Latest veries: KVOY XEG WFAAKCOL CBW WGY KGEE KDHN KSWO CKCK KVSL KAPR KATO KVOR KDHI KCTX KXO KABL KGEK KDXU WOW. Also a nice v/1 from KEZY by the CE, Jay Miller. He says he checks both 5kw and 1kw transmitters every MM between 0205-0600 EST, best time for the 5kw is around 0230. Seems very interested in reports. KEZY is 1190kcs in Anaheim, CA. v/pp from KUKU. Many tries to get a verie out of them over the last year. They have changed calls to KBBQ, so sent a pp as a last effort. I was talking to the CE the other day at KTKT-990. He says he is starting a re MM silent period-usually the 4th MM from 0400-0700 EST. KWJB-1240 Globe, AZ appears to be NSP now w/ female DJ, usually cw. Till next time--73's.

Dear Friends, the defeat by the BoD recently of proposal 5.2-15 exemplifies why DX clubs have no clout and why the FCC as well as other "legislators" are so out of touch with the average radio enthusiasts. IRCA's lack of backbone in matters that effect the hobby is unexcusable. One benefit for and function of our organization should be to act as an orderly "lobbyist" group. This is not to say I favor pressuring for every little issue that comes up, but rejecting opinions and comments to the FCC because of wording is knit picky and only an excuse to evade "making waves." It's time the BoD took a stand on something. Meanwhile...does one have to stand on his or her head to get KRVN to verify? Four reports (accurate, neat&w/postage) over a year and nothing. As most probably know by now, WHAS is relaying KSL's nitecap show, meaning coast to coast reception of that program. I still have a few of KFRC's last SC left for a SASE.

Bill Hardy, 303 W. 10th St., Aberdeen, WA 98520 (report delayed fr Nov.)

What a disappointment to learn that Bob Jacoby has resigned as editor of WDXF. I did a little checking and found that, at the time of his resignation, Bob was the longest continuous editor of a section in DXM. Bob's first WCDXF (as it was called then) appeared in the 7/20/68 issue. In fact, that was one issue before Lynn Brooks took over the Midwest(now Central) DXF (Lynn edited the MST/CST Roundup before that, starting on 12/16/67, and then did both Forum and Roundup for a while strating 8/17/68.) Now, that "longest continuous" distinction goes to Father Jack, who took over DXWW on 11/23/68. Bob Jacoby always did a neat stencil and sharp-looking section, and I've enjoyed reporting to him. What bothers me now is reporting to DEE for the time being--not because DEE doesn't do a good job, but because DEE has plenty to do besides edit two sections of the bulletin! And I see that we have no Standby Editor! This has happened before--we appoint a Standby Editor, who then becomes a regular editor and nobody is left to stand by! It's obvious that what we need is a standby editor for EACH Forum & Roundup, with the understanding that the editorships might become permanent--in effect, more of a back-up editor. And unfortunately, I can't volunteer - I don't have enough time to do a weekly section. Let's discuss this - it's vital to our club! 73.

Hi! I'm a new member and I've got a surprise for you! Sounds crazy right? Well I received my QSL of XELO today. When I sent my report in I asked the engineer what has been happening. He said that their 150kwtx had been messed badly and that they were operating with 10kw for a couple weeks. Then Dec. 31 they put a 50kw tx on the air, and in 10-12 months they will be 150kw when their tx is finished being built. Also he said that they will be XELO but that their application for change of call letters (XEROK) is pending with the Mexican government. And that's it. I've been DXing for a little over a year but never sent out a report until recently, which was a month ago. Now I have 67 reports out with 30 responses and 15 states..verified. Some of my more recent catches are: WREN 1250 v/1, KONE 1450 v/1, KOB0 1450, KPUR 1440, KRBC 1470, KDHN 1470, KTSM 1380, KSRV 1380, KKAM 1350, KQEO 930 v/1 and who knows what else. Before I leave you one more thing. I was listening to local KERN 1410 on 1/3. I left my room and when I came back there was a different stn blasting in and I caught the announcer saying that it was 3 past 12 on Thursday, yet it was 3 past 9 on Wed.here! After that one minute or so it was gone. Any help??? 73.

=====

Support for our "open" way of doing up reports in the Western section is getting good response.....let's keep a "good thing" without completely running amok! Thanks all!

 HI. It is an interesting observation that the WDXR has support mostly from San Jose area. San Jose is a DXing city, and an IRCA city. Vote & Come here to see it.
