Sun Feb 20 WHIM-1110, Providence, RI, 5kw, will test 0200-0230 EST w/Christmas mx (that's what he says!) and frequent voice/code IDs. Then 0230-0300 w/beep tone (a la WWV) and random voice/code IDs. Use an accurate clock, as your report will be verified by when the ID was heard. If your clock isn't on the money, the space between IDs should be correct. Arranged by Craig Healey for IRCA/NRC.

Mon Feb 21 WLKW-990, Providence, RI, 50 kw, will test 0300-0330 EST w/constant tone and frequent, random voice/code IDs. Unfortunately, most of WLKW's signal is beamed into the Atlantic, but it's still worth a try. As with the WHIM test, use an accurate clock to pin down your ID times. Arranged by Craig Healey for IRCA/NRC.

The new World Radio-TV Handbook is out. A quick glance through it shows it to be comparable to previous editions in content and accuracy. Feature articles this year cover reviews of the Icom ICR-70 and other receivers, and articles on DXing Latin America and on radio in Nicaragua.

The Century Print Shop has a new price list out. If you ordered your WRTH from them then you received or will receive one. Otherwise, send an SASE to Don Erickson, 6059 Essex Street, Riverside CA 92504.

DX Programs

Occasionally a late-minute DX test is arranged too late for word to get out in DX Monitor. However, you can get the word in time if you tune in one of the following two shortwave programs:

"World of Radio" on WRNO. The program is hosted by Glenn Hauser (a member of IRCA and practically every other DX club in existence) and airs 0230-0300 UTC Sunday (2130 Saturday night in the EST zone) on 6155 kHz, and 2330-2400 UTC Sunday (1830-1900 EST) on 11890

"DX Digest" on Radio Canada International, hosted by Ian McFarland with some segments from Glenn Hauser. Aired 2130-2159 UTC (1630-1659 EST) Saturday on 17875, 17820, 15325, 15150, and 11945 kHz; 0106-0128 Mon UTC (2006-2028 Sun, EST) and 0406-0428 Mon UTC (2306-2328 Sun, EST) on 5960 and 11850 kHz. While both shows are aimed mainly at SWLs, they also have BCB DX info (including DX test details), receiver reviews, and other features.

Celebrities pitch in to help airport users stay up-to-date

Story by Ralph Winingham
Photos by Jose Barrera

George Gervin of the San Antonio Spurs has exchanged his basketball for a microphone, but only for the sake of travelers driving to International Airport.

The basketball star is just one of the celebrities volunteering their services for the latest entry in the San Antonio radio station market — KNDX-476 on AM frequency 1610.

The station was developed to provide parking information, travelers' advisories, weather reports and other information to people using the airport. Full operation began this week, marking the culmination of two years of planning by airport officials.

Not trying to compete

"Our goal is to keep the public informed," said Dan Guduczaskas, airport operations manager, said. "We're not trying to compete with the other radio stations in town. We are just trying to provide a service."

The low-power station, which has been in operation on a limited basis since the holiday season, cost about \$20,000 to install. It is designed to cover a two-mile radius around the airport, he said.

"We don't mean to reach that far, but we have had people call us from Kirby to say they have picked up our broadcast," Guduczaskas said.

Signs advertising the station have been placed along various routes into the airport, he said.

Linda Cuellar, public relations director at the airport, said the idea of using celebrities to make the concise messages, in both English and Spanish was borrowed from the highly successful radio station at the Cincinnati, Ohio, airport.

'Name and voice'

"We're looking for people with a name and voice that people will recognize," Cuellar said. "It is a nice attention-getter."

Messages are normally about 40 seconds in length, she said, adding various celebrities she has contacted have been very helpful in making the tapes.

'We're not trying to compete with the other radio stations. We are just trying to provide a service.'

— Dan Guduczaskas

Some of the people who have made tapes or are scheduled to participate include Gervin, Spurs Coach Stan Albeck, Paul Schaefer of KMOL-TV and Rudy Rocha of KONO-AM.

"We also have plans to ask for tapes from notable people playing at the Fiesta Dinner Playhouse and others," she said.

Although the station will have the capability of operating on a live basis, Guduczaskas said, all messages will be taped first before being placed on the air.

Time to plan

"It only takes about a minute for us to make a tape and put it on the air, but that gives us a few seconds to sit down and formulate what we want to say," he said.

Guduczaskas said the station has a backup system just in case an emergency situation occurs, with two transmitters and two antennas, plus two additional tape decks if the main deck breaks down.

Broadcasts on the station are limited to spoken messages with no music or sound effects allowed, Cuellar said, but at least some of the proposed informative statements will be in a lighter vein.

"We plan to create a character who will give drivers basic information like speed limits and other things," she said. "We're still working on a name, but one of the ideas is to call him 'Dusty Streets.'"

However, Cuellar didn't say whether Streets would be able to handle a basketball like Gervin.

A Monthly Column of Loggings
Information and Discussions
of the 1600-1800 kHz Range

Craig Healy...66 Cove St...Pawtucket, RI...02861...

The response has been very positive to the January column-Thanks!
The deadlines here are simple: What I receive by the last day of the month is included in the next column. Times used here are GMT.

Among the signals in this frequency range are the ever-present TV sweep harmonics that we all know and hate. They are found on: 1604.895, 1620.629, 1636.363, 1652.097, 1667.832, 1683.566, 1699.300, 1715.034 1730.769, 1746.503, 1762.237, 1777.971, and 1793.706 kHz.

From Sheldon Remington: He is hearing a beacon on 1700.15 kHz with the call "ZM". The first dash in the "M" is double length as if it was a keying error, perhaps "ZK" or "ZW". Sheldon finds it loops Southeast from his location. Bruce Portzer had the same thing, bearing SSE/NNW. Fadeout at Sheldon's was about one hour after local sunrise on 1-25. A check of the Beacon Guide and subsequent updaters came up empty. Anyone else want to take a bearing on it?

I've noticed fairly strong harmonics from some of the graveyard stations. If WWV-2500 is in well, I'll check 2460,2480,2680,2800, 2900; and 2980. Lately, WCOU in Maine has been heard well on 2480. A harmonic of a drive-in movie sound transmitter was heard last fall on 3120 with typical snack bar promos, etc. Was 4x780, 3x1040, or 2x1560. None of these frequencies would be any good near RI, and there was considerable fading as well. A check of the newspaper showed that no local or semi-local theatre had the movies that were on this station. Harmonics can be fun to find and give you a chance to hear a station you might never catch any other way.

The bandscans that I am receiving are going to be saved and a composite 'scan printed. Many signals are strictly local and to include them would make things too unwieldy. Those signals that are heard by two or more people or have the potential to be heard by others will be included. Some individual items are put in the loggings section.

Speaking of which:

- 1638 ??? U288 Call heard 0247 1-30. Call given three times, dash before and after. Repeats about every five minutes. (Healy)
- 1644.9 CALIFORNIA Newark-Local, loud day and night. Steady 400Hz A.M. tone. Allegedly Coast Guard marker. (Remington)
- 1918 IDAHO Council-0320 4-4-82 (but may still be there) Seventh harmonic of "CQI"-274 beacon. (Remington)
- 2480 MAINE Lewiston-WCOU 0045 1-30 Fair on second harmonic with "Your Star Station, W-C-O-U" ID into rock mx. (Healy)

Craig Healy-Pawtucket, RI Same as last time....

Looking for a real DX challenge? Is Falklands-536 a pest for you? Try for the "NHG" beacon on 1600 kHz. Location is Palmer Station, Antarctica. 'Til later.

Charley Keleher, 1723 Forest Cove Dr., #108, Mt. Prospect, Illinois 60056

Hi! Enjoyed the few hours that I was able to get to Kramer's get-together. But I can't agree with certain individuals (the editor of this column included) that "verie collecting" is where it's at. Most of my old DX friends know that I haven't been too active since about 1976, in DXing that is, but have been doing a lot of things, otherwise. Frank Merrill told me, "Charley, it seems that every time I see you, you live in a different state!" Thus it has been. But back to DX: I always thought the real appeal of DXing was in logging something that really impressed you, that is, yourself, and your own self. It's fine to have a collection of veries or totals that impress someone else, but since DXing is a non-profit hobby, the real thrills come when you get something that, the day before, you couldn't believe you could hear. One thing I remember was hearing a regional station on a \$16 Heathkit, a kit I built myself, which I had never heard before on equipment I know was superior. Unusual conditions, yes, but a nice reward after working to build the radio. Do most DXers east of the Mississippi remember their first California, or first TA? Betcha most do. (I don't, but I do remember my only Australian, hi--rce) Well, hopefully, I'll be moving to new digs, in the spring. Not definite yet, so will save the location for a surprise. Best to all; maybe I'll start DXing again, but am keeping busy anyway.

Howard Kemp, 140 Court Street, Laconia, New Hampshire 03246

DX has been scarce, but a few call changes have kept the pen warm. Two address changes here -- WKZU (ex WLNH-AM), P. O. Box 7326, Gilford, N.H. 03246, and WEMJ, 635 Main Street, Laconia, N.H. 03246. WLNH is call for FM operations. Recent veries are: WJIT-1480, New York, N.Y.; WCRR-1170, Cornwall, N.Y.; WBRW-1170, Somerville, N.J.; WASY-1590, Gorham, Maine. Since November, the local paper has been printing a column by me called "Good Listening Tips". They plan to do a feature story soon on MW DX and etc. Will send a copy when printed.

Richard C. Evans, P. O. Box 1294, North Wales, Pennsylvania 19454

Albert Lobel sent me a card mentioning the plans for a gizmo to work as an adaptor from a monaural receiver to a stereo headset. If you're interested, write to him, address in many of the WDXF's. Karl Zuk, what I was talking about was a way to put audio into both ears. Without an adaptor, I could hear with only one ear which I found to be rather annoying while DXing. In response to Charley Keleher, in the 5 years I've been out here (since April, 1978), I've only sent out eleven reception reports, of which 9 have verified. Verie collecting is an important side-line aspect to DXing, I believe, but the important thing is to hear the station first. After that, what we choose to do is our own business, and we should not feel inferior or defensive because we choose to do something that others are not. One of the interesting parts of the hobby can be listening to various DXers talk about their specific interests. I still remember C. Alan Taylor trying to hear/verify each county in Indiana (from Naptown) going by transmitter locations rather than city of license. He almost had kittens the day I told him that WIMS-1420 had its towers about 300 feet into Porter County when the city of license was in LaPorte County, which was left then with only a daytimer, WLOI-1540. It was interesting to read the various comments from the recent survey. I would like to hear from the person who said he had trouble reading EDXF because of my typewriter. I check the copy in each bulletin as it arrives here to make sure there is no trouble, in hopes of catching problems fast. (I think I now know what's causing those short dash marks on the sides, so it should be corrected, starting with the next issue.) I wonder if the remark is a holdover from the last few columns that Paul Mount did, where it was extremely hard to read. It appeared that Paul was using a typewriter that had tilted keys so that only half the print showed up. I do have trouble with the Liquid Paper, but I don't think there's much I can do about that. No DX here lately, as I've been busy with other things. Out of space. PTL

WCA—Serving the Broadcast Band DX'er Since 1964

Editor: Ric Heald, 1632 J St., #4, Eureka, CA 95501

1982/3 DEADLINES - WEEKLY ON TUESDAY, 12 DAYS PRIOR TO PUBLICATION DATE

DOUG PIFER, 4804 W. MC FADDEN #85, SANTA ANA, CA 92704

Compliments on the membership survey results. That issue was probably the most eagerly read copy of DXM I laid my hands on. Good job done, complete and concise.

From all the suggestions, I would say they all cancelled each other, thus, what we have now is just about what we want from DXM. I feel like commenting on all the issues involved but, nah, just a few.

* Humor has its part in DXM. Better more alive than dead, hi. I can truly get a good laugh from some comments.

* I would also like to see more history in DXM or comments on anyone's antique radios.

* Spotlight on a DX'er and a photo seems like a good idea too. I just know all these names have faces too, hi.

Our club does have an active membership, but you can usually count on just about the same people to produce input for DXM. There was a lot of good ideas in the "Things We'd like to see" column. My suggestion to anyone out there, who has the time and knowledge, is to tackle one of these requests. Well, gotta go - have fun typin' this Ric. 73. (Thanks Doug. I'll just open another brew and things will be just fine, thank-you, hi-RtH.)

RANDY TOMER, 1969 27th ST., ARCATA, CA 95521

I found the recent receiver reviews (R-7A v. NRD; Sony ICF-6500) to be very interesting. I've been wanting an ICF-6500 ever since they first came out and it's good to hear that its LCD display doesn't cause appreciable QRW. It's interesting to note that the OKI counter chip that drives the LCD display is the same one used in the PCIM-177 digital display that people have been installing in their Realistic TRF's. Sony must be using quieter LCD's or have them shielded much better, or else they know something we don't. The first thing that I would do with a new ICF-6500 would be to add a plug-in tunable ferrite loop that automatically disengages the receiver's built-in loop, as I did with my Superadio. This has a similar effect to adding a tuned RF stage and really helps the selectivity. (Amazing how a good high-Q loop has better selectivity than does a so-so quality ceramic IF filter.)

The recent mentions of DX'ing meteor-shower FM skip by McGreevy and Remington sounded mighty interesting, so I trotted down to the local electronics emporium and picked up a little Wineguard 4-element FM yagi to use with my Superadio during meteor showers. Now, all I have to do is pick up the latest issue of Sky and Telescope magazine to find out when the next shower is. By the way, my Superadio also does well on FM. With the HEAVES' ten-foot home-brew yagi antenna, the Super will pull in Bay Area stations some 250 miles distant, via groundwave. Ooops, this ended up being a whole paragraph of FM talk, (Ahem, hi-RtH.) Guess I better wait until next week to talk about my rock collection.

There was mention a few issues back on the advantages of "Walkman" headphones for DX. I also like using them, especially when using a portable. I used Sony phones for a long time and they were great, but more recently I switched to a pair of Realistic "Nova 52" folding headphones, Radio Shack #33-979. These fold in half when not in use so are quite handy for traveling as they take up practically no space at all. With the Radio Shack adapter #274-368 these phones (or any others with a mini-stereo plug) will plug directly into your portable without having to rewire the plug. 73 de RET.

WALLACE GLAVICH, 1208 GROSS ST., EUREKA, CA 95501

Ric, it was nice meeting you, John Arthur and Randy Tomer, hope we can do that again. (Will be having an area gathering soon, Wally-RtH.)

Regarding radio station KHUM. It came on the air here in Eureka in 1946 on a frequency of 1240 kHz with 250 watts of power. It was on the air until 1954 when the equipment was sold to KINS. It's my understanding that KHUM went elsewhere. Anyway, it was on the air for nine years. I talked to an engineer who used to work for them and I remember the station for the mystery shows that they aired. So, that should square up things about KHUM for those of you who never heard of it. 73 and Good DX.

RIC HEALD, 1632 J ST #4, EUREKA, CA 95501

Eee-haw! Would ya lookie here, out of five forums, three from Humboldt Bay area. Now that's doin' 50%, and with an area population of 75,000, not too shabby. But, where's the rest of ya'all? Come on folks, this is your club and the only way the rest of west-of-the-Mississippi membership will be represented is through your contributions.

Survey results. I agree with Doug. I have, however, made one New Year's resolution; fewer typos, hi. Usually the ones that criticize, as after an election, are the ones that don't vote or participate. I would like to see a column on radio from the '20s through WWII. That period really fascinates me, and possibly someone with the time will volunteer.

Wally, nice meeting you too, and you have to see his radio collection to believe it. It simply cannot be described on paper. KHUM moved to Santa Rosa on 1580, a one-thousand-watt daytimer. That left the air in the early '60s, I believe, although the frequency allocation remained in Santa Rosa, inactive, for several years longer.

I can't believe how lousy conditions have been. Randy did reach me on the two-way one evening to let me know there was an LA opening. I did a bandscan, and yes, conditions were auroral, but nothing to write home about. I think I'm the last WC DX'er to hear 'em, but finally bagged the S. Korean 1566. I also finally landed KROR 1360 Myrtle Creek, Oregon, middle of the day.

After the ballyhoo with a P.O. box, send forums to house address. I got moved to Ken-Tours in Eureka as acting manager, a promotion of sorts along with a slight raise in salary. Nice thing about it is that I live on the same street as the office, 11 blocks away. But I'll be in Eureka for the next couple months, maybe permanently.

John Arthur, who should be joining IRCA any day now (or rejoining after about 12 years, hi), is using my TEMCO GPR-90, is replacing a few worn-out capacitors, resistors, et al, and should be reporting soon. Not living in an area with concentrated Rf fields, the FRG-7 works just fine.

I cannot believe how sloppy KRED's signal is. That transmitter needs some heavy-duty work. I'm only 1.3 miles from 5kw KEKA 790, and KGO does just fine with only minimal bleedover, but KRED sends out spurs all over the top end (daytime) and they're nearly six miles from my QTH.

My hat off to RET for helping me out with last week's column. My typewriter now back in shape, sort of, hi.

That's it this time around. Before I go. Even though I'm not too crazy about including 1600-1800 kHz, if enough of you favor it (via letter or in a forum), as your elected Board member, I'll go along. OK? 73 de Rth. .

Bruce Portzer-N7ECJ-6546 19th Avenue N.E.-Seattle,WA 98115

Uh...Ric, what do you mean 3 out of 5 forums!? I only counted four, unless you had a premonition that I would add one at the end of the column, hi. (Psst...I think you also meant "doin' over 50%", hi).

DX has been kind of spotty here in recent weeks. Jef Jaisun and I put up a 2300 foot Beverage at his house a couple weeks ago. Some interesting DX was heard, but conditions weren't all that great, unfortunately. To add to the problem, someone accidentally whacked off the last 500 feet or so where it crossed a dirt road (we didn't put it up high enough) but it was still effective as an antenna. We pulled in what may have been Antilles-740, but I'll have to see if the station thinks it was them. Several other Latins were heard, see DXWWW this week, as well as a few Alaskans/TPs around sunrise. (The wire ran southeast).

Ernie Cooper brought up an interesting idea about putting out a summer supplement on FM DXing. However, the logistics could get a little complicated. We would have to maintain a separate mailing list for it, for one thing. Also, the printing would have to be done separately from DX Monitor, and might be more expensive (per page) than for DXM. Personally, I think the reason some members want FM coverage is because they want an alternative to WTFDA, which on more than one occasion in recent years has had problems in putting out bulletins on a timely basis (although they seem to have gotten things back on track with a new publishing committee). Perhaps the answer is for someone to start a second TV/FM DX club...after all, the BCB DX hobby actually grew in size when IRCA spun off from NRC.

Had a nice chat with Sheldon Remington this past weekend. He suggested putting up a small (100mw) BCB transmitter for the convention, for publicity or whatever. Also, it was his suggestion that prompted listing the Short-wave programs on this week's front page.

Karl Jeter, it sounds like your HQ-150 may be in need of a new filter capacitor in the power supply. Better take it in to Doctor Hutton, hi,

That's enough for this week. 73 and good DX!

(BBC)

HAWAII - New Westar connected stations are KGU-760 (III) and KNDI-1270 (IV). K10E-1080 is going rock. KP01-1040 is now "wild acid rock." The K1PO-1350 (ex-K1VM) application for 570 has been challenged by KSSK-590. And Alan Roycroft, engineer for many Honolulu stations, says he doesn't think the new 1310 and 1380 CPs will ever go on because the FCC monitoring station in Pearl City can't handle any more RF (DXA).

IRAN - Yasuj on 891 & 1143 is testing w/10kw. Birjand-610 is new and carries VIRI network programs. Presumably also from Birjand is 963kHz, which carries Majlis opening sessions and theological lessons (BBC)

IRAQ - Radio Baghdad carries Persian on 846/1224 from 1330-1600, and on 846/1224/1197 from 1600-2300. In AA, the PLO Show is on 1035kHz from 1700-1800, "Voice of Arab Syria" on from 1800-2000, and "Corner of Arab Egypt" from 2000-2130 (BBC).

KAMPUCHEA/CAMBODIA - Radio networks will be expanded in all localities and in remote regions such as the north east in 1983 (BBC)

KOREA, NORTH - Chongjin-783 has JJ programming 0900-1455. Non-conforming frequencies being used by Radio Pyongyang from time to time are 700 and 730 (BBC)

KOREA, SOUTH - Seosan-1170 has JJ 1100-1300, EE 1300-1330, and CC 1330-1400. HLKB-891 and HLQB-1449 have JJ 1500-1600 (BBC)

LAOS - Vientiane-640 is on 2200-0230, 0330-0700, 0900-1600 in Laotian, except for Mongolian pgm. 1230-1300 & 2330-2400. Paksi-1370 is on 2300-0200, 0400-0600, 1000-1415. Udumsai-800/1050 is on 2300-0100, 1030-1300 (BBC)

MONGOLIA - R. Ulan Bator is now on 882/1233/1350/1395 w/1600 s/off (FERC via DXA)
PAKISTAN - A new 10kw XR in Skardu commenced 11/23/82; 0945-1600 (BBC) (No freq.-pt)
PHILIPPINES - DZEM-1423.5 noted; 10kw now? (R. Crawford, NZDXZT). DYIM-576 now DYMS.
DZYZ-576 inactive. DZTG-612 ex-621. DZJC-747 now 900. DWBW & DWNW, both 756, inactive.
DWSF-864, San Fernando, Pampanga, new. DYSR-891 inactive. DZRP-918, Quezon City, new.
DYSM-972, ex-1044, ex-DYMS. DWMJ-990 inactive. DZRM-1278, Quezon City, new. DYJJ-1296,
Roxas City, Intercontinental BC, new, 5kw. DWKW-1386, inactive. (DXC via MWSC)
SAMOA, AMERICAN - Pacific Beacon-585 will be 50kw U1, 1600-1200 daily (A. Cushen,
DXA)

TAIWAN - VOFC-621 has EE 1030-1040, 1100-1200, 1500-1530; Indonesian from 1040-1050,
1200-1300, 1440-1450, 1800-1900; Thai 1430-1440, 1530-1700 (BBC)

THAILAND - A new 10kw XR in Nong Khai, heard throughout NE Thailand, commenced in
January and is on 14 1/2 hours daily (BBC) (No freq. - pt)

T R A N S - A T L A N T I C

CYPRUS - Radio Bayrak seems to have two XRs on 1098kHz, one 10kw and one 7.5kw
(Turkish) and a 2.5kw XR on 1500kHz in EE and Greek (DSCWI via ARC)

CZECHOSLOVAKIA - New Hvezda relay transmitters from the Domamil communications center
near Moravska Budejovice began operation 1/5/83, beaming the Radio Progue domestic
service and South Moravian regional programs to SW Moravia and parts of the South
Bohemian region (BBC) (No freqs. - pt)

EGYPT - The mighty 864kHz XR w/Koran pgmg. is now //1340.4v (O. Alm, DXA). A new
superpower XR in Batra was to have gone on the air 1/17/83; along with it comes a new
2000kw station designed to serve all areas of the Arab world and the Middle East and to
provide local service throughout Egypt. Radio Cairo broadcasts to Israel on 1107kHz are
in Hebrew 1000-1200 and 1500-1800. However, there are 15. min segments in RR at 1100, FF
at 1115, and EE at 1130 (BBC)

ENGLAND - Radio One is on 0600-2400 on 1053/1089 and is not relaying Radio Two prior
to sign-on (BE in ARC). (MWC in a later ARC says it is on from 0700-0100 - pt). The BBC
has a plan which may come into existence: Radio 1 would take over the LW channel & FM
stereo stations used by Radio 4; Radio 2 would remain as is but would have full use of FM
stereo, which it now shares with Radio 1. Radio 3 would be the music/drama network. Radio
4 would be MW at first, and add FM as channels were made available (MWC via ARC). New are
BBC R. Cornwall, 630/657, Phoenix Wharf, Truro, and Liverpool BC, 1134/1170, Wallasey,
Merseyside, 0800-1800. BBC Radio Devon, 801/855/990/1458, Exeter, is on as of 1/17/83
(see WRTH '83) (SM, NI, OA in ARC).

FRANCE - FR3 Brest-1404 is in Breton 0615-0625, & FF other times (OA, ARC)

GERMANY, WEST - WDR-702/774/1593 and NDR-828 (in part)/972 simulcast many programs on
network #1. Most West German stations carry the "ARD Night Program" all night, which is
produced on a rotating basis by each regional broadcasting organization. WDR2-720kHz is
on until 1700. NDR2-828/972 (in part) is 24hr. (ARC)

IRELAND - Radio Nova, Dublin, is now on 819 (W. Herbst, MWSC)

ISRAEL - The local EE & FF broadcasts on network D (675/1026) may be moved to network
A (576/1170/1458) (BBC)

ITALY - Radio Milano International-1300, 5kw, is wiping out R. Iracema Brasil, R.
Relej, and CBAF reception in Germany! (Wilhelm Herbst, MWSC) (and they have a half page
ad in the new WRTH - pt)

JORDAN - BSHKJ-801/1485 is on 0230-2330 in AA; EE 0500-2205 on 855kHz (BBC).

LEBANON - "Voice of Arab Lebanon"-930 is on from 0400-2050 in AA, but with 10 min. FF
newscasts at 1230 & 1800 (BBC)

LIBYA - A new UNID XR noted on 648kHz carrying the Tripoli domestic service from 0500
s/on to 1745, at which time it carries the Voice of the Arab Homeland program (BBC). The
909kHz UNID in a recent DXWII is in Kufra; 10kw (EBU via ARC). New UNID, 1000kHz (EBU
via MWSC)

LUXEMBOURG - R. Lux. broadcasts RAI's Italian service for Europe on 1440kHz from
1830-1845 (1800-1815 Sun.) (BBC)

MADAGASCAR - UNID outlet noted on 1322 (V. Korinek, DXA)

MALTA - The DW "problem" was created by German interference into Maltese affairs.
The current agreement allows DW continued use of its two sites until 1990, when the
facilities are to be turned over to the Malta government. The new agreement calls for
Malta government (or assigned party) use of 1557kHz 9 hours a day, free for the first 5
hours and 70 Maltese pounds/hour the remaining 4. In addition, DW could use it any of the
remaining 15 hours that it wasn't used by the government. DW use: 0001-0030, 0600-0800,
1200-1400, 1700-1900, 2130-0000. However, DW has only a 1 year guarantee, after which W.
German - Maltese relations will be examined. Other stipulations relate to employment of
Maltese citizens, Maltese use of the facility any time during emergencies, and DW
avoidance of programming which might be reflect negatively on the Maltese government.
Current DW programming on 1557: Arabic 0415-0550, 1100-1150, 1900-2035; German 1400-1800;
Mahgribi 2045-2120.

After an agreement was signed between Algeria and Malta, "Radio Meditteranean" was to
start broadcasting 3 hours a day as of 1/18/83, with EE 1800-1900, AA 2130-2230, and FF
2230-2330 on 1557kHz. Reports should go to Box 2, Valetta (BBC)

MOROCCO - Sebba Aioun-1044 is now broadcasting the AA pgms. formerly carried on
612kHz (BBC) (Is the French program now on 612 kHz? Hmmm?? - pt)

NAMIBIA/SOUTH WEST AFRICA - SWABC is testing the 100kw 594 outlet (DXA)

NIGERIA - FRCN reports that Radio Nigeria outlets began 24 hour service in January. Anabra State BC began FM broadcasts in December after the MW outlet was burned down on Christmas day (BBC)

POLAND - New unstable XRs carrying P2 have been observed on 1197 and 1296 kHz between 12/11-16/82 (perhaps ex-1206 and 1305 respectively??) (BBC). (VOA and BBC foreign service frequencies - pt).

PORTUGAL - RDP-1 is using a new 50kw XR on 630kHz at Montemor-o-Velho, which is between Coimbra & Figueira (DSWCI via ARC)

SAUDI ARABIA - Unlisted outlets noted are 765/918/1125, all w/Koran and main pgm. from Riyadh. The 765 appears to be Duba, although listed as Damman with 1000kw (011e Alm, DXA). BSKSA General Program is on 549/585/594/900/1161/1440 from 0300-2100, and on 648/1521 from 0300-1700. The Second Program is on 549/603/828/909 from 0300-2100; 684kHz from 0300-0630, 1800-2100; 1098kHz from 0630-1100, 1200-1500; and 1305kHz from 0300-1500. The European Service is on 1098/1224/1485 in EE 1100-1130 & 1700-2100, and in FF from 1500-1700. The Call of Islam is on 549/594/648/900/1440/1521 from 0100-0300, 1500-1700. (However, it is being observed on 882/990/1512 from 0100-0300 - BBC). Holy Koran Radio is on 765/846/882/918/981/990/1017/1512 from 0300-2100 (BBC). 1161 is identified as Abha, ex-1098 (DSWCI via ARC)

SOUTH AFRICA - Maraisburg-720 is deleted (V. Korinek, DXA)

SPAIN - RCE Gerona-1386, is ex-1395 (DSWCI via ARC)

SWEDEN - The new location for the 1179kHz XR (currently Horby) will be roughly 14E44, 56N04, at the tip of a small peninsula near Soelvsborg. Guy wires will be anchored in the water. It will be nulled toward Romania and Malta (011e Alm, DXA) (011e, what then is the Skaane 1200kw facility listed in ITU? - pt)

UGANDA - Radio Uganda 575/728/809 is on 0300-0545, 0558-1130, 1130-1300 (not Sat/Sun), 1300-1345, 1345-1400 (not Sat.), 1400-2102 in EE, Swahili, and vernaculars. There is only one network, rather than the Red & Blue as per WRTH (BBC)

USSR - Kudymkar-1458 is new, 0000-2000. Baku 1-801 ex-1017 and Baku II-1296 ex-1476 (O. Alm, DXA). Ukrainian SSR P1 648/675/711/756/783/936 to 1600/1071 is on from 0252-2200. The "Promin" program (P2) is on 837/1242*/1372/1404 24hours (*Kiev-1242 carries external service pgm. 2200-2400) (BBC). AM stereo tests will start in the forthcoming 5 year period. (BT, ARC). Ural'sk-747 is ex-1440; local pgms. 0330-0400 (OA, ARC)

YEMEN, NORTH - R. Sana'a is on 980.87v/SSW, 100kw+ (O. Alm, DXA). This XR is now used by the PLO, with 1902 s/off (DSWCI via ARC)

YUGOSLAVIA - Radio Skopje-810 was to have begun fulltime 24 hour programming in January (it has been 24h on weekends only). Radio Yugoslavia has Albanian for Europe on 882kHz from 2130-2200; EE from 2215-2230, and FF from 2230-2245 (BBC)

ZAMBIA - UNID outlet observed on 540Kkz (V. Korinek, DXA)

P A N A M E R I C A N

BELIZE - Belize is on EST from 12/19/82-2/4/83 (BBC)

COLOMBIA - HJEV-1160, LV del Valle, ex-1140. HJCD-1200, Em. Nueva Epoca, now 10kw. HJ01-1290 ex-1280. HJ0G-1300, HJ1R-1310, HJBO-1370, HJKX-1370, now all 5kw. HJLT-1470, R. Color, Cali, is ex-1550 (RTM, NRC via ARC). HJME-970, R. Peninsula, ex-1170, now on its official frequency after several years. HJ...-970, Em. Armonias de Caqueta', Florencia, new, 10kw, //4915. HJFZ-1050, LV del Centro, ex-1050. HJKK-1175, Brisas del Betania, ex-1060. HJ...-1300 R. Sindamanoy, Mocoa, new CP, 5kw. HJAS-1400 R. Universal now 5kw (C. Objio, JOL, UKVK, NRC via ARC)

COSTA RICA - "Amiga" has returned to 1125kHz (SWNS) (My files don't show where it returned from - pt)

CUBA - The "Radio Musical Avilena" referred to in our last column is on 1560 (NRC)

GUATEMALA - Newscasts from R. Mundial-700, Guatemala City, are relayed at 1200, 1740, & 2400 on R. Escuintla; R. Victoria, Mazatenango; R. Fraternidad, Quezaltenango; R. Tamazulapa, Juliapa; and R. Payagui, Esquipulas (BBC)

PANAMA - The government has forbidden Panamanian stations to broadcast telephone calls. Cadena Exitosa has announced a new relay on 850kHz in David (BBC)

PARAGUAY - Paraguay is on UTC (GMT) -3 10/1/82 thru 3/31/83 (NASWA via ARC)

SURINAM - ABC Radio-1030, Paramaribo, has been destroyed (BBC)

VENEZUELA - R. Metropolitana-1590 is new since December; UNID location, but Maracaibo mentioned in a commercial as heard in Sweden (UKVK via ARC)

The new WRTVH has arrived and as always, it looks good. However, I guess it simply doesn't look as fresh and exciting to me as usual because of my involvement with this column. It does, however, still list Jiangsu-693, which I erroneously listed in my China report of 1979 and which I corrected shortly thereafter... I hope they will delete it next year!

Thanks very much Bruce & Evelyn Portzer for a most enjoyable evening at your home during our NW holiday visit. And thanks also to Phil Bytheway for popping in; Kristine & I enjoyed meeting you, too! And thanks also to Chris Martin of DX Australia for the phone call and the current issues of your fine publication.

Reports from V. Korinek & others in several publications indicate that many Africans never moved the 1kHz called for in the ITU, and that some of those who did move have reverted to the old channels. Charlie Taylor seems to think Taiwan stations are likewise reverting...

IRCA PUBLICATIONS AND SUPPLIES

Principles of Broadcast Band DXing (NMP). This is the New Member Packet, sent as part of the first year's membership (or trial membership) to each one joining IRCA. It is a comprehensive introduction to the hobby of Broadcast Band DXing. Topics covered range from antennas, receivers, reception reports, logging stations, to the IRCA Constitution and Bylaws. Many reprints from this list are included. Price is \$2.00 postpaid.

IRCA Stationery. Beautiful red and black masthead with the club emblem and name. Just the thing to use when writing for verifications. 100 sheets, \$5.00 postpaid.

The IRCA Foreign Logs (FLs). Edited by Father Jack Pejza/Phil Bytheway/Bruce Portzer/Nick Hall-Patch/Mark Connelly. Complete listing of foreign stations reported to IRCA's World Wide columns over the period of a year, plus articles on foreign DXing (Vols. 6, 7, 8), foreign language reports (Vol. 3), Utility and Beacon lists (Vols. 7, 8), BCB propagation (Vols. 5-8), and other useful information. Each volume is completely different and is a record of a complete DX season.

- Volume 3 (1973-74 season): \$2.00 each (close out special)
- Volume 4 (1974-75 season): \$2.00 each (close out special)

It's official now!! Laura & I are moving to Amesbury, MA. as I will be working for Adams Russell. Amesbury is located on the New Hampshire border near Newburyport. The area has few close locals & should be an excellent TA location as it is near the coast. Please send all reports to my above RI address and I will have them forwarded to me at my new QTH. We should be out of CA by the middle of Feb.

# Indian language radio stations a hit in Mexico

TLAPA, Mexico (UPI) — Indian peasants come from remote villages to line up outside radio station XEVZ, "The Voice of the Mountain," leaving personal messages, bits of poetry and songs to be transmitted across the airwaves.

It is one of six Indian language radio stations run by the Mexican government that is changing radio habits among the nation's full-blooded Indians, who compose about 10 percent of Mexico's 72 million people.

"They used to listen to the powerful Mexico City commercial stations that managed to reach here with disco songs, but they'd rather listen to themselves now," production adviser Hector Velez said.

Velez was one of five advisers provided by the National

Note: The VJ Log & "Medios Publicidad Mexicano" show XEVZ was a commercial station in Acayucan, Veracruz, which doesn't quite match Indian Institute, the government organization that set up the station. The rest of the 20-man crew are members of the three local Indian tribes.

"Every day we get an average of 150 letters out of the 300,000 people in a 2,500-square-mile area who listen to us! Also about 30 people a day who usually don't know how to write stop by the station with messages, songs, poetry they want read over the air," Velez said.

One message in Nahuatl, language of the Aztecs, said: "Ignio Gabino announces that at 12 hours and 16 minutes last night a yellow goat arrived at the door of his home chased by the dogs. The owner should provide proof of ownership to claim the goat."

Said another: "Evelin Chavez of Tlapa greets her estranged boyfriend in Huamixtlan and asks him not to be sad because soon they will get married."

The programming also includes bulletins from government agencies visiting the region, one of the poorest in Mexico, and music programs.

"Once a man showed up with a bullet wound in the chest and a ballad on Vicente Guerrero (third Mexican president). He insisted on singing on the show. I didn't ask any questions," said station disc jockey Rosio Gonzalez.

"Of course there are some things about the culture we can't support, like selling off daughters to be married before they are 12 years old, but we try to give these people an idea of their identity as Indians, as exploited people."
