## December DX

December is well under way, and it brings with us the shortest days of the year. You can put the short days to good use in this hobby. For example, the winter months will often provide freak daytime DX openings, where normally inaudible stations will come in from up to a few hundred miles away. This is especially common at the higher latitudes. Here in Seattle, Alberta stations are quite common during the winter daytime, and once I even heard KLBM-1450 LaGrande, OR at 12:30 in the afternoon, not bad considering they're 300 miles away.

You can also take advantage of the earth's tilt at this time of the year. During December and January, stations to the northeast of you fade in first during the sunset DX period, and stations to the southwest stay on their day facilities the longest. So if you live in the Great Lakes area, you may bag stations from New England or the Maritime Provinces that would get buried in the interference during other months of the year. And if you live in the western US, you may be able to hear some otherwise elusive California stations after your local sunset.

Meanwhile, sunrise is just the opposite. For the next few weeks, stations to the northwest of you will fade out last. Here in the Pacific Northwest, for example, California pests will fade out before Alaska and BC stations; I've heard KSKA-580, KTKN-930, and CHTK-560 that way in recent years, minus a lot of otherwise annoying QRM.

## Election News

Every two years, the IRCA holds elections for the offices of President, Secretary-Treasurer, and Board of Directors. Nominations are now open for those offices in accordance with our club Bylaws. Every IRCA member in good standing may nominate one person each for Pres and S-T, and seven persons for BoD. You may nominate yourself, if you so wish. The only qualification for club office is one year's continuous membership. Nominations will be open until January 15. Nominees will then be sent notified by mail and given instructions on preparing their campaign statements. The election will take place in March. Send your nominations to our election chairman Rich Segalas, PO Box 26254, San Francisco, CA 94126. Watch these pages for more election news, and information on the TVA Award, which will also be voted on in March.

TENTATIVES & UNIDENTIFIED'S

690 unID 10/13/88 0033 Mutual nex ID to LR - who has Larry King here? Seems midwest. (JH-PIT)

800 unID 10/15/88 0202 US s/off, pr u/PJE/YVTB/CKLW. Anyone keep track? (JH-PIT)

910 unID 11/28/88 0135 Briefly w/KJJQ w/Larry King. (JH-PIT)

910 unID 11/28/88 0200 Possible ID u/hash "--GY" by m, soon lost. (JH-PIT)

910 unID 11/28/88 morning Clas. mx xcores hosted by f; believe pgm originated from a Seattle concert location. Switching to E or NE antennas CKLY & CHRL were heard, so not them. Was best on W/NW wires - sd/ik an NPR pgm so presume WSU1 again. Or could have I been lucky w/CKDQ- Alberta in fine western opening? Very long/complete fades. Up w/KJJQ/mess every 20-min. or so. (JH-PIT)

910 KJJQ SD, Volga 11/28/88 0100-0300 Fr at times, mostly nil on (t) long/deep fade-outs. After KGLC s/off, heard Brookings ads & CST TC's, later confirmed C&W mx fnt w/sedate m/ancr & "Brooking's BEST Country" slogan. ABC nx @0300; surprisingly no Cubans hrd this am. ID = "Brooking's BEST Country, KJJQ, 9-10 AM." [Thanks to Karl Porth & Tom Laskowski for CDXR tips.] (JH-PIT)

QUIPS & QUOTES

FROM RAY BAUERNHUBER: Congratulations to Lynn Hollerman on being elected ANARC Computer Billboard Representative for IRCA...everyone knows you'll do a great job!

FROM ROBERT RITCHEY: I found Shawn Axwlrød's article "An Effective Ground System" interesting [I did too and it sounds as if it will work].

FROM JAMES HALL: Good CX to the West have really opened up western DX, especially 910 (KJJQ, KGLC, KUAT).

FROM ROBERT WEIN: Re. Vol. 26, #7 - John Stephens' unID on 920 could be WTCW, Whitesburg, Ky, KARN, AR or WGST, Ga...nothing else seems to fit.

Thanks again to all reporters this week...the column never seems to lack size...please keep 'em coming in. Apologies to all for the missing column recently - I sent the column in but the mails must have been slow. Till next time, keep smiling and 73's de DX de Mr. B.

## WHO BROADCASTING COMPANY

### HISTORY

The history and expansion of WHO Broadcasting Company from its beginnings on April 10, 1924 as a 5,000-watt radio station is a fascinating story. It is a story that reflects a growth in staff size, facilities and the very best in broadcasting service to the public...one striving for continued quality and responsibility in its programming.

WHO was originally owned by the Bankers Life of Des Moines when radio was still considered novel, with stations broadcasting without individual identification. Eventually, the station was asked to choose call letters. "WHO" was chosen by the company's manager in response to inquiries of "Who is this?" and "Who are we listening to?" In 1930, Colonel B. J. Palmer, noted for his progressive thinking, purchased WHO Radio and plans were made for expansion. In 1933, WHO was granted an increase in its operating power to 50,000 watts, making it one of the few stations in the country with such a vast coverage area. The extension in power enabled WHO to reach the entire Middle West and far beyond. Mail was received from Maine and Louisiana, remarking how clearly the signal was received.

To better reach the needs of its far-reaching audience, the WHO Radio News Bureau was created, bringing a professionally-staffed, fully-equipped news department to the public in 1935. Because 25% of all Grade A farmland was served by WHO's extended signal, the station then established the country's first farm news department. Although it started as an experiment in 1936, the Farm Service Department quickly became a model for others in the radio broadcast industry.

Early listeners to WHO Radio were tapping their feet to the Iowa Barn Dance Frolic, a local program of music and comedy on Saturday nights. WHO's first Sports Director, President Ronald Reagan, did play-by-play broadcasts of University of Iowa football games from 1932 to 1937, as well as "recreations" of baseball games from within the studios. On the scene reports from newsmen Jack Shelley and Herb Plambeck during World War II, brought first-hand accounts to the homes of thousands. And the origination of "National Soil Conservation Days" provided listeners with agricultural updates and know-how.

After 63 years of service, WHO Radio continues to maintain its high standards, with comprehensive, award-winning news coverage and programming. 21 updated farm reports are heard daily, and listeners are able to hear discussions with guests and experts. Increased sports coverage, ranging from high school and college athletics to professional, brings the best in sports to our listeners.

WHO has always prided itself on its involvement with the lives of Iowans. Although much has been written here of the past, the future holds even greater responsibility.

In 1948, WHO was joined by its "sister" station, WHO-FM. Broadcasting on the FM frequency, the station offered high school sporting events, updated newscasts and music. As times changed, so did the role of FM stations. In 1973, new all-stereo equipment replaced the old and the station changed its call letters to KLYF. Adult Contemporary music can be heard on KLYF 100 FM 24 hours a day in homes, cars, office buildings and stores.

- (KTWO)+No longer ANI First noted off Sat. 11/26 & Sun 11/27. Tuned in Wed. 11/30 0257 & heard DJ inviting listeners to tune in the morning DJ in 4 hours, then C&W song. 0300 lengthy s/off, then woman singing SSB. With Folsom gone, this freq. is wide open on the WC (except for KJDJ) every night, providing some good opportunities for midwest s/ons or Latins. (bp-WA)
- 1040 CKXY BC, Vancouver 11/14 0345 strong with rock music and "Kicksee" IDs. Tough to hear WHO now. (JH-CA)
- 1070 CKST AB, St. Albert per call to CKST, they are still CKST, have not changed calls to CHMG yet. They will change calls on about Dec. 15 when they move to 1200 kHz. Therefore, station in Langley, BC must still be CJUP, unless there are 2 different stations in Canada using exactly same sets of calls (I don't think that's legal!). Unless the person I talked with at "CKST" was misinformed, but it was the CE! (RW-CA)
- 1090 (XEPRS) BCN, Rosarito 11/26 2200 totally off the air. Freq. wide open. (CM-CA)
- 1100 KFAX CA, San Francisco 11/21 0228 PSA, ad for Christian Counseling Centers, traffic report promo, ID "Northern California's Leader, KFAX, San Francisco-Oakland-San Jose," "Nightsounds" Christian EZL music program. Fair-poor, over unID, KWAJ-1080 splatter. (5P-HI2)
- 1120 ?KANN? UT, Roy-Ogden 11/7 1030 tent. with relig. instrumental music in KPNW null, poor-fair. (JH-CA)
- 1180 KERI CA, Wasco 11/28 0206 with Spanish relig. program. (GK-CA)
- 1200 WOAI TX, San Antonio 11/28 0210 with relig. program. (GK-CA)
- 1240 KSON CA, San Diego 11/14 0452 good with C&W music on top and sudden ID, then gone. New. (JH-CA)
- +11/28 0340 good on top with jingle ID. Haven't heard in a long time! (RW-CA)
- 1330 KLBS CA, Los Banos 11/21 0700 with s/on; 11/25 0058 s/off with "A Portugues" & SSB. (GK-CA)
- 1340 KSFE CA, Needles 9/4 0907 fair, briefly on top with ID "Needles Radio, KSFE." New. (JH-CA)
- KORV CA, Oroville 11/16 0305 fair, out of ABC-I news with ID & s/off. Heard once before here. (JH-CA)
- KIST CA, Santa Barbara 11/30 0358 with news, ID 0900 & into rock music. (GK-CA)
- KMTW NV, Las Vegas 9/4 0900 fair with ID "KMTW, Las Vegas, with a salute to Marvin Gaye." Ex-KRAM, heard once here with that call. (JH-CA)
- 1420 KMOG AZ, Payson 9/4 0844 poor-fair over unID Spanish with C&W and ID. New. (JH-CA)

- 1420 KSES CA, Yucca Valley 11/7 0905 fair with news story on local weather, problems with strong wind, etc. ID. New. (JH-CA)
- 1490 KBAS AZ, Bullhead City 11/14 0400 good on top with "Your Cardinals Station," into legal ID & news. Only heard once before, two years ago. (JH-CA)
- KMET CA, Banning 11/14 0415 fair with ID "KMET, Banning-Hemet, Musicradio 1-49," into music. New. (JH-CA)
- KTOB CA, Petaluma 11/16 0300 s/off, good on top. (JH-CA)
- 1520 (KSGO) OR, Oregon City Sat. 11/26 0403 off, except for occasional OC, leaving unusually weak KOMA. Still off 0522. Back on RS 0750. (bp-WA)
- 1530 KFBK CA, Sacramento 11/21 0057 wrapping up an hour of Bruce Williams on Talknet, ID "This is KFBK Sacramento, where you hear the news, first," NBC News. Fair, KISA-1540 splatter. (5P-HII)
- 1580 ?KWYD? CO, Colorado Springs 11/25 1850 very poor under KNIX/KDAY with s/off. Thought I heard them ment. tune to KWYD-FM. (CM-CA)
- 1610 TIS CA, Newark 11/28 0353 noted with new message by mayor of Newark, beginning with "Go-oo-d Mor-ning, Newark!" (Like "Good Morning Vietnam"). Mention they could only be heard "...within a 5-mile radius of city hall" (I'm 20 miles away!). "...so you can't take us to dinner in San Francisco, or camping in the mountains.." (RW-CA)

UNIDS:

- 530 11/29 2400 coming in poor, looping east. I heard some sort of talk show, but couldn't get an ID because they would fade out. Any ideas? (CM-CA)
- 530 12/3 0030-0100 unID TIS (?) very weak, with deep fades. Seemed to peak when HI peaked. Heard "Welcome to... (2 syllable word).. the parking is 50¢ for the first half hour." Also heard "...just past the Coconut Plantation." Gone by 0230. (PM-OR)
- 660 11/28 0310 who's been running an unID OC all night for a few months now on 660? Distorts CFRR here all night, and ruins chance to hear WFAN-NY! Is this KTNN or KGDP? (RW-CA)
- 940 11/28 0321 unID TT good over KFRE, then played Beatles music later ("Michelle"), looped ESE, judging by strength almost surely KBRE-UT. Is this an unlisted DX test? No IDs heard. (RW-CA)
- 990 12/1 0607-0700 CBC news with heavy emphasis on eastern Canada such as Ontario, Quebec, Maritimes. Possibly CEW Winnipeg, but not as strong as usual CBW signal. Conditions to East Coast were excellent tonight, so will send a tentative report to CBY, Corner Brook, Newfoundland. Faded at 0700. (PM-OR)

Since we can't send cards to each reader of WDXR--Happy Holidays from Bill, Billy & me! ♥

## IRCA Foreign DX Reference, Volumes 23-25

You're tuning around and hear a carrier from foreign origin on a frequency (say TA on 891). You want to quickly know which countries have been heard on the frequency and what type of programming was heard. Or, you're DXing and have heard several stations from one foreign area (say Japan) and want to quickly know what other stations have been heard from that area. These are the situations the IRCA Foreign DX Reference was created for. No longer will you need to thumb through tens of back issues of "DX Monitor" to find the information you need. With the IRCA Foreign DX Reference you can quickly determine which foreign stations might on a particular frequency or where to look for more stations from a particular area.

In honor of IRCA's 25th anniversary (and because it sounded like a good idea), this year's Reference was compiled from the last three years of "DX Monitor"!

The IRCA Foreign DX Reference is a cross reference listing of all the stations reported to DXWW-W and DXWW-E during volumes 23-25 of "DX Monitor" (9/85-8/88). Three sections are available: Trans-Atlantic, Pan American, and Trans-Pacific. Each section contains a frequency listing (countries reported for each frequency) and a country listing (frequencies reported for each country) including the "DX Monitor" issue in which they were reported (volume and number). The Reference is an indispensable guide to what was reported the last three years, and where to find specific information about the receptions.

Each listing is 6 or 7 pages long. You can order any one of the three (TA, PA or TP) for \$2.00 each, or all three for \$5.00. Order your copy now before the 1988-89 season gets underway. Make checks out to IRCA and send them to: 9705 Mary N.W., Seattle, WA 98117. (phil bytheway)

EDITOR: JIM HALL ■ 240 BYRON ROAD ■ PITTSBURGH, PENNSYLVANIA 15237-4015 U.S.A.

This week we welcome Lynn Hollerman's report to DXWV-E. Please report more often if you hear any foreign DX, Lynn. Conditions have been somewhat 'stagnant' for foreign propagation, especially from TA/high latitude regions. I have been hearing the usual high-band TA's (i.e. 1521, 1557, 1566, 1575, 1584, 1593 et al.) but nothing too spectacular. Things are bound to pick up soon - If and when so, please send a report in. A very Merry Christmas to you, and as always, 73 and Good DX for '89.

## PAN - AMERICAN DX

- (570) CUBA, 0742 12/5 : The high-powered Radio Reloj was noted back here from 590 (where it moved last year from 570) this morning w/usual program. At the time on 590 only the 5kW Rebelde parallel was audible (was usually struggling under the stronger Reloj Cuban). Noted back on 590 next morning, w/the Rebelde outlet as usual beneath. Playing mind games? (Hall-PA)
- 590 CUBA, Radio Reloj 0646 12/6 : Noted back to normal from previous morning's 570, strong as usual w/time standards, nx. Alternating freq. common here. (Hall-PA)
- 1570 TURKS & CAICOS ISLANDS, South Caicos 0149-0151 12/1 : Atlantic Beacon at Southern Caicos w/two religious pgms, 1 address in NC, another in Kingston, Jamaica, into church service in progress in Jamaica. ID as "AM 15-70, the Atlantic Beacon...". Some QRM; stn faded soon after ID caught. (Hollerman-AL) (Congratulations, Lynn.ed)

A very short column this week due to lack of reports. I did have a minor TA opening with several West Germans in after sunset 11/28. Otherwise, only moderately productive foreign propagation conditions through the end of November, with Latins trying but waiting for suitable auroral conditions. I have also been spending much time chasing down a couple domestic stations with fine openings to the West. Times are indicated in UTC -- please send in a report if you are hearing anything.

## TRANS - ATLANTIC DX (Hall-PA)

- 1197 t WEST GERMANY, Munchen VOA 0022 11/28 : VOA assumed at time in "pipeline" cx. Very likely the one - bad TVI from 1195.804 but bits of audio on large carrier.
- 1269 WEST GERMANY, Neumunster DLF 0018 11/28 : New for me with some audio surfacing at times in slop.
- 1422 WEST GERMANY, Heusweiler 0016 11/28 : Pr audio through line noise QRM & slop over from 1420. Haven't heard this well for some time.
- 1539 WEST GERMANY, Mainflingen DLF 0011 11/28 : Outstanding audio butted against 1540. Quite loud at times and even better than usual best 1593 -- GG man & woman with apparant commentary or talk of sorts.
- 1593 WEST GERMANY, Langenberg WDR 0014 11/28 : Good to v. gd. on big carrier, even enough to het 1590 sharply using wide filters on receivers. GG as usual.

Aside from the New York City stations which have their transmitters in the Garden State, New Jersey has always been a very rare state for us in the midwest. With the excellent eastern conditions at sunset recently, I've managed to log 4 new New Jersey stations in just over the last week. Included are WNJR-1430 Newark, WWBZ-1360 Vineland, WXMC-1310 Parsippany, and a graveyarder WPPG-1450 Atlantic City. I never imagined that I'd have five NJ's, let alone three on one page of my logbook! In addition to the NJ's, I have also logged two new Vermont's, WDOT-1390 and WSYB-1380, bringing my total for that state to three. I sure hope other midwest DXers have been hearing lots of new stations from the east. At the beginning of this DX season my totals were at just over 800 and I was looking forward to reaching the 900 mark by the end of the season. So far I have logged about 124 new stations since Sept. so I may just have to try for the 1000 mark. One two reports out so far and with no luck. KNER so far hasn't answered and neither has KWPN. Follow-ups will be sent shortly. That's all for this time. Thanks to all who have written me recently. 73's and GO IRISH!

Rick Evans, Apt. 19, 5104 North Lovers Lane, Milwaukee, Wisconsin 53225

Tom, it's good to hear from you but shouldn't you be rooting for the Purdue team instead. Good going on those New Jersey stations. The last two I never heard while I was living near Philadelphia, although I did hear WPPG-1450 on a f/c 20 years ago while I lived in Gary. Time for the soapbox, I guess. I was somewhat irritated while reading Karl Zuk's President's Report in the 11/26/88 DXM on Radio New York International. I think it should be somewhat obvious as to the reason why radio stations are licensed by the FCC -- it's to bring some semblance of order to the radio band as to what stations are broadcasting where. The FCC doesn't have that much power on program content other than obscenity. It won't even do anything about the half-hour commercials which masquerade as children's programs. I don't know how true it is but several years ago there were remarks that the pirates on 1605-1615 in the NYC area were interfering with the radio signals at the airports there. The fact that the RNI is broadcasting from a ship registered to another company outside the three mile limit doesn't hold water with me. The intent is to broadcast solely to this country. The BBC is a red herring. Britain and the US are parties to an agreement which decides how the frequency allocations will be handled. Newspapers aren't licensed for the reason that they don't interfere with each other in the same way two stations on the same channel will. I realize that if one goes back into newspaper history there are many unsavory chapters, dirty tricks and outright lies in the news columns, but the only way they would interfere with each other physically is if two newsboys hawking their papers tried to occupy the same two square feet on a street corner. If Milwaukee has two daily papers or fifty, it doesn't matter (except for my newspaper collection), it doesn't matter, but if two or more people decide they want to broadcast on 920, it does matter. The FCC seems to be doing a great job in allowing a lot of AM/FM stations on the air, judging by the Forums I read. With freedom comes responsibilities and one of them is to follow the rules which were designed to bring order out of chaos, and those who choose to flaunt the rules should be prepared to accept the penalties. The regulatory agencies (FCC, ICC, SEC, FDC, etc.) weren't designed in a vacuum for no reason. Enough. 73.

IRCA — The #1 Choice of the Broadcast Band DX'er

Editor: Ric Heald • 8539 Bellamy Way • Sacramento, CA 95828 USA • (916) 386-8677

DEADLINES — WEEKLY ON TUESDAY 11 DAYS PRIOR TO PUBLICATION DATE

□ □ □ □ □ □ □ □ □ □

GARY LARSON, 2806 LINCOLN, BURBANK, CA 91504 (818) 567-7311 NSP

Hi everyone and Merry Christmas!

Doug Pifer, there are really seven towers at the old 1500 transmitter sites, the seventh for KROQ 106.7 who owns the mountain site. When did you hike up? If you're in the area, give me a call.

KBBT Canyon Country - believe city of license will remain same even though most of the area is now the city of Santa Clarita.

Recently heard KHTT 1500 on car radio while in Glendale. Had such a good signal that I thought maybe a local had taken to the air. Called the FCC in Cerritos whereupon I was told to contact the AM division in Washington, DC. I called the local office to inquire of 1500 here and who has applications for it. Also called KWOJ Sacramento and left message for the owner. Unsure if his CP is still good. (Good luck - I've called twice-RtH.) Maybe TRH's 1500 uniD was KHTT using 10 kw during a test? (Negative. KHTT is NSP-RtH.)

I've heard lately here of a publication called Radio Guide Magazine that is supposed to be available wherever L.A. Weekly is at (free). So far haven't found it.

So KWG has a new tower. Does it perform better than the longwire? Also, just where is it located? (Gary, re-read my forum - E & Weber-RtH.)

Yes, I agree, Floyd. I hope I can get to Sacramento for the convention. I do support Sacramento for '89.

Nick's report of the Beverage DX'pedition sounded wet for sure as well as kind of exciting.

Doug, what was your residence before Murrieta? I recall Anaheim as one location years ago. (Correct - RtH.) Yes, like Ric suggested, IRCA bumper stickers.

Isn't 790 Clovis a new call, ex-KXTC? (Yes, read your DXM's-RtH.) Strange to see 1590 Reno call of KICK. I recall it was Springfield, MO. (They never were KICK, was KIIQ, now soled and new calls. This is months old news, but were // with FM, which used KICK except for legal ID-RtH.) 73.

JIM HILLIKER, P.O. BOX 1499, CARMEL VALLEY, CA 93924

Hi all. You probably wondered what happened to me. I've just been busy, very busy at both work and home. When you last heard from me, I went on summer vacation. It was great visiting with Ric at his home and hearing his old air-checks and swapping DX and radio stories. (And now you know why I'm no longer in radio, hi-RtH). The visit to Orange County was over all too quickly, but did manage to hear KXEM 1590 along I-5 near Bakersfield, one of my more-wanted catches. They must not get out too well at skip times. Also saw the 530 stick in the Santa Ana-Tustin area that Steve Mittman had trouble finding.

Now that the Christmas season is with us and I finally did a bit of DX'ing at home and in the car. Tips have been sent to WDXR. Have heard KJJD 1030 quite a few times with definite ID's. Also got a midday logging of KFAM 700 for the second time in three years, this time on the Superadio. I was very disappointed when I found KVEG on 840. I still haven't heard anything about new stations for this area. KSCO 1080 dropped those calls at 1800 PST 18 November and became KLRS, completely simulcasting with new age music of KLRS 99.1. The company fired a news director that had been there 20 years, plus another reporter and the morning DJ. I heard they had a big "farewell" to KSCO program with some of their old announcers from the '40s through the '60s. KSCO was the station's call since going on the air in the late '40s.

Not much else new here except that Laura was fired from her job and is looking for new work. Seems 27 dresses were ripped off in three hours and they took it out on her, although the district manager seemed to have it in for her for some time. We're doing fine, though. Look for an article from me soon on the KWKW/KFAC/KAZN situation.

Everyone have a good holiday season. 73 and good DX.

RANDY TOMER, 50 THISTLE RIDGE, EUREKA, CA 95501

Hello to all. It's been a long time since I've sent in a forum so I thought I'd check in and let you know that I'm still around and DX'ing. It's been 13 years now since I started monitoring the BCE and first joined IRCA, how time flies.

In November I celebrated my 40th birthday (what a thrill, hi). On my birthday I popped into my local Sony dealer's store to buy myself one of those new Sony SRF-M40W's that I'd been eyeballing for the last few months. Alas, they had just sold the last one and nobody else in town stocks them. Hopefully, in a few more weeks my local dealer will have one for me. (Why wait for shipment from "down south," and head on "down south" where you'll probably get it for less?-RtH.)

It's been exciting to read that carriers from the South Pacific have been heard on the EC and also the Australians on 1630. Here in Eureka, right on the Pacific coast, it's been the least productive fall DX season I've ever experienced. I don't know if conditions have been bad or if it's because I haven't spent enough time at the radio to hit it right. I've only heard audioon three of the most commonly heard TP frequencies: 747, 1566 and 1575. (Naw, Randy, it's conditions. I've only heard hats-RtH.)

By the time you read this I'll be taking a Christmas vacation in Sarasota, FL. Although we'll be mainly visiting Linda's family and lounging on those nice white beaches, I'll also visit an old friend at Ft. Pierce, do some fishing, and drive out on the Keys. I plan to do a lot of DX'ing and am bringing my Sony 2010 and Shotgun loop along. On my last Florida vacation (1981) I logged dozens of LA and Caribbean stations (maybe close to a hundred, but unfortunately I discarded my log sheets during a clean-up frenzy a couple of years ago) using my RF-2200 and Shotgun loop. Although I was there for a month I never heard any TA's or African's, so this time I'll make a big effort for TA DX. The last TA's I've heard were my loggings of the BBC and Dakar back in '76 here on the WC, so it will be great fun if I hear any.

More later - Happy Holidays and good DX de Randy.

RIC HEALD, 8539 BELLAMY WAY, SACRAMENTO, CA 95828 (916) 386-8677

Merry Christmas y'all and hope Santa left the right DX machines under that tree.

Randy sent me a map to his home-20, and I was within spitting distance when I was up there last May. I zigged when I should have zagged, hi. Randy, get your base unit going again. I did give you a couple of shouts on all three channels, hi. Good hearing from you again.

Sorry to see the KSCO calls go, but I think it was inevitable with the sale. Thanks for the tip, Jim, and now logged. While in Salinas on my way to the Southland, I gave KTOM a call thinking you worked weekends (called literally in front of the station). Good thing I didn't go down to Commercial Street where I visited KTOM in the early '70s (I have a picture of the board). Instead KTOM is right across the street from the fairgrounds where I spent several summers at the rodeo. Tell Laura I still have a small plastic container that you guys brought to the pool party.

I've been looking for TP's and DU's all fall, but just hats, and like Randy noted, the usual channels, and add 828, 837 and 846. Then again, I'm about 80 miles inland, but an inland location hasn't stopped Glen Kippel, hi. Hey Glen, wanna loan me your rig?-Hi.

I have a suggestion for the Slogans column. Although it means more work for Rich, since so many AM'ers have started // with their FM, and because they ID only once an hour (sometimes, hi), how about adding that to the column? In other words, the FM slogan which of course is heard on the AM. Would make ID'ing a station a lot easier. And speaking of once an hour, has the rule (+ 5 minutes from :00) changed? I'm noticing an increase in stations flat out not ID'ing (legal ID) at all. KRAK-FM is one of them.

Gotta run - prepare for another day at the office. And after three months there I'm starting to question which is the real world, hi. Merry Christmas everyone and have a safe and sane New Year. Sacramento in '89 and '73 de RtH.

### Civil servants get no U.S. pop

Western pop music has been banned from the official English-language radio broadcast during government working hours, an official in Muscat, Oman, said. Instead, listeners of state-run Radio Sultanate of Oman hear classical music. "It is not deemed suitable for disco music to be piped through civil servants' offices," said the official. Sultan Qaboos, the leader of this Persian Gulf country, is a fan of classical music and opera. The change did not affect the Arabic-language broadcast, which plays Egyptian pop music.

OTH Radar Planned for Middle of North America

Keith Seaver (P.O. Box 241, Portland ND 58274) reports that the US Air Force is getting ready to start on construction of the central sector of its Over-the-Horizon Backscatter Radar System. The Air Force announced officially on September 16, 1988 that the site will be located at the Grand Forks Air Force Base in North Dakota. The receiver is to be located near Thief River Falls in Minnesota. The announcement was from Joan Boatwright, deputy assistant secretary of the Air Force.

The central OTH system is of particular concern to all shortwave listeners and DX'ers because it inundates a populated area. About 80% of the Continental US and much of Southern Canada will be effected. See the map below for the coverage area. Petitions against the radar has already amassed hundreds of signatures. Public meetings against the OTH radar also drew large, mostly hostile crowds. If you are also opposed (this editor sure hopes you are) you can write to the US Air Force and complain. I would also suggest sending copies of your letter to the Department of Defense and the President of the United States, Ronald Reagan as well as the President Elect of the United States George Bush.

This is all the news of interest to BCB DX'ers in the latest ANARC Newsletter, dated November 1988. If you would like your own copy you can subscribe to the ANARC Newsletter by writing to: ANARC Publications, Post Office Box 462, Northfield, MN USA 55057. A sample copy is US\$1.00 or 4 IRC's.

I wish all IRCA'ers a Good Holiday Season. Until next year, 73 and good DX from your editor, Albert S. Lobel. *Albert*

**NOTES:**

- DALE HAS SENT A LONG LIST OF STATION PERSONNEL ( POTENTIAL SIGNERS ), INCLUDING A COMPLETE UPDATE FOR STATIONS IN HAWAII. IN SOME CASES, HE'S GIVEN ME THREE OR FOUR NAMES PER STATION, BUT I'VE ONLY PRINTED ONE NAME PER STATION TO SAVE SPACE. IF ANYBODY WANTS THE COMPLETE LIST, JUST DROP ME A NOTE AND I'LL SEND YOU A COPY. THANKS, DALE ! -- TRH
- DALE SAYS THIS STATION IS ABOUT TO BE SOLD. SO HURRY !
- ALTHOUGH BILL HAS YET TO RECEIVE HIS KSVY VERIE, HE SAYS THAT EVENING DJ LISTED ABOVE IS YOUR BEST BET FOR A VERIE FROM THIS FINANCIALLY-AILING STATION. ALSO THE ADDRESS IS NEW.

**HELP WANTED SECTION:**

CAN ANYBODY SUPPLY A SIGNER FOR ANY OF THE FOLLOWING STATIONS ?

Welcome this month to first-time reporters BILL HARDY and DALE PARK. Also, thanks to BRUCE PORTZER for the new masthead !

As soon as the semester ends, I'll finish up my part of the Almanac, and then I hope to take advantage of the list Dale sent today and the one JOHN ASHBRIDGE sent a few months ago, and get a new batch of follow-ups out. 73 & Good DX -- Tim

# THE INTERNATIONAL RADIO CLUB OF AMERICA (IRCA)
