FROM THE PUBLISHER'S DESK: HAD TO MOVE A COLUMN AROUND THIS TIME & HOLD
 A COUPLE OF FORUM REPORTS TILL NEXT ISSUE. WHEN WE ARE WEEKLY I LIKE TO
 DO 20 PAGE OR 5 SHEET BULLETINS THEY ONLY COST THE 1 OUNCE POSTAGE RATE
 TO MAIL. THE BANKROLL TELLS ME NO MORE 2 OUNCE BULLETINS FOR AWHILE. A
 2 OUNCE BULLETIN COST ANOTHER 23 CENTS TO MAIL HERE IN THE USA. WHILE
 ON THE SUBJECT OF POSTAGE IT LOOKS LIKE THE BANKROLL WILL BE IN GOOD
 SHAPE TO HANDLE THE NEXT POSTAGE INCREASE. I SEE NO INCREASE IN MEMBER-
 SHIP DUES FOR THE NEXT POSTAGE INCREASE. I WILL HAVE TO WATCH THE SIZE
 OF THE BULLETINS. I WOULD LIKE TO THANK ALL OF YOU MEMBERS FOR YOUR SUP-
 PORT WITHOUT YOU THERE IS NO IRCA. WE HAVE LOST SOME LONG TIME MEMBERS
 THIS PAST YEAR BECAUSE THEY COULD NOT SPEND THE MONEY FOR MEMBERSHIP
 DUES. WISH THERE WAS SOME WAY TO CARRY THEM. HERE IS TO BETTER TIMES...

DEADLINE: MONDAYS

Another short column this week. Foreign DX is pretty good. Even the strong JJs are weak now. I guess it is just the "Mid-Winter Slowdown". Chuck Boehnke-Hawaii apparently has logged a new Commercial JJ on 1305 KHZ. That isn't listed in the 93 WRTH. The new 94 is due anyday now. Maybe it will be listed in there.

Welcome to DXWW-E for the week. Hope your Holidays were enjoyable and that 1994 will bring nothing but the best for all. Good to hear from Mike Brooker once again with some Latin American loggings. I was able to get some information on 1000 KIDH, Eagle ID, 10kw day. Phone call to 208-368-9717 was automatically transferred to Mr. Peterson (W6RYX) in S. Cal. He said station will be on in June or July 1994 with religious format. Transmitter will be located NW of Star. They operate KGOP 660 in Orcutt, CA. He said he has nice QSLs for KGOP and gets many reports from New Zealand. 1240 KZID, McCall ID, reported back on the air in NRC DX News. Bill Hale (NRC) called KMCL FM and they report KZID has been dismantled but they may try in future to get station back on the air. I have been working on updating my Boise Bandscan and hope to have it done before the end of the season. I have been watching for all of the DX Tests. 73 [sorry this is running a week late, Frank .. the holidays, ya know...rcw]

Larry Godwin, 2390 Clydes Dale Ln, Missoula MT 59801 406-721-5131

[12/31] Greetings! A hearty welcome to the IRCA to MEDFER operator Herb Vandebek, and to Brandon Jordan! Many thanks to Art Peterson and Wayne Heinen for helping me ID KNDN-960. I've solved a major QRM problem caused by a neighbor about two miles away. A technician from our local utility, Montana Power, located the offender who operated an electronic fence designed to keep his dog in the yard. The tech had no obligation to help me, since his company was not at fault, but did so anyway. I'm happy to say this scenario is typical of Montana. I just discovered a minor source of QRM here at home: my laptop computer, even when it's neither operating nor charging! November and December were good months for Mexican DX. I can't figure out how 10 and 50 kw stations in Mexico City can dominate their frequencies and boom into Missoula when NYC stations, which are closer, are very rare. I'm still searching for a digital electric clock that shows seconds, or even an electric analog clock that has 4 dots between numerals rather than 3. I anyone knows a source, please let me know. Thanks to Mike Hardester, I've found the perfect cassette for reception reports: Radio Shack's LN-30 (15 minutes on a side). Good DX in '94! [...about the dog fence - I'm dying of curiosity: how about some particulars of how the problem was solved! Also, I've spent years trying to find an (AC-powered) electric clock with seconds, but no luck. A couple of years ago I did find an excellent substitute - battery power - in the form of the Sharp EL-470 'Travel Clock Calculator' with both 'local' and world time, 24-hr format, etc. The whole thing is about 3" x 4" and I've had to change the battery once. Quite accurate, too! Picked it up off a rack in a chain discount store. It's probably no longer available, but I'd bet it has a successor...rcw]

Had several spots for gospel stuff. Male announcer mentioned "...ending the first weekend of the year..." indicating this was a regular program. 25 YEARS AGO

January 25, 1969 issue of IRCA's "DX Monitor"....C.M. "Stan" Standbury II of Crystal Beach, ON wondered if someday back issues of Radio-TV Experimenter would become collector's items....Bill Nittler of Englewood, CO received veries from XEE-590 and YVNA-660....Dave Rogers of Alva, OK accepted a job with KGYN Guymon, OK....Pat Martin of Seaside, OR mentioned his DX had slowed down due to attending college full time.

OPEN MIKE

In a crisis, you will choose the worst possible course of action. Tim Noonan has joined the ranks of those reporting by E-mail. Keep 'em coming, Tim! Nice turn-out this week. Lots of tips here, hope many of you log a new one this week. Just noticed KGHL-790 is back to playing C&W. More later. 73, John-John.

First of all, thanks to those who sent letters saying that they enjoyed the article on the high-end receivers; it was fun to do. I want to point out that some of the performance shortcomings of some of the receivers can be offset with a good antenna like a loop or with a phasing unit. As an example, Charlie Barfield, my local DXing buddy, can log 17 stations on a simple xtal set and 50' LW during the day but can increase the number to 57 by using the Quantum Loop! So, as we all know, the antenna is just as important as the rx. Speaking of the Quantum Loop, I've got about six Quantum Loop bases with faulty cosmetics (e.g., imperfect silkscreening, dappled clear coat, etc.). Because I can't sell these as perfect for \$145, I'll let these blemished ones go for \$99 (+\$5 shipping; \$10 Canada) if you can live with the blemishes; everything else is perfect on them. I'm still trying to get over the DX heard on the St. John's DXpedition...incredible. Finally, I hope everyone had a good holiday season; the flu bug accompanied Santa to this QTH which wasn't all that bad because I spent most of the time in bed with a Sony 2010 on my chest, hi. 73's ...GT.

The improved NRC AM Radio Log, 14th Edition, is the most accurate listing of AM radio stations in the U. S. and Canada, with cross reference listings. 3-hole punched for standard binders. Only \$16.95 to U. S. and Canadian NRC/IRCA members; \$19.95 to U. S. non-member; \$20.95 Canadian non-member. Airmail: to Latin America, \$21.00; Europe, \$24.00; rest of the world: \$28.00.

* HOT TIPZ *

- 850 WPF D TN Fairview carrier is approx 200 hz off freq, and has been left on overnight for the past few weeks. Creates a terrible het on 850. Makes KOA sound like it's xmtng single sideband. (TB-TN)
- 990 WNRV VA Narrows this stn has been legally, but erroneously running 5 kw nites. Authorization was to have been for less than 100 wts, but the attorneys told them to go ahead with high power until otherwise instructed. Get this while you can. (TB-TN)
(if you can. Tom sez they blast in like a local in Nashville, but J.D., not far S, hasn't heard a peep! Strange. -ed)
- 2300 WCEN MI Mt. Pleasant Sa 1/8 1820-2000+ this 1150 station was blasting in here at armchair levels on 2nd harmonic w/NOS mx, "AM 1150 WCEN IDs." I called around the EDXR net, but nobody was home except Bill Estes, who had them at 20/9. Tip passed to JCJ-MT: it will be interesting to see if they were heard out West. Faded out after 2000. How did I stumble on this? Went to 10 MHz to check WWV propagation forecast, punched at "MW" button on DX-440 and hit the "SW" one instead, which landed me on 2300! Almost enough to make me believe in Kaz's DX gods! (LLH-VA)

(I think I can safely say "no way is this a call change." FCC stopped giving out new three letter calls decades ago. The only way they could use this call is if they have ownership of it, assigned to a FM or something. I don't think that's the case. By the way, I never had trouble remembering who they were when they were "Crusin' 540, WGT0." What better car to cruise in than a GTO??? -ed)
