Is it my imagination, or do we have a lot of Alaskans reported this week? Patrick's entire report was Alaskans, and Curtis included many in his DX report from Alaska. Contests are now underway for the season! One person has asked if I can comb through WDXR reports for contest entries. I keep my WDXR reports completely separate from contest entries (separate desks, in fact!) so I need for you to send separate reports for each. It also makes it more fair for those in EDXR-land or CDXR-land. E-mail contest reports are welcome, see e-mail addresses in the column heading. Speaking of e-mail reports, if you have a WDXR report why not send it to me via e-mail? So far I've only received two reports via e-mail, one from a CDXR reporter who was vacationing in WDXR-land, and one from John our CDXR editor. Nearly all of John's reports for CDXR arrive via e-mail, but none of mine arrive via that method. I wonder why. Send me those WDXR reports - we are weekly now!

## OPEN MIKE

Life is like an onion: you peel off layer after layer, then you find there is nothing in it. Thanks to Jon we have a column this week! Jon mentioned his local KTCJ-690 accidentally stayed on the air for more than an hour and a half after LSS on 9/29. 690 rebroadcasts sister KTCZ-97.1. He called them after 9pm when the ID was "KTCZ Mpls-St. Paul," making it obvious they thought 690 was off the air. The DJ said "Oh, God dang it" and the station went off immediately. They operate by remote control and sometimes it doesn't work right. Interesting story, Jon. Remember, we're weekly, report often! 73, John-John.

[9/28] Greetings! The 9/28 issue of The Missoulian reported that Sunbrook Communications is up for sale. It owns these MT stations: KAAR, KQUY and KXTL in Butte; KRKX, KYVA and KBLG in Billings; KDXT and KGRZ in Missoula; and KAAK and KXGF in Great Falls. These stations might eventually change call letters. I heard Georgia this week (WSB-750; see WDXR for details), and am trying for AR, IN and NC. Does anyone know the nighttime directional patterns for KAAV-1090, WOWO-1190 and WBT-1110? Which stations do they protect? Thanks, and good DX and 73.

Well, it looks as though another season is upon us. I sure hope that I have more time to DX this year than I did last year. The low sunspot numbers and the expanded BC band should provide some very good opportunities for excellent DX. On my way to work this morning, I was surprised to hear local WCOA-1370 recommending in its editorial that its listeners "tune to other AM stations, especially at night." The editorial writer, Don Priest, then went on to suggest some clear channel stations and some of the stronger LA stations audible here in Pensacola...really a nice plug for BCB DXing! I managed to get my hands on a Watkins-Johnson HF-1000 and expect to try it out on the BCB in the coming weeks; look for a review soon. I also have one of the new computer-based "Softwave" radios on order for an evaluation. My intention is to write a "Receiver Showdown--Round 2" comparing the HF-1000, Softwave, R-8, NRD-535D, and R-390A. I should have it done in a month or two. Speaking of equipment, I'm sorry but I've had to raise the price of the Quantum Loop by \$10 to \$155 (\$145 plus shipping for IRCA/NRC members). Right now I'm still waiting for cabinets that I ordered in July to arrive so I'm way behind in filling orders...please be patient. Finally, since writing the first "Receiver Showdown", I've had the opportunity to try the radios with loop antennas. All work well with the exception of the NRD-535D. Positioning of the loop well behind the radio is necessary because its digital display radiates RF in the MW range and severely interferes with reception. Oh year, a word of advice: Think twice before inventing something of commercial value--the legal stuff is driving me nuts! That's about it from here. 73's...GT.

Welcome, Howard, and welcome back, Nigel! Thanks for the kind words, Nigel! Tom sent in a note asking me to remind everyone of the information on KSD-550 that J. D. Stephens included in his CPC recap, namely that Dave Obergonner, the former signer at KSD, is now Director of Engineering at KZIM-960, P. O. Box 1610, Cape Girardeau, MO 63702. He apparently has some KSD stationery and reporters could try sending follow-ups to him. To all reporters: Please make sure you include all information, especially full station addresses, when you submit a report. I use my computer at work to prepare each month's column but my AM logs are at home next to my receiver. Telling me that the address is the same as in the AM log means that I have to transfer this information from my log to your report. This is especially important for those of you who send me tips by e-mail, as I am only connected to the Internet at work. Still, I can't complain too much as nearly all of you have done a marvelous job of following the format of the column when you've reported. This column was prepared on 9/30/94. 73, SSH.

## IRCA Foreign Logs

Before the creation of the IRCA Foreign DX Reference, the IRCA published nine volumes of the IRCA Foreign log. Each volume contained the several hundred actual tips that were reported to the DXWV sections during an entire year, compiled and retyped in a book format. In addition, special features include: articles on foreign DXing (volumes 6, 7 and 8), utility lists (volumes 7 and 8), shortwave parallels (volume 8) and BCB propagation (volumes 6, 7 and 8). The IRCA Bookstore still has volumes 3, 4, 6, 7 and 8 of the IRCA Foreign Log available for \$2.50 each (overseas airmail add \$2.50/book).

## IRCA Stationery

Black masthead with the IRCA logo and name. Great for using when writing for verifications. 100 sheets. \$4.00.

To order any of the above items from the IRCA Bookstore, send the correct amount (in US funds) to:  
IRCA BOOKSTORE, 9705 MARY NW, SEATTLE WA 98117.

## IRCA Reprints

The IRCA maintains a large file of articles which have appeared in past issues of DX Monitor. These articles cover a wide variety of topics, including: antenna theory and construction, tips for the foreign BCB DXer, how to improve your DXing skills, history of DXing and broadcasting, lists of stations by subject, construction projects and receiver modification, receiver reviews, medium wave propagation, and more. Copies are available for a nominal charge. For a list of reprints, send \$1.00 to:

IRCA Reprints, c/o Steve Ratzlaff, 1885 E Bayshore Rd Sp 90, E Palo Alto CA 94303.

IRCA MEXICAN LOG, 1994 - 3rd EDITION.

The log lists all AM stations in Mexico by frequency, giving call letters, state, city, day power, night power, slogans, schedule in UTC/GMT, formats, networks, and notes. Stations that have changed frequency since 1990 are cross-referenced on the old frequency.

The call letter index gives call, frequency, city and state. The city index (listed by state, then city) gives frequency, call, day and night power. There is even a guide to the Spanish alphabet and numbers.

The log has been completely updated from the 1990 edition and carefully cross-checked by IRCA members in Mexico and the U.S. This will be an indispensable reference for anyone who hears Mexican radio stations.

The price, payable to IRCA in U.S. funds:

IRCA/NRC Member: \$6 U.S./Canada/Mexico/seamail, \$7 rest of the Americas airmail, \$7.50 Europe/Asia airmail, \$8 Australia/New Zealand airmail.

Non-Member: \$8 U.S./Canada/Mexico/seamail, \$9 rest of the Americas airmail, \$9.50 Europe/Asia airmail, \$10 Australia/New Zealand airmail.

Order from Phil Bytheway, IRCA Bookstore, 9705 Mary N.W., Seattle, WA 98117.

# DX WORLDWIDE EAST

EDITOR: Jim Hall, 3176 Cheltenham Ct., Gibsonsia PA 15044-8435 usa

There are a host of reports for the column this week. The extensive contributions from Mark Connelly have been assembled as both regular column reports as well as a separate DXWW-E Extra section for your perusal. The reports from Mike Hardester, Randy Stewart and William Wyllie are here in the regular section. Mike has a logging of the Radio Democracy station in Haiti --- Pete Taylor, per an AP article in the San Francisco Chronicle (quoting the NY Times) sent a note about this station. To heighten discontent, the propaganda messages were to be broadcast into Haiti via the shipboard radio station. Shades of Grenada's psyops "Spice Island Radio", anyone?

\*\*\*\*\* - general announcement

As a special project, I am going to compile an audio tape of IIS messages from all over the US and Canada. I can accept either reel-to-reel or cassette tapes, and the announcement should be readable (not faint DX, although clear DX is OK). Please include call (if known), location, frequency, date and time with each submittal. The length of the final product will depend on how many submissions I get... but I am hoping for at least two sides of a C60 and copies of the final product will be available for a nominal charge. My deadline is November 1 1994. Send tapes to: Phil Bytheway, 9705 Mary NW, Seattle, WA 98117.
