**PUBLISHERS DESK:** For a few weeks now I have been kicking around the idea of putting the DX Monitor on Internet, CompuServe, AOL etc. This really is the way to go. No more masters to mail, no more paste ups, no more copy center, no more stapling, no more folding, no more copy center cost, no more postage cost, no more driving back and forth to the copy center, no more \$25.00 membership fee. Each section would have its own database like domestic dx, foreign dx, forums, dx test, technical, verification signers etc. You would get to pick what you like, if you go for domestic dx, forums and dx test thats what you will get. One nice thing about the computer is the time it saves. You can get the information in the AM and it is gone out in the PM the same day. For the people without computers a system can be setup just like the one for people who have computers, what you like is what you get. For a nominal fee your sections could be printed and mailed to you. This service will be for the non computer owner member. No new non computer owner can get this service. The IRCA uses the computer to move information around right now, it would need to be expanded. Let me know what you think about this idea.....PUB

SPECIAL INTEREST and UNIDEN:

- 710        ???? 9/24 2000 Hrd end of Gospel song into live s/off "we want you to tune your radio to 97.5 FM for the remainder of the show..Stay tuned for good Southern Gospel music... No ID, No City of license, they just turned it off.(LF-FL)
- 1080       ???? 9/21 2053 Country Music with numerous mentions of "The Hawk" "Hot New Country" "107.7""The New 107.7 WHKW" Hrd promo for Louisviulle Zoo so logic tells me this was WRES-Louisville since WHKW is an FM licensed to Corydon, IN, on 107.7..Have the WRES calls been deleted?? (LF-FL)
- 1640       ???? Mike Harvester advises of something on 1640 hrd by William Pfeiffer in Missouri..Any ideas??? (MH-NC)
- 1660       WJDM NJ, Elizabeth Mike Harvester got a card from Larry Godwin saying that WJDM was testing on 1660 during the early evening. Mike doesn't know where Larry got his info.. I've been spot checking 1660 but have not heard anything here but static....Perhaps Ted Wedzilowicz could check this one out for us. (MH-NC)

DX TESTS

- 1320       WOBL OH, Oberlin 10/5/ 0000-0030 IRCA DX Test. Hrd. several tentative ID's, then 2 clear CID's mentioning Oberlin near the end of the test, when the signal peaked. (JD-AL) (darn, I gave up and went to bed !-ed)
- 1460       WZEP FL, DeFuniak Springs 10/7/ 0530-0558 IRCA DX Test heard loud & clear with many CID's lots of jingles & voice announcements, and many classic country tunes, the titles of which even a rocker like me could identify ! (JD-AL)

CORRECTIONS

My logging of WWKI 1490 Bradenton, Fl(DXM-33-3) seems to be in error...The calls are actually WWPB...Wayne Heinen was kind enough to point it out.. I checked it out this week while driving to South Florida and sure enough he is correct..Not sure how we heard WWKI since we got a clear ID on the city of license unless the annor gave the wrong calls or the program they were running had the wrong calls..Not really sure..

\*\*\*\*\*

Things are beginning to pick up as the "static" levels are beginning to ebb just a bit...Looks like my 1000' & 500' Towers near Mexico Beach, Fl got through Hurricane Opal with out a scratch while one of our employees 1/4 mile away lost everything....Don't forget the WAMR test 10/23. We have some "Special Music"planned....See you in 7..FAX is 904-732-7223.. E-MAIL IS Lfreshwater AOL.COM....Lets DX & REPORT !!       fresh

Was getting ready to tape the "Orange Possum Special" Bluegrass MX program on WSM-650 for a friend in Australia this 10/2 PM. Found the KY Dept. of Highways testing a HAR on 650. There has been a number of accidents at the Kennedy Bridge construction on I-65 and direction indicates that is the probable location. The I-75 HAR heard in Lexington in July not heard while passing through on I-64 this week and last. I wrote to the Dept. of Highways with some questions about the HARs in Kentucky but they've not bothered to answer. Irritates me no end as I pay a significant amount in taxes to our fair Commonwealth. I've vented my wrath to the Transportation Cabinet. If I don't hear from that outfit I may write the Gov. Don't mess with Col. DX! I've not heard the audio on our local 530 VIS for quite some time. Just a strong het. Forgot to check it out last time I was downtown. Heard on "DX Partyline" that HCJB-690 would conduct monthly 15 minute DX Tests in each of the next 12 months. Maybe I'll hear it (ha). 73 until next time.

Did anyone else try for the southern stations when Hurricane Opal came ashore on 10/5? I did, about 0615-0630 ELT, but not much there in the south except WSB-750 and WWL-870. Did manage to log WDOD-1310 for stn 288. Probably the main reason for listening is that Opal wound up going over my Mother-in-Law's place (no damage to her house or her brother next door, except power was out for three days). We were supposed to be down there that week but things changed and we will be there the week of Oct. 15th--just in time for Hurricane Roxanne to take aim at the south. Just can't win, hi. I'll have my radio and logs with me again and should have no trouble listening this time. That log is at 94 heard (just a Superadio 2 with no external antenna) and I hope to push it well past 100. If Roxanne goes thru, it could be nothing or a great big bunch! The 10/14 deadline is being pulled up to 10/13 but the following one will be 10/23. 73.
