Publisher's Note

The anniversary issue is coming. I'm looking for articles, short is OK, and for everyone to send in a forum to introduce yourself or to reacquaint us. We've got over a month before that deadline, so there's time to think about what you can send in. How did you get started DXing? What's been the most memorable DXing experience you've had? What receivers do you use, and how do they stack up against others you've had? You don't need to be a technical whiz, just willing to share... --RT

Here's the results of the most recent DX tests that have been received here:

KJAY-1430, Sacramento, CA - tested Saturday, January 5, 2002 from 12:00-4:00 am PST:

This test was heard in AB, WA, ID, MT, CA and OR (from reports received here) - and it was run at 500 watts! **Pete Taylor** in Tacoma, WA heard the CW IDs, as did **Art Peterson** in Richmond, CA, **Bruce Bacon** in Boise County, ID, **Tom Kraft** in Billings, MT, **Patrick Martin** in Seaside, OR (who arranged and coordinated the test!), **Frank Aden** in Boise, ID, **Phil Bytheway** in Seattle, WA and **Nigel Pimblett** in Medicine Hat, AB - and most reported that the test was rather weak. KJAY also played some warble tones, which some reported hearing, and this may've been what **Chuck Boehnke** in Keaau, HI heard. **Rich Toebe**, in the station's backyard in Davis, CA, reported that yes, the test did run, but the signal was directional. **Nick Hall-Patch** in Victoria, BC reported he tried for the test but didn't receive it, as did **Harry Helms** in Ridgecrest, CA, **Kevin Redding** in Mesa, AZ, **Rick Lewis** in Phoenix, AZ, **Les Rayburn** in Helena, AL (near Birmingham), **Patrick Griffith** in Westminster, CO, **Bruce Portzer** in Seattle, WA, **Tim Hall** in Chula Vista, CA, **Paul LaFreniere** in Grand Marais, MN, **Masa Horie** in North San Diego, CA, **Bob Karachevski** in Sunnyvale, CA, **Mike Stonebridge** in St. Isadore, AB, **Bob Pietsch** in Foster City, CA, **Robert Wien** in San Jose, CA, **Bob Rodriguez** in Kingston, NY, **Don Kaskey** in San Francisco, CA, **Randy Stewart** in Springfield, MO, and **myself** in Lafayette, LA.

KTNS-1090, Oakhurst, CA - tested Tuesday, January 8, 2002 from 12:00-1:00 am PST (rescheduled from 1/7/02 at the same time):

This test was originally scheduled to run on Monday, Jan. 7, 2002, but had to be changed at the last minute due to a computer crash at the station, and the CE elected to run the test the following night/morning. Only one report of hearing this test made it to me! That was from **Bruce Bacon** in Boise County, ID, who reported he heard the CW ID. He sent me a .mpg of his reception - the channel was VERY crowded (nothing but KAAY here in Lafayette, no matter what!), but the CW cut thru! Also reporting that they tried for the test but were unsuccessful were **Don Kaskey** in San Francisco, CA, **Bruce Portzer** in Seattle, WA, **Phil Bytheway** in Seattle, WA, **Tom Kraft** in Billings, MT, **Powell E. Way** in Columbia, SC, **Darwin** in Southern CA, **Bob Karchevski** in Sunnyvale, CA, **Nigel Pimblett** in Medicine Hat, AB, **Patrick Griffith** in Westminster, CO, **Mike Stonebridge** in St. Isadore, AB, **Paul LaFreniere** in Grand Marais, MN, **Art Blair** in Folsom, CA, and **Frank Aden** in Boise, ID (at a different elevation than Bruce). **Pat Martin** in Seaside, OR reports that KNCR-Fortuna was on the air past their regular sign off time with 10 kW, and this caused too much QRM for him to get KTNS's signal - **Chuck Boehnke** in Keaau, HI heard KNCR instead as well. **Barry McLarnon** in Ottawa, ON reports he *may* have heard the Morse, but he thought it might've been his imagination!

That's all for now...

Also, if you hear a test, PLEASE, PLEASE let me know, via either e-mail or in rec.radio.shortwave! And if you send a reception report to a station, please remember to include return postage with your report...—**Lynn Hollerman** (ircamember@geocities.com)

OF SPECIAL INTEREST

- 590 KRLH CA, San Bernardino 12/31 1300 ID, lots of collages of historic audio clips with promos of the "New 590," so I think they'll be news & talk. This heard on car radio locally, a big surprise. I expected // 1410-KCAL. Now 590 is owned by Salem, 1410 is Lazer Br. and at one time these two plus 97.5 FM were all at one address. Address and phone number for 590 are the same as 870 KRLA. (GL-CA)
- 620 KTLK OR, Portland 1/10 0300 noted with new calls, ex-KDBZ; new slogan "Newstalk 620." "The Buzz" buzzed off, hi. Fair signal, mucho interference from KTAR and KIGS. . (RT-CA)
+Now this call, ex-KDBZ. Heard with ID at 0359:50 1/10 "Newstalk 620, KLTk Portland and the great Northwest." Thanks to Rich Toebe for alerting me to this. (PM-OR)
+Noted with new calls slightly under KMJC 1/10 2100. I was looking for CKRM. (PT-WA)
- 760 KKZN 1/11 0940 noted on top of noisy channel with Stock Market report (!) then "760 The Zone" ID into ads. At 0959, ID'd as "760 The Zone Denver, Feel the Power, Clear Channel Colorado." In KFMB null. Ex-KTLK. (RT-CA)
- 980 CJME SK, Regina is apparently on the air here now. On 1/6 at 0757 I heard a promo for "News, weather and sports starting Tuesday morning on Newstalk Radio, CJME." I guess it began regular schedule here 1/8. (LG-MT)
- 1070 KRAM OR, West Klamath 1/6 on top of KNX & mixing with them from 0929 till 0948, playing NOS music. Good signal. (GJ-CA)
- *****
- 580 KKSU KS, Manhattan 1/4 1829 s/off announcement, mentioning 5000 watts, "Voice of Kansas State University," and inviting listeners to stay tuned to WIBW, which indeed came on at 1830. Rough in QRM. (JW-CO)
- 590 KSUB UT, Cedar City 1/3 0200 Art Bell nonsense into CNN news. Not heard for several years. No sign of KUGN which usually dominates. (GH-OR)
- KQNT WA, Spokane on top 1/7 0159 with news calls & format. (PT-WA)
- 620 KMJC CA, Mt. Shasta noted topping KTLK with end of (or promo for) Mike Reagan show 1/10 2059 and dual KSYC/KMJC ID 2100. Never heard before. Listed as daytimer in NRC Log and with 29 watts nights in M Street log. Surprisingly, as long as CA was good, there was no KIGS. I think the word is getting around that the FCC just doesn't care what stations do. New. (PT-WA)
- 630 KHOW CO, Denver 1/9 0315 with Art Bell in KIDO null, also with Art. Made for a very string echo effect made even stranger by Richard C. Hoagland's interview. Perhaps a conspiracy. (BB-ID)
- 640 KFI CA, Los Angeles 1/9 0310 all alone with Art Bell. (BB-ID)
- 650 CISL BC, Richmond 1/9 0311 with ID as "C-Isle" and into "Indian Lake" by Partridge Family...I think. Trading places with KSTE/Art. (BB-ID)
- 660 CFFR AB, Calgary 1/9 0240 with "One Fine Day" and ID as '66 CFR." Sharing the frequency with KTNN/Midnight Cowboy Trucking Network, unID ABC station underneath. (BB-ID)

680 KNBR CA, San Francisco 1/9 0210 with regular sports format. All alone. (BB-ID)
 KKGR MT, East Helena 1/4 1851 local spots, OLD music, "68 KGR" slogans. Legal ID at 1859:51 "You're listening to the capital city's original oldies station 68 KKGR East Helena. All oldies all the time," then "Good Time Oldies" program. Good signal, mixing with KKYX, until KKYX powered down at 1859, then KKGR pretty much all alone for a while; mixing later with KWKA and CJOB. Still pretty good at 2000. First time heard here, MT #26. Also heard on 1/10 at 0855. A transmitter or power upgrade? (JW-CO)

690 CBU BC, Vancouver 1/9 0205 over XETRA with weather for BC at 0205. (BB-ID)
 700 KGRV OR, Winston 1/9 0200 ID as "KGRV is the Praise Station" in KWLW null, with unID Spanish way down under. (BB-ID)
 KWLW UT, North Salt Lake City 1/9 0150 with Truckin Bozo. (BB-ID)
 710 KIRO WA, Seattle 1/9 0140 with call-in show. All alone. (BB-ID)
 720 KDWN NV, Las Vegas 1/9 0135 all alone, no sign of WGN. (BB-ID)
 730 KBSU ID, Boise 1/3 0830 xylophone tune, at 0833 gal said "Jazz classics and hot new releases on Idaho's Jazz Station, 730 AM Boise, 1450 AM Twin Falls," then more music. Spotty reception after that, with jazz music, female announcer, weather forecast. Covered by KLOE's power-up at 0900. (JW-CO)
 CJNW BC, Vancouver 1/9 0125 in tight KBSU null with traffic report. (BB-ID)
 CKDM MB, Dauphin 12/23 2333 caught with "CKDM Request Program." (LG-MT)
 740 KBRT CA, Avalon reverse Murphy's Law: I was looking for CBX for the contest. It wasn't there with the loop on E/W, but I noted another station equal with KCBS on N/S. Promo and choral ID rose to top the channel 1/7 1000. New. (PT-WA)
 KTRH TX, Houston 1/5 0557 faded up over semi-local KCBS and Mexican with quick "KTRH" ID. Unneeded, but nice to hear as it's not a frequent visitor to this shack. (RT-CA)
 CBX AB, Edmonton 1/9 0115 with classical music, atop KCBS. (BB-ID)
 750 KOAL UT, Price 1/9 0100 with ID as "KOAL, Price 750" into ABC news. All alone. (BB-ID)
 ?KAMA? TX, El Paso possibly the one with "Requerdos" noted in KOAL/KXL null looping SE 1/5 0452. Very weak signal. (RT-CA)
 760 KTLK CO, Thornton 1/9 0050 over KFMB with sports talk and ID as "Denver's Sports Leader." (BB-ID)
 WJR MI, Detroit 1/5 0250+ noted "Midnight Cowboy trucking Network" over KFMB and KTLK-CO, fadey but fairly strong. 0305 faded up with "Keep your radio tuned to WJR." New from Davis, nice to hear again! (RT-CA)
 810 WHB MO, Kansas City 12/29 0315 beating up KGO. Station probably running day power & pattern. (MR-UT)
 830 WCCO MN, Minneapolis 1/5 0445 great conditions tonight --this was almost equal to my semi-local KNCO Grass Valley with "What The World Needs Now," then WCCO ID, announcements, then talk about Twins spring training schedule. New for Davis log. (RT-CA)
 880 KRVN NE, Lexington 1/5 0504 completely owing the channel; unusually strong with extended weather for towns in its service area; other stations with armchair levels because of great conditions were WLW, WBBM, WBAP, WLW and WLS. Almost like it's 1980 again, hi! (RT-CA)
 KCMX OR, Phoenix 1/4 0000 news dominant in the jumble but weak at best. No sign of the "Mexican Pest" KWIP for once. (GH-OR)
 930 KSEI ID, Pocatello 1/4 0200 faint ID out in the jumble but mostly on top. Talk & sports show of some sort. Weak signal. (GH-OR)
 CJCA AB, Edmonton 12/16 0040 fair to moderate signal with many 930 "The Light" ID's and Christian Christmas music. (GH-OR)
 +1/10 0908 weather forecast, M&W chat briefly, then traffic at 0909, sponsored by Petersen Pontiac. Fair/good with no sign of KRKY. (JW-CO)

940 KICE OR, Bend 1/5 0545 blanketing the channel with ESPN, way way over normally strong KWRU Fresno. On day power? (RT-CA)

 1220 KDDR ND, Oakes 1/9 0759 strong with "Dakota Back Roads" program. (LG-MT)
 KCCS OR, Salem 12/21 1800 had a monster signal on my car radio with local commercials and ID "Christian Family Radio, KCCS." (LG-MT)
 CJRB MB, Boissevain 1/5 2258 aired a local ad during a hockey game. I've never heard it with hockey before. (LG-MT)
 1230 KEXO CO, Grand Junction 1/7 a surprise, on top, in Spanish with ID at 0900. I heard "en Grand Junction, Colorado" plus a new (apparently) slogan "La Maquina Musical." Rare. (LG-MT)
 KOTS NM, Deming 1/2 1857 C&W music, ID at 1859:55 "Luna County's Country KOTS 1230 AM Deming," then AP Network news. Area news at 1908 after weather and ads. Fair in the zoo. (JW-CO)
 1300 KAZN CA, Pasadena 1/7 1855 ad block, mention Anaheim and Long Beach, English ID and announcement that the programming was in Chinese. Very good signal. (AB-CA)
 1320 KGDC WA, Walla Walla 1/1 0100 faint ID in the jumble, with news. (GH-OR)

 KVRI WA, Blaine Asian programming with mentions of "Radio India" and 106.5FM 1/5 2159. At 2200, English ID (AM only) and "The following program is presented by Radio Punjab." Aims signal toward Vancouver, BC. Some KEED. Absolutely no slop from local KLFE-1590. New. (PT-WA)

DX TEST
 1090 *KTNS* CA, Oakhurst 1/8 0306 taped, with code ID cutting through XEPRS, KBOZ and KMXA. Taped. Thanks for setting up this test, Lynn! (BB-ID)
 (KTNS)+1/8 0300-0400 nothing heard under KBOZ. Listened to Bruce Bacon's code ID at 0306 but nothing heard at this location. (FA-ID)
 +1/7 0300-0315 didn't hear DX test. At 0300 did hear MYL-type song. (MR-UT)
 +Test not heard on either 1/7 or 1/8, when it was apparently rescheduled. (RT-CA)
 1430 KJAY CA, Sacramento 1/5 0242 DX test on a little earlier than sked with good sigs. Digitized warble and code ID's. On the LW, KJAY about even with KLO and way over KFIG. On the loop it was dominant in the KLO null. (BB-ID)

+1/5 0300+ test was heard; local station for me. Wonder what non-DX'ers would have thought of the tones and code? (RT-CA)
 +Three solid code ID's heard and taped 1/5 0303-0305. Nothing else discernable through mush (KBRC, KLO, etc). New. Thank you Pat Martin. (PT-WA)
 +1/5 0400-0500 heard DX test with warble tones and Morse code occasionally. Semi-local KLO nulled out. (MR-UT)
 +After at the dials for nearly 40 years, I finally logged this, but it took a DX test. According to Paul Shinn CE, KJAY runs about 10 watts in my direction. Heard Morse code at 0641, 0643, 0644 1/5, "K-J-A-Y" every minute. One of the toughest CA to ever hear! Thanks to Paul Shinn for running the test! (PM-OR)

UNID

810 1/4 0315 KGO faded out, Art Bell's show faded up briefly. (MR-UT)
 1140 UnID jammer/whatever. I have heard this thing at night before but never during the day - this time 1/6 1316 at good level with loop N/S. (PT-WA)
 1180 SSB, so apparently s/on at 0758 on 12/22, then choir singing (religious?). Probably KLAY or KERI. (LG-MT)
 1570 Sports talk noted 1/5 0157 and several times since but never well enough to determine network, much less get calls. Is E/W and is usually accompanied by CKMW or KCVR. (PT-WA)

Thanks to our reporters this week. I'm glad to see that many of you tried for, and heard the DX tests. I would have liked to try for the KJAY test, but I had to leave for work at 0640, a couple hours after it ended. Don't forget that there is still time to enter the contest! Nancy 1/11 2100

640 **UNID**, SS station under potent KFI 1050 1/5. Maybe Cuba? Caught only snippets of words. (RT-CA)
 740 **MEXICO**, presumed 0750+ 1/5 just swamping KCBS w/various "modern" music selections including reggae, no IDs, just songs changing as if from a multidisk CD deck. Went back and forth between this and 760. (RT-CA)
 740 **MEXICO**, Los Mochis, Sin. XEHS 1/7 0600 faded up over KCBS with call letters, mention of website ("punto emmay equis") would like to know if this the mystery station that runs all night without IDing. (RT-CA)
 760 **UNID**, SS station with reg Mexican mx 1/5 0800+ coming in u/KFMB, always seemed to fade away when they would talk. hi. (RT-CA)
 770 **MEXICO**, Fresnillo, Zac. 1/5 0745 signal under KKOB, but clearly heard XEIH calls, "Exitos" mentioned. New from Davis. (RT-CA)
 780 **MEXICO**, Monclova, Coah. XEMF 3/11 0258. A three station SS jumble here all evening with no sign of WBBM on abny antenna. At exactly 0258, male ancr with multiple IDs as "EM-mey EF-fey and ' La Primera Estacion en Monclova'. (JB-OK)
 780 **MEXICO**, San Fernando, Tama. XESFT 3/11 0300. At exactly 0300, a male ancr arced up out of the jumble and gave a full legal ID as "XESFT, La Primera....(three or four words missed)...San Fernando, Tamaupipas. There was no sign of the previous reported "Triple T" slogan. The XESFT call letters were very clear. I believe that these are the two stations that I hear play the Mexican NA every morning at 1200. One always begins at 1158, the other at 1200. Maybe the XEMF station clock is 2 minutes fast (see logging above). (JB-OK)
 990 **MEXICO**, Monterrey, NL, XET "La T Grande" 1/3 1036 noted with telephone talk, mention of Monterrey "La T Grande" slogan and light vocal music in SS. Good in CBW null. (EB-MO)

QSLs

1323 **P.R.CHINA**, Russian Service, rec QSL card, CRI, normal CRI picture postcard QSL. Except all of the printed lettering was Cyrillic! Very appropriate, also enc was sked of Russian broadcasts. No TX sire indications. (JB-OK)

 Hello. Hope New Year went well for you all. I heard something new today on 590. Was in car locally and heard many historic audio pieces of events or about them plus promo liners speaking of the new 590, so I'm under the impression they'll be news or talk in 2002. Plus I tracked down that they're now owned by Salem, where the 590 audio comes from. At one time there were 3 stations under one owner on Sunwest Ln, San Bernardino but now only one is there now – KCAL 1410 owned by Lazer Br. The others once in bldg were KSZZ 590 (listed in NRC log as //1410) and KSSE 97.5. The new 590 call is KRLH and due to KLAC and/or KOGO splatter, I thought I heard "KRLA". Spoke to someone who answered CE's ext. and he verified call is KRLH plus KRLA 870 may be several months away from a night increase. I also called a number used for 870 office when KIEV call was used – 244-8483 – it's now disconnected so only 818-956-5552 is the office number for KRLA, KKLK-FM, KFHS-

FM, KRLH and Christian Pirate Radio. In DXM 1237 my mention of 1500, call is, or was, KROQ. Hope everyone's DX in 2002 is really good. To all DXM editors, Lee and members, this was a real good year. Hope 2002 is as great. 73

 Greetings all. DXing from a new location has its share of interesting moments. Just getting a feel of the "lay of the band" so to speak, at a new QTH can take a few months. I've been trying to get a feel for the MW band here in southern Idaho, 10 khz at a time, and along the way have been submitting my findings to Nancy...please excuse the massive outpouring of loggings. Based on what I've heard so far, this may prove to be an interesting QTH. Was fortunate enough to hear both recent CA DX tests, KJAY and KTNS. KJAY was strong into the QTH, but I was only able to log KTNS for one exciting, fleeting moment. The CW cut through a very busy frequency, luckily while the tape was rolling. While pondering exactly how to convert an analog cassette tape to digital format, I realized that a simple, albeit not terribly elegant solution would be to record from the headphones to the mike of my Sony Mavica digital camera, which happens to record short video/audio clips (.mpg format) as well as stills. I emailed a copy of the KTNS file to Larry at KTNS. He was pretty excited to hear the test so soon after it was conducted. As long as the signal is dominant enough, the recording does not turn out too bad. The more aurally challenging DX catches do not transfer very well though. Last week I put on the snowshoes and strung a new wire - I estimate that it's about 700 feet, unterminated, due east. With the new wire and much higher signal levels, I found how lacking the front end of my 18 year old Kenwood R2000 really is; fairly severe overloading problems throughout the range. It's time for a new porta/tabletop radio....the Palstar looked good, but the high signal levels here may be more than it can handle (tnx for your opinion Jerry!). So, I am on the prowl for a good, used Drake R8 of any flavor. Please contact me if you know of one available in excellent, used cx. There are several available on eBay now, but I would feel much more comfortable purchasing it from a fellow IRCA member. For now, the R2000 will have to suffice, as the extremely non-portable R390A is undergoing an overhaul by Chuck Ripple in VA. 73 and good DX to all.

 Hi Rick, I read your letter in the DX forum in the online version of the DX Monitor. I live not too far from you here in Greenwood. I just rejoined the IRCA last week. I dropped out several years ago due to other commitments but now I am back dx'ing full time. I also belong to the National Radio Club. I noticed in your letter your comments about WTLC, they are my toughest station to null. They were off the air on 12/24/01 for several hours in the morning allowing me to hear CIWW- 1310 in Ottawa. I have been able to null WXNT-1430 and hear a station in Texas. I also have nulled WXLW and heard WXYZ in Detroit . I have nulled WIBC and heard KFDI, WAPI, WDIA, WHYZ, WFLI, CHOK, KHMO and KNX early in the morning. I would say that WIBC is probably the easiest to null of all the Indpls stations. I monitor the airwaves with a Drake R8A receiver and a KIWA loop. I don't have room at my place or I would try a beverage antenna. Well, I hope to talk to you again. You'll probably see my loggings in the Monitor. Bob Pote, Greenwood. (Good to see you back again, Bob--rce)

Rick Evans, 7416 Hearthstone Way, Indianapolis, Indiana 46227
 Good to hear from Bob again, after quite a few years. I never dreamed back then that I would be living in this area. Looks like Bob is only about 5 miles away from me. It's been decades since I've lived that close to another DXer, hi. Big news here on the radio scene is that WNTS-1590 has gone AN with their Southern Gospel format. I found out while listening to them in the early afternoon on the clock radio as I was half asleep. Sounds good

except that they have more spots after midnight than they do (or did) during the evening. Seems almost like somebody had bundled spots together and run them on the old WMYS-1430. When WMYS went to a talk format, they needed an outlet for their spots after midnight, so they put them on WNTS. It sounds like the same spots, unfortunately, which had become tiring and repetitious to listen to over on WMYS. I don't know what the night pattern for WNTS looks like, but it's interesting for me to notice that, when I leave work, they are fairly strong up on 30th street, then weak along Shadeland near I-70, then strong again down by Washington St and Shadeland. Then, there is a spot almost south of their towers, about two miles from my house, where they are weak again for a moment, then back to strong again. It's almost like the "hole" in a figure 8 here. Friday afternoon, the day after Thanksgiving, in the early afternoon, we had them fairly strong on the car radio all the way up to Muncie at which point they faded out. That's it for this week. Anyone else in the Indy area? 73.
