**DX Test**

**10/23 Sat 0000-0100 1420 WRCG Columbus GA (IRCA)**

Lynn Hollerman: "I have been asked to announce this upcoming DX test..."

Saturday, October 23, 2004 - WRCG-1420, Columbus, GA will conduct a DX test from 12:00 am - 1:00 am EDT. The test will include Morse code IDs. The station normally runs a news/talk format. A loop of the code and the voice version of the code will be played, with the two alternating code/vocal/code/etc. The station regularly runs at 5 kW ND.

Reception reports (with return postage) may be sent to:

**WRCG ANNIVERSARY TEST**

1353 13th Ave.  
Columbus, GA 31901  
OR

E-mail: **BGRAY@ARCHWAYBROADCASTING.COM**

PLEASE send reception reports - a special QSL card for this 75-year-old station will be sent in return (with return postage and address, of course). The station is relocating in the near future, and the CE is hoping to test again at the new site once that is in operation.

(Due to some personal issues, I am unable to do CPC for IRCA this season; I will, however, do my best to respond to DX test announcements sent to me directly at the **ircaonline.org** address. If you are interested in volunteering to arrange DX tests, please contact me at the **ircaonline.org** address (i.e. thru the IRCA website) and I will direct your message to the IRCA president, Nick Hall-Patch. Thanks!! -Lynn.)" (thanks so much for the info Lynn -pb)

I had a pretty decent filipino morning this week. But the past couple of mornings weren't too good. Come to find out my termination on my EWE antenna was knocked loose by a herd of cows. I repaired it again, but for now long? I was face to face with the herd of cows while repairing the antenna! Anyway some good TP DX this time around.

#### TRANS-PACIFIC DX ROUNDUP

- 531 **AUSTRALIA**, West Kempsey 2PM, good with Bee Gees song and slogan ID at 1324 10/15 "Easy Listening 531." (PM-OR)
- 531 **JAPAN**, Morioka JOQG 10/11 1337, man speaking in JJ //594. (NP-AB)
- 531 **NEW ZEALAND**, Auckland 1XPI 10/11 1257, presumed with South Pacific style choral mx. Went through an hour with no ID. Faded out by 1305. (NP-AB)
- 531 **PHILIPPINES**, UNID filipino here with conversation with man, talking with caller 1415 10/13. Sounded like the same filipino I have tried to ID for sometime. JOQG QRM. (PM-OR)
- 540 **PHILIPPINES**, Tagalog talk in the jumble, possibly DYRB as I have logged in the past at 1410 10/13. (PM-OR)
- 549 **JAPAN/PHILIPPINES**, mix of JJ and Tagalog at 1418 10/13. (PM-OR)
- 558 **JAPAN**, Kobe JOCR really nice JJ Pops 1350 10/13. (PM-OR)
- 558 **PHILIPPINES**, Pasig DZXL, great signal, like the old days and man and woman in Tagalog then "D-Z-X-L" mentioned by man in conversation at 1421 10/13. I was hoping for one of their "fanfare" IDs with the echo chamber. Those were fun to hear in the past. (PM-OR)
- 567 **JAPAN**, Sapporo JOIK 10/10 1333. Woman speaking in JJ, sounded like a reading of some type. //594. (NP-AB)
- 567 **JAPAN/PHILIPPINES**, mostly JOIK but bits of filipino talk underneath at 1411 10/13. (PM-OR)
- 576 **UNID**, this unid station was playing soft piano music everytime I went by it at several tries between 1351-1434, no amnts heard. (PM-OR)
- 585 **PHILIPPINES/JAPAN**, jumble of stations here 1403 10/13. (PM-OR)
- 594 **PHILIPPINES**, Quezon City, DZBB, finally topping JOAK with man in usual Tagalog with phone caller, mention of DZBB at 1428 10/13. This one would be more common if it wasn't for powerhouse JOAK that generally blocks 594. (PM-OR)
- 603 **PHILIPPINES/JAPAN**, a mix here of JJ/filipino, but mostly JJ 1432 10/13. (PM-OR)

612t **PHILIPPINES**, Cebu City DYHP, really a strong signal with some kind of contest. At one point the anc mentioned "Cebu", but other than that no ID at 1417 10/13. This is likely DYHP as this is the most common station heard on 612 from the Philippines. Cebu's a pretty common, being a good water path. This was armchair copy at times! (PM-OR)

621 **RUSSIA?** Russian talk here by woman at 1410 10/18. (PM-OR)

630 **AUSTRALIA**, Townsville 4QN, one of the few Australians this morning with ABC News at 1401 10/13, topping the channel. (PM-OR)

639 **CHINA**, CNR, synchros, female in Mandarin in "echo" sound, apparently several stations in // at this time at 1430 10/17. (PM-OR)

648 **UNIDS**, a garbled mess of stations and one or more off frequency with terrible het 10/13. (PM-OR)

657 **PHILIPPINES/CHINA/NORTH KOREA**, mess of three stations here 1412 10/13. (PM-OR)

666 **PHILIPPINES**, Makati, Metro Manila DZRH, good on top of JJ with man mentioning "666 DZRH" a couple of times 1423 10/13. (PM-OR)

675t **CHINA**, CC talk 1420 10/13. Maybe Hohhot, as I have logged that a few times. (PM-OR)

684t **JAPAN**, Morioka JODF may have been the JJ in splatter 1408 10/13. It sounded like a man mentioned the IBC network at one point, but uncertain. (PM-OR)

693 **JAPAN**, Tokyo JOAB 10/11 1331, EE language lesson. (NP-AB)

702 **UNIDS**, several stations here, but too garbled to catch much at 1412 10/13. (PM-OR)

711 **UNID**, music here 1358 10/13. Maybe Korea. (PM-OR)

720 **RUSSIA**, Yuzhno Sakhalinsk, VOR in JJ. The best I have heard them this season 1420 10/13. This one has not been heard much this season. Not like they used to. Lower power? (PM-OR)

729 **JAPAN**, Nagoya JOCK 1414 10/13, in hash which sounds like IBOC. Maybe QRM from KCBS. Chuck Hutton said that 729 is more apt to be QRMed by IBOC than 738 as the QRM gets worse further away from the main signal. This has is a normal thing in the mornings now. (PM-OR)

738 **AUSTRALIA**, NSW, Grafton 2NR 10/11 1358, Interview, mention of "ABC" "New South Wales" then into ABC news by a woman at 1400. (NP-AB)

738 **TAIWAN**, Penghu, Fishery station here 1425 10/13 with woman in slow Cantonese (sounded like) //1143. (PM-OR)

747 **JAPAN**, Sapporo JOIB 10/10, Poor woman talking in JJ. (DP-OR)

774 **JAPAN**, Akita JOUB 1501 10/11. Faded back to poor level with anthem followed by music box s/off. Just like the old days.... (NHP-BC)

774 **JAPAN**, Akita JOUB 10/14 Fair, language lessons in both EE and JJ. Nice to understand what they were saying. In the best yet //747. (DP-OR)

828 **JAPAN**, Osaka JOBB 1422 10/11 Heard with good signal. SS lessons //774 also at good level and finally beating out the splatter (from Calgary, not Seattle.) (NHP-BC)

+ 10/14 Poor but audible JJ talk, In and out. (DP-OR)

864 **JAPAN**, JOHE/JOQF, HBC here //1287 with JJ talk at 1445 10/17. (PM-OR)

891 **JAPAN**, Sendai JOHK good over Thailand with man in JJ at 1440 10/17. (PM-OR)

891 **THAILAND**, Bangkok, fair /JOHK with chimes and woman in Thai at 1441 10/17. (PM-OR)

936t **CHINA**, Anhui, presumed with CC talk in passing at 1450 10/17. This is the normal CC on this freq to hear. (PM-OR)

972 **SOUTH KOREA**, Tangjin HLCA 1400 10/11, only poor across the hour with three and one pips in the hurk, but by 1417 this had excellent audio w/man in KK. Best heard in years at home. (NHP-BC)

+ 10/11 1338 Conversation in KK between man and woman. (NP-AB)

1008 **JAPAN**, Osaka JONR, good with JJ pops and woman anc in JJ at 1431 10/17. (PM-OR)

1053t **JAPAN**, Nagoya JOAR 10/8 1332, Tentative, with man giving some kind on anmt in JJ. Then woman speaking. (NP-AB)

1062 **PHILIPPINES**, Metro Manila DZEC good with man in filipino at 1430 10/13. (PM-OR)

1071 **JAPAN**, Hiroshima JOFK 10/8 1324 man in studio speaking with a remote reporter in JJ //594. New one here. (NP-AB) (Great catch. They aren't all that strong here. PM)

1116 **AUSTRALIA**, QLD, Brisbane 4BC 10/11 1220 End of news, football/rugby/tennis items in sports report, then 4BC weather. (NP-AB)

1116 **JAPAN**, UNID ?? 10/8 1348. Audio for about a minute with a woman speaking in what sounded like Japanese. (NP-AB)

1134 **JAPAN**, Tokyo JOQR, very good w/JJ talk at 1422 10/17. (PM-OR)

1134 **SOUTH KOREA**, Kimpo 10/11. Heard poor to fair //972 w/KK man talking followed by musical interlude, both stations fading about 10 second cycles. Never heard before at home. (NHP-BC)

1179 **PHILIPPINES/JAPAN** JOOR mix here 1402 10/13. (PM-OR)

1296 **PHILIPPINES**, Davao City DXAB fair in splatter at 1407 10/13 with female anc "Cal DXAB, your ABS CBN station with your number, so you can be entered into our contest". Caught 641 prefix, it sounded like. Several mentions of ABS CBN. Unneeded, but nice to hear. (PM-OR)

1500 **HAWAII**, Honolulu KUMU 10/9 1358, anmt for Big Brother / Big Sisters, then ID as "...Koo-Moo AM 1500" First time heard this season. (NP-AB)

1566 **SOUTH KOREA**, Cheji HLAZ 1307, Hymns sung by choir 10/10. (NP-AB)

1575 **THAILAND**, VOA here with EE ID as " You have been listening to the Voice of America" at 1500 10/17 (PM-OR)

all times UTC

A treat for this issue! Mark Connelly: "CADX" (Cape Area DXers) get-together: see comments following logs. Many more stations were heard: these are longer-haul or less-often-reported ones.

### \*\*\* TRANS-ATLANTIC DX \*\*\*

882 **SERBIA** (t) Podgorica et al., OCT 16 2312 - possibly this with Slavic talk mixing with, and occasionally over, UK & Spain. Nearby Albania-1214.95 was strong a little earlier and Croatia-1134 was S9+40. [Connelly\*C-MA]

927 **TURKEY** (t) Izmir, OCT 16 2340 - Turkish-sounding talk; in tough CJYQ/WWNH/ other-930 slop; logged just after a clear reception of the Turk on 1017. [Connelly\*C-MA]

1017 **TURKEY** TRT, Mundanya (Istanbul), OCT 16 2320 - Turkish talk dominating over Germany & Spain. [Connelly\*C-MA]

1170 **UNITED ARAB EMIRATES** R. Farda, Dabiya, OCT 16 2300 - with WWVA phase-nulled, this thing was absolutely blasting in with a good Radio Farda ID at the top of the hour. No 1169 or 1171 het at this time, though the 1169 Iranian was actually showing up against local WFPB (less than 10 km distant!) more than an hour earlier, well before sunset. [Connelly\*C-MA]

1214.95 **ALBANIA** Flake, OCT 16 2152 - superloud (S9+25) with pop vocal (that I first thought was just Virgin R.), then there was distinctive eastern European talk by a man and a woman. This was totally dominant and was stronger than adjacent VOAR/WPHT-1210. When I zero-beat the frequency, it was about 50 Hz low of nominal 1215. Soon a growl from the 1215 stations (UK & Spain) appeared. [Connelly\*C-MA]

1431 **DJIBOUTI** R. Sawa, Arta, OCT 16 2350 - pop Arabic music, Sawa mention; fair. [Connelly\*C-MA]

1476 **UNITED ARAB EMIRATES** UAE R., Dubai, OCT 16 2259 - most likely this on extended Ramadan schedule with Arabic string music at fair level. Propagation to that area was very good, based on how Farda-1170 was booming in. [Connelly\*C-MA]

1548 **KUWAIT** R. Sawa, Kabd - Kuwait City, OCT 16 2230 - strong with dance music, Arabic talk. Adjacent 1550 had Algeria atop at times. [Connelly\*C-MA]

### \*\*\* CONTRIBUTOR \*\*\*

**Mark Connelly** - MarkWA1ION @ aol.com

[Connelly\*C-MA] = Chatham, Cape Cod, MA (GC= 69.965 W / 41.717 N)

(at QTH of Vern Brownell, W1VB: Eastward Road)

Antenna system: 100 m NNE longwire phased against vertical Receiver: Drake R8A, DXP-3 Phasing unit.

**Mark** speaks about the Cape Cod DX Get-Together 2004:

"It had been a while since I'd visited my DX friends on Cape Cod so I figured that an October trip to the area was a good idea (after summer tourists and traffic had departed and before the arrival of winter's snow). Marc and Debby DeLorenzo had moved from Marstons Mills to a new home in South Dennis, off Route 134. Marc needed some antenna improvements done, so with my car loaded up with antenna supplies of all types (and myself loaded up with caffeine from Marylou's coffee shop in Weymouth), I rolled into his driveway at 9 a.m. on Saturday, 16 OCT. This was the first of three DX stops for the day. The bow and arrows, fishing line, ropes, wire, and toolbox were quickly set up on his back deck and the antenna work commenced. Up to this point Marc had been running his NRD-525 receiver from a phasing unit fed by an indoor Quantum Loop and an outdoor non-noise-reduced south longwire on the ground. He'd had as much as 500 ft/150 m of wire out

there on conservation land behind his house until some local kids made off with over half of it. There were pine and oak trees of decent height behind the house, so I suggested a broadband loop and a vertical. The broadband loop we put up peaks east-west and is square, about 12 m per side. It is center-fed on the bottom side through a 4:1 transformer. The vertical is about 15 m bottom to top. This would need a ground rod to "work against" for low-noise operation. Luckily nearby DXer Chris Black (N1CP) had a 2.4 m ground rod, so he brought it over and we pounded it in near the bottom of the vertical wire. A 16:1 transformer worked well to couple this to coaxial feedline. With two new antennas up (as the main "TA -gettin' set-up"), we thought that there were still some occasions when a longwire running south would be a valuable DX tool. I was mostly thinking about Latin American DX during auroral conditions. Instead of running the wire on the ground (and inviting sabotage by the DX-unappreciative), I ran it out, about 60 m worth, through low branches about 4 m off the ground. The effective method for this was tossing a string, attached to a rubber mallet, over branches while trying to keep the overall run as straight as could be managed. Then I pulled the length of wire through following the string. The end of the wire closer to the house was fed to one side of a 4:1 transformer and the new ground rod to the other side. All three of the newly-installed antennas, therefore, are configured to pick up minimum local electrical noise. Marc still has the indoor Quantum Loop as a fourth antenna to "play".

With this mission accomplished, it was now just a bit after noontime. We carried the "show" on to DX Shack #2, that of Chris Black in South Yarmouth. Chris took me a tour of the antenna farm in the woods on downsloping land behind his house. There were pitch pines out there that were well over 20 m tall: good-sized trees by Cape Cod standards. Like Marc, Chris is lucky to border land that is not likely to be developed in the near future. Chris mentioned future plans for a BOG (Beverage-on-Ground) though, considering what he already had it didn't seem that necessary. He has a supersized dual K9AY loop, a vertical, a longwire at 40 deg, and another longwire at 130 deg. On the house are some other antennas for ham and SWL use. Noise pick-up is minimized through rigorous usage of ground rods and matching transformers. Marc and Chris watched as I "drove" Chris's Drake R8B and phaser to null various stations when using the 40 deg. wire against the vertical, undoubtedly the set-up of choice for Europe. It was sweet to wipe out WOR-710's nasty IBOC garbage from 720 and get entertainment-quality CHTN in the middle of the day. And while my mind was on PEI, I just had to step up to WPRO-630 and null it to oblivion to hear country music from CFCY. I can get these PEI stations at home in Billerica during the day on the Flag antenna, but nowhere near as strong as I got them on Chris's set-up. I am now happy to report that Cape Cod DXers Marc and Chris are both "ready for prime time" when it comes to hearing Trans-Atlantics on medium-wave.

The time was a bit after 2 p.m. when we phoned a third Cape DXer, Vern Brownell (W1VB), about our imminent invasion of his palatial digs on the Chatham waterfront. All of this antenna work and stomping through the woods in cool autumn weather had given us a "wicked big" appetite. En route to early dinner I drove down Station Avenue in South Yarmouth, a place of many memories for me from the years that my parents had lived in the area. I rolled onto Route 28 in South Yarmouth with WROL-950's "Irish Hit Parade" show blasting out of my car speakers; this brought more "good old days" memories to mind. Chris, Marc, and I got to Seafood Sam's restaurant for a great meal and DX conversation. Chris went for scallops and Marc and I had - what else? - clams. I chatted up the idea of looking for Thailand-1575 at local sunset via Arctic-zone greyline. This would require very quiet geomagnetic conditions. India-1566 would almost have to be a "pest" for this to happen, I surmised. Chris filled us in on his trips to the 2004 NRC Convention and to the "mother church of homebrewers": the Dayton, OH Hamfest.

Soon we were off to Chatham for our visit to DX Shack #3, that of Vern, W1VB. This ride took us by the old WCC site at the corner of 28 and Old Comer's Road, overlooking picturesque Ryder's Cove. Vern is working with a local historical preservation society to make an antique wireless museum in one or more of the remaining WCC buildings. Some of the original towers are still there, unlike the South Chatham part of the operation that was completely demolished. We rolled out Fox Hill Road, past the Eastward Ho Golf Course (if I ever win the \$200 million Powerball, I'm buying that!) and down a maze of little streets to Vern's place on Eastward Road. He is one of a select few DXers whose home location is DXpedition-worthy. It's as good as hand-picked sites I visit to DX from the car. All the comforts of a house (a great house at that) and the DX quality of a "super-site". I guess Pat Martin in OR and Richard Wood in HI would also be in the elite group of those living in "DX heaven".

With the sun still fairly high at 4 p.m. local (2000 UTC), Saudi Arabia - 1521 was already putting a fat het against the 1520 domestics. Knowing that we still had close to an hour before the really interesting stuff showed up, Vern rolled out about 100 m of wire along the beach going roughly north-northeast. I did a jury-rig repair to a broadband loop I'd set up outdoors there about 4 years earlier. Vern also had a vertical antenna available for use. After playing around with a couple of different antenna configurations as inputs to Vern's phasing unit, I determined that the 100 m wire (noise-reduced via 4:1 transformer) versus the vertical was going to deliver the most "candy" on the Trans-Atlantic route. Really high latitude stuff like Norway-1314 was only so-so and, alas, deep Asians such as India would have to wait for another day. What was happening were some phenomenal signals from south-central Europe. Albania - 1214.95 was drop-you-in-your-tracks

loud, annihilating UK and Spain. Turkey-1017 right in there. Of course Croatia - 1134 was monster level, almost pegging the meter and sometimes better than adjacent WBBR-1130. Saudi Arabia - 1521 was also super-huge and, with its extended Ramadan schedule, should be heard just about everywhere. An effect I'd seen in Newfoundland was also repeated at Vern's in Chatham: Different geographical areas or different parts of the band popped into the spotlight as others receded. France-1377 was S9+35 one minute and 1206 was hard to hear at the same time, then it totally swapped around. Channels that are often single-station dominated, usually by something from Spain, had deep complex clusters of signals from all over Europe. At times you'd have to sit on a pile-up and wait for something to rise to dominance. When it did, it wasn't always the "usual". TalkSport-1089 was entertainment quality, but so was Radio Farda UAE on 1170, super with WWVA easily phased. As we DXed, Vern's wife stopped into the shack with snack platters, including shrimp which I had to sample. By 8 p.m. EDT (0000 UTC), DXing wound down and Marc, Vern, Chris, and I chatted a bit longer before departure time. It was the end of a fun DX day on Old Cape Cod.

On my way out of Chatham, I put on the Boston Red Sox - New York Yankees game on WEEI-850 and noted that WEEI was taking a beating from a het and slop from Spain-855! The reception bore a marked resemblance to WEEI as it sounds on Route 10 in eastern Newfoundland or maybe even to how it sounds in Ireland. I said to myself "This is one wild DX location." The Cape's resident DXers have the ability to contribute logs and audio clips that will be nothing short of astounding."

Thank you Mark for the fantastic report! That's all for this issue. Good DX to everyone!  
73, Brandon.

DEADLINES: Sundays

I would like to thank Reid Wheeler for his fine editorship of WDXF and I hope I can carry on his legacy as we fold both the WDXF and EDXF into one column now called the DX Forum (DXF). For the relatively new people (that is, who have joined within the past 15 or 20 years, hi), there was also a Central DX Forum at one time. I don't remember when it was folded into the EDXF, though. For reporting to DXF, I am fairly flexible in what I take. I try not to use a hammer when editing. I would ask that people, if they are handwriting, to be careful on call letters and frequencies, and to be sure to show the frequency with the calls. I am not as familiar with the radio situation out there as you guys are. Give me time, though, as I will be working on it. Deadlines will be Saturday, but Sunday might make it. Just don't bet the house on it, hi. Big things is -- report. Hopefully, with the combined Forum, the column will be showing up each week now. Thanks to the BoD for their vote of confidence in me. -30-

Greetings. I did receive my verification for the KEVA DX text. Not everyday one gets a QSL card for a graveyard station. I understand the test made it well to points west but not too well to the east. Perhaps the situation of the tower to nearby mountains had some effect. Hopefully this station and others will repeat the favor next season. I'm seeing lots on a recent trip through San Bernardino. We saw a billboard ad for KDIS-1110 (Pasadena), not too surprising that their signal reaches that far, but that San Bernardino has its own Radio Disney station on 1290 - KKDD... I wanted to send a message of thanks to Bill Nittler for the business cards and bumper stickers that he sent me. Always greatly appreciated! Tentative reception of Albuquerque here on 1450 during their local baseball game. Didn't fade up long enough for an ID though. Lately east of Los Angeles near the vicinity of where the KFWR/KLAC and KMPC towers are located, I've noted a relatively new set of AM towers. Haven't yet figured out who that belongs to. Time to start photographing again...I did get to attend this years NRC convention in Batavia, western New York. A fine event. It was fantastic being able to visit the tower sites of stations such as WNED-970, WLGZ-990, WWKB-1520 and especially WHAM-1180. It's been a long time since I was able to log them here in L.A. I'm still looking into bidding for another IRCA convention in Southern California. Bummer about losing KABL-960 and KPQP-1360 both in the same year. I hear rumor of an upcoming WNQM DX test. Heard them last time they tested, and I hope to once more. Thanks to Reid Wheeler for years as WDXF editor. Good DX and 73.

Raining this morning as I type this. Actually, I have already heard some thunder as well. Quite a bit of static but it didn't keep KOA-840 from popping thru looping opposite of WKNR-850 in Cleveland. Interesting combination at 0800 ELT on 10/18. I have been listening a fair amount this past week and added a few to the numbers. Now up to 340 heard. I picked off two of my most wanted on 10/14 with WHFB-1060 at 0806 and then WNW1-1080 at 1800 ELT. WHFB was in the

same county with me after I was transferred back to Michigan back in 1974-78 and WNW-1080 was where Roger Winsor worked back in the late 1960s when it was located in Valparaiso, Ind. It was on 1080 then but, as I recall, the owner actually wanted to be in the Chicago area and Valpo was the closest he could get. Both stations were the second heard here on their respective frequency, so my list of frequencies where I have only heard one station is now down to 22. One of those, 1610, has a TIS I hear very well at my place but they don't give any calls so I can't really log it. It's a tape that keeps talking about motorists moving left for an emergency vehicle on the shoulder and that cars left on the shoulder will be towed. If it's the TIS I am thinking of, it's located up by the I-465 (Bypass) interchange with I-70 on the east side of town, less than two miles from where I used to work. Speaking of work, I am still out there in the meat market of a job market trying to find something. The resumes go out but no response comes back. Oh, well, in the meantime, I can DX, hi. To go back to mentioning Roger Winsor, he was one of the first DXers I met after I joined the club (Frank Merrill was the first) and I learned a lot from him. We used to have some interesting DX sessions together, both at his house and then, after I got a phone, he was able to call me as a local call (it was long distance for me to call him) and we would tie up the line for two or three hours as we would both be scanning up and down the dial from our locations. That 12 miles between us could be the difference in how well we could null out some stations at times. 73.

## HEARING IT THROUGH THE GRAPEVINE

**Raymond Bauernhuber – 151-64 18<sup>th</sup> Ave – Whitestone NY 11357-3102**

E-mail: [DXRADIO@Webtv.net](mailto:DXRADIO@Webtv.net)

Hello everyone and welcome to my first column of "Hearing It Through The Grapevine." I thank Eric Bueneman for doing such an excellent job over the years. I can only hope to do as well as you did Eric. Also, I extend a "thank you" to our Board of Directors for selecting me as Eric's replacement.

For my first effort I will 'target' 900 kHz as my frequency of choice. Let's sit here and see who we pick up, day and night.

When you report your 900 kHz receptions please include your name, location receiver, antenna plus any other equipment you used.

Snail mail me at: Ray Bauernhuber  
151-64 18th Avenue  
Whitestone, NY 11357... or

E-mail me at: [DXRADIO@webtv.net](mailto:DXRADIO@webtv.net)

DX season is well under way my friends so let's light up our dials and have some fun!  
73 de DX, Ray in New York
