I had an excellent time at Grayland DXpedition last weekend... wait until you see the loggings!!!! - pb

Lee's AM Log site

Feel free to use my am logbook at www.amlogbook.com. It is FREE and always shall be. I just did a complete update for the new DX season and do updates bi-weekly (would like to do it more often, but I do have a life.)

With the changes on 100K I may try to do it weekly. Sorry but no FM or TV at this time.

DX Get-together

Announcing a Cape Cod DX get-together Saturday, Nov 19th. Due to the cancellation this year of the well known Ray Arruda event, we will be keeping the tradition of DX and fellowship alive. The address is Chris Black, 12 Cypress Point Way, S Yarmouth MA 02664 - 508 394-0528 -- n1cp@comcast.net. For those with 2 meter VHF, 146.955 (88.5) will be monitored for talk-in.

Although we are not directly at the water, if conditions are decent, there should be a lot of good DX heard. We are shooting for a real hands-on, interactive event so bring your radios and anything you think will be of interest. There will be a couple of "guest" stations available with noise reduced long wire antennas pointed to Europe. This will definitely be an "All Mode" event with an FM phaser demonstration by Keith McGinnis and some innovative MW loop designs by Craig Healy to try.

For those who want to stay over, I have numbers of some motels within five minutes driving. The lowest rate I found was \$43 for your basic no frills motel to \$69 for a Quality Inn with an indoor pool, dining room, etc that looked quite nice. If anyone has a specific accommodation request or requirement they would like me to check on, just let me know.

There will be drinks and snacks and a buffet type dinner to maximize our time in the prime DX window.

This should be informative and fun, and I am looking forward to learning a lot and making new friends. Try to RSVP if possible by early to mid November so we can get a rough count and contact me with any questions.

Chris Black, Cape Cod

This final midcoast Maine DXpedition before the campground closed for the season was different. The adventure began rather unusually with a traffic jam on Route 17 in the middle of nowhere Washington, Maine, en route to the coast. An escaped cow was being rounded up by a rancher on his ATV in the middle of the highway. Canadian high pressure protected downeast Maine from the persistent week-long flooding rains in southern New England. The fair weather wasn't going to last, of course. Flood warnings were announced on NOAA radio while setting up camp, "especially over south and east facing slopes." I thought I was prepared as the old tent had been given a complete waterproofing. Two new rolls of wire were used for the north and east antennas after wire was lost during the deluge of the previous DXpedition. Once everything was tested and ready for DXing, I went into the woods searching for the lost wire, and sure enough a section was still drooping from the tree limbs a couple hundred meters away. The lost wire was retrieved and redeployed for a third antenna. The rain held off until Friday night when it poured cats and dogs. After DX had settled down for the night, I decided to catch some zzz's until around European transmitter site dawn. When I awoke the tent floor was under an inch of water. There were no leaks in the roof or sides. A peak outside revealed the problem; the campsite was underwater. A nearby babbling brook was rushing over its banks. What else could I do other than turn on the radio? All times are UTC.

Transatlantic DX

- 549 **IRELAND** Irish Christian Broadcasters, Monaghan (54°22'N 07°01'W) OCT 15 0610 - Good; contemporary Christian vocal, loud het against 550 YVKE. [Conti-ME]
- 567 **IRELAND** RTE Tullamore (53°17'N 07°22'W) OCT 15 0622 - Good; pop/folk music including Bill Withers "Lean On Me" parallel 252 kHz. [Conti-ME]
- 612 **MOROCCO** RTM A, Sebaa-Aioun (33°54'N 05°23'W) OCT 14 2250 - Excellent; string music parallel a weak 594 kHz. OCT 15 0035 - Good; interview parallel 207 kHz. At 0634 still blasting away with a rustic vocal and drums. [Conti-ME]
- 648 **SLOVENIA** R.Murski Val, Nemcavci (46°41'N 16°10'E) OCT 15 0037 - Presumed; weak with pop music not parallel BBC frequencies. [Conti-ME]
- 666 **PORTUGAL** RDP synthros OCT 14 2234 - Good; news/talk in Portuguese, over unID Koran - Iran? [Conti-ME]
- 675 **LIBYA** R.Jamahiriyyah, Benghazi (32°54'N 20°04'E) OCT 14 2255 - Good over Netherlands; Koranic verse followed by choral response. [Conti-ME]

- 711.06 **WESTERN SAHARA** RTM Addakhla (23°42'N 15°56'W) OCT 15 0040 - Loudest in the het party with WOR New York, R.Rebelde Cuba, and France Info; weak audio parallel 612 kHz. [Conti-ME]

It's been an interesting week, with ten new stations and one new province heard. The big surprise, of course, was CFAC-960 in Calgary, Alberta. I sure wasn't expecting that one. Friday night, I heard WELD-690 in Fisher, West Virginia running the Petersburg High School football game, even though they show being daytime only. Did someone there forget to throw the switch? They were running WELD-FM IDs. ESPN on 860 finally turned out to be WDMG Douglas, GA. Strong C&W on 1090 Saturday morning was WTNK Hartsville, Tenn. Weather is finally starting to cool down here. I was out late Saturday afternoon mowing the lawn for the probably the last time this year. It shouldn't be all that long before I start shoveling the driveway, hi. 73.

Greetings fellow IRCAn's and welcome to another edition of "Hearing It Through The Grapevine." This one features 1100 kHz and the State of California. Let's see what our members have heard recently and over the years.

Mike Hawkins, Campbell, CA

Past Equipment includes: Stewart-Warner R390A, Collins R388A, Yaesu FRG-7, Radio Shack DX-394, Grundig S350, multiple clock radios, multiple car radios, 1936 RCA console (don't know model right now) 1938 Philco console (don't know model right now)

Of all the radios, the 1936 and 1938 consoles were just behind the R388A for performance, especially

when I hooked up the magical window screen antenna. The R390A was out of alignment, so the guy who gave it to me took it back and gave me a R388A in its place. That was 1976 and I'm still using it now. The old consoles are in a storage shed right now (along with most of the rest of my stuff) and unfortunately need tube and capacitor work done...when I can afford to.

My CURRENT radios in use are (in order): 1. Collins R388A, 2. Blaupunkt Casablanca car stereo (sensitive as hell, and was letting me pull FM tropo from 250 mile range on a regular basis in Tracy), 3. Grundig S350, 4. Radio Shack DX-394

 You picked my home state. There are too many stations to list separately so I listed totals and my best catch.

Featured frequency of 1100 kHz:

KFAQ San Francisco, CA, VL

Feated State of California:

149 broadcast stations heard, 61 verified 11 HAR/TIS heard, 7 verified

Best catch:

1610 WPSG912 Mountain Pass (I-15 near Nevada border on the way to Las Vegas), 10 watts, VL

Thanks to everyone for these great reports! For the next issue of the 'Grapevine' let's see what's been heard on 820 kHz and in the State of Texas, which was 1st settled in 1686 and was admitted to the Union on December 29, 1845. Their State bird is the Mockingbird and their State flower is the Bluebonnet. The 'popular' name for Texas is "Lone Star State."

The deadline for this will be Saturday, November 12th at 1500 hours EST for Vol. 43, No. 10. Until then be well my friends and, 73 de DX de NY, Ray

"Here, outside in the night air, all was quiet. Silence -- and yet one felt the mystery of these invisible waves, the miracle of the hidden voices, sweeping out through the night." ~ Journalist Leslie Bailly ~ 1925
