

January 6, 2007 - Volume 44, Number 16 - Edition 1398 - ISSN 899-9733

**HQ NOTES**

It's time to consider who you will want to represent you as IRCA's next president and Board of Directors (their term will start September 15, 2007). Per the IRCA Constitution, Article III, Section 5, Part 2: Nominations shall be open for President, Secretary-Treasurer, and the seven members of the Board of Directors from December 1 (2006) through January 15 (2007). Only one nomination each for President, Secretary-Treasurer, and only seven nominations for the Board, shall be allowed each IRCA member. An eligible member may nominate himself or herself. All nominations must be submitted in written form to the ECC by January 15.

IRCA's Election Committee Chair (ECC) is **Ray Bauernhuber**, who can be contacted at [raydx@msn.com](mailto:raydx@msn.com) ("written form" includes an e-mail submission, and that is easiest for Ray) or at his postal address of 151-64 18th Ave, Whitestone NY 11357-3102 if you do not use e-mail.

The 2007 **IRCA/DecalcoMania** convention will be held in Salt Lake City UT on August 24-26, 2007 at the Airport Days Inn, 1900 West North Temple, SLC UT 84116. Telephone (801) 539-8538. Request the IRCA convention discount rate of \$50 per night. Registration fee is \$25 (not including Saturday banquet) and is payable to: **Mike Sanburn**, PO Box 1256, Bellflower CA 90707-1256, USA. Hotel website is: [www.the.daysinn.com/saltlakecity06838](http://www.the.daysinn.com/saltlakecity06838). Trip rewards site: [www.triprewards.com](http://www.triprewards.com). Tourism site: [www.utah.travel](http://www.utah.travel). Delta airlines web: [www.delta.com](http://www.delta.com).

**BROADCAST TEST COORDINATOR – DX TESTS**

	daily	0100-0600	1560	WMRO	Gallatin TN	(Bailey)
Sun	1/ 7/07+	0000-0005	1230	WODI	Brookneal VA	(Marthouse)
Sun	1/ 7/07+	0300-0305	1230	WODI	Brookneal VA	(Marthouse)

**WMRO 1560khz Gallatin, TN DX Test.** Date(s): Midnight to Five AM Central Time October 30th thru ???. Time: Midnight until 5:00AM Central Time. Modes of Operation: "Inventory Insert" 60 Second Long Test. 0.003kw Non-Directional. (One night may include a brief full daytime power test). Programming: Morse Code ID's, Sweep Tones, 60 Second Long "Inventory Insert" during local breaks. Notes: Transmitter audio chain testing. Exact times of the inserted spots will be given closer to the test time period. In general, look for the test to run near the Top of the Hour (TOH). The extreme low power of this station at night should make this one a nice challenge!

This test will likely continue nightly for months to come, so please try for it.

Please note the following change in QSL information: The station now desires to receive reports directly and only via regular Postal Mail. No telephone calls or e-mails, please! Scott Bailey is dealing with a family medical situation, so responses may take several weeks. Be patient and do not make this too much of a chore for him.

Send Postal reports and/or recordings to: Scott Bailey, President & General Manager, WMRO Radio, Magic 1560, PO Box 1445, Gallatin TN 37066. Please include a SASE for reply.

Our thanks Scott Bailey of WMRO, who's always been very DX Friendly! And also to Paul Walker, who helped to arrange yet another test for all of us.

**WODI 1230khz Brookneal, VA DX Test.**

Tony Dee at WODI informed me via e-mail today that they'll be adding another 5 minute duration DX test each Weekend starting at 03:00AM Eastern time to make it a bit easier on the West Coast DX'ers!!!

This gives all of us double the chances to log this one each weekend, including this coming weekend!

Date(s): Sunday Morning (Late Saturday Night) Starting October 1st and continuing until further notice. Time: Midnight until 00:05AM Eastern Time (5 Minute Test weekly), 03:00AM Eastern Time until 03:05AM Eastern (5 Minute Test weekly). Modes of Operation: Special DX Test. 1,000 Watts, Non-Directional. Programming: Morse Code ID's, Sweep Tones, Voice ID. Notes: This DX friendly station is co-owned by two amateur radio operators, and they have decided to conduct this rare, on-going DX test, giving listeners a weekly opportunity to put this station into the log books. The 3AM Eastern test was added to give West Coast DX'ers a better shot at hearing this one. That puts the test on at Midnight on the West Coast.

Reception reports are desired via e-mail (first choice) and snail mail (only if e-mail is not available) Station would prefer to receive recordings of the test (MP3, CD, or cassette). Submit reports to: [les@highnoonfilm.com](mailto:les@highnoonfilm.com). Please put "WODI DX Test" in the subject line. All standard mail reports should go to: Les Rayburn, High Noon Film, 100 Centerview Drive Suite 111, Birmingham AL 35216. \*SASE Required for reply.

Thanks to Dave Marthouse, N2AAM & Tony DeNicola, WA2IHZ for putting on this unusual, long term DX tests for the benefit of distant listeners!

(RW-CA/NV) DX'ing on rental car radio (Chevy Monte Carlo) on I-40 near Needles, CA

**OF SPECIAL INTEREST**

790 KBET **NY**, Winchester 12/26 1700 mixing with Mexicali on 790, apparently on the air now with what sounded like a smooth jazz format. Mexicali generally dominated, but nice "KBET" ID popped up at the top of hour. Still in test format or now on the air (?). Listed as 1000/300 DA-2 on [radiolocator.com](http://radiolocator.com), xmtr in east Las Vegas east of 515 freeway. Tried listening at night from a gas station in Needles on 12/28 at 2100 EST, KABC dominated but caught a station mentioning "Baja California Sur" in the mix (XENT La Paz?). (RW-CA/NV)

630 KFXD ID, Boise 12/28 0918 with ID "All your Classic Country Music KFXD." (BB-AZ)  
 930 KSEI ID, Pocatello 12/13 2318 ad for Pocatello retailer, ESPN sports talk. Quite weak and choppy alone in the static on Drake with RS loop. (GH-OR)  
 970 KNUU NV, Paradise 12/28 2000 with ID "KNUU 970 Las Vegas." (BB-AZ)  
 980 KVLV NV, Fallon 12/28 1900 with ID "KVLV Fallon Nevada." (BB-AZ)  
 1010 KCPW UT, Tooele 12/28 1943 with traffic reports and ID "KCPW." (BB-AZ)  
 CBR AB, Calgary 12/28 1931 with news & traffic report. (BB-AZ)  
 1180 KOFI MT, Kalispell 12/8 2305 mention of Kalispell area businesses, Talknet with Bruce Williams. Fair to good with a bit of KEX splash on R-390A with N-S wire. (GH-OR)  
 1230 KXO CA, El Centro 12/27 1926 with ID "KXO." (BB-AZ)  
 1250 KWSU WA, Pullman 12/20 0000 NPR type talk program, female gave ID. Fair signal totally alone with no KKDZ as usual, on R-388 on N-S wire. Seldom heard anymore. (GH-OR)  
 1260 KTRC NM, Santa Fe 12/29 0936 with ID "KTRC." (BB-AZ)  
 1270 KTFI ID, Twin Falls 12/27 1936 with ID "Classic Country AM 970 KTFI." (BB-AZ)  
 1280 KRVM OR, Eugene 12/7 0100 heard man say "Jefferson Public Radio" with talk program. KIT & others in there as well, weak on R-388 with E-W wire. (GH-OR)  
 1290 KCUB AZ, Tucson 12/24 0406 quick ID "12-90 KCUB" during dead air on KUMA Pendleton. Haven't heard this one in years. (PM-OR)  
 KGVO MT, Missoula 12/24 0406 good on top of open carrier (KUMA) with "News Talk 1290 KGVO" followed by a couple seconds, then the KCUB ID. KGVO is common, but KCUB is not. (PM-OR)  
 1340 KOMY CA, La Selva Beach 12/29 1000 with ID "KOMY 1340." (BB-AZ)  
 1360 KOHU OR, Hermiston 12/8 0015 C&W music, male gave ID. This one seldom gets over Mexican menace. Heard on R-388 with N-S wire. (GH-OR)  
 1370 KWRM CA, Corona 12/29 0916 with "Radio Mexico." (BB-AZ)  
 1540 KXPA CA, Bellevue 12/29 0359 fair with English ID "Multi-cultural radio for Seattle, KXPA, AM 1540." Spanish music. (DP-OR)  
 1570 KCVR CA, Lodi 12/29 0200 poor with splash form local on 1580. Call letters heard with both English and Spanish details, most of it indistinguishable. (DP-OR)  
 1590 KQLO NV, Sun Valley 12/29 0303 poor, call letters and "Nevada" mentioned during a gap in KLFE programming. Man then woman talking at the top of the hour followed by assorted Spanish music. It was fairly weak but maybe running on day power?? (DP-OR)  
 KLFE WA, Seattle 12/2 0000 heard "K-Life" ID in severe local KOHI splatter. Talk program of some sort. UnID Spanish in there too, on R-390A with N-S wire. (GH-OR)

**UNID**  
 1200 UNID 12/5 0000-0020 odd vocal music/chanting. Middle Eastern dialect? Quite strong at time, way above WOA1 on R-388 with E-W wire. For certain not Spanish. Ideas? (GH-OR)

It looks like many of you were busy with holiday activities this week. Over half of our reporters this week live in Oregon. Nancy 12/29 2100

## DX FORUM

**Richard C. Evans – 7416 Hearthstone Wy – Indianapolis IN 46227-7923**

E-mail: [REvans5435@yahoo.com](mailto:REvans5435@yahoo.com) DEADLINES: Sundays

**Deadlines: 1/6, 1/13, 1/20, 1/27, 2/3, 2/10, 2/24, 3/10-anniv, 3/24, 4/7, 4/16, 5/5 and 6/2**

**Richard Evans**, 7416 Hearthstone Way, Indianapolis, Indiana 46227-7923

I ended 2006 with a total of 720 heard. I didn't do much listening in December, with perhaps the most being done on New Year's Eve, and that wasn't much. The oldies on 580 turned out to be WELO-MS, while Fox Sports on 590 turned out to be Omaha. I wound up listening to Bluegrass music on WSM-650 over the midnight change of the calendar, then eventually on to CHWO-740 ON for their oldies. CHWO mentioned in station promos that they are listened to in New York and Minnesota and points in between. CHWO also mentioned that they are now streaming their audio over their website on the Internet. I only heard 72 new stations in 2006, so it was a little bit of a bust here. Hopefully, I will go over the 800 heard mark this year. I hope each of you have a great year in 2007. 73.

## DX WORLDWIDE – WEST / TROPICAL BAND DX

**Patrick Martin – P.O. Box 843 – Seaside OR 97138**

### LBI-5 DXpedition Report

Submitted by Russ Edmunds (thanks Russ-pb)

LBI-5 Attendees (equipment):

**Dave Hochfelder**, NJ – Drake R8B; Quantum Phaser  
**Rob Stonier**, Hawthorne, NJ – Drake R8  
**Michael Temme-Soifer**, Egg Harbor, NJ – Sony 2010  
**Bob Galerstein**, Monroe, NY – Drake R8B; Quantum Phaser  
**Glenn Small**, Framingham, MA – Sony 2010  
**Bill Harms**, Elkridge, MD – Drake R8B; Quantum Phaser  
**Bruce Collier**, York, PA – Drake R8B; MFJ 1025 Phaser; 12-band Graphic Equalizer  
**Brett Saylor**, State College, PA, Drake R8; Icom R-75; TenTec RX-320; MFJ 1025 Phaser  
**Russ Edmunds**, Blue Bell, PA – Sony 2010

**Russ speaks:** For the 5<sup>th</sup> annual LBI DXpedition, planning began earlier than usual, thanks to the national reduction in store locations by Radio Shack in early summer which went along with a change in their store product lines. That event resulted in some serious bargains for many of our group who purchased adaptors, connectors, coax, wire, rotators, tripods, masting and other assorted goodies at savings up to 60% off.

As usual, we attempted to select a weekend based on recurring geomagnetic patterns starting at 90, and then 60 days out. This year, there were no obvious quiet spells, as activity had been erratic in August and early September. Nonetheless, we set a date of November 3-4-5, 2006 and the game was on.

Antennas, cables, splitters (thanks again to Chuck Hutton for lending us several extra splitters) and other hardware were deployed efficiently, and without interruption by the local constabulary, thanks to Bob's having secured permission to lay wires beforehand. We also opted to reduce the length of our NE BOG by a couple of hundred feet in order to avoid one of the main vehicle entrances to the beach. Brett brought along a GPS device, with which we were finally able to get a solid measurement on the exact orientation of our antennas. Our prior estimated had been 40 and 220 degrees, however in the event, these turned out to be closer to 33/213.

We employed both a broadband loop and a copper pipe loop just outside the main DX room at the motel, however even with the DX Engineering preamp, the signals from the former were lower than last year and somewhat erratic, which will likely cause some scrutiny prior to 2007, as that had been an excellent antenna at LBI-4. The copper pipe loop was unsoldered, and whether that was the reason or not, its signal level was below that of the BBL.

Conditions were generally mediocre, although one short-lived opening to the Middle East was observed. Thus, we had a larger than usual number of Cuban Radio Relej stations and NDB's logged. As usual, though, good company, good beer, and good pizza made up for the conditions.

**Dave speaks:** This was our fifth outing to the Jersey shore and we all had a blast seeing old friends, DX'ing, and catching up. We were all pleased with conditions last year and the year before, and all the indicators pointed to exceptional conditions this year too. I logged five new TAs in the two weeks before LBI and was looking forward to bagging some great new ones. Unfortunately, conditions were less than spectacular, despite the geomagnetic indicators. We heard our share of TAs, but (with a few exceptions) nothing that we hadn't heard in 2005 and 2004. The TAs we heard would have been great catches from home, but conditions were not DXpedition-worthy.

Conditions on Saturday were particularly strange and changed minute to minute. We had an early mid-latitude opening, but after a few hours the TAs petered out, as did the domestic clears north and west of us, usually a good indicator of an aurora. So we started chasing DX on our southern wire and had some great catches, including R. Formula, a low-power Mexican on 720. I camped out on 1140 listening to a futbol match in Spanish, at armchair copy at times. While this could have been XEMR Monterey, I spent about 30 minutes hoping to pull out some information to ID the station, team or city names, anything. Before I could do so, the bottom dropped out of the southern opening and I lost them to a resurgent WRVA. That's 30 minutes I'll never get back!

Based on our loggings this year and in the past, it seems like our southern wire is an excellent performer. I'll spend much more time chasing DX into Central and South America next year.

Each year we try to bring something new to try out, whether it's a loop shootout or a new antenna to deploy, like Mark Connelly's broadband loop design. This year I decided to make a copper pipe loop based on Craig Healy's design. Unfortunately, due to lack of experience soldering copper pipe and running out of time, I didn't get it soldered in time. Still, we tried it out on Saturday by duct-taping the sections together. I plan to use it inside my shack with a CB whip as a phase reference. So far it's given promising results. I will get around to actually soldering it sometime before next LBI and might even make another to try phasing them at right angles to each other.

All in all, LBI-5 was a blast, even if the DX was less than spectacular.

**Bob speaks:** Anticipation. The buildup to the first weekend of November began to crescendo, then reached it's peak as we started to "assume the DX position" behind our radios just before the sun started to set Friday afternoon.

Each year, organizing the LBI DXpedition becomes more complete and efficient. This in large part due to the **Radiodxing.com** website that the "MVP" of the weekend, Brett Saylor, set up. It became a clearing house for ideas on how to string the beverages, terminate them, what to bring and the DX targets we would attempt. Because of the prep, and also with the experience of the previous DX'peditions to Long Beach Island, Our Friday "construction" of the beverages, their termination and the DX positions went so smoothly, that my friend Glenn commented that he was amazed at the quickness of the assembly. Glenn was a newcomer to the group, but a former NRC member, longtime ham, and a friend of mine since fourth grade. The set up was inestimably aided by Brett taking over where Radio Shack left off. "Saylor Electronics" contained every type of connector and cable known to humankind. We could not have done the weekend without Brett's most organized tool boxes.

Once everything was tested and ready for prime time, I grabbed a bottle of my favorite ale, Saranac Adirondack Lager, and assumed the position in front of my radio, next to Dave and Glenn, looked out to the Atlantic Ocean, and tried to visualize the radio waves about to come in. Last year, at about 4:30pm, the Mideast boomed in at armchair levels for a fair amount of time. We hoped conditions would replicate last year, but it was not meant to be. Of the five LBI adventures we've had, the first two were busts as far as TA conditions and the next two brought fabulous conditions. This LBI session was between those - largely basic TA's and SA's were received, but nothing spectacular. One exception - we logged a 250 watt Mexican and I was happy to get a clear ID on XEAVR-720. On the second night, with TA activity largely dead, we focused on TA's and deep south domestics off the south BOG, and were rewarded with s-35 signals from such stations as WSUN-620 and 940 Macon, Georgia. It is certainly a strange experience hearing an SS pileup of four South American (and maybe Cuban) stations on a given frequency.

From the culinary standpoint, we were very happy that our breakfast restaurant, diagonally across the street, also served dinner to go. This supplanted the usual Pizza Hut, and saved the ten minute trip back to the mainland to pick up the pies.

Above all else, the level of camaraderie that was seeded five years ago continues to grow. After talking on the Manahawkin two meter repeater coming in on Friday, we didn't have to reintroduce ourselves to each other - we hit the ground running. This spirit is reflected in the way we report stations after the weekend - no individual credit. Using the wireless Internet with starchat.net or good ole fashioned loud talking to others while wearing headphones, most of us received what everyone else was picking up. We only wish we had a couple more cups of Bruce's fine Scotch to celebrate some new countries.

**Brett speaks:** For me, LBI-5 will go into the books as a middle-of-the-road DXpedition, at least conditions-wise. While we heard a number of trans-Atlantic stations both days, none were in as good as the past two years. A combination of local TV interference and generally tepid conditions (despite the low A/K indices) made stations like the normally strong Virgin 1215 inaudible much of the time. Reception of TA's was limited to lower-latitude Europeans and North Africans; beyond that, reception was disappointing. We did pick up several Mexicans, Colombians and Venezuelans and the highlight of the weekend for me was Radio Formula on 720 kHz, a 250 watt Mexican from Veracruz.

Apart from the lack of stations, the technical aspects of the weekend went very well. Antenna deployment went without a hitch in record time, although we did have problems getting the signals from our two broadband loops to both listening rooms consistently - we never did figure out if it was a cabling or splitter problem. Thanks to the past summer's Radio Shack store closings, we have finally amassed enough components, wire and splitters to outfit our small army of DX'ers, so future DX'peditions should not require much additional equipment. It was good to see last year's newcomer Michael again the first night, and this year's first-timer Glenn's eyes were surely opened by the rapid-paced activity at sundown when the first signals start skipping in across the pond.

As always, the best part of the weekend was the fellowship and conversation among the attendees, and I continue to look forward to future DX'peditions!

**Bill speaks:** Although we did not hear many TA's as compared to previous years, we did hear some interesting Latin American stations. At the risk of sounding like a cliché, the camaraderie at these events is always worth taking the time to attend, regardless of what stations we hear.
