This time, IRCA welcomes **Marco Ciocca** from Richmond, KY. Welcome to the fun of DX!!!

**HQ NOTES**

**Nominations Are Open for the TVA and RHA Awards for 2006-2007**

**Ted Vasilopoulos Award (TVA)**

Ted Vasilopoulos was a founding charter member of IRCA who died in 1965. This award in his honor is presented to the IRCA member who has contributed the most to IRCA and the DX hobby during the past several years. The following persons have won the TVA in the last five years and are ineligible this year: Lee Freshwater, Doug Pifer, Phil Bytheway, Rich Toebe and Nancy Johnson.

**Ric Heald Award (RHA)**

The Ric Heald Award (RHA) was created in 1995 to recognize the IRCA member who most benefited the club in a particularly noteworthy way during the previous year. The following persons have won the RHA in the last three years and are ineligible this year: Les Rayburn, Art Blair and Pat Martin.

All nominations, including a brief statement supporting the nomination, shall be sent to the folks listed below:

**TVA Nominations:**

**Lee Freshwater**, 414 SE 3rd St., Ocala, FL 34471, E-mail: [lfreshwater@cox.net](mailto:lfreshwater@cox.net)

**RHA Nominations: (name change here)**

**Les Rayburn**, High Noon Film, 100 Centerview Drive Suite 111, Birmingham AL 35216, E-mail: [les@highnoonfilm.com](mailto:les@highnoonfilm.com)

All Nominations must be received by the above no later than March 15, 2007.

It's time to consider who you will want to represent you as IRCA's next president and Board of Directors (their term will start September 15, 2007). Per the IRCA Constitution, Article III, Section 5, Part 2: Nominations shall be open for President, Secretary-Treasurer, and the seven members of the Board of Directors from December 1 (2006) through January 15 (2007). Only one nomination each for President, Secretary-Treasurer, and only seven nominations for the Board, shall be allowed each IRCA member. An eligible member may nominate himself or herself. All nominations must be submitted in written form to the ECC by January 15.

IRCA's Election Committee Chair (ECC) is **Ray Bauernhuber**, who can be contacted at [raydx@msn.com](mailto:raydx@msn.com) ("written form" includes an e-mail submission, and that is easiest for Ray) or at his postal address of 151-64 18th Ave, Whitestone NY 11357-3102 if you do not use e-mail.

The 2007 **IRCA/DecalcoMania** convention will be held in Salt Lake City UT on August 24-26, 2007 at the Airport Days Inn, 1900 West North Temple, SLC UT 84116. Telephone (801) 539-8538. Request the IRCA convention discount rate of \$50 per night. Registration fee is \$25 (not including Saturday banquet) and is payable to: **Mike Sanburn**, PO Box 1256, Bellflower CA 90707-1256, USA. Hotel website is: [www.the.daysinn.com/saltlakecity06838](http://www.the.daysinn.com/saltlakecity06838). Trip rewards site: [www.triprewards.com](http://www.triprewards.com). **WMRO 1560khz Gallatin, TN DX Test.** No longer running.

**WODI 1230khz Brookneal, VA DX Test.**

All good things must end, and so it is with the WODI 1230khz DX Test. This test has been running each and every Saturday night since October, allowing many of us to add this station to our logs. The entire hobby is very grateful for the test, and we'd all like to thank Dave and Tony!

Below is a copy of an e-mail received from the station. If you received the test, but have not received a QSL card, please send MP3 or .WAV clips to me ASAP.

"WODI will conduct its final recurring dx test for the current season this morning (1/1/07 pb). We hope to do more tests perhaps during a different part of subsequent dx seasons. As a broadcaster and an active dxer I must say it has been a pleasure to contribute to a hobby that started me in my broadcast career. Thanks for all the reports. In addition I would like to thank Les Rayburn who handled the reports for doing such a great job. Les a big tip of the WODI hat goes in your direction. 73, good dx, and happy 2007 to all.

Dave Marthouse N2AAM"

**KRSN 1490khz Los Alamos, NM Maintenance Test.** Date(s): Sunday Morning (Late Saturday Night) January 28, 2007. Time: 0100-0110, 0200-0210, & 0300-0310 Mountain Time. Ten minute long test period at the top of each hour. Modes of Operation: Special DX Test. 640 Watts, Non-Directional. Programming: Phonetic voice ID's, Morse Code ID's, Sweep Tones. Notes: This will be a challenging test, as KRSN is on an STA that allows them only 640 watts. The antenna is a short (about 80 foot) folded unipole mounted on a 150 foot tower. The top of the tower supports several bays of cell phone antennas.

KRSN has a new Harris transmitter, which they will be testing.

QSL Information: Reception reports via e-mail are preferred. Send reports to: [dxtest@krsnam1490.com](mailto:dxtest@krsnam1490.com). For those who cannot send e-mail reports, the address for Postal reports is: KRSN AM 1490, 145 Central Park Square, Los Alamos NM 87544, Please include an SASE for reply.

A recording of the test is requested. The following formats (only) are acceptable: .MP3 or .WAV for e-mail attachments. Audio CD or cassette for Postal reports. If a recording is not available, please include a detailed description of your reception including the sequence of test elements, description of sweep tones, etc.

Our special thanks to Mike Westfall, N6KUY for working so hard to arrange this test with his local graveyard station. Also our gratitude to both Dave and Gillian Sutton, the station owners for scheduling their maintenance around the needs of the DX'ers!

**WFIF 1500khz Milford, CT Maintenance Test.** Date(s): Saturday Morning (Late Friday Night) January 27, 2007. Time: 12:01AM (Eastern Time) until 12:11AM (Eastern Time) Test is 10 minutes long in duration. Modes of Operation: WFIF is testing their new remote control system to be sure that the station can be switched on/off remotely or during emergencies. 5KW Directional. WFIF is a daytimer, so this is a rare chance for many to log them.

From Mr Barnett: "The pattern has two deep nulls. One to the south and slightly west, protecting WTWP in Washington, DC. The other falls across the middle/western portion of Long Island. (That is only because our pattern is symmetrical. That null is not protecting anyone.) The pattern is easily viewable on [www.radio-locator.com](http://www.radio-locator.com). May the conditions favor your reception as we conduct this brief test of our remote control systems!"

Per their engineer, Mr. Willie Barnett, the test will consist of "voice ID's and several tones, along with a "wavering" tone. If people have Cool Edit (or Audition) they can use the spectrum display and that tone will show up as a horizontal sine wave in the spectrograph. That makes it very easy to see, as well as hear".

Programming: Voice ID's, tones, and a "wavering tone".

QSL Information: Reception reports via e-mail are most desired. E-Mail all reports to Mr. Willie Barnett, Chief Engineer at: [WFIFeng@aol.com](mailto:WFIFeng@aol.com). A recording of the test is requested. The following formats (only) are acceptable: .MP3 or .WAV for e-mail attachments. If a recording is not available, please include a detailed description of your reception including the sequence of test elements, description of sweep tones, etc. Screen capture images of the horizontal sine wave can also be sent as file attachments.

Chief Engineer Willie Barnett has asked that **all** reception reports for the upcoming maintenance test be submitted via electronic mail. This is a direct reflection of the station's limited resources and manpower. I hope that all who desire a QSL will respect Mr. Barnett's wishes and not send the station reports via standard Postal Mail. Some may see this has a snub of DX'ers, but I can assure you that is not the case. Mr. Barnett has worked hard over a period of several weeks to be sure that DX'ers were aware of this test, and that enough notice was given to allow it's announcement to reach our printed publications.

"I'll be happy to "transcribe" Postal reports into e-mail and send them along to Mr. Barnett. If you have no access to E-mail and desire a QSL for the test, please send details to myself via Postal mail at: Les Rayburn, N1LF, C/O High Noon Film, 100 Centerview Drive, Suite 111, Birmingham AL 35216, ATTN: WFIF TEST. You must include a SASE for a reply. Please submit the reports within ten (10) days of the test, and be willing to wait up to six weeks for your reply.

Our special thanks go out to Mr. Barnett, for keeping us in the loop for weeks now, as the new remote control system installation was completed. While this is a short test, it could have been

conducted with no notice given to the DX community, and we're grateful that he worked so hard to include us.

- 1630 KCJJ IA, Iowa City. 1-1 with local KKGm looped. 19:30 {no details provided-ed.} [GH-TX]

## 25 YEARS AGO

January 10, 1982 IRCA's "DX Monitor" ... This issue contained the 1982 Frequency Check List and an article by **Charles A. Taylor** on how to ID Japanese stations ... **Bill Townshend** of Washington, DC told about the WADXA get together hosted by **Joe Erwin** ... **Robert Wien** of San Jose, CA said he wanted to reach a goal of 600 veries by the first, but ended the year at 599.

## OPEN MIKE

We welcome back **Neil Kazaross** to the CDXR column. It's been far too many years since his last report. You will notice Neil has some wonderful DX to report! Including loggings of new stations, states and provinces. Very impressive loggings, Neil! Between Neil's report and the Frequency Check list from 25 years ago, I could only be reminded of earlier years of DXing. A correction from last column, KTOE Mankato, MN was incorrectly typed as 1450, they are still on 1420. 2007 is here. It's time to remind everyone of some of the general guidelines for reporting to CDXR. Please use Eastern time in 24-hour format, spell words correctly, especially city names, put spaces between tips to make it easier to transcribe, avoid reporting clear channel and local stations unless it's something special, avoid general band scans, everything must be actual DX and not news obtained from any other sources, always include frequency, call, state, city, date, time, and a brief detail of what was heard. You may also include conditions. This column was typed 1-6-07. 73, John

**Mike Sanburn**, PO Box 1256, Bellflower, California 90707-1256 [mikesanburn@hotmail.com](mailto:mikesanburn@hotmail.com)

Greetings. In the mid-December issue of DX Monitor, vol. 44, number 14, a member in northern California claims to have logged the DX tests of both KLCY-930 and KGVO-1290 from Montana. For both tips, he lists Morse code IDs and sweep tones (seemingly mimicking what was printed in the ad for these tests). A neat trick considering those two stations were airing regular programming that night! Judging from the postcards, e-mails, etc, that I've received from members, fraudulent tips are entirely unwelcome. Equally unacceptable is the practice of sending falsified reports to station engineers in hopes of tricking them into furnishing a QSL card or letter.... On a positive note, the vast

majority of club members report what they do and do not hear to the various columns in an accurate and honorable manner. Reports from those folks are always welcome and encouraged. I hope everybody has a fine new year. 73 (portions deleted--rce)

More bad news on the digital front, as KFuo 850 returned to digital operations again just before Christmas. The station's analog-only operation allowed me to hear KOTC 830 and sunset DX on 840 and 860. The station has been without digital service twice this year; both times for two weeks at a time. This demonstrates the poor quality of iBiquity's customer support. Clear Channel-owned KATZ 1600 went digital in mid-December; coverage has been reduced as a result. Along I-270 near Granite City, IL, the digital sidebands make WBGG 1570 nearly inaudible; it's totally inaudible in the area near their transmitter site in Madison, IL. At my QTH, I can null out the station about one hour before sunset to pull in DX (mainly KRVA and WCGO); weak signals can be pulled through the sidebands on 1590 before sunset. KATZ is the fourth AM station in St. Louis to switch to the unproven "HD Radio". The allowance of AM stations broadcasting in "HD" to keep their digital equipment on until 1800 local time is absolutely ridiculous; it brings about interference to adjacent channel stations. During the day, the interference close to the transmitter sites extends all the way to the fourth adjacent channels; I get interference up to the second and third adjacents from the digital sidebands of KFuo 850 and KMOX 1120, to the second adjacents from the sidebands of WSDZ 1260 and KATZ 1600. Digital sideband interference from WSDZ 1260 may have been a factor in KYRO 1280 Potosi, MO pulling the plug. On the FM side, there are just three analog-only commercial FM stations left: KFuo-FM 99.1, KEZK 102.5 and WHHL 104.1. KSHE 94.7, WFUN-FM 95.5 and KIHT 96.3 flipped to the spectrally inefficient technology in December; KLOU 103.3 and KSLZ 107.7 did so in November 2006. By contrast, only one non-commercial station (KWmu 90.7) has gone to low-def digital. When the stations were analog-only, the Stereo separation was infinite. With the digital signal, FM Stereo separation is reduced to no more than 10 dB. "HD Radio" simply cannot deliver what it promises! While the broadcasters are saying positive things about the "rollout" of this unproven and spectrally inefficient technology, consumers have been skeptical. I would never buy an "HD" radio under any circumstances because of reduced signal coverage, the inability of digital radio signals to get through tall buildings, and sound quality that's worse than the worst-engineered AM radio stations. Canada's introduction of digital radio has been slowed because most of the stations, which operate on 1452-1492 MHz (which the U.S. defense establishment is occupying in violation of international regulations), simulcast AM and FM stations. If they had offered programming separate from AM and FM, DAB would be more successful. There are only a handful of stand-alone DAB stations in Canada. The NAB has shown a very anti-competitive attitude by opposing new spectrum for digital radio; portions of the UHF Channel 52-69 spectrum being abandoned by broadcast television, in addition to the spectrum Canada is using for DAB, would be better suited to digital radio than AM or FM frequencies. On the DX front, I added a new station to the logbook on December 23 with KNBO 1530 New Boston, TX with a station promo and Christmas music at 1707 ELT. WCKY was nulled to hear this station. Another new station added was KLCL 1470 Lake Charles, LA with Christmas music and legal ID; simulcast partner KJEF 1290 Jennings, LA was not in. The AM count now stands at 1,019 as of January 1, 2007. 73 and good DX from Eric (N0UIH).

- 1134 **CROATIA** *Glas Hrvatske*, Zadar, - Slavic male vocal in a pop-folk style; loud (date/time?—pb). [Connelly\*B-MA]
- 1206 **FRANCE** *France Info*, Bordeaux, JAN 6 0046 - woman in French with "France Info" mention, then talk by man; good. [Connelly\*B-MA]
- 1215 **UNITED KINGDOM** *Virgin Radio* synchros, JAN 6 0050 - R.E.M. song "Everybody Hurts"; fair. [Connelly\*B-MA]
- 1251 **LIBYA** *Libyan Jamahirya*, Tripoli, JAN 6 0051 - Arabic talk by man at low audio level on strong carrier. [Connelly\*B-MA]
- 1377 **FRANCE** *France Info*, Lille, JAN 8 0313 - orchestral music // much stronger 1206. [Connelly\*B-MA]
- 1422 **GERMANY** *Deutschlandfunk*, Heusweiler, JAN 6 0110 - woman in German, then music; fair over others. [Connelly\*B-MA]
- 1449 **LIBYA** *Voice of Greater Arab Homeland*, Misurata, JAN 6 0108 - Arabic music fragments; in WNBP slop. [Connelly\*B-MA]
- 1503 **SPAIN** *Radio Nacional 5*, Piñeira and La Línea de la Concepción, JAN 6 0053 - Spanish newstalk by man; fair with WTWP phased. [Connelly\*B-MA]
- 1521 **SAUDI ARABIA** *BSKSA*, Duba, JAN 8 0340 - man in Arabic and segments of pop-style Arabic music; good, strongest high-band TA by a wide margin. [Connelly\*B-MA]
- 1557 **FRANCE** *France Info*, Fontbonne, JAN 6 0101 - //1206 with fast-talk news by woman; through WQEW slop. [Connelly\*B-MA]

\*\*\* PAN-AMERICAN DX \*\*\*

- 530 **TURKS & CAICOS** *Radio Visión Cristiana Internacional*, South Caicos, JAN 8 0327 - Christian vocals in Spanish; very good, well over Cuba/CLAO. [Connelly\*B-MA]
- 555 **ST. KITTS & NEVIS** *Radio ZIZ*, Basseterre, JAN 8 0325 - light jazz / soul vocal; very good. No hint of 535 Grenada, so maybe that one's gone. [Connelly\*B-MA]
- 630 **unID** JAN 6 0330 - Spanish talk that may have been Puerto Rico, Cuba, or Venezuela. This was the only thing noted under WPRO at the time... so maybe CFCY has left the air? [Connelly\*B-MA]
- 1170 **COLOMBIA** *CARACOL*, HJNW, Cartagena, JAN 6 0044 - Spanish news about Colombia; over R. Sawa - UAE with WWVA phased. [Connelly\*B-MA]
- 1340.6 **unID** JAN 6 0113 - het, possibly of domestic origin; about equal strength to 1341 N. Ireland. [Connelly\*B-MA]

**IRCA Reprints**

The IRCA maintains a large file of articles that have appeared in past issues of **DX Monitor**. These articles cover a wide variety of topics, including: antenna theory and construction, tips for the foreign BCB DXer, how to improve your DXing skills, history of DXing and broadcasting, lists of stations by subject, construction projects and receiver modification, receiver reviews, medium wave propagation, and more. Copies are available for a nominal charge. Price for the complete list is \$1.00.

**New from the IRCA reprint service. "IRCA REPRINTS ON CD"!!!** 648 Reprints. The entire set, now on one CD. Only \$10.00 (US/Canadian IRCA members, overseas contact Lee.) Categories include: Antennas, Domestic, Foreign, History, DX Lists, Receivers and Receiver Modifications, and Technical. Check out the table of contents at: <http://geocities.com/amlogbook/newmembers/reprint.htm>.

For a complete list of reprints, or to purchase the CD send to: **IRCA Reprints, c/o Lee Freshwater, 414 S.E. 3 RD ST, Ocala, FL 34471**. Allow 3-4 weeks for delivery. (Make all checks and money orders out to **Lee Freshwater**)

The IRCA is a non-profit organization devoted to the hobby of hearing distant stations on the Broadcast Band (510-1720 kHz). **DX Monitor**, the official publication of the IRCA, is published in "soft" form 35 times a year (weekly from November through March, twice monthly from April to November) and in printed form 30 times a year (weekly November through March, monthly April to November). **DX Monitor** contains members' loggings, articles on radio stations, receiver reviews, technical articles, DX tips, and other material of interest to Broadcast Band DX hobbyists.
