Data on NRC's AM Radio Log 28th Edition

The NRC's AM Radio Log is a source for information on AM Radio Stations in the United States and Canada. The 28th edition of the Log contains 281 pages of data and cross references and 18 pages of instructions in 8-1/2" x 11" size, 3-hole punched, U.S. loose leaf format. This publication fits nicely into a 1" three-ring binder. Nearly 7000 updates since last year's 27th Edition of the log! Recent additions to the log lists call letters of FM simulcasts, listings of regional groups of stations in the groups section (separate section of the log book) and a cross reference of those stations that are licensed to use IBOC (In Band On Channel) digital audio.

Orders are shipped postpaid Media Rate. USA and Canada add \$3.00 for Priority Shipping. Order by snail mail to: NRC Publications, P.O. Box 473251, Aurora, CO 80047-3251 or at our web site <http://www.nrcdaxas.org>. United States: IRCA/NRC Members - \$19.95, United States: Non-Member - \$25.95; Canada: IRCA/NRC Member - \$23.00, Canada Non-Member - \$28.95, Outside US/Canada Overseas [Member or NonMember] - \$31.45.

LOGGINGS

580 VA WLES Bon Air. Logged @1700 8/12 (finally) with ID which mentioned WTRU-830: "W L E S. Bon Air." /WTRU-1030 Wake Forest/Raleigh. Clearly audible, but still poor with QRN from cochannelers. Obviously up to full 200 w ERP and not old (estimated) 50 w or so. (CAT-NC)
1180 FL Marathon: Part of the theme music of Radio Marti was noted this evening @ 2002 8/19 while listening for the mystery emission on 1181. Station not logged on this basis as no ID was heard, but the theme music is something I've heard zillions of times while I the employ of IBB. This would seem very unlikely unless Marti was operating on other than its usual pattern which puts practically zero watts this way. Something strange is happening here. (CAT-NC)
1690 MD WPTX Lexington Park - 08/02/07 2059 - TOH ID along with a mention of the bridge collapse in MN. Decent signal only to fade under a CBS Newscast from somewhere. "WPTX, Lexington Park, MD." (IEN-GA)

Greetings everyone,

Well here we are at convention time. Looking forward to the Salt Lake City convention, especially since I have never been there. Nope, 4 trips to Hawaii, 2 trips to NY, New Orleans, etc, but never to Utah. A tour is planned for KSL, a classic old station. I hope to see many of you there.

Only a few tips to report this time around. DX conditions to be Summer bound and only a few things are coming in, but Fall dx are right around the corner.

First of all, we are in the process of moving (8/26) but this address for getting mail seems to be good—I have already received a bill there, hi. I haven't checked it for line noise but the utilities are underground (the place is no more than five or six years old—built since we moved here in 1999) and when we are in there, we hear no noise from the neighbors, which will definitely be a plus. I was looking thru one of the neighborhood publications I picked up on my trip to Michigan back in July and found an interesting ad labeled "Take high-def radio home". Due to go on sale in July, it says "the HD radio is capable of broadcasting HD AM radio programming that sounds as good as standard FM radio, and HD FM radio that sounds as good as CDs. The HD radio can display song and artist information provided by more than 1,300 HD stations. Priced at \$200, the XDR-S3HD radio has a backlit display, a built-in AM/FM/HD tuner, an alarm clock, stereo speakers, a wireless remote and an audio jack for an MP3 player. www.sonystyle.com. I think it means "receiving" instead of "broadcasting". I don't know if it is worth the \$200 or not. Only time will tell, but it is the first radio I have run across to handle the new technology. As I type this, Labor Day weekend is only seven days away. It's the start for the new DX season for me. Can't come too soon, it's been so hot this summer that not even daytime listening for pleasure has been enjoyable. As I type this, the Salt Lake City convention should have wound down. I trust those there enjoyed themselves and are all hyped up now for the new season. The new deadlines are at the top of the column. It's a couple of bi-weeklies, then into the weekly bulletins again. Let us know what is going on in your corner of the radio world. 73
