

May 10, 2008 - Volume 45, Number 27 - Edition 1438 - ISSN 899-9733

This time, IRCA welcomes Richard N. Allen of Billings, OK! SDXM in 2 weeks.

**ELECTION UPDATE**

For those who have not already voted for their choice of the 2007-2008 Ted Vasilopolopolous Award (TVA) and Ric Head Award (RHA), the ballot and details were contained in the 15 March 2008 **DX Monitor**. Please take a moment to show your appreciation by voting for one of the candidates who have worked hard for IRCA. The ballot must be RECEIVED by the Election Committee Chairman no later than 0001 hours Eastern Standard Time, July 1, 2008. (contact the ECC, Nick Hall-Patch, 1538 Amphion St., Victoria, BC, Canada V8R 4Z6 (or e-mail: [nhp@ieeee.org](mailto:nhp@ieeee.org)) if you do not have a ballot) (Those subscribing to both the hard copy and electronic versions of the **DX Monitor** may vote by using the hard copy ballot OR by e-mail, whichever is the most convenient to you. **PLEASE DO NOT DO BOTH**. Thank you.)

**2008 Flagstaff Convention**

Make your plans now for the 2008 IRCA Convention in Flagstaff September 12-14. This year the convention will be at the Days Inn, 1000 West Route 66, Flagstaff, Arizona. The phone number is 928-774-5221 and when you call tell them you are with the IRCA as I have a block of 20 rooms. The room rates are \$65.00 plus tax for Single, Double Triple or Quad. The registration fee will be \$25.00 and you can pay at the door or send a check to the address below.

The convention will start on Friday in the Cedar Room at the Days Inn around 9:00AM. On Friday we will have station tours and on Friday night we will get a tour of Lowell Observatory. At the observatory we will get a chance to look through the 24" Alvan Clark refractor telescope weather-dependent. The weather should be good at this time of the year as the summer t-storms should be over by then. This observatory is where the planet Pluto was discovered. On Saturday we will have the business meeting, auction, and banquet. The banquet will be held about 10 minutes from the Days Inn at Black Barts Steakhouse. We will have a choice of Steak, Chicken or Salmon at Black Barts. For those that can stay one more day I will have a Sunday tour of Meteor Crater about 35 miles from Flagstaff the best preserved and first proven meteorite impact site on planet earth. After the tour at Meteor Crater we will go back to Flagstaff and no North to Sunset Crater Volcano and Wupatki National Monument. Wupatki is very interesting as they have pueblos that are around 800 years old.

Transportation to Flagstaff can be by Air (US Airways) daily flights from Phoenix, Antrak, Greyhound bus and by car. Northern Arizona has many other things to do and some of them are Grand Canyon, Canyon de Chelly National Monument, Glen Canyon National Recreation Area. So come to Arizona for the Flagstaff convention.

**NRC Convention 2008 News**

Friday, August 29 - 31, 2008. 75th Anniversary - National Radio Club, founded in 1933. What better way to celebrate the Diamond Anniversary than to get back together in the familiar surroundings of the birthplace of modern broadcasting. And can you believe it? The city of Pittsburgh is celebrating its 250th anniversary this year, too!

The host will be John Malicky; one of NRC's most experienced convention leaders. Just look at what he's arranging. The Pirates baseball team will play on Sunday afternoon against Milwaukee - very appropriate for the 75th diamond anniversary - weather permitting. Plan to arrive early enough on Friday to take part in studio tour that afternoon, with a pizza dinner being served in the meeting room that night. The grand opening will be held at 7 pm on Friday with a presentation about the history of Pittsburgh rounding out the evening. Saturday morning will feature a tour of the Heinz History Center at 9 am, and you are invited to buy lunch at the Sports Rock Café if you wish. There will be transmitter tours in the afternoon for those

who wish to get out and see what broadcasting in Pittsburgh is all about, and then, at 5 pm, the annual group photograph at the hotel. And, of course, there will be lots of time to sit and chat about DXing with other club members in the Hospitality Room.

The banquet this year will be in the Greenery Restaurant right there at the hotel. A business meeting will follow, and then the world-famous auction will round out the evening.

Sunday will open with the annual NRC DX Examination, and then, at 11 am, we'll depart for a boat ride to PNC Park, home field of the Pittsburgh Pirates, via the Gateway Clipper Fleet. The game that afternoon is against the Milwaukee Brewers at 1:35; tickets are \$14 each, and please reserve yours by letting John know that you plan to attend. Seats will be behind home plate on the 3rd level.

Back at the hotel, the Hospitality Room will re-open around 5 o'clock -- WNRC should be on the air by then and we'll sit and chat until everyone is talked out. The convention will end on Sunday evening. Now, here's what to do:

1. Reserve your room at the Greentree Holiday Inn, 401 Holiday Drive, Pittsburgh PA 15220: Call: 1-412-922-8100. Be sure to tell them you want the "NRC Rate" @ \$75 per room (up to 3 occupants) and be sure to tell them by **August 15**.
2. Convention Registration is \$45 and that includes the pizza party, the banquet, soft drinks and munchies during the three days in the Hospitality Room and; weather permitting, a trip to the history center.
3. Send all auction and "free" distribution items to John (PLEASE mark free items prominently so that they don't end up in the auction!); 995 Shadycrest Rd - Pittsburgh PA 15216-3046.
4. Send your registration check, payable to "National Radio Club" to: **John Malicky**, 995 Shadycrest Rd., Pittsburgh, PA 15216-3046. You can also register on line using PayPal at: [www.nrcdxas.org](http://www.nrcdxas.org).
5. The train station in Pittsburgh is only 4 miles away from the hotel; the taxi fee is \$25.

**CANADIAN RADIO NEWS**

Dan Sys--[dsysca@yahoo.ca](mailto:dsysca@yahoo.ca)

For April 2008 (May 1 2008 - next update June 1 2008)

**CALL LETTER DATA**

1280 BC Powell River CHQB Will become CFPW (when flip to 95.7 occurs)

**TECHNICAL CHANGES GRANTED**

1450 QC Montreal CHOU Increase power from 1,000 watts fulltime to 2,000 watts fulltime

**PROPOSED AM TO FM CONVERSIONS**

1090 ON Kitchener CKKW Move to 99.5 with 2,100 watts (5,000 watts E.R.P.) (format will remain Oldies)

**CALLS FOR APPLICATIONS**

The CRTC has received an application for a new commercial station in ORILLIA. Other interested parties wishing to obtain a radio license in this city are invited to submit applications.

I attempt to be as accurate as possible with this information. I visit many websites and message boards on a daily basis seeking the latest in Canadian radio news to report in this column. I trust this information to be worthy, however I can't be in all these places to confirm everything. If inaccurate information is reported I do apologize, but don't blame me... I'm only the messenger.

**FACILITY AND PARAMETER APPLICATIONS**

(Edmonton, Canada) Corus Radio will introduce a new concept to Canadian radio: iNews880, an Internet-driven, 24-hour all-news radio format providing comprehensive and live news around the clock, launching in Edmonton on Tuesday, May 20 at 6 am MT. iNews880 will keep listeners informed with continuous 30-minute information packages featuring news, weather, traffic, business news, sports and hyper-local news from citizen journalists. A first for Canadian radio, iNews880 on the radio will be powered by **iNews880.com**, a website focusing on the critical news and issues that matter to Edmontonians in a true fusion of both media. Through blogs, community news coverage and i-reports, citizen journalists will provide experiential content for the hyper-local news coverage provided by iNews880. "Corus Radio's commitment has always been to provide credible and immediate news coverage to the people of northern Alberta and the world, on radio, online and on-demand," said Doug Rutherford, General Manager, Corus Radio Edmonton and Vice President, News-Talk Programming. "iNews880 will bring audiences news when they want it and how they want it, with their direct involvement." On both radio and Internet, user-generated content will ensure that iNews880 is interactive and grounded in the Edmonton community. Audience involvement will play an integral role in day-to-day content which will complement existing news coverage from staff journalists and news partners. "iNews880 marks an evolution in radio and we're thrilled to launch this format in Edmonton," said Syd Smith, Program Director, 630 CHED and iNews880. "Information technology gives our audiences an immediate opportunity to share local, provincial, national and global news from their perspective with other listeners around the city and around the world." iNews880 launches live on Tuesday, May 20 at 880 AM and **www.iNews880.com**. Corus Radio and iNews880 are owned by Corus Entertainment Inc., a Canadian-based media and entertainment company. Corus is a market leader in specialty television and radio with additional assets in pay television, advertising and digital audio services, television broadcasting, children's book publishing and children's animation. The company's multimedia entertainment brands include YTV, Treehouse, W Network, Movie Central, Nelvana, Kids Can Press and radio stations including CKNW, CKOI and Q107. Corus creates engaging branded entertainment experiences for its audiences across multiple platforms. A publicly traded company, Corus is listed on the Toronto (CJR.B) and New York (CJR) exchanges. Experience Corus on the web at **www.corusent.com**. For more information, please contact: Syd Smith, Program Director, 630 CHED/iNews880, (780) 440-6300. (PM-OR)

**Pat Martin** sends along the following from Dennis Vroom of Salmon Creek, WA dated 3/15/08:  
 From KOIN TV  
**PORTLAND** – The employees at KXL radio may be a bit shaken Friday afternoon after an angry listener crashes his car into the office. It happened just after 1 pm at the offices on Southwest Bancroft Street. Preliminary reports say the driver intentionally backed his car into the office because he was unhappy with the station's morning radio broadcast. No one was injured, but the suspect is still on the loose. **Dale Park** sends along the following from the San Francisco, CA Chronicle dated 3/8/08:  
 Saturday, March 8, 2008 (SF Chronicle), Judge ready to dismiss Michael Savage lawsuit, Bob Egelko, Chronicle Staff Writer

(03-07) 15:35 PST SAN FRANCISCO – A federal judge said Friday she's inclined to dismiss a lawsuit by conservative radio talk show host Michael Savage against a Muslim rights group that reprinted his attacks against Islam and called for an advertising boycott. Savage sued the Council on American-Islamic Relations in December after the organization posted excerpts from an Oct. 29 broadcast in which he called the Quran a "hateful little book ... a document of slavery" and said, "I don't want to hear one more word about Islam. Take your religion and shove it." His lawsuit accused the group of violating Savage's copyright by posting more than four minutes of excerpts on its Web site without his permission. He also claimed that the group was engaged in racketeering, saying it poses as a civil rights organization but is actually a "mouthpiece of international terror" that helped to fund the terrorist attacks of Sept. 11, 2001. The broadcaster's syndicated program "Savage Nation" has about 8 million listeners a week on 400 stations, including on KNEW-AM in the Bay Area. He said the Council on American-Islamic Relations was harming him by taking his statements out of context, urging visitors to his Web site to complain to his advertisers and using his material to raise money for illegal activities. The group called his claims about its activities preposterous, denied any connection to terrorism and said in court papers that Savage was trying to "intimidate and silence (the organization) in retaliation for (its) criticism of his radio rants." Numerous companies have withdrawn their advertising from his program, the group said, including Sears, AT&T and Wal-Mart. Lawyers for the group said its use of Savage's comments to generate criticism was permitted by copyright law and protected by the First Amendment. At a hearing Friday, U.S. District Judge Susan Lliston of San Francisco said that she found much of the organization's position to be persuasive and that she had tentatively decided to dismiss the suit. She added, however, that she would probably allow Savage to file the suit and fix its defects, which she did not specify. Savage's lawyer, Daniel Horowitz, disputed the group's contention that its excerpting of his broadcast was protected by the legal doctrine of fair use, which allows portions of copyrighted material to be reprinted for the purposes of commentary, criticism or parody. Horowitz contended the organization had disqualifed itself from protection because of its allegedly illicit motives and commercial use of the material. "It is speech, Mr. Horowitz," the judge replied. Thomas Burke, a lawyer for the Council on American-Islamic Relations, said at the hearing that the organization was entitled to excerpt Savage's words for fundraising purposes. He cited a 1986 ruling by the federal appeals court in San Francisco allowing the Rev. Jerry Falwell's organization to use copyrighted material in a Hustler magazine parody of Falwell to generate contributions. Savage's lawsuit "is about punishing (the council) for exercising its First Amendment protected rights," Burke told reporters. E-mail Bob Egelko at [begeiko@sfchronicle.com](mailto:begeiko@sfchronicle.com). (DP-H)

**Pat Martin** sends along the following from the Hear 2.0 website dated 3/13/08:  
 Black Friday for HD Radio  
 This week's Convergence conference in San Jose was a terrific gathering of broadcasters and their partners who feel radio's best days might very well lay ahead. No sticks in the mud, these. Rather, folks with brains and vision and a plan, or at least the hopes of developing one. This was no place for spin doctors and conventional wisdom. So I was not surprised when Kurt Hanson spoke on radio's future with an emphasis on radio's inevitable future on the Internet. Nor was I surprised when Kurt veered left to discuss - and dismiss -

**Dale Park** sends along the following from the Prescott Valley, AZ Daily Courier dated 3/6/08:  
 Coyote Radio is looking for DJs, Thursday, March 06, 2008  
 Ever wanted to host a radio show? Well, here's your chance - and you can play whatever the heck you want. The Coyotistas broadcasting from Studio A in the back of the Raven Café are offering any potential DJs one hour to control the airwaves at Coyote Radio, AM 1670, the last week of March. To celebrate the two-year anniversary of the station's premiere on April Fool's Day, Coyote Radio will play host to "DJ for a Day" at the Raven Café from 8 am to 10 pm at the Raven on Saturday, March 15. The station will provide engineering assistance at the event and the following weekends through March to anyone wanting to record an hour-long show of music in virtually any genre using their own CDs or songs from the station's digital archive. "Since we do it pre-taped, if they make any mistakes or anything, we just back up, cut that out. What they end up with is a perfect-sounding show doing the music they love best," said Andrew Johnson-Schmit, Coyote Board chairman. "Even if you don't have a big music collection, we've got hours and hours of music of all styles, from opera to punk and everything in between." Local historian and Wickenburg native Parker Anderson recently recorded a show of all old-time cowboy and western swing music, Johnson-Schmit said. "He included different versions of 'Tying a Knot in the Devil's Tail.' "Course, Gail Gardner wrote it, but he included different versions by other people who swore that they wrote it instead," said Johnson-Schmit. "Some of these shows are almost educational, like an NPR show, and some of them are just straight out rock 'n' roll DJ work." The station will start streaming the broadcast online on April 1, he said. Coyote Radio shows currently broadcast over AM 1670 during weekends, sharing programs with KJZA, and is the local affiliate for the "Democracy Now" syndicated news program. Coyote Radio entered into a partnership with Prescott College last year to train students in radio production and documentary work. RSVP for the March 15 DJ for a Day event at [www.coyoteradio.org](http://www.coyoteradio.org). The station is not charging for the program, but welcomes donations for non-profit community radio. (DP-H)

**Pat Martin** sends along the following from Dan Sys from Corus Entertainment dated 3/14/08:  
 CORUS RADIO LAUNCHES INTERNET-DRIVEN RADIO STATION IN EDMONTON WITH iNEWS880, March 14, 2008

HD Radio: What fascinated me was the reaction. Any room full of broadcasters is full of HD radio doubters, nowadays. But the vibe in this room was remarkable for the eye-rolling and audible snickering that greeted virtually any mention of HD. Kurt, disassembled HD's premise by dividing the total number of radios now in circulation by the markets in which those radios live and other relevant assumptions (I did something like this a while back myself). He arrived at the conclusion that the average HD radio advertiser in any given market could reach more prospects by standing at the bottom of their driveway and handing out flyers. In a panel session immediately following Kurt's, the lone iBiquity spokesman filibustered on his talking points, splitting one after the next, but the effort seemed surprisingly desperate. You could almost hear the sweat forming on his brow as he reiterated his case, oblivious to the thrashing that had just occurred. Although he described himself as Kurt Hanson's "evil twin", the feeling in the room was that he was at least half right. It left me feeling that a corner had been turned. That broadcasters understood new media presented scores of new opportunities, few of which had anything to do with selling newfangled radios to consumers who don't want or need them. This should create great hope for those of us in radio: Hope that good ideas really will rise to the top. Hope that we're too smart to be taken in by pyramid schemes. Hope that those with a vested interest will be revealed for what they are. Hope that those with the interests of broadcasters and listeners and clients at heart will create the kind of future those constituencies demand and deserve. All along, HD radio was designed as the industry's counterpunch to XM and Sirius. As the satellite titans near a merger (which I do believe will happen and could come any day now) in order to save themselves, as satellite's control over a pocket in the dashboard accelerates, as another pocket opens up for all-things-internet, HD radio will rapidly dim into obsolescence like the technological also-rans which preceded it. All technology is transitional, but some never make it to the transition. In this new media world, opportunities are actually less about "convergence" than about emergence. Chaotic storms of passion bring audiences together. Their whims and tools and discussions allow them to take the driver's seat. We are and always will be in service to them. HD radio was always about what the industry wants, not about what consumers want. That's why it was doomed to fail from the start. And, unless there's some remarkable consolation prize embedded into the satellite radio merger decision, that day shall be Black Friday for HD radio. (PM-OR)

**Ye editor** sends along the following from Radio and Records dated 3/17/08:

From Monday 3/17 "Radio and Records": Disney Done In Fresno, By Kevin Peterson  
Radio Disney affiliate RAK Communications AM 1680 KAVT/Fresno has changed formats and call letters after their deal expired on February 29. The new format is adult standards, with music from the '50s, '60s and '70s. The new calls are KGED, but the station is using the name "Legends 1680". The new programming is being provided by Dial Global, but construction is also underway on a new local studio for the station. (RW-NM)

**Dale Park** sends along the following from the Denver, CO Rocky Mountain News dated 3/16/08:

The Fan now can be found on FM dial. By Dusty Saunders, Special to the Rocky Mountain News, Thursday, March 6, 2008  
Scott Hastings and the rest of the KKFN crew now can be heard on 104.3 FM. The often-raucous sports talk of Scott Hastings and Alfred Williams abruptly replaced the smooth jazz sounds of Kenny G and George Benson at 1 pm. Thursday on KJCD-FM (104.3). Lincoln Financial Media, operator of KKFN-AM (950), moved The Fan, home of sports talk and Nuggets and Avalanche game coverage, to 104.3 on the FM dial. The Fan will simulcast on the two stations until March 31, said Bob Call, vice president and general manager of the five LFM Denver radio stations. A source said KPFN-AM, the ESPN outlet currently heard on 1600, will be moved to the much stronger 950 frequency when the simulcast ends. According to Call, The Fan now is one of a handful of sports-talk stations around the country utilizing the clearer FM signal in local markets. "It's an exciting move which offers listeners of The Fan the new experience of tuning into sports talk and play-by-play with an FM sound," Call said. He added, the change offers the station's clients "an exceptional advertising platform." The change coincides with the addition of Dan Patrick's new syndicated sports show (9 pm to midnight weekdays) when it doesn't conflict with Avalanche and Nuggets coverage. The smooth-jazz format, while off the regular radio dial, can be streamed on the internet at [SmoothJazzDenver.com](http://SmoothJazzDenver.com) and also can be heard on HD Radio at 98.5-2. Arbitron audience ratings for the music format, which premiered eight years ago, have declined recently, Call said. The Fan has been operating on the 950-AM frequency for 12 years. (DP-H)

**Pat Martin** sends along the following from [www.radio-info.com](http://www.radio-info.com) dated 3/17/08 (arguments earlier: info from KAVT from ye ed):

KAVT 1680 AM Fresno New Calls and Format  
KAVT 1680 AM Fresno is no longer a Radio Disney Affiliate, the contract to carry Radio Disney expired on Feb 29. RAK Communications, the owner of the station, has changed calls to KGED and installed Dial Global's Adult Standards format with music from the 50's, 60's, and 70's. The station will be known as Legends 1680. A new local studio is under construction for the station, maybe they will hire some local talent as well. Good luck to RAK with the new station format. (PM-OR)

**Ye editor** sends along the following from the Orange County, CA Register dated 3/18/08:

KFIS tower crashes to earth, Tuesday, March 18, 2008, KFI tower topples. The half-built tower in La Mirada, opposed by pilots at Fullerton airport, fails during construction.

BY ERIC CARPENTER, THE ORANGE COUNTY REGISTER  
LA MIRADA — A half-built radio tower, under re-construction after years of debate over the safety of its location, crashed to the ground this afternoon injuring a construction worker, city and radio-station officials said. The name of the injured worker was not released, but his injuries were believed to be minor, said Greg Ashlock, president and market manager of Clear Channel Radio. The reason for the collapse was not immediately clear but was believed to be construction-related, he said. Clear Channel, which operates KFI-AM radio, contracted with Seacomm Erectors, Inc. to build a 684-foot-tall tower at 16608 Trojan Way. Construction began on Saturday and had risen to about 250 feet by Tuesday when the tower came crashing down around 2:30 pm. The tower was meant to replace a 760-foot-tall tower that was toppled in December 2004 when a small plane crashed into the tower on approach to Fullerton Municipal Airport — less than two miles southeast of the tower. A couple was killed. In recent months, Fullerton airport and city officials joined

with local pilots in protesting plans for the tower's reconstruction, saying it was too tall and would pose a hazard to pilots. They didn't want the new tower to rise more than 500 feet. The La Mirada City Council unanimously approved the new tower in January. KFI officials expected the construction would take about four weeks. Ashlock said it's not immediately clear how the collapse will affect that timetable. KFI continued to broadcast from a 200-foot-tall temporary tower on the same property, so the collapse did not interrupt the radio station's signal. The new tower will provide a stronger signal. (RW-NM)

**Pat Martin** sends along the following from Deane McIntyre of Calgary, AB dated 3/19/08:

Last year the move of CFWB-1480 to FM was approved by the CRTS however they were required to find another frequency as their proposed use of 106.1 was denied. There use of 99.7 MHz, 6KW, has now been approved so I expect that they will be gone from AM in the not too distant future. <http://www.crtc.gc.ca/archives/ENG/Decisions/2008/d2008-64.htm>. Use of frequency 99.7 MHz by the new FM radio station in Campbell River.

1. The Commission approves the application by Vista Radio Ltd. to operate its new English-language commercial FM radio programming undertaking in Campbell River at 99.7 MHz (channel 259A) with an effective radiated power (ERP) of 6,000 watts. The applicant had originally proposed to operate its new station at 106.1 MHz (channel 291B) with an average ERP of 663 watts.

2. The applicant filed this application further to the Commission's direction in CFWB Campbell River, British Columbia — Conversion to FM band. Broadcasting Decision CRTS 2007-343, 30 August 2007. In that decision, the Commission stated that it would only issue a licence for this station provided that the applicant submitted, within three months of the date of that decision, an amendment to its application proposing the use of an FM frequency and technical parameters that are acceptable to both the Commission and the Department of Industry (the Department). (PM-OR)

**Pat Martin** send along the following dated 3/19/08 (arguments earlier: KFI-640 info from ye ed):

Everyone on the list knows that KFI's 750 tower was hit by a plane on Dec. 19, 2004 and fell to the ground. And everyone has been waiting for KFI to rebuild its main tower. Yesterday, as construction of the replacement 650 foot tower -- with "Top Hat" was just about to reach the 300 foot mark -- a sudden "Single Point" tower failure caused the tower to again collapse. Only minor damage to some vehicles and a warehouse and only one worker with a minor injury. More to follow. (PM-OR)

**Dale Park** sends along the following from the Philadelphia, PA Inquirer dated 3/19/08:

WPNZ to carry ESPN radio shows. By Michael Klein, INQUIRER STAFF WRITER  
Sports-talk station WPNZ (950) will become the local ESPN affiliate. The station will call itself "950 ESPN" and today will announce the first piece of its new programming: ESPN's national Mike and Mike morning show, which retired Eagles lineman Mike Golic hosts with SportsCenter anchor Mike Greenberg. It's one of the top-rated shows in the country, heard on more than 300 ESPN affiliates and simulcast on ESPN2. Debut will be 6 am April 1. WPNZ will air three of its four hours. The move breaks up WPNZ's morning team of Glenn Foley and Michael Bradley. Foley was let go. Bradley and station manager Bob DeBlasio said today that Bradley would remain at WPNZ in some capacity. Bradley said that freeing him from the morning show would allow him to remain for writing. WPNZ management said the rest of the station's lineup would be announced Friday. WPNZ, a heritage station in Philadelphia, has aired a mix of local and syndicated sports talk since October 2005, with little success in the ratings. Among its target audience of men ages 18 to 49 in January's Arbitron ratings, WPNZ drew a 0.7 share and a weekly cumulative audience of 61,800. Its competitor, WJIP (610), pulled a 4.6 share and a "cumme" measured at 174,400. The bright spot in the ratings, afternoon host Jody McDonald, is expected to remain with the station, perhaps for a midday shift. McDonald's show drew 40 percent of total WPNZ's cumulative audience among men ages 18 to 49 in the last ratings period. For all its national success, ESPN has had a tenuous link to the Philadelphia market. Nassau Broadcasting had a station running ESPN's national radio feed at 920 on the AM dial. In early January, Nassau moved the ESPN programming to its station farther north, in Flemington, N.J. at 1040 AM. That station now carries ESPN's New York programming. **Ye editor** along with **Dale Park** sends along the following from the Palm Springs, CA Desert News dated 3/23/08:

March 23, 2008, Coachella Valley's beloved radio station is just moving on the dial, Rozene and Ric Supple, Special to The Desert Sun

During the last few months, some confusion has come about regarding our purchase of KWXY-FM, the disposition of KDES-FM and KPTR-AM. We'd like to clarify what will be taking place and thank everyone for expressing their concern. As you will see, things will work out well for all the valley's listeners. In the next few months KWXY-FM will move to its original AM location on the dial, 1340, with the same wonderful and beautiful music format. We are pleased to keep the high standards set by Glen Barnett since 1962, as a traditional part of radio listening in the valley. KDES-FM will move to 98.5 FM and continue the Greatest Hits of the '60s, '70s & '80s. KDES has been a tradition in the Coachella Valley for more than 50 years, and we're proud to keep its high standards alive and well, as the station begins its second half-century in music and good times. KPTR-AM, the Valley's Progressive Voice, will move to 1450 AM, replacing KGAM, which will cease operations. The popularity of KPTR has proven itself to be something desired by many listeners, and we are pleased to offer programming to those many new fans. As you can see, we are rearranging the locations of three stations on the dial and eliminating KGAM. Its programming was very similar to what we have on KPSI-AM, the conservative point of view in talk. Since KPTR presents the progressive side of talk, we feel it is better to provide both points of view on the airwaves in the valley. We sincerely appreciate the great cooperation of Glen Barnett and the team at KWXY, all of whom we respect and admire. We are pleased to clear up any confusion about the beautiful music station; it is not going away. It's our hope that all the fans of KWXY will join us in welcoming them back to their original home at 1340 on the AM dial, when they officially go on the air in the near future. Thank you all for your support, and we look forward to continuing to bring you the best in radio programming in the Coachella Valley from RR Broadcasting, Rozeze and Ric Supple are the owners of RR Broadcasting and The Camelot Theatres in Palm Springs, where they reside. (RW-NM)

**Pat Martin** sends along the following from Radio World dated 3/24/08:

Brought to you by: Radio World Newspaper, The Newspaper for Radio Managers and Engineers, DOJ Okays Sirius-XM

The Department of Justice has approved the XM-Sirius merger. After more than a year of deliberation, and examining reams of documents, the DOJ said in its decision today it decided "the evidence does not demonstrate that the proposed merger of XM and Sirius is likely to substantially lessen competition, and that the transaction therefore is not likely to harm consumers." The DOJ continued, "The division reached this conclusion because the evidence did not show that the merger would enable the parties to profitably increase prices to satellite radio customers for several reasons, including: a lack of competition between the parties in important segments even without the merger; the competitive alternative services available to consumers; technological change that is expected to make those alternatives increasingly attractive over time; and efficiencies likely to flow from the transaction that could benefit consumers." The FCC has yet to release its decision. (PM-OR)

**Pat Martin** sends along the following from Deane McIntyre of Calgary, AB dated 3/26/08:

CBDS-690 Pukatawagan MB has applied to the CRTC to move to FM (102.5 MHz, 0.2 kW, 24.6 metres). Get this 40 watt relay of CBWK-FM (carries CBC Radio 1 network) before it is too late.). Manitoba is on Central line so CBC network programming on CBDS-690 will be generally two hours ahead of CBU-690. I wonder what the CBDS xmitter site is contaminated with? PCBs from an ancient leaking oil capacitor in the xmitter? <http://www.crtc.gc.ca/archiv/ENG/Notices2008/pbz2008-25.htm#4>.

4. Pukatawagan, Manitoba, Application No. 2008-0320-7. Application by the Canadian Broadcasting Corporation (CBC) to amend the licence of the English-language radio programming undertaking CBWK-FM Thompson, Manitoba. The CBC proposes to convert its AM transmitter CBDS Pukatawagan, Manitoba to the FM band to broadcast the programming of its Radio One service originating from CBWK-FM Thompson, in order to serve the population of Pukatawagan. The transmitter would operate on frequency 102.5 MHz (channel 273A1) with an effective radiated power of 200 watts (non-directional antenna /effective antenna height of 24.6 metres). The CBC advises that the FM transmitter is intended to replace its existing AM transmitter CBDS and that recently the Mathias Colomb Cree National Chief and Council advised the CBC that the CBDS site is contaminated and they will proceed to decontaminate it by June 2008. The CBC indicates that the FM transmitter needs to be operational by this date. The CBC is also requesting to amend the licence of CBWK-FM Thompson by deleting the AM transmitter CBDS Pukatawagan. (PM-OR)

The LaRues San Joaquin Broadcasting Co.'s KSTN-AM and FM have been sold to Independence Media Holdings of Dallas, TX for \$24.25 Million. Who would have thought it would happen? Changes, Changes, Changes... What's next for the two stations format wise? (PM-OR)

**Pat Martin** sends along the following from Paul LeFreniere of Grand Marais, MN dated 3/27/08:

Guess I have not been paying attention the past few weeks, but noticed tonight that WIL-1430 has changed to KZQZ. Lots of blurtos about history being made in the Gateway city on April 1st. Going to oldies. But they are already playing oldies. Another historic 3 letter call down the tubes. (PM-OR)

**Dale Park** sends along the following from the Edinburgh, Scotland Evening News dated 3/10/08:

Change of format in the air for Talk 107. By CHRIS MARSHALL

EDINBURGH's all-talk radio station could be set to change its format after the sudden departure of its programme director. Controversial DJ Mike Graham parted company with Talk 107 at the weekend. It is believed his departure could be a sign that the station is set to move away from the all-talk format. Mr Graham, who presented the independent Republic show every weekday from 9am to noon, said today: "We have parted company and we are currently negotiating an amicable settlement. I have had a great time there for the last two years and I will miss broadcasting to Edinburgh very much – but it's time to move on." The

former newspaper editor joined the station as a presenter in February 2006 and became programme director later that year. Describing himself as "President of his own Independent Republic," his show was among the most popular on the station, and it saw him clash with politicians at both local and national levels. Mr Graham hit the headlines in November after swearing at guests during an event for a cancer charity. Marie Curie Cancer Care was forced to apologise after the outspoken presenter's outburst in front of an audience of 300 before he hosted a round of a charity quiz. He defended his actions, saying he had not intended to offend guests at the corporate Brain Game event and simply wanted to "liven it up a bit". In January, Talk 107 reported an increase in the number of listeners tuning in for at least five minutes during an average week. The station scored Scotland's biggest percentage increase between summer and the final three months of 2007. However, the rise of 20.7 per cent accounted for just 6000 more listeners – a total of 35,000 – as the available audience is only 1.2 per cent of the overall market. In contrast, Edinburgh station Forth One was listened to by 14.2 per cent of its available audience – up from 13 per cent. It is understood that Mr Graham left after meeting the Talk 107's managing director Matt Allitt at the weekend. Mr Allitt has been managing director of the station since the departure of Peter Gillespie from the post in November. The station's other presenters include Respect MP George Galloway and former TV presenter Dominik Diamond. (DP-HI)

WWRL cuts liberally into Air America. By DAVID HINCKLEY

WWRL (1600 AM), flagship of the progressive radio network Air America for the last 18 months, dropped the flag to half mast Monday by bumping three Air America programs, including midday hosts Lionel and Thom Hartmann. (DP-HI)

**Pat Martin** sends along the following dated 4/2/08:

Copper Thieves Knock Radio Stations Off The Air

Copper thieves strike again: this time stripping copper pipe and wire from a radio transmission tower. The dangerous heist knocked two radio stations off the air. On April Fool's Day, Dave Brewer usually plays a prank. This time he changed the format of the radio station. But on Monday, 1140 and 1160 AM really did go off the air. "On the way back from lunch we heard nothing and we thought, 'Uh oh, the storm must have gotten to it,'" Brewer, KCTO/KCLX manager, said. But when the engineer went out to the towers near 251st and State Line Road, it was clear this was not storm damage. "They took bolt cutters and took the locks to the fences at the tower bases, that's how they got into them," Brewer said. They took all the copper from two of the towers, probably sold as scrap metal and the thieves probably made a couple hundred dollars and since it happened in a rural area, it's unlikely there were any witnesses. Worst yet for KCTO and KCLX, the outage happened during the popular Alex Jones show. "When you displace him for any reason the phones light up like a Christmas tree," Brewer said. The crew has been scrambling to get back on the air and the general manager explained the situation to listeners who could hear him. The engineers still have some fine tuning to do for the next day or so and they're asking listeners for some patience. "They could be hearing it on the moon for all I know and deader than a doornail in Grandview," Brewer said. If you know anything about the theft, call police or the Tips hotline. And the thieves should know the radio station is replacing copper tubing with steel, so they're not going to get anything if they return. (PM-OR)

**Pat Martin** sends along the following from Paul Walker, Jr., dated 4/4/08:

MAPLETON COMMUNICATIONS is swapping the formats of its Sports KJRBA (790 THE FAN) and Talk KGA-A/SPOKANE on MONDAY (4/7), with the Talk format taking KJR's 790 AM slot and sports moving to KGA's 1510 AM signal. GONZAGA UNIVERSITY basketball remains on the 1510 frequency. The move comes two days before the SPOKESMAN-REVIEW begins feeding hourly news reports on the stations with market veterans DAN MITCHISON and DICK HAUGEN

Sincerely, Paul B. Walker, Jr., [walkerbroadcasting@gmail.com](mailto:walkerbroadcasting@gmail.com). (PM-OR)

**Pat Martin** sends along the following from Martin Foltz of Mission Viejo, CA dated 4/7/08:

I've been out to the Palm Springs area several times in the past month and this past weekend I listened to the radio more and took down some notes. Dates are April 5-6.

1450 ESPN Radio on weekends, talk during the week, Angels baseball (PM-OR)

**Frank Aden** of Boise, ID sends along the following from the Boise, ID Statesman dated:

**RADIO DEAL MAY SIGNAL THE END OF AN ERA**

The Voice of the Broncos is saddened, but not shocked, by BSU's decision to change stations By Chadd Cripe, [cripe@idahostatesman.com](mailto:cripe@idahostatesman.com)

Paul J. Schneider experienced a range of emotions Thursday when Boise State athletic director Gene Beleymaier called to inform him that KBOI would no longer broadcast Broncos football and men's basketball games. Disappointment. Sadness. A touch of disbelief. But never anger, and never shock. Schneider saw this day coming - the day his run of 35 years as the Voice of the Broncos might have ended. Boise State awarded its radio contract to Peak Broadcasting instead of Citadel, the company for which Schneider works. Citadel's KBOI had held the Boise State contract for 35 years. "It's obviously been a great part of my life," Schneider said. "Obviously I'm closely identified with Boise State. I feel bizarre right now. I kind of thought it was coming, but it's kind of like when you have someone who's not doing good and not expected to live long and when they die, you go "Whoa." And that's kind of where I am." "I thought I'd do it until I turned into Harry Carey and I couldn't see anymore". Peak didn't name its on-air talent for the broadcasts which will air on KIDO (580 AM). Boise State will have input. "We haven't got there yet," said Kevin Godwin, the senior vice president of Peak Broadcasting. "We've got a whole mess of things to do now". Nobody was ready to call this the end of the Schneider era. It is possible, at least, that he could move to Peak and continue as the Voice of

the Broncos. However, that possibility seems remote. Sandy Gambin, the market manager for Citadel, figures Schneider called his last game when the Boise State men's basketball team lost to Louisville in the first round of the NCAA Tournament last month. "That would appear to be the case," Gambin said. Schneider actually has connections at Peak, which has a couple of former KBOI employees in key positions-including Godwin. "I have great respect for Paul J," said Godwin, who worked at KBOI for about seven years. "He's a class act, I enjoyed my time working with him... I don't know what's going to happen, but Paul J's one of my favorite guys." On-air talent was not a factor in determining the best radio bid, Bleymler said. However, it was difficult for the five-man committee to cut such lengthy ties with Schneider and KBOI, he said. Boise State fans often seemed divided over Schneider. Some loved his passion and considered him as much a part of the Broncos as Lyle Smith and the blue turf. Others lamented his tendency to make mistakes by calling the action a little too quickly. "He's been the Voice of the Broncos for 35 years and done a tremendous job," Bleymler said. "He's called every play we've had in those 35 years. That's obviously very significant and we're very appreciative to Paul J. for his dedication and his service." Schneider, 65, graduated from the University of Idaho in 1966 with a degree in communications and a dream of calling play-by-play. He arrived at KBOI in 1968 and practiced his craft by working high school games. In 1973, he became the Voice of the Broncos- the same year Boise State won its first Big Sky Conference title. He has been with the Broncos for a Division I-AA national title, seven conference titles at the Division I-A level and eight bowl games, including the world-famous Fiesta Bowl. "People change jobs and move up to bigger schools, and I did all that without having to move," Schneider said. "I really enjoyed it. I'd go out with the assistant coaches and older players to parties. Then I started going out with the head coaches. Eventually I just went to bed." And now he is struggling how to say good night. He was planning to retire from his morning radio show on KBOI this summer, but Thursday's news has him reconsidering. If he is finished, he could spend more time at his Montana ranch and with his wife, Tamara and 15-year-old daughter, Natalie. "You always like to be able to control your own destiny," he said. "I see that big new press box sitting up there and I'll never work in it, and that's kind of sad". (FA-ID)

**Pat Martin** sends along the following from Doug Smith of Pleasant View, TN via NRC reflector dated 4/14/08: A post on [www.radio-info.com](http://www.radio-info.com) is reporting that XETRA-690 Tijuana has changed calls to XEWW. (PM-OR)

**Dale Park** sends along the following from the Palm Beach, FL Post dated 4/14/08: Radio host Rhodes returns to West Palm, By CHARLES PASSY, Palm Beach Post Staff Writer, Monday, April 14, 2008. The Goddess has truly come home.

Following her departure from the liberal Air America talk network last week, controversial host Randi Rhodes is bringing her nationally syndicated afternoon drive-time show back to WJNO-AM 1290 in West Palm Beach, starting today. But this time, she's not just being heard on WJNO, which is owned by media giant Clear Channel. She's producing the show from her former employer's studio. "We have our biggest star back," said WJNO Programming Director Brian Mudd. Dubbed "The Goddess" by her loyal listeners, Rhodes, who worked for WJNO for 10 years starting in 1994, gained fame for her tell-it-like-it-is brand of leftist politics. That prompted Air America to hire her when the network debuted in 2004. Rhodes stayed on the air at WJNO in the years that followed, but through Air America. She also became a national personality, seen on billboards and TV news shows. The bottom line, Rhodes says of her return to West Palm Beach: "She'll still be her usual loud and feisty self on air. And she'll still be speaking to a national audience, not necessarily a local one. But she no longer has to schlep back and forth between New York and Palm Beach County, where she kept a home during her Air America tenure, to do what she loves. "I just grabbed my dog" and came to West Palm Beach, Rhodes said of her sudden decision to base herself year-round in the area. Her show is being syndicated by the Nova M Radio Network, an emerging competitor to Air America in the talk radio world. Well, the decision wasn't all that simple. Rhodes quit Air America after a high-profile dispute with the network that was covered by such media outlets as The New York Times and The Wall Street Journal. Air America suspended Rhodes on April 3 for making what network executives deemed "inappropriate statements" about Sen. Hillary Clinton, D-N.Y., at a recent comedy performance in San Francisco. Rhodes said the dispute was sparked by employment discussions with Air America and that her remarks during the performance weren't the integral issue. She added that when Air America suspended her, she thought it meant her contract was terminated. So she quit to "clear the way" for future radio opportunities. That was on Wednesday night. By Thursday and Friday, Rhodes was hammering out a deal with her new syndication company, talking to her 20-plus affiliate stations across the country about continuing to air her program (most have agreed to do so) and even going on Larry King's CNN show to discuss her situation. That left Saturday to fly from New York to West Palm Beach and Sunday to reacquaint herself with the WJNO staff and get her show up and running again. "What usually takes months took days," Rhodes said. The show will air in its usual Monday-to-Friday time slot of 3 to 6 pm, following Rush Limbaugh, who might be called the conservative Yin to Rhodes' Yang. The two are more than radio neighbors, however: Limbaugh is also based in Palm Beach County. (DP-HI)

**Dale Park** sends along the following from the New York City, NY Daily News dated 4/14/08: Air America confident it's still on course, By DAVID HINCKLEY, DAILY NEWS STAFF WRITER, Monday, April 14th 2008, 4:00 AM

Like American Airlines, Air America insists it's still flying. Even though not everyone in radio would put it that way. WABC (770 AM) program director Phil Boyce, who has built the most popular newstalk station in the country, tends to get a bemused tone when the progressive network comes up. "You know," he'll say, "if you guys didn't write about Air America, it would be invisible." After Randi Rhodes left Air America last week, Boston University offered media writers an analysis from professor Tobe Berkovitz, who said, "Without the press coverage no one would know Rhodes is gone. No one listens to her." Air America is aware of those dismissals. It's aware it has not yet mounted the powerful progressive challenge to conservative radio that it envisioned when it launched March 31, 2004. Air America isn't heard in several major areas, and many affiliates either have weaker signals than their conservative rivals or only carry some network shows. Its flagship in New York, WWRL (1600 AM), has only been carrying Rhodes, 3-6 pm, and Rachel Maddow, 6-8 pm, from Air America's weekday daytime lineup. Now the last original daytime host, Rhodes, is gone. At 3 pm today she becomes a competitor. It hasn't been an easy ride for Air America, which has too often made news

for the wrong reasons, like financial problems. But the network vows it is here to stay, and will only get better and stronger. For all its missteps, it feels it has proven there is a radio audience for an alternative to Rush Limbaugh, Sean Hannity and other conservative talkers. "I can't tell you how many calls I get," Rhodes said last year, "from people who say, 'Thank God you're here. I thought I was all alone.' Look at polls, look at elections. A lot of people in this country aren't Republicans." What remains to be seen is whether Air America, or other progressive talkers like Ed Schultz (now heard noon-3 pm on WWRL), can mobilized their sympathizers on the radio the way conservatives are drawn to Rush, Sean, Mark Levin and Michael Savage. The most optimistic argument for Air America is that it takes time - that conservative radio took more than a decade to reach its full prominence and that for every star it developed, a hundred others never broke through the pack. By that measure, Air America is still young, and the network feels it now has a lineup - even before it makes a replacement for Rhodes - that can get traction. "Look, we've had problems," says a source at Air America. "But with the Lionel, Thom Hartman and Rachel, we're in better shape than ever. They're smart, entertaining and they know radio." (DP-HI)

**Mike Sanburn** along with **Pat Martin** send along the following from Paul B. Walker, Jr. dated 4/15/08: Tiny little KBSZ 1250 Wickenburg, AZ which is about 50 Miles NW of Phoenix is moving under the new owners. The move was granted March 13, 2008. It's moving from 1250KHz with 350 Watts Day, Non Directional and 100 Watts Night Non Directional in Wickenburg To 1260KHz with 320 Watts Day Non Directional and 50 Watts Night Non Directional with the City of License as Apache Junction. It's proposing to use a tower just south of East Microwave Road. It looks like this might be an existing site already for another broadcaster. Wickenburg has 2 full power FM's licensed to it already, so it is "ok" to move the AM station. (MS-CA and PM-OR)

**Dale Park** sends along the following from the Redding, CA Record-Searchlight dated 4/2/08 with an addendum from 4/6/08: Redding Radio drops ESPN, Music station KPIG to fill the former sports-talk slot, By Aaron Williams (Contact), Wednesday, April 2, 2008

The San Francisco Giants, the Sacramento Kings and sports talk radio in Redding are going bye bye, baby. Redding Radio will drop its ESPN affiliate, KNRO 1670 AM, April 18 in favor of KPIG, a music station. The decision announced Tuesday by General Manager Ron Hren leaves a hole in the batting order for legions of sometimes rabid sports talk radio fans. "We realize we can't have every (radio) format," Hren said. "We regret not having ESPN, but believe KPIG will be tremendous for our audience. We think it's going to cause a positive reaction." The first sign Mapleton Communications, owners of Redding Radio, was dropping the sports talk format surfaced Monday when the station failed to broadcast the San Francisco Giants opener for the first time in more than a decade. Redding Radio received more than two dozen phone calls asking where the game was. The loss leaves a hole in the north state radio market. Gone will be ESPN stalwarts Colin Cowherd, Stephen A. Smith, "Game Night" and "All Night." Also gone will be the "Jim Rome Show." KNRO also airs Kings games. It used to broadcast San Jose Sharks, hockey games, and University of California at Berkeley football games, in addition to the World Series, NFL playoffs, the Super Bowl, and a host of college championships. It also delved into local sports when George Tharison would broadcast Shasta College and high school games. Tharison also created a local noon sports talk show, "The Cheap Seats," carried on by KNRO program director Duane Davis as "In the Game," after Tharison left for the East Coast. The closest ESPN affiliate is in Chico, which airs on 101.7 FM, while KNTK, 102.3 FM in Mount Shasta, broadcasts Oakland Athletics games. Both signals are spotty in Redding. KPIG bills itself as "Americana" radio, with eclectic music and a live DJ. It originates in the Santa Cruz-Monterey area, but can also be heard on 96.7 FM out of Paradise, owned by Mapleton. "In the media business you want the largest audience," Hren said, "and in every market, we've had the same (positive) reaction." Hren said the move to the ESPN station wasn't a condemnation of sports talk radio, but that KNRO was a frequency the company felt it could better utilize. The change is among several since Mapleton Communications took over the six-station cluster. They include dropping Jim Albertson from morning duties on Oldies 105.3, dropping "In the Game" on ESPN Radio, and replacing "Don and Linda in the Morning" on K-SHASTA in favor of John Tesh's syndicated show. Redding radio legend Jerry McGee also was let go. And the morning format of KQMS, the cluster's news station, brought back Ray Roberts, only to switch formats less than six months into the "By the Way with Erin and Ray" show. Rick Healy, operations manager for Results Radio, said Redding's other radio cluster has not had any discussions about picking up the format on one of its stations. Sports Editor Aaron Williams can be reached at 225-8229 or [awilliams@redding.com](mailto:awilliams@redding.com). (DP-HI)

**Dale Park** sends along the following from the Denver, CO Rocky Mountain News dated 4/6/08: RADIO LINES: The Fan will continue to simulcast on KJCD-FM (104.3) and KKFN-AM (950), through the Nuggets and Avalanche seasons. Initially, the Fan planned to vacate the AM position March 31. "We think our fans and advertisers are very familiar with the AM frequency," said Bob Call, vice president and general manager of the local Lincoln Financial Group stations. "We'll make the change later this spring." When that happens, look for KPEN-AM (1600), the ESPN outlet, to move to the 950 position. So what happens to the 1600 frequency, often a broadcasting joke because of its poor signal? Possibilities include a return to classic country, a business radio format or ESPN in Spanish. (DP-HI)

(Note: One article from a contributor was not included in the column due to the controversial nature of the subject-Ye Ee!)

- 1270 KLXX **ND**, Bismarck-Mandan 3/28 2256 Jim Bohannon Show, ID as "Super Talk 1270, KLXX-AM, Mandan-Bismarck," ads, into local news. (NP-AB)
- 1280 (KFRN) **CA**, Long Beach 4/24 0700 completely off! Still noted off at 1020. (MS-CA)
- WGBF **IN**, Evansville 3/28 2300 though a jumble at the hour with ID as "Newstalk 1280 WGBF," then into ABC news. (NP-AB)
- KDOX **NV**, Henderson 4/24 0834 ID "Fox News 1280 KDOX." (MS-CA)
- KRZE **NM**, Farmington 4/24 0754 in & out with Spanish spot for nightclub in Farmington. Often dominant. (MS-CA)
- KZNS **UT**, Salt Lake City 4/2 0020 sports talk, many "The Zone" slogans. Big and strong, like a local on R-390A with N-S wire. Day power? (GH-OR)
- + 4/24 0806 call letters given, "The Zone" slogan, Utah Jazz promo. (MS-CA)
- KMKY **CA**, Oakland 4/17 1020 usual Disney programming with many "Radio Disney" slogans. Fair. (AB-ID)
- 1330 KNSS **KS**, Wichita 4/16 fair on top with "Newsradio 13-30 KNSS Wichita" ID at 0349:50. (PM-OR)
- 1340 KPGE **AZ**, Page 4/21 0905 with "Lake Powell Country AM 1340." (BB-AZ)
- KTPI **CA**, Mojave 4/17 0900 with "KTPI" ID. (BB-AZ)
- 1350 KTIK **ID**, Nampa 4/12 0020 ID & sports talk. Weak over KRLC from time to time. (GH-OR)
- 1360 KOHU **OR**, Hermiston 4/5 0015 ID into C&W. Deep slow fades on R-390A with E-W wire. Mexican pest strangely absent tonight. (GH-OR)
- 1380 KLPZ **AZ**, Parker 4/18 0719 good with spot for Zoom Credit, ID, C&W music. (MS-CA)
- KSRV **OR**, Ontario 4/3 0000 ID into news. Very weak and barely above KRKO on SP-600 with N-S wire. Seldom heard. (GH-OR)
- 1400 KTUC **AZ**, Tucson 4/16 2200 with ID "KTUC Tucson." (BB-AZ)
- 1420 KUJ **WA**, Walla Walla 3/25 0030 faint ID in the soup barely above KTTI and unid sports talker, on R-390A with N-S wire. Becoming a regular. (GH-OR)
- 1430 KEZW **CO**, Aurora 4/11 0845 with "Studio 1430" (BB-AZ)
- 1450 KVML **CA**, Sonora 4/13 0906 good with mentions of Sonora & Calaveras County. (MS-CA)
- KBKW **WA**, Aberdeen 3/24 0905 in and out with KONP, coming on top at 0907 with time check during local news, "KBKW news time is 6:07," then ad and into sports and weather. (NP-AB1)
- 1460 KZNT **CO**, Colorado Springs 4/14 with ID at 0859:50 "Where your opinion counts, Newstalk 1460, KZNT Colorado Springs," into net news, then lost in the jumble. 4/24 0659:50 "...all day, every day..." News... 14-60 KZNT Colorado Springs." (PM-OR)
- KLTC **ND**, Dickinson 4/24 fair on top of jumble at 0506 with man saying "K-L-T-Ci" then lost in the jumble. (PM-OR)
- 1480 KBMS **WA**, Vancouver 3/24 0900 ad string, ID ad 1304 as "1480 KBMS, Vancouver-Portland." QRM from KRXR, which seemed to jump in strength at 0902 (power change?). (NP-AB1)
- 1490 KWOK **WA**, Hoquiam 3/24 0859 ESPN programming, ID just before the hour as "Grays Harbor's only sports radio station, ESPN Radio 1490 KWOK Hoquiam-Aberdeen." (NP-AB1)
- 1520 KOKC **OK**, Oklahoma City 4/17 2306 ID "Talkradio 1520 KOKC" repeated several times, promos, then Michael Savage show. (MS-CA)
- 1540 KMPC **CA**, Los Angeles 3/22 0857 in Korean, mixing with Spanish from KPXA, gave ID "Radio Korea" at the hour, and KMPC a short while later. (NP-AB1)
- 1580 KCHA **IA**, Charles City 3/15 2012 ID "...all the information you need, we're AM 1580, KCHA," then into Abba song. (NP-AB)
- 1680 KGED **CA**, Fresno 4/3 0947 man with "Legends, KGED" slogan/ID into music. Ex-KAVT. (AB-ID)

Thanks to our reporters this time around. Looking out at the May snowfall it's hard to believe its May and the DX season is drawing to a close. Nancy 5/2 2100

**LOGGINGS**

- 540 MD WGOP Pocomoke City. 4/6 1649-1705. Oldies "Your home for timeless favorites. Bob Lawrence here with you." ...tell them it's 540 WGOP" ... 1700 "ABC News Now (KK-VA) "Timeless favorites."
- NL CBT Grand Falls. 4/22 2024. //CBN-640, discussion of the human voice, evolutionary reasons for male/female pitch differences; good.
- 570 NL CFCB Corner Brook. 4/22 2033. //VOCM-590 and CKGA-650 with "VOCM Satellite Weather", forecast for various Newfoundland locales, flurries mentioned; over WMCA.
- 590 NL VOCM St. John's. 4/22 2033. //570, 650 with "VOCM Satellite Weather" mixing with and occasionally atop WEZE.
- 600 NL CBNA St. Anthony. 4/22 2038. //CBN-640, CBC program with brief segment of Beatles' "All My Lovin'", then "You're listening to 'Ideas' on CBC Radio One", over domestic that was likely WICC. (MC-MA)

- 630 KY WLAP Lexington. 03/22 2334. At 2330 ID: "WLAP, news radio 630" then into FOX news. At 2334 a repeat ID and then into a rerun of Sean Hannity repeat program from St. Patti's day. QRM from WMAL Rapid QSB. (WM-TN)
- 640 NL CBN St. John's. 4/22 2013. //CBGY-750 with CBC talk about the development of human and animal vocal abilities, relationship to mating; good, way over WNCZ & LA's, some Spain-639 het. (MC-MA)
- 650 NL CKGA Gander. 4/22 2022. //CHCM-740 with discussion of regional transportation issues; good peak, way over WSRO. (MC-MA)  
+ 4/22 2112. "green tea from Tetley, Newfoundland's favourite tea", VOCM 20-20 Weather. (MC-MA)
- 740 NL CHCM Marystown. 4/22 2019. Discussion of Stephenville airport, advert for Marystown Ford; loud/dominant. Only audio noted under turned out to be Brazil. (MC-MA)  
+ 4/22 2103 - advert "M&M Quick Copy, M&M Printing your one-stop photo shop in Marystown (phone 279-3444) and Fortune (phone 832-2992)"; local-like, completely dominant. (MC-MA)
- 750 NL CBGY Bonavista Bay. 4/22 2019. CBC programming; mostly over YVKS Caracas. (MC-MA)
- 780 NS CFDR Dartmouth. 4/22 2103. Male C&W vocal "time for leavin'", "You're listening to 20 in a row just the way you like 'em, pure country classics, real country classics, accept no substitute, classic country 780 Kixx", then Elvis Presley "Don't Cry Daddy"; local-like. (MC-MA)
- 790 NL CFWW Port au Choix. 4/22 2106. //CHCM-740 with C&W song; under WSKO, over Venezuela. (MC-MA)
- 800 NL VOWR St. John's. 4/22 2101. Smooth-voiced woman mentioned an event with a \$15 ticket price at a St. John's club, call the St. Mary's church office at 579-0033. then soft piano jazz; a bit over PJB/CJAD. (MC-MA)
- 810 NB CJVA Caraqueet. 4/22 2019. French and English language C&W songs; strong, dominant. (MC-MA)
- 900 NS CKDH Amherst. 4/22 2037. "900 CKDH" ID, weather, another ID "Your community, your radio station, 900 CKDH", the Sheryl Crow "Everyday is a Winding Road"; good/dominant. (MC-MA)
- 920 NS CJCH Halifax. 4/22 2007. "This Diamond Ring" by Gary Lewis & the Playboys from '65, then CJCH jingles; local-like (no evidence of WLUJ or CKNX) (MC-MA)
- 940 TN WECC Wartburg. 04/17 1820. '940, WECC. Southern gospel at its best" playing gospel songs I don't know the name of. Very weak. (WM-TN)
- 950 NB CKNB Campbelltown. 4/22 2008. "Your community, your radio station, 95 CKNB", then Steely Dan "Reelin' in the Years"; fair, dominant. WROL in SuperLoop southwest null - barely noticeable. (MC-MA)
- 990 NL CBY Corner Brook. 4/22 2011. CBC documentary, over fast Spanish-talk sports (SER or Venezuela?). (MC-MA)
- 1000 AL WNSI Robertson. 04/07 2215. Two ID's given: "WSNI is ranked #1." and "WNSI AM and FM is number 1" Don't know if this was, some type of transmitter test or what. No program detail was heard. QRM from a Spanish station, XEOI???. No ESPN on WMVP out of Chicago was heard. (WM-TN)
- 1070 IN WFIN Indianapolis. 04/06 2355-0105. Trying for CBA DX Test. Only heard WFIN with "ESPN Radio""ESPN Radio. This is... Sports Center... ten seventy The Fan." "This is Indy Sports Center ten seventy. The Fan. WFIN Indianapolis" into ESPN Radio Sports Center. (KK-VA)
- 1080 CT WTIC Hartford. 04/07 0335. Coast to Coast AM, w/George Noorey w/KRLD. (WM-TN)  
TX KRLD Dallas. 04/07 0332. "No one does it better. 1080, K-R-L-D." Mixed with WTIC and WJKJ. This station should not be heard here at this time of morning. They are not strong enough to dominate the frequency but are causing fits to WTIC. Probably doing transmitter testing. (WM-TN)
- 1140 NS CBI Sydney. 4/22 2002. "on our website **cbcnews.ca**", talk about Bank of Canada; slightly over Venezuela. (MC-MA)
- 1210 NL VOAR Mt. Pearl. 4/22 1958. "Insight for Living" religious program, mention of life lessons for women, website "**insightforliving.ca**", phone number 1-800-6637639; good, or WPHT & LA's (but adjacent Virgin R. 1215 was even louder). (MC-MA)
- 1230 NL CFCN Port aux Basques. 4/22 2051. C&W music, advert. "... proudly supported by CFCB" (= Newfie network); over null'd WESX (Portuguese) and unID with Red Sox game. (MC-MA)
- 1240 ME WSYX Millinocket. 4/22 2056. "Keep your sox on all season long on your home for Red Sox baseball in the Katahdin area and the Lincoln Lakes region, the Mountain 94.9. Adverts for Millinocket businesses followed. Good, over WBUR/WCMM. (MC-MA)
- 1260 NB CKHJ Fredericton. 4/22 2044. "Canada's #1 spot for Motorsport news", CKHJ ID; in head-to-head duke-out with WMKI R. Disney. (MC-MA)
- 1270 NS CJCB Sydney. 4/22 2047-2050. C&W female vocal, talk about charity auction sponsored by Sydney Mazda, sometimes over WTSN ballgame and 1269 Germany het. (MC-MA)

1630 IA KCJJ  
 VA -----  
 Iowa City, 4/01 0159. Mixing with WRDW and TIS "Broadcasting straight from Coraville... sixteen thirty KCJJ Iowa City/Coraville.... KCJJ news..." After news KCJJ playing popular songs. ABC news @ 0259. (KK-VA)  
 Manassas Northern Virginia Community College (NVCC). 03/30 0203. Mostly hearing the NVCC TIS. Location is near Route 66, Route 234 and Bull Run Battlefield. "Northern Virginia Community College... Manassas Virginia..." continued with parking information (at this time of the morning?) 0203 "You're listening to sixteen thirty AM. Licensed to Northern Virginia Community College Manassas..." (KK-VA)

**D X T E S T S**

1480 OH WHBC  
 Akron. 3/29 0255 0405. Trying for WHBC DX Test. Mostly hearing WPWL since they are close to my QTH. However at 3:16 AM and 3:58 heard CW. Definitely heard a CW "O". Also, at 3:42 AM heard sweep tones. Unsure if this was enough for report. Emailed Dale Lamm, the Director of Engineering at WHBC describing what I heard and asked if I should bother him with a report. Mr. Lamm replied indicating I did indeed hear the WHBC DX Test and encouraged me to send a report. (KK-VA)

\*\*\*\*\*  
 Thanks to all reporters this week. Nice to hear from Mark this go around. Just got back from the 2008 National Association of Broadcasters Show in Las Vegas. Attendance was way down this year as Clear Channel and CBS decided not to allow anyone to attend. I did see a few of my Clear Channel guys who paid their own way. Most of the attention was on the Analog TV shut down and HD radio. Lots of new products. I spent one whole day with Nautel learning about their new FM transmitters. They have just come out with a new AM 800KW for overseas. Next trip is to the Dayton Hamfest and our BGS show the day before. If you are planning on coming to the Hamfest, come a day early and see some cool broadcast equipment. Register at [www.bgs.cc](http://www.bgs.cc). Just click on the Dayton Show link... Slid the next deadline a few days. I get back from Dayton late Sunday night. Taking a couple days off, so I should have time to get EDXR done in time for Phil... back to DX. Deadlines are usually SATURDAY 8 AM. Report DX ONLY.... The deadlines may change with my travel schedule. Station formats, local info, etc should be sent to Bob. When sending email, please try to put it in a form I can copy/paste. If you are posting on the list serv, PLEASE CC me at [edxr@amlogbook.com](mailto:edxr@amlogbook.com). Please report a station just ONCE per season. Band scans are NOT part of EDXR, but will be included at the bottom and published as space permits. Best to all.... fresh 4-19 0830.

**DX WORLDWIDE – WEST / TROPICAL BAND DX**  
**Patrick Martin – P.O. Box 843 – Seaside OR 97138**  
**E-mail: [mwdxr@webtv.net](mailto:mwdxr@webtv.net)**

Greetings everyone.  
 Even though DX season is winding down a bit, there is still DX out there.

**PAN AMERICAN DX ROUNDUP**

1090T **MEXICO**, BCN Rosarita Beach XEPRS 4/28 0616. (5P-HI\*)

Fountain Inn. 04/05 0158. Mixing with Gospel music station "...radio... right here on... weekday mornings on... WFIS". "WFIS" into talk on Clintons' tax returns. (KK-VA)

South Bend. 04/02 0211. "...South Bend... love songs..." 0215 "...all new love songs. You're listening to the all new..." 0259 "Welcome to love songs sixteen twenty". (KK-VA)

Augusta. 4/01 0228. Mixing with KCJJ & TIS "...sixteen thirty... WRDW..." into "Talk Across America" sports talk. "News, talk, sports. Sixteen thirty WRDW Augusta". (KK-VA)

750 **ALASKA**, Anchorage KFQD, a surprise this late in the season and as strong as it was. Teating up KXL with spot for business "Alaska's Trailers" "Tell em' you heard it on KFQD" tag at 0550 4/13. (PM-OR)

774 **AUSTRALIA**, Melbourne, 3LO, April 11 at 1327. Two men talking, rather soft signal, but mixing with JOUB, then becoming dominant //612. (NHP-BC)

+ 1239 4/30 man talking poor but //738. (NHP-BC)

828 **JAPAN** Osaka JOBB 1231 4/28 very weak with man in JJ. (DV-WA)

891 **AUSTRALIA**, Townsville, Qld. 4TAB good on top of 5AN with racing at 1312 4/28. (PM-OR)

930 **ALASKA**, Ketchikan, KTKN good on top with AC Oldies and ID as "930 KTKN" at 0645 4/12. (PM-OR)

936 **UNID**, 1338 4/16 fair with computer-techno sound over Asian language station. (DV-WA+)

954 **JAPAN**, Tokyo JOKR 1052 4/16 fair with fast talking man in JJ. (DV-WA+)

972 **REP KOREA**, HLCA fair 1052 4/16, good at 1329. (DV-WA+)

1007 **JAPAN**, Osaka JONR 1204 4/16 weak with man in JJ. (DV-WA+)

1018 **JAPAN**, Fukuoka JOLB 1059 4/16 JJ talk //747. (DV-WA+)

1017 **PHILIPPINES**, Davao City, DXRR "DX Double R" very good with peaks of S9, with usual fare of games and lotteries. "Mega Lotto" and "Mega Jackpot" mentioned several times in EE 1310 4/28. I don't think I have heard a Filipino this late in the season before. (PM-OR)

**PHILIPPINES?** 1326 4/16 fair Asian lang with EE words mixed in, similar to Phil TV News. (DV-WA+)

1017 **PHILIPPINES**, Quezon City DZAR presumed the one with organ mx and man in Tagalog at 1313. Weaker than DXRR 4/28. (PM-OR)

1026 **UNID**, DU EE over Asian station 1322 4/16. (DV-WA+)

1044 **CHINA**, 1202 4/16 weak with man in JJ? (DV-WA+)

1053 **JAPAN**, Nagoya JOAR 1104 4/16 fair with man in JJ, Jammer dominating channel at 1201 4/16. (PM-OR)

1053 **REP KOREA**, 1225 4/28 jammer weak. (DV-WA)

1098 **MARSHALL ISLANDS?** 1059 4/16, great carrier, no audio. (DV-WA+)

1134 **JAPAN**, Tokyo JOQR 1157 4/16 good with M/F in JJ. (DV-WA+)

+ Armchair copy at 1240 4/22 with man in JJ. (PM-OR)

1134 **REP KOREA**, KBS Hnamjokk Bangsong, 18 April 1238. Man talking //972, fair strength in 1130 splash, but shortly replaced by music, presumed from Japan. This was heard on the following two mornings also, but is not usually heard on this channel. (NHP-BC)

1143t **TAIWAN**, Baisha Taiwan Fisheries Station, BEL3 24 Mach 1324. Brief rise to fair strength, man talking, then into vaguely oriental vocal mx by woman. At 1416 a brief comeback with a woman in CC sounding talk. (NHP-BC)

1206 **CHINA**, 1153 4/16 fair with woman in Asian language. (DV-WA+)

1215 **UNID**, 1313 4/16 fair with two Asian stations mixing. (DV-WA+)

1242 **JAPAN**, Tokyo JOLF 1142 4/16 fair with man in JJ. Good at 1312. (DV-WA+)

1251 **UNID**, 1150 4/16 weak signal with inst mx and Asian talk. (DV-WA+)

1278 **JAPAN**, Fukuoka JOFR 1148 4/16 M/F in JJ. (DV-WA+)

1287 **JAPAN**, Sapporo JOHR 1311 4/16 Fair with woman in JJ. (DV-WA+)

1332 **JAPAN**, Nagoya JOSF 1109 4/16 fair with man in JJ. Good at 1146. (DV-WA+)

1377 **CHINA**, 1144 fair with CC Disco mx 4/16, not /CRN1. (DV-WA+)

1386 **JAPAN**, NHK2 synchros weak at 1111 4/16 with man in JJ. (DV-WA+)

1422 **JAPAN**, Yokohama, JOFR 1113 4/16 fair M/F in JJ. (DV-WA+)

1539 **UNID**, 1231 5/4. Had a carrier on this channel the last couple of mornings, but this faded up to a rather slow instrumental mx, sort of easy listening. Couldn't get a decent bearing on anything this morning, but by this time, most DX was DU. What do you hear on this frequency, Patrick? (NHP-BC) (Nick, my guess being so DU is 2RF Sydney. Only 1 KW, but I have heard it a couple of times. I believe they are one of the Greek stations, if I remember correctly. I believe I also have a QSL from them. The NZer is Radio Sport on 1539, so that would not match. PM)

1548 **AUSTRALIA**, Emerald 4QD 1233 3 May. Instrumental mx poor to briefly fair in splash //702. This is fairly rare at home, but was also heard the following morning. My records show May 1997 was good for this station, so perhaps, 11 years later, it will happen again. (NHP-BC) (4QD is not all that great here either. It used to be a strong pest back in the 80s, but does not get in here near as well today. I am glad about that, or I would not have logged Sri Lanka. PM)

1566 **REP KOREA**, Cheju HLAZ, fair 1114 4/16. (DV-WA+)

+ 1208 4/28 weak with woman in Asian language. (DV-WA)

1575 **THAILAND**, VOA 1307 4/16 fair with M/F in Asian language. (DV-WA+)

1593 **CHINA**, CNR1 1307 4/16 weak with man in CC. (DV-WA+)

**Spring time Grayland DXpedition**

Mar. 29 and 30, 2008  
 Chuck Hutton - Compiler

I know it was a spring time DXpedition because I drove through almost whiteout snow on the way to Grayland, and upon arrival suffered a hailstorm and more snow. That's not to mention the incessant cold rain that made antenna work a great joy.

Conditions were definitely not good. Bruce and Nick rated it as passable. I am not quite so charitable.

**Nick Hall-Patch** Drake R8, Dymek DR333, RFSpace SDR-14

**Chuck Hutton** SDR-IQ, R8B

**Bruce Portzer** SDR-IQ, R8A, R75

Antenna 1 250 degrees, 700 feet, unterminated

Antenna 2 320 degrees, 1300 feet, unterminated

153 **RUSSIA**, Komсомolsk, R. Rossii. 1223 Mar. 30. Pop mx then man talking in RR, fair, parallel to 279, with 279 leading by about 1/2 second, becoming strong by 1244. First time heard with any audio this morning, and not heard at all the previous morning. (NHP-WA 2008)

180 **RUSSIA**, Petropavlovsk, R. Rossii. 1234 Mar. 30. RR talk //279, fair at best in static crashes. (NHP-WA 2008)

529 **ALASKA**, Level Island. 1126 3/30 aviation weather and cw "SQM" marker" good.

530 **ALASKA**, Adak. 1311 3/29 "ADK" beacon loud w/cw marker. (bp-WA 2008)

530 **CUBA**, 0512 2/29, Radio Enciclopedia fair w/isuisty instrumentals & woman droning on in Spanish of presumed RVCI with man in SS. (bp-WA 2008)

531 **UNID**, At both 1100 and 1200 Mar. 30, heard 5 long pips on the hour (maybe a sixth lost in the noise?), but talk was just too garbled to ID anything. Suspect this was one of the Aussie stations. (NHP-WA 2008)

558t **JAPAN**, Kobe, JOCR. 1401 Mar. 30. After being in the murk at the top of the hour, this one faded up well with a couple of lively Japanese ladies talking and giggling. Splatter was still a problem even when this was at fair strength. (NHP-WA 2008)

558 **FUJI**, Radio Fiji 1, Naulu poor at 1256 Mar. 29 //639 which was always much better. (Hutton-WA 2008)

567 **AUSTRALIA**, Sydney, 1240 3/29, phone talk fair, "El Paso" song 1257, apparently the same program as 891 but delayed 1/2 hour. (bp-WA 2008)

567 **JAPAN**, Sapporo, JOBK. 3/29 1333 good w/man & woman in JJ //594. (bp-WA 2008)

567 **NEW ZEALAND**, RNZ Wellington fair with an Easter choir a week late 1341 Mar. 29, mixing with NHK1 some. (Hutton-WA 2008)

576 **JAPAN**, several NHK1 stations poor but parallel 594. (Hutton-WA 2008)

585 **JAPAN**, JOG Hokkaido 1329 Mar. 29 poor pips, //594. (Hutton-WA 2008)

585 **JAPAN**, NHK1 synchros, 1300 3/29 time pips, then talk, very poor. (bp-WA 2008)

594 **PHILIPPINES**, Tagalog on top of NHK1 at 1335 Mar. 29. (Hutton-WA 2008)

+ 1347 3/29 Filipino talk w/IOAK. (bp-WA 2008)

612 **JAPAN**, Fukuoka, JOLK, 1400 3/29 pips & news //594/666/729 etc. (bp-WA 2008)

+ Fair 1359 Mar. 30 parallel to 594. (Hutton-WA 2008)

621 **NORTH KOREA**, Chongjin 1341 Mar. 29 poor-fair with opera program. (Hutton-WA 2008)

630 **AUSTRALIA**, 4QN Townsville assumed the source of DU English 13443 Mar. 29, often on top of the channel. (Hutton-WA 2008)

639 **AUSTRALIA**, 2HC Coff's Harbor assumed the one with Aussie EE mixing with Fiji 1252 Mar. 29. (Hutton-WA 2008)

639 **FUJI**, Radio Fiji 1, Drasa fair with regular Sunday choral music program 1222 Mar. 29. (Hutton-WA 2008)

+ 1313 3/29 good w/island music. (bp-WA 2008)

639 **JAPAN**, Oita, JOIP, 1348 3/29 Japanese talk good //594, mixing w/Fiji. (bp-WA 2008)

639 **JAPAN**, Shizuoka, JOBP Pips then EE lessons //774 1400 3/29. (bp-WA 2008)

+ 1401 Mar. 30 with NHK2 stuff parallel 774. No sign of the NHK1 station. (Hutton-WA 2008)

648 **JAPAN/CHINA/RUSSIA**, 1400 3/29, NHK pips followed by pips from unid Chinese station, then Russia faded up w/news in Korean. (bp-WA 2008)

648 **RUSSIA**, Ussuriysk, 1100 3/29, V of Russia IS, then talk fair in 650 splatter. (bp-WA 2008)

650t **HAWAII**, Honolulu, KRTR. 0545 Mar. 29. Ad for a resort package, "proof of Hawaii residence required", followed by easy listening mx, presumably this one. Fair and dominant on channel. (NHP-WA 2008)

+ 0645 3/29 mixing w/mainland stations, string of local ads, 70s soft rock, "Hawaii's Place for Great Music, the All-new 650 AM". (bp-WA 2008)

657 **NORTH KOREA**, Kangnam, Pyongyang Pangsong, 1350 3/29 briefly strong w/rousing inst music //3320. (bp-WA 2008)

+ 1350 Mar. 30. Female operatic style vocal mx //3320, fair to poor in hum on channel. (NHP-WA 2008)

- 666 **JAPAN**, Osaka, JOBK, 1342 Mar 30. Really fine signal //594, man talking in JJ.  
(NHP-WA 2008)
- 666t **NEW CALEDONIA**, 1334 Mar. 29 maybe the source of poor to fair old fashioned songs that sounded like old French standards. (Hutton-WA 2008)
- 675 **JAPAN**, poor 1333 Mar. 29 with NHK1 programming. (Hutton-WA 2008)
- 684 **FUJI**, Radio Fiji 1, Labasa, fair on peaks, parallel 639 /1304 Mar. 29. (Hutton-WA 2008)
- + 1315 3/29 good w/acapella island music //639. (bp-WA 2008)
- + 1022 Mar 30. Choral mx followed by man talking in island language //639, fair fading to poor and back again. (NHP-WA 2008)
- 684 **NORTH KOREA**, 1351 3/29 inst music //657, briefly atop, then faded w/Fiji. (bp-WA 2008)
- 702 **JAPAN**, JOKD or JOFB 1318 3/30, weather, garbled ID by woman 1320, then language lesson fair. (bp-WA 2008)
- 711 **SOUTH KOREA**, Seoul, HLKA, 1355 3/29 man & woman in Korean good. (bp-WA 2008)
- + 1352 Mar 30. Woman in KK //1305; fair to good strength, with 710 splatter. (NHP-WA 2008)
- 729 **JAPAN**, Nagoya, 3/29 1400, fair w/time pips, NHK mention, then man w/news //594. (bp-WA 2008)
- 738 **FRENCH POLYNESIA**, 0651 3/29, instr music, decent carrier, low modulation. (bp-WA 2008)
- 738 **SOUTH KOREA**, Gyeongsan, HLKG 1400 3/29 ID by woman mentioning KBS & HLKG, time pips, then news in Korean. (bp-WA 2008)
- 760 **HAWAII**, Honolulu, KGU, 1424 3/29, fair string of ads, "Your Station for (garbled), AM 7-60 KGU", into inst music. (bp-WA 2008)
- 792 **JAPAN**, 1324 3/30, NHK synchros //594 weak mixing w/1-2 other stations. (bp-WA 2008)
- 800 **ALASKA**, Juneau, KINY, 1000 3/29 fair-poor w/CKOR "... weekday mornings at 11 am on KINY Juneau" into ABC news, mixing w/a third station playing the SSB - not sure who that would be at 3 am PDT - not likely an east coast station signing on, and KPQD was heard later so not them signing off. (bp-WA 2008)
- 837 **JAPAN**, Niigata, JOGK, 1100 3/29 pips, NHK mention, JJ talk fair-poor. (bp-WA 2008)
- 846 **JAPAN**, NHK1 synchros, 1154 Mar 30. Man & woman in JJ //594, fair at best. (NHP-WA 2008)
- 855 **NORTH KOREA**, 1422 3/30 //3320 w/inst music in IBOC hash from station on 840. (bp-WA 2008)
- 864 **JAPAN**, HBC synchros. (JOQF Murotan most likely?) 1318 Mar 30. Slow vocal mx //1287, poor to fair, mixing w/KK. (NHP-WA 2008)
- 864 **SOUTH KOREA**, HLKR Gangneung 1340 Mar. 29 with man talking in Korean // the other KBS1 outlets like 1305 and 711. (Hutton-WA 2008)
- + 1358 3/30 good w/man in KK, local ID by woman at ToH, then pips & man with news. QRM from unit station w/vocal music that continued w/o break at ToH. (bp-WA 2008)
- 891 **AUSTRALIA**, Adelaide, 5AN, 1228 3/29 fair w/Mary Robbins "El Paso", then man giving phone number a couple of times, ABC news 0530, QRM from a second DU, probably Townsville. (bp-WA 2008)
- + Must have been the one with Marty Robbins "El Paso" 1228 Mar. 29, as others noted Marty Robbins music on 5AN. (Hutton-WA 2008)
- 891t **AUSTRALIA**, Innisfail, 4TAB, 0951 Mar 30. Likely the one with man reading results of horse racing, good, fading to poor. (NHP-WA 2008)
- 891 **JAPAN** Sendai, JOHK, 1301 Mar 30. Man in JJ, good signal //594 if only briefly. (NHP-WA 2008)
- + 1328 3/30, male talk in JJ //594. (bp-WA 2008)
- 891 **SOUTH KOREA/JAPAN**, 1343 Mar. 29 fair, mixing evenly. (Hutton-WA 2008)
- 909 **JAPAN**, 1320 3/29 weather, unintelligible local ID, then Korean lessons, weak //1017. (bp-WA 2008)
- 918 **JAPAN**, unid, 1347-1352 3/29, laid back man in JJ talking on and on, then new age type music, QRM from Chinese echo chamber in background. (bp-WA 2008)
- 927 **JAPAN**, various NHK1 stations poor 1318 Mar. 30. (Hutton-WA 2008)
- 954 **JAPAN**, JOKR Tokyo fair with usual animated commercial station programming 1355 Mar. 29. (Hutton-WA 2008)
- 945 **JAPAN**, NHK1 outlets, 1405 3/29 JJ talk fair o/CNR. (bp-WA 2008)
- 999 **NORTH KOREA**, KCBS Hamhung a little surprised to hear this given the so-so conditions. Poor non-decent music 1410 Mar. 29, about 50 Hz low. (Hutton-WA 2008)
- 1008 **JAPAN**, Osaka, JONR, 1300 3/29 fair w/3 pips+chime at ToH, also 1317 JJ talk w/ments of ABC & Osaka. (bp-WA 2008)
- + Good with a short segment entirely in English 1402 Mar. 29. Bothered a little by an unid stn seemingly with Chinese mx. (Hutton-WA 2008)
- 1017 **JAPAN**, Fukuoka, JOLB, 1320 3/29 weather, local ID, then Korean lessons, fair. (bp-WA 2008)
- + 1334 Mar 30. Two gents talking in JJ, good strength //828 o/oriental sounding female vocal mx and unreadable talk. (NHP-WA 2008)
- 1017 **PHILIPPINES**, fair Tagalog 1312 Mar. 29, but no ID to say which one. (Hutton-WA 2008)
- 1026 **AUSTRALIA**, 4AA Mackay assumed the source of what I'd call oldies (not EZL) at fair level 1407 Mar. 29. (Hutton-WA 2008)
- 1026 **PHILIPPINES**, 1344 3/29, religious talk in English and Tagalog fair, presumed DZAR. (bp-WA 2008)
- 1026 **UNIDS**, 1400 3/30, 2 sets of 3+1 pips, one of them delayed by about 0.1 sec, little else noted, probably NHK/KBS combo. (bp-WA 2008)
- 1035 **JAPAN**, various, 1320 3/29, theme music //1017, very weak. (bp-WA 2008)
- + Very poor with English lessons 1407 Mar. 29. (Hutton-WA 2008)
- 1035 **SOUTH KOREA**, Pohang, HJCP 1400 3/30 "KBS... HJCP" ID by woman, 3+1 pips, KBS ID & news by man. (bp-WA 2008)
- + Poor but parallelable to 1305 1424 Mar. 30. (Hutton-WA 2008)
- 1044 **CHINA**, 1300 3/29, CRI theme music, then IDs in JJ & CC, fair-poor. (bp-WA 2008)
- 1044 **SOUTH KOREA**, KBS1 outlets 1312 3/20 good w/Korean woman //1035. (bp-WA 2008)
- 1053 **SOUTH KOREA**, jammer 1231 Mar 30. Jammer playing its usual song, very strong on NW wire: The Japanese most likely was the one w/ woman talking, poking through the cacophony on the W wire. (NHP-WA 2008)
- 1062 **PHILIPPINES**, unids 1338 3/29, 2 stations in Tagalog or similar language. (bp-WA 2008)
- 1071 **JAPAN**, JOFK Hiroshima and JOWM Sapporo mixing at fair level 1340 Mar. 30: JOFK was parallel 594 and JOWM was parallel to 1440. (Hutton-WA 2008)
- 1089 **UNID**, mixing with China at fair level 1330 Mar. 30. I was unsure in the end whether it was parallel to Korea 1305. (Hutton-WA 2008)
- 1098 **MARSHALL ISLANDS**, Majuro, V7AB, 1124 Mar 30. Truly immense carrier, with fair audio at this time, island style vocal mx. By the time of listed s/off at 1130, could hear man talking but it was unreadable in the splatter. (NHP-WA 2008)
- 1107 **SOUTH KOREA**, Pohang, HLAV, 1412 3/30 man & woman in KK, then Simon & Garfunkel's "The Boxer" briefly good. (bp-WA 2008)
- 1110 **HAWAII**, Kihei, KAOL, 1159 3/29, poor w/KBND w/promo, call & Aloha mentioned. (bp-WA 2008)
- 1116 **AUSTRALIA**, Brisbane, 4BC, 0826 3/30 good w/string of ads, "Brisbane's Newstalk 1116 4BC" ID, then phone talk. (bp-WA 2008)
- 1134 **SOUTH KOREA**, KBS Hamjinok Bangsong, 1243 Mar 30. Woman talking KK, fair to poor //972, w/Japanese talk from assumed JOQR. (NHP-WA 2008)
- 1161 **TAIWAN**, 1400 3/30, BCC Country network, Asian pop tunes, distinctive chimes & electronic IS, man in Chinese fair-poor. (bp-WA 2008)
- 1161 **TAIWAN**, 1400 Mar. 30 with chimes, Nice level overall. (Hutton-WA 2008)
- 1206 **CHINA**, Yanji, Yantian RGD, 1421 3/30 good w/woman in KK, 1300 3/30 distinctive IS, man & woman in KK w/possible ID, seemed slightly off freq. (bp-WA 2008)
- 1215t **CHINA**, Guangdong, CNR7, 1257 3/30 woman in CC, pop music, 4+1 long tones at ToH. (bp-WA 2008)
- 1251 **RUSSIA**, Ussuriysk, 1259 3/30, V of Russia IS, then start of Chinese program. (bp-WA 2008)
- + 1359 Mar. 30 with IS to fair peaks. (Hutton-WA 2008)
- 1269 **JAPAN**, JOJR Tokushima must be the fair Japanese at 1308 Mar. 30 since it wasn't parallel to 1287. (Hutton-WA 2008)
- 1305 **SOUTH KOREA**, HJLV Ulljin fair-poor 1307 Mar. 30 with man talking //711. (Hutton-WA 2008)
- 1332 **UNID**, 1030 3/30, DU EE male talk, then music, probably 4BU or NZ. (bp-WA 2008)
- 1350 **JAPAN**, Hiroshima, JOER, 1348 3/30, JJ talk mixing with domestics. (bp-WA 2008)
- 1377 **RUSSIA**, Tavrichanka, 3/30 1200-1345 various times, R Yunost generally atop CNR, woman w/news in RR 1200, otherwise mostly techno-pop music, including cover (in English) of David Bowie's "Let's Dance". Man w/"Radiostaniya Yunost" ID 1229. (bp-WA 2008)
- 1386 **JAPAN**, NHK2 synchros, JOQC Morioka most likely? 1015 Mar 30. Man and woman talking in JJ //828, fair to poor. (NHP-WA 2008)
- 1500 **HAWAII**, Honolulu, KUMU, 1432 3/29 fair-poor w/sportstalk, no ID but it's the only thing that fits. (bp-WA 2008)
- 1503t **MICRONESIA**, Total, Kosrae, V6AJ, 1047 Mar 30. Nice laid back island vocals, good to poor might have been this one. (NHP-WA 2008)
- + 1026-1047 3/30, good-mix with island music & male talk. (bp-WA 2008)
- 1512 **JAPAN**, NHK2 synchros, 1406 3/30 JJ talk //774 fair-nil in 1510 splat. (bp-WA 2008)
- 1548 **AUSTRALIA** Emerald, 4QD, 1032 Mar 30. Woman talking in EE //738, fair at best in lots of splatter. (NHP-WA 2008)
- 1548 **AUSTRALIA**, Emerald, 4QD, 1017 3/30 good w/Aussie talk. (bp-WA 2008)
- 1575 **THAILAND**, Ban Pachi, VOA, 1130 3/29, fair w/EE pgm, mention of VOA homepage, then interview. (bp-WA 2008)
- 1593 **TAIWAN**, Tocheng, Fisheries Broadcast Station, 1342 Mar 29. Woman singing a slow oriental sounding song, way w/strong talk from CNR1, but parallel with fine signal on 1143. Strangely, there was no sign of the outlet on 738 at this time. A new logging for me. (NHP-WA 2008)
- + 1343 3/30 weak w/CNR w/inst music //738. (bp-WA 2008)

**Grayland with an SRF-T615 – Gary DeBock**

Thanks to all who have commented on the unidentified 531-DU station heard on the SRF-T615 last Sunday at Grayland, Washington. Actually, for a one-night DXpedition this late in the season, the total results on the stock Sony SRF-T615 were much better than expected. Checking into Room 10 of the Grayland Motel around 10:00PM, it was quickly apparent that this small room in the center of the building was far from an ideal DX location. Loud TV heterodynes covered the band, and QRM from wild weekend parties covered the audio frequencies. Serious consideration was given to taking some radios and a flashlight to the beach, prior to sunrise. Attempts

were made to get some rest before 3 AM (1000 UTC), but whenever sleep was near, the QRM from Rooms 9 and 11 suddenly increased in intensity. Right up until 1200 UTC, the TP carriers (in between the TV heterodynes) were very anemic. 738-Tahiti was nowhere near audio level. It seemed like the trip would be a lesson in humility.

Suddenly around 3:15 AM (1015), everything seemed to change. Rooms 9 and 11 suddenly went quiet, with no more TV heterodynes (or loud AF QRM). The Japanese powerhouses (594, 693, 747, 774 and 828) suddenly boomed in like locals, with the Koreans (972 and 1566) following them. Just before sunrise, VOA-1575 in Thailand made an appearance. Despite the shaky start, the logbook was filling up with stock SRF-T615 TP receptions, and various mp3 recordings were made. It turned out to be a very exciting and successful DXpedition, even if the 531-DU station didn't ID, during the 5 minutes the SRF-T615 received it.

The final Ultralight TP log, all on the stock SRF-T615 was:

- 531 UNID, Looping DU direction, fair audio (repeated songs with no breaks), heard at 1308, gone by 1315
- 594 JAPAN Tokyo JOAK strong Japanese talk 1245.
- 693 JAPAN Tokyo JOAB fair with NHK program 1220.
- 747 JAPAN Sapporo JOIB fair with Japanese talk in KXL-750 slop, 1122
- 774 JAPAN Akita JOUB extremely strong with Japanese talk and TIS signal, 1200.
- 828 JAPAN Osaka JOBB weak audio at 1050, strong NHK program at 1215.
- 972 S. KOREA Dangjin HLCA fading in shortly after the Japanese with Korean conversation, 1236.
- 1566 S. KOREA Jeju HLAZ good signal with FEBC Japanese-language program, 1239 (mp3 recorded).
- 1575 THAILAND Ban Rasom VOA briefly fading in with Asian language program around sunrise, 1246.

Two ICF-2010's were used as "spotting receivers," one a stock unit, and one having a 19.5" transplanted loopstick. The "monster 2010" was responsible for catching the DU opening at 1303 (with weak audio on both 531 and 612), when the stock unit had only weak carriers.

## DX WORLDWIDE - II

**Bruce Portzer – 6546 19th Ave. NE – Seattle, WA 98115**

E-mail: [bportzer@comcast.net](mailto:bportzer@comcast.net)

All times unless noted otherwise

## WESTERN HEMISPHERE

**COLOMBIA:** Radio Nacional de Colombia announces a new web address: [www.radiocnacionaldecolombia.gov.co](http://www.radiocnacionaldecolombia.gov.co) (Andrew Brade via MWC e-mail news 27 Dec)  
HUNJ-860 LV del Cafaguatue, Valledupar - identified by Henrik Klemetz on a clip sent in by Pekka Kostianen, Finland, the refurbished La Voz del Cafaguatue, now a Caracol affiliate. The station reportedly uses a Continental-Lensa K5A12 transmitter with 12 kW of power supplied by Kappa Ltda. (Henrik Klemetz via MWC e-mail news 17 Dec)

**CUBA:** In Santa Clara City on 840 kHz CMHW, known to its listeners as LA DOBLEVE is now on the air with a new solid state high energy efficiency transmitter that is capable of 125 percent positive peak modulation. La DOBLEVE can be heard not only in Villaciara province, but also in neighboring Cienfuegos, Sancti Spiritus and Matanzas. And talking about Matanzas, the new frequency for the provincial station's main transmitter is 1060 kiloHertz, again Radio Veintiseis, from the center of Matanzas province, with its new solid state transmitter on 1060 kiloHertz providing excellent coverage of the whole of Matanzas province, part of Cienfuegos and the southwestern area of La Habana province. The two new installations form part of a program now in progress to upgrade the AM medium wave band facilities by replacing the obsolete vacuum tube transmitters with new energy efficient equipment that is also capable of 125 percent positive peak modulation, something that increases the coverage of the stations as compared with what could be achieved with the old transmitters. The Santa Clara Radio Reloj station relay operating on 570 kilohertz running now a nice new 25 kilowatts solid state transmitter, after the old Tesla vacuum tube technology that served there for many years was finally taken off the air. Radio Reloj's Santa Clara City relay station has a very nice 400feet high antenna, with a very good ground system, and the reason that this low frequency channel was selected for Radio Reloj's relay, serving Villa Clara, Cienfuegos and Sancti Spiritus provinces was no other than the mountainous characteristics of most of the service area, where lower AM broadcast frequencies provide much better ground wave service than stations operating on the part of the band above 800 kilohertz or so..... (Arnie Coro, DXers Unlimited)

**DOMINICAN REPUBLIC:** 820 HIAZ R. Santiago back on the air with tests. Web: [www.radiosantiago820.com](http://www.radiosantiago820.com). (Dino Bloise via Chnister Brunström/Arctic)

**EL SALVADOR:** Radio CRET which acc. to WRTH 2008 is inactive - is now on the air again - with test transmissions on its original MW frequency of 1080 kHz. What is more encouraging is that they emit a strong second harmonic on 2159.92 kHz. Monitored in Guatemala at 0230 UTC (Sunday night) with a strong signal which I anticipate will easily make it to North America and perhaps even Europe. One ID is: "Desde San Salvador transmite Radio CRET 1080 kHz en su señal de prueba". They also

announced tel. 26710317 in case you catch the station and want to inform them about reception. Radio Imperial which used to broadcast on 17 MHz till quite recently has neither transmitter nor aerial left at the stations premises in the outskirts of Sonsonate in Northern El Salvador, so I don't think that it is very likely they will ever return. They now operate on 810 kHz with 500W only. (Stig Hartvig Nielsen, Guatemala, HCDCX 14 Apr)

## HAWAII AND PACIFIC

**HAWAII:** A fine levied against JMK Communications for \$4,000 will stand. The Honolulu AM station had allegedly caused interference on a ham frequency. The penalty is for failure to ensure that emissions more than 75 kHz from KREA's fundamental frequency of 1540 kHz were attenuated 80 dB below the unmodulated carrier level. In April 2007, the FCC's Honolulu office received a complaint alleging that spurious emissions from a station on 1540 were causing interference on 1810, a frequency authorized for primary use by amateur radio. Honolulu agents inspected the station using a spectrum analyzer and an external antenna to measure spurious emissions from KREA on 1810, attenuated -60 dB referenced to the carrier on 1540. JMK acknowledged the spurious emissions and said it had fixed the problem; it then received a Notice of Violation. Two subsequent investigations revealed KREA was still producing spurious emissions on 1810 kHz, attenuated -59 dB, and -55 dB, respectively, the FCC said. A station contract engineer said installed filtering had failed and repairs were pending. FCC rules require that KREA (AM) emissions on 1810 kHz must be attenuated 80 dB. That August the agency issued a Notice of Apparent Liability for \$4,000. JMK argued that it wasn't responsible for the violation but that it would be willing to work with the Honolulu office to resolve the issue. After doing so for four days in October, JMK reiterated its arguments but supplied new, and conflicting, engineering data and information, according to the commission. The FCC said a station contract engineer told an inspector the installed filtering had failed and repairs were pending. The owner argued the filter did not fail "but rather that the 1810 kHz signal is originating from some other unrelated source" and that the station's own equipment is not the source, but only a passive contributor." In troubleshooting the problem, the JMK engineer determined that KREA's transmitter might have played a role in the interference and subsequently concluded that the "duplexing filters need to be redesigned to provide better isolation than what was required by the previous tube-type transmitter used at KREA." The FCC found JMK responsible for the spurious emissions on 1810 kHz, noting that JMK previously told the commission "the emission on 1810 kHz is apparently a 'mixing product' caused by KREA's second harmonic (3080 kHz) and operations by KNDI on 1270 kHz. However, while KNDI may have passively contributed to the resulting emissions on 1810 kHz, given the frequencies and harmonics involved, KREA acknowledges that the offending signal on 1810 kHz 'only goes away when the [KREA] transmitter AC power is disconnected or the [KREA] ATU is disconnected from the tower.'" JMK asked for the fine to be cancelled or reduced, noting "highly responsive and responsible efforts and extraordinary expense" it took to remedy the problem. While the FCC commended those efforts and particularly "the diligence of its engineer in trying to resolve the spurious emissions," it said licensees are expected to correct problems brought to their attention and a correction is not grounds to have a fine reduced. It upheld the fine and said payment is due within 30 days. (Radio World News Bytes 4 Apr)

**HONG KONG:** The Broadcasting Authority is inviting the public to express views on Wave Media's application for a sound-broadcasting license. The application involves the operation of a Hong Kong wide radio channel at 810, which is the only vacant channel covering the whole city. The plan is for 24 hr Chinese language programs. (Hong Kong Govt news via BE/ARC 3 Feb)

**INDIA:** Prasar Bharati has no proposal to reduce the number of All India Radio (AIR) stations. The information was given by information and broadcasting minister Priya Ranjan Dasmunsi in written reply to a question in Rajya Sabha today. Prasar Bharati said that the number of AIR stations will not be reduced by setting up one powerful station for each State and thereby saving huge expenditure. Power consumption of a single powerful station is much more than that required by smaller stations to cover the populated area. An All India Radio audience survey stated that there has been an increasing trend of listenership for the state-owned stations. From 310 million in 2003-04, the listenership was increased to 357 million in 2006-07. According to the survey, listenership in 2004-05 was 340 million. <http://findiantelevison.com/headlines/y2k8/mar/mar127.php>. (Sakthi Vel, dx\_india)

## EUROPE, AFRICA, AND MIDDLE EAST

**BELGIUM:** The Flemish government has approved the VRT's proposal to cease analogue transmissions on 540, 1188 and 1512 kHz per 30 March 2008. The VRT will retain only one medium frequency, i.e. 927 kHz, currently broadcasting R. 1. The government therefore also changes its decision to allocate analogue radio frequencies on medium wave solely to the VRT. Advice has been asked to a regulatory commission to see whether this change is legal. If all goes through the three AM frequencies may be up for sale. (Herman Boel, MWC 2.3.2008)

Andy Sennitt comments: The decision to discontinue 1512 kHz will affect expats in neighboring countries who use this frequency to listen to Radio Vlaanderen Internationaal. RNW listeners will recall that we also used this transmitter for our English service in the late evening for a number of years. (Andy Sennitt, RN Media Network 3 Feb via Mike Terry, MWDX)

**BENIN:** Trans World Radio's new transmitting station in Benin began broadcasting for the first time on 1 Feb. TWR hopes the station will be automated within three months. They will be broadcasting programs from local churches and ministries. With at least 15 languages reaching into 9 countries,

they will be able to reach areas that are difficult to reach, such as northern Nigeria. The potential listening audience is 63 million. The station, at Parakou, will broadcast on medium wave 1566 kHz with a power of 100 kW. (Source: Mission Network News via Media Network Blogs)

TWR Africa - correct schedule: 0300-0535 and 1700-2145 UTC.

(TWR Africa web via Mauno Ritola, ARC)

**DEMIMARK:** In a surprise move the long wave transmitter in Kalundborg on 243 kHz - which ceased operation more than a year ago on Feb 15 2007 - is now on the air again. I first noted it back yesterday afternoon. It is broadcasting a 1 kHz tone in DRM (with 13 kbps compression) and Ding as 'DR DENMARK'. Signal strength here (in Jutland) is lower than when they used AM.

(Stig Hartvig Nielsen via mwc 24 Mar)

**ETHIOPIA:** During his visit to Ethiopia, Maarten Van Delft gathered the following info about the Ethiopian Radio. New AM transmitters planned in Nazret (1035 kHz, 10 kW) and Nekemte (1053 kHz, 100 kW). The station in Robe will be completely rebuilt (837 kHz, ex-972 kHz, 100 kW). The transmitters will be provided by Harris, the antennas by Colton Tower Consultants Inc. The Foreign Service is transmitted for the Capitol area of Addis Ababa on Medium Wave 989 kHz (sic). The present schedule is: 0700-0800 Somali, 1200 Somali, 1300 Afar, 1400 Arabic, 1500 Tigre, 1530 Arabic, 1600 English, 1700-1800 French. The English Home and Foreign Service is lead by Melesse Edea Bevi, who is also responsible for the Foreign Service transmissions in French and Arabic. (Maarten Van Delft, via NTT via WWDXC, from DXing the Finnish way 2008-03-12)

**IRELAND:** Irish public broadcaster RTE plans to axe Radio 1's medium wave service on 24 March. RTE believes the transmission cost can no longer be justified, since the content is now available elsewhere. The medium wave service, on 567 kHz, shares almost all its content with the FM version of Radio 1, except for Sunday religious services and a midweek soccer game. But the decision has been criticized by rural listener and politicians. There is to be a public information campaign ahead of the switch-off date. This will highlight the fact that the full Radio 1 medium wave service will remain available on long wave (252 kHz). It is also available on the Sky Digital platform. RTE is also talking to charities about providing subsidized radios for those who don't have sets with FM or long wave. The station's research shows that one in ten radio listeners use the medium wave version of Radio 1, with the service particularly popular with the elderly and those living in remote areas. Fine Gael communications spokesman Simon Coveney said shutting down medium wave transmissions has implications for people in rural parts of the country and at sea. "This is a public service broadcaster and this shouldn't be abandoned," he said. Labour communications and marine spokesman Michael McCarthy said the decision would have the biggest implications for fishermen working 50 or 100 miles off the coast and relying on the broadcasts for weather reports and for farmers. (Independent.ie via Media Network Blog)

Since this evening repeated announcements are heard on 567 kHz that RTE's service on this frequency was discontinued. Listeners are advised to tune to either FM or LW 252 kHz. It will be interesting to see how long these announcements will continue. Fair signal here in Taunusstein/Germany. (Alexander Schulz, HCDX, 24 Mar)

Fred Waterer in the DX Listening Digest group noted that the RTE Medium Wave Goodbye programme is now available online, click Listen Again at: <http://www.rte.ie/radio1/specials/1193939.html>. (mwc 25 Mar)

The Irish loop announcement on 567 noted off at 1645utc. 567 seems dead here in Carlisle. I guess the channel can be explored this evening till I'll have a look at 560 and 570 soon. (Barry Davies, mwc 1 Apr)

**ITALY:** As many DXers reported RAI started to broadcast in DRM also on 846 kHz from Santa Palomba. According to Andrea Borgnino it is on air with a 25 kw tx. On his blog you can find several images of RAI Santa Palomba: <http://www.mediassuk.org/archive/palomba.html>.

(Giampiero Bernardini, mwdx 16 Jan)

If you are interested in Italian regional programs you can find BOC12 tips here: <http://radio-dx.blogspot.com/>. (Giampiero Bernardini, mwdx 22 Apr)

**KUWAIT:** The US Broadcasting Board of Governors (BBG), International Broadcasting Bureau (IBB), intends to negotiate a competitive contract for the construction of three equipment shelters, installation of Radio Frequency (RF) transmission line, and related tasks for a new medium wave three-tower antenna array at the IBB transmitting station in Kuwait. The transmitter site is located 40 km NW of Kuwait City. (Media Network Weblog, 5 Mar)

**LUXEMBOURG:** 1440 The DRM transmissions during the period 0000 to 0400 have been discontinued. (Arctic)

**NETHERLANDS:** The repeats of old programs from Dutch commercial broadcaster Arrow Classic Rock on 675 kHz will cease at the end of January, to be replaced from 1 February by test transmissions from religious station, Radio Maria, based in Italy but now active in various parts of the world. An official start date for Radio Maria, which will be based in Den Bosch, has not yet been announced. Radio Maria website <http://www.radiomaria.org>. (Media Network, 23 Jan 08)

**NETHERLANDS:** Dutch Media reports that it has learned directly from Arrow that it plans to use one of its newly acquired medium wave frequencies for a station called Arrow Talks. No start date has been decided. Arrow hopes to find a business partner for the project, probably a newspaper publisher. Arrow owner/director Ad Ossensrijver told DutchMedia that the frequency, 828 kHz, can broadcast

from the existing transmitter site at Heinenoord near Rotterdam, so can be quickly brought on the air. The other frequency, 1035 kHz, is intended to be used as a "gap filler" for Arrow Jazz FM, which does not currently have satisfactory coverage in Limburg. For this station, a transmitter site still has to be found. (Source: DutchMedia via <http://blogs.rnw.nl/medianetwork/arrow-plans-talk-station-on-828-khz-5-mar>)

**RUSSIA:** 828 St. Petersburg started 1.3.2008: Radiogazeta Slovo 0600-1000, 1800-2200 and Pravoslavnoye (= Orthodox) Radio Sankt-Peterburga 0200-0600, 1400-1800. (Mauno Ritola, ARC)

**SLOVAKIA:** Since January 20 2008 there are only three active MW transmitters in Slovakia: 702 - Presov 100kW, 1017 - Rimavska Sobota 50kW, 1098 - Nitra 50kW (F.P.I. 100kW). Schedule (UTC): Mon-Fri 0700-1700, Sat 0600-1800, Sun 0600-1900 Program: Patria (for national minorities). A swift decision made by the Slovak government in January, ceased operation of the following transmitters: 567 Rimavská Sobota, 567 Žilina, 621 Horná Lehota (Orava), 864 Cadca, 864 Šina, 900 Velky Slavkov (Tátr), 927 Cizatec, 1017 Bratislava, 1035 Banská Bystrica. (Karel Honzik, via mwc/HCDX/mwdx 21 Jan)

**SWEDEN:** 1179 Radio Sweden's transmission schedule for the summer season 2008: A daily morning slot at 0355-0600 UTC, rebroadcast of Swedish Radio First Programmed. An evening slot at 1545-2230 UTC (Saturday evening also an hour in Romany at 2230-2330 UTC). (Sveriges Radio via Bengt Ericson, ARC 24.2.2008)

Since last fall the signal strength of co-channel Romania has been 6 dB lower and Teracom officials believe that there has also been a change of antenna. With these measures, Romania at least to a large part fulfils its commitments according to the Geneva Plan of 1975 regarding the use of 1179. (Sveriges Radio via Bengt Ericson, ARC 27.2.2008)

**SWITZERLAND:** 558 Mr. Stefano Franchini, Director of RTSI, whom I met during the EDXC conference in Lugano, said that the authorities want to close the transmitter on June 30th, but they can't close it so soon as the law stipulates that 'we must have at least one transmitter on medium wave for each Swiss region'. This means that the law has to be amended before the transmitter can be closed, and that will take longer than until June 30, 2008. (Bengt Ericson 3.3.2008)

**TURKEY:** Transmitter manufacturer Nautel has been awarded the contract for deployment of three NX300 high power MW transmitters for the Turkish Radio - Television Corporation (TRT). In addition to supplying transmitters, Nautel will provide comprehensive end to end services including site survey, installation, ventilation, transmission line, commissioning and site testing. (Andy Sennitt, RN Media Network 1.3.2008 via Mike Terry, MWDX)

The new solid state Nautel transmitters are intended for Trabzon, Cukurova and Antalya Radios and will go on the air in the late summer. The transmitters will provide better audio quality, but there will be no frequency changes: Trabzon 954 kHz, Cukurova 630 kHz and Antalya 891 kHz. (Mustafa Cankurt, Turkey (15/3-2008) via Ydun)

**UKRAINE:** As Olexandr Yegorov wrote in open\_dx\_yg, from the 1st of April (unfortunately, no connection with the fool's day ;) ) the following transmitters of the Ukrainian Radio have been switched OFF, perhaps till the end of 2008. UR2 "Promin": 549 kHz - Kyviv, Mykolayiv, Lviv, Vynnytsya; UR3 "Kultura": 657 kHz - Chernivtsi (partially); the new schedule is 1700-2130 UTC incl. relay of RUI in Roumanian 1700-1730, 1930-2000 & 2100-2130; 837 kHz - Kharkiv; 1242 kHz - Donetsk. The transmitters carrying UR1 as well as the UR3 Crimean 1242 kHz outlet are still working under the previous schedule (effective 1 Jan 2008). (Serghey Nikishin, mwc 8 Apr)

**VATICAN CITY:** I just received Radio Vaticana program schedule for November 2007 - March 2008. Radio Vaticana is now using digital modulation DRM on 1611 kHz. The DRM programs are coming as follows: 0700-0745 Italian, French, English, 0915-1100 Papal audience, 1100-1115 Anglus, 1115-1200 Italian, 1200-1300 French, 1300-1400 Italian, 1400-1415 Spanish, 2200-2310 Italian, 2310-0000 German, English, Italian. (Hannu Romppainen, mwc 9 Jan)

E-mail: [nhp@ieee.org](mailto:nhp@ieee.org)

### The DX Fishbarrel

...where will be your next DX catch?

An article, "Emerging Techniques of High-Tech DXpeditioning" was published in the January 18, 2003 DX Monitor, and is available on the web at <http://www.dxing.info/articles/hitech.dx> and other sites. In it, the authors described how a DXer's could use the power of the personal computer and many DX related tasks. One of the DX assistants described was developed by the present writer, and was christened "DX Radar" by John Bryant, an author of the article. It used an early computer controlled receiver, the Dymek DR-333, to sweep through the entire MW band, extracting the signal strengths found on target DX channels (usually the 9kHz ones for North American DXers), and displaying the strengths using multiple arrow characters on a monochrome computer monitor.

This device proved itself at a number of DXpeditions, advising DXers of active channels other than the one they were presently monitoring, but it had its shortcomings. The program that controlled the

DR333 was DOS-based, usually required its own PC (it wouldn't necessarily work with the Windows operating system), and the display was primitive-looking by today's standards. More importantly, it took around two minutes to properly scan the entire MW band, so by the time the signal strengths were displayed, they were often no longer very accurate, as we well know, DX signals tend to fade, both up and down. As well, it wasn't always clear how accurate the recorded strengths were. Sometimes, displayed signal strengths could be "pumped up" by sideband splatter and noise.

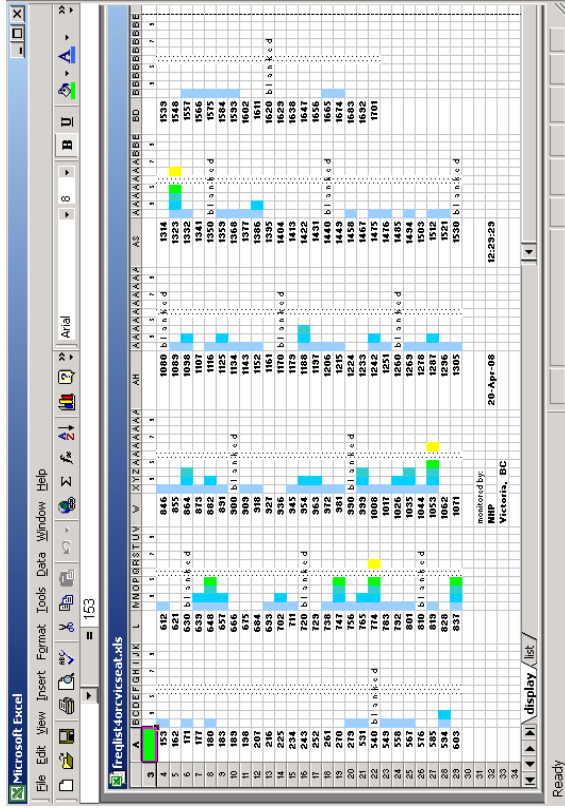

Technology has moved on, but "DX Radar" hasn't moved much since it was developed in the mid-90s. It was really time to have a similar program that was easier to read, and updated more frequently and accurately.

With the advent of software-defined radios (SDRs), as opposed to computer-controlled radios such as the DR-333, some DXers have become accustomed to observing and recording swaths of the band, though until recently, that was limited to a couple of hundred kilohertz at a time. Looking at a spectrum or a waterfall display on one's PC allows the DXer to find potential DX between domestic channels. At writing, the Perseus SDR is capable of handling 800 kHz of any band at a time, with the possibility of even wider bandwidths in the future. At least one other unit, the Quicksilver QS1R, is aiming at being able to cover several MHz at once. But, even when such capabilities become commonplace, the DXer looking to find DX on channels other than his domestics will possibly find it difficult to pick them out when observing well over a Megahertz worth of potential DX at a time.

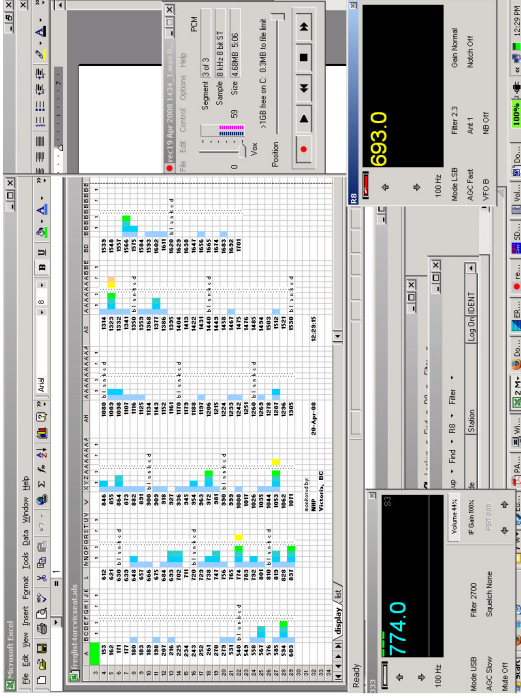

There seemed to me to be a potential for a successor to the "DX Radar" using one of the SDRs. As noted, no SDR at present will cover the entire medium wave band. However, the RFSpace SDR-14 was developed originally not just as a receiver but as a spectrum analyzer, and can display up to 30 MHz of RF at a time, even though it can only record and allow demodulation in a 190 kHz bandwidth. The "DX Radar" didn't need to demodulate signals, it only needed to display signal strengths, so the SDR-14 seemed to be a good possibility for what I ended up calling the "DX Fishbarrel" (explanation to follow, if it isn't already obvious). As a further point in its favor, RFSpace has made available much of the source code for the SDR-14 at no cost.

There followed several weeks, spread over 6 months, of puzzling, going up blind alleys, and butchering a fair bit of Visual C++ code, but eventually, a seable successor to "DX Radar" took shape.

Without further ado, here's what the output of this SDR-14 program (or combination of two programs, as is described later on) looked like at the beginning of an April sunrise enhancement from my Victoria listening post. As you can see, it shows relative signal strength for each channel using a multi-colored bar graph, covering all the way from the longwave broadcasters (if they're there), right up to 1701 kHz. The format is easy to read, and the display can update as rapidly as once every few seconds, as determined by the user. My experience is that signals that display past halfway on the bar graph (or "hotter" colored than green) will deliver some audio, while a full bar graph display will indicate perfectly readable audio. The blue colors represent signals that are only a carrier at that time.

If one has reasonable computer resources available, this pair of programs can be run along with other programs as well. I normally run Creative Express "Ergo 4" (<http://swidx.com/>) to control my Drake R8, while the trusty old Dymek DR333 is now used as a parallel receiver, also controlled by Ergo. In addition, audio is recorded on the PC from both receivers using RecAll-Pro (<http://www.sagebrush.com/recpro.htm>). Bruce Portzer's Pacific Asian Log is running in the background, as are my hunt lists to provide references as needed.

When an unusual channel starts showing a lot of color, it takes only a second to tune the R8 to that channel using Ergo, and if the DX goods are smiling, an ID can be obtained using parallels. Otherwise, the hard work begins, but the audio recorder is already in action, if I've remembered to start it. Hence the "DX Fishbarrel", with the implied reference being to firearms applied thereof. I've been submitting morning bandscans to the IRCA list along with other DXers such as Dennis Vroom and Bill Block, and I'm pretty sure that the quality of my submitted bandscans has been improving of late, because I'm grabbing signals that are only available for a few minutes at most during the sunrise enhancement, and that the normal manual bandscan would almost certainly have missed. This DXer is not so much scanning, as leaping about, or, perhaps, shooting at those DX fish in the barrel.

### How does it work?

As has been implied above, the "DX Fishbarrel" is composed of not just one, but two programs, and one of those you will probably recognize, from the screenshots above, as Microsoft Excel. The other program is, to be blunt, a bit of a hack, based on RFSpace's open source software. Perhaps if I can learn a bit more than the merest basics of Visual C++ Windows programming, something more elegant will be written in time, but meanwhile, this seems to be a reasonable proof of concept.

When one uses a software-defined radio, one usually can view a spectral display of the radio's receiving window, up to hundreds of kilohertz worth, depending on the SDR. The numbers represented on this display are computed via a piece of mathematics called a "Fast Fourier Transform" or FFT. Without going into detail, one can picture an FFT as being composed of a number of points, each of which represents the signal strength found at a small fraction of the total bandwidth being displayed, a single point, for example, could span the frequencies between 1691.975 and 1692.025 kHz. The SDR-14 program can deliver the signal strengths corresponding to each point of that FFT: these signal strengths are defined in decibels relative to a signal that would just overload the receiver.

Normally, the program produces a graphical display with the FFT points, but my version simply captures and processes the values, and has no display. It requests the SDR-14 to deliver 65536 points of an FFT, spread over a 3.3 MHz bandwidth, and centered on 1150 kHz, giving a resolution for each point of about 50 Hertz. As you can imagine, some of these points will correspond to the carriers of stations on 9 kHz channels. My program selects out the decibel value at each of those 9 kHz points, along with some others which provide a noise reference.

The resulting signal to noise ratio at each of the 9 kHz channels is averaged over a number of scans defined by the user, then each of those signal strengths is saved to a simple text file, and the program goes back to sampling more signals.

As you might know, MS Excel can read a text file, and in this case, it opens the signal strength file recently saved by the modified RFSpace program, copies the values found there, closes the file, then uses the numbers found in that file to graphically display the signal strengths on each channel. This is done through the application of what is called a "macro", which is a Visual Basic program generated by taking an Excel file and recording all the actions that you perform on that file; the macro then becomes part of the Excel file. I further modified the resulting Visual Basic program, so that when the macro is run from my Excel file, it repeatedly performs the actions described at the beginning of this paragraph, providing the display that you see above.

There is a lot of detail in both programs that isn't discussed here, in order to try to convey simply the basic workings of this method of reading an entire band's worth of target signal strengths. If you're interested in trying to get a system like this working yourself, then you need an SDR-14 (sorry, the SDR-14 won't work for this, and nor will any other SDR I know about), a copy of Excel, and a reasonably good computer running XP or Windows 2000: I have no experience yet with Vista. I'm happy to discuss details at either the postal or e-mail address on the masthead.

My CFFX-960 certificate is the second one I received for my reception of their DX Test. Its color scheme is very slightly different from the one I received previously from CE Roger Cole in January, and the one sent by Saul includes my name and reception location. Patrick's WLOL-1330 verification was the second one he received for the same report. This QSL card has more details than the folding card he received earlier. Also note that the second card is signed. I am very pleased with the verification of my reception of WHBC's recent DX test. Dale Lamm sent me an e-mail message verifying my reception very quickly and said he would send a QSL card by postal mail. In my report, I sent .jpg files of the front and back of the WHBC QSL card I had received for reception of a similar test 38 years ago! Dale said: "Your scanned QSL from 1970 is very cool! I never met John Schen (the verifier of your old card), but I see examples of his handwriting frequently. The postage stamp on the 1970 card [the purple 5-cent Amateur Radio stamp] is one of my favorites, too." A full-data postcard showing an old colorized drawing of WHBC's station offices and Dale's business card were then received 5 days later. This column was prepared on 4/28/08. 73, SSH.

**2007-2008 IRCA Unlucky 13 DX CONTEST**

**Manager: Nancy Johnson – 265 Waterton Wy – Billings, MT 59102-7755**

E-mail: [NancyJohnson@prodigy.net](mailto:NancyJohnson@prodigy.net)

April 15, 2008 update

Phil Bytheway	93	Nancy Johnson*	136	Dale Park	44
Greg Hall	302	Gary Kinsman	125	Dan Riordan	123
John C. Johnson	19	Tim Noonan	250	Mike Sanburn	12

\* Contest manager is not eligible to win.

We welcome Mike to the contest this month. The contest rules can be found online at the IRCA website, and also in the August 4, 2007 issue of DXM. Send me a note if you have any questions. Please, report to the appropriate editor any special loggings you hear while DXing for the contest! The contest runs until May 31, 2008.

The IRCA is a non-profit organization devoted to the hobby of hearing distant stations on the Broadcast Band (510-1720 kHz). **DX Monitor**, the official publication of the IRCA, is published in "soft" form 35 times a year (weekly from November through March, twice monthly from April to November) and in printed form 30 times a year (weekly November through March, monthly April to November). **DX Monitor** contains members' loggings, articles on radio stations, receiver reviews, technical articles, DX tips, and other material of interest to Broadcast Band DX hobbyists.
